In assessing said railway and its equipments, the director of revenue and finance shall take into consideration the gross earnings per mile for the year ending January 1, preceding, and any and all other matters necessary to enable the director to make a just and equitable assessment of said railway property. If a part of any railway is without this state, then, in estimating the value of its rolling stock and movable property, the director shall take into consideration the proportion which the business of that part of the railway lying within the state bears to the business of the railway without this state.

assessed value of said cars shall bear the same proportion to the entire value thereof that the monthly average number of miles such cars have been run or operated within the state shall bear to the monthly average number of miles such cars have been used or operated within and without the state. Such valuation shall be in the same ratio as that of the property of individuals, and shall be added to the assessed valuation of the corporation, fixed under the preceding sections.

Contempta, ch 665

436.7 Actual value — how ascertained.
The director of revenue and finance shall first ascertain the actual value of the entire property owned by said company, from said statements or otherwise, for that purpose taking the aggregate market value of all shares of capital stock, in case said shares have a market value, and, in case they have none, taking the actual value thereof or of the capital of said company, in whatever manner the same is divided, in case no shares of capital stock have been issued; provided, however, that in case the whole or any portion of the property of said company shall be encumbered by a mortgage or mortgages, the director shall ascertain the actual value of such property by adding to the market value or the aggregate shares of stock or to the value of the capital, in case there shall be no such shares, the aggregate amount of the market or cash value of such mortgage or mortgages, and the result shall be deemed and treated as the actual value of the property of such company. The director shall, for the purpose of ascertaining the actual value of the property within the state, next ascertain from such statements or otherwise the actual value of the property, both real and personal, owned by the company; and which is used exclusively outside the general business of the company, and also the actual value of that part of its property, if any, without the state which cannot lawfully be considered in determining the mileage value of its route; and the aggregate of such values shall be deducted from the entire actual value of the property as above ascertained. The director shall next ascertain and deduct the actual value of the sea or ocean routes of any such company, and in ascertaining the same may take into consideration the earnings, both gross and net per mile, of such sea or ocean routes, as compared with the earnings, gross and net, of the land routes of such company, or may ascertain their value in any other practicable manner, and may require that the reports heretofore provided for shall show such earnings. Thereupon the director shall ascertain the actual value of the property of such company within the state, and for that purpose may take into consideration the proportional value of the company’s property without and within the state, and shall take as a basis of valuation of the company’s property in this state the proportion of the whole aggregate value of the property of said company, as above ascertained, after making the deductions above provided for which the length of the routes within the state bears to the whole length of the routes of such company other than sea or ocean routes, and such amount so ascertained shall be considered and taken to be the entire actual value of the property of such company within the state. From the entire actual value of the property within the state so ascertained, there shall be deducted by the director the actual value of all the real estate, buildings, machinery, appliances, and personal property not used exclusively in the conduct of the business within the state that are subject to local taxation within the counties, townships, and other assessment districts as hereinbefore described in section 436.3, subsection 6.

[S13, §1346-d; C24, 27, 31, 35, 39, §7083; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §436.7]

436.8 Actual value per mile — taxable value.
The director of revenue and finance shall thereupon ascertain the value per mile of the property within the state, by dividing the total value as above ascertained, after deducting the specific properties locally assessed within the state, by the number of miles within the state, and the result shall be deemed and held to be the actual value per mile of the property of such company within the state. The assessed or taxable value shall be determined by taking that percentage of the actual value so ascertained, as is provided by section 441.21, and such valuation and assessment shall be in the same ratio as that of the property of individuals.

[S13, §1346-e; C24, 27, 31, 35, 39, §7084; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §436.8]

See §441 21

436.9 Assessment in each county — how certified.
The director of revenue and finance shall thereupon, for the purpose of determining what amount shall be assessed to said company in each county of the state through, across, into, or over which the route of said company extends, multiply the value per mile, as above ascertained, by the number of miles in each of said counties, as reported in said statements, or as otherwise ascertained, and the result thereof, with the mileage and the rate of assessment per mile, shall be by the director certified to the auditors respectively of the several counties through, into, over, and across which the routes of said company extend.

[S13, §1346-f; C24, 27, 31, 35, 39, §7085; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §436.9]

436.10 Entry of certificate.
At the first meeting of the board of supervisors held after such certificate is received by the county auditor, it shall cause the same to be entered in its minute book, and make and enter therein an order stating the length of the routes and the assessed value of each in each city, township, or other taxing district in its county, through or into which said routes extend, which shall constitute the taxable value of said property for taxing purposes, and the taxes on said property, when collected by the county treasurer, shall be disposed of as other taxes.

[S13, §1346-g; C24, 27, 31, 35, 39, §7086; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §436.10]
436.11 Levy of tax — rates.
The county auditor shall immediately thereafter transmit a copy of said order to the councils of cities, and to the trustees of each township in the county, and shall also add to the value so apportioned the assessed value of the real estate, buildings, machinery, fixtures, appliances, and personal property not used exclusively in the conduct of the business situated in any township or taxing district as returned by the assessor thereof, and extend the taxes thereon upon the tax list as in other cases. All such property shall be taxable upon said assessment at the same rates, by the same officers, and for the same purposes as the property of individuals within such counties, townships, or taxing districts. The property so included in said assessment shall not be otherwise taxed.

[S13, §1346 g, C24, 27, 31, 35, 39, §7087; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §436 11]

436.12 Action to collect.
In case any such company shall fail or refuse to pay any taxes assessed against it in any county, township, or assessment district in the state, in addition to other remedies provided by law for the collection of taxes, an action may be prosecuted in the name of the state by the county attorneys of the different counties of the state, on the relation of the auditors of the different counties of the state, and judgment in such action shall include a penalty of fifty percent of the amount of the taxes so assessed and unpaid, together with reasonable attorney's fees for the prosecution of such action, which action may be prosecuted in any county into, through, over, or across which the routes of any such company shall extend, or in any county where such company shall have an officer or agent for the transaction of business.

441.19 Owner to assist — provisions for assessment.

The assessor shall list every person in the assessor's county or city as the case may be and assess all the property therein, personal and real, except such as is heretofore exempted or otherwise assessed. Any person who shall refuse to assist in making out a list of the person's property, or of any property which the person is by law required to assist in listing, or who shall refuse to make either of the oaths or affirmations or combinations thereof required by section 441.20, shall be guilty of a simple misdemeanor.

1. Supplemental and optional to the procedure for the assessment of property by the assessor as provided in this chapter, the assessor is hereby authorized to require from all persons required to list their property for taxation as provided by sections 428.1, 428.2 and 428.3, a supplemental return to be prescribed by the director of revenue and finance upon which such person shall list the person's property. Such supplemental return shall be in substantially the same form as now prescribed by law for the assessment rolls used in the listing of property by the assessors, and the director of revenue and finance may prescribe separate supplemental forms for the listing of personal property, both tangible and intangible. It shall be the duty of every person required to list property for taxation to make a complete listing of such property upon such supplemental forms and to return the same to the assessor as promptly as possible. Such return shall be verified over the signature of the person making the return and the provisions of section 441.25 shall apply to any person making such return. The assessor shall make such supplemental return forms available as soon as practicable after the first day of January of each year. The assessor shall make such supplemental return forms available to the taxpayer by mail, or at a designated place within the taxing district.

2. Upon receipt of such supplemental return from any person the assessor shall prepare a roll assessing such person as hereinafter provided. In the preparation of such assessment roll the assessor shall be guided not only by the information contained in such supplemental roll, but by any other information the assessor may have or which may be obtained by the assessor as prescribed by the law relating to the assessment of property. The assessor shall not be bound by any values as listed in such supplemental return, and may include in the assessment roll any property omitted from the supplemental return which in the knowledge and belief of the assessor should be listed as required by law by the
person making the supplemental return. Upon completion of such roll the assessor shall deliver to the person submitting such supplemental return a copy of the assessment roll, either personally or by mail.

3. Any taxpayer aggrieved by the action of the assessor in the preparation of an assessment roll upon which a supplemental return has been made shall have the same rights and privileges of appeal as provided by law in connection with the assessment rolls prepared in entirety by the assessor, but no assessment rolls prepared by the assessor after receiving a supplemental return shall be deemed insufficient or invalid because of the fact that such assessment roll does not bear the signature of the person assessed, and the signature of the person listing property upon the supplemental return shall be deemed a signature on the roll as prepared by the assessor.

4. The supplemental returns herein provided for shall be preserved in the same manner as assessment rolls, but shall be confidential to the assessor, board of review, or director of revenue and finance, and shall not be open to public inspection, but any final assessment roll as made out by the assessor shall be a public record, provided that such supplemental return shall be available to counsel of either the person making the return or of the public, in case any appeal is taken to the board of review or to the court.

5. In the event of failure of any person required to list property to make a supplemental return, as required herein, on or before the fifteenth day of February of any year when such listing is required, the assessor shall proceed in the listing and assessment of the person’s property as provided by this chapter, and no person subject to taxation shall be relieved of the person’s obligation to list the person’s property through failure to make a supplemental return as herein provided, and any roll prepared by the assessor after receiving a supplemental return or when prepared in accordance with other provisions of this chapter, shall be a valid assessment.

6. The provisions of this chapter relating to assessment rolls shall be applicable to the preparation of rolls upon which a supplemental return has been received, insofar as they are not in conflict with the provision of this section.

On or before February 15 of each year, each owner of industrial real estate shall submit to the local assessor a report listing by year of acquisition and by acquisition cost the owner’s machinery as described in section 427A.1, subsection 1, paragraph “e”, and specifying any machinery added or removed during the preceding assessment year. A report containing an itemized list of machinery by year of acquisition and by acquisition cost shall be required only when deemed necessary by the assessor. The reports shall be submitted on forms prescribed by the director of revenue and finance or on forms submitted by the taxpayer and approved by the assessor which forms shall contain the same information as is required to be reported on forms prescribed by the director. If a person shall knowingly enter false information on the report, the person shall be guilty of a simple misdemeanor. Also, if a person refuses to file the report provided for in this paragraph, the assessor shall proceed in accordance with the provisions of section 441.24.

441.20 Oath.
The assessor shall administer the oath or affirmation printed on the assessment rolls hereinafter prescribed, or combination thereof, to each person assessed, and require the person taking such oath to subscribe the same, and, in case anyone refuses so to do, the assessor shall note the fact in the column of remarks opposite such person’s name.

441.21 Actual, assessed and taxable value.
1. a. All real and tangible personal property subject to taxation shall be valued at its actual value which shall be entered opposite each item, and, except as otherwise provided in this section, shall be assessed at one hundred percent of its actual value, and the value so assessed shall be taken and considered as the assessed value and taxable value of the property upon which the levy shall be made.

b. The actual value of all property subject to assessment and taxation shall be the fair and reasonable market value of such property except as otherwise provided in this section. “Market value” is defined as the fair and reasonable exchange in the year in which the property is listed and valued between a willing buyer and a willing seller, neither being under any compulsion to buy or sell and each being familiar with all the facts relating to the particular property. Sale prices of the property or comparable property in normal transactions reflecting market value, and the probable availability or unavailability of persons interested in purchasing the property, shall be taken into consideration in arriving at its market value. In arriving at market value, sale prices of property in abnormal transactions not reflecting market value shall not be taken into account, or shall be adjusted to eliminate the effect of factors which distort market value, including but not limited to sales to immediate family of the seller, foreclosure or other forced sales, contract sales, discounted purchase transactions or purchase of adjoining land or other land to be operated as a unit.

c. In assessing and determining the actual value of special purpose industrial real and tangible personal property having an actual value of five million dollars or more, the assessor shall equalize the values of such property with the actual values of other comparable special purpose industrial property in other counties of the state. Such special purpose industrial property includes, but is not
limited to chemical plants. If a variation of ten percent or more exists between the actual values of comparable industrial property having an actual value of five million dollars or more located in separate counties, the assessors of such counties shall consult with each other and with the department of revenue and finance to determine if adequate reasons exist for such variation. If no such reasons exist, the assessors shall make adjustments in such actual values to provide for a variation of ten percent or less. For the purposes of this paragraph, special purpose industrial property includes structures which are designed and erected for operation of a unique and special use, are not rentable in existing condition and are incapable of conversion to ordinary commercial or industrial use except at a substantial cost.

d. Actual value of property in one assessing jurisdiction shall be equalized as compared with actual value of property in an adjoining assessing jurisdiction. If a variation of five percent or more exists between the actual values of similar, closely adjacent property in adjoining assessing jurisdictions in Iowa, the assessors thereof shall determine whether adequate reasons exist for such variation. If no such reasons exist, the assessors shall make adjustments in such actual values to reduce the variation to five percent or less.

e. The actual value of agricultural property shall be determined on the basis of productivity and net earning capacity of the property determined on the basis of its use for agricultural purposes capitalized at a rate of seven percent and applied uniformly among counties and among classes of property. Any formula or method employed to determine productivity and net earning capacity of property shall be adopted in full by rule.

f. In counties or townships in which field work on a modern soil survey has been completed since January 1, 1949, the assessor shall place emphasis upon the results of the survey in spreading the valuation among individual parcels of such agricultural property.

g. Notwithstanding any other provision of this section, the actual value of any property shall not exceed its fair and reasonable market value, except agricultural property which shall be valued exclusively as provided in paragraph “e” of this subsection.

2. The market value of an inventory or goods in bulk shall be their market value as such inventory or goods in bulk, not their retail or unit price. Such market value shall be fair and reasonable based on market value of similar classes of property.

In the event market value of the property being assessed cannot be readily established in the foregoing manner, then the assessor may determine the value of the property using the other uniform and recognized appraisal methods including its productive and earning capacity, if any, industrial conditions, its cost, physical and functional depreciation and obsolescence and replacement cost, and all other factors which would assist in determining the fair and reasonable market value of the property but the actual value shall not be determined by use of only one such factor. The following shall not be taken into consideration: Special value or use value of the property to its present owner, and the good will or value of a business which uses the property as distinguished from the value of the property as property. Upon adoption of uniform rules by the revenue department or succeeding authority covering assessments and valuations of such properties, said valuation on such properties shall be determined in accordance therewith for assessment purposes to assure uniformity, but such rules shall not be inconsistent with or change the foregoing means of determining the actual, market, taxable and assessed values.

3. “Actual value”, “taxable value”, or “assessed value” as used in other sections of the Code in relation to assessment of property for taxation shall mean the valuations as determined by this section; however, other provisions of the Code providing special methods or formulas for assessing or valuing specified property shall remain in effect, but this section shall be applicable to the extent consistent with such provisions. The assessor and department of revenue and finance shall disclose at the written request of the taxpayer all information in any formula or method used to determine the actual value of the taxpayer’s property.

The burden of proof shall be upon any complainant attacking such valuation as excessive, inadequate, inequitable or capricious; however, in protest or appeal proceedings when the complainant offers competent evidence by at least two disinterested witnesses that the market value of the property is less than the market value determined by the assessor, the burden of proof thereafter shall be upon the officials or persons seeking to uphold such valuation to be assessed.

4. For valuations established as of January 1, 1978, agricultural and residential property shall be assessed at a percentage of the actual value of each class of property. The percentage shall be determined for each class of property by the director of revenue for the state in accordance with the provisions of this section. For valuations established as of January 1, 1978, the percentage shall be the quotient of the dividend and divisor as defined in this section. The dividend shall be the total equalized value of such property in the state in 1975, adjusted for additions or deletions to said value, excluding those resulting from the revaluation of existing properties, as reported by the assessors on the abstracts of assessment submitted in 1976 and 1977, plus six percent of the 1975 equalized value of such property or the amount of value added by the revaluation of existing properties in 1976, 1977 and 1978 whichever is less. The divisor shall be the total value of such property in the state as reported by the assessors on the abstracts of assessment submitted in 1977, plus the amount of value added in 1978 by the revaluation of existing properties.

5. For valuations established as of January 1,
1979, the percentage of actual value at which agricultural and residential property shall be assessed shall be the quotient of the dividend and divisor as defined in this section. The dividend for each class of property shall be the dividend as determined for each class of property for valuations established as of January 1, 1978, adjusted by the product obtained by multiplying the percentage determined for that year by the amount of any additions or deletions to actual value, excluding those resulting from the revaluation of existing properties, as reported by the assessors on the abstracts of assessment for 1978, plus six percent of the amount so determined. However, if the difference between the dividend so determined for either class of property and the dividend for that class of property for valuations established as of January 1, 1978, adjusted by the product obtained by multiplying the percentage determined for that year by the amount of any additions or deletions to actual value, excluding those resulting from the revaluation of existing properties, as reported by the assessors on the抽象s of assessment for 1978, is less than six percent, the 1979 dividend for the other class of property shall be the dividend as determined for that class of property for valuations established as of January 1, 1978, adjusted by the product obtained by multiplying the percentage determined for that year by the amount of any additions or deletions to actual value, excluding those resulting from the revaluation of existing properties, as reported by the assessors on the abstracts of assessment for 1978, plus a percentage of the amount so determined which is equal to the percentage by which the dividend as determined for the other class of property for valuations established as of January 1, 1978, adjusted by the product obtained by multiplying the percentage determined for that year by the amount of any additions or deletions to actual value, excluding those resulting from the revaluation of existing properties, as reported by the assessors on the abstracts of assessment for 1978, is increased in arriving at the 1979 dividend for the other class of property. The divisor for each class of property shall be the total actual valuation for each property in the state in the preceding year, as reported by the assessors on the abstracts of assessment submitted for 1978, plus the amount of value added to said total actual value by the revaluation of existing properties in 1979 as equalized by the director of revenue pursuant to section 441.49. The director shall utilize information reported on abstracts of assessment submitted pursuant to section 441.45 in determining such percentage. For valuations established as of January 1, 1980, and each year thereafter the percentage of actual value as equalized by the director of revenue and finance as provided in section 441.49 at which agricultural and residential property shall be assessed shall be calculated in accordance with the methods provided herein including the limitation of increases in agricultural and residential assessed values to the percentage increase of the other class of property if the other class increases less than the allowable limit adjusted to include the applicable and current values as equalized by the director of revenue and finance, except that any references to six percent in this subsection shall be four percent.

6 For valuations established as of January 1, 1979, commercial property and industrial property, excluding properties referred to in section 427A.1, subsection 6, shall be assessed as a percentage of the actual value of each class of property. The percentage shall be determined for each class of property by the director of revenue for the state in accordance with the provisions of this section. For valuations established as of January 1, 1979, the percentage shall be the quotient of the dividend and divisor as defined in this section. The dividend for each class of property shall be the total actual valuation for each class of property established for 1978, plus six percent of the amount so determined. The divisor for each class of property shall be the valuation for each class of property established for 1978, plus the amount of value added to the total actual value by the revaluation of existing properties in 1979 as equalized by the director of revenue pursuant to section 441.49. For valuations established as of January 1, 1979, property valued by the department of revenue pursuant to chapters 428, 433, 436, 437, and 438 shall be considered as one class of property and shall be assessed as a percentage of its actual value. The percentage shall be determined by the director of revenue in accordance with the provisions of this section. For valuations established as of January 1, 1979, the percentage shall be the quotient of the dividend and divisor as defined in this section. The dividend shall be the total actual valuation established for 1978 by the department of revenue, plus ten percent of the amount so determined. The divisor for property valued by the department of revenue pursuant to chapters 428, 433, 436, 437, and 438 shall be the valuation established for 1978, plus the amount of value added to the total actual value by the revaluation of the property by the department of revenue as of January 1, 1979. For valuations established as of January 1, 1980, commercial property and industrial property, excluding properties referred to in section 427A.1, subsection 6, shall be assessed at a percentage of the actual value of each class of property. The percentage shall be determined for each class of property by the director of revenue for the state in accordance with the provisions of this section. For valuations established as of January 1, 1979, the percentage shall be the quotient of the dividend and divisor as defined in this section. The dividend for each class of property shall be the dividend as determined for each class of property for valuations established as of January 1, 1979, adjusted by the product obtained by multiplying the percentage determined for that year by the amount of any additions or deletions to actual value, excluding those resulting from the revaluation of existing properties, as reported by the assessors on the abstracts of assessment for 1979, plus four percent of
§441.21, ASSESSMENT AND VALUATION OF PROPERTY

the amount so determined. The divisor for each class of property shall be the total actual value of all such property in 1979, as equalized by the director of revenue pursuant to section 441.49, plus the amount of value added to the total actual value by the revaluation of existing properties in 1980. The director shall utilize information reported on the abstracts of assessment submitted pursuant to section 441.45 in determining such percentage. For valuations established as of January 1, 1980, property valued by the department of revenue pursuant to chapters 428, 433, 436, 437, and 438 shall be assessed at a percentage of its actual value. The percentage shall be determined by the director of revenue in accordance with the provisions of this section. For valuations established as of January 1, 1980, the percentage shall be the quotient of the dividend and divisor as defined in this section. The dividend shall be the total actual valuation established for 1979 by the department of revenue, plus eight percent of the amount so determined. The divisor for property valued by the department of revenue pursuant to chapters 428, 433, 436, 437, and 438 shall be the valuation established for 1979, plus the amount of value added to the total actual value by the revaluation of the property by the department of revenue as of January 1, 1980. For valuations established as of January 1, 1981, and each year thereafter, the percentage of actual value as equalized by the director of revenue and finance as provided in section 441.49 at which commercial property and industrial property, excluding properties referred to in section 427A.1, subsection 6, shall be assessed shall be calculated in accordance with the methods provided herein, except that any references to six percent in this subsection shall be four percent. For valuations established as of January 1, 1981, and each year thereafter, the percentage of actual value at which property valued by the department of revenue and finance pursuant to chapters 428, 433, 436, 437, and 438 shall be assessed shall be calculated in accordance with the methods provided herein, except that any references to ten percent in this subsection shall be eight percent. Beginning with valuations established as of January 1, 1979, and each year thereafter, property valued by the department of revenue and finance pursuant to chapter 434 shall also be assessed at a percentage of its actual value which percentage shall be equal to the percentage determined by the director of revenue and finance for commercial property, industrial property, or property valued by the department of revenue and finance pursuant to chapters 428, 433, 436, 437, and 438, whichever is lowest.

7 Beginning with valuations established as of January 1, 1978, the assessors shall report the aggregate taxable values and the number of dwellings located on agricultural land and the aggregate taxable value of all other structures on agricultural land. Beginning with valuations established as of January 1, 1981, the agricultural dwellings located on agricultural land shall be valued at their market value as defined in this section and agricultural dwellings shall be valued as rural residential property and shall be assessed at the same percentage of actual value as all other residential property.

8 For the purpose of computing the debt limitations for municipalities, political subdivisions and school districts, the term "actual value" means the "actual value" as determined by subsections 1 to 3 of this section without application of any percentage reduction and entered opposite each item, and as listed on the tax list as provided in section 443.2 as "actual value." Whenever any board of review or other tribunal changes the assessed value of property, all applicable records of assessment shall be adjusted to reflect such change in both assessed value and actual value of such property.

9 a. Any normal and necessary repairs to a building, not amounting to structural replacements or modification, shall not increase the taxable value of the building. This paragraph applies only to repairs of two thousand five hundred dollars or less per building per year.

b. Notwithstanding paragraph "a" of this subsection, any construction or installation of gas production systems using waste or manure to produce gas completed on property classified as agricultural, residential, commercial, or industrial property shall not increase the actual, assessed and taxable values of the property for assessment years beginning on January 1, 1979 and ending on or before December 31, 1985. In addition, notwithstanding paragraph "a" of this subsection, any construction or installation of a solar energy system on property so classified shall not increase the actual, assessed and taxable values of the property for five full assessment years.

c. As used in this subsection "solar energy system" means either of the following:

1. A system of equipment capable of collecting and converting incident solar radiation or wind energy into thermal, mechanical or electrical energy and transforming these forms of energy by a separate apparatus to storage or to a point of use which is constructed or installed after January 1, 1978.

2. A system that uses the basic design of the building to maximize solar heat gain during the cold season and to minimize solar heat gain in the hot season and that uses natural means to collect, store and distribute solar energy which is constructed or installed after January 1, 1981.

In assessing and valuing the property for tax purposes, the assessor shall disregard any market value added by a solar energy system to a building. The director of revenue and finance shall adopt rules, after consultation with the department of natural resources, specifying the types of equipment and structural components to be included under the guidelines provided in this subsection.

10 Not later than November 1, 1979 and November 1 of each subsequent year, the director shall certify to the county auditor of each county the percentages of actual value at which residential property, agricultural property, commercial prop-
property, industrial property, and property valued by the
department of revenue and finance pursuant to chapters
428, 433, 434, 436, 437, and 438 in each
assessing jurisdiction in the county shall be
assessed for taxation. The county auditor shall proceed
to determine the assessed values of agricultural prop-
ertry, residential property, commercial property, in-
dustrial property, and property valued by the depart-
ment of revenue and finance pursuant to chapters
428, 433, 434, 436, 437, and 438 by applying such
percentages to the current actual value of such
property, as reported to the county auditor by the
assessor, and the assessed values so determined
shall be the taxable values of such properties upon
which the levy shall be made.

11. The percentage of actual value computed by
the director for agricultural property, residential
property, commercial property, industrial property
and property valued by the department of revenue
and finance pursuant to chapters 428, 433, 434, 436,
437, and 438 and used to determine assessed values
of those classes of property does not constitute a rule

1. If any corporation or person refuse to furnish

subscribe the oath required, the director of revenue
and finance, or assessor, as the case may be, shall
proceed to list and assess such property according to
the best information obtainable, and shall add to the
taxable valuation one hundred percent thereof,
which valuation and penalty shall be separately
shown, and shall constitute the assessment, and if
the valuation of such property shall be changed by
any board of review, or on appeal therefrom, a like
penalty shall be added to the valuation thus fixed

2. However, all or part of the penalty imposed under
this section may be waived by the board of review upon

prescribe the form of assessment roll to be used by all
assessors in assessing real and personal property,

form of pages of the assessor's assessment book. Such
assessment rolls shall be in such form as will permit

shall contain a form of oath or affirmation to be
administered to each person assessed, and shall also
contain a notice in substantially the following form

If you are not satisfied that the foregoing assess-
ment is correct, you may file a protest against such
assessment with the board of review on or after April
16, to and including May 5, of the year of the
assessment, such protest to be confined to the
grounds specified in section 441 37

1. To equalize assessments by raising or lowering the individual assessments of real property, including new buildings, personal property or moneys and credits made by the assessor.

2. To add to the assessment rolls any taxable property which has been omitted by the assessor.

441.37 Protest of assessment — grounds.

1. Any property owner or aggrieved taxpayer who is dissatisfied with the owner's or taxpayer's assessment may file a protest against such assessment with the board of review on or after April 16, and including May 5, of the year of the assessment. In any county which has been declared to be a disaster area by proper federal authorities after March 1 and prior to May 20 of said year of assessment, the board of review shall be authorized to remain in session until June 15 and the time for filing a protest shall be extended to and include the period from May 25 to June 5 of such year. Said protest shall be in writing and signed by the one protesting or by the protestor's duly authorized agent. The taxpayer may have an oral hearing thereon if request therefor in writing is made at the time of filing the protest. Said protest must be confined to one or more of the following grounds:

a. That said assessment is not equitable as compared with assessments of other like property in the...
taxing district. When this ground is relied upon as the basis of a protest the legal description and assessments of a representative number of comparable properties, as described by the aggrieved taxpayer shall be listed on the protest, otherwise said protest shall not be considered on this ground.

b. That the property is assessed for more than the value authorized by law, stating the specific amount which the protesting party believes the property to be overassessed, and the amount which the party considers to be its actual value and the amount the party considers a fair assessment.

c. That the property is not assurable, is exempt from taxes, or is misclassified and stating the reasons for the protest.

d. That there is an error in the assessment and state the specific alleged error.

e. That there is fraud in the assessment which shall be specifically stated.

In addition to the above, the property owner may protest annually to the board of review under the provisions of section 441.35, but such protest shall be in the same manner and upon the same terms as heretofore prescribed in this section.

2. A property owner or aggrieved taxpayer who finds that a clerical or mathematical error has been made in the assessment of the owner's or taxpayer's property may file a protest against that assessment in the same manner as provided in this section, except that the protest may be filed for previous years. The board may correct clerical or mathematical errors for any assessment year in which the taxes have not been fully paid or otherwise legally discharged.

Upon the determination of the board that a clerical or mathematical error has been made the board shall take appropriate action to correct the error and notify the county auditor of the change in the assessment as a result of the error and the county auditor shall make the correction in the assessment and the tax list in the same manner as provided in section 443.6.

The board shall not correct an error resulting from a property owner's or taxpayer's inaccuracy in reporting or failure to comply with section 441.19.

3. After the board of review has considered any protest filed by a property owner or aggrieved taxpayer and made final disposition of the protest, the board shall give written notice to the property owner or aggrieved taxpayer who filed the protest of the action taken by the board of review on the protest. The written notice to the property owner or aggrieved taxpayer shall also specify the reasons for the action taken by the board of review on the protest.

Appeals may be taken from the action of the board of review with reference to protests of assessment, to the district court of the county in which the board holds its sessions within twenty days after its adjournment or May 31, whichever date is later. No new grounds in addition to those set out in the protest to the board of review as provided in section 441.37 can be pleaded, but additional evidence to sustain those grounds may be introduced. The assessor shall have the same right to appeal and in the same manner as an individual taxpayer, public body or other public officer as provided in section 441.42. Appeals shall be taken by a written notice to that effect to the chairman or presiding officer of the board of review and served as an original notice.

The clerk of the court shall likewise certify to the county treasurer the costs assessed by the court on any appeal from a board of review to the district court, in all cases where said costs are taxed against the board of review or any taxing body. Thereupon the county treasurer shall compute and apportion the said costs between the various taxing bodies participating in the proceeds of the collection of the taxes involved in any such appeal, and said treasurer shall so compute and apportion the various amounts which said taxing bodies are required to pay in proportion to the amount of taxes each of said taxing bodies is entitled to receive from the whole amount of taxes involved in each of such appeals. The said county treasurer shall deduct from the proceeds of all general taxes collected the amount of costs so computed and apportioned by the treasurer from the moneys due to each taxing body from general taxes collected. 441.46 Assessment year.
The assessment date of January 1 is the first date of an assessment year period which constitutes a calendar year commencing January 1 and ending December 31. All property tax statutes providing for tax exemptions or credits and requiring that a claim be filed, shall be construed to require the claims to be filed by July 1 of the assessment year. Any statute requiring proration of property taxes for any purpose shall be for the fiscal year, and the proration shall be based on the status of the property during the fiscal year.

The assessment date for property taxes for the fiscal period beginning January 1, 1973 and ending June 30, 1974 and which became delinquent during the fiscal period beginning January 1, 1974 and ending June 30, 1975, was January 1, 1973. [C77, 79, 81, §441.46]
441.47 Adjusted valuations.

The director of revenue and finance on or about August 15, 1977 and every two years thereafter shall order the equalization of the levels of assessment of each class of property in the several assessing jurisdictions by adding to or deducting from the valuation of each class of property such percentage in each case as may be necessary to bring the same to its taxable value as fixed in this chapter and chapters 427 to 443. The director shall adjust to actual value the valuation of any class of property as set out in the abstract of assessment when the valuation is at least five percent above or below actual value as determined by the director. For purposes of such value adjustments and before such equalization the director shall adopt, in the manner prescribed by chapter 17A, such rules as may be necessary to determine the level of assessment for each class of property in each county. The rules shall cover: (1) The proposed use of the assessment-sales ratio study set out in section 421.17, subsection 6; (2) the proposed use of any statewide income capitalization studies; (3) the proposed use of other methods that would assist the director in arriving at the accurate level of assessment of each class of property in each assessing jurisdiction.

441.48 Notice of adjustment.

Before the director of revenue and finance shall adjust the valuation of any class of property any such percentage, the director shall serve ten days' notice by mail, on the county auditor of the county whose valuation is proposed to be adjusted and the director shall hold an adjourned meeting after such ten days' notice, at which time the county or assessing jurisdiction may appear by its city council or board of supervisors, city or county attorney, and other assessing jurisdiction, city or county officials, and make written or oral protest against such proposed adjustment, which protest shall consist simply of a statement of the error, or errors, complained of with such facts as may lead to their correction, and at such adjourned meeting final action may be taken in reference thereto.

441.49 Adjustment by auditor.

The director shall keep a record of the review and adjustment proceedings and finish the proceedings on or before October 1 unless for good cause the proceedings cannot be completed by that date. The director shall notify each county auditor by mail of the final action taken at the proceedings and specify any adjustments in the valuations of any class of property to be made effective for the jurisdiction.

However, an assessing jurisdiction may request the director to permit the use of an alternative method of applying the equalization order to the property values in the assessing jurisdiction, provided that the final valuation shall be equivalent to the director's equalization order. The assessing jurisdiction shall notify the county auditor of the request for the use of an alternative method of applying the equalization order and the director's disposition of the request. The request to use an alternative method of applying the equalization order, including procedures for notifying affected property owners and appealing valuation adjustments, shall be made within ten days from the date the county auditor receives the equalization order and the valuation adjustments, and appeal procedures shall be completed by November 30 of the year of the equalization order. Compliance with the provisions of section 441.21 is sufficient grounds for the director to permit the use of an alternative method of applying the equalization order.

On or before October 15 the county auditor shall cause to be published in official newspapers of general circulation the final equalization order. Failure to publish the equalization order has no effect upon the validity of the orders.

The county auditor shall add to or deduct from the valuation of each class of property in the county the required percentage, rejecting all fractions of fifty cents or less in the result, and counting all fractions over fifty cents as one dollar. For any special charter city that levies and collects its own tax based on current year assessed values, the equalization percentage shall be applied to the following year's values, and shall be considered the equalized values for that year for purposes of this chapter.

The local board of review shall reconvene in special session from October 15 to November 15 for the purpose of hearing the protests of affected property owners or taxpayers within the jurisdiction of the board whose valuation of property if adjusted pursuant to the equalization order issued by the director of revenue and finance will result in a greater value than permitted under section 441.21. The board of review shall accept protests only during the first ten days following the date the local board of review reconvenes. The board of review shall limit its review to only the timely filed protests. The board of review may adjust all or a part of the percentage increase ordered by the director of revenue and finance by adjusting the actual value of the property under protest to one hundred percent of actual value. Any adjustment so determined by the board of review shall not exceed the percentage increase provided for in the director's equalization order.

The determination of the board of review on filed protests is final, subject to review by the director of revenue and finance for the purpose of determining whether the board's actions substantially altered the equalization order. In making the review, the director has all the powers provided in chapter 421, and in exercising the powers the director is not subject to chapter 17A. Not later than fifteen days following the adjournment of the board, the board of review shall submit to the director of revenue and finance, on forms prescribed by the director, a report of all actions taken by the board of review during this session.

Not later than ten days after the date the final
equalization order is issued, the city or county officials of the affected county or assessing jurisdiction may appeal the final equalization order to the state board of tax review. The appeal shall not delay the implementation of the equalization orders.

Tentative and final equalization orders issued by the director of revenue and finance are not rules as defined in section 17A.2, subsection 7.

The plat shall be signed and acknowledged by the auditor, who shall certify that it was executed by the assessor and the assessor's sureties.

442.1 State school foundation program.  
This chapter establishes a state school foundation program. For each school year, each school district in the state is entitled to receive state school foundation aid, which shall be an amount per pupil equal to the difference between the amount per pupil of foundation property tax in the district, and the state foundation base or the district cost per pupil, which ever is less. However, if the amount so determined for any district is less than two hundred dollars per pupil, the district is entitled to receive not less than two hundred dollars per pupil. However, if the receipt of two hundred dollars by a school district plus the money raised by the foundation property tax exceeds the maximum allowed district cost for the budget year, the district shall be entitled to receive in state foundation aid an amount equal to the difference between the money raised by the foundation property tax for the budget year and the district cost for the budget year. In making computations and payments under this chapter, except in the case of computations relating to funding of special education support services, media services and educational services provided through the area education agencies, the department of management shall round amounts to the nearest whole dollar.  
[C73, 75, 77, 79, 81, §442 1]

442.2 Foundation property tax.  
1 Each school district shall cause to be levied each year, for the school general fund, a foundation property tax of five dollars and forty cents per thousand dollars of assessed valuation on all taxable property in the district. For the purpose of this chapter, a school district is defined as a school corporation organized under chapter 274.  
However, commencing with the budget year beginning July 1, 1988, a reorganized school district shall cause a foundation property tax of four dollars and forty cents per thousand dollars of assessed valuation to be levied on all taxable property which, in the year preceding a reorganization, was within a school district affected by the reorganization as defined in section 275.1, or in the year preceding a dissolution was a part of a school district that dissolved if the dissolution proposal has been approved by the director of the department of education pursuant to section 275.55. In the year preceding the reorganization or dissolution, the school district affected by the reorganization or the school district that dissolved must have had a certified enrollment of fewer than six hundred in order for the four dollar and-forty-cent levy to apply. In succeeding school years, the foundation property tax levy on that portion shall be increased twenty cents per year until it reaches the rate of five dollars and forty cents per thousand dollars of assessed valuation.

For purposes of this section, a reorganized school district is one which absorbed at least thirty percent of the enrollment of the school district affected by a reorganization or dissolved during a dissolution and in which reorganization or dissolution was approved in an election pursuant to sections 275.18 and 275.20 or section 275.55, and the reorganization or dissolution takes effect on or after July 1, 1988.

2 For purposes of section 442.1, the “amount per pupil of foundation property tax” and the “money raised by the foundation property tax” do not include the tax levied under subsection 1 on the property of a railway corporation or its trustee which corporation has been declared bankrupt or is in bankruptcy proceedings.  
[C73, 75, 77, 79, 81, §442 2, 82 Acts, ch 1207, §4, 6]  

442.3 State foundation base.  
The state foundation base for the school year beginning July 1, 1986 is eighty percent of the state cost per pupil. The state foundation base for the school year beginning July 1, 1987 is eighty-one and one-half percent of the state cost per pupil. For each succeeding school year, the state foundation base shall be increased by the amount of one-half percent of the state cost per pupil, up to a maximum of eighty-five percent of the state cost per pupil. The
district foundation base is the larger of the state foundation base or the amount per pupil which the district will receive from foundation property tax and state school foundation aid.

For school years beginning July 1, 1988, and subsequent school years, the state foundation base shall be increased by the sum of the following amounts:

1. The amount included in the district’s budget for the fiscal year beginning July 1, 1986, for the additional portion of the livestock tax credit pursuant to section 442.2, subsection 2 as it appeared in the 1987 Code.

2. The difference between the following amounts:
   a. The general allocation of the school district as determined under section 405A.2.
   b. The foundation property tax rate multiplied by the total actual value of all personal property assessed for valuation in the school district as of January 1, 1973, excluding livestock.

[73, 75, 77, 79, 81, §442.3; 81 Acts, ch 94, §2]

442.4 Enrollment.

1. Basic enrollment for the budget year beginning July 1, 1987 and each subsequent budget year is determined by adding the resident pupils who were enrolled on the third Friday of September in the base year, pupils enrolled in prekindergarten programs of school age, and the student body in secondary schools in another district or state for which tuition is paid by the district. For the school year beginning July 1, 1975, and each succeeding school year, pupils enrolled in prekindergarten programs other than special education programs are not included in basic enrollment.

Resident pupils of high school age for which the district pays tuition to attend an Iowa area school are included in basic enrollment on a full-time equivalent basis as of the third Friday of September in the base year.

Shared-time and part-time pupils of school age, irrespective of the districts in which the pupils reside, are included in basic enrollment as of the third Friday of September in the base year for the budget year beginning July 1, 1987 and each subsequent budget year, in the proportion that the time for which they are enrolled or receive instruction for the school year is to the time that full-time pupils carrying a normal course schedule, at the same grade level, in the same school district, for the same school year, are enrolled and receive instruction. Tuition charges to the parent or guardian of a shared-time or part-time out-of-district pupil shall be reduced by the amount of any increased state aid occasioned by the counting of the pupil. Pupils attending a university laboratory school are not counted in any district’s basic enrollment, but the laboratory school shall report them directly to the department of education.

An eleventh or twelfth grade pupil who is no longer a resident of a school district, but who was a resident of the district during the preceding school year may enroll in the district and shall be included in the basic enrollment of the district until the pupil graduates. Tuition for that pupil shall not be charged by the district in which the pupil is enrolled.

A school district shall certify its basic enrollment to the department of education by October 1 of each year, and the department shall promptly forward the information to the department of management. For purposes of determining whether a district is entitled to an advance for increasing enrollment a determination of actual enrollment shall be made on the third Friday of September in the budget year by counting the pupils in the same manner and to the same extent that they are counted in determining basic enrollment, but substituting the count in the budget year for the count in the base year. In addition, a school district shall determine its additional enrollment because of special education, as defined in this section, on December 15 of each year and shall certify its additional enrollment because of special education to the department of education by December 15 of each year, and the department shall promptly forward the information to the department of management.

For the purposes of this chapter, “additional enrollment because of special education” is determined by multiplying the weighting of each category of child under section 281.9 times the number of children in each category totaled for all categories minus the actual enrollment.

2. An adjusted enrollment for each district shall be computed as follows:

a. For the school year beginning July 1, 1980, and each subsequent school year, the adjusted enrollment for a school district is equal to the larger of the following:
   (1) The basic enrollment for the base year.
   (2) The basic enrollment for the budget year.

If a school district uses subparagraph (2) of this paragraph for its adjusted enrollment and the district’s actual enrollment for the budget year is larger than the adjusted enrollment computed under subparagraph (2) of this paragraph, the district may be eligible to receive an advance for increasing enrollment under section 442.28.

b. For the school year beginning July 1, 1979, if a district has a decrease from the basic enrollment in the base year to the basic enrollment in the budget year the state comptroller shall compute an amount to be added to the basic enrollment for the budget year. The amount to be added is equal to one hundred percent of the basic enrollment decrease to the extent that it does not exceed two and one-half percent of the base year’s basic enrollment, and fifty percent of the remaining basic enrollment decrease.

If the school district’s basic enrollment in the base year is equal to or less than the basic enrollment for budget year the adjusted enrollment shall equal the basic enrollment for the budget year.

3. For the school year beginning July 1, 1980, and each subsequent school year, budget enrollment means the sum of the following:
§442.4, SCHOOL FOUNDATION PROGRAM  

a. Twenty-five percent of the basic enrollment for the school year beginning July 1, 1979. However, if the basic enrollment of a school district for a budget year is more than fifteen percent higher than the basic enrollment of the district for the base year, the school district’s basic enrollment for the budget year shall be used thereafter for the calculation required under this paragraph in lieu of using the basic enrollment for the school year beginning July 1, 1979. However, for the school year beginning July 1, 1989 and each succeeding school year, the twenty-five percent portion shall be reduced to twenty percent.

b. Seventy-five percent of the adjusted enrollment computed under subsection 2, paragraph “a,” of this section. However, for the school year beginning July 1, 1989 and each succeeding school year, the seventy-five percent portion shall be increased to eighty percent.

c. Adjustments made by the department of management under subsection 5 of this section.

4. For the school year beginning July 1, 1984 and each subsequent school year, if a school district’s basic enrollment for the budget year is larger than its budget enrollment for the budget year, the district shall use its basic enrollment for the budget year in lieu of its budget enrollment for the budget year for computations required in this chapter.

5. For the school year beginning July 1, 1984 and each succeeding school year, if an amount equal to the district cost per pupil for the budget year minus the amount included in the district cost per pupil for the budget year to compensate for the cost of special education support services for a school district for the budget year times the budget enrollment of the school district for the budget year is less than one hundred two percent times an amount equal to the district cost per pupil for the base year minus the amount included in the district cost per pupil for the base year to compensate for the cost of special education support services for a school district for the base year times the budget enrollment for the school district for the base year, the department of management shall increase the budget enrollment for the school district for the budget year to a number which will provide that one hundred two percent amount. For each of the school years beginning July 1, 1988 and July 1, 1989, the one hundred twenty percent amount shall be reduced by five-tenths of one percent so that for the school year beginning July 1, 1989 and each succeeding school year, the guarantee amount for the budget year is one hundred one percent times an amount equal to the district cost per pupil for the base year minus the amount included in the district cost per pupil for the base year to compensate for the cost of special education support services for a school district for the base year times the budget enrollment for the school district for the base year.

6. For the school year beginning July 1, 1988 and each subsequent school year, weighted enrollment is the budget enrollment as modified by application of the special education weighting plan in section 281.9, the non-English-speaking weighting plan in section 280.4, and the supplementary weighting plan in this chapter.

Commencing with the school year beginning July 1, 1988, and each school year thereafter, the weighted enrollment shall be determined on the basis of a count of a district’s additional enrollment because of special education, as defined in subsection 1, on December 1 of the base year.

Weighted enrollment calculated under this subsection shall be used when weighted enrollment is prescribed by law. It shall not be used in calculations pertaining to special education support services costs.

7. For the school year beginning July 1, 1988, and each subsequent school year, weighted enrollment for special education support services costs is the sum of the budget enrollment and the additional enrollment because of special education defined in subsection 1.

8. Notwithstanding the procedure prescribed for the calculation of budget enrollment under subsections 3 and 5, if during the first budget year following the effective date of a school district reorganization, a reorganized school district’s budget enrollment is less than the combined total of the budget enrollments of the districts involved in the reorganization calculated as if the school districts had not reorganized for that budget year, the budget enrollment of the reorganized district shall be calculated under this subsection for that budget year.

The budget enrollment is the total of the budget enrollments of the districts involved in the reorganization calculated as if those districts had not reorganized minus the number of pupils residing in territory not included in the reorganized school district. For the purpose of this section, a reorganized school district is one in which the reorganization was approved in an election pursuant to sections 275.18 and 275.20 and will take effect on or after July 1, 1988.

442.5 Miscellaneous income — expenditures.

1. As used in this chapter:

a. “Miscellaneous income” means all receipts deposited to the general fund of a school district which are not obtained from state aid provided under section 442.1 or from property tax authorized under section 442.2 or 442.9. Miscellaneous income includes property tax levied under the provisions of section 613A.7, to fund the costs of tort liability insurance for the school district.
b. "Expenditures" means the total amounts paid out of the general fund of a school district, exclusive of amounts paid for the following purposes, for which special levies are authorized:

(1) A contract for the use of a library under section 298.7.
(2) A judgment under sections 298.15 to 298.17.
(3) Tort liability under chapter 613A.
(4) Asbestos removal or encapsulation under section 278.43.

2. The authorized expenditures during a school year may not exceed the lesser of the budget for that year certified under section 24.17 plus any allowable amendments permitted in this section, or the authorized budget, which is the sum of the district cost for that year plus the actual miscellaneous income received for that year plus the actual unspent balance from the preceding year. If actual miscellaneous income for a school year exceeds the anticipated miscellaneous income in the certified budget for that year, or if an unspent balance has not been previously certified, a school district may amend its certified budget.

As used in this chapter:
1. "District cost" and "district cost per pupil" mean the amounts computed as provided in section 442.9.
2. "Base year" means the school year ending during the calendar year in which a budget is certified.
3. "Budget year" means the school year beginning during the calendar year in which a budget is certified.

[C73, 75, 77, 79, 81, §442.6]

442.7 State percent of growth — allowable growth.
1. For school years subsequent to the school year beginning July 1, 1978, a state percent of growth for the budget year shall be computed by the department of management prior to September 15 in the base year and forwarded to the director of the department of education. The state percent of growth shall be an average of the following four percentages of growth except as otherwise provided in paragraph "c" of this subsection:

a. The difference in the receipts of state general fund revenues, adjusted for changes in rates or basis, computed or estimated as follows:

(1) The percentage of change between the revenues received during the second year preceding the base year and the revenues received during the year preceding the base year.
(2) The percentage of change between the revenues received during the year preceding the base year and the revenues received during the base year.

However, for computing the state percent of growth to be used for the school year beginning July 1, 1987, the revenues received as a result of the increase in taxes in 1985 Iowa Acts, chapter 32 or as a result of the inclusion of additional items subject to tax in 1985 Iowa Acts, chapter 32 shall not be considered revenues received for the state general fund for purposes of determining the percentages under subparagraph (1) or (2).

b. The difference in the gross national product implicit price deflator published by the bureau of economic analysis, United States department of commerce, computed or estimated as a percentage of change for the following:

(1) From the value for the quarter ending December 31 eighteen months prior to the beginning of the base year to the value for the quarter ending December 31 six months prior to the beginning of the base year.
(2) From the value for the quarter ending December 31 six months prior to the beginning of the base year to the value for the quarter ending December 31 six months prior to the beginning of the budget year.

The computation of the percentage change in the gross national product implicit price deflator shall be based, to the extent possible, on the latest available values for these deflators published by the bureau of economic analysis.

c. If the average of the percentages computed or estimated under paragraph "b" of this subsection exceeds the average of the percentages computed or estimated under paragraph "a" of this subsection, the state percent of growth shall be the average of the two percentages of growth computed or estimated under paragraph "a" of this subsection.

2. Notwithstanding subsection 1 of this section, for the school year beginning July 1, 1980 only, the state percent of growth is the average of the two percentages of growth computed under subsection 1, paragraph "b," of this section.

3. If the state percent of growth so computed is negative, that percentage shall not be used and the state percent of growth shall be zero.

4. Each year prior to September 15 the department of management shall recompute the state percent of growth for the previous year using adjusted estimates and the actual figures available. The difference between the recomputed state percent of growth for the base year and the original computation shall be added to or subtracted from the state percent of growth for the budget year, as applicable. However, for the budget school year beginning July 1, 1980 only, the state comptroller shall recompute the state percent of growth for the previous year using adjusted estimates and the actual figures available based only upon the consumer price index.

With regard to values of gross national product implicit price deflators, the recomputation of the state percent of growth for the previous year shall be made only with respect to the value of the deflator for the quarter which occurred subsequent to the calculation of the state percent of growth for the previous year. If subsection 1, paragraph "c," of this section is used in the calculation of the state percent of growth for the previous year, the calculation made in subsection 1, paragraph "b," of this subsection
shall not be used in the recomputation of the state percent of growth for the previous year.

For the school year beginning July 1, 1981, the recomputation of the state percent of growth for the year beginning July 1, 1980 computed prior to September 15, 1980 and added to or subtracted from the state percent of growth for the school year beginning July 1, 1981 shall also include a percent equal to the difference between the estimate made of the percentage of growth in the receipts of state general fund revenue by the state comptroller prior to September 15, 1978 in computing the state percent of growth for the school year beginning July 1, 1979 and the actual figures of the percentage of growth in the receipts of state general fund revenue.

5. Notwithstanding subsections 1 through 4, for the school year beginning July 1, 1984, if the estimate of the ending fund balance of the state general fund for the fiscal year beginning July 1, 1984 and ending June 30, 1985, as estimated by the state comptroller in January, 1984, is equal to or greater than thirty million dollars and the state foundation base increases to eighty percent pursuant to section 442.3, the state percent of growth, including the recomputations required under subsection 4, is six and two-tenths percent.

6. The basic allowable growth per pupil for the budget year shall be computed by multiplying the state cost per pupil for the base year times the state percent of growth for the budget year.

7. The allowable growth per pupil for each school district is the basic allowable growth per pupil, for the budget year modified as follows:

a. If the state cost per pupil for the budget year exceeds the district cost per pupil for the budget year, the basic allowable growth per pupil for the budget year is modified to equal one hundred ten percent of the product of the state cost per pupil for the base year times the state percent of growth for the budget year. However, the basic allowable growth per pupil for the budget year under this paragraph shall not exceed the difference between the state cost per pupil for the budget year and the district cost per pupil for the budget year. For purposes of this paragraph the state cost per pupil and the district cost per pupil shall not include special education support service costs, and the district cost per pupil for the budget year shall not include that portion of the district cost per pupil created by additions or subtractions to the allowable growth per pupil for the budget year and for prior school years beginning with the school year commencing July 1, 1977, as provided under paragraph “b” of this subsection.

b. By the school budget review committee under section 442.13.

c. For the school year beginning July 1, 1975 only, by adding to the basic allowable growth per pupil for the budget year an amount to compensate for the costs of special education support services provided through the area education agency. The total amount for each area shall be based upon the program plans submitted by the special education director of the area education agency as required by section 273.5, which shall be modified as necessary and approved by the department of public instruction according to the criteria and limitations of section 273.5 and chapter 281. The amount of additional allowable growth per pupil for the budget year for each district in an area shall be determined by dividing the total amount for the area so determined by the weighted enrollment of the area for the budget year.

d. For the school year beginning July 1, 1976 and ending with the school year beginning July 1, 1980, by adding to the basic allowable growth an amount to compensate for the additional costs of special education support services provided through the area education agency. For the school years beginning July 1, 1978 and July 1, 1979 only, the total amount for each area shall be equal to the total amount approved for special education support services for the base year times one hundred percent plus the state percent of growth. In addition to the amount provided in this paragraph to each area for the school years beginning July 1, 1978 and July 1, 1979 to compensate for the additional costs of special education support services, each area may be granted by the state board an additional amount to serve children newly identified as requiring the services pursuant to plans submitted by the special education director of the area education agency as required by section 273.5. The total of additional amounts granted throughout the state by the state board for the school year beginning July 1, 1978 shall not exceed the total amount approved for special education support services for the school year beginning July 1, 1977 times four and eighty-seven hundredths percent, and for the school year beginning July 1, 1979 shall not exceed the total amount approved for special education support services for the school year beginning July 1, 1978 times three percent. For the school year beginning July 1, 1980 the total amount for the state for special education support services shall not exceed the total amount approved for special education support services for the base year times one hundred percent plus the state percent of growth, and the total amount for each area shall be determined by the state board of public instruction pursuant to plans submitted by the special education director of the area education agency as required by section 273.5, which shall be modified as necessary and approved by the state board of public instruction according to the criteria and limitations of section 273.5 and chapter 281 and within the total amount for the state provided in this paragraph. The amount of additional allowable growth per pupil for the budget year for each district in an area shall be determined by dividing the total amount for the area so determined by the weighted enrollment of the area for the budget year.

e. For the school years prior to the school year beginning July 1, 1981, for the additional allowable growth computed under paragraphs “c” and “d” of this subsection, the state board of public instruction, in co-operation with the appropriate personnel of the
area education agency, shall determine the amounts for each area education agency, as required and the state comptroller shall calculate the amounts of additional allowable growth for each district necessary to fund the total special education support services costs as increased for the budget year under paragraph “d” of this subsection, and shall calculate the amounts due from each district to its area education agency by multiplying the additional allowable growth per pupil necessary to fund the total special education support services costs as increased for the budget year under paragraph “d” of this subsection by the weighted enrollment in the district for the budget year. The state comptroller shall deduct the amounts so calculated for each school district from the state aid due to the district pursuant to this chapter and shall pay the amounts to the area education agencies on a quarterly basis during each school year. The state comptroller shall notify each school district of the amount of state aid deducted for this purpose and the balance of state aid will be paid to the district. If a district does not qualify for state aid under this chapter in an amount sufficient to cover its amount due to the area education agency as calculated by the state comptroller, the school district shall pay the deficiency to the area education agency from other moneys received by the district, on a quarterly basis during each school year.

f. By the department of management under section 442.35.

g. For the school year beginning July 1, 1988, and succeeding school years, the amount included in the special education support services district cost per pupil for each district in an area education agency for a budget year is the amount included in the special education support services district cost per pupil in the base year plus the allowable growth added to special education support services state cost per pupil for the budget year, except as provided in paragraph “h”. Funds shall be paid to area education agencies as provided in section 442.25.

h. For the school year beginning July 1, 1988, and succeeding school years, the director of the department of management may direct the department of management to increase or reduce the allowable growth included in special education support services district cost per pupil for a budget year for special education support services costs in an area education agency in the base year based upon special education support services needs in the area. However, an increase in the allowable growth can only be granted by action of the director of the department of education to restore a previous reduction or portion of a reduction in allowable growth for that year or the previous year.

8. For the school year beginning July 1, 1988, and succeeding school years, the allowable growth added to special education support services state cost per pupil is the amount included in the special education support services state cost per pupil for the base year times the state percent of growth for the budget year.

9. Allowable growth. For the school year beginning July 1, 1981, the state comptroller shall add to the allowable growth of affected school districts, an amount equal to the difference between the amount per pupil in weighted enrollment for the approved budget for the school year beginning July 1, 1980 for special education support services in that area education agency and the amount per pupil in weighted enrollment for the amount certified to generate funds for the school year beginning July 1, 1980 for special education support services in the area education agency and shall adjust the state cost per pupil accordingly.

442.8 State cost per pupil.
The state cost per pupil for the school year beginning July 1, 1972, is nine hundred three dollars. The state cost per pupil for the school year beginning July 1, 1987, is two thousand seven hundred six dollars. Of that amount, two thousand five hundred ninety dollars is regular program state cost per pupil and one hundred sixteen dollars and two cents is special education support services state cost per pupil. The state cost per pupil for the school year beginning on July 1, 1988, and for each succeeding school year is the sum of the base year’s regular program state cost per pupil plus the allowable growth for the budget year and the base year’s special education support services state cost per pupil plus the allowable growth for the budget year. If the state percent of growth is zero, the budget year’s state cost per pupil is the same as the base year’s state cost per pupil.

However, for the budget years beginning July 1, 1980, July 1, 1982, July 1, 1983, and July 1, 1984, the state cost per pupil shall equal the base year’s state cost per pupil plus the allowable growth for the budget year plus an adjustment to the state cost per pupil. For the budget years beginning July 1, 1980, July 1, 1982, July 1, 1983, and July 1, 1984, the adjustment to the state cost per pupil is twenty dollars per pupil, thirteen dollars per pupil, eight dollars per pupil, and eight dollars per pupil, respectively.

Commencing with the school year beginning July 1, 1976, and ending with the school year beginning July 1, 1979, the allowable growth added to the state cost per pupil as otherwise computed under section 442.7 shall be the basic allowable growth increased by an amount equal to the average of the amounts of allowable growth added for each school district in the state for additional special education support services needed for that year to serve newly identified children who require the services, under sections 273.9, subsection 3 and 442.7, subsection 7, paragraph “d”. The state comptroller shall compute the applicable amount of allowable growth to be added to the state cost per pupil for each school year.

§442.9, SCHOOL FOUNDATION PROGRAM

442.9 District cost per pupil — district cost — additional school district property tax levy.

1. The department of management shall determine the additional school district property tax levy for each school district, which is in addition to the foundation property tax levy, as follows:

a. As used in this chapter, regular program district cost per pupil for the budget year is equal to the regular program district cost per pupil for the base year plus the allowable growth. However, regular program district cost per pupil does not include additional allowable growth added for programs for gifted and talented children, for programs for returning dropouts, and for educational improvement projects under chapter 260A, for special education support services costs, or for school districts that have a negative balance of funds raised for special education instruction programs under section 442.13, subsection 14, paragraph "b", and does not include additional allowable growth established by the school budget review committee for a single school year only.

As used in this chapter, the special education support services district cost per pupil for the budget year is the special education support services district cost per pupil for the base year plus allowable growth as provided in section 442.7, subsection 7.

District cost per pupil is the sum of the regular program district cost per pupil and the special education support services district cost per pupil.

b. The district cost for the budget year is equal to the sum of the regular program district cost per pupil for the budget year multiplied by the weighted enrollment, plus the special education support services district cost per pupil multiplied by the weighted enrollment for special education support services costs, plus additional district cost added for moneys received by a school district under section 302.3, Code 1981, as provided in section 442.21, and plus the additional district cost allocated to the district under section 442.27 to fund media services and educational services provided through the area education agency. A school district shall not increase its district cost for the budget year except to the extent that an excess tax levy is authorized by the school budget review committee as provided in section 442.13.

c. The amount to be raised by the additional school district property tax levy is equal to the district cost for the budget year, less the total of the products of the state or district foundation base for regular program times the weighted enrollment plus the state or district foundation base for special education support services costs times the weighted enrollment for special education support services costs.

2. No later than May 1 of each year, the department of management shall notify the county auditor of each county the amount, in dollars and cents per thousand dollars of assessed value, of the additional property tax levy in each school district in the county. Each county auditor shall spread the additional property tax levy for each school district over all taxable property in the district.

[C73, 75, 77, 79, 81, §442.9]

1986 amendments to subsection 1 apply to computations required under chapter 442 for the budget year beginning July 1, 1988, 88 Acts, ch 1284, §85

442.9A Supplemental aid.

Notwithstanding section 442.9, commencing with the budget year beginning July 1, 1987, if the rate of the additional property tax levy determined under section 442.9 for a budget year for a reorganized school district is higher than the rate of additional property tax levy determined under section 442.9 for the year previous to the reorganization for a school district that had a certified enrollment of less than six hundred and that was within the school districts affected by the reorganization as defined in section 275.1, the department of management shall reduce the rate of the additional property tax levy in the portion of the reorganized district where the new rate is higher, to the rate that was levied in that portion of the district during the year preceding the reorganization, for the five-year period provided in this section. The department of management shall pay to each reorganized school district during each of the first five years of existence of the reorganized district as supplemental aid, moneys equal to the difference in revenues that would have been collected under the additional property tax levy calculated under section 442.9 and the rate determined under this section.

For the school year beginning July 1, 1987 and succeeding school years, there is appropriated from the general fund of the state to the department of management an amount sufficient to pay the supplemental aid to school districts under this section. Supplemental aid shall be paid in the manner provided in section 442.26.

For the purpose of the department of management's determination of the portion of a school district's budget that was property tax and the portion that was state aid, supplemental aid shall be considered property tax.

For purposes of this section, a reorganized school district is one in which reorganization was approved in an election pursuant to sections 275.18 and 275.20 and will take effect on or after July 1, 1986.
86 Acts, ch 1226, §7

442.10 Special education support services balances.

Notwithstanding chapters 273 and 281 and sections of this chapter relating to the moneys available to area education agencies for special education support services, for the school year commencing July 1, 1983 and succeeding school years, the department of education may direct the department of management to deduct amounts from the portions of school district budgets that fund special education support services in an area education agency. The
total amount deducted in an area shall be based upon excess special education support services unreserved and undesignated fund balances in that area education agency for a school year. The department of management shall determine the amount deducted from each school district in an area education agency on a proportional basis. The department of management shall determine from the amounts deducted from the portions of school district budgets that fund area education agency special education support services the amount that would have been local property taxes and the amount that would have been state aid and for the next following budget year shall increase the district’s total state school aids available under this chapter for area education agency special education support services and reduce the district’s property tax levy for area education agency special education support services by the amount necessary for the property tax portion of the deductions made under this section during the budget year.

The amount deducted from a school district’s budget shall not affect the calculation of the state cost per pupil or its district cost per pupil in that school year or a subsequent year.

442.11 Reserved.

442.12 School budget review committee.
A school budget review committee is established in the department of education and consists of the director of the department of education, the director of the department of management, and three members appointed by the governor to represent the public and to serve three-year staggered terms. The committee shall meet and hold hearings each year and shall continue in session until it has reviewed budgets of school districts, as provided in section 442.13. It may call in school board members and employees as necessary for the hearings. Legislators shall be notified of hearings concerning school districts in their constituencies.

The committee shall adopt its own rules of procedure. The director of the department of education shall serve as chairperson, and the director of the department of management shall serve as secretary. The committee members representing the public are entitled to receive their necessary expenses while engaged in their official duties. Members may also be eligible to receive compensation as provided in section 7E.6. Expense payments shall be made from appropriations to the department of education.

442.13 Duties of the committee.
1. The school budget review committee may recommend the revision of any rules, regulations, directives, or forms relating to school district budgeting and accounting, confer with local school boards or their representatives and make recommendations relating to any budgeting or accounting matters, and direct the director of the department of education or the director of the department of management to make studies and investigations of school costs in any school district.

2. The committee shall report to each session of the general assembly, which report shall include any recommended changes in laws relating to school districts, and shall specify the number of hearings held annually, the reasons for the committee’s recommendations, information about the amounts of property tax levied by school districts for a cash reserve, and other information the committee deems advisable.

3. The committee shall review the proposed budget and certified budget of each school district, and may make recommendations. The committee may make decisions affecting budgets to the extent provided in this chapter. The costs and computations referred to in this section relate to the budget year unless otherwise expressly stated.

4. Subject to the minimum for the school years beginning July 1, 1974, and July 1, 1975, as provided in section 442.7, the committee may establish a modified allowable growth by reducing the allowable growth:
   a. If the district cost per pupil exceeds the state cost per pupil.
   b. If in the committee’s judgment the district cost is unreasonably high in relation to the comparative cost factors of similar districts, even if the district cost per pupil does not exceed the state cost per pupil.

5. If a district has unusual circumstances, creating an unusual need for additional funds, including but not limited to the following circumstances, the committee may grant supplemental aid to the district from any funds appropriated to the department of education for the use of the school budget review committee for this purpose, and such aid shall be miscellaneous income and shall not be included in district cost; or may establish a modified allowable growth for the district by increasing its allowable growth; or both:
   a. Any unusual increase or decrease in enrollment.
   b. Unusual natural disasters.
   c. Unusual transportation problems and for which the per pupil transportation costs are substantially higher than the state average per pupil transportation costs due to sparsity of the population, topographical factors, and other obstacles which hinder the efficient transportation of pupils.
   d. Unusual initial staffing problems.
   e. The closing of a nonpublic school, wholly or in part.
   f. Substantial reduction in miscellaneous income due to circumstances beyond the control of the district.
   g. Unusual necessity for additional funds to permit continuance of a course or program which provides substantial benefit to pupils.
   h. Unusual need for a new course or program which will provide substantial benefit to pupils, if
§442.13, SCHOOL FOUNDATION PROGRAM

the district establishes such need and the amount of necessary increased cost

i. Unusual need for additional funds for special education or compensatory education programs

j. Year-round or substantially year-round attendance programs which apply toward graduation requirements, including but not limited to trimester or four-quarter programs. Enrollment in such programs shall be adjusted to reflect equivalency to normal school year attendance.

k. Severe hardship due to the exclusion of miscellaneous income from computations under this chapter. For the school year beginning July 1, 1973, the committee shall increase the district’s allowable growth to the extent necessary to prevent such hardship.

l. Transportation equipment needs which become necessary because of the furnishing of transportation to nonpublic school pupils under chapter 285.

m. Enrollment decrease caused by the availability of transportation to nonpublic school pupils in a district.

n. Costs of special education programs and services for children requiring special education who are living in a state-supported institution, charitable institution, or licensed boarding home which does not maintain a school and the child has not been counted in the weighted enrollment under section 281.9.

a. Any unique problems of districts to include minority problems, vandalism, civil disobedience and other costs incurred by school districts.

6. If a nonpublic school closes wholly or in part, the committee may authorize an increase in the district general fund tax levy, but only to the extent necessary to cover the cost of absorbing the former nonpublic school pupils into the public school system. The school board shall establish the amount of necessary increased cost to the satisfaction of the school budget review committee before an increase in tax levy is authorized.

7. The committee may authorize a district to spend a reasonable and specified amount from its unexpended cash balance for either of the following purposes:

a. Furnishing, equipping, and contributing to the construction of a new building or structure for which the voters of the district have approved a bond issue as provided by law or a tax as provided in chapter 278 and for major building repairs as defined in section 297.5.

b. The costs associated with the demolition of an unused school building, or the conversion of an unused school building for community use, in a school district involved in a dissolution or reorganization under chapter 275 which are incurred within three years of the dissolution or reorganization.

No other expenditure, including but not limited to expenditures for salaries or recurring costs, shall be authorized under this subsection. Expenditures authorized under this subsection shall not be included in allowable growth or district cost, and the portion of the unexpended cash balance which is authorized to be spent shall be regarded as if it were miscellaneous income. Any part of the amount not actually spent for the authorized purpose shall revert to its former status as part of the unexpended cash balance.

8. The committee may approve or modify the initial base year district cost of any district which changes accounting procedures.

9. When the committee makes a decision under subsections 3 to 8, it shall make all necessary changes in the district cost, budget, and tax levy. It shall give written notice of its decision, including all such changes, to the school board through the director of the department of management.

10. All decisions by the committee under this chapter shall be made in accordance with reasonable and uniform policies which shall be consistent with this chapter. All such policies of general application shall be stated in rules adopted in accordance with chapter 17A. The committee shall take into account the intent of this chapter to equalize educational opportunity, to provide a good education for all the children of Iowa, to provide property tax relief, to decrease the percentage of school costs paid from property taxes, and to provide reasonable control of school costs. The committee shall also take into account the amount of funds available.

11. Failure by any school district to provide information or appear before the committee as requested for the accomplishment of review or hearing is justification for the committee to instruct the director of the department of management to withhold any state aid to that district until the committee’s inquiries are satisfied completely.

12. The committee shall review the recommendations of the director of the department of education relating to the special education weighting plan, and shall establish a weighting plan for each school year after the school year commencing July 1, 1975, and report the plan to the director of the department of education.

13. The committee may recommend that two or more school districts jointly employ and share the services of any school personnel, or acquire and share the use of classrooms, laboratories, equipment, and facilities as specified in section 280.15.

14. As soon as possible following June 30 of the base year, the school budget review committee shall determine for each school district the balance of funds, whether positive or negative, raised for special education instruction programs under the special education weighting plan established in section 281.9. The committee shall certify the balance of funds for each school district to the director of the department of management.

In determining the balance of funds of a school district under this subsection, the committee shall subtract the amount of any reduction in state aid that occurred as a result of a reduction in allotments made by the governor with the concurrence of the executive council under section 8.31.*

a. If the amount certified for a school district to the director of the department of management under
this subsection for the base year is positive, the director of the department of management shall subtract the amount of the positive balance from the amount of state aid remaining to be paid to the district during the budget year. If the positive amount exceeds the amount of state aid that remains to be paid to the district, the school district shall pay the remainder on a quarterly basis prior to June 30 of the budget year to the director of the department of management from other funds received by the district. The director of the department of management shall determine the amount of the positive balance that would have been local property tax revenues and shall increase the district’s total state school aids available under this chapter for the next following budget year by the amount so determined and shall reduce the district’s tax levy computed under section 442.9 for the next following budget year by the amount necessary to compensate for the increased state aid.

b. If the amount certified for a school district to the director of the department of management under this subsection for the base year is negative, the director of the department of management shall determine the amount of the deficit that would have been state aid and the amount that would have been property taxes for each eligible school district.

There is appropriated from the general fund of the state to the school budget review committee an amount equal to the state aid portion of five percent of the receipts for special education instruction programs in each district that has a positive balance determined under paragraph “a” for the base year, or the state aid portion of the positive balance determined under paragraph “a” for the base year, whichever is less, totaled on a statewide basis, to be used for supplemental aid payments to school districts. Except as otherwise provided in this paragraph, supplemental aid paid to a district is equal to the state aid portion of the district’s deficit balance. The school budget review committee shall direct the director of the department of management to make the payments to school districts under this paragraph.

A school district is eligible to receive supplemental aid payments during the budget year if the school district certifies to the school budget review committee that for the year following the budget year it will request the school budget review committee to instruct the director of the department of management to increase the district’s allowable growth and will fund the allowable growth increase either by using moneys from its unexpended cash balance to reduce the district’s property tax levy or by using cash reserve moneys to equal the amount of the deficit that would have been property taxes and any part of the state aid portion of the deficit not received as supplemental aid. The director of the department of management shall make the necessary adjustments to the school district’s budget to provide the additional allowable growth and shall make the supplemental aid payments.

If the amount appropriated under this lettered paragraph is insufficient to make the supplemental aid payments, the director of the department of management shall prorate the payments on the basis of the amount appropriated.

15. Annually the school budget review committee shall review the amount of property tax levied by each school district for a cash reserve authorized in section 298.10. If in the committee’s judgment, the amount of a district’s cash reserve levy is unreasonably high, the committee shall instruct the director of the department of management to reduce that district’s tax levy computed under section 442.9 for the following budget year by the amount the cash reserve levy is deemed excessive. A reduction in a district’s property tax levy for a budget year under this subsection does not affect the district’s authorized budget.

16. The committee shall perform the duties assigned to it under chapter 286A.

442.14 Additional enrichment amount.

1. For the budget year beginning July 1, 1980, and each succeeding school year, if a school board wishes to spend more than the amount permitted under sections 442.1 to 442.13, and the school board has not attempted by resolution to raise an additional enrichment amount for that budget year, the school board may raise an additional enrichment amount not to exceed ten percent of the state cost per pupil multiplied by the budget enrollment in the district, as provided in this section. For the budget year beginning July 1, 1988 and each succeeding school year, the additional enrichment amount that may be raised is an amount not to exceed fifteen percent of the state cost per pupil multiplied by the budget enrollment in the district. The additional five percent is to provide additional moneys for districts because of budget reductions incurred beginning July 1, 1988 under sections 442.4, subsections 3 and 5.

2. The board shall determine the additional enrichment amount per pupil needed, within the limits of this section, and shall direct the county commissioner of elections to submit the question of whether to raise that amount under this section and section 442.15, to the qualified electors of the school district at a regular school election held during September of the base year or at a special election held not later than February 15 of the base year. Only one election on the question shall be held during a twelve-month period. If a majority of those voting favors raising the enrichment amount, the board may include the approved amount in its certified budget.

3. The additional enrichment amount needed shall be raised within the limits provided in this section by a combination of an enrichment property

Effective July 1, 1980, the director of revenue and finance shall deposit all school district income surtax moneys received on or before November 1 of the year following the close of the school budget year for which the surtax is imposed to the credit of each district from which the moneys are received in the school district income surtax fund. All school district surtax moneys received or refunded after November 1 of the year following the close of the school budget year for which the surtax is imposed shall be deposited in or withdrawn from the general fund of the state and shall be considered part of the cost of administering the school district surtax.

The report shall also specify the amount of school district income surtax moneys received or refunded as a result of an audit or from the filing of amended returns. The report shall specify the names of each school district which has imposed a school district income surtax and the amount of additional income surtax moneys received from late filed returns and received or refunded from audited and amended returns and the administrative costs incurred by the department in processing these returns and the issuance of warrants to the respective school districts which have received addi-

Additional returns in process, if any, at the time of certification shall be completed and the additional amount of school district income surtax reported to the department of management for distribution back to the school district with the first installment of the following school year.

The department of management shall notify each school district of the amount of state aid deducted for these purposes and the balance of state aid shall be paid to the district. If a district does not qualify for state aid under this chapter in an amount sufficient to cover its amount due to the area education agency as calculated by the department of management, the school district shall pay the deficiency to the area education agency from other moneys received by the district, on a quarterly basis during each school year.

However, an amount of state school foundation aid equal to the general allocation of the school district as determined under section 405A.2 and the amount for the tax credit for livestock pursuant to section 442.2, subsection 2, as it appeared in the 1987 Code, shall be paid to the school district on July 15 of the subsequent fiscal year, and the appropriation for this amount shall be made for the fiscal year during which the payment is made. However, the state aids paid to school districts under section 442.28 shall be paid in monthly installments beginning on December 15 and ending on June 15 of a budget year.

State aid payments made pursuant to section 442.26 for a fiscal year shall be reduced by one one hundred eightieth for each day of that fiscal year for which the school district begins school before the earliest starting date specified in section 279.10, subsection 1. However, this section does not apply to a school district that has received approval from the director of the department of education under section 279.10, subsection 4, to commence classes for regularly established elementary and secondary schools in advance of the starting date established in section 279.10, subsection 1.

442.27 Funding media and educational services.

Media services and educational services provided through the area education agencies shall be funded, to the extent provided, by an addition to the district cost of each school district, determined as follows:

1. For the budget year beginning July 1, 1975, the total amount funded in each area for media services shall be the greater of an amount equal to the costs for media services in the area in the base year times the sum of one hundred percent plus the state percent of growth, or an amount equal to five dollars times the enrollment served in the area in the budget year. The costs for media services in the area in the base year beginning July 1, 1974, shall be a proportionate part of the budgeted expenditures by county school systems and joint county systems formerly serving pupils in the area based upon the enrollment served in that area in the base year by each county school system and joint county system compared to the total enrollment served by that county system or joint county system.

2. For the school year beginning July 1, 1978 and each succeeding budget year through the budget year beginning July 1, 1981, the total amount funded for each area for media services excluding the cost for media resource material shall be the total amount funded in the area for media service in the base year times the sum of one hundred percent plus the state percent of growth plus the costs for media resource material for the base year.

For the school year beginning July 1, 1981, the total amount to be funded for media services, including the costs for media resource material which shall only be used for the purchase or replacement of material required in section 273.6, subsection 1, paragraphs "a", "b" and "c", shall be equal to the budget in the base year in the area times the sum of one hundred percent plus the state percent of growth.

3. (a) However, for the budget year beginning July 1, 1978, each area in which the amount funded for media services per pupil without inclusion of the costs for media resource material is less than the maximum media service cost per pupil for pupil times the enrollment served in the budget year, that area shall receive additional funding for equalization purposes as provided in this paragraph. Each such area shall be funded, in addition to the amount funded under the provisions of subsection 2, an amount equal to one third of the difference between the product of the maximum media service cost per pupil times the enrollment served in the budget year in the area and that amount the area is eligible to receive for media services other than for media resource material under subsection 2. For the budget year beginning July 1, 1979, each area in which the amount funded for media services, other than for media resource material, is less than the maximum media service cost per pupil for pupil times the enrollment served in the area in the budget year, in addition to the amount funded for media services other than media resource material under the provision of subsection 2, shall be funded at an amount equal to one half of the difference between the product of the maximum media service cost per pupil times the enrollment served in the budget year in the area and that amount the district is eligible to receive under subsection 2 for media services other than for media resource material. For the budget year beginning July 1, 1980, each area shall be funded at that amount generated by multiplying the maximum media service cost per pupil times the enrollment served in the area in the budget year.

For the purposes of this section "maximum media service cost per pupil" means, for the school year beginning July 1, 1978, one hundred percent plus the state percent of growth times eight dollars without inclusion of the cost for media resource material. For each succeeding school year prior to the school year beginning July 1, 1981, the "maximum media service cost per pupil" without inclusion of the cost of media resource material shall be equal to the one hundred percent plus the state percent of growth for the budget year times the maximum media service cost per pupil for the base year.

(b) In addition to the funding provided for media services under subsections 1 and 2 and paragraph "a" of this subsection, for the school year beginning July 1, 1978, an amount shall be funded to be added to media service funds for each area for purchase and replacement of media resource material required in section 273.6, subsection 1, paragraphs "a," "b" and "c." The amount shall be equal to three dollars times the enrollment served in the area in the budget year. For each succeeding school year subsequent to the school year beginning July 1, 1978, and prior to the school year beginning July 1, 1981, the amount to fund media resource material, which shall only be used for the purchase and replacement of material required in section 273.6, subsection 1, paragraphs "a," "b" and "c," shall be equal to the total amount funded in the area for media resource material in the base year times the sum of one hundred percent plus the state percent of growth.

4. For the school year beginning July 1, 1982 and succeeding school years, the total amount funded in each area for media services in the budget year shall be computed as provided in this subsection. For the
school year beginning July 1, 1962, the total amount funded in each area for media services in the base year, including the cost for media resource material which shall only be used for the purchase or replacement of material required in subsection 1, paragraphs "a", "b", and "c", shall be divided by the enrollment served in the base year to provide an area media services cost per pupil in the base year, and the state comptroller shall compute the state media services cost per pupil in the base year which is equal to the average of the area media services costs per pupil in the base year. For the year beginning July 1, 1982 and succeeding school years, the department of management shall compute the allowable growth for media services in the budget year by multiplying the state media services cost per pupil in the base year times the state percent of growth for the budget year, and the total amount funded in each area for media services in the budget year equals the area media services cost per pupil in the base year plus the allowable growth for media services in the budget year times the enrollment served in the budget year. Funds shall be paid to area education agencies as provided in section 442 25.

5 For the school year beginning July 1, 1986, the department of management shall increase the area media services cost per pupil in each area education agency and the state media services cost per pupil determined under subsection 4 by one dollar and one cent for the purchase or replacement of material required in section 273 6, subsection 1, paragraphs "a", "b", and "c".

6 For the budget year beginning July 1, 1975, the total amount funded in each area for educational services shall be an amount equal to ten dollars times the enrollment served in the area in the budget year.

7 For each succeeding budget year through the budget year beginning July 1, 1980, the total amount funded in each area for educational services shall be the total amount funded in the area for educational services in the base year times the sum of one hundred percent plus the state percent of growth. For the school year beginning July 1, 1981, the total amount funded in each area for educational services is the total amount funded in the area for educational services in the base year.

8 For the school year beginning July 1, 1982 and succeeding school years, the total amount funded in each area for educational services in the budget year shall be computed as provided in this subsection. For the school year beginning July 1, 1982, the total amount funded in each area for educational services in the base year shall be divided by the enrollment served in the area in the base year to provide an area educational services cost per pupil in the base year, and the state comptroller shall compute the state educational services cost per pupil in the base year, which is equal to the average of the area educational services costs per pupil in the base year. For the year beginning July 1, 1982 and succeeding school years, the department of management shall compute the allowable growth for educational services by multiplying the state educational services cost per pupil in the base year times the state percent of growth for the budget year, and the total amount funded in each area for educational services for the budget year equals the area educational services cost per pupil for the base year plus the allowable growth for educational services in the budget year times the enrollment served in the area in the budget year. Funds shall be paid to area education agencies as provided in section 442 25.

