4 intended as or shall imply a grant of entitlement for services
5 to persons who are eligible for assistance due to an income
6 level consistent with the waiting list requirements of section
7 237A.13. Any state obligation to provide services pursuant to
8 this section is limited to the extent of the funds appropriated
9 in this section.

3. Of the funds appropriated in this section, $432,453

If there is an unanticipated increase in federal funding provided for state child care assistance, the entire amount of the increase shall be used for state child care assistance payments. same limitation applies.

(5) To the extent the overall amount of assistance received by a recipient for the costs addressed under this subsection does not exceed the overall total of the costs, the recipient may receive other public or private assistance in addition to grant assistance under this section.

In addition, any aftercare services believed to be needed for the children whose placements may be terminated shall be identified. The department and juvenile court services shall initiate action to set dispositional review hearings for the placements identified. In such a dispositional review hearing, the juvenile court shall determine whether needed aftercare services are available and whether termination of the placement is in the best interest of the child and the community.

health, maintenance, independence, and quality of life of its
disabled residents, and that a vital and valid public purpose
is served by the creation and implementation of programs that
encourage and make possible savings to secure funding for
disability-related expenses on behalf of individuals with
disabilities that will supplement, but not supplant, other
benefits provided by various federal, state, and private
sources. The creation of the means of encouragement for citizens to invest in such a program represents the carrying out of a vital and valid public purpose. t treasurer of state. The rules shall determine residency in such manner as may be required or permitted under section 529A of the Internal Revenue Code, or, in the absence of any guidance under federal law, as the treasurer of state deems advisable for the purpose of satisfying the requirements of section 529A of the Internal Revenue Code.

b. The annual audit shall be made either by the auditor of state or by an independent certified public accountant designated by the auditor of state and shall include direct and indirect costs attributable to the use of outside consultants, independent contractors, and any other persons who are not state employees.

2. The annual audit shall be supplemented by all of the following information prepared by the treasurer of state:

1. The general assembly acknowledges that section 529A of the Internal Revenue Code permits access to qualified ABLE programs by residents of a state without such a program. The general assembly finds that becoming a contracting state may accomplish the public purpose set forth in section 12I.1, subsection 1, in the same manner as if the qualified ABLE program under the Iowa ABLE savings plan trust were to be implemented and administered by this state. To that end, the treasurer of state, as trustee of the trust, may defer implementation of the qualified ABLE program under the trust and alternatively cause this state to become a contracting state.
state by entering into an agreement with another state with a qualified ABLE program to provide Iowa residents access to that state’s qualified ABLE program. The trust shall not enter into an agreement pursuant to this section unless the treasurer, as trustee of the trust, determines that all of the following requirements are satisfied:

a. The program is a qualified ABLE program.

b. The qualified ABLE program provides comparable benefits and protections to Iowa residents as would be provided under the Iowa ABLE savings plan trust.

c. That entering into an agreement for access to the qualified ABLE program would not result in increased costs to the state or to account owners and designated beneficiaries as compared to the costs of implementing and administering the qualified ABLE program under the Iowa ABLE savings plan trust.

d. The qualified ABLE program will be audited annually by an independent certified public accountant or by the state auditor, or similar public official, of the state that has implemented the qualified ABLE program.

e. The qualified ABLE program will provide information to the treasurer of state as trustee of the trust so as to allow the trustee to fulfill the reporting requirements in section 12I.7.

2. a. The maximum amount that may be deducted per year for Iowa income tax purposes by an individual for contributions on behalf of any one designated beneficiary that is a resident of this state to the qualified ABLE program with which the state has contracted pursuant to this section shall not exceed the maximum deductible amount determined for the year pursuant to section 12D.3, subsection 1, paragraph "a".

34 of administrative services. The funds allocated in this
35 subsection shall not be used as nonfederal share matching
23. a. For inpatient and outpatient services provided by hospitals on or after July 1, 2016, the department of human services shall continue to recalculate and prospectively apply an updated cost-to-charge ratio upon the request of a hospital to implement price or charge reductions, if all of the following criteria are met:

2. The hospital requesting the price or charge reduction submits a proforma cost report and charge master that reflects the anticipated cost-to-charge reduction.

b. Based upon the proforma cost report submitted by the requesting hospital, the department of human services shall prospectively apply the recalculated cost-to-charge ratio as appropriate to submitted claims for health care services.

