2. The commission shall establish guidelines and procedures for application and acceptance to the program. Guidelines established shall be based on a person's financial need, the person's inability to attend college without acceptance into the program, or the likelihood that the person would incur heavy debt repayment obligations if the person attended college, given the person's anticipated financial assistance alternatives.
3. Program volunteers shall receive stipends equivalent to seven hundred dollars per month for each month of work completed under the program. The state shall contribute five hundred dollars per month and the employer shall either

The commission shall issue the student a voucher equal in value to the amount of the refund received by the trust fund. The commission shall redeem the value of each voucher from the employer contributions for that student, in accordance with the proportion that the voucher is to total number of vouchers earned by the student, and from the Iowa work for college funds which are appropriated by the general assembly and deposited into the trust fund under section 261.90.

## MINORITY ACADEMIC GRANTS FOR ECONOMIC SUCCESS

**261.101 Legislative intent.**

The general assembly finds that the failure of many young Iowans to complete their education limits their opportunity for a life of fulfillment and hinders the state's efforts to provide a well-trained work force for business and industry in Iowa. Therefore, the "*Iowa Minority Academic Grants for Economic Success*" program is established to provide additional funding to the state board of regents' institutions and accredited private institutions in order to encourage resident minority students to remain in Iowa, to attend colleges and universities in Iowa, and to assure that a limited family income will not be a barrier for a minority person to pursue a postsecondary education.

#### REGENTS' MINORITY AND WOMEN EDUCATORS ENHANCEMENT

### **262.81 Legislative intent.**

The general assembly recognizes that educational programs designed to enhance the interrelation and cooperation among cultural, racial, and ethnic groups in society require the contribution and active participation of all ethnic and racial groups. The general assembly also recognizes that failure to include minority representation at the faculty level at the state universities contributes to cultural, racial, and ethnic isolation of minority students and does not reflect the realities of a multicultural and diverse society. Therefore, the "*Regents' Minority and Women Educators Enhancement*" program is established to assist in the recruitment and retention of faculty that more adequately represents the diverse cultural, racial, and ethnic makeup of society and to improve the education of all students.

#### COLLEGE-BOUND PROGRAM

### **262.91 Legislative intent.**

The general assembly recognizes that universities must provide an environment that enables all students to have an equal opportunity to succeed. The general assembly also recognizes that, because of inequalities in educational preparation,

economic factors, and social circumstances, not all young Iowans have the same degree of access to Iowa's higher education system. The general assembly further acknowledges that an early intervention system using public school districts, community agencies, and other state institutions can be useful in preparing young students to succeed in college. Therefore, the "College-bound" program is established to ensure that the state's universities and students' local communities become involved early in a student's life by promoting and informing students about the opportunities in higher education, so that lack of adequate personal resources is not a barrier to attending college for young Iowans.

### **262.92 College-bound program.**

1. The board of regents shall establish or contract to establish college-bound programs to provide Iowa minority students with information and experiences relating to opportunities offered at the regents' universities. Programs developed may include, but are not limited to, the following elements:

Vouchers issued by a university under this program shall be signed by the president of the university.

1. A petition describing the boundaries, or accurately describing the area included therein by legal descriptions, of the proposed district, which boundaries or area described shall conform to plans developed or the petition shall request change of the plan, shall be filed with the area education agency administrator of the area education agency in which the greatest number of qualified electors reside. However, the area education agency administrator shall not accept a petition if any of the school districts affected have approved the issuance of general obligation bonds at an election pursuant to section 296.6 during the preceding six-month period. The petition shall be signed by qualified electors in each existing school district or portion affected equal in number to at least twenty percent of the number of qualified electors or four hundred qualified electors, whichever is the smaller number.

2. The petition filed under subsection 1 shall also state the name of the proposed school district and the number of directors which may be either five or seven and the method of election of the school directors of the proposed district. The method of election of the directors shall be one of the following optional plans:

a. Election at large from the entire district by the electors of the entire district.

b. Division of the entire school district into designated geographical single director or multi-director subdistricts on the basis of population for each director, to be known as director districts, each of which director districts shall be represented on the school board by one or more directors who shall be residents of the director district but who shall be elected by the vote of the electors of the entire school district. The boundaries of the director districts and the area and population included within each district shall be such as justice, equity, and the interests of the people may require. Changes in the boundaries of director districts shall not be made during a period commencing sixty days prior to the date of the annual school election. Insofar as may be practicable, the boundaries of the districts shall follow established political or natural geographical divisions.

c. Election of not more than one-half of the total number of school directors at large from the entire district and the remaining directors from and as residents of designated single-member or multi-member director districts into which the entire school district shall be divided on the basis of population for each director. In such case, all directors shall be elected by the electors of the entire school district. Changes in the boundaries of director districts shall not be made during a period commencing sixty days prior to the date of the annual school election.

d. Division of the entire school district into designated geographical single director or multi-director subdistricts on the basis of population for each director, to be known as director districts, each of which director districts shall be represented on the school board by one or more directors who shall be residents of the director district and who shall be elected by the voters of the director district. Place of voting in the director districts shall be designated by the commissioner of elections. Changes in the boundaries of director districts shall not be made during a period commencing sixty days prior to the date of the annual school election.

e. In districts having seven directors, election of three directors at large by the electors of the entire district, one at each annual school election, and election of the remaining directors as residents of and by the electors of individual geographic subdistricts established on the basis of population and identified as director districts. Boundaries of the subdistricts shall follow precinct boundaries, insofar as practicable, and shall not be changed less than sixty days prior to the annual school election.

3. If the petition proposes the division of the school district into director districts, the boundaries of such proposed director districts shall be described in the petition.

4. The area education agency board in reviewing the petition as provided in sections 275.15 and 275.16 shall review the proposed method of election of school directors and may change or amend the plan in any manner, including the changing of boundaries of director districts if proposed, or to specify a different method of electing school directors as may be required by law, justice, equity, and the interest of the people. In the action, the area education agency board shall follow the same procedure as is required by sections 275.15 and 275.16 for other action on the petition by the area education agency board.

5. The petition may also include a provision that the voter-approved physical plant and equipment levy provided in section 298.2, will be voted upon at the election conducted under section 275.18.

The voters shall vote separately in each existing school district affected and voters residing in the entire existing district are eligible to vote upon the proposition to create a new school corporation and the proposition to levy the voter-approved physical plant and equipment levy under section 298.2, if the petition included a provision for a vote to authorize the levy. If a proposition receives a majority of the votes cast in each of at least seventy-five percent of the districts, and also a majority of the total number of votes cast in all of the districts, the proposition is carried.

1. School districts which have directors who represent director districts as provided in section 275.12, subsection 2, paragraphs *b* through *e*, shall be divided into director districts on the basis of population as determined from the most recent federal decennial census. The director districts shall be as nearly equal as practicable to the ideal population for the districts as determined by dividing the number of director districts to be established into the population of the school district. The director districts shall be composed of contiguous territory as compact as practicable.

2. If following a federal decennial census a school district fails to meet population equality requirements, the board of directors of the school district shall adopt a resolution redrawing the director districts not earlier than November 15 of the year immediately following the year in which the federal decennial census is taken nor later than May 30 of the second year immediately following the year in which the federal decennial census is taken. A copy of the adopted plan shall be filed with the area education agency administrator of the area education agency in which the school's electors reside.

3. The school board shall notify the state commissioner of elections and the county commissioner of elections of each county in which a portion of the school district is located whenever the boundaries of director districts are changed. The board shall provide the commissioners with maps showing the new boundaries. If, following a federal decennial census a school district elects not to redraw director districts under this section, the school board shall so certify to the state commissioner of elections, and the school board shall also certify to the state commissioner the populations of the retained director districts as determined

under the latest federal decennial census. Upon failure of a district board to make the required changes by the dates established under this section as determined by the state commissioner of elections, the state commissioner of elections shall make or cause to be made the necessary changes as soon as possible, and shall assess any expenses incurred to the school district. The state commissioner of elections may request the services of personnel of and materials available to the legislative service bureau to assist the state commissioner in making any required boundary changes.

4. If more than one incumbent director, whose term extends beyond the organizational meeting of the board of directors after the regular school election following the adoption of the redrawn districts, reside in a redrawn director district, the terms of office of the affected directors expire at the organizational meeting of the board of directors following the next regular school election.

5. The boundary changes under this section take effect July 1 following their adoption for the next regular school election.

6. Section 275.9 and sections 275.14 through 275.23 do not apply to changes in director district boundaries made under this section.

### **275.56 Increasing enrollment.**

If the enrollment of a school district increases or is expected to increase because an adjacent district has dissolved or is expected to dissolve, the board of directors of the school district shall determine whether there is a need to hire additional licensed or unlicensed employees. If the board of directors determines that there is a need to hire additional employees, the board shall determine the nature and number of the necessary new positions. Individuals who were employees of the dissolved district may apply for the new positions. The board shall hire those applicants who were employees of the dissolved district whenever the applicant is licensed for the new position or, in the case of unlicensed personnel, is otherwise qualified. If two employees of the dissolved district apply for a single licensed position, the applicant who is best qualified in the opinion of the board shall be hired. The board is not required to hire applicants who were employees of the dissolved district if the district has been dissolved for one or more school years. Applicants who are re-employed under this section shall maintain in the re-employing district vacation, salary or alternatively placement on a salary schedule based on the employee's years of experience, sick leave, and completion of probationary status as defined by section 279.19.

A licensed employee of a school district which reorganizes or dissolves under this chapter during the period beginning July 1, 1990, and ending June 30, 1992, is eligible to receive a retirement incentive as provided in this section. The retirement incentive is in addition to any retirement incentive provided by the board of directors of a school district under section 279.46. The licensed employee shall be between fifty-nine and sixty-five years of age at the time the reorganization or dissolution occurs. If the licensed employee is less than sixty-five years of age when the licensed employee terminates employment, the licensed employee is eligible to receive a retirement bonus which is a lump sum payment equal to ten percent of the final annual salary of the employee, not to exceed five thousand dollars. The board of directors of the school district shall notify the department of management of the names of employees eligible for payments under this section and shall submit other verification of employment required by the department of management. For the purposes of this section, "licensed employee" means an

administrator or teacher who possesses a license issued under chapter 260 and at the time of retirement is employed on a full-time basis by one or more school districts. The governor shall authorize payment from the salary adjustment fund for the retirement bonuses paid under this section. 1. Contracts with teachers, which for the purpose of this section means all licensed employees of a school district and nurses employed by the board, excluding superintendents, assistant superintendents, principals, and assistant principals, shall be in writing and shall state the number of contract days, the annual compensation to be paid, and any other matters as may be mutually agreed upon. The contract may include employment for a term not exceeding the ensuing school year, except as otherwise authorized.

The contract is invalid if the teacher is under contract with another board of directors to teach during the same time period until a release from the other contract is achieved. The contract shall be signed by the president of the board when tendered, and after it is signed by the teacher, the contract shall be filed with the secretary of the board before the teacher enters into performance under the contract.

### **279.19A Extracurricular contracts.**

extracurricular contract offered under this section shall be separate from the contract issued under section 279.13. Wages for employees who coach these sports shall be paid pursuant to established or negotiated supplemental pay schedules. An extracurricular contract shall be in writing, and shall state the number of contract days for that sport, the annual compensation to be paid, and any other matters as may be mutually agreed upon. The contract shall be for a single school year.

2. An extracurricular contract shall be continued automatically in force and effect for equivalent periods, except as modified or terminated by mutual agreement of the board of directors and the employee, or terminated in accordance with this section. An extracurricular contract shall initially be offered by the employing board to an individual on the same date that contracts are offered to teachers under section 279.13. An extracurricular contract may be terminated at the end of a school year pursuant to sections 279.15 through 279.19. If the school district offers an extracurricular contract for a sport for the subsequent school year to an employee who is currently performing under an extracurricular contract for that sport, and the employee does not wish to accept the extracurricular contract for the subsequent year, the employee may resign from the extracurricular contract within twenty-one days after it has been received.

Section 279.13, subsection 3, applies to this section.

3. The board of directors of a school district may require an employee who has resigned from an extracurricular contract to accept, as a condition of employment under section 279.13, the extracurricular contract for the subsequent school year if all of the following conditions apply:

a. The employee has accepted a teaching contract issued by the board pursuant to section 279.13 for the subsequent school year.

b. The board of directors has made a good faith effort to fill the coaching position with a licensed or authorized replacement.

c. The position has not been filled by June 1 of the year in which the employee resigned the extracurricular contract.

4. As a condition of employment under section 279.13, the board of directors of a school district may require an employee who has been issued a teaching contract pursuant to section 279.13 to accept an extracurricular contract for which the employee is licensed, or may require as a condition of employment that an applicant for a teaching contract under section 279.13 accept an extracurricular contract if all of the following conditions apply:

a. The individual who held the coaching position during the year has not been issued a teaching contract by the board pursuant to section 279.13 for the subsequent school year, or has been terminated from the extracurricular contract.

b. The board of directors has made a good faith effort to fill the coaching position with a licensed or authorized replacement.

c. The position has not been filled by June 1 of the year in which the vacancy occurred for the interscholastic athletic sport.

5. Within seven days following June 1 of that year, the board shall notify the employee in writing if the board intends to require the employee to accept an extracurricular contract for the subsequent school year under subsection 3 or 4. If the employee believes that the board did not make a good faith effort to fill the position the employee may appeal the decision by notifying the board in writing within ten days after receiving the notification.

The appeal shall state why the employee believes that the board did not make a good faith effort to fill the position. If the parties are unable to informally resolve the dispute, the parties shall attempt to agree upon an alternative means of resolving the dispute.

If the dispute is not resolved by mutual agreement, either party may appeal to the district court.

6. Subsections 3, 4, and 5 do not apply if the terms of a collective bargaining agreement provide otherwise.

7. An extracurricular contract may be terminated prior to the expiration of that contract pursuant to section 279.27.

8. A termination proceeding of an extracurricular contract either by the board pursuant to subsection 2 or pursuant to section 279.27 does not affect a contract issued pursuant to section 279.13.

A termination of a contract entered into pursuant to section 279.13, or a resignation from that contract by the teacher, constitutes an automatic termination or resignation of the extracurricular contract in effect between the same teacher and the employing school board.

9. For the purposes of this section, "good faith effort" includes advertising for the position in an appropriate publication, interviewing applicants, and giving serious consideration to those licensed or authorized, and otherwise qualified, applicants who apply.

### **279.51 Programs for at-risk children.**

1. There is appropriated from the general fund of the state to the department of education for the fiscal year beginning July 1, 1990, the sum of eight million seven hundred thousand dollars. For the fiscal year beginning July 1, 1991, and each succeeding fiscal year, there is appropriated the sum of eleven million two hundred thousand dollars plus an additional amount equal to the state percent of growth as calculated in section 257.8 multiplied by the amount appropriated the previous fiscal year.

The moneys shall be allocated as follows:

a. Two hundred seventy-five thousand dollars of the funds appropriated shall be allocated to the area education agencies to assist school districts in developing program plans and budgets under this section and to assist school districts in meeting other responsibilities in early childhood education.

b. For the fiscal year beginning July 1, 1990, four million six hundred twenty-five thousand dollars, and for each fiscal year thereafter, six million one hundred twenty-five thousand dollars of the funds appropriated shall be allocated to the child development coordinating council established in chapter 256A for the purposes set out in subsection 2 of this section and section 256A.3.

c. For each of the fiscal years during the fiscal period beginning July 1, 1990, and ending June 30, 1994, eight hundred thousand dollars of the funds appropriated shall be allocated for the school-based youth services education program established in subsection 3. Subject to the approval of the state board of education, the allocation made in this paragraph may be renewed for additional four-year periods of time.

d. For the fiscal year beginning July 1, 1990, three million dollars, and for each fiscal year thereafter, four million dollars of the funds appropriated shall be allocated as grants to school districts that have elementary schools that demonstrate the greatest need for programs for at-risk students with preference given to innovative programs for the early elementary school years.

e. Additional funds available under this subsection as a result of additional growth provided to the appropriation in subsection 1 shall be distributed equally between paragraphs "b" and "d".

f. Not later than January 15, 1991, the department of education shall submit a report to the general assembly listing the moneys allocated under each of the paragraphs of this section and anticipated funding needed for the remainder of the fiscal year for each of those paragraphs. If the moneys appropriated under this section are insufficient to fund the grants under paragraphs "b" and "d", the department of education shall certify that information in the report and it is the intent of the general assembly that moneys shall be appropriated for the fiscal year beginning July 1, 1990, to supplement the appropriation in this section in an amount sufficient to fund grants under paragraphs "b" and "d", but not greater than two million five hundred thousand dollars.

2. Funds allocated under subsection 1, paragraph "b", shall be used by the child development coordinating council for the following:

a. To continue funding for programs previously funded by grants awarded under section 256A.3 and to provide additional grants under section 256A.3. The council shall seek to provide grants on the basis of the location within the state of children meeting at-risk definitions.

b. At the discretion of the child development coordinating council, award grants for the following:

(1) To school districts to establish programs for three-year, four-year, and five-year old at-risk children which are a combination of preschool and full-day kindergarten.

(2) To provide grants to provide educational support services to parents of at-risk children age birth through three years.

3. A school-based youth services education program is established. The department of education, in consultation with the department of human services, the department of employment services, the Iowa department of public health, and the division of job training and entrepreneurship assistance of the department of economic development, shall develop a four-year demonstration grant program that commences in the fiscal year beginning July 1, 1990. The department shall provide grants to individual middle schools or high schools to establish school-based youth services programs based upon program plans filed by the board of directors of the school district. Priority shall be given to schools with student populations characterized by high rates of a number of the following: school dropout and absenteeism; teenage pregnancy; juvenile court involvement; unemployment; teenage suicide; and teenage mental health, substance abuse, and other health problems. The department shall evaluate proposed programs based upon the department's analysis of effectiveness in reducing these rates within the schools.

Additional objectives of the programs shall be: to increase the ability of existing agencies within the community to address the multiple problems of teenagers and to coordinate their activities, to provide an accessible and attractive center for teenagers in or near school that they are most likely to use, and to facilitate joint planning to make the most economic and innovative use of community resources. Programs shall at a minimum provide job training and employment services, mental health and family counseling services, and primary health care services that include but are not limited to physical examinations, immunizations, hearing and vision screening, and preventive and primary health care services, in the context of the educational needs of the students. Programs shall not include abortion counseling or the dispensing of contraceptives. The department shall give additional consideration to program proposals that provide access to the center after school, in the evening and on weekends, and during the summer; that provide a twenty-four hour telephone hotline or similar service; and that provide access to day care or on-site day care.

The plan shall include the appointment by the board of a local advisory board for each proposed program, which at a minimum shall include a representative of the private industry council serving the area, parents of children enrolled in the school, a teacher recommended by the local teachers association, a representative from the health and mental health community in the area, teenagers enrolled in the school and recommended by the school student government, a representative from the nonprofit provider community, and a representative from the juvenile court system serving the area. Management of the program shall be by the school or by a nonprofit youth service organization. As used in this subsection, "youth service" means recreational services, employment services, civic services, or juvenile treatment services.

Program proposals shall include a written commitment from the school principal and the board of directors that the school will work to coordinate and integrate existing school services and activities with the center and shall include letters of support for the proposal from the local teachers association; parent-teacher organizations; community organizations; nonprofit agencies providing social services, health, or employment services in the area; and the area private industry council.

Grants for the program shall not be used to construct a new facility, but up to ten percent of the grant may be used to renovate an existing structure. In addition, up to ten percent of the grant funds may be used to provide each of the following service categories: day care, transportation, and recreation.

Program proposals shall include a contribution of at least twenty percent of the total costs of the program, which can include "in-kind" services. Partnerships between the public and private sectors to provide employment and training opportunities for youth served by the program are particularly encouraged. The budget for a proposed program shall not exceed two hundred thousand dollars per year.

4. The department shall seek assistance from the first in the nation in education foundation established in chapter 257A and other foundations and public and private agencies in the evaluation of the programs funded under this section, and in the provision of support to school districts in developing and implementing the programs funded under this section.

5. The state board of education shall adopt rules under chapter 17A for the administration of this section.

## CHAPTER 280

### UNIFORM SCHOOL REQUIREMENTS

#### **280.3 Duties of board.**

The board of directors of each public school district and the authorities in charge of each nonpublic school shall prescribe the minimum educational program for the schools under their jurisdictions. The minimum educational program shall be the curriculum set forth in section 256.11, except as otherwise provided by law. The board of directors of a public school district shall not allow discrimination in any educational program on the basis of race, color, creed, sex, marital status or place of national origin.

A nonpublic school which is unable to meet the minimum educational program may request an exemption from the state board of education. The authorities in charge of the nonpublic school shall file with the director of the department of education the names and locations of all schools desiring to be exempted and the names, ages, and post office addresses of all pupils of compulsory school age who are enrolled. The director, subject to the approval of the state board, may exempt the nonpublic school from compliance with the minimum educational program for two school years. When the exemption has once been granted, renewal of the exemption for each succeeding school year may be conditioned by the director, with the approval of the board, upon proof of achievement in the basic skills of arithmetic, the communicative arts of reading, writing, grammar, and spelling, and an understanding of United States history, history of Iowa, and the principles

of American government, of the pupils of compulsory school age exempted in the preceding year. Proof of achievement shall be determined on the basis of tests or other means of evaluation prescribed by the director of the department of education with the approval of the state board of education. The testing or evaluation, if required, shall be accomplished prior to submission of the request for renewal of the exemption. Renewal requests shall be filed with the director by April 15 of the school year preceding the school year for which the applicants desire exemption. This section shall not apply to schools eligible for exemption under section 299.24.

The board of directors of each public school district and the authorities in charge of each nonpublic school shall establish and maintain attendance centers based upon the needs of the school age pupils enrolled in the school district or nonpublic school. Public school kindergarten programs shall and public and nonpublic school prekindergarten programs may be provided. In addition, the board of directors or governing authority may include in the educational program of any school such additional courses, subjects, or activities which it deems fit the needs of the pupils.

Unnumbered paragraph 3 (last paragraph) amended

#### **280.4 Medium of instruction—special instruction.**

The medium of instruction in all secular subjects taught in both public and nonpublic schools shall be the English language, except when the use of a foreign language is deemed appropriate in the teaching of any subject or when the student is non-English-speaking. When the student is non-English-speaking, both public and nonpublic schools shall provide special instruction, which shall include but need not be limited to either instruction in the English language or a transitional bilingual program, until the student demonstrates a functional ability to speak, write, read and understand the English language. As used in this section, "non-English-speaking student" means a student whose native language is not English and whose inability or limited ability to speak, write or read English significantly impedes educational progress.

1. The board of directors of a school district may submit an application to the school budget review committee for funds provided by 1982 Iowa Acts, chapter 1260, section 47, for instruction in the English language, a transitional bilingual, or other special instruction program when support for the program from other federal, state or local sources is not available or is inadequate. The department of education shall review all applications for funding and provide recommendations to the school budget review committee regarding their disposition. The school budget review committee shall not grant funds to a public school for instruction in the English language, a transitional bilingual or other special instruction program unless the program offered by the public school is available to nonpublic school students in the district.

2. The department of education shall promulgate rules relating to the identification of non-English-speaking students who require special instruction under this section and to application procedures for funds available under this section.

3. Grants made to a school pursuant to this section shall not exceed four hundred dollars for each student in the program. A public school may receive funds for nonpublic school students attending the program offered by the public school. However, the amount granted for each nonpublic school student in a program shall not exceed the amount granted for each public school student in the program.

4. In order to provide funds for the excess costs of instruction of non-English-speaking students above the costs of instruction of pupils in a regular curriculum, students identified as non-English-speaking are assigned an additional weighting that shall be included in the weighted enrollment of the school district of

residence for a period not exceeding three years. However, the school budget review committee may grant supplemental aid or modified allowable growth, to a school district to continue funding a program for students after the expiration of the three-year period. The school budget review committee shall calculate the additional amount for the weighting to the nearest one-hundredth of one so that, to the extent possible, the moneys generated by the weighting will be equivalent to the moneys generated by the two-tenths weighting provided prior to July 1, 1991.

For purposes of this section, "*corporal punishment*" means the intentional physical punishment of a student. An employee's physical contact with the body of a student is justified if it is reasonable and necessary under the circumstances and is not designed or intended to cause pain or if the employee uses reasonable force, as defined under section 704.1, for the protection of the employee, the student, or other students; to obtain the possession of a weapon or other dangerous object within a student's control; or for the protection of property.

  - b. Materials which are libelous or slanderous under chapter 659.
  - c. Materials which encourage students to do any of the following:
    - (1) Commit unlawful acts.
    - (2) Violate lawful school regulations.
    - (3) Cause the material and substantial disruption of the orderly operation of the school.
3. There shall be no prior restraint of material prepared for official school publications except when the material violates this section.
4. Each board of directors of a public school shall adopt rules in the form of a written publications code, which shall include reasonable provisions for the time, place, and manner of conducting such activities within its jurisdiction. The board shall make the code available to the students and their parents.
5. Student editors of official school publications shall assign and edit the news, editorial, and feature content of their publications subject to the limitations of this section. and then only to the extent of the interference or alteration of the speech or expression.

7. "Official school publications" means material produced by students in the journalism, newspaper, yearbook, or writing classes and distributed to the student body either free or for a fee.

Signers of the petition, in addition to signing their names, shall show their

residence, including street and number if any, the school district in which they reside, and the date they signed the petition. A person may sign nomination petitions for more than one candidate for the same office, and the signature is not invalid solely because the person signed nomination petitions for one or more other candidates for the office. ## CHAPTER 281

### EDUCATION OF CHILDREN REQUIRING SPECIAL EDUCATION

#### 281.2 Definitions—policies—funds.

1. "*Children requiring special education*" means persons under twenty-one years of age, including children under five years of age, who are handicapped in obtaining an education because of physical, mental, communication or learning disabilities or who are behaviorally disordered, as defined by the rules of the department of education.

2. "*Special education*" means classroom, home, hospital, institutional, or other instruction designed to meet the needs of children requiring special education as defined in subsection 1; transportation and corrective and supporting services required to assist children requiring special education, as defined in subsection 1, in taking advantage of, or responding to, educational programs and opportunities, as defined by rules of the state board of education.

3. It is the policy of this state to require school districts and state operated educational programs to provide or make provision, as an integral part of public

education, for a free and appropriate public education sufficient to meet the needs of all children requiring special education. This chapter is not to be construed as encouraging separate facilities or segregated programs designed to meet the needs of children requiring special education when the children can benefit from all or part of the education program as offered by the local school district. To the maximum extent possible, children requiring special education shall attend regular classes and shall be educated with children who do not require special education. Whenever possible, hindrances to learning and to the normal functioning of children requiring special education within the regular school environment shall be overcome by the provision of special aids and services rather than by separate programs for those in need of special education. Special classes, separate schooling or other removal of children requiring special education from the regular educational environment, shall occur only when, and to the extent that the nature or severity of the educational handicap is such that education in regular classes, even with the use of supplementary aids and services, cannot be accomplished satisfactorily. For those children who cannot adapt to the regular educational or home living conditions, and who are attending facilities under chapters 263, 269 and 270, upon the request of the board of directors of an area education agency, the department of human services shall provide residential or detention facilities and the area education agency shall provide special education programs and services. The area education agencies shall co-operate with the board of regents to provide the services required by this Act.\*

Special aids and services shall be provided to children requiring special education who are less than five years of age if the aids and services will reasonably permit the child to enter the educational process or school environment when the child attains school age.

Every child requiring special education shall, if reasonably possible, receive a level of education commensurate with the level provided each child who does not require special education. The cost of providing such an education shall be paid as provided in section 273.9, this chapter and chapter 442. It shall be the primary responsibility of each school district to provide special education to children who reside in that district if the children requiring special education are properly identified, the educational program or service has been approved, the teacher or instructor has been licensed, the number of children requiring special education needing that educational program or service is sufficient to make offering the program or service feasible, and the program or service cannot more economically and equably be obtained from the area education agency, another school district, another group of school districts, a qualified private agency, or in co-operation with one or more other districts.

4. Any funds received by the school district of the child's residence for the child's education, derived from funds received through chapter 442, this chapter and section 273.9 shall be paid by the school district of the child's residence to the appropriate education agency, private agency, or other school district providing special education for the child pursuant to contractual arrangements as provided in section 273.3, subsections 5 and 7.

### **281.9 Weighting plan—audits—evaluations—expenditures.**

1. In order to provide funds for the excess costs of instruction of children requiring special education, above the costs of instruction of pupils in a regular curriculum, a special education weighting plan for determining enrollment in each school district is adopted as follows:

- a. Pupils in a regular curriculum are assigned a weighting of one.

b. Children requiring special education who require special adaptations while assigned to a regular classroom for basic instructional purposes and handicapped pupils placed in a special education class who receive part of their instruction in regular classrooms are assigned a weighting of one and eight-tenths for the school year commencing July 1, 1975.

c. Children requiring special education who require full-time, self-contained special education placement with little integration into a regular classroom are assigned a weighting of two and two-tenths for the school year commencing July 1, 1975.

d. Children requiring special education who are severely handicapped or who have multiple handicaps are assigned a weighting of four and four-tenths for the school year commencing July 1, 1975.

e. Shared-time and part-time pupils of school age who require special education shall be placed in the proper category and counted in the proportion that the time for which they are enrolled or receive instruction for the school year bears to the time that full-time pupils, carrying a normal course schedule, in the same school district, for the same school year are enrolled and receive instruction.

2. The weighting for each category of child multiplied by the number of children in each category in the enrollment of a school district, as identified and certified by the director of special education for the area, determines the weighted enrollment to be used in that district for purposes of computations required under the state school foundation plan in chapter 257.

3. The weight that a child is assigned under this section shall be dependent upon the required educational modifications necessary to meet the special education needs of the child. Enrollment for the purpose of this section, and all payments to be made pursuant thereto, includes all children for whom a special education program or course is to be provided pursuant to sections 273.1 to 273.9 and this chapter, whether or not the children are actually enrolled upon the records of a school district.

4. On December 1, 1987, and no later than December 1 every two years thereafter, for the school year commencing the following July 1, the director of the department of education shall report to the school budget review committee the average costs of providing instruction for children requiring special education in the categories of the weighting plan established under this section, and the director of the department of education shall make recommendations to the school budget review committee for needed alterations to make the weighting plan suitable for subsequent school years. The school budget review committee shall establish the weighting plan for each school year after the school year commencing July 1, 1987, and shall report the plan to the director of the department of education. Commencing December 1, 1990, the school budget review committee may establish weights to the nearest hundredth. The school budget review committee shall not alter the weighting assigned to pupils in a regular curriculum, but it may increase or decrease the weighting assigned to each category of children requiring special education by not more than two-tenths of the weighting assigned to pupils in a regular curriculum. The state board of education shall adopt rules under chapter 17A, to implement the weighting plan for each year and to assist in identification and proper indexing of each child in the state who requires special education.

5. The division of special education shall audit the reports required in section 273.5 to determine that all children in the area who have been identified as requiring special education have received the appropriate special education instructional and support services, and to verify the proper identification of pupils in the area who will require special education instructional services during the school year in which the report is filed. The division shall certify to the director of the department of management the correct total enrollment of each school

district in the state, determined by applying the appropriate pupil weighting index to each child requiring special education, as certified by the directors of special education in each area.

6. The division may conduct an evaluation of the special education instructional program or special education support services being provided by an area education agency, school district, or private agency, pursuant to sections 273.1 to 273.9 and this chapter, to determine if the program or service is adequate and proper to meet the needs of the child; if the child is benefiting from the program or service; if the costs are in proportion to the educational benefits being received; and if there are any improvements that can be made in the program or service. A written report of the evaluation shall be sent to the area education agency, school district, or private agency evaluated and to the president of the senate and speaker of the house of representatives of the general assembly.

7. The costs of special education instructional programs include the costs of purchase of transportation equipment to meet the special needs of children requiring special education with the approval of the director of the department of education. The state board of education shall adopt rules under chapter 17A for the purchase of transportation equipment pursuant to this section.

8. Commencing with the school year beginning July 1, 1976, a school district may expend an amount not to exceed two-sevenths of an amount equal to the district cost of a school district for the costs of regular classroom instruction of a child certified under the special education weighting plan in subsection 1, paragraph "b", as a handicapped pupil who is enrolled in a special class, but who receives part of the pupil's instruction in a regular classroom. Unencumbered funds generated for special education instructional programs for the school year beginning July 1, 1975 and for the school year beginning July 1, 1976 shall not be expended for such purpose.

9. Funds generated for special education instructional programs under this chapter and chapter 257 shall not be expended for modifications of school buildings to make them accessible to children requiring special education.

Applicability of subsection 4 to budget year beginning July 1, 1991; limit on increase or decrease in weighting does not apply; 89 Acts, ch 135, §50 HF 535

1989 amendments to subsections 2, 4, and 9 take effect July 1, 1990, for purpose of computations for school budget year beginning July 1, 1991; 89 Acts, ch 135, §141 HF 535

### **281.15 Reimbursement for special education services.**

1. The state board of education in conjunction with the department of education shall develop a program to utilize federally funded health care programs, except the federal medically needy program for individuals who have a spend-down, to share in the costs of services which are provided to children requiring special education.

2. The department of education shall designate an area education agency to develop a system for collecting the information necessary to implement procedures for billing and collecting the costs of the services. The area education agency shall begin to develop the system immediately. The area education agency shall consult with and work jointly with state agencies and federal agencies to determine procedures and standards which shall be initiated by all area education agencies to qualify for receipt of benefits under federal programs.

3. The department of education, in conjunction with the area education agency, shall determine those specific services which are covered by federally funded health care programs, which shall include, but not be limited to, physical therapy, audiology, speech language therapy, and psychological evaluations. The department shall also determine which other special services may be subject to reimbursement and the qualifications necessary for personnel providing those

services. If it is determined that services are required from other service providers, these providers shall be reimbursed for those services.

4. All services referred to in subsection 1 shall be initially funded by the area education agency and shall be provided regardless of subsequent subrogation collections. The area education agency shall make a claim for reimbursement to federally funded health care programs.

5. Not later than July 1, 1988, the area education agency designated by the department of education shall have developed the program for collecting for the services provided. The program shall be distributed to all of the area education agencies in the state. All area education agencies shall begin collecting the information on July 1, 1988.

6. Effective November 1, 1988, all area education agencies in the state shall participate in the program and begin billing for and collecting for the covered services and shall bill for services provided retroactive to July 1, 1988. Retroactive Title XIX billing is contingent upon state plan approval. Nothing contained in this section shall be construed to allow nonlicensed individuals to perform services which otherwise require licenses under the laws of this state or to allow licensed providers to perform services outside their scope of practice.

7. All reimbursements received by the area education agencies for eligible services shall be paid annually to the treasurer of state. The treasurer of state shall credit all receipts received under this subsection to the general fund of the state.

8. Students or their parents or guardians covered by a federal health care program shall provide health care information to an area education agency or local school district.

9. The department of education and the department of human services shall adopt rules to implement this section to be effective immediately upon filing with the administrative rules coordinator, or at a stated date prior to indexing and publication, or at a stated date less than thirty-five days after filing, indexing, and publication.

## CHAPTER 282

### SCHOOL ATTENDANCE AND TUITION

#### 282.1 School age—nonresidents.

Persons between five and twenty-one years of age are of school age. A board may establish and maintain evening schools for residents of the corporation regardless of age and for which no tuition need be charged. Nonresident children shall be charged the maximum tuition rate as determined in section 282.24, subsection 1, with the exception that those residing temporarily in a school corporation may attend school in the corporation upon terms prescribed by the board, and boards discontinuing grades under section 282.7, subsection 1 or subsections 1 and 3, shall be charged tuition as provided in section 282.24, subsection 2.

For purposes of this section, "*resident*" means a child who is physically present in a district, whose residence has not been established in another district by operation of law, and who meets any of the following conditions:

1. Is in the district for the purpose of making a home and not solely for school purposes.
2. Meets the definitional requirements of the term "*homeless individual*" under 42 U.S.C. §11302(a) and (c).

3. Lives in a juvenile detention center, foster care facility, or residential facility in the district.

NEW unnumbered paragraph 2 and subsections 1-3

### **282.3 Admission and exclusion of pupils.**

1. The board may exclude from school children under the age of six years when in its judgment such children are not sufficiently mature to be benefited by regular instruction, or any child who is found to be physically or mentally unable to attend school under section 299.5, or whose presence in school has been found to be injurious to the health of other pupils, or is inefficiently taught for the scholastic year at a state institution. However, the board shall provide special education programs and services under the provisions of chapters 273, 281, and 442 for all children requiring special education.

2. The conditions of admission to public schools for work in the year immediately preceding the first grade and in the first grade shall be as follows:

A child under the age of six years on the fifteenth of September of the current school year shall not be admitted to a public school unless the board of directors of the school has adopted and put into effect courses of study for the school year immediately preceding the first grade, approved by the department of education, and has employed a practitioner or practitioners for this work with standards of training approved by the board of educational examiners.

No child shall be admitted to school work for the year immediately preceding the first grade unless the child is five years of age on or before the fifteenth of September of the current school year.

No child shall be admitted to the first grade unless the child is six years of age on or before the fifteenth of September of the current school year; except that a child under six years of age who has been admitted to school work for the year immediately preceding the first grade under conditions approved by the department of education, or who has demonstrated the possession of sufficient ability to profit by first-grade work on the basis of tests or other means of evaluation recommended or approved by the department of education, may be admitted to first grade at any time before December 31.

3. Nothing herein provided shall prohibit a school board from requiring the attainment of a greater age than the age requirements herein set forth.

### **282.4 Expulsion—dismissal.**

The board may, by a majority vote, expel any pupil from school for a violation of the regulations or rules established by the board, or when the presence of the pupil is detrimental to the best interests of the school; and it may confer upon any teacher, principal, or superintendent the power temporarily to dismiss a pupil, notice of such dismissal being at once given in writing to the president of the board.

### **282.6 Tuition.**

Every school shall be free of tuition to all actual residents between the ages of five and twenty-one years and to resident honorably discharged soldiers, sailors, and marines, as many months after becoming twenty-one years of age as they have spent in the military or naval service of the United States before they became twenty-one, provided, however, fees may be charged covering instructional costs for a summer school program. The board of education may, in a hardship case, exempt a student from payment of the above fees. Every person, however, who

shall attend any school after graduation from a four-year course in an approved high school or its equivalent shall be charged a sufficient tuition fee to cover the cost of the instruction received by such person.

This section shall not apply to tuition authorized by chapter 280A.

For purposes of this section, "resident" means a person who is physically present in a district, whose residence has not been established in another district by operation of law, and who meets any of the following conditions:

1. Is in the district for the purpose of making a home and not solely for school purposes.
2. Meets the definitional requirements of the term "homeless individual" under 42 U.S.C. §11302(a) and (c).
3. Lives in a residential correctional facility in the district.

NEW unnumbered paragraph 3 and subsections 1-3

### **282.18 Open enrollment.**

For the school year commencing July 1, 1989, and each succeeding school year, a parent or guardian residing in a school district may enroll the parent's or guardian's child in a public school in another school district in the manner provided in this section.

By September 15 of the preceding school year the parent or guardian shall informally notify the district of residence, and not later than November 1 of the preceding school year, the parent or guardian shall send notification to the district of residence and to the department of education on forms prescribed by the department of education that the parent or guardian intends to enroll the parent's or guardian's child in a public school in another school district. The parent or guardian shall describe the reason that exists for enrollment in the receiving district that is not present in the district of residence. The board of the district of residence shall transmit a copy of the form to the receiving school district within five days after its receipt. During the 1990-1991 school year, if the board of the district of residence determines that transmission of the request will result in a loss of greater than five percent of the district's certified enrollment for the previous year, the board of the district of residence may deny the request for the 1990-1991 school year. During the 1991-1992 school year, if the board of the district of residence determines that transmission of the request will result in a loss of greater than ten percent of the district's certified enrollment for the previous year, the board of the district of residence may deny the request for the 1991-1992 school year. If, however, a failure to transmit a request will result in enrollment of students from the same nuclear family in different school districts, the request shall be transmitted to the receiving district for enrollment. The board of each school district shall adopt a policy relating to the order in which requests for enrollment in other districts shall be considered. The board of the receiving school district shall enroll the pupil in a school in the receiving district for the following school year unless the receiving district does not have classroom space for the pupil. In all districts involved with volunteer or court-ordered desegregation, minority and nonminority student ratios shall be maintained according to the desegregation plan or order. The superintendent of a district subject to volunteer or court-ordered desegregation may deny a request for transfer under this section if the superintendent finds that enrollment or release of a pupil will adversely affect the district's implementation of the desegregation order or plan. If, however, a transfer request would facilitate a voluntary or court-ordered desegregation plan, the district shall give priority to granting the request over other requests. A parent or guardian, whose request has been denied because of a desegregation order or plan, may appeal the decision of the superintendent to the board of the district in which the request was denied. The board may either uphold or overturn the superintendent's decision. A decision of

the board to uphold the denial of the request is subject to appeal under section 290.1.

Each district shall provide notification to the parent or guardian relating to the transmission or denial of the request. A district of residence shall provide for notification of transmission or denial to a parent or guardian within three days of board action on the request. A receiving district shall provide notification to a parent or guardian, within fifteen days of receipt of the request, of whether the child will be enrolled in that district or whether the request is to be denied.

A request under this section is for a period of not less than four years unless the pupil will graduate, the pupil's family moves to another school district, or the parent or guardian petitions the receiving district for permission to enroll the child in a different district, which may include the district of residence, within the four-year period. If the parent or guardian requests permission of the receiving district to enroll the child in a different district within the four-year period, the receiving district school board may transmit a copy of the request to the other school district within five days of the receipt of the request. The new receiving district shall enroll the pupil in a school in the district unless there is insufficient classroom space in the district or unless enrollment of the pupil would adversely affect court ordered or voluntary desegregation orders affecting a district. A denial of a request to change district enrollment within the four-year period shall be subject to appeal under section 290.1.

The board of directors of the district of residence shall pay to the receiving district the lower district cost per pupil of the two districts, plus any moneys received for the pupil as a result of non-English speaking weighting under section 442.4, subsection 6, for each school year. The district of residence shall also transmit the phase III moneys allocated to the district for the full-time equivalent attendance of the pupil, who is the subject of the request, to the receiving district specified in the request for transfer. If a request filed under this section is for a child requiring special education under chapter 281, the request to transfer to the other district shall only be granted if the receiving district maintains a special education instructional program which is appropriate to meet the child's educational needs and the enrollment of the child in the receiving district's program would not cause the size of the class in that special education instructional program in the receiving district to exceed the maximum class size in rules adopted by the state board of education for that program. For pupils requiring special education, the board of directors of the district of residence shall pay to the receiving district the actual costs incurred in providing the appropriate special education. Quarterly payments shall be made to the receiving district. If the transfer of a pupil from one district to another results in a transfer from one area education agency to another, the sending district shall forward a copy of the request to the sending district's area education agency. The receiving district shall forward a copy of the request to the receiving district's area education agency. Any moneys received by the area education agency of the sending district for the child who is the subject of the request shall be forwarded to the receiving district's area education agency. Notwithstanding section 285.1 relating to transportation of nonresident pupils, the parent or guardian is responsible for transporting the pupil without reimbursement to and from a point on a regular school bus route of the receiving district. A receiving district shall not send school vehicles into the district of residence of the pupil using the open enrollment option under this section, for the purpose of transporting the pupil to and from school in the receiving district. If the child meets the economic eligibility requirements, established under the federal National School Lunch and Child Nutrition Acts, 42 U.S.C. §1751-1785, for free or reduced price lunches, the sending district shall be responsible for providing transportation or paying the pro rata cost of the transportation to a parent or guardian for transporting the child to and from a

point on a regular school bus route of a contiguous receiving district unless the cost of providing transportation or the pro rata cost of the transportation to a parent or guardian exceeds the average transportation cost per pupil transported for the previous school year in the district. If the cost exceeds the average transportation cost per pupil transported for the previous school year, the sending district shall only be responsible for that average per pupil amount. A sending district which provides transportation for a child to a contiguous receiving district under this paragraph may withhold from the district cost per pupil amount, that is to be paid to the receiving district, an amount which represents the average or pro rata cost per pupil for transportation, whichever is less.

A child, whose parent or guardian has submitted a request to enroll the child in a public school in another district, shall, if the request has resulted in the enrollment of the child in the other district, attend school in the other district which is the subject of the request. This requirement shall not apply, however, if the child's family moves out of the district of residence.

Every school district shall adopt a policy which defines the term "*insufficient classroom space*" for that district.

The board of directors of a school district subject to volunteer or court-ordered desegregation may vote not to participate in open enrollment under this section during the school year commencing July 1, 1990, and ending June 30, 1991. If a district chooses not to participate in open enrollment under this paragraph, the district shall develop a policy for implementation of open enrollment in the district for that following school year. The policy shall contain objective criteria for determining when a request would adversely impact the desegregation order or plan and criteria for prioritizing requests that do not have an adverse impact on the order or plan.

A student who attends a grade in grades nine through twelve in a school district other than the district of residence is not eligible to participate in interscholastic athletic contests and athletic competitions during the first year of enrollment under this section except for an interscholastic sport in which the district of residence and the other school district jointly participate or unless the sport in which the student wishes to participate is not offered in the district of residence. However, a pupil who has paid tuition and attended school, or has attended school pursuant to a mutual agreement between the two districts, in a district other than the pupil's district of residence for at least one school year prior to the effective date of this Act, shall be eligible to participate in interscholastic athletic contests and athletic competitions under this section, but only as a member of a team from the district that student had attended.

A student who has been paying tuition and attending school on or before March 25, 1989, in a district other than the student's district of residence shall be permitted to attend school in the district where the student has been paying tuition, during the 1989-1990 school year, by filing a request to use the open enrollment option under this section by August 1, 1989.

If a student has been paying tuition and attending an accredited nonpublic school during the 1988-1989 school year, which is located in a public school district other than the student's public school district of residence, and the nonpublic school discontinues the grade or school which the student would have attended during the 1989-1990 school year, after June 30, 1988, but before August 1, 1989, the student shall be permitted to attend a public school, located within the public school district where the nonpublic school was located, during the 1989-1990 school year if the receiving public school district agrees to accept the student and the student's parent or guardian files a request to use the open enrollment option under this section by August 1, 1989. The public school district where the nonpublic school was located shall count the student in the September 1989 enrollment count.

A student, whose district of residence, for the purposes of school attendance, changes by August 1, 1989, shall be permitted to attend school during the 1989-1990 school year in the district in which the student attended during the 1988-1989 school year if a request to use the open enrollment option under this section is filed by August 1, 1989.

If a child, for which a request to transfer has been filed with a district, has been suspended or expelled in the district, the receiving district named in the request may refuse the request to transfer until the child has been reinstated in the sending district.

A laboratory school under chapter 265 shall be exempt from the provisions of this section.

The director of the department of education shall recommend rules to the state board of education for the orderly implementation of this section. The state board shall adopt rules as needed for the implementation of this section.

As used in this chapter and chapter 280A, unless the context otherwise requires:

1. "Area school allowable growth for an instructional cost center" is a dollar amount determined by the department of management by multiplying the state average cost per contact hour for that cost center for a base year times the state percent of growth for the budget year.

3. "Budget year" means budget year as defined in section 257.2.

4. "Contact hour" means fifty minutes of contact between an instructor and students in a scheduled course offering for which students are registered.

5. "Contact hour eligible for general aid" is a contact hour as provided in subsection 1 except for the contact hours of nonresident students; contact hours of students in avocational or recreational programs; and contact hours of students in

courses or programs the direct operational costs of which are entirely paid by federal, state, or other governmental agencies, or private subsidy, or both.

6. "Instructional cost center" means one of the following areas of course offerings of the area schools:

- a. Arts and sciences cost center.
- b. Vocational-technical preparatory cost center.
- c. Vocational-technical supplementary cost center.
- d. Adult basic education and high school completion cost center.

- d. Library services function.

8. "State average cost per contact hour for an instructional cost center" is the actual state average cost per contact hour for that instructional cost center for all area schools for the base year beginning July 1, 1985 adjusted in succeeding years to equal the base year's state average cost per contact hour for the instructional cost center plus the area school allowable growth for the instructional cost center for the budget year. The state average cost per contact hour does not include expenditures for capital outlay.

The school budget review committee, in addition to its duties under chapter 257, shall meet and hold hearings each year under this chapter to review unusual circumstances of area schools, either upon the committee's motion or upon the request of an area school. The committee may grant supplemental aid to the area school from funds appropriated to the department of education for area school budget review purposes, or an amount may be added to the area school allowable growth for all cost centers and area school allowable growth for noninstructional functions for the budget year either on a temporary or permanent basis, or the committee may allow both.

Unusual circumstances shall include but not be limited to the following:

- a. An unusual increase or decrease in enrollment.
- b. Natural disasters.
- c. Unusual staffing problems.

- f. Unique problems of area schools to include vandalism, civil disobedience, and other costs incurred by area schools.

2. When the school budget review committee makes a decision under subsection 1, it shall provide written notice of its decision, including all changes, to the board of directors of the area school and to the department of management.

3. All decisions by the school budget review committee under this chapter shall be made in accordance with reasonable and uniform policies which shall be consistent with this chapter.

4. Failure by an area school to provide information or appear before the school budget review committee as requested for the accomplishment of review or hearing constitutes justification for the committee to instruct the department of revenue and finance to withhold state area school aid to that area school until the committee's inquiries are satisfied completely.

### EDUCATIONAL EXCELLENCE PROGRAM—TEACHERS

#### 294A.2 Definitions.

For the purposes of this chapter:

1. "*Certified enrollment in a school district*" for the school years beginning July 1, 1987, July 1, 1988, and July 1, 1989, means that district's basic enrollment for the budget year beginning July 1, 1987, as defined in section 442.4, Code 1989. For each school year thereafter, certified enrollment in a school district means that district's basic enrollment for the budget year as defined in section 442.4, Code 1989, or section 257.2.

2. "*Enrollment served*" for the fiscal years beginning July 1, 1987, July 1, 1988, and July 1, 1989, means that area education agency's enrollment served for the budget year beginning July 1, 1987. 3. "*General training requirements*" means requirements prescribed by a board of directors that provide for the acquisition of additional semester hours of graduate credit from an institution of higher education approved by the state board of education or the completion of staff development activities licensed by the board of educational examiners, except for programs developed by practitioner preparation institutions, for renewal of licenses issued under chapter 260.

4. #### 294A.6 Payments.

For the school year beginning July 1, 1987, the department of education shall notify the department of revenue and finance of the total minimum salary supplement to be paid to each school district and area education agency under phase I and the department of revenue and finance shall make the payments. For school years after the school year beginning July 1, 1987, if a school district or area education agency reduces the number of its full-time equivalent teachers

below the number employed during the school year beginning July 1, 1987, the department of revenue and finance shall reduce the total minimum salary supplement payable to that school district or area education agency so that the amount paid is equal to the ratio of the number of full-time equivalent teachers employed in the school district or area education agency for that school year divided by the number of full-time equivalent teachers employed in the school district or area education agency for the school year beginning July 1, 1987 and multiplying that fraction by the total minimum salary supplement paid to that school district or area education agency for the school year beginning July 1, 1987.

If the moneys allocated for phase I for a school year exceed the moneys required to pay the total minimum salary supplements to all school districts and area education agencies, the board of directors of a school district that has employed one or more additional teachers as a result of a whole grade sharing agreement completed under section 282.7 may request approval from the department of education for additional funding for its minimum salary supplement for that school year and succeeding school years if the other school district or districts that are parties to the sharing agreement have correspondingly reduced their number of teachers. If the department of education approves the payment of the additional salary supplement to a district, the department shall certify to the department of revenue and finance that the additional payment be made. The payment shall be equal to the amount of the difference between eighteen thousand dollars and the teacher's regular compensation, plus the amount required to make the payments on the additional salary moneys for the employer's share of the federal social security and Iowa public employees' retirement system, or a pension and annuity retirement system established under chapter 294. If the phase I moneys remaining are insufficient to pay the entire amount approved by the department of education, the department of revenue and finance shall prorate the payments to school districts.

### **294A.9 Phase II program.**

Phase II is established to improve the salaries of teachers. For each fiscal year, the department of education shall allocate to each school district for the purpose of implementing phase II an amount equal to seventy-five dollars and ninety-three cents multiplied by the district's certified enrollment and to each area education agency for the purpose of implementing phase II an amount equal to three dollars and fifty-five cents multiplied by the enrollment served in the area education agency, if the general assembly has appropriated sufficient moneys to the fund so that pursuant to section 294A.3, thirty-eight million five hundred thousand dollars will be allocated by the department to school districts and area education agencies for phase II. If, because of the amount of the appropriation made by the general assembly to the fund, less than thirty-eight million five hundred thousand dollars is allocated for phase II, the department of education shall adjust the amount for each student in certified enrollment and each student in enrollment served based upon the amount allocated for phase II.

The department of education shall certify the amounts of the allocations for each school district and area education agency to the department of revenue and finance and the department of revenue and finance shall make the payments to school districts and area education agencies.

If a school district has discontinued grades under section 282.7, subsection 1, or students attend school in another school district, under an agreement with the board of the other school district, the board of directors of the district of residence shall transmit the phase II moneys allocated to the district for those students

based upon the full-time equivalent attendance of those students to the board of the school district of attendance of the students.

If a school district uses teachers under a contract between the district and the area education agency in which the district is located, the school district shall transmit to the employing area education agency a portion of its phase II allocation based upon the portion that the salaries of teachers employed by the area education agency and assigned to the school district for a school year bears to the total teacher salaries paid in the district for that school year, including the salaries of the teachers employed by the area education agency.

If the school district or area education agency is organized under chapter 20 for collective bargaining purposes, the board of directors and certified bargaining representative for the licensed employees shall mutually agree upon a formula for distributing the phase II allocation among the teachers. For the school year beginning July 1, 1987 only, the parties shall follow the procedures specified in chapter 20 except that if the parties reach an impasse, neither impasse procedures agreed to by the parties nor sections 20.20 through 20.22 shall apply and the phase II allocation shall be divided as provided in section 294A.10. Negotiations under this section are subject to the scope of negotiations specified in section 20.9. If a board of directors and certified bargaining representative for licensed employees have not reached mutual agreement by July 15, 1987 for the distribution of the phase II payment, section 294A.10 will apply.

If the school district or area education agency is not organized for collective bargaining purposes, the board of directors shall determine the method of distribution.

#### **294A.10 Failure to agree on distribution.**

For the school year beginning July 1, 1987 only, if the board of directors and certified bargaining representative for the licensed employees have not reached agreement under section 294A.9, the board of directors shall divide the payment among the teachers employed by the district or area education agency as follows:

1. All full-time teachers whose regular compensation is equal to or more than the minimum salary for phase I will receive an equal amount from the phase II allocation.
2. A teacher who will receive a minimum salary supplement under section 294A.5 will receive moneys equal to the difference between the amount from the phase II allocation and the minimum salary supplement paid to that teacher.
3. The amount from the phase II allocation will be prorated for a teacher employed on less than a full-time basis.
4. An amount from the phase II allocation includes the amount required to pay the employers' share of the federal social security and Iowa public employees' retirement system, or a pension and annuity retirement system established under chapter 294, payments on the additional salary.

89 Acts, ch 265, §40 HF 794

#### **294A.14 Phase III payments.**

For each fiscal year, the department shall allocate the remainder of the moneys appropriated by the general assembly to the fund for phase III, subject to section 294A.18. If fifty million dollars is allocated for phase III, the payments for an approved plan for a school district shall be equal to the product of a district's certified enrollment and ninety-eight dollars and sixty-three cents, and for an area education agency shall be equal to the product of an area education agency's enrollment served and four dollars and sixty cents. If the moneys allocated for phase III are either greater than or less than fifty million dollars, the department

of education shall adjust the amount for each student in certified enrollment and each student in enrollment served based upon the amount allocated for phase III.

Notwithstanding the amount per pupil of the payments specified in this section, for the fiscal year beginning July 1, 1991, and each succeeding fiscal year, if a school district's or area education agency's approved phase III plan for a fiscal year contains a component that includes a performance-based pay plan, the per pupil amount upon which the phase III moneys are based shall be increased by an amount equal to the product of the state percent of growth calculated under section 257.8 and the per pupil amount for the previous fiscal year.

If a school district has discontinued grades under section 282.7, subsection 1, or students attend school in another school district, under an agreement with the board of the other school district, the board of directors of the district of residence shall transmit the phase III moneys allocated to the district for those students based upon the full-time equivalent attendance of those students to the board of the school district of attendance of the students.

A plan shall be developed using the procedure specified under section 294A.15. The plan shall provide for the establishment of a performance-based pay plan, a supplemental pay plan, or a combination of the two pay plans and shall include a budget for the cost of implementing the plan. In addition to the costs of providing additional salary for teachers and the amount required to pay the employers' share of the federal social security and Iowa public employees' retirement system, or a pension and annuity retirement system established under chapter 294, payments on the additional salary, the budget may include costs associated with providing specialized or general training. Moneys received under phase III shall not be used to employ additional employees of a school district, except that phase III moneys may be used to employ substitute teachers, part-time teachers, and other employees needed to implement plans that provide innovative staffing patterns or that require that a teacher employed on a full-time basis be absent from the classroom for specified periods for fulfilling other instructional duties. However, all teachers employed are eligible to receive additional salary under an approved plan.

For the purpose of this section, a performance-based pay plan shall provide for salary increases for teachers who demonstrate superior performance in completing assigned duties. The plan shall include the method used to determine superior performance of a teacher. For school districts, the plan may include assessments of specific teaching behavior, assessments of student performance, assessments of other characteristics associated with effective teaching, or a combination of these criteria.

For school districts, a performance-based pay plan may provide for additional salary for individual teachers, for teachers assigned to a specific discipline, or for all teachers assigned to an attendance center. For area education agencies, a performance-based pay plan may provide for additional salary for individual teachers, for additional salary for all teachers assigned to a specific discipline within an area education agency, or for additional salary for individual teachers assigned to a multidisciplinary team within an area education agency. If the plan provides additional salary for all teachers assigned to an attendance center, specific discipline, or multidisciplinary team, the receipt of additional salary by those teachers shall be determined on the basis of whether that attendance center, specific discipline, or multidisciplinary team meets specific objectives adopted for that attendance center, specific discipline, or multidisciplinary team. For school districts, the objectives may include, but are not limited to, decreasing the dropout rate, increasing the attendance rate, or accelerating the achievement growth of students enrolled in that attendance center.

If a performance-based pay plan provides additional salary for individual teachers:

1. The plan may provide for salary moneys in addition to the existing salary schedule of the school district or area education agency and may require the participation by the teacher in specialized training requirements.

2. The plan may provide for salary moneys by replacing the existing salary schedule or as an option to the existing salary schedule and may include specialized training requirements, general training requirements, and experience requirements.

A supplemental pay plan may provide for supplementing the costs of vocational agriculture programs as provided in section 294A.17.

For the purpose of this section, a supplemental pay plan in a school district shall provide for the payment of additional salary to teachers who participate in either additional instructional work assignments or specialized training during the regular school day or during an extended school day, school week, or school year. A supplemental pay plan in an area education agency shall provide for the payment of additional salary to teachers who participate in either additional work assignments or improvement of instruction activities with school districts during the regular school day or during an extended school day, school week, or school year.

For school districts, additional instructional work assignments may include but are not limited to general curriculum planning and development, vertical articulation of curriculum, horizontal curriculum coordination, development of educational measurement practices for the school district, attendance at workshops and other programs for service as cooperating teachers for student teachers, development of plans for assisting beginning teachers during their first year of teaching, attendance at summer staff development programs, development of staff development programs for other teachers to be presented during the school year, and other plans locally determined in the manner specified in section 294A.15 and approved by the department of education under section 294A.16 that are of equal importance or more appropriately meet the educational needs of the school district.

For area education agencies, additional instructional work assignments may include but are not limited to providing assistance and support to school districts in general curriculum planning and development, providing assistance to school districts in vertical articulation of curriculum and horizontal curriculum coordination, development of educational measurement practices for school districts in the area education agency, development of plans for assisting beginning teachers during their first year of teaching, attendance or instruction at summer staff development programs, development of staff development programs for school district teachers to be presented during the school year, and other plans determined in the manner specified in section 294A.15 and approved by the department of education under section 294A.16 that are of equal importance or more appropriately meet the educational needs of the area education agency.

Any summer school program, for which the teacher's salary is paid or supplemented under a supplemental pay plan, shall be open to nonpublic school students in the manner provided in section 256.12.

**294A.15 Development of plan.**

The board of directors of a school district desiring to receive moneys under phase III shall appoint a committee consisting of representatives of school administrators, teachers, parents, and other individuals interested in the public schools of the school district to develop a proposal for distribution of phase III moneys to be

submitted to the board of directors. The board of directors of an area education agency desiring to receive moneys under phase III shall appoint a committee of similar membership to develop a proposal. If the school district or area education agency is organized under chapter 20 for collective bargaining purposes, the board shall provide that one of the teacher members of the committee is an individual selected by the certified bargaining representative for licensed employees of the district or area education agency. The proposal developed by the committee shall be submitted to the board of directors of the school district or area education agency for consideration by the board in developing a plan. For the school year beginning July 1, 1987, if the school district or area education agency is organized for collective bargaining purposes under chapter 20, the portions of the proposed plan that are within the scope of negotiations specified in section 20.9 require the mutual agreement by January 1, 1988 of both the board of directors of the school district or area education agency and the certified bargaining representative for the licensed employees. In succeeding years, if the school district or area education agency is organized for collective bargaining purposes, the portions of the proposed plan that are within the scope of the negotiations specified in section 20.9 are subject to chapter 20.

Effective July 1, 1989, a plan adopted by the board of directors of a school district or area education agency may include as a part of the plan a proposal that expands a performance-based pay plan or a supplemental pay plan, or a combination of the two pay plans, that meets the criteria listed in section 294A.14 and was in effect in the school district or area education agency prior to July 1, 1987. The budget for the plan submitted to the department of education shall include both the general fund moneys, which must be equal to those used prior to July 1, 1987, and the phase III moneys which expand the activity, and is for programs that would meet the criteria listed in section 294A.14.

Nothing in this chapter shall be construed to expand or restrict the scope of negotiations in section 20.9.

### **294A.16 Plan—moneys.**

A plan adopted by the board of directors of a school district or area education agency shall be submitted to the department of education not later than July 1 of a school year for that school year for a school district, and not later than September 1 of a school year for that school year for an area education agency. Amendments to multiple year plans may be submitted annually.

If a school district uses teachers under a contract between the district and the area education agency in which the district is located and both the school district and the area education agency have approved phase III plans, the school district shall transmit to the employing area education agency a portion of its phase III moneys based upon the portion that the salaries of teachers employed by the area education agency and assigned to the school district for the school year bears to the total teacher salaries paid in the district for that school year, including the salaries of the teachers employed by the area education agency. If the area education agency has an approved phase III plan and the school district does not, the department of management shall transmit phase III moneys to the area education agency for those teachers from the phase III money that would have been paid to the school district if the school district had had an approved phase III plan using the formula that would have been used if the school district had had an approved phase III plan.

The department of education shall review each plan and its budget and notify the department of management of the names of school districts and area education agencies with approved plans.

A school district or area education agency, which receives money for a school year for an approved phase III plan, may retain up to fifty percent of the moneys allocated to the district or area education agency for the next succeeding school year, in order to continue the approved plan. Any of the retained phase III moneys remaining in the district or area education agency account after the second year of the plan shall revert to the general fund of the state as provided in section 8.33.

Any moneys allocated or retained for an approved phase III plan, and any interest accrued on the moneys, shall not be commingled with state aid payments made, under sections 442.25 and 442.26, to a school district or area education agency and shall be accounted for by the school district or area education agency separately from state aid payment accounts.

The report shall describe the plan, its objectives, its implementation, the expenditures made under the plan including the salary increases paid to each eligible employee, and the extent to which its objectives were attained. The report may include any proposed amendments to the plan for the next following school year.

The payments shall be separate from state aid payments made pursuant to sections 442.25 and 442.26. The payments made under this section to a school district or area education agency may be combined and a separate accounting of the amount paid for each program shall be included.

Any payments made to school districts or area education agencies under this chapter are miscellaneous income for purposes of chapter 442.

Payments made to a teacher by a school district or area education agency under this chapter are wages for the purposes of chapter 91A except for payments made under an approved phase III plan where a modified payment plan has either been mutually agreed upon by the board of directors and the certified bargaining representative for certificated employees or for a district that is not organized for collective bargaining purposes where a modified payment plan is adopted by the board.

**CHAPTER 296****INDEBTEDNESS OF SCHOOL CORPORATIONS****296.7 Indebtedness for insurance authorized—tax levy.**

A school district or merged area school corporation may contract indebtedness and issue general obligation bonds or enter into insurance agreements obligating the school district or corporation to make payments beyond its current budget year to procure or provide for a policy of insurance, a self-insurance program, or establish and maintain a local government risk pool to protect the school district or corporation from tort liability, loss of property, environmental hazards, or any other risk associated with the operation of the school district or corporation. Taxes

for the payment of the principal, premium, or interest on the bonds, the payment of the premium on the insurance policy, the payment of the costs of a self-insurance program, the payment of the costs of a local government risk pool, and the payment of amounts payable under an insurance agreement authorized in this section may be levied in excess of any tax limitation imposed by statute. However, for a school district, a tax levied under this section shall be included in the district management levy under section 298.4. Such a self-insurance program or local government risk pool is not insurance and is not subject to regulation under chapters 505 through 523C. However, those self-insurance plans regulated pursuant to section 509A.14 shall remain subject to the requirements of section 509A.14 and rules adopted pursuant to that section.

If the board by resolution restricts the use of money in a fund as a reserve for uninsured liability or a self-insurance program, the use shall be restricted and unavailable for any other purpose until the board removes the restriction. The removal is not effective until all obligations of the restricted fund have been satisfied, or the next fiscal year, whichever occurs later.

## CHAPTER 297

### SCHOOLHOUSES AND SCHOOLHOUSE SITES

#### 297.36 Loan agreements.

In order to make immediately available proceeds of the voter-approved physical plant and equipment levy which has been approved by the voters as provided in section 298.2, the board of directors may, with or without notice, borrow money and enter into loan agreements in anticipation of the collection of the tax with a bank, investment banker, trust company, insurance company, or insurance group.

By resolution, the board shall provide for an annual levy which is within the limits of the voter-approved physical plant and equipment levy to pay for the amount of the principal and interest due each year until maturity. The board shall file a certified copy of the resolution with the auditor of each county in which the district is located. The filing of the resolution with the auditor makes it the duty of the auditor to annually levy the amount certified for collection until funds are realized to repay the loan and interest on the loan in full.

The loan must mature within the period of time authorized by the voters and shall bear interest at a rate which does not exceed the limits under chapter 74A. A loan agreement entered into pursuant to this section shall be in a form as the board of directors shall by resolution provide and the loan shall be payable as to both principal and interest from the proceeds of the annual levy of the voter-approved physical plant and equipment levy, or so much thereof as will be sufficient to pay the loan and interest on the loan.

The proceeds of a loan must be deposited in a fund which is separate from other district funds. Warrants paid from this fund must be for purposes authorized for the voter-approved physical plant and equipment levy.

This section does not limit the authority of the board of directors to levy the full amount of the voter-approved physical plant and equipment levy, but if and to whatever extent the tax is levied in any year in excess of the amount of principal and interest falling due in that year under a loan agreement, the first available proceeds, to an amount sufficient to meet maturing installments of principal and interest under the loan agreement, shall be paid into the sinking fund for the loan before the taxes are otherwise made available to the school corporation for other

school purposes, and the amount required to be annually set aside to pay principal of and interest on the money borrowed under the loan agreement constitutes a first charge upon the proceeds of the voter-approved physical plant and equipment levy, which tax shall be pledged to pay the loan and the interest on the loan.

This section is supplemental and in addition to existing statutory authority to finance the purposes specified in section 298.2 for the physical plant and equipment levy, and for the borrowing of money and execution of loan agreements in connection with that section, and is not subject to any other law. The fact that a school corporation may have previously borrowed money and entered into loan agreements under authority of this section does not prevent the school corporation from borrowing additional money and entering into further loan agreements if the aggregate of the amount payable under all of the loan agreements does not exceed the proceeds of the voter-approved physical plant and equipment levy.

#### 298.2 Imposition of physical plant and equipment levy.

1. A physical plant and equipment levy of not exceeding one dollar per thousand dollars of assessed valuation in the district is established except as otherwise provided in this subsection. The physical plant and equipment levy consists of the regular physical plant and equipment levy of not exceeding thirty-three cents per thousand dollars of assessed valuation in the district and a voter-approved physical plant and equipment levy of not exceeding sixty-seven cents per thousand dollars of assessed valuation in the district. However, the voter-approved physical plant and equipment levy may consist of a combination of a physical plant and equipment property tax levy and a physical plant and equipment income surtax as provided in subsection 3 with the maximum amount levied and imposed limited to an amount that could be raised by a sixty-seven cent property tax levy. The levy limitations of this subsection are subject to subsection 5.

2. The board of directors of a school district may certify for levy by March 15 of a school year a tax on all taxable property in the school district for the regular physical plant and equipment levy.

3. The board may, and upon the written request of not less than one hundred eligible electors or thirty percent of the number of eligible electors voting at the last regular school election, whichever is greater, shall, direct the county commissioner of elections to provide for submitting the proposition of levying the voter-approved physical plant and equipment levy for a period of time authorized by the voters in the notice of election, not to exceed ten years, in the notice of the regular school election. The proposition is adopted if a majority of those voting on the proposition at the election approves it. The voter-approved physical plant and equipment levy shall be funded either by a physical plant and equipment property

tax or by a combination of a physical plant and equipment property tax and a physical plant and equipment income surtax, as determined by the board. However, if the board intends to enter into a rental or lease arrangement under section 279.26, or intends to enter into a loan agreement under section 297.36, only a property tax shall be levied for those purposes. Subject to the limitations of section 298.14, if the board uses a combination of a physical plant and equipment property tax and a physical plant and equipment surtax, for each fiscal year the board shall determine the percent of income surtax to be imposed expressed as full percentage points, not to exceed twenty percent.

If a combination of a property tax and income surtax is used, by March 15 of the previous school year, the board shall certify the percent of the income surtax to be imposed and the amount to be raised to the department of management and the department of management shall establish the rate of the property tax and income surtax for the school year. The physical plant and equipment property tax and income surtax shall be levied or imposed, collected, and paid to the school district in the manner provided for the instructional support program in sections 257.21 through 257.26.

4. The proposition to levy the voter-approved physical plant and equipment levy is not affected by a change in the boundaries of the school district, except as otherwise provided in this section. If each school district involved in a school reorganization under chapter 275 has adopted the voter-approved physical plant and equipment levy and if the voters have not voted upon the proposition to levy the voter-approved physical plant and equipment levy in the reorganized district, the existing voter-approved physical plant and equipment levy is in effect for the reorganized district for the least amount and the shortest time for which it is in effect in any of the districts.

Authorized levies for the period of time approved are not affected as a result of a failure of a proposition proposed to expand the purposes for which the funds may be expended.

5. If the board of directors of a school district in which the voters have authorized the schoolhouse tax prior to July 1, 1991, has entered into a rental or lease arrangement under section 279.26, Code 1989, or has entered into a loan agreement under section 297.36, Code 1989, the levy shall continue for the period authorized and the maximum levy that can be authorized under the voter-approved physical plant and equipment levy is reduced by the rate of the schoolhouse tax.

Within fifteen days following certification by the state university of Iowa, the department of revenue and finance shall transmit the interest earned on the dedicated amount to the state university of Iowa for the use of the national center for gifted and talented education.

### 303.34 Areas of historical significance.

The provisions of sections 303.20 to 303.33 do not apply within the limits of a city. However, in order for a city to designate an area which is deemed to merit preservation as an area of historical significance, the following shall apply:

1. An area of historical significance shall be proposed by the governing body of the city on its own motion or upon the receipt by the governing body of a petition signed by residents of the city. The city shall submit a description of the proposed area of historical significance or the petition describing the proposed area, if the proposed area is a result of the receipt of a petition, to the historical division which shall determine if the proposed area meets the criteria in subsection 2 and may make recommendations concerning the proposed area. Any recommendations made by the division shall be made available by the city to the public for viewing during normal working hours at a city government place of public access.

2. A city shall not designate an area as an area of historical significance unless it contains contiguous pieces of property under diverse ownership which meets the criteria specified in section 303.20, subsection 1, paragraphs "a" to "f".

3. A city may provide by ordinance for the establishment of a commission to deal with matters involving areas of historical significance but shall provide by ordinance for such commission upon the enactment of the ordinance designating an area as an area of historical significance as required in subsection 4. Upon the establishment of the commission the city shall provide by ordinance for the method of appointment, the number, and terms, of members of the commission and for the duties and powers of the commission. The commission shall contain not less than three members. The members of the commission shall be appointed with due regard to proper representation of residents and property owners of the city and their relevant fields of knowledge including but not limited to history, urban planning, architecture, archaeology, law, and sociology. At least one resident of each designated area of historical significance shall be appointed to the commission. Cities with a population of more than fifty thousand shall not appoint more than one-third of the members to the commission of an area of historical significance that are members of a city zoning commission appointed pursuant to chapter 414. The commission shall have the power to approve or deny applications for proposed alterations to exterior features within an area designated as an area of historical significance. An aggrieved party may appeal the commission's action to the governing body of the city. If not satisfied by the decision of the governing body, the party may appeal within sixty days of the governing body's decision to the district court for the county in which the designated area is located. On appeal the governing body or the district court as the case may be shall consider whether the commission has exercised its powers and followed the guidelines established by the law and ordinance, and whether the commission's action was patently arbitrary or capricious.

4. An area shall be designated an area of historical significance upon enactment of an ordinance of the city. Before the ordinance or an amendment to it is enacted, the governing body of the city shall submit the ordinance or amendment to the historical division for its review and recommendations.

For the purpose of this section, the term "city" includes a special land use district established pursuant to subchapter IV of this chapter.

## ESTABLISHMENT, ALTERATION, AND VACATION OF HIGHWAYS

**306.4 Jurisdiction of systems.**

The jurisdiction and control over the roads and streets of the state are vested as follows:

1. Jurisdiction and control over the primary roads shall be vested in the department.
2. Jurisdiction and control over the secondary roads shall be vested in the county board of supervisors of the respective counties.
3. Jurisdiction and control over the municipal street system shall be vested in the governing bodies of each municipality; except that the department and the municipal governing body shall exercise concurrent jurisdiction over the municipal extensions of primary roads in all municipalities. When concurrent jurisdiction is exercised, the department shall consult with the municipal governing body as to the kind and type of construction, reconstruction, repair, and maintenance and the two parties shall enter into agreements with each other as to the division of costs thereof.

When the two parties cannot initially come to agreement as to the division of costs under this subsection, they shall contract with an organization in this state to provide mediation services. The costs of the mediation services shall be equally allocated between the two parties. If after submitting to mediation the parties still cannot come to agreement as to the division of costs, the mediator shall sign a statement that the parties did not reach an agreement, and the parties shall then submit the matter for binding arbitration to a mutually agreed-upon third party. If the parties cannot agree upon a third-party arbitrator, they shall submit the matter to an arbitrator selected under the rules of the American arbitration association.

4. Jurisdiction and control over the roads and streets in any state park, state institution or other state land shall be vested in the board, commission, or agency in control of such park, institution, or other state land; except that:

a. The department and the controlling agency shall have concurrent jurisdiction over any road which is an extension of a primary road and which both enters and exits from the state land at separate points. The department may expend the moneys available for such roads in the same manner as the department expends such funds on other roads over which the department exercises jurisdiction and control. The parties exercising concurrent jurisdiction may enter into agreements with each other as to the kind and type of construction, reconstruction, repair and maintenance and the division of costs thereof. In the absence of such agreement the jurisdiction and control of such road shall remain in the department.

b. The board of supervisors of any county and the controlling state agency shall have concurrent jurisdiction over any road which is an extension of a secondary road and which both enters and exits from the state land at separate points. The board of supervisors of any county may expend the moneys available for such roads in the same manner as the board expends such funds on other roads over which the board exercises jurisdiction and control. The parties exercising concurrent jurisdiction may enter into agreements with each other as to the kind and type of construction, reconstruction, repair and maintenance and the division of costs thereof. In the absence of such agreement, the jurisdiction and control of such road shall remain in the board of supervisors of the county.

5. Jurisdiction and control over parkways within county parks and conservation areas shall be vested in the county conservation boards within their respective counties; except that:

a. The department and the county conservation board shall have concurrent jurisdiction over an extension of a primary road which both enters and exits from a county park or other county conservation area at separate points. The department may expend moneys available for such roads in the same manner as the department expends such funds on other roads over which the department exercises jurisdiction and control. ### 306.9 Diagonal roads—restoring and improving existing roads.

It is the policy of the state of Iowa that relocation of primary highways through cultivated land shall be avoided to the maximum extent possible. When the volume of traffic for which the road is designed or other conditions, including designation as part of the network of commercial and industrial highways, require relocation, diagonal routes shall be avoided if feasible and prudent alternatives consistent with efficient movement of traffic exist.

The improvement of two-lane roads shall utilize the existing right-of-way unless alignment or other conditions, including designation as part of the network of commercial and industrial highways, make changes imperative, and when a two-lane road is expanded to a four-lane road, the normal procedure shall be that the additional right-of-way be contiguous to the existing right-of-way unless relocated for compelling reasons, including the need to provide efficient movement of traffic on the network of commercial and industrial highways. This policy does not apply to a highway project for which the corridor has been approved by the state department of transportation and the corridor has been finalized by September 1, 1977.

It is the policy of the state of Iowa that on construction of roads classified as freeway-expressway and which are designed with four-lane divided roadways, access controls shall be limited to the minimum level necessary as determined by the department to ensure the safe and efficient movement of traffic or to comply with federal aid requirements.

Unless otherwise required by the federal law or regulation, it is also the policy of this state that road use tax fund moneys shall be used to rehabilitate or reconstruct existing roads, streets, and bridges using substantially existing right-of-way. This paragraph does not apply where additional right-of-way is needed for the construction or completion of designated interstate or city routes and highway bypasses or highways designated as part of the network of commercial and industrial highways.

## CHAPTER 306A

## CONTROLLED-ACCESS HIGHWAYS

**306A.5 Acquisition of property and property rights.**

For the purposes of this chapter, cities and highway authorities having jurisdiction and control over the highways of the state, as provided by chapter 306, may acquire private or public property rights for controlled-access facilities and service roads, including rights of access, air, view, and light, by gift, devise, purchase, or condemnation in the same manner as such units are authorized by law to acquire such property or property rights in connection with highways and streets within their respective jurisdictions. All property rights acquired under this chapter shall be in fee simple. In connection with the acquisition of property or property rights for a controlled-access facility or portion of, or service road in connection with a controlled-access facility, the cities and highway authorities, in their discretion, may acquire an entire lot, block, or tract of land, if by so doing the interests of the public will be best served, even though the entire lot, block, or tract is not immediately needed for the right of way proper.

No access rights to any highway shall be acquired by any authority having jurisdiction and control over the highways of this state by adverse possession or prescriptive right. No action heretofore or hereafter taken by any such authority shall form the basis for any claim of adverse possession of, or prescriptive right to any access rights by any such authority.

**306C.24 Compensation for sign removal.**

1. *Definition.* As used in this section, "off-premises advertising device" means an advertising device which does not qualify as an "on-premises sign" under rules adopted by the department pursuant to chapter 17A.

2. *Just compensation required.* Political subdivisions of this state shall not remove, take, alter, or cause to be removed, taken, or altered a lawfully erected off-premises advertising device without paying just compensation in cash to the owner of the advertising device and to the owner of the real property on which the advertising device is located, as provided in section 306C.16. The department shall not remove, take, alter or cause to be removed, taken, or altered a lawfully erected off-premises advertising device subject to control under chapter 306B or 306C without paying just compensation when required under 23 U.S.C. §131(g) to the owner of the advertising device and to the owner of the real property on which the advertising device is located, as provided in section 306C.16. For the

department, the sole intent of this section is to comply with 23 U.S.C. §131(g) and it is not the intent of this section to, in any manner, relinquish any powers of the department relating to the control and removal of advertising devices under police power.

3. *Exceptions.* This section does not apply to the removal, taking, or altering of an off-premises advertising device under any of the following conditions:

a. The device is unlawfully erected or is being maintained in violation of the provisions of section 306C.13, subsection 8, or section 306C.18.

b. The device has been abandoned or not used for a period of at least six months.

4. *Department authorization.* If required by 23 U.S.C. §131(g), the department may acquire through purchase or condemnation and shall pay just compensation as provided in section 306C.16 for off-premises advertising devices removed after July 1, 1989, through amortization by an ordinance of a political subdivision enacted prior to July 1, 1989. Notwithstanding the requirements of section 306C.14, the department may first pay just compensation from the highway beautification fund and then claim reimbursement for the federal share of the payment from the federal government.

5. *Savings clause.* If any provision of this section which relates to the department is inconsistent or conflicts with, or is not required by, 23 U.S.C. §131 to avoid the loss of federal funds, the provision shall be suspended but only to the extent necessary to eliminate the inconsistency, conflict, or requirement. If any part of this section is found to be invalid or unconstitutional, such judgment shall not affect the validity of the section as a whole or any provision or part of the section not found to be invalid or unconstitutional.

2. Furnish information and instruction to, answer inquiries of, and advise with, highway officers on matters of highway construction and maintenance and the reasonable cost thereof.

3. Reserved.

4. Make surveys, plans, and estimates of cost, for the elimination of danger at railroad crossings on highways, and confer with local and railroad officials with reference to elimination of the danger.