9 For school years prior to the school year beginning July 1, 1982, of the total amounts funded in each area each year for media services and educational services, a portion shall be allocated to each district in the area. The portion to be allocated to each district in an area shall be the same percentage of the total amount that the enrollment served in the budget year in the district is of the enrollment served in the budget year in the area.

10 For school years prior to the school year beginning July 1, 1982, the portion allocated to each district in an area each budget year for media services and educational services shall be added to the district cost of that district for the budget year as provided in section 442 9.

11 For school years prior to the school year beginning July 1, 1982, the state board of public instruction and the state comptroller shall determine the total amounts funded in each area for media services and educational services each year, and the amounts to be allocated to each district. The state comptroller shall deduct the amounts so calculated for each school district from the state aid due to the district pursuant to this chapter and shall pay the amounts to the districts' area education agencies on a quarterly basis during each school year. The state comptroller shall notify each school district the amount of state aid deducted for this purpose and the balance which will be paid to the district. If a district does not qualify for state aid under this chapter in an amount sufficient to cover the amount due to its area education agency as calculated by the state comptroller, the school district shall pay the deficiency to its area education agency from other moneys received by the district, on a quarterly basis during each school year.

12 "Enrollment served" means the basic enrollment plus the number of nonpublic school pupils served with media services or educational services, as applicable, except that if a nonpublic school pupil receives services through an area other than the area of the pupil's residence, the pupil shall be deemed to be served by the area of the pupil's residence, which shall by contractual arrangement reimburse the area through which the pupil actually receives services. For school years subsequent to the school year beginning July 1, 1986, each school district shall include in the third Friday in September enrollment report the number of nonpublic school pupils within each school district for media and educational services served by the area.

13 For the school year beginning July 1, 1978,
§442.27, SCHOOL FOUNDATION PROGRAM

and for each subsequent school year, if an area education agency does not serve nonpublic school pupils in a manner comparable to services provided public school pupils for media and educational services, as determined by the state board of education, the state board shall instruct the department of management to reduce the funds for media services and educational services one time by an amount to compensate for such reduced services. The media services budget shall be reduced by an amount equal to the product of the cost per pupil in basic enrollment for media services in the budget year times the difference between the enrollment served and the basic enrollment recorded for the area for the budget year beginning July 1, 1975. The educational services budget shall be reduced by an amount equal to the product of the cost per pupil in basic enrollment for educational services in the budget year times the difference between the enrollment served and the basic enrollment recorded for the budget year beginning July 1, 1975.

The provisions of this subsection shall apply only to media and educational services which cannot be diverted for religious purposes.

Notwithstanding this subsection, an area education agency shall distribute to nonpublic schools media materials purchased wholly or partially with federal funds in a manner comparable to the distribution of such media materials to public schools as determined by the director of the department of education.

442.28 Advance for increasing enrollment.

If a district's actual enrollment for the budget year, determined under section 442.4, is higher than its budget enrollment for the budget year, the district is entitled to an advance from the state of an amount equal to its regular program district cost per pupil for the budget year multiplied by the difference between the actual enrollment for the budget year and the budget enrollment for the budget year. However, if a district's actual enrollment for the budget year is more than fifteen percent higher than its basic enrollment for the budget year, the advance shall be calculated using seventy-five percent of the difference between the district's actual enrollment for the budget year and its basic enrollment for the budget year. The advance is miscellaneous income.

If a district receives an advance under this section for a budget year, the department of management shall determine the amount of the advance which would have been met by local property tax revenues if the actual enrollment for the budget year or the budget enrollment for the budget year plus seventy-five percent of the difference between the actual enrollment for the budget year and the basic enrollment for the budget year, had been used in determining district cost for that budget year, shall reduce the district's total state school aids available under this chapter for the next following budget year by the amount so determined, and shall increase the district's tax levy computed under section 442.9, for the next following budget year by the amount necessary to compensate for the reduction in state aid, so that the local property tax for the next following year will be increased only by the amount which it would have been increased in the budget year if the enrollment calculated in this section could have been used to establish the levy.

There is appropriated each year from the general fund of the state the amount required to pay advances authorized under this section, which shall be paid to school districts in the same manner as other state aids are paid under section 442.26.

Notwithstanding the provisions of sections 281.9 and 281.11 as those sections are in effect prior to July 1, 1975, reimbursement shall not be made to local school districts for the special education costs for the school year beginning July 1, 1974, incurred for programs provided for the school year beginning July 1, 1971, or prior years, but reimbursement shall be made to local school districts for new and expanded programs for the school year beginning July 1, 1974, beyond those programs provided for the school year beginning July 1, 1971, and reimbursement applied for by county boards of education and joint county boards of education under those sections shall be made.

[C77, 79, 81, §442.29]

442.30 Temporary increase in per pupil cost.

1. For the school year beginning July 1, 1979, the state cost per pupil shall be increased to an amount which would otherwise have resulted for the school year beginning July 1, 1979, if the surplus balances for area education agency support services and for area education inherited funds had not been offset against the total support budgets for the school year beginning July 1, 1978. This adjustment is to compensate for the reductions made to state cost based upon the temporary offset of support budgets by certain area education agency fund balances.

2. Notwithstanding the provisions of chapter 1095 as enacted by the Sixty-seventh General Assembly, 1978 Session, as it pertains to the amount of the reduction to the support service costs to be allocated among the school districts, the amount of the special education support services cost to be reduced for area education agency XIII is equal to ninety-nine thousand eight hundred ninety-nine dollars rather than a reduction of one hundred twenty-one thousand one hundred twenty dollars.

3. To meet the special problems that result from budget reductions due to declining enrollments prior to the modifications in the adjustments for declining enrollments to take effect commencing with the
school year beginning July 1, 1979, there is appropriated from the general fund of the state for the fiscal years beginning July 1, 1978 and ending June 30, 1980, to the school budget review committee the sum of two million five hundred thousand dollars, or so much thereof as necessary to be used to minimize the impact of the factor listed in subsection 4. The school budget review committee may also establish a modified allowable growth for the school district by increasing the allowable growth for the school district to provide additional funds to assist the school district with hardships which result from the impact on the school district's budget resulting from declining enrollment.

4. To assess whether a district has hardships resulting from reduced funds because of declining enrollment, the school budget review committee shall consider whether the school district will be forced to terminate an existing educational program because of insufficient funds and thus diminish the overall quality of the school program for the budget year from that provided in the base year.

[C79, 81, §442.30]

442.31 Gifted and talented children.

For the school year beginning July 1, 1981 and succeeding school years, boards of school districts, individually or jointly with the boards of other school districts, requesting to use additional allowable growth for gifted and talented children programs, may annually submit program plans for gifted and talented children programs and budget costs, including requests for additional allowable growth for funding the programs, to the department of education and to the applicable gifted and talented children advisory council, if an advisory council has been established, as provided in this chapter.

The parent or guardian of a pupil may request that a gifted and talented children program be established for pupils who qualify as gifted and talented children under section 442.33, including demonstrated achievement or potential ability in a single subject area.

The department shall employ a consultant for gifted and talented children programs.

The department of education shall adopt rules under chapter 17A relating to the administration of sections 442.31 to 442.35, 442.40 and 442.41. The rules shall prescribe the format of program plans submitted under section 442.32 and shall require that programs fulfill specified objectives. The department shall encourage and assist school districts to provide programs for gifted and talented children whether or not additional allowable growth is requested under this chapter.

1. Program goals, objectives, and activities to meet the needs of gifted and talented children.

2. Student identification criteria and procedures.

3. Staff in-service education design.

4. Staff utilization plans.

5. Evaluation criteria and procedures and performance measures.

CHAPTER 442A
IOWA ADVANCE FUNDING AUTHORITY

Iowa advance funding authority is included in the department of education; §7E.7, ch 256

442A.1 Short title.
This chapter may be cited as the “Iowa Advance Funding Authority Act.”
85 Acts, ch 34, §1

442A.2 Legislative findings.
The general assembly finds as follows:
1. The establishment of the authority is in all respects for the benefit of the people of the state of Iowa and the improvement of the financing procedures for Iowa’s schools.
2. The authority will be performing an essential governmental function in the exercise of the powers and duties conferred upon it by this chapter.
3. Iowa schools face a serious and increasing problem with cash flow difficulties caused, among other factors, by increasing reliance on state school foundation aid, delays in the payment of state school
foundation aid, and the periodic payment of property taxes for school purposes.

4. As a result of their increasing cash flow difficulties, Iowa schools have had to borrow on a short-term basis larger amounts of funds more often, thus increasing their borrowing costs significantly.

5. The short-term borrowing costs of Iowa schools are a direct burden on the taxpayers of the state.

6. It is necessary to create the authority to provide a means for Iowa schools to reduce substantially or eliminate their short-term borrowing costs and thus reduce costs to the taxpayers.

7. All of the purposes stated in this section are public purposes and uses for which public moneys may be borrowed, expended, advanced, loaned or granted.

85 Acts, ch 34, §2

CHAPTER 443

TAX LIST

443.1 Consolidated tax.
All taxes which are uniform throughout any town-
ship or school district shall be formed into a single
tax and entered upon the tax list in a single column,
to be known as a consolidated tax, and each receipt
shall show the percentage levied for each separate
fund.

443.2 Tax list.
Before the first day of July in each year, the county
auditor shall transcribe the assessments of the town-
ships and cities into a book or record, to be known as
the tax list, properly ruled and headed, with sepa-
rate columns, in which shall be entered the names of
the taxpayers, descriptions of lands, number of acres
and value, numbers of city lots and value, value of
personal property and each description of tax, with a
column for polls and one for payments, and shall
complete it by entering the amount due on each
installment, separately, and carrying out the total of
both installments. The total of all columns of each
page of each book or other record shall balance with
the tax totals. After computing the amount of tax
due and payable on each property, the county auditor
shall round the total amount of tax due and payable
on the property to the nearest even whole dollar.

The county auditor shall list the aggregate actual
value and the aggregate taxable value of all taxable
property within the county and each political subdi-
vision on the tax list in order that the actual value of
the taxable property within the county or a political
subdivision may be ascertained and shown by the
tax list for the purpose of computing the debt
incurred by the county or political subdivision.

As used in this section, "actual value" is the
value determined under section 441 21, subsections
1 to 3, prior to the reduction to a percentage of actual
value as otherwise provided in section 441 21.

443.3 Correction — tax apportioned.
At the time of transcribing said assessments into
the tax list, the county auditor shall correct all
transfers up to date and place the legal descriptions
of all real estate in the name of the owner at said
date as shown by the transfer book in the auditor's
office. At the end of the list for each township or city
the auditor shall make an abstract thereof, and
apportion the consolidated tax among the respective
funds to which it belongs, according to the amounts
levied for each.

443.4 Tax list delivered — informality and
delay.
The county auditor shall make an entry upon the
tax list showing what it is, for what county and year,
and deliver it to the county treasurer on or before
June 30, taking the treasurer's receipt therefor, and
such list shall be a sufficient authority for the
treasurer to collect the taxes therein levied. No
informality therein, and no delay in delivering the
same after the time above specified, shall affect the
validity of any taxes, sales, or other proceedings for
the collection of such taxes.

If such correction or assessment is made after the books or other records approved by the state auditor have passed into the hands of the treasurer, the treasurer shall be charged or credited therefor as the case may be. Real estate so sold shall be redeemable in the same manner and with the same penalties as that sold for the taxes of the preceding year.

In the construction of this chapter the word "person" shall include plural as well as singular, and artificial as well as natural persons. This chapter shall not be construed to confer upon a county attorney authority to represent the state in any case, shall not be construed to confer upon a county attorney authority to represent the state in any case, or there after is brought within this state and becomes subject to the jurisdiction of the courts of this state, or the property of any decedent, domiciled within this state at the time of the death of such decedent, even though the property of such decedent so domiciled was situated outside of the state, except real estate located outside of the state, passing in fee from the decedent owner, which shall pass in any manner herein described shall be subject to tax as herein provided.

450.2 Estates taxable.
The estates of all deceased persons in any property whether the decedents be inhabitants of this state or not, and whether such estates consist of real, personal, or mixed property, tangible or intangible, and any interest in, or income from, any such estate or property which estate or property is, at the death of the decedent owner within this state, or is subject to the jurisdiction of the courts of this state, or there after is brought within this state and becomes subject to the jurisdiction of the courts of this state, or the property of any decedent, domiciled within this state at the time of the death of such decedent, even though the property of such decedent so domiciled was situated outside of the state, except real estate located outside of the state, passing in fee from the decedent owner, which shall pass in any manner herein described shall be subject to tax as herein provided.

450.3 Property included.
The tax hereby imposed shall be collected upon the
net market value and shall go into the general fund of the state to be determined as herein provided, of any property passing as follows:

1. By will or under the statutes of inheritance of this or any other state or country.

2. By deed, grant, sale, gift or transfer made within three years of the death of the grantor or donor, which is not a bona fide sale for an adequate and full consideration in money or money's worth and which is in excess of the annual gift tax exclusion allowable for each donee under section 2503, subsections b and e of the Internal Revenue Code. If both spouses consent, a gift made by one spouse to a person who is not the other spouse is considered, for the purposes of this subsection, as made one half by each spouse under the same terms and conditions provided for in section 2513 of the Internal Revenue Code.

3. By deed, grant, sale, gift or transfer made or intended to take effect in possession or enjoyment after the death of the grantor or donor. A transfer of property in respect of which the transferor reserves to the transferee a life income or interest shall be deemed to have been intended to take effect in possession or enjoyment at death, provided, that if the transferor reserves to the transferee less than the entire income or interest, the transfer shall be deemed taxable thereunder only to the extent of a like proportion of the value of the property transferred.

4. To the extent of any property with respect to which the decedent has at the time of death a general power of appointment, or with respect to which the decedent has within three years of death exercised or released a general power of appointment by a disposition which is of a nature that if it were a transfer of property owned by the decedent, the property would be includable in the decedent's gross estate under this section whether the general power was created before or after the taking effect of this chapter. A transfer involving creation of a general power of appointment shall be treated as a transfer of a fee or equivalent interest in the property subject thereto to the donee of the power. Any transfer involving creation of any other power of appointment shall be treated, except when an election is made under subsection 7, as the transfer of a life estate or term of years in the property subject thereto to the donee of the power and as the transfer of the remainder interests to those who would take if the power is not exercised.

5. Property which is held in joint tenancy by the decedent and any other person or persons or any deposit in banks, or other institution in their joint names and payable to either or to the survivor, except such part as may be proven to have belonged to the survivor; or any interest of a decedent in property owned by a joint stock or other corporate body whereby the survivor or survivors become beneficially entitled to the decedent's interest upon the death of a shareholder. However, if such property is so held by the decedent and the surviving spouse as the only co-owners, one half of such property is not subject to taxation under the provisions of this chapter, but if the surviving spouse proves that the surviving spouse contributed to acquisition of such property an amount, in money or other property, greater than one half of the cost of the property held in joint tenancy, the portion of such property which is not subject to taxation under the provisions of this chapter shall be the proportion which the actual contribution by the surviving spouse is of the total contribution to acquisition of such property. The tax imposed upon the passing of property under the provisions of this subsection shall apply to property held under all such contracts or agreements whether made before or after the taking effect of this chapter.

6. When the decedent shall have disposed of the decedent's estate in any manner to take effect at the decedent's death with a request secret or otherwise that the beneficiary give, pay to, or share the property or any interest therein received from the decedent, with other person or persons, or to so dispose of beneficial interests conferred by the decedent upon the beneficiaries as that the property so passing would be taxable under the provisions of this chapter if passing directly by will or deed from the decedent owner to those to receive the gift from the beneficiary, compliance with such request shall constitute a transfer taxable under the provisions of this chapter, at the highest rate possible in like cases of transfers by will or deed.

7. Which qualifies as a qualified terminable interest property as defined in section 2056(b)(7)(B) of the Internal Revenue Code, shall, if an election is made, be treated and considered as passing in fee, or its equivalent, to the surviving spouse in the estate of the donor-grantor. Property on which the election is made shall be included in the gross estate of the surviving spouse and shall be deemed to have passed in fee from the surviving spouse to the persons succeeding to the remainder interest, unless the property was sold, distributed, or otherwise disposed of prior to the death of the surviving spouse. A sale, disposition, or disposal of the property prior to the death of the surviving spouse shall void the election, and shall subject the property disposed of, less amounts received or retained by the surviving spouse, to tax in the donor-grantor's estate in the same manner as if the tax had been deferred under sections 450.44 through 450.49.

Unless the will or trust instrument provides otherwise, the estate of the surviving spouse shall have the right to recover from the persons succeeding to the remainder interests, the additional tax imposed, if any, without interest, on the surviving spouse by reason of the election being made. The amount of tax recovered, if any, shall be a credit in the donee's estate against the tax imposed on the qualified terminable interest property.

An election under this subsection can only be made if an election in relation to the qualified terminable interest property is also made for federal estate tax purposes.

The director of revenue and finance shall adopt and promulgate all rules necessary for the enforce-
ment and administration of this subsection including the form and manner of making the election.

450.6 Accrual of tax — maturity — extension of time.
The tax imposed by this chapter accrues at the death of the decedent owner, and shall be paid to the department of revenue and finance on or before the last day of the ninth month after the death of the decedent owner except if otherwise provided in this chapter. If in the opinion of the director of revenue and finance additional time should be granted for payment to avoid hardship, the director may extend the period to a date not exceeding ten years from the last day of the month in which the death of the decedent occurred. In the case of an extension the tax bears interest at the rate in effect under section 421.7 from the expiration of the last day of the ninth month after the decedent's death. Interest shall be computed on a monthly basis with a fraction of a month counted as a full month.

Upon the approval of the executive council, the tax liability of a beneficiary, heir, surviving joint tenant or other transferee may be paid, in lieu of money, in whole or in part by the transfer of real property or tangible personal property to the state or a political subdivision of the state to be used for public purposes. Before the tax liability may be paid by transfer of property to a political subdivision, the governing body of the political subdivision shall also approve the transfer. The property transferred in payment of tax shall have been included in the decedent's gross estate for inheritance tax purposes and its value for the payment of the tax shall be the same as its value for inheritance tax purposes. The acceptance or rejection of the property in payment of the tax liability and the value of the property shall be certified by the executive council to the director of revenue and finance. The acceptance of the property transferred acts as payment and satisfaction of the inheritance tax liability to the extent of the value of the transferred property, but notwithstanding any other provision, the taxpayer is not entitled to a refund if the transferred property has a value in excess of the tax liability.

450.7 Lien of tax.

1. The tax is a charge against and a lien upon the estate subject to tax under this chapter, and all property of the estate or owned by the decedent from the death of the decedent until paid, subject to the following limitations:

a. Inheritance taxes owing with respect to a passing of property of a deceased person whose estate has not been administered in this state are no longer a lien against the property twenty years from the date of death of the decedent owner, except to the extent taxes are attributable to remainder or deferred interests which have not been finally vested in possession for at least ten years.

b. Inheritance taxes owing with respect to a passing of property of a deceased person whose estate has been administered in this state are no longer a lien against the property ten years from the date of death of the decedent owner, except to the extent taxes are attributable to remainder or deferred interests and are deferred in accordance with the provisions of this chapter.

2. Notice of the lien is not required to be recorded. The rights of the state under the lien have priority over all subsequent mortgages, purchases, or judgment creditors; and a conveyance after the lien has been released under paragraph "a" or "b", the lien does not have priority over subsequent mortgages, purchases, or judgment creditors unless notice of the lien is recorded in the office of the recorder of the county where the estate is probated, or where the property is located if the estate has not been administered. The department of revenue and finance may release the lien by filing in the office of the clerk of the court in the county where the property is located, the decedent owner died, or the estate is pending or was administered, one of the following:

The proceeds from that sale, exchange, mortgage, or pledge shall be held by the personal representative subject to the same priorities for the payment of the tax as existed with respect to the property before the transaction, and the personal representative is personally liable for payment of the tax to the extent of the proceeds.

450.8 Transfers and trusts.

If the decedent makes transfer of, or creates a trust with respect to, property passing under section 450.3, subsection 2, or intended to take effect after death, except in the case of a bona fide sale for a fair consideration in money or money's worth, and if the tax in respect to the transfer is not paid when due, the transferee or trustee is personally liable for the tax, and the property, to the extent of the decedent's interest in the property at the time of death, is subject to a lien for the payment of the tax.

450.9 Individual exemptions.

In computing the tax on the net estate passing to the surviving spouse, heirs or beneficiaries of the deceased the following exemptions shall be allowed:

The credit shall not be applicable to taxes on property of the decedent which was not acquired from the prior estate.

6. When the property or any interest therein, or income therefrom, taxable under the provisions of this chapter passes to any person included under subsection 1 or 2 hereof, there shall be credited to the tax imposed on the individual share so passing an amount equal to the tax imposed in this state on the decedent on any property, real, personal or mixed, or the proportionate share thereof on property passing to the person taxed hereunder, which can be identified as having been received by the decedent as a share in the estate of any person who died within two years prior to the death of the decedent, or which can be identified as having been acquired by the decedent in exchange for property so received. The credit shall not be applicable to taxes on property of the decedent which was not acquired from the prior estate.

7. There shall be deducted from the tax computed under subsection 1 on property, interest in property, or income passing to the surviving spouse a credit equal to the following:

a. From estates of persons dying on or after January 1, 1986 but before January 1, 1987, one-third of the computed tax.

If at the end of any two year period the bond is not promptly renewed as herein provided and the tax has not been paid, the bond shall be declared void and the amount thereof forthwith collected. When the estate of a decedent consists in part of real and in part of personal property, and there be an estate for life or for a term of years to one or more persons and a deferred or remainder estate to others, and such deferred or remainder estate is in whole or in part subject to the tax imposed by this chapter, if the deferred or remainder estates or interests are so disposed that good and sufficient security for the payment of the tax for which such deferred or remainder estates may be liable can be had because of the lien imposed by this chapter upon the real property of such estate, then payment of the tax upon such deferred or remainder estates may be postponed until the determination of the prior estate without giving bond as herein required to secure payment of such tax, and the tax shall remain a lien upon such real estate until the tax upon such deferred estate or interest is paid.

450.88 Corporations to report transfers.

Every Iowa corporation organized for pecuniary profit shall, on July 1 of each year, by its proper officers under oath, make a full and correct report to the director of revenue and finance of all transfers of its stocks made during the preceding year by any person who appears on the books of the corporation as the owner of the stock, when the transfer is made to take effect at or after the death of the owner or transferor, and all transfers which are made by a personal representative, referee, or any person other than the owner or person in whose name the stocks appeared of record on the books of the corporation, prior to the transfer. This report shall show the name of the owner of the stocks and the owner's place of residence, the name of the person at whose request the stock was transferred, the person's place of residence and the authority by virtue of which the person acted in making the transfer, the name of the person to whom the transfer was made, and the residence of the person, together with other information the officers reporting have relating to estates of persons deceased who may have been owners of stock in the corporation. If it appears that any stock transferred is subject to tax under this chapter, and the tax has not been paid, the director of revenue and finance shall notify the corporation in writing of its liability for the payment of the tax, and shall bring suit against the corporation as in other cases unless payment of the tax is made within sixty days from the date of notice.

This section does not apply if the lien has been released under section 450.7 or the director has issued a consent to transfer.

450.89 Foreign estates — deduction of debts.

Repealed by 83 Acts, ch 177, §37, 38. See §450.12(2).

450.90 Property in this state belonging to foreign estate.

When property, real or personal, within this state belongs to a foreign estate and the foreign estate passes in part exempt from the tax imposed by this chapter and in part subject to the tax and there is not a specific devise of the property within this state to exempt persons or if it is within the authority or discretion of the foreign personal representative administering the estate to dispose of the property not specifically devised to exempt persons in the payment of liabilities owing by the decedent at the time of death, or in the satisfaction of legacies, devises, or trusts given to direct or collateral legatees or devisees or in payment of the distributive shares of any direct and collateral heirs, then the property within the jurisdiction of this state belonging to the foreign estate is subject to the tax imposed by this chapter, and the tax due shall be assessed as provided in section 450.12, subsection 2, relating to the deduction of the proportionate share of liabilities. However, if the value of the property so situated exceeds the total amount of the estate passing to other persons than those exempt from the tax imposed by this chapter, the excess is not subject to tax.

[S13, §1481-a40; C24, 27, 31, 35, 39, §7393; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §450.90] 83 Acts, ch 177, §33, 38

450.91 Foreign estates — reciprocity — personal property.

The tax imposed by this chapter in respect to personal property of nonresidents (other than tangible personal property having an actual situs in this state) shall not be payable (1) if the decedent at the time of the decedent's death was a resident of a state or territory of the United States which at the time of the decedent's death did not impose a transfer tax or death tax of any character in respect to personal property of nonresidents (other than tangible personal property having an actual situs in such state or territory), or (2) if the laws of the state or territory of residence of the decedent at the time of the decedent's death contained a reciprocal provision under which nonresidents were exempted from transfer taxes or death taxes of every character in respect of personal property (other than tangible personal property having an actual situs therein) provided the state or territory of residence of such nonresidents allowed a similar exemption to residents of the state or territory of residence of such decedent.

In no case shall the provisions of this section apply to the intangible personal property of nonresident decedents unless such intangible personal property shall have been subjected to a tax or submitted for purposes of taxation in the state of the decedent's residence.
This section shall apply only to estates of decedents dying subsequent to July 4, 1929.

For the purpose of this section the District of Columbia and possessions of the United States shall be considered territories of the United States.

[C31, 35, §7393-cl; C39, §7393.1; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §450.91]

450.92 Compromise settlement.
Whenever an estate charged or sought to be charged with the inheritance tax is of such a nature, or is so disposed, that the liability of the estate is doubtful, or the value thereof cannot with reasonable certainty be ascertained under the provisions of law, the director of revenue and finance may, with the written approval of the attorney general, which approval shall set forth the reasons therefor, compromise with the beneficiaries or representatives of such estates, and compound the tax thereon; but said settlement must be approved by the district court or judge of the proper court, and after such approval the payment of the amount of the taxes so agreed upon shall discharge the lien against the property of the estate.

[S13, §1481-a42; C24, 27, 31, 35, 39, §7395; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §450.92]

450.93 Unknown heirs.
Whenever the heirs or persons entitled to any estate or any interest therein are unknown or their place of residence cannot with reasonable certainty be ascertained, a tax of five percent shall be paid to the department of revenue and finance upon all such estates or interests, subject to refund as provided herein in other cases; provided, however, that if it be afterwards determined that any estate or interest passes to aliens, there shall be paid within sixty days after such determination and before delivery of such estate or property, an amount equal to the difference between five percent, the amount paid, and the amount which such person should pay under the provisions of this chapter.

[S13, §1481-a42; C24, 27, 31, 35, 39, §7395; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §450.93]

450.94 Return — determination — appeal.
1. "Taxpayer" as used in this section means a person liable for the payment of tax as stated in section 450.5.

2. The taxpayer shall file an inheritance tax return on forms to be prescribed by the director of revenue and finance. When an inheritance tax return is filed, the department shall examine it and determine the correct amount of tax. If the amount paid is less than the correct amount due, the department shall notify the taxpayer of the total amount due together with any penalty and interest which shall be a sum certain if paid on or before the last day of the month in which the notice is postmarked, or on or before the last day of the following month if the notice is postmarked after the twentieth day of a month and before the first day of the following month.

3. If the amount paid is greater than the correct tax, penalty, and interest due, the department shall refund the excess, with interest after sixty days from the date of payment at the rate in effect under section 421.7, under the rules prescribed by the director. However, the director shall not allow a claim for refund or credit that has not been filed with the department within three years after the tax payment upon which a refund or credit is claimed became due, or one year after the tax payment was made, whichever time is later. A determination by the department of the amount of tax, penalty, and interest due, or the amount of refund for excess tax paid, is final unless the person aggrieved by the determination appeals to the director for a revision of the determination within thirty days from the postmark date of the notice of determination of tax, penalty, and interest due or refund owing. The director shall grant a hearing, and upon the hearing the director shall determine the correct tax, penalty and interest or refund due, and notify the appellant of the decision by mail. The decision of the director is final unless the appellant seeks judicial review of the director’s decision under section 450.59 within sixty days after the postmark date of the notice of the director’s decision.

4. Payments received must be credited first to the penalty and interest accrued and then to the tax due.

5. The amount of tax imposed under this chapter shall be assessed according to one of the following:
   a. Within three years after the return is filed with respect to property reported on the final inheritance tax return.

   b. At any time after the tax became due with respect to property not reported on the final inheritance tax return, but not later than three years after the omitted property is reported to the department on an amended return or on the final inheritance tax return if one was not previously filed.

In addition to the applicable periods of limitations for examination and determination specified in paragraphs "a" and "b", the department may make an examination and determination at any time within six months from the date of receipt by the department of written notice from the taxpayer of the final disposition of any matter between the taxpayer and the internal revenue service with respect to the federal estate, gift, or generation skipping transfer tax. In order to begin the running of the six months assessment period, the notice shall be in writing in form sufficient to inform the department of the final disposition of any matter with respect to the federal estate, gift, or generation skipping transfer tax, and a copy of the federal document showing the final disposition or final federal adjustments shall be attached to the notice.

450.95 Appropriation.
There is hereby appropriated out of any funds in the state treasury not otherwise appropriated a sum sufficient to carry out the provisions of section 450.94.

[C27, 31, 35, §7396-a1; C39, §7396.1; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §450.95]

450.96 Contingent estates.
Estates in expectancy which are contingent or defeasible and in which proceedings for the determination of the tax have not been taken or where the taxation has been held in abeyance, shall be valued at their full, undiminished value when the persons entitled to the estates come into the beneficial enjoyment or possession of the estates, without diminution for or on account of any valuation previously made. When an estate, devise, or legacy can be divested by the act or omission of the legatee or devisee, it shall be taxed as if there were no possibility of the divesting. When a devise, bequest, or transfer is one in part contingent, and in part vested so that the beneficiary will come into possession and enjoyment of a portion of the inheritance on or before the happening of the event upon which the possible defeating contingency is based, a tax shall be imposed and collected upon the bequest or transfer as upon a vested interest, at the highest rate possible under this chapter if no contingency existed; provided that if the contingency reduces the value of the estate or interest taxed, and the amount of tax paid is in excess of the tax for which the bequest or transfer is liable upon the removal of the contingency, the excess shall be refunded as provided in sections 450.94 and 450.95 in other cases.

[S13, §1481-a44; C24, 27, 31, 35, 39, §7397; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §450.96]

83 Acts, ch 177, §35, 38

450.97 Joint owners of bank accounts — duty to notify department of revenue and finance.
No person, bank, credit union, or savings and loan association shall permit the withdrawal of funds from a joint account by a surviving joint owner without first notifying the department of revenue and finance of the balance in such account at the date of decedent’s death and the name and address of the surviving joint owner. Such notification may be accomplished by mailing the required information to the department of revenue and finance and withdrawal or payment of such funds may be made immediately thereafter as long as such mailing is accomplished by ordinary mail no later than the date of withdrawal or earlier if knowledge of the decedent’s death is known by the depository. A person, bank, credit union, or savings and loan association shall only be liable for any inheritance tax due by the surviving joint owner for willful failure to report to the department of revenue and finance as herein provided.

450A.1 Definitions.
As used in this chapter, unless the context otherwise requires:
1. "Department" means the department of revenue and finance.
2. "Director" means the director of the department of revenue and finance.
3. "Direct skip" means the same as the term is defined in section 2612(c) of the Internal Revenue Code.
4. "Generation skipping transfer" means the generation skipping transfer as defined in section 2611 of the Internal Revenue Code.
5. "Internal Revenue Code" means the same as the term is defined in section 422.3.
6. "Taxable distribution" means the same as the term is defined in section 2612(b) of the Internal Revenue Code.
7. "Taxable termination" means the same as the term is defined in section 2612(a) of the Internal Revenue Code.
8. "Transferee" means a person receiving property in a generation skipping transfer.
9. "Transferor", "trust", "trustee" and "interest" mean the same as those respective terms are defined in section 2652 of the Internal Revenue Code.

450A.2 Imposition of tax.
A tax is imposed on the transfer of any property, included in a generation skipping transfer, other than a direct skip, occurring at the same time and as a result of the death of an individual, in an amount equal to the maximum federal credit allowable under section 2604 of the Internal Revenue Code, for the generation skipping transfer tax actually paid to the state in respect of any property included in the generation skipping transfer.

Where the transferor is a resident of Iowa and all property included in a generation skipping transfer that is subject to tax under this section has a situs in Iowa, or is subject to the jurisdiction of the courts of Iowa, an amount equal to the total credit as allowed under the Internal Revenue Code shall be paid to the state of Iowa. Where the transferor is a nonresident or where the property included in a generation skipping transfer that is subject to tax under this section has a situs outside the state of Iowa and not subject to the jurisdiction of Iowa courts, the tax shall be prorated on the basis that the value of Iowa property included in the generation skipping transfer bears to the total value of property included in the generation skipping transfer.

450A.3 Value of property.
The value of property, included in a generation skipping transfer, shall be the same as determined for federal generation skipping transfer tax purposes under the Internal Revenue Code.

450A.4 Payment of the tax.
The tax imposed by this chapter shall be paid on or before the last day of the ninth month after the death of the individual whose death is the event causing the generation skipping transfer which is eligible for the credit for state taxes paid under section 2604 of the Internal Revenue Code.

450A.5 Liability for the tax.
The transferee of the property included in the
generation skipping transfer shall be personally liable for the tax to the extent of its value, determined under section 2624 of the Internal Revenue Code as of the time of the generation skipping transfer. If the tax is attributable to a taxable termination, as defined in section 2612(a) of the Internal Revenue Code, the trustee and the transferee shall be personally liable for the tax to the extent of the value of the property subject to tax under the trustee’s control.

[C79, 81, §450A.5]
87 Acts, 1st Ex, ch 1, §21
1987 amendments are retroactive to October 22, 1986, for certain generation skipping transfers made after that date, 87 Acts, 1st Ex, ch 1, §32

450A.6 Lien of the tax.
The tax imposed by this chapter shall be a lien on the property subject to the tax for a period of ten years from the time the generation skipping transfer occurs. Full payment of the tax, penalty and interest due shall release the lien and discharge the transferee and trustee of personal liability. Unless the lien has been perfected by recording, a transfer by the transferee or the trustee to a bona fide purchaser for value shall divest the property of the lien. If the lien is perfected by recording, the rights of the state under the lien have priority over all subsequent mortgages, purchases or judgment creditors. The department may release the lien prior to the payment of the tax due if adequate security for payment of the tax is given.

[C79, 81, §450A.6]
87 Acts, 1st Ex, ch 1, §22
1987 amendments are retroactive to October 22, 1986, for certain generation skipping transfers made after that date, 87 Acts, 1st Ex, ch 1, §32

450A.7 Disposal of tax.
The proceeds of the tax shall be credited to the general fund of the state.

[C79, 81, §450A.7]

450A.8 Returns.
It shall be the duty of the persons liable for the payment of the tax to file a return with the department, in such form as the director may prescribe, containing sufficient information to enable the department to determine the maximum federal credit allowable for the payment of the tax imposed by this chapter. A copy of the federal return filed for the purpose of paying the generation skipping transfer tax shall be submitted to the department at the time the Iowa return is filed. Copies of all amended or supplemental returns shall be submitted to the department at the time such returns are filed with the internal revenue service.

[C79, 81, §450A.8]

450A.9 Delinquent returns.
If the tax imposed by this chapter is not paid within the time prescribed by law, the tax is delinquent and shall draw interest thereafter at the rate in effect under section 421.7 until paid.

[C79, 81, §450A.9; 81 Acts, ch 131, §18]

450A.10 Director to enforce collection.
It shall be the duty of the director to enforce collection of the tax imposed by this chapter and shall with all the rights of a party in interest, represent the state in any proceedings to collect the tax. The director shall have the power to bring suit against any person liable for the payment of the tax, penalty, interest and costs and may foreclose the lien of the tax in the same manner as is now prescribed for the foreclosure of real estate mortgages and upon judgment may cause execution to be issued to sell so much of the property necessary to satisfy the tax, penalty, interest and costs due.

[C79, 81, §450A.10]
87 Acts, 1st Ex, ch 1, §23
1987 amendments are retroactive to October 22, 1986, for certain generation skipping transfers made after that date, 87 Acts, 1st Ex, ch 1, §32

450A.11 Duty to claim maximum credit.
It shall be the duty of any person liable for the payment of the tax to claim the maximum federal credit allowable for that portion of the state generation skipping transfer tax paid in respect of any property included in a taxable generation skipping transfer. Claiming on a federal return a sum less than the maximum federal credit allowable shall not relieve any person liable for the tax of the duty to pay the tax imposed under this chapter.

If an amended or supplemental return is filed with the department at the time such return is filed, the persons liable for the payment of the tax under this chapter shall file an amended federal return claiming the maximum federal credit allowable and file the Iowa returns specified in section 450A.8 within six months after the enactment of this chapter or within the time limit provided in section 450A.4 whichever is the later.

[C79, 81, §450A.11]
87 Acts, 1st Ex, ch 1, §24
1987 amendments are retroactive to October 22, 1986, for certain generation skipping transfers made after that date, 87 Acts, 1st Ex, ch 1, §32

450A.12 Applicable statutes.
All of the provisions of chapter 450 with respect to the payment and collection of the tax imposed under that chapter, including penalty and interest upon delinquent taxes, are applicable to the provisions of this chapter, except as they are in conflict with this chapter. The director shall adopt and promulgate rules necessary for the enforcement of this chapter.

[C79, 81, §450A.12]
Nonassessment of penalty under certain conditions, see §421.27

450A.13 Retroactive.
The provisions of this chapter are retroactive to April 30, 1976, for any generation skipping transfer made after April 30, 1976, except for those genera-
tion skipping transfers excepted under section 2006(c) of the federal Tax Reform Act of 1976 and to this extent the provisions of this chapter are retroactive.

[C79, 81, §450A.13]

450A.14 Limitation.

The tax imposed under section 450A.2 shall not be construed to impose a federal and state generation skipping tax obligation greater than the tax payable had this chapter not been enacted.

[C79, 81, §450A.14]

CHAPTER 450B

QUALIFIED USE INHERITANCE TAX

1986 tax amnesty program, intent not to conduct another prior to January 1, 2000, 86 Acts, ch 1007, §1-4, 43

450B.1 Definitions.

As used in this chapter, unless the context otherwise requires:

1. "Internal Revenue Code" means the same as defined in section 422.3.

2. "Taxpayer" means a qualified heir liable for the inheritance tax imposed under chapter 450 on qualified real property.

3. "Qualified real property", "qualified use", "cessation of qualified use", and "qualified heir" mean the same as defined in section 2032A of the Internal Revenue Code.

4. For purposes of subsection 1, the Internal Revenue Code shall be interpreted to include the provisions of Pub. L. No. 98-4.

[81 Acts, ch 147, §12]

1988 amendment is effective January 1, 1988, for estates of persons dying on or after that date; 88 Acts, ch 1028, §53

450B.2 Alternate election of value for qualified use.

Notwithstanding section 450.37, the value of qualified real property for the purpose of the tax imposed under chapter 450 may, at the election of the taxpayer, be its value for the use under which it qualifies as prescribed by section 2032A of the Internal Revenue Code. A taxpayer may make an election under this section only if all of the following conditions are met:

1. An election for federal estate tax purposes was made with regard to the qualified real property under section 2032A of the Internal Revenue Code.

2. All persons who signed the agreement referred to in section 2032A(d)(2) of the Internal Revenue Code make the election under this section and sign an agreement with the department of revenue and finance consenting to the application of section 450B.3 with respect to the qualified real property.

3. The total decrease in the value of the qualified real property as a result of the election under this section does not exceed the dollar limitation specified in section 2032A(a)(2) of the Internal Revenue Code.

The election under this section shall be made by the taxpayer in the manner as the director of revenue and finance may prescribe by rule. The value for the qualified use under this section shall be the value as determined and accepted for federal estate tax purposes.

The definitions and special rules specified in section 2032A(e) of the Internal Revenue Code shall apply with respect to qualified real property for which an election was made under this section except that rules shall be prescribed by the director of revenue and finance in lieu of the regulations promulgated by the department of revenue and finance in lieu of the regulations promulgated by the United States secretary of treasury in respect to such interests.

[C79, 81, §450A.13]

88 Acts, ch 1028, §40

1988 amendment is effective January 1, 1988, for estates of persons dying on or after that date; 88 Acts, ch 1028, §53
450B.3 Additional inheritance tax applicable.  
There is imposed upon the qualified heir an additional inheritance tax if, within ten years after the decedent's death and before the death of the qualified heir, the qualified heir disposes of, other than to a member of the family, any interest in qualified real property for which an election under section 450B 2 was made or ceases to use for the qualified use the qualified real property for which an election under section 450B 2 was made as prescribed in section 2032A(c) of the Internal Revenue Code. The additional inheritance tax shall be the amount computed under section 450B 5 and shall be due six months after the date of the disposition or cessation of qualified use referred to in this section. The amount of the additional inheritance tax shall accrue interest at the rate of ten percent per year from nine months after the decedent's death to the due date of the tax. The tax shall be paid to the department of revenue and finance and shall be deposited into the general fund of the state. Taxes not paid within the time prescribed in this section shall draw interest at the rate of ten percent per annum until paid. There shall not be an additional inheritance tax if the disposition or cessation occurs ten years or more after the decedent's death.

450B.4 Reserved

450B.5 Ratio of applicable tax.  
The amount of the additional inheritance tax imposed by section 450B 3 is the excess of what the tax imposed by chapter 450 would have been had the election to use the qualified use valuation under section 450B 2 not been made over the tax paid on the real estate based on qualified use valuation. However, if all of the real estate valued under section 450B 2 is not disposed of or does not cease to be used for the qualified use, the amount of the additional inheritance tax is the amount computed by applying the ratio that the real estate subject to the qualified use valuation which has been disposed of or which the qualified use ceases bears to all the real estate subject to the qualified use valuation passing to the taxpayer to the excess of the tax which would have been imposed by chapter 450 had the election under section 450B 2 not been made over the tax paid on the real estate based on qualified use valuation. However, the additional inheritance tax shall not be computed on a value greater than the fair market value of the qualified real estate at the time the disposition or cessation of the qualified use occurs.

450B.6 Lien of tax.  
A lien is created in favor of the state for the additional inheritance tax which may be imposed by section 450B 3 on the qualified real property for which an election has been made under section 450B 2. The lien created by this section shall continue until the tax has been paid or ten years after the tax is due, whichever date occurs first. However, the lien shall expire ten years after the decedent's death if the qualified heir has not disposed of or ceased to use for the qualified use the qualified real property which would impose the tax under section 450B 3. The department of revenue and finance may release the lien prior to the payment of the tax due, if any, if adequate security for payment of the tax is given. Unless the lien has been perfected by recording in the office of the recorder in the county where the estate is probated, a transfer of the qualified real property to a bona fide purchaser for value shall divest the property of the lien. If the lien is perfected by recording, the rights of the state under the lien have priority over all subsequent mortgagees, purchasers or judgment creditors. The lien may be foreclosed by the director of revenue and finance in the same manner as is now prescribed for the foreclosure of real estate mortgages and upon judgment, execution shall be issued to sell as much of the property necessary to satisfy the tax, interest and costs due.

450B.7 Other inheritance tax laws applicable.  
All the provisions of chapter 450 with respect to the payment, collection and administration of the inheritance tax imposed under that chapter are applicable to the provisions of this chapter to the extent consistent. The director of revenue and finance shall adopt and promulgate all rules necessary for the enforcement and administration of this chapter.

The judge of the court granting such order may make a reasonable allowance for attorneys' fees for the prosecution of such appeal, and direct the manner in which the same, together with any other costs or expenses which may be allowed by said court in connection therewith, shall be paid.

451.10 Effect of allowance.

If any claim for credit or refund, or any part thereof, shall be finally determined in favor of such personal representative, any amount refunded or credited thereon shall inure to the benefit of such estate.

451.11 Effect of disallowance.

If any claim for credit or refund or any part thereof, shall be finally determined adversely to such personal representative, for any reason other than lack of diligence or other failure of duty on the personal representative's part, the amount so denied or disallowed, or so much thereof as shall have been paid to the department of revenue and finance under the provisions of this chapter, shall, upon a claim duly filed with, and proper showing made to, the director of revenue and finance, be refunded by the department of revenue and finance to such personal representative, and shall inure to the benefit of such estate.

451.12 Applicable statutes.

All the provisions of chapter 450 with respect to the lien provisions of section 450 7, and the determination, imposition, payment and collection of the tax imposed under that chapter, including penalty and interest upon delinquent taxes, are applicable to this chapter, except as they are in conflict with this chapter. The director of revenue and finance shall adopt rules necessary for the enforcement of this chapter.

5. The superintendent of banking shall adopt rules for uniform methods, documentation and forms for pledging required collateral securities by banks under this chapter.

85 Acts, ch 194, §5; 88 Acts, ch 1090, §2

453.23 Payment of losses.

1. The pledging of securities by a depository pursuant to this chapter constitutes consent by the depository to the disposition of the securities in accordance with this section.

2. The depository and the security given for the public funds in its hands are liable for payment if the depository fails to pay a check, draft, or warrant drawn by the public officer or to account for a check, draft, warrant, order or certificates of deposit, or any public funds entrusted to it if in failing to pay the depository acts contrary to the terms of an agreement between the depository and the public body treasurer.

3. If a depository is closed by its primary regulatory officials, the public body with deposits in the depository shall notify the treasurer of state of the amount of any claim within thirty days of the closing. The treasurer of state shall implement the following procedures:

   a. In cooperation with the responsible regulatory officials for the depository, the treasurer shall validate the amount of public funds on deposit at the defaulting depository and the amount of deposit insurance applicable to the deposits.

   b. The loss to public depositors shall be satisfied, first through any applicable deposit insurance and then through the sale of securities pledged by the defaulting depository, and then the assets of the defaulting depository. The priority of claims are those established pursuant to section 524.1312, subsection 2, section 533.22, subsection 1, paragraph "b", or section 534.517. To the extent permitted by federal law, in the distribution of an insolvent federally chartered depository's assets, the order of payment of liabilities if its assets are insufficient to pay in full all its liabilities for which claims are made shall be in the same order as for the equivalent type of state chartered depository as provided in section 524.1312, subsection 2, section 533.22, subsection 1, paragraph "b", or section 534.517.

   c. The claim of a public depositor for purposes of this section shall be the amount of the depository's deposits plus interest to the date the funds are distributed to the public depositor at the rate the depository institution agreed to pay on the funds reduced by the portion of the funds which is insured by federal deposit insurance.

   d. If the loss to public funds is not covered by insurance and the proceeds of the failed depository's assets which are liquidated within thirty days of the closing of the depository and pledged collateral, the treasurer shall provide coverage of the remaining loss as follows:

      (1) If the loss was incurred in a bank, then any further payments to cover the loss will come from the state sinking fund for public deposits in banks. If the funds are inadequate to cover the entire loss, then the treasurer shall make an assessment against other banks who hold public funds.

      The assessment shall be determined by multiplying the total amount of the remaining loss to all public depositors by a percentage that represents the average of public funds deposits held by all banks during the preceding twelve month period ending on the last day of the month immediately preceding the month the depository was closed. Each bank shall pay its assessment to the treasurer within three business days after it receives notice of assessment. If a bank fails to pay its assessment when due, the treasurer shall satisfy the assessment by selling securities pledged by that bank. Idle balances in the fund are to be invested by the treasurer with earnings credited to the fund. Fees paid by banks for administration of this chapter will be credited to the fund and the treasurer may deduct actual costs of administration from the fund.

      (2) If the loss was incurred in a credit union, then any further payments to cover the loss will come from the state sinking fund for public deposits in credit unions. If the funds are inadequate to cover the entire loss, then the treasurer shall make an assessment against other credit unions who hold public funds.

      The assessment shall be determined by multiplying the total amount of the remaining loss to public depositors by a percentage that represents the average of public funds deposits held by all credit unions during the preceding twelve month period ending on the last day of the month immediately preceding the month the depository was closed. Each credit union shall pay its assessment to the treasurer within three business days after it receives notice of assessment. If a credit union fails to pay its assessment when due, the treasurer shall satisfy the assessment by selling securities pledged by that credit union. Idle balances in the fund are to be invested by the treasurer with earnings credited to the fund. Fees paid by credit unions for administra-
tion of this chapter will be credited to the fund and the treasurer may deduct actual costs of administration from the fund.

(3) If the loss was incurred in a savings and loan or a savings bank, then any further payments to cover the loss will come from the state sinking fund for public deposits in savings and loan associations and savings banks. If the funds are inadequate to cover the entire loss, then the treasurer shall make an assessment against other savings and loans and savings banks who hold public funds. The assessment shall be determined by multiplying the total amount of the remaining loss to public depositors by a percentage that represents the average of public funds deposits held by all savings and loans and savings banks during the preceding twelve month period ending on the last day of the month immediately preceding the month the depository was closed. Each savings and loan and savings bank shall pay its assessment to the treasurer within three business days after it receives notice of assessment. If a savings and loan or savings bank fails to pay its assessment when due, the treasurer shall initiate a lawsuit to collect the assessment. If a savings and loan association or a savings bank is found to have failed to pay the assessment as required by this subparagraph, the court shall order it to pay the assessment, court costs of the action, reasonable attorney's fees based upon the amount of time the attorney general's office spent preparing and bringing the action, and reasonable expenses incurred by the treasurer of state's office.

e. Any amount realized from the sale of collateral pursuant to paragraph "d", subparagraphs (1) and (2) in excess of the amount of a depository's assessment, shall continue to be held by the treasurer, in the same interest bearing investments available for public funds, as collateral until that depository provides substitute collateral or is otherwise entitled to its release.

f. Following collection of the assessments, the state treasurer shall distribute funds to the public depositors of the failed depository according to their validated claims. If the assets available are less than the total deposits, the treasurer shall prorate the claims. A public depositor receiving payment under this section shall assign to the treasurer any interest the public depositor may have in funds that subsequently become available to depositors of the defaulting depository.

85 Acts, ch 194, §6

453.24 Liability.
When public deposits are made in accordance with this chapter, a public body depositing public funds or its agents, employees, officers, and board members are exempt from liability for any loss resulting from the loss of a depository in the absence of negligence, malfeasance, misfeasance or nonfeasance on the part of the official. If the treasurer of state sells a depository's collateral securities, the depository shall deposit additional collateral to meet required collateral levels.

In making an assessment against depositories holding public funds as a result of a failure, the treasurer of state is exempt from any liability for loss, damage or expense to a depository which has accepted public funds.

85 Acts, ch 194, §7

453.25 State sinking funds created.
There are created in the treasurer of state's office the following funds:

1. A state sinking fund for public deposits in banks.
2. A state sinking fund for public deposits in credit unions.
3. A state sinking fund for public deposits in savings and loan associations and savings banks.

Upon the filing of the report of the engineer recommending the establishment of the levee or drainage district, the board shall at its first regular, adjourned, or special meeting examine and consider the same, and, if the plan is not approved the board may employ said engineer or another disinterested engineer to report another plan or make additional examination and surveys and file an additional report covering such matters as the board may direct. Additional surveys and reports must be made in accordance with the provisions of sections 455.17 and 455.18. At any time prior to the final adoption of the plans they may be amended, and as finally adopted by the board shall be conclusive unless the action of the board in finally adopting them shall be appealed from as hereinafter provided.

If the petition or other landowners requested a classification of the district prior to establishment, the board shall order a classification as provided by sections 455.45 to 455.51 after they have approved the report of the engineer as a tentative plan. The notice of hearing provided by section 455.20 shall also include the requirements of the notice of hearing provided in section 455.52 as to this classification, and the hearing on the petition provided in section 455.27 shall also include the matters to be heard as provided in section 455.53. If the board establishes the district as provided in section 455.28, the classification which is finally approved at said hearing by the board shall remain the basis of all future assessments for the purposes of said district as provided in section 455.56. The landowners shall have the same right of appeal from this classification as they would have if the petition had not requested a classification prior to establishment and the classification had been made after establishment.

When any plan and report of the engineer has been approved by the board, such approval shall be entered of record in its proceedings as a tentative plan only for the establishment of said improvement. Thereupon it shall enter an order fixing a date for the hearing upon the petition not less than forty days from the date of the order of approval, and directing the auditor immediately to cause notice to be given to the owner of each tract of land or lot within the proposed levee or drainage district as shown by the transfer books of the auditor's office, including railway companies having right of way in the proposed district and to all lienholders or encumbrancers of any land within the proposed district without naming them, and also to all other persons whom it may concern, and without naming individuals all actual occupants of the land in the proposed district, of the pendency and prayer of the said petition, the favorable report thereon by the engineer, and that such report may be amended before final action, the approval thereof by the board as a tentative plan, and the day and the hour set for hearing on said petition and report, and that all claims for damages except claims for land required for right of way, and all objections to the establishment of said district for any reason must be made in writing and filed in the office of the auditor at or before the time set for such hearing.

period of five years thereafter and shall apply to all 
proceedings under said chapters during such period. 
The person, company, or corporation making such des-

455.24 Waiver of notice.
No service of notice shall be required upon any 
person who shall file with the auditor a statement in 
writing, signed by the person, waiving notice, or who 
enters an appearance in the proceedings. The filing 
of a claim for damages or objections to the establish-

455.25 Waiver of objections and damages.
Any person, company, or corporation failing to file

455.26 Adjournment for service — jurisdic-
tion retained.
If at the date set for hearing, it shall appear that 
young person entitled to notice has not been properly 
served with notice, the board may postpone said 
hearing and set another time for the same not less 
than thirty days from said date, and notice of such 
hearing as hereinbefore provided shall be served on 
such omitted parties. By fixing such new date for 
hearing and the adjournment of said proceeding to 
said date, the board shall not lose jurisdiction of the 
subject matter of said proceeding nor of any parties 
already served with notice.

board shall hear and determine the sufficiency of the 
petition in form and substance (which petition may 
be amended at any time before final action thereon), 
and all objections filed against the establishment of 
such district, and the board may view the premises 
included in the said district. If it shall find that the 
construction of the proposed improvement will not 
materially benefit said lands or would not be for the 
public benefit or utility nor conducive to the public 
health, convenience, or welfare, or that the cost 
thereof is excessive it shall dismiss the proceedings.

455.28 Establishment — further investigation.
If the board shall find that such petition complies 
with the requirements of law in form and substance, 
and that such improvement would be conducive to the 
public health, convenience, welfare, benefit, or utility, 
and that the cost thereof is not excessive, and no claim 
shall have been filed for damages, it may locate and 
establish the said district in accordance with the 
recommendation of the engineer and the report and 
plans on file; or it may refuse to establish the proposed 
district if it deem best, or it may direct the engineer or 
another one employed for that purpose to make further 
examinations, surveys, plats, profiles, and reports for 
the modification of said plans, or for new plans in 
accordance with sections 455.17 and 455.18, and con-
clude further hearing to a fixed date. All parties over 
whom the board then has jurisdiction shall take notice 
of such further hearing; but any new parties rendered 
necessary by any modification or change of plans shall 
be served with notice as for the original establishment 
of a district. The county auditor shall appoint three 
appraisers as provided for in section 455.30 to assess 
the value of the right of way required for open ditches

of a drainage improvement, the board of supervisors 
may buy or lease the necessary lands in lieu of 
condemning said lands. The board may by purchase 
acquire the necessary lands required for right of way 
for open ditches or other improvements in lieu of 
condemning said lands.

If the board shall find that such improvement will materially benefit said lands, will be conducive to the public health, convenience, welfare, benefit, or utility, and that the law has been complied with as to form and substance of the petition, the service of notice, and the survey and report of the engineer, and that said improvement should be made, then if any claims for damages shall have been filed, further proceedings shall be continued to an adjourned, regular, or special session, the date of which shall be fixed at the time of adjournment, and of which all interested parties shall take notice, and the auditor shall appoint three appraisers to assess damages, one of whom shall be an engineer, and two freeholders of the county who shall not be interested in nor related to any person interested in the proposed improvement, and the said appraisers shall take and subscribe an oath to examine the said premises, ascertain and impartially assess all damages according to their best judgment, skill, and ability.

The appraisers appointed to assess damages shall view the premises and determine and fix the amount of damages to which each claimant is entitled, and shall place a separate valuation upon the acreage of each owner taken for right of way for open ditches or for settling basins, as shown by plat of engineer, and shall, at least five days before the date fixed by the board to hear and determine the same, file with the county auditor reports in writing, showing the amount of damage sustained by each claimant. Should the report not be filed in time, or should any good cause for delay exist, the board may postpone the time of final action on the subject, and, if necessary, the auditor may appoint other appraisers.

At the time fixed for hearing and after the filing of the report of the appraisers, the board shall examine said report, and may hear evidence thereon, both for and against each claim for damages and compensation, and shall determine the amount of damages and compensation due each claimant, and may affirm, increase, or diminish the amount awarded by the appraisers.

§455.33 Dismissal or establishment — permanent easement.

The board shall at said meeting, or at an adjourned session thereof, consider the costs of construction of said improvement as shown by the reports of the engineer and the amount of damages and compensation awarded to all claimants, and if, in its opinion, such costs of construction and amount of damages awarded create a greater burden than should justly be borne by the lands benefited by the improvement, it shall then dismiss the petition and assess the costs and expenses to the petitioners and their sureties, but if it finds that such cost and expense is not a greater burden than should be justly borne by the land benefited by the improvement, it shall finally and permanently locate and establish said district and improvement.

Following its establishment, the drainage district is deemed to have acquired by permanent easement all right-of-way for drainage district ditches, tile lines, settling basins and other improvements, unless they are acquired by fee simple, in the dimensions shown on the survey and report made in compliance with sections 455.17 and 455.18 or as shown on the permanent survey, plat and profile, if one is made. The permanent easement includes the right of ingress and egress across adjoining land and the right of access for maintenance, repair, improvement, and inspection. The owner or lessee shall be reimbursed for any crop damages incurred in the maintenance, repair, improvement, and inspection except within the right-of-way of the drainage district.

§455.34 Dismissal on remonstrance.

If, at or before the time set for final hearing as to the establishment of a proposed levee, drainage, or improvement district, except subdrainage district, there shall have been filed with the county auditor, or auditors, in case the district extends into more than one county, a remonstrance signed by a majority of the landowners in the district, and these remonstrants must in the aggregate own seventy percent or more of the lands to be assessed for benefits or taxed for said improvements, remonstrating against the establishment of said levee, drainage, or improvement district, setting forth the reasons therefor, the board or boards as the case may be, shall assess to the petitioners and their sureties or apportion the costs among them as the board or boards may deem just or as said parties may agree upon. When all such costs have been paid, the board or boards of supervisors shall dismiss said proceedings and cause to be filed with the county auditor all surveys, plats, reports, and records in relation to the proposed district.

[C24, 27, 31, 35, 39, §7453; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §455.34]

When for a period of two years from and after the date of the establishment of a drainage district, or when an appeal is taken or litigation brought against said district within two years from the date such appeal or litigation is finally determined, no contract shall have been let or work done or drainage certificates or bonds issued for the construction of the improvements in such district, a petition may be filed in the office of the auditor, addressed to the board of supervisors, signed by a majority of the persons owning land in such district and who, in the
aggregate, own sixty percent or more of all the land embraced in said district, setting forth the above facts and reciting that provision has been made by the petitioners for the payment of all costs and expenses incurred on account of such district. The board shall examine such petition at its next meeting after the filing thereof, and if found to comply with the above requirements, shall dissolve and vacate said district by resolution entered upon its records, to become effective upon the payment of all the costs and expenses incurred in relation to said district. In case of such vacation and dissolution and upon payment of all costs as herein provided, the auditor shall note the same on the drainage record, showing the date when such dissolution became effective.

455.36 Permanent survey, plat and profile.
When the improvement has been finally located and established, the board may if necessary appoint the said engineer or a new one to make a permanent survey of said improvement as so located, showing the levels and elevations of each forty-acre tract of land and file a report of the same with the county auditor together with a plat and profile thereof.

After the damages as finally fixed, shall have been paid or secured, the board may divide said improvement into suitable sections, having regard to the kind of work to be done, numbering the same consecutively from outlets to the beginning, and prescribing the time within which the improvement shall be completed. A settling basin, if provided for, may be embraced in a section by itself.

455.39 Supervising engineer — bond.
Upon the payment or securing of damages, the board shall appoint a competent engineer to have charge of the work of construction thereof, who shall be required before entering upon the work to give a bond to the county for the use and benefit of the levee or drainage district, to be approved by the auditor in such sum as the board may fix, conditioned for the faithful discharge of the engineer's duties.

The board shall publish notice once each week for two consecutive weeks in a newspaper published in the county where the improvement is located, and publish additional advertisement and publication elsewhere as the board may direct. The notice shall state the time and place of letting the work of construction of the improvement, specifying the approximate amount of work to be done in each numbered section of the district, the time fixed for the commencement, and the time of the completion of the work, that bids will be received on the entire work and in sections or divisions of it, and that a bidder will be required to deposit with the bid cash, a certified check on and certified by a bank in Iowa, or a certified share draft from a credit union in Iowa payable to the auditor or the auditor's order, at the auditor's office, in an amount equal to ten percent of the bid, in no case to exceed ten thousand dollars. If the estimated cost of the improvement exceeds fifteen thousand dollars, the board may make additional publication for two consecutive weeks in a contractors' journal of general circulation, giving only the type of proposed construction or repairs, estimated amount, date of letting, amount of bidder's bond, and name and address of the county auditor. All notices shall fix the date to which bids will be received and upon which the work will be let. However, when the estimated cost of the improvement is less than five thousand dollars, the board may let the contract for the construction without taking bids and without publishing notice.

455.41 Bids — letting of work.
The board shall award contract or contracts for each section of the work to the lowest responsible bidder or bidders therefor; bids to be submitted, received and acted upon separately as to the main drain and each of the laterals, and each settling basin, if any, exercising their own discretion as to letting such work as to the main drain as a whole, or as to each lateral as a whole, or by sections as to both main drain and laterals, and reserving the right to reject any and all bids and readvertise the letting of the work.

[SS15, §1989-a8; C24, 27, 31, 35, 39, §7460; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §455.41]

455.42 Manner of making bids — deposit.
A bid shall be in writing, specifying the portion of the work upon which the bid is made, and filed with the auditor. The bid shall be accompanied with a deposit of cash, or a certified check on and certified by a bank in Iowa or a certified share draft drawn on a credit union in Iowa, payable to the auditor or the auditor's order at the auditor's office in a sum equal to ten percent of the amount of the bid, but not to exceed ten thousand dollars. However, if the maximum limit on bid deposits would cause a denial of

funds or services from the federal government which would otherwise be available, or if the maximum limit would otherwise be inconsistent with the requirements of federal law, the maximum limit may be suspended to the extent necessary to prevent denial of federal funds or services or to eliminate the inconsistency with federal requirements. The checks or share drafts of unsuccessful bidders shall be returned to them, but the checks of successful bidders shall be held as a guarantee that they will enter into contract in accordance with their bids. [SS15, §1989-a8; C24, 27, 31, 35, 39, §7461; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §455.42]

455.43 Performance bond — return of deposit.
A successful bidder is required to execute a bond with sureties approved by the auditor in favor of the county for the use and benefit of the levee or drainage district and all persons entitled to liens for labor or material in an amount not less than seventy-five percent of the contract price of the work to be done, conditioned for the timely, efficient, and complete performance of the contract, and the payment, as they become due, of all just claims for labor performed and material used in carrying out the contract. When a contract is executed and bond approved by the board, the certified check or certified share draft deposited with the bid shall be returned to the bidder. [SS15, §1989-a8; C24, 27, 31, 35, 39, §7462; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §455.43]

455.44 Contracts.
All agreements and contracts for work or materials in constructing the improvements of such district shall be in writing, signed by the chairperson of the board of supervisors for and on behalf of the district and the parties who are to perform the work or furnish the materials specified in such contract. Such contract shall specify the particular work to be done or materials to be furnished, the time when it shall begin and when it shall be completed, the amount to be paid and the times of payment, with such other terms and conditions as to details necessary to a clear understanding of the terms thereof. [C24, 27, 31, 35, 39, §7463; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §455.44]

455.45 Commissioners to classify and assess.
When a levee or drainage district shall have been located and finally established or, unless otherwise provided by law, when the required proceedings have been taken to enlarge, deepen, widen, change, or extend any of the ditches, laterals, settling basins, or drains of such district, or the required proceedings have been had to annex additional lands to such district, or a plan of the United States government for original construction of the improvements in such district has been heretofore or hereafter adopted by such district under the provisions of sections 455.202 to 455.217, the board shall appoint three commissioners to assess benefits and classify the lands affected by such improvement. One of such commissioners shall be a competent civil engineer and two of them shall be resident freeholders of the county in which the district is located, but not living within, nor interested in any lands included in said district, nor related to any party whose land is affected thereby. The commissioners shall take and subscribe an oath of their qualifications and to perform the duties of classification of said lands, fix the percentages of benefits and apportion and assess the costs and expenses of constructing the said improvement according to law and their best judgment, skill, and ability. If said commissioners or any of them fail or neglect to act or perform the duties in the time and as required of them by law, the board shall appoint others with like qualifications to take their places and perform said duties. [SS15, §1989-a12; C24, 27, 31, 35, 39, §7464; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §455.45]

See §455.74

455.46 Duties — time for performance — scale of benefits.
At the time of appointing said commissioners, the board shall fix the time within which said assessment, classification, and apportionment shall be made, which may be extended for good cause shown. Within twenty days after their appointment, they shall begin to inspect and classify all the lands within said district, or any change, extension, enlargement, or relocation thereof in tracts of forty acres or less according to the legal or recognized subdivisions, in a graduated scale of benefits to be numbered according to the benefit to be received by each of such tracts from such improvement, and pursue said work continuously until completed and, when completed, shall make a full, accurate, and detailed report thereof and file the same with the auditor. The lands receiving the greatest benefit shall be marked on a scale of one hundred, and those benefited in a less degree with such percentage of one hundred as the benefits received bear in proportion thereto. They shall also make an equitable apportionment of the costs, expenses, fees, and damages computed on the basis of the percentages fixed. [SS15, §1989-a12; C24, 27, 31, 35, 39, §7465; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §455.46]

455.47 Rules of classification.
In the report of the appraisers so appointed they shall specify each tract of land by proper description, and the ownership thereof, as the same appears on the transfer books in the auditor's office. In estimating the benefits as to the lands not traversed by said improvement, they shall not consider what benefits such land shall receive after some other improvements shall have been constructed, but only the benefits which will be received by reason of the construction of the improvement in question as it affords an outlet to the drainage of such lands, or brings an outlet nearer to said lands or relieves the same from overflow and relieves and protects the same from damage by erosion. 455.48 Assessment for lateral ditches — reclassification of benefited lands.

1 In fixing the percentages and assessments of benefits and apportionment of costs of construction to lands benefited by lateral ditches and drains as a part of the entire improvement to be made in a drainage district, the commissioners shall ascertain and fix the percentage of benefits and apportionment of costs to the lands benefited by such lateral ditches on the same basis and in the same manner as if said lateral was, with its sublaterals, being constructed as a subdistrict as provided in this chapter, reporting separately:

   a. The percentage of benefits and amount accruing to each forty acre tract or less on account of the construction of the main ditch, drain, or watercourse including pumping plant, if any.

   b. The percentage of benefits and amount accruing to each forty acre tract or less on account of the construction of such lateral improvement.

2 When there has been a repair or improvement to a lateral ditch or drain as provided in section 455.135 and the lands benefited by the lateral have not been classified as provided in this section, the board may order a classification of the lands and the commission shall ascertain and fix the percentage of benefits and apportionment of costs to the lands benefited by such lateral ditches or drains on the same basis and in the same manner as if the lateral was with its sublaterals being constructed as a subdistrict as provided in this chapter. When this procedure is followed for the classification of any lateral ditch or drain in a given district, the board shall follow the same procedure for all other lateral ditches or drains in the district which have not been classified as prescribed in this section.

455.49 Railroad property — collection.

The commissioners to assess benefits and make apportionment of costs and expenses shall determine and assess the benefits to the property of any railroad company extending into or through the levee or drainage district, and make return thereof showing the benefit and the apportionment of costs and expenses of construction. Such assessment when finally fixed by the board shall constitute a debt due from the railroad company to the district, and unless paid it may be collected by ordinary proceedings for the district in the name of the county in any court having jurisdiction. All other proceedings in relation to railroads, except as otherwise provided, shall be the same as provided for individual property owners within the levee or drainage district.

455.50 Public highways and state-owned lands.

When any public highway or other public land extends into or through a levee or drainage district, the commissioners to assess benefits shall ascertain and return in their report the amount of benefits and the apportionment of costs and expenses to such highway or other public land, and the board of supervisors shall assess the same against such highway and land.

Such assessments against primary highways and other state owned lands under the jurisdiction of the state department of transportation shall be paid by the state department from the primary road fund on due certification of the amount by the county treasurer to the department, and against all secondary roads and other county owned lands under the jurisdiction of the board of supervisors, from county funds.

When any state owned lands under the jurisdiction of the department of natural resources are situated within a levee or drainage district, the commissioners to assess benefits shall ascertain and return in their report the amount of benefits and the apportionment of costs and expenses to such lands and the board of supervisors shall assess the same against such lands. However, the commissioners shall not assess benefits to property below the ordinary high water mark in a sovereign state owned lake, marsh or stream under the jurisdiction of the department of natural resources.

The assessments against lands under the jurisdiction of the department of natural resources shall be paid by the executive council upon certification of the amount by the county treasurer. There is appropriated from any funds in the general fund of the state not otherwise appropriated amounts sufficient to pay the certified assessments.

At the time fixed or at an adjourned hearing, the board shall hear and determine all objections filed to said report and shall fully consider the said report, and may affirm, increase, or diminish the percentage of benefits or the apportionment of costs and expenses made in said report against any body or tract of land in said district as may appear to the board to be just and equitable.

At such hearing, the board may hear evidence both for and against the approval of said report or any portion thereof, but it shall not be competent to show that any of the lands in said district assessed for benefits or against which an apportionment of costs and expenses has been made will not be benefited by such improvement in some degree. §455 56 Classification as basis for future assessments.
A classification of land for drainage, erosion or flood control purposes, when finally adopted, shall remain the basis of all future assessments for the purpose of said district unless revised by the board in the manner provided for reclassification, except that where land included in said classification has been destroyed, in whole or in part, by the erosion of a river, or where additional right of way has been subsequently taken for drainage purposes, said land which has been so eroded and carried away by the action of a river or which has been taken for additional right of way, may be removed by said board from said district as classified, without any reclassification, and no assessment shall thereafter be made on the land so removed. Any deficiency in assessment existing as the result of said action of the board shall be spread by it over the balance of lands remaining in said district in the same ratio as was fixed in the classification of the lands, payable at the next taxing period.

Except districts established by mutual agreement in accordance with section 455 152 in the event any forty acre tract or less, or any lot, tract, or parcel, as set forth in the existing classification or reclassification of any drainage district now or hereafter established, is divided into two or more tracts, whether such division is by sale or condemnation or platted as a subdivision, the classification of the original tract shall be apportioned to the resulting parcels, regardless of use, except for land taken for additional drainage right of way. The classification of the original tract may be apportioned between the resulting parcels by agreement between the parties to such division. The parties shall file with the county auditor a written agreement setting forth the original description and the description of the tracts as subdivided and the percentage of the original classification apportioned to each. This agreement shall bear the signature of all of the parties to such subdivision. The agreement contemplated herein may be contained in the deed or other instrument effecting the division of the land, which agreement shall be binding upon the grantee or grantees by their acceptance of such instrument and their signatures shall not be necessary. The auditor shall enter this agreement in the drainage record and amend the current classification of the district in accordance with such agreement.

In the event the parties to such subdivision cannot agree as to the apportionment of the percentage classification, the board of supervisors shall, upon application of either party, appoint a commission having the qualifications of commissioners, in accordance with section 455 45. The commissioners shall inspect the lands involved and apportion the existing classification of the original tract equitably and fairly to each of the several tracts as subdivided and shall make a full, accurate and detailed report thereof and file the same with the county auditor within the time set by the board. The report of the commissioners shall set forth the names of the
owners thereof, the description of each of the tracts and
the percentage of the original classification that
each such tract shall bear (1) for main ditches and
settling basins, (2) for laterals, (3) for levees and
pumping station. Thereafter all the proceedings in
relation thereto as to notice of hearing and fixing of
percentage benefits shall be as in this chapter pro­
vided in relation to original classification and as­
sertments, and at such hearing, the board may
affirm, increase or diminish the percentage of ben­
efits so as to make them just and equitable, and
cause the record of the existing classification, percentage
of benefits or assessments, or both, to be modified
accordingly. In the event the parties neither agree as
to the apportionment of classification nor make
application for the appointment of commissioners,
then the auditor of the county in which the land is
situated shall make such apportionment upon an
 equitable basis and enter the same of record as
herein provided. No tract of land included within the
boundary of any drainage district shall be exempt
from drainage assessments or reassessments, except as
herein provided.

455.57 Levy — interest.

When the board has finally determined the matter
of assessments of benefits and apportionment, it
shall levy the assessments as fixed by it upon the
lands within the district, but an assessment on a
tract, parcel or lot within the district which is
computed at less than two dollars shall be fixed at
the sum of two dollars. All assessments shall be
levied at that time as a tax and shall bear interest at
not to exceed the rate permitted by chapter 74A from
that date, payable annually, except as provided as to
cash payments within a specified time.

455.59 Levy for deficiency.

If the first assessment made by the board for the
original cost or for repairs of any improvement is
insufficient, the board shall make an additional
assessment and levy in the same ratio as the first for
either purpose, payable at the next taxing period
after such indebtedness is incurred subject, howev­
er, to the provisions of section 455.64. Any assessment
made under this section on any tract, parcel or lot
within the district which is computed at less than
two dollars shall be fixed at the sum of two dollars.

All drainage or levee tax assessments shall be
entered in the drainage record of the district to
which they apply, and also upon the tax records of
each county.

455.61 Funds — disbursement — interest.

Such taxes when collected shall be kept in a
separate fund known as the county drainage or levee
fund and shall be paid out only for purposes properly
connected with and growing out of the county drain­
age and levee districts on order of the board. The
auditor shall continue to keep a record of each of the
drainage and levee district's funds so as to accu­
rently reflect the financial condition of each such
district account. The treasurer, on order of the board
of supervisors, shall invest such funds not immedi­
ately needed for current operating expenses in
United States government bonds, in time certificates
of deposit, in savings accounts in such banks as the
board shall approve, in the interest bearing obliga­
tions of the drainage and levee districts of the
county, or as provided by chapter 453. Interest col­
clected by the treasurer on the funds so invested shall
deposited in the county drainage or levee fund,
and on July 1 of each year the auditor shall ap­
portion and credit such interest to each drainage or
levee district account in the proportion which the
average credit balance of each district bears to the
average balance of the county drainage or levee
fund. The averages to be ascertained shall be the
averages of the balances existing on the first of each
month during the fiscal year immediately preceding.
Interest and penalties collected on drainage or levee
district taxes shall be credited to the district for
which the taxes are being collected. This section
shall not be construed so as to permit expenditures
in behalf of any district in excess of its share of the
county drainage or levee fund. The provisions of this
section shall not apply to drainage and levee
districts under trustee management unless the trustees
consent thereto, and in the absence of such consent,
section 462.29 shall apply.

and shall be collected in the same manner with the same
penalties for delinquency and the same manner of
enforcing collection by tax sales.

455.63 Payment of assessments.

All assessments for benefits, as corrected and
approved by the board, shall be levied at one time
against the property benefited, and when levied and
certified by the board, are payable at the office of the
county treasurer A person may pay the person's assessment in full without interest within thirty days after the levy of assessments, and before any improvement certificates or drainage bonds are issued for the assessment, and may pay a certificate at any time after issue, with accrued interest.

455.64 Installment payments — waiver.

If the owner of any land against which a levy exceeding one hundred dollars has been made and certified shall, within thirty days from the date of such levy, agree in writing endorsed upon any improvement certificate referred to in section 455 77, or in a separate agreement, that in consideration of having a right to pay the owner's assessment in installments, the owner will not make any objection as to the legality of the assessment for benefit, or the levy of the taxes against the property, then such owner shall have the following options:

1 To pay one third of the amount of such assessment at the time of filing such agreement, one third within twenty days after the engineer in charge shall certify to the auditor that the improvement is one half completed, and the remaining one third within twenty days after the improvement has been completed and accepted by the board. All such installment payments shall be without interest if paid at said times; otherwise paid assessments shall bear interest from the date of the levy at a rate not exceeding that permitted by chapter 74A, payable annually, and be collected as other taxes on real estate, with like penalty for delinquency.

2 To pay such assessments in not less than ten nor more than twenty equal installments, the number to be fixed by the board, and interest at the rate fixed by the board, not exceeding that permitted by chapter 74A. The first installment of each assessment, or the total amount if less than one hundred dollars, is due and payable on July 1 next succeeding the date of the levy, unless the assessment is filed with the county treasurer after May 31 in any year. The first installment shall bear interest on the whole unpaid assessment from the date of the levy as set by the board to the first day of December following the due date. The succeeding annual installments, with interest on the whole unpaid amount, to the first day of December following the due date, are respectively due on July 1 annually, and must be paid at the same time and in the same manner as the first semiannual payment of ordinary taxes. All future installments of an assessment may be paid on any date by payment of the then outstanding balance plus interest accrued to the date of payment. Each installment of an assessment with interest on the unpaid balance is delinquent after the thirtieth day of September next after its due date, and bears the same delinquent interest with the same penalties as ordinary taxes. When collected, the interest and penalties must be credited to the same drain age fund as the drainage special assessment.

The provisions of this section and of sections 455 65 to 455 68 may within the discretion of the board, also be made applicable to repairs and improvements made under the provisions of section 455 135.

When all construction work has been completed and all cost paid, and all assessments have been paid in full, the board may refund, to the owner of each tract of land, the owner's proportionate part of any surplus funds except such portion of the surplus as the board

After the establishment of a drainage district, a person owning land within the district which has been assessed for benefits, but which is separated from the main ditch, drain, or watercourse for which it has been so assessed, by the land of others, who desires a ditch or drain constructed from the person's land across the land of the others in order to connect with the main ditch, drain, or watercourse, and is unable to agree with the intervening owners on the terms and conditions on which the person may enter upon their lands and cause to be constructed the connecting drain or ditch, may file a petition for the establishment of a subdistrict and shall give notice of the filing of the petition to each person whose land may be included in the subdistrict or may be assessed in the subdistrict in the manner provided by sections 455.20 through 455.24 for the notice of the hearing and have proofs on file before the appointment of the engineer, if one is appointed. When such subdistrict has been established and constructed it shall become and be a part of the improvement of such drainage district as a whole and be under the control and supervision of the board to the same extent and in every way as if it had been a part of the original improvement of such district.

455.72 Reclassification.

When, after a drainage or levee district has been established, except districts established by mutual agreement in accordance with section 455.152, and the improvements thereof constructed and put in operation, there has been a material change as to lands occupied by highway or railroad right of way or in the character of the lands benefited by the improvement, or when a repair, improvement, or extension has become necessary, the board may consider whether the existing assessments are equitable as a basis for payment of the expense of maintaining the district and of making the repair, improvement or extension. If they find the same to be inequitable in any particular, they shall by resolution express such finding, appoint three commissioners possessing the qualifications prescribed in section 455.45 and order a reclassification as follows:

1. If they find the assessments to be generally inequitable they shall order a reclassification of all property subject to assessment, such as lands, highways, and railroads in said district.

2. If the inequity ascertained by the board is limited to the proportion paid by highways or railroads, a general reclassification of all lands shall not be necessary but the commissioners may evaluate and determine the fair proportion to be paid by such highways or railroads or both as provided in sections 455.49 and 455.50.

3. Any benefits of a character for which levee or drainage districts may be established and which are attributable to or enhanced by the improvement or by the repair, improvement, or extension thereof, shall be a proper subject of consideration in a reclassification notwithstanding the district may have been originally established for a limited purpose.

4. If after a district has been reclassified, the board in its judgment concludes there were errors in the reclassification or there is an inequitable assessment of benefits, the board may on its own motion, after notice to the landowners involved as provided in sections 455.20 to 455.24 and by resolution, order the district or any portion of the district to again be reclassified as prescribed in this section and in section 455.74.

Such reclassification when finally adopted shall remain the basis for all future assessments unless revised as provided in this chapter.

§455.74 Procedure governing reclassification.
The proceedings for such reclassification shall in all particulars be governed by the same rules as for original classification. The commissioners shall fix the percentage of actual benefits and make an equitable apportionment of the costs and expenses of such repairs, improvements or extensions and file a report thereof with the auditor in the same form and manner as for original classification. Thereafter, all the proceedings in relation thereto as to notice, hearing, and fixing of percentage of benefits and amount of assessments shall be as in this chapter provided in relation to original classification and assessments, and at such hearing the board may affirm, increase, or diminish the percentage and assessment of benefits and apportionment of costs and expenses so as to make them just and equitable, and cause the record of the original classification, percentage of benefits, and assessments to be modified accordingly.

