## PREFACE TO 1989 IOWA CODE SUPPLEMENT

This 1989 Iowa Code Supplement shows sections of the laws of Iowa enacted, amended, repealed, or otherwise affected by the 1989 regular session of the Iowa General Assembly, arranged in the numerical sequence followed by the 1989 Iowa Code. Amendments to the Constitution of the State of Iowa, which take effect in 1990 and 1991, are also included. However, it does not show temporary sections, such as appropriation sections, which are not to be codified.

**EFFECTIVE DATES.** Except as otherwise indicated in the text or in a footnote, the new sections, amendments, and repeals were effective on or before July 1, 1989. See the 1989 Iowa Acts to determine specific effective dates not shown.

**NOTES.** A source note following each new or amended section refers to the bill file number and the appropriate chapter and section number in the Iowa Acts where the new section or amendment can be found in the form it had upon passage. Repeals are indicated in the form used in the 1989 Code. Following the source note or repeal may be a footnote. A footnote to an amended section usually refers only to the amended part and not necessarily to the entire section as printed. Many of the footnotes from the 1989 Code are not included but will be corrected as necessary and appear in the 1991 Code. Following the source note or footnote for a new or amended section is an explanatory note to indicate whether the section or a part of it is new, or was amended, stricken, stricken and rewritten, or renumbered.

**EDITORIAL DECISIONS.** If there were multiple amendments to a section or part of a section, all changes that were duplicative or otherwise did not appear to conflict were harmonized as required under section 4.11 of the Code. It was generally assumed that a strike or repeal prevailed over an amendment to the same material and did not create an irreconcilable conflict, and that the substitution of the correct title of an officer or department as authorized by law did not create a conflict. At the end of this Supplement are Code editor's notes which explain the major editorial decisions. Section 14.13 of the 1989 Code governs the ongoing revision of gender references, authorizes other editorial changes, and provides for the effective date of the changes.

**INDEX AND TABLES.** A subject matter Index to new or amended sections, a table of the disposition of the 1989 Acts, and a table of corresponding sections from the 1989 Code to the 1989 Code Supplement also appear at the end of this Supplement.

NEW subsections 13-15

## 8.22 Nature and contents of budget.

The budget shall consist of three parts, the nature and contents of which shall be as follows:

### PART I

*Governor's budget message.* Part I shall consist of the governor's budget message, in which the governor shall set forth:

1. The governor's program for meeting all the expenditure needs of the government for the fiscal year, indicating the classes of funds, general or special, from which appropriations are to be made and the means through which the expenditures shall be financed.

The governor's program shall include a single budget request for all capital projects, as defined in section 8.3A, \*proposed by the governor. The request shall include but not be limited to the following:

- a. The purpose and need for each capital project.
- b. A priority listing of capital projects.
- c. The costs of acquisition, lease, construction, renovation, or demolition of each capital project.
- d. The identification of the means and source of funding each capital project.
- e. The estimated operating costs of each capital project after completion.
- f. The estimated maintenance costs of each capital project after completion.
- g. The consequences of delaying or abandoning each capital project.
- h. Alternative approaches to meeting the purpose or need for each capital project.

- i. Alternative financing mechanisms.

- j. A cost-benefit analysis or economic impact of each capital project.

2. Financial statements giving in summary form:

- a. The condition of the treasury at the end of the last completed fiscal year, the estimated condition of the treasury at the end of the year in progress, and the estimated condition of the treasury at the end of the following fiscal year if the governor's budget proposals are put into effect.

- b. Statements showing the bonded indebtedness of the government, debt authorized and unissued, debt redemption and interest requirements, and condition of the sinking funds, if any.

- c. A summary of appropriations recommended for the following fiscal year for each department and establishment and for the government as a whole, in comparison with the actual expenditures for the last completed fiscal year and the estimated expenditures for the year in progress.

- d. A summary of the revenue, estimated to be received by the government during the following fiscal year, classified according to sources, in comparison with the actual revenue received by the government during the last completed fiscal year and estimated income during the year in progress.

e. A statement of federal funds received in the form of block or categorical grants which were not included in the governor's budget for the previous fiscal year and a statement of anticipated block grants and categorical grants. The budget shall indicate how the federal funds will be used and the programs to which they will be allocated. The amount of state funds required to implement the programs to which the federal funds will apply shall also be indicated. The departments shall provide information to the director on the anticipated federal block grants and categorical grants to be received on or before November 1 of each year. The director shall use this information to develop an annual update of the statement of federal funds received which shall be provided to the general assembly.

f. Other financial statements, data, and comments as in the governor's opinion are necessary or desirable in order to make known in all practicable detail the financial condition and operation of the government and the effect that the budget as proposed by the governor will have on the financial condition and operation.

If the estimated revenues of the government for the ensuing fiscal year as set forth in the budget on the basis of existing laws, plus the estimated amounts in the treasury at the close of the year in progress, available for expenditure in the ensuing fiscal year are less than the aggregate recommended for the ensuing fiscal year as contained in the budget, the governor shall make recommendations to the legislature in respect to the manner in which the deficit shall be met, whether by an increase in the state tax or the imposition of new taxes, increased rates on existing taxes, or otherwise, and if the aggregate of the estimated revenues, plus estimated balances in the treasury, is greater than the recommended appropriations for the ensuing fiscal year, the governor shall make recommendations in reference to the application of the surplus to the reduction of debt or otherwise, to the reduction in taxation, or to such other action as in the governor's opinion is in the interest of the public welfare.

#### PART II

*Recommended appropriations.* Part II shall present in detail for the ensuing fiscal year the governor's recommendations for appropriations to meet the expenditure needs of the government from each general class of funds, in comparison with actual expenditures for each of the purposes during the last completed fiscal year and estimated expenditures for the year in progress, classified by departments and establishments and indicating for each the appropriations recommended for:

1. Meeting the cost of administration, operation, and maintenance of the departments and establishments.
2. Appropriations for meeting the cost of land, public improvements, and other capital outlays in connection with the departments and establishments.

Each item of expenditure, actual or estimated, and appropriations recommended for administration, operation, and maintenance of each department or establishment shall be supported by detailed statements showing the actual and estimated expenditures and appropriations classified by objects according to a standard scheme of classification to be prescribed by the director.

#### PART III

*Appropriation bills.* Part III shall include a draft or drafts of appropriation bills having for their purpose to give legal sanction to the appropriations recommended to be made in Parts I and II. The appropriation bills shall indicate the funds,

general or special, from which the appropriations shall be paid, but the appropriations need not be in greater detail than to indicate the total appropriation to be made for:

1. Administration, operation, and maintenance of each department and establishment for the fiscal year.
2. The cost of land, public improvements, and other capital outlays for each department and establishment, itemized by specific projects or classes of projects of the same general character.

### **8.31 Quarterly requisitions—allotments—exceptions—modifications.**

Before an appropriation for administration, operation and maintenance of any department or establishment shall become available, there shall be submitted to the director of the department of management, not less than twenty days before the beginning of each quarter of each fiscal year, a requisition for an allotment of the amount estimated to be necessary to carry on its work during the ensuing quarter. The requisition shall contain details of proposed expenditures as may be required by the director of the department of management subject to review by the governor.

The director of the department of management shall approve the allotments subject to review by the governor, unless it is found that the estimated budget resources during the fiscal year are insufficient to pay all appropriations in full, in which event such allotments may be modified to the extent the governor may deem necessary in order that there shall be no overdraft or deficit in the several funds of the state at the end of the fiscal year, and the director shall submit copies of the allotments thus approved or modified to the head of the department or establishment concerned, who shall set up such allotments on the books and be governed accordingly in the control of expenditures.

Allotments of appropriations made for equipment, land, permanent improvements, and other capital projects may, however, be allotted in one amount by major classes or projects for which they are expendable without regard to quarterly periods. For fiscal years beginning on or after July 1, 1989, allotments of appropriations for equipment, land, permanent improvements, and other capital projects, except where contracts have been entered into with regard to the acquisition or project prior to July 1, 1989, shall not be allotted in one amount but shall be allotted at quarterly periods as provided in this section.

Allotments thus made may be subsequently modified by the director of the department of management at the direction of the governor either upon the written request of the head of the department or establishment concerned, or in the event the governor finds that the estimated budget resources during the fiscal year are insufficient to pay all appropriations in full, upon the governor's own initiative to the extent the governor may deem necessary in order that there shall be no overdraft or deficit in the several funds of the state at the end of the fiscal year; and the head of the department or establishment shall be given notice of a modification in the same way as in the case of original allotments.

Provided, however, that the allotment requests of all departments and establishments collecting governmental fees and other revenue which supplement a state appropriation shall attach to the summary of requests a statement showing how much of the proposed allotments are to be financed from (1) state appropriations, (2) stores, and (3) repayment receipts.

The procedure to be employed in controlling the expenditures and receipts of the state fair board and the institutions under the state board of regents, whose collections are not deposited in the state treasury, is that outlined in section 421.31, subsection 6.

If the governor determines that the estimated budget resources during the fiscal year are insufficient to pay all appropriations in full, the reductions shall be uniform and prorated between all departments, agencies and establishments upon the basis of their respective appropriations.

89 Acts, ch 309, §6 SF 369  
Unnumbered paragraph 3 amended

### **8.33 Time limit on obligations—reversion.**

No obligation of any kind shall be incurred or created subsequent to the last day of the fiscal year for which an appropriation is made, except when specific provision otherwise is made in the Act making the appropriation. On August 31, or as otherwise provided in an appropriation Act, following the close of each fiscal year, all unencumbered or unobligated balances of appropriations made for that fiscal term revert to the state treasury and to the credit of the funds from which the appropriations were made, except that capital expenditures for the purchase of land or the erection of buildings or new construction continue in force until the attainment of the object or the completion of the work for which the appropriations were made unless the Act making an appropriation for the capital expenditure contains a specific provision relating to a time limit for incurring an obligation or reversion of funds. This section does not repeal sections 19.11 through 19.14.

No payment of an obligation for goods and services shall be charged to an appropriation subsequent to the last day of the fiscal year for which the appropriation is made unless the goods or services are received on or before the last day of the fiscal year, except that repair projects, purchase of specialized equipment and furnishings, and other contracts for services and capital expenditures for the purchase of land or the erection of buildings or new construction or remodeling, which were committed and in progress prior to the end of the fiscal year are excluded from this provision.

89 Acts, ch 284, §2 SF 119  
Unnumbered paragraph 1 amended

### **8.34 Charging off unexpended appropriations.**

Except as otherwise provided by law, the director of the department of revenue and finance shall transfer to the fund from which an appropriation was made, any unexpended or unencumbered balance of that appropriation remaining at the expiration of two months after the close of the fiscal term for which the appropriation was made. At the time the transfer is made on the books of the department of revenue and finance, the director shall certify that fact to the treasurer of state, who shall make corresponding entries on the books of the treasurer's office.

89 Acts, ch 284, §3 SF 119  
Section amended

### **8.35A Information to be given to legislative fiscal bureau.**

1. By July 1 the director of the department of management shall provide a projected expenditure breakdown of each appropriation for the beginning fiscal year to the legislative fiscal bureau in the form and level of detail requested by the bureau. By the fifteenth of each month, the director shall transmit to the legislative fiscal bureau a record for each appropriation of actual expenditures for the prior month of the fiscal year and the fiscal year to date in the form and level of detail as requested by the bureau. By October 1 the director shall transmit the total record of an appropriation, including reversions and transfers for the prior fiscal year ending June 30, to the legislative fiscal bureau.

governor. The director shall transmit all agency requests in final form to the legislative fiscal bureau by November 15. Final budget records containing the governor's recommendation and final agency requests shall be transmitted to the legislative fiscal bureau by January 1 or no later than the date the governor's budget document is delivered to the printer. The governor's recommendation included on this record shall be considered confidential by the legislative fiscal bureau until it is made public by the governor. The legislative fiscal bureau shall use this data in the preparation of information for the legislative appropriation process.

3. The director shall communicate any changes or anticipated changes to the budgeting system or the accounting system in writing to the legislative fiscal bureau prior to implementation.

4. A government agency which receives state funds directly from the state or indirectly through a political subdivision as directed by statute and which is not a city, county, or school district is subject to this subsection. A government agency which is subject to this subsection shall submit a copy of its budget to the legislative fiscal bureau, identifying it as being submitted under this subsection, when the budget of that government agency has received approval from the governing head or body of that agency. The copy of the budget submitted to the legislative fiscal bureau shall be on the budget forms provided by the department of management to state agencies under this chapter. The government agency shall also submit a statement identifying any funds available to the agency which are not included in the budget.

The examination shall cover the fiscal year next preceding the year in which the audit is conducted. The examination of school offices shall include an audit of activity funds.

Subject to the exceptions and requirements of subsection 2 and subsection 4, paragraph "c", examinations shall be made as determined by the governmental subdivision either by the auditor of state or by certified public accountants, certified in the state of Iowa, and they shall be paid from the proper public funds of the governmental subdivision.

If the governing body fails to notify the auditor of state of the decision to use the auditor of state, the auditor of state may perform the audit required in subsection 1 only if provisions are not made by the governing body to contract for the audit.

3. A township or city for which examinations are not required under subsection 1 may contract with or employ the auditor of state or certified public accountants for an examination of its financial transactions and condition of its funds. A financial examination is mandatory on application by one hundred or more taxpayers, or if there are fewer than five hundred taxpayers in the township or city, then by fifteen percent of the taxpayers. Payment for the examination shall be made from the proper public funds of the township or city.

### 15.292 Legislative findings.

The general assembly finds and declares the following:

1. The rapid retooling of Iowa businesses, including the dramatic introduction of new, highly technical manufacturing processes into Iowa industry, has contributed to increasing unemployment in the state by reducing the demand for unskilled and underskilled labor and making traditionally marketable job skills obsolete.

2. Corresponding to the increase in the number of workers displaced by the retooling of businesses, there is an increasing demand by those businesses for workers to be trained to perform new technical functions.

3. The mismatch between available labor and the needs of businesses harms the economic revitalization of the state by retarding the production and efficiency of retooling businesses, draining employer-taxed contributions to the unemployment compensation fund, diverting state public assistance resources to support displaced workers, and stifling a sense of self-worth and economic independence of affected persons.

4. The state finds it advantageous to establish an employment retraining fund administered to remedy structural imbalances in the job market and to assist employers and employees by fostering business expansion and job creation, minimizing unemployment costs to businesses, diversifying the state’s economic base, supplying businesses with an available pool of workers trained to perform demand skills, providing Iowans permanent jobs, increasing the flexibility in the skills of workers, minimizing public assistance payments to displaced workers, and encouraging in affected persons a sense of self-worth and economic independence.

5. Expenditures from the Iowa employment retraining fund used to support retraining programs shall supplement financial assistance available through other state and federal programs. In addition, assistance under employment retraining programs shall not be used to replace, parallel, supplant, compete with,

or duplicate assistance provided under other training programs sponsored by an employer, the state, or the federal government.

The moneys in the fund are appropriated to the department for the purpose of retraining workers in a retooled business.

The department shall set aside at the beginning of each fiscal year for that fiscal year the moneys in the fund for each merged area to be used to provide the financial assistance for retraining proposals of businesses located in the merged area whose applications have been approved by the department. If any portion of the moneys set aside for a merged area have not been used or committed by March 1 of the fiscal year, that portion is available for use by the department to provide financial assistance to businesses located in other merged areas. The department shall adopt by rule a formula for this set aside based upon the population and per capita income of the merged area. ### **17A.6 Publications.**

1. The Code editor shall cause the "Iowa Administrative Bulletin" to be published in pamphlet form at least every other week containing the following:

a. Notices of intended action and adopted rules prepared in such a manner so that the text of a proposed or adopted rule shows the text of any existing rule being changed and the change being made.

b. All proclamations and executive orders of the governor which are general and permanent in nature.

c. Other materials deemed fitting and proper by the administrative rules review committee.

2. Subject to the direction of the administrative rules co-ordinator, the Code editor shall cause the "Iowa Administrative Code" to be compiled, indexed, and published in loose-leaf form containing all rules adopted and filed by each agency. The Code editor further shall cause loose-leaf supplements to the Iowa administrative code to be published as determined by the administrative rules coordinator and the administrative rules review committee, containing all rules filed for publication in the prior time period. The supplements shall be in such form that they may be inserted in the appropriate places in the permanent compilation. The administrative rules co-ordinator shall devise a uniform numbering system for rules and may renumber rules before publication to conform with the system.

3. The Code editor may omit or cause to be omitted from the Iowa administrative code or bulletin any rule the publication of which would be unduly cumbersome, expensive or otherwise inexpedient, if the rule in printed or processed form is made available on application to the adopting agency at no more than its cost of reproduction, and if the Iowa administrative code or bulletin contains a notice stating the specific subject matter of the omitted rule and stating how a copy thereof may be obtained.

4. The Iowa administrative code, its supplements, and the Iowa administrative bulletin shall be made available upon request to all persons who subscribe to any of them through the state printing division. Copies of this code so made available shall be kept current by the division.

5. All expenses incurred by the Code editor under this section shall be defrayed under the provisions of section 14.22.

6. The Code editor, with the approval of the administrative rules review committee and the administrative rules coordinator, may delete a rule from the Iowa administrative code if the agency that adopted the rule has ceased to exist, no successor agency has jurisdiction over the rule, and no statutory authority exists supporting the rule.

### **17A.23 Construction.**

Except as expressly provided otherwise by this chapter or by another statute referring to this chapter by name, the rights created and the requirements imposed by this chapter shall be in addition to those created or imposed by every other statute in existence on July 1, 1975, or enacted after that date. If any other statute in existence on July 1, 1975, or enacted after that date diminishes a right conferred upon a person by this chapter or diminishes a requirement imposed upon an agency by this chapter, this chapter shall take precedence unless the

other statute expressly provides that it shall take precedence over all or some specified portion of this named chapter.

The Iowa administrative procedure Act shall be construed broadly to effectuate its purposes. This chapter shall also be construed to apply to all agencies not expressly exempted by this chapter or by another statute specifically referring to this chapter by name; and except as to proceedings in process on July 1, 1975, this chapter shall be construed to apply to all covered agency proceedings and all agency action not expressly exempted by this chapter or by another statute specifically referring to this chapter by name.

## CHAPTER 18

### GENERAL SERVICES DEPARTMENT

#### 18.3 Duties of director.

The duties of the director shall include but not necessarily be limited to the following:

1. Establishing and developing, in co-operation with the various state agencies, a system of uniform standards and specifications for purchasing. When the system is developed, all items of general use shall be purchased through the department, except items used by the state department of transportation, institutions under the control of the board of regents, the department for the blind, and any other agencies exempted by law.

Life cycle cost and energy efficiency shall be included in the criteria used by the department of general services, institutions under the state board of regents, the state department of transportation, the department for the blind and other state agencies in developing standards and specifications for purchasing energy consuming products. As used in this paragraph "*life cycle cost*" means the expected total cost of ownership during the life of a product.

For purposes of this section, the life cycle costs of American motor vehicles shall be reduced by five percent in order to determine if the motor vehicle is comparable to foreign made motor vehicles. "*American motor vehicles*" includes those vehicles manufactured in this state and those vehicles in which at least seventy percent of the value of the motor vehicle was manufactured in the United States or Canada and at least fifty percent of the motor vehicle sales of the manufacturer are in the United States or Canada. In determining the life cycle costs of a motor vehicle, the costs shall be determined on the basis of the bid price, the resale value, and the operating costs based upon a useable life of five years or seventy-five thousand miles, whichever occurs first.

Preference shall be given to purchasing American made products and purchases from American based businesses if the life cycle costs are comparable to those products of foreign businesses and which most adequately fulfill the department's need.

The director may purchase items through the state department of transportation, institutions under the control of the board of regents and any other agency exempted by law from centralized purchasing. These state agencies shall upon request furnish the director with a list of and specifications for all items of office equipment, furniture, fixtures, motor vehicles, heavy equipment and other related items to be purchased during the next quarter and the date by which the director must file with the agency the quantity of items to be purchased by the state agency for the department of general services. The department of general services shall be liable to the state agency for the proportionate costs the items purchased for it bear to the total purchase price. When items purchased have been

delivered, the state agency shall notify the director and after receipt of the purchase price shall release the items to the director or upon the director's order.

2. Administering the provisions of sections 18.114 to 18.121.
3. Administering the provisions of sections 18.26 to 18.103.
4. Providing for the proper maintenance of the state capitol, grounds, and equipment and all other state buildings, grounds, and equipment at the seat of government, except those referred to in section 601K.123, subsection 6.
5. Administering sections 18.132 to 18.135.
6. Establishing, supervising, and maintaining a central mail unit for the use of all state officials, agencies, and departments located at the seat of government.
7. Installing a records system for the keeping of records which are necessary for a proper audit and effective operation of the department.
8. Providing architectural services, contracting for construction and construction oversight for state agencies except for the board of regents, department of transportation, national guard, and natural resource commission. Capital funding appropriated to state agencies, except the board of regents, department of transportation, national guard, and natural resource commission, for property management shall be transferred for administration and control to the director of the department of general services.
9. Administering the provisions of section 18.18.
10. Determining which risk exposures shall be self-insured or assumed by the state with respect to loss and loss exposures of state government.

89 Acts, ch 76, §1 HF 256  
NEW subsection 10

### **18.6 Competitive bidding—preferences—reciprocal application—direct purchasing.**

The director shall promulgate rules establishing competitive bidding procedures.

1. All equipment, supplies, or services procured by the department shall be purchased by a competitive bidding procedure. However, the director may exempt by regulation purchases of noncompetitive items and purchases in lots or quantities too small to be effectively purchased by competitive bidding. Preference shall be given to purchasing Iowa products and purchases from Iowa based businesses if the bids submitted therefor are comparable in price to bids submitted by out-of-state businesses and otherwise meet the required specifications. If the laws of another state mandate a percentage preference for businesses or products from that state and the effect of the preference is that bids of Iowa businesses or products that are otherwise low and responsive are not selected in the other state, the same percentage preference shall be applied to Iowa businesses and products when businesses or products from that other state are bid to supply Iowa requirements.
2. The director may also exempt the purchase of an item from a competitive bidding procedure when the director determines that the best interests of the state will be served due to an immediate or emergency need for the item.
3. The director shall have the power to contract for the purchase of items by the department. Contracts for the purchase of items shall be awarded on the basis of the lowest competent bid. Contracts not based on competitive bidding shall be awarded on the basis of bidder competence and reasonable price.
4. The director may refuse all bids on any item and institute a new bidding procedure.
5. The director shall establish by regulation the amount of security, if any, to accompany a bid or as a condition precedent to the awarding of any contract and the circumstances under which a security will be returned to the bidder or forfeited to the state.

6. The director shall promulgate rules providing a method for the various state agencies to file with the department of general services a list of those supplies, equipment, machines, and all items needed to properly perform their governmental duties and functions.

7. The director shall furnish a list of specifications, prices, and discounts of contract items to any governmental subdivision which shall be responsible for payment to the vendor under the terms and conditions outlined in the state contract.

8. The director shall establish rules providing that any state agency may, upon request, purchase directly from a vendor if the direct purchasing is as economical or more economical than purchasing through the department, or upon a showing that direct purchasing by the state agency would be in the best interests of the state due to an immediate or emergency need.

Any member of the executive council may bring before the council for review a decision of the director granting a state agency request for direct purchasing. The executive council shall hear and review the director's decision in the same manner as an appeal filed by an aggrieved bidder, except that the three-day period for filing for review shall not apply.

9. When the estimated total cost of construction, erection, demolition, alteration or repair of a public improvement exceeds twenty-five thousand dollars, the department shall advertise for bids on the proposed improvement by two publications in a newspaper published in the county in which the work is to be done. The first advertisement for bids shall be not less than fifteen days prior to the date set for receiving bids. The department shall let the work to the lowest responsible bidder submitting a sealed proposal. However, if the department considers the bids received not to be acceptable, all bids may be rejected and new bids requested. A bid shall be accompanied, in a separate envelope, by a deposit of money or a certified check or credit union certified share draft in an amount to be named in the advertisement for bids as security that the bidder will enter into a contract for the doing of the work. The department shall fix the bid security in an amount equal to at least five percent, but not more than ten percent of the estimated total cost of the work. The checks, share drafts or deposits of money of the unsuccessful bidders shall be returned as soon as the successful bidder is determined, and the check, share draft or deposit of money of the successful bidder shall be returned upon execution of the contract documents. This section does not apply to the construction, erection, demolition, alteration or repair of a public improvement when the contracting procedure for the doing of the work is provided for in another provision of law.

10. The state and its political subdivisions shall give preference to purchasing Iowa products and purchasing from Iowa based businesses if the bids submitted are comparable in price to those submitted by other bidders and meet the required specifications.

11. The director shall adopt rules which require that each bid received for the purchase of items purchased by the department includes a product content statement which provides the percentage of the content of the item which is reclaimed material.

12. The director shall require that as a condition of a contract for the purchase of items by the department, the person submitting the proposed contract for purchase of items shall receive information regarding the availability of an on-site, nonregulatory, review of waste management of the facility of the person submitting the proposed contract by the small business assistance center for the safe and economic management of solid waste and hazardous substances at the university of northern Iowa.

13. The director shall review and, where necessary, revise specifications used by state agencies to procure products including but not limited to lubricating oils,

retread tires, building insulation materials, and recovered materials from waste tires to ensure that the specifications allow the procurement of items containing recovered materials. Specifications shall be revised if they restrict the use of alternative materials, exclude recovered materials, or require performance standards which exclude items containing recovered materials unless the agency seeking the item can document that the use of recovered materials will hamper the intended use of the item.

### **18.7 Appeal.**

A bidder whose bid is timely filed, and who is aggrieved by the award of the purchasing division of the department, may appeal the decision to the director by filing a written appeal stating the grounds for appeal, and delivering the appeal to the department within five days after receipt of the "notice of intent to award", exclusive of Saturdays, Sundays, and legal holidays. The director shall conduct a hearing and determine the appeal within twenty days after the appeal is filed. The decision of the director is final.

Disputes arising between the department of corrections and a purchasing department or agency over the procurement of products from Iowa state industries as described in section 246.808 shall be referred to the director. The decision of the director is final unless a written appeal is filed with the executive council within five days of receipt of the decision of the director, excluding Saturdays, Sundays, and legal holidays. If an appeal is filed, the executive council shall hear and determine the appeal within thirty days. The decision of the executive council is final.

### **18.12 Duties—state property—employees—reports—lease-purchase—appropriation.**

In addition to other duties the director shall:

1. See that all visitors, at proper hours, are properly escorted over capitol grounds and capitol buildings, free of expense.

2. Have at all times, charge of and supervision over the janitors, and other employees of the department in and about the capitol and other state buildings, except the buildings and grounds referred to in section 601L.3, subsection 6, at the seat of government.

3. Institute, in the name of the state, and with the advice and consent of the attorney general, civil and criminal proceedings against any person for injury or threatened injury to any public property under the person's control.

4. Keep in the director's office a complete record containing an itemized account of all state property, including furniture and equipment, under the director's care and control, and plans and surveys of the public grounds, buildings, and underground constructions at the seat of government.

5. Under the direction of the governor, provide, furnish, and pay for public utilities service, heat, maintenance, minor repairs, and equipment in operating and maintaining the official residence of the governor of Iowa.

6. At the time provided by law, make a verified report which shall cover all transactions for the preceding annual, fiscal or calendar period and show in detail:

a. All expenditures made on account of the department for public buildings and property.

b. The condition of all real and personal property of the state under the director's care and control, together with a report of any loss or destruction, or injury to any such property, with the causes thereof.

c. The measures necessary for the care and preservation of the property under the director's control.

d. Any recommendations as to methods which would tend to render the public service more efficient and economical.

e. Any other matter ordered by the governor.

7. Contract, with the approval of the executive council, for the repair, remodeling or, if the condition warrants, demolition of all buildings and grounds of the state at the seat of government and the institutions of the department of human services and the department of corrections for which no specific appropriation has been made, if the cost of repair, remodeling or demolition will not exceed one hundred thousand dollars when completed. The cost of repair projects for which no specific appropriation has been made shall be paid from the fund provided in section 19.29.

8. Dispose of all personal property of the state under the director's control when it becomes unnecessary or unfit for further use by the state. Proceeds from the sale of personal property shall be deposited in the state general fund.

9. Lease all buildings and office space necessary to carry out the provisions of this chapter or necessary for the proper functioning of any state agency at the seat of government, with the approval of the executive council if no specific appropriation has been made. The cost of any lease for which no specific appropriation has been made shall be paid from the fund provided in section 19.29.

When the general assembly is not in session, the director of general services may request funds from the executive council for moving state agencies located at the seat of government from one location to another. The request may include moving costs, telephone costs, repair costs, or any other costs relating to the move. The executive council may approve and shall pay the costs from funds provided in section 19.29 if it determines the agency or department has no available funds for these expenses.

10. On behalf of the department, enter into lease-purchase contracts for real or personal property, wherever located within the state, to be used for buildings, facilities, and structures, or for additions or improvements to existing buildings, facilities, and structures, to carry out the provisions of this chapter or for the proper use and benefit of the state and its state agencies on the following terms and conditions:

a. The director shall coordinate the location, design, plans and specifications, construction, and ultimate use of the real or personal property lease-purchased with the state agency for whose benefit and use the property is being obtained and the terms and conditions of the lease-purchase contract with both the state agency for whose benefit and use the property is being obtained and the treasurer of state. Upon awarding the contract for construction of a building or for site development, the director shall have sole authority to administer the contract.

b. The lease-purchase contract may provide for ultimate ownership of the property by the state. Title to all property acquired in this manner shall be taken and held in the name of the state. The state shall be the lessee or contracting party under all lease-purchase contracts entered into pursuant to this chapter. The lease-purchase contract may contain provisions similar to provisions customarily found in lease-purchase contracts between private persons, including, but not limited to, provisions prohibiting the acquisition or use by the lessee of competing property or property in substitution for the lease-purchased property, obligating the lessee to pay costs of operation, maintenance, insurance, and taxes relating to the property, and permitting the lessor to retain a security interest in the property lease-purchased, until title passes to the state, which may be assigned or pledged by the lessor. The director may contract for additional security or liquidity for a lease-purchase contract and may enter into agreements for letters of credit, lines of credit, insurance, or other forms of security with respect

to rental and other payments due under a lease-purchase contract. Fees for the costs of additional security or liquidity are a cost of entering into the lease-purchase contract and may be paid from funds annually appropriated by the general assembly to the state agency for which the property is being obtained or from other funds legally available. The lease-purchase contract may include the costs of entering into the lease-purchase contract as a cost of the lease-purchased property. The provision of a lease-purchase contract which provides that a portion of the periodic rental payment be applied as interest is subject to chapter 74A. Other laws relating to interest rates do not apply. Chapter 75 does not apply to lease-purchase contracts entered into pursuant to this chapter. Rental and other costs due under lease-purchase contracts entered into pursuant to this chapter shall be payable from funds annually appropriated by the general assembly to the state agency for which the property is being obtained or from other funds legally available.

c. A lease-purchase contract to which the state is a party is an obligation of a state for purposes of chapters 502 and 682, and is a lawful investment for banks, trust companies, building and loan associations, savings and loan associations, investment companies, insurance companies, insurance associations, executors, guardians, trustees, and other fiduciaries responsible for the investment of funds.

d. The director shall not enter into lease-purchase contracts pursuant to this chapter without prior authorization by a constitutional majority of each house of the general assembly and approval by the governor of the use, location, and maximum cost, not including interest expense, of the real or personal property to be lease-purchased. However, the director shall not enter into a lease-purchase contract for real or personal property which is to be constructed for use as a prison or prison-related facility without prior authorization by a constitutional majority of each house of the general assembly and approval by the governor of the use, location, and maximum cost, not including interest expense, of the real or personal property to be lease-purchased and with the construction in accordance with space needs as established by an independent study of space needs authorized by the general assembly.

e. A contract for acquisition, construction, erection, demolition, alteration, or repair by a private person of real or personal property to be lease-purchased by the director pursuant to this chapter is exempt from section 18.6, subsections 1 and 9, unless the lease-purchase contract is funded in advance by a deposit of the lessor's moneys to be administered by the director under a lease-purchase contract which requires rent payments to commence upon delivery of the lessor's moneys to the lessee.

This subsection provides an alternative and independent method for carrying out projects under this chapter and for entering into lease-purchase contracts in connection therewith, without reference to any other statute, and is not an amendment of or subject to the provision of any other law. No publication of any notice, whether under section 23.12 or otherwise, and no other or further proceedings with respect to the lease-purchase contracts is required except as set forth in this chapter, any provisions of other statutes of the state to the contrary notwithstanding.

For purposes of this subsection and subsection 12, "state agency" means a board, commission, bureau, division, office, department, or branch of state government.

11. Establish rental fees for space owned by the state and provided by the department to a state agency to which the general assembly has specifically appropriated funds to pay the rental fees.

The director shall notify each state agency provided space by the department to which an appropriation for the rental of that space has been made of the rental fee for the space. The fee shall be based on the cost of the space, services provided to the agency by the division of buildings and grounds, maintenance, utilities,

administration, and other property management costs. The state agency shall pay the fee to the department in the same manner as other expenses of the state agency are paid. Fees collected shall be deposited in the general fund of the state.

12. Coordinate the leasing of buildings and office space by state agencies throughout the state and develop cooperative relationships with the state board of regents to promote the collocation of state agencies.

13. With the authorization of a constitutional majority of each house of the general assembly and approval by the governor, dispose of real property belonging to the state and its state agencies upon terms, conditions, and consideration as the director may recommend. If real estate subject to sale under this subsection has been purchased or acquired from appropriated funds, the proceeds of the sale shall be deposited with the treasurer of state and credited to the general fund of the state or other fund from which appropriated. There is appropriated from that same fund, with the prior approval of the executive council and in cooperation with the director, a sum equal to the proceeds so deposited and credited to the state agency to which the disposed property belonged or by which it was used, for purposes of the state agency.

14. Subject to the selection procedures of section 12.30, employ financial consultants, banks, insurers, underwriters, accountants, attorneys, and other advisors or consultants necessary to implement the provisions of subsection 10.

15. Prepare quarterly status reports for all ongoing capital projects of all state agencies, as capital project and state agency are defined in section 8.3A, \* and submit the status reports to the legislative capital projects committee.

16. Call upon any state agency, as defined in section 8.3A, for assistance the director may require in performing the director's duties under subsection 15 regarding capital project status reports. All state agencies, upon the request of the director and with the approval of the director of the department of management, shall assist the director and are authorized to make available to the director any existing studies, surveys, plans, data, and other materials in the possession of the state agencies which are relevant to the director's duties.

17. In carrying out the requirements of section 64.6, the state may purchase an individual or a blanket surety bond insuring the fidelity of state officers. The department may self-assume or self-insure fidelity exposures for state officials and employees. A state official is deemed to have furnished surety if the official has been covered by a program of insurance or self-insurance established by the department. To the extent possible, all bonded state employees shall be covered under one or more blanket bonds or position schedule bonds.

18. The management of state property loss exposures and state liability risk exposures shall be reviewed by the director for the capitol complex. Insurance coverage may include self-insurance or any type of insurance protection sold by insurers, including but not limited to, full coverage, partial coverage, coinsurance, reinsurance, and deductible insurance coverage.

19. Perform all other duties required by law.

1. When purchasing paper products, the department of general services shall, whenever the price is reasonably competitive and the quality intended, purchase the recycled product. The department of general services shall also purchase, whenever the price is reasonably competitive and the quality intended, and in

keeping with the schedule established in this subsection, soybean-based inks and starch-based plastics, including but not limited to starch-based plastic garbage can liners.

a. By July 1, 1989, a minimum of fifty percent of the purchases of inks which are used for newsprint printing services performed internally or contracted for by the department of general services shall be soybean-based.

b. By July 1, 1989, a minimum of fifteen percent of the purchases of garbage can liners made by the department of general services shall be starch-based plastic garbage can liners. The percentage purchased shall increase by five percent annually until fifty percent of the purchases of garbage can liners are purchases of starch-based plastic garbage can liners.

c. The department of general services shall report to the general assembly on January 1 of each year the plastic products which are regularly purchased by the department of general services for which starch-based product alternatives are available. The report shall also include the cost of the plastic products purchased and the cost of the starch-based product alternatives.

2. a. As used in this subsection, unless the context otherwise requires:

(1) "*Recycled paper*" means a paper product with not less than forty percent of its total weight consisting of postconsumer material and recovered paper material. At least ten percent of the total weight of recycled paper shall be postconsumer materials.

(2) "*Postconsumer material*" means only those products generated by a business or consumer which have served their intended end uses, and which have been separated or diverted from solid waste for the purposes of collection, recycling, and disposition.

(3) "*Recovered paper material*" means paper waste generated after the completion of the papermaking process, such as postconsumer material, envelope cuttings, bindery trimmings, printing waste, cutting and other converting waste, butt rolls and mill wrappers, obsolete inventories, and rejected unused stock. "*Recovered paper material*" does not mean fibrous waste generated during the manufacturing process such as fibers recovered from waste water, or trimmings of paper machine rolls; or fibrous by-products of harvesting, extractive, or woodcutting processes; or forest residue such as bark.

b. The department, in conjunction with recommendations made by the department of natural resources, shall purchase and use recycled printing and writing paper so that twenty-five percent by January 1, 1990, fifty percent by January 1, 1992, seventy-five percent by January 1, 1996, and ninety percent by January 1, 2000, of the volume of printing and writing paper purchased is recycled paper.

3. The department of general services, in conjunction with the department of natural resources, shall review the procurement specifications currently used by the state to eliminate, wherever possible, discrimination against the procurement of products manufactured with recovered materials, starch-based plastics, and soybean-based inks.

4. The department of natural resources shall assist the department of general services in locating suppliers of recycled products, starch-based plastics, and soybean-based inks and collecting data on recycled content, starch-based plastic, and soybean-based ink purchases.

5. Information on recycled content shall be requested on all bids for paper products issued by the state and on other bids for products which could have recycled content such as oil, plastic products, including but not limited to starch-based plastic products, compost materials, aggregate, solvents, soybean-based inks, and rubber products.

6. The department of general services, in conjunction with the department of natural resources, shall adopt rules and regulations to carry out the provisions of this section.

7. All state agencies shall fully cooperate with the departments of general services and natural resources in all phases of implementing this section.

**18.20 Wastepaper recycling program.**

The department in accordance with recommendations made by the department of natural resources shall require all state agencies to establish an agency wastepaper recycling program by January 1, 1990. The director shall adopt rules which require a state agency to develop a program to ensure the recycling of the wastepaper generated by the agency. Each agency shall submit a report to the general assembly meeting in January 1990, which includes a description of the program plan and the agency's efforts to use recycled products. All state employees shall practice conservation of paper materials.

For the purposes of this section, "agency waste paper" means wastepaper or wastepaper products generated by the agency.

The rules adopted by the director shall provide for the continuation of existing state agency contracts which provide for alternative waste management not including incineration or land burial of agency waste paper.

**18.115 Vehicle dispatcher—employees—powers and duties.**

The director of the department of general services shall appoint a state vehicle dispatcher and other employees as necessary to administer this division. The state vehicle dispatcher shall serve at the pleasure of the director and is not governed by the merit system provisions of chapter 19A. Subject to the approval of the director, the state vehicle dispatcher has the following duties:

1. The dispatcher shall assign to a state officer or employee or to a state office, department, bureau, or commission, one or more motor vehicles which may be required by the officer or department, after the officer or department has shown the necessity for such transportation. The state vehicle dispatcher shall have the power to assign a motor vehicle either for part time or full time. The dispatcher shall have the right to revoke the assignment at any time.

2. The state vehicle dispatcher may cause all state-owned motor vehicles to be inspected periodically. Whenever the inspection reveals that repairs have been improperly made on the motor vehicle or that the operator is not giving it the proper care, the dispatcher shall report this fact to the head of the department to which the motor vehicle has been assigned, together with recommendation for improvement.

3. The state vehicle dispatcher shall install a record system for the keeping of records of the total number of miles state-owned motor vehicles are driven and the per-mile cost of operation of each motor vehicle. Every state officer or employee shall keep a record book to be furnished by the state vehicle dispatcher in which the officer or employee shall enter all purchases of gasoline, lubricating oil, grease, and other incidental expense in the operation of the motor vehicle assigned to the officer or employee, giving the quantity and price of each

purchase, including the cost and nature of all repairs on the motor vehicle. Each operator of a state-owned motor vehicle shall promptly prepare a report at the end of each month on forms furnished by the state vehicle dispatcher and forward the same to the dispatcher at the statehouse, giving the information the state vehicle dispatcher may request in the report. The state vehicle dispatcher shall each month compile the costs and mileage of state-owned motor vehicles from the reports and keep a cost history card on each motor vehicle and the costs shall be reduced to a cost-per-mile basis for each motor vehicle. It shall be the duty of the state vehicle dispatcher to call to the attention of the head of any department to which a motor vehicle has been assigned any evidence of the mishandling or misuse of any state-owned motor vehicle which is called to the dispatcher's attention.

4. The state vehicle dispatcher shall purchase all new motor vehicles for all branches of the state government, except the state department of transportation, institutions under the control of the state board of regents, the department for the blind, and any other agencies exempted by law. Before purchasing any motor vehicle the dispatcher shall make requests for public bids by advertisement and shall purchase the vehicles from the lowest responsible bidder for the type and make of motor vehicle designated.

In conjunction with the requirements of section 18.3, subsection 1, effective January 1, 1990, the state vehicle dispatcher, and any other state agency purchasing motor vehicles for other than law enforcement purposes, shall each year purchase new passenger automobiles such that the average fuel efficiency for the fleet of new passenger automobiles purchased in that year by the state vehicle dispatcher is not less than two miles per gallon under the average fuel economy standard for the automobiles' model year as established by the United States secretary of transportation under 15 U.S.C. §2002. This paragraph does not apply to automobiles purchased for law enforcement purposes. The group of comparable automobiles within the total fleet purchased by the state vehicle dispatcher, or any other state agency purchasing motor vehicles for other than law enforcement purposes, shall have an average fuel efficiency rating not less than two miles per gallon under the average fuel economy rating for that model year for that class of comparable automobiles as defined in 40 C.F.R. §315-82. As used in this paragraph, "*fuel economy*" means the average number of miles traveled by an automobile per gallon of gasoline consumed as determined by the United States environmental protection agency administrator in accordance with 26 U.S.C. §4064(c).

The state vehicle dispatcher shall annually report the average combined fuel economy for all new motor vehicles purchased by classification (passenger automobiles, enforcement automobiles, vans, and light trucks) no later than January 31 of each year to the department of management and the energy and geological resources division of the department of natural resources. As used in this paragraph, "*combined fuel economy*" means the combined fuel economy as defined in 40 C.F.R. §600.002.

5. All used motor vehicles turned in to the state vehicle dispatcher shall be disposed of by public auction, and the sales shall be advertised in a newspaper of general circulation one week in advance of sale, and the receipts from the sale shall be deposited in the depreciation fund to the credit of that department or agency turning in the vehicle; except that, in the case of a used motor vehicle of special design, the state vehicle dispatcher may, with the approval of the executive council, instead of selling it at public auction, authorize the motor vehicle to be traded for another vehicle of similar design.

6. The state vehicle dispatcher may authorize the establishment of motor pools consisting of a number of state-owned motor vehicles under the dispatcher's supervision and which the dispatcher may cause to be stored in a public or private

garage. If a pool is established by the state vehicle dispatcher, any state officer or employee desiring the use of a state-owned motor vehicle on state business shall notify the state vehicle dispatcher of the need for a vehicle within a reasonable time prior to actual use of the motor vehicle. The state vehicle dispatcher may assign a motor vehicle from the motor pool to the state officer or employee. If two or more state officers or employees desire the use of a state-owned motor vehicle for a trip to the same destination for the same length of time, the state vehicle dispatcher may assign one vehicle to make the trip.

7. The state vehicle dispatcher shall cause to be marked on every state-owned motor vehicle a sign in a conspicuous place which indicates its ownership by the state except cars requested to be exempt by the commissioner of public safety or the director of the department of general services. All state-owned motor vehicles shall display registration plates bearing the word "official" except cars requested to be furnished with ordinary plates by the commissioner of public safety or the director of the department of general services pursuant to section 321.19. The state vehicle dispatcher shall keep an accurate record of the registration plates used on all state cars.

8. The state vehicle dispatcher shall have the authority to make such other rules regarding the operation of state-owned motor vehicles, with the approval of the director of the department of general services, as may be necessary to carry out the purpose of this chapter. All rules adopted by the vehicle dispatcher shall be approved by the director before becoming effective.

9. All gasoline used in state-owned automobiles shall be purchased at cost from the various installations or garages of the state department of transportation, state board of regents, department of human services, or state car pools throughout the state, unless such purchases are exempted by the vehicle dispatcher. The vehicle dispatcher shall study and determine the reasonable accessibility of these state-owned sources for the purchase of gasoline. If these state-owned sources for the purchase of gasoline are not reasonably accessible, the vehicle dispatcher shall authorize the purchase of gasoline from other sources. The vehicle dispatcher may prescribe a manner, other than the use of the revolving fund, in which the purchase of gasoline from state-owned sources shall be charged to the department or agency responsible for the use of the automobile. The vehicle dispatcher shall prescribe the manner in which oil and other normal automobile maintenance for state-owned automobiles may be purchased from private sources, if they cannot be reasonably obtained from a state car pool. The state vehicle dispatcher may advertise for bids and award contracts for the furnishing of gasoline, oil, grease, and vehicle replacement parts for all state-owned vehicles. The state vehicle dispatcher and other state agencies, when advertising for bids for gasoline, shall also seek bids for ethanol-blended gasoline.

10. The state vehicle dispatcher is responsible for insuring motor vehicles owned by the state. Insurance coverage may be through a self-insurance program administered by the division or purchased from an insurer. If the determination is made to utilize a self-insurance program the vehicle dispatcher shall maintain loss and exposure data for the vehicles under the dispatcher's jurisdiction. Each agency shall provide to the division all requested motor vehicle loss and loss exposure information.

### **18.134 Powers—facilities—leases.**

1. The department of general services may purchase, lease-purchase, lease, and improve property, equipment, and services for telecommunications for public and private agencies, including the broadcast and narrowcast systems, and may dispose of property and equipment when not necessary for its purposes. However, the department of general services shall not provide or resell communications services to entities other than public and private agencies. The public or private agency shall not provide communication services of the network to another entity at a cost greater than that charged to the agency pursuant to section 18.136, subsections 10 and 11. The department may arrange for joint use of available services and facilities, and may enter into leases and agreements with private and public agencies with respect to a state communications system, and public agencies are authorized to enter into leases and agreements with respect to the system for their use and operation. Rentals and other amounts due under the agreements or leases entered into pursuant to this section by a state agency are payable from funds annually appropriated by the general assembly or from other funds legally available. Other public agencies may pay the rental costs and other amounts due under an agreement or lease from their annual budgeted funds or other funds legally available or to become available. This section comprises a complete and independent authorization and procedure for a public agency, with the approval of the department, to enter into a lease or agreement and related security enhancement arrangements and this section is not a qualification of any other powers which a public agency may possess and the authorizations and powers granted under this section are not subject to the terms, requirements, or limitations of any other provisions of law. All moneys received by the department from agreements and leases entered into pursuant to this section with private and public agencies shall be deposited in the state communications network fund.

It is the intent of the general assembly that rental and other costs due under agreements and leases entered into pursuant to this section by state agencies be replaced by supplemental appropriations to the state agencies.

2. A political subdivision receiving communications services from the state as of April 1, 1986, may continue to do so but communications services shall not be provided or resold to additional political subdivisions other than a school corporation, a city library, a regional library as provided in chapter 303B, and a county library as provided in chapter 358B. The rates charged to the political subdivision shall be the same as the rates charged to state agencies.

### **18.136 State communications network.**

1. Moneys in the state communications network fund are appropriated to the Iowa public broadcasting board for purposes of providing financing for the

procurement, operation, and maintenance of a state communications network with sufficient capacity to serve the video, data, and voice requirements of state agencies and the educational telecommunications system. The state communications network consists of Part I, Part II, and Part III of the system.

2. For purposes of this section, unless the context otherwise requires:

a. "*Part I of the system*" means the communications connections between central switching and the regional switching centers for the remainder of the network.

b. "*Part II of the system*" means the communications connections between the regional switching centers and the secondary switching centers.

c. "*Part III of the system*" means the communications connection between the secondary switching centers and the agencies defined in section 18.133, subsections 3 and 4.

3. The financing for the procurement costs for the entirety of Part I of the system, and the video, data, and voice capacity for state agencies for Part II and Part III of the system, shall be provided by the state. The financing for the procurement costs for Part II of the system shall be provided eighty percent from the state and twenty percent from the area schools for the areas in which Part II of the system is located. The basis for the state match is eighty percent of a single interactive video and interactive audio for Parts I and II of the system, and such data and voice capacity as is necessary. The financing for the procurement and maintenance costs for Part III of the system shall be provided eighty percent from the state and twenty percent from the local school boards of the areas which receive transmissions from the system. The local school boards may meet all or part of the match requirements of Part III of the system through a cooperative arrangement with area schools. The basis for the state match is eighty percent of a single interactive audio and one-way video for Part III of the system, and such data and voice capacity as is necessary. The local school boards and area schools may meet the match requirements for Part II and Part III of the system from funds they have already spent for their systems, from funds available in the school budget, or from funds received from other nonstate sources. In the case of existing systems, in order to upgrade facilities to the specifications of the state communications network, the local school boards and area schools, in lieu of a cash match, may meet the match requirements from funds they have already spent for their systems provided that the state match does not exceed the lesser of eighty percent of the total cost of the upgraded system or eighty percent of the replacement cost of the system. The communications equipment used as a match shall not subsequently be used as a match by another educational entity or for another part of the system. A local school board may request the school budget review committee to adjust the allowable growth for the school district so that the resulting increase in budget could be used for the match. A local school board may also elect not to become part of the system. Such election shall be made on an annual basis. State matching funds shall not be provided for Part III of the system until Part I and Part II of the system have been completed.