5. Assist the board of supervisors and the department general counsel in the defense of suits wherein infringement of patents, relative to highway construction, is alleged.

8. Incur no expense to the state by sending out road lecturers.

9. Order the removal or alteration of any lights or light-reflecting devices, whether on public or private property, other than railroad signals or crossing lights, located adjacent to a primary road and within three hundred feet of a railroad crossing at grade, which in any way interfere with the vision of or may be confusing to a person operating a motor vehicle on such highway in observing the approach of trains or in observing signs erected for the purpose of giving warning of such railroad crossing.

10. Order the removal or alteration of any lights or light-reflecting devices, whether on public or private property, located adjacent to a primary road and within three hundred feet of an intersection with another primary road, which in any way interfere with the vision of or may be confusing to a person operating a motor vehicle on such highway in observing the approach of other vehicles or signs erected for the purpose of giving warning of such intersection.

11. Construct, reconstruct, improve and maintain state institutional roads and state park roads as defined in section 306.3 and bridges on such roads, roads located on state fairgrounds as defined in chapter 173 and the roads and bridges located on area school property as defined in chapter 280A upon the request of the state board, department or commission which has jurisdiction over such roads. This shall be done in such manner as may be agreed upon by the commission and the state board, department or commission which has jurisdiction. The commission may contract with any county or municipality for the construction, reconstruction, improvement or maintenance of such roads and bridges. Any state park road which is an extension of either a primary or secondary highway which both enters and exits from a state park at separate points shall be constructed, reconstructed, improved and maintained as provided in section 306.4. Funds allocated from the road use tax fund for the purposes of this subsection shall be apportioned in the ratio that the needs of the state institution roads and bridges, park roads and bridges or area school roads and bridges bear to the total needs of these facilities based upon the most recent quadrennial park and institution need study. The commission shall conduct a study of the road and bridge facilities in state parks, state institutions, state fairgrounds and on area school property. The study shall evaluate the construction and maintenance needs and projected needs based upon estimated growth for each type of facility to provide a quadrennially updated standard upon which to allocate funds appropriated for the purposes of this subsection.

12. Prepare, adopt and cause to be published a long-range program for the primary road system, in conjunction with the state transportation plan adopted by the commission. Such program shall be prepared for a period of at least five years and shall be revised, brought up to date and republished at least once every year in order to have a continuing five-year program. The program shall include, insofar as such estimates can be made, an estimate of the money expected to become available during the period covered by the program and a statement of the construction, maintenance, and other work planned to be performed during such period. The commission shall conduct periodic reinspections of the primary roads

in order to revise, from time to time, its estimates of future needs to conform to the physical and service conditions of the primary roads. The commission shall annually cause to be published a sufficiency rating report showing the relative conditions of the primary roads. Before the last day of December of each year, the commission shall adopt and cause to be published from its long-range program, a plan of improvements to be accomplished during the next calendar year. This annual program shall list definite projects in order of urgency and shall include a reasonable year's work with the funds estimated to be available. The annual program shall be final and followed by the commission in the next year except that deviations may be made in case of disaster or other unforeseen emergencies or difficulties. The relative urgency of the proposed improvements shall be determined by a consideration of the physical condition, safety, and service characteristics of the various primary roads.

13. The commission shall adopt such rules and regulations in accordance with the provisions of chapter 17A as it may deem necessary to transact its business and for the administration and exercise of its powers and duties.

14. For the four-year period beginning July 1, 1979, and for each subsequent four-year period, prepare, adopt and cause to be published the results of a study of all roads and streets in the state. The study shall be so designed to investigate present deficiencies and future twenty-year maintenance and construction needs of the roads and the ability of each applicable authority to meet the needs for the planning, construction, repair and maintenance of roads within their jurisdiction. The commission may gather information necessary to complete this study and shall be furnished assistance from any state agency as necessary to prepare, update and publish a report to be referred to as the "quadrennial need study" for the purposes of this chapter and chapter 312. The commission shall report the results of the study to the general assembly by January 1 of the last year in each four-year period and the study shall take effect the following July 1. This subsection does not preclude the commission from updating the quadrennial need study when necessary to reflect changes in road and street needs in the state.

15. Identify, within the primary road system, a network of commercial and industrial highways in accordance with section 313.2A. The improvement of this network shall be considered in the development of the long-range program and plan of improvements under this section.

## CHAPTER 307B

### RAILWAY FINANCE AUTHORITY

#### 307B.9 Obligations.

Except as provided in this chapter, all obligations are payable solely out of the pledged receipts as designated in the bond proceedings. Tax funds which the authority receives from a political subdivision of the state shall not be pledged for payment of the obligations. Except for those tax funds deposited in the special railroad facility fund as provided in sections 307B.23, subsection 3, 435.9 and 324A.8, the state shall not appropriate tax funds, directly or indirectly, to the authority for the purpose of payment of obligations of the authority. Obligations shall be authorized by resolution of the board and bond proceedings shall provide for the purpose of the obligations, the principal amount, the principal maturity or maturities, not exceeding twenty-five years from the date of issuance, the interest rate or rates or the maximum interest rate, the date of the obligations and the dates of payment of interest on them, their denomination, and the establishment within or without the state of a place or places of payment of bond service charges.

As much as is practicable within the legal and fiscal limitations inherent in bond issuance, a portion of the bonds shall be issued in denominations of five thousand dollars and smaller, in order to allow smaller investors in the state to purchase the bonds.

The purpose of the obligations may be stated in the bond proceedings in terms describing the general purpose or purposes to be served.

The bond proceedings shall also provide, subject to other applicable bond proceedings, for the pledge of all or such part, as the authority may determine, of the pledged receipts to the payment of bond service charges, which pledges may be made either prior or subordinate to other expenses, claims or payments, and may be made to secure the obligations on a parity with obligations issued at other times, if and to the extent provided in the bond proceedings. The pledged receipts so pledged and received by the authority are immediately subject to the lien of the pledge without physical delivery or further act, and the pledge of the pledged receipts is effective and these moneys may be applied to the purposes for which pledged without necessity for an Act of appropriation. Every pledge and every covenant and agreement with respect to a pledge made in the bond proceedings may be extended to the benefit of the owners and holders of obligations authorized by this chapter, and to any trustee for owners and holders, for the further security of the payment of the bond service charges.

The authority shall issue a prospectus or official statement in connection with the offering of obligations. Obligations may be issued in coupon or in registered form, or both. Provision may be made for the registration of obligations with coupons attached as to principal alone or as to both principal and interest, their exchange for obligations so registered, and for the conversion or reconversion into obligations with coupons attached of any obligations registered as to both principal and interest, and for reasonable charges for registration, exchange, conversion and reconversion. Obligations may be sold at public or private sale at the price, in the manner, and at the time determined by the governing board. ## CHAPTER 313

## IMPROVEMENT OF PRIMARY ROADS

**313.2A Commercial and industrial highways.**

1. *Purpose.* It is the purpose of this section to enhance opportunities for the development and diversification of the state's economy through the identification and improvement of a network of commercial and industrial highways. The network shall consist of interconnected routes which provide long distance route continuity. The purpose of this highway network shall be to improve the flow of commerce; to make travel more convenient, safe, and efficient; and to better connect Iowa with regional, national, and international markets. The commission shall concentrate a major portion of its annual construction budget on this network of commercial and industrial highways. In order to ensure the greatest possible availability of funds for the improvement of the network, primary highway funds shall not be spent beyond continuing maintenance for improvements to route segments that will be bypassed by the relocation of portions of the commercial and industrial highway network except as provided in subsection 4.

2. *Network selection.* The commission shall identify, within the primary road system, a network of commercial and industrial highways. The commission shall consider all of the following factors in the identification of this network:

a. The connection by the most direct routes feasible of major urban areas and regions of the state to each other and to the national system of interstate and defense highways and priority routes in adjacent states.

b. The existence of high volumes of total traffic and commercial traffic.

c. Long distance traffic movements.

d. Area coverage and balance of spacing with service to major growth centers within the state.

The network of commercial and industrial highways shall not exceed two thousand five hundred miles including municipal extensions of these highways.

3. *Standards.* The department shall establish standards pertaining to the specific location, design, and access control for each segment of the commercial and industrial highways.

4. *Jurisdictional transfers.* When the construction, reconstruction, relocation, or other improvement to the network of commercial and industrial highways results in a change in the function of a bypassed primary road, municipal extension of a primary road, or other connecting road, the department, upon approval of the state transportation commission, shall transfer jurisdiction of the road to the city or county as appropriate. Before the transfer takes place the department shall place the road and any structures on the road in good repair for continued maintenance or provide for the transfer of money to the appropriate jurisdiction sufficient for the repairs to the road and any structures on the road. If the department cannot come to agreement with the jurisdiction to which the road is transferred as to the necessary repairs, they shall contract with an organization in this state to provide mediation services. The costs of the mediation services shall be equally allocated between the parties. If after submitting to mediation the parties still cannot come to agreement as to the necessary repairs, the mediator shall sign a statement that the parties did not reach an agreement, and the parties shall then submit the matter for binding arbitration to a mutually agreed-upon third party. If the parties cannot agree upon a third-party arbitrator, they shall submit the matter to an arbitrator selected under the rules of the American arbitration association. Section 306.43 does not apply to transfers of jurisdiction under this subsection.

### 313.21 Primary extension improvements in cities.

The department, upon consultation with the council, may construct, reconstruct, improve, and maintain extensions of the primary road system within any city, including the construction, reconstruction, and improvement of storm sewers and electrical traffic control devices reasonably incident and necessary thereto. However, the improvement, exclusive of storm sewers, shall not exceed in width that of the primary road system and the amount of funds expended in any one year shall not exceed thirty-five percent of the primary road construction fund.

The department shall consult with the council to consider the proposed improvement in its relationship to municipal improvements such as sewers, water lines, sidewalks, and other public improvements, and the establishment or reestablishment of street grades. The location of the primary road extensions and the location, design, and degree of access control for improvements to them shall be determined by the department.

## CHAPTER 314

### GENERAL ADMINISTRATIVE PROVISIONS FOR HIGHWAYS

#### 314.5 Extensions in certain cities.

The agency in control of a secondary road, subject to approval of the council, may eliminate danger at railroad crossings and construct, reconstruct, improve, repair, and maintain any road or street which is an extension of the secondary road within a city. However, this authority does not apply to the extensions of secondary roads located in cities over twenty-five hundred population, where the houses or business houses average less than two hundred feet apart.

The phrase "subject to the approval of the council" as it appears in this section, shall be construed as authorizing the council to consider said proposed improvement only in its relationship to municipal improvements such as sewers, water lines, establishing grades, change of established street grades, sidewalks and other public improvements. The locations of such road extensions shall be determined by the agency in control of such road or road system.

### 314.20 Utility easements on highway right-of-way.

The department shall develop an accommodation plan for the longitudinal utility use of freeway right-of-way, in consultation with the utilities board. The plan shall be consistent with the rules of the federal highway administration of the United States department of transportation and shall be submitted to the federal highway administration for its approval by January 1, 1989. In developing the plan, the department shall provide for extended payment and lease agreements to provide continuous funding for the living roadway trust fund. ### 314.21 Living roadway trust fund.

1. The living roadway trust fund is created in the office of the treasurer of state. The moneys in this fund shall be used exclusively for the development and implementation of integrated roadside vegetation plans. Except as provided in subsections 2 and 3, the moneys shall only be expended for areas on or adjacent to road, street, and highway right-of-ways. The state department of transportation in consultation with the department of natural resources shall establish standards relating to the type of projects available for assistance. For the fiscal period beginning July 1, 1988, and ending March 31, 1990, the moneys in the fund shall be expended as follows: fifty-six percent on state department of transportation projects; thirty percent on county projects; and fourteen percent on city projects.

A city or county which has a project which qualifies for the use of these funds shall submit a request for the funds to the state department of transportation. A city or county may, at its option, apply moneys allocated for use on city or county projects under this subsection toward qualifying projects on the primary system. The state department of transportation in consultation with the department of natural resources shall determine which projects qualify for the funds and which projects shall be funded if the requests for the funds exceed the availability of the funds. In ranking applications for funds, the department shall consider the proportion of political subdivision matching funds to be provided, if any, and the proportion of private contributions to be provided, if any. In considering the proportion of political subdivision matching funds provided, the department shall consider only those moneys which are in addition to those which the political subdivision has historically provided toward such projects. Funds allocated to the cities, the counties, and the department which are not programmed by the end of each fiscal year shall be available for redistribution to any eligible applicant regardless of the original allocation of funds. Such funds shall be awarded for eligible projects based upon their merit in meeting the program objectives established by the department under section 314.22. The department shall submit a report of all projects funded in the previous fiscal year to the governor and to the general assembly on January 15 of each year.

Beginning April 1, 1990, the moneys in the living roadway trust fund shall be allocated between the state, counties, and cities in the same proportion that the road use tax funds are allocated under section 312.2, subsections 1, 2, 3, and 4. ### **316.8 Housing replacement by the displacing agency.**

1. If a project cannot proceed on a timely basis because comparable replacement dwellings are not available, and the displacing agency determines that such dwellings cannot otherwise be made available, the displacing agency may take such action as is necessary or appropriate to provide the dwellings by use of funds authorized for the program or project. The displacing agency may let contracts for the construction of the dwellings, approve plans and specifications for the building of the dwellings, and supervise, inspect, and approve the dwellings once constructed in order that the dwellings so constructed comply with the terms and conditions of this chapter. With reference to every specially constructed or reconstructed motor vehicle subject to registration the application shall be accompanied by a statement from the department authorizing the motor vehicle to be titled and registered in this state. The department shall cause a physical inspection to be made of all specially constructed or reconstructed motor vehicles, upon application for a certificate of title by the owner, to determine whether the motor vehicle is in a safe operating condition and that the integral component parts are properly identified and that the rightful ownership is established before issuing the owner the authority to have the motor vehicle registered and titled. With reference to every foreign vehicle which has been registered outside of this state the owner shall surrender to the treasurer all registration plates, registration cards, and certificates of title, or, if vehicle to be registered is from a nontitle state, the evidence of foreign registration and ownership as may be prescribed by the department except as provided in subsection 2.

3. The registration receipt shall be delivered to the owner and shall contain upon its face the date issued, the name and address of the owner, the registration number assigned to the vehicle, the title number assigned to the owner of the vehicle, the amount of the fee paid, the amount of tax paid pursuant to section 423.7, the type of fuel used, and a description of the vehicle as determined by the department, and upon the reverse side a form for notice of transfer of the vehicle.

The county treasurer shall maintain in the county record system information contained on the registration receipt. The information shall be accessible by registration number and shall be open for public inspection during reasonable business hours. Copies the department requires shall be sent to the department in the manner and at the time the department directs.

The certificate of title shall contain upon its face the identical information required upon the face of the registration receipt. In addition, the certificate of title shall contain a statement of the owner's title, the amount of tax paid pursuant to section 423.7, the name and address of the previous owner, and a statement of all security interests and encumbrances as shown in the application.

upon the vehicle described, including the nature of the security interest, date of notation, and name and address of the secured party. If the prior certificate of title was a salvage, rebuilt, or junking certificate of title in any other state, or if the prior certificate of title in any other state indicates that the vehicle was salvaged, rebuilt, or junked, the new certificate of title shall contain the same information together with the name of the state issuing the prior salvage, rebuilt, or junking certificate of title and a salvage, rebuilt, or junking designation together with the name of the state issuing the prior salvage, rebuilt, or junking certificate of title shall be retained on all subsequent Iowa certificates of title for the vehicle, except as provided in section 321.52. In the event a vehicle which previously had a salvage certificate of title from another state is repaired and a regular certificate of title is to be issued for it pursuant to section 321.52 without the designation rebuilt, the regular certificate of title shall indicate the state which had issued the prior salvage certificate of title in the same location in which Iowa certificates of title show the designation salvage or rebuilt, in addition to the name and address of the previous owner, in lieu of the salvage designation. The name of the state which had issued the prior salvage certificate of title shall remain in that location on every Iowa certificate of title issued thereafter for the vehicle. The department shall adopt rules to determine how other states' designations are to be indicated on Iowa titles.

The certificate shall bear the seal of the county treasurer or of the department, and the signature of the county treasurer, the deputy county treasurer, or the department director or deputy designee. The certificate shall provide space for the signature of the owner. The owner shall sign the certificate of title in the space provided with pen and ink upon its receipt. The certificate of title shall contain upon the reverse side a form for assignment of title or interest and warranty by the owner, for reassignments by a licensed dealer. Attached to the certificate of title shall be an application for a new certificate of title by the transferee as provided in this chapter. However, titles for mobile homes shall not be reassigned by licensed dealers. All certificates of title shall be typewritten or printed by other mechanical means.

The original certificate of title shall be delivered to the owner if no security interest or encumbrance appears on the certificate. Otherwise the certificate of title shall be delivered by the county treasurer or the department to the person holding the first security interest or encumbrance as shown in the certificate.

The county treasurer or the department shall maintain in the county or department records system information contained on the certificate of title. The information shall be accessible by title certificate number for a period of three years from the date of notification of cancellation of title or that a new title has been issued as provided in this chapter. Copies the department requires shall be sent to the department in the manner and at the time the department directs. The department shall designate a uniform system of title numbers to indicate the county of issuance.

A vehicle shall be registered for the registration year. A vehicle registered for the first time in this state shall be registered for the remaining unexpired months of the registration year and pay a registration fee prorated for the remaining unexpired months of the registration year.

If the county treasurer or department is not satisfied as to the ownership of the vehicle or that there are no undisclosed security interests in it, the county treasurer or department may register the vehicle but shall as a condition of issuing a certificate of title and registration receipt, require the applicant to file with the department a bond in the form prescribed by the department and executed by the applicant, and either accompanied by the deposit of cash with the department or also executed by a person authorized to conduct a surety business in this state. The bond shall be in an amount equal to one and one-half times the

current value of the vehicle as determined by the department and conditioned to indemnify any prior owner and secured party and any subsequent purchaser of the vehicle or person acquiring any security interest in it, and their respective successors in interest, against any expense, loss or damage, including reasonable attorney's fees, by reason of the issuance of the certificate of title of the vehicle or on account of any defect in or undisclosed security interest upon the right, title and interest of the applicant in and to the vehicle. Any such interested person has a right of action to recover on the bond for any breach of its conditions, but the aggregate liability of the surety to all persons shall not exceed the amount of the bond. The bond, and any deposit accompanying it, shall be returned at the end of three years or prior thereto if the vehicle is no longer registered in this state and the currently valid certificate of title is surrendered to the department, unless the department has been notified of the pendency of an action to recover on the bond.

### **321.50 Security interest provisions.**

1. A security interest in a vehicle subject to registration under the laws of this state or a mobile home, except trailers whose empty weight is two thousand pounds or less, and except new or used vehicles held by a dealer or manufacturer as inventory for sale, is perfected by the delivery to the county treasurer of the county where the certificate of title was issued or, in the case of a new certificate, to the county treasurer where the certificate will be issued, of an application for certificate of title which lists the security interest, or an application for notation of security interest signed by the owner, or by one owner of a vehicle owned jointly by more than one person, or a certificate of title from another jurisdiction which shows the security interest, and a fee of five dollars for each security interest shown. If the owner or secured party is in possession of the certificate of title, it must also be delivered at this time in order to perfect the security interest. If a vehicle is subject to a security interest when brought into this state, the validity of the security interest and the date of perfection is determined by section 554.9103. Delivery as provided in this subsection is an indication of a security interest on a certificate of title for purposes of chapter 554.

2. Upon receipt of the application and the required fee, the county treasurer shall notify the holder of the certificate of title to deliver to the county treasurer, within five days from the receipt of notice, the certificate of title to permit notation of the security interest. If the holder of the certificate of title shall fail to deliver it within the said five days, the holder shall be liable to anyone harmed by the holder's failure.

3. Upon receipt of the application, the certificate of title, if any, and the required fee, the county treasurer shall note such security interest, and the date thereof, on the certificate over the signature of such officer or deputy and the seal of office. The county treasurer shall also note such security interest and the date thereof in the county records system. The county treasurer shall then mail the certificate of title to the first secured party as shown thereon.

4. When a security interest is discharged, the holder shall note a cancellation of same on the face of the certificate of title over the holder's signature, and deliver the certificate of title to the county treasurer where title was issued. The county treasurer shall immediately note the cancellation of the security interest on the face of the certificate of title and in the county records system. The county treasurer shall on the same day deliver the certificate of title to the then first secured party or, if there is no such person, to the person as directed by the owner, in writing, on a form prescribed by the department or, if there is no person designated, then to the owner. The cancellation of the security interest shall be noted on the certificate of title by the county treasurer without charge. The holder of a security interest discharged by payment who fails to release the security interest within fifteen days after being requested in writing to do so shall forfeit to the person making the payment the sum of twenty-five dollars.

5. The Uniform Commercial Code, chapter 554, Article 9, shall apply to all transactions intended to create a security interest in vehicles except as provided in this chapter.

6. Any person obtaining possession of a certificate of title for a vehicle not already subject to a perfected security interest, except new or used vehicles held by a dealer or manufacturer as inventory for sale, who purports to have a security interest in such vehicle shall, within thirty days from the receipt of the certificate of title, deliver such certificate of title to the county treasurer of the county where it was issued to note such security interest and, if such person fails to do so, the

person's purported security interest in the vehicle shall be void and unenforceable and such person shall forthwith deliver the certificate of title to the county treasurer of the county where it was issued. If no security interest has been filed for notation on the certificate of title, the certificate shall be mailed by the treasurer to the owner of the vehicle. For purposes of determining the commencement date of the thirty-day period provided by this subsection, it shall be presumed that the purported security interest holder received the certificate of title on the date of the creation of the holder's purported security interest in the vehicle or the date of the issuance of the certificate of title, whichever is the latter. Any person collecting a fee from the owner of the vehicle for the purpose of perfecting a security interest in such vehicle who does not cause such security interest to be noted on the certificate of title by the county treasurer shall remit such fee to the department of revenue and finance of this state.

7. Upon request of any person, the county treasurer shall issue a certificate showing whether there are, on the date and hour stated therein, any security interests noted on a particular vehicle's certificate of title, and the name and address of each secured party whose security interest is noted thereon. The uniform fee for a written certificate shall be two dollars if the request for the certificate is on a form conforming to standards prescribed by the secretary of state; otherwise, three dollars. Upon request and payment of the appropriate fee, the county treasurer shall furnish a certified copy of any security interest notations for a uniform fee of one dollar per page.

### **321.52 Out-of-state sales—junked, dismantled, wrecked, or salvage vehicles.**

1. When a vehicle is sold outside the state for purposes other than for junk the owner, dealer or otherwise, shall detach the registration plates and registration card and shall indicate on the reverse side of such registration card the name and address of the foreign purchaser or transferee over the person's signature. The owner shall surrender the registration plates and registration card to the county treasurer, unless the registration plates are properly attached to another vehicle, who shall cancel the records and shall destroy the registration plates and forward the registration card to the department. The department shall make a notation on the records of the out-of-state sale, and, after a reasonable period, may destroy the files to that particular vehicle. The department is not authorized to make a refund of license fees on a vehicle sold out of state unless it receives the registration card completed as provided in this section.

2. The purchaser or transferee of a motor vehicle for which a certificate of title is issued which is sold for scrap or junk shall surrender the certificate of title to the county treasurer of the county of residence of the transferee within fifteen days after assignment of the certificate of title. The county treasurer shall issue to such person without fee a junking certificate. A junking certificate shall authorize the holder to possess, transport or transfer by endorsement the ownership of the junked vehicle. A certificate of title shall not again be issued for the vehicle subsequent to the issuance of a junking certificate. The county treasurer shall cancel the record of the vehicle and forward the certificate of title to the department. The junking certificate shall be of a form to allow for the assignment of ownership of the vehicle. The junking certificate shall provide a space for the notation of the transferee of the component parts of the vehicle transferred by the owner of the vehicle.

3. When a vehicle for which a certificate of title is issued is junked or dismantled by the owner, the owner shall detach the registration plates and surrender the plates to the county treasurer, unless the plates are properly assigned to another vehicle. The owner shall also surrender the certificate of title

to the county treasurer. Upon surrendering the certificate of title, the county treasurer shall issue to the person, without fee, a junking certificate, which shall authorize the holder to possess, transport or transfer ownership of the junked vehicle by endorsement of the junking certificate. The county treasurer shall hold the surrendered certificate of title, registration receipt and, if applicable, the registration plates for a period of fourteen days following the issuance of a junking certificate under this subsection. Within the fourteen-day period the person who was issued the junking certificate and to whom the vehicle was titled or assigned may surrender to the county treasurer the junking certificate, and upon the person's payment of appropriate fees and taxes and payment of any credit for registration fees received by the person for the vehicle under section 321.46, subsection 3, the county treasurer shall issue to the person a certificate of title for the vehicle. After the expiration of the fourteen-day period, a county treasurer shall not issue a certificate of title for a junked vehicle for which a junking certificate is issued. The county treasurer shall cancel the record of the vehicle and forward the certificate of title to the department.

However, upon application the department upon a showing of good cause may issue a certificate of title after the fourteen-day period for a junked vehicle for which a junking certificate has been issued. For purposes of this subsection, "good cause" means that the junking certificate was obtained by mistake or inadvertence. If a person's application to the department is denied, the person may seek judicial review as provided under sections 17A.19 and 17A.20.

4. a. A vehicle rebuilder or a motor vehicle dealer licensed under chapter 322, upon acquisition of a wrecked or salvage vehicle, shall surrender the certificate of title or manufacturer's or importer's statement of origin properly assigned, together with an application for a salvage certificate of title to the county treasurer of the county of residence of the purchaser or transferee within fourteen days after the date of assignment of the certificate of title for the wrecked or salvage motor vehicle. This subsection applies only to vehicles with a fair market value of five hundred dollars or more, based on the value before the vehicle became wrecked or salvage. Upon payment of a fee of two dollars, the county treasurer shall issue a salvage certificate of title which shall bear the word "SALVAGE" stamped or printed on the face of the title in a manner prescribed by the department. A salvage certificate of title may be assigned to any person. A vehicle on which ownership has transferred to an insurer of the vehicle, as a result of a settlement with the owner of the vehicle arising out of damage to, or unrecovered theft of the vehicle, shall be deemed to be a wrecked or salvage vehicle and the insurer shall comply with this subsection to obtain a salvage certificate of title within fourteen days after the date of assignment of the certificate of title of the vehicle. However, a vehicle that has major damage to four or more component parts as defined in paragraph "b" shall receive a junking certificate of title and shall not thereafter be granted a regular certificate of title.

b. When a wrecked or salvage vehicle has been repaired, the owner may apply for a regular certificate of title by paying the appropriate fees and surrendering the salvage certificate of title and a properly executed salvage theft examination certificate. The county treasurer shall issue a regular certificate of title which, commencing September 1, 1988, if the wrecked or salvage vehicle is five model years old or less, shall bear the word "REBUILT" stamped or printed on the face of the title. The rebuilt designation shall be included on every Iowa certificate of title issued thereafter for the vehicle. However, if ownership of a stolen vehicle has been transferred to an insurer organized under the laws of this state or admitted to do business in this state, or if the transfer was the result of a settlement with the owner of the vehicle arising from damage to or the unrecovered theft of the vehicle, and if the insurer certifies to the county treasurer on a form approved by the department that the cost of repairs to all damage to the vehicle is less than

three thousand dollars, the county treasurer shall issue the regular certificate of title without the rebuilt designation. The county treasurer shall issue a regular certificate of title without the "REBUILT" designation if, before repairs are made, a component parts review has been conducted by a peace officer who has been specially certified and recertified when required by the Iowa law enforcement academy to do salvage theft examinations. The Iowa law enforcement academy shall determine standards for training and certification, conduct training, and may approve alternative training programs which satisfy the academy's standards for training and certification. For the purpose of this section, a wrecked or salvage vehicle shall be considered to have component part damage if there is major damage requiring repairs or replacement of more than two of the vehicle's component parts. A "component part" means the rear clip, cowl, frame or inner structure forward of the cowl, body, cab, front end assembly, front clip, or such other parts which are critical to the safety of the vehicle as determined by rules adopted by the department. The owner shall pay a fee of thirty-five dollars upon the completion of the prerepair component parts review. The agency performing the examinations shall retain twenty-five dollars of the fee and shall pay five dollars of the fee to the department and five dollars of the fee to the Iowa law enforcement academy to provide for the special training, certification, and recertification of officers as required by this subsection. The peace officer conducting the review shall maintain a record of the review and shall forward a copy of the review to the department. The department shall maintain a record of all reviews. If a vehicle does not have component damage as determined in this subsection, the officer conducting the review shall issue a certificate to the owner to that effect. The certificate shall be surrendered to the county treasurer at the time of application for a regular certificate of title and the treasurer shall forward the certificate to the department.

The provision of this subsection requiring a component parts review by a peace officer specially certified or recertified by the Iowa law enforcement academy to do salvage theft examinations shall become effective July 1, 1990. Component parts reviews conducted before July 1, 1990, shall be made by peace officers authorized to do so by the state department of transportation or the department of public safety who are qualified, as determined by those agencies, to conduct component parts reviews. The state department of transportation shall adopt rules in accordance with chapter 17A to carry out this section, including transition rules allowing for component parts reviews prior to July 1, 1990.

c. A salvage theft examination shall be made by a peace officer who has been specially certified and recertified when required by the Iowa law enforcement academy to do salvage theft examinations. The Iowa law enforcement academy shall determine standards for training and certification, conduct training, and may approve alternative training programs which satisfy the academy's standards for training and certification. The owner of the salvage vehicle shall make the vehicle available for examination at a time and location designated by the peace officer doing the examination. The owner may obtain a permit to drive the vehicle to and from the examination location by submitting a repair affidavit to the agency performing the examination stating that the vehicle is reasonably safe for operation and listing the repairs which have been made to the vehicle. The owner must be present for the examination and have available for inspection the salvage title, bills of sale for all essential parts changed, and the repair affidavit. The examination shall be for the purposes of determining whether the vehicle or repair components have been stolen. The examination is not a safety inspection and a signed salvage theft examination certificate shall not be construed by any court of law to be a certification that the vehicle is safe to be operated. There shall be no cause of action against the peace officer or the agency conducting the examination or the county treasurer for failure to discover or note safety defects.

If the vehicle passes the theft examination, the peace officer shall indicate that the vehicle passed examination on the salvage theft examination certificate and, with regard to a vehicle which is required to bear the word "REBUILT" stamped or printed on the face of the title, shall permanently identify the vehicle as "rebuilt" on the driver's door jamb or other area on the vehicle as designated by the department. A removal or alteration of this rebuilt identification is a violation of section 321.92. The repair affidavit, permit, and salvage theft examination certificate shall be on controlled forms prescribed and furnished by the department. The owner shall pay a fee of thirty dollars upon completion of the examination. The agency performing the examinations shall retain twenty dollars of the fee and shall pay five dollars of the fee to the department and five dollars of the fee to the Iowa law enforcement academy to provide for the special training, certification, and recertification of officers as required by this subsection.

The provision of this subsection requiring a salvage theft examination by a peace officer specially certified or recertified by the Iowa law enforcement academy to do salvage theft examinations shall become effective July 1, 1989. Salvage theft examinations conducted before July 1, 1989, shall be made by peace officers authorized to do so by the state department of transportation or the department of public safety who are qualified, as determined by those agencies, to conduct salvage theft examinations. The state department of transportation shall adopt rules in accordance with chapter 17A to carry out this section, including transition rules allowing for salvage theft examinations prior to July 1, 1989.

d. For purposes of this subsection a "wrecked or salvage vehicle" means a damaged vehicle subject to registration and having a gross vehicle weight rating of less than thirty thousand pounds, for which the cost of repair exceeds fifty percent of the fair market value of the vehicle, as determined in accordance with rules adopted by the department, before it became damaged.

e. A person who titled the person's motor vehicle before May 1, 1989, may have a title issued on that motor vehicle to the person without the "REBUILT" designation, if the person can show adequate proof that the wrecked or salvage motor vehicle was inspected by a peace officer prior to being repaired prior to September 1, 1988, and show proof through receipts of used parts and photos of the damage to the wrecked or salvage motor vehicle that the motor vehicle did not have major damage requiring repairs or replacement of more than two of the vehicle's component parts. Upon proper application and payment of a two dollar fee, the county treasurer shall issue to the person the title to the person's motor vehicle without the "REBUILT" designation.

The registrant of a travel trailer of any type shall be issued a

“travel trailer” plate. It is further provided the annual fee thus computed shall be limited to seventy-five percent of the full fee after the vehicle is more than six model years old.

A travel trailer may be stored under section 321.134, provided the travel trailer is not used for human habitation for any period during storage and is not moved upon the highways of the state. A travel trailer stored under section 321.134 is not subject to a mobile home tax assessed under chapter 135D.

2. The annual registration fee for trucks, truck tractors, and road tractors, as provided in sections 321.121 and 321.122, may be payable in two equal semiannual installments if the annual registration fee exceeds the registration fee for a vehicle with a gross weight exceeding five tons. The penalties provided in subsection 1 shall be computed on the amount of the first installment only and on the first day of the seventh month of the registration period the same rate of penalty shall apply to the second installment, until the fee is paid. Semiannual installments do not apply to commercial vehicles subject to proportional registra-

1. *Approved course.* An approved driver education course as programmed by the department of education shall consist of at least thirty clock hours of classroom instruction, and six or more clock hours of laboratory instruction of which at least three clock hours shall consist of street or highway driving. An approved course shall include a minimum of two hours of classroom instruction concerning substance abuse as part of its curriculum. After the student has completed three clock hours of street or highway driving and has demonstrated to the instructor an ability to properly operate a motor vehicle and upon written request of a parent or guardian, the instructor may waive the remaining required laboratory instruction.

Every public school district in Iowa shall offer or make available to all students residing in the school district or Iowa students attending a nonpublic school in the district an approved course in driver education. The courses may be offered at sites other than at the public school, including nonpublic school facilities within the public school districts. An approved course offered during the summer months, on Saturdays, after regular school hours during the regular terms or partly in one term or summer vacation period and partly in the succeeding term or summer vacation period, as the case may be, shall satisfy the requirements of this section to the same extent as an approved course offered during the regular school hours of the school term. A student who successfully completes and obtains certification in an approved course in driver education or an approved course in motorcycle education may, upon proof of such fact, be excused from any field test which the student would otherwise be required to take in demonstrating the student's ability to operate a motor vehicle.

"*Student*" for purposes of this section, means a person between the ages of fourteen years and twenty-one years who resides in the public school district and who satisfies the preliminary licensing requirements of the department.

Any person who successfully completes an approved driver education course at a private or commercial driver education school licensed by the department, shall likewise be eligible for an operator's license at the age of sixteen years, providing the instructor in charge of the student's training has satisfied the educational requirements for a teaching certificate at the secondary level and holds a valid certificate to teach driver education in the public schools of Iowa.

#### *2. Restricted license.*

a. Any person between sixteen and eighteen years of age who is not in attendance at school or who is in attendance in a public or private school where an approved driver's education course is not offered or available, may be issued a restricted license only for travel to and from work without having completed an approved driver's education course. The restricted license shall be issued by the department only upon confirmation of the person's employment and need for a restricted license to travel to and from work and upon receipt of a written statement from the public or private school that an approved course in driver's education was not offered or available to the person, if applicable. The employer shall notify the department if the employment of the person is terminated before

the person attains the age of eighteen. The person shall not have a restricted license revoked or suspended upon re-entering school prior to age eighteen provided the student enrolls in and completes the classroom portion of an approved driver's education course as soon as a course is available.

b. The department may suspend a restricted license issued under this section upon receiving a record of the person's conviction for one violation and shall revoke the license upon receiving a record of conviction for two or more violations of a law of this state or a city ordinance regulating the operation of motor vehicles on highways, other than parking violations as defined in section 321.210. After revoking a license under this section the department shall not grant an application for a new license or permit until the expiration of one year or until the person attains the age of eighteen whichever is the longer period.

### **321.180 Instruction permits.**

1. A person who is at least fourteen years of age and who, except for the person's lack of instructions in operating a motor vehicle, would be qualified to obtain an operator's license, shall, upon meeting the requirements of section 321.186 other than a driving demonstration, and upon paying the required fee, be issued a temporary instruction permit by the department. Subject to the limitations in this subsection, a temporary instruction permit entitles the permittee, while having the permit in the permittee's immediate possession, to drive a motor vehicle upon the highways for a period of two years from the date of issuance. The permittee must be accompanied by a licensed operator or chauffeur who is at least eighteen years of age, who is an approved driver education instructor, or who is a prospective driver education instructor enrolled in and specifically designated by a practitioner preparation program with a safety education program approved by the state board of education, and who is actually occupying a seat beside the driver. The temporary instruction permit issued to a person who is less than sixteen years of age entitles the permittee to drive a motor vehicle upon the highways only when accompanied by a licensed operator or chauffeur who is the parent or guardian of the permittee, an approved driver education instructor, a prospective driver education instructor who is enrolled in and has been specifically designated by a practitioner preparation program with a safety education program approved by the state board of education, or a person who is twenty-five years of age or more if written permission is granted by the parent or guardian, and who is actually occupying a seat beside the driver.

If the permittee is driving a motorcycle, the qualified operator must be within audible and visual communications distance from the permittee and be accompanying the permittee on or in a different motor vehicle. Only one permit holder shall be under the immediate supervision of an accompanying qualified operator, unless the qualified operator is an approved motorcycle or driver education instructor or a prospective motorcycle or driver education instructor, and the permittee is enrolled in an approved motorcycle or driver education course, in which case no more than three students shall be under the immediate supervision of each instructor while on the highway.

2. A person, upon meeting each of the following requirements, shall be eligible to apply for a chauffeur's instruction permit valid for the operation of a motor vehicle requiring a chauffeur's license when the permittee is accompanied by a person, possessing a valid chauffeur's license, properly licensed to drive the motor vehicle and actually occupying a seat beside the permittee. An applicant must be at least eighteen years of age, otherwise qualified to obtain a valid chauffeur's license and must meet the requirements of section 321.186 other than a driving demonstration. The chauffeur's instruction permit shall be valid for a period not to exceed two years and shall be returned to the department upon receipt of a valid

chauffeur's license. Issuance of a chauffeur's instruction permit shall not require the surrender of a valid operator's license.

A permittee shall not be penalized for failing to have the permit in immediate possession if the permittee produces in court, within a reasonable time, an instruction permit issued to the permittee and valid at the time of the permittee's arrest.

The card, including the colored photograph, shall be issued to the applicant at the time of application and no positive or negative photograph shall be retained. The department shall, by rule, establish procedures for the application for, and issuance of, a nonoperator's identification card. An identification card shall not be valid unless it bears the usual signature of the card holder.

The department shall use a process or processes for issuance of a nonoperator's identification card, that prevents, as nearly as possible, the opportunity for alteration or reproduction of, and the superimposition of a photograph on the nonoperator's identification card without ready detection.

The fee for a nonoperator's identification card shall be five dollars and the card shall be valid for the purpose of identification for a period of four years from the date of issuance.

The nonoperator's identification card fees shall be transmitted by the department to the treasurer of state who shall credit such fees to the general fund of the state.

2. *Unlawful use of nonoperator's identification cards.* It is a simple misdemeanor, punishable as provided in section 321.482, for any person:

a. To display or permit to be displayed or possess any fictitious or fraudulently altered nonoperator's identification card.

b. To lend the person's nonoperator's identification card to any person or knowingly permit the use of such card by another person.

c. To display or represent as one's own a nonoperator's identification card not issued to such person.

d. To fail or refuse to surrender to the department upon its lawful demand an expired or invalid nonoperator's identification card.

f. To permit any unlawful use of a nonoperator's identification card issued to such person.

3. *Colored photograph—procedures.* The department shall in issuing licenses, permits and nonoperator's identification cards bearing a colored photograph of the licensee, permittee or card holder use such processes that prevent to the maximum extent possible, the alteration or reproduction of the license, permit or card including the ability to superimpose a photograph on a license, permit or card without ready detection.

### 321.194 Minors' school licenses.

Upon certification of a special need by the school board or the superintendent of the applicant's school, the department may issue a school license to a person between the ages of fourteen and eighteen years who has successfully completed an approved driver education course. However, the completion of a course is not required if the applicant demonstrates to the satisfaction of the department that completion of the course would impose a hardship upon the applicant. The department shall adopt rules under chapter 17A defining the term "*hardship*" and establish procedures for the demonstration and determination of when completion of the course would impose a hardship upon an applicant. The school license entitles the holder, while having the license in immediate possession, to operate a motor vehicle during the hours of 6 a.m. to 10 p.m. over the most direct and accessible route between the licensee's residence and schools of enrollment and between schools of enrollment for the purpose of attending duly scheduled courses of instruction and extracurricular activities at the schools or at any time when accompanied by a parent or guardian, member of the license holder's immediate family if the family member is at least twenty-one years of age, driver education instructor, or prospective driver education instructor who is a holder of a valid operator's or chauffeur's license, and who is actually occupying a seat beside the driver. The license shall expire on the licensee's eighteenth birthday or upon issuance of a restricted license under section 321.178, subsection 2, or operator's license. Parental consent given for the issuance of a school license under this section shall not be deemed to be consent given under section 321.184 for the issuance of any other permit or license applied for by the school license applicant.

Each application shall be accompanied by a statement from the school board or superintendent of the applicant's school. The statement shall be upon a form provided by the department. The school board or superintendent shall certify that a need exists for the license and that the board and superintendent are not responsible for actions of the applicant which pertain to the use of the school license. The department of education shall adopt rules pursuant to chapter 17A establishing criteria for issuing a statement of necessity. Upon receipt of a statement of necessity, the department shall issue a school license. The fact that the applicant resides at a distance less than one mile from the applicant's schools of enrollment is prima facie evidence of the nonexistence of necessity for the issuance of a license. A school license shall not be issued for purposes of attending a public school in a school district other than the district of residence, or a district which is contiguous to the district of residence, of the parent or guardian of the student, if the student is enrolled in the public school which is not the school district of residence because of open enrollment under section 282.18 or as a result of an election by the student's district of residence to enter into one or more sharing agreements pursuant to the procedures in chapter 282.

A license issued under this section is subject to suspension or revocation in like manner as any other license or permit issued under a law of this state. The department may also suspend a license upon receiving satisfactory evidence that the licensee has violated the restrictions of the license or has been involved in one or more accidents chargeable to the licensee. The department may suspend a license issued under this section and a permit issued under section 321.180 upon receiving a record of the licensee's conviction for one violation. The department shall revoke the license and any permit issued under section 321.180 upon receiving a record of conviction for two or more violations of a law of this state or a city ordinance regulating the operation of motor vehicles on highways other than parking violations as defined in section 321.210. After revoking a license or permit under this section the department shall not grant an application for a new

license or permit until the expiration of one year or until the licensee's sixteenth birthday whichever is the longer period.

### **321.195 Duplicate certificates, motor vehicle licenses, and nonoperator's identification cards.**

In the event that a motor vehicle license, nonoperator's identification card, or extension certificate issued under the provisions of this chapter is lost or destroyed, the person to whom the same was issued may upon payment of a fee of three dollars for a motor vehicle license or nonoperator's identification card, or one dollar for an extension certificate, obtain a duplicate, or substitute thereof, upon furnishing proof satisfactory to the department that the motor vehicle license, nonoperator's identification card, or extension certificate has been lost or destroyed. A fee of one dollar shall be charged for the voluntary replacement of a motor vehicle license or nonoperator's identification card.

### **321.196 Expiration of operator's license—renewal—vision test mandatory.**

Except as otherwise provided, an operator's license expires, at the option of the applicant, two or four years from the licensee's birthday anniversary occurring in the year of issuance if the licensee is between the ages of seventeen years, eleven months and seventy years on the date of issuance of the license, otherwise the license is effective for a period of two years. The license is renewable without written examination or penalty within a period of thirty days after its expiration date. A person shall not be considered to be driving with an invalid license during a period of thirty days following the license expiration date. However, for a license renewed within the thirty-day period, the date of issuance shall be considered to be the previous birthday anniversary on which it expired. Applicants whose licenses are restricted due to vision or other physical deficiencies may be required to renew their licenses every two years. For the purposes of this section the birthday anniversary of a person born on February 29 shall be deemed to occur on March 1. All applications for renewal of operators' licenses shall be made under the direct supervision of a uniformed member of the department and shall be approved by the uniformed member. The department in its discretion may authorize the renewal of a valid license upon application without an examination provided that the applicant satisfactorily passes a vision test as prescribed by the department.

Any resident of Iowa holding a valid operator's or chauffeur's license who is temporarily absent from the state, or incapacitated, may, at the time for renewal for such license, obtain from the sheriff of the county of the licensee's residence a form to apply for a temporary extension of the license. The department upon receipt of such application form properly filled out shall, upon a showing of good cause, issue a temporary extension of such license for not to exceed six months. The department shall prescribe and furnish such forms to each county sheriff.

Prior to the renewal of a license pursuant to this section, the department shall issue to each applicant information on the law relating to the operation of a motor vehicle while intoxicated and statistical information relating to the number of injuries and fatalities occurring as a result of the operation of motor vehicles while intoxicated.

### **321.210 Authority to suspend—point system—temporary restricted license.**

The department is hereby authorized to establish rules under the provisions of chapter 17A providing for the suspension of the license of an operator or chauffeur

without preliminary hearing upon a showing by its records or other sufficient evidence that under the rules adopted by the department the licensee:

1. Has committed an offense for which mandatory revocation of license is required upon conviction.
2. Is an habitually reckless or negligent driver of a motor vehicle.
3. Is an habitual violator of the traffic laws.
4. Is physically or mentally incapable of safely operating a motor vehicle.
5. Has permitted an unlawful or fraudulent use of the license.
6. Has committed an offense in another state which if committed in this state would be grounds for suspension or revocation.
7. Has committed a serious violation of the motor vehicle laws of this state.
8. Is subject to a license suspension under section 321.513.

For the purpose of determining when to suspend a license under this section the director may, in accordance with the provisions of chapter 17A, promulgate a point system for the purpose of weighing traffic convictions, or offenses by their seriousness and may change such weighted scale from time to time as experience or the accident frequency in the state makes necessary or desirable.

Prior to a suspension taking effect under subsection 2, 3, 4, 5 or 7, the licensee shall have received twenty days' advance notice of the effective date of the suspension. Notwithstanding the terms of the Iowa administrative procedure Act, the filing of a petition for judicial review shall operate to stay the suspension pending the determination by the district court.

If the department assesses any points against an operator or chauffeur of a motor vehicle under any point system devised by the department for the purpose of suspending operators' or chauffeurs' licenses, the licensee shall receive a credit of one point for each year in which the licensee had in continuous effect a valid operator's or chauffeur's license and during which no points were assessed against such licensee, but such credit of points shall not exceed five points at any one time. Credit points shall be subtracted from the total points assessed against the licensee in determining when to suspend a license.

If the department assesses any points against an operator or chauffeur of a motor vehicle under any point system devised by the department for the purpose of suspending operators' or chauffeurs' licenses, the department must notify the licensee by ordinary mail that such points have been assessed and the reason therefor. Such notice shall also contain a reference to all Code sections under which the person's motor vehicle license may be suspended, revoked, canceled or denied. Provided that no license shall be suspended on the basis of any point system devised by the department without notice of proposed suspension to the licensee and a reasonable opportunity for a preliminary hearing before a member of the department who shall have authority in meritorious cases to revoke the suspension.

However, a warning memorandum, summons, conviction or forfeiture of bail not vacated, for a violation of any section of the Code or any municipal ordinance pertaining to the standards to be maintained for motor vehicle equipment, except section 321.430 or 321.431 or any municipal ordinance pertaining to motor vehicle brake requirements, shall not be taken into consideration in determining suspension or the length of suspension of an operator's or chauffeur's license. A violation of section 321.430 or 321.431 or any municipal ordinance pertaining to motor vehicle brake requirements shall not be taken into consideration in determining suspension or the length of suspension of an operator's or chauffeur's license if the equipment in violation of the Code or municipal ordinance has been repaired within seventy-two hours of such warning memorandum, summons, conviction, or forfeiture of bail not vacated, and evidence of such repair has immediately been sent to the director.

The department shall not consider nor assess points for violations of section 321.445 in determining a motor vehicle license suspension, revocation or cancellation.

The department shall not consider or assess any points for violations of section 321.446, in determining a license suspension under this section.

The department shall not consider or assess points for a parking violation in determining a license suspension under this section and a parking violation is not a moving traffic violation. For purposes of this section, a "parking violation" means a violation of a parking ordinance by local authorities, a violation of section 321L.4, section 321.366, subsection 6, or sections 321.354 through 321.361 except section 321.354, subsection 1.

The department shall not consider or assess any points for speeding violations of ten miles per hour or less over the legal speed limit in speed zones that have a legal speed limit equal to or greater than thirty-five miles per hour but not greater than fifty-five miles per hour in determining a license suspension under this section. This paragraph shall apply to only the first two such violations which occur within any twelve-month period.

The department may, on application, issue a temporary restricted license to a person, whose motor vehicle license is suspended, canceled, or revoked under this chapter, allowing the person to drive to and from the person's home and specified places at specified times which can be verified by the department and which are required by the person's full-time or part-time employment; continuing health care or the continuing health care of another who is dependent upon the person; continuing education while enrolled in an educational institution on a part-time or full-time basis and while pursuing a course of study leading to a diploma, degree, or other certification of successful educational completion; substance abuse treatment; or court-ordered community service responsibilities. However, a temporary restricted license shall not be issued to a person whose license is revoked under section 321.209, subsections 1 through 5. A temporary restricted license may be issued to a person whose license is revoked under section 321.209, subsection 6, only if the person has no previous drag racing convictions. A person holding a temporary restricted license issued by the department under this section shall not operate a motor vehicle for pleasure.

### **321.211 Notice and hearing—appropriation.**

Upon suspending the license of a person as authorized, the department shall immediately notify the licensee in writing and upon the licensee's request shall afford the licensee an opportunity for a hearing before the department of inspections and appeals as early as practical within thirty days after receipt of the request. The hearing shall be held by telephone conference unless the licensee and the department of inspections and appeals agree to hold the hearing in the county in which the licensee resides or in some other county. Upon the hearing the department of inspections and appeals may administer oaths and issue subpoenas for the attendance of witnesses and the production of relevant books and papers and may require a re-examination of the licensee. Upon the hearing and issuance of a recommendation by the department of inspections and appeals, the state department of transportation shall either rescind its order of suspension or for good cause may extend the suspension of the license or revoke the license. This section does not preclude the director from attempting to effect an informal settlement under chapter 17A.

There is appropriated each year from the road use tax fund to the department of transportation one hundred twenty-five thousand dollars or as much thereof as is necessary to be used to pay the cost of notice and personal delivery of service, as necessary to meet the notice requirement of this section. The department shall

adopt rules governing the payment of the cost of personal delivery of service. The reinstatement fees collected under section 321.191 shall be deposited in the road use tax fund in the manner provided in section 321.192, as reimbursement for the costs of notice under this section.

A peace officer stopping a person for whom a notice of a suspension or revocation has been issued or to whom a notice of a hearing has been sent under the provisions of this section may personally serve such notice upon forms approved by the department to satisfy the notice requirements of this section. The peace officer may confiscate the motor vehicle license of such person if the license has been revoked or has been suspended subsequent to a hearing and the person has not forwarded the motor vehicle license to the department as required.

Notwithstanding section 232.55, a final adjudication in a juvenile court that the child violated a provision of this chapter or chapter 321A or chapter 321J constitutes a final conviction of a violation of a provision of this chapter or chapter 321A or chapter 321J for purposes of section 321.189, subsection 2, paragraph "b", and sections 321.193, 321.194, 321.200, 321.209, 321.210, 321.215, 321A.17, 321J.2, 321J.3, and 321J.4.

**321.457 Maximum length.**

1. A combination of four vehicles is not allowed on the highways of this state, except for power units saddle mounted on other power units which shall be restricted to a maximum overall length of sixty-five feet.

2. The maximum length of any motor vehicle or combination of vehicles operated on the highways of this state, unless subject to the maximum length provisions of subsection 3, are as follows:

a. A single truck, unladen or with load, shall not have an overall length, inclusive of front and rear bumpers, in excess of forty feet.

b. A single bus, unladen or with load, shall not have an overall length, inclusive of front and rear bumpers, in excess of forty feet, except that buses constructed so as to contain a flexible part allowing articulation shall not exceed sixty-one feet.

c. Except for combinations of vehicles, provisions for which are otherwise made in this chapter, no combination of a truck tractor and a semitrailer coupled together or a motor truck and a trailer or semitrailer coupled together unladen or with load, shall have an overall length, inclusive of front and rear bumpers, in excess of sixty feet.

d. However, a mobile home not in excess of forty-eight feet in length may be drawn by any motor vehicle, except a motor truck, provided that the mobile home and its towing unit are not in excess of an overall length of sixty feet. For the purposes of this subsection, a light delivery truck, panel delivery truck or "pickup" is not a motor truck. A portable livestock loading chute not in excess of a length of thirteen feet including its hitch or tongue may be drawn by any vehicle

or combination of vehicles, provided that the vehicle or combination of vehicles drawing the loading chute is not in excess of the legal length provided for such vehicles or combinations.

e. Combinations of vehicles coupled together which are used exclusively for the transportation of passenger vehicles, light delivery trucks, panel delivery trucks, pickup trucks, recreational vehicle chassis, and boats shall not exceed sixty-five feet in overall length. However, the load carried on a truck-semitrailer combination may extend up to three feet beyond the front bumper and up to four feet beyond the rear bumper.

f. A combination of three vehicles coupled together one of which is a motor vehicle, unladen or with load, shall not have an overall length, inclusive of front and rear bumpers, in excess of sixty feet.

g. A motor vehicle or combination of vehicles may be operated upon the highways of this state, irrespective of the length and weight limitations imposed by the laws of this state, if the motor vehicle or combination of vehicles is operated within the corporate limits of a city abutting a border of this state and such operations have been approved by ordinance of the city council and if the length and weight of the motor vehicle or combination of vehicles is in conformity with the laws relating to length and weight of the abutting state on July 1, 1974. If a city council has authorized such operation upon highways within the corporate limits, then the limit of travel for such motor vehicles or combination of vehicles within the state is extended to the commercial zones as described by federal regulations concerning interstate commerce, 49 code of federal regulations, paragraphs 1048.10, 1048.38, and 1048.101 as they exist on July 1, 1974.

h. A semitrailer shall not have a distance between the kingpin and the center of its rearmost axle in excess of forty feet, except a semitrailer used principally for hauling livestock, a semitrailer used exclusively for hauling self-propelled industrial and construction equipment, or a semitrailer used exclusively for the purposes described in paragraph e of this subsection. A semitrailer which is a 1980 or older model having a distance between the kingpin and center of the rearmost axle of more than forty feet may be operated on the highways of this state if a special overlength permit is obtained from the department for the vehicle. The special overlength permit shall be valid until the semitrailer is inoperable.

3. The maximum length of any motor vehicle or combination of vehicles operated on the highways of this state which are designated by the transportation commission shall be as follows:

a. A trailer or semitrailer, laden or unladen, shall not have an overall length in excess of fifty-three feet when operating in a truck tractor-semitrailer combination.

b. A trailer or semitrailer, laden or unladen, shall not have an overall length in excess of twenty-eight feet six inches when operating in a truck tractor-semitrailer-trailer combination or truck tractor-semitrailer-semitrailer combination. When the semitrailers in a truck tractor-semitrailer-semitrailer combination are connected by a rigid frame extension including a fifth-wheel connection point attached to the rear frame of the first semitrailer, the length of the frame extension shall not be included when determining the overall length of the first semitrailer.

c. Power units designed to carry cargo, when used in combination with a trailer or semitrailer shall not exceed sixty-five feet in overall length for the combination.

d. In a combination of vehicles used principally for hauling livestock or a stinger-steered automobile transporter operating under this subsection and section 321.454, subsection 2, the combination of vehicles used principally for hauling livestock or the stinger-steered automobile transporter may depart from the designated highway system by the most direct route to points of pickup and

delivery. Vehicles operating under this paragraph are not exempt from posted size and weight restrictions on highway structures.

e. A stinger-steered automobile transporter shall not have an overall length exceeding seventy-five feet, except that the load may extend up to three feet beyond the front bumper and up to four feet beyond the rear bumper.

The commission shall adopt rules to designate the highways. The rules adopted by the department under this paragraph are exempt from chapter 17A, the Iowa administrative procedure Act.

4. Fire fighting apparatus and vehicles operated during daylight hours when transporting poles, pipe, machinery, or other objects of a structural nature which cannot be readily disassembled when required for emergency repair of public service facilities or properties are not subject to the limitations on overall length of vehicles and combinations of vehicles imposed under this section. However, for operation during nighttime hours, these vehicles and the load being transported shall be equipped with a sufficient number of clearance lamps on both sides and marker lamps at the extreme ends of the projecting load to clearly mark the dimensions of the load. A member of the state highway safety patrol shall also be notified prior to the operation of the vehicle.

### **321.463 Maximum gross weight.**

An axle may be divided into two or more parts, except that all parts in the same vertical transverse plane shall be considered as one axle.

The gross weight on any one axle of a vehicle, or of a combination of vehicles, operated on the highways of this state, shall not exceed twenty thousand pounds on an axle equipped with pneumatic tires, and shall not exceed fourteen thousand pounds on an axle equipped with solid rubber tires. The gross weight on any tandem axle of a vehicle, or any combination of vehicles, shall not exceed thirty-four thousand pounds on an axle equipped with pneumatic tires.

A group of two or more consecutive axles of any vehicle or combination of vehicles, shall not carry a load in pounds in excess of the overall gross weight determined by application of the following formula:  $W$  equals  $500(LN/N-1 + 12N + 36)$ .  $W$  equals the overall gross weight on any group of two or more consecutive axles to the nearest five hundred pounds,  $L$  equals the distance in feet, rounded to the nearest whole foot, between the extreme of any group of two or more consecutive axles, and  $N$  equals the number of axles in the group under consideration. The following are exceptions to application of the formula:

1. Two consecutive sets of tandem axles may carry a gross load of thirty-four thousand pounds each providing the overall distance between the first and last axles of the consecutive sets of tandem axles is thirty-six feet or more.

2. On highways not part of the interstate system, a vehicle or combination of vehicles having:

a. Four axles where the extreme axles are eighteen feet apart may carry a gross load of fifty-three thousand pounds.

b. Five axles where the extreme axles are thirty-two feet apart may carry a gross load of sixty-seven thousand five hundred pounds.

c. Six or more axles where the extreme axles are forty-one feet apart may carry a gross load of seventy-eight thousand pounds.

For every foot of distance between extreme axles less than the above axle spacings, the overall gross weight of the vehicle or combination of vehicles shall be determined by deducting one thousand pounds from the gross loads specified in paragraphs "a", "b" and "c". All measurements between extreme axles shall be rounded to the nearest whole foot.

The maximum gross weight shall not exceed eighty thousand pounds.

The weight on any one axle, including a tandem axle, of a vehicle which is transporting livestock on highways not part of the interstate system may exceed the legal maximum weight given in this chapter providing that the gross weight on any particular group of axles on such vehicle does not exceed the gross weight allowable under this chapter for such groups of axles.

In addition, the weight on any one axle, including a tandem axle, of a vehicle which is transporting raw materials which are removed from a road under construction, may exceed the legal maximum weight otherwise allowed under this chapter by ten percent if the gross weight on any particular group of axles on the vehicle does not exceed the gross weight allowed under this chapter for that group of axles. However, if the vehicle exceeds the ten percent tolerance allowed for any one axle or tandem axle under this paragraph the fine to be assessed for the axle or tandem axle shall be computed on the difference between the actual weight and the ten percent tolerance weight allowed for the axle or tandem axle under this paragraph. This paragraph applies only to vehicles operating along a route of travel approved by the department.

A person who operates a vehicle in violation of the provisions of this section, and an owner, or any other person, employing or otherwise directing the operator of a vehicle, who requires or knowingly permits the operation of a vehicle in violation of the provisions of this section shall be fined according to the following schedule:

#### AXLE, TANDEM AXLE, AND GROUP OF AXLES WEIGHT VIOLATIONS

Pounds Overloaded	Amount of Fine
Up to and including 1,000 pounds	\$10 plus one-half cent per pound
Over 1,000 pounds to and including 2,000 pounds	\$15 plus one-half cent per pound
Over 2,000 pounds to and including 3,000 pounds	\$80 plus three cents per pound
Over 3,000 pounds to and including 4,000 pounds	\$100 plus four cents per pound
Over 4,000 pounds to and including 5,000 pounds	\$150 plus five cents per pound
Over 5,000 pounds to and including 6,000 pounds	\$200 plus seven cents per pound
Over 6,000 pounds	\$200 plus ten cents per pound

Fines for gross weight violations for vehicles or combinations of vehicles shall be assessed at one-half of the fine rate schedule for axle, tandem axle, and groups of axles weight violations.

Except as otherwise provided, the amount of the fine to be assessed shall be computed on the difference between the actual weight and the maximum legal weight specified in this section by applying the appropriate rate in the preceding schedule for the total amount of overload.

The schedule of fines may be assessed in addition to any other penalties provided for in this chapter.

Overloads on axles and tandem axles and overloads on groups of axles or on an entire vehicle or combination of vehicles shall be considered as separate violations of the provisions of this section.

A person who issues or executes, or causes to be issued or executed, a bill of lading, manifest, or shipping document of any kind which states a false weight of the cargo

set forth on such bill, manifest, or document, which is less than the actual weight of the cargo, shall, upon conviction, be guilty of a simple misdemeanor.

### **321.484 Offenses by owners.**

It is unlawful for the owner, or any other person, employing or otherwise directing the driver of any vehicle to require or knowingly to permit the operation of such vehicle upon a highway in any manner contrary to law.

The owner of a vehicle shall not be held responsible for a violation of a provision regulating the stopping, standing, or parking of a vehicle, whether the provision is contained in this chapter, or chapter 321L, or an ordinance or other regulation or rule, if the owner establishes that at the time of the violation the vehicle was in the custody of an identified person other than the owner pursuant to a lease as defined in chapter 321F. The furnishing to the clerk of the district court where the charge is pending of a copy of the certificate of responsibility prescribed by section 321F.6 that was in effect for the vehicle at the time of the alleged violation shall be prima facie evidence that the vehicle was in the custody of an identified person other than the owner within the meaning of this paragraph, and the charge against the owner shall be dismissed. The clerk of the district court then shall cause a uniform citation and complaint to be issued against the lessee of the vehicle, and the citation shall be served upon the defendant by ordinary mail directed to the defendant at the address shown in the certificate of responsibility.

If a peace officer as defined in section 801.4 has reasonable cause to believe the driver of a motor vehicle has violated sections 321.261, 321.262, 321.264, or 321.372, the officer may request any owner of the motor vehicle to supply information identifying the driver. When requested, the owner of the vehicle shall identify the driver to the best of the owner's ability. However, the owner of the vehicle is not required to supply identification information to the officer if the owner believes the information is self-incriminating.

1. The director shall upon request furnish any person a certified abstract of the operating record of a person subject to chapter 321, 321J, or this chapter. The abstract shall also fully designate the motor vehicles, if any, registered in the name of the person. If there is no record of a conviction of the person having violated any law relating to the operation of a motor vehicle or of any injury or damage caused by the person, the director shall so certify. A fee of five dollars shall be paid for each abstract except by state, county, city or court officials. The director shall transfer the moneys collected under this section to the treasurer of state who shall credit annually to the abstract fee fund created under section 321A.3A the first one million three hundred fifty thousand dollars collected and shall credit to the general fund all additional moneys collected.

The sheriff shall charge a fee of five dollars for each abstract which the sheriff shall transfer to the director quarterly. The sheriff may charge an additional fee sufficient to cover costs incurred by the sheriff in producing the abstract.

3. The abstracts are not admissible as evidence in an action for damages or criminal proceedings arising out of a motor vehicle accident.

4. The abstract of operating record provided under this section shall designate which speeding violations occurring on or after July 1, 1986, but before May 12, 1987, are for violations of ten miles per hour or less over the legal speed limit in speed zones that have a legal speed limit greater than thirty-five miles per hour. For speeding violations occurring on or after May 12, 1987, the abstract provided under this section shall designate which speeding violations are for ten miles per hour or less over the legal speed limit in speed zones that have a legal speed limit equal to or greater than thirty-five miles per hour but not greater than fifty-five miles per hour.

5. The director may permit any person to view the operating record of a person subject to chapter 321 or this chapter through one of the department's computer terminals or through a computer printout generated by the department. The director shall not require a fee for a person to view their own operating record, but the director shall impose a fee of one dollar for each of the first five operating records viewed within a calendar day and two dollars for each additional operating record viewed within the calendar day.

6. Fees under subsections 1 and 5 may be paid by credit cards, as defined in section 537.1301, subsection 16, approved for that purpose by the director of transportation. The director shall enter into agreements with financial institutions extending credit through the use of credit cards to ensure payment of the fees. The director shall adopt rules pursuant to chapter 17A to implement the provisions of this subsection.

7. Notwithstanding chapter 22 or any other law of this state, except as provided in subsection 5, the director shall not make available an operating record in a manner which would result in a fee of less than that provided under subsection 1. Should the director make available copies of abstracts of operating records on magnetic tape or on disk or through electronic data transfer, the five dollar fee under subsection 1 applies to each abstract supplied.

2. Such license and registration shall remain suspended or revoked and shall not at any time thereafter be renewed nor shall any license be thereafter issued to such person, nor shall any motor vehicle be thereafter registered in the name of such person until permitted under the motor vehicle laws of this state and not then unless and until the person shall give and thereafter maintain proof of financial responsibility.

If a person is not licensed, but by final order or judgment is convicted of or forfeits any bail or collateral deposited to secure an appearance for trial for any offense requiring the suspension or revocation of license, or for operating an unregistered motor vehicle upon the highways, no license shall be thereafter issued to such person and no motor vehicle shall continue to be registered or thereafter be registered in the name of such person until the person shall give and thereafter maintain proof of financial responsibility.

4. Whenever the director suspends or revokes a nonresident's operating privilege by reason of a conviction or forfeiture of bail, such privilege shall remain so suspended or revoked unless such person shall have previously given or shall immediately give and thereafter maintain proof of financial responsibility.

The commission has supervisory responsibility over the registration of all-terrain vehicles and snowmobiles and shall provide each county recorder with registration forms and certificates and shall allocate identification numbers to each county.

The owner of the all-terrain vehicle or snowmobile shall file an application for registration with the appropriate county recorder on forms provided by the commission. The application shall be completed and signed by the owner of the all-terrain vehicle or snowmobile and shall be accompanied by a fee of twenty dollars and a writing fee. An all-terrain vehicle or a snowmobile shall not be registered by the county recorder until the county recorder is presented with receipts, bills of sale, or other satisfactory evidence that the sales or use tax has been paid for the purchase of the all-terrain vehicle or snowmobile or that the owner is exempt from paying the tax. However, an owner of an all-terrain vehicle, except an all-terrain vehicle purchased new on or after January 1, 1990, may apply for registration without proof of sales or use tax paid until one year after January 1, 1990. b. Whether a test was administered and the test results indicated an alcohol concentration as defined in section 321J.1 of .10 or more.

3. After the hearing the department shall order that the revocation be either rescinded or sustained. If the revocation is sustained, the administrative law judge who conducted the hearing may issue a temporary restricted license to the person whose motor vehicle license or operating privilege was revoked. Upon receipt of the decision of the department to sustain a revocation, the person contesting the revocation has ten days to file a request for review of the decision by the director. The director or the director's designee shall review the decision within fifteen days and shall either rescind or sustain the revocation or order a new hearing. If the director orders a new hearing, the department shall grant the person a new hearing within thirty days of the director's order.

4. A person whose motor vehicle license or operating privilege has been or is being revoked under section 321J.9 or 321J.12 may reopen a department hearing on the revocation if the person submits a petition stating that new evidence has been discovered which provides grounds for rescission of the revocation, or prevail at the hearing to rescind the revocation, if the person submits a petition stating that a criminal action on a charge of a violation of section 321J.2 filed as a result of the same circumstances which resulted in the revocation has resulted in a decision in which the court has held that the peace officer did not have reasonable grounds to believe that a violation of section 321J.2 had occurred to support a request for or to administer a chemical test or which has held the chemical test to be otherwise inadmissible or invalid. Such a decision by the court is binding on the department and the department shall rescind the revocation.

5. The department shall stay the revocation of a person's motor vehicle license or operating privilege for the period that the person is contesting the revocation under this section or section 321J.14 if it is shown to the satisfaction of the department that the new evidence is material and that there were valid reasons for failure to present it in the contested case proceeding before the department.

6. If the department fails to comply with the time limitations of this section regarding granting a hearing, review by the director or the director's designee, or granting a new hearing, and if the request for a hearing or review by the director was properly made under this section, the revocation of the motor vehicle license or operating privilege of the person who made the request for a hearing or review shall be rescinded. This subsection shall not apply in those cases in which a continuance to the hearing has been granted at the request of either the person who requested the hearing or the peace officer who requested or administered the chemical test.

Therefore, in the public interest and notwithstanding the terms, provisions, or conditions of any franchise, a franchisee unable to obtain motor fuel from the franchisor may purchase the fuel from another available source, subject to subsections 2 to 5 and provided the franchisee has done all of the following:

a. At least forty-eight hours prior to entering into an agreement to purchase motor fuel from another source, the franchisee has requested delivery of motor fuel from the franchisor and the requested motor fuel has not been delivered and the franchisor has given the franchisee notice that the franchisor is unable to provide the requested motor fuel, or prior to entering into an agreement the franchisor has stated to the franchisee that the requested motor fuel will not be delivered. The request to the franchisor for delivery shall be for a type of fuel normally provided by the franchisor to the franchisee and for a quantity of fuel not exceeding the average amount sold by the franchisee in one week, based upon average weekly sales in the three months preceding the request, except that this provision shall not restrict a franchisee from purchasing gasohol from a source other than the franchisor or limit the quantity to be purchased when the franchisor does not normally supply the franchisee with gasohol.

b. The franchisee has requested and has been denied delivery of motor fuel sold or distributed under the trademark named in the franchise from a person other than franchisor.

The size of the sign shall not be less than eight inches by ten inches and the letters on the sign shall be at least three inches in height.

5. A franchisee who sells motor fuel supplied from a source other than the franchisor shall also fully indemnify the franchisor against any claims asserted by a user on which the claimant prevails and in which the court determines that motor fuel not acquired from the franchisor was the proximate cause of the injury.

### MOTOR FUEL TAX LAW

#### 324.4 Distributor's license.

It shall be unlawful for any person to receive motor fuel within this state or to otherwise act as a distributor unless the person holds an uncanceled distributor's license issued by the department. To procure a license a distributor shall file with the department an application signed under penalty for false certificate and in such form as the department may prescribe, setting forth:

1. The name under which the distributor will transact business in the state of Iowa.

2. The location, with street number address, of the principal office or place of business of the distributor within this state.

3. The name and complete residence address of the owner or the names and addresses of the partners, if the distributor is a partnership, or the names and addresses of the principal officers, if the distributor is a corporation or association.

The department may deny the issuance of a license to an applicant who is substantially delinquent in the payment of a tax due, or the interest or penalty on the tax, administered by the department. If the applicant is a partnership, a license may be denied if a partner owes any delinquent tax, interest, or penalty. If the applicant is a corporation, a license may be denied if any officer having a substantial legal or equitable interest in the ownership of the corporation owes any delinquent tax, interest, or penalty of the applicant corporation.

If (a) any application for a license to transact business as a distributor in this state shall be filed by any person whose license shall have been canceled for cause at any time theretofore under the provisions of the chapter or any prior motor fuel tax law, or (b) the department shall be of the opinion that such application is not filed in good faith, or (c) the application is filed by some person as a subterfuge for the real person in interest whose license or registration shall theretofore have been canceled for cause under the provisions of this chapter or any prior motor fuel tax law, the department, after a hearing of which the applicant shall have been given fifteen days' notice in writing and in which said applicant shall have

the right to appear in person or by counsel and present testimony, shall have and is hereby given the right and authority to refuse to issue to the applicant a distributor's license.

Upon the filing of the application, a filing fee of ten dollars shall be paid to the department.

The application in proper form having been accepted for filing, the filing fee paid and the other conditions and requirements of this section and division IV having been complied with, the department shall issue to the applicant a license to transact business as a distributor in this state. The license shall remain in full force and effect until canceled as provided in this chapter.

The license shall not be assignable, and shall be valid only for the distributor in whose name issued, and shall be displayed conspicuously in the principal place of business of the distributor in this state.

The department shall keep and file all applications and bonds with an alphabetical index thereof, together with a record of all licensees.

Every claim is subject to the following conditions:

1. The claim shall be on a form prescribed by the department and be certified by the claimant under penalty for false certificate.

2. The claim shall have attached thereto the original invoice or other proof as prescribed by the department showing the purchase of the motor fuel or special fuel on which a refund is claimed.

3. An invoice shall not be acceptable in support of a claim for refund unless it is a separate serially numbered invoice covering no more than one purchase of motor fuel or special fuel, prepared by the seller on a form approved by the department which will prevent erasure or alteration; nor unless it is legibly written with no corrections or erasures and shows the date of sale, the name and address of the seller and of the purchaser, the kind of fuel, the gallonage in figures, the per gallon price of the motor fuel or special fuel, the total purchase price including the Iowa motor fuel or special fuel tax and that the total purchase price including tax has been paid; provided, that as to refund invoices made on a billing machine the department may waive any of the requirements of this subsection.

4. The claim shall state the gallonage of motor fuel or special fuel that was used or will be used by the claimant other than in watercraft or aircraft or to propel motor vehicles, the manner in which the motor fuel or special fuel was used or will be used and the equipment in which it was used or will be used.

5. The claim shall also state whether or not the claimant used fuel for watercraft or aircraft or to propel motor vehicles from the same tanks or

receptacles in which the claimant kept the motor fuel on which the refund is claimed.

6. A refund shall not be paid with respect to any motor fuel or special fuel taken out of this state in fuel supply tanks of watercraft, aircraft, or motor vehicles.

7. A refund shall not be paid with respect to motor fuel or special fuel purchased more than four calendar months prior to the date the claim was filed with the department.

8. A refund shall not be paid with respect to motor fuel or special fuel used in the performance of a contract which is paid out of state funds unless the contract for the work contains a certificate made under penalty for false certificate that the estimate, bid or price to be paid for the work includes no amount representing motor fuel or special fuel tax subject to refund.

9. If an original invoice is lost or destroyed the department may in its discretion accept a copy identified and certified by the seller as being a true copy of the original.

10. The right of a person to a refund under this section shall not be assignable. Claim shall be made by and the amount of the refund when determined by the department shall be paid to the person who purchased the motor fuel or special fuel as shown in the supporting invoice.

11. In order to verify the validity of a claim for refund the department shall have the right to require the claimant to furnish such additional proof of validity as the department may determine and to examine the books and records of the claimant. Failure of a claimant to furnish the claimant's books and records for examination shall constitute a waiver of all rights to refund related to the transaction in question.

12. Refunds shall be made of motor vehicle fuel taxes paid on motor fuel or special fuel placed in motor vehicles and used, other than on public highways, in the extraction and processing of natural deposits, without regard to whether such motor vehicles are registered under section 321.18. An applicant for a refund under this subsection must maintain adequate records for a period of three years beyond the filing of the claim. The department will pay the claim upon the presentation of proof which may reasonably be required.

13. A bona fide commercial fisher, licensed and operating under an owner's certificate for commercial fishing gear issued pursuant to section 109B.4 is entitled to receive a motor fuel or special fuel tax refund under this section.

14. In lieu of the refund provided in this section, a person may receive an income tax credit as provided in chapter 422, division IX, but only as to motor fuel or special fuel not used in motor vehicles, aircraft, or watercraft.

A claim for refund shall not be allowed which is in an amount of less than ten dollars.

### **324.36 Special fuel distributors', special fuel dealers' and special fuel users' licenses.**

1. *Required.* It is unlawful for a person to act as a special fuel dealer in this state unless the person holds a special fuel dealer's license issued to the person by the department, except as provided in this section. A person who holds a special fuel distributor's license may dispense special fuel into a motor vehicle or aircraft special fuel holding tank without obtaining a special fuel dealer's license. Except for special fuel which is delivered by a special fuel dealer into a fuel supply tank of a motor vehicle or aircraft or into a motor vehicle or aircraft special fuel holding tank in this state or delivered by a special fuel distributor into a motor vehicle or aircraft special fuel holding tank, the use of special fuel in this state by a person is unlawful unless the person holds a special fuel user's license issued to the

person by the department. It is unlawful for a person to sell special fuel in this state in bulk for highway or aircraft use without first obtaining a special fuel distributor's license. The license shall be issued under the same procedure and subject to the same requirements and limitations as provided in section 324.4.

2. *Application.* Application for a special fuel dealer's license or a special fuel user's license shall be made to the department. A special fuel dealer's license or a special fuel user's license, whichever is applicable, shall be required for each separate place of business or location where special fuels are regularly delivered or placed into the fuel supply tank of a motor vehicle or aircraft. However, if a special fuel dealer also operates one or more bulk plants from which the distribution of a special fuel is primarily by tank vehicle, the special fuel dealer need not obtain a separate license for any of these plants not provided with fixed equipment designed for fueling vehicles or aircraft. Upon written application and at the discretion of the director, a special fuel user whose business operations require mobile special fuel storage may obtain a single special fuel user's license to be issued to the user's permanent principal place of business. Upon written application and at the discretion of the director, a special fuel dealer may be issued a special license to dispense fuel from a tankwagon into the fuel supply tank of a motor vehicle. The special license shall be issued for the dealer's place of business and all of the provisions of this division apply to the dispensing of fuel from tankwagons. A special fuel dealer is not required to obtain a special license to dispense fuel from a tankwagon into the fuel supply tank of an aircraft.

3. *Form of application.* The application shall be filed upon a form prepared and furnished by the department and shall contain such information as the department deems necessary.

4. *Issuance.* Upon receipt of the application, the department shall issue to the applicant a license to act as a special fuel dealer or a special fuel user; provided, however, the department may refuse to issue a special fuel dealer's license or a special fuel user's license to any person: (a) who formerly held either type of license and which has been revoked for cause; or (b) who is a subterfuge for the real party in interest whose license has been revoked for cause; or (c) upon other sufficient cause being shown. Before refusal, the department shall grant the applicant a hearing and give the applicant at least fifteen days' written notice of the time and place thereof.

5. *Expiration of license.* Each special fuel dealer's license and special fuel user's license shall be valid until suspended or revoked for cause or otherwise canceled.

6. *Assignment forbidden.* A special fuel dealer's license or special fuel user's license shall not be transferable.

89 Acts, ch 251, §6 SF 154  
Subsection 2 amended

### **324.65 Failure to promptly pay fuel taxes—refunds—interest and penalties—successor liability.**

If a licensee or other person fails to remit at least ninety percent of the tax due with the filing of the return on or before the due date or pays less than ninety percent of any tax required to be shown on the return, there shall be added to the tax a penalty of seven and one-half percent of the amount of the tax due, except as provided in section 421.27. The penalty imposed under this section is not subject to waiver. The taxpayer shall also pay interest on the tax or additional tax at the rate in effect under section 421.7 counting each fraction of a month as an entire month, computed from the date the return was required to be filed. If the amount of the tax as determined by the appropriate state agency is less than the amount paid, the excess shall be refunded with interest, the interest to begin to accrue on the first day of the third calendar month following the date of payment or the date the return was due to be filed or was filed, whichever is the latest, at the rate in

effect under section 421.7 counting each fraction of a month as an entire month under the rules prescribed by the appropriate state agency. In lieu of a refund allowed under this section, the licensee may request that the department allow the refund to be held as a credit for the licensee.

The appropriate state agency shall not remit any part of a penalty for delinquent payment if the delinquency results from the fact that a check given in payment is not honored because of insufficient funds in the account upon which the check was drawn. However, if it appears as a result of an investigation that there has been a deliberate attempt on the part of a licensee or other person to evade payment of fuel taxes there shall be added to the assessment against the offending person and collected a penalty of seventy-five percent of the tax due. A report required of licensees or persons operating under division III, upon which no tax is due, is subject to a penalty of ten dollars if the report is not timely filed with the state department of transportation.

If a licensee or other person sells the licensee's or other person's business or stock of goods or quits the business, the licensee or other person shall prepare a final return and pay all tax due within the time required by law. The immediate successor to the licensee or other person, if any, shall withhold sufficient of the purchase price, in money or money's worth, to pay the amount of any delinquent tax, interest or penalty due and unpaid. If the immediate successor of the business or stock of goods intentionally fails to withhold any amount due from the purchase price as provided in this paragraph, the immediate successor is personally liable for the payment of the taxes, interest and penalty accrued and unpaid on account of the operation of the business by the immediate former licensee or other person, except when the purchase is made in good faith as provided in section 421.28. However, a person foreclosing on a valid security interest or retaking possession of premises under a valid lease is not an "immediate successor" for purposes of this paragraph. The department may waive the liability of the immediate successor under this paragraph if the immediate successor exercised good faith in establishing the amount of the previous liability.

Unnumbered paragraph 2 amended

### **324.67 Limitation on collection proceedings.**

An action or other proceeding shall not be maintained to enforce collection of any amount of fuel tax, penalty, or interest over and above the amount shown to be due by reports filed by a licensee except upon an assessment by the department of revenue and finance as authorized in this chapter. An assessment shall not be made covering a period beyond three years prior to the date of assessment except that the period for the examination and determination of the correct amount of tax is unlimited in the case of a false or fraudulent return made with the intent to evade tax or in the case of a failure to file a return.