Warrants drawn upon the construction or maintenance funds of any district for which an assessment has been or must be levied, shall be transferable by endorsement, and may be acquired by any taxpayer of such district and applied at their accrued face value upon the assessment levied to create the fund against which the warrant was drawn; when the amount of the warrant exceeds the amount of the assessment, the treasurer shall cancel the said warrant, and give the holder thereof a certificate for the amount of such excess, which certificate shall be filed with the auditor, who shall issue a warrant for the amount of such excess, and charge the treasurer therewith. Each of such certificates shall state the amount of one or more drainage assessments or part thereof made against the property, designating it and the owner thereof liable for the payment of such assessments. Said certificates shall be negotiable and transferable to the bearer all right and interest in and to the tax in every such assessment or part thereof described in such certificates, and shall authorize such bearer to collect and receive every assessment described in said certificate by or through any of the methods provided by law for their collection as the same mature.

455.81 Drainage bonds.
When a drainage district has been established or the making of any subsequent repair or improvement determined upon, if the board of supervisors shall find that the cost of such improvement will create assessments against the land included therein greater than should be levied in a single year upon the lands benefited by such improvement, then, instead of issuing improvement certificates, as provided in sections 455.77 to 455.80 the board may fix the amount that shall be levied and collected each year until such cost and expenses are paid, and may issue drainage bonds of the county covering all assessments exclusive of assessments of one hundred dollars and less.

Before such bonds shall be issued, the governing body of the district shall cause an action for declaratory judgment to be brought in the district court of the county in which the bonds are to be issued, asking that their legality be confirmed. The court shall fix a date for hearing thereon and notice thereof shall be given to the owners of each lot or tract of land within the district, which shall be affected by an assessment to pay the proposed bonds, as shown by the transfer books in the auditor’s office; also to the holders of liens of record upon said lands; and to all persons to whom it may concern without naming them specifically. Such notice shall be given by publication and by mailing for the same time in advance of hearing and in the same manner prescribed in section 455.21. If any claims for damages have been filed as provided in section 455.112, the board shall review said claims and determine said claims. If the determination by the board on any claim for damages results in a finding by the board that the damages resulting to the claimant were due to the negligence of the contractor, then the board shall provide for payment of said claim out of the remaining funds owing to the contractor. If the determination by the board results in a finding that the damages resulting to the claimant were not due to the negligence of the contractor but resulted from unavoidable necessity in the performance of the contract, then the board shall allow for payment of said claim in the amount fixed by the board out of the funds in said drainage district.

It shall be the duty of any steam or electric railway company to furnish the contractor unrestricted passage across its right of way, telegraph, telephone, and signal lines for the contractor's machines and equipment, whenever recommended by the engineer and approved by the board of supervisors, and the cost thereof shall be considered as an element of such company's damages by the appraisers thereof; provided that if such company shall fail to do so within thirty days after written notice from the auditor, the engineer shall cause the same to be done under the engineer's direction and the company shall be liable for the cost thereof to be collected by the county in any court having jurisdiction. If the owner or operator of the utility fails to afford such passage within fifteen days after written notice from the drainage engineer so to do, the contractor, under the supervision of the engineer, may proceed to do the necessary work to afford such passage and to place said utility in the same condition as before said passage; but the owner or operator shall have the right to designate the hours of the day when such crossing or passage shall be made.

If a railroad or other utility has abandoned the use of its right-of-way for the purpose it was originally acquired or has sold its right-of-way to a person who will use it for a purpose other than for which it was originally acquired, the prior right or privilege of the drainage district to pass through the right-of-way of the railroad or utility shall become a permanent easement in favor of the drainage district for drainage purposes including the right of ingress and egress through adjacent property and the right of access for maintenance, repair, improvement and inspection. The permanent easement has the same dimensions as originally specified in the engineer's report and survey, or as acquired by use or as subsequently acquired.

If a railroad or other utility has abandoned the use of its right-of-way for the purpose it was originally acquired or has sold its right-of-way to a person who will use it for a purpose other than for which it was originally acquired in segments, each segment shall be assessed for benefits in the same proportion as the area of the segment bears to the area of the right-of-way through the forty-acre tract.
85 Acts, ch 163, §4

455.128 Annexation of additional lands.
After the establishment of a levee or drainage district, if the board becomes convinced that additional lands contiguous to the district, and without regard to county boundaries, are benefited by the improvement or that the same are then receiving benefit or will be benefited by a repair or improvement to said district as contemplated in section 455.135, it may adopt, with or without a petition from owners of the proposed annexed lands, a resolution of necessity for the annexation of such additional land and appoint an engineer with the qualifications provided in this chapter to examine such additional lands, to make a survey and plat thereof showing their relation, elevation, and condition of drainage with reference to such established district, and to make and file with the auditor a report as in this chapter provided for the original establishment of such district, said report to specify the character of the benefits received.

In the event the additional lands are a part of an existing drainage district, as an alternative procedure to that established by the foregoing provisions of this section, the lands may be annexed in either of the following methods:

1. A petition, proposing that the lands be included in a contiguous drainage district and signed by at least twenty percent of the landowners of those lands to be annexed, shall be filed with the governing board of each affected district.

The board of the district in which the lands are presently included may, at its next regular meeting or at a special meeting called for that purpose, adopt a resolution approving and consenting to the annexation; or

2. Whenever the owners of all of the land proposed to be annexed file a petition with the governing boards of the affected districts, the consent of the board in which the lands are then located shall not be required to consent to the annexation, and the board of the annexing district may proceed as provided in this section.

3. If either method of annexation provided for in subsections 1 and 2 of this section is completed, the board of the district to which the lands are to be annexed may adopt a resolution of necessity for the annexation of the additional lands, as provided in this section.

The right of remonstrance, as provided under section 455.34, does not apply to the owners of lands being involuntarily annexed to an established district.
[S13, §1989-a54; C24, 27, 31, 35, 39, §7549; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §455.128]
85 Acts, ch 163, §5

455.129 Proceedings on report.
If the report recommends the annexation of the lands or any portion of them, the board shall consider the report, plats, and profiles and if satisfied that any of the lands are materially benefited by the district and that annexation is feasible, expedient, and for the public good, it shall proceed in all respects as to notice, hearing, appointment of appraisers to fix damages and as to hearing on the annexation; and if the annexation is finally made, as to classification and assessment of benefits to the
annexed lands only, to the same extent and in the same manner as provided in the establishment of an original district. However, the annexation and classification of the annexed lands for benefits may be determined at one hearing. Those parties having an interest in the lands proposed to be annexed have the right to receive notice, to make objections, to file claims for damages, to have hearing, to take appeals and to do all other things to the same extent and in the same manner as provided in the establishment of an original district.

85 Acts, ch 163, §6

455.130 Levy on annexed lands.

After annexation is made the board may levy upon the annexed lands an assessment sufficient to equal the assessments for benefit originally paid by the lands of equal classification if the finding by the board as provided by section 455 128 was that the lands should have been included in the district when originally established, plus their proportionate share of the costs of any enlargement or extension of drains required to serve the annexed lands. If the finding of the board as provided in section 455 128 was based on the fact that additional lands are now benefited by virtue of the repair, improvement, or the change of the topographical conditions made to the district and were not benefited by the district as originally established, then the board shall levy upon the annexed lands an assessment sufficient to pay their proportionate share of the costs of the repair or improvement which was the basis for the lands being annexed. If the board finds that the lands are presently receiving benefits from the district but that some were reasonably omitted from the original establishment because of the change of the topographical conditions, the assessments levied upon the annexed lands shall be limited to a proportionate share of the costs of current and future maintenance, repairs and improvements.

85 Acts, ch 163, §7

455.131 Use of former and abandoned surveys.

In cases where proceedings have been taken for the establishment of a levee or drainage district and an engineer has been appointed who has made a survey, return, and plat thereof and for any reason the improvement has been abandoned and the proceedings dismissed, and afterward proceedings are instituted for the establishment of a levee or drainage district which will benefit any territory surveyed in said former proceedings, the engineer shall use so much of the return, levels, surveys, plat, and profile made in the former proceedings as may be applicable. The engineer shall specify in the engineer's report the parts thereof so used, and in case the cost of said return, levels, surveys, plat, and profile made in said former proceedings has been paid by the former petitioners or their sureties, then a reasonable amount shall be allowed said petitioners or sureties for the use of the same.

[§1989 a16, C24, 27, 31, 35, 39, §7552; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §455 131]

455.132 Unsuccessful procedure — re-establishment.

When proceedings have been instituted for the establishment of a drainage district or for any change or repair thereof, or the change of a natural watercourse, and the establishment thereof has failed for any reason either before or after the improvement is completed, the board shall have power to re-establish such district or improvement and any new improvement in connection therewith as recommended by the report of the engineer. As to all lands benefited by such re-establishment, repair, or improvement, the board shall proceed in the same manner as in the establishment of an original district, using as a basis for assessment the entire cost of the proceedings, improvement, and maintenance from the beginning, but in awarding damages and in the assessment of benefits account shall be taken of the amount of damages and taxes, if any, theretofore paid by those benefited, and credit therefor given accordingly. All other proceedings shall be the same as for the original establishment of the district, making of improvements, and assessment of benefits.

[S13, §1989 a17, a50, C24, 27, 31, 35, 39, §7553; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §455 132]

455.133 New district including old district.

If any levee or drainage district or improvement established either by legal proceedings or by private parties shall be insufficient to properly drain all of the lands tributary thereto, the board upon petition as for the establishment of an original levee or drainage district, shall have power to establish a new district covering and including such old district or improvement together with any additional lands deemed necessary. All outstanding indebtedness of the old levee or drainage district shall be assessed only against the lands included therein.

[S13, §1989 a25, C24, 27, 31, 35, 39, §7554; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §455 133]

455.134 Credit for old improvement.

When such district as contemplated in section 455 133 and the new improvement therein shall include the whole or any part of the former improvement, the commissioners, for classification of lands for assessment of benefits and apportionment of costs and expenses of such new improvement, shall take into consideration the value of such old improvement in the construction of the new one and allow proper credit therefor to the parties owning the old improvement as their interests may appear. In all other respects the same proceedings shall obtain as are provided for the original establishment of levee and drainage districts.

455.135 Repair.

1. When any levee or drainage district has been established and the improvement constructed, the
improvement shall be at all times under the supervision of the board of supervisors except as otherwise provided for control and management by a board of trustees and the board shall keep the improvement in repair as provided in this section.

a. The board at any time on its own motion, without notice, may order done whatever is necessary to restore or maintain a drainage or levee improvement in its original efficiency or capacity, and for that purpose may remove silt and debris, repair any damaged structures, remove weeds and other vegetable growth, and whatever else may be needed to restore or maintain such efficiency or capacity or to prolong its useful life.

b. The board may at any time obtain an engineer's report regarding the most feasible means of repairing a drainage or levee improvement and the probable cost of making the repair. If the engineer advises, or the board otherwise concludes that permanent restoration of a damaged structure is not feasible at the time, the board may order temporary construction it deems necessary to the continued functioning of the improvement. If in maintaining and repairing tile lines the board finds from an engineer's report it is more economical to construct a new line than to repair the existing line, the new line may be considered to be a repair.

c. If the estimated cost of a repair exceeds ten thousand dollars, or seventy-five percent of the original total cost of the district and subsequent improvements, whichever is the greater amount, the board shall set a date for a hearing on the matter of making the proposed repairs, and shall give notice as provided in sections 455.20 to 455.24. If a hearing is required and the estimated cost of the repair exceeds twenty-five thousand dollars, an engineer's report or a report from the soil and water conservation district conservationist shall be presented at the hearing. The requirement of a report may be waived by the board if a prior report on the repair exists and that report is less than ten years old. The board shall not divide proposed repairs into separate programs in order to avoid the notice and hearing requirements of this paragraph. At the hearing the board shall hear objections to the feasibility of the proposed repairs, and following the hearing the board shall order that the repairs it deems desirable and feasible be made. Any interested party has the right of appeal from such orders in the manner provided in this chapter.

d. The right of remonstrance does not apply to repairs as defined in this section.

2. In the case of minor repairs, or in the eradication of brush and weeds along the open ditches, not in excess of five thousand dollars where the board finds that a saving to the district will result it may cause the repairs or eradication to be done by secondary road equipment, or weed fund equipment, and labor of the county and then reimburse the secondary road fund or the weed fund from the fund of the drainage district thus benefited.

3. When the board deems it necessary it may repair or reconstruct the outlet of any private tile line which empties into a drainage ditch of any district and assess the costs in each case against the land served by the private tile line.

4. For the purpose of this subsection, an "improvement" in a drainage or levee district in which any ditch, tile drain or other facility has previously been constructed is a project intended to expand, enlarge or otherwise increase the capacity of any existing ditch, drain or other facility above that for which it was designed.

a. When the board determines that improvements are necessary or desirable, it shall appoint an engineer to make surveys as seem appropriate to determine the nature and extent of the needed improvements, and to file a report showing what improvements are recommended and their estimated costs, which report may be amended before final action. If the estimated cost of the improvements does not exceed five thousand dollars, or twenty-five percent of the original cost of the district and subsequent improvements, whichever is the greater amount, the board may order the work done without notice. If the estimated cost of the improvements does not exceed ten thousand dollars or twenty-five percent of the original cost of the district and subsequent improvements, whichever is the greater amount, the board may order the work done after holding a hearing and publishing notice of that hearing in a newspaper of general circulation published in the county not less than twenty days before the day set for the hearing. The board shall also mail a copy of the notice to any state agency which is a landowner in the district. The board shall not divide proposed improvements into separate programs in order to avoid the limitation for making improvements without notice. If the board deems it desirable to make improvements where the estimated cost exceeds the ten thousand dollar or twenty-five percent limit, it shall set a date for a hearing on the matter of constructing the proposed improvements and also on the matter of whether there shall be a reclassification of benefits for the cost of the proposed improvements, and shall give notice as provided in sections 455.20 to 455.24. At the hearing the board shall hear objections to the feasibility of the proposed improvements and arguments for or against a reclassification presented by or for any taxpayer of the district. Following the hearing the board shall order that the improvements it deems desirable and feasible be made, and shall also determine whether there should be a reclassification of benefits for the cost of improvements. If it is determined that a reclassification of benefits should be made the board shall proceed as provided in section 455.45. In lieu of publishing the notice of a hearing as provided by this subsection the board may mail a copy of the notice to each address where a landowner in the district resides by first class mail if the cost of mailing is less than publication of the notice. The mailing shall be made during the time the notice would otherwise be required to be published.

b. If the estimated cost of the improvements as defined in this subsection exceeds twenty thousand
dollars, or the original cost of the district plus the cost of subsequent improvements in the district, whichever is the greater amount, a majority of the landowners, owning in the aggregate more than seventy percent of the total land in the district, may file a written remonstrance against the proposed improvements, at or before the time fixed for hearing on the proposed improvements, with the county auditor, or auditors in case the district extends into more than one county. If a remonstrance is filed, the board shall discontinue and dismiss all further proceedings on the proposed improvements and charge the costs incurred to date for the proposed improvements to the district. Any interested party may appeal from such orders in the manner provided in this chapter. However, this section does not affect the procedures of section 455.142 covering the common outlet.

5. Where under the laws in force prior to 1904, drainage ditches and levees were established and constructed without fixing at the time of establishment a definite boundary line for the body of land to be assessed for the cost thereof, the body of land which was last assessed to pay for the repair thereof shall also be considered as the established district for the purpose of this section.

6. The governing body of the district may, by contract or conveyance, acquire, within or without the district, the necessary lands or easements for making repairs or improvements under this section, including easements for borrow and easements for meander, and in addition thereto, the same may be obtained in the manner provided in the original establishment of the district, or by exercise of the power of eminent domain as provided for in chapter 472. If additional right of way is required for any repair or improvement under this section, the same may be acquired in the same manner as provided for the acquisition of right of way in the original establishment of a district, except that where notice and hearing are not otherwise required under this section notice as provided in this chapter to owners, lienholder of record, and occupants of the land from which right of way is to be acquired shall suffice.

7. In existing districts where the stream has by erosion appropriated lands beyond its original right of way and it is more economical and feasible to acquire an easement for such erosion and meander than to undertake containment of the stream in its existing right of way, the board may, in the discharge of the duties enjoined upon it by this section, effect such acquisition as to the whole or part of the course. Right of way so taken shall be classed an improvement for the purpose of procedure under this section.

8. If the drainage records on file in the auditor’s office for a particular district do not define specifically the land taken for right of way for drainage purposes, the board may at any time upon its own motion employ a land surveyor to make a survey and report of the district and to actually define the right of way taken for drainage purposes. After the land surveyor has filed the survey and report with the board, the board shall fix a date for hearing on the report and shall serve notice of the hearing upon all landowners and lienholders of record and occupants of the lands traversed by the right of way in the manner and for the time required for service of original notices in the district court. At the hearing the board shall specifically define the land taken for the right-of-way. Once established, the right-of-way constitutes a permanent easement in favor of the drainage district for drainage purposes including the right of ingress and egress across adjoining land and the right of access for maintenance, repair, improvement and inspection. A person aggrieved by the action or failure to act of the board under this subsection may appeal only in compliance with sections 455.92 through 455.108.

455.136 Payment.

The costs of the repair or improvements provided for in section 455.135 shall be paid for out of the funds of the levee or drainage district. If the funds on hand are not sufficient to pay such expenses, the board within two years shall levy an assessment sufficient to pay the outstanding indebtedness and leave the balance which the board determines is desirable as a sinking fund to pay maintenance and repair expenses. Any assessment made under this section on any tract, parcel or lot within the district which is computed at less than two dollars shall be fixed at the sum of two dollars. If the board deems that the costs of the repairs or improvements will create assessments against the lands in the district greater than should be borne in one year, it may levy the same at one time and provide for the payment of said costs and assessments in the manner provided in sections 455.64 to 455.68; provided that assessments may be collected in less than ten installments as the board may determine.

455.137 Impounding areas and erosion control devices.

Levee and drainage districts are empowered to construct impounding areas and other flood and erosion control devices to protect lands of the district and drainage structures and may provide ways for access to improvements for the operation or protection thereof, where the cost is not excessive in consideration of the value to the district. Necessary lands or easements may be acquired within or without the district by purchase, lease or agreement, or by exercise of the right of eminent domain and may be procured and construction undertaken either independently or in co-operation with other districts, individuals, or any federal or state agency or political subdivision.
455.138 Revenues used for operation, maintenance and construction.

Levee and drainage districts may realize income from incidental uses of their improvements and rights of way which are not injurious to same or incompatible with the purposes of the district. Revenues derived therefrom may be expended for operating, maintenance or construction costs of the district as its governing body may elect.

[C54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §455.138]

455.139 City may discharge treated sewage.

Any board, as defined in section 455.4, may by contract permit any city to discharge adequately treated sewage into drainage ditches. The contract shall fix the rental, make provision for termination, and shall provide that no nuisance shall be created.

[C58, 62, 66, 71, 73, §393.12; C75, 77, 79, 81, §455.139]

455.141 Reclassification required.

When an assessment for improvements as provided in section 455.135, exceeds twenty-five percent of the original assessment and the original or subsequent assessment or report of the benefit commission as confirmed did not designate separately the amount each tract should pay for the main ditch and tile lateral drains then the board shall order a reclassification in accordance with the principles and rules set forth in section 455.48.

[C24, 27, 31, 35, 39, §7562; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §455.141]

455.142 Improvement of common outlet — notice of hearing.

When two or more drainage districts outlet into the same ditch, drain, or natural watercourse and the board determines that it is necessary to clean out, deepen, enlarge, extend, or straighten said ditch, drain, or natural watercourse in order to expeditiously carry off the combined waters of such districts, the board may proceed as provided in section 455.135. After said board has decided that such work should be done, it shall fix a date for hearing on its decision, and it shall give two weeks' notice thereof by certified mail to the auditor of the county wherein the land to be assessed for such work is located, and said county auditor shall thereupon immediately notify by certified mail the board or boards of trustees of the districts having supervision thereof, as to said hearing on said commissioner's report. In those instances where two or more districts are under the supervision of the same board, or joint board if the district is intercounty, the notice shall be given to all landowners affected as prescribed in sections 455.20 to 455.24.

[C24, 27, 31, 35, 39, §7565; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §455.142]

455.143 Commissioners to apportion benefits — interest prohibited.

For the purpose of ascertaining the proportionate benefits, the board shall appoint commissioners having the qualifications of benefit commissioners, one of whom shall be an engineer. Such commissioners appointed shall not be residents of any of the districts affected, nor shall any member thereof have any interest in land in any districts affected by the contemplated work. Such commission shall determine the percentage of benefits and the sum total to be assessed to each district for the improvement.

In the event that one of the districts to be assessed under this statute shall have any improvement such as a settling basin which reduces the quality and quantity of flow or sediment, such commission may give consideration to the existence of such an improvement when they determine the percentage of benefits and the sum total to be assessed to each district for the improvement.

[C24, 27, 31, 35, 39, §7564; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §455.143]

455.144 Time of report — notice of hearing.

When said commissioners are appointed, the board shall, by proper order, fix the time when the commissioners shall report their findings, but a report filed within thirty days of the time so fixed shall be deemed a compliance with said order. On the filing of said report, the board shall fix a time for hearing thereon, and it shall give notice thereof to the auditor of the county in which the land to be assessed for such work is located by certified mail; said county auditor shall thereupon immediately notify by certified mail the board of supervisors, and board or boards of trustees of the districts having supervision thereof, as to said hearing on said commissioner's report. In those instances where two or more districts are under the supervision of the same board, or joint board if the district is intercounty, the notice shall be given to all landowners affected as prescribed in sections 455.20 to 455.24.

[C24, 27, 31, 35, 39, §7565; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §455.144]

455.145 Report and review — appeal.

The commissioners shall file with the board a detailed report of their findings. Said board shall review said report and may, by proper order, increase or decrease the amount which shall be charged to each district. After the final order of the board herein has been made, said board shall notify the county auditor, in the time and manner as provided in sections 455.143 and 455.144, of said order, and said county auditor shall notify by certified mail the board of supervisors, and said board or boards of trustees, of said final order. Said board of supervisors and said board or boards of trustees, if aggrieved by said final order, may appeal therefrom to the district court of the county in which any of the improvement proposed or done is located.
Any such appeal shall be taken, perfected and conducted in the time and manner provided in sections 455.92, 455.94 to 455.98, for appeals contemplated by said sections. [C24, 27, 31, 35, 39, §7566; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §455.145]

455.146 Levy under original classification.
If the amount finally charged against a district does not exceed twenty-five percent of the original cost of the improvement in said district, the board shall proceed to levy said amount against all lands, highways, and railway rights of way and property within the district, in accordance with the original classification and apportionment. Any assessment made under this section on any tract, parcel or lot within the district which is computed at less than two dollars shall be fixed at the sum of two dollars. [C24, 27, 31, 35, 39, §7567; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §455.146]

455.147 Levy under reclassification.
If the amount finally charged against a district exceeds twenty-five percent of the original cost of the improvement, the board may order a reclassification as provided for the original classification of a district and upon the final adoption of the new classification and apportionment shall proceed to levy that amount upon all lands, highways, and railway rights of way and property within the district, in accordance with the new classification and apportionment. An assessment made under this section on a tract, parcel or lot within the district which is computed at less than two dollars shall be fixed at the sum of two dollars. [C24, 27, 31, 35, 39, §7568; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §455.147]

455.148 Removal of obstructions.
The board shall cause to be removed from the ditches, drains, and laterals of any district any obstructions which interfere with the flow of the water, including trees, hedges, or shrubbery and the roots thereof, and may cause any tile drain so obstructed to be relaid in concrete or any other adequate protection, such work to be paid for from the drainage funds of the district. [C24, 27, 31, 35, 39, §7569; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §455.148]

455.149 Trees and hedges.
When it becomes necessary to destroy any trees or hedges outside the right of way of any ditch, lateral, or drain in order to prevent obstruction by the roots thereof, if the board and the owners of such trees or hedges cannot agree upon the damage for the destruction thereof, the board may proceed to acquire the right to destroy and remove such trees or hedges by the same proceedings provided for acquiring right of way for said drainage improvement in the first instance. [C24, 27, 31, 35, 39, §7570; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §455.149]

455.150 Outlet for lateral drains — specifications.
The owner of any premises assessed for the payment of the costs of location and construction of any ditch, drain, or watercourse as in this chapter provided, shall have the right to use the same as an outlet for lateral drains from the premises. The board of supervisors shall make specifications covering the manner in which such lateral drains shall be connected with the main ditches or other laterals and be maintained, and the owner shall follow such specifications in making and maintaining any such connection. [S13, §1989-a22; C24, 27, 31, 35, 39, §7571; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §455.150]

455.151 Subdistricts in intercounty districts.
The board of supervisors of any county shall have jurisdiction to establish subdrainage districts of lands included within a district extending into two or more counties when the lands to compose such subdistricts lie wholly within such county, and to make improvements therein, repair and maintain the same, fix and levy assessments for the payment thereof, and the provisions of this section shall apply to all such drainage subdistricts, the lands of which lie wholly within one county. The proceedings for all such purposes shall be the same as for the establishment, construction, and maintenance of an original levee or drainage district the lands of which lie wholly within one county, so far as applicable, except that one or more persons may petition for a subdistrict as provided in section 455.70. [S13, §1989-a37; C24, 27, 31, 35, 39, §7572; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §455.151]

455.152 District by mutual agreement — presumption.
The owners of lands may provide by mutual agreement in writing duly signed, acknowledged, and filed with the auditor for combined drainage of their lands by the location and establishment of a drainage district for such purposes and the construction of drains, ditches, settling basins, and watercourses upon and through their said lands. Such drainage district shall be presumed to be conducive to the public welfare, health, convenience, or utility. 455.153 What the agreement shall contain.
Such agreements shall contain the following:
1. A description of the lands by congressional divisions, metes and bounds, or other intelligible manner, together with the names of the owners of all said lands.
2. The location of the drains and ditches to be constructed, describing their sources and outlets and the courses thereof.
3. The character and extent of drainage improvement to be constructed, including settling basins, if any.
4. The assessment of damages, if any.
5. The classification of the lands included in such...
district, the amount of drainage taxes or special assessments to be levied upon and against the several tracts, and when the same shall be levied and paid.

§455.154  **Board to establish.**

When such agreement is filed, the auditor shall record it in the drainage record. The board shall at a regular, special, or adjourned session thereafter locate and establish a drainage district and locate the ditches, drains, settling basins, and watercourses thereof as provided in said agreement, and enter of record an order accordingly. The board thereafter shall carry out the object, purpose, and intent of such agreement and cause to be completed and constructed the said improvement and shall retain jurisdiction of the same as fully as in districts established in any other manner. It shall cause to be levied upon and against the lands of such district, the drainage taxes and assessments according to said agreement and when collected said taxes and assessments shall constitute the drainage funds of said district to be applied upon order of the board as in said agreement provided.

§455.155  **Procedure.**

The board shall proceed to carry out the provisions of the agreement, advertising for and receiving bids, letting the work, making contracts, levying assessments, paying on estimates, issuing warrants, improvement certificates, or drainage bonds as the case may be, in the same manner as in districts established on petition, except as in said mutual agreement otherwise provided.

§455.156  **Outlet in adjoining county.**

When a drainage district is established and a satisfactory outlet cannot be obtained except through lands in an adjoining county, or when an improved outlet cannot be obtained except through lands downstream from the district boundary, the board shall have the power to purchase a right of way, to construct and maintain such outlets, and to pay all necessary costs and expenses out of the district funds. The board shall have similar authority relative to the construction and maintenance of silt basins upstream from the district boundary. In case the board and the owners of the land required for such outlet or silt basin cannot agree upon the price to be paid as compensation for the land taken or used, the board is hereby empowered to exercise the right of eminent domain in order to procure such necessary right of way.

§455.157  **Outlet in another state.**

When a district is, or has been established in this state and no practicable outlet therefor can be obtained except through lands in an adjoining state, the board of supervisors of the county where said district is situated shall, as drainage commissioners, have power to purchase a right of way and to construct a ditch for such outlet in an adjoining state or to contribute to the construction of such a ditch, in an adjoining state and to pay for the same out of the funds of such district. Provided, however, that no drainage district or districts shall be charged or assessed any of the cost for land or work done unless previously agreed to by the board of supervisors or trustees of all of the drainage districts which will be assessed.

If the parties cannot agree upon such value, either of them may bring an action against the other in the district court of the county where the land is situated, and the court shall determine the matter. Should there not be a sufficient amount in the fund of said district, or subdistrict, to pay said warrant then the board of supervisors, or the trustees of the district, as the case may be, are authorized to borrow a sum of money sufficient for that purpose on a warrant for that amount on the fund of the district, or subdistrict, which warrant shall bear interest from date at a rate not exceeding that permitted by chapter 74A and shall have preference in payment over all other unpaid warrants on said fund, and the county treasurer shall so enter the same on the list of war-

c. When the required proceedings have been held to annex additional lands to said levee district or to exclude or eliminate lands from said levee district; or
d. When a plan of the United States government for the construction of any levee, or a portion of a levee, in said levee district, or for the enlarging, extending, strengthening, raising, relocating, reconstructing, or improving any existing levee, or a portion thereof, in accordance with any such plan in said levee district, has been heretofore or hereafter adopted by such levee district under the provisions of sections 455.202 to 455.217; or
e. When the board shall, as authorized by section 455.72, determine that the assessments of benefits of said levee district against the lands in said levee district are generally inequitable the board may by resolution, or if a petition is filed by a majority of the owners of land in said levee district who and who in the aggregate own more than one-third of the value of the land and land improvements in said levee district as the value thereof is then shown by the general tax records of the county in which such land and land improvements are located, requesting the board to do so, the board shall order the lands in said levee district and the improvements on the land in said levee district classified or reclassified in accordance with the assessed taxable value of said land and land improvements as the same are then shown and as the same may be thereafter shown by the assessment roll of the county or counties in which said land and land improvements are located.

The assessed taxable value of any land, including land improvements exempt from general taxation but subject to assessment for levee purposes, shall be determined by the county assessor who shall make such determination in accordance with the rules of assessment applicable to adjacent lands and without any additional compensation therefor.
2. If the board orders classification or reclassification of lands as authorized in subsection 1 of this section, the board shall fix a time and place for a hearing to be held upon the action of the board in ordering such classification or reclassification, which hearing shall be held at the county seat of the county having the largest acreage in said levee district. The board shall cause notice of the time and place of such hearing to be served by the county auditor or auditors upon each person whose name appears as owner of lands or land improvements within the levee district in the transfer books of the auditor's office in the county or counties in which said levee district is located, naming that person, and also upon the person or persons in actual occupancy of any tract of land or land improvements located in said levee district, without naming that person or persons. Such notice shall be for the same time and served in the same manner as is provided for the establishment of a levee district, and such notice shall state:
   a. The aggregate estimated costs and expenses which the board proposes to assess under such classification or reclassification;
   b. The total aggregate assessed taxable value of all lands and land improvements in said levee district;
   c. That the said classification or reclassification of benefits will be based on the assessed taxable value of all lands and improvements to lands located in said levee district;
   d. That each tract of land and each land improvement in said levee district will be assessed for its pro rata share of said costs and expenses based upon the ratio that the assessed value of each tract of land and the assessed value of each land improvement bears to the total assessed taxable value of all lands and all land improvements in said district; and
   e. That all objections to said method of classification or reclassification shall be in writing and filed with the auditor of the county in which said land or land improvements are located before the time set for said hearing or with the board of trustees of said district at or before the time set for such hearing.

The notice need not show the amount of such costs and expenses to be apportioned to each such owner or to any particular tract of land or land improvement within such levee district.
3. If at or before the time set for said hearing as to such classification or reclassification, there shall have been filed with the county auditor, or auditors in case the district extends into more than one county, or with said board, a remonstrance or remonstrances or objections to such method of classification or reclassification signed by owners of land and land improvements in the levee district aggregating sixty percent of the
total assessed value of the lands plus land improvements in said district as shown by the taxing records in said county or counties in which said district is located, the board shall abandon the alternative method of classification or reclassification herein authorized. The board may then proceed to classify the lands in said levee district as authorized under sections 455.45 to 455.51 or may proceed to reclassify the same as authorized under section 455.72 unless said remonstrances and objections filed as above provided are filed by a majority of the landowners in the levee district and these remonstrants and objectors in the aggregate own seventy percent or more of the acreage of lands in the levee district and, in writing, object to any reclassification of any kind, then the board shall not reclassify the lands within the district under the provision of this section nor shall the same be reclassified under the provisions of section 455.72.

4. At the time fixed or at any adjourned hearing if the remonstrances and objections filed at or before the hearing are not signed by sufficient number of owners, or the owners signing such remonstrances and objections do not meet the requirements hereinabove provided, then the board shall fully consider all objections and remonstrances and shall make a determination as to whether or not the costs and expenses shall be assessed:
   a. By the alternative method hereinabove set forth; or
   b. As provided by sections 455.45 to 455.51; or
   c. That the land should be reclassified as provided in section 455.72; or
   d. On the basis of a then existing classification of lands.

5. If the board shall determine that the cost and expenses shall be assessed on the basis of assessed taxable value as hereinabove provided, then such basis shall be used for all future assessments made for the purposes of said levee district except if said assessed taxable value of lands and land improvements in said levee district may be changed or revised by the county assessor in the county or counties in which the same are located for general tax purposes, then any such revision made in the assessed taxable value by any such county assessor shall automatically constitute a revision of the classification of such land or land improvements for future assessments made by the board for the purpose of said levee district.

6. In lieu of the hearing provided for in the preceding subsections, the board may, and if the petition of owners provided for in the preceding subsections so asks, the board shall call for an election for the purpose of determining the question of classification on the basis of assessed value of lands and land improvements. The question may be submitted at a regular election of the district or at a special election called for that purpose. It shall not be mandatory for the county commissioner of elections to conduct the elections, however provisions of sections 49.43 through 49.47 and of chapter 462, insofar as the same are applicable, shall govern all such elections, and the question to be submitted shall be set forth in the notice of election. If sixty percent of the votes cast be in favor of the proposed change in assessment, it shall become effective for all future assessments as heretofore provided in this section. If the question should fail, no new election on the subject may be called for a period of one year.

7. When a levee district has been established and constructed, as an alternative to the other methods prescribed by law, upon reclassification, the levee district may adopt a method of classification and assessment uniform as to all land in the district, including railroad land, public highways and other public land and land exempt from general taxation, based on the total amount to be assessed divided by the total acres within the district. This method of classification and assessment may be adopted either by hearing or by election and shall become effective as heretofore provided in this section.

8. When a drainage district or drainage and levee district has been established and constructed, and after the lands therein have been classified in accordance with the provisions of sections 455.46, 455.47, and 455.48 or reclassified in accordance with section 455.72, the district may adopt methods of assessment for maintenance, repair, and operation of said district uniform as to all land in the district in the same manner and by the same procedures as prescribed in subsections 1 through 7 of this section. Provided, however, that only those lands drained by respective mains and laterals shall be assessed for maintenance, repair, and operation of said mains and laterals, and provided further that this alternate method of assessment shall not be applied to making improvements in the drainage system.

9. Following the adoption of any alternative method of classification or assessment as provided in this section, the same shall continue in effect until such time as the method is changed pursuant to this section or to section 455.72.

10. All proceedings taken prior to July 1, 1968, purporting to establish or re-establish a drainage or levee district or districts, or to enlarge or change the boundaries of any drainage or levee district, and any assessments not heretofore declared invalid by any court, are hereby legalized, validated, and confirmed.

The foregoing shall not be construed to affect any litigation that may be pending at the time this section becomes effective involving the establishment, re-establishment, enlargement, or change in boundaries or any assessments of drainage or levee districts.

[C71, 73, 75, 77, 79, 81, §455.197]

455.198 Warrants not paid for want of funds.
Chapter 74 shall be applicable to all warrants which are legally drawn on levee and drainage district funds and are not paid for want of funds.
[C71, 73, 75, 77, 79, 81, §455.198]

455.199 Easements through a drainage district.
As used in this section, “person” shall mean any individual or group of individuals, corporation, firm, company, or association, except a railroad company.
1. When any person proposes to construct a pipeline, electric transmission line, communication line, underground service line, or other similar installations on, over, across, or beneath the right of way of any drainage or levee district, such person shall, before beginning construction, obtain from the drainage or levee district an easement to cross the district's right of way. The governing body of the district shall require such person to agree to comply with subsection 3 of this section and may, as a condition of granting such easement, attach thereto such additional conditions as they deem necessary. When the necessary easement has been obtained, such person shall construct the installation at the person's or successor's own expense and shall pay all costs of any reconstruction, relocation, modification, or reinstallation of the drainage or levee district's facility which may be necessary as a result of construction of the installation for which the easement was granted.

2. After construction of the installation has been completed in accordance with all conditions under which the easement is granted, the drainage or levee district shall maintain its facility at its own expense, and the person who constructed the installation, or the person's successors in interest, shall maintain the installation at the person's or successor's own expense. If the drainage or levee district subsequently undertakes any maintenance, improvement, or reconstruction of its facility which requires the modification, relocation, or reconstruction of the installation, the expense of such modification, relocation, or reconstruction shall be borne by the person who constructed the installation or the person's successors in interest.

3. When the construction of a public highway, or any installation for which an easement has been obtained under subsection 1 of this section, on, over, across, or beneath the right of way of any drainage or levee district disturbs or requires replacement of any portion of a tile drain less than twenty inches in diameter, and a portion of such drain will remain wholly or partially exposed after the construction project has been completed, the portion which is to remain exposed and not less than three feet of such drain immediately on either side of the portion which is to remain exposed, shall be replaced either with steel pipe of not less than sixteen gauge or polyvinyl chloride pipe conforming to current industry standards regarding diameter and wall thickness.

2. There shall be no additional cost to the district furnishing the service.

3. The agreement shall be in writing, be made a part of the drainage records and shall include the following:
   a. The description of the lands to be served;
   b. The location of tile lines constructed or to be constructed;
   c. The consideration to be paid to the district furnishing the service and the classification of the lands to be served; and
   d. Such other provisions as the board deems necessary.

455.201 Public improvements which divide a district — procedure.
If it should develop that any type of public improvement, other than the forces of nature, has caused such a change in the district as to effectively sever and cut off some of the land in the district from other lands in the district and from the improvements in the district in such a way as to deprive the land of any further benefits from the improvement, or in some manner to divide the benefits that may be derived from two separated portions of the improvement, then the board of supervisors or the board of trustees in charge may upon notice to interested parties and hearing as provided by this chapter for the original establishment of a district make an order to remove lands so deprived of benefits from the district without any reclassification, or may subdivide the district into two separate entities if the public improvement splits the district into two separate units, each of which may still derive some separate benefits from the separated portions of the district.

If the public improvement is such as to leave two separate portions of the improvement that are still operable and of benefit to the land on each side of the division made by the public improvement, then the board may divide the district into two separate units so that each may perform further work on the improvements in their respective parts, but neither shall be charged for work completed on the opposite side of the new improvement that divides them and may only be charged for the work done in that portion of the district remaining on their side of the division.

The same authority provided in this section shall vest in the board of supervisors or the board of trustees in the event a drainage district in any manner relinquishes its control over any portion of its improvements or its obligation to maintain same to another district and lands may be removed from the district or the district may be divided as provided in this section.

The board may further in dividing the district award to each of the separated portions of the district the improvement remaining in each portion, determine the value of the improvement so remaining on each side and secondly determine the contributions of the lands in the separated portions to the improve-
ments and the upkeep of the earlier district, and if the contribution is proportionate neither side shall owe the other portion of the district any money, but if contribution is disproportionate, the board shall determine an equitable adjustment and the amount of payment required for one portion to pay to the other to buy the existing improvement.

If land is eliminated from any further benefits, there need not be any reclassification and the board may remove the same from the district in the same manner as if the land has been destroyed in whole by the erosion of a river and spread any deficiency in assessment among the remaining lands as provided by section 455.56.

"Type of public improvement" for the purpose of this section includes drainage or levee improvements or new highways.

FEDERAL FLOOD CONTROL CO-OPERATION

455.202 Plan of improvement.

1. Whenever the government of the United States acting through its proper agencies or instrumentalities will undertake the original construction of improvements or the repair or alteration of existing improvements which will accomplish the purposes for which the district was established or aid in the accomplishment thereof and shall cause to be filed in the office of the auditor of the county in which said district is located a plan of such improvement or for the repair or alteration of existing improvements, the board shall have jurisdiction, power and authority, upon the notice, hearing and determination hereinafter provided, to adopt such plan of improvement or of repair or alteration of existing improvements and to provide necessary right of way therefor; and to pay such portion of all costs and damages incident to the adoption of such plan, the construction thereunder and the maintenance and operation of the works as will not be discharged by the federal government under legislation existing at the time of adoption; also to enter into such agreements with the United States government as will be rendered unnecessary by adoption of the federal plan and any unpaid damages awarded therefor.

2. The particular description and acreage of land required from each forty-acre tract or fraction thereof for right of way, borrow pits or other purposes together with congressional or other description of each tract and the names of the owners thereof as shown by the transfer books in the office of the auditor.

3. A particular description of each forty-acre tract or fraction thereof that will be excluded from benefit by adoption of the plan as filed, together with the name of the owners thereof as shown by the transfer books in the office of the auditor.

4. A particular description of each forty-acre tract or fraction thereof outside the district which will benefit from adoption of the plan as filed and the name of the owner thereof as shown by the transfer books in the office of the auditor.

5. Such rights of way or portions thereof previously established or acquired as will be rendered unnecessary by adoption of the federal plan and any unpaid damages awarded thereof.

6. Such other damages previously awarded as will be affected by adoption of the federal plan.

7. The recommendation of the engineer with respect to the adoption of the plan.

[C50, 54, 58, 62, 66, §455.204; C71, 73, 75, 77, 79, 81, §455.205]
455.206 Supplemental reports.
Upon the filing of such report the board shall examine and consider the same together with the plan and the commitments involved in its adoption and may require supplemental reports of the engineer or of another disinterested engineer with such data as they may deem necessary or desirable including recommendations for any change or modification, negotiate with the federal agency involved and amend the plan in such manner as may be mutually agreed upon. The engineer shall make such supplemental reports as may be required by the board or necessitated by amendment of plan.
[C50, 54, 58, 62, 66, §455.206; C71, 73, 75, 77, 79, 81, §455.206]

455.207 Notice and hearing.
If upon consideration of the plan or amended plan and the report or reports of the engineer and the commitments involved in the adoption of the plan the board finds that the district will benefit therefrom or the purposes for which the district was established will be promoted thereby, the board shall adopt the same as a tentative plan, entering order to that effect and fixing a date for hearing thereon not less than thirty days thereafter and directing the auditor to cause notice to be given of such hearing as hereinafter provided.
[C50, 54, 58, 62, 66, §455.206; C71, 73, 75, 77, 79, 81, §455.207]

455.208 Form of notice.
Such notice shall be captioned in the name of the district and shall be directed to the owners of each tract or lot within said levee or drainage district, including railroad companies having rights of way, lienholders and encumbrances, and to all owners, lienholders or encumbrancers of lands which an adoption of the plan would exclude from benefits and of lands outside the district which will benefit therefrom and to all other persons whom it may concern and, without naming them, to the occupants of all lands affected and shall set forth that there is on file in the office of the auditor a plan of construction of the federal agency (naming it), together with reports of an engineer thereon, which the board has tentatively approved, and that such plan may be amended before final action; also the day and hour set for hearing on the adoption of said plan, and that all claims for damages, except claims for land required for right of way or construction, and all objections to the adoption of said plan for any reason must be made in writing and filed in the office of the auditor at or before the time set for hearing. Provisions of this chapter for giving notice, waiver of notice, waiver of objection and damages and adjournment for service contained in sections 455.21 to 455.26 shall apply.
[C50, 54, 58, 62, 66, §455.207; C71, 73, 75, 77, 79, 81, §455.208]

455.209 Amendment — new parties.
The board may continue the hearing pending decision and may amend the plan but in the event of amendment the board shall continue further hearing to a fixed date. All parties over whom the board then has jurisdiction shall take notice of such further hearing but any new parties rendered necessary by the modification or change of plans shall be served with notice as for the original hearing.
[C50, 54, 58, 62, 66, §455.208; C71, 73, 75, 77, 79, 81, §455.209]

455.210 Entry of order — effect.
If the board, after consideration of the subject matter, including all objections filed to the adoption of the plan and all claims for damages, shall find that the district will be benefited by adoption of the plan or the purposes for which the district was established is furthered thereby, they shall enter order approving and adopting such final plan. Such order shall have the effect of:
1. Altering the boundaries of the district to conform to the changes effected by the plan adopted.
2. Canceling all existing awards for damages for property not appropriated for right of way or construction and rendered unnecessary by the plan so adopted.
3. Canceling all awards previously made for damages other than for right of way or construction but reinstating the claims for such damages which said claims may be amended by the claimants within ten days thereafter.
4. Canceling all unpaid assessments for benefits on lands excluded from the district by adoption of the plan. The assessments so canceled shall become part of the costs of the improvement.
5. Establishing as benefited thereby the lands added to the district by adoption of the plan and rendering same subject to classification and assessment.
6. Whenever a plan has been adopted as contemplated by this section, modification and changes can be made therein without further notice or hearing, provided the same do not increase or decrease the estimated cost of the plan to the district by more than twenty-five percent.
[C50, 54, 58, 62, 66, §455.209; C71, 73, 75, 77, 79, 81, §455.210]

The board shall thereupon appoint three appraisers of the qualifications prescribed in section 455.30, who shall qualify in the manner therein provided, and shall fix a time for hearing on their report of which all interested parties shall take notice. The appraisers shall view the premises and fix and determine the damages to which each claimant is entitled, including claimants whose awards for damages were canceled by the order of adoption, and shall place a separate valuation upon the acreage of each owner taken for right of way or other purposes necessitated by adoption of the plan and shall file a report thereof in writing in the office of the auditor at least five days before the date fixed by the board for hearing thereon. Should the report not be filed on time or should good cause for delay exist the board may postpone the time for final action on the subject
and, if necessary, may appoint other appraisers. Thereafter the provisions of section 455.32 shall apply.

[C50, 54, 58, 62, 66, §455.210; C71, 73, 75, 77, 79, 81, §455.211]

The board may, upon hearing, adjust the classification of lands affected by the plan.

The board shall levy the costs contemplated in section 455.202 upon all of the lands of the district on the basis of the classification for benefits as finally established and the assessments so levied shall be paid in one installment unless the board in its discretion shall provide for the payment thereof in not more than twenty equal installments with interest at a rate not exceeding that permitted by chapter 74A. The board may issue anticipatory warrants bearing interest at a rate not exceeding that permitted by chapter 74A. The warrants may be numbered and state a maturity date. The warrants may be sold by the board for cash in an amount not less than the face value thereof, together with accrued interest, if any.

STATE LANDS

455.218 Occupancy and use permitted — assessments paid.
Any levee or drainage district organized, or in the process of being organized, under the laws of this state may occupy and use for any lawful levee or drainage purpose land owned by the state of Iowa, upon first obtaining permission to do so from the state or state agency controlling the same.

In the case of lands lying within the beds of meandered streams and border streams the permission shall be obtained from the natural resource commission of the department of natural resources. In the case of lands that are under the control of no office or agency of the state, then the permission shall be obtained from the executive council.

Such permission shall not be unreasonably withheld and shall be in the form of an easement executed by the governor or in the case of an agency, by the chairperson or presiding officer thereof, and when once granted shall be perpetual, except that if no use is made of the same for a period of five years such permission shall immediately thereafter expire.

All uses and occupancies as contemplated by this section existing on July 4, 1961, are hereby legalized.

The state of Iowa, its agencies and subdivisions shall be financially responsible for drainage and special assessments against land which they own, or hold title to, within existing drainage districts.

BOARD OF COUNTY DRAINAGE ADMINISTRATORS

455.219 Administrators appointed.
The county board of supervisors of any county of this state in which one or more drainage districts are established may by resolution establish a board of county drainage administrators. All of the powers, duties, and responsibilities now or hereafter conferred on county boards of supervisors in this chapter and chapters 456 to 467 shall thereupon be
transferred to and thereafter exercised by the board of county drainage administrators. A drainage or levee district may be established pursuant to chapter 462.

[C71, 73, 75, 77, 79, 81, §455.219]

455.220 Administrator areas.

When establishing a board of county drainage administrators, the board of supervisors shall divide the county, along township lines, into three drainage administrator areas of approximately equal territory. The board of county drainage administrators shall consist of one resident freeholder appointed by the county board of supervisors from each area, and at least two of the administrators shall be agricultural landowners. The members first appointed shall hold office for terms of one, two, and three years respectively, as indicated and fixed by the county board of supervisors. Thereafter, succeeding members shall be appointed for a term of three years, except that vacancies occurring otherwise than by expiration of a term shall be filled by appointment for the unexpired term. Any member of the board of county drainage administrators who shall cease to have any of the qualifications prescribed by this section shall thereupon be disqualified as a member of the board and the office shall be deemed vacant. Members of the board of county drainage administrators may be removed by the county board of supervisors for cause, but every such removal shall be by written order which shall be filed with the county auditor.

The compensation and expenses of the county board of drainage administrators, for each day or portion thereof necessarily expended in the transaction of the business of a drainage or levee district, shall be paid out of the funds of the district served. The administrators shall file with the auditor or auditors, as the case may be, itemized, verified statements of their time devoted to the business of the district and the expenses incurred. If the administrators transact business of more than one district on a given day, they shall prorate their claims for compensation proportionately among the districts served on that day, but in no case shall a member of the board of county drainage administrators claim or receive a sum in excess of seventeen dollars and fifty cents, plus actual and necessary expenses, for a single day.

[C71, 73, 75, 77, 79, 81, §455.222]

455.223 Water resource districts.*

The governing board of every drainage or levee district organized under the laws of this state shall take notice of the district plan, and shall conform to the duly promulgated rules, of the water resource district* or districts in which the drainage or levee district is located; provided that this section shall not be construed to grant any authority not otherwise granted by law to the governing boards of drainage or levee districts.

The board of a county with a population of two hundred thousand persons or more that has established a drainage district located partly within the corporate limits of a city may expend federal grants or revenue sharing money or other funds not derived from local tax levies in amounts as the board deems proper to pay any part of the cost of improvements authorized in this chapter. The board may issue general obligation bonds to pay any part of the cost of improvements authorized in this chapter. The bonds shall be issued according to the provisions of chapter 384 division III, relating to general obligation bonds for essential corporate purposes.

b. The gravity of the violation.
c. The degree of culpability of the violator.
d. The maximum penalty authorized for that violation under this chapter.

Penalties may be administratively assessed only after an opportunity for a contested case hearing which may be combined with a hearing on the merits of the alleged violation. Major violations, violations not fitting within the schedule, or violations which the commission determines should be referred to the attorney general for legal action shall not be governed by the schedule established under this subsection.

2. If the commission establishes a schedule for minor violations, the commission shall provide, by rule, a procedure for the screening of alleged violations to determine which cases may be appropriate for the administrative assessment of penalties. However, the screening procedure shall not limit the discretion of the department to refer any case to the attorney general for legal action.

3. A penalty shall be paid within thirty days of the date the order assessing the penalty becomes final. When a person against whom a civil penalty is assessed under this section seeks timely judicial review of an order imposing the penalty as provided under chapter 17A, the order is not final for the purposes of this section until all judicial review processes are completed. Additional judicial review may not be sought after the order becomes final. A person who fails to timely pay a civil penalty assessed by a final order of the department shall pay, in addition, interest at the rate of one and one-half percent of the unpaid balance of the assessed penalty for each month or part of a month that the penalty remains unpaid. The attorney general shall institute, at the request of the department, summary proceedings to recover the penalty and any accrued interest.

4. All civil penalties assessed by the department and interest on the penalties shall be deposited in the general fund of the state.

5. This section does not require the commission or the director to pursue an administrative remedy before seeking a remedy in the courts of this state.

455B.110 Reserved.

455B.111 Citizen actions.

1. Except as provided in subsection 2, a person with standing as provided in subsection 3 may commence a civil action in district court on the person's own behalf against any of the following:

a. A person, including the state of Iowa, for violating any provision of this chapter or a rule adopted pursuant to this chapter.

b. The director, the commission, or any official or employee of the department where there is an alleged failure to perform any act or duty under this chapter or a rule adopted pursuant to this chapter which is not a discretionary act or duty.

2. An action shall not be commenced pursuant to subsection 1, paragraph "a", unless the person commencing the action has provided the director and the alleged violator with a written notice at least sixty days prior to commencing the action. The written notice shall specify the nature of the violation and that legal action is contemplated under this section if the violation is not abated and, if necessary, remedial action is not taken. The state may intervene in such an action as a matter of right. In addition, an action shall not be commenced pursuant to subsection 1, paragraph "a", if the department or the state has commenced and is actively prosecuting a civil action or is actively negotiating an out-of-court settlement to require abatement of the violation and, if necessary, remediation of damages. However, any person may intervene as a matter of right in such an action.

3. A person shall have standing to commence an action pursuant to subsection 1 or to intervene in an action pursuant to subsection 2 if the person is adversely affected by the alleged violation or the alleged failure to perform a duty or act.

4. In an action commenced pursuant to subsection 1, the court may award costs of litigation, including reasonable attorney and expert witness fees, to any party.

5. This section does not restrict any right under statutory or common law of a person or class of person to seek enforcement of provisions of this chapter or a rule adopted pursuant to this chapter or seek other relief permitted under the law.

86 Acts, ch 1245, §1888

455B.112 Actions by attorney general.

In addition to the duty to commence legal proceedings at the request of the director or commission under this chapter, the attorney general may institute civil or criminal proceedings, including an action for injunction, to enforce the provisions of this chapter including orders or permits issued or rules adopted under this chapter.

86 Acts, ch 1245, §1889

455B.113 Certification of laboratories.

1. The director shall certify laboratories which perform laboratory analyses of samples required to be submitted by the department by this chapter, by rules adopted in accordance with this chapter, or by permits or orders issued under this chapter.

2. The commission shall adopt rules regarding reciprocity agreements with other states that have equivalent laboratory certification requirements.

3. The director may charge a fee for processing of an application. The application fee is nonrefundable. In establishing the fee, the director shall take into
account the administrative costs incurred and the cost of enforcement of this section. Fees collected shall be retained by the department.

4. A laboratory shall submit an application, every other year, accompanied by the fee determined by the director. 88 Acts, ch 1120, §1

455B.114 Laboratory certificates.

1. Upon determination by the director that an applicant for certification has the necessary competence, equipment, and capability to perform the laboratory analytical procedures required, the director shall issue a certificate of competency to the laboratory. The certificate shall indicate the analytical parameters and procedures which the laboratory is certified to conduct.

2. The director may suspend or revoke the certificate of competency of a laboratory upon determination of the director that the laboratory no longer fulfills the requirements for certification. 88 Acts, ch 1120, §2

455B.115 Analysis by certified laboratory required.

Laboratory analysis of samples as required by this chapter or by rules adopted, or by permits or orders issued pursuant to this chapter, shall be conducted by a laboratory certified by the director as having the necessary competence, equipment, and capabilities to perform the analysis. Analytical results from laboratories not certified shall not be accepted by the director. 88 Acts, ch 1120, §3

DIVISION II
AIR QUALITY

455B.131 Definitions.

When used in this division II, unless the context otherwise provides:

1. "Air contaminant" means dust, fume, mist, smoke, other particulate matter, gas, vapor (except water vapor), odorous substance, radioactive substance, or any combination thereof.

2. "Air contaminant source" means any and all sources of emission of air contaminants whether privately or publicly owned or operated.

Air contaminant source includes, but is not limited to, all types of businesses, commercial and industrial plants, works, shops, and stores, heating and power plants and stations, buildings and other structures of all types including single and multiple family residences, office buildings, hotels, restaurants, schools, hospitals, churches and other institutional buildings, automobiles, trucks, tractors, buses, aircraft, and other motor vehicles, garages, vending and service locations and stations, railroad locomotives, ships, boats, and other water-borne craft, portable fuel-burning equipment, indoor and outdoor incinerators of all types, refuse dumps and piles, and all stack and other chimney outlets from any of the foregoing.

An air contaminant source does not include a fire truck or other fire apparatus operated by an organized fire department.

3. "Air pollution" means presence in the outdoor atmosphere of one or more air contaminants in sufficient quantities and of such characteristics and duration as is or may reasonably tend to be injurious to human, plant, or animal life, or to property, or which unreasonably interferes with the enjoyment of life and property.

4. "Atmosphere" means all space outside of buildings, stacks or exterior ducts.

5. "Emission" means a release of one or more air contaminants into the outside atmosphere.

6. "Person" means an individual, partnership, copartnership, co-operative, firm, company, public or private corporation, political subdivision, agency of the state, trust, estate, joint stock company, an agency or department of the federal government or any other legal entity, or a legal representative, agent, officer, employee or assigns of such entities.

7. "Political subdivision" means any municipality, township, or county, or district, or authority, or portion, or combination of two or more thereof.

8. "Major stationary source" means a stationary air contaminant source which directly emits, or has the potential to emit, one hundred tons or more of an air pollutant per year including a major source of fugitive emissions of a pollutant as determined by rule by the department or the administrator of the United States environmental protection agency.

9. "Schedule and timetable of compliance" means a schedule of remedial measures including an enforceable sequence of actions or operations leading to compliance with an emission limitation, other limitation, prohibition, or standard.

10. "Atmosphere" means all space outside of buildings, stacks or exterior ducts.

11. "Person" means an individual, partnership, copartnership, co-operative, firm, company, public or private corporation, political subdivision, agency of the state, trust, estate, joint stock company, an agency or department of the federal government or any other legal entity, or a legal representative, agent, officer, employee or assigns of such entities.

455B.132 Executive agency.

The department shall be the agency of the state to prevent, abate, or control air pollution. [C73, 75, 77, 79, 81, §455B.11] 85 Acts, ch 44, §1; 86 Acts, ch 1245, §1899B

455B.133 Duties.

The commission shall:

1. Develop comprehensive plans and programs for the abatement, control, and prevention of air pollution in this state, recognizing varying requirements for different areas in the state. The plans may include emission limitations, schedules and timetables for compliance with the limitations, measures to prevent the significant deterioration of air quality and other measures as necessary to assure attainment and maintenance of ambient air quality standards.

2. Adopt, amend, or repeal rules pertaining to the evaluation, abatement, control, and prevention of air pollution. The rules may include those that are necessary to obtain approval of the state implemen-
tation plan under section 110 of the federal Clean Air Act as amended through January 1, 1979.

3. Adopt, amend, or repeal ambient air quality standards for the atmosphere of this state on the basis of providing air quality necessary to protect the public health and welfare.

4. Adopt, amend or repeal emission limitations or standards relating to the maximum quantities of air contaminants that may be emitted from any air contaminant source. The standards or limitations adopted under this section shall not exceed the standards or limitations promulgated by the administrator of the United States environmental protection agency or the requirements of the federal Clean Air Act as amended to January 1, 1979. This does not prohibit the commission from adopting a standard for a source or class of sources for which the United States environmental protection agency has not promulgated a standard.

a. (1) The commission shall establish standards of performance unless in the judgment of the commission it is not feasible to adopt or enforce a standard of performance. If it is not feasible to adopt or enforce a standard of performance, the commission may adopt a design, equipment, material, work practice or operational standard, or combination of those standards in order to establish reasonably available control technology or the lowest achievable emission rate in nonattainment areas, or in order to establish best available control technology in areas subject to prevention of significant deterioration review, or in order to adopt the emission limitations promulgated by the administrator of the United States environmental protection agency under section 111 or 112 of the federal Clean Air Act as amended to January 1, 1979.

(2) If a person establishes to the satisfaction of the commission that an alternative means of emission limitation will achieve a reduction in emissions of an air pollutant at least equivalent to the reduction in emissions of the air pollutant achieved under the design, equipment, material, work practice or operational standard, the commission shall amend its rules to permit the use of the alternative by the source for purposes of compliance with this paragraph with respect to the pollutant.

(3) A design, equipment, material, work practice or operational standard promulgated under this paragraph shall be promulgated in terms of a standard of performance when it becomes feasible to promulgate and enforce the standard in those terms.

(4) For the purpose of this paragraph, the phrase “not feasible to adopt or enforce a standard of performance” refers to a situation in which the commission determines that the application of measurement methodology to a particular class of sources is not practicable due to technological or economic limitations.

b. If the maximum standards for the emission of sulphur dioxide from solid fuels have to be reduced in an area to meet ambient air quality standards, a contract for coal produced in Iowa and burned by a facility in that area that met the sulphur dioxide emission standards in effect at the time the contract went into effect shall be exempted from the decreased requirement until the expiration of the contract period or December 31, 1983, whichever first occurs, if there is any other reasonable means available to satisfy the ambient air quality standards. To qualify under this subsection, the contract must be recorded with the county recorder of the county where the burning facility is located within thirty days after the signing of the contract.

c. The degree of emission limitation required for control of an air contaminant under an emission standard shall not be affected by that part of the stack height of a source that exceeds good engineering practice, as defined in rules, or any other dispersion technique. This paragraph shall not apply to stack heights in existence before December 30, 1970, or dispersion techniques implemented before that date.

5. Classify air contaminant sources according to levels and types of emissions, and other characteristics which relate to air pollution. The commission may require, by rule, the owner or operator of any air contaminant source to establish and maintain such records, make such reports, install, use and maintain such monitoring equipment or methods, sample such emissions in accordance with such methods at such locations and intervals, and using such procedures as the commission shall prescribe, and provide such other information as the commission may reasonably require. Such classifications may be for application to the state as a whole, or to any designated area of the state, and shall be made with special reference to effects on health, economic and social factors, and physical effects on property.

6. a. Require, by rules, notice of the construction of any air contaminant source which may cause or contribute to air pollution, and the submission of plans and specifications to the department, or other information deemed necessary, for the installation of air contaminant sources and related control equipment. The rules shall allow the owner or operator of a major stationary source to elect to obtain a conditional permit in lieu of a construction permit. The rules relating to a conditional permit for an electric power generating facility subject to chapter 476A and other major stationary sources shall allow the submission of engineering descriptions, flow diagrams and schematics that quantitatively and qualitatively identify emission streams and alternative control equipment that will provide compliance with emission standards. Such rules shall not specify any particular method to be used to reduce undesirable levels of emissions, nor type, design, or method of installation of any equipment to be used to reduce such levels of emissions, nor the type, design, or method of installation or type of construction of any manufacturing processes or kinds of equipment, nor specify the kind or composition of fuels permitted to be sold, stored, or used unless authorized by subsection 4 of this section.

b. The commission may give technical advice pertaining to the construction or installation of the equipment or any other recommendation.
§455B.133, JURISDICTION OF DEPARTMENT OF NATURAL RESOURCES

7 Commission rules establishing maximum permissible sulfate content shall not apply to an expansion of an industrial anaerobic lagoon facility which was constructed prior to February 22, 1979.

[C71, §136B 4, C73, 75, 77, 79, 81, §455B 12, 82 Acts, ch 1124, §1]

455B.134 Director — duties — limitations.
The director shall:
1. Publish and administer the rules and standards established by the commission. The department shall furnish a copy of such rules or standards to any person upon request.
2. Provide technical, scientific, and other services required by the commission or for the effective administration of this division II.
3. Grant, modify, or deny permits for the construction of new or modified air contaminant sources and for related control equipment, and conditional permits for electric power generating facilities subject to chapter 476A and other major stationary sources, subject to the rules adopted by the commission. The department shall furnish necessary application forms for such permits.
   a. No air contaminant source shall be installed, altered so that it significantly affects emissions, or placed in use unless a construction or conditional permit has been issued for the source.
   b. The condition of expected performance shall be reasonably detailed in the construction or conditional permit.
   c. All applications for permits other than conditional permits for electric generating facilities shall be subject to such notice and public participation as may be provided by rule by the commission. Upon denial or limitation of a permit other than a conditional permit for an electric generating facility, the applicant shall be notified of such denial and in the form of the reason or reasons therefor, and such applicant shall be entitled to a hearing before the commission.
   d. All applications for conditional permits for electric power generating facilities shall be subject to such notice and opportunity for public participation as may be consistent with chapter 476A or any agreement pursuant thereto under chapter 28E. The applicant or intervenor may appeal to the commission from the denial of a conditional permit or any of its conditions. For the purposes of chapter 476A, the issuance or denial of a conditional permit by the director or by the commission upon appeal shall be a determination that the electric power generating facility does or does not meet the permit and licensing requirements of the commission. The issuance of a conditional permit shall not relieve the applicant of the responsibility to submit final and detailed construction plans and drawings and an application for a construction permit for control equipment that will meet the emission limitations established in the conditional permit.
   e. (1) Notwithstanding any other provision of division II of this chapter, the following siting requirements shall apply to anaerobic lagoons:

Anaerobic lagoons which are used in connection with animal feeding operations containing less than six hundred twenty-five thousand pounds live animal weight capacity of animal species other than beef cattle or containing less than one million six hundred thousand pounds live animal weight capacity of beef cattle, shall be located at least one thousand two hundred fifty feet from a residence not owned by the owner of the feeding operation or from a public use area other than a public road. Anaerobic lagoons, which are used in connection with animal feeding operations containing six hundred twenty-five thousand pounds or more live animal weight capacity of animal species other than beef cattle or containing one million six hundred thousand pounds or more live animal weight capacity of beef cattle, shall be located at least one thousand eight hundred seventy-five feet from a residence not owned by the owner of the feeding operation or from a public use area other than a public road. For the purpose of this paragraph, the determination of live animal weight capacity shall be based on the average animal weight capacity during a production cycle and the maximum animal capacity of the animal feeding operation. These separation distances apply to the construction of new facilities and the expansion of existing facilities.

Anaerobic lagoons which are used in connection with industrial treatment of wastewater where the average wastewater discharge flow is one hundred thousand gallons per day or less shall be located at least one thousand two hundred fifty feet from a residence not owned by the owner of the lagoon or from a public use area other than a public road. Anaerobic lagoons which are used in connection with industrial treatment of wastewater where the average wastewater discharge flow is greater than one hundred thousand gallons per day shall be located at least one thousand eight hundred seventy-five feet from a residence not owned by the owner of the lagoon or from a public use area other than a public road. These separation distances apply to the construction of new facilities and the expansion of existing facilities.

(2) A person may build or expand an anaerobic lagoon closer to a residence not owned by the owner of the anaerobic lagoon or to a public use area than is otherwise permitted by subparagraph (1) of this paragraph, if the affected landowners enter into a written agreement with the anaerobic lagoon owner to waive the separation distances under such terms the parties negotiate. The written agreement is effective only upon recording in the office of the recorder of deeds of the county in which the residence is located.

4. Determine by field studies and sampling the quality of atmosphere and the degree of air pollution in this state or any part thereof.

5. Conduct and encourage studies, investigations, and research relating to air pollution and its causes, effects, abatement, control, and prevention.

6. Provide technical assistance to political subdivisions of this state requesting such aid for the furtherance of air pollution control.
7. Collect and disseminate information, and conduct educational and training programs, relating to air pollution and its abatement, prevention, and control.

8. Consider complaints of conditions reported to, or considered likely to, constitute air pollution, and investigate such complaints upon receipt of the written petition of any state agency, the governing body of a political subdivision, a local board of health, or twenty-five affected residents of the state.

9. Issue orders consistent with rules to cause the abatement or control of air pollution. In making the orders, the director shall consider the facts and circumstances bearing upon the reasonableness of the emissions involved, including but not limited to, the character and degree of injury to, or interference with, the protection of health and the physical property of the public, the practicability of reducing or limiting the emissions from the air pollution source, and the suitability or unsuitability of the air pollution source to the area where it is located. An order may include advisory recommendations for the control of emissions from an air contaminant source and the reduction of the emission of air contaminants.

10. Encourage voluntary co-operation by persons or affected groups in restoring and preserving a reasonable quality of air within the state.

11. Encourage political subdivisions to handle air pollution problems within their respective jurisdictions.

12. Review and evaluate air pollution control programs conducted by political subdivisions of the state with respect to whether the programs are consistent with the provisions of division II of this chapter and rules adopted by the commission.

13. Hold public hearings, except when the evidence to be received is confidential pursuant to section 455B.137, necessary to accomplish the purposes of division II of this chapter. The director may issue subpoenas requiring the attendance of witnesses and the production of evidence pertinent to the hearings. A subpoena shall be issued and enforced in the same manner as in civil actions.

455B.135 Limit on authority.

Nothing contained in this division II shall be deemed to grant to the department or the director any authority or jurisdiction with respect to air pollution existing solely within residences; or solely within commercial and industrial plants, works, or shops under the jurisdiction of chapters 88 and 91; or to affect the relations between employers and employees with respect to, or arising out of, any condition of air pollution.

455B.136 Assistance on demand.

The department and the director may request and receive assistance from any other agency, department, or educational institution of the state, or political subdivision thereof, when it is deemed necessary or beneficial by the department or the director. The department may reimburse such agencies for special expense resulting from expenditures not normally a part of the operating expenses of any such agency.

455B.137 Privileged information.

Information received by the department or any employees of the department through filed reports, inspections, or as otherwise authorized in this division II concerning trade secrets, secret industrial processes, or other privileged communications, except emission data, shall not be disclosed or opened to public inspection, except as may be necessary in a proceeding concerning a violation of said division or of any rules promulgated thereunder, or as otherwise authorized or ordered by appropriate court action or proceedings. Nothing herein shall be construed to prevent the director from compiling or publishing analyses or summaries relating to the general condition of the atmosphere; provided that such analyses or summaries do not reveal any information otherwise confidential under this section.

455B.138 Resolution of violations — appeal.

1. When the director has evidence that a violation of any provision of division II of this chapter, or rule, standard or permit established or issued under division II has occurred, the director shall notify the alleged violator and, by informal negotiation, attempt to resolve the problem. If the negotiations fail to resolve the problem within a reasonable period of time, the director shall issue an order directing the violator to prevent, abate or control the emissions or air pollution involved. The order shall prescribe the date by which the violation shall cease and may prescribe timetables for necessary action to prevent, abate or control the emissions of air pollution. The order may be appealed to the commission.

2. After the hearing on appeal, the commission may affirm, modify or rescind the order of the director.

3. The director shall keep a complete record of the hearings and proceedings and the record shall be open to public inspection, subject to section 455B.137. Upon request, a copy of the transcript shall be furnished to the violator or alleged violator at the violator’s or alleged violator’s expense.

4. An appeal to the commission under this section shall be conducted as a contested case under chapter 17A.

455B.139 Emergency orders.

If the director has evidence that any person is causing air pollution and that such pollution creates an emergency requiring immediate action to protect the public health and safety, or property, the director
may, without notice, issue an emergency order requiring such person to reduce or discontinue immediately the emission of air contaminants. A copy of the emergency order shall be served by personal service. An emergency order issued by the director may be appealed to the commission. After hearing on appeal, the commission may affirm, modify or rescind the order of the director.

455B.140 Judicial review.

Judicial review of actions of the commission or of the director may be sought in accordance with the terms of the Iowa administrative procedure Act. Notwithstanding the terms of said Act, petitions for judicial review may be filed in the district court of the county in which the alleged offense was committed.

[C71, §136B.10; C73, 75, 77, 79, 81, §455B.19] 86 Acts, ch 1245, §1899

455B.141 Legal action.

If action to prevent, control, or abate air pollution is not taken in accordance with the rules established, or orders issued by the department, or if the director has evidence that an emergency exists by reason of air pollution which requires immediate action to protect the public health or property, the attorney general, at the request of the director, shall commence legal action, in the name of the state, for an injunction to prevent any further or continued violation of such rule or order.

[C71, §136B.11; C73, 75, 77, 79, 81, §455B.20] 86 Acts, ch 1245, §1899

455B.142 Burden of proof.

In all proceedings with respect to any alleged violation of the provisions of this division II or any rule established by the commission, the burden of proof shall be upon the department except in an action for an injunction as provided in section 455B.141.

[C71, §136B.12; C73, 75, 77, 79, 81, §455B.21]

455B.143 Variance.

Any person who owns or operates any plant, building, structure, process, or equipment may apply for a variance from the rules or standards adopted by the department by filing an application with the department. The application shall be accompanied by such information and data required by the department.

1. The director shall promptly investigate the application and approve or disapprove the application. The director may grant a variance if the director finds that:
   a. The emissions occurring or proposed to occur do not endanger or tend to endanger human health or safety or property; and
   b. Compliance with the rules or standards from which the variance is sought will produce serious hardship without equal or greater benefits to the public.

2. The applicant may request a review hearing before the department if the application is denied.

3. In determining under what conditions and to what extent a variance may be granted, the director shall give due recognition to the progress which the applicant has made toward eliminating or preventing air pollution. In such a case, the director shall consider the reasonableness of the request, conditioned upon such applicant effecting a partial abatement of the particular air pollution within a reasonable period of time, or the director may prescribe other requirements with which such applicant shall comply.

4. The director may grant a variance for a specified period of time, not exceeding one year, and the director may further specify that the applicant make periodic reports specifying the progress that has been made toward compliance with any rule for which the variance was granted. A variance may be extended from year to year by affirmative action of the director.

5. The director shall maintain a record of each variance granted specifying the reasons for its issuance or extension.

[C71, §136B.13; C73, 75, 77, 79, 81, §455B.22] 86 Acts, ch 1245, §1899, 1899B

455B.144 Local control program.

1. Any political subdivision may conduct an air pollution control program within the boundaries of its jurisdiction, or may jointly conduct an air pollution control program with other political subdivisions of this state or of other states, except that every joint program shall be established and administered as provided in chapter 28E. In conducting such programs, political subdivisions may adopt and enforce rules or standards to secure and maintain adequate air quality within their respective jurisdictions.

2. If the board of supervisors in any county establishes an air pollution control program and has obtained a certificate of acceptance, the agency implementing the program may regulate air pollution within the county including any incorporated areas therein until such incorporated areas obtain a certificate of acceptance as a joint or separate agency.

[C71, §136B.14; C73, 75, 77, 79, 81, §455B.23]

455B.145 Acceptance of local program.

When an air pollution control program conducted by a political subdivision, or a combination of them, is deemed upon review as provided in section 455B.134, to be consistent with the provisions of this division II or the rules established under this division, the director shall accept such program in lieu of state administration and regulation of air pollution within the political subdivisions involved. This section shall not be construed to limit the power of the director to issue state permits and to take other actions consistent with this division II or the rules established under this division that the director deems necessary for the continued proper administration of the air pollution programs within the jurisdiction of the local air pollution program.
1. In evaluating an air pollution control program, consideration shall be given to whether such program provides for the following:
   a. Ordinances, rules and standards establishing requirements consistent with, or more strict than, those imposed by this division II or rules and standards adopted by the department.
   b. Enforcement of such requirements by appropriate administrative and judicial process.
   c. Administrative organization, staff, financial and other resources necessary to administer an efficient and effective program.
   d. Location of emission monitoring devices in areas of the political subdivision in compliance with uniform state standards adopted by the department. The department shall adopt uniform state standards for the location of emission monitoring devices specifying such intervals and such procedures to provide a reasonably consistent measurement of emissions from air contaminant sources regardless of the political subdivision of the state in which the sources may be located.

2. Upon acceptance of a local air pollution control program, the director shall issue a certificate of acceptance to the appropriate local agency:
   a. Any political subdivision desiring a certificate of acceptance shall apply to the department on forms prescribed by the director.
   b. The director shall promptly investigate the application and approve or disapprove the application. The director may conduct a public hearing before action is taken to approve or disapprove. If the director disapproves issuing a certificate, the political subdivision may appeal the decision to the department of inspections and appeals. At the hearing on appeal, the department of inspections and appeals shall decide whether the local program is substantially consistent with the provisions of this division II, or rules adopted thereunder, and whether the local program is being enforced. The burden of proof shall be upon the political subdivision.
   c. If the director determines at any time that a local air pollution program is being conducted in a manner inconsistent with the substantive provisions of this division II or the rules adopted thereunder, the director shall notify the political subdivision, citing the deviations from the acceptable standards and the corrective measures to be completed within a reasonable amount of time. If the corrective measures are not implemented as prescribed, the director shall suspend in whole or in part the certificate of acceptance of such political subdivision and shall administer the regulatory provisions of said division in whole or in part within the political subdivision until the appropriate standards are met. Upon receipt of evidence that necessary corrective action has been taken, the director shall reinstate the suspended certificate of acceptance, and the political subdivision shall resume the administration of the local air pollution control program within its jurisdiction. In cases where the certificate of acceptance is suspended, the political subdivision may appeal the suspension to the department of inspections and appeals.
   d. Nothing in this division II shall be construed to supersede the jurisdiction of any local air pollution control program in operation on the first of January, 1973, except that any such program shall meet all requirements of said division.

455B.146 Civil action for compliance.
If any order, permit or rule of the department is being violated, the attorney general shall, at the request of the department or the director, institute a civil action in any district court for injunctive relief to prevent any further violation of the order, permit or rule, or for the assessment of a civil penalty as determined by the court, not to exceed five thousand dollars per day for each day such violation continues, or both such injunctive relief and civil penalty.

If the director fails to take action within sixty days after an application for a variance is made, or if the department fails to enter a final order or determination within sixty days after the final argument in hearing on appeal, the person seeking the action may treat the failure to act as a grant of the requested variance, or of a finding favorable to the respondent in hearing on appeal, as the case may be.

2. If the director fails to take action within one hundred twenty days after a completed application for a construction permit is made, or if the department fails to enter a final order or determination within sixty days after the final argument in a hearing on appeal of the permit, the person seeking the action may treat the failure to act as a grant of the requested permit, or of a finding favorable to the respondent in a hearing on appeal, as the case may be.

3. The section shall not apply to an application for a conditional permit for an electrical power generating facility subject to chapter 476A.

455B.149 Energy or economic emergency.
1. Upon application by the owner or operator of a fuel-burning stationary source, and after notice and opportunity for public hearing, the commission may petition the president, under section 110, subsection “f,” paragraph 1 of the federal Clean Air Act as amended to January 1, 1979, for a determination that a national or regional energy emergency exists. If the president determines an emergency exists, the commission may suspend any requirement of this division or a rule or permit issued under this division. A temporary emergency suspension under this subsection shall be issued only if there exists in the vicinity of the source a temporary emergency involving high levels of unemployment or loss of necessary energy supplies for residential buildings and if the unemploy-
ment or loss can be totally or partially alleviated by the suspension. Only one suspension may be issued for a source on the basis of the same set of circumstances or on the basis of the same emergency. A suspension shall remain in effect for a maximum of four months. The commission may include in a suspension a provision directing the director to delay for a period identical to the period of the suspension a compliance schedule or increment of progress to which the source is subject under section 455B.138, if the source is unable to comply with the schedule or increment solely because of the conditions on the basis of which the suspension was issued.

2. If a plan revision has been submitted to the administrator of the United States environmental protection agency under section 110 of the federal Clean Air Act as amended to January 1, 1979, and if the commission determines that the revision meets the requirements of that section and the revision is necessary to prevent the closing of an air contaminant source for one year or more and to prevent substantial increases in unemployment which would result from the closing, and if the administrator has not approved or disapproved within the required four-month period, the commission may issue a temporary emergency suspension of the part of the applicable implementation plan which is proposed to be revised with respect to the source. The determination under this subsection shall not be made with respect to a source which would close without regard to whether or not the proposed plan revision is approved. A temporary emergency suspension issued under this subsection shall remain in effect for a maximum of four months. A temporary emergency suspension under this subsection may include a provision directing the director to delay for a period identical to the period of the suspension a compliance schedule or increment of progress to which the source is subject under section 119 of the federal Clean Air Act as amended to January 1, 1979, upon a finding that the source is unable to comply with the schedule or increment solely because of the conditions on the basis of which a suspension was issued under this subsection.

455B.172 Jurisdiction of department and local boards.

1 The department is the agency of the state to prevent, abate, or control water pollution and to conduct the public water supply program

2. The department shall carry out the responsibilities of the state related to private water supplies and private sewage disposal systems for the protection of the environment and the public health and safety of the citizens of the state.

3 Each county board of health shall adopt standards for private water supplies and private sewage disposal facilities. These standards shall be at least as stringent but consistent with the standards adopted by the commission. If a county board of health has not adopted standards for private water supplies and private sewage disposal facilities, the standards adopted by the commission shall be applied and enforced within the county by the county board of health.

4 Each county board of health shall regulate the private water supply and private sewage disposal facilities located within the county board’s jurisdic-
§455B.172, JURISDICTION OF DEPARTMENT OF NATURAL RESOURCES

2976

The department shall retain concurrent authority to enforce state standards for private water supply and private sewage disposal facilities within a county, and exercise departmental authority if the county board of health fails to fulfill board responsibilities pursuant to this section.