For the state supplementary assistance program: $ 6,498,594

2. The department shall increase the personal needs allowance for residents of residential care facilities by the same percentage and at the same time as federal supplemental security income and federal social security benefits are
increased due to a recognized increase in the cost of living. The department may adopt emergency rules to implement this subsection.

3. If during the fiscal year beginning July 1, 2016, the department projects that state supplementary assistance expenditures for a calendar year will not meet the federal pass-through requirement specified in Tit. XVI of the federal Social Security Act, section 1618, as codified in 42 U.S.C. §1382g, the department may take actions including but not limited to increasing the personal needs allowance for residential care facility residents and making programmatic adjustments or upward adjustments of the residential care facility or in-home health-related care reimbursement rates prescribed in this division of this Act to ensure that federal requirements are met. In addition, the department may make other programmatic and rate adjustments necessary to remain within the amount appropriated in this section while ensuring compliance with federal requirements. The department may adopt emergency rules to implement the provisions of this subsection.

2. Of the funds appropriated in this section, $21,400 is allocated for continuation of the contract for outreach with the department of public health.

Sec. 132. CHILD CARE ASSISTANCE. There is appropriated
from the general fund of the state to the department of human
services for the fiscal year beginning July 1, 2016, and ending
June 30, 2017, the following amount, or so much thereof as is
necessary, to be used for the purpose designated:

For child care programs:

$ 28,319,015

1. Of the funds appropriated in this section, $24,409,301
shall be used for state child care assistance in accordance
with section 237A.13.

2. Nothing in this section shall be construed or is
intended as or shall imply a grant of entitlement for services
to persons who are eligible for assistance due to an income
level consistent with the waiting list requirements of section
237A.13. Any state obligation to provide services pursuant to
this section is limited to the extent of the funds appropriated
in this section.

3. Of the funds appropriated in this section, $216,227
is allocated for the statewide grant program for child care
resource and referral services under section 237A.26. A list
of the registered and licensed child care facilities operating
in the area served by a child care resource and referral
service shall be made available to the families receiving state
child care assistance in that area.

4. Of the funds appropriated in this section, $468,487
is allocated for child care quality improvement initiatives
including but not limited to the voluntary quality rating
system in accordance with section 237A.30.

5. Of the funds appropriated in this section, $3,175,000
shall be credited to the early childhood programs grants
account in the early childhood Iowa fund created in section
256I.11. The moneys shall be distributed for funding of
community-based early childhood programs targeted to children
from birth through five years of age developed by early
childhood Iowa areas in accordance with approved community
plans as provided in section 256I.8.
6. The department may use any of the funds appropriated in this section as a match to obtain federal funds for use in expanding child care assistance and related programs. For the purpose of expenditures of state and federal child care funding, funds shall be considered obligated at the time expenditures are projected or are allocated to the department's service areas. Projections shall be based on current and projected caseload growth, current and projected provider rates, staffing requirements for eligibility determination and management of program requirements including data systems management, staffing requirements for administration of the program, contractual and grant obligations and any transfers to other state agencies, and obligations for decategorization or innovation projects.

7. A portion of the state match for the federal child care and development block grant shall be provided as necessary to meet federal matching funds requirements through the state general fund appropriation made for child development grants and other programs for at-risk children in section 279.51.

8. If a uniform reduction ordered by the governor under section 8.31 or other operation of law, transfer, or federal funding reduction reduces the appropriation made in this section for the fiscal year, the percentage reduction in the amount paid out to or on behalf of the families participating in the state child care assistance program shall be equal to or less than the percentage reduction made for any other purpose payable from the appropriation made in this section and the federal funding relating to it. The percentage reduction to the other allocations made in this section shall be the same as the uniform reduction ordered by the governor or the percentage change of the federal funding reduction, as applicable. If there is an unanticipated increase in federal funding provided for state child care assistance, the entire amount of the increase shall be used for state child care assistance payments. If the appropriations made for purposes of the
state child care assistance program for the fiscal year are
determined to be insufficient, it is the intent of the general
assembly to appropriate sufficient funding for the fiscal year
in order to avoid establishment of waiting list requirements.

9. Notwithstanding section 8.33, moneys advanced for
purposes of the programs developed by early childhood Iowa
areas, advanced for purposes of wraparound child care, or
received from the federal appropriations made for the purposes
of this section that remain unencumbered or unobligated at the
close of the fiscal year shall not revert to any fund but shall
remain available for expenditure for the purposes designated
until the close of the succeeding fiscal year.