89 Acts, ch 251, §8 SF 154  
Section amended

### **324.68 Power of department of revenue and finance or the state department of transportation to cancel licenses.**

If a licensee files a false report of the data or information required by this chapter, or fails, refuses, or neglects to file a report required by this chapter, or to pay the full amount of fuel tax as required by this chapter, or is substantially delinquent in paying a tax due, owing, and administered by the department of revenue and finance, and interest and penalty if appropriate, or if the person is a corporation and if any officer having a substantial legal or equitable interest in the ownership of the corporation owes any delinquent tax of the licensee corporation, or interest or penalty on the tax, administered by the department, then after ten days' written notice by mail directed to the last known address of

the licensee setting a time and place at which the licensee may appear and show cause why the license should not be canceled, and if the licensee fails to appear or if upon the hearing it is shown that the licensee failed to correctly report or pay the tax, the appropriate state agency may cancel the license and shall notify the licensee of the cancellation by mail to the licensee's last known address.

If a licensee abuses the privileges for which the license was issued, fails to produce records reasonably requested or fails to extend reasonable co-operation to the appropriate state agency, the licensee shall be advised in writing of a hearing scheduled to determine if the license shall be canceled. The appropriate state agency upon the presentation of a preponderance of evidence may cancel a license for cause.

The director of the appropriate state agency may reissue a license which has been canceled for cause. As a condition of reissuance of a license, in addition to requirements for issuing a new license, the director may require a waiting period not to exceed ninety days before a license can be reissued or a new license issued. The director shall adopt rules specifying those instances for which a waiting period will be required.

Upon receipt of written request from any licensee the appropriate state agency shall cancel the license of the licensee effective on the date of receipt of the request. If, upon investigation, the appropriate state agency finds that a licensee is no longer engaged in the activities for which a license was issued and has not been so engaged for a period of six months, the state agency shall cancel the license and give thirty days' notice of the cancellation mailed to the last known address of the licensee.

Pending determination of an application filed with the department for approval of a sale, transfer, lease, or assignment, the department may grant temporary approval of the proposed operation upon a finding of good cause.

A regular route passenger certificate shall not be sold, transferred, leased, or assigned without the approval of the department. The department shall approve the sale, transfer, lease or assignment if the person obtaining or seeking to obtain ownership or control of a certificate is found to be fit, willing and able to perform the service proposed. ### LIQUID TRANSPORT CARRIERS

#### **327A.4 Disposal of certificate.**

If a person files an application with the department for authority to sell, transfer, lease, or assign a certificate of convenience and necessity issued under this chapter, the department shall request the department of inspections and appeals to fix a date for hearing. The state department of transportation shall cause a notice addressed to the citizens of each county through or in which the proposed service will be rendered to be published in a newspaper of general circulation in each such county, once each week for two consecutive weeks. The department shall notify each liquid transport carrier holding a certificate, issued by the department, to transport over, in, or through the area described in the application, by mailing notice of the hearing to each such carrier at least ten days before the date fixed for hearing. Chapter 325 and this chapter, as appropriate, are applicable to the hearing.

89 Acts, ch 273, §17 HF 163  
Section amended

#### **327A.14 Prior service—rights transferred or assigned.**

A liquid transport carrier actively and continuously engaged in business as such between the first day of December, 1956, and the fourteenth day of January, 1957, shall be issued a certificate of convenience and necessity covering all points

in this state to all other points in this state, and all routes and areas in this state, if the application is made within sixty days after May 17, 1957. Rights so granted shall not be sold, leased, transferred, or assigned to a person engaged directly or indirectly in the transportation for hire of liquid products in bulk or freight in interstate commerce or in intrastate commerce, in this or any other state, or the District of Columbia, or to any person engaged in the leasing of equipment for such purposes, except rights which are actively being exercised at the time of sale, lease, transfer, or assignment; however, rights so granted may be sold, leased, transferred, or assigned to a person who has not engaged directly or indirectly in the transportation for hire of liquid products in bulk or freight in interstate or intrastate commerce prior to the date of the transfer, or to a person who has not prior to that date engaged in the leasing of equipment for that purpose, and it is not necessary for the department to find that the sale, lease, transfer, or assignment is necessary in the public interest. Before any rights may be sold, leased, transferred, or assigned, application shall be filed with the department of transportation, which shall request the department of inspections and appeals to set a date for hearing on the application, and section 327A.4 is applicable. Rights actively being exercised may be sold, leased, transferred, or assigned to a person engaged in the transportation for hire of liquid products in bulk or freight under the conditions set forth in this section:

1. When an application for a sale, lease, transfer, assignment, consolidation, merger, or acquisition of control is filed with the department, if after a hearing by the department of inspections and appeals, the department of transportation finds that the proposed purchaser, lessee, transferee, or assignee is fit, willing and able, that the proposed seller, lessor, transferor, or assignor has not abandoned, suspended, or discontinued operations, that the transaction proposed will be consistent with the public interest, and that the conditions of this section have been or will be fulfilled, the department of transportation may enter an order approving and authorizing the sale, lease, transfer, assignment, consolidation, merger, or acquisition of control, upon terms and conditions it finds to be just and reasonable and with modifications as it may prescribe.

2. Except as otherwise provided in subsection 1, it is unlawful for a person to accomplish or effectuate, or to participate in accomplishing or effectuating, the control or management in a common interest of any two or more persons engaged in the transportation for hire of liquid products in bulk or freight or of one or more persons so engaged, however such result is attained, whether directly or indirectly, by use of common directors, officers, or stockholders, a holding or investment company or companies, a voting trust or trusts, or in any other manner.

3. The department may, upon complaint or upon its own initiative without complaint, investigate and determine whether a person is violating this section. If the department finds upon investigation that a person is violating this section, it shall, after a hearing conducted by the department of inspections and appeals, require the person to take action consistent with this chapter to prevent continued violation of this section.

## CHAPTER 327C

### SUPERVISION OF CARRIERS

#### 327C.8 Objections—hearing.

A person directly affected by the proposed discontinuance of an agency may file written objections with the department stating the grounds for the objections, within fifteen days from the time of the publication of the notice as provided in

section 327C.7. Upon the filing of objections the department shall request the department of inspections and appeals to hold a hearing, which shall be held within sixty days from the filing of the objections. Written notice of the time and place of the hearing shall be mailed by the department of inspections and appeals to the railroad corporation and the person filing objections at least ten days prior to the date fixed for the hearing.

89 Acts, ch 273, §19 HF 163  
Section amended

### **327C.12 Aid from courts.**

The department or the department of inspections and appeals may invoke the aid of any court of record in the state in requiring the attendance and testimony of witnesses and the production of books, papers, tariff schedules, agreements, and other documents. If a person refuses to obey a subpoena or other process, a court having jurisdiction of the inquiry shall issue an order requiring any of the officers, agents, or employees of a carrier or other person to appear before either department and produce all books and papers required by the order and testify in relation to any matter under investigation.

Section amended

### **327C.17 Penalty.**

If a railroad fails or refuses to comply with a rule or order made by the state department of transportation or the department of inspections and appeals within the time specified, the railroad is, for each day of such failure, subject to a schedule "two" penalty.

Section amended

### **327C.19 Review.**

A decision of the department of inspections and appeals is subject to review by the state department of transportation.

Judicial review of the actions of the state department of transportation may be sought in accordance with chapter 17A.

89 Acts, ch 273, §22 HF 163  
Section amended

### **327C.20 Remitting penalty.**

If a common carrier fails in a judicial review proceeding to secure a vacation of the order objected to, it may apply to the court in which the review proceeding is finally adjudicated for an order remitting the penalty which has accrued during the review proceeding. Upon a satisfactory showing that the petition for judicial review was filed in good faith and not for the purpose of delay, and that there were reasonable grounds to believe that the order was unreasonable or unjust or that the power of the department of transportation or the department of inspections and appeals to make the order was doubtful, the court may remit the penalty that has accrued during the review proceeding.

89 Acts, ch 273, §23 HF 163  
Section amended

### **327C.25 Complaints.**

A person may file with the department a petition setting forth any particular in which a common carrier has violated the law to which it is subject and the amount of damages sustained by reason of the violation. The department shall furnish a copy of the complaint to the carrier against which a complaint is filed. The department shall request the department of inspections and appeals to schedule a hearing in which the carrier shall answer the petition or satisfy the demands of the complaint. If the carrier fails to satisfy the complaint within the time fixed or

there appears to be reasonable grounds for investigating the matters set forth in the petition, the department of inspections and appeals shall hear and determine the questions involved and make orders it finds proper. If the department of transportation has reason to believe that a carrier is violating any of the laws to which it is subject, the department may institute an investigation and request the department of inspections and appeals to conduct a hearing in relation to the matters as if a petition had been filed.

89 Acts, ch 273, §24 HF 163  
Section amended

### **327C.26 Reports.**

When a hearing has been held before the department of inspections and appeals after notice, it shall make a report in writing setting forth the findings of fact and its conclusions together with its recommendations as to what reparation, if any, the offending carrier shall make to a party who has suffered damage. The findings of fact are prima facie evidence in all further legal proceedings of every fact found. All reports of hearings and investigations made by the department of inspections and appeals shall be entered of record and a copy furnished to the carrier against which the complaint was filed, to the party complaining, and to any other person having a direct interest in the matter. A reasonable fee not to exceed the actual duplication costs may be charged for the copies.

89 Acts, ch 273, §25 HF 163  
Section amended

### **327C.28 Violation of order—petition—notice.**

If a person violates or fails to obey a lawful order or requirement of the department of transportation or the department of inspections and appeals, the department of transportation or the department of inspections and appeals shall apply by petition in the name of the state against the person, to the district court, alleging the violation or failure to obey. The court shall hear and determine the matter set forth in the petition on reasonable notice to the person, to be fixed by the court and to be served in the same manner as an original notice for the commencement of action.

89 Acts, ch 273, §26 HF 163  
Section amended

### **327C.29 Interested party may begin proceedings.**

A person interested in enforcing an order or requirement of the department of transportation or the department of inspections and appeals, may file a petition against the violator, alleging the failure to comply with the order or requirement and asking for summary relief to the same extent and in the same manner as the department of transportation or the department of inspections and appeals may under section 327C.28, and the proceedings after the filing of the petition shall be the same as in section 327C.28.

#### **327D.53 Division of joint rates.**

Before the adoption of the rates, the department shall notify the railroad corporations interested in the schedule of joint rates fixed, and give them a reasonable time to agree upon a division of the charges provided. If the corporations fail to agree upon a division, and to notify the department of their

agreement, the department shall, after a hearing conducted by the department of inspections and appeals, decide the rates, taking into consideration the value of terminal facilities and all the circumstances of the haul, and the division so determined by it is, in all controversies or actions between the railroad corporations interested, prima facie evidence of a just and reasonable division.

89 Acts, ch 273, §28 HF 163  
Section amended

### **327D.66 Rate schedules—filing and public access.**

Every common carrier, except railway corporations, subject to the provisions of this chapter shall file with the department and shall print schedules showing the rates for the transportation within this state of persons and property from each point upon its route to all other points on the route and from all points upon its route to all points upon every other route leased, operated, or controlled by it; and from each point on its route or upon any route leased, operated, or controlled by it to all points upon the route of any other common carrier, whenever a through route and a joint rate have been established or ordered between any two points. If no joint rate over a through route has been established, the schedules of the several carriers in the through route shall show the separately established rates, applicable to the through transportation.

The schedules shall be plainly printed and a copy of often used schedules shall be kept by every carrier readily accessible to and for inspection by the public in every station and office of the carrier where passengers or property are received for transportation when the station or office is in the charge of an agent. A notice printed in bold type and stating that the often used schedules are on file with the agent and open to public inspection, and that the agent will assist any person to determine from the schedule any rate shall be posted by the carrier in public and conspicuous places in each station or office. The department shall, by rule, provide that adequate public access to schedules not often used be provided in a different manner.

Railway corporations shall maintain a copy of schedules and rates on file in the office of the carrier readily accessible to and for inspection by the public.

The complainant shall add to the showing made at the hearing whatever information the complainant then has, or can obtain from any source. **327G.17 Hearing—order.**

The department of inspections and appeals shall hear the evidence of each party to the controversy and shall make an order, which may include, pursuant to chapters 471 and 472, authority to condemn, resolving the controversy. The order shall include the portion of the expense to be paid by each party to the controversy. In determining what portion of the expense shall be paid by each party the department of inspections and appeals may consider the ratio of the benefits accruing to the railroad or the governmental unit or both, to the general public use and benefit.

The order of the department of inspections and appeals is subject to review by the state department of transportation. The decision of the state department of transportation is the final agency action.

**327G.32 Blocking highway crossing.**

A railroad corporation or its employees shall not operate a train in such a manner as to prevent vehicular use of a highway, street, or alley for a period of time in excess of ten minutes except in any of the following circumstances:

1. When necessary to comply with signals affecting the safety of the movement of trains.
2. When necessary to avoid striking an object or person on the track.
3. When the train is disabled.
4. When necessary to comply with governmental safety regulations including, but not limited to speed ordinances and speed regulations.

An officer or employee of a railroad corporation violating a provision of this section is, upon conviction, subject to the penalty provided in section 327G.14. An employee is not guilty of a violation if the employee's action was necessary to comply with the direct order or instructions of a railroad corporation or its supervisors. Guilt is then with the railroad corporation.

Other portions of this section notwithstanding, a political subdivision may pass an ordinance regulating the length of time a specific crossing may be blocked if the political subdivision demonstrates that an ordinance is necessary for public safety or convenience. If an ordinance is passed, the political subdivision shall, within thirty days of the effective date of the ordinance, notify the department and the railroad corporation using the crossing affected by the ordinance. The ordinance does not become effective unless the department and the railroad corporation are notified within thirty days. The ordinance becomes effective thirty days after notification unless a person files an objection to the ordinance with the department. If an objection is filed the department shall notify the department of inspections and appeals which shall hold a hearing. After a hearing by the department of inspections and appeals, the state department of transportation may disapprove the ordinance if public safety or convenience does not require the ordinance. The decision of the state department of transportation is final agency action. The ordinance approved by the political subdivision is prima facie evidence that the ordinance is adopted to preserve public safety or convenience.

The department of inspections and appeals when considering rebuttal evidence shall weigh the benefits accruing to the political subdivision as they affect the general public use compared to the burden placed on the railroad operation. Public safety or convenience may include, but is not limited to, high traffic density at a specific crossing of a main artery or interference with the flow of authorized emergency vehicles.

A resolution regulating the length of time a specific crossing may be blocked, which was adopted before July 1, 1989, is an ordinance for the purposes of this section.

2. A municipality wishing to withdraw from or to become a member of an existing authority shall signify its intention by resolution and shall publish the resolution at least one time in a newspaper of general circulation in the municipality giving notice of a hearing to be held on the question of withdrawing or joining and its intention to withdraw or join. An authority shall have no power at any time or in any manner to pledge the taxing power of the state or any political subdivision or agency thereof, nor shall any of the obligations issued by an authority be deemed to be an obligation of the state or any political subdivision or agency thereof secured by and payable from ad valorem taxes thereof, nor shall the state or any political subdivision or agency thereof be liable for the payment of principal or of interest on such obligations except from the special funds provided for in this chapter.

However, if the plan is selected pursuant to section 331.207, the board shall divide the county before March 15 of the election year. The supervisor districts shall be drawn, to the extent applicable, in compliance with the redistricting standards provided for legislative and congressional districts in section 42.4. 2. Each supervisor must reside in a separate supervisor district but shall be elected by the electors of the county at large. The state commissioner of elections may request the services of personnel and materials available to the legislative service bureau to assist the state commissioner in making any required changes in supervisor district boundaries which become the state commissioner's responsibility.

#### 331.301 General powers and limitations.

1. A county may, except as expressly limited by the Constitution, and if not inconsistent with the laws of the general assembly, exercise any power and perform any function it deems appropriate to protect and preserve the rights,

privileges, and property of the county or of its residents, and to preserve and improve the peace, safety, health, welfare, comfort, and convenience of its residents. This grant of home rule powers does not include the power to enact private or civil law governing civil relationships, except as incident to an exercise of an independent county power.

2. A power of a county is vested in the board, and a duty of a county shall be performed by or under the direction of the board except as otherwise provided by law.

3. The enumeration of a specific power of a county, the repeal of a grant of power, or the failure to state a specific power does not limit or restrict the general grant of home rule power conferred by the Constitution and this section. A county may exercise its general powers subject only to limitations expressly imposed by a state law.

4. An exercise of a county power is not inconsistent with a state law unless it is irreconcilable with the state law.

10. A county may enter into leases or lease-purchase contracts for real and personal property in accordance with the terms and procedures set forth in section 364.4, subsection 4, provided that the references there to cities shall be applicable to counties, the reference to section 384.25 shall be to section 331.443, the reference to section 384.95, subsection 1, shall be to section 331.341, subsection 1, the reference to division VI of chapter 384 shall be to division III, part 3 of chapter 331, and reference to the council shall be to the board.

11. A county may enter into insurance agreements obligating the county to make payments beyond its current budget year to procure or provide for a policy of insurance, a self-insurance program, or a local government risk pool to protect the county against tort liability, loss of property, or any other risk associated with the operation of the county. Such a self-insurance program or local government risk pool is not insurance and is not subject to regulation under chapters 505 through 523C. However, those self-insurance plans regulated pursuant to section 509A.14 shall remain subject to the requirements of section 509A.14 and rules adopted pursuant to that section.

12. The board of supervisors may credit funds to a reserve for the purposes authorized by subsection 11 of this section; section 331.424, subsection 1, paragraph "l"; and section 331.441, subsection 2, paragraph "b". Moneys credited to the reserve, and interest earned on such moneys, shall remain in the reserve until expended for purposes authorized by subsection 11 of this section; section 331.424, subsection 1, paragraph "l"; or section 331.441, subsection 2, paragraph "b".

13. The board of supervisors may waive a tax penalty, interest, or costs related to the collection of a tax if the board finds that a clerical error resulted in the

penalty, interest, or cost. This subsection does not apply to bonded special assessments without the approval of the affected taxing jurisdiction.

1. A county infraction is a civil offense punishable by a civil penalty of not more than one hundred dollars for each violation or if the infraction is a repeat offense a civil penalty not to exceed two hundred dollars for each repeat offense.

2. A county by ordinance may provide that a violation of an ordinance is a county infraction.

3. A county shall not provide that a violation of an ordinance is a county infraction if the violation is a felony, an aggravated misdemeanor, or a serious misdemeanor under state law or if the violation is a simple misdemeanor under chapters 687 through 747.

4. An officer authorized by a county to enforce a county code or regulation may issue a civil citation to a person who commits a county infraction. The citation may be served by personal service as provided in rule of civil procedure 56.1, by certified mail addressed to the defendant at the defendant's last known mailing address, return receipt requested, or by publication in the manner as provided in rule of civil procedure 60 and subject to the conditions of rule of civil procedure 60.1. A copy of the citation shall be retained by the issuing officer, and one copy shall be sent to the clerk of the district court. The citation shall serve as notification that a civil offense has been committed and shall contain the following information:

- a. The name and address of the defendant.
  - b. The name or description of the infraction attested to by the officer issuing the citation.
  - c. The location and time of the infraction.
  - d. The amount of civil penalty to be assessed or the alternate relief sought, or both.
  - e. The manner, location, and time in which the penalty may be paid.
  - f. The time and place of court appearance.
  - g. The penalty for failure to appear in court.
5. In proceedings before the court for a county infraction:
- a. The matter shall be tried before a magistrate or district associate judge in the same manner as a small claim.

d. The defendant may be represented by counsel of the defendant's own selection and at the defendant's own expense.

e. The defendant may answer by admitting or denying the infraction.

f. If a county infraction is proven, the court shall enter judgment against the defendant. If the infraction is not proven, the court shall dismiss it.

6. Notwithstanding section 602.8106, subsection 3, penalties or forfeitures collected by the court for county infractions shall be remitted to the county in the same manner as fines and forfeitures are remitted to cities for criminal violations under section 602.8106. If the person named in the citation is served as provided in this section and fails without good cause to appear in response to the civil citation, judgment shall be entered against the person cited.

7. A person against whom judgment is entered, shall pay court costs and fees as in small claims under chapter 631. If the action is dismissed, the county is liable for the court costs and court fees. Where the action is disposed of without payment, or provision for assessment, of court costs, the clerk shall at once enter judgment for costs against the county.

8. Seeking a civil penalty as authorized in this section does not preclude a county from seeking alternative relief from the court in the same action.

9. When judgment has been entered against a defendant, the court may do any of the following:

a. Impose a civil penalty by entry of a personal judgment against the defendant.

b. Direct that payment of the civil penalty be suspended or deferred under conditions imposed by the court.

The magistrate or district associate judge shall have jurisdiction to assess or enter judgment for costs of abatement or correction in an amount not to exceed the jurisdictional amount for a money judgment in a civil action pursuant to section 631.1, subsection 1, for magistrates and section 602.6306, subsection 2, for district associate judges. If the county seeks abatement or correction costs in excess of those amounts, the case shall be referred to the district court for hearing and entry of an appropriate order. The procedure for hearing in the district court shall be the same procedure as that for a small claims appeal pursuant to section 631.13.

10. A defendant or the county may file a motion for a new trial or may appeal the decision of the magistrate or district associate judge to the district court. The procedure on appeal shall be the same as for a small claim pursuant to section 631.13. A factual determination made by the trial court, supported by substantial evidence as shown in the record, is binding for purposes of appeal relating to the violation at issue, but shall not be admissible or binding as to any future violation for the same or similar ordinance provision by the same defendant.

11. This section does not preclude a peace officer of a county from issuing a criminal citation for a violation of a county code or regulation if criminal

penalties are also provided for the violation. Each day that a violation occurs or is permitted by the defendant to exist, constitutes a separate offense.

12. The issuance of a civil citation for a county infraction or the ensuing court proceedings do not provide an action for false arrest, false imprisonment, or malicious prosecution.

cents per thousand dollars of assessed value in any one year for the erection and equipment of the hospital, and also a tax not to exceed twenty-seven cents per thousand dollars of value for the improvement, maintenance, and replacements of the hospital, as certified by the board of hospital trustees. However, in counties having a population of two hundred twenty-five thousand or over, the levy for improvements and maintenance of the hospital shall not exceed one dollar and thirty-five cents per thousand dollars of assessed value in any one year. However, the tax levied may be expended for enhancement of rural health care services only following a local planning process. The Iowa department of public health shall establish guidelines to be followed by counties in implementing the local planning process which shall require legal notice, public hearings, and a referendum in accordance with sections 347.7 and 347.30 prior to the authorization of any new levy or a change in the use of a levy. Enhancement of rural health services for which the tax levy pursuant to this section may be used includes but is not limited to emergency medical services, health care services shared with other hospitals, rural health clinics, and support for rural health care practitioners and public health services. When alternative use of funds from the tax levy authorized by this section is proposed in a county with a county hospital organized under this chapter, use of the funds shall be agreed upon by the elected board of trustees of the county hospital. When alternative use of funds from the tax levy authorized by this section is proposed in a county without a county hospital organized under this chapter, use of the funds shall be agreed upon by the board of supervisors and any publicly elected hospital board of trustees within the county prior to submission of the question to the voters. #### 364.12 Responsibility for public places.

1. As used in this section, "property owner" means the contract purchaser if there is one of record, otherwise the record holder of legal title.

2. A city shall keep all public grounds, streets, sidewalks, alleys, bridges, culverts, overpasses, underpasses, grade crossing separations and approaches, public ways, squares, and commons open, in repair, and free from nuisance, with the following exceptions:

a. Public ways and grounds may be temporarily closed by resolution. Following notice as provided in section 362.3, public ways and grounds may be vacated by ordinance.

b. The abutting property owner is responsible for the removal of the natural accumulations of snow and ice from the sidewalks within a reasonable amount of

time and may be liable for damages caused by the failure of the abutting property owner to use reasonable care in the removal of the snow or ice. If damages are to be awarded under this section against the abutting property owner, the claimant has the burden of proving the amount of the damages. To authorize recovery of more than a nominal amount, facts must exist and be shown by the evidence which afford a reasonable basis for measuring the amount of the claimant's actual damages, and the amount of actual damages shall not be determined by speculation, conjecture, or surmise. All legal or equitable defenses are available to the abutting property owner in an action brought pursuant to this paragraph. The city's general duty under this subsection does not include a duty to remove natural accumulations of snow or ice from the sidewalks. However, when the city is the abutting property owner it has the specific duty of the abutting property owner set forth in this paragraph.

c. The abutting property owner may be required by ordinance to maintain all property outside the lot and property lines and inside the curb lines upon the public streets, except that the property owner shall not be required to remove diseased trees or dead wood on the publicly owned property or right of way.

d. A city may serve notice on the abutting property owner, by certified mail to the property owner as shown by the records of the county auditor, requiring the abutting property owner to repair, replace, or reconstruct sidewalks.

e. If the abutting property owner does not perform an action required under this subsection within a reasonable time, a city may perform the required action and assess the costs against the abutting property for collection in the same manner as a property tax. This power does not relieve the abutting property owner of liability imposed under paragraph "b".

f. A city has no duty under this subsection with respect to property that is required by law to be maintained by a railway company.

3. A city may:

a. Require the abatement of a nuisance, public or private, in any reasonable manner.

b. Require the removal of diseased trees or dead wood, except as stated in subsection 2, paragraph "c" of this section.

c. Require the removal, repair, or dismantling of a dangerous building or structure.

d. Require the numbering of buildings.

e. Require connection to public drainage systems from abutting property when necessary for public health or safety.

f. Require connection to public sewer systems from abutting property, and require installation of sanitary toilet facilities and removal of other toilet facilities on such property.

g. Require the cutting or destruction of weeds or other growth which constitutes a health, safety, or fire hazard.

h. If the property owner does not perform an action required under this subsection within a reasonable time after notice, a city may perform the required action and assess the costs against the property for collection in the same manner as a property tax. Notice may be in the form of an ordinance or by certified mail to the property owner as shown by the records of the county auditor, and shall state the time within which action is required. However, in an emergency a city may perform any action which may be required under this section without prior notice, and assess the costs as provided in this subsection, after notice to the property owner and hearing.

4. In addition to any other remedy provided by law, a city may also seek reimbursement for costs incurred in performing any act authorized by this section by a civil action for damages against a property owner. However, a city shall not seek reimbursement for costs incurred in performing an act if the same act has not

been performed by the city on adjoining city-owned property. For the purposes of this subsection, a county acquiring property for delinquent taxes shall not be considered a property owner.

### **364.22 Municipal infractions.**

1. A municipal infraction is a civil offense punishable by a civil penalty of not more than one hundred dollars for each violation or if the infraction is a repeat offense, a civil penalty not to exceed two hundred dollars for each repeat offense.

2. A city by ordinance may provide that a violation of an ordinance is a municipal infraction.

3. A city shall not provide that a violation of an ordinance is a municipal infraction if the violation is a felony, an aggravated misdemeanor, or a serious misdemeanor under state law or if the violation is a simple misdemeanor under chapters 687 through 747.

4. An officer authorized by a city to enforce a city code or regulation may issue a civil citation to a person who commits a municipal infraction. The citation may be served by personal service as provided in rule of civil procedure 56.1, by certified mail addressed to the defendant at the defendant's last known mailing address, return receipt requested, or by publication in the manner as provided in rule of civil procedure 60 and subject to the conditions of rule of civil procedure 60.1. A copy of the citation shall be retained by the issuing officer, and one copy shall be sent to the clerk of the district court. The citation shall serve as notification that a civil offense has been committed and shall contain the following information:

- a. The name and address of the defendant.
- b. The name or description of the infraction attested to by the officer issuing the citation.
- c. The location and time of the infraction.
- d. The amount of civil penalty to be assessed or the alternate relief sought, or both.
- e. The manner, location, and time in which the penalty may be paid.
- f. The time and place of court appearance.
- g. The penalty for failure to appear in court.

5. In municipal infraction proceedings:

- a. The matter shall be tried before a magistrate or district associate judge in the same manner as a small claim.

- b. The city has the burden of proof that the municipal infraction occurred and that the defendant committed the infraction. The proof shall be by clear, satisfactory, and convincing evidence.

- c. The court shall ensure that the defendant has received a copy of the charges and that the defendant understands the charges. The defendant may question all witnesses who appear for the city and produce evidence or witnesses on the defendant's behalf.

- d. The defendant may be represented by counsel of the defendant's own selection and at the defendant's own expense.

- e. The defendant may answer by admitting or denying the infraction.
- f. If a municipal infraction is proven the court shall enter a judgment against the defendant. If the infraction is not proven, the court shall dismiss it.

6. All penalties or forfeitures collected by the court for municipal infractions shall be remitted to the city in the same manner as fines and forfeitures are remitted for criminal violations under section 602.8106. If the person named in the citation is served as provided in this section and fails without good cause to appear in response to the civil citation, judgment shall be entered against the person cited.

7. A person against whom judgment is entered, shall pay court costs and fees as in small claims under chapter 631. If the action is dismissed, the city is liable for the court costs and court fees. Where the action is disposed of without payment, or provision for assessment, of court costs, the clerk shall at once enter judgment for costs against the city.

8. Seeking a civil penalty as authorized in this section does not preclude a city from seeking alternative relief from the court in the same action.

9. When judgment has been entered against a defendant, the court may do any of the following:

a. Impose a civil penalty by entry of a personal judgment against the defendant.

b. Direct that payment of the civil penalty be suspended or deferred under conditions imposed by the court.

c. Grant appropriate alternative relief ordering the defendant to abate or cease the violation.

d. Authorize the city to abate or correct the violation.

e. Order that the city's costs for abatement or correction of the violation be entered as a personal judgment against the defendant or assessed against the property where the violation occurred, or both.

If a defendant willfully violates the terms of an order imposed by the court, the failure is contempt.

The magistrate or district associate judge shall have jurisdiction to assess or enter judgment for costs of abatement or correction in an amount not to exceed the jurisdictional amount for a money judgment in a civil action pursuant to section 631.1, subsection 1, for magistrates and section 602.6306, subsection 2, for district associate judges. If the city seeks abatement or correction costs in excess of those amounts, the case shall be referred to the district court for hearing and entry of an appropriate order. The procedure for hearing in the district court shall be the same procedure as that for a small claims appeal pursuant to section 631.13.

10. The defendant or the city may file a motion for a new trial or may appeal the decision of the magistrate or district associate judge to the district court. The procedure on appeal shall be the same as for a small claim pursuant to section 631.13. A factual determination made by the trial court, supported by substantial evidence as shown in the record, is binding for purposes of appeal relating to the violation at issue, but shall not be admissible or binding as to any future violation for the same or similar ordinance provision by the same defendant.

11. This section does not preclude a peace officer of a city from issuing a criminal citation for a violation of a city code or regulation if criminal penalties are also provided for the violation. Each day that a violation occurs or is permitted to exist by the defendant, constitutes a separate offense.

12. The issuance of a civil citation for a municipal infraction or the ensuing court proceedings do not provide an action for false arrest, false imprisonment, or malicious prosecution.

### **ORGANIZATION OF CITY GOVERNMENT**

#### **372.2 Six-year limitation.**

A city may adopt a different form of government not oftener than once in a six-year period. A different form, other than a home rule charter or special charter, must be adopted as follows:

1. Eligible electors of the city, equal in number to at least twenty-five percent of the persons who voted at the last regular city election, may petition the council to submit to the electors the question of adopting a different form of city government.
2. Within fifteen days after receiving a valid petition, the council shall proclaim a special city election to be held within sixty days to determine whether the city shall change to a different form of government. The council shall notify the county commissioner of elections to publish notice of the election and conduct the election pursuant to chapters 39 to 53. The county commissioner of elections shall certify the results of the election to the council.
3. If a majority of the persons voting at the special election approves the proposed form, it is adopted.
4. If a majority of the persons voting at the special election does not approve the proposed form, that form may not be resubmitted to the voters within the next four years.
5. If the proposed form is adopted:

a. The elective officers provided for in the adopted form are to be elected at the next regular city election held more than sixty days after the special election at which the form was adopted, and the adopted form becomes effective at the beginning of the new term following the regular city election.

b. The change of form does not alter any right or liability of the city in effect when the new form takes effect.

c. All departments and agencies shall continue to operate until replaced.

d. All measures in effect remain effective until amended or repealed, unless they are irreconcilable with the adopted form.

e. Upon the effective date of the adopted form, the city shall adopt by ordinance a new charter embodying the adopted form, and shall file a copy of its charter with the secretary of state, and maintain copies available for public inspection.

### **372.9 Home rule charter procedure.**

A city to be governed by the home rule charter form shall adopt a home rule charter in which its form of government is set forth. A city may adopt a home rule charter only by the following procedures:

1. A home rule charter may be proposed by:

a. The council, causing a charter to be prepared and filed and by resolution submitting it to the voters.

b. Eligible electors of the city equal in number to at least twenty-five percent of the persons who voted at the last regular city election petitioning the council to appoint a charter commission to prepare a proposed charter. The council shall, within thirty days of the filing of a valid petition, appoint a charter commission composed of not less than five nor more than fifteen members. The charter commission shall, within six months of its appointment, prepare and file with the council a proposed charter.

2. When a charter is filed, the council and mayor shall notify the county commissioner of elections to publish notice and conduct the election. The notice shall be published at least twice in the manner provided in section 362.3, except that the publications must occur within sixty days of the filing of the home rule charter, with a two-week interval between each publication. The council shall provide copies of a proposed charter for public distribution by the city clerk.

3. The proposed home rule charter must be submitted at a special city election on a date selected by the mayor and council in accordance with section 47.6. However, the date of the election must be not less than thirty nor more than sixty days after the last publication of the proposed home rule charter.

4. If a proposed home rule charter is rejected by the voters, it may not be resubmitted in substantially the same form to the voters within the next four years. If a proposed home rule charter is adopted by the voters, no other form of government may be submitted to the voters for six years.

5. If a petition for the appointment of a charter commission is filed at any time within two weeks after the second publication of a charter proposed by the council, the submission to the voters of a charter proposed by the council must be delayed, a charter commission appointed, and the council proposal and the charter proposed by the charter commission must be submitted to the voters at the same special election.

6. The ballot submitting a proposed charter or charters must also submit the existing form of government as an alternative.

7. If only two forms of government are being voted upon, the form of government which receives the highest number of votes is adopted.

If more than two forms are being voted upon and no form receives a majority of the votes cast in the special election, there must be a runoff election between the

two proposed forms which receive the highest number of votes in the special election. The runoff election must be held within thirty days following the special election and must be conducted in the same manner as a special city election.

8. If a home rule charter is adopted:

a. The elective officers provided for in the charter are to be elected at the next regular city election held more than sixty days after the special election at which the charter was adopted, and the adopted charter becomes effective at the beginning of the new term following the regular city election.

b. The adoption of the charter does not alter any right or liability of the city in effect at the time of the special election at which the charter was adopted.

c. All departments and agencies shall continue to operate until replaced.

d. All measures in effect remain effective until amended or repealed, unless they are irreconcilable with the charter.

e. Upon the effective date of the home rule charter, the city shall adopt by ordinance the home rule charter, and shall file a copy of its charter with the secretary of state, and maintain copies available for public inspection.

89 Acts, ch 39, §8 SF 500  
Subsection 3 amended

### 372.13 The council.

1. A majority of all council members is a quorum.

2. A vacancy in an elective city office during a term of office shall be filled, at the council's option, by one of the two following procedures:

a. By appointment by the remaining members of the council, except that if the remaining members do not constitute a quorum of the full membership, paragraph "b" shall be followed. The appointment shall be for the period until the next pending election as defined in section 69.12, and shall be made within forty days after the vacancy occurs. If the council chooses to proceed under this paragraph, it shall publish notice in the manner prescribed by section 362.3, stating that the council intends to fill the vacancy by appointment but that the electors of the city or ward, as the case may be, have the right to file a petition requiring that the vacancy be filled by a special election. The council may publish notice in advance if an elected official submits a resignation to take effect at a future date. The council may make an appointment to fill the vacancy after the notice is published or after the vacancy occurs, whichever is later. However, if within fourteen days after publication of the notice or within fourteen days after the appointment is made, whichever is later, there is filed with the city clerk a petition which requests a special election to fill the vacancy, an appointment to fill the vacancy is temporary and the council shall call a special election to fill the vacancy permanently, under paragraph "b". The number of signatures of eligible electors of a city for a valid petition shall be determined as follows:

(1) For a city with a population of ten thousand or less, at least two hundred signatures or at least the number of signatures equal to fifteen percent of the voters who voted for candidates for the office at the preceding regular election at which the office was on the ballot, whichever number is fewer.

(2) For a city with a population of more than ten thousand but not more than fifty thousand, at least one thousand signatures or at least the number of signatures equal to fifteen percent of the voters who voted for candidates for the office at the preceding regular election at which the office was on the ballot, whichever number is fewer.

(3) For a city with a population of more than fifty thousand, at least two thousand signatures or at least the number of signatures equal to ten percent of the voters who voted for candidates for the office at the preceding regular election at which the office was on the ballot, whichever number is fewer.

(4) The minimum number of signatures for a valid petition pursuant to subparagraphs (1) through (3) shall not be fewer than ten.

b. By a special election held to fill the office for the remaining balance of the unexpired term. If the council opts for a special election or a valid petition is filed under paragraph "a", the special election may be held concurrently with any pending election as provided by section 69.12 if by so doing the vacancy will be filled not more than ninety days after it occurs. Otherwise, a special election to fill the office shall be called at the earliest practicable date. If there are concurrent vacancies on the council and the remaining council members do not constitute a quorum of the full membership, a special election shall be called at the earliest practicable date. The council shall give the county commissioner at least sixty days' written notice of the date chosen for the special election. A special election held under this subsection is subject to sections 376.4 through 376.11, but the dates for actions in relation to the special election shall be calculated with regard to the date for which the special election is called.

3. The council shall appoint a city clerk to maintain city records and perform other duties prescribed by state or city law.

4. Except as otherwise provided by state or city law, the council may appoint city officers and employees, and prescribe their powers, duties, compensation, and terms. The appointment of a city manager must be made on the basis of that individual's qualifications and not on the basis of political affiliation.

5. The council shall determine its own rules and maintain records of its proceedings. City records and documents, or accurate reproductions, shall be kept for at least five years. However, ordinances, resolutions, council proceedings, and records and documents relating to real property transactions or bond issues or accurate reproductions of those ordinances, resolutions, council proceedings, and records and documents relating to real property transactions or bond issues, shall be maintained permanently.

6. Within fifteen days following a regular or special meeting of the council, the clerk shall cause the minutes of the proceedings of the council, including the total expenditure from each city fund, to be published in a newspaper of general circulation in the city. The publication shall include a list of all claims allowed and a summary of all receipts and shall show the gross amount of the claim. Matters discussed in closed session pursuant to section 21.3 shall not be published until entered on the public minutes. However, in cities having more than one hundred fifty thousand population the council shall each month print in pamphlet form a detailed itemized statement of all receipts and disbursements of the city, and a summary of its proceedings during the preceding month, and furnish copies to the city library, the daily newspapers of the city, and to persons who apply at the office of the city clerk, and the pamphlet shall constitute publication as required. Failure by the clerk to make publication is a simple misdemeanor. The provisions of this subsection are applicable in cities in which a newspaper is published, or in cities of two hundred population or over, but in all other cities, posting the statement in three public places in the city which have been permanently designated by ordinance is sufficient compliance with this subsection.

7. By ordinance, the council may divide the city into wards based upon population, change the boundaries of wards, eliminate wards or create new wards.

8. By ordinance, the council shall prescribe the compensation of the mayor, council members, and other elected city officers, but a change in the compensation of the mayor does not become effective during the term in which the change is adopted, and the council shall not adopt an ordinance changing the compensation of the mayor, council members, or other elected officers during the months of November and December in the year of a regular city election. A change in the compensation of council members becomes effective for all council members at the beginning of the term of the council members elected at the election next following the change in compensation. Except as provided in section 362.5, an elected city officer is not entitled to receive any other compensation for any other

city office or city employment during that officer's tenure in office, but may be reimbursed for actual expenses incurred. However, if the mayor pro tem performs the duties of the mayor during the mayor's absence or disability for a continuous period of fifteen days or more, the mayor pro tem may be paid for that period the compensation determined by the council, based upon the mayor pro tem's performance of the mayor's duties and upon the compensation of the mayor.

9. A council member, during the term for which that member is elected, is not eligible for appointment to any city office if the office has been created or the compensation of the office has been increased during the term for which that member is elected. A person who resigns from an elective office is not eligible for appointment to the same office during the time for which that person was elected if during that time, the compensation of the office has been increased.

## CHAPTER 376

### CITY ELECTIONS

#### 376.4 Candidacy.

An eligible elector of a city may become a candidate for an elective city office by filing with the city clerk a valid petition requesting that the elector's name be placed on the ballot for that office. The petition must be filed not more than seventy-one days nor less than forty-seven days before the date of the election, and must be signed by eligible electors equal in number to at least two percent of those who voted to fill the same office at the last regular city election, but not less than ten persons. A person may sign nomination petitions for more than one candidate for the same office, and the signature is not invalid solely because the person signed nomination petitions for one or more other candidates for the office. Nomination petitions shall be filed not later than five o'clock p.m. on the last day for filing.

The petitioners for an individual seeking election from a ward must be residents of the ward at the time of signing the petition. An individual is not eligible for election from a ward unless the individual is a resident of the ward at the time the individual files the petition and at the time of election.

The petition must include the signature of the petitioners, a statement of their place of residence, and the date on which they signed the petition.

The petition must include the affidavit of the individual for whom it is filed, stating the individual's name, the individual's residence, that the individual is a candidate and eligible for the office, and that if elected the individual will qualify for the office.

If the city clerk is not readily available during normal office hours, the city clerk shall designate other employees or officials of the city who are ordinarily available to accept nomination papers under this section. The city clerk shall accept the petition for filing if on its face it appears to have the requisite number of signatures and if it is timely filed. The city clerk shall note upon each petition and affidavit accepted for filing the date and time that the petition was filed.

#### **384.51 Adoption of resolution.**

The council shall meet as specified in the published notice, and after hearing all objections and endorsements from property owners and other persons having an interest in the matter, and after considering all filed, written objections, may adopt or amend and adopt the proposed resolution of necessity, or may defer action until a subsequent meeting. A resolution of necessity requires for passage the vote of three-fourths of all the members of the council, or, in cities having but three members of the council, the vote of two members, and where a remonstrance has been filed with the clerk, signed by the owners subject to seventy-five percent of the amount of the proposed assessments for the entire public improvement included in the resolution of necessity, a resolution of necessity requires a unanimous vote of the council.

An amendment which extends the boundaries of a district, increases the amount to be assessed against a lot, or adds additional public improvements, is not effective until an amended plat, schedule, and estimate have been prepared and adopted, a notice published and mailed to all affected property owners, and hearing held in the same manner as the original proceedings, or until all affected property owners agree in writing to the change. The adoption of a resolution of necessity is a legislative determination that the improvement is expedient and proper and that property assessed will be specially benefited by the improvement and this determination of the council is conclusive. Ownership of property to be assessed by an improvement does not, except for fraud or bad faith, disqualify a council member from voting on any measure.

After adopting the resolution of necessity, the clerk shall certify to the county treasurer of each county in which the assessed property is located, a copy of the resolution of necessity, the plat, and the schedule of assessments. In counties in which taxes are collected in two or more places, the resolution of necessity, the plat, and the schedule of assessments shall be certified to the office of county treasurer where the special assessments are collected. The county treasurer shall preserve the resolution, plat, and schedule as a part of the records of the office until the city certifies the final assessment schedule as provided in section 384.60 or certifies that the public improvement has been abandoned.

5. A city may lease any or all of a self-liquidating improvement to any person or governmental body.

7. Any resident or property owner of the city may appeal a decision of the council to order the construction of a self-liquidating improvement or to lease any or all of a self-liquidating improvement to the district court of the county in which any part of the district is located, within thirty days after the adoption of the resolution ordering the self-liquidating improvement, but the action of the council is final and conclusive unless the court finds that the council exceeded its authority.

8. No action may be brought questioning the regularity of the proceedings pertaining to the ordering of the construction of a self-liquidating improvement after thirty days from the date of adoption of the resolution ordering construction of the self-liquidating improvement. No action may be brought questioning the regularity of the proceedings pertaining to the leasing of any or all of a self-liquidating improvement after thirty days from the date of the adoption of a resolution approving the proposed lease. In addition to the limitation contained in section 384.92, no action may be brought which questions the legality of revenue bonds or the power of the city to issue revenue bonds or the effectiveness of any proceedings relating to the authorization and issuance of revenue bonds relating to a self-liquidating improvement after thirty days from the time the bonds are ordered issued by the city.

9. The procedural steps contained in this section may be combined with the procedural steps for the petitioning and creation of the district.

### 421.17 Powers and duties of director.

In addition to the powers and duties transferred to the director of revenue and finance, the director shall have and assume the following powers and duties:

1. To have and exercise general supervision over the administration of the assessment and tax laws of the state, over boards of supervisors and all other officers or boards of assessment and levy in the performance of their official duties, in all matters relating to assessments and taxation, to the end that all assessments of property and taxes levied thereon be made relatively just and uniform in substantial compliance with the law.

2. To supervise the activity of all assessors and boards of review in the state of Iowa; to co-operate with them in bringing about a uniform and legal assessment of property as prescribed by law.

The director may order the reassessment of all or part of the property in any taxing district in any year. Such reassessment shall be made by the local assessor according to law under the direction of the director and the cost thereof shall be paid in the same manner as the cost of making an original assessment.

The director shall determine the degree of uniformity of valuation as between the various taxing districts of the state and shall have the authority to employ competent personnel for the purpose of performing this duty.

For the purpose of bringing about uniformity and equalization of assessments throughout the state of Iowa, the director shall prescribe rules relating to the standards of value to be used by assessing authorities in the determination, assessment and equalization of actual value for assessment purposes of all property subject to taxation in the state, and such rules shall be adhered to and followed by all assessing authorities.

3. To prescribe and promulgate all forms of books and forms to be used in the listing and assessment of property, and on or before November 1 of each year shall furnish to the county auditor of each county such prescribed forms of assessment rolls and other forms to properly list and assess all property subject to taxation in each county. The department of revenue and finance shall also from time to time prepare and furnish in like manner forms for any and all other blanks, memoranda or instructions which the director deems necessary or expedient for the use or guidance of any of the officers over which the director is authorized by law to exercise supervision.

4. To confer with, advise, and direct boards of supervisors, boards of review, and others obligated by law to make levies and assessments, as to their duties under the laws.

5. To direct proceedings, actions, and prosecutions to be instituted for the enforcement of the laws relating to the penalties, liabilities, and punishment of public officers, and officers or agents of corporations, and other persons or corporations, for failure or neglect to comply with the provisions of the statutes governing the return, assessment and taxation of property; to make or cause to be made complaints against members of boards of review, boards of supervisors or other assessing, reviewing, or taxing officers for official misconduct or neglect of duty. Provided, that employees of the department of revenue and finance shall not during their regular hours of employment engage in the preparation of tax returns for individuals, except in connection with a regular audit thereof.

6. To require city, township, school districts, county, state, or other public officers to report information as to the assessment of property and collection of taxes and such other information as may be needful or desirable in the work of the department in such form and upon such blanks as the director may prescribe.

The director shall require all city and county assessors to prepare a quarterly report in the manner and form to be prescribed by the director showing for each warranty deed or contract of sale of real estate, divided between rural and urban, during the last completed quarter the amount of real property transfer tax, the

sale price or consideration, and the equalized value at which that property was assessed that year. This report with further information required by the director shall be submitted to the department within sixty days after the end of each quarter. The department shall prepare annual summaries of the records of the ratio of assessments to actual sales prices for all counties, and for cities having city assessors, and the information for the preceding year shall be available for public inspection by May 1.

7. To hold public hearings either at the seat of government or elsewhere in the state, and tax the costs thereof; to summon and compel witnesses to appear and give testimony, to administer oaths to said witnesses, and to compel said witnesses to produce for examination records, books, papers, and documents relating to any matter which the director shall have the authority to investigate or determine. Provided, however, that no bank or trust company or its officers or employees shall be required to divulge knowledge concerning the property of any person when such knowledge was obtained through information imparted as a part of a business transaction with or for such person and in the usual and ordinary course of business of said bank or trust company, and was necessary and proper to the discharge of the duty of said bank or trust company in relation to such business transaction. This proviso shall be additional to other provisions of the law relating to confidential and privileged communications.

8. To cause the depositions of witnesses residing within or without the state, or absent therefrom, to be taken either on written or oral interrogatories, and the clerk of the district court of any county shall upon the order of the director issue a commission for the taking of such depositions. The proceedings therefor shall be the same as the proceedings for the taking of depositions in the district court so far as applicable.

9. To investigate the work and methods of boards of review, boards of supervisors, or other public officers, in the assessment, equalization, and taxation of all kinds of property, and for that purpose the director or employees of the department may visit the counties or localities when deemed necessary so to do.

10. To require any board of review at any time after its adjournment to reconvene and to make such orders as the director shall determine are just and necessary; to direct and order any board of review to raise or lower the valuation of the property, real or personal, in any township, city, or taxing district, to order and direct any board of review to raise or lower the valuation of any class or classes of property in any township, city, or taxing district, and generally to make any order or direction to any board of review as to the valuation of any property, or any class of property, in any township, city, county, or taxing district, which in the judgment of the director may seem just and necessary, to the end that all property shall be valued and assessed in the manner and according to the real intent of the law. For the purpose of this paragraph the words "taxing district" include drainage districts and levee districts.

The director may correct errors or obvious injustices in the assessment of any individual property, but the director shall not reduce the valuation of any individual property except upon the recommendation of the local board of review and no order of the director affecting any valuation shall be retroactive as to any reduction or increase in taxes payable prior to January 1 of the year in which such order is issued, or prior to September 1 of the preceding year in cities under special charter which collect their own municipal levies. Judicial review of the actions of the director may be sought in accordance with the terms of the Iowa administrative procedure Act.

The director may order made effective reassessments or revaluations in any taxing district for any taxing year or years and the director may in any year order uniform increases or decreases in valuation of all property or upon any class of property within any taxing district or any area within such taxing district, such

11. To carefully examine into all cases where evasion or violation of the law for assessment and taxation of property is alleged, complained of, or discovered, and to ascertain wherein existing laws are defective or are improperly or negligently administered, and cause to be instituted such proceedings as will remedy improper or negligent administration of the laws relating to the assessment or taxation of property.

12. To make a summary of the tax situation in the state, setting out the amount of moneys raised by both direct and indirect taxation; and also to formulate and recommend legislation for the better administration of the fiscal laws so as to secure just and equal taxation. To recommend such additions to and changes in the present system of taxation that in the director's judgment are for the best interest of the state and will eliminate the necessity of any levy for state purposes.

13. To transmit biennially to the governor and to each member and member-elect of the legislature, thirty days before the meeting of the legislature, the report of the director, covering the subject of assessment and taxation, the result of the investigation of the director, recommendations for improvement in the system of taxation in the state, together with such measures as may be formulated for the consideration of the legislature.

14. To publish in pamphlet form the revenue laws of the state and distribute them to the county auditors, assessors, and boards of review.

15. To procure in such manner as the director may determine any information pertaining to the discovery of property which is subject to taxation in this state, and which may be obtained from the records of another state, and may furnish to the board or proper officers of another state, any information pertaining to the discovery of property which is subject to taxation in such state as disclosed by the records in this state.

16. To call upon any state department or institution for technical advice and data which may be of value in connection with the work of assessment and taxation.

17. To certify on January 1 of each year the aggregate of each state tax for each county for said year.

19. To issue rules as are necessary, subject to the provisions of chapter 17A, to provide for the uniform application of the exemptions provided in section 427.1 in all assessor jurisdictions in the state.

20. To subpoena from property owners and taxpayers any and all records and documents necessary to assist the department in the determination of the fair market value of industrial real estate. The burden of showing reasonable cause to believe that the documents or records sought by the subpoena are necessary to assist the department under this subsection shall be upon the director.

The provisions of sections 17A.10 to 17A.18 relating to contested cases shall not apply to any matters involving the equalization of valuations of classes of property as authorized by this chapter and chapter 441. This exemption shall not apply to a hearing before the state board of tax review.

21. To establish and maintain a procedure to set off against a debtor's income tax refund or rebate any debt, which is assigned to the department of human services, which the child support recovery unit is attempting to collect on behalf

of an individual not eligible as a public assistance recipient, or which the foster care recovery unit of the department of human services is attempting to collect on behalf of a child receiving foster care provided by the department of human services, which has accrued through written contract, subrogation, or court judgment and which is in the form of a liquidated sum due and owing for the care, support or maintenance of a child or which is owed to the state for public assistance overpayments to recipients or to providers of services to recipients which the investigations division of the department of inspections and appeals is attempting to collect on behalf of the state. For purposes of this subsection, "public assistance" means aid to dependent children, medical assistance, food stamps, foster care, and state supplementary assistance. The procedure shall meet the following conditions:

a. Before setoff all outstanding tax liabilities collectible by the department of revenue and finance shall be satisfied except that no portion of a refund or rebate shall be credited against tax liabilities which are not yet due.

Upon application filed with the department of human services within fifteen days from the mailing of the notice of entitlement to a refund or rebate, the department of human services shall grant a hearing pursuant to chapters 10A and 17A. An

appeal taken from the decision of an administrative law judge and subsequent appeals shall be taken pursuant to chapter 17A.

f. Upon the request of a debtor or a debtor's spouse to the child support recovery unit, the foster care recovery unit, or the investigations division of the department of inspections and appeals, filed within fifteen days from the mailing of the notice of entitlement to a refund or rebate, and upon receipt of the full name and social security number of the debtor's spouse, the unit or division shall notify the department of revenue and finance of the request to divide a joint income tax refund or rebate. g. The department of revenue and finance shall, after notice has been sent to the debtor by the child support recovery unit, the foster care recovery unit, or the investigations division of the department of inspections and appeals, set off the debt against the debtor's income tax refund or rebate. However, if a debtor has made all current child support or foster care payments in accordance with a court order or an assessment of foster care liability for the twelve months preceding the proposed setoff and has regularly made delinquent child support or foster care payments during those twelve months, the child support or foster care recovery unit shall notify the department of revenue and finance not to set off the debt against the debtor's income tax refund or rebate. If a debtor has made all current repayment of public assistance in accordance with a court order or voluntary repayment agreement for the twelve months preceding the proposed setoff and has regularly made delinquent payments during those twelve months, the investigations division of the department of inspections and appeals shall notify the department of revenue and finance not to set off the debt against the debtor's income tax refund or rebate. The child support recovery unit, the foster care recovery unit, or the investigations division of the department of inspections and appeals shall notify the debtor in writing upon completion of setoff.

22. To employ collection agencies, within or without the state, to collect delinquent taxes, including penalties and interest, administered by the department where the director finds that departmental personnel are unable to collect the delinquent accounts because of a taxpayer's location outside the state or for any other reason. Fees for services, reimbursement, or other remuneration, including attorney fees, paid to collection agencies shall be based upon the amount of tax, penalty, and interest actually collected and shall be paid only after the amount of tax, penalty, and interest is collected. Section 422.72, subsection 1, does not apply to this paragraph.

e. Upon notice of entitlement to a refund or rebate, the college aid commission shall send written notification to the defaulter, and a copy of the notice to the department of revenue and finance, of the commission's assertion of its rights to all or a portion of the defaulter's refund or rebate and the entitlement to recover the amount of the default through the setoff procedure, the basis of the assertion, the defaulter's opportunity to request that a joint income tax refund or rebate be divided between spouses, the defaulter's opportunity to give written notice of intent to contest the claim, and the fact that failure to contest the claim by written application for a hearing before a specified date will result in a waiver of the opportunity to contest the claim, causing final setoff by default. Upon application, the commission shall grant a hearing pursuant to chapter 17A. An appeal taken from the decision of an administrative law judge and any subsequent appeals shall be taken pursuant to chapter 17A.

f. Upon the timely request of a defaulter or a defaulter's spouse to the college aid commission and upon receipt of the full name and social security number of the defaulter's spouse, the commission shall notify the department of revenue and finance of the request to divide a joint income tax refund or rebate. The department of revenue and finance shall upon receipt of the notice divide a joint income tax refund or rebate between the defaulter and the defaulter's spouse in proportion to each spouse's net income as determined under section 422.7.

g. A department shall not impose additional or different requirements on submission of invoices than those contained in rules of the director of the department of revenue and finance unless the director exempts the department from the invoice requirements or a part of the requirements upon a finding that compliance would result in poor accounting or management practices.

Vouchers for postage, stamped envelopes, and postal cards may be audited as soon as an order for them is entered.

The departments, the general assembly, and the courts shall pay their claims in a timely manner. If a claim for services, supplies, materials, or a contract which is payable from the state treasury remains unpaid after sixty days following the receipt of the claim or the satisfactory delivery, furnishing, or performance of the services, supplies, materials, or contract, whichever date is later, the state shall pay interest at the rate of one percent per month on the unpaid amount of the claim. a. On all taxable income from zero through one thousand dollars, four-tenths of one percent.

*h.* On all taxable income exceeding thirty thousand dollars but not exceeding forty-five thousand dollars, eight and eight-tenths percent.

*i.* On all taxable income exceeding forty-five thousand dollars, nine and ninety-eight hundredths percent.

*j.* The tax imposed upon the taxable income of a nonresident shall be computed by reducing the amount determined pursuant to paragraphs "a" through "i" by the amounts of nonrefundable credits under this division and by multiplying this resulting amount by a fraction of which the nonresident's net income allocated to Iowa, as determined in section 422.8, subsection 2, is the numerator and the nonresident's total net income computed under section 422.7 is the denominator. This provision also applies to individuals who are residents of Iowa for less than the entire tax year.

*k.* There is imposed upon every resident and nonresident of this state, including estates and trusts, the greater of the tax determined in paragraphs "a" through "j" or the state alternative minimum tax equal to seventy-five percent of the maximum state individual income tax rate for the tax year, rounded to the nearest one-tenth of one percent, of the state alternative minimum taxable income of the taxpayer as computed under this paragraph.

The state alternative minimum taxable income of a taxpayer is equal to the taxpayer's state taxable income, as computed with the deductions in section 422.9, with the following adjustments:

(1) Add items of tax preference included in federal alternative minimum taxable income under section 57, except subsections (a)(1), (a)(2), and (a)(5), of the Internal Revenue Code, make the adjustments included in federal alternative minimum taxable income under section 56, except subsections (a)(4), (b)(1)(C)(iii), and (d), of the Internal Revenue Code, and add losses as required by section 58 of the Internal Revenue Code. In the case of an estate or trust, the items of tax preference, adjustments, and losses shall be apportioned between the estate or trust and the beneficiaries in accordance with rules prescribed by the director.

(2) Subtract the applicable exemption amount as follows:

(a) Seventeen thousand five hundred dollars for a married person who files separately or for an estate or trust.

(b) Twenty-six thousand dollars for a single person or an unmarried head of household.

(c) Thirty-five thousand dollars for a married couple which files a joint return.

(d) The exemption amount shall be reduced, but not below zero, by an amount equal to twenty-five percent of the amount by which the alternative minimum taxable income of the taxpayer, computed without regard to the exemption amount in this subparagraph, exceeds the following:

(i) Seventy-five thousand dollars in the case of a taxpayer described in subparagraph subdivision (a).

(ii) One hundred twelve thousand five hundred dollars in the case of a taxpayer described in subparagraph subdivision (b).

(iii) One hundred fifty thousand dollars in the case of a taxpayer described in subparagraph subdivision (c).

(3) In the case of a net operating loss computed for a tax year beginning after December 31, 1982, which is carried back or carried forward to the current taxable year, the net operating loss shall be reduced by the amount of the items of tax preference arising in such year which was taken into account in computing the net operating loss in section 422.9, subsection 3. The deduction for a net operating loss for a tax year beginning after December 31, 1986, which is carried back or carried forward to the current taxable year shall not exceed ninety percent of the alternative minimum taxable income determined without regard for the net operating loss deduction.

The state alternative minimum tax of a taxpayer whose net capital gain deduction includes the gain or loss from the forfeiture of an installment real estate contract, the transfer of real or personal property securing a debt to a creditor in cancellation of that debt, or from the sale or exchange of property as a result of actual notice of foreclosure, where the fair market value of the taxpayer's assets exceeds the taxpayer's liabilities immediately before such forfeiture, transfer, or sale or exchange, shall not be greater than such excess, including any asset transferred within one hundred twenty days prior to such forfeiture, transfer, or sale or exchange.

In the case of a resident, including a resident estate or trust, the state's apportioned share of the state alternative minimum tax is one hundred percent of the state alternative minimum tax computed in this subsection. In the case of a nonresident, including a nonresident estate or trust, or an individual, estate, or trust that is domiciled in the state for less than the entire tax year, the state's apportioned share of the state alternative minimum tax is the amount of tax computed under this subsection, reduced by the applicable credits in sections 422.10 through 422.12 and this result multiplied by a fraction with a numerator of the sum of state net income allocated to Iowa as determined in section 422.8, subsection 2, plus tax preference items, adjustments, and losses under subparagraph (1) attributable to Iowa and with a denominator of the sum of total net income computed under section 422.7 plus all tax preference items, adjustments, and losses under subparagraph (1). In computing this fraction, those items excludable under subparagraph (1) shall not be used in computing the tax preference items. Married taxpayers electing to file separate returns or separately on a combined return must allocate the minimum tax computed in this subsection in the proportion that each spouse's respective preference items, adjustments, and losses under subparagraph (1) bear to the combined preference items, adjustments, and losses under subparagraph (1) of both spouses.

2. However, the tax shall not be imposed on a resident or nonresident whose net income, as defined in section 422.7, is seven thousand five hundred dollars or less in the case of married persons filing jointly or filing separately on a combined return, unmarried heads of household, and surviving spouses or five thousand dollars or less in the case of all other persons; but in the event that the payment of tax under this division would reduce the net income to less than seven thousand five hundred dollars or five thousand dollars as applicable, then the tax shall be reduced to that amount which would result in allowing the taxpayer to retain a net income of seven thousand five hundred dollars or five thousand dollars as applicable. The preceding sentence does not apply to estates or trusts. For the purpose of this subsection, the entire net income, including any part of the net income not allocated to Iowa, shall be taken into account. For purposes of this subsection, net income includes all amounts of pensions or other retirement income received from any source which is not taxable under this division as a result of any other state law. If the combined net income of a husband and wife exceeds seven thousand five hundred dollars, neither of them shall receive the benefit of this subsection, and it is immaterial whether they file a joint return or separate returns. However, if a husband and wife file separate returns and have a combined net income of seven thousand five hundred dollars or less, neither spouse shall receive the benefit of this paragraph, if one spouse has a net operating loss and elects to carry back or carry forward the loss as provided in section 422.9, subsection 3. A person who is claimed as a dependent by another person as defined in section 422.12 shall not receive the benefit of this subsection if the person claiming the dependent has net income exceeding seven thousand five hundred dollars or five thousand dollars as applicable or the person claiming the dependent and the person's spouse have combined net income exceeding seven thousand five hundred dollars or five thousand dollars as applicable.

In addition, if the married persons', filing jointly or filing separately on a combined return, unmarried head of household's, or surviving spouse's net

income exceeds seven thousand five hundred dollars, the regular tax imposed under this division shall be the lesser of the maximum state individual income tax rate times the portion of the net income in excess of seven thousand five hundred dollars or the regular tax liability computed without regard to this sentence. Taxpayers electing to file separately shall compute the alternate tax described in this paragraph using the total net income of the husband and wife. The alternate tax described in this paragraph does not apply if one spouse elects to carry back or carry forward the loss as provided in section 422.9, subsection 3.

3. A resident of Iowa who is on active duty in the armed forces of the United States, as defined in Title 10, United States Code, section 101, for more than six continuous months, shall not include any income received for such service performed on or after January 1, 1969, or prior to January 1, 1977, in computing the tax imposed by this section.

4. The tax herein levied shall be computed and collected as hereinafter provided.

5. The provisions of this division shall apply to all salaries received by federal officials or employees of the United States government as provided for herein.

6. Upon determination of the latest cumulative inflation factor, the director shall multiply each dollar amount set forth in subsection 1, paragraphs "a" through "i" of this section by this cumulative inflation factor, shall round off the resulting product to the nearest one dollar, and shall incorporate the result into the income tax forms and instructions for each tax year.

7. The state income tax of a taxpayer whose net income includes the gain or loss from the forfeiture of an installment real estate contract, the transfer of real or personal property securing a debt to a creditor in cancellation of that debt, or from the sale or exchange of property as a result of actual notice of foreclosure where the fair market value of the taxpayer's assets exceeds the taxpayer's liabilities immediately before such forfeiture, transfer, or sale or exchange shall not be greater than such excess, including any asset transferred within one hundred twenty days prior to such forfeiture, transfer, or sale or exchange. For purposes of this subsection, in the case of married taxpayers, except in the case of a husband and wife who live apart at all times during the tax year, the assets and liabilities of both spouses shall be considered in determining if the fair market value of the taxpayer's assets exceed the taxpayer's liabilities.

8. In addition to the other taxes imposed by this section, a tax is imposed on the amount of a lump sum distribution for which the taxpayer has elected under section 402(e) of the Internal Revenue Code to be separately taxed for federal income tax purposes for the tax year. The rate of tax is equal to twenty-five percent of the separate federal tax imposed on the amount of the lump sum distribution. A nonresident is liable for this tax only on that portion of the lump sum distribution allocable to Iowa. The total amount of the lump sum distribution subject to separate federal tax shall be included in net income for purposes of determining eligibility under the seven thousand five hundred dollar or less or five thousand dollar or less exclusion, as applicable.

9. In the case of income derived from the sale or exchange of livestock which qualifies under section 451(e) of the Internal Revenue Code because of drought, the taxpayer may elect to include the income in the taxpayer's net income in the tax year following the year of the sale or exchange in accordance with rules prescribed by the director.

### 422.6 Income from estates or trusts.

The tax imposed by section 422.5 less the credit allowed under section 422.10 and the personal exemption credit allowed under section 422.12 apply to and are a charge against estates and trusts with respect to their taxable income, and the rates are the same as those applicable to individuals. The fiduciary shall make the return of income for the estate or trust for which the fiduciary acts, whether the income is taxable to the estate or trust or to the beneficiaries.

The beneficiary of a trust who receives an accumulation distribution shall be allowed credit without interest for the Iowa income taxes paid by the trust attributable to the accumulation distribution in a manner corresponding to the provisions for credit under the federal income tax relating to accumulation distributions as contained in the Internal Revenue Code. The trust is not entitled to a refund of taxes paid on the distributions. The trust shall maintain detailed records to verify the computation of the tax.

### 422.7 "Net income" - how computed.

The term "*net income*" means the adjusted gross income before the net operating loss deduction as properly computed for federal income tax purposes under the Internal Revenue Code, with the following adjustments:

1. Subtract interest and dividends from federal securities.
2. Add interest and dividends from foreign securities and from securities of state and other political subdivisions exempt from federal income tax under the Internal Revenue Code.
3. Where the adjusted gross income includes capital gains or losses, or gains or losses from property other than capital assets, and such gains or losses have been determined by using a basis established prior to January 1, 1934, an adjustment may be made, under rules prescribed by the director, to reflect the difference resulting from the use of a basis of cost or January 1, 1934, fair market value, less depreciation allowed or allowable, whichever is higher. Provided that the basis shall be fair market value as of January 1, 1955, less depreciation allowed or allowable, in the case of property acquired prior to that date if use of a prior basis is declared to be invalid.
4. Subtract installment payments received by a beneficiary under an annuity which was purchased under an employee's pension or retirement plan when the commuted value of said installments has been included as a part of the decedent employee's estate for Iowa inheritance tax purposes.
5. Individual taxpayers and married taxpayers who file a joint federal income tax return and who elect to file a joint return, separate returns, or separate filing on a combined return for Iowa income tax purposes, may avail themselves of the disability income exclusion and shall compute the amount of the disability income exclusion subject to the limitations for joint federal income tax return filers provided by section 105(d) of the Internal Revenue Code. The disability income exclusion provided in section 105(d) of the Internal Revenue Code, as amended up to and including December 31, 1982, continues to apply for state income tax purposes for tax years beginning on or after January 1, 1984.
6. Add to the taxable income of trusts, that portion of trust income excluded from federal taxable income under section 641(c) of the Internal Revenue Code.
7. Married taxpayers who file a joint federal income tax return and who elect to file separate returns or separate filing on a combined return for Iowa income tax purposes, may avail themselves of the expensing of business assets and capital loss provisions of sections 179(a) and 1211(b) respectively of the Internal Revenue Code and shall compute the amount of expensing of business assets and capital loss subject to the limitations for joint federal income tax return filers provided by sections 179(b) and 1211(b) respectively of the Internal Revenue Code.

8. Subtract the amount of the jobs tax credit allowable for the tax year under section 51 of the Internal Revenue Code to the extent that the credit increased federal adjusted gross income.

9. Subtract the amount of the alcohol fuel credit allowable for the tax year under section 40 of the Internal Revenue Code to the extent that the credit increased federal adjusted gross income.

10. Notwithstanding the method for computing the amount of travel expenses that may be deducted under section 162(h) of the Internal Revenue Code, for tax years beginning on or after January 1, 1987, a member of the general assembly whose place of residence within the legislative district is greater than fifty miles from the capitol building of the state may deduct the total amount per day determined under section 162(h)(1)(B) of the Internal Revenue Code and a member of the general assembly whose place of residence within the legislative district is fifty or fewer miles from the capitol building of the state may deduct fifty dollars per day. This subsection does not apply to a member of the general assembly who elects to itemize for state tax purposes the member's travel expenses.

11. Add the amounts deducted and subtract the amounts included as income as a result of the treatment provided sale-leaseback agreements under section 168(f)(8) of the Internal Revenue Code for property placed in service by the transferee prior to January 1, 1986, to the extent that the amounts deducted and the amounts included in income are not otherwise deductible or included in income under the Internal Revenue Code as amended to and including December 31, 1985. Entitlement to depreciation on any property included in a sale-leaseback agreement which is placed in service by the transferee prior to January 1, 1986, shall be determined under the Internal Revenue Code as amended to and including December 31, 1985, excluding section 168(f)(8) in making the determination.

12. If the adjusted gross income includes income or loss from a small business operated by the taxpayer, an additional deduction shall be allowed in computing the income or loss from the small business if the small business hired for employment in the state during its annual accounting period ending with or during the taxpayer's tax year any of the following:

a. A handicapped individual domiciled in this state at the time of the hiring who meets any of the following conditions:

(1) Has a physical or mental impairment which substantially limits one or more major life activities.

(2) Has a record of that impairment.

(3) Is regarded as having that impairment.

b. An individual domiciled in this state at the time of the hiring who meets any of the following conditions:

(1) Has been convicted of a felony in this or any other state or the District of Columbia.

(2) Is on parole pursuant to chapter 906.

(3) Is on probation pursuant to chapter 907, for an offense other than a simple misdemeanor.

(4) Is in a work release program pursuant to chapter 246, division IX.

c. An individual, whether or not domiciled in this state at the time of the hiring, who is on parole or probation and to whom the interstate probation and parole compact under section 907A.1 applies.

The amount of the additional deduction is equal to sixty-five percent of the wages paid to individuals, but shall not exceed twenty thousand dollars per individual, named in paragraphs "a", "b", and "c" who were hired for the first time by that business during the annual accounting period for work done in the state. This additional deduction is allowed for the wages paid to those individuals successfully completing a probationary period during the twelve months following

the date of first employment by the business and shall be deducted at the close of the annual accounting period.

The additional deduction shall not be allowed for wages paid to an individual who was hired to replace an individual whose employment was terminated within the twelve-month period preceding the date of first employment. However, if the individual being replaced left employment voluntarily without good cause attributable to the employer or if the individual was discharged for misconduct in connection with the individual's employment as determined by the division of job service of the department of employment services, the additional deduction shall be allowed.

A taxpayer who is a partner of a partnership or a shareholder of a subchapter S corporation, may deduct that portion of wages qualified under this subsection paid by the partnership or subchapter S corporation based on the taxpayer's pro rata share of the profits or losses from the partnership or subchapter S corporation.

For purposes of this subsection, "*physical or mental impairment*" means any physiological disorder or condition, cosmetic disfigurement, or anatomical loss affecting one or more of the body systems or any mental or psychological disorder, including mental retardation, organic brain syndrome, emotional or mental illness and specific learning disabilities.

For purposes of this subsection, "*small business*" means small business as defined in section 220.1, subsection 28, except that it shall also include the operation of a farm.

13. Married taxpayers, who file a joint federal income tax return and who elect to file separate returns or who elect separate filing on a combined return for state income tax purposes, shall include in net income any social security benefits received to the same extent as those benefits are taxable on the taxpayer's joint federal return for that year under section 86 of the Internal Revenue Code. The benefits included in net income must be allocated between the spouses in the ratio of the social security benefits received by each spouse to the total of these benefits received by both spouses.

14. Add the amount of intangible drilling and development costs optionally deducted in the year paid or incurred as described in section 57(a)(2) of the Internal Revenue Code. This amount may be recovered through cost depletion or depreciation, as appropriate under rules prescribed by the director.

15. Add the percentage depletion amount determined with respect to an oil, gas, or geothermal well as described in section 57(a)(1) of the Internal Revenue Code.

16. Subtract the income or loss resulting from the forfeiture of an installment real estate contract, the transfer of real or personal property securing a debt to a creditor in cancellation of that debt, or from the sale or exchange of property as a result of actual notice of foreclosure if all of the following conditions are met:

a. The forfeiture, transfer, or sale or exchange was done for the purpose of establishing a positive cash flow.

b. Immediately before the forfeiture, transfer, or sale or exchange, the taxpayer's debt to asset ratio exceeded ninety percent as computed under generally accepted accounting practices.

c. The taxpayer's net worth at the end of the tax year is less than seventy-five thousand dollars. In determining a taxpayer's net worth at the end of the tax year a taxpayer shall include any asset transferred within one hundred twenty days prior to the end of the tax year without adequate and full consideration in money or money's worth. In determining the taxpayer's debt to asset ratio, the taxpayer shall include any asset transferred within one hundred twenty days prior to such forfeiture, transfer, or sale or exchange without adequate and full consideration in money or money's worth. For purposes of this subsection, actual notice of foreclosure includes, but is not limited to, bankruptcy or written notice from a

creditor of the creditor's intent to foreclose where there is a reasonable belief that the creditor can force a sale of the asset. For purposes of this subsection, in the case of married taxpayers, except in the case of a husband and wife who live apart at all times during the tax year, the assets and liabilities of both spouses shall be considered for purposes of determining the taxpayer's net worth or the taxpayer's debt to asset ratio.

17. Add interest and dividends from regulated investment companies exempt from federal income tax under the Internal Revenue Code and subtract the loss on the sale or exchange of a share of a regulated investment company held for six months or less to the extent the loss was disallowed under section 852(b)(4)(B) of the Internal Revenue Code.

18. For a person who is disabled, is fifty-five years of age or older or is the surviving spouse of an individual or survivor having an insurable interest in an individual who would have qualified for the exemption under this paragraph for this tax year, subtract, to the extent included, the total amount of pension, annuity, or retirement allowances received under the peace officers' retirement system under chapter 97A, the Iowa public employees' retirement system under chapter 97B, the Iowa police officers and firefighters retirement system under chapter 411, the judicial retirement system under chapter 602, article 9, and any federal retirement and disability system, as a result of being an officer or employee of the federal government, up to a maximum each tax year of two thousand five hundred dollars for a person who files a separate state income tax return and five thousand dollars for a husband and wife who file a joint state income tax return. However, a surviving spouse who is not disabled or sixty-two\* years of age or older can only exclude the amount of annuities received as a result of the death of the other spouse.

19. Subtract interest earned on bonds and notes issued by the agricultural development authority as provided in section 175.17, subsection 10, to the extent the interest is included in federal adjusted gross income.

20. Subtract, to the extent included, the proceeds received pursuant to a judgment in or settlement of a lawsuit against the manufacturer or distributor of a Vietnam herbicide for damages resulting from exposure to the herbicide. This subsection applies to proceeds received by a taxpayer who is a disabled veteran or who is a beneficiary of a disabled veteran.

For purposes of this subsection:

a. "*Vietnam herbicide*" means a herbicide, defoliant or other causative agent containing dioxin, including, but not limited to, Agent Orange, used in the Vietnam conflict beginning December 22, 1961, and ending May 7, 1975, inclusive.

b. "*Agent Orange*" means the herbicide composed of trichlorophenoxyacetic acid and dichlorophenoxyacetic acid and the contaminant dioxin (TCDD).

21. Subtract forty-five percent of the net capital gain from the following:

a. Net capital gain from the sale of real property used in a business, in which the taxpayer materially participated for ten years, as defined in section 469(h) of the Internal Revenue Code, and which has been held for a minimum of ten years, or from the sale of a business, as defined in section 422.42, in which the taxpayer was employed or in which the taxpayer materially participated for ten years, as defined in section 469(h) of the Internal Revenue Code, and which has been held for a minimum of ten years. The sale of a business means the sale of all or substantially all of the tangible personal property or service of the business.

b. Net capital gain from the sale of cattle or horses held by the taxpayer for breeding, draft, dairy, or sporting purposes for a period of twenty-four months or more from the date of acquisition; but only if the taxpayer received more than one-half of the taxpayer's gross income from farming or ranching operations during the tax year.

c. Net capital gain from the sale of breeding livestock, other than cattle or horses, if the livestock is held by the taxpayer for a period of twelve months or more from the date of acquisition; but only if the taxpayer received more than one-half of the taxpayer's gross income from farming or ranching operations during the tax year.

d. Net capital gain from the sale of timber as defined in section 631(a) of the Internal Revenue Code.

The net capital gain of paragraphs "a", "b", "c", and "d" together shall not exceed seventeen thousand five hundred dollars for the tax year. Married taxpayers who elect separate filing on a combined return for state tax purposes are treated as one taxpayer and the amount of net capital gain to be used to determine the total amount to be subtracted by them shall not exceed seventeen thousand five hundred dollars in the aggregate. Married taxpayers who file jointly or separately on a combined return shall prorate the seventeen thousand five hundred dollar limitation between them based on the ratio of each spouse's net capital gain to the total net capital gain of both spouses. In the case of married taxpayers filing separate returns, the amount of net capital gain to be used to determine the amount to be subtracted by each spouse shall not exceed eight thousand seven hundred fifty dollars.

22. Subtract, to the extent included, the amounts paid to an eligible individual under section 105 of the Civil Liberties Act of 1988, Pub. L. No. 100-383, Title I, as satisfaction for a claim against the United States arising out of the confinement, holding in custody, relocation, or other deprivation of liberty or property of an individual of Japanese ancestry.

## 422.9 Deductions from net income.

In computing taxable income of individuals, there shall be deducted from net income the larger of the following amounts:

1. An optional standard deduction, after deduction of federal income tax, equal to one thousand two hundred thirty dollars for a married person who files separately or a single person or equal to three thousand thirty dollars for a husband and wife who file a joint return, a surviving spouse, or an unmarried head of household. The optional standard deduction shall not exceed the amount remaining after deduction of the federal income tax.

2. The total of contributions, interest, taxes, medical expense, nonbusiness losses, miscellaneous expenses and moving expenses deductible for federal income tax purposes under the Internal Revenue Code, with the following adjustments:

- a. Subtract the deduction for Iowa income taxes.
- b. Add the amount of federal income taxes paid or accrued as the case may be, during the tax year, adjusted by any federal income tax refunds. Provided, however, that where married persons, who have filed a joint federal income tax return, file separately, such total shall be divided between them according to the portion thereof paid or accrued, as the case may be, by each.

c. Add the amount by which expenses paid or incurred in connection with the adoption of a child by the taxpayer exceed three percent of the net income of the taxpayer, or of the taxpayer and spouse in the case of a joint return. The expenses may include medical and hospital expenses of the natural mother which are incident to the child's birth and are paid by the taxpayer, welfare agency fees, legal fees, and all other fees and costs relating to the adoption of a child if the child is placed by a child-placing agency licensed under chapter 238 or by a person making an independent placement according to the provisions of chapter 600.

d. Add an additional deduction for mileage incurred by the taxpayer in voluntary work for a charitable organization consisting of the excess of the state employee mileage reimbursement over the amount deductible for federal income tax purposes. The deduction shall be proven by the keeping of a contemporaneous diary by the person throughout the period of the voluntary work in the tax year.

e. Add the amount, not to exceed five thousand dollars, of expenses not otherwise deductible under this section actually incurred in the home of the taxpayer for the care of a person who is the grandchild, child, parent, or grandparent of the taxpayer or the taxpayer's spouse and who is unable, by reason of physical or mental disability, to live independently and is receiving, or would be eligible to receive if living in a health care facility licensed under chapter 135C, medical assistance benefits under chapter 249A. In the event that the person being cared for is receiving assistance benefits under chapter 239, the expenses not otherwise deductible shall be the net difference between the expenses actually incurred in caring for the person and the assistance benefits received under chapter 239.

f. Add the amount the taxpayer has paid to others, not to exceed one thousand dollars for each dependent in grades kindergarten through twelve, for tuition and textbooks of each dependent in attending an elementary or secondary school situated in Iowa, which school is accredited or approved under section 256.11, which is not operated for profit, and which adheres to the provisions of the United States Civil Rights Act of 1964 and chapter 601A. As used in this lettered paragraph, "*textbooks*" means books and other instructional materials and equipment used in elementary and secondary schools in teaching only those subjects legally and commonly taught in public elementary and secondary schools in this state and does not include instructional books and materials used in the teaching of religious tenets, doctrines, or worship, the purpose of which is to inculcate those tenets, doctrines, or worship, and does not include books or materials for extracurricular activities including sporting events, musical or dramatic events, speech activities, driver's education, or programs of a similar nature. The deduction in this paragraph does not apply to a taxpayer whose adjusted gross income, as properly computed for federal tax purposes, is forty-five thousand dollars or more. In the case where the taxpayer is married, whether filing jointly or separately, the deduction does not apply if the combined adjusted gross income of the taxpayer and spouse is forty-five thousand dollars or more.