The commission shall make grants to counties for the purpose of conducting programs for the testing of private, rural water supply wells and for the proper closing of abandoned, rural, private water supply wells within the jurisdiction of the county. Grants shall be funded through allocation of the agriculture management account of the groundwater protection fund. Grants awarded, continued, or renewed shall be subject to the following conditions:

a. An application for a grant shall be in a form and shall contain information as prescribed by rule of the commission.

b. Nothing in this section shall be construed to prohibit the department from making grants to one or more counties to carry out the purpose of the grant on a joint, multicounty basis.

c. A grant shall be awarded on an annual basis to cover a fiscal year from July 1 to June 30 of the following calendar year.

d. The continuation or renewal of a grant shall be contingent upon the county's acceptable performance in carrying out its responsibilities, as determined by the director. The director, subject to approval by the commission, may deny the awarding of a grant or withdraw a grant awarded if, by determination of the director, the county has not carried out the responsibilities for which the grant was awarded, or cannot reasonably be expected to carry out the responsibilities for which the grant would be awarded.

6. a. The department is the state agency to regulate the construction, reconstruction and abandonment of all of the following water wells:

1. Those used as part of a public water supply system as defined in section 455B.171.

2. Those used for the withdrawal of water for which a permit is required pursuant to section 455B.268, subsection 1.

3. Those used for the purpose of monitoring groundwater quantity and quality required or installed pursuant to directions or regulations of the department.

b. A local board of health is the agency to regulate the construction, reconstruction and abandonment of water wells not otherwise regulated by the department. The local board of health shall not adopt standards relative to the construction, reconstruction and abandonment of wells less stringent than those adopted by the department.

7. The department is the state agency to regulate the registration of water well contractors pursuant to section 455B.187.

8. Pursuant to chapter 28E, the department may delegate its authority for regulation of the construction, reconstruction and abandonment of water wells specified in subsection 6 or the registration of water well contractors specified in subsection 7 to boards of health or other agencies which have adequate authority and ability to administer and enforce the requirements established by law or rule.

455B.173 Duties.

The commission shall:

1. Develop comprehensive plans and programs for the prevention, control and abatement of water pollution.

2. Establish, modify, or repeal water quality standards, pretreatment standards and effluent standards. The effluent standards may provide for maintaining the existing quality of the water of the state where the quality thereof exceeds the requirements of the water quality standards.

If the federal environmental protection agency has promulgated an effluent standard or pretreatment standard pursuant to section 301, 306 or 307 of the federal Water Pollution Control Act, a pretreatment or effluent standard adopted pursuant to this section shall not be more stringent than the federal effluent or pretreatment standard for such source. This section may not preclude the establishment of a more restrictive effluent limitation in the permit for a particular point source if the more restrictive effluent limitation is necessary to meet water quality standards, the establishment of an effluent standard for a source or class of sources for which the federal environmental protection agency has not promulgated standards pursuant to section 301, 306 or 307 of the federal Water Pollution Control Act. Except as required by federal law or regulation, the commission shall not adopt an effluent standard more stringent with respect to any pollutant than is necessary to reduce the concentration of that pollutant in the effluent to the level due to natural causes, including the mineral and chemical characteristics of the land, existing in the water of the state to which the effluent is discharged. Notwithstanding any other provision of this part of this division, any new source, the construction of which was commenced after October 18, 1972, and which was constructed as to meet all applicable standards of performance for the new source or any more stringent effluent limitation required to meet water quality standards, shall not be subject to any more stringent effluent limitations during a ten-year period beginning on the date of completion of construction or during the period of depreciation or amortization of the pollution control equipment for the facility for the purposes of sections 167 and 169 or both sections of the Internal Revenue Code, whichever period ends first.

3. Establish, modify or repeal rules relating to the location, construction, operation, and maintenance of
disposal systems and public water supply systems and specifying the conditions under which the director shall issue, revoke, suspend, modify or deny permits for the operation, installation, construction, addition to or modification of any disposal system or public water supply system, or for the discharge of any pollutant or for the disposal of water wastes resulting from poultry and livestock operations. The rules specifying the conditions under which the director shall issue permits for the construction of an electric power generating facility subject to chapter 476A shall provide for issuing a conditional permit upon the submission of engineering descriptions, flow diagrams and schematics that qualitatively and quantitatively identify effluent streams and alternative disposal systems that will provide compliance with effluent standards or limitations.

No rules shall be adopted which regulate the hiring or firing of operators of disposal systems or public water supply systems except rules which regulate the certification of operators as to their technical competency.

A publicly owned treatment works whose discharge meets the final effluent limitations which were contained in its discharge permit on the date that construction of the publicly owned treatment works was approved by the department shall not be required to meet more stringent effluent limitations for a period of ten years from the date the construction was completed and accepted but not longer than twelve years from the date that construction was approved by the department.

4. Co-operate with other state or interstate water pollution control agencies in establishing standards, objectives, or criteria for the quality of interstate waters originating or flowing through this state.

5. Establish, modify or repeal rules relating to drinking water standards for public water supply systems. Such standards shall specify maximum contaminant levels or treatment techniques necessary to protect the public health and welfare. The drinking water standards must assure compliance with federal drinking water standards adopted pursuant to the federal Safe Drinking Water Act.

6. Establish, modify or repeal rules relating to inspection, monitoring, record keeping and reporting requirements for the owner or operator of any public water supply or any disposal system or of any source which is an industrial user of a publicly or privately owned disposal system.

7. Adopt a statewide plan for the provision of safe drinking water under emergency circumstances. All public agencies, as defined in chapter 28E, shall co-operate in the development and implementation of the plan. The plan shall detail the manner in which the various state and local agencies shall participate in the response to an emergency. The department may enter into any agreement, subject to approval of the commission, with any state agency or unit of local government or with the federal government which may be necessary to establish the role of such agencies in regard to the plan. This plan shall be co-ordinated with disaster emergency plans.

8. Formulate and adopt specific and detailed statewide standards pursuant to chapter 17A for review of plans and specifications and the construction of sewer systems and water supply distribution systems and extensions to such systems not later than October 1, 1977. The standards shall be based on criteria contained in the "Recommended Standards for Sewage Works" and "Recommended Standards for Water Works" (Ten States Standards) as adopted by the Great Lakes-Upper Mississippi River board of state sanitary engineers, design manuals published by the department, applicable federal guidelines and standards, standard textbooks, current technical literature and applicable safety standards. The material standards for polyvinyl chloride pipe shall not exceed the specifications for polyvinyl chloride pipe in designations D-1784-69, D-2241-73, D-2564-76, D-2672-76, D-3036-73 and D-3139-73 of the American society of testing and material. The rules adopted which directly pertain to the construction of sewer systems and water supply distribution systems and the review of plans and specifications for such construction shall be known respectively as the Iowa Standards for Sewer Systems and the Iowa Standards for Water Supply Distribution Systems and shall be applicable in each governmental subdivision of the state. Exceptions shall be made to the standards so formulated only upon special request to and receipt of permission from the department. The department shall publish the standards and make copies of such standards available to governmental subdivisions and to the public.

9. Adopt, modify or repeal rules relating to the construction and reconstruction of water wells, the proper abandonment of wells, and the registration of water well contractors. The rules shall include those necessary to protect the public health and welfare, and to protect the waters of the state. The rules may include, but are not limited to, establishing fees for registration of water well contractors, requiring the submission of well driller's logs, formation samples or well cuttings, water samples, information on test pumping and requiring inspections. Fees shall be based upon the reasonable cost of conducting the water well contractor registration program.

10. Adopt, modify or repeal rules relating to the awarding of grants to counties for the purpose of carrying out responsibilities pursuant to section 455B.172 relative to private water supplies and private sewage disposal facilities.

455B.174 Director's duties.
The director shall:

1. Conduct investigations of alleged water pollution or of alleged violations of this part of this division or any rule adopted or any permit issued pursuant thereto on written request of any state
agency, political subdivision, local board of health, twenty-five residents of the state, as directed by the department, or as may be necessary to accomplish the purposes of this part of this division.

2. Conduct periodic surveys and inspection of the construction, operation, self-monitoring, record keeping and reporting of all public water supply systems and all disposal systems except as provided in section 455B.183.

3. Take any action or actions allowed by law which, in the director's judgment, are necessary to enforce or secure compliance with the provisions of this part of this division or of any rule or standard established or permit issued pursuant thereto.

4. Approve or disapprove the plans and specifications for the construction of disposal systems or public water supply systems except for those sewer extensions and water supply distribution system extensions which are reviewed by a city or county public works department as set forth in section 455B.183. The director shall issue, revoke, suspend, modify or deny permits for the operation, installation, construction, addition to or modification of any disposal system or public water supply system except for sewer extensions and water supply distribution system extensions which are reviewed by a city or county public works department as set forth in section 455B.183. The director shall also issue, revoke, suspend, modify or deny permits for the discharge of any pollutant. The permits shall contain conditions and schedules of compliance as necessary to meet the requirements of this part of this division and the federal Water Pollution Control Act. A permit shall not be issued to operate or discharge from any disposal system unless the conditions of the permit assure that any discharge from the disposal system meets or will meet all applicable state and federal water quality standards and effluent standards and the issuance of the permit is not otherwise prohibited by the federal Water Pollution Control Act. All applications for discharge permits are subject to public notice and opportunity for public participation including public hearing as the department may by rule require. The director shall promptly notify the applicant in writing of the director's action and, if the permit is denied, state the reasons for denial. The applicant may appeal to the department of inspections and appeals from the denial of a permit or from any condition in any permit if the applicant files notice of appeal with the department of inspections and appeals within thirty days of the notice of denial or issuance of the permit. The director shall notify the applicant within thirty days of the time and place of the hearing.

Copies of all forms or other paper instruments required to be filed during on-site inspections or investigations shall be given to the owner or operator of the disposal system or public water supply system within ten working days of the filing. If an inspection or investigation is done in cooperation with another state department, the department involved and the areas inspected shall be stated.

The director shall also issue or deny conditional permits for the construction of disposal systems for electric power generating facilities subject to chapter 476A. All applications for conditional permits shall be subject to such notice and opportunity for public participation as may be required by the department and as may be consistent with chapter 476A and any agreement pursuant thereto under chapter 28E. The applicant or an intervenor may appeal to the department from the denial of a conditional permit or any of its conditions. For the purposes of chapter 476A, the issuance or denial of a conditional permit by the director or the department upon appeal shall be a determination that the electric power generating facility does or does not meet the permit and licensing requirements of the department. The issuance of a conditional permit shall not relieve the applicant of the responsibility to submit final and detailed construction plans and drawings and an application for a construction permit for a disposal system that will meet the effluent limitations in the conditional permit.

5. Conduct random inspections of work done by city and county public works departments to ensure such public works departments are complying with this Act*. If a city or county public works department is not complying with section 455B.183 in reviewing plans and specifications or in granting permits or both, the department shall perform these functions in that jurisdiction until the city or county public works department is able to perform them. Performance of these functions in a jurisdiction by a local public works department shall not be suspended or revoked until after notice and opportunity for hearing as provided in chapter 17A.

The department shall give technical assistance to city and county public works departments upon request of such local public works departments.

455B.175 Violations.

If there is substantial evidence that any person has violated or is violating any provision of this part of this division, or of any rule or standard established or permit issued pursuant thereto; then:

1. The director may issue an order directing the person to desist in the practice which constitutes the violation or to take such corrective action as may be necessary to ensure that the violation will cease. The person to whom such order is issued may cause to be commenced a contested case within the meaning of the Iowa administrative procedure Act by filing with the director within thirty days a notice of
appeal to the commission. On appeal the commission may affirm, modify or vacate the order of the director; or
2. If it is determined by the director that an emergency exists respecting any matter affecting or likely to affect the public health, the director may issue any order necessary to terminate the emergency without notice and without hearing. Any such order shall be binding and effective immediately and until such order is modified or vacated at a hearing before the commission or by a court; or
3. The director, with the approval of the commission, may request the attorney general to institute legal proceedings pursuant to section 455B.191.

455B.176 Criteria considered.
In establishing, modifying, or repealing water quality standards the commission shall base its decision upon data gathered from sources within the state regarding the following:
1. The protection of the public health;
2. The size, depth, surface area covered, volume, direction and rate of flow, stream gradient, and temperature of the affected water of the state;
3. The character and uses of the land area bordering the affected water of the state;
4. The uses which have been made, or may be made, of the affected water of the state for public, private, or domestic water supplies, irrigation; livestock watering; propagation of wildlife; fish, and other aquatic life; bathing, swimming, boating, or other recreational activity; transportation; and disposal of sewage and wastes;
5. The extent of contamination resulting from natural causes including the mineral and chemical characteristics;
6. The extent to which floatable or settleable solids may be permitted;
7. The extent to which suspended solids, colloids, or a combination of solids with other suspended substances may be permitted;
8. The extent to which bacteria and other biological organisms may be permitted;
9. The amount of dissolved oxygen that is to be present and the extent of the oxygen demanding substances which may be permitted;
10. The extent to which toxic substances, chemicals or deleterious conditions may be permitted.
11. The economic costs and benefits. The goal shall be a reasonable balance between total costs to the people and to the economy, and the resultant benefits to the people of Iowa.

455B.177 Declaration of policy.
1. The general assembly finds and declares that because the federal Water Pollution Control Act, provides for a permit system to regulate the discharge of pollutants into the waters of the United States and provides that permits may be issued by states which are authorized to implement that Act, it is in the interest of the people of Iowa to enact this Act* in order to authorize the state to implement the federal Water Pollution Control Act, and federal regulations and guidelines issued pursuant to that Act.
2. The general assembly further finds and declares that because the federal Safe Drinking Water Act, Public Law 93-523, provides for the implementation of said Act by states which have adequate authority to do so, it is in the interest of the people of Iowa to implement the provisions of the federal Safe Drinking Water Act and federal regulations and guidelines issued pursuant thereto.

455B.178 Judicial review.
Except as provided in section 455B.191, subsection 6, judicial review of any order or other action of the commission or of the director may be sought in accordance with the terms of the Iowa administrative procedure Act. Notwithstanding the terms of said Act, petitions for judicial review may be filed in the district court of the county in which the alleged offense was committed or such final order was entered.

455B.179 Trade secrets protected.
Upon a satisfactory showing by any person to the director that public disclosure of any record, report, permit, permit application or other document or information or part thereof would divulge methods or processes entitled to protection as a trade secret, any such record, report, permit, permit application or other document or part thereof other than effluent data and analytical results of monitoring or public water supply systems, shall be accorded confidential treatment. Notwithstanding the provisions of chapter 22, a person in connection with duties or employment by the department shall not make public any information accorded confidential status, however any such record or other information accorded confidential status may be disclosed or transmitted to other officers, employees or authorized representatives of this state or the United States concerned with carrying out this part of this division or when relevant in any proceeding under this Act*.

455B.180 Stay order.
The granting of a stay may be conditioned upon the furnishing by the appellant of such reasonable security as the court may direct. A stay may be vacated on application of the department or any other party after hearing by the court.

455B.181 Variances and exemptions.
The director may, after public notice and hearing, grant exemptions from a maximum contaminant
level or treatment technique, or both. The director may also grant a variance from drinking water standards for public water supply systems when the characteristics of the raw water sources, which are available to a system, cannot meet the requirements with respect to maximum contaminant level of the standards despite application of the best treatment techniques which are generally available and if the director determines that the variance will not result in an unreasonable risk to the public health. A schedule of compliance may be prescribed by the director, at the time the variance or exemption is granted. The director shall also require the interim measures to minimize the contaminant levels of systems subject to the variance or exemption as may reasonably be implemented. The director may also issue variances from other rules of the department if necessary and appropriate. The director shall submit variances granted regarding a wastewater treatment facility to the commission for the commission's review within thirty days of the granting of a variance. The denial of a variance or exemption may be appealed to the commission.

[C77, 79, 81, §455B.42]

455B.182 Failure constitutes contempt.

Failure to obey any order issued by the department with reference to a violation of this part of this division or any rule promulgated or permit issued pursuant thereto shall constitute prima-facie evidence of contempt. In such event the department may certify to the district court of the county in which such alleged disobedience occurred the fact of such failure. The district court after notice, as prescribed by the court, to the parties in interest shall then proceed to hear the matter and if it finds that the order was lawful and reasonable it shall order that person to comply with the order. If the person fails to comply with the court order, that person shall be guilty of contempt and shall be fined not to exceed five hundred dollars for each day that the person fails to comply with the court order. The penalties provided in this section shall be considered as additional to any penalty which may be imposed under the law relative to nuisances or any other statute relating to the pollution of any waters of the state or related to public water supply systems and a conviction under this section shall not be a bar to prosecution under any other penal statute.

[C66, 71, §455B.24; C73, 75, 77, 79, 81, §455B.44]

455B.183 Written permits required.

It is unlawful to carry on any of the following activities without first securing a written permit from the director, or from a city or county public works department if the public works department reviews the activity under this section, as required by the department:

1. The construction, installation or modification of any disposal system or public water supply system or part thereof or any extension or addition thereto except those sewer extensions and water supply distribution system extensions that are subject to review and approval by a city or county public works department pursuant to this section and private sewage disposal systems. A permit shall be issued for the construction, installation or modification of a public water supply system or part of a system if a qualified, registered engineer certifies to the department that the plans for the system or part of the system meet the requirements of state and federal law or regulations. The permit shall state that approval is based only upon the engineer's certification that the system's design meets the requirements of all applicable state and federal laws and regulations and the review of the department shall be advisory.

2. The construction or use of any new point source for the discharge of any pollutant into any water of the state.

3. The operation of any waste disposal system or public water supply system or any part of or extension or addition to the system. This provision does not apply to a pretreatment system the effluent of which is to be discharged directly to another disposal system for final treatment and disposal, a semi-public sewage disposal system, the construction of which has been approved by the department and which does not discharge into water of the state or a private sewage disposal system which does not discharge into a water of the state. The exemption of this paragraph shall not apply to any industrial waste discharges.

Upon adoption of standards by the commission pursuant to section 455B.173, subsections 5 to 8, plans and specifications for sewer extensions and water supply distribution system extensions covered by this section shall be submitted to the city or county public works department for approval if the local public works department employs a qualified, registered engineer who reviews the plans and specifications using the specific state standards known as the Iowa Standards for Sewer Systems and the Iowa Standards for Water Supply Distribution Systems that have been formulated and adopted by the department pursuant to section 455B.173, subsections 5 to 8. The local agency shall issue a written permit to construct if all of the following apply:

a. The submitted plans and specifications are in substantial compliance with departmental rules and the Iowa Standards for Sewer Systems and the Iowa Standards for Water Supply Distribution Systems.

b. The extensions primarily serve residential consumers and will not result in an increase greater than five percent of the capacity of the treatment works or serve more than two hundred fifty dwelling units or, in the case of an extension to a water supply distribution system, the extension will have a capacity of less than five percent of the system or will serve fewer than two hundred fifty dwelling units.

c. The proposed sewer extension will not exceed the capacity of any treatment works which received a state or federal monetary grant after 1972.

d. The proposed water supply distribution system extension will not exceed the production capacity of any public water supply system constructed after 1972. After issuing a permit, the city or county public
works department shall notify the director of such issuance by forwarding a copy of the permit to the director. In addition, the local agency shall submit quarterly reports to the director including such information as capacity of local treatment plants and production capacity of public water supply systems as well as other necessary information requested by the director for the purpose of implementing this chapter.

Plans and specifications for all other waste disposal systems and public water supply systems, including sewer extensions and water supply distribution system extensions not reviewed by a city or county public works department under this section, shall be submitted to the department before a written permit may be issued. Plans and specifications for public water supply systems and water supply distribution system extensions must be certified by a registered engineer as provided in subsection 1. The construction of any such waste disposal system or public water supply system shall be in accordance with standards formulated and adopted by the department pursuant to section 455B.173, subsections 5 to 8. If it is necessary or desirable to make material changes in the plans or specifications, revised plans or specifications together with reasons for the proposed changes must be submitted to the department for a supplemental written permit. The revised plans and specifications for a public water supply system must be certified by a registered engineer as provided in subsection 1.

Prior to the adoption of statewide standards, the department may delegate the authority to review plans and specifications to those governmental subdivisions if in addition to compliance with subsection 3 the governmental subdivisions agree to comply with all state and federal regulations and submit plans for the review of plans and specifications including a complete set of local standard specifications for such improvements.

The director may suspend or revoke delegation of review and permit authority after notice and hearing as set forth in chapter 17A if the director determines that a city or county public works department has approved extensions which do not comply with design criteria, which exceed the capacity of waste treatment plants or the production capacity of public water supply systems or which otherwise violate state or federal requirements.

The department shall exempt any public water supply system from any requirement respecting a maximum contaminant level or any treatment technique requirement of an applicable national drinking water regulation if these regulations apply to contaminants which the department determines are harmless or beneficial to the health of consumers and if the owner of a public water supply system determines that funds are not reasonably available to provide for controlling amounts of those contaminants which are harmless or beneficial to the health of consumers.

455B.184 Disposal system plans.
The department may also require the owner of a disposal system, discharging pollutants into any water of the state, or of a public water supply system to file with it complete plans of the whole or any part of such system and any other information and records concerning the installation and operation of such system.

455B.185 Data from departments.
The commission and the director may request and receive from any department, division, board, bureau, commission, public body, or agency of the state, or of any political subdivision thereof, or from any organization, incorporated or unincorporated, which has for its object the control or use of any of the water resources of the state, such assistance and data as will enable the commission or the director to properly carry out their activities and effectuate the purposes of this part 1 of division III. The department shall reimburse such agencies for special expense resulting from expenditures not normally a part of the operating expenses of any such agency.

455B.186 Prohibited discharges.
A pollutant shall not be disposed of by dumping, depositing or discharging such pollutant into any water of the state except that this section shall not be construed to prohibit the discharge of adequately treated sewage, industrial waste, or other waste pursuant to a permit issued by the director. A pollutant whether treated or untreated shall not be discharged into any state-owned natural or artificial lake.

455B.187 Water well construction.
A contractor shall not engage in well construction or reconstruction without first registering as required in department rules. Water wells shall not be constructed, reconstructed, or abandoned by a person except as provided in this part or rules adopted pursuant to this part. Within thirty days after construction or reconstruction of a well, a contractor shall provide well information required by rule to the department and the Iowa geological survey.

A landowner or the landowner’s agent shall not drill for or construct a new water well without first obtaining a permit for this activity from the department. The department shall not issue a permit to any person for this activity unless the person first registers with the department all wells, including abandoned wells, on the property. The department may delegate the authority to issue a permit to a county board of supervisors or the board’s designee. In the event of such delegation, the department shall retain concurrent authority. The commission shall
adopt rules pursuant to chapter 17A to implement this paragraph.

Notwithstanding the provisions of this section, a county board of supervisors or the board's designee may grant an exemption from the permit requirements to a landowner or the landowner's agent if an emergency drilling is necessary to meet an immediate need for water. The exemption shall be effective immediately upon approval of the county board of supervisors or the board's designee. The board of supervisors or the board's designee shall notify the director within thirty days of the granting of an exemption.

In the case of property owned by a state agency, a person shall not drill for or construct a new water well without first registering with the department the existence of any abandoned wells on the property. The department shall develop a prioritized closure program and time frame for the completion of the program, and shall adopt rules to implement the program.

The department shall develop a prioritized closure program and a time frame for the completion of the program and shall adopt rules to implement the program. A person who fails to properly plug an abandoned well on property the person owns, in accordance with the program established by the department, is subject to a civil penalty of up to one hundred dollars per day that the well remains un-plugged or improperly plugged. The moneys collected shall be deposited in the financial incentive portion of the agriculture management account. The department of agriculture and land stewardship may provide by rule for financial incentive moneys, through expenditure of the moneys allocated to the financial-incentive-program portion of the agriculture management account, to reduce a person's cost in properly plugging wells abandoned prior to July 1, 1987.

8. “Nonregulated use” means any beneficial use of water by any person of less than twenty-five thousand gallons per day.
9. “Regulated use” means any depleting use except a use specifically designated as a nonregulated use.
10. “Permit” means a written authorization issued by the department to a permittee which authorizes diversion, storage, or withdrawal of water limited as to quantity, time, place, and rate in accordance with this
part or authorizes construction, use, or maintenance of a structure, dam, obstruction, deposit, or excavation in a floodway or flood plain in accordance with the principles and policies of protecting life and property from floods as specified in this part.

11. "Permittee" means a person who obtains a permit from the department authorizing the person to take possession by diversion or otherwise and to use and apply an allotted quantity of water for a designated beneficial use, and who makes actual use of the water for that purpose or a person who obtains a permit from the department authorizing construction, use, or maintenance of a structure, dam, obstruction, deposit, or excavation in a floodway or flood plain for a designated purpose.

12. "Waste" means any of the following:
   a. Permitting groundwater or surface water to flow, or taking it or using it in any manner so that it is not put to its full beneficial use.
   b. Transporting groundwater from its source to its place of use in such a manner that there is an excessive loss in transit.
   c. Permitting or causing the pollution of a water-bearing strata through any act which will cause salt water, highly mineralized water, or otherwise contaminated water to enter it.

13. "Watercourse" means any lake, river, creek, ditch, or other body of water or channel having definite banks and bed with visible evidence of the flow or occurrence of water, except lakes or ponds without outlet to which only one landowner is riparian.

15. "Established average minimum flow" means the average minimum flow for a given watercourse at a given point determined and established by the commission. The "average minimum flow" for a given watercourse shall be determined by the following factors:
   a. Average of minimum daily flows occurring during the preceding years chosen by the commission as more nearly representative of changing conditions and needs of a given drainage area at a particular time.
   b. Minimum daily flows shown by experience to be the limit at which further withdrawals would be harmful to the public interest in any particular drainage area.
   c. The minimum daily flows shown by established discharge records and experiences to be definitely harmful to the public interest.

The determination shall be based upon available data, supplemented, when available data are incomplete, with whatever evidence is available.

455B.262 Declaration of policy and planning requirements.

1. It is recognized that the protection of life and property from floods, the prevention of damage to lands from floods, and the orderly development, wise use, protection, and conservation of the water resources of the state by their considered and proper use is of paramount importance to the welfare and prosperity of the people of the state, and to realize these objectives, it is the policy of the state to correlate and vest the powers of the state in a single agency, the department, with the duty and authority to assess the water needs of all water users at five-year intervals for the twenty years beginning January 1, 1985, and ending December 31, 2004, utilizing a data base developed and managed by the Iowa geological survey, and to prepare a general plan of water allocation in this state considering the quantity and quality of water resources available in this state designed to meet the specific needs of the water users. The department shall also develop and the department shall adopt no later than June 30, 1986, a plan for delineation of flood plain and floodway boundaries for selected stream reaches in the various river basins of the state. Selection of the stream reaches and assignment of priorities for mapping of the selected reaches shall be based on consideration of flooding characteristics, the type and extent of existing and anticipated floodplain development in particular stream reaches, and the needs of local governmental bodies for assistance in delineating flood plain and floodway boundaries. The plan of flood plain mapping shall be for the period from June 30, 1986, to December 31, 2004. After the department adopts a plan of floodplain mapping, the department shall submit a progress report and proposed implementation schedule to the general assembly biennially. The department may modify the flood plain mapping plan as needed in response to changing circumstances.

2. The general welfare of the people of the state requires that the water resources of the state be put to beneficial use which includes ensuring that the waste or unreasonable use, or unreasonable methods of use of water be prevented, and that the conservation and protection of water resources be required with the view to their reasonable and beneficial use in the interest of the people, and that the public and private funds for the promotion and expansion of the beneficial use of water resources be invested to the end that the best interests and welfare of the people are served.

3. Water occurring in a basin or watercourse, or other body of water of the state, is public water and public wealth of the people of the state and subject to use in accordance with this chapter, and the control and development and use of water for all beneficial purposes is vested in the state, which shall take measures to ensure the conservation and protection of the water resources of the state. These measures shall include the protection of specific surface and groundwater sources as necessary to ensure long-term availability in terms of quantity and quality to preserve the public health and welfare.

[C50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §455A.2; 82 Acts, ch 1199, §16, 96]

§455B.263 Duties.
1. The commission shall deliver to the general assembly by January 15, 1987, a plan embodying a general groundwater protection strategy for this state which considers the effects of potential sources of groundwater contaminations on groundwater quality. The plan shall evaluate the ability of existing laws and programs to protect groundwater quality and recommend any necessary additional or alternative laws and programs. The department shall develop the plan with the assistance of and in consultation with representatives of agriculture, industry, and public and other interests. The commission shall report to the general assembly on the status and implementation of the plan on a biennial basis. This section does not preclude the implementation of existing or new laws or programs which may protect groundwater quality.
2. The commission shall designate the official representative of this state on all comprehensive water resources planning groups for which state participation is provided. The commission shall coordinate state planning with local and national planning and, in safeguarding the interests of the state and its people, shall undertake the resolution of any conflicts that may arise between the water resources policies, plans, and projects of the federal government and the water resources policies, plans, and projects of the state, its agencies, and its people. This section does not limit or supplant the functions, duties, and responsibilities of other state or local agencies or institutions with regard to planning of water-associated projects within the particular area of responsibility of those state or local agencies or institutions.
3. The commission shall enter into negotiations and agreements with the federal government relative to the operation of, or the release of water from, any project that has been authorized or constructed by the federal government when the commission deems the negotiations and agreements to be necessary for the achievement of the policies of this state relative to its water resources.
4. The commission, on behalf of the state, shall enter into negotiations with the federal government relative to the inclusion of conservation storage features for water supply in any project that has been authorized or constructed by the federal government when the commission deems the negotiations to be necessary for the achievement of the policies of this state, however, an agreement reached pursuant to these negotiations does not bind the state until enacted into law by the general assembly.
5. A water user who benefits from the development by the federal government of conservation storage for water supply shall be encouraged to assume the responsibility for repaying to the federal government any reimbursable costs incurred in the development, and a user who accepts benefits from the developments financed in whole or part by the state shall assume by contract the responsibility of repaying to the state the user's reasonable share of the state's obligations in accordance with a basis which will assure payment within the life of the development. An appropriation, diversion, or use shall not be made by a person of any waters of the state that have been stored or released from storage either under the authority of the state or pursuant to an agreement between the state and the federal government until the person has assumed by contract the person's repayment responsibility. However, this subsection does not infringe upon any vested property interests.
6. In its contracts with water users for the payment of state obligations incurred in the development of conservation storage for water supply, the commission shall include the terms deemed reasonable and necessary:
   a. To protect the health, safety, and general welfare of the people of the state.
   b. To achieve the purposes of this chapter.
   c. To provide that the state is not responsible to any person if the waters involved are insufficient for performance.
   The commission may designate and describe any such contract, and describe the relationships to which it relates, as a sale of storage capacity, a sale of water release services, a contract for the storage or sale of water, or any similar terms suggestive of the creation of a property interest. The term of the contracts shall be commensurate with the investment and use concerned, but the commission shall not enter into any such contract for a term in excess of the maximum period provided for water use permits.
7. The commission shall procure flood control works and water resources projects from or by cooperation with any agency of the United States, by cooperation with the cities and other subdivisions of the state under the laws of the state relating to flood control and use of water resources, and by cooperation with the action of landowners in areas affected by the works or projects when the commission deems the projects to be necessary for the achievement of the policies of this state.
8. The commission shall promote the policies set forth in this part and shall represent this state in all matters within the scope of this part. The commission shall adopt rules pursuant to chapter 17A as necessary to transact its business and for the administration and exercise of its powers and duties.
9. In carrying out its duties, the commission may accept gifts, contributions, donations and grants, and use them for any purpose within the scope of this part.

455B.264 Jurisdiction — water and flood plains.
1. The department has jurisdiction over the public and private waters in the state and the lands adjacent to the waters necessary for the purposes of carrying out this part. The department may construct flood control works or any part of the works. In
the construction of the works, in making surveys and investigations, or in formulating plans and programs relating to the water resources of the state, the department may cooperate with an agency of another state or the United States, or with any other person.

2. Upon application by any person for permission to divert, pump, or otherwise take waters from any watercourse, underground basin or watercourse, drainage ditch, or settling basin within this state for any purpose other than a nonregulated use, the director shall investigate the effect of the use upon the natural flow of the watercourse, the effect of the use upon the owners of any land which might be affected by the use, the effect of the use upon prior users of the water source and contracts made under section 455B.263 and whether the use is consistent with the principles and policies of beneficial use.

3. Upon application by any person for approval of the construction or maintenance of any structure, dam, obstruction, deposit, or excavation to be erected, used, or maintained in or on the flood plains of any river or stream, the department shall investigate the effect of the construction or maintenance project on the efficiency and capacity of the floodway. In determining the effect of the proposal the department shall consider fully its effect on flooding of or flood control for any proposed works and adjacent lands and property, on the wise use and protection of water resources, on the quality of water, on fish, wildlife, and recreational facilities or uses, and on all other public rights and requirements.

455B.265 Permits for diversion, storage, and withdrawal.

1. In its consideration of applications for permits, the department shall give priority in processing to persons in the order that the applications are received, except where the application of this processing priority system prevents the prompt approval of routine applications or where the public health, safety or welfare will be threatened by delay. If the department determines after investigation that the diversion, storage or withdrawal is consistent with the principles and policies of beneficial use and ensuring conservation, the department shall grant a permit. Regardless of the request in the application, the director or the department on appeal may determine the duration and frequency of withdrawal and the quantity of water to be diverted, stored or withdrawn pursuant to the permit. Each permit granted after July 1, 1986, shall include conditions requiring routine conservation practices, and requiring implementation of emergency conservation measures after notification by the department.

2. If an application is received by July 1, 1986, the department shall grant a permit for the continuation of a beneficial use of water that was a nonregulated use prior to July 1, 1985, and now requires a permit pursuant to section 455B.268. However, the permit is subject to conditions requiring routine and emergency conservation measures and to modification or cancellation under section 455B.271. Applications received after July 1, 1986 for those uses shall be determined pursuant to subsection 1.

3. Permits shall be granted for a period of ten years; however, permits for withdrawal of water may be granted for less than ten years if geological data on the capacity of the aquifer and the rate of its recharge are indeterminate, and permits for the storage of water may be granted for the life of the structure unless revoked by the department. A permit granted shall remain as an appurtenance of the land described in the permit through the date specified in the permit and any extension of the permit or until an earlier date when the permit or its extension is canceled under section 455B.271. Upon application for a permit prior to the termination date specified in the permit, a permit may be renewed by the department for a period of ten years.

455B.266 Priority allocation.

1. After any event described in paragraphs "a" through "d" of this subsection has occurred, the department shall investigate and, if appropriate, may implement the priority allocation plan provided in subsection 2. The department shall require existing permittees to implement appropriate emergency conservation measures. The pertinent public notice and hearing requirements of subsection 4 of this section and sections 455B.271 and 455B.278 shall apply to the implementation of the plan.

a. Receipt of a petition by twenty-five affected persons or a governmental subdivision requesting that the priority allocation plan be implemented due to a substantial local water shortage.

b. Receipt of information from a state or federal natural resource, research or climatological agency indicating that a drought of local or state magnitude is imminent.

c. Issuance by the governor of a proclamation of a disaster emergency due to a drought or other event affecting water resources of the state.

d. Determination by the department in conjunction with the disaster services division of the department of public defense of a local crisis which affects availability of water.

2. Notwithstanding a person's possession of a permit or the person's use of water being a nonregulated use, the department may suspend or restrict usage of water by category of use on a local or statewide basis in the following order:

a. Water conveyed across state boundaries.

b. Uses of water primarily for recreational or aesthetic purposes.

c. Uses of water for the irrigation of hay, corn, soybeans, oats, grain sorghum or wheat.
d. Uses of water for the irrigation of crops other than
hay, corn, soybeans, oats, grain sorghum or wheat.
e. Uses of water for manufacturing or other in-
dustrial processes.
f. Uses of water for generation of electrical
power for public consumption.
g. Uses of water for livestock production.
h. Uses of water for human consumption and
sanitation supplied by rural water districts, munic-
ipsal water systems, or other public water supplies as
defined in section 455B.171.
i. Uses of water for human consumption and
sanitation supplied by a private water supply as
defined in section 455B.171.

3. Unless the governor has issued a proclamation
described in subsection 1, paragraph "c", the depart-
ment shall not impose a suspension of use or a
further restriction, other than conservation, on the
permits.

4. Suspension or restrictions of water usage ap-
Pllicable to otherwise nonregulated water users shall
be by emergency order of the director which the
department shall cause to be published in local
newspapers of general circulation and broadcast by
local media. The emergency order shall state an
effective date of the suspension or restriction and
shall be immediately effective on such date unless
stayed, modified or vacated at a hearing before the
court or by a court.

455B.268 When permit required.
1. A permit shall be required for the following:
a. Except for a nonregulated use, a person diverting,
storing or withdrawing water from any surface or
groundwater source.
b. A person who diverts water or any material
from the surface directly into an underground wa-
tercourse or basin.

2. The commission may adopt, modify, or repeal
rules pursuant to chapter 17A specifying the condi-
tions under which the director may authorize spe-
cific nonrecurring minor uses of water for periods
not to exceed one year through registration.

3. Notwithstanding any exemptions from permit
requirements, nothing in this part exempts water
users from requirements for reporting which the
commission adopts by rule.

455B.269 Taking water prohibited.
A person shall not take water from a natural
watercourse, underground basin or watercourse,
irrigation ditch, or settling basin within this state for
any purpose other than a nonregulated use except in
compliance with the sections of this part which
relate to the withdrawal, diversion, or storage of
water. However, existing uses may be continued
during the period of the pendency of an application
for a permit.

455B.270 Rights preserved.
The sections of this part which relate to the
withdrawal, diversion, or storage of water do not
deprive any person of the right to use diffused
waters, to drain land by use of tile, open ditch, or
surface drainage, or to construct an impoundment
on the person’s property or across a stream that
originates on the person’s property if provision is
made for safe construction and for a continued
established average minimum flow when the flow is
required to protect the rights of water users below.

455B.271 Modification or cancellation of per-
mits.
Each permit issued under section 455B.265 is
irrevocable for its term and for any extension of its
term except as follows:
1. A permit may be modified or canceled by the
department with the consent of the permittee.
2. Subject to appeal to the department of inspec-
tions and appeals, a permit may be modified or
canceled by the director if any of the following occur:
a. There is a breach of the terms of the permit.
b. There is a violation of the law pertaining to the
permit by the permittee or the permittee’s agents.
455B.274 Unauthorized depleting uses.
If a person files a complaint with the department that another person is making a depleting use of water not expressly exempted as a nonregulated use under this part and without a permit to do so, the department shall cause an investigation to be made and if the facts stated in the complaint are verified the department shall order the discontinuance of the use.

[C58, 62, 66, 71, 73, 75, 77, 79, 81, §455A.32; 82 Acts, ch 1199, §28, 96]

455B.275 Prohibited acts — powers of commission and executive director.
1. A person shall not permit, erect, use or maintain a structure, dam, obstruction, deposit, or excavation in or on a floodway or flood plains, which will adversely affect the efficiency of or unduly restrict the capacity of the floodway, or adversely affect the control, development, protection, allocation, or utilization of the water resources of the state, and the same are declared to be public nuisances. However, this subsection does not apply to dams constructed and operated under the authority of chapter 469.

2. The department may commence, maintain, and prosecute any appropriate action to enjoin or abate a nuisance, including any of the nuisances specified in subsection 1 and any other nuisance which adversely affects flood control.

3. If a person desires to erect or make or to permit to be erected, made, used, or maintained in or on any floodway or flood plains, the person shall file a written application with the department, setting forth information as required by rule of the commission. The department, after an investigation, shall approve or deny the application imposing conditions and terms as prescribed by the department.

4. The department may maintain an action in equity to enjoin a person from erecting or making or permitting to be made a structure, dam, obstruction, deposit, or excavation other than a dam constructed and operated under chapter 469, to be erected, made, used, or maintained in or on any floodway or flood plains, the person shall file a written application with the department.

The costs of abatement shall be borne by the violator.

455B.277 Termination of permit.
The right of the permittee and the permittee's successors to the use of water shall terminate when the permittee or the permittee's successors fail for three consecutive years to use it for the specific beneficial purpose authorized in the permit and, after notification by the department of intent to cancel the permit for nonuse, the permittee or the permittee's successors fail to demonstrate adequate plans to use water within a reasonable time. However, nonuse of water due to adequate rainfall does not constitute grounds for cancellation of a permit to use water for irrigation.

[C58, 62, 66, 71, 73, 75, 77, 79, 81, §455A.29; 82 Acts, ch 1199, §26, 96]

455B.273 Disposal of permit.
A permittee may sell, transfer, or assign a permit by conveying, leasing, or otherwise transferring the ownership of the land described in the permit, but the permit does not constitute ownership or absolute rights of use of the waters. The waters remain subject to the principle of beneficial use and the orders of the director or commission.

[C58, 62, 66, 71, 73, 75, 77, 79, 81, §455A.30; 82 Acts, ch 1199, §27, 96]

ening unless the project is authorized by a permit required under this part or the project is a dam authorized pursuant to chapter 469.

5. The department may remove or eliminate a structure, dam, obstruction, deposit, or excavation in a floodway which adversely affects the efficiency of or unduly restricts the capacity of the floodway, by an action in condemnation, and in assessing the damages in the proceeding, the appraisers and the court shall take into consideration whether the structure, dam, obstruction, deposit, or excavation is lawfully in or on the floodway in compliance with this part.

6. The department may require, as a condition of an approval order or permit granted pursuant to this part or chapter 469, the furnishing of a performance bond with good and sufficient surety, conditioned upon full compliance with the order or permit and the rules of the commission. In determining the need for and amount of bond, the department shall give consideration to the hazard posed by the construction and maintenance of the approved works and the protection of the health, safety, and welfare of the people of the state. This subsection does not apply to orders or permits granted to a governmental entity.

7. When approving a request to straighten a stream, the department may establish as a condition of approval a permanent prohibition against tillage of land owned by the person receiving the approval and lying within a minimum distance from the stream sufficient in the judgment of the director or commission to hold soil erosion to reasonable limits. The department shall record the prohibition in the office of the county recorder of the appropriate county and the prohibition shall attach to the land.

8. The commission shall establish, by rule, thresholds for dimensions and effects, and any structure, dam, obstruction, deposit, or excavation having smaller dimensions and effects than those established by the commission is not subject to regulation under this section. The thresholds shall be established so that only those structures, dams, obstructions, deposits, or excavations posing a significant threat to the well-being of the public and the environment are subject to regulation.

9. The commission or the department shall not initiate any administrative or judicial action to remove or eliminate any structure, dam, obstruction, deposit, or excavation in a floodway, or to remove or eliminate any stream straightening, or to place other restrictions on the use of land or water affected by the structure, dam, obstruction, deposit, excavation, or stream straightening if not initiated within five years after the department becomes aware of the erection or making of the structure, dam, obstruction, deposit, excavation, or stream straightening. After ten years from the completion of the erection or making of the structure, dam, obstruction, deposit, excavation, or stream straightening, the prohibition of this subsection applies to, but is not limited to, any administrative or judicial abatement or action in condemnation that the commission or department may initiate under this section unless action is required to protect the public safety, in which case this section is not intended to limit the department from taking actions otherwise authorized by law.

455B.276 Flood plains — encroachment limits.

The commission may establish and enforce rules for the orderly development and wise use of the flood plains of any river or stream within the state and alter, change, or revoke the rules. The commission shall determine the characteristics of floods which reasonably may be expected to occur and may establish by order encroachment limits, protection methods, and minimum protection levels appropriate to the flooding characteristics of the stream and to reasonable use of the flood plains. The order shall fix the length of flood plains to be regulated at any practical distance, the width of the zone between the encroachment limits so as to include portions of the flood plains adjoining the channel, which with the channel, are required to carry and discharge the flood waters or flood flow of the river or stream, and the design discharge and water surface elevations for which protection shall be provided for projects outside the encroachment limits but within the limits of inundation. Plans for the protection of projects proposed for areas subject to inundation shall be reviewed as plans for flood control works within the purview of section 455B.277. An order establishing encroachment limits shall not be issued until notice of the proposed order is given and opportunity for public hearing given for the presentation of protests against the order. In establishing the limits, the commission shall avoid to the greatest possible degree the evacuation of persons residing in the area of a floodway, the removal of residential structures occupied by the persons in the area of a floodway, and the removal of structures erected or made prior to July 4, 1965, which are located on the flood plains of a river or stream but not within the area of a floodway.

The commission shall cooperate with and assist local units of government in the establishment of encroachment limits, flood plain regulations, and zoning ordinances relating to flood plain areas within their jurisdiction. Encroachment limits, flood plain regulations, or flood plain zoning ordinances proposed by local units of government shall be submitted to the department for review and approval prior to adoption by the local units of government. Changes or variations from an approved regulation or ordinance as it relates to flood plain use are subject to approval by the commission prior to adoption. Individual applications, plans, and specifications and individual approval orders shall not be
required for works on the flood plains constructed in conformity with encroachment limits, flood plain regulations, or zoning ordinances adopted by the local units of government and approved by the commission.

455B.277 Flood control works coordinated.
All flood control works in the state, which are established and constructed after April 16, 1949, shall be coordinated in design, construction, and operation according to sound and accepted engineering practice so as to effect the best flood control obtainable throughout the state. A person shall not construct or install works of any nature for flood control until the proposed works and the plans and specifications for the works are approved by the department. The department shall consider all the pertinent facts relating to the proposed works which will affect flood control and water resources in the state and shall determine whether the proposed works in the plans and specifications will be in aid of and acceptable as part of, or will adversely affect and interfere with flood control in the state, adversely affect the control, development, protection, allocation, or utilization of the water resources of the state, or adversely affect or interfere with an approved local water resources plan. In the event of disapproval, the department shall set forth the objectionable features so that the proposed works and the plans and specifications for the proposed works may be corrected or adjusted to obtain approval.

This section applies to drainage districts, soil conservation districts, the natural resource commission, political subdivisions of the state, and private persons undertaking projects relating to flood control.

455B.278 Permit application procedures.
1. The commission shall adopt, modify, or repeal rules establishing procedures by which permits required under this part shall be issued, suspended, revoked, modified, or denied. The rules shall include provisions for application, public notice and opportunity for public hearing, and contested cases. Public notice of a decision by the director to issue a permit shall be given in a manner designed to inform persons who may be adversely affected by the permitted project or activity.

2. Action by the department upon an application for a permit required under this part may be appealed to the commission by the applicant or any affected person within thirty days of the department's action. A hearing before the commission or its designee is a contested case. The hearings and judicial review of decisions of the commission shall be carried out in accordance with chapter 17A. Notwithstanding chapter 17A, petitions for judicial review may be filed in the district court of Polk county or of any county in which the property affected is located. If the commission, the district court, or the supreme court determines that the action of the commission shall be stayed, the petitioner shall file an appropriate bond approved by the court.

455B.279 Violation.
1. The director may issue any order necessary to secure compliance with or prevent a violation of this part or the rules adopted pursuant to this part. Within thirty days of issuance, the order may be appealed to the commission by filing a notice of appeal with the director. The appeal shall be conducted as a contested case pursuant to chapter 17A and the commission may affirm, modify, or revoke the order. The department may request legal services as required from the attorney general, including any legal proceeding necessary to obtain compliance with this part and rules and orders issued under this part.

2. A person who violates a provision of this part or a rule or order adopted or promulgated or the conditions of a permit issued pursuant to this part is subject to a civil penalty not to exceed five hundred dollars for each day that a violation occurs.

455B.281 Compensation for well interference. If an investigation by the department, using information provided by the applicant or permittee and the complainant, discloses that a proposed or existing permitted use or combination of such uses is causing or will cause the delivery system to fail in a well which supplies water for a nonregulated use, the department may condition issuance or continuation of a permit upon payment by the permittee of compensation for all or a portion of the cost of a replacement water supply system or remedial measures necessitated by the interference. However, such condition may be imposed only after the parties demonstrate to the department that a good faith effort to negotiate a mutually agreeable compensation has been made and has failed.

Determination of the amount of compensation for the well interference shall be made a part of the determination of the department in accordance with section 455B.265 or 455B.271. The department may require the submission of itemized estimates of the cost of remedial repairs or a replacement water supply system. In determining appropriate compensation, the department shall consider the age and condition of the affected well or pumping system and its reasonableness as a method of obtaining ground-
water in light of the history of development of groundwater in the surrounding area. When compensation is required for all or part of the cost of construction of a replacement water supply system or reconstruction of an affected well, the construction or reconstruction must comply with applicable well construction standards. A permittee is not required to pay compensation before having an opportunity to do test pumping authorized by the department and supervised by the department or designee.

The determination of the department shall be subject to administrative and judicial review and shall be the exclusive remedy for such interference.

3. “Municipality” means the city, county, sanitary district, or other governmental body or corporation empowered to provide sewage collection and treatment services, or any combination of two or more of such governmental bodies or corporations acting jointly, in connection with a project.

4. “Project” means the acquisition, construction, reconstruction, extension, equipping, improvement, or rehabilitation of any works and facilities useful for the collection, treatment, and disposal of sewage and industrial waste in a sanitary manner including treatment works as defined in section 212 of the Clean Water Act, or the implementation and development of management programs established under sections 319 and 320 of the Clean Water Act.

6. “Sewage treatment works revolving loan fund” or “revolving loan fund” means the sewage treatment works revolving loan fund established in section 455B.295.

7. “Sewage treatment works administration fund” or “administration fund” means the sewage treatment works administration fund established in section 455B.295.

8. “Program” means the Iowa sewage treatment works financing program created pursuant to section 455B.294.

88 Acts, ch 1217, §10

455B.292 Findings.

The general assembly finds that the proper construction, rehabilitation, operation, and maintenance of modern and efficient sewer systems and wastewater treatment works are essential to protecting and improving the state’s water quality; that protecting water quality is an issue of concern to the citizens of the state; that in addition to protecting and improving the state’s water quality, adequate wastewater treatment works are essential to economic growth and development; that during the last several years the amount of federal grant money available to states and local governments for assistance in constructing and improving wastewater treatment works has sharply diminished and will likely continue to diminish; and that it is proper for the state to encourage local governments to undertake wastewater treatment projects through the establishment of a state mechanism to provide loans at the lowest reasonable rates.

88 Acts, ch 1217, §11

455B.293 Policy.

It is the policy of the general assembly that it is in the public interest to establish a sewage treatment works financing program and a revolving loan fund and administration fund to make loans available from the state to municipalities to acquire, construct, reconstruct, extend, equip, and improve works and facilities useful for the collection, treatment, and disposal of sewage and industrial waste in a sanitary manner.

88 Acts, ch 1217, §12

455B.294 Establishment of the Iowa sewage treatment works financing program.

The Iowa sewage treatment works financing program is established for the purpose of making loans available to municipalities to finance all or part of the costs of projects. The program shall be a joint and cooperative undertaking of the department and the authority. The department and the authority may enter into and provide any agreements, documents, instruments, certificates, data, or information necessary in connection with the operation, administration, and financing of the program consistent with this part, the rules of the department and the commission, the rules of the authority, and state law.

88 Acts, ch 1217, §13

455B.295 Funds and accounts.

1. Two separate funds are established in the state treasury, to be known as the “sewage treatment works revolving loan fund”, and the “sewage treatment works administration fund”.

2. The revolving loan fund shall include sums appropriated to the revolving loan fund by the general assembly, sums allocated to the state expressly for the purposes of establishing a revolving loan fund under the Clean Water Act, all receipts by the
revolving loan fund, and any other sums designated for deposit to the revolving loan fund from any public or private source. All moneys appropriated to and deposited in the revolving fund are appropriated and shall be used for the sole purpose of making loans to the municipalities to finance all or part of the cost of projects. The moneys appropriated to and deposited in the revolving loan fund shall not be used to pay the nonfederal share of the cost of projects receiving grants under the Clean Water Act. The moneys in the revolving loan fund are not considered as a part of the general fund of the state, are not subject to appropriation for any other purpose by the general assembly, and in determining a general fund balance shall not be included in the general fund of the state but shall remain in the revolving loan fund to be used for its purposes. The revolving loan fund is a dedicated fund under the administration and control of the authority and subject to section 220.31. Moneys on deposit in the revolving loan fund shall be invested by the treasurer of state in cooperation with the authority, and the income from the investments shall be credited to and deposited in the revolving loan fund.

3. The sewage treatment works administration fund shall include sums appropriated to the administration fund by the general assembly, sums allocated to the state for the express purposes of administering the program authorized by the Clean Water Act, and all receipts by the administration fund from any public or private source. All moneys appropriated to and deposited in the administration fund are appropriated for and shall be used and administered by the department to pay the costs and expenses associated with the program, including administration of the program, as may be determined by the department.

4. The department and the authority may establish and maintain other funds or accounts determined to be necessary to carry out the purposes of this part and shall provide for the funding, administration, investment, restrictions, and disposition of the funds and accounts.

88 Acts, ch 1217, §14

455B.296 Intended use plans — capitalization grants — accounting.
1. Each fiscal year beginning July 1, 1988, the department may prepare and deliver intended use plans and enter into capitalization grant agreements with the administrator of the United States environmental protection agency under the terms and conditions set forth in Title VI of the Clean Water Act and federal regulations adopted pursuant to the Act and may accept capitalization grants for the revolving loan fund in accordance with payment schedules established by the administrator. All payments from the administrator shall be deposited in the revolving loan fund.

2. The department and the authority shall establish fiscal controls and accounting procedures during appropriate accounting periods for payments and disbursements received and made by the revolving loan fund, the administration fund, and other funds established pursuant to section 455B.295, subsection 4, and to fund balances at the beginning and end of the accounting periods.

88 Acts, ch 1217, §15

455B.297 Loans to municipalities.
Moneys deposited in the revolving loan fund shall be used for the sole purpose of making loans to municipalities to finance the cost of projects in accordance with the intended use plans developed by the department under section 455B.296. The municipalities to which loans are to be made, the purposes of the loan, the amount of each loan, the interest rate of the loan, and the repayment terms of the loan, shall be determined by the director, in accordance with rules adopted by the commission, in compliance with and subject to the terms and conditions of Title VI of the Clean Water Act and any resolution, agreement, indenture, or other document of the authority, and rules adopted by the authority, relating to any bonds, notes, or other obligations issued for the program which may be applicable to the loan.

88 Acts, ch 1217, §16

The director shall:
1. Process and review loan applications to determine if an application meets the eligibility requirements set by the rules of the department.
2. Approve loan applications of municipalities which satisfy the rules adopted by the commission, and the intended use plan developed by the department under section 455B.296.
3. Process and review all documents relating to projects and the extending of loans.
4. Prepare and process, in coordination with the authority, documents relating to the extending of loans to municipalities, the sale and issuance of bonds, notes, or other obligations of the authority relating to the program, and the administration of the program.
5. Include in the budget prepared pursuant to section 455A.4, subsection 1, paragraph “c”, an annual budget for the administration of the program and the use and disposition of amounts on deposit in the administration fund.
6. Charge each municipality receiving a loan from the revolving loan fund a loan origination fee and an annual loan servicing fee. The amount of the loan origination fees and the loan servicing fees established shall be relative to the amount of a loan made from the revolving loan fund. The director shall deposit the receipts from the loan origination fees and the loan servicing fees in the administration fund.
7. Consult with and receive the approval of the authority concerning the terms and conditions of loan agreements with municipalities as to the financial integrity of the loan.
8. Perform other acts and assume other duties
and responsibilities necessary for the operation of the program.

455B.301A Declaration of policy.
1. The protection of the health, safety, and welfare of Iowans and the protection of the environment require the safe and sanitary disposal of solid wastes. An effective and efficient solid waste disposal program protects the environment and the public, and provides the most practical and beneficial use of the material and energy values of solid waste. While recognizing the continuing necessity for the existence of landfills, alternative methods of managing solid waste and a reduction in the reliance upon land disposal of solid waste are encouraged. In the promotion of these goals, the following waste management hierarchy in descending order of preference, is established as the solid waste management policy of the state:
   a. Volume reduction at the source.
   b. Recycling and reuse.
   c. Combustion with energy recovery and refuse-derived fuel.
   d. Combustion for volume reduction.
   e. Disposal in sanitary landfills.
2. In the implementation of the solid waste management policy, the state shall:
   a. Establish and maintain a cooperative state and local program of project planning, and technical and financial assistance to encourage comprehensive solid waste management.
   b. Utilize the capabilities of private enterprise as well as the services of public agencies to accomplish the desired objectives of an effective solid waste management program.
87 Acts, ch 225, §405

455B.302 Duty of cities and counties.
Every city and county of this state shall provide for the establishment and operation of a sanitary disposal project for final disposal of solid waste by its residents not later than July 1, 1975. Sanitary disposal projects may be established either separately or through co-operative efforts for the joint use of the participating public agencies as provided by law.
Cities and counties may execute with public and private agencies contracts, leases, or other necessary instruments, purchase land and do all things necessary not prohibited by law for the collection of solid waste, establishment and operation of sanitary disposal projects, and general administration of the same. Any agreement executed with a private agency for the operation of a sanitary disposal project shall provide for the posting of a sufficient surety bond by the private agency conditioned upon the faithful performance of the agreement. A city or county may at any time during regular working hours enter upon the premises of a sanitary disposal project, including the premises of a sanitary landfill, in order to inspect the premises and monitor the operations and general administration of the project to ensure compliance with the agreement and with state and federal laws. This includes the right of the city or county to enter upon the premises of a former sanitary disposal project which has been closed, including the premises of a former sanitary landfill, owned by a private agency, for the purpose of providing required postclosure care.

455B.303 Administrator’s duties.
The director shall administer the provisions of this part 1 of division IV subject to the rules established by the commission.
The director may issue, modify, or deny variances from the rules of the commission. The applicant may appeal the decision of the director to the commission.

86 Acts, ch 1245, §1899

455B.304 Rules established.
The commission shall establish rules for the proper administration of this part 1 of division IV which shall reflect and accommodate as far as is reasonably possible the current and generally accepted methods and techniques for treatment and disposition of solid waste which will serve the purposes of this part, and which shall take into consideration the factors, including others which it deems proper, such as existing physical conditions, topography, soils and geology, climate, transportation, and land use, and which shall include but are not limited to rules relating to the establishment and location of sanitary disposal projects, sanitary practices, inspection of sanitary disposal projects, collection of solid waste, disposal of solid waste, pollution controls, the issuance of permits, approved methods of private disposition of solid waste, the general operation and maintenance of sanitary disposal projects, and the implementation of this part.
The commission shall adopt rules that allow the use of wet or dry sludge from publicly owned treatment works for land application. A sale of wet or dry sludge for the purpose of land application shall be
accompanied by a written agreement signed by both parties which contains a general analysis of the contents of the sludge. The heavy metal content of the sludge shall not exceed that allowed by rules of the commission. An owner of a publicly owned treatment works which sells wet or dry sludge is not subject to criminal liability for acts or omissions in connection with a sale, and is not subject to any action by the purchaser to recover damages for harm to person or property caused by sludge that is delivered pursuant to a sale unless it is a result of a violation of the written agreement or if the heavy metal content of the sludge exceeds that allowed by rules of the commission. Nothing in this section shall provide immunity to any person from action by the department pursuant to section 455B.307. The rules promulgated under this paragraph shall be generally consistent with those rules of the department existing on January 1, 1982 regarding the land application of municipal sewage sludge except that they may provide for different methods of application for wet sludge and dry sludge.

The commission shall adopt rules prohibiting the disposal of uncontained liquid waste in a sanitary landfill. The rules shall prohibit land burial or disposal by land application of wet sewer sludge at a sanitary landfill.

The commission shall adopt rules requiring that each sanitary disposal project established pursuant to section 455B.302 and permitted pursuant to section 455B.306 install and maintain a sufficient number of groundwater monitoring wells to adequately determine the quality of the groundwater and the impact the sanitary disposal project, if any, is having on the groundwater adjacent to the sanitary disposal project site.

The commission shall adopt rules requiring a schedule of monitoring of the quality of groundwater adjacent to the sanitary disposal project from the groundwater monitoring wells installed in accordance with this section during the period the sanitary disposal project is in use. Schedules of monitoring may be varied in consideration of the types of sanitary disposal practices, hydrologic and geologic conditions, construction and operation characteristics, and volumes and types of wastes handled at the sanitary disposal project site.

The commission shall, by rule, require continued monitoring of groundwater pursuant to this section for a period of thirty years after the sanitary disposal project is closed. The commission may prescribe a lesser period of monitoring duration and frequency in consideration of the potential or lack thereof for groundwater contamination from the sanitary disposal project. The commission may extend the thirty-year monitoring period on a site-specific basis by adopting rules specifically addressing additional monitoring requirements for each sanitary disposal project for which the monitoring period is to be extended.

The commission shall adopt rules which may require the installation of shafts to relieve the accumulation of gas in a sanitary disposal project.

The commission shall adopt rules which establish closure, postclosure, leachate control and treatment, and financial assurance standards and requirements and which establish minimum levels of financial responsibility for sanitary disposal projects.

The commission shall adopt rules which establish the minimum distance between tiling lines and a sanitary landfill in order to assure no adverse effect on the groundwater.

The commission shall adopt rules for the distribution of grants to cities, counties, central planning agencies, and public or private agencies working in cooperation with cities or counties, for the purpose of solid waste management. The rules shall base the awarding of grants on a project's reflection of the solid waste management policy and hierarchy established in section 455B.301A, the proposed amount of local matching funds, and community need.

By July 1, 1990, a sanitary landfill disposal project operating with a permit shall have a trained, tested, and certified operator. A certification program shall be devised or approved by rule of the department.

455B.305 Issuance or renewal of permits by director.
1. The director shall issue, revoke, suspend, modify, or deny permits for the construction and operation of sanitary disposal projects.

A permit shall be issued by the director or at the director's direction, by a local board of health, for each sanitary disposal project operated in this state. The permit shall be issued in the name of the city or county or, where applicable, in the name of the public or private agency operating the project. Each sanitary disposal project shall be inspected annually by the department or a local board of health. The permits issued pursuant to this section are in addition to any other licenses, permits or variances authorized or required by law, including, but not limited to, chapter 358A. A permit may be suspended or revoked by the director if a sanitary disposal project is found not to meet the requirements of part 1 or rules issued under part 1. The suspension or revocation of a permit may be appealed to the department.

2. Beginning July 1, 1988, the director shall not issue a permit for the construction or operation of a new sanitary landfill unless the permit applicant has filed a plan as required by section 455B.306.

3. Beginning July 1, 1988, the director shall not renew or reissue a permit which had been initially issued prior to that date for a sanitary landfill, unless the permit applicant has filed a plan as required by section 455B.306.

4. Beginning July 1, 1994, the director shall not renew or reissue a permit which had been initially issued or renewed prior to that date for a sanitary landfill, unless and until the permit applicant documents that steps are being taken to begin imple-
menting the plan filed pursuant to section 455B 306. However, a permit may be issued for the construction and operation of a new sanitary landfill in accordance with subsection 2.

5 Beginning July 1, 1997, the director shall not renew or reissue a permit which had been renewed or reissued prior to that date for a sanitary landfill, unless and until the permit applicant documents that alternative methods of solid waste disposal other than use of a sanitary landfill have been implemented as set forth in the plan filed pursuant to section 455B 306. However, the director may issue a permit for the construction and operation of a new sanitary landfill in accordance with subsection 2 and a permit may be renewed or reissued for a sanitary landfill which had received an initial permit but the permit had not been previously renewed or reissued prior to July 1, 1997 in accordance with subsection 3.

After July 1, 1997, however, no new landfill permits shall be issued unless the applicant certifies that the landfill is needed as a part of an alternative disposal method, or unless the applicant provides documentation which satisfies the director that alternatives have been studied and are not either technically or economically feasible. The decision of the director is subject to review by the commission at its next meeting.

6 Beginning July 1, 1992, the director shall not issue, renew, or reissue a permit for a sanitary landfill unless the sanitary landfill is equipped with a leachate control system. The director may exempt a permit applicant from this requirement if the director determines that certain conditions regarding, but not limited to, existing physical conditions, topography, soil, geology, and climate, are such that a leachate control system is unnecessary.

[C71, §406 6, C73, 75, 77, 79, 81, §455B 79]

455B.306 Plans filed.

1 A city, county, and a private agency operating or planning to operate a sanitary disposal project shall file with the director a comprehensive plan detailing the method by which the city, county, or private agency will comply with this part. The director shall review each comprehensive plan submitted and may reject, suggest modification, or approve the proposed plan. The director shall aid in the development of comprehensive plans for compliance with this part. The director shall make available to a city, county, and private agency appropriate forms for the submission of comprehensive plans and may hold hearings for the purpose of implementing this part. The director and governmental agencies with primary responsibility for the development and conservation of energy resources shall provide research and assistance, when cities and counties operating or planning to operate sanitary disposal projects request aid in planning and implementing resource recovery systems. A comprehensive plan filed by a private agency operating or planning to operate a sanitary disposal project required pursuant to section 455B 302 shall be developed in cooperation and consultation with the city or county responsible to provide for the establishment and operation of a sanitary disposal project.

2 The plan required by subsection 1 shall be filed with the department at the time of initial application for the construction and operation of a sanitary disposal project and shall be updated and refilled with the department at the time of each subsequent application for renewal or reissuance of a previously issued permit.

3 A comprehensive plan filed pursuant to this section in conjunction with an application for issuance, renewal, or reissuance of a permit for a sanitary disposal project shall incorporate and reflect the waste management hierarchy of the state solid waste management policy and shall at a minimum address the following general topics to the extent appropriate to the technology employed by the applicant at the sanitary disposal project:

   a. The extent to which solid waste is or can be recycled;
   b. The economic and technical feasibility of using other existing sanitary disposal project facilities in lieu of initiating or continuing the sanitary landfill for which the permit is being sought;
   c. The expected environmental impact of alternative solid waste disposal methods, including the use of sanitary landfills;
   d. A specific plan and schedule for implementing technically and economically feasible solid waste disposal methods that will result in minimal environmental impact.

4 In addition to the above requirements, the following specific areas must be addressed in detail in the comprehensive plan:

   a. A closure and postclosure plan detailing the schedule for and the methods by which the operator will meet the conditions for proper closure and postclosure adopted by rule by the commission.
   b. A plan for the control and treatment of leachate, including financial considerations proposed in meeting the costs of control and treatment in order to meet the requirements of section 455B 305, sub section 6;
   c. A financial plan detailing the actual cost of the sanitary disposal project and including the funding sources of the project. In addition to the submittal of the financial plan filed pursuant to this subsection, the operator of an existing sanitary landfill shall submit an annual financial statement to the department;
   d. An emergency response and remedial action.
plan including established provisions to minimize the possibility of fire, explosion, or any release to air, land, or water of pollutants that could threaten human health and the environment, and the identification of possible occurrences that may endanger human health and environment.

5. In addition to the comprehensive plan filed pursuant to subsection 1, a person operating or proposing to operate a sanitary disposal project shall provide a financial assurance instrument to the department prior to the initial approval of a permit or prior to the renewal of a permit for an existing or expanding facility beginning July 1, 1988.

a. The financial assurance instrument shall meet all requirements adopted by rule by the commission, and shall not be canceled, revoked, disbursed, released, or allowed to terminate without the approval of the department. Following the cessation of operation or closure of a sanitary disposal project, neither the guarantor nor the operator shall cancel, revoke, or disburse the financial assurance instrument or allow the instrument to terminate until the operator is released from closure, postclosure, and monitoring responsibilities.

b. The operator shall maintain closure, and postclosure accounts. The commission shall adopt by rule the amounts to be contributed to the accounts based upon the amount of solid waste received by the facility. The accounts established shall be specific to the facility.

(1) Money in the accounts shall not be assigned for the benefit of creditors with the exception of the state.

(2) Money in an account shall not be used to pay any final judgment against a licensee arising out of the ownership or operation of the site during its active life or after closure.

(3) Conditions under which the department may gain access to the accounts and circumstances under which the accounts may be released to the operator after closure and postclosure responsibilities have been met, shall be established by the commission.

c. The commission shall adopt by rule the minimum amounts of financial responsibility for sanitary disposal projects.

d. Financial assurance instruments may include instruments such as cash or surety bond, a letter of credit, a secured trust fund, or a corporate guaranty.

e. The annual financial statement submitted to the department pursuant to subsection 4, paragraph "c", shall include the current amounts established in each of the accounts and the projected amounts to be deposited in the accounts in the following year.

5. In addition to the comprehensive plan filed including established provisions to minimize the possibility of fire, explosion, or any release to air, land, or water of pollutants that could threaten human health and the environment, and the identification of possible occurrences that may endanger human health and environment.

6. In addition to the comprehensive plan filed pursuant to subsection 1, a person operating or proposing to operate a sanitary disposal project shall provide a financial assurance instrument to the department prior to the initial approval of a permit or prior to the renewal of a permit for an existing or expanding facility beginning July 1, 1988.

a. The financial assurance instrument shall meet all requirements adopted by rule by the commission, and shall not be canceled, revoked, disbursed, released, or allowed to terminate without the approval of the department. Following the cessation of operation or closure of a sanitary disposal project, neither the guarantor nor the operator shall cancel, revoke, or disburse the financial assurance instrument or allow the instrument to terminate until the operator is released from closure, postclosure, and monitoring responsibilities.

b. The operator shall maintain closure, and postclosure accounts. The commission shall adopt by rule the amounts to be contributed to the accounts based upon the amount of solid waste received by the facility. The accounts established shall be specific to the facility.

(1) Money in the accounts shall not be assigned for the benefit of creditors with the exception of the state.

(2) Money in an account shall not be used to pay any final judgment against a licensee arising out of the ownership or operation of the site during its active life or after closure.

(3) Conditions under which the department may gain access to the accounts and circumstances under which the accounts may be released to the operator after closure and postclosure responsibilities have been met, shall be established by the commission.

c. The commission shall adopt by rule the minimum amounts of financial responsibility for sanitary disposal projects.

d. Financial assurance instruments may include instruments such as cash or surety bond, a letter of credit, a secured trust fund, or a corporate guaranty.

§455B.306, JURISDICTION OF DEPARTMENT OF NATURAL RESOURCES

§455B.307 Dumping — where prohibited.

1. A private agency or public agency shall not dump or deposit or permit the dumping or depositing of any solid waste at any place other than a sanitary disposal project approved by the director unless the agency has been granted a permit by the department which allows the dumping or depositing of solid waste on land owned or leased by the agency. The department shall adopt rules regarding the permitting of this activity which shall provide that the public interest is best served, but which may be based upon criteria less stringent than those regulating a public sanitary disposal project provided that the rules adopted meet the groundwater protection goal specified in section 455E.4. The comprehensive plans for these facilities may be varied in consideration of the types of sanitary disposal practices, hydrologic and geologic conditions, construction and operations characteristics, and volumes and types of waste handled at the disposal site. The director may issue temporary permits for dumping or disposal of solid waste at disposal sites for which an application for a permit to operate a sanitary disposal project has been made and which have not met all of the requirements of part 1 of this division and the rules adopted by the commission if a compliance schedule has been submitted by the applicant specifying how and when the applicant will meet the requirements for an operational sanitary disposal project and the director determines the public interest will be best served by granting such temporary permit.

2. The director may issue any order necessary to secure compliance with or prevent a violation of the provisions of this part 1 of division IV or the rules adopted pursuant to the part. The attorney general shall, on request of the department, institute any legal proceedings necessary in obtaining compliance with an order of the commission or the director or prosecuting any person for a violation of the provisions of the part or rules issued pursuant to the part.

3. Any person who violates any provision of part 1 of this division or any rule or any order adopted or the conditions of any permit or order issued pursuant to part 1 of this division shall be subject to a civil penalty. The amount of the civil penalty shall be based upon the toxicity and severity of the solid waste as determined by rule, but not to exceed five hundred dollars for each day of such violation.

§455B.308 Appeal from order.

Any person aggrieved by an order of the director may appeal the order by filing a written notice of appeal with the director within thirty days of the issuance of the order. The director shall schedule a hearing for the purpose of hearing the arguments of the aggrieved person within thirty days of the filing of the notice of appeal. The hearing may be held before the commission or its designee. A complete record shall be made of the proceedings. The director shall issue the findings in writing to the aggrieved person within thirty days of the conclusion of the hearing. Judicial review may be sought of actions of the commission in accordance with the terms of the Iowa administrative procedure Act. Notwithstanding—
ing the terms of the Act, petitions for judicial review may be filed in the district court of the county where the acts in issue occurred.

455B.310 Tonnage fee imposed.

1. Except as provided in subsection 3, the operator of a sanitary landfill shall pay to the department a tonnage fee for each ton or equivalent volume of solid waste received and disposed of at the sanitary landfill during the preceding reporting period. The department shall determine by rule the volume which is equivalent to a ton of waste.

2. The tonnage fee is twenty-five cents per ton of solid waste. However, for the year beginning July 1, 1988, the tonnage fee is one dollar and fifty cents per ton of solid waste and shall increase annually in the amount of fifty cents per ton through July 1, 1992. A county in which a privately operated landfill accepts solid waste from outside of the county may charge an additional tonnage fee for the disposal of solid waste at the sanitary landfill which is not more than one hundred percent of the fee otherwise established in this section. The additional fee charged and the moneys collected shall be used exclusively for the development and implementation of alternatives to sanitary landfills or for the costs incurred by the county to abate problems associated with the operation of the sanitary landfill.

3. Solid waste disposal facilities with special provisions which limit the site to the disposal of construction and demolition waste, landscape waste, and coal combustion waste, or foundry sand, or solid waste materials approved by the department for lining or capping or for construction berms, dikes or roads in a sanitary disposal project or sanitary landfill are exempt from the tonnage fees imposed under this section. However, solid waste disposal facilities under this subsection are subject to the fees imposed pursuant to section 455B.105, subsection 12, paragraph “a”. Notwithstanding the provisions of section 455B.105, subsection 12, paragraph “b”, the fees collected pursuant to this subsection shall be used by the department for the regulation of these solid waste disposal facilities.

4. All tonnage fees received by the department under this section shall be deposited in the solid waste account of the groundwater protection fund created under section 455E.11.

5. Fees imposed by this section prior to July 1, 1988, are due on April 15, 1988, for the previous calendar year and are due on July 30, 1988, for the period January 1, 1988, through June 30, 1988. The fees shall be paid to the department and shall be accompanied by a return in the form prescribed by the department. Fees imposed by this section beginning July 1, 1988, shall be paid to the department on a quarterly basis. The initial payment of fees collected beginning July 1, 1988, shall be paid to the department by January 1, 1989, and on a quarterly basis thereafter. The payment shall be accompanied by a return in the form prescribed by the department.

6. A person required to pay fees by this section who fails or refuses to pay the fees imposed by this section shall be assessed a penalty of fifteen percent of the fee due. The penalty shall be paid in addition to the fee due.

7. The department shall grant exemptions from the fee requirements of subsection 2 for receipt of solid waste meeting all of the following criteria:

a. Receipt of the solid waste is pursuant to a written contract between the owner or operator of the sanitary landfill and another person.

b. The contract was lawfully executed prior to January 1, 1987.

c. The contract expressly prohibits an increase in the compensation or fee payable to the owner or operator of the landfill and does not allow voluntary cancellation or renegotiation of the compensation or fee during the term of the contract.

d. The contract has not been amended at any time after January 1, 1987.

e. The owner or operator of the sanitary landfill applying for exemption demonstrates to the satisfaction of the department that good faith efforts were made to renegotiate the contract notwithstanding its terms, and has been unable to agree on an amendment allowing the fee provided in subsection 2 to be added to the compensation or fee provisions of the contract.

f. Applications for exemption must be submitted on forms provided by the department with proof of satisfaction of all criteria.

g. Notwithstanding the time specified within the contract, an exemption from payment of the fee increase requirements for a multiyear contract shall terminate by January 1, 1989.

8. In the case of a sanitary disposal project other than a sanitary landfill, no tonnage fee shall apply for five years beginning July 1, 1987 or for five years from the commencement of operation, whichever is later. By July 1, 1992, the department shall provide the general assembly with a recommendation regarding appropriate fees for alternative sanitary disposal projects.

455B.311 Grants.

The director, with the approval of the commission, may make grants to cities, counties, or central planning agencies representing cities and counties or combinations of cities, counties, or central planning agencies from funds reserved under and for the purposes specified in section 455E.11, subsection 2, paragraph “a”, subject to all of the following conditions:

1. Application for grants shall be in a form and contain information as prescribed by rule of the department.

2. Grants shall only be awarded to a city or a county; however, a grant may be made to a central
§455B.311, JURISDICTION OF DEPARTMENT OF NATURAL RESOURCES

planning agency representing more than one city or county or combination of cities or counties for the purpose of planning and implementing regional solid waste management facilities or may be made to private or public agencies working in cooperation with a city or county. The department shall award grants, in accordance with the rules adopted by the commission, based upon a proposal's reflection of the solid waste management policy and hierarchy established in section 455B.301A. Grants shall be awarded only for an amount determined by the department to be reasonable and necessary to conduct the work as set forth in the grant application. Grants may be awarded at a maximum cost-share level of ninety percent with a preference given for regional or shared projects and a preference given to projects involving environmentally fragile areas which are particularly subject to groundwater contamination. Grants shall be awarded in a manner which will distribute the grants geographically throughout the state.

3. Grants shall be awarded only for an amount determined by the department to be reasonable and necessary to conduct the work as set forth in the grant application. Grants for less than a county-wide planning area shall be limited to twenty-five percent state funds, for a single-county planning area the state funds shall be limited to fifty percent, and for a two-county planning area the state funds shall be limited to seventy-five percent. For each additional county above a two-county planning area, the maximum allowable state funds shall be increased by an additional five percent, up to a maximum of ninety percent state funds.

4. A city, county, or central planning agency on behalf of a city or county may not receive more than one grant under this section in any three-year period.

5. The director, with the approval of the commission, may deny a grant application if in the judgment of the director the applicant could not reasonably be expected to implement a planned sanitary disposal project.

455B.312 Waste abatement program.

1. If the department receives a complaint that certain products or packaging when disposed of are incompatible with an alternative method of managing solid waste and with the solid waste management policy, the director shall investigate the complaint. If the director determines that the complaint is well-founded, the department shall inform the manufacturer of the product or packaging and attempt to resolve the matter by informal negotiations.

2. If informal procedures fail to result in resolution of the matter, the director shall hold a hearing between the affected parties. Following the hearing, if it is determined that removal of the product or packaging is critical to the utilization of the alter-native method of disposing of solid waste, the director shall issue an order setting out the requirements for an abatement plan to be prepared by the manufacturer within the time frame established in the order.

If an acceptable plan is not prepared, the plan is not implemented, or the problem otherwise continues unabated, the attorney general shall take actions authorized by law to secure compliance.

1. Hazardous conditions existing solely within and which will probably continue to exist solely within commercial and industrial plants, works, or shops under the jurisdiction of chapters 88 and 91.
2. Relations between employers and employees with respect to hazardous conditions except that where such hazardous conditions extend to or affect areas within the scope of the authority granted by this part 4 of division IV, the department may take any action consistent with this part 4 to abate such hazardous condition.
3. The storage, transportation, handling, or use of flammable liquids, combustibles and explosives control over which is exercised by the state fire marshal under chapter 100.
4. The storage, transportation, handling or use of pesticides over which control is exercised by the state secretary of agriculture under chapter 206, except when spillage of pesticides creates a hazardous condition.
5. The storage, transportation, handling or use of fertilizers over which control is exercised by the state secretary of agriculture under chapter 200, except when spillage of fertilizers creates a hazardous condition.

455B.391 Duties of attorney general.
1. The attorney general shall, at the request of the department, institute any legal proceedings, including an action for an injunction or temporary injunction, necessary to obtain compliance with the provisions of this part 4 of division IV. 455B.392 Liability for cleanup costs.
1. A person having control over a hazardous substance is strictly liable to the state for all of the following:
   a. The reasonable cleanup costs incurred by the state as a result of the failure of the person to clean up a hazardous substance involved in a hazardous condition caused by that person.
   b. The reasonable costs incurred by the state to evacuate people from the area threatened by a hazardous condition caused by that person.
   c. The reasonable damages to the state for the injury to, destruction of, or loss of natural resources resulting from a hazardous condition caused by that person.
   d. The excessive and extraordinary cost, excluding salaries, incurred by the department in responding at and to the scene of a hazardous condition caused by that person.

If the failure is willful, the person is liable for punitive damages not to exceed triple the cleanup costs incurred by the state. Prompt and good faith notification to the director by the person having control over a hazardous substance that the person does not have the resources or managerial capability to begin or continue cleanup, or a good faith effort to clean up, relieves the person of liability for punitive damages not to exceed triple the cleanup costs incurred by the state.

      b. An act of war.
      c. An act or omission of a third party if the person establishes both of the following:
         (1) That taking into consideration the characteristics of the hazardous substance, the person otherwise liable exercised due care with respect to the hazardous substance.
         (2) That the person otherwise liable took precautions against the foreseeable acts or omissions of the third party and the foreseeable consequences.
   As used in this paragraph, “third party” does not include an employee or agent of the person otherwise liable or a third party whose act or omission occurs directly or indirectly in connection with a contractual relationship with the person otherwise liable.

4. There is no liability under this section for a person otherwise liable if all of the following conditions exist:
   a. The liability arises during the transportation of a hazardous substance.
   b. The fact that the hazardous substance is a hazardous substance has been misrepresented to the person transporting the hazardous substance.
   c. The person transporting the hazardous substance does not know or have reason to know that the misrepresentation has been made.

5. Money collected pursuant to this section shall be deposited in the hazardous waste remedial fund created in section 455B.423 and used in the manner permitted for the fund.

455B.394 Right of entry.

A person shall not refuse entry or access to, or harass or obstruct an authorized representative of the department who seeks entry or access for the purpose of investigating or responding to a hazardous condition. The representative shall present appropriate credentials. Upon a showing of probable cause in writing and made under oath, a judge or magistrate having proper jurisdiction shall issue a suitably restricted search warrant to the representative of the department for the purposes of enabling the representative to investigate or respond to a hazardous condition.

455B.396 Claim of state.

Liability to the state under this part or part 5 of this division is a debt to the state. The debt, together with interest on the debt at the maximum lawful rate of interest permitted pursuant to section 535.2, subsection 3, paragraph “a” from the date costs and expenses are incurred by the department is a lien on real property, except single and multi-family residential property, on which the department incurs costs and expenses creating a liability and owned by the persons liable under this part or part 5. To perfect the lien a statement of claim describing the property subject to the lien, signed by the director and approved by the commission must be filed within one hundred twenty days after the incurrence
of costs and expenses by the department. The statement shall be filed with, accepted by, and recorded by the county recorder in the county in which the property subject to the lien is located. The statement of claim may be amended to include subsequent liabilities. To be effective the statement of claim shall be amended and filed within one hundred twenty days after the occurrence of the event resulting in the amendment.

The lien may be dissolved by filing with the appropriate recording officials a certificate, signed by the director, that the debt for which the lien is attached, together with interest and costs on the debt, has been paid or legally abated.

455B.397 Financial disclosure.

Immediately upon the incurrence of any liability to the state under this part, the debtor shall submit to the director a report consisting of documentation of the debtor's liabilities and assets, including if filed, a copy of the annual report submitted to the secretary of state pursuant to chapter 496. PART 5

HAZARDOUS WASTE AND SUBSTANCE MANAGEMENT

“Abandoned or uncontrolled disposal site”, see §455E.11(2c) and 455F.8

455B.411 Definitions.

As used in this part 5, unless the context otherwise requires:

1. “Abandoned or uncontrolled disposal site” means real property which has been used for the disposal of hazardous waste or hazardous substances either illegally or prior to regulation under this chapter.

2. “Disposal” means the discharge, deposit, injection, dumping, spilling, leaking, or placing of a hazardous waste or hazardous substance into or on land or water so that the hazardous waste or hazardous substance or a constituent of the hazardous waste or hazardous substance may enter the environment or be emitted into the air or discharged into any waters, including ground waters.

4. a. “Hazardous waste” means a waste or combination of wastes that, because of its quantity, concentration, biological degradation, leaching from precipitation, or physical, chemical, or infectious characteristics, has either of the following effects:

(1) Causes, or significantly contributes to an increase in mortality or an increase in serious irreversible, or incapacitating reversible, illness.

(2) Poses a substantial present or potential hazard to human health or the environment when improperly treated, stored, transported, or disposed of, or otherwise managed. “Hazardous waste” may include but is not limited to wastes that are toxic, corrosive or flammable or irritants, strong sensitizers or explosives.

b. “Hazardous waste” does not include:

(1) Agricultural wastes, including manures and crop residues that are returned to the soil as fertilizers or soil conditioners.

(2) Source, special nuclear, or by-product material as defined in the Atomic Energy Act of 1954, as amended to January 1, 1979.

5. “Lubricating oil” means the fraction of crude oil or re-refined oil which is sold for purposes of reducing friction in an industrial or mechanical device.

6. “Manifest” means the form used for identifying the quantity, composition, and the origin, routing, and destination of hazardous waste during its transportation from the point of generation to the point of disposal, treatment or storage.

7. “Recycled oil” means used oil which is reused, following its original use, for any purpose, including the purpose for which the oil was originally used. Recycled oil includes oil which is refined, reclaimed, burned, or reprocessed.

8. “Re-refined oil” means used oil from which the physical and chemical contaminants acquired through previous use have been removed through a refining process.

9. “Storage” means the containment of a hazardous waste, either on a temporary basis or for a period of years, in a manner that does not constitute disposal of the hazardous waste.

10. “Treatment” means a method, technique, or process, including neutralization, designed to change the physical, chemical or biological character
or composition of a hazardous waste so as to neutralize the waste or to render the waste nonhazardous, safer for transport, amenable for recovery, amenable for storage, or to reduce the waste in volume. Treatment includes any activity or processing designed to change the physical form or chemical composition of hazardous waste to render the waste nonhazardous.

11. "Used oil" means oil which has been refined from crude oil, has then been used, and as a result of the use, is contaminated by physical or chemical impurities.

455B.412 Duties of the department.
The department shall:

1. Develop comprehensive plans and programs for the state for the management of hazardous waste. In the development of plans and programs, the department shall recognize the need for assuring that suitable facilities and sites for treatment and disposal are available for hazardous wastes generated in Iowa. As part of the hazardous waste management plan, the department shall conduct a study of hazardous waste management in Iowa and shall report its findings to the general assembly not later than eighteen months after July 1, 1979. The study shall include the following:

   a. A description of current sources of hazardous waste within the state, including the types and quantities of hazardous wastes.

   b. A description of current hazardous waste transportation, storage, treatment and disposal practices and costs within the state.

   c. A description of practices and methods that would reduce at the source the amount of hazardous waste generated and an estimate of the cost of these practices.

   d. Identification and evaluation of alternatives to land disposal of hazardous wastes.

   e. Identification of the general geologic and other criteria for a site for land disposal of hazardous wastes and the areas in Iowa that might meet the general criteria if alternatives to land disposal are not feasible.

   f. The proper role and activities of the state in addition to those established in sections 455B.411 to 455B.421 and the federal Solid Waste Disposal Act in facilitating safe and efficient disposal of hazardous waste, including but not limited to a determination of the most appropriate procedures for receiving public comments and approving permits for siting hazardous waste disposal facilities.

   g. The estimated private and public capital and annual operating costs of implementing the hazardous waste management plan recommended by the department.

2. Adopt rules establishing criteria for identifying the characteristics of hazardous wastes and listing hazardous wastes that are subject to this part. The department shall consider toxicity, persistence and degradability in nature, potential for accumulation in tissue, and related factors including flammability, corrosiveness, and other hazardous characteristics.

3. Adopt rules, applicable to generators or transporters of or owners or operators of facilities for the treatment, storage, or disposal of hazardous waste listed or identified by the department under subsection 2 of this section, as necessary to protect human health and the environment. The rules shall include establishment of a manifest system.

4. Adopt rules establishing standards and procedures for the certification of supervisory personnel and operators at hazardous waste treatment, storage or disposal facilities required to have a permit under section 455B.415.

5. Notwithstanding section 455B.420, adopt rules regulating the use of recycled oil for the purpose of road oiling, dust control, or weed control. This analysis shall be for polychlorinated biphenyl, flashpoints, and lead.

   a. Analysis of oils by those persons supplying the oils prior to their use for road oiling, dust control or weed control. This analysis shall be for polychlorinated biphenyl, flashpoints, and lead.

   b. Notification by the person supplying the oils of the results of analysis required to the person to whom the oils are supplied or delivered and the department at the time of delivery or prior to application of oils for road oiling, dust control or weed control.

   c. Establishing maximum levels of contaminants allowed in oils used for the purpose of road oiling, dust control or weed control and prohibiting the use of oils containing contaminants in excess of maximum allowable levels for such purposes.

   d. Requirements for persons supplying or applying oils for the mitigation and cleanup of contamination posing a threat to public health and the environment resulting from oils applied for road oiling, dust control or weed control.

455B.413 Director’s duties.
The director shall:

1. Issue, revoke, suspend, modify or deny permits for persons owning or operating a facility for the treatment, storage or disposal of a hazardous waste identified by the commission under section 455B.412, subsection 2. Permits shall be issued for a period as the commission may by rule prescribe.

2. Administer examinations to determine the competence of operators and supervisory personnel at facilities for the treatment, storage or disposal of hazardous waste that are required to have a permit under section 455B.415. The director shall issue, revoke, suspend, or deny certificates of competency for persons as supervisory or operating personnel at facilities for the treatment, storage or disposal of hazardous waste.
3. Inspect and investigate hazardous waste generators and transporters and treatment, storage and disposal facilities as may be necessary to determine compliance with sections 455B.411 to 455B.421 and rules adopted and permits and orders issued pursuant to sections 455B.411 to 455B.421. The director shall periodically survey or inspect the construction, operation and monitoring, reporting and record-keeping systems of hazardous waste generators and transporters and treatment, storage and disposal facilities.

§455B.414 Hazardous waste notification.

1. A person who on the effective date of a rule adopted under section 455B.412, subsection 2 identifying a hazardous waste as subject to sections 455B.411 to 455B.421 is generating or transporting the identified hazardous waste or owns or is operating a treatment, storage or disposal facility handling the identified hazardous waste shall file with the director a notification stating the waste handled by the person and the location and a general description of the activity involving the waste. The notice shall be given within ninety days after the effective date of the rule identifying the waste.

2. Except as provided in subsection 1, a person shall not commence to transport or generate a hazardous waste identified by rule under section 455B.412, subsection 2 without first notifying the director of the proposed activity. The notice shall state the waste to be handled, and the location and a general description of the activity involving the identified waste.

3. When the commission amends a rule adopted under section 455B.412, subsection 2, identifying additional characteristics of hazardous waste or identifying an additional substance as hazardous waste, the commission may require a person to file the notification required by subsection 1 or 2.

§455B.415 Permit required.

1. Except as provided in subsections 2 and 4, a person shall not construct or operate a facility for the treatment, storage or disposal of a hazardous waste identified under section 455B.412, subsection 2 unless the owner or operator has obtained a permit for the facility from the director.

2. The owner or operator of a facility for the treatment, storage or disposal of a hazardous waste identified under section 455B.412, subsection 2 existing on the effective date of the rule listing the waste shall obtain a permit for the facility within six months of the effective date of the rule. A person owning or operating a facility for the treatment, storage or disposal of a hazardous waste that existed on the effective date of the rule identifying the waste and that is required to have a permit under sections 455B.411 to 455B.421 is considered to have a permit until a final administrative determination is made if the person meets the following conditions:

a. The person has given notice as required by section 455B.414.

b. The person has applied for a permit.

c. The director has determined that the failure to issue the permit is not the result of the failure of the applicant to furnish information reasonably required or requested to process the application.

3. The commission may by rule specify the information required to be submitted with the application for a permit and the conditions under which the director shall issue, deny, revoke, suspend or modify permits. However, a permit shall not be issued for a treatment, storage or disposal facility unless the applicant presents evidence of financial responsibility and continuity of operation consistent with the degree and duration of risks associated with the treatment, storage or disposal of the hazardous waste as determined by the commission.

4. A permit is not required for the storage of a hazardous waste identified under section 455B.412, subsection 2 when the only purpose of the storage is to accumulate for a period of up to ninety days sufficient quantities of the waste for transportation, treatment or disposal unless a permit for the storage is required under federal law.

5. A permit issued pursuant to this section shall be in addition to other licenses, permits or variances authorized or required by law, including, but not limited to, the requirements of chapter 358A.

6. If the director denies a permit, the director shall inform the applicant in writing of the reason for the denial. The applicant may appeal to the commission from the denial of a permit or from a condition of a permit if the applicant files a notice of appeal with the director within thirty days of receipt of the denial or issuance of the permit.

§455B.416 Inspections.

1. For purposes of developing a rule, conducting a study of hazardous waste management, compiling a site inventory, or enforcing sections 455B.411 to 455B.421, a person who generates, stores, treats, transports, disposes of or otherwise handles or has handled hazardous waste shall, upon request of the director, furnish information relating to the hazardous waste and permit the director at reasonable times to have access to and copy records relating to the waste. For the purpose of developing a rule or enforcing sections 455B.411 to 455B.421, the director may:

a. Enter at reasonable times an establishment or other place where hazardous waste is or has been generated, stored, treated or disposed of, or a vehicle transporting hazardous waste.

b. Inspect and obtain samples from a person of a hazardous waste and of containers or labeling associated with the waste.

c. Install, service and take samples from monitoring equipment on the property.

The inspection shall be completed within a reasonable period of time.
2. If the director obtains a sample, prior to leaving the premises, the director shall give the owner, operator, or agent in charge a receipt describing the sample obtained and if requested a portion of each sample equal in volume or weight to the portion retained. If the sample is analyzed, a copy of the results of the analysis shall be furnished promptly to the owner, operator, or agent in charge.

3. Documents or information obtained from a person under this section shall be available to the public except as provided in this subsection. Upon a showing satisfactory to the director by a person that documents or information, or a particular part of the documents or information to which the director has access under this section if made public would divulge commercial or financial information obtained from a person and privileged or confidential or a trade secret, the director shall consider the documents or information or the particular portion of the documents or information confidential. However the document or information may be disclosed to officers, employees or authorized representatives of the United States charged with implementing the federal Solid Waste Disposal Act, to employees of the state of Iowa or of other states when the document or information is relevant to the discharge of their official duties, and when relevant in any proceeding under the federal Solid Waste Disposal Act or this part 5.

4. a. If upon receipt of any information, the director determines that the presence of a hazardous waste at a facility or site at which hazardous waste is, or has been, stored, treated, or disposed of, or the release of the waste from the facility or site may present a substantial hazard to human health or the environment, the director may issue an order requiring the owner or operator of the facility or site to conduct reasonable monitoring, testing, analysis, and reporting with respect to the facility or site to determine the nature and extent of the hazard.

b. In the case of a facility or site not in operation at the time a determination is made regarding the facility or site under this subsection, if the director finds that the owner of the facility or site could not reasonably be expected to have actual knowledge of the presence of hazardous waste at the facility or site and of its potential for release, the director may issue an order requiring the most recent previous owner or operator of the facility or site who could reasonably be expected to have actual knowledge to carry out the actions referred to in this subsection.

c. An order under this subsection shall require the person to whom the order is issued to submit to the director within thirty days from the issuance of the order a proposal for carrying out the required monitoring, testing, analysis, and reporting. The director may, after providing the person with an opportunity to confer with the director on the proposal, require the person to carry out the monitoring, testing, analysis, and reporting in accordance with the proposal, which may be modified as the director deems reasonable to determine the nature and extent of the hazard or to remove the hazard.

d. If the director determines that no owner or operator referred to in this subsection is able to conduct monitoring, testing, analysis, or reporting satisfactory to the director, if the director deems any action carried out by an owner or operator to be unsatisfactory, or if the director cannot initially determine that there is an owner or operator referred to in this subsection who is able to conduct monitoring, testing, analysis, or reporting, the director may conduct reasonable monitoring, testing, or analysis to determine the nature and extent of the hazard associated with the site. The director may require the owner or operator referred to in this subsection to reimburse the director or other authority or person for the costs of the monitoring, testing, analysis, or reporting. The director shall not order a person to pay the costs of monitoring, testing, analysis, or reporting carried out by the director which confirms the results of monitoring, testing, or analysis done pursuant to an earlier order of the director.

e. For purposes of carrying out this subsection, the director may exercise the powers set forth in subsection 1.

b. Treat, store, or dispose of a hazardous waste identified under sections 455B.411 to 455B.421 either without having obtained a permit for the treatment, storage, or disposal under section 455B.415, subsection 1, or in violation of a material condition or requirement of a permit.

c. Make a false material statement or representation in an application, label, manifest, record, report, permit or other document filed, maintained or used for purposes of compliance with the provisions of sections 455B.411 to 455B.421.

2. A person who violates subsection 1 is subject upon conviction to a fine of not more than twenty-five thousand dollars or to imprisonment for not to exceed one year, or both for each day of violation. If the conviction is for a violation committed after a first conviction, punishment shall be by a fine of not more than fifty thousand dollars or by imprisonment for not more than two years, or both for each day of violation.

1. If the director has substantial evidence that a person has violated or is violating a provision of sections 455B.411 to 455B.421, or of a rule or standard established or permit issued pursuant to sections 455B.411 to 455B.421:
   a. The director may issue an order directing the person to desist in the practice that constitutes the violation or to take corrective action as necessary to ensure that the violation will cease. The person to whom the order is issued may commence a contested case within the meaning of chapter 17A by filing with the director within thirty days of receipt of the order a notice of appeal to the commissioner. On appeal, the commission may affirm, modify or vacate the order of the director.
   b. If it is determined by the director that an emergency exists, the director may issue without notice or hearing an order necessary to terminate the emergency. The order shall be binding and effective immediately and until the order is modified or vacated at a hearing before the commission or by a court. "Emergency" as used in this subsection means a situation where the handling, storage, treatment, transportation or disposal of a hazardous waste is presenting an imminent and substantial threat to human health or the environment.
   c. When the director determines that a disposal site contains hazardous waste in an amount and under conditions that cause an imminent threat to human health and that the person responsible for the site will not properly and promptly remove the waste or eliminate the threat, the director may take action as necessary to remove the waste or permanently alleviate or eliminate the threat to human health. The costs of removing the waste or alleviating or eliminating the threat shall be recovered from the person responsible for the disposal site.
   d. The director with the approval of the commission, may request the attorney general to institute legal proceedings pursuant to subsection 2 of this section.

2. The attorney general shall, at the request of the director pursuant to paragraph "d" of subsection 1 of this section, institute legal proceedings, including an action for an injunction, necessary to enforce the penalty provisions of sections 455B.411 to 455B.421 or to obtain compliance with said sections or a rule promulgated or a condition of a permit or order issued under said sections.

Any unexpended balance in the remedial fund at
the end of each fiscal year shall be retained in the fund. However, any unexpended balance shall be transferred to the general fund to replace funds appropriated from the general fund during fiscal year 1985 and fiscal year 1986 for the purposes for which expenditures from the remedial fund are allowed.

2. The director may use the fund for any of the following purposes:
   a. Administrative services for the identification, assessment and cleanup of abandoned or uncontrolled sites.

However, at least seventy-five percent of the fund shall be used for the purposes stated in paragraphs "d" and "e".

3. Neither the state nor its officers, employees, or agents are liable for an injury caused by a dangerous condition at an abandoned or uncontrolled site unless the condition is the result of gross negligence on the part of the state, its officers, employees, or agents.

4. The director may contract with any person to perform the acts authorized in this section.

5. Moneys shall not be used from the fund for abandoned site cleanup unless the director has made all reasonable efforts to secure voluntary agreement to pay the costs of necessary remedial actions from owners or operators of abandoned or uncontrolled disposal sites or other responsible persons.

Moneys recovered pursuant to this subsection shall be deposited with the treasurer of state and credited to the remedial fund.

1. The person who generates hazardous waste or the owner or operator of a hazardous waste disposal facility who transports hazardous wastes off of the site where the hazardous waste was generated or off the disposal facility site shall pay a fee of ten dollars for each ton of hazardous waste transported off the site, excluding the water content of any waste that is transported to another facility under the ownership of the generator for the purposes of waste treatment or recycling.

   e. A hazardous waste which due to its intrinsic physical, chemical or biological composition degrades, decomposes or changes physical characteristics so as to be rendered or considered nonhazardous without any form of external mechanical, physical or chemical treatment being introduced. However, such change to a nonhazardous nature must occur within twenty-four hours of the generation of the hazardous waste before the exemption granted in this paragraph is applicable.

5. In addition to other fees imposed by this section, a person that is required to obtain a United States environmental protection agency identification number shall pay the following fees:
   a. If the person generates more than one thousand kilograms of hazardous waste per month, a fee of two hundred fifty dollars.

455B.441 Purpose and guidelines.

The purpose of this part is to protect the public health and the environment by providing a procedure for establishing appropriate sites and properly designed facilities for the treatment, storage and disposal of hazardous waste. It is the intent of the general assembly that in the implementation of this part the department of natural resources shall emphasize alternatives to land burial of hazardous waste whenever possible with emphasis on the following management methods in the following order: Source reduction, reuse, resource recovery, incineration, and detoxification.

[81 Acts, ch 152, §2]

83 Acts, ch 101, §95; 83 Acts, ch 137, §23

b. "Facility" does not include land, structures, other appurtenances and improvements contiguous to the source of generation and owned and operated by and exclusively for the treatment, storage, or disposal of hazardous waste of the generator.

c. As used in this subsection property is contiguous if it is divided only by a public or private way.

2. "Hazardous waste" means a hazardous waste as defined in section 455B.411, subsection 4 and listed under section 455B.412, subsection 2.

3. d. "Construct" means significant alteration of a site to install permanent equipment or structures but does not include activities incident to preliminary engineering, environmental studies, or acquisition of a site for a facility. "Construct" includes alteration to existing structures or a land disposal facility to initially accommodate hazardous waste but does not include any alteration to increase the capacity or change the ability to accommodate hazardous waste. However, any alteration to increase or change the ability to accommodate hazardous waste is subject to section 455B.413.

1. The county board may appoint two temporary members who are residents of the county.
2. The city council may appoint two temporary members who are residents of the city.

Temporary members who may be appointed under this section shall serve on the commission only during discussion and proceedings relating to the application for a site license which the temporary members were appointed to consider and shall vote only on questions relating to the issuance of that site license. Temporary members shall serve on the commission until final action is taken on the application for the site license which the temporary members were appointed to consider. Temporary members who are not public employees shall receive forty dollars per diem and actual and necessary expenses incurred in performance of their official duties. Temporary employees who are public employees shall receive reimbursement for expenses only. Per diem and expenses under this section shall be paid by the state.

2. Any person may present oral or written comments to the commission at the hearing.

[81 Acts, ch 152, §7]

455B.448 Decision by commission.
1. The commission shall grant or deny the site license. In making its decision, the commission shall consider the following:
   a. The need for the services to be offered by the facility.

   c. The zoning classification of the proposed site and the extent to which a proposed site is by present or projected use dedicated to industrial development.
   d. The land uses and the density of population in areas near the facility.
   e. The density of population in areas adjacent to probable transportation routes to the facility.
   f. The risk and effect of accidents during the transportation of hazardous wastes to the site.
   g. The geology of the site, where relevant, with reference to factors which include, but are not limited to, the presence of fault zones and the risk of
contamination of ground and surface waters by leaching and runoff from the facility.

h. The risk and effect of fires or explosions from improper storage and disposal methods.

i. The impact of the facility on the operations and responsibilities of the city and county in which the facility is proposed to be located and on cities and counties near the proposed site.

j. Local ordinances, permits, or other requirements and their relationship to the proposed facility.

k. The availability of alternative sites and methods of treatment, disposal, or storage, including cost comparisons. The cost comparisons shall cover short and long-term costs including, but not limited to, liability insurance, postclosure maintenance, monitoring of ground and surface waters, monitoring of air before and after closure, and the potential loss of land or water resources due to contamination.

l. To the maximum extent feasible a site should be located away from all of the following areas:

(1) Areas subject to natural hazards including, but not limited to, flooding, earthquakes, or subsidence.

(2) Sources of drinking water supply including, but not limited to, reservoirs, lakes and rivers and their watersheds, and aquifers and their recharge areas.

(3) Fragile land areas including, but not limited to, wetlands and the shorelines of rivers, lakes, and streams.

(4) Areas with rare or valuable ecosystems or geologic formations or significant wildlife habitat.

(5) Unique scenic or historic areas.

(6) Residential areas, parks, or schools.

(7) Prime farmland as defined by the United States department of agriculture in 7 C.F.R. §657.5(a).

m. Other criteria adopted by rule which the commission finds relevant to the siting of a facility which are consistent with this part 6 of division IV.

The commission shall grant the license if it finds that the facility will meet the requirements imposed by rules adopted by the commission under section 455B.412, subsection 3, and the permit requirement of section 455B.415, that operation of the facility at the proposed location will be in the public interest and that the public health and welfare and the environment will be adequately protected. The failure of the proposed facility to meet zoning requirements established under chapters 329, 358A, and 414, and the licensing requirements of regulatory agencies except the requirements imposed by sections 455B.412, subsection 3 and 455B.415 shall not preclude the commission from issuing the license and to that extent this subsection supersedes the licensing requirements of regulatory agencies and the requirements of chapters 329, 358A and 414.

3. A municipality as defined in section 613A.1, subsection 1, is not liable in an action for damages arising out of the construction, operation, or maintenance of a hazardous waste facility which is licensed by the commission under this part 6 of division IV unless the municipality is responsible for or in control of the facility. However, a municipality may be subject to liability for damages caused by hazardous waste in connection with an act or omission which would otherwise subject the municipality to liability. A municipality shall not be required to pay any portion of the costs associated with the response to a release or threatened release of a hazardous waste from a facility into the land, air, or water that threatens or may threaten human health or the environment unless the municipality is responsible for or in control of the facility or unless the municipality is otherwise subject to liability under this subsection.

The director shall notify the applicant upon the issuance or denial of the license or upon termination of the proceeding at any point during the process of the cost of the proceeding to the applicant. These costs include the costs of providing notices, holding the hearing and the per diem of the commissioners in the proceeding for the license. [81 Acts, ch 152, §10]
86 Acts, ch 1245, §1899

455B.451 Further approvals prohibited — exception.

Upon the issuance of a license under this part 6 of division IV, notwithstanding any provision of law or ordinance except statutory requirements relating to the protection of employees engaged in the construction of the facility, no further approval, permit, or license for the construction, operation, or maintenance of the facility as stated in the license shall be required. The commission may incorporate in the license the licensing requirements of a regulatory agency to the extent that those requirements are consistent with the construction and operation of the facility according to the requirements of the commission. However, this section does not limit the authority of the director under sections 455B.413 and 455B.415. A local unit of government shall not unduly restrict the transportation of hazardous waste to a facility for which a license has been issued under this part 6 of division IV.

[81 Acts, ch 152, §11]
86 Acts, ch 1245, §1899
455B.452 Single hearing — judicial review. Notwithstanding chapter 17A:
1. Any proceeding or oral presentation held before the commission on an application for a license shall be held in lieu of any other proceeding or oral presentation required for a license or permit necessary for the construction, maintenance, or operation of a facility.
2. The issuance or denial of the license is a final agency action, and the date for determining whether any person is aggrieved or adversely affected by the action is the date of the issuance or denial of the license.

455B.453 Rules. The commission shall adopt rules under chapter 17A necessary to implement this part 6 of division IV including but not limited to the form for an application for a license and the description of information to be furnished by the applicant.

455B.454 Penalties. A person required to obtain a site license under this part 6 of division IV who constructs a facility without having first obtained the license is subject to a civil penalty of not more than ten thousand dollars for each violation or for each day of continuing violation. Civil penalties collected pursuant to this subsection shall be forwarded by the clerk of court to the treasurer of the state for deposit in the general fund of the state.

455B.455 Surcharge imposed. A land burial surcharge tax of two percent is imposed on the fee for land burial of a hazardous waste. The owner of the land burial facility shall remit the tax collected to the director of revenue and finance which shall be the appropriate license for the collection of the land burial surcharge tax and shall be subject to suspension or revocation if the site license holder fails to collect or remit the tax collected under this section. The provisions of sections 422.25, subsection 4, 422.30, 422.48 to 422.52, 422.54 to 422.58, 422.67, 422.68, 422.69, subsection 1, and 422.70 to 422.75, consistent with the provisions of this part 6 of division IV, shall apply with respect to the taxes authorized under this part, in the same manner and with the same effect as if the land burial surcharge tax were retail sales taxes within the meaning of those statutes. Notwithstanding the provisions of this paragraph, the director shall provide for only quarterly filing of returns as prescribed in section 422.51. Taxes collected by the director of revenue and finance under this section shall be deposited in the general fund of the state.

455B.456 to 455B.460 Reserved.

   "Land disposal" does not include long-term storage as defined in subsection 3.
3. "Long-term storage" means the above-ground containment of stabilized or solidified hazardous waste on a temporary basis or for a period of years in a manner that does not constitute disposal of hazardous waste.
4. "Storage" means the containment of a hazardous waste for a period less than one year in a manner consistent with the requirements of 42 U.S.C. §6921-6934 as amended to January 1, 1981 and the regulations adopted pursuant to those sections.
5. "Facility" means facility as defined in section 455B.442, subsection 1.
6. "Restricted waste" means hazardous waste or any other waste which is determined by rule of the commission to be a significant environmental burden if disposed of at a land disposal facility.

455B.462 Limitations on land disposal of hazardous waste.
1. A generator, recycler, transporter or other handler of hazardous waste shall not dispose of the wastes by land disposal or store wastes at an above-ground storage facility, unless all of the following conditions exist:
   a. The commission determines that the best available technology is being used at the land disposal facility.
   b. The handler proves to the satisfaction of the commission that there is no available alternative including above ground storage for the disposal of hazardous waste.
   c. The handler utilizes methods of source reduction, recycling and destruction of hazardous waste to the extent feasible, as determined by rule.
   d. The handler pretreats the hazardous waste as determined by rule.
2. The commission shall adopt rules including, but not limited to, the following:
   a. To determine the criteria that industry must
satisfy to show that alternatives to land disposal of hazardous wastes are not technically or economically feasible.

b. To require that all industrial and commercial owners or users of land disposal and storage sites report to the department annually the amount and content of current hazardous waste production, treatment methods used and technological advances made or pursued to implement alternatives to land disposal and source reduction.

85 Acts, ch 202, §3

455B.463 Dilution of hazardous waste.
Any hazardous waste shall be considered a restricted waste for the purposes of this part even though it is diluted to a concentration less than the listed concentration threshold by the addition of other hazardous waste or any other material during waste handling treatment or storage. Dilution which occurs as a normal part of the manufacturing process shall not be considered dilution for purposes of this section.

85 Acts, ch 202, §4

455B.464 Additional hazardous or restricted waste listed.
Notwithstanding the restriction in section 455B.420, the director shall compile, annually, a list of additional hazardous wastes for adoption by the commission pursuant to the rulemaking procedures of chapter 17A. The list shall include wastes which may be a significant environmental burden if disposed of at a land disposal facility.

85 Acts, ch 202, §5; 86 Acts, ch 1245, §1899A

455B.465 Well injection prohibited.
It is unlawful for a person to inject hazardous or restricted wastes into a well.

85 Acts, ch 202, §6

455B.466 Civil penalties.
A person who violates a provision of this part is subject to a civil penalty of not more than ten thousand dollars for each violation and for each day of continuing violation. Civil penalties collected pursuant to this section shall be forwarded by the clerk of the district court to the treasurer of state for deposit in the general fund of the state.

85 Acts, ch 202, §7

455B.467 Emergency variance.
The department may grant a variance to the restrictions or prohibition of land disposal of a hazardous waste in either of the following situations:

1. When the materials sought to be disposed of resulted from the cleanup of a hazardous condition involving a hazardous waste.

2. When the materials sought to be disposed of resulted from remediation or cleanup of abandoned or uncontrolled hazardous waste sites.

85 Acts, ch 202, §8

455B.468 Coordination with existing reporting and permitting requirements.
This part does not require the department to establish a reporting or permitting system if such a system is already established under the federal Resource Conservation and Recovery Act 42 U.S.C. §6901 et seq. and administered and enforced through the federal environmental protection agency that achieves the objectives set out in this part. Consistent with this part, the department may establish requirements in addition to those established under the Resource Conservation Recovery Act for reporting, permitting, and enforcement. However, in such actions, the department shall avoid any redundancy in reporting, compliance, and enforcement with that provided under the Resource Conservation and Recovery Act.

Notwithstanding section 455B.420, the rules and requirements imposed under this part may be more restrictive than required by federal law or regulation.

85 Acts, ch 202, §9

PART 8

UNDERGROUND STORAGE TANKS

455B.471 Definitions.
As used in this part unless the context otherwise requires:

1. “Nonoperational storage tank” means an underground storage tank in which regulated substances will not be deposited or from which regulated substances will not be dispensed after July 1, 1985.

2. “Operator” means a person in control of, or having responsibility for, the daily operation of the underground storage tank.

3. “Owner” means:

a. In the case of an underground storage tank in use on or after July 1, 1985, a person who owns the underground storage tank used for the storage, use, or dispensing of regulated substances.

b. In the case of an underground storage tank in use before July 1, 1985, but no longer in use on that date, a person who owned the tank immediately before the discontinuation of its use.

4. “Regulated substance” means an element, compound, mixture, solution or substance which, when released into the environment, may present substantial danger to the public health or welfare or the environment. Regulated substance includes substances designated in 40 C.F.R., Parts 61 and 116, and section 401.15, and petroleum including crude oil or any fraction of crude oil which is liquid at standard conditions of temperature and pressure (sixty degrees Fahrenheit and fourteen and seventenths pounds per square inch absolute). However, regulated substance does not include a substance regulated as a hazardous waste under the Resource Conservation and Recovery Act of 1976. Substances may be added or deleted as regulated substances by rule of the commission pursuant to section 455B.474.

5. “Release” means spilling, leaking, emitting,
discharging, escaping, leaching, or disposing from an underground storage tank into groundwater, surface water, or subsurface soils.

6. “Underground storage tank” means one or a combination of tanks, including underground pipes connected to the tanks which are used to contain an accumulation of regulated substances and the volume of which, including the volume of the underground pipes, is ten percent or more beneath the surface of the ground. Underground storage tank does not include:

a. Farm or residential tanks of one thousand one hundred gallons or less capacity used for storing motor fuel for noncommercial purposes.

b. Tanks used for storing heating oil for consumptive use on the premises where stored.

c. Residential septic tanks.

e. A surface impoundment, pit, pond, or lagoon.

i. A storage tank situated in an underground area including, but not limited to, a basement, cellar, mineworking, drift, shaft, or tunnel if the storage tank is situated upon or above the surface of the floor.

Underground storage tank does not include pipes connected to a tank described in paragraphs “a” to “i”.

7. “Tank site” means a tank or grouping of tanks within close proximity of each other located on the facility for the purpose of storing regulated substances.

85 Acts, ch 162, §1
Section 455B 471, Code 1985, transferred to §455B 491 in Code Supplement 1985

455B.472 Declaration of policy.

The general assembly finds that the release of regulated substances from underground storage tanks constitutes a threat to the public health and safety and to the natural resources of the state, and that existing regulatory programs of the department and other agencies do not adequately or appropriately address this substantial public concern.

85 Acts, ch 162, §2

455B.473 Report of existing and new tanks — fee.

1. Except as provided in subsection 2, the owner or operator of an underground storage tank existing on or before July 1, 1985, shall notify the department in writing by May 1, 1986, of the existence of each tank and specify the age, size, type, location and uses of the tank.

2. The owner of an underground storage tank taken out of operation between January 1, 1974 and July 1, 1985, shall notify the department in writing by July 1, 1986, of the existence of the tank unless the owner knows the tank has been removed from the ground. The notice shall specify to the extent known to the owner, the date the tank was taken out of operation, the size, type and location of the tank, and the type and quantity of substances left stored in the tank on the date that it was taken out of operation.

3. An owner or operator which brings into use an underground storage tank after July 1, 1985, shall notify the department in writing within thirty days of the existence of the tank and specify the age, size, type, location and uses of the tank.

4. An owner or operator of a storage tank described in section 455B.471, subsection 6, paragraph “a”, which brings the tank into use after July 1, 1987, shall notify the department of the existence of the tank within thirty days. The registration of the tank shall be accompanied by a fee of ten dollars to be deposited in the storage tank management account. A tank which is existing before July 1, 1987, shall be reported to the department by July 1, 1989. Tanks under this section installed on or following July 1, 1987, shall comply with underground storage tank regulations adopted by rule by the department.

5. The notice of the owner or operator to the department under subsections 1 through 3 shall be accompanied by a fee of ten dollars for each tank included in the notice. All moneys collected shall be deposited in the storage tank management account of the groundwater protection fund created in section 455E.11. All moneys collected pursuant to this section prior to July 1, 1987, which have not been expended, shall be deposited in the storage tank management account.

6. Subsections 1 to 3 do not apply to an underground storage tank for which notice was given pursuant to section 103, subsection c, of the Comprehensive Environmental Response, Compensation and Liabilities Act of 1980.

7. A person who deposits a regulated substance in an underground storage tank shall notify the owner or operator in writing of their notification requirements pursuant to this section.

8. A person who sells a tank intended to be used as an underground storage tank shall notify the purchaser of the tank in writing of the owner’s notification requirements pursuant to this section.

9. It shall be unlawful to deposit a regulated substance in an underground storage tank which has not been registered pursuant to subsections 1 through 6.

The department shall furnish the owner or operator of an underground storage tank with a registration tag for each underground storage tank registered with the department. The owner or operator shall affix the tag to the fill pipe of each registered underground storage tank. A person who conveys or deposits a regulated substance shall inspect the
underground storage tank to determine the existence or absence of the registration tag. If a registration tag is not affixed to the underground storage tank fill pipe, the person conveying or depositing the regulated substance may deposit the regulated substance in the unregistered tank provided that the deposit is allowed only in the single instance, that the person reports the unregistered tank to the department of natural resources, and that the person provides the owner or operator with an underground storage tank registration form and informs the owner or operator of the underground storage tank registration requirements. The owner or operator is allowed fifteen days following the report to the department of the owner's or operator's unregistered tank to comply with the registration requirements. If an owner or operator fails to register the reported underground storage tank during the fifteen-day period, the owner or operator shall pay a fee of twenty-five dollars upon registration of the tank.

§455B.473, subsection 5, shall accompany the registration. If a tank is registered under this section on or prior to October 1, 1989, penalties under section 455B.477 shall be waived.

§455B.474 Duties of commission — rules.

The commission shall adopt rules pursuant to chapter 17A relating to:

1. Release detection, prevention, and correction as may be necessary to protect human health and the environment, applicable to all owners and operators of underground storage tanks. The rules shall include, but are not limited to, requirements for:

a. Maintaining a leak detection system, an inventory control system with a tank testing, or a comparable system or method designed to identify releases in a manner consistent with the protection of human health and the environment.

b. Maintaining records of any monitoring or leak detection system, inventory control system, or tank testing or comparable system.

c. Reporting of any releases and corrective action taken in response to a release from an underground storage tank.

d. Taking corrective action in response to a release or threatened release from an underground storage tank including appropriate testing of drinking water which may be contaminated by the release. The corrective action rules shall enable the director to order an owner or operator to immediately take all corrective actions deemed reasonable and necessary by the director.

e. The closure of tanks to prevent any future release of a regulated substance into the environment. If consistent with federal environmental protection agency technical standard regulations, state tank closure rules shall include, at the tank owner's election, an option to fill the tank with an inert material. Removal of a tank shall not be required if the tank is filled with an inert material pursuant to department of natural resources rules. A tank closed, or to be closed and which is actually closed, within one year of May 13, 1988, shall be required to complete monitoring or testing as required by the department to ensure that the tank did not leak prior to closure, but shall not be required to have a monitoring system installed.

Specifying an adequate monitoring system to detect the presence of a leaking underground storage tank and to provide for protection of the groundwater resources for regulated tanks installed prior to January 14, 1987. The effective date of the rules adopted shall be January 14, 1989. In the event that federal regulations are adopted by the United States environmental protection agency after the commission has adopted state standards pursuant to this subsection, the commission shall immediately proceed to adopt rules consistent with those federal regulations adopted. Unless the federal environmental protection agency adopts final rules to the contrary, rules adopted pursuant to this section shall not apply to hydraulic lift reservoirs, such as for automobile hoists and elevators, containing hydraulic oil.

In adopting the rules under this subsection, the commission may distinguish between types, classes, and ages of underground storage tanks. In making the distinctions, the commission may take into consideration factors including, but not limited to, location of the tanks, compatibility of a tank material with the soil and climate conditions, uses of the tanks, history of maintenance, age of the tanks, current industry recommended practices, national consensus codes, hydrogeology, water table, size of the tanks, quantity of regulated substances periodically deposited in or dispensed from the tank, the degree of risk presented by the regulated substance, the technical and managerial capability of the owners and operators, and the compatibility of the regulated substance and the materials of which the underground storage tank is fabricated.

The department may issue a variance, which includes an enforceable compliance schedule, from the mandatory monitoring requirement for an owner or operator who demonstrates plans for tank removal, replacement, or filling with an inert material pursuant to a department approved variance. A variance may be renewed for just cause.

2. The maintenance of evidence of financial responsibility as the director determines to be feasible and necessary for taking corrective action and for compensating third parties for bodily injury and
property damage caused by release of a regulated substance from an underground storage tank.

a. Financial responsibility required by this subsection may be established in accordance with rules adopted by the commission by any one, or any combination, of the following methods: insurance, guarantee, surety bond, letter of credit, or qualification as a self-insurer. In adopting requirements under this subsection, the commission may specify policy or other contractual terms, conditions, or defenses which are necessary or are unacceptable in establishing the evidence of financial responsibility.

b. If the owner or operator is in bankruptcy, reorganization, or arrangement pursuant to the federal bankruptcy law or if jurisdiction in any state court or federal court cannot be obtained over an owner or operator likely to be solvent at the time of judgment, any claim arising from conduct for which under this subsection may be asserted directly by the claimant and which would have been available to the guarantor if an action had been brought against the guarantor providing the evidence of financial responsibility. In the case of action pursuant to this paragraph, the guarantor is entitled to invoke all rights and defenses which would have been available to the owner or operator if an action had been brought against the owner or operator by the claimant and which would have been available to the guarantor if an action had been brought against the guarantor by the owner or operator.

c. The total liability of a guarantor shall be limited to the aggregate amount which the guarantor has provided as evidence of financial responsibility to the owner or operator under this subsection. This subsection does not limit any other state or federal statutory, contractual, or common law liability of a guarantor to its owner or operator including, but not limited to, the liability of the guarantor for bad faith in negotiating or in failing to negotiate the settlement of any claim. This subsection does not diminish the liability of any person under section 107 or 111 of the Comprehensive Environmental Response, Compensation and Liability Act of 1980 or other applicable law.

d. For the purpose of this subsection, the term “guarantor” means any person, other than the owner or operator, who provides evidence of financial responsibility for an owner or operator under this subsection.

e. If an owner or operator is required to uncover or remove an underground storage tank based upon a determination of the department that the underground storage tank presents a hazard to the public health, safety, or the environment, and if upon inspection of the tank the determination is unfounded, the state may reimburse reasonable costs incurred in the inspection of the tank. Claims for reimbursement shall be filed on forms provided by the commission. The commission shall adopt rules pursuant to chapter 17A relating to determinations of reasonableness in approval or rejection of claims in cases of dispute. Claims shall be paid from the general fund of the state. When any one of the tanks or the related pumps and piping at a multiple tank facility are found to be leaking, the state shall not reimburse costs for uncovering or removing any of the other tanks, piping, or pumps that are not found to be leaking.

3. Standards of performance for new underground storage tanks which shall include, but are not limited to, design, construction, installation, release detection, and compatibility standards. Until the effective date of the standards adopted by the commission and after January 1, 1986, a person shall not install an underground storage tank for the purpose of storing regulated substances unless the tank (whether of single or double wall construction) meets all the following conditions:

a. The tank will prevent release due to corrosion or structural failure for the operational life of the tank.

b. The tank is cathodically protected against corrosion, constructed of noncorrosive material, steel clad with a noncorrosive material, or designed in a manner to prevent the release or threatened release of any stored substance.

c. The material used in the construction or lining of the tank is compatible with the substance to be stored. If soil tests conducted in accordance with A.S.T.M., standard G 57-78 or another standard approved by the commission show that soil resistivity in an installation location is twelve thousand ohm/cm or more (unless a more stringent soil resistivity standard is adopted by rule of the commission), a storage tank without corrosion protection may be installed in that location until the effective date of the standards adopted by the commission and after January 1, 1986.

d. Rules adopted by the commission shall specify adequate monitoring systems to detect the presence of a leaking underground storage tank and to provide for protection of the groundwater resources from regulated tanks installed after January 14, 1987. In the event that federal regulations are adopted by the United States environmental protection agency after the commission has adopted state standards pursuant to this subsection, the commission shall immediately proceed to adopt rules consistent with those federal regulations adopted. Tanks installed on or after January 14, 1987, shall continue to be considered new tanks for purposes of this chapter and are subject to state monitoring requirements unless federal requirements are more restrictive.

4. The form and content of the written notices required by section 455B.473.

5. The duties of owners or operators of underground storage tanks to locate and abate the source of release of regulated substances, when in the judgment of the director, the local hydrology, geology and other relevant factors reasonably include a tank as a potential source.

6. Reporting requirements necessary to enable the department to maintain an accurate inventory of underground storage tanks.

7. Designation of regulated substances subject to this part, consistent with section 455B.471, subsec-
§455B.474, JURISDICTION OF DEPARTMENT OF NATURAL RESOURCES

455B.474 Duties and powers of the director.

The director shall:

1. Inspect and investigate the facilities and records of owners and operators of underground storage tanks as may be necessary to determine compliance with this part and the rules adopted pursuant to this part. An inspection or investigation shall be concluded subject to section 455B.103, subsection 4. For purposes of developing a rule, maintaining an accurate inventory or enforcing this part, the department may:
   a. Enter at reasonable times any establishment or other place where an underground storage tank is located.
   b. Inspect and obtain samples from any person of a regulated substance and conduct monitoring or testing of the tanks, associated equipment, contents or surrounding soils, air, surface water and groundwater. Each inspection shall be commenced and completed with reasonable promptness.

   (1) If the director obtains a sample, prior to leaving the premises, the director shall give the owner, operator, or agent in charge a receipt describing the sample obtained and if requested a portion of each sample equal in volume or weight to the portion retained. If the sample is analyzed, a copy of the results of the analysis shall be furnished promptly to the owner, operator, or agent in charge.

   (2) Documents or information obtained from a person under this subsection shall be available to the public except as provided in this subparagraph. Upon a showing satisfactory to the director by a person that public disclosure of documents or information, or a particular part of the documents or information to which the director has access under this subsection would divulge commercial or financial information entitled to protection as a trade secret, the director shall consider the documents or information or the particular portion of the documents or information confidential. However, the documents or information may be disclosed to officers, employees or authorized representatives of the United States charged with implementing the federal Solid Waste Disposal Act, to employees of the state of Iowa or of other states when the document or information is relevant to the discharge of their official duties, and when relevant in any proceeding under the federal Solid Waste Disposal Act or this part.

2. Maintain an accurate inventory of underground storage tanks.

3. Take any action allowed by law which, in the director's judgment, is necessary to enforce or secure compliance with this part or any rule adopted under this part.

85 Acts, ch 162, §5; 86 Acts, ch 1245, §1899A

455B.476 Violations — orders.

1. If there is substantial evidence that a person has violated or is violating a provision of this part or a rule adopted under this part the director may issue an order directing the person to desist in the practice which constitutes the violation, and to take corrective action as necessary to ensure that the violation will cease, and may impose appropriate administrative penalties pursuant to section 455B.109. The person to whom the order is issued may appeal the order to the commission as provided in chapter 17A. On appeal, the commission may affirm, modify or vacate the order of the director.

2. However, if it is determined by the director that an emergency exists respecting any matter affecting or likely to affect the public health, the director may issue any order necessary to terminate the emergency without notice and without hearing. The order is binding and effective immediately and until the order is modified or vacated at a hearing before the commission or by a district court.

3. The director, with the approval of the commission, may request the attorney general to institute legal proceedings pursuant to section 455B.477.

85 Acts, ch 162, §6; 86 Acts, ch 1245, §1899A

455B.477 Penalties — burden of proof.

1. A person who violates a provision of this part or a rule or order issued under this part is subject to a civil penalty not to exceed five thousand dollars for each day during which the violation continues. The civil penalty is an alternative to a criminal penalty which constitutes the violation, and to take corrective action as necessary to ensure that the violation will cease, and may impose appropriate administrative penalties pursuant to section 455B.109. The person to whom the order is issued may appeal the order to the commission as provided in chapter 17A. On appeal, the commission may affirm, modify or vacate the order of the director.

2. However, if it is determined by the director that an emergency exists respecting any matter affecting or likely to affect the public health, the director may issue any order necessary to terminate the emergency without notice and without hearing. The order is binding and effective immediately and until the order is modified or vacated at a hearing before the commission or by a district court.

3. The director, with the approval of the commission, may request the attorney general to institute legal proceedings pursuant to section 455B.477.

85 Acts, ch 162, §6; 86 Acts, ch 1245, §1899A
director with approval of the commission, shall institute any legal proceedings, including an action for an injunction, necessary to enforce the penalty provisions of this part or to obtain compliance with the provisions of this part or rules adopted or order issued under this part. In any action, previous findings of fact of the director or the commission after notice and hearing are conclusive if supported by substantial evidence in the record when the record is viewed as a whole.

4. In all proceedings with respect to an alleged violation of a provision of this part or a rule adopted or order issued by the commission, the burden of proof is upon the commission or the department.

5. If the attorney general has instituted legal proceedings in accordance with this section, all related issues which could otherwise be raised by the alleged violator in a proceeding for judicial review under section 455B.478 shall be raised in the legal proceedings instituted in accordance with this section.

6. The penalty for intentional failure of an owner or operator to register a petroleum underground storage tank under section 455B.473 shall be a minimum of seven thousand five hundred dollars up to a maximum of ten thousand dollars after October 1, 1989.

455B.478 Judicial review.

Except as provided in section 455B.477, subsection 5, judicial review of an order or other action of the commission or the director may be sought in accordance with chapter 17A. Notwithstanding chapter 17A, the Iowa administrative procedures Act, petitions for judicial review may be filed in the district court of the county in which the alleged offense was committed or the final order was entered.

85 Acts, ch 162, §8; 86 Acts, ch 1245, §1899A

455B.479 Storage tank management fee.

An owner or operator of an underground storage tank shall pay an annual storage tank management fee of fifteen dollars per tank of over one thousand one hundred gallons capacity. The fees collected shall be deposited in the storage tank management account of the groundwater protection fund.

PART 9

WASTE MANAGEMENT AUTHORITY

Legislative findings and purpose, 87 Acts, ch 180, §2

455B.480 Short title.

This part may be cited as the “Waste Management Authority Act”.

87 Acts, ch 180, §1

455B.481 Waste management policy.

The purpose of this part is to promote the proper and safe storage, treatment, and disposal of solid, hazardous, and low-level radioactive wastes in Iowa.

The management of these wastes generated within Iowa is the responsibility of Iowans. It is the intent of the general assembly that Iowans assume this responsibility to the extent consistent with the protection of public health, safety, and the environment, and that Iowans insure that waste management practices, as alternatives to land disposal, including source reduction, recycling, compaction, incineration, and other forms of waste reduction, are employed.

It is also the intent of the general assembly that a comprehensive waste management plan be established by the waste management authority which includes: the determination of need and adequate regulatory controls prior to the initiation of site selection; the process for selecting a superior site determined to be necessary; the establishment of a process for a site community to submit or present data, views, or arguments regarding the selection of the operator and the technology that best ensures proper facility operation; the prohibition of shallow land burial of hazardous and low-level radioactive wastes; the establishment of a regulatory framework for a facility; and the establishment of provisions for the safe and orderly development, operation, closure, postclosure, and long-term monitoring and maintenance of the facility.

455B.482 Definitions.

As used in this part unless the context otherwise requires:

1. “Disposal” means the isolation of waste from the biosphere in a permanent facility designed for that purpose.

2. “Facilities” means land and improvements on land, buildings and other structures, and other appurtenances used for the management of solid, toxic, hazardous, or low-level radioactive wastes, including but not limited to waste collection sites, waste transfer stations, waste reclamation and recycling centers, waste processing centers, waste treatment centers, waste storage sites, waste reduction and compaction centers, waste incineration centers, waste detoxification centers, and waste disposal sites.

Upon request, the department shall assist in locating suitable sites for the location of a facility. The commission may purchase or condemn land to be leased or used for the operation of a facility subject to chapter 471. Consideration for a contract for purchase of land shall not be in excess of funds appropriated by the general assembly for that purpose. The commission may lease land purchased under this section to any person including the state or a state agency. This section authorizes the state to own or operate hazardous waste facilities and low-level radioactive waste facilities, subject to the approval of the general assembly.

The terms of the lease or contract shall establish responsibility for long-term monitoring and maintenance of the site. The commission shall require that the lessee or operator post bond or provide proof of sufficient insurance coverage, as determined by the commission to be reasonably necessary to protect the state against liabilities arising from the storage of wastes, abandonment of the facility, facility accidents, failure of the facility, or other liabilities which may arise.

The terms of the lease or contract shall also require that the lessee or operator of the facility pay an annual fee to the state, as established by the commission, to cover facility monitoring costs, and shall require that the lessee or operator establish a long-term monitoring and maintenance fund in which the lessee or operator shall deposit annually an amount specified by the commission. The fund shall be used to pay closure, long-term monitoring and maintenance, and contingency costs.

the approval of a lease agreement or contract the local committee shall review the application of the prospective lessee or operator and shall determine the suitability of the proposed site for the facility. The local committee may inspect the facility during operation and may make recommendations regarding the operation and closure of the facility. The commission shall establish a surtax paid by the lessee or operator of a facility to the local governmental entity, and retained by the local governmental entity in which the facility is located. The lessee or operator of the facility shall provide funding for the implementation of the duties of the local committee.

The lessee or operator is subject to all applicable permit and licensing requirements. The leasehold interest, including improvements made to the property, shall be listed, assessed, and valued as any other real property as provided by law.

Facilities acquired or operated pursuant to this section may be used for regional, statewide or multistate management of wastes.

Facilities acquired or operated pursuant to this section shall not be used for the purpose of shallow land burial of wastes as a means of disposal.

An operator of a facility acquired or operated pursuant to this section shall require that a person, prior to the use of the facility, submit proof that reasonable and good faith measures have been taken to reduce the generation of waste.

A hazardous waste facility acquired or operated pursuant to this section shall be operated in accordance with the following schedule:

1. The initial fee paid by a person depositing hazardous waste at the facility shall be increased by ten percent per ton upon receipt of twenty-five percent of the waste capacity of the facility.

2. The initial fee paid by a person depositing hazardous waste at the facility shall be increased by twenty-five percent per ton upon receipt of fifty percent of the waste capacity of the facility.

3. Upon receipt of fifty percent of the waste capacity of the facility, the receipt of waste shall be limited to hazardous waste generated within the state of Iowa. If an agreement has been established between the owner or operator of the hazardous waste facility and an out-of-state generator of hazardous waste, this limitation is null and void.

87 Acts, ch 180, §9

455B.488 Household hazardous waste collection and disposition.

The authority shall develop, sponsor, and assist in conducting local, regional, or statewide programs for the receipt or collection and proper management of hazardous wastes from households and farms. In conducting such events the authority may establish limits on the types and amounts of wastes that will be collected, and may establish a fee system for acceptance of wastes in quantities exceeding the limits established pursuant to this section.

87 Acts, ch 180, §10

455B.489 Waste management authority fund.

A waste management authority fund is created within the state treasury. Moneys received by the authority from fees, general revenue, federal funds, awards, wills, bequests, gifts, or other moneys designated shall be deposited in the state treasury to the credit of the fund. Any unexpended balance in the fund at the end of each fiscal year shall be retained in the fund. Any interest and earnings on investments from money in the fund shall be credited to the fund, section 453.7 notwithstanding.

CHAPTER 455E
GROUNDWATER PROTECTION

455E.1 Title.
This chapter shall be known and may be cited as the “Groundwater Protection Act.”
87 Acts, ch 225, §101

455E.2 Definitions.
As used in this chapter, unless the context otherwise requires:
1. “Active cleanup” means removal, treatment, or isolation of a contaminant from groundwater through the directed efforts of humans.
2. “Commission” means the environmental protection commission created under section 455A 6.
3. “Contaminant” means any chemical, ion, radionuclide, synthetic organic compound, microorganism, waste, or other substance which does not occur naturally in groundwater or which naturally occurs at a lower concentration.
4. “Contamination” means the direct or indirect introduction into groundwater of any contaminant caused in whole or in part by human activities.
5. “Department” means the department of natural resources created under section 455A 2.
6. “Director” means the director of the department.
7. “Groundwater” means any water of the state, as defined in section 455B 171, which occurs beneath the surface of the earth in a saturated geological formation of rock or soil.
8. “Passive cleanup” means the removal or treatment of a contaminant in groundwater through management practices or the construction of barriers, trenches, and other similar facilities for prevention of contamination, as well as the use of natural processes such as groundwater recharge, natural decay, and chemical or biological decomposition.
87 Acts, ch 225, §102
GROUNDWATER PROTECTION, §455E.6

455E.3 Findings.
The general assembly finds that:

1. Groundwater is a precious and vulnerable natural resource. The vast majority of persons in the state depend on groundwater as a drinking water source. Agriculture, commerce, and industry also depend heavily on groundwater. Historically, the majority of Iowa’s groundwater has been usable for these purposes without treatment. Protection of groundwater is essential to the health, welfare, and economic prosperity of all citizens of the state.

2. Many activities of humans, including the manufacturing, storing, handling, and application to land of pesticides and fertilizers; the disposal of solid and hazardous wastes; the storing and handling of hazardous substances; and the improper construction and the abandonment of wells and septic systems have resulted in groundwater contamination throughout the state.

3. Knowledge of the health effects of contaminants varies greatly. The long-term detriment to human health from synthetic organic compounds in particular is largely unknown but is of concern.

4. Any detectable quantity of a synthetic organic compound in groundwater is unnatural and undesirable.

5. The movement of groundwater, and the movement of contaminants in groundwater, are often difficult to ascertain or control. Decontamination is difficult and expensive to accomplish. Therefore, preventing contamination of groundwater is of paramount importance.

87 Acts, ch 225, §103

455E.4 Groundwater protection goal.
The intent of the state is to prevent contamination of groundwater from point and nonpoint sources of contamination to the maximum extent practical, and if necessary to restore the groundwater to a potable state, regardless of present condition, use, or characteristics.

87 Acts, ch 225, §104

455E.5 Groundwater protection policies.
1. It is the policy of the state to prevent further contamination of groundwater from any source to the maximum extent practical.

2. The discovery of any groundwater contamination shall require appropriate actions to prevent further contamination. These actions may consist of investigation and evaluation or enforcement actions if necessary to stop further contamination as required under chapter 455B.

3. All persons in the state have the right to have their lawful use of groundwater unimpaired by the activities of any person which render the water unsafe or unpotable.

4. All persons in the state have the duty to conduct their activities so as to prevent the release of contaminants into groundwater.

5. Documentation of any contaminant which presents a significant risk to human health, the environment, or the quality of life shall result in either passive or active cleanup. In both cases, the best technology available or best management practices shall be utilized. The department shall adopt rules which specify the general guidelines for determining the cleanup actions necessary to meet the goals of the state and the general procedures for determining the parties responsible by July 1, 1989. Until the rules are adopted, the absence of rules shall not be raised as a defense to an order to clean up a source of contamination.

6. Adopting health-related groundwater standards may be of benefit in the overall groundwater protection or other regulatory efforts of the state. However, the existence of such standards, or lack of them, shall not be construed or utilized in derogation of the groundwater protection goal and protection policies of the state.

7. The department shall take actions necessary to promote and assure public confidence and public awareness. In pursuing this goal, the department shall make public the results of groundwater investigations.

8. Education of the people of the state is necessary to preserve and restore groundwater quality. The content of this groundwater protection education must assign obligations, call for sacrifice, and change some current values. Educational efforts should strive to establish a conservation ethic among Iowans and should encourage each Iowan to go beyond enlightened self-interest in the protection of groundwater quality.

455E.6 Legal effects—liability.
This chapter supplements other legal authority and shall not enlarge, restrict, or abrogate any remedy which any person or class of persons may have under other statutory or common law and which serves the purpose of groundwater protection. An activity that does not violate chapter 455B does not violate this chapter. In the event of a conflict between this section and another provision of this chapter, it is the intent of the general assembly that this section prevails.

Liability shall not be imposed upon an agricultural producer for the costs of active cleanup, or for any damages associated with or resulting from the detection in the groundwater of any quantity of nitrates provided that application has been in compliance with soil test results and that the applicator has properly complied with label instructions for application of the fertilizer. Compliance with the above provisions may be raised as an affirmative defense by an agricultural producer.

1. A retailer offering for sale or selling a household hazardous material shall have a valid permit for each place of business owned or operated by the retailer for this activity. All permits provided for in this division shall expire on June 30 of each year. Every retailer shall submit an annual application by July 1 of each year and a fee of twenty-five dollars to the department of revenue and finance for a permit upon a form prescribed by the director of revenue and finance. Permits are nonrefundable, are based upon an annual operating period, and are not prorated. A person in violation of this section shall be subject to permit revocation upon notice and hearing. The department shall remit the fees collected to the household hazardous waste account of the groundwater protection fund. A person distributing general use pesticides labeled for agricultural or lawn and garden use with gross annual pesticide sales of less than ten thousand dollars is subject to the requirements and fee payment prescribed by this section.

2. A manufacturer or distributor of household hazardous materials, which authorizes retailers as independent contractors to sell the products of the manufacturer or distributor on a person-to-person basis primarily in the customer’s home, may obtain a single household hazardous materials permit on behalf of its authorized retailers in the state, in lieu of individual permits for each retailer, and pay a fee of twenty-five dollars. However, a manufacturer or distributor which has gross retail sales of three million dollars or more in the state shall pay an additional permit fee of one hundred dollars for each subsequent increment of three million dollars of gross retail sales in the state, up to a maximum permit fee of three thousand dollars.

455F.8 Household hazardous waste cleanup program created.
The department shall conduct programs to collect and dispose of small amounts of hazardous wastes which are being stored in residences or on farms. The program shall be known as “Toxic Cleanup Days”. The department shall promote and conduct the program and shall by contract with a qualified and bonded waste handling company, collect and properly dispose of wastes believed by the person disposing of the waste to be hazardous. The department shall establish maximum amounts of hazardous wastes to be accepted from a person during the “Toxic Cleanup Days” program. Amounts accepted from a person above the maximum shall be limited by the department and may be subject to a fee set by the department, but the department shall not assess a fee for amounts accepted below the maximum amount. The department shall designate the times and dates for the collection of wastes. In any event, the department shall offer the number of days that can be properly and reasonably conducted with funds deposited in the household hazardous waste account. In order to achieve the maximum benefit from the program, the department shall offer “Toxic Cleanup Days” on a statewide basis and provide at least one “Toxic Cleanup Day” in each departmental region. “Toxic Cleanup Days” shall be offered in both rural and urban areas to provide a comparison of response levels and to test the viability of multicounty “Toxic Cleanup Days”. The department may also offer at least one “Toxic Cleanup Day” at a previously serviced location to test the level of residual demand for the event and the effect of the existing public awareness on the program. The department shall prepare
456.1 Jurisdiction to dissolve districts and abandon or transfer improvements.

Drainage or levee districts may be dissolved and abandoned or assimilated by the procedures prescribed by this chapter.

1. When any drainage or levee district is free from indebtedness and it shall appear that the necessity therefor no longer exists or that the expense of the continued maintenance of the ditch or levee is in excess of the benefits to be derived therefrom, the board of supervisors or board of trustees, as the case may be, shall have power and jurisdiction, upon petition of a majority of the land owners, who, in the aggregate, own sixty percent of all land in such district, to abandon the same and dissolve and discontinue such districts in the manner prescribed by sections 456 2 to 456 6.

2. When one drainage or levee district, either intracounty or intercounty, includes within its territory all of the territory of one or more other drainage or levee districts, and it appears that one assessment and one governing body would be to the benefit of the owners and occupants of the land within the mutual jurisdiction of the overlying and the contained districts, the board of supervisors or board of trustees may effect the dissolution of a contained district and the transfer of jurisdiction and control over that contained district's improvements to the overlying district, in the manner prescribed by sections 456 11 to 456 16.

[C35, §7598-g1, C39, §7598.11; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §456 1]

thereof and shall enter an order directing the county auditor, if such district is under the control of the board of supervisors, or the clerk of the board, if under the control of a board of trustees, to immediately cause notice of hearing thereon to be served on the owners of lands in such district as may then be provided by law in proceedings for the establishment of a drainage or levee district.

[C35, §7598 g2, C39, §7598.12; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §456 2]

456.3 Hearing on petition.

At the time set for hearing on said petition the board shall hear and determine the sufficiency of the petition as to form and substance (which petition may be amended at any time before final action thereon), and all objections filed against the abandonment and dissolution of such district. If it shall find that such district is free from indebtedness and that the necessity for the continued maintenance thereof no longer exists or that the expense of the continued maintenance of such district is not commensurate with the benefits derived therefrom, it shall enter an order abandoning and dissolving such district, which order shall be filed with the county auditor of the county or counties in which such district is situated and noted on the drainage record.

[C35, §7598 g3, C39, §7598.13; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §456 3]

456.4 Appeal.

Appeal may be taken from the order of the board to the district court of the county in which such district or a part thereof is situated, in the same time and manner as appeal may be taken from an order of the board of supervisors establishing a district.

[C35, §7598 g4, C39, §7598.14; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §456 4]

456.5 Expense — refund.

In case there are sufficient funds on hand in such district, or there are unpaid assessments outstanding or other property belonging to such district in an amount sufficient to pay such expense, the expense of abandonment and dissolution shall be paid out of such funds or out of funds realized by the sale of such property. Where such district is free of indebtedness but there are not sufficient funds on hand or unpaid assessments outstanding or other assets to pay such expense the board shall assess such expense against the property in the district in the same proportions as the last preceding assessments of benefits. Any excess remaining to the credit of such district after sale of its assets and after payment of such expenses shall be prorated back to the property owners in the district in the proportions according to class and benefits as last assessed. If the petition is denied, the costs of said proceedings shall be paid by the petitioning owners.

[C35, §7598 g6, C39, §7598.15; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §456 5]

If a dissolution is effected pursuant to section 456 1, subsection 1, and sections 456 2 to 456 5, the rights of way of the district for all purposes of the district shall be deemed abandoned.

[C35, §7598 g6, C39, §7598.16; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §456 6]

456.11 Initiating dissolution of contained district.

To initiate the dissolution of a contained district under the circumstances described in section 456 1, subsection 2:

1. The board of supervisors or board of trustees of the district proposed to be dissolved shall enter an order for the proposed dissolution of that district and the surrender of its improvements and rights of way to the overlying district.

2. The board of supervisors or board of trustees of the overlying district shall enter an order approving the proposed acceptance of those improvements and rights of way.

[C81, §456 11]

456.12 Procedure for notice of hearing.

1. The board of the overlying district shall enter an order fixing a place and a time, not less than forty days after the date of the later of the two orders required by section 456 11, for a hearing on the proposals described in the two orders.

2. The auditor, or auditors if the overlying district includes land lying in two or more counties, shall cause notice of the proposals and of the hearing to be given immediately upon the entry of an order under subsection 1. The notice must:

a. Include the texts of the orders entered pursuant to section 456 11, the date, time and place of the hearing, and a statement that all objections to the proposals embodied in the orders must be made in writing and filed in the office of the auditor at or before the time set for the hearing.

b. Be directed to all of the following:

(1) The owner of each tract of land or lot within the overlying district, as shown by the transfer books of the auditor's office, including railway companies having right of way in the district.

(2) All lienholders or encumbrancers of land within the overlying district, without naming them.

(3) All actual occupants of land in the overlying district, without naming individuals.

(4) All other persons whom it may concern.

3. Except as otherwise required by section 455 22, the notice required by this section shall be served by publication once in a newspaper of general circulation in each county in which the overlying district's land is situated. The publication shall be made not less than twenty days prior to the day set for the hearing. Proof of service shall be made by affidavit of the publisher.

[C81, §456 12]

456.13 Procedure at hearing.

The hearing shall be convened at the time and place fixed in accordance with section 456 12, sub
DISSOLUTION OF DRAINAGE DISTRICTS, §456.16

section 1, and the procedure at the hearing shall be as prescribed by this section

1 The board of the contained district shall first hear all objections filed against the dissolution of the district and the surrender of its improvements to the overlying district. If, at the conclusion of that portion of the hearing, that board finds that the contained district is free of debt, that the economic benefits of the continued maintenance of that district would not be commensurate with its cost, and that it would be advantageous to dissolve and discontinue the contained district and surrender its improvements and rights of way to the overlying district, it shall enter an order dissolving the contained district and directing the surrender of its improvements and rights of way, conditioned on acceptance by the overlying district

2 Immediately thereafter, the board of the overlying district shall hear all objections filed against the acceptance of the contained district's improvements and their maintenance. If it finds that the improvements are conducive to the drainage of surface waters from agricultural lands and all other lands in the overlying district or the protection of the lands from overflow, it shall enter an order accepting the improvements and rights of way of the contained district

3 Orders issued pursuant to subsections 1 and 2 shall be filed with the county auditor of the county or counties in which the affected districts are situated and noted on the drainage record

4 If at or before the time set for the hearing there have been filed with the county auditor or auditors, if either the contained or overlying district extends into more than one county, or with the board of either district, one or more remonstrances or objections to the dissolution of the contained district, or to the acceptance of that district's improvements and rights of way by the overlying district, signed by owners of land and land improvements in either district aggregating sixty percent of the total assessed value of the land in that district as shown by the taxing records in the county or counties in which that district is located, the board to which the remonstrances or objections have been made shall abandon its proposed action

[C81, §456.13]

456.14 Election in lieu of hearings.

In lieu of the hearings provided for in section 456.13, the board of either district may call an election for the purpose of determining the dissolution of the contained district or the acceptance of that district's improvements and rights of way by the overlying district. The questions may be submitted at a regular election of the district or at a special election called for that purpose. It is not mandatory for the county commissioner of elections to conduct the elections, however the provisions of sections 49.43 to 49.47, and of chapter 462, as they are applicable, shall govern the elections, and the questions to be submitted shall be set forth in the notice of election

1 If sixty percent or more of the votes cast are in favor of the proposed dissolution of the contained district involved, the board of that district shall enter an order dissolving the contained district and directing the surrender of its improvements and rights of way, conditioned on acceptance by the overlying district

2 If sixty percent or more of the votes cast in the overlying district are in favor of the proposed acceptance by that district of the contained district's improvements and rights of way, the board of the overlying district shall enter an order accepting the improvements and rights of way of the contained district

3 Orders issued pursuant to subsections 1 and 2 shall be filed with the county auditor of the county or counties in which the affected districts are situated and noted on the drainage record

[C81, §456.14]

456.15 Effect of dissolution, surrender and acceptance.

When a contained district dissolves and surrenders its improvements and rights of way to the jurisdiction and control of an overlying district, and the overlying district accepts those improvements and rights of way, in accordance with sections 456.11 to 456.14

1 It is presumed that the classification of the lands which were included in the dissolved district, as previously determined by the commissioners in the classification of those lands as a part of the overlying district, remains equitable and no reclassification of the overlying district or any part of it is necessary

2 The improvements surrendered and accepted are at all times under the supervision of the board of the overlying district, and it is the duty of that board to keep the improvements in repair as provided in section 455.135 as fully and completely as though the improvements were a part of the original construction or improvements in the overlying district

3 It is presumed that

a. The improvements surrendered and accepted are an integral part of the overlying district's improvements, and are a public benefit and conducive to the public health, convenience and welfare

b. No value is taken into consideration for the existing improvements nor is credit given to the parties owning them, and they shall not be considered an asset of the district that is dissolved

4 The original cost and the subsequent cost of improvements in the district that has been dissolved are added to and become a part of the original cost and the subsequent cost of improvements in the overlying district

[C81, §456.15]

456.16 Costs borne by overlying district.

The overlying district shall pay all costs of the proceedings held pursuant to sections 456.11 to 456.14

The person may, however, file it at the time and place of hearing. If the person shall fail to file such claim at the time specified the person shall be held to have waived the person’s right thereto, but claims for land taken for right of way for any open ditch or for settling basins need not be filed.

CHAPTER 461

DRAINAGE AND LEVEE DISTRICTS WITH PUMPING STATIONS

461.1 Authorization.
The board of supervisors of any county or counties in which a drainage or levee district has been organized as by law provided, may establish and maintain a pumping station or stations, when and where the same may be necessary to secure a proper outlet for the drainage of the land comprising the district or any portion thereof, and the cost of construction and maintenance of said pumping station or stations shall be levied upon and collected from the lands in the district benefited by such pumping station or stations, in the same manner as provided for in the construction and maintenance of a drainage or levee district. For the purpose of this paragraph an emergency occurs when ponded or standing water does not freely flow to the outlet ditch and the capacity of the outlet ditch is not fully used.

461.2 Petition — procedure — emergency pumping station.
Such pumping station shall not be established or maintained unless a petition therefor shall be presented to the board signed by not less than one-third of the owners of lands benefited thereby. The lands benefited by such pumping station shall be determined by the board on said petition and report of the engineer, and such other evidence as it may hear. No additional land shall be taken into any such drainage district after the improvements therein have been substantially completed, unless one third of the owners of the land proposed to be annexed have petitioned therefor or consented in writing thereto.

However, the board of supervisors may install a temporary portable pumping station to remove flood waters in an emergency. The board of supervisors shall levy and collect the cost of the purchase, operation and maintenance of the pumping station from the lands in the district benefited by the pumping station in the same manner as provided for in the construction and maintenance of a drainage or levee district. For the purpose of this paragraph an emergency occurs when ponded or standing water does not freely flow to the outlet ditch and the capacity of the outlet ditch is not fully used.

461.3 Additional pumping station.
After the establishment of a drainage district, including a pumping plant, and before the completion of the improvement therein, the board or boards may, if deemed necessary to fully accomplish the purposes of said improvement, by resolution authorize the establishment and maintenance of such additional pumping station or stations as the engineer may recommend, and if a petition is filed by one-third of the owners of land within such district asking the establishment of such pumping plant or plants, the board or boards must direct the engineer to investigate the advisability of the establishment thereof and upon the report of said engineer the board or boards shall determine whether such additional pumping plant or plants shall be established.

461.4 Transfer of pumps.
If the board or boards determine that additional pumping plant or plants shall be established and maintained, a pump or pumps may be removed from any pumping station already established and may be installed in any such additional plant, if such removal can be made without injuring the efficient operation of the plant from which removed.
461.5 Costs.
1. The cost of the establishment of such additional pumping plant or plants shall be paid in the same manner and upon the same basis as is provided for the cost of the original improvement.

2. The board of supervisors or the board of trustees, as the case may be, where the district has been established and the original improvement constructed, may proceed with the further improvement of the original project in the manner provided in section 455.135, provided, however, that the cost of such further improvement does not exceed twenty-five percent of the sum of the original cost to the district and the cost of subsequent improvements, including all federal contributions.

For the purpose of this section the word “improvement” shall include the construction, reconstruction, enlargement and relocation of levees and acquisition of rights of way therefor.

461.6 Dividing districts.
When a drainage district has been created and more than one pumping plant is established therein, the board or boards of supervisors may, and upon petition of one-third of the owners of land within said district shall, appoint an engineer to investigate the advisability of dividing said district into two or more districts so as to include at least one pumping plant in each of such districts.

[C24, 27, 31, 35, 39, §7656; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §461.6]

461.7 Notice — publication.
If the engineer recommends such division the board of supervisors shall fix a time for hearing upon the question of such division and shall publish notice directed to all whom it may concern of the time and place of such hearing, for the time and in the manner as is required for the publication of notice of the establishment of said district, except that said notice need not name the owners and lienholders.

[C24, 27, 31, 35, 39, §7657; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §461.7]

461.8 Hearing — jurisdiction of divided districts.
At the time fixed, the board shall determine the advisability of such division and shall make such order with reference thereto as shall be deemed proper, having consideration for the interests of all concerned. If such division is made, the board or boards having jurisdiction of the original district shall retain jurisdiction of the new districts created by such division for the purpose of collecting assessments theretofore made and making such additional assessments as are necessary to pay the obligations theretofore contracted. 465.18 Repairs.
In case any dispute shall thereafter arise as to the repair of any such drain, the same shall be determined by the county board of supervisors upon application in substantially the same manner as in the original construction thereof. [C73, §1226; C97, §1960; C24, 27, 31, 35, 39, §7732; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §465.18]

465.19 Obstruction.
Any person who shall dam up, obstruct, or in any way injure any ditch or drain so constructed, shall be liable to pay to the person owning or possessing the swamp, marsh, or other lowlands, for the draining of which such ditch or ditches have been opened, double the damages that shall be sustained by the owner, and, in case of a second or subsequent offense by the same person, treble such damages. [C73, §1227; C97, §1961; C24, 27, 31, 35, 39, §7733; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §465.19]

465.20 Drains on abutting boundary lines.
When any watercourse or natural drainage line crosses the boundary line between two adjoining landowners and both parties desire to drain their land along such watercourse or natural drainage line, but are unable to agree as to the junction of the lines of drainage at such boundary line, the board of supervisors of the county in which said land is located shall have full power and authority upon the application of either party to hear and determine all questions arising between such parties after giving due notice to each of the time and place of such hearing, and may render such decision thereon as to said board shall seem just and equitable. [C97, §1962; C24, 27, 31, 35, 39, §7734; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §465.20]

465.21 Boundary between two counties.
If any controversy referred to in section 465.20 relates to a boundary line between adjoining owners which is also the boundary line between two counties, then such controversy shall be determined by the joint action of the boards of supervisors in said two adjoining counties, and all the proceedings shall be the same as provided in section 465.20 except that it shall be by the joint action of the boards of the two counties. [C24, 27, 31, 35, 39, §7735; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §465.21]

465.22 Drainage in course of natural drainage — reconstruction — damages.
Owners of land may drain the land in the general course of natural drainage by constructing or reconstructing open or covered drains, discharging the drains in any natural watercourse or depression so the water will be carried into some other natural watercourse, and if the drainage is wholly upon the owner's land the owner is not liable in damages for the drainage unless it increases the quantity of water or changes the manner of discharge on the land of another. An owner in constructing a replacement drain, wholly on the owner's land, and in the exercise of due care, is not liable in damages to another if a previously constructed drain on the owner's own land is rendered inoperative or less efficient by the new drain, unless in violation of the terms of a written contract. This section does not affect the rights or liabilities of proprietors in respect to running streams. [S13, §1989-a53; C24, 27, 31, 35, 39, §7736; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §465.22]

465.23 Drainage connection with highway.
When the course of natural drainage of any land
runs to a public highway, the owner of such land shall have the right to enter upon such highway for the purpose of connecting the owner's drain or ditch with any drain or ditch constructed along or across the said highway, but in making such connections, the owner shall do so in accordance with specifications furnished by the highway authorities having jurisdiction thereof, which specifications shall be furnished to the owner on application. The owner shall leave the highway in as good condition in every way as it was before the said work was done.

If a tile line or drainage ditch must be projected across the right of way to a suitable outlet, the expense of both material and labor used in installing the tile line or drainage ditch across the highway and any subsequent repair thereof shall be paid from funds available for the highways affected.

465.24 Private drainage system — record.

Any person who has provided a system of drainage on land owned by the person may have the same made a matter of record in the office of the county recorder of the county in which the drainage system is located, provided any drainage system constructed after July 1, 1969, shall be made a matter of record, as is hereinafter provided.

465.25 Drainage plat book.

The county recorder shall be provided with a loose-leaf plat book, made to scale, for each section of the land within the county in which such records shall be made. Such plat book shall consist of sheets of paper interbound by sheets of tracing cloth with proper heading, margin, and binding edge. Said plat book shall be used for keeping a record of drainage systems filed by any landowner. Plats so offered for record shall be drawn to scale on paper measuring eight and one half by eleven inches, giving distances in feet and indicating the size of tile used, length and location of tile lines as installed with reference to government corners and subdivisions.

465.26 Record book and index.

The county recorder shall also be provided with a record book and index referring to the plats provided for in section 465.25, and which may be used to give the owner's name, description of tracts of land drained, stating the time when drainage system was established, the kind, quality, and brand of tile used, the name and place of manufacturing plant, the name of contractors who laid the tile, the name of the engineer in charge of the survey and installation, the cost of tile, delivery, installation, and engineering expense, depths, grades, outlets, connections, contracts for agreements with adjoining landowners as to connections, and any other matters or information that may be considered of value, all of said information to be furnished by the landowner or the engineer having charge of the installation of the same and certified to under oath.

465.27 Original plat filed.

In lieu of making the record as herein provided any landowner may file with the county recorder the original plat used in the establishment of said drainage system, or a copy thereof, which shall be certified by the engineer having made the same.

465.28 Record not part of title.

The drainage records herein provided for shall not be construed as an essential part of the title to said lands, but may upon request be set out by abstractors as part of the record title of said lands.

465.29 Fees for record and copies.

The county recorder shall be entitled to collect fees for the filing and information heretofore provided for, and for the making of copies of such records the same as is provided for other work of a similar nature.

465.30 Lost records — hearing.

When the records of any mutual drain are incomplete or have been lost, or when the owner of any land affected by such mutual drain believes that the apportionment of costs or damages is inequitable or that repair or reconstruction is needed, such owner may petition the board of supervisors for relief. The board shall notify all affected parties of such petition, and set a date for a hearing on the petition. The board may adjourn the proceedings from day to day, but no adjournment shall be for more than ten days, and may order such engineering examinations, reclassifications of lands and appraisals of damages as they deem necessary. At the completion of the hearing the supervisors shall re-establish the original records or establish a revised record and basis for apportionment of costs and damages as they find equitable and advisable, and may order such repairs or reconstruction as they find to be needed. All cost of such re-establishment or revisions of records, and of the needed repair or reconstruction shall be apportioned in accordance with the basis established.

465.31 Mutual drains — establishment as district.

Whenever a landowner fails to pay the cost apportioned as provided in section 465.30, or whenever a repair or reconstruction ordered as provided in said section is not made within reasonable time, and in such other instances as the board of supervisors desires, the board by resolution shall establish such mutual drain as a drainage district, all proceedings
thereafter shall be as provided for other legally established districts.

§465.32 Appeal.
The decisions and actions of the board of supervisors under section 465.31 may be appealed as provided in sections 465.9, 465.10 and 465.11.

§465.33 Record filed with established district.
When the lands served by a mutual drain are within the boundary of an established drainage district, a complete record of the proceeding relating to such mutual drain shall be filed with and as a part of, the records of such established district.

§465.34 Lost or incomplete records.
If the records referred to in section 465.33 are incomplete or have been lost, the board may re-establish such records so as to proportion future costs and damages in proportion to the benefits and damages received because of the construction of such mutual drains and improvements thereof, and may order such surveys, engineering reports, reclassification of lands and appraisal of damages as they deem necessary. All costs of such proceedings shall be assessed against the benefited lands.

§465.35 Petition to combine with established district.
Upon receipt of a petition, signed by the owners of the lands served by a mutual drain, requesting that such drain be combined with an established drainage district, the board shall hold a hearing with due notice to the owners of all lands affected by said mutual drain, and if the board finds it desirable it may by resolution make such mutual drains a part of the established district. Such hearing and resolution may be continued as the board deems necessary for the collection of additional information as provided in section 465.34. Such combination with an established district shall constitute dissolution of the mutual drain, and shall be so recorded, after which such mutual drain shall be a part of the district drain in all respects.

CHAPTER 466
DRAINAGE DISTRICTS IN CONNECTION WITH UNITED STATES LEVEES

466.1 United States levees — co-operation of board.
In any case where the United States has built or shall build a levee along or near the bank of a navigable stream forming a part of the boundary of this state, the board of supervisors of any county through which the same may pass shall have the power to aid in procuring the right of way for and maintaining said levee, and providing a system of internal drainage made necessary or advisable by the construction thereof. Such improvement shall be presumed to be conducive to the public health, convenience, welfare, or utility.

[§466.1]

466.2 Manner of co-operation.
Any United States government levee under the conditions mentioned in section 466.1 may be taken into consideration by the board as a part of the plan of any levee or drainage district and improvements therein, and such board may, by agreement with the proper authorities of the United States government, provide for payment of such just and equitable portion of the costs of procuring the right of way and maintenance of such levee as shall be conducive to the public welfare, health, convenience, or utility.

[§466.2]

466.3 Report of engineer — payment authorized.
In the proceedings to establish such a district the engineer shall set forth in the engineer's report, separately from other items, the amount of the cost for the right of way of such levee, of constructing and maintaining the same; and if the plan is approved and the district finally established in connection

with such levee, the board shall make a record of any such co-operative arrangement and may use such part of the funds of the district as may be necessary to pay the amount so agreed upon toward the right of way and maintenance of such levee.

[C97, §1976; C24, 27, 31, 35, 39, §7746; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §466.3]

### 466.4 Costs assessed.

If said district is established, the entire costs and expenses incurred under this chapter shall be assessed against and collected from the lands lying within such district, by the levy of a rate upon the assessable value of the land and improvements within such district, sufficient to raise the required sum; provided the board may, in their discretion, classify the land within such district and graduate the tax thereon, as provided in chapter 455.

[C97, §1982; S13, §1982; C24, 27, 31, 35, 39, §7747; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §466.4]

### 466.5 Annual installments.

If the proposed improvement is the maintenance of a levee, the amount collected in any one year shall not exceed three dollars and thirty-seven and one-half cents per thousand dollars of the assessment valuation, which said assessment shall be levied at a level rate on the assessable value of the said lands, improvements, easements, and railroads within the district. If the amount necessary to pay for the improvement exceeds said sum, it shall be levied and collected in annual installments of twenty or less.

For all other improvements, the board shall levy a rate sufficient to pay for the same, and may, at their discretion, make the same payable in annual installments of twenty or less.

[C97, §1984; C24, 27, 31, 35, 39, §7748; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §466.5]

### 466.6 Collection of tax.

The assessment required under sections 466.4 and 466.5 shall be made by the board of supervisors at the time of levying general taxes, after the work has been authorized, and the same shall be entered on the records of the board of supervisors, then entered on the tax books by the county auditor as drainage taxes, and shall be collected by the county treasurer at the same time, in the same manner, and with the same penalties, as general taxes; and if the same is not paid the county treasurer shall sell all such lands upon which such assessment remains unpaid, at the same time, and in the same manner, as is now by law provided for the sale of lands for delinquent taxes, including all steps up to the execution and delivery of the tax deed for the same. The landowners shall take notice of and pay such assessments without other or further notice than such as is provided for in this chapter. The funds realized from such assessments shall constitute the drainage fund, as contemplated in this chapter, and shall be disbursed on warrants drawn against that fund by the county auditor, on the order of the board of supervisors.

[C97, §1983; C24, 27, 31, 35, 39, §7749; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §466.6]

### 466.7 Cost of maintaining.

The board of supervisors shall have the right and power to keep and maintain any such levee, ditches, drains, or system of drainage, either in whole or in part, established under sections 466.1 to 466.6, as may in their judgment be required, and to levy the expense thereof upon the real estate within such drainage district as herein provided for, and collect and expend the same; provided, however, that no such work which shall impose a tax exceeding three dollars and thirty-seven and one-half cents per thousand dollars on the assessable value of the lands and improvements within the district shall be authorized by them, unless the same is first petitioned for and authorized in substantially the manner required by this chapter for the inauguration of new work except that if such work is of the kinds contemplated by section 455.135, and the cost thereof is within the limitations of said section, or is of the kinds contemplated by section 455.201, and the cost thereof is within the limitations of said section, then the provisions of section 455.135 or section 455.201 shall supersedes the limitations of this section.

[C97, §1986; C24, 27, 31, 35, 39, §7750; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §466.7]

### 466.8 Laws applicable.

In the establishment and maintenance of levee and drainage districts in co-operation with the United States as in this chapter provided, all the proceedings in the filing and the form and substance of the petition, assessment of damages, appointment of an engineer, the engineer's surveys, plats, profiles, and report, notice of hearings, filing of claims and objections, hearings, appointment of commissioners to classify lands, assess benefits, and apportion costs and expenses, report, notice and hearing on the report, the appointment of a supervising engineer, the engineer's duties, the letting of work and making contracts, payment for work, levy and collection of drainage or levee assessments and taxes, the issue of improvement certificates and drainage or levee bonds, the taking of appeals and the manner of trial of appeals, and all other proceedings relating to the district shall be as provided in chapters 455 and 456 through 456 except as otherwise in this chapter provided.

83 Acts, ch 101, §101
CHAPTER 467

INTERSTATE DRAINAGE DISTRICTS

467.1 Co-operation — procedure.
When proceedings for the drainage of lands bordering upon the state line are had and the total cost of constructing the improvement in this state, including all damage, has been ascertained, and the engineer in charge, before the final establishment of the district, reports that the establishment and construction of such improvement ought to be jointly done with like proceedings for the drainage of lands in the same drainage area in such an adjoining state and that drainage proceedings are pending in such state for the drainage of such lands, the said authorities of this state may enter an order continuing the hearing on the establishment of such district to a fixed date, of which all parties shall take notice.

467.2 Agreement as to costs.
The board shall have power, when the total cost, including damages, of constructing the improvement in such other state has been ascertained by the authorities of such other state, to enter into an agreement as to the separate amounts which the property owners of each state should in equity pay toward the construction of the joint undertaking. When such amount is thus determined, the board or boards having jurisdiction in this state shall enter the same in the minutes of their proceedings and shall proceed therewith as though such amount to be paid by the portion of the district in this state had been originally determined by them as the cost of constructing the improvement in this state.

467.3 Contracts let by joint agreement.
When the bids for construction are opened, unless the construction work on each side of the line can go forward independently, no contract shall be let by the authorities in this state, unless the acceptance of a bid or bids for the construction of the whole project is first jointly agreed upon by the authorities of both states.

467.4 Separate contracts.
The contract or contracts for the construction of that portion of the improvement within this state shall be entirely distinct and separate from the contract or contracts let by the authorities of the neighboring state, but the aggregate amount of the contract or contracts for the construction of the work within this state shall not exceed an amount equal to the amount of the benefits assessed in this state including damages and other expenses.

467.5 Conditions precedent.
No contract shall be let until the improvement shall be finally established in both states, and after the final adjustment in both states of damages and benefits. No bonds shall be issued until all litigation in both states arising out of said proceedings has been finally terminated by actual trial or agreements, or the expiration of all right of appeal.

467.6 Assessments, bonds and costs — limitation.
All proceedings except as provided in this chapter in relation to the establishment, construction, and management of interstate drainage districts shall be as provided for the establishment and construction of districts wholly within this state as provided in chapter 455. All such proceedings shall relate only to the lands of such district which are located wholly within this state. Boards having jurisdiction in this state may make just and equitable agreements with like authorities in such adjoining state for the joint management, repair, and maintenance of the entire improvement, after the establishment and completed construction thereof.

467A.4 Soil conservation division — committee.

1 The soil conservation division is established within the department to perform the functions conferred upon it in chapters 83, 83A, and 467A through 467D *. The division shall be administered in accordance with the policies of the state soil conservation committee, which shall advise the division and which shall approve administrative rules proposed by the division for the administration of chapters 83, 83A, and 467A through 467D* before the rules are adopted pursuant to chapter 17A. The state soil conservation committee consists of a chairperson and ten other members. The following shall serve as ex officio nonvoting members of the committee:

The director of the Iowa cooperative extension service in agriculture and home economics, or the director's designee, and the director of the department of natural resources or the director's designee.

Nine voting members shall be appointed by the governor subject to confirmation by the senate. Six of the appointive members shall be persons engaged in actual farming operations, one of whom shall be a resident of each of the six water resource districts established by section 467D 3, and no more than one of whom shall be a resident of any one county. The seventh, eighth, and ninth appointive members shall be chosen by the governor from the state at large with one appointed to be a representative of cities, one appointed to be a representative of the mining industry, and one appointee who is a farmer actively engaged in tree farming operations. The committee may invite the secretary of agriculture of the United States to appoint one person to serve with the other members, and the president of the Iowa county engineers association may designate a member of the association to serve in the same manner, but these persons have no vote and shall serve in an advisory capacity only.

2 The committee or division may call upon the attorney general of the state for necessary legal services. 2. The governing body of each district shall consist of five commissioners elected on a nonpartisan basis for staggered six-year terms commencing on the first day of January that is not a Sunday or holiday following their election. Any eligible elector residing in the district is eligible to the office of commissioner, except that no more than one commissioner shall at any one time be a resident of any one township. A vacancy is created in the office of any commissioner who changes residence into a township where another commissioner then resides. A vacancy in the office of commissioner shall be filled by appointment of the state soil conservation committee until the next succeeding general election, at which time the balance of the unexpired term shall be filled as provided by section 69.12.

3. At each general election a successor shall be chosen for each commissioner whose term will expire in the succeeding January. Nomination of candidates for the office of commissioner shall be made by petition in accordance with chapter 45, except that each candidate's nominating petition shall be signed by at least twenty-five eligible electors of the district. The petition form shall be furnished by the county commissioner of elections. Every candidate shall file with the nomination papers an affidavit stating the candidate's name, the candidate's residence, that the person is a candidate and is eligible for the office of commissioner, and that if elected the candidate will qualify for the office. An eligible elector shall not in any one year sign the nominating petitions of a number of candidates greater than the number of commissioners to be elected in that year. The signed petitions shall be filed with the county commissioner of elections not later than five o'clock p.m. on the fifty-fifth day prior to the general election. The votes for the office of district commissioner shall be canvassed in the same manner as the votes for county officers, and the returns shall be certified by the county commissioner of elections.

The results of such surveys, investigations or research, and to disseminate information concerning such preventive and control measures; provided, A soil and water conservation district organized under this chapter has the following powers, in addition to others granted in other sections of this chapter:

1. To conduct surveys, investigations, and research relating to the character of soil erosion and erosion, floodwater, and sediment damages, and the preventive and control measures needed, to publish the results of such surveys, investigations or research, and to disseminate information concerning such preventive and control measures; provided,
however, that in order to avoid duplication of research activities, no district shall initiate any research program except in co-operation with the Iowa agricultural experiment station located at Ames, Iowa, and pursuant to a co-operative agreement entered into between the Iowa agricultural experiment station and such district.

2. To conduct demonstrational projects within the district on lands owned or controlled by this state or any of its agencies, with the consent and co-operation of the agency administering and having jurisdiction thereof, and on any other lands within the district upon obtaining the consent of the owner or occupier of such lands or the necessary rights or interests in such lands, in order to demonstrate by example the means, methods, and measures by which soil and soil resources may be conserved, and soil erosion in the form of soil blowing and soil washing may be prevented and controlled; provided, however, that in order to avoid duplication of agricultural extension activities, no district shall initiate any demonstrational projects, except in co-operation with the Iowa agricultural extension service whose offices are located at Ames, Iowa, and pursuant to a co-operative agreement entered into between the Iowa agricultural extension service and such district.

3. To carry out preventive and control measures within the district, including, but not limited to, crop rotations, engineering operations, methods of cultivation, the growing of vegetation, changes in use of land, and the measures listed in section 467A.2, on lands owned or controlled by this state or any of its agencies, with the consent and co-operation of the agency administering and having jurisdiction thereof, and on any other lands within the district, upon obtaining the consent of the owner or occupier of such lands or the necessary rights or interests in such lands. Any approval or permits from the council required under other provisions of law shall be obtained by the district prior to initiation of any construction activity.

4. To co-operate, or enter into agreements with, and within the limits of appropriations duly made available to it by law, to furnish financial or other aid to any agency, governmental or otherwise, or any owner or occupier of lands within the district, in the carrying on of erosion-control and watershed protection and flood prevention operations within the district, subject to such conditions as the commissioners may deem necessary to advance the purposes of this chapter.

5. To obtain options upon and to acquire, by purchase, exchange, lease, gift, grant, bequest, devise or otherwise, any property, real or personal, or rights or interests therein; to maintain, administer, and improve any properties acquired, to receive income from such properties and to expend such income in carrying out the purposes and provisions of this chapter; and to sell, lease or otherwise dispose of any of its property or interests therein in furtherance of the purposes and provisions of this chapter.

6. To make available on such terms as it shall prescribe, to landowners or occupiers within the district, agricultural and engineering machinery and equipment, fertilizer, lime, and such other material or equipment as will assist such landowners or occupiers to carry on operations upon their lands for the conservation of soil resources and for the prevention and control of soil erosion and for the prevention of erosion, floodwater, and sediment damages.

7. To construct, improve, and maintain such structures as may be necessary or convenient for the performance of any of the operations authorized in this chapter. Any approval or permits from the council required under other provisions of law shall be obtained by the district prior to initiation of any construction activity.

8. To develop comprehensive plans for the conservation of soil resources and for the control and prevention of soil erosion and for the prevention of erosion, floodwater, and sediment damages within the district, which plans shall specify in such detail as may be possible, the acts, procedures, performances, and avoidances which are necessary or desirable for the effectuation of such plans, including the specification of engineering operations, methods of cultivation, the growing of vegetation, cropping programs, tillage practices, and changes in use of land; and to publish such plans and information and bring them to the attention of owners and occupiers of lands within the district.

9. To sue and be sued in the name of the district; to have a seal, which seal shall be judicially noticed; to have perpetual succession unless terminated as hereinafter provided; to make and execute contracts and other instruments, necessary or convenient to the exercise of its powers; to make, and from time to time amend and repeal, rules not inconsistent with this chapter, to carry into effect its purposes and powers.

10. To accept donations, gifts, and contributions in money, services, materials, or otherwise, from the United States or any of its agencies, or from this state or any of its agencies, and to use or expend such moneys, services, materials, or other contributions in carrying on its operations.

11. As a condition to the extending of any benefits under this chapter to, or the performance of work upon, any lands not owned or controlled by this state or any of its agencies, the commissioners may require contributions in money, services, materials, or otherwise to any operations conferring such benefits, and may require landowners or occupiers to enter into and perform such agreements or covenants as to the permanent use of such lands as will tend to prevent or control erosion thereon.

12. No provisions with respect to the acquisition, operation, or disposition of property by other public bodies shall be applicable to a district organized hereunder unless the legislature shall specifically so state.

13. After the formation of any district under the provisions of this chapter, all participation hereunder shall be purely voluntary, except as specifically stated herein.

14. Subject to the approval of the state soil conservation committee, to change the name of the soil and water conservation district.
15. To take notice of the water resource district* plan, and conform to the duly promulgated rules of the water resource district or water resource districts* in which the soil and water conservation district is located. However, this subsection does not grant authority not otherwise granted by law to the commissioners of soil and water conservation districts.

16. The commissioners shall, as a condition for the receipt of any state cost-sharing funds for permanent soil conservation practices, require the owner of the land on which the practices are to be established to covenant and file, in the office of the soil and water conservation district of the county in which the land is located, an agreement identifying the particular lands upon which the practices for which state cost-sharing funds are to be received will be established, and providing that the project will not be removed, altered, or modified so as to lessen its effectiveness without the consent of the commissioners, obtained in advance and based on guidelines drawn up by the state soil conservation committee, for a period of twenty years after the date of receiving payment. The commissioners shall assist the division in the enforcement of this subsection. The agreement does not create a lien on the land, but is a charge personally against the owner of the land at the time of removal, alteration, or modification if an administrative order is made under section 467A.61, subsection 3.

17. To enter into special funding agreements which, notwithstanding subsection 4, provide for cost sharing up to sixty percent of the cost of a project including five or more contiguous farm units which have at least five hundred or more acres of farmland and which constitute at least seventy-five percent of the agricultural land lying within a watershed or subwatershed, where the owners jointly agree to a watershed conservation plan in conjunction with their respective farm unit soil conservation plans.

18. To encourage local school districts to provide instruction in the importance of and in some of the basic methods of soil conservation, as a part of course work relating to conservation of natural resources and environmental awareness required in rules adopted by the state board of education pursuant to section 256.11, subsections 3 and 4, and to offer technical assistance to schools in developing such instructional programs.

19. To make incentive payments to encourage summer construction of permanent soil and water conservation practices, provided that the commissioners of a soil conservation district shall not use state cost-sharing funds to pay such incentives in any fiscal year when requests which seek cost sharing for eligible permanent soil and water conservation practices, but which do not seek incentive payments under this subsection, are sufficient to use all of the state cost-sharing funds made available to the district for that year. Incentive payments made under this subsection may, notwithstanding subsection 4, provide for cost sharing up to sixty percent of the cost of establishing any permanent soil and water conservation practice where the establishment of that practice involves a construction project which begins after June 1 but before August 15 of any calendar year. Incentive payments under this subsection may also include, or may be limited to a pro rata amount, in accordance with rules of the department, to compensate for production loss on the area disturbed for construction of practices.

20. To develop a soil and water resource conservation plan for the district.

a. The district plan shall contain a comprehensive long-range assessment of soil and surface water resources in the district consistent with rules approved by the committee under section 467A.4. In developing the plan the district may receive technical support from the United States department of agriculture's soil conservation service and the county board of supervisors in the county where the district is located. The division and the Iowa cooperative extension service in agriculture and home economics may provide technical support to the district. The support may include, but is not limited to, the following: assessing the condition of soil and surface water in the district, including an evaluation of the type, amount, and quality of soil and water, the threat of soil erosion and erosion, floodwater, and sediment damages, and necessary preventative and control measures; developing methods to maintain or improve soil and water condition; and cooperating with other state and federal agencies to carry out this support.

b. The district plan shall be filed with the recorder in the county in which the district is located and shall be filed with the division as part of the state soil and water resource conservation plan, and amended or updated as necessary, after the committee approves the district plan and after the administrator of the division signs the district plan. The commissioners shall provide notice of the filing and may provide a copy of the approved district plan to the county board of supervisors in the county where the district is located.

21. To enter into agreements pursuant to chapter 467F with the owner or occupier of land within the district or cooperating districts, or any other private entity or public agency, in carrying out water protection practices, including district and multidistrict projects to protect this state's groundwater and surface water from point and nonpoint sources of contamination, including but not limited to agricultural drainage wells, sinkholes, sedimentation, and chemical pollutants.

467A.8 Co-operation between districts.
The commissioners of any two or more districts organized under the provisions of this chapter may co-operate with one another in the exercise of any or all powers conferred in this chapter.
[C39, §2603.10; C46, §160 8, C50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §467A 8]

467A.9 State agencies to co-operate.
Agencies of this state which shall have jurisdiction over, or be charged with the administration of, any state-owned lands, and of any county, or other governmental subdivision of the state, which shall have jurisdiction over, or be charged with the administration of, any county-owned or other publicly owned lands, lying within the boundaries of any district organized hereunder, may co-operate to the fullest extent with the commissioners of such districts in the effectuation of programs and operations undertaken by the commissioners under the provisions of this chapter.
[C39, §2603.11; C46, §160 9, C50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §467A 9]

467A.10 Discontinuance of districts.
At any time after five years after the organization of a district under this chapter, any twenty-five owners of land lying within the boundaries of the district, but in no case less than twenty percent of the owners of land lying within the district, may file a petition with the division asking that the operations of the district be terminated and the existence of the district discontinued. The committee may conduct public meetings and public hearings upon the petition as necessary to assist in the consideration of the petition. Within sixty days after a petition has been received by the division, the division shall give due notice of the holding of a referendum, shall supervise the referendum, and shall issue appropriate rules governing the conduct of the referendum, the question to be submitted by ballots upon which the words "For terminating the existence of the (name of the soil and water conservation district to be here inserted)" and "Against terminating the existence of the (name of the soil and water conservation district to be here inserted)" shall be printed, with a square before each proposition and a direction to insert an X mark in the square before one or the other of the propositions as the voter favors or opposes discontinuance of the district. All owners of lands lying within the boundaries of the district are eligible to vote in the referendum. No informalities in the conduct of the referendum or in any matters relating to the referendum invalidate the referendum or the result of the referendum if notice was given substantially as provided in this section and if the referendum was fairly conducted.

When sixty-five percent of the landowners vote to terminate the existence of the district, the division shall advise the commissioners to terminate the affairs of the district. The commissioners shall dispose of all property belonging to the district at public auction and shall pay over the proceeds of the sale to be deposited into the state treasury. The commissioners shall then file an application, duly verified, with the secretary of state for the discontinuance of the district, and shall transmit with the application the certificate of the division setting forth the determination of the division that the continued operation of the district is not administratively practicable and feasible. The application shall recite that the property of the district has been disposed of and the proceeds paid over as provided in this section, and shall set forth a full accounting of the properties and proceeds of the sale. The secretary of state shall issue to the commissioners a certificate of discontinuance and shall record the certificate in an appropriate book of record in the secretary of state's office.

Upon issuance of a certificate of discontinuance under this section, all ordinances and regulations previously adopted and in force within the districts are of no further force and effect. All contracts previously entered into, to which the district or commissioners are parties, remain in force and effect for the period provided in the contracts. The division is substituted for the district or commissioners as party to the contracts. The division is entitled to all benefits and subject to all liabilities under the contracts and has the same right and liability to perform, to require performance, to sue and be sued, and to modify or terminate the contracts by mutual consent or otherwise, as the commissioners of the district would have had.

The division shall not entertain petitions for the discontinuance of any district nor conduct referenda upon discontinuance petitions nor make determinations pursuant to the petitions in accordance with this chapter, more often than once in five years.

DIVISION III

SUBDISTRICTS

467A.13 Purpose of subdistricts.
Subdistricts of a soil and water conservation district may be formed as provided in this chapter for the purposes of co-operating with water resource districts* and of carrying out watershed protection and flood prevention programs within the subdistrict but shall not be formed solely for the purpose of establishing or taking over the operation of an existing drainage district.

467A.14 Petition to form.
When the landowners in a proposed subdistrict desire that a subdistrict be organized, they shall file a petition with the commissioners of the soil and water conservation district. The area must be contiguous and in the same watershed but it shall not include any area located within the boundaries of an incorporated city. The petition shall set forth an intelligible description by congressional subdivision, or otherwise, of the land suggested for inclusion in the subdistrict and shall state whether the special annual tax or special benefit assessments will be used, or whether the use of both is contemplated. The petition shall contain a brief statement giving the reasons for organization, and requesting that the proposed area be organized as a subdistrict, and must be signed by sixty-five percent of the landowners in the proposed subdistrict. Land already in one subdistrict cannot be included in another. The soil and water conservation district commissioners shall review the petition and if it is found adequate shall arrange for a hearing on it.

467A.15 Notice and hearing.
Within thirty days after a petition has been filed with the soil and water district commissioners, they shall fix a date, hour, and place for a hearing and direct the secretary to cause notice to be given to the owners of each tract of land, or lot, within the proposed subdistrict as shown by the transfer books of the auditor's office, and to each lienholder, or encumbrancer, of any such lands as shown by the county records, and to all other persons whom it may concern, and without naming individuals all actual occupants of land in the proposed subdistrict, of the pendency and purpose of the petition and that all objections to establishment of the subdistrict for any reason must be made in writing and filed with the secretary of the soil and water conservation district at, or before, the time set for hearing. The soil and water conservation district commissioners shall consider and determine whether the operation of the subdistrict within the defined boundaries as proposed is desirable, practicable, feasible, and of necessity in the interest of health, safety, and public welfare. All interested parties may attend the hearing and be heard. The soil and water district commissioners may for good cause adjourn the hearing to a day certain which shall be announced at the time of adjournment and made a matter of record. If the soil and water district commissioners determine that the petition meets the requirements set forth in this section and in section 467A.5, they shall declare that the subdistrict is duly organized and shall record such action in their official minutes together with an appropriate official name or designation for the subdistrict.

467A.16 Publication of notice.
The notice of hearing on the formation of a subdistrict shall be by publication once each week for two consecutive weeks in some newspaper of general circulation published in the county or district, the last of which shall be not less than ten days prior to the day set for the hearing on the petition. Proof of such service shall be made by affidavit of the publisher, and be on file with the secretary of the district at the time the hearing begins.

467A.17 Subdistrict in more than one district.
If the proposed subdistrict lies in more than one soil and water conservation district, the petition may be presented to the commissioners of any one of such districts, and the commissioners of all such districts shall act jointly as a board of commissioners with respect to all matters concerning the subdistrict, including its formation. They shall organize as a single board for such purposes and shall designate its chairperson, vice chairperson, and secretary-treasurer to serve for terms of one year. Such a subdistrict shall be formed in the same manner and has the same powers and duties as a subdistrict formed in one soil and water conservation district.

467A.18 Authentication.
Following the entry in the official minutes of the soil and water district commissioners of the creation of the subdistrict, the commissioners shall certify this fact on a separate form, authentic copies of which shall be recorded with the county recorder of each county in which any portion of the subdistrict lies, and with the division of soil conservation.

467A.19 Governing body.
The commissioners of a soil and water conservation district in which the subdistrict is formed are the governing body of the subdistrict. The governing body of the subdistrict shall appoint three trustees living within the subdistrict to assist with the administration of the subdistrict.

467A.20 Special annual tax.
After obtaining agreements to carry out recommended soil conservation measures and proper farm plans from owners of not less than fifty percent of the lands situated in the subdistrict, a subdistrict shall have the authority to impose a special annual tax, the proceeds of which shall be used for the repayment of actual and necessary expenses incurred to organize the subdistrict, to acquire land or rights or interests therein by purchase or condemnation, repair, alteration, maintenance and operation of the present and future works of improvement within its boundaries.
On or before January 10 of each year its governing body shall make an estimate of the amount it deems necessary to be raised by such special tax for the ensuing year and transmit said estimate in dollars to the board of supervisors of the county in which the subdistrict lies.
If portions of the subdistrict are in more than one county, then the governing body, as hereinafter designated in such event, after arriving at the estimate in dollars deemed necessary for the entire subdistrict shall ratably apportion such amount between the counties and transmit and certify the prorated portion to the respective boards of supervisors of each of the counties.
The board or boards of supervisors shall upon receipt of certification from the governing body of the district make the necessary levy on the assessed valuation of all real estate within the boundaries of the subdistrict lying within their respective county to raise said amounts, but in no event to exceed one dollar and eight cents per thousand dollars of assessed value.
The special tax so levied shall be collected in the same manner as other taxes with like penalty for delinquency, with the proceeds therefrom to be kept in a separate account by the appropriate county treasurer or treasurers identified by the official name of the subdistrict and expenditures therefrom shall be made on requisition of the chairperson and secretary of the governing body of the subdistrict.

467A.22 General powers applicable — warrants or bonds.
A subdistrict organized under this chapter has all of the powers of a soil and water conservation district in addition to other powers granted to the subdistrict in other sections of this chapter.
The governing body of the subdistrict, upon determination that benefits from works of improvement as set forth in the watershed work plan to be installed will exceed costs thereof, and that funds needed for purposes of the subdistrict require levy of a special benefit assessment as provided in section 467A.23, in lieu of the special annual tax as provided in section 467A.20, shall record its decision to use its taxing authority and, upon majority vote of the governing body and with the approval of the state soil conservation committee, may issue warrants or bonds payable in not more than forty semiannual installments in connection with the special benefit assessment, and pledge and assign the proceeds of the special benefit assessment and other revenues of the subdistrict as security for the warrants or bonds. The warrants and bonds of indebtedness are general obligations of the subdistrict, exempt from all taxes, state and local, and are not indebtedness of the soil and water conservation district or the state of Iowa.

FOR WATERSHED PROTECTION
AND FLOOD PREVENTION

467A.23 Agreement by fifty percent of landowners.
After obtaining agreements to carry out recommended soil conservation measures and proper farm plans from owners of not less than fifty percent of the lands situated in the subdistrict, the governing body of the subdistrict shall have the authority to establish a special tax for the purpose of organization, construction, repair, alteration, enlargement, extension and operation of present and future works of improvement within the boundaries of said subdistrict. The governing body shall appoint three appraisers to assess benefits and classify the land affected by such improvements. One of such appraisers shall be a competent registered professional engineer and two of them shall be resident landowners of the county or counties in which the subdistrict is located but not living within nor owning or operating any lands included in said subdistrict.
The appraisers shall take and subscribe an oath of their qualifications and to perform the duties of classification of said lands, fix the percentages, benefits and apportion and assess the costs and expenses of construction of the said improvement according to law and their best judgment, skill, and ability. If said appraisers or any of them fail or neglect to act or perform the duties in the time and as required of them by law, the governing body of the

Subdistrict shall appoint others with like qualifications to take their places and perform said duties.

[C62, 66, 71, 73, 75, 77, 79, 81, §467A.23]

467A.24 Assessment for improvements.
At the time of appointing said appraisers, the governing body shall fix the time within which said assessment, classification, and apportionment shall be made, which may be extended for good cause shown. Within twenty days after their appointment, they shall begin to inspect and classify all the lands within said district, or any change, extension, enlargement, or relocation thereof in tracts of forty acres or less according to the legal or recognized subdivisions, in a graduated scale of benefits to be numbered according to the benefit to be received by each of such tracts from such improvement, and pursue said work continuously until completed and, when completed, shall make a full, accurate, and detailed report thereof and file the same with the governing body. The lands receiving the greatest benefit shall be marked on a scale of one hundred, and those benefited in a less degree with such percentage of one hundred as the benefits received bear in proportion thereto.

The amount of benefit appraised to each forty acres of land within the subdistrict shall be determined by the improvements within said subdistrict based upon the work plan as agreed upon by the governing body. The lands receiving the greatest benefit shall be marked on a scale of one hundred, and those benefited in a less degree with such percentage of one hundred as the benefits received bear in proportion thereto.

The amount of benefit appraised to each forty acres of land within the subdistrict shall be determined by the improvements within said subdistrict based upon the work plan as agreed upon by the governing body.

[C62, 66, 71, 73, 75, 77, 79, 81, §467A.24]

In the report of the appraisers so appointed they shall specify each tract of land by proper description, and the ownership thereof, as the same appears on the transfer books in the auditor's office.

[C62, 66, 71, 73, 75, 77, 79, 81, §467A.25]

467A.26 Hearing.
The governing body shall fix a time for a hearing within sixty days upon receiving the report of the appraisers, and the governing body shall cause notice to be served upon each person not less than ten days before said hearing whose name appears as owner, naming that person, and also upon the person or persons in actual occupancy of any tract of land without naming them of the day and hour of such hearing, which notice shall be for the same time and served in the same manner as is provided for the establishment of a subdistrict, and shall state the amount of assessment of costs and expenses of organizing and construction apportioned to each owner upon each forty-acre tract or less, and that all objections thereto must be in writing and filed with the governing body at or before the time set for such hearing.

467A.27 Determination by board.
At the time fixed or at an adjourned hearing, the governing body shall hear and determine all objections filed to said report and shall fully consider the said report, and may affirm, increase, or diminish the percentage of benefits or the apportionment of costs and expenses made in said report against any body or tract of land in said subdistrict as may appear to the board to be just and equitable.

[C62, 66, 71, 73, 75, 77, 79, 81, §467A.27]

467A.28 Appeal.
Any person aggrieved may appeal from any final action of the governing body in relation to any matter involving the person's rights, to the district court of the county in which the proceeding was held.

[C62, 66, 71, 73, 75, 77, 79, 81, §467A.28]

467A.29 Intercounty subdistricts.
In subdistricts extending into two or more counties, appeals from final orders resulting from the joint action of the several governing bodies of such subdistrict may be taken to the district court of any county into which the district extends.

[C62, 66, 71, 73, 75, 77, 79, 81, §467A.29]

467A.30 Notice of appeal.
All appeals shall be taken within twenty days after the date of final action or order of the governing body from which such appeal is taken by filing with the auditor a notice of appeal, designating the court to which the appeal is taken, the order or action appealed from, and stating that the appeal will come on for hearing thirty days following perfection of the appeal with allowances of additional time for good cause shown. This notice shall be accompanied by an appeal bond with sureties to be approved by the auditor conditioned to pay all costs adjudged against the appellant and to abide the orders of the court.

[C62, 66, 71, 73, 75, 77, 79, 81, §467A.30]

467A.31 Petition filed.
Within twenty days after perfection of notice, the appellant shall file a petition setting forth the order or final action of the governing body appealed from and the grounds of the appellant's objections and the appellant's complaint, with a copy of the appellant's claim for damages or objections filed by the appellant with the auditor. The appellant shall pay to the clerk the filing fee as provided by law in other cases. A failure to pay the filing fee or to file such petition shall be deemed a waiver of the appeal and in such case the court shall dismiss the same.

[C62, 66, 71, 73, 75, 77, 79, 81, §467A.31]

467A.32 Assessment certified.
When the board or boards of supervisors shall receive a certification from the governing body of the district to make the necessary assessment on the real estate within the boundaries of the subdistrict lying within their respective county, this shall be construed as final action by the governing body.

[C62, 66, 71, 73, 75, 77, 79, 81, §467A.32]

467A.33 Assessments transmitted.
The governing body upon receiving the reports from three appointed appraisers and after holding the hearings shall transmit and certify the amounts...
of assessments to the respective boards of supervisors which upon receipt of certification from the governing body of the district, make the necessary levy of such assessments as fixed by the governing body upon the land within such subdistrict and all assessments shall be levied at that time as a tax and shall bear interest at a rate not exceeding that permitted by chapter 74A from that date payable annually except as hereafter provided as to cash payments therefor within a specified time. The assessment so levied shall be kept in a separate account by the appropriate county treasurer or treasurers, identified by the official name of the subdistrict and expenditures therefrom shall be made on requisition of the chairperson and secretary of the governing body of the subdistrict.

At no time will an assessment be made where the benefits accrued to the subdistrict do not exceed the cost of the improvements within the said subdistrict. [C62, 66, 71, 73, 75, 77, 79, 81, §467A.33]

467A.34 Payment to county treasurer.

All assessments for benefits shall be levied at one time against the property benefited and when levied and certified by the board or boards of supervisors shall be paid at the office of the county treasurer. Each person or corporation shall have the right within twenty days after the levy of assessments to pay the person's or corporation's assessment in full without interest.

If any levy of assessments is not sufficient to meet the cost and expenses of organizing and construction apportioned to each owner upon each forty-acre tract or less, additional assessments may be made on the same classification as the previous ones. [C62, 66, 71, 73, 75, 77, 79, 81, §467A.34]

467A.35 Installments.

If the owner of any premises against which a levy exceeding twenty dollars has been made and certified shall, within thirty days from the date of such levy, agree in writing in a separate agreement, that in consideration of having a right to pay the owner’s assessment in installments, the owner will not make any objection as to the legality of the assessment for benefit, or the levy of the taxes against the owner’s property, then such owner shall have the following options:

1. To pay one half of the amount of such assessment at the time of filing such agreement and the remaining one half shall become due and payable one year from the date of filing such agreement. All such installments shall be without interest if paid at said times, otherwise said assessments shall bear interest from the date of the levy at a rate fixed by the governing body of the subdistrict, but not exceeding that permitted by chapter 74A, payable annually, and be collected as other taxes on real estate, with like penalty for delinquency.

2. To pay such assessments in not less than ten nor more than forty equal installments, the number to be fixed by the governing body of the subdistrict and interest at the rate fixed by the governing body of the subdistrict, not exceeding that permitted by chapter 74A. The first installment of each assessment shall become due and payable at the October semiannual tax paying date after the date of filing such agreement, unless the agreement is filed with the county auditor less than thirty days prior to such October semiannual tax paying date, in that event, the first installment shall become due and payable at the next succeeding October semiannual tax paying date. The second and each subsequent installment shall become due and payable at the October semiannual tax paying date each year thereafter. All such installments shall be collected with interest accrued on the unpaid balance to the October semiannual tax paying date and as other taxes on real estate, with like penalty for delinquency. [C62, 66, 71, 73, 75, 77, 79, 81, §467A.35]

467A.36 Option by appellant.

When an owner takes an appeal from the assessment against any of the owner’s land, the option to pay in installments whatever assessment is finally established against such land in said appeal shall continue, if within twenty days after the final determination of said appeal the owner shall file in the office of the auditor the owner’s written election to pay in installments, and within said period pay such installments as would have matured prior to that time if no appeal had been taken, together with all accrued interest on said assessment to the last preceding interest-paying date. [C62, 66, 71, 73, 75, 77, 79, 81, §467A.36]

467A.37 Status of classification.

A classification of land for watershed purposes, when finally adopted, shall remain the basis of all future assessments for the purpose of said subdistrict, except as provided in section 467A.38. [C62, 66, 71, 73, 75, 77, 79, 81, §467A.37]

467A.38 New classification.

After a subdistrict has been established and the improvements thereof constructed and put in operation, if the governing body shall find that the original assessments are not equitable as a basis for the expenses of any enlargement or extension thereof which may have become necessary, they shall order a new classification of all lands in said subdistrict by resolution, and appoint three appraisers, which shall meet the same requirements as set forth in section 467A.23.

Upon the completion of the reclassification, those affected by such reclassification shall have the right to appeal as hereinabove set forth. [C62, 66, 71, 73, 75, 77, 79, 81, §467A.38]

467A.39 Benefit of whole subdistrict.

Assessments for repair, alteration, enlargement, extension, and operation of works of improvement within the watershed district shall be a benefit to the entire subdistrict and levied as such. [C62, 66, 71, 73, 75, 77, 79, 81, §467A.39]

467A.40 Compensation of appraisers.

Persons appointed to appraise and make classifica-
tions of lands shall receive such compensation as the governing body may fix and in addition thereto, the necessary expenses of transportation of said persons while engaged in their work, such compensation and expenses shall be construed as part of the cost of the subdistrict which shall be included when considering classifications of lands within a subdistrict.

Section 467A.41 Election of taxing methods.

Subdistricts organized under the provisions of this chapter shall designate in the petition which of the taxing methods will be used or may stipulate that both methods are contemplated for use. Should the governing body of the subdistrict find it desirable to change from a special annual tax to special benefit assessments it may elect to do so and shall institute proceedings described in sections 467A.23 through 467A.40 and may divert any moneys already collected under section 467A.20, for the purposes authorized in this chapter.

Section 467A.42 Soil and water conservation practices.

In addition to the definitions established by section 467A.3, as used in sections 467A.43 to 467A.53 and sections 467A.61 to 467A.66, unless the context otherwise requires:

1. "Soil loss limit" means the maximum amount of soil loss due to erosion by water or wind, expressed in terms of tons per acre per year, which the commissioners of the respective soil and water conservation districts determine is acceptable in order to meet the objectives expressed in section 467D.1.

2. "Soil and water conservation practices" means any of the practices designated in or pursuant to this subsection which serve to prevent erosion of soil by wind or water, in excess of applicable soil loss limits, from land used for agricultural or horticultural purposes only.

a. "Permanent soil and water conservation practices" means planting of perennial grasses, legumes, shrubs, or trees, the establishment of grassed waterways, and the construction of terraces, or other permanent soil and water practices approved by the division.

b. "Temporary soil and water conservation practices" means planting of annual or biennial crops, use of strip cropping, contour planting, or minimum or mulch tillage, and any other cultural practices approved by the division.

3. "Erosion control practices" means:

a. The construction or installation, and maintenance, of such structures or devices as are necessary to carry to a suitable outlet from the site of any building housing four or more residential units, any commercial or industrial development or any publicly or privately owned recreational or service facility of any kind, not served by a central storm sewer system, any water which

   1. Would otherwise cause erosion in excess of the applicable soil loss limit, and

   2. Does not carry nor constitute sewage, industrial waste, or other waste as defined by section 455B.171.

b. The employment of temporary devices or structures, temporary seeding, fiber mats, plastic, straw, or other measures adequate to prevent erosion in excess of the applicable soil loss limits from the site of, or land directly affected by, the construction of any public or private street, road or highway, any residential, commercial, or industrial building or development, or any publicly or privately owned recreational or service facility of any kind, at all times prior to completion of such construction.

c. The establishment and maintenance of vegetation upon the right of way of any completed portion of any public street, road, or highway, or the construction or installation thereon of structures or devices, or other measures adequate to prevent erosion from the right of way in excess of the applicable soil loss limits.

4. "Agricultural land" has the meaning assigned that term by section 172C.1.

5. "Farm unit" means a single contiguous tract of agricultural land, or two or more adjacent tracts of agricultural land, located within a single soil and water conservation district, upon which farming operations are being conducted by a person who owns or is purchasing or renting all of the land, or by that person's tenant or tenants. If a landowner has multiple farm tenants, the land on which farming operations are being conducted by each tenant is a separate farm unit. This definition does not prohibit land which is within a single soil and water conservation district and is owned or being purchased by the same person, or is being rented by the same tenant, from being treated as two or more farm units if the commissioners of the soil and water conservation district deem it preferable to do so.

6. "Conservation folder" means compiled information concerning the topography, soil composition, natural or artificial drainage characteristics, and other pertinent factors concerning a particular farm unit, which is necessary to the preparation of a sound and equitable conservation agreement for that farm unit. The specific items to be contained in a conservation folder shall be prescribed by administrative rules of the department. The department shall provide by rule that an updated farm plan prepared for a particular farm unit within ten years prior to the effective date of this subsection shall be considered an adequate replacement for the conservation folder for that farm unit.

7. "Farm unit soil conservation plan" means a plan jointly developed by the owner and, if appropriate, the operator of a farm unit and the commissioners of the soil and water conservation district within which that farm unit is located, based on the conservation folder for that farm unit and identifying those permanent soil and water conservation practices and...
temporary soil and water conservation practices the use of which may be expected to prevent soil loss by erosion from that farm unit in excess of the applicable soil loss limit or limits. The plan shall, if practicable, identify alternative practices by which the objective may be attained.

8 "Conservation agreement" means a commitment by the owner or operator of a farm unit to implement a farm unit soil conservation plan or, with the approval of the commissioners of the soil and water conservation district within which the farm unit is located, a portion of a farm unit soil conservation plan. The commitment shall be conditioned on the furnishing by the soil and water conservation district of technical or planning assistance in the establishment of, and cost sharing or other financial assistance for establishment and maintenance of the soil and water conservation practices necessary to implement the plan, or a portion of the plan.

467A.43 Duty of property owners.
To conserve the fertility, general usefulness, and value of the soil and soil resources of this state, and to prevent the injurious effects of soil erosion, it is hereby made the duty of the owners of real property in this state to establish and maintain soil and water conservation practices or erosion control practices, as required by the regulations of the commissioners of the respective soil conservation districts. As used in this section, "owners of real property in this state" includes each state government agency, each political subdivision of the state and each agency of such a political subdivision which has under its control publicly owned land, including but not limited to agricultural land, forests, parks, the grounds of state educational, penal and human service institutions, public highways, roads and streets, and other public rights of way

[C73, 75, 77, 79, 81, §467A 43]

467A.44 Rules by commissioners — scope.
The commissioners of each soil and water conservation district shall, with approval of and within time limits set by administrative order of the division, adopt reasonable regulations as are deemed necessary to establish a soil loss limit or limits for the district and provide for the implementation of the limit or limits, and may subsequently amend or repeal their regulations as they deem necessary. The division shall review the soil loss limit regulations adopted by the soil and water conservation districts at least once every five years, and shall recommend changes in the regulations of a soil and water conservation district which the division deems necessary to assure that the district's soil loss limits are reasonable and attainable. The commissioners may

1 Classify land in the district on the basis of topography, soil characteristics, current use, and other factors affecting propensity to soil erosion

2 Establish different soil loss limits for different classes of land in the district if in their judgment and that of the state soil conservation committee a lower soil loss limit should be applied to some land than can reasonably be applied to other land in the district, it being the intent of the general assembly that no land in the state be assigned a soil loss limit that cannot reasonably be applied to such land

3 Require the owners of real property in the district to employ either soil and water conservation practices or erosion control practices, and

a. May not specify the particular practices to be employed so long as such owners voluntarily comply with the applicable soil loss limits established for the district

b. May specify two or more approved soil and water conservation practices or erosion control practices, one of which shall be employed by the landowner to bring erosion from land under the landowner's control within the applicable soil loss limit of the district when an administrative order is issued to the landowner
c. In no case may the commissioners require

(1) The employment of erosion control practices as defined in section 467A 42, subsection 3, on land used in good faith for agricultural or horticultural purposes only

(2) The employment of soil and water conservation practices or erosion control practices on that portion of any public street, road or highway completed or under construction within the corporate limits of any city, which is or will become the traveled or surfaced portion of such street, road, or highway

(3) That any owner or operator of agricultural land refrain from fall plowing of land on which the owner or operator intends to raise a crop during the next succeeding growing season, however on those lands which are prone to excessive wind erosion the commissioners may require that reasonable temporary measures be taken to minimize the likelihood of wind erosion so long as such measures do not unduly increase the cost of operation of the farm on which the land is located. However, fall plowing of soil which is commonly known as gumbo shall always be permitted

d. May require that a person under an order to employ soil and water conservation practices or erosion control practices submit up to three bids to the commissioners for the work and provide an explanation to the commissioners if a bid other than the lowest bid has been selected by that person

467A.45 Submission of regulations to division — hearing.
Regulations which the commissioners propose to adopt, amend, or repeal shall be submitted to the division, in a form prescribed by the division, for its approval. The division may approve the regulations as submitted, or with amendments as it deems
necessary The commissioners shall, after approval, publish notice of hearing on the proposed regulations, as approved, in a newspaper of general circulation in the district, setting a date and time not less than ten nor more than thirty days after the publication when a hearing on the proposed regulations will be held at a specified place. The notice shall include the full text of the proposed regulations or shall state that the proposed regulations are on file and available for review at the office of the affected soil and water conservation district.

467A.46 Conduct of hearing.

At the hearing, the commissioners or their designees shall explain, in reasonable detail, the reasons why adoption, amendment, or repeal of the regulations is deemed necessary or advisable. Any landowner, or any occupant of land who would be affected by the regulations, shall be afforded an opportunity to be heard for or against the proposed regulations. At the conclusion of the hearing, the commissioners shall announce and enter of record their decision whether to adopt or modify the proposed regulations. Any modification must be approved by the division, which may at its discretion order the commissioners to republish the regulations and hold another hearing in the manner prescribed by this chapter.

467A.47 Inspection of land on complaint.

The commissioners of a soil and water conservation district shall inspect or cause to be inspected any land within the district, upon receipt of a written and signed complaint from an owner or occupant of land being damaged by sediment, that soil erosion is occurring on the land in excess of the limits established by the district’s soil erosion control regulations. If they find that sediment damages are occurring to property owned or occupied by the person filing the complaint and that excess soil erosion is occurring on the land inspected, they shall issue an administrative order to the landowner or landowners of record, and to the occupant of the land if known to the commissioners, describing the land and stating as nearly as possible the extent to which soil erosion on the land exceeds the limits established by the district’s regulations. The order shall be delivered either by personal service or by restricted certified mail to each of the persons to whom it is directed, and shall:

1 In the case of erosion occurring on the site of any construction project or similar undertaking involving the removal of all or a major portion of the vegetation or other cover, exposing bare soil directly to water or wind, state a time not more than five days after service or mailing of the notice of the order when work necessary to establish or maintain erosion control practices must be commenced, and a time not more than thirty days after service or mailing of the notice of the order when the work is to be satisfactorily completed.

2 In all other cases, state a time not more than six months after service or mailing of the notice of the order, by which work needed to establish or maintain the necessary soil and water conservation practices or erosion control measures must be commenced, and a time not more than one year after the service or mailing of the notice of the order when the work is to be satisfactorily completed, unless the requirements of the order are superseded by the provisions of section 467A.48.

467A.48 Application for public cost-sharing funds.

1 An owner or occupant of land in this state is not required to establish any new permanent or temporary soil and water conservation practice unless public or other cost sharing funds have been specifically approved for that land and actually made available to the owner or occupant. The amount of cost sharing funds made available shall not exceed seventy five percent of the estimated cost as established by the commissioners of a permanent soil and water conservation practice, or seventy five percent of the actual cost, whichever is less, or an amount set by the division for a temporary soil and water conservation practice, except as otherwise provided by law with respect to land classified as agricultural land under conservation cover. The commissioners shall establish the estimated cost of permanent soil and water conservation practices in the district based upon one and two tenths of the average cost of the practices installed in the district during the previous year. The average costs shall be reviewed and approved by the commissioners each calendar year.

2 The division shall review these requirements once each year, and may authorize soil and water conservation district commissioners to make the mandatory establishment of any specified soil and water conservation practice in any particular case conditional on a higher proportion of public cost-sharing than is required by this section. When the commissioners have been so authorized, they shall, in determining the amount of cost-sharing for establishment of a specified soil and water conservation practice to comply with an administrative order issued pursuant to section 467A.47, consider the extent to which the practice will contribute benefits to the public in relation to the benefits that will accrue to the individual owner or occupant of the land on which the practice is to be established. Evidence that an application for public or other cost sharing funds, from a source or sources having authority to pay a portion of the cost of work needed to comply with an administrative order issued pursuant to section 467A.47, has been submitted to the proper officer or agency constitutes commencement of the work within the meaning of sections 467A.43 through 467A.53.

3 Upon receiving evidence of the submission of an application, the commissioners shall forward to...
the officer or agency to which the application was made a written request to receive notification of the disposition of the application. When notified of the approval of the application, the commissioners shall issue to the same parties who received the original administrative order; or their successors in interest, a supplementary order, to be delivered in the same manner as provided by sections 467A.43 to 467A.53 for delivery of original administrative orders. The supplementary order shall state a time, not more than six months after approval of the application for public cost-sharing funds, by which the work needed to comply with the original administrative order shall actually be commenced, and a time thereafter when the work is to be satisfactorily completed. If feasible, that time shall be within one year after the date of the supplementary order, but the owner of land on which a soil and water conservation practice is being established under this section is not required to incur a cost for the practice in any one calendar year which exceeds ten dollars per acre for each acre of land belonging to that owner and located in the county containing the land on which the required practice is being established or in counties contiguous to that county.

[C73, 75, 77, 79, 81, §467A.48]

467A.49 Petition for court order.
The commissioners shall petition the district court for a court order requiring immediate compliance with an administrative order previously issued by the commissioners as provided in section 467A.47, if:

1. The work necessary to comply with the administrative order is not commenced on or before the date specified in such order, or in any supplementary order subsequently issued as provided in section 467A.48, unless in the judgment of the commissioners the failure to commence or complete the work as required by the administrative order is due to factors beyond the control of the person or persons to whom such order is directed and the person or persons can be relied upon to commence and complete the necessary work at the earliest possible time.

2. Such work is not being performed with due diligence, or is not satisfactorily completed by the date specified in the administrative order, or when completed does not reduce soil erosion from such land below the limits established by the soil conservation district’s regulations.

3. The person or persons to whom the administrative order is directed advise the commissioners that they do not intend to commence or complete such work.

[C73, 75, 77, 79, 81, §467A.49]

467A.50 Burden — court order.
In any action brought under section 467A.49, the burden of proof shall be upon the commissioners to show that soil erosion is in fact occurring in excess of the applicable soil loss limits and that the defendant has not established or maintained soil and water conservation practices or erosion control practices in compliance with the soil conservation district’s regulations. With respect to construction, repair, or maintenance of any public street, road, or highway, evidence that soil erosion control standards equivalent to or in excess of those currently imposed by the United States government on the project or like projects involving use of federal funds shall create a presumption of compliance with the applicable soil loss limit. Upon receiving satisfactory proof, the court shall issue an order directing the landowner or landowners to comply with the administrative order previously issued by the commissioners. The court may modify such administrative order if deemed necessary. Notice of the court order shall be given either by personal service or by restricted certified mail to each of the persons to whom the order is directed, who may within thirty days from the date of the court order appeal to the supreme court. Any person who fails to comply with a court order issued pursuant to this section within the time specified in such order, unless the order has been stayed pending an appeal, shall be deemed in contempt of court and may be punished accordingly.

467A.51 Entering on land.
The commissioners and their authorized agents or employees may enter upon any private or public property, except private dwellings, at any reasonable time to classify land by soil sampling or other appropriate methods or to determine whether soil erosion is occurring on the property in violation of the district’s regulations.

1. If the owner or occupant of any property refuses admittance, or if prior to such refusal the commissioners demonstrate the need for a warrant, the commissioners may make an application under oath or affirmation to the district court of the county in which the property is located for the issuance of a search warrant.

2. In the application the commissioners shall state that entry on the premises is mandated by the laws of this state or that entry is needed to conduct soil sampling necessary to classify soil in the district as specified in section 467A.44, subsection 1, or to determine whether soil erosion is occurring on the property in violation of the district’s regulations. The application shall describe the area or premises, give the date of the last known investigation or sampling, give the date and time of the proposed inspection, declare the need for such inspection, recite that notice of desire to make an inspection has been given to affected persons and that admission was refused if that be the fact, and state that the inspection has no purpose other than to carry out the purpose of the statute, ordinance or regulation pursuant to which the inspection is to be made.

3. The court may issue a search warrant, after examination of the applicant and any witnesses, if the court is satisfied that there is probable cause to believe the existence of the allegations in the application.

4. In soil sampling and making investigations pursuant to a warrant, the commissioners must
execute the warrant in a reasonable manner within the time period specified in the warrant.

§467A.53 Co-operation with other agencies.

Soil and water conservation districts may enter into agreements with the federal government or any agency of the federal government, as provided by state law, or with the state of Iowa or any agency of the state, any other soil and water conservation district or water resource district*, or other political subdivision of this state, for co-operation in preventing, controlling, or attempting to prevent or control, soil erosion. Soil and water conservation districts may accept, as provided by state law, any money disbursed for soil erosion control purposes by the federal government or any agency of the federal government, and expend the money for the purposes for which it was received.

§467A.54 State agency conservation plans — exemptions.

Each state agency shall enter into an agreement with the soil and water conservation district in which the state agency has public land under its control in cultivation. The agreement shall contain a plan of the state agency to prevent soil erosion in excess of soil loss limits by the use of soil and water conservation practices and erosion control practices. This section applies to all public land which is used for horticultural or agricultural purposes. State soil conservation cost-sharing funds shall not be used on these public lands. Conservation plans required by this section shall be completed by July 1, 1986, and implementation shall occur consistent with the schedule contained in the conservation plan. Application for exemption from this section may be submitted to the appropriate soil and water conservation district. The exemption shall be granted for land upon which soil management research for the purposes of the study, evaluation, understanding and control of erosion, sedimentation and runoff water is conducted by or in conjunction with institutions governed by the board of regents.

§467A.55 to 467A.60 Reserved.

§467A.61 Discretionary inspection by commissioners — actions upon certain findings.

1. In addition to the authority granted by section 467A.47, the commissioners of a soil and water conservation district may inspect or cause to be inspected any land within the district on which they have reasonable grounds to believe that soil erosion is occurring in excess of the limits established by the district’s soil erosion control regulations. If the commissioners find from an inspection conducted under authority of either section 467A.47 or this section that soil erosion is occurring on that land in excess of the applicable soil loss limits established by the district’s soil erosion control regulations, they shall send notice of that finding to the landowner or landowners of record, and to the occupant of the land if known to the commissioners. The notice shall describe the land affected and shall state as nearly as possible the extent to which soil erosion from that land exceeds the applicable soil loss limits.

a. If the commissioners find that the excessive erosion described in the notice is not causing sediment damage to property owned or occupied by any person other than the owner or occupant of the land on which the excessive soil erosion is occurring, and that the rate of the excessive erosion is less than twice the applicable soil loss limit, the notice required by this subsection shall include or be accompanied by information regarding financial or other assistance which the commissioners are able to make available to the owner or occupant of the land to aid in achieving compliance with the applicable soil loss limits.

b. If the commissioners find that the excessive soil erosion described in the notice is not causing sediment damage to property owned or occupied by any person other than the owner or occupant of the land on which it is occurring, but that the erosion is occurring at a rate equal to or greater than twice the applicable soil loss limit, the notice shall include state, shall include or be accompanied by the information required by paragraph “a” of this subsection, and shall be delivered by personal service or by restricted certified mail to each of the persons to whom the notice is directed. A notice given under this paragraph shall also include or be accompanied by information explaining the provisions of subsection 2.

2. Beginning January 1, 1985, or five years after the completion of the conservation folder for a particular farm unit pursuant to this section, whichever date is later, the commissioners of the soil and water conservation district in which that farm unit is located may petition the district court for an appropriate order with respect to that farm unit if its owner or occupant has been sent a notice by the commissioners under subsection 1, paragraph “b” for three or more consecutive years. The commissioners’ petition shall seek a court order which states a time not more than six months after the date of the order when the owner or occupant must commence, and a time when the owner or occupant must complete the steps necessary to comply with the order. The time allowed to complete the establishment of a temporary soil and water conservation practice employed to comply or advance toward compliance with the court’s order shall be not more than one year after the date of that order, and the time allowed to complete the establishment of a permanent soil and water conservation practice employed to comply with the court’s order shall be not more than five years after the date of that order. Section 467A.48 applies to a court order issued under this subsection. The steps required of the farm unit owner or operator by the court order are those which are necessary to do one of the following:
a. Bring the farm unit which is the subject of the order into compliance with its farm unit soil conservation plan, if such a plan had been agreed upon prior to the time the commissioners petitioned for the order.

b. Bring the farm unit which is the subject of the order into compliance with a plan developed for that farm unit by the commissioners, in accordance with guidelines established by the division of soil conservation, and presented to the court as a part of the commissioners' petition, if a farm unit soil conservation plan has not previously been agreed upon for that farm unit. A plan presented to the court by the commissioners under this paragraph shall specify as many alternative approved soil and water conservation practices as feasible, among which the owner or occupant of the farm unit may choose in taking the steps necessary to comply with the court's order.

c. Bring the farm unit which is the subject of the order into compliance with a soil conservation plan developed by the owner or occupant of that farm unit as an alternative to the proposed soil conservation plan developed by the commissioners, if the owner or occupant so petitions the court and the court finds that the owner or occupant's plan will bring the farm unit into conformity with the applicable soil loss limits of the district.

3. The commissioners may also cause an inspection of land within the district on which they have reasonable grounds to believe that a permanent soil and water conservation practice established with public cost-sharing funds is not being properly maintained or is being altered in violation of section 467A.7, subsection 16. If the commissioners find that the practices are not being maintained or have been altered in violation of section 467A.7, subsection 16, the commissioners shall issue an administrative order to the landowner who made the unauthorized removal, alteration or modification to maintain, repair, or reconstruct the permanent soil and water conservation practices. The requirement for maintenance and repair is for the length of life as defined in section 467A.7, subsection 16. Public cost-sharing funds are not available for the work under this order. If the landowner fails to comply with the administrative order, the commissioners may petition the district court for an order compelling compliance with the order. Upon receiving satisfactory proof, the court shall issue an order directing compliance with the administrative order and may modify the administrative order. The provisions of section 467A.50 relating to notice, appeals and contempt of court shall apply to proceedings under this subsection.

467A.62 Duties of commissioners and of owners and occupants of agricultural land — restrictions on use of cost-sharing funds.

The commissioners of each soil and water conservation district shall seek to implement or to assist in implementing the following requirements:

1. Each farm unit shall be furnished a conservation folder complying with the rules of the department by the soil and water conservation district in which the farm unit is located, not later than January 1, 1985, or as soon thereafter as adequate funding is available to permit completion of a conservation folder for every farm unit in the state. Technical assistance in the development of the conservation folder may be provided by the United States department of agriculture soil conservation service through the memorandum of understanding with the district or by the department. The department shall provide by rule that an updated farm plan prepared for a particular farm unit within ten years prior to the effective date of this subsection shall be considered an adequate replacement for the conservation folder for that farm unit. Upon completion of the conservation folder for a particular farm unit, the district shall send the owner of that farm unit, and also the operator of the farm unit if known by the commissioners to be other than the owner, a letter offering that person or those persons a copy of the folder. The district shall keep a record of the date the folder is completed and the letter is sent. The folder shall be updated from time to time by the district as it deems necessary.

2. The commissioners of each soil and water conservation district shall complete preparation of a farm unit soil conservation plan for each farm unit within the district, not later than January 1, 1985, or five years after completion of the conservation folder for that farm unit, whichever date is later, or as soon thereafter as adequate funding is available to permit compliance with this requirement. Technical assistance in the development of the farm unit soil conservation plan may be provided by the United States department of agriculture soil conservation service through the memorandum of understanding with the district or by the department. The commissioners shall make every reasonable effort to consult with the owner and, if appropriate, with the operator of that farm unit, and to prepare the plan in a form which is acceptable to that person or those persons. The plan shall be drawn up and completed without expense to the owner or operator of the farm unit, except that the owner or operator shall not be reimbursed for the value of the owner's or occupant's own time devoted to participation in the preparation of the plan. If the commissioners' plan is unacceptable to the owner or operator of the farm unit, that person or those persons may prepare an alternative farm unit soil conservation plan identifying permanent or temporary soil and water conservation practices which may be expected to achieve compliance with the soil loss limit or limits applicable to that farm unit, and submit that plan to the soil and water conservation district commissioners for their review.

3. Within one year after completion of a farm unit soil conservation plan for a particular farm unit which is acceptable both to the commissioners of the soil and water conservation district within which the farm unit is located and to the owner and, if appropriate, to the operator of that farm unit, the

467A.63 Right of purchaser of agricultural land to obtain information.

A prospective purchaser of an interest in agricultural land located in this state is entitled to obtain from the seller, or from the office of the soil and water conservation district in which the land is located, a copy of the most recently updated conservation folder and of any farm unit soil conservation plan, developed pursuant to section 467A.62, subsection 2, which are applicable to the agricultural land proposed to be purchased. A prospective purchaser of an interest in agricultural land located in this state is entitled to obtain additional copies of either or both of the documents referred to in this section from the office of the soil and water conservation district in which the land is located, promptly upon request, at a fee not to exceed the cost of reproducing them. All persons who identify themselves to the commissioners or staff of a soil and water conservation district as prospective purchasers of agricultural land in the district shall be given information, prepared in accordance with rules of the department, which clearly explains the provisions of section 467A.65.

467A.64 Erosion control plans required for certain projects.

1. If a political subdivision has adopted a sediment control ordinance which the commissioners and the political subdivision jointly agree is at least as equally effective as the commissioners’ rules in preventing erosion from exceeding the established soil loss limits, the commissioners and the political subdivision shall execute an agreement under chapter 28E allowing an agency authorized by the political subdivision to receive and file an affidavit from a person, prior to initiating a land disturbing activity in that subdivision, stating that the proposed activity will not exceed the established soil loss limits. A copy of the affidavit shall be mailed to the district as a part of the terms of the agreement. The affidavit shall be in a form prescribed by the department and made available by the district.

2. Prior to initiating a land disturbing activity in a political subdivision which has not adopted sediment control ordinances as described in subsection 1, a person engaged in the land disturbing activity shall file a signed affidavit with the soil and water conservation district that the project will not exceed the soil loss limits. The affidavit shall be in a form prescribed by the department and made available by the district.

3. For the purposes of this section, “land disturbing activity” means a land change such as the tilling, clearing, grading, excavating, transporting or filling of land which may result in soil erosion from water or wind and the movement of sediment and sediment related pollutants into the waters of the state or onto lands in the state but does not include the following:

a. Tilling, planting or harvesting of agricultural, horticultural or forest crops.

b. Preparation for single-family residences separately built unless in conjunction with multiple construction in subdivision development.

c. Minor activities such as home gardens, landscaping, repairs and maintenance work.

d. Surface or deep mining.

e. Installation of public utility lines and connections, fence posts, sign posts, telephone poles, electric poles and other kinds of posts or poles.

f. Septic tanks and drainage fields unless they are to serve a building whose construction is a land disturbing activity.

g. Construction and repair of the tracks, right of way, bridges, communication facilities and other related structures of a railroad.

h. Emergency work to protect life or property.

i. Disturbed land areas of less than twenty-five thousand square feet unless a political subdivision by ordinance establishes a smaller exception or establishes conditions for this exception.

j. The construction, relocation, alteration or maintenance of public roads by a public body.

4. If the agency authorized under subsection 1 determines that a land disturbing activity is not being conducted in compliance with the soil loss limits, it shall file a written and signed complaint with the soil and water conservation district commissioners. The complaint shall have the same effect and validity as a complaint filed by an owner or occupant of land being damaged by sediment pursuant to section 467A.47. If the affidavit is filed with the district or the political subdivision, the commissioners may proceed on their own complaint. The soil and water conservation district commissioners may issue an administrative order as provided in that section to the person conducting the land disturbing activity.

467A.65 Cost sharing for certain lands restricted.

1. It is the intent of this chapter that, effective January 1, 1981, each tract of agricultural land which has not been plowed or used for growing row crops at any time within fifteen years prior to that date, shall for purposes of this section be considered classified as agricultural land under conservation cover. If a tract of land so classified is thereafter plowed or used for growing row crops, the commissioners of the soil and water conservation district in which the land is located shall not approve use of state cost-sharing funds for establishing permanent
or temporary soil and water conservation practices on that tract of land in an amount greater than one-half the amount of cost sharing funds which would be available for that land if it were not considered classified as agricultural land under conservation cover. The restriction imposed by this section applies even if an administrative order or court order has been issued requiring establishment of soil and water conservation practices on that land. The commissioners may waive the restriction imposed by this section if they determine in advance that the purpose of plowing or row cropping land classified as land under conservation cover is to revitalize permanent pasture and that the land will revert to permanent pasture within two years after it is plowed.

2 When receiving an application for state cost sharing funds to pay a part of the cost of establishing a permanent or temporary soil and water conservation practice, the commissioners of the soil and water conservation district to which the application is submitted shall require the applicant to state in writing whether, to the best of the applicant's knowledge, the land on which the proposed practice will be established is land considered to be classified as agricultural land under conservation cover, as defined in subsection 1. An applicant who knowingly makes a false statement of material facts or who falsely denies knowledge of material facts in completing the written statement required by this subsection commits a simple misdemeanor and, in addition to the penalty prescribed therefor by law, shall be required to repay to the department any cost sharing funds made available to the applicant in reliance on the false statement or false denial.

467A.66 Procedure when commissioner is complainant.

A soil and water conservation district commissioner who is an owner or occupant of land being damaged by sediment has the same right as any other person in like circumstances to file a complaint under section 467A.47, however, a commissioner who is the complainant shall not vote on the question whether, on the basis of the inspection made pursuant to the complaint, the commissioners shall issue an administrative order under section 467A.47.

467A.71 Conservation practices revolving loan fund.

1 The division may establish a conservation practices revolving loan fund composed of any money appropriated by the general assembly for that purpose, and of any other moneys available to and obtained or accepted by the committee from the federal government or private sources for placement in that fund. Except as otherwise provided by sub.

section 3, the assets of the conservation practices revolving loan fund shall be used only to make loans directly to owners of land in this state for the purpose of establishing on that land any new permanent soil and water conservation practice which the commissioners of the soil and water conservation district in which the land is located have found is necessary or advisable to meet the soil loss limits established for that land. A loan shall not be made for establishing a permanent soil and water conservation practice on land that is subject to the restriction on state cost sharing funds of section 467A.65. Revolving loan funds and public cost sharing funds shall not be used in combination for funding a particular soil and water conservation practice. Each loan made under this section shall be for a period not to exceed ten years, shall bear no interest, and shall be repayable to the conservation practices revolving loan fund in equal yearly installments due March 1 of each year the loan is in effect. The interest rate upon loans for which payment is delinquent shall accelerate immediately to the current legal usury limit. Applicants are eligible for no more than ten thousand dollars in loans outstanding at any time under this program. "Permanent soil and water conservation practices" has the same meaning as defined in section 467A.42 and those established under this program are subject to the requirements of section 467A.7, subsection 16. Loans made under this program shall come due for payment upon sale of the land on which those practices are established.

2 The general assembly funds and declares the following:

a. The erosion of topsoil on agricultural land by wind and water is a serious problem within the state and one which threatens to destroy the natural resource most responsible for Iowa's prosperity.

b. It is necessary to the preservation of the economy and well being of the state to encourage soil conservation practices by providing loans for permanent soil and water conservation practices on agricultural land within the state.

c. The use of state funds for the conservation practices revolving loan fund established under subsection 1 is in the public interest, and the purposes of this section are public purposes and uses for which public moneys may be borrowed, expended, advanced, loaned, or granted.

3 The division may:

a. Contract, sue and be sued, and promulgate administrative rules necessary to carry out the provisions of this section, but the committee shall not in any manner directly or indirectly pledge the credit of the state of Iowa.

b. Authorize payment from the conservation practices revolving loan fund, from fees and from any income received by investments of money in the fund for costs, commissions, attorney fees and other reasonable expenses related to and necessary for managing and protecting direct loans under this section, and for the recovery of moneys loaned or the management of property acquired in connection with such loans.
4. This section does not negate the provisions of section 467A.48 that an owner or occupant of land in this state shall not be required to establish any new soil and water conservation practice unless public cost-sharing funds have been approved and are available for the land affected. However, the owner of land with respect to which an administrative order to establish soil and water conservation practices has been issued under section 467A.47 but not complied with for lack of public cost-sharing funds, may waive the right to await availability of such funds and instead apply for a loan under this section to establish any permanent soil and water conservation practices necessary to comply with the order. If a landowner does so, that loan application shall be given reasonable preference by the state soil conservation committee if there are applications for more loans under this section than can be made from the money available in the conservation practices revolving loan fund. If it is found necessary to deny an application for a soil and water conservation practices loan to a landowner who has waived the right to availability of public cost-sharing funds before complying with an administrative order issued under section 467A.47, the landowner's waiver is void.

b. “Professional forester” means a forestry graduate of an institution of higher learning and having a minimum of two years forest management experience.

c. “State forester” means the person employed by the department of natural resources as required by section 107.13.

2. The department may reimburse private landowners for a portion of the cost of fencing materials and installation for permanent fence used to protect forest land from domestic livestock grazing from state cost-sharing funds if the grazing has been determined to cause excessive soil loss. Total department expenditure shall not exceed fifty percent of total landowner expenditures. Expenditures for boundary and road fence construction and for repair and replacement of existing fence are not eligible for reimbursement unless the complete fence is replaced.

3. As a condition for receiving reimbursement, landowners shall sign an agreement to maintain the fence for a minimum of ten years and shall follow written professional forester recommendations approved by the state forester or that person's designee on the tract to be protected by fencing.

4. Recipient landowners found to be in noncompliance with the maintenance agreement shall maintain, repair, or reconstruct damaged fence, or shall pay the department an amount equal to that reimbursed.

5. The department shall adopt, by rule, the form and informational requirements for reimbursement, the minimum forest acreage, and any limitation on the maximum reimbursement an individual landowner may receive. For the purposes of this section, forests shall be considered as agricultural land eligible for public cost-sharing funds.

In the proceedings to establish such a project the government engineer shall set forth in the engineer's report separately from other items, the amount of the cost of construction on county property and on private lands, and the engineer's estimate of the cost of the maintenance of the same.

If the plan is approved by all co-operating agencies and the project established as a flood or erosion control project the board of supervisors shall make a written record of any such co-operative arrangement and may use such part of the funds of the county now authorized by law and by this chapter as may be necessary to pay the amount agreed upon toward the construction, maintenance and cost of such project.

467B.7 Projects on private land.

Any flood or soil erosion control, flood prevention, or the conservation, development, utilization, and disposal of water, projects built on private land with federal or other funds when dedicated to the county use, shall be maintained in the same manner as its own county-owned or controlled property.

467B.8 Conservation commissioners.

In counties where soil conservation districts exist the commissioners in said county shall be responsible for the inspection of all flood and erosion control structures built on private land under easement to the county; shall furnish such technical assistance as they may have available in making estimates of needed repairs without cost to the county, and shall report any needed repair and the nature thereof to the county board of supervisors.

The county board of supervisors may annually levy

CHAPTER 467C

SOIL CONSERVATION AND FLOOD CONTROL DISTRICTS

467C.1 Presumption of benefit.
The conservation of the soil resources of the state of Iowa, the proper control of water resources of the state and the prevention of damage to property and lands through the control of floods, the drainage of surface waters or the protection of lands from overflow shall be presumed to be a public benefit and conducive to the public health, convenience and welfare and essential to the economic well-being of the state.

467C.2 Board of supervisors to establish districts — strip coal mining.
The board of supervisors of any county shall have jurisdiction, power and authority at any regular, special or adjourned session to establish, subject to the provisions of this chapter, districts having for their purpose soil conservation and the control of flood waters and to cause to be constructed as hereinafter provided, such improvements and facilities as shall be deemed essential for the accomplishment of the purpose of soil conservation and flood control. Such board shall also have jurisdiction, power and authority at any regular, special or adjourned session to establish, in the same manner that the districts hereinabove referred to are established, districts having for their purpose soil conservation in mining areas within the county, and provide that anyone engaged in removing the surface soil over any bed or strata of coal in such district for the purpose of obtaining such coal shall replace the surface soil as nearly as practicable to its original position, and provide that, upon abandonment of such removal operation, all surface soil shall be so replaced. This section shall apply only to surface soil so removed after July 4, 1949, and then only if it is essential for the accomplishment of the purpose of soil conservation and flood control within the purview of this chapter.

Such districts shall have the power to combine in their functions activities affecting soil conservation, flood control and drainage, or any of these objects, singly or in combination with another.

[C50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §467C.3]

467C.4 Old districts combined.
If any levee or drainage district or improvement established either by legal proceedings or by private parties shall desire to include in the activities of such district soil conservation or flood control projects, the board upon petition, as for the establishment of an original levee or drainage district, shall establish a new district covering and including such old district and improvement together with any additional lands deemed necessary. All outstanding indebtedness of the old levee or drainage district shall be assessed only against the lands included therein.

[C50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §467C.4]

467C.5 Approval of commissioners.
A district shall not be established by a board of supervisors under this chapter unless the organization of the district is approved by the commissioners of a soil and water conservation district established under chapter 467A and which is included all or in part within the district, nor shall a district be established without the approval of the department of natural resources.

472.15 Guardianship.
In all cases where any interest in lands sought to be condemned is owned by a person who is under legal disability and has no guardian of the person’s property, the applicant shall, prior to the filing of the application with the sheriff, apply to the district court for the appointment of a guardian of the property of such person.

472.16 Power of guardian.
If the owner of any lands is under guardianship, such guardian may, under the direction of the district court, or judge thereof, agree and settle with the applicant for all damages resulting from the taking of such lands, and give valid conveyances thereof.

472.17 When appraisement final.
The appraisement of damages returned by the commissioners shall be final unless appealed from.

472.18 Notice of appraisement — appeal of award.
After the appraisement of damages has been delivered to the sheriff by the compensation commissioners, the sheriff shall give written notice, by ordinary mail, to the condemner and the condemnee of the date on which the appraisement of damages was made, the amount of the appraisement, and that any interested party may, within thirty days from the date of mailing the notice of the appraisement of damages, appeal to the district court. The sheriff shall endorse the date of mailing notice upon the original appraisement of damages. At the time of appeal, the appellant shall give written notice that the appeal has been taken to the adverse party, or the adverse party’s agent or attorney, lienholders, and the sheriff.

472.19 Service of notice — highway matters.
1. Such notice of appeal shall be served in the same manner as an original notice. In case of condemnation proceedings instituted by the state department of transportation, when the owner appeals from the assessment made, such notice of appeal shall be served upon the attorney general, or the department general counsel to the state department of transportation, or the chief highway engineer for the department. When service of notice of appeal cannot be made as provided in this section, the district court of the county in which the real estate is situated, on application, shall direct what notice shall be sufficient.

2. In any condemnation proceedings instituted under this chapter by the state department of transportation in any court of the state wherein the property owner has delivered proper notice of appeal to the sheriff of the proper county with the intent that it be served immediately upon the person se-

nated for such service in subsection 1, the delivery of
the notice of appeal to the sheriff shall be deemed a
commencement of the appeal proceedings. If the sher­
iff, after delivery of notice of appeal, fails or is unable
to serve the notice of appeal upon such designated
person within the statutory period required under
section 472.18, such inability or failure shall not
deprive the court of jurisdiction of the appeal if the
property owner shall, within twenty days after deliv­
ery of notice of appeal to the sheriff, make application
for further direction as to service to the proper district
court as provided by this section.

title.

The utilities board within the utilities division of the department of commerce shall regulate the rates and services of public utilities to the extent and in the manner hereinafter provided.

As used in this chapter, “board” or “utilities board” means the utilities board within the utilities division of the department of commerce.

As used in this chapter, “public utility” shall include any person, partnership, business association, or corporation, domestic or foreign, owning or operating any facilities for

1. Furnishing gas by piped distribution system or electricity to the public for compensation.
2. Furnishing communications services to the public for compensation.
3. Furnishing water by piped distribution system to the public for compensation.

Mutual telephone companies in which at least fifty percent of the users are owners, co-operative telephone corporations or associations, telephone companies having less than fifteen thousand customers and less than fifteen thousand access lines, municipally owned utilities, and unincorporated villages which own their own distribution systems are not subject to the rate regulation provided for in this chapter.

This chapter does not apply to waterworks having less than two thousand customers, municipally owned waterworks, rural water districts incorporated and organized pursuant to chapters 357A and 504A, cooperative water associations incorporated and organized pursuant to chapter 499, or to a person furnishing electricity to five or fewer customers either by secondary line or from an alternate energy production facility or small hydro facility, from electricity that is produced primarily for the person’s own use.

A telephone company otherwise exempt from rate regulation and having telephone exchange facilities which cross state lines may elect, in a writing filed with the board, to have its rates regulated by the board. When a written election has been filed with the board, the board shall assume rate regulation jurisdiction over the company.

The jurisdiction of the board under this chapter shall include programs designed to promote the use of energy conservation strategies by rate or service-regulated gas and electric utilities. These programs shall be cost effective. The board may initiate these programs as pilot projects to accumulate sufficient data to determine if the programs meet the requirements of this paragraph.

The jurisdiction of the board as to the regulation of communications services is not applicable to a service or facility provided by a telephone utility that is or becomes subject to competition, as determined by the board. In determining whether a service or facility is or becomes subject to competition, the board shall consider whether a comparable service or facility is available from a supplier other than the telephone utility. When a service or facility provided by a telephone utility becomes subject to competition, the board shall, within a reasonable period of time, deregulate that service or facility. Upon deregulation, all investment, revenues, and expenses associated with the service or facility shall be removed.

from the telephone utility's regulated operations and shall not be considered by the board in setting rates for the telephone utility unless they continue to affect the company's regulated operations. In the event that the board considers investment, revenues, and expenses associated with unregulated services or facilities in setting rates for the telephone utility, the board shall not use any profits or costs from such unregulated services or facilities to determine the rates for regulated services or facilities. Nothing in this section shall preclude the board from considering the investment, revenues and expenses associated with the sale of classified directory advertising by a telephone utility in determining rates for the telephone utility.

1. Assessment of fees for the support of the division.
2. Safety and engineering standards for equipment, operations, and procedures.
3. Assigned area of service.
4. Pilot projects of the board.

However, sections 476 20, 476 21, 476 41 through 476 44, 476 51, 476 56, and 476 66 and chapters 476A and 478, to the extent applicable, apply to such electric utilities.