10. Of the funds appropriated in this section, $50,000
is transferred to the department of public health to be used
to continue a program to assist parents in this state with
costs resulting from the death of a child in accordance with
this subsection. If it is less costly than administering the
program directly, the department shall issue a request for
proposals and issue a grant to an appropriate organization to
administer the program.

a. The program funding shall be used to assist parents who
reside in this state with costs incurred for a funeral, burial
or cremation, cemetery costs, or grave marker costs associated
with the unintended death of a child of the parent or a child

shall consider the following eligibility factors in developing
program requirements:

(1) The child was a stillborn infant or was less than age
eighteen at the time of death.

board or department of health or the county general assistance
director and may have been referred by a local funeral home.

have an annual household income that is less than 145 percent
of the federal poverty level based on the number of people
1 in the applicant's household as defined by the most recently
2 revised poverty income guidelines published by the United
3 States department of health and human services.
4 (4) The maximum amount of grant assistance provided to a
5 parent, guardian, or custodian associated with the death of
6 a child is $2,000. If the death is a multiple death and the
7 infants or children are being cremated, or buried together, the
8 same limitation applies.
9 (5) To the extent the overall amount of assistance received
10 by a recipient for the costs addressed under this subsection
11 does not exceed the overall total of the costs, the recipient
12 may receive other public or private assistance in addition to
13 grant assistance under this section.
14 b. Notwithstanding section 8.33, moneys transferred by this
15 subsection that remain unencumbered or unobligated at the close
16 of the fiscal year shall not revert but shall remain available
17 for expenditure for the purposes designated until expended.

The department may transfer funds appropriated in this section to the appropriations made in this division of this Act for general administration and for field operations for resources necessary to implement and operate the services funded in this section.

4. a. Of the funds appropriated in this section, up to $17,910,893 is allocated as the statewide expenditure target under section 232.143 for group foster care maintenance and services. 1 or the child welfare emergency services addressed with the
2 allocation for shelter care.
3 b. If at any time after September 30, 2016, annualization
4 of a service area's current expenditures indicates a service
5 area is at risk of exceeding its group foster care expenditure
6 target under section 232.143 by more than 5 percent, the
7 department and juvenile court services shall examine all
8 group foster care placements in that service area in order to
9 identify those which might be appropriate for termination.
10 In addition, any aftercare services believed to be needed
11 for the children whose placements may be terminated shall be
12 identified. The department and juvenile court services shall
13 initiate action to set dispositional review hearings for the
14 placements identified. In such a dispositional review hearing,
15 the juvenile court shall determine whether needed aftercare
16 services are available and whether termination of the placement
17 is in the best interest of the child and the community.
18 5. In accordance with the provisions of section 232.188,

20 justice funding initiative during fiscal year 2016-2017. Of

23 the decategorization services funding pools and governance
24 boards established pursuant to section 232.188.
25 6. A portion of the funds appropriated in this section
26 may be used for emergency family assistance to provide other
27 resources required for a family participating in a family
28 preservation or reunification project or successor project to
29 stay together or to be reunified.
30 7. Notwithstanding section 234.35 or any other provision
31 of law to the contrary, state funding for shelter care and

29 of law to the contrary, the amounts allocated in this
30 subsection shall be distributed to the judicial districts
31 as determined by the state court administrator and to the
32 department’s service areas as determined by the administrator
33 of the department of human services’ division of child and
34 family services. The state court administrator and the

distribution amounts on or before June 15, 2016.

d. Notwithstanding chapter 232 or any other provision of law to the contrary, a district or juvenile court shall not order any service which is a charge upon the state pursuant to section 232.141 if there are insufficient court-ordered services funds available in the district court or departmental service area distribution amounts to pay for the service. The chief juvenile court officer and the departmental service area manager shall encourage use of the funds allocated in this subsection such that there are sufficient funds to pay for all court-related services during the entire year. The chief juvenile court officers and departmental service area managers shall attempt to anticipate potential surpluses and shortfalls in the distribution amounts and shall cooperatively request the state court administrator or division administrator to transfer funds between the judicial districts’ or departmental service areas’ distribution amounts as prudent.

e. Notwithstanding any provision of law to the contrary, a district or juvenile court shall not order a county to pay for any service provided to a juvenile pursuant to an order entered under chapter 232 which is a charge upon the state under section 232.141, subsection 4.