As used in this lettered paragraph, "*tuition*" means any charges for the expenses of personnel, buildings, equipment and materials other than textbooks, and other expenses of elementary or secondary schools which relate to the teaching only of those subjects legally and commonly taught in public elementary and secondary schools in this state and which do not relate to the teaching of religious tenets, doctrines, or worship, the purpose of which is to inculcate those tenets, doctrines, or worship, and which do not relate to extracurricular activities including sporting events, musical or dramatic events, speech activities, driver's education, or programs of a similar nature.

3. If, after applying all of the adjustments provided for in section 422.7, the allocation provisions of section 422.8, and the deductions allowable in this section subject to the modifications provided in section 172(d) of the Internal Revenue

Code, the taxable income results in a net operating loss, the net operating loss shall be deducted as follows:

a. The Iowa net operating loss shall be carried back three taxable years or to the taxable year in which the individual first earned income in Iowa whichever year is the later.

b. The Iowa net operating loss remaining after being carried back as required in paragraph "a" of this subsection or if not required to be carried back shall be carried forward fifteen taxable years.

c. If the election under section 172(b)(3)(C) of the Internal Revenue Code is made, the Iowa net operating loss shall be carried forward fifteen taxable years.

4. Where married persons file separately, both must use the optional standard deduction if either elects to use it.

5. A taxpayer affected by section 422.8 shall, if the optional standard deduction is not used, be permitted to deduct only such portion of the total referred to in subsection 2 above as is fairly and equitably allocable to Iowa under the rules prescribed by the director.

**422.11A New jobs tax credit.**

The taxes imposed under this division, less credits allowed under sections 422.10 and 422.12, shall be reduced by a new jobs tax credit. An industry which has entered into an agreement under chapter 280B and which has increased its base employment level by at least ten percent within the time set in the agreement or, in the case of an industry without a base employment level, adds new jobs within the time set in the agreement is entitled to this new jobs tax credit for the tax year selected by the industry. In determining if the industry has increased its base employment level by ten percent or added new jobs, only those new jobs directly resulting from the project covered by the agreement and those directly related to those new jobs shall be counted. The amount of this credit is equal to the product of six percent of the taxable wages upon which an employer is required to contribute to the state unemployment compensation fund, as defined in section 96.19, subsection 20, times the number of new jobs existing in the tax year that directly result from the project covered by the agreement or new jobs that directly result from those new jobs. The tax year chosen by the industry shall either begin or end during the period beginning with the date of the agreement and ending with the date by which the project is to be completed under the agreement. An individual may claim the new jobs tax credit allowed a partnership, subchapter S corporation, or estate or trust electing to have the income taxed directly to the individual. The amount claimed by the individual shall be based upon the pro rata share of the individual's earnings of the partnership, subchapter S corporation, or estate or trust. Any credit in excess of the tax liability for the tax year may be credited to the tax liability for the following ten tax years or until depleted, whichever is the earlier. For purposes of this section, "agreement", "industry", "new job" and "project" mean the same as defined in section 280B.2 and "base employment level" means the number of full-time jobs an industry employs at the plant site which is covered by an agreement under chapter 280B on the date of that agreement.

**422.11B Minimum tax credit.**

1. There is allowed as a credit against the tax determined in section 422.5, subsection 1, paragraphs "a" through "j" for a tax year an amount equal to the minimum tax credit for that tax year.

The minimum tax credit for a tax year is the excess, if any, of the adjusted net minimum tax imposed for all prior tax years beginning on or after January 1, 1987, over the amount allowable as a credit under this section for those prior tax years.

2. The allowable credit under subsection 1 for a tax year shall not exceed the excess, if any, of the tax determined in section 422.5, subsection 1, paragraphs "a" through "j" over the state alternative minimum tax as determined in section 422.5, subsection 1, paragraph "k".

The net minimum tax for a tax year is the excess, if any, of the tax determined in section 422.5, subsection 1, paragraph "k" for the tax year over the tax determined in section 422.5, subsection 1, paragraphs "a" through "j" for the tax year.

The adjusted net minimum tax for a tax year is the net minimum tax for the tax year reduced by the amount which would be the net minimum tax if the only item of tax preference taken into account was that described in paragraph (6) of section 57(a) of the Internal Revenue Code.

#### **422.12 Deductions from computed tax.**

There shall be deducted from but not to exceed the tax, after the same shall have been computed as provided in this division, the following:

1. A personal exemption credit in the following amounts:

a. For an estate or trust, a single individual, or a married person filing a separate return, twenty dollars.

b. For a head of household, or a husband and wife filing a joint return, forty dollars.

c. For each dependent, an additional fifteen dollars. As used in this section, the term "dependent" has the same meaning as provided by the Internal Revenue Code.

d. For a single individual, husband, wife or head of household, an additional exemption of twenty dollars for each of said individuals who has attained the age of sixty-five years before the close of the tax year or on the first day following the end of the tax year.

e. For a single individual, husband, wife or head of household, an additional exemption of twenty dollars for each of said individuals who is blind at the close of the tax year. For the purposes of this paragraph, an individual is blind only if the individual's central visual acuity does not exceed twenty-two hundredths in the better eye with correcting lenses, or if the individual's visual acuity is greater than twenty-two hundredths but is accompanied by a limitation in the fields of vision such that the widest diameter of the visual field subtends an angle no greater than twenty degrees.

2. A child and dependent care credit equal to forty-five percent of the federal child and dependent care credit provided in section 21 of the Internal Revenue Code.

Married taxpayers electing to file separate returns or filing separately on a combined return must allocate the child and dependent care credit to each spouse in the proportion that each spouse's respective net income bears to the total combined net income. Taxpayers affected by the allocation provisions of section 422.8 shall be permitted a deduction for the credit only in the amount fairly and equitably allocable to Iowa under rules prescribed by the director.

3. For those who do not itemize their deduction, a tuition credit equal to five percent of the first one thousand dollars which the taxpayer has paid to others for each dependent in grades kindergarten through twelve, for tuition and textbooks of each dependent in attending an elementary or secondary school situated in

Iowa, which school is accredited or approved under section 256.11, which is not operated for profit, and which adheres to the provisions of the United States Civil Rights Act of 1964 and chapter 601A. As used in this subsection, "textbooks" means books and other instructional materials and equipment used in elementary and secondary schools in teaching only those subjects legally and commonly taught in public elementary and secondary schools in this state and does not include instructional books and materials used in the teaching of religious tenets, doctrines, or worship, the purpose of which is to inculcate those tenets, doctrines, or worship, and does not include books or materials for extracurricular activities including sporting events, musical or dramatic events, speech activities, driver's education, or programs of a similar nature. Notwithstanding any other provision, all other credits allowed under section 422.10 through 422.12 shall be deducted before the tuition credit under this subsection. The credit in this subsection does not apply to a taxpayer whose adjusted gross income, as properly computed for federal tax purposes, is forty-five thousand dollars or more. In the case where the taxpayer is married, whether filing jointly or separately, the credit does not apply if the combined adjusted gross income of the taxpayer and spouse is forty-five thousand dollars or more.

As used in this subsection, "tuition" means any charges for the expenses of personnel, buildings, equipment and materials other than textbooks, and other expenses of elementary or secondary schools which relate to the teaching only of those subjects legally and commonly taught in public elementary and secondary schools in this state and which do not relate to the teaching of religious tenets, doctrines, or worship, the purpose of which is to inculcate those tenets, doctrines, or worship, and which do not relate to extracurricular activities including sporting events, musical or dramatic events, speech activities, driver's education, or programs of a similar nature.

4. For the purpose of this section, the determination of whether an individual is married shall be made as of the close of the individual's tax year unless the individual's spouse dies during the individual's tax year, in which case the determination shall be made as of the date of the spouse's death. An individual legally separated from the individual's spouse under a decree of divorce or of separate maintenance shall not be considered married.

#### **422.12B Earned income tax credit.**

1. The taxes imposed under this division, less credits allowed under sections 422.10 through 422.12, shall be reduced by an earned income credit equal to five percent of the federal earned income credit received by the taxpayer under section 32(b) of the Internal Revenue Code. Any credit in excess of the tax liability is nonrefundable.

2. Married taxpayers electing to file separate returns or filing separately on a combined return may avail themselves of the earned income credit by allocating the earned income credit to each spouse in the proportion that each spouse's respective earned income bears to the total combined earned income. Taxpayers affected by the allocation provisions of section 422.8 shall be permitted a deduction for the credit only in the amount fairly and equitably allocable to Iowa under rules prescribed by the director.

#### **422.13 Return by individual.**

1. A resident or nonresident of this state shall make a return, signed in accordance with forms and rules prescribed by the director, if any of the following are applicable:

a. The individual is required to file a federal income tax return under the Internal Revenue Code.

b. The individual has net income of five thousand dollars or more for the tax year from sources taxable under this division.

c. The individual is claimed as a dependent on another person's return and has net income of three thousand dollars or more for the tax year from sources taxable under this division.

d. However, if that part of the net income of a nonresident which is allocated to Iowa pursuant to section 422.8, subsection 2 is less than five hundred dollars the nonresident is not required to make and sign a return.

2. For purposes of determining the requirement for filing a return under subsection 1, the combined net income of a husband and wife from sources taxable under this division shall be considered.

3. If the taxpayer is unable to make the return, the return shall be made by a duly authorized agent or by a guardian or other person charged with the care of the person or property of the taxpayer.

4. A nonresident taxpayer shall file a copy of the taxpayer's federal income tax return for the current tax year with the return required by this section.

5. Notwithstanding subsections 1 through 4 and sections 422.15 and 422.36, a partnership, trust, or corporation whose stockholders are taxed on the corporation's income under the provisions of the Internal Revenue Code is entitled to request permission from the director to file a composite return for the nonresident partners, beneficiaries, or shareholders. The director may grant permission to file or require that a composite return be filed under the conditions deemed appropriate by the director. A partnership, trust, or corporation filing a composite return is liable for tax required to be shown due on the return. All powers of the director and requirements of the director apply to returns filed under this subsection including, but not limited to, the provisions of this division and division VI of this chapter.

#### **422.14 Return by fiduciary.**

1. A fiduciary subject to taxation under this division, as provided in section 422.6, shall make a return, signed in accordance with forms and rules prescribed by the director, for the individual, estate, or trust for whom or for which the fiduciary acts, if the taxable income thereof amounts to six hundred dollars or more. A nonresident fiduciary shall file a copy of the federal income tax return for the current tax year with the return required by this section.

2. Under such regulations as the director may prescribe, a return may be made by one of two or more joint fiduciaries.

3. Fiduciaries required to make returns under this division shall be subject to all the provisions of this division which apply to individuals.

#### **422.16 Withholding of income tax at source—penalties—interest—declaration of estimated tax—bond.**

1. Every withholding agent and every employer as defined in this chapter and further defined in the Internal Revenue Code, with respect to income tax collected at source, making payment of wages to a nonresident employee working in Iowa, or to a resident employee, shall deduct and withhold from the wages an amount which will approximate the employee's annual tax liability on a calendar year basis, calculated on the basis of tables to be prepared by the department and schedules or percentage rates, based on the wages, to be prescribed by the department. Every employee or other person shall declare to the employer or

withholding agent the number of the employee's or other person's personal exemptions and dependency exemptions or credits to be used in applying the tables and schedules or percentage rates. However, no greater number of personal or dependency exemptions or credits may be declared by the employee or other person than the number to which the employee or other person is entitled except as allowed under section 3402(m)(1) of the Internal Revenue Code. The claiming of exemptions or credits in excess of entitlement is a serious misdemeanor.

Nonresidents engaged in any facet of feature film, television, or educational production using the film or video tape disciplines in the state are not subject to Iowa withholding if the employer has applied to the department for exemption from the withholding requirement and the department has determined that any nonresident receiving wages would be entitled to a credit against Iowa income taxes paid.

2. A withholding agent required to deduct and withhold tax under subsections 1 and 12, except those required to deposit on a semimonthly basis, shall deposit for each calendar quarterly period, on or before the last day of the month following the close of the quarterly period, on a quarterly deposit form as prescribed by the director and shall pay to the department, in the form of remittances made payable to "Treasurer, State of Iowa", the tax required to be withheld, or the tax actually withheld, whichever is greater, under subsections 1 and 12. However, a withholding agent who withholds more than fifty dollars in any one month, except those required to deposit on a semimonthly basis, shall deposit with the department the amount withheld, with a monthly deposit form as prescribed by the director. The monthly deposit form is due on or before the fifteenth day of the month following the month of withholding, except that a deposit is not required for the amount withheld in the third month of the quarter but the total amount of withholding for the quarter shall be computed and the amount by which the deposits for that quarter fail to equal the total quarterly liability is due with the filing of the quarterly deposit form. The quarterly deposit form is due within the month following the end of the quarter. A withholding agent who withholds more than eight thousand dollars in a semimonthly period shall deposit with the department the amount withheld, with a semimonthly deposit form as prescribed by the director. The first semimonthly deposit form for the period from the first of the month through the fifteenth of the month is due on the twenty-fifth day of the month in which the withholding occurs. The second semimonthly deposit form for the period from the sixteenth of the month through the end of the month is due on the tenth day of the month following the month in which the withholding occurs.

Every withholding agent on or before the end of the second month following the close of the calendar year in which the withholding occurs shall make an annual reporting of taxes withheld and other information prescribed by the director and send to the department copies of wage and tax statements with the return.

If the director has reason to believe that the collection of the tax provided for in subsections 1 and 12 is in jeopardy, the director may require the employer or withholding agent to make the report and pay the tax at any time, in accordance with section 422.30. The director may authorize incorporated banks, trust companies, or other depositories authorized by law which are depositories or financial agents of the United States or of this state, to receive any tax imposed under this chapter, in the manner, at the times, and under the conditions the director prescribes. The director shall also prescribe the manner, times, and conditions under which the receipt of the tax by those depositories is to be treated as payment of the tax to the department.

3. Every withholding agent employing not more than two persons who expects to employ either or both of such persons for the full calendar year may, with respect to such persons, pay with the withholding tax return due for the first calendar quarter of the year the full amount of income taxes required to be

withheld from the wages of such persons for the full calendar year. The amount to be paid shall be computed as if the employee were employed for the full calendar year for the same wages and with the same pay periods as prevailed during the first quarter of the year with respect to such employee. No such lump sum payment of withheld income tax shall be made without the written consent of all employees involved. The withholding agent shall be entitled to recover from the employee any part of such lump sum payment that represents an advance to the employee. If a withholding agent pays a lump sum with the first quarterly return the withholding agent shall be excused from filing further quarterly returns for the calendar year involved unless the withholding agent hires other or additional employees.

4. Every withholding agent who fails to withhold or pay to the department any sums required by this chapter to be withheld and paid, shall be personally, individually, and corporately liable therefor to the state of Iowa, and any sum or sums withheld in accordance with the provisions of subsections 1 and 12 hereof, shall be deemed to be held in trust for the state of Iowa.

5. In the event a withholding agent fails to withhold and pay over to the department any amount required to be withheld under subsections 1 and 12 of this section, such amount may be assessed against such employer or withholding agent in the same manner as prescribed for the assessment of income tax under the provisions of divisions II and VI of this chapter.

6. Whenever the director determines that any employer or withholding agent has failed to withhold or pay over to the department sums required to be withheld under subsections 1 and 12 of this section the unpaid amount thereof shall be a lien as defined in section 422.26, shall attach to the property of said employer or withholding agent as therein provided, and in all other respects the procedure with respect to such lien shall apply as set forth in said section 422.26.

7. Every withholding agent required to deduct and withhold a tax under subsections 1 and 12 of this section shall furnish to such employee, nonresident, or other person in respect of the remuneration paid by such employer or withholding agent to such employee, nonresident, or other person during the calendar year, on or before January 31 of the succeeding year, or, in the case of employees, if the employee's employment is terminated before the close of such calendar year, within thirty days from the day on which the last payment of wages is made, if requested by such employee, but not later than January 31 of the following year, a written statement showing the following:

a. The name and address of such employer or withholding agent, and the identification number of such employer or withholding agent.

b. The name of the employee, nonresident, or other person and that person's federal social security account number, together with the last known address of such employee, nonresident, or other person to whom wages have been paid during such period.

c. The gross amount of wages, or other taxable income, paid to the employee, nonresident, or other person.

d. The total amount deducted and withheld as tax under the provisions of subsections 1 and 12 of this section.

e. The total amount of federal income tax withheld.

The statements required to be furnished by this subsection in respect of any wages or other taxable Iowa income shall be in such form or forms as the director may, by regulation, prescribe.

8. An employer or withholding agent shall be liable for the payment of the tax required to be deducted and withheld or the amount actually deducted, whichever is greater, under subsections 1 and 12 of this section; and any amount deducted and withheld as tax under subsections 1 and 12 of this section during any calendar year upon the wages of any employee, nonresident, or other person shall be allowed as a credit to the employee, nonresident, or other person against the

tax imposed by section 422.5, irrespective of whether or not such tax has been, or will be, paid over by the employer or withholding agent to the department as provided by this chapter.

9. The amount of any overpayment of the individual income tax liability of the employee taxpayer, nonresident, or other person which may result from the withholding and payment of withheld tax by the employer or withholding agent to the department under subsections 1 and 12, as compared to the individual income tax liability of the employee taxpayer, nonresident, or other person properly and correctly determined under the provisions of section 422.4, to and including section 422.25, may be credited against any income tax or installment thereof then due the state of Iowa and any balance of one dollar or more shall be refunded to the employee taxpayer, nonresident or other person with interest at the rate in effect under section 421.7 for each month or fraction of a month, the interest to begin to accrue on the first day of the second calendar month following the date the return was due to be filed or was filed, whichever is the later date. Amounts less than one dollar shall be refunded to the taxpayer, nonresident, or other person only upon written application, in accordance with section 422.73, and only if the application is filed within twelve months after the due date of the return. Refunds in the amount of one dollar or more provided for by this subsection shall be paid by the treasurer of state by warrants drawn by the director of revenue and finance, or an authorized employee of the department, and the taxpayer's return of income shall constitute a claim for refund for this purpose, except in respect to amounts of less than one dollar. There is appropriated, out of any funds in the state treasury not otherwise appropriated, a sum sufficient to carry out the provisions of this subsection.

10. a. An employer or withholding agent required under this chapter to furnish a statement required by this chapter who willfully furnishes a false or fraudulent statement, or who willfully fails to furnish the statement is, for each failure, subject to a civil penalty of five hundred dollars, the penalty to be in addition to any criminal penalty otherwise provided by the Code.

b. If any person or withholding agent fails to remit at least ninety percent of the tax due with the filing of the semimonthly, monthly, or quarterly deposit form on or before the due date, or pays less than ninety percent of any tax required to be shown on the semimonthly, monthly, or quarterly deposit form, there shall be added to the tax a penalty of fifteen percent of the amount of the tax due, except as provided in section 421.27.

In the case of willful failure to file a semimonthly, monthly, or quarterly deposit form with intent to evade tax or willful filing of a false semimonthly, monthly, or quarterly deposit form with intent to evade tax, in lieu of the penalty otherwise provided in this paragraph, there is added to the amount required to be shown as tax on the semimonthly, monthly, or quarterly deposit form, seventy-five percent of the amount of the tax. The taxpayer shall also pay interest on the tax or additional tax at the rate in effect under section 421.7, for each month counting each fraction of a month as an entire month, computed from the date the semimonthly, monthly, or quarterly deposit form was required to be filed. The penalty and interest become a part of the tax due from the withholding agent. The penalty imposed under this subsection is not subject to waiver.

c. If any withholding agent, being a domestic or foreign corporation, required under the provisions of this section to withhold on wages or other taxable Iowa income subject to this chapter, fails to withhold the amounts required to be withheld, make the required returns or remit to the department the amounts withheld, the director may, having exhausted all other means of enforcement of the provisions of this chapter, certify such fact or facts to the secretary of state, who shall thereupon cancel the articles of incorporation or certificate of authority (as the case may be) of such corporation, and the rights of such corporation to carry

on business in the state of Iowa shall thereupon cease. The secretary of state shall immediately notify by registered mail such domestic or foreign corporation of the action taken by the secretary of state. The provisions of section 422.40, subsection 3, shall be applicable.

*d.* The department shall upon request of any fiduciary furnish said fiduciary with a certificate of acquittance showing that no liability as a withholding agent exists with respect to the estate or trust for which said fiduciary acts, provided the department has determined that there is no such liability.

11. *a.* A person or married couple filing a return shall make estimated tax payments if the person's or couple's Iowa income tax attributable to income other than wages subject to withholding can reasonably be expected to amount to two hundred dollars or more for the taxable year, except that, in the cases of farmers and fishermen, the exceptions provided in the Internal Revenue Code with respect to making estimated payments apply. The estimated tax shall be paid in quarterly installments. The first installment shall be paid on or before the last day of the fourth month of the taxpayer's tax year for which the estimated payments apply. The other installments shall be paid on or before the last day of the sixth month of the tax year, the last day of the ninth month of the tax year, and the last day of the first month after the tax year. However, at the election of the person or married couple, an installment of the estimated tax may be paid prior to the date prescribed for its payment. If a person or married couple filing a return has reason to believe that the person's or couple's Iowa income tax may increase or decrease, either for purposes of meeting the requirement to make estimated tax payments or for the purpose of increasing or decreasing estimated tax payments, the person or married couple shall increase or decrease any subsequent estimated tax payments accordingly.

*b.* In the case of persons or married couples filing jointly, the total balance of the tax payable after credits for taxes paid through withholding, as provided in subsection 1 of this section, or through payment of estimated tax, or a combination of withholding and estimated tax payments is due and payable on or before April 30 following the close of the calendar year, or if the return is to be made on the basis of a fiscal year, then on or before the last day of the fourth month following the close of the fiscal year.

*c.* If a taxpayer is unable to make the taxpayer's estimated tax payments, the payments may be made by a duly authorized agent, or by the guardian or other person charged with the care of the person or property of the taxpayer.

*d.* Any amount of estimated tax paid is a credit against the amount of tax found payable on a final, completed return, as provided in subsection 9, relating to the credit for the tax withheld against the tax found payable on a return properly and correctly prepared under sections 422.5 through 422.25, and any overpayment of one dollar or more shall be refunded to the taxpayer and the return constitutes a claim for refund for this purpose. Amounts less than one dollar shall not be refunded. The method provided by the Internal Revenue Code for determining what is applicable to the addition to tax for underpayment of the tax payable applies to persons required to make payments of estimated tax under this section except the amount to be added to the tax for underpayment of estimated tax is an amount determined at the rate in effect under section 421.7. This addition to tax specified for underpayment of the tax payable is not subject to waiver provisions relating to reasonable cause, except as provided in the Internal Revenue Code. Underpayment of estimated tax shall be determined in the same manner as provided under the Internal Revenue Code and the exceptions in the Internal Revenue Code also apply.

*e.* In lieu of claiming a refund, the taxpayer may elect to have the overpayment shown on the taxpayer's final, completed return for the taxable year credited to the taxpayer's tax liability for the following taxable year.

12. In the case of nonresidents having income subject to taxation by Iowa, but not subject to withholding of such tax under subsection 1 hereof, withholding agents shall withhold from such income at the same rate as provided in subsection 1 hereof, and such withholding agents and such nonresidents shall be subject to the provisions of this section, according to the context, except that such withholding agents may be absolved of such requirement to withhold taxes from such nonresident's income upon receipt of a certificate from the department issued in accordance with the provisions of section 422.17, as hereby amended. In the case of nonresidents having income from a trade or business carried on by them in whole or in part within the state of Iowa, such nonresident shall be considered to be subject to the provisions of this subsection unless such trade or business is of such nature that the business entity itself, as a withholding agent, is required to and does withhold Iowa income tax from the distributions made to such nonresident from such trade or business.

Notwithstanding this subsection, withholding agents are not required to withhold state income tax from payments subject to taxation made to nonresidents for commodity credit certificates, grain, livestock, domestic fowl, or other agricultural commodities or products sold to the withholding agents by the nonresidents or their representatives, if the withholding agents provide on forms prescribed by the department information relating to the sales required by the department to determine the state income tax liabilities of the nonresidents. However, the withholding agents may elect to make estimated tax payments on behalf of the nonresidents on the basis of the net incomes of the nonresidents from the agricultural commodities or products, if the estimated tax payments are made on or before the last day of the first month after the end of the tax years of the nonresidents.

13. The director shall enter into an agreement with the secretary of the treasury of the United States with respect to withholding of income tax as provided by this chapter, pursuant to an Act of Congress, section 1207 of the Tax Reform Act of 1976, Public Law 94-455, amending title 5, section 5517 of the United States Code.

14. The director may, when necessary and advisable in order to secure the collection of the tax required to be deducted and withheld or the amount actually deducted, whichever is greater, require an employer or withholding agent to file with the director a bond, issued by a surety company authorized to conduct business in this state and approved by the insurance commissioner as to solvency and responsibility, in an amount as the director may fix, to secure the payment of the tax and penalty due or which may become due. In lieu of the bond, securities shall be kept in the custody of the department and may be sold by the director at public or private sale, without notice to the depositor, if it becomes necessary to do so in order to recover any tax and penalty due. Upon a sale, any surplus above the amounts due under this section shall be returned to the employer or withholding agent who deposited the securities.

If the withholding agent fails to file the bond as requested by the director to secure collection of the tax, the withholding agent is subject to penalty for failure to file the bond. The penalty is equal to fifteen percent of the tax the withholding agent is required to withhold on an annual basis. However, the penalty shall not exceed five thousand dollars.

#### 422.21 Form and time of return.

Returns shall be in the form the director prescribes, and shall be filed with the department on or before the last day of the fourth month after the expiration of the tax year except that co-operative associations as defined in section 6072(d) of the Internal Revenue Code shall file their returns on or before the fifteenth day of the ninth month following the close of the taxable year. If, under the Internal Revenue Code, a corporation is required to file a return covering a tax period of less than twelve months, the state return shall be for the same period and is due forty-five days after the due date of the federal tax return, excluding any extension of time to file. In case of sickness, absence, or other disability, or if good cause exists, the director may allow further time for filing returns. The director shall cause to be prepared blank forms for the returns and shall cause them to be distributed throughout the state and to be furnished upon application, but failure to receive or secure the form does not relieve the taxpayer from the obligation of making a return that is required. The department may as far as consistent with the Code draft income tax forms to conform to the income tax forms of the internal revenue department of the United States government. Each return by a taxpayer upon whom a tax is imposed by section 422.5 shall show the county of the residence of the taxpayer.

The department shall make available to persons required to make personal income tax returns under the provisions of this chapter, and when such income is derived mainly from salaries and wages or from the operation of a business or profession, a form which shall take into consideration the normal deductions and credits allowable to any such taxpayer, and which will permit the computation of the tax payable without requiring the listing of specific deductions and credits. In arriving at schedules for payment of taxation under such forms the department shall as nearly as possible base such schedules upon a total of deductions and credits which will result in substantially the same payment as would have been made by such taxpayer were the taxpayer to specifically list the taxpayer's allowable deductions and credits. In lieu of such return any taxpayer may elect to list permissible deductions and credits as provided by law. It is the intent and purpose of this provision to simplify the procedure of collection of personal income tax, and the director shall have the power in any case when deemed necessary or advisable to require any taxpayer, who has made a return in accordance with the schedule herein provided for, to make an additional return in which all deductions and credits are specifically listed. The department may revise the schedules adopted in connection with such simplified form whenever such revision is necessitated by changes in federal income tax laws, or to maintain the collection of substantially the same amounts from taxpayers as would be received were the specific listing of deductions and credits required.

The department shall provide space on the prescribed income tax form, wherein the taxpayer shall enter the name of the school district of the taxpayer's residence. Such place shall be indicated by prominent type. A nonresident taxpayer shall so indicate. If such information is not supplied on the tax return it shall be deemed an incompleated return.

The director shall determine for the 1989 and each subsequent calendar year the annual and cumulative inflation factors for each calendar year to be applied to tax years beginning on or after January 1 of that calendar year. The director shall compute the new dollar amounts as specified to be adjusted in section 422.5 by the latest cumulative inflation factor and round off the result to the nearest one dollar. The annual and cumulative inflation factors determined by the director are not rules as defined in section 17A.2, subsection 7. The director shall determine for the 1990 calendar year and each subsequent calendar year the annual and cumulative standard deduction factors to be applied to tax years beginning on or after January 1 of that calendar year. The director shall compute the new dollar

amounts of the standard deductions specified in section 422.9, subsection 1, by the latest cumulative standard deduction factor and round off the result to the nearest ten dollars. The annual and cumulative standard deduction factors determined by the director are not rules as defined in section 17A.2, subsection 7.

The department shall provide on income tax forms or in the instruction booklets in a manner that will be noticeable to the taxpayers a statement that, even though the taxpayer may not have any federal or state income tax liability, the taxpayer may be eligible for the federal earned income tax credit. The statement shall also contain notice of where the taxpayer may check on the taxpayer's eligibility for this credit.

#### **422.25 Computation of tax, interest, and penalties—limitation.**

1. Within three years after the return is filed or within three years after the return became due, including any extensions of time for filing, whichever time is the later, the department shall examine it and determine the correct amount of tax, and the amount determined by the department is the tax. However, if the taxpayer omits from income an amount which will, under the Internal Revenue Code, extend the statute of limitations for assessment of federal tax to six years under the federal law, the period for examination and determination is six years. In addition to the applicable period of limitation for examination and determination, the department may make an examination and determination at any time within six months from the date of receipt by the department of written notice from the taxpayer of the final disposition of any matter between the taxpayer and the internal revenue service with respect to the particular tax year. In order to begin the running of the six-month period, the notice shall be in writing in any form sufficient to inform the department of the final disposition with respect to that year, and a copy of the federal document showing the final disposition or final federal adjustments shall be attached to the notice.

The period for examination and determination of the correct amount of tax is unlimited in the case of a false or fraudulent return made with the intent to evade tax or in the case of a failure to file a return. In lieu of the period of limitation for any prior year for which an overpayment of tax or an elimination or reduction of an underpayment of tax due for that prior year results from the carryback to that prior year of a net operating loss or net capital loss, the period is the period of limitation for the taxable year of the net operating loss or net capital loss which results in the carryback. The burden of proof of additional tax owing under the six-year period, or unlimited period, is on the department. If the tax found due is greater than the amount paid, the department shall compute the amount due, together with interest and penalties as provided in subsection 2, and shall notify the taxpayer by mail of the total, which shall be computed as a sum certain if paid on or before the last day of the month in which the notice is postmarked, or on or before the last day of the following month if the notice is postmarked after the twentieth day of any month. The notice shall also inform the taxpayer of the additional interest and penalty which will be added to the total due if not paid on or before the last day of the applicable month.

2. In addition to the tax or additional tax determined by the department under subsection 1, the taxpayer shall pay interest on the tax or additional tax at the rate in effect under section 421.7 for each month counting each fraction of a month as an entire month, computed from the date the return was required to be filed. If any person fails to remit at least ninety percent of the tax due with the filing of the return on or before the due date, or pays less than ninety percent of any tax

required to be shown on the return, there shall be added to the tax a penalty of seven and one-half percent of the tax due, except as provided in section 421.27. In case of willful failure to file a return with intent to evade tax, or in case of willfully filing a false return with intent to evade tax, in lieu of the penalty otherwise provided in this subsection, there shall be added to the amount required to be shown as tax on the return seventy-five percent of the amount of the tax. The penalty imposed under this subsection is not subject to waiver.

3. If the amount of the tax as determined by the department is less than the amount paid, the excess shall be refunded with interest, the interest to begin to accrue on the first day of the second calendar month following the date of payment or the date the return was due to be filed or was filed, whichever is the latest, at the rate in effect under section 421.7 counting each fraction of a month as an entire month under the rules prescribed by the director. If an overpayment of tax results from a net operating loss or net capital loss which is carried back to a prior year, the overpayment, for purposes of computing interest on refunds, shall be considered as having been made on the date a claim for refund or amended return carrying back the net operating loss or net capital loss is filed with the department or on the first day of the second calendar month following the date of the actual payment of the tax, whichever is later. However, when the net operating loss or net capital loss carryback to a prior year eliminates or reduces an underpayment of tax due for an earlier year, the full amount of the underpayment of tax shall bear interest at the rate in effect under section 421.7 for each month counting each fraction of a month as an entire month from the due date of the tax for the earlier year to the last day of the taxable year in which the net operating loss or net capital loss occurred.

4. All payments received must be credited first, to the penalty and interest accrued, and then to the tax due.

5. A person or withholding agent required to supply information, to pay tax, or to make, sign, or file a semimonthly, monthly, or quarterly deposit form or return or supplemental return, who willfully makes a false or fraudulent semimonthly, monthly, or quarterly deposit form or return, or willfully fails to pay the tax, supply the information, or make, sign, or file the semimonthly, monthly, or quarterly deposit form or return, at the time or times required by law, is guilty of a fraudulent practice.

6. The certificate of the director to the effect that a tax has not been paid, that a return has not been filed, or that information has not been supplied, as required under the provisions of this division shall be prima facie evidence thereof except as otherwise provided in this section.

7. The periods of limitation provided by this section may be extended by the taxpayer by signing a waiver agreement to be provided by the department. The agreement shall stipulate the period of extension and the year or years to which the extension applies. It shall provide that a claim for refund may be filed by the taxpayer at any time during the period of extension.

8. A person or withholding agent who willfully attempts in any manner to defeat or evade a tax imposed by this division or the payment of the tax, upon conviction for each offense is guilty of a class "D" felony.

9. The jurisdiction of any offense as defined in this section is in the county of the residence of the person so charged, unless such person be a nonresident of this state or the person's residence in this state is not established, in either of which events jurisdiction of such offense is in the county of the seat of government of the state of Iowa.

10. A prosecution for any offense defined in this section must be commenced within six years after the commission thereof, and not after.

### 422.33 Corporate tax imposed—credit.

1. A tax is imposed annually upon each corporation organized under the laws of this state, and upon each foreign corporation doing business in this state, or deriving income from sources within this state, in an amount computed by applying the following rates of taxation to the net income received by the corporation during the income year:

a. On the first twenty-five thousand dollars of taxable income, or any part thereof, the rate of six percent.

b. On taxable income between twenty-five thousand dollars and one hundred thousand dollars or any part thereof, the rate of eight percent.

c. On taxable income between one hundred thousand dollars and two hundred fifty thousand dollars or any part thereof, the rate of ten percent.

d. On taxable income of two hundred fifty thousand dollars or more, the rate of twelve percent.

*"Income from sources within this state"* means income from real or tangible property located or having a situs in this state.

1A. There is imposed upon each corporation exempt from the general business tax on corporations by section 422.34, subsections 2 through 6, a tax at the rates in subsection 1 upon the state's apportioned share computed in accordance with subsections 2 and 3 of the unrelated business income computed in accordance with the Internal Revenue Code and with the adjustments set forth in section 422.35.

2. If the trade or business of the corporation is carried on entirely within the state, the tax shall be imposed on the entire net income, but if the trade or business is carried on partly within and partly without the state or if income is derived from sources partly within and partly without the state, the tax shall be imposed only on the portion of the net income reasonably attributable to the trade or business or sources within the state, with the net income attributable to the state to be determined as follows:

a. Nonbusiness interest, dividends, rents and royalties, less related expenses, shall be allocated within and without the state in the following manner:

(1) Nonbusiness interest, dividends, and royalties from patents and copyrights shall be allocable to this state if the taxpayer's commercial domicile is in this state.

(2) Nonbusiness rents and royalties received from real property located in this state are allocable to this state.

(3) Nonbusiness rents and royalties received from tangible personal property are allocable to this state to the extent that the property is utilized in this state; or in their entirety if the taxpayer's commercial domicile is in this state and the taxpayer is not taxable in the state in which the property is utilized. The extent of utilization of tangible personal property in a state is determined by multiplying the rents and royalties by a fraction, the numerator of which is the number of days of physical location of the property in the state during the rental or royalty period in the taxable year and the denominator of which is the number of days of physical location of the property everywhere during all rental or royalty periods in the taxable year. If the physical location of the property during the rental or royalty period is unknown, or unascertainable by the taxpayer tangible personal property is utilized in the state in which the property was located at the time the rental or royalty payor obtained possession.

(4) Nonbusiness capital gains and losses from the sale or other disposition of assets shall be allocated as follows:

Gains and losses from the sale or other disposition of real property located in this state are allocable to this state.

Gains and losses from the sale or other disposition of tangible personal property are allocable to this state if the property had a situs in this state at the time of the

sale or disposition or if the taxpayer's commercial domicile is in this state and the taxpayer is not taxable in the state in which the property had a situs.

Gains and losses from the sale or disposition of intangible personal property are allocable to this state if the taxpayer's commercial domicile is in this state.

b. Net nonbusiness income of the above class having been separately allocated and deducted as above provided, the remaining net business income of the taxpayer shall be allocated and apportioned as follows:

(1) Business interest, dividends, rents, and royalties shall be reasonably apportioned within and without the state under rules adopted by the director.

(2) Capital gains and losses from the sale or other disposition of assets shall be apportioned to the state based upon the business activity ratio applicable to the year the gain or loss is determined if the corporation determines Iowa taxable income by a sales, gross receipts or other business activity ratio. If the corporation has only allocable income, capital gains and losses from the sale or other disposition of assets shall be allocated in accordance with paragraph "a", subparagraph (4).

(3) Where income is derived from business other than the manufacture or sale of tangible personal property, the income shall be specifically allocated or equitably apportioned within and without the state under rules of the director.

(4) Where income is derived from the manufacture or sale of tangible personal property, the part attributable to business within the state shall be in that proportion which the gross sales made within the state bear to the total gross sales.

(5) Where income consists of more than one class of income as provided in subparagraphs (1) to (4) of this paragraph, it shall be reasonably apportioned by the business activity ratio provided in rules adopted by the director.

(6) The gross sales of the corporation within the state shall be taken to be the gross sales from goods delivered or shipped to a purchaser within the state regardless of the f.o.b. point or other conditions of the sale, excluding deliveries for transportation out of the state.

For the purpose of this section, the word "sale" shall include exchange, and the word "manufacture" shall include the extraction and recovery of natural resources and all processes of fabricating and curing. The words "tangible personal property" shall be taken to mean corporeal personal property, such as machinery, tools, implements, goods, wares, and merchandise, and shall not be taken to mean money deposits in banks, shares of stock, bonds, notes, credits, or evidence of an interest in property and evidences of debt.

3. If any taxpayer believes that the method of allocation and apportionment hereinbefore prescribed, as administered by the director and applied to the taxpayer's business, has operated or will so operate as to subject the taxpayer to taxation on a greater portion of the taxpayer's net income than is reasonably attributable to business or sources within the state, the taxpayer shall be entitled to file with the director a statement of the taxpayer's objections and of such alternative method of allocation and apportionment as the taxpayer believes to be proper under the circumstances with such detail and proof and within such time as the director may reasonably prescribe; and if the director shall conclude that the method of allocation and apportionment theretofore employed is in fact inapplicable and inequitable, the director shall redetermine the taxable income by such other method of allocation and apportionment as seems best calculated to assign to the state for taxation the portion of the income reasonably attributable to business and sources within the state, not exceeding, however, the amount which would be arrived at by application of the statutory rules for apportionment.

4. In addition to all taxes imposed under this division, there is imposed upon each corporation doing business within the state the greater of the tax determined in subsection 1, paragraphs "a" through "d" or the state alternative minimum tax

equal to sixty percent of the maximum state corporate income tax rate, rounded to the nearest one-tenth of one percent, of the state alternative minimum taxable income of the taxpayer computed under this subsection.

The state alternative minimum taxable income of a taxpayer is equal to the taxpayer's state taxable income as computed with the adjustments in section 422.35 and with the following adjustments:

a. Add items of tax preference included in federal alternative minimum taxable income under section 57, except subsections (a)(1) and (a)(5), of the Internal Revenue Code, make the adjustments included in federal alternative minimum taxable income under section 56, except subsections (a)(4) and (d), of the Internal Revenue Code, and add losses as required by section 58 of the Internal Revenue Code. In making the adjustment under section 56(c)(1) of the Internal Revenue Code, interest and dividends from federal securities and interest and dividends from state and other political subdivisions and from regulated investment companies exempt from federal income tax under the Internal Revenue Code, net of amortization of any discount or premium, shall be subtracted.

b. Apply the allocation and apportionment provisions of subsection 2.

c. Subtract an exemption amount of forty thousand dollars. This exemption amount shall be reduced, but not below zero, by an amount equal to twenty-five percent of the amount by which the alternative minimum taxable income of the taxpayer, computed without regard to the exemption amount in this paragraph, exceeds one hundred fifty thousand dollars.

d. In the case of a net operating loss computed for a tax year beginning after December 31, 1986 which is carried back or carried forward to the current taxable year, the net operating loss shall be reduced by the amount of items of tax preference and adjustments arising in the tax year which is taken into account in computing the net operating loss in section 422.35, subsection 11. The deduction for a net operating loss for a tax year beginning after December 31, 1986 which is carried back or carried forward to the current taxable year shall not exceed ninety percent of the alternative minimum taxable income determined without regard for the net operating loss deduction.

5. The taxes imposed under this division shall be reduced by a state tax credit for increasing research activities in this state equal to six and one-half percent of the state's apportioned share of the qualifying expenditures for increasing research activities. The state's apportioned share of the qualifying expenditures for increasing research activities is a percent equal to the ratio of qualified research expenditures in this state to the total qualified research expenditures. For purposes of this subsection, "*qualifying expenditures for increasing research activities*" means the qualifying expenditures as defined for the federal credit for increasing research activities which would be allowable under section 41 of the Internal Revenue Code.

Any credit in excess of the tax liability for the taxable year shall be refunded with interest computed under section 422.25. In lieu of claiming a refund, a taxpayer may elect to have the overpayment shown on its final, completed return credited to the tax liability for the following taxable year.

6. The taxes imposed under this division shall be reduced by a new jobs tax credit. An industry which has entered into an agreement under chapter 280B and which has increased its base employment level by at least ten percent within the time set in the agreement or, in the case of an industry without a base employment level, adds new jobs within the time set in the agreement is entitled to this new jobs tax credit for the tax year selected by the industry. In determining if the industry has increased its base employment level by ten percent or added new jobs, only those new jobs directly resulting from the project covered by the agreement and those directly related to those new jobs shall be counted. The amount of this credit is equal to the product of six percent of the taxable wages

upon which an employer is required to contribute to the state unemployment compensation fund, as defined in section 96.19, subsection 20, times the number of new jobs existing in the tax year that directly result from the project covered by the agreement or new jobs that directly result from those new jobs. The tax year chosen by the industry shall either begin or end during the period beginning with the date of the agreement and ending with the date by which the project is to be completed under the agreement. Any credit in excess of the tax liability for the tax year may be credited to the tax liability for the following ten tax years or until depleted in less than the ten years. For purposes of this section, "agreement", "industry", "new job" and "project" mean the same as defined in section 280B.2 and "base employment level" means the number of full-time jobs an industry employs at the plant site which is covered by an agreement under chapter 280B on the date of that agreement.

7. *a.* There is allowed as a credit against the tax determined in subsection 1 for a tax year an amount equal to the minimum tax credit for that tax year.

The minimum tax credit for a tax year is the excess, if any, of the adjusted net minimum tax imposed for all prior tax years beginning on or after January 1, 1987, over the amount allowable as a credit under this subsection for those prior tax years.

*b.* The allowable credit under paragraph "a" for a tax year shall not exceed the excess, if any, of the tax determined in subsection 1 over the state alternative minimum tax as determined in subsection 4.

The net minimum tax for a tax year is the excess, if any, of the tax determined in subsection 4 for the tax year over the tax determined in subsection 1 for the tax year.

The adjusted net minimum tax for a tax year is the net minimum tax for the tax year reduced by the amount which would be the net minimum tax if the only item of tax preference taken into account was that described in paragraph (6) of section 57(a) of the Internal Revenue Code.

#### **422.35 Net income of corporation—how computed.**

The term "*net income*" means the taxable income before the net operating loss deduction, as properly computed for federal income tax purposes under the Internal Revenue Code, with the following adjustments:

1. Subtract interest and dividends from federal securities.
2. Add interest and dividends from foreign securities, from securities of state and other political subdivisions, and from regulated investment companies exempt from federal income tax under the Internal Revenue Code.
3. Where the net income includes capital gains or losses, or gains or losses from property other than capital assets, and such gains or losses have been determined by using a basis established prior to January 1, 1934, an adjustment may be made, under rules and regulations prescribed by the director, to reflect the difference resulting from the use of a basis of cost or January 1, 1934, fair market value, less depreciation allowed or allowable, whichever is higher. Provided that the basis shall be fair market value as of January 1, 1955, less depreciation allowed or allowable, in the case of property acquired prior to that date if use of a prior basis is declared to be invalid.

4. Subtract fifty percent of the federal income taxes paid or accrued, as the case may be, during the tax year, adjusted by any federal income tax refunds; and add the Iowa income tax deducted in computing said taxable income.

5. Subtract the amount of the jobs tax credit allowable for the tax year under section 51 of the Internal Revenue Code to the extent that the credit increased federal taxable income.

6. If the taxpayer is a small business corporation, subtract an amount equal to sixty-five percent of the wages paid to individuals, but shall not exceed twenty thousand dollars per individual, named in paragraphs "a", "b", and "c" who were hired for the first time by the taxpayer during the tax year for work done in this state:

a. A handicapped individual domiciled in this state at the time of the hiring who meets any of the following conditions:

(1) Has a physical or mental impairment which substantially limits one or more major life activities.

(2) Has a record of that impairment.

(3) Is regarded as having that impairment.

b. An individual domiciled in this state at the time of the hiring who meets any of the following conditions:

(1) Has been convicted of a felony in this or any other state or the District of Columbia.

(2) Is on parole pursuant to chapter 906.

(3) Is on probation pursuant to chapter 907, for an offense other than a simple misdemeanor.

(4) Is in a work release program pursuant to chapter 246, division IX.

c. An individual, whether or not domiciled in this state at the time of the hiring, who is on parole or probation and to whom the interstate probation and parole compact under section 907A.1 applies.

This deduction is allowed for the wages paid to the individuals successfully completing a probationary period named in paragraphs "a", "b", and "c" during the twelve months following the date of first employment by the taxpayer and shall be deducted in the tax years when paid.

For purposes of this subsection, "*physical or mental impairment*" means any physiological disorder or condition, cosmetic disfigurement, or anatomical loss affecting one or more of the body systems or any mental or psychological disorder, including mental retardation, organic brain syndrome, emotional or mental illness and specific learning disabilities.

For purposes of this subsection, "*small business*" means small business as defined in section 220.1, subsection 28, except that it shall also include the operation of a farm.

7. Subtract the amount of the alcohol fuel credit allowable for the tax year under section 40 of the Internal Revenue Code to the extent that the credit increased federal taxable income.

8. Add the amounts deducted and subtract the amounts included in income as a result of the treatment provided sale-leaseback agreements under section 168(f)(8) of the Internal Revenue Code for property placed in service by the transferee prior to January 1, 1986 to the extent that the amounts deducted and the amounts included in income are not otherwise deductible or included in income under the other provisions of the Internal Revenue Code as amended to and including December 31, 1985. Entitlement to depreciation on any property involved in a sale-leaseback agreement which is placed in service by the transferee prior to January 1, 1986 shall be determined under the Internal Revenue Code as amended to and including December 31, 1985, excluding section 168(f)(8) in making the determination.

9. Add the amount of windfall profits tax deducted under section 164(a) of the Internal Revenue Code.

10. Add the percentage depletion amount determined with respect to an oil, gas, or geothermal well using methods in section 613 of the Internal Revenue Code that is in excess of the cost depletion amount determined under section 611 of the Internal Revenue Code.

11. If after applying all of the adjustments provided for in this section and the allocation and apportionment provisions of section 422.33, the Iowa taxable income results in a net operating loss, such net operating loss shall be deducted as follows:

a. The Iowa net operating loss shall be carried back three taxable years or to the taxable year in which the corporation first commenced doing business in this state, whichever is later.

b. The Iowa net operating loss remaining after being carried back as required in paragraph "a" of this subsection or if not required to be carried back shall be carried forward fifteen taxable years.

c. If the election under section 172(b)(3)(C) of the Internal Revenue Code is made, the Iowa net operating loss shall be carried forward fifteen taxable years.

d. No portion of a net operating loss which was sustained from that portion of the trade or business carried on outside the state of Iowa shall be deducted.

Provided, however, that a corporation affected by the allocation provisions of section 422.33 shall be permitted to deduct only such portion of the deductions for net operating loss and federal income taxes as is fairly and equitably allocable to Iowa, under rules prescribed by the director.

12. Subtract the loss on the sale or exchange of a share of a regulated investment company held for six months or less to the extent the loss was disallowed under section 852(b)(4)(B) of the Internal Revenue Code.

13. Subtract the interest earned from bonds and notes issued by the agricultural development authority as provided in section 175.17, subsection 10, to the extent the interest is included in federal taxable income.

#### 422.36 Returns.

1. A corporation shall make a return and the return shall be signed by the president or other duly authorized officer in accordance with forms and rules prescribed by the director. Before a corporation is dissolved and its assets distributed it shall make a return for settlement of the tax for income earned in the income year up to its final date of dissolution.

2. When any corporation, liable to taxation under this division, conducts its business in such a manner as either directly or indirectly to benefit the members or stockholders thereof or any person interested in such business by selling its products or the goods or commodities in which it deals at less than the fair price which might be obtained therefor, or where a corporation, a substantial portion of whose capital stock is owned either directly or indirectly by another corporation, acquires and disposes of the products, goods or commodities of the corporation so owning a substantial portion of its stock in such a manner as to create a loss or improper net income for either of said corporations, or where a corporation, owning directly or indirectly a substantial portion of the stock of another corporation, acquires and disposes of the products, goods, or commodities, of the corporation of which it so owns a substantial portion of the stock, in such a manner as to create a loss or improper net income for either of said corporations, the department may determine the amount of taxable income of either or any of such corporations for the calendar or fiscal year, having due regard to the

reasonable profits which, but for such arrangement or understanding, might or could have been obtained, by the corporation or corporations liable to taxation under this division, from dealing in such products, goods, or commodities.

3. Where the director has reason to believe that any person or corporation so conducts a trade or business as either directly or indirectly to distort the person's or corporation's true net income and the net income properly attributable to the state, whether by the arbitrary shifting of income, through price fixing, charges for services, or otherwise, whereby the net income is arbitrarily assigned to one or another unit in a group of taxpayers carrying on business under a substantially common control, the director may require such facts as are necessary for the proper computation of the entire net income and the net income properly attributable to the state, and shall determine the same, and in the determination thereof the director shall have regard to the fair profits which would normally arise from the conduct of the trade or business.

4. Foreign corporations shall file a copy of their federal income tax return for the current tax year with the return required by this section.

5. Where a corporation is not subject to income tax and the stockholders of such corporation are taxed on the corporation's income under the provisions of the Internal Revenue Code, the same tax treatment shall apply to such corporation and such stockholders for Iowa income tax purposes.

1. Each person subject to sections 422.52 and 422.53 and in accordance with the provisions thereof shall, on or before the last day of the month following the close of each calendar quarter during which such person is or has become or ceased being subject to the provisions of such sections, make, sign, and file a return for such calendar quarter in such form as may be required. Such returns shall show information relating to gross receipts including goods, wares, and services converted to the use of such person, the amounts of gross receipts excluded and exempt from the tax, the receipts subject to tax, a calculation of tax due, and such other information for the period covered by the return as may be required. Persons required to file, or committed to file by reason of voluntary action or by order of the department, monthly deposits of taxes due under this division shall be entitled to take credit against the total quarterly amount of tax due such amount as shall have been deposited by such persons during such calendar quarter. The balance remaining due after such credit for monthly deposits shall be entered on the return; provided, however, that such person may be granted an extension of time not exceeding thirty days for filing such quarterly return, upon a proper showing of necessity therefor. If such extension be granted such person shall have paid by the twentieth day of the month following the close of such quarter ninety percent of the estimated tax due.

2. If necessary or advisable in order to insure the payment of the tax imposed by this division, the director may require returns and payment of the tax to be made for other than quarterly periods, the provisions of section 422.52 or elsewhere to the contrary notwithstanding.

3. Returns shall be signed by the retailer or the retailer's authorized agent and must be certified by the retailer to be correct in accordance with forms and rules prescribed by the director.

Subsection 3 amended

#### **422.52 Payment of tax—bond.**

1. The tax levied under this division is due and payable in quarterly installments on or before the last day of the month following each quarterly period except as otherwise provided in this subsection. Every retailer who collects more than four thousand dollars in retail sales tax in a semimonthly period shall deposit with the department or in a depository authorized by law and designated by the director, the amount collected or an amount equal to not less than one-sixth of the tax collected and paid to the department during the preceding quarter, with a deposit form for the semimonthly period as prescribed by the director. The first semimonthly deposit form is for the period from the first of the month through the fifteenth of the month and is due on or before the twenty-fifth day of the month. The second semimonthly deposit form is for the period from the sixteenth through the end of the month and is due on or before the tenth day of the month following the month of collection. A deposit is not required for the last semimonthly period of the calendar quarter. The total quarterly amount, less the amount deposited for the five previous semimonthly periods, is due with the quarterly report on the last day of the month following the month of collection. A retailer who collects more than five hundred dollars in retail sales taxes in one month and not more than four thousand dollars in retail sales taxes in a semimonthly period shall deposit with the department or in a depository authorized by law and designated by the director, the amount collected or an amount equal to not less than one-third of the tax collected and paid to the department during the preceding quarter, with a deposit form for the month as prescribed by the director. The deposit form is due on or before the twentieth day of the month following the month of collection, except a deposit is not required for the third month of the calendar quarter and the total quarterly amount, less the amounts deposited for the first two months of the quarter, is due with the quarterly report on the last day of the month following the month of collection. Every retailer who collects more than fifty dollars and not more than five hundred dollars in retail sales tax in one month shall deposit with the department or in a depository authorized by law and designated by the director, the amount collected, or an amount equal to not less than one-third of the tax collected and paid to the department during the last preceding quarter, with a deposit form for the month as prescribed by the director. The deposit form is due on or before the twentieth day of the month following the month of collection, except a deposit is not required for the third month of the calendar quarter and the total quarterly amount, less the amounts deposited for the first two months of the quarter, is due with the quarterly report on the last day of the month following the month of collection. The monthly remittance procedure is optional for any sales tax permit holder whose average monthly collection of tax amounts to more than twenty-five dollars and less than fifty dollars. If the exact amounts of the taxes due or an amount equal to not less than one-third or one-sixth, as applicable, of the tax collected and paid to the department during the last preceding quarter on the deposit form are not ascertainable by the retailer, or would work undue hardship in the computation of the taxes due by the retailer, the director may provide by rules alternative procedures for estimating the amounts (but not the

dates) due by the retailers. The forms prescribed by the director shall be referred to as "retailers semimonthly tax deposit" or "retailers monthly tax deposit". Deposit forms shall be signed by the retailer or the retailer's duly authorized agent, and shall be duly certified by the retailer or agent to be correct. The director may authorize incorporated banks and trust companies or other depositories authorized by law which are depositories or financial agents of the United States, or of this state, to receive any tax imposed under this chapter, in the manner, at the times and under the conditions the director prescribes. The director shall prescribe the manner, times, and conditions under which the receipt of the tax by those depositories is to be treated as payment of the tax to the department.

2. Every permit holder at the time of making the return required hereunder, shall compute and pay to the department the tax due for the preceding period.

3. The director may, when necessary and advisable in order to secure the collection of the tax levied under this division, require any person subject to such tax to file with the director a bond, issued by a surety company authorized to transact business in this state and approved by the insurance commissioner as to solvency and responsibility, in such amount as the director may fix, to secure the payment of any tax or penalties due or which may become due from such person. In lieu of such bond, securities approved by the director, in such amount as the director may prescribe, may be deposited with the department, which securities shall be kept in the custody of the department and may be sold by the director at public or private sale, without notice to the depositor thereof, if it becomes necessary so to do in order to recover any tax or penalties due. Upon any such sale, the surplus, if any, above the amounts due under this division shall be returned to the person who deposited the securities.

4. The tax by this division imposed upon those sales of motor vehicle fuel which are subject to tax and refund under chapter 324 shall be collected by the state treasurer by way of deduction from refunds otherwise allowable under said chapter. The amount of such deductions the treasurer shall transfer from the motor vehicle fuel fund to the special tax fund.

5. The provisions of subsection 1, according to the context, shall apply to persons having receipts from rendering, furnishing, or performing services enumerated in section 422.43.

6. *a.* If a purchaser fails to pay tax imposed by this division to the retailer required to collect the tax, then in addition to all of the rights, obligations, and remedies provided, the tax is payable by the purchaser directly to the department, and sections 422.50, 422.51, 422.52, 422.54, 422.55, 422.56, 422.57, 422.58 and 422.59 apply to the purchaser. For failure, the retailer and purchaser are liable, unless the circumstances described in section 422.47, subsection 3, paragraph "b" or "c" or subsection 4, paragraph "b" or "d" are applicable.

*b.* If any retailer subject to this division sells the retailer's business or stock of goods or quits the business, the retailer shall prepare a final return and pay all tax due within the time required by law. The immediate successor to the retailer, if any, shall withhold sufficient of the purchase price, in money or money's worth, to pay the amount of delinquent tax, interest or penalty due and unpaid. If the immediate successor of the business or stock of goods intentionally fails to withhold the amount due from the purchase price as provided in this paragraph, the immediate successor is personally liable for the payment of the delinquent taxes, interest and penalty accrued and unpaid on account of the operation of the business by the immediate former retailer, except when the purchase is made in good faith as provided in section 421.28. However, a person foreclosing on a valid security interest or retaking possession of premises under a valid lease is not an "immediate successor" for purposes of this paragraph. The department may waive the liability of the immediate successor under this paragraph if the immediate successor exercised good faith in establishing the amount of the previous liability.

c. A person sponsoring a flea market, or a craft, antique, coin, or stamp show or similar event shall obtain from every retailer selling tangible personal property or taxable services at the event proof that the retailer possesses a valid sales tax permit or secure from the retailer a statement, taken in good faith, that property or services offered for sale are not subject to sales tax. Failure to do so renders a sponsor of the event liable for payment of any sales tax, interest and penalty due and owing from any retailer selling property or services at the event. Sections 422.50, 422.51, 422.52, 422.54, 422.55, 422.56, 422.57, 422.58 and 422.59 apply to the sponsors. For purposes of this paragraph a person sponsoring a flea market, or a craft, antique, coin or stamp show or similar event does not include an organization which sponsors an event less than three times a year or a state, county or district agricultural fair.

7. The tax on gross receipts from the sale or rental of tangible personal property under a consumer rental purchase agreement as defined in section 537.3604, subsection 8, is payable in the tax period of receipt.

8. If an amount of tax represented by a retailer to a consumer or user as constituting tax due is computed upon gross receipts that are not taxable or the amount represented is in excess of the actual taxable amount and the amount represented is actually paid by the consumer or user to the retailer, the excess amount of tax paid shall be returned to the consumer or user upon notification to the retailer by the department or by the consumer or user that an excess payment exists. If the retailer fails to make a return, the amount which the consumer or user has paid to the retailer shall be remitted by the retailer to the department.

#### **422.60 Imposition of tax—credit.**

1. A franchise tax according to and measured by net income is imposed on financial institutions for the privilege of doing business in this state as financial institutions.

2. In addition to all taxes imposed under this division, there is imposed upon each financial institution doing business within the state the greater of the tax determined in section 422.63 or the state alternative minimum tax equal to sixty percent of the maximum state franchise tax rate, rounded to the nearest one-tenth of one percent, of the state alternative minimum taxable income of the taxpayer computed under this subsection.

The state alternative minimum taxable income of a taxpayer is equal to the taxpayer's state taxable income as computed with the adjustments in section 422.61, subsection 4, and with the following adjustments:

a. Add items of tax preference included in federal alternative minimum taxable income under section 57, except subsections (a)(1) and (a)(5), of the Internal Revenue Code, make the adjustments included in federal alternative minimum taxable income under section 56, except subsections (a)(4), (c)(1), (d), (f), and (g), of the Internal Revenue Code, and add losses as required by section 58 of the Internal Revenue Code.

b. Make the adjustments provided in section 56(c)(1) of the Internal Revenue Code, except that in making the calculation under sections 56(f)(1) and 56(g)(1) of the Internal Revenue Code the state alternative minimum taxable income, computed without regard to the adjustments made by this paragraph, the exemption provided for in paragraph "d", and the state alternative tax net operating loss described in paragraph "e", shall be substituted for the items described in sections 56(f)(1)(B) and 56(g)(1)(B) of the Internal Revenue Code.

c. Apply the allocation and apportionment provisions of section 422.63.

d. Subtract an exemption amount of forty thousand dollars. This exemption amount shall be reduced, but not below zero, by an amount equal to twenty-five percent of the amount by which the alternative minimum taxable income of the

taxpayer, computed without regard to the exemption amount in this paragraph, exceeds one hundred fifty thousand dollars.

e. In the case of a net operating loss beginning after December 31, 1986 which is carried back or carried forward to the current taxable year, the net operating loss shall be reduced by the amount of items of tax preference and adjustments arising in the tax year which was taken into account in computing the net operating loss in section 422.35, subsection 11. The deduction for a net operating loss for a tax year beginning after December 31, 1986 which is carried back or carried forward to the current taxable year shall not exceed ninety percent of the alternative minimum taxable income determined without regard for the net operating loss deduction.

3. a. There is allowed as a credit against the tax determined in section 422.63 for a tax year an amount equal to the minimum tax credit for that tax year.

The minimum tax credit for a tax year is the excess, if any, of the adjusted net minimum tax imposed for all prior tax years beginning on or after January 1, 1987, over the amount allowable as a credit under this subsection for those prior tax years.

b. The allowable credit under paragraph "a" for a tax year shall not exceed the excess, if any, of the tax determined in section 422.63 over the state alternative minimum tax as determined in subsection 2.

The net minimum tax for a tax year is the excess, if any, of the tax determined in subsection 2 for the tax year over the tax determined in section 422.63 for the tax year.

The adjusted net minimum tax for a tax year is the net minimum tax for the tax year reduced by the amount which would be the net minimum tax if the only item of tax preference taken into account was that described in paragraph (6) of section 57(a) of the Internal Revenue Code.

2. Unless otherwise provided the fees, taxes, interest and penalties collected under this chapter shall be credited to the general fund.

3. The director shall estimate the amount of tax revenues collected as a result of the sales tax imposed under section 422.43, subsection 12, and shall deposit a like amount in a "GAAP escrow account" to be created within the general fund. Amounts deposited in the GAAP escrow account shall be used to implement generally accepted accounting principles as required in 1986 Iowa Acts, chapter 1245, section 2046, as amended by 1986 Iowa Acts, chapter 1238, section 59.

**422.73 Correction of errors—refunds, credits and carrybacks.**

1. If it shall appear that, as a result of mistake, an amount of tax, penalty, or interest has been paid which was not due under the provisions of division IV of this chapter or chapter 423, then such amount shall be credited against any tax due, or to become due, on the books of the department from the person who made the erroneous payment, or such amount shall be refunded to such person by the department. A claim for refund or credit that has not been filed with the department within five years after the tax payment upon which a refund or credit is claimed became due, or one year after such tax payment was made, whichever time is the later, shall not be allowed by the director.

2. If it appears that an amount of tax, penalty, or interest has been paid which was not due under division II, III or V of this chapter, then that amount shall be credited against any tax due on the books of the department by the person who made the excessive payment, or that amount shall be refunded to the person or with the person's approval, credited to tax to become due. A claim for refund or credit that has not been filed with the department within three years after the return upon which a refund or credit claimed became due, or within one year after the payment of the tax upon which a refund or credit is claimed was made, whichever time is the later, shall not be allowed by the director. If, as a result of a carryback of a net operating loss or a net capital loss, the amount of tax in a prior period is reduced and an overpayment results, the claim for refund or credit of the overpayment shall be filed with the department within the three years after the return for the taxable year of the net operating loss or net capital loss became due. Notwithstanding the period of limitation specified, the taxpayer shall have six months from the day of final disposition of any income tax matter between the taxpayer and the internal revenue service with respect to the particular tax year to claim an income tax refund or credit, provided the taxpayer has notified the

department in writing no later than six months after the expiration of the three-year limitations period of the existence of this income tax matter.

3. A credit, action or claim for refund arising or existing from a carryback of a net operating loss or net capital loss from tax years ending on or before December 31, 1978 is not allowed, unless the action or claim was received by the department prior to July 1, 1984. This subsection prevails over any other statutes authorizing income tax refunds or claims.

4. Notwithstanding subsection 2, a claim for credit or refund of the income tax paid is considered timely if the claim is filed with the department on or before June 30, 1986, if the taxpayer's federal income tax was forgiven under section 692(c) of the Internal Revenue Code of 1954 because the taxpayer died after November 17, 1978 as a result of wounds or injury incurred due to military or terrorist action outside the United States. To the extent the federal income tax was forgiven under section 692(c) of the Internal Revenue Code of 1954 for the tax year, the Iowa income tax is also forgiven.

5. Notwithstanding subsection 2, a claim for credit or refund of the income tax paid for a tax year beginning in the 1983 calendar year is considered timely if the claim is filed with the department on or before April 30, 1988, if the taxpayer's federal income tax was forgiven under section 692 of the Internal Revenue Code of 1986 because the taxpayer died, or was missing in action and determined dead, while serving in a combat zone. To the extent the federal income tax was forgiven under section 692 of the Internal Revenue Code of 1986 for the tax year, the Iowa income tax is also forgiven.

6. Notwithstanding subsection 2, a claim for credit or refund of the state alternative minimum tax paid for any tax year beginning on or after January 1, 1982, and before January 1, 1984, is considered timely if the claim is filed with the department on or before April 30, 1988, if the taxpayer's capital gains preference items for purposes of the federal individual alternative minimum tax were reduced as a result of section 13208 of the Consolidated Omnibus Budget Reconciliation Act of 1985 as amended by section 1896 of the Tax Reform Act of 1986.

7. Notwithstanding subsection 2, a claim for credit or refund of the income tax paid is considered timely if the claim is filed with the department on or before November 10, 1989, if the taxpayer's federal income tax was forgiven under section 170(m) of the Internal Revenue Code because eighty percent of the taxpayer's payment to a college or university was allowed as a charitable contribution since the payment entitled the taxpayer to purchase tickets to an athletic event of the college or university. To the extent the federal income tax was forgiven for the tax year under section 170(m) of the Internal Revenue Code, the Iowa income tax is also forgiven.

## CHAPTER 422A

## HOTEL AND MOTEL TAX

**422A.1 Hotel and motel tax.**

A city or county may impose by ordinance of the city council or by resolution of the board of supervisors a hotel and motel tax, at a rate not to exceed seven percent, which shall be imposed in increments of one or more full percentage points upon the gross receipts from the renting of sleeping rooms, apartments, or sleeping quarters in a hotel, motel, inn, public lodging house, rooming house, mobile home which is tangible personal property, or tourist court, or in any place where sleeping accommodations are furnished to transient guests for rent, whether with or without meals; except the gross receipts from the renting of sleeping rooms in dormitories and in memorial unions at all universities and colleges located in the state of Iowa and the guests of a religious institution if the property is exempt under section 427.1, subsection 9, and the purpose of renting is to provide a place for a religious retreat or function and not a place for transient guests generally. The tax when imposed by a city shall apply only within the corporate boundaries of that city and when imposed by a county shall apply only outside incorporated areas within that county. "Renting" and "rent" include any kind of direct or indirect charge for such sleeping rooms, apartments, or sleeping quarters, or their use. However, the tax does not apply to the gross receipts from the renting of a sleeping room, apartment, or sleeping quarters while rented by the same person for a period of more than thirty-one consecutive days.

A local hotel and motel tax shall be imposed on January 1, April 1, July 1, or October 1, following the notification of the director of revenue and finance. Once imposed, the tax shall remain in effect at the rate imposed for a minimum of one year. A local hotel and motel tax shall terminate only on March 31, June 30, September 30, or December 31. At least forty-five days prior to the tax being effective or prior to a revision in the tax rate, or prior to the repeal of the tax, a city or county shall provide notice by mail of such action to the director of revenue and finance.

A city or county shall impose a hotel and motel tax or increase the tax rate, only after an election at which a majority of those voting on the question favors imposition or increase. However, a hotel and motel tax shall not be repealed or reduced in rate if obligations are outstanding which are payable as provided in section 422A.2, unless funds sufficient to pay the principal, interest, and premium, if any, on the outstanding obligations at and prior to maturity have been properly set aside and pledged for that purpose. The election shall be held at the time of that city's or county's general election or at the time of a special election.

The director of revenue and finance shall administer a local hotel and motel tax as nearly as possible in conjunction with the administration of the state sales tax law. The director shall provide appropriate forms, or provide on the regular state tax forms, for reporting local hotel and motel tax liability. All moneys received or refunded one hundred eighty days after the date on which a city or county terminates its local hotel and motel tax shall be deposited in or withdrawn from the state general fund.

The director, in consultation with local officials, shall collect and account for a local hotel and motel tax and shall credit all revenues to a "local transient guest tax fund" established by section 422A.2.

No tax permit other than the state tax permit required under section 422.53 may be required by local authorities.

The tax levied shall be in addition to any state sales tax imposed under section 422.43. Sections 422.25, subsection 4, 422.30, 422.48 to 422.52, 422.54 to 422.58, 422.67, 422.68, 422.69, subsection 1, and 422.70 to 422.75, consistent with the

provisions of this chapter, apply with respect to the taxes authorized under this chapter, in the same manner and with the same effect as if the hotel and motel taxes were retail sales taxes within the meaning of those statutes. Notwithstanding this paragraph, the director shall provide for quarterly filing of returns as prescribed in section 422.51 and for other than quarterly filing of returns as prescribed in section 422.51, subsection 2. The director may require all persons, as defined in section 422.42, who are engaged in the business of deriving gross receipts subject to tax under this chapter, to register with the department.

## CHAPTER 422B

### LOCAL OPTION TAXES

#### 422B.1 Authorization—election—imposition and repeal.

1. A county may impose by ordinance of the board of supervisors local option taxes authorized by this chapter, subject to this section.

2. A local option tax shall be imposed only after an election at which a majority of those voting on the question favors imposition and shall then be imposed until repealed as provided in subsection 5, paragraph "a". If the tax is a local vehicle tax imposed by a county, it shall apply to all incorporated and unincorporated areas of the county. If the tax is a local sales and services tax imposed by a county, it shall only apply to those incorporated areas and the unincorporated area of that county in which a majority of those voting in the area on the tax favors its imposition. For purposes of the local sales and services tax, all cities contiguous to each other shall be treated as part of one incorporated area and the tax would be imposed in each of those contiguous cities only if the majority of those voting in the total area covered by the contiguous cities favors its imposition. For purposes of the local sales and services tax, a city is not contiguous to another city if the only road access between the two cities is through another state.

3. a. A county board of supervisors shall direct within thirty days the county commissioner of elections to submit the question of imposition of a local vehicle tax or a local sales and services tax to the qualified electors of the incorporated and unincorporated areas of the county upon receipt of a petition, requesting imposition of a local vehicle tax or a local sales and services tax, signed by eligible electors of the whole county equal in number to five percent of the persons in the whole county who voted at the last preceding state general election. In the case of a local vehicle tax, the petition requesting imposition shall specify the rate of tax and the classes, if any, that are to be exempt. If more than one valid petition is received, the earliest received petition shall be used.

b. The question of the imposition of a local sales and services tax shall be submitted to the qualified electors of the incorporated and unincorporated areas of the county upon receipt by the county commissioner of elections of the motion or motions, requesting such submission, adopted by the governing body or bodies of the city or cities located within the county or of the county, for the unincorporated areas of the county, representing at least one half of the population of the county. Upon adoption of such motion, the governing body of the city or county, for the unincorporated areas, shall submit the motion to the county commissioner of elections and in the case of the governing body of the city shall notify the board of supervisors of the adoption of the motion. The county commissioner of elections shall keep a file on all the motions received and, upon reaching the population requirements, shall publish notice of the ballot proposition concerning the imposition of the local sales and services tax. A motion ceases to be valid at the time of the holding of the regular election for the election of members of the

governing body which adopted the motion. The county commissioner of elections shall eliminate from the file any motion that ceases to be valid. The manner provided under this paragraph for the submission of the question of imposition of a local sales and services tax is an alternative to the manner provided in paragraph "a".

4. The county commissioner of elections shall submit the question of imposition of a local option tax at a state general election or at a special election held at any time other than the time of a city regular election which may not be held sooner than sixty days after publication of notice of the ballot proposition. The ballot proposition shall specify the type and rate of tax and in the case of a vehicle tax the classes that will be exempt and in the case of a local sales and services tax the date it will be imposed. The ballot proposition shall also specify the approximate amount of local option tax revenues that will be used for property tax relief and shall contain a statement as to the specific purpose or purposes for which the revenues shall otherwise be expended. The rate of the vehicle tax shall be in increments of one dollar per vehicle as set by the petition seeking to impose the tax. The rate of a local sales and services tax shall not be more than one percent as set by the governing body. The state commissioner of elections shall establish by rule the form for the ballot proposition which form shall be uniform throughout the state.

5. a. If a majority of those voting on the question of imposition of a local option tax favor imposition of a local option tax, the governing body of that county shall impose the tax at the rate specified for an unlimited period. However, in the case of a local sales and services tax, the county shall not impose the tax in any incorporated area or the unincorporated area if the majority of those voting on the tax in that area did not favor its imposition. For purposes of the local sales and services tax, all cities contiguous to each other shall be treated as part of one incorporated area and the tax would be imposed in each of those contiguous cities only if the majority of those voting in the total area covered by the contiguous cities favor its imposition. The local option tax may be repealed or the rate increased or decreased only after an election at which a majority of those voting on the question of repeal or rate change favor the repeal or rate change. The election at which the question of repeal or rate change is offered shall be called and held in the same manner and under the same conditions as provided in subsections 3 and 4 for the election on the imposition of the local option tax. However, in the case of a local sales and services tax where the tax has not been imposed countywide, the question of repeal or imposition shall be voted on only by the qualified electors of the areas of the county where the tax has been imposed or has not been imposed, as appropriate.

b. Within ten days of the election at which a majority of those voting on the question favors the imposition, repeal, or change in the rate of a local option tax, the governing body shall give written notice to the director of revenue and finance or, in the case of a local vehicle tax, to the director of the department of transportation, of the result of the election.

6. More than one of the authorized local option taxes may be submitted at a single election and the different taxes shall be separately implemented as provided in this section.

7. Local option taxes authorized to be imposed as provided in this chapter are a local sales and services tax and a local vehicle tax. The rate of the tax shall be in increments of one dollar per vehicle for a vehicle tax as set on the petition seeking to impose the vehicle tax. The rate of a local sales and services tax shall not be more than one percent as set by the governing body.

8. In a county that has imposed a local option sales and services tax, the board of supervisors shall, notwithstanding any contrary provision of this chapter, repeal the local option sales and services tax in the unincorporated areas or in an

incorporated city area in which the tax has been imposed upon adoption of its own motion for repeal in the unincorporated areas or upon receipt of a motion adopted by the governing body of that incorporated city area requesting repeal. The board of supervisors shall repeal the local option sales and services tax effective at the end of the calendar quarter during which it adopted the repeal motion or the motion for the repeal was received. For purposes of this subsection, incorporated city area includes an incorporated city which is contiguous to another incorporated city.

#### **422B.8 Local sales and services tax.**

A local sales and services tax at the rate of not more than one percent may be imposed by a county on the gross receipts taxed by the state under chapter 422, division IV. A local sales and services tax shall be imposed on the same basis as the state sales and services tax and may not be imposed on the sale of any property or on any service not taxed by the state, except the tax shall not be imposed on the gross receipts from the sale of motor fuel or special fuel as defined in chapter 324, on the gross receipts from the rental of rooms, apartments, or sleeping quarters which are taxed under chapter 422A during the period the hotel and motel tax is imposed, on the gross receipts from the sale of natural gas or electric energy in a city or county where the gross receipts are subject to a franchise fee or user fee during the period the franchise or user fee is imposed, on the gross receipts upon which sales tax is imposed only under section 422.43, subsection 12, on the gross receipts from the sale of equipment by the state department of transportation, and on the gross receipts from the sale of a lottery ticket or share in a lottery game conducted pursuant to chapter 99E. A local sales and services tax is applicable to transactions within those incorporated and unincorporated areas of the county where it is imposed and shall be collected by all persons required to collect state gross receipts taxes. All cities contiguous to each other shall be treated as part of one incorporated area and the tax would be imposed in each of those contiguous cities only if the majority of those voting in the total area covered by the contiguous cities favor its imposition.

The amount of the sale, for purposes of determining the amount of the local sales and services tax, does not include the amount of any state gross receipts taxes.

A tax permit other than the state tax permit required under section 422.53 shall not be required by local authorities.

#### **422B.9 Administration.**

A local sales and services tax shall be imposed either January 1, April 1, July 1 or October 1 following the notification of the director of revenue and finance.

A local sales and services tax shall be repealed only on March 31, June 30, September 30, or December 31. However, a local sales and services tax shall not be repealed before the tax has been in effect for one year. At least forty days before the imposition or repeal of the tax, a county shall provide notice of the action by certified mail to the director of revenue and finance.

The director of revenue and finance shall administer a local sales and services tax as nearly as possible in conjunction with the administration of state gross receipts tax laws. The director shall provide appropriate forms or provide on the regular state tax forms for reporting local sales and services tax liability.

The ordinance of a county board of supervisors imposing a local sales and services tax shall adopt by reference the applicable provisions of the appropriate sections of chapter 422, division IV. All powers and requirements of the director to administer the state gross receipts tax law are applicable to the administration of

a local sales and services tax law, including but not limited to, the provisions of sections 422.25, subsection 4, 422.30, 422.48 to 422.52, 422.54 to 422.58, 422.67, 422.68, 422.69, subsection 1, and 422.70 to 422.75. Local officials shall confer with the director of revenue and finance for assistance in drafting the ordinance imposing a local sales and services tax. A certified copy of the ordinance shall be filed with the director as soon as possible after passage.

The director, in consultation with local officials, shall collect and account for a local sales and services tax. The director shall certify each quarter the amount of local sales and services tax receipts and any interest and penalties to be credited to the "local sales and services tax fund" established in the office of the treasurer of state.

All local tax moneys and interest and penalties received or refunded one hundred eighty days or more after the date on which the county repeals its local sales and services tax shall be deposited in or withdrawn from the state general fund.

89 Acts, ch 276, §3 HF 271

#### **422B.10 Payment to local governments.**

1. The director shall credit the local sales and services tax receipts and interest and penalties from a county to the county's account in the local sales and services tax fund. If the director is unable to determine from which county any of the receipts were collected, those receipts shall be allocated amongst the possible counties based on allocation rules adopted by the director.

2. a. The director of revenue and finance within fifteen days of the beginning of each fiscal year shall send to each city or county where the local option tax is imposed, an estimate of the amount of tax moneys each city or county will receive for the year and for each quarter of the year. At the end of each quarter, the director may revise the estimates for the year and remaining quarters.

b. The director of revenue and finance shall remit ninety percent of the estimate tax receipts for the city or county to the city or county after the end of each quarter no later than the following dates: November 10, February 10, May 10, and August 10.

c. The director of revenue and finance shall remit a final payment of the remainder of tax moneys due the city or county for the fiscal year before the due date for the payment of the first quarter of the next fiscal year. If an overpayment has resulted during the previous fiscal year, the first payment of the new fiscal year shall be adjusted to reflect any overpayment.

3. Seventy-five percent of each county's account shall be remitted on the basis of the county's population residing in the unincorporated area where the tax was imposed and those incorporated areas where the tax was imposed as follows:

a. To the board of supervisors a pro rata share based upon the percentage of the above population of the county residing in the unincorporated area of the county where the tax was imposed according to the most recent certified federal census.

b. To each city in the county where the tax was imposed a pro rata share based upon the percentage of the city's population residing in the county to the above population of the county according to the most recent certified federal census.

4. Twenty-five percent of each county's account shall be remitted based on the sum of property tax dollars levied by the board of supervisors if the tax was imposed in the unincorporated areas and each city in the county where the tax was imposed during the three-year period beginning July 1, 1982 and ending June 30, 1985 as follows:

a. To the board of supervisors a pro rata share based upon the percentage of the total property tax dollars levied by the board of supervisors during the above three-year period.

b. To each city council where the tax was imposed a pro rata share based upon the percentage of property tax dollars levied by the city during the above three-year period of the above total property tax dollars levied by the board of supervisors and each city where the tax was imposed during the above three-year period.

5. Local sales and services tax moneys received by a city or county may be expended for any lawful purpose of the city or county.

#### 423.6 How collected.

The tax herein imposed shall be collected in the following manner:

1. The tax upon the use of all vehicles subject to registration or subject only to the issuance of a certificate of title shall be collected by the county treasurer or the state department of transportation pursuant to section 423.7. The county treasurer shall retain one dollar from each tax payment collected, to be credited to the county general fund.

2. The tax upon the use of all tangible personal property other than that enumerated in subsection 1 hereof, which is sold by a retailer maintaining a place of business in this state, or by such other retailer as the director shall authorize pursuant to section 423.10, shall be collected by such retailer and remitted to the department, pursuant to the provisions of sections 423.9 to 423.13.

3. The tax upon the use of all tangible personal property not paid pursuant to subsections 1 and 2 hereof shall be paid to the department directly by any person using such property within this state, pursuant to the provisions of section 423.14.

4. The tax on services imposed in section 423.2 shall be collected, remitted, and paid to the department of revenue and finance of this state in the corresponding manner as use tax on tangible personal property is collected, remitted and paid under provisions of this chapter.

#### 423.13 Payment to department—successor liability.

A permit holder required or authorized, pursuant to section 423.9 or 423.10, to collect or pay the tax imposed, shall remit to the department the amount of tax, on or before the last day of the month following each calendar quarterly period. However, a retailer who collects or owes more than fifteen hundred dollars in use taxes in a month shall deposit with the department or in a depository authorized by law and designated by the director, the amount collected or owed, with a deposit form for the month as prescribed by the director. The deposit form is due on or before the twentieth day of the month following the month of collection, except a deposit is not required for the third month of the calendar quarter, and the total quarterly amount, less the amounts deposited for the first two months of the quarter, is due with the quarterly report on the last day of the month following the month of collection. At that time, the retailer shall file with the department a return for the preceding quarterly period in the form prescribed by the director showing the sales price of the tangible personal property sold by the retailer during the preceding quarterly period, the use of which is subject to the tax imposed by this chapter, and other information the director deems necessary for the proper administration of this chapter. The return shall be accompanied by a remittance of the tax for the period covered by the return. If necessary in order to

ensure payment to the state of the tax, the director may in any or all cases require returns and payments to be made for other than quarterly periods. The director may, upon request and a proper showing of necessity, grant an extension of time not to exceed thirty days for making any return and payment. Returns shall be signed, in accordance with forms and rules prescribed by the director, by the retailer or the retailer's authorized agent, and shall be certified by the retailer or agent to be correct.

If it is reasonably expected, as determined by rules prescribed by the director, that a retailer's annual use tax liability will not exceed one hundred twenty dollars for a calendar year, the retailer may request and the director may grant permission to the retailer, in lieu of the quarterly filing and remitting requirements of the first paragraph of this section, to file the return required by and remit the use tax due under this section on a calendar year basis. The return and tax are due and payable no later than January 31 following each calendar year in which the retailer carries on business.

If a retailer sells the retailer's business or stock of goods or quits the business, the retailer shall prepare a final return and pay all tax due within the time required by law. The immediate successor to the retailer, if any, shall withhold sufficient of the purchase price, in money or money's worth, to pay the amount of delinquent tax, interest or penalty due and unpaid. If the immediate successor of the business or stock of goods intentionally fails to withhold the amount due from the purchase price as provided in this paragraph, the immediate successor is personally liable for the payment of delinquent taxes, interest and penalty accrued and unpaid on account of the operation of the business by the immediate former retailer, except when the purchase is made in good faith as provided in section 421.28. However, a person foreclosing on a valid security interest or retaking possession of premises under a valid lease is not an "immediate successor" for purposes of this paragraph. The department may waive the liability of the immediate successor under this paragraph if the immediate successor exercised good faith in establishing the amount of the previous liability.

### ENVIRONMENTAL PROTECTION CHARGE ON PETROLEUM DIMINUTION

Legislative findings; legislative intent; conditions upon finding of invalidity;  
89 Acts, ch 131, §1, 2, 59 HF 447

#### 424.1 Title—director's authority.

1. This chapter is entitled "Environmental Protection Charge on Petroleum Diminution".
2. The director's and the department's authority and power under chapter 421 and other provisions of the tax code relevant to administration apply to this chapter, and the charge imposed under this chapter is imposed as if the charge were a tax within the meaning of that chapter or provision.
3. The director shall enter into a contract or agreement with the board to provide assistance requested by the board. Policy issues arising under this chapter or chapter 455G shall be determined by the board, and the board shall be joined as a real party in interest when a policy issue is raised.
4. The board shall retain rulemaking authority, but may contract with the department for assistance in drafting rules. The board shall retain contested case

jurisdiction over any challenge to the diminution rate or cost factor. The department shall conduct all other contested cases and be responsible for other agency action in connection with the environmental protection charge imposed under this chapter.

5. The board shall reimburse the department of revenue and finance by contract for the reasonable cost of administration of the environmental protection charge imposed under this chapter and for other duties delegated to the department or to the director by the board.

#### 424.3 Environmental protection charge imposed upon petroleum diminution.

1. An environmental protection charge is imposed upon diminution. A depositor shall collect from the receiver of petroleum deposited into a tank, the environmental protection charge imposed under this section on diminution each time petroleum is deposited into the tank, and pay the charge to the department as directed by this chapter.

2. The environmental protection charge shall be equal to the total volume of petroleum deposited in a tank multiplied by the diminution rate multiplied by the cost factor.

3. The diminution rate is one-tenth of one percent.

4. Diminution equals total volume of petroleum deposited multiplied by the diminution rate established in subsection 3.

5. The cost factor is an amount per gallon of diminution determined by the board pursuant to this subsection. The board, after public hearing, may determine, or may adjust, the cost factor to an amount deemed sufficient by the board to maintain the financial soundness of the fund, but not to exceed an amount reasonably necessary to assure financial soundness, in light of known and

expected expenses, known and expected income from other sources, the volume of diminution presumed by law to occur, the debt service and reserve requirements for that portion of any bonds issued for the fund, and any other factors determined to be significant by the board, including economic reasonableness to owners and operators. The board may determine or adjust the cost factor at any time after May 5, 1989, but shall at minimum determine the cost factor at least once each fiscal year.

6. The cost factor shall not exceed an amount which is reasonably calculated to generate more than twelve million dollars in annual revenue from the charge, excluding penalties and interest, if any. If the board determines that to maintain the financial soundness of the fund the cost factor should be higher than allowed by the twelve million dollar cap on annual revenues, the board shall, on or before January 1 of each calendar year, make and deliver to the governor and the general assembly the board's certificate stating the sum per year required to maintain financial soundness of the fund. Within thirty days after the beginning of the session of the general assembly next following the delivery of the certificate, the governor may submit to both houses printed copies of a budget including the sum, if any, required to maintain the financial soundness of the fund, or other proposed legislative solutions to eliminate the shortfall.

7. The environmental protection charge shall be reduced or eliminated upon the later of fifteen years after May 5, 1989, or such time as the trust fund provided for under section 455G.9 is created, and is actuarially sound, and self-sustaining. The environmental protection charge may be reinstated as provided in section 455G.9, subsection 3.

#### **424.4 Adding of charge.**

A depositor shall, as far as practicable, add the charge imposed under this chapter, or the average equivalent of the charge, to the depositor's sales price for the petroleum subject to the charge and when added such charge shall constitute a part of the depositor's price, shall be a debt from the receiver to the depositor until paid, and shall be recoverable at law in the same manner as other debts.

NEW section

#### **424.5 Depositor permits required—applications—revocation.**

1. It is unlawful for any person to deposit petroleum into a tank in this state, unless a depositor permit has been issued to that person under this section. A depositor shall file with the department an application for a permit. An application for a permit shall be made upon a form prescribed by the board and shall set forth the name under which the applicant transacts or intends to transact business, the location or locations of the applicant's place of business, and any other information as the board may require. The application shall be signed by the owner if a natural person; in the case of an association or partnership, by a member or partner; in the case of a corporation, by an executive officer or some person specifically authorized by the corporation to sign the application, to which shall be attached the written evidence of the person's authority.

2. The department may deny a permit to an applicant who is substantially delinquent in paying a tax or charge due, or the interest or penalty on the tax or charge, administered by the department at the time of application. If the applicant is a partnership, a permit may be denied if the partner is substantially delinquent in paying any delinquent tax or charge, penalty, or interest.

3. A permit is not assignable and is valid only for the person in whose name it is issued.

4. A permit issued under this chapter is valid and effective until revoked by the department.

5. If the holder of a permit fails to comply with any of the provisions of this chapter or any order or rule of the department, or rule or order of the board pursuant to this chapter, or is substantially delinquent in the payment of a tax or charge administered by the department or the interest or penalty on the tax or charge, the director may revoke the permit.

6. To revoke a permit the director shall serve notice as required by section 17A.18 to the permit holder informing that person of the director's intent to revoke the permit and of the permit holder's right to a hearing on the matter. If the permit holder petitions the director for a hearing on the proposed revocation, after giving ten days' notice of the time and place of the hearing in accordance with section 17A.18, subsection 3, the matter may be heard and a decision rendered. The director may restore permits after revocation. The director shall adopt rules setting forth the period of time a depositor must wait before a permit may be restored or a new permit may be issued. The waiting period shall not exceed ninety days from the date of the revocation of the permit.

89 Acts, ch 131, §17 HF 447

#### **424.6 Exemption certificates for receivers of petroleum underground storage tanks not subject to financial responsibility rules.**

1. The department of natural resources shall issue an exemption certificate in the form prescribed by the director of the department of natural resources to an applicant who is an owner or operator of a petroleum underground storage tank which is exempt, deferred, or excluded from regulation under chapter 455G, for that tank. The director of the department of natural resources shall revoke and require the return of an exemption certificate if the petroleum underground storage tank later becomes subject to chapter 455G pursuant to section 455G.1. A tank is subject to chapter 455G when the federal regulation subjecting that tank to financial responsibility becomes effective and not upon the effective compliance date unless the effective compliance date is the effective date of the regulation.

2. Liability for the charge is upon the depositor and the receiver unless the depositor takes in good faith from the receiver a valid exemption certificate and records the exemption certificate number and related transaction information required by the director and submits such information as part of the environmental protection charge return. If petroleum is deposited into a tank, pursuant to a valid exemption certificate which is taken in good faith by the depositor, and the receiver is liable for the charge, the receiver is solely liable for the charge and shall remit the charge directly to the department and this chapter applies to that receiver as if the receiver were a depositor.

3. A valid exemption certificate is an exemption certificate which is complete and correct according to the requirements of the director of the department of natural resources.

4. A valid exemption certificate is taken in good faith by the depositor when the depositor has exercised that caution and diligence which honest persons of ordinary prudence would exercise in handling their own business affairs, and includes an honesty of intention and freedom from knowledge of circumstances which ought to put one upon inquiry as to the facts. A depositor has constructive notice of the classes of exempt, deferred, or excluded tanks. In order for a depositor to take a valid exemption certificate in good faith, the depositor must exercise reasonable prudence to determine the facts supporting the valid exemption certificate, and if any facts upon such certificate would lead a reasonable person to further inquiry, then such inquiry must be made with an honest intent to discover the facts.

5. If the circumstances change and the tank becomes subject to financial responsibility regulations, the tank owner or operator is liable solely for the charges and shall remit the charges directly to the department of revenue and finance pursuant to this chapter.

6. The board may waive the requirement for an exemption certificate for one or more classes of exempt, deferred, or excluded tanks, if in the board's judgment an exemption certificate is not required for effective and efficient collection of the charge. If an exemption certificate is not required for a class pursuant to this subsection, the depositor shall maintain and file such records and information as may be required by the director regarding deposits into a tank subject to the waiver.

#### **424.7 Deposit of moneys—filing of environmental protection charge return—appropriation.**

1. A depositor shall, on or before the last day of the month following the close of each calendar quarter during which the depositor is or has become or ceased being subject to the provisions of section 424.3, make, sign, and file an environmental protection charge return for that calendar quarter in such form as may be required by the director. The return shall show information relating to the volume of petroleum deposited into tanks subject to the charge, and any claimed exemptions or exclusions from the charge, a calculation of charges due, and such other information for the period covered by the return as may be required by the director. The depositor may be granted an extension of time not exceeding thirty days for filing a quarterly return, upon a proper showing of necessity. If an extension is granted, the depositor shall have paid by the thirtieth day of the month following the close of the quarter ninety percent of the estimated charges due.

2. If necessary or advisable in order to ensure the payment of the charge imposed by this chapter, the director may require returns and payment of the charge to be made for other than quarterly periods.

3. Returns shall be signed by the depositor or the depositor's duly authorized agent, and must be duly certified by the depositor to be correct.

4. Upon receipt of a payment pursuant to this chapter, the department shall deposit the moneys into the fund created in section 455G.3, and the moneys so deposited are a continuing appropriation for expenditure under chapter 455G, and moneys so appropriated shall not be used for other purposes unless the appropriation is changed by the first session of a biennial general assembly.

89 Acts, ch 131, §19 HF 447  
NEW section

#### **424.8 Payment of environmental protection charge.**

1. The charge levied under this chapter is due and payable in calendar quarterly installments on or before the last day of the month following each quarterly period except as otherwise provided in this section.

2. Every permit holder at the time of making the return required hereunder, shall compute and pay to the department the charges due for the preceding period.

3. a. If a receiver fails to pay charges imposed by this chapter to the depositor required to collect the charge, then in addition to all of the rights, obligations, and remedies provided, the charge is payable by the receiver directly to the department, and this chapter applies to the receiver as if the receiver were a depositor.

b. If a depositor subject to this chapter sells the depositor's business or stock of petroleum or quits the business, the depositor shall prepare a final return and pay all charges due within the time required by law. The immediate successor to the depositor, if any, shall withhold a sufficient amount of the purchase price, in

money or money's worth, to pay the amount of delinquent charge, interest, or penalty due and unpaid. If the immediate successor of the business or stock of petroleum intentionally fails to withhold the amount due from the purchase price as provided in this paragraph, the immediate successor is personally liable for the payment of the delinquent charges, interest, and penalty accrued and unpaid on account of the operation of the business by the immediate predecessor depositor, except when the purchase is made in good faith as provided in section 424.6. However, a person foreclosing on a valid security interest or retaking possession of premises under a valid lease is not an "immediate successor" for purposes of this paragraph. The department may waive the liability of the immediate successor under this paragraph if the immediate successor exercised good faith in establishing the amount of the previous liability.

89 Acts, ch 131, §20 HF 447  
NEW section

#### **424.9 Bond for environmental protection charge collection.**

The director, when necessary and advisable in order to secure the collection of the environmental protection charge imposed by section 424.3, may require a depositor to file a bond with the director. The bond shall assure collection by the department of the amount of the charge required to be collected or the amount actually collected by the depositor required to file the bond, whichever is greater. The bond shall be issued by a surety company authorized to conduct business in this state and approved by the commissioner of insurance as to solvency and responsibility, in an amount as the director may fix, to secure the payment of the charge, and penalty due or which may become due. In lieu of the bond, securities or cash shall be kept in the custody of the department and securities may be sold by the director at public or private sale, without notice to the depositor, if it becomes necessary to do so in order to recover any charge and penalty due. Upon a sale, any surplus above the amounts due under this section shall be returned to the person who deposited the securities.

NEW section

#### **424.10 Failure to file return—incorrect return.**

1. As soon as practicable after a return is filed and in any event within five years after the return is filed the department shall examine it, assess and determine the charge due if the return is found to be incorrect, and give notice to the depositor of such assessment and determination as provided in subsection 2. The period for the examination and determination of the correct amount of the charge is unlimited in the case of a false or fraudulent return made with the intent to evade the charge or in the case of a failure to file a return. If the determination that a return is incorrect is the result of an audit of the books and records of the depositor, the charge, or additional charge, if any is found due, shall be assessed and determined and the notice to the depositor shall be given by the department within one year after the completion of the examination of the books and records.

2. If a return required by this chapter is not filed, or if a return when filed is incorrect or insufficient and the maker fails to file a corrected or sufficient return within twenty days after the return is required by notice from the department, the department shall determine the amount of charge due from such information as the department may be able to obtain and, if necessary, may estimate the charge on the basis of external indices or factors. The department shall give notice of such determination to the person liable for the charge. Such determination shall finally and irrevocably fix the charge unless the person against whom it is assessed shall, within thirty days after the giving of notice of such determination, apply to the director for a hearing or unless the director on the director's motion

shall reduce the charge. At such hearing evidence may be offered to support such determination or to prove that it is incorrect. After such hearing the director shall give notice of the decision to the person liable for the charge.

If a depositor's, receiver's, or other person's challenge relates to the diminution rate, the burden of proof upon the challenger shall only be satisfied by clear and convincing evidence.

3. If the amount paid is greater than the correct charge, penalty, and interest due, the department shall refund the excess, with interest after sixty days from the date of payment at the rate in effect under section 421.7, pursuant to rules prescribed by the director. However, the director shall not allow a claim for refund that has not been filed with the department within five years after the charge payment upon which a refund is claimed became due, or one year after the charge payment was made, whichever time is later. A determination by the department of the amount of charge, penalty, and interest due, or the amount of refund for any excess amount paid, is final unless the person aggrieved by the determination appeals to the director for a revision of the determination within thirty days from the postmark date of the notice of determination of charge, penalty, and interest due or refund owing. The director shall grant a hearing, and upon hearing the director shall determine the correct charge, penalty, and interest due or refund owing, and notify the appellant of the decision by mail. The decision of the director is final unless the appellant seeks judicial review of the director's decision under section 424.13.

#### **424.11 Environmental protection charge lien — collection — action authorized.**

Whenever a person liable to pay a charge refuses or neglects to pay the charge, the amount, including any interest, penalty, or addition to the charge, together with the costs that may accrue in addition thereto, shall be a lien in favor of the state upon all property and rights to property, whether real or personal, belonging to that person.

The environmental protection charge lien shall attach at the time the charge becomes due and payable and shall continue for ten years from the time the lien attaches unless sooner released or otherwise discharged. The lien may be extended, within ten years from the date the lien attaches, by filing for record a notice with the appropriate county official of the appropriate county and from the time of such filing, the lien shall be extended to the property in such county for ten years, unless sooner released or otherwise discharged, with no limit on the number of extensions. The director shall charge off any account whose lien is allowed to lapse and may charge off any account and release the corresponding lien before the lien has lapsed if the director determines under uniform rules adopted by the board that the account is uncollectible or collection costs involved would warrant collection of the amount due.

In order to preserve the lien against subsequent mortgagees, purchasers, or judgment creditors, for value and without notice of the lien, on any property situated in a county, the director shall file with the recorder of the county in which the property is located a notice of the lien.

The county recorder of each county shall record an environmental protection charge lien in the "index of income tax liens".

The recorder shall endorse on each notice of lien the day, hour, and minute when received and preserve the notice, and shall immediately index the notice in the index book and record the lien in the manner provided for recording real estate mortgages, and the lien shall be effective from the time of its indexing.

The department shall pay a recording fee as provided in section 331.604, for the recording of the lien, or for its satisfaction.

Upon the payment of a charge as to which the director has filed notice with a county recorder, the director shall immediately file with the recorder a satisfaction of the charge and the recorder shall enter the satisfaction on the notice on file in the recorder's office and indicate that fact on the index.

The department shall proceed, substantially as provided in this chapter, to collect all charges and penalties as soon as practicable after the same become delinquent, except that no property of the depositor shall be exempt from the payment of the charge. In the event service has not been made on a distress warrant by the officer to whom addressed within five days from the date the distress warrant was received by the officer, the authorized revenue agents of the department are hereby empowered to serve and make return of the warrant to the clerk of the district court of the county named in the distress warrant, and all subsequent procedure shall be in compliance with chapter 626.

The attorney general shall, upon the request of the director, bring an action at law or in equity, as the facts may justify, without bond, to enforce payment of any charges and penalties, and in such action the attorney general shall have the assistance of the county attorney of the county in which the action is pending.

It is expressly provided that the foregoing remedies of the state shall be cumulative and that no action taken by the director or attorney general shall be construed to be an election on the part of the state or any of its officers to pursue any remedy hereunder to the exclusion of any other remedy provided by law.

#### **424.12 Records required.**

It shall be the duty of every depositor required to make a report and pay any charge under this chapter, to preserve such records as the director may require, and it shall be the duty of every depositor to preserve for a period of five years all invoices and other records; and all such books, invoices, and other records shall be open to examination at any time by the department, and shall be made available within this state for such examination upon reasonable notice when the director shall so order. When requested to do so by any person from whom a charge payer is seeking credit, or with whom the charge payer is negotiating the sale of any personal property, or by any other person having a legitimate interest in such information, the director, upon being satisfied that such a situation exists, shall inform such person as to the amount of unpaid charges due by the charge payer under the provisions of this chapter. The giving of such information under such circumstances shall not be deemed a violation of section 422.72 as applied to this chapter.

Section 422.72 applies to this chapter as if the environmental protection charge were a tax.

#### **424.13 Judicial review.**

1. Judicial review of contested cases under this chapter may be sought in accordance with chapter 17A.

2. The petitioner shall file with the clerk of the district court a bond for the use of the respondent, with sureties approved by the clerk, in penalty at least double the amount of charge appealed from, and in no case shall the bond be less than fifty dollars, conditioned that the petitioner shall perform the orders of the court.

3. An appeal may be taken by the charge payer or the director to the supreme court of this state irrespective of the amount involved.

#### **424.14 Reserved.**

#### **424.15 Environmental protection charge refund.**

If it appears that, as a result of mistake, an amount of a charge, penalty, or interest has been paid which was not due under the provisions of this chapter, then such amount shall be refunded to such person by the department. A claim for refund that has not been filed with the department within five years after the charge payment upon which a refund is claimed became due, or one year after such charge payment was made, whichever time is the later, shall not be allowed by the director.

Refunds may be made only from the unallocated or uncommitted moneys in the fund created in section 455G.3, and are limited by the total amount budgeted by the fund's board for charge refunds.

#### **424.16 Notice of change in diminution rate—service of notice.**

1. The board shall notify each person who has previously filed an environmental protection charge return, and any other person known to the board who will owe the charge at any address obtainable for that person, at least forty-five days in advance of the start of any calendar quarter during which either of the following will occur:

a. An administrative change in the cost factor, pursuant to section 424.3, subsection 5, becomes effective.

b. The environmental protection charge is to be discontinued or reimposed pursuant to section 455G.9.

Notice shall be provided by mailing a notice of the change to the address listed on the person's last return. The mailing of the notice is presumptive evidence of the receipt of the notice by the person to whom addressed. The board shall also publish the same notice at least twice in a paper of general circulation within the state at least forty-five days in advance of the first day of the calendar quarter during which a change in paragraph "a" or "b" becomes effective.

2. A notice authorized or required under this section may be given by mailing the notice to the person for whom it is intended, addressed to that person at the address given in the last return filed by the person pursuant to this chapter, or if no return has been filed, then to any address obtainable. The mailing of the notice is presumptive evidence of the receipt of the notice by the person to whom addressed. Any period of time which is determined according to this chapter by the giving of notice commences to run from the date of mailing of the notice. Neither mailed notice or notice by publication is required for the initial determination and imposition of the charge. The board shall undertake to provide reasonable notice of the environmental protection charge and procedures, as in the board's sole discretion it deems appropriate, provided that the actual charge and procedures are published in the Iowa administrative bulletin prior to the effective date of the charge.

3. The provisions of the Code relative to the limitation of time for the enforcement of a civil remedy shall not apply to any proceeding or action taken to levy, appraise, assess, determine, or enforce the collection of any charge or penalty provided by this chapter.

#### **424.17 Penalties—offenses—limitation.**

1. If a depositor fails to remit at least ninety percent of the charge due with the filing of the return on or before the due date, or pays less than ninety percent of any charge required to be shown on the return, excepting the period between the completion of an examination of the books and records of a charge payer and the giving of notice to the charge payer that a charge or additional charge is due,

there shall be added to the charge a penalty of fifteen percent of the amount of the charge due, except as provided in section 421.27. In case of willful failure to file a return or willful filing of a false return with intent to evade charges, in lieu of the penalty otherwise provided in this subsection, there shall be added to the amount required to be shown as a charge on the return seventy-five percent of the amount of the charge. The charge payer shall also pay interest on the charge or additional charge at the rate in effect under section 421.7 for each month counting each fraction of a month as an entire month, computed from the date the return was required to be filed. The penalty and interest shall be paid to the department and disposed of in the same manner as the charge imposed under this chapter. Unpaid penalties and interest may be enforced in the same manner as the charge imposed by this chapter.

2. A person who willfully attempts to evade a charge imposed by this chapter or the payment of the charge or a person who makes or causes to be made a false or fraudulent return with intent to evade the charge imposed by this chapter or the payment of charge tax is guilty of a class "D" felony.

3. The certificate of the director to the effect that a charge has not been paid, that a return has not been filed, or that information has not been supplied pursuant to this chapter, shall be prima facie evidence thereof.

4. For purposes of determining the place of trial, the situs of an offense specified in this section is in the county of the residence of the person charged with the offense, unless the person is a nonresident of this state or the residence of the person cannot be established, in which event the situs of the offense is in Polk county.

5. A prosecution for an offense specified in this section shall be commenced within six years after its commission.

## **CHAPTER 425**

### **HOMESTEAD TAX CREDITS AND REIMBURSEMENT**

#### **425.2 Qualifying for credit.**

A person who wishes to qualify for the credit allowed under this chapter shall obtain the appropriate forms for filing for the credit from the assessor. The person claiming the credit shall file a verified statement and designation of homestead with the assessor for the year for which the person is first claiming the credit. The claim shall be filed not later than July 1 of the year for which the person is claiming the credit. A claim filed after July 1 of the year for which the person is claiming the credit shall be considered as a claim filed for the following year.

Upon the filing and allowance of the claim, the claim shall be allowed on that homestead for successive years without further filing as long as the property is legally or equitably owned and used as a homestead by that person or that person's spouse on July 1 of each of those successive years, and the owner of the

property being claimed a homestead declares residency in Iowa for purposes of income taxation, and is occupied by the person or person's spouse for at least six months in each of those years. When the property is sold or transferred, the buyer or transferee who wishes to qualify shall refile for the credit. However, when the property is transferred as part of a distribution made pursuant to chapter 598, the transferee who is the spouse retaining ownership of the property is not required to refile for the credit. Property divided pursuant to chapter 598 cannot be modified following the division of the property. An owner who ceases to use a property for a homestead or intends not to use it as a homestead for at least six months in a fiscal year shall provide written notice to the assessor by July 1 following the date on which the use is changed. A person who sells or transfers a homestead or the personal representative of a deceased person who had a homestead at the time of death, shall provide written notice to the assessor that the property is no longer the homestead of the former claimant.

In case the owner of the homestead is in active service in the armed forces of this state or of the United States, or is sixty-five years of age or older, or is disabled, the statement and designation may be signed and delivered by any member of the owner's family, by the owner's guardian or conservator, or by any other person who may represent the owner under power of attorney. If the owner of the homestead is married, the spouse may sign and deliver the statement and designation. The director of human services or the director's designee may make application for the benefits of this chapter as the agent for and on behalf of persons receiving assistance under chapter 249.

Any person sixty-five years of age or older or any person who is disabled may request, in writing, from the appropriate assessor forms for filing for homestead tax credit. Any person sixty-five years of age or older or who is disabled may complete the form, which shall include a statement of homestead, and mail or return it to the appropriate assessor. The signature of the claimant on the statement shall be considered the claimant's acknowledgment that all statements and facts entered on the form are correct to the best of the claimant's knowledge.

Upon adoption of a resolution by the county board of supervisors, any person may request, in writing, from the appropriate assessor forms for the filing for homestead tax credit. The person may complete the form, which shall include a statement of homestead, and mail or return it to the appropriate assessor. The signature of the claimant on the statement of homestead shall be considered the claimant's acknowledgment that all statements and facts entered on the form are correct to the best of the claimant's knowledge.

The failure of a person to file a claim under this section on or before July 1 of the year for which the person is first claiming the credit or to have the evidence of ownership recorded in the office of the county recorder does not disqualify the claim if the person claiming the credit or through whom the credit is claimed is otherwise qualified. The belated claim shall be filed with the appropriate assessor on or before December 31 of the following calendar year and, if approved by the board of supervisors, the county treasurer shall file an amended certificate of homestead tax credits with the director of revenue and finance pursuant to section 425.4.

#### **425.7 Appeals permitted—disallowed claims and penalty.**

1. Any person whose claim is denied under the provisions of this chapter may appeal from the action of the board of supervisors to the district court of the county in which said claimed homestead is situated by giving written notice of such appeal to the county auditor of said county within twenty days from the date of mailing of notice of such action by the board of supervisors.

2. In the event any claim under this chapter is allowed, any owner of an eligible homestead may appeal from the action of the board of supervisors to the district court of the county in which said claimed homestead is situated, by giving written notice of such appeal to the county auditor of said county and such notice to the owner of said claimed homestead as a judge of the district court shall direct.

3. If the director of revenue and finance determines that a claim for homestead credit has been allowed by the board of supervisors which is not justifiable under the law and not substantiated by proper facts, the director may, at any time within thirty-six months from July 1 of the year in which the claim is allowed, set aside the allowance. Notice of the disallowance shall be given to the county auditor of the county in which the claim has been improperly granted and a written notice of the disallowance shall also be addressed to the claimant at the claimant's last known address. The claimant or the board of supervisors may seek judicial review of the action of the director of revenue and finance in accordance with the Iowa administrative procedure Act.

If a claim is disallowed by the director of revenue and finance and a petition for judicial review is not filed with respect to the disallowance, any amounts of credits allowed and paid from the homestead credit fund including the penalty, if any, become a lien upon the property on which credit was originally granted, if still in the hands of the claimant, and not in the hands of a bona fide purchaser, and any amount so erroneously paid including the penalty, if any, shall be collected by the county treasurer in the same manner as other taxes and the collections shall be returned to the department of revenue and finance and credited to the homestead credit fund. The director of revenue and finance may institute legal proceedings against a homestead credit claimant for the collection of payments made on disallowed credits and the penalty, if any. If a homestead credit is disallowed and the claimant failed to give written notice to the assessor as required by section 425.2 when the property ceased to be used as a homestead by the claimant, a civil penalty equal to fifty percent of the amount of the disallowed credit is assessed against the claimant.

#### **425.11 Definitions.**

For the purpose of this chapter and wherever used in this chapter:

1. The word "homestead" shall have the following meaning:

a. The homestead must embrace the dwelling house which the owner, in good faith, is occupying as a home on July 1 of the year for which the credit is claimed and occupies as a home for at least six months during that year, except as herein provided.

When any person is inducted into active service under the Selective Training and Service Act of the United States or whose voluntary entry into active service results in a credit on the quota of persons required for service under the Selective Training and Service Act, or who, being a member of any component part of the military, naval, or air forces or nurse corps of this state or nation, is called or ordered into active service, such person shall be considered as occupying or living on the homestead during such service and, where equitable or legal title of the homestead is in the spouse of the person who is a member of or is inducted into the armed services of the United States, the spouse shall be considered as occupying or living on the homestead during such service.

When any person is confined in a nursing home, extended-care facility, or hospital, such person shall be considered as occupying or living on a homestead where such person is the owner of such homestead and such person maintains such homestead and does not lease, rent, or otherwise receive profits from other persons for the use thereof.

b. It may contain one or more contiguous lots or tracts of land with the buildings or other appurtenances thereon habitually, and in good faith, used as a part of the homestead.

c. It must not embrace more than one dwelling house, but where a homestead has more than one dwelling house situated thereon, the credit provided for in this chapter shall apply to the home and buildings used by the owner, but shall not apply to any other dwelling house and buildings appurtenant.

d. The words "*dwelling house*" shall embrace any building occupied wholly or in part by the claimant as a home.

2. The word "*owner*" shall mean the person who holds the fee simple title to the homestead, and in addition shall mean the person occupying as a surviving spouse or the person occupying under a contract of purchase which contract has been recorded in the office of the county recorder of the county in which the property is located, or the person occupying the homestead under devise or by operation of the inheritance laws where the whole interest passes or where the divided interest is shared only by persons related or formerly related to each other by blood, marriage or adoption, or the person occupying the homestead under a deed which conveys a divided interest where the divided interest is shared only by persons related or formerly related to each other by blood, marriage or adoption or where the person occupying the homestead holds a life estate with the reversion interest held by a nonprofit corporation organized under chapter 504A, provided that the holder of the life estate is liable for and pays property tax on the homestead or where the person occupying the homestead holds an interest in a horizontal property regime under chapter 499B, regardless of whether the underlying land committed to the horizontal property regime is in fee or as a leasehold interest, provided that the holder of the interest in the horizontal property regime is liable for and pays property tax on the homestead. For the purpose of this chapter the word "*owner*" shall be construed to mean a bona fide owner and not one for the purpose only of availing the person of the benefits of this chapter. In order to qualify for the homestead tax credit, evidence of ownership shall be on file in the office of the clerk of the district court or recorded in the office of the county recorder at the time the owner files with the assessor a verified statement of the homestead claimed by the owner as provided in section 425.2.

3. The words "*assessed valuation*" shall mean the taxable valuation of the homestead as fixed by the assessor, or by the board of review, under the provisions of section 441.21, without deducting therefrom the exemptions authorized in section 427.3.

Where not in conflict with the terms of the definitions above set out, the provisions of chapter 561 shall control.

#### 425.17 Definitions.

As used in this division, unless the context otherwise requires:

1. "*Income*" means the sum of Iowa net income as defined in section 422.7, plus all of the following to the extent not already included in Iowa net income: Capital gains, alimony, child support money, cash public assistance and relief, except property tax relief granted under this division, the gross amount of any pension or annuity, including but not limited to railroad retirement benefits, all payments received under the federal social security Act, and all military retirement and veterans' disability pensions, interest received from the state or federal government or any of its instrumentalities, workers' compensation and the gross amount of disability income or "loss of time" insurance. "*Income*" does not include gifts from nongovernmental sources, or surplus foods or other relief in kind supplied by a governmental agency.

2. "*Household*" means a claimant, spouse, and any person related to the claimant or spouse by blood, marriage, or adoption and living with the claimant at any time during the base year. "Living with" refers to domicile and does not include a temporary visit.

3. "*Household income*" means all income of the claimant and the claimant's spouse in a household and actual monetary contributions received from any other household member during their respective twelve-month income tax accounting periods ending with or during the base year.

4. "*Homestead*" means the dwelling owned or rented and actually used as a home by the claimant during all or part of the base year, and so much of the land surrounding it including one or more contiguous lots or tracts of land, as is reasonably necessary for use of the dwelling as a home, and may consist of a part of a multidwelling or multipurpose building and a part of the land upon which it is built. It does not include personal property except that a mobile home may be a homestead. Any dwelling or a part of a multidwelling or multipurpose building which is exempt from taxation does not qualify as a homestead under this division. However, solely for purposes of claimants living in a property and receiving reimbursement for rent constituting property taxes paid immediately before the property becomes tax exempt, and continuing to live in it after it becomes tax exempt, the property shall continue to be classified as a homestead. A homestead must be located in this state. When a person is confined in a nursing home, extended-care facility, or hospital, the person shall be considered as occupying or living in the person's homestead if the person is the owner of the homestead and the person maintains the homestead and does not lease, rent, or otherwise receive profits from other persons for the use of the homestead.

5. "*Claimant*" means a person filing a claim for credit or reimbursement under this division who has attained the age of sixty-five years on or before December 31 of the base year or who is a surviving spouse having attained the age of fifty-five years on or before December 31, 1988, or who is totally disabled and was totally disabled on or before December 31 of the base year, and was domiciled in this state during the entire base year and is domiciled in this state at the time the claim is filed or at the time of the person's death in the case of a claim filed by the executor or administrator of the claimant's estate. "*Claimant*" includes a vendee in possession under a contract for deed and may include one or more joint tenants or tenants in common. In the case of a claim for rent constituting property taxes paid, the claimant shall have rented the property during any part of the base year. If a homestead is occupied by two or more persons, and more than one person is able to qualify as a claimant, the persons may determine among them who will be the claimant. If they are unable to agree, the matter shall be referred to the director of revenue and finance not later than October 31 of each year and the director's decision is final.

6. "*Totally disabled*" means the inability to engage in any substantial gainful employment by reason of any medically determinable physical or mental impairment which can be expected to result in death or which has lasted or is reasonably expected to last for a continuous period of not less than twelve months.

7. "*Rent constituting property taxes paid*" means twenty-seven and one-half percent of the gross rent actually paid in cash or its equivalent during the base year by the claimant or the claimant's household solely for the right of occupancy of their homestead in the base year, and which rent constitutes the basis, in the succeeding year, of a claim for reimbursement under this division by the claimant.

8. "*Gross rent*" means rental paid at arm's length solely for the right of occupancy of a homestead or mobile home, including rent for space occupied by a mobile home not to exceed one acre, exclusive of charges for any utilities, services, furniture, furnishings, or personal property appliances furnished by the landlord as a part of the rental agreement whether or not expressly set out in the rental agreement. If the director of revenue and finance determines that the landlord

and tenant have not dealt with each other at arm's length, and the director of revenue and finance is satisfied that the gross rent charged was excessive, the director shall adjust the gross rent to a reasonable amount as determined by the director. If the landlord does not supply the charges for any utilities, services, furniture, furnishings, or personal property appliances furnished by the landlord, or if the charges appear to be incorrect, the director of revenue and finance may apply a percentage determined from samples of similar gross rents paid solely for the right of occupancy.

9. "*Property taxes due*" means property taxes including any special assessments, but exclusive of delinquent interest and charges for services, due on a claimant's homestead in this state, but includes only property taxes for which the claimant is liable and which will actually be paid by the claimant. However, if the claimant is a person whose property taxes have been suspended under sections 427.8 and 427.9, "*property taxes due*" means property taxes including any special assessments, but exclusive of delinquent interest and charges for services, due on a claimant's homestead in this state, but includes only property taxes for which the claimant is liable and which would have to be paid by the claimant if the payment of the taxes has not been suspended pursuant to sections 427.8 and 427.9. "*Property taxes due*" shall be computed with no deduction for any credit under this division or for any homestead credit allowed under section 425.1. Each claim shall be based upon the taxes due during the fiscal year next following the base year. If a homestead is owned by two or more persons as joint tenants or tenants in common, and one or more persons are not members of claimant's household, "*property taxes due*" is that part of property taxes due on the homestead which equals the ownership percentage of the claimant and the claimant's household. The county treasurer shall include with the tax receipt a statement that if the owner of the property is sixty-five years of age or over or is totally disabled, or is a surviving spouse who was fifty-five years of age on or before December 31, 1988, the person may be eligible for the credit allowed under this division. If a homestead is an integral part of a farm, the claimant may use the total property taxes due for the larger unit. If a homestead is an integral part of a multidwelling or multipurpose building the property taxes due for the purpose of this subsection shall be prorated to reflect the portion which the value of the property that the household occupies as its homestead is to the value of the entire structure. For purposes of this subsection, "*unit*" refers to that parcel of property covered by a single tax statement of which the homestead is a part.

10. "*Special assessment*" means special assessments made pursuant to sections 384.37 to 384.79. The amount of a special assessment which may be included in the amount of property taxes due for one year shall be an amount equal to one-tenth of the total amount of the special assessment levied against the homestead of the claimant, if the claimant elects to pay the total amount of the special assessment in one payment. If the claimant elects to pay the special assessment in ten annual installments as provided by law, the claimant may include as a portion of the property taxes due during the fiscal year next following the base year an amount equal to the special assessment, including interest, due during that same fiscal year.

11. "*Base year*" means the calendar year last ending before the claim is filed.

Notice of the disallowance shall be given to the county auditor of the county in which the claim has been improperly granted and a written notice of the disallowance shall also be addressed to the claimant at the claimant's last known address. The claimant or the board of supervisors may seek judicial review of the action of the director of revenue and finance in accordance with chapter 17A. ## PROPERTY EXEMPT AND TAXABLE

**427.1 Exemptions.**

The following classes of property shall not be taxed:

1. *Federal and state property.* The property of the United States and this state, including state university, university of science and technology, and school lands. The exemption herein provided shall not include any real property subject to taxation under any federal statute applicable thereto, but such exemption shall extend to and include all machinery and equipment owned exclusively by the United States or any corporate agency or instrumentality thereof without regard to the manner of the affixation of such machinery and equipment to the land or building upon or in which such property is located, until such time as the Congress of the United States shall expressly authorize the taxation of such machinery and equipment.

2. *Municipal and military property.* The property of a county, township, city, school corporation, levee district, drainage district or military company of the

state of Iowa, when devoted to public use and not held for pecuniary profit, except property of a municipally owned electric utility held under joint ownership and property of an electric power facility financed under chapter 28F which shall be subject to assessment and taxation under provisions of chapters 428 and 437. The exemption for property owned by a city or county also applies to property which is operated by a city or county as a library, art gallery or museum, conservatory, botanical garden or display, observatory or science museum, or as a location for holding athletic contests, sports or entertainment events, expositions, meetings or conventions, or leased from the city or county for any such purposes. Food and beverages may be served at the events or locations without affecting the exemptions, provided the city has approved the serving of food and beverages on the property if the property is owned by the city or the county has approved the serving of food and beverages on the property if the property is owned by the county.

3. *Public grounds and cemeteries.* Public grounds, including all places for the burial of the dead; and crematoriums with the land, not exceeding one acre, on which they are built and appurtenant thereto, so long as no dividends or profits are derived therefrom.

5. *Public securities.* Bonds or certificates issued by any municipality, school district, drainage or levee district, river-front improvement commission or county within the state of Iowa. No deduction from the assessment of the shares of stock of any bank or trust company shall be permitted because such bank or trust company holds such bonds as are exempted above.

6. *Property of associations of war veterans.* The property of any organization composed wholly of veterans of any war, when such property is devoted entirely to its own use and not held for pecuniary profit.

7. *Property of cemetery associations.* Burial grounds, mausoleums, buildings and equipment owned and operated by cemetery associations and used exclusively for the maintenance and care of the cemeteries devoted to interment of human bodies and human remains. The exemption granted by this subsection shall not apply to any property used for the practice of mortuary science.

8. *Libraries and art galleries.* All grounds and buildings used for public libraries, public art galleries, and libraries and art galleries owned and kept by private individuals, associations, or corporations, for public use and not for private profit.

9. *Property of religious, literary, and charitable societies.* All grounds and buildings used or under construction by literary, scientific, charitable, benevolent, agricultural, and religious institutions and societies solely for their appropriate objects, not exceeding three hundred twenty acres in extent and not leased or otherwise used or under construction with a view to pecuniary profit. However, an organization mentioned in this subsection whose primary objective is to preserve land in its natural state may own or lease land not exceeding three hundred twenty acres in each county for its appropriate objects. All deeds or leases by which such property is held shall be filed for record before the property herein described shall be omitted from the assessment. All such property shall be listed upon the tax rolls of the district or districts in which it is located and shall have ascribed to it an actual fair market value and an assessed or taxable value, as contemplated by section 441.21, whether such property be subject to a levy or be exempted as herein provided and such information shall be open to public inspection.

10. Reserved.

11. *Property of educational institutions.* Real estate owned by any educational institution of this state as a part of its endowment fund, to the extent of one hundred sixty acres in any civil township except any real property acquired after January 1, 1965, by any educational institution as a part of its endowment fund or upon which any income is derived or used, directly or indirectly, for full or partial payment for services rendered, shall be taxed beginning with the levies applied for taxes payable in the year 1967, at the same rate as all other property of the same class in the taxing district in which the real property is located. The property acquired prior to January 1, 1965, and held or owned as part of the endowment fund of an educational institution shall be subject to assessment and levy in the assessment year 1974 for taxes payable in 1975. All the property shall be listed on the assessment rolls in the district in which the property is located and an actual fair market value and an assessed or taxable value be ascribed to it, as contemplated by section 441.21, irrespective of whether an exemption under this subsection may be or is affirmed, and the information shall be open to public inspection; it being the intent of this section that the property be valued whether or not it be subject to a levy. Every educational institution claiming an exemption under this subsection shall file with the assessor not later than February 1 of the year for which the exemption is requested, a statement upon forms to be prescribed by the director of revenue and finance, describing and locating the property upon which exemption is claimed. Property which is located on the campus grounds and used for student union purposes may serve food and beverages without affecting its exemption received pursuant to subsection 9 or this subsection.

20. *Public airports.* Any lands, the use of which (without charge by or compensation to the holder of the legal title thereto) has been granted to and accepted by the state or any political subdivision thereof for airport or aircraft landing area purposes.

21. Reserved.

22. *Pension and welfare plans.* All intangible property held pursuant to any pension, profit sharing, unemployment compensation, stock bonus or other

retirement, deferred benefit or employee welfare plan the income from which is exempt from taxation under divisions II and III of chapter 422.

23. *Statement of objects and uses filed.* A society or organization claiming an exemption under subsection 6 or subsection 9 of this section shall file with the assessor not later than February 1 a statement upon forms to be prescribed by the director of revenue and finance, describing the nature of the property upon which the exemption is claimed and setting out in detail any uses and income from the property derived from the rentals, leases, or other uses of the property not solely for the appropriate objects of the society or organization. Upon the filing and allowance of the claim, the claim shall be allowed on the property for successive years without further filing as long as the property is used for the purposes specified in the original claim for exemption. When the property is sold or transferred, the county recorder shall provide notice of the transfer to the assessor. The notice shall describe the property transferred and the name of the person to whom title to the property is transferred.

The assessor, in arriving at the valuation of any property of the society or organization, shall take into consideration any uses of the property not for the appropriate objects of the organization and shall assess in the same manner as other property, all or any portion of the property involved which is leased or rented and is used regularly for commercial purposes for a profit to a party or individual. If a portion of the property is used regularly for commercial purposes an exemption shall not be allowed upon property so used and the exemption granted shall be in the proportion of the value of the property used solely for the appropriate objects of the organization, to the entire value of the property. However, the board of trustees or the board of directors of a hospital, as defined in section 135B.1, subsection 1, may permit use of a portion of the hospital for commercial purposes, and the hospital is entitled to full exemption for that portion used for nonprofit health-related purposes, upon compliance with the filing requirements of this subsection.

An exemption shall not be granted upon property upon or in which persistent violations of the laws of the state are permitted. A claimant of an exemption shall, under oath, declare that no violations of law will be knowingly permitted or have been permitted on or after January 1 of the year in which a tax exemption is requested. Claims for exemption shall be verified under oath by the president or other responsible head of the organization. A society or organization which ceases to use the property for the purposes stated in the claim shall provide written notice to the assessor of the change in use.

24. *Delayed claims.* In any case where no such claim for exemption has been made to the assessor prior to the time the assessor's books are completed, such claims may be filed with the local board of review or with the county auditor not later than July 1 of the year for which such exemption from taxation is claimed, and a proper assessment shall be made either by the board of review or by the county auditor, if said property is all or in part subject to taxation.

25. *Mandatory denial.* No exemption shall be granted upon any property which is the location of federally licensed devices not lawfully permitted to operate under the laws of the state.

26. *Revoking exemption.* Any taxpayer or any taxing district may make application to the director of revenue and finance for revocation for any exemption, based upon alleged violations of this chapter. The director of revenue and finance may also on the director's own motion set aside any exemption which has been granted upon property for which exemption is claimed under this chapter. The director of revenue and finance shall give notice by mail to the societies or organizations claiming an exemption upon property, exemption of which is questioned before or by the director of revenue and finance, and any order made by the director of revenue and finance revoking or modifying an exemption is

subject to judicial review in accordance with the Iowa administrative procedure Act. Notwithstanding the terms of that Act, petitions for judicial review may be filed in the district court having jurisdiction in the county in which the property is located, and must be filed within thirty days after any order revoking an exemption is made by the director of revenue and finance.

27. *Tax provisions for armed forces.* If any person enters any branch of the armed service of the United States in time of national emergency, all personal property used in making the livelihood, in excess of three hundred dollars in value, of such person shall be assessed but no tax shall be due if such person upon return from service, or in event of the person's death if the person's executor, administrator or next of kin, executes an affidavit to the county assessor that such property was not used in any manner during the person's absence, the tax as assessed thereon shall be waived and no payment shall be required.

28. Reserved.

29. Reserved.

30. *Rural water sales.* The real property of a nonprofit corporation engaged in the distribution and sale of water to rural areas when devoted to public use and not held for pecuniary profit.

31. *Assessed value of exempt property.* Each county and city assessor shall determine the assessment value that would be assigned to the property if it were taxable and value all tax exempt property within the assessor's jurisdiction. A summary report of tax exempt property shall be filed with the director of revenue and finance and the local board of review on or before April 16 of each year on forms prescribed by the director of revenue and finance.

32. *Pollution control.* Pollution-control property as defined in this subsection shall be exempt from taxation to the extent provided in this subsection, upon compliance with the provisions of this subsection.

This exemption shall apply to new installations of pollution-control property beginning on January 1 after the construction or installation of the property is completed. This exemption shall apply beginning on January 1, 1975, to existing pollution-control property if its construction or installation was completed after September 23, 1970.

This exemption shall be limited to the market value, as defined in section 441.21, of the pollution-control property. If the pollution-control property is assessed with other property as a unit, this exemption shall be limited to the net market value added by the pollution-control property, determined as of the assessment date.

Application for this exemption shall be filed with the assessing authority not later than the first of February of the first year for which the exemption is requested, on forms provided by the department of revenue and finance. The application shall describe and locate the specific pollution-control property to be exempted.

The application for a specific pollution-control property shall be accompanied by a certificate of the administrator of the environmental protection division of the department of natural resources certifying that the primary use of the pollution-control property is to control or abate pollution of any air or water of this state or to enhance the quality of any air or water of this state.

A taxpayer may seek judicial review of a determination of the administrator of the environmental protection division or, on appeal, of the environmental protection commission in accordance with the provisions of chapter 17A.

The environmental protection commission of the department of natural resources shall adopt rules relating to certification under this subsection and information to be submitted for evaluating pollution-control property for which a certificate is requested. The department of revenue and finance shall adopt any rules necessary to implement this subsection, including rules on identification

and valuation of pollution-control property. All rules adopted shall be subject to the provisions of chapter 17A.

For the purposes of this subsection "pollution-control property" means personal property or improvements to real property, or any portion thereof, used primarily to control or abate pollution of any air or water of this state or used primarily to enhance the quality of any air or water of this state. In the event such property shall also serve other purposes or uses of productive benefit to the owner of the property, only such portion of the assessed valuation thereof as may reasonably be calculated to be necessary for and devoted to the control or abatement of pollution or to the enhancement of the quality of the air or water of this state shall be exempt from taxation under this subsection.

For the purposes of this subsection "pollution" means air pollution as defined in section 455B.131 or water pollution as defined in section 455B.171. "Water of the state" means the water of the state as defined in section 455B.171. "Enhance the quality" means to diminish the level of pollutants below the air or water quality standards established by the environmental protection commission of the department of natural resources.

33. *Impoundment structures.* The impoundment structure and any land underlying an impoundment located outside an incorporated city, which are not developed or used directly or indirectly for nonagricultural income-producing purposes and which are maintained in a condition satisfactory to the soil and water conservation district commissioners of the county in which the impoundment structure and the impoundment are located. A person owning land which qualifies for a property tax exemption under this subsection shall apply to the county assessor each year before the first of July for the exemption. The application shall be made on forms prescribed by the department of revenue and finance. The first application shall be accompanied by a copy of the water storage permit approved by the administrator of the environmental protection division of the department of natural resources and a copy of the plan for the construction of the impoundment structure and the impoundment. The construction plan shall be used to determine the total acre-feet of the impoundment and the amount of land which is eligible for the property tax exemption status. The county assessor shall annually review each application for the property tax exemption under this subsection and submit it, with the recommendation of the soil and water conservation district commissioners, to the board of supervisors for approval or denial. An applicant for a property tax exemption under this subsection may appeal the decision of the board of supervisors to the district court. As used in this subsection, "*impoundment*" means a reservoir or pond which has a storage capacity of at least eighteen acre-feet of water or sediment at the time of construction; "*storage capacity*" means the total area below the crest elevation of the principal spillway including the volume of any excavation in the area; and "*impoundment structure*" means a dam, earthfill, or other structure used to create an impoundment.

34. *Low-rent housing.* The property owned and operated by a nonprofit organization providing low-rent housing for the elderly and the physically and mentally handicapped. The exemption granted under the provisions of this subsection shall apply only until the terms of the original low-rent housing development mortgage is paid in full or expires, subject to the provisions of subsections 23 and 24.

35. Reserved.

36. *Natural conservation or wildlife areas.* Wetlands, recreational lakes, forest covers, rivers and streams, river and stream banks, and open prairies as designated by the board of supervisors of the county in which located. The board of supervisors shall annually designate the real property, not to exceed in the aggregate for the fiscal year beginning July 1, 1983 the greater of one percent of

the acres assessed as agricultural land or three thousand acres in each county, for which this exemption shall apply. For subsequent fiscal years, the limitation on the maximum acreage of real property that may be granted exemptions shall be the limitation for the previous fiscal year, unless the amount of acreage granted exemptions for the previous fiscal year equaled the limitation for that year, then the limitation for the subsequent fiscal year is the limitation for the previous fiscal year plus an increase, not to exceed three hundred acres, of ten percent of that limitation. The procedures of this subsection shall be followed for each assessment year to procure an exemption for the fiscal year beginning in the assessment year. The exemption shall be only for the fiscal year for which it is granted, except that an exemption granted for wetlands shall be for three fiscal years. A parcel of property may be granted subsequent exemptions. The exemption shall only be granted for parcels of property of two acres or more.

Application for this exemption shall be filed with the commissioners of the soil and water conservation district in which the property is located, or if not located in a district, to the board of supervisors, not later than April 15 of the assessment year, on forms provided by the department of revenue and finance. However, in the case of an exemption granted for wetlands an application does not have to be filed for the second and third years of the three-year exemption period. The application shall describe and locate the property to be exempted and have attached to it an aerial photo of that property on which is outlined the boundaries of the property to be exempted. In the case of an open prairie which is or includes a gully area susceptible to severe erosion, an approved erosion control plan must accompany the application. Upon receipt of the application, the commissioners or the board of supervisors, if the property is not located in a soil and water conservation district, shall certify whether the property is eligible to receive the exemption. The commissioners or board shall not withhold certification of the eligibility of property because of the existence upon the property of an abandoned building or structure which is not used for economic gain. If the commissioners certify that the property is eligible, the application shall be forwarded to the board of supervisors by May 1 of that assessment year with the certification of the eligible acreage. An application must be accompanied by an affidavit signed by the applicant that if an exemption is granted, the property will not be used for economic gain during the assessment year in which the exemption is granted.

Before the board of supervisors may designate real property for the exemption, it shall establish priorities for the types of real property for which an exemption may be granted and the amount of acreage. These priorities may be the same as or different than those for previous years. The board of supervisors shall get the approval of the governing body of the city before an exemption may be granted to real property located within the corporate limits of that city. A public hearing shall be held with notice given as provided in section 23.2 at which the proposed priority list shall be presented. However, no public hearing is required if the proposed priorities are the same as those for the previous year. After the public hearing, the board of supervisors shall adopt by resolution the proposed priority list or another priority list. Property upon which are located abandoned buildings or structures shall have the lowest priority on the list adopted, except where the board of supervisors determines that a structure has historic significance. The board of supervisors shall also provide for a procedure where the amount of acres for which exemptions are sought exceeds the amount the priority list provides for that type or in the aggregate for all types.

After receipt of an application with its accompanying certification and affidavit and the establishment of the priority list, the board of supervisors may grant a tax exemption under this subsection using the established priority list as a mandate.

Real property designated for the tax exemption shall be designated by May 15 of the assessment year in which begins the fiscal year for which the exemption is granted. Notification shall be sent to the county auditor and the applicant.

The board of supervisors does not have to grant tax exemptions under this subsection, grant tax exemptions in the aggregate of the maximum acreage which may be granted exemptions, or grant a tax exemption for the total acreage for which the applicant requested the exemption. Only real property in parcels of two acres or more which is wetlands, recreational lakes, forest cover, river and stream, river and stream banks, or open prairie and which is utilized for the purposes of providing soil erosion control or wildlife habitat or both, and which is subject to property tax for the fiscal year for which the tax exemption is requested, is eligible for the exemption under this subsection. However, in addition to the above, in order for a gully area which is susceptible to severe erosion to be eligible, there must be an erosion control plan for it approved by the commissioners of the soil and water conservation district in which it is located or the state soil conservation committee if not located in a district. In the case of an exemption for river and stream or river and stream banks, the exemption shall not be granted unless there is included in the exemption land located at least thirty-three feet from the ordinary high water mark of the river and stream or river and stream banks. Property shall not be denied an exemption because of the existence upon the property of an abandoned building or structure which is not used for economic gain. If the real property is located within a city, the approval of the governing body must be obtained before the real property is eligible for an exemption. For purposes of this subsection:

a. "*Wetlands*" means land preserved in its natural condition which is mostly under water, which produces little economic gain, which has no practical use except for wildlife or water conservation purposes, and the drainage of which would be lawful, feasible and practical and would provide land suitable for the production of livestock, dairy animals, poultry, fruit, vegetables, forage and grains. "*Wetlands*" includes adjacent land which is not suitable for agricultural purposes due to the presence of the land which is under water.

b. "*Open prairies*" includes hillsides and gully areas which have a permanent grass cover but does not include native prairies meeting the criteria of the natural resource commission.

c. "*Forest cover*" means land which is predominantly wooded.

d. "*Recreational lake*" means a body of water, which is not a river or stream, owned solely by a nonprofit organization and primarily used for boating, fishing, swimming and other recreational purposes.

e. "*Used for economic gain*" includes, but is not limited to, using property for the storage of equipment, machinery, or crops.

Notwithstanding other requirements under this subsection, the owner of any property lying between a river or stream and a dike which is required to be set back three hundred feet or less from the river or stream shall automatically be granted an exemption for that property upon submission of an application accompanied by an affidavit signed by the applicant that if the exemption is granted the property will not be used for economic gain during the period of exemption. The exemption shall continue from year to year for as long as the property qualifies and is not used for economic gain, without need for filing additional applications or affidavits. Property exempted pursuant to this paragraph is in addition to the maximum acreage applicable to other exemptions under this subsection.

37. *Native prairie.* Land designated as native prairie by a county conservation board or by the department of natural resources in an area not served by a county conservation board. Application for the exemption shall be made on forms provided by the department of revenue and finance. The application forms shall be

filed with the assessing authority not later than the first of February of the year for which the exemption is requested. The application must be accompanied by an affidavit signed by the applicant that if the exemption is granted, the property will not be used for economic gain during the assessment year in which the exemption is granted. If the property is used for economic gain during the assessment year in which the exemption is granted, the property shall lose its tax exemption and shall be taxed at the rate levied by the county for the fiscal year beginning in that assessment year. The first annual application shall be accompanied by a certificate from the county conservation board serving the area in which the property is located or if none exists, the department of natural resources stating that the land is native prairie. The county conservation board or the department of natural resources shall issue the certificate if the board or department finds that the land has never been cultivated, is unimproved, is primarily a mixture of warm season grasses interspersed with flowering plants, and meets the other criteria established by the natural resource commission for native prairie. A taxpayer may seek judicial review of a decision of a board or the department according to chapter 17A. The natural resource commission shall adopt rules to implement this subsection.

38. *Land certified as a wildlife habitat.* The owner of agricultural land may designate not more than two acres of the land for use as a wildlife habitat. After inspection, if the land meets the standards established by the natural resource commission for a wildlife habitat under section 110.3, the department of natural resources shall certify the designated land as a wildlife habitat and shall send a copy of the certification to the appropriate assessor. The department of natural resources may subsequently withdraw certification of the designated land if it fails to meet the established standards for a wildlife habitat and the assessor shall be given written notice of the decertification.

39. *Right-of-way.* Railroad right-of-way and improvements on the right-of-way only during that period of time that the Iowa railway finance authority holds an option to purchase the right-of-way under section 307B.24.

40. *Public television station.* All grounds and buildings used or under construction for a public television station and not leased or otherwise used or under construction for pecuniary profit.

For the purposes of this section, "active duty" means full-time duty in the armed forces of the United States, excluding active duty for training purposes only and excluding any period a person was assigned by the armed forces to a civilian institution for a course of education or training which was substantially the same as established courses offered to civilians, or as a cadet or midshipman, however enrolled, at one of the service academies.

#### **427.5 Claim for military tax exemption—discharge recorded.**

A person named in section 427.3, who is a resident of and domiciled in the state of Iowa, shall receive a reduction equal to the exemption, to be made from any property owned by the person and so designated by proceeding as provided in the section. To be eligible to receive the exemption the person claiming it shall have recorded in the office of the county recorder of the county in which is located the property designated for the exemption, evidence of property ownership and the military certificate of satisfactory service, order transferring to inactive status, reserve, retirement, order of separation from service, honorable discharge or a copy of any of these documents of the person claiming or through whom is claimed the exemption.

The person shall file with the appropriate assessor on forms obtained from the assessor the claim for exemption for the year for which the person is first claiming the exemption. The claim shall be filed not later than July 1 of the year for which the person is claiming the exemption. The claim shall set out the fact that the person is a resident of and domiciled in the state of Iowa, and a person within the terms of section 427.3, and shall give the volume and page on which the certificate of satisfactory service, order of separation, retirement, furlough to reserve, inactive status, or honorable discharge or certified copy thereof is recorded in the office of the county recorder, and may include the designation of the property from which the exemption is to be made, and shall further state that the claimant is the equitable or legal owner of the property designated.

Upon the filing and allowance of the claim, the claim shall be allowed to that person for successive years without further filing. Provided, that notwithstanding the filing or having on file a claim for exemption, the person or person's spouse is the legal or equitable owner of the property on July 1 of the year for which the claim is allowed. When the property is sold or transferred or the person wishes to designate different property for the exemption, a person who wishes to receive the exemption shall refile for the exemption. A person who sells or transfers property which is designated for the exemption or the personal representative of a deceased person who owned such property shall provide written notice to the assessor that the property is no longer legally or equitably owned by the former claimant.

In case the owner of the property is in active service in any of the armed forces of the United States or of this state, including the nurses corps of the state or of the United States, or is sixty-five years of age or older, or is disabled, the claim may be filed by any member of the owner's family, by the owner's guardian or conservator, or by any other person who may represent the owner under power of

attorney. In all cases where the owner of the property is married, the spouse may file the claim for exemption. A person may not claim an exemption in more than one county of the state, and if a designation is not made the exemption shall apply to the homestead, if any.

The failure of a person to file a claim under this section before July 1 of the year for which the person is first claiming the exemption or to have evidence of property ownership and satisfactory service, separation, retirement, furlough to reserve, inactive status, or honorable discharge recorded in the office of the county recorder does not disqualify the claim if the person claiming the exemption or through whom the exemption is claimed is otherwise qualified. The belated claim shall be filed with the appropriate assessor on or before December 31 of the following calendar year and, if approved by the board of supervisors, the county treasurer shall file an amended certificate of military service tax credits with the director of revenue and finance pursuant to section 426A.3.

The board of supervisors may order the county treasurer to suspend the collection of the taxes, special assessments under sections 384.37 through 384.79, and rates or assessments imposed under section 384.84 or chapter 317 or 364 which are assessed against the petitioner or the petitioner's estate, or both, for the current year and those unpaid for prior years, or the board may cancel and remit the taxes, special assessments, and other assessments or rates. However, the petition must first be approved by the council of the city in which the property of the petitioner is located, or by the township trustees of the township in which the property is located.

#### **UNDERGROUND STORAGE TANKS REMEDIAL ACTION CREDIT**

#### **427B.20 Local option remedial action property tax credit—public hearing.**

1. In order to further the public interests of protecting the drinking water supply, preserving business and industry within a community, preserving conve-

nient access to gas stations within a community, or other public purposes, a city council or county board of supervisors may provide by ordinance for partial or total property tax credits to owners of small businesses that own or operate an underground storage tank to reduce the amount of property taxes paid over the permitted period in amounts not to exceed the actual portion of costs paid by the business owner in connection with a remedial action for which the Iowa comprehensive petroleum underground storage tank fund shares in the cost of corrective action, and for which the small business owner was not reimbursed from any other source. A county board of supervisors may grant credits only for property located outside of the corporate limits of a city, and a city council may grant credits only for property located within the corporate limits of the city. The credit shall be taken on the property where the underground storage tank is situated. The credit granted by the council or board shall not exceed the amount of taxes generated by the property for the respective city or county. The credit shall apply to property taxes payable in the fiscal year following the calendar year in which a cost of remedial action was paid by the small business owner.

As used in this division, "*actual portion of the costs paid by the owner or operator of an underground storage tank in connection with a remedial action for which the Iowa comprehensive petroleum underground storage tank fund shares in the cost of corrective action*" means the amount determined by the fund's board, or the board's designee, as the administrator of the Iowa comprehensive petroleum underground storage tank fund, and for which the owner or operator was not reimbursed from any other source.

As used in this division, "*small business*" means a business with gross receipts of less than five hundred thousand dollars per year.

2. The ordinance may be enacted not less than thirty days after a public hearing is held in accordance with section 358A.6 in the case of a county, or section 362.3 in the case of a city. The ordinance shall designate the length of time the partial or total credit shall be available, and shall include a credit schedule and description of the terms and conditions of the credit.

3. A property tax credit provided under this section shall be paid for out of any available funds budgeted for that purpose by the city council or county board of supervisors. A city council may certify a tax for the general fund levy and a county board of supervisors may certify a tax for the rural county service fund levy for property tax credits authorized by this section.

Applications shall be filed with the respective county board of supervisors or the city council by September 30 of the year following the calendar year in which a cost of remedial action was paid by the owner or operator. Small business owners receiving credits shall file applications for renewal of the credit by September 30 of each year. A credit may be renewed only if title to the credited property remains in the name of the person or entity originally receiving the credit.

In reviewing the applications, the board of supervisors or city council shall consider whether granting the credit would serve a public purpose. Upon approval of the application by the board of supervisors, and after the applicant has paid any property taxes due, the board shall direct the county treasurer to issue a warrant to the small business owner in the amount of the credit granted. Upon approval of

the application by the city council, and after the applicant has paid any property taxes due, the council shall direct the city clerk to issue a warrant to the small business owner in the amount of the credit granted.

Property shall be assessed for taxation each year. Real estate shall be listed and assessed in 1981 and every two years thereafter. The assessment of real estate shall be the value of the real estate as of January 1 of the year of the assessment. The year 1981 and each odd-numbered year thereafter shall be a reassessment year. In any year, after the year in which an assessment has been made of all the real estate in an assessing jurisdiction, the assessor shall value and assess or revalue and reassess, as the case may require, any real estate that the assessor finds was incorrectly valued or assessed, or was not listed, valued, and assessed, in the assessment year immediately preceding, also any real estate the assessor finds has changed in value subsequent to January 1 of the preceding real estate assessment year. However, a percentage increase on a class of property shall not be made in a year not subject to an equalization order unless ordered by the department of revenue and finance. The assessor shall determine the actual value

and compute the taxable value thereof as of January 1 of the year of the revaluation and reassessment. The assessment shall be completed as specified in section 441.28, but no reduction or increase in actual value shall be made for prior years. This notification shall be contained in a report to be attached to the abstract of assessment for the year in which the new valuations become effective.

Any buildings erected, improvements made, or buildings removed in a year after the assessment of the class of real estate to which they belong shall be valued, listed and assessed and reported by the assessor to the county auditor after approval of the valuations by the local board of review, and said auditor shall thereupon enter the taxable value of such building or taxable improvement on the tax list as a part of real estate to be taxed. If such buildings are erected by any person other than the owner of the land, they shall be listed and assessed to the owner of the buildings or improvements as real estate.

**428.35 Grain handled.**

1. *Definitions.* "Person" as used herein means individuals, corporations, firms and associations of whatever form. "Handling or handled" as used herein means the receiving of grain at or in each elevator, warehouse, mill, processing plant or other facility in this state in which it is received for storage, accumulation, sale, processing or for any purpose whatsoever. "Grain" as used herein means wheat, corn, barley, oats, rye, flaxseed, field peas, soybeans, grain sorghums, spelts, and such other products as are usually stored in grain elevators. Such term excludes such seeds after being processed, and the products of such processing when packaged or sacked. The term "processing" shall not include hulling, cleaning, drying, grading or polishing.

2. *Tax imposed.* An annual excise tax is hereby levied on such handling of grain in the amount hereinafter provided. All grain so handled shall be exempt from all taxation as property under the laws of this state. The amount of such excise tax shall be a sum equal to one-fourth mill per bushel upon all grain as herein defined so handled.

3. *Statement filing form.* Every person engaged in handling grain shall, on the first day of January of each year and not later than sixty days thereafter, make and file with the assessor a statement of the number of bushels of grain handled by the person in that district during the year immediately preceding, or the part thereof, during which the person was engaged in handling grain; and on demand the assessor shall have the right to inspect all such person's records thereof. A form for making such statement shall be included in the blanks prescribed by the director of revenue and finance. If such statement is not furnished as herein required, section 441.24, shall be applicable.

4. *Assessment.* The assessor of each such district, from the statement required or from such other information as the assessor may acquire, shall ascertain the number of bushels of grain handled by each person handling grain in the assessor's district during the preceding year, or part thereof, and shall assess the amount herein provided to such person under the provisions of this section.

5. *Computation of tax.* The rate imposed by subsection 2 shall be applied to the number of bushels of grain so handled, and the computed amount thereof shall constitute the tax to be assessed.

6. *Payment of tax.* The tax, when determined, shall be entered in the same manner as general property taxes on the tax list of the taxing district, and the proceeds of the collection of the tax shall be distributed to the same taxing units and in the same proportion as the general property tax on the tax list of each taxing district. All provisions of the law relating to the assessment and collection of property taxes and the powers and duties of the county treasurer, county auditor and all other officers with respect to the assessment, collection, and enforcement of property taxes apply to the assessment, collection, and enforcement of the tax imposed by this section.

## CHAPTER 428A

### TAXATION OF REAL ESTATE TRANSFERS

#### 428A.1 Amount of tax on transfers—declaration of value.

There is imposed on each deed, instrument, or writing by which any lands, tenements, or other realty in this state shall be granted, assigned, transferred, or otherwise conveyed, a tax determined in the following manner: When there is no consideration or when the deed instrument or writing is executed and tendered for recording as an instrument corrective of title, and so states, there shall be no tax. When there is consideration and the actual market value of the real property transferred is in excess of five hundred dollars, the tax shall be fifty-five cents for each five hundred dollars or fractional part of five hundred dollars in excess of five hundred dollars. The term "consideration" as used in this chapter, means the full amount of the actual sale price of the real property involved, paid or to be paid, including the amount of an incumbrance or lien on the property, whether assumed or not by the grantee. It shall be presumed that the sale price so stated shall include the value of all personal property transferred as part of the sale unless the dollar value of said personal property is stated on the instrument of conveyance. When the dollar value of the personal property included in the sale is so stated, it shall be deducted from the consideration shown on the instrument for the purpose of determining the tax.

When each deed, instrument, or writing by which any real property in this state is granted, assigned, transferred, or otherwise conveyed is presented for recording to the county recorder, a declaration of value signed by at least one of the sellers or one of the buyers or their agents shall be submitted to the county recorder. A declaration of value is not required for those instruments described in section 428A.2, subsections 2 to 5, 7 to 13, and 16 to 20, or described in section 428A.2, subsection 6, except in the case of a federal agency or instrumentality, or if a transfer is the result of acquisition of lands, whether by contract or condemnation, for public purposes through an exercise of the power of eminent domain. The declaration of value shall state the full consideration paid for the real property transferred. If agricultural land, as defined in section 172C.1, is purchased by a corporation, limited partnership, trust, alien or nonresident alien, the declaration of value shall include the name and address of the buyer, the name and address of the seller, a legal description of the agricultural land, and identify the buyer as a corporation, limited partnership, trust, alien, or nonresident alien. The county recorder shall not record the declaration of value, but shall enter on the declaration of value information the director of revenue and finance requires for the production of the sales/assessment ratio study and transmit all declarations of value to the city or county assessor in whose jurisdiction the property is located. The city or county assessor shall enter on the declaration of value the information the director of revenue and finance requires for the production of the sales/assessment ratio study and transmit one copy of each declaration of value to the director of revenue and finance, at times as directed by the director of revenue and finance. The assessor shall retain one copy of each declaration of value for three years from December 31 of the year in which the transfer of realty for which the declaration was filed took place. The director of revenue and finance shall, upon receipt of the information required to be filed under this chapter by the city or county assessor,

send to the office of the secretary of state that part of the declaration of value which identifies a corporation, limited partnership, trust, alien, or nonresident alien as a purchaser of agricultural land as defined in section 172C.1.

## ASSESSMENT AND VALUATION OF PROPERTY

**441.10 Examination and appointment of deputies—incumbents.**

Immediately after the appointment of the assessor, and at other times as the conference board directs, one or more deputy assessors may be appointed by the assessor. Each appointment shall be made from either the list of eligible candidates provided by the director of revenue and finance, which shall contain only the names of those persons who achieve a score of seventy percent or greater on the examination administered by the director of revenue and finance, or the list of candidates eligible for appointment as city or county assessor. Examinations for the position of deputy assessor shall be conducted in the same manner as examinations for the position of city or county assessor. The applicable provisions of section 441.5 regarding the register of names shall also apply to the list of eligible candidates established under the provisions of this section.

Following the administration of the examination, the director of revenue and finance shall establish a register containing the names, in alphabetical order, of all individuals who are eligible for appointment as a deputy assessor. The test scores of individuals on the register shall be given to a city or county conference board upon request. All eligible individuals shall remain on the register for a period of two years following the date of certification granted by the director.

Incumbent deputy assessors who have served six consecutive years shall be placed on the register of individuals eligible for appointment as deputy assessor. In order to be appointed to the position of deputy assessor, the deputy assessor shall comply with the continuing education requirements. The number of credits required for certification as eligible for appointment as a deputy assessor in a jurisdiction other than where the deputy assessor is currently serving shall be prorated according to the percentage of the deputy assessor's term which is covered by the continuing education requirements of section 441.8. The credit necessary for certification for appointment is the product of ninety multiplied by the quotient of the number of months served of a deputy assessor's term covered by the continuing education requirements of section 441.8 divided by seventy-two. If the number of credits necessary for certification for appointment as determined under this paragraph results in a partial credit hour, the credit hour shall be rounded to the nearest whole number.

The assessor may peremptorily suspend or discharge any deputy assessor under the assessor's direction upon written charges for neglect of duty, disobedience of orders, misconduct, or failure to properly perform the deputy assessor's duties. Within five days after delivery of written charges to the employee, the deputy assessor may appeal by written notice to the secretary or chairperson of the examining board. The board shall grant the deputy assessor a hearing within fifteen days, and a decision by a majority of the examining board is final. The assessor shall designate one of the deputies as chief deputy, and the assessor shall assign to each deputy the duties, responsibilities, and authority as is proper for the efficient conduct of the assessor's office.

#### 441.17 Duties of assessor.

The assessor shall:

1. Devote full time to the duties of the assessor's office and shall not engage in any occupation or business interfering or inconsistent with such duties.
2. Cause to be assessed, in accordance with section 441.21, all the property in the assessor's county or city, except property exempt from taxation, or the assessment of which is otherwise provided for by law.
3. Have access to all public records of the county and, so far as practicable, make or cause to be made a careful examination of all such records and files in order to obtain all available information which may contribute to the accurate listing at its taxable value, and to the proper persons, of all property subject to assessment by the assessor.
4. Co-operate with the director of revenue and finance as may be necessary or required, and obey and execute all orders, directions, and instructions of the director of revenue and finance, insofar as the same may be required by law.
5. Have power to apply to the district court of the county for an order to examine witnesses and requiring the production of books and records of any person, firm, association or corporation within the county, whenever the assessor has reason to believe that such person, firm, association or corporation has not listed property as provided by law. The proceeding for the examination of witnesses and examination of the books and records of any such taxpayer, to determine the existence of taxable property, shall be instituted and conducted in the manner provided for the discovery of property under the provisions of chapter 630. The court shall make an appropriate finding as to the existence of taxable property not listed. All taxable property discovered thereby shall thereupon be assessed by the assessor in the manner provided by law.  
In all cases where the court finds that the taxpayer has not listed the taxpayer's property, as provided by law, and in all hearings where the court decides a matter against the taxpayer, the costs shall be paid by the taxpayer, otherwise they shall be paid out of the assessment expense fund. The fees and mileage to be paid witnesses shall be the same as prescribed by law in proceedings in the district courts of this state in civil cases. Where the costs are taxed to the taxpayer they shall be added to the taxes assessed against said taxpayer and the taxpayer's property and shall be collected in the same manner as are other taxes.
6. Make up all assessor's books and records as prescribed by the director of revenue and finance, turn the completed assessor's books and records required for the preparation of the tax list over to the county auditor each year when the board of review has concluded its hearings and the county auditor shall proceed with the preparation of the current year tax list and the assessor shall co-operate with the auditor in the preparation of the tax lists.
7. Submit on or before May 1 of each year completed assessment rolls to the board of review.
8. Lay before the board of review such information as the assessor may possess which will aid said board in performing its duties in adjusting the assessments to the valuations required by law.
9. Furnish to the director of revenue and finance any information which the assessor may have relative to the ownership of any property that may be assessable within this state, but not assessable or subject to being listed for taxation by the assessor.
10. Measure the exterior length and exterior width of all mobile homes except those for which measurements are contained in the manufacturer's and importer's certificate of origin, and report the information to the county treasurer. Check all mobile homes for inaccuracy of measurements as necessary or upon written request of the county treasurer and report the findings immediately to the county treasurer. If a mobile home has been converted to real estate the title shall be

collected and returned to the county treasurer for cancellation. If taxes due for prior years have not been paid, the assessor shall collect the unpaid taxes due as a condition of conversion. The assessor shall make frequent inspections and checks within the assessor jurisdiction of all mobile homes and mobile home parks and make all the required and needed reports to carry out the purposes of this section.

11. Cause to be assessed for taxation property which the assessor believes has been erroneously exempted from taxation. Revocation of a property tax exemption shall commence with the assessment for the current assessment year, and shall not be applied to prior assessment years.

89 Acts, ch 296, §61 SF 141  
Subsections 2 and 10 amended

#### **441.19 Owner to assist—provisions for assessment.**

The assessor shall list every person in the assessor's county or city as the case may be and assess all the property in the county or city, except property exempted or otherwise assessed. A person who refuses to assist in making out a list of the person's property, or of any property which the person is by law required to assist in listing, is guilty of a simple misdemeanor.

1. Supplemental and optional to the procedure for the assessment of property by the assessor as provided in this chapter, the assessor may require from all persons required to list their property for taxation as provided by sections 428.1 and 428.2, a supplemental return to be prescribed by the director of revenue and finance upon which the person shall list the person's property. The supplemental return shall be in substantially the same form as now prescribed by law for the assessment rolls used in the listing of property by the assessors. Every person required to list property for taxation shall make a complete listing of the property upon supplemental forms and return the listing to the assessor as promptly as possible. The return shall be verified over the signature of the person making the return and section 441.25 applies to any person making such a return. The assessor shall make supplemental return forms available as soon as practicable after the first day of January of each year. The assessor shall make supplemental return forms available to the taxpayer by mail, or at a designated place within the taxing district.

2. Upon receipt of such supplemental return from any person the assessor shall prepare a roll assessing such person as hereinafter provided. In the preparation of such assessment roll the assessor shall be guided not only by the information contained in such supplemental roll, but by any other information the assessor may have or which may be obtained by the assessor as prescribed by the law relating to the assessment of property. The assessor shall not be bound by any values as listed in such supplemental return, and may include in the assessment roll any property omitted from the supplemental return which in the knowledge and belief of the assessor should be listed as required by law by the person making the supplemental return. Upon completion of such roll the assessor shall deliver to the person submitting such supplemental return a copy of the assessment roll, either personally or by mail.

3. Any taxpayer aggrieved by the action of the assessor in the preparation of an assessment roll upon which a supplemental return has been made shall have the same rights and privileges of appeal as provided by law in connection with the assessment rolls prepared in entirety by the assessor, but no assessment rolls prepared by the assessor after receiving a supplemental return shall be deemed insufficient or invalid because of the fact that such assessment roll does not bear the signature of the person assessed, and the signature of the person listing property upon the supplemental return shall be deemed a signature on the roll as prepared by the assessor.

4. The supplemental returns herein provided for shall be preserved in the same manner as assessment rolls, but shall be confidential to the assessor, board of review, or director of revenue and finance, and shall not be open to public inspection, but any final assessment roll as made out by the assessor shall be a public record, provided that such supplemental return shall be available to counsel of either the person making the return or of the public, in case any appeal is taken to the board of review or to the court.

5. In the event of failure of any person required to list property to make a supplemental return, as required herein, on or before the fifteenth day of February of any year when such listing is required, the assessor shall proceed in the listing and assessment of the person's property as provided by this chapter, and no person subject to taxation shall be relieved of the person's obligation to list the person's property through failure to make a supplemental return as herein provided, and any roll prepared by the assessor after receiving a supplemental return or when prepared in accordance with other provisions of this chapter, shall be a valid assessment.

6. The provisions of this chapter relating to assessment rolls shall be applicable to the preparation of rolls upon which a supplemental return has been received, insofar as they are not in conflict with the provision of this section.

On or before February 15 of each year, each owner of industrial real estate shall submit to the local assessor a report listing by year of acquisition and by acquisition cost the owner's machinery as described in section 427A.1, subsection 1, paragraph "c", and specifying any machinery added or removed during the preceding assessment year. A report containing an itemized list of machinery by year of acquisition and by acquisition cost shall be required only when deemed necessary by the assessor. The reports shall be submitted on forms prescribed by the director of revenue and finance or on forms submitted by the taxpayer and approved by the assessor which forms shall contain the same information as is required to be reported on forms prescribed by the director. If a person shall knowingly enter false information on the report, the person shall be guilty of a simple misdemeanor. Also, if a person refuses to file the report provided for in this paragraph, the assessor shall proceed in accordance with the provisions of section 441.24.

Unnumbered paragraph 1, and subsection 1 amended

**441.20 Oath.** Repealed by 89 Acts, ch 296, §96. SF 141

**441.21 Actual, assessed and taxable value.**

1. *a.* All property subject to taxation shall be valued at its actual value which shall be entered opposite each item, and, except as otherwise provided in this section, shall be assessed at one hundred percent of its actual value, and the value so assessed shall be taken and considered as the assessed value and taxable value of the property upon which the levy shall be made.

*b.* The actual value of all property subject to assessment and taxation shall be the fair and reasonable market value of such property except as otherwise provided in this section. "Market value" is defined as the fair and reasonable exchange in the year in which the property is listed and valued between a willing buyer and a willing seller, neither being under any compulsion to buy or sell and each being familiar with all the facts relating to the particular property. Sale prices of the property or comparable property in normal transactions reflecting market value, and the probable availability or unavailability of persons interested in purchasing the property, shall be taken into consideration in arriving at its market value. In arriving at market value, sale prices of property in abnormal transactions not reflecting market value shall not be taken into account, or shall be adjusted to eliminate the effect of factors which distort market value, including but not limited to sales to immediate family of the seller, foreclosure or other

forced sales, contract sales, discounted purchase transactions or purchase of adjoining land or other land to be operated as a unit.

The actual value of special purpose tooling, which is subject to assessment and taxation as real property under section 427A.1, subsection 1, paragraph "e", but which can be used only to manufacture property which is protected by one or more United States or foreign patents, shall not exceed the fair and reasonable exchange value between a willing buyer and a willing seller, assuming that the willing buyer is purchasing only the special purpose tooling and not the patent covering the property which the special purpose tooling is designed to manufacture nor the rights to manufacture the patented property. For purposes of this paragraph, special purpose tooling includes dies, jigs, fixtures, molds, patterns, and similar property. The assessor shall not take into consideration the special value or use value to the present owner of the special purpose tooling which is designed and intended solely for the manufacture of property protected by a patent in arriving at the actual value of the special purpose tooling.

c. In assessing and determining the actual value of special purpose industrial property having an actual value of five million dollars or more, the assessor shall equalize the values of such property with the actual values of other comparable special purpose industrial property in other counties of the state. Such special purpose industrial property includes, but is not limited to chemical plants. If a variation of ten percent or more exists between the actual values of comparable industrial property having an actual value of five million dollars or more located in separate counties, the assessors of the counties shall consult with each other and with the department of revenue and finance to determine if adequate reasons exist for the variation. If no adequate reasons exist, the assessors shall make adjustments in the actual values to provide for a variation of ten percent or less. For the purposes of this paragraph, special purpose industrial property includes structures which are designed and erected for operation of a unique and special use, are not rentable in existing condition, and are incapable of conversion to ordinary commercial or industrial use except at a substantial cost.

d. Actual value of property in one assessing jurisdiction shall be equalized as compared with actual value of property in an adjoining assessing jurisdiction. If a variation of five percent or more exists between the actual values of similar, closely adjacent property in adjoining assessing jurisdictions in Iowa, the assessors thereof shall determine whether adequate reasons exist for such variation. If no such reasons exist, the assessors shall make adjustments in such actual values to reduce the variation to five percent or less.

e. The actual value of agricultural property shall be determined on the basis of productivity and net earning capacity of the property determined on the basis of its use for agricultural purposes capitalized at a rate of seven percent and applied uniformly among counties and among classes of property. Any formula or method employed to determine productivity and net earning capacity of property shall be adopted in full by rule.

f. In counties or townships in which field work on a modern soil survey has been completed since January 1, 1949, the assessor shall place emphasis upon the results of the survey in spreading the valuation among individual parcels of such agricultural property.

g. Notwithstanding any other provision of this section, the actual value of any property shall not exceed its fair and reasonable market value, except agricultural property which shall be valued exclusively as provided in paragraph "e" of this subsection.

2. The market value of an inventory or goods in bulk shall be their market value as such inventory or goods in bulk, not their retail or unit price. Such market value shall be fair and reasonable based on market value of similar classes of property.

In the event market value of the property being assessed cannot be readily established in the foregoing manner, then the assessor may determine the value of the property using the other uniform and recognized appraisal methods including its productive and earning capacity, if any, industrial conditions, its cost, physical and functional depreciation and obsolescence and replacement cost, and all other factors which would assist in determining the fair and reasonable market value of the property but the actual value shall not be determined by use of only one such factor. The following shall not be taken into consideration: Special value or use value of the property to its present owner, and the good will or value of a business which uses the property as distinguished from the value of the property as property. Upon adoption of uniform rules by the revenue department or succeeding authority covering assessments and valuations of such properties, said valuation on such properties shall be determined in accordance therewith for assessment purposes to assure uniformity, but such rules shall not be inconsistent with or change the foregoing means of determining the actual, market, taxable and assessed values.

3. "Actual value", "taxable value", or "assessed value" as used in other sections of the Code in relation to assessment of property for taxation shall mean the valuations as determined by this section; however, other provisions of the Code providing special methods or formulas for assessing or valuing specified property shall remain in effect, but this section shall be applicable to the extent consistent with such provisions. The assessor and department of revenue and finance shall disclose at the written request of the taxpayer all information in any formula or method used to determine the actual value of the taxpayer's property.

The burden of proof shall be upon any complainant attacking such valuation as excessive, inadequate, inequitable or capricious; however, in protest or appeal proceedings when the complainant offers competent evidence by at least two disinterested witnesses that the market value of the property is less than the market value determined by the assessor, the burden of proof thereafter shall be upon the officials or persons seeking to uphold such valuation to be assessed.

4. For valuations established as of January 1, 1978, agricultural and residential property shall be assessed at a percentage of the actual value of each class of property. The percentage shall be determined for each class of property by the director of revenue for the state in accordance with the provisions of this section. For valuations established as of January 1, 1978, the percentage shall be the quotient of the dividend and divisor as defined in this section. The dividend shall be the total equalized value of such property in the state in 1975, adjusted for additions or deletions to said value, excluding those resulting from the revaluation of existing properties, as reported by the assessors on the abstracts of assessment submitted in 1976 and 1977, plus six percent of the 1975 equalized value of such property or the amount of value added by the revaluation of existing properties in 1976, 1977 and 1978 whichever is less. The divisor shall be the total value of such property in the state as reported by the assessors on the abstracts of assessment submitted in 1977, plus the amount of value added in 1978 by the revaluation of existing properties.

5. For valuations established as of January 1, 1979, the percentage of actual value at which agricultural and residential property shall be assessed shall be the quotient of the dividend and divisor as defined in this section. The dividend for each class of property shall be the dividend as determined for each class of property for valuations established as of January 1, 1978, adjusted by the product obtained by multiplying the percentage determined for that year by the amount of any additions or deletions to actual value, excluding those resulting from the revaluation of existing properties, as reported by the assessors on the abstracts of assessment for 1978, plus six percent of the amount so determined. However, if the difference between the dividend so determined for either class of

property and the dividend for that class of property for valuations established as of January 1, 1978, adjusted by the product obtained by multiplying the percentage determined for that year by the amount of any additions or deletions to actual value, excluding those resulting from the revaluation of existing properties, as reported by the assessors on the abstracts of assessment for 1978, is less than six percent, the 1979 dividend for the other class of property shall be the dividend as determined for that class of property for valuations established as of January 1, 1978, adjusted by the product obtained by multiplying the percentage determined for that year by the amount of any additions or deletions to actual value, excluding those resulting from the revaluation of existing properties, as reported by the assessors on the abstracts of assessment for 1978, plus a percentage of the amount so determined which is equal to the percentage by which the dividend as determined for the other class of property for valuations established as of January 1, 1978, adjusted by the product obtained by multiplying the percentage determined for that year by the amount of any additions or deletions to actual value, excluding those resulting from the revaluation of existing properties, as reported by the assessors on the abstracts of assessment for 1978, is increased in arriving at the 1979 dividend for the other class of property. The divisor for each class of property shall be the total actual value of all such property in the state in the preceding year, as reported by the assessors on the abstracts of assessment submitted for 1978, plus the amount of value added to said total actual value by the revaluation of existing properties in 1979 as equalized by the director of revenue pursuant to section 441.49. The director shall utilize information reported on abstracts of assessment submitted pursuant to section 441.45 in determining such percentage. For valuations established as of January 1, 1980, and each year thereafter, the percentage of actual value as equalized by the director of revenue and finance as provided in section 441.49 at which agricultural and residential property shall be assessed shall be calculated in accordance with the methods provided herein including the limitation of increases in agricultural and residential assessed values to the percentage increase of the other class of property if the other class increases less than the allowable limit adjusted to include the applicable and current values as equalized by the director of revenue and finance, except that any references to six percent in this subsection shall be four percent.

6. For valuations established as of January 1, 1979, commercial property and industrial property, excluding properties referred to in section 427A.1, subsection 6, shall be assessed as a percentage of the actual value of each class of property. The percentage shall be determined for each class of property by the director of revenue for the state in accordance with the provisions of this section. For valuations established as of January 1, 1979, the percentage shall be the quotient of the dividend and divisor as defined in this section. The dividend for each class of property shall be the total actual valuation for each class of property established for 1978, plus six percent of the amount so determined. The divisor for each class of property shall be the valuation for each class of property established for 1978, as reported by the assessors on the abstracts of assessment for 1978, plus the amount of value added to the total actual value by the revaluation of existing properties in 1979 as equalized by the director of revenue pursuant to section 441.49. For valuations established as of January 1, 1979, property valued by the department of revenue pursuant to chapters 428, 433, 436, 437, and 438 shall be considered as one class of property and shall be assessed as a percentage of its actual value. The percentage shall be determined by the director of revenue in accordance with the provisions of this section. For valuations established as of January 1, 1979, the percentage shall be the quotient of the dividend and divisor as defined in this section. The dividend shall be the total actual valuation established for 1978 by the department of revenue, plus ten percent of the amount

so determined. The divisor for property valued by the department of revenue pursuant to chapters 428, 433, 436, 437, and 438 shall be the valuation established for 1978, plus the amount of value added to the total actual value by the revaluation of the property by the department of revenue as of January 1, 1979. For valuations established as of January 1, 1980, commercial property and industrial property, excluding properties referred to in section 427A.1, subsection 6, shall be assessed at a percentage of the actual value of each class of property. The percentage shall be determined for each class of property by the director of revenue for the state in accordance with the provisions of this section. For valuations established as of January 1, 1980, the percentage shall be the quotient of the dividend and divisor as defined in this section. The dividend for each class of property shall be the dividend as determined for each class of property for valuations established as of January 1, 1979, adjusted by the product obtained by multiplying the percentage determined for that year by the amount of any additions or deletions to actual value, excluding those resulting from the revaluation of existing properties, as reported by the assessors on the abstracts of assessment for 1979, plus four percent of the amount so determined. The divisor for each class of property shall be the total actual value of all such property in 1979, as equalized by the director of revenue pursuant to section 441.49, plus the amount of value added to the total actual value by the revaluation of existing properties in 1980. The director shall utilize information reported on the abstracts of assessment submitted pursuant to section 441.45 in determining such percentage. For valuations established as of January 1, 1980, property valued by the department of revenue pursuant to chapters 428, 433, 436, 437, and 438 shall be assessed at a percentage of its actual value. The percentage shall be determined by the director of revenue in accordance with the provisions of this section. For valuations established as of January 1, 1980, the percentage shall be the quotient of the dividend and divisor as defined in this section. The dividend shall be the total actual valuation established for 1979 by the department of revenue, plus eight percent of the amount so determined. The divisor for property valued by the department of revenue pursuant to chapters 428, 433, 436, 437, and 438 shall be the valuation established for 1979, plus the amount of value added to the total actual value by the revaluation of the property by the department of revenue as of January 1, 1980. For valuations established as of January 1, 1981, and each year thereafter, the percentage of actual value as equalized by the director of revenue and finance as provided in section 441.49 at which commercial property and industrial property, excluding properties referred to in section 427A.1, subsection 6, shall be assessed shall be calculated in accordance with the methods provided herein, except that any references to six percent in this subsection shall be four percent. For valuations established as of January 1, 1981, and each year thereafter, the percentage of actual value at which property valued by the department of revenue and finance pursuant to chapters 428, 433, 436, 437, and 438 shall be assessed shall be calculated in accordance with the methods provided herein, except that any references to ten percent in this subsection shall be eight percent. Beginning with valuations established as of January 1, 1979, and each year thereafter, property valued by the department of revenue and finance pursuant to chapter 434 shall also be assessed at a percentage of its actual value which percentage shall be equal to the percentage determined by the director of revenue and finance for commercial property, industrial property, or property valued by the department of revenue and finance pursuant to chapters 428, 433, 436, 437, and 438, whichever is lowest.

7. Beginning with valuations established as of January 1, 1978, the assessors shall report the aggregate taxable values and the number of dwellings located on agricultural land and the aggregate taxable value of all other structures on agricultural land. Beginning with valuations established as of January 1, 1981,

the agricultural dwellings located on agricultural land shall be valued at their market value as defined in this section and agricultural dwellings shall be valued as rural residential property and shall be assessed at the same percentage of actual value as is all other residential property.

8. For the purpose of computing the debt limitations for municipalities, political subdivisions and school districts, the term "actual value" means the "actual value" as determined by subsections 1 to 3 of this section without application of any percentage reduction and entered opposite each item, and as listed on the tax list as provided in section 443.2 as "actual value".

Whenever any board of review or other tribunal changes the assessed value of property, all applicable records of assessment shall be adjusted to reflect such change in both assessed value and actual value of such property.

9. a. Any normal and necessary repairs to a building, not amounting to structural replacements or modification, shall not increase the taxable value of the building. This paragraph applies only to repairs of two thousand five hundred dollars or less per building per year.

b. Notwithstanding paragraph "a" of this subsection, any construction or installation of gas production systems using waste or manure to produce gas completed on property classified as agricultural, residential, commercial, or industrial property shall not increase the actual, assessed and taxable values of the property for assessment years beginning on January 1, 1979 and ending on or before December 31, 1985. In addition, notwithstanding paragraph "a" of this subsection, any construction or installation of a solar energy system on property so classified shall not increase the actual, assessed and taxable values of the property for five full assessment years.

c. As used in this subsection "solar energy system" means either of the following:

(1) A system of equipment capable of collecting and converting incident solar radiation or wind energy into thermal, mechanical or electrical energy and transforming these forms of energy by a separate apparatus to storage or to a point of use which is constructed or installed after January 1, 1978.

(2) A system that uses the basic design of the building to maximize solar heat gain during the cold season and to minimize solar heat gain in the hot season and that uses natural means to collect, store and distribute solar energy which is constructed or installed after January 1, 1981.

In assessing and valuing the property for tax purposes, the assessor shall disregard any market value added by a solar energy system to a building. The director of revenue and finance shall adopt rules, after consultation with the department of natural resources, specifying the types of equipment and structural components to be included under the guidelines provided in this subsection.

10. Not later than November 1, 1979 and November 1 of each subsequent year, the director shall certify to the county auditor of each county the percentages of actual value at which residential property, agricultural property, commercial property, industrial property, and property valued by the department of revenue and finance pursuant to chapters 428, 433, 434, 436, 437, and 438 in each assessing jurisdiction in the county shall be assessed for taxation. The county auditor shall proceed to determine the assessed values of agricultural property, residential property, commercial property, industrial property, and property valued by the department of revenue and finance pursuant to chapters 428, 433, 434, 436, 437, and 438 by applying such percentages to the current actual value of such property, as reported to the county auditor by the assessor, and the assessed values so determined shall be the taxable values of such properties upon which the levy shall be made.

11. The percentage of actual value computed by the director for agricultural property, residential property, commercial property, industrial property and

property valued by the department of revenue and finance pursuant to chapters 428, 433, 434, 436, 437, and 438 and used to determine assessed values of those classes of property does not constitute a rule as defined in section 17A.2, subsection 7.

**441.24 Refusal to furnish statement.**

1. If a person refuses to furnish the verified statements required in connection with the assessment of property by the assessor, or to list the corporation's or person's property, the director of revenue and finance, or assessor, as the case may be, shall proceed to list and assess the property according to the best information obtainable, and shall add to the taxable valuation one hundred percent thereof, which valuation and penalty shall be separately shown, and shall constitute the assessment; and if the valuation of the property is changed by a board of review, or on appeal from a board of review, a like penalty shall be added to the valuation thus fixed.

2. However, all or part of the penalty imposed under this section may be waived by the board of review upon application to the board by the assessor or the property owner. The waiver or reduction in the penalty shall be allowed only on the valuation of real property against which the penalty has been imposed.

The assessment rolls shall be in a form that will permit entering, separately, the names of all persons assessed, and shall also contain a notice in substantially the following form:

If you are not satisfied that the foregoing assessment is correct, you may file a protest against such assessment with the board of review on or after April 16, to and including May 5, of the year of the assessment, such protest to be confined to the grounds specified in section 441.37.

The notice in 1981 and each odd-numbered year thereafter shall contain a statement that the assessments are subject to equalization pursuant to an order issued by the director of revenue and finance, that the county auditor shall give notice on or before October 15 by publication in an official newspaper of general circulation to any class of property affected by the equalization order, and that the board of review shall be in session from October 15 to November 15 to hear protests of affected property owners or taxpayers whose valuations have been adjusted by the equalization order.

The assessment rolls shall be used in listing the property and showing the values affixed to the property of all persons assessed. The rolls shall be made in duplicate. The duplicate roll shall be signed by the assessor, detached from the original and delivered to the person assessed if there has been an increase or decrease in the valuation of the property. If there has been no change in the evaluation, the information on the roll may be printed on computer stock paper and preserved as required by this chapter. If the person assessed requests in writing a copy of the roll, the copy shall be provided to the person. The pages of the assessor's assessment book shall contain columns ruled and headed for the

information required by this chapter and that which the director of revenue and finance deems essential in the equalization work of the director. The assessor shall return all assessment rolls and schedules to the county auditor, along with the completed assessment book, as provided in this chapter, and the county auditor shall carefully keep and preserve the rolls, schedules and book for a period of five years from the time of its filing in the county auditor's office.

Beginning with valuations for January 1, 1977 and each succeeding year, for each parcel of property entered in the assessment book, the assessor shall list the classification of the property.

The board of review shall have the power:

1. To equalize assessments by raising or lowering the individual assessments of real property, including new buildings, made by the assessor.
2. To add to the assessment rolls any taxable property which has been omitted by the assessor.
3. To add to the assessment rolls for taxation property which the board believes has been erroneously exempted from taxation. Revocation of a property tax exemption shall commence with the assessment for the current assessment year, and shall not be applied to prior assessment years.

In any year after the year in which an assessment has been made of all of the real estate in any taxing district, it shall be the duty of the board of review to meet as provided in section 441.33, and where it finds the same has changed in value, to revalue and reassess any part or all of the real estate contained in such taxing district, and in such case, it shall determine the actual value as of January 1 of the year of the revaluation and reassessment and compute the taxable value thereof, and any aggrieved taxpayer may petition for a revaluation of the taxpayer's property, but no reduction or increase shall be made for prior years. If the assessment of any such property is raised, or any property is added to the tax list by the board, the clerk shall give notice in the manner provided in section 441.36, provided, however, that if the assessment of all property in any taxing district is raised the board may instruct the clerk to give immediate notice by one publication in one of the official newspapers located in the taxing district, and such published notice shall take the place of the mailed notice provided for in section 441.36, but all other provisions of said section shall apply. The decision of the board as to the foregoing matters shall be subject to appeal to the district court within the same time and in the same manner as provided in section 441.38.

2. The aggregate taxable values of real estate by class in each township and city in the county, returned as corrected by the board of review.

## CHAPTER 442

### SCHOOL FOUNDATION PROGRAM

Chapter is repealed June 30, 1991; 87 Acts, ch 224, §81

#### 442.2 Foundation property tax.

1. Each school district shall cause to be levied each year, for the school general fund, a foundation property tax of five dollars and forty cents per thousand dollars of assessed valuation on all taxable property in the district. For the purpose of this chapter, a school district is defined as a school corporation organized under chapter 274.

However, commencing with the budget year beginning July 1, 1988, a reorganized school district shall cause a foundation property tax of four dollars and forty cents per thousand dollars of assessed valuation to be levied on all taxable property which, in the year preceding a reorganization, was within a school district affected by the reorganization as defined in section 275.1, or in the year preceding a dissolution was a part of a school district that dissolved if the dissolution proposal has been approved by the director of the department of education pursuant to section 275.55. In the year preceding the reorganization or dissolution, the school district affected by the reorganization or the school district that dissolved must have had a certified enrollment of fewer than six hundred in order for the four-dollar-and-forty-cent levy to apply. In succeeding school years, the foundation property tax levy on that portion shall be increased twenty cents per year until it reaches the rate of five dollars and forty cents per thousand dollars of assessed valuation.

For purposes of this section, a reorganized school district is one which absorbed at least thirty percent of the enrollment of the school district affected by a reorganization or dissolved during a dissolution and in which reorganization or dissolution was approved in an election pursuant to sections 275.18 and 275.20 or section 275.55 prior to July 1, 1989, and the reorganization or dissolution takes effect on or after July 1, 1988.

2. For purposes of section 442.1, the "amount per pupil of foundation property tax" and the "money raised by the foundation property tax" do not include the tax levied under subsection 1 on the property of a railway corporation or its trustee which corporation has been declared bankrupt or is in bankruptcy proceedings.

The reduced property tax rates of those reorganized districts that met the requirements of this section prior to July 1, 1989, shall continue to increase as provided in this section until they reach five dollars and forty cents.

#### 442.9A Supplemental aid.

Notwithstanding section 442.9, commencing with the budget year beginning July 1, 1987, if the rate of the additional property tax levy determined under section 442.9 for a budget year for a reorganized school district is higher than the rate of additional property tax levy determined under section 442.9 for the year previous to the reorganization for a school district that had a certified enrollment of less than six hundred and that was within the school districts affected by the reorganization as defined in section 275.1, the department of management shall

reduce the rate of the additional property tax levy in the portion of the reorganized district where the new rate is higher, to the rate that was levied in that portion of the district during the year preceding the reorganization, for the five-year period provided in this section. The department of management shall pay to each reorganized school district during each of the first five years of existence of the reorganized district as supplemental aid, moneys equal to the difference in revenues that would have been collected under the additional property tax levy calculated under section 442.9 and the rate determined under this section.

For the school year beginning July 1, 1987 and succeeding school years, there is appropriated from the general fund of the state to the department of management an amount sufficient to pay the supplemental aid to school districts under this section. Supplemental aid shall be paid in the manner provided in section 442.26.

For the purpose of the department of management's determination of the portion of a school district's budget that was property tax and the portion that was state aid, supplemental aid shall be considered property tax.

For purposes of this section, a reorganized school district is one in which reorganization was approved in an election pursuant to sections 275.18 and 275.20 prior to July 1, 1989, and will take effect on or after July 1, 1986.

At least one of the public members shall possess a master's or doctoral degree in which areas of school finance, economics, or statistics are an integral component, or shall have equivalent experience in an executive administrative or senior research position in the education or public administration field. The members appointed by the governor shall serve staggered three-year terms beginning and ending as provided in section 69.19 and are subject to senate confirmation as provided in section 2.32. The committee shall meet and hold hearings each year and shall continue in session until it has reviewed budgets of school districts, as provided in section 257.31.\* It may call in school board members and employees as necessary for the hearings. Legislators shall be notified of hearings concerning school districts in their constituencies.

The committee shall adopt its own rules of procedure under chapter 17A. The director of the department of education shall serve as chairperson, and the director of the department of management shall serve as secretary. The committee members representing the public are entitled to receive their necessary expenses while engaged in their official duties. Members shall be paid a per diem at the rate specified in section 7E.6. Per diem and expense payments shall be made from appropriations to the department of education.

The department of education shall employ a staff member to assist the school budget review committee.

#### **442.13 Duties of the committee.**

1. The school budget review committee may recommend the revision of any rules, regulations, directives, or forms relating to school district budgeting and accounting, confer with local school boards or their representatives and make

recommendations relating to any budgeting or accounting matters, and direct the director of the department of education or the director of the department of management to make studies and investigations of school costs in any school district.

2. The committee shall report to each session of the general assembly, which report shall include any recommended changes in laws relating to school districts, and shall specify the number of hearings held annually, the reasons for the committee's recommendations, information about the amounts of property tax levied by school districts for a cash reserve, and other information the committee deems advisable.

3. The committee shall review the proposed budget and certified budget of each school district, and may make recommendations. The committee may make decisions affecting budgets to the extent provided in this chapter. The costs and computations referred to in this section relate to the budget year unless otherwise expressly stated.

4. Subject to the minimum for the school years beginning July 1, 1974, and July 1, 1975, as provided in section 442.7, the committee may establish a modified allowable growth by reducing the allowable growth:

a. If the district cost per pupil exceeds the state cost per pupil.

b. If in the committee's judgment the district cost is unreasonably high in relation to the comparative cost factors of similar districts, even if the district cost per pupil does not exceed the state cost per pupil.

5. If a district has unusual circumstances, creating an unusual need for additional funds, including but not limited to the following circumstances, the committee may grant supplemental aid to the district from any funds appropriated to the department of education for the use of the school budget review committee for this purpose, and such aid shall be miscellaneous income and shall not be included in district cost; or may establish a modified allowable growth for the district by increasing its allowable growth; or both:

a. Any unusual increase or decrease in enrollment.

b. Unusual natural disasters.

c. Unusual transportation problems and for which the per pupil transportation costs are substantially higher than the state average per pupil transportation costs due to sparsity of the population, topographical factors, and other obstacles which hinder the efficient transportation of pupils.

d. Unusual initial staffing problems.

e. The closing of a nonpublic school, wholly or in part.

f. Substantial reduction in miscellaneous income due to circumstances beyond the control of the district.

g. Unusual necessity for additional funds to permit continuance of a course or program which provides substantial benefit to pupils.

h. Unusual need for a new course or program which will provide substantial benefit to pupils, if the district establishes such need and the amount of necessary increased cost.

i. Unusual need for additional funds for special education or compensatory education programs.

j. Year-round or substantially year-round attendance programs which apply toward graduation requirements, including but not limited to trimester or four-quarter programs. Enrollment in such programs shall be adjusted to reflect equivalency to normal school year attendance.

k. Severe hardship due to the exclusion of miscellaneous income from computations under this chapter. For the school year beginning July 1, 1973, the committee shall increase the district's allowable growth to the extent necessary to prevent such hardship.

l. Transportation equipment needs which become necessary because of the furnishing of transportation to nonpublic school pupils under chapter 285.

m. Enrollment decrease caused by the availability of transportation to nonpublic school pupils in a district.

n. Costs of special education programs and services for children requiring special education who are living in a state-supported institution, charitable institution, or licensed boarding home which does not maintain a school and the child has not been counted in the weighted enrollment under section 281.9.

a. Any unique problems of districts to include minority problems, vandalism, civil disobedience and other costs incurred by school districts.

6. If a nonpublic school closes wholly or in part, the committee may authorize an increase in the district general fund tax levy, but only to the extent necessary to cover the cost of absorbing the former nonpublic school pupils into the public school system. The school board shall establish the amount of necessary increased cost to the satisfaction of the school budget review committee before an increase in tax levy is authorized.

7. The committee may authorize a district to spend a reasonable and specified amount from its unexpended cash balance for either of the following purposes:

a. Furnishing, equipping, and contributing to the construction of a new building or structure for which the voters of the district have approved a bond issue as provided by law or a tax as provided in chapter 278 and for major building repairs as defined in section 297.5.

b. The costs associated with the demolition of an unused school building, or the conversion of an unused school building for community use, in a school district involved in a dissolution or reorganization under chapter 275 which are incurred within three years of the dissolution or reorganization.

No other expenditure, including but not limited to expenditures for salaries or recurring costs, shall be authorized under this subsection. Expenditures authorized under this subsection shall not be included in allowable growth or district cost, and the portion of the unexpended cash balance which is authorized to be spent shall be regarded as if it were miscellaneous income. Any part of the amount not actually spent for the authorized purpose shall revert to its former status as part of the unexpended cash balance.

8. The committee may approve or modify the initial base year district cost of any district which changes accounting procedures.

9. When the committee makes a decision under subsections 3 to 8, it shall make all necessary changes in the district cost, budget, and tax levy. It shall give written notice of its decision, including all such changes, to the school board through the director of the department of management.

10. All decisions by the committee under this chapter shall be made in accordance with reasonable and uniform policies which shall be consistent with this chapter. All such policies of general application shall be stated in rules adopted in accordance with chapter 17A. The committee shall take into account the intent of this chapter to equalize educational opportunity, to provide a good education for all the children of Iowa, to provide property tax relief, to decrease the percentage of school costs paid from property taxes, and to provide reasonable control of school costs. The committee shall also take into account the amount of funds available.

11. Failure by any school district to provide information or appear before the committee as requested for the accomplishment of review or hearing is justification for the committee to instruct the director of the department of management to withhold any state aid to that district until the committee's inquiries are satisfied completely.

12. The committee shall review the recommendations of the director of the department of education relating to the special education weighting plan, and

shall establish a weighting plan for each school year after the school year commencing July 1, 1975, and report the plan to the director of the department of education.

13. The committee may recommend that two or more school districts jointly employ and share the services of any school personnel, or acquire and share the use of classrooms, laboratories, equipment, and facilities as specified in section 280.15.

14. As soon as possible following June 30 of the base year, the school budget review committee shall determine for each school district the balance of funds, whether positive or negative, raised for special education instruction programs under the special education weighting plan established in section 281.9. The committee shall certify the balance of funds for each school district to the director of the department of management.

In determining the balance of funds of a school district under this subsection, the committee shall subtract the amount of any reduction in state aid that occurred as a result of a reduction in allotments made by the governor under section 8.31.

a. If the amount certified for a school district to the director of the department of management under this subsection for the base year is positive, the director of the department of management shall subtract the amount of the positive balance from the amount of state aid remaining to be paid to the district during the budget year. If the positive amount exceeds the amount of state aid that remains to be paid to the district, the school district shall pay the remainder on a quarterly basis prior to June 30 of the budget year to the director of the department of management from other funds received by the district. The director of the department of management shall determine the amount of the positive balance that would have been local property tax revenues and shall increase the district's total state school aids available under this chapter for the next following budget year by the amount so determined and shall reduce the district's tax levy computed under section 442.9 for the next following budget year by the amount necessary to compensate for the increased state aid.

b. If the amount certified for a school district to the director of the department of management under this subsection for the base year is negative, the director of the department of management shall determine the amount of the deficit that would have been state aid and the amount that would have been property taxes for each eligible school district.

There is appropriated from the general fund of the state to the school budget review committee an amount equal to the state aid portion of five percent of the receipts for special education instruction programs in each district that has a positive balance determined under paragraph "a" for the base year, or the state aid portion of the positive balance determined under paragraph "a" for the base year, whichever is less, totaled on a statewide basis, to be used for supplemental aid payments to school districts. Except as otherwise provided in this paragraph, supplemental aid paid to a district is equal to the state aid portion of the district's deficit balance. The school budget review committee shall direct the director of the department of management to make the payments to school districts under this paragraph.

A school district is eligible to receive supplemental aid payments during the budget year if the school district certifies to the school budget review committee that for the year following the budget year it will request the school budget review committee to instruct the director of the department of management to increase the district's allowable growth and will fund the allowable growth increase either by using moneys from its unexpended cash balance to reduce the district's property tax levy or by using cash reserve moneys to equal the amount of the deficit that would have been property taxes and any part of the state aid portion

of the deficit not received as supplemental aid. The director of the department of management shall make the necessary adjustments to the school district's budget to provide the additional allowable growth and shall make the supplemental aid payments.

If the amount appropriated under this lettered paragraph is insufficient to make the supplemental aid payments, the director of the department of management shall prorate the payments on the basis of the amount appropriated.

15. Annually the school budget review committee shall review the amount of property tax levied by each school district for a cash reserve authorized in section 298.10. If in the committee's judgment, the amount of a district's cash reserve levy is unreasonably high, the committee shall instruct the director of the department of management to reduce that district's tax levy computed under section 442.9 for the following budget year by the amount the cash reserve levy is deemed excessive. A reduction in a district's property tax levy for a budget year under this subsection does not affect the district's authorized budget.

16. The committee shall perform the duties assigned to it under chapter 286A.

Subsection 14, unnumbered paragraph 2 amended

#### **442.15 Computation of enrichment amount.**

If a majority of those voting in an election approves raising the additional enrichment amount under section 442.14 and this section, the board shall certify to the department of management that the required procedures have been carried out, and the department of management shall establish the amount of additional enrichment property tax to be levied and the amount of school district income surtax to be imposed for each school year for which the additional enrichment amount is authorized. The department of management shall determine these amounts based upon the most recent figures available for the district's valuation of taxable property, individual state income tax paid, and budget enrollment in the district, and shall certify to the district's county auditor the amount of enrichment property tax, and to the director of revenue and finance the amount of school district income surtax to be imposed.

The school district income surtax is imposed on the state individual income tax for the calendar year during which the school's budget year begins, or for a taxpayer's fiscal year ending during the second half of that calendar year or the first half of the succeeding calendar year, and is imposed on all individuals residing in the school district on the last day of the applicable tax year. As used in this section, "*state individual income tax*" means the tax computed under section 422.5, less the deductions allowed in sections 422.10 and 422.12.

An additional enrichment amount authorized under section 442.14 or a lesser amount than the amount so authorized may be continued as provided in this section for a period of five school years. If the amount authorized is less than the maximum of fifteen percent of the state cost per pupil and the board wishes to increase the amount, it shall re-establish its authority to do so in the manner provided in section 442.14. #### **442.39 Supplementary weighting plan.**

In order to provide additional funds for school districts which send their resident pupils to another school district or to an area school for classes, which jointly employ and share the services of teachers under section 280.15, which use the services of a teacher employed by another school district, or which jointly employ

and share the services of school superintendents under section 280.15 or 273.7A, a supplementary weighting plan for determining enrollment is adopted as follows:

1. Pupils in a regular curriculum attending all their classes in the district in which they reside and taught by teachers employed by that district, and having administrators employed by that district, are assigned a weighting of one.

2. Pupils attending classes in another school district or an area school, attending classes taught by a teacher who is employed jointly under section 280.15, or attending classes taught by a teacher who is employed by another school district, are assigned a weighting of one plus five-tenths, times the percent of the pupil's school day during which the pupil attends classes in another district or area school, attends classes taught by a teacher who is jointly employed under section 280.15, or attends classes taught by a teacher who is employed by another school district if the school budget review committee certifies to the department of management that the shared classes or teachers would otherwise not be implemented without the assignment of additional weighting. However, in lieu of the additional weighting of five-tenths, the school budget review committee shall assign an additional weighting of one-tenth times the percent of the pupil's school day in which a pupil attends classes in another district or an area school, attends classes taught by a teacher who is employed jointly under section 280.15, or attends classes taught by a teacher who is employed by another district, in districts that have a substantial number of students in any of grades seven through twelve sharing more than one class or teacher under a whole grade sharing agreement. The additional weighting of one-tenth shall be assigned by the school budget review committee to a district for a maximum of five years. If the school district reorganizes during that five-year period, the assignment of the additional weighting shall be transferred to the reorganized district until the expiration of the five-year period.

3. A pupil eligible for the weighting plan provided in section 281.9 is not eligible for the weighting plan provided in this section.

4. Pupils enrolled in a school district which has approved a contract on or after October 1, 1989, for which the superintendent is employed jointly under section 280.15 or 273.7A, are assigned a weighting of one plus twenty-five thousandths for each superintendent who is jointly employed times the percent of the superintendent's time in which the superintendent is employed in the school district. However, the total additional weighting assigned under this subsection for a budget year for a school district is seven and one-half and the total additional weighting that may be added cumulatively to the enrollment of school districts sharing a superintendent is twelve and one-half.

Effective July 1, 1988, the additional weighting assigned under this subsection shall be assigned to a district for a maximum of five years. Additional weighting assigned under this subsection for contracts approved by a board of directors between July 1, 1988, and September 30, 1989, shall be continued under this subsection for a maximum of five years.

If the school district reorganizes during the five-year period for which weighting is assigned, the assignment of the additional weighting shall be transferred to the reorganized district until the expiration of the five-year period.

For the purposes of this section, "administrators" includes the following:

a. Executive administrators, which includes the superintendent and such assistants as deputy, associate, and assistant superintendents who perform activities in the general direction and management of the affairs of the local school districts.

b. School administrators, which includes assistant principals, and other assistants in general supervision of the operations of the school. School administrators does not include principals.

c. Business administrators, which includes personnel associated with activities concerned with purchasing, paying for, transporting, exchanging, and maintaining goods and services for the school district.

Effective July 1, 1988, the additional weighting assigned under this subsection may be assigned to a district for a maximum of five years and, thereafter, the additional weighting shall not be assigned to the same district under this section, but may be assigned under section 442.39A.

5. For the school year beginning July 1, 1983 and succeeding school years, a school district receiving additional funds under subsection 2 for its pupils at the ninth grade level and above that are enrolled in sequential mathematics courses at the advanced algebra level and above; chemistry, advanced chemistry, physics or advanced physics courses; or foreign language courses at the second year level and above shall have an additional weighting of one pupil added to its total.

Unnumbered paragraph 1 and subsections 2 and 4 amended

#### **442.39A Supplementary weighting and school reorganization.**

In determining weighted enrollment under section 442.4, if the board of directors of a school district has approved a contract for sharing under section 442.39, subsection 2 or 4, and the school district has approved a reorganization prior to July 1, 1989, the reorganized school district shall include, for a period of five years following the effective date of the reorganization, additional pupils added by the application of the supplementary weighting plan, equal to the pupils added by the application of the supplementary weighting plan in the year preceding the reorganization. However, the weighting shall be reduced by the supplementary weighting added for a pupil whose residency is not within the reorganized district. For purposes of this section, a reorganized district is one in which the reorganization was approved in an election pursuant to sections 275.18 and 275.20 and takes effect on or after July 1, 1986.

### **TAX LIST**

#### **443.2 Tax list.**

Before the first day of July in each year, the county auditor shall transcribe the assessments of the townships and cities into a book or record, to be known as the tax list, properly ruled and headed, with separate columns, in which shall be entered the names of the taxpayers, descriptions of lands, number of acres and value, numbers of city lots and value, and each description of tax, with a column for polls and one for payments, and shall complete it by entering the amount due on each installment, separately, and carrying out the total of both installments. The total of all columns of each page of each book or other record shall balance with the tax totals. After computing the amount of tax due and payable on each property, the county auditor shall round the total amount of tax due and payable on the property to the nearest even whole dollar.

The county auditor shall list the aggregate actual value and the aggregate taxable value of all taxable property within the county and each political subdivision on the tax list in order that the actual value of the taxable property within the county or a political subdivision may be ascertained and shown by the tax list for the purpose of computing the debt-incurring capacity of the county or political subdivision. As used in this section, "actual value" is the value

determined under section 441.21, subsections 1 to 3, prior to the reduction to a percentage of actual value as otherwise provided in section 441.21.

### COLLECTION OF TAXES

#### 445.36 Payment—installments.

1. For fiscal years after July 1, 1975, the property taxes which become delinquent during the fiscal year shall be for the previous fiscal year.

2. No demand of taxes shall be necessary, but it shall be the duty of every person subject to taxation to attend at the office of the treasurer, at some time between the first Monday in August and September 1 following, and pay the person's taxes in full, or one-half thereof before September 1 succeeding the levy, and the remaining half before March 1 following. However, if the first installment of a person's taxes are delinquent and not paid as of February 15, the treasurer shall mail a notice to the taxpayer of the delinquency and the due date for the second installment. Failure to receive a mailed notice is not a defense to the payment of the tax and any interest and penalty due.

Subsection 2 amended

#### 445.39 Interest as penalty.

If the first installment of taxes is not paid by the delinquent date specified in section 445.37, the installment shall become due and draw interest, as a penalty, of one and one-half percent per month until paid, from the delinquent date following the levy; and if the last half is not paid by April 1 following the levy, the same interest shall be charged from the date the last half became delinquent. However, after April 1 in a fiscal year when late certification of the tax list results in a penalty date later than October 1 for the first installment, penalties on delinquent first installments shall accrue as if certification were made on the previous June 30. The interest penalty imposed under this section shall be computed to the nearest whole dollar and the amount of interest shall not be less than one dollar.

2. Publication of the time and place of the annual tax sale shall be made once by the treasurer in an official newspaper in the county at least one week, but not more than three weeks, before the day of sale. The publication shall contain a description of the real estate to be sold that is clear, concise, and sufficient to distinguish the real estate to be sold from all other parcels. All items offered for sale pursuant to section 446.18 may be indicated by an "s" or by an asterisk. The publication shall also contain the name of the person in whose name the real estate to be sold is taxed, the amount of delinquent taxes, both regular and special, for which the real estate is liable for each year, the amount of the penalty, interest, and the actual cost of publication in an official newspaper, all to be incorporated as a single sum. The publication shall contain a statement that, after the sale, if the real estate is not redeemed within the period provided in chapter 447, the right to redeem expires and a deed may be issued.

3. In addition to the notice required by subsection 1 and the publication required by subsection 2, the treasurer shall send, at least one week, but not more than three weeks, before the day of sale, a notice of sale in the form prescribed by subsection 1, by regular first class mail, to any mortgagee having a lien upon the real estate, a vendor of the real estate under a recorded contract of sale, a lessor who has a recorded lease or memorandum of a recorded lease, and to any other person who has an interest of record in the real estate, if the mortgagee, vendor, lessor, or other person having an interest of record has done both of the following:

b. Has filed the request form with the treasurer at least one month prior to the date of sale, together with a fee of twenty-five dollars.

The request for notice is valid for a period of five years from the date of filing with the treasurer. The request for notice may be renewed for additional periods of five years by the procedure specified in this subsection.

4. Notice required by subsections 1 and 3 shall be deemed made and completed when the notice is enclosed in a sealed envelope with the proper postage on the envelope, addressed to the person entitled to receive it at the person's last known mailing address, and is deposited in a mail receptacle provided by the United States postal service.

When the notice is given by a county as a holder of a certificate of purchase the notice shall be signed by the county treasurer or the county attorney,

and when given by a city, it shall be signed by the city officer designated by resolution of the council. When the notice is given by the Iowa finance authority or a city or county agency holding the property as part of an Iowa homesteading project, it shall be signed on behalf of the agency or authority by one of its officers, as authorized in rules of the agency or authority.

Service of the notice shall also be made by mail on any mortgagee having a lien upon the real estate, a vendor of the real estate under a recorded contract of sale, a lessor who has a recorded lease or memorandum of a recorded lease, and any other person who has an interest of record, at the person's last known address, if the mortgagee, vendor, lessor, or other person has filed a request for notice, as prescribed in section 446.9, subsection 3, and on the state of Iowa in case of an old-age assistance lien by service upon the state department of human services. The right of redemption shall not expire until ninety days after service is complete. When the property is held by a city or county, a city or county agency, or the Iowa finance authority, for use in an Iowa homesteading project, whether or not the property is the subject of a conditional conveyance granted under the project, the affidavit shall be made by the treasurer of the county or the county attorney, a city officer designated by resolution of the council, or on behalf of the agency or authority, by one of its officers as authorized in rules of the agency or authority.

## CHAPTER 450

### INHERITANCE TAX

#### **450.22 Administration avoided—inheritance tax duties required.**

When the heirs or persons entitled to inherit the property of an estate subject to tax under this chapter desire to avoid the appointment of a personal representative as provided in section 450.21, and in all instances where real estate is involved and there are no regular probate proceedings, they or one of them shall file under oath the inventories required by section 633.361 and the required reports, perform all the duties required by this chapter of the personal representative, and file the inheritance tax return. However, this section does not apply and a return is not required even though real estate is part of the assets subject to tax under this chapter, if all of the assets are held in joint tenancy with right of survivorship between husband and wife alone. When this section applies, proceedings for the collection of the tax when a personal representative is not

appointed, shall conform as nearly as possible to proceedings under this chapter in other cases.

#### **450.37 Value for computing the tax.**

1. Unless the value has been determined under chapter 450B, the tax shall be computed based upon one of the following:

a. The fair market value of the property in the ordinary course of trade determined under subsection 2.

b. The alternate value of the property, if the personal representative so elects, that has been established for federal estate tax purposes under section 2032 of the Internal Revenue Code. The election shall be exercised on the return by the personal representative or other person signing the return, within the time prescribed by law for filing the return or before the expiration of any extension of time granted for filing the return.

2. Fair market value in the ordinary course of trade shall be established by agreement, including an agreement to accept the values as finally determined for federal estate tax purposes. The agreement shall be between the department of revenue and finance, the personal representative, and the persons who have an interest in the property.

a. If an agreement has not been reached on the fair market value of real property in the ordinary course of trade, the director of revenue and finance has thirty days after the return is filed to request an appraisal under section 450.27. If an appraisal request is not made within the thirty-day period, the value listed on the return is the agreed value of the real property.

b. If an agreement is not reached on the fair market value of personal property in the ordinary course of trade, the personal representative or any person interested in the personal property may appeal to the director of revenue and finance for a revision of the department of revenue and finance's determination of the value and after the appeal hearing may seek judicial review of the director's decision. The provisions of section 450.94, subsection 3, relating to appeal of a determination of the department and review of the director's decision apply to an appeal and review made under this subsection.

#### **450.94 Return—determination—appeal.**

1. "Taxpayer" as used in this section means a person liable for the payment of tax as stated in section 450.5.

2. The taxpayer shall file an inheritance tax return on forms to be prescribed by the director of revenue and finance. When an inheritance tax return is filed, the department shall examine it and determine the correct amount of tax. If the amount paid is less than the correct amount due, the department shall notify the taxpayer of the total amount due together with any penalty and interest which shall be a sum certain if paid on or before the last day of the month in which the notice is postmarked, or on or before the last day of the following month if the notice is postmarked after the twentieth day of a month and before the first day of the following month.

3. If the amount paid is greater than the correct tax, penalty, and interest due, the department shall refund the excess, with interest after sixty days from the date of payment at the rate in effect under section 421.7, under the rules prescribed by the director. However, the director shall not allow a claim for refund or credit that has not been filed with the department within three years after the tax payment upon which a refund or credit is claimed became due, or one year

after the tax payment was made, whichever time is later. A determination by the department of the amount of tax, penalty, and interest due, or the amount of refund for excess tax paid, is final unless the person aggrieved by the determination appeals to the director for a revision of the determination within thirty days from the postmark date of the notice of determination of tax, penalty, and interest due or refund owing. The director shall grant a hearing, and upon the hearing the director shall determine the correct tax, penalty and interest or refund due, and notify the appellant of the decision by mail. The decision of the director is final unless the appellant seeks judicial review of the director's decision under section 450.59 within sixty days after the postmark date of the notice of the director's decision.

4. Payments received must be credited first to the penalty and interest accrued and then to the tax due.

5. The amount of tax imposed under this chapter shall be assessed according to one of the following:

a. Within three years after the return is filed with respect to property reported on the final inheritance tax return.

b. At any time after the tax became due with respect to property not reported on the final inheritance tax return, but not later than three years after the omitted property is reported to the department on an amended return or on the final inheritance tax return if one was not previously filed.

In addition to the applicable periods of limitations for examination and determination specified in paragraphs "a" and "b", the department may make an examination and determination at any time within six months from the date of receipt by the department of written notice from the taxpayer of the final disposition of any matter between the taxpayer and the internal revenue service with respect to the federal estate, gift, or generation skipping transfer tax. In order to begin the running of the six months assessment period, the notice shall be in writing in form sufficient to inform the department of the final disposition of any matter with respect to the federal estate, gift, or generation skipping transfer tax, and a copy of the federal document showing the final disposition or final federal adjustments shall be attached to the notice.

6. Notwithstanding the periods of limitation for filing a claim for refund in subsection 3, with respect to estates of decedents dying on or after July 1, 1982, a qualified heir who has paid an additional inheritance tax under section 450B.3 by reason of the cessation of the qualified use due to cash rent of the special use property by the surviving spouse, shall have until November 10, 1989, to file a claim for refund of the additional inheritance tax paid.

7. Notwithstanding the periods of limitations for filing a claim for refund in subsection 3, estates of decedents dying on or after July 1, 1985, which have elected to treat qualified terminable interest property as passing to the surviving spouse in fee, shall have until November 10, 1990, to make the election allowed under section 6152(c)(3) of the Technical and Miscellaneous Revenue Act of 1988 for joint and survivor annuities.

In case of revaluation or correction of valuation of any of those items, either by supplemental or amended returns, or by the federal commissioner of internal revenue, or by an appellate tribunal by which the value is finally determined, the corrected values shall be considered as the values of those items for the purposes of this chapter.

#### RESOURCE ENHANCEMENT AND PROTECTION

#### **455A.15 Legislative findings.**

The general assembly finds that:

1. The citizens of Iowa have built and sustained their society on Iowa's air, soils, waters, and rich diversity of life. The well-being and future of Iowa depend on these natural resources.

2. Many human activities have endangered Iowa's natural resources. The state of Iowa has lost ninety-nine and nine-tenths percent of its prairies, ninety-eight percent of its wetlands, eighty percent of its woodlands, fifty percent of its topsoils, and more than one hundred species of wildlife since settlement in the early 1800's. There has been a significant deterioration in the quality of Iowa's surface waters and groundwaters.

3. The long-term effects of Iowa's natural resource losses are not completely known or understood, but detrimental effects are already apparent. Prevention of further loss is therefore imperative.

4. The air, waters, soils, and biota of Iowa are interdependent and form a complex ecosystem. Iowans have the right to inherit this ecosystem in a sustainable condition, without severe or irreparable damage caused by human activities.

#### **455A.16 State resource enhancement policy.**

It is the policy of the state of Iowa to protect its natural resource heritage of air, soils, waters, and wildlife for the benefit of present and future citizens with the establishment of a resource enhancement program. The program shall be a long-term integrated effort to wisely use and protect Iowa's natural resources through the acquisition and management of public lands; the upgrading of public park and preserve facilities; environmental education, monitoring, and research; and other environmentally sound means. The resource enhancement program shall strongly encourage Iowans to develop a conservation ethic, and to make necessary changes in our activities to develop and preserve a rich and diverse natural environment.

#### **455A.19 Allocation of fund proceeds.**

1. Upon receipt of any revenue, the director shall deposit the moneys in the Iowa resources enhancement and protection fund created pursuant to section 455A.18. The first three hundred fifty thousand dollars of the funds received for deposit in the fund annually shall be allocated to the conservation education board for the purposes specified in section 256.34. One percent of the revenue receipts shall be deducted and transferred to the administration fund provided for in section 107.17. All of the remaining receipts shall be allocated to the following accounts:

a. Twenty-eight percent shall be allocated to the open spaces account. At least ten percent of the allocations to the account shall be made available to match private funds for open space projects on the cost-share basis of not less than twenty-five percent private funds pursuant to the rules adopted by the natural resources commission. Five percent of the funds allocated to the open spaces account shall be used to fund the protected waters program. This account shall be used by the department to implement the statewide open space acquisition, protection, and development programs. The department shall give priority to acquisition and control of open spaces of statewide significance. The department shall also use these funds for developments on state property. The total cost of an open spaces project funded under this paragraph shall not exceed two million dollars unless a public hearing is held on the project in the area of the state affected by the project. Political subdivisions of the state shall be reimbursed for property tax dollars lost to open space acquisitions based on the reimbursement formula provided for in section 111E.4. There is appropriated from the open spaces account to the department the amount in that account, or so much thereof as is

necessary, to carry out the open spaces program as specified in this paragraph. An appropriation made under this paragraph shall continue in force for two fiscal years after the fiscal year in which the appropriation was made or until completion of the project. All unencumbered or unobligated funds remaining at the close of the fiscal year in which the project is completed or at the close of the final fiscal year, whichever date is earlier, shall revert to the open spaces account.

b. Twenty percent shall be allocated to the county conservation account.

(1) Thirty percent of the allocation to the county conservation account annually shall be allocated to each county equally.

(2) Thirty percent of the allocation to the county conservation account annually shall be allocated to each county on a per capita basis.

(3) Forty percent of the allocation to the county conservation account annually shall be held in an account in the state treasury for the natural resource commission to award to counties on a competitive grant basis by a project selection committee established in this subparagraph. Local matching funds are not required for grants awarded under this subparagraph. The project planning and review committee shall be composed of two staff members of the department and two county conservation board directors appointed by the director and a fifth member selected by a majority vote of the director's appointees. The natural resource commission, by rule, shall establish procedures for application, review, and selection of county projects submitted for funding. Upon recommendation of the project planning and review committee, the director shall award the grants.

(4) Funds allocated to the counties under subparagraphs (1), (2), and (3) may be used for land easements or acquisitions, capital improvements, stabilization and protection of resources, repair and upgrading of facilities, environmental education, and equipment. However, expenditures are not allowed for single or multi-purpose athletic fields, baseball or softball diamonds, tennis courts, golf courses, and other group or organized sport facilities. Funds may be used for county projects located within the boundaries of a city.

(5) Funds allocated pursuant to subparagraphs (2) and (3) shall only be allocated to counties dedicating property tax revenue at least equal to twenty-two cents per thousand dollars of the assessed value of taxable property in the county to county conservation purposes. State funds received under this paragraph shall not reduce or replace county tax revenues appropriated for county conservation purposes. The county treasurer shall submit documentation annually of the dedication of property tax revenue for county conservation purposes. The annual audit of the financial transactions and condition of a county shall certify compliance with requirements of this subparagraph. Funds not allocated to counties not qualifying for the allocations under subparagraph (2) as a result of this subparagraph shall be held in reserve for each county for two years. Counties qualifying within two years may receive the funds held in reserve. Funds not spent by a county within two years shall revert to the general pool of county funds for reallocation to other counties where needed.

(6) Each board of supervisors shall create a special resource enhancement account in the office of county treasurer and the county treasurer shall credit all resource enhancement funds received from the state in that account. Notwithstanding section 453.7, all interest earned on funds in the county resource enhancement account shall be credited to that account and used for the purposes authorized for that account.

(7) There is appropriated from the county conservation account to the department the amount in that account, or so much thereof as is necessary, to fund the provisions of this paragraph. An appropriation made under this paragraph shall continue in force for two fiscal years after the fiscal year in which the appropriation was made or until completion of the project for which the appropriation was made, whichever date is earlier. All unencumbered or unobligated funds remain-

ing at the close of the fiscal year in which a project funded pursuant to subparagraph (3) is completed or at the close of the third fiscal year, whichever date is earlier, shall revert to the county conservation account.

(8) Any funds received by a county under this paragraph may be used to match other state or federal funds, and multicounty or multiagency projects may be funded under this paragraph.

c. Twenty percent shall be allocated to the soil and water enhancement account. The moneys shall be used to carry out soil and water enhancement programs including, but not limited to, reforestation, woodland protection and enhancement, wildlife habitat preservation and enhancement, protection of highly erodible soils, and clean water programs. The division of soil conservation, by rule, shall establish procedures for eligibility, application, review, and selection of projects and practices to implement the requirements of this paragraph. There is appropriated from the soil and water enhancement account to the soil conservation division the amount in that account, or so much thereof as is necessary, to carry out the programs as specified in this paragraph. Remaining funds of the soil and water conservation account shall be allocated to the accounts of the water protection fund authorized in section 467F.4. Annually, fifty percent of the soil and water enhancement account funds, not to exceed one million dollars, shall be allocated to the water quality protection projects account. The balance of the funds shall be allocated to the water protection practices account. An appropriation made under this paragraph shall continue in force for two fiscal years after the fiscal year in which the appropriation was made or until completion of the project for which the appropriation was made, whichever date is earlier. All unencumbered or unobligated funds remaining at the close of the fiscal year in which the project is completed or at the close of the third fiscal year, whichever date is earlier, shall revert to the soil and water enhancement account.

d. Fifteen percent shall be allocated to a cities' parks and open space account. The moneys allocated in this paragraph may be used to fund competitive grants to cities to acquire, establish, and maintain natural parks, preserves, and open spaces. The grants may include expenditures for multipurpose trails, restroom facilities, shelter houses, and picnic facilities, but expenditures for single or multipurpose athletic fields, baseball or softball diamonds, tennis courts, golf courses, and other group or organized sport facilities requiring specialized equipment are excluded. The grants may be used for city projects located outside of a city's boundaries. The natural resource commission, by rule, shall establish procedures for application, review, and selection of city projects on a competitive basis. The rules shall provide for three categories of cities based on population within which the cities shall compete for grants. There is appropriated from the cities' parks and open space account to the department the amount in that account, or so much thereof as is necessary, to carry out the competitive grant program as provided in this paragraph.

e. Nine percent shall be allocated to the state land management account. The department shall use the moneys allocated to this account for maintenance and expansion of state lands and related facilities under its jurisdiction. The authority to expand state lands and facilities under this paragraph is limited to expansion of the state lands and facilities already owned by the state. There is appropriated from the state land management account to the department the moneys in that account, or so much thereof as is necessary, to implement a maintenance and expansion program for state lands and related facilities under the jurisdiction of the department.

f. Five percent shall be allocated to the historical resource grant and loan fund established pursuant to section 303.16. The department of cultural affairs shall use the moneys allocated to this fund to implement historical resource development programs as provided under section 303.16.

g. Three percent shall be allocated to the living roadway trust fund established under section 314.21 for the development and implementation of integrated roadside vegetation plans.

2. The moneys appropriated under this section shall remain in the appropriate account of the Iowa resources enhancement and protection fund until such time as the agency, board, commission, or overseer of the fund to which moneys are appropriated has made a request to the treasurer for use of moneys appropriated to it and the amount needed for that use. Notwithstanding section 8.33, moneys remaining of the appropriations made for a fiscal year from any of the accounts within the Iowa resources enhancement and protection fund on June 30 of that fiscal year, shall not revert to any fund but shall remain in that account to be used for the purposes for which they were appropriated and the moneys remaining in that account shall not be considered in making the allotments for the next fiscal year.

**455B.118 through 455B.130 Reserved.****455B.173 Duties.**

The commission shall:

1. Develop comprehensive plans and programs for the prevention, control and abatement of water pollution.

2. Establish, modify, or repeal water quality standards, pretreatment standards and effluent standards. The effluent standards may provide for maintaining the existing quality of the water of the state where the quality thereof exceeds the requirements of the water quality standards.

If the federal environmental protection agency has promulgated an effluent standard or pretreatment standard pursuant to section 301, 306 or 307 of the federal Water Pollution Control Act, a pretreatment or effluent standard adopted pursuant to this section shall not be more stringent than the federal effluent or pretreatment standard for such source. This section may not preclude the establishment of a more restrictive effluent limitation in the permit for a particular point source if the more restrictive effluent limitation is necessary to meet water quality standards, the establishment of an effluent standard for a source or class of sources for which the federal environmental protection agency has not promulgated standards pursuant to section 301, 306 or 307 of the federal Water Pollution Control Act. Except as required by federal law or regulation, the commission shall not adopt an effluent standard more stringent with respect to any pollutant than is necessary to reduce the concentration of that pollutant in the effluent to the level due to natural causes, including the mineral and chemical characteristics of the land, existing in the water of the state to which the effluent is discharged. Notwithstanding any other provision of this part of this division, any new source, the construction of which was commenced after October 18, 1972, and which was constructed as to meet all applicable standards of performance for the new source or any more stringent effluent limitation required to meet water quality standards, shall not be subject to any more stringent effluent limitations during a ten-year period beginning on the date of completion of construction or during the period of depreciation or amortization of the pollution control equipment for the facility for the purposes of section 167 and 169 or both sections of the Internal Revenue Code, whichever period ends first.

3. Establish, modify or repeal rules relating to the location, construction, operation, and maintenance of disposal systems and public water supply systems and specifying the conditions under which the director shall issue, revoke, suspend, modify or deny permits for the operation, installation, construction, addition to or modification of any disposal system or public water supply system, or for the discharge of any pollutant or for the disposal of water wastes resulting

from poultry and livestock operations. The rules specifying the conditions under which the director shall issue permits for the construction of an electric power generating facility subject to chapter 476A shall provide for issuing a conditional permit upon the submission of engineering descriptions, flow diagrams and schematics that qualitatively and quantitatively identify effluent streams and alternative disposal systems that will provide compliance with effluent standards or limitations.

No rules shall be adopted which regulate the hiring or firing of operators of disposal systems or public water supply systems except rules which regulate the certification of operators as to their technical competency.

A publicly owned treatment works whose discharge meets the final effluent limitations which were contained in its discharge permit on the date that construction of the publicly owned treatment works was approved by the department shall not be required to meet more stringent effluent limitations for a period of ten years from the date the construction was completed and accepted but not longer than twelve years from the date that construction was approved by the department.

4. Co-operate with other state or interstate water pollution control agencies in establishing standards, objectives, or criteria for the quality of interstate waters originating or flowing through this state.

5. Establish, modify or repeal rules relating to drinking water standards for public water supply systems. Such standards shall specify maximum contaminant levels or treatment techniques necessary to protect the public health and welfare. The drinking water standards must assure compliance with federal drinking water standards adopted pursuant to the federal Safe Drinking Water Act.

6. *a.* Adopt rules relating to inspection, monitoring, recordkeeping, and reporting requirements for the owner or operator of any public water supply or any disposal system or of any source which is an industrial user of a publicly or privately owned disposal system.

*b.* Adopt rules which require each public water system regulated under chapter 455B to test the source water of that supply for the presence of synthetic organic chemicals and pesticides every two years. The rules shall enumerate the synthetic organic chemicals and pesticides, but not more than ten of each, for which the samples are to be tested; shall specify the approved analytical methods for conducting the analysis of water samples; and shall require the reporting of the analytical test results to the department. Priority for testing in the first year shall be those public water supplies for which none of the specified contaminants have been analyzed within the past five years. All of the laboratory analysis and data management shall be conducted by the center for health effects of environmental contamination. Sample collection shall be conducted using a standard sampling protocol by personnel within the department and the center for health effects of environmental contamination in conjunction with other ongoing field activities. Samples from private wells and samples from privately owned public water supplies shall be allowed to undergo the same analysis. The cost for the analysis provided for samples from private wells and privately owned public water supplies shall not exceed one hundred ninety-five dollars for the first year of testing. The department shall submit a report to the general assembly, by September 1 of each year, of the findings of the tests and the conclusions which may be drawn from the tests.

7. Adopt a statewide plan for the provision of safe drinking water under emergency circumstances. All public agencies, as defined in chapter 28E, shall co-operate in the development and implementation of the plan. The plan shall detail the manner in which the various state and local agencies shall participate in the response to an emergency. The department may enter into any agreement, subject to approval of the commission, with any state agency or unit of local

government or with the federal government which may be necessary to establish the role of such agencies in regard to the plan. This plan shall be co-ordinated with disaster emergency plans.

8. Formulate and adopt specific and detailed statewide standards pursuant to chapter 17A for review of plans and specifications and the construction of sewer systems and water supply distribution systems and extensions to such systems not later than October 1, 1977. The standards shall be based on criteria contained in the "Recommended Standards for Sewage Works" and "Recommended Standards for Water Works" (Ten States Standards) as adopted by the Great Lakes-Upper Mississippi River board of state sanitary engineers, design manuals published by the department, applicable federal guidelines and standards, standard textbooks, current technical literature and applicable safety standards. The material standards for polyvinyl chloride pipe shall not exceed the specifications for polyvinyl chloride pipe in designations D-1784-69, D-2241-73, D-2564-76, D-2672-76, D-3036-73 and D-3139-73 of the American society of testing and material. The rules adopted which directly pertain to the construction of sewer systems and water supply distribution systems and the review of plans and specifications for such construction shall be known respectively as the Iowa Standards for Sewer Systems and the Iowa Standards for Water Supply Distribution Systems and shall be applicable in each governmental subdivision of the state. Exceptions shall be made to the standards so formulated only upon special request to and receipt of permission from the department. The department shall publish the standards and make copies of such standards available to governmental subdivisions and to the public.

9. Adopt, modify or repeal rules relating to the construction and reconstruction of water wells, the proper abandonment of wells, and the registration of water well contractors. The rules shall include those necessary to protect the public health and welfare, and to protect the waters of the state. The rules may include, but are not limited to, establishing fees for registration of water well contractors, requiring the submission of well driller's logs, formation samples or well cuttings, water samples, information on test pumping and requiring inspections. Fees shall be based upon the reasonable cost of conducting the water well contractor registration program.

The department shall develop a prioritized closure program and a time frame for the completion of the program and shall adopt rules to implement the program. The schedule established by the department shall provide that to the fullest extent technically and economically feasible, all wells shall be properly plugged not later than July 1, 2000.

3. Wells shall be plugged as follows:

a. Class 1 wells shall be plugged by placing filling materials up to one foot below the static water level. At least one foot of sealing materials shall be placed on top of the filling materials up to the static water level, as a seal. 6. A person who fails to properly plug a well on property the person owns, in accordance with the program established by the department, or as reported by a designated agent or a registered well driller, is subject to a civil penalty of up to one hundred dollars per every five calendar days that the well remains unplugged or improperly plugged. However, the total civil penalty shall not exceed one thousand dollars. The penalty shall only be assessed after the one thousand dollar limit is reached. If the owner plugs the well in compliance with this section, including applicable departmental rules, before the date that the one thousand dollar limit is reached, the civil penalty shall not be assessed. The penalty shall not be imposed upon a person for improperly plugging a well until the department notifies the person of the improper plugging. The moneys collected shall be

#### **455B.302 Duty of cities and counties.**

Every city and county of this state shall provide for the establishment and operation of a comprehensive solid waste reduction program consistent with the waste management hierarchy under section 455B.301A, and a sanitary disposal project for final disposal of solid waste by its residents. Comprehensive programs and sanitary disposal projects may be established either separately or through co-operative efforts for the joint use of the participating public agencies as provided by law.

Cities and counties may execute with public and private agencies contracts, leases, or other necessary instruments, purchase land and do all things necessary not prohibited by law for the implementation of waste management programs, collection of solid waste, establishment and operation of sanitary disposal projects, and general administration of the same. Any agreement executed with a private agency for the operation of a sanitary disposal project shall provide for the posting of a sufficient surety bond by the private agency conditioned upon the faithful performance of the agreement. A city or county may at any time during regular working hours enter upon the premises of a sanitary disposal project,

including the premises of a sanitary landfill, in order to inspect the premises and monitor the operations and general administration of the project to ensure compliance with the agreement and with state and federal laws. This includes the right of the city or county to enter upon the premises of a former sanitary disposal project which has been closed, including the premises of a former sanitary landfill, owned by a private agency, for the purpose of providing required postclosure care.

#### **455B.304 Rules established.**

The commission shall establish rules for the proper administration of this part 1 of division IV which shall reflect and accommodate as far as is reasonably possible the current and generally accepted methods and techniques for treatment and disposition of solid waste which will serve the purposes of this part, and which shall take into consideration the factors, including others which it deems proper, such as existing physical conditions, topography, soils and geology, climate, transportation, and land use, and which shall include but are not limited to rules relating to the establishment and location of sanitary disposal projects, sanitary practices, inspection of sanitary disposal projects, collection of solid waste, disposal of solid waste, pollution controls, the issuance of permits, approved methods of private disposition of solid waste, the general operation and maintenance of sanitary disposal projects, and the implementation of this part.

The commission shall adopt rules that allow the use of wet or dry sludge from publicly owned treatment works for land application. A sale of wet or dry sludge for the purpose of land application shall be accompanied by a written agreement signed by both parties which contains a general analysis of the contents of the sludge. The heavy metal content of the sludge shall not exceed that allowed by rules of the commission. An owner of a publicly owned treatment works which sells wet or dry sludge is not subject to criminal liability for acts or omissions in connection with a sale, and is not subject to any action by the purchaser to recover damages for harm to person or property caused by sludge that is delivered pursuant to a sale unless it is a result of a violation of the written agreement or if the heavy metal content of the sludge exceeds that allowed by rules of the commission. Nothing in this section shall provide immunity to any person from action by the department pursuant to section 455B.307. The rules promulgated under this paragraph shall be generally consistent with those rules of the department existing on January 1, 1982 regarding the land application of municipal sewage sludge except that they may provide for different methods of application for wet sludge and dry sludge.

The commission shall adopt rules prohibiting the disposal of uncontained liquid waste in a sanitary landfill. The rules shall prohibit land burial or disposal by land application of wet sewer sludge at a sanitary landfill.

The commission shall adopt rules requiring that each sanitary disposal project established pursuant to section 455B.302 and permitted pursuant to section 455B.305 install and maintain a sufficient number of groundwater monitoring wells to adequately determine the quality of the groundwater and the impact the sanitary disposal project, if any, is having on the groundwater adjacent to the sanitary disposal project site.

The commission shall adopt rules requiring a schedule of monitoring of the quality of groundwater adjacent to the sanitary disposal project from the groundwater monitoring wells installed in accordance with this section during the period the sanitary disposal project is in use. Schedules of monitoring may be varied in consideration of the types of sanitary disposal practices, hydrologic and geologic conditions, construction and operation characteristics, and volumes and types of wastes handled at the sanitary disposal project site.

The commission shall, by rule, require continued monitoring of groundwater pursuant to this section for a period of thirty years after the sanitary disposal project is closed. The commission may prescribe a lesser period of monitoring duration and frequency in consideration of the potential or lack thereof for groundwater contamination from the sanitary disposal project. The commission may extend the thirty-year monitoring period on a site-specific basis by adopting rules specifically addressing additional monitoring requirements for each sanitary disposal project for which the monitoring period is to be extended.

The commission shall adopt rules which may require the installation of shafts to relieve the accumulation of gas in a sanitary disposal project.

The commission shall adopt rules which establish closure, postclosure, leachate control and treatment, and financial assurance standards and requirements and which establish minimum levels of financial responsibility for sanitary disposal projects.

The commission shall adopt rules which establish the minimum distance between tiling lines and a sanitary landfill in order to assure no adverse effect on the groundwater.

The commission shall adopt rules for the distribution of grants to cities, counties, central planning agencies, and public or private agencies working in cooperation with cities or counties, for the purpose of solid waste management. The rules shall base the awarding of grants on a project's reflection of the solid waste management policy and hierarchy established in section 455B.301A, the proposed amount of local matching funds, and community need.

By July 1, 1990, a sanitary landfill disposal project operating with a permit shall have a trained, tested, and certified operator. A certification program shall be devised or approved by rule of the department.

The commission shall adopt rules for the certification of operators of solid waste incinerators. The criteria for certification shall include, but is not limited to, an operator's technical competency and operation and maintenance of solid waste incinerators.

#### **455B.305 Issuance or renewal of permits by director.**

1. The director shall issue, revoke, suspend, modify, or deny permits for the construction and operation of sanitary disposal projects.

A permit shall be issued by the director or at the director's direction, by a local board of health, for each sanitary disposal project operated in this state. The permit shall be issued in the name of the city or county or, where applicable, in the name of the public or private agency operating the project. Each sanitary disposal project shall be inspected annually by the department or a local board of health. The permits issued pursuant to this section are in addition to any other licenses, permits or variances authorized or required by law, including, but not limited to, chapter 358A. A permit may be suspended or revoked by the director if a sanitary disposal project is found not to meet the requirements of part 1 or rules issued under part 1. The suspension or revocation of a permit may be appealed to the department.

2. Beginning July 1, 1988, the director shall not issue a permit for the construction or operation of a new sanitary disposal project unless the permit applicant, in conjunction with all local governments using the sanitary disposal project, has filed a plan as required by section 455B.306. For those sections for which the department has not developed rules, the permit shall contain conditions and a schedule for meeting all applicable requirements of section 455B.306.

3. Beginning July 1, 1988, the director shall not renew or reissue a permit which had been initially issued prior to that date for a sanitary disposal project, unless the permit applicant, in conjunction with all local governments using the

sanitary disposal project, has filed a plan as required by section 455B.306. For those sections for which the department has not developed rules, the permit shall contain conditions and a schedule for meeting all applicable requirements of section 455B.306.

4. Beginning July 1, 1994, the director shall not renew or reissue a permit which had been initially issued or renewed prior to that date for a sanitary disposal project, unless and until the permit applicant, in conjunction with all local governments using the sanitary disposal project, documents that steps are being taken to begin implementing the plan filed pursuant to section 455B.306. For those sections for which the department has not developed rules, the permit shall contain conditions and a schedule for meeting all applicable requirements of section 455B.306. However, a permit may be issued for the construction and operation of a new sanitary disposal project in accordance with subsection 2.

5. Beginning July 1, 1997, the director shall not renew or reissue a permit which had been renewed or reissued prior to that date for a sanitary landfill, unless and until the permit applicant, in conjunction with all local governments using the landfill, documents that alternative methods of solid waste disposal other than use of a sanitary landfill have been implemented as set forth in the plan filed pursuant to section 455B.306. However, the director may issue a permit for the construction and operation of a new sanitary landfill in accordance with subsection 2 and a permit may be renewed or reissued for a sanitary landfill which had received an initial permit but the permit had not been previously renewed or reissued prior to July 1, 1997 in accordance with subsection 3.

After July 1, 1997, however, no new landfill permits shall be issued unless the applicant, in conjunction with all local governments which will use the landfill, certifies that the landfill is needed as a part of an alternative disposal method, or unless the applicant provides documentation which satisfies the director that alternatives have been studied and are not either technically or economically feasible. The decision of the director is subject to review by the commission at its next meeting.

6. Beginning July 1, 1992, the director shall not issue, renew, or reissue a permit for a sanitary landfill unless the sanitary landfill is equipped with a leachate control system. The director may exempt a permit applicant from this requirement if the director determines that certain conditions regarding, but not limited to, existing physical conditions, topography, soil, geology, and climate, are such that a leachate control system is unnecessary.

#### **455B.306 Plans filed.**

1. A city, county, and a private agency operating or planning to operate a sanitary disposal project shall file with the director a comprehensive plan detailing the method by which the city, county, or private agency will comply with this part 1. All cities and counties shall also file with the director a comprehensive plan detailing the method by which the city or county will comply with the requirements of section 455B.302 to establish and implement a comprehensive solid waste reduction program for its residents. For the purposes of this section, a public agency managing the waste stream for cities or counties pursuant to chapter 28E, shall file one comprehensive plan on behalf of its members, which constitutes full compliance by the public agency's members with the filing requirements of this section. The director shall review each comprehensive plan submitted and may reject, suggest modification, or approve the proposed plan. The director shall aid in the development of comprehensive plans for compliance with this part. The director shall make available to a city, county, and private agency appropriate forms for the submission of comprehensive plans and may hold hearings for the purpose of implementing this part. The director and governmen-

tal agencies with primary responsibility for the development and conservation of energy resources shall provide research and assistance, when cities and counties operating or planning to operate sanitary disposal projects request aid in planning and implementing resource recovery systems. A comprehensive plan filed by a private agency operating or planning to operate a sanitary disposal project required pursuant to section 455B.302 shall be developed in cooperation and consultation with the city or county responsible to provide for the establishment and operation of a sanitary disposal project.

2. The plan required by subsection 1 for sanitary disposal projects shall be filed with the department at the time of initial application for the construction and operation of a sanitary disposal project and at a minimum shall be updated and refiled with the department at the time of each subsequent application for renewal or reissuance of a previously issued permit. The department may, consistent with rules of the commission, require filing or updating of a plan at other times.

3. A comprehensive plan filed pursuant to this section shall incorporate and reflect the waste management hierarchy of the state solid waste management policy and shall at a minimum address the following general topics:

- a. The extent to which solid waste is or can be recycled.
- b. The economic and technical feasibility of using other existing sanitary disposal project facilities in lieu of initiating or continuing the sanitary landfill currently used.
- c. The expected environmental impact of alternative solid waste disposal methods, including the use of sanitary landfills.
- d. A specific plan and schedule for implementing technically and economically feasible solid waste disposal methods that will result in minimal environmental impact.

4. The comprehensive plan shall provide details of a local recycling program which shall contain a methodology for meeting the state volume reduction goal pursuant to section 455D.3, and a methodology for implementing a program of separation of wastes including but not limited to glass, plastic, paper, and metal.

5. In addition to the above requirements, the following specific areas must be addressed in detail in a comprehensive plan filed in conjunction with the issuance, renewal, or reissuance of a permit for a sanitary disposal project:

a. A closure and postclosure plan detailing the schedule for and the methods by which the operator will meet the conditions for proper closure and postclosure adopted by rule by the commission. The plan shall include, but is not limited to, the proposed frequency and types of actions to be implemented prior to and following closure of an operation, the proposed postclosure actions to be taken to return the area to a condition suitable for other uses, and an estimate of the costs of closure and postclosure and the proposed method of meeting these costs. The postclosure plan shall reflect the thirty-year time period requirement for postclosure responsibility.

b. A plan for the control and treatment of leachate, including financial considerations proposed in meeting the costs of control and treatment in order to meet the requirements of section 455B.305, subsection 6.

c. A financial plan detailing the actual cost of the sanitary disposal project and including the funding sources of the project. In addition to the submittal of the financial plan filed pursuant to this subsection, the operator of an existing sanitary landfill shall submit an annual financial statement to the department.

d. An emergency response and remedial action plan including established provisions to minimize the possibility of fire, explosion, or any release to air, land, or water of pollutants that could threaten human health and the environment, and the identification of possible occurrences that may endanger human health and environment.

6. When a proposed plan is subject to review and approval by several state and local agencies, if the plan is substantially modified after approval by an agency, the plan shall be resubmitted as a new proposal to all other agencies to ensure that all agencies have approved the same plan.

7. In addition to the comprehensive plan filed pursuant to subsection 1, a person operating or proposing to operate a sanitary disposal project shall provide a financial assurance instrument to the department prior to the initial approval of a permit or prior to the renewal of a permit for an existing or expanding facility beginning July 1, 1988.

a. The financial assurance instrument shall meet all requirements adopted by rule by the commission, and shall not be canceled, revoked, disbursed, released, or allowed to terminate without the approval of the department. Following the cessation of operation or closure of a sanitary disposal project, neither the guarantor nor the operator shall cancel, revoke, or disburse the financial assurance instrument or allow the instrument to terminate until the operator is released from closure, postclosure, and monitoring responsibilities.

b. The operator shall maintain closure, and postclosure accounts. The commission shall adopt by rule the amounts to be contributed to the accounts based upon the amount of solid waste received by the facility. The accounts established shall be specific to the facility.

(1) Money in the accounts shall not be assigned for the benefit of creditors with the exception of the state.

(2) Money in an account shall not be used to pay any final judgment against a licensee arising out of the ownership or operation of the site during its active life or after closure.

(3) Conditions under which the department may gain access to the accounts and circumstances under which the accounts may be released to the operator after closure and postclosure responsibilities have been met, shall be established by the commission.

c. The commission shall adopt by rule the minimum amounts of financial responsibility for sanitary disposal projects.

d. Financial assurance instruments may include instruments such as cash or surety bond, a letter of credit, a secured trust fund, or a corporate guarantee.

e. The annual financial statement submitted to the department pursuant to subsection 5, paragraph "c", shall include the current amounts established in each of the accounts and the projected amounts to be deposited in the accounts in the following year.

#### **455B.307 Dumping—where prohibited—penalty.**

1. A private agency or public agency shall not dump or deposit or permit the dumping or depositing of any solid waste at any place other than a sanitary disposal project approved by the director unless the agency has been granted a permit by the department which allows the dumping or depositing of solid waste on land owned or leased by the agency. The department shall adopt rules regarding the permitting of this activity which shall provide that the public interest is best served, but which may be based upon criteria less stringent than those regulating a public sanitary disposal project provided that the rules adopted meet the groundwater protection goal specified in section 455E.4. The comprehensive plans for these facilities may be varied in consideration of the types of sanitary disposal practices, hydrologic and geologic conditions, construction and operations characteristics, and volumes and types of waste handled at the disposal site. The director may issue temporary permits for dumping or disposal of solid waste at disposal sites for which an application for a permit to operate a sanitary

disposal project has been made and which have not met all of the requirements of part 1 of this division and the rules adopted by the commission if a compliance schedule has been submitted by the applicant specifying how and when the applicant will meet the requirements for an operational sanitary disposal project and the director determines the public interest will be best served by granting such temporary permit.

2. The director may issue any order necessary to secure compliance with or prevent a violation of the provisions of this part 1 of division IV or the rules adopted pursuant to the part. The attorney general shall, on request of the department, institute any legal proceedings necessary in obtaining compliance with an order of the commission or the director or prosecuting any person for a violation of the provisions of the part or rules issued pursuant to the part.

3. Any person who violates any provision of part 1 of this division or any rule or any order adopted or the conditions of any permit or order issued pursuant to part 1 of this division shall be subject to a civil penalty, not to exceed five thousand dollars for each day of such violation.

#### **455B.314 Incineration at sanitary disposal projects.**

Beginning January 1, 1990, a sanitary disposal project that includes incineration as a part of its disposal process shall separate from the materials to be incinerated recyclable and reusable materials, materials which will result in uncontrolled toxic or hazardous air emissions when burned, and hazardous or toxic materials which are not rendered nonhazardous or nontoxic by incineration. The removed materials shall be recycled, reused, or treated and disposed in a manner approved by the department. Separation of waste includes magnetic separation.

c. Reporting of any releases and corrective action taken in response to a release from an underground storage tank.

d. Taking corrective action in response to a release or threatened release from an underground storage tank including appropriate testing of drinking water which may be contaminated by the release. The corrective action rules shall enable the director to order an owner or operator to immediately take all corrective actions deemed reasonable and necessary by the director.

e. The closure of tanks to prevent any future release of a regulated substance into the environment. If consistent with federal environmental protection agency technical standard regulations, state tank closure rules shall include, at the tank owner's election, an option to fill the tank with an inert material. Removal of a tank shall not be required if the tank is filled with an inert material pursuant to department of natural resources rules. A tank closed, or to be closed and which is actually closed, within one year of May 13, 1988, shall be required to complete monitoring or testing as required by the department to ensure that the tank did not leak prior to closure, but shall not be required to have a monitoring system installed.

f. Assessment plans for taking required release corrective action. The department shall mail a copy of the approved release assessment plan to the owner or operator of an underground storage tank; the copy mailed to the owner or operator shall be in addition to any copies provided to a contractor or agent of the owner or operator.

g. Specifying an adequate monitoring system to detect the presence of a leaking underground storage tank and to provide for protection of the groundwater resources for regulated tanks installed prior to January 14, 1987. The effective date of the rules adopted shall be January 14, 1989. In the event that federal regulations are adopted by the United States environmental protection agency after the commission has adopted state standards pursuant to this subsection, the commission shall immediately proceed to adopt rules consistent with those federal regulations adopted. Unless the federal environmental protection agency adopts final rules to the contrary, rules adopted pursuant to this section shall not apply to hydraulic lift reservoirs, such as for automobile hoists and elevators, containing hydraulic oil.

In adopting the rules under this subsection, the commission may distinguish between types, classes, and ages of underground storage tanks. In making the distinctions, the commission may take into consideration factors including, but not limited to, location of the tanks, compatibility of a tank material with the soil and climate conditions, uses of the tanks, history of maintenance, age of the tanks, current industry recommended practices, national consensus codes, hydrogeology, water table, size of the tanks, quantity of regulated substances periodically deposited in or dispensed from the tank, the degree of risk presented by the regulated substance, the technical and managerial capability of the owners and operators, and the compatibility of the regulated substance and the materials of which the underground storage tank is fabricated.

The department may issue a variance, which includes an enforceable compliance schedule, from the mandatory monitoring requirement for an owner or operator who demonstrates plans for tank removal, replacement, or filling with an inert material pursuant to a department approved variance. A variance may be renewed for just cause.

2. The maintenance of evidence of financial responsibility as the director determines to be feasible and necessary for taking corrective action and for compensating third parties for bodily injury and property damage caused by release of a regulated substance from an underground storage tank.

a. Financial responsibility required by this subsection may be established in accordance with rules adopted by the commission by any one, or any combination, of the following methods: insurance, guarantee, surety bond, letter of credit, or qualification as a self-insurer. In adopting requirements under this subsection, the commission may specify policy or other contractual terms, conditions, or defenses which are necessary or are unacceptable in establishing the evidence of financial responsibility.

A person who establishes financial responsibility by self-insurance shall not require or shall not enforce an indemnification agreement with an operator or owner of the tank covered by the self-insurance obligation, unless the owner or operator has committed a substantial breach of a contract between the self-insurer and the owner or operator, and that substantial breach relates directly to the operation of the tank in an environmentally sound manner. This paragraph applies to all contracts between a self-insurer and an owner or operator entered into on or after May 5, 1989.

b. If the owner or operator is in bankruptcy, reorganization, or arrangement pursuant to the federal bankruptcy law or if jurisdiction in any state court or federal court cannot be obtained over an owner or operator likely to be solvent at the time of judgment, any claim arising from conduct for which evidence of financial responsibility must be provided under this subsection may be asserted directly against the guarantor providing the evidence of financial responsibility. In the case of action pursuant to this paragraph, the guarantor is entitled to invoke all rights and defenses which would have been available to the owner or operator if an action had been brought against the owner or operator by the claimant and which would have been available to the guarantor if an action had been brought against the guarantor by the owner or operator.

c. The total liability of a guarantor shall be limited to the aggregate amount which the guarantor has provided as evidence of financial responsibility to the owner or operator under this subsection. This subsection does not limit any other state or federal statutory, contractual, or common law liability of a guarantor to its owner or operator including, but not limited to, the liability of the guarantor for bad faith in negotiating or in failing to negotiate the settlement of any claim. This subsection does not diminish the liability of any person under section 107 or 111 of the Comprehensive Environmental Response, Compensation and Liability Act of 1980 or other applicable law.

d. For the purpose of this subsection, the term "guarantor" means any person, other than the owner or operator, who provides evidence of financial responsibility for an owner or operator under this subsection.

e. If an owner or operator is required to uncover or remove an underground storage tank based upon a determination of the department that the underground storage tank presents a hazard to the public health, safety, or the environment, and if upon inspection of the tank the determination is unfounded, the state may reimburse reasonable costs incurred in the inspection of the tank. Claims for reimbursement shall be filed on forms provided by the commission. The commission shall adopt rules pursuant to chapter 17A relating to determinations of reasonableness in approval or rejection of claims in cases of dispute. Claims shall

be paid from the general fund of the state. When any one of the tanks or the related pumps and piping at a multiple tank facility are found to be leaking, the state shall not reimburse costs for uncovering or removing any of the other tanks, piping, or pumps that are not found to be leaking.

3. Standards of performance for new underground storage tanks which shall include, but are not limited to, design, construction, installation, release detection, and compatibility standards. Until the effective date of the standards adopted by the commission and after January 1, 1986, a person shall not install an underground storage tank for the purpose of storing regulated substances unless the tank (whether of single or double wall construction) meets all the following conditions:

a. The tank will prevent release due to corrosion or structural failure for the operational life of the tank.

b. The tank is cathodically protected against corrosion, constructed of noncorrosive material, steel clad with a noncorrosive material, or designed in a manner to prevent the release or threatened release of any stored substance.

c. The material used in the construction or lining of the tank is compatible with the substance to be stored. If soil tests conducted in accordance with A.S.T.M., standard G 57-78 or another standard approved by the commission show that soil resistivity in an installation location is twelve thousand ohm/cm or more (unless a more stringent soil resistivity standard is adopted by rule of the commission), a storage tank without corrosion protection may be installed in that location until the effective date of the standards adopted by the commission and after January 1, 1986.

d. Rules adopted by the commission shall specify adequate monitoring systems to detect the presence of a leaking underground storage tank and to provide for protection of the groundwater resources from regulated tanks installed after January 14, 1987. In the event that federal regulations are adopted by the United States environmental protection agency after the commission has adopted state standards pursuant to this subsection, the commission shall immediately proceed to adopt rules consistent with those federal regulations adopted. Tanks installed on or after January 14, 1987, shall continue to be considered new tanks for purposes of this chapter and are subject to state monitoring requirements unless federal requirements are more restrictive.

4. The form and content of the written notices required by section 455B.473.

5. The duties of owners or operators of underground storage tanks to locate and abate the source of release of regulated substances, when in the judgment of the director, the local hydrology, geology and other relevant factors reasonably include a tank as a potential source.

6. Reporting requirements necessary to enable the department to maintain an accurate inventory of underground storage tanks.

7. Designation of regulated substances subject to this part, consistent with section 455B.471, subsection 4. The rules shall be at least as stringent as the regulations of the federal government pursuant to section 311, subsection b, paragraph 2, subparagraph A of the federal Water Pollution Control Act, 33 U.S.C. §1321(b)(2)(A), pursuant to section 102 of the Comprehensive Environmental Response, Compensation, and Liability Act, 42 U.S.C. §9602, pursuant to section 307, subsection a of the federal Water Pollution Control Act, 33 U.S.C. §1317(a), pursuant to section 112 of the Clean Air Act, 42 U.S.C. §7412, or pursuant to section 7 of the Toxic Substances Control Act, 15 U.S.C. §2606.

The rules adopted by the commission under this section shall be consistent with and shall not exceed the requirements of federal regulations relating to the regulation of underground storage tanks except as provided in subsection 1, paragraph "f" and subsection 3, paragraph "d". It is the intent of the general assembly that state rules adopted pursuant to subsection 1, paragraph "f" and

subsection 3, paragraph "d" be consistent with and not more restrictive than federal regulations adopted by the United States environmental protection agency when those rules are adopted.

#### **455B.477 Penalties—burden of proof.**

1. A person who violates a provision of this part or a rule or order issued under this part is subject to a civil penalty not to exceed five thousand dollars for each day during which the violation continues. The civil penalty is an alternative to a criminal penalty provided under this part.

2. A person who knowingly fails to notify or makes a false statement, representation, or certification in a record, report, plan or other document filed or required to be maintained under this part or who falsifies, tampers with or knowingly renders inaccurate a monitoring device or method required to be maintained under this part or by a rule or order issued under this part, is guilty of an aggravated misdemeanor.

3. The attorney general, at the request of the director with approval of the commission, shall institute any legal proceedings, including an action for an injunction, necessary to enforce the penalty provisions of this part or to obtain compliance with the provisions of this part or rules adopted or order issued under this part. In any action, previous findings of fact of the director or the commission after notice and hearing are conclusive if supported by substantial evidence in the record when the record is viewed as a whole.

4. In all proceedings with respect to an alleged violation of a provision of this part or a rule adopted or order issued by the commission, the burden of proof is upon the commission or the department.

5. If the attorney general has instituted legal proceedings in accordance with this section, all related issues which could otherwise be raised by the alleged violator in a proceeding for judicial review under section 455B.478 shall be raised in the legal proceedings instituted in accordance with this section.

6. The penalty for intentional failure of an owner or operator to register a petroleum underground storage tank under section 455B.473 shall be a minimum of seven thousand five hundred dollars up to a maximum of ten thousand dollars after October 1, 1989.

7. The civil penalties or other damages or moneys recovered by the state or the petroleum underground storage tank fund in connection with a petroleum underground storage tank under this part of this division or chapter 455G shall be credited to the fund created in section 455G.3 and allocated between fund accounts according to the fund budget. Any federal moneys, including but not limited to federal underground storage tank trust fund moneys, received by the state or the department of natural resources in connection with a release occurring on or after May 5, 1989, or received generally for underground storage tank programs on or after May 5, 1989, shall be credited to the fund created in section 455G.3 and allocated between fund accounts according to the fund budget, unless such use would be contrary to federal law. The department shall cooperate with the board of the Iowa comprehensive petroleum underground storage tank fund to maximize the state's eligibility for and receipt of federal funds for underground storage tank related purposes.

#### **455B.481 Waste management policy.**

The purpose of this part is to promote the proper and safe storage, treatment, and disposal of solid, hazardous, and low-level radioactive wastes in Iowa. The management of these wastes generated within Iowa is the responsibility of Iowans. It is the intent of the general assembly that Iowans assume this responsibility to the extent consistent with the protection of public health, safety, and the environment, and that Iowans insure that waste management practices, as alternatives to land disposal, including source reduction, recycling, compaction, incineration, and other forms of waste reduction, are employed.

It is also the intent of the general assembly that a comprehensive waste management plan be established by the waste management authority which includes: the determination of need and adequate regulatory controls prior to the initiation of site selection; the process for selecting a superior site determined to be necessary; the establishment of a process for a site community to submit or present data, views, or arguments regarding the selection of the operator and the technology that best ensures proper facility operation; the prohibition of shallow land burial of hazardous and low-level radioactive wastes; the establishment of a regulatory framework for a facility; and the establishment of provisions for the safe and orderly development, operation, closure, postclosure, and long-term monitoring and maintenance of the facility.

In order to meet capacity assurance requirements of section 104k of the federal Superfund Amendments and Reauthorization Act of 1986, Pub. L. No. 99-499, and further the objectives of waste minimization, the department, in cooperation with the small business assistance center at the university of northern Iowa, shall work with generators of hazardous wastes in the state to develop and implement aggressive waste minimization programs. The goal of these programs is to reduce the volume of hazardous waste generated in the state as a whole by twenty-five percent of the amount generated as of January 1, 1987, as reported in the biennial reports collected by the United States environmental protection agency. The twenty-five percent reduction goal shall be reached as expeditiously as possible and no later than July 1, 1994. In meeting the reduction goal, elements "a" through "f" of the hazardous waste management hierarchy shall be utilized. The department, in cooperation with the small business assistance center, shall reassess the twenty-five percent reduction goal in 1994. The department shall promote research and development, provide and promote educational and informational programs, promote and encourage voluntary technical assistance to hazardous waste generators, promote assistance by the small business assistance center, and promote other activities by the public and private sectors that support this goal. In the promotion of the goal, the following hazardous waste management hierarchy, in descending order of preference, is established by the department:

- a. Source reduction for waste elimination.
- b. On-site recycling.
- c. Off-site recycling.
- d. Waste treatment.
- e. Incineration.
- f. Land disposal.

Additionally, the department shall establish and distribute to generators a listing of hazardous waste materials which are currently being recycled. The

department shall require that each hazardous waste generator in the state submit, with the biennial report submitted to the United States environmental protection agency, a report of hazardous waste materials currently designated as recyclable by the department which are not being recycled by the generator. The report shall include the reason why the generator is not recycling such products. A small generator which does not submit a biennial report to the United States environmental protection agency, shall provide the information required to be submitted under this paragraph on a form provided by the department, with the submittal of the small generator's hazardous waste permit fee.

The department shall consult with representatives of industries which generate hazardous waste and shall make recommendations to the general assembly by January 1, 1991, concerning the possible application of a front-end fee for substances which will result in the generation of hazardous waste, the role of state government in assisting the private sector in establishing permanent, on-site, internal audit functions, and other measures which state government may initiate to encourage and assist generators of hazardous waste in reducing the hazardous waste generated.

3. Administer and coordinate the waste management trust fund created under this part.
4. Enter into contracts and agreements, with the approval of the commission for contracts in excess of twenty-five thousand dollars, with local units of government, other state agencies, governments of other states, governmental agencies of the United States, other public and private contractors, and other persons as may be necessary or beneficial in carrying out its duties under this part.
5. Represent the state in all matters pertaining to plans, procedures, negotiations, and agreements for interstate compacts or public-private compacts relating to the ownership, operation, management, or funding of a facility. Any agreement is subject to the approval of the commission.
6. Review, propose, and recommend legislation relating to the proper and safe management of waste.
7. Establish a central repository and information clearinghouse within the state for the collection and dissemination of data and information pertaining to the proper and safe management of waste.
8. Develop, sponsor, and assist in the implementation of public education and information programs on proper and safe management of waste in cooperation with other public and private agencies as deemed appropriate.
9. Include in the annual report to the governor and the general assembly required by section 455A.4, subsection 1, paragraph "d", information outlining the activities of the authority in carrying out programs and responsibilities under this part, and identifying trends and developments in the management of waste. The report shall also include specific recommendations for attaining the goals for waste minimization and capacity assurance requirements.

10. Submit a report to the general assembly by January 1, 1988, regarding the feasibility and financial ramifications of limiting the type of waste accepted by a hazardous waste facility acquired or operated pursuant to this chapter.

11. Solicit proposals from public and private agencies to conduct hazardous waste research, and to develop and implement storage, treatment, and other hazardous waste management practices including but not limited to source reduction, recycling, compaction, incineration, fuel recovery, and other alternatives to land disposal of hazardous waste. In the acceptance of a proposal, preference shall be given to Iowa agencies pursuant to chapter 73.

12. Conduct a comprehensive study of the current availability of hazardous waste disposal methods and sites, the current and projected generation of hazardous waste including but not limited to the types of hazardous waste generated and the sources of hazardous waste generation; alternatives to land disposal of hazardous waste including but not limited to source reduction, recycling, compaction, incineration, and fuel recovery; and integrated approaches to pollution management to ensure that the problems associated with hazardous waste do not become air or water problems; and alternative management and financing approaches for a state hazardous waste site.

13. a. Develop a comprehensive plan for the establishment of a small business assistance center for the safe and economic management of solid and hazardous substances. The plan for establishing the center shall be presented to the general assembly on or before January 15, 1988. The plan shall provide that the center's program include:

(1) The provision of information regarding the safe use and economic management of solid and hazardous substances to small businesses which generate the substances.

(2) The dissemination of information to public and private agencies regarding state and federal solid and hazardous substances regulations, and assistance in achieving compliance with these regulations.

(3) Advisement and consultation regarding the proper storage, handling, treatment, reuse, recycling, and disposal methods of solid and hazardous substances. The center shall promote alternatives to land disposal of solid and hazardous substances including but not limited to source reduction, recycling, compaction, incineration, and fuel recovery.

(4) The identification of the advantages of proper substance management relative to liability and operational costs of a particular small business.

(5) Assistance in the providing of capital formation in order to comply with state and federal regulations.

b. Moneys appropriated from the oil overcharge account of the groundwater protection fund shall be used to develop the comprehensive plan for the small business assistance center for the safe and economic management of solid and hazardous substances.

c. In solicitation of proposals for the implementation of the comprehensive plan, the waste management authority shall give preference to cooperative proposals which incorporate and utilize the participation of the universities under the control of the state board of regents.

14. Develop and implement programs, in cooperation with the small business assistance center at the university of northern Iowa, which result in widespread adoption of waste minimization programs by hazardous waste generators. The department shall conduct educational and informational programs. The small business assistance center shall provide direct waste minimization technical assistance to small quantity hazardous waste generators. These programs may include, but are not limited to, source reduction, recycling, fuel recovery, incineration, compaction, and other alternatives to land disposal. The preference for program development and implementation shall be for programs which result in

the generation of less waste, followed by a preference for programs which reuse the waste generated in a beneficial manner.

A sanitary landfill, other than a designated facility which is a sanitary landfill, shall not accept underground storage tanks for disposal after the date on which at least two facilities have been designated by the waste management authority pursuant to this section. A commercial scrap metal dealer or recycler may accept a tank for processing. The Iowa comprehensive petroleum underground storage tank fund may compensate a designated facility for all or a portion of the costs associated with processing or disposal of a tank delivered to the facility for final disposal pursuant to this section, if the department of natural resources determines that alternative satisfactory disposal options for used storage tanks do not then exist. A commercial scrap metal dealer or recycler may be a designated facility. A designated facility shall not charge a fee to an owner or operator of the underground storage tank as a condition of acceptance. The waste management authority shall adopt rules as necessary to govern the processing and disposal of underground storage tanks by a designated facility.

**455B.501 Regulation of infectious waste.**

1. As used in this section, unless the context otherwise requires:

a. "*Infectious*" means containing pathogens with sufficient virulence and quantity so that exposure to an infectious agent by a susceptible host could result in an infectious disease when the infectious agent is improperly treated, stored, transplanted, or disposed.

b. "*Infectious waste*" means waste, which is infectious, including but not limited to contaminated sharps, cultures, and stocks of infectious agents, blood and blood products, pathological waste, and contaminated animal carcasses from hospitals or research laboratories.

c. "*Contaminated sharps*" means all discarded sharp items derived from patient care in medical, research, or industrial facilities including glass vials containing materials defined as infectious, hypodermic needles, scalpel blades, and pasteur pipettes.

d. "*Cultures and stocks of infectious agents*" means specimen cultures collected from medical and pathological laboratories, cultures and stocks of infectious agents from research and industrial laboratories, wastes from the production of

biological agents, discarded live and attenuated vaccines, and culture dishes and devices used to transfer, inoculate, or mix cultures.

e. "*Human blood and blood products*" means human serum, plasma, other blood components, bulk blood, or containerized blood in quantities greater than twenty milliliters.

f. "*Pathological waste*" means human tissues and body parts that are removed during surgery or autopsy.

g. "*Contaminated animal carcasses*" means waste including carcasses, body parts, and bedding of animals that were exposed to infectious agents during research, production of biologicals, or testing of pharmaceuticals.

2. The department shall institute an infectious waste management program in cooperation with the Iowa department of public health. The program shall include all of the following elements:

a. Recommendations to the commission for revision of the rules which refer to infectious waste as hazardous or toxic waste.

b. Initiation, in cooperation with associations of health care providers of an information and education effort regarding the current requirements for special waste authorizations prior to the disposal of infectious wastes in a landfill. The effort shall include an attempt to compile an inventory of the number of generators and the volumes generated. The inventory shall be completed and a report regarding the results of the inventory submitted to the general assembly by no later than January 15, 1991.

c. Upon completion of the compilation of the inventory, the department shall recommend, for adoption by the commission, standards for on-site and off-site treatment of infectious waste. In developing standards, the department shall consider factors affecting the feasibility of alternative methods of treatment and disposal, including but not limited to the volume of infectious waste generated, the availability of treatment facilities within geographic areas, and the costs of transporting infectious wastes to treatment facilities. The standards shall include monitoring requirements for treatment facilities, and training requirements for operators of facilities. The standards may include requirements for management plans dealing with the plans for management of infectious wastes in compliance with adopted standards. In cases in which an individual generator of infectious waste is served by a person treating or disposing of the infectious waste, the person treating or disposing of the waste may prepare the plan for all generators served.

d. The department shall undertake a public information program, in conjunction with the Iowa department of public health and health care providers, to promote public understanding of the scope and features of state and private efforts to manage infectious wastes.

## CHAPTER 455D

### WASTE VOLUME REDUCTION AND RECYCLING

Recommendations to state agencies; conflicting rules; 89 Acts, ch 272, §43 HF 753

#### 455D.1 Definitions.

As used in this chapter unless the context otherwise requires:

1. "Commission" means the environmental protection commission.
2. "Department" means the department of natural resources created pursuant to section 455A.2.
3. "Deposit" means the amount paid by the consumer to the retailer at the time of initial purchase that is intended to encourage the return of materials or containers and which is returned in full to the consumer when the used material or container is redeemed.
4. "Director" means the director of the department.
5. "Rebate" means the portion of the amount paid by the consumer to the retailer at the time of initial purchase that is returned to the consumer when the used material or container is returned for disposal.
6. "Recycling" means any process by which waste, or materials which would otherwise become waste, are collected, separated, or processed and revised or returned to use in the form of raw materials or products. "Recycling" includes but is not limited to the composting of yard waste which has been previously separated from other waste, but does not include any form of energy recovery.
7. "Waste abatement fee" means the amount paid by the consumer to the retailer at the time of initial purchase of a product that is intended to support the cost of proper disposal.
8. "Waste reduction" means practices which reduce, avoid, or eliminate both the generation of solid waste and the use of toxic materials so as to reduce risks to health and the environment and to avoid, reduce, or eliminate the generation of wastes or environmental pollution at the source and not merely achieved by shifting a waste output or waste stream from one environmental medium to another environmental medium.

### 455D.2 Findings.

The general assembly finds that:

1. Iowa's environment is precious and no person has the right to pollute Iowa's air, water, or soil. The environment is vulnerable and irreplaceable, and all Iowans have an ongoing responsibility to conserve, preserve, and enhance the state's natural resources to guarantee their continued existence and use by the present and future generations.

2. The land itself is the source of Iowa's livelihood not only for the purposes of an agricultural economy, but for the establishment of manufacturing plants, business offices, and residences. While zoning establishes restrictions on the use of land for social order, a similar system has not been established to maintain environmental order below the ground. Protection of the environment includes not only visible but invisible threats as well.

3. The rapidly rising volume of waste deposited by society threatens the capacity of existing and future landfills. The nature of waste disposal today means that unknown quantities of potentially toxic and hazardous materials are being buried and pose a constant threat to the groundwater supply. In addition, the nature of the waste and disposal methods utilized allow the waste to remain basically inert for decades, if not centuries, without decomposition.

4. Wastes filling Iowa's landfills may, at best, represent a potential resource. However, without proper management, wastes are hazards to the environment and life itself.

5. The reduction of solid waste at the source and the recycling of reusable waste materials will reduce the flow of waste to sanitary landfills and increase the supply of reusable materials for the use of the public.

89 Acts, ch 272, §2 HF 753  
NEW section

### 455D.3 Goal.

The goal of the state is to reduce the amount of materials in the waste stream, existing as of July 1, 1988, twenty-five percent by July 1, 1994, and fifty percent by July 1, 2000, through the practice of waste volume reduction at the source and through recycling. For the purposes of this section, "*waste stream*" means the disposal of solid waste as "*solid waste*" is defined in section 455B.301. In determination of the reduction level of the waste stream, it shall be considered that each person currently generates three and one-half pounds of waste per day, and that this amount shall be reduced by the percentages indicated in order to preserve the health and safety of all Iowans.

### 455D.4 Waste volume reduction policies.

1. It is the policy of this state to encourage the development of waste volume reduction programs and education at the local government level through incentives, technical assistance, grants, and other practical measures.

2. It is the policy of this state to support and encourage the development of new uses and markets for recycled goods, placing emphasis on the development, in Iowa, of businesses relating to waste reduction and recycling.

3. The provision of education concerning waste volume reduction at the elementary through high school levels and through community organizations will enhance the success of local programs requiring public involvement.

4. This state supports and encourages manufacturing methods which are environmentally sustainable, technologically safe, and ecologically sound. The state shall encourage manufacturing methods which enhance waste reduction by creating products with longer usage life, and by creating products which are

adaptable to secondary uses, require less input material, and decrease resource consumption.

5. The people of this state recognize that a variety of benefits result from a comprehensive waste reduction policy including the following environmental, economic, governmental, and public benefits:

a. Not producing waste in the first instance is the most certain means for avoiding the widely recognized health and environmental damage associated with waste. Although waste reduction will never eliminate all wastes, to the extent that waste reduction is achieved it results in the most certain form of direct risk reduction.

b. Waste reduction may result in reduced pollution control costs for industry by stimulating and promoting beneficial technological and management reorganization within industry in place of pollution control strategies which channel capital into nonproductive pollution control expenditures.

c. The government is better able to administer programs which offer a variety of benefits to industry and which reduce the overall cost of government involvement than it is to administer programs which offer few benefits to industry and require increasingly extensive, complex, and costly governmental actions.

d. Public confidence in environmental policies of the government is important for the effectiveness of these policies. Waste reduction poses no adverse environmental and public health effects and does not, therefore, lead to increased public concern. Waste reduction also increases the public confidence that the government and industry are doing all that is possible to protect human health and the environment.

#### **455D.5 Statewide waste reduction and recycling network—established.**

1. The department shall establish a statewide waste reduction and recycling network to promote the waste management policy contained in section 455B.481 and the waste management hierarchy contained in section 455B.301A. Programs established shall encourage waste generators to reduce the volume of waste generated and to recycle or properly dispose of the waste that is generated. The network shall utilize existing recycling companies when possible. The programs may utilize financial and legal incentives, education, technical assistance, regulation, and other methods as appropriate to implement the programs. The programs may involve the development of public and private sector initiatives, the development of markets and other opportunities for waste reduction and recycling, and other related efforts.

2. The elements of the network shall include but are not limited to all of the following:

a. Promotion of efforts to increase the amount of recyclable materials used by the public.

b. Promotion of efforts to recover recyclable materials from the waste stream.

c. Promotion of local efforts to implement recycling collection centers located at disposal sites or other convenient local sites.

d. Promotion of local efforts of curbside collection of separated recyclable waste materials.

e. Provision of public education programs which promote public awareness of waste volume reduction and the use of recyclable materials.

f. Promotion of the creation of markets for recyclable materials.

g. Promotion of research, manufacturing processes, and product development, which provide for waste reduction through decreased material input, and resource consumption.

h. Promotion of the concentration of the efforts of the business and industry resource search service by the small business assistance center for the safe and

economic management of solid waste and hazardous substances at the university of northern Iowa, to locate existing waste streams and materials from businesses and industries which generate small amounts of waste and to catalyze the reuse of these materials in the production of goods and services.

3. The department, in cooperation with businesses involved in the manufacturing and use of polystyrene packaging products or food service items, shall establish and implement a recycling demonstration project utilizing these items by July 1, 1991. The department shall submit a report of the results of the project to the general assembly by January 1, 1992.

Study the technology available for the reclamation and recycling of refrigerant, including the findings of nationwide industry surveys, and make recommendations concerning whether or not all persons providing refrigerator or air conditioner repair services should own or have access to refrigerant reclamation or recycling machinery.

9. Identify products made from recycled or recovered materials and provide a list of these products to the department of general services and to all other state agencies to assist in the development and review of procurement specifications. The director shall also develop, in cooperation with the director of the department of general services, a program to promote the procurement of listed products and seek information from state agencies using products containing recycled or recovered materials to evaluate their performance. The program shall also provide that the director seek information from suppliers regarding product performance and recovered material content of products offered for sale. Based on the above evaluation, and information regarding the recyclability of the components of

products and their longevity, and, where applicable, the energy efficiency of such products, the department shall publish information on recommended products for procurement. This information shall be provided to all state agencies as well as city and county purchasing agencies.

#### **455D.8 Deposits, rebates, and waste abatement fees.**

The commission shall recommend to the general assembly, annually, deposits, rebates, and waste abatement fees on elements of the waste stream when necessary to encourage waste reduction, and the recycling and recovery of useful components of that waste stream element, or to encourage proper management and disposal of components that cannot be recycled or recovered. In making these recommendations, the commission shall not recommend the imposition of a deposit, rebate, or waste abatement fee on an element that is being properly managed through a market-driven or publicly supported recycling, recovery, or source separation program. The commission shall recommend to the general assembly that a deposit, rebate, or waste abatement fee is removed from an element of the waste stream when the commission determines that market forces will ensure that the element is recycled, recovered, or properly managed and disposed.

## CHAPTER 455G

### IOWA COMPREHENSIVE PETROLEUM UNDERGROUND STORAGE TANK FUND ACT

Legislative findings; legislative intent; conditions upon finding of invalidity; 89 Acts, ch 131, §1, 2, 59 HF 447

#### 455G.1 Title—scope.

1. This chapter is entitled the "*Iowa Comprehensive Petroleum Underground Storage Tank Fund Act*".

2. This chapter applies to a petroleum underground storage tank required to maintain proof of financial responsibility under federal law, from the effective date of the regulation of the federal environmental protection agency governing that tank, and not from the effective compliance date, unless the effective compliance date of the regulation is the effective date of the regulation. An owner or operator of a petroleum underground storage tank required by federal law to maintain proof of financial responsibility for that underground storage tank, or who will be required on a date definite, is subject to this chapter and chapter 424.

a. As of May 5, 1989, tanks excluded by the federal Resource Conservation and Recovery Act, subtitle I, included the following:

(1) A farm or residential tank of one thousand one hundred gallons or less capacity used for storing motor fuel for noncommercial purposes.

(2) A tank used for storing heating oil for consumptive use on the premises where stored.

(3) A septic tank.

(4) A pipeline facility, including gathering lines, regulated under any of the following:

(a) The federal Natural Gas Pipeline Safety Act of 1968.

(b) The federal Hazardous Liquid Petroleum Pipeline Safety Act of 1979.

(c) State laws comparable to the provisions of the law referred to in subparagraph subdivision (a) or (b).

(5) A surface impoundment, pit, pond, or lagoon.

(6) A storm water or wastewater collection system.

- (7) A flow-through process tank.
- (8) A liquid trap or associated gathering lines directly related to oil or gas production and gathering operations.
- (9) A storage tank situated in an underground area, such as a basement, cellar, mine working, drift, shaft, or tunnel, if the storage tank is situated upon or above the surface of the floor to permit inspection of its entire surface.
  - b. As of May 5, 1989, tanks exempted or excluded by United States environmental protection agency financial responsibility regulations, 40 C.F.R. §280.90, included the following:
    - (1) Underground storage tank systems removed from operation, pursuant to applicable department of natural resources rules, prior to the applicable federal compliance date established in 40 C.F.R. §280.91.
    - (2) Those owned or operated by state and federal governmental entities whose debts and liabilities are the debts and liabilities of a state or the United States.
    - (3) Any underground storage tank system holding hazardous wastes listed or identifiable under subtitle C of the federal Solid Waste Disposal Act, or a mixture of such hazardous waste and other regulated substances.
    - (4) Any wastewater treatment tank system that is part of a wastewater treatment facility regulated under section 307(b) or 402 of the federal Clean Water Act.
    - (5) Equipment or machinery that contains regulated substances for operational purposes such as hydraulic lift tanks and reservoirs and electrical equipment tanks.
    - (6) Any underground storage tank system whose capacity is one hundred ten gallons or less.
    - (7) Any underground storage tank system that contains a de minimis concentration of regulated substances.
    - (8) Any emergency spill or overflow containment underground storage tank system that is expeditiously emptied after use.
    - (9) Any underground storage tank system that is part of an emergency generator system at nuclear power generation facilities regulated by the nuclear regulatory commission under 10 C.F.R. pt. 50, appendix A.
    - (10) Airport hydrant fuel distribution systems.
    - (11) Underground storage tank systems with field-constructed tanks.

c. If and when federal law changes, the department of natural resources shall adopt by rule such additional requirements, exemptions, deferrals, or exclusions as required by federal law. It is expected that certain classes of tanks currently exempted or excluded by federal regulation will be regulated by the United States environmental protection agency in the future. A tank which is not required by federal law to maintain proof of financial responsibility shall not be subject to department of natural resources rules on proof of financial responsibility.

### **455G.3 Establishment of Iowa comprehensive petroleum underground storage tank fund.**

1. The Iowa comprehensive petroleum underground storage tank fund is created as a separate fund in the state treasury, and any funds remaining in the fund at the end of each fiscal year shall not revert to the general fund but shall remain in the Iowa comprehensive petroleum underground storage tank fund. The fund shall include moneys credited to the fund under this section and sections 424.7, 455G.8, 455G.9, 455G.10, 455G.11, and 455G.13, and other funds which by law may be credited to the fund. The moneys in the fund are appropriated to and for the purposes of the board as provided in this chapter. Amounts in the fund shall not be subject to appropriation for any other purpose by the general

assembly, but shall be used only for the purposes set forth in this chapter. The treasurer of state shall act as custodian of the fund and disburse amounts contained in it as directed by the board including automatic disbursements of funds as received pursuant to the terms of bond indentures and documents and security provisions to trustees and custodians. The treasurer of state is authorized to invest the funds deposited in the fund at the direction of the board and subject to any limitations contained in any applicable bond proceedings. The income from such investment shall be credited to and deposited in the fund. The fund shall be administered by the board which shall make expenditures from the fund consistent with the purposes of the programs set out in this chapter without further appropriation. The fund may be divided into different accounts with different depositories as determined by the board and to fulfill the purposes of this chapter.

2. The board shall assist Iowa's owners and operators of petroleum underground storage tanks in complying with federal environmental protection agency technical and financial responsibility regulations by establishment of the Iowa comprehensive petroleum underground storage tank fund. The authority may issue its bonds, or series of bonds, to assist the board, as provided in this chapter.

3. The purposes of this chapter shall include but are not limited to any of the following:

a. To establish a remedial account to fund corrective action for petroleum releases as provided by section 455G.9.

b. To establish a loan guarantee account, as provided by and to the extent permitted by section 455G.10.

c. To establish an insurance account for insurable underground storage tank risks within the state as provided by section 455G.11.

4. The state, the general fund of the state, or any other fund of the state, other than the Iowa comprehensive petroleum underground storage tank fund, is not liable for a claim or cause of action in connection with a tank not owned or operated by the state, or agency of the state. All expenses incurred by the fund shall be payable solely from the fund and no liability or obligation shall be imposed upon the state. The liability of the fund is limited to the extent of coverage provided by the account under which a claim is submitted, subject to the terms and conditions of that coverage. The liability of the fund is further limited by the moneys made available to the fund, and no remedy shall be ordered which would require the fund to exceed its then current funding limitations to satisfy an award or which would restrict the availability of moneys for higher priority sites. The state is not liable for a claim presented against the fund.

4. Grant a mortgage, lien, pledge, assignment, or other encumbrance on one or more improvements, revenues, asset of right, accounts, or funds established or received in connection with the fund, including environmental protection charges deposited in the fund or an account of the fund.

5. Provide that the interest on bonds may vary in accordance with a base or formula.

6. Contract for the acquisition, construction, or both of one or more improvements or parts of one or more improvements and for the leasing, subleasing, sale, or other disposition of one or more improvements in a manner it determines.

7. The board may contract with the authority for the authority to issue bonds and do all things necessary with respect to the purposes of the fund, as set out in the contract between the board and the authority. The board may delegate to the authority and the authority shall then have all of the powers of the board which are necessary to issue and secure bonds and carry out the purposes of the fund, to the extent provided in the contract between the board and the authority. The authority may issue the authority's bonds in principal amounts which, in the opinion of the board, are necessary to provide sufficient funds for the fund, the payment of interest on the bonds, the establishment of reserves to secure the bonds, the costs of issuance of the bonds, other expenditures of the authority incident to and necessary or convenient to carry out the bond issue for the fund, and all other expenditures of the board necessary or convenient to administer the fund. The bonds are investment securities and negotiable instruments within the meaning of and for purposes of the uniform commercial code.

8. Bonds issued under this section are payable solely and only out of the moneys, assets, or revenues of the fund, all of which may be deposited with trustees or depositories in accordance with bond or security documents and pledged by the board to the payment thereof, and are not an indebtedness of this state or the authority, or a charge against the general credit or general fund of the state or the authority, and the state shall not be liable for any financial undertakings with respect to the fund. Bonds issued under this chapter shall contain on their face a statement that the bonds do not constitute an indebtedness of the state or the authority.

9. The proceeds of bonds issued by the authority and not required for immediate disbursement may be deposited with a trustee or depository as provided in the bond documents and invested in any investment approved by the authority and specified in the trust indenture, resolution, or other instrument pursuant to which the bonds are issued without regard to any limitation otherwise provided by law.

10. The bonds shall be:

a. In a form, issued in denominations, executed in a manner, and payable over terms and with rights of redemption, and be subject to such other terms and

conditions as prescribed in the trust indenture, resolution, or other instrument authorizing their issuance.

b. Negotiable instruments under the laws of the state and may be sold at prices, at public or private sale, and in a manner, as prescribed by the authority. Chapters 23, 74, 74A and 75 do not apply to their sale or issuance of the bonds.

c. Subject to the terms, conditions, and covenants providing for the payment of the principal, redemption premiums, if any, interest, and other terms, conditions, covenants, and protective provisions safeguarding payment, not inconsistent with this chapter and as determined by the trust indenture, resolution, or other instrument authorizing their issuance.

11. The bonds are securities in which public officers and bodies of this state; political subdivisions of this state; insurance companies and associations and other persons carrying on an insurance business; banks, trust companies, savings associations, savings and loan associations, and investment companies; administrators, guardians, executors, trustees, and other fiduciaries; and other persons authorized to invest in bonds or other obligations of the state, may properly and legally invest funds, including capital, in their control or belonging to them.

12. Bonds must be authorized by a trust indenture, resolution, or other instrument of the authority, approved by the board. However, a trust indenture, resolution, or other instrument authorizing the issuance of bonds may delegate to an officer of the issuer the power to negotiate and fix the details of an issue of bonds.

13. Neither the resolution, trust agreement, nor any other instrument by which a pledge is created needs to be recorded or filed under the Iowa uniform commercial code to be valid, binding, or effective.

14. Bonds issued under the provisions of this section are declared to be issued for an essential public and governmental purpose and all bonds issued under this chapter shall be exempt from taxation by the state of Iowa and the interest on the bonds shall be exempt from the state income tax and the state inheritance and estate tax.

15. Subject to the terms of any bond documents, moneys in the fund or fund accounts may be expended for administration expenses, civil penalties, moneys paid under an agreement, stipulation, or settlement, and for the costs of any other activities as the board may determine are necessary and convenient to facilitate compliance with and to implement the intent of federal laws and regulations and this chapter.

16. The board shall cooperate with the department of natural resources in the implementation and administration of this chapter to assure that in combination with existing state statutes and rules governing underground storage tanks, the state will be, and continue to be, recognized by the federal government as having an "approved state account" under the federal Resource Conservation and Recovery Act, especially by compliance with the Act's subtitle I financial responsibility requirements as enacted in the federal Superfund Amendments and Reauthorization Act of 1986 and the financial responsibility regulations adopted by the United States environmental protection agency at 40 C.F.R. pts. 280 and 281. Whenever possible this chapter shall be interpreted to further the purposes of, and to comply, and not to conflict, with such federal requirements.

#### **455G.7 Security for bonds—capital reserve fund—irrevocable contracts.**

1. For the purpose of securing one or more issues of bonds for the fund, the authority, with the approval of the board, may authorize the establishment of one or more special funds, called "capital reserve funds". The authority may pay into the capital reserve funds the proceeds of the sale of its bonds and other money

which may be made available to the authority from other sources for the purposes of the capital reserve funds. Except as provided in this section, money in a capital reserve fund shall be used only as required for any of the following:

- a. The payment of the principal of and interest on bonds or of the sinking fund payments with respect to those bonds.
- b. The purchase or redemption of the bonds.
- c. The payment of a redemption premium required to be paid when the bonds are redeemed before maturity.

However, money in a capital reserve fund shall not be withdrawn if the withdrawal would reduce the amount in the capital reserve fund to less than the capital reserve fund requirement, except for the purpose of making payment, when due, of principal, interest, redemption premiums on the bonds, and making sinking fund payments when other money pledged to the payment of the bonds is not available for the payments. Income or interest earned by, or increment to, a capital reserve fund from the investment of all or part of the capital reserve fund may be transferred by the authority to other accounts of the fund if the transfer does not reduce the amount of the capital reserve fund below the capital reserve fund requirement.

2. If the authority decides to issue bonds secured by a capital reserve fund, the bonds shall not be issued if the amount in the capital reserve fund is less than the capital reserve fund requirement, unless at the time of issuance of the bonds the authority deposits in the capital reserve fund from the proceeds of the bonds to be issued or from other sources, an amount which, together with the amount then in the capital reserve fund, is not less than the capital reserve fund requirement.

3. In computing the amount of a capital reserve fund for the purpose of this section, securities in which all or a portion of the capital reserve fund is invested shall be valued by a reasonable method established by the authority. Valuation shall include the amount of interest earned or accrued as of the date of valuation.

4. In this section, "*capital reserve fund requirement*" means the amount required to be on deposit in the capital reserve fund as of the date of computation.

5. To assure maintenance of the capital reserve funds, the authority shall, on or before July 1 of each calendar year, make and deliver to the governor the authority's certificate stating the sum, if any, required to restore each capital reserve fund to the capital reserve fund requirement for that fund. Within thirty days after the beginning of the session of the general assembly next following the delivery of the certificate, the governor may submit to both houses printed copies of a budget including the sum, if any, required to restore each capital reserve fund to the capital reserve fund requirement for that fund. Any sums appropriated by the general assembly and paid to the authority pursuant to this section shall be deposited in the applicable capital reserve fund.

6. All amounts paid by the state pursuant to this section shall be considered advances by the state and, subject to the rights of the holders of any bonds of the authority that have previously been issued or will be issued, shall be repaid to the state without interest from all available revenues of the fund in excess of amounts required for the payment of bonds of the authority, the capital reserve fund, and operating expenses.

7. If any amount deposited in a capital reserve fund is withdrawn for payment of principal, premium, or interest on the bonds or sinking fund payments with respect to bonds thus reducing the amount of that fund to less than the capital reserve fund requirement, the authority shall immediately notify the governor and the general assembly of this event and shall take steps to restore the capital reserve fund to the capital reserve fund requirement for that fund from any amounts designated as being available for such purpose.

### 455G.8 Revenue sources for fund.

Revenue for the fund shall include, but is not limited to, the following, which shall be deposited with the board or its designee as provided by any bond or security documents and credited to the fund:

1. *Bonds issued to capitalize fund.* The proceeds of bonds issued to capitalize and pay the costs of the fund, and investment earnings on the proceeds except as required for the capital reserve funds.

2. *Environmental protection charge.* The environmental protection charge imposed under chapter 424. The proceeds of the environmental protection charge shall be allocated, consistent with this chapter, among the fund's accounts, for debt service and other fund expenses, according to the fund budget, resolution, trust agreement, or other instrument prepared or entered into by the board or authority under direction of the board.

3. *Storage tank management fee.* That portion of the storage tank management fee proceeds which are deposited into the fund, pursuant to section 455B.479.

4. *Insurance premiums.* Insurance premium income as provided by section 455G.11 shall be credited to the insurance account.

5. *Cost recovery enforcement.* Cost recovery enforcement net proceeds as provided by section 455G.13 shall be allocated among the fund's accounts as directed by the board. When federal cleanup funds are recovered, the funds are to be deposited to the remedial account of the fund and used solely for the purpose of future cleanup activities.

6. *Other sources.* Interest attributable to investment of money in the fund or an account of the fund. Moneys in the form of a devise, gift, bequest, donation, federal or other grant, reimbursement, repayment, judgment, transfer, payment, or appropriation from any source intended to be used for the purposes of the fund.

### 455G.9 Remedial program.

1. *Limits of remedial account coverage.* Moneys in the remedial account shall only be paid out for the following:

a. (1) Corrective action for an eligible release reported to the department of natural resources on or after July 1, 1987, but prior to May 5, 1989. Third-party liability is specifically excluded from remedial account coverage. For a claim for a release under this subparagraph, the remedial program shall pay no more than the lesser of twenty-five thousand dollars or one-third of the total costs of corrective action for that release, subsection 4 notwithstanding. For a release to be eligible for coverage under this subparagraph the following conditions must be satisfied:

(a) The owner or operator applying for coverage must be currently engaged in the business for which the tank connected with the release was used prior to the report of the release.

(b) The owner or operator applying for coverage shall not be a person who is maintaining, or has maintained, proof of financial responsibility for federal regulations through self-insurance.

(c) The owner or operator applying for coverage shall not have claimed bankruptcy any time on or after July 1, 1987.

(d) The claim for coverage pursuant to this subparagraph must have been filed with the board prior to January 31, 1990.

(e) The owner or operator at the time the release was reported to the department of natural resources must have been in compliance with then current monitoring requirements, if any, or must have been in the process of compliance efforts with anticipated requirements, including installation of monitoring devices, a new tank, tank improvements or retrofit, or any combination.

Total payments for claims pursuant to this subparagraph are limited to no more than six million dollars. Claims for eligible releases shall be prorated if claims filed exceed six million dollars. If claims remain partially or totally unpaid after total payments equal six million dollars, all remaining claims are void, and no entitlement exists for further payment.

(2) Corrective action for a release reported to the department of natural resources after May 5, 1989, and on or before October 26, 1990. Third-party liability is specifically excluded from remedial account coverage. Corrective action coverage provided pursuant to this paragraph may be aggregated with other financial assurance mechanisms as permitted by federal law to satisfy required aggregate and per occurrence limits of financial responsibility for both corrective action and third-party liability, if the owner's or operator's effective financial responsibility compliance date is prior to October 26, 1990.

b. Corrective action and third-party liability for a release discovered on or after January 24, 1989, for which a responsible owner or operator able to pay cannot be found and for which the federal underground storage tank trust fund or other federal moneys do not provide coverage.

c. Corrective action and third-party liability for a tank owned or operated by a financial institution eligible to participate in the remedial account under section 455G.16 if the prior owner or operator is unable to pay, if so authorized by the board as part of a condition or incentive for financial institution participation in the fund pursuant to section 455G.16.

d. One hundred percent of the costs of corrective action and third party liability for a release situated on property acquired by a county for delinquent taxes pursuant to chapters 445 through 448, for which a responsible owner or operator able to pay, other than the county, cannot be found. A county is not a "responsible party" for a release in connection with property which it acquires in connection with delinquent taxes, and does not become a responsible party by sale or transfer of property so acquired.

e. For the costs of any other activities which the board determines are necessary and convenient to facilitate compliance with and to implement the intent of federal laws and regulations and this chapter.

2. *Remedial account funding.* The remedial account shall be funded by that portion of the proceeds of the environmental protection charge imposed under chapter 424 and other moneys and revenues budgeted to the remedial account by the board.

3. *Trust fund to be established.* When the remedial account has accumulated sufficient capital to provide dependable income to cover the expenses of expected future releases or expected future losses for which no responsible owner is available, the excess capital shall be transferred to a trust fund administered by the board and created for that purpose. Collection of the environmental protection charge shall be discontinued when the trust fund is created and fully funded, except to resolve outstanding claims. The environmental protection charge may be reimposed to restore and recapitalize the trust fund in the event future losses deplete the fund so that the board does not expect it to have sufficient income and assets to cover expected future losses.

4. *Minimum copayment schedule for remedial account benefits.* An owner or operator who reports a release to the department of natural resources on or before October 26, 1990, shall pay the greater of five thousand dollars or twenty-five percent of the total costs of corrective action for that release. The remedial account shall pay the remainder, as required by federal regulations, of the total cost of the corrective action for that release, except that a county shall not be required to pay a copayment in connection with a release situated on property acquired in connection with delinquent taxes, as provided in subsection 1, paragraph "d", unless subsequent to acquisition the county actively operates a tank on the

property for purposes other than risk assessment, risk management, or tank closure.

5. *Priority of claims.* The board shall adopt rules to prioritize claims and allocate available money if funds are not available to immediately settle all current claims.

6. *Recovery of gain on sale of property.* If an owner or operator ceases to own or operate a tank site for which remedial account benefits were received within five years of the receipt of any account benefit and sells or transfers a property interest in the tank site for an amount which exceeds one hundred twenty percent of the precorrective action value, the owner or operator shall refund to the remedial account an amount equal to ninety percent of the amount in excess of one hundred twenty percent of the precorrective action value up to a maximum of the expenses incurred by the remedial account associated with the tank site plus interest, equal to the interest for the most recent twelve-month period for the most recent bond issue for the fund, on the expenses incurred, compounded annually. Expenses incurred by the fund are a lien upon the property recordable and collectible in the same manner as the lien provided for in section 424.11 at the time of sale or transfer, subject to the terms of this section.

This subsection shall not apply if the sale or transfer is pursuant to a power of eminent domain, or benefits. When federal cleanup funds are recovered, the funds are to be deposited to the remedial account of the fund and used solely for the purpose of future cleanup activities.

7. *Recurring releases treated as a newly reported release.* A release shall be treated as a release reported on or after May 5, 1989, if prior to May 5, 1989, a release was reported to the department, corrective action was taken pursuant to an assessment plan approved by the department, and the work performed was accepted by the department. For purposes of this subsection, work performed is accepted by the department if the department did not order further action within ninety days of the date on which the department had notice that the work was completed, unless the department clearly indicated in writing to the owner, operator, contractor, or other agent that additional work would be required beyond that specified in the assessment plan or in addition to the work actually performed.

#### **455G.10 Loan guarantee account.**

1. The board may create a loan guarantee account to offer loan guarantees to small businesses for the following purposes:

a. All or a portion of the expenses incurred by the applicant small business for its share of corrective action.

b. Tank and monitoring equipment improvements necessary to satisfy federal technical standards to become insurable.

Moneys from the environmental protection charge revenues may be used to fund the loan guarantee account according to the fund budget as approved by the board. Loan guarantees shall be made on terms and conditions determined by the board to be reasonable, except that in no case may a loan guarantee satisfy more than ninety percent of the outstanding balance of a loan.

2. A separate nonlapsing loan guarantee account is created within the fund. Any funds remaining in the account at the end of each fiscal year shall not revert to the fund or the general fund but shall remain in the account. The loan account shall be maintained by the treasurer of state. All expenses incurred by the loan account shall be payable solely from the loan account and no liability or obligation shall be imposed upon the state beyond this amount.

3. The board shall administer the loan guarantee account. The board may delegate administration of the account, provided that the administrator is subject to the board's direct supervision and direction. The board shall adopt rules regarding the provision of loan guarantees to financially qualified small businesses for the purposes permitted by subsection 1. The board may impose such terms and conditions as it deems reasonable and necessary or appropriate. The board shall take appropriate steps to publicize the existence of the loan account.

4. As a condition of eligibility for financial assistance from the loan guarantee account, a small business shall demonstrate satisfactory attempts to obtain financing from private lending sources. When applying for loan guarantee account assistance, the small business shall demonstrate good faith attempts to obtain financing from at least two financial institutions. The board may first refer a tank owner or operator to a financial institution eligible to participate in the fund under section 455G.16; however, if no such financial institution is currently willing or able to make the required loan, the small business shall determine if any of the previously contacted financial institutions would make the loan in participation with the loan guarantee account. The loan guarantee account may offer to guarantee a loan, or provide other forms of financial assistance to facilitate a private loan.

5. The maturity for each financial assistance package made by the board pursuant to this chapter shall be the shortest feasible term commensurate with the repayment ability of the small business borrower. However, the maturity date of a loan shall not exceed ten years and the guarantee is ineffective beyond the agreed term of the guarantee or ten years from initiation of the guarantee, whichever term is shorter.

6. The source of funds for the loan account shall be from the following:

a. Loan guarantee account income, including loan guarantee service fees, if any, and investment income attributed to the account by the board.

b. Moneys allocated to the account by the board according to the fund budget approved by the board.

c. Moneys appropriated by the federal government or general assembly and made available to the loan account.

7. A loan loss reserve account shall be established within the loan guarantee account. A default on a loan guaranteed under this section shall be paid from such reserve account. In administering the program the board shall not guarantee loan values in excess of the amount credited to the reserve account and only moneys set aside in the reserve account may be used for the payment of a default. A default is not eligible for payment until the lender has satisfied all administrative and legal remedies for settlement of the loan and the loan has been reduced to judgment by the lender. After the default has been reduced to judgment and the guarantee paid from the reserve account, the board is entitled to an assignment of the judgment. The board shall take all appropriate action to enforce the judgment or may enter into an agreement with the lender to provide for enforcement. Upon collection of the amount guaranteed, any excess collected shall be deposited into the fund. The general assembly is not obligated to appropriate any moneys to pay for any defaults or to appropriate any moneys to be credited to the reserve account. The loan guarantee program does not obligate the state or the board except to the extent provided in this section, and the board in administering the program shall not give or lend the credit of the state of Iowa.

#### **455G.11 Insurance account.**

1. *Insurance account as a financial assurance mechanism.* The insurance account shall offer financial assurance for a qualified owner or operator under the

terms and conditions provided for under this section. Coverage may be provided to the owner or the operator, or to each separately. The board is not required to resolve whether the owner or operator, or both are responsible for a release under the terms of any agreement between the owner and operator.

2. *Limits of coverage available.* An owner or operator required to maintain proof of financial responsibility may purchase coverage up to the federally required levels for that owner or operator subject to the terms and conditions under this section and those adopted by the board.

3. *Eligibility of owners and operators for insurance account coverage.* An owner or operator, subject to underwriting requirements and such terms and conditions deemed necessary and convenient by the board, may purchase insurance coverage from the insurance account to provide proof of financial responsibility provided that a tank to be insured satisfies one of the following conditions:

a. Satisfies performance standards for new underground storage tank systems as specified by the federal environmental protection agency in 40 C.F.R. §280.20, as amended through January 1, 1989.

b. Has satisfied on or before the date of the application standards for upgraded underground storage tank systems as specified by the federal environmental protection agency in 40 C.F.R. §280.21, as amended through January 1, 1989.

c. The applicant certifies in writing to the board that the tank to be insured will be brought into compliance with either paragraph "a" or "b", on or before October 26, 1991, provided that prior to the provision of insurance account coverage, the tank site tests release free. For a tank qualifying for insurance coverage pursuant to this paragraph at the time of application or renewal, the owner or operator shall pay a per tank premium equal to two times the normally scheduled premium for a tank satisfying paragraph "a" or "b". An owner or operator who fails to comply as certified to the board on or before October 26, 1991, shall not insure that tank through the insurance account unless and until the tank satisfies the requirements of paragraph "a" or "b".

4. *Actuarially sound premiums based on risk factor adjustments after five years.* The annual premium for insurance coverage shall be:

a. For the year July 1, 1989, through June 30, 1990, one hundred dollars per tank.

b. For the year July 1, 1990, through June 30, 1991, one hundred fifty dollars per tank.

c. For the year July 1, 1991, through June 30, 1992, two hundred dollars per tank.

d. For the year July 1, 1992, through June 30, 1993, two hundred fifty dollars per tank.

e. For the year July 1, 1993, through June 30, 1994, three hundred dollars per tank.

f. For subsequent years, an owner or operator applying for coverage shall pay an annually adjusted insurance premium for coverage by the insurance account. The board may only approve fund coverage through the payment of a premium established on an actuarially sound basis. Risk factors shall be taken into account in establishing premiums. It is the intent of the general assembly that an actuarially sound premium reflect the risk to the insurance account presented by the insured. Risk factor adjustments should reflect the range of risk presented by the variety of tank systems, monitoring systems, and risk management practices in the general insurable tank population. Premium adjustments for risk factors should at minimum take into account lifetime costs of a tank and monitoring system and insurance account premiums for that tank system so as to provide a positive economic incentive to the owner or operator to install the more environmentally safe option so as to reduce the exposure of the insurance account to loss.

Actuarially sound is not limited in its meaning to fund premium revenue equaling or exceeding fund expenditures for the general tank population.

If coverage is purchased for any part of a year the purchaser shall pay the full annual premium.

*g.* The insurance account may offer, at the buyer's option, a range of deductibles. A ten thousand dollar deductible policy shall be offered.

5. *Future repeal.* The future repeal of this section shall not terminate the following obligations or authorities necessary to administer the obligations until these obligations are satisfied:

*a.* The payment of claims filed prior to the effective date of any future repeal, against the insurance account until moneys in the account are exhausted. Upon exhaustion of the moneys in the account, any remaining claims shall be invalid. If following satisfaction of the obligations pursuant to this section, moneys remain in the account, the remaining moneys and moneys due the account shall be prorated and returned to premium payers on an equitable basis as determined by the board.

*b.* The resolution of a cost recovery action filed prior to the effective date of the repeal.

6. *Installers' inclusion in fund.* The Iowa comprehensive petroleum underground storage tank fund board shall offer insurance coverage under the fund's insurance account to an installer of a certified underground storage tank installation within the state for environmental hazard coverage in connection with the certified installation as provided in this subsection. The board shall perform an actuarial study to determine the actuarially sound premiums, deductibles, terms, and conditions to be offered to installers for certified installations in Iowa. The insurance coverage offered to installers shall provide for no greater deductibles and the same or greater limits of coverage as offered to owners and operators of tanks. Coverage under this subsection shall be limited to environmental hazard coverage for both corrective action and third-party liability for a certified tank installation in Iowa in connection with a release from that tank.

The board shall adopt rules requiring certification of tank installations and require certification of a new tank installation as a precondition to offering insurance to an owner or operator or an installer. The board shall set in the rule the effective date for the certification requirement. Certification rules shall at minimum require that an installation be personally inspected by an independent licensed engineer, fire marshal or state fire marshal's designee qualified and authorized by the board to perform the required inspection and that the tank and installation of the tank comply with applicable technical standards and manufacturer's instructions and warranty conditions. An inspector shall not be an owner or operator of a tank, or an employee of an owner, operator, or installer. The insurance coverage shall be extended to premium paying installers on or before December 1, 1989. For the period from May 5, 1989, to and including the date that insurance coverage under the fund is extended to installers, the fund shall not seek third-party recovery from an installer.

The board's actuarial study shall include, but is not limited to, the following topics:

*a.* Actuarial estimate of the per-tank premium necessary to provide actuarially sound coverage to a tank installer for that certified tank installation. The study may include available loss data on past installations for installers, existing claims against installers for corrective action and third-party liability, and other information deemed relevant by the board.

*b.* The type of certification standards and procedures or other preconditions to providing coverage to a tank installer.

*c.* The cost and availability of private insurance for installers.

d. The number of installers doing business in the state.

e. Suggested limits of coverage, deductible levels, and other coverage features, terms, or conditions provided the same are no less favorable than that offered owners and operators under this section.

The results of the study shall be submitted to the division of insurance prior to the extension of coverage to installers under this subsection.

7. *Account expenditures.* Moneys in the insurance account may be expended for the following purposes:

a. To take corrective action for and to compensate a third party for damages, including but not limited to payment of a judgment for bodily injury or property damage caused by a release from a tank, where coverage has been provided to the owner or operator from the insurance account, up to the limits of coverage extended.

b. For the costs of any other activities as the board may determine are necessary and convenient to facilitate compliance with and to implement the intent of federal laws and regulations and this chapter.

#### **455G.12 Board authority for prioritization.**

If the board determines that, within the realm of sound business judgment and practice, prioritization of assistance is necessary in light of funds available for loan guarantees or insurance coverage, the board may develop rules for assistance or coverage prioritization based upon adherence or planned adherence of the owner or operator to higher than minimum environmental protection and safety compliance considerations.

Prior to the adoption of prioritization rules, the board shall at minimum review the following issues:

1. The positive environmental impact of assistance prioritization.
2. The economic feasibility, including the availability of private financing, for an owner or operator to obtain priority status.
3. Any negative impact on Iowa's rural petroleum distribution network which could result from prioritization.
4. Any similar prioritization systems in use by the private financing or insurance markets in this state, including terms, conditions, or exclusions.
5. The intent of this chapter that the board shall maximize the availability of reasonably priced, financially sound insurance coverage or loan guarantee assistance.

89 Acts, ch 131, §53 HF 447

#### **455G.13 Cost recovery enforcement.**

1. *Full recovery sought from owner.* The board shall seek full recovery from the owner or operator of the tank which released the petroleum and which is the subject of a corrective action, for which the fund expends moneys for corrective action or third-party liability, and for all other costs or moneys expended by the fund in connection with the release. When federal cleanup funds are recovered, the funds are to be deposited to the remedial account of the fund and used solely for the purpose of future cleanup activities.

2. *Limitation of liability of owner or operator.* Except as provided in subsection 3:

a. The board or the department of natural resources shall not seek recovery for expenses in connection with corrective action for a release from an owner or operator eligible for assistance under the remedial account except for any unpaid portion of the deductible or copayment. This section does not affect any authorization of the department of natural resources to impose or collect civil or

administrative fines or penalties or fees. The remedial account shall not be held liable for any third-party liability.

b. An owner or operator's liability for a release for which coverage is admitted under the insurance account shall not exceed the amount of the deductible.

3. *Owner or operator not in compliance, subject to full and total cost recovery.* Notwithstanding subsection 2, the liability of an owner or operator shall be the full and total costs of corrective action and bodily injury or property damage to third parties, as specified in subsection 1, if the owner or operator has not complied with the financial responsibility or other underground storage tank rules of the department of natural resources or with this chapter and rules adopted under this chapter.

4. *Treble damages for certain violations.* Notwithstanding subsections 2 and 3, the owner or operator, or both, of a tank are liable to the fund for punitive damages in an amount equal to three times the amount of any cost incurred or moneys expended by the fund as a result of a release of petroleum from the tank if the owner or operator did any of the following:

a. Failed, without sufficient cause, to respond to a release of petroleum from the tank upon, or in accordance with, a notice issued by the director of the department of natural resources.

b. After May 5, 1989, failed to perform any of the following:

(1) Failed to register the tank, which was known to exist or reasonably should have been known to exist.

(2) Intentionally failed to report a known release.

The punitive damages imposed under this subsection are in addition to any costs or expenditures recovered from the owner or operator pursuant to this chapter and in addition to any other penalty or relief provided by this chapter or any other law.

However, the state, a city, county, or other political subdivision shall not be liable for punitive damages.

5. *Lien on tank site.* Any amount for which an owner or operator is liable to the fund, if not paid when due, by statute, rule, or contract, or determination of liability by the board or department of natural resources after hearing, shall constitute a lien upon the real property where the tank, which was the subject of corrective action, is situated, and the liability shall be collected in the same manner as the environmental protection charge pursuant to section 424.11.

6. *Joinder of parties.* The department of natural resources has standing in any case or contested action related to the fund or a tank, and upon motion and sufficient showing by a party, the court or the administrative law judge shall join to the action any person who may be liable for costs and expenditures of the type recoverable pursuant to this section.

7. *Strict liability.* The standard of liability for a release of petroleum or other regulated substance as defined in section 455B.471 is strict liability.

8. *Third-party contracts not binding on board, proceedings against responsible party.* An insurance, indemnification, hold harmless, conveyance, or similar risk-sharing or risk-shifting agreement shall not be effective to transfer any liability for costs recoverable under this section. The fund, board, or department of natural resources may proceed directly against the owner or operator or other allegedly responsible party. This section does not bar any agreement to insure, hold harmless, or indemnify a party to the agreement for any costs or expenditures under this chapter, and does not modify rights between the parties to an agreement.

9. *Later proceedings permitted against other parties.* The entry of judgment against a party to the action does not bar a future action by the board or the department of natural resources against another person who is later alleged to be or discovered to be liable for costs and expenditures paid by the fund. Subsequent

successful proceedings against another party shall not modify or reduce the liability of a party against whom judgment has been previously entered.

10. *Subrogation rights.* Payment of a claim by the fund pursuant to this chapter shall be conditioned upon the board's acquiring by subrogation the rights of the claimant to recover those costs and expenditures for corrective action for which the fund has compensated the claimant, from the person responsible or liable for the unauthorized release. A claimant is precluded from receiving double compensation for the same injury.

In an action brought pursuant to this chapter seeking damages for corrective action or third-party liability, the court shall permit evidence and argument as to the replacement or indemnification of actual economic losses incurred or to be incurred in the future by the claimant by reason of insurance benefits, governmental benefits or programs, or from any other source.

11. *Exclusion of punitive damages.* The fund shall not be liable in any case for punitive damages.

The board may impose conditions on the participation of a financial institution in the fund. Additionally, the board may offer incentives to financial institutions meeting conditions imposed by the board. Incentives may include extended fund coverage of corrective action or third-party liability expenses, waiver of copayment or deductible requirements, or other benefits not offered to other participants, if reasonably intended to increase the quantity of private capital available for loans by an amount greater than the increased costs of the incentives to the fund.

a. A licensed engineer, except that if underground storage tank installation is within the scope of practice of a particular class of licensed engineer, additional training shall not be required for that class. A licensed engineer for whom underground storage tank installation is within the scope of practice shall be an "authorized inspector", rather than a "certified inspector".

b. A fire marshal.

2. The board shall adopt approved curricula for training engineers and fire marshals as a precondition to certification as underground storage tank installation inspectors.

3. The board shall adopt approved curricula for training persons to install underground storage tanks in such a manner that the resulting installation may be certified under section 455G.11, subsection 6.

4. The department of natural resources shall adopt approved curricula for training persons to conduct corrective actions consistent with the requirements of the department of natural resources.

5. The board shall require by rule that all certified or authorized underground storage tank inspectors register with the board and that all persons trained to perform or performing certified tank installations register with the board. A person's failure to register shall not affect the person's certification, or the certification of an otherwise eligible installation performed by that person, but rules may provide for a civil penalty of no more than fifty dollars. The board may provide a list of registrants to any interested person. The board may impose a fee for registration to recover the costs of administering the registration account.

**467A.4 Soil conservation division—committee.**

1. The soil conservation division is established within the department to perform the functions conferred upon it in chapters 83, 83A, and 467A through 467F. The division shall be administered in accordance with the policies of the state soil conservation committee, which shall advise the division and which shall approve administrative rules proposed by the division for the administration of

chapters 83, 83A, and 467A through 467F before the rules are adopted pursuant to section 17A.5. If a difference exists between the committee and secretary regarding the content of a proposed rule, the secretary shall notify the chairperson of the committee of the difference within thirty days from the committee's action on the rule. The secretary and the committee shall meet to resolve the difference within thirty days after the secretary provides the committee with notice of the difference.

The state soil conservation committee consists of a chairperson and eight other voting members. The following shall serve as ex officio nonvoting members of the committee: The director of the Iowa cooperative extension service in agriculture and home economics, or the director's designee; and the director of the department of natural resources or the director's designee. Nine voting members shall be appointed by the governor subject to confirmation by the senate. Six of the appointive members shall be persons engaged in actual farming operations, one of whom shall be a resident of each of six geographic regions in the state, including northwest, southwest, north central, south central, northeast, and southeast Iowa, and no more than one of whom shall be a resident of any one county. The boundaries of the geographic regions shall be established by rule. The seventh, eighth, and ninth appointive members shall be chosen by the governor from the state at large with one appointed to be a representative of cities, one appointed to be a representative of the mining industry, and one appointee who is a farmer actively engaged in tree farming. The committee may invite the secretary of agriculture of the United States to appoint one person to serve with the other members, and the president of the Iowa county engineers association may designate a member of the association to serve in the same manner, but these persons have no vote and shall serve in an advisory capacity only. The committee may perform acts, hold public hearings, and propose and approve rules pursuant to chapter 17A as necessary for the execution of its functions.

2. The committee shall recommend three persons to the secretary of agriculture who shall appoint from the persons recommended an administrative director to head the division who shall serve at the pleasure of the secretary. After reviewing the names submitted, the secretary may request the soil conservation committee to submit additional names for consideration. The committee shall recommend to the secretary each year a budget for the division. The secretary, at the earliest opportunity and prior to formulating a budget, shall meet with representatives of the committee to discuss the committee's recommendation. The committee or division may call upon the attorney general of the state for necessary legal services. The committee may delegate to its chairperson, to one or more of its members, or to one or more agents or employees, powers and duties as it deems proper. Upon request of the committee, for the purpose of carrying out any of the functions assigned the committee or the department by law, the supervising officer of any state agency, or of any state institution of learning shall, insofar as possible under available appropriations, and having due regard to the needs of the agency to which the request is directed, assign or detail the request to the staff or personnel of the agency or institution of learning, and make the special reports, surveys, or studies as the committee requests.

3. The committee shall designate its chairperson, and may change the designation. The members appointed by the governor shall serve for a period of six years. Members shall be appointed in each odd-numbered year to succeed members whose terms expire as provided by section 69.19. Appointments may be made at other times and for other periods as necessary to fill vacancies on the committee. Members shall not be appointed to serve more than two complete six-year terms. Members designated to represent the director of the department of natural resources and the director of the Iowa cooperative extension service in agriculture and home economics shall serve at the pleasure of the officer making

the designation. A majority of the voting members of the committee constitutes a quorum, and the concurrence of a majority of the voting members of the committee in any matter within their duties is required for its determination. Members are entitled to actual expenses necessarily incurred in the discharge of their duties as members of the committee. The expenses paid to the committee members shall be paid from funds appropriated to the department. Each member of the committee may also be eligible to receive compensation as provided in section 7E.6. The committee shall provide for the execution of surety bonds for all employees and officers who are entrusted with funds or property, shall provide for the keeping of a full and accurate record of all proceedings and of all resolutions and orders issued or adopted, and shall provide for an annual audit of the accounts of receipts and disbursements.

4. In addition to other duties and powers conferred upon the division of soil conservation, the division has the following duties and powers:

a. To offer assistance as appropriate to the commissioners of soil and water conservation districts in carrying out any of their powers and programs.

b. To take notice of each district's long-range resource conservation plan established under section 467A.7, in order to keep the commissioners of each of the several districts informed of the activities and experience of all other districts, and to facilitate an interchange of advice and experience between such districts and co-operation between them.

c. To co-ordinate the programs of the soil and water conservation districts so far as this may be done by advice and consultation.

d. To secure the co-operation and assistance of the United States and any of its agencies, and of agencies of this state, in the work of such districts.

e. To disseminate information throughout the state concerning the activities and program of the soil and water conservation districts.

f. To render financial aid and assistance to soil conservation districts for the purpose of carrying out the policy stated in this chapter.

g. To assist each soil and water conservation district in developing a district soil and water resource conservation plan as provided under section 467A.7. The plan shall be developed according to rules adopted by the division to preserve and protect the public interest in the soil and water resources of this state for future generations and for this purpose to encourage, promote, facilitate, and where such public interest requires, to mandate the conservation and proper control of and use of the soil and water resources of this state, by measures including, but not limited to, the control of floods, the control of erosion by water or by wind, the preservation of the quality of water for its optimum use for agricultural, irrigation, recreational, industrial, and domestic purposes, all of which shall be presumed to be conducive to the public health, convenience, and welfare, both present and future.

h. To file the district soil and water resource conservation plans as part of a state soil and water resource conservation plan. The state plan shall contain on a statewide basis the information required for a district plan under this section.

i. To establish a position of state drainage coordinator for drainage districts and drainage and levee districts which will keep the management of those districts informed of the activities and experience of all other such districts and facilitate an interchange of advice, experience and cooperation among the districts, coordinate by advice and consultation the programs of the districts, secure the cooperation and assistance of the United States and its agencies and of the agencies of this state and other states in the work of the districts, disseminate information throughout the state concerning the activities and programs of the districts and provide other appropriate assistance to the districts.

#### 467A.5 Soil and water conservation districts.

1. The one hundred soil and water conservation districts\* established in the manner which was prescribed by law prior to July 1, 1975 shall continue in existence with the boundaries and the names\* in effect on July 1, 1975. If the existence of a district so established is discontinued pursuant to section 467A.10, a petition for re-establishment of the district or for annexation of the former district's territory to any other abutting district may be submitted to, and shall be acted upon by, the state soil conservation committee in substantially the manner provided by section 467A.5, Code 1975.

2. The governing body of each district shall consist of five commissioners elected on a nonpartisan basis for staggered six-year terms commencing on the first day of January that is not a Sunday or holiday following their election. Any eligible elector residing in the district is eligible to the office of commissioner, except that no more than one commissioner shall at any one time be a resident of any one township. A vacancy is created in the office of any commissioner who changes residence into a township where another commissioner then resides. A vacancy in the office of commissioner shall be filled by appointment of the state soil conservation committee until the next succeeding general election, at which time the balance of the unexpired term shall be filled as provided by section 69.12.

3. At each general election a successor shall be chosen for each commissioner whose term will expire in the succeeding January. Nomination of candidates for the office of commissioner shall be made by petition in accordance with chapter 45, except that each candidate's nominating petition shall be signed by at least twenty-five eligible electors of the district. The petition form shall be furnished by the county commissioner of elections. Every candidate shall file with the nomination papers an affidavit stating the candidate's name, the candidate's residence, that the person is a candidate and is eligible for the office of commissioner, and that if elected the candidate will qualify for the office. The signed petitions shall be filed with the county commissioner of elections not later than five o'clock p.m. on the fifty-fifth day prior to the general election. The votes for the office of district commissioner shall be canvassed in the same manner as the votes for county officers, and the returns shall be certified to the commissioners of the district. A plurality shall be sufficient to elect commissioners, and no primary election for the office shall be held. If the canvass shows that the two candidates receiving the highest and the second highest number of votes for the office of district commissioner are both residents of the same township, the board shall certify as elected the candidate who received the highest number of votes for the office and the candidate receiving the next highest number of votes for the office who is not a resident of the same township as the candidate receiving the highest number of votes.

#### 467A.7 Powers of districts and commissioners.

A soil and water conservation district organized under this chapter has the following powers, in addition to others granted in other sections of this chapter:

1. To conduct surveys, investigations, and research relating to the character of soil erosion and erosion, floodwater, and sediment damages, and the preventive and control measures needed, to publish the results of such surveys, investigations or research, and to disseminate information concerning such preventive and control measures; provided, however, that in order to avoid duplication of research activities, no district shall initiate any research program except in co-operation with the Iowa agricultural experiment station located at Ames, Iowa, and pursuant to a co-operative agreement entered into between the Iowa agricultural experiment station and such district.

2. To conduct demonstrational projects within the district on lands owned or controlled by this state or any of its agencies, with the consent and co-operation of the agency administering and having jurisdiction thereof, and on any other lands within the district upon obtaining the consent of the owner or occupier of such lands or the necessary rights or interests in such lands, in order to demonstrate by example the means, methods, and measures by which soil and soil resources may be conserved, and soil erosion in the form of soil blowing and soil washing may be prevented and controlled; provided, however, that in order to avoid duplication of agricultural extension activities, no district shall initiate any demonstrational projects, except in co-operation with the Iowa agricultural extension service whose offices are located at Ames, Iowa, and pursuant to a co-operative agreement entered into between the Iowa agricultural extension service and such district.

3. To carry out preventive and control measures within the district, including, but not limited to, crop rotations, engineering operations, methods of cultivation, the growing of vegetation, changes in use of land, and the measures listed in section 467A.2, on lands owned or controlled by this state or any of its agencies, with the consent and co-operation of the agency administering and having jurisdiction thereof, and on any other lands within the district, upon obtaining the consent of the owner or occupier of such lands or the necessary rights or interests in such lands. Any approval or permits from the council required under other provisions of law shall be obtained by the district prior to initiation of any construction activity.

4. To co-operate, or enter into agreements with, and within the limits of appropriations duly made available to it by law, to furnish financial or other aid to any agency, governmental or otherwise, or any owner or occupier of lands within the district, in the carrying on of erosion-control and watershed protection and flood prevention operations within the district, subject to such conditions as the commissioners may deem necessary to advance the purposes of this chapter.

5. To obtain options upon and to acquire, by purchase, exchange, lease, gift, grant, bequest, devise or otherwise, any property, real or personal, or rights or interests therein; to maintain, administer, and improve any properties acquired, to receive income from such properties and to expend such income in carrying out the purposes and provisions of this chapter; and to sell, lease or otherwise dispose of any of its property or interests therein in furtherance of the purposes and provisions of this chapter.

6. To make available on such terms as it shall prescribe, to landowners or occupiers within the district, agricultural and engineering machinery and equipment, fertilizer, lime, and such other material or equipment as will assist such landowners or occupiers to carry on operations upon their lands for the conservation of soil resources and for the prevention and control of soil erosion and for the prevention of erosion, floodwater, and sediment damages.

7. To construct, improve, and maintain such structures as may be necessary or convenient for the performance of any of the operations authorized in this chapter. Any approval or permits from the council required under other provisions of law shall be obtained by the district prior to initiation of any construction activity.

8. To develop comprehensive plans for the conservation of soil resources and for the control and prevention of soil erosion and for the prevention of erosion, floodwater, and sediment damages within the district, which plans shall specify in such detail as may be possible, the acts, procedures, performances, and avoidances which are necessary or desirable for the effectuation of such plans, including the specification of engineering operations, methods of cultivation, the growing of vegetation, cropping programs, tillage practices, and changes in use of land; and to publish such plans and information and bring them to the attention of owners and occupiers of lands within the district.

9. To sue and be sued in the name of the district; to have a seal, which seal shall be judicially noticed; to have perpetual succession unless terminated as herein-after provided; to make and execute contracts and other instruments, necessary or convenient to the exercise of its powers; to make, and from time to time amend and repeal, rules not inconsistent with this chapter, to carry into effect its purposes and powers.

10. To accept donations, gifts, and contributions in money, services, materials, or otherwise, from the United States or any of its agencies, or from this state or any of its agencies, and to use or expend such moneys, services, materials, or other contributions in carrying on its operations.

11. As a condition to the extending of any benefits under this chapter to, or the performance of work upon, any lands not owned or controlled by this state or any of its agencies, the commissioners may require contributions in money, services, materials, or otherwise to any operations conferring such benefits, and may require landowners or occupiers to enter into and perform such agreements or covenants as to the permanent use of such lands as will tend to prevent or control erosion thereon.

12. No provisions with respect to the acquisition, operation, or disposition of property by other public bodies shall be applicable to a district organized hereunder unless the legislature shall specifically so state.

13. After the formation of any district under the provisions of this chapter, all participation hereunder shall be purely voluntary, except as specifically stated herein.

14. Subject to the approval of the state soil conservation committee, to change the name of the soil and water conservation district.

15. Reserved.

16. The commissioners shall, as a condition for the receipt of any state cost-sharing funds for permanent soil conservation practices, require the owner of the land on which the practices are to be established to covenant and file, in the office of the soil and water conservation district of the county in which the land is located, an agreement identifying the particular lands upon which the practices for which state cost-sharing funds are to be received will be established, and providing that the project will not be removed, altered, or modified so as to lessen its effectiveness without the consent of the commissioners, obtained in advance and based on guidelines drawn up by the state soil conservation committee, for a period of twenty years after the date of receiving payment. The commissioners shall assist the division in the enforcement of this subsection. The agreement does not create a lien on the land, but is a charge personally against the owner of the land at the time of removal, alteration, or modification if an administrative order is made under section 467A.61, subsection 3.

17. To enter into special funding agreements which, notwithstanding subsection 4, provide for cost sharing up to sixty percent of the cost of a project including five or more contiguous farm units which have at least five hundred or more acres of farmland and which constitute at least seventy-five percent of the agricultural land lying within a watershed or subwatershed, where the owners jointly agree to a watershed conservation plan in conjunction with their respective farm unit soil conservation plans.

18. To encourage local school districts to provide instruction in the importance of and in some of the basic methods of soil conservation, as a part of course work relating to conservation of natural resources and environmental awareness required in rules adopted by the state board of education pursuant to section 256.11, subsections 3 and 4, and to offer technical assistance to schools in developing such instructional programs.

19. To make incentive payments to encourage summer construction of permanent soil and water conservation practices, provided that the commissioners of a

soil conservation district shall not use state cost-sharing funds to pay such incentives in any fiscal year when requests which seek cost sharing for eligible permanent soil and water conservation practices, but which do not seek incentive payments under this subsection, are sufficient to use all of the state cost-sharing funds made available to the district for that year. Incentive payments made under this subsection may, notwithstanding subsection 4, provide for cost sharing up to sixty percent of the cost of establishing any permanent soil and water conservation practice where the establishment of that practice involves a construction project which begins after June 1 but before August 15 of any calendar year. Incentive payments under this subsection may also include, or may be limited to a pro rata amount, in accordance with rules of the department, to compensate for production loss on the area disturbed for construction of practices.

20. To develop a soil and water resource conservation plan for the district.

a. The district plan shall contain a comprehensive long-range assessment of soil and surface water resources in the district consistent with rules approved by the committee under section 467A.4. In developing the plan the district may receive technical support from the United States department of agriculture's soil conservation service and the county board of supervisors in the county where the district is located. The division and the Iowa cooperative extension service in agriculture and home economics may provide technical support to the district. The support may include, but is not limited to, the following: assessing the condition of soil and surface water in the district, including an evaluation of the type, amount, and quality of soil and water, the threat of soil erosion and erosion, floodwater, and sediment damages, and necessary preventative and control measures; developing methods to maintain or improve soil and water condition; and cooperating with other state and federal agencies to carry out this support.

b. The district plan shall be filed with the recorder in the county in which the district is located and shall be filed with the division as part of the state soil and water resource conservation plan, and amended or updated as necessary, after the committee approves the district plan and after the administrator of the division signs the district plan. The commissioners shall provide notice of the filing and may provide a copy of the approved district plan to the county board of supervisors in the county where the district is located.

21. To enter into agreements pursuant to chapter 467F with the owner or occupier of land within the district or cooperating districts, or any other private entity or public agency, in carrying out water protection practices, including district and multidistrict projects to protect this state's groundwater and surface water from point and nonpoint sources of contamination, including but not limited to agricultural drainage wells, sinkholes, sedimentation, and chemical pollutants.

**467A.10 Discontinuance of districts.**

At any time after five years after the organization of a district under this chapter, any twenty-five owners of land lying within the boundaries of the district, but in no case less than twenty percent of the owners of land lying within the district, may file a petition with the committee asking that the operations of the district be terminated and the existence of the district discontinued. The committee may conduct public meetings and public hearings upon the petition as necessary to assist in the consideration of the petition. Within sixty days after a petition has been received by the committee, the division shall give due notice of the holding of a referendum, shall supervise the referendum, and shall issue appropriate rules governing the conduct of the referendum. The question is to be submitted by ballots upon which the words "For terminating the existence of the ..... (name of the soil and water conservation district

to be here inserted)" and "Against terminating the existence of the ..... (name of the soil and water conservation district to be here inserted)" shall be printed, with a square before each proposition and a direction to insert an X mark in the square before one or the other of the propositions as the voter favors or opposes discontinuance of the district. All owners of lands lying within the boundaries of the district are eligible to vote in the referendum. No informalities in the conduct of the referendum or in any matters relating to the referendum invalidate the referendum or the result of the referendum if notice was given substantially as provided in this section and if the referendum was fairly conducted.

When sixty-five percent of the landowners vote to terminate the existence of the district, the committee shall advise the commissioners to terminate the affairs of the district. The commissioners shall dispose of all property belonging to the district at public auction and shall pay over the proceeds of the sale to be deposited into the state treasury. The commissioners shall then file an application, duly verified, with the secretary of state for the discontinuance of the district, and shall transmit with the application the certificate of the committee setting forth the determination of the committee that the continued operation of the district is not administratively practicable and feasible. The application shall recite that the property of the district has been disposed of and the proceeds paid over as provided in this section, and shall set forth a full accounting of the properties and proceeds of the sale. The secretary of state shall issue to the commissioners a certificate of dissolution and shall record the certificate in an appropriate book of record in the secretary of state's office.

Upon issuance of a certificate of dissolution under this section, all ordinances and regulations previously adopted and in force within the districts are of no further force and effect. All contracts previously entered into, to which the district or commissioners are parties, remain in force and effect for the period provided in the contracts. The committee is substituted for the district or commissioners as party to the contracts. The committee is entitled to all benefits and subject to all liabilities under the contracts and has the same right and liability to perform, to require performance, to sue and be sued, and to modify or terminate the contracts by mutual consent or otherwise, as the commissioners of the district would have had.

The committee shall not entertain petitions for the discontinuance of any district nor conduct referenda upon discontinuance petitions nor make determinations pursuant to the petitions in accordance with this chapter, more often than once in five years.

#### **467A.13 Purpose of subdistricts.**

Subdistricts of a soil and water conservation district may be formed as provided in this chapter for the purposes of carrying out watershed protection and flood prevention programs within the subdistrict but shall not be formed solely for the purpose of establishing or taking over the operation of an existing drainage district.

#### **467A.42 Soil and water conservation practices.**

In addition to the definitions established by section 467A.3, as used in sections 467A.43 to 467A.53 and sections 467A.61 to 467A.66, unless the context otherwise requires:

1. "*Soil loss limit*" means the maximum amount of soil loss due to erosion by water or wind, expressed in terms of tons per acre per year, which the commis-

sioners of the respective soil and water conservation districts determine is acceptable in order to meet the objectives expressed in section 467D.1.\*

2. "*Soil and water conservation practices*" means any of the practices designated in or pursuant to this subsection which serve to prevent erosion of soil by wind or water, in excess of applicable soil loss limits, from land used for agricultural or horticultural purposes only.

a. "*Permanent soil and water conservation practices*" means planting of perennial grasses, legumes, shrubs, or trees, the establishment of grassed waterways, and the construction of terraces, or other permanent soil and water practices approved by the committee.

b. "*Temporary soil and water conservation practices*" means planting of annual or biennial crops, use of strip-cropping, contour planting, or minimum or mulch tillage, and any other cultural practices approved by the committee.

3. "*Erosion control practices*" means:

a. The construction or installation, and maintenance, of such structures or devices as are necessary to carry to a suitable outlet from the site of any building housing four or more residential units, any commercial or industrial development or any publicly or privately owned recreational or service facility of any kind, not served by a central storm sewer system, any water which:

(1) Would otherwise cause erosion in excess of the applicable soil loss limit; and

(2) Does not carry nor constitute sewage, industrial waste, or other waste as defined by section 455B.171.

b. The employment of temporary devices or structures, temporary seeding, fibre mats, plastic, straw, or other measures adequate to prevent erosion in excess of the applicable soil loss limits from the site of, or land directly affected by, the construction of any public or private street, road or highway, any residential, commercial, or industrial building or development, or any publicly or privately owned recreational or service facility of any kind, at all times prior to completion of such construction.

c. The establishment and maintenance of vegetation upon the right of way of any completed portion of any public street, road, or highway, or the construction or installation thereon of structures or devices, or other measures adequate to prevent erosion from the right of way in excess of the applicable soil loss limits.

4. "*Agricultural land*" has the meaning assigned that term by section 172C.1.

5. "*Farm unit*" means a single contiguous tract of agricultural land, or two or more adjacent tracts of agricultural land, located within a single soil and water conservation district, upon which farming operations are being conducted by a person who owns or is purchasing or renting all of the land, or by that person's tenant or tenants. If a landowner has multiple farm tenants, the land on which farming operations are being conducted by each tenant is a separate farm unit. This definition does not prohibit land which is within a single soil and water conservation district and is owned or being purchased by the same person, or is being rented by the same tenant, from being treated as two or more farm units if the commissioners of the soil and water conservation district deem it preferable to do so.

6. "*Conservation folder*" means compiled information concerning the topography, soil composition, natural or artificial drainage characteristics, and other pertinent factors concerning a particular farm unit, which is necessary to the preparation of a sound and equitable conservation agreement for that farm unit. The specific items to be contained in a conservation folder shall be prescribed by administrative rules of the department. The department shall provide by rule that an updated farm plan prepared for a particular farm unit within ten years prior to the effective date of this subsection shall be considered an adequate replacement for the conservation folder for that farm unit.

7. "Farm unit soil conservation plan" means a plan jointly developed by the owner and, if appropriate, the operator of a farm unit and the commissioners of the soil and water conservation district within which that farm unit is located, based on the conservation folder for that farm unit and identifying those permanent soil and water conservation practices and temporary soil and water conservation practices the use of which may be expected to prevent soil loss by erosion from that farm unit in excess of the applicable soil loss limit or limits. The plan shall if practicable identify alternative practices by which this objective may be attained.

8. "Conservation agreement" means a commitment by the owner or operator of a farm unit to implement a farm unit soil conservation plan or, with the approval of the commissioners of the soil and water conservation district within which the farm unit is located, a portion of a farm unit soil conservation plan. The commitment shall be conditioned on the furnishing by the soil and water conservation district of technical or planning assistance in the establishment of, and cost sharing or other financial assistance for establishment and maintenance of the soil and water conservation practices necessary to implement the plan, or a portion of the plan.

Subsection 2, paragraphs a and b amended

#### 467A.44 Rules by commissioners—scope.

The commissioners of each soil and water conservation district shall, with approval of and within time limits set by administrative order of the state soil conservation committee, adopt reasonable regulations as are deemed necessary to establish a soil loss limit or limits for the district and provide for the implementation of the limit or limits, and may subsequently amend or repeal their regulations as they deem necessary. The committee shall review the soil loss limit regulations adopted by the soil and water conservation districts at least once every five years, and shall recommend changes in the regulations of a soil and water conservation district which the committee deems necessary to assure that the district's soil loss limits are reasonable and attainable. The commissioners may:

1. Classify land in the district on the basis of topography, soil characteristics, current use, and other factors affecting propensity to soil erosion.
2. Establish different soil loss limits for different classes of land in the district if in their judgment and that of the state soil conservation committee a lower soil loss limit should be applied to some land than can reasonably be applied to other land in the district, it being the intent of the general assembly that no land in the state be assigned a soil loss limit that cannot reasonably be applied to such land.
3. Require the owners of real property in the district to employ either soil and water conservation practices or erosion control practices, and:
  - a. May not specify the particular practices to be employed so long as such owners voluntarily comply with the applicable soil loss limits established for the district.
  - b. May specify two or more approved soil and water conservation practices or erosion control practices, one of which shall be employed by the landowner to bring erosion from land under the landowner's control within the applicable soil loss limit of the district when an administrative order is issued to the landowner.
  - c. In no case may the commissioners require:
    - (1) The employment of erosion control practices as defined in section 467A.42, subsection 3, on land used in good faith for agricultural or horticultural purposes only.
    - (2) The employment of soil and water conservation practices or erosion control practices on that portion of any public street, road or highway completed or under

construction within the corporate limits of any city, which is or will become the traveled or surfaced portion of such street, road, or highway.

(3) That any owner or operator of agricultural land refrain from fall plowing of land on which the owner or operator intends to raise a crop during the next succeeding growing season, however on those lands which are prone to excessive wind erosion the commissioners may require that reasonable temporary measures be taken to minimize the likelihood of wind erosion so long as such measures do not unduly increase the cost of operation of the farm on which the land is located. However, fall plowing of soil which is commonly known as gumbo shall always be permitted.

d. May require that a person under an order to employ soil and water conservation practices or erosion control practices submit up to three bids to the commissioners for the work and provide an explanation to the commissioners if a bid other than the lowest bid has been selected by that person.

89 Acts, ch 106, §5 SF 318  
Unnumbered paragraph 1 amended

#### **467A.45 Submission of regulations to committee—hearing.**

Regulations which the commissioners propose to adopt, amend, or repeal shall be submitted to the committee, in a form prescribed by the committee, for its approval. The committee may approve the regulations as submitted, or with amendments as it deems necessary. The commissioners shall, after approval, publish notice of hearing on the proposed regulations, as approved, in a newspaper of general circulation in the district, setting a date and time not less than ten nor more than thirty days after the publication when a hearing on the proposed regulations will be held at a specified place. The notice shall include the full text of the proposed regulations or shall state that the proposed regulations are on file and available for review at the office of the affected soil and water conservation district.

89 Acts, ch 106, §6 SF 318  
Section amended

#### **467A.46 Conduct of hearing.**

At the hearing, the commissioners or their designees shall explain, in reasonable detail, the reasons why adoption, amendment, or repeal of the regulations is deemed necessary or advisable. Any landowner, or any occupant of land who would be affected by the regulations, shall be afforded an opportunity to be heard for or against the proposed regulations. At the conclusion of the hearing, the commissioners shall announce and enter of record their decision whether to adopt or modify the proposed regulations. Any modification must be approved by the committee, which may at its discretion order the commissioners to republish the regulations and hold another hearing in the manner prescribed by this chapter.

89 Acts, ch 106, §7 SF 318  
Section amended

#### **467A.48 Application for public cost-sharing funds.**

1. An owner or occupant of land in this state is not required to establish any new permanent or temporary soil and water conservation practice unless public or other cost-sharing funds have been specifically approved for that land and actually made available to the owner or occupant. The amount of cost-sharing funds made available shall not exceed seventy-five percent of the estimated cost as established by the commissioners of a permanent soil and water conservation practice, or seventy-five percent of the actual cost, whichever is less, or an amount set by the committee for a temporary soil and water conservation practice, except as otherwise provided by law with respect to land classified as agricultural land under conservation cover. The commissioners shall establish the estimated cost of permanent soil and water conservation practices in the district based upon one

and two-tenths of the average cost of the practices installed in the district during the previous year. The average costs shall be reviewed and approved by the commissioners each calendar year.

2. The committee shall review these requirements once each year, and may authorize soil and water conservation district commissioners to make the mandatory establishment of any specified soil and water conservation practice in any particular case conditional on a higher proportion of public cost-sharing than is required by this section. When the commissioners have been so authorized, they shall, in determining the amount of cost-sharing for establishment of a specified soil and water conservation practice to comply with an administrative order issued pursuant to section 467A.47, consider the extent to which the practice will contribute benefits to the public in relation to the benefits that will accrue to the individual owner or occupant of the land on which the practice is to be established. Evidence that an application for public or other cost-sharing funds, from a source or sources having authority to pay a portion of the cost of work needed to comply with an administrative order issued pursuant to section 467A.47, has been submitted to the proper officer or agency constitutes commencement of the work within the meaning of sections 467A.43 through 467A.53.

3. Upon receiving evidence of the submission of an application, the commissioners shall forward to the officer or agency to which the application was made a written request to receive notification of the disposition of the application. When notified of the approval of the application, the commissioners shall issue to the same parties who received the original administrative order, or their successors in interest, a supplementary order, to be delivered in the same manner as provided by sections 467A.43 to 467A.53 for delivery of original administrative orders. The supplementary order shall state a time, not more than six months after approval of the application for public cost-sharing funds, by which the work needed to comply with the original administrative order shall actually be commenced, and a time thereafter when the work is to be satisfactorily completed. If feasible, that time shall be within one year after the date of the supplementary order, but the owner of land on which a soil and water conservation practice is being established under this section is not required to incur a cost for the practice in any one calendar year which exceeds ten dollars per acre for each acre of land belonging to that owner and located in the county containing the land on which the required practice is being established or in counties contiguous to that county.

89 Acts, ch 106, §8 SF 318  
Subsections 1 and 2 amended

#### **467A.53 Co-operation with other agencies.**

Soil and water conservation districts may enter into agreements with the federal government or an agency of the federal government, as provided by state law, or with the state of Iowa or an agency of the state, any other soil and water conservation district, or any other political subdivision of this state, for co-operation in preventing, controlling, or attempting to prevent or control soil erosion. Soil and water conservation districts may accept, as provided by state law, money disbursed for soil erosion control purposes by the federal government or an agency of the federal government, and expend the money for the purposes for which it was received.

## CHAPTER 467B

### FLOOD AND EROSION CONTROL

#### **467B.1 Authority of board.**

If a county, soil and water conservation district, subdistrict of a soil and water conservation district, political subdivision of the state, or other local agency engages or participates in a project for flood or erosion control, flood prevention, or the conservation, development, utilization, and disposal of water, in cooperation with the federal government, or a department or agency of the federal government, the counties in which the project is carried on may, through the board of supervisors, construct, operate, and maintain the project on lands under the control or jurisdiction of the county dedicated to county use, or furnish financial and other assistance in connection with the projects. Flood, soil erosion control, and watershed improvement projects are presumed to be for the protection of the tax base of the county, for the protection of public roads and lands, and for the protection of the public health, sanitation, safety, and general welfare.

89 Acts, ch 83, §60 SF 112  
Section amended

#### **467B.2 Federal aid.**

A county may, in accordance with this chapter, accept federal funds for aid in a project for flood or soil erosion control, flood prevention, or the conservation, development, utilization, and disposal of water, and may co-operate with the federal government or a department or agency of the federal government, a soil and water conservation district, subdistrict of a soil and water conservation district, political subdivision of the state, or other local agency, and the county may assume a proportion of the cost of the project as deemed appropriate, and may assume the maintenance cost of the project on lands under the control or jurisdiction of the county which will not be discharged by federal aid or grant.

89 Acts, ch 83, §61 SF 112  
Section amended

#### **467B.3 Co-operation.**

The counties, soil and water conservation districts, and subdistricts of soil and water conservation districts concerned, shall advise and consult with each other, upon the request of any of them or any affected landowners, and may co-operate with each other or with other state subdivisions or instrumentalities, and affected landowners, as well as with the federal government or a department or agency of the federal government, to construct, operate, and maintain suitable projects for flood or soil erosion control, flood prevention, or the conservation, development, utilization, and disposal of water on public roads or other public lands or other land granted county use.

89 Acts, ch 83, §62 SF 112  
Section amended

#### **467B.5 Maintenance cost.**

If construction of projects has been completed by the soil and water conservation district, subdistricts of soil and water conservation districts, political subdivisions of the state, or other local agencies, or the federal government, or a department or agency of the federal government, on private lands under the easement granted to the county, only the cost of maintenance may be assumed by the county.

89 Acts, ch 83, §63 SF 112  
Section amended

#### **467B.10 Assumption of obligations.**

This chapter contemplates that actual direction of the project, or projects, and the actual work done in connection with them, will be assumed by the soil and

water conservation district, a subdistrict of a soil and water conservation district, or the federal government, and that the county or other state subdivisions or instrumentalities jointly will meet the obligation required for federal co-operation and may make proper commitment for the care and maintenance of the project after its completion for the general welfare of the public and residents of the respective counties.

## CHAPTER 467F

### WATER PROTECTION PROJECTS AND PRACTICES

#### **467F.4 Water protection fund.**

A water protection fund is created within the division. The fund is composed of money appropriated by the general assembly for that purpose, and moneys available to and obtained or accepted by the state soil conservation committee from the United States or private sources for placement in the fund. The fund shall be divided into two accounts, the water quality protection account and the water protection practices account. The first account shall be used to carry out water quality protection projects to protect the state's surface and groundwater from point and nonpoint sources of contamination. The second account shall be used to establish water protection practices with individual landowners including but not limited to woodland establishment and protection, establishment of native grasses and forbs, sinkhole management, agricultural drainage well management, streambank stabilization, grass waterway establishment, stream buffer strip establishment, and erosion control structure construction. Twenty-five percent of funds appropriated to the water protection practices account shall be used for woodland establishment and protection, and establishment of native grasses and forbs. Soil and water conservation district commissioners shall give priority to applications for practices that implement their soil and water resource conservation plan. The fund shall be a revolving fund from which moneys may be used for loans, grants, administrative costs, and cost-sharing.

In administering the fund the division may:

1. Contract, sue and be sued, and adopt rules necessary to carry out the provisions of this section, but the division or committee shall not in any manner directly or indirectly pledge the credit of this state.

2. Authorize payment from the water protection fund, from fees and from any income received by investments of money in the fund for costs, commissions, and other reasonable expenses.

The levees, ditches, or drains herein provided for shall, so far as practicable, be surveyed and located along the general course of the natural streams and watercourses or in the general course of natural drainage of the lands of said district; but where it will be more economical or practicable such ditch or drain need not follow the course of such natural streams, watercourses, or course of natural drainage, but may straighten, shorten, or change the course of any natural stream, watercourse, or general course of drainage.

Such written request and the bond shall be filed before the board establishes a district.

3. That the public benefit, utility, health, convenience, or welfare will be promoted by the suggested improvements.

4. The suggested starting point, route, terminus and lateral branches of the proposed improvements.

5. In the event the petitioners request a classification before the establishment of the district, the petition shall include a request that the district be classified as provided in sections 468.38 through 468.44 after the board has approved the report of the engineer as a tentative plan but before the district is finally established.

In case it is necessary to incur any expense in addition to the amount of such bond, the board of supervisors shall require the filing of an additional bond by the petitioners and shall not proceed with the preliminary survey or authorize any additional expense until the additional bond is filed in a sufficient amount to cover such expense.

89 Acts, ch 126, §2, 3 SF 479

3. The board may at any time terminate the contract with, and discharge the engineer.

4. Assistants may be employed by the engineer only with the approval of the board, which shall fix their compensation.

5. The engineer shall keep an accurate record of the kind of work done by the engineer and each assistant, the place where done, and the time engaged therein, and shall file an itemized statement thereof with the auditor. 1. The starting point, route, and terminus of each ditch, drain, and levee and the character and location of all other improvements.

2. A plat and profile, showing all ditches, drains, levees, settling basins, and other improvements, the course, length, and depth of each ditch, the length, size, and depth of each drain, and the length, width, and height of each levee, through each tract of land, and the particular descriptions and acreage of the land required from each forty-acre tract or fraction thereof as right of way, or for settling basin or basins, together with the congressional or other description of each tract and the names of the owners thereof as shown by the transfer books in the office of the auditor. Said plat shall describe the width of the right of way to be taken from each forty-acre tract or fraction thereof.

3. The boundary of the proposed district, including therein by color or other designation other lands that will be benefited or otherwise affected by the proposed improvements, together with the location, size, and elevation of all lakes, ponds, and deep depressions therein.

4. Plans for the most practicable and economic place and method for passing machinery, equipment, and material required in the construction of said improvements across any highways, railroads, and other utilities within the proposed district.

5. The probable cost of the proposed improvements, together with such other facts and recommendations as the engineer shall deem material.

Where the proposed district contemplates as its object flood control or soil conservance the engineer shall include in the report data describing any soil conservance or flood control improvements, the nature of the improvements, and other data as prescribed by the department of water, air and waste management.

The notice of hearing provided by section 468.14 shall also include the requirements of the notice of hearing provided in section 468.45 as to this classification, and the hearing on the petition provided in section 468.21 shall also include the matters to be heard as provided in section 468.46. The landowners shall have the same right of appeal from this classification as they would have if the petition had not requested a classification prior to establishment and the classification had been made after establishment.

The checks or share drafts of unsuccessful bidders shall be returned to them, but the checks of successful bidders shall be held as a guarantee that they will enter into contract in accordance with their bids.

a. The percentage of benefits and amount accruing to each forty-acre tract or less on account of the construction of the main ditch, drain, or watercourse including pumping plant, if any.

b. The percentage of benefits and amount accruing to each forty-acre tract or less on account of the construction of such lateral improvement.

2. When there has been a repair or improvement to a lateral ditch or drain as provided in section 468.126 and the lands benefited by the lateral have not been classified as provided in this section, the board may order a classification of the lands and the commission shall ascertain and fix the percentage of benefits and apportionment of costs to the lands benefited by such lateral ditches or drains on the same basis and in the same manner as if the lateral was with its sublaterals being constructed as a subdistrict as provided in this subchapter, parts 1 through 5. When this procedure is followed for the classification of any lateral ditch or drain in a given district, the board shall follow the same procedure for all other lateral ditches or drains in the district which have not been classified as prescribed in this section.

Such assessments against primary highways and other state-owned lands under the jurisdiction of the state department of transportation shall be paid by the state department from the primary road fund on due certification of the amount by the county treasurer to the department, and against all secondary roads and other county owned lands under the jurisdiction of the board of supervisors, from county funds.

**468.45 Notice of hearing.**

The board shall fix a time for a hearing upon the report of the commissioners, and the auditor shall cause notice to be served upon each person whose name appears as owner, naming the person, and also upon the person or persons in actual occupancy of any tract of land without naming the person or persons, of the day and hour of such hearing, which notice shall be for the same time and served in the same manner as is provided for the establishment of a levee or drainage district, and shall state the amount of assessment of costs and expenses of construction apportioned to each owner upon each forty-acre tract or less, and that all objections thereto must be in writing and filed with the auditor at or before the time set for such hearing.

89 Acts, ch 126, §2, 3 SF 479  
 Transferred from §455.52 in 1989 Code to §468.45 in 1989 Code Supplement

**468.46 Hearing and determination.**

At the time fixed or at an adjourned hearing, the board shall hear and determine all objections filed to said report and shall fully consider the said report, and may affirm, increase, or diminish the percentage of benefits or the apportionment of costs and expenses made in said report against any body or tract of land in said district as may appear to the board to be just and equitable.

89 Acts, ch 126, §2, 3 SF 479  
 Transferred from §455.53 in 1989 Code to §468.46 in 1989 Code Supplement

**468.47 Evidence—conclusive presumption.**

At such hearing, the board may hear evidence both for and against the approval of said report or any portion thereof, but it shall not be competent to show that any of the lands in said district assessed for benefits or against which an apportionment of costs and expenses has been made will not be benefited by such improvement in some degree. Any interested party may be heard in argument in person or by counsel.

89 Acts, ch 126, §2, 3 SF 479

Transferred from §455.54 in 1989 Code to §468.47 in 1989 Code Supplement

**468.48 Notice of increased assessment.**

The board shall cause notice to be served upon the owner of any tract of land or easement against which it is proposed to increase the assessment, requiring the owner to appear at a fixed date and show cause why such assessment should not be so increased. Such notice shall be served for the time and in the manner prescribed in section 468.15 or section 468.16, as the case may be, except that personal service in the same manner as an original notice may be made in lieu of the other methods.

89 Acts, ch 126, §2, 3 SF 479

Transferred from §455.55 in 1989 Code to §468.48 in 1989 Code Supplement

**468.49 Classification as basis for future assessments.**

A classification of land for drainage, erosion or flood control purposes, when finally adopted, shall remain the basis of all future assessments for the purpose of said district unless revised by the board in the manner provided for reclassification, except that where land included in said classification has been destroyed, in whole or in part, by the erosion of a river, or where additional right of way has been subsequently taken for drainage purposes, said land which has been so eroded and carried away by the action of a river or which has been taken for additional right of way, may be removed by said board from said district as classified, without any reclassification, and no assessment shall thereafter be made on the land so removed. Any deficiency in assessment existing as the result of said action of the board shall be spread by it over the balance of lands remaining in said district in the same ratio as was fixed in the classification of the lands, payable at the next taxpaying period.

Except districts established by mutual agreement in accordance with section 468.142 in the event any forty-acre tract or less, or any lot, tract, or parcel, as set forth in the existing classification or reclassification of any drainage district now or hereafter established, is divided into two or more tracts, whether such division is by sale or condemnation or platted as a subdivision, the classification of the original tract shall be apportioned to the resulting parcels, regardless of use, except for land taken for additional drainage right of way. The classification of the original tract may be apportioned between the resulting parcels by agreement between the parties to such division. The parties shall file with the county auditor a written agreement setting forth the original description and the description of the tracts as subdivided and the percentage of the original classification apportioned to each. This agreement shall bear the signature of all of the parties to such subdivision. The agreement contemplated herein may be contained in the deed or other instrument effecting the division of the land, which agreement shall be binding upon the grantee or grantees by their acceptance of such instrument and their signatures shall not be necessary. The auditor shall enter this agreement in the drainage record and amend the current classification of the district in accordance with such agreement.

In the event the parties to such subdivision cannot agree as to the apportionment of the percentage classification, the board of supervisors shall, upon application of either party, appoint a commission having the qualifications of

commissioners, in accordance with section 468.38. The commissioners shall inspect the lands involved and apportion the existing classification of the original tract equitably and fairly to each of the several tracts as subdivided and shall make a full, accurate and detailed report thereof and file the same with the county auditor within the time set by the board. The report of the commissioners shall set forth the names of the owners thereof, the description of each of the tracts and the percentage of the original classification that each such tract shall bear (1) for main ditches and settling basins, (2) for laterals, (3) for levees and pumping station. Thereafter all the proceedings in relation thereto as to notice of hearing and fixing of percentage benefits shall be as in this subchapter, parts 1 through 5, provided in relation to original classification and assessments, and at such hearing, the board may affirm, increase or diminish the percentage of benefits so as to make them just and equitable, and cause the record of the existing classification, percentage of benefits or assessments, or both, to be modified accordingly. In the event the parties neither agree as to the apportionment of classification nor make application for the appointment of commissioners, then the auditor of the county in which the land is situated shall make such apportionment upon an equitable basis and enter the same of record as herein provided. No tract of land included within the boundary of any drainage district shall be exempt from drainage assessments or reassessments, except as herein provided.

When the board has finally determined the matter of assessments of benefits and apportionment, it shall levy the assessments as fixed by it upon the lands within the district, but an assessment on a tract, parcel or lot within the district which is computed at less than two dollars shall be fixed at the sum of two dollars. All assessments shall be levied at that time as a tax and shall bear interest at not to exceed the rate permitted by chapter 74A from that date, payable annually, except as provided as to cash payments within a specified time.

89 Acts, ch 126, §2, 3 SF 479

Transferred from §455.58 in 1989 Code to §468.51 in 1989 Code Supplement

#### **468.52 Levy for deficiency.**

If the first assessment made by the board for the original cost or for repairs of any improvement is insufficient, the board shall make an additional assessment and levy in the same ratio as the first for either purpose, payable at the next taxpaying period after such indebtedness is incurred subject, however, to the provisions of section 468.57. Any assessment made under this section on any tract, parcel or lot within the district which is computed at less than two dollars shall be fixed at the sum of two dollars.

Transferred from §455.60 in 1989 Code to §468.53 in 1989 Code Supplement

**468.54 Funds—disbursement—interest.**

Such taxes when collected shall be kept in a separate fund known as the county drainage or levee fund and shall be paid out only for purposes properly connected with and growing out of the county drainage and levee districts on order of the board. The auditor shall continue to keep a record of each of the drainage and levee district's funds so as to accurately reflect the financial condition of each such district account. The treasurer, on order of the board of supervisors, shall invest such funds not immediately needed for current operating expenses in United States government bonds, in time certificates of deposit, in savings accounts in such banks as the board shall approve, in the interest bearing obligations of the drainage and levee districts of the county, or as provided by chapter 453. Interest collected by the treasurer on the funds so invested shall be deposited in the county drainage or levee fund, and on July 1 of each year the auditor shall apportion and credit such interest to each drainage or levee district account in the proportion which the average credit balance of each district bears to the average balance of the county drainage or levee fund. The averages to be ascertained shall be the averages of the balances existing on the first of each month during the fiscal year immediately preceding. Interest and penalties collected on drainage or levee district taxes shall be credited to the district for which the taxes are being collected. This section shall not be construed so as to permit expenditures in behalf of any district in excess of its share of the county drainage or levee fund. The provisions of this section shall not apply to drainage and levee districts under trustee management unless the trustees consent thereto, and in the absence of such consent, section 468.528 shall apply.

All assessments for benefits, as corrected and approved by the board, shall be levied at one time against the property benefited, and when levied and certified by the board, are payable at the office of the county treasurer. A person may pay the person's assessment in full without interest within thirty days after the levy of assessments, and before any improvement certificates or drainage bonds are issued for the assessment, and may pay a certificate at any time after issue, with accrued interest.

Transferred from §455.63 in 1989 Code to §468.56 in 1989 Code Supplement

**468.57 Installment payments—waiver.**

If the owner of any land against which a levy exceeding one hundred dollars has been made and certified shall, within thirty days from the date of such levy, agree in writing endorsed upon any improvement certificate referred to in section 468.70, or in a separate agreement, that in consideration of having a right to pay the owner's assessment in installments, the owner will not make any objection as to the legality of the assessment for benefit, or the levy of the taxes against the property, then such owner shall have the following options:

1. To pay one-third of the amount of such assessment at the time of filing such agreement; one-third within twenty days after the engineer in charge shall certify to the auditor that the improvement is one-half completed; and the remaining

one-third within twenty days after the improvement has been completed and accepted by the board. All such installments shall be without interest if paid at said times, otherwise said assessments shall bear interest from the date of the levy at a rate not exceeding that permitted by chapter 74A, payable annually, and be collected as other taxes on real estate, with like penalty for delinquency.

2. To pay such assessments in not less than ten nor more than twenty equal installments, the number to be fixed by the board, and interest at the rate fixed by the board, not exceeding that permitted by chapter 74A. The first installment of each assessment, or the total amount if less than one hundred dollars, is due and payable on July 1 next succeeding the date of the levy, unless the assessment is filed with the county treasurer after May 31 in any year. The first installment shall bear interest on the whole unpaid assessment from the date of the levy as set by the board to the first day of December following the due date. The succeeding annual installments, with interest on the whole unpaid amount, to the first day of December following the due date, are respectively due on July 1 annually, and must be paid at the same time and in the same manner as the first semiannual payment of ordinary taxes. All future installments of an assessment may be paid on any date by payment of the then outstanding balance plus interest accrued to the date of payment. Each installment of an assessment with interest on the unpaid balance is delinquent after the thirtieth day of September next after its due date, and bears the same delinquent interest with the same penalties as ordinary taxes. When collected, the interest and penalties must be credited to the same drainage fund as the drainage special assessment.

The provisions of this section and of sections 468.58 through 468.61 may within the discretion of the board, also be made applicable to repairs and improvements made under the provisions of section 468.126.

When all construction work has been completed and all cost paid, and all assessments have been paid in full, the board may refund, to the owner of each tract of land, the owner's proportionate part of any surplus funds except such portion of the surplus as the board considers should be retained for a sinking fund to pay future maintenance and repair costs.

If, after the improvement has been finally located and before construction thereof has been completed, there has been a change of conditions of such nature that the plan of improvement as adopted should be modified or amended, the board may direct the engineer appointed under section 468.30 or another engineer, to make a report showing such changes or modifications of the plan of improvement as may be necessary to meet the change of conditions. Upon the filing of such report, the board shall have jurisdiction to adopt said modified or amended plan of improvement or may further modify or amend and adopt the same by following the procedure provided in sections 468.201, 468.205 through 468.209 so far as same are applicable, except that awards for damages shall not be canceled where there has been no change made in the improvement which would increase or decrease the damages awarded. However, modifications and changes may be made in the plan on which hearing was held without further notice or hearing, provided the same do not increase or decrease the estimated cost to the district by more than twenty-five percent.

utility the same as if it had been so constructed as a part of the original improvement of said district. When such subdistrict has been established and constructed it shall become and be a part of the improvement of such drainage district as a whole and be under the control and supervision of the board to the same extent and in every way as if it had been a part of the original improvement of such district.

89 Acts, ch 126, §2, 3 SF 479

Transferred from §455.71 in 1989 Code to §468.64 in 1989 Code Supplement

#### **468.65 Reclassification.**

When, after a drainage or levee district has been established, except districts established by mutual agreement in accordance with section 468.142, and the improvements thereof constructed and put in operation, there has been a material change as to lands occupied by highway or railroad right of way or in the character of the lands benefited by the improvement, or when a repair, improvement, or extension has become necessary, the board may consider whether the existing assessments are equitable as a basis for payment of the expense of maintaining the district and of making the repair, improvement or extension. If they find the same to be inequitable in any particular, they shall by resolution express such finding, appoint three commissioners possessing the qualifications prescribed in section 468.38 and order a reclassification as follows:

1. If they find the assessments to be generally inequitable they shall order a reclassification of all property subject to assessment, such as lands, highways, and railroads in said district.

2. If the inequity ascertained by the board is limited to the proportion paid by highways or railroads, a general reclassification of all lands shall not be necessary but the commissioners may evaluate and determine the fair proportion to be paid by such highways or railroads or both as provided in sections 468.42 and 468.43.

3. Any benefits of a character for which levee or drainage districts may be established and which are attributable to or enhanced by the improvement or by the repair, improvement, or extension thereof, shall be a proper subject of consideration in a reclassification notwithstanding the district may have been originally established for a limited purpose.

4. If after a district has been reclassified, the board in its judgment concludes there were errors in the reclassification or there is an inequitable assessment of benefits, the board may on its own motion, after notice to the landowners involved as provided in sections 468.14 through 468.18 and by resolution, order the district or any portion of the district to again be reclassified as prescribed in this section and in section 468.67.

Such reclassification when finally adopted shall remain the basis for all future assessments unless revised as provided in this subchapter, parts 1 through 5.

The proceedings for such reclassification shall in all particulars be governed by the same rules as for original classification. The commissioners shall fix the percentage of actual benefits and make an equitable apportionment of the costs and expenses of such repairs, improvements or extensions and file a report thereof

with the auditor in the same form and manner as for original classification. Thereafter, all the proceedings in relation thereto as to notice, hearing, and fixing of percentage of benefits and amount of assessments shall be as in this subchapter, parts 1 through 5, provided in relation to original classification and assessments, and at such hearing the board may affirm, increase, or diminish the percentage and assessment of benefits and apportionment of costs and expenses so as to make them just and equitable, and cause the record of the original classification, percentage of benefits, and assessments to be modified accordingly.

Warrants drawn upon the construction or maintenance funds of any district for which an assessment has been or must be levied, shall be transferable by endorsement, and may be acquired by any taxpayer of such district and applied at their accrued face value upon the assessment levied to create the fund against which the warrant was drawn; when the amount of the warrant exceeds the amount of the assessment, the treasurer shall cancel the said warrant, and give the holder thereof a certificate for the amount of such excess, which certificate shall be filed with the auditor, who shall issue a warrant for the amount of such excess, and charge the treasurer therewith. Such certificate is transferable by endorsement, and will entitle the holder to the new warrant, made payable to the holder's order, and bearing the original number, preceded by the words, "Issued as unpaid balance due on warrant number ....."

89 Acts, ch 126, §2, 3 SF 479

The board may provide by resolution for the payment of assessments in not more than twenty annual installments with interest at a rate not exceeding that permitted by chapter 74A. The board may issue warrants bearing interest at the same rate, which warrants shall be numbered and state a maturity date in which event they shall bear interest from the date of issuance without being presented for payment and marked unpaid for want of funds. The warrants may be sold by the board for cash in an amount not less than the face value thereof, together with accrued interest, if any.

The board may provide by resolution for the issuance of improvement certificates payable to bearer or to the contractors, naming them, who have constructed the said improvement or completed any part thereof, in payment or part payment of such work.

89 Acts, ch 126, §2, 3 SF 479

Transferred from §455.77 in 1989 Code to §468.70 in 1989 Code Supplement

#### **468.71 Form, negotiability and effect.**

Each of such certificates shall state the amount of one or more drainage assessments or part thereof made against the property, designating it and the

owner thereof liable for the payment of such assessments. Said certificates shall be negotiable and transfer to the bearer all right and interest in and to the tax in every such assessment or part thereof described in such certificates, and shall authorize such bearer to collect and receive every assessment embraced in said certificate by or through any of the methods provided by law for their collection as the same mature.

Every such certificate, when paid, shall be delivered to the treasurer and by the treasurer surrendered to the party to whose assessment it relates.

89 Acts, ch 126, §2, 3 SF 479

Transferred from §455.80 in 1989 Code to §468.73 in 1989 Code Supplement

#### **468.74 Drainage bonds.**

When a drainage district has been established or the making of any subsequent repair or improvement determined upon, if the board of supervisors shall find that the cost of such improvement will create assessments against the land included therein greater than should be levied in a single year upon the lands benefited by such improvement, then, instead of issuing improvement certificates, as provided in sections 468.70 through 468.73 the board may fix the amount that shall be levied and collected each year until such cost and expenses are paid, and may issue drainage bonds of the county covering all assessments exclusive of assessments of one hundred dollars and less.

Before such bonds shall be issued, the governing body of the district shall cause an action for declaratory judgment to be brought in the district court of the county in which the bonds are to be issued, asking that their legality be confirmed. The court shall fix a date for hearing thereon and notice thereof shall be given to the owners of each lot or tract of land within the district, which shall be affected by an assessment to pay the proposed bonds, as shown by the transfer books in the auditor's office; also to the holders of liens of record upon said lands; and to all persons to whom it may concern without naming them specifically. Such notice shall be given by publication and by mailing for the same time in advance of hearing and in the same manner prescribed in section 468.15. After the entry of the declaratory judgment adjudicating the validity of such bonds, the approval of the district court shall be endorsed on the bonds before their issuance.

improvement purposes levied and collected on the lands assessed for benefits within the district for which the bond is issued.

The bonds shall not be issued for a greater amount than the aggregate amount of assessments for the payment of which they are issued, nor for a longer period of maturity than twenty years. The bonds shall bear interest at a rate not exceeding that permitted by chapter 74A, payable semiannually, on June 1 and December 1 of each year. The interest on unpaid assessments shall be at a rate not exceeding that permitted by chapter 74A.

#### **468.121 Levy on annexed lands.**

After annexation is made the board may levy upon the annexed lands an assessment sufficient to equal the assessments for benefit originally paid by the lands of equal classification if the finding by the board as provided by section 468.119 was that the lands should have been included in the district when

originally established, plus their proportionate share of the costs of any enlargement or extension of drains required to serve the annexed lands. If the finding of the board as provided in section 468.119 was based on the fact that additional lands are now benefited by virtue of the repair, improvement, or the change of the topographical conditions made to the district and were not benefited by the district as originally established, then the board shall levy upon the annexed lands an assessment sufficient to pay their proportionate share of the costs of the repair or improvement which was the basis for the lands being annexed. If the board finds that the lands are presently receiving benefits from the district but that some were reasonably omitted from the original establishment because of the change of the topographical conditions, the assessments levied upon the annexed lands shall be limited to a proportionate share of the costs of current and future maintenance, repairs and improvements.

#### **468.122 Use of former and abandoned surveys.**

In cases where proceedings have been taken for the establishment of a levee or drainage district and an engineer has been appointed who has made a survey, return, and plat thereof and for any reason the improvement has been abandoned and the proceedings dismissed, and afterward proceedings are instituted for the establishment of a levee or drainage district which will benefit any territory surveyed in said former proceedings, the engineer shall use so much of the return, levels, surveys, plat, and profile made in the former proceedings as may be applicable. The engineer shall specify in the engineer's reports the parts thereof so used, and in case the cost of said returns, levels, surveys, plat, and profile made in said former proceedings has been paid by the former petitioners or their sureties, then a reasonable amount shall be allowed said petitioners or sureties for the use of the same.

#### **468.123 Unsuccessful procedure—re-establishment.**

When proceedings have been instituted for the establishment of a drainage district or for any change or repair thereof, or the change of a natural watercourse, and the establishment thereof has failed for any reason either before or after the improvement is completed, the board shall have power to re-establish such district or improvement and any new improvement in connection therewith as recommended by the report of the engineer. As to all lands benefited by such re-establishment, repair, or improvement, the board shall proceed in the same manner as in the establishment of an original district, using as a basis for assessment the entire cost of the proceedings, improvement, and maintenance from the beginning; but in awarding damages and in the assessment of benefits account shall be taken of the amount of damages and taxes, if any, theretofore paid by those benefited, and credit therefor given accordingly. All other proceedings shall be the same as for the original establishment of the district, making of improvements, and assessment of benefits.

#### **468.124 New district including old district.**

If any levee or drainage district or improvement established either by legal proceedings or by private parties shall be insufficient to properly drain all of the lands tributary thereto, the board upon petition as for the establishment of an original levee or drainage district, shall have power to establish a new district covering and including such old district or improvement together with any

additional lands deemed necessary. All outstanding indebtedness of the old levee or drainage district shall be assessed only against the lands included therein.

89 Acts, ch 126, §2, 3 SF 479

Transferred from §455.133 in 1989 Code to §468.124 in 1989 Code Supplement

#### **468.125 Credit for old improvement.**

When such district as contemplated in section 468.124 and the new improvement therein shall include the whole or any part of the former improvement, the commissioners, for classification of lands for assessment of benefits and apportionment of costs and expenses of such new improvement, shall take into consideration the value of such old improvement in the construction of the new one and allow proper credit therefor to the parties owning the old improvement as their interests may appear. In all other respects the same proceedings shall obtain as are provided for the original establishment of levee and drainage districts.

#### **468.126 Repair.**

1. When any levee or drainage district has been established and the improvement constructed, the improvement shall be at all times under the supervision of the board of supervisors except as otherwise provided for control and management by a board of trustees and the board shall keep the improvement in repair as provided in this section.

a. The board at any time on its own motion, without notice, may order done whatever is necessary to restore or maintain a drainage or levee improvement in its original efficiency or capacity, and for that purpose may remove silt and debris, repair any damaged structures, remove weeds and other vegetable growth, and whatever else may be needed to restore or maintain such efficiency or capacity or to prolong its useful life.

b. The board may at any time obtain an engineer's report regarding the most feasible means of repairing a drainage or levee improvement and the probable cost of making the repair. If the engineer advises, or the board otherwise concludes that permanent restoration of a damaged structure is not feasible at the time, the board may order temporary construction it deems necessary to the continued functioning of the improvement. If in maintaining and repairing tile lines the board finds from an engineer's report it is more economical to construct a new line than to repair the existing line, the new line may be considered to be a repair.

c. If the estimated cost of a repair exceeds ten thousand dollars, or seventy-five percent of the original total cost of the district and subsequent improvements, whichever is the greater amount, the board shall set a date for a hearing on the matter of making the proposed repairs, and shall give notice as provided in sections 468.14 through 468.18. If a hearing is required and the estimated cost of the repair exceeds twenty-five thousand dollars, an engineer's report or a report from the soil and water conservation district conservationist shall be presented at the hearing. The requirement of a report may be waived by the board if a prior report on the repair exists and that report is less than ten years old. The board shall not divide proposed repairs into separate programs in order to avoid the notice and hearing requirements of this paragraph. At the hearing the board shall hear objections to the feasibility of the proposed repairs, and following the hearing the board shall order that the repairs it deems desirable and feasible be made. Any interested party has the right of appeal from such orders in the manner provided in this subchapter, parts 1 through 5.

d. The right of remonstrance does not apply to repairs as defined in this section.

2. In the case of minor repairs, or in the eradication of brush and weeds along the open ditches, not in excess of five thousand dollars where the board finds that

a saving to the district will result it may cause the repairs or eradication to be done by secondary road equipment, or weed fund equipment, and labor of the county and then reimburse the secondary road fund or the weed fund from the fund of the drainage district thus benefited.

3. When the board deems it necessary it may repair or reconstruct the outlet of any private tile line which empties into a drainage ditch of any district and assess the costs in each case against the land served by the private tile line.

4. For the purpose of this subsection, an "improvement" in a drainage or levee district in which any ditch, tile drain or other facility has previously been constructed is a project intended to expand, enlarge or otherwise increase the capacity of any existing ditch, drain or other facility above that for which it was designed.

a. When the board determines that improvements are necessary or desirable, it shall appoint an engineer to make surveys as seem appropriate to determine the nature and extent of the needed improvements, and to file a report showing what improvements are recommended and their estimated costs, which report may be amended before final action. If the estimated cost of the improvements does not exceed five thousand dollars, or twenty-five percent of the original cost of the district and subsequent improvements, whichever is the greater amount, the board may order the work done without notice. If the estimated cost of the improvements does not exceed ten thousand dollars or twenty-five percent of the original cost of the district and subsequent improvements, whichever is the greater amount, the board may order the work done after holding a hearing and publishing notice of that hearing in a newspaper of general circulation published in the county not less than twenty days before the day set for the hearing. The board shall also mail a copy of the notice to any state agency which is a landowner in the district. The board shall not divide proposed improvements into separate programs in order to avoid the limitation for making improvements without notice. If the board deems it desirable to make improvements where the estimated cost exceeds the ten thousand dollar or twenty-five percent limit, it shall set a date for a hearing on the matter of constructing the proposed improvements and also on the matter of whether there shall be a reclassification of benefits for the cost of the proposed improvements, and shall give notice as provided in sections 468.14 through 468.18. At the hearing the board shall hear objections to the feasibility of the proposed improvements and arguments for or against a reclassification presented by or for any taxpayer of the district. Following the hearing the board shall order that the improvements it deems desirable and feasible be made, and shall also determine whether there should be a reclassification of benefits for the cost of improvements. If it is determined that a reclassification of benefits should be made the board shall proceed as provided in section 468.38. In lieu of publishing the notice of a hearing as provided by this subsection the board may mail a copy of the notice to each address where a landowner in the district resides by first class mail if the cost of mailing is less than publication of the notice. The mailing shall be made during the time the notice would otherwise be required to be published.

b. If the estimated cost of the improvements as defined in this subsection exceeds twenty thousand dollars, or the original cost of the district plus the cost of subsequent improvements in the district, whichever is the greater amount, a majority of the landowners, owning in the aggregate more than seventy percent of the total land in the district, may file a written remonstrance against the proposed improvements, at or before the time fixed for hearing on the proposed improvements, with the county auditor, or auditors in case the district extends into more than one county. If a remonstrance is filed, the board shall discontinue and dismiss all further proceedings on the proposed improvements and charge the costs incurred to date for the proposed improvements to the district. Any

interested party may appeal from such orders in the manner provided in this subchapter, parts 1 through 5. However, this section does not affect the procedures of section 468.132 covering the common outlet.

5. Where under the laws in force prior to 1904, drainage ditches and levees were established and constructed without fixing at the time of establishment a definite boundary line for the body of land to be assessed for the cost thereof, the body of land which was last assessed to pay for the repair thereof shall also be considered as the established district for the purpose of this section.

6. The governing body of the district may, by contract or conveyance, acquire, within or without the district, the necessary lands or easements for making repairs or improvements under this section, including easements for borrow and easements for meander, and in addition thereto, the same may be obtained in the manner provided in the original establishment of the district, or by exercise of the power of eminent domain as provided for in chapter 472. If additional right of way is required for any repair or improvement under this section, the same may be acquired in the same manner as provided for the acquisition of right of way in the original establishment of a district, except that where notice and hearing are not otherwise required under this section notice as provided in this subchapter, parts 1 through 5, to owners, lienholder of record, and occupants of the land from which right of way is to be acquired shall suffice.

7. In existing districts where the stream has by erosion appropriated lands beyond its original right of way and it is more economical and feasible to acquire an easement for such erosion and meander than to undertake containment of the stream in its existing right of way, the board may, in the discharge of the duties enjoined upon it by this section, effect such acquisition as to the whole or part of the course. Right of way so taken shall be classed an improvement for the purpose of procedure under this section.

8. If the drainage records on file in the auditor's office for a particular district do not define specifically the land taken for right-of-way for drainage purposes, the board may at any time upon its own motion employ a land surveyor to make a survey and report of the district and to actually define the right of way taken for drainage purposes. After the land surveyor has filed the survey and report with the board, the board shall fix a date for hearing on the report and shall serve notice of the hearing upon all landowners and lienholders of record and occupants of the lands traversed by the right of way in the manner and for the time required for service of original notices in the district court. At the hearing the board shall specifically define the land taken for the right-of-way. Once established, the right-of-way constitutes a permanent easement in favor of the drainage district for drainage purposes including the right of ingress and egress across adjoining land and the right of access for maintenance, repair, improvement and inspection. A person aggrieved by the action or failure to act of the board under this subsection may appeal only in compliance with sections 468.83 through 468.98.

#### **468.127 Payment.**

The costs of the repair or improvements provided for in section 468.126 shall be paid for out of the funds of the levee or drainage district. If the funds on hand are not sufficient to pay such expenses, the board within two years shall levy an assessment sufficient to pay the outstanding indebtedness and leave the balance which the board determines is desirable as a sinking fund to pay maintenance and repair expenses. Any assessment made under this section on any tract, parcel or lot within the district which is computed at less than two dollars shall be fixed at the sum of two dollars.

If the board deems that the costs of the repairs or improvements will create assessments against the lands in the district greater than should be borne in one

year, it may levy the same at one time and provide for the payment of said costs and assessments in the manner provided in sections 468.57 through 468.61; provided that assessments may be collected in less than ten installments as the board may determine.

**468.128 Impounding areas and erosion control devices.**

Levee and drainage districts are empowered to construct impounding areas and other flood and erosion control devices to protect lands of the district and drainage structures and may provide ways for access to improvements for the operation or protection thereof, where the cost is not excessive in consideration of the value to the district. Necessary lands or easements may be acquired within or without the district by purchase, lease or agreement, or by exercise of the right of eminent domain and may be procured and construction undertaken either independently or in co-operation with other districts, individuals, or any federal or state agency or political subdivision.

 Transferred from §455.137 in 1989 Code to §468.128 in 1989 Code Supplement

**468.129 Revenues used for operation, maintenance and construction.**

Levee and drainage districts may realize income from incidental uses of their improvements and rights of way which are not injurious to same or incompatible with the purposes of the district. Revenues derived therefrom may be expended for operating, maintenance or construction costs of the district as its governing body may elect.

**468.130 City may discharge treated sewage.**

Any board, as defined in section 455.4, may by contract permit any city to discharge adequately treated sewage into drainage ditches. The contract shall fix the rental, make provision for termination, and shall provide that no nuisance shall be created.

 Transferred from §455.139 in 1989 Code to §468.130 in 1989 Code Supplement

**468.131 Reclassification required.**

When an assessment for improvements as provided in section 468.126, exceeds twenty-five percent of the original assessment and the original or subsequent assessment or report of the benefit commission as confirmed did not designate separately the amount each tract should pay for the main ditch and tile lateral drains then the board shall order a reclassification in accordance with the principles and rules set forth in section 468.41.

 Transferred from §455.141 in 1989 Code to §468.131 in 1989 Code Supplement

**468.132 Improvement of common outlet—notice of hearing.**

When two or more drainage districts outlet into the same ditch, drain, or natural watercourse and the board determines that it is necessary to clean out, deepen, enlarge, extend, or straighten said ditch, drain, or natural watercourse in order to expeditiously carry off the combined waters of such districts, the board may proceed as provided in section 468.126. After said board has decided that such work should be done, it shall fix a date for hearing on its decision, and it shall give two weeks' notice thereof by certified mail to the auditor of the county wherein the land to be assessed for such work is located, and said county auditor shall thereupon immediately notify by certified mail the board or boards of trustees of the districts having supervision thereof, as to said hearing on said contemplated

work. In those instances where two or more districts involved are under the supervision of the same board, or joint board if the district is intercounty, the notice shall be given to all landowners affected as prescribed for in sections 468.14 through 468.18. Each district shall be assessed for the cost of such work in proportion to the benefits derived. Common outlet for the purpose of this section shall mean an outlet where two adjacent districts have an outlet common to both of said districts and which districts are also contiguous, one to the other.

Transferred from §455.142 in 1989 Code to §468.132 in 1989 Code Supplement

#### **468.133 Commissioners to apportion benefits—interest prohibited.**

For the purpose of ascertaining the proportionate benefits, the board shall appoint commissioners having the qualifications of benefit commissioners, one of whom shall be an engineer. Such commissioners appointed shall not be residents of any of the districts affected, nor shall any member thereof have any interest in land in any districts affected by the contemplated work. Such commission shall determine the percentage of benefits and the sum total to be assessed to each district for the improvement.

In the event that one of the districts to be assessed under this statute shall have any improvement such as a settling basin which reduces the quality and quantity of flow or sediment, such commission may give consideration to the existence of such an improvement when they determine the percentage of benefits and the sum total to be assessed to each district for the improvement.

89 Acts, ch 126, §2, 3 SF 479

Transferred from §455.143 in 1989 Code to §468.133 in 1989 Code Supplement

#### **468.134 Time of report—notice of hearing.**

When said commissioners are appointed, the board shall, by proper order, fix the time when the commissioners shall report their findings, but a report filed within thirty days of the time so fixed shall be deemed a compliance with said order. On the filing of said report, the board shall fix a time for hearing thereon, and it shall give notice thereof to the auditor of the county in which the land to be assessed for such work is located by certified mail; said county auditor shall thereupon immediately notify by certified mail the board of supervisors, and board or boards of trustees of the districts having supervision thereof, as to said hearing on said commissioner's report. In those instances where two or more districts are under the supervision of the same board, or joint board if the district is intercounty, the notice shall be given to all landowners affected as prescribed in sections 468.14 through 468.18.

#### **468.135 Report and review—appeal.**

The commissioners shall file with the board a detailed report of their findings. Said board shall review said report and may, by proper order, increase or decrease the amount which shall be charged to each district. After the final order of the board herein has been made, said board shall notify the county auditor, in the time and manner as provided in sections 468.133 and 468.134, of said order, and said county auditor shall notify by certified mail the board of supervisors, and said board or boards of trustees, of said final order. Said board of supervisors and said board or boards of trustees, if aggrieved by said final order, may appeal therefrom to the district court of the county in which any of the improvement proposed or done is located.

Any such appeal shall be taken, perfected and conducted in the time and manner provided in section 468.83, subsection 1, and sections 468.84 through 468.88, for appeals contemplated by said sections.

#### **468.136 Levy under original classification.**

If the amount finally charged against a district does not exceed twenty-five percent of the original cost of the improvement in said district, the board shall proceed to levy said amount against all lands, highways, and railway rights of way and property within the district, in accordance with the original classification and apportionment. Any assessment made under this section on any tract, parcel or lot within the district which is computed at less than two dollars shall be fixed at the sum of two dollars.

Transferred from §455.146 in 1989 Code to §468.136 in 1989 Code Supplement

#### **468.137 Levy under reclassification.**

If the amount finally charged against a district exceeds twenty-five percent of the original cost of the improvement, the board may order a reclassification as provided for the original classification of a district and upon the final adoption of the new classification and apportionment shall proceed to levy that amount upon all lands, highways, and railway rights of way and property within the district, in accordance with the new classification and apportionment. An assessment made under this section on a tract, parcel or lot within the district which is computed at less than two dollars shall be fixed at the sum of two dollars.

#### **468.138 Removal of obstructions.**

The board shall cause to be removed from the ditches, drains, and laterals of any district any obstructions which interfere with the flow of the water, including trees, hedges, or shrubbery and the roots thereof, and may cause any tile drain so obstructed to be relaid in concrete or any other adequate protection, such work to be paid for from the drainage funds of the district.

89 Acts, ch 126, §2, 3 SF 479

Transferred from §455.148 in 1989 Code to §468.138 in 1989 Code Supplement

#### **468.139 Trees and hedges.**

When it becomes necessary to destroy any trees or hedges outside the right of way of any ditch, lateral, or drain in order to prevent obstruction by the roots thereof, if the board and the owners of such trees or hedges cannot agree upon the damage for the destruction thereof, the board may proceed to acquire the right to destroy and remove such trees or hedges by the same proceedings provided for acquiring right of way for said drainage improvement in the first instance.

89 Acts, ch 126, §2, 3 SF 479

Transferred from §455.149 in 1989 Code to §468.139 in 1989 Code Supplement

#### **468.140 Outlet for lateral drains—specifications.**

The owner of any premises assessed for the payment of the costs of location and construction of any ditch, drain, or watercourse as in this subchapter, parts 1 through 5, provided, shall have the right to use the same as an outlet for lateral drains from the premises. The board of supervisors shall make specifications covering the manner in which such lateral drains shall be connected with the main ditches or other laterals and be maintained, and the owner shall follow such specifications in making and maintaining any such connection.

89 Acts, ch 126, §2, 3 SF 479

Transferred from §455.150 in 1989 Code to §468.140 in 1989 Code Supplement

#### 468.141 Subdistricts in intercounty districts.

The board of supervisors of any county shall have jurisdiction to establish subdrainage districts of lands included within a district extending into two or more counties when the lands to compose such subdistricts lie wholly within such county, and to make improvements therein, repair and maintain the same, fix and levy assessments for the payment thereof, and the provisions of this section shall apply to all such drainage subdistricts, the lands of which lie wholly within one county. The proceedings for all such purposes shall be the same as for the establishment, construction, and maintenance of an original levee or drainage district the lands of which lie wholly within one county, so far as applicable, except that one or more persons may petition for a subdistrict as provided in section 468.63.

89 Acts, ch 126, §2, 3 SF 479

Transferred from §455.151 in 1989 Code to §468.141 in 1989 Code Supplement

#### 468.142 District by mutual agreement—presumption.

The owners of lands may provide by mutual agreement in writing duly signed, acknowledged, and filed with the auditor for combined drainage of their lands by the location and establishment of a drainage district for such purposes and the construction of drains, ditches, settling basins, and watercourses upon and through their said lands. Such drainage district shall be presumed to be conducive to the public welfare, health, convenience, or utility.

89 Acts, ch 126, §2, 3 SF 479

Transferred from §455.152 in 1989 Code to §468.142 in 1989 Code Supplement

#### 468.143 What the agreement shall contain.

Such agreements shall contain the following:

1. A description of the lands by congressional divisions, metes and bounds, or other intelligible manner, together with the names of the owners of all said lands.
2. The location of the drains and ditches to be constructed, describing their sources and outlets and the courses thereof.
3. The character and extent of drainage improvement to be constructed, including settling basins, if any.
4. The assessment of damages, if any.
5. The classification of the lands included in such district, the amount of drainage taxes or special assessments to be levied upon and against the several tracts, and when the same shall be levied and paid.
6. Such other provisions as the board deems necessary.

#### 468.144 Board to establish.

When such agreement is filed, the auditor shall record it in the drainage record. The board shall at a regular, special, or adjourned session thereafter locate and establish a drainage district and locate the ditches, drains, settling basins, and watercourses thereof as provided in said agreement, and enter of record an order accordingly. The board thereafter shall carry out the object, purpose, and intent of such agreement and cause to be completed and constructed the said improvement and shall retain jurisdiction of the same as fully as in districts established in any other manner. It shall cause to be levied upon and against the lands of such district, the drainage taxes and assessments according to said agreement and when collected said taxes and assessments shall constitute the drainage funds of said district to be applied upon order of the board as in said agreement provided.

**468.146 Outlet in adjoining county or in another state.**

1. When a drainage district is established and a satisfactory outlet cannot be obtained except through lands in an adjoining county, or when an improved outlet cannot be obtained except through lands downstream from the district boundary, the board shall have the power to purchase a right of way, to construct and maintain such outlets, and to pay all necessary costs and expenses out of the district funds. The board shall have similar authority relative to the construction and maintenance of silt basins upstream from the district boundary. In case the board and the owners of the land required for such outlet or silt basin cannot agree upon the price to be paid as compensation for the land taken or used, the board is hereby empowered to exercise the right of eminent domain in order to procure such necessary right of way.

2. When a district is, or has been established in this state and no practicable outlet therefor can be obtained except through lands in an adjoining state, the board of supervisors of the county where said district is situated shall, as drainage commissioners, have power to purchase a right of way and to construct a ditch for such outlet in an adjoining state or to contribute to the construction of such a ditch, in an adjoining state and to pay for the same out of the funds of such district. Provided, however, that no drainage district or districts shall be charged or assessed any of the cost for land or work done unless previously agreed to by the board of supervisors or trustees of all of the drainage districts which will be assessed.

**468.148 Injuring or diverting—damages.**

Any person who shall willfully break down or through or injure any levee or bank of a settling basin, or who shall dam up, divert, obstruct, or willfully injure any ditch, drain, or other drainage improvement authorized by law shall be liable to the person or persons owning or possessing the lands for which such improvements were constructed in double the amount of damages sustained by such owner or person in possession; and in case of a subsequent offense by the same person, the person shall be liable in treble the amount of such damages.

**468.184 Land classification and assessment in district.**

1. *a.* When a levee district shall have been located and finally established; or  
*b.* When the required proceedings have been taken to enlarge, extend, strengthen, raise, relocate, reconstruct, or improve any existing levee; or

*c.* When the required proceedings have been held to annex additional lands to said levee district or to exclude or eliminate lands from said levee district; or

*d.* When a plan of the United States government for the construction of any levee, or a portion of a levee, in said levee district, or for the enlarging, extending, strengthening, raising, relocating, reconstructing, or improving any existing levee, or a portion thereof, in accordance with any such plan in said levee district, has been heretofore or hereafter adopted by such levee district under the provisions of sections 468.201 through 468.216; or

*e.* When the board shall, as authorized by section 468.65, determine that the assessments of benefits of said levee district against the lands in said levee district are generally inequitable the board may by resolution, or if a petition is filed by more than one-third of the owners, including corporations, of land within said levee district and who in the aggregate own more than one-third of the value of the land and land improvements in said levee district as the value thereof is then shown by the general tax records of the county or counties in which such land and land improvements are located, requesting the board to do so, the board shall order the lands in said levee district and the improvements on the land in said levee district classified or reclassified in accordance with the assessed taxable value of said land and land improvements as the same are then shown and as the same may be thereafter shown by the assessment roll of the county or counties in which said land and land improvements are located.

The assessed taxable value of any land, including land improvements exempt from general taxation but subject to assessment for levee purposes, shall be determined by the county assessor who shall make such determination in accordance with the rules of assessment applicable to adjacent lands and without any additional compensation therefor.

2. If the board orders classification or reclassification of lands as authorized in subsection 1 of this section, the board shall fix a time and place for a hearing to be held upon the action of the board in ordering such classification or reclassification, which hearing shall be held at the county seat of the county having the largest acreage in said levee district. The board shall cause notice of the time and place of such hearing to be served by the county auditor or auditors upon each person whose name appears as owner of lands or land improvements within the levee district in the transfer books of the auditor's office in the county or counties in which said levee district is located, naming that person, and also upon the person or persons in actual occupancy of any tract of land or land improvements located in said levee district, without naming that person or persons. Such notice shall be for the same time and served in the same manner as is provided for the establishment of a levee district, and such notice shall state:

*a.* The aggregate estimated costs and expenses which the board proposes to assess under such classification or reclassification;

*b.* The total aggregate assessed taxable value of all lands and land improvements in said levee district;

*c.* That the said classification or reclassification of benefits will be based on the assessed taxable value of all lands and improvements to lands located in said levee district;

*d.* That each tract of land and each land improvement in said levee district will be assessed for its pro rata share of said costs and expenses based upon the ratio that the assessed value of each tract of land and the assessed value of each land improvement bears to the total assessed taxable value of all lands and all land improvements in said district; and

e. That all objections to said method of classification or reclassification shall be in writing and filed with the auditor of the county in which said land or land improvements are located before the time set for said hearing or with the board of trustees of said district at or before the time set for such hearing.

The notice need not show the amount of such costs and expenses to be apportioned to each such owner or to any particular tract of land or land improvement within such levee district.

3. If at or before the time set for said hearing as to such classification or reclassification, there shall have been filed with the county auditor, or auditors in case the district extends into more than one county, or with said board, a remonstrance or remonstrances or objections to such method of classification or reclassification signed by owners of land and land improvements in the levee district aggregating sixty percent of the total assessed value of the lands plus land improvements in said district as shown by the taxing records in said county or counties in which said district is located, the board shall abandon the alternative method of classification or reclassification herein authorized. The board may then proceed to classify the lands in said levee district as authorized under sections 468.38 through 468.44 or may proceed to reclassify the same as authorized under section 468.65 unless said remonstrances and objections filed as above provided are filed by a majority of the landowners in the levee district and these remonstrants and objectors in the aggregate own seventy percent or more of the acreage of lands in the levee district and, in writing, object to any reclassification of any kind, then the board shall not reclassify the lands within the district under the provision of this section nor shall the same be reclassified under the provisions of section 468.65.

4. At the time fixed or at any adjourned hearing if the remonstrances and objections filed at or before the hearing are not signed by sufficient number of owners, or the owners signing such remonstrances and objections do not meet the requirements hereinabove provided, then the board shall fully consider all objections and remonstrances and shall make a determination as to whether or not the costs and expenses shall be assessed:

- a. By the alternative method hereinabove set forth; or
- b. As provided by sections 468.38 through 468.44; or
- c. That the land should be reclassified as provided in section 468.65; or
- d. On the basis of a then existing classification of lands.

5. If the board shall determine that the cost and expenses shall be assessed on the basis of assessed taxable value as hereinabove provided, then such basis shall be used for all future assessments made for the purposes of said levee district except if said assessed taxable value of lands and land improvements in said levee district may be changed or revised by the county assessor in the county or counties in which the same are located for general tax purposes, then any such revision made in the assessed taxable value by any such county assessor shall automatically constitute a revision of the classification of such land or land improvements for future assessments made by the board for the purpose of said levee district.

6. In lieu of the hearing provided for in the preceding subsections, the board may, and if the petition of owners provided for in the preceding subsections so asks, the board shall call for an election for the purpose of determining the question of classification on the basis of assessed value of lands and land improvements. The question may be submitted at a regular election of the district or at a special election called for that purpose. It shall not be mandatory for the county commissioner of elections to conduct the elections, however provisions of sections 49.43 through 49.47 and of subchapter III of this chapter, insofar as the same are applicable, shall govern all such elections, and the question to be submitted shall be set forth in the notice of election. If sixty percent of the votes cast be in favor of the proposed change in assessment, it shall become effective for

all future assessments as heretofore provided in this section. If the question should fail, no new election on the subject may be called for a period of one year.

7. When a levee district has been established and constructed, as an alternative to the other methods prescribed by law, upon reclassification, the levee district may adopt a method of classification and assessment uniform as to all land in the district, including railroad land, public highways and other public land and land exempt from general taxation, based on the total amount to be assessed divided by the total acres within the district. This method of classification and assessment may be adopted either by hearing or by election and shall become effective as heretofore provided in this section.

8. When a drainage district or drainage and levee district has been established and constructed, and after the lands therein have been classified in accordance with the provisions of sections 468.39, 468.40, and 468.41 or reclassified in accordance with section 468.65, the district may adopt methods of assessment for maintenance, repair, and operation of said district uniform as to all land in the district in the same manner and by the same procedures as prescribed in subsections 1 through 7 of this section. Provided, however, that only those lands drained by respective mains and laterals shall be assessed for maintenance, repair, and operation of said mains and laterals, and provided further that this alternate method of assessment shall not be applied to making improvements in the drainage system.

9. Following the adoption of any alternative method of classification or assessment as provided in this section, the same shall continue in effect until such time as the method is changed pursuant to this section or to section 468.65.

10. All proceedings taken prior to July 1, 1968, purporting to establish or re-establish a drainage or levee district or districts, or to enlarge or change the boundaries of any drainage or levee district, and any assessments not heretofore declared invalid by any court, are hereby legalized, validated, and confirmed.

The foregoing shall not be construed to affect any litigation that may be pending at the time this section becomes effective involving the establishment, re-establishment, enlargement, or change in boundaries or any assessments of drainage or levee districts.

#### **468.185 Warrants not paid for want of funds.**

Chapter 74 shall be applicable to all warrants which are legally drawn on levee and drainage district funds and are not paid for want of funds.

#### **468.186 Easements through a drainage district.**

As used in this section, "person" shall mean any individual or group of individuals, corporation, firm, company, or association, except a railroad company.

1. When any person proposes to construct a pipeline, electric transmission line, communication line, underground service line, or other similar installations on, over, across, or beneath the right of way of any drainage or levee district, such person shall, before beginning construction, obtain from the drainage or levee district an easement to cross the district's right of way. The governing body of the district shall require such person to agree to comply with subsection 3 of this section and may, as a condition of granting such easement, attach thereto such additional conditions as they deem necessary. When the necessary easement has been obtained, such person shall construct the installation at the person's own expense and shall pay all costs of any reconstruction, relocation, modification, or reinstallation of the drainage or levee district's facility which may be necessary as a result of construction of the installation for which the easement was granted.

2. After construction of the installation has been completed in accordance with all conditions under which the easement is granted, the drainage or levee district shall maintain its facility at its own expense, and the person who constructed the installation, or the person's successors in interest, shall maintain the installation at the person's or successor's own expense. If the drainage or levee district subsequently undertakes any maintenance, improvement, or reconstruction of its facility which requires the modification, relocation, or reconstruction of the installation, the expense of such modification, relocation, or reconstruction shall be borne by the person who constructed the installation or the person's successors in interest.

3. When the construction of a public highway, or any installation for which an easement has been obtained under subsection 1 of this section, on, over, across, or beneath the right of way of any drainage or levee district disturbs or requires replacement of any portion of a tile drain less than twenty inches in diameter, and a portion of such drain will remain wholly or partially exposed after the construction project has been completed, the portion which is to remain exposed and not less than three feet of such drain immediately on either side of the portion which is to remain exposed, shall be replaced either with steel pipe of not less than sixteen gauge or polyvinyl chloride pipe conforming to current industry standards regarding diameter and wall thickness.

#### **468.187 Agreements with outside owners or other districts.**

Levee and drainage districts are empowered to enter into agreements with the owners of lands lying outside of said districts, or with other levee and drainage districts or municipalities, to provide levee protection or drainage for such lands on such terms as the board may agree and subject to the following terms and conditions:

1. The facilities of the district furnishing the service shall not be overburdened.
2. There shall be no additional cost to the district furnishing the service.
3. The agreement shall be in writing, be made a part of the drainage records and shall include the following:
  - a. The description of the lands to be served;
  - b. The location of tile lines constructed or to be constructed;
  - c. The consideration to be paid to the district furnishing the service and the classification of the lands to be served; and
  - d. Such other provisions as the board deems necessary.

#### **468.188 Public improvements which divide a district—procedure.**

If it should develop that any type of public improvement, other than the forces of nature, has caused such a change in the district as to effectively sever and cut off some of the land in the district from other lands in the district and from the improvements in the district in such a way as to deprive the land of any further benefits from the improvement, or in some manner to divide the benefits that may be derived from two separated portions of the improvement, then the board of supervisors or the board of trustees in charge may upon notice to interested parties and hearing as provided by this subchapter, parts 1 through 5, for the original establishment of a district make an order to remove lands so deprived of benefits from the district without any reclassification, or may subdivide the district into two separate entities if the public improvement splits the district into two separate units, each of which may still derive some separate benefits from the separated portions of the district.

If the public improvement is such as to leave two separate portions of the improvement that are still operable and of benefit to the land on each side of the division made by the public improvement, then the board may divide the district into two separate units so that each may perform further work on the improvements in their respective parts, but neither shall be charged for work completed on the opposite side of the new improvement that divides them and may only be charged for the work done in that portion of the district remaining on their side of the division.

The same authority provided in this section shall vest in the board of supervisors or the board of trustees in the event a drainage district in any manner relinquishes its control over any portion of its improvements or its obligation to maintain same to another district and lands may be removed from the district or the district may be divided as provided in this section.

The board may further in dividing the district award to each of the separated portions of the district the improvement remaining in each portion, determine the value of the improvement so remaining on each side and secondly determine the contributions of the lands in the separated portions to the improvements and the upkeep of the earlier district, and if the contribution is proportionate neither side shall owe the other portion of the district any money, but if contribution is disproportionate, the board shall determine an equitable adjustment and the amount of payment required for one portion to pay to the other to buy the existing improvement.

If land is eliminated from any further benefits, there need not be any reclassification and the board may remove the same from the district in the same manner as if the land has been destroyed in whole by the erosion of a river and spread any deficiency in assessment among the remaining lands as provided by section 468.49.

“Type of public improvement” for the purpose of this section includes drainage or levee improvements or new highways.

## PART 2

### FEDERAL FLOOD CONTROL CO-OPERATION

#### **468.201 Plan of improvement.**

1. Whenever the government of the United States acting through its proper agencies or instrumentalities will undertake the original construction of improvements or the repair or alteration of existing improvements which will accomplish the purposes for which the district was established or aid in the accomplishment thereof and shall cause to be filed in the office of the auditor of the county in which said district is located a plan of such improvement or for the repair or alteration of existing improvements, the board shall have jurisdiction, power and authority, upon the notice, hearing and determination hereinafter provided, to adopt such plan of improvement or of repair or alteration of existing improvements and to provide necessary right of way therefor; and to pay such portion of all costs and damages incident to the adoption of such plan, the construction thereunder and the maintenance and operation of the works as will not be discharged by the federal government under legislation existing at the time of adoption; also to enter into such agreements with the United States government as may be necessary to meet federal requirements including the taking over, repair and maintenance of the works and to perform under such agreements.

2. If the cost to the district of the repair or alteration of existing improvements contemplated by this section does not exceed twenty-five percent of the sum of the

original cost to the district and the cost of subsequent improvements, including all federal contributions, the board may proceed under the provisions of section 468.126, without notice and hearing, and without appraisal as contemplated by section 468.210, but the remaining provisions of this section and sections 468.202 through 468.216 that are not in conflict with section 468.126 shall remain applicable.

If the federal program divides a project into separate phases, each phase shall be considered a separate program as described in section 468.126, subsection 4, and shall in no event be construed as an unauthorized division into separate programs to avoid the twenty-five percent limitation prescribed for making improvements under said section 468.126, subsection 4, without notice and hearing.

2. The particular description and acreage of land required from each forty-acre tract or fraction thereof for right of way, borrow pits or other purposes together with congressional or other description of each tract and the names of the owners thereof as shown by the transfer books in the office of the auditor.
3. A particular description of each forty-acre tract or fraction thereof that will be excluded from benefit by adoption of the plan as filed, together with the name of the owners thereof as shown by the transfer books in the office of the auditor.
4. A particular description of each forty-acre tract or fraction thereof outside the district which will benefit from adoption of the plan as filed and the name of the owner thereof as shown by the transfer books in the office of the auditor.

#### **468.220 Occupancy and use permitted—assessments paid.**

Any levee or drainage district organized, or in the process of being organized, under the laws of this state may occupy and use for any lawful levee or drainage purpose land owned by the state of Iowa, upon first obtaining permission to do so from the state or state agency controlling the same.

In the case of lands lying within the beds of meandered streams and border streams the permission shall be obtained from the natural resource commission of the department of natural resources. In the case of lands that are under the control of no office or agency of the state, then the permission shall be obtained from the executive council.

Such permission shall not be unreasonably withheld and shall be in the form of an easement executed by the governor or in the case of an agency, by the chairperson or presiding officer thereof, and when once granted shall be perpetual, except that if no use is made of the same for a period of five years such permission shall immediately thereafter expire.

BOARD OF COUNTY DRAINAGE ADMINISTRATORS

**468.230 Administrators appointed.**

The county board of supervisors of any county of this state in which one or more drainage districts are established may by resolution establish a board of county drainage administrators. All of the powers, duties, and responsibilities now or hereafter conferred on county boards of supervisors in this chapter shall thereupon be transferred to and thereafter exercised by the board of county drainage administrators. A drainage or levee district may be established pursuant to subchapter III.

The board of county drainage administrators shall consist of one resident freeholder appointed by the county board of supervisors from each area, and at least two of the administrators shall be agricultural landowners. The members first appointed shall hold office for terms of one, two, and three years respectively, as indicated and fixed by the county board of supervisors. Thereafter, succeeding members shall be appointed for a term of three years, except that vacancies occurring otherwise than by expiration of a term shall be filled by appointment for the unexpired term. Any member of the board of county drainage administrators who shall cease to have any of the qualifications prescribed by this section shall thereupon be disqualified as a member of the board and the office shall be deemed vacant. served. The administrators shall file with the auditor or auditors, as the case may be, itemized, verified statements of their time devoted to the business of the district and the expenses incurred. If the administrators transact business of more than one district on a given day, they shall prorate their claims for compensation proportionately among the districts served on that day, but in no case shall a member of the board of county drainage administrators claim or receive a sum in excess of seventeen dollars and fifty cents, plus actual and necessary expenses, for a single day.

The board of a county with a population of two hundred thousand persons or more that has established a drainage district located partly within the corporate limits of a city may expend federal grants or revenue sharing money or other funds not derived from local tax levies in amounts as the board deems proper to pay any part of the cost of improvements authorized in this subchapter, parts 1 through 5. The board may issue general obligation bonds to pay any part of the cost of improvements authorized in this subchapter, parts 1 through 5. The bonds shall be issued according to the provisions of chapter 384, division III, relating to general obligation bonds for essential corporate purposes.

PART 6

DISSOLUTION OF DRAINAGE DISTRICTS

**468.250 Jurisdiction to dissolve districts and abandon or transfer improvements.**

Drainage or levee districts may be dissolved and abandoned or assimilated by the procedures prescribed by this part.

1. When any drainage or levee district is free from indebtedness and it shall appear that the necessity therefor no longer exists or that the expense of the continued maintenance of the ditch or levee is in excess of the benefits to be derived therefrom, the board of supervisors or board of trustees, as the case may be, shall have power and jurisdiction, upon petition of a majority of the landowners, who, in the aggregate, own sixty percent of all land in such district, to abandon the same and dissolve and discontinue such districts in the manner prescribed by sections 468.251 through 468.255. Nothing in this subsection shall prevent the board from eliminating land from a drainage district as permitted under section 468.188.

2. When one drainage or levee district, either intracounty or intercounty, includes within its territory all of the territory of one or more other drainage or levee districts, and it appears that one assessment and one governing body would be to the benefit of the owners and occupants of the land within the mutual jurisdiction of the overlying and the contained districts, the board of supervisors or board of trustees may effect the dissolution of a contained district and the transfer of jurisdiction and control over that contained district's improvements to the overlying district, in the manner prescribed by sections 468.256 through 468.261.

overlying district. If, at the conclusion of that portion of the hearing, that board finds that the contained district is free of debt, that the economic benefits of the continued maintenance of that district would not be commensurate with its cost, and that it would be advantageous to dissolve and discontinue the contained district and surrender its improvements and rights of way to the overlying district, it shall enter an order dissolving the contained district and directing the surrender of its improvements and rights of way, conditioned on acceptance by the overlying district.

2. Immediately thereafter, the board of the overlying district shall hear all objections filed against the acceptance of the contained district's improvements and their maintenance. If it finds that the improvements are conducive to the drainage of surface waters from agricultural lands and all other lands in the overlying district or the protection of the lands from overflow, it shall enter an order accepting the improvements and rights of way of the contained district.

3. Orders issued pursuant to subsections 1 and 2 shall be filed with the county auditor of the county or counties in which the affected districts are situated and noted on the drainage record.

The questions may be submitted at a regular election of the district or at a special election called for that purpose. It is not mandatory for the county commissioner of elections to conduct the elections, however the provisions of sections 49.43 to 49.47, and of subchapter III of this chapter, as they are applicable, shall govern the elections, and the question to be submitted shall be set forth in the notice of election.

1. If sixty percent or more of the votes cast are in favor of the proposed dissolution of the contained district involved, the board of that district shall enter an order dissolving the contained district and directing the surrender of its improvements and rights of way, conditioned on acceptance by the overlying district.

2. If sixty percent or more of the votes cast in the overlying district are in favor of the proposed acceptance by that district of the contained district's improvements and rights of way, the board of the overlying district shall enter an order accepting the improvements and rights of way of the contained district.

district accepts those improvements and rights of way, in accordance with sections 468.256 through 468.259:

1. It is presumed that the classification of the lands which were included in the dissolved district, as previously determined by the commissioners in the classification of those lands as a part of the overlying district, remains equitable and no reclassification of the overlying district or any part of it is necessary.

2. The improvements surrendered and accepted are at all times under the supervision of the board of the overlying district, and it is the duty of that board to keep the improvements in repair as provided in section 468.126 as fully and completely as though the improvements were a part of the original construction or improvements in the overlying district.

3. It is presumed that:

*a.* The improvements surrendered and accepted are an integral part of the overlying district's improvements, and are a public benefit and conducive to the public health, convenience and welfare.

*b.* No value is taken into consideration for the existing improvements nor is credit given to the parties owning them, and they shall not be considered an asset of the district that is dissolved.

4. The original cost and the subsequent cost of improvements in the district that has been dissolved are added to and become a part of the original cost and the subsequent cost of improvements in the overlying district.

All such proceedings shall relate only to the lands of such district which are located wholly within this state. Boards having jurisdiction in this state may make just and equitable agreements with like authorities in such adjoining state for the joint management, repair, and maintenance of the entire improvement, after the establishment and completed construction thereof.