Electric cooperative corporations and associations and electric public utilities exempt from rate regulation under this section shall not make or grant any unreasonable preferences or advantages as to rates or services to any person or subject any person to any unreasonable prejudice or disadvantage.

The board of directors or the membership of an electric cooperative corporation or association otherwise exempt from rate regulation may elect to have the cooperative's rates regulated by the board. The board shall adopt rules prescribing the manner in which the board of directors or the membership of an electric cooperative may so elect. If the board of directors or the membership of an electric cooperative has elected to have the cooperative's rates regulated by the board, after two years have elapsed from the effective date of such election the membership of the electric cooperative may elect to exempt the cooperative from the rate regulation authority of the board.

476.1B Applicability of authority — municipally owned utilities.

1. Unless otherwise specifically provided by statute, a municipally owned utility is not subject to regulation by the board under this chapter, except for regulatory action pertaining to:
   a. Assessment of fees for the support of the division and the office of consumer advocate, as set forth in section 476 10.
   b. Safety standards.
   c. Assigned areas of service, as set forth in sections 476 22 through 476 26.
   d. Enforcement of civil penalties pursuant to section 476 51.
   e. Disconnection of service, as set forth in section 476 20.
   f. Discrimination against users of renewable energy resources, as set forth in section 476 21.
   g. Encouragement of alternate energy production facilities, as set forth in sections 476 41 through 476 45.
   h. Enforcement of section 476 56.
   i. Enforcement of section 476 66.

2. Municipally owned utilities shall be required to adhere to the requirements of the following sections of the Code but all rules and regulations to enforce these sections shall lie with each local municipal utility's governing board. The board has no authority concerning these sections as they apply to municipal utilities:
   a. Peak load management techniques, as set forth in section 476 17.
   b. Promulgation of rules concerning the use of energy conservation strategies, as set forth in section 476 2.

476.1C Applicability of authority — certain gas utilities.

1. Gas public utilities having less than two thousand customers are not subject to the regulation authority of the utilities board under this chapter unless otherwise specifically provided. Sections 476 10, 476 20, 476 21, and 476 51 apply to such gas utilities.

Gas public utilities having less than two thousand customers shall keep books, accounts, papers and records accurately and faithfully in the manner and form prescribed by the board. The board may inspect the accounts of the utility at any time.

A gas public utility having less than two thousand customers may make effective a new or changed rate, charge, schedule, or regulation after giving written notice of the proposed new or changed rate, charge, schedule, or regulation to all affected customers served by the public utility. The notice shall inform the customers of their right to petition for a review of the proposal to the utilities board within sixty days after notice is served if the petition contains the signatures of at least one hundred of the gas utility's customers. The notice shall state the address of the utilities board. The new or
changed rate, charge, schedule, or regulation takes effect sixty days after such valid notice is served unless a petition for review of the new or changed rate, charge, schedule, or regulation signed by at least one hundred of the gas utility’s customers is filed with the board prior to the expiration of the sixty-day period.

If such a valid petition is filed with the board within the sixty-day period, any new or changed rate, charge, schedule, or regulation shall take effect, under bond or corporate undertaking, subject to refund of all amounts collected in excess of those amounts which would have been collected under the rates or charges finally approved by the board. The board shall within five months of the date of filing make a determination of just and reasonable rates based on a review of the proposal, applying established regulatory principles. The board may call upon the gas public utility and its customers to furnish factual evidence in support of or opposition to the new or changed rate, charge, schedule, or regulation. If the gas public utility disputes the finding, the utility may within twenty days file for further review, and the board shall docket the case as a formal proceeding under section 476.6, subsection 7, and set the case for hearing. The gas public utility shall submit factual evidence and written argument in support of the filing.

A gas public utility having less than two thousand customers shall not make effective a new or changed rate, charge, schedule, or regulation which relates to services for which a rate change is pending within twelve months following the date the petition to review the prior proposed rate, charge, schedule, or regulation was filed with the board or until the board has made its determination of just and reasonable rates, whichever date is earlier, unless the utility applies to the board for authority and receives authority to make a subsequent rate change at an earlier date.

Gas public utilities having less than two thousand customers shall not make or grant any unreasonable preferences or advantages as to rates or services to any person or subject any person to any unreasonable prejudice or disadvantage. Rates charged by a gas public utility having less than two thousand customers for transportation of customer-owned gas shall not exceed the actual cost of such transportation services including a fair rate of return.

2. If, as a result of a review of a proposed new or changed rate, charge, schedule, or regulation of a gas public utility having fewer than two thousand customers, the consumer advocate argues in a filing with the board that the utility rates are excessive, any the board of amounts collected after the date of the filing which are in excess of rates or charges finally determined by the board to be lawful. If after formal proceeding and hearing pursuant to section 476.6 the board finds that the utility rates are unlawful, the board shall order a refund, with interest, of amounts collected after the date of filing of the petition that are determined to be in excess of the amounts which would have been collected under the rates finally approved. However, the board shall not order a refund that is greater than the amount specified in the petition, plus interest. If the board fails to render a decision within ten months following the date of filing of the petition, the board shall not order a refund of any excess amounts that are collected after the expiration of that ten-month period and prior to the date the decision is rendered. 87 Acts, ch 21, §1

**476.2 Powers — rules.**

The board shall have broad general powers to effect the purposes of this chapter notwithstanding the fact that certain specific powers are hereinafter set forth. The board shall have authority to issue subpoenas and to pay the same fees and mileage as are payable to witnesses in the courts of record of general jurisdiction and shall establish all needful, just and reasonable rules, not inconsistent with law, to govern the exercise of its powers and duties, the practice and procedure before it, and to govern the form, contents and filing of reports, documents and other papers provided for in this chapter or in the board’s rules. In the establishment, amendment, alteration or repeal of any of such rules, the board shall be subject to the provisions of chapter 17A.

The board shall employ at rates of compensation consistent with current standards in industry such professionally trained engineers, accountants, attorneys, and skilled examiners and inspectors, secretaries, clerks, and other employees as it may find necessary for the full and efficient discharge of its duties and responsibilities as required by this chapter.

The board is hereby authorized and empowered to intervene in any proceedings before the federal power commission or any other federal or state regulatory body when it finds that any decision of such tribunal would adversely affect the costs of any public utility service within the state of Iowa. The board shall have authority to inquire into the management of the business of all public utilities, and shall keep itself informed as to the manner and method in which the same is conducted, and may obtain from any public utility all necessary information to enable the board to perform its duties.

The board shall promulgate rules concerning the use of energy conservation strategies by rate or service-regulated gas and electric utilities by July 1, 1981. The board may prescribe appropriate rates for any approved energy conservation program. Nothing in this paragraph subjects the rates of municipal utilities to the regulatory authority of the board.

[C66, 71, 73, 75, §490A.2; C77, 79, 81, §476.2]

**476.3 Complaints — investigation.**

1. A public utility shall furnish reasonably adequate service at rates and charges in accordance with tariffs filed with the board. When there is filed
with the board by any person or body politic, or filed by the board upon its own motion, a written complaint requesting the board to determine the reasonableness of the rates, charges, schedules, service, regulations, or anything done or omitted to be done by a public utility subject to this chapter in contravention of this chapter, the written complaint shall be forwarded by the board to the public utility, which shall be called upon to satisfy the complaint or to answer it in writing within a reasonable time to be specified by the board. Copies of the written complaint forwarded by the board to the public utility and copies of all correspondence from the public utility in response to the complaint shall be provided by the board in an expeditious manner to the consumer advocate. If the board determines the public utility's response is inadequate and there appears to be any reasonable ground for investigating the complaint, the board shall promptly initiate a formal proceeding. If the consumer advocate determines the public utility's response to the complaint is inadequate, the consumer advocate may file a petition with the board which shall promptly initiate a formal proceeding if the board determines that there is any reasonable ground for investigating the complaint. The formal proceeding may be initiated at any time by the board on its own motion. If a proceeding is initiated upon petition filed by the consumer advocate or upon the board's own motion, the board shall set the case for hearing and give notice as it deems appropriate. When the board, after a hearing held after reasonable notice, finds a public utility's rates, charges, schedules, service, or regulations are unjust, unreasonable, discriminatory, or otherwise in violation of any provision of law, the board shall determine just, reasonable, and nondiscriminatory rates, charges, schedules, service, or regulations to be observed and enforced.

2. If, as a result of a review procedure conducted under section 476.31, a review conducted under section 476.32, a special audit, an investigation by division staff, or an investigation by the consumer advocate, a complaint is filed by division staff, or a petition is filed with the board by the consumer advocate, alleging that a utility's rates are excessive, the disputed amount shall be specified in the complaint or petition. The public utility shall, within the time prescribed by the board, file a bond or undertaking approved by the board conditioned upon the refund in a manner prescribed by the board of amounts collected after the date of filing of the complaint or petition in excess of rates or charges finally determined by the board to be lawful. If upon hearing the board finds that the utility's rates are unlawful, the board shall order a refund, with interest, of amounts collected after the date of filing of the complaint or petition that are determined to be in excess of the amounts which would have been collected under the rates finally approved. However, the board shall not order a refund that is greater than the amount specified in the complaint or petition, plus interest, and provided that if the board fails to render a decision within ten months following the date of filing of the complaint or petition, the board shall not order a refund of any excess amounts that are collected after the expiration of that ten-month period and prior to the date the decision is rendered.

3. A determination of utility rates by the board pursuant to this section that is based upon a departure from previously established regulatory principles shall apply prospectively from the date of the decision.

476.4 Tariffs filed.

Every public utility shall file with the board tariffs showing the rates and charges for its public utility services and the rules and regulations under which such services were furnished, on April 1, 1963, which rates and charges shall be subject to investigation by the board as provided in section 476.3, and upon such investigation the burden of establishing the reasonableness of such rates and charges shall be upon the public utility filing the same. These filings shall be made under such rules as the board may prescribe within such time and in such form as the board may designate. In prescribing rules and regulations with respect to the form of tariffs, the board shall, in the case of public utilities subject to regulation by any federal agency, give due regard to any corresponding rules and regulations of such federal agency, to the end that unnecessary duplication of effort and expense may be avoided so far as reasonably possible. Each public utility shall keep copies of its tariffs open to public inspection under such rules as the board may prescribe.

Every rate, charge, rule and regulation contained in any filing made with the commission on or prior to July 4, 1963, shall be effective as of such date, subject, however, to investigation as herein provided. If any such filing is made prior to the time the commission prescribes rules as aforesaid, and if such filing does not comply as to form or substance with such rules, then the public utility which filed the same shall within a reasonable time after the adoption of such rules make a new filing or filings complying with such rules, which new filing or filings shall be deemed effective as of July 4, 1963.

476.4A Exemption from tariff filings for telephone utilities.

Notwithstanding contrary provisions of this chapter, a telephone utility may offer centron, centrex, intraexchange private line, or multiline variety package service without filing a tariff unless the board determines such a procedure is not in the public interest. The telephone utility shall offer each service which is exempt from a tariff filing at a rate which exceeds the cost of the service. A telephone utility offering its services without filing a tariff shall not discriminate in an unreasonable manner for or against any customer.

A telephone utility shall provide the board with at least thirty days notice prior to a request to offer.
service without filing a tariff. The board may require the telephone utility to file its price lists, contracts, or cost allocations for services offered without a tariff. Any such price lists, contracts, or cost allocations so filed shall be afforded rebuttable presumptions that they meet the requirements of section 22 7, subsection 6.

The board shall consider the revenues, expenses and investment related to telephone utility services offered without a filed tariff in proceedings under section 476 3, 476 6 and 476 7.

84 Acts, ch 1267, §1

476.5 Adherence to schedules — discounts.

No public utility subject to rate regulation shall directly or indirectly charge a greater or less compensation for its services than that prescribed in its tariffs, and no such public utility shall make or grant any unreasonable preferences or advantages as to rates or services to any person or subject any person to any unreasonable prejudice or disadvantage.

Nothing in this section shall be construed to prohibit any public utility furnishing communications services from providing any service rendered by it without charge or at reduced rate to any of its active or retired officers, directors, or employees, or such officers, directors or employees of other public utilities furnishing communications services. Provided, however, said service is for personal use, and not for engaging in a business for profit.

476.6 Changes in rates, charges, schedules and regulations — supply and cost review.

1. Filing with board. A public utility subject to rate regulation shall not make effective a new or changed rate, charge, schedule or regulation until the rate, charge, schedule, or regulation has been approved by the board, except as provided in subsections 11 and 13.

A subscriber of a telephone exchange or service, who is declared to be legally blind under section 422 12, subsection 1, paragraph "c", is exempt from any charges for telephone directory assistance that may be approved by the board.

2. Telephone directory assistance charges — record provided. The board shall not approve a schedule of directory assistance charges unless the schedule provides that residential customers be provided a record of the date and time of each directory assistance call made from their residence.

3. Telephone directory assistance charges — approval by board. Notwithstanding contrary provisions of this section, a public utility shall not implement a charge for telephone directory assistance or implement a new or changed rate for telephone directory assistance except pursuant to a tariff that has been filed with the board and finally approved by the board.

4. First seven calls exempted. A telephone directory assistance tariff that is approved by the board on or after July 1, 1981, shall be subject to the limitation that a subscriber shall not be charged for the first seven directory assistance calls made from the subscriber’s station during each of the first twelve months in which the tariff is in effect, and a charge made in violation of this limitation is an unlawful charge within the meaning of this chapter.

5. Written notice of increase. All public utilities, except those exempted from rate regulation by section 476 1, shall give written notice of a proposed increase of any rate or charge to all affected customers served by the public utility no more than sixty days prior to and prior to the time the application for the increase is filed with the board. Public utilities exempted from rate regulation by section 476 1 shall give written notice of a proposed increase of any rate or charge to all affected customers served by the public utility at least thirty days prior to the effective date of the increase. If the public utility is subject to rate regulation, the notice to affected customers shall also state that the customer has a right to file a written objection to the rate increase and that the affected customers may request the board to hold a public hearing to determine if the rate increase should be allowed. The board shall prescribe the manner and method that the written notice to each affected customer of the public utility shall be served.

6. Facts and arguments submitted. At the time a public utility subject to rate regulation files with the board an application for any new or changed rates, charges, schedules, or regulations, the public utility shall also submit factual evidence and written argument offered in support of the filing. If the filing is an application for a general rate increase, the utility shall also file affidavits containing testimonial evidence to be offered in support of the filing, although this requirement does not apply if the public utility is a rural electric cooperative.

7. Hearing set. After the filing of an application for new or changed rates, charges, schedules, or regulations by a public utility subject to rate regulation, the board, prior to the expiration of thirty days after the filing date, shall docket the case as a formal proceeding and set the case for hearing unless the new or changed rates, charges, schedules, or regulations are approved by the board. In the case of a gas public utility having less than two thousand customers, the board shall docket a case as a formal proceeding and set the case for hearing unless the new or changed rates, charges, schedules, or regulations are approved by the board. In the case of a gas public utility having less than two thousand customers, the board shall docket the case as a formal proceeding and set the case for hearing unless the new or changed rates, charges, schedules, or regulations are approved by the board. In the case of a gas public utility having less than two thousand customers, the board shall docket the case as a formal proceeding and set the case for hearing unless the new or changed rates, charges, schedules, or regulations are approved by the board. In the case of a gas public utility having less than two thousand customers, the board shall docket the case as a formal proceeding and set the case for hearing unless the new or changed rates, charges, schedules, or regulations are approved by the board. In the case of a gas public utility having less than two thousand customers, the board shall docket the case as a formal proceeding and set the case for hearing unless the new or changed rates, charges, schedules, or regulations are approved by the board. In the case of a gas public utility having less than two thousand customers, the board shall docket the case as a formal proceeding and set the case for hearing unless the new or changed rates, charges, schedules, or regulations are approved by the board. In the case of a gas public utility having less than two thousand customers, the board shall docket the case as a formal proceeding and set the case for hearing unless the new or changed rates, charges, schedules, or regulations are approved by the board.

8. Utility hearing expenses reported. When a case has been docketed as a formal proceeding under subsection 7, the public utility, within a reasonable time thereafter, shall file with the board a report.
§476.6, PUBLIC UTILITY REGULATION

9 Finding by board. If, after hearing and decision on all issues presented for determination in the rate proceeding, the board finds the proposed rates, charges, schedules, or regulations of the utility to be unlawful, the board shall by order authorize and direct the utility to file new or changed rates, charges, schedules, or regulations which, when approved by the board and placed in effect, will satisfy the requirements of this chapter. The rates, charges, schedules, or regulations so approved are lawful and effective upon their approval.

10 Limitation on filings. A public utility shall not make a subsequent filing of an application for a new or changed rate, charge, schedule, or regulation which relates to services for which a rate filing is pending within twelve months following the date the prior application was filed or until the board has issued a final order on the prior application, which ever date is earlier, unless the public utility applies to the board for authority and receives authority to make a subsequent filing at an earlier date.

11 Automatic adjustments permitted. This chapter does not prohibit a public utility from making provision for the automatic adjustment of rates and charges for public utility service provided that a schedule showing the automatic adjustment of rates and charges is first filed with the board.

If an automatic adjustment is used, the adjustment must be reduced to zero at least once in every twelve month period, and all appropriate charges collected by the automatic adjustment shall be incorporated in the utility's other rates at that time.

12 Rate levels for telephone utilities. The board may approve a schedule of rate levels for any regulated service provided by a utility providing communication services.

13 Temporary authority. Upon the request of a public utility, the board shall, when required by this subsection, grant the public utility temporary authority to place in effect any or all of the suspended rates, charges, schedules or regulations by filing with the board a bond or other undertaking approved by the board conditioned upon the refund in a manner to be prescribed by the board of any amounts collected in excess of the amounts which would have been collected under rates, charges, schedules or regulations finally approved by the board. In determining that portion of the new or changed rates, charges, schedules or regulations to be placed in effect prior to a final decision, the board shall apply previously established regulatory principles and shall, at a minimum, permit rates and charges which will allow the utility the opportunity to earn a return on common stock equity equal to that which the board held reasonable and just in the most recent rate case involving the same utility or the same type of utility service, provided that if the most recent final decision of the board in an applicable rate case was rendered more than twelve months prior to the date of filing of the request for temporary rates, the board shall in addition consider financial market data that is filed or that is otherwise available to the board and shall adjust the rate of return on common stock equity that was approved in that decision upward or downward as necessary to reflect current conditions. The board shall render a decision on a request for temporary authority within ninety days after the date of filing of the request. The decision shall be effective immediately. If the board has not rendered a final decision with respect to suspended rates, charges, schedules or regulations upon the expiration of ten months after the filing date, plus the length of any delay that necessarily results either from the failure of the public utility to exercise due diligence in connection with the proceedings or from intervening judicial proceedings, plus the length of any extension permitted by section 47633, subsection 3, then those portions that were approved by the board on a temporary basis shall be deemed finally approved by the board and the utility may place them into effect on a permanent basis, and the utility also may place into effect subject to refund and until the final decision of the board any portion of the suspended rates, charges, schedules or regulations not previously approved on a temporary basis by filing with the board a bond or other undertaking approved by the board.

If the board finds that an extension of the ten month period is necessary to permit the accumulation of necessary data with respect to the operation of a newly constructed electric generating facility that has a capacity of one hundred megawatts or more of electricity and that is proposed to be included in the rate base for the first time, the board may extend the ten month period up to a maximum extension of six months, but only with respect to that portion of the suspended rates, charges, schedules or regulations that are necessarily connected with the inclusion of the generating facility in the rate base. If a utility is proposing to include in its rate base for the first time a newly constructed electric generating facility that has a capacity of one hundred megawatts or more of electricity, the filing date of new or changed rates, charges, schedules or regulations shall, for purposes of computing the ninety-day and ten month limitations stated above, be the date as determined by the board that the new plant went into service, but only with respect to that portion of the suspended rates, charges, schedules or regulations that are necessarily connected with the inclusion of the generating facility in the rate base.

The board shall determine the rate of interest to be paid by a public utility to persons receiving refunds. The interest rate to be applied to refunds of moneys collected subject to refund under this subsection is...
two percent per annum plus the average quarterly interest rate at commercial banks for twenty-four-month loans for personal expenditures, as determined by the board, compounded annually. The board shall consider federal reserve statistical release G.19 or its equivalent when determining interest to be paid under this subsection.

14. **Refunds passed on to customers.** If pursuant to federal law or rule a rate-regulated public utility furnishing gas to customers in the state receives a refund or credit for past gas purchases, the savings shall be passed on to the customers in a manner approved by the board. Similarly, if pursuant to federal law or rule a rate-regulated public utility furnishing gas to customers in the state receives a rate for future gas purchases which is lower than the price included in the public utility’s approved rate application, the savings shall be passed on to the customers in a manner approved by the board.

15. **Natural gas supply and cost review.** The board shall periodically, but not less than annually, conduct a proceeding for the purpose of evaluating the reasonableness and prudence of a rate-regulated public utility’s natural gas procurement and contracting practices. The natural gas supply and cost review shall be conducted as a contested case pursuant to chapter 17A.

Under procedures established by the board, each rate-regulated public utility furnishing gas shall periodically file a complete natural gas procurement plan describing the expected sources and volumes of its gas supply and changes in the cost of gas anticipated over a future twelve-month period specified by the board. The plan shall describe all major contracts and gas supply arrangements entered into by the utility for obtaining gas during the specified twelve-month period. The description of the major contracts and arrangements shall include the price of gas, the duration of the contract or arrangement, and an explanation or description of any other term or provision as required by the board. The plan shall also include the utility’s evaluation of the reasonableness and prudence of its decisions to obtain gas in the manner described in the plan, an explanation of the legal and regulatory actions taken by the utility to minimize the cost of gas purchased by the utility, and such other information as the board may require.

Contemporaneously with the natural gas procurement plan, the public utility shall file with the board a five-year forecast of the gas requirement of its customers, its anticipated sources of supply, and projections of gas costs. The forecast shall include a description of all relevant major contracts and gas supply arrangements entered into or contemplated between the gas utility and its suppliers, a description of all major gas supply arrangements which the gas utility knows have been, or expects will be, entered into between the utility’s principal pipeline suppliers and their major sources of gas, and such other information as the board may require.

During the natural gas supply and cost review, the board shall evaluate the reasonableness and prudence of the gas procurement plan. In evaluating the gas procurement plan, the board shall consider the volume, cost, and reliability of the major alternative gas supplies available to the utility; the cost of alternative fuels available to the utility’s customers; the availability of gas in storage; the appropriate legal and regulatory actions which the utility could take to minimize the cost of purchased gas; the gas procurement practices of the utility; and other relevant factors. If a utility is not taking all reasonable actions to minimize its purchase gas costs, consistent with assuring an adequate long-term supply of natural gas, the board shall not allow the utility to recover from its customers purchase gas costs in excess of those costs that would be incurred under reasonable and prudent policies and practices.

The board shall also evaluate the five-year forecast filed by the public utility. The board may indicate any cost items in the five-year forecast that on the basis of present evidence in the record the board would be unlikely to permit the utility to recover from its customers in rates, charges or purchased gas clauses established in the future. Nothing in this section prohibits the board from disallowing the recovery of other related or unrelated costs on the basis of evidence received in a later contested case proceeding.

The board shall adopt rules pursuant to chapter 17A to implement the provisions of this section prior to January 1, 1984.

16. **Annual electric energy supply and cost review.** The board shall conduct an annual proceeding for the purpose of evaluating the reasonableness and prudence of a rate-regulated public utility’s procurement and contracting practices related to the acquisition of fuel for use in generating electricity. The proceeding shall be conducted as a contested case pursuant to chapter 17A. Under procedures established by the board, the utility shall file information as the board deems appropriate. If a utility is not taking all reasonable actions to minimize its fuel costs, the board shall not allow the utility to recover from its customers fuel costs in excess of those costs that would be incurred under reasonable and prudent policies and practices.

Contemporaneously with the annual review proceeding, the board shall analyze the electric generating capacity needs for the next decade by the public utility’s customers, under procedures established by the board. The utility shall file information regarding future capacity needs of its customers as deemed appropriate by the board.

[83 Acts, ch 127, §19–26, 51; 84 Acts, ch 1023, §1; 87 Acts, ch 21, §2]

**476.7 Application by utility for review.**

If there shall be filed with the board by any public utility an application requesting the board to determine the reasonableness of the utility’s rates, charges, schedules, service or regulations, the board
shall promptly initiate a formal proceeding. Such a formal proceeding may be initiated at any time by the board on its own motion. Whenever such a proceeding has been initiated upon application or motion, the board shall set the case for hearing and give such notice thereof as it deems appropriate. Whenever the board, after a hearing held after reasonable notice, finds any public utility’s rates, charges, schedules, service or regulations are unjust, unreasonable, insufficient, discriminatory or otherwise in violation of any provision of law, the board shall determine just, reasonable, sufficient and non-discriminatory rates, charges, schedules, service or regulations to be thereafter observed and enforced. [C66, 71, 73, 75, §490A.7; C77, 79, 81, §476.7]

476.8 Utility charges and service.

Every public utility is required to furnish reasonably adequate service and facilities. “Reasonably adequate service and facilities” for public utilities furnishing gas or electricity includes programs for customers to encourage the use of energy conservation and renewable energy sources. The charge made by any public utility for any heat, light, gas, energy conservation and renewable energy programs, water or power produced, transmitted, delivered or furnished, or communications services, or for any service rendered or to be rendered in connection there­with shall be reasonable and just, and every unjust or unreasonable charge for such service is prohibited and declared unlawful. In determining reasonable and just rates, the board shall consider all factors relating to value and shall not be bound by rate base decisions or rulings made prior to the adoption of this chapter.

The board, in determining the value of materials or services to be included in valuations or costs of operations for rate-making purposes, may disallow any unreasonable profit made in the sale of materials to or services supplied for any public utility by any firm or corporation owned or controlled directly or indirectly by such utility or any affiliate, subsidiary, parent company, associate or any corporation whose controlling stockholders are also controlling stockholders of such utility. The burden of proof shall be on the public utility to prove that no unreasonable profit is made.

476.8A Tax reform act rate adjustment.

The utilities board may require a rate-regulated investor-owned public utility to file revised rates to reflect the provisions of applicable state tax reform and the provisions of the federal Tax Reform Act of 1986. In lieu of filing revised rates to reflect the change in state and federal taxes, a public utility may file for a general rate change under section 476.6. If the public utility has not received board approval to collect the revised rates by July 1, 1987, the utility shall file a bond or other undertaking approved by the board conditioned upon the refund in a manner to be prescribed by the board of any amounts collected in excess of those amounts which would have been collected under the rates finally approved by the board. The utilities board shall adopt rules implementing this section.

A utility may delay implementation of the revised rates required by this section until September 30, 1987, if sufficient bond or corporate undertaking is approved and on file with the board. The bond or corporate undertaking shall be one and one-half times the estimated refund obligation accrued during the delay in implementing the revised rates. A utility having pledged a bond or corporate undertaking pursuant to this section may file for a general rate proceeding by September 30, 1987, with the historical test year ending June 30, 1987. 476.9 Accounts rendered to board.

1. Every public utility shall keep and render to the board in the manner and form prescribed by the board uniform accounts of all business transacted.

2. Every public utility engaged directly or indirectly in any other business than that of the production, transmission or furnishing of heat, light, water or power or furnishing communications services to the public shall, if required by the board, keep and render separately to the board in like manner and form the accounts of all such other business, in which case all the provisions of this chapter shall apply to the books, accounts, papers and records of such other business and all profits and losses may be taken into consideration by the board if deemed relevant to the general fiscal condition of the public utility.

3. Every public utility is required to keep and render its books, accounts, papers and records accurately and faithfully in the manner and form prescribed by the board, and to comply with all directions of the board relating to such books, accounts, papers and records.

4. The board shall consult with other state and federal regulatory bodies for the purpose of eliminating accounting discrepancies with regard to the keeping of public utility accounts before prescribing any system of accounts to be kept by the public utility.

[C66, 71, 73, 75, §490A.9; C77, 79, 81, §476.9]

476.10 Investigations — expense — appropriation.

When the board deems it necessary in order to carry out the duties imposed upon it by this chapter for the purpose of determining rate matters to investigate the books, accounts, practices, and activities of, or make appraisals of the property of any public utility, or to render any engineering or accounting services to any public utility, or to review the operations or annual reports of the public utility under section 476.31 or 476.32, the public utility shall pay the expense reasonably attributable to the investigation, appraisal, service, or review. The board shall ascertain the expenses including certified expenses incurred by the consumer advocate division of the department of justice directly chargeable to the public utility under section 475A.6, and shall render
a bill, by certified mail, to the public utility, either at
the conclusion of the investigation, appraisal, ser­
vices, or review, or from time to time during its
progress, which bill is notice of the assessment and
shall demand payment. The total amount of such
expense in any one calendar year, for which any
public utility shall become liable, shall not exceed
two-tenths of one percent of its gross operating
revenues derived from intrastate public utility oper­
ations in the last preceding calendar year.

The board shall ascertain the total of the division's
expenditures during each year which are reasonably
attributable to the performance of its duties under
this chapter. The board shall add to this total the
certified expenses of the consumer advocate as pro­
vided under section 475A.6 and shall deduct all
amounts chargeable directly to any specific utility
under any law. The remainder shall be assessed by
the board to the public utilities in proportion to their
respective gross operating revenues during the last
calendar year derived from intrastate public utility
operations and may be assessed by the board on a
quarterly basis. Assessments may be made quar­
terly based upon estimates of the utilities division’s
and the consumer advocate's expenditures for the
fiscal year. Beginning with the fiscal year beginning
July 1, 1987, the first assessment for any fiscal year
may be made by the utilities division by May 15 of
the preceding fiscal year and shall be paid by the
utility on or before the following July 1. Not more
than ninety days following the close of the fiscal
year, the utilities division shall conform the amount
of the prior fiscal year’s assessments to the require­
ments of this section. Public utilities exempt from
rate regulation under this chapter shall not be
assessed for remainder expenses incurred during
review of rate-regulated public utilities under sec­
tion 476.31 or 476.32, but such remainder expenses
shall be assessed proportionally as provided in this
section among only the rate-regulated public utili­
ties. The total amount which may be assessed to the
public utilities under authority of this paragraph
shall not exceed two-tenths of one percent of the total
gross operating revenues of the public utilities dur­ing
the calendar year derived from intrastate public
utility operations. However, the total amount which
may be assessed in any one calendar year to a public
utility under this section shall not exceed three-
tenths of one percent of the utility's total gross oper­
ating revenues derived from intrastate public
utility operation in the last preceding year. For
public utilities exempt from rate regulation under
this chapter, the assessments under this paragraph
shall be computed at one-half the rate used in
computing the assessment for other utilities.

Each utility shall pay the division the amount
assessed against it within thirty days from the time
the division mails notice to it of the amount due
unless it shall file with the board objections in
writing setting out the grounds upon which it claims
that such assessment is excessive, erroneous, unlaw­
ful, or invalid. Upon the filing of such objections
the board shall set the matter down for hearing and
issue its order in accordance with its findings in such
proceeding, which order shall be subject to review in
the manner provided in this chapter. All amounts
collected by the division pursuant to the provisions
of this section shall be deposited with the state
treasurer and credited to the general fund of the
state. Such amounts shall be spent in accordance
with the provisions of chapter 8.

Whenever the board shall deem it necessary in
order to carry out the duties imposed upon it in
connection with rate regulation under section 476.6,
investigations under section 476.3, or review pro­
cedings under section 476.31, the board may em­
ploy additional temporary or permanent staff, or
may contract with persons who are not state employ­
ees for engineering, accounting, or other profes­
sional services, or both. The costs of these additional
employees and contract services shall be paid by the
public utility whose rates are being reviewed in the
same manner as other expenses are paid under this
section. There is hereby appropriated out of any
funds in the state treasury not otherwise appropri­
atated, such sums as may be necessary to enable the
board to hire additional staff and contract for ser­
ices under this section. The authority to hire addi­
tional temporary or permanent staff that is granted
to the board by this section shall not be subject to
limitation by any administrative or executive order
or decision that restricts the number of state employ­
ees or the filling of employee vacancies, and shall not
be subject to limitation by any law of this state that
restricts the number of state employees or the filling
of employee vacancies unless that law is made appli­
cable to this section by express reference to this
section.

Fees paid to the utilities division shall be depos­
ited in a utilities trust fund. The treasurer of state
shall hold these funds in an account that shall be
established in the names of the administrator of the
utilities division and the consumer advocate for the
payment, upon appropriation by the general assem­
by, of the expenses of the utilities division and the
consumer advocate division of the department of
justice. This fund is subject at all times to the
warrant of the director of revenue and finance, drawn
upon written requisition of the administrator of
the utilities division, the administrator's design­
ated representative, the consumer advocate, or the
consumer advocate’s designated representative for
the payment of all salaries and other expenses
necessary to carry out the duties of the utilities
division or the consumer advocate division. Subject
to this section, the utilities division or the consumer
advocate division may keep on hand with the trea­
surer of state funds in excess of the current needs of
the utilities division or the consumer advocate divi­sion. Transfers shall not be made from the general
fund of the state or any other fund for the payment of
the expenses of the divisions. No part of the funds
held by the treasurer of state for the account shall be
transferred to the general fund of the state or any
other fund. The funds held by the treasurer of state
for the account shall be invested by the treasurer of
state and the income derived from these investments shall be credited to the general fund of the state. The authority to modify allotments provided in section 8 31 shall not apply to funds appropriated from the fund created in this section.

The administrator and consumer advocate shall account for receipts and disbursements according to the separate duties imposed upon the utilities and consumer advocate divisions by the laws of this state and each separate duty shall be fiscally self-sustaining.

476.11 Telephone tolls determined.
Whenever toll connection between the lines or facilities of two or more telephone companies has been made, or is demanded under the statutes of this state and the companies concerned cannot agree as to the terms and procedures under which toll communications shall be interchanged, the board upon complaint in writing, after hearing had upon reasonable notice, shall determine such terms and procedures.

476.12 Rehearings.
Notwithstanding the Iowa administrative procedure Act, any party, as defined in the rules and regulations promulgated by the board as provided in section 476 2, to a contested case before the board may within twenty days after the issuance of the final decision apply for a rehearing. The board shall either grant or refuse an application for rehearing within thirty days after the filing of the application, or may after giving the interested parties notice and opportunity to be heard and after consideration of all the facts, including those arising since the making of the order, abrogate or modify its order. A failure by the board to act upon the application for rehearing within the above period shall be deemed a refusal of the application. Neither the filing of an application for rehearing nor the granting of the application shall stay the effectiveness of an order unless the board so directs.

476.13 Judicial review.
1 Notwithstanding the Iowa administrative procedure Act, the district court for Polk county or for the county in which a public utility maintains its principal place of business has exclusive venue for the judicial review under chapter 17 A of actions of the board pursuant to rate-regulatory powers over that public utility.
2 Upon the filing of a petition for judicial review in an action referred to in subsection 1, the clerk of the district court shall notify the chief justice of the supreme court for purposes of assignment of a district judge under section 602 1212. The judicial review proceeding shall be heard by the district judge appointed by the supreme court under section 602 1212, but in the county of venue under subsection 1.
3 Notwithstanding the Iowa administrative procedure Act, if a public utility seeks judicial review of an order approving rates for the public utility, the level of rates that may be collected, under bond and subject to refund, while the appeal is pending shall be limited to the level of the temporary rates set by the board, or the level of the final rates set by the board, whichever is greater. During the period the judicial review proceeding is pending, the board shall retain jurisdiction to determine the rate of interest to be paid on any refunds eventually required on rates collected during judicial review.

476.14 Violations stopped.
Whenever the board shall be of the opinion that any public utility or any other person is violating this chapter or any order of the board, the board may commence an action in the district court for the county in which such violation is alleged to have occurred, to have such violation stopped and prevented by injunction, mandamus or other appropriate remedy.

476.15 Extent of jurisdiction.
The jurisdiction and powers of the board shall extend as hereinafter provided to the utility business of public utilities operating within this state to the full extent permitted by the Constitution and laws of the United States.

476.16 Annual report.
The board shall include in its annual report required under sections 17 1 and 17 10 among other matters, to the extent such regulation is conferred upon the board by this chapter, the following:
1 A complete financial report of receipts and expenditures, including list of public utilities and separately the amount of total fees and assessments paid by each.
2 A list of the applications, subject and disposition of each docket number under this chapter, including board fees for such docket assessed by the board.

476.17 Peak-load energy conservation.
1 The board may promulgate rules pursuant to chapter 17 A which require or authorize a public utility to establish peak load management procedures.
2 Rules of the board shall relate to reducing or limiting the peak load period consumption.
3 In promulgating rules under this section, the board is not bound by decisions, rulings or orders which relate to the definitions of types or classes of customers and which were issued by the Iowa state commerce commission prior to July 1, 1980.

[C81, §476 17]
476.18 Impermissible charges.
1. Public utilities subject to rate regulation are prohibited from including either directly or indirectly in their charges or rates to customers the costs of lobbying.

2. Legal costs and attorney fees incurred by a public utility subject to rate regulation in an appeal in state or federal court involving the validity of any action of the board shall not be included either directly or indirectly in the public utility's charges or rates to customers except to the extent that recovery of legal costs and attorney fees is allowed by the board. The board shall allow a public utility to recover reasonable legal costs and attorney fees incurred in the appeal. The board may consider the degree of success of the legal arguments of the public utility in determining the reasonable legal costs and attorney fees to be allowed.

3. Public utilities subject to rate regulation are prohibited from including either directly or indirectly in their charges or rates to customers the costs of advertising other than advertising which is required by the board or by other state or federal regulation. However, this subsection does not apply to a utility's advertising which is deemed by the board to be necessary for the utility's customers and which is approved by the board.

   Every ad which is published, broadcast, or otherwise displayed or disseminated to the public by a public utility which is to be charged to the customers of the public utility and which is not required by the board or by other state or federal regulation shall include a statement in the ad that the costs of the ad are being charged to the customers of the public utility. This paragraph does not apply to a utility's product or service that is or becomes subject to competition as determined by the board.

4. This section does not apply to a rural electric cooperative.

Nothing herein contained shall be construed to invalidate any proceedings under statutes existing prior to the enactment of this chapter; nor shall any action, litigation or appeal pending prior to the effective date of rate regulation of this chapter be affected hereby.

476.20 Disconnection limited — notice — moratorium — deposits.
1. A utility shall not, except in cases of emergency, discontinue, reduce, or impair service to a community, or a part of a community, except for nonpayment of account or violation of rules and regulations, unless and until permission to do so is obtained from the board.

2. The board shall establish rules requiring a regulated public utility furnishing gas or electricity to include in the utility's notice of pending disconnection of service a written statement advising the customer that the customer may be eligible to participate in the low income home energy assistance program or weatherization assistance program administered by the division of community action agencies of the department of human rights. The written statement shall list the address and telephone number of the local agency which is administering the customer's low income home energy assistance program and the weatherization assistance program. The written statement shall also state that the customer is advised to contact the public utility to settle any of the customer's complaints with the public utility, but if a complaint is not settled to the customer's satisfaction, the customer may file the complaint with the board. The written statement shall include the address and phone number of the board. If the notice of pending disconnection of service applies to a residence, the written statement shall advise that the disconnection does not apply from November 1 through April 1 for a resident who is a "head of household", as defined by law, and who has been certified to the public utility by the local agency which is administering the low income home energy assistance program and weatherization assistance program as being eligible for either the low income home energy assistance program or weatherization assistance program, and that if such a resident resides within the serviced residence, the customer should promptly have the qualifying resident notify the local agency which is administering the low income home energy assistance program and weatherization assistance program. The board shall establish rules requiring that the written notice contain additional information as it deems necessary and appropriate.

3. The board shall establish rules which shall be uniform with respect to all public utilities furnishing gas or electricity relating to disconnection of service. This subsection applies both to regulated utilities and to municipally owned utilities and unincorporated villages which own their own distribution systems, and violations of this subsection subject the utilities to civil penalties under section 476.51.

A qualified applicant for the low income home energy assistance program or the weatherization assistance program who is also a "head of household", as defined in section 422.4, subsection 11, shall be promptly certified by the local agency administering the applicant's program to the applicant's public utility that the resident is a "head of household" as defined by law, and who is a "head of household", as defined in section 422.4, subsection 11, and is qualified for the low income home energy assistance program or weatherization assistance program. Notwithstanding subsection 1, a public utility furnishing gas or electricity shall not disconnect service from November 1 through April 1 to a residence which has a resident that has been certified under this paragraph.

4. A public utility which violates a provision of this section relating to the disconnection of service or which violates a rule of the board relating to disconnection of service is subject to civil penalties imposed by the board under section 476.51.

5. The board shall establish rules which shall be
uniform with respect to all public utilities furnishing gas or electricity relating to deposits which may be required by the public utility for the initiation or reinstatement of service.

a. The deposit for a residential or commercial customer for a place which has previously received service shall not be greater than the highest billing of service for one month for the place in the previous twelve-month period.

b. The deposit for a residential or commercial customer for a place which has not previously received service or for an industrial customer shall be the customer's projected one month's usage for the place to be served as determined by the public utility according to rules established by the board.

This subsection does not prohibit a public utility from requiring payment of a customer's past due account with the utility prior to reinstatement of service.

The rules shall allow a person other than the customer to pay the customer's deposit. Upon termination of service to such a customer, the deposit plus accumulated interest less any unpaid utility bill of the customer, shall be reimbursed to the person who made the deposit.

476.21 Discrimination prohibited.
A municipality, corporation or co-operative association providing electrical or gas service shall not consider the use of renewable energy sources by a customer as a basis for establishing discriminatory rates or charges for any service or commodity sold to the customer or discontinue services or subject the customer to any other prejudice or disadvantage based on the customer's use or intended use of renewable energy sources. As used in this section, "renewable energy sources" includes but is not limited to, solar heating, wind power and the conversion of urban and agricultural organic wastes into methane gas and liquid fuels.

ASSIGNED AREA OF SERVICE

476.22 Definition.
As used in sections 476.23 to 476.26, unless the context otherwise requires, "electric utility" includes a public utility furnishing electricity as defined in section 476.1 and a city utility as defined in section 390.1.

[C77, 79, 81, §476.22]

476.23 Electric service conflicts — certificates of authority.
1. An electric utility shall not construct or extend facilities or furnish or offer to furnish electric service to the existing point of delivery of any customer already receiving electric service from another electric utility without having first filed with the board the express written agreement of the electric utility presently serving this customer, except as otherwise provided in this section. Any municipal corporation, after being authorized by a vote of the people, or any electric utility may file a petition with the board requesting a certificate of authority to furnish electric service to the existing point of delivery of any customer already receiving electric service from another electric utility. If, after notice by the board to the electric utility currently serving the customer, objection to the petition is not filed and investigation is not deemed necessary, the board shall issue a certificate within thirty days of the filing of the petition. When an objection is filed, if the board, after notice and opportunity for hearing, determines that service to the customer by the petitioner is in the public interest, including consideration of any unnecessary duplication of facilities, it shall grant this certificate in whole or in part, upon such terms, conditions, and restrictions as may be justified. Whether or not an objection is filed, any certificate issued shall require that the petitioner pay to the electric utility presently serving the customer, the reasonable price for facilities serving the customer. This price determination by the board shall include due consideration of the cost of the facilities being acquired, any necessary generating capacity and transmission capacity dedicated to the customer, depreciation, loss of revenue, and the cost of facilities necessary to reintegrate the system of the utility after detaching the portion sold.

2. An electric utility shall not construct or extend facilities or furnish electric service to a prospective customer not presently being served, unless its existing service facilities are nearer the proposed point of delivery than the service facilities of any other utility. However, an electric utility may extend electric service and transmission lines if the electric utility closest to the delivery point consents to this extension in writing and a copy of the agreement is filed with the board or, if the board, after notice and opportunity for hearing and after giving due consideration to the prevention of unnecessary duplication of facilities, finds that service from an electric utility, other than the closest utility, is in the public interest. This subsection shall not apply if the prospective customers are within an exclusive service area assigned to an electric utility as provided in this division.

3. Notwithstanding subsections 1 and 2 of this section, any electric utility may extend electric service and transmission lines to its own utility property and facilities.

4. If not inconsistent with the provisions of this division:

a. All rights of municipal corporations under chapter 364 to grant a person a franchise to erect, maintain, and operate plants and systems for electric light and power within the corporate boundaries, and rights acquired by franchise or agreement shall be preserved in these municipal corporations;

b. All rights of city utilities under the city code shall be preserved in these city utilities;

c. All rights of city utilities and joint electric
utilities under chapter 390 shall be preserved in these city utilities and joint electric utilities, and

d. All rights of cities under chapter 472 are preserved. However, prior to the institution of condemnation proceedings, the city shall obtain a certificate of authority from the board in accordance with this division and the board's determination of price under this division shall be conclusive evidence of damages in these condemnation proceedings.

476.24 Electric utility service area maps.

1 On or before July 1, 1977, and subsequently whenever requested by the board, electric utilities furnishing electricity to the public for compensation in this state shall file, jointly or severally, with the board detailed maps of their service area drawn to a scale of not less than one inch per mile or drawn to a larger scale if required for clarity showing all of the following:

a. The locations of an electric utility's generation, franchised transmission lines, distribution lines, and related facilities as of January 1, 1976

b. All state and federal highways and other public roads within the electric utility's service area

c. All section lines and numbers and township and range numbers within the electric utility's service area

d. The corporate boundaries of all cities within the electric utility's service area

e. All lakes and rivers within the electric utility's service area

f. All railroads within the electric utility's service area

g. Any additional information requested by the board.

2 On or before July 1, 1978, and subsequently when deemed by the board to be necessary, the board shall prepare or cause to have prepared a composite map of this state showing the service areas of electric utilities as submitted by the electric utilities. The form and detail of all maps shall be determined by the board

[C77, 79, 81, §476 24]

476.25 Assigned service areas — electric utilities — legislative policy.

It is declared to be in the public interest to encourage the development of coordinated statewide electric service at retail, to eliminate or avoid unnecessary duplication of electric utility facilities, and to promote economical, efficient, and adequate electric service to the public. In order to effect that public interest, the board may establish service areas within which specified electric utilities shall provide electric service to customers on an exclusive basis. Except for good cause expressed through formal public statement, the board shall establish these exclusive service areas on or before July 1, 1979. These exclusive service area boundaries shall be established by the board upon the following basis:

1 The service area boundaries shall be in a line approximately equidistant between the electric distribution lines of adjacent electric utilities as they existed on January 1, 1976, and as shown by the maps filed in accordance with this division. However, those boundaries may be modified by the board to promote the public interest, to preserve existing service areas and electric utilities' rights to serve existing customers, and to prevent unnecessary duplication of facilities, to take account of natural and physical barriers which would make electric service beyond these barriers uneconomic and impractical and those boundaries shall be modified by the board to take account of the contracts between electric utilities which have been approved by the board pursuant to subsection 2 of this section. When an electric utility's exclusive service area is established by the board to include existing customers presently served by the facilities of another electric utility, unless a voluntary exchange of facilities is agreed upon by the electric utilities involved and approved by the board, the board after notice and opportunity for hearing, shall require the purchase of those facilities presently serving these customers at a reasonable price to be determined by the board. The board, on its own motion or at the request of an electric utility or municipal corporation, after notice and opportunity for hearing, may modify the boundaries of an electric utility exclusive service area which it has previously established if this modification, including consideration of the factors noted in this subsection, is found to be in the public interest.

2 Contracts between electric utilities to designate service areas and customers to be served by the electric utilities or for the exchange of customers between electric utilities, when approved by the board, shall be valid and enforceable and shall be incorporated into the appropriate exclusive service areas established pursuant to subsection 1 of this section. The board shall approve a contract if it finds that the contract will eliminate or avoid unnecessary duplication of facilities, will provide adequate electric service to all areas and customers affected, promote the efficient and economical use and development of the electric systems of the contracting electric utilities, and is in the public interest.

3 An electric utility shall not serve or offer to serve electric customers in an exclusive service area assigned to another electric utility, nor shall an electric utility construct facilities to serve electric customers in an exclusive service area assigned to another electric utility. The state, an electric utility, or any other person who is injured or threatened with injury by conduct prohibited by this section may initiate a contested case proceeding with the board under chapter 17A. Upon finding a violation of this section the board shall order appropriate corrective action including discontinuance of the unlawful service to electric customers, removal of the unlawful service, or other disposition the board deems just and reasonable.

§476.26 Effect of incorporation, annexation or consolidation.

The inclusion by incorporation, consolidation, or annexation of any facilities or service area of an electric utility within the boundaries of any city shall not by such inclusion impair or affect in any respect the rights of the electric utility to continue to provide electric utility service and to extend service to prospective customers in accordance with the provisions of this division.

RULES

§476.31 Continuing audit of operation.

The board shall adopt not later than July 1, 1983, rules and policies to implement a program for the continuous review of operations of rate-regulated public utilities with respect to all matters that affect rates or charges for utility service.

[81 Acts, ch 156, §1]

§476.32 Review of annual reports.

The board shall review annual reports submitted by rate-regulated public utilities. The board shall commence rate-review proceedings under this chapter if an annual report indicates that the earnings of the public utility are excessive.

[81 Acts, ch 156, §2]

§476.33 Rules governing hearings.

1. The board shall adopt rules pursuant to chapter 17A to provide for the completion of proceedings under section 476.3 within ten months after the date of the filing of a complaint or petition under section 476.3, subsection 2, and to provide for the completion of proceedings under section 476.6 within ten months after the date of filing of the new or changed rates, charges, schedules or regulations under that section. These rules shall include reasonable time limitations for the submission or completion of comments and testimony, and exhibits, briefs and hearings, and may provide for the granting of additional time upon the request of a party to the proceeding or division staff for good cause shown.

2. Additional time granted to a party or to division staff under subsection 1 shall not extend the amount of time for which a utility is required to file a bond or other undertaking conditioned upon refund under section 476.3, subsection 2.

3. If in a proceeding under section 476.6 additional time is granted to a party or division staff under subsection 1, the board may extend the ten-month period during which a utility is prohibited from placing its entire rate increase request into effect under section 476.6, but an extension shall not exceed the aggregate amount of all additional time granted under subsection 1.

4. The board shall adopt rules that require the board, in rate regulatory proceedings under sections 476.3 and 476.6, to consider the use of the most current test period possible in determining reasonable and just rates, subject only to the availability of existing and verifiable data respecting costs and revenues, and in addition to consider verifiable data that exists as of the date of commencement of the proceedings respecting known and measurable changes in costs not associated with a different level of revenue, and known and measurable revenues not associated with a different level of costs, that are to occur at any time within twelve months after the date of commencement of the proceedings. For purposes of this subsection, a proceeding commences under section 476.6 upon the filing date of new or changed rates, charges, schedules or regulations. This subsection does not limit the authority of the board to consider other evidence in proceedings under sections 476.3 and 476.6.

ALTERNATE ENERGY PRODUCTION FACILITIES

§476.41 Purpose.

It is the policy of this state to encourage the development of alternate energy production facilities and small hydro facilities in order to conserve our finite and expensive energy resources and to provide for their most efficient use.

[83 Acts, ch 182, §2]

§476.42 Definitions.

As used in this division, unless the context otherwise requires:

1. “Alternate energy production facility” means any or all of the following:
   a. A solar, wind turbine, waste management, resource recovery, refuse-derived fuel, or woodburning facility.
   b. Land, systems, buildings, or improvements that are located at the project site and are necessary or convenient to the construction, completion, or operation of the facility.
   c. Transmission or distribution facilities necessary to conduct the energy produced by the facility to users located at or near the project site.

2. “Electric utility” means a public utility that furnishes electricity to the public for compensation.

3. “Small hydro facility” means any or all of the following:
   a. A hydroelectric facility at a dam.
   b. Land, systems, buildings, or improvements that are located at the project site and are necessary or convenient to the construction, completion, or operation of the facility.
   c. Transmission or distribution facilities necessary to conduct the energy produced by the facility to users located at or near the project site.

[83 Acts, ch 182, §3]

§476.43 Rates for alternate energy production facilities.

1. Subject to section 476.44, the board shall re-
quire electric utilities to enter into long-term contracts to do the following:

a. Purchase or wheel electricity from alternate energy production facilities or small hydro facilities located in the utility’s service area under the terms and conditions that the board finds are just and economically reasonable to the electric utilities’ ratepayers, are nondiscriminatory to alternate energy producers and small hydro producers and will further the policy stated in section 476.41.

b. Provide for the availability of supplemental or backup power to alternate energy production facilities or small hydro facilities on a nondiscriminatory basis and at just and reasonable rates.

2. Upon application by the owner or operator of an alternate energy production facility or small hydro facility or any interested party, the board shall establish for the affected public utility just and economically reasonable rates for electricity purchased under subsection 1, paragraph “a”. The rates shall be established at levels sufficient to stimulate the development of alternate energy production and small hydro facilities in Iowa and to encourage the continuation of existing capacity from those facilities.

3. The board shall base the rates for new facilities or new capacity from existing facilities on the following factors:

a. The estimated capital cost of the next generating plant, including related transmission facilities, to be placed in service by the electric utility serving the area.

b. The term of the contract between the electric utility and the seller.

c. A levelized annual carrying charge based upon the term of the contract and determined in a manner consistent with both the methods and the current interest or return requirements associated with the electric utility’s new construction program.

d. The electric utility’s annual energy costs, including current fuel costs, related operation and maintenance costs, and other energy-related costs considered appropriate by the board.

4. The board shall consider the factors listed in subsection 3 in setting rates for existing facilities. However, the board may consider other factors and may establish a rate for existing facilities that is less than the rate established for new facilities if the board determines that a lower rate is sufficient to encourage small power production.

5. In the case of a utility that purchases all or substantially all of its electricity requirements, the rates established under this section must be equal to the current cost to the electric utility of similar types and quantities of electrical service.

6. In lieu of the other procedures provided by this section, an electric utility and an owner or operator of an alternate energy production facility or small hydro facility may enter into a long-term contract in accordance with subsection 1 and may agree to rates for purchase and sale transactions. A contract entered into under this subsection must be filed with the board in the manner provided for tariffs under section 476.4.

7. This section does not require an electric utility to construct additional facilities unless those facilities are paid for by the owner or operator of the affected alternate energy production facility or small hydro facility.

83 Acts, ch 127, §4; 88 Acts, ch 1134, §92

476.44 Exceptions.

1. The board shall not require an electric utility to purchase or wheel electricity from an alternate energy production facility or small hydro facility unless the facility meets all of the following conditions:

a. Has an electric generating capacity of not more than eighty megawatts.

b. Is owned or operated by an individual, firm, copartnership, corporation, company, association, joint stock association, city, town, or county that:

(1) Is not primarily engaged in the business of producing or selling electricity, gas, or useful thermal energy other than electricity, gas, or useful thermal energy sold solely from alternate energy production facilities or small hydro facilities.

(2) Does not sell electricity, gas, or useful thermal energy to residential users other than the tenants or the owner or operator of the facility.

2. The board shall not require an electric utility to purchase or wheel electricity from a small hydro facility unless the facility has an electric generating capacity of not more than eighty megawatts.

83 Acts, ch 182, §5

476.45 Exemption from excess capacity.

Capacity purchased from an alternate energy production facility or small hydro facility shall not be included in a calculation of an electric utility’s excess generating capacity for rate-making purposes.

83 Acts, ch 182, §6

476.46 to 476.50 Reserved.

PENALTY

476.51 Civil penalty.

A public utility which willfully violates a provision of this chapter, a rule adopted by the board, or a provision of an order lawfully issued by the board, is subject to a civil penalty, which may be levied by the board, of not more than one hundred dollars per violation or one thousand dollars per day of a continuing violation, whichever is greater. Civil penalties collected pursuant to this section shall be forwarded by the executive secretary of the board to the treasurer of state to be credited to the energy research and development fund and to be used only for the low income home energy assistance program and the weatherization assistance program administered by the division of community action agencies of the department of human rights. Penalties paid by a rate-regulated public utility pursuant to this section shall be excluded from the utility’s costs when determining the utility’s revenue requirement, and shall not be included either directly or indirectly in the utility’s rates or charges to customers.

83 Acts, ch 127, §34; 88 Acts, ch 1134, §92
POLICIES

476.52 Management efficiency.
It is the policy of this state that a public utility shall operate in an efficient manner. If the board determines in the course of a proceeding conducted under section 476.3 or 476.6 that a utility is operating in an inefficient manner, or is not exercising ordinary, prudent management, or in comparison with other utilities in the state the board determines that the utility is performing in a less beneficial manner than other utilities, the board may reduce the level of profit or adjust the revenue requirement for the utility to the extent the board believes appropriate to provide incentives to the utility to correct its inefficient operation. If the board determines in the course of a proceeding conducted under section 476.3 or 476.6 that a utility is operating in such an extraordinarily efficient manner that tangible financial benefits result to the ratepayer, the board may increase the level of profit or adjust the revenue requirement for the utility. The board shall adopt rules for determining the level of profit or the revenue requirement adjustment that would be appropriate.

The board shall also adopt rules establishing a methodology for an analysis of a utility's management efficiency.
83 Acts, ch 127, §35

476.53 Excess capacity.
It is the intent of the general assembly of the state of Iowa to provide for the development of a fair resolution concerning the allocation of costs associated with excess electric generating capacity. It is the policy of this state that it is in the public interest that public utilities subject to rate regulation, at a minimum, be prohibited from including either directly or indirectly in their charges or rates to customers the return on common equity associated with excess electric generating capacity, however this shall not apply to rural electric cooperatives. The board shall not allow a return on common equity on that portion of a public utility's electric generating capacity which is determined to be excess electric generating capacity. Excess electric generating capacity is that portion of the public utility's electric generating capacity which exceeds the amount reasonably necessary to provide adequate and reliable service as determined by the board.

Electric generating capacity sold pursuant to the terms of contracts entered into between June 28, 1978 and June 30, 1978 for power delivered on or before May 1, 1983 to May 1, 1983, shall not be included in the determination of excess electric generating capacity.

Electric generating capacity purchased from qualifying cogeneration and small power production facilities shall not be included in the determination of excess electric generating capacity.
83 Acts, ch 127, §36, 50

476.54 Delayed payment charges.
A public utility shall not apply delayed payment charges on a customer's account if the scheduled payment was made by the customer within twenty days from the date the billing was sent to the customer. Delayed payment charges on a customer's account shall not exceed one and one-half percent per month of the past-due amount.
83 Acts, ch 127, §37

476.55 Complaint of antitrust activities.
An application for new or changed rates, charges, schedules or regulations filed under this chapter, or an application for a certificate or an amendment to a certificate submitted under chapter 476A, by an electric transmission line utility or a gas pipeline utility or a subsidiary of either shall not be approved by the board if, upon complaint by an Iowa electric or gas utility, the board finds activities which create or maintain a situation inconsistent with antitrust laws and the policies which underlie them. The board may grant the rate or facility certification request once it determines that those activities which led to the antitrust complaint have been eliminated. However, this subsection does not apply to an application for new or changed rates, charges, schedules or regulations after the expiration of the ten-month limitation and applicable extensions.
83 Acts, ch 127, §38

476.56 Energy costs provided.
A gas or electric public utility shall provide, upon the request of a person who states in writing that the person is an owner of real property, or an interested prospective purchaser or renter of the property, which is or has been receiving gas or electric service from the public utility, the annual gas or electric energy costs for the property.
88 Acts, ch 1174, §3

476.57 through 476.60 Reserved.

ENERGY CONSERVATION IMPROVEMENTS

For termination procedures see 86 Acts, ch 1134, §2.

476.62 through 476.64 Reserved.

ENERGY AUDITS

476.65 Energy audits.
1. A customer for whom a public utility has performed an energy audit under the I-SAVE program or the CACS program shall in writing designate one of the following:
a. That the results of the audit shall not be disclosed to any other person, except as permitted in subsection 2.
b. That the results of the audit are available to any person engaged in the business of making or
providing energy conservation improvements or services who requests the information whether the request is made for the customer individually or the request is made for the customer as a class.

2. The results of an audit conducted under the I-SAVE program or the CACS program shall be made available, upon request, to a person who states in writing that the person is a prospective purchaser of the facility audited.

3. The public utility shall make results of the energy audits available consistent with this section.

4. As used in this section:
   a. "I-SAVE program" means the Iowa-Save America's Vital Energy program operated pursuant to rules adopted by the board.
   b. "CACS program" means the Commercial Apartment Conservation Service program operated pursuant to rules adopted by the board.

86 Acts, ch 1110, §1

CUSTOMER CONTRIBUTION FUND

476.66 Customer contribution fund.

1. The utilities board shall adopt rules which shall require each electric and gas public utility to establish a fund whose purposes shall include the receiving of contributions to assist the utility's low income customers with weatherization and to supplement the energy assistance received under the federal low income heating energy assistance program for the payment of winter heating bills.

2. The rules shall require each utility to periodically notify its customers of the availability and purpose of the fund and to provide them with forms on which they can authorize the utility to bill their contribution to the fund on a monthly basis.

3. The rules shall permit the fund to accept matching funds from persons or organizations who wish to provide assistance for customers of the utility.

4. The utility may be reimbursed by the fund for the administrative costs of the billings, disbursements, notices to customers, and financial record keeping. However, such reimbursement shall not exceed five percent of the total revenues collected.

5. The utility shall establish a board or committee to determine the appropriate distribution of the funds. The board or committee shall include representatives from community or regional organizations which are active in assisting citizens with payment of their winter heating bills.

6. The rules established by the utilities board shall require an annual report to be filed for each fund. The utilities board shall compile an annual statewide report of the fund results. The division of community action agencies of the department of human rights shall prepare an annual report of the unmet need for energy assistance and weatherization. Both reports shall be submitted to the appropriations committees of the general assembly on the first day of the following session.

7. Existing programs to receive customer contributions established by public utilities shall be construed to meet the requirements of this section. Such plans shall be subject to review by the utilities board. If determined not to be in compliance with the provisions of this section, they shall be given until July 1989 to modify their operation so as to be in compliance.

CHAPTER 476A

ELECTRIC POWER GENERATORS

476A.1 Definitions.

As used in this chapter, unless the context otherwise requires:

1. "Facility" means any electric power generating plant or a combination of plants at a single site with a total capacity of one hundred megawatts of electricity or more and those associated transmission lines connecting the generating plant to either a
power transmission system or an interconnected primary transmission system or both. Transmission lines subject to the provisions of this chapter shall not require a franchise under chapter 478.

3. "Commence to construct" means significant alteration of a site to install permanent equipment or structures but does not include activities incident to preliminary engineering, environmental studies or acquisition of a site for a facility.

4. "Agency" means an agency as defined in section 17A.2, subsection 1.

5. "Regulatory agency" means an agency which issues licenses or permits required for the construction, operation or maintenance of a facility pursuant to statutes or rules in effect on the date on which an application for a certificate is accepted by the utilities board.

6. "Board" means the utilities board within the utilities division of the department of commerce.

476A.2 Certificate required.

1. Commencing January 1, 1977, a person shall not commence to construct a facility except as provided in section 476A.9 unless a certificate for the facility has been issued by the board. This chapter shall not apply to persons who prior to July 1, 1976:

a. Have acquired a site for a facility; and,

b. Have publicly announced the intention to construct a facility; and,

c. Have let contracts for major components of a facility.

2. Any significant alteration, as determined by the board, in the location, construction, maintenance, or operation of a facility whether constructed before or after July 1, 1976 shall require an application for an amendment to a certificate or a certificate, whichever is appropriate. "Significant alteration" shall include but shall not be limited to a change in the type of fuel used by the major electric generating facility.

3. Any person required to obtain a certificate or an amendment to a certificate shall construct, operate and maintain the facility according to the terms of the certificate and any amendments to the certificate. A certificate shall only be issued pursuant to this chapter.

476A.3 Application submitted — review.

An application for a certificate or an amendment to a certificate shall be submitted to the board on such forms as the board may prescribe. Copies of the application shall be forwarded to regulatory agencies. Regulatory agencies receiving a copy of the application shall conduct a preliminary review of the contents and shall evaluate the application for completeness and compliance with the regulatory agency's permit and licensing requirements within a reasonable amount of time.

476A.4 Hearing scheduled — notice.

1. The proceeding for the issuance of a certificate or an amendment to a certificate shall be treated in the same manner as a contested case pursuant to the provisions of chapter 17A. Upon acceptance of an application by the board, a public hearing shall be scheduled.

2. The board shall serve notice of the proceeding on the following:

a. Interested agencies, as determined by the board, and regulatory agencies.

b. County and city zoning authorities from the area in which the proposed site is located.

c. Owners of record of real property located within one thousand linear feet of the proposed site.

3. Notice of the proceeding in the form provided in section 17A.12, subsection 2, shall be published in a newspaper of general circulation in each county in which the proposed site is located once a week for two consecutive weeks with the second publication being at least twenty days prior to the date of the hearing. The board shall be responsible for publication and delivery of notices required by this section.

4. The board shall conduct the hearing, as described in subsection 1, in the county in which the construction of the greater portion of the facility is being proposed.

476A.5 Proceeding — role of regulatory agencies and local authorities.

1. The board shall conduct the contested case proceeding. Regulatory agencies which appear on record at the proceeding shall determine whether the application meets their permit and licensing requirements. If the application does not meet such requirements, the regulatory agency shall recommend amendments to the application which outline actions necessary to bring the applicant in compliance with the regulatory agency's permit and licensing requirements. The board shall not issue a certificate for a facility which does not meet the permit and licensing requirements of a regulatory agency.

2. If a regulatory agency which received notice pursuant to section 476A.4 fails to appear of record in the contested case proceeding, the board shall conclusively presume that the facility meets the regulatory agency's permit and licensing requirements and the regulatory agency shall immediately issue any license or permit required for the construction, operation or maintenance of the facility.

3. City and county zoning authorities designated as parties to the proceeding may appear on record and may state whether the facility meets city, county and airport zoning requirements. The failure of a facility to meet zoning requirements established pursuant to chapters 329, 358A and 414 shall not preclude the board from issuing the certificate and to that extent the provisions of this subsection shall supersede the provisions of chapters 329, 358A and 414.
476A.6 Decision — criteria.
The board shall render a decision on the application in an expeditious manner. A certificate shall be issued to the applicant if the board finds all of the following:
1. The services and operations resulting from the construction of the facility are required by the present or future public convenience, use and necessity.
2. The applicant is willing to perform such services and construct, maintain, and operate the facility pursuant to the provisions of the certificate and this chapter.
3. The construction, maintenance, and operation of the facility will cause minimum adverse land use, environmental, and aesthetic impact and are consonant with reasonable utilization of air, land and water resources for beneficial purposes considering available technology and the economics of available alternatives.
4. The applicant has in effect a comprehensive energy management program designed to reduce peak loads and to increase efficiency of use of energy by all classes of customers of the utility, and the facility in the application is necessary notwithstanding the existence of the comprehensive energy management program. As used in this subsection, a "comprehensive energy management program" includes at a minimum the following:
   a. Establishment of load management and interruptible service programs, where cost effective.
   b. Development of wheeling agreements and other energy sharing agreements, where cost effective with utilities that have available capacity.
   c. Establishment of cost-effective energy conservation and renewable energy services and programs.
   d. Compliance with board rules on energy management procedures.
5. The applicant has considered all feasible alternatives to the proposed facility including nongeneration alternatives; has ranked those alternatives by cost; has implemented the least-cost alternatives first; and the facility in the application is necessary notwithstanding the implementation of these alternatives.

476A.7 Issuance of certificate — effect.
1. Issuance of a certificate by the board:
   a. Authorizes construction of the facility on the site designated in the certificate according to the terms and conditions stated in the certificate and licenses and permits issued by regulatory agencies during the proceeding; and,
   b. Gives the applicant the power of eminent domain to the extent and under such conditions as the board may approve, prescribe and find necessary for the public convenience, use and necessity, proceeding in the manner of works of internal improvement under chapter 472. The burden of proving the necessity for the exercise of the power of eminent domain shall be on the person issued the certificate.
2. A certificate may be transferred, subject to the approval of the board, to a person who agrees to comply with the terms of the certificate including any amendments to the certificate. Certificates shall be transferable by operation of law to any receiver, trustee or similar assignee under a mortgage, deed of trust or similar instrument.

476A.8 Further approvals prohibited — exception.
Upon issuance of a certificate, notwithstanding any provision of law except statutory requirements relating to the protection of employees engaged in the construction of the facility, a regulatory agency, city or county shall not require any further approval, permit or license for the construction of the facility.

476A.9 Advance site preparation.
Subsequent to the hearing held pursuant to section 476A.5 and in the event of extensive delay in the issuance of a certificate, the board may permit an applicant having an application docketed for hearing to begin work to prepare the site for construction of the facility. Any activities conducted pursuant to this section shall have no probative value in the board's decision concerning the actual issuance of a certificate.

476A.10 Costs of proceeding.
The applicant for a certificate, or an amendment to certificate, shall pay all the costs and expenses incurred by the division in reaching a decision on the application including the costs of examinations of the site, the hearing, publishing of notice, division staff salaries, the cost of consultants employed by the division, and other expenses reasonably attributable to the proceeding.

Notwithstanding the provisions of chapter 17A:
1. Any proceeding or oral presentation held on an application for a certificate or an amendment to a certificate shall be held in lieu of any other proceeding or oral presentation required for a license or permit necessary for the construction, maintenance or operation of a facility.
2. The decision of the board shall be considered a single agency action. The agency action shall be subject to judicial review in the manner provided in chapter 17A.
3. Only parties to the proceeding before the board may seek judicial review of the final order of the board.

476A.12 Rules.
The board shall adopt rules pursuant to chapter 17A necessary to implement the provisions of this chapter including but not limited to the promulgation of facility siting criteria, the form for an appli-
cation for a certificate and an amendment to a certificate, the description of information to be furnished by the applicant, the determination of what constitutes a significant alteration to a facility, and the establishment of minimum guidelines for public participation in the proceeding.

[C77, 79, 81, §476A 12]

476A.13 Staff assistance — federal pre-emption.

1 The board may request staff assistance from other federal, state and local agencies, pursuant to chapter 28D, to assist in discharging the responsibilities assigned to the board pursuant to this chapter. The board may exercise the powers and responsibilities assigned to the board under this chapter jointly with other governmental agencies pursuant to chapter 28E.

2 This chapter shall not apply to any facility over which an agency of the federal government has exclusive jurisdiction. When concurrent jurisdiction exists with certain powers reserved to the state, the state shall exercise those powers with respect to facilities operating within this state to the full extent permitted by the Constitution and the laws of the United States

[C77, 79, 81, §476A 13]

476A.14 Penalties.

1 Any person who commences to construct a facility as provided in this chapter without having first obtained a certificate, or who constructs, operates or maintains any facility other than in compliance with a certificate issued by the board or a certificate amended pursuant to this chapter, or who causes any of these acts to occur, shall be liable for a civil penalty of not more than ten thousand dollars for each violation or for each day of continuing violation. Civil penalties collected pursuant to this subsection shall be forwarded by the clerk of court to the treasurer of state for deposit in the general fund of the state.

2 The district court shall have exclusive jurisdiction to grant restraining orders and temporary or permanent injunctive relief as may be necessary to obtain compliance with this chapter.

3 Persons convicted of violating any provision of this chapter shall be guilty of a simple misdemeanor.

[C77, 79, 81, §476A 14]

476A.15 Energy sharing agreements.

Before a certificate is issued under section 476A 6, the public utility shall demonstrate to the board that the utility has considered sources for long term electric supply from either purchase of electricity or investment in facilities owned by other utilities.

The 911 service shall be established according to a written plan which has the written approval of the governing bodies of each public agency, public safety agency, and private safety entity serving territory within the 911 service area.

477A.5 Recommendations to general assembly.
The commission shall submit a written report and recommendations for an overall plan to implement 911 service to the general assembly not later than January 10, 1987. The recommendations shall include, but are not limited to:

1. The responsibilities that should be assumed by state and local public agencies and public safety agencies and by exchange carriers providing public telephone service in implementing statewide 911 service.

2. The size of 911 service areas necessary to operate effectively and to achieve economies of scale and the local government coordination necessary to establish 911 service.

3. Whether it is necessary or desirable for an existing or new state agency to be given the responsibility for monitoring, reviewing, supervising, or coordinating the implementation of statewide 911 service.

4. The equipment, capability and operational standards that should be established for 911 service, including procedures for transmitting calls, that will result in the shortest response time in emergencies and the best service to the public.

5. An estimate of the cost to state and local public agencies to plan, implement, and operate 911 systems throughout the state. The cost reported should indicate the current costs of telephone and related services as well as the incremental costs of 911 implementation.

6. Whether it is necessary or desirable for the general assembly to establish a deadline by which every public agency and public or private safety agency must establish or participate in 911 service.

7. Whether it is necessary or desirable for the general assembly to allow a public agency or utility to seek a waiver of all or some of the time limits for implementing 911 service.

8. Identification and listing of all existing federal, state, local, and private funding sources available for implementation of 911 service. The report shall discuss the merits of alternative methods of collecting the necessary revenues including an increase in taxes, an imposition of a surcharge on the amounts paid by every person in the state for intrastate telephone service, and combinations of these methods.

9. How public agency costs for the planning, installation, and continued operation of the 911 system should be met and from which sources.

CHAPTER 477B
ENHANCED 911 EMERGENCY TELEPHONE COMMUNICATION SYSTEMS

477B.1 Purpose.
The legislature finds that enhanced 911 emergency telephone communication systems further the public interest and protect the health, safety, and welfare of the people of Iowa. The purpose of this chapter is to enable the orderly development, instal-
lation, and operation of enhanced 911 emergency
telephone communication systems statewide. These
systems are to be operated under governmental
management and control for the public benefit.

88 Acts, ch 1177, §2

477B.3 Joint 911 service board — 911 service
plan — implementation — waivers.
1. Joint 911 service boards to submit plans. The
board of supervisors of each county shall establish a
joint 911 service board not later than January 1,
1989. Each political subdivision of the state having a
public safety agency serving territory within the
county is entitled to voting membership on the joint
911 service board. Each private safety entity operat­
ing within the area is entitled to nonvoting member­
ship on the board. The joint 911 service board shall
develop an enhanced 911 service plan encompassing
at minimum the entire county, unless an exemption
is granted by the administrator permitting a smaller
E911 service area. The administrator may grant a discretionary exemption from the single county minimum service area requirement based upon an E911 joint service board’s or other E911 service plan operating authority’s presentation of evidence which supports the requested exemption if the administrator finds that local conditions make adherence to the minimum standard unreasonable or technically infeasible, and that the purposes of this chapter would be furthered by granting an exemption. The minimum size requirement is intended to prevent unnecessary duplication of public safety answering points and minimize other administrative, personnel, and equipment expenses. An E911 service area must encompass a geographically contiguous area. No exemption shall be granted from the contiguous area requirement. The administrator may order the inclusion of a specific territory in an adjoining E911 service plan area to avoid the creation by exclusion of a territory smaller than a single county. E911 service plan areas upon request of the joint 911 service board representing the territory. The E911 service plan operating authority shall submit the plan on or before March 1, 1989, to all of the following:

a. The division
b. Public and private safety agencies in the enhanced 911 service area
c. Providers affected by the enhanced 911 service plan

The division shall prepare a statewide summary of the plans submitted and present the summary to the legislature on or before June 1, 1989.

2 Compliance waivers available in limited circumstances. The administrator may extend, in whole or in part, the time for implementation of an enhanced 911 service plan beyond the scheduled plan of implementation, by issuance of a compliance waiver. The waiver shall be based upon a joint 911 service board’s presentation of evidence which supports an extension if the administrator finds that local conditions make implementation financially unreasonable or technically infeasible by the originally scheduled plan of implementation. The compliance waiver shall be for a set period of time, and subject to review and renewal or denial of renewal upon its expiration. The waiver may cover all or a portion of a 911 service plan’s enhanced 911 service area to facilitate phased implementation when possible. The granting of a compliance waiver does not create a presumption that the identical or similar waiver will be extended in the future. Consideration of compliance waivers shall be on a case by case basis.

3 Chapter 28E agreement — alternative to joint 911 service board. A legal entity created pursuant to chapter 28E by a county or counties, other political divisions, and public or private agencies to jointly plan, implement, and operate a countywide, or larger, enhanced 911 service system may be substituted for the joint 911 service board required under subsection 1.

4 Participation in joint E911 service board required. A political subdivision or state agency having a public safety agency within its territory or jurisdiction shall participate in a joint E911 service board and cooperate in preparing the E911 service plan.

88 Acts, ch 1177, §3

477B.4 Required conversion of pay telephones to allow 911 calls without depositing coins or other charge.

1 Conversion and notice required. When an enhanced 911 service system becomes operational or as soon as feasible thereafter, each provider or other owner or lessee of a pay station telephone to be operated within the enhanced 911 service area shall do the following:

a. Convert each telephone to permit a caller to dial 911 without first inserting a coin or paying any other charge;
b. Prominently display on each pay telephone a notice advising callers to dial 911 in an emergency and that deposit of a coin is not required.

2 Certain pay phones prohibited within service area. After commencement of enhanced 911 service in an enhanced 911 service area, a person shall not install or offer for use within the 911 service area a pay station telephone unless the telephone is capable of accepting a 911 call without prior insertion of a coin or payment of any other charge, and unless the telephone displays notice of free 911 service.

88 Acts, ch 1177, §4

477B.5 Private listing subscribers and 911 service.

Private listing subscribers in an enhanced 911 service area waive the privacy afforded by nonlisted or nonpublished numbers to the extent that the name and address associated with the telephone number may be furnished to the enhanced 911 service system, for all routing, for automatic retrieval of location information, and for associated emergency services.

88 Acts, ch 1177, §5

477B.6 Referendum on E911 in proposed service area.

1 Before a joint E911 service board may request imposition of the surcharge by the administrator, the board shall submit the following question to either voters or subscribers, as provided in subsection 2, in the proposed E911 service area, and the question shall receive a favorable vote from a simple majority of persons submitting valid ballots on the following question within the proposed E911 service area:

“Should enhanced 911 emergency telephone service be funded, in whole or in part, by a surcharge of (up to twenty-five cents) per month per telephone access line collected as part of each telephone subscriber’s monthly phone bill if provided within (description of the proposed E911 service area)?”

2 The referendum required as a condition of the surcharge imposition in subsection 1 shall be con-
ducted using one of the following electoral mechanisms at the option of the joint E911 service board:

a. A local exchange access company providing service to subscribers within the proposed E911 service area shall provide the name and address of each subscriber to be served to the joint E911 service board proposing to provide E911 service. The names and addresses may be used by the joint E911 service board for the purpose of mailing referendum ballots. Ballots shall be returned to the subscriber's county commissioner of elections who shall report the results to the joint E911 service board. The joint E911 service board shall compile the results if subscribers from more than one county are included within the proposed service area. The board shall announce whether a simple majority of subscribers submitting valid ballots within the proposed E911 service area approved the referendum question. A subscriber may only vote once.

b. At the request of the joint E911 service board a county commissioner of elections shall include in the question on the next eligible election ballot in each electoral precinct to be served, in whole or in part, by the proposed E911 service area. The question may be included in the next election in which all of the voters in the proposed E911 service area will be eligible to vote on the same day, such as a primary, general, or school board election. The county commissioner of elections shall report the results to the joint E911 service board. The joint E911 service board shall compile the results if subscribers from more than one county are included within the proposed service area. The joint E911 service board shall announce whether a simple majority of the compiled votes reported by the commissioner approved the referendum question.

3. The secretary of state, in consultation with the administrator of the office of disaster services of the department of public defense, shall adopt rules for the conduct of joint E911 service referendums as required by and consistent with subsections 1 and 2.

88 Acts, ch 1177, §6

477B.7 Funding — E911 service surcharge.

When an E911 service plan is implemented, the costs of providing E911 service within an E911 service area are the responsibility of the joint E911 service board and the member political subdivisions. Costs in excess of the amount raised by imposition of the E911 service surcharge provided for under subsection 1, shall be paid by the joint E911 service board from such revenue sources allocated among the member political subdivisions as determined by the joint E911 service board. Funding is not limited to the surcharge, and surcharge revenues may be supplemented by other permissible local and state revenue sources.

1. Local E911 service surcharge imposition.

a. To encourage local implementation of E911 service, one source of funding for E911 emergency telephone communication systems shall come from a surcharge of twenty-five cents, per month, per access line on each access line subscriber, except as provided in subsection 5. The surcharge shall be imposed by order of the administrator as follows:

   (1) The administrator shall notify a provider scheduled to provide exchange access line service to an E911 service area, that implementation of an approved E911 service plan is to begin within one hundred days.

   (2) The notice shall be provided at least one hundred days before the surcharge must be billed for the first time.

b. The surcharge shall terminate at the end of twenty-four months, unless either, or both, of the following conditions is met:

   (1) E911 service is initiated for all or a part of the E911 service area.

   (2) An extension is granted by the administrator for good cause.

