the ultimate controlling person's knowledge and belief, identify the material risks within the insurance holding company system that could pose enterprise risk to the insurer. The report shall be filed with the lead state commissioner of the insurance holding company system as determined by the procedures within the financial analysis handbook adopted by the ~~national association of insurance commissioners~~ NAIC.

Sec. 5. Section 521A.4, Code 2022, is amended by adding the following new subsections:  
NEW SUBSECTION. 12A. Group capital calculation.

a. The ultimate controlling person of every insurer subject to registration shall concurrently file with the registration an annual group capital calculation. The calculation must be completed in accordance with the group capital calculation instructions, and must be filed with the lead state commissioner of the insurance holding company system as determined by the procedures in the most recent financial analysis handbook published by the NAIC. As permitted by the group capital calculation instructions, the lead state commissioner may allow a controlling person, other than the ultimate controlling person, to file the group capital calculation. The following insurance holding company systems are exempt from filing the group capital calculation:

(1) An insurance holding company system that has only one insurer within its holding company structure, that only writes business and is only licensed in its domestic state, and that assumes no business from any other insurer.

(2) An insurance holding company system that is required to perform a group capital calculation specified by the federal reserve board, if the board is able to share the calculation with the lead state commissioner pursuant to the terms of applicable information sharing agreements. The exemption shall not apply if the board does not share the calculation with the lead state commissioner.

(3) An insurance holding company system whose non-United States group-wide supervisor is located within a reciprocal jurisdiction that recognizes the United States' state regulatory approach to group supervision and group capital.

(4) An insurance holding company system that meets all of the following criteria:

(a) The system provides information to a lead state that meets the requirements for accreditation under the NAIC financial standards and accreditation program, either directly or indirectly through the group-wide supervisor who has determined such information is satisfactory to allow the lead state to comply with the group supervision approach as detailed in the most recent financial analysis handbook published by the NAIC.

(b) The system's non-United States' group-wide supervisor that is not in a reciprocal jurisdiction recognizes and accepts, as established by the commissioner by rule, the group capital calculation as the world-wide group capital assessment for United States' insurance groups that operate in that jurisdiction.

b. Notwithstanding paragraph "a", subparagraphs (3) and (4), a lead state commissioner, after any necessary consultation with appropriate supervisors or officials, shall require the United States' operations of any non-United States-based insurance holding company system to file a group capital calculation if the lead state commissioner deems it appropriate for prudential oversight and solvency monitoring purposes, or for ensuring the competitiveness of the insurance marketplace.

c. Notwithstanding paragraph "a", the lead state commissioner shall have the discretion to exempt the ultimate controlling person of an insurer subject to registration from the annual group capital calculation filing requirement, or to allow a limited group capital filing or report in accordance with criteria as established by the commissioner by rule.

d. If the lead state commissioner determines that an insurance holding company system no longer satisfies the criteria for exemption under paragraph "a", subparagraphs (1) through (4), the insurance holding company system shall file the group capital calculation at the next annual filing date, unless for reasonable grounds shown is granted an extension by the lead state commissioner.

NEW SUBSECTION. 12B. Liquidity stress test.

a. The ultimate controlling person of every insurer subject to registration, and that meets the scope criteria, shall file the results of a liquidity stress test for each data year that the insurer is subject to the liquidity stress test framework. The filing shall be made to the lead

state insurance commissioner of the insurance holding company system as determined by the procedures in the applicable financial analysis handbook published by the NAIC.

b. Any change to the NAIC liquidity stress test framework, or to the data year for which the scope criteria is to be measured, shall be effective on January 1 of the calendar year immediately following the calendar year that the change to the liquidity stress test framework or the data year is adopted by the NAIC.

c. An insurer that meets at least one threshold of the scope criteria shall be subject to the liquidity stress test framework for the specified data year unless the lead state insurance commissioner, in consultation with the NAIC financial stability task force or its successor, determines that the insurer shall be exempt from the liquidity stress test framework for that data year. An insurer that does not meet at least one threshold of the scope criteria for a specified data year may be subject to the liquidity stress test framework if the lead state insurance commissioner, in consultation with the NAIC financial stability task force or its successor, determines that the insurer shall be subject to the liquidity stress test framework for that data year.

d. The performance of, and filing of the results from, a specific year's liquidity stress test shall comply with all the following:
