Subsection 7 amended

422.33 Corporate tax imposed — credit.

1. A tax is imposed annually upon each corporation doing business in this state, or deriving income from sources within this state, in an amount computed by applying the following rates of taxation to the net income received by the corporation during the income year:

   a. On the first twenty-five thousand dollars of taxable income, or any part thereof, the rate of six percent.
   b. On taxable income between twenty-five thousand dollars and one hundred thousand dollars or any part thereof, the rate of eight percent.
   c. On taxable income between one hundred thousand dollars and two hundred fifty thousand dollars or any part thereof, the rate of ten percent.
   d. On taxable income of two hundred fifty thousand dollars or more, the rate of twelve percent.

   “Income from sources within this state” means income from real, tangible, or intangible property located or having a situs in this state.

   1A. There is imposed upon each corporation exempt from the general business tax on corporations by section 422.34, subsection 2, a tax at the rates in subsection 1 upon the state’s apportioned share computed in accordance with subsections 2 and 3 of the unrelated business income computed in accordance with the Internal Revenue Code and with the adjustments set forth in section 422.35.

2. If the trade or business of the corporation is carried on entirely within the state, the tax shall be imposed on the entire net income, but if the trade or business is carried on partly within and partly without the state or if income is derived from sources partly within and partly without the state, or if income is derived from trade or business and sources, all of which are not entirely in the state, the tax shall be imposed only on the portion of the net income reasonably attributable to the trade or business or sources within the state, with the net income attributable to the state to be determined as follows:

   a. Nonbusiness interest, dividends, rents and royalties, less related expenses, shall be allocated within and without the state in the following manner:
      (1) Nonbusiness interest, dividends, and royalties from patents and copyrights shall be allocable to this state if the taxpayer’s commercial domicile is in this state.
      (2) Nonbusiness rents and royalties received from real property located in this state are allocable to this state.
      (3) Nonbusiness rents and royalties received from tangible personal property are allocable to this state to the extent that the property is utilized in this state; or in their entirety if the taxpayer’s commercial domicile is in this state and the taxpayer is not taxable in the state in which the property is utilized. The extent of utilization of tangible personal property in a state is determined by multiplying the rents and royalties by a fraction, the numerator of which is the number of days of physical location of the property in the state during the rental or royalty period in the taxable year and the denominator of which is the number of days of physical location of the property everywhere during all rental or royalty periods in the taxable year. If the physical location of the property during the rental or royalty period is unknown, or unascertainable by the taxpayer tangible personal property is utilized in the state in which the property was located at the time the rental or royalty payor obtained possession.
      (4) Nonbusiness capital gains and losses from the sale or other disposition of assets shall be allocated as follows:
         Gains and losses from the sale or other disposition of real property located in this state are allocable to this state.
         Gains and losses from the sale or other disposition of tangible personal property are allocable to this state if the property had a situs in this state at the time of the sale or disposition or if the taxpayer’s commercial domicile is in this state and the taxpayer is not taxable in the state in which the property had a situs.
         Gains and losses from the sale or disposition of intangible personal property are allocable to this state if the taxpayer’s commercial domicile is in this state.
      b. Net nonbusiness income of the above class having been separately allocated and deducted as above provided, the remaining net business income of the taxpayer shall be allocated and apportioned as follows:
         (1) Business interest, dividends, rents and royalties shall be reasonably apportioned within and without the state under rules adopted by the director.
         (2) Capital gains and losses from the sale or other disposition of assets shall be apportioned to
the state based upon the business activity ratio applicable to the year the gain or loss is determined if the corporation determines Iowa taxable income by a sales, gross receipts or other business activity ratio. If the corporation has only allocable income, capital gains and losses from the sale or other disposition of assets shall be allocated in accordance with paragraph "a", subparagraph (4).

(3) Where income is derived from business other than the manufacture or sale of tangible personal property, the income shall be specifically allocated or equitably apportioned within and without the state under rules of the director.

(4) Where income is derived from the manufacture or sale of tangible personal property, the part attributable to business within the state shall be in that proportion which the gross sales made within the state bear to the total gross sales.

(5) Where income consists of more than one class of income as provided in subparagraphs (1) to (4) of this paragraph, it shall be reasonably apportioned by the business activity ratio provided in rules adopted by the director.

(6) The gross sales of the corporation within the state shall be taken to be the gross sales from goods delivered or shipped to a purchaser within the state regardless of the f.o.b. point or other conditions of the sale, excluding deliveries for transportation out of the state.

For the purpose of this section, the word "sale" shall include exchange, and the word "manufacture" shall include the extraction and recovery of natural resources and all processes of fabricating and curing. The words "tangible personal property" shall be taken to mean corporeal personal property, such as machinery, tools, implements, goods, wares, and merchandise, and shall not be taken to mean money deposits in banks, shares of stock, bonds, notes, credits, or evidence of an interest in property and evidences of debt.

3. If any taxpayer believes that the method of allocation and apportionment hereinbefore prescribed, as administered by the director and applied to the taxpayer’s business, has operated or will so operate as to subject the taxpayer to taxation on a greater portion of the taxpayer’s net income than is reasonably attributable to business or sources within the state, the taxpayer shall be entitled to file with the director a statement of the taxpayer’s objections and of such alternative method of allocation and apportionment as the taxpayer believes to be proper under the circumstances with such detail and proof and within such time as the director may reasonably prescribe; and if the director shall conclude that the method of allocation and apportionment theretofore employed is in fact inapplicable and inequitable, the director shall redetermine the taxable income by such other method of allocation and apportionment as seems best calculated to assign to the state for taxation the portion of the income reasonably attributable to business and sources within the state, not exceeding, however, the amount which would be arrived at by application of the statutory rules for apportionment.

4. In addition to all taxes imposed under this division, there is imposed upon each corporation doing business within the state the greater of the tax determined in subsection 1, paragraphs “a” through “d” or the state alternative minimum tax equal to sixty percent of the maximum state corporate income tax rate, rounded to the nearest tenth of one percent, of the state alternative minimum taxable income of the taxpayer computed under this subsection.

The state alternative minimum taxable income of a taxpayer is equal to the taxpayer’s state taxable income as computed with the adjustments in section 422.35 and with the following adjustments:

a. Add items of tax preference included in federal alternative minimum taxable income under section 57, except subsections (a)(1) and (a)(5), of the Internal Revenue Code, make the adjustments included in federal alternative minimum taxable income under section 56, except subsections (a)(4) and (d), of the Internal Revenue Code, and add losses as required by section 58 of the Internal Revenue Code. In making the adjustment under section 56(c)(1) of the Internal Revenue Code, interest and dividends from federal securities and interest and dividends from state and other political subdivisions and from regulated investment companies exempt from federal income tax under the Internal Revenue Code, net of amortization of any discount or premium, shall be subtracted.

b. Apply the allocation and apportionment provisions of subsection 2.

c. Subtract an exemption amount of forty thousand dollars. This exemption amount shall be reduced, but not below zero, by an amount equal to twenty-five percent of the amount by which the alternative minimum taxable income of the taxpayer, computed without regard to the exemption amount in this paragraph, exceeds one hundred fifty thousand dollars.

3. In the case of a net operating loss computed for a tax year beginning after December 31, 1986, which is carried back or carried forward to the current taxable year, the net operating loss shall be reduced by the amount of items of tax preference and adjustments arising in the tax year which is taken into account in computing the net operating loss in section 422.35, subsection 11. The deduction for a net operating loss for a tax year beginning after December 31, 1986, which is carried back or carried forward to the current taxable year shall not exceed ninety percent of the alternative minimum taxable income determined without regard for the net operating loss deduction.

d. The taxes imposed under this division shall be reduced by a state tax credit for increasing research activities in this state equal to the sum of the following:
(1) Six and one-half percent of the excess of qualified research expenses during the tax year over the base amount for the tax year based upon the state’s apportioned share of the qualifying expenditures for increasing research activities.

(2) Six and one-half percent of the basic research payments determined under section 41(e)(1)(A) of the Internal Revenue Code during the tax year based upon the state’s apportioned share of the qualifying expenditures for increasing research activities.

The state’s apportioned share of the qualifying expenditures for increasing research activities is a percent equal to the ratio of qualified research expenditures in this state to the total qualified research expenditures.

b. In lieu of the credit amount computed in paragraph “a”, subparagraph (1), a corporation may elect to compute the credit amount for qualified research expenses incurred in this state in a manner consistent with the alternative incremental credit described in section 41(c)(4) of the Internal Revenue Code. The taxpayer may make this election regardless of the method used for the taxpayer’s federal income tax. The election made under this paragraph is for the tax year and the taxpayer may use another or the same method for any subsequent year.

c. For purposes of the alternate credit computation method in paragraph “b”, the credit percentages applicable to qualified research expenses described in clauses (i), (ii), and (iii) of section 41(c)(4)(A) of the Internal Revenue Code are one and sixty-five hundredths percent, two and sixty-five hundredths percent, and two and seventy-five hundredths percent, respectively.

d. For purposes of this subsection, “base amount”, “basic research payment”, and “qualified research expense” mean the same as defined for the federal credit for increasing research activities under section 41 of the Internal Revenue Code, except that for the alternative incremental credit such amounts are for research conducted within this state.

e. Any credit in excess of the tax liability for the taxable year shall be refunded with interest computed under section 422.25. In lieu of claiming a refund, a taxpayer may elect to have the overpayment shown on its final, completed return credited to the tax liability for the following taxable year.

6. The taxes imposed under this division shall be reduced by a new jobs tax credit. An industry which has entered into an agreement under chapter 260E and which has increased its base employment level by at least ten percent within the time set in the agreement or, in the case of an industry without a base employment level, adds new jobs within the time set in the agreement is entitled to this new jobs tax credit for the tax year selected by the industry. In determining if the industry has increased its base employment level by ten percent or added new jobs, only those new jobs directly resulting from the project covered by the agreement and those directly related to those new jobs shall be counted. The amount of this credit is equal to the product of six percent of the taxable wages upon which an employer is required to contribute to the state unemployment compensation fund, as defined in section 96.19, subsection 37, times the number of new jobs existing in the tax year that directly result from the project covered by the agreement or new jobs that directly result from those new jobs. The tax year chosen by the industry shall either begin or end during the period beginning with the date of the agreement and ending with the date by which the project is to be completed under the agreement. Any credit in excess of the tax liability for the tax year may be credited to the tax liability for the following ten tax years or until depleted in less than the ten years. For purposes of this section, “agreement”, “industry”, “new job”, and “project” mean the same as defined in section 260E.2 and “base employment level” means the number of full-time jobs an industry employs at the plant site which is covered by an agreement under chapter 260E on the date of that agreement.

7. a. There is allowed as a credit against the tax determined in subsection 1 for a tax year an amount equal to the minimum tax credit for that tax year.

The minimum tax credit for a tax year is the excess, if any, of the adjusted net minimum tax imposed for all prior tax years beginning on or after January 1, 1987, over the amount allowable as a credit under this subsection for those prior tax years.

b. The allowable credit under paragraph “a” for a tax year shall not exceed the excess, if any, of the tax determined in subsection 1 over the state alternative minimum tax as determined in subsection 4.

The net minimum tax for a tax year is the excess, if any, of the tax determined in subsection 4 for the tax year over the tax determined in subsection 1 for the tax year.

The adjusted net minimum tax for a tax year is the net minimum tax for the tax year reduced by the amount which would be the net minimum tax if the only item of tax preference taken into account was that described in paragraph (6) of section 57(a) of the Internal Revenue Code.

8. The taxes imposed under this division shall be reduced by a franchise tax credit. A taxpayer who is a shareholder in a financial institution, as defined in section 581 of the Internal Revenue Code, which has in effect for the tax year an election under subchapter S of the Internal Revenue Code shall compute the amount of the tax credit by recomputing the amount of tax under this division.
by reducing the taxable income of the taxpayer by the taxpayer’s pro rata share of the items of income and expense of the financial institution. This recomputed tax shall be subtracted from the tax computed under this division and the resulting amount, which shall not exceed the taxpayer’s pro rata share of franchise tax paid by the financial institution, is the amount of the franchise tax credit allowed.

9. a. The taxes imposed under this division shall be reduced by an assistive device tax credit. A small business purchasing, renting, or modifying an assistive device or making workplace modifications for an individual with a disability who is employed or will be employed by the small business is eligible, subject to availability of credits, to receive this assistive device tax credit which is equal to fifty percent of the first five thousand dollars paid during the tax year for the purchase, rental, or modification of the assistive device or for making the workplace modifications. Any credit in excess of the tax liability shall be refunded with interest computed under section 422.25. In lieu of a refund, a taxpayer may elect to have the overpayment shown on the taxpayer’s final, completed return credited to the tax liability for the following tax year. If the small business elects to take the assistive device tax credit, the small business shall not deduct for Iowa tax purposes any amount of the cost of an assistive device or workplace modifications which is deductible for federal income tax purposes.

b. To receive the assistive device tax credit, the eligible small business must submit an application to the department of economic development. If the taxpayer meets the criteria for eligibility, the department of economic development shall issue a certificate of entitlement for the assistive device tax credit.

The taxes imposed under this division shall be reduced by a property rehabilitation tax credit equal to the amount computed under this division and the resulting amount, which shall not exceed the taxpayer’s pro rata share of franchise tax paid by the financial institution, is the amount of the franchise tax credit allowed. “Assistive device” does not include any device for which a certificate of title is issued by the state department of transportation, but does include any item, piece of equipment, or product system otherwise meeting the definition of “assistive device” that is incorporated, attached, or included as a modification in or to such a device issued a certificate of title.

2. “Disability” means the same as defined in section 225C.46.

3. “Small business” means a business that either had gross receipts for its preceding tax year of three million dollars or less or employed not more than fourteen full-time employees during its preceding tax year.

4. “Workplace modifications” means physical alterations to the work environment.

10. a. The taxes imposed under this division shall be reduced by a property rehabilitation tax credit equal to the amount as computed under chapter 404A for rehabilitating eligible property. Any credit in excess of the tax liability shall be refunded as provided in section 404A.4, subsection 3.

b. For purposes of this subsection, “eligible property” means the same as used in section 404A.1.

11. a. As used in this subsection, unless the context otherwise requires:

(1) “Ethanol blended gasoline”, “gasoline”, ”metered pump”, “retail dealer”, “sell”, and “service station” mean the same as defined in section 422.11C.

(2) “Tax credit” means the designated ethanol blended gasoline tax credit as provided in this subsection.

b. The taxes imposed under this division shall be reduced by an ethanol blended gasoline tax credit for each tax year that the taxpayer is eligible to claim the tax credit under this subsection. In order to be eligible, all of the following must apply:

(1) The taxpayer is a retail dealer.

(2) The taxpayer operates at least one service station at which more than sixty percent of the total gallons of gasoline sold and dispensed through one or more metered pumps by the taxpayer is ethanol blended gasoline.

(3) The taxpayer complies with requirements of the department required to administer this subsection.

c. The tax credit shall be calculated separately for each service station site operated by the taxpayer. The amount of the tax credit for each eligible service station is two and one-half cents multiplied by the total number of gallons of ethanol blended gasoline sold and dispensed through metered pumps located at that service station during the tax year in excess of sixty percent of all gasoline sold and dispensed through metered pumps at that service station during the tax year.

d. Any credit in excess of the taxpayer’s tax li-
ability shall be refunded. In lieu of claiming a refund, the taxpayer may elect to have the overpayment shown on the taxpayer’s final, completed return credited to the tax liability for the following tax year.

12. The taxes imposed under this division shall be reduced by an investment tax credit authorized pursuant to section 15E.43.

13. The taxes imposed under this division shall be reduced by a venture capital fund investment tax credit authorized pursuant to section 15E.51.

14. The taxes imposed under this division shall be reduced by an endow Iowa tax credit authorized pursuant to section 15E.305.

15. Repealed.

16. The taxes imposed under this division shall be reduced by a wind energy production tax credit allowed under chapter 476B.

17. The taxes imposed under this division shall be reduced by an endow Iowa tax credit authorized pursuant to section 15E.305.

2. An organization described in section 501 of the Internal Revenue Code unless the exemption is denied under section 501, 502, 503, or 504 of the Internal Revenue Code.

An organization that would have qualified as an organization exempt from federal income tax under section 501(c)(19) of the Internal Revenue Code but for the fact that the requirement that substantially all of the members who are not past or present members of the United States armed forces is not met because such members include ancestors or lineal descendants, shall be considered for purposes of the exemption from taxation under this division as an organization exempt from federal income tax under section 501(c)(19) of the Internal Revenue Code.

Subsection 16 takes effect May 17, 2004, and applies retroactively to tax years beginning on or after January 1, 2004; 2004 Acts, ch 1175, §418

NEW subsection 16

422.34A Exempt activities of foreign corporations.

A foreign corporation shall not be considered doing business in this state or deriving income from sources within this state for the purposes of this division by reason of carrying on in this state one or more of the following activities:

1. Holding meetings of the board of directors or shareholders or holiday parties or employee appreciation dinners.

3. Borrowing money, with or without security.

4. Utilizing Iowa courts for litigation.

5. Owning and controlling a subsidiary corporation which is incorporated in or which is transacting business within this state where the holding or parent company has no physical presence in the state as that presence relates to the ownership or control of the subsidiary.

422.35 Net income of corporation — how computed.

The term “net income” means the taxable income before the net operating loss deduction, as properly computed for federal income tax purposes under the Internal Revenue Code, with the following adjustments:

1. Subtract interest and dividends from federal securities.

2. Add interest and dividends from foreign securities, from securities of state and other political subdivisions, and from regulated investment companies exempt from federal income tax under the Internal Revenue Code.

3. Where the net income includes capital gains or losses, or gains or losses from property other than capital assets, and such gains or losses have been determined by using a basis established prior to January 1, 1934, an adjustment may be made, under rules and regulations prescribed by the director, to reflect the difference resulting from the use of a basis of cost or January 1, 1934, fair market value, less depreciation allowed or allowable, whichever is higher. Provided that the basis shall be fair market value as of January 1, 1955, less depreciation allowed or allowable, in the case of property acquired prior to that date if use of a prior basis is declared to be invalid.

4. Subtract fifty percent of the federal income taxes paid or accrued, as the case may be, during the tax year, adjusted by any federal income tax refunds; and add the Iowa income tax deducted in computing said taxable income.

5. Subtract the amount of the work opportunity tax credit allowable for the tax year under section 51 of the Internal Revenue Code to the extent that the credit increased federal taxable income.

6. If the taxpayer is a small business corporation, subtract an amount equal to sixty-five percent of the wages paid to individuals, but shall not exceed twenty thousand dollars per individual, named in paragraphs “a”, “b”, and “c” who were hired for the first time by the taxpayer during the tax year for work done in this state:

a. An individual with a disability domiciled in this state at the time of the hiring who meets any of the following conditions:

(1) Has been convicted of a felony in this or any other state or the District of Columbia.

This deduction is allowed for the wages paid to the individuals successfully completing a probationary period named in paragraphs “a”, “b”, and “c” during the twelve months following the date of first employment by the taxpayer and shall be deducted in the tax years when paid.

For purposes of this subsection, “physical or mental impairment” means any physiological disorder or condition, cosmetic disfigurement, or anatomical loss affecting one or more of the body systems or any mental or psychological disorder, including mental retardation, organic brain syndrome, emotional or mental illness, and specific learning disabilities.

For purposes of this subsection, “small business” means small business as defined in section 16.1, subsection 36, except that it shall also include the operation of a farm.

6A. If the taxpayer is a business corporation and does not qualify for the adjustment under subsection 5, subtract an amount equal to sixty-five percent of the wages paid to individuals, but shall not exceed twenty thousand dollars per individual, named in paragraphs “a” and “b” who were hired for the first time by the taxpayer during the tax year for work done in this state:

a. An individual domiciled in this state at the time of the hiring who meets any of the following conditions:

(1) Has been convicted of a felony in this or any other state or the District of Columbia.

This deduction is allowed for the wages paid to the individuals successfully completing a probationary period named in paragraphs “a” and “b” during the twelve months following the date of first employment by the taxpayer and shall be deducted in the tax years when paid.

The department shall develop and distribute in-
7. Subtract the amount of the alcohol fuel credit allowable for the tax year under section 40 of the Internal Revenue Code to the extent that the credit increased federal taxable income.

8. Add the amounts deducted and subtract the amounts included in income as a result of the treatment provided sale-leaseback agreements under section 168(f)(8) of the Internal Revenue Code for property placed in service by the transferee prior to January 1, 1986, to the extent that the amounts deducted and the amounts included in income are not otherwise deductible or included in income under the other provisions of the Internal Revenue Code as amended to and including December 31, 1985. Entitlement to depreciation on any property involved in a sale-leaseback agreement which is placed in service by the transferee prior to January 1, 1986, shall be determined under the Internal Revenue Code as amended to and including December 31, 1985, excluding section 168(f)(8) in making the determination.

9. Reserved.

10. Add the percentage depletion amount determined with respect to an oil, gas, or geothermal well using methods in section 613 of the Internal Revenue Code that is in excess of the cost depletion amount determined under section 611 of the Internal Revenue Code.

11. If after applying all of the adjustments provided for in this section and the allocation and apportionment provisions of section 422.33, the Iowa taxable income results in a net operating loss, such net operating loss shall be deducted as follows:

a. The Iowa net operating loss shall be carried back three taxable years for a net operating loss incurred in a presidentially declared disaster area by a taxpayer engaged in a small business or in the trade or business of farming. For all other Iowa net operating losses, the net operating loss shall be carried back two taxable years or to the taxable year in which the corporation first commenced doing business in this state, whichever is later.

b. The Iowa net operating loss remaining after being carried back as required in paragraph “a” or “f” or if not required to be carried back shall be carried forward twenty taxable years.

c. If the election under section 172(b)(3) of the Internal Revenue Code is made, the Iowa net operating loss shall be carried forward twenty taxable years.

d. No portion of a net operating loss which was sustained from that portion of the trade or business carried on outside the state of Iowa shall be deducted.

e. The limitations on net operating loss carryback and carryforward under sections 172(b)(1)(E) and 172(h) of the Internal Revenue Code shall apply.

f. Notwithstanding paragraph “a”, for a taxpayer who is engaged in the trade or business of farming as defined in section 263A(c)(4) of the Internal Revenue Code and has a loss from farming as defined in section 172(b)(1)(F) of the Internal Revenue Code including modifications prescribed by rule by the director, the Iowa loss from the trade or business of farming is a net operating loss which may be carried back five taxable years prior to the taxable year of the loss.

Provided, however, that a corporation affected by the allocation provisions of section 422.33 shall be permitted to deduct only such portion of the deductions for net operating loss and federal income taxes as is fairly and equitably allocable to Iowa, under rules prescribed by the director.

12. Subtract the loss on the sale or exchange of a share of a regulated investment company held for six months or less to the extent the loss was disallowed under section 852(b)(4)(B) of the Internal Revenue Code.

13. Subtract the interest earned from bonds and notes issued by the agricultural development authority as provided in section 175.17, subsection 10.

14. Subtract, to the extent not deducted for federal income tax purposes, the amount of any gift, grant, or donation made to the Iowa educational savings plan trust, as created in chapter 12D, for deposit in the endowment fund* of that trust.

15. To the extent not otherwise included pursuant to section 164 of the Internal Revenue Code, subtract the amount of the annual registration fee paid for a multipurpose vehicle pursuant to section 321.124, subsection 3, paragraph “h”, which is based upon the value of the vehicle. For purposes of this subsection, sixty percent of the amount of the registration fee is based upon the value of the vehicle.

16. Add depreciation taken for federal income tax purposes on a speculative shell building defined in section 427.1, subsection 27, which is owned by a for-profit entity and the for-profit entity is receiving property tax exemption. Subtract depreciation computed as if the speculative shell building were classified as fifteen-year property during the period during which it is owned by the taxpayer and is receiving the property tax exemption. However, this subsection does not apply to a speculative shell building which is used by the taxpayer, subsidiary of the taxpayer, or majority owners of the taxpayer, for other than as a speculative shell building, as defined in section 427.1, subsection 27.

17. Subtract the amount of the employer social security credit allowable for the tax year under section 45B of the Internal Revenue Code to the extent that the credit increases federal adjusted gross income.

18. Add, to the extent not already included, income from the sale of obligations of the state and
its political subdivisions. Income from the sale of these obligations is exempt from the taxes imposed by this division only if the law authorizing these obligations specifically exempts the income from the sale from the state corporate income tax.

19. a. The additional first-year depreciation allowance authorized in section 168(k) of the Internal Revenue Code, as enacted by Pub. L. No. 107-147, section 101, does not apply in computing net income for state tax purposes. If the taxpayer has taken such deduction in computing taxable income, the following adjustments shall be made:

(1) Add the total amount of depreciation taken on all property for which the election under section 168(k) of the Internal Revenue Code was made for the tax year.

(2) Subtract an amount equal to depreciation allowed on such property for the tax year using the modified accelerated cost recovery system depreciation method applicable under section 168 of the Internal Revenue Code without regard to section 168(k).

(3) Any other adjustments to gains or losses to reflect the adjustments made in subparagraphs (1) and (2) pursuant to rules adopted by the director.

Subsections 18 and 19 amended by 2004 Acts, ch 1079; corrective legislation is pending.

422.36 Returns.

1. A corporation shall make a return and the return shall be signed by the president or other duly authorized officer in accordance with forms and rules prescribed by the director. Before a corporation is dissolved and its assets distributed it shall make a return for settlement of the tax for income earned in the income year up to its final date of dissolution.

2. When any corporation, liable to taxation under this division, conducts its business in such a manner as either directly or indirectly to benefit the members or stockholders thereof or any person interested in such business by selling its products or the goods or commodities in which it deals at less than the fair price which might be obtained therefor, or where a corporation, a substantial portion of whose capital stock is owned either directly or indirectly by another corporation, acquires and disposes of the products, goods or commodities of the corporation so owning a substantial portion of its stock in such a manner as to create a loss or improper net income for either of said corporations, or where a corporation, owning directly or indirectly a substantial portion of the stock of another corporation, acquires and disposes of the products, goods, or commodities of the corporation from which it owns a substantial portion of its stock, in such a manner as to create a loss or improper net income for either of such corporations for the calendar or fiscal year, having due regard to the reasonable profits which, but for such arrangement or understanding, might or could have been obtained, by the corporation or corporations liable to taxation under this division, from dealing in such products, goods, or commodities.

3. Where the director has reason to believe that any person or corporation so conducts a trade or business as either directly or indirectly to distort the person’s or corporation’s true net income and the net income properly attributable to the state, whether by the arbitrary shifting of income, through price fixing, charges for services, or otherwise, whereby the net income is arbitrarily assigned to one or another unit in a group of taxpayers carrying on business under a substantially common control, the director may require such facts as are necessary for the proper computation of the entire net income and the net income properly attributable to the state, and shall determine the same, and in the determination thereof the director shall have regard to the fair profits which would normally arise from the conduct of the trade or business.
4. Foreign corporations shall file a copy of their federal income tax return for the current tax year with the return required by this section.

5. Where a corporation is not subject to income tax and the stockholders of such corporation are taxed on the corporation's income under the provisions of the Internal Revenue Code, the same tax treatment shall apply to such corporation and such stockholders for Iowa income tax purposes.

6. A foreign corporation is not required to file a return if its only activities in Iowa are the storage of goods for a period of sixty consecutive days or less in a warehouse for hire located in this state whereby the foreign corporation transports or causes a carrier to transport such goods to that warehouse and provided that none of the goods are delivered or shipped so as to be included in the gross sales of the corporation within this state as provided in section 422.33, subsection 2, paragraph "b," subparagraph (6).

422.37 Consolidated returns.

Any affiliated group of corporations may, not later than the due date for filing its return for the taxable year, including any extensions thereof, under rules to be prescribed by the director, elect, and upon demand of the director shall be required, to make a consolidated return showing the consolidated net income of all such corporations and other information as the director may require, subject to the following:

1. The affiliated group filing under this section shall file a consolidated return for federal income tax purposes for the same taxable year.

2. All members of the affiliated group shall join in the filing of an Iowa consolidated return to the extent they are subject to the tax imposed by section 422.33.

3. Members of the affiliated group exempt from taxation by section 422.34 of the Code shall not be included in a consolidated return.

4. All members of the affiliated group shall use the statutory method of allocation and apportionment unless the director has granted permission to all members to use an alternative method of allocation and apportionment.

5. Each member of the affiliated group shall consent to the rules governing a consolidated return prescribed by the director at the time the consolidated return is filed, unless the director requires the filing of a consolidated return. The filing of a consolidated return shall be considered the affiliated group's consent.

6. The filing of a consolidated return for any taxable year shall require the filing of consolidated returns for all subsequent taxable years so long as the filing taxpayers remain members of the affiliated group unless the director determines that the filing of separate returns will more clearly disclose the taxable incomes of each member of the affiliated group. This determination shall be made after specific request by the taxpayer for the filing of separate returns.

7. The computation of consolidated taxable income for the members of an affiliated group of corporations subject to tax shall be made in the same manner and under the same procedures, including all intercompany adjustments and eliminations, as are required for consolidating the incomes of affiliated corporations for the taxable year for federal income tax purposes in accordance with section 1502 of the Internal Revenue Code.

1. If a corporation required by the provisions of this division to file any report or return or to pay any tax or fee, either as a corporation organized under the laws of this state, or as a foreign corporation doing business in this state for profit, or owning and using a part or all of its capital or plant in this state, fails or neglects to make any such report or return or to pay any such tax or fee for ninety days after the time prescribed in this division for making such report or return, or for paying such tax or fee, the director may certify such fact to the secretary of state. The secretary of state shall thereupon cancel the articles of incorporation of any such corporation which is organized under the laws of this state by appropriate entry upon the margin of the record thereof, or cancel the certificate of authority of any such foreign corporation to do business in this state by proper entry. Thereupon all the powers, privileges, and franchises conferred upon such corporation by
such articles of incorporation or by such certificate of authority shall cease and determine. The secretary of state shall immediately notify by registered mail such domestic or foreign corporation of the action taken by the secretary of state.

2. Any person or persons who shall exercise or attempt to exercise any powers, privileges, or franchises under articles of incorporation or certificate of authority after the same are canceled, as provided in any section of this division, shall pay a penalty of not less than one hundred dollars nor more than one thousand dollars, to be recovered by an action to be brought by the director.

3. Any corporation whose articles of incorporation or certificate of authority to do business in this state have been canceled by the secretary of state, as provided in subsection 1, or similar provisions of prior revenue laws, upon the filing, within ten years after such cancellation, with the secretary of state, of a certificate from the department that it has complied with all the requirements of this division and paid all state taxes, fees, or penalties due from it, and upon the payment to the secretary of state of an additional penalty of fifty dollars, shall be entitled again to exercise its rights, privileges, and franchises in this state; and the secretary of state shall cancel the entry made by the secretary under the provisions of subsection 1 or similar provisions of prior revenue laws, and shall issue a certificate entitling such corporation to exercise its rights, privileges and franchises.

4. A person, officer or employee of a corporation, or member or employee of a partnership, who, with intent to evade a requirement of this division or a lawful requirement of the director, fails to pay tax or fails to make, sign, or verify a return or fails to supply information required under this division, is guilty of a fraudulent practice. A person, corporation, officer or employee of a corporation, or member or employee of a partnership, who, with intent to evade any of the requirements of this division, or any lawful requirements of the director, makes, renders, signs, or verifies a false or fraudulent return or statement, or supplies false or fraudulent information, or who aids, abets, directs, causes, or procures anyone so to do, is guilty of a class “D” felony. The penalty is in addition to all other penalties in this division.

§422.41 Corporations.

All the provisions of sections 422.28, 422.29, and 422.30 of division II in respect to revision, appeal, and jeopardy assessments shall be applicable to corporations taxable under this division.

§422.40, INDIVIDUAL INCOME, CORPORATE, AND FRANCHISE TAXES

e. In the case of a net operating loss beginning after December 31, 1986 which is carried back or carried forward to the current taxable year, the net operating loss shall be reduced by the amount of items of tax preference and adjustments arising in the tax year which was taken into account in computing the net operating loss in section 422.35, subsection 11. The deduction for a net operating loss for a tax year beginning after December 31, 1986 which is carried back or carried forward to the current taxable year shall not exceed ninety percent of the alternative minimum taxable income determined without regard for the net operating loss deduction.

3. a. There is allowed as a credit against the tax determined in section 422.63 for a tax year an amount equal to the minimum tax credit for that tax year.

The minimum tax credit for a tax year is the excess, if any, of the adjusted net minimum tax imposed for all prior tax years beginning on or after January 1, 1987, over the amount allowable as a credit under this subsection for those prior tax years.

b. The allowable credit under paragraph "a" for a tax year shall not exceed the excess, if any, of the tax determined in section 422.63 over the state alternative minimum tax as determined in subsection 2.

The net minimum tax for a tax year is the excess, if any, of the tax determined in section 422.63 for the tax year over the tax determined in section 422.63 for the tax year.

The adjusted net minimum tax for a tax year is the net minimum tax for the tax year reduced by the amount which would be the net minimum tax if the only item of tax preference taken into account was that described in paragraph (6) of section 57(a) of the Internal Revenue Code.

4. a. The taxes imposed under this division shall be reduced by a property rehabilitation tax credit equal to the amount as computed under chapter 404A for rehabilitating eligible property. Any credit in excess of the tax liability shall be refunded as provided in section 404A.4, subsection 3.

c. Interest and dividends from federal securities shall not be subtracted.

d. Interest and dividends derived from obligations of United States possessions, agencies, and instrumentalities, including bonds which were purchased after January 1, 1991, and issued by the governments of Puerto Rico, Guam, and the Virgin Islands shall be added, to the extent they were not included in computing federal taxable income.

g. Where a financial institution as defined in section 581 of the Internal Revenue Code is not subject to income tax and the shareholders of the financial institution are taxed on the financial institution’s income under the provisions of the Internal Revenue Code, such tax treatment shall be disregarded and the financial institution shall compute its net income for franchise tax purposes in the same manner under this subsection as a financial institution that is subject to or liable for federal income tax under the Internal Revenue Code in effect for the applicable year.

4. “Taxable year” means the calendar year or the fiscal year ending during a calendar year, for which the tax is payable. “Fiscal year” includes a tax period of less than twelve months if, under the Internal Revenue Code, a corporation is required to file a tax return covering a tax period of less than twelve months.

Every financial institution shall file a return as prescribed by the director on or before the delinquency date.

1. The director shall have the power and authority to prescribe all rules not inconsistent with the provisions of this chapter, necessary and advisable for its detailed administration and to effectuate its purposes.
2. The director may, for administrative purposes, divide the state into districts, provided that in no case a county shall be divided in forming a district.
3. The director may destroy useless records and returns, reports, and communications of any taxpayer filed with or kept by the department after those returns, records, reports, or communications have been in the custody of the department for a period of not less than three years or such time as the director prescribes by rule. However, after the accounts of a person have been examined by the director and the amount of tax and penalty due have been finally determined, the director may order the destruction of any records previously filed by that taxpayer, notwithstanding the fact that those records have been in the custody of the department for a period less than three years. These records and documents shall be destroyed in the manner prescribed by the director.
4. The department may make photostat, microfilm, electronic, or other photographic copies of records, reports, and other papers either filed by the taxpayer or prepared by the department. In addition, the department may create and use any system of recordkeeping reasonably calculated to preserve its records for any time period required by law. When these photostat, electronic, microfilm, or other copies have been made, the department may destroy the original records which are the basis for the copies in any manner prescribed by the director. These photostat, electronic, microfilm, or other copies of records, reports, and other papers either filed by the taxpayer or prepared by the department. In addition, the department may create and use any system of recordkeeping reasonably calculated to preserve its records for any time period required by law.

422.70 General powers — hearings.
1. The director, for the purpose of ascertaining the correctness of a return or for the purpose of making an estimate of the taxable income or receipts of a taxpayer, has power: To examine or cause to be examined by an agent or representative designated by the director, books, papers, records, or memoranda; to require by subpoena the attendance and testimony of witnesses; to issue and sign subpoenas; to administer oaths, to examine witnesses and receive evidence; to compel witnesses to produce for examination books, papers, records, and documents relating to any matter which the director has the authority to investigate or determine.
2. Where the director finds the taxpayer has made a fraudulent return, the costs of any hearing, including a contested case hearing, shall be taxed to the taxpayer. In all other cases the costs shall be paid by the state.
3. The fees and mileage to be paid witnesses and charged as costs shall be the same as prescribed by law in proceedings in the district court of this state in civil cases. All costs shall be charged in the manner provided by law in proceedings in civil cases. If the costs are charged to the taxpayer they shall be added to the taxes assessed against the taxpayer and shall be collected in the same manner. Costs charged to the state shall be certified by the director and the department of administrative services shall issue warrants on the state treasurer for the amount of the costs, to be paid out of the proceeds of the taxes collected under this chapter.
4. In case of disobedience to a subpoena the director may invoke the aid of any court of competent jurisdiction in requiring the attendance and testimony of witnesses and production of records, books, papers, and documents, and such court may issue an order requiring the person to appear before the director and give evidence or produce records, books, papers, and documents, as the case may be, and any failure to obey such order of court may be punished by the court as a contempt thereof.
5. Testimony on hearings before the director may be taken by a deposition as in civil cases, and any person may be compelled to appear and de-
It is unlawful for any person to willfully inspect, except as authorized by the director, any return or return information. However, the director may authorize examination of such state returns and other state information which is confidential under this section, if a reciprocal arrangement exists, by tax officers of another state or the federal government. The director may, by rules adopted pursuant to chapter 17A, authorize examination of state information and returns by other officers or employees of this state to the extent required by their official duties and responsibilities. Disclosure of state information to tax officers of another state is limited to disclosures which have a tax administrative purpose and only to officers of those states which by agreement with this state limit the disclosure of the information as strictly as the laws of this state protecting the confidentiality of returns and information. The director shall place upon the state tax form a notice to the taxpayer that state tax information may be disclosed to tax officials of another state or of the United States for tax administrative purposes.

The department shall not authorize the examination of tax information by officers and employees of this state, another state, or of the United States if the officers or employees would otherwise be required to obtain a judicial order to examine the information if it were to be obtained from another source, and if the purpose of the examination is other than for tax administration. However, the director may provide sample individual income tax information to be used for statistical purposes to the legislative services agency. The information shall not include the name or mailing address of the taxpayer or the taxpayer's social security number. Any information contained in an individual income tax return which is provided by the director shall only be used as a part of a database which contains similar information from a number of returns. The legislative services agency shall not have access to the income tax returns of individuals. Each request for individual income tax information shall contain a statement by the director of the legislative services agency that the individual income tax information received by the legislative services agency shall be used solely for statistical purposes. This subsection does not prevent the department from authorizing the examination of state returns and state information under the provisions of section 252B.9. This subsection prevails over any general law of this state relating to public records.

The director shall provide state tax returns and return information to the auditor of state, to the extent that the information is necessary to complete the annual audit of the department required by section 11.2. The state tax returns and return information provided by the director shall remain confidential and shall not be included in any public documents issued by the auditor of state.

2. Federal tax returns, copies of returns, and
return information as defined in section 6103(b) of the Internal Revenue Code, which are required to be filed with the department for the enforcement of the income tax laws of this state, shall be held as confidential by the department and subject to the disclosure limitations in subsection 1.

3. Unless otherwise expressly permitted by section 8A.504, section 421.17, subsections 22, 23, and 26, sections 252B.9, 421.19, 421.28, 422.20, and 452A.63, and this section, a tax return, return information, or investigative or audit information shall not be divulged to any person or entity, other than the taxpayer, the department, or internal revenue service for use in a matter unrelated to tax administration.

This prohibition precludes persons or entities other than the taxpayer, the department, or the internal revenue service from obtaining such information from the department, and a subpoena, order, or process which requires the department to produce such information to a person or entity, other than the taxpayer, the department, or internal revenue service for use in a nontax proceeding is void.

4. A person violating subsection 1, 2, 3, or 6 is guilty of a serious misdemeanor.

5. The director may disclose taxpayer identity information to the press and other media for purposes of notifying persons entitled to tax refunds when the director, after reasonable effort and lapse of time, has been unable to locate the persons.

6. The department may enter into a written informational exchange agreement for tax administration purposes with a city or county which is entitled to receive funds due to a local hotel and motel tax or a local sales and services tax. The written informational exchange agreement shall designate no more than two paid city or county employees that have access to actual return information relating to that city’s or county’s receipts from a local hotel and motel tax or a local sales and services tax.

City or county employees designated to have access to information under this subsection are deemed to be officers and employees of the state for purposes of the restrictions pursuant to subsection 1 pertaining to confidential information. The department may refuse to enter into a written informational exchange agreement if the city or county does not agree to pay the actual cost of providing the information and the department may refuse to abide by a written informational exchange agreement if the city or county does not promptly pay the actual cost of providing the information or take reasonable precautions to protect the information’s confidentiality.

7. Notwithstanding subsection 3, the director shall provide state tax returns and return information in response to a subpoena issued by the court pursuant to rule of criminal procedure 2.5 commanding the appearance before the attorney general or an assistant attorney general if the subpoena is accompanied by affidavits from such person and from a sworn peace officer member of the department of public safety affirming that the information is necessary for the investigation of a felony violation of chapter 124 or chapter 706B. The affidavits accompanying the subpoenas and the information provided by the director shall remain a confidential record which may be disseminated only to a prosecutor or peace officer involved in the investigation, or to the taxpayer who filed the information and to the court in connection with the filing of criminal charges or institution of a forfeiture action. A person who knowingly files a false affidavit with the director to secure information or who divulges information received under this subsection in a manner prohibited by this subsection commits a serious misdemeanor.

422.73 Correction of errors — refunds, credits and carrybacks.

1. If it appears that an amount of tax, penalty, or interest has been paid which was not due under division II, III or V of this chapter, then that amount shall be credited against any tax due on the books of the department by the person who made the excessive payment, or that amount shall be refunded to the person or with the person’s approval, credited to tax to become due. A claim for refund or credit that has not been filed with the department within three years after the return upon which a refund or credit claimed became due, or within one year after the payment of the tax upon which a refund or credit claimed was made, whichever time is the later, shall not be allowed by the director. If, as a result of a carryback of a net operating loss or a net capital loss, the amount of tax in a prior period is reduced and an overpayment results, the claim for refund or credit of the overpayment shall be filed with the department within the three years after the return for the taxable year of the net operating loss or net capital loss became due. Notwithstanding the period of limitation specified, the taxpayer shall have six months from the day of final disposition of any income tax matter between the taxpayer and the internal revenue service with respect to the particular tax year to claim an income tax refund or credit.

The department shall enter into an agreement with the internal revenue service for the transmission of federal income tax reports on individuals required to file an Iowa income tax return who have been involved in an income tax matter with
§422.73, INDIVIDUAL INCOME, CORPORATE, AND FRANCHISE TAXES

the internal revenue service. After final disposition of the income tax matter between the taxpayer and the internal revenue service, the department shall determine whether the individual is due a state income tax refund as a result of final disposition of such income tax matter. If the individual is due a state income tax refund, the department shall notify the individual within thirty days and request the individual to file a claim for refund or credit with the department.

2. Notwithstanding subsection 1, a claim for credit or refund of the income tax paid is considered timely if the claim is filed with the department on or before June 30, 1999, if the taxpayer’s federal income tax was refunded due to a provision in the federal Taxpayer Relief Act of 1997, Pub. L. No. 105-34, which affected the federal adjusted gross incomes of individuals or estates and trusts, or affected the taxable incomes of corporate taxpayers.

ESTIMATED TAXES BY CORPORATIONS AND FINANCIAL INSTITUTIONS

422.85 Imposition of estimated tax.

A taxpayer subject to the tax imposed by sections 422.33 and 422.60 shall make payments of estimated tax for the taxable year if the amount of tax payable, less credits, can reasonably be expected to be more than one thousand dollars for the taxable year. For purposes of this division, “estimated tax” means the amount which the taxpayer estimates to be the tax due and payable under division III or V of this chapter for the taxable year.

[C79, 81, §422.85; 89 Acts, ch 251, §26]

422.86 Payment of estimated tax.

A taxpayer required to pay estimated tax under section 422.85 shall pay the estimated tax in accordance with the following schedule:

1. If it is first determined that the estimated tax will be greater than one thousand dollars on or before the last day of the fourth month of the taxable year, the estimated tax shall be paid in four equal installments. The first installment shall be paid not later than the last day of the fourth month of the taxable year. The second and third installments shall be paid not later than the last day of the sixth and ninth months of the taxable year, and the final installment shall be paid on or before the last day of the taxable year.

2. If it is first determined that the estimated tax will be greater than one thousand dollars after the last day of the fourth month but not later than the last day of the sixth month of the taxable year, the estimated tax shall be paid in three equal installments. The first installment shall be paid not later than the last day of the sixth month of the taxable year. The second installment shall be paid on or before the last day of the ninth month of the taxable year and the third installment shall be paid on or before the last day of the taxable year.

3. If it is first determined that the estimated tax will be greater than one thousand dollars after the last day of the sixth month but not later than the last day of the ninth month of the taxable year, the estimated tax shall be paid in two equal installments. The first installment shall be paid not later than the last day of the ninth month and the second installment shall be paid on or before the last day of the taxable year.

4. If it is first determined that the estimated tax will be greater than one thousand dollars after the last day of the ninth month of the taxable year, the estimated tax shall be paid in full on or before the last day of the taxable year.
5. If, after paying any installment of estimated tax, the taxpayer makes a new estimate, the remaining installments shall be ratably adjusted to reflect the increase or decrease in the estimated tax.

422.88 Failure to pay estimated tax.
1. If the taxpayer submits an underpayment of the estimated tax, the taxpayer is subject to an underpayment penalty at the rate established under section 421.7 upon the amount of the underpayment for the period of the underpayment.
2. The amount of the underpayment shall be the excess of the amount of the installment which would be required to be paid if the estimated tax was equal to ninety percent of the tax shown on the return of the taxpayer for the taxable year over the amount of installments paid on or before the date prescribed for payment.
3. If the taxpayer did not file a return during the taxable year, the amount of the underpayment shall be equal to ninety percent of the taxpayer’s tax liability for the taxable year over the amount of installments paid on or before the date prescribed for payment.
4. The period of the underpayment shall run from the date the installment was required to be paid to the last day of the fourth month following the close of the taxable year or the date on which such portion is paid, whichever date first occurs.
5. A payment of estimated tax on any installation date shall be considered a payment of any previous underpayment only to the extent such payment exceeds the amount of the installment determined under subsection 2 or 3 of this section for such installment date.

422.89 Exception to penalty.
The penalty for underpayment of any installment of estimated tax imposed under section 422.88 shall not be imposed if the total amount of all payments of estimated tax made on or before the last date prescribed for the payment of such installment equals or exceeds the amount which would have been required to be paid on or before such date if the estimated tax amount at least to one of the following:

1. The tax shown on the return of the taxpayer for the preceding taxable year, if a return showing a liability for tax was filed by the taxpayer for the preceding taxable year and such preceding year was a taxable year of twelve months.
2. An amount equal to the tax computed at the rates applicable to the taxable year but otherwise on the basis of the facts shown on the return of the taxpayer for, and the law applicable to, the preceding taxable year.
3. An amount equal to ninety percent of the tax for the taxable year computed by placing an annualized basis the taxable income:
   a. For the first three months of the taxable year if an installment is required to be paid in the fourth month;
   b. For the first three months or for the first five months of the taxable year if an installment is required to be paid in the sixth month;
   c. For the first six months or for the first eight months of the taxable year if an installment is required to be paid in the ninth month; and
   d. For the first nine months or for the first eleven months of the taxable year if an installment is required to be paid in the twelfth month of the taxable year.

The taxable income shall be placed on an annualized basis by multiplying the taxable income as determined under this subsection by twelve and dividing the resulting amount by the number of months in the taxable year (three, five, six, eight, nine, or eleven months, as the case may be) referred to in this subsection.

422.90 Penalty not subject to waiver. Repealed by 99 Acts, ch 151, § 85, 89.

422.91 Credit for estimated tax.
Any amount of estimated tax paid is a credit against the amount of tax due on a final, completed return, and any overpayment of five dollars or more shall be refunded to the taxpayer with interest, the interest to begin to accrue on the first day of the second calendar month following the date of payment or the date the return was due to be filed or was filed, whichever is the latest, at the rate established under section 421.7, and the return constitutes a claim for refund for this purpose.

Amounts less than five dollars shall be refunded to the taxpayer only upon written application in accordance with section 422.73, and only if the application is filed within twelve months after the due date for the return. In lieu of claiming a refund, the taxpayer may elect to have the overpayment shown on its final, completed return for the taxable year credited to the tax liability for the following taxable year.

DIVISION IX
FUEL TAX CREDIT

422.110  Income tax credit in lieu of refund.
In lieu of the fuel tax refund provided in section 452A.17, a person or corporation subject to taxation under division II or III of this chapter may elect to receive an income tax credit. The person or corporation which elects to receive an income tax credit shall cancel its refund permit obtained under section 452A.18 within thirty days after the first day of its tax year or the permit becomes invalid at that time. For the purposes of this section, "person" includes a person claiming a tax credit based upon the person's pro rata share of the earnings from a partnership, limited liability company, or corporation which is not subject to a tax under division II or III of this chapter as a partnership, limited liability company, or corporation. If the election to receive an income tax credit has been made, it remains effective for at least one tax year, and for subsequent tax years unless a change is requested and a new refund permit applied for within thirty days after the first day of the person's or corporation's tax year. The income tax credit shall be the amount of the Iowa fuel tax paid on fuel purchased by the person or corporation and is subject to the conditions provided in section 452A.17 with the exception that the income tax credit is not available for refunds relating to casualty losses, transport diversions, pumping credits, blending errors, idle time, power takeoffs, reefer units, and exports by distributors.

The right to a credit under this section is not assignable and the credit may be claimed only by the person or corporation that purchased the fuel.

[C75, 77, §422.86; C79, 81, §422.110; 82 Acts, ch 1176, §2]

422.111  Fuel tax credit as income tax credit.
The fuel tax credit may be applied against the income tax liability of the person or corporation as determined on the tax return filed for the year in which the fuel tax was paid. The department shall provide forms for claiming the fuel tax credit. If the fuel tax credit would result in an overpayment of income tax, the person or corporation may apply for a refund of the amount of overpayment or may have the overpayment credited to income tax due in subsequent years. Each person or corporation that claims a fuel tax credit shall maintain the original invoices showing the purchase of the fuel on which a credit is claimed. An invoice is not acceptable in support of a claim for credit unless the invoice is a separate serially numbered invoice covering no more than one purchase of motor fuel or undyed special fuel, prepared by the seller on a form approved by the department, or unless the invoice is legibly written with no corrections or erasures and shows the date of sale, the name and address of the seller and of the purchaser, the kind of fuel, the gallonage in figures, the per gallon price of the fuel, the total purchase price including the Iowa fuel tax, and that the total purchase price has been paid. However, as to refund invoices made on a billing machine, the department may waive these requirements. If an original invoice is lost or destroyed, the department may approve a credit supported by a copy identified and certified by the seller as being a true copy of the original. Each person or corporation that claims a fuel tax credit shall maintain complete records of purchases of motor fuel or undyed special fuel on which Iowa fuel tax was paid, and for which a fuel tax credit is claimed.

In order to verify the validity of a claim for credit the department shall have the right to require the claimant to furnish such additional proof of validity as the department may determine and to examine the books and records of the claimant. Failure of the claimant to furnish the books and rec-
ords for examination shall constitute a waiver of rights to claim a credit related to that taxpayer's year and the department may disallow the entire credit claimed by the taxpayer for that year.

422.120 _Aircraft fuel tax transfer._
The department shall certify quarterly to the treasurer of state the amount of credit that has been taken against income tax liability since the time of the last certification, for the Iowa fuel tax paid on motor fuel, special fuel and motor fuel used for the purpose of operating aircraft, and the treasurer of state shall transfer the amount of the total credit from the motor fuel tax fund, or in the case of aircraft motor fuel, from the separate fund established by section 452A.82, to the general fund of the state.

DIVISION X

LIVESTOCK PRODUCTION TAX CREDIT

422.120 _Livestock production tax credit allowed — cow-calf operation._

1. a. There is allowed a state tax credit for livestock production operations located in the state. The amount of the credit equals ten cents for each corn equivalent consumed by the livestock in the production operation as specified under this section. The credit shall be refunded as provided in section 422.122.

b. (1) The credit shall be available to an individual or corporate taxpayer if the taxpayer's federal taxable income is not more than ninety-nine thousand six hundred dollars for the tax year. In the case of married taxpayers, their combined federal taxable income shall be used to determine if they qualify for the credit.

(2) For each subsequent tax year, the maximum taxable income amount specified in subparagraph (1) shall be multiplied by the cumulative index factor for that tax year. "Cumulative index factor" means the product of the annual index factor for the 1997 calendar year and all annual index factors for subsequent calendar years. The cumulative index factor applies to all tax years beginning on or after January 1 of the calendar year for which the latest annual index factor has been determined.

(3) The annual index factor for the 1997 calendar year is one hundred percent. For each subsequent calendar year, the annual index factor equals the annual inflation factor for that calendar year as computed in section 422.4 for purposes of the individual income tax.

2. The amount of the credit per operation is determined by adding together for each head of livestock in the operation the product of ten cents times the number of corn equivalents consumed by that head of livestock. The amount of livestock production credit per operation per tax year shall not exceed three thousand dollars and the amount of livestock production credit per taxpayer per tax year shall not exceed three thousand dollars.

The maximum amount of corn equivalents for a head of livestock in a production operation is the following:

3. As used in this division, "cow-calf operation" means any of the following:

a. Mature beef cows bred or for breeding.

b. Bred yearling heifers.

c. Breeding bulls.

4. If the livestock operation is carried on partly within and partly without the state, the portion of the operation attributable to this state shall be determined pursuant to rules adopted by the department. The department may adjust the allocation upon request of the taxpayer in order to reflect the actual livestock operation carried on within this state.

5. An individual may claim the livestock production tax credit allowed a partnership, limited liability company, subchapter S corporation, or estate or trust electing to have the income taxed directly to the individual. The amount claimed by the individual shall be based upon the pro rata share of the individual's earning of the partnership, limited liability company, subchapter S corporation, or estate or trust.

6. A fraudulent claim for a credit refund under this division shall cause the forfeiture of any right or interest to a tax credit refund in subsequent tax years under this division.

Beginning with the fiscal year beginning July 1, 1997, there is appropriated annually from the general fund of the state two million dollars to refund the credits allowed under this division. Notwithstanding section 422.120, for tax years beginning on or after January 1, 1997, the livestock production tax credit shall only be allowed for cow-calf operations. In calculating the tax credit for cow-calf operations for tax years beginning in the 1997 calendar year, mature beef cows bred or for breeding, bred yearling heifers, and breeding bulls in the operations’ inventory on December 31 of the tax year which were also in the operations’ inventory on July 1 of the tax year and stockers and feeders sold during the tax year may be counted. In calculating the tax credit for cow-calf operations for tax years beginning on or after January 1, 1998, only those bred cows, bred heifers, and breeding bulls in the operations’ inventory on December 31 of the tax year which were also in the operations’ inventory on July 1 of the tax year may be counted.

§422.122 Refund of livestock production credit claims.
1. Each tax year the total amount of livestock production credit refund claims that shall be paid pursuant to section 422.120 shall not exceed the amount appropriated by the general assembly for that purpose. If the total dollar amount of the refund claims exceeds that amount, each claim shall be paid an amount equal to that amount divided by the total number of claims, not to exceed the amount of the taxpayer’s claim. Remaining funds shall be prorated among those claims not paid in full in the proportion that each such claim bears to the total amount of such claims not paid in full.
2. In the case where refund claims are not paid in full, the amount of the refund to which the taxpayer is entitled is the amount computed in subsection 1, and paid to the taxpayer, and the taxpayer is not entitled to any unpaid portion of a claim and is not entitled to carry forward or backward to another tax year any unpaid portion of a claim. A taxpayer shall not use a refund as an estimated payment for the succeeding tax year.
3. A taxpayer must file a claim for refund within ten months from the last day of the taxpayer’s tax year. An extension for filing shall not be allowed. The department shall determine by February 28 of the calendar year following the calendar year in which the claims were filed if the total amount of claims for refund exceeds the amount appropriated for that purpose by the general assembly for the tax year. If the claim is not payable on February 28 because the taxpayer is a fiscal year filer, the claim shall be considered as a claim filed for the following tax year.
4. A claim for refund shall be made on claim forms to be made available by the department. In order for a taxpayer to have a valid refund claim, the taxpayer must supply legible copies of documents the director deems necessary to verify the amount of the refund.

OPTIONAL TAXES FOR EMERGENCY MEDICAL SERVICES

422D.1 Authorization — election — imposition and repeal — use of revenues.

1. A county board of supervisors may offer for voter approval any of the following taxes or a combination of the following taxes:
   a. Local option income surtax.
   b. An ad valorem property tax.

Revenues generated from these taxes shall be used for emergency medical services as provided in section 422D.6.

2. The taxes for emergency medical services shall only be imposed after an election at which a majority of those voting on the question of imposing the tax or combination of taxes specified in subsection 1, paragraph “a” or “b”, vote in favor of the question. However, the tax or combination of taxes specified in subsection 1 shall not be imposed on property within or on residents of a benefited emergency medical services district under chapter 357F. The question of imposing the tax or combination of the taxes may be submitted at the regular city election, a special election, or state general election. Notice of the question shall be provided by publication at least sixty days before the time of the election and shall identify the tax or combination of taxes and the rate or rates, as applicable. If a majority of those voting on the question approve the imposition of the tax or combination of taxes, the tax or combination of taxes shall be imposed as follows:
   a. A local option income surtax shall be imposed for tax years beginning on or after January 1 of the fiscal year in which the favorable election was held.
   b. An ad valorem property tax shall be imposed for the fiscal year in which the election was held.

Before a county imposes an income surtax as specified in subsection 1, paragraph “a”, a benefited emergency medical services district in the county shall be dissolved, and the county shall be liable for the outstanding obligations of the benefited district. If the benefited district extends into more than one county, the county imposing the income surtax shall be liable for only that portion of the obligations relating to the portion of the benefited district in the county.

3. Revenues received by the county from the taxes imposed under this chapter shall be deposited into the emergency medical services trust fund created pursuant to section 422D.6 and shall be used as provided in that section.

4. Any tax or combination of taxes imposed shall be for a maximum period of five years.

92 Acts, ch 1226, §17

422D.2 Local income surtax.

A county may impose by ordinance a local income surtax as provided in section 422D.1 at the rate set by the board of supervisors, of up to one percent, on the state individual income tax of each individual residing in the county at the end of the individual’s applicable tax year. However, the cumulative total of the percents of income surtax imposed on any taxpayer in the county shall not exceed twenty percent. The reason for imposing the surtax and the amount needed shall be set out in the ordinance. The surtax rate shall be set to raise only the amount needed. For purposes of this section, “state individual income tax” means the tax computed under section 422.5, less the credits allowed in sections 422.11A, 422.11B, 422.12, and 422.12B.

92 Acts, ch 1226, §18; 97 Acts, ch 23, §46
See also §298.14

422D.3 Administration.

A local income surtax shall be imposed January 1 of the fiscal year in which the favorable election was held for tax years beginning on or after January 1, and is repealed as provided in section 422D.1, subsection 4, as of December 31 for tax years beginning after December 31.

The director of revenue shall administer the local income surtax as nearly as possible in conjunction with the administration of state income tax laws. The director shall provide on the regular state tax forms for reporting local income surtax.

An ordinance imposing a local income surtax shall adopt by reference the applicable provisions of the appropriate sections of chapter 422, division II. All powers and requirements of the director in administering the state income tax law apply to the administration of a local income surtax, including but not limited to, the provisions of sections 422.4, 422.20 to 422.31, 422.68, 422.70, and
422.72 to 422.75. Local officials shall confer with the director of revenue for assistance in drafting the ordinance imposing a local income surtax. A certified copy of the ordinance shall be filed with the director as soon as possible after passage.

The director, in consultation with local officials, shall collect and account for a local income surtax and any interest and penalties. The director shall credit local income surtax receipts and any interest and penalties collected from returns filed on or before November 1 of the calendar year following the tax year for which the local income surtax is imposed to a "local income surtax fund" established in the department of revenue. All local income surtax receipts and any interest and penalties received or refunded from returns filed after November 1 of the calendar year following the tax year for which the local income surtax is imposed shall be deposited in or withdrawn from the state general fund and shall be considered part of the cost of administering the local income surtax.

422D.4 Payment to local government — use of receipts.

1. On or before December 15, the director of revenue shall make an accounting of the local income surtax receipts and any interest and penalties collected from returns filed on or before November 1 and shall certify to the treasurer of state this amount collected. The treasurer of state shall remit within fifteen days of the certification by the director to each county which has imposed a local income surtax the amount in the local income surtax fund collected as a result of its surtax.

2. Local income surtax moneys received by a county shall be deposited and used as provided in section 422D.6.

422D.5 Property tax levy.
A county may levy an emergency medical services tax at the rate set by the board of supervisors and approved at the election as provided in section 422D.1, on all taxable property in the county for fiscal years beginning with the fiscal year in which the favorable election was held. The reason for imposing the tax and the amount needed shall be set out on the ballot. The rate shall be set so as to raise only the amount needed. The levy is repealed for subsequent fiscal years as provided in section 422D.1, subsection 4.

92 Acts, ch 1226, §21

422D.6 Emergency medical services trust fund.

1. A county authorized to impose a tax under this chapter shall establish an emergency medical services trust fund into which revenues received from the taxes imposed shall be deposited. Moneys in the trust fund shall be used for emergency medical services. In addition, moneys in the fund may be used for the purpose of matching federal or state funds for education and training related to emergency medical services.

2. A county may enter into chapter 28E agreements with other counties in order to ensure adequate coverage of the county's service area.

3. Costs which are eligible for emergency medical services trust fund expenditures include, but are not limited to:
   a. Defibrillators.

SUBCHAPTER II
SALES TAX

423.2 Tax imposed.
1. There is imposed a tax of five percent upon the sales price of all sales of tangible personal property, consisting of goods, wares, or merchandise, sold at retail in the state to consumers or users except as otherwise provided in this subchapter.

a. For the purposes of this subchapter, sales of the following services are treated as if they were sales of tangible personal property:

(1) Sales of engraving, photography, retouching, printing, and binding services.

(2) Sales of vulcanizing, recapping, and retreading services.

(3) Sales of prepaid telephone calling cards and prepaid authorization numbers.

(4) Sales of optional service or warranty contracts, except residential service contracts regulated under chapter 523C, which provide for the furnishing of labor and materials and require the furnishing of any taxable service enumerated under this section. The sales price is subject to tax even if some of the services furnished are not enumerated under this section. Additional sales, services, or use taxes shall not be levied on services, parts, or labor provided under optional service or warranty contracts which are subject to tax under this subsection.

If the optional service or warranty contract is a computer software maintenance or support service contract and there is no separately stated fee for the taxable personal property or for the non-taxable service, the tax imposed by this subsection shall be imposed on fifty percent of the sales price from the sale of such contract. If the contract provides for technical support services only, no tax shall be imposed under this subsection. The provisions of this subparagraph (4) also apply to the use tax.

(5) Renting of rooms, apartments, or sleeping quarters in a hotel, motel, inn, public lodging house, rooming house, mobile home which is tangible personal property, or tourist court, or in any place where sleeping accommodations are furnished to transient guests for rent, whether with or without meals. “Renting” and “rent” include any kind of direct or indirect charge for such rooms, apartments, or sleeping quarters, or their use. However, the tax does not apply to the sales
price from the renting of a room, apartment, or sleeping quarters while rented by the same person for a period of more than thirty-one consecutive days.

b. Sales of building materials, supplies, and equipment to owners, contractors, subcontractors, or builders for the erection of buildings or the alteration, repair, or improvement of real property are retail sales of tangible personal property in whatever quantity sold. Where the owner, contractor, subcontractor, or builder is also a retailer holding a retail sales tax permit and transacting retail sales of building materials, supplies, and equipment, the person shall purchase such items of tangible personal property without liability for the tax if such property will be subject to the tax at the time of resale or at the time it is withdrawn from inventory for construction purposes. The sales tax shall be due in the reporting period when the materials, supplies, and equipment are withdrawn from inventory for construction purposes or when sold at retail. The tax shall not be due when materials are withdrawn from inventory for use in construction outside of Iowa and the tax shall not apply to tangible personal property purchased and consumed by the manufacturer as building materials in the performance by the manufacturer or its subcontractor of construction outside of Iowa. The sale of carpeting is not a sale of building materials. The sale of carpeting to owners, contractors, subcontractors, or builders shall be treated as the sale of ordinary tangible personal property and subject to the tax imposed under this subsection and the use tax.

c. The use within this state of tangible personal property by the manufacturer thereof, as building materials, supplies, or equipment, in the performance of construction contracts in Iowa, shall, for the purpose of this subchapter, be construed as a sale at retail of tangible personal property by the manufacturer who shall be deemed to be the consumer of such tangible personal property. The tax shall be computed upon the cost to the manufacturer of the fabrication or production of the tangible personal property.

2. A tax of five percent is imposed upon the sales price of the sale or furnishing of gas, electricity, water, heat, pay television service, and communication service, including the sales price from such sales by any municipal corporation or joint water utility furnishing gas, electricity, water, heat, pay television service, and communication service to the public in its proprietary capacity, except as otherwise provided in this subchapter, when sold at retail in the state to consumers or users.

3. A tax of five percent is imposed upon the sales price of all sales of tickets or admissions to places of amusement, fairs, and athletic events except those of elementary and secondary educational institutions. A tax of five percent is imposed on the sales price of an entry fee or like charge imposed solely for the privilege of participating in an activity at a place of amusement, fair, or athletic event unless the sales price of tickets or admissions charges for observing the same activity are taxable under this subchapter. A tax of five percent is imposed upon that part of private club membership fees or charges paid for the privilege of participating in any athletic sports provided club members.

4. A tax of five percent is imposed upon the sales price derived from the operation of all forms of amusement devices and games of skill, games of chance, raffles, and bingo games as defined in chapter 99B, operated or conducted within the state, the tax to be collected from the operator in the same manner as for the collection of taxes upon the sales price of tickets or admission as provided in this section. Nothing in this subsection shall legalize any games of skill or chance or slot-operated devices which are now prohibited by law.

The tax imposed under this subsection covers the total amount from the operation of games of skill, games of chance, raffles, and bingo games as defined in chapter 99B, and musical devices, weighing machines, shooting galleries, billiard and pool tables, bowling alleys, pinball machines, slot-operated devices selling merchandise not subject to the general sales taxes and on the total amount from devices or systems where prizes are in any manner awarded to patrons and upon the receipts from fees charged for participation in any game or other form of amusement, and generally upon the sales price from any source of amusement operated for profit, not specified in this section, and upon the sales price from which tax is not collected for tickets or admission, but tax shall not be imposed upon any activity exempt from sales tax under section 423.3, subsection 78. Every person receiving any sales price from the sources described in this section is subject to all provisions of this subchapter relating to retail sales tax and other provisions of this chapter as applicable.

5. There is imposed a tax of five percent upon the sales price from the furnishing of services as defined in section 423.1.

6. The sales price of any of the following enumerated services is subject to the tax imposed by subsection 5: alteration and garment repair; armored car; vehicle repair; battery, tire, and allied; investment counseling; service charges of all financial institutions; barber and beauty; boat repair; vehicle wash and wax; campgrounds; carpentry; roof, shingle, and glass repair; dance schools and dance studios; dating services; dry cleaning, pressing, dyeing, and laundering; electrical and electronic repair and installation; excavating and grading; farm implement repair of all kinds; flying service; furniture, rug, carpet, and upholstery repair and cleaning; fur storage and repair; golf and country clubs and all commercial recreation; gun and camera repair; house and building moving; household appliance, television, and radio repair;
janitorial and building maintenance or cleaning; jewelry and watch repair; lawn care, landscaping, and tree trimming and removal; limousine service, including driver; machine operator; machine repair of all kinds; motor repair; motorcycle, scooter, and bicycle repair; oilers and lubricators; office and business machine repair; painting, papering, and interior decorating; parking facilities; pay television; pet grooming; pipe fitting and plumbing; wood preparation; executive search agencies; private employment agencies, excluding services for placing a person in employment where the principal place of employment of that person is to be located outside of the state; reflexology; security and detective services; sewage services for nonresidential commercial operations; sewing and stitching; shoe repair and shoeshine; sign construction and installation; storage of household goods, mini-storage, and warehousing of raw agricultural products; swimming pool cleaning and maintenance; tanning beds or salons; taxidermy services; telephone answering service; test laboratories, including mobile testing laboratories and field testing by testing laboratories, and excluding tests on humans or animals; termite, bug, roach, and pest eradicators; tin and sheet metal repair; Turkish baths, massage, and reducing salons, excluding services provided by massage therapists licensed under chapter 152C; water conditioning and softening; weighing; welding; well drilling; wrapping, packaging, and packaging of merchandise and softening; tipping fee. How- ever, the costs of a service or portion of a service to collect and manage recyclable materials separated from solid waste by the waste generator are exempt from the tax imposed by this subsection at the collection or disposal facility.

For purposes of this subsection, "bundled services contract" means an agreement providing for a retailer's performance of services, one or more of which is a taxable service enumerated in this section and one or more of which is not, in return for a consumer's or user's single payment for the performance of the services, with no separate statement to the consumer or user of what portion of that payment is attributable to any one service which is a part of the contract.

For purposes of the administration of the tax on bundled services contracts, the director may enter into agreements of limited duration with individual retailers, groups of retailers, or organizations representing retailers of bundled services contracts. Such an agreement shall impose the tax rate only upon that portion of the sales price from a bundled services contract which is attributable to taxable services provided under the contract.

8. A tax of five percent is imposed upon the sales price from any mobile telecommunications service which this state is allowed to tax by the provisions of the federal Mobile Telecommunications Sourcing Act, Pub. L. No. 106-252, 4 U.S.C. § 116 et seq. For purposes of this subsection, taxes on mobile telecommunications service, as defined under the federal Mobile Telecommunications Sourcing Act that are deemed to be provided by the customer's home service provider, shall be paid to the taxing jurisdiction whose territorial limits encompass the customer's place of primary use, regardless of where the mobile telecommunications service originates, terminates, or passes through and shall in all other respects be taxed in conformity with the federal Mobile Telecommunications Sourcing Act. 423.8 Legislative finding and intent.
The general assembly finds that Iowa should enter into an agreement with one or more states to simplify and modernize sales and use tax administration in order to substantially reduce the burden of tax compliance for all sellers and for all types of commerce. It is the intent of the general assembly that entering into this agreement will lead to simplification and modernization of the sales and use tax law and not to the imposition of new taxes or an increase or decrease in the existing number of exemptions, unless such a result is unavoidable under the terms of the agreement.

423.11 Agreement requirements.

The director shall not enter into the agreement unless the agreement requires each state to abide by the following requirements:
1. Uniform state rate. The agreement must set restrictions to achieve more uniform state rates through the following:
   a. Limiting the number of state rates.
   b. Limiting the application of maximums on the amount of state tax that is due on a transaction.
   c. Limiting the application of thresholds on the application of state tax.
2. Uniform standards. The agreement must establish uniform standards for the following:
   a. The sourcing of transactions to taxing jurisdictions.
   b. The administration of exempt sales.
   c. The allowances a seller can take for bad debts.
   d. Sales and use tax returns and remittances.
3. Uniform definitions. The agreement must require states to develop and adopt uniform definitions of sales and use tax terms. The definitions must enable a state to preserve its ability to make policy choices not inconsistent with the uniform definitions.
4. Central registration. The agreement must provide a central, electronic registration system that allows a seller to register to collect and remit sales and use taxes for all member states.
5. No nexus attribution. The agreement must provide that registration with the central registration system and the collection of sales and use taxes in the member states must not be used as a factor in determining whether the seller has nexus with a state for any tax.
6. Local sales and use taxes. The agreement must provide for reduction of the burdens of complying with local sales and use taxes through the following:
   a. Restricting variances between the state and local tax bases.
   b. Requiring states to administer any sales and use taxes levied by local jurisdictions within the state so that sellers collecting and remitting these taxes must not have to register or file returns with, remit funds to, or be subject to independent audits from local taxing jurisdictions.
   c. Restricting the frequency of changes in the local sales and use tax rates and setting effective dates for the application of local jurisdictional boundary changes to local sales and use taxes.
   d. Providing notice of changes in local sales and use tax rates and of changes in the boundaries of local taxing jurisdictions.
7. Monetary allowances. The agreement must outline any monetary allowances that are to be provided by the states to sellers or certified service providers.
8. State compliance. The agreement must require each state to certify compliance with the terms of the agreement prior to joining and to maintain compliance, under the laws of the member state, with all provisions of the agreement while a member.
9. Consumer privacy. The agreement must require each state to adopt a uniform policy for certified service providers that protects the privacy of consumers and maintains the confidentiality of tax information.
10. Advisory councils. The agreement must provide for the appointment of an advisory council of private sector representatives and an advisory council of nonmember state representatives to consult with in the administration of the agreement.

423.12 Limited binding and beneficial effect.

1. The agreement binds and inures only to the benefit of Iowa and the other member states. A person, other than a member state, is not an intended beneficiary of the agreement. Any benefit to a person other than a member state is established by the law of Iowa and not by the terms of the agreement.
2. A person shall not have any cause of action or defense under the agreement or by virtue of this state’s entry into the agreement. A person may
not challenge, in any action brought under any provision of law, any action or inaction by any department, agency, or other instrumentality of this state, or any political subdivision of this state on the ground that the action or inaction is inconsistent with the agreement.

3. A law of this state, or the application of it, shall not be declared invalid as to any such person or circumstance on the ground that the provision or application is inconsistent with the agreement.

423.14 Sales and use tax collection.
1. a. Sales tax, other than that described in paragraph “c.”, shall be collected by sellers who are retailers or by their agents. Sellers or their agents shall, as far as practicable, add the sales tax, or the average equivalent thereof, to the sales price or charge, less trade-ins allowed and taken and when added such tax shall constitute a part of the sales price or charge, shall be a debt from consumer or user to seller or agent until paid, and shall be recoverable at law in the same manner as other debts.

b. In computing the tax to be collected as the result of any transaction, the tax computation must be carried to the third decimal place. Whenever the third decimal place is greater than four, the tax must be rounded up to the next whole cent; whenever the third decimal place is four or less, the tax must be rounded downward to a whole cent. Sellers may elect to compute the tax due on transactions on an item or invoice basis. Sellers are not required to use a bracket system.

c. The tax imposed upon those sales of motor vehicle fuel which are subject to tax and refund under chapter 452A shall be collected by the state treasurer by way of deduction from refunds otherwise allowable under that chapter. The treasurer shall transfer the amount of such deductions from the motor vehicle fuel tax fund to the special tax fund.

2. Use tax shall be collected in the following manner:

a. The tax upon the use of all vehicles subject to registration or subject only to the issuance of a certificate of title or the tax upon the use of manufactured housing shall be collected by the county treasurer or the state department of transportation pursuant to sections 423.26 and 423.37. The county treasurer shall retain one dollar from each tax payment collected, to be credited to the county general fund.

b. The tax upon the use of all tangible personal property other than that enumerated in paragraph “a”, which is sold by a seller who is a retailer maintaining a place of business in this state, or by such other retailer or agent as the director shall authorize pursuant to section 423.30, shall be collected by the retailer or agent and remitted to the department, pursuant to the provisions of paragraph “e”, and sections 423.24, 423.29, 423.30, 423.32, and 423.33.

c. The tax upon the use of all tangible personal property not paid pursuant to paragraphs “a” and “b” shall be paid to the department directly by any person using the property within this state, pursuant to the provisions of section 423.34.

d. The tax imposed on the use of services enumerated in section 423.5 shall be collected, remitted, and paid to the department of revenue in the same manner as use tax on tangible personal property is collected, remitted, and paid under this subchapter.

e. All persons obligated by paragraph “a”, “b”, or “d”, to collect use tax shall, as far as practicable, add that tax, or the average equivalent thereof, to the purchase price, less trade-ins allowed and taken, and when added the tax shall constitute a part of the purchase price. Use tax which this section requires to be collected by a retailer and any tax collected pursuant to this section by a retailer shall constitute a debt owed by the retailer to this state. Tax which must be paid directly to the department, pursuant to paragraph “c” or “d”, is to be computed and added by the consumer or user to the purchase price in the same manner as this paragraph requires a seller to compute and add the tax. The tax shall be a debt from the consumer or user to the department until paid, and shall be recoverable at law in the same manner as other debts.

423.15 General sourcing rules.

All sellers obligated to collect Iowa sales or use tax shall use the standards set out in this section to determine where sales of products occur, excluding sales enumerated in section 423.16. These provisions apply regardless of the characterization of a product as tangible personal property, a digital good, or a service, excluding telecommunications services. This section only applies to determine a seller’s obligation to pay or collect and remit a sales or use tax with respect to the seller’s sale of a product. This section does not affect the obligation of a purchaser or lessee to remit tax on the use of the product to the taxing jurisdictions in which the use occurs. A seller’s obligation to collect Iowa sales tax or Iowa use tax only occurs if the sale is sourced to this state. The application of whether Iowa sales tax applies to sales sourced to Iowa depends upon where the sale is consummated by delivery.

1. Sales, excluding leases or rentals other than leases or rentals set out in subsection 2, of products shall be sourced as follows:

a. When the product is received by the purchaser at a business location of the seller, the sale is sourced to that business location.

b. When the product is not received by the purchaser at a business location of the seller, the sale is sourced to the location where receipt by the purchaser or the purchaser’s donee, designated as such by the purchaser, occurs, including the location indicated by instructions for delivery to the purchaser or donee, known to the seller.

c. When paragraphs “a” and “b” do not apply, the sale is sourced to the location indicated by an address for the purchaser that is available from the business records of the seller that are maintained in the ordinary course of the seller’s business when use of this address does not constitute bad faith.

d. When paragraphs “a”, “b”, and “c” do not apply, the sale is sourced to the location indicated by an address for the purchaser obtained during the consummation of the sale, including the address of a purchaser’s payment instrument, if no other address is available, when use of this address does not constitute bad faith.

e. When paragraphs “a”, “b”, “c”, and “d” do not apply, including the circumstance where the seller is without sufficient information to apply the previous rules, then the location will be determined by the address from which tangible personal property was shipped, from which the digital good or the computer software delivered electronically was first available for transmission by the seller, or from which the service was provided disregarding for these purposes any location that merely provided the digital transfer of the product sold.

2. The lease or rental of tangible personal property, other than property identified in subsection 3 or section 423.16, shall be sourced as follows:

a. For a lease or rental that requires recurring periodic payments, the first periodic payment is sourced the same as a retail sale in accordance with the provisions of subsection 1. Periodic payments made subsequent to the first payment are sourced to the primary property location for each period covered by the payment. The primary property location shall be as indicated by an address for the property provided by the lessee that is available to the lessor from its records maintained in the ordinary course of business, when use of this address does not constitute bad faith. The property location shall not be altered by intermittent use at different locations, such as use of business property that accompanies employees on business trips and service calls.

b. For a lease or rental that does not require recurring periodic payments, the payment is sourced the same as a retail sale in accordance with the provisions of subsection 1.

c. This subsection does not affect the imposition or computation of sales or use tax on leases or rentals based on a lump sum or accelerated basis, or on the acquisition of property for lease.

3. The retail sale, including lease or rental, of transportation equipment shall be sourced the same as a retail sale in accordance with the provisions of subsection 1, notwithstanding the exclusion of lease or rental in that subsection. “Transportation equipment” means any of the following:

a. Locomotives or railcars that are utilized for the carriage of persons or property in interstate commerce.

b. Trucks and truck-tractors with a gross vehicle weight rating of ten thousand one pounds or greater, trailers, semitrailers, or passenger buses that meet both of the following requirements:

   (1) Are registered through the international registration plan.

   (2) Are operated under authority of a carrier authorized and certificated by the United States department of transportation or another federal authority to engage in the carriage of persons or property in interstate commerce.

c. Aircraft that are operated by air carriers authorized and certificated by the United States department of transportation or another federal or a foreign authority to engage in the carriage of persons or property in interstate or foreign commerce.

d. Containers designed for use on and component parts attached or secured on the items set forth in paragraphs “a” through “c”.

The lease or rental of motor vehicles, trailers, semitrailers, or aircraft that do not qualify as transportation equipment, as defined in section 423.15, subsection 3, shall be sourced as follows:
1. For a lease or rental that requires recurring periodic payments, each periodic payment is sourced to the primary property location. The primary property location shall be as indicated by an address for the property provided by the lessee that is available to the lessor from its records maintained in the ordinary course of business, when use of this address does not constitute bad faith. This location shall not be altered by intermittent use at different locations.

1. Upon receipt of the MPU exemption form, the seller is relieved of all obligation to collect, pay, or remit the applicable tax and the purchaser shall be obligated to collect, pay, or remit the applicable tax on a direct pay basis.
2. A purchaser delivering the MPU exemption form may use any reasonable, but consistent and uniform, method of apportionment that is supported by the purchaser’s business records as they exist at the time of the consummation of the sale.
3. The MPU exemption form will remain in effect for all future sales by the seller to the purchaser except as to the subsequent sale’s specific apportionment that is governed by the principle of subsection 2 and the facts existing at the time of the sale until it is revoked in writing.
4. A holder of a direct pay tax permit under section 423.36 shall not be required to deliver an MPU exemption form to the seller. 423.19 Direct mail sourcing.
1. Notwithstanding section 423.15, a purchaser of direct mail that is not a holder of a direct pay tax permit pursuant to section 423.36 shall provide to the seller in conjunction with the purchase either a direct mail form or information to show the jurisdictions to which the direct mail is delivered to recipients.
   a. Upon receipt of the direct mail form, the seller is relieved of all obligations to collect, pay, or remit the applicable tax and the purchaser is obligated to pay or remit the applicable tax on a direct pay basis. A direct mail form shall remain in effect for all future sales of direct mail by the seller to the purchaser until it is revoked in writing.
   b. Upon receipt of information from the purchaser showing the jurisdictions to which the direct mail is delivered to recipients, the seller shall collect the tax according to the delivery informa-
tion provided by the purchaser. In the absence of bad faith, the seller is relieved of any further obligation to collect tax on any transaction where the seller has collected tax pursuant to the delivery information provided by the purchaser.

2. If the purchaser of direct mail does not have a direct pay tax permit and does not provide the seller with either a direct mail form or delivery information, as required by subsection 1, the seller shall collect the tax according to section 423.15, subsection 1, paragraph "e". Nothing in this subsection shall limit a purchaser’s obligation for sales or use tax to any state to which the direct mail is delivered.

3. If a purchaser of direct mail provides the seller with documentation of direct pay authority, the purchaser shall not be required to provide a direct mail form or delivery information to the seller.

423.20 Telecommunications service sourcing.

1. As used in this section:
   a. "Air-to-ground radiotelephone service" means a radio service, as that term is used in 47 C.F.R. § 22.99, in which common carriers are authorized to offer and provide radio telecommunications service for hire to subscribers in aircraft.
   b. "Call-by-call basis" means any method of charging for the telecommunications service where the price is measured by individual calls.
   c. "Communications channel" means a physical or virtual path of communications over which signals are transmitted between or among customer channel termination points.
   d. "Customer" means the person or entity that contracts with the seller of the telecommunications service. If the end user of the telecommunications service is not the contracting party, the end user of the telecommunications service is the customer of the telecommunications service, but this sentence only applies for the purpose of sourcing sales of the telecommunications service under this section. "Customer" does not include a reseller of a telecommunications service or for mobile telecommunications service of a serving carrier under an agreement to serve the customer outside the home service provider’s licensed service area.
   e. "Customer channel termination point" means the location where the customer either inputs or receives the communications.
   f. "End user" means the person who utilizes the telecommunications service. In the case of an entity, "end user" means the individual who utilizes the service on behalf of the entity.
   g. "Home service provider" means the same as that term is defined in the federal Mobile Telecommunications Sourcing Act, Pub. L. No. 106-252, 4 U.S.C. § 124(5).
   i. "Place of primary use" means the street address representative of where the customer’s use of the telecommunications service primarily occurs, which must be the residential street address or the primary business street address of the customer. In the case of mobile telecommunications service, "place of primary use" must be within the licensed service area of the home service provider.
   j. "Postpaid calling service" means the telecommunications service obtained by making a payment on a call-by-call basis either through the use of a credit card or payment mechanism such as a bank card, travel card, credit card, or debit card, or by charge made to a telephone number which is not associated with the origination or termination of the telecommunications service. A "postpaid calling service" includes a telecommunications service that would be a prepaid calling service except it is not exclusively a telecommunications service.
   k. "Prepaid calling service" means the right to access exclusively telecommunications services, which must be paid for in advance and which enables the origination of calls using an access number or authorization code, whether manually or electronically dialed, and that is sold in predetermined units or dollars of which the amount declines with use in a known amount.
   l. "Private communication service" means a telecommunications service that entitles the customer to exclusive or priority use of a communications channel or group of channels between or among termination points, regardless of the manner in which such channel or channels are connected, and includes switching capacity, extension lines, stations, and any other associated services that are provided in connection with the use of such channel or channels.
   m. "Service address" means one of the following:
      (1) The location of the telecommunications equipment to which a customer’s call is charged and from which the call originates or terminates, regardless of where the call is billed or paid.
      (2) If the location in subparagraph (1) is not known, "service address" means the origination point of the signal of the telecommunications service first identified by either the seller’s telecommunications system or in information received by the seller from its service provider, where the system used to transport such signals is not that of the seller.
      (3) If the locations in subparagraphs (1) and (2) are not known, the "service address" means the location of the customer’s place of primary use.
   2. Sales of telecommunications services shall be sourced in the following manner:
a. Except for the defined telecommunications services in paragraph “c”, the sale of telecommunications services sold on a call-by-call basis shall be sourced to one of the following:

(1) Each level of taxing jurisdiction where the call originates and terminates in that jurisdiction.

(2) Each level of taxing jurisdiction where the call either originates or terminates and in which the service address is also located.

b. Except for the defined telecommunications services in paragraph “c”, the sale of telecommunications services sold on a basis other than a call-by-call basis is sourced to the customer’s place of primary use.

c. Sale of the following telecommunications services shall be sourced to each level of taxing jurisdiction as follows:

(1) A sale of mobile telecommunications services other than air-to-ground radiotelephone service or prepaid calling service is sourced to the customer’s place of primary use as required by the federal Mobile Telecommunications Sourcing Act.

(2) A sale of postpaid calling service is sourced to the origination point of the telecommunications signal as first identified by either of the following:

(a) The seller’s telecommunications system.

(b) Information received by the seller from its service provider, where the system used to transport such signals is not that of the seller.

(3) A sale of prepaid calling service is sourced in the case of a sale of mobile telecommunications services that is a prepaid telecommunications service, the rule provided in section 423.15, subsection 1, paragraph “e”, shall include as an option the location associated with the mobile telephone number.

(4) A sale of a private telecommunications service is sourced as follows:

(a) Service for a separate charge related to a customer channel termination point is sourced to each level of jurisdiction in which such customer channel termination point is located.

(b) Service where all customer termination points are located entirely within one jurisdiction or level of jurisdiction is sourced in such jurisdiction in which the customer channel termination points are located.

(c) Service for segments of a channel between two customer channel termination points located in different jurisdictions and which segments of a channel are separately charged is sourced fifty percent in each level of jurisdiction in which the customer channel termination points are located.

(d) Service for segments of a channel located in more than one jurisdiction or levels of jurisdiction and which segments are not separately billed is sourced in each jurisdiction based on the percentage determined by dividing the number of customer channel termination points in such jurisdiction by the total number of customer channel termination points.

b. Except for the defined telecommunications services in paragraph “c”, the sale of telecommunications services sold on a call-by-call basis shall be sourced to the customer’s place of primary use as required by the federal Mobile Telecommunications Sourcing Act.

(1) Each level of taxing jurisdiction where the call originates and terminates in that jurisdiction.

(2) Each level of taxing jurisdiction where the call either originates or terminates and in which the service address is also located.

b. Except for the defined telecommunications services in paragraph “c”, the sale of telecommunications services sold on a basis other than a call-by-call basis is sourced to the customer’s place of primary use.

c. Sale of the following telecommunications services shall be sourced to each level of taxing jurisdiction as follows:

(1) A sale of mobile telecommunications services other than air-to-ground radiotelephone service or prepaid calling service is sourced to the customer’s place of primary use as required by the federal Mobile Telecommunications Sourcing Act.

(2) A sale of postpaid calling service is sourced to the origination point of the telecommunications signal as first identified by either of the following:

(a) The seller’s telecommunications system.

(b) Information received by the seller from its service provider, where the system used to transport such signals is not that of the seller.

(3) A sale of prepaid calling service is sourced in the case of a sale of mobile telecommunications services that is a prepaid telecommunications service, the rule provided in section 423.15, subsection 1, paragraph “e”, shall include as an option the location associated with the mobile telephone number.

(4) A sale of a private telecommunications service is sourced as follows:

(a) Service for a separate charge related to a customer channel termination point is sourced to each level of jurisdiction in which such customer channel termination point is located.

(b) Service where all customer termination points are located entirely within one jurisdiction or level of jurisdiction is sourced in such jurisdiction in which the customer channel termination points are located.

(c) Service for segments of a channel between two customer channel termination points located in different jurisdictions and which segments of a channel are separately charged is sourced fifty percent in each level of jurisdiction in which the customer channel termination points are located.

(d) Service for segments of a channel located in more than one jurisdiction or levels of jurisdiction and which segments are not separately billed is sourced in each jurisdiction based on the percentage determined by dividing the number of customer channel termination points in such jurisdiction by the total number of customer channel termina-

423.21 Bad debt deductions.

1. For the purposes of this section, “bad debt” means an amount properly calculated pursuant to section 166 of the Internal Revenue Code then adjusted to exclude financing charges or interest, sales or use taxes charged on the purchase price, uncollectible amounts on property that remain in the possession of the seller until the full purchase price is paid, expenses incurred in attempting to collect any debt, and repossessed property.

2. In computing the amount of tax due, a seller may deduct bad debts from the total amount upon which the tax is calculated for any return. Any deduction taken or refund paid which is attributed to bad debts shall not include interest.

3. A seller may deduct bad debts on the return for the period during which the bad debt is written off as uncollectible in the seller’s books and records and is eligible to be deducted for federal income tax purposes. For purposes of this subsection, a seller who is not required to file federal income tax returns may deduct a bad debt on a return filed for the period in which the bad debt is written off as uncollectible in the seller’s books and records and would be eligible for a bad debt deduction for federal income tax purposes if the seller were required to file a federal income tax return.

4. If a deduction is taken for a bad debt and the seller subsequently collects the debt in whole or in part, the tax on the amount so collected must be paid and reported on the return filed for the period in which the collection is made.

5. A seller may obtain a refund of tax on any amount of bad debt that exceeds the amount of taxable sales within the period allowed for refund claims by section 423.47. However, the period allowed for refund claims shall be measured from the due date of the return on which the bad debt could first be claimed.

6. For the purposes of computing a bad debt deduction or reporting a payment received on a previously claimed bad debt, any payments made on a debt or account shall be applied first to the price of the property or service and tax thereon, proportionally, and secondly to interest, service charges, and any other charges.

unless pursuant to chapter 321F for a period of
twelve months or more shall be paid by the owner
of the vehicle to the county treasurer or state de-
partment of transportation from whom the regis-
tration receipt or certificate of title is obtained. A
registration receipt for a vehicle subject to regis-
tration or issuance of a certificate of title shall not
be issued until the tax is paid in the initial

not require titling or registration of the vehicle
shall be remitted to the department. Tax and the
reporting of tax due to the department shall be re-

tion 1.
2. The amount subject to tax shall be com-
puted on each separate lease transaction by tak-

b. Registration fees.
c. Vehicle lease tax pursuant to this section.
d. Federal excise taxes attributable to the sale

lease enter into an agreement providing that the
tax imposed under this statute is to be paid by the
lessee or included in the monthly lease payments
to be paid by the lessee, the total cost of the tax
shall not be included in the computation of lease
price for the purpose of taxation under this sec-
tion. The county treasurer, the state department
of transportation, or the department of revenue
shall require every applicant for a registration
receipt for a vehicle subject to tax under this section to supply information as the county treasurer or

transaction, the lease price, and other information
relative to the lease of the vehicle.
3. On or before the tenth day of each month,

property sold, to the retailer's knowledge, for use within this state, in the same manner and subject to the same requirements as a retailer maintaining a place of business within this state. The authority and permit may be canceled when, at any time, the director considers the security inadequate, or that tax can more effectively be collected from the person using property in this state.

The discretionary power granted in this section is extended to apply in the case of foreign retailers furnishing services enumerated in section 423.2.

423.31 Filing of sales tax returns and payment of sales tax.

1. Each person subject to this section and section 423.36 and in accordance with the provisions of this section and section 423.36 shall, on or before the last day of the month following the close of each calendar quarter during which such person is or has become or ceased being subject to the provisions of this section and section 423.36, make, sign, and file a return for the calendar quarter in the form as may be required. Returns shall show information relating to sales prices including goods, wares, and services converted to the use of such person, the amounts of sales prices excluded and exempt from the tax, the amounts of sales prices subject to tax, a calculation of tax due, and any other information for the period covered by the return as may be required. Returns shall be signed by the retailer or the retailer's duly authorized agent, and shall be duly certified by the retailer to be correct in accordance with forms and rules prescribed by the director.

2. Persons required to file, or committed to file by reason of voluntary action or by order of the department, deposits of taxes due under this subchapter shall be entitled to take credit against the total quarterly amount of tax due such amount as shall have been deposited by such persons during that calendar quarter. The balance remaining due after such credit for deposits shall be entered on the return. However, such person may be granted an extension of time not exceeding thirty days for filing the quarterly return, upon a proper showing of necessity. If an extension is granted, such person shall have paid by the twentieth day of the month following the close of such quarter ninety percent of the estimated tax due.

3. The sales tax forms prescribed by the director shall be referred to as "retailers tax deposit". Deposit forms shall be signed by the retailer or the retailer's duly authorized agent, and shall be duly certified by the retailer or agent to be correct. The director may authorize incorporated banks and trust companies or other depositories authorized by law which are depositories or financial agents of the United States, or of this state, to receive any

sales tax imposed under this chapter, in the manner, at the times, and under the conditions the director prescribes. The director shall prescribe the manner, times, and conditions under which the receipt of the tax by those depositories is to be treated as payment of the tax to the department.

4. Every retailer at the time of making any return required by this section shall compute and pay to the department the tax due for the preceding period. The tax on sales prices from the sale or rental of tangible personal property under a consumer rental purchase agreement as defined in section 537.3604, subsection 8, is payable in the tax period of receipt.

5. Upon making application and receiving approval from the director, a parent corporation and its affiliated corporations that make retail sales of tangible personal property or taxable enumerated services may make deposits and file a consolidated sales tax return for the affiliated group, pursuant to rules adopted by the director. A parent corporation and each affiliate corporation that files a consolidated return are jointly and severally liable for all tax, penalty, and interest found due for the tax period for which a consolidated return is filed or required to be filed.

A business required to file a consolidated sales tax return shall file a form entitled "schedule of consolidated business locations" with its quarterly sales tax return that shows the taxpayer's consolidated permit number, the permit number for each Iowa business location, the state sales tax amount by business location, and the amount of state sales tax due on goods consumed that are not assigned to a specific business location. Consolidated quarterly sales tax returns that are not accompanied by the schedule of consolidated business locations form are considered incomplete and are subject to penalty under section 421.27.

6. If necessary or advisable in order to insure the payment of the tax, the director may require returns and payment of the tax to be made for other than quarterly periods, the provisions of this section or other provision to the contrary notwithstanding.

2003 Acts, 1st Ex, ch 2, §124, 205

423.32 Filing of use tax returns and payment of use tax.

1. A retailer maintaining a place of business in this state who is required to collect or a user who is required to pay the use tax or a foreign retailer authorized, pursuant to section 423.30, to collect the use tax, shall remit to the department the amount of tax on or before the last day of the month following each calendar quarterly period. However, a retailer who collects or owes more than fifteen hundred dollars in use taxes in a month shall deposit with the department or in a depository authorized by law and designated by the direc-
tor, the amount collected or owed, with a deposit form for the month as prescribed by the director. 

a. The deposit form is due on or before the twentieth day of the month following the month of collection, except a deposit is not required for the third month of the calendar quarter, and the total quarterly amount, less the amounts deposited for the first two months of the quarter, is due with the quarterly report on the last day of the month following the month of collection. At that time, the retailer shall file with the department a return for the preceding quarterly period in the form prescribed by the director showing the purchase price of the tangible personal property sold by the retailer during the preceding quarterly period, the use of which is subject to the use tax imposed by this chapter, and other information the director deems necessary for the proper administration of the use tax.

b. The return shall be accompanied by a remittance of the use tax for the period covered by the return. If necessary in order to ensure payment to the state of the tax, the director may in any or all cases require returns and payments to be made for other than quarterly periods. The director, upon request and a proper showing of necessity, may grant an extension of time not to exceed thirty days for making any return and payment. Returns shall be signed, in accordance with forms and rules prescribed by the director, by the retailer or the retailer’s authorized agent, and shall be certified by the retailer or agent to be correct.

2. If it is reasonably expected, as determined by rules prescribed by the director, that a retailer’s annual sales or use tax liability will not exceed one hundred twenty dollars for a calendar year, the retailer may request and the director may grant permission by rules prescribed by the director showing the purchase price of the tangible personal property sold by the retailer during the preceding quarterly period, the use of which is subject to the use tax imposed by this chapter, and other information the director deems necessary for the proper administration of the use tax.

3. Event sponsor’s liability for sales tax. A person sponsoring a flea market or a craft, antique, coin, or stamp show or similar event shall obtain from every retailer selling tangible personal property or taxable services at the event proof that the retailer possesses a valid sales tax permit or secure from the retailer a statement, taken in good faith, that property or services offered for sale are not subject to sales tax. Failure to do so renders a sponsor of the event liable for payment of any sales tax, interest, and penalty due and unpaid on account of the operation of the business by the immediate former retailer, except when the purchase is made in good faith as provided in section 421.28. However, a person foreclosing on a valid security interest or retaking possession of premises under a valid lease is not an “immediate successor” for purposes of this section. The department may waive the liability of the immediate successor under this subsection if the immediate successor exercised good faith in establishing the amount of the previous liability.

4. Liability of persons other than retailers for payment of sales or use tax.

1. Liability of purchaser for sales tax. If a purchaser fails to pay sales tax to the retailer required to collect the tax, then in addition to all of the rights, obligations, and remedies provided, the tax is payable by the purchaser directly to the department, and sections 423.31, 423.32, 423.37, 423.38, 423.39, 423.40, 423.41, and 423.42 apply to the purchaser. For failure to pay, the retailer and purchaser are liable, unless the circumstances described in section 421.60, subsection 2, paragraph “m,” or section 423.45, subsection 4, paragraph “b” or “e,” or subsection 5, paragraph “c” or “e,” are applicable.

2. Immediate successor liability for sales or use tax. If a retailer sells the retailer’s business or stock of goods or quits the business, the retailer shall prepare a final return and pay all sales or use tax due within the time required by law. The immediate successor to the retailer, if any, shall withhold a sufficient portion of the purchase price, in money or money’s worth, to pay the amount of delinquent tax, interest, or penalty due and unpaid. If the immediate successor of the business or stock of goods intentionally fails to withhold the amount due from the purchase price as provided in this subsection, the immediate successor is personally liable for the payment of delinquent taxes, interest, and penalty accrued and unpaid on account of the operation of the business by the immediate former retailer, except when the purchase is made in good faith as provided in section 421.28. However, a person foreclosing on a valid security interest or retaking possession of premises under a valid lease is not an “immediate successor” for purposes of this section. The department may waive the liability of the immediate successor under this subsection if the immediate successor exercised good faith in establishing the amount of the previous liability.

3. Liability of user.

§423.35, POSTING OF BOND TO SECURE PAYMENT.

The director may, when necessary and advisable in order to secure the collection of the sales or use tax, authorize any person subject to either tax, and any retailer required or authorized to collect those taxes pursuant to the provisions of section 423.14, to file with the department a bond, issued by a surety company authorized to transact business in this state and approved by the insurance commissioner as to solvency and responsibility, in an amount as the director may fix, to secure the payment of any tax, interest, or penalties due or which may become due from such person. In lieu of a bond, securities approved by the director, in an amount which the director may prescribe, may be deposited with the department, which securities shall be kept in the custody of the department and may be sold by the director at public or private sale, without notice to the depositor, if it becomes necessary to do so in order to recover any tax, interest, or penalties due. Upon the sale, the surplus, if any, above the amounts due under this chapter shall be returned to the person who deposited the securities.

§423.36, PERMITS REQUIRED TO COLLECT SALES OR USE TAX — APPLICATIONS — REVOCATION.

1. A person shall not engage in or transact business as a retailer making taxable sales of tangible personal property or furnishing services within this state or as a retailer making taxable sales of tangible personal property or furnishing services for use within this state, unless a permit has been issued to the retailer under this section, except as provided in subsection 6. Every person desiring to engage in or transact business as a retailer shall file with the department an application for a permit to collect sales or use tax. Every application for a sales or use tax permit shall be made upon a form prescribed by the director and shall set forth any information the director may require. The application shall be signed by an owner of the business if a natural person; in the case of a retailer which is an association or partnership, by a member or partner; and in the case of a retailer which is a corporation, by an executive officer or some person specifically authorized by the corporation to sign the application, to which shall be attached the written evidence of the person's authority.

2. To collect sales or use tax, the applicant must have a permit for each place of business in the state of Iowa. The department may deny a permit to an applicant who is substantially delinquent in paying a tax due, or the interest or penalty on the tax, administered by the department at the time of application. If the applicant is a partnership, a permit may be denied if a partner is substantially delinquent in paying any delinquent tax, penalty, or interest. If the applicant is a corporation, a permit may be denied if any officer having a substantial legal or equitable interest in the ownership of the corporation owes any delinquent tax, penalty, or interest.

3. The department shall grant and issue to each applicant a permit for each place of business in this state where sales or use tax is collected. A permit is not assignable and is valid only for the person in whose name it is issued and for the transaction of business at the place designated or at a place of relocation within the state if the ownership remains the same.

If an applicant is making sales outside Iowa for use in this state or furnishing services outside Iowa, the product or result of which will be used in this state, that applicant shall be issued one use tax permit by the department applicable to these out-of-state sales or services.

4. Permits issued under this section are valid and effective until revoked by the department.

5. If the holder of a permit fails to comply with any of the provisions of this subchapter or of subchapter II or III or any order or rule of the department adopted under those subchapters or is substantially delinquent in the payment of a tax administered by the department or the interest or penalty on the tax, or if the person is a corporation and if any officer having a substantial legal or equitable interest in the ownership of the corporation owes any delinquent tax of the permit-holding corporation, or interest or penalty on the tax, administered by the department, the director may revoke the permit. The director shall send notice by mail to a permit holder informing that person of the director's intent to revoke the permit and of the permit holder's right to a hearing on the matter. If the permit holder petitions the director for a hearing on the proposed revocation, after giving ten days' notice of the time and place of the hearing in accordance with section 17A.18, subsection 3, the matter may be heard and a decision rendered. The director may restore permits after revocation. The director shall adopt rules setting forth the pe-
period of time a retailer must wait before a permit may be restored or a new permit may be issued. The waiting period shall not exceed ninety days from the date of the revocation of the permit.

6. Sellers who are not regularly engaged in selling at retail and do not have a permanent place of business, but who are temporarily engaged in selling from trucks, portable roadside stands, concessionaires at state, county, district, or local fairs, carnivals, or the like, shall report and remit the sales tax on a temporary basis, under rules the director shall provide for the efficient collection of the sales tax. This subsection applies to sellers who are temporarily engaged in furnishing services.

Persons engaged in selling tangible personal property or furnishing services shall not be required to obtain or retain a sales tax permit for a place of business at which taxable sales of tangible personal property or taxable performance of services will not occur.

7. The provisions of subsection 1, dealing with the lawful right of a retailer to transact business, as applicable, apply to persons having receipts from furnishing services enumerated in section 423.2, except that a person holding a permit pursuant to subsection 1 shall not be required to obtain any separate sales tax permit for the purpose of engaging in business involving the services.

8. a. Except as provided in paragraph “b”, purchasers, users, and consumers of tangible personal property or enumerated services taxed pursuant to subchapter II or III of this chapter or chapters 423B and 423E may be authorized, pursuant to rules adopted by the director, to remit tax owed directly to the department instead of the tax being collected and paid by the seller. To qualify for a direct pay tax permit, the purchaser, user, or consumer must accrue a tax liability of more than four thousand dollars in tax under subchapters II and III in a semimonthly period and make deposits and file returns pursuant to section 423.31. This authority shall not be granted or exercised except upon application to the director and then only after issuance by the director of a direct pay tax permit.

b. The granting of a direct pay tax permit is not authorized for any of the following:

   (1) Taxes imposed on the sales, furnishing, or service of gas, electricity, water, heat, pay television service, and communication service.

   (2) Taxes imposed under sections 423.26 and 423.27 and chapter 423C.

423.37 Failure to file sales or use tax returns — incorrect returns.

1. As soon as practicable after a return is filed and in any event within three years after the return is filed, the department shall examine it, assess and determine the tax due if the return is found to be incorrect, and give notice to the person liable for the tax of the assessment and determination as provided in subsection 2. The period for the examination and determination of the correct amount of tax is unlimited in the case of a false or fraudulent return made with the intent to evade tax or in the case of a failure to file a return.

2. If a return required by this subchapter is not filed, or if a return when filed is incorrect or insufficient and the maker fails to file a corrected or sufficient return within twenty days after the same is required by notice from the department, the department shall determine the amount of tax due from information as the department may be able to obtain and, if necessary, may estimate the tax on the basis of external indices, such as number of employees of the person concerned, rentals paid by the person, stock on hand, or other factors. The department shall give notice of the determination to the person liable for the tax. The determination shall fix the tax unless the person against whom it is assessed shall, within sixty days after the giving of notice of the determination, apply to the director for a hearing or unless the taxpayer contests the determination by paying the tax, interest, and penalty and timely filing a claim for refund. At the hearing, evidence may be offered to support the determination or to prove that it is incorrect. After the hearing the director shall give notice of the decision to the person liable for the tax.

3. The three-year period of limitation provided in subsection 1 may be extended by a taxpayer by signing a waiver agreement form to be provided by the department. The agreement shall stipulate the period of extension and the tax period to which the extension applies. The agreement shall also provide that a claim for refund may be filed by the taxpayer at any time during the period of extension.

The requirements for recording shall, as applied to the taxes imposed by subchapters II and III, apply only to the liens upon real property. When requested to do so by any person from whom a taxpayer is seeking credit, or with whom the taxpayer is negotiating the sale of any personal property, or by any other person having a legitimate interest in such information, the director shall, upon being satisfied that such a situation exists, inform that person as to the amount of unpaid taxes due by such taxpayer under the provisions of subchapters II and III. 423.43 Deposit of revenue — appropriations.
   Except as otherwise provided in section 312.2, subsection 14, all revenues derived from the use tax on motor vehicles, trailers, and motor vehicle accessories and equipment as collected pursuant to sections 423.26 and 423.27 shall be deposited and credited to the road use tax fund and shall be used exclusively for the construction, maintenance, and supervision of public highways.
   1. Notwithstanding any provision of this section which provides that all revenues derived from the use tax on motor vehicles, trailers, and motor vehicle accessories and equipment as collected pursuant to sections 423.26 and 423.27 shall be deposited and credited to the road use tax fund, eighty percent of the revenues shall be deposited and credited as follows:
      a. Twenty-five percent of all such revenue, up to a maximum of four million two hundred fifty thousand dollars per quarter, shall be deposited into and credited to the Iowa comprehensive petroleum underground storage tank fund created in section 455G.3, and the moneys so deposited are a continuing appropriation for expenditure under chapter 455G, and moneys so appropriated shall not be used for other purposes.
      b. Any such revenues remaining shall be credited to the road use tax fund.
   2. Notwithstanding any other provision of this section that provides that all revenue derived from the use tax on motor vehicles, trailers, and motor vehicle accessories and equipment as collected pursuant to sections 423.26 shall be deposited and credited to the road use tax fund, twenty percent of the revenues shall be credited and deposited as follows:
      one-half to the road use tax fund and one-half to the primary road fund to be used for the commercial and industrial highway network.

Expenditures for those portions of bridges within adjacent states may be included when they are made pursuant to an agreement entered into under section 313.63, 313A.34, or 314.10.

423.45 Refunds — exemption certificates.
   1. If an amount of tax represented by a retailer to a consumer or user as constituting tax due is computed upon a sales price that is not taxable or the amount represented is in excess of the actual taxable amount and the amount represented is actually paid by the consumer or user to the retailer, the excess amount of tax paid shall be returned to the consumer or user upon notification to the retailer by the department that an excess payment exists.
   2. If an amount of tax represented by a retailer to a consumer or user as constituting tax due is computed upon a sales price that is not taxable or the amount represented is in excess of the actual taxable amount and the amount represented is actually paid by the consumer or user to the retailer, the excess amount of tax paid shall be returned to the consumer or user upon proper notification to
the retailer by the consumer or user that an excess payment exists, “Proper” notification is written notification which allows a retailer at least sixty days to respond and which contains enough information to allow a retailer to determine the validity of a consumer’s or user’s claim that an excess amount of tax has been paid. No cause of action shall accrue against a retailer for excess tax paid until sixty days after proper notice has been given the retailer by the consumer or user.

3. In the circumstances described in subsections 1 and 2, a retailer has the option to either return any excess amount of tax paid to a consumer or user, or to remit the amount which a consumer or user has paid to the retailer to the department.

4. a. The department shall issue or the seller may separately provide exemption certificates in the form prescribed by the director, including certificates not made of paper, which conform to the requirements of paragraph “c”, to assist retailers in properly accounting for nontaxable sales of tangible personal property or services to purchasers for a nontaxable purpose. The department shall also allow the use of exemption certificates for those circumstances in which a sale is taxable but the seller is not obligated to collect tax from the buyer.

b. The sales tax liability for all sales of tangible personal property and all sales of services is upon the seller and the purchaser unless the seller takes in good faith from the purchaser a valid exemption certificate stating under penalty of perjury that the purchase is for a nontaxable purpose and is not a retail sale as defined in section 423.1, or the seller is not obligated to collect tax due, or unless the seller takes a fuel exemption certificate pursuant to subsection 5. If the tangible personal property or services are purchased tax free pursuant to a valid exemption certificate which is taken in good faith by the seller, and the tangible personal property or services are used or disposed of by the purchaser in a nonexempt manner, the purchaser is solely liable for the taxes and shall remit the taxes directly to the department in accordance with this subsection.

c. The seller may accept a completed fuel exemption certificate, as prepared by the purchaser, for three years unless the purchaser files a new completed exemption certificate. If the fuel is purchased tax free pursuant to a fuel exemption certificate which is taken by the seller, and the fuel is used or disposed of by the purchaser in a nonexempt manner, the purchaser is solely liable for the taxes, and shall remit the taxes directly to the department and sections 423.31, 423.32, 423.37, 423.38, 423.39, 423.40, 423.41, and 423.42 shall apply to the purchaser.

d. The purchaser may apply to the department for its review of the fuel exemption certificate. In this event, the department shall review the fuel exemption certificate within twelve months from the date of application and determine the correct amount of the exemption. If the amount determined by the department is different than the amount that the purchaser claims is exempt, the department shall promptly notify the purchaser of the determination. Failure of the department to make a determination within twelve months from
the date of application shall constitute a determination that the fuel exemption certificate is correct as submitted. A determination of exemption by the department is final unless the purchaser appeals to the director for a revision of the determination within sixty days after the date of the notice of determination. The director shall grant a hearing, and upon the hearing, the director shall determine the correct exemption and notify the purchaser of the decision by mail. The decision of the director is final unless the purchaser seeks judicial review of the director’s decision under section 423.38 within sixty days after the date of the notice of the director’s decision. Unless there is a substantial change, the department shall not impose penalties pursuant to section 423.40 both retroactively to purchases made after the date of application and prospectively until the department gives notice to the purchaser that a tax or additional tax is due, for failure to remit any tax due which is in excess of a determination made under this section. A determination made by the department pursuant to this subsection does not constitute an audit for purposes of section 423.37.

e. If the circumstances change and the fuel is used or disposed of by the purchaser in a nonexempt manner, the purchaser is solely liable for the taxes and shall remit the taxes directly to the department in accordance with paragraph “c”.

f. The purchaser shall attach documentation to the fuel exemption certificate which is reasonably necessary to support the exemption for fuel consumed in processing. If the purchaser files a new exemption certificate with the seller, documentation shall not be required if the purchaser previously furnished the seller with this documentation and substantial change has not occurred since that documentation was furnished or if fuel consumed in processing is separately metered and billed by the seller.

6. Nothing in this section authorizes any cause of action by any person to recover sales or use taxes directly from the state or extends any person’s time to seek a refund of sales or use taxes which have been collected and remitted to the state.

423.47 Refunds and credits.
If it shall appear that, as a result of mistake, an amount of tax, penalty, or interest has been paid which was not due under the provisions of this chapter, such amount shall be credited against any tax due, or to become due, on the books of the department from the person who made the erroneous payment, or such amount shall be refunded to such person by the department. A claim for refund or credit that has not been filed with the department within three years after the tax payment for which a refund or credit is claimed became due, or one year after such tax payment was made, whichever time is the later, shall not be allowed by the director.

SUBCHAPTER VI
SALES AND USE TAX ACT
ADMINISTRATION — RETAILERS
REGISTERED VOLUNTARILY
UNDER AGREEMENT

423.48 Responsibilities and rights of sellers registered under the agreement.
1. By registering under the agreement, the seller agrees to collect and remit sales and use taxes for all its taxable Iowa sales. Iowa’s withdrawal from the agreement or revocation of its membership in the agreement shall not relieve a seller from its responsibility to remit taxes previously collected on behalf of this state.
2. The following provisions apply to any seller who registers under the agreement:
   a. The seller may register on-line.
   b. Registration under the agreement and the collection of Iowa sales and use taxes shall not be used as factors in determining whether the seller has nexus with Iowa for any tax.
   c. If registered under the agreement with any other member state, the seller is considered to be registered in Iowa.
   d. The seller is not required to pay registration fees or other charges.
   e. A written signature from the seller is not required.
   f. The seller may register by way of an agent. The agent’s appointment shall be in writing and submitted to the department if requested by the department.
   g. The seller may cancel its registration at any time under procedures adopted by the governing board established pursuant to the agreement.
The following provisions shall apply when a purchaser claims an exemption:

a. The seller shall obtain identifying information of the purchaser and the reason for claiming a tax exemption at the time of the purchase as determined by the member states acting jointly.

b. A purchaser is not required to provide a signature to claim an exemption from tax unless a paper certificate is used.
c. The seller shall use the standard form for claiming an exemption electronically as adopted jointly by the member states.

d. The seller shall obtain the same information for proof of a claimed exemption regardless of the medium in which the transaction occurred.

e. The department may authorize a system wherein the purchaser exempt from the payment of the tax is issued an identification number which shall be presented to the seller at the time of the sale.

f. The seller shall maintain proper records of exempt transactions and provide them to the department when requested.

g. The department shall administer entity-based and use-based exemptions when practicable through a direct pay tax permit, an exemption certificate, or another means that does not burden sellers. For the purposes of this paragraph:

(1) An "entity-based exemption" is an exemption based on who purchases the product or who sells the product.

(2) A "use-based exemption" is an exemption based on the purchaser's use of the product.

2. Sellers that follow the requirements of this section are relieved from any tax otherwise applicable if it is determined that the purchaser improperly claimed an exemption and that the purchaser is liable for the nonpayment of tax. This relief from liability does not apply to a seller who fraudulently fails to collect the tax or solicits purchasers to participate in the unlawful claim of an exemption.

1. Subject to the limitations in subsections 2 through 6, the following provisions apply:

a. Amnesty is provided for uncollected or unpaid sales or use tax to a seller who registers to pay or to collect and remit applicable sales or use tax on sales made to purchasers in this state in accordance with the terms of the agreement, provided the seller was not so registered in this state in the twelve-month period preceding the commencement of Iowa's participation in the agreement.

b. Amnesty precludes assessment of the seller for uncollected or unpaid sales or use tax together with penalty or interest for sales made during the period the seller was not registered in this state, provided registration occurs within twelve months of the commencement of Iowa's participation in the agreement.

c. Amnesty shall be provided to any seller lawfully registered under the agreement by any other member state prior to the date of the commencement of Iowa's participation in the agreement.

2. Amnesty is not available to a seller with respect to any matter or matters for which the seller received notice of the commencement of an audit and which audit is not yet finally resolved, including any related administrative and judicial processes.

3. Amnesty is not available for sales or use taxes already paid or remitted or to taxes collected on sales made to purchasers in this state in accordance with the terms of the agreement.

4. Amnesty is fully effective absent the seller's fraud or intentional misrepresentation of a material fact as long as the seller continues registration and continues payment or collection and remittance of applicable sales or use taxes for a period of at least thirty-six months. The statute of limitations applicable to asserting a tax liability is tolled during this thirty-six month period.

5. Amnesty is applicable only to sales or use taxes due from a seller in its capacity as a seller and not to sales or use taxes due from a seller in its capacity as a buyer.

6. The director may allow amnesty on terms and conditions more favorable to a seller than the terms required by this section.

HOTEL AND MOTEL TAX

Chapter transferred from ch 422A in Code 2005 pursuant to

423A.1 Hotel and motel tax.

A city or county may impose by ordinance of the
city council or by resolution of the board of supervisors a hotel and motel tax, at a rate not to exceed
seven percent, which shall be imposed in increments of one or more full percentage points upon
the sales price from the renting of sleeping rooms, apartments, or sleeping quarters in a hotel, motel,
inn, public lodging house, rooming house, manufactured or mobile home which is tangible person-

al property, or tourist court, or in any place where
sleeping accommodations are furnished to tran-
sient guests for rent, whether with or without meals; except the sales price from the renting of
sleeping rooms in dormitories and in memorial
unions at all universities and colleges located in
the state of Iowa and the guests of a religious insti-
tution if the property is exempt under section
427.1, subsection 8, and the purpose of renting is
for such sleeping rooms, apartments, or sleeping
quarters, or their use. However, the tax does not
apply to the sales price from the renting of a sleep-
ing room, apartment, or sleeping quarters while
rented by the same person for a period of more than thirty-one consecutive days.

Within ten days of the election at which a major-
ity of those voting on the question favors the im-
position, repeal, or change in the rate of the hotel
and motel tax, the county auditor shall give writ-
en notice by sending a copy of the abstract of votes
from the favorable election to the director of reve-

 nue.

A local hotel and motel tax shall be imposed on
January 1, April 1, July 1, or October 1, following
the notification of the director of revenue. Once
imposed, the tax shall remain in effect at the rate
imposed for a minimum of one year. A local hotel
and motel tax shall terminate only on March 31,
June 30, September 30, or December 31. At least
sixty days prior to the tax being effective or prior
to a revision in the tax rate, or prior to the repeal
of the tax, a city or county shall provide notice by
mail of such action to the director of revenue.

A city or county shall impose a hotel and motel
tax or increase the tax rate only after an election
at which a majority of those voting on the question
favors imposition or increase. However, a hotel
and motel tax shall not be repealed or reduced in
rate if obligations are outstanding which are pay-
able as provided in section 423A.2, unless funds
sufficient to pay the principal, interest, and pre-
mium, if any, on the outstanding obligations at and
prior to maturity have been properly set aside and
pledged for that purpose. The election shall be
held at the time of the regular city election or the
county's general election or at the time of a special
election.

The director of revenue shall administer a local
hotel and motel tax as nearly as possible in con-
junction with the administration of the state sales
tax law. The director shall provide appropriate
forms, or provide on the regular state tax forms,
for reporting local hotel and motel tax liability. All
moneys received or refunded one hundred eighty
days after the date on which a city or county termi-
nates its local hotel and motel tax shall be depos-
ited in or withdrawn from the state general fund.

The director, in consultation with local officials,
shall collect and account for a local hotel and motel
tax and shall credit all revenues to a "local tran-
sient guest tax fund" established by section
423A.2.

No tax permit other than the state sales tax per-
mit required under section 423.36 may be required
by local authorities.

The tax levied shall be in addition to any state
sales tax imposed under section 423.2. Section
422.25, subsection 4, sections 422.30, 422.67, and
422.68, section 422.69, subsection 1, sections

§423A.1, HOTEL AND MOTEL TAX

§423A.2 Local transient guest tax fund.

1. There is created in the department of revenue a local transient guest tax fund which shall consist of all moneys credited to such fund under section 423A.1.

2. All moneys in the local transient guest tax fund shall be remitted at least quarterly by the department of revenue, pursuant to rules of the director of revenue, to each city in the amount collected from businesses in that city and to each county in the amount collected from businesses in the unincorporated areas of the county.

3. Moneys received by the city from this fund shall be credited to the general fund of the city, subject to the provisions of subsection 4.

4. The revenue derived from any hotel and motel tax authorized by this chapter shall be used as follows:

   a. Each county or city which levies the tax shall spend at least fifty percent of the revenues derived therefrom for the acquisition of sites for, or constructing, improving, enlarging, equipping, repairing, operating, or maintaining of recreation, convention, cultural, or entertainment facilities including but not limited to memorial buildings, halls and monuments, civic center convention buildings, auditoriums, coliseums, and parking areas or facilities located at those recreation, convention, cultural, or entertainment facilities; or for the promotion and encouragement of tourist and convention business in the city or county and surrounding areas.

   b. The remaining revenues may be spent by the city or county which levies the tax for any city or county operations authorized by law as a proper purpose for the expenditure within statutory limitations of city or county revenues derived from ad valorem taxes.

   c. Any city or county which levies and collects the hotel and motel tax authorized by this chapter may pledge irrevocably an amount of the revenues derived therefrom for each of the years the bonds remain outstanding to the payment of bonds which the city or county may issue for any or more of the purposes set forth in paragraph “a” of this subsection. Any revenue pledged to the payment of such bonds may be credited to the spending requirement of paragraph “a” of this subsection.

   d. The provisions of division III of chapter 384 relating to the issuance of corporate purpose bonds apply to the issuance by a city of bonds payable as provided in this section and the provisions of chapter 331, division IV, part 3, relating to the issuance of county purpose bonds apply to the issuance by a county of bonds payable as provided in this section. The provisions of chapter 76 apply to the bonds payable as provided in this section except that the mandatory levy to be assessed pursuant to section 76.2 shall be at a rate to generate an amount which together with the receipts from the pledged portion of the hotel and motel tax is sufficient to pay the interest and principal on the bonds. All amounts collected as a result of the levy assessed pursuant to section 76.2 and paid out in the first instance for bond principal and interest shall be repaid to the city or county which levied the tax from the first available hotel and motel tax collections received in excess of the requirement for the payment of the principal and interest of the bonds and when repaid shall be applied in reduction of property taxes.

   The amount of bonds which may be issued under section 76.3 shall be the amount which could be retired from the actual collections of the hotel and motel tax for the last four quarterly periods, as certified by the director of revenue. The amount of tax revenues pledged jointly by other cities or counties may be considered for the purpose of determining the amount of bonds which may be issued. If the hotel and motel tax has been in effect for less than four calendar quarters, the tax collected within the shorter period may be adjusted to project the collections for the full year for the purpose of determining the amount of the bonds which may be issued.

   e. A city or county, jointly with one or more other cities or counties as provided in chapter 28E, may pledge irrevocably any amount derived from the revenues of the hotel and motel tax to the support or payment of bonds issued for a project within the purposes set forth in paragraph “a” of this
subsection and located within one or more of the participatory cities or counties or may apply the proceeds of its bonds to the support of any such project. Revenue so pledged or applied shall be credited to the spending requirement of paragraph “a” of this subsection.

f. A city or county acting on behalf of an unincorporated area may, in lieu of calling an election, institute proceedings for the issuance of bonds under this section by causing a notice of the proposal to issue the bonds, including a statement of the amount and purpose of the bonds, together with the maximum rate of interest which the bonds are to bear, and the right to petition for an election, to be published at least once in a newspaper of general circulation within the city or unincorporated area at least ten days prior to the meeting at which it is proposed to take action for the issuance of the bonds.

If at any time before the date fixed for taking action for the issuance of the bonds, a petition signed by eligible electors residing in the city or the unincorporated area equal in number to at least three percent of the registered voters of the city or unincorporated area is filed, asking that the question of issuing the bonds be submitted to the registered voters of the city or unincorporated area, the council or board of supervisors acting on behalf of an unincorporated area shall either by resolution declare the proposal to issue the bonds to have been abandoned or shall direct the county commissioner of elections to call a special election upon the question of issuing the bonds.

The proposition of issuing bonds under this section is not approved unless the vote in favor of the proposition is equal to a majority of the vote cast.

If no petition is filed, or if a petition is filed and the proposition of issuing the bonds is approved at an election, the council or board of supervisors acting on behalf of an unincorporated area may proceed with the authorization and issuance of the bonds.

Bonds may be issued for the purpose of refunding outstanding and previously issued bonds under this subsection without otherwise complying with this paragraph.

423B.1 Authorization — election — imposition and repeal.
1. A county may impose by ordinance of the board of supervisors local option taxes authorized by this chapter, subject to this section and subject to the exception provided in subsection 2.

2. a. A city whose corporate boundaries include areas of two counties may impose by ordinance of its city council a local sales and services tax if all of the following apply:
(1) At least eighty-five percent of the residents of the city live in one county.
(2) The county in which at least eighty-five percent of the city residents reside has held an election on the question of the imposition of a local sales and services tax and a majority of those voting on the question in the city favored its imposition.
(3) The city has entered into an agreement on the distribution of the sales and services tax revenues collected from the area where the city tax is imposed with the county where such area is located.

b. The city council of a city authorized to impose a local sales and services tax pursuant to paragraph “a” shall only do so subject to all of the
following restrictions:

(1) The tax shall only be imposed in the area of the city located in the county where not more than fifteen percent of the city’s residents reside.

(2) The tax shall be at the same rate and become effective at the same time as the county tax imposed in the other area of the city.

(3) The tax once imposed shall continue to be imposed until the county-imposed tax is reduced or increased in rate or repealed, and then the city-imposed tax shall also be reduced or increased in rate or repealed in the same amount and be effective on the same date.

(4) The tax shall be imposed on the same basis as provided in section 423B.5 and notification requirements in section 423B.6 apply.

(5) The city shall assist the department of revenue to identify the businesses in the area which are to collect the city-imposed tax. The process shall be ongoing as long as the city tax is imposed.

c. The agreement on the distribution of the revenues collected from the city-imposed tax shall provide that fifty percent of such revenues shall be remitted to the county in which the part of the city where the city tax is imposed is located.

d. The latest certified federal census preceding the election held by the county on the question of imposition of the local sales and services tax shall be used in determining if the city qualifies under paragraph "a", subparagraph (1), to impose its own tax and in determining the area where the city tax may be imposed under paragraph "b", subparagraph (1).

c. A city is not authorized to impose a local sales and services tax under this subsection after July 1, 2000. A city that has imposed a local sales and services tax under this subsection on or before July 1, 2000, may continue to collect the tax until such time as the tax is repealed by the city and the fact that the area acquires more than fifteen percent of the city’s residents after the tax is imposed shall not affect the imposition or collection of the tax.

3. A local option tax shall be imposed only after an election at which a majority of those voting on the question favors imposition and shall then be imposed until repealed as provided in subsection 6, paragraph "a". If the tax is a local vehicle tax imposed by a county, it shall apply to all incorporated and unincorporated areas of the county. If the tax is a local sales and services tax imposed by a county, it shall only apply to those incorporated areas and the unincorporated area of that county in which a majority of those voting in the area on the tax favors its imposition. For purposes of the local sales and services tax, a city is not contiguous to another city if the only road access between the two cities is through another state.

4. a. A county board of supervisors shall direct within thirty days the county commissioner of elections to submit the question of imposition of a local vehicle tax or a local sales and services tax to the registered voters of the incorporated and unincorporated areas of the county upon receipt of a petition, requesting imposition of a local vehicle tax or a local sales and services tax, signed by eligible electors of the whole county equal in number to five percent of the persons in the whole county who voted at the last preceding state general election. In the case of a local vehicle tax, the petition requesting imposition shall specify the rate of tax and the classes, if any, that are to be exempt. If more than one valid petition is received, the earliest received petition shall be used.

b. The question of the imposition of a local sales and services tax shall be submitted to the registered voters of the incorporated and unincorporated areas of the county upon receipt by the county commissioner of elections of the motion or motions, requesting such submission, adopted by the governing body or bodies of the city or cities located within the county or of the county, for the unincorporated areas of the county, representing at least one half of the population of the county. Upon adoption of such motion, the governing body of the city or county, for the unincorporated areas, shall submit the motion to the county commissioner of elections and in the case of the governing body of the city shall notify the board of supervisors of the adoption of the motion. The county commissioner of elections shall keep a file on all the motions received and, upon reaching the population requirements, shall publish notice of the ballot proposition concerning the imposition of the local sales and services tax. A motion ceases to be valid at the time of the holding of the regular election for the election of members of the governing body which adopted the motion. The county commissioner of elections shall eliminate from the file any motion that ceases to be valid. The manner provided under this paragraph for the submission of the question of imposition of a local sales and services tax is an alternative to the manner provided in paragraph "a".

5. The county commissioner of elections shall submit the question of imposition of a local option tax at a state general election or at a special election held at any time other than the time of a city regular election. The election shall not be held sooner than sixty days after publication of notice of the ballot proposition. The ballot proposition shall specify the type and rate of tax and in the case of a vehicle tax the classes that will be exempt and in the case of a local sales and services tax the date it will be imposed which date shall not be earlier than ninety days following the election. The ballot proposition shall also specify the approximate amount of local option tax revenues that will
be used for property tax relief and shall contain a statement as to the specific purpose or purposes for which the revenues shall otherwise be expended. If the county board of supervisors decides under subsection 6 to specify a date on which the local option sales and services tax shall automatically be repealed, the date of the repeal shall also be specified on the ballot. The rate of the vehicle tax shall be in increments of one dollar per vehicle as set by the petition seeking to impose the tax. The rate of a local sales and services tax shall not be more than one percent as set by the governing body. The state commissioner of elections shall establish by rule the form for the ballot proposition which form shall be uniform throughout the state.

6. a. If a majority of those voting on the question of imposition of a local option tax favors imposition of a local option tax, the governing body of that county shall impose the tax at the rate specified for an unlimited period. However, in the case of a local sales and services tax, the county shall not impose the tax in any incorporated area or the unincorporated area if the majority of those voting on the tax in that area did not favor its imposition. For purposes of the local sales and services tax, all cities contiguous to each other shall be treated as part of one incorporated area and the tax shall be imposed in each of those contiguous cities only if the majority of those voting on the tax in the total area covered by the contiguous cities favored its imposition. The local option tax may be repealed or the rate increased or decreased or the use thereof changed after an election at which a majority of those voting on the question of repeal or rate or use change favored the repeal or rate or use change. The date on which the repeal, rate, or use change is to take effect shall not be earlier than ninety days following the election. The election at which the question of repeal or rate or use change is offered shall be called and held in the same manner and under the same conditions as provided in subsections 4 and 5 for the election on the imposition of the local option tax. However, in the case of a local sales and services tax where the tax has not been imposed countywide, the question of repeal or imposition or rate or use change shall be voted on only by the registered voters of the areas of the county where the tax has been imposed or has not been imposed, as appropriate. However, the governing body of the incorporated area or unincorporated area where the local sales and services tax is imposed may, upon its own motion, request the county commissioner of elections to hold an election in the incorporated or unincorporated area, as appropriate, on the question of the change in use of local sales and services tax revenues. The election may be held at any time but not sooner than sixty days following publication of the ballot proposition. If a majority of those voting in the incorporated or unincorporated area on the change in use favors the change, the governing body of that area shall change the use to which the revenues shall be used. The ballot proposition shall list the present use of the revenues, the proposed use, and the date after which revenues received will be used for the new use.

When submitting the question of the imposition of a local sales and services tax, the county board of supervisors may direct that the question contain a provision for the repeal, without election, of the local sales and services tax on a specific date, which date shall be as provided in section 423B.6, subsection 1.

b. Within ten days of the election at which a majority of those voting on the question favors the imposition, repeal, or change in the rate of a local option tax, the county auditor shall give written notice of the result of the election by sending a copy of the abstract of the votes from the favorable election to the director of revenue or, in the case of a local vehicle tax, to the director of the department of transportation.

7. More than one of the authorized local option taxes may be submitted at a single election and the different taxes shall be separately implemented as provided in this section.

Costs of local option tax elections shall be apportioned among jurisdictions within the county voting on the question at the same election on a pro rata basis in proportion to the number of registered voters in each taxing jurisdiction and the total number of registered voters in all of the taxing jurisdictions.

8. Local option taxes authorized to be imposed as provided in this chapter are a local sales and services tax and a local vehicle tax. The rate of the tax shall be in increments of one dollar per vehicle for a vehicle tax as set on the petition seeking to impose the vehicle tax. The rate of a local sales and services tax shall not be more than one percent as set by the governing body.

9. In a county that has imposed a local option sales and services tax, the board of supervisors shall, notwithstanding any contrary provision of this chapter, repeal the local option sales and services tax in the unincorporated areas or in an incorporated city area in which the tax has been imposed upon adoption of its own motion for repeal in the unincorporated areas or upon receipt of a motion adopted by the governing body of that incorporated city area requesting repeal. The board of supervisors shall repeal the local option sales and services tax effective on the later of the date of the adoption of the repeal motion or the earliest date specified in section 423B.6, subsection 1. For purposes of this subsection, incorporated city area includes an incorporated city which is contiguous to another incorporated city.

10. Notwithstanding subsection 9 or any other contrary provision of this chapter, a local option sales and services tax shall not be repealed or reduced in rate if obligations are outstanding which are payable as provided in section 423B.9, unless funds sufficient to pay the principal, interest, and

premium, if any, on the outstanding obligations at and prior to maturity have been properly set aside and pledged for that purpose.

423B.2 Local vehicle tax.

An annual local vehicle tax at the rate per vehicle specified on the ballot proposition may be imposed by a county on every vehicle which is required to be registered by the state and is registered with the county treasurer to a person residing within the county where the tax is imposed at the time of the renewal of the registration of the vehicle. The local vehicle tax shall be imposed only on the renewals of registrations and shall be payable during the registration renewal periods provided under section 321.40.

The county imposing the tax shall provide for the exemption of each class, if any, of vehicles for which an exemption was listed on the ballot proposition.

For the purpose of the tax authorized by this section, “person” and “registration year” mean the same as defined in section 321.1, and “vehicle” means motor vehicle as defined in section 321.1 which is subject to registration under section 321.18, and which is registered with the county treasurer.

423B.3 Administration of local vehicle tax.

A local vehicle tax or change in the rate shall be imposed January 1 immediately following a favorable election for registration years beginning on or after that date and the repeal of the tax shall be as of December 31 following a favorable election for registration years beginning after that date.

Local officials shall confer with the director of the department of transportation for assistance in drafting the ordinance imposing a local vehicle tax. A certified copy of the ordinance shall be filed with the director as soon as possible after passage. The director shall inform the appropriate county treasurers and provide assistance to them for the collection of all local vehicle taxes and any penalties, crediting local vehicle tax receipts excluding penalties to a “local vehicle tax fund” established in the office of the county treasurer. From the local vehicle tax fund, the treasurer shall remit monthly, by direct deposit in the same manner as provided in section 384.11, to each city in the county the amount collected from residents of the city during the preceding calendar month and to the county the amount collected from the residents of the unincorporated area during the preceding calendar month. Moneys received by a city or county from this fund shall be credited to the general fund of the city or county to be used solely for public transit or shall be credited to the street construction fund of that city or the secondary road fund of that county to be used for the purposes specified in section 312.6. Any penalties collected shall be credited to the county general fund to be used to defray the cost to the county of administering the local vehicle tax.

423B.4 Payment — penalties.

Taxpayers shall pay a local vehicle tax to the county treasurer at the time of application for the renewal of the registration of the vehicle under chapter 321 for the registration year. The county treasurer shall require a person applying for the renewal of the registration of a vehicle to state the person’s residence and shall not renew a registration certificate of a vehicle on which a local vehicle tax is due until the local vehicle tax is paid.

Payment of a local vehicle tax shall be evidenced by a notation on the state registration certificate. The director of the department of transportation shall prescribe by rule the type of notation. A local vehicle tax shall not be refunded even when state registration fees are refunded.

Penalties for late payment which are comparable to the penalties for late payment of state registration fees shall be imposed by the ordinance imposing a local vehicle tax. Willful violation of a local vehicle tax ordinance is a simple misdemeanor.

423B.5 Local sales and services tax.

A local sales and services tax at the rate of not more than one percent may be imposed by a county on the sales price taxed by the state under chapter 423, subchapter II. A local sales and services tax shall be imposed on the same basis as the state sales and services tax or in the case of the use of natural gas, natural gas service, electricity, or
electric service on the same basis as the state use tax and shall not be imposed on the sale of any property or on any service not taxed by the state, except the tax shall not be imposed on the sales price from the sale of motor fuel or special fuel as defined in chapter 452A which is consumed for highway use or in watercraft or aircraft if the fuel tax is paid on the transaction and a refund has not or will not be allowed, on the sales price from the rental of rooms, apartments, or sleeping quarters which are taxed under chapter 423A during the period the hotel and motel tax is imposed, on the sales price from the sale of equipment by the state department of transportation, on the sales price from the sale of self-propelled building equipment, pile drivers, motorized scaffolding, or attachments customarily drawn or attached to self-propelled building equipment, pile drivers, and motorized scaffolding, including auxiliary attachments which improve the performance, safety, operation, or efficiency of the equipment and replacement parts and are directly and primarily used by contractors, subcontractors, and builders for new construction, reconstruction, alterations, expansion, or remodeling of real property or structures, and on the sales price from the sale of a lottery ticket or share in a lottery game conducted pursuant to chapter 99G and except the tax shall not be imposed on the sales price from the sale of natural gas, natural gas service, electricity, or electric service in a city or county where the sales price from the sale of natural gas or electric energy are subject to a franchise fee or user fee during the period the franchise or user fee is imposed. A local sales and services tax is applicable to transactions within those incorporated and unincorporated areas of the county where it is imposed and shall be collected by all persons required to collect state sales taxes. However, a person required to collect state retail sales tax under chapter 423, subchapter V or VI, is not required to collect local sales and services tax on transactions delivered within the area where the local sales and services tax is imposed unless the person has physical presence in that taxing area. All cities contiguous to each other shall be treated as part of one incorporated area and the tax would be imposed in each of those contiguous cities only if the majority of those voting in the total area covered by the contiguous cities favors its imposition.

The amount of the sale, for purposes of determining the amount of the local sales and services tax, does not include the amount of any state sales tax.

A tax permit other than the state sales tax permit required under section 423.36 shall not be required by local authorities.

If a local sales and services tax is imposed by a county pursuant to this chapter, a local excise tax at the same rate shall be imposed by the county on the purchase price of natural gas, natural gas service, electricity, or electric service subject to tax under chapter 423, subchapter III, and not exempted from tax by any provision of chapter 423, subchapter III. The local excise tax is applicable only to the use of natural gas, natural gas service, electricity, or electric service within those incorporated and unincorporated areas of the county where it is imposed and, except as otherwise provided in this chapter, shall be collected and administered in the same manner as the local sales and services tax. For purposes of this chapter, "local sales and services tax" shall also include the local excise tax.
§423B.6 LOCAL OPTION TAXES

a local sales and services tax as nearly as possible in conjunction with the administration of state sales tax laws. The director shall provide appropriate forms or provide on the regular state tax forms for reporting local sales and services tax liability.

b. The ordinance of a county board of supervisors imposing a local sales and services tax shall adopt by reference the applicable provisions of the appropriate sections of chapter 423. All powers and requirements of the director to administer the state sales tax law and use tax law are applicable to the administration of a local sales and services tax law and the local excise tax, including but not limited to the provisions of section 422.25, subsection 4, sections 422.30, 422.67, and 422.68, section 422.69, subsection 1, sections 422.70 to 422.75, section 423.14, subsection 1 and subsection 2, paragraphs “b” through “e”, and sections 423.15, 423.23, 423.24, 423.25, 423.31 to 423.35, 423.37 to 423.42, 423.46, and 423.47. Local officials shall confer with the director of revenue for assistance in drafting the ordinance imposing a local sales and services tax. A certified copy of the ordinance shall be filed with the director as soon as possible after passage.

c. Frequency of deposits and quarterly reports of a local sales and services tax with the department of revenue are governed by the tax provisions in section 423.31. Local tax collections shall not be included in computation of the total tax to determine frequency of filing under section 423.31.

d. The director shall apply a boundary change of a county or city imposing or collecting the local sales and services tax to the imposition or collection of that tax only on the first day of a calendar quarter which occurs sixty days or more after the director has given notice of the boundary change to sellers.

3. a. The director, in consultation with local officials, shall collect and account for a local sales and services tax. The director shall certify each quarter the amount of local sales and services tax receipts and any interest and penalties to be credited to the “local sales and services tax fund” established in the office of the treasurer of state. All taxes collected under this chapter by a retailer or any individual are deemed to be held in trust for the state of Iowa and the local jurisdictions imposing the taxes.

b. All local tax moneys and interest and penalties received or refunded one hundred eighty days or more after the date on which the county repeals its local sales and services tax shall be deposited in or withdrawn from the state general fund.

§423B.7 PAYMENT TO LOCAL GOVERNMENTS

1. The director shall credit the local sales and services tax receipts and interest and penalties from a county-imposed tax to the county’s account in the local sales and services tax fund and from a city-imposed tax under section 423B.1, subsection 2, to the city’s account in the local sales and services tax fund. If the director is unable to determine from which county any of the receipts were collected, those receipts shall be allocated among the possible counties based on allocation rules adopted by the director.

2. a. The director of revenue by August 15 of each fiscal year shall send to each city or county where the local option tax is imposed, an estimate of the amount of tax moneys each city or county will receive for the year and for each month of the year. At the end of each month, the director may revise the estimates for the year and remaining months.

b. The director of revenue shall remit ninety-five percent of the estimated tax receipts for the city or county to the city on or before August 31 of the fiscal year and on or before the last day of each following month.

c. The director of revenue shall remit a final payment of the remainder of tax moneys due the city or county for the fiscal year before November 10 of the next fiscal year. If an overpayment has resulted during the previous fiscal year, the November payment shall be adjusted to reflect any overpayment.

3. Seventy-five percent of each county’s account shall be remitted on the basis of the county’s population residing in the unincorporated area where the tax was imposed and those incorporated areas where the tax was imposed as follows:

a. To the board of supervisors a pro rata share based upon the percentage of the above population of the county residing in the unincorporated area of the county where the tax was imposed according to the most recent certified federal census.

b. To each city in the county where the tax was imposed a pro rata share based upon the percentage of the city’s population residing in the county to the above population of the county according to the most recent certified federal census.

c. If a subsequent certified census exists which modifies that most recent certified federal census for a participating jurisdiction under paragraphs “a” and “b”, the computations under paragraphs “a” and “b” shall utilize the subsequent certified census in the distribution formula under rules established by the director of revenue.
4. Twenty-five percent of each county's account shall be remitted based on the sum of property tax dollars levied by the board of supervisors if the tax was imposed in the unincorporated areas and each city in the county where the tax was imposed during the three-year period beginning July 1, 1982, and ending June 30, 1985, as follows:
   a. To the board of supervisors a pro rata share based upon the percentage of total property tax dollars levied by the board of supervisors during the above three-year period.
   b. To each city council where the tax was imposed a pro rata share based upon the percentage of property tax dollars levied by the city property during the above three-year period of the above total property tax dollars levied by the board of supervisors and each city where the tax was imposed during the above three-year period.
   c. The governing body of an issuer may authorize the issuance of bonds to provide a pro rata share.

5. From each city's account, the percent of revenues agreed to be distributed to the county in the agreement entered into as provided in section 423B.1, subsection 2, paragraph “a”, subparagraph (3), and paragraph “c”, shall be deposited into the appropriate county's account to be remitted as provided in subsections 3 and 4. The remaining revenues in the city's account shall be remitted to the city council if a county does not have an account, its percent of the revenues shall be remitted directly to the county board of supervisors.

6. Local sales and services tax moneys received by a city or county may be expended for any lawful purpose of the city or county.

423B.9 Issuance of bonds.
1. For purposes of this section unless the context otherwise requires:
   a. “Bond issuer” or “issuer” means a city, a county, or a secondary recipient.
   b. “Designated portion” means the portion of the local option sales and services tax which is authorized to be expended for one or a combination of purposes under an adopted public measure.
   c. “Secondary recipient” means a political subdivision of the state which is to receive revenues from a local option sales and services tax over a period of years pursuant to the terms of a chapter 28E agreement with one or more cities or counties.
2. An issuer of public bonds which is a recipient of revenues from a local option sales and services tax imposed pursuant to this chapter may issue bonds in anticipation of the collection of one or more designated portions of the local option sales and services tax and may pledge irrevocably an amount of the revenue derived from the designated portions for each of the years the bonds remain outstanding to the payment of the bonds. Bonds may be issued only for one or more of the purposes set forth on the ballot proposition concerning the imposition of the local option sales and services tax, except bonds shall not be issued which are payable from that portion of tax revenues designated for property tax relief. The bonds may be issued in accordance with the procedures set forth in either subsection 3 or 4.
3. The governing body of an issuer may autho-
authorize the issuance of bonds which are payable from the designated portion of the revenues of the local option sales and services tax, and not from property tax, by following the authorization procedures set forth for cities in section 384.83. Bonds may be issued for the purpose of refunding outstanding and previously issued bonds under this subsection without otherwise complying with the provisions of this subsection.

4. To authorize the issuance of bonds payable as provided in this subsection, the governing body of an issuer shall comply with all of the procedures as follows:

a. A bond issuer may institute proceedings for the issuance of bonds by causing a notice of the proposal to issue the bonds, including a statement of the amount and purpose of the bonds, together with the maximum rate of interest which the bonds are to bear, and the right to petition for an election, to be published at least once in a newspaper of general circulation within the political subdivision or unincorporated area at least ten days prior to the meeting at which it is proposed to take action for the issuance of the bonds.

If at any time before the date fixed for taking action for the issuance of the bonds, a petition signed by eligible electors residing within the jurisdiction seeking to issue the bonds in a number equal to at least three percent of the registered voters of the bond issuer is filed, asking that the question of issuing the bonds be submitted to the registered voters, the governing body shall either by resolution declare the proposal to issue the bonds to have been abandoned or shall direct the county commissioner of elections to call a special election upon the question of issuing the bonds. The proposition of issuing bonds under this subsection is not approved unless the vote in favor of the proposition is equal to at least sixty percent of the vote cast. If a petition is not filed, or if a petition is filed and the proposition of issuing the bonds is approved at an election, the governing body acting on behalf of the issuer may proceed with the authorization and issuance of the bonds. Bonds may be issued for the purpose of refunding outstanding and previously issued bonds under this subsection without otherwise complying with the provisions of this subsection.

b. The provisions of chapter 76 apply to the bonds payable as provided in this subsection, except that the mandatory levy to be assessed pursuant to section 76.2 shall be at a rate to generate an amount which together with the receipts from the pledged designated portion of the local option sales and services tax is sufficient to pay the interest and principal on the bonds. All amounts collected as a result of the levy assessed pursuant to section 76.2 and paid out in the first instance for bond principal and interest shall be repaid to the bond issuer which levied the tax from the first available designated portion of local option sales and services tax collections received in excess of the requirement for the payment of the principal and interest of the bonds and when repaid shall be applied in reduction of property taxes. The amount of bonds which may be issued under section 76.3 shall be the amount which could be retired from the actual collections of the designated portions of the local option sales and services tax for the last four calendar quarters, as certified by the director of revenue. The amount of tax revenues pledged jointly by other cities or counties may be considered for the purpose of determining the amount of bonds which may be issued. If the local option sales and services tax has been in effect for less than four calendar quarters, the tax collected within the shorter period may be adjusted to project the collections of the designated portion for the full year for the purpose of determining the amount of the bonds which may be issued. The provisions of this section constitute separate authorization for the issuance of bonds and shall prevail in the event of conflict with any other provision of the Code limiting the amount of bonds which may be issued or the source of payment of the bonds. Bonds issued under this section shall not limit or restrict the authority of the bond issuer to issue bonds under other provisions of the Code.

5. A city or county, jointly with one or more other political subdivisions as provided in chapter 28E, may pledge irrevocably any amount derived from the designated portions of the revenues of the local option sales and services tax to the support or payment of bonds of an issuer, issued for one or more purposes set forth on the ballot proposition concerning the imposition of the local option sales and services tax or a political subdivision may apply the proceeds of its bonds to the support of any such purpose.

6. Bonds issued pursuant to this section shall not constitute an indebtedness within the meaning of any constitutional or statutory debt limitation or restriction, and shall not be subject to the provisions of any other law or charter relating to the authorization, issuance, or sale of bonds. Bonds issued pursuant to this section are declared to be issued for an essential public and governmental purpose. Bonds issued pursuant to this section shall be authorized by resolution of the governing body and may be issued in one or more series and shall bear the date or dates, be payable on demand or mature at the time or times, bear interest at the rate or rates not exceeding that permitted by chapter 74A, be in the denomination or denominations, be in the form, have the rank or priority, be executed in the manner, be payable in the medium of payment, at the place or places, be subject to the terms of redemption, with or without premium, be secured in the manner, and have the other characteristics, as may be provided by the resolution authorizing their issuance. The
bonds may be sold at public or private sale at a
price as may be determined by the governing body.

423E.1 Authorization — rate of tax — use of revenues.
1. A local sales and services tax for school infrastructure purposes may be imposed by a county on behalf of school districts as provided in this chapter.

If a local sales and services tax for school infrastructure is imposed by a county pursuant to this chapter, a local excise tax for school infrastructure at the same rate shall be imposed by the county on the purchase price of natural gas, natural gas service, electricity, or electric service subject to tax under chapter 423, subchapter III, and not exempted from tax by any provision of chapter 423, subchapter III. The local excise tax for school infrastructure is applicable only to the use of natural gas, natural gas service, electricity, or electric service within those incorporated and unincorporated areas of the county where it is imposed and, except as otherwise provided in this chapter, shall be collected and administered in the same manner as the local sales and services tax for school infrastructure. For purposes of this chapter, “local sales and services tax for school infrastructure” shall also include the local excise tax for school infrastructure.

2. The maximum rate of tax shall be one percent. The tax shall be imposed without regard to any other local sales and services tax authorized in chapter 423B, and is repealed at the expiration of a period of ten years of imposition or a shorter period as provided in the ballot proposition unless the period is extended as provided in section 423E.2, subsection 5. However, all local option sales and services taxes for school infrastructure purposes are repealed December 31, 2022.

3. Local sales and services tax moneys received by a county for school infrastructure purposes pursuant to this chapter shall be utilized for school infrastructure needs or property tax relief. For purposes of this chapter, “school infrastructure” means those activities for which a school dis-
district is authorized to contract indebtedness and issue general obligation bonds under section 296.1, except those activities related to a teacher’s or superintendent’s home or homes. These activities include the construction, reconstruction, repair, demolition work, purchasing, or remodeling of schoolhouses, stadiums, gyms, fieldhouses, and bus garages and the procurement of schoolhouse construction sites and the making of site improvements and those activities for which revenues under section 298.3 or 300.2 may be spent. Additionally, “school infrastructure” includes the payment or retirement of outstanding bonds previously issued for school infrastructure purposes as defined in this subsection, and the payment or retirement of bonds issued under section 423E.5.

423E.2 Imposition by county.

1. a. A local sales and services tax shall be imposed by a county only after an election at which a majority of those voting on the question favors imposition. The effective date shall be either January 1 or July 1 but not sooner than ninety days following the favorable election. A local sales and services tax approved by a majority vote shall apply to all incorporated and unincorporated areas of that county.

b. A local sales and services tax shall be repealed on either June 30 or December 31 but not sooner than ninety days following the favorable election, if one is held.

c. If a local sales and services tax has been imposed prior to April 1, 2000, and at the time of the election a date for repeal was specified on the ballot, the local sales and services tax may be repealed on that date, notwithstanding paragraph “b”.

2. a. Upon receipt by a county board of supervisors of a petition requesting imposition of a local sales and services tax for infrastructure purposes, signed by eligible electors of the whole county equal in number to five percent of the persons in the whole county who voted at the last preceding state general election, the board shall within thirty days direct the county commissioner of elections to submit the question of imposition of the tax to the registered voters of the whole county.

b. Alternatively, the question of imposition of a local sales and services tax for school infrastructure purposes may be proposed by motion or motions, requesting such submission, adopted by the governing body of a school district or school districts located within the county containing a total, or a combined total in the case of more than one school district, of at least one-half of the population of the county, or by the county board of supervisors. Upon adoption of such motion, the governing body of a school district shall notify the board of supervisors of the adoption of the motion. The county board of supervisors shall submit the motion to the county commissioner of elections, who shall publish notice of the ballot proposition concerning the imposition of the local sales and services tax. A motion ceases to be valid at the time of the holding of the regular election for the election of members of the governing body which adopted the motion.

3. The county commissioner of elections shall submit the question of imposition of a local sales and services tax for school infrastructure purposes at a state general election or at a special election held at any time other than the time of a city regular election. The election shall not be held sooner than sixty days after publication of notice of the ballot proposition. The ballot proposition shall specify the rate of tax, the date the tax will be imposed and repealed, and shall contain a statement as to the specific purpose or purposes for which the revenues shall be expended. The content of the ballot proposition shall be substantially similar to the petition of the board of supervisors or motions of a school district or school districts requesting the election as provided in subsection 2, as applicable, including the rate of tax, imposition and repeal date, and the specific purpose or purposes for which the revenues will be expended. The dates for the imposition and repeal of the tax shall be as provided in subsection 1. The rate of tax shall not be more than one percent. The state commissioner of elections shall establish by rule the form for the ballot proposition which form shall be uniform throughout the state.

4. a. Each school district located within the county may submit a revenue purpose statement to the county commissioner of elections no later than sixty days prior to the election indicating the specific purpose or purposes for which the local sales and services tax for school infrastructure revenue and supplemental school infrastructure amount revenue will be expended. The revenues received pursuant to this chapter shall be expended for the purposes indicated in the revenue purpose statement. The revenue purpose statement may include information regarding the school district’s use of the revenues to provide for property tax relief or debt reduction. A copy of the revenue purpose statement shall be made available for public inspection in accordance with chapter 22, shall be posted at the appropriate polling places of each school district during the hours that the polls are open, and be published in a newspaper of general circulation in the school district no sooner than twenty days and no later than ten days prior to the election. Notwithstanding the re-
requirements for a revenue purpose statement in this paragraph, for elections occurring after April 1, 2003, but before August 1, 2003, a revenue purpose statement submitted not later than April 1, 2004, shall be considered to have met the requirements of this paragraph.

b. If a revenue purpose statement is not submitted sixty days prior to the election or revenues remain after fulfilling the purpose specified in the revenue purpose statement, the revenues shall be used to reduce the following levies in the following order:

1. Bond levies under sections 298.18 and 298.18A and all other debt levies, until the moneys received or the levies are reduced to zero.

2. The regular physical plant and equipment levy under section 298.2, until the moneys received or the levy is reduced to zero.

3. The voter-approved physical plant and equipment levy and income surtax, if any, under section 298.2, until the moneys received or the levy and income surtax, if any, are reduced to zero.

4. The public educational and recreational levy under section 300.2, until the moneys received or the levy is reduced to zero.

5. The schoolhouse tax levy under section 278.1, subsection 7, Code 1989, until the moneys received or the levy is reduced to zero.

Any money remaining after the reduction of the levies specified in this paragraph "b" may be used for any authorized infrastructure purpose of the school district.

c. Counties holding an election on the local sales and services tax for school infrastructure purposes on or after April 1, 2003, but before July 1, 2003, which approve the imposition of the tax at the election shall expend the revenues for any authorized infrastructure purpose of the school district.

d. Counties holding an election on the local option sales and services tax for school infrastructure purposes on or after April 1, 2003, that have properly set aside and pledged for that purpose. However, this paragraph does not apply to the repeal of the tax on December 31, 2022, as specified in section 423E.1, subsection 2.

423E.3 Collection of tax.

1. If a majority of those voting on the question of imposition of a local sales and services tax for school infrastructure purposes favors imposition of the tax, the tax shall be imposed by the county board of supervisors within the county pursuant to section 423E.2, at the rate specified for the period provided in section 423E.1, subsection 2, on the sales price taxed by the state under chapter 423, subchapter II.

2. The tax shall be imposed on the same basis as the state sales and services tax or in the case of the use of natural gas, natural gas service, electricity, or electric service on the same basis as the state use tax and shall not be imposed on the sale of any property or on any service not taxed by the state, except the tax shall not be imposed on the sales price from the sale of motor fuel or special fuel as defined in chapter 452A which is consumed for highway use or in watercraft or aircraft if the fuel tax is paid on the transaction and a refund has not or will not be allowed, on the sales price from the rental of rooms, apartments, or sleeping quarters which are taxed under chapter 423A during the period the hotel and motel tax is imposed, on the sales price from the sale of equipment by the state department of transportation, on the sales price from the sale of self-propelled building equipment, pile drivers, motorized scaffolding, or

imposition, repeal, extension, or change in the rate of the tax, the county auditor shall give written notice of the result of the election by sending a copy of the abstract of the votes from the favorable election to the director of revenue. Election costs shall be apportioned among school districts within the county on a pro rata basis in proportion to the number of registered voters in each school district who reside within the county and the total number of registered voters within the county.

c. A local option sales and services tax shall not be repealed or reduced in rate if obligations are outstanding which are payable as provided in section 423E.5, unless funds sufficient to pay the principal, interest, and premium, if any, on the outstanding obligations at and prior to maturity have been properly set aside and pledged for that purpose. However, this paragraph does not apply to the repeal of the tax on December 31, 2022, as specified in section 423E.1, subsection 2.

423E.3 Collection of tax.

1. If a majority of those voting on the question of imposition of a local sales and services tax for school infrastructure purposes favors imposition of the tax, the tax shall be imposed by the county board of supervisors within the county pursuant to section 423E.2, at the rate specified for the period provided in section 423E.1, subsection 2, on the sales price taxed by the state under chapter 423, subchapter II.

2. The tax shall be imposed on the same basis as the state sales and services tax or in the case of the use of natural gas, natural gas service, electricity, or electric service on the same basis as the state use tax and shall not be imposed on the sale of any property or on any service not taxed by the state, except the tax shall not be imposed on the sales price from the sale of motor fuel or special fuel as defined in chapter 452A which is consumed for highway use or in watercraft or aircraft if the fuel tax is paid on the transaction and a refund has not or will not be allowed, on the sales price from the rental of rooms, apartments, or sleeping quarters which are taxed under chapter 423A during the period the hotel and motel tax is imposed, on the sales price from the sale of equipment by the state department of transportation, on the sales price from the sale of self-propelled building equipment, pile drivers, motorized scaffolding, or
attachments customarily drawn or attached to self-propelled building equipment, pile drivers, and motorized scaffolding, including auxiliary attachments which improve the performance, safety, operation, or efficiency of the equipment, and replacement parts and are directly and primarily used by contractors, subcontractors, and builders for new construction, reconstruction, alterations, expansion, or remodeling of real property or structures, and on the sales price from the sale of a lottery ticket or share in a lottery game conducted pursuant to chapter 99G and except the tax shall not be imposed on the sales price from the sale or use of natural gas, natural gas service, electricity, or electric service in a city or county where the sales price from the sale of natural gas or electric energy are subject to a franchise fee or user fee during the period the franchise or user fee is imposed.

3. The tax is applicable to transactions within the county where it is imposed and shall be collected by all persons required to collect state sales or local excise taxes. However, a person required to collect state sales tax under chapter 423 is not required to collect local sales and services tax on transactions delivered within the area where the local sales and services tax is imposed unless the person has physical presence in that taxing area. The amount of the sale, for purposes of determining the amount of the tax, does not include the amount of any state sales taxes or excise taxes or other local option sales or excise taxes. A tax permit other than the state tax permit required under section 423.36 shall not be required by local authorities.

4. The director of revenue shall credit tax receipts and interest and penalties from the local sales and services tax for school infrastructure purposes to an account within the secure an advanced vision for education fund, as provided in section 423E.4, maintained in the name of the school district or school districts located within the county. If the director is unable to determine from which county any of the receipts were collected, those receipts shall be allocated among the possible counties based on allocation rules adopted by the director.

5. a. The director of revenue by August 15 of each fiscal year shall send to each school district where the tax is imposed an estimate of the amount of tax moneys each school district will receive for the year and for each month of the year. At the end of each month, the director may revise the estimates for the year and remaining months.

b. The director shall remit ninety-five percent of the estimated tax receipts for the school district to the school district on or before August 31 of the fiscal year and on or before the last day of each following month.

c. The director shall remit a final payment of the remainder of tax moneys due for the fiscal year before November 10 of the next fiscal year. If an overpayment has resulted during the previous fiscal year, the November payment shall be adjusted to reflect any overpayment.

d. (1) If more than one school district, or a portion of a school district, is located within the county, tax receipts shall be remitted to each school district or portion of a school district in which the county tax is imposed in a pro rata share based upon the ratio which the actual enrollment for the school district that attends school in the county bears to the total combined actual enrollments for all school districts that attend school in the county.

(2) The combined actual enrollment count for a county, for purposes of this section, shall be determined for each county by the department of management based on the actual enrollment figures reported by October 1 to the department of management by the department of education pursuant to section 257.6, subsection 1. The combined actual enrollment count shall be forwarded to the director of revenue by March 1, annually, for purposes of supplying estimated tax payment figures and making estimated tax payments pursuant to this section for the following fiscal year.

e. Notwithstanding the amount of tax receipts credited to the account within the secure an advanced vision for education fund maintained in the name of a school district, the amount of tax receipts the school district shall receive from the tax imposed in the county shall be determined as provided in section 423E.4, subsection 2.

6. The local sales and services tax for school infrastructure purposes shall be administered as provided in section 423B.6.

7. Construction contractors may make application to the department for a refund of the additional local sales and services tax paid under this chapter by reason of taxes paid on goods, wares, or merchandise under the conditions specified in section 423B.8. The refund shall be paid by the department from the appropriate school district’s account in the secure an advanced vision for education fund. The penalty provisions contained in section 423B.8, subsection 3, shall apply regarding an erroneous application for refund of local sales and services tax paid under this chapter.

§423E.4 Secure an advanced vision for education fund.

1. A secure an advanced vision for education fund is created as a separate and distinct fund in the state treasury under the control of the department of revenue. Moneys in the fund include revenues credited to the fund pursuant to this chapter, appropriations made to the fund, and other moneys deposited into the fund. Any amounts disbursed from the fund shall be utilized for school infrastructure purposes or property tax relief.

2. The moneys credited in a fiscal year to the secure an advanced vision for education fund shall be distributed as follows:

   a. A school district that is located in whole or in part in a county that voted on and approved prior to April 1, 2003, the local sales and services tax for school infrastructure purposes and that has a sales tax capacity per student above the guaranteed school infrastructure amount shall receive for the remainder of the unextended term of the tax the amount equal to its pro rata share of the local sales and services tax receipts as provided in section 423E.3, subsection 5, paragraph “d”, unless the school board passes a resolution by October 1, 2003, agreeing to receive a distribution pursuant to paragraph “b”, subparagraph (1).

   b. (1) A school district that is located in whole or in part in a county that voted on and approved prior to April 1, 2003, the local sales and services tax for school infrastructure purposes and that has a sales tax capacity per student below its guaranteed school infrastructure amount shall receive for the remainder of the unextended term of the tax the amount equal to its pro rata share of the local sales and services tax receipts as provided in section 423E.3, subsection 5, paragraph “d”, plus an amount equal to its supplemental school infrastructure amount, unless the school district passes a resolution by October 1, 2003, agreeing to receive only an amount equal to its pro rata share as provided in section 423E.3, subsection 5, paragraph “d”, in all subsequent years.

   (2) A school district that is located in whole or in part in a county that voted on and approved on or after April 1, 2003, the local sales and services tax for school infrastructure purposes shall receive an amount equal to its pro rata share of the local sales and services tax receipts as provided in section 423E.3, subsection 5, paragraph “d”, not to exceed its guaranteed school infrastructure amount. However, if the school district’s pro rata share is less than its guaranteed school infrastructure amount, the district shall receive an additional amount equal to its supplemental school infrastructure amount.

   (3) A school district that is located in whole or in part in a county that voted on and approved the extension of the local sales and services tax for school infrastructure purposes pursuant to section 423E.2, subsection 5, on or after April 1, 2003, shall receive for any extended period an amount equal to its pro rata share of the local sales and services tax receipts as provided in section 423E.3, subsection 5, paragraph “d”, not to exceed its guaranteed school infrastructure amount. However, if the school district’s pro rata share is less than its guaranteed school infrastructure amount, the district shall receive an additional amount equal to its supplemental school infrastructure amount.

   c. In the case of a school district located in more than one county, the amount to be distributed to the school district shall be separately computed for each county based upon the school district’s actual enrollment that attends school in the county.

   d. For purposes of distributions under subsection 2:

      (1) “Guaranteed school infrastructure amount” means for a school district the state wide tax revenues per student, multiplied by the quotient of the tax rate percent imposed in the county, divided by one percent and multiplied by the quotient of the number of quarters the tax is imposed during the fiscal year divided by four quarters.

      (2) “Sales tax capacity per student” means for a school district the estimated amount of revenues that a school district receives or would receive if a local sales and services tax for school infrastructure purposes is imposed at one percent in the county pursuant to section 423E.2, divided by the school district’s actual enrollment as determined in section 423E.3, subsection 5, paragraph “d”.

      (3) “Statewide tax revenues per student” means five hundred seventy-five dollars per student. The general assembly shall review this amount annually to determine its appropriateness.

      (4) “Supplemental school infrastructure amount” means the guaranteed school infrastructure amount for the school district less its pro rata share of local sales and services tax for school infrastructure purposes as provided in section 423E.3, subsection 5, paragraph “d”, for the purpose of paying principal and interest on outstanding bonds previously issued for school infrastructure purposes as defined in section 423E.1, subsection 2, paragraph “b”, subparagraph (1).

4. a. For the purposes of distribution under subsection 2, paragraph “b”, subparagraph (1), a school district with a sales tax capacity per student below its guaranteed school infrastructure amount shall use the amount equal to the guaranteed school infrastructure amount less the pro rata share amount in accordance with section 423E.3, subsection 5, paragraph “d”, for the purpose of paying principal and interest on outstanding bonds previously issued for school infrastructure purposes as defined in section 423E.1, subsection 2, paragraph “b”, subparagraph (1).
tion 3. Any money remaining after the payment of all principal and interest on outstanding bonds previously issued for infrastructure purposes may be used for any authorized infrastructure purpose of the school district. If a majority of the voters in the school district approves the use of revenue pursuant to a revenue purpose statement in an election held after July 1, 2003, in the school district pursuant to section 423E.2, the school district may use the amount for the purposes specified in its revenue purpose statement.

b. Nothing in this section shall prevent a school district from using its sales tax capacity per student or guaranteed school infrastructure amount to pay principal and interest on obligations issued pursuant to section 423E.5.

5. In the case of a deficiency in the fund to pay the supplemental school infrastructure amounts in full, the amount available in the fund less the sales and services tax revenues for school infrastructure purposes attributed to each school district should be allocated first to increase the school district with the lowest sales tax capacity per student to an amount equal to the school district or school districts with the next lowest sales tax capacity per student and then increase the school districts to an amount equal to the school district or school districts with the next lowest sales tax capacity per student and then increase the school districts to an amount equal to the school district or school districts with the next lowest sales tax capacity per student and then continue on in this manner until money is no longer available or all school districts reach their guaranteed school infrastructure amount.

6. A school district shall not expend the supplemental school infrastructure amount received for new construction or for payments for bonds issued for new construction against the supplemental school infrastructure amount without prior application to the department of education and receipt of a certificate of need pursuant to this subsection. However, a certificate of need is not required for the payment of outstanding bonds issued for new construction pursuant to section 296.1, before April 1, 2003. A certificate of need is also not required for repairing schoolhouses or buildings, equipment, technology, or transportation equipment for transporting students as provided in section 298.3, or for construction necessary for compliance with the federal Americans With Disabilities Act pursuant to 42 U.S.C. § 12101 – 12117. In determining whether a certificate of need shall be issued or denied, the department shall consider all of the following:

a. Enrollment trends in the grades that will be served at the new construction site.

b. The infeasibility of remodeling, reconstructing, or repairing existing buildings.

c. The fire and health safety needs of the school district.

d. The distance, convenience, cost of transportation, and accessibility of the new construction site to the students to be served at the new construction site.

e. Availability of alternative, less costly, or more effective means of serving the needs of the students.

f. The financial condition of the district, including the effect of the decline of the budget guarantee and unspent balance.

g. Broad and long-term ability of the district to support the facility and the quality of the academic program.

h. Cooperation with other educational entities including other school districts, area education agencies, postsecondary institutions, and local communities.

423E.5 Bonding.

The board of directors of a school district shall be authorized to issue negotiable, interest-bearing school bonds, without election, and utilize tax receipts derived from the sales and services tax for school infrastructure purposes and the supplemental school infrastructure amount distributed pursuant to section 423E.4, subsection 2, paragraph “b”, for principal and interest repayment. Proceeds of the bonds issued pursuant to this section shall be utilized solely for school infrastructure needs as school infrastructure is defined in section 423E.1, subsection 3. Bonds issued under this section may be sold at public or private sale as provided in chapter 75 without notice and hearing as provided in section 73A.12. Bonds may bear dates, bear interest at rates not exceeding that permitted by chapter 74A, mature in one or more installments, be in registered form, carry registration and conversion privileges, be payable as to principal and interest at times and places, be subject to terms of redemption prior to maturity with or without premium, and be in one or more denominations, all as provided by the resolution of the board of directors authorizing their issuance. The resolution may also prescribe additional provisions, terms, conditions, and covenants which the board of directors deems advisable, including provisions for creating and maintaining reserve funds, the issuance of additional bonds ranking on a parity with such bonds and additional bonds junior and subordinate to such bonds, and that such bonds shall rank on a parity with or be junior and subordinate to any bonds which may be then outstanding. Bonds may be issued to refund out-
standing and previously issued bonds under this section. Local option sales and services tax revenue bonds are a contract between the school district and holders, and the resolution issuing the bonds and pledging local option sales and services tax revenues to the payment of principal and interest on the bonds is a part of the contract. Bonds issued pursuant to this section shall not constitute indebtedness within the meaning of any constitutional or statutory debt limitation or restriction, and shall not be subject to any other law relating to the authorization, issuance, or sale of bonds.

A school district in which a local option sales tax for school infrastructure purposes has been imposed shall be authorized to enter into a chapter 28E agreement with one or more cities or a county whose boundaries encompass all or a part of the area of the school district. A city or cities entering into a chapter 28E agreement shall be authorized to expend its designated portion of the local option sales and services tax revenues for any valid purpose permitted in this chapter or authorized by the governing body of the city. A county entering into a chapter 28E agreement with a school district in which a local option sales tax for school infrastructure purposes has been imposed shall be authorized to expend its designated portion of the local option sales and services tax revenues to provide property tax relief within the boundaries of the school district located in the county. A school district where a local option sales and services tax is imposed is also authorized to enter into a chapter 28E agreement with another school district, a community college, or an area education agency which is located partially or entirely in or is contiguous to the county where the tax is imposed. The school district or community college shall only expend its designated portion of the local option sales and services tax for infrastructure purposes. The area education agency shall only expend its designated portion of the local option school infrastructure sales tax for infrastructure and maintenance purposes.

The governing body of a city may authorize the issuance of bonds which are payable from its designated portion of the revenues of the local option sales and services tax, and not from property tax, by following the authorization procedures set forth for cities in section 384.83. A city may pledge irrevocably any amount derived from its designated portions of the revenues of the local option sales and services tax to the support or payment of such bonds.

423E.6 School infrastructure safety fund.

1. There shall be distributed from the federal funds allocated to the state of Iowa as described in Conference Committee Report 105-390, accompanying H.R. 2264, making federal appropriations to the United States departments of labor, health and human services, and education, to the state department of education the sum of eight million dollars to establish a school infrastructure safety fund.

2. The funds shall be allocated to the school budget review committee to develop a school infrastructure safety fund grant program, in conjunction with the state fire marshal. For purposes of reviewing grant applications and making recommendations regarding the administration of the program, the state fire marshal shall be considered an additional voting member of the school budget review committee.

3. Top priority in awarding program grants shall be the making of school infrastructure improvements relating to fire and personal safety. School districts eligible for program grants shall have received an order or citation from the state fire marshal, or a fire department chief or fire prevention officer, for one or more fire safety violations regarding a school facility, or in the opinion of the state fire marshal shall be regarded as operating facilities subject to significant fire safety deficiencies. Grant awards shall also be available for defects or violations of the state building code, as adopted pursuant to section 103A.7, revealed during an inspection of school facilities by a local building department, or for improvements consistent with the standards and specifications contained in the state building code regarding ensuring that buildings and facilities are accessible to and functional for persons with disabilities. The school budget review committee shall allocate program funds to school districts which, in its discretion, are determined to be faced with the most severe deficiencies. School districts applying for program grants shall have developed and submitted to the state fire marshal or local building department a written plan to remedy fire or safety defects within a specified time frame. Approval of the written plan by the state fire marshal or local building department shall be obtained prior to receipt of a grant award by a school district.

4. Application forms, submission dates for applications and for written plans to remedy fire or safety defects, and grant award criteria shall be developed by the state department of education, in coordination with the state fire marshal, by rule.

5. The school budget review committee shall submit a progress report of the number and amount of grants awarded, and fire and safety im-
provements made, pursuant to the school infra-
structure safety fund grant program, to the gener-

3. The director shall enter into a contract or
agreement with the board to provide assistance
requested by the board. Policy issues arising un-
der this chapter or chapter 455G shall be deter-
dined by the board, and the board shall be joined
as a real party in interest when a policy issue is

11. “Petroleum” means petroleum as defined in section 455G.2.
12. “Receiver” means, if the owner and operator are not the same person, the person who, under a contract between the owner and operator, is responsible for payment for petroleum deposited into a tank; and if the owner and operator of a tank are the same person, means the owner.

### 424.3 Environmental protection charge imposed upon petroleum diminution.

1. An environmental protection charge is imposed upon diminution. A depositor shall collect from the receiver of petroleum deposited into a tank, the environmental protection charge imposed under this section on diminution each time petroleum is deposited into the tank, and pay the charge to the department as directed by this chapter.
2. The environmental protection charge shall be equal to the total volume of petroleum deposited in a tank multiplied by the diminution rate multiplied by the cost factor.
3. The diminution rate is one-tenth of one percent.
4. Diminution equals total volume of petroleum deposited multiplied by the diminution rate established in subsection 3.
5. The cost factor is an amount per gallon of diminution determined by the board pursuant to this subsection. The board, after public hearing, shall determine, or shall adjust, the cost factor to the greater of either an amount reasonably calculated to generate an annual average revenue, year to year, of seventeen million dollars from the charge, excluding penalties and interest, or ten dollars. The board may determine or adjust the cost factor at any time but shall at minimum determine the cost factor at least once each fiscal year.

### 424.4 Adding of charge.

A depositor shall, as far as practicable, add the charge imposed under this chapter, or the average equivalent of the charge, to the depositor’s sales price for the petroleum subject to the charge and when added such charge shall constitute a part of the depositor’s price, shall be a debt from the receiver to the depositor until paid, and shall be recoverable at law in the same manner as other debts.

### 424.5 Depositor permits required — applications — revocation.

1. It is unlawful for any person to deposit petroleum into a tank in this state, unless a depositor permit has been issued to that person under this section. A depositor shall file with the department an application for a permit. An application for a permit shall be made upon a form prescribed by the board and shall set forth the name under which the applicant transacts or intends to transact business, the location or locations of the applicant’s place of business, and any other information as the board may require. The application shall be signed by the owner if a natural person; in the case
of an association or partnership, by a member or partner; in the case of a corporation, by an executive officer or some person specifically authorized by the corporation to sign the application, to which shall be attached the written evidence of the person’s authority.

2. The department may deny a permit to an applicant who is substantially delinquent in paying a tax or charge due, or the interest or penalty on the tax or charge, administered by the department at the time of application. If the applicant is a partnership, a permit may be denied if the partner is substantially delinquent in paying any delinquent tax or charge, penalty, or interest.

3. A permit is not assignable and is valid only for the person in whose name it is issued.

4. A permit issued under this chapter is valid and effective until revoked by the department.

5. If the holder of a permit fails to comply with any of the provisions of this chapter or any order or rule of the department, or rule or order of the board pursuant to this chapter, or is substantially delinquent in the payment of a tax or charge administered by the department or the interest or penalty on the tax or charge, the director may revoke the permit.

6. To revoke a permit the director shall serve notice as required by section 17A.18 to the permit holder informing that person of the director’s intent to revoke the permit and of the permit holder’s right to a hearing on the matter. If the permit holder petitions the director for a hearing on the proposed revocation, after giving ten days’ notice of the time and place of the hearing in accordance with section 17A.18, subsection 3, the matter may be heard and a decision rendered. The director may restore permits after revocation. The director shall adopt rules setting forth the period of time a depositor must wait before a permit may be restored or a new permit may be issued. The waiting period shall not exceed ninety days from the date of the revocation of the permit.

89 Acts, ch 131, §17

424.6 Exemption certificates for receivers of petroleum underground storage tanks not subject to financial responsibility rules.

1. The department of natural resources shall issue an exemption certificate in the form prescribed by the director of the department of natural resources to an applicant who is an owner or operator of a petroleum underground storage tank which is exempt, deferred, or excluded from regulation under chapter 455G, for that tank. The director of the department of natural resources shall revoke and require the return of an exemption certificate if the petroleum underground storage tank later becomes subject to chapter 455G pursuant to section 455G.1. A tank is subject to chapter 455G when the federal regulation subjecting that tank to financial responsibility becomes effective and not upon the effective compliance date unless the effective compliance date is the effective date of the regulation.

2. Liability for the charge is upon the depositor and the receiver unless the depositor takes in good faith from the receiver a valid exemption certificate and records the exemption certificate number and related transaction information required by the director and submits such information as part of the environmental protection charge return. If petroleum is deposited into a tank, pursuant to a valid exemption certificate which is taken in good faith by the depositor, and the receiver is liable for the charge, the receiver is solely liable for the charge and shall remit the charge directly to the department and this chapter applies to that receiver as if the receiver were a depositor.

3. A valid exemption certificate is an exemption certificate which is complete and correct according to the requirements of the director of the department of natural resources.

4. A valid exemption certificate is taken in good faith by the depositor when the depositor has exercised that caution and diligence which honest persons of ordinary prudence would exercise in handling their own business affairs, and includes an honesty of intention and freedom from knowledge of circumstances which ought to put one upon inquiry as to the facts. A depositor has constructive notice of the classes of exempt, deferred, or excluded tanks. In order for a depositor to take a valid exemption certificate in good faith, the depositor must exercise reasonable prudence to determine the facts supporting the valid exemption certificate, and if any facts upon such certificate would lead a reasonable person to further inquiry, then such inquiry must be made with an honest intent to discover the facts.

5. If the circumstances change and the tank becomes subject to financial responsibility regulations, the tank owner or operator is liable solely for the charges and shall remit the charges directly to the department of revenue pursuant to this chapter.

6. The board may waive the requirement for an exemption certificate for one or more classes of exempt, deferred, or excluded tanks, if in the board’s judgment an exemption certificate is not
required for effective and efficient collection of the charge. If an exemption certificate is not required for a class pursuant to this subsection, the depositor shall maintain and file such records and information as may be required by the director regarding deposits into a tank subject to the waiver.

### §424.7 Deposit of moneys — filing of environmental protection charge return.

1. A depositor shall, on or before the last day of the month following the close of each calendar quarter during which the depositor is or has become or ceased being subject to the provisions of section 424.3, make, sign, and file an environmental protection charge return for that calendar quarter in such form as may be required by the director. The return shall show information relating to the volume of petroleum deposited into tanks subject to the charge, and any claimed exemptions or exclusions from the charge, a calculation of charges due, and such other information for the period covered by the return as may be required by the director. The depositor may be granted an extension of time not exceeding thirty days for filing a quarterly return, upon a proper showing of necessity. If an extension is granted, the depositor shall have paid by the thirtieth day of the month following the close of the quarter ninety percent of the estimated charges due.

2. If necessary or advisable in order to ensure the payment of the charge imposed by this chapter, the director may require returns and payment of the charge to be made for other than quarterly periods.

3. Returns shall be signed by the depositor or the depositor’s duly authorized agent, and must be duly certified by the depositor to be correct.

4. Upon receipt of a payment pursuant to this chapter, the department shall deposit the moneys into the road use tax fund created in section 312.1.

89 Acts, ch 131, §19; 90 Acts, ch 1235, §13

### §424.8 Payment of environmental protection charge.

1. The charge levied under this chapter is due and payable in calendar quarterly installments on or before the last day of the month following each quarterly period except as otherwise provided in this section.

2. Every permit holder at the time of making the return required hereunder, shall compute and pay to the department the charges due for the preceding period.

3. a. If a receiver fails to pay charges imposed by this chapter to the depositor required to collect the charge, then in addition to all of the rights, obligations, and remedies provided, the charge is payable by the receiver directly to the department, and this chapter applies to the receiver as if the receiver were a depositor.

   b. If a depositor subject to this chapter sells the depositor’s business or stock of petroleum or quits the business, the depositor shall prepare a final return and pay all charges due within the time required by law. The immediate successor to the depositor, if any, shall withhold a sufficient amount of the purchase price, in money or money’s worth, to pay the amount of delinquent charge, interest, or penalty due and unpaid. If the immediate successor of the business or stock of petroleum intentionally fails to withhold the amount due from the purchase price as provided in this paragraph, the immediate successor is personally liable for the payment of the delinquent charges, interest, and penalty accrued and unpaid on account of the operation of the business by the immediate predecessor depositor, except when the purchase is made in good faith as provided in section 424.6. However, a person foreclosing on a valid security interest or retaking possession of premises under a valid lease is not an “immediate successor” for purposes of this paragraph. The department may waive the liability of the immediate successor under this paragraph if the immediate successor exercised good faith in establishing the amount of the previous liability.

89 Acts, ch 131, §20

### §424.9 Bond for environmental protection charge collection.

The director, when necessary and advisable in order to secure the collection of the environmental protection charge imposed by section 424.3, may require a depositor to file a bond with the director. The bond shall assure collection by the department of the amount of the charge required to be collected or the amount actually collected by the depositor required to file the bond, whichever is greater. The bond shall be issued by a surety company authorized to conduct business in this state and approved by the commissioner of insurance as to solvency and responsibility. In an amount as the director may fix, to secure the payment of the charge, and penalty due or which may become due.

In lieu of the bond, securities or cash shall be kept in the custody of the department and securities may be sold by the director at public or private sale, without notice to the depositor, if it becomes necessary to do so in order to recover any charge and penalty due. Upon a sale, any surplus above the amounts due under this section shall be returned to the person who deposited the securities.

89 Acts, ch 131, §21

### §424.10 Failure to file return — incorrect return.

1. As soon as practicable after a return is filed and in any event within three years after the return is filed the department shall examine it, assess and determine the charge due if the return is found to be incorrect, and give notice to the deposi-
tor of the assessment and determination as provided in subsection 2. The period for the examination and determination of the correct amount of the charge is unlimited in the case of a false or fraudulent return made with the intent to evade the charge or in the case of a failure to file a return. If the determination that a return is incorrect is the result of an audit of the books and records of the depositor, the charge, or additional charge, if any, is found due, shall be assessed and determined and the notice to the depositor shall be given by the department within one year after the completion of the examination of the books and records.

2. If a return required by this chapter is not filed, or if a return when filed is incorrect or insufficient and the maker fails to file a corrected or sufficient return within twenty days after the return is required by notice from the department, the department shall determine the amount of charge due from information as the department may be able to obtain and, if necessary, may estimate the charge on the basis of external indices or factors. The department shall give notice of the determination to the person liable for the charge. The determination shall fix the charge unless the person against whom it is assessed shall, within sixty days after the date of the notice of the determination, apply to the director for a hearing or unless the person against whom it is assessed contests the determination by paying the charge, interest, and penalty and timely filing a claim for refund. At the hearing evidence may be offered to support the determination or to prove that it is incorrect. After the hearing the director shall give notice of the decision to the person liable for the charge.

If a depositor’s, receiver’s, or other person’s challenge relates to the diminution rate, the burden of proof upon the challenger shall only be satisfied by clear and convincing evidence.

3. If the amount paid is greater than the correct charge, penalty, and interest due, the department shall refund the excess, with interest after sixty days from the date of payment at the rate in effect under section 421.7, pursuant to rules prescribed by the director. However, the director shall not allow a claim for refund that has not been filed with the department within three years after the charge payment upon which a refund is claimed became due, or one year after the charge payment was made, whichever time is later. A determination by the department of the amount of charge, penalty, and interest due, or the amount of refund for any excess amount paid, is final unless the person aggrieved by the determination appeals to the director for a revision of the determination within sixty days from the date of the notice of determination of charge, penalty, and interest due or refund owing. The director shall grant a hearing, and upon hearing the director shall determine the correct charge, penalty, and interest due or refund owing, and notify the appellant of the decision by mail. The decision of the director is final unless the appellant seeks judicial review of the director’s decision under section 424.13.

424.11 Environmental protection charge lien — collection — action authorized.

Whenever a person liable to pay a charge refuses or neglects to pay the charge, the amount, including any interest, penalty, or addition to the charge, together with the costs that may accrue in addition thereto, shall be a lien in favor of the state upon all property and rights to property, whether real or personal, belonging to that person.

The environmental protection charge lien shall attach at the time the charge becomes due and payable and shall continue for ten years from the time the lien attaches unless sooner released or otherwise discharged. The lien may be extended, within ten years from the date the lien attaches, by filing for record a notice with the appropriate county official of the appropriate county and from the time of such filing, the lien shall be extended to the property in such county for ten years, unless sooner released or otherwise discharged, with no limit on the number of extensions. The director shall charge off any account whose lien is allowed to lapse and may charge off any account and re-lapse if the director determines under uniform rules adopted by the board that the account is uncollectible or collection costs involved would not warrant collection of the amount due.

In order to preserve the lien against subsequent mortgagees, purchasers, or judgment creditors, for value and without notice of the lien, on any property situated in a county, the director shall file with the recorder of the county in which the property is located a notice of the lien.

The recorder shall endorse on each notice of lien the day, hour, and minute when received and preserve the notice, and shall immediately index the notice and record the lien in the manner provided for recording real estate mortgages, and the lien shall be effective from the time of its indexing.

The department shall pay a recording fee as provided in section 331.604, for the recording of the lien, or for its satisfaction.

Upon the payment of a charge as to which the director has filed notice with a county recorder, the director shall immediately file with the recorder a satisfaction of the charge and the recorder shall enter the satisfaction on the notice on file in the recorder’s office and indicate that fact on the index.

The department shall proceed, substantially as provided in this chapter, to collect all charges and penalties as soon as practicable after the same become delinquent, except that no property of the depositor shall be exempt from the payment of the
charge. In the event service has not been made on a distress warrant by the officer to whom addressed within five days from the date the distress warrant was received by the officer, the authorized revenue agents of the department are hereby empowered to serve and make return of the warrant to the clerk of the district court of the county named in the distress warrant, and all subsequent procedure shall be in compliance with chapter 626.

The attorney general shall, upon the request of the director, bring an action at law or in equity, as the facts may justify, without bond, to enforce payment of any charges and penalties, and in such action the attorney general shall have the assistance of the county attorney of the county in which the action is pending.

It is expressly provided that the foregoing remedies of the state shall be cumulative and that no action taken by the director or attorney general shall be construed to be an election on the part of the state or any of its officers to pursue any remedy hereunder to the exclusion of any other remedy provided by law.

When requested to do so by any person from whom a charge payer is seeking credit, or with whom the charge payer is negotiating the sale of any personal property, or by any other person having a legitimate interest in such information, the director, upon being satisfied that such a situation exists, shall inform that person as to the amount of unpaid charges due by the charge payer under this chapter. 425.1 **Homestead credit fund — apportionment — payment.**

1. A homestead credit fund is created. There is appropriated annually from the general fund of the state to the department of revenue to be credited to the homestead credit fund, an amount sufficient to implement this chapter.

   The director of the department of administrative services shall issue warrants on the homestead credit fund payable to the county treasurers of the several counties of the state under this chapter.

2. The homestead credit fund shall be apportioned each year so as to give a credit against the tax on each eligible homestead in the state in an amount equal to the actual levy on the first four thousand eight hundred fifty dollars of actual value for each homestead.

3. The amount due each county shall be paid in two payments on November 15 and March 15 of each fiscal year, drawn upon warrants payable to the respective county treasurers. The two payments shall be as nearly equal as possible.

4. Annually the department of revenue shall estimate the credit to exceed the actual levy on the first four thousand eight hundred fifty dollars of actual value of each eligible homestead, and shall certify to the county auditor of each county the credit and its amount in dollars. Each county auditor shall then enter the credit against the tax levied on each eligible homestead in each county payable during the ensuing year, designating on the tax lists the credit as being from the homestead credit fund, and credit shall then be given to the several taxing districts in which eligible homesteads are located in an amount equal to the credits allowed on the taxes of the homesteads. The amount of credits shall be apportioned by each county treasurer to the several taxing districts as provided by law, in the same manner as though the
amount of the credit had been paid by the owners of the homesteads. However, the several taxing districts shall not draw the funds so credited until after the semianual allocations have been received by the county treasurer, as provided in this chapter. Each county treasurer shall show on each tax receipt the amount of credit received from the homestead credit fund.

5. If the homestead tax credit computed under this section is less than sixty-two dollars and fifty cents, the amount of homestead tax credit on that eligible homestead shall be sixty-two dollars and fifty cents subject to the limitation imposed in this section.

6. The homestead tax credit allowed in this chapter shall not exceed the actual amount of taxes payable on the eligible homestead, exclusive of any special assessments levied against the homestead.

425.2 Qualifying for credit.

A person who wishes to qualify for the credit allowed under this chapter shall obtain the appropriate forms for filing for the credit from the assessor. The person claiming the credit shall file a verified statement and designation of homestead with the assessor for the year for which the person is first claiming the credit. The claim shall be filed not later than July 1 of the year for which the person is claiming the credit. A claim filed after July 1 of the year for which the person is claiming the credit shall be considered as a claim filed for the following year.

Upon the filing and allowance of the claim, the claim shall be allowed on that homestead for successive years without further filing as long as the property is legally or equitably owned and used as a homestead by that person or that person’s spouse on July 1 of each of those successive years, and the owner of the property being claimed as a homestead declares residency in Iowa for purposes of income taxation, and the property is occupied by that person or that person’s spouse for at least six months in each of those calendar years in which the fiscal year begins. When the property is sold or transferred, the buyer or transferee who wishes to qualify shall refile for the credit. However, when the property is transferred as part of a distribution made pursuant to chapter 598, the transferee who is the spouse retaining ownership of the property is not required to refile for the credit. Property divided pursuant to chapter 598 shall not be modified following the division of the property. An owner who ceases to use a property for a homestead or intends not to use it as a homestead for at least six months in a calendar year shall provide written notice to the assessor by July 1 following the date on which the use is changed. A person who sells or transfers a homestead or the personal representative of a deceased person who had a homestead at the time of death, shall provide written notice to the assessor that the property is no longer the homestead of the former claimant.

In case the owner of the homestead is in active service in the armed forces of this state or of the United States, or is sixty-five years of age or older, or is disabled, the statement and designation may be signed and delivered by any member of the owner’s family, by the owner’s guardian or conservator, or by any other person who may represent the owner under power of attorney. If the owner of the homestead is married, the spouse may sign and deliver the statement and designation. The director of human services or the director’s designee may make application for the benefits of this chapter as the agent for and on behalf of persons receiving assistance under chapter 249.

Any person sixty-five years of age or older or any person who is disabled may request, in writing, from the appropriate assessor forms for filing for homestead tax credit. Any person sixty-five years of age or older or who is disabled may complete the form, which shall include a statement of homestead, and mail or return it to the appropriate assessor. The signature of the claimant on the statement shall be considered the claimant’s acknowledgment that all statements and facts entered on the form are correct to the best of the claimant’s knowledge.

Upon adoption of a resolution by the county board of supervisors, any person may request, in writing, from the appropriate assessor forms for the filing for homestead tax credit. The person may complete the form, which shall include a statement of homestead, and mail or return it to the appropriate assessor. The signature of the claimant on the statement of homestead shall be considered the claimant’s acknowledgment that all statements and facts entered on the form are correct to the best of the claimant’s knowledge.

425.3 Verification of claims for homestead credit.

The assessor shall retain a permanent file of current homestead claims filed in the assessor’s office. The assessor shall file a notice of transfer of property for which a claim is filed when notice is received from the office of the county recorder.

The county recorder shall give notice to the assessor of each transfer of title filed in the record-
er's office. The notice shall describe the property transferred, the name of the person transferring the title to the property, and the name of the person to whom title to the property has been transferred.

Not later than July 6 of each year, the assessor shall remit the statements and designation of homesteads to the county auditor with the assessor's recommendation for allowance or disallowance. If the assessor recommends disallowance of a claim, the assessor shall submit the reasons for the recommendation, in writing, to the county auditor.

The county auditor shall forward the claims to the board of supervisors. The board shall allow or disallow the claims. If the board disallows a claim, it shall send written notice, by mail, to the claimant at the claimant's last known address. The notice shall state the reasons for disallowing the claim for the credit. The board is not required to send notice that a claim is disallowed if the claimant voluntarily withdraws the claim.

425.4 Certification to treasurer.

All claims which have been allowed by the board of supervisors shall be certified on or before August 1, in each year, by the county auditor to the county treasurer, which certificates shall list the total amount of dollars, listed by taxing district in the county, due for homestead tax credits claimed and allowed. The county treasurer shall forthwith certify to the department of revenue the total amount of dollars, listed by taxing district in the county, due for homestead tax credits claimed and allowed.

425.5 Correcting listing.

If the assessor who last listed and valued a claimed eligible homestead did not, in the description and valuation thereof, comply with the provisions of section 428.7, the assessor shall, if still in office, on the written request of such claimant and without expense to the claimant or to the county, correct the listing and valuations of such claimed homestead and contiguous real property originally listed and valued by the assessor, and file such corrected listing and valuations with the county auditor, who forthwith shall certify the same to the county treasurer, and said county treasurer shall so correct the tax books; provided, that if the assessor who last listed and valued such property is not still in office, the assessor in office shall, on such written request and at the expense of the county, so correct such listing and valuations of said homestead and said contiguous real property.

425.6 Waiver by neglect.

If a person fails to file a claim or to have a claim on file with the assessor for the credits provided in this chapter, the person is deemed to have waived the homestead credit for the year in which the person failed to file the claim or to have a claim on file with the assessor.

425.7 Appeals permitted — disallowed claims and penalty.

1. Any person whose claim is denied under the provisions of this chapter may appeal from the action of the board of supervisors to the district court of the county in which said claimed homestead is situated by giving written notice of such appeal to the county auditor of said county within twenty days from the date of mailing of notice of such action by the board of supervisors.

2. In the event any claim under this chapter is allowed, any owner of an eligible homestead may appeal from the action of the board of supervisors to the district court of the county in which said claimed homestead is situated, by giving written notice of such appeal to the county auditor of said county and such notice to the owner of said claimed homestead as a judge of the district court shall direct.

3. If the director of revenue determines that a claim for homestead credit has been allowed by the board of supervisors which is not justifiable under the law and not substantiated by proper facts, the director may, at any time within thirty-six months from July 1 of the year in which the claim is allowed, set aside the allowance. Notice of the disallowance shall be given to the county auditor of the county in which the claim has been improperly granted and a written notice of the disallowance shall also be addressed to the claimant at the claimant's last known address. The claimant or board of supervisors may appeal to the state board of tax review pursuant to section 421.1, subsection 4. The claimant or the board of supervisors may seek judicial review of the action of the state board of tax review in accordance with chapter 17A.

If a claim is disallowed by the director of revenue and not appealed to the state board of tax review or appealed to the state board of tax review and thereafter upheld upon final resolution, including any judicial review, any amounts of credits allowed and paid from the homestead credit fund including the penalty, if any, become a lien upon the property on which credit was originally granted, if still in the hands of the claimant, and not in the hands of a bona fide purchaser, and any amount so erroneously paid including the penalty,
425.8 Forms — rules.
The director of revenue shall prescribe the form for the making of verified statement and designation of homestead, the form for the supporting affidavits required herein, and such other forms as may be necessary for the proper administration of this chapter. Whenever necessary, the department of revenue shall forward to the county auditors of the several counties in the state the prescribed sample forms, and the county auditors shall furnish blank forms prepared in accordance therewith with the assessment rolls, books, and supplies delivered to the assessors. The department of revenue shall prescribe and the county auditors shall provide on the forms for claiming the homestead credit a statement to the effect that the owner realizes that the owner must give written notice to the assessor when the owner changes the use of the property.

The director of revenue may prescribe rules, not inconsistent with the provisions of this chapter, necessary to carry out and effectuate its purposes.

425.9 Credits in excess of tax — appeals — refunds.
If any claim for credit made hereunder has been denied by the board of supervisors, and such action is subsequently reversed on appeal, the credit shall be allowed on the homestead involved in said appeal, and the director of revenue, the county auditor, and the county treasurer shall make such credit and change their books and records accordingly.

In the event the appealing taxpayer has paid one or both of the installments of the tax payable in the year or years in question on such homestead valuation, remittance shall be made to such taxpayer of the amount of such credit.

The amount of such credit shall be allocated and paid from the surplus redeposited in the homestead credit fund provided for in the first paragraph of this section.

425.10 Reversal of allowed claim.
In the event any claim is allowed, and subsequently reversed on appeal, any credit made thereunder shall be void, and the amount of such credit shall be charged against the property in question, and the director of revenue, the county auditor, and the county treasurer are authorized and directed to correct their books and records accordingly. The amount of such erroneous credit, when collected, shall be returned by the county treasurer to the homestead credit fund to be reallocated the following year as provided herein.

The credit allowed shall be continued to the estate of a veteran who is deceased or the surviving spouse and any child, as defined in section 234.1, who are the beneficiaries of a deceased veteran, so long as the surviving spouse remains unmarried. This section is not applicable to the holder of title to any homestead whose annual income, together with that of the titleholder’s spouse, if any, for the last preceding twelve-month income tax accounting period exceeds thirty-five thousand dollars. For the purpose of this section “income” means taxable income for federal income tax purposes plus income from securities of state and other political subdivisions exempt from federal income tax. A veteran or a beneficiary of a veteran who elects to secure the credit provided in this section is not eligible for any other real property tax exemption provided by law for veterans of military service. If a veteran acquires a different homestead, the credit allowed under this section may be claimed on the new homestead unless the veteran fails to meet the other requirements of this section.

PROPERTY TAX RELIEF — PERSONS WHO ARE ELDERLY, PERSONS WITH DISABILITIES, AND OTHER PERSONS

425.16 Additional tax credit. In addition to the homestead tax credit allowed under section 425.1, subsections 1 to 4, persons who own or rent their homesteads and who meet the qualifications provided in this division are eligible for an extraordinary property tax credit or reimbursement.

425.17 Definitions. As used in this division, unless the context otherwise requires:

1. “Base year” means the calendar year last ending before the claim is filed.
2. “Claimant” means either of the following:
   a. A person filing a claim for credit or reimbursement under this division who has attained the age of sixty-five years on or before December 31 of the base year or who is totally disabled and was totally disabled on or before December 31 of the base year and is domiciled in this state at the time the claim is filed or at the time of the person’s death in the case of a claim filed by the executor or administrator of the claimant’s estate.
   b. A person filing a claim for credit or reimbursement under this division who has attained the age of twenty-three years on or before December 31 of the base year or was a head of household on December 31 of the base year, as defined in the Internal Revenue Code, but has not attained the age or disability status described in paragraph “a”, and is domiciled in this state at the time the claim is filed or at the time of the person’s death in the case of a claim filed by the executor or administrator of the claimant’s estate, and was not claimed as a dependent on any other person’s tax return for the base year.
   “Claimant” under paragraph “a” or “b” includes a vendee in possession under a contract for deed and may include one or more joint tenants or tenants in common. In the case of a claim for rent constituting property taxes paid, the claimant shall have rented the property during any part of the base year. In the case of a claim for property taxes due, the claimant shall have occupied the property during any part of the fiscal year beginning July 1 of the base year. If a homestead is occupied by two or more persons, and more than one person is able to qualify as a claimant, the persons may file a claim based upon each person’s income and may be claimed as a claimant based upon each person’s income and rent constituting property taxes paid or property taxes due.
3. “Gross rent” means rental paid at arm’s length for the right of occupancy of a homestead or manufactured or mobile home, including rent for space occupied by a manufactured or mobile home not to exceed one acre. If the director of revenue determines that the landlord and tenant have not dealt with each other at arm’s length, and the director of revenue is satisfied that the gross rent charged was excessive, the director shall adjust the gross rent to a reasonable amount as determined by the director.
4. “Homestead” means the dwelling owned or rented and actually used as a home by the claimant during the period specified in subsection 2, and so much of the land surrounding it including one or more contiguous lots or tracts of land, as is reasonably necessary for use of the dwelling as a home, and may consist of a part of a multidwelling or multipurpose building and a part of the land upon which it is built. It does not include personal property except that a manufactured or mobile home may be a homestead. Any dwelling or a part of a multidwelling or multipurpose building which is exempt from taxation does not qualify as a
homestead under this division. However, solely for purposes of claimants living in a property and receiving reimbursement for rent constituting property taxes paid immediately before the property becomes tax exempt, and continuing to live in it after it becomes tax exempt, the property shall continue to be classified as a homestead. A homestead must be located in this state. When a person is confined in a nursing home, extended-care facility, or hospital, the person shall be considered as occupying or living in the person’s homestead if the person is the owner of the homestead and the person maintains the homestead and does not lease, rent, or otherwise receive profits from other persons for the use of the homestead.

5. “Household” means a claimant and the claimant’s spouse if living with the claimant at any time during the base year. “Living with” refers to domicile and does not include a temporary visit.

6. “Household income” means all income of the claimant and the claimant’s spouse in a household and actual monetary contributions received from any other person living with the claimant during their respective twelve-month income tax accounting periods ending with or during the base year.

7. “Income” means the sum of Iowa net income as defined in section 422.7, plus all of the following to the extent not already included in Iowa net income: capital gains, alimony, child support money, cash public assistance and relief, except property tax relief granted under this division, amount of in-kind assistance for housing expenses, the gross amount of any pension or annuity, including but not limited to railroad retirement benefits, payments received under the federal Social Security Act, except child insurance benefits received by a member of the claimant’s household, and all military retirement and veterans’ disability pensions, interest received from the state or federal government or any of its instrumentalities, workers’ compensation and the gross amount of disability income or “loss of time” insurance. “Income” does not include gifts from nongovernmental sources, or surplus foods or other relief in kind supplied by a governmental agency. In determining income, net operating losses and net capital losses shall not be considered.

8. “Property taxes due” means property taxes including any special assessments, but exclusive of delinquent interest and charges for services, due on a claimant’s homestead in this state, but includes only property taxes for which the claimant is liable and which would have to be paid by the claimant if the payment of the taxes has not been suspended pursuant to sections 427.8 and 427.9. “Property taxes due” shall be computed with no deduction for any credit under this division or for any homestead credit allowed under section 425.1. Each claim shall be based upon the taxes due during the fiscal year next following the base year. If a homestead is owned by two or more persons as joint tenants or tenants in common, and one or more persons are not members of claimant’s household, “property taxes due” is that part of property taxes due on the homestead which equals the ownership percentage of the claimant and the claimant’s household. The county treasurer shall include with the tax receipt a statement that if the owner of the property is eighteen years of age or over, the person may be eligible for the credit allowed under this division. If a homestead is an integral part of a farm, the claimant may use the total property taxes due for the larger unit. If a homestead is an integral part of a multidwelling or multipurpose building the property taxes due for the purpose of this subsection shall be prorated to reflect the portion which the value of the property that the household occupies as its homestead is to the value of the entire structure. For purposes of this subsection, “unit” refers to that parcel of property covered by a single tax statement of which the homestead is a part.

9. “Rent constituting property taxes paid” means twenty-three percent of the gross rent actually paid in cash or its equivalent during the base year by the claimant or the claimant’s household solely for the right of occupancy of their homestead in the base year, and which rent constitutes the basis, in the succeeding year, of a claim for reimbursement under this division by the claimant.

10. “Special assessment” means an unpaid special assessment certified pursuant to chapter 384, division IV. The claimant may include as a portion of the taxes due during the fiscal year next following the base year an amount equal to the unpaid special assessment installment due, plus interest, during the fiscal year next following the base year.

11. “Totally disabled” means the inability to engage in any substantial gainful employment by reason of any medically determinable physical or mental impairment which can be expected to result in death or which has lasted or is reasonably expected to last for a continuous period of not less than twelve months.

The right to file a claim for reimbursement or credit under this division may be exercised by the claimant or on behalf of a claimant by the claimant’s legal guardian, spouse, or attorney, or by the executor or administrator of the claimant’s estate. If a claimant dies after having filed a claim for reimbursement for rent constituting property taxes paid, the amount of the reimbursement may be paid to another member of the household as determined by the director. If the claimant was the only member of the household, the reimbursement may be paid to the claimant’s executor or administrator, but if neither is appointed and qualified within one year from the date of the filing of the claim, the reimbursement shall escheat to the state. If a claimant dies after having filed a claim for credit for property taxes due, the amount of credit shall be paid as if the claimant had not died.

425.19 Claim and credit or reimbursement.

Subject to the limitations provided in this division, a claimant may annually claim a credit for property taxes due during the fiscal year next following the base year or claim a reimbursement for rent constituting property taxes paid in the base year. The amount of the credit for property taxes due for a homestead shall be paid on June 15 of each year by the director to the county treasurer who shall credit the money received against the amount of the property taxes due and payable on the homestead of the claimant and the amount of the reimbursement for rent constituting property taxes paid shall be paid to the claimant from the state general fund on or before December 31 of each year.

425.20 Filing dates — affidavit — extension.

A claim for reimbursement for rent constituting property taxes paid shall not be paid or allowed, unless the claim is filed with and in the possession of the department of revenue on or before June 1 of the year following the base year.

A claim for credit for property taxes due shall not be paid or allowed unless the claim is filed with the county treasurer between January 1 and June 1, both dates inclusive, immediately preceding the fiscal year during which the property taxes are due. However, in case of sickness, absence, or other disability of the claimant, or if in the judgment of the county treasurer good cause exists, the county treasurer may extend the time for filing a claim for credit through September 30 of the same calendar year. The county treasurer shall certify to the director of revenue on or before May 1 of each year the total amount of dollars due for claims allowed.

In case of sickness, absence, or other disability of the claimant or if, in the judgment of the director of revenue, good cause exists and the claimant requests an extension, the director may extend the time for filing a claim for reimbursement or credit. However, any further time granted shall not extend beyond December 31 of the year following the year in which the claim was required to be filed. Claims filed as a result of this paragraph shall be filed with the director who shall provide for the reimbursement of the claim to the claimant.

2. The actual credit for property taxes due shall be determined by subtracting from the tentative credit the amount of the homestead credit under section 425.1 which is allowed as a credit against property taxes due in the fiscal year next following the base year by the claimant or any person of the claimant's household. If the subtraction produces a negative amount, there shall be no credit but no refund shall be required. The actual reimbursement for rent constituting property taxes paid shall be equal to the tentative reimbursement.

3. a. A person who is eligible to file a claim for credit for property taxes due and who has a household income of eight thousand five hundred dollars or less and who has an unpaid special assessment levied against the homestead may file a claim for a special assessment credit with the county treasurer. The department shall provide to the respective treasurers the forms necessary for the administration of this subsection. The claim shall be filed not later than September 30 of each year. Upon the filing of the claim, interest for late payment shall not accrue against the amount of the unpaid special assessment due and payable. The claim filed by the claimant constitutes a claim for credit of an amount equal to the actual amount due upon the unpaid special assessment, plus interest, payable during the fiscal year for which the claim is filed against the homestead of the claimant. However, where the claimant is an individual described in section 425.17, subsection 2, paragraph "b", and the tentative credit is determined according to the schedule in subsection 1, paragraph "b", subparagraph (2), of this section, the claim filed constitutes a claim for credit of an amount equal to one-half of the actual amount due and payable during the fiscal year. The treasurer shall certify to the director of revenue not later than October 15 of each year the total amount of dollars due for claims allowed. The amount of reimbursement due each county shall be certified by the director of revenue and paid by the director of the department of administrative services by November 15 of each year, drawn upon warrants payable to the respective treasurer. There is appropriated annually from the general fund of the state to the department of revenue an amount sufficient to carry out the provisions of this subsection. The treasurer shall credit any moneys received from the department against the amount of the unpaid special assessment due and payable on the homestead of the claimant.

b. For purposes of this subsection, in computing household income, a person with a total disability shall deduct all medical and necessary care expenses paid during the twelve-month income tax accounting periods used in computing household income which are attributable to the person's total disability. "Medical and necessary care expenses" are those used in computing the federal income tax deduction under section 213 of the Internal Revenue Code as defined in section 422.3.

4. a. For the base year beginning in the 1999 calendar year and for each subsequent base year, the dollar amounts set forth in subsections 1 and 3 shall be multiplied by the cumulative adjust-
ment factor for that base year. “Cumulative adjustment factor” means the product of the annual adjustment factor for the 1998 base year and all annual adjustment factors for subsequent base years. The cumulative adjustment factor applies to the base year beginning in the calendar year for which the latest annual adjustment factor has been determined.

b. The annual adjustment factor for the 1998 base year is one hundred percent. For each subsequent base year, the annual adjustment factor equals the annual inflation factor for the calendar year, in which the base year begins, as computed in section 422.4 for purposes of the individual income tax.

425.27 Audit — recalculation or denial.
If on the audit of a claim for credit or reimbursement under this division, the director determines the amount of the claim in the claim to have been incorrectly calculated or that the claim is not allowable, the director shall recalculate the claim and notify the claimant of the recalculation or denial and the reasons for it. The director shall not adjust a claim after three years from October 31 of the year in which the claim was filed. If the claim for reimbursement has been paid, the amount may be recovered by assessment in the same manner that income taxes are assessed under sections 422.26 and 422.30. If the claim for credit has been paid, the director shall give notification to the claimant and the county treasurer of the recalculation or denial and the claimant and the county treasurer shall proceed to collect the tax owed in the same manner as other property taxes due and payable are collected, if the property on which the credit was granted is still owned by the claimant, and repay the amount to the director upon collection. If the property on which the credit was granted is not owned by the claimant, the amount may be recovered from the claimant by assessment in the same manner that income taxes are assessed under sections 422.26 and 422.30. The recalculation of the claim shall be final unless appealed as provided in section 425.31. Section 422.70 is applicable with respect to this division.

If the amount of claims for credit for property taxes due to be paid during the fiscal year exceed the amount remaining after payment to renters, the director of revenue shall prorate the payments to the counties for the property tax credit. In order for the director to carry out the requirements of this subsection, notwithstanding any provision to the contrary in this division, claims for reimbursement for rent constituting property taxes paid filed before May 1 of the fiscal year shall be eligible to be paid in full during the fiscal year and those claims filed on or after May 1 of the fiscal year shall be eligible to be paid during the following fiscal year and the director is not required to make payments to counties for the property tax credit before June 15 of the fiscal year.  

CHAPTER 425A  
FAMILY FARM TAX CREDIT  

425A.1 Family farm tax credit fund.  
The family farm tax credit fund is created in the office of the treasurer of state. There shall be transferred annually to the fund the first ten million dollars of the amount annually appropriated to the agricultural land credit fund, provided in section 426.1. Any balance in the fund on June 30 shall revert to the general fund.  
90 Acts, ch 1250, §10; 93 Acts, ch 180, §10  

425A.2 Definitions.  
As used in this chapter, unless the context otherwise requires:  
1. “Actively engaged in farming” means the designated person is personally involved in the production of crops and livestock on the eligible tract on a regular, continuous, and substantial basis. However, a lessor, whether under a cash or a crop share lease, is not actively engaged in farming on the area of the tract covered by the lease. This provision applies to both written and oral leases.  
2. “Agricultural land” means land in tracts of ten acres or more excluding any buildings or other structures located on the land, and not laid off into lots of less than ten acres or divided by streets and alleys into parcels of less than ten acres, lying within a school corporation and in good faith used for agricultural or horticultural purposes. Any land in tracts laid off or platted into lots of less than ten acres belonging to and a part of other lands of more than ten acres and in good faith used for agricultural or horticultural purposes is entitled to the benefits of this chapter.  
3. “Crop” or “crop production” includes pastureland.  
4. “Designated person” means one of the following:  
a. If the owner is an individual, the designated
person includes the owner of the tract, the owner’s spouse, the owner’s child or stepchild, and their spouses, or the owner’s relative within the third degree of consanguinity, and the relative’s spouse.

b. If the owner is a partnership, a partner, or the partner’s spouse.

c. If the owner is a family farm corporation, a family member who is a shareholder of the family farm corporation or the shareholder’s spouse.

d. If the owner is an authorized farm corporation, a shareholder who owns at least fifty-one percent of the stock of the authorized farm corporation or the shareholder’s spouse.

e. If the owner is an individual who leases the tract to a family farm corporation, a shareholder of the corporation if the combined stock of the family farm corporation owned by the owner of the tract and persons related to the owner as enumerated in paragraph “a” is equal to at least fifty-one percent of the stock of the family farm corporation.

f. If the owner is an individual who leases the tract to a partnership, a partner if the combined partnership interest owned by a designated person as defined in paragraph “a” is equal to at least fifty-one percent of the ownership interest of the partnership.

5. “Eligible tract” or “eligible tract of agricultural land” means an area of agricultural land which meets all of the following:

a. Is comprised of all of the contiguous tracts under identical legal ownership that are located within the same county.

b. In the aggregate more than half the acres of the contiguous tract is devoted to the production of crops or livestock by a designated person who is actively engaged in farming.

c. For purposes of paragraph “b”, if some or all of the contiguous tract is being farmed under a lease arrangement, the activities of the lessee do not constitute being actively engaged in farming on the areas of the tract covered by the lease. If the lessee is a designated person who is actively engaged in farming, the acres under lease may be considered in determining whether more than half the acres of the contiguous tract are devoted to the production of crops or livestock.

6. “Owner” means any of the following:

a. An individual who holds the fee simple title to the agricultural land.

b. An individual who owns the agricultural land under a contract of purchase which has been recorded in the office of the county recorder of the county in which the agricultural land is located.

c. An individual who owns the agricultural land under devise or by operation of the inheritance laws, where the whole interest passes or where the divided interest is shared only by individuals related or formerly related to each other by blood, marriage, or adoption.

d. An individual who owns the agricultural land under a deed which conveys a divided interest, where the divided interest is shared only by individuals related or formerly related to each other by blood, marriage, or adoption.

e. A partnership where all partners are related or formerly related to each other by blood, marriage, or adoption.

f. A family farm corporation or authorized farm corporation, as both are defined in section 9H.1, which owns the agricultural land.

90 Acts, ch 1250, §11; 91 Acts, ch 267, §609 – 611; 96 Acts, ch 1198, §1, 2

425A.3 Where credit given.

1. The family farm tax credit fund shall be apportioned each year in the manner provided in this chapter so as to give a credit against the tax on each eligible tract of agricultural land within the several school districts of the state in which the levy for the general school fund exceeds five dollars and forty cents per thousand dollars of assessed value. The amount of the credit on each eligible tract of agricultural land shall be the amount the tax levied for the general school fund exceeds the amount of tax which would be levied on each eligible tract of agricultural land were the levy for the general school fund five dollars and forty cents per thousand dollars of assessed value for the previous year. However, in the case of a deficiency in the family farm tax credit fund to pay the credits in full, the credit on each eligible tract of agricultural land in the state shall be proportionate and applied as provided in this chapter.

2. An eligible tract of agricultural land qualifies for the credit computed under subsection 1 if the tract is owned by an owner as defined in section 425A.2 and a designated person is actively engaged in farming during the fiscal year preceding the fiscal year in which the auditor computes the amount of the credit under section 425A.5 for which the tract would be eligible. Notwithstanding the foregoing sentence, the “actively engaged in farming” requirement is satisfied if the designated person is in general control of the tract under a federal program pertaining to agricultural land.

3. The county board of supervisors shall determine the eligibility of each tract for which an application is received.

90 Acts, ch 1250, §12; 91 Acts, ch 267, §612, 613

425A.4 Claim for credit.

1. To apply for the credit, the person shall deliver to the county assessor a verified statement and designation of the tracts of agricultural land for which the credit is claimed. The assessor shall return the statement and designation on or before November 15 of each year to the county board of supervisors with a recommendation for allowance or disallowance. A claim for credit filed after November 1 of the year shall be considered as a claim filed for the following year.

2. The county board of supervisors in each county shall examine all claims delivered to
county assessors, and shall either allow or disallow the claims, and if disallowed shall send notice of disallowance by registered mail to the claimant at the claimant's last known address. The claimant may appeal the decision of the board to the district court in which the tract for which the credit is claimed is situated by giving written notice of the appeal to the county board of supervisors within twenty days from the date of the mailing of the notice of the decision of the board of supervisors.

3. Upon the filing and allowance of the claim, the claim shall be allowed on that tract for successive years without further filing as long as the property is legally or equitably owned by that person or that person's spouse on July 1 of each of those successive years, and the designated person who is actively engaged in farming remains the same during these years. When the property is sold or transferred, the buyer or transferee who wishes to qualify shall file for the credit. However, when the property is transferred as part of a distribution made pursuant to chapter 598, the transferee who is the spouse retaining ownership of the property is not required to file for the credit.

In the case where the owner remains the same but the person who is actively engaged in farming changes, the owner shall refile for the credit. The owner shall provide written notice if the person actively engaged in farming changes.

4. The assessor shall retain a permanent file of current family farm credit claims filed in the assessor's office.

The county recorder shall give notice to the assessor of each transfer of title filed in the recorder's office. The notice shall describe the tract of agricultural land transferred, the name of the person transferring the title to the tract, and the name of the person to whom title to the tract has been transferred.

425A.5 Computation by county auditor.

The family farm tax credit allowed each year shall be computed as follows: On or before April 1, the county auditor shall list by school districts all tracts of agricultural land which are entitled to credit, the taxable value for the previous year, the budget from each school district for the previous year, and the tax rate determined for the general fund of the school district in the manner prescribed in section 444.3 for the previous year, and if the tax rate is in excess of five dollars and forty cents per thousand dollars of assessed value, the auditor shall multiply the tax levy which is in excess of five dollars and forty cents per thousand dollars of assessed value by the total taxable value of the agricultural land entitled to credit in the school district, and on or before April 1, certify the total amount of credit and the total number of acres entitled to the credit to the department of revenue.

425A.6 Warrants authorized by director — proration.

After receiving from the county auditors the certifications provided for in section 425A.3, and during the following fiscal year, the director of revenue shall authorize the department of administrative services to draw warrants on the family farm tax credit fund created in section 425A.1, payable to the county treasurers in the amount certified by the county auditors of the respective counties and mail the warrants to the county auditors on June 1 of each year taking into consideration the relative budget and cash position of the state resources. However, if the family farm tax credit fund is insufficient to pay in full the total of the amounts certified to the director of revenue, the director shall prorate the fund to the county treasurers and shall notify the county auditors of the pro rata percentage on or before June 1.

425A.7 Apportionment by auditor.

CHAPTER 426B
PROPERTY TAX RELIEF — MENTAL HEALTH, MENTAL RETARDATION, AND DEVELOPMENTAL DISABILITIES SERVICES

426B.1 Appropriations — property tax relief fund.

1. A property tax relief fund is created in the state treasury under the authority of the department of human services. The fund shall be separate from the general fund of the state and shall not be considered part of the general fund of the state except in determining the cash position of the state for payment of state obligations. The moneys in the fund are not subject to the provisions of section 8.33 and shall not be transferred, used, obligated, appropriated, or otherwise encumbered except as provided in this chapter. Moneys in the fund may be used for cash flow purposes, provided that any moneys so allocated are returned to the fund by the end of each fiscal year. However, the fund shall be considered a special account for the purposes of section 8.53, relating to elimination of any GAAP deficit. For the purposes of this chapter, unless the context otherwise requires, “property tax relief fund” means the property tax relief fund created in this section.

2. There is appropriated on July 1 of each fiscal year to the property tax relief fund from the
general fund of the state, ninety-five million dollars.
3. There is annually appropriated from the property tax relief fund to the department of human services to supplement the medical assistance appropriation for the fiscal year beginning July 1, 1997, and for succeeding fiscal years, six million six hundred thousand dollars to be used for the nonfederal share of the costs of services provided to minors with mental retardation under the medical assistance program to meet the requirements of section 249A.12, subsection 4. The appropriation in this subsection shall be charged to the property tax relief fund prior to the distribution of moneys from the fund under section 426B.2 and the amount of moneys available for distribution shall be reduced accordingly. However, the appropriation in this subsection shall be considered to be a property tax relief payment for purposes of the combined amount of payments required to achieve fifty percent of the counties’ base year expenditures as provided in section 426B.2, subsection 2.

### 426B.2 Property tax relief fund distributions.

1. The moneys in the property tax relief fund available to counties for a fiscal year shall be distributed as provided in this section. A county’s proportion of the moneys shall be equivalent to the sum of the following three factors:
   a. One-third based upon the county’s proportion of the state’s general population.
   b. One-third based upon the county’s proportion of the state’s total taxable property valuation assessed for taxes payable in the previous fiscal year.
   c. One-third based upon the county’s proportion of all counties’ base year expenditures, as defined in section 331.438.

Moneys provided to a county for property tax relief in a fiscal year, excluding replacement taxes in the property tax relief fund, in accordance with this subsection shall not be less than the amount provided for property tax relief in the previous fiscal year.

2. The distributions under subsection 1 shall continue to be made until the combined amount of the distributions made under subsection 1 are equal to fifty percent of the total of all counties’ base year expenditures as defined in section 331.438.

3. The director of human services shall draw warrants on the property tax relief fund, payable to the county treasurer in the amount due to a county in accordance with subsection 1 and mail the warrants to the county auditors in July and January of each year. Any replacement generation tax in the property tax relief fund as of November 1 shall be paid to the county treasurers in July and January of the fiscal year beginning the following July 1.

4. As used in this chapter, and in sections 331.438 and 331.439, “population” means the latest applicable population estimate issued by the federal government.

### 426B.3 Notification of relief fund payment.

1. The county auditor shall reduce the certified budget amount received from the board of supervisors for the succeeding fiscal year for the county mental health, mental retardation, and developmental disabilities services fund created in section 331.424A by an amount equal to the amount the county will receive from the property tax relief fund pursuant to section 426B.2, for the succeeding fiscal year and the auditor shall determine the rate of taxation necessary to raise the reduced amount. On the tax list, the county auditor shall compute the amount of taxes due and payable on each parcel before and after the amount received from the property tax relief fund is used to reduce the county budget. The director of human services shall notify the county auditor of each county of the amount of moneys the county will receive from the property tax relief fund pursuant to section 426B.2, for the succeeding fiscal year.

The risk pool board shall make its final decisions on or before February 25 regarding acceptance or rejection of the applications for assistance and the total amount accepted shall be considered obligated. For purposes of applying for risk pool assistance and for repaying unused risk pool assistance, the current fiscal year budgeted net expenditure amount shall be deemed to be the higher of either the budgeted net expenditure amount in the management plan approved under section 331.439 for the fiscal year in which the application is made or the prior fiscal year’s net expenditure amount.

(2) Basic eligibility for risk pool assistance shall require a projected net expenditure amount in excess of the sum of one hundred five percent of the county’s current fiscal year budgeted net expenditure amount and any amount of the county’s prior fiscal year ending fund balance in excess of twenty-five percent of the county’s gross expenditures from the services fund in the prior fiscal year. However, if a county’s services fund ending balance in the previous fiscal year was less than

(1) “Net expenditure amount” means a county’s gross expenditures from the services fund for a fiscal year as adjusted by subtracting all services fund revenues for that fiscal year that are received from a source other than property taxes, as calculated on a modified accrual basis.

(2) “Services fund” means a county’s mental health, mental retardation, and developmental disabilities services fund created in section 331.424A.

b. A risk pool is created in the property tax relief fund. The pool shall consist of the moneys credited to the pool by law.

c. A risk pool board is created. The board shall consist of two county auditors, a member of the mental health, mental retardation, developmental disabilities, and brain injury commission who is not a member of a county board of supervisors, a member of the county finance committee created in chapter 333A who is not an elected official, a representative of a provider of mental health or developmental disabilities services selected from nominees submitted by the Iowa association of community providers, and two central point of coordination process administrators, all appointed by the governor, and one member appointed by the director of human services. All members appointed by the governor shall be subject to confirmation by the senate. Members shall serve for three-year terms. A vacancy shall be filled in the same manner as the original appointment. Expenses and other costs of the risk pool board members representing counties shall be paid by the county of origin. Expenses and other costs of risk pool board members who do not represent counties shall be paid from a source determined by the governor. Staff assistance to the board shall be provided by the department of human services and counties. Actuarial expenses and other direct administrative costs shall be charged to the pool.

d. (1) A county must apply to the board for assistance from the risk pool on or before January 25 to cover an unanticipated net expenditure amount in excess of the county’s current fiscal year budgeted net expenditure amount for the county’s services fund. The risk pool board shall make its final decisions on or before February 25 regarding acceptance or rejection of the applications for assistance and the total amount accepted shall be considered obligated. For purposes of applying for risk pool assistance and for repaying unused risk pool assistance, the current fiscal year budgeted net expenditure amount shall be deemed to be the higher of either the budgeted net expenditure amount in the management plan approved under section 331.439 for the fiscal year in which the application is made or the prior fiscal year’s net expenditure amount.

(2) Basic eligibility for risk pool assistance shall require a projected net expenditure amount in excess of the sum of one hundred five percent of the county’s current fiscal year budgeted net expenditure amount and any amount of the county’s prior fiscal year ending fund balance in excess of twenty-five percent of the county’s gross expenditures from the services fund in the prior fiscal year. However, if a county’s services fund ending balance in the previous fiscal year was less than

a. A per capita expenditure target pool is created in the property tax relief fund. The pool shall consist of the moneys credited to the pool by law.

b. A statewide per capita expenditure target amount is established. The statewide per capita expenditure target amount shall be equal to the one-hundredth percentile of all county per capita expenditures in the fiscal year beginning July 1, 1997, and ending June 30, 1998.

c. Moneys available in the per capita expenditure pool for a fiscal year shall be distributed to those counties that meet all of the following eligibility requirements:

(1) The county is levying the maximum amount allowed for the county’s mental health, mental retardation, and developmental disabilities services fund under section 331.424A.

(2) The county’s per capita expenditure in the latest fiscal year for which the actual expenditure information is available is equal to or less than the statewide per capita expenditure target amount.

(3) In the fiscal year that commenced two years prior to the fiscal year of distribution, the county’s mental health, mental retardation, and developmental disabilities services fund ending balance under generally accepted accounting principles was equal to or less than twenty-five percent of the county’s actual gross expenditures for the fiscal year that commenced two years prior to the fiscal year of distribution.

(4) The county is in compliance with the filing date requirements under section 331.403.

d. The distribution amount a county receives from the moneys available in the pool shall be determined based upon the county’s proportion of the general population of the counties eligible to receive moneys from the pool for that fiscal year. However, a county shall not receive moneys in excess of the amount which would cause the county’s per capita expenditure to exceed the statewide per capita expenditure target. Moneys credited to the per capita expenditure target pool which remain unobligated or unexpended at the close of a fiscal year shall remain in the pool for distribution in the succeeding fiscal year.

e. The department of human services shall annually calculate the amount of moneys due to eligible counties in accordance with this subsection. The department shall authorize the issuance of warrants payable to the county treasurer for the amounts due and the warrants shall be issued in January.

2. Risk pool.

For the purposes of this subsection, unless the context otherwise requires:

(1) “Net expenditure amount” means a county’s gross expenditures from the services fund for a fiscal year as adjusted by subtracting all services fund revenues for that fiscal year that are received from a source other than property taxes, as calculated on a modified accrual basis.

(2) “Services fund” means a county’s mental health, mental retardation, and developmental disabilities services fund created in section 331.424A.

Subsection 2, paragraph c amended
### Exemptions

The following classes of property shall not be taxed:

1. **Federal and state property.** The property of the United States and this state, including state university, university of science and technology, and school lands, except as otherwise provided in this subsection. The exemption herein provided shall not include any real property subject to taxation under any federal statute applicable thereto, but such exemption shall extend to and include all machinery and equipment owned exclusively by the United States or any corporate agency or instrumentality thereof without regard to the manner of the affixation of such machinery and equipment to the land or building upon or in which such property is located, until such time as the Congress of the United States shall expressly authorize the taxation of such machinery and equipment.

   Property of the state operated pursuant to section 904.302, 904.705, or 904.706 that is leased to an entity other than an entity which is exempt from property taxation under this section shall be subject to property taxation for the term of the lease. Property taxes levied against such leased property shall be paid from the revolving farm fund created in section 904.706. The lessor shall file a copy of the lease with the county assessor of the county where the property is located.

2. **Municipal and military property.** The property of a county, township, city, school corporation, levee district, drainage district, or the Iowa national guard, when devoted to public use and not held for pecuniary profit, except property of a municipally owned electric utility held under joint ownership and property of an electric power facility financed under chapter 28F or 476A that shall be subject to taxation under chapter 437A and facilities of a municipal utility that are used for the provision of local exchange services pursuant to chapter 476, but only to the extent such facilities are used to provide such services, which shall be subject to taxation under chapter 433, except that section 433.11 shall not apply. The exemption for property owned by a city or county also applies to property which is operated by a city or county as a library, art gallery or museum, conservatory, botanical garden or display, observatory or science museum, or as a location for holding athletic contests, sports or entertainment events, expositions, meetings or conventions, or leased from the city or county for any such purposes, or leased from the city or county by the Iowa national guard or by a federal agency for the benefit of the Iowa national guard when devoted for public use and not for pecuniary profit. Food and beverages may be served at the events or locations without affecting the exemptions, provided the city has approved the serving of food and beverages on the property if the property is owned by the city or the county has approved the serving of food and beverages on the property if the property is owned by the county.

3. **Public grounds and cemeteries.** Public grounds, including all places for the burial of the dead; and crematoriums with the land, not exceeding one acre, on which they are built and appurtenant thereto, so long as no dividends or profits are derived therefrom.

4. **Fire company buildings and grounds.** The publicly owned buildings and grounds used exclusively for keeping fire engines and implements for extinguishing fires and for meetings of fire companies.

5. **Property of associations of war veterans.** The property of any organization composed wholly of veterans of any war, when such property is devoted entirely to its own use and not held for pecuniary profit. The operation of bingo games on property of such organization shall not adversely affect the exemption of that property under this subsection if all proceeds, in excess of expenses, are used for the legitimate purposes of the organization.

6. **Property of cemetery associations.** Burial grounds, mausoleums, buildings and equipment owned and operated by cemetery associations and used exclusively for the maintenance and care of the cemeteries devoted to interment of human bodies and human remains. The exemption granted by this subsection shall not apply to any property used for the practice of mortuary science.
7. Libraries and art galleries. All grounds and buildings used for public libraries, public art galleries, and libraries and art galleries owned and kept by private individuals, associations, or corporations, for public use and not for private profit.

8. Property of religious, literary, and charitable societies. All grounds and buildings used or under construction by literary, scientific, charitable, benevolent, agricultural, and religious institutions and societies solely for their appropriate objects, not exceeding three hundred twenty acres in extent and not leased or otherwise used or under construction with a view to pecuniary profit. However, an organization mentioned in this subsection whose primary objective is to preserve land in its natural state may own or lease land not exceeding three hundred twenty acres in each county for its appropriate objects. All deeds or leases by which such property is held shall be filed for record before the property herein described shall be omitted from the assessment. All such property shall be listed upon the tax rolls of the district or districts in which it is located and shall have ascribed to it an actual fair market value and an assessed or taxable value, as contemplated by section 441.21, whether such property be subject to a levy or be exempted as herein provided and such information shall be open to public inspection.

9. Property of educational institutions. Real estate owned by any educational institution of this state as a part of its endowment fund, to the extent of one hundred sixty acres in any civil township except any real property acquired after January 1, 1965, by any educational institution as a part of its endowment fund or upon which any income is derived or used, directly or indirectly, for full or partial payment for services rendered, shall be taxed beginning with the levies applied for taxes payable in the year 1967, at the same rate as all other property of the same class in the taxing district in which the real property is located. The property acquired prior to January 1, 1965, and held or owned as part of the endowment fund of an educational institution shall be subject to assessment and levy in the assessment year 1974 for taxes payable in 1975. All the property shall be listed on the assessment rolls in the district in which the property is located and an actual fair market value and an assessed or taxable value be ascribed to it, as contemplated by section 441.21, irrespective of whether an exemption under this subsection may be or is affirmed, and the information shall be open to public inspection; it being the intent of this section that the property be valued whether or not it be subject to a levy. Every educational institution claiming an exemption under this subsection shall file with the assessor not later than February 1 of the year for which the exemption is requested, a statement upon forms to be prescribed by the director of revenue, describing and locating the property upon which exemption is claimed. Property which is located on the campus grounds and used for student union purposes may serve food and beverages without affecting its exemption received pursuant to subsection 8 or this subsection.

10. Homes for soldiers. The buildings and grounds of homes owned and operated by organizations of soldiers, sailors, or marines of any of the wars of the United States when used for a home for disabled soldiers, sailors, or marines and not operated for pecuniary profit.

11. Agricultural produce. Growing agricultural and horticultural crops except commercial orchards and vineyards.

12. Government lands. Government lands entered and located, or lands purchased from this state, for the year in which the entry, location, or purchase is made.

13. Public airports. Any lands, the use of which (without charge by or compensation to the holder of the legal title thereto) has been granted to and accepted by the state or any political subdivision thereof for airport or aircraft landing area purposes.

14. Statement of objects and uses filed. A society or organization claiming an exemption under subsection 5, 8, or 33 shall file with the assessor not later than February 1 a statement upon forms to be prescribed by the director of revenue, describing the nature of the property upon which the exemption is claimed and setting out in detail any uses and income from the property derived from the rentals, leases, or other uses of the property not solely for the appropriate objects of the society or organization. Upon the filing and allowance of the claim, the claim shall be allowed on the property for successive years without further filing as long as the property is used for the purposes specified in the original claim for exemption. When the property is sold or transferred, the county recorder shall provide notice of the transfer to the assessor. The notice shall describe the property transferred and the name of the person to whom title to the property is transferred.

The assessor, in arriving at the valuation of any property of the society or organization, shall take into consideration any uses of the property not for the appropriate objects of the organization and shall assess in the same manner as other property, all or any portion of the property involved which is leased or rented and is used regularly for commercial purposes for a profit to a party or individual. If a portion of the property is used regularly for commercial purposes, an exemption shall not be allowed upon property so used and the exemption granted shall be in the proportion of the value of the property used solely for the appropriate objects of the organization, to the entire value of the property. However, the board of trustees or the board of directors of a hospital, as defined in section 135B.1, may permit use of a portion of the hospital for commercial purposes, and the hospital is
entitled to full exemption for that portion used for nonprofit health-related purposes, upon compliance with the filing requirements of this subsection.

An exemption shall not be granted upon property upon or in which violations of the laws of the state are permitted. A claimant of an exemption shall, under oath, declare that no violations of law will be knowingly permitted or have been permitted on or after January 1 of the year in which a tax exemption is requested. Claims for exemption shall be verified under oath by the president or other responsible head of the organization. A society or organization which ceases to use the property for the purposes stated in the claim shall provide written notice to the assessor of the change in use.

15. Mandatory denial. No exemption shall be granted upon any property which is the location of federally licensed devices not lawfully permitted to operate under the laws of the state.

16. Revoking or modifying exemption. Any taxpayer or any taxing district may make application to the director of revenue for revocation or modification of any exemption, based upon alleged violations of this chapter. The director of revenue may also on the director’s own motion set aside or modify any exemption which has been granted upon property for which exemption is claimed under this chapter. The director of revenue shall give notice by mail to the taxpayer or taxing district applicant and to the societies or organizations claiming an exemption upon property, exemption of which is questioned before or by the director of revenue, and shall hold a hearing prior to issuing any order for revocation or modification. An order made by the director of revenue revoking or modifying an exemption shall be applicable to the tax year commencing with the tax year in which the application is made to the director or the tax year commencing with the tax year in which the director’s own motion is filed. An order made by the director of revenue revoking or modifying an exemption is subject to judicial review in accordance with chapter 17A, the Iowa administrative procedure Act. Notwithstanding the terms of chapter 17A, petitions for judicial review may be filed in the district court having jurisdiction in the county in which the property is located, and must be filed within thirty days after any order revoking or modifying an exemption is made by the director of revenue.

17. Rural water sales. The real property of a nonprofit corporation engaged in the distribution and sale of water to rural areas when devoted to public use and not held for pecuniary profit.

18. Assessed value of exempt property. Each county and city assessor shall determine the assessment value that would be assigned to the property if it were taxable and value all tax exempt property within the assessor’s jurisdiction. A summary report of tax exempt property shall be filed with the director of revenue and the local board of review on or before April 16 of each year on forms prescribed by the director of revenue.

19. Pollution control and recycling. Pollution-control or recycling property as defined in this subsection shall be exempt from taxation to the extent provided in this subsection, upon compliance with the provisions of this subsection.

This exemption shall apply to new installations of pollution-control or recycling property beginning on January 1 after the construction or installation of the property is completed. This exemption shall apply beginning on January 1, 1975, to an existing installation if the construction or installation was completed after September 23, 1970, and this exemption shall apply beginning January 1, 1994, to recycling property.

This exemption shall be limited to the market value, as defined in section 441.21, of the pollution-control or recycling property. If the pollution-control or recycling property is assessed with other property as a unit, this exemption shall be limited to the net market value added by the pollution-control or recycling property, determined as of the assessment date.

Application for this exemption shall be filed with the assessor on or before the first day of May of the year in which the exemption is requested. The application shall be filed with the assessor and the local board of review not later than the first day of June of the year in which the exemption is requested. An order made by the director of revenue revoking or modifying an exemption is subject to judicial review in accordance with the provisions of chapter 17A.

A taxpayer may seek judicial review of a determination of the director of revenue or, on appeal, of the environmental protection commission in accordance with the provisions of chapter 17A.

The environmental protection commission of the department of natural resources shall adopt rules relating to certification under this subsection and information to be submitted for evaluating pollution-control or recycling property for which a certificate is requested. The department of revenue shall adopt any rules necessary to implement this subsection, including rules on identification and valuation of pollution-control or recycling property. All rules adopted shall be subject to the provisions of chapter 17A.

For the purposes of this subsection, “pollution-control property” means personal property or improvements to real property, or any portion thereof, used primarily to control or abate pollution of any air or water of this state or used primarily to enhance the quality of any air or water of this state.

PROPERTY EXEMPT AND TAXABLE, §427.1
and “recycling property” means personal property or improvements to real property or any portion of the property, used primarily in the manufacturing process and resulting directly in the conversion of waste plastic, wastepaper products, waste paperboard, or waste wood products into new raw materials or products composed primarily of recycled material. In the event such property shall also serve other purposes or uses of productive benefit to the owner of the property, only such portion of the assessed valuation thereof as may reasonably be calculated to be necessary for and devoted to the control or abatement of pollution, to the enhancement of the quality of the air or water of this state, or for recycling shall be exempt from taxation under this subsection.

For the purposes of this subsection, “pollution” means air pollution as defined in section 455B.131 or water pollution as defined in section 455B.171. “Water of the state” means the water of the state as defined in section 455B.171. “Enhance the quality” means to diminish the level of pollutants below the air or water quality standards established by the environmental protection commission of the department of natural resources.

20. Impoundment structures. The impoundment structure and any land underlying an impoundment located outside an incorporated city, which are not developed or used directly or indirectly for nonagricultural income-producing purposes and which are maintained in a condition satisfactory to the soil and water conservation district commissioners of the county in which the impoundment structure and the impoundment are located. A person owning land which qualifies for a property tax exemption under this subsection shall apply to the county assessor each year not later than February 1 for the exemption. The application shall be made on forms prescribed by the department of revenue. The first application shall be accompanied by a copy of the water storage permit approved by the director of the department of natural resources or the director’s designee, and a copy of the plan for the construction of the impoundment structure and the impoundment. The application shall only be granted for parcels of property of two acres, of ten percent of that limitation. The procedures of this subsection shall be followed for each assessment year to procure an exemption for the fiscal year beginning July 1, 1983, the greater of one percent of the acres assessed as agricultural land or three thousand acres in each county, for which this exemption shall apply. For subsequent fiscal years, the limitation on the maximum acreage of real property that may be granted exemptions shall be the limitation for the previous fiscal year, unless the amount of acreage granted exemptions for the previous fiscal year equaled the limitation for that year, then the limitation for the subsequent fiscal year is the limitation for the previous fiscal year plus an increase, not to exceed three hundred acres, of ten percent of that limitation. The procedures of this subsection shall be followed for each assessment year to procure an exemption for the fiscal year beginning in the assessment year. The exemption shall be only for the fiscal year for which it is granted. A parcel of property may be granted subsequent exemptions. The exemption shall only be granted for parcels of property of two acres or more.

Application for this exemption shall be filed with the commissioners of the soil and water conservation district in which the property is located, not later than February 1 of the assessment year, on forms provided by the department of revenue. The application shall describe and locate the property to be exempted and have attached to it an aerial photo of that property on which is outlined the boundaries of the property to be exempted. In the case of an open prairie that has been restored or reestablished, the property shall be inspected and certified as provided by the county board of supervisors as having adequate ground cover consisting of native species and that all primary and secondary noxious weeds present are being controlled to prevent the spread of seeds by either wind or water. In the case of an open prairie which is or includes a gully area susceptible to severe erosion, an approved erosion control plan must accompany the application. Upon receipt of the application, the commissioners shall certify whether the prop-
property is eligible to receive the exemption. The commission­ers shall not withhold certification of the eligibility of property because of the existence upon the property of an abandoned building or structure which is not used for economic gain. If the commissioners certify that the property is eli­gible, the application shall be forwarded to the board of supervisors by May 1 of that assessment year with the certification of the eligible acreage. An application must be accompanied by an affida­vit signed by the applicant that if an exemption is granted, the property will not be used for economic gain during the assessment year in which the ex­emption is granted.

In the case of an open prairie that has been re­stored or reestablished and that does not receive the certification as provided by the county board of supervisors as it relates to the ground cover, the applicant shall be notified of the availability of re­source enhancement and protection fund cost­share moneys and soil and conservation techno­logical assistance for reestablishing native vege­tation.

Before the board of supervisors may designate real property for the exemption, it shall establish priorities for the types of real property for which an exemption may be granted and the amount of acreage. These priorities may be the same as or different than those for previous years. The board of supervisors shall get the approval of the govern­ing body of the city before an exemption may be granted to real property located within the corpo­rate limits of that city. A public hearing shall be held with notice given as provided in section 73A.2 at which the proposed priority list shall be pre­sented. However, no public hearing is required if the proposed priorities are the same as those for the previous year. After the public hearing, the board of supervisors shall adopt by resolution the proposed priority list or another priority list. Property upon which are located abandoned build­ings or structures shall have the lowest priority on the list adopted, except where the board of super­visors determines that a structure has historic sig­nificance. The board of supervisors shall also pro­vide for a procedure where the amount of acres for which exemptions are sought exceeds the amount of the priority list provides for that type or in the ag­gregate for all types.

After receipt of an application with its accompa­nying certification and affidavit and the establish­ment of the priority list, the board of supervisors may grant a tax exemption under this subsection using the established priority list as a mandate. Real property designated for the tax exemption shall be designated by May 15 of the assessment year in which begins the fiscal year for which the exemption is granted. Notification shall be sent to the county auditor and the applicant.

The board of supervisors does not have to grant tax exemptions under this subsection, grant tax exemptions in the aggregate of the maximum acreage which may be granted exemptions, or grant a tax exemption for the total acreage for which the applicant requested the exemption. Only real property in parcels of two acres or more which is recreational lakes, forest cover, river and stream, river and stream banks, or open prairie and which is utilized for the purposes of providing soil erosion control or wildlife habitat or both, and which is subject to property tax for the fiscal year for which the tax exemption is requested, is eligible for the exemption under this subsection. How­ever, in addition to the above, in order for a gully area which is susceptible to severe erosion to be el­igible, there must be an erosion control plan for it approved by the commissioners of the soil and wa­ter conservation district in which it is located. In the case of an open prairie that has been restored or reestablished, the property shall be inspected and certified as provided by the county board of super­visors as having adequate ground cover consisting of native species and that all primary and secondary noxious weeds present are being controlled to prevent the spread of seeds by either wind or water. In the case of an exemption for riv­er and stream or river and stream banks, the ex­emption shall not be granted unless there is in­cluded in the exemption land located at least thirty-three feet from the ordinary high water mark of the river and stream or river and stream banks. Property shall not be denied an exemption because of the existence upon the property of an abandoned building or structure which is not used for economic gain. If the real property is located within a city, the approval of the governing body must be obtained before the real property is eligible for an exemption. For purposes of this subsec­tion:

a. “Open prairies” includes hillsides and gully areas which have a permanent grass cover but does not include native prairies meeting the crite­ria of the natural resource commission.

b. “Forest cover” means land which is predomi­nantly wooded.

c. “Recreational lake” means a body of water, which is not a river or stream, owned solely by a nonprofit organization and primarily used for boating, fishing, swimming and other recreational purposes.

d. “Used for economic gain” includes, but is not limited to, using property for the storage of equip­ment, machinery, or crops.

Notwithstanding other requirements under this subsection, the owner of any property lying between a river or stream and a dike which is re­quired to be set back three hundred feet or less from the river or stream shall automatically be granted an exemption for that property upon sub­mission of an application accompanied by an affi­davit signed by the applicant that if the exemption is granted the property will not be used for eco­nomic gain during the period of exemption. The exemption shall continue from year to year for as
long as the property qualifies and is not used for economic gain, without need for filing additional applications or affidavits. Property exempted pursuant to this paragraph is in addition to the maximum acreage applicable to other exemptions under this subsection.

23. Native prairie and wetland. Land designated as native prairie or land designated as a protected wetland by the department of natural resources pursuant to section 456B.12. Application for the exemption shall be made on forms provided by the department of revenue. Land designated as a protected wetland shall be assessed at a value equal to the average value of the land where the wetland is located and which is owned by the person granted the exemption. The application forms shall be filed with the assessing authority not later than the first of February of the year for which the exemption is requested. The application must be accompanied by an affidavit signed by the applicant that if the exemption is granted, the property will not be used for economic gain during the assessment year in which the exemption is granted. If the property is used for economic gain during the assessment year in which the exemption is granted, the property shall lose its tax exemption and shall be taxed at the rate levied by the county for the fiscal year beginning in that assessment year. The first annual application shall be accompanied by a certificate from the department of natural resources stating that the land is native prairie or protected wetland. The department of natural resources shall issue a certificate for the native prairie exemption if the department finds that the land has never been cultivated, is unimproved, is primarily a mixture of warm season grasses interspersed with flowering plants, and meets the other criteria established by the natural resource commission for native prairie. The department of natural resources shall issue a certificate for the native prairie exemption if the department finds that the land has never been cultivated, is unimproved, is primarily a mixture of warm season grasses interspersed with flowering plants, and meets the other criteria established by the natural resource commission for native prairie. The department of natural resources shall issue a certificate for the wetland exemption if the department finds the land is a protected wetland, as defined under section 456B.1, or if the wetland was previously drained and cropped but has been restored under a nonpermanent restoration agreement with the department or other county, state, or federal agency or private conservation group. A taxpayer may seek judicial review of a decision of the department according to chapter 17A. The natural resource commission shall adopt rules to implement this subsection.

The assessing authority each year may submit to the department a claim for reimbursement of tax revenue lost from the exemption. Upon receipt of the claim, the department shall reimburse the assessing authority an amount equal to the lost tax revenue based on the value of the protected wetland as assessed by the authority, unless the department reimburses the authority based upon a departmental assessment of the protected wetland. The authority may contest the department’s assessment as provided in chapter 17A. The department is not required to honor a claim submitted more than sixty days after the authority has assessed land where the protected wetland is located and which is owned by the person granted the exemption.

24. Land certified as a wildlife habitat. The owner of agricultural land may designate not more than two acres of the land for use as a wildlife habitat. After inspection, if the land meets the standards established by the natural resource commission for a wildlife habitat under section 483A.3, and, in the case of a wildlife habitat that has been restored or reestablished, is inspected and certified as provided by the county board of supervisors as having adequate ground cover consisting of native species and that all primary and secondary noxious weeds present are being controlled to prevent the spread of seeds by either wind or water, the department of natural resources shall certify the designated land as a wildlife habitat and shall send a copy of the certification to the appropriate assessor not later than February 1 of the assessment year for which the exemption is requested. The department of natural resources may subsequently withdraw certification of the designated land if it fails to meet the established standards for a wildlife habitat and the ground cover requirement and the assessor shall be given written notice of the decertification.

In the case where the property is a restored or reestablished wildlife habitat and does not receive the certification as provided by the county board of supervisors as it relates to the ground cover, the owner shall be notified of the availability of resource enhancement and protection fund cost-share moneys and soil and conservation technological assistance for reestablishing native vegetation.

25. Right-of-way. Railroad right-of-way and improvements on the right-of-way only during that period of time that the Iowa railway finance authority holds an option to purchase the right-of-way under section 327I.24.

The exemption or partial exemption shall be allowed only pursuant to ordinance of a city council or board of supervisors, which ordinance shall specify if the exemption will be available for community development organizations, not-for-profit
cooperative associations under chapter 499, or for-profit entities and shall be effective for the assessment year in which the building is first assessed for property taxation or the assessment year in which the reconstruction or renovation first adds value and all subsequent years until the property is leased or sold or for a specific time period stated in the ordinance or until the exemption is terminated by ordinance of the city council or board of supervisors which approved the exemption. Eligibility for an exemption as a speculative shell building shall be determined as of January 1 of the assessment year. However, an exemption shall not be granted a speculative shell building of a not-for-profit cooperative association under chapter 499 or a for-profit entity if the building is used by the cooperative association or for-profit entity, or a subsidiary or majority owners thereof for other than as a speculative shell building. If the shell building or any portion of the shell building is leased or sold, the portion of the shell building which is leased or sold shall not be entitled to an exemption under this subsection for subsequent years. An application shall be filed pursuant to section 427B.4 for each project for which an exemption is claimed. Upon the sale of the shell building, the shell building shall be considered new construction for purposes of section 427B.1 if used for purposes set forth in section 427B.1.

427.2 Taxable property acquired through eminent domain.

Real estate occupied as a public road, and rights of way for established public levees and rights of way for established, open, public drainage improvements shall not be taxed.

When land or rights in land are acquired in connection with or for public use or public purposes, the acquiring authority shall assist in the collection of property taxes and special assessments. However, assistance in the collection of the property taxes does not require the payment of property taxes on the property acquired which exceed the amount of just compensation offered as required by section 6B.45 for the acquisition of the property.

The property owner shall pay all property taxes which are due and payable when the property owner surrenders possession of the property acquired and also those which become due and payable for the fiscal year the property is acquired in an amount equal to one-twelfth of the taxes due and payable on the property acquired for the preceding fiscal year multiplied by the number of months in the fiscal year in which the property was acquired which elapsed prior to the month in which the property owner surrenders possession, and including that month if the surrender of possession occurs after the fifteenth day of a month. For purposes of computing the payments, the
property owner has surrendered possession of property acquired by eminent domain proceedings when the acquiring authority has the right to obtain possession of the acquired property as authorized by law. When all of the property is acquired for public use or public purposes, the property owner shall pay all special assessments in full which have been certified to the county treasurer for collection before the possession date of the acquiring authority. When part but not all of the property is acquired for public use or public purposes, taxing authorities may collect property taxes and special assessments which the property owner is obligated to pay, in accordance with chapter 446, from that part of the property which is not acquired. The county treasurer shall collect and accept the payment received on property acquired for public use or public purposes as full and final payment of all property tax on the property.

For that portion of the prorated year for which the acquiring authority has possession of the property or part of the property acquired in connection with or for public use or public purposes, all taxes shall be canceled by the county treasurer.

From the date of possession by the acquiring authority for land or rights in land acquired in connection with or for public use or public purposes, and for as long as ownership is retained by the acquiring authority, a special assessment shall not be certified to the county treasurer for collection while under public ownership. However, the assessment may be certified for collection to the county treasurer upon the sale of the acquired property by the acquiring authority to a new owner on a prorated basis. Special assessments certified to a county treasurer for collection while under public ownership shall be canceled by the county treasurer.

Upon sale of the acquired property by the acquiring authority to a new owner, the new owner shall pay all property taxes which become due and payable or would have become due and payable but for the acquisition by the acquiring authority for the fiscal year the property is acquired by the new owner in an amount equal to one-twelfth of the taxes multiplied by the number of months in the fiscal year in which the new owner acquired the property which occurred after the month in which the new owner acquired the property.

The real property shall continue to be taxed until the fiscal year following the fiscal year during which the life estate terminates. Upon termination of the life estate, the real estate shall be subject to taxation as otherwise provided by law.

1. The board of supervisors shall annually designate real property in the county for a historic property tax exemption.
2. Application for the exemption shall be filed with the assessor, not later than February 1 of the assessment year, on forms provided by the department of revenue. The exemption application shall include an approved application for certified substantial rehabilitation from the state historic preservation officer and documentation of additional property tax relief or financial assistance currently allowed for the real property. Upon receipt of the application, the assessor shall certify whether or not the property is eligible to receive the exemption and shall forward the application to the board.
3. Before the board may designate real property for the exemption, the board shall establish priorities for which an exemption may be granted. The priorities shall be based upon financial assistance or property tax relief the owner is receiving for the property or for which the property is eligible. A public hearing shall be held with notice given as provided in section 73A.2 at which the proposed priority list shall be presented. However, a public hearing is not required if the proposed priorities are the same as those established for the previous year. After the public hearing, the board shall adopt by resolution the proposed priority list or another priority list.
4. After receipt from the assessor of an exemption application with an accompanying approved application from the state historic preservation officer, and the establishment of a priority list, the board shall grant a tax exemption under this section using the adopted priority list. The board shall notify an owner in writing of a denial of the exemption under this section and an explanation of the denial.
5. Real property designated for the tax exemption shall be designated by April 15 of the assessment year in which the fiscal year begins for which the exemption is granted. Notification shall be sent to the county auditor and the applicant.
6. The owner shall apply for an exemption and the exemption may be approved for a period of not more than four years.

10. For purposes of this section, “qualified expenditures” means costs incurred to preserve or to maintain a building as a historic property according to the secretary of the interior’s standards for rehabilitation and guidelines for rehabilitating historic buildings.

11. The assessor shall determine the base year valuation of the historic property upon receipt of the approved application and shall make a notation on each statement of assessment that the exemption of the historic property shall be based upon the certification from the state historic preservation officer. An assessor shall make an annual report to the county auditor of all substantial rehabilitations of historic property made in the county which receive a tax exemption under this section and shall submit a copy or summary of the record to the state historic preservation officer.

12. A tax exemption granted under this section is valid if the property continues to be certified by the state historic preservation officer. If the property is sold or transferred, the buyer or transferee is not required to refile for the tax exemption for the year in which the property is purchased or transferred.

13. The valuation for purposes of computing the assessed valuation of property under this section following the four-year exemption period is as follows:
   a. For the first year after the expiration of the four-year exemption period, the valuation is the base year valuation plus twenty-five percent of the adjustment in value.

   d. For the fourth year after the expiration of the four-year exemption period, the valuation is based upon the current fair cash value.

14. An additional application for a tax exemption under this section for substantial rehabilitation shall not affect subsection 11 and under subsection 13 the increase in assessed value of the historic property following a four-year tax exemption period.

15. The department of cultural affairs shall adopt rules pursuant to chapter 17A to administer this section.

2001 amendment to subsection 2 is effective January 1, 2002, and applies to claims filed on or after that date; 2001 Acts, ch 150, §26

427.18 Token tax liability accrues.
If property which may be exempt from taxation is acquired after July 1 by a person or the state or any of its political subdivisions, the exemption shall not be allowed for that fiscal year and the person or the state or any of its political subdivisions shall pay the property taxes levied against the property for that fiscal year, and payable in the following fiscal year. However, the seller and the purchaser may designate, by written agreement, the party responsible for payment of the property taxes due.

[C81, §427.18]

427.19 Exemptions eligibility — prorating.
All credits for and exemptions from property taxes for which an application is required shall be granted on the basis of eligibility in the fiscal year for which the application is filed. If the property which has received a credit or exemption becomes ineligible for the credit or exemption during the fiscal year for which it was granted, the property is subject to the taxes in a prorated amount for that part of the fiscal year for which the property was ineligible for the credit or exemption.

[C81, §427.19]

   a. Land and water rights. 
   b. Substances contained in or growing upon the land, before severance from the land, and rights to such substances. However, growing crops shall not be assessed and taxed as real property, and this paragraph is also subject to the provisions of section 441.22. 
   c. Buildings, structures or improvements, any of which are constructed on or in the land, attached to the land, or placed upon a foundation whether or not attached to the foundation. However, property taxed under chapter 435 shall not be assessed and taxed as real property. 
   d. Buildings, structures, equipment, machinery or improvements, any of which are attached to the buildings, structures, or improvements defined in paragraph “c” of this subsection. 
   e. Machinery used in manufacturing establishments. The scope of property taxable under this paragraph is intended to be the same as, and neither broader nor narrower than, the scope of property taxable under section 428.22, Code 1973, prior to July 1, 1974. 
   f. Property taxed under chapter 499B. 
   g. Rights to space above the land. 
   h. Property assessed by the department of revenue pursuant to sections 428.24 to 428.29, or chapters 433, 434, 437, 437A, and 438. 
   i. Property used but not owned by the persons whose property is defined in paragraph “h” of this subsection, which would be assessed by the department of revenue if the persons owned the property. However, this paragraph does not change the manner of assessment or the authority entitled to make the assessment. 
   j. (1) Computers. As used in this paragraph, “computer” means stored program processing equipment and all devices fastened to the computer by means of signal cables or communication media that serve the function of signal cables, but does not include point of sales equipment. 
   (2) Computer output microfilming equipment. 
   (3) Key entry devices that prepare information for input to a computer.

   c. Connected in a manner so that removal requires substantial modification or alteration of the property removed or the property from which it is removed. 
3. Notwithstanding the definition of “attached” in subsection 2, property is not “attached” if it is a kind of property which would ordinarily be removed when the owner of the property moves to another location. In making this determination the assessing authority shall not take into account the intent of the particular owner. 
4. Notwithstanding the definition of “attached” in subsection 2, property is not “attached” if it is a fixture used for cooking, refrigeration, or freezing of value-added agricultural products, used in value-added agricultural processing or used in direct support of value-added agricultural processing. For purposes of this subsection, “direct support” includes storage by public refrigerated warehouses for processors of value-added agricultural products. Such fixtures shall not be considered “attached” whether owned directly by the processor or warehouse operator or by another who leases the fixture to the processor or warehouse operator. This subsection shall not apply to fixtures used primarily for retail sale or display. 
5. Notwithstanding the other provisions of this section, property described in this section, if held solely for sale, lease or rent as part of a business regularly engaged in selling, leasing or renting such property, and if the property is not yet sold, leased, rented or used by any person, shall not be assessed and taxed as real property. This subsection does not apply to any land or building. 
6. Nothing in this section shall be construed to permit an item of property to be assessed and taxed in this state more than once in any one year. 
7. The assessing authority shall annually reassess property which is assessed and taxed as real property, but which would be regarded as personal property except for this section. This section shall not be construed to limit the assessing authority’s powers to assess or reassess under other provisions of law.

CHAPTER 427B
SPECIAL TAX PROVISIONS

DIVISION I
INDUSTRIAL PROPERTY AND CATTLE FACILITIES ACTUAL VALUE ADDED EXEMPTION

427B.1 Actual value added exemption from tax — public hearing.
A city council, or a county board of supervisors as authorized by section 427B.2, may provide by ordinance for a partial exemption from property taxation of the actual value added to industrial real estate by the new construction of industrial real estate, research-service facilities, warehouses, distribution centers and the acquisition of or improvement to machinery and equipment assessed as real estate pursuant to section 427A.1, subsection 1, paragraph "e". "New construction" means new buildings and structures which include new buildings and structures which are construct-
ed as additions to existing buildings and structures. "New construction" does not include reconstruction of an existing building or structure which does not constitute complete replacement of an existing building or structure or refitting of an existing building or structure, unless the reconstruction of an existing building or structure is required due to economic obsolescence and the reconstruction is necessary to implement recognized industry standards for the manufacturing and processing of specific products and the reconstruction is required for the owner of the building or structure to continue to competitively manufacture or process those products which determination shall receive prior approval from the city council of the city or the board of supervisors of the county upon the recommendation of the Iowa department of economic development. The exemption shall also apply to new machinery and equipment assessed as real estate pursuant to section 427A.1, subsection 1, paragraph "e", unless the machinery or equipment is part of the normal replacement or operating process to maintain or expand the existing operational status. "Research-service facilities" means a building or group of buildings devoted primarily to research and development activities, including, but not limited to, the design and production or manufacture of prototype products for experimental use, and corporate-research services which do not have a primary purpose of providing on-site services to the public. "Warehouse" means a building or structure used as a public warehouse for the storage of goods pursuant to chapter 554, article 7, except that it does not mean a building or structure used primarily to store raw agricultural products or from which goods are sold at retail. "Distribution center" means a building or structure used primarily for the storage of goods which are intended for subsequent shipment to retail outlets. "Distribution center" does not mean a building or structure used primarily to store raw agricultural products, used primarily by a manufacturer to store goods to be used in the manufacturing process, used primarily for the storage of petroleum products, or used for the retail sale of goods. The ordinance may be enacted not less than thirty days after a public hearing is held in accordance with section 335.6 in the case of a county, or section 362.3 in the case of a city. The ordinance shall designate the length of time the partial exemption shall be available and may provide for an exemption schedule in lieu of that provided in section 427B.3. However, an alternative exemption schedule adopted shall not provide for a larger tax exemption in a particular year than is provided for that year in the schedule contained in section 427B.3.

§427B.1, SPECIAL TAX PROVISIONS

427B.2 Zoning under chapter 335.
1. The board of supervisors of a county which has appointed a county zoning commission and provided for county zoning under chapter 335 may provide for a partial exemption from property taxation of the actual value added to industrial real estate as provided under section 427B.1.
2. The board of supervisors of a county which has not appointed a zoning commission may provide for a partial exemption from property taxation of the actual value added to industrial real estate as provided under section 427B.1 in the following areas:
   a. Outside the incorporated limits of a city to which a city has extended its zoning ordinance pursuant to section 414.23 which complies with this city's zoning ordinance.
   b. Outside the incorporated limits of a city which has adopted a zoning ordinance but which has not extended the ordinance to the area permitted under section 414.23 if the property would be within the area to which a city may extend a zoning ordinance pursuant to section 414.23.
   c. Outside the incorporated limits of a city which has not adopted a zoning ordinance but which would be within the area to which a city may extend a zoning ordinance pursuant to section 414.23.
3. The board of supervisors of a county which has not appointed a zoning commission may provide for a partial exemption from property taxation of the actual value added to industrial real estate as provided under section 427B.1 in an area where the partial exemption could not otherwise be granted under this chapter where the actual value added is to industrial real estate existing on July 1, 1979.
To grant an exemption under the provisions of this section, the county board of supervisors shall comply with all of the requirements imposed by this chapter upon the city council of a city.
[C81, §427B.2; 82 Acts, ch 1104, §21 – 23]

427B.3 Period of partial exemption.
The actual value added to industrial real estate for the reasons specified in section 427B.1 is eligible to receive a partial exemption from taxation for a period of five years. However, if property ceases to be classified as industrial real estate or ceases to be used as a warehouse or distribution center, the partial exemption for the value added shall not be allowed for subsequent assessment years. "Actual value added" as used in this chapter means the actual value added as of the first year for which the exemption is received, except that actual value added by improvements to machinery and equipment means the actual value as determined by the assessor as of January 1 of each year for which the exemption is received. The amount of actual value added which is eligible to be exempt from taxation
shall be as follows:
1. For the first year, seventy-five percent.
2. For the second year, sixty percent.
3. For the third year, forty-five percent.
4. For the fourth year, thirty percent.
5. For the fifth year, fifteen percent.

This schedule shall be followed unless an alternative schedule is adopted by the city council of a city or the board of supervisors of a county in accordance with section 427B.1.

However, the granting of the exemption under this section for new construction constituting complete replacement of an existing building or structure shall not result in the assessed value of the industrial real estate being reduced below the assessed value of the industrial real estate before the start of the new construction added.

[CS1, §427B.3]
84 Acts, ch 1232, §3

427B.4 Application for exemption by property owner.
An application shall be filed for each project resulting in actual value added for which an exemption is claimed. The application for exemption shall be filed by the owner of the property with the local assessor by February 1 of the assessment year in which the value added is first assessed for taxation. Applications for exemption shall be made on forms prescribed by the director of revenue and shall contain information pertaining to the nature of the improvement, its cost, and other information deemed necessary by the director of revenue.

A person may submit a proposal to the city council of the city or the board of supervisors of a county to receive prior approval for eligibility for a tax exemption on new construction. The city council or the board of supervisors, by ordinance, may give its prior approval of a tax exemption for new construction if the new construction is in conformance with the zoning plans for the city or county. The prior approval shall also be subject to the hearing requirements of section 427B.1. Prior approval does not entitle the owner to exemption from taxation until the new construction has been completed and found to be qualified real estate. However, if the tax exemption for new construction is not approved, the person may submit an amended proposal to the city council or board of supervisors to approve or reject.

[CS1, §427B.4; 82 Acts, ch 1104, §24]

427B.5 Exemption may be repealed.
When in the opinion of the city council or the county board of supervisors continuation of the exemption granted by this chapter ceases to be of benefit to the city or county, the city council or the county board of supervisors may repeal the ordinance authorized by section 427B.1, but all existing exemptions shall continue until their expiration.

[CS1, §427B.5]

427B.6 Dual exemptions prohibited.
A property tax exemption under this chapter shall not be granted if the property for which the exemption is claimed has received any other property tax exemption authorized by law.

[CS1, §427B.6]

427B.7 Actual value added exemption from tax — cattle facilities.
A city council, or a county board of supervisors as authorized by section 427B.2, may, by ordinance as provided in section 427B.1, establish a partial exemption from property taxation of the actual value added to owner-operated cattle facilities, including small or medium sized feedlots but not including slaughter facilities, either by new construction or by the retrofitting of existing facilities. The application for the exemption shall be filed pursuant to section 427B.4. The actual value added to owner-operated cattle facilities, as specified in section 427B.1, is eligible to receive a partial exemption from taxation for a period of five years. The amount of actual value added which is eligible to be exempt from taxation is the same as provided in the exemption schedule in section 427B.3.

DIVISION II
SPECIAL VALUATION FOR MACHINERY

ON OR BEFORE JANUARY 1, 1985

427B.15 and 427B.16 Reserved.
DIVISION III
SPECIAL VALUATION FOR MACHINERY, EQUIPMENT, AND COMPUTERS — STATE REPLACEMENT FUNDS

§427B.17 Property subject to special valuation.

1. For property defined in section 427A.1, subsection 1, paragraphs “e” and “j”, the taxpayer’s valuation shall be limited to thirty percent of the net acquisition cost of the property, except as otherwise provided in subsections 2 and 3. For purposes of this section, “net acquisition cost” means the acquired cost of the property including all foundations and installation cost less any excess cost adjustment.

2. Property defined in section 427A.1, subsection 1, paragraphs “e” and “j”, which is first assessed for taxation in this state on or after January 1, 1995, shall be exempt from taxation.

3. Property defined in section 427A.1, subsection 1, paragraphs “e” and “j”, and assessed under subsection 1 of this section, shall be valued by the local assessor as follows for the following assessment years:
   a. For the assessment year beginning January 1, 1999, at twenty-two percent of the net acquisition cost.
   b. For the assessment year beginning January 1, 2000, at fourteen percent of the net acquisition cost.
   c. For the assessment year beginning January 1, 2001, at six percent of the net acquisition cost.
   d. For the assessment year beginning January 1, 2002, and succeeding assessment years, at zero percent of the net acquisition cost.

4. Property assessed pursuant to this section shall not be eligible to receive a partial exemption under sections 427B.1 to 427B.6.

5. This section shall not apply to property assessed by the department of revenue pursuant to sections 428.24 to 428.29, or chapters 433, 434, 437, 437A, and 438, and such property shall not receive the benefits of this section.

Any electric power generating plant which operated during the preceding assessment year at a net capacity factor of more than twenty percent, shall not receive the benefits of this section or of sections 15.332 and 15.334. For purposes of this section, “electric power generating plant” means any nameplate rated electric power generating plant, in which electric energy is produced from other forms of energy, including all taxable land, buildings, and equipment used in the production of such energy. “Net capacity factor” means net actual generation divided by the product of net maximum capacity times the number of hours the unit was in the active state during the assessment year. Upon commissioning, a unit is in the active state until it is decommissioned. “Net actual generation” means net electrical megawatt hours produced by the unit during the preceding assessment year. “Net maximum capacity” means the capacity the unit can sustain over a specified period when not restricted by ambient conditions or equipment deratings, minus the losses associated with station service or auxiliary loads.

6. For the purpose of dividing taxes under section 260E.4, the employer’s or business’s valuation of property defined in section 427A.1, subsection 1, paragraphs “e” and “j”, and used to fund a new jobs training project which project’s first written agreement providing for a division of taxes as provided in section 403.19 is approved on or before June 30, 1995, shall be limited to thirty percent of the net acquisition cost of the property. The community college shall notify the assessor by February 15 of each assessment year if taxes levied against such property of an employer or business will be used to finance a project in the following fiscal year. In any fiscal year in which the community college does rely on taxes levied against an employer’s or business’s property defined in section 427A.1, subsection 1, paragraph “e” or “j”, to finance a project, such property shall not be valued pursuant to subsection 2 or 3, whichever is applicable, for that fiscal year. An employer’s or business’s taxable property used to fund a new jobs training project shall not be valued pursuant to subsection 2 or 3, whichever is applicable, until the assessment year following the calendar year in which the certificates or other funding obligations have been retired or escrowed. If the certificates issued, or other funding obligations incurred, between January 1, 1982, and June 30, 1995, are refinanced or refunded after June 30, 1995, the valuation of such property shall then be the valuation specified in subsection 2 or 3, whichever is applicable, for the applicable assessment year beginning with the assessment year following the calendar year in which those certificates or other funding obligations are refinanced or refunded after June 30, 1995.

§427B.18 Replacement.

Beginning with the fiscal year beginning July 1, 1996, each county treasurer shall be paid from the industrial machinery, equipment and computers replacement fund an amount equal to the amount of the industrial machinery, equipment and computers tax replacement claim, as calculated in section 427B.19.

§427B.19 Assessor and county auditor duties.

1. On or before July 1 of each fiscal year, the assessor shall determine the total assessed value of the property assessed under section 427B.17 for
taxes payable in that fiscal year and the total assessed value of such property assessed as of January 1, 1994, and shall report the valuations to the county auditor.

2. On or before July 1 of each fiscal year, the assessor shall determine the valuation of all commercial and industrial property assessed for taxes payable in that fiscal year and the valuation of such property assessed as of January 1, 1994, and shall report the valuations to the county auditor.

3. On or before September 1 of each fiscal year through June 30, 2004, the county auditor shall prepare a statement, based upon the report received pursuant to subsections 1 and 2, listing for each taxing district in the county:

   a. Beginning with the assessment year beginning January 1, 1995, the difference between the assessed valuation of property assessed pursuant to section 427B.17 for that year and the total assessed value of such property assessed as of January 1, 1994. If the total assessed value of the property assessed as of January 1, 1994, is less, there is no tax replacement for the fiscal year.
   
   b. The tax levy rate for each taxing district for that fiscal year.
   
   c. The industrial machinery, equipment and computers tax replacement claim for each taxing district. For fiscal years beginning July 1, 1996, and ending June 30, 2001, the replacement claim is equal to the amount determined pursuant to paragraph “a”, multiplied by the tax rate specified in paragraph “b”. For fiscal years beginning July 1, 2001, and ending June 30, 2004, the replacement claim is equal to the product of the amount determined pursuant to paragraph “a”, less any increase in valuations determined in paragraph “d”, and the tax rate specified in paragraph “b”. If the amount subtracted under paragraph “d” is more than the amount determined in paragraph “a”, there is no tax replacement for the fiscal year.
   
   d. Beginning with the assessment year beginning January 1, 2000, the auditor shall reduce the amount listed in paragraph “a”, by the increase, if any, in assessed valuations of commercial and industrial property in the assessment year beginning January 1, 1994, and the assessment year for which taxes are due and payable in that fiscal year. If the calculation under this paragraph indicates a net decrease in aggregate valuation of such property, the industrial machinery, equipment and computers tax replacement claim for each taxing district is equal to the amount determined pursuant to paragraph “a”, multiplied by the tax rate specified in paragraph “b”.

4. The county auditor shall certify and forward one copy of the statement to the department of revenue not later than September 1 of each year.

5. For purposes of this section, “assessed value of the property assessed under section 427B.17” does not include the value of property defined in section 427A.1, subsection 1, paragraphs “e” and “j”, which is obligated to secure payment of certifies or other indebtedness incurred pursuant to chapter 260E or 260F.

6. For purposes of computing replacement amounts under this section, that portion of an urban renewal area defined as the sum of the assessed valuations defined in section 403.19, subsections 1 and 2, shall be considered a taxing district.

427B.19A Fund created.

1. The industrial machinery, equipment and computers property tax replacement fund is created. For the fiscal year beginning July 1, 1996, through the fiscal year ending June 30, 2004, there is appropriated annually from the general fund of the state to the department of revenue to be credited to the industrial machinery, equipment and computers property tax replacement fund, an amount sufficient to implement this division. However, for the fiscal year beginning July 1, 2003, the amount appropriated to the department of revenue to be credited to the industrial machinery, equipment and computers tax replacement fund is eleven million two hundred eighty-one thousand six hundred eighty-five dollars.

2. If an amount appropriated for a fiscal year is insufficient to pay all claims as a result of action by the general assembly limiting the amount appropriated to the fund, the director shall prorate the disbursements from the fund to the county treasurers and shall notify the county auditors of the pro rata percentage on or before September 30.

3. The replacement claims shall be paid to each county treasurer in equal installments in September and March of each year. The county treasurer shall apportion the replacement claim payments among the eligible taxing districts in the county. UNDERGROUND STORAGE TANKS

REMEDIAL ACTION CREDIT

427B.20 LOCAL OPTION REMEDIAL ACTION PROPERTY TAX CREDIT — PUBLIC HEARING

1. In order to further the public interests of protecting the drinking water supply, preserving business and industry within a community, preserving convenient access to gas stations within a community, or other public purposes, a city council or county board of supervisors may provide by ordinance for partial or total property tax credits to owners of small businesses that own or operate an underground storage tank to reduce the amount of property taxes paid over the permitted period in amounts not to exceed the actual portion of costs paid by the business owner in connection with a remedial action for which the Iowa comprehensive petroleum underground storage tank fund shares in the cost of corrective action, and for which the small business owner was not reimbursed from any other source. A county board of supervisors may grant credits only for property located outside of the corporate limits of a city, and a city council may grant credits only for property located within the corporate limits of the city. The credit shall be taken on the property where the underground storage tank is situated. The credit granted by the council or board shall not exceed the amount of taxes generated by the property for the respective city or county. The credit shall apply to property taxes payable in the fiscal year following the calendar year in which a cost of remedial action was paid by the small business owner.

As used in this division, “actual portion of the costs paid by the owner or operator of an underground storage tank in connection with a remedial action for which the Iowa comprehensive petroleum underground storage tank fund shares in the cost of corrective action” means the amount determined by the fund’s board, or the board’s designee, as the administrator of the Iowa comprehensive petroleum underground storage tank fund, and for which the owner or operator was not reimbursed from any other source.

As used in this division, “small business” means a business with gross receipts of less than five hundred thousand dollars per year.

2. The ordinance may be enacted not less than
thirty days after a public hearing is held in accordance with section 335.6 in the case of a county, or section 362.3 in the case of a city. The ordinance shall designate the length of time the partial or total credit shall be available, and shall include a credit schedule and description of the terms and conditions of the credit.

3. A property tax credit provided under this section shall be paid for out of any available funds budgeted for that purpose by the city council or county board of supervisors. A city council may certify a tax for the general fund levy and a county board of supervisors may certify a tax for the rural county service fund levy for property tax credits authorized by this section.

4. The maximum permitted period of a tax credit granted under this section is ten years.

§427B.21 Application for credit by underground storage tank owner or operator — approval by county board of supervisors or city council.

An application shall be filed by an owner of a small business that owns or operates an underground storage tank for each property for which a credit is sought. Applications shall be filed with the respective county board of supervisors or the city council by September 30 of the year following the calendar year in which a cost of remedial action was paid by the owner or operator. Small business owners receiving credits shall file applications for renewal of the credit by September 30 of each year. A credit may be renewed only if title to the credited property remains in the name of the person or entity originally receiving the credit.

In reviewing the applications, the board of supervisors or city council shall consider whether granting the credit would serve a public purpose. Upon approval of the application by the board of supervisors, and after the applicant has paid any property taxes due, the board shall direct the county treasurer to issue a warrant to the small business owner in the amount of the credit granted. Upon approval of the application by the city council, and after the applicant has paid any property taxes due, the council shall direct the city clerk to issue a warrant to the small business owner in the amount of the credit granted.

Applications for credit shall be made on forms prescribed by the director of revenue and shall contain information pertaining to the nature of the release, the total cost of corrective action, the actual portion of the costs paid by the small business owner and for which the owner was not reimbursed from any other source, the small business owner’s income tax form from the most recent tax year, and other information deemed necessary by the director.

§427B.22 Credit may be repealed.

If in the opinion of the city council or the county board of supervisors continuation of the credit granted under an ordinance adopted pursuant to this division ceases to be of benefit to the city or county, the city council or the county board of supervisors may repeal the ordinance authorized by section 427B.20, but all existing credits shall continue until their expiration.

§427B.23 through 427B.25 Reserved.

428.35 Grain handled.
1. Definitions. "Person" as used herein means individuals, corporations, firms and associations of whatever form. "Handling or handled" as used herein means the receiving of grain at or in each elevator, warehouse, mill, processing plant or other facility in this state in which it is received for storage, accumulation, sale, processing or for any purpose whatsoever. "Grain" as used herein means wheat, corn, barley, oats, rye, flaxseed, field peas, soybeans, grain sorghums, spelts, and such other products as are usually stored in grain elevators. Such term excludes such seeds after being processed, and the products of such processing when packaged or sacked. The term "processing" shall not include hulling, cleaning, drying, grading or polishing.

2. Tax imposed. An annual excise tax is hereby levied on such handling of grain in the amount hereinafter provided. All grain so handled shall be exempt from all taxation as property under the
laws of this state. The amount of such excise tax shall be a sum equal to one-fourth mill per bushel upon all grain as herein defined so handled.

3. Statement filing form. Every person engaged in handling grain shall, on the first day of January of each year and not later than sixty days thereafter, make and file with the assessor a statement of the number of bushels of grain handled by the person in that district during the year immediately preceding, or the part thereof, during which the person was engaged in handling grain; and on demand the assessor shall have the right to inspect all such person's records thereof. A form for making such statement shall be included in the blanks prescribed by the director of revenue. If such statement is not furnished as herein required, section 441.24 shall be applicable.

4. Assessment. The assessor of each such district, from the statement required or from such other information as the assessor may acquire, shall ascertain the number of bushels of grain handled by each person handling grain in the assessor's district during the preceding year, or part thereof, and shall assess the amount herein provided to such person under the provisions of this section.

5. Computation of tax. The rate imposed by subsection 2 shall be applied to the number of bushels of grain so handled, and the computed amount thereof shall constitute the tax to be assessed.

6. Payment of tax. The tax, when determined, shall be entered in the same manner as general property taxes on the tax list of the taxing district, and the proceeds of the collection of the tax shall be distributed to the same taxing units and in the same proportion as the general property tax on the tax list of each taxing district. All provisions of the law relating to the assessment and collection of property taxes and the powers and duties of the county treasurer, county auditor and all other officers with respect to the assessment, collection, and enforcement of property taxes apply to the assessment, collection, and enforcement of the tax imposed by this section.

CHAPTER 428A
REAL ESTATE TRANSFER TAX

428A.1 Amount of tax on transfers — declaration of value.

There is imposed on each deed, instrument, or writing by which any lands, tenements, or other realty in this state are granted, assigned, transferred, or otherwise conveyed, a tax determined in the following manner: When there is no consideration or when the deed, instrument, or writing is executed and tendered for recording as an instrument corrective of title, and so states, there is no tax. When there is consideration and the actual market value of the real property transferred is in excess of five hundred dollars, the tax is eighty cents for each five hundred dollars or fractional part of five hundred dollars in excess of five hundred dollars. The term "consideration", as used in this chapter, means the full amount of the actual sale price of the real property involved, paid or to be paid, including the amount of an encumbrance or lien on the property, if assumed by the grantee.
It is presumed that the sale price so stated includes the value of all personal property transferred as part of the sale unless the dollar value of personal property is stated on the instrument of conveyance. When the dollar value of the personal property included in the sale is so stated, it shall be deducted from the consideration shown on the instrument for the purpose of determining the tax.

When each deed, instrument, or writing by which any real property in this state is granted, assigned, transferred, or otherwise conveyed is presented for recording to the county recorder, a declaration of value signed by at least one of the sellers or one of the buyers or their agents shall be submitted to the county recorder. However, if the deed, instrument, or writing contains multiple parcels some of which are located in more than one county, separate declarations of value shall be submitted on the parcels located in each county and submitted to the county recorder of that county when paying the tax as provided in section 428A.5. A declaration of value is not required for those instruments described in section 428A.2, subsections 2 to 5, 7 to 13, and 16 to 21, or described in section 428A.2, subsection 6, except in the case of a federal agency or instrumentality, or if a transfer is the result of acquisition of lands, whether by contract or condemnation, for public purposes through an exercise of the power of eminent domain.

The declaration of value shall state the full consideration paid for the real property transferred. If agricultural land, as defined in section 9H.1, is purchased by a corporation, limited partnership, trust, alien or nonresident alien, the declaration of value shall include the name and address of the buyer, the name and address of the seller, a legal description of the agricultural land, and identify the buyer as a corporation, limited partnership, trust, alien or nonresident alien. The county recorder shall not record the declaration of value, but shall enter on the declaration of value information the director of revenue requires for the production of the sales/assessment ratio study and transmit all declarations of value to the city or county assessor in whose jurisdiction the property is located. The city or county assessor shall enter on the declaration of value the information the director of revenue requires for the production of the sales/assessment ratio study and transmit one copy of each declaration of value to the director of revenue, at times as directed by the director of revenue. The assessor shall retain one copy of each declaration of value for three years from December 31 of the year in which the transfer of realty for which the declaration was filed took place. The director of revenue shall, upon receipt of the information required to be filed under this chapter by the city or county assessor, send to the office of the secretary of state that part of the declaration of value which identifies a corporation, limited partnership, trust, alien, or nonresident alien as a pur-

chaser of agricultural land as defined in section 9H.1.

The tax imposed by this chapter shall not apply to:
1. Any executory contract for the sale of land under which the vendee is entitled to or does take possession thereof, or any assignment or cancellation thereof.
2. Any instrument of mortgage, assignment, extension, partial release, or satisfaction thereof.
3. Any will.
4. Any plat.
5. Any lease.
6. Any deed, instrument, or writing in which the United States or any agency or instrumentality thereof or the state of Iowa or any agency, instrumentality, or governmental or political subdivision thereof is the grantor, assignor, transferor, or conveyor; and any deed, instrument or writing in which any of such unit of government is the grantee or assignee where there is no consideration.
7. Deeds for cemetery lots.
8. Deeds which secure a debt or other obligation, except those included in the sale of real property.
9. Deeds for the release of a security interest in property excepting those pertaining to the sale of real estate.
10. Deeds which, without additional consideration, confirm, correct, modify, or supplement a deed previously recorded.
11. Deeds between husband and wife, or parent and child, without actual consideration. A cancellation of indebtedness alone which is secured by the property being transferred and which is not greater than the fair market value of the property being transferred is not actual consideration within the meaning of this subsection.
12. Tax deeds.
13. Deeds of partition where the interest conveyed is without consideration. However, if any of the parties take shares greater in value than their undivided interest a tax is due on the greater values, computed at the rate set out in section 428A.1.
14. The making or delivering of instruments of transfer resulting from a corporate merger, consolidation, or reorganization or a merger, consolidation, or reorganization of a limited liability company under the laws of the United States or any state thereof, where such instrument states such fact on the face thereof.
§428A.2, REAL ESTATE TRANSFER TAX

15. Deeds between a family corporation, partnership, limited partnership, limited liability partnership, or limited liability company and its stockholders, partners, or members for the purpose of transferring real property in an incorporation or corporate dissolution or the organization or dissolution of a partnership, limited partnership, limited liability partnership, or limited liability company under the laws of this state, where the deeds are given for no actual consideration other than for shares or for debt securities of the corporation, partnership, limited partnership, limited liability partnership, or limited liability company. For purposes of this subsection, a family corporation, partnership, limited partnership, limited liability partnership, or limited liability company is a corporation, partnership, limited partnership, limited liability partnership, or limited liability company where the majority of the voting stock of the corporation, or of the ownership shares of the partnership, limited partnership, limited liability partnership, or limited liability company is held by and the majority of the stockholders, partners, or members are persons related to each other as spouse, parent, grandparent, lineal ascendants of grandparents or their spouses and other lineal descendants of the grandparents or their spouses, or persons acting in a fiduciary capacity for persons so related and where all of its stockholders, partners, or members are natural persons or persons acting in a fiduciary capacity for the benefit of natural persons.

17. Deeds transferring easements.

18. Deeds giving back real property to lienholders in lieu of forfeitures or foreclosures.

20. Deeds transferring distributions of assets to heirs at law or devisees under a will.

21. Deeds in which the consideration is five hundred dollars or less.

428A.4 Recording refused.

The county recorder shall refuse to record any deed, instrument, or writing, taxable under section 428A.1 for which payment of the tax determined on the full amount of the consideration in the transaction has not been paid. However, if the deed, instrument, or writing, is exempt under section 428A.2, the county recorder shall not refuse to record the document if there is filed with or endorsed on it a statement signed by either the grantor or grantee or an authorized agent, that the instrument or writing is excepted from the tax under section 428A.2. The validity of an instrument as between the parties, and as to any person who would otherwise be bound by the instrument, is not affected by the failure to comply with this section. If an instrument is accepted for recording or filing contrary to this section the failure to comply does not destroy or impair the record as notice.

The county recorder shall refuse to record any deed, instrument, or writing by which any real property in this state shall be granted, assigned, transferred, or otherwise conveyed, except those transfers exempt from tax under section 428A.2, subsections 2 to 5, and 7 to 13, or under section 428A.2, subsection 6, except in the case of a federal agency or instrumentality, until the declaration of value has been submitted to the county recorder. A declaration of value shall not be required with a deed given in fulfillment of a recorded real estate contract provided the deed has a notation that it is given in fulfillment of a contract.

The county recorder shall deposit the remaining seventeen and one-fourth percent of the receipts in the county general fund.

The director of revenue shall have the power to require the making of a return by any corporation, individual, partnership, or agency which the director deems to be subject to taxation under the provisions of this chapter and in case of failure or refusal to make such a return, the director of revenue shall make an assessment based upon the best in-

In addition to the matters required to be contained in the statement made by the company for the purposes of taxation, such statement shall show the number of sleeping and dining cars not owned by such corporation, but used by it in operating its railway in this state during each month of the year for which the return is made, the value of each car so used, and also the number of miles each month said cars have been run or operated on such railway within the state, and the total number of miles said cars have been run or operated each month within and without the state. Such statement shall show the average daily sleeping car and dining car service or wheelage operated on each part or division of the line or system within the state, designating the points on the line where variations occur, with the mileage of that part having the same daily service or wheelage.

§434.7 Gross earnings.
For the purpose of making reports to the department of revenue, the gross earnings of railway companies, owning or operating a line or lines of railway partly within this state and partly within another state, or other states, or territory, or territories, upon their line or lines within this state, shall be ascertained and reported by said railway companies as follows, to wit: The aggregate of the earnings upon business originating and terminating within this state, upon business originating in this state and terminating elsewhere, upon business originating elsewhere and terminating in this state, and upon business neither originating nor terminating in this state but carried on or done over the line or lines in this state or over some part thereof, shall be reported; and with respect to all such interstate business the earnings in this state for the purpose of report shall be actually computed upon the basis of the length of haul or carriage in this state as compared with the length of haul or carriage elsewhere. It is hereby declared that for the purpose of making reports looking to the assessment of railway property for taxation, the gross earnings or business done or carried partly within this state and partly in another state, or other states, or territories, shall be that proportion of the entire earnings of such business that the haul or carriage in this state bears to the entire haul or carriage.

§434.8 Method of accounting.
The director of revenue shall have the power to prescribe such rules and regulations with respect to the keeping of accounts by the railway companies doing business in this state as will insure the accurate division of earnings as aforesaid, and uniformity in reporting the same to the department of revenue.

§434.9 Net earnings.
The director of revenue shall have the power to prescribe a method for all railway companies doing business in this state, together with the rules and regulations, for the ascertainment of the net earnings of the railway lines in this state, to the end that all such railway companies, in ascertaining and making report of net earnings, shall proceed upon the same basis and in a uniform manner.

§434.10 Reports additional.
The reports provided for in sections 434.7 to 434.9 are not in lieu of, but in addition to, the reports provided for by law, and they shall be made at the time and as a part of the reports already required.

§434.12 Refusal to obey.
If any railway company shall fail or refuse to obey or conform to the rules, regulations, method, and requirements so made or prescribed by the director of revenue under the provisions of sections 434.7 to 434.11 or to make the reports therein provided, the director of revenue shall proceed to assess the property of such railway company so failing or refusing, according to the best information obtainable, and shall then add to the taxable valuation of such railway company twenty-five percent thereof, which valuation and penalty shall be separately shown, and together shall constitute the assessment for that year.

§434.13 Operating expenses.
There shall not be included in said operating expenses any payments for interest or discount, or construction of new tracks, except needed sidings, for raising or lowering tracks above or below crossings at grade in cities, for new equipment except replacements, for reducing any bonded or permanent debt, nor for any other item of operating expenses not fairly and reasonably chargeable as such in railway accounts.

434.15 Assessment of railways.

The said property shall be valued at its actual value, and the assessments shall be made upon the taxable value of the entire railway within the state, except as otherwise provided, and the actual value so ascertained shall be assessed as provided by section 441.21, and shall include the right of way, roadbed, bridges, culverts, rolling stock, depots, station grounds, shops, buildings, gravel beds, and all other property, real and personal, exclusively used in the operation of such railway. In assessing said railway and its equipments, the director of revenue shall take into consideration the gross earnings per mile for the year ending January 1, preceding, and any and all other matters necessary to enable the director to make a just and equitable assessment of said railway property. If a part of any railway is without this state, then, in estimating the value of its rolling stock and movable property, the director shall take into consideration the proportion which the business of that part of the railway lying within the state bears to the business of the railway without this state.

Trackless trolleys, buses, cars and vehicles used for the transportation of passengers owned and operated by any urban transit company as a part of an urban transit system shall not be included in the determination of the value of an urban transit system for taxation purposes.

434.16 Assessment of sleeping and dining cars.

The director of revenue shall, at the time of the assessment of other railway property for taxation, assess for taxation the average number of sleeping and dining cars as provided in section 434.6 so used by such corporation each month and the assessed value per mile of the same, as fixed by a ratable distribution per mile of the assessed valuation of the whole property. 434.17 Certification to county auditors.

On or before the third Monday in August of each year, the director of revenue shall transmit to the county auditor of each county, through and into which any railway may extend, a statement showing the length of the main track within the county, and the assessed value per mile of the same, as fixed by a ratable distribution per mile of the assessed valuation of the entire railway within the county.

[C73, §1321; C97, §1337; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §434.17] 2003 Acts, ch 145, §286

434.18 Plats.

Every railroad company owning or operating a line of railroad within this state shall, on or before the first day of August 1902, place on file in the office of the county auditor of each county in the state into which any part of the lines of any said company lies, a plat of the lines of said companies within said county, showing the length of their said lines and the area of the land owned or occupied by said companies in each government subdivision of land not included within the platted portion of any city, within each of said counties, and the length of the said lines within the platted portion of cities. Companies having on file such plats of part or all of their lines, in any of said counties, shall be required to file plats only of that part of their lines not fully shown as above required on the plats now on file. On the first day of January of each year hereafter, like plats shall be filed of all new lines or extensions of existing lines built or completed within the calendar year preceding.

[S13, §1337-a; C24, 27, 31, 35, 39, §7063; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §434.18] 83 Acts, ch 123, §179, 209

434.19 Failure to file.

In the event of the failure or refusal of any railroad company to file the plats required under section 434.18, at the time or according to the conditions named, then the county auditor may cause them to be prepared by the county surveyor and their cost shall, in the first place, be audited and paid by the board of supervisors, and the amount shall be levied by the board as a special tax against the company and the property of the company, which shall be collected as county taxes.

434.20 Property assessed by local authorities.
Lands, lots, and other real estate belonging to any railway company, not used exclusively in the operation of the several roads, and all railway bridges across the Mississippi and Missouri rivers, and grain elevators, shall be subject to assessment and taxation on the same basis as property of individuals in the several counties where situated.

434.21 Roadbeds.
No real estate used by railway corporations for roadbeds shall be included in the assessment to individuals of the adjacent property, but all such real estate shall be the property of such companies for the purpose of taxation.

[C73, §809; C97, §1344; C24, 27, 31, 35, 39, §7066; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §434.21]

434.22 Levy and collection of tax.
At the first meeting of the board of supervisors held after said statement is received by the county auditor, the board shall cause the same to be entered on its minute book, and make and enter in the minute book an order stating the length of the main track and the assessed value of each railway lying in each city, township, or lesser taxing district in its county; through or into which the railway extends, as fixed by the director of revenue, which shall constitute the taxable value of the property for taxing purposes; and the taxes on the property, when collected by the county treasurer, shall be disposed of as other taxes. The county auditor shall transmit a copy of the order to the council or trustees of the city or township.

434.23 Rates — purposes.
All such railway property shall be taxable upon said assessment at the same rates, by the same officers, and for the same purpose as the property of individuals within such counties, cities, townships, and lesser taxing districts.

435.1 Definitions.
The following definitions shall apply to this chapter:
1. Unless the context otherwise requires, "book", "list", "record", or "schedule" kept by a county auditor, assessor, treasurer, recorder, sheriff, or other county officer means the county system as defined in section 445.1.
2. “Home” means a mobile home or a manufactured home.
3. “Manufactured home” means a factory-built structure built under authority of 42 U.S.C. § 5403, that is required by federal law to display a seal from the United States department of housing and urban development, and was constructed on or after June 15, 1976. If a manufactured home
is placed in a manufactured home community or a mobile home park, the home must be titled and is subject to the manufactured or mobile home square foot tax. If a manufactured home is placed outside a manufactured home community or a mobile home park, the home must be titled and is to be assessed and taxed as real estate.

4. “Manufactured home community” means the same as land-leased community defined in sections 335.30A and 414.28A.

5. “Mobile home” means any vehicle without motive power used or so manufactured or constructed as to permit its being used as a conveyance upon the public streets and highways and so designed, constructed, or reconstructed as will permit the vehicle to be used as a place for human habitation by one or more persons; but shall also include any such vehicle with motive power not registered as a motor vehicle in Iowa. A “mobile home” is not built to a mandatory building code, contains no state or federal seals, and was built before June 15, 1976. If a mobile home is placed outside a mobile home park, the home is to be assessed and taxed as real estate.

6. “Mobile home park” means a site, lot, field, or tract of land upon which three or more mobile homes or manufactured homes, or a combination of any of these homes, are placed on developed spaces and operated as a for-profit enterprise with water, sewer or septic, and electrical services available.

7. “Modular home” means a factory-built structure which is manufactured to be used as a place of human habitation, is constructed to comply with the Iowa state building code for modular factory-built structures, as adopted pursuant to section 103A.7, and must display the seal issued by the state building code commissioner. If a modular home is placed in a manufactured home community or mobile home park, the home is subject to the annual tax as required by section 435.22. If a modular home is placed outside a manufactured home community or a mobile home park, the home shall be considered real property and is to be assessed and taxed as real estate.

For purposes of this section “income” means income as defined in section 425.17, subsection 7, and “base year” means the calendar year preceding the year in which the claim for a reduced rate of tax is filed. The home reduced rate of tax shall
only be allowed on the home in which the claimant is residing at the time the claim for a reduced rate of tax is filed or was residing at the time of the claimant’s death in the case of a claim filed on behalf of a deceased claimant by the claimant’s legal guardian, spouse, or attorney, or by the executor or administrator of the claimant’s estate.

Beginning with the 1998 base year, the income dollar amounts set forth in this subsection shall be multiplied by the cumulative adjustment factor for that base year as determined in section 425.23, subsection 4.

3. The amount thus computed shall be the annual tax for all homes, except as follows:

a. For the sixth through ninth years after the year of manufacture the annual tax is ninety percent of the tax computed according to subsection 1 or 2 of this section, whichever is applicable.

b. For all homes ten or more years after the year of manufacture the annual tax is eighty percent of the tax computed according to subsection 1 or 2 of this section, whichever is applicable.

4. The tax shall be figured to the nearest even whole dollar.

5. A claim for credit for manufactured or mobile home tax due shall not be paid or allowed unless the claim is actually filed with the county treasurer between January 1 and June 1, both dates inclusive, immediately preceding the fiscal year during which the home taxes are due. However, in case of sickness, absence, or other disability of the claimant, or if in the judgment of the county treasurer good cause exists, the county treasurer may extend the time for filing a claim for credit through September 30 of the same calendar year. The county treasurer shall certify to the director of revenue on or before November 15 each year the total dollar amount due for claims allowed.

The forms for filing the claim shall be provided by the department of revenue. The forms shall require information as determined by the department.

In case of sickness, absence, or other disability of the claimant or if, in the judgment of the director of revenue, good cause exists and the claimant requests an extension, the director may extend the time for filing a claim for credit or reimbursement. However, any further time granted shall not extend beyond December 31 of the year in which the claim was required to be filed. Claims filed as a result of this paragraph shall be filed with the director who shall provide for the reimbursement of the claim to the claimant.

The director of revenue shall certify the amount due to each county, which amount shall be the dollar amount which will not be collected due to the granting of the reduced tax rate under subsection 2.

The amounts due each county shall be paid by the department of revenue on December 15 of each year, drawn upon warrants payable to the respec-

435.23 Exemptions — prorating tax.

The manufacturer’s and dealer’s inventory of mobile homes, manufactured homes, or modular homes* not in use as a place of human habitation shall be exempt from the annual tax. All travel trailers shall be exempt from this tax. The homes and travel trailers in the inventory of manufacturers and dealers shall be exempt from personal property tax. The homes coming into Iowa from out of state and located in a manufactured home community or mobile home park shall be liable for the tax computed pro rata to the nearest whole month, for the time the home is actually situated in Iowa.

435.24 Collection of tax.

1. The annual tax is due and payable to the county treasurer on or after July 1 in each fiscal year and is collectible in the same manner and at the same time as ordinary taxes as provided in sections 445.36, 445.37, and 445.39. Interest at the rate prescribed by law shall accrue on unpaid taxes. Both installments of taxes may be paid at one time. The September installment represents a tax period beginning July 1 and ending December 31. The March installment represents a tax period beginning January 1 and ending June 30. A mobile home, manufactured home, or modular home* coming into this state from outside the state, put in use from a dealer’s inventory, or put in use at any time after July 1 or January 1, and located in a manufactured home community or mobile home park, is subject to the taxes prorated for the remaining unexpired months of the tax period, but the purchaser is not required to pay the tax at the time of purchase. Interest attaches the
following April 1 for taxes prorated on or after October 1. Interest attaches at the following October 1 for taxes prorated on or after April 1. If the taxes are not paid, the county treasurer shall send a statement of delinquent taxes as part of the notice of tax sale as provided in section 446.9. The owner of a home who sells the home between July 1 and December 31 and obtains a tax clearance statement is responsible only for the September tax payment and is not required to pay taxes for subsequent tax periods. If the owner of a home located in a manufactured home community or mobile home park sells the home, obtains a tax clearance statement, and obtains a replacement home to be located in a manufactured home community or mobile home park, the owner shall not pay taxes under this chapter for the newly acquired home for the same tax period that the owner has paid taxes on the home sold. Interest for delinquent taxes shall be calculated to the nearest whole dollar. In calculating interest each fraction of a month shall be counted as an entire month.

2. The home owners upon issuance of a certificate of title or upon transporting to a new site shall file the address, township, and school district, of the location where the home is parked with the county treasurer’s office. Failure to comply is punishable as set out in section 435.18. When the new location is outside of a manufactured home community or mobile home park, the county treasurer shall provide to the assessor a copy of the tax clearance statement for purposes of assessment as real estate on the following January 1.

3. Each manufactured home community or mobile home park owner shall notify monthly the county treasurer concerning any home arriving in or departing from the manufactured home community or park without a tax clearance statement. The records of the owner shall be open to inspection by a duly authorized representative of any law enforcement agency. The manufactured home community or mobile home park owner or manager shall make an annual report to the county treasurer due June 1 of the homes sited in the manufactured home community or mobile home park, listing the owner and mailing address of each home located in the manufactured home community or mobile home park. The report is delinquent if not filed with the county treasurer by June 30. In addition to the annual report, the owner or manager shall also report any changes of homes or owners in a report due December 1, which is delinquent if not filed by December 31. However, if no changes have occurred since the June annual report, the December report is not required to be filed.

4. The tax is a lien on the vehicle senior to any other lien upon it except a judgment obtained in an action to dispose of an abandoned home under section 55B.8. The home bearing a current registration issued by any other state and remaining within this state for an accumulated period not to exceed ninety days in any twelve-month period is not subject to Iowa tax. However, when one or more persons occupying a home bearing a foreign registration are employed in this state, there is no exemption from the Iowa tax. This tax is in lieu of all other taxes general or local on a home.

5. Before a home may be moved from its present site by any person, a tax clearance statement in the name of the owner must be obtained from the county treasurer of the county where the present site is located certifying that taxes are not owing under this section for previous years and that the taxes have been paid for the current tax period. When a person moves a home from real property to a dealer’s stock or to a manufactured home community or mobile home park, as defined in section 435.1, a tax clearance statement shall be applied for, and issued, from the county treasurer of the county where the present site is located. When the home is moved to another county in this state, the county treasurer shall forward a copy of the tax clearance statement to the county treasurer of the county in which the home is being relocated. However, a tax clearance statement is not required for a home in a manufacturer’s or dealer’s stock which has not been used as a place for human habitation. A tax clearance form is not required to move an abandoned home. A tax clearance form is not required in eviction cases provided the manufactured home community or mobile home park owner or manager advises the county treasurer that the tenant is being evicted. If a dealer acquires a home from a person other than a manufacturer, the person shall provide a tax clearance statement in the name of the owner of record to the dealer. The tax clearance statement shall be provided by the county treasurer in a method prescribed by the department of transportation.

6. a. As an alternative to the semiannual or annual payment of taxes, the county treasurer may accept partial payments of current year home taxes. A minimum payment amount shall be established by the treasurer. The treasurer shall transfer amounts from each taxpayer’s account to be applied to each semiannual tax installment prior to the delinquency dates specified in section 445.37 and the amounts collected shall be apportioned by the tenth of the month following transfer. If, prior to the due date of each semiannual installment, the account balance is insufficient to fully satisfy the installment, the treasurer shall transfer and apply the entire account balance, leaving an unpaid balance of the installment. Interest shall attach on the unpaid balance in accordance with section 445.39. Unless funds sufficient to fully satisfy the delinquency are received, the treasurer shall collect the unpaid balance as provided in sections 445.3 and 445.4 and chapter 446. Any remaining balance in a taxpayer’s account in excess of the amount needed to fully satisfy an installment shall remain in the account to be applied.
§435.26 Conversion to real property.

1. a. A mobile home or manufactured home which is located outside a manufactured home community or mobile home park shall be converted to real estate by being placed on a permanent foundation and shall be assessed for real estate taxes. A home, after conversion to real estate, is eligible for the homestead tax credit and the military service tax exemption as provided in sections 425.2 and 426A.11.

b. If a security interest is noted on the certificate of title, the home owner shall tender to the secured party a mortgage on the real estate upon which the home is to be located in the unpaid amount of the secured debt, and with the same priority as or a higher priority than the secured party’s security interest, or shall obtain the written consent of the secured party to the conversion, in which latter case the lien notation on the certificate of title shall suffice to preserve the lienholder’s security in the home separate from any interest in the land.

2. After complying with subsection 1, the owner shall notify the assessor who shall inspect the premises for compliance. If a security interest is noted on the certificate of title, the assessor shall require an affidavit, as defined in section 622.85, from the home owner, declaring that the owner has complied with subsection 1, paragraph “b”, and setting forth the method of compliance.

a. If compliance with subsection 1, paragraph “b”, has been accomplished by the secured party accepting the tender of a mortgage, the assessor shall collect the home vehicle title and enter the property upon the tax rolls.

b. If compliance with subsection 1, paragraph “b”, has been accomplished by the secured party consenting to the conversion without accepting a mortgage, the secured party shall retain the home vehicle title and the assessor shall note the conversion on the assessor’s records and enter the property upon the tax rolls. So long as a security interest is noted on the certificate of title, the title to the home will not be merged with title to the land, and the sale or foreclosure of an interest in the land shall not affect title to the home or any securi-
ty interest in the home.

3. When the property is entered on the tax rolls, the assessor shall also enter on the tax rolls the title number last assigned to the mobile home or manufactured home and the manufacturer’s identification number.

435.26A Surrender of title.
1. A person who owns a manufactured home that is located in a manufactured home community and is installed on a permanent foundation may surrender the manufactured home’s certificate of title to the county treasurer for the purpose of assuring eligibility for funds available from mortgage lending programs sponsored by the federal national mortgage association, the federal home loan mortgage corporation, the United States department of agriculture, or any other federal governmental agency or instrumentality that has similar requirements for mortgage lending programs.
2. Upon receipt of a certificate of title from a manufactured home owner, a county treasurer shall notify the state department of transportation that the certificate of title has been surrendered, remove the registration of title from the county treasurer’s records, and destroy the certificate of title.

The manufactured home owner or the owner’s representative shall provide to the county recorder the identifying data of the manufactured home, including the owner’s name, the name of the manufacturer, the model name, the year of manufacture, and the serial number of the home, along with the legal description of the real estate on which the manufactured home is located. In addition, evidence shall be provided of the surrender of the certificate of title. After the surrender of the certificate of title of a manufactured home under this section, conveyance of an interest in the manufactured home shall not require transfer of title so long as the manufactured home remains on the same real estate site.

3. After the surrender of a manufactured home’s certificate of title under this section, the manufactured home shall continue to be taxed under section 435.22 and is not eligible for the homestead tax credit or the military service tax exemption. A foreclosure action on a manufactured home whose title has been surrendered under this section shall be conducted as a real estate foreclosure. A tax lien and its priority shall remain the same on a manufactured home after its certificate of title has been surrendered.
4. The certificate of title of a manufactured home shall not be surrendered under this section if an unreleased security interest is noted on the certificate of title.
5. An owner of a manufactured home who has surrendered a certificate of title under this section and requires another certificate of title for the manufactured home is required to apply for a certificate of title under chapter 321. If supporting documents for the reissuance of a title are not available or sufficient, the procedure for the reissuance of a title specified in the rules of the state department of transportation shall be used.

435.27 Reconversion.
1. A mobile home or manufactured home converted to real estate under section 435.26 may be reconverted to a home as provided in this section when it is moved to a manufactured home community or mobile home park or a manufactured or mobile home retailer’s inventory. When the home is located within a manufactured home community or mobile home park, the home shall be taxed pursuant to section 435.22, subsection 1.
2. If the vehicular frame of the home can be modified to return it to the status of a mobile home or manufactured home, the owner or a secured party holding a mortgage or certificate of title pursuant to section 435.26 who has obtained possession of the home may apply to the county treasurer as provided in section 321.20 for a certificate of title for the home. If a mortgage exists on the real estate, a security interest in the home shall be given to a secured party not applying for reconversion and noted on the certificate of title with the same priority or a higher priority than the secured party’s mortgage interest. A reconversion shall not occur without the written consent of every secured party holding a mortgage or certificate of title.

If the secured party has elected to retain the home vehicle title pursuant to section 435.26, subsection 2, paragraph “b”, an owner applying for reconversion shall present to the county treasurer written consent to the reconversion from all secured parties and an affirmation from the secured party holding the title that the title is in its possession and is intact. Upon receipt of the affirmation, the county treasurer shall notify the assessor of the reconversion, which notification constitutes compliance by the owner with subsection 3.

3. After compliance with subsection 2 and receipt of the title, the owner shall notify the assessor of the reconversion. The assessor shall remove the assessed valuation of the home from assessment rolls as of the succeeding January 1 when the home becomes subject to taxation as provided un-
435.28 County treasurer to notify assessor.
Upon issuance of a certificate of title to a mobile home or manufactured home which is not located in a manufactured home community or mobile home park or dealer’s inventory, the county treasurer shall notify the assessor of the existence of the home for tax assessment purposes.

A home owner who qualifies for a reduced tax rate provided in section 435.22 and who rents a space upon which to set the home shall be entitled to the protections provided in sections 425.33 to 425.36 and if the home owner who qualifies for a reduced tax rate believes that a landlord has increased the home owner’s rent because the home owner is eligible for a reduced tax rate, the provisions of sections 425.33 and 425.36 shall be applicable.

For the purposes of this chapter a modular home shall not be construed to be a mobile home and shall be exempt from the provisions of this chapter. However, this section shall not prohibit the location of a modular home within a manufactured home community or mobile home park.
This section does not apply to manufactured home communities or mobile home parks in existence on or before January 1, 1998. If a modular home is placed in a manufactured home community or mobile home park which was in existence on or before January 1, 1998, that modular home shall be subject to property tax pursuant to section 435.22.

CHAPTER 436
EXPRESS COMPANIES TAX
Repealed by 2002 Acts, ch 1150, §23

CHAPTER 437
ELECTRIC TRANSMISSION LINES TAX
See chapter 437A for taxes on certain electricity and natural gas providers
437.1 Definitions.
As used in this chapter, unless the context otherwise requires:
1. “Book”, “list”, “record”, or “schedule” kept by a county auditor, assessor, treasurer, recorder, sheriff, or other county officer means the county system as defined in section 445.1.
2. “Company” means an electric cooperative referred to in section 437A.7, subsection 3, paragraph “e”.
3. “Electric cooperative” means an electric utility provider formed or organized as an electric cooperative under the laws of this state or elsewhere.
4. “Transmission lines” means electric lines and associated facilities operating at thirty-four thousand five hundred volts or higher voltage, and substations, transformers, and associated facilities operated at thirty-four thousand five hundred or more volts on the low voltage side.

437.2 Statement required.
Every company owning or operating a transmission line or lines for the conduct of electric energy and which line or lines are located within the state, and which said line or lines are also located wholly or partly outside cities, shall, on or before the first day of May in each year, furnish to the director of revenue a verified statement as to its entire line or lines within this state, when all of said line or lines are located outside cities, and as to such portion of its line or lines within this state as are located outside cities, when such line or lines are located partly outside and partly inside cities, showing:
1. The total number of miles of line owned, operated, or leased, located outside cities within this state, with a separate showing of the number of miles leased.
2. The location and length of each division within the state and the character of poles, towers, wires, substation equipment, and other construction of each such division, designating the length and portion thereof in each separate county into which each such division extends.

437.3 Verification.
The verification of any statement required by law shall be made by some member, officer, or agent of the company having knowledge of the facts.

437.4 Additional statement.
Upon receipt of the statements from the companies, the director of revenue shall examine the statements, and if the director deems them insufficient, and that further information is required, the director shall require the company making the statements to make other or further statement as the director deems necessary, notifying the company by mail.

437.5 Failure to furnish.
In case of the total failure or refusal to make any statement required by sections 437.2 and 437.4 to be made by May 1 in any year, or of failure or refusal to make other or further statement within thirty days from the time the notice is received by the company that the additional statement is required by the director of revenue, the company shall forfeit and pay to the state, one hundred dollars for each day the total failure or refusal to make any report is continued beyond the first day of May of the year in which it is required, or in case of any other or further report required by the director for each day it is delayed beyond thirty days from the receipt of the notice by the company that the additional report is required. The forfeiture shall be sued for and recovered in any proper form of action in the name of the state and on relation of the director of revenue of the state, and the penalty, when collected, shall be paid into the general fund of the state.
437.6 Actual value.
On the second Monday in July of each year, the
director of revenue shall proceed to find the actual
value of that part of such transmission line or lines
referred to in section 437.2, owned or operated by
each company, that is located within this state but
outside cities, including the whole of such line or
lines when all of such line or lines owned or oper-
ated by said company is located wholly outside of
cities, taking into consideration the information
obtained from the statements required by this
chapter, and any further information obtainable,
using the same as a means of determining the ac-
tual cash value of such transmission line or lines
or part thereof, within this state, located outside
of cities. The director shall then ascertain the val-
ue per mile of such transmission line or lines
owned or operated by each company specified in
section 437.2, by dividing the total value as above
ascertained by the number of miles of line of such
company within the state located outside of cities,
and the result shall be deemed and held to be the
actual value per mile of said transmission line or
lines of each of said companies within the state
located outside of cities.

437.7 Taxable value.
The taxable value of such line or lines of which
the director of revenue by this chapter is required
to find the value, shall be determined by taking the
percentage of the actual value so ascertained, as
provided by section 441.21, and the ratio between
the actual value and the assessed or taxable value
of the transmission line or lines of each of said
companies located outside of cities shall be the
same as in the case of the property of private indi-
viduals.

attorneys before the director, and be heard on the
question of the value of its property for taxation.

437.9 County assessment — certification.
The director of revenue shall, for the purpose of
determining what amount shall be assessed to any
one of said companies in each county of the state
into which the line or lines of the company extend,
multiply the assessed or taxable value per mile of
line of said company, as ascertained according to
the provisions of this chapter, by the number of
miles of line in each of said counties, and the result
thereof shall be by the director certified to the se-
veral county auditors of the respective counties

437.10 Entry of certificate.
At the first meeting of the board of supervisors
held after said statements are received by the
county auditor, the board shall cause such state-
ment to be entered in its minute book and make
and enter in the minute book an order stating the
length of the lines and the assessed value of the
property of each of the companies situated in each
township or lesser taxing district in each county
outside cities, as fixed by the director of revenue,
which shall constitute the taxable value of the
property for taxing purposes. The county auditor
shall transmit a copy of the order to the trustees
of each township and to the proper taxing boards

437.11 Rate — purposes.
Such portions of the transmission line or lines
within the state referred to in section 437.2, as are
located outside cities, shall be taxable upon said
assessment provided for by sections 437.6 to 437.9
at the same rate, by the same officers and for the

GENERAL PROVISIONS
437A.24 Records.

The provisions of this chapter are classified and designated as follows:

- Subchapter I Introductory Provisions.
- Subchapter II Generation, Transmission, and Delivery Taxes.
- Subchapter III Statewide Property Tax.
- Subchapter IV General Provisions.

98 Acts, ch 1194, §2, 40

437A.2 Purposes.
The purposes of this chapter are to replace property taxes imposed on electric companies, natural gas companies, electric cooperatives, and municipal utilities with a system of taxation which will remove tax costs as a factor in a competitive environment by imposing like generation, transmission, and delivery taxes on similarly situated competitors who generate, transmit, or deliver electricity or natural gas in the same competitive service area, to preserve revenue neutrality and debt capacity for local governments and taxpayers, to preserve neutrality in the allocation and cost impact of any replacement tax among and upon consumers of electricity and natural gas in this state, and to provide a system of taxation which reduces existing administrative burdens on state government.

98 Acts, ch 1194, §3, 40

437A.3 Definitions.
As used in this chapter, unless the context otherwise requires:

1. “Assessed value” means the base year assessed value, as adjusted by section 437A.19, subsection 2. “Base year assessed value”, for a taxpayer other than an electric company, natural gas company, or electric cooperative, means the value attributable to property identified in section 427A.1, subsection 1, paragraph “h”, certified by the department of revenue to the county auditors for the assessment date of January 1, 1997, and the value attributable to property identified in section 427A.1 and section 427B.17, subsection 5, as certified by the local assessors to the county auditors for the assessment date of January 1, 1997, provided, that for a taxpayer subject to section 437A.17A, such value shall be the value certified by the department of revenue and local assessors to the county auditors for the assessment date of January 1, 1998. However, “base year assessed value”, for purposes of property of a taxpayer that is a municipal utility, if the property is not a major addition, and the property was initially assessed to the taxpayer as of January 1, 1998, and is not located in a county where the taxpayer had property that was assessed for purposes of this chapter as of January 1, 1997, means the value attributable to such property for the assessment date of January 1, 1998.

For taxpayers that are electric companies, natural gas companies, and electric cooperatives, “base year assessed value” means the average of the total of these values for each taxpayer for the assessment dates of January 1, 1993, through January 1, 1997, allocated among taxing districts in proportion to the allocation of the taxpayer’s January 1, 1998, assessed value among taxing districts. “Base year assessed value” does not include value attributable to steam-operating property.

2. “Book”, “list”, “record”, or “schedule” kept by a county auditor, assessor, treasurer, recorder, sheriff, or other county officer means the county system as defined in section 445.1.

3. “Centrally assessed property tax” means property tax imposed with respect to the value of property determined by the director pursuant to section 427.1, subsection 2, section 428.29, chapter 437, and chapter 438, Code 1997, and allocated to electric service and natural gas service. For purposes of this subsection, “natural gas service” means such service provided by natural gas pipelines permitted pursuant to chapter 479.

4. “Cogeneration facility” means a facility with a capacity of two hundred megawatts or less that uses the same energy source for the sequential generation of electrical or mechanical power in combination with steam, heat, or other forms of useful energy and, except for ownership, meets the criteria to be a qualifying cogeneration facility as defined in the federal Public Utility Regulatory Policies Act of 1978, 16 U.S.C. § 2601 et seq., and related federal regulations.

5. “Consumer” means an end user of electricity or natural gas used or consumed within this state. “Consumer” includes any master-metered facility even though the electricity or natural gas delivered to such facility may ultimately be used by another person. A person to whom electricity or natural gas is delivered by a master-metered facility is not a consumer. A “master-metered facility” means any multi-occupancy premises where units are separately rented or owned and where electricity or natural gas is used in centralized heating, cooling, water-heating, or ventilation systems, where individual metering is impractical, where the facility is designated for elderly or handicapped persons and utility costs constitute part of the operating cost and are not apportioned to individual units, or where submetering or resale of service was permitted prior to 1966.

6. “Delivery” means the physical transfer of electricity or natural gas to a consumer. Physical transfer to a consumer occurs when transportation of electricity or natural gas ends and such electricity or natural gas becomes available for use or consumption by a consumer.
7. “Director” means the director of revenue.
8. “Electric company” means a person engaged primarily in the production, delivery, service, or sales of electric energy whether formed or organized under the laws of this state or elsewhere.
   “Electric company” includes a combination natural gas company and electric company. “Electric company” does not include an electric cooperative or a municipal utility.
9. “Electric competitive service area” means an electric service area assigned by the utilities board under chapter 476 as of January 1, 1999, including utility property and facilities described in section 476.23, subsection 3, which were owned and served by the electric company, electric cooperative, or municipal utility serving such area on January 1, 1999.
10. “Electric cooperative” means an electric utility provider formed or organized as an electric cooperative under the laws of this state or elsewhere. An electric cooperative shall also include an incorporated city utility provider. “Generation and transmission electric cooperative” means an electric cooperative which owns both transmission lines and property which is used to generate electricity. “Distribution electric cooperative” means an electric cooperative other than a generation and transmission electric cooperative or a municipal electric cooperative association.
11. “Electric power generating plant” means a nameplate rated electric power generating plant, which produces electric energy from other forms of energy, including all taxable land, buildings, and equipment used in the production of such electric energy.
   “New electric power generating plant” means an electric power generating plant that is owned by or leased to an electric company, electric cooperative, or municipal utility, and that initially generates electricity subject to replacement generation tax under section 437A.6 on or after January 1, 2003.
12. “Incorporated city utility provider” means a corporation with assets worth one million dollars or more which has one or more platted villages located within the territorial limits of the tract of land which it owns, and which provides electricity to ten thousand or fewer customers.
13. “Lease” means a contract between a lessor and lessee pursuant to which the lessee obtains a present possessory interest in tangible property without obtaining legal title in such property. A contract to transmit or deliver electricity or natural gas using operating property within this state is not a lease. “Capital lease” means a lease classified as a capital lease under generally accepted accounting principles.
14. “Local amount” means the first forty-four million four hundred forty-five thousand dollars of the acquisition cost of any major addition which is an electric power generating plant and the total acquisition cost of any other major addition.
   “Local amount” for the purposes of determining the local taxable value for a new electric power generating plant shall annually be determined to be equal up to the first forty-four million four hundred forty-four thousand four hundred forty-five dollars of the taxable value of the new electric power generating plant. “Local amount” for the purposes of determining the local assessed value for a new electric power generating plant shall be annually determined to be the percentage share of the taxable value of the new electric power generating plant allocated as the local amount multiplied by the total assessed value of the new electric power generating plant.
15. “Local taxing authority” means a city, county, community college, school district, or other taxing authority located in this state and authorized to certify a levy on property located within such authority for the payment of bonds and interest or other obligations of such authority.
16. “Local taxing district” means a geographic area with a common consolidated property tax rate.
17. “Low capacity factor electric power generating plant” means, for any tax year, an electric power generating plant, with the exception of an electric power generating plant owned or leased by an electric company, an electric cooperative, or a municipal utility, which operated during the preceding calendar year at a net capacity factor of twenty percent or less. “Net capacity factor” means net actual generation during the preceding calendar year divided by the product of nameplate capacity times the number of hours the plant was in the active state during the preceding calendar year. Upon commissioning, a plant is in the active state until it is decommissioned. “Net actual generation” means net electrical megawatt hours produced by a plant during the preceding calendar year.
18. “Major addition” means either of the following:
   a. Any acquisition on or after January 1, 1998, by a taxpayer, by transfer of ownership, self-construction, or capital lease of any interest in any of the following:
      (1) A building in this state where the acquisition cost of all interests acquired exceeds ten million dollars.
      (2) An electric power generating plant where the acquisition cost of all interests acquired exceeds ten million dollars. For purposes of this paragraph, “electric power generating plant” means each nameplate rated electric power generating plant owned solely or jointly by any person or electric power facility financed under the provisions of chapter 28F or 476A in which electrical energy is produced from other forms of energy, including all equipment used in the production of such energy through its step-up transformer.
      (3) Natural gas operating property within a local taxing district where the acquisition cost of all
interests acquired exceeds one million dollars.

(4) Any property described in section 437A.16 in this state acquired by a person not previously subject to taxation under this chapter.

437A.4 Replacement tax imposed on delivery of electricity.

1. A replacement delivery tax is imposed on every person who makes a delivery of electricity to a consumer within this state. The replacement delivery tax imposed by this section is equal to the sum of the following:

   a. The number of kilowatt-hours of electricity delivered to consumers by the taxpayer within each electric competitive service area during the tax year multiplied by the electric replacement delivery tax rate in effect for each such electric competitive service area.

   b. Where applicable, and in addition to the tax imposed by paragraph "a", the number of kilowatt-hours of electricity delivered to consumers by the taxpayer within each electric competitive service area during the tax year multiplied by the electric transfer replacement tax rate for each such electric competitive service area.

2. If electricity is consumed in this state, whether such electricity is purchased, transferred, or self-generated, and the delivery, purchase, transference, or self-generation of such electricity is not subject to the tax imposed under subsection 1, a tax is imposed on the consumer at the rates prescribed under subsection 1.

3. Electric replacement delivery tax rates shall be calculated by the director for each electric competitive service area as follows:

   a. The director shall determine the average centrally assessed property tax liability allocated to electric service of each taxpayer, other than a municipal utility, principally serving an electric competitive service area and of each generation and transmission electric cooperative for the assessment years 1993 through 1997 based on property tax payments made. In the case of a municipal utility, the average centrally assessed property tax liability allocated to electric service is the centrally assessed property tax liability of such municipal utility allocated to electric service for the 1997 assessment year based on property tax payments made.

   b. The director shall determine, for each taxpayer, the number of kilowatt-hours of electricity generated by the taxpayer principally serving such electric competitive service area which would have been subject to taxation under section 437A.6, the number of pole miles which would have been subject to taxation under section 437A.7, and the number of kilowatt-hours of electricity delivered to consumers which would have been subject to taxation under this section in calendar year 1998, had such sections been in effect for calendar year 1998.

   c. The director shall determine the electric generation, transmission, and delivery tax components of the average centrally assessed property tax liability determined in paragraph "a" for each electric competitive service area as follows:

   (1) The electric generation tax component for an electric competitive service area shall be computed by multiplying the tax rate set forth in section 437A.6 by the number of kilowatt-hours of electricity generated by the taxpayer principally serving such electric competitive service area which would have been subject to taxation under section 437A.6 in calendar year 1998, had that section been in effect for calendar year 1998.
(2) The electric transmission tax component for an electric competitive service area shall be computed by multiplying the tax rates set forth in section 437A.7 by the number of pole miles for each line voltage owned or leased by the taxpayer principally serving such electric competitive service area which would have been subject to taxation under section 437A.7 on December 31, 1998, had that section been in effect for calendar year 1998.

(3) The electric delivery tax component for an electric competitive service area shall be the average centrally assessed property tax liability allocated to electric service of the taxpayer principally serving such electric competitive service area less the electric generation and transmission tax components computed for such electric competitive service area.

(4) The electric delivery tax component for each electric competitive service area shall be adjusted, as necessary, to assign the excess property tax liability of each generation and transmission electric cooperative to the electric competitive service areas principally served on January 1, 1999, by its distribution electric cooperative members and by those municipal utilities which were purchasing members of a municipal electric cooperative association that is a member of the generation and transmission electric cooperative. Such assignment of excess property tax liability of each such generation and transmission electric cooperative shall be made in proportion to the appropriate wholesale rate charges in calendar year 1998 to its distribution electric cooperative members and municipal electric cooperative association members which purchased electricity from the generation and transmission electric cooperative. Any amount assignable to a municipal electric cooperative association shall be reassigned to the electric competitive service area principally serving such electric competitive service area, other than those transfers declared exempt from the transfer replacement tax by the city council, plus the municipal transfer replacement tax received by the municipality, if any, during the five immediately preceding calendar years by the number of kilowatt-hours of electricity delivered to consumers in the electric competitive service area during the immediately preceding calendar year which were subject to taxation under this section or which would have been subject to taxation under this section had it been in effect for such calendar year. The city council on its own motion, or in the case of a municipal utility governed by a board of trustees under chapter 388 upon a resolution of the board of trustees requesting such action, may declare any transfer or part of such transfer to be exempt from the transfer replacement tax under this section. Such rates shall be calculated and reported to the director on or before August 31 of each calendar year.

5. A municipal utility taxpayer is entitled to a credit against the municipal electric transfer replacement tax equal to the average amount of electric-related transfers made by such municipal utility taxpayer under section 384.89, other than those transfers declared exempt from transfer replacement tax by the city council, during the preceding five calendar years.

6. The following are not subject to the replacement delivery tax imposed by subsections 1 and 2:
   a. Delivery of electricity generated by a low capacity factor electric power generating plant.
   b. Delivery of electricity to a city from such city’s municipal utility, provided such electricity is used by the city for the public purposes of the city.
   c. Electricity consumed by a state university or university of science and technology, provided such electricity was generated by property described in section 427.1, subsection 1.
   d. Electricity generated and consumed by a self-generator.

7. Notwithstanding subsection 1, the electric delivery tax rate applied to kilowatt-hours of electricity delivered by a taxpayer to utility property and facilities which are placed in service on or after January 1, 1999, and are owned by or leased to
and initially served by such taxpayer shall be the electric delivery tax rate in effect for the electric competitive service area principally served by such utility property and facilities even though such utility property and facilities may be physically located in another electric competitive service area.

8. If for any tax year after calendar year 1998, the total taxable kilowatt-hours of electricity required to be reported by taxpayers pursuant to section 437A.8, subsection 1, paragraphs “a” and “b”, with respect to any electric competitive service area, increases or decreases by more than the threshold percentage from the average of the base year amounts for that electric competitive service area during the immediately preceding five calendar years, the tax rate imposed under subsection 1, paragraph “a”, and subsection 2, for that tax year shall be recalculated by the director for that electric competitive service area so that the total of the replacement electric delivery taxes required to be reported pursuant to section 437A.8, subsection 1, paragraph “e”, for that electric competitive service area with respect to the tax imposed under subsection 1, paragraph “a”, and subsection 2, shall be as follows:

a. If the number of kilowatt-hours of electricity required to be reported increased by more than the threshold percentage, one hundred two percent of such taxes required to be reported by taxpayers for that electric competitive service area for the immediately preceding tax year.

b. If the number of kilowatt-hours of electricity required to be reported decreased by more than the threshold percentage, ninety-eight percent of such taxes required to be reported by taxpayers for that electric competitive service area for the immediately preceding tax year.

For purposes of paragraphs “a” and “b”, in computing the tax rate under subsection 1, paragraph “a”, and subsection 2, for tax year 1999, the director shall use the electric delivery tax component computed for the electric competitive service area pursuant to subsection 3, paragraph “c”, in lieu of the taxes required to be reported for that electric competitive service area for the immediately preceding tax year.

The threshold percentage shall be determined annually and shall be eight percent for any electric competitive service area in which the average of the base year amounts for the preceding five calendar years does not exceed three billion kilowatt-hours, and ten percent for all other electric competitive service areas.

Any such recalculation of an electric delivery tax rate, if required, shall be made and the new rate shall be published in the Iowa administrative bulletin by the director by no later than May 31 following the tax year. The director shall adjust the tentative replacement tax imposed by subsection 1, paragraph “a”, and subsection 2 required to be shown on any affected taxpayer’s return pursuant to section 437A.8, subsection 1, paragraph “e”, to reflect the adjusted delivery tax rate for the tax year, and report such adjustment to the affected taxpayer on or before June 30 following the tax year. The new electric delivery tax rate shall apply prospectively, until such time as further adjustment is required.

For purposes of this section, “base year amount” means for calendar years prior to tax year 1999, the sum of the kilowatt-hours of electricity delivered to consumers within an electric competitive service area by the taxpayer principally serving such electric competitive service area which would have been subject to taxation under this section had this section been in effect for those years; and for tax years after calendar year 1998, the taxable kilowatt-hours of electricity required to be reported by taxpayers pursuant to section 437A.8, subsection 1, paragraph “a” and “b”, with respect to any electric competitive service area.

9. a. After calendar year 1998, if a municipal electric cooperative association ceases to purchase electricity from the generation and transmission electric cooperative from which it purchased electricity in 1998, and for a period of one hundred eighty days after such purchases cease, no municipal utility member of such association purchases electricity from such generation and transmission electric cooperative, the excess property tax liability assigned pursuant to subsection 3, paragraph “c”, subparagraph (4), to the electric competitive service areas principally served by the municipal utility members on January 1, 1999, shall be removed from the electric delivery tax component of those electric competitive service areas and the electric delivery tax rate for those electric competitive service areas shall be recalculated to reflect that change.

b. After calendar year 1998, if a municipal utility ceases to be a purchasing member of a municipal electric cooperative association which purchased electricity in calendar year 1998 from a generation and transmission electric cooperative, and for a period of one hundred eighty days after the municipal utility ceases to be a purchasing member of such association such municipal utility does not purchase electricity from such generation and transmission electric cooperative, the excess property tax liability assigned pursuant to subsection 3, paragraph “c”, subparagraph (4), to the electric competitive service area principally served by the municipal utility on January 1, 1999, shall be removed from the electric delivery tax component of those electric competitive service areas and the electric delivery tax rate for those electric competitive service areas shall be recalculated to reflect that change.

c. If a recalculation has previously been made by the director pursuant to subsection 8 for an electric competitive service area described in this subsection, the recalculation required by this subsection shall be made by the director by modifying
§437A.5 Replacement tax imposed on delivery of natural gas.

1. A replacement delivery tax is imposed on every person who makes a delivery of natural gas to a consumer within this state. The replacement delivery tax imposed by this section shall be equal to the sum of the following:
   a. The number of therms of natural gas delivered to consumers by the taxpayer within each natural gas competitive service area during the tax year multiplied by the natural gas delivery tax rate in effect for each such natural gas competitive service area.
   b. Where applicable, and in addition to the tax imposed by paragraph "a", the number of therms of natural gas delivered to consumers by the taxpayer within each natural gas competitive service area during the tax year multiplied by the municipal natural gas transfer replacement tax rate for each such natural gas competitive service area.
   c. Notwithstanding paragraphs "a" and "b", a natural gas delivery rate of one and eleven-hundredths of a cent (.0111) per therm of natural gas is imposed on all natural gas delivered to or consumed by a new electric power generating plant for purposes of generating electricity within the state during the tax year. However, if a new electric power generating plant is exempt from a replacement generation tax pursuant to section 437A.6, subsection 1, paragraph "b", the natural gas delivery rate for the municipal service area that the new plant serves shall instead apply for deliveries of natural gas by the municipal gas utility.

The provisions of subsection 8 shall not apply to the therms of natural gas subject to the delivery tax set forth in this paragraph.

If the new electric power generating plant is part of a cogeneration facility, the natural gas delivery rate for that plant shall be the lesser of the natural gas delivery rate established in this paragraph or the rate per therm of natural gas as in effect at the time of the initial natural gas deliveries to the plant for the natural gas competitive service area where the new electric power generating plant is located.

2. If natural gas is consumed in this state, whether such natural gas is purchased or transferred, and the delivery, purchase, or transference of such natural gas is not subject to the tax imposed under subsection 1, a tax is imposed on the consumer at the rates prescribed under subsection 1.

3. Natural gas delivery tax rates shall be calculated by the director for each natural gas competitive service area as follows:
   a. The director shall determine the average centrally assessed property tax liability allocated to natural gas service of each taxpayer, other than a municipal utility, principally serving a natural gas competitive service area for the assessment years 1993 through 1997 based on property tax payments made. In the case of a municipal utility, the average centrally assessed property tax liability allocated to natural gas service is the centrally assessed property tax liability of such municipal utility allocated to natural gas service for the 1997 assessment year based on property tax payments made. For purposes of this subsection, taxpayer does not include a pipeline company defined in section 479A.2.
   b. The director shall determine for each taxpayer the number of therms of natural gas delivered to consumers which would have been subject to taxation under this section in calendar year 1998 had this section been in effect for calendar year 1998.
   c. The director shall determine a natural gas delivery tax rate for each natural gas competitive service area by dividing the average centrally assessed property tax liability allocated to natural gas service of the taxpayer principally serving the natural gas competitive service area by the number of therms of natural gas delivered by such taxpayer to consumers in calendar year 1998 which would have been subject to taxation under this section had such section been in effect for calendar year 1998.

4. Municipal natural gas transfer replacement tax rates shall be calculated annually by the city council of each city located within a natural gas competitive service area served by a municipal utility as of January 1, 1999, by dividing the average annual dollar amount of natural gas-related transfers made pursuant to section 384.89 by the municipal utility serving the natural gas competitive service area, other than those transfers declared exempt from the transfer replacement tax by the city council, plus the municipal transfer re-
replacement tax received by the municipality, if any, during the five immediately preceding calendar years, by the number of therms of natural gas delivered to consumers in the natural gas competitive service area during the immediately preceding calendar year which were subject to taxation under this section or which would have been subject to taxation under this section had it been in effect for such calendar year. The city council on its own motion, or in the case of a municipal utility governed by a board of trustees under chapter 388 upon a resolution of the board of trustees requesting such action, may declare any transfer or part of such transfer to be exempt from the transfer replacement tax under this section. Such rates shall be calculated and reported to the director on or before August 31 of each tax year.

5. A municipal utility taxpayer is entitled to a credit against the municipal natural gas transfer replacement tax equal to the average amount of natural gas-related transfers made by such municipal utility taxpayer under section 384.89, other than those transfers declared exempt from transfer replacement tax by the city council, during the preceding five calendar years.

6. Notwithstanding subsection 1, the natural gas delivery tax rate applied to therms of natural gas delivered by a taxpayer to utility property and facilities that are placed in service on or after January 1, 1999, and that are owned by or leased to and initially served by such taxpayer shall be the natural gas delivery tax rate in effect for the natural gas competitive service area principally served by such utility property and facilities even though such utility property and facilities may be physically located in another natural gas competitive service area.

This subsection shall not apply to natural gas delivered to or consumed by new electric power generating plants.

7. Delivery of natural gas to a city from such city’s municipal utility is not subject to the replacement delivery tax imposed under subsection 1, paragraph “a”, and subsection 2, provided such natural gas is used by the city for the public purposes of the city.

Subsection 2 does not apply to natural gas consumed by a person, other than an electric company, natural gas company, electric cooperative, or municipal utility, acquired by means of facilities owned by or leased to such person on January 1, 1999, which were physically attached to pipelines that are not permitted pursuant to chapter 479 and used by such person for the purpose of bypassing the local natural gas company or municipal utility.

Subsection 1 does not apply to natural gas which is delivered, by a pipeline that is not permitted pursuant to chapter 479, into a facility owned by or leased to a person, other than an electric company, natural gas company, electric cooperative, or municipal utility, if the person who consumes the gas uses the gas for the purpose of bypassing the local natural gas company or municipal utility, regardless of whether such facility existed on January 1, 1999.

8. If, for any tax year after calendar year 1998, the total taxable therms of natural gas required to be reported by taxpayers pursuant to section 437A.8, subsection 1, paragraphs “a” and “b”, with respect to any natural gas competitive service area increases or decreases by more than the threshold percentage from the average of the base year amounts for that natural gas competitive service area during the immediately preceding five calendar years, the tax rate imposed under subsection 1, paragraph “a”, and subsection 2 for that tax year shall be recalculated by the director for that natural gas competitive service area so that the total of the replacement natural gas delivery taxes required to be reported pursuant to section 437A.8, subsection 1, paragraph “a”, for that natural gas competitive service area with respect to the tax imposed under subsection 1, paragraph “a”, and subsection 2 shall be as follows:

a. If the number of therms of natural gas required to be reported increased by more than the threshold percentage, ninety-eight percent of such taxes required to be reported by taxpayers for that natural gas competitive service area for the immediately preceding tax year.

b. If the number of therms of natural gas required to be reported decreased by more than the threshold percentage, one hundred two percent of such taxes required to be reported by taxpayers for that natural gas competitive service area for the immediately preceding tax year.

c. For purposes of paragraphs “a” and “b”, in computing the tax rate under subsection 1, paragraph “a”, and subsection 2 for calendar year 1999, the director shall use the average centrally assessed property tax liability allocated to natural gas service computed for the natural gas competitive service area pursuant to subsection 3, paragraph “a”, in lieu of the taxes required to be reported for that natural gas competitive service area for the immediately preceding tax year.

The threshold percentage shall be determined annually and shall be eight percent for any natural gas competitive service area in which the average of the base year amounts for the preceding five calendar years does not exceed two hundred fifty million therms, and ten percent for all other natural gas competitive service areas.

Recalculation of a natural gas delivery tax rate, if required, shall be made and the new rate published in the Iowa administrative bulletin by the director by no later than May 31 following the tax year. The director shall adjust the tentative replacement tax imposed by subsection 1, paragraph “a”, and subsection 2 required to be shown on any affected taxpayer’s return pursuant to section 437A.8, subsection 1, paragraph “a”, to reflect the adjusted delivery tax rate for the tax year, and re-
437A.6 Replacement tax imposed on electric generation.  
1. A replacement generation tax of six hundredths of a cent per kilowatt-hour of electricity generated within this state during the tax year is imposed on every person generating electricity, except electricity generated by the following:
   a. A low capacity factor electric power generating plant.

2. Each taxpayer subject to a municipal transfer replacement tax, on or before March 31 following a tax year, shall file with the chief financial officer of each city located within an electric or natural gas competitive service area served by a municipal utility as of January 1, 1999, a return including, but not limited to, the following information:

c. The transfer replacement taxes imposed by section 437A.4, subsection 1, paragraph “b”, and
section 437A.5, subsection 1, paragraph "b", due for the tax year.

3. A return shall be signed by an officer, or other person duly authorized by the taxpayer, and must be certified as correct and in accordance with forms and rules prescribed by the director in the case of a return filed pursuant to subsection 1, and in accordance with forms and rules prescribed by the chief financial officer of the city in the case of a return filed pursuant to subsection 2.

4. a. At the time of filing the return required by subsection 1 with the director, the taxpayer shall calculate the tentative replacement tax due for the tax year. The director shall compute any adjustments to the replacement tax required by subsection 7 and by section 437A.4, subsection 8, and section 437A.5, subsection 8, and notify the taxpayer of any such adjustments in accordance with the requirements of such provisions. The director and the department of management shall compute the allocation of replacement taxes among local taxing districts and report such allocations to county treasurers pursuant to section 437A.15. Based on such allocations, the treasurer of each county shall notify each taxpayer on or before August 31 following a tax year of its replacement tax obligation to the county treasurer. On or before September 30, 2000, and on or before September 30 of each subsequent year, the taxpayer shall remit to the county treasurer of each county to which such replacement tax is allocated pursuant to section 437A.15, one-half of the replacement tax so allocated, and on or before the succeeding March 31, the taxpayer shall remit to the county treasurers the remaining replacement tax so allocated. If notification of a taxpayer’s replacement tax obligation is not mailed by a county treasurer on or before August 31 following a tax year, such taxpayer shall have thirty days from the date the notification is mailed to remit one-half of the replacement tax otherwise required by this subsection to be remitted to such county treasurer on or before September 30. If a taxpayer fails to timely remit replacement taxes as provided in this subsection, the county treasurer of each affected county shall notify the director of such failure.

b. If a distribution electric cooperative member or a municipal utility purchasing member subject to section 437A.15, subsection 3, paragraph "b", does not make timely payment of the correct amount of replacement tax to the generation and transmission electric cooperative, the generation and transmission electric cooperative shall notify the director in writing within ten days after September 10. The director shall then notify the generation and transmission electric cooperative in writing within five days after delivery of notice to the director of the paid amount to be remitted to the appropriate county treasurer and shall also notify the county treasurer. The generation and transmission electric cooperative shall remit the amount determined by the director to the appropriate county treasurer by September 30. If the generation and transmission electric cooperative timely notifies the director and timely remits to the county treasurer the amounts of replacement tax, as determined by the director, the generation and transmission electric cooperative shall not be liable for that unpaid replacement tax due from the distribution electric cooperative member or municipal utility purchasing member. The generation and transmission electric cooperative shall also not be liable for a special utility property tax levy, if any, and shall not be entitled to a tax credit, if any, attributable to the unpaid replacement tax. The county treasurer and the director shall enforce payment of the replacement tax against the appropriate distribution electric cooperative member or municipal utility purchasing member pursuant to sections 437A.9 through 437A.13. The county treasurer shall enforce payment of the special utility property tax levy, if any, against the appropriate distribution electric cooperative member or municipal utility purchasing member. For purposes of this paragraph:

(1) Written notice to the director must be either delivered to the director by electronic means, United States postal service, or a common carrier, by ordinary, certified, or registered mail directed to the attention of the director, be personally delivered to the director, or be served on the director by personal service during business hours. If the notice is mailed, a notice is considered delivered on the date of the postmark. If a postmark date is not present on the mailed article, the date of receipt of notice shall be considered the date of the mailing. A notice is considered delivered on the date personal service or personal delivery to the office of the director is made.

(2) Written notice to a generation and transmission electric cooperative must be delivered to the cooperative by electronic means, United States postal service, or a common carrier, by ordinary, certified, or registered mail directed to the attention of the manager of the cooperative, be personally delivered to the manager of the cooperative, or be served on the manager of the cooperative by personal service during business hours. For the purpose of mailing, a notice is considered delivered on the date of the postmark. If a postmark date is not present on the mailed article, the date of receipt of notice shall be considered the date of the mailing. A notice is considered delivered on the date personal service or personal delivery to the office of the manager of the cooperative is made.

c. If a generation and transmission electric cooperative, after notice, does not timely pay the correct amount of replacement tax or special utility property tax levy attributable to the excess property tax liability to the appropriate county treasurer, after receiving the required payment from the distribution electric cooperative member or municipal utility purchasing member, such re-
replacement tax shall be enforced solely against the
generation and transmission electric cooperative
under sections 437A.9 through 437A.13, and shall
not be enforced against the paying distribution
electric cooperative member or municipal utility
purchasing member, and the special utility property
tax levy shall be enforced solely against the
generation and transmission electric cooperative.

d. Notwithstanding paragraph "a", a taxpayer
who owns or leases a new electric power generat-
ing plant and who has no other operating property
in the state of Iowa except for operating property
directly serving the new electric power generating
plant as described in section 437A.16 shall pay the
replacement generation tax associated with the
allocation of the local amount to the county trea-
surer of the county in which the local amount is lo-
cated and shall remit the remaining replacement
generation tax, if any, to the director according to
paragraph "a" for remittance of the tax to county
treasurers. The director shall notify each taxpayer
on or before August 31 following a tax year of its
remaining replacement generation tax to be re-
mitted to the director. All remaining replacement
generation tax revenues received by the director
shall be deposited in the property tax relief fund
created in section 426B.1, and shall be distributed
as provided in section 426B.2.

5. At the time of filing the return required by
subsection 2, the taxpayer shall calculate the mu-
cipal transfer replacement tax due for the tax
year. Municipal transfer replacement taxes shall
be paid to the chief financial officer of the city to
which the taxes are allocated at such time and
place as directed by the city council.

6. Notwithstanding subsections 1 through 5, a
taxpayer shall not be required to file a return
otherwise required by this section or remit any re-
placement tax for any tax year in which the tax-
payer’s replacement tax liability before credits is
three hundred dollars or less, provided that all
electric companies, electric cooperatives, munici-
pal utilities, and natural gas companies shall file
a return, regardless of the taxpayer’s replacement
tax liability.

7. Following the determination of electric and
natural gas delivery tax rates by the director pursu-
ant to section 437A.4, subsection 3, and section
437A.5, subsection 3, if an adjustment resulting
from a taxpayer appeal is made to taxes levied and
paid by a taxpayer with respect to any of the as-
essment years 1993 through 1997 used in deter-
mining such rates, the director shall recalculate
the delivery tax rate for any affected electric or
natural gas competitive service area to reflect the
impact of such adjustment as if such adjustment
had been reflected in the initial determination of
average centrally assessed property tax liability
allocated to electric or natural gas service pur-
suant to section 437A.4, subsection 3, paragraph
"a", and section 437A.5, subsection 3, paragraph
"a". Rate recalculation shall be made and pub-
lished in the Iowa administrative bulletin by the
director on or before March 31 following the calen-
dar year in which a final determination of the ad-
justment is made. Taxpayers shall report to the di-
rector any increase or decrease in the tentative re-
placement tax required to be shown to be due pur-
suant to subsection 1, paragraph "e", for any tax
year with the return for the year in which the re-
calculated tax rates which gave rise to the adjust-
ment are published in the Iowa administrative
bulletin. The director and the department of man-
agement shall redetermine the allocation of re-
placement taxes pursuant to section 437A.15 for
each affected tax year. If a taxpayer has overpaid
replacement taxes, the overpayment shall be re-
ported by the director to such taxpayer and to the
appropriate county treasurers and shall be a cred-
it against the replacement taxes owed by such tax-
payer for the year in which the recalculated rates
which gave rise to the overpayment are published
in the Iowa administrative bulletin. If a taxpayer
has overpaid centrally assessed property taxes for
assessment years prior to tax year 1999, such
overpayment shall be a credit against replace-
ment taxes owed by such taxpayer for the year in
which the overpayment is determined. Unused
credits may be carried forward and used to reduce
future replacement tax liabilities until exhausted.

437A.9 Failure to file return — incorrect
return.

1. As soon as practicable after a return re-
quired by section 437A.8, subsection 1, is filed, and
in any event within three years after such return
is filed, the director shall examine the return, de-
terminate the tax due if the return is found to be in-
correct, and give notice to the taxpayer of the de-
termination as provided in subsection 2. The peri-
od for the examination and determination of the
correct amount of tax is unlimited in the case of a
false or fraudulent return made with the intent to
evade any tax or in the case of a failure to file a re-
turn. The chief financial officer of a city shall have
the same authority as is granted to the director
under this section with respect to a return filed
pursuant to section 437A.8, subsection 2.

2. If a return required by section 437A.8, sub-
section 1, is not filed, or if such return when filed
is incorrect or insufficient and the taxpayer fails to
file a corrected or sufficient return within twenty
days after such return is required by notice from
the director, the director shall determine the
amount of tax due from information as the director
may be able to obtain and, if necessary, may esti-
mate the tax due on the basis of external indices. The director shall give notice of the determination to the taxpayer liable for the tax and to the county treasurers to whom the tax is owed. The determination shall fix the tax unless the taxpayer against whom it is levied, within sixty days after notice of the determination, applies to the director for a hearing. At the hearing evidence may be offered to support the determination or to prove that it is incorrect. After the hearing the director shall give notice of the decision to the person liable for the tax and to the county treasurers to whom the tax is owed.

3. The three-year period of limitation provided in subsection 1 may be extended by the taxpayer by signing a waiver agreement form provided by the department. The agreement shall stipulate the period of extension and the tax period to which the extension applies. The agreement shall also provide that a claim for refund may be filed by the taxpayer at any time during the period of extension.

For cause and upon a showing by the director that collection of the tax in dispute is in doubt, the court may order the petitioner to file with the clerk of the district court a bond for the use of the appropriate local taxing authorities, with sureties approved by the clerk of the district court, in the amount of the tax appealed from, conditioned upon the performance by the petitioner of any orders of the court.
3. An appeal may be taken by the taxpayer or the director to the supreme court irrespective of the amount involved.
4. A person aggrieved by a decision of the chief financial officer of a city under this chapter may seek review by writ of certiorari within thirty days of the decision sought to be reviewed.

437A.11 Lien — actions authorized.
Whenever a taxpayer who is liable to pay a tax imposed by subchapter II refuses or neglects to pay such tax, the amount, including any interest, penalty, or addition to such tax, together with the costs that may accrue, shall be a lien in favor of the chief financial officer of the city or the county treasurer to which the tax is owed upon all property and rights to property, whether real or personal, belonging to the taxpayer. The lien shall be prior to and superior over all subsequent liens upon any personal property within this state, or right to such personal property, belonging to the taxpayer, without the necessity of recording the lien. The requirement for recording, as applied to the tax imposed by subchapter II, shall apply only to a lien upon real property. The lien may be preserved against subsequent mortgagees, purchasers, or judgment creditors, for value and without notice of the lien, on any real property situated in a county, by the county treasurer to which replacement tax is owed by filing with the recorder of the county in which the real property is located a notice of the lien. For purposes of the replacement tax collected by a city, the lien may be preserved against subsequent mortgagees, purchasers, or judgment creditors, for value and without notice of the lien, on any real property situated in the county, by the chief financial officer of the city to which replacement tax is owed by filing with the recorder of the county in which the real property is located a notice of the lien.

The county recorder of each county shall prepare and keep in the recorder’s office an index and record to show, under the names of taxpayers arranged alphabetically, all of the following:
1. The name of the taxpayer.
2. The name of the county treasurer and county or the name of the chief financial officer and city as claimant.
3. Time the notice of lien was received.
4. Date of notice.
5. Amount of lien then due.
6. Date of assessment.
7. Date when the lien is satisfied.

The county recorder of each county shall pay a recording fee as provided in section 331.604, for the recording of the lien, or for the satisfaction. Upon the payment of the replacement tax as to which a county treasurer or chief financial officer of a city has filed notice with a county recorder, the county treasurer or chief financial officer of the city shall promptly file with the recorder a satisfaction of the replacement tax. The recorder shall enter the satisfaction on the notice on file in the recorder’s office and indicate that fact on the index.

Section 445.3 applies with respect to the replacement taxes and special utility property tax levies and penalties and interest imposed by this chapter, except for the provisions limiting the commencement of actions. In addition, at the county treasurer’s discretion, chapters 446, 447, and 448 apply in the enforcement of the special utility property tax levies, but any tax deed issued shall not extinguish a tax lien or judgment lien for replacement taxes that has attached to the property.

437A.12 Service of notice.
1. A notice authorized or required under this chapter may be given by mailing the notice to the taxpayer, addressed to the taxpayer at the address given in the last return filed by the taxpayer pursuant to this chapter, or if no return has been filed, then to the most recent address of the taxpayer obtainable. The mailing of the notice is presumptive evidence of the receipt of the notice by the taxpayer to whom the notice is addressed. A period of time within which some action must be taken for which notice is provided under this section commences to run from the date of mailing of the notice.
2. There is no limitation for the enforcement of a civil remedy pursuant to any proceeding or action taken to levy, appraise, assess, determine, or enforce the collection of any tax or penalty due under this chapter.
3. The issuance of a certificate by the director or a county treasurer stating that a replacement tax has not been paid, that a return has not been filed, or information has not been supplied pursuant to this chapter under this chapter. Unpaid penalties and interest may be enforced in the same manner as provided for unpaid replacement tax due under this chapter.
4. A taxpayer, or officer, member, or employee of the taxpayer, who willfully attempts to evade the replacement tax imposed or the payment of the replacement tax due, counting each fraction of a month as an entire month. The penalty and interest shall be paid to the county treasurer, or in the case of penalty and interest associated with a municipal transfer replacement tax to the city financial officer, and shall be disposed of in the same manner as other receipts under this chapter. Unpaid penalties and interest may be enforced in the same manner as provided for unpaid replacement tax under this chapter.
5. A taxpayer, or officer, member, or employee of the taxpayer, who willfully attempts to evade the replacement tax imposed or the payment of the replacement tax is guilty of a class "D" felony.

437A.13 Penalties — offenses — limitation.
1. A taxpayer is subject to the penalty provisions in section 421.27 with respect to any replacement tax due under this chapter. A taxpayer shall also pay interest on the delinquent replacement tax at the rate in effect under section 421.7 for each month computed from the date the payment was due, counting each fraction of a month as an entire month. The penalty and interest shall be paid to the county treasurer, or in the case of penalty and interest associated with a municipal transfer replacement tax to the city financial officer, and shall be disposed of in the same manner as other receipts under this chapter. Unpaid penalties and interest may be enforced in the same manner as provided for unpaid replacement tax due under this chapter.
2. A taxpayer, or officer, member, or employee of the taxpayer, who willfully attempts to evade the replacement tax imposed or the payment of the replacement tax is guilty of a class "D" felony.
3. The issuance of a certificate by the director or a county treasurer stating that a replacement tax has not been paid, that a return has not been filed, or that information has not been supplied pursuant to this chapter is prima facie evidence of such failure.
4. A taxpayer, or officer, member, or employee of the taxpayer, required to pay a replacement tax, or required to make, sign, or file an annual return or supplemental return, who willfully makes a false or fraudulent annual return, or who willfully fails to pay at least ninety percent of the replacement tax or willfully fails to make, sign, or file the annual return, as required, is guilty of a fraudulent practice.
5. For purposes of determining the place of trial for a violation of this section, the situs of an offense is in the county of the residence of the taxpayer, officer, member, or employee of the taxpayer charged with the offense, unless the taxpayer, officer, member, or employee of the taxpayer is a nonresident of this state or the residence cannot be established, in which event the situs of the offense is in Polk county.
6. Prosecution for an offense specified in this section shall be commenced within six years after the commission of the offense.

437A.14 Correction of errors — refunds or credits of replacement tax paid — information confidential — penalty.
1. a. If an amount of replacement tax, penalty, or interest has been paid which was not due under this chapter, a city's chief financial officer or county treasurer to whom such erroneous payment was made shall do one of the following:
   (1) Credit the amount of the erroneous payment against any replacement tax due, or to become due, from the taxpayer on the books of the city or county.
   (2) Refund the amount of the erroneous payment to the taxpayer.
   b. Claims for refund or credit of replacement taxes paid shall be filed with the director. A claim for refund or credit that is not filed with the director within three years after the replacement tax payment upon which a refund or credit is claimed became due, or one year after the replacement tax payment was made, whichever time is later, shall not be allowed. A claim for refund or credit of tax alleged to be unconstitutional not filed with the director within ninety days after the replacement tax payment upon which a refund or credit is claimed became due shall not be allowed. As a pre-condition for claiming a refund or credit of alleged unconstitutional taxes, such taxes must be paid under written protest which specifies the particulars of the alleged unconstitutionality. Claims for refund or credit may only be made by, and refunds or credits may only be made to, the person responsible for paying the replacement tax, or such person's successors. The director shall notify affected county treasurers of the acceptance or denial of any refund claim. Section 421.10 applies to claims denied by the director.
2. If an amount of overpaid replacement tax is attributable to payment of excess property tax liability as described in section 437A.15, subsection 3, paragraph "b", a claim for refund or credit may only be made by, and a refund or credit shall only be made to, the person who made such excess payment. Such claim shall not be made by the person who collected the tax from another person.
3. It is unlawful for any present or former officer or employee of the state to divulge or to make known in any manner to any person the kilowatt-
hours of electricity or therms of natural gas delivered by a taxpayer in a competitive service area disclosed on a tax return, return information, or investigative or audit information. A person who violates this section is guilty of a serious misdemeanor. If the offender is an officer or employee of the state, such person, in addition to any other penalty, shall also be dismissed from office or discharged from employment. This section does not prohibit turning over to duly authorized officers of the United States or tax officials of other states such kilowatt-hours or therms pursuant to agreement between the director and the secretary of the treasury of the United States or the secretary's delegate or pursuant to a reciprocal agreement with another state.

3. Unless otherwise expressly permitted by a section referencing this chapter, the kilowatt-hours of electricity or therms of natural gas delivered by a taxpayer in a competitive service area shall not be divulged to any person or entity, other than the taxpayer, the department, or the internal revenue service for use in a matter unrelated to tax administration.

This prohibition precludes persons or entities other than the taxpayer, the department, or the internal revenue service from obtaining such information from the department. A subpoena, order, or process which requires the department to produce such information to a person or entity, other than the taxpayer, the department, or internal revenue service for use in a matter unrelated to tax administration.

4. Notwithstanding subsections 2 and 3, the chief financial officer of any local taxing authority and any designee of such officer shall have access to any computations made by the director pursuant to the provisions of this chapter, and any tax return or other information used by the director in making such computations, which affect the replacement tax owed by any such taxpayer.

Notwithstanding this section, providing information relating to the kilowatt-hours of electricity or therms of natural gas delivered by a taxpayer in a competitive service area to the task force established in section 476.6, or to the study committee established in section 476.6, subsection 20, is not a violation of this section.

5. Local taxing authority employees are deemed to be officers and employees of the state for purposes of subsection 2.

6. Claims for refund or credit of municipal transfer replacement tax shall be filed with the appropriate city's chief financial officer. Subsection 1 applies with respect to the transfer replacement tax and the city's chief financial officer shall have the same authority as is granted to the director under this section with respect to a return filed pursuant to section 437A.8, subsection 2.

7. Claims for refund or credit of special utility property tax levies shall be filed with the appropriate county treasurer. Subsection 1 applies with respect to the special utility property tax levy and the county treasurer shall have the same authority as is granted to the director under this section.

437A.15 Allocation of revenue.

1. The director and the department of management shall compute the allocation of all replacement tax revenues other than transfer replacement tax revenues among the local taxing districts in accordance with this section and shall report such allocation by local taxing districts to the county treasurers on or before August 15 following a tax year.

2. The director shall determine and report to the department of management the total replacement taxes to be collected from each taxpayer for the tax year on or before July 30 following such tax year.

3. a. All replacement taxes owed by a taxpayer shall be allocated among the local taxing districts in which such taxpayer’s property is located in accordance with a general allocation formula determined by the department of management on the basis of general property tax equivalents. General property tax equivalents shall be determined by applying the levy rates reported by each local taxing district to the department of management on or before June 30 following a tax year to the taxable value of taxpayer property allocated to each such local taxing district as adjusted and reported to the department of management in such tax year by the director pursuant to section 437A.19, subsection 2. The general allocation formula for a tax year shall allocate to each local taxing district that portion of the replacement taxes owed by each taxpayer which bears the same ratio as such taxpayer’s general property tax equivalents for each local taxing district bears to such taxpayer's total general property tax equivalents for all local taxing districts in Iowa.

When allocating natural gas delivery taxes on deliveries of natural gas to a new electric power generating plant, ten percent of those natural gas delivery taxes shall be allocated over new gas property built to directly serve the new electric power generating plant and ninety percent of those natural gas delivery taxes shall be allocated to the general property tax equivalents of all gas property within the natural gas competitive service area or areas where the new gas property is located.

b. Notwithstanding other provisions of this section, if excess property tax liability has been assigned pursuant to section 437A.4, subsection 3, paragraph “c”, subparagraph (4), and has not been removed, the allocation of electric delivery replacement tax attributable to the excess property tax liability shall be made by the director and the
department of management so as to allocate the electric delivery replacement tax attributable to the excess property tax liability among those local taxing districts in which the property associated with the excess property tax liability is located. In order to ensure that the electric delivery replacement tax attributable to the excess property tax liability is paid to the appropriate county treasurer for disposition to the local taxing districts, each distribution electric cooperative member and each municipal utility purchasing member subject to section 437A.4, subsection 3, paragraph “c”, subparagraph (4), shall pay to the appropriate generation and transmission electric cooperative the electric delivery replacement tax attributable to the excess property tax liability by September 10. The amount of electric delivery replacement tax attributable to the excess property tax liability shall equal that percentage of total electric delivery replacement tax liability that the excess property tax liability bears to the total property tax liability contained in the electric delivery tax component. The generation and transmission electric cooperative shall pay the electric delivery replacement tax attributable to the excess property tax liability to the appropriate county treasurer.

c. If paragraph “b” is applicable, on or before August 1, the director shall notify each distribution electric cooperative member, each municipal utility purchasing member, and each generation and transmission electric cooperative of the amount of electric delivery replacement tax to be paid to the generation and transmission electric cooperative. On or before August 1, the director shall notify the generation and transmission electric cooperative of the amount of replacement tax liability attributable to the excess property tax liability that is payable to each county treasurer. The director shall determine the amount of any special utility property tax levy or tax credit attributable to the excess property tax liability which shall be reflected in the amount required to be paid by each distribution electric cooperative member and each municipal utility purchasing member to the generation and transmission electric cooperative.

d. If, during the tax year, a taxpayer transferred operating property or an interest in operating property to another taxpayer, the transferee taxpayer’s replacement tax associated with that property shall be allocated, for the tax year in which the transfer occurred, under this section in accordance with the general allocation formula on the basis of the general property tax equivalents of the transferor taxpayer.

e. Notwithstanding the provisions of this section, if during the tax year a person who was not a taxpayer during the prior tax year acquires a new major addition, as defined in section 437A.3, subsection 18, paragraph “a”, subparagraph (4), the replacement tax associated with that major addition shall be allocated, for that tax year, under this section in accordance with the general allocating formula on the basis of the general property tax equivalents established under section 437A.15, except that the levy rates established and reported to the department of management on or before June 30 following the tax year in which the major addition was acquired shall be applied to the prorated assessed value of the major addition and provided that section 437A.19, subsection 2, paragraph “b”, subparagraph (2), is in any event applicable. For purposes of this paragraph, “prorated assessed value of the major addition” means the assessed value of the major addition as of January 1 of the year following the tax year in which the major addition was acquired multiplied by the percentage derived by dividing the number of months that the major addition existed during the tax year by twelve, counting any portion of a month as a full month.

f. Notwithstanding the provisions of this section, if a taxpayer is a municipal utility or a municipal owner of an electric power facility financed under the provisions of chapter 28F or 476A, the assessed value, other than the local amount, of a new electric power generating plant shall be allocated to each taxing district in which the municipal utility or municipal owner is serving customers and has electric meters in operation in the ratio that the number of operating electric meters of the municipal utility or municipal owner located in the taxing district bears to the total number of operating electric meters of the municipal utility or municipal owner in the state as of January 1 of the tax year. If the municipal utility or municipal owner of an electric power facility financed under the provisions of chapter 28F or 476A has a new electric power generating plant but the municipal utility or municipal owner has no operating electric meters in this state, the municipal utility or municipal owner shall pay the replacement generation tax associated with the new electric power generating plant allocation of the local amount to the county treasurer of the county in which the local amount is located and shall remit the remaining replacement generation tax, if any, to the director at the times contained in section 437A.8, subsection 4, for remittance of the tax to the county treasurers. All remaining replacement generation tax revenues received by the director shall be deposited in the property tax relief fund created in section 426B.1, and shall be distributed as provided in section 426B.2.

4. On or before August 31 following tax years 1999, 2000, and 2001, each county treasurer shall compute a special utility property tax levy or tax credit for each taxpayer for which a replacement tax liability for each such tax year is reported to the county treasurer pursuant to subsection 1, and shall notify the taxpayer of the amount of such tax levy or tax credit. The amount of the special utility
property tax levy or credit shall be determined for each taxpayer by the county treasurer by comparing the taxpayer’s total replacement tax liability allocated to taxing districts in the county pursuant to this section with the anticipated tax revenues from the taxpayer for all taxing districts in the county. If the taxpayer’s total replacement tax liability allocated to taxing districts in the county is less than the anticipated tax revenues from the taxpayer for all taxing districts in the county, the county treasurer shall levy a special utility property tax equal to the shortfall which shall be added to and collected with the replacement tax owed by the taxpayer to the county treasurer for the tax year pursuant to section 437A.8, subsection 4. If the taxpayer’s total replacement tax liability allocated to taxing districts in the county exceeds the anticipated tax revenues from the taxpayer for all taxing districts in the county, the county treasurer shall issue a credit to the taxpayer which shall be applied to reduce the taxpayer’s replacement tax liability to the county treasurer for the tax year. If the taxpayer’s total replacement tax liability allocated to taxing districts in the county equals the anticipated tax revenues from the taxpayer for all taxing districts in the county, no levy or credit is required. Replacement tax liability for purposes of this subsection means replacement tax liability before credits allowed by section 437A.8, subsection 7. A recalculation of a special utility property tax levy or credit shall not be made as a result of a subsequent recalculation of replacement tax liability under section 437A.8, subsection 7, or adjustment to assessed value under section 437A.19, subsection 2, paragraph “f”. “Anticipated tax revenues from a taxpayer” means the product of the total levy rates imposed by the taxing districts and the value of taxpayer property allocated to the taxing districts and reported to the county auditor. Special utility property tax levies and credits shall be treated as replacement taxes for purposes of section 437A.11. If a special utility property tax levy payment becomes delinquent, the delinquent payment shall accrue interest and penalty in the same manner and amount as the replacement tax under section 437A.13.

It is the intent of the general assembly that the general assembly evaluate the impact of the imposition of the replacement tax for purposes of determining whether this subsection shall remain in effect and whether a determination shall be made as to the necessity of a recalculation as provided in this subsection for tax years beginning after tax year 2000.

5. The replacement tax, as adjusted by any special utility property tax levy or credit and remitted to a county treasurer by each taxpayer, shall be treated as a property tax when received and shall be disposed of by the county treasurer as taxes on real estate. Notwithstanding the allocation provisions of this section, nothing in this section shall deny any affected taxing entity, as defined in section 403.17, subsection 1, which has enacted an ordinance or entered into an agreement for the division and allocation of taxes authorized under section 403.19 and under which ordinance or agreement the taxes collected in respect of properties owned by any of the taxpayers remitting replacement taxes pursuant to the provisions of this chapter are being divided and allocated, the right to receive its share of the replacement tax revenues collected for any year which would otherwise be paid to such affected taxing entity under the terms of any such ordinance or agreement had this chapter not been enacted. To the extent that adjustment must be made to the allocation described in this section to give effect to the terms of such ordinances or agreements, the department of management and the county treasurer shall make such adjustments.

6. In lieu of the adjustment provided for in subsection 5, the assessed value of property described in section 403.19, subsection 1, may be reduced by the city or county by the amount of the taxable value of the property described in section 437A.16 included in such area on January 1, 1997, pursuant to amendment of the ordinance adopted by such city or county pursuant to section 403.19.

7. The department of management, in consultation with the department of revenue, shall coordinate the utility replacement tax task force and provide staffing assistance to the task force. It is the intent of the general assembly that the task force include representatives of the department of management, department of revenue, electric companies, natural gas companies, municipal utilities, electric cooperatives, counties, cities, school boards, and industrial, commercial, and residential consumers, and other appropriate stakeholders.

The task force shall study the effects of the replacement tax on local taxing authorities, local taxing districts, consumers, and taxpayers and the department of management shall report to the general assembly by January 1 of each year through January 1, 2005, the results of the study and the specific recommendations of the task force for modifications to the replacement tax, if any, which will further the purposes of tax neutrality for local taxing authorities, local taxing districts, taxpayers, and consumers, consistent with the stated purposes of this chapter. The department of management shall also report to the legislative council by November 15 of each year through 2004, the status of the task force study and any recommendations.

437A.16 Assessment exclusive.

All operating property and all other property that is primarily and directly used in the production, generation, transmission, or delivery of electricity or natural gas subject to replacement tax or transfer replacement tax is exempt from taxation except as otherwise provided by this chapter. This exemption shall not extend to taxes imposed under chapters 437, 438, and 468, taxpayers described in section 437A.8, subsection 6, or facilities or property described in section 437A.6, subsection 1, paragraphs “a” through “f”, and section 437A.7, subsection 3.

1. The director shall administer and enforce the replacement tax imposed by this chapter in the same manner as provided in and subject to sections 422.68, 422.70, 422.71, and 422.75.

2. The calculation of tax rates and adjustments to such rates by the director pursuant to this chapter do not constitute rulemaking subject to the provisions of chapter 17A.

98 Acts, ch 1194, §19, 40

437A.19 Adjustment to assessed value — reporting requirements.

1. a. A taxpayer whose property is subject to the statewide property tax shall report to the director by July 1, 1999, and by May 1 of each subsequent tax year, on forms prescribed by the director, the book value, as of the beginning and end of the preceding calendar year, of all of the following:

   (1) The local amount of any major addition by local taxing district.

   (2) The statewide amount of any major addition without notation of location.

   (3) Any building in Iowa at acquisition cost of more than ten million dollars which was originally placed in service by the taxpayer prior to January 1, 1998, and which was transferred or disposed of in the preceding calendar year, without notation of location.

   (4) Any electric power generating plant in Iowa at acquisition cost of more than ten million dollars which was originally placed in service by the taxpayer prior to January 1, 1998, and which was transferred or disposed of in the preceding calendar year, without notation of location.

   (5) All other taxpayer property without notation of location.

   (6) The local amount of any major addition eligible for the urban revitalization exemption provided for in chapter 404, by situs.

   b. For purposes of this section:

      (1) “Book value” means acquisition cost less accumulated depreciation determined under generally accepted accounting principles.

      (2) “Taxpayer property” means property described in section 437A.16.

      (3) “To dispose of” means to sell, abandon, decommission, or retire an asset.

      (4) “Transfer” means a transaction which results in a change of ownership of taxpayer property and includes a capital lease transaction.

   c. For purposes of this subsection, “taxpayer” includes a person who would have been a taxpayer in calendar year 1998 had the provisions of this chapter been in effect for the 1998 assessment year.

   d. If a taxpayer owns or leases pursuant to a capital lease less than the entire interest in a major addition, the local amount and statewide amount, if any, of such major addition shall be apportioned to the taxpayer on the basis of its percentage interest in such major addition.
2. Beginning January 1, 1999, the assessed value of taxpayer property shall be adjusted annually as provided in this section. The director, with respect to each taxpayer, shall do all of the following:

a. Adjust the assessed value of taxpayer property in each local taxing district by the change in book value during the preceding calendar year of the local amount of any major addition reported within such local taxing district.

b. (1) Adjust the assessed value of taxpayer property in each local taxing district by allocating the change in book value during the preceding calendar year of the statewide amount and all other taxpayer property described in subsection 1, paragraph “a”, subparagraph (5), to the assessed value of all taxpayer property in the state pro rata according to its preadjustment value.

(2) If, during the preceding calendar year, a taxpayer transferred an electric power generating plant or an interest in an electric power generating plant to a taxpayer who owned no other taxpayer property in this state as of the end of such preceding calendar year, in lieu of the adjustment provided in paragraph (1), the director shall allocate the transferee taxpayer’s change in book value of the statewide amount during such preceding calendar year, if any, among local taxing districts in proportion to the allocation of the transferor’s assessed value among local taxing districts as of the end of such preceding calendar year.

c. In the case of taxpayer property described in subsection 1, paragraph “a”, subparagraphs (3) and (4), decrease the assessed value of taxpayer property in each local taxing district by the taxable value of such property within each such local taxing district on January 1, 1998.

d. In the event of a merger or consolidation of two or more taxpayers, to determine the assessed value of the surviving taxpayer, combine the assessed values of such taxpayers immediately prior to the merger or consolidation.

e. In the event any taxpayer property is eligible for the urban revitalization tax exemption described in chapter 404, adjust the assessed value of taxpayer property within each affected local taxing district to reflect such exemption.

f. In the event the base year assessed value of taxpayer property is adjusted as a result of taxpayer appeals, reduce the assessed value of taxpayer property in each local taxing district to reflect such adjustment. The adjustment shall be allocated in proportion to the allocation of the taxpayer’s assessed value among the local taxing districts determined without regard to this adjustment. An adjustment to the base year assessed value of taxpayer property shall be made as of January 1 of the year following the date on which the adjustment is finally determined.

In no event shall the adjustments set forth in this subsection reduce the assessed value of taxpayer property in any local taxing district below zero.

The director, on or before August 31 of each assessment year, shall report to the department of management and to the auditor of each county the assessed adjusted value of taxpayer property as of January 1 of such assessment year for each local taxing district. For purposes of this subsection, the assessed value of taxpayer property in each local taxing district subject to adjustment under this section by the director means the assessed value of such property as of the preceding January 1 as determined and allocated among the local taxing districts by the director.

Nothing in this chapter shall be interpreted to authorize local taxing authorities to exclude from the calculation of levy rates the taxable value of taxpayer property reported to county auditors pursuant to this subsection.

In addition to reporting the assessed values as described in this subsection, the director, on or before October 31 of each assessment year, shall also report to the department of management and to the auditor of each county the taxable value of taxpayer property as of January 1 of such assessment year for each local taxing district. For purposes of this chapter, “taxable value” means the value for all property subject to the replacement tax annually determined by the director, by dividing the estimated annual replacement tax liability for that property by the prior year’s consolidated taxing district rate for the taxing district where that property is located, then multiplying the quotient by one thousand. A taxpayer who paid more than five hundred thousand dollars in replacement tax in the previous tax year or who believes their replacement tax liability will vary more than ten percent from the previous tax year shall report to the director by October 1 of the current calendar year, on forms prescribed by the director, the estimated annual replacement tax liability that will be attributable to all of the taxpayer’s property subject to replacement tax for the current tax year. The department shall utilize the estimated replacement tax liability as reported by the taxpayer or the taxpayer’s prior year’s replacement tax amounts to estimate the current tax year’s taxable value for that property. Furthermore, a taxpayer who has a new major addition of operating property which is put into service for the first time in the current calendar year shall report to the director by October 1 of the current calendar year, or at the time the major addition is put into service, whichever time is later, on forms prescribed by the director, the cost of the major addition and, if not previously reported, shall report the estimated replacement taxes which that asset will generate in the current calendar year. For the purposes of computing the taxable value of property in a taxing district, the taxing district’s share of the estimated replacement tax liability shall be the taxing district’s per-
centage share of the “assessed value allocated by property tax equivalent” multiplied by the total estimated replacement tax. “Assessed value allocated by property tax equivalent” shall be determined by dividing the taxpayer’s current year assessed valuation in a taxing district by one thousand, and then multiplying by the prior year’s consolidated tax rate.

2003 amendment to subsection 2, paragraph f, applies retroactively to tax years beginning on or after January 1, 2003; 2003 Acts, ch 196, §15
2004 amendments to subsection 2, paragraph f, unnumbered paragraph 5, take effect April 20, 2004, and apply retroactively to January 1, 2004; 2004 Acts, ch 1096, §4
Subsection 2, paragraph f, unnumbered paragraph 5 amended

437A.20 Tax exemptions.

Except as provided in section 437A.16, all property tax exemptions in the Code do not apply to property subject to the statewide property tax unless such exemptions expressly refer to the statewide property tax, except that if property was exempt from property tax on January 1, 1999, such exemption shall continue until the exemption expires, is phased out, or is repealed. The property of a taxpayer who does not owe any replacement tax is exempt from the statewide property tax for the coinciding assessment year.

98 Acts, ch 1194, §21, 40

437A.21 Return and payment requirements.

1. Each electric company, natural gas company, electric cooperative, municipal utility, and other person whose property is subject to the statewide property tax shall file with the director a return, on or before March 31 following the assessment year, including, but not limited to, the following information:
   a. The assessed value of property subject to the statewide property tax.
   b. The amount of statewide property tax computed on such assessed value.
   2. The first return under subsection 1 is due on or before February 28, 2000.
   3. If an electric company, natural gas company, electric cooperative, municipal utility, or person is not required to file a statewide property tax return on or before February 28, 2000, but is required to file a return after such date, the return shall be filed on or before the due date. This subsection also applies in the event of a consolidation.
   4. A return shall be signed by an officer, or other person duly authorized by the taxpayer, and must be certified as correct and in accordance with rules and forms prescribed by the director.
   5. At the time of filing the return with the director, the taxpayer shall calculate the statewide property tax owed for the assessment year and shall remit to the director the statewide property tax required to be shown to be due on the return.
   6. Notwithstanding subsections 1 through 5, a taxpayer is not required to file a return under this section or to remit any statewide property tax for any tax year in which the taxpayer’s statewide property tax liability is one dollar or less.

2001 amendment to subsection 1 applies for returns due for assessment years commencing on or after January 1, 2001; 2001 Acts, ch 145, §13

437A.22 Statutes applicable.

Sections 437A.9, 437A.10, 437A.12, 437A.13, and 437A.14, subsection 1, are applicable to electric companies, natural gas companies, electric cooperatives, municipal utilities, and persons whose property is subject to the statewide property tax. However, a required credit or refund of overpaid statewide property tax pursuant to section 437A.14, subsection 1, as it applies to this subchapter, shall be made by the director and not by city chief financial officers or county treasurers.

Section 422.26 applies with respect to the statewide property tax and penalties imposed by this chapter, except that, as applied to any tax imposed by this chapter, the lien provided shall be prior to and superior over all subsequent liens upon any personal property within this state or right to such personal property belonging to the taxpayer, without the necessity of recording the lien as provided in section 422.26. The requirement for recording, as applied to the statewide property tax imposed by this chapter, shall apply only to a lien upon real property. In order to preserve such lien against subsequent mortgagees, purchasers, or judgment creditors, for value and without notice of the lien, on any real property situated in a county, the director shall file with the recorder of the county in which the real property is located a notice of the lien.

The county recorder of each county shall prepare and keep in the recorder’s office an index and record to show, under the names of taxpayers arranged alphabetically, all of the following:
   1. The name of the taxpayer.
   2. The name “State of Iowa” as claimant.
   3. Time the notice of lien was received.
   4. Date of notice.
   5. Amount of lien then due.
   6. Date of assessment.
   7. Date when the lien is satisfied.

The recorder shall endorse on each notice of lien the day, hour, and minute when received and preserve such notice, and shall promptly record the lien in the manner provided for recording real estate mortgages. The lien is effective from the time of the indexing of the lien.

The director, from moneys appropriated to the department of revenue for this purpose, shall pay a recording fee as provided in section 331.604 for the recording of the lien, or for its satisfaction.
Upon the payment of the replacement tax as to which the director has filed notice with a county recorder, the director shall promptly file with the recorder a satisfaction of the replacement tax. The recorder shall enter the satisfaction on the notice on file in the recorder’s office and indicate that fact on the index.

437A.23 Deposit of tax proceeds.
All revenues received from imposition of the statewide property tax shall be deposited in the general fund of the state. Fifty percent of the revenues shall be available, as appropriated by the general assembly, to the department of management for salaries, support, services, and equipment to administer the replacement tax. The balance of the revenues shall be available, as appropriated by the general assembly, to the department of revenue for salaries, support, services, and equipment to administer and enforce the replacement tax and the statewide property tax.

The returns, both original and amended, shall show such other facts as the director, in writing, shall require.

§438.13 Basis of valuation and assessment.
The said property shall be valued at its actual value, and the assessments shall be made upon the taxable value of the entire pipeline property within the state, except as otherwise provided, and the actual and taxable value so ascertained shall be assessed as provided by section 441.21; and shall include the rights of way, easements, the pipelines, stations, grounds, shops, buildings, pumps and all other property, real and personal exclusively used in the operation of such pipeline. An individual who attains a score of seventy percent or greater on the examination is eligible to be certified by the director of revenue as a candidate for any assessor position. Any person who possesses the examination and who possesses at least two years of appraisal related experience as determined by the director of revenue shall be granted regular certification and become eligible for appointment to a six-year term as assessor. Any person who passes the examination but who lacks such experience shall be granted temporary certification, and shall be eligible for a provisional appointment as assessor.

The county auditor shall keep a complete record of said funds and shall issue warrants thereon only on requisition of the assessor.

The assessor shall not issue requisitions so as to increase the total expenditures budgeted for the operation of the assessor's office. However, for purposes of promoting operational efficiency, the assessor shall have authority to transfer funds budgeted for specific items for the operation of the assessor's office from one unexpended balance to another; such transfer shall not be made so as to increase the total amount budgeted for the operation of the office of assessor, and no funds shall be used to increase the salary of the assessor or the salaries of permanent deputy assessors. The assessor shall issue requisitions for the examining board and for the board of review on order of the chairperson of each board and for costs and expenses incident to assessment appeals, only on order of the city legal department, in the case of cities and of the county attorney in the case of counties.

Unexpended funds remaining in the assessment expense fund at the end of a year shall be car-
ried forward into the next year.

DUTIES

441.17 Duties of assessor.
The assessor shall:

1. Devote full time to the duties of the assessor’s office and shall not engage in any occupation or business interfering or inconsistent with such duties. This subsection does not preclude an assessor from being a candidate for elective office during the term of appointment as assessor. If an assessor is elected to a city or county office, to a statewide elective office, or to the general assembly, the assessor shall resign as assessor before the beginning of the term of the office to which the assessor was elected.

2. Cause to be assessed, in accordance with section 441.21, all the property in the assessor’s county or city, except property exempt from taxation, or the assessment of which is otherwise provided for by law.

3. Have access to all public records of the county and, so far as practicable, make or cause to be made a careful examination of all such records and files in order to obtain all available information which may contribute to the accurate listing at its taxable value, and to the proper persons, of all property subject to assessment by the assessor.

4. Cooperate with the director of revenue as may be necessary or required, and obey and execute all orders, directions, and instructions of the director of revenue, insofar as the same may be required by law.

5. Have power to apply to the district court of the county for an order to examine witnesses and requiring the production of books and records of any person, firm, association or corporation within the county, whenever the assessor has reason to believe that such person, firm, association or corporation has not listed property as provided by law. The proceeding for the examination of witnesses and examination of the books and records of any such taxpayer, to determine the existence of taxable property, shall be instituted and conducted in the manner provided for the discovery of property under the provisions of chapter 630. The court shall make an appropriate finding as to the existence of taxable property not listed. All taxable property discovered thereby shall thereupon be assessed by the assessor in the manner provided by law.

In all cases where the court finds that the taxpayer has not listed the taxpayer’s property, as provided by law, and in all hearings where the court decides a matter against the taxpayer, the costs shall be paid by the taxpayer; otherwise they shall be paid out of the assessment expense fund. The fees and mileage to be paid witnesses shall be the same as prescribed by law in proceedings in the district courts of this state in civil cases. Where the costs are taxed to the taxpayer they shall be added to the taxes assessed against said taxpayer and the taxpayer’s property and shall be collected in the same manner as are other taxes.

6. Make up all assessor’s books and records as prescribed by the director of revenue, turn the completed assessor’s books and records required for the preparation of the tax list over to the county auditor each year when the board of review has concluded its hearings and the county auditor shall proceed with the preparation of the current year tax list and the assessor shall cooperate with the auditor in the preparation of the tax lists.

7. Submit on or before May 1 of each year completed assessment rolls to the board of review.

8. Lay before the board of review such information as the assessor may possess which will aid said board in performing its duties in adjusting the assessments to the valuations required by law.

9. Furnish to the director of revenue any information which the assessor may have relative to the ownership of any property that may be assessable within this state, but not assessable or subject to being listed for taxation by the assessor.

10. Measure the exterior length and exterior width of all mobile homes and manufactured homes except those for which measurements are contained in the manufacturer’s and importer’s certificate of origin, and report the information to the county treasurer. Check all manufactured or mobile homes for inaccuracy of measurements as necessary or upon written request of the county treasurer and report the findings immediately to the county treasurer. The assessor shall make frequent inspections and checks within the assessor’s jurisdiction of all manufactured or mobile homes and manufactured home communities or mobile home parks and make all the required and needed reports to carry out the purposes of this section.

11. Cause to be assessed for taxation property which the assessor believes has been erroneously exempted from taxation. Revocation of a property tax exemption shall commence with the assessment for the current assessment year, and shall not be applied to prior assessment years.

§441.18 Listing and valuation.
Each assessor shall, with the assistance of each person assessed, or who may be required by law to list property belonging to another, enter upon the assessment rolls the several items of property required to be entered for assessment. The assessor shall personally affix values to all property assessed by the assessor.

§441.19 Owner to assist — provisions for assessment.
The assessor shall list every person in the assessor’s county or city as the case may be and assess all the property in the county or city, except property exempted or otherwise assessed. A person who refuses to assist in making out a list of the person’s property, or of any property which the person is by law required to assist in listing, is guilty of a simple misdemeanor.

1. Supplemental and optional to the procedure for the assessment of property by the assessor as provided in this chapter, the assessor may require from all persons required to list their property for taxation as provided by sections 428.1 and 428.2, a supplemental return to be prescribed by the director of revenue upon which the person shall list the person’s property. The supplemental return shall be in substantially the same form as now prescribed by law for the assessment rolls used in the listing of property by the assessors. Every person required to list property for taxation shall make a complete listing of the property upon supplemental forms and return the listing to the assessor as promptly as possible. The return shall be verified over the signature of the person making the return and section 441.25 applies to any person making such a return. The assessor shall make supplemental return forms available as soon as practicable after the first day of January of each year. The assessor shall make supplemental return forms available to the taxpayer by mail, or at a designated place within the taxing district.

2. Upon receipt of such supplemental return from any person the assessor shall prepare a roll assessing such person as hereinafter provided. In the preparation of such assessment roll the assessor shall be guided not only by the information contained in such supplemental roll, but by any other information the assessor may have or which may be obtained by the assessor as prescribed by the law relating to the assessment of property. The assessor shall not be bound by any values as listed in such supplemental return, and may include in the assessment roll any property omitted from the supplemental return which in the knowledge and belief of the assessor should be listed as required by law by the person making the supplemental return. Upon completion of such roll the assessor shall deliver to the person submitting such supplemental return a copy of the assessment roll, either personally or by mail.

3. Any taxpayer aggrieved by the action of the assessor in the preparation of an assessment roll upon which a supplemental return has been made shall have the same rights and privileges of appeal as provided by law in connection with the assessment rolls prepared in entirety by the assessor, but no assessment rolls prepared by the assessor after receiving a supplemental return shall be deemed insufficient or invalid because of the fact that such assessment roll does not bear the signature of the person assessed, and the signature of the person listing property upon the supplemental return shall be deemed a signature on the roll as prepared by the assessor.

4. The supplemental returns herein provided for shall be preserved in the manner as assessment rolls, but shall be confidential to the assessor, board of review, or director of revenue, and shall not be open to public inspection, but any final assessment roll as made out by the assessor shall be a public record, provided that such supplemental return shall be available to counsel of either the person making the return or of the public, in case any appeal is taken to the board of review or to the court.

5. In the event of failure of any person required to list property to make a supplemental return, as required herein, on or before the fifteenth day of February of any year when such listing is required, the assessor shall proceed in the listing and assessment of the person’s property as provided by this chapter, and no person subject to taxation shall be relieved of the person’s obligation to list the person’s property through failure to make a supplemental return as herein provided, and any roll prepared by the assessor after receiving a supplemental return or when prepared in accordance with other provisions of this chapter, shall be a valid assessment.

6. The provisions of this chapter relating to assessment rolls shall be applicable to the preparation of rolls upon which a supplemental return has been received, insofar as they are not in conflict with the provision of this section.

On or before February 15 of each year, each owner of industrial real estate shall submit to the local assessor a report listing by year of acquisition and by acquisition cost the owner’s machinery as described in section 427A.1, subsection 1, paragraph “e”, and specifying any machinery added or removed during the preceding assessment year. A report containing an itemized list of machinery by year of acquisition and by acquisition cost shall be required only when deemed necessary by the assessor. The reports shall be submitted on forms prescribed by the director of revenue or on forms submitted by the taxpayer and approved by the as-
The actual value of special purpose tooling, which is designed and intended solely for the manufacture of patented property, is defined as the fair and reasonable exchange in arriving at its market value. In arriving at the actual value of the special purpose tooling, the assessor shall not take into consideration the special value or use value to the present owner of the special purpose tooling which is designed and intended solely for the manufacture of property protected by a patent in arriving at the actual value of the special purpose tooling.

c. In assessing and determining the actual value of special purpose industrial property having an actual value of five million dollars or more, the assessor shall equalize the values of such property with the actual values of other comparable special purpose industrial property in other counties of the state. Such special purpose industrial property includes, but is not limited to chemical plants.

If a variation of ten percent or more exists between the actual values of comparable industrial property having an actual value of five million dollars or more located in separate counties, the assessors of the counties shall consult with each other and with the department of revenue to determine if adequate reasons exist for the variation. If no adequate reasons exist, the assessors shall make adjustments in the actual values to provide for a variation of ten percent or less. For the purposes of this paragraph, special purpose industrial property includes structures which are designed and erected for operation of a unique and special use, are not rentable in existing condition, and are incapable of conversion to ordinary commercial or industrial use except at a substantial cost.

d. Actual value of property in one assessing jurisdiction shall be equalized as compared with actual value of property in an adjoining assessing jurisdiction. If a variation of five percent or more exists between the actual values of similar, closely adjacent property in adjoining assessing jurisdictions in Iowa, the assessors thereof shall determine whether adequate reasons exist for such variation. If no such reasons exist, the assessors shall make adjustments in such actual values to reduce the variation to five percent or less.

e. The actual value of agricultural property shall be determined on the basis of productivity and net earning capacity of the property determined on the basis of its use for agricultural purposes capitalized at a rate of seven percent and applied uniformly among counties and among classes of property. Any formula or method employed to determine productivity and net earning capacity of property shall be adopted in full by rule.

f. In counties or townships in which field work on a modern soil survey has been completed since January 1, 1949, the assessor shall place empha-
sis upon the results of the survey in spreading the valuation among individual parcels of such agricultural property.

g. Notwithstanding any other provision of this section, the actual value of any property shall not exceed its fair and reasonable market value, except agricultural property which shall be valued exclusively as provided in paragraph “e” of this subsection.

2. In the event market value of the property being assessed cannot be readily established in the foregoing manner, then the assessor may determine the value of the property using the other uniform and recognized appraisal methods including its productive and earning capacity, if any; industrial conditions, its cost, physical and functional depreciation and obsolescence and replacement cost, and all other factors which would assist in determining the fair and reasonable market value of the property but the actual value shall not be determined by use of only one such factor. The following shall not be taken into consideration: Special value or use value of the property to its present owner, and the good will or value of a business which uses the property as distinguished from the value of the property as property. However, in assessing property that is rented or leased to low-income individuals and families as authorized by section 42 of the Internal Revenue Code, as amended, and which section limits the amount that the individual or family pays for the rental or lease of units in the property, the assessor shall use the productive and earning capacity from the actual rents received as a method of appraisal and shall take into account the extent to which that use and limitation reduces the market value of the property. The assessor shall not consider any tax credit equity or other subsidized financing as income provided to the property in determining the assessed value. The property owner shall notify the assessor when property is withdrawn from section 42 eligibility under the Internal Revenue Code. The property shall not be subject to section 42 assessment procedures for the assessment year for which section 42 eligibility is withdrawn. This notification must be provided to the assessor no later than March 1 of the assessment year or the owner will be subject to a penalty of five hundred dollars for that assessment year. The penalty shall be collected at the same time and in the same manner as regular property taxes. Upon adoption of uniform rules by the revenue department or succeeding authority covering assessments and valuations of such properties, said valuation on such properties shall be determined in accordance therewith for assessment purposes to assure uniformity, but such rules shall not be inconsistent with or change the foregoing means of determining the actual, market, taxable and assessed values.

3. “Actual value”, “taxable value”, or “assessed value” as used in other sections of the Code in relation to assessment of property for taxation shall mean the valuations as determined by this section; however, other provisions of the Code providing special methods or formulas for assessing or valuing specified property shall remain in effect, but this section shall be applicable to the extent consistent with such provisions. The assessor and department of revenue shall disclose at the written request of the taxpayer all information in any formula or method used to determine the actual value of the taxpayer’s property.

The burden of proof shall be upon any complainant attacking such valuation as excessive, inadequate, inequitable or capricious; however, in protest or appeal proceedings when the complainant offers competent evidence by at least two disinterested witnesses that the market value of the property is less than the market value determined by the assessor, the burden of proof thereafter shall be upon the officials or persons seeking to uphold such valuation to be assessed.

4. For valuations established as of January 1, 1979, the percentage of actual value at which agricultural and residential property shall be assessed shall be the quotient of the dividend and divisor as defined in this section. The dividend for each class of property shall be the dividend as determined for each class of property for valuations established as of January 1, 1978, adjusted by the product obtained by multiplying the percentage determined for that year by the amount of any additions or deletions to actual value, excluding those resulting from the revaluation of existing properties, as reported by the assessors on the abstracts of assessment for 1978, plus six percent of the amount so determined. However, if the difference between the dividend so determined for either class of property and the dividend for that class of property for valuations established as of January 1, 1978, adjusted by the product obtained by multiplying the percentage determined for that year by the amount of any additions or deletions to actual value, excluding those resulting from the revaluation of existing properties, as reported by the assessors on the abstracts of assessment for 1978, is less than six percent, the 1979 dividend for the other class of property shall be the dividend as determined for that class of property for valuations established as of January 1, 1978, adjusted by the product obtained by multiplying the percentage determined for that year by the amount of any additions or deletions to actual value, excluding those resulting from the revaluation of existing properties, as reported by the assessors on the abstracts of assessment for 1978, plus a percentage of the amount so determined which is equal to the percentage by which the dividend as determined for the other class of property for valuations established as of January 1, 1978, adjusted by the product obtained by multiplying the percentage determined for that year by the amount of any additions or deletions to actual value, excluding those re-
sulting from the revaluation of existing properties, as reported by the assessors on the abstracts of assessment for 1978, is increased in arriving at the 1979 dividend for the other class of property. The divisor for each class of property shall be the total actual value of all such property in the state in the preceding year, as reported by the assessors on the abstracts of assessment submitted for 1978, plus the amount of value added to said total actual value by the revaluation of existing properties in 1979 as equalized by the director of revenue pursuant to section 441.49. The dividend shall be the total actual value by the revaluation of existing properties in 1979 as equalized by the director of revenue as provided in section 441.49 at which agricultural and residential property shall be assessed shall be calculated in accordance with the methods provided herein including the limitation of increases in agricultural and residential assessed values to the percentage increase of the other class of property if the other class increases less than the allowable limit adjusted to include the applicable and current values as equalized by the director of revenue, except that any references to six percent in this subsection shall be four percent.

5. For valuations established as of January 1, 1979, commercial property and industrial property, excluding properties referred to in section 427A.1, subsection 7, shall be assessed at a percentage of the actual value of each class of property. The percentage shall be determined for each class of property by the director of revenue for the state in accordance with the provisions of this section. For valuations established as of January 1, 1979, the percentage shall be the quotient of the dividend and divisor as defined in this section. The dividend for each class of property shall be the total actual valuation for each class of property established for 1978, plus six percent of the amount so determined. The divisor for each class of property valued by the department of revenue pursuant to chapters 428, 433, 437, and 438 shall be assessed at a percentage of its actual value. The percentage shall be determined by the director of revenue in accordance with the provisions of this section. For valuations established as of January 1, 1980, the percentage shall be the quotient of the dividend and divisor as defined in this section. The dividend for each class of property shall be the dividend as determined for each class of property for valuations established as of January 1, 1979, adjusted by the product obtained by multiplying the percentage determined for that year by the amount of any additions or deletions to actual value, excluding those resulting from the revaluation of existing properties, as reported by the assessors on the abstracts of assessment for 1979, plus four percent of the amount so determined. The divisor for each class of property shall be the total actual value of all such property in 1979, as equalized by the director of revenue pursuant to section 441.49, plus the amount of value added to the total actual value by the revaluation of existing properties in 1980. The director shall utilize information reported on the abstracts of assessment submitted pursuant to section 441.45 in determining such percentage. For valuations established as of January 1, 1980, property valued by the department of revenue pursuant to sections 428, 433, 437, and 438 shall be assessed at a percentage of its actual value. The percentage shall be determined by the director of revenue in accordance with the provisions of this section. For valuations established as of January 1, 1980, the percentage shall be the quotient of the dividend and divisor as defined in this section. The dividend shall be the total actual valuation established for 1979 by the department of revenue, plus ten percent of the amount so determined. The divisor for property valued by the department of revenue pursuant to chapters 428, 433, 437, and 438 shall be the valuation established for 1978, plus the amount of value added to the total actual value by the revaluation of the property by the department of revenue as of January 1, 1979. For valuations established as of January 1, 1980, commercial property and industrial property, excluding properties referred to in section 427A.1, subsection 7, shall be assessed shall be calculated in accordance with the methods provided herein,
except that any references to six percent in this subsection shall be four percent. For valuations established as of January 1, 1981, and each year thereafter, the percentage of actual value at which property valued by the department of revenue pursuant to chapters 428, 433, 437, and 438 shall be assessed shall be calculated in accordance with the methods provided herein, except that any references to ten percent in this subsection shall be eight percent. Beginning with valuations established as of January 1, 1979, and each year thereafter, property valued by the department of revenue pursuant to chapter 434 shall also be assessed at a percentage of its actual value which percentage shall be equal to the percentage determined by the director of revenue for commercial property, industrial property, or property valued by the department of revenue pursuant to chapters 428, 433, 437, and 438, whichever is lowest.

6. Beginning with valuations established as of January 1, 1978, the assessors shall report the aggregate taxable values and the number of dwellings located on agricultural land and the aggregate taxable value of all other structures on agricultural land. Beginning with valuations established as of January 1, 1981, the agricultural dwellings located on agricultural land shall be valued at their market value as defined in this section and agricultural dwellings shall be valued as rural residential property and shall be assessed at the same percentage of actual value as is all other residential property.

7. For the purpose of computing the debt limitations for municipalities, political subdivisions and school districts, the term "actual value" means the "actual value" as determined by subsections 1 to 3 of this section without application of any percentage reduction and entered opposite each item, and as listed on the tax list as provided in section 443.2 as "actual value".

Whenever any board of review or other tribunal changes the assessed value of property, all applicable records of assessment shall be adjusted to reflect such change in both assessed value and actual value of such property.

8. a. Any normal and necessary repairs to a building, not amounting to structural replacements or modification, shall not increase the taxable value of the building. This paragraph applies only to repairs of two thousand five hundred dollars or less per building per year.

b. Notwithstanding paragraph "a", any construction or installation of a solar energy system on property classified as agricultural, residential, commercial, or industrial property shall not increase the actual, assessed and taxable values of the property for five full assessment years.

c. As used in this subsection, "solar energy system" means either of the following:

1. A system of equipment capable of collecting and converting incident solar radiation or wind energy into thermal, mechanical or electrical energy and transforming these forms of energy by a separate apparatus to storage or to a point of use which is constructed or installed after January 1, 1978.

2. A system that uses the basic design of the building to maximize solar heat gain during the cold season and to minimize solar heat gain in the hot season and that uses natural means to collect, store and distribute solar energy which is constructed or installed after January 1, 1981.

In assessing and valuing the property for tax purposes, the assessor shall disregard any market value added by a solar energy system to a building.

The director of revenue shall adopt rules, after consultation with the department of natural resources, specifying the types of equipment and structural components to be included under the guidelines provided in this subsection.

9. Not later than November 1, 1979, and November 1 of each subsequent year, the director shall certify to the county auditor of each county the percentages of actual value at which residential property, agricultural property, commercial property, industrial property, and property valued by the department of revenue pursuant to chapters 428, 433, 434, 437, and 438 in each assessing jurisdiction in the county shall be assessed for taxation. The county auditor shall proceed to determine the assessed values of agricultural property, residential property, commercial property, industrial property, and property valued by the department of revenue pursuant to chapters 428, 433, 434, 437, and 438 by applying such percentages to the current actual value of such property, as reported to the county auditor by the assessor, and the assessed values so determined shall be the taxable values of such properties upon which the levy shall be made.

10. The percentage of actual value computed by the director for agricultural property, residential property, commercial property, industrial property and property valued by the department of revenue pursuant to chapters 428, 433, 434, 437, and 438 and used to determine assessed values of those classes of property does not constitute a rule as defined in section 17A.2, subsection 11.

11. Beginning with valuations established on or after January 1, 1995, as used in this section, "residential property" includes all land and buildings of multiple housing cooperatives organized under chapter 499A and includes land and buildings used primarily for human habitation which land and buildings are owned and operated by organizations that have received tax-exempt status under section 501(c)(3) of the Internal Revenue Code and rental income from the property is not taxed as unrelated business income under section 422.33, subsection 1A.

12. Beginning with valuations established on or after January 1, 2002, as used in this section, "agricultural property" includes the real estate of a vineyard and buildings used in connection with
the vineyard, including any building used for processing wine if such building is located on the same parcel as the vineyard.

If there has been an increase or decrease in the valuation of the property, or upon the written request of the person assessed, the assessor shall, at the time of making the assessment, inform the person assessed, in writing, of the valuation put upon the taxpayer’s property, and notify the person, that if the person feels aggrieved, to appear before the board of review and show why the assessment should be changed. However, if the valuation of a class of property is uniformly decreased, the assessor may notify the affected property owners by publication in the official newspapers of the county. The assessment rolls shall be used in listing the property and showing the values affixed to the property of all persons assessed. The rolls shall be made in duplicate. The duplicate roll shall be signed by the assessor, detached from the original and delivered to the person assessed if there has been an increase or decrease in the valuation of the property. If there has been no change in the valuation, the information on the roll may be printed on computer stock paper and preserved as required by this chapter. If the person assessed requests in writing a copy of the roll, the copy shall be provided to the person. The pages of the assessor’s assessment book shall contain columns ruled and headed for the information required by this chapter and that which the director of revenue deems essential in the equalization work of the director. The assessor shall return all assessment rolls and schedules to the county auditor, along with the completed assessment book, as provided in this chapter, and the county auditor shall carefully keep and preserve the rolls, schedules, and book for a period of five years from the time of its filing in the county auditor’s office.

The auditor, or the auditor’s designee, of any county shall establish a permanent real estate index number system with related tax maps for all real estate tax administration purposes, including the assessment, levy, and collection of such taxes. Wherever in real property tax administration the legal description of tax parcels is required, such permanent number system shall be adopted in addition thereto. The permanent real estate index numbers shall begin with the two-digit county number and be a unique identifying number for each parcel within the county. These numbers shall follow the property, not the owner, and can be an alphanumeric system. In the event of a division of an existing parcel, the original permanent parcel index number shall be retired and new numbers assigned. The auditor shall prepare and maintain permanent real estate index number tax maps, which shall carry such numbers. The auditor shall prepare and maintain cross indexes of the numbers assigned under this system, with legal descriptions of the real estate to which such numbers relate. Indexes and tax maps established as provided herein shall be open to public inspection. [C51, §181; R60, §733; C73, §821; C97, §1364;

441.31 Board of review.
1. The chairperson of the conference board shall call a meeting by written notice to all of the members of the board for the purpose of appointing a board of review for all assessments made by the assessor. The board of review may consist of either three members or five members. As nearly as possible this board shall include one licensed real estate broker and one registered architect or person experienced in the building and construction field. In the case of a county, at least one member of the board shall be a farmer. Not more than two members of the board of review shall be of the same profession or occupation and members of the board of review shall be residents of the assessor jurisdiction. The terms of the members of the board of review shall be for six years, beginning with January 1 of the year following their selection. In boards of review having three members the term of one member of the first board to be appointed shall be for two years, one member for four years and one member for six years. In the case of boards of review having five members, the term of one member of the first board to be appointed shall be for one year, one member for two years, one member for three years, one member for four years and one member for six years.

2. a. However, notwithstanding the board of review appointed by the county conference board pursuant to subsection 1, a city council of a city having a population of seventy-five thousand or more which is a member of a county conference board may provide, by ordinance, for a city board of review to hear appeals of property assessments by residents of that city. The members of the city board of review shall be appointed by the city council. The city shall pay the expenses incurred by the city board of review. However, if the city has a population of more than one hundred twenty-five thousand, the expenses incurred by the city board of review shall be paid by the county. All of the provisions of this chapter relating to the boards of review shall apply to a city board of review appointed pursuant to this subsection.

b. If a city having a population of more than one hundred twenty-five thousand abolishes its office of city assessor, the city may provide, by ordinance, for a city board of review or request the county conference board to appoint a ten-member county board of review. The initial ten-member county board of review established pursuant to this paragraph shall consist of the members of the city board of review and the county board of review who are serving unexpired terms of office. The members of the initial ten-member county board of review may continue to serve their unexpired terms of office and are eligible for reappointment for a six-year term. The ten-member county board of review created pursuant to this paragraph is in lieu of the boards of review provided for in subsection 1, but the professional and occupational qualifications of members shall apply.

3. Notwithstanding the requirements of subsection 1, the conference board or a city council which has appointed a board of review may increase the membership of the board of review by an additional two members if it determines that as a result of the large number of protests filed or estimated to be filed the board of review will be unable to timely resolve the protests with the existing number of members. If the board of review has ten members, not more than four additional members may be appointed by the conference board. The additional emergency members shall be appointed for a term set by the conference board or the city council but not for longer than two years. The conference board or the city council may extend the terms of the emergency members if it makes a similar determination as required for the initial appointment.

441.32 Terms — vacancies.
The terms of the members of the board of review are for six years each except for the emergency members whose terms shall be set by the conference board for a period not to exceed two years. Members of this board may be removed by the conference board but only after a public hearing upon specified charges, if a hearing is requested by the member. A subsequent appointment, and an appointment to fill a vacancy, shall be made in the same way as the original selection. The board may subpoena witnesses and administer oaths.

441.33 Sessions of board of review.
The board of review shall be in session from May 1 through the period of time necessary to act on all protests filed under section 441.37 but not later than May 31 each year and for an additional period as required under section 441.37 and shall hold as many meetings as are necessary to discharge its duties. On or before May 31 in those years in
which a session has not been extended as required under section 441.37, the board shall return all books, records and papers to the assessor except undisposed of protests and records pertaining to those protests. If it has not completed its work by May 31, in those years in which the session has not been extended under section 441.37, the director of revenue may authorize the board of review to continue in session for a period necessary to complete its work, but the director of revenue shall not approve a continuance extending beyond July 15. On or before May 31 or on the final day of any extended session required under section 441.37 or authorized by the director of revenue, the board of review shall adjourn until May 1 of the following year. It shall adopt its own rules of procedure, elect its own chairperson from its membership, and keep minutes of its meetings. The board shall appoint a clerk who may be a member of the board or any other qualified person, except the assessor or any member of the assessor’s staff. It may be reconvened by the director of revenue. All undisposed protests in its hands on July 15 shall be automatically overruled and returned to the assessor together with its other records.

Within fifteen days following the adjournment of any regular or special session, the board of review shall submit to the director of revenue, on forms prescribed by the director, a report of any actions taken during that session.

1. To equalize assessments by raising or lowering the individual assessments of real property, including new buildings, made by the assessor.
2. To add to the assessment rolls any taxable property which has been omitted by the assessor.
3. To add to the assessment rolls for taxation property which the board believes has been erroneously exempted from taxation. Revocation of a property tax exemption shall commence with the assessment for the current assessment year, and shall not be applied to prior assessment years.

In any year after the year in which an assessment has been made of all of the real estate in any taxing district, it shall be the duty of the board of review to meet as provided in section 441.33, and where it finds the same has changed in value, to revalue and reassess any part or all of the real estate contained in such taxing district, and in such case, it shall determine the actual value as of January 1 of the year of the reevaluation and reassessment and compute the taxable value thereof, and any aggrieved taxpayer may petition for a revaluation of the taxpayer’s property, but no reduction or increase shall be made for prior years. If the assessment of any such property is raised, or any property is added to the tax list by the board, the clerk shall give notice in the manner provided in section 441.36, provided, however, that if the assessment of all property in any taxing district is raised the board may instruct the clerk to give immediate notice by one publication in one of the official newspapers located in the taxing district, and such published notice shall take the place of the mailed notice provided for in section 441.36, but all other provisions of said section shall apply. Said minute book shall be filed with the assessor after the adjournment of the board of review and shall at all times be open to public inspection. In case the value of any specific property or the entire assessment of any person, partnership, or association is increased, or new property is added by the board, the clerk shall give immediate notice thereof by mail to each at the post-office address shown on the assessment roll. If the assessment of any such property is raised, or any increase shall be made for prior years. 441.37 Protest of assessment — grounds.

1. Any property owner or aggrieved taxpayer who is dissatisfied with the owner's or taxpayer's assessment may file a protest against such assessment with the board of review on or after April 16, and including May 5, of the year of the assessment. In any county which has been declared to be a disaster area by proper federal authorities after March 1 and prior to May 20 of said year of assessment, the board of review shall be authorized to remain in session until June 15 and the time for filing a protest shall be extended to and include the period from May 25 to June 5 of such year. Said protest shall be in writing and signed by the one protesting or by the protester's duly authorized agent. The taxpayer may have an oral hearing thereon if request therefor is made at the time of filing the protest. Said protest must be confined to one or more of the following grounds:

a. That said assessment is not equitable as compared with assessments of other like property in the taxing district. When this ground is relied upon as the basis of a protest the legal description and assessments of a representative number of comparable properties, as described by the aggrieved taxpayer shall be listed on the protest, otherwise said protest shall not be considered on this ground.

b. That the property is assessed for more than the value authorized by law, stating the specific amount which the protesting party believes the property to be overassessed, and the amount which the party considers to be its actual value and the amount the party considers a fair assessment.

c. That the property is not assessable, is exempt from taxes, or is misclassified and stating the reasons for the protest.

d. That there is an error in the assessment and state the specific alleged error.

e. That there is fraud in the assessment which is shown by the evidence.

2. After the board of review has considered any protest filed by a property owner or aggrieved taxpayer and made final disposition of the protest, the board shall give written notice to the property owner or aggrieved taxpayer who filed the protest of the action taken by the board of review on the protest. The written notice to the property owner or aggrieved taxpayer shall also specify the reasons for the action taken by the board of review on the protest.

3. Appeals may be taken from the action of the board of review with reference to protests of assessment, to the district court of the county in which the board holds its sessions within twenty days after its adjournment or May 31, whichever date is later. No new grounds in addition to those set out in the protest to the board of review as provided in section 441.37 can be pleaded, but additional evidence to sustain those grounds may be introduced. The assessor shall have the same right to appeal and in the same manner as an individual taxpayer, public body or other public officer as provided in section 441.42. Appeals shall be taken by filing a written notice of appeal with the clerk of district court. Filing of the written notice of appeal shall preserve all rights of appeal of the appellant.

441.38 Appeal to district court.

1. Appeals may be taken from the action of the board of review with reference to protests of assessment, to the district court of the county in which the board holds its sessions within twenty days after its adjournment or May 31, whichever date is later. No new grounds in addition to those set out in the protest to the board of review as provided in section 441.37 can be pleaded, but additional evidence to sustain those grounds may be introduced. The assessor shall have the same right to appeal and in the same manner as an individual taxpayer, public body or other public officer as provided in section 441.42. Appeals shall be taken by filing a written notice of appeal with the clerk of district court. Filing of the written notice of appeal shall preserve all rights of appeal of the appellant.

2. Notice of appeal shall be served as an original notice on the chairperson, presiding officer, or clerk of the board of review after the filing of notice under subsection 1 with the clerk of district court.
441.39 Trial on appeal.
The court shall hear the appeal in equity and determine anew all questions arising before the board which relate to the liability of the property to assessment or the amount thereof. The court shall consider all of the evidence and there shall be no presumption as to the correctness of the valuation of assessment appealed from. Its decision shall be certified by the clerk of the court to the county auditor, and the assessor, who shall correct the assessment books accordingly.

441.40 Costs, fees and expenses apportioned.
The clerk of the court shall likewise certify to the county treasurer the costs assessed by the court on any appeal from a board of review to the district court, in all cases where said costs are taxed against the board of review or any taxing body. Thereupon the county treasurer shall compute and apportion the said costs between the various taxing bodies participating in the proceeds of the collection of the taxes involved in any such appeal, and said treasurer shall so compute and apportion the various amounts which said taxing bodies are required to pay in proportion to the amount of taxes each of said taxing bodies is entitled to receive from the whole amount of taxes involved in each of such appeals. The said county treasurer shall deduct from the proceeds of all general taxes collected the amount of costs so computed and apportioned by the treasurer from the moneys due to each taxing body in lieu of moneys collected. Said county treasurer shall pay to the clerk of the district court the amount of said costs so computed, apportioned and collected by the treasurer in all cases now on file or hereafter filed in which said costs have not been paid.

441.41 Legal counsel.
In the case of cities having an assessor, the city legal department shall represent the assessor and board of review in all litigation dealing with assessments. In the case of counties, the county attorney shall represent the assessor and board of review in all litigation dealing with assessments. Any taxing body interested in the taxes received from such assessments may be represented by an attorney and shall be required to appear by attorney upon written request of the assessor to the presiding officer of any such taxing body. The conference board may employ special counsel to assist the city legal department or county attorney as the case may be.

441.42 Appeal on behalf of public.
Any officer of a county, city, township, drainage district, levee district, or school district interested or a taxpayer thereof may in like manner make complaint before said board of review in respect to the assessment of any property in the township, drainage district, levee district or city and an appeal from the action of the board of review in fixing the amount of assessment on any property concerning which such complaint is made, may be taken by any of such aforementioned officers.

Such appeal is in addition to the appeal allowed to the person whose property is assessed and shall be taken in the name of the county, city, township, drainage district, levee district, or school district interested, and tried in the same manner, except that the notice of appeal shall also be served upon the owner of the property concerning which the complaint is made and affected thereby or person required to return said property for assessment.

441.43 Power of court.
Upon trial of any appeal from the action of the board of review fixing the amount of assessment upon any property concerning which complaint is made, the court may increase, decrease, or affirm the amount of the assessment appealed from.

441.44 Notice of voluntary settlement.
No voluntary court settlement of an assessment appeal shall be valid unless written notice thereof shall first be served upon each of the taxing bodies interested in the taxes derived from such assessment.
§441.45 Abstract to state department of revenue.
The county assessor of each county and each city assessor shall, on or before July 1 of each year, make out and transmit to the department of revenue an abstract of the real property in the assessor's county or city, as the case may be, and file a copy of the abstract with the county auditor, in which the assessor shall set forth:

1. The number of acres of land and the aggregate taxable values of the land, exclusive of city lots, returned by the assessors, as corrected by the board of review.
2. The aggregate taxable values of real estate by class in each township and city in the county, returned as corrected by the board of review.
3. Other facts required by the director of revenue.

If a board of review continues in session beyond June 1, under sections 441.33 and 441.37, the abstract of the real property shall be made out and transmitted to the department of revenue within fifteen days after the date of final adjournment by the board.

§441.46 Assessment date.
The assessment date of January 1 is the first date of an assessment year period which constitutes a calendar year commencing January 1 and ending December 31. All property tax statutes providing for tax exemptions or credits and requiring that a claim be filed, shall be construed to require the claims to be filed by July 1 of the assessment year. If no claim is required to be filed to procure an exemption or credit, the status of the property as exempt or taxable on July 1 of the fiscal year which commences during the assessment year determines its eligibility for exemption or credit. Any statute requiring proration of property taxes for any purpose shall be for the fiscal year, and the proration shall be based on the status of the property during the fiscal year.
The assessment date is January 1 for taxes for the fiscal year which commences six months after the assessment date and which become delinquent during the fiscal year commencing eighteen months after the assessment date.

§441.47 Adjusted valuations.
The director of revenue on or about August 15, 1977, and every two years thereafter shall order the equalization of the levels of assessment of each class of property in the several assessing jurisdictions by adding to or deducting from the valuation of each class of property such percentage in each case as may be necessary to bring the same to its taxable value as fixed in this chapter and chapters 427 to 443. The director shall adjust to actual value the valuation of any class of property as set out in the abstract of assessment when the valuation is at least five percent above or below actual value as determined by the director. For purposes of such value adjustments and before such equalization the director shall adopt, in the manner prescribed by chapter 17A, such rules as may be necessary to determine the level of assessment for each class of property in each county. The rules shall cover: (1) The proposed use of the assessment-sales ratio study set out in section 421.17, subsection 6; (2) the proposed use of any statewide income capitalization studies; (3) the proposed use of other methods that would assist the director in arriving at the accurate level of assessment of each class of property in each assessing jurisdiction.

§441.49 Adjustment by auditor.
The director shall keep a record of the review and adjustment proceedings and finish the pro-
ceedings on or before October 1 unless for good cause the proceedings cannot be completed by that date. The director shall notify each county auditor by mail of the final action taken at the proceedings and specify any adjustments in the valuations of any class of property to be made effective for the jurisdiction.

However, an assessing jurisdiction may request the director to permit the use of an alternative method of applying the equalization order to the property values in the assessing jurisdiction, provided that the final valuation shall be equivalent to the director’s equalization order. The assessing jurisdiction shall notify the county auditor of the request for the use of an alternative method of applying the equalization order and the director’s disposition of the request. The request to use an alternative method of applying the equalization order, including procedures for notifying affected property owners and appealing valuation adjustments, shall be made within ten days from the date the county auditor receives the equalization order and the valuation adjustments, and appeal procedures shall be completed by November 30 of the year of the equalization order. Compliance with the provisions of section 441.21 is sufficient grounds for the director to permit the use of an alternative method of applying the equalization order.

On or before October 15 the county auditor shall cause to be published in official newspapers of general circulation the final equalization order. The publication shall include, in type larger than the remainder of the publication, the following statement: “Assessed values are equalized by the department of revenue every two years. Local taxing authorities determine the final tax levies and may reduce property tax rates to compensate for any increase in valuation due to equalization.” Failure to publish the equalization order has no effect upon the validity of the orders.

The county auditor shall add to or deduct from the valuation of each class of property in the county the required percentage, rejecting all fractions of fifty cents or less in the result, and counting all fractions over fifty cents as one dollar. For any special charter city that levies and collects its own tax based on current year assessed values, the equalization percentage shall be applied to the following year’s values, and shall be considered the equalized values for that year for purposes of this chapter. The local board of review shall reconvene in special session from October 15 to November 15 for the purpose of hearing the protests of affected property owners or taxpayers within the jurisdiction of the board whose valuation of property if adjusted pursuant to the equalization order issued by the director of revenue will result in a greater value than permitted under section 441.21. The board of review shall accept protests only during the first ten days following the date the local board of review reconvenes. The board of review shall limit its review to only the timely filed protests. The board of review may adjust all or a part of the percentage increase ordered by the director of revenue by adjusting the actual value of the property under protest to one hundred percent of actual value. Any adjustment so determined by the board of review shall not exceed the percentage increase provided for in the director’s equalization order. The determination of the board of review on filed protests is final, subject to review by the director of revenue for the purpose of determining whether the board’s actions substantially altered the equalization order. In making the review, the director has all the powers provided in chapter 421, and in exercising the powers the director is not subject to chapter 17A. Not later than fifteen days following the adjournment of the board, the board of review shall submit to the director of revenue, on forms prescribed by the director, a report of all actions taken by the board of review during this session.

Not later than ten days after the date the final equalization order is issued, the city or county officials of the affected county or assessing jurisdiction may appeal the final equalization order to the state board of tax review. The appeal shall not delay the implementation of the equalization orders.

Tentative and final equalization orders issued by the director of revenue are not rules as defined in section 17A.2, subsection 7.

CERTIFICATION OF TAXES

444.1 Basis for amount of tax.
In all taxing districts in the state, including townships, school districts, cities and counties, when by law then existing the people are authorized to determine by vote, or officers are authorized to estimate or determine, a rate of taxation required for any public purpose, such rate shall in all cases be estimated and based upon the adjusted taxable valuation of such taxing district for the preceding calendar year.

444.2 Amounts certified in dollars.
When an authorized tax rate within a taxing district, including townships, school districts, cities and counties, has been thus determined as provided by law, the officer or officers charged with the duty of certifying the authorized rate to the county auditor or board of supervisors shall, before certifying the rate, compute upon the adjusted taxable valuation of the taxing district for the preceding fiscal year, the amount of tax the rate will raise, stated in dollars, and shall certify the computed amount in dollars and not by rate, to the county auditor and board of supervisors.

444.3 Computation of rate.
When the valuations for the several taxing districts shall have been adjusted by the several boards for the current year, the county auditor shall thereupon apply such a rate, not exceeding the rate authorized by law, as will raise the amount required for such taxing district, and no larger amount. For purposes of computing the rate under this section, the adjusted taxable valuation of the property of a taxing district does not include the valuation of property of a railway corporation or its trustee which corporation has been declared bankrupt or is in bankruptcy proceedings. Nothing in the preceding sentence exempts the property of such railway corporation or its trustee from taxation and the rate computed under this section shall be levied on the taxable property of such railway corporation or its trustee.

444.4 Fractional rates disregarded.
If in adjusting the rate to be levied in any taxing district to conform to law, such rates shall make necessary the levying of a fraction of a cent, said fractional excess may be computed as one cent, which latter shall be the smallest required to be spread upon the tax lists for any purpose except rates applicable to a state purpose.

444.5 Interpretative clause.
Repealed by 83 Acts, ch 101, §129.

444.6 Record of rates.
On the determination by the auditor of the necessary rates as herein directed, it is made the auditor’s duty to enter a record of such rates for each taxing district upon the permanent records of the auditor’s office in a book to be kept for that purpose.

444.7 Excessive tax prohibited.
It is a simple misdemeanor for the board of supervisors to authorize, or the county auditor to carry upon the tax lists for any year, an amount of tax for a public purpose in excess of the amount
certified or authorized as provided by law. The department of management shall prescribe and furnish the county auditors forms and instructions to aid them in determining the legality and authorized amount of tax levies. The county auditor shall reduce an excessive levy to the maximum amount authorized by law, and not in excess of the amount certified; and the county auditor shall not enter or carry a tax on the tax lists for an illegal levy.

444.8 Mandatory provisions.
The provisions of sections 444.1 to 444.7, and the methods of computation, certification, and levy therein provided shall be obligatory on all officers within the several counties of the state upon whom devolves the duty of determining, certifying, and levying taxes.

444.8A Definitions.
As used in this chapter, unless the context otherwise requires, “book”, “list”, “record”, or “schedule” kept by a county auditor, assessor, treasurer, recorder, sheriff, or other county officer means the county system as defined in section 445.1.

1. "Abate" means to cancel in their entirety all applicable amounts.

2. "Compromise" means to enter into a contractual agreement for the payment of taxes, interest, fees, and costs in amounts different from those specified by law.

4. "Parcel" means each separate item shown on the tax list, manufactured or mobile home tax list, schedule of assessment, or schedule of rate or charge.

5. "Rate or charge" means an item, including rentals, legally certified to the county treasurer for collection as provided in sections 331.465, 331.489, 358.20, 364.11, 364.12, and 468.589 and section 384.84, subsection 3.

6. "Taxes" means an annual ad valorem tax, a special assessment, a drainage tax, a rate or charge, and taxes on homes pursuant to chapter 435 which are collectible by the county treasurer.

7. "Total amount due" means the aggregate total of all taxes, penalties, interest, costs, and fees due on a parcel.

---

**445.2 Duty of county treasurer.**

The county treasurer, after making the entry provided in section 445.10, shall proceed to collect the ad valorem taxes, and the list referred to in chapter 443 is the treasurer's authority and justification against any illegality in the proceedings prior to receiving the list. The treasurer shall also collect, as far as practicable, the taxes remaining unpaid on the county system. If the taxes are not paid, the treasurer shall send a statement of delinquent taxes as part of the notice of tax sale as provided in section 446.9.

91 Acts, ch 191, §27

---

**445.3 Actions authorized.**

In addition to all other remedies and proceed-
ings now provided by law for the collection of taxes, the county treasurer may bring or cause an ordinary suit at law to be commenced and prosecuted in the treasurer’s name for the use and benefit of the county for the collection of taxes from any person, as shown by the county system in the treasurer’s office, and the suit shall be in all respects commenced, tried, and prosecuted to final judgment the same as provided for ordinary actions.

The commencement of actions for ad valorem taxes authorized under this section shall not begin until the issuance of a tax sale certificate under the requirements of section 446.19. The commencement of actions for all other taxes authorized under this section shall not begin until ten days after the publication of tax sale under the requirements of section 446.9, subsection 2. This paragraph does not apply to the collection of ad valorem taxes under section 445.32, grain handling taxes under section 428.35, and moneys and credits taxes under chapter 430A.

Notwithstanding the provisions in section 535.3, interest on the judgment shall be at the rate provided in section 447.1 and shall commence from the month of the commencement of the action. This interest shall be in lieu of the interest assessed under section 445.39 from and after the month of the commencement of the action.

An appeal may be taken to the Iowa supreme court as in other civil cases regardless of the amount involved.

Notwithstanding any other provisions in this section, if the treasurer is unable or has reason to believe that the treasurer will be unable to offer land at the annual tax sale to collect the total amount due, the treasurer may immediately collect the total amount due by the commencement of an action under this section.

Notwithstanding any other provision of law, if a statute authorizes the collection of a delinquent tax, assessment, rate, or charge by tax sale, the tax, assessment, rate, or charge, including interest, fees, and costs, may also be collected under this section and section 445.4.

This section is remedial and shall apply to all delinquent taxes included in a tax sale certificate of purchase issued to a county. Upon assignment of a county-held tax sale certificate, this section shall not apply to the assignee.

445.5 Statement and receipt.

1. As soon as practicable after receiving the tax list prescribed in chapter 443, the treasurer shall deliver to the titleholder, by regular mail, or if requested by the titleholder, by electronic transmission, a statement of taxes due and payable which shall include the following information:
   a. The year of tax.
   b. A description of the parcel.
   c. The assessed value of the parcel, itemized by the value for land, dwellings, and buildings, for the current year and the previous year as valued by the assessor after application of any equalization orders.
   d. The taxable value of the parcel, itemized by the value for land, dwellings, and buildings, for the current year and the previous year after application of any equalization orders, assessment limitations, and itemized valuation exemptions.
   e. The complete name of all taxing authorities receiving a tax distribution, the amount of the distribution, and the percentage distribution for each named authority, listed from the highest to the lowest distribution percentage.
   f. The consolidated levy rate for one thousand dollars of taxable valuation multiplied by the taxable valuation to produce the gross taxes levied before application of credits against levied taxes for the previous and current fiscal years.
   g. The itemized credits against levied taxes deducted from the gross taxes levied in order to produce the net taxes owed for the previous and current fiscal years.
   h. The amount of property tax dollars reduced on each parcel as a result of the moneys received from the property tax relief fund pursuant to section 426B.2, subsections 1 and 2.
   i. The total amount of taxes levied by each taxing authority in the previous fiscal year and the current fiscal year and the difference between the two amounts, expressed as a percentage increase or decrease.
   j. The county treasurer shall each year, upon request, deliver to the following persons or entities, or their duly authorized agents, a copy of the

445.4 Statutes applicable — attachment — damages.

Chapter 639 is applicable to proceedings instituted by a county treasurer under section 445.3, and a writ of attachment shall be issued upon the treasurer complying with the provisions of chapter 639, for taxes, whether due or not due, except that a bond shall not be required from the treasurer or county in such cases, but the county shall be liable for damages only, as provided by section 639.14. The county attorney, upon request of the treasurer, shall assist in prosecution of actions authorized in this section.

This section is remedial and shall apply to all delinquent taxes included in a tax sale certificate of purchase issued to a county. Upon assignment of a county-held tax sale certificate, this section shall not apply to the assignee.

445.5 Statement and receipt.

1. As soon as practicable after receiving the tax list prescribed in chapter 443, the treasurer shall deliver to the titleholder, by regular mail, or if requested by the titleholder, by electronic transmission, a statement of taxes due and payable which shall include the following information:
   a. The year of tax.
   b. A description of the parcel.
   c. The assessed value of the parcel, itemized by the value for land, dwellings, and buildings, for the current year and the previous year as valued by the assessor after application of any equalization orders.
   d. The taxable value of the parcel, itemized by the value for land, dwellings, and buildings, for the current year and the previous year after application of any equalization orders, assessment limitations, and itemized valuation exemptions.
   e. The complete name of all taxing authorities receiving a tax distribution, the amount of the distribution, and the percentage distribution for each named authority, listed from the highest to the lowest distribution percentage.
   f. The consolidated levy rate for one thousand dollars of taxable valuation multiplied by the taxable valuation to produce the gross taxes levied before application of credits against levied taxes for the previous and current fiscal years.
   g. The itemized credits against levied taxes deducted from the gross taxes levied in order to produce the net taxes owed for the previous and current fiscal years.
   h. The amount of property tax dollars reduced on each parcel as a result of the moneys received from the property tax relief fund pursuant to section 426B.2, subsections 1 and 2.
   i. The total amount of taxes levied by each taxing authority in the previous fiscal year and the current fiscal year and the difference between the two amounts, expressed as a percentage increase or decrease.
   j. The county treasurer shall each year, upon request, deliver to the following persons or entities, or their duly authorized agents, a copy of the
tax statement or tax statement information:

  e. Federally chartered financial institution.
  f. Federally chartered financial institution.
  g. Federally chartered financial institution.
  h. Federally chartered financial institution.

The treasurer may negotiate and charge a reasonable fee not to exceed the cost of producing the information for the requestor for a tax statement or tax statement information provided by the treasurer.

3. A person other than those listed in subsection 2, who requests a tax statement or tax statement information, shall pay a fee to the treasurer at a rate not to exceed two dollars per parcel.

4. The county treasurer shall deliver to the taxpayer a receipt stating the year of tax, date of payment, a description of the parcel, and the amount of taxes, interest, fees, and costs paid except when payment of taxes is made by check, then a receipt shall be issued only upon request. The receipt shall be in full of the first half, second half, or full year amounts unless a payment is made under section 445.36A or 435.24, subsection 6.

445.6 Application to waive tax statement requirements.
For the fiscal years beginning July 1, 1998, and July 1, 1999, a county may apply to the director of the department of management for a deferral in implementing the property tax statement format requirements of section 445.5, subsection 1. The director shall notify the county treasurer of the director's decision within thirty days of receipt of a deferral application from the county. If the director grants a deferral to a county, application of the property tax statement format requirements of section 445.5, subsection 1, is waived for that county.

A county granted a deferral pursuant to this section shall, for the fiscal year for which the deferral is granted, provide with the tax statement an enclosure detailing comparative property tax data for each taxing authority in the county. The comparative data shall include the total amount of taxes levied by each taxing authority in the previous fiscal year and the current fiscal year, the dollar amount difference between the two amounts, and that same difference expressed as a percentage increase or decrease. The comparative data enclosure shall also contain a statement that the county received from the state a deferral from the timely implementation of the tax statement format requirements.

For the purposes of this section and section 445.5, “taxing authority” means a public body which has the authority to certify a tax to be levied.

98 Acts, ch 1186, §4, 5

445.10 Former delinquent taxes.
The county treasurer shall each year, after receiving the tax list referred to in chapter 443, enter into the county system a notation of delinquency for each parcel on which the tax remains unpaid for any previous year. Unless the delinquent tax is so entered it shall cease to be a lien upon that parcel. To preserve the tax lien it is only necessary to enter the notation for any parcel upon which it is a lien. If the county system is such that all delinquent taxes of any preceding year are automatically brought forward against each parcel on which the tax remains unpaid for any year, the treasurer is not required to make any further entry. Any sale for a delinquent tax not noted on the county system is invalid. However, this section does not require that in order to preserve the lien of tax and make the tax sale valid, delinquent taxes must be brought forward upon the county system if the tax list is received by the treasurer less than six
445.11 Special assessment levy submitted.  
When the levy of a special assessment is submitted to the county treasurer, in a format acceptable by the treasurer, the treasurer shall enter in the county system a description of each parcel affected, the date of the assessment, the total amount assessed, the installments to be paid, and the amounts of the respective installments if the assessment is payable in installments.

91 Acts, ch 191, §32

445.12 Additional data for special assessments.  
The county system may contain space for showing interest, if any, that may be incurred, a column showing payments and their amounts, a column showing the number of the receipt to be issued by the county treasurer, and a column that may be used to show the date of payment of the assessment, or any installment of it.

[C31, 35, §7193-d2; C39, §7193.02; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §445.12]
91 Acts, ch 191, §33

445.14 Entries on the county system.  
The county treasurer shall each year, after receiving the tax list referred to in section 445.10, indicate on the county system that a special assessment is unpaid. This indication is not required if the county system automatically brings forward a notation of the unpaid special assessment.

[C31, 35, §7193-d4; C39, §7193.04; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §445.14]
91 Acts, ch 191, §34

445.15 Limitations.  
Nothing contained in sections 443.2 and 445.10 shall apply to special assessment levies.

[C31, 35, §7193-d5; C39, §7193.05; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §445.15]

445.16 Abatement or compromise of tax.  
If the county holds the tax sale certificate of purchase, the county, through the board of supervisors, may compromise by written agreement, or abate by resolution, the tax, interest, fees, or costs. In the event of a compromise, the board of supervisors may enter into a written agreement with the owner of the legal title or with any lienholder for the payment of a stipulated sum in full satisfaction of all amounts included in that agreement. In addition, if a parcel is offered at regular tax sale and is not sold, the county, prior to public bidder sale to the county under section 446.19, may compromise by written agreement, or abate by resolution, the tax, interest, fees, or costs, as provided in this section.

A copy of the agreement or resolution shall be filed with the county treasurer.

If the treasurer determines that it is impractical to pursue collection of the total amount due through the tax sale and the personal judgment remedies, the treasurer shall make a written recommendation to the board of supervisors to abate the amount due. The board of supervisors shall abate, by resolution, the amount due and direct the treasurer to strike the amount due from the county system.

445.18 Effect of compromise payment or abatement.  
When payment is made, as provided by the compromise agreement or when there is an abatement, all taxes included in the compromise agreement or abatement shall be deemed to be fully satisfied and canceled and the county treasurer shall show the satisfaction on the county system.

445.22 Subsequent collection.  
Any tax subsequently collected shall be appor-
445.23 Statement of taxes due.
Upon request, the county treasurer shall state in writing the full amount of taxes against a parcel, all sales for unpaid taxes, and the amount needed to redeem the parcel, if redeemable. If the person requesting the statement is not the titleholder of record or contract holder of record of the parcel, that person shall pay a fee at the rate of two dollars per parcel for each year for which information is requested, and the money shall be deposited in the county general fund.

445.24 Effect of statement and receipt.
The statement received under section 445.23, with the county treasurer’s receipt showing the payment of all the taxes specified in the statement, and the treasurer’s certificate of redemption from the tax sales mentioned in the statement, is conclusive evidence for all purposes, and against all persons, that the parcel was, at the date of the receipt, free and clear of all taxes, and sales for taxes, except sales where the time of redemption had already expired and the tax purchaser had received the deed.

445.28 Tax lien.
Taxes upon a parcel are a lien on the parcel against all persons except the state. However, taxes upon the parcel are a lien on the parcel against the state and a political subdivision of the state which is liable for payment of taxes as a purchaser under section 427.18.

445.30 Lien between vendor and purchaser.
As against a purchaser, tax liens attach to a parcel on and after June 30 in each year.

445.32 Liens on buildings or improvements.
If a building or improvement is erected or made by a person other than the owner of the land on which the building or improvement is located, as provided for in section 428.4, the taxes on the building or improvement are and remain a lien on the building or improvement from the date of levy until paid. If the taxes on the building or improvement become delinquent, as provided in section 445.37, the county treasurer shall collect the tax as provided in sections 445.3 and 445.4. This section does not apply to special assessments, or rates or charges.

445.36 Payment — installments.
1. The taxes which become delinquent during the fiscal year are for the previous fiscal year.
2. A demand of taxes is not necessary, but every person subject to taxation shall attend at the office of the county treasurer and pay the taxes either in full, or one-half of the taxes before September 1 succeeding the levy, and the remaining half before March 1 following. However, if the first installment of taxes is delinquent and not paid as of February 1, the treasurer shall mail a notice to the taxpayer of the delinquency and the due date for the second installment. Failure to receive a mailed notice is not a defense to the payment of the total amount due. This section does not apply to special assessments, or rates or charges.

445.36A Partial payments.
1. As an alternative to the semiannual or annual payment of taxes, the county treasurer
may accept partial payments of taxes. A minimum payment amount shall be established by the treasurer. The treasurer shall transfer amounts from each taxpayer’s account to be applied to each semiannual tax installment prior to the delinquency dates specified in section 445.37 and the amounts collected shall be apportioned by the tenth of the month following transfer. If, prior to the due date of each semiannual installment, the account balance is insufficient to fully satisfy the installment, the treasurer shall transfer and apply the entire account balance, leaving an unpaid balance of the installment. Interest shall attach on the unpaid balance in accordance with section 445.39. Unless funds sufficient to fully satisfy the delinquency are received, the treasurer shall collect the unpaid balance as provided in sections 445.3 and 445.4 and chapter 446. Any remaining balance in a taxpayer’s account in excess of the amount needed to fully satisfy an installment shall remain in the account to be applied toward the next semiannual installment. Any interest income derived from the account shall be deposited in the county’s general fund to cover administrative costs. The treasurer shall send a notice with the tax statement or by separate mail to each taxpayer stating that, upon request to the treasurer, the taxpayer may make partial payments of taxes.

2. Partial payment of taxes which are delinquent may be made to the county treasurer. A minimum payment amount shall be established by the treasurer. The minimum payment must be equal to or exceed the interest and costs attributed to the oldest delinquent installment of the tax and shall be apportioned in accordance with section 445.57. If the payment does not include the whole of any installment of the delinquent tax, the unpaid tax shall continue to accrue interest pursuant to section 445.39. Partial payment shall not be permitted in lieu of redemption if the property has been sold for taxes under chapter 446 and under any circumstances shall not constitute an extension of the time period for a sale under chapter 446.

Current year taxes may be paid at any time regardless of any outstanding prior year delinquent tax.

This section does not apply to the payment of manufactured or mobile home taxes, special assessments, or rates or charges.

445.37 When delinquent.

If the semiannual installment of any tax has not been paid before October 1 succeeding the levy, that amount becomes delinquent from October 1 after due. However, in those instances when the last day of September is a Saturday or Sunday, that amount becomes delinquent on the second business day of October. If the second installment is not paid before April 1 succeeding its maturity, it becomes delinquent from April 1 after due. However, in those instances when the last day of March is a Saturday or Sunday, that amount becomes delinquent on the second business day of April. This paragraph applies to all taxes as defined in section 445.1, subsection 6.