2. Surcharge collected by providers. The surcharge shall be collected as part of the access line service provider's periodic billing to a subscriber. In compensation for the costs of billing and collection, the provider may retain one percent of the gross surcharges collected. If the compensation is insufficient to fully recover a provider's costs for billing and collection of the surcharge, the deficiency shall be included in the provider's costs for ratemaking purposes to the extent it is reasonable and just under section 476.6. The surcharge shall be remitted to the E911 service operating authority for deposit into the E911 service fund quarterly by the provider. A provider is not liable for an uncollected surcharge for which the provider has billed a subscriber but not been paid. The surcharge shall appear as a single line item on a subscriber's periodic billing entitled, "E911 emergency telephone service surcharge". The E911 service surcharge is not subject to sales or use tax.

3. Maximum limit per subscriber billing for surcharge. An individual subscriber shall not be required to pay on a single periodic billing the surcharge on more than one hundred access lines, or their equivalent, in an E911 service area. A subscriber shall pay the surcharge in each E911 service area in which the subscriber receives access line service.

4. E911 service fund. Each joint E911 service board shall establish and maintain as a separate account an E911 service fund. Any funds remaining in the account at the end of each fiscal year shall not revert to the general funds of the member political subdivisions, except as provided in subsection 5, but shall remain in the E911 service fund. Moneys in an E911 service fund may only be used for nonrecurring and recurring costs of the E911 service plan as approved by the administrator, as those terms are defined by section 477B.2.

5. Use of moneys in fund — priority and limitations on expenditure. Moneys deposited in the E911 service fund shall be used for the following, in order of priority:

a. Money shall first be spent for actual recurring costs of operating the E911 service plan.

b. If money remains in the fund after fully paying for recurring costs incurred in the preceding year,
the remainder may be spent to pay for nonrecurring costs, not to exceed actual nonrecurring costs as approved by the administrator.

c If money remains in the fund after fully paying obligations under subsections 1 and 2, the remainder may be accumulated in the fund as a carryover operating surplus. If the surplus is greater than twenty-five percent of the approved annual operating budget for the next year, the administrator shall reduce the surcharge by an amount calculated to result in a surplus of no more than twenty-five percent of the planned annual operating budget. After nonrecurring costs have been paid, if the surcharge is less than twenty-five cents and the fund surplus is less than twenty-five percent of the approved annual operating budget, in no case may the surcharge exceed twenty-five cents per month, per access line. The surcharge may only be adjusted once in a single year, upon one hundred days' prior notice to the provider.

6 Limitation of actions — provider not liable on cause of action related to provision of 911 services. A claim or cause of action does not exist based upon or arising out of an act or omission in connection with a provider's participation in an E911 service plan or provision of 911 or local exchange access service, unless the act or omission is determined to be willful and wanton negligence.

88 Acts, ch 1177, §7

477B.8 Local exchange service information — penalty.  
1 A local exchange service provider shall furnish to the E911 service provider, designated by the joint E911 service board, all names, addresses, and telephone number information concerning its subscribers which will be served by the E911 system and shall periodically update the local exchange service information. The local exchange service provider shall receive as compensation for the provision of local exchange service information charges according to its tariffs on file with and approved by the Iowa utilities board. The tariff charges shall be the same whether or not the local exchange service provider is designated as the E911 service provider by the joint E911 service board.

2 Subscriber information remains the property of the local exchange service provider. The joint E911 service board, the designated E911 provider, and the public safety answering point, their agents, employees, and assigns shall use local exchange service information provided by the local exchange service provider solely for the purposes of providing E911 emergency telephone service, and it shall otherwise be kept confidential. A person who violates this section is guilty of a simple misdemeanor.

This chapter does not require a local exchange service provider to sell or provide its subscriber names, addresses, or telephone number information to any person other than the E911 service provider designated by the joint E911 service board.

478.1 Franchise.

A person shall not construct, erect, maintain, or operate a transmission line, wire, or cable which operates at an electric voltage of thirty-four and one-half kilovolts or more along, over, or across any public highway or grounds outside of cities for the transmission, distribution, or sale of electric current, without first procuring from the utilities board within the utilities division of the department of commerce a franchise granting authority as provided in this chapter.

If the transmission line, wire, or cable operates at an electric voltage of less than thirty-four and one-half kilovolts, no franchise is required. However, the utilities board shall retain jurisdiction over all such lines, wires or cables and shall prescribe the contents of a written notice and map to be timely provided to the board and affected parties including owners of electric supply lines located within six-tenths of one mile of proposed construction of such lines, wires or cables. A person who seeks to construct, erect, maintain or operate a transmission line, wire or cable which will operate at an electric voltage of less than thirty-four and one-half kilovolts outside of cities and which cannot secure the necessary voluntary easements to do so may petition the board pursuant to section 478.3, subsection 1 for a franchise granting authority for such construction, erection, maintenance or operation, and for the use of the right of eminent domain.

478.2 Petition for franchise — informational meetings held.

Any person, corporation, or company authorized to transact business in the state including cities may file a verified petition asking for a franchise to erect, maintain, and operate a line or lines for the transmission, distribution, use, and sale of electric current outside cities and for such purpose to erect, use, and maintain poles, wires, guy wires, towers, cables, conduits, and other fixtures and appliances necessary for conducting electric current for light, heat, or power over, along, and across any public lands, highways, streams, or the lands of any person, company, or corporation, and to acquire necessary interests in real estate for such purposes.

As conditions precedent to the filing of a petition with the utilities board requesting a franchise for a new transmission line, and not less than thirty days prior to the filing of such petition, the person, company, or corporation shall hold informational meetings in each county in which real property or rights therein will be affected. A member of the board, the counsel of the board, or a hearing examiner designated by the board shall serve as the presiding officer at each meeting and present an agenda for such meeting which shall include a summary of the legal rights of the affected landowners. No formal record of the meeting shall be required.

The meeting shall be held at a location reasonably accessible to all persons, companies, or corporations which may be affected by the granting of the franchise.

The person, company, or corporation seeking the franchise for a new transmission line shall give notice of the informational meeting to each person, company, or corporation determined to be the landowner affected by the proposed project and any person, company or corporation in possession of or residing on the property. For the purposes of this section, "landowner" means a person, company, or corporation listed on the tax assessment rolls as responsible for the payment of real estate taxes imposed on the property and "transmission line" means any line carrying thirty-four point five kilovolts or more and extending a distance of not less than one mile across privately owned real estate.

The notice shall set forth the name of the applicant; state the applicant's principal place of business; state the general description and purpose of the proposed project; state the general nature of the right of way desired; provide a map showing the route of the proposed project; advise that the landowner has the right to be present at such meetings and to file objections with the utilities board; designate the place and time of the meeting; be served not less than thirty days prior to the time set for the meeting by certified mail with return receipt requested; and be published once in a newspaper of general circulation in the county at least one week and not more than three weeks before the time of the meeting and such publication shall be considered notice to landowners whose residence is not known.

No person, company, or corporation seeking rights under this chapter shall negotiate or purchase any easements or other interests in land in any county known to be affected by the proposed project prior to the informational meeting.

§478.3, ELECTRIC TRANSMISSION LINES

h An allegation that the proposed construction is necessary to serve a public use

2 Petitions for transmission lines carrying thirty-four point five kilovolts or more and extending a distance of not less than one mile across privately owned real estate shall also set forth an allegation that the proposed construction represents a reasonable relationship to an overall plan of transmitting electricity in the public interest and substantiation of such allegations, including but not limited to, a showing of the following

a The relationship of the proposed project to present and future economic development of the area

b The relationship of the proposed project to comprehensive electric utility planning

c The relationship of the proposed project to the needs of the public presently served and future projections based on population trends

d The relationship of the proposed project to the existing electric utility system and parallel existing utility routes

e The relationship of the proposed project to any other power system planned for the future

f The possible use of alternative routes and methods of supply

g The relationship of the proposed project to the present and future land use and zoning ordinances

h The inconvenience or undue injury which may result to property owners as a result of the proposed project

The utilities board may waive the proof required for such allegations which are not applicable to a particular proposed project.

The petition shall contain an affidavit stating that informational meetings were held in each county through which the proposed line or lines will extend, to be published in a newspaper located in each such county for two consecutive weeks. Said notice shall contain a general statement of the contents and purpose of the petition, a general description of the lands and highways to be traversed by the proposed line or lines, and shall state that any objections thereto must be filed in writing with the board not later than twenty days after the date of publication of the notice. Any person, company, utility, or corporation whose rights may be affected, shall have the right to file written objections to the proposed improvement or to the granting of such franchise, such objections shall be filed with the board not later than twenty days after the date of last publication and shall state the grounds therefor. The board may allow objections to be filed later in which event the applicant must be given reasonable time to meet such late objections.

§478.5 Notice — objections filed.

Upon the filing of such petition, the utilities board shall cause a notice, addressed to the citizens of each county through which the proposed line or lines will extend, to be published in a newspaper located in each such county for two consecutive weeks. Said notice shall contain a general statement of the contents and purpose of the petition, a general description of the lands and highways to be traversed by the proposed line or lines, and shall state that any objections thereto must be filed in writing with the board not later than twenty days after the date of last publication of the notice. Any person, company, utility, or corporation whose rights may be affected, shall have the right to file written objections to the proposed improvement or to the granting of such franchise, such objections shall be filed with the board not later than twenty days after the date of last publication and shall state the grounds therefor. The board may allow objections to be filed later in which event the applicant must be given reasonable time to meet such late objections.

478.6 Taking under eminent domain.

Upon the filing of objections or when a petition involves the taking of property under the right of eminent domain, the utilities board shall set the matter for hearing and fix a time and place for the hearing. The hearing shall be not less than thirty days from the date of last publication and where a new proposed transmission line exceeds one mile in length, shall be held in the county seat of the county located at the midpoint of the proposed electric transmission line. Written notice of the time and place of the hearing shall be served by the board, by ordinary mail, on the applicant, and those having objections thereto. The funds received for the costs and the expenses of the franchise proceeding shall be remitted to the treasurer of state for deposit in the utilities trust fund.

478.4 Franchise — hearing.

The utilities board shall consider said petition and any objections thereto in the manner hereinafter provided. It shall examine the proposed route or cause any engineer selected by it to do so if a hearing is held on the petition it may hear such testimony as may aid it in determining the propriety of granting such franchise. It may grant such franchise in whole or in part upon such terms, conditions, and restrictions, and with such modifications as to location and route as may seem to it just and proper. Before granting such franchise, the utilities board shall make a finding that the proposed line or lines are necessary to serve a public use and represents a reasonable relationship to an overall plan of transmitting electricity in the public interest. No franchise shall become effective until the petitioners shall pay, or file an agreement to pay, all costs and expenses of the franchise proceeding, whether or not objections are filed, including costs of inspections or examinations of the route, hearing, salaries, publishing of notice, and any other expenses reasonably attributable thereto. The funds received for the costs and expenses of the franchise proceeding shall be remitted to the treasurer of state for deposit in the utilities trust fund.

The hearing shall be not less than thirty days from the date of last publication and where a new proposed transmission line exceeds one mile in length, shall be held in the county seat of the county located at the midpoint of the proposed electric transmission line. Written notice of the time and place of the hearing shall be served by the board, by ordinary mail, on the applicant, and those having filed objections. If no objections are filed and the petition does not involve the taking of property under the right of eminent domain, the board may grant a franchise without a hearing; however, the board may conduct a hearing if the board deems it necessary.

Where a petition seeks the use of the right of eminent domain over specific parcels of real property, the board shall prescribe the notice to be served upon the owners of record and parties in possession of said property over which the use of the right of eminent domain is sought.

When the board grants a franchise to any person, company, or corporation for the construction, erection, maintenance, and operation of transmission lines, wires, and cables for the transmission of electricity in the public interest.
electricity, such person, company, or corporation shall be vested with the power of condemnation to such extent as the board may approve and find necessary for public use.

It shall be unlawful for the owner or operator of such light and power plant or transmission line to disconnect or discontinue such service (except during nonpayment of reasonable charges) so long as such operator holds or enjoys any franchise to go upon or use any public streets, highways, or grounds.

Until the municipality and the operator shall agree upon a rate or charge for such service the municipality shall pay and the operator shall accept the rate provided in the expired contract if any, or for any other temporary purpose.

This section shall not apply if the original service to the municipality was given in case of emergency or for any other temporary purpose.

478.15 Eminent domain — procedure — entry on land — reversion on nonuse.

Any person, company, or corporation having secured a franchise as provided in this chapter, shall thereupon be vested with the right of eminent domain to such extent as the utilities board may approve, prescribe and find to be necessary for public use, not exceeding one hundred feet in width for right of way and not exceeding one hundred sixty acres in any one location, in addition to right of way, for the location of electric substations to carry out the purposes of said franchise; provided however, that where two hundred K V lines or higher voltage lines are to be constructed, the person, company, or corporation may apply to the board for a wider right of way not to exceed two hundred feet, and the board may for good cause extend the width of such right of way for such lines to the person, company, or corporation applying for the same. The burden of proving the necessity for public use shall be on the person, company or corporation seeking the franchise. A homestead site, cemetery, orchard or schoolhouse location shall not be condemned for the purpose of erecting an electric substation. If agreement cannot be made with the private owner of lands as to damages caused by the construction of said transmission line, or electric substations, the same proceedings shall be taken as provided for taking private property for works of internal improvement.

Any person, company or corporation proposing to construct a transmission line or other facility which involves the taking of property under the right of eminent domain and desiring to enter upon the land, which it proposes to appropriate, for the purpose of examining or surveying the same, shall first file with the utilities board, a written statement under oath setting forth the proposed routing of the line or facility including a description of the lands to be crossed, the names and addresses of owners, together with request that a permit be issued by said board authorizing said person, company or corporation or its duly appointed representative to enter upon the land for the purpose of examining and surveying and to take and use thereon any vehicle and surveying equipment necessary in making the survey. Said board shall within ten days after said request issue a permit, accompanied by such bond in such amount as the board shall approve, to the person, company or corporation making said application, if in its opinion the application is made in good faith and not for the purpose of harassing the owner of the land. If the board is of the opinion that the application is not made in good faith or made for the purpose of harassment to the owner of said land it shall set the matter for hearing and it shall be heard not more than twenty days after filing said application. Notice of the time and place of hearing shall be given by said board, to the owner of said land by registered mail with a return receipt requested, not less than ten days preceding date of hearing.

Any person, company or corporation that has obtained a permit in the manner herein prescribed may enter upon said land or lands, as above provided, and shall be liable for actual damages sustained in connection with such entry. An action in damages shall be the exclusive remedy.

If an electric transmission line right of way, or any part thereof, is wholly abandoned for public utility purposes by the relocation of the transmission lines, is not used or operated for a period of five years, or if its construction has been commenced and work has ceased and has not in good faith been resumed for five years, the right of way shall revert to the person or persons who, at the time of the abandonment or reversion, are the owners of the tract from which such right of way was taken. Following such abandonment of right of way, the owner or holder of purported fee title to such real estate may serve notice upon the owner of such right of way easement,
or the owner's successor in interest, and upon any party in possession of said real estate, a written notice which shall (1) accurately describe the real estate in question, (2) set out the facts concerning ownership of the fee, ownership of the right of way easement, and the period of abandonment, and (3) notify said parties that such reversion shall be complete and final, and that the easement or other right shall be forfeited, unless said parties shall, within one hundred twenty days after the completed service of notice, file an affidavit with the county recorder of the county in which the real estate is located disputing the facts contained in said notice.

Said notice shall be served in the same manner as an original notice under the Iowa rules of civil procedure, except that when notice is served by publication no affidavit therefor shall be required before publication. If no affidavit disputing the facts contained in the notice is filed within one hundred twenty days, the party serving the notice may file for record in the office of the county recorder a copy of the notice with proofs of service attached thereto or endorsed thereon, and when so recorded, the record shall be constructive notice to all persons of the abandonment, reversion, and forfeiture of such right of way.

478.16 Injury to person or property. Repealed by 86 Acts, ch 1198, §1.

478.17 Access to lines — damages.

Individuals or corporations operating such transmission lines shall have reasonable access to the same for the purpose of constructing, reconstructing, enlarging, repairing, or locating the poles, wires, or construction and other devices used in or upon such line, but shall pay to the owner of such lands and of crops thereon all damages to said lands or crops caused by entering, using, and occupying said lands for said purposes. Nothing herein contained shall prevent the execution of an agreement between the person or company owning or operating such line and the owner of said land or crops with reference to the use thereof.

478.18 Supervision of construction — location.

The utilities board shall have power of supervision over the construction of said transmission line and over its future operation and maintenance. Said transmission line shall be constructed near and parallel to the right of way of the railways of the state or along the division lines of the lands, according to the government survey thereof, wherever the same is practicable and reasonable, and so as not to interfere with the use by the public of the highways or streams of the state, nor unnecessarily interfere with the use of any lands by the occupant thereof.

478.19 Manner of construction.

Such lines shall be built of strong and proper wires attached to strong and sufficient supports properly insulated at all points of attachment; all wires, poles, and other devices which by ordinary wear or other causes are no longer safe shall be removed and replaced by new wires, poles, or other devices, as the case may be, and all abandoned wires, poles, or other devices shall be at once removed. Where wires carrying current are carried across, either above or below wires used for other service, the said transmission line shall be constructed in such manner as to eliminate, so far as practicable, damages to persons or property by reason of said crossing. There shall also be installed sufficient devices to automatically shut off electric current through said transmission line whenever connection is made whereby current is transmitted from the wires of said transmission line to the ground, and there shall also be provided a safe and modern improved device for the protection of said line against lightning. The utilities board shall have power to make and enforce such further and additional rules relating to location, construction, operation and maintenance of said transmission line as may be reasonable.

All transmission lines, wires or cables outside of cities for the transmission, distribution or sale of electric current at any voltage shall be constructed and maintained in accordance with standards adopted by rule by the utilities board.

478.20 Distance from buildings.

No transmission line shall be constructed, except by agreement, within one hundred feet of any dwelling house or other building, except where said line crosses or passes along a public highway or is located alongside or parallel with the right of way of any railway company. In addition to the foregoing, each person, company, or corporation shall conform to any other rules, regulations, or specifications established by the utilities board, in the construction, operation, or maintenance of such lines.

If any person, company, or corporation shall violate the provisions of this chapter or any rule established for the construction, maintenance, or operation of such electric transmission line, and shall fail for ninety days after notice from the utilities board to comply therewith, such board shall have power to cancel and annul such franchise and order the removal of such line.

Provided, however, that if proceedings are commenced within said ninety days in any court of competent jurisdiction to determine whether the provisions of this chapter, or whether any rule established for the construction or maintenance or operation of an electrical transmission line, have been violated, or are legal and enforceable rules or provisions, no forfeiture shall be declared or become effective if within sixty days from the date of the final decree or judgment in such proceedings the said rule or provisions have been fully complied with and the cause of forfeiture removed.

§478.31 Temporary permits for lines less than one mile.

Notwithstanding the provisions of section 478.1
any person, company or corporation proposing to construct an electric transmission line not exceeding one mile in length and which does not involve the taking of property under the right of eminent domain may obtain a temporary construction permit from the utilities board by proceeding in the manner hereinafter set forth. Said person, company or corporation shall first file with the board a verified petition setting forth the requirements of section 478.3, subsection 1, paragraphs “a” through “h”, with the further allegation that the petitioner is the nearest electric utility to the proposed point of service.

The petition shall also state that the filing thereof constitutes an application for a temporary construction permit and shall also have endorsed thereon the approval of the appropriate highway authority or railroad concerned if such line is to be constructed over, across or along a public highway or railroad.

Upon receipt of such petition the utilities board shall consider same and may grant a temporary construction permit in whole or in part or upon such terms, conditions and restrictions, and with such modifications as to location as may seem to it just and proper, however, no finding of public use will be made at the time of the issuance of the permit, such finding to be made, if substantiated by petitioner, at the subsequent consideration of the propriety of granting a franchise for the line subject to the permit. The signature of one utilities board member on such permit shall be sufficient. The issuance of such permit shall constitute temporary authority for the permit holder to construct the line for which the permit is granted.

Upon the granting of such temporary construction permit the utilities board shall cause the publication of notice required by section 478.5 and all other requirements shall be complied with as in the manner provided for the granting of a franchise. If a hearing is required then the petitioner shall make a sufficient and proper showing thereat before a franchise will be issued for the line. Any franchise issued will be subject to all applicable provisions of this chapter.

Notwithstanding anything foregoing, if the utilities board shall determine that a franchise should not be granted, or that further restrictions, conditions or modifications are required, or if the petitioner shall fail to make a sufficient and proper showing of the necessity for the granting of a franchise within six months of the granting of the temporary construction permit, the permit issued hereunder shall become null and void and the permit holder may be required to take such action deemed necessary by the board to remove, modify or relocate the construction undertaken by virtue of the temporary permit issued hereunder.

A person seeking to acquire an easement or other property interest for the construction, maintenance or operation of an electric transmission line shall:

1. Allow the landowner or a person serving in a fiduciary capacity in the landowner’s behalf to cancel any agreement granting an easement or other interest by certified mail with return requested to the company’s principal place of business if received by the company within seven days, excluding Saturday and Sunday, of the date of the contract and inform the landowner or such fiduciary in writing of the right to cancel prior to the signing of the agreement by the landowner or such fiduciary.

2. Provide the landowner or a person serving in a fiduciary capacity in the landowner’s behalf with a form in duplicate for the notice of cancellation.

3. Not record any agreement until after the period for cancellation has expired.

4. Not include in the agreement any waiver of the right to cancel in accordance with this section.

The landowner or a person serving in a fiduciary capacity in the landowner’s behalf may exercise the right of cancellation only once for each transmission line project.

[C81, §478.33]

478.34 and 478.35 Reserved.

478.36 Subsequent construction near buried line.
At least forty-eight hours before performing construction involving earthwork, tiling, or excavation within fifty feet of a buried electric line, the landowner, tenant, or contractor shall notify the company or corporation that owns or maintains the buried line. Upon notification, if the proposed work will disturb the soil within fifteen feet of the line the company or corporation shall then mark the location of the line or inform the landowner, tenant, or contractor of the line’s route and voltage. If the line carries an operating voltage of thirty-four point five kilovolts or greater and if requested by the landowner, tenant, or contractor, the corporation or company shall have a representative present during the performance of the earthwork, tiling or excavation. The company or corporation shall not charge a fee for this service. This section does not apply to emergency construction involving earthwork, tiling, or excavation located in a highway or street right-of-way.

CHAPTER 479

PIPELINES AND UNDERGROUND GAS STORAGE

479 1 Purpose.
It is the purpose of the legislature in enacting this law to confer upon the utilities board the power and authority to supervise the transportation or transmission of any solid, liquid, or gaseous substance, except water, within or through this state by pipeline, whether specifically mentioned in this chapter or not, and the power and authority to supervise the underground storage of gas, to protect the safety and welfare of the public in its use of public or private highways, grounds, waters, and streams of any kind in this state. However, this chapter does not apply to interstate natural gas pipelines, pipeline companies, and underground storage, as these terms are defined in chapter 479A.

[C35, §8338.1; C39, §8338.22; C46, 50, 54, 58, 62, 66, 71, 73, 75, §490 1, C77, 79, 81, §479 1]

88 Acts, ch 1074, §27
479.2 Definitions.

"Pipeline" as used in this chapter means a pipe, pipes, or pipelines used for the transportation or transmission of a solid, liquid, or gaseous substance, except water, within or through this state. However, the term does not include interstate pipe, pipes, or pipelines used for the transportation or transmission of natural gas.

"Pipeline company" as used in this chapter means a person engaged in or organized for the purpose of owning, operating, or controlling pipelines for the transportation or transmission of any solid, liquid, or gaseous substance, except water, within or through this state. However, the term does not include a person owning, operating, or controlling interstate pipelines for the transportation or transmission of natural gas.

The term "board" when used in this chapter means the utilities board within the utilities division of the department of commerce.

The term "underground storage" as used in this chapter is concerned shall include and mean storage of gas in a subsurface stratum or formation of the earth.

479.3 Conditions attending operation.

No pipeline company shall construct, maintain, or operate any pipeline or lines under, along, over or across any public or private highways, grounds, waters or streams of any kind in this state except in accordance with the provisions of this chapter.

479.4 Dangerous construction — inspection.

The board is vested with power and authority and it shall be its duty to supervise all pipelines and underground storage and pipeline companies and shall from time to time inspect and examine the construction, maintenance and the condition of said pipelines and underground storage facilities, and whenever said board shall determine that any pipeline and underground storage facilities or any apparatus, device or equipment used in connection therewith is unsafe and dangerous, it shall immediately in writing notify said pipeline company, constructing or operating said pipeline and underground storage facilities, device, apparatus or other equipment to repair or replace any defective or unsafe part or portion of said pipeline and underground storage facilities, device, apparatus or equipment.

All faulty construction, as determined by the inspector, shall be repaired immediately by the contractor operating for the pipeline company and the cost of such repairs shall be paid by said contractor. If such repairs are not made by contractor, the board shall proceed to collect under the provisions of section 479.6.

479.5 Application for permit.

Any pipeline company engaging in its said business in this state shall file with the board its verified petition asking for a permit to construct, maintain and operate its pipeline or lines along, over or across the public or private highways, grounds, waters and streams of any kind of this state. Any pipeline company now owning or operating a pipeline in this state shall be issued a permit by the board upon supplying the information as provided for in section 479.6.

Any pipeline company engaging in its said business in this state shall file with the board its verified petition asking for a permit to construct, maintain and operate facilities for the underground storage of gas to include the construction, placement, maintenance and operation of machinery, appliances, fixtures, wells, pipelines, and stations necessary for the construction, maintenance and operation of such gas underground storage facilities.

As conditions precedent to the filing of a petition with the board requesting a permit, and not less than thirty days prior to the filing of such petition, the person, company, or corporation shall hold informational meetings in each county in which real property or rights therein will be affected. A member of the board, the counsel of the board, or a hearing examiner designated by the board shall serve as the presiding officer at each meeting and present an agenda for such meeting which shall include a summary of the legal rights of the affected landowners. No formal record of the meeting shall be required.

The meeting shall be held at a location reasonably accessible to all persons, companies, or corporations which may be affected by the granting of the permit.

The person seeking the permit shall give notice of the informational meeting to each person determined to be a landowner affected by the proposed project and each person in possession of or residing on the property. For the purposes of the informational meeting, "landowner" means a person listed on the tax assessment rolls as responsible for the payment of real estate taxes imposed on the property, and "pipeline" means a line transporting a solid, liquid, or gaseous substance, except water, under pressure in excess of one hundred fifty pounds per square inch and extending a distance of not less than five miles or having a future anticipated extension of an overall distance of five miles.

The notice shall set forth the name of applicant, the applicant's principal place of business, the general nature of the right of way desired, a map showing the route of the proposed project, that the landowner has a right to be present at such meeting and to file objections with the board, and a designation of the time and place of the meeting, and shall...
be served by certified mail with return requested not less than thirty days previous to the time set for the meeting; and shall be published once in a newspaper of general circulation in the county. Such publication shall be considered notice to landowners whose residence is not known.

No person, company, or corporation seeking rights under this chapter shall negotiate or purchase any easements or other interests in land in any county known to be affected by the proposed project prior to the informational meeting.

479.12 Final order — condition.
The board may grant a permit in whole or in part upon terms, conditions, and restrictions as to safety requirements and as to location and route as determined by it to be just and proper. Before a permit is granted to a pipeline company, the board, after a public hearing as provided in this chapter, shall determine whether the services proposed to be rendered will promote the public convenience and ne-
cessity, and an affirmative finding to that effect is a condition precedent to the granting of a permit.

479.13 Costs and fees.
The applicant shall pay all costs of the informational meetings, hearing, and necessary preliminary investigation including the cost of publishing notice of hearing, and shall pay the actual unrecovered costs directly attributable to construction inspections conducted by the board or the board’s designee.

479.14 Inspection fee.
A pipeline company shall pay an annual inspection fee of fifty cents per mile of pipeline or fraction thereof for each inch of diameter of the pipeline located in the state, the inspection fee to be paid to the board for the calendar year in advance between January 1 and February 1 of each year.

479.15 Failure to pay.
It shall be the duty of the board to collect all inspection fees provided in this chapter, and failure to pay any such inspection fee within thirty days after the time the same shall become due shall be cause for revocation of the permit.

479.16 Use of funds.
All moneys received under the provisions of this chapter shall be remitted monthly to the treasurer of state and credited to the utilities trust fund.

479.17 Rules.
The said board shall have full authority and power to promulgate such rules as it deems proper and expedient to insure the orderly conduct of the hearings herein provided for and also to prescribe rules for the enforcement of this chapter.

479.18 Permit.
The board shall prepare and issue any permit granted in accordance with section 479.12. Said permit shall show the name and address of the pipeline company to which it is issued and identify by reference thereto the decision and order of the board under which said permit is issued. It shall be signed by the chairperson of the board and the official seal of the board shall be affixed thereto.

479.19 Limitation on grant.
No exclusive right shall ever be granted to any pipeline company to construct, maintain, and operate its pipeline or lines along, over or across any public highway, grounds or waters and no such permit shall ever be granted for a longer period than twenty-five years.

479.20 Sale of permit.
No permit shall be sold until the sale is approved by the board.

479.21 Transfer of permit.
If a transfer of such permit is made before the construction for which it was issued is completed in whole or in part such transfer shall not be effective until the person, company or corporation to whom it was issued shall file in the office of said board a notice in writing stating the date of such transfer and the name and address of said transferee.

479.22 Records.
The board shall keep a record of all permits granted and issued by it, showing when and to whom issued and the location and route of said pipeline or lines or gas storage area covered thereby. When any transfer of such permit has been made as provided in this chapter the said board shall also note upon its record the date of such transfer and the name and address of such transferee.

479.23 Extension of permit.
Any pipeline company owning a permit granted under this chapter desiring to acquire an extension of such permit may petition the board in the same manner provided for the granting of such permit and the same proceeding shall be had as on an original application.

pipelines as in this chapter provided shall thereupon be vested with the right of eminent domain* to such extent as may be necessary and as prescribed and approved by said board, not exceeding seventy-five feet in width for right of way and not exceeding one acre in any one location in addition to right of way for the location of pumps, pressure apparatus or other stations or equipment necessary to the proper operation of its said pipeline or lines.

Any pipeline company having secured a permit for underground storage of gas as in this chapter provided shall be vested with the right of eminent domain to such extent as may be necessary and as prescribed and approved by said board in order to appropriate for its use for the underground storage of gas any subsurface stratum or formation in any land which the board shall have found to be suitable and in the public interest for the underground storage of gas, and in connection therewith may appropriate such other interests in property, as may be required adequately to examine, prepare, maintain and operate such underground gas storage facilities. The right of appropriation hereby granted shall be without prejudice to the rights of the owner of said lands or of other rights or interests therein to drill or bore through the underground stratum or formation so appropriated in such manner as shall comply with orders, rules of the board issued for the purpose of protecting underground storage strata or formations against pollution and against the escape of gas therefrom and shall be without prejudice to the rights of the owner of said lands or other rights or interest therein as to all other uses thereof.

If agreement cannot be made with the private owner of lands as to damages caused by the construction of said pipeline or gas storage facilities, the same proceedings shall be taken as provided for taking private property for works of internal improvement.

Nothing in this chapter shall authorize the construction of a pipeline longitudinally on, over or under any railroad right of way or public highway, or at other than an approximate right angle to such railroad track or public highway without the consent of such railroad company, the state department of transportation or board of supervisors, as the case may be, nor shall any provision of this chapter authorize or give the right of condemnation or eminent domain for such purposes.

When the pipeline company deposits with the board security satisfactory to the board as a guaranty for the payment of the damages, or furnishes to the board satisfactory proofs of its solvency and financial ability to pay the damages, the pipeline company is relieved of the provisions requiring bond.

If, after due trial of said action the court finds that said order is reasonable, equitable and just, it shall decree a mandatory injunction compelling obedience to and compliance with said order and may grant such other relief as
may be just and proper. Appeal from said decree may be taken in the same manner as in other actions.

479.29 Construction standards.

1. The board shall, pursuant to chapter 17A, adopt rules establishing standards for the protection of underground improvements during the construction of pipelines, to protect soil conservation and drainage structures from being permanently damaged by pipeline construction and for the restoration of agricultural lands after pipeline construction. To ensure that all interested persons are informed of this rule-making procedure and are afforded a right to participate, the board shall schedule an opportunity for oral presentations on the proposed rule making, and, in addition to the requirements of section 17A.4, shall distribute copies of the notice of intended action and opportunity for oral presentations to each county board of supervisors. Any county board of supervisors may, under the provisions of chapter 17A, and subsequent to the rule-making proceedings, petition under those provisions for additional rule making to establish standards to protect soil conservation practices, structures and drainage structures within that county. Upon the request of the petitioning county the board shall schedule a hearing to consider the merits of the petition. These rules adopted under this section shall not apply within the boundaries of a city.

2. The county board of supervisors shall cause an on-site inspection for compliance with the standards adopted under this section to be performed at any pipeline construction project in the county. A professional engineer familiar with the standards adopted under this section and registered under chapter 17A shall be in responsible charge of the inspection. A county board of supervisors may contract for the services of a professional engineer for the purposes of the inspection. The reasonable costs of the inspection shall be borne by the pipeline company.

3. If the inspector determines that there has been a violation of the standards adopted under this section, the inspector shall give oral notice, followed by written notice, to the pipeline company and the contractor operating for the pipeline company and order corrective action to be taken in compliance with the standards. The costs of the corrective action shall be borne by the contractor operating for the pipeline company.

4. As a part of the inspection process, the inspector shall ascertain that the trench excavation has been filled in a manner to provide that the topsoil has been replaced on top and rocks and debris have been removed from the topsoil of the easement area. An existing topsoil layer extending at least one foot in width on either side of the pipeline excavation at a maximum depth of twelve inches shall be removed separately and shall be stockpiled and preserved separately during subsequent construction operations, unless other means for separating the topsoil are provided in the easement. The topsoil shall be replaced so the upper portion of the pipeline excavation and the crowned surface shall contain only the topsoil originally removed.

5. Adequate inspection of underground improvements altered during construction of pipeline shall be conducted at the time of the replacement or repair of the underground improvements. An inspector shall be present on the site at all times at each phase and separate activity of the opening of the trench, the restoration of underground improvements, and backfilling. The pipeline company and its contractor shall keep all county inspectors continually informed of the work schedule and any schedule changes.

6. If the pipeline company or its contractor does not comply with the orders of the inspector for compliance with the standards, the county board of supervisors may direct the county attorney to petition the district court for an order requiring corrective action to be taken in compliance with the standards adopted under this section.

7. The pipeline company shall allow landowners and inspectors to view the proposed center line of the pipeline prior to commencing trenching operations to insure that construction takes place in its proper location.

8. An inspector may temporarily halt the construction if the construction is not in compliance with the law or the terms of the agreement with the pipeline company regarding topsoil removal and replacement, drainage structures, soil moisture conditions or the location of construction until the inspector consults with the supervisory personnel of the pipeline company. If the construction is then continued over the inspector’s objection and is found to not be in compliance with the law or agreement and is found to cause damage, any civil penalty recovered under section 479.31 as a result of that violation shall be paid to the landowner.

9. The board shall instruct inspectors appointed by the board of supervisors regarding the content of the statutes and rules and the inspector’s responsibility to require construction conforming with the standards provided by this chapter.

10. Any underground drain tile damaged, cut or removed shall be temporarily repaired and maintained as necessary to allow for its proper function during construction of the pipeline. If temporary repair is not determined to be necessary, the exposed line will nonetheless be screened or otherwise protected to prevent the entry of any foreign material, small animals, etc. into the tile line system.

479.30 Entry for land surveys.

A pipeline company may enter upon private land for the purpose of making land surveys to determine direction or depth of pipelines, not to exceed a depth of twenty-five feet, after receipt of a permit to construct, maintain and operate its pipeline by giving ten days’ written notice by restricted certified mail.
to the landowner as defined in section 479.5 and to any person residing on or in possession of the land. The entry for land surveys authorized in this section shall not be deemed a trespass and may be aided by injunction. The pipeline company shall pay the actual damages caused by the entry and survey.

[C81, §479.30]

479.31 Civil penalty.
Any person who violates any provision of this chapter or any regulation issued pursuant to this chapter shall be subject to a civil penalty of not to exceed one thousand dollars for each violation. Each day that the violation continues shall constitute a separate offense. However, the maximum civil penalty shall not exceed two hundred thousand dollars for any related series of violations.

Any civil penalty may be compromised by the board. In determining the amount of the penalty, or the amount agreed upon in compromise, the appropriateness of the penalty to the size of the business of the person charged, the gravity of the violation, and the good faith of the person charged in attempting to achieve compliance, after notification of a violation, shall be considered. The amount of the penalty, when finally determined, or the amount agreed upon in compromise, may be deducted from any sums owed by the state to the person charged, or may be recovered in a civil action.

[C71, 73, 75, §490.31; C77, 79, §479.29; C81, §479.31]

479.32 Rehearing — judicial review.
Rehearing procedure for any person, company or corporation aggrieved by the action of the board in granting or failing to grant a permit under the provisions of this chapter shall be as provided in section 476.12. Judicial review may be sought in accordance with the terms of the Iowa administrative procedure Act.

See §476.13

479.33 Authorized federal aid.
The board may enter into agreements with and receive moneys from the United States department of transportation for the inspection of pipelines to determine compliance with applicable standards of pipeline safety, and for enforcement of the applicable standards of pipeline safety as provided by Public Law 90-481, the Natural Gas Pipeline Safety Act of 1968 (49 United States Code 1671-1684).

88 Acts, ch 1074, §33

479.34 Cancellation.
A person seeking to acquire an easement or other property interest for the construction, maintenance or operation of a pipeline shall:

1. Allow the landowner or a person serving in a fiduciary capacity in the landowner's behalf to cancel an agreement granting an easement or other interest by certified mail with return requested to the company's principal place of business if received by the company within seven days, excluding Saturday and Sunday, of the date of the contract and inform the landowner or such fiduciary in writing of the right to cancel prior to the signing of the agreement by the landowner or such fiduciary.

2. Provide the landowner or a person serving in a fiduciary capacity in the landowner's behalf with a form in duplicate for the notice of cancellation.

3. Not record any agreement until after the period for cancellation has expired.

4. Not include in the agreement any waiver of the right to cancel in accordance with this section.

The landowner or a person serving in a fiduciary capacity in the landowner's behalf may exercise the right of cancellation only once for each pipeline project.

[C81, §479.34]

479.35 to 479.40 Reserved.

479.41 Arbitration agreements.
If an easement or other written agreement between a landowner and a pipeline company provides for the determination through arbitration of the amount of monetary damages sustained by a landowner and caused by the construction, maintenance, or repair of a pipeline, and if either person has not appointed its arbitrator or agreed to an arbitrator under the agreement within thirty days after the other person has invoked the arbitration provisions of the agreement by written notice to the other party by restricted certified mail, the landowner or the pipeline company may petition a judicial magistrate in the county where the real property is located for the appointment of an arbitrator to serve in the stead of the arbitrator who would have been appointed or agreed to by the other person. Before filing the petition the landowner or pipeline company shall give notice of the petitioning of the judicial magistrate by restricted certified mail to the other person and file proof of mailing with the petition. If after hearing, the magistrate finds that the landowner or pipeline company has not been diligent in appointing or reasonable in agreeing to an arbitrator, the magistrate shall appoint an impartial arbitrator who shall have all of the powers and duties of an arbitrator appointed or agreed to by the other person under the agreement.

For purposes of this section only, "landowner" means the persons who signed the easement or other written agreement, their heirs, successors, and assigns.

[81 Acts, ch 159, §2, 3]

479.42 Subsequent pipelines.
A pipeline company shall not install a subsequent pipeline upon its existing easement when a damage claim from the installation of its previous pipeline has not been determined by negotiation, arbitration or action of the courts. This section does not apply if the damage claim is under litigation or arbitration. With the exception of claims for damage to drain
tile and future crop deficiency, landowners and tenants must submit in writing their claims for damages caused by installation of the pipeline within one year of final cleanup on the real property.

[81 Acts, ch 159, §2, 4]

479.43 Damage agreement.
A pipeline company shall not install a pipeline until there is a written statement on file with the board as to how damages resulting from the construction of the pipeline shall be determined and paid, except in cases of eminent domain. The company shall provide a copy of the statement to the landowner.

[81 Acts, ch 159, §2, 5]

479.44 Negotiated fee.
In lieu of a one-time lump sum payment for an easement or other property interest allowing a pipeline to cross the property, a landowner and the pipeline company may negotiate an annual fee, to be paid over a fixed number of years. Unless the easement provides otherwise, the annual fee shall run with the land and shall be payable to the owner of record.

[81 Acts, ch 159, §2, 6]

479.45 Particular damage claims.
1. The loss of gain by or the death or injury of livestock caused by the interruption or relocation of normal feeding of the livestock caused by the construction or repair of a pipeline is a compensable loss and shall be recognized as such by a pipeline company.
2. A claim for damage for future crop deficiency within the easement strip shall not be precluded from renegotiation under section 472.52 on the grounds that it was apparent at the time of settlement unless the settlement expressly releases the pipeline company from claims for damage to the productivity of the soil. The landowner shall notify the company thirty days prior to harvest in each year to assess crop deficiency.

[81 Acts, ch 159, §2, 7]

479.46 Determination of installation damages.
1. The county board of supervisors shall determine when installation of a pipeline has been completed in that county for the purposes of this section. Between seventy-five and one hundred days after the completion of installation, a landowner whose land was affected by the installation of the pipeline may file with the board of supervisors a petition asking that a compensation commission determine the damages arising from the installation of the pipeline.
2. If the board of supervisors by resolution approves the petition, the landowner shall commence the proceeding by filing an application with the chief judge of the judicial district of the county for the appointment of a compensation commission as provided in section 472.4.

The application shall contain the following:

a. The name and address of the petitioning landowner and a description of the land on which the damage is claimed to have occurred.
b. A description of the nature of the damage claimed to have occurred and the amount of the damage claimed.
c. The name and address of the pipeline company claimed to have caused the damage.
3. After the commissioners have been appointed, the landowner shall serve notice on the pipeline company stating the following:

a. That a compensation commission has been appointed to determine the damages caused by the installation of the pipeline.
b. The name and address of the landowner and a description of the land on which the damage is claimed to have occurred.
c. The date, time, and place when the commissioners will view the premises and proceed to appraise the damages and that the pipeline company may appear before the commissioners.

Sections 472.10 to 472.13 apply to this notice. If more than one landowner petitions the county board of supervisors, the application to the chief judge, notice to the pipeline company, and appraisement of damages shall be consolidated into one application, notice, and appraisement. The county attorney may assist in co-ordinating the consolidated application and notice, but does not become an attorney for the landowners by doing so.
4. The commissioners shall view the land at the time provided in the notice and assess the damages sustained by the landowner by reason of the installation of the pipeline and they shall file their report with the sheriff. The appraisement of damages returned by the commissioners is final unless appealed. After the appraisement of damages has been delivered to the sheriff by the compensation commission, the sheriff shall give written notice by ordinary mail to the pipeline company and the landowner of the date the appraisement of damages was made, the amount of the appraisement, and that any interested party may appeal to the district court within thirty days of the date of mailing. The sheriff shall endorse the date of mailing of notice on the original appraisement of damages. At the time of appeal, the appealing party shall give written notice to the adverse party or the party's attorney and the sheriff.
5. Chapter 472 applies to this section to the extent it is applicable and consistent with this section.
6. The pipeline company shall pay all costs of the assessment made by the commissioners and reasonable attorney fees and costs incurred by the landowner as determined by the commissioners if the award of the commissioners exceeds one hundred percent of the final offer of the pipeline company prior to the determination of damages; if the award does not exceed one hundred percent, the landowners shall pay the fees and costs incurred by the pipeline company. The pipeline company shall file with the sheriff an affidavit setting forth the most recent offer made to the landowner. Commissioners
shall receive a per diem of fifty dollars and actual and necessary expenses incurred in the performance of their official duties. The pipeline company shall also pay all costs occasioned by the appeal, including reasonable attorney fees to be taxed by the court, unless on the trial of the appeal the same or a less amount of damages is awarded than was allowed by the commission from which the appeal was taken.

7. As used in this section, "damages" means compensation for damages to the land, crops, and other personal property caused by the construction activity of installing a pipeline and its attendant structures but does not include compensation for a property interest, and "landowner" includes a farm tenant.

8. The provisions of this section do not apply if the easement provides for any other means of negotiation or arbitration.

[81 Acts, ch 159, §2, 8]

479.47 Subsequent tiling.
All additional costs of new tile construction caused by an existing pipeline shall be paid by the pipeline company. The additional costs shall be paid by the pipeline company upon presentation of an invoice, verified by the county engineer or soil and water conservation district conservationist and specifically showing the added costs caused by the presence of the pipeline. A copy of the county engineer's or district conservationist's verification of additional costs shall accompany the invoice to the pipeline company.

Before performing earthwork, tiling, or excavation within three hundred feet of an existing pipeline, a landowner, tenant, contractor, or the representative of any one of them shall notify the pipeline company or its representative by calling the pipeline company telephone number listed on the roadside right-of-way marker. The pipeline company shall mark the location of the existing pipeline within forty-eight hours of notification with appropriate marker flags or stakes on the land surface directly above the pipeline for a distance of one hundred fifty feet either side of the proposed work site. Markers shall be placed at twenty-five foot intervals, where physically possible, along the pipeline route indicating the diameter of the pipeline. The pipeline company shall not charge the landowner, tenant, or contractor for the placement of the markers. Excavation, earthwork, or tiling shall not be commenced in that area until the markers are in place and the pipeline company representative is present and has notified the contractor of the depth at the site of crossing. The pipeline company representative shall be present during all the excavation, earthwork, or tiling within the marked area when that area is any one of the following:

(1) Land located outside the corporate limits of a city.
(2) Agricultural land within the corporate limits of a city.
(3) Nonagricultural land within the corporate limits of a city when the pipeline facility is operated at a pressure in excess of one hundred fifty pounds per square inch.

As used in this paragraph agricultural land means land of one or more acres suitable for cultivation for the production of crops, fruit or other horticultural purposes or for the grazing or production of livestock.

479A.13 Jurisdiction — service of original notice.

In all cases arising under this chapter, the district court of any county in which property of a pipeline company is located, has jurisdiction of a case involving that company, and service of original notice on the pipeline company may be made by serving the chairperson of the board.

88 Acts, ch 1074, §13

479A.14 Land restoration — standards — inspection.

1. The board shall adopt rules establishing standards to protect underground improvements during the construction of pipelines, to protect soil conservation and drainage structures from being permanently damaged by pipeline construction, and for the restoration of agricultural lands after pipeline construction. To ensure that all interested persons are informed of this rulemaking procedure and are afforded a right to participate, the board shall schedule an opportunity for oral presentations on the proposed rulemaking and, in addition to the requirements of section 17A.4, shall distribute copies of the notice of intended action and opportunity for oral presentations to each county board of supervisors. A county board of supervisors may, under chapter 17A and subsequent to the rulemaking proceedings, petition for additional rulemaking to establish standards to protect soil conservation practices, structures, and drainage structures within that county. Upon the request of the petitioning county, the board shall schedule a hearing to consider the merits of the petition. Rules adopted under this section do not apply within the boundaries of a city.

2. The county board of supervisors shall cause an on-site inspection for compliance with the standards adopted under this section to be performed at any pipeline construction project in the county. A professional engineer familiar with the standards adopted under this section and registered under chapter 114 shall be placed in charge of the inspection. The reasonable costs of the inspection shall be borne by the pipeline company.

3. If the inspector determines that there has been a violation of the standards adopted under this section, the inspector shall give oral notice, followed by written notice, to the pipeline company and the contractor operating for the pipeline company, and order corrective action to be taken in compliance with the standards. The costs of the corrective action shall be borne by the contractor operating for the pipeline company.

4. As a part of the inspection process, the inspector shall ascertain that the trench excavation has been filled in a manner to provide that the topsoil has been replaced on top and rocks and debris have been removed from the topsoil of the easement area. An existing topsoil layer extending at least one foot in width on either side of the pipeline excavation at a maximum depth of one foot shall be removed separately and shall be stockpiled and preserved separately during subsequent construction operations, unless other means for separating the topsoil are provided in the easement. The topsoil shall be replaced so the upper portion of the pipeline excavation and the crowned surface contain only the topsoil originally removed.

5. Adequate inspection of underground improvements altered during construction of a pipeline shall be conducted at the time of the replacement or repair of the underground improvements. An inspector shall be present on the site at all times at each phase and separate activity of the opening of the trench, the restoration of underground improvements, and backfilling. The pipeline company and its contractor shall keep all county inspectors continually informed of the work schedule and any schedule changes.

6. If the pipeline company or its contractor does not comply with the orders of the inspector for compliance with the standards, the county board of supervisors may direct the county attorney to petition the district court for an order requiring corrective action to be taken in compliance with the standards adopted under this section.

7. The pipeline company shall allow landowners and inspectors to view the proposed center line of the pipeline before commencing trenching operations to ensure that construction takes place in the proper location.

8. An inspector may temporarily halt the construction if the construction is not in compliance with this chapter and the standards adopted under it, or the terms of the agreement with the pipeline company regarding topsoil removal and replacement, drainage structures, soil moisture conditions, or the location of construction, until the inspector consults with the supervisory personnel of the pipeline company. If the construction is continued over the inspector’s objection and is found not to be in compliance with this chapter, the standards, or the agreement, and is found to cause damage, a civil penalty recovered under section 479A.16 as a result of that violation shall be paid to the landowner.

9. The board shall instruct inspectors appointed by the county board of supervisors regarding the content of this chapter and the standards and the inspectors’ responsibility to require construction conforming with them.

10. An underground drain tile damaged, cut, or removed shall be temporarily repaired and maintained as necessary to allow for its proper function during construction of the pipeline. If temporary
repair is determined not to be necessary, the exposed line shall be screened or otherwise protected to prevent the entry of foreign material or small animals into the tile line system.

11. This section does not preclude the application of provisions for protecting or restoring property contained in agreements independently executed by the pipeline company and the landowner if the provisions are not inconsistent with state law or with rules adopted by the board.

88 Acts, ch 1074, §14

479A.15 Entry for land surveys.
A pipeline company may enter upon private land for the purpose of making land surveys to determine direction or depth of pipelines by giving ten days' written notice by restricted certified mail to the landowner and to any person residing on or in possession of the land. For purposes of this section only, "landowner" means a person listed on the tax assessment rolls as responsible for the payment of real estate taxes imposed on the property. The entry for land surveys authorized in this section is not a trespass and may be aided by injunction. The pipeline company shall pay the actual damages caused by the entry and survey.

88 Acts, ch 1074, §15

479A.16 Civil penalty.
A person who violates a provision of this chapter or a rule or standards issued pursuant to this chapter is subject to a civil penalty not to exceed one thousand dollars for each violation. Each day that the violation continues constitutes a separate offense. However, the civil penalty shall not exceed two hundred thousand dollars for any related series of violations. A civil penalty may be compromised by the board. In determining the amount of the penalty, or the amount agreed upon in compromise, the appropriateness of the penalty to the size of the business of the person charged, the gravity of the violation, and the good faith of the person charged in attempting to achieve compliance after notification of a violation, shall be considered. The amount of the penalty, when finally determined, or the amount agreed upon in compromise, may be deducted from any sums owed by the state to the person charged, or may be recovered in a civil action.

479A.17 Rehearing — judicial review.
Rehearing procedure for a person aggrieved by the action of the board in assessing or failing to assess civil penalties under this chapter shall be as provided in section 476.12. Judicial review may be sought in accordance with chapter 17A.

88 Acts, ch 1074, §17

479A.18 Federal inspection.
The board may enter into agreements with and receive moneys from the United States department of transportation for the inspection of pipelines to determine compliance with the applicable standards of pipeline safety as provided by Pub. L. No. 90-481, the Natural Gas Pipeline Safety Act of 1968, 49 U.S.C. §1671-1684.

88 Acts, ch 1074, §18

479A.19 Right to cancel agreement.
1. A person seeking to acquire an easement or other property interest for the construction, maintenance, or operation of a pipeline shall allow the landowner or a person serving in a fiduciary capacity in the landowner's behalf to cancel an agreement granting an easement or other interest by certified mail with return requested to the company's principal place of business if received by the company within seven days, excluding Saturday and Sunday, of the date of the contract; shall inform the landowner or fiduciary in writing of the right to cancel prior to the signing of the agreement by the landowner or fiduciary; and shall provide the landowner or fiduciary with a form in duplicate for the notice of cancellation.

2. A person seeking to acquire an easement or other property interest for the construction, maintenance, or operation of a pipeline shall not record an agreement until after the period for cancellation has expired, and shall not include in an agreement a waiver of the right to cancel in accordance with this section.

3. The landowner or a person serving in a fiduciary capacity in the landowner's behalf may exercise the right of cancellation only once for each pipeline project.

88 Acts, ch 1074, §19

479A.20 Arbitration agreements.
Notwithstanding conflicting provisions of chapter 679A, if an easement or other written agreement between a landowner and a pipeline company provides for the determination through arbitration of the amount of monetary damages sustained by a landowner and caused by the construction, maintenance, or repair of a pipeline, and if either person has not appointed its arbitrator or agreed to an arbitrator under the agreement within thirty days after the other person has invoked the arbitration provisions of the agreement by written notice to the other party by restricted certified mail, the landowner or the pipeline company may petition a magistrate in the county where the real property is located for the appointment of an arbitrator to serve in place of the arbitrator who would have been appointed or agreed to by the other person. Before filing the petition the landowner or pipeline company shall give notice of the petitioning of the magistrate by restricted certified mail to the other person and file proof of mailing with the petition. If, after hearing, the magistrate finds that the landowner or pipeline company has not been diligent in appointing or reasonable in agreeing to an arbitrator, the magistrate shall appoint an impartial arbitrator who shall have all of the powers and duties of an arbitrator appointed or agreed to by the other person under the agreement.

For purposes of this section only, "landowner" means the persons who signed the easement or other written agreement, their heirs, successors, and assigns.

88 Acts, ch 1074, §20
§479A.21 Subsequent pipelines.
A pipeline company shall not install a subsequent pipeline upon its existing easement when a damage claim from the installation of its previous pipeline has not been determined by negotiation, arbitration, or action of the courts. However, this section does not apply if the damage claim is under litigation or arbitration.
88 Acts, ch 1074, §21

§479A.22 Damage statement.
A pipeline company shall not install a pipeline unless there is a written statement on file with the board as to how damages resulting from the construction of the pipeline shall be determined and paid, except in cases of eminent domain. The company shall provide a copy of the statement to the landowner.
88 Acts, ch 1074, §22

§479A.23 Negotiated annual fee.
In lieu of a one-time lump sum payment for an easement or other property interest allowing a pipeline to cross property, a landowner and the pipeline company may negotiate an annual fee, to be paid over a fixed number of years. Unless the easement provides otherwise, the annual fee shall run with the land and shall be payable to the owner of record.
88 Acts, ch 1074, §23

§479A.24 Particular damage claims.
1. The loss of gain by, or the death or injury of livestock caused by the interruption or relocation of normal feeding of the livestock due to the construction or repair of a pipeline is a compensable loss and shall be so recognized by a pipeline company.
2. A claim for damage for future crop deficiency within the easement strip shall not be precluded from renegotiation under section 472.52 on the grounds that it was apparent at the time of settlement unless the settlement expressly releases the pipeline company from claims for damage to the productivity of the soil. The landowner shall notify the company thirty days prior to harvest in each year to assess crop deficiency.
3. With the exception of claims for damage to drain tile and future crop deficiency, landowners and tenants must submit in writing their claims for damages caused by installation of the pipeline within one year of completion of installation of a pipeline as determined by the county board of supervisors.
88 Acts, ch 1074, §24

§479A.25 Determination of installation damages.
1. The county board of supervisors shall determine when installation of a pipeline has been completed in that county for the purposes of this section. Within one year of the completion of installation, a landowner whose land was affected by the installation of the pipeline may file with the board of supervisors a petition asking that a compensation commission determine the damages arising from the installation of the pipeline.
2. If the board of supervisors by resolution approves the petition, the landowner shall commence the proceeding by filing an application with the chief judge of the judicial district of the county for the appointment of a compensation commission as provided in section 472.4.
The application shall contain all of the following:
a. The name and address of the petitioning landowner and a description of the land on which the damage is claimed to have occurred.
b. A description of the nature of the damage claimed to have occurred and the amount of the damage claimed.
c. The name and address of the pipeline company claimed to have caused the damage.
d. That the pipeline company may appear before the commissioners.

Sections 472.10 to 472.13 apply to this notice. If more than one landowner petitions the county board of supervisors, the application to the chief judge, notice to the pipeline company, and appraisement of damages shall be consolidated into one application, notice, and appraisement. The county attorney may assist in coordinating the consolidated application and notice, but does not become an attorney for the landowners by doing so.
4. The commissioners shall view the land at the time provided in the notice and assess the damages sustained by the landowner by reason of the installation of the pipeline. The commissioners shall file their report with the sheriff. The appraisement of damages returned by the commissioners is final unless appealed. After the appraisement of damages has been delivered to the sheriff by the compensation commission, the sheriff shall give written notice by ordinary mail to the pipeline company and the landowner of the date the appraisement of damages was made, the amount of the appraisement, and that any interested party may appeal to the district court within thirty days of the date of mailing. The sheriff shall endorse the date of mailing of notice on the original appraisement of damages. At the time of appeal, the appealing party shall give written notice to the adverse party or the party's attorney and the sheriff.
5. Chapter 472 applies to this section to the extent it is applicable and consistent with this section.
6. The pipeline company shall pay all costs of the assessment made by the commissioners and reasonable attorney fees and costs incurred by the landowner as determined by the commissioners, if the
award of the commissioners exceeds one hundred ten percent of the final offer of the pipeline company prior to the determination of damages. If the award does not exceed one hundred ten percent, the landowners shall pay the fees and costs incurred by the pipeline company. The pipeline company shall file with the sheriff an affidavit setting forth the most recent offer made to the landowner. Commissioners shall receive a per diem of fifty dollars and actual and necessary expenses incurred in the performance of their official duties. The pipeline company shall also pay all costs occasioned by the appeal, including reasonable attorney fees to be taxed by the court, unless on the trial of the appeal the same or a lesser amount of damages is awarded than was allowed by the commission from which the appeal was taken.

7 As used in this section, "damages" means compensation for damages to the land, crops, and other personal property caused by the construction activity of installing a pipeline and its attendant structures but does not include compensation for a property interest, and "landowner" includes a tenant.

8 This section does not apply if the easement provides for any other means of negotiation or arbitration.

88 Acts, ch 1074, §25

479A.26 Subsequent tiling.
Additional costs of new tile construction caused by an existing pipeline shall be paid by the pipeline company. The additional costs shall be paid by the pipeline company upon presentation of an invoice, verified by the county engineer or soil conservation district conservationist and specifically showing the added costs caused by the presence of the pipeline. A copy of the county engineer's or district conservationist's verification of additional costs shall accompany the invoice to the pipeline company.

Before performing earthwork, tiling, or excavation within three hundred feet of an existing pipeline, a landowner, tenant, contractor, or the representative of any one of them shall notify the pipeline company or its representative by calling the pipeline company telephone number listed on the roadside right-of-way marker. The pipeline company shall mark the location of the existing pipeline within forty-eight hours of notification with appropriate marker flags or stakes on the land surface directly above the pipeline for a distance of one hundred fifty feet either side of the proposed work site. Markers shall be placed at twenty five foot intervals, where physically possible, along with the pipeline route indicating the diameter of the pipeline. The pipeline company shall not charge the landowner, tenant, or contractor for the placement of the markers. Excavation, earthwork, or tiling shall not be commenced in that area until the markers are in place and the pipeline company representative is present and has notified the contractor of the depth of the pipeline at the site of crossing. The pipeline company representative shall be present during all the excavation, earthwork, or tiling within the marked area when that area is any one of the following:

1. Land located outside the corporate limits of a city.
2. Agricultural land within the corporate limits of a city.
3. Nonagricultural land within the corporate limits of a city when the pipeline facility is operated at a pressure in excess of one hundred fifty pounds per square inch.

As used in this section, "agricultural land" means land of one or more acres suitable for cultivation for the production of crops, fruit, or other horticultural purposes or for the grazing or production of livestock.

88 Acts, ch 1074, §26

4. "Underground facility" means an item of personal property which is buried or placed below ground for use in connection with the storage or conveyance of water, sewage, electronic, telephonic, or telegraphic communications, electric energy, oil, gas, or other substances, and includes but is not limited to pipes, sewers, conduits, cables, valves, lines, wires, manholes, and attachments to such property.

However, for underground facilities located in a city with a population of two thousand or more within a county with a population of twenty-five thousand or more, based on the most recent federal decennial census, the underground facility operator shall deposit the information with the clerk of that city rather than with the county recorder. 491.9 Submission to executive council.
Upon the rejection of any articles of incorporation by the secretary of state, except for the reason that they have been held by the attorney general to be illegal, they shall, if the person or persons presenting them so request, be submitted to the executive council, which shall, as soon as practicable, consider the said articles and if the council determines that the articles are in proper form, of honest purpose, not against public policy, nor otherwise objectionable, it shall so advise the secretary of state in writing, whereupon the secretary shall, upon the payment of the proper fees, file the same and proceed otherwise as the law directs; but if the council sustains the previous action of the secretary of state in rejecting said articles, such decision by the council shall be reported to the secretary of state in writing, and the secretary shall then return said articles to the person or persons presenting them with such explanation as shall be proper in the case.

Such demand shall state the number and class of the shares owned by such dissenting shareholder. Any shareholder failing to make demand within the twenty day period shall be conclusively presumed to have consented to the merger or consolidation and shall be bound by the terms thereof.

If within thirty days after the date on which such merger or consolidation was effected the value of such shares is agreed upon between the dissenting shareholder and the surviving or new corporation, payment therefor shall be made within ninety days after the date on which such merger or consolidation was effected, upon the surrender of the certificate or certificates representing said shares. Upon payment of the agreed value the dissenting shareholder shall cease to have any interest in such shares or in the corporation.

The action shall be pursued as an equitable action and the practice and procedure shall conform to the practice and procedure in equity cases. The judgment shall be payable only upon and simultaneously with the surrender to the surviving or new corporation of the certificate or certificates representing said shares. Upon payment of the judgment, the dissenting shareholder shall cease to have any interest in such shares, or in the surviving or new corporation. Such shares may be held and disposed of by the surviving or new corporation as it may see fit. Unless the dissenting shareholder shall file such petition within the time herein limited, such shareholder and all persons claiming under the shareholder shall be conclusively presumed to have approved and ratified the merger or consolidation and shall be bound by the terms thereof.

The right of a dissenting shareholder to be paid the fair value of the shareholder's shares as herein provided shall cease if and when the corporation shall abandon the merger or consolidation.

Shares acquired by the corporation pursuant to the payment of the agreed value thereof or to the payment of judgment entered therefor as in this section provided may be held and disposed of by the corporation as it shall see fit.

2. No such stock shall be issued, sold and delivered for a price less than the par value thereof at the time of such issuance, sale and delivery.

3. Not more than one share of said stock shall be so issued, sold and delivered to any one individual, but when issued, sold and delivered, said stock may be voted by the owner thereof, if the articles of incorporation or bylaws of such corporation, whether now in effect or hereafter adopted or amended, so provide, although a part or all of the price to be paid therefor may be owing to the corporation under said written agreement of the purchaser to pay for the same.

CORPORATION STOCK WITHOUT PAR VALUE

493.1 Authorization.
Any corporation, heretofore or hereafter organized for pecuniary profit under the laws of this state, except state banks, trust companies, building and loan associations and insurance companies, may create one or more classes of stock without any nominal or par value, with such rights, preferences, privileges, voting powers, limitations, restrictions and qualifications thereon not inconsistent with law as shall be expressed in its articles of incorporation, or any amendment thereto. Stock without par value which is preferred as to dividends, or as to its distributive share of the assets of the corporation upon dissolution, may be made subject to redemption at such times and prices as may be determined in such articles of incorporation, or any amendment thereto. In the case of stock without par value which is preferred as to its distributive share of the assets of the corporation upon dissolution, the amount of such preference shall be stated in the articles of incorporation, or any amendment thereto.

[C31, 35, §8419 c1, C39, §8419.01; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §493 1]

493.2 Par value — method of stating.
In any case, in which the par value of the shares of stock of a corporation shall be required to be stated in the articles of incorporation, or any amendment thereto, or in any other place, it shall be stated in respect to shares without par value that such shares are without par value, and when the amount of such stock authorized, issued or outstanding shall be required to be stated, the number of shares thereof authorized, issued or outstanding, as the case may be, shall be stated, and it shall also be stated that such shares are without par value.

[C31, 35, §8419 c2, C39, §8419.02; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §493 2]

493.3 Amount of stock.
For the purpose of any rule of law or of any statutory provision relating to the amount of capital stock issued and represented by shares of stock without par value except as otherwise provided in this chapter such amounts shall be taken to be the amount of money or the actual value of the consideration, as fixed by the directors or otherwise, in accordance with law, as the case may be, for which such shares of stock shall have been issued. In any such case in which stock having a par value shall have been issued with stock without par value for a specified combined consideration, in determining the amount of the capital stock issued and represented by shares of stock without par value the then book value of such stock having a par value shall first be deducted from the amount of the money or actual value of the consideration determined as aforesaid, and the excess thereof, if any, shall be taken to be the amount of capital stock represented by the shares of stock without par value so issued.

[C31, 35, §8419-c3, C39, §8419.03; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §493 3]

493.4 Sale value.
Subject to any limitations and restrictions set forth in the articles of incorporation, or amendment thereto, any such corporation may issue its authorized capital stock without par value for such consideration as may be prescribed in the articles of incorporation, or amendment thereto, or, if not prescribed, then for such consideration as may be fixed by resolution passed by the stockholders of such corporation at any annual meeting thereof, or at any special meeting thereof duly called for that purpose, or by the board of directors acting under authority of such stockholders given in like manner. In the absence of fraud in the transaction, the judgment of the board of directors in fixing and determining such sale value shall be conclusive as to the creditors and stockholders. Nothing in this chapter shall be so construed as to repeal the law as it now appears in sections 492.6, 492.7, and 492.8.

[C31, 35, §8419-c4, C39, §8419.04; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §493 4]

494.1 Application for permit.
Any corporation for pecuniary profit organized under the laws of another state, or of any territory of the United States, or of any foreign country, which has transacted business in the state of Iowa since September 1, 1886, or desires hereafter to transact business in this state, and which has not a permit to do such business, shall file with the secretary of state a certified copy of the articles of incorporation, duly attested by the secretary of state or other state officer in whose office the original articles were filed, accompanied by a resolution of its board of directors or stockholders authorizing the filing thereof, and also authorizing service of process to be made upon any of its officers or agents in this state engaged in transacting its business, and requesting the issuance to such corporation of a permit to transact business in this state; said application to contain a stipulation that such permit shall be subject to the provisions of this chapter. The secretary of state may accept duly certified restated articles, substituted articles, and articles or certificates of merger, or similar instruments which purport to be a complete restatement of the corporate articles in lieu of the original articles and amendments which they purport to supersede, if satisfied that such instruments in fact contain a complete restatement to the date thereof of all articles and amendments.

494.2 Details of application — secretary as process agent.
Said application shall also contain a statement subscribed and sworn to by at least two of the principal officers of the corporation, setting forth the following facts, to wit:

3. The total value of all assets of the corporation, including money and property other than money represented by capital, surplus, undivided profits, bonds, promissory notes, certificates of indebtedness or other designation, whether carried as money on hand or in bank, real estate or personal property of any description.
4. The total value of money and all other property the corporation has in use or held as investment in the state, at the time the statement is made (if any).
5. The total value of money and all other property the corporation proposes or expects to make use of in the state, during the ensuing year.
6. Certified copy of the resolution of the board of directors of said corporation giving name and address in Iowa of a resident agent on whom the service of original notice of civil suit in the courts of this state may be served. Failing which, or in the event such agent may not be found within the state, service of such process may then be made upon said corporation through the secretary of state by sending the original and two copies thereof to the secretary, and on the original of which the secretary shall accept service on behalf of said corporation, retain one copy for the secretary's files and send the other by certified mail to the corporation at the address of its home office as shown by the records in the secretary of state's office, which service shall have the same force and effect as if lawfully made upon said corporation within the county where such civil suit could be maintained against it under the laws of this state.

494.3 Secretary of state to determine values.

496A.4A Indemnification of directors and officers.

1. As used in this section:

a. “Director” means a person who is or was a director of the corporation and a person who, while a director of the corporation, is or was serving at the request of the corporation as a director, officer, partner, trustee, employee, or agent of another foreign or domestic corporation, partnership, joint venture, trust, other enterprise, or employee benefit plan. Heirs, executors, personal representatives, and administrators of the person are included.

b. “Corporation” includes any domestic or foreign predecessor entity of the corporation in a merger, consolidation or other transaction in which the predecessor’s existence ceased upon consummation of the transaction.

c. “Expenses” includes attorneys’ fees.

d. “Official capacity” means:

(1) When used with respect to a director, the office of director in the corporation, and

(2) When used with respect to a person other than a director, as contemplated in subsection 9, the elective or appointive office in the corporation held by the officer or the employment or agency relationship undertaken by the employee or agent in behalf of the corporation, but in each case does not include service for any other foreign or domestic corporation or any partnership, joint venture, trust, other enterprise, or employee benefit plan.

e. “Party” includes a person who was, is, or is threatened to be made, a named defendant or respondent in a proceeding.

f. “Proceeding” means any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative or investigative.

2. A corporation shall have power to indemnify any person made a party to any proceeding by reason of the fact that the person is or was a director if:

a. The person acted in good faith; and

b. The person reasonably believed

(1) In the case of conduct in the person’s official capacity with the corporation, that the conduct was in its best interests, and

(2) In all other cases, that the person’s conduct was at least not opposed to its best interests, and

c. In the case of any criminal proceeding, the person had no reasonable cause to believe the person’s conduct was unlawful. Indemnification may be made against judgments, penalties, fines, settlements and reasonable expenses, actually incurred by the person in connection with the proceeding; except that if the proceeding was by or in the right of the corporation, indemnification may be made only against such reasonable expenses and shall not be made in respect of any proceeding in which the person shall have been adjudged to be liable to the corporation. The termination of any proceeding by judgment, order, settlement, conviction, or upon a plea of nolo contendere or its equivalent, shall not, of itself, be determinative that the person did not meet the requisite standard of conduct set forth in this subsection.

3. A director shall not be indemnified under subsection 2 in respect of any proceeding charging improper personal benefit to the director, whether or not involving action in the director’s official capacity, in which the director shall have been adjudged to
be liable on the basis that personal benefit was improperly received by the director.

4. Unless limited by the articles of incorporation,
   a. A director who has been wholly successful, on
      the merits or otherwise, in the defense of any pro-
      ceeding referred to in subsection 2 shall be indem-
      nified against reasonable expenses incurred by
      the director in connection with the proceeding; and
   b. A court of appropriate jurisdiction, upon appli-
      cation of a director and such notice as the court shall
      require, shall have authority to order indem-
      nification in the following circumstances:
      (1) If it determines a director is entitled to reim-
      bursement under paragraph “a”, the court shall
      order indemnification, in which case the director
      shall also be entitled to recover the expenses of
      securing such reimbursement; or
      (2) If it determines that the director is fairly and
      reasonably entitled to indemnification in view of all
      the relevant circumstances, whether or not the di-
      rector has met the standard of conduct set forth in
      subsection 2 or has been adjudged liable in the
      circumstances described in subsection 3, the court
      may order such indemnification as the court shall
      deem proper, except that indemnification with re-
      spect to any proceeding by or in the right of the
      corporation or in which liability shall have been
      adjudged in the circumstances described in subsec-
      tion 3 shall be limited to expenses.
   A court of appropriate jurisdiction may be the same
   court in which the proceeding involving the direc-
   tor’s liability took place.

5. No indemnification under subsection 2 shall be
   made by the corporation unless authorized in the
   specific case after a determination has been made
   that indemnification of the director is permissible in
   the circumstances because the director has met the
   standard of conduct set forth in subsection 2. Such
determination shall be made:
   a. By the board of directors by a majority vote of a
      quorum consisting of directors not at the time par-
      ties to the proceeding; or
   b. By special legal counsel, selected by the board
      of directors by vote as set forth in paragraph “a” of
      this subsection 5, or, if the requisite quorum of the
      full board cannot be obtained therefor, by a majority
      vote of the full board, in which selection directors
      who are parties may participate; or
   c. By the shareholders.
Authorization of indemnification and determination
as to reasonableness of expenses shall be made in the
same manner as the determination that indemn-
ification is permissible, except that if the determi-
nation that indemnification is permissible is made
by special legal counsel, authorization of indemnifi-
cation and determination as to reasonableness of
expenses shall be made in a manner specified in
paragraph “b” of this subsection for the selection of
such counsel. Shares held by directors who are
parties to the proceeding shall not be voted on the
subject matter under this subsection 5.
6. Reasonable expenses incurred by a director
who is a party to a proceeding may be paid or
reimbursed by the corporation in advance of the final
disposition of such proceeding upon receipt by the
corporation of
   a. A written affirmation by the director of the
director’s good faith belief that the director has met
the standard of conduct necessary for indemnifica-
tion by the corporation as authorized in this section, and
   b. A written undertaking by or on behalf of the
director to repay such amount if it shall ultimately
be determined that the director has not met such
standard of conduct, and after determination that
the facts then known to those making the determi-
nation would not preclude indemnification under
this section. The undertaking required by this para-
grah shall be an unlimited general obligation of the
director but need not be secured and may be ac-
cpted without reference to financial ability to make
repayment. Determinations and authorizations of
payments under this subsection 6 shall be made in
the manner specified in subsection 5.

7. Except as limited in subsection 2 with respect
to proceedings by or in the right of the corporation,
the indemnification and advancement of expenses
provided by, or granted pursuant to, the other sub-
sections of this section are not exclusive of any other
rights to which those seeking indemnification or
advancement of expenses are entitled under a provi-
sion in the articles of incorporation or bylaws, agree-
ments, vote of shareholders or disinterested direc-
tors, or otherwise, both as to action in a person’s
official capacity and as to action in another capacity
while holding the office. However, indemnification
shall not be provided to a director for any breach of
the director’s duty of loyalty to the corporation or its
shareholders, for acts or omissions not in good faith
or which involve intentional misconduct or a know-
ing violation of law, or for any transaction from
which the director derives an improper personal
benefit.

8. For purposes of this section, the corporation
shall be deemed to have requested a director to serve
an employee benefit plan whenever the performance
by the director of the director’s duties to the corpo-
ration also imposes duties on, or otherwise involves
services by, the director to the plan or participants or
beneficiaries of the plan; excise taxes assessed on a
director with respect to an employee benefit plan
pursuant to applicable law shall be deemed fines;
and action taken or omitted by the director with
respect to an employee benefit plan in the perfor-
manee of the director’s duties for a purpose reason-
ably believed by the director to be in the interest of
the participants and beneficiaries of the plan shall
be deemed to be for a purpose which is not opposed to
the best interests of the corporation.

9. Unless limited by the articles of incorporation:
   a. An officer of the corporation shall be indemni-
fied as and to the same extent provided in subsection
4 for a director and shall be entitled to the same
extent as a director to seek indemnification pursu-
ant to the provisions of subsection 4;
   b. A corporation shall have the power to indem-
notify and to advance expenses to an officer, employee or agent of the corporation to the same extent that it may indemnify and advance expenses to directors pursuant to this section; and

c. A corporation, in addition, shall have the power to indemnify and to advance expenses to an officer, employee or agent who is not a director to such further extent, consistent with law, as may be provided by its articles of incorporation, bylaws, general or specific action of its board of directors, or contract.

d. A corporation shall have power to purchase and maintain insurance on behalf of any person who is or was a director, officer, employee or agent of the corporation, or who, while a director, officer, employee or agent of the corporation, is or was serving at the request of the corporation as a director, officer, partner, trustee, employee or agent of another foreign or domestic corporation, partnership, joint venture, trust, other enterprise or employee benefit plan, against any liability asserted against the person and incurred by the person in any such capacity or arising out of the person's status as such, whether or not the corporation would have the power to indemnify the person against such liability under the provisions of this section.

II. Any indemnification of, or advance of expenses to, a director in accordance with this section, if arising out of a proceeding by or in the right of the corporation, shall be reported in writing to the shareholders with or before the notice of the next shareholders' meeting.

496A.5 Right of corporation to acquire and dispose of its own shares.

A corporation shall have the right to purchase, take, receive, or otherwise acquire, hold, own, pledge, transfer, or otherwise dispose of its own shares, but purchases of its own shares, whether direct or indirect, shall be made only to the extent of surplus.

Notwithstanding the foregoing limitation, a corporation may purchase or otherwise acquire its own shares for the purpose of:

1. Eliminating fractional shares.
2. Collecting or compromising indebtedness to the corporation.
3. Paying dissenting shareholders entitled to payment for their shares under the provisions of this chapter.
4. Effecting, subject to the other provisions of this chapter, the retirement of its redeemable shares by redemption or by purchase at not to exceed the redemption price.

496A.6 Defense of ultra vires.

No act of a corporation and no conveyance or transfer of real or personal property to or by a corporation shall be invalid by reason of the fact that the corporation was without capacity or power to do such act or to make or receive such conveyance or transfer, but such lack of capacity or power may be asserted:

1. In a proceeding by a shareholder against the corporation to enjoin the doing of any act or acts or the transfer of real or personal property by or to the corporation. If the unauthorized acts or transfer sought to be enjoined are being, or are to be, performed or made pursuant to any contract to which the corporation is a party, the court may, if it deems the same to be equitable, set aside and enjoin the performance of such contract, without prejudice to the rights of persons not parties to the proceeding, and in so doing may allow to the corporation or to the other parties to the contract, as the case may be, compensation for the loss or damage sustained by either of them which may result from the action of the court in setting aside and enjoining the performance of such contract, but anticipated profits to be derived from the performance of the contract shall not be awarded by the court as a loss or damage sustained.
2. In a proceeding by the corporation, whether acting directly or through a receiver, trustee, or other legal representative, or through shareholders in a representative suit, against the incumbent or former officers or directors of the corporation.
3. In a proceeding by the attorney general, as provided in this chapter, to dissolve the corporation, or in a proceeding by the attorney general to enjoin the corporation from the transaction of unauthorized business.

496A.7 Corporate name.

The corporate name:

1. Shall contain the word "corporation", "company", "incorporated" or "limited" or shall contain an abbreviation of one of such words.
2. Shall not contain any word or phrase which indicates or implies that it is organized for any purpose other than one or more of the purposes contained in its articles of incorporation.
3. Shall not be the same as, or deceptively similar to, the name of any domestic corporation or limited partnership existing under the laws of this state or any foreign corporation or limited partnership authorized to transact business in this state, or a name the exclusive right to which is, at the time, reserved in the manner provided in this chapter or chapter 545, or the name of a corporation which has in effect a registration of its corporate name as provided in this chapter, or an assumed name which has been adopted by a domestic or a foreign corporation for use in this state in the manner provided by this chapter except that this provision does not apply if the applicant files with the secretary of state either of the following:
   a. The written consent of such other corporation or holder of a reserved or registered name to use the same or deceptively similar name and one or more words are added to make such name distinguishable from the other name.
§496A.7, BUSINESS CORPORATIONS

b. A certified copy of final decree of a court of competent jurisdiction establishing the prior right of the applicant to the use of such name in this state. A corporation with which another domestic or foreign corporation is merged, or which is formed by the reorganization or consolidation of one or more domestic or foreign corporations or upon a sale, lease or other disposition to or exchange with a domestic corporation of all or substantially all the assets of another domestic or foreign corporation, including its name or assumed name, may have the same name as that used in this state by any of such corporations if such other corporation was organized under the laws of or is authorized to transact business in this state.

4. Shall be the name under which the corporation shall transact business in this state unless the corporation also shall elect to adopt one or more assumed names as provided in this chapter.

5. A corporation may elect to adopt an assumed name that is not the same as or deceptively similar to the corporate name of any other domestic corporation existing under the laws of this state or of any foreign corporation authorized to transact business in this state, or the same as or deceptively similar to any name registered or reserved under the provisions of this chapter.

Such election shall be made by filing with the secretary of state an application executed by an officer of the corporation, setting forth the assumed name and paying to the secretary of state a filing fee of forty dollars.

If such assumed name complies with the provisions of this chapter the secretary of state shall issue a certificate authorizing the use of said name, but such certificate shall not confer any right to the use of said name as against any person having any prior right to the use thereof.

At the time annual license fees are payable under this chapter, a corporation which has elected to adopt an assumed name shall pay to the secretary of state an annual fee of ten dollars for such assumed name.

If the assumed name was filed and became effective in December of any year, the first annual fee of ten dollars shall be paid at the time of filing of the annual report in the second year following such December.

If the corporation fails to pay the annual fee when due and payable, the secretary of state shall give notice to the corporation of such nonpayment by registered or certified mail; and if such fee together with a penalty of ten dollars is not paid within sixty days after such notice is mailed, the right to use such assumed name shall cease.

A separate application and annual fee shall be filed and paid for each assumed name adopted by the corporation.