4. The department of general services shall develop the requests for proposals that are needed for a state communications network with sufficient capacity to serve the video, data, and voice requirements of state agencies and the educational telecommunications applications required by the Iowa public broadcasting board. The department shall develop a request for proposals for each of the systems that will make up the network. The department may develop a request for proposals for each definitive component of Part I, Part II, and Part III of the system or the department may provide in the request for proposals for each such system that separate contracts may be entered into for each definitive component covered by the request for proposals. The requests for proposals may be for the purchase, lease-purchase, or lease of the component parts of the system, may require

maintenance costs to be identified, and the resulting contract may provide for maintenance for parts of the system. The master contract may provide for electronic classrooms, satellite equipment, receiving equipment, studio and production equipment, and other associated equipment as required.

5. Prior to the awarding of a contract under this section, the department shall notify the legislative council and the department of management of the department's intent to award a contract and of the cost to the state. The department of management and the legislative council shall determine if the anticipated financial resources of the state are adequate to fund the expenditure during the fiscal years covered by the contract, and if so, the department of management shall certify the determination to the department. Upon certification, the department may enter into the contract.

6. The department of general services shall be responsible for the network system design and shall be responsible for the implementation of each component of the network as it is incorporated into the network system. The final design selected shall optimize the routing for all users in order to assure maximum utilization by all agencies of the state. Efficiencies achieved in the implementation of the network shall be used to fund further implementation and enhancement of the network, and shall be considered part of the operational cost of the network. The department shall be responsible for all management, operations, control switching, diagnostics, and maintenance functions of Part I and Part II of the system operations, except as designated in subsection 7. The performance of these duties is intended to provide optimal utilization of the facilities, and the assurance that future growth requirements will be provided for, and that sufficient network capacity will be available to meet the needs of all users. The telecommunications information management council, created by executive order of the governor, shall provide general oversight for these functions.

7. The Iowa public broadcasting board retains sole authority over the educational telecommunications applications of Part I of the system, and its authority shall include management and operational control, programming, budget, personnel, scheduling, and program switching of educational material carried by Part I of the system. The Iowa public broadcasting board, through its narrowcast system advisory committee, retains coordination authority over the educational telecommunications applications of Part II and Part III of the system. Area schools are responsible for scheduling and switching of educational materials carried by Part II and Part III of the system within their respective areas. Such responsibility may be accomplished by a chapter 28E agreement with the department of general services.

8. The procurement and maintenance of electronic equipment including, but not limited to, master receiver antenna systems, studio and production equipment, and broadcast system components shall be provided for under department of general services' contracts. The Iowa public broadcasting board and other educational entities within the state have the option to use their existing or replacement resources and agreements in the operation and maintenance of these systems.

9. In addition to the other evaluation criteria specified in the request for proposals issued pursuant to this section, the department of general services, in evaluating proposals, shall base up to two percent of the total possible points on the public benefit that can be derived from a given proposal due to the increased private telecommunications capacity available to Iowa citizens located in rural Iowa. For purposes of this subsection, an area of the state is considered rural if it is not part of a federally designated standard metropolitan statistical area.

10. The fees charged for use of the network shall be based on the ongoing operational costs of the network only.

11. The Iowa public broadcasting board, in consultation with its narrowcast system advisory committee, shall determine the fee to be charged per course or credit hour by the originating institution, and the fees shall be substantially the same for comparable courses.

12. Access to the network shall be offered on an equal basis to public and private agencies under subsection 7 if the private agency contributes an amount toward the match requirement comparable to its share of use for the part of the system in which it participates.

13. Notwithstanding chapter 476, the provisions of chapter 476 shall not apply to a public utility in furnishing a telecommunications service or facility to the department of general services for the state communications network.

### **18.137 State communications network fund.**

There is created in the office of the treasurer of state a temporary fund to be known as the state communications network fund. There is appropriated, contingent upon the certification from the department of management of financial resources adequate to fund the expenditure, to the state communications network fund for each fiscal year of the fiscal period beginning July 1, 1989, and ending June 30, 1994, the sum of ten million dollars from funds in the general fund of the state not otherwise appropriated. Any moneys remaining in the fund on June 30 of a fiscal year, of moneys appropriated from the general fund of the state for that fiscal year, shall revert to the general fund of the state, except that those funds needed to provide the state matching funds pursuant to section 18.136 shall not revert, notwithstanding section 8.33. There shall also be deposited into the state communications network fund proceeds from bonds issued for purposes of projects authorized pursuant to section 18.136, matching funds received from the area schools and the local school boards, funds received from leases pursuant to section 18.134, and other moneys by law credited to or designated by a person for deposit into the fund.

The Iowa public broadcasting board shall use the net increase in the federal match awarded to the Iowa public broadcasting board as a result of this appropriation in order to meet the needs of the educational telecommunications system. These funds shall be deposited in a separate account within the state communications network fund, and shall be administered by the Iowa public broadcasting board for purposes of the fund.

#### **29B.14 Commanding officers nonjudicial punishment.**

1. Under regulations as the adjutant general may prescribe limitations may be placed on the powers granted by this section with respect to the kind and amount of punishment authorized, the categories of commanding officers and warrant officers authorized to exercise those powers, the applicability of this section to an accused who demands trial by court-martial, and the kinds of courts-martial to which the case may be referred upon such a demand. However, punishment shall not be imposed upon any member of the state military forces under this section if

the member demands trial by court-martial in lieu of punishment before imposition of the punishment. The adjutant general may adopt rules relating to the suspension and mitigation of punishments authorized under this code. The adjutant general, or an officer of a general rank in command may delegate powers under this section to a principal assistant who is a member of the state military forces according to rules adopted by the adjutant general.

2. Subject to rules of the adjutant general, any commanding officer may, in addition to or in lieu of admonition or reprimand, impose disciplinary punishments for minor offenses without the intervention of a court-martial as follows:

a. Upon officers under the officer's command any one or a combination of the following:

(2) Restriction to certain specified limits with or without suspension from duty, for not more than two consecutive weeks.

(3) If imposed by a commanding officer of the state military forces of field grade or above, a fine of any amount up to a maximum of the equivalent of ten days' pay or the forfeiture of not more than ten days' pay.

b. Upon other military personnel under the officer's command any one or a combination of the following:

(1) Withholding of privileges for not more than two consecutive weeks.

d. Maximum allowable punishments of withholding of privileges, restrictions, and extra duties shall not be combined to run consecutively.

3. A person punished under this section who considers the punishment unjust or disproportionate to the offense may appeal to the next superior authority through the proper channel. The authority considering the appeal may refer a case that has been appealed to a staff judge advocate or legal officer for consideration and advice and shall do so before deciding on the appeal when the punishment is restriction, withholding of privileges, extra duties, forfeiture of pay, or reduction from the fourth or higher pay grade. The appeal shall be promptly forwarded and decided, but the person punished may in the meantime be required to undergo the punishment adjudged. The officer who imposes the punishment, the officer's successor in command, or superior authority may suspend, set aside, or remit any part or amount of the punishment and restore all rights, privileges and property affected. In addition the officer or authority may at any time place the offender on probation and suspend a reduction in grade or forfeiture whether or not executed.

4. The imposition and enforcement of disciplinary punishment under this section for any act or omission is not a bar to trial by court-martial for a serious crime or offense growing out of the same act or omission, and not properly punishable under this section, but the fact that a disciplinary punishment has been enforced may be shown by the accused upon trial, and when so shown shall be considered in determining the measure of punishment to be adjudged in the event of a finding of guilty.

5. When a punishment of forfeiture of pay and allowances is imposed under this section, the forfeiture may apply to pay or allowances accruing on or after that punishment is imposed and to pay and allowances accrued before that date.

## **CHAPTER 29C**

### **DISASTER SERVICES AND PUBLIC DISORDERS**

#### **29C.20 Contingent fund—disaster aid.**

1. A contingent fund is created in the state treasury for the use of the executive council which may be expended for the purpose of paying the expenses of suppressing an insurrection or riot, actual or threatened, when state aid has been rendered by order of the governor, and for repairing, rebuilding, or restoring state property injured, destroyed, or lost by fire, storm, theft, or unavoidable cause, and for aid to any governmental subdivision in an area declared by the governor to be a disaster area due to natural disasters or to expenditures necessitated by the

governmental subdivision toward averting or lessening the impact of the potential disaster, where the effect of the disaster or action on the governmental subdivision is the immediate financial inability to meet the continuing requirements of local government. Upon application by a governmental subdivision in such an area, accompanied by a showing of obligations and expenditures necessitated by an actual or potential disaster in a form and with further information the executive council requires, the aid may be made in the discretion of the executive council and, if made, shall be in the nature of a loan up to a limit of seventy-five percent of the showing of obligations and expenditures. The loan, without interest, shall be repaid by the maximum annual emergency levy authorized by section 24.6, or by the appropriate levy authorized for a governmental subdivision not covered by section 24.6. The aggregate total of loans shall not exceed one million dollars during a fiscal year. A loan shall not be for an obligation or expenditure occurring more than two years previous to the application.

When a state department or agency requests that moneys from the contingent fund be expended to repair, rebuild, or restore state property injured, destroyed, or lost by fire, storm, theft, or unavoidable cause, the executive council shall consider the original source of the funds for acquisition of the property before authorizing the expenditure. If the original source was other than the general fund of the state, the department or agency shall be directed to utilize moneys from the original source if possible. The executive council shall not authorize the repairing, rebuilding, or restoring of the property from the disaster aid contingent fund if it determines that moneys from the original source are available to finance the project.

2. The proceeds of such loan shall be applied toward the payment of costs and obligations necessitated by such actual or potential disaster and the reimbursement of local funds from which such expenditures have been made. Any such project for repair, rebuilding or restoration of state property for which no specific appropriation has been made, shall, before work is begun, be subject to approval or rejection by the executive council.

3. If the president of the United States, at the request of the governor, has declared a major disaster to exist in this state, the executive council may make financial grants to meet disaster-related necessary expenses or serious needs of local governments adversely affected by the major disaster if those expenses or needs cannot otherwise be met from other means of assistance. The amount of the grant shall not exceed ten percent of the total eligible expenses and is conditional upon the federal government providing at least seventy-five percent of the eligible expenses.

4. If the president, at the request of the governor, has declared a major disaster to exist in this state, the executive council may make financial grants to meet disaster-related necessary expenses or serious needs of individuals or families adversely affected by a major disaster which cannot otherwise adequately be met from other means of assistance. The amount of a financial grant shall not exceed five thousand dollars in the aggregate to an individual or family in any single major disaster declared by the president. All grants authorized to individuals and families will be subject to the federal government providing no less than seventy-five percent of each grant and the declaration of a major disaster in the state by the president of the United States.

5. If the president, at the request of the governor, has declared a major disaster to exist in this state, the executive council may lease or purchase sites and develop such sites to accommodate temporary housing units for disaster victims.

6. For the purposes of this section, “*governmental subdivision*” means any political subdivision of this state.

2. When an election is to be held as required by law or is called by a political subdivision of the state and the political subdivision is located in more than one county, the county commissioner of elections of the county having the greatest taxable base within the political subdivision shall conduct that election. The county commissioners of elections of the other counties in which the political

subdivision is located shall co-operate with the county commissioner of elections who is conducting the election.

3. The commissioner may designate as a deputy county commissioner of elections any officer of a political subdivision who is required by law to accept nomination papers filed by candidates for office in that political subdivision, and when so designated that person shall assist the commissioner in administering elections conducted by the commissioner for that subdivision. The designation of a person as a deputy commissioner of elections pursuant to this section, once made, shall continue in effect until the designation is withdrawn by the commissioner.

4. The commissioner shall assign each local public measure a letter for identification purposes. The public measure on the ballot shall be identified by the letter.

The county commissioner who is responsible under subsection 2 for conducting the elections held for a political subdivision which lies in more than one county shall assign the letter to the public measure. If the proposed date of the special election coincides with the date of a regularly scheduled election, the notice shall be given no later than five o'clock p.m. on the last day on which nomination papers may be filed for the regularly scheduled election. Otherwise, the notice shall be given at least thirty days in advance of the date of the proposed special election. Upon receiving the notice, the commissioner shall promptly give written approval of the proposed date unless it appears that the special election, if held on that date, would conflict with a regular election or with another special election previously scheduled for that date.

2. For the purpose of this section, a conflict between two elections exists only when one of the elections would require use of precinct boundaries which differ from those to be used for the other election, or when some but not all of the qualified electors of any precinct would be entitled to vote in one of the elections and all of the qualified electors of the same precinct would be entitled to vote in the other election. Nothing in this subsection shall deny a commissioner discretionary authority to approve holding a special election on the same date as another election, even though the two elections may be defined as being in conflict, if the commissioner concludes that to do so will cause no undue difficulties.

4. When the boundaries of a county supervisor, city council, or school director district, or any other district from which one or more members of any public representative body other than the general assembly are elected by the voters thereof, are changed by annexation, precincting or other means, the change

shall not result in the term of any officer elected from the former district being terminated before or extended beyond the expiration of the term to which the officer was last elected, except as provided under section 275.23A.

5. When a city is changing its form of government from one which has council members elected at large to one which has council members elected from wards, or is changing its number of council members elected from wards, the city council may redraw the precinct boundaries in accordance with sections 49.3 and 49.5 to coincide with the new ward boundaries.

6. Precinct boundaries established by or pursuant to section 49.4, and not changed under subsection 1 since the most recent federal decennial census, may be changed once during the period beginning January 1 of the second year following a year in which a federal decennial census is taken and ending June 30 of the year immediately following the year in which the next succeeding federal decennial census is taken, if the commissioner recommends and the board of supervisors finds that the change will effect a substantial savings in election costs. Changes made under this subsection shall be made not later than ninety-nine days before a primary election, unless the changes will not take effect until January 1 of the next even-numbered year.

The members of election boards shall be deemed temporary state employees who are compensated by the county in which they serve, and shall receive compensation at a rate established by the board of supervisors, which shall be not less than three dollars and fifty cents per hour, while engaged in the discharge of their duties and shall be reimbursed for actual and necessary travel expense, except that persons who have advised the commissioner prior to their appointment to the election board that they are willing to serve without pay at elections conducted for any school district or a city of three thousand five hundred or less population, shall receive no compensation for service at those elections. Compensation shall be paid to members of election boards only after the vote has been canvassed and it has been determined in the course of the canvass that the election record certificate has been properly executed by the election board.

Section amended

#### **49.23 Notice of change.**

When a change is made from the usual polling place for the precinct or when the precinct polling place for any primary or general election is different from that used for the precinct at the last preceding primary or general election, notice of such change shall be given by publication in a newspaper of general circulation in the precinct not more than twenty nor less than four days before the day on which the election is to be held. In addition a notice of the present polling place for the precinct shall be posted, not later than the hour at which the polls open on the day of the election, on each door to the usual or former polling place in the precinct and shall remain there until the polls have closed.

#### **49.31 Arrangement of names on ballot—restrictions.**

1. All nominations of any political party or group of petitioners, except as provided in section 49.30, shall be placed under the party name or title of such party or group, as designated by them in their certificates of nomination or petitions, or if none be designated, then under some suitable title, and the ballot shall contain no other names, except as provided in section 49.32.

2. The commissioner shall prepare a list of the election precincts of the county, by arranging the various townships and cities in the county in alphabetical order, and the wards or precincts in each city or township in numerical order under the name of such city or township. The commissioner shall then arrange the surnames of each political party's candidates for each office to which two or more persons are to be elected at large alphabetically for the respective offices for the first precinct on the list; thereafter, for each political party and for each succeeding precinct, the names appearing first for the respective offices in the last preceding precinct shall be placed last, so that the names that were second before the change shall be first after the change. The commissioner may also rotate the names of candidates of a political party in the reverse order of that provided in this subsection or alternate the rotation so that the candidates of different parties shall not be paired as they proceed through the rotation. The procedure for arrangement of names on ballots provided in this section shall likewise be substantially followed in elections in political subdivisions of less than a county.

3. The ballots for any city elections, school elections, special election, or any other election at which any office is to be filled on a nonpartisan basis and the statutes governing the office to be filled are silent as to the arrangement of names on the ballot, shall contain the names of all nominees or candidates arranged in alphabetical order by surname under the heading of the office to be filled. When a city election, school election, special election, or any other election at which an office is to be filled on a nonpartisan basis, is held in more than one precinct, the candidates' names shall be rotated on the ballot from precinct to precinct in the manner prescribed by subsection 2 unless there are no more candidates for an office than the number of persons to be elected to that office.

4. If electors in any precinct are entitled to vote for more than one nominee or candidate for a particular office, the heading for that office on the precinct ballot shall be immediately followed by a notation of the maximum number of nominees or candidates for that office for whom each elector may vote. Provision shall be made on the ballot to allow the elector to write in the name of any person for whom the elector desires to vote for any office or nomination on the ballot.

5. The name of a candidate printed on the ballot shall not include parentheses, quotation marks, or any personal or professional title.

NEW subsection 5

#### **49.37 Arrangement of ballot.**

1. Each column or row containing a ticket or tickets, each preceded by the name of a political party or a group of petitioners, shall be separated by a distinct line appearing on the ballot. The names of candidates for nonpartisan offices shall be placed on a separate column or row on the ballot.

2. The commissioner shall arrange the ballot in conformity with the certificate issued by the state commissioner under section 43.73, in that the names of the respective candidates on each political party ticket shall appear in the order they appeared on the certificate, above or to the left of the nonparty political organization tickets.

3. The commissioner shall arrange the partisan county offices on the ballot with the board of supervisors first, followed by the other county offices and township offices in the same sequence in which they appear in sections 39.17 and 39.22. Nonpartisan offices shall be listed below or to the right of partisan offices.

The summary shall be printed immediately preceding the text of the proposed amendment or measure on the paper ballot referred to in section 49.43 and, in precincts where the amendment or measure will be voted on by machine, shall be placed in the voting machine inserts as required by section 52.25.

The commissioner may prepare a summary for public measures if the commissioner finds that a summary is needed to clarify the question to the voters.

#### **49.48 Notice for judicial officers and constitutional amendments.**

The notice shall be conspicuously attached to the voting machine or to the ballot.

Section amended

#### **49.53 Publication of ballot and notice.**

The commissioner shall not less than four nor more than twenty days before the day of each election, except those for which different publication requirements are prescribed by law, publish notice of the election. The notice shall contain a facsimile of the portion of the ballot containing the first rotation as prescribed by section 49.31, subsection 2, and shall show the names of all candidates or nominees and the office each seeks, and all public questions, to be voted upon at the election. The sample ballot published as a part of the notice may at the discretion of the commissioner be reduced in size relative to the actual ballot but such reduction shall not cause upper case letters appearing on the published sample ballot to be less than five thirty-sixths of an inch high in candidates' names or in summaries of public measures. The notice shall also state the date of the election, the hours the polls will be open, the location of each polling place at which voting is to occur in the election, and the names of the precincts voting at each polling place, but the statement need not set forth any fact which is apparent from the portion of the ballot appearing as a part of the same notice. The notice shall include the full text of all public measures to be voted upon at the election.

The notice shall be published in at least one newspaper, as defined in section 618.3, which is published in the county or other political subdivision in which the election is to occur or, if no newspaper is published there, in at least one newspaper of substantial circulation in the county or political subdivision. For the general election or the primary election the foregoing notice shall be published in at least two newspapers published in the county. However, if there is only one newspaper published in the county, publication in one newspaper shall be sufficient.

#### **49.58 Effect of death of certain candidates.**

If any candidate nominated by a political party, as defined in section 43.2, for the office of senator or representative in the congress of the United States, governor, lieutenant governor, attorney general, or senator or representative in the general assembly dies during the period beginning on the eighty-eighth day and ending on the last day before the general election, or if any candidate so nominated for the office of county supervisor dies during the period beginning on the seventy-third day and ending on the last day before the general election, the vote cast at the general election for that office shall not be canvassed as would

otherwise be required by chapter 50. Instead, a special election shall be held on the first Tuesday after the second Monday in December, for the purpose of electing a person to fill that office.

Each candidate for that office whose name appeared on the general election ballot shall also be a candidate for the office in the special election, except that the deceased candidate's political party may designate another candidate in substantially the manner provided by section 43.78 for filling vacancies on the general election ballot. However, a political party which did not have a candidate on the general election ballot for the office in question may similarly designate a candidate for that office in the special election. The name of any replacement or additional candidate so designated shall be submitted in writing to the state commissioner, or the commissioner in the case of a candidate for county supervisor, not later than five o'clock p.m. on the first Tuesday after the date of the general election. No other candidate whose name did not appear on the general election ballot as a candidate for the office in question shall be placed on the ballot for the special election, in any manner. The following acts, except as specially authorized by law, are prohibited on any election day:

1. Loitering, congregating, electioneering, posting of signs, treating voters, or soliciting votes, during the receiving of the ballots, either on the premises of any polling place or within three hundred feet of any outside door of any building affording access to any room where the polls are held, or of any outside door of any building affording access to any hallway, corridor, stairway, or other means of reaching the room where the polls are held, except this subsection shall not apply to the posting of signs on private property not a polling place.

Immediately after making the proclamation, and before separating, the board members of each precinct in which votes have been received by paper ballot shall enclose in an envelope or other container all ballots which have been counted by them, except those endorsed "Rejected as double", "Defective", or "Objected to", and securely seal the envelope. The signatures of all board members of the precinct shall be placed across the seal or the opening of the container so that it cannot be opened without breaking the seal. The precinct election officials shall return all the ballots to the commissioner, who shall carefully preserve them for six months. Ballots from elections for federal offices shall be preserved for twenty-two months.

Section amended

#### **50.13 Destruction of ballots.**

If, at the expiration of the length of time specified in section 50.12, a contest is not pending, the commissioner, without opening the package in which they have been enclosed, shall destroy the ballots, in the presence of two electors, one from each of the two leading political parties, who shall be designated by the chairperson of the board of supervisors.

#### **50.19 Preservation and destruction of books.**

The commissioner may destroy precinct election registers, the declarations of eligibility signed by voters, and other material pertaining to any election in which federal offices are not on the ballot, except the tally lists, six months after the election if a contest is not pending. If a contest is pending all election materials shall be preserved until final determination of the contest. Before destroying the election registers and declarations of eligibility, the commissioner shall prepare records as necessary to permit compliance with section 48.31, subsection 1. Nomination papers for primary election candidates for state and county offices shall be destroyed ten days before the general election, if a contest is not pending.

Material pertaining to elections for federal offices, including ballots, precinct election registers, declarations of eligibility signed by voters, documents relating to absentee ballots, and challenges of voters, shall be preserved for twenty-two months after the election. If a contest is not pending the materials may be destroyed at the end of the retention period.

### **50.22 Special precinct board to determine challenges and canvass absentee ballots.**

Upon being reconvened, the special precinct election board shall review the information upon the envelopes bearing the special ballots, and all evidence submitted in support of or opposition to the right of each challenged person to vote in the election. The board may divide itself into panels of not less than three members each in order to hear and determine two or more challenges simultaneously, but each panel shall meet the requirements of section 49.12 as regards political party affiliation of the members of each panel.

The decision to count or reject each ballot shall be made upon the basis of the information given on the envelope containing the special ballot, the evidence concerning the challenge, the registration and the returned receipts of registration. If the challenged voter's registration was canceled in the same county where the person attempted to vote because first class mail other than the registration receipt mailed pursuant to section 48.3 was returned by the postal service during the four years preceding the election in progress, the person's ballot shall be accepted for counting and the elector's registration shall be reinstated.

If a special ballot is rejected, the person casting the ballot shall be notified by the commissioner within ten days of the reason for the rejection, on the form prescribed by the state commissioner pursuant to section 53.25, and the envelope containing the special ballot shall be preserved unopened and disposed of in the same manner as spoiled ballots. The special ballots which are accepted shall be counted in the manner prescribed by section 53.24. The commissioner shall make public the number of special ballots rejected and not counted, at the time of the canvass of the election.

The special precinct board shall also canvass any absentee ballots which were received after the polls closed in accordance with section 53.17. If necessary, they shall reconvene again on the day of the canvass by the board of supervisors to canvass any absentee ballots which were timely received. The special precinct board shall submit their tally list to the supervisors before the conclusion of the canvass by the board.

### **50.24 Canvass by board of supervisors.**

The county board of supervisors shall meet to canvass the vote at nine o'clock on the morning of the first Monday after the day of each election to which this chapter is applicable, unless the law authorizing the election specifies another date for the canvass. If that Monday is a public holiday, section 4.1, subsection 22 controls. Upon convening, the board shall open and canvass the tally lists and shall prepare abstracts stating, in words written at length, the number of votes cast in the county, or in that portion of the county in which the election was held, for each office and on each question on the ballot for the election. The board shall contact the chairperson of the special precinct board before adjourning and include in the canvass any absentee ballots which were received after the polls closed in accordance with section 53.17 and which were canvassed by the special precinct board after election day. The abstract shall further indicate the name of each person who received votes for each office on the ballot, and the number of votes each person named received for that office, and the number of votes for and against each question submitted to the voters at the election.

Any obvious clerical errors in the tally lists from the precincts shall be corrected by the supervisors. Complete records of any changes shall be recorded in the minutes of the canvass.

## CHAPTER 52

### ALTERNATIVE VOTING SYSTEMS

#### **52.5 Testing and examination of voting equipment.**

A person or corporation owning or being interested in a voting machine or electronic voting system may request that the state commissioner call upon the board of examiners to examine and test the machine or system. Within seven days of receiving a request for examination and test, the state commissioner shall notify the board of examiners of the request in writing and set a time and place for the examination and test.

The state commissioner shall formulate, with the advice and assistance of the examiners, and adopt rules governing the testing and examination of any voting machine or electronic voting system by the board of examiners. The rules shall prescribe the method to be used in determining whether the machine or system is suitable for use within the state and performance standards for voting equipment in use within the state. The rules shall include standards for determining when recertification is necessary following modifications to the equipment or to the programs used in tabulating votes, and a procedure for rescinding certification if a system or machine is found not to comply with performance standards adopted by the state commissioner.

The state commissioner may employ a competent person or persons to assist the examiners in their evaluation of the equipment and to advise the examiners as to the sufficiency of the equipment. Consultant fees shall be paid by the person who requested the certification. Following the examination and testing of the voting machine or system the examiners shall report to the state commissioner describing the testing and examination of the machine or system and upon the capacity of the machine or system to register the will of voters, its accuracy and efficiency, and with respect to its mechanical perfections and imperfections. Their report shall be filed in the office of the state commissioner and shall state whether in their opinion the kind of machine or system so examined can be safely used by voters at elections under the conditions prescribed in this chapter. If the report states that the machine or system can be so used, it shall be deemed approved by the examiners, and machines or systems of its kind may be adopted for use at elections as provided in this section. Any form of voting machine or system not so approved cannot be used at any election. Before actual use by a county of a particular electronic voting system which has been approved for use in this state, the state commissioner shall formulate, with the advice and assistance of the examiners, and adopt rules governing the development of vote counting programs and all procedures used in actual counting of votes by means of that system.

89 Acts, ch 136, §50 SF 371  
Section amended

#### **52.32 Procedure upon closing polls.**

The provisions of this section apply, in lieu of sections 50.1 to 50.12, to any precinct for those elections at which voting is conducted by means of an electronic voting system and the ballots are to be counted at a counting center.

1. At the time for closing of the polls, or as soon thereafter as all persons entitled under section 49.74 to do so have cast their votes, the precinct election officials in each precinct where voting punch devices are in use shall secure the devices against further voting. They shall then open the ballot box and count the number of ballots or envelopes containing ballots that have been cast to determine whether the number of ballots cast exceeds the number of declarations of eligibility signed as required by section 49.77. If so, that fact shall be reported in writing to the commissioner together with the number of excess ballots and the reason for the excess, if known.

2. If ballot cards are used and write-in votes are cast on a separate envelope or write-in ballot, the precinct election officials shall next count the write-in votes cast in the precinct, if any. If special paper ballots or ballot cards are used and write-in votes are recorded directly upon the ballot, this subsection is optional, at the discretion of the commissioner. If write-in votes are not canvassed by the precinct election officials at the precinct where they were cast, they shall be tabulated at the counting center. All ballots or envelopes on which write-in votes have been recorded shall be serially numbered, starting with the number one, and the same number shall be placed on the regular ballot card of that voter. The precinct election official shall compare the write-in votes with the votes cast on the ballot card. If the total number of votes for any office exceeds the number allowed by law, a notation to that effect shall be entered on the back of the ballot card and the votes for the office involved shall not be counted.

3. The precinct election officials shall place all ballots that have been cast in a container provided by the commissioner for the purpose, which shall be sealed in the presence of all of the precinct election officials. They shall then each affix their signatures to a statement attesting that the requirements of this section have been complied with, and the statement shall be returned to the commissioner with the election register as required by section 50.17.

 Subsection 2 amended

## CHAPTER 53

### ABSENT VOTERS LAW

#### **53.18 Manner of preserving ballot and application.**

Upon receipt of the absentee ballot, the commissioner shall at once record the number appearing on the application and return carrier envelope and time of receipt of such ballot and enclose the same, unopened, together with the application made by the qualified elector, in a large carrier envelope on which shall appear the words "This envelope contains an absent voter's ballot for the election", and securely seal the same.

89 Acts, ch 136, §52 SF 371  
 Section amended

#### **53.21 Replacement of lost absentee ballots.**

A voter who has requested an absentee ballot may obtain a replacement ballot if the voter declares that the original ballot was lost or did not arrive. The commissioner upon receipt of a written or oral request for a replacement ballot shall provide a duplicate ballot. The same serial number that was assigned to the records of the original absentee ballot request shall be used on the envelopes and records of the replacement ballot.

The commissioner shall include with the replacement ballot two copies of a statement in substantially the following form:

The absentee ballot which I requested on ..... (date) has been lost or was never received. If I find this absentee ballot I will return it, unvoted, to the commissioner.

.....  
 (Signature of voter)  
 .....

The voter shall enclose one copy of the above statement in the return carrier envelope with the ballot envelope and retain a copy for the voter's records.

### **53.39 Request for ballot—when available.**

Section 53.2 does not apply in connection with the primary and general elections in the case of a qualified elector of the state of Iowa serving in the armed forces of the United States. In any such case an application for ballot as provided for in that section is not required and an absent voter's ballot shall be sent or made available to any such elector upon a request as provided in this division. All official ballots to be voted by qualified absent voters in the armed forces of the United States at the primary election and the general election shall be printed prior to forty days before the respective elections and shall be available for transmittal to such qualified electors in the armed forces of the United States at least forty days before the respective elections. The provisions of this chapter apply to absent voting by qualified voters in the armed forces of the United States at primary and general elections except as modified by the provisions of this division.

89 Acts, ch 136, §54 SF 371  
Section amended

### **53.40 Request requirements—transmission of ballot.**

Request in writing for a ballot for the primary election and for the general election may be made by any member of the armed forces of the United States who is or will be a qualified voter on the day of the election at which the ballot is to be cast, at any time prior to either of the elections. Unless the request specifies otherwise, a request for the primary election shall also be considered a request for the general election. In the case of the general election request may be made not more than seventy days before the election, for and on behalf of a voter in the armed forces of the United States by a spouse, parent, parent-in-law, adult brother, adult sister, or adult child of the voter, residing in the county of the voter's residence. However, a request made by other than the voter may be required to be made on forms prescribed by the state commissioner.

A request shall show the residence (including street address, if any) of the voter, the age of the voter, and length of residence in the city or township, county and state, and shall designate the address to which the ballot is to be sent, and in the case of the primary election, the party affiliation of such voter. Such request shall be made to the commissioner of the county of the voter's residence, provided that if the request is made by the voter to any elective state, city or county official, the said official shall forward it to the commissioner of the county of the voter's residence, and such request so forwarded shall have the same force and effect as if made direct to the commissioner by the voter.

The commissioner shall immediately on the fortieth day prior to the particular election transmit ballots to the voter by mail or otherwise, postage prepaid, as directed by the state commissioner, requests for which are in the commissioner's hands at that time, and thereafter so transmit ballots immediately upon receipt of requests. A request for ballot for the primary election which does not state the party affiliation of the voter making the request is void and of no effect. A request which does not show that the person for whom a ballot is requested will be a qualified voter in the precinct in which the ballot is to be cast on the day of the election for which the ballot is requested, shall not be honored. However, a request which states the age and the city, including street address, if any, or township, and county where the voter resides, and which shows a sufficient period of residence, is sufficient to show that the person is a qualified voter. A request by the voter containing substantially the information required is sufficient.

If the affidavit on the ballot envelope shows that the affiant is not a qualified voter on the day of the election at which the ballot is offered for voting, the envelope shall not be opened, but the envelope and ballot contained in the envelope shall be preserved and returned by the precinct election officials to the commissioner, who shall preserve them for the period of time and under the conditions provided for in sections 50.12 through 50.15 and section 50.19.

89 Acts, ch 136, §55 SF 371  
Unnumbered paragraph 4 amended

#### **53.41 Records by commissioner—excess requests or ballots.**

The commissioner of each county shall establish and maintain a record of all requests for ballots which are made, and of all ballots transmitted, and the manner of transmittal, from and received in the commissioner's office under the provisions of this division. If more than one request for absent voter's ballot for a particular election is made to the commissioner by or on behalf of a voter in the armed forces of the United States, the request first received shall be honored, except that if one of the requests is made by the voter, and a request on the voter's behalf has not been previously honored, the request of the voter shall be honored in preference to a request made on the voter's behalf by another. Not more than one ballot shall be transmitted by the commissioner to any voter for a particular election. If the commissioner receives more than one absent voter's ballot, provided for by this division, from or purporting to be from any one voter for a particular election, all of the ballots so received from or purporting to be from such voter are void, and the commissioner shall not deliver any of the ballots to the precinct election officials, but shall retain them in the commissioner's office, and preserve them for the period and under the conditions provided for in sections 50.12 through 50.15 and section 50.19.

Section amended

#### **53.44 Affidavit to be signed and returned.**

The affidavit on the envelope used in connection with voting by absentee ballot under this division by members of the armed forces of the United States need not be notarized or witnessed, but the affidavit on the ballot envelope shall be completed and signed by the voter.

Absentee ballots issued under this division shall be returned in the same manner and within the same time limits specified in section 53.17.

## **CHAPTER 54**

### **PRESIDENTIAL ELECTORS**

#### **54.5 Presidential nominees.**

The names of the candidates for president and vice president of a political party as defined in the law relating to primary elections, shall, by five o'clock p.m. on the eighty-first day before the election, be certified to the state commissioner by the chairperson and secretary of the state central committee of the party.

However, if the national nominating convention of a political party adjourns later than eighty-nine days before the general election the certificate showing the names of that party's candidates for president and vice president shall be filed within five days after adjournment.

As an alternative to the certificate by the state central committee, the certificate of nomination issued by the political party's national nominating convention may be used to certify the names of the party's candidates for

president and vice president. If certificates of nomination are received from both the state central committee and the national nominating convention of a political party, and there are differences between the two certificates, the certificate filed by the state central committee shall prevail.

The state central committee shall also file a list of the names and addresses of the party's presidential electors, one from each congressional district and two from the state at large, not later than five o'clock p.m. on the eighty-first day before the general election.

The reports from all committees, except those committees for municipal and school elective offices and for local ballot issues, shall be filed on the twentieth day or mailed bearing a United States postal service postmark dated on or before the nineteenth day of January, May, July and October of each year. The May, July and October reports shall be current as of five days prior to the filing deadline. The January report shall be the annual report covering activity through December 31. A candidate's committee, other than for municipal and school elective offices, for a year in which the candidate is not standing for election is not required to file the May and July reports. Reports for committees for a ballot issue placed before the voters of the entire state shall be filed at the January, May, July, and October deadlines.

b. A candidate's committee of a candidate for statewide office or the general assembly shall file a supplementary report in a year in which a primary, general or special election for that office is held if the committee of a candidate for governor receives ten thousand dollars or more, a committee of a candidate for any other statewide office receives five thousand dollars or more, or the committee of a candidate for the general assembly receives one thousand dollars or more after the close of the period covered by the last report filed prior to that primary, general or special election. The amounts of contributions causing a supplementary report under this paragraph shall include the estimated fair market value of in-kind contributions. The report shall be filed by the Friday immediately preceding the election and be current through the Tuesday immediately preceding the election.

c. A candidate's committee of a state officeholder shall file a letter report to be received within fourteen days of the receipt of any contribution from a political committee or from a lobbyist registered under the rules adopted by either house of the general assembly while the general assembly is in session. The committee may request, in writing, a fourteen-day extension on a letter report which shall be granted if received on or before the date the report is due. The letter report shall notify the commission of the following:

- (1) The name of the candidate's committee.
- (2) The name and complete address of the political committee or registered lobbyist making the contribution.
- (3) The amount of the contribution.
- (4) The date the contribution was received.

*d.* A candidate's committee for a candidate for the general assembly at a special election shall file a report by the fourteenth day prior to the special election which is current through the nineteenth day prior to the special election.

*e.* Committees for municipal and school elective offices and local ballot issues shall file their first reports five days prior to any election in which the name of the candidate or the local ballot issue which they support or oppose appears on the printed ballot and shall file their next report on the first day of the month following the final election in a calendar year in which the candidate's name or the ballot issue appears on the ballot. A committee supporting or opposing a candidate for a municipal or school elective office or a local ballot issue shall also file disclosure reports on the twentieth day of January and October of each year in which the candidate or ballot issue does not appear on the ballot and on the twentieth day of January, May, and July of each year in which the candidate or ballot issue appears on the ballot, until the committee dissolves. These reports shall be current to five days prior to the filing deadline and are considered timely filed if mailed bearing a United States postal service postmark one or more calendar days preceding the due date.

*f.* A state statutory political committee and congressional district committees as authorized by the constitution of the state statutory political committee are not subject to this subsection if the state statutory political committee and congressional district political committees file copies of campaign disclosure reports as required by federal law with the commission at the times the reports are required to be filed under federal law, provided that the federal reports contain all information required by this chapter. A committee of a national political party is not required to file a disclosure report with the commission if it is required by federal law to file a campaign disclosure report with a federal agency.

2. If any committee, after having filed a statement of organization or one or more disclosure reports, dissolves or determines that it shall no longer receive contributions or make disbursements, the treasurer of the committee shall notify the commission or the commissioner within thirty days following such dissolution by filing a dissolution report on forms prescribed by the commission. Moneys refunded in accordance with a dissolution statement shall be considered a disbursement or expense but the names of persons receiving refunds need not be released or reported unless the contributors' names were required to be reported when the contribution was received.

3. Each report under this section shall disclose:

*a.* The amount of cash on hand at the beginning of the reporting period.

*b.* The name and mailing address of each person who has made one or more contributions of money to the committee including the proceeds from any fund-raising events except those reportable under paragraph "f" of this subsection, when the aggregate amount in a calendar year exceeds the amount specified in the following schedule:

c. The total amount of contributions made to the political committee during the reporting period and not reported under paragraph "b" of this subsection.

d. The name and mailing address of each person who has made one or more in kind contributions to the committee when the aggregate market value of the in kind contribution in a calendar year exceeds the amount specified in subsection 3, paragraph "b," of this section. In kind contributions shall be designated on a separate schedule from schedules showing contributions of money and shall identify the nature of the contribution and provide its estimated fair market value.

e. Each loan to any person or committee within the calendar year in an aggregate amount in excess of those amounts enumerated in the schedule in paragraph "b" of this subsection, together with the name and mailing address of the lender and endorsers, the date and amount of each loan received, and the date and amount of each loan repayment. Loans received and loan repayments shall be reported on a separate schedule.

f. The total amount of proceeds from any fund-raising event. Contributions and sales at fund-raising events which involve the sale of a product acquired at less than market value and sold for an amount of money in excess of the amount specified in paragraph "b" of this subsection shall be designated separately from in kind and monetary contributions and the report shall include the name and address of the donor, a description of the product, the market value of the product, the sales price of the product, and the name and address of the purchaser.

g. The name and mailing address of each person to whom disbursements or loan repayments have been made by the committee from contributions during the reporting period and the amount, purpose, and date of each disbursement except that disbursements of less than five dollars may be shown as miscellaneous disbursements so long as the aggregate miscellaneous disbursements to any one person during a calendar year do not exceed one hundred dollars. If disbursements are made to a consultant, the consultant shall provide the committee with a statement of disbursements made by the consultant during the reporting period showing the name and address of the recipient, amount, purpose, and date to the same extent as if made by the candidate, which shall be included in the report by the committee.

h. The amount and nature of debts and obligations owed in excess of those amounts stated in the schedule in paragraph "b" of this section by the committee. Loans made to a committee and reported under paragraph "b" of this subsection shall not be considered a debt or obligation under this paragraph. A loan made by a committee to any person shall be considered a disbursement.

i. The aggregate amount received by a candidate or an officeholder in any form of an honorarium in excess of those amounts enumerated in the schedule in paragraph "b" of this subsection.

j. If a person listed under paragraph "b", "d", "e", or "f" as making a contribution or loan to or purchase from a candidate's committee is related to the candidate within the third degree of consanguinity or affinity, the existence of that person's family relationship shall be indicated on the report.

k. The name and mailing address of each person with whom a candidate's committee has entered into a contract during the reporting period for future or continuing performance and the nature of the performance, period of performance and total, anticipated compensation for performance. For a report filed under subsection 1, paragraph "b", this paragraph also requires the reporting of estimates of performance which the candidate's committee reasonably expects to contract for during the balance of the period running until thirty days after the election.

l. Other pertinent information required by this chapter, by rules adopted pursuant to this chapter, or forms approved by the commission.

4. If no contributions have been accepted nor any disbursements made or indebtedness incurred during that reporting period, the treasurer of the committee shall file a disclosure statement which shows only the amount of cash on hand at the beginning of the reporting period.

5. A committee shall not dissolve until all loans, debts and obligations are paid, forgiven or transferred and the remaining money in the account is distributed according to the organization statement. If a loan is transferred or forgiven, the amount of the transferred or forgiven loan must be reported as an in-kind contribution and deducted from the loans payable balance on the disclosure form. A statutory political committee is prohibited from dissolving, but may be placed in an inactive status upon the approval of the commission. Inactive status may be requested for a statutory political committee when no officers exist and the statutory political committee has ceased to function. The request shall be made by the previous treasurer or chairperson of the committee and by the appropriate state statutory political committee. A statutory political committee granted inactive status shall not solicit or expend funds in its name until the committee reorganizes and fulfills the requirements of a political committee under this chapter.

6. A permanent organization temporarily engaging in activity which would qualify it as a political committee shall organize a political committee and shall keep the funds relating to that political activity segregated from its operating funds. The political committee shall file reports in accordance with this chapter. When the permanent organization ceases to be involved in the political activity, it shall dissolve the political committee.

2. When the unexpired term of office in which the vacancy occurs will expire within seventy days after the date of the next pending election, or after the date of a preceding election in which that office was on the ballot, the person elected to the office for the succeeding term shall also be deemed elected to fill the remainder of the unexpired term. If the vacancy is on a multimember body to which more than one nonincumbent is elected for the succeeding term, the nonincumbent who received the most votes shall be deemed elected to fill the remainder of the unexpired term. A person so elected to fill an unexpired term shall qualify within the time required by sections 63.3 and 63.8. 1. When a vacancy exists on the board of supervisors, the committee of county officers designated to fill the vacancy shall publish notice as provided in section 331.305 indicating the method, appointment or special election, by which the committee intends to fill the vacancy. If appointment is selected by the committee, the appointment may be made before publication of the notice, but the appointment shall be made within forty days after the vacancy occurs. However, if within fourteen days after the date of the notice or within fourteen days after the appointment is made, whichever date is later, a petition requesting a special election to fill the vacancy is filed with the county auditor, the appointment is temporary and a special election shall be called as provided in subsection 3. 3. The committee of county officers or board of supervisors as applicable may, on its own motion, or shall, upon receipt of a petition as provided in this section, call for a special election to fill the vacancy in lieu of appointment if section 69.13, subsection 2, does not apply. The committee or board shall order the special election at the earliest practicable date, but giving at least thirty days' notice of the election. ### **PUBLIC OFFICERS AND EMPLOYEES, FINANCIAL PROVISIONS**

#### **79.1 Salaries—payment—vacations—sick leave—educational leave.**

Salaries specifically provided for in an appropriation Act of the general assembly shall be in lieu of existing statutory salaries, for the positions provided for in the Act, and all salaries, including longevity where applicable by express provision in the Code, shall be paid according to the provisions of chapter 91A and shall be in full compensation of all services, including any service on committees, boards, commissions or similar duty for Iowa government, except for members of the general assembly. A state employee on an annual salary shall not be paid for a pay period an amount which exceeds the employee's annual salary transposed into a rate applicable to the pay period by dividing the annual salary by the number of pay periods in the fiscal year. Salaries for state employees other than annual salaries shall be established on an hourly basis.

All employees of the state earn two weeks' vacation per year during the first year of employment and through the fourth year of employment, and three weeks' vacation per year during the fifth and through the eleventh year of employment, and four weeks' vacation per year during the twelfth year through the nineteenth year of employment, and four and four-tenths weeks' vacation per year during the twentieth year through the twenty-fourth year of employment, and five weeks' vacation per year during the twenty-fifth year and all subsequent years of employment, with pay. One week of vacation is equal to the number of hours in the employee's normal work week. Vacation allowances accrue according to chapter 91A as provided by the rules of the department of personnel. The vacations shall be granted at the discretion and convenience of the head of the department, agency, or commission, except that an employee shall not be granted vacation in excess of the amount earned by the employee. Vacation leave earned under this paragraph shall not be cumulated to an amount in excess of twice the employee's annual rate of accrual. The head of the department, agency, or commission shall make every reasonable effort to schedule vacation leave sufficient to prevent any

loss of entitlements. If the employment of an employee of the state is terminated the provisions of chapter 91A relating to the termination apply.

If said termination of employment shall be by reason of the death of the employee, such vacation allowance shall be paid to the estate of the deceased employee if such estate shall be opened for probate. If no estate be opened, the allowance shall be paid to the surviving spouse, if any, or to the legal heirs if no spouse survives.

Payments authorized by this section shall be approved by the department subject to rules of the department of personnel and paid from the appropriation or fund of original certification of the claim.

Commencing July 1, 1979, permanent full-time and permanent part-time employees of state departments, boards, agencies, and commissions, excluding employees covered under a collective bargaining agreement which provides otherwise, shall accrue sick leave at the rate of one and one-half days for each complete month of full-time employment. The accrual rate for part-time employees shall be prorated to the accrual rate for full-time employees. Sick leave shall not accrue during any period of absence without pay. Employees may use accrued sick leave for physical or mental personal illness, bodily injury, medically related disabilities, including disabilities resulting from pregnancy and childbirth, or contagious disease:

1. Which require the employee's confinement,
2. Which render the employee unable to perform assigned duties, or
3. When performance of assigned duties would jeopardize the employee's health or recovery.

Separation from state employment shall cancel all unused accrued sick leave. However, if an employee is laid off and the employee is re-employed by any state department, board, agency, or commission within one year of the date of the layoff, accrued sick leave of the employee shall be restored.

State employees, excluding state board of regents' faculty members with nine-month appointments, and employees covered under a collective bargaining agreement negotiated with the public safety bargaining unit who are eligible for accrued vacation benefits and accrued sick leave benefits, who have accumulated thirty days of sick leave, and who do not use sick leave during a full month of employment may elect to accrue up to one-half day of additional vacation. The accrual of additional vacation time by an employee for not using sick leave during a month is in lieu of the accrual of up to one and one-half days of sick leave for that month. The personnel commission may adopt the necessary rules and procedures for the implementation of this program for all state employees except employees of the state board of regents. The state board of regents may adopt necessary rules for the implementation of this program for its employees.

The head of any department, agency, or commission, subject to rules of the department of personnel, may grant an educational leave to employees for whom the head of the department, agency, or commission is responsible pursuant to section 79.25 and funds appropriated by the general assembly may be used for this purpose. The head of the department, agency, or commission shall notify the legislative council and the director of the department of personnel of all educational leaves granted within fifteen days of the granting of the educational leave. If the head of a department, agency or commission fails to notify the legislative council and the director of the department of personnel of an educational leave, the expenditure of funds appropriated by the general assembly for the educational leave shall not be allowed.

A specific annual salary rate or annual salary adjustment commencing with a fiscal year shall commence on July 1 except that if a pay period overlaps two fiscal

years, a specific annual salary rate or annual salary adjustment shall commence with the first day of a pay period as specified by the general assembly.

b. The services performed by the individual are performed pursuant to a written contract between the individual and the person for whom the services are performed, and the contract provides that the individual will not be treated as an employee with respect to the services for state tax purposes.

12. The term “worker” or “employee” shall include the singular and plural. Any reference to a worker or employee who has been injured shall, when such worker or employee is dead, include the worker’s or employee’s dependents as herein defined or the worker’s or employee’s legal representatives; and where the worker or employee is a minor or incompetent, it shall include the minor’s or incompetent’s guardian, next friend, or trustee. Notwithstanding any law prohibiting the employment of minors all minor employees shall be entitled to the benefits of this chapter and chapters 86 and 87 regardless of the age of such minor employee.

13. The following persons shall not be deemed “workers” or “employees”:

(4) The owner-operator’s compensation is based on factors related to the work performed, including a percentage of any schedule of rates or lawfully published tariff, and not on the basis of the hours or time expended.

(5) The owner-operator determines the details and means of performing the services, in conformance with regulatory requirements, operating procedures of the carrier, and specifications of the shipper.

(6) The owner-operator enters into a contract which specifies the relationship to be that of an independent contractor and not that of an employee and requires the owner-operator to provide and maintain a certificate of workers’ compensation insurance with the carrier.

### **COMPENSATION LIABILITY INSURANCE**

#### **87.4 Group and self-insured plans—tax exemption—plan approval.**

For the purpose of complying with this chapter, groups of employers by themselves or in an association with any or all of their workers, may form insurance associations as hereafter provided, subject to such reasonable conditions and restrictions as may be fixed by the insurance commissioner; and membership in such mutual insurance organization as approved, together with evidence of the payment of premiums due, shall be evidence of compliance with this chapter.

A self-insurance association formed under this section and an association comprised of cities or counties, or both, which have entered into an agreement under chapter 28E for the purpose of establishing a self-insured program for the payment of workers' compensation benefits are exempt from taxation under section 432.1.

A plan shall be submitted to the commissioner of insurance for review and approval prior to its implementation. The commissioner shall adopt rules for the review and approval of a self-insured group plan provided under this section. The rules shall include, but are not limited to, the following:

1. Procedures for submitting a plan for approval including the establishment of a fee schedule to cover the costs of conducting the review.
2. Establishment of minimum financial standards to ensure the ability of the plan to adequately cover the reasonably anticipated expenses.

A self-insured program for the payment of workers' compensation benefits established by an association comprised of cities or counties, or both, which have entered into an agreement under chapter 28E, is not insurance, and is not subject to regulation under chapters 505 through 523C. Membership in such an association together with payment of premiums due relieves the member from obtaining insurance as required in section 87.1. Such an association is not required to submit its plan or program to the commissioner of insurance for review and approval prior to its implementation and is not subject to rules or rates adopted by the commissioner relating to workers' compensation group self-insurance programs. Such a program is deemed to be in compliance with this chapter.

### OCCUPATIONAL SAFETY AND HEALTH

#### 88.8 Procedure for enforcement.

1. *Postinspection penalty notice.* If, after an inspection or an investigation, the commissioner issues a citation under section 88.7, the commissioner shall within a reasonable time after the termination of such inspection or investigation notify the employer by certified mail of the penalty, if any, proposed to be assessed under section 88.14 and that the employer has fifteen working days within which to notify the commissioner that the employer wishes to contest the citation or proposed assessment of penalties. If, within fifteen working days from the receipt of the notice issued by the commissioner, the employer fails to notify the commissioner that the employer intends to contest the citation or proposed assessment of penalty, and no notice is filed by any employees or authorized employee representative under subsection 3 of this section within such time, the citation and the assessment, as proposed, shall be deemed a final order of the appeal board and not subject to review by any court or agency.

2. *Noncompliance notice.* If the commissioner has reason to believe that an employer has failed to correct the violation for which a citation has been issued within the period permitted for its correction (which period shall not begin to run until the entry of a final order by the appeal board in the case of any review proceedings under this section initiated by the employer in good faith and not solely for delay or avoidance of penalties), the commissioner shall notify the employer by certified mail of the failure and of the penalty proposed to be assessed under section 88.14 by reason of the failure, and that the employer has fifteen working days within which to notify the commissioner that the employer wishes to contest the commissioner's notification or the proposed assessment of penalty. If, within fifteen working days from the receipt of notification issued by the commissioner, the employer fails to notify the commissioner that the employer intends to contest the notification or proposed assessment of penalty, the notification and assessment, as proposed, shall be deemed the final order of the appeal board and not subject to review by any court or agency.

3. *Contested notice.* If an employer notifies the commissioner that the employer intends to contest a citation issued under section 88.7 or notification issued under subsection 1 or 2 of this section or if, within fifteen working days of the issuance of a citation under section 88.7, any employee or authorized employee representative files a notice with the commissioner alleging that the period of time fixed in the citation for the abatement of the violation is unreasonable, the commissioner shall immediately advise the appeal board of such notification, and the appeal board shall afford an opportunity for a hearing. The appeal board shall thereafter issue an order, based on findings of fact, affirming, modifying, or vacating the commissioner's citation or proposed penalty or directing other appropriate relief, and such order shall become final thirty days after its issuance. Upon a showing by an employer of a good faith effort to comply with the abatement requirements of a citation, and that abatement has not been completed because of factors beyond the employer's reasonable control, the commissioner, after an opportunity for a hearing shall issue an order affirming or modifying the abatement requirements in such citation. The rules of procedure prescribed by the appeal board shall provide affected employees or representatives of affected employees an opportunity to participate as parties to hearings under this subsection, and shall conform to rules of procedure promulgated and adopted under the federal law by federal authorities insofar as the same do not conflict with state law.

The commissioner has unreviewable discretion to withdraw a citation charging an employer with violating this chapter. If the parties enter into a settlement agreement prior to a hearing, the employment appeal board shall enter an order affirming the agreement.

## REGISTRATION OF CONSTRUCTION CONTRACTORS

**91C.7 Contracts—contractor's bond.**

1. A contractor who is not registered with the labor commissioner as required by this chapter shall not be awarded a contract to perform work for the state or an agency of the state.

2. An out-of-state contractor, before commencing a contract in excess of five thousand dollars in value in Iowa, shall file a bond with the division of labor services of the department of employment services. The surety bond shall be executed by a surety company authorized to do business in this state, and the bond shall be continuous in nature until canceled by the surety with not less than thirty days' written notice to the contractor and to the division of labor services of the department of employment services indicating the surety's desire to cancel the bond. The bond shall be in the sum of the greater of the following:

- a. One thousand dollars.
- b. Five percent of the contract price.

Release of the bond shall be conditioned upon the payment of all taxes, including contributions due under the unemployment compensation insurance system, penalties, interest, and related fees, which may accrue to the state of Iowa or its subdivisions on account of the execution and performance of the contract. If at any time during the term of the bond the department of revenue and finance determines that the amount of the bond is not sufficient to cover the tax liabilities accruing to the state of Iowa or its subdivisions, the department shall require the bond to be increased by an amount the department deems sufficient to cover the tax liabilities accrued and to accrue under the contract. The department shall adopt rules for the collection of the forfeiture. Notice shall be provided to the surety and to the contractor. Notice to the contractor shall be mailed to the contractor's last known address and to the contractor's registered agent for service of process, if any, within the state. The contractor or surety shall have the opportunity to apply to the director of revenue and finance for a hearing within thirty days after the giving of such notice. Upon the failure to timely request a hearing, the bond shall be forfeited. If, after the hearing upon timely request, the department of revenue and finance finds that the contractor has failed to pay the total of all taxes payable, the department shall order the bond forfeited. The amount of the forfeiture shall be the amount of taxes payable or the amount of the bond, whichever is less. For purposes of this section "*taxes payable*" means all tax, penalties, interest, and fees that the department of revenue and finance has previously determined to be due to the state or a subdivision of the state by assessment or in an appeal of an assessment, including contributions to the unemployment compensation insurance system.

If it is determined that this subsection may cause denial of federal funds which would otherwise be available, or would otherwise be inconsistent with requirements of federal law, this subsection shall be suspended, but only to the extent necessary to prevent denial of the funds or to eliminate the inconsistency with federal requirements.

89 Acts, ch 254, §1 HF 643  
Section amended

**91C.8 Investigations—enforcement—administrative penalties.**

1. The labor commissioner and inspectors of the division of labor services of the department of employment services have jurisdiction for investigation and enforcement in cases where contractors may be in violation of the requirements of this chapter or rules adopted pursuant to this chapter.

2. If, upon investigation, the labor commissioner or the commissioner's authorized representative believes that a contractor has violated any of the following, the commissioner shall with reasonable promptness issue a citation to the contractor:

- a. The requirement that a contractor be registered.
- b. The requirement that the contractor's registration information be substantially complete and accurate.
- c. The requirement that an out-of-state contractor file a bond with the division of labor services.

Each citation shall be in writing and shall describe with particularity the nature of the violation, including a reference to the provision of the statute alleged to have been violated.

If a citation is issued, the commissioner shall, within seven days, notify the contractor by certified mail of the administrative penalty, if any, proposed to be assessed and that the contractor has fifteen working days within which to notify the commissioner that the employer wishes to contest the citation or proposed assessment of penalty.

The administrative penalties which may be imposed under this section shall be not more than five hundred dollars in the case of a first violation and not more than five thousand dollars for each violation in the case of a second or subsequent violation. All administrative penalties collected pursuant to this chapter shall be deposited in the general fund of the state.

If, within fifteen working days from the receipt of the notice, the contractor fails to notify the commissioner that the contractor intends to contest the citation or proposed assessment of penalty, the citation and the assessment, as proposed, shall be deemed a final order of the employment appeal board and not subject to review by any court or agency.

If the contractor notifies the commissioner that the contractor intends to contest the citation or proposed assessment of penalty, the commissioner shall immediately advise the employment appeal board established by section 10A.601. The employment appeal board shall review the action of the commissioner and shall thereafter issue an order, based on findings of fact, affirming, modifying, or vacating the commissioner's citation or proposed penalty or directing other appropriate relief, and the order shall become final sixty days after its issuance.

The labor commissioner shall notify the department of revenue and finance upon final agency action regarding the citation and assessment of penalty against a registered contractor.

Judicial review of any order of the employment appeal board issued pursuant to this section may be sought in accordance with the terms of chapter 17A. If no petition for judicial review is filed within sixty days after service of the order of the employment appeal board, the appeal board's findings of fact and order shall be conclusive in connection with any petition for enforcement which is filed by the commissioner after the expiration of the sixty-day period. In any such case, the clerk of court, unless otherwise ordered by the court, shall forthwith enter a decree enforcing the order and shall transmit a copy of the decree to the employment appeal board and the contractor named in the petition.

*c.* For purposes of determining whether an employee of a restaurant, hotel, motel, inn, or cabin, who customarily and regularly receives more than thirty dollars a month in tips is receiving the minimum hourly wage rate prescribed by this section, the amount paid the employee by the employer shall be deemed to be increased on account of the tips by an amount determined by the employer, not to exceed forty percent of the applicable minimum wage. An employee may file a written appeal with the labor commissioner if the amount of tips received by the employee is less than the amount determined by the employer under this subsection.

*d.* An employer is not required to pay an employee the applicable minimum wage provided in paragraph "a" until the employee has completed ninety calendar days of employment with the employer. An employee who has completed ninety calendar days of employment with the employer prior to January 1 of 1990, 1991, or 1992, shall earn the applicable hourly minimum wage. An employer shall pay an employee who has not completed ninety calendar days of employment with the employer an hourly wage of at least \$3.35 as of January 1 of 1990, \$3.85 as of January 1 of 1991, and \$4.25 as of January 1 of 1992.

2. The exemptions from the minimum wage requirements stated in 29 U.S.C. §213 shall apply, except that the exemption in 29 U.S.C. §213(a)(2) shall only apply to an enterprise which is comprised of one or more retail or service establishments whose annual gross volume of sales made or business done is less than sixty percent of the amount stated in 29 U.S.C. §203(s)(2), exclusive of excise taxes at the retail level that are separately stated.

3. The labor commissioner shall adopt rules to implement and administer this section.

4. This section shall be enforced pursuant to chapter 91A.

## CHAPTER 93

### ENERGY DEVELOPMENT AND CONSERVATION

#### 93.7 Duties of the department.

The department shall:

1. Deliver to the general assembly by January 15, 1990, a plan for the development, management, and efficient utilization of all energy resources in the state. The plan shall evaluate existing energy utilization with regard to energy efficiency and shall evaluate the future energy needs of the state. The plan shall include but is not limited to the following elements:

- a. The historical use and distribution of energy in Iowa.
- b. The growth rate of energy consumption in Iowa.
- c. A projection of Iowa's energy needs at a minimum of ten years into the future.
- d. The impact of meeting Iowa's energy needs on the economy of the state.
- e. The impact of meeting Iowa's energy needs on the environment of the state.
- f. An evaluation of alternative sources and uses of energy.
- g. Legislative recommendations that may be necessary as a basis for a state policy for the development and efficient utilization of energy resources.
- h. An evaluation of the ability of existing laws and regulations surrounding the utilization of energy resources.

The department shall develop the plan with the assistance of, and in consultation with, representatives of the energy industry, economic interests, the public, and other interested parties. The department shall submit a report to the general assembly concerning the status and implementation of the plan on a biennial basis.

2. Identify a state facility in the state to be used as a marketing tool to promote energy conservation by providing a showcase for the department to demonstrate energy efficiency.

3. The department shall exchange information with other states on energy and especially on the allocation of fuel and shall request all information necessary to determine the reasonableness of any reduction of Iowa's fuel allocation.

4. Establish a central depository within the state for energy data. The department may require a supplier to provide information pertaining to the supply, storage, distribution and sale of energy sources in this state. The information shall be furnished on a periodic basis, shall be of a nature which directly relates to the supply, storage, distribution and sale of energy sources, and shall not include any records, documents, books or other data which relate to the financial position of the supplier. Provided the department, prior to requiring any supplier to furnish it with such information, shall make every reasonable effort to determine if the same is available from any other governmental source. If it finds such information is available, the department shall not require submission of the same from a supplier. Notwithstanding the provisions of chapter 22, information and reports obtained under this section shall be confidential except when used for statistical purposes without identifying a specific supplier and when release of the information will not give an advantage to competitors and serves a public purpose.

The department may subpoena witnesses, administer oaths and require the production of records, books, and documents for examination in order to obtain information required to be submitted under this section. In case of failure or refusal on the part of any person to comply with a subpoena issued by the department, or in case of the refusal of any witness to testify as to any matter regarding which the witness may be interrogated under this chapter, the district court, upon the application of the department, may order the person to show cause why the person should not be held in contempt for failure to testify or comply with a subpoena, and may order the person to produce the records, books, and documents for examination, and to give testimony. The courts may punish for contempt as in the case of disobedience to a like subpoena issued by the court, or for refusal to testify.

5. Develop and recommend public education and communication programs in energy conservation and conversion to alternative sources of energy.

6. When necessary to carry out its duties under this chapter, enter into contracts with state agencies and other qualified contractors.

7. Receive and accept grants made available for programs relating to duties of the department under this chapter.

8. Promulgate rules necessary to carry out the provisions of this chapter; subject to review in accordance with chapter 17A. Rules promulgated by the governor pursuant to a proclamation issued under the provisions of section 93.8 shall not be subject to review or a public hearing as required in chapter 17A; however, agency rules for implementation of the governor's proclamation are subject to the requirements of chapter 17A.

9. Examine and determine whether additional state regulatory authority is necessary to protect the public interest and to promote the effective development, utilization and conservation of energy resources. If the department finds that additional regulatory authority is necessary, the department shall submit recommendations to the general assembly concerning the nature and extent of such regulatory authority and which state agency should be assigned such regulatory responsibilities.

10. Develop and assist in the implementation of public education and communications programs in energy development, use and conservation, in co-operation with the department of education, the state university extension services and other public or private agencies and organizations as deemed appropriate by the department.

11. Develop a program to annually give public recognition to innovative methods of energy conservation.

12. Administer and coordinate federal funds for energy conservation programs including, but not limited to, the institutional conservation program, state energy conservation program, and energy extension service program, and related programs which provide energy management and conservation assistance to schools, hospitals, health-care facilities, communities, and the general public.

13. Administer and coordinate the state building energy management program including projects funded through private financing.

14. Perform monthly fuel surveys which establish a statistical average of motor fuel prices for various motor fuels provided throughout the state. Additionally, the department shall perform monthly fuel surveys in cities with populations of over fifty thousand which establish a statistical average of motor fuel prices for various motor fuels provided in those individual cities. The survey results shall be publicized in a monthly press release issued by the department.

### **93.14 Energy research and development fund.**

An energy research and development fund is created in the state treasury. Moneys deposited in the fund shall be used for the research and development of selected projects to improve Iowa's energy situation by developing improved methods of energy conservation, by enabling Iowans to better manage available energy resources, or through the increased development and use of Iowa's renewable or nonrenewable energy resources. The moneys credited to the fund under section 556.18 shall be used for energy conservation or alternative energy resource projects or for both purposes. The projects shall be selected by the

director. Selection criteria for funded projects shall include consideration of indirect restitution to those persons in this state in the utility customer classes and the utility service territories affected by unclaimed utility refunds or deposits. The projects funded from the energy research and development fund shall be administered by the department.

The energy fund disbursement council created in section 93.11, subsection 3, will oversee and approve the expenditure of funds in the energy research and development fund.

## CHAPTER 96

### EMPLOYMENT SECURITY AND DIVISION OF JOB SERVICE

#### **96.3 Payment—determination—duration—child support intercept.**

1. *Payment.* Twenty-four months after the date when contributions first accrue under this chapter, benefits shall become payable from the fund; provided, that wages earned for services defined in section 96.19, subsection 6, paragraph "g" (3), irrespective of when performed, shall not be included for purposes of determining eligibility, under section 96.4 or full-time weekly wages, under subsection 4 of this section, for the purposes of any benefit year commencing on or after July 1, 1939, nor shall any benefits with respect to unemployment occurring on and after July 1, 1939, be payable under subsection 5 of this section on the basis of such wages. All benefits shall be paid through employment offices in accordance with such regulations as the division of job service of the department of employment services may prescribe.

2. *Total unemployment.* Each eligible individual who is totally unemployed in any week shall be paid with respect to such week benefits in an amount which shall be equal to the individual's weekly benefit amount.

3. *Partial unemployment.* An individual who is partially unemployed in any week as defined in section 96.19, subsection 9, paragraph "b", and who meets the conditions of eligibility for benefits shall be paid with respect to that week an amount equal to the individual's weekly benefit amount less that part of wages payable to the individual with respect to that week in excess of one-fourth of the individual's weekly benefit amount. The benefits shall be rounded to the lower multiple of one dollar.

4. *Determination of benefits.* With respect to benefit years beginning on or after July 1, 1983, an eligible individual's weekly benefit amount for a week of total unemployment shall be an amount equal to the following fractions of the individual's total wages in insured work paid during that quarter of the individual's base period in which such total wages were highest; the commissioner shall determine annually a maximum weekly benefit amount equal to the following percentages, to vary with the number of dependents, of the statewide average weekly wage paid to employees in insured work which shall be effective the first day of the first full week in July:

If the number of dependents is:	The weekly benefit amount shall equal the following fraction of high quarter wages:	Subject to the following maximum percentage of the statewide average weekly wage:
0	1/23	53%
1	1/22	55%
2	1/21	57%
3	1/20	60%
4 or more	1/19	65%

The maximum weekly benefit amount, if not a multiple of one dollar shall be rounded to the lower multiple of one dollar. However, until such time as sixty-five percent of the statewide average weekly wage exceeds one hundred ninety dollars, the maximum weekly benefit amounts shall be determined using the statewide average weekly wage computed on the basis of wages reported for calendar year 1981. As used in this section "dependent" means dependent as defined in section 422.12, subsection 1, paragraph "c", as if the individual claimant was a taxpayer, except that an individual claimant's nonworking spouse shall be deemed to be a dependent under this section. "Nonworking spouse" means a spouse who does not earn more than one hundred twenty dollars in gross wages in one week.

5. *Duration of benefits.* The maximum total amount of benefits payable to an eligible individual during a benefit year shall not exceed the total of the wage credits accrued to the individual's account during the individual's base period, or twenty-six times the individual's weekly benefit amount, whichever is the lesser. The commissioner shall maintain a separate account for each individual who earns wages in insured work. The commissioner shall compute wage credits for each individual by crediting the individual's account with one-third of the wages for insured work paid to the individual during the individual's base period. However, the commissioner shall recompute wage credits for an individual who is laid off due to the individual's employer going out of business at the factory, establishment, or other premises at which the individual was last employed, by crediting the individual's account with one-half, instead of one-third, of the wages for insured work paid to the individual during the individual's base period. Benefits paid to an eligible individual shall be charged against the base period wage credits in the individual's account which have not been previously charged, in the inverse chronological order as the wages on which the wage credits are based were paid. However if the state "off indicator" is in effect and if the individual is laid off due to the individual's employer going out of business at the factory, establishment, or other premises at which the individual was last employed, the maximum benefits payable shall be extended to thirty-nine times the individual's weekly benefit amount, but not to exceed the total of the wage credits accrued to the individual's account.

6. *Part-time workers.*

a. As used in this subsection the term "part-time worker" means an individual whose normal work is in an occupation in which the individual's services are not required for the customary scheduled full-time hours prevailing in the establishment in which the individual is employed, or who, owing to personal circumstances, does not customarily work the customary scheduled full-time hours prevailing in the establishment in which the individual is employed.

b. The commissioner shall prescribe fair and reasonable general rules applicable to part-time workers, for determining their full-time weekly wage, and the total wages in employment by employers required to qualify such workers for benefits.

7. *Recovery of overpayment of benefits.* If an individual receives benefits for which the individual is subsequently determined to be ineligible, even though the individual acts in good faith and is not otherwise at fault, the benefits shall be recovered. The division of job service in its discretion may recover the overpayment of benefits either by having a sum equal to the overpayment deducted from any future benefits payable to the individual or by having the individual pay to the division a sum equal to the overpayment.

If the division determines that an overpayment has been made, the charge for the overpayment against the employer's account shall be removed and the account shall be credited with an amount equal to the overpayment from the unemployment compensation trust fund.

8. *Back pay.* If an individual receives benefits for a period of unemployment and subsequently receives a payment for the same period from the individual's employer in the form of or in lieu of back pay, the benefits shall be recovered. The division of job service, in its discretion, may reach an agreement with the individual and the employer to allow the employer to deduct the amount of the benefits from the back pay and remit a sum equal to that amount to the unemployment compensation fund and the balance to the individual, or may recover the amount of the benefits either by having a sum equal to that amount deducted from any future benefits payable to the individual or by having the individual pay to the division a sum equal to that amount. If an agreement is reached to allow the employer to deduct the amount of benefits from the back pay and remit that amount to the fund, the division shall not charge that amount to the employer's account under section 96.7.

9. *Child support intercept.*

a. An individual filing a claim for benefits under section 96.6, subsection 1 shall, at the time of filing, disclose whether the individual owes a child support obligation which is being enforced by the child support recovery unit established in section 252B.2. If an individual discloses that such a child support obligation is owed and the individual is determined to be eligible for benefits under this chapter, the division of job service shall notify the child support recovery unit of the individual's disclosure and deduct and withhold from benefits payable to the individual the amount specified by the individual.

b. However, if the child support recovery unit and an individual owing a child support obligation reach an agreement to have specified amounts deducted and withheld from the individual's benefits and the child support recovery unit submits a copy of the agreement to the division, the division shall deduct and withhold the specified amounts.

c. However, if the division is notified of an assignment of income by the child support recovery unit under chapter 252D or section 598.22 or 598.23 or is garnisheed by the child support recovery unit under chapter 642 and an individual's benefits are condemned to the satisfaction of the child support obligation being enforced by the child support recovery unit, the division shall deduct and withhold from the individual's benefits that amount required through legal process.

Notwithstanding section 642.2, subsections 2, 3, 5, and 6 which restrict garnishments under chapter 642 to wages of public employees, the division may be garnisheed under chapter 642 by the child support recovery unit established in section 252B.2, pursuant to a judgment for child support against an individual eligible for benefits under this chapter.

Notwithstanding section 96.15, benefits under this chapter are not exempt from income assignment, garnishment, attachment, or execution if assigned to or garnished by the child support recovery unit, established in section 252B.2, or if an assignment under section 598.22 or 598.23 is being enforced by the child support recovery unit to satisfy the child support obligation of an individual who is eligible for benefits under this chapter.

d. An amount deducted and withheld under paragraph "a", "b", or "c" shall be paid by the division to the child support recovery unit, and shall be treated as if it were paid to the individual as benefits under this chapter and as if it were paid by the individual to the child support recovery unit in satisfaction of the individual's child support obligations.

e. If an agreement for reimbursement has been made, the division shall be reimbursed by the child support recovery unit for the administrative costs incurred by the division under this section which are attributable to the enforcement of child support obligations by the child support recovery unit.

89 Acts, ch 11, §1, 2 HF 195

Subsection 9, paragraph c, unnumbered paragraphs 1 and 3 amended

### 96.7 Employer contributions and reimbursements.

1. *Payment.* Contributions accrue and are payable, in accordance with rules adopted by the division, on all taxable wages paid by an employer for insured work.

#### 2. *Contribution rates based on benefit experience.*

a. (1) The division shall maintain a separate account for each employer and shall credit each employer's account with all contributions which the employer has paid or which have been paid on the employer's behalf.

(2) The amount of regular benefits plus fifty percent of the amount of extended benefits paid to an eligible individual shall be charged against the account of the employers in the base period in the inverse chronological order in which the employment of the individual occurred.

However, if the individual to whom the benefits are paid is in the employ of a base period employer at the time the individual is receiving the benefits, and the individual is receiving the same employment from the employer that the individual received during the individual's base period, benefits paid to the individual shall not be charged against the account of the employer. This provision applies to both contributory and reimbursable employers, notwithstanding subparagraph (3) and section 96.8, subsection 5.

An employer's account shall not be charged with benefits paid to an individual who left the work of the employer voluntarily without good cause attributable to the employer or to an individual who was discharged for misconduct in connection with the individual's employment, but shall be charged to the account of the next succeeding employer with whom the individual requalified for benefits as determined respectively under section 96.5, subsection 1, paragraph "g" and section 96.5, subsection 2, paragraph "a". However, the succeeding employer's account shall first be charged with benefits paid to the individual due to wage credits earned by the individual while employed by the succeeding employer. After exhausting those wage credits, the succeeding employer's account shall not be charged with ten weeks of benefits paid to the individual due to wage credits earned by the individual from a previous employer, but rather the unemployment compensation fund shall be charged. After exhausting the ten weeks of noncharging, the succeeding employer's account shall again be charged with the benefits paid.

An employer's account shall not be charged with benefits paid to an individual who failed without good cause, either to apply for available, suitable work or to

accept suitable work, but shall be charged to the account of the next succeeding employer with whom the individual requalified for benefits as determined under section 96.5, subsection 3.

The amount of benefits paid to an individual, which is solely due to wage credits considered to be in an individual's base period due to the exclusion and substitution of calendar quarters from the individual's base period under section 96.23, shall be charged against the account of the employer responsible for paying the workers' compensation benefits for temporary total disability or during a healing period under section 85.33, section 85.34, subsection 1, or section 85A.17, or responsible for paying indemnity insurance benefits.

(3) The amount of regular benefits charged against the account of an employer for a calendar quarter of the base period shall not exceed the amount of the individual's wage credits based on employment with the employer during that quarter. The amount of extended benefits charged against the account of an employer for a calendar quarter of the base period shall not exceed an additional fifty percent of the amount of the individual's wage credits based on employment with the employer during that quarter. However, the amount of extended benefits charged against the account of a governmental entity which is either a reimbursable or contributory employer, for a calendar quarter of the base period shall not exceed an additional one hundred percent of the amount of the individual's wage credits based on employment with the governmental entity during that quarter.

(4) The division shall adopt rules prescribing the manner in which benefits shall be charged against the accounts of several employers for which an individual performed employment during the same calendar quarter.

(5) This chapter shall not be construed to grant an employer or an individual in the employer's service, prior claim or right to the amount paid by the employer into the unemployment compensation fund either on the employer's own behalf or on behalf of the individual.

(6) Within forty days after the close of each calendar quarter, the division shall notify each employer of the amount of benefits charged to the employer's account during that quarter. The notification shall show the name of each individual to whom benefits were paid, the individual's social security number, and the amount of benefits paid to the individual. An employer which has not been notified as provided in section 96.6, subsection 2, of the allowance of benefits to an individual, may within thirty days after the date of mailing of the notification appeal to the division for a hearing to determine the eligibility of the individual to receive benefits. The appeal shall be referred to an administrative law judge for hearing and the employer and the individual shall receive notice of the time and place of the hearing.

b. If an enterprise or business, or a clearly segregable and identifiable part of an enterprise or business, for which contributions have been paid is sold or transferred to a subsequent employing unit, or if one or more employing units have been reorganized or merged into a single employing unit, and the successor employer, having qualified as an employer as defined in section 96.19, subsection 5, paragraph "b", continues to operate the enterprise or business, the successor employer shall assume the position of the predecessor employer or employers with respect to the predecessors' payrolls, contributions, accounts, and contribution rates to the same extent as if no change had taken place in the ownership or control of the enterprise or business. However, the successor employer shall not assume the position of the predecessor employer or employers with respect to the predecessor employer's or employers' payrolls, contributions, accounts, and contribution rates which are attributable to that part of the enterprise or business transferred, unless the successor employer applies to the division within sixty days from the date of the partial transfer, and the succession is approved by the predecessor employer or employers and the division.

The contribution rate to be assigned to the successor employer for the period beginning not earlier than the date of the succession and ending not later than the beginning of the next following rate year, shall be the contribution rate of the predecessor employer with respect to the period immediately preceding the date of the succession, provided the successor employer was not, prior to the succession, a subject employer, and only one predecessor employer, or only predecessor employers with identical rates, are involved. If the predecessor employers' rates are not identical and the successor employer is not a subject employer prior to the succession, the division shall assign the successor employer a rate for the remainder of the rate year by combining the experience of the predecessor employers. If the successor employer is a subject employer prior to the succession, the successor employer may elect to retain the employer's own rate for the remainder of the rate year, or the successor employer may apply to the division to have the employer's rate redetermined by combining the employer's experience with the experience of the predecessor employer or employers. However, if the successor employer is a subject employer prior to the succession and has had a partial transfer of the experience of the predecessor employer or employers approved, then the division shall recompute the successor employer's rate for the remainder of the rate year.

c. (1) A nonconstruction contributory employer newly subject to this chapter shall pay contributions at the rate specified in the twelfth benefit ratio rank but not less than one percent until the end of the calendar year in which the employer's account has been chargeable with benefits for twelve consecutive calendar quarters immediately preceding the computation date.

(2) A construction contributory employer, as defined under rules adopted by the division, which is newly subject to this chapter shall pay contributions at the rate specified in the twenty-first benefit ratio rank until the end of the calendar year in which the employer's account has been chargeable with benefits for twelve consecutive calendar quarters.

(3) Thereafter, the employer's contribution rate shall be determined in accordance with paragraph "d", except that the employer's average annual taxable payroll and benefit ratio may be computed, as determined by the division, for less than five periods of four consecutive calendar quarters immediately preceding the computation date.

d. The division shall determine the contribution rate table to be in effect for the rate year following the computation date, by determining the ratio of the current reserve fund ratio to the highest benefit cost ratio on the computation date. On or before the fifth day of September the division shall make available to employers the contribution rate table to be in effect for the next rate year.

(1) The current reserve fund ratio is computed by dividing the total funds available for payment of benefits, on the computation date, by the total wages paid in covered employment excluding reimbursable employment wages during the first four calendar quarters of the five calendar quarters immediately preceding the computation date.

(2) The highest benefit cost ratio is the highest of the resulting ratios computed by dividing the total benefits paid, excluding reimbursable benefits paid, during each consecutive twelve-month period, during the ten-year period ending on the computation date, by the total wages, excluding reimbursable employment wages, paid in the four calendar quarters ending nearest and prior to the last day of such twelve-month period.

If the current reserve fund ratio, divided by the highest benefit cost ratio:

Equals or exceeds	But is less than	The contribution rate table in effect shall be
—	0.3	1
0.3	0.5	2
0.5	0.7	3
0.7	0.85	4
0.85	1.0	5
1.0	1.15	6
1.15	1.30	7
1.30	—	8

“Benefit ratio” means a number computed to six decimal places on July 1 of each year obtained by dividing the average of all benefits charged to an employer during the five periods of four consecutive calendar quarters immediately preceding the computation date by the employer’s average annual taxable payroll.

Each employer qualified for an experience rating shall be assigned a contribution rate for each rate year that corresponds to the employer’s benefit ratio rank in the contribution rate table effective for the rate year from the following contribution rate tables. Each employer’s benefit ratio rank shall be computed by listing all the employers by increasing benefit ratios, from the lowest benefit ratio to the highest benefit ratio and grouping the employers so listed into twenty-one separate ranks containing as nearly as possible four and seventy-six hundredths percent of the total taxable wages, excluding reimbursable employment wages, paid in covered employment during the four completed calendar quarters immediately preceding the computation date. If an employer’s taxable wages qualify the employer for two separate benefit ratio ranks the employer shall be afforded the benefit ratio rank assigned the lower contribution rate. Employers with identical benefit ratios shall be assigned to the same benefit ratio rank.

e. The division shall fix the contribution rate for each employer and notify the employer of the rate. An employer may appeal to the division for a revision of the contribution rate within thirty days from the date of the notice to the employer. After providing an opportunity for a hearing, the division may affirm, set aside, or modify its former determination and may grant the employer a new contribution rate. The division shall notify the employer of its decision by regular mail. Judicial review of action of the division may be sought pursuant to chapter 17A.

If an employer's account has been charged with benefits as the result of a decision allowing benefits and the decision is reversed, the employer may appeal, within thirty days from the date of the next contribution rate notice, for a recomputation of the rate. If a base period employer's account has been charged with benefits paid to an employee at a time when the employee was employed by the base period employer in the same employment as in the base period, the employer may appeal, within thirty days from the date of the first notice of the employer's contribution rate which is based on the charges, for a recomputation of the rate.

f. If an employer has not filed a contribution and payroll quarterly report, as required pursuant to section 96.11, subsection 7, for a calendar quarter which precedes the computation date and upon which the employer's rate of contribution is computed, the employer's average annual taxable payroll shall be computed by considering the delinquent quarterly reports as containing zero taxable wages.

If a delinquent quarterly report is received by September 30 following the computation date the contribution rate shall be recomputed by using the taxable wages in all the appropriate quarterly reports on file to determine the average annual taxable payroll.

If a delinquent quarterly report is received after September 30 following the computation date the contribution rate shall not be recomputed, unless the rate is appealed in writing to the division under paragraph "e" and the delinquent quarterly report is also submitted not later than thirty days after the division notifies the employer of the rate under paragraph "e".

### 3. *Determination and assessment of contributions.*

a. As soon as practicable and in any event within two years after an employer has filed reports, as required pursuant to section 96.11, subsection 7, the division shall examine the reports and determine the correct amount of contributions due, and the amount so determined by the division shall be the contributions payable. If the contributions found due are greater than the amount paid, the division shall send a notice by certified mail to the employer with respect to the additional contributions and interest assessed. A lien shall attach as provided in section 96.14, subsection 3, if the assessment is not paid or appealed within thirty days of the date of the notice of assessment.

b. If the division discovers from the examination of the reports required pursuant to section 96.11, subsection 7 or in some other manner that wages, or any portion of wages, payable for employment, have not been listed in the reports, or that reports were not filed when due, or that reports have been filed showing contributions due but contributions in fact have not been paid, the division shall at any time within five years after the time the reports were due, determine the correct amount of contributions payable, together with interest and any applicable penalty as provided in this chapter. The division shall send a notice by certified mail to the employer of the amount assessed and a lien shall attach as provided in paragraph "a".

c. The certificate of the division to the effect that contributions have not been paid, that reports have not been filed, or that information has not been furnished as required under the provisions of this chapter, is prima facie evidence of the failure to pay contributions, file reports, or furnish information.

4. *Employer liability determination.* The division shall initially determine all questions relating to the liability of an employing unit or employer, including the

amount of contribution, the contribution rate, and successorship. A copy of the initial determination shall be sent by regular mail to the last address, according to the records of the division, of each affected employing unit or employer.

The affected employing unit or employer may appeal in writing to the division from the initial determination. An appeal shall not be entertained for any reason by the division unless the appeal is filed with the division within thirty days from the date on which the initial determination is mailed. If an appeal is not so filed, the initial determination shall with the expiration of the appeal period become final and conclusive in all respects and for all purposes.

A hearing on an appeal shall be conducted according to rules adopted by the division. A copy of the decision of the administrative law judge shall be sent by regular mail to the last address, according to the records of the division, of each affected employing unit or employer.

The division's decision on the appeal shall be final and conclusive as to the liability of the employing unit or employer unless the employing unit or employer files an appeal for judicial review within thirty days after the date of mailing of the decision as provided in subsection 5.

5. *Judicial review.* Notwithstanding chapter 17A, petitions for judicial review may be filed in the district court of the county in which the employer resides, or in which the employer's principal place of business is located, or in the case of a nonresident not maintaining a place of business in this state either in a county in which the wages payable for employment were earned or paid or in Polk county, within thirty days after the date of the notice to the employer of the division's final determination as provided for in subsection 2, 3, or 4.

The petitioner shall file with the clerk of the district court a bond for the use of the respondent, with sureties approved by the clerk, with any penalty to be fixed and approved by the clerk. The bond shall not be less than fifty dollars and shall be conditioned on the petitioner's performance of the orders of the court. In all other respects, the judicial review shall be in accordance with chapter 17A.

6. *Jeopardy assessments.* If the division believes that the collection of contributions payable or benefits reimbursable will be jeopardized by delay, the division may immediately make an assessment of the estimated amount of contributions due or benefits reimbursable, together with interest and applicable penalty, and demand payment from the employer. If the payment is not made, the division may immediately file a lien against the employer which may be followed by the issuance of a distress warrant.

The division shall be permitted to accept a bond from the employer to satisfy collection until the amount of contributions due is determined. The bond shall be in an amount deemed necessary, but not more than double the amount of the contributions involved, with securities satisfactory to the division.

7. *Financing benefits paid to employees of governmental entities.*

a. A governmental entity which is an employer under this chapter shall pay benefits in a manner provided for a reimbursable employer unless the governmental entity elects to make contributions as a contributory employer. The election shall be effective for a minimum of one calendar year and may be changed if an election is made to become a reimbursable employer prior to December 1 for a minimum of the following calendar year.

However, if on the effective date of the election the governmental entity has a negative balance in its contributory account, the governmental entity shall pay to the fund within a time period determined by the division the amount of the negative balance and shall immediately become liable to reimburse the unemployment compensation fund for benefits paid in lieu of contributions. Regular or extended benefits paid after the effective date of the election, including those based on wages paid while the governmental entity was a contributory employer, shall be billed to the governmental entity as a reimbursable employer.

b. A governmental entity electing to make contributions as a contributory employer, with at least eight consecutive calendar quarters immediately preceding the computation date throughout which the employer's account has been chargeable with benefits, shall be assigned a contribution rate under this paragraph. Contribution rates shall be assigned by listing all governmental contributory employers by decreasing percentages of excess from the highest positive percentage of excess to the highest negative percentage of excess. The employers so listed shall be grouped into seven separate percentage of excess ranks each containing as nearly as possible one-seventh of the total taxable wages of governmental entities eligible to be assigned a rate under this paragraph.

As used in this subsection, "*percentage of excess*" means a number computed to six decimal places on July 1 of each year obtained by dividing the excess of all contributions attributable to an employer over the sum of all benefits charged to an employer by the employer's average annual payroll. An employer's percentage of excess is a positive number when the total of all contributions paid to an employer's account for all past periods to and including those for the quarter immediately preceding the rate computation date exceeds the total benefits charged to such account for the same period. An employer's percentage of excess is a negative number when the total of all contributions paid to an employer's account for all past periods to and including those for the quarter immediately preceding the rate computation date is less than the total benefits charged to such account for the same period.

As used in this subsection, "*average annual taxable payroll*" means the average of the total amount of taxable wages paid by an employer for insured work during the three periods of four consecutive calendar quarters immediately preceding the computation date. However, for an employer which qualifies on any computation date for a computed rate on the basis of less than twelve consecutive calendar quarters of chargeability immediately preceding the computation date, "*average annual taxable payroll*" means the average of the employer's total amount of taxable wages for the two periods of four consecutive calendar quarters immediately preceding the computation date.

The division shall annually calculate a base rate for each calendar year. The base rate is equal to the sum of the benefits charged to governmental contributory employers in the calendar year immediately preceding the computation date plus or minus the difference between the total benefits and contributions paid by governmental contributory employers since January 1, 1980, which sum is divided by the total taxable wages reported by governmental contributory employers during the calendar year immediately preceding the computation date, rounded to the next highest one-tenth of one percent. Excess contributions from the years 1978 and 1979 shall be used to offset benefits paid in any calendar year where total benefits exceed total contributions of governmental contributory employers. The contribution rate as a percentage of taxable wages of the employer shall be assigned as follows:

If the percentage of excess rank is:	The contribution rate shall be:	Approximate cumulative taxable payroll
1	Base Rate - 0.9	14.3
2	Base Rate - 0.6	28.6
3	Base Rate - 0.3	42.9
4	Base Rate	57.2
5	Base Rate + 0.3	71.5
6	Base Rate + 0.6	85.8
7	Base Rate + 0.9	100.0

If a governmental contributory employer is grouped into two separate percentage of excess ranks, the employer shall be assigned the lower contribution rate of the two percentage of excess ranks. Notwithstanding the provisions of this paragraph, a governmental contributory employer shall not be assigned a contribution rate less than one-tenth of one percent of taxable wages unless the employer has a positive percentage of excess greater than five percent.

Governmental entities electing to be contributory employers which are not eligible to be assigned a contribution rate under this paragraph shall be assigned the base rate as a contribution rate for the calendar year.

c. For the purposes of this subsection, “*governmental reimbursable employer*” means an employer which makes payments to the division for the unemployment compensation fund in an amount equal to the regular and extended benefits paid, which are based on wages paid for service in the employ of the employer. Benefits paid to an eligible individual shall be charged against the base period employers in the inverse chronological order in which the employment of the individual occurred. However, the amount of benefits charged against an employer for a calendar quarter of the base period shall not exceed the amount of the individual’s wage credits based upon employment with that employer during that quarter. At the end of each calendar quarter, the division shall bill each governmental reimbursable employer for benefits paid during that quarter. Payments by a governmental reimbursable employer shall be made in accordance with subsection 8, paragraph “b”, subparagraphs (2) through (5).

d. A state agency, board, commission, or department, except a state board of regents’ institution, shall, after approval of the billing for a governmental reimbursable employer as provided in subsection 8, paragraph “b”, submit the billing to the director of revenue and finance. The director of revenue and finance shall pay the approved billing out of any funds in the state treasury not otherwise appropriated. A state agency, board, commission, or department shall reimburse the director of revenue and finance out of any revolving, special, trust, or federal fund from which all or a portion of the billing can be paid, for payments made by the director of revenue and finance on behalf of the agency, board, commission, or department.

e. If an enterprise or business of a reimbursable government entity is sold or otherwise transferred to a subsequent employing unit and the successor employing unit continues to operate the enterprise or business, the successor employing unit shall assume the position of the reimbursable government entity with respect to the reimbursable government entity’s payroll and reimbursable benefits to the same extent as if no change in the ownership or control of the enterprise or business had occurred, whether or not the successor employer elected or elects, or was or is eligible to elect, to become a reimbursable employer with respect to the employer’s payroll prior to the sale or transfer of the enterprise or business.

f. If a reimbursable instrumentality of the state or of a political subdivision is discontinued other than by sale or transfer to a subsequent employing unit as described in paragraph “e”, the state or the political subdivision, respectively, shall reimburse the division of job service for benefits paid to former employees of the instrumentality after the instrumentality is discontinued.

#### 8. *Financing benefits paid to employees of nonprofit organizations.*

a. A nonprofit organization which is, or becomes, subject to this chapter, shall pay contributions under subsections 1 and 2, unless the nonprofit organization elects, in accordance with this paragraph, to reimburse the unemployment compensation fund for benefits paid in an amount equal to the amount of regular benefits and of one-half of the extended benefits paid, which are based on wages paid for service in the employ of the nonprofit organization during the effective period of the election.

(1) A nonprofit organization may elect to become a reimbursable employer for a period of not less than two calendar years by filing with the division a written notice of its election not later than thirty days prior to the beginning of the calendar year for which the election is to be effective.

(2) A nonprofit organization which makes an election in accordance with subparagraph (1) shall continue to be a reimbursable employer until the nonprofit organization files with the division a written notice terminating its election not later than thirty days prior to the beginning of the calendar year for which the termination is to be effective.

(3) The division may for good cause extend the period within which a notice of election or termination of election must be filed and may permit an election or termination of election to be retroactive.

(4) The division, in accordance with rules, shall notify each nonprofit organization of any determination made by the division of the status of the nonprofit organization as an employer and of the effective date of any election or termination of election. A determination is subject to appeal and review in accordance with subsections 4 and 5.

b. Reimbursements for benefits paid in lieu of contributions shall be made in accordance with the following:

(1) At the end of each calendar quarter, the division shall bill each nonprofit organization which has elected to reimburse the unemployment compensation fund for benefits paid in an amount equal to the full amount of regular benefits and one-half of the amount of extended benefits paid during the quarter which are based on wages paid for service in the employ of the organization. Benefits paid to an individual shall be charged against the base period employers in the inverse chronological order in which the employment of the individual occurred. However, the amount of benefits charged against an employer for a calendar quarter of the base period shall not exceed the amount of the individual's wage credits based upon employment with that employer during that quarter.

(2) The nonprofit organization shall pay the bill not later than thirty days after the bill was mailed or otherwise delivered to the last known address of the nonprofit organization, unless the nonprofit organization has filed an application for redetermination in accordance with subparagraph (4).

(3) Reimbursements made by a nonprofit organization shall not be deducted, in whole or in part, from the wages of individuals in the employ of the nonprofit organization.

(4) The amount due specified in a bill from the division is conclusive unless, not later than fifteen days following the date the bill was mailed or otherwise delivered to the last known address of the nonprofit organization, the nonprofit organization files an application for redetermination with the division setting forth the grounds for the application. The division shall promptly review the amount due specified in the bill and shall issue a redetermination. The redetermination is conclusive on the nonprofit organization unless, not later than thirty days after the redetermination was mailed or otherwise delivered to the last known address of the nonprofit organization, the nonprofit organization files an appeal to the district court pursuant to subsection 5.

(5) The provisions for collection of contributions under section 96.14 are applicable to reimbursements for benefits paid in lieu of contributions.

(6) If an enterprise or business of a reimbursable nonprofit organization is sold or otherwise transferred to a subsequent employing unit and the successor employing unit continues to operate the enterprise or business, the successor employing unit shall assume the position of the reimbursable nonprofit organization with respect to the nonprofit organization's payroll and reimbursable benefits to the same extent as if no change in the ownership or control of the enterprise or business had occurred, whether or not the successor employer

elected or elects, or was or is eligible to elect, to become a reimbursable employer with respect to the employer's payroll prior to the sale or transfer of the enterprise or business.

9. *Bond or other security deposits.* A nonprofit organization which elects, on or after July 1, 1975, to become a reimbursable employer shall be required within thirty days after the effective date of the election to either execute and file with the division a surety bond approved by the division or deposit with the division money or securities.

a. The amount of the bond or deposit shall be equal to two and seven-tenths percent of the nonprofit organization's total taxable wages paid for employment during the four calendar quarters immediately preceding the effective date of the election, or the renewal date of a bond or a deposit of money or securities, whichever date is most recent and applicable. If the nonprofit organization did not pay wages in each of the four calendar quarters, the amount of the bond or deposit shall be determined by the division.

b. A bond filed under this subsection shall be in force for a period of not less than two years and shall be renewed with the approval of the division, at such times as the division may prescribe, but not less frequently than at two-year intervals. The division shall require adjustments to be made in a previously filed bond as it deems appropriate. If the bond is to be increased or decreased, the adjusted bond shall be filed by the nonprofit organization within thirty days of the date notice of the required adjustment was mailed or otherwise delivered. Failure by a nonprofit organization covered by a bond to fully reimburse the unemployment compensation fund for benefits paid when due, shall render the surety liable for the due and unpaid reimbursements and any interest and penalty due as provided in section 96.14 to the extent of the bond.

c. Money or securities deposited in accordance with this subsection shall be retained by the division in an escrow account until the nonprofit organization's liability under the election is terminated, at which time the money or securities shall be returned to the nonprofit organization, less any deductions made by the division. The division may make deductions from the money deposited or sell the securities deposited if necessary to satisfy any due and unpaid reimbursements and any interest and penalty due as provided in section 96.14. The division may, at any time, review the adequacy of the deposit made by a nonprofit organization. If the division determines that an adjustment is necessary, the division shall require the organization to make an additional deposit within thirty days of written notice of the determination or shall return to the nonprofit organization the portion of the deposit no longer considered necessary. Disposition of income from securities held in escrow or any cash remaining from the sale of securities shall be governed by the applicable provisions of the Code.

d. If a nonprofit organization fails to file a bond or make a deposit, or to file a bond or make a deposit to meet an adjustment, the division may terminate the nonprofit organization's election to reimburse the unemployment compensation fund for benefits paid in lieu of making contributions. The termination shall continue for not less than four consecutive calendar quarters beginning with the quarter in which the termination becomes effective. However, the division may extend for good cause the applicable filing, deposit, or adjustment period by not more than thirty days.

10. *Group accounts.* Two or more nonprofit organizations or two or more governmental entities which have become reimbursable employers in accordance with subsection 7 or subsection 8, paragraph "a", may file a joint application to the division for the establishment of a group account for the purpose of sharing the cost of benefits paid which are attributable to service in the employ of the employers. The application shall identify and authorize a group representative to act as the group's agent for the purposes of this subsection. Upon approval of the

application, the division shall establish a group account for the employers effective as of the beginning of the calendar quarter in which the division receives the application and shall notify the group's agent of the effective date of the account. The account shall remain in effect for not less than one year until terminated at the discretion of the division or upon application by the group. Upon establishment of the account, each employer member of the group shall be liable for benefit reimbursements in lieu of contributions with respect to each calendar quarter in an amount which bears the same ratio to the total benefits paid in the quarter which are attributable to service performed in the employ of all members of the group, as the total wages paid for service performed in the employ of the member in the quarter bear to the total wages paid for service performed in the employ of all members of the group in the quarter. The division shall adopt rules with respect to applications for establishment, maintenance, and termination of group accounts, for addition of new members to, and withdrawal of active members from group accounts, and for the determination of the amounts which are payable by members of the group and the time and manner of the payments.

11. *Temporary emergency surcharge.* If on the first day of the third month in any calendar quarter, the division has an outstanding balance of interest accrued on advance moneys received from the federal government for the payment of unemployment compensation benefits, or is projected to have an outstanding balance of accruing federal interest for that calendar quarter, the division shall collect a uniform temporary emergency surcharge for that calendar quarter, retroactive to the beginning of that calendar quarter. The surcharge shall be a percentage of employer contribution rates and shall be set at a uniform percentage, for all employers subject to the surcharge, necessary to pay the interest accrued on the moneys advanced to the division by the federal government, and to pay any additional federal interest which will accrue for the remainder of that calendar quarter. The surcharge shall apply to all employers except governmental entities, nonprofit organizations, and employers assigned a zero contribution rate. The division shall adopt rules prescribing the manner in which the surcharge will be collected. Interest shall accrue on all unpaid surcharges under this subsection at the same rate as on regular contributions and shall be collectible in the same manner. The surcharge shall not affect the computation of regular contributions under this chapter.

A special fund to be known as the temporary emergency surcharge fund is created in the state treasury. The special fund is separate and distinct from the unemployment compensation fund. All contributions collected from the temporary emergency surcharge shall be deposited in the special fund. The special fund shall be used only to pay interest accruing on advance moneys received from the federal government for the payment of unemployment compensation benefits. Interest earned upon moneys in the special fund shall be deposited in and credited to the special fund.

If the division determines on June 1 that no outstanding balance of interest due has accrued on advanced moneys received from the federal government for the payment of unemployment compensation benefits, and that no outstanding balance is projected to accrue for the remainder of the calendar year, the division shall notify the treasurer of state of its determination. The treasurer of state shall immediately transfer all moneys, including accrued interest, in the temporary emergency surcharge fund to the unemployment compensation fund for the payment of benefits.

12. *Administrative contribution surcharge—fund.*

a. An employer other than a governmental entity or a nonprofit organization, subject to this chapter, shall pay an administrative contribution surcharge equal in amount to one-tenth of one percent of federal taxable wages, as defined in section 96.19, subsection 20, paragraph "b". The division shall recompute the

amount as a percentage of taxable wages, as defined in section 96.19, subsection 20, and shall add the percentage surcharge to the employer's contribution rate determined under this section. The division shall adopt rules prescribing the manner in which the surcharge will be collected. Interest shall accrue on all unpaid surcharges under this subsection at the same rate as on regular contributions and shall be collectible in the same manner.

b. A special fund to be known as the administrative contribution surcharge fund is created in the state treasury. The fund is separate and distinct from the unemployment compensation fund. All contributions collected from the administrative contribution surcharge shall be deposited in the fund. Interest earned upon moneys in the fund shall be deposited in and credited to the fund.

c. Moneys in the fund shall be used by the division only upon appropriation by the general assembly and only for personnel and nonpersonnel costs of rural and satellite job service offices in population centers of less than twenty thousand or for the division-approved training fund funded in section 8, subsection 2, of 1988 Iowa Acts, chapter 1274.

d. This subsection is repealed July 1, 1990, and the repeal is applicable to contribution rates for calendar year 1991 and subsequent calendar years.

2. *Voluntary termination.* Except as otherwise provided in subsection 3 of this section, an employing unit ceases to be an employer subject to this chapter, as of the first day of January of any year, if it files with the division of job service, prior to the fifteenth day of February of that year, a written application for termination of coverage, and the division finds that the employing unit did not meet any of the qualifying liability requirements as provided under section 96.19, subsection 5, in the preceding calendar year.

Upon the written approval of such election by the division, such services shall be deemed to constitute employment subject to this chapter from and after the date stated in such approval. Such services shall cease to be deemed employment subject hereto as of January 1 of any calendar year subsequent to such two calendar years, only if prior to the fifteenth day of February of such year such employing unit has filed with the division a written notice to that effect.

#### 4. *Transfer or discontinuance of business.*

a. In any case in which the enterprise or business of a subject employer has been sold or otherwise transferred to a subsequent employing unit or reorganized

or merged into a single employing unit under the provisions of section 96.7, subsection 2, paragraph "b", the account of the transferring employer shall terminate as of the date on which such transfer, reorganization or merger was completed.

Not later than the fifteenth day of December of each year, the commissioner shall submit to the governor a report covering the administration and operation of this chapter during the preceding fiscal year and shall make such recommendations for amendments to this chapter as the commissioner deems proper. Such report shall include a balance sheet of the moneys in the fund. 2. *General and special rules.* Each employer shall post and maintain printed statements of all rules of the division of job service in places readily accessible to individuals in the employer's service, and shall make available to each such individual at the time the individual becomes unemployed a printed statement of such rules relating to the filing of claims for benefits. Such printed statements shall be supplied by the division to each employer without cost to the employer.

a. There is established a job service advisory council composed of nine members appointed by the governor subject to confirmation by the senate. Three members shall be appointed to represent employees; three members shall be appointed to represent employers; and three members shall be appointed to represent the general public. Not more than five members of the advisory council shall be members of the same political party. The members shall serve six-year staggered terms beginning and ending as provided in section 69.19. Members shall serve without compensation, but shall be reimbursed for actual and

7. *Records, reports, and confidentiality.*

a. An employing unit shall keep true and accurate work records, containing information required by the division. The records shall be open to inspection and copying by an authorized representative of the division at any reasonable time and as often as necessary. An authorized representative of the division may require from an employing unit a sworn or unsworn report, with respect to individuals employed by the employing unit, which the division deems necessary for the effective administration of this chapter.

b. (1) The division shall hold confidential the information obtained from an employing unit or individual in the course of administering this chapter and the initial determination made by a representative of the division under section 96.6, subsection 2, as to the benefit rights of an individual. The division shall not disclose or open this information for public inspection in a manner that reveals the identity of the employing unit or the individual, except as provided in subparagraph (3) or paragraph "c".

(2) A report or statement, whether written or verbal, made by a person to a representative of the division or to another person administering this law is a privileged communication. A person is not liable for slander or libel on account of the report or statement unless the report or statement is made with malice.

(3) Information obtained from an employing unit or individual in the course of administering this chapter and an initial determination made by a representative of the division under section 96.6, subsection 2, as to benefit rights of an individual shall not be used in any action or proceeding, except in a contested case proceeding or judicial review under chapter 17A. However, the division shall make information, which is obtained from an employing unit or individual in the course of administering this chapter and which relates to the employment and wage history of the individual, available to a county attorney for the county attorney's use in the performance of duties under section 331.756, subsection 5. Information in the division's possession which may affect a claim for benefits or a change in an employer's rating account shall be made available to the interested parties. The information may be used by the interested parties in a proceeding under this chapter to the extent necessary for the proper presentation or defense of a claim.

c. Subject to conditions as the division by rule prescribes, information obtained from an employing unit or individual in the course of administering this chapter and an initial determination made by a representative of the division under

section 96.6, subsection 2, as to benefit rights of an individual may be made available for purposes consistent with the purposes of this chapter to any of the following:

(1) Whether the individual is receiving or has received benefits, or has made an application for benefits under this chapter.

(2) The period, if any, for which benefits were payable and the weekly benefit amount.

(3) The individual's most recent address.

(4) Whether the individual has refused an offer of employment, and, if so, the date of the refusal and a description of the employment refused, including duties, conditions of employment, and the rate of pay.

(5) The individual's wage information.

e. The division may require an agency which is provided information under this subsection to reimburse the division for the costs of furnishing the information.

f. An employee of the division, an administrative law judge, or a member of the appeal board who violates this subsection is guilty, upon conviction, of a serious misdemeanor.

g. Information subject to the confidentiality of this subsection shall not be directly released to any authorized agency unless an attempt is made to provide written notification to the individual involved. Information released in accordance with criminal investigations by a law enforcement agency of this state, another state, or the federal government is exempt from this requirement.

8. *Oaths and witnesses.* In the discharge of the duties imposed by this chapter, the chairperson of the appeal board and any duly authorized representative of the

division of job service shall have power to administer oaths and affirmations, take depositions, certify to official acts, and issue subpoenas to compel the attendance of witnesses and the production of books, papers, correspondence, memoranda, and other records deemed necessary as evidence in connection with a disputed claim or the administration of this chapter.

9. *Subpoenas.* In case of contumacy by, or refusal to obey a subpoena issued to any person, any court of this state within the jurisdiction of which the inquiry is carried on or within the jurisdiction of which said person guilty of contumacy or refusal to obey is found or resides or transacts business, upon application by the division of job service, or any member or duly authorized representative thereof, shall have jurisdiction to issue to such person an order requiring such person to appear before the division or any member or duly authorized representative thereof to produce evidence if so ordered or to give testimony touching the matter under investigation or in question; any failure to obey such order of the court may be punished by said court as a contempt thereof.

10. *Protection against self-incrimination.* No person shall be excused from attending and testifying or from producing books, papers, correspondence, memoranda, and other records before the division of job service, or the appeal board, or in obedience to a subpoena in any cause or proceeding provided for in this chapter, on the ground that the testimony or evidence, documentary or otherwise, required of the person may tend to incriminate the person or subject the person to a penalty for forfeiture; but no individual shall be prosecuted or subjected to any penalty of forfeiture for or on account of any transaction, matter, or thing concerning which the individual is compelled, after having claimed privilege against self-incrimination, to testify or produce evidence, documentary or otherwise, except that such individual so testifying shall not be exempt from prosecution and punishment for perjury committed in so testifying.

11. *State-federal co-operation.* In the administration of this chapter, the division of job service shall co-operate with the United States department of labor to the fullest extent consistent with the provisions of this chapter, and shall take such action, through the adoption of appropriate rules, regulations, administrative methods and standards, as may be necessary to secure to this state and its citizens all advantages available under the provisions of the Social Security Act that relate to unemployment compensation, the federal Unemployment Tax Act, the Wagner-Peyser Act, and the Federal-State Extended Unemployment Compensation Act of 1970.

In the administration of the provisions of section 96.29 which are enacted to conform with the requirements of the Federal-State Extended Unemployment Compensation Act of 1970, the division shall take such action as may be necessary to insure that the provisions are so interpreted and applied as to meet the requirements of such federal Act as interpreted by the United States department of labor, and to secure to this state the full reimbursement of the federal share of extended benefits paid under this chapter that are reimbursable under the federal Act.

The division shall make such reports, in such form and containing such information as the United States department of labor may from time to time require, and shall comply with such provisions as the United States department of labor may from time to time find necessary to assure the correctness and verification of such reports; and shall comply with the regulations prescribed by the United States department of labor governing the expenditures of such sums as may be allotted and paid to this state under Title III of the Social Security Act for the purpose of assisting in administration of this chapter.

The division may make its records relating to the administration of this chapter available to the railroad retirement board, and may furnish the railroad retirement board such copies thereof as the railroad retirement board deems necessary

for its purposes. The division may afford reasonable co-operation with every agency of the United States charged with the administration of any unemployment insurance law. The railroad retirement board or any other agency requiring such services and reports from the division shall pay the division such compensation therefor as the division determines to be fair and reasonable.

12. *Destruction of records.* The division of job service may destroy or dispose of such original reports or records as have been properly recorded or summarized in the permanent records of the division and are deemed by the commissioner and the state records commission to be no longer necessary to the proper administration of this chapter. Wage records of the individual worker or transcripts therefrom may be destroyed or disposed of, if approved by the state records commission, two years after the expiration of the period covered by such wage records or upon proof of the death of the worker. Such destruction or disposition shall be made only by order of the commissioner in consultation with the state records commission. Any moneys received from the disposition of such records shall be deposited to the credit of the employment security administration fund, subject to rules promulgated by the division.

13. *Purging uncollectible overpayments.* Notwithstanding any other provision of this chapter, the division of job service shall review all outstanding overpayments of benefit payments annually. 14. *Access to available jobs list.* The division of job service shall make available for consultation by the public, at each of the division's offices, a list of current job openings listed with the division, provided that the list shall comply with the confidentiality requirements of subsection 7, or those mandated by the federal government.

15. *Special contractor numbers.* For purposes of contractor registration under chapter 91C, the division of job service shall provide for the issuance of special contractor numbers to contractors for whom employer accounts are not required under this chapter. Provided, that such other employing unit would have been an employer under paragraph "a" of this subsection, if such part had constituted its entire organization, trade, or business.

c. Any employing unit which acquired the organization, trade, or business, or substantially all the assets of another employing unit and which, if treated as a single unit with such other employing unit, would be an employer under paragraph "a" of this subsection.

f. For the effective period of its election pursuant to section 96.8, subsection 3, any other employing unit which has elected to become fully subject to this chapter.

g. Provided, however, that if an employer subject to contributions solely because of the terms of this subsection shall establish proper proof to the satisfaction of the department that the employer's employees have been and will be duly covered and insured under the unemployment compensation law of another jurisdiction such employer shall not be deemed an employer and such services shall not be deemed employment under this chapter.

(5) Service performed after December 31, 1971, by an individual in the employ of a religious, charitable, educational or other organization, but only if the service is excluded from "employment" as defined in the federal Unemployment Tax Act (26 U.S.C. §3301-3309) solely by reason of section 3306(c)(8) of that Act.

For purposes of this subsection, the term "crew leader" means an employing unit which furnishes individuals to perform agricultural labor for any other employing unit; pays, either on the crew leader's behalf or on behalf of such other employing unit, the individuals so furnished by the crew leader for the agricultural labor performed by them; and has not entered into a written agreement with such other employing unit under which such individual is designated as an employee of such other employing unit.

This fund shall consist of all moneys collected under this chapter, together with all interest, dividends and rents thereon, and shall also include all securities or investment income and other assets acquired by and through the use of the moneys belonging to this fund and any other moneys that have been paid into this fund.

2. The treasurer of the state of Iowa is hereby made the custodian and trustee of this fund and shall administer the same in accordance with the directions of the department. It shall be the duty of the trustee:

In the investment of the fund, the department and investment board shall exercise the judgment and care, under the circumstances then prevailing, which persons of prudence, discretion, and intelligence exercise in the management of their own affairs, not for the purpose of speculation, but with regard to the permanent disposition of the funds, considering the probable income, as well as the probable safety, of their capital. Within the limitations of the standard prescribed in this section, the treasurer of state, the department, and the board may acquire and retain every kind of property and every kind of investment which persons of prudence, discretion, and intelligence acquire or retain for their own account.

The department and investment board shall give appropriate consideration to those facts and circumstances that the department and investment board know or should know are relevant to the particular investment involved, including the role the investment plays in the total value of the retirement fund.

For the purposes of this paragraph, appropriate consideration includes, but is not limited to, a determination by the department and investment board that the particular investment is reasonably designed to further the purposes of the retirement system, taking into consideration the risk of loss and the opportunity for gain or other return associated with the investment and consideration of the following factors as they relate to the retirement fund:

- (2) The liquidity and current return of the investments in the fund relative to the anticipated cash flow requirements of the retirement system.
- (3) The projected return of the investments relative to the funding objectives of the retirement system.

Investments of moneys in the fund are not subject to sections 73.15 through 73.21.

Except as provided in section 97B.4, if there is loss to the fund, the treasurer, the department, and the board are not personally liable, and the loss shall be charged against the retirement fund. Such sale of securities or other property of the trust fund shall only be made after advice from the investment board in the manner and to the extent provided in this chapter in regard to the purchase of investments.

### **99B.2 Licensing — records required — bingo accounts — inspections—penalties.**

1. The department of inspections and appeals shall issue the licenses required by this chapter. A license shall not be issued, except upon submission to the department of an application on forms furnished by the department, and the required license fee. A license may be issued to an eligible applicant. An authorization number to operate may be issued to an applicant until a license is issued. However, a license or authorization number shall not be issued to an applicant who has been convicted of or pled guilty to a violation of this chapter, or who has been convicted of or pled guilty to a violation of chapter 123 that resulted, at any time, in revocation of a license issued to the applicant under chapter 123 or that resulted, within the twelve months preceding the date of application for a license required by this chapter, in suspension of a license issued under chapter 123. To be eligible for a two-year license under section 99B.7, an organization shall have been in existence at least five years prior to the date of issuance of the license. However, an organization which has been in existence for less than five years prior to the date of issuance of the license may obtain a two-year license if either of the following conditions apply:

a. That prior to July 1, 1984, the organization was licensed under this subsection.

b. If the organization is a local chapter of a national organization and the national organization is a tax-exempt organization under one of the provisions enumerated in section 99B.7, subsection 1, paragraph “m”, then the local organization is eligible for a two-year license if the national organization has been in existence at least five years.

A license shall not be issued to an individual whose previous license issued under this chapter or chapter 123 has been revoked until the period of revocation or revocations has elapsed. This prohibition applies even though the individual has created a different legal entity than the one to which the previous license that had been revoked was issued. Except as otherwise provided in this chapter, a license is valid for a period of two years from the date of issue. The license fee is not refundable, but shall be returned to the applicant if an application is not approved. If a bingo license is issued by the department of inspections and appeals, the licensee shall be notified by the department of inspections and appeals of the renewal date for the license ten days prior to that date.

2. A licensee other than one issued a license pursuant to section 99B.3, 99B.6 or 99B.9 shall maintain proper books of account and records showing in addition to any other information required by the department, gross receipts and the amount of the gross receipts taxes collected or accrued with respect to gambling activities, all expenses, charges, fees and other deductions, and the cash amounts, or the cost to the licensee of goods or other noncash valuables, distributed to participants in the licensed activity. If the licensee is a qualified organization, the amounts dedicated and the date and name and address of each person to whom distributed also shall be kept in the books and records. The books of account and records shall be made available to the department or a law enforcement agency for inspection at reasonable times, with or without notice. A failure to permit inspection is a serious misdemeanor.

3. A qualified organization conducting bingo occasions under a two year license and expecting to have annual gross receipts of more than ten thousand dollars shall establish and maintain one regular checking account designated the "bingo account" and may also maintain one or more interest-bearing savings accounts designated as "bingo savings account".

a. Funds derived from the conduct of bingo, less the amount awarded as cash prizes, shall be deposited in the bingo account. No other funds except limited funds of the organization deposited to pay initial or unexpected emergency expenses shall be deposited in the bingo account. Deposits shall be made no later than the next business day following the day of the bingo occasion on which the receipts were obtained. Accounts shall be maintained in a financial institution in Iowa.

b. Funds from the bingo account shall be withdrawn by preprinted, consecutively numbered checks or share drafts, signed by a duly authorized representative of the licensee and made payable to a person or organization. Checks shall be imprinted with the words "Bingo Account" and shall contain the organization's gambling license number on the face of the check. There shall also be noted on the face of the check or share draft the nature of the payment made. A check or slip shall not be made payable to "cash," "bearer," or a fictitious payee. Checks, including voided checks and drafts, shall be kept and accounted for.

c. Checks shall be drawn on the bingo account for only the following purposes:

(1) The payment of necessary and reasonable bona fide expenses permitted under section 99B.7, subsection 3, paragraph "b", incurred and paid in connection with the conduct of bingo.

(2) The disbursement of net proceeds derived from the conduct of bingo to charitable purposes as required by section 99B.7, subsection 3, paragraphs "b" and "c".

(3) The transfer of net proceeds derived from the conduct of bingo to a bingo savings account pending disbursement to a charitable purpose.

(4) To withdraw initial or emergency funds deposited under subsection 3, paragraph "a".

(5) To pay prizes if the qualified organization decides to pay prizes by check rather than cash.

d. The disbursement of net proceeds on deposit in a bingo savings account to a charitable purpose shall be made by transferring the intended disbursement back into the bingo account and then withdrawing the amount by a check drawn on that account as prescribed in this section.

e. Except as permitted by subsection 3, paragraph "a", gross receipts derived from the conduct of bingo shall not be commingled with other funds of the licensed organization. Except as permitted by paragraph "c", subparagraphs (3) and (4), gross receipts shall not be transferred to another account maintained by the licensed organization.

4. A licensee required by subsection 2 to maintain records shall submit quarterly reports to the department on forms furnished by the department. These reports shall be due thirty days following the end of each calendar quarter. The reports shall contain a compilation of the information required to be recorded by subsection 2, and shall include all of the transactions occurring during the three-month period for which the report is submitted. Failure to submit the quarterly reports is grounds for revocation of the license. Willful failure to submit quarterly reports is a serious misdemeanor. However, the time for filing of reports may be extended for thirty days if the licensee makes written request to the department for an extension which request shows good cause for granting the extension. A person who intentionally files a false or fraudulent report or application with the department commits a fraudulent practice.

5. An organization receiving funds reported as being dedicated by a qualified organization shall maintain proper books of account and records showing both the receipt and the use of the funds. These records shall be made available to the department or a law enforcement agency for inspection with or without notice at reasonable times. A failure to permit inspection is a serious misdemeanor.

#### **99B.6 Games where liquor or beer is sold.**

1. Except as provided in subsections 5, 6, 7, and 8, gambling is unlawful on premises for which a class "A", class "B", class "C", or class "D" liquor control license, or class "B" beer permit has been issued pursuant to chapter 123 unless all of the following are complied with:

a. The holder of the liquor control license or beer permit has submitted an application for a license and an application fee of one hundred fifty dollars, and has been issued a license, and prominently displays the license on the premises.

b. The holder of the liquor control license or beer permit or any agent or employee of the license or permit holder does not participate in, sponsor, conduct or promote, or act as cashier or banker for any gambling activities, except as a participant while playing on the same basis as every other participant.

c. Gambling other than social games is not engaged in on the premises covered by the license or permit.

d. Concealed numbers or conversion charts are not used to play any game, and a game is not adapted with any control device to permit manipulation of the game by the operator in order to prevent a player from winning or to predetermine who the winner will be, and the object of the game is attainable and possible to perform under the rules stated from the playing position of the player.

e. The game must be conducted in a fair and honest manner.

f. No person receives or has any fixed or contingent right to receive, directly or indirectly, any amount wagered or bet or any portion of amounts wagered or bet, except an amount which the person wins as a participant while playing on the same basis as every other participant.

g. No cover charge, participation charge or other charge is imposed upon a person for the privilege of participating in or observing gambling, and no rebate, discount, credit, or other method is used to discriminate between the charge for the sale of goods or services to participants in gambling and the charge for the sale of goods or services to nonparticipants. Satisfaction of an obligation into which a member of an organization enters to pay at regular periodic intervals a sum fixed by that organization for the maintenance of that organization is not a charge which is prohibited by this paragraph.

h. No participant wins or loses more than a total of fifty dollars or more consideration equivalent thereto in one or more games or activities permitted by this section at any time during any period of twenty-four consecutive hours or over that entire period. For the purpose of this paragraph a person wins the total amount at stake in any game, wager or bet, regardless of any amount that person may have contributed to the amount at stake.

i. No participant is participating as an agent of another person.

j. A representative of the department or a law enforcement agency is immediately admitted, upon request, to the premises with or without advance notice.

k. No person under the age of eighteen years may participate in the gambling except pursuant to sections 99B.3, 99B.4, 99B.5 and 99B.7. Any licensee knowingly allowing a person under the age of eighteen to participate in the gambling prohibited by this paragraph or any person knowingly participating in such gambling with a person under the age of eighteen, shall be guilty of a simple misdemeanor.

2. The holder of a license issued pursuant to this section is strictly accountable for complying with subsection 1. Proof of an act constituting a violation is grounds for revocation of the license issued pursuant to this section if the holder of the license permitted the violation to occur when the licensee knew or had reasonable cause to know of the act constituting the violation.

3. A participant in a social game which is not in compliance with this section shall be liable for a criminal penalty only if that participant has knowledge of or reason to know the facts constituting the violation.

4. The holder of a license issued pursuant to this section and every agent of that licensee who is required by the licensee to exercise control over the use of the premises who knowingly permits or engages in acts or omissions which constitute a violation of subsection 1 commits a serious misdemeanor. A licensee has knowledge of acts or omissions if any agent of the licensee has knowledge of those acts or omissions.

5. Lottery tickets or shares authorized pursuant to chapter 99E may be sold on the premises of an establishment that serves or sells alcoholic beverages, wine, or beer as defined in section 123.3.

6. A qualified organization may conduct games of skill, games of chance, or raffles pursuant to section 99B.7 in an establishment that serves or sells alcoholic beverages, wine, or beer as defined in section 123.3 if the games or raffles are conducted pursuant to this chapter or rules adopted pursuant to this chapter.

7. The holder of a liquor control license or beer permit may conduct a sports betting pool if the game is publicly displayed and the rules of the game, including the cost per participant and the amount of the winning is conspicuously displayed on or near the pool. No participant may wager more than five dollars and the maximum winnings to all participants from the pool shall not exceed five hundred dollars. The provisions of subsection 1, except paragraphs "c" and "h" and the prohibition of the use of concealed numbers in paragraph "d", are applicable to pools conducted under this subsection. If a pool permitted by this subsection involves the use of concealed numbers, the numbers shall be selected by a random method and no person shall be aware of the numbers at the time wagers are made in the pool. All moneys wagered shall be awarded to participants. For purposes of this subsection, "pool" means a game in which the participants select a square on a grid corresponding to numbers on two intersecting sides of the grid and winners are determined by whether the square selected corresponds to numbers relating to an athletic event in the manner prescribed by the rules of the game.

8. Gambling games authorized under chapter 99F may be conducted on an excursion gambling boat which is licensed as an establishment that serves or sells alcoholic beverages, wine, or beer as defined in section 123.3 if the gambling games are conducted pursuant to chapter 99F and rules adopted under chapter 99F. ### **99B.7 Games conducted by qualified organizations—penalties.**

1. Except as otherwise provided in section 99B.8, games of skill, games of chance and raffles lawfully may be conducted at a specified location meeting the requirements of subsection 2 of this section, but only if all of the following are complied with:

a. The person conducting the game or raffle has been issued a license pursuant to subsection 3 of this section and prominently displays that license in the playing area of the games.

b. No person receives or has any fixed or contingent right to receive, directly or indirectly, any profit, remuneration, or compensation from or related to a game of skill, game of chance, or raffle, except any amount which the person may win as a participant on the same basis as the other participants. A person conducting a game or raffle shall not be a participant in the game or raffle.

c. Cash or merchandise prizes may be awarded in the game of bingo and, except as otherwise provided in this paragraph, shall not exceed one hundred dollars. Merchandise prizes may be awarded in the game of bingo, but the actual retail value of the prize, or if the prize consists of more than one item, unit or part, the aggregate retail value of all items, units or parts, shall not exceed the maximum provided by this paragraph. A jackpot bingo game may be conducted once during any twenty-four hour period in which the prize may begin at not more than three hundred dollars in cash or actual retail value of merchandise prizes and may be increased by not more than one hundred dollars after each bingo occasion. However, the cost of play in a jackpot bingo game shall not be increased and the jackpot shall not amount to more than eight hundred dollars in cash or actual retail value of merchandise prizes. A jackpot bingo game is not prohibited by paragraph "h". A bingo occasion shall not last for longer than four consecutive hours. A qualified organization shall not hold more than fourteen bingo occasions per month. Bingo occasions held under a limited license shall not be counted in determining whether a qualified organization has conducted more than fourteen bingo occasions per month, nor shall bingo occasions held under a limited license be limited to four consecutive hours. With the exception of a limited license bingo, no more than three bingo occasions per week shall be held within a structure or building and only one person licensed to conduct games under this section may hold bingo occasions within a structure or building.

However, a qualified organization, which is a senior citizens' center or a residents' council at a senior citizen housing project or a group home, may hold more than fourteen bingo occasions per month and more than three bingo occasions per week within the same structure or building, and bingo occasions conducted by such a qualified organization may last for longer than four consecutive hours, if the majority of the patrons of the qualified organization's bingo occasions also participate in other activities of the senior citizens' center or are residents of the housing project. At the conclusion of each bingo occasion, the person conducting the game shall announce both the gross receipts received from the bingo occasion and the use permitted under subsection 3, paragraph "b", to which the net receipts of the bingo occasion will be dedicated and distributed.

d. Cash prizes shall not be awarded in games other than bingo and raffles. The value of a prize shall not exceed fifty dollars and merchandise prizes shall not be repurchased. If a prize consists of more than one item, unit, or part, the aggregate value of all items, units, or parts shall not exceed fifty dollars. However, one raffle may be conducted per calendar year at which prizes having a combined value not greater than twenty thousand dollars may be awarded. If the prize is merchandise, its value shall be determined by purchase price paid by the organization or donor.

e. Except as provided in paragraph "d" of this subsection with respect to an annual raffle, the cost to a participant for each game shall not exceed one dollar.

f. No prize is displayed which cannot be won.

g. Merchandise prizes are not repurchased.

h. A game or raffle shall not be operated on a build-up or pyramid basis.

i. Concealed numbers or conversion charts shall not be used to play any game and a game or raffle shall not be adapted with any control device to permit manipulation of the game by the operator in order to prevent a player from winning or to predetermine who the winner will be, and the object of the game

must be attainable and possible to perform under the rules stated from the playing position of the player.

*j.* The game must be conducted in a fair and honest manner.

*k.* Each game or raffle shall be posted.

*l.* During the entire time that games permitted by this section are being engaged in, both of the following are observed:

(1) No other gambling is engaged in at the same location, except that lottery tickets or shares issued by the lottery division of the department of revenue and finance may be sold pursuant to chapter 99E.

(2) No free prize or other gift is given to a participant. However, one or more door prizes of a value not to exceed ten dollars each may be given by random drawing.

*m.* The person or organization conducting the game can show to the satisfaction of the department that the person or organization is eligible for exemption from federal income taxation under either section 501(c)(3), 501(c)(4), 501(c)(5), 501(c)(6), 501(c)(7), 501(c)(8), 501(c)(10) or 501(c)(19) of the Internal Revenue Code, as defined in section 422.3. However, this paragraph does not apply to a political party as defined in section 43.2, to a nonparty political organization that has qualified to place a candidate as its nominee for statewide office pursuant to chapter 44, or to a candidate's committee as defined in section 56.2.

*n.* The person conducting the game does none of the following:

(1) Hold, currently, another license issued under this section.

(2) Own or control, directly or indirectly, any class of stock of another person who has been issued a license to conduct games under this section.

(3) Have, directly or indirectly, an interest in the ownership or profits of another person who has been issued a license to conduct games under this section.

*a.* Except as provided in subsection 6, paragraph "a", a person shall not conduct, promote, administer, or assist in the conducting, promoting or administering of a bingo occasion, unless the person regularly participates in activities of the qualified organization other than conducting bingo occasions or participates in an educational, civic, public, charitable, patriotic, or religious organization to which the net receipts are dedicated by the qualified organization.

*p.* A licensee shall keep records of all persons who serve as manager or cashier, or who are responsible for carrying out duties with respect to a bingo account. A licensee is subject to license revocation if it knowingly permits a person to serve in one of these capacities if the person was a manager, cashier, or responsible for carrying out duties with respect to a bingo account for another licensee at the time of one or more violations leading to revocation of the other licensee's license, and if the license is still revoked at the time of the subsequent service.

2. Games of skill, games of chance, and raffles may be conducted on premises owned or leased by the licensee, but shall not be conducted on rented premises unless the premises are rented from a person licensed under this section, and unless the net rent received is dedicated to one or more of the uses permitted under subsection 3 for dedication of net receipts. This subsection shall not apply where the rented premises are those upon which a qualified organization usually carries out a lawful business other than operating games of skill, games of chance or raffles. However, a qualified organization may rent premises other than from a licensed qualified organization to be used for the conduct of games of skill, games of chance and raffles, and the person from whom the premises are rented may impose and collect rent for such use of those premises, but only if all of the following are complied with:

*a.* The rent imposed and collected shall not be a percentage of or otherwise related to the amount of the receipts of the game or raffle.

*b.* The qualified organization shall have the right to terminate any rental agreement at any time without penalty and without forfeiture of any sum.

c. Except for purposes of bingo, the person from whom the premises are rented shall not be a liquor control licensee or beer permittee with respect to those premises or with respect to adjacent premises.

The board of directors of a school district may authorize that public schools within that district, and the policymaking body of a nonpublic school, may authorize that games of skill, games of chance, bingo and raffles may be held at bona fide school functions, such as carnivals, fall festivals, bazaars and similar events. Each school shall obtain a license pursuant to this section prior to permitting the games or activities on the premises. However, the board of directors of a public school district may also be issued a license under this section. However, a board of directors of a public school shall not spend or authorize the expenditure of public funds for the purpose of purchasing a license. The department of inspections and appeals shall provide by rule a short form application for a license issued to a board of directors. Upon written approval by the board of directors, the license may be used by any school group or parent support group in the district to conduct activities authorized by this section. The board of directors shall not authorize a school group or parent support group to use the license more than twice in twelve months.

3. a. A person wishing to conduct games and raffles pursuant to this section as a qualified organization shall submit an application and a license fee of one hundred fifty dollars. However, upon submission of an application accompanied by a license fee of fifteen dollars, a person may be issued a limited license which shall authorize the person to conduct all games and raffles pursuant to this section at a specified location and during a specified period of fourteen consecutive calendar days. A limited license shall not be issued more than once during any calendar year to the same person, or for the same location. For the purposes of this paragraph, a limited license is deemed to be issued on the first day of the fourteen-day period for which the license is issued.

b. A person or the agent of a person submitting application to conduct games pursuant to this section as a qualified organization shall certify that the receipts of all games, less reasonable expenses, charges, fees, taxes, and deductions allowed by this chapter, either will be distributed as prizes to participants or will be dedicated and distributed to educational, civic, public, charitable, patriotic or religious uses in this state and that the amount dedicated and distributed will equal at least seventy-five percent of the net receipts. "*Educational, civic, public, charitable, patriotic, or religious uses*" means uses benefiting a society for the prevention of cruelty to animals or animal rescue league, or uses benefiting an indefinite number of persons either by bringing them under the influence of education or religion or relieving them from disease, suffering, or constraint, or by erecting or maintaining public buildings or works, or otherwise lessening the burden of government, or uses benefiting any bona fide nationally chartered fraternal or military veterans' corporation or organization which operates in Iowa a clubroom, post, dining room, or dance hall, but does not include the erection, acquisition, improvement, maintenance, or repair of real, personal or mixed property unless it is used for one or more of the uses stated. "*Public uses*" specifically includes dedication of net receipts to political parties as defined in section 43.2. "*Charitable uses*" includes uses benefiting a definite number of persons who are the victims of loss of home or household possessions through explosion, fire, flood, or storm when the loss is uncompensated by insurance, and uses benefiting a definite number of persons suffering from a seriously disabling disease or injury, causing severe loss of income or incurring extraordinary medical expense when the loss is uncompensated by insurance.

Proceeds given to another charitable organization to satisfy the seventy-five percent dedication requirement shall not be used by the donee to pay any expenses in connection with the conducting of bingo by the donor organization, or for any cause, deed, or activity that would not constitute a valid dedication under this section.

c. A qualified organization shall distribute amounts awarded as prizes on the day they are won. A qualified organization shall dedicate and distribute the balance of the net receipts received within a quarter and remaining after deduction of reasonable expenses, charges, fees, taxes, and deductions allowed by this chapter, before the quarterly report required for that quarter under section 99B.2, subsection 4, is due. The amount dedicated and distributed must equal at least seventy-five percent of the net receipts. A person desiring to hold the net receipts for a period longer than permitted under this paragraph shall apply to the department for special permission and upon good cause shown the department may grant the request.

If permission is granted to hold the net receipts, the person shall, as a part of the quarterly report required by section 99B.2, report the amount of money currently being held and all expenditures of the funds. This report shall be filed even if the person no longer holds a gambling license.

4. It is lawful for an individual other than a person conducting games or raffles to participate in games or raffles conducted by a qualified organization, whether or not there is compliance with subsections 2 and 3: However, it is unlawful for the individual to participate where the individual has knowledge of or reason to know facts which constitute a failure to comply with subsection 1.

5. A political party or a political party organization is a qualified organization within the meaning of this chapter. Political parties or party organizations may contract with other qualified organizations to conduct the games of skill, games of chance, and raffles which may lawfully be conducted by the political party or party organization. A licensed qualified organization may promote the games of skill, games of chance, and raffles which it may lawfully conduct.

6. Proceeds coming into the possession of a person under this section are deemed to be held in trust for payment of expenses and dedication to charitable purposes as required by this section.

a. Except as provided in this paragraph, a person shall not be compensated for services rendered in connection with a game of skill, game of chance, or raffle conducted under this section. This section forbids payment of compensation to persons including, but not limited to, managers, callers, cashiers, floor workers, janitorial personnel, accountants and bookkeepers. The privilege of selling merchandise on the premises during a bingo occasion is deemed to be compensation. However, not more than four persons per one hundred players, participating in the bingo occasion may be employed. An employee under this paragraph need not be a member of the qualified organization or a regular participant in the activities of the qualified organization or in an educational, civic, public, charitable, patriotic, or religious organization to which the net receipts are dedicated by the qualified organization. The wages of an employee shall not exceed the federal minimum wage. This section does not prohibit the employment of one or more individuals to serve as security officers. A person who knowingly pays or receives compensation in violation of this section commits a fraudulent practice.

b. A licensee or agent who willfully fails to dedicate the required amount of proceeds to charitable purposes as required by this section commits a fraudulent practice.

c. Violations of paragraphs "a" and "b" may be considered as a single fraudulent practice and the value may be the total value of all money, property and services involved.

1. Except as permitted in this section, the licensee shall permit no form of wagering on the results of the races.

2. Licensees shall only permit the pari-mutuel or certificate method of wagering as defined in this section.

3. The licensee may receive wagers of money only from a person present in a licensed racing enclosure on a horse or dog in the race selected by the person making the wager to finish first in the race. The person wagering shall acquire an interest in the total money wagered on all horses or dogs in the race as first winners in proportion to the amount of money wagered by the person.

4. The licensee shall issue to each person wagering a certificate on which shall be shown the number of the race, the amount wagered, and the number or name of the horse or dog selected as first winner.

5. As each race is run the licensee shall deduct sixteen percent from the total sum wagered on all horses or dogs as first winners. A licensee may also obtain the permission of a person licensed by the commission to conduct horse or dog races in this state to televise races conducted by that person for the purpose of conducting pari-mutuel racing. However, arrangements made by a licensee to televise any race for the purpose of conducting pari-mutuel wagering are subject to the approval of the commission, and the commission shall limit a licensee to ten races a calendar year which races are chosen by the commission and which are the same for all licensees approved by the commission to televise races for the purpose of conducting pari-mutuel wagering. The commission shall not authorize the simultaneous telecast or televising of and a licensee shall not simultaneously telecast or televise any horse or dog race for the purpose of conducting pari-mutuel wagering unless the simultaneous telecast or televising is done at the racetrack of the licensee on a day and during the time, when there is a horse or dog racing meet being held at the racetrack. For purposes

The racing commission shall approve an application if the harness racing track has held at least one harness race meet during the year preceding the year for which the track seeks funds under this subsection.

Notwithstanding section 8.33, unencumbered or unobligated funds remaining on June 30 of the fiscal year for which the funds were appropriated shall not revert but shall be available for expenditure for the following fiscal year for the purposes of this subsection.

Subsection 3 amended

### **99E.31 Appropriations—1986 fiscal year.**

1. This division shall be construed broadly in order to facilitate achievement of its purposes. The general assembly finds and declares that a continuing need for programs to alleviate and prevent adverse economic conditions exists in this state, and that it is accordingly necessary to create and expand businesses, including agricultural businesses, to strengthen and revitalize the state's economy. In order to provide the means and incentives for encouragement, development, and assistance of industrial, commercial, and agricultural enterprises, specific accounts are created within the Iowa plan fund. The treasurer of state shall, for the fiscal year beginning July 1, 1985 and ending June 30, 1986, make allotments of the moneys within the Iowa plan fund for economic development created in section 99E.10 to separate accounts within that fund as follows:

a. The first five million two hundred seventeen thousand dollars to the "Jobs Now Capitals" account.

b. After the allotment in paragraph "a", ten million dollars to the "Community Economic Betterment" account, seven million fifty thousand dollars to the "Jobs Now" account, and eleven million dollars to the "Education and Agriculture Research and Development" account.

c. After the allotments have been made under paragraphs "a" and "b", the excess is allotted equally to the community economic betterment account and to the "Surplus" account.

d. Before the treasurer makes the allotments under paragraphs "a", "b", and "c", the treasurer shall repay to the general fund the sum of one million twenty thousand dollars which was appropriated for the fiscal year beginning July 1, 1985 from the general fund to the department of general services for capitol building restoration and major repairs, and shall repay to the general fund the sum of five million two hundred fifty thousand dollars which was appropriated for the fiscal period beginning July 1, 1985 and ending June 30, 1989 from the general fund to the department of general services for the engineering, planning and construction of a new state historical building under 1984 Iowa Acts, chapter 1316, section 4.

2. a. There is appropriated from the allotment made to the community economic betterment account under subsection 1 for the fiscal year beginning July 1, 1985 and ending June 30, 1986 to the Iowa development commission the amount in that account, or so much thereof as may be necessary, to be used for the following purposes:

- (1) Principal buy-down program to reduce the principal of a business loan.
- (2) Interest buy-down program to reduce the interest on a business loan.
- (3) Grants and loans to aid in economic development.
- (4) Site development or infrastructure costs directly related to a project resulting in new employment.
- (5) Road construction projects.
- (6) Funds for guaranteeing business loans by local development corporations as described in section 28.29.

b. Only a political subdivision of the state may apply to receive funds for any of the above purposes. The political subdivision shall make application to the department of economic development specifying the purpose for which the funds will be used. In ranking applications for funds, the department shall consider a variety of factors including, but not limited to:

- (1) The proportion of local match to be provided.
- (2) The proportion of private contribution to be provided, including the involvement of financial institutions.
- (3) The total number of jobs to be created or retained.
- (4) The size of the business receiving assistance. The department shall award more points to small businesses as defined by the United States small business administration.
- (5) The potential for future growth in the industry represented by the business being considered for assistance.
- (6) The need of the business for financial assistance from governmental sources. More points shall be awarded to a business which the department determines that governmental assistance is most necessary to the success of the project.
- (7) The quality of the jobs to be created. In rating the quality of the jobs the department shall award more points to those jobs that have a higher wage scale, have a lower turnover rate, are full-time or career-type positions, provide comprehensive health benefits, or have other related factors.
- (8) The level of need of the political subdivision.
- (9) The impact of the proposed project on the economy of the political subdivision.

c. The department shall not provide more than one million dollars for any project, unless at least two-thirds of the members of the economic development board vote for providing more. However, after the first ten million dollars in the community economic betterment account have been provided to political subdivisions, the amount that may be provided by the department for a project from additional moneys credited to that account is not subject to the one million dollar limitation.

d. An eligible road construction project is one involving highway improvements which support and assist economic development.

The commission shall take applications from state, city, or county government entities for road construction projects. The commission shall prioritize the projects and determine which projects shall be funded. However, the approval of the department of transportation is necessary for planning, design, construction and maintenance and other activities as provided in section 307.24. The commission shall make the final selection of which projects will be funded. Matching funds on a dollar-for-dollar basis for each project funded shall be required. The source of the matching funds shall be determined by the type of project. Thus a match from the primary road fund is required for a project involving a primary road. The department of transportation does not have the right to reject a project for which a match of primary road funds is required. If the department of transportation disapproves of a project for which a match of primary road funds is required, the reasons shall be supplied to the applicant and commission. But the commission may still approve such project, and once approved, matching funds are to be provided.

In prioritizing the road construction projects and determining which shall be funded, the commission shall consider the economic benefits of the project to the local community and the state as a whole, including but not limited to the number of direct and indirect jobs created.

3. There is appropriated from the allotment made to the jobs now account under subsection 1 for the fiscal year beginning July 1, 1985 and ending June 30, 1986 to the following funds, agencies, boards or commissions the following amounts, or so much thereof as may be necessary, to be used for the following purposes:

a. To the state conservation commission the sum of two million dollars for the development of parks, recreation areas, forest, fish and wildlife areas, and natural

Not more than five hundred thousand dollars shall be set aside to match private funds available for the acquisition of natural areas with unique or unusual features. Not more than four hundred thousand dollars shall be set aside for the acquisition of land for expansion or development of state forests, parks and recreation areas, and state fish and wildlife areas. Not more than seven hundred fifty thousand dollars shall be set aside for use in providing grants-in-aid to county conservation boards for carrying out acquisition and development projects as provided in chapter 111A. Any of the above funds can be matched with any available federal funds or with any available federal or local funds in the case of grants-in-aid to county conservation boards.

b. To the energy policy council the sum of one hundred fifty thousand dollars to provide for energy management auditing services and administrative costs associated with the establishment of lease-purchase conservation projects for state buildings. The appropriation under this paragraph is contingent upon the passage and enactment into law of 1985 Iowa Acts, chapter 55.

c. To the Iowa product development fund the sum of two million dollars for the purposes provided in section 28.89.

d. To the office for planning and programming the sum of two hundred fifty thousand dollars for the purposes of the community cultural grants program established under 1983 Iowa Acts, chapter 207, section 92.

From the money allocated to the Iowa State University of science and technology for agricultural biotechnology research and development the amount of fifty thousand dollars for each of the fiscal years beginning July 1, 1986 and July 1, 1987 shall be used to develop a program in bioethics for research at the university. This program should address socio-economic and environmental implications of biotechnology research.

(2) The Iowa development commission or the Iowa department of economic development shall disburse to the regents' institutions or an independent college or university the moneys for the various proposals requested unless the commission or department disapproves of a specific proposal as inconsistent with the plan for economic development for this state. The applicants may submit additional proposals for those not approved by the Iowa development commission or the Iowa department of economic development. Those funds allocated by the Iowa development commission or the Iowa department of economic development under this paragraph that are not expended by the institution of higher education shall not revert to the commission or department. The Iowa development commission and the Iowa department of economic development shall consult with the Iowa high technology council in making grants under this paragraph.

(3) In addition to the other proposals mentioned, an institution under the control of the state board of regents, a merged area school, or an independent college or university in the state may apply for a grant for an applied research project. An applied research project is limited to specific research or the testing of an idea, process, or product to determine the potential for feasible commercial applications. Institutions under the control of the state board of regents, the merged area schools, and the independent colleges and universities shall submit their proposals directly to the Iowa high technology council. The Iowa high technology council shall receive and evaluate the applied research project proposals from the merged area schools, independent colleges and state universities and make recommendations to the Iowa department of economic development. b. To the Iowa college aid commission for the summer institute program established pursuant to this paragraph the sum of one million dollars. Institutions of higher education in the state may submit proposals to the council for postsecondary education for summer institute programs to upgrade the skills of Iowa teachers. A summer institute program shall consist of an intensive immersion of at least eight weeks' duration in the subject area of the program except that a summer institute program that assists teachers to use technology in the classroom may have a duration of three weeks. In determining programs to be funded, preference shall be given to programs that will allow teachers to gain endorsements in other subject areas, or to add to their endorsements in mathematics, science, foreign languages, and other areas that the department of education has determined are areas in which a shortage of teachers currently exists or is predicted to occur.

The proposals shall provide for the institutional reimbursement for the costs of instruction, materials, and room and board for the participants as well as for a weekly stipend of one hundred fifty dollars per week for each participant. The maximum grant to an area school shall not exceed two hundred fifty thousand dollars.

d. To the office of the governor the sum of one hundred thousand dollars or so much as may be needed for a feasibility study of costs and benefits of a joint telecommunications partnership to be entered into between the state and private

2. a. There are appropriated moneys in the community economic betterment account for each of the fiscal years beginning July 1, 1986, July 1, 1987, July 1, 1988, and July 1, 1989 to the Iowa department of economic development to be used for the following purposes in the amounts, or so much thereof as may be necessary, as provided in section 99E.33:

- (2) Interest buy-down program to reduce the interest on a business loan.
- (3) Loans to aid in economic development.
- (4) Site development or infrastructure costs directly related to a project resulting in new employment.
- (5) Road construction projects.
- (6) Funds for guaranteeing business loans by local development corporations as described in section 28.29.
- (7) Grants to economic development projects, as defined in section 99E.10, subsection 2, if at least fifty percent of the total cost of the project is paid from sources other than the Iowa plan fund. If a project involves purchase or improvement of real property, a grant may be made only if the property is located in the state of Iowa.
- (8) For the fiscal years beginning on July 1, 1986 and July 1, 1987 the department shall establish a pilot program entitled the new business opportunity

program to provide financial and technical assistance to emerging businesses and industries that expand and diversify the state's economic base. Assistance may be in any form authorized under the community economic betterment account and the department may allocate for each of those fiscal years up to one million dollars of the account's funds for the pilot program.

(9) Notwithstanding any other provision, the moneys allocated to the community economic betterment account beginning July 1, 1988, are appropriated to the department of economic development to be used only for the purposes of providing financial assistance for small business gap financing, new business opportunities, new product and entrepreneurial development, and comprehensive management assistance in the amounts, or so much thereof as may be necessary, as provided in section 99E.33. These purposes may be accomplished by providing the following types of assistance:

- (a) Principal buy-down program to reduce the principal of a business loan.
- (b) Interest buy-down program to reduce the interest of a business loan.
- (c) Loans to aid in economic development.
- (d) Grants to aid in economic development projects as defined in section 99E.10, subsection 2, if at least fifty percent of the total cost of the project is paid from sources other than the Iowa plan fund. If a project involves purchase or improvement of real property, a grant may be made only if the property is located in the state of Iowa.
- (e) Loan guarantees for business loans made by commercial lenders.
- (f) Equity-like investments.
- (g) Comprehensive management assistance. The conditions, criteria, and limitations specified in section 99E.31, subsection 2, apply to providing of moneys under this paragraph.

The department shall document the actual job creation and retention effects of all businesses receiving financial assistance from the account in the context of the businesses' employer contribution and payroll reports.

The department shall require businesses which receive assistance from the account to submit historical copies of the reports with the application for funds, require businesses to submit the reports after the award on a timely basis, and require businesses to estimate the expected job creation and retention effects for the twelve-month and twenty-four month period after the award in terms of the number of employees and total wages as displayed in the payroll reports. The department shall develop definitions for the terms "job creation" and "job retention" to measure and identify the actual number of permanent, full-time positions which the businesses actually created or retained and can be documented by comparison of the payroll reports during the twenty-four month period after the award.

b. The conditions, criteria, and limitations specified in section 99E.31, subsection 2, apply to the providing of moneys under this subsection. In addition to such conditions, criteria, and limitations, for applications submitted after July 1, 1988, the following factors and requirements shall be considered or applied:

(1) The impact of the proposed project on other businesses in competition with the business being considered for assistance. The department shall make a good faith effort to identify existing Iowa businesses within an industry in competition with the business being considered for assistance. The department shall make a good faith effort to determine the probability that the proposed financial assistance will displace employees of the existing businesses. In determining the impact on businesses in competition with the business being considered for assistance, jobs created as a result of other jobs being displaced elsewhere in the state shall not be considered direct jobs created.

(2) The economic impact to the state of the proposed project. In measuring the economic impact the department shall award more points for the following:

- (a) A project which has a greater consistency with the state strategic plan.\*
  - (b) A business with a greater percentage of sales out-of-state or of import substitution.
  - (c) A business with a higher proportion of in-state suppliers.
  - (d) A project which would provide greater diversification of the state economy.
  - (e) A business with fewer in-state competitors.
  - (f) A potential for future job growth.
  - (g) A project which is not a retail operation.
- (3) The quality of jobs to be provided. Jobs that have a higher wage scale, have a lower turnover rate, are full-time, or are career-type positions are considered higher in quality. Businesses that have wage scales substantially below that of existing Iowa businesses in that area should be rated as providing the lowest quality of jobs and should therefore be given the lowest ranking for providing such assistance.
- (4) If the business has a record of violations of the law over a period of time that tends to show a consistent pattern, the business shall be given the lowest ranking for providing assistance. The department shall make a good faith effort to compile this information.
- (5) If a business has, within three years of application for assistance, acquired or merged with an Iowa corporation or company, the business shall make a good faith effort to hire the workers of the merged or acquired company.
- (6) To be eligible for assistance a business shall provide for a preference for hiring residents of the state or the economic development area, except for out-of-state employees offered a transfer to Iowa or the economic development area.
- (7) All known required environmental permits must be granted and regulations met before moneys are released.

3. There are appropriated moneys in the jobs now account for each of the fiscal years beginning July 1, 1986, July 1, 1987, July 1, 1988, and July 1, 1989, to the following funds, agencies, boards or commissions in the amounts, or so much thereof as may be necessary, as provided in section 99E.33 to be used for the following purposes:

b. Inspect and obtain samples from any person of a regulated substance and conduct monitoring or testing of the tanks, associated equipment, contents or surrounding soils, air, surface water and groundwater. Each inspection shall be commenced and completed with reasonable promptness.

(1) If the state fire marshal obtains a sample, prior to leaving the premises, the fire marshal shall give the owner, operator, or agent in charge a receipt describing the sample obtained and if requested a portion of each sample equal in volume or weight to the portion retained. If the sample is analyzed, a copy of the results of the analysis shall be furnished promptly to the owner, operator, or agent in charge.

(2) Documents or information obtained from a person under this subsection shall be available to the public except as provided in this subparagraph. Upon a showing satisfactory to the state fire marshal by a person that public disclosure of documents or information, or a particular part of the documents or information to which the state fire marshal has access under this subsection would divulge commercial or financial information entitled to protection as a trade secret, the state fire marshal shall consider the documents or information or the particular portion of the documents or information confidential. However, the document or information may be disclosed to officers, employees, or authorized representatives of the United States charged with implementing the federal Solid Waste Disposal Act, to employees of the state of Iowa or of other states when the document or information is relevant to the discharge of their official duties, and when relevant in any proceeding under the federal Solid Waste Disposal Act or this division.

While conducting an investigation, the state fire marshal may enter at any reasonable time in and upon any private or public property to investigate any actual or possible violation of this division or the rules or standards adopted under this division. However, the owner or person in charge shall be notified.

a. If the owner or operator of any property refuses admittance, or if prior to such refusal the state fire marshal demonstrates the necessity for a warrant, the state fire marshal may make application under oath or affirmation to the district court of the county in which the property is located for the issuance of a search warrant.

b. In the application the state fire marshal shall state that an inspection of the premises is mandated by the laws of this state or that a search of certain premises, areas, or things designated in the application may result in evidence tending to reveal the existence of violations of public health, safety, or welfare requirements imposed by statutes, rules, or ordinances established by the state or a political subdivision of the state. The application shall describe the area, premises, or thing to be searched, give the date of the last inspection if known, give the date and time of the proposed inspection, declare the need for such inspection, recite that notice of the desire to make an inspection has been given to affected persons and that admission was refused if that be the fact, and state that the inspection has no purpose other than to carry out the purpose of the statute, rule, or

ordinance pursuant to which inspection is to be made. If an item of property is sought by the state fire marshal it shall be identified in the application.

c. If the court is satisfied from the examination of the applicant, and of other witnesses, if any, and of the allegations of the application of the existence of the grounds of the application, or that there is probable cause to believe in their existence, the court may issue a search warrant.

d. In making inspections and searches pursuant to the authority of this division, the state fire marshal must execute the warrant as follows:

- (1) Within ten days after its date.

### WILDLIFE CONSERVATION

#### 109.38 Prohibited acts—restrictions on the taking of wildlife—special licenses.

It is unlawful for a person to take, pursue, kill, trap or ensnare, buy, sell, possess, transport, or attempt to so take, pursue, kill, trap or ensnare, buy, sell, possess, or transport any game, protected nongame animals, fur-bearing animals or fur or skin of such animals, mussels, frogs, spawn or fish or any part thereof, except upon the terms, conditions, limitations, and restrictions set forth herein,

and administrative rules necessary to carry out the purposes set out in section 109.39, or as provided by the Code.

1. The commission may upon its own motion and after an investigation, alter, limit, or restrict the methods or means employed and the instruments or equipment used in taking wild mammals, birds subject to section 109.48, fish, reptiles, and amphibians, if the investigation reveals that the action would be desirable or beneficial in promoting the interests of conservation, or the commission may, after an investigation when it is found there is imminent danger of loss of fish through natural causes, authorize the taking of fish by means found advisable to salvage imperiled fish populations.

2. If the commission finds that the number of hunters licensed or the type of license issued to take deer or wild turkey should be limited or further regulated the commission shall conduct a drawing to determine which applicants shall receive a license and the type of license. Applications for licenses shall be received during a period established by the commission. At the end of the period a drawing shall be conducted. The commission may establish rules to issue licenses after the established application period. If an applicant receives a deer license which is more restrictive than licenses issued to others for the same period and place, the applicant shall receive a certificate with the license entitling the applicant to priority in the drawing for the less restrictive deer licenses the following year. The certificate must accompany that person's application the following year, or the applicant will not receive this priority. Persons purchasing a deer license for the gun season under this section and under section 110.1 are not eligible for a gun deer-hunting license under section 110.24, except as authorized by rules of the department. This subsection does not apply to the hunting of wild turkey on game breeding and shooting preserves licensed under chapter 110A.

3. The commission shall issue a special turkey hunting license to either the owner or the tenant of a farm unit or a member of the owner's or tenant's immediate family if the person makes a written application to the commission and pays the fee provided for the regular turkey hunting license. The special license is valid only for hunting on the farm unit of the owner or tenant. Only one special license may be issued for a farm unit. The application must contain the consent of the owner if the tenant or tenant's family member applies for the license. A person purchasing a regular turkey hunting license is not eligible to purchase a special license under this subsection. Applications for the special turkey licenses must be received by the commission at least thirty days prior to the opening of the turkey hunting season. The special turkey hunting licensees are subject to all other laws regarding the hunting of turkeys.

### **109.95 License—reciprocity.**

A fur dealer shall conduct business only at the location specified on the dealer's license, at an established fur auction, at the nonadvertised residence of a licensed fur harvester,

or at the place of business specified on the license of any fur dealer. A licensed fur dealer may purchase location permits to operate at locations other than at the location specified on the fur dealer's license. Each location permit shall be valid only for the one location specified on the location permit and shall entitle the fur dealer and employee, agent, or representative of the licensed fur dealer to operate at that location. The commission shall, upon application and the payment of the required license fee, furnish the proper license and location permits to the dealer.

A resident of another state shall pay the fee provided by statute for the nonresident fur dealer's license unless that state has a reciprocity agreement with this state. The reciprocity agreement must provide that each state will charge nonresidents from the other state the same fee for the nonresident fur dealer's license and the fee under the agreement must be less than the statutory fee of this state for nonresidents and higher than the statutory fee of this state for residents.

6. The board shall establish rules relative to the conduct of practice as a certified public accountant, public accountant, and accounting practitioner in respect to the enumerated items in subsections 4 and 5, but such direction shall not be construed as a limitation upon the rights of the board to make and adopt any rules and regulations relating to the rules of conduct of certified public accountants, public accountants, or accounting practitioners, which are not specifically enumerated in this chapter.

7. The board may issue further rules and regulations, including but not limited to rules of professional conduct, pertaining to corporations practicing public accounting, which it deems consistent with or required by the public welfare. #### **117B.18 Standards of practice.**

1. A certified real estate appraiser shall comply with the uniform appraisal standards adopted under this chapter.

2. A certified real estate appraiser shall not accept an appraisal assignment or a fee for an appraisal assignment if the employment itself is contingent upon the appraiser reporting a predetermined estimate, analysis, or opinion or if the fee to be paid is contingent upon the opinion, conclusion, or valuation reached, or upon the consequences resulting from the appraisal assignment.

3. A certified real estate appraiser may provide specialized services to facilitate the client's or employer's objectives. Specialized services shall not be communicated as a certified appraisal or as a certified appraisal report. Regardless of the intention of the client or employer, if the appraiser would be perceived by third parties or the public as acting as a disinterested third party in rendering an unbiased analysis or opinion or conclusion, the work is an appraisal assignment rather than an assignment for specialized services. Communication of a valuation under oath is an appraisal assignment.

4. A certified real estate appraiser who enters into an agreement to perform specialized services may be paid a fixed fee or a fee that is contingent on the results achieved by the specialized services.

5. If a certified real estate appraiser enters into an agreement to perform specialized services for a contingent fee, this fact shall be clearly stated in each written and oral report. In each written report, this fact shall be clearly stated in a prominent location in the report, each letter of transmittal, and the certification statement made by the appraiser in the report.

6. A certified real estate appraiser making a significant contribution to the valuation or analysis process in completing an appraisal assignment shall sign the final written report or acknowledge the appraiser's contribution in a verbal report.

2. The three-year period for retention of records is applicable to each engagement of the services of a certified real estate appraiser and shall commence upon the date of the submission of the appraisal to the client unless, within the three-year period, the appraiser is notified that the appraisal or report is involved in litigation, in which event the three-year period for the retention of records shall commence upon the date of the final disposition of the litigation.

### 120.2 Registration required.

1. a. A travel agency doing business in this state shall register with the secretary of state as a travel agency if it or its travel agent conducts the solicitation of an Iowa resident.

b. A travel agency required to register under paragraph "a" shall not permit a travel agent employed by the travel agency to do business in this state unless the agency has filed the required registration statement.

2. A travel agent shall not knowingly do business in this state unless and until the travel agency employing the travel agent has registered with the secretary of state as a travel agency if the travel agency or any of the agency's travel agents conduct the solicitation of an Iowa resident.

3. This section does not require registration for, or prohibit, solicitation by mail or telecommunications of a person with whom the travel agency has a previous travel services provider-customer relationship, having previously arranged travel related services for that customer on at least one prior occasion.

4. "*Doing business*" in this state, for purposes of this chapter, means any of the following:

a. Offering to sell or selling travel services, if the offer is made or received within the state.

b. Offering to arrange, or arranging, travel services for a fee or commission, direct or indirect, if the offer is made or received in this state.

c. Offering to, or awarding travel services as a prize or award, if the offer or award is made in or received in this state.

5. An applicant shall complete the registration statement form provided by the secretary. The registration statement must be accompanied by the required bond or evidence of financial responsibility and the registration fee. The registration statement shall include all of the following:

a. The name and signature of an officer or partner of a business entity or the names and signatures of the principal owner and operator if the agency is a sole proprietorship.

e. Any additional information required by rule adopted by the secretary pursuant to chapter 17A.

The application shall be accompanied by a written irrevocable consent to service of process. The consent must provide that actions in connection with doing business in this state may be commenced against the registrant in the proper jurisdiction in this state in which the cause of action may arise, or in which the plaintiff may reside, by service of process on the secretary as the registrant's agent and stipulating and agreeing that such service of process shall be taken and held in all courts to be as valid and binding as if service of process had been made upon the person according to the laws of this or any other state. The consent to service of process shall be in such form and supported by such additional information as the secretary may by rule require.

An annual registration fee as established by the secretary by rule is required at the time the registration statement is filed with the secretary, and on or before the anniversary date of the effective date of registration for each subsequent year. The registration fee shall be established at a rate deemed reasonably necessary by the secretary to support the administration of this chapter, but not to exceed fifteen dollars per year per agency. If a registrant fails to pay the annual registration fee, the registration lapses and becomes ineffective.

A registrant shall submit to the secretary corrections to the information supplied in the registration statement within a reasonable time after a change in circumstances, which circumstances would be required to be reported in an initial registration statement, except travel agents' names as required in subsection 5, paragraph "b". The names of travel agents shall be updated at the time of annual registration.

The notice shall indicate the surety's intent to cancel the bond on a date at least sixty days after the date of the notice.

2. The bond shall be payable to the state for the use and benefit of either:

a. A person who is injured by the fraud, misrepresentation, or financial failure of the travel agency or a travel agent employed by the travel agency.

b. The state on behalf of a person or persons under paragraph "a".

The bond shall be conditioned such that the registrant will pay any judgment recovered by a person in a court of this state in a suit for actual damages, including reasonable attorney's fees, or for rescission, resulting from a cause of action involving the sale or offer of sale of travel services. The bond shall be open to successive claims, but the aggregate amount of the claims paid shall not exceed the principal amount of the bond.

  - b. "*Charitable or nonprofit organization*" means an organization which is exempt from federal or state income taxation, except that the term does not include organizations which sell or offer to sell donated items of food. The assessment of a nominal fee or request for a donation in connection with the distribution of food by the charitable or nonprofit organization is not a sale.
  - c. "*Gleaner*" means a person who harvests, for free distribution, an agriculture crop that has been donated by the owner.
  - d. "*Perishable food*" means food which may spoil or otherwise become unfit for human consumption because of its nature or type of physical condition. 2. A gleaner, or a restaurant, food establishment, food service establishment, school, manufacturer of foodstuffs, or other person who, in good faith, donates food to a charitable or nonprofit organization for ultimate free distribution to needy individuals is not subject to criminal or civil liability arising from the condition of the food if the donor reasonably inspects the food at the time of the donation and finds the food fit for human consumption. The immunity provided by this subsection does not extend to a donor or gleaner if damages result from the negligence, recklessness, or intentional misconduct of the donor, or if the donor or gleaner has, or should have had, actual or constructive knowledge that the food is tainted, contaminated, or harmful to the health or well-being of the ultimate recipient.
3. A bona fide charitable or nonprofit organization which receives, in good faith, donated food for ultimate distribution to needy individuals either for free or for a nominal fee is not subject to criminal or civil liability arising from the

The immunity provided by this subsection does not extend to a charitable or nonprofit organization if damages result from the negligence, recklessness, or intentional misconduct of the charitable or nonprofit organization or if the charitable or nonprofit organization has or should have had actual or constructive knowledge that the food is tainted, contaminated, or harmful to the health or well-being of the ultimate recipient.

4. The immunity provided by this section is applicable to the good faith donation of canned or perishable food or farm products not readily marketable due to appearance, freshness, grade, surplus or other considerations, but does not apply to canned goods that are defective or cannot be otherwise offered for sale to members of the general public. This does not restrict the authority of a lawful agency to otherwise regulate or ban the use of such food for human consumption. Charitable or nonprofit organizations which regularly accept donated food for distribution pursuant to this section shall request the appropriate local health authorities to inspect the food at regular intervals.

5. A person, including an employee or volunteer for a charitable or nonprofit organization, who sells, or offers to sell, for profit, food that the person knows to be donated pursuant to this section is guilty of a simple misdemeanor. For purposes of this subsection, the assessment of a nominal fee or request for a donation by the charitable or nonprofit organization is not a sale.

### **123.29 Special permits—exception for clergy.**

A special permit for the purchase, possession, or transportation of alcoholic liquors for the purposes specified in those permits may be issued by the administrator upon application being made to the division in the form and manner prescribed by the administrator, accompanied by payment of the prescribed fee, and upon the administrator being satisfied that the applicant has complied with divisional rules established for the issuance of such permit. Such special permits may be issued to the following persons and for the following purposes:

1. To a physician, pharmacist, dentist, or veterinarian, entitling the holder to purchase and import alcohol from distillers and wholesalers or from the division or a class "E" liquor control licensee for use medicinally and in compounding prescriptions and to sell the alcohol for use medicinally in the compounded prescription only upon the prescription of a licensed physician or surgeon, or to use the alcohol in manufacturing or compounding lotions, compounds, and like commodities not susceptible for beverage purposes, and to sell the commodities for public use.

3. To manufacturers of patent and proprietary medicines, tinctures, food products, extracts, toilet articles and perfumes, and like commodities, none of which are susceptible of use as a beverage, but which contain alcoholic liquor as one of their ingredients. Any individual, or member of a firm, or officer of a corporation, desiring such permit shall file an affidavit with the division stating the following facts:

a. The name, place of business, and post-office address of the person desiring such permit.

b. The business in which said person is engaged and the articles manufactured in such business which require in their manufacture the use of alcoholic liquors.

If the administrator is satisfied that the facts stated in such affidavit are true and that the applicant is a person fit and proper to be entrusted with the permit applied for, the permit shall be issued.

Such special permit shall entitle the holder to import into the state, or purchase from licensed distillers within the state or from the division, alcoholic liquors for

use in manufacture in accordance with the terms of said permit, and to sell the product of such manufacture.

It shall be the duty of every manufacturer holding a special permit under the provisions of this subsection, whenever such manufacturer purchases alcoholic liquor from any source other than the division, to immediately file with the division a report of the receipt of such liquor in accordance with rules adopted by the administrator.

Every person holding a special liquor permit under this chapter shall fill out in duplicate, on forms furnished by the division, the amount and kinds of liquors purchased, and shall retain one copy in the person's establishment for a period of two years. The class "E" liquor control licensee from whom the purchase was made shall monthly forward the other copy to the division.

Nothing in this section shall prohibit the legitimate sale of patent and proprietary medicines, tinctures, food products, extracts, toilet articles and perfumes, and like commodities, none of which are susceptible of use as a beverage but which contain alcoholic liquor as one of their ingredients, through the ordinary retail or wholesale channels.

### **123.32 Action by authorities and department on applications for liquor control licenses and wine and beer permits.**

1. *Filing of application.* An application for a class "A", class "B", class "C", or class "E" liquor control license, for a retail beer permit as provided in sections 123.128 and 123.129, or for a class "B" retail wine permit as provided in section 123.176, accompanied by the necessary fee and bond, if required, shall be filed with the appropriate city council if the premises for which the license or permit is sought are located within the corporate limits of a city, or with the board of supervisors if the premises for which the license or permit is sought are located outside the corporate limits of a city. An application for a class "D" liquor control license and for a class "A" beer or class "A" wine permit, accompanied by the necessary fee and bond, if required, shall be filed with the division, which shall proceed in the same manner as in the case of an application approved by local authorities.

2. *Action by local authorities.* The local authority shall either approve or disapprove the issuance of a liquor control license, retail wine permit, or retail beer permit, shall endorse its approval or disapproval on the application and shall forward the application along with the necessary fee and bond, if required, to the division. Upon the initial application for a liquor control license, retail wine permit, or retail beer permit, the fact that the local authority determines that no liquor control license, retail wine permit, or retail beer permit shall be issued shall not be held to be arbitrary, capricious, or without reasonable cause. There is no limit upon the number of liquor control licenses, retail wine permits, or retail beer permits which may be approved for issuance by local authorities.

3. *Action by administrator.* Upon receipt of an application having been disapproved by the local authority, the administrator shall disapprove the application, so notify the applicant by certified mail, and return the fee and any bond to the applicant. Upon receipt of an application having been approved by the local authority, the division shall make such investigation as the administrator deems necessary and may require the applicant to appear to be examined under oath regarding any matters pertinent to the application, in which case a record

shall be made of all testimony or evidence and the same shall become a part of the application. The administrator may appoint a member of the division or may request the department of inspections and appeals to receive the testimony under oath and evidence. If the application is approved by the administrator, the license or permit applied for shall be issued. If the application is disapproved by the administrator, the applicant and the appropriate local authority shall be so notified by certified mail, and the fee and any bond returned to the applicant.

4. *Appeal to hearing board.* Any applicant for a liquor control license, wine permit, or beer permit may appeal from the administrator's disapproval of an application for a license or permit to the division hearing board, established pursuant to section 123.15. If upon appeal the hearing board determines that the local authority acted arbitrarily, capriciously, or without reasonable cause in disapproving the application, or that, where the local authority approved the application, the administrator's own disapproval should be reversed, it shall order issuance of a license or permit. The same right of appeal to the hearing board shall be afforded a liquor control licensee, wine permittee, or beer permittee, whose license or permit has been suspended or revoked under this chapter, and the hearing board shall reduce the period of suspension or order reinstatement of the license or permit for good cause shown.

5. *Judicial review.* Judicial review of the action of the division hearing board may be sought in accordance with the terms of the Iowa administrative procedure Act. Notwithstanding the terms of said Act, petitions for judicial review may be filed in the district court of the county wherein the premises covered by the application are situated.

Where the hearing board on an appeal by an applicant finds that the local authority acted arbitrarily, capriciously, or without reasonable cause in disapproving an application and the administrator issues a license or permit, the local authority may seek judicial review of such decision according to the terms of the Iowa administrative procedure Act within thirty days.

Subsection 3 amended

### **123.37 Exclusive power to license and levy taxes—disputed taxes.**

The power to establish licenses and permits and levy taxes as imposed in title VI of the Code is vested exclusively with the state. Unless specifically provided, a local authority shall not require the obtaining of a special license or permit for the sale of alcoholic beverages, wine, or beer at any establishment, or require the obtaining of a license by any person as a condition precedent to the person's employment in the sale, serving, or handling of alcoholic beverages, wine, or beer, within an establishment operating under a license or permit.

The administrator may compromise and settle doubtful and disputed claims for taxes imposed under this chapter or for taxes of doubtful collectibility, notwithstanding section 19.9. The administrator may enter into informal settlements pursuant to section 17A.10 to compromise and settle doubtful and disputed claims for taxes imposed under this chapter. The administrator may make a claim under a licensee's or permittee's penal bond for taxes of doubtful collectibility. Whenever a compromise or settlement is made, the administrator shall make a complete record of the case showing the tax assessed, reports and audits, if any, the licensee's or permittee's grounds for dispute or contest, together with all evidence of the dispute or contest, and the amounts, conditions, and settlement or compromise of the dispute or contest.

A licensee or permittee who disputes the amount of tax imposed must pay all tax and penalty pertaining to the disputed tax liability prior to appealing the disputed tax liability to the administrator.

The administrator shall adopt rules establishing procedures for payment of disputed taxes imposed under this chapter. If it is determined that the tax is not

due in whole or in part, the division shall promptly refund the part of the tax payment which is determined not to be due.

Any party aggrieved by a decision of the administrator under this section may appeal the decision to the division's hearing board.

b. The general assembly declares that this subsection shall be interpreted so that the holding of *Clark v. Mincks*, 364 N.W.2d. 226 (Iowa 1985) is abrogated in favor of prior judicial interpretation finding the consumption of alcoholic beverages, wine, or beer rather than the serving of alcoholic beverages, wine, or beer as the proximate cause of injury inflicted upon another by an intoxicated person.

3. "*Chief medical officer*" means the medical director in charge of a public or private hospital, or the director's physician-designee. This chapter does not negate the authority otherwise reposed by chapter 226 in the respective superintendents of the state mental health institutes to make decisions regarding the appropriateness of admissions or discharges of patients of those institutes, however, it is the intent of this chapter that a superintendent who is not a licensed physician shall be guided in these decisions by the chief medical officer of the institute.

a. If a person claims an Iowa homestead, then the person's residence shall be in the county where that homestead is claimed, irrespective of any other factors.

b. If paragraph "a" does not apply, and the person continuously has been provided or has maintained living quarters within any county of this state for a period of not less than one year, whether or not at the same location within that county, then the person's residence shall be in that county, irrespective of other factors. However, this paragraph shall not apply to unemancipated persons under eighteen years of age who are wards of this state.

c. If paragraphs "a" and "b" do not apply, or, if the person is under eighteen years of age, is unemancipated, and is a ward of this state, then the person shall be unclassified with respect to county of residence, and payment of all costs shall be made by the department as provided in this chapter.

Payments shall be made each month and shall be based upon the rate of payment for services negotiated between the department and the contracting facility. 2. The local board may act as a surrogate decision maker for patients incapable of making their own medical care decisions if no other surrogate decision maker is available to act. The local board may exercise decision-making authority in situations where there is sufficient time to review the patient's condition, and a reasonably prudent person would consider a decision to be medically necessary.

Such medically necessary decisions shall constitute good cause for subsequently filing a petition in the district court for appointment of a guardian pursuant to chapter 633, but the local board shall continue to act in the patient's best interests until a guardian is appointed.

3. The local board and its members shall not be held liable, jointly or severally, for any actions or omissions taken or made in the official discharge of their duties, except those acts or omissions constituting willful or wanton misconduct. A physician or other health care provider who acts on a decision or directive of the local board or state board shall not be held liable for any damages resulting from that act, unless such physician's or other health care provider's actions or omissions constitute negligence in the practice of the profession or occupation, or willful or wanton misconduct.

**HEALTH CARE FACILITIES**

**135C.2 Purpose—rules—special classifications—protection and advocacy agency.**

1. The purpose of this chapter is to promote and encourage adequate and safe care and housing for individuals who are aged or who, regardless of age, are infirm, convalescent, or mentally or physically dependent, by both public and private agencies by providing for the adoption and enforcement of rules and standards:

a. For the housing, care and treatment of individuals in health care facilities, and

b. For the location, construction, maintenance, renovation, and sanitary operation of such health care facilities which will promote safe and adequate care of individuals in such homes so as to further the health, welfare and safety of such individuals.

2. Rules and standards prescribed, promulgated and enforced under this chapter shall not be arbitrary, unreasonable or confiscatory and the department or agency prescribing, promulgating or enforcing such rules or standards shall have the burden of proof to establish that such rules or standards meet such requirements and are consistent with the economic problems and conditions involved in the care and housing of persons in health care facilities.

3. The department shall establish by administrative rule, within the intermediate care facility category, a special classification for facilities intended to serve mentally retarded individuals, and within the residential care facility category, a special classification for residential facilities intended to serve mentally ill individuals. The department may also establish by administrative rule other classifications within that category, or special classifications within the residential care facility or skilled nursing facility categories, for facilities intended to serve individuals who have special health care problems or conditions in common. Rules establishing a special classification shall define the problem or condition to which the classification is relevant and establish requirements for an approved program of care commensurate with the problem or condition, and may grant special variances or considerations to facilities licensed within the classification so established.

The rules adopted for intermediate care facilities for the mentally retarded shall be consistent with, but no more restrictive than, the federal standards for intermediate care facilities for the mentally retarded established pursuant to the federal Social Security Act, §1905(c)(d), as codified in 42 U.S.C. §1396d, in effect on January 1, 1989. However, in order to be licensed the state fire marshal must certify to the department an intermediate care facility for the mentally retarded as meeting the applicable provisions of either the health care occupancies chapter or the residential board and care chapter of the life safety code of the national fire protection association, 1985 edition. The department shall adopt additional rules for intermediate care facilities for the mentally retarded pursuant to section 135C.14, subsection 8.

Notwithstanding the limitations set out in this subsection regarding rules for intermediate care facilities for the mentally retarded, the department shall consider the federal interpretive guidelines issued by the federal health care financing administration when interpreting the department's rules for intermediate care facilities for the mentally retarded. This use of the guidelines is not subject to the rulemaking provisions of sections 17A.4 and 17A.5, but the guidelines shall be published in the Iowa administrative bulletin and the Iowa administrative code.

4. The protection and advocacy agency designated in the state, under Pub. L. No. 98-527, the Developmental Disabilities Act of 1984, Pub. L. No. 99-319, the Protection and Advocacy for Mentally Ill Individuals Act of 1986, and Pub. L. No. 100-146, the federal Developmental Disabilities Assistance and Bill of Rights Act Amendments of 1987, is recognized as an agency legally authorized and constituted to ensure the implementation of the purposes of this chapter for populations under its authority and in the manner designated by Pub. L. No. 98-527, Pub. L. No. 99-319, and Pub. L. No. 100-146 and in the assurances of the governor of the state.

5. The department shall establish a special classification within the residential care facility category in order to foster the development of residential care

facilities which serve persons with mental retardation, chronic mental illness, or a developmental disability, as defined under section 225C.26, and which contain five or fewer residents. A facility within the special classification established pursuant to this subsection is exempt from the requirements of section 135.63. The department shall adopt rules which are consistent with rules previously developed for the waiver demonstration project pursuant to 1986 Iowa Acts, chapter 1246, section 206, and which include all of the following provisions:

a. A facility provider under the special classification must comply with rules adopted by the department for the special classification. However, a facility provider which has been accredited by the accreditation council for services to persons with mental retardation and other developmental disabilities shall be deemed to be in compliance with the rules adopted by the department.

b. A facility must be located in an area zoned for single or multiple-family housing and must be constructed in compliance with applicable local housing codes and the rules adopted for the special classification by the state fire marshal in accordance with the concept of the least restrictive environment for the facility residents and the applicable sections of chapter twenty-one of the national fire protection association life safety code of 1988.

c. Facility provider plans for the facility's accessibility to residents must be in place.

d. A written plan must be in place which documents that a facility meets the needs of the facility's residents pursuant to individual program plans developed according to age appropriate and least restrictive program requirements.

e. A written plan must be in place which documents that a facility's residents have reasonable access to employment or employment-related training, education, generic community resources, and integrated opportunities to promote interaction with the community.

f. A committee of not more than nine members must be established to provide monitoring of the special classification and the rules and procedures adopted regarding the special classification. The recommendations of the committee are subject to the approval of the director. The committee shall include but is not limited to representatives designated by each of the following:

- (1) The association for retarded citizens of Iowa.
- (2) The Iowa association of rehabilitation and residential facilities.
- (3) The governor's planning council for developmental disabilities.
- (4) The mental health and mental retardation commission.
- (5) The alliance for the mentally ill of Iowa.
- (6) The Iowa state association of counties.
- (7) The state fire marshal.

g. The facilities licensed under this subsection shall be eligible for funding utilized by other licensed residential care facilities for the mentally retarded, or licensed residential care facilities for the mentally ill, including but not limited to funding under or from the federal social services block grant, the state supplementary assistance program, state mental health and mental retardation services funds, and county funding provisions.

### 135C.14 Rules.

The department shall, in accordance with chapter 17A, adopt and enforce rules setting minimum standards for health care facilities. In so doing, the department may adopt by reference, with or without amendment, nationally recognized standards and rules, which shall be specified by title and edition, date of publication, or similar information. The rules and standards required by this section shall be formulated in consultation with the director of human services or

the director's designee and with industry, professional and consumer groups affected thereby, and shall be designed to further the accomplishment of the purposes of this chapter and shall relate to:

1. Location and construction of the facility, including plumbing, heating, lighting, ventilation, and other housing conditions, which shall ensure the health, safety and comfort of residents and protection from fire hazards. The rules of the department relating to protection from fire hazards and fire safety shall be promulgated by the state fire marshal, and shall be in keeping with the latest generally recognized safety criteria for the facilities covered of which the applicable criteria recommended and published from time to time by the national fire protection association are prima-facie evidence.

2. Number and qualifications of all personnel, including management and nursing personnel, having responsibility for any part of the care provided to residents.

3. All sanitary conditions within the facility and its surroundings including water supply, sewage disposal, food handling, and general hygiene, which shall ensure the health and comfort of residents.

4. Diet related to the needs of each resident and based on good nutritional practice and on recommendations which may be made by the physician attending the resident.

5. Equipment essential to the health and welfare of the resident.

6. Requirements that a minimum number of registered or licensed practical nurses and nurses' aides, relative to the number of residents admitted, be employed by each licensed facility. Staff-to-resident ratios established under this subsection need not be the same for facilities holding different types of licenses, nor for facilities holding the same type of license if there are significant differences in the needs of residents which the respective facilities are serving or intend to serve.

7. Social services and rehabilitative services provided for the residents.

8. Facility policies and procedures regarding the treatment, care, and rights of residents. The rules shall apply the federal resident's rights contained in the federal Omnibus Budget Reconciliation Act of 1987, Pub. L. No. 100-203, and the regulations adopted pursuant to the Act and contained in 42 C.F.R. §483.10, 483.12, 483.13, and 483.15, as amended to February 2, 1989, to all health care facilities as defined in this chapter and shall include procedures for implementing and enforcing the federal rules. The department shall also adopt rules relating to the following:

a. The transfer of residents to other rooms within a facility.

b. The involuntary discharge or transfer of residents from a facility including provisions for notice and agency hearings and for the development of a patient discharge or transfer plan and for providing counseling services to a patient being discharged or transferred.

### **135C.37 Complaints alleging violations—confidentiality—reports.**

A person may request an inspection of a health care facility by filing with the department, care review committee of the facility, or the long-term care resident's

advocate as defined in section 249D.4, subsection 15, a complaint of an alleged violation of applicable requirements of this chapter or the rules adopted pursuant to this chapter. A person alleging abuse or neglect of a resident with a developmental disability or with mental illness may also file a complaint with the protection and advocacy agency designated pursuant to section 135B.9 or section 135C.2. A copy of a complaint filed with the care review committee or the long-term care resident's advocate shall be forwarded to the department. The complaint shall state in a reasonably specific manner the basis of the complaint, and a statement of the nature of the complaint shall be delivered to the facility involved at the time of the inspection. The name of the person who files a complaint with the department, care review committee, or the long-term care resident's advocate shall be kept confidential and shall not be subject to discovery, subpoena, or other means of legal compulsion for its release to a person other than department employees involved in the investigation of the complaint.

Upon the request of a person filing a complaint under this section, the department shall mail to the person without charge, a copy of the report of the investigation performed in response to the complaint and a copy of the most recent final findings with respect to compliance with licensing requirements on the part of the facility against which the complaint was filed.

### **135C.38 Inspections upon complaints.**

1. Upon receipt of a complaint made in accordance with section 135C.37, the department or care review committee shall make a preliminary review of the complaint. Unless the department or committee concludes that the complaint is intended to harass a facility or a licensee or is without reasonable basis, it shall within twenty working days of receipt of the complaint make or cause to be made an on-site inspection of the health care facility which is the subject of the complaint. The complaint investigation shall include, at a minimum, an interview with the complainant and the victim of the alleged violation, if the victim is able to communicate, if the complainant or victim is identifiable, and if the complainant or victim is available. Additionally, witnesses who have knowledge of facts related to the complaint shall be interviewed, if identifiable and available. The names of witnesses may be obtained from the complainant or the victim. The files may be reviewed to ascertain the names of staff persons on duty at the time relevant to the complaint. The department shall apply a preponderance of the evidence standard in determining whether or not a complaint is substantiated. For the purposes of this subsection, "*a preponderance of the evidence standard*" means that the evidence, considered and compared with the evidence opposed to it, produces the belief in a reasonable mind that the allegations are more likely true than not true. "*A preponderance of the evidence standard*" does not require that the investigator personally witnessed the alleged violation. The department may refer to the care review committee of a facility any complaint received by the department regarding that facility, for initial evaluation and appropriate action by the committee. In any case, the complainant shall be promptly informed of the result of any action taken by the department or committee in the matter. The complainant shall also be notified of the name, address, and telephone number of the designated protection and advocacy agency if the alleged violation involves a facility with one or more residents with developmental disabilities or mental illness. Upon conclusion of the investigation, the department shall notify the complainant of the results. The notification shall include a statement of the factual findings as determined by the investigator, the statutory or regulatory provisions alleged to have been violated, and a summary of the reasons for which the complaint was or was not substantiated. A person who is dissatisfied with any

aspect of the department's handling of the complaint may contact the long-term care resident's advocate, established pursuant to section 249D.42, or may contact the protection and advocacy agency designated pursuant to section 135C.2 if the complaint relates to a resident with a developmental disability or a mental illness.

2. An inspection made pursuant to a complaint filed under section 135C.37 need not be limited to the matter or matters complained of; however, the inspection shall not be a general inspection unless the complaint inspection coincides with a scheduled general inspection. Upon arrival at the facility to be inspected, the inspector shall show identification to the person in charge of the facility and state that an inspection is to be made, before beginning the inspection. Upon request of either the complainant or the department or committee, the complainant or the complainant's representative or both may be allowed the privilege of accompanying the inspector during any on-site inspection made pursuant to this section. The inspector may cancel the privilege at any time if the inspector determines that the privacy of any resident of the facility to be inspected would otherwise be violated. The dignity of the resident shall be given first priority by the inspector and others.

3. If upon an inspection of a facility by its care review committee, pursuant to this section, the committee advises the department of any circumstance believed to constitute a violation of this chapter or of any rule adopted pursuant to it, the committee shall similarly advise the facility at the same time. If the facility's licensee or administrator disagrees with the conclusion of the committee regarding the supposed violation, an informal conference may be requested and if requested shall be arranged by the department as provided in section 135C.42 before a citation is issued. If the department thereafter issues a citation pursuant to the committee's finding, the facility shall not be entitled to a second informal conference on the same violation and the citation shall be considered affirmed. The facility cited may proceed under section 135C.43 if it so desires.

Subsection 1 amended

### **135C.39 No advance notice of inspection—exception—civil penalty.**

No advance notice of an on-site inspection made pursuant to section 135C.38 shall be given the health care facility or the licensee thereof unless previously and specifically authorized in writing by the director or required by federal law. The person in charge of the facility shall be informed of the substance of the complaint at the commencement of the on-site inspection.

A person who notifies, or causes to be notified, a health care facility, of the time and date on which a survey or on-site inspection is scheduled, is subject to a civil penalty of not less than one thousand dollars nor more than two thousand dollars.

### **MOBILE HOMES AND PARKS**

#### **135D.22 Annual tax—credit.**

The owner of each mobile home shall pay to the county treasurer an annual tax. However, when the owner is any educational institution and the mobile home is

used solely for student housing or when the owner is the state of Iowa or a subdivision thereof, the owner shall be exempt from the tax. The annual tax shall be computed as follows:

1. Multiply the number of square feet of floor space each mobile home contains when parked and in use by twenty cents. In computing floor space, the exterior measurements of the mobile home shall be used as shown on the certificate of registration and title, but not including any area occupied by a hitching device.

2. If the owner of the mobile home is an Iowa resident, was totally disabled, as defined in section 425.17, subsection 6 on or before December 31 of the base year, is a surviving spouse having attained the age of fifty-five years on or before December 31, 1988 or has attained the age of sixty-five years on or before December 31 of the base year and has an income when included with that of a spouse which is less than five thousand dollars per year, no annual tax shall be imposed on the mobile home. If the income is five thousand dollars or more but less than twelve thousand dollars, the annual tax shall be computed as follows:

If the Household Income is:	Annual Tax Per Square Foot:
\$ 5,000— 5,999.99	3.0 cents
6,000— 6,999.99	6.0
7,000— 7,999.99	9.0
8,000— 9,999.99	12.0
10,000—11,999.99	15.0

For purposes of this subsection “*income*” means income as defined in section 425.17, subsection 1, and “*base year*” means the calendar year preceding the year in which the claim for a reduced rate of tax is filed. The mobile home reduced rate of tax shall only be allowed on the mobile home in which the claimant is residing at the time in which the claim for a reduced rate of tax is filed.

3. The amount thus computed shall be the annual tax for all mobile homes, except as follows:

a. For the sixth through ninth years after the year of manufacture the annual tax is ninety percent of the tax computed according to subsection 1 or 2 of this section, whichever is applicable.

b. For all mobile homes ten or more years after the year of manufacture the annual tax is eighty percent of the tax computed according to subsection 1 or 2 of this section, whichever is applicable.

4. The tax shall be figured to the nearest even whole dollar.

5. A claim for credit for mobile home tax due shall not be paid or allowed unless the claim is actually filed with the county treasurer between January 1 and June 1, both dates inclusive, immediately preceding the fiscal year during which the mobile home taxes are due and, with the exception of a claim filed on behalf of a deceased claimant by the claimant’s legal guardian, spouse, or attorney, or by the executor or administrator of the claimant’s estate, contains an affidavit of the claimant’s intent to occupy the mobile home for six months or more during the fiscal year beginning in the calendar year in which the claim is filed. The county treasurer shall submit the claim to the director of revenue and finance on or before August 1 each year.

The forms for filing the claim shall be provided by the department of revenue and finance. The forms shall require information as determined by the department.

In case of sickness, absence, or other disability of the claimant or if, in the judgment of the director of revenue and finance, good cause exists and the claimant requests an extension, the director may extend the time for filing a claim for credit or reimbursement. However, any further time granted shall not extend

beyond December 31 of the year in which the claim was required to be filed. Claims filed as a result of this paragraph shall be filed with the director who shall provide for the reimbursement of the claim to the claimant.

The director of revenue and finance shall certify the amount due to each county, which amount shall be the dollar amount which will not be collected due to the granting of the reduced tax rate under subsection 2.

The amounts due each county shall be paid by the department of revenue and finance on December 15 of each year, drawn upon warrants payable to the respective county treasurers. The county treasurer in each county shall apportion the payment in accordance with section 135D.25.

There is appropriated annually from the general fund of the state to the department of revenue and finance an amount sufficient to carry out this subsection.

### **135D.26 Conversion to real property.**

No mobile home shall be assessed for property tax nor be eligible for homestead tax credit or military service tax credit unless:

1. The mobile home owner intends to convert the mobile home to real estate and does so by:

- a. Attaching the mobile home to a permanent foundation.
- b. Modification of the vehicular frame for placement on a permanent foundation.
- c. If a security interest is noted on the certificate of title, tendering to the secured party a mortgage on the real estate upon which the mobile home is to be located in the unpaid amount of the secured debt, and with the same priority as or a higher priority than the secured party's security interest, or obtaining written consent of the secured party to the conversion.

2. After complying with subsection 1, the owner shall notify the assessor who shall inspect the new premises for compliance. If a security interest is noted on the certificate of title, the assessor shall require an affidavit, as defined in section 622.85, from the mobile home owner, declaring that the owner has complied with subsection 1, paragraph "c", and setting forth the method of compliance.

a. If compliance with subsection 1, paragraph "c", has been accomplished by the secured party accepting the tender of a mortgage, the assessor shall collect the mobile home vehicle title and enter the property upon the tax rolls.

b. If compliance with subsection 1, paragraph "c", has been accomplished by the secured party consenting to the conversion without accepting a mortgage, the secured party shall retain the mobile home vehicle title and the assessor shall note the conversion on the assessor's records and enter the property upon the tax rolls.

Subsection 2 amended

### **135D.27 Conversion to mobile home.**

1. A mobile home converted to real estate under section 135D.26 may be reconverted to a mobile home as provided in this section.

2. If the vehicular frame of the former mobile home can be modified to return it to the status of a mobile home, the owner or a secured party holding a mortgage or certificate of title pursuant to section 135D.26 who has obtained possession of the mobile home may apply to the county treasurer as provided in section 321.20 for a certificate of title for the mobile home. If a mortgage exists on the real estate, a security interest in the mobile home shall be given to a secured party not applying for reconversion and noted on the certificate of title with the same priority or a higher priority than the secured party's mortgage interest. A

reconversion shall not occur without the written consent of every secured party holding a mortgage or certificate of title.

If the secured party has elected to retain the mobile home vehicle title pursuant to section 135D.26, subsection 2, paragraph "b", an owner applying for reconversion shall present to the county treasurer written consent to the reconversion from all secured parties and an affirmation from the secured party holding the title that the title is in its possession and is intact. Upon receipt of the affirmation, the county treasurer shall notify the assessor of the reconversion, which notification constitutes compliance by the owner with subsection 3.

3. After complying with subsection 2 and receipt of the title, the owner shall notify the assessor of the reconversion. The assessor shall remove the assessed valuation of the mobile home from assessment rolls as of the succeeding January 1 when the mobile home becomes subject to taxation as provided under section 135D.24.

### 135H.6 Inspection before issuance.

The department shall issue a license to an applicant under this chapter if all the following conditions exist:

1. The department has ascertained that the applicant's medical facilities and staff are adequate to provide the care and services required of a psychiatric institution.

2. The proposed psychiatric institution is accredited to provide psychiatric services by the joint commission on the accreditation of health care organizations under the commission's consolidated standards for residential settings.

2. A person who has been convicted of a criminal act involving a child under a law of any state or who has a record of founded child abuse shall not be licensed, be employed by a licensee, or reside in a licensed home unless the department of human services determines that the crime or founded abuse does not merit prohibition of licensure or employment. In its determination, the department of human services shall consider the nature and seriousness of the crime or founded abuse in relation to the position sought, the time elapsed since the commission of the crime or founded abuse, the circumstances under which the crime or founded

abuse was committed, the degree of rehabilitation, and the number of crimes or founded abuses committed by the person involved.

The department of inspections and appeals and the department of human services shall coordinate the adoption of rules and the enforcement of the rules in order to prevent duplication of effort by the departments and of requirements of the licensee.

2. This chapter shall not be construed as prohibiting the use of funds appropriated for foster care to provide payment to a psychiatric medical institution for children for the financial participation required of a child whose foster care placement is in a psychiatric medical institution for children. In accordance with established policies and procedures for foster care, the department of human services shall act to recover any such payment for financial participation, apply to be named payee for the child's unearned income, and recommend parental liability for the costs of a court-ordered foster care placement in a psychiatric medical institution.

Unless the department concludes that the complaint is intended to harass a psychiatric institution or a licensee or is without reasonable basis, it shall within twenty working days of receipt of the complaint make or cause to be made an on-site inspection of the psychiatric institution which is the subject of the complaint. The department of inspections and appeals may refer to the department of human services any complaint received by the department if the complaint applies to rules adopted by the department of human services. The complainant shall also be notified of the name, address, and telephone number of the designated protection and advocacy agency if the alleged violation involves a facility with one or more residents with developmental disabilities or mental illness. In any case, the complainant shall be promptly informed of the result of any action taken by the department in the matter.

2. An inspection made pursuant to a complaint filed under section 135H.11 need not be limited to the matter or matters referred to in the complaint; however, the inspection shall not be a general inspection unless the complaint inspection coincides with a scheduled general inspection. Upon arrival at the psychiatric institution to be inspected, the inspector shall show identification to the person in charge of the psychiatric institution and state that an inspection is to be made, before beginning the inspection. Upon request of either the complainant or the department, the complainant or the complainant's representative or both may be allowed the privilege of accompanying the inspector during any on-site inspection made pursuant to this section. The inspector may cancel the privilege at any time if the inspector determines that the privacy of a resident of the psychiatric institution to be inspected would be violated. ## CHAPTER 141

### ACQUIRED IMMUNE DEFICIENCY SYNDROME

#### SUBCHAPTER I

##### PREVENTION AND INTERVENTION PLAN

#### **141.6 Partner notification program—human immunodeficiency virus (HIV)—crime.**

1. The Iowa department of public health shall implement, as a part of the comprehensive AIDS prevention and intervention plan, a partner notification program for persons known to have tested positive for the human immunodeficiency virus infection, beginning September 1, 1988.

2. The Iowa department of public health shall initiate the program at alternative testing and counseling sites and at sexually transmitted disease clinics.

3. In administering the program, the Iowa department of public health shall provide for the following:

*a.* A person who tests positive for the human immunodeficiency virus infection shall receive posttest counseling, during which time the person shall be encouraged on a strictly confidential basis to refer for counseling and human immunodeficiency virus testing any person with whom the person has had sexual relations or has shared intravenous equipment.

*b.* If, following counseling, a person who tests positive for the human immunodeficiency virus infection chooses to disclose the identity of any sexual partners or persons with whom the person has shared intravenous equipment, the physician or health practitioner attending the person shall obtain written consent which acknowledges that the person is making the disclosure voluntarily.

*c.* The physician or health practitioner attending the person shall forward any written consent forms to the Iowa department of public health.

*d.* Devise a procedure, as a part of the partner notification program, to provide for the notification of an identifiable third party who is a sexual partner of or who shares intravenous equipment with a person who has tested positive for the human immunodeficiency virus, by the department or a physician, when all of the following situations exist:

(1) A physician for the infected person is of the good faith opinion that the nature of the continuing contact poses an imminent danger of human immunodeficiency virus infection transmission to the third party.

(2) When the physician believes in good faith that the infected person, despite strong encouragement, has not and will not warn the third party and will not participate in the voluntary partner notification program.

Notwithstanding subsection 4, the department or a physician may reveal the identity of a person who has tested positive for the human immunodeficiency virus infection pursuant to this subsection only to the extent necessary to protect a third party from the direct threat of transmission. Notification of a person pursuant to this paragraph is subject to the disclosure provisions of section 141.23, subsection 3. This subsection shall not be interpreted to create a duty to warn third parties of the danger of exposure to human immunodeficiency virus through contact with a person who tests positive for the human immunodeficiency virus infection.

Prior to notification of a third party, the physician proposing to cause the notification to be made shall make reasonable efforts to inform, in writing, the person who has tested positive for the human immunodeficiency virus infection. The written information shall state that due to the nature of the person's continuing contact with a third party, the physician is forced to take action to provide notification to the third party. The physician, when reasonably possible, shall provide the following information to the person who has tested positive for the human immunodeficiency virus infection:

- (a) The nature of the disclosure and the reason for the disclosure.
- (b) The anticipated date of disclosure.
- (c) The name of the party or parties to whom disclosure is to be made.

The department shall adopt rules pursuant to chapter 17A to implement this paragraph. The rules shall provide a detailed procedure by which the department or a physician may directly notify an endangered third party.

4. In making contact the Iowa department of public health shall not disclose the identity of the person who provided the names of the persons to be contacted and shall protect the confidentiality of persons contacted.

5. The Iowa department of public health may delegate its partner notification duties under this section to local health authorities unless the local authority refuses or neglects to conduct the contact tracing program in a manner deemed to be effective by the Iowa department of public health.

6. A person who violates a confidentiality requirement of subsection 1, 2, 3, 4, or 5 is guilty of a class "D" felony.

89 Acts, ch 223, §1 HF 641  
Subsection 3, NEW paragraph d

#### **141.10 Confidential reports and immunities.**

1. Reports, information, and records submitted and maintained pursuant to this subchapter are strictly confidential medical information. The information shall not be released, shared with an agency or institution, or made public upon subpoena, search warrant, discovery proceedings, or by any other means except under any of the following circumstances:

- a. Release may be made of medical or epidemiological information for statistical purposes in a manner such that no individual person can be identified.
- b. Release may be made of medical or epidemiological information to the extent necessary to enforce the provisions of this subchapter and related rules concerning the treatment, control, and investigation of human immunodeficiency virus infection by public health officials.
- c. Release may be made of medical or epidemiological information to medical personnel in a medical emergency to the extent necessary to protect the health or life of the named party.

d. Release may be made of test results concerning a patient pursuant to procedures established under section 141.6, subsection 3, paragraph "d".

2. An officer or employee of the state or local department of health or a person making a report pursuant to this subchapter shall not be examined in any judicial, executive, legislative, or other proceeding as to the existence or content of an individual report made pursuant to this subchapter.

3. Reports, information, and records which contain the identity of persons except reports, information, and records necessary to honor the requests made pursuant to section 141.8 shall be destroyed immediately after the extraction of statistical data and completion of contact identification or in no event longer than six months from the date the report, information, or record was received.

4. A person making a report in good faith pursuant to this subchapter is immune from any liability, civil or criminal, which might otherwise be incurred or imposed as a result of the report.

5. For purposes of this section, "good faith" means objectively reasonable, and not in violation of clearly established statutory rights or other rights of a person which a reasonable person would know or should have known.

6. A physician or health care practitioner attending a person who tests positive for the human immunodeficiency virus infection has no duty to disclose to or warn third parties of the dangers of exposure to human immunodeficiency virus infection through contact with that person and is immune from any liability, civil or criminal, for failure to disclose to or warn third parties of the condition of that person.

#### SUBCHAPTER II

#### TESTING

#### 141.22 Testing—application for services—pamphlets.

1. Prior to withdrawing blood for the purpose of performing an HIV-related test, the subject of the test or the subject's legal guardian, except when the provisions of subsection 6 apply, shall be provided with preliminary counseling which shall include but is not limited to the following:

a. An explanation of the test, including the test's purposes, potential uses, limitations, and the meaning of both positive and negative results.

b. An explanation of the nature of AIDS and ARC, including the relationship between the test results and the diseases.

c. An explanation of the procedures to be followed, including the fact that the test is entirely voluntary and can be performed anonymously if requested.

d. Information concerning behavioral patterns known to expose a person to the possibility of contracting AIDS and methods for minimizing the risk of exposure.

2. A person seeking an HIV-related test shall have the right to remain anonymous. A health care provider shall provide for the anonymous administration of the test at the subject's request or shall confidentially refer the subject to a site which provides anonymous testing.

3. At any time that a subject is informed of test results, counseling concerning the emotional and physical health effects shall be initiated. Particular attention shall be given to explaining the need for the precautions necessary to avoid transmitting the virus. The subject shall be given information concerning additional counseling. Any additional testing that is advisable shall be explained to the subject and arrangements for the testing shall be made.

4. Prior to withdrawing blood for the purpose of performing an HIV-related test, the subject shall be given written notice of the provisions of this section and of section 141.6, subsection 3, paragraph "d".

5. Notwithstanding subsections 1 through 4, the provisions of this section do not apply to any of the following:

a. The performance by a health care provider or health facility of an HIV-related test when the health care provider or health facility procures, processes, distributes, or uses a human body part donated for a purpose specified under the Uniform Anatomical Gift Act, or semen provided prior to July 1, 1988, for the purpose of artificial insemination, or donations of blood, and such test is necessary to assure medical acceptability of such gift or semen for the purposes intended.

b. The performance of an HIV-related test by licensed medical personnel in medical emergencies when the subject of the test is unable to grant or withhold consent, and the test results are necessary for medical diagnostic purposes to provide appropriate emergency care or treatment, except that posttest counseling shall be required.

c. A person engaged in the business of insurance who is subject to section 505.16.

6. A person may apply for voluntary treatment, contraceptive services, or screening or treatment for AIDS and other sexually transmitted diseases, directly to a licensed physician and surgeon, an osteopathic physician and surgeon, or a family planning clinic. Notwithstanding any other provision of law, if the person seeking the treatment is a minor who has personally made application for services, screening, or treatment, the fact that the minor sought services or is receiving services, screening, or treatment shall not be reported or disclosed, except for statistical purposes. Notwithstanding any other provision of law, however, the minor shall be informed prior to testing that upon confirmation according to prevailing medical technology of a positive HIV-related test result the minor's legal guardian is required to be informed by the testing facility. Testing facilities where minors are tested shall have available a program to assist minors and legal guardians with the notification process which emphasizes the need for family support and assists in making available the resources necessary to accomplish that goal. However, a testing facility which is precluded by federal statute, regulation, or center for disease control guidelines, from informing the legal guardian is exempt from the notification requirement, but not from the requirement for an assistance program. An infected herd which is not subject to a cleanup plan or a feeder pig cooperator herd cleanup plan is a quarantined herd.

When the department determines that a majority of herds within a program area have been tested and the majority of herds reveal a noninfection rate of ninety percent or greater, the following shall apply:

1. A vaccine other than a differentiable vaccine shall not be used.
2. A concentration point within the program area may market all classes of swine. Swine taken to a concentration point must be held there until transfer. However, untested, known infected, or exposed swine shall be transferred from the concentration point within three days only to persons moving the swine outside the program area.

The cost, or any segment of the cost, of the program, testing, and vaccination may be paid for by federal or state funds or a combination of both. Federal or state funds shall not be paid to the owner of a vaccinated herd in a program area other than the owner of a herd using a differentiable vaccine. If federal or state funds

are not available, producers may continue the program at their own expense under departmental supervision.

An additional program area shall not be established if funds sufficient for administration of the program within the area are not available. Program funds shall not be spent outside a program area, unless recommended by the advisory committee and approved by the department. Until the proceeds of bonds issued for the purpose of refunding outstanding bonds or notes are applied to the purchase or retirement of outstanding bonds or notes or the redemption of outstanding bonds or notes, the proceeds may be placed in escrow and be invested and reinvested in accordance with the provisions of this chapter. The interest, income and profits earned or realized on an investment may also be applied to the payment of the outstanding bonds or notes to be refunded by purchase, retirement or redemption. ### **203B.6 Embargo.**

1. If a duly authorized agent of the board finds, or has probable cause to believe, that a drug, device, or cosmetic is adulterated or so misbranded as to be dangerous or fraudulent, within the meaning of this chapter, or is in violation of section 203B.12, the agent shall affix to the article a tag or other appropriate marking, giving notice that the article is, or is suspected of being, adulterated or misbranded and has been detained or embargoed, and warning all persons not to remove or dispose of the article by sale or otherwise until permission for removal or disposal is given by an authorized agent or the court. 3. If the court finds that a sampled, detained, or embargoed article is adulterated or misbranded, the article shall be destroyed at the expense of the claimant of the article, under the supervision of the agent, and all court costs and fees, and storage and other proper expenses, shall be taxed against the claimant of the article or the claimant's agent; but if the adulteration or misbranding can be corrected by proper labeling or processing of the article, the court, after entry of the decree and after costs, fees, storage, and other expenses have been paid and a good and sufficient bond, conditioned that the article shall be so labeled or processed, has been executed, may by order direct that the article be delivered to the claimant for such labeling or processing under the supervision of a duly authorized agent of the board. The expense of supervision shall be paid by the claimant. The article shall be returned to the claimant and the bond shall be discharged on the representation to the court by the board that the article is no longer in violation of this chapter, and that the expenses of supervision have been paid.

### **203B.9 Drugs and devices—adulteration.**

A drug or device is adulterated under any of the following circumstances:

1. *a.* If it consists in whole or in part of any filthy, putrid, or decomposed substance.

*b.* If it has been produced, prepared, packed, or held under insanitary conditions whereby it may have been contaminated with filth, or whereby it may have been rendered injurious to health.

*c.* If it is a drug and the methods used in, or the facilities or controls used for its manufacture, processing, packing, or holding do not conform to or are not operated or administered in conformity with current good manufacturing practice to assure that the drug meets the requirements of this chapter as to safety and has the identity and strength, and meets the quality and purity characteristics, which it purports or is represented to possess.

*d.* If its container is composed, in whole or part, of any poisonous or deleterious substance which may render the contents injurious to health.

2. If it purports to be or is represented as a drug, the name of which is recognized in an official compendium, and its strength differs from, or its quality or purity falls below, the standards set forth in the official compendium. A determination as to strength, quality, or purity shall be made in accordance with the tests or methods of assay set forth in the official compendium, or in the absence of or inadequacy of such tests or methods of assay, those prescribed under authority of the federal Act. A drug defined in an official compendium is not adulterated under this subsection because it differs from the standard of strength, quality, or purity set forth in the official compendium, if its difference in strength, quality, or purity from such standards is plainly stated on its label. If a drug is recognized in both the United States Pharmacopoeia National Formulary and the Homeopathic Pharmacopoeia of the United States it is subject to the United States Pharmacopoeia National Formulary unless it is labeled and offered for sale as a homeopathic drug, in which case it is subject to the Homeopathic Pharmacopoeia of the United States and not to the United States Pharmacopoeia National Formulary.

3. If it is not subject to subsection 2 and its strength differs from, or its purity or quality falls below, that which it purports or is represented to possess.

4. If it is a drug and any substance has been mixed or packed with it so as to reduce its quality or strength, or any substance has been substituted for it wholly or in part.

5. If it is, or purports to be or is represented as, a device which is subject to a performance standard established under section 514 of the federal Act, unless the device is in all respects in conformity with such standard.

6. If it is a device banned by the board or by the United States food and drug administration.

7. If it is a device and the methods used in, or the facilities or controls used for its manufacture, packing, storage, or installation are not in conformity with

applicable requirements under section 520(f)(1) of the federal Act or an applicable condition as prescribed by an order under section 520(f)(2) of the federal Act.

8. If it is a device for which an exemption has been granted under section 520(g) of the federal Act for investigational use and the person who was granted the exemption or any investigator who uses the device under the exemption fails to comply with a requirement prescribed by or under that section.

89 Acts, ch 197, §9 HF 343  
NEW section

### **203B.10 Drugs and devices—misbranding—labeling.**

A drug or device is misbranded under any of the following circumstances:

1. If its labeling is false or misleading in any particular.
2. If in a package form unless it bears a label containing both of the following:
  - a. The name and place of business of the manufacturer, packer, or distributor.
  - b. An accurate statement of the quantity of the contents in terms of weight, measure, or numerical count.

However, under paragraph "a" reasonable variations shall be permitted, and exemptions as to small packages shall be allowed, in accordance with rules adopted by the board.

3. If any word, statement, or other information required by or under the authority of this chapter to appear on the label or labeling is not prominently placed thereon with such conspicuousness, as compared with other words, statements, designs, or devices, in the labeling, and in such terms as to render it likely to be read and understood by the ordinary individual under customary conditions of purchase and use.

4. If it is for use by humans and contains any quantity of the narcotic or hypnotic substance alpha-eucaine, barbituric acid, beta-eucaine, bromal, cannabis, carbromal, chloral, coca, cocaine, codeine, heroin, marijuana, morphine, opium, paraldehyde, peyote, or sulphonmethane; or any chemical derivative of such a substance, which derivative, after investigation, has been designated as habit forming, by rules adopted by the board under this chapter or by regulations adopted by the secretary pursuant to section 502(d) of the federal Act; unless its label bears the name and quantity or proportion of such substance or derivative and in juxtaposition therewith the statement "Warning—May Be Habit Forming."

5. a. If it is a drug, unless both of the following apply:

(1) Its label bears, to the exclusion of any other nonproprietary name except the applicable systematic chemical name or the chemical formula:

(a) The established name of the drug, as specified in paragraph "c", if such exists; and

(b) If the drug is fabricated from two or more ingredients, the established name and quantity of each active ingredient, including the quantity, kind, and proportion of any alcohol, and also including, whether active or not, the established name and quantity or proportion of any bromides, ether, chloroform, acetanilide, acetophenetidin, amidopyrine, antipyrine, atropine, hyoscine, hyoscyamine, arsenic, digitalis, digitalis glucosides, mercury, ouabain, strophanthin, strychnine, thyroid, or any derivative or preparation of any such substances, contained therein. However, the requirement for stating the quantity of the active ingredients, other than the quantity of those specifically named in this subparagraph subdivision, applies only to prescription drugs.

(2) For a prescription drug, the established name of the prescription drug or of an ingredient is printed, on the label and on any labeling on which a name for the prescription drug or an ingredient is used, prominently and in type at least half as large as that used thereon for any proprietary name or designation for the prescription drug or ingredient. However, to the extent that compliance with subparagraph (1), subparagraph subdivision (b) or this subparagraph is imprac-

ticable, exemptions shall be allowed under rules or regulations adopted by the board or the secretary under the federal Act.

b. If it is a device and it has an established name, unless its label bears, to the exclusion of any other nonproprietary name, its established name, as defined in paragraph "d", prominently printed in type at least half as large as that used thereon for any proprietary name or designation for the device, except that to the extent compliance with this paragraph is impracticable, exemptions shall be allowed under rules or regulations adopted by the board or the secretary under the federal Act.

c. As used in paragraph "a", the term "*established name*", with respect to a drug or ingredient thereof, means one of the following:

(1) The applicable official name designated pursuant to section 508 of the federal Act.

(2) If no such official name exists and the drug or ingredient is an article recognized in an official compendium, then its official title in the compendium.

(3) If neither subparagraph (1) nor (2) applies, then the common or usual name, if any, of the drug or ingredient. However, if subparagraph (2) applies to an article recognized in the United States Pharmacopoeia National Formulary and in the Homeopathic Pharmacopoeia of the United States under different official titles, the official title used in the United States Pharmacopoeia National Formulary applies unless it is labeled and offered for sale as a homeopathic drug, in which case the official title used in the Homeopathic Pharmacopoeia of the United States applies.

d. As used in paragraph "b", the term "*established name*" with respect to a device means one of the following:

(1) The applicable official name of the device pursuant to section 508 of the federal Act.

(2) If no such official name exists and the device is an article recognized in an official compendium, then its official title in the compendium.

(3) If neither subparagraph (1) nor (2) applies, then any common or usual name of the device.

6. Unless its labeling bears both of the following:

a. Adequate directions for use.

b. Adequate warnings against use in those pathological conditions, or by children, where its use may be dangerous to health, or against unsafe dosage or methods or durations of administration or application, in the manner and form necessary for the protection of users.

However, if a requirement of paragraph "a", as applied to a drug or device, is not necessary for the protection of the public health, the board or the secretary shall adopt rules or regulations exempting the drug or device from that requirement.

7. If it purports to be a drug the name of which is recognized in an official compendium, unless it is packaged and labeled as prescribed in the official compendium. However, the method of packing may be modified with the consent of the board or the secretary. If a drug is recognized in both the United States Pharmacopoeia National Formulary and the Homeopathic Pharmacopoeia of the United States, it is subject to the requirements of the United States Pharmacopoeia National Formulary with respect to packaging and labeling unless it is labeled and offered for sale as a homeopathic drug, in which case it is subject to the Homeopathic Pharmacopoeia of the United States, and not to the United States Pharmacopoeia National Formulary. However, if an inconsistency exists between this subsection and subsection 5 as to the name by which the drug or its ingredients shall be designated, subsection 5 prevails.

8. If it has been found by the board or the secretary to be a drug liable to deterioration, unless it is packaged in the form and manner, and its label bears a statement of the precautions that the board or the secretary by rule or regulation

requires as necessary for the protection of public health. Such a rule or regulation shall not be established for a drug recognized in an official compendium until the board or the secretary has informed the appropriate body charged with the revision of the official compendium of the need for such packaging or labeling requirements and that body has failed within a reasonable time to prescribe such requirements.

9. *a.* If it is a drug and its container is so made, formed, or filled as to be misleading.

*b.* If it is an imitation of another drug.

*c.* If it is offered for sale under the name of another drug.

10. If it is dangerous to health when used in the dosage or manner, or with the frequency or duration prescribed, recommended, or suggested in its labeling.

11. If it is, or purports to be, or is represented as a drug composed wholly or partly of insulin, unless both of the following apply:

*a.* It is from a batch with respect to which a certificate or release has been issued pursuant to section 506 of the federal Act.

*b.* The certificate or release is in effect with respect to the drug.

12. If it is, or purports to be, or is represented as a drug, composed wholly or partly of any kind of penicillin, streptomycin, chlortetracycline, chloramphenicol, bacitracin, or any other antibiotic drug, or any derivative thereof, unless both of the following apply:

*a.* It is from a batch with respect to which a certificate or release has been issued pursuant to section 507 of the federal Act.

*b.* The certificate or release is in effect with respect to the drug.

However, this subsection does not apply to any drug or class of drugs exempted by regulations adopted under section 507(c) or 507(d) of the federal Act.

13. If it is a color additive, the intended use of which is for the purpose of coloring only, unless its packaging and labeling are in conformity with the packaging and labeling requirements applicable to that color additive, as contained in regulations adopted under section 706 of the federal Act.

14. If it is a prescription drug distributed or offered for sale in this state, unless the manufacturer, packer, or distributor includes in all advertising and other descriptive printed matter issued or caused to be issued by the manufacturer, packer, or distributor with respect to the prescription drug a true statement of all of the following:

*a.* The established name as defined in subsection 5, printed prominently and in type at least half as large as that used for any trade or brand name thereof.

*b.* The formula showing quantitatively each ingredient of the prescription drug to the extent required for labels under subsection 5.

*c.* Other information in brief summary relating to side effects, contraindications, and effectiveness as required in regulations adopted pursuant to section 701(e) of the federal Act.

15. If it was manufactured, prepared, propagated, compounded, or processed in an establishment in this state not duly registered under section 510 of the federal Act, if it was not included on a list required by section 510(j) of the federal Act, if a notice or other information respecting it was not provided as required by that section or section 510(k) of the federal Act, or if it does not bear the symbols from the uniform system for identification of devices prescribed under section 510(e) of the federal Act that are required by regulation.

16. If it is a drug and its packaging or labeling is in violation of an applicable regulation adopted pursuant to section 3 or 4 of the federal Poison Prevention Packaging Act of 1970, 15 U.S.C. §1471 et seq.

17. If a trademark, trade name, or other identifying mark, imprint, or device of another trademark, trade name, mark, or imprint or any likeness of the foregoing has been placed thereon or upon its container with intent to defraud.

18. In the case of a restricted device distributed or offered for sale in this state, if either of the following applies:

- a. Its advertising is false or misleading in any particular.
- b. It is sold, distributed, or used in violation of regulations adopted pursuant to section 520(e) of the federal Act.

19. In the case of a restricted device distributed or offered for sale in this state, unless the manufacturer, packer, or distributor includes in all advertising and other descriptive printed matter issued by the manufacturer, packer, or distributor with respect to the device both of the following:

- a. A true statement of the device's established name as defined in subsection 5, printed prominently and in type at least half as large as that used for any trade or brand name thereof.

- b. A brief statement of the intended uses of the device and relevant warnings, precautions, side effects, and contraindications; and in the case of a specific device made subject to regulations adopted pursuant to the federal Act, a full description of the components of the device or the formula showing quantitatively each ingredient of the device to the extent required in regulations under the federal Act.

If an article is alleged to be misbranded because the labeling or advertising is misleading, then in determining whether the labeling or advertising is misleading, there shall be taken into account, among other things, not only representations made or suggested by statement, word, design, device, or any combination thereof, but also the extent to which the labeling or advertising fails to reveal facts material in the light of such representations, or material with respect to consequences which may result from the use of the article to which the labeling or advertising relates, under the conditions of use prescribed in the labeling or advertising or under customary or usual conditions of use.

The representation of a drug, in its labeling, as an antiseptic shall be considered to be a representation that it is a germicide, except in the case of a drug purporting to be, or represented as, an antiseptic for inhibitory use as a wet dressing, ointment, dusting powder, or such other use as involves prolonged contact with the body.

### **203B.11 Exemptions in cases of drugs and devices—dispensing by prescription only.**

1. The board shall adopt rules exempting from any labeling or packaging requirement of this chapter drugs and devices which are, in accordance with the practice of the trade, to be processed, labeled, or repacked in substantial quantities at establishments other than those where originally processed or packaged, on condition that such drugs and devices are not adulterated or misbranded upon removal from the processing, labeling, or repacking establishment.

2. Drug and device labeling or packaging exemptions adopted pursuant to the federal Act shall apply to drugs and devices in this state except insofar as modified or rejected by rules adopted by the board.

3. a. This lettered paragraph applies to a drug intended for use by humans which is any of the following:

(1) Is a habit-forming drug to which section 203B.10, subsection 4 applies.

(2) Because of its toxicity or other potentiality for harmful effect, or the method of its use, or the collateral measures necessary to its use, is not safe for use except under the supervision of a practitioner licensed by law to administer the drug.

(3) Is limited by an approved application under section 505 of the federal Act to use under the personal supervision of a practitioner licensed by law to administer the drug.

Such a drug shall be dispensed only upon a written prescription of a practitioner licensed by law to administer the drug, or upon an oral prescription of such a practitioner which is reduced promptly to writing and filed by the pharmacist, or by refilling any such written or oral prescription if the refilling is authorized by the prescriber either in the original prescription or by oral order which is reduced promptly to writing and filed by the pharmacist. The act of dispensing a drug contrary to this paragraph while the drug is held for sale results in the drug being misbranded.

b. A drug dispensed by filling or refilling a written or oral prescription of a practitioner licensed by law to administer the drug is exempt from section 203B.10, except subsection 1, subsection 9, paragraphs "b" and "c", and subsections 11 and 12, and the packaging requirements of subsections 7, 8, and 16, if the drug bears a label containing the name and address of the dispenser, the date of the prescription or of its filling, the name of the prescriber, and, if stated in the prescription, the name of the patient, and the directions for use and cautionary statements, if any, contained in the prescription. This exemption does not apply to a drug dispensed in the course of the conduct of the business of dispensing drugs pursuant to diagnosis by mail, or to a drug dispensed in violation of paragraph "a" of this subsection.

c. The board may, by rule, remove a drug subject to section 203B.10, subsection 4, and section 505 of the federal Act from the requirements of paragraph "a" of this subsection when such requirements are not necessary for the protection of the public health.

d. A drug which is subject to paragraph "a" of this subsection is misbranded if, at any time prior to dispensing, its label fails to bear the statement: "Caution: Federal Law Prohibits Dispensing Without Prescription", or "Caution: State Law Prohibits Dispensing Without Prescription". A drug to which paragraph "a" of this subsection does not apply is misbranded if, at any time prior to dispensing, its label bears the caution statement quoted in the preceding sentence.

e. Prescription drug samples dispensed by a practitioner licensed by law to administer such drugs are exempt from section 203B.10.

b. A copy of the letter of approval or approvability issued by the United States food and drug administration is on file with the secretary of the board, if the product is manufactured in this state.

2. A person shall not use in humans a new drug limited to investigational use unless the person has filed with the United States food and drug administration a completed and signed "Notice of Claimed Investigational Exemption for a New Drug" form in accordance with 21 C.F.R. §312.1 and the exemption has not been terminated. The drug shall be plainly labeled in compliance with section 505(i) or 507(d) of the federal Act.

3. This section does not apply to either of the following:

- a. A drug which is not a new drug as defined in the federal Act.

### 203B.14 Cosmetics—adulteration.

A cosmetic is adulterated if any of the following apply:

1. It bears or contains a poisonous or deleterious substance which may render it injurious to users under the conditions of use prescribed in its labeling or under customary or usual conditions of use. However, this does not apply to coal-tar hair dye if the label of the dye bears the following legend conspicuously displayed: "Caution—This product contains ingredients which may cause skin irritation on certain individuals and a preliminary test according to accompanying directions should first be made. This product must not be used for dyeing the eyelashes or eyebrows; to do so may cause blindness"; and the label bears adequate directions for the preliminary testing. For the purposes of this subsection and subsection 5, "hair dye" does not include eyelash dyes or eyebrow dyes.
2. It consists in whole or in part of any filthy, putrid, or decomposed substance.
3. It has been produced, prepared, packed, or held under insanitary conditions whereby it may have become contaminated with filth, or whereby it may have been rendered injurious to health.
4. Its container is composed, in whole or in part, of a poisonous or deleterious substance which may render the contents injurious to health.
5. It is not a hair dye and it is, or it bears or contains a color additive which is, unsafe within the meaning of section 706(a) of the federal Act.

1. Its labeling is false or misleading in any particular.
2. If in package form unless it bears a label containing both of the following:
  - a. The name and place of business of the manufacturer, packer, or distributor.
  - b. An accurate statement of the quantity of the contents in terms of weight, measure, or numerical count, which statement shall be separately and accurately stated in a uniform location upon the principal display panel of the label.
3. A word, statement, or other information required by or under the authority of this chapter to appear on the label or labeling is not prominently placed there with such conspicuousness, as compared with other words, statements, designs, or devices in the labeling, and in such terms as to render it likely to be read and understood by the ordinary individual under customary conditions of purchase and use.
4. Its container is so made, formed, or filled as to be misleading.
5. It is a color additive, unless its packaging and labeling are in conformity with the packaging and labeling requirements applicable to that color additive prescribed under section 706 of the federal Act. This subsection does not apply to packages of color additives which, with respect to their use of cosmetics, are marketed and intended for use only in or on hair dyes, as specified in section 203B.14, subsection 1.
6. Its packaging or labeling is in violation of an applicable regulation adopted pursuant to section 3 or 4 of the federal Poison Prevention Packaging Act of 1970, 15 U.S.C. §1471 et seq.

The board shall adopt rules exempting from any labeling requirement of this chapter, cosmetics which are in accordance with the practice of the trade, to be processed, labeled, or repacked in substantial quantities at an establishment other than the establishment where they are originally processed or packed, on condition that such cosmetics are not adulterated or misbranded upon removal from the processing, labeling, or repacking establishment. Cosmetic labeling exemptions adopted under the federal Act apply to cosmetics in this state except as modified or rejected by rules adopted by the board.

### **203B.16 False advertising.**

1. The advertising of a drug, device, or cosmetic is false if it is false or misleading in any particular.

2. For the purpose of this chapter, advertising is false if it represents a drug, device, or cosmetic to have any effect in the diagnosis, prevention, or treatment of arthritis, blood disorders, bone or joint diseases, kidney diseases or disorders, cancer, diabetes, gall bladder disease or disorders, heart and vascular disease, high blood pressure, diseases or disorders of the ear, mental disease or mental retardation, degenerative neurological diseases, paralysis, prostate gland disorders, conditions of the scalp affecting hair loss, baldness, endocrine disorders, sexual impotence, tumors, venereal diseases, varicose ulcers, breast enlargement, purifying blood, metabolic disorders, immune system disorders or conditions affecting the immune system, extension of life expectancy, stress and tension, brain stimulation or performance, the body's natural defense mechanisms, blood flow, and depression. However, advertising not in violation of subsection 1 is not false under this subsection if it is disseminated only to members of the medical, dental, or veterinary professions, or appears only in the scientific periodicals of these professions, or is disseminated only for the purpose of public health education by persons not commercially interested, directly or indirectly, in the sale of such drugs or devices. However, if the board determines that an advance in medical science has made any type of self-medication safe as to any of the diseases named in this subsection, the board shall by rule authorize the advertising of drugs having curative or therapeutic effect for such disease, subject to the conditions and restrictions the board deems necessary in the interests of the public health. However, this subsection does not indicate that self-medication for diseases other than those named in this subsection is safe and efficacious.

(1) Enter at reasonable times any factory, warehouse, or other establishment in which drugs, devices, or cosmetics are manufactured, processed, packed, or held,

for introduction into commerce or after such introduction; or enter a vehicle being used to transport or hold drugs, devices, or cosmetics in commerce.

(2) Inspect at reasonable times and within reasonable limits and in a reasonable manner such a factory, warehouse, establishment, or vehicle and all pertinent equipment, finished and unfinished materials, containers, and labeling therein, and obtain samples necessary to the enforcement of this chapter. In the case of a factory, warehouse, establishment, or consulting laboratory in which prescription drugs are manufactured, processed, packed, or held, the inspection shall extend to all things therein, including records, files, papers, processes, controls, and facilities, bearing on whether prescription drugs or restricted devices which are adulterated or misbranded or which may not be manufactured, introduced into commerce, or sold or offered for sale by reason of any provision of this chapter, have been or are being manufactured, processed, packed, transported, or held in violation of or bearing on a violation of this chapter. An inspection authorized for prescription drugs by the preceding sentence shall not extend to financial data, sales data other than shipment data, pricing data, personnel data other than data as to qualifications of technical and professional personnel performing functions subject to this chapter, and research data other than data relating to new drugs, and antibiotic drugs, and devices, and subject to reporting and inspection under regulations lawfully issued pursuant to section 505(i) or 505(j), or section 507(d) or 507(g), section 519, or section 520(g) of the federal Act, and data, relating to other drugs, or devices which in the case of a new drug would be subject to reporting or inspection under lawful regulations issued pursuant to section 505(j) of the federal Act. The inspection shall be commenced and completed with reasonable promptness.

b. Paragraph "a" does not apply to any of the following:

(1) Pharmacies which maintain establishments in conformance with laws of this state regulating the practice of pharmacy and medicine and which are regularly engaged in dispensing prescription drugs, or devices, upon prescription of practitioners licensed to administer the drugs or devices to patients under the care of the practitioners in the course of their professional practice, and which do not, either through a subsidiary or otherwise, manufacture, prepare, propagate, compound, or process drugs or devices for sale other than in the regular course of their business of dispensing or selling drugs or devices at retail.

(2) Practitioners licensed by law to prescribe or administer drugs or prescribe or use devices, and who manufacture, prepare, propagate, compound, or process drugs, or manufacture or process devices solely for use in the course of their professional practice.

(3) Persons who manufacture, prepare, propagate, compound, or process drugs, or manufacture or process devices solely for use in research, teaching, or chemical analysis and not for sale.

(4) Duly employed sales representatives of pharmaceutical companies acting in the normal and customary performance of their duties.

(5) Other classes of persons the board exempts from the application of this section by rule upon a finding that inspection as applied to such classes of persons in accordance with this section is not necessary for the protection of the public health.

2. Upon completion of an inspection of a factory, warehouse, consulting laboratory, or other establishment and prior to leaving the premises, the authorized agent making the inspection shall give to the owner, operator, or agent in charge a report in writing setting forth any conditions or practices observed by the authorized agent which, in the judgment of the authorized agent, indicate that any drug, device, or cosmetic in the establishment meets either of the following:

a. Consists in whole or in part of a filthy, putrid, or decomposed substance.

b. Has been prepared, packed, or held under insanitary conditions whereby it may have become contaminated with filth, or whereby it may have been rendered injurious to health.

A copy of the report shall be sent promptly to the board.

3. If the authorized agent making an inspection of a factory, warehouse, or other establishment has obtained a sample in the course of the inspection, upon completion of the inspection and prior to leaving the premises the authorized agent shall give to the owner, operator, or agent in charge a receipt describing the sample obtained.

4. A person required under this chapter or section 519 or 520(g) of the federal Act to maintain records and a person who is in charge or custody of such records shall, upon request of an authorized agent designated by the board, permit the authorized agent at all reasonable times to have access and to copy and verify such records.

5. For the purposes of enforcing this chapter, carriers engaged in commerce, and persons receiving drugs, devices, or cosmetics in commerce or holding such articles so received, shall, upon the request of a duly authorized agent of the board, permit the agent, at reasonable times, to have access to and to copy all records showing the movement in commerce of a drug, device, or cosmetic, or the holding thereof during or after such movement, and the quantity, shipper, and consignee thereof. It is unlawful for any such carrier or person to fail to permit such access to and copying of any such record so requested when the request is accompanied by a statement in writing specifying the nature or kind of drug, device, or cosmetic to which the request relates.

6. Evidence obtained under this section or evidence which is directly or indirectly derived from such evidence obtained under this section, shall not be used in a criminal prosecution of the person from whom the evidence was obtained; and carriers are not subject to the other provisions of this chapter by reason of their receipt, carriage, holding, or delivery of drugs, devices, or cosmetics in the usual course of business as carriers.

An employee of a food processing and distribution establishment is exempt from the certification requirements of this section provided that at least one person holding a supervisory position is certified and provided that the employer provides a program, approved by the department, for training, testing, and certification of personnel who apply, as an incidental part of their duties, any pesticide on property owned or rented by the employer. The secretary shall adopt rules to administer the provisions of this paragraph.

The secretary shall adopt rules to administer the provisions of this paragraph.

8. The secretary may adopt rules to provide for license and certification adjustments, including fees, which may be necessary to provide for an equitable transition for licenses and certifications issued prior to January 1, 1989. The rules shall also include a provision for renewal of certification and for a thirty-day renewal grace period. The secretary shall also adopt rules which allow for an exemption from certification for a person who uses certain services and is not solely a pesticide applicator, but who uses the services as an incidental part of the person's duties.

### **220.142 Security – reserve funds – pledges – nonliability – irrevocable contracts.**

1. The authority shall provide in the resolution, trust agreement, or other instrument authorizing the issuance of its bonds or notes pursuant to section 220.141 that the principal of, premium, and interest on the bonds or notes are payable solely out of the pledged receipts as designated in the resolution, trust agreement, or other instrument authorizing the issuance of the bonds. Except for those tax revenues deposited in the revolving loan fund created under section 15.287, the state shall not appropriate tax revenues, directly or indirectly, to the authority for the payment of its bonds, notes, or obligations issued under section 220.141.

For purposes of this section, unless the context otherwise requires, “*pledged receipt*” means the revenues and receipts received or to be received by the authority from grants, gifts, or payments on guarantees made to the authority by any person, from accrued interest received from the sale of obligations, from income from the investment of special funds of the authority, including the revolving fund established under section 15.287, from the revenues and receipts deposited in the revolving fund established under section 15.287, and from any other moneys which are available for the payment of principal, premium, if any, or interest on the bonds, notes, or other obligation issued under section 220.141.

2. The authority may establish reserve funds to secure one or more issues of its bonds or notes. The authority may deposit in a reserve fund established under this subsection proceeds of the sale of its bonds or notes and other money which is made available from any other source.

3. It is the intention of the general assembly that a pledge made in respect of bonds or notes shall be valid and binding from the time the pledge is made, that the money or property so pledged and received after the pledge by the authority shall immediately be subject to the lien of the pledge without physical delivery or further act, and that the lien of the pledge shall be valid and binding as against all parties having claims of any kind in tort, contract, or otherwise against the authority, whether or not the parties have notice of the lien. The resolution, trust agreement, or any other instrument by which a pledge is created does not need to be recorded or filed under the uniform commercial code, chapter 554, to be valid, binding, or effective against the parties.

4. Neither the members of the authority nor persons executing the bonds or notes are liable personally on the bonds or notes or are subject to personal liability or accountability by reason of the issuance of the bonds or notes.

5. The bonds or notes issued by the authority are not an indebtedness or other liability of the state or of a political subdivision of the state within the meaning of any constitutional or statutory debt limitations but are special obligations of the authority, and are payable solely out of pledged receipts to the extent that the pledged receipts are designated in the resolution, trust agreement, or other instrument of the authority authorizing the issuance of the bonds or notes as being available as security for such bonds or notes. The authority shall not pledge the faith or credit of the state or of a political subdivision of the state to the payment of any bonds or notes. The issuance of any bonds or notes by the authority does not directly, indirectly, or contingently obligate the state or a political subdivision of the state to apply moneys from, or to levy or pledge any form of taxation whatever, to the payment of the bonds or notes.

6. The state pledges to and agrees with the holders of bonds or notes issued under the rural community 2000 financing program, that the state will not limit or alter the rights and powers vested in the authority to fulfill the terms of a contract made by the authority with respect to the bonds or notes, or in any way impair the rights and remedies of the holders until the bonds or notes, together with the interest on the bonds or notes, including interest on unpaid installments of interest, and all costs and expenses in connection with an action or proceeding by or on behalf of the holders, are fully met and discharged. The authority is authorized to include this pledge and agreement of the state, as it refers to holders of bonds or notes of the authority, in a contract with the holders.

7. The authority shall not issue more than thirty million dollars in bonds or notes in any one fiscal year and not more than a total dollar amount of one hundred fifty million shall be outstanding at any time. Bonds issued to fund new infrastructure of the state shall not exceed one-third of the maximum and shall not be limited as to the amount which may be issued in any one fiscal year.

Not less than fifty percent weight shall be given to financial need, giving appropriate allowance to such factors as legal and economic capacity to incur debt, local tax levels, local effort, costs of vital services including sewer and water, unmet needs for basic services, per capita income, and the extent to which a project is calculated to improve the conditions which result in greater financial need. 2. "*Chemotherapy*" means treatment of an individual by use of a drug or substance which cannot legally be delivered or administered to the ultimate user without a physician's prescription or medical order.
3. "*Chief medical officer*" means the medical director in charge of a public or private hospital, or that individual's physician-designee. This chapter does not negate the authority otherwise reposed by law in the respective superintendents of each of the state hospitals for the mentally ill, established by chapter 226, to make decisions regarding the appropriateness of admissions or discharges of patients of that hospital, however it is the intent of this chapter that if the superintendent is not a licensed physician the decisions by the superintendent shall be corroborated by the chief medical officer of the hospital.
4. "*Clerk*" means the clerk of the district court.
5. "*Hospital*" means either a public hospital or a private hospital.
6. "*Licensed physician*" means an individual licensed under the provisions of chapter 148, 150 or 150A to practice medicine and surgery, osteopathy or osteopathic medicine and surgery.
7. "*Mental illness*" means every type of mental disease or mental disorder, except that it does not refer to mental retardation as defined in section 222.2, subsection 5, or to insanity, diminished responsibility, or mental incompetency as the terms are defined and used in the Iowa criminal code or in the rules of criminal procedure, Iowa court rules, 2d ed.
8. "*Patient*" means a person who has been hospitalized or ordered hospitalized to receive treatment pursuant to section 229.14.

  - a. A state mental health institute established by chapter 226; or
  - b. The state psychiatric hospital established by chapter 225; or
  - c. Any other publicly supported hospital or institution, or part of such hospital or institution, which is equipped and staffed to provide inpatient care to the mentally ill, except the Iowa medical and classification center established by chapter 246.
11. "*Qualified mental health professional*" means an individual experienced in the study and treatment of mental disorders in the capacity of:
  - a. A psychologist certified under chapter 154B; or

  - c. A social worker who holds a master's degree in social work awarded by an accredited college or university.
12. "*Respondent*" means any person against whom an application has been filed under section 229.6, but who has not been finally ordered committed for full-time custody, care and treatment in a hospital.
13. "*Serious emotional injury*" is an injury which does not necessarily exhibit any physical characteristics, but which can be recognized and diagnosed by a

licensed physician or other qualified mental health professional and which can be causally connected with the act or omission of a person who is, or is alleged to be, mentally ill.

14. "*Seriously mentally impaired*" or "*serious mental impairment*" describes the condition of a person who is afflicted with mental illness and because of that illness lacks sufficient judgment to make responsible decisions with respect to the person's hospitalization or treatment, and who because of that illness meets any of the following criteria:

a. Is likely to physically injure the person's self or others if allowed to remain at liberty without treatment.

b. Is likely to inflict serious emotional injury on members of the person's family or others who lack reasonable opportunity to avoid contact with the afflicted person if the afflicted person is allowed to remain at liberty without treatment.

### **229.11 Judge may order immediate custody.**

If the applicant requests that the respondent be taken into immediate custody and the judge, upon reviewing the application and accompanying documentation, finds probable cause to believe that the respondent is seriously mentally impaired and is likely to injure the respondent or other persons if allowed to remain at liberty, the judge may enter a written order directing that the respondent be taken into immediate custody by the sheriff or the sheriff's deputy and be detained until the hospitalization hearing, which shall be held no more than five days after the date of the order, except that if the fifth day after the date of the order is a Saturday, Sunday, or a holiday, the hearing may be held on the next succeeding business day. The judge may order the respondent detained for the period of time until the hearing is held, and no longer, in accordance with subsection 1 if possible, and if not then in accordance with subsection 2 or, only if neither of these alternatives are available, in accordance with subsection 3. Detention may be:

1. In the custody of a relative, friend or other suitable person who is willing to accept responsibility for supervision of the respondent, and the respondent may be placed under such reasonable restrictions as the judge may order including, but not limited to, restrictions on or a prohibition of any expenditure, encumbrance or disposition of the respondent's funds or property; or

2. In a suitable hospital the chief medical officer of which shall be informed of the reasons why immediate custody has been ordered and may provide treatment which is necessary to preserve the respondent's life, or to appropriately control behavior by the respondent which is likely to result in physical injury to the respondent or to others if allowed to continue, but may not otherwise provide treatment to the respondent without the respondent's consent; or

3. In a public or private facility in the community which is suitably equipped and staffed for the purpose, provided that detention in a jail or other facility intended for confinement of those accused or convicted of crime may not be ordered except in cases of actual emergency when no other secure facility is accessible and then only for a period of not more than twenty-four hours and under close supervision.

The clerk shall furnish copies of any orders to the respondent and to the applicant if the applicant files a written waiver signed by the respondent.

89 Acts, ch 275, §3 HF 579  
NEW unnumbered paragraph at end of section

### **229.12 Hearing procedure.**

1. At the hospitalization hearing, evidence in support of the contentions made in the application shall be presented by the county attorney. During the hearing the applicant and the respondent shall be afforded an opportunity to testify and to present and cross-examine witnesses, and the court may receive the testimony of any other interested person. The respondent has the right to be present at the hearing. If the respondent exercises that right and has been medicated within twelve hours, or such longer period of time as the court may designate, prior to the beginning of the hearing or an adjourned session thereof, the judge shall be informed of that fact and of the probable effects of the medication upon convening of the hearing.

2. All persons not necessary for the conduct of the proceeding shall be excluded, except that the court may admit persons having a legitimate interest in the proceeding. Upon motion of the county attorney, the judge may exclude the respondent from the hearing during the testimony of any particular witness if the judge determines that that witness' testimony is likely to cause the respondent severe emotional trauma.

3. The respondent's welfare shall be paramount and the hearing shall be conducted in as informal a manner as may be consistent with orderly procedure, but consistent therewith the issue shall be tried as a civil matter. Such discovery as is permitted under the Iowa rules of civil procedure shall be available to the respondent. The court shall receive all relevant and material evidence which may be offered and need not be bound by the rules of evidence. There shall be a presumption in favor of the respondent, and the burden of evidence in support of the contentions made in the application shall be upon the applicant. If upon completion of the hearing the court finds that the contention that the respondent is seriously mentally impaired has not been sustained by clear and convincing evidence, it shall deny the application and terminate the proceeding.

4. If the respondent is not taken into custody under section 229.11, but the court subsequently finds good cause to believe that the respondent is about to depart from the jurisdiction of the court, the court may order such limited detention of the respondent as is authorized by section 229.11 and is necessary to insure that the respondent will not depart from the jurisdiction of the court without the court's approval until the proceeding relative to the respondent has been concluded.

5. The clerk shall furnish copies of any orders to the respondent and to the applicant if the applicant files a written waiver signed by the respondent.

NEW subsection 5

### **229.16 Discharge and termination of proceeding.**

care for serious mental impairment, the chief medical officer shall tentatively discharge the patient and immediately report that fact to the court which ordered the patient's hospitalization or care and custody. The court shall thereupon issue an order confirming the patient's discharge from the hospital or from care and custody, as the case may be, and shall terminate the proceedings pursuant to which the order was issued. Copies of the order shall be sent by certified mail to the hospital, the patient, and the applicant if the applicant has filed a written waiver signed by the patient.

### COMMUNITY MENTAL HEALTH CENTERS

#### 230A.16 Establishment of standards.

The administrator of the division of mental health, mental retardation, and developmental disabilities shall recommend and the mental health and mental retardation commission shall adopt standards for community mental health centers and comprehensive community mental health programs, with the overall objective of ensuring that each center and each affiliate providing services under contract with a center furnishes high quality mental health services within a framework of accountability to the community it serves. The standards shall be in substantial conformity with those of the psychiatric committee of the joint committee on accreditation of hospitals and other recognized national standards for evaluation of psychiatric facilities unless in the judgment of the administrator of the division of mental health, mental retardation, and developmental disabilities, with approval of the mental health and mental retardation commission, there are sound reasons for departing from such standards. When recommending standards under this section, the administrator of the division of mental health, mental retardation, and developmental disabilities shall designate an advisory committee representing boards of directors and professional staff of community mental health centers to assist in the formulation or revision of standards. At least a simple majority of the members of the advisory committee shall be lay representatives of community mental health center boards of directors. The standards recommended under this section shall include requirements that each community mental health center established or operating as authorized by section 230A.1 shall:

1. Maintain and make available to the public a written statement of the services it offers to residents of the county or counties it serves, and employ or contract for services with affiliates employing specified minimum numbers of professional personnel possessing specified appropriate credentials to assure that

the services offered are furnished in a manner consistent with currently accepted professional standards in the field of mental health.

2. Unless it is governed by a board of trustees elected or selected under sections 230A.5 and 230A.6, be governed by a board of directors which adequately represents interested professions, consumers of the center's services, socioeconomic, cultural, and age groups, and various geographical areas in the county or counties served by the center.

3. Arrange for the financial condition and transactions of the community mental health center to be audited once each year by the auditor of state. However, in lieu of an audit by state accountants, the local governing body of a community mental health center organized under this chapter may contract with or employ certified public accountants to conduct the audit, pursuant to the applicable terms and conditions prescribed by sections 11.6 and 11.19 and audit format prescribed by the auditor of state. Copies of each audit shall be furnished by the accountant to the administrator of the division of mental health, mental retardation, and developmental disabilities, and the board of supervisors supporting the audited community mental health center.

4. Adopt and implement procedural rules ensuring that no member of the center's board of directors, or board of trustees receives from the center information which identifies or is intended to permit the members of the board to identify any person who is a client of that center.

b. An instance in which facility policy or lack of facility policy may have contributed to the alleged child abuse.

c. An instance in which general practice in the facility appears to differ from the facility's written policy.

The licensing authority, the governing body, and the administrator in charge of the facility shall take any lawful action which may be necessary or advisable to protect children residing in the facility.

5. The department of human services may request information from any person believed to have knowledge of a child abuse case. The county attorney, any law enforcement or social services agency in the state, and any mandatory reporter, whether or not the reporter made the specific child abuse report, shall cooperate and assist in the investigation upon the request of the department of human services. The county attorney and appropriate law enforcement agencies shall also take any other lawful action which may be necessary or advisable for the protection of the child.

6. The investigation may include a visit to a facility providing care to the child named in the report or to any public or private school subject to the authority of the department of education where the child named in the report is located. The administrator of a facility, or a public or private school shall cooperate with the investigator by providing confidential access to the child named in the report for the purpose of interviewing the child, and shall allow the investigator confidential access to other children for the purpose of conducting interviews in order to obtain relevant information. The investigator may observe a child named in a report in accordance with the provisions of section 232.68, subsection 3, paragraph "b". A witness shall be present during an observation of a child. Any child age ten years of age or older can terminate contact with the investigator by stating or indicating the child's wish to discontinue the contact. The immunity granted by section 232.73 applies to acts or omissions in good faith of such administrators and their facilities or school districts for cooperating in an investigation and allowing confidential access to a child. The department may utilize a multidisciplinary team to conduct investigations of child abuse involving employees or agents of a facility providing care for a child.

7. The department, upon completion of its investigation, shall make a preliminary report of its investigation as required by subsection 2. A copy of this report

shall be transmitted to juvenile court within four regular working days after the department initially receives the abuse report unless the juvenile court grants an extension of time for good cause shown. If the preliminary report is not a complete report, a complete report shall be filed within ten working days of the receipt of the abuse report, unless the juvenile court grants an extension of time for good cause shown. The department shall notify a subject of the report of the result of the investigation, of the subject's right to correct the information pursuant to section 235A.19, and of the procedures to correct the information. The juvenile court shall notify the registry of any action it takes with respect to a suspected case of child abuse.

8. The department of human services shall transmit a copy of the report of its investigation, including actions taken or contemplated, to the registry. The department of human services shall make periodic follow-up reports thereafter in a manner prescribed by the registry so that the registry is kept up-to-date and fully informed concerning the handling of a suspected case of child abuse.

9. The department of human services shall also transmit a copy of the report of its investigation to the county attorney. The county attorney shall notify the registry of any actions or contemplated actions with respect to a suspected case of child abuse so that the registry is kept up-to-date and fully informed concerning the handling of such a case.

10. Based on the investigation conducted pursuant to this section, the department shall offer to the family of any child believed to be the victim of abuse such services as appear appropriate for either the child, the family, or both, if it is explained that the department has no legal authority to compel such family to receive such services.

11. If, upon completion of the investigation, the department of human services determines that the best interests of the child require juvenile court action, the department shall take the appropriate action to initiate such action under this chapter. The county attorney shall assist the county department of human services as provided under section 232.90, subsection 2.

12. The department of human services shall assist the juvenile court or district court during all stages of court proceedings involving a suspected child abuse case in accordance with the purposes of this chapter.

13. The department of human services shall provide for or arrange for and monitor rehabilitative services for abused children and their families on a voluntary basis or under a final or intermediate order of the juvenile court.

14. In every case involving child abuse which results in a child protective judicial proceeding, whether or not the proceeding arises under this chapter, a guardian ad litem shall be appointed by the court to represent the child in the proceedings. Before a guardian ad litem is appointed pursuant to this section, the court shall require the person responsible for the care of the child to complete under oath a detailed financial statement. If, on the basis of that financial statement, the court deems that the person responsible for the care of the child is able to bear the cost of the guardian ad litem, the court shall so order. In cases where the person responsible for the care of the child is unable to bear the cost of the guardian ad litem, the expense shall be paid out of the county treasury.

15. If a fourth report is received from the same person who made three earlier unfounded reports which identified the same child as the abused child and the same person responsible for the child as the alleged abuser, the department may determine that the report is again unfounded due to the report's spurious or frivolous nature and may in its discretion terminate its investigation.

16. The department may request criminal history data from the department of public safety on any person believed to be responsible for an injury to a child

which, if confirmed, would constitute child abuse. The department shall establish procedures for determining when a criminal history records check under this subsection is necessary.

17. In each county or multicounty area in which more than fifty child abuse reports are made per year, the department shall establish a multidisciplinary team, as defined in section 235A.13, subsection 9. Upon the department's request, a multidisciplinary team shall assist the department in the assessment, diagnosis, and disposition of a child abuse report.

a. The person responsible for the care of the child is absent, or though present, was asked and refused to consent to the removal of the child and was informed of an intent to apply for an order under this section, or there is reasonable cause to believe that a request for consent would further endanger the child, or there is reasonable cause to believe that a request for consent will cause the parent, guardian, or legal custodian to take flight with the child.

b. It appears that the child's immediate removal is necessary to avoid imminent danger to the child's life or health.

c. There is not enough time to file a petition and hold a hearing under section 232.95.

2. The order shall specify the facility to which the child is to be brought. Except for good cause shown or unless the child is sooner returned to the place where the child was residing or permitted to return to the child day care facility, a petition shall be filed under this chapter within three days of the issuance of the order.

3. The juvenile court may enter an order authorizing a physician or hospital to provide emergency medical or surgical procedures before the filing of a petition under this chapter provided:

seeking the removal order, shall make every reasonable effort to inform the parent or other person legally responsible for the child's care of the application, and shall make such inquiries as will aid the court in disposing of such application.

### **232.79 Custody without court order.**

1. A peace officer may take a child into custody or a physician treating a child may keep the child in custody without a court order as required under section 232.78 and without the consent of a parent, guardian, or custodian provided that both of the following apply:

a. The child is in a circumstance or condition that presents an imminent danger to the child's life or health.

b. There is not enough time to apply for an order under section 232.78.

2. If a person authorized by this section removes or retains custody of a child, the person shall:

a. Bring the child immediately to a place designated by the rules of the court for this purpose, unless the person is a physician treating the child and the child is or will presently be admitted to a hospital.

b. Make every reasonable effort to inform the parent, guardian, or custodian of the whereabouts of the child.

c. Promptly inform the court in writing of the emergency removal and the circumstances surrounding the removal.

3. Any person, agency, or institution acting in good faith in the removal or keeping of a child pursuant to this section, and any employer of or person under the direction of such a person, agency, or institution, shall have immunity from any civil or criminal liability that might otherwise be incurred or imposed as the result of such removal or keeping.

4. When the court is informed that there has been an emergency removal or keeping of a child without a court order, the court shall direct the department of human services or the juvenile probation department to make every reasonable effort to communicate immediately with the child's parent or parents or other person legally responsible for the child's care. The court shall also authorize the department of human services or the juvenile probation department to cause a child thus removed or kept to be returned if it concludes there is not an imminent risk to the child's life and health in so doing. If the child is not returned, the department of human services or the juvenile probation department shall forthwith cause a petition to be filed within three days after the removal.

5. When there has been an emergency removal or keeping of a child without a court order, a physical examination of the child by a licensed medical practitioner shall be performed within twenty-four hours of such removal, unless the child is returned to the child's home within twenty-four hours of the removal.

### **232.88 Summons, notice, subpoenas and services.**

### **232.89 Right to and appointment of counsel.**

1. Upon the filing of a petition the parent, guardian or custodian identified in the petition shall have the right to counsel in connection with all subsequent hearings and proceedings. If that person desires but is financially unable to employ counsel, the court shall appoint counsel.

2. Upon the filing of a petition, the court shall appoint counsel and a guardian ad litem for the child identified in the petition as a party to the proceedings. Counsel shall be appointed as follows:

a. If the child is represented by counsel and the court determines there is a conflict of interest between the child and the child's parent, guardian or custodian and that the retained counsel could not properly represent the child as a result of the conflict, the court shall appoint other counsel to represent the child, who shall be compensated pursuant to the provisions of subsection 3.

b. If the child is not represented by counsel, the court shall either order the parent, guardian or custodian to retain counsel for the child or shall appoint counsel for the child, who shall be compensated pursuant to the provisions of subsection 3.

3. The court shall determine, after giving the parent, guardian, or custodian an opportunity to be heard, whether the person has the ability to pay in whole or in part for counsel appointed for the child. If the court determines that the person possesses sufficient financial ability, the court shall then consult with the department of human services, the juvenile probation office, or other authorized agency or individual regarding the likelihood of impairment of the relationship between the child and the child's parent, guardian or custodian as a result of ordering the parent, guardian, or custodian to pay for the child's counsel. If impairment is deemed unlikely, the court shall order that person to pay an amount the court finds appropriate in the manner and to whom the court directs. If the person fails to comply with the order without good reason, the court shall enter judgment against the person. If impairment is deemed likely or if the court determines that the parent, guardian, or custodian cannot pay any part of the expenses of counsel appointed to represent the child, counsel shall be reimbursed pursuant to section 232.141, subsection 2, paragraph "b".

4. The same person may serve both as the child's counsel and as guardian ad litem. However, the court may appoint a separate guardian ad litem, if the same person cannot properly represent the legal interests of the child as legal counsel and also represent the best interest of the child as guardian ad litem.

5. The court may appoint a special advocate, as defined in section 232.2, subsection 9A, to act as guardian ad litem. The court appointed special advocate shall receive notice of and may attend all depositions, hearings, and trial proceedings to support the child and advocate for the protection of the child. The court appointed special advocate shall not be allowed to separately introduce evidence or to directly examine or cross-examine witnesses. However, the court appointed special advocate shall file reports to the court as required by the court.

### 232.104 Permanency hearing.

1. If a child has been placed in foster care for a period of twelve months, or if the prior legal custodian of a child has abandoned efforts to regain custody of the child, the court shall, on its own motion, or upon application by any interested party, including the child's foster parent if the child has been placed with the foster parent for at least twelve months, hold a hearing to consider the issue of the establishment of permanency for the child.

Such a permanency hearing may be held concurrently with a hearing to review, modify, substitute, vacate, or terminate a dispositional order. Reasonable notice of a permanency hearing in a case of juvenile delinquency shall be provided pursuant to section 232.37. A permanency hearing shall be conducted in substantial conformance with the provisions of section 232.99. During the hearing the court shall consider the child's need for a secure and permanent placement in light of any permanency plan or evidence submitted to the court. Upon completion of the hearing the court shall enter written findings and make a determination based upon the permanency plan which will best serve the child's individual interests at that time.

2. After a permanency hearing the court shall do one of the following:

- a. Enter an order pursuant to section 232.102 to return the child to the child's home.
  - b. Enter an order pursuant to section 232.102 to continue placement of the child for an additional six months at which time the court shall hold a hearing to consider modification of its permanency order.
  - c. Direct the county attorney or the attorney for the child to institute proceedings to terminate the parent-child relationship.
  - d. Enter an order, pursuant to findings required by subsection 3, to do one of the following:
    - (1) Transfer guardianship and custody of the child to a suitable person.
    - (2) Transfer sole custody of the child from one parent to another parent.
    - (3) Transfer custody of the child to a suitable person for the purpose of long-term care.
    - (4) Order long-term foster care placement for the child in a licensed foster care home or facility.
3. Prior to entering a permanency order pursuant to subsection 2, paragraph "d", convincing evidence must exist showing that all of the following apply:
- a. A termination of the parent-child relationship would not be in the best interest of the child.
  - b. Services were offered to the child's family to correct the situation which led to the child's removal from the home.
  - c. The child cannot be returned to the child's home.
  - d. Any permanency order may provide restrictions upon the contact between the child and the child's parent or parents, consistent with the best interest of the child.
  - e. Subsequent to the entry of a permanency order pursuant to this section, the child shall not be returned to the care, custody, or control of the child's parent or

parents, over a formal objection filed by the child's attorney or guardian ad litem, unless the court finds by a preponderance of the evidence, that returning the child to such custody would be in the best interest of the child.

6. Following the entry of a permanency order which places a child in the custody or guardianship of another person or agency, the court shall retain jurisdiction and annually review the order to ascertain whether the best interest of the child is being served. When such order places the child in the custody of the department for the purpose of long-term foster care placement in a facility, the review shall be in a hearing that shall not be waived or continued beyond twelve months after the permanency hearing or the last review hearing. Any modification shall be accomplished through a hearing procedure following reasonable notice. During the hearing, all relevant and material evidence shall be admitted and procedural due process shall be provided to all parties.

### **232.117 Termination—findings—disposition.**

1. After the hearing is concluded the court shall make and file written findings.

2. If the court concludes that facts sufficient to terminate parental rights have not been established by clear and convincing evidence, the court shall dismiss the petition.

3. If the court concludes that facts sufficient to sustain the petition have been established by clear and convincing evidence, the court may order parental rights terminated. If the court terminates the parental rights of the child's natural or adoptive parents, the court shall transfer the guardianship and custody of the child to one of the following:

a. The department of human services.

b. A child placing agency or other suitable private agency, facility or institution which is licensed or otherwise authorized by law to receive and provide care for the child.

c. A relative or other suitable person.

4. If after a hearing the court does not order the termination of parental rights but finds that there is clear and convincing evidence that the child is a child in need of assistance, under section 232.2, subsection 6, due to the acts or omissions of one or both of the child's parents the court may adjudicate the child to be a child in need of assistance and may enter an order in accordance with the provisions of sections 232.100, 232.101 or 232.102.

5. If the court orders the termination of parental rights and transfers guardianship and custody under subsection 3, the guardian shall submit a case permanency plan to the court and shall make every effort to establish a stable placement for the child by adoption or other permanent placement. Within forty-five days of receipt of the termination order, and every forty-five days thereafter until the court determines such reports are no longer necessary, the guardian shall report to the court regarding efforts made to place the child for adoption or providing the rationale as to why adoption would not be in the child's best interest.

6. The guardian of each child whose guardianship and custody has been transferred under subsection 3 and who has not been placed for adoption shall file a written report with the court every six months concerning the child's placement. The court shall hold a hearing to review the placement at intervals not to exceed six months after the date of the termination of parental rights or the last placement review hearing.

7. The guardian of each child whose guardianship and custody has been transferred under subsection 3 and who has been placed for adoption and whose adoption has not been finalized shall file a written report with the court every six months concerning the child's placement. The court shall hold a hearing to review the placement at intervals not to exceed twelve months after the date of the adoptive placement or the last placement review hearing.

The court shall exclude the public from a hearing if the court determines that the possibility of damage or harm to the child outweighs the public's interest in having a public hearing. Upon closing the hearing, the court may admit persons who have a direct interest in the case or in the work of the court.

### **232.141 Expenses.**

1. Except as otherwise provided by law, the court shall inquire into the ability of the child or the child's parent to pay expenses incurred pursuant to subsection 2 and subsection 4 and, after giving the parent a reasonable opportunity to be heard, the court may order the parent to pay all or part of the costs of the child's care, examination, treatment, legal expenses, or other expenses. An order entered

under this section does not obligate a parent paying child support under a custody decree, except that part of the monthly support payment may be used to satisfy the obligations imposed by the order entered pursuant to this section. If a parent fails to pay as ordered, without good reason, the court may proceed against the parent for contempt and may inform the county attorney who shall proceed against the parent to collect the unpaid amount. Any payment ordered by the court shall be a judgment against each of the child's parents and a lien as provided in section 624.23. If all or part of the amount that the parents are ordered to pay is subsequently paid by the county or state, the judgment and lien shall thereafter be against each of the parents in favor of the county to the extent of the county's payments and in favor of the state to the extent of the state's payments.

2. Upon certification of the court, all of the following expenses are a charge upon the county in which the proceedings are held, to the extent provided in subsection 3:

a. The fees and mileage of witnesses and the expenses of officers serving notices and subpoenas.

b. Reasonable compensation for an attorney appointed by the court to serve as counsel or guardian ad litem.

3. Costs incurred under subsection 2 shall be paid as follows:

a. A county shall be required to pay for the fiscal year beginning July 1, 1989, an amount equal to the county's base cost for witness and mileage fees and attorney fees established pursuant to section 232.141, subsection 8, paragraph "d", Code 1989, for the fiscal year beginning July 1, 1988, plus an amount equal to the percentage rate of change in the consumer price index as tabulated by the federal bureau of labor statistics for the current year times the county's base cost.

b. A county's base cost for a fiscal year plus the percentage rate of change amount as computed in paragraph "a" is the county's base cost for the succeeding fiscal year. The amount to be paid in the succeeding year by the county shall be computed as provided in paragraph "a".

c. Costs incurred under subsection 2 which are not paid by the county under paragraphs "a" and "b" shall be reimbursed by the state. A county shall apply for reimbursement to the judicial department which shall prescribe rules and forms to implement this subsection.

4. Upon certification of the court, all of the following expenses are a charge upon the state to the extent provided in subsection 5:

b. The department shall receive billings for services provided and, after determining allowable costs, shall reimburse providers at a rate which is not greater than allowed by administrative rule. Reimbursement paid to a provider by the department shall be considered reimbursement in full unless a county voluntarily agrees to pay any difference between the reimbursement amount and the actual cost. When there are specific program regulations prohibiting supplementation those regulations shall be applied to providers requesting supplemental payments from a county. Billings for services not listed in administrative rule shall not be paid. However, if the court orders a service not currently listed in administrative rule, the department shall review the order and, if reimbursement

for the service of the department is not in conflict with other law or administrative rule, and meets the criteria of subsection 4, the department shall reimburse the provider.

6. If a child is given physical or mental examinations or treatment relating to a child abuse investigation with the consent of the child's parent, guardian, or legal custodian and no other provision of law otherwise requires payment for the costs of the examination and treatment, the costs shall be paid by the state. Reimbursement for costs of services described in this subsection is subject to subsection 5.

7. A county charged with the costs and expenses under subsections 2 and 3 may recover the costs and expenses from the county where the child has legal settlement by filing verified claims which are payable as are other claims against the county. The court shall exclude the public from a hearing if the court determines that the possibility of damage or harm to the child outweighs the public's interest in having an open hearing. Upon closing the hearing to the public, the court may admit those persons who have direct interest in the case or in the work of the court.

4. The hearing shall be informal and all relevant and material evidence shall be admitted.

The order shall direct the payment of the support obligation to the collection services center for the use of the department's foster care recovery unit. 2. Dependent adult abuse does not include:

a. Depriving a dependent adult of medical treatment if the dependent adult holds a belief or is an adherent of a religion whose tenets and practices call for reliance on spiritual means in place of reliance on medical treatment. However,

this provision does not preclude a court from ordering that medical service be provided to the dependent adult if the dependent adult's health requires it.

b. The withholding and withdrawing of health care from a dependent adult who is terminally ill in the opinion of a licensed physician, when the withholding and withdrawing of health care is done at the request of the dependent adult or at the request of the dependent adult's next-of-kin or guardian pursuant to the applicable procedures under chapter 125, 222, 229, or 633.

3. "*Dependent adult*" means a person eighteen years of age or older who is unable to protect the person's own interests or unable to adequately perform or obtain services necessary to meet essential human needs, as a result of a physical or mental condition which requires assistance from another, or as defined by departmental rule.

The program shall include:

a. The establishment of multidisciplinary teams to provide leadership at the local and district levels in the delivery of services to victims of dependent adult abuse. A team shall include a membership of individuals who possess knowledge and skills related to the diagnosis, assessment, and disposition of dependent adult abuse cases and who are professionals practicing in the disciplines of medicine, public health, mental health, social work, law, law enforcement, and other disciplines relative to dependent adults. Members of the team shall include, but are not limited to, persons representing the area agencies on aging, county attorneys, health care providers, and others involved in advocating or providing services for dependent adults.

c. Procedures for referral of cases among service providers, including the referral of victims of dependent adult abuse residing in licensed health care facilities.

7. a. A health practitioner, as defined in section 232.68, who examines, attends, or treats a dependent adult and who reasonably believes the dependent adult has suffered dependent adult abuse, shall report the suspected abuse to the department of human services. If the health practitioner examines, attends, or treats the dependent adult as a member of the staff of a hospital or similar institution, the health practitioner shall immediately notify the person in charge of the institution or the person's designated agent, and the person in charge or the designated agent shall make the report.

abuse shall report the suspected abuse to the department of human services. An in-home homemaker-home health aide or an individual employed as an outreach person shall report suspected adult abuse to the department of human services. If a person is required to report under this section as a member of the staff or employee of a public or private institution, agency, or facility, the person shall immediately notify the person in charge of the institution, agency, or facility, or the person's designated agent, and the person in charge or the designated agent shall make the report.

Any other person, including but not limited to a volunteer, who believes that a dependent adult has suffered abuse may report the suspected abuse to the department of human services.

The department shall receive dependent adult abuse reports and shall collect, maintain, and disseminate the reports pursuant to sections 235A.12 through 235A.23 by expanding the central registry for child abuse to include reports of dependent adult abuse. The department shall evaluate the reports expeditiously. However, the state department of inspections and appeals is solely responsible for the evaluation and disposition of adult abuse cases within health care facilities and shall inform the department of human services of such evaluations and dispositions.

b. The department of human services shall inform the appropriate county attorneys of any reports. County attorneys and appropriate law enforcement agencies shall take any lawful action necessary or advisable for the protection of the dependent adult.

The department may request information from any person believed to have knowledge of a case of dependent adult abuse. The person, including but not limited to a county attorney, a law enforcement agency, a multidisciplinary team, a social services agency, or a person required to report suspected abuse under this subsection, shall provide the information and assist in the evaluation upon the request of the department.

c. Upon a showing of probable cause that a dependent adult has been abused, a district court may authorize a person, authorized by the department to make an evaluation, to enter the residence of, and to examine the dependent adult.

8. a. If, upon completion of the evaluation or upon referral from the Iowa department of public health, the department of human services determines that the best interests of the dependent adult require district court action, the department shall initiate action for the appointment of a guardian or conservator or for admission or commitment to an appropriate institution or facility pursuant to the applicable procedures under chapter 125, 222, 229, or 633. The appropriate county attorney shall assist the department in the preparation of the necessary papers to initiate the action and shall appear and represent the department at all district court proceedings.

b. The department shall assist the district court during all stages of court proceedings involving a suspected case of adult abuse.

c. In every case involving adult abuse which is substantiated by the department and which results in a judicial proceeding on behalf of the dependent adult, legal counsel shall be appointed by the court to represent the dependent adult in the proceedings. The court may also appoint a guardian ad litem to represent the dependent adult if necessary to protect the dependent adult's best interests. The same attorney may be appointed to serve both as legal counsel and as guardian ad litem. Before legal counsel or a guardian ad litem is appointed pursuant to this section, the court shall require the dependent adult and any person legally responsible for the support of the dependent adult to complete under oath a detailed financial statement. If, on the basis of that financial statement, the court deems that the dependent adult or the legally responsible person is able to bear all or a portion of the cost of the legal counsel or guardian ad litem, the court shall

so order. In cases where the dependent adult or the legally responsible person is unable to bear the cost of the legal counsel or guardian ad litem, the expense shall be paid by the county.

9. The department of human services shall complete an assessment of needed services and shall make appropriate referrals to services. The department may provide necessary protective services and may establish a sliding fee schedule for those persons able to pay a portion of the protective services.

10. A person participating in good faith in reporting or cooperating or assisting the department of human services in evaluating a case of dependent adult abuse has immunity from liability, civil or criminal, which might otherwise be incurred or imposed based upon the act of making the report or giving the assistance. The person has the same immunity with respect to participation in good faith in a judicial proceeding resulting from the report or assistance or relating to the subject matter of the report or assistance.

It shall be unlawful for any person or employer to discharge, suspend, or otherwise discipline a person required to report or voluntarily reporting an instance of suspected dependent adult abuse pursuant to subsection 7, cooperating or assisting the department of human services in evaluating a case of dependent adult abuse, or participating in judicial proceedings relating to the reporting or assistance based solely upon the person's reporting or participation relative to the instance of dependent adult abuse. A person or employer found in violation of this paragraph shall, upon conviction, be guilty of a simple misdemeanor.

11. A person, institution, agency, or facility required by this section to report a suspected case of a dependent adult abuse who knowingly and willfully fails to do so is guilty of a simple misdemeanor. A person, institution, agency, or facility required by this section to report a suspected case of dependent adult abuse who knowingly fails to do so is civilly liable for the damages proximately caused by the failure.

12. The department of inspections and appeals shall adopt rules which require licensed health care facilities to separate an alleged dependent adult abuser from a victim following an allegation of perpetration of abuse and prior to the completion of an investigation of the allegation.

b. "*Victim counselor*" means a person who is engaged in a crime victim center, is certified as a counselor by the crime victim center, and is under the control of a direct services supervisor of a crime victim center, whose primary purpose is the rendering of advice, counseling, and assistance to the victims of crime. To qualify as a "*victim counselor*" under this section, the person must also have completed at least twenty hours of training provided by the center in which the person is engaged, by the Iowa organization of victim assistance, by the Iowa coalition against sexual abuse, or by the Iowa coalition against domestic violence, which shall include but not be limited to, the dynamics of victimization, substantive laws relating to violent crime, sexual assault, and domestic violence, crisis intervention techniques, communication skills, working with diverse populations, an overview of the state criminal justice system, information regarding pertinent hospital procedures, and information regarding state and community resources for victims of crime.

c. "*Crime victim center*" means any office, institution, agency, or crisis center offering assistance to victims of crime and their families through crisis intervention, accompaniment during medical and legal proceedings, and follow-up counseling.

d. "*Confidential communication*" means information shared between a crime victim and a victim counselor within the counseling relationship, and includes all information received by the counselor and any advice, report, or working paper given to or prepared by the counselor in the course of the counseling relationship with the victim.

Confidential information is confidential information which, so far as the victim is aware, is not disclosed to a third party with the exception of a person present in the consultation for the purpose of furthering the interest of the victim, a person to whom disclosure is reasonably necessary for the transmission of the information, or a person with whom disclosure is necessary for accomplishment of the purpose for which the counselor is consulted by the victim.

2. A victim counselor shall not be examined or required to give evidence in any civil or criminal proceeding as to any confidential communication made by a victim to the counselor, nor shall a clerk, secretary, stenographer, or any other employee who types or otherwise prepares or manages the confidential reports or working papers of a victim counselor be required to produce evidence of any such confidential communication, unless the victim waives this privilege in writing or disclosure of the information is compelled by a court pursuant to subsection 7. Under no circumstances shall the location of a crime victim center or the identity of the victim counselor be disclosed in any civil or criminal proceeding.

3. If a victim is deceased or has been declared to be incompetent, this privilege specified in subsection 2 may be waived by the guardian of the victim or by the personal representative of the victim's estate.

4. A minor may waive the privilege under this section unless, in the opinion of the court, the minor is incapable of knowingly and intelligently waiving the privilege, in which case the parent or guardian of the minor may waive the privilege on the minor's behalf if the parent or guardian is not the defendant and does not have such a relationship with the defendant that the parent or guardian has an interest in the outcome of the proceeding being favorable to the defendant.

5. The privilege under this section does not apply in matters of proof concerning the chain of custody of evidence, in matters of proof concerning the physical appearance of the victim at the time of the injury or the counselor's first contact with the victim after the injury, or where the counselor has reason to believe that the victim has given perjured testimony and the defendant or the state has made an offer of proof that perjury may have been committed.

6. The failure of a counselor to testify due to this section shall not give rise to an inference unfavorable to the cause of the state or the cause of the defendant.

7. Upon the motion of a party, accompanied by a written offer of proof, a court may compel disclosure of certain information if the court determines that all of the following conditions are met:

a. The information sought is relevant and material evidence of the facts and circumstances involved in an alleged criminal act which is the subject of a criminal proceeding.

b. The probative value of the information outweighs the harmful effect, if any, of disclosure on the victim, the counseling relationship, and the treatment services.

c. The information cannot be obtained by reasonable means from any other source.

8. In ruling on a motion under subsection 7, the court, or a different judge, if the motion was filed in a criminal proceeding to be tried to the court, shall adhere to the following procedure:

a. The court may require the counselor from whom disclosure is sought or the victim claiming the privilege, or both, to disclose the information in chambers out of the presence and hearing of all persons except the victim and any other persons the victim is willing to have present.

b. If the court determines that the information is privileged and not subject to compelled disclosure, the information shall not be disclosed by any person without the consent of the victim.

c. If the court determines that certain information may be subject to disclosure, as provided in subsection 7, the court shall so inform the party seeking the information and shall order a subsequent hearing out of the presence of the jury, if any, at which the parties shall be allowed to examine the counselor regarding the information which the court has determined may be subject to disclosure. The court may accept other evidence at that time.

d. At the conclusion of a hearing under paragraph "c", the court shall determine which information, if any, shall be disclosed and may enter an order describing the evidence which may be introduced by the moving party and prescribing the line of questioning which may be permitted. The moving party may then offer evidence pursuant to the court order. However, no victim counselor is subject to exclusion under Iowa rule of evidence 615.

9. This section does not relate to the admission of evidence of the victim's past sexual behavior which is strictly subject to Iowa rule of evidence 412.

d. Individuals and families whose incomes and resources are such that they are eligible for federal supplementary security income or aid to dependent children, but who are not actually receiving such public assistance.

e. Individuals who are receiving state supplementary assistance as defined by section 249.1 or other persons whose needs are considered in computing the recipient's assistance grant.

f. Individuals under twenty-one years of age who qualify on a financial basis for, but who are otherwise ineligible to receive aid to dependent children.

a. An individual or family whose income, considered to be available to the individual or family, exceeds federally prescribed limitations.

b. An individual or family whose resources, considered to be available to the individual or family, exceed federally prescribed limitations.

6. In determining the eligibility of an individual for medical assistance under this chapter, for resources transferred to the individual's spouse before October 1, 1989, or to a person other than the individual's spouse before July 1, 1989, the department shall include, as resources still available to the individual, those nonexempt resources or interests in resources, owned by the individual within the preceding twenty-four months, which the individual gave away or sold at less than fair market value for the purpose of establishing eligibility for medical assistance under this chapter.

a. A transaction described in this subsection is presumed to have been for the purpose of establishing eligibility for medical assistance under this chapter unless the individual furnishes convincing evidence to establish that the transaction was exclusively for some other purpose.

b. The value of a resource or an interest in a resource in determining eligibility under this subsection is the fair market value of the resource or interest at the time of the transaction less the amount of any compensation received.

c. If a transaction described in this subsection results in uncompensated value exceeding twelve thousand dollars, the department shall provide by rule for a period of ineligibility which exceeds twenty-four months and has a reasonable relationship to the uncompensated value above twelve thousand dollars.

7. In determining the eligibility of an individual for medical assistance under this chapter, the department shall consider resources transferred to the individual's spouse on or after October 1, 1989, or to a person other than the individual's spouse on or after July 1, 1989, as provided under the federal Social Security Act, section 1917(c), as codified in 42 U.S.C. §1396p(c), as amended.

### **249A.4 Duties of director.**

The director shall be responsible for the effective and impartial administration of this chapter and shall, in accordance with the standards and priorities established by this chapter, by applicable federal law, by the regulations and directives issued pursuant to federal law, and by the state plan approved in accordance with federal law, make rules, establish policies, and prescribe procedures to implement this chapter. Without limiting the generality of the foregoing delegation of authority, the director is hereby specifically empowered and directed to:

1. Determine the greatest amount, duration, and scope of assistance which may be provided, and the broadest range of eligible individuals to whom assistance may effectively be provided, under this chapter within the limitations of available funds. In so doing, the director shall at least every six months evaluate the scope of the program currently being provided under this chapter, project the probable cost of continuing a like program, compare such probable cost with the remaining balance of the state appropriation made for payment of assistance under this chapter during the current appropriation period, and expand or curtail the program accordingly; provided that reimbursement for medical and health services shall be made in accordance with subsection 9. After each evaluation of the scope of the program, the director shall report to the general assembly through the legislative council or in another manner as the general assembly may by resolution direct.

2. Have authority to determine, when available funds permit expansion of the program provided under this chapter beyond the minimum scope required by subsection 1 of this section, whether priority shall be given to providing additional medical assistance to the individuals and families described in section 249A.3, subsection 1, or to providing medical assistance to some or all of the individuals and families described in section 249A.3, subsection 2, unless the general assembly has by law made such determination.

3. Have authority to provide for payment under this chapter of assistance rendered to any applicant prior to the date the application is filed.

4. Have authority to contract with any corporation authorized to engage in this state in insuring groups or individuals for all or part of the cost of medical, hospital, or other health care or with any corporation maintaining and operating a medical, hospital, or health service prepayment plan under the provisions of chapter 514 or with any health maintenance organization authorized to operate in this state, for any or all of the benefits to which any recipients are entitled under this chapter to be provided by such corporation or health maintenance organization on a prepaid individual or group basis.

5. May, to the extent possible, contract with a private organization or organizations whereby such organization will handle the processing of and the payment of claims for services rendered under the provisions of this chapter and under such rules and regulations as shall be promulgated by such department. The state department may give due consideration to the advantages of contracting with any organization which may be serving in Iowa as "intermediary" or "carrier" under Title XVIII of the federal Social Security Act, as amended.

6. Shall co-operate with any agency of the state or federal government in any manner as may be necessary to qualify for federal aid and assistance for medical assistance in conformity with the provisions of chapter 249, this chapter and Titles XVI and XIX of the federal Social Security Act, as amended.

7. Shall provide for the professional freedom of those licensed practitioners who determine the need for or provide medical care and services, and shall provide freedom of choice to recipients to select the provider of care and services, except when the recipient is eligible for participation in a health maintenance organization or prepaid health plan which limits provider selection and which is approved by the department. However, this shall not limit the freedom of choice to recipients to select providers in instances where such provider services are eligible for reimbursement under the medical assistance program but are not provided under the health maintenance organization or under the prepaid health plan, or where the recipient has an already established program of specialized medical care with a particular provider. The department may also restrict the recipient's selection of providers to control the individual recipient's overuse of care and services, provided the department can document this overuse. The department shall promulgate rules for determining the overuse of services, including rights of appeal by the recipient.

8. Shall advise and consult at least semiannually with a council composed of the president, or the president's representative who is a member of the professional organization represented by the president, of the Iowa medical society, the Iowa osteopathic medical association, the Iowa state dental society, the Iowa state nurses association, the Iowa pharmacists association, the Iowa podiatry society, the Iowa optometric association, the community mental health centers association of Iowa, the Iowa psychological association, the Iowa hospital association, the Iowa osteopathic hospital association, opticians' association of Iowa, Inc., the Iowa hearing aid society, the Iowa speech, language, and hearing association, the Iowa health care association, the Iowa association for home care, the Iowa council of health care centers, and the Iowa association of homes for the aging, together with one person designated by the Iowa state board of chiropractic examiners; one state representative from each of the two major political parties appointed by the speaker of the house, one state senator from each of the two major political parties appointed by the majority leader of the senate, each for a term of two years; the president or the president's representative of the association for retarded citizens; four public representatives, appointed by the governor for staggered terms of two years each, none of whom shall be members of, or practitioners of, or have a pecuniary interest in any of the professions or businesses represented by any of the several professional groups and associations specifically represented on the council under this subsection, and at least one of whom shall be a recipient of medical assistance; the director of public health, or a representative designated by the director; and the dean of the college of medicine, university of Iowa, or a representative designated by the dean.

For each council meeting, other than those held during the time the general assembly is in session, each legislative member of the council shall be reimbursed for actual traveling and other necessary expenses and shall receive a per diem of forty dollars for each day in attendance, as shall the public representatives, regardless of whether the general assembly is in session.

9. Determine the method and level of reimbursement for all medical and health services referred to in section 249A.2, subsection 1 or 6, after considering all of the following:

a. The promotion of efficient and cost-effective delivery of medical and health services.

b. Compliance with federal law and regulations.

c. The level of state and federal appropriations for medical assistance.

d. Reimbursement at a level as near as possible to actual costs and charges after priority is given to the considerations in paragraphs "a", "b", and "c".

10. Shall provide for granting an opportunity for a fair hearing before the director of human services or the director's authorized representative to any individual whose claim for medical assistance under this chapter is denied or is not acted upon with reasonable promptness.

11. In determining the medical assistance eligibility of a pregnant woman, infant, or child under the federal Social Security Act, §1902(l), resources which are used as tools of the trade shall not be considered.

12. In determining the medical assistance eligibility of a pregnant woman, infant, or child under the federal Social Security Act, §1902(l), or pursuant to section 249A.3, subsection 2, paragraph "g", the department shall establish resource standards and exclusions not less generous than the resource standards and exclusions adopted pursuant to section 255A.5, if in compliance with federal laws and regulations.

Judicial review of the actions of the director or department may be sought in accordance with the terms of the Iowa administrative procedure Act. In the event a petition for judicial review is filed, the director or the director's authorized representative shall furnish the petitioner with a copy of the application and all supporting papers, a transcript of the testimony taken at the hearing, if any, and a copy of its decision.

### 249A.6 Subrogation.

1. When payment is made by the department for medical care or expenses through the medical assistance program on behalf of a recipient, the department is subrogated, to the extent of those payments, to all monetary claims which the recipient may have against third parties. A compromise, including but not limited to a settlement, waiver or release, of a claim to which the department is subrogated under this section does not defeat the department's right of recovery except pursuant to the written agreement of the director or the director's designee or except as provided in this section. A settlement, award, or judgment structured in any manner not to include medical expenses or an action brought by a recipient or on behalf of a recipient which fails to state a claim for recovery of medical expenses does not defeat the department's right of subrogation if there is any recovery on the recipient's claim unless the claim for recovery of medical expenses is barred by an applicable statute of limitation, or the legal representative of the medical assistance recipient does not represent the person or persons who have legal standing to bring the claim for recovery of medical expenses. In such situations, the legal representative shall notify the department of the situation; the department may then notify the person or persons having legal standing to bring the claim of the right to proceed with the claim against the third-party tort-feasor. Should the person or persons elect not to proceed, the department may then proceed in a separate action with a claim to recover its subrogation interest.

2. The department shall be given notice of monetary claims against third parties as follows:

a. Applicants for medical assistance shall notify the department of any possible claims against third parties upon submitting the application. Recipients of medical assistance shall notify the department of any possible claims when those claims arise.

b. A person who provides health care services to a person receiving assistance through the medical assistance program shall notify the department whenever the person has reason to believe that third parties may be liable for payment of the costs of those health care services.

c. An attorney representing an applicant for or recipient of assistance on a claim to which the department is subrogated under this section shall notify the department of the claim of which the attorney has actual knowledge, prior to filing a claim, commencing an action or negotiating a settlement offer.

The mailing and deposit in a United States post office or public mailing box of the notice, addressed to the department at its state or district office location, is adequate legal notice of the claim.

3. The subrogation rights of the department are valid and binding on an attorney, insurer, or other third party only upon notice by the department or unless the insurer or third party has actual notice that the recipient is receiving medical assistance from the department and only to the extent to which the attorney, insurer, or third party has not made payment to the recipient or an assignee of the recipient prior to the notice. Payment of benefits by an insurer or third party pursuant to the subrogation rights of this section discharges the attorney, insurer, or third party from liability to the recipient or the recipient's assignee to the extent of the payment to the department.

4. If a recipient of assistance through the medical assistance program incurs the obligation to pay attorney fees and court costs for the purpose of enforcing a monetary claim to which the department is subrogated under this section, upon the receipt of a judgment or settlement of the claim, the court costs and reasonable attorney fees shall first be deducted from the judgment or settlement. One-third of the remaining balance shall then be deducted and paid to the recipient. From the remaining balance, the claim of the department shall be paid. Any amount remaining shall be paid to the recipient. An attorney acting on behalf of a recipient of medical assistance for the purpose of enforcing a claim to which the department is subrogated shall not collect from the recipient any amount as attorney fees which is in excess of the amount which the attorney customarily would collect on claims not subject to this section.

5. For purposes of this section the term "third party" includes an attorney, individual, institution, corporation, or public or private agency which is or may be liable to pay part or all of the medical costs incurred as a result of injury, disease or disability by or on behalf of an applicant for or recipient of assistance under the medical assistance program.

2. A parent in one state is hereby declared to be liable for the support of the parent's child or children under eighteen years of age residing or found in the same state or in another state having substantially similar or reciprocal laws, whenever the other parent of such child or children is dead, or cannot be found, or is incapable of supporting the child or children, and, if the liable parent is possessed of sufficient means or able to earn the means. The court having jurisdiction of the respondent in a proceeding instituted under this chapter shall establish the respondent's monthly support payment and the amount of the support debt accrued and accruing pursuant to section 598.21, subsection 4.

3. The parents in one state are hereby declared to be severally liable for the support of a dependent child eighteen years of age or older residing or found in the same state or in another state having substantially similar or reciprocal laws, whenever such child is unable to maintain the child's self and is likely to become a public charge.

4. A child or children born of parents who, at any time prior or subsequent to the birth of such child, have entered into a civil or religious marriage ceremony, shall be deemed the legitimate child or children of both parents, regardless of the validity of such marriage.

### **252A.6 How commenced—trial.**

1. A proceeding under this chapter shall be commenced by a petitioner, or a petitioner's representative, by filing a verified petition in the court in equity in the county of the state wherein the petitioner resides or is domiciled, showing the name, age, residence and circumstances of the petitioner, alleging that the petitioner is in need of and is entitled to support from the respondent, giving the respondent's name, age, residence and circumstances, and praying that the respondent be compelled to furnish such support. The petitioner may include in or

attach to the petition any information which may help in locating or identifying the respondent including, but without limitation by enumeration, a photograph of the respondent, a description of any distinguishing marks of the respondent's person, other names and aliases by which the respondent has been or is known, the name of the respondent's employer, the respondent's fingerprints, or social security number.

2. If the respondent be a resident of or domiciled in such state and the court has or can acquire jurisdiction of the person of the respondent under existing laws in effect in such state, such laws shall govern and control the procedure to be followed in such proceeding.

3. If the court of this state acting as an initiating state finds that the petition sets forth facts from which it may be determined that the respondent owes a duty of support and that a court of the responding state may obtain jurisdiction of the respondent or the respondent's property, it shall so certify and shall cause three copies of (a) the petition (b) its certificate and (c) this chapter to be transmitted to the court in the responding state. If the name and address of such court is unknown and the responding state has an information agency comparable to that established in the initiating state it shall cause such copies to be transmitted to the state information agency or other proper official of the responding state, with a request that it forward them to the proper court, and that the court of the responding state acknowledge their receipt to the court of the initiating state.

4. When the court of this state, acting as a responding state, receives from the court of an initiating state the aforesaid copies, it shall docket the cause, notify the county attorney or other official acting as petitioner's representative, set a time and place for a hearing, and take such action as is necessary in accordance with the laws of this state to serve notice and thus obtain jurisdiction over the respondent. If a court of the state, acting as a responding state, is unable to obtain jurisdiction of the respondent or the respondent's property due to inaccuracies or inadequacies in the petition or otherwise, the court shall communicate this fact to the court in the initiating state, shall on its own initiative use all means at its disposal to trace the respondent or the respondent's property, and shall hold the case pending the receipt of more accurate information or an amended petition from the court in the initiating state.

However, if the court of the responding state is unable to obtain jurisdiction because the respondent resides in or is domiciled or found in another county of the responding state, the papers received from the court of the initiating state may be forwarded by the court of the responding state which received the papers to the court of the county in the responding state in which the respondent resides or is domiciled or found, and the court of the initiating state shall be notified of the transfer. The court of the county where the respondent resides or is domiciled or found shall acknowledge receipt of the papers to both the court of the initiating state and the court of the responding state which forwarded them, and shall take full jurisdiction of the proceedings with the same powers as if it had received the papers directly from the court of the initiating state.

5. It shall not be necessary for the petitioner or the petitioner's witnesses to appear personally at such hearing, but it shall be the duty of the petitioner's representative of the responding state to appear on behalf of and represent the petitioner at all stages of the proceeding.

6. If at such hearing the respondent controverts the petition and enters a verified denial of any of the material allegations thereof, the judge presiding at such hearing shall stay the proceedings and transmit to the judge of the court in the initiating state a transcript of the clerk's minutes showing the denials entered by the respondent.

7. Upon receipt by the judge of the court in the initiating state of such transcript, such court shall take such proof, including the testimony of the

petitioner and the petitioner's witnesses and such other evidence as the court may deem proper, and, after due deliberation, the court shall make its recommendation, based on all of such proof and evidence, and shall transmit to the court in the responding state an exemplified transcript of such proof and evidence and of its proceedings and recommendation in connection therewith.

8. Upon the receipt of such transcript, the court in the responding state shall resume its hearing in the proceeding and shall give the respondent a reasonable opportunity to appear and reply.

9. Upon the resumption of such hearing, the respondent shall have the right to examine or cross-examine the petitioner and the petitioner's witnesses by means of depositions or written interrogatories, and the petitioner shall have the right to examine or cross-examine the respondent and the respondent's witnesses by means of depositions or written interrogatories.

10. If a respondent, duly summoned by a court in the responding state, willfully fails without good cause to appear as directed in the summons, the respondent shall be punished in the same manner and to the same extent as is provided by law for the punishment of a defendant or witness who willfully disobeys a summons or subpoena duly issued out of such court in any other action or proceeding cognizable by said court.

11. If, on the return day of the summons, the respondent appears at the time and place specified in the summons and fails to answer the petition or admits the allegations of the petition, or, if, after a hearing has been duly held by the court in the responding state in accordance with this section, the court has found and determined that the prayer of the petitioner, or any part of the prayer, is supported by the evidence adduced in the proceeding, and that the petitioner is in need of and entitled to support from the respondent, the court shall make and enter an order directing the respondent to furnish support to the petitioner and to pay a sum as the court determines pursuant to section 598.21, subsection 4. A certified copy of the order shall be transmitted by the court to the court in the initiating state and the copy shall be filed with and made a part of the records of the court in the proceeding. Upon the respondent's failure to pay the support under the order, the court may declare the security, bond, or other guarantee forfeited.

12. The court making such order may require the respondent to make payment at specified intervals to the clerk of the district court, or to the dependent, or to any state or county agency, and to report personally to the sheriff or any other official, at such times as may be deemed necessary.

15. Any order of support issued by a court of the state acting as a responding state shall not supersede any previous order of support issued in a divorce or separate maintenance action, but the amounts for a particular period paid

pursuant to either order shall be credited against amounts accruing or accrued for the same period under both.

16. The court of the initiating state shall receive and accept all payments made by the respondent to the probation department or bureau of the court of the responding state and transmitted by the latter on behalf of the respondent. Upon receipt of any such payment, and under such rules as the court of the initiating state may prescribe, the court, or its probation department or bureau, as the court may direct, shall deliver such payment to the dependent person entitled thereto, take a proper receipt and acquittance therefor, and keep a permanent record thereof.

2. The payment of public assistance to or for the benefit of a dependent child or a dependent child's caretaker creates a support debt due and owing to the department by the responsible person in an amount equal to the public assistance payment, except that the support debt is limited to the amount of a support obligation established by court order or by the administrator. If a court order has not been entered, the administrator may establish a support debt, both as to amounts accrued and accruing, pursuant to section 598.21, subsection 4. However,

If a court order has not been entered, the administrator may establish a support debt in favor of the individual or the individual's child or ward and against the responsible person, both as to amounts accrued and accruing, pursuant to section 598.21, subsection 4.

4. The department is subrogated to the rights of a dependent child or a dependent child's caretaker to bring a court action or to execute an administrative remedy for the collection of support. The administrator may petition an appropriate court for modification of a court order on the same grounds as a party to the court order can petition the court for modification.

3. The court shall set the matter for hearing and notify the parties of the time and place of hearing.

g. All students physically able shall be required to participate in physical education activities during each semester they are enrolled in school except as otherwise provided in this paragraph. A minimum of one-eighth unit each semester is required. A student who wishes to be excused from the physical education requirement must be enrolled in a cooperative or work-study program or other educational program authorized by the school which requires the student to leave the school premises for specified periods of time during the school day or be seeking to be excused in order to enroll in academic courses not otherwise available to the student.

A student may be excused by the principal of the school in which the student is enrolled, in consultation with the student's counselor, for up to one semester, trimester, or the equivalent of a semester or trimester, per year if the parent or guardian of the student requests in writing that the student be excused from the physical education requirement. The student seeking to be excused from the physical education requirement must, at some time during the period for which the excuse is sought, be a participant in an organized and supervised athletic program which requires at least as much time of participation per week as one-eighth unit of physical education.

The principal of the school shall inform the superintendent of the school district or nonpublic school that the student has been excused. Physical education activities shall emphasize leisure time activities which will benefit the student outside the school environment and after graduation from high school.

Upon request of the board of directors of a public school district or the authorities in charge of a nonpublic school, the director may, for a number of years to be specified by the director, grant the district board or the authorities in charge of the nonpublic school exemption from one or more of the requirements of the educational program specified in subsection 5. The exemption may be renewed. Exemptions shall be granted only if the director deems that the request made is an essential part of a planned innovative curriculum project which the director determines will adequately meet the educational needs and interests of the pupils and be broadly consistent with the intent of the educational program as defined in subsection 5.

The request for exemption shall include all of the following:

a. Rationale of the project to include supportive research evidence.

b. Objectives of the project.

c. Provisions for administration and conduct of the project, including the use of personnel, facilities, time, techniques, and activities.

b. Effective July 1, 1990, unless a waiver has been obtained under section 256.11A, each school or school district shall have a qualified school media specialist who shall meet the licensing standards prescribed by the board of educational examiners and shall be responsible for supervision of the media centers. Each school or school district shall establish a media center, in each attendance center, which shall be accessible to students throughout the school day.

9A. Each school or school district shall provide an articulated sequential guidance program for grades kindergarten through twelve. Until July 1, 1991, a school or school district may obtain a waiver from meeting the requirements of this subsection pursuant to section 256.11A. The guidance counselor shall meet the licensing standards of the board of educational examiners.

10. The state board shall establish an accreditation process for school districts and nonpublic schools seeking accreditation pursuant to this subsection and subsections 11 and 12. As required in section 256.17, by July 1, 1989, all school districts shall meet standards for accreditation. For the school year commencing July 1, 1989 and school years thereafter, the department of education shall use a two-phase process for the continued accreditation of schools and school districts.

Phase I consists of annual monitoring by the department of education of all accredited schools and school districts for compliance with accreditation standards adopted by the state board of education as provided by section 256.17. The phase I monitoring requires that accredited school districts and schools annually complete accreditation compliance forms adopted by the state board and file them with the department of education. In addition, employees of the department of education shall complete at least one on-site visit each year to each accredited school and school district to review the educational programs and the information included in the compliance forms.

Phase II requires the use of an accreditation committee, appointed by the director of the department of education, to conduct an on-site visit to an accredited school or school district if any of the following conditions exist:

a. When the annual monitoring of phase I indicates that a school or school district may be deficient or fails to be in compliance with accreditation standards.

b. In response to a petition filed with the director requesting such a committee visitation that is signed by twenty percent or more of the registered voters of a school district.

c. In response to a petition filed with the director requesting such a committee visitation that is signed by twenty percent or more of the parents or guardians who have children enrolled in the school or school district.

d. At the direction of the state board of education.

The number and composition of the membership of an accreditation committee shall be determined by the director and may vary due to the specific nature or reason for the visit. In all situations, however, the chairperson and a majority of the committee membership shall be from the instructional and administrative program specialty staff of the department of education. Other members may include instructional and administrative staff from school districts, area education agencies, institutions of higher education, local board members and the general public. An accreditation committee visit to a nonpublic school requires membership on the committee from nonpublic school instructional or administrative staff or board members. A member of a committee shall not have a direct interest in the nonpublic school or school district being visited.

Rules adopted by the state board may include provisions for coordination of the accreditation process under this section with activities of accreditation associations.

Prior to a visit to a school district or nonpublic school, members of the accreditation committee shall have access to all annual accreditation report information filed with the department by that nonpublic school or school district.

After visiting the school district or nonpublic school, the accreditation committee shall determine whether the accreditation standards have been met and shall make a report to the director, together with a recommendation whether the school district or nonpublic school shall remain accredited. The accreditation committee shall report strengths and weaknesses, if any, for each standard and shall advise the school or school district of available resources and technical assistance to

further enhance strengths and improve areas of weakness. A school district or nonpublic school may respond to the accreditation committee's report.

11. The director shall review the accreditation committee's report, and the response of the school district or nonpublic school, and provide a report and recommendation to the state board along with copies of the accreditation committee's report, the response to the report, and other pertinent information. The state board shall determine whether the school district or nonpublic school shall remain accredited. If the state board determines that a school district or nonpublic school should not remain accredited, the director, in cooperation with the board of directors of the school district, or authorities in charge of the nonpublic school, shall establish a plan prescribing the procedures that must be taken to correct deficiencies in meeting the standards, and shall establish a deadline date for completion of the procedures. The plan is subject to approval of the state board.

12. During the period of time specified in the plan for its implementation by a school district or nonpublic school, the school or school district remains accredited. The accreditation committee shall revisit the school district or nonpublic school and shall determine whether the deficiencies in the standards have been corrected and shall make a report and recommendation to the director and the state board. The state board shall review the report and recommendation, may request additional information, and shall determine whether the deficiencies have been corrected. If the deficiencies have not been corrected, the state board shall merge the territory of the school district with one or more contiguous school districts. Division of assets and liabilities of the school district shall be as provided in sections 275.29 through 275.31. Until the merger is completed, the school district shall pay tuition for its resident students to an accredited school district under section 282.24.

13. Notwithstanding subsections 1 through 12 and as an exception to their requirements, a private high school or private combined junior-senior high school operated for the express purpose of teaching a program designed to qualify its graduates for matriculation at accredited four-year or equivalent liberal arts, scientific, or technological colleges or universities shall be placed on a special accredited list of college preparatory schools, which list shall signify accreditation of the school for that express purpose only, if:

a. The school complies with minimum standards established by the Code other than this section, and rules adopted under the Code, applicable to:

- (1) Courses comprising the limited program.
- (2) Health requirements for personnel.
- (3) Plant facilities.
- (4) Other environmental factors affecting the programs.

b. At least eighty percent of those graduating from the school within the four most recent calendar years, other than those graduating who are aliens, graduates entering military or alternative civilian service, or graduates deceased or incapacitated before college acceptance, have been accepted by accredited four-year or equivalent liberal arts, scientific, or technological colleges or universities.

c. A school claiming to be a private college preparatory school which fails to comply with the requirement of paragraph "b" of this subsection shall be placed on the special accredited list of college preparatory schools probationally if the school complies with the requirements of paragraph "a" of this subsection, but a probational accreditation shall not continue for more than four successive years.

14. Notwithstanding subsections 1 through 13 and as an exception to their requirements, a nonpublic grade school which is reopening is accredited even if it does not have a complete grade one through grade six program. However, the nonpublic grade school must comply with other minimum standards established

by law and administrative rules adopted pursuant to the law and the nonpublic grade school must show progress toward reaching a grade one through grade six program.

The procedures specified in subsection 5 apply to the request.

If a waiver is approved under subsection 5, the school district or school shall meet the requirements of section 256.11, subsection 9, paragraph "a", Code Supplement 1987, for the period for which the waiver is approved.

5. A request for a waiver filed by the board of directors of a school district or authorities in charge of a nonpublic school shall describe actions being taken by the district or school to meet the requirement for which the district or school has requested a waiver. The approved pilot projects shall also be as geographically distributed throughout the state as possible.

5. The school districts participating in the approved pilot project shall conduct in-service training for all licensed instructional and noninstructional personnel regarding the modified block scheduling, between the date notified by the state board of education regarding approval of the pilot project and September 1. #### YOUTH 2000 COORDINATING COUNCIL

### **256.40 Findings.**

It is the intent of the general assembly that greater collaboration and coordination are necessary among state agencies in addressing the many challenges faced by Iowa in assuring the full development of the state's youth into the productive work force necessary for the twenty-first century. Public policy attention must be placed upon the needs of at-risk adolescents and adolescents in at-risk communities. Iowa youth are at risk of a variety of personal and social problems including drug abuse and dependency, adult criminal activities, school dropout, juvenile delinquency, adolescent suicide, and adolescent pregnancy, all of which can lead to adult unemployment and welfare dependency. Approaches to such adolescent problems should be dealt with in a comprehensive and coordinated fashion that involves the family, schools, community programs serving youth, and the private sector in providing positive youth alternatives. The state should play a significant role in aiding in such collaborative efforts within local communities.

2. Establish minimum guidelines for comprehensive early child development services for at-risk three-year- and four-year-old children. The guidelines shall reflect current research findings on the necessary components for cost-effective child development services.

3. At least biennially, develop an inventory of child development services provided to at-risk three-year- and four-year-old children in this state and identify the number of children receiving and not receiving these services, the types of programs under which the services are received, the degree to which each program meets the council's minimum guidelines for a comprehensive program, and the reasons children not receiving the services are not being served. The council is not required to conduct independent research in developing the inventory, but shall determine information needs necessary to provide a more complete inventory.

4. Make recommendations to the department of education and the general assembly regarding appropriate curricula and staff qualifications and training for early elementary education, coordination of the curricula with child development programs, and the development of an at-risk children definition for use in school-district-sponsored early elementary and before and after school child care programs.

5. Subject to the availability of funds appropriated or otherwise available for the purpose of providing child development services, award grants for programs that provide new or additional child development services to at-risk children.

In awarding program grants to an agency or individual, the council shall consider the following:

a. The quality of the staff and staff background in child development services.

b. The degree to which the program is or will be integrated with existing community resources and has the support of the local community.

c. The ability of the program to provide for child care in addition to child development services for families needing full-day child care.

d. A staff-to-children ratio within the guidelines established under subsection 2, but not less than one staff member per eight children.

e. The degree to which the program involves and works with the parents, and includes home visits, instruction for parents on parenting skills, on enhancement of skills in providing for their children's learning and development, and the physical, mental, and emotional development of children, and experiential education.

f. The manner in which health, medical, dental, and nutrition services are incorporated into the program.

g. The degree to which the program complements existing programs and services for at-risk three-year- and four-year-old children available in the area, including other day-care services, services provided through the school district, and services available through area education agencies.

h. The degree to which the program can be monitored and evaluated to determine its ability to meet its goals.

i. The provision of transportation or other auxiliary services that may be necessary for families to participate in the program.

j. The provision of staff training and development, and staff compensation sufficient to assure continuity.

Program grants funded under this subsection may integrate children not meeting at-risk criteria into the program and shall establish a fee for participation in the program in the manner provided in section 279.49, but grant funds shall not be used to pay the costs for those children.

6. Encourage the submission of grant requests from all potential providers of child development services and shall be flexible in evaluating grants, recognizing that different types of programs may be suitable for different locations in the state. However, requests for grants must contain a procedure for evaluating the effectiveness of the program and accounting procedures for monitoring the expenditure of grant moneys.

The council shall seek to use performance-based measures to evaluate programs. Not more than five percent of any state funds appropriated for child development purposes may be used for administration and evaluation.

7. Encourage the establishment of regional councils designed to facilitate the development on a regional basis of programs for at-risk three-year- and four-year-old children.

8. Annually, submit recommendations to the governor and the general assembly on the need for investment in child development services in the state.

9. Subject to a decision by the council to initiate the programs, develop criteria for and award grants under section 279.51, subsection 2.

10. Encourage the establishment of programs that will enhance the skills of parents in parenting and in providing for the learning and development of their children.

## CHAPTER 257

### FINANCING SCHOOL PROGRAMS

Chapter takes effect July 1, 1990, for purpose of computations required for budget year beginning July 1, 1991; 89 Acts, ch 135, §141 HF 535

Chapter repealed effective July 1, 2001; 89 Acts, ch 135, §135 HF 535

#### 257.1 State school foundation program—state aid.

1. *Program established.* A state school foundation program is established for the school year commencing July 1, 1991, and succeeding school years.

2. *State school foundation aid—foundation base.* For a budget year, each school district in the state is entitled to receive foundation aid, in an amount per pupil equal to the difference between the amount per pupil of foundation property tax in the district, and the combined foundation base per pupil or the combined district cost per pupil, whichever is less. However, if the amount of foundation aid

received by a school district under this chapter is less than three hundred dollars per pupil, the district is entitled to receive three hundred dollars per pupil unless the receipt of three hundred dollars per pupil plus the per pupil amount raised by the foundation property tax exceeds the combined district cost per pupil of the district for the budget year. In that case, the district is entitled to receive an amount per pupil equal to the difference between the per pupil amount raised by the foundation property tax for the budget year and the combined district cost per pupil for the budget year.

For the budget year commencing July 1, 1991, the regular program foundation base per pupil is eighty-three and five-tenths percent of the regular program state cost per pupil. For each succeeding budget year, the regular program foundation base shall increase twenty-five hundredths percent per year until the regular program foundation base reaches eighty-five percent of the regular program state cost per pupil. For the budget year commencing July 1, 1991, the special education support services foundation base is eighty-three and five-tenths percent of the special education support services state cost per pupil. It shall increase at the same rate as the regular program foundation base. The combined foundation base is the sum of the regular program foundation base and the special education support services foundation base.

3. *Computations rounded.* In making computations and payments under this chapter, except in the case of computations relating to funding of special education support services, media services, and educational services provided through the area education agencies, the department of management shall round amounts to the nearest whole dollar.

### 257.3 Foundation property tax.

1. *Amount of tax.* Except as provided in subsection 2, a school district shall cause to be levied each year, for the school general fund, a foundation property tax equal to five dollars and forty cents per thousand dollars of assessed valuation on all taxable property in the district. The county auditor shall spread the foundation levy over all taxable property in the district.

### 257.4 Additional property tax.

1. *Computation of tax.* A school district shall cause an additional property tax to be levied each year. The rate of the additional property tax levy in a school district shall be determined by the department of management and shall be calculated to raise the difference between the combined district cost for the budget year and the sum of the products of the regular program foundation base per pupil times the weighted enrollment in the district and the special education support services foundation base per pupil times the special education support services weighted enrollment in the district.

2. *Application of tax.* No later than May 1 of each year, the department of management shall notify the county auditor of each county the amount, in dollars and cents per thousand dollars of assessed value, of the additional property tax levy in each school district in the county. A county auditor shall spread the additional property tax levy for each school district in the county over all taxable property in the district.

### 257.5 Continuation of supplemental aid.

For purposes of this section, a reorganized school district is one in which reorganization was approved in an election pursuant to sections 275.18 and 275.20 before July 1, 1989.

A reorganized school district receiving supplemental aid prior to July 1, 1991, under section 442.9A, shall continue to receive supplemental aid in the amount provided under that section for the five-year period specified in that section.

There is appropriated from the general fund of the state to the department of management for each fiscal year an amount sufficient to pay the supplemental aid to school districts under this section. Supplemental aid shall be paid in the manner provided in section 257.16.

For the purpose of the department of management's determination of the portion of a school district's budget that was property tax and the portion that was state aid under section 257.36, supplemental aid shall be considered property tax.

### 257.6 Enrollment.

1. *Actual enrollment.* Actual enrollment is determined on the third Friday of September in each year and includes all of the following:

a. Resident pupils who were enrolled in public schools within the district in grades kindergarten through twelve and including prekindergarten pupils enrolled in special education programs.

b. Full-time equivalent resident pupils of high school age for which the district pays tuition to attend an Iowa area school.

c. Shared-time and part-time pupils of school age enrolled in public schools within the district, irrespective of the districts in which the pupils reside, in the proportion that the time for which they are enrolled or receive instruction for the school year is to the time that full-time pupils carrying a normal course schedule, at the same grade level, in the same school district, for the same school year, are enrolled and receive instruction. Tuition charges to the parent or guardian of a shared-time or part-time nonresident pupil shall be reduced by the amount of any increased state aid received by the district by the counting of the pupil.

d. Eleventh and twelfth grade nonresident pupils who were residents of the district during the preceding school year and are enrolled in the district until the pupils graduate. Tuition for those pupils shall not be charged by the district in which the pupils are enrolled and the requirements of section 282.18 do not apply.

Pupils attending a university laboratory school are not counted in the actual enrollment of a school district, but the laboratory school shall report their enrollment directly to the department of education.

A school district shall certify its actual enrollment to the department of education by October 1 of each year, and the department shall promptly forward the information to the department of management. The department of management shall determine whether a district is entitled to an advance for increasing enrollment on the basis of its actual enrollment.

2. *Basic enrollment.* Basic enrollment for a budget year is a district's actual enrollment for the base year. Basic enrollment for the base year is a district's actual enrollment for the year preceding the base year.

3. *Additional enrollment because of special education.* A school district shall determine its additional enrollment because of special education, as defined in this section, on December 1 of each year and shall certify its additional enrollment because of special education to the department of education by December 15 of each year, and the department shall promptly forward the information to the department of management.

For the purposes of this chapter, "*additional enrollment because of special education*" is determined by multiplying the weighting of each category of child under section 281.9 times the number of children in each category totaled for all categories minus the total number of children in all categories.

4. *Budget enrollment.* Budget enrollment for the budget year shall be calculated for each school district by the department of management in the manner provided in this subsection. If the basic enrollment of a school district has declined from one year to the next during any of the five years prior to the base year, the district may be eligible for an enrollment adjustment based upon the percent of

the enrollment decline and the number of years that have elapsed since the decline occurred. The budget enrollment for the budget year shall be calculated by adding together the following percents of enrollment decline in the district's basic enrollment from one base year to the preceding base year for each of the five preceding base years, commencing with the percent of change between the basic enrollment for the budget year and the basic enrollment for the base year, adding the sum of the percents to one hundred and multiplying the total by the basic enrollment for the budget year:

Percent of Decline	Years between the Base Year and the Year of Decline				
	1	2	3	4	5
Less than 1	0	0	0	0	0
1.0 through 2.9	2	2	1	1	0
3.0 through 4.9	4	3	2	2	1
5.0 through 6.9	6	5	4	3	2
7.0 and over	8	7	5	4	3

However, if a district's actual enrollment for a budget year is greater than its budget enrollment, the district is eligible for an advance for increasing enrollment as provided in section 257.13.

5. *Weighted enrollment.* Weighted enrollment is the budget enrollment plus the district's additional enrollment because of special education calculated on December 1 of the base year plus additional pupils added due to the application of the supplementary weighting.

Weighted enrollment for special education support services costs is equal to the weighted enrollment minus the additional pupils added due to the application of the supplementary weighting.

**257.7 Authorized expenditures.**

1. *Budgets.* School districts are subject to chapter 24. The authorized expenditures of a school district during a base year shall not exceed the lesser of the budget for that year certified under section 24.17 plus any allowable amendments permitted in this section, or the authorized budget, which is the sum of the district cost for that year, the actual miscellaneous income received for that year, and the actual unspent balance from the preceding year.

2. *Budget amendments.* If actual miscellaneous income for a budget year exceeds the anticipated miscellaneous income in the certified budget for that year, or if an unspent balance has not been previously certified, a school district may amend its certified budget.

89 Acts, ch 135, §7 HF 535

**257.8 State percent of growth—allowable growth.**

1. *Calculation by department of management.* On or before September 15, 1990, the department of management shall compute a state percent of growth for the budget year beginning July 1, 1991, and a state percent of growth for the year next following the budget year.

On or before each September 15 thereafter, the department of management shall compute a state percent of growth for the budget year next following the budget year. The state percents of growth shall be forwarded to the director of the department of education.

2. *Budget year calculation.* For the budget year commencing July 1, 1991, the state percent of growth is an average of the following four percents of growth in paragraphs "a" and "b" except as otherwise provided in subsection 4:

a. The difference in the percents of change in receipts of state general fund revenues, computed or estimated by the state revenue estimating conference created in section 8.22A as follows:

(1) The percent of change between the revenues received during the second year preceding the base year and the revenues received during the year preceding the base year.

(2) The percent of change between the revenues received during the year preceding the base year and the revenues received during the base year.

For the purpose of this lettered paragraph, receipts of state general fund revenues do not include one-time nonrecurring receipts or receipts that are accounting transactions made to meet the requirements of 1986 Iowa Acts, chapter 1238, section 59.

b. The difference in the gross national product implicit price deflators, based to the extent possible on the latest available values for these deflators, published by the bureau of economic analysis, United States department of commerce, computed or estimated as a percent of change as follows:

(1) From the value for the year ending December 31 eighteen months before the beginning of the base year to the value for the year ending December 31 six months before the beginning of the base year.

(2) From the value for the year ending December 31 six months before the beginning of the base year to the value for the year ending December 31 in the base year.

3. *Calculation for year following budget year.* For the year following the budget year, the state percent of growth is an average of the following four percents of growth in paragraphs "a" and "b", except as provided in subsection 4:

a. The difference in the percents of change in receipts of state general fund revenues computed or estimated by the state revenue estimating conference created in section 8.22A as follows:

(1) The percent of change between the revenues received during the year preceding the base year and the revenues received during the base year.

(2) The percent of change between the revenues received during the base year and the revenues received during the budget year.

For the purpose of this lettered paragraph, receipts of state general fund revenues do not include one-time nonrecurring receipts or receipts that are accounting transactions made to meet the requirements of 1986 Iowa Acts, chapter 1238, section 59.

b. The difference in the gross national product implicit price deflators, based to the extent possible on the latest available values for those deflators published by the bureau of economic analysis, United States department of commerce, computed or estimated as a percent of change as follows:

(1) From the value for the year ending December 31 six months before the beginning of the base year to the value for the year ending December 31 six months before the beginning of the budget year.

(2) From the value for the year ending December 31 six months before the beginning of the budget year to the value for the year ending December 31 during the budget year.

4. *Exception.* If the average of the percents computed or estimated under paragraph "b" of subsection 2 or 3 exceeds the average of the percents computed or estimated under paragraph "a" of the applicable subsection, the state percent of growth for that budget year shall be the average of the two percents of growth computed or estimated under paragraph "a" of the applicable subsection.

5. *Negative percent.* If the state percent of growth computed for a budget year is negative, that percent shall not be used and the state percent of growth shall be zero.

6. *Recomputation.* On or before September 15 of the base year the department of management shall recompute the state percent of growth for the previous year using adjusted estimates and the actual figures available. The difference between the recomputed state percent of growth for the previous year and the original computation shall be added to or subtracted from the state percent of growth for the budget year next following the budget year, as applicable. However, on or before September 15, 1990, the department of management shall recompute the state percent of growth for the previous year in the manner provided in section 442.7, Code 1989.

With regard to values of gross national product implicit price deflators, the recomputation of the state percent of growth for the previous year shall be made only with respect to the value of the deflator for the year which occurred subsequent to the calculation of the state percent of growth for the previous year. If subsection 4 is used in the calculation of the state percent of growth for the previous year, the calculation made in subsection 3, paragraph "b", shall not be used in the recomputation of the state percent of growth for the previous year.

7. *Allowable growth calculation.* The department of management shall calculate the regular program allowable growth for a budget year by multiplying the state percent of growth for the budget year by the regular program state cost per pupil for the base year and shall calculate the special education support services allowable growth for the budget year by multiplying the state percent of growth for the budget year by the special education support services state cost per pupil for the base year.

8. *Combined allowable growth.* The combined allowable growth per pupil for each school district is the sum of the regular program allowable growth per pupil and the special education support services allowable growth per pupil for the budget year, which may be modified as follows:

- a. By the school budget review committee under section 257.31.
- b. By the department of management under section 257.36.

### **257.9 State cost per pupil.**

1. *Regular program state cost per pupil for 1991-1992.* For the budget year beginning July 1, 1991, for the regular program state cost per pupil, the department of management shall add together the state total of the district costs of all school districts for the base year, as district cost is defined in section 442.9, Code 1989, plus the total of the amounts added to the district cost of school districts pursuant to section 442.21, Code 1989, plus the amount included in the districts' budgets in the state for the fiscal year beginning July 1, 1986, for the additional portion of the livestock tax credit pursuant to section 442.2, subsection 2, as it appeared in the 1987 Code and plus the difference between the following amounts:

- a. The general allocation of the school district as determined under section 405A.2, Code 1989.
- b. The foundation property tax rate multiplied by the total actual value of all personal property assessed for valuation in the school district as of January 1, 1973, excluding livestock.

The total calculated under this subsection shall be divided by the total of the budget enrollments of all school districts for the budget year beginning July 1, 1990, calculated under section 257.6, subsection 4, if section 257.6, subsection 4, had been in effect for that budget year. The regular program state cost per pupil for the budget year beginning July 1, 1991, is the amount calculated by the department of management under this subsection plus an allowable growth amount that is equal to the state percent of growth for the budget year multiplied by the amount calculated by the department of management under this subsection.

2. *Regular program state cost per pupil for 1992-1993 and succeeding years.* For the budget year beginning July 1, 1992, and succeeding budget years, the regular program state cost per pupil for a budget year is the regular program state cost per pupil for the base year plus the regular program allowable growth for the budget year.

3. *Special education support services state cost per pupil for 1991-1992.* For the budget year beginning July 1, 1991, for the special education support services state cost per pupil, the department of management shall divide the total of the approved budgets of the area education agencies for special education support services for that year approved by the state board of education under section 273.3, subsection 12, by the total of the weighted enrollment for special education support services in the state for the budget year. The special education support services state cost per pupil for the budget year is the amount calculated by the department of management under this subsection.

4. *Special education support services state cost per pupil for 1992-1993 and succeeding years.* For the budget year beginning July 1, 1992, and succeeding budget years, the special education support services state cost per pupil for the budget year is the special education support services state cost per pupil for the base year plus the special education support services allowable growth for the budget year.

5. *Combined state cost per pupil.* The combined state cost per pupil is the sum of the regular program state cost per pupil and the special education support services state cost per pupil.

89 Acts, ch 135, §9 HF 535  
NEW section

### **257.10 District cost per pupil—district cost.**

1. *Regular program district cost per pupil for 1991-1992.* For the budget year beginning July 1, 1991, in order to determine the regular program district cost per pupil, the department of management shall divide the regular program district cost for the base year, as defined in section 442.9, Code 1989, plus the amount added to district cost pursuant to section 442.21, Code 1989, for each school district, by the budget enrollment of the school district for the budget year beginning July 1, 1990, calculated under section 257.6, subsection 4, as if section 257.6, subsection 4, had been in effect for that budget year. The regular program district cost per pupil for the budget year beginning July 1, 1991, is the amount calculated by the department of management under this subsection plus the allowable growth amount calculated for regular program state cost per pupil, except that if the regular program district cost per pupil for the budget year calculated under this subsection in any school district exceeds one hundred ten percent of the regular program state cost per pupil for the budget year, the department of management shall reduce the regular program district cost per pupil of that district to an amount equal to one hundred ten percent of the state cost per pupil, and if the regular program district cost per pupil for the budget year calculated under this subsection is less than the regular program state cost per pupil, the regular program district cost per pupil shall be increased to the regular program state cost per pupil.

2. *Regular program district cost per pupil for 1992-1993 and succeeding years.*

a. For the budget year beginning July 1, 1992, and succeeding budget years, the regular program district cost per pupil for each school district for a budget year is the regular program district cost per pupil for the base year plus the regular program allowable growth for the budget year except as otherwise provided in this subsection.

b. If the regular program district cost per pupil of a school district for the budget year under paragraph "a" exceeds one hundred five percent of the regular program state cost per pupil for the budget year and the state percent of growth

for the budget year is greater than two percent, the regular program district cost per pupil for the budget year for that district shall be reduced to one hundred five percent of the regular program state cost per pupil for the budget year. However, if the difference between the regular program district cost per pupil for the budget year and the regular program state cost per pupil for the budget year is greater than an amount equal to two percent multiplied by the regular program state cost per pupil for the base year, the regular program district cost per pupil for the budget year shall be reduced by the amount equal to two percent multiplied by the regular program state cost per pupil for the base year.

3. *Special education support services district cost per pupil for 1991-1992.* For the budget year beginning July 1, 1991, for the special education support services district cost per pupil, the department of management shall divide the approved budget of each area education agency for special education support services for that year approved by the state board of education, under section 273.3, subsection 12, by the total of the weighted enrollment for special education support services in the area for that budget year.

The special education support services district cost per pupil for each school district in an area for the budget year is the amount calculated by the department of management under this subsection.

4. *Special education support services district cost per pupil for 1992-1993 and succeeding years.* For the budget year beginning July 1, 1992, and succeeding budget years, the special education support services district cost per pupil for the budget year is the special education support services district cost per pupil for the base year plus the special education support services allowable growth for the budget year.

5. *Combined district cost per pupil.* The combined district cost per pupil for a school district is the sum of the regular program district cost per pupil and the special education support services district cost per pupil. Combined district cost per pupil does not include additional allowable growth added for school districts that have a negative balance of funds raised for special education instruction programs, additional allowable growth granted by the school budget review committee for a single school year, or additional allowable growth added for programs for dropout prevention and for programs for gifted and talented children.

6. *Regular program district cost.* Regular program district cost for a school district for a budget year is equal to the regular program district cost per pupil for the budget year multiplied by the weighted enrollment for the budget year.

7. *Special education support services district cost.* Special education support services district cost for a school district for a budget year is equal to the special education support services district cost per pupil for the budget year multiplied by the special education support services weighted enrollment for the district for the budget year. If the special education support services district cost for a school district for a budget year is less than the special education support services district cost for that district for the base year, the department of management shall adjust the special education support services district cost for that district for the budget year to equal the special education support services district cost for the base year.

8. *Combined district cost.* Combined district cost is the sum of the regular program district cost and the special education support services district cost, plus the additional district cost allocated to the district to fund media services and educational services provided through the area education agency.

A school district may increase its district cost for the budget year to the extent that an excess tax levy is authorized by the school budget review committee.

### 257.11 Supplementary weighting plan.

In order to provide additional funds for school districts which send their resident pupils to another school district or to an area school for classes, which jointly employ and share the services of teachers under section 280.15, which use the services of a teacher employed by another school district, or which jointly employ and share the services of a school superintendent under section 280.15 or 273.7A, a supplementary weighting plan for determining enrollment is adopted as follows:

1. *Regular curriculum.* Pupils in a regular curriculum attending all their classes in the district in which they reside, taught by teachers employed by that district, and having administrators employed by that district, are assigned a weighting of one.

2. *Shared classes or teachers.* If the school budget review committee certifies to the department of management that the shared classes or teachers would otherwise not be implemented without the assignment of additional weighting, pupils attending classes in another school district or an area school, attending classes taught by a teacher who is employed jointly under section 280.15, or attending classes taught by a teacher who is employed by another school district, are assigned a weighting of one plus an additional portion equal to one times the percent of the pupil's school day during which the pupil attends classes in another district or area school, attends classes taught by a teacher who is jointly employed under section 280.15, or attends classes taught by a teacher who is employed by another school district.

3. *Whole grade sharing.* For the budget years beginning July 1, 1991, and July 1, 1992, in districts that have executed whole grade sharing agreements under sections 282.10 through 282.12, the school budget review committee shall assign an additional weighting equal to one plus an additional portion of one times the percent of the pupil's school day in which a pupil attends classes in another district or an area school, attends classes taught by a teacher who is employed jointly under section 280.15, or attends classes taught by a teacher who is employed by another district. The assignment of additional weighting to a school district shall continue for a period of five years. If the school district reorganizes during that five-year period, the assignment of the additional weighting shall be transferred to the reorganized district until the expiration of the five-year period. If a school district was receiving additional weighting for whole grade sharing under section 442.39, subsection 2, Code 1989, the district shall continue to be assigned additional weighting for whole grade sharing by the school budget review committee under this subsection so that the district is assigned the additional weighting for whole grade sharing for a total period of five years.

4. *Pupils ineligible.* A pupil eligible for the weighting plan provided in section 281.9 is not eligible for the weighting plan provided in this section.

5. *Shared superintendents.* For the budget years beginning July 1, 1991, and July 1, 1992, pupils enrolled in a school district in which the superintendent is employed jointly under section 280.15 or under section 273.7A, are assigned a weighting of one plus an additional portion of one for the superintendent who is jointly employed times the percent of the superintendent's time in which the superintendent is employed in the school district. However, the total additional weighting assigned under this subsection for a budget year for a school district shall not exceed seven and one-half and the total additional weighting added cumulatively to the enrollment of school districts sharing a superintendent shall not exceed twelve and one-half. The assignment of additional weighting to a school district shall continue for a period of five years. If the school district reorganizes during that five-year period, the assignment of the additional weighting shall be transferred to the reorganized district until the expiration of the five-year period.

If a district was receiving additional weighting for superintendent sharing or administrator sharing under section 442.39, subsection 4, Code 1989, the district shall continue to be assigned additional weighting for superintendent sharing or administrator sharing by the school budget review committee under this subsection so that the district is assigned the additional weighting for sharing for a total period of five years.

6. *Shared mathematics, science, and language courses.* For the budget years beginning July 1, 1991, and July 1, 1992, a school district receiving additional funds under subsection 2 or 3 for its pupils at the ninth grade level and above that are enrolled in sequential mathematics courses at the advanced algebra level and above; chemistry, advanced chemistry, physics or advanced physics courses; or foreign language courses at the second year level and above shall have an additional weighting of one pupil added to its total.

7. *Calculation of weights.* The school budget review committee shall calculate the weights to be used under subsections 2 and 3 to the nearest one-hundredth of one and under subsection 5 to the next highest one-thousandth of one. To the extent possible, the moneys generated by the weighting shall be equivalent to the moneys generated by the one-tenth, five-tenths, and twenty-five thousandths weighting provided in section 442.39, Code 1989.

### **257.12 Supplementary weighting and school reorganization.**

A reorganized school district in which additional pupils were added under section 442.39A, Code 1989, shall continue to have additional pupils added, subject to changes in weighting made under section 257.11, until the expiration of the five-year period provided in section 442.39A, Code 1989.

### **257.13 Advance for increasing enrollment.**

If a district's actual enrollment for the budget year, determined under section 257.6, is greater than its budget enrollment for the budget year, the district is granted an advance from the state of an amount equal to its regular program district cost per pupil for the budget year multiplied by the difference between the actual enrollment for the budget year and the budget enrollment for the budget year. The advance is miscellaneous income.

If a district receives an advance under this section for a budget year, the department of management shall determine the amount of the advance which would have been generated by local property tax revenues if the actual enrollment for the budget year had been used in determining district cost for that budget year, shall reduce the district's total state school aids otherwise available under this chapter for the next following budget year by the amount so determined, and shall increase the district's additional property tax levy for the next following budget year by the amount necessary to compensate for the reduction in state aid, so that the local property tax for the next following year will be increased only by the amount which it would have been increased in the budget year if the enrollment calculated in this section could have been used to establish the levy.

There is appropriated each fiscal year from the general fund of the state to the department of education the amount required to pay advances authorized under this section, which shall be paid to school districts in the same manner as other state aids are paid under section 257.16.

### **257.14 Budget adjustment.**

For the budget years commencing July 1, 1991, and July 1, 1992, if the department of management determines that the regular program district cost of

a school district for a budget year is less than the total of the regular program district cost plus any adjustment added under this section for the base year for that school district, the department of management shall provide a budget adjustment for that district for that budget year that is equal to the difference.

For the budget year beginning July 1, 1991, the department of management shall use the regular program district cost for that budget year of a school district calculated pursuant to chapter 442, Code 1989, plus the amount added to district cost pursuant to section 442.21, Code 1989, as the district's base year regular program district cost.

### **257.15 Property tax adjustment.**

1. *Property tax adjustment for 1991-1992.* For the budget year beginning July 1, 1991, the department of management shall calculate for each district the difference between the sum of the revenues generated by the foundation property tax and the additional property tax in the district calculated under this chapter and the revenues that would have been generated by the foundation property tax and the additional property tax in that district for that budget year calculated under chapter 442, Code 1989, if chapter 442 were in effect, except that the revenues that would have been generated by the additional property tax levy under chapter 442 shall not include revenues generated for the school improvement program. If the property tax revenues for a district calculated under this chapter exceed the property tax revenues for that district calculated under chapter 442, Code 1989, the department of management shall reduce the revenues raised by the additional property tax levy in that district under this chapter by that difference and the department of education shall pay property tax adjustment aid to the district equal to that difference from moneys appropriated for property tax adjustment aid.

2. *Property tax adjustment aid for 1992-1993 and succeeding years.* For the budget year beginning July 1, 1992, and succeeding budget years, the department of education shall pay property tax adjustment aid to a school district equal to the amount paid to the district for the base year less an amount equal to the product of the percent by which the taxable valuation in the district increased, if the taxable valuation increased, from January 1 of the year prior to the base year to January 1 of the base year and the property tax adjustment aid. The department of management shall adjust the rate of the additional property tax accordingly and notify the department of education of the amount of aid to be paid to each district from moneys appropriated for property tax adjustment aid.

3. *Property tax adjustment aid appropriation.* There is appropriated from the general fund of the state to the department of education, for each fiscal year, an amount necessary to pay property tax adjustment aid to school districts under this section. Property tax adjustment aid shall be paid to school districts in the manner provided in section 257.16.

All state aids paid under this chapter, unless otherwise stated, shall be paid in monthly installments beginning on September 15 of a budget year and ending on June 15 of the budget year and the installments shall be as nearly equal as possible as determined by the department of management, taking into consideration the relative budget and cash position of the state resources. However, the

state aid paid to school districts under section 257.13 shall be paid in monthly installments beginning on December 15 and ending on June 15 of a budget year.

All moneys received by a school district from the state under this chapter shall be deposited in the general fund of the school district, and may be used for any school general fund purpose.

However, this section does not apply to a school district that has received approval from the director of the department of education under section 279.10, subsection 4, to commence classes for regularly established elementary and secondary schools in advance of the starting date established in section 279.10, subsection 1.

The board shall set forth its proposal, including the method that will be used to fund the program, in a resolution and shall publish the notice of the time and place of a public hearing on the resolution. Notice of the time and place of the public hearing shall be published in one or more newspapers not less than ten nor more than twenty days before the public hearing. For the purpose of establishing and giving assured circulation to the proceedings, only a newspaper which is a newspaper of general circulation issued at a regular frequency, distributed in the school district's area, and regularly delivered or mailed through the post office during the preceding two years may be used for the publication. In addition, the newspaper must have a list of subscribers who have paid, or promised to pay, at more than a nominal rate, for copies to be received during a stated period. At the hearing, the board shall announce a date certain, no later than thirty days after the date of the hearing, that it will take action to adopt a resolution to participate in the instructional support program for a period not exceeding five years or to direct the county commissioner of elections to call an election to submit the question of participation in the program for a period not exceeding ten years to the qualified electors of the school district at the next following regular school election in the base year or a special election held not later than December 1 of the base year. If the board calls an election on the question of participation, if a majority of those voting on the question favors participation in the program, the board shall adopt a resolution to participate and certify the results of the election to the department of management.

2. If the board does not provide for an election and adopts a resolution to participate in the instructional support program, the district shall participate in the instructional support program unless within twenty-eight days following the action of the board, the secretary of the board receives a petition containing the required number of signatures, asking that an election be called to approve or disapprove the action of the board in adopting the instructional support program. The petition must be signed by eligible electors equal in number to not less than one hundred or thirty percent of the number of voters at the last preceding regular school election, whichever is greater. The board shall either rescind its action or direct the county commissioner of elections to submit the question to the qualified

electors of the school district at the next following regular school election or a special election held not later than December 1 of the base year. If a majority of those voting on the question at the election favors disapproval of the action of the board, the district shall not participate in the instructional support program. If a majority of those voting on the question favors approval of the action, the board shall certify the results of the election to the department of management and the district shall participate in the program.

At the expiration of the twenty-eight day period, if no petition is filed, the board shall certify its action to the department of management and the district shall participate in the program.

### **257.19 Instructional support funding.**

The additional funding for the instructional support program for a budget year is limited to an amount not exceeding ten percent of the total of regular program district cost for the budget year and moneys received under section 257.14 as a budget adjustment for the budget year. In order to determine the amount of instructional support state aid and the amount of local funding for the instructional support program for a district, the department of management shall divide the total assessed valuation in the state by the total budget enrollment for the budget year in the state to determine a state assessed valuation per pupil and shall divide the assessed valuation in each district by the district's budget enrollment for the budget year to determine the district assessed valuation per pupil. The department of management shall multiply the ratio of the state's valuation per pupil to the district's valuation per pupil by twenty-five hundredths and subtract that result from one to determine the portion of the instructional support program budget that is local funding. The remaining portion of the budget shall be funded by instructional support state aid.

There is appropriated for each fiscal year from the general fund of the state to the department of education, an amount necessary to pay instructional support state aid as provided in this section. 3. The committee shall review the proposed budget and certified budget of each school district, and may make recommendations. The committee may make decisions affecting budgets to the extent provided in this chapter. 5. If a district has unusual circumstances, creating an unusual need for additional funds, including but not limited to the following circumstances, the committee may grant supplemental aid to the district from any funds appropriated to the department of education for the use of the school budget review committee for the purposes of this subsection, and such aid shall be miscellaneous income and shall not be included in district cost, or may establish a modified allowable growth for the district by increasing its allowable growth, or both:

- a. Any unusual increase or decrease in enrollment.
- b. Unusual natural disasters.
- c. Unusual initial staffing problems.
- d. The closing of a nonpublic school, wholly or in part.
- e. Substantial reduction in miscellaneous income due to circumstances beyond the control of the district.

The committee may grant transportation assistance aid to a school district from funds appropriated in this subsection for the purpose of providing additional funds for a budget year to school districts that have costs for mandatory school transportation based upon the cost per pupil transported that exceed one hundred ten percent of the state average cost of mandatory school transportation based upon the cost per pupil transported. School districts shall submit to the department of education the cost of providing mandatory school transportation in their transportation report filed by July 15 after each school year. The committee shall prioritize the requests of school districts ranking the districts by their mandatory transportation costs based upon the costs per pupil transported with consideration given to the geographic size of the district. Within the limits of the funds appropriated in this subsection, the committee shall pay transportation assistance to those districts ranked in the highest priority based upon the criteria listed in this subsection. The committee shall adopt rules under chapter 17A establishing a procedure for prioritizing requests. Transportation assistance payments are equal to the amount that each district's cost of mandatory transportation based upon the cost per pupil transported exceeds one hundred ten percent of the state average cost of transportation based upon the cost per pupil transported multiplied by the number of pupils transported. Payment for a school year shall be made by September 1 after each school year.

School districts shall also submit in their transportation report long-term plans to reduce their transportation costs. The long-term plans may include, but are not limited to, more efficient use of transportation resources, consolidation of transportation systems, or contracting with regional municipal or private transit systems. The school budget review committee shall review the long-range plans and make recommendations concerning reducing transportation costs to the school districts.

7. The committee shall establish a modified allowable growth for a district by increasing its allowable growth when the district submits evidence that it requires additional funding for removal, management, or abatement of environmental hazards due to a state or federal requirement. Environmental hazards shall include but are not limited to the presence of asbestos, radon, or the presence of any other hazardous material dangerous to health and safety.

The district shall include a budget for the actual cost of the project that may include the costs of inspection, reinspection, sampling, analysis, assessment, response actions, operations and maintenance, training, periodic surveillance, developing of management plans, recordkeeping requirements, and encapsulation or removal of the hazardous material.

8. The committee may authorize a district to spend a reasonable and specified amount from its unexpended cash balance for either of the following purposes:

a. Furnishing, equipping, and contributing to the construction of a new building or structure for which the voters of the district have approved a bond issue as provided by law or the tax levy provided in section 298.2.

b. The costs associated with the demolition of an unused school building, or the conversion of an unused school building for community use, in a school district involved in a dissolution or reorganization under chapter 275, if the costs are incurred within three years of the dissolution or reorganization.

Other expenditures, including but not limited to expenditures for salaries or recurring costs, are not authorized under this subsection. Expenditures autho-

Any part of the amount not actually spent for the authorized purpose shall revert to its former status as part of the unexpended cash balance.

9. The committee may approve or modify the initial base year district cost of any district which changes accounting procedures.

10. When the committee makes a decision under subsections 3 through 9, it shall make all necessary changes in the district cost, budget, and tax levy. It shall give written notice of its decision, including all such changes, to the school board through the department of education.

11. A special needs adjustment program is established to be administered by the committee. A school district or area education agency is eligible to request additional funding for a budget year from moneys appropriated in this subsection if it submits evidence to the committee not later than December 15 of the base year that it has special needs that cannot be met through other funding sources available to it. A school district is eligible only if it meets the requirements specified in paragraphs "a" and "b". An area education agency is eligible only if it meets the requirements specified in paragraph "c".

a. A school district must meet the following requirements:

(1) If the request for additional funding relates to approved expenditures from the general operating fund, the district must have approved the instructional support program for the maximum amount.

(2) If the request for additional funding relates to expenditures from the schoolhouse fund, the district must have approved the use of the voter-approved physical plant and equipment levy for the maximum amount.

(3) If the request for additional funding relates to a need included in subsection 5, the district must have been denied additional funding under subsection 5 or received inadequate additional funding under subsection 5.

(4) Notwithstanding subparagraph 1, if the request for additional funding relates to expenditures for programs for gifted and talented children, the committee must have approved the maximum amount of additional allowable growth for programs for gifted and talented children.

(5) Notwithstanding subparagraph 1, if the request for additional funding relates to expenditures for programs for dropout prevention, the committee must have approved the maximum amount of additional allowable growth for programs for dropout prevention.

(6) If the expenditures of the school district for executive administration as a percent of the district's operating fund for the base year are equal to or less than one hundred ten percent of the average for the base year expenditures for executive administration of all school districts in the state as a percent of their operating funds.

b. A school district must meet at least one of the following criteria:

(1) The district is experiencing significant difficulty in meeting minimum state educational standards.

(2) The district is greater in area than one hundred fifty square miles.

(3) The district is experiencing extraordinary problems demonstrably linked to the demographic characteristics of that district.

(4) The average elementary or secondary pupil-teacher ratio of that district is greater than one hundred fifty percent of the state average pupil-teacher ratio.

c. An area education agency must meet the requirements that there are fewer than three and one-half public school pupils per square mile in the area education agency and the ratio of public school pupils to each professional staff member is substantially fewer than that ratio in other area education agencies. If the request for additional funding relates to a need included in section 257.32, the area

education agency must have been denied additional funding under section 257.32 or received inadequate additional funding under section 257.32. Approved payments to area education agencies shall be paid before payments are made to school districts.

*d.* There is appropriated from the general fund of the state to the department of education for the use of the committee for each fiscal year the sum of five million dollars, or so much thereof as may be necessary, to be used for distribution to area education agencies and school districts under this subsection. Not more than three hundred thousand dollars of the moneys appropriated in this paragraph shall be distributed to area education agencies.

If the moneys appropriated in this paragraph are reduced by the general assembly, the three hundred thousand dollar allocation for area education agencies shall be proportionally reduced.

12. All decisions by the committee under this chapter shall be made in accordance with reasonable and uniform policies which shall be consistent with this chapter. All such policies of general application shall be stated in rules adopted in accordance with chapter 17A. The committee shall take into account the intent of this chapter to equalize educational opportunity, to provide a good education for all the children of Iowa, to provide property tax relief, to decrease the percentage of school costs paid from property taxes, and to provide reasonable control of school costs. The committee shall also take into account the amount of funds available.

13. Failure by any school district to provide information or appear before the committee as requested for the accomplishment of review or hearing is justification for the committee to instruct the director of the department of management to withhold any state aid to that district until the committee's inquiries are satisfied completely.

14. The committee shall review the recommendations of the director of the department of education relating to the special education weighting plan, and shall establish a weighting plan for each school year pursuant to section 281.9, and report the plan to the director of the department of education.

15. The committee may recommend that two or more school districts jointly employ and share the services of any school personnel, or acquire and share the use of classrooms, laboratories, equipment, and facilities as specified in section 280.15.

16. As soon as possible following June 30 of the base year, the school budget review committee shall determine for each school district the balance of funds, whether positive or negative, raised for special education instruction programs under the special education weighting plan established in section 281.9. The committee shall certify the balance of funds for each school district to the director of the department of management.

In determining the balance of funds of a school district under this subsection, the committee shall subtract the amount of any reduction in state aid that occurred as a result of a reduction in allotments made by the governor under section 8.31.

*a.* If the amount certified for a school district to the director of the department of management under this subsection for the base year is positive, the director of the department of management shall subtract the amount of the positive balance from the amount of state aid remaining to be paid to the district during the budget year. If the positive amount exceeds the amount of state aid that remains to be paid to the district, the school district shall pay the excess on a quarterly basis prior to June 30 of the budget year to the director of the department of management from other funds received by the district. The director of the department of management shall determine the amount of the positive balance that came from local property tax revenues and shall increase the district's total

state school aids available under this chapter for the next following budget year by the amount so determined and shall reduce the district's tax levy computed under section 257.4 for the next following budget year by the amount necessary to compensate for the increased state aid.

b. If the amount certified for a school district to the director of the department of management under this subsection for the base year is negative, the director of the department of management shall determine the amount of the deficit that would have been state aid and the amount that would have been property taxes for each eligible school district.

There is appropriated from the general fund of the state to the school budget review committee for each fiscal year an amount equal to the state aid portion of five percent of the receipts for special education instruction programs in all districts that has a positive balance determined under paragraph "a" for the base year, or the state aid portion of all of the positive balances determined under paragraph "a" for the base year, whichever is less, to be used for supplemental aid payments to school districts. Except as otherwise provided in this lettered paragraph, supplemental aid paid to a district is equal to the state aid portion of the district's negative balance. The school budget review committee shall direct the director of the department of management to make the payments to school districts under this lettered paragraph.

A school district is only eligible to receive supplemental aid payments during the budget year if the school district certifies to the school budget review committee that for the year following the budget year it will notify the school budget review committee to instruct the director of the department of management to increase the district's allowable growth and will fund the allowable growth increase either by using moneys from its unexpended cash balance to reduce the district's property tax levy or by using cash reserve moneys to equal the amount of the deficit that would have been property taxes and any part of the state aid portion of the deficit not received as supplemental aid under this subsection. The director of the department of management shall make the necessary adjustments to the school district's budget to provide the additional allowable growth and shall make the supplemental aid payments.

If the amount appropriated under this lettered paragraph is insufficient to make the supplemental aid payments under this subsection, the director of the department of management shall prorate the payments on the basis of the amount appropriated.

17. Annually the school budget review committee shall review the amount of property tax levied by each school district for the cash reserve authorized in section 298.10. If in the committee's judgment, the amount of a district's cash reserve levy is unreasonably high, the committee shall instruct the director of the department of management to reduce that district's tax levy computed under section 257.4 for the following budget year by the amount the cash reserve levy is deemed excessive. A reduction in a district's property tax levy for a budget year under this subsection does not affect the district's authorized budget.

18. The committee shall perform the duties assigned to it under chapter 286A and section 257.32.

The committee may grant supplemental aid to the area

education agency from funds appropriated to the department of education for area education agency budget review purposes, or an amount may be added to the area education agency special education support services allowable growth for districts in an area or an additional amount may be added to district cost for media services or educational services for all districts in an area for the budget year either on a temporary or permanent basis, or both.

Unusual circumstances shall include but are not limited to the following:

a. An unusual increase or decrease in enrollment of children requiring special education or unusual need for additional moneys for special education support services.

b. Unusual need for additional moneys for media services.

c. Unusual need for additional moneys for educational services.

d. Unusual costs for building repair, building maintenance, or removal of environmental hazards.

e. Participation by the area education agency in telecommunications, electronic, and technological development with school districts, and related staff development programs.

2. When the school budget review committee makes a decision under subsection 1, it shall provide written notice of its decision, including all changes, to the board of directors of the area education agency, and to the department of management and the department of education.

3. All decisions by the school budget review committee under this section shall be made in accordance with reasonable and uniform policies which shall be consistent with this chapter.

4. Failure by an area education agency to provide information or appear before the school budget review committee as requested for the accomplishment of review or hearing constitutes justification for the committee to instruct the department of revenue and finance to withhold payments for the area education agency until the committee's inquiries are satisfied completely.

Notwithstanding chapters 273 and 281 and sections of this chapter relating to the moneys available to area education agencies for special education support services, for each school year, the department of education may direct the department of management to deduct amounts from the portions of school district budgets that fund special education support services in an area education agency. The total amount deducted in an area shall be based upon excess special education support services unreserved and undesignated fund balances in that area education agency for a school year as determined by the department of education. The department of management shall determine the amount deducted from each school district in an area education agency on a proportional basis. The department of management shall determine from the amounts deducted from the portions of school district budgets that fund area education agency special education support services the amount that would have been local property taxes and the amount that would have been state aid and for the next following budget year shall increase the district's total state school aid available under this chapter for area education agency special education support services and reduce the district's property tax levy for area education agency special education support services by the amount necessary for the property tax portion of the deductions made under this section during the budget year.

The amount deducted from a school district's budget shall not affect the calculation of the state cost per pupil or its district cost per pupil in that school year or a subsequent year.

### 260.7 Validity of license.

A license issued under board authority is valid for the period of time for which it is issued, unless the license is suspended or revoked. A license issued by the board is valid until June 30 of the year in which the license expires. No permanent licenses shall be issued. A person employed as a practitioner shall hold a valid license for the type of service for which the person is employed. This section does not limit the duties or powers of a school board to select or discharge practitioners or to terminate practitioners' contracts. A professional development program, except for a program offered by a practitioner preparation institution or area education agency and approved by the state board of education, must possess a valid license for the types of programs offered.

The executive director of the board may grant or deny license applications, applications for renewal of a license, and suspension or revocation of a license. A denial of an application for a license, the denial of an application for renewal, or a suspension or revocation of a license may be appealed by the practitioner to the board.

An emergency renewal or a temporary, limited-purpose license may be issued for a period not to exceed two years, if a petitioner demonstrates, to the satisfaction of the board, good cause for failure to comply with board requirements for a regular license and provides evidence that the petitioner will comply with board requirements within the period of the emergency or temporary license. Under exceptional circumstances, an emergency license may be renewed by the board for one additional year. Practitioner preparation and professional development programs offered in this state by out-of-state institutions must be approved by the board in order to fulfill requirements for licensure or renewal of a license by an applicant.

Requirements for the renewal of licenses, under this chapter, do not apply retroactively to renewal of certificates. However, this section does not limit the duties or powers of a school board to select or discharge practitioners or to terminate practitioners' contracts.

A practitioner who holds a certificate issued before July 1, 1989, shall, upon application and payment of a fee, be granted a license which will permit the practitioner to perform the same duties and functions as the practitioner was entitled to perform with the certificate held at the time of application. A

At the hearing the board may administer oaths and issue subpoenas to compel the attendance of witnesses and the production of other evidence. Subpoenas may be issued by the board to a party to a hearing, if the party demonstrates that the evidence or witnesses' testimony is relevant and material to the hearing. Service of process and subpoenas for board hearings shall be conducted in accordance with the law applicable to the service of process and subpoenas in civil actions.