However, if there is a delay in the delivery of the tax list referred to in chapter 443 to the county treasurer, the amount of ad valorem taxes and manufactured or mobile home taxes due shall become delinquent thirty days after the date of delivery or on the delinquent date of the first installment, whichever date occurs later. The delay shall not affect the due dates for special assessments and rates or charges. The delinquent date for special assessments and rates or charges is the same as the first installment delinquent date for ad valorem taxes, including any extension, in absence of a statute to the contrary.

To avoid interest on delinquent taxes, a payment must be received by the treasurer on or before the last business day of the month preceding the delinquent date, or mailed with appropriate postage and applicable fees paid, and a United States postal service postmark affixed to the payment envelope, with the postmark bearing a date on or before the delinquent date. Items returned to the sender by the United States postal service for insufficient postage or applicable fees shall be assessed interest, unless the appropriate postage and fees are paid and the items are postmarked again before the delinquent date. However, if the last calendar day of a month falls on a Saturday, Sunday, or a holiday, that amount becomes delinquent on the second business day of the following month.

To avoid interest on current or delinquent taxes, for payments made through a county treasurer’s authorized website only, if the last day of the month falls on a Saturday, Sunday, or a holiday, the electronic payment must be initiated by midnight on the first business day of the next month. All other electronic payments must be initiated by midnight on the last day of the month preceding the delinquent date.

If ad valorem or manufactured or mobile home taxes are paid by installment, each of those payments shall be apportioned among the several
445.39 Interest on delinquent taxes.
If the first installment of taxes is not paid by the delinquent date specified in section 445.37, the installment becomes due and draws interest of one and one-half percent per month until paid, from the delinquent date following the levy. If the last half is not paid by the delinquent date specified for it in section 445.37, the same interest shall be charged from the date the last half became delinquent. However, after April 1 in a fiscal year when late delivery of the tax list referred to in chapter 443 results in a delinquency date later than October 1 for the first installment, interest on delinquent first installments shall accrue as if delivery were made on the previous June 30. The interest imposed under this section shall be computed to the nearest whole dollar and the amount of interest shall not be less than one dollar. In calculating interest each fraction of a month shall be counted as an entire month. The interest percentage on delinquent special assessments and rates or charges is the same as that for the first installment of delinquent ad valorem taxes.

445.53 Taxes certified to another county.
In all cases of delinquent taxes, if the person upon whose property the taxes were levied has disposed of or removed the property and the treasurer of the county where the taxes were levied can find no property within that county against which those taxes can be collected, the treasurer of the county where those taxes are delinquent shall make out a certified abstract of the taxes and forward it to the treasurer of the county in which the person resides or has property, if the treasurer transmitting the abstract has reason to believe that the delinquent taxes can be collected by that county.

445.54 Collection in such case.
The county treasurer forwarding the one receiving said abstract shall each keep a record of it, and, upon receipt and filing in the office of the treasurer to whom sent, it shall have the effect of a levy of taxes in that county, and the collection shall proceed in the same manner as in the collection of other taxes.

445.56 Return.
The county treasurer receiving the abstract shall, upon collection, forward the amount to the treasurer of the county where the taxes were levied, less the collection fee provided in section 445.55.
The treasurer receiving the abstract shall, when in the treasurer's opinion the taxes are uncollectible, return the abstract with the endorsement "uncollectible" on it. In such case, when it is administratively impractical to collect the tax, the board of supervisors shall compromise or abate the tax, interest, and costs.

91 Acts, ch 191, §52

445.57 Monthly apportionment.
On or before the tenth day of each month, the county treasurer shall apportion all taxes col-
lected during the preceding month, except partial payment amounts collected pursuant to section 445.36A, subsection 1 and section 435.24, subsection 6, paragraph “a”, among the several funds to which they belong according to the amount levied for each fund, and shall apportion the interest, fees, and costs on the taxes to the general fund, and shall enter those amounts upon the treasurer’s cash account, and report the amounts to the county auditor.

The county treasurer shall apportion all interest and penalties on the replacement taxes and special utility property tax levies collected by the county treasurer to the general fund. Replacement taxes collected by the county treasurer shall be apportioned as set forth in this section.

Fees and charges including service delivery fees, credit card fees, and electronic funds transfer charges payable to a third party, not to the county, that are imposed for completing an electronic financial transaction with the county are not considered taxes collected for the purposes of this section.

445.60 Refunding erroneous tax.

The board of supervisors shall direct the county treasurer to refund to the taxpayer any tax or portion of a tax found to have been erroneously or illegally paid, with all interest, fees, and costs actually paid. A refund shall not be ordered or made unless a claim for refund is presented to the board within two years of the date the tax was due, or if appealed to the board of review, the state board of tax review, or district court, within two years of the final decision.

445.61 Sale for erroneous tax.

If a parcel subject to taxation is sold for the payment of such erroneous tax, interest, fees, or costs, the error or irregularity in the tax may be corrected at any time provided in this chapter, but this correction does not affect the validity of the sale or the right or title conveyed by a county treasurer’s deed, if the parcel was subject to taxation for any of the purposes for which any portion of the taxes for which the parcel was sold was levied, and the taxes were not paid before the sale, or the parcel redeemed from sale.

445.62 Abatement or refund in case of loss.

The board of supervisors has the authority to abate or refund in whole or in part the taxes of any person whose buildings, crops, stock, or other property has been destroyed by fire, tornado, or other unavoidable casualty, if that property has not been sold for taxes, or if the taxes have not been delinquent for thirty days at the time of the destruction. The loss for which abatement or refund is allowed shall be only that amount which is not covered by insurance. The loss of capital stock in a bank operated within the state and the making and paying of a stock assessment for the year that stock was assessed for taxation is a destruction within the meaning of this section.

445.63 Abatement of taxes.

When taxes are owing against a parcel owned or claimed by the state or a political subdivision of this state and the taxes were owing before the parcel was acquired by the state or a political subdivision of this state, the county treasurer shall give notice to the appropriate governing body which shall pay the amount of the taxes due. If the governing body fails to immediately pay the taxes due, the board of supervisors shall abate all of the taxes.
CHAPTER 446

TAX SALES

For definitions applicable to chapter, see §445.1

446.1 Sale shown.
The county treasurer shall designate on the county system each parcel sold for taxes and not redeemed, by noting on the county system the year in which it was sold.

446.2 Notice of sale.
For each parcel sold, the county treasurer shall notify the party in whose name the parcel was taxed, according to the treasurer’s records at the time of sale, that the parcel was sold at tax sale. The notice of sale shall be sent by regular mail within fifteen days from the date of the annual tax sale or any adjourned tax sale. Failure to receive a mailed notice is not a defense to payment of the total amount due.

446.3 Sale of personal property. Repealed by 91 Acts, ch 191, §123, 124.

446.4 Notice of time and place of sale. Repealed by 91 Acts, ch 191, §123, 124.

446.7 Annual tax sale.
Annually, on the third Monday in June the county treasurer shall offer at public sale all parcels on which taxes are delinquent. The sale shall be made for the total amount of taxes, interest, fees, and costs due. If for good cause the treasurer cannot hold the annual tax sale on the third Monday of June, the treasurer may designate a different date in June for the sale.

Parcels against which the county holds a tax sale certificate or a municipality holds a tax sale certificate acquired under section 446.19, parcels of municipal and political subdivisions of the state...
of Iowa, parcels held by a city or county agency or the Iowa finance authority for use in an Iowa homesteading project, or parcels of the state or its agencies, shall not be offered or sold at tax sale and a tax sale of those parcels is void from its inception. When taxes are owing against parcels owned or claimed by a municipal or political subdivision of the state of Iowa, parcels held by a city or county agency or the Iowa finance authority for use in an Iowa homesteading project, or parcels of the state or its agencies, the treasurer shall give notice to the appropriate governing body which shall then pay the total amount due. If the governing body fails to pay the total amount due, the board of supervisors shall abate the total amount due.

446.9 Notice of sale — service — publication — costs.

1. A notice of the date, time, and place of the annual tax sale shall be served upon the person in whose name the parcel subject to sale is taxed. The county treasurer shall serve the notice by sending it by regular first class mail to the person’s last known address not later than May 1 of each fiscal year. The notice shall contain a description of the parcel to be sold which is clear, concise, and sufficient to distinguish the parcel to be sold from all other parcels. It shall also contain the amount of delinquent taxes for which the parcel is liable each year, the amount of the interest and fees, and the amount of the service fee as provided in section 446.10, subsection 2, all to be incorporated as a single sum. The notice shall contain a statement that, after the sale, if the parcel is not redeemed within the period provided in chapter 447, the right to redeem expires and a deed may be issued.

2. Publication of the date, time, and place of the annual tax sale shall be made once by the treasurer in at least one official newspaper in the county as selected by the board of supervisors and designated by the treasurer at least one week, but not more than three weeks, before the day of sale. The publication shall contain a description of the parcel to be sold that is clear, concise, and sufficient to distinguish the parcel to be sold from all other parcels. All items offered for sale pursuant to section 446.18 may be indicated by an “s” or by an asterisk. The publication shall also contain the name of the person in whose name the parcel to be sold is taxed and the amount delinquent for which the parcel is liable each year, the amount of the interest and fees, and the amount of the service fee as provided in section 446.10, subsection 2, all to be incorporated as a single sum. The publication shall contain a statement that, after the sale, if the parcel is not redeemed within the period provided in chapter 447, the right to redeem expires and a deed may be issued.

3. In addition to the notice required by subsection 1 and the publication required by subsection 2, the treasurer shall send, at least one week but not more than three weeks before the day of sale, a notice of sale in the form prescribed by subsection 1, by regular first class mail to any mortgagee having a lien upon the parcel, a vendor of the parcel under a recorded contract of sale, a lessor of the parcel who has a recorded lease or memorandum of a recorded lease, and to any other person who has an interest of record in the parcel, if the mortgagee, vendor, lessor, or other person having an interest of record has done both of the following:
   a. Requested on a form prescribed by the treasurer that notice of sale be sent to the person.
   b. Filed the request form with the treasurer at least one month prior to the date of sale, together with a fee of twenty-five dollars per parcel.

   The request for notice is valid for a period of five years from the date of filing with the treasurer. The request for notice may be renewed for additional periods of five years by the procedure specified in this subsection.

4. Notice required by subsections 1 and 3 shall be deemed completed when the notice is enclosed in a sealed envelope with the proper postage on the envelope, is addressed to the person entitled to receive it at the person’s last known mailing address, and is deposited in a mail receptacle provided by the United States postal service. Failure to receive a mailed notice is not a defense to the payment of the total amount due.

5. If, for good cause, a parcel is not included in the publication specified in subsection 2, notice shall be given by publication or by posting a description of the parcel and the date, time, and place of the tax sale in the treasurer’s office for two weeks before the regular or any adjourned tax sale and, at the time of the publication or posting, by mailing the notice required in subsection 1.

446.8 Repealed by 81 Acts, ch 117, § 1244.

446.10 Publication costs and service fees.

1. The compensation for publication shall not exceed four dollars for each separately described parcel and shall be paid by the county.

2. A service fee not to exceed four dollars shall be collected as a fee for sale notice preparation and deposited into the county general fund. If the taxes are paid before the date of sale, the service

§446.13 Method of describing parcels, etc.

In entries required to be made by the county auditor, county treasurer, or other officer, letters and figures may be used to denote townships, ranges, sections, parts of sections, lots, blocks, dates, and the amount of taxes, interest, fees, and costs.

§446.14 Irregularities in advertisement.

An irregularity or informality in the advertisement does not affect the legality of the sale or the title to a parcel conveyed by the county treasurer's deed under this chapter and chapters 447 and 448, and in all cases its provisions shall be sufficient notice to the owners of the sale of the parcel.

§446.15 Offer for sale.

The county treasurer shall offer for sale, on the day of the sale, each parcel separately for the total amount due against each parcel advertised for sale.

The treasurer may establish and collect a reasonable registration fee from each registered bidder at the tax sale. The fee shall not be assessed against a county or municipality. The total of the fees collected shall not exceed the total costs of the tax sale. Registration fees collected shall be deposited in the general fund of the county.

The delinquent tax lien transfers with the tax sale certificate, whether held by the county or purchased by an individual, through assignment or direct purchase at the tax sale. The delinquent tax sale lien expires when the tax sale certificate expires.

§446.16 Bid — purchaser — bidder registration fee.

1. The person who offers to pay the total amount due, which is a lien on any parcel, for the smallest percentage of the parcel is the purchaser, and when the purchaser designates the percentage of any parcel for which the purchaser will pay the total amount due, the percentage thus designated shall give the person an undivided interest upon the issuance of a treasurer's deed, as provided in chapter 448. If two or more persons have placed an equal bid and the bids are the smallest percentage offered, the county treasurer shall use a random selection process to select the bidder to whom a certificate of purchase will be issued.

2. The treasurer may establish and collect a reasonable registration fee from each registered bidder at the tax sale. The fee shall not be assessed against a county or municipality. The total of the fees collected shall not exceed the total costs of the tax sale. Registration fees collected shall be deposited in the general fund of the county.

3. The delinquent tax lien transfers with the tax sale certificate, whether held by the county or purchased by an individual, through assignment or direct purchase at the tax sale. The delinquent tax sale lien expires when the tax sale certificate expires.

§446.17 Title to property.

The county treasurer shall make a certificate of sale to the purchaser, which certificate shall be the equivalent of a certificate of title to the property purchased.

§446.18 Procedure for registration.

Registration fees collected shall be deposited in the general fund of the county.

§446.19 Certificate of sale.

The certificate of sale shall be in the form prescribed by the county auditor.
446.17 Sale continued.
The county treasurer shall continue the sale from day to day as long as there are bidders or until all delinquent parcels have been offered for sale.

If notice of annual tax sale has been published under section 446.9, as it appeared in the 1991 Code, the notice is valid and further notice is not required for an adjourned sale held under this section, unless it is a public bidder sale.

Notice of the sale shall be given at the same time and in the same manner as that given of the regular sale.

446.19 County or city as purchaser.

When a parcel is offered at a tax sale under section 446.18, and no bid is received, or if the bid received is less than the total amount due, the county in which the parcel is located, through its county treasurer, shall bid for the parcel a sum equal to the total amount due. Money shall not be paid by the county or other tax-levying or tax-certifying body for the purchase, but each of the tax-levying and tax-certifying bodies having any interest in the taxes shall be charged with the total amount due. Money shall not be paid by the county or other tax-levying or tax-certifying body for the purchase, but each of the tax-levying and tax-certifying bodies having any interest in the taxes shall be charged with the total amount due the tax-levying or tax-certifying body as its just share of the purchase price.

This section does not prohibit a governmental agency or political subdivision from bidding at the sale for a parcel to protect its interests. When a bid is received from a city in which the parcel is located, money shall not be paid by the city, but each of the tax-levying and tax-certifying bodies having any interest in the taxes shall be charged with the total amount due the tax-levying or tax-certifying body as its just share of the purchase price.

446.19A Purchase by county or city for use as housing.

1. The board of supervisors of a county may adopt an ordinance authorizing the county and each city in the county to bid on and purchase delinquent taxes and to assign tax sale certificates of abandoned property. This section may only be used by a county or by a city in the county if such an ordinance is in effect.

2. On the day of the regular tax sale or any continuance or adjournment of the tax sale, the county or a city may bid for abandoned property assessed as residential property or as commercial multifamily housing property a sum equal to the total amount due. Money shall not be paid by the county or city for the purchase, but each of the tax-levying and tax-certifying bodies having any interest in the taxes shall be charged with the total amount due the tax-levying or tax-certifying body as its just share of the purchase price. Prior to the purchase, the county or city shall file with the county treasurer a verified statement that a parcel to be purchased is abandoned and deteriorating in condition or is, or is likely to become, a public nuisance, and that the parcel is suitable for use as housing following rehabilitation.

3. If after the date that a parcel is sold pursuant to this chapter, or after the date that a parcel is sold under section 446.18, 446.38, or 446.39, the parcel assessed as residential property or as commercial multifamily housing property is identified as abandoned pursuant to a verified statement filed with the county treasurer by a city or county in the form set forth in subsection 2, a city or county may require the assignment of the tax sale certificate that had been issued for such parcel by paying to the holder of such certificate the total amount due on the date the assignment of the certificate is made to the county or city and recorded with the county treasurer. If the certificate is not assigned by the county or city pursuant to subsection 4, the county or city, whichever is applicable, is liable for the tax sale interest that was due the certificate holder pursuant to section 447.1, as of the date of assignment.

4. a. The city or county may assign the tax sale certificate obtained pursuant to this section. Persons who purchase certificates from the city or county under this subsection are liable for the total amount due the certificate holder pursuant to section 447.1.

b. All persons who purchase certificates from the city or county under this subsection shall demonstrate the intent to rehabilitate the property for habitation if the property is not redeemed. In the alternative, the county or city may, if title to the property has vested in the county or city under section 448.1, dispose of the property in accordance with section 331.361 or 364.7, as applicable.

5. For the purposes of this section, “abandoned” means the same as in section 657A.1.

446.20 Remedies.

1. Without limiting the county’s rights under section 445.3, once a certificate is issued to a county, a county may collect the total amount due by the alternative remedy provided in section 445.3 by converting the total amount due to a personal judgment. Entrance of the judgment shall be shown on the county system. Collection of the judgment may then be initiated as provided in section 445.4. The county attorney shall, upon request of the county treasurer, assist in prosecution of action for collection of the total amount due.

2. The remedies associated with tax sale and personal judgment may be simultaneously pursued until such time as the total amount due has been collected or otherwise discharged. If the total amount due is collected pursuant to a personal judgment, the tax sale shall be canceled by the treasurer. If a tax deed is issued, any personal judgment shall be released and a satisfaction of judgment shall be filed with the clerk of the appropriate district court.

446.21 Assignment of certificate to bondholder.

In tax sales made under section 446.19, a holder of a special assessment certificate against a parcel, a holder of a bond payable in whole or in part out of a special assessment against a parcel, or a city within which a parcel is situated, which parcel has been sold, is entitled to an assignment of any certificate of tax sale of the parcel, upon tender to the holder or to the county treasurer of the amount to which the holder of the tax sale certificate would be entitled in case of redemption.

446.22 Repealed by 79 Acts, ch 68, § 19.

446.23 Resale.

The person purchasing a tax sale certificate against any parcel shall immediately pay to the county treasurer the total amount bid. Upon failure to do so the parcel is again offered as if no such sale had been made. These payments may be made in the funds receivable in payment of taxes.

446.24 Record of sales.

The county treasurer or a designee shall attend all tax sales and keep a record in the county system of the sales, describing each parcel on which the total amount due was paid by the purchaser, as they are described in the copy of the notice on file in the treasurer’s office. The county system shall include a statement of the amount, kind of tax, interest, fees, and costs for each parcel, to whom sold, and the date of sale.

446.25 Sale adjourned.

When all the parcels advertised for sale have been offered and parcels remain unsold for want of bidders, the county treasurer shall adjourn the
sale to some day not exceeding two months from adjournment, due notice of which day shall be given at the time of adjournment, and by keeping the notice posted in a conspicuous place in the treasurer's office. Further notice is not necessary. On the day fixed by the adjournment, the same proceedings shall occur as in the first instance. Further adjournments shall be made, not exceeding intervals of two months, and the sales continue until the next regular annual sale or until all the parcels are sold.

compromise the total amount due and assign the certificate. An assignment or a compromise and assignment shall be by written agreement. A copy of the agreement shall be filed with the treasurer. For each assignment transaction, the treasurer shall collect from the assignee an assignment transaction fee of ten dollars to be deposited in the county general fund. The assignment transaction fee shall not be added to the amount necessary to redeem. All money received from the assignment of county-held certificates of purchase shall be apportioned to the tax-levying and certifying bodies in proportion to their interests in the taxes for which the parcel was sold with all interest, fees, and costs deposited in the county general fund. After assignment of a certificate of purchase which is held by the county, section 446.37 applies. In that instance, the three-year requirement shall be calculated from the date the assignment is recorded by the treasurer in the county system. When the assignment is entered and the assignment transaction fee is paid, all of the rights and title of the assignor shall vest in the assignee or assignees. The statement in the treasurer’s deed of the fact of the assignment is presumptive evidence of that fact.

In all cases where the real estate is mortgaged or otherwise encumbered to the school, agricultural college, or university fund, the interest of the person who holds the fee shall alone be sold for taxes, and in no case shall the lien or interest of the state be affected by any sale thereof. The probate court shall prescribe the manner and notices to be given. The probate court shall order the parcel conveyed to the county for satisfaction of the suspended taxes if an estate is not opened within a time specified by the court. The probate court shall make and enter all appropriate orders to effect this conveyance to the county if an estate is not opened within the time specified. The parcel, at the election of the county treasurer, may be offered at tax sale in accordance with this chapter in lieu of the county making application to the probate court.

Other information may be included. Upon proper filing of the statement, and if the parcel is offered at a tax sale and no bid is received, or if the bid received is less than the total amount due, the city, county, city or county agency, or Iowa finance authority may bid for the parcel for use in an Iowa homesteading project, bidding a sum equal to the total amount due. Each of the tax-levying and tax-certifying bodies having an interest in the taxes for which the parcel is sold shall be charged with its proportionate share of the purchase price.

§447.9 Notice of expiration of right of redemption — county right of redemption.

1. After one year and nine months from the date of sale, or after nine months from the date of a sale made under section 446.18 or 446.39, or after three months from the date of a sale made under section 446.19A, the holder of the certificate of purchase may cause to be served upon the person in possession of the parcel, and also upon the person in whose name the parcel is taxed, a notice signed by the certificate holder or the certificate holder’s agent or attorney, stating the date of sale, the description of the parcel sold, the name of the purchaser, and that the right of redemption will expire and a deed for the parcel be made unless redemption is made within ninety days from the date of the notice by certified mail to the person’s last known address and such service is deemed completed when the notice by certified mail is deposited in the mail and postmarked for delivery. The ninety-day redemption period begins as provided in section 447.12. When the notice is given by a county as a holder of a certificate of purchase the notice shall be signed by the county treasurer or the county attorney, and when given by a city, it shall be signed by the city officer designated by resolution of the council. When the notice is given by the Iowa finance authority or a city or county agency holding the parcel as part of an Iowa homesteading project, it shall be signed on behalf of the agency or authority by one of its officers, as authorized in rules of the agency or authority.

2. Service of the notice shall be made by mail on any mortgagee having a lien upon the parcel, a vendor of the parcel under a recorded contract of sale, a lessor who has a recorded lease or recorded memorandum of a lease, and any other person who has an interest of record, at the person’s last known address. The notice shall be served on any city where the parcel is situated. Notice shall not be served after the filing of the affidavit required by section 447.12. Only those persons who are required to be served the notice of expiration as provided in this section or who have acquired an interest in or possession of the parcel subsequent to the filing of the notice of expiration of the right of redemption are eligible to redeem a parcel from tax sale.

3. The county in which the parcel is located has the right of redemption for owner-occupied residential parcels as provided in this subsection. If a person is unable to contribute to the public revenue, the person may file a petition, duly sworn to, with the board of supervisors, stating that fact and giving a statement of parcels, as defined in section 445.1, owned or possessed by the petitioner, and other information as the board may require. The board of supervisors may order the county auditor to redeem a parcel owned or possessed by the petitioner from the holder of a certificate of purchase upon payment by the county to the certificate holder of the amount necessary to redeem under section 447.1. Each of the tax-levying and tax-certifying bodies having any interest in the taxes shall be charged with the total amount due the tax-levying or tax-certifying body as its just share of the purchase price, and that amount shall be deducted from the next month’s disbursement made by the county to the tax-levying or tax-certifying body. Interest paid by the county to the certificate holder pursuant to section 447.1 shall be paid solely by the county and shall not be charged against the other tax-levying and tax-certifying bodies. Taxes charged and paid by the tax-levying or tax-certifying body in this manner shall be treated as suspended taxes pursuant to sections 427.8 through 427.12. Notwithstanding section 447.14, a county may redeem pursuant to this subsection for tax sales held before, on, or after July 1, 1998. A county may limit the number of times a taxpayer may file a petition for assistance under this subsection.

447.10 Service by publication — fees.

If notice in accordance with section 447.9 cannot be served upon a person entitled to notice in the manner prescribed in that section, then the holder of the certificate of purchase shall cause the required notice to be published once in an official newspaper in the county. If service is made by publication, the affidavit required by section 447.12 shall state the reason why service in accordance with section 447.9 could not be made. Service of notice by publication shall be deemed complete on the day of the publication. Fees for publication, if required under section 447.13, shall not exceed the customary publication fees for official

The certificate holder or the holder’s agent shall report in writing to the treasurer the amount of authorized costs incurred, and the treasurer shall file the statement. Costs not filed with the treasurer before a redemption is complete shall not be collected by the treasurer and may be recovered through a court action against the parcel owner by the certificate holder. If the parcel is held by a city or county, a city or county agency, or the Iowa finance authority, for use in an Iowa homesteading project, whether or not the parcel is the subject of a conditional conveyance granted under the project, the costs incurred for repairs and rehabilitation work required and undertaken in order to make the parcel meet applicable building or housing code standards shall be added to the amount necessary to redeem.

1. For purposes of this chapter, unless the context otherwise requires:
   a. “Internal Revenue Code” means the same as defined in section 422.3.
   b. “Person” includes plural as well as singular, and artificial as well as natural persons.
   c. “Personal representative” means an administrator, executor, or trustee as each is defined in section 633.3.
   d. “Real estate or real property” for the purpose of appraisal under this chapter means real estate which is the land and appurtenances, including structures affixed thereto.
   e. “Stepchild” means the child of a person who was married to the decedent at the time of the decedent’s death, or the child of a person to whom the decedent was married, which person died during the marriage to the decedent.
   f. This chapter shall not be construed to confer upon a county attorney authority to represent the state in any case, and the county attorney shall represent the department of revenue only when specially authorized by the department to do so.

450.2 Taxable estates and property.  
The following estates and property and any interest in or income from any of the following estates and property, which pass from the decedent owner in any manner described in this chapter, are subject to tax as provided in this chapter:
1. Real estate and tangible personal property located in this state regardless of whether the decedent was a resident of this state at death.
2. Intangible personal property owned by a decedent domiciled in this state.

450.3 Property included.  
The tax hereby imposed shall be collected upon the net market value and shall go into the general fund of the state to be determined as herein provided, of any property passing as follows:
1. By will or under the statutes of inheritance of this or any other state or country.
2. By deed, grant, sale, gift, or transfer made within three years of the death of the decedent or donor, which is not a bona fide sale for an adequate and full consideration in money or money’s worth and which is in excess of the annual gift tax exclusion allowable for each donee under section 2503, subsections (b) and (e), of the Internal Revenue Code. If both spouses consent, a gift made by one spouse to a person who is not the other spouse is considered, for the purposes of this subsection, as made one half by each spouse under the same terms and conditions provided for in section 2513 of the Internal Revenue Code. The net market value of a transfer described in this subsection shall be the net market value determined as of the date of the transfer.
3. By deed, grant, sale, gift or transfer made or intended to take effect in possession or enjoyment after the death of the grantor or donor. A transfer of property in respect of which the transferor reserves to the transferor a life income or interest which is in excess of the entire income or interest, the transferor shall be deemed taxable thereunder only to the extent of a like proportion of the value of the property transferred.
4. To the extent of any property with respect to which the decedent has at the time of death a general power of appointment, or with respect to which the decedent has within three years of death exercised or released a general power of appointment by a disposition which is of a nature that if it were a transfer of property owned by the decedent, the property would be includable in the decedent’s gross estate under this section whether the general power was created before or after the taking effect of this chapter. A transfer involving creation of a general power of appointment shall be treated as a transfer of a fee or equivalent interest in the property subject thereto to the donee of the power. Any transfer involving creation of any other power of appointment shall be treated, except when an election is made under subsection 7, as the transfer of a life estate or term of years in the property subject thereto to the donee of the
power and as the transfer of the remainder interests to those who would take if the power is not exercised.

5. Property which is held in joint tenancy by the decedent and any other person or persons or any deposit in banks, or other institution in their joint names and payable to either or to the survivor, except such part as may be proven to have belonged to the survivor; or any interest of a decedent in property owned by a joint stock or other corporate body whereby the survivor or survivors become beneficially entitled to the decedent’s interest upon the death of a shareholder. However, if such property is so held by the decedent and the surviving spouse as the only co-owners, one half of such property is not subject to taxation under the provisions of this chapter, but if the surviving spouse proves that the surviving spouse contributed to acquisition of such property an amount, in money or other property, greater than one half of the cost of the property held in joint tenancy, the portion of such property which is not subject to taxation under the provisions of this chapter shall be the proportion which the actual contribution by the surviving spouse is of the total contribution to acquisition of such property. The tax imposed upon the passing of property under the provisions of this subsection shall apply to property held under all such contracts or agreements whether made before or after the taking effect of this chapter.

6. When the decedent shall have disposed of the decedent’s estate in any manner to take effect at the decedent’s death with a request secret or otherwise that the beneficiary give, pay to, or share the property or any interest therein received from the decedent, with other person or persons, or to so dispose of beneficial interests conferred by the decedent upon the beneficiaries as that the property so passing would be taxable under the provisions of this chapter if passing directly by will or deed from the decedent owner to those to receive the gift from the beneficiary, compliance with such request shall constitute a transfer taxable under the provisions of this chapter, at the highest rate possible in like cases of transfers by will or deed.

7. Which qualifies as a qualified terminable interest property as defined in section 2056(b)(7)(B) of the Internal Revenue Code, shall, if an election is made, be treated and considered as passing in fee, or its equivalent, to the surviving spouse in the estate of the donor-grantor. Property on which the election is made shall be included in the gross estate of the surviving spouse and shall be deemed to have passed in fee from the surviving spouse to the persons succeeding to the remainder interest, unless the property was sold, distributed, or otherwise disposed of prior to the death of the surviving spouse. A sale, disposition, or disposal of the property prior to the death of the surviving spouse shall void the election, and shall subject the property disposed of, less amounts received or retained by the surviving spouse, to tax in the donor-grantor’s estate in the same manner as if the tax had been deferred under sections 450.44 through 450.49.

Unless the will or trust instrument provides otherwise, the estate of the surviving spouse shall have the right to recover from the persons succeeding to the remainder interests, the additional tax imposed, if any, without interest, on the surviving spouse by reason of the election being made. The amount of tax recovered, if any, shall be a credit in the donee’s estate against the tax imposed on the qualified terminable interest property.

An election under this subsection can only be made if an election in relation to the qualified terminable interest property is also made for federal estate tax purposes.

The director of revenue shall adopt and promulgate all rules necessary for the enforcement and administration of this subsection including the form and manner of making the election.

450.4 Exemptions.

The tax imposed by this chapter shall not be collected:

1. When the entire estate of the decedent does not exceed the sum of twenty-five thousand dollars after deducting the liabilities, as defined in this chapter.

2. When the property passes for a charitable, educational, or religious purpose as defined in sections 170(c) and 2055 of the Internal Revenue Code.

3. When the property passes to public libraries or public art galleries within this state, open to the public and not operated for gain, or to hospitals within this state, or to trustees for such uses within this state, or to municipal corporations for purely public purposes.

4. On bequests for the care and maintenance of the cemetery or burial lot of the decedent or the decedent’s family, and bequests not to exceed five hundred dollars in any estate of a decedent for the performance of a religious service or services by some person regularly ordained, authorized, or licensed by some religious society to perform such service, which service or services are to be performed for or in behalf of the testator or some person named in the testator’s last will.

5. On the value of that portion of any lump sum or installment payments which will be includable
as net income as defined in section 422.7 as received by a beneficiary under an annuity which was purchased under an employee's pension or retirement plan.

6. On property in an individual development account in the name of the decedent that passes to another individual development account or the state human investment reserve pool created in section 541A.4. For purposes of this subsection, "individual development account" means an account that has been certified as an individual development account pursuant to chapter 541A.

2. However, this section does not apply and a return is not required to be filed even though real estate is part of the assets subject to tax under this chapter, if all of the assets are held in joint tenancy with right of survivorship between husband and wife alone, or if the estate exclusively consists of property held in joint tenancy with the right of survivorship solely by the decedent and individuals listed in section 450.9 as individuals that are entirely exempt from Iowa inheritance tax and the estate does not have a federal estate tax obligation.
3. However, this section does not apply and a return is not required to be filed, even though real estate is involved, if the estate does not have a federal estate tax filing obligation and if all the estate’s assets are described in any of the following categories:

4. If a return is not required to be filed pursuant to subsection 3, and if real estate is involved, one of the individuals with an interest in, or succeeding to an interest in, the real estate shall file an affidavit in the county in which the real estate is located setting forth the legal description of the real estate and the fact that an inheritance tax return is not required pursuant to subsection 3. If a false affidavit is filed, the affiant and the personal representative shall be jointly and severally liable for any tax, penalty, and interest that may have been due. Any otherwise applicable statute of limitations on the assessment and collection of the tax, penalty, and interest shall not apply.
5. When this section applies, proceedings for the collection of the tax when a personal representative is not appointed shall conform as nearly as possible to proceedings under this chapter in other cases.

In each county, the chief judge of the judicial district for that county shall, on or before January 15 of the year an appointment is required, appoint three competent residents and freeholders of the county to act as appraisers of the real property within its jurisdiction which is charged or sought to be charged with an inheritance tax. The appraisers shall serve for four years, and until their successors are appointed and qualified. They shall each take an oath to faithfully and impartially perform the duties of the office, but shall not be required to give bond. They shall be subject to removal at any time at the discretion of the chief judge of the judicial district for that county. The chief judge may also in the chief judge's discretion, either before or after the appointment of the regular appraisers, appoint other appraisers to act in any given case. When an appraisal of real estate is requested by the department of revenue, as provided in section 450.37, or is otherwise required by this chapter, the clerk shall issue a commission to the appraisers, who shall fix a time and place for appraisement, except that if the only interest that is subject to tax is a remainder or deferred interest upon which the tax is not payable until the determination of a prior estate or interest for life or term of years, the clerk shall not issue the commission until the determination of the prior estate, except at the request of the department of revenue when the parties in interest seek to remove an inheritance tax lien. When valuing the real estate for purposes of inheritance tax, an appraiser does not have the jurisdiction to determine what property or partial interests may or may not be subject to tax. Whole interests in the property should be appraised and the question of the actual property or partial interest subject to inheritance tax is to be determined by means of the administrative procedures pursuant to section 450.94. If the tax is not paid within this time the court shall then order the property, or as much as necessary to pay the tax,
penalty, and interest, to be sold.

§450.47 Life and term estates in personal property.

If an estate or interest for life or term of years in personal property is given to one or more persons other than those exempt by this chapter and the remainder or deferred estate to others, the property devised or conveyed shall be valued under section 450.37 as provided in ordinary estates and the value of the estates or interests devised or conveyed shall be determined as provided in section 450.51, and the tax upon the estates or interests liable for the tax shall be paid to the department of revenue from the property valued or by the persons entitled to the estate or interest on or before the last day of the tenth month after the death of the testator, grantor, or donor. However, payment of the tax upon a deferred estate or remainder interest may be deferred until the determination of the prior estate by the giving of a good and sufficient bond as provided in section 450.48.

§450.48 Payment deferred — bond.

When in case of deferred estates or remainder interests in personal property or in the proceeds of any real estate that may be sold during the term of a life, term, or prior estate, the persons interested who may desire to defer the payment of the tax until the determination of the prior estate, shall file with the clerk of the proper district court a bond as provided herein in other cases, such bond to be renewed every two years until the tax upon such deferred estate is paid. If at the end of any two-year period the bond is not promptly renewed as herein provided and the tax has not been paid, the bond shall be declared forfeited, and the amount thereof forthwith collected. When the estate of a decedent consists in part of real and in part of personal property, and there be an estate for life or for a term of years to one or more persons and a deferred or remainder estate to others, and such deferred or remainder estate is in whole or in part subject to the tax imposed by this chapter, if the deferred or remainder estates or interests are so disposed that good and sufficient security for the payment of the tax for which such deferred or remainder estates may be liable can be had because of the lien imposed by this chapter upon the real property of such estate, then payment of the tax upon such deferred or remainder estates may be postponed until the determination of the prior estate without giving bond as herein required to secure payment of such tax, and the tax shall remain a lien upon such real estate until the tax upon such deferred estate or interest is paid.

§450.49 Bonds — conditions.

All bonds required by this chapter shall be payable to the department of revenue and shall be conditioned upon the payment of the tax, interest, and costs for which the estate may be liable, and for the faithful performance of all the duties hereby imposed upon and required of the person whose acts are by such bond to be guaranteed, and shall be in an amount equal to twice the amount of the tax, interest, and costs that may be due, but in no case less than five hundred dollars, and must be secured by not less than two resident freeholders or by a fidelity or surety company authorized by the commissioner of insurance to do business in this state.

§450.50 Removal of property from state — bond.

It shall be unlawful for any person to remove from this state any property, or the proceeds thereof, that may be subject to the tax imposed by this chapter, without paying the said tax to the department of revenue. Any person violating the provisions of this section shall be guilty of a serious misdemeanor and upon conviction shall be fined an amount equal to twice the amount of tax, interest, and costs for which the estate may be liable; provided, however, that the penalty hereby imposed shall not be enforced if, prior to the removal of such property or the proceeds thereof, the person desiring to effect such removal files with the clerk a bond conditioned upon the payment of the tax, interest, and costs, as is provided in section 450.49 hereof.

§450.51 Annuities — life and term estates.

The value of any annuity, deferred estate, or interest, or any estate for life or term of years, subject to inheritance tax shall be determined for the purpose of computing the tax by the use of current, commonly used tables of mortality and actuarial principles pursuant to regulations prescribed by the director of revenue. The taxable value of annuities, life or term, deferred, or future estates, shall be computed at the rate of four percent per annum of the established value of the property in which the estate or interest exists or is founded.

This paragraph does not apply if a return is not required to be filed pursuant to subsection 1, paragraph "b".

   b. If a false affidavit is filed, the affiant and the personal representative shall be jointly and severally liable for any tax, penalty, and interest that may have been due. Any otherwise applicable statute of limitations on the assessment and collection of the tax, penalty, and interest shall not apply.

The decision of the director is final unless the appellant seeks judicial review of the director’s decision under section 450.59 within sixty days after the date of the notice of the director’s decision.

4. Payments received must be credited first to the penalty and interest accrued and then to the tax due.

5. The amount of tax imposed under this chapter shall be assessed according to one of the following:

a. Within three years after the return is filed with respect to property reported on the final inheritance tax return.

b. At any time after the tax became due with respect to property not reported on the final inheritance tax return, but not later than three years after the omitted property is reported to the department on an amended return or on the final inheritance tax return if one was not previously filed.

In addition to the applicable periods of limitations for examination and determination specified in paragraphs “a” and “b”, the department may make an examination and determination at any time within six months from the date of receipt by the department of written notice from the taxpayer of the final disposition of any matter between the taxpayer and the internal revenue service or the department of written notice from the taxpayer of the final disposition of any matter between the department and the IRS or the department’s receipt of a claim for refund or allowance of tax.

450.97 Joint owners of bank accounts — duty to notify department of revenue.

No person, bank, credit union, or savings and loan association shall permit the withdrawal of funds from a joint account by a surviving joint owner without first notifying the department of revenue of the balance in such account at the date of decedent’s death and the name and address of the surviving joint owner. Such notification may be accomplished by mailing the required information to the department of revenue and withdrawal or payment of such funds may be made immediately thereafter as long as such mailing is accomplished by ordinary mail no later than the date of withdrawal or earlier if knowledge of the decedent’s death is known by the depository. When an estate, devise, or legacy can be divested by the act or omission of the legatee or devisee, it shall be taxed as if there were no possibility of the divesting. When a devise, bequest, or transfer is one in part contingent, and in part vested so that the beneficiary will come into possession and enjoyment of a portion of the inheritance on or before the happening of the event upon which the possible defeating contingency is based, a tax shall be imposed and collected upon the bequest or transfer as upon a vested interest, at the highest rate possible under this chapter if no contingency existed; provided that if the contingency reduces the value of the estate or interest taxed, and the amount of tax paid is in excess of the tax for which the bequest or transfer is liable upon the removal of the contingency, the excess shall be refunded as provided in sections 450.94 and 450.95 in other cases.

450.97 Joint owners of bank accounts — duty to notify department of revenue.

9. “Transferor”, “trust”, “trustee” and “interest” mean the same as those respective terms are defined in section 2652 of the Internal Revenue Code.

450A.2 Imposition of tax.
A tax is imposed on the transfer of any property, included in a generation skipping transfer, other than a direct skip, occurring at the same time and as a result of the death of an individual, in an amount equal to the maximum federal credit allowable under section 2604 of the Internal Revenue Code, for the generation skipping transfer tax actually paid to the state in respect of any property included in the generation skipping transfer.

Where the transferor is a resident of Iowa and all property included in a generation skipping transfer that is subject to tax under this section has a situs in Iowa, or is subject to the jurisdiction of the courts of Iowa, an amount equal to the total credit as allowed under the Internal Revenue Code shall be paid to the state of Iowa. Where the transferor is a nonresident or where the property included in a generation skipping transfer that is subject to tax under this section has a situs outside the state of Iowa and not subject to the jurisdiction of Iowa courts, the tax shall be prorated on the basis that the value of Iowa property included in the generation skipping transfer bears to the total value of property included in the generation skipping transfer.

450A.3 Value of property.
The value of property, included in a generation skipping transfer, shall be the same as determined for federal generation skipping transfer tax purposes under the Internal Revenue Code.

450A.4 Payment of the tax.
The tax imposed by this chapter shall be paid on or before the last day of the ninth month after the death of the individual whose death is the event causing the generation skipping transfer which is eligible for the credit for state taxes paid under section 2604 of the Internal Revenue Code.

450A.5 Liability for the tax.
The transferee of the property included in a generation skipping transfer shall be personally liable for the tax to the extent of its value, determined under section 2624 of the Internal Revenue Code as of the time of the generation skipping transfer. If the tax is attributable to a taxable termination, as defined in section 2612(a) of the Internal Revenue Code, the trustee and the transferee shall be personally liable for the tax to the ex-
450A.6 Lien of the tax.
The tax imposed by this chapter shall be a lien on the property subject to the tax for a period of ten years from the time the generation skipping transfer occurs. Full payment of the tax, penalty and interest due shall release the lien and discharge the transferee and trustee of personal liability. Unless the lien has been perfected by recording, a transfer by the transferee or the trustee to a bona fide purchaser for value shall divest the property of the lien. If the lien is perfected by recording, the rights of the state under the lien have priority over all subsequent mortgages, purchases or judgment creditors. The department may release the lien prior to the payment of the tax due if adequate security for payment of the tax is given.

87 Acts, 1st Ex, ch 1, §22

450A.7 Disposal of tax.
The proceeds of the tax shall be credited to the general fund of the state.

[C79, 81, §450A.7]

450A.8 Returns.
It shall be the duty of the persons liable for the payment of the tax to file a return with the department, in such form as the director may prescribe, containing sufficient information to enable the department to determine the maximum federal credit allowable for the payment of the tax imposed by this chapter. A copy of the federal return filed for the purpose of paying the generation skipping transfer tax shall be submitted to the department at the time the Iowa return is filed. Copies of all amended or supplemental returns shall be submitted to the department at the time such returns are filed with the internal revenue service.

[C79, 81, §450A.8]

450A.9 Delinquent returns.
If the tax imposed by this chapter is not paid within the time prescribed by law, the tax is delinquent and shall draw interest thereafter at the rate in effect under section 421.7 until paid.

[C79, 81, §450A.9; 81 Acts, ch 131, §18]

450A.10 Director to enforce collection.
It shall be the duty of the director to enforce collection of the tax imposed by this chapter and shall with all the rights of a party in interest, represent the state in any proceedings to collect the tax. The director shall have the power to bring suit against any person liable for the payment of the tax, penalty, interest and costs and may foreclose the lien of the tax in the same manner as is now prescribed for the foreclosure of real estate mortgages and upon judgment may cause execution to be issued to sell so much of the property necessary to satisfy the tax, penalty, interest and costs due.

87 Acts, 1st Ex, ch 1, §23

450A.11 Duty to claim maximum credit.
It shall be the duty of any person liable for the payment of the tax to claim the maximum federal credit allowable for that portion of the state generation skipping transfer tax paid in respect of any property included in a taxable generation skipping transfer. Claiming on a federal return a sum less than the maximum federal credit allowable shall not relieve any person liable for the tax of the duty to pay the tax imposed under this chapter.

If an amended or supplemental return is filed with the internal revenue service which results in a change in the amount of tax owing under this chapter, the persons liable for the payment of the tax shall submit an amended return, on forms prescribed by the director, indicating the amount of the tax then owing as a result of such change.

If any federal generation skipping transfer tax has been paid before the enactment of this chapter, the persons liable for the payment of the tax under this chapter shall file an amended federal return claiming the maximum federal credit allowable and file the Iowa returns specified in section 450A.8 within six months after the enactment of this chapter or within the time limit provided in section 450A.4 whichever is the later.

[C79, 81, §450A.13]

QUALIFIED USE INHERITANCE TAX

450B.1 Definitions.
As used in this chapter, unless the context otherwise requires:
1. “Internal Revenue Code” means the same as defined in section 422.3.
2. “Qualified real property”, “qualified use”, “cessation of qualified use”, and “qualified heir” mean the same as defined in section 2032A of the Internal Revenue Code.
3. “Taxpayer” means a qualified heir liable for the inheritance tax imposed under chapter 450 on qualified real property.
4. For purposes of subsection 1, the Internal Revenue Code shall be interpreted to include the provisions of Pub. L. No. 98-4.

81 Acts, ch 147, §12

450B.2 Alternate election of value for qualified use.
Notwithstanding section 450.37, the value of qualified real property for the purpose of the tax imposed under chapter 450 may, at the election of the taxpayer, be its value for the use under which it qualifies as prescribed by section 2032A of the Internal Revenue Code. A taxpayer may make an election under this section only if all of the following conditions are met:
1. An election for federal estate tax purposes was made with regard to the qualified real property under section 2032A of the Internal Revenue Code.
2. All persons who signed the agreement referred to in section 2032A(d)(2) of the Internal Revenue Code make the election under this section and sign an agreement with the department of revenue consenting to the application of section 450B.3 with respect to the qualified real property.
3. The total decrease in the value of the qualified real property as a result of the election under this section does not exceed the dollar limitation specified in section 2032A(a)(2) of the Internal Revenue Code.

The election under this section shall be made by the taxpayer in the manner as the director of revenue may prescribe by rule. The value for the qualified use under this section shall be the value as determined and accepted for federal estate tax purposes.

The definitions and special rules specified in section 2032A(e) of the Internal Revenue Code shall apply with respect to qualified real property for which an election was made under this section except that rules shall be prescribed by the director of revenue in lieu of the regulations promulgated by the secretary of treasury.

The director shall prescribe regulations setting forth the application of this chapter in the case of an interest in a partnership, corporation, or trust which, with respect to the decedent, is an interest in a closely held business within the meaning of section 6166(b)(1) of the Internal Revenue Code. Such regulations shall conform as nearly as possible with the regulations promulgated by the United States secretary of treasury in respect to such interests.

81 Acts, ch 147, §13
88 Acts, ch 1028, §40; 2003 Acts, ch 145, §286

450B.3 Additional inheritance tax applicable.
There is imposed upon the qualified heir an additional inheritance tax if, within ten years after the decedent’s death and before the death of the qualified heir, the qualified heir disposes of, other than to a member of the family, any interest in qualified real property for which an election under section 450B.2 was made or ceases to use for the qualified use the qualified real property for which an election under section 450B.2 was made as prescribed in section 2032A(e) of the Internal Revenue Code. The additional inheritance tax shall be the amount computed under section 450B.5 and...
shall be due six months after the date of the disposition or cessation of qualified use referred to in this section. The amount of the additional inheritance tax shall accrue interest at the rate of ten percent per year from nine months after the decedent's death to the due date of the tax. The tax shall be paid to the department of revenue and shall be deposited into the general fund of the state. Taxes not paid within the time prescribed in this section shall draw interest at the rate of ten percent per annum until paid. There shall not be an additional inheritance tax if the disposition or cessation occurs ten years or more after the decedent’s death.

§450B.4, QUALIFIED USE INHERITANCE TAX

450B.4 Reserved.

§450B.5, QUALIFIED USE INHERITANCE TAX

450B.5 Ratio of applicable tax.

The amount of the additional inheritance tax imposed by section 450B.3 is the excess of what the tax imposed by chapter 450 would have been had the election to use the qualified use valuation under section 450B.2 not been made over the tax paid on the real estate based on qualified use valuation. However, if all of the real estate valued under section 450B.2 is not disposed of or does not cease to be used for the qualified use, the amount of the additional inheritance tax is the amount computed by applying the ratio that the real estate subject to the qualified use valuation which has been disposed of or which the qualified use ceases bears to all the real estate subject to the qualified use valuation passing to the taxpayer to the excess of the tax which would have been imposed by chapter 450 had the election under section 450B.2 not been made over the tax paid on the real estate based on qualified use valuation. However, the additional inheritance tax shall not be computed on a value greater than the fair market value of the qualified real estate at the time the disposition or cessation of the qualified use occurs.

§450B.6 Lien of tax.

A lien is created in favor of the state for the additional inheritance tax which may be imposed by section 450B.3 on the qualified real property for which an election has been made under section 450B.2. The lien created by this section shall continue until the tax has been paid or ten years after the tax is due, whichever date occurs first. However, the lien shall expire ten years after the decedent’s death if the qualified heir has not disposed of or ceased to use for the qualified use the qualified real property which would impose the tax under section 450B.3. The department of revenue may release the lien prior to the payment of the tax due, if any, if adequate security for payment of the tax is given.

Unless the lien has been perfected by recording in the office of the recorder in the county where the estate is probated, a transfer of the qualified real property to a bona fide purchaser for value shall divest the property of the lien. If the lien is perfected by recording, the rights of the state under the lien have priority over all subsequent mortgagees, purchasers or judgment creditors. The lien may be foreclosed by the director of revenue in the same manner as is now prescribed for the foreclosure of real estate mortgages and upon judgment, execution shall be issued to sell as much of the property necessary to satisfy the tax, interest and costs due.

§450B.7 Other inheritance tax laws applicable.

All the provisions of chapter 450 with respect to the payment, collection and administration of the inheritance tax imposed under that chapter, including the confidentiality of the tax return, are applicable to the provisions of this chapter to the extent consistent. The director of revenue shall adopt and promulgate all rules necessary for the enforcement and administration of this chapter.

19. “Motor fuel” means both of the following:
   a. All products commonly or commercially known or sold as gasoline, including ethanol blended gasoline, casinghead, and absorption or natural gasoline, regardless of the products’ classifications or uses, and including transmix which serves as a buffer between fuel products in the pipeline distribution process.
   b. Any liquid advertised, offered for sale, sold for use as, or commonly or commercially used as a fuel for propelling motor vehicles which, when subjected to distillation of gasoline, naphtha, kerosene and similar petroleum products [ASTM (American society for testing and materials) international designation D-86], shows not less than ten per centum distilled (recovered) below three hundred forty-seven degrees Fahrenheit (one hundred seventy-five degrees Centigrade) or naphthas and solvents unless the liquefied gases or naphthas and solvents are used as a component in the manufacture, compounding, or blending of a liquid within paragraph “b”, in which event the resulting product shall be deemed to be motor fuel.

20. “Naphthas and solvents” shall mean and include those liquids which come within the distillation specifications for motor fuel set out under subsection 19, paragraph “b”, but which are designed and sold for exclusive use other than as a fuel for propelling motor vehicles.

Kerosene shall not be considered to be a special fuel, unless blended with other special fuels for use in a motor vehicle with a diesel engine.

26. “Supplier” means a person who acquires motor fuel or special fuel by pipeline or marine vessel from a state, territory, or possession of the United States, or from a foreign country for storage at and distribution from a terminal and who is registered under 26 U.S.C. § 4101 for tax-free transactions in gasoline, a person who produces in this state or acquires by truck, railcar, or barge for storage at and distribution from a terminal, alcohol or alcohol derivative substances, or a person who produces, manufactures, or refines motor fuel or special fuel in this state. “Supplier” includes a person who does not meet the jurisdictional connection to this state but voluntarily agrees to act as a supplier for purposes of collecting and reporting the motor fuel or special fuel tax. “Supplier” does not include a retail dealer or wholesaler who merely blends alcohol with gasoline before the sale or distribution of the product or a terminal operator who merely handles, in a terminal, motor fuel or special fuel consigned to the terminal operator.

27. “Terminal” means a motor fuel or special fuel storage and distribution facility that is sup-
plied by a pipeline or a marine vessel and from which the fuel may be removed at a rack. "Terminal" does not include a facility at which motor fuel or special fuel blend stocks and additives are used in the manufacture of products other than motor fuel or special fuel and from which no motor fuel or special fuel is removed.

28. "Terminal operator" means the person who by ownership or contractual agreement is charged with the responsibility for, or physical control over, and operation of a terminal. If co-venturers own a terminal, "terminal operator" means the person who is appointed to exercise the responsibility for, or physical control over, and operation of the terminal.

31. "Withdrawn from terminal" means physical movement from a supplier to a distributor or eligible end user and includes an importer going out of state and obtaining fuel from a terminal and the receipt, delivery, or placing of state and obtaining fuel from a terminal and the receipt, delivery, or placing of liquefied petroleum gas by a licensed liquefied petroleum gas user into a fuel supply tank of a motor vehicle while the vehicle is in the state, except that with respect to natural gas used as a special fuel, "use" means the receipt, delivery, or placing of the natural gas into equipment for compressing the gas for subsequent delivery into the fuel supply tank of a motor vehicle.

(1) If the distribution percentage is not greater than seventy percent but not greater than seventy-five percent, the rate shall be nineteen cents for motor fuel other than ethanol blended gasoline.

(2) If the distribution percentage is greater than seventy percent but not greater than eighty percent, the rate shall be nineteen and thirty-three hundredths cents for motor fuel other than ethanol blended gasoline.

(3) If the distribution percentage is greater than eighty percent but not greater than eighty-five percent, the rate shall be nineteen and sixty-seven hundredths cents for motor fuel other than ethanol blended gasoline.

(4) If the distribution percentage is greater than eighty-five percent but not greater than ninety percent, the rate shall be nineteen and nine-tenths cents for motor fuel other than ethanol blended gasoline.

(5) If the distribution percentage is greater than ninety percent but not greater than ninety-five percent, the rate shall be nineteen and twenty-seven hundredths cents for motor fuel other than ethanol blended gasoline.

(6) If the distribution percentage is greater than ninety-five percent but not greater than one hundred percent, the rate shall be nineteen and thirty-three hundredths cents for motor fuel other than ethanol blended gasoline.

452A.3 Levy of excise tax.

1. Except as otherwise provided in this section and in this division, until June 30, 2007, this subsection shall apply to the excise tax imposed on each gallon of motor fuel used for any purpose for the privilege of operating motor vehicles in this state.

a. The rate of the excise tax shall be based on the number of gallons of ethanol blended gasoline that is distributed in this state as expressed as a percentage of the number of gallons of motor fuel distributed in this state, which is referred to as the distribution percentage. The department shall determine the percentage basis for each determination period beginning January 1 and ending December 31. The rate for the excise tax shall apply for the period beginning July 1 and ending June 30 following the end of the determination period.

b. The rate for the excise tax shall be as follows:

(1) If the distribution percentage is not greater than fifty percent, the rate shall be nineteen and nine-tenths cents for motor fuel other than ethanol blended gasoline.

(2) If the distribution percentage is greater than fifty percent but not greater than fifty-five percent, the rate shall be nineteen cents for ethanol blended gasoline and twenty and four-tenths cents for motor fuel other than ethanol blended gasoline.

(3) If the distribution percentage is greater than fifty-five percent but not greater than sixty percent, the rate shall be nineteen cents for ethanol blended gasoline and twenty and three-tenths cents for motor fuel other than ethanol blended gasoline.

(4) If the distribution percentage is greater than sixty percent but not greater than sixty-five percent, the rate shall be nineteen cents for ethanol blended gasoline and twenty cents for motor fuel other than ethanol blended gasoline.

(5) If the distribution percentage is greater than sixty-five percent but not greater than seventy percent, the rate shall be nineteen cents for ethanol blended gasoline and twenty and seven-tenths cents for motor fuel other than ethanol blended gasoline.

(6) If the distribution percentage is greater than seventy percent but not greater than seventy-five percent, the rate shall be nineteen cents for motor fuel other than ethanol blended gasoline.

(7) If the distribution percentage is greater than seventy-five percent but not greater than eighty percent, the rate shall be nineteen and thirty-three hundredths cents for motor fuel other than ethanol blended gasoline.

(8) If the distribution percentage is greater than eighty percent but not greater than eighty-five percent, the rate shall be nineteen and sixty-seven hundredths cents for motor fuel other than ethanol blended gasoline.

(9) If the distribution percentage is greater than eighty-five percent but not greater than ninety percent, the rate shall be nineteen and seventy-three hundredths cents for motor fuel other than ethanol blended gasoline.

(10) If the distribution percentage is greater than ninety percent but not greater than ninety-five percent, the rate shall be nineteen and ninety-eight hundredths cents for motor fuel other than ethanol blended gasoline.
tenths cents for ethanol blended gasoline and twenty and one-tenth cents for motor fuel other than ethanol blended gasoline.

(11) If the distribution percentage is greater than ninety-five percent, the rate shall be twenty cents for ethanol blended gasoline and twenty cents for motor fuel other than ethanol blended gasoline.

1A. Except as otherwise provided in this section and in this division, after June 30, 2007, an excise tax of twenty cents is imposed on each gallon of motor fuel used for any purpose for the privilege of operating motor vehicles in this state.

2. For the privilege of operating aircraft in this state an excise tax of eight cents per gallon is imposed on the use of all aviation gasoline.

3. For the privilege of operating motor vehicles or aircraft in this state, there is imposed an excise tax on the use of special fuel for a motor vehicle or aircraft. The tax rate on special fuel for diesel engines of motor vehicles is twenty-two and one-half cents per gallon. The rate of tax on special fuel for aircraft is three cents per gallon. On all other special fuel, unless otherwise specified in this section, the per gallon rate is the same as the motor fuel tax. Indelible dye meeting United States environmental protection agency and internal revenue service regulations must be added to fuel before or upon withdrawal at a terminal or refinery rack for that fuel to be exempt from tax and the dyed fuel may be used only for an exempt purpose.

3A. For liquefied petroleum gas used as a special fuel, the rate of tax shall be twenty cents per gallon.

4. For compressed natural gas used as a special fuel, the rate of tax that is equivalent to the motor fuel tax shall be sixteen cents per hundred cubic feet adjusted to a base temperature of sixty degrees Fahrenheit and a pressure of fourteen and seventy-three hundredths pounds per square inch absolute.

5. The tax shall be paid by the following:
   a. The supplier, upon the invoiced gross gallonage of all motor fuel or undyed special fuel withdrawn from a terminal for delivery in this state.
   
   Tax shall not be paid when the sale of alcohol occurs within a terminal from an alcohol manufacturer to an Iowa licensed supplier. The tax shall be paid by the Iowa licensed supplier when the invoiced gross gallonage of the alcohol or the alcohol part of ethanol blended gasoline is withdrawn from a terminal for delivery in this state.
   
   b. The person who owns the fuel at the time it is brought into the state by a restrictive supplier or importer, upon the invoiced gross gallonage of motor fuel or undyed special fuel imported.
   
   c. The blender on total invoiced gross gallonage of alcohol or other product sold to be blended with gasoline or special fuel.
   
   d. Any other person who possesses taxable fuel upon which the tax has not been paid to a licensee.

   However, the tax shall not be imposed or collected under this division with respect to motor fuel or special fuel sold for export or exported from this state to any other state, territory, or foreign country.

6. Thereafter, except as otherwise provided in this division, the per gallon amount of the tax shall be added to the selling price of every gallon of such motor fuel or undyed special fuel sold in this state and shall be collected from the purchaser so that the ultimate consumer bears the burden of the tax.

7. All excise taxes collected under this chapter by a supplier, restrictive supplier, importer, dealer, blender, user, or any individual are deemed to be held in trust for the state or Iowa. *"State of Iowa" probably intended; corrective legislation is pending NEW subsection 7

452A.4 Supplier’s, restrictive supplier’s, importer’s, exporter’s, dealer’s, and user’s license.

1. It shall be unlawful for any person to sell motor fuel or undyed special fuel within this state or to otherwise act as a supplier, restrictive supplier, importer, exporter, dealer, or user unless the person holds an uncanceled license issued by the department. To procure a license, a supplier, restrictive supplier, importer, exporter, dealer, or user shall file with the department an application signed under penalty for false certificate setting forth and complying with all of the following:
   a. The name under which the licensee will transact business in this state.
   b. The location, with street number address, of the principal office or place of business of the licensee within this state.
   c. The name and complete residence address of the owner or the names and addresses of the partners, if the licensee is a partnership, or the names and addresses of the principal officers, if the licensee is a corporation or association.
   d. A dealer’s or user’s license shall be required for each separate place of business or location where compressed natural gas or liquefied petroleum gas is delivered or placed into the fuel supply
§452A.4, MOTOR FUEL AND SPECIAL FUEL TAXES

tank of a motor vehicle.

e. An applicant for an exporter’s license shall provide verification as required by the department that the applicant has the appropriate license valid in the state or states into which the motor fuel or undyed special fuel will be exported.

2. a. The department may deny the issuance of a license to an applicant who is substantially delinquent in the payment of a tax due, or the interest or penalty on the tax, administered by the department. If the applicant is a partnership, a license may be denied if a partner owes any delinquent tax, interest, or penalty. If the applicant is a corporation, a license may be denied if any officer having a substantial legal or equitable interest in the ownership of the corporation owes any delinquent tax, interest, or penalty of the applicant corporation.

b. The department may deny the issuance of a license if an application for a license to transact business as a supplier, restrictive supplier, importer, exporter, dealer, or user in this state is filed by a person whose license or registration has been canceled for cause at any time under the provisions of this chapter or any prior motor fuel tax law, if the department has reason to believe that the application is not filed in good faith, or if the application is filed by some person as a subterfuge for the real person in interest whose license or registration has been canceled for cause under the provisions of this chapter or any prior motor fuel tax law. The applicant shall be given fifteen days’ notice in writing of the date of the hearing and shall have the right to appear in person or by counsel and present testimony.

3. a. The application in proper form having been accepted for filing, and the other conditions and requirements of this section and division IV having been complied with, the department shall issue to the applicant a license to transact business as a supplier, restrictive supplier, importer, exporter, dealer, or user in this state. The license shall remain in full force and effect until canceled as provided in this chapter.

b. The license shall not be assignable and shall be valid only for the licensee in whose name it is issued.

c. The department shall keep and file all applications and bonds and a record of all licensees.

452A.6 Ethanol blended gasoline and other products — blender's license.

A person other than a supplier, restrictive supplier, or importer licensed under this division, who blends gasoline with alcohol distilled from cereal grains so that the blend contains at least ten percent alcohol distilled from cereal grains, shall obtain a blender’s license. A person who blends two or more special fuel products or sells one hundred percent biofuel shall obtain a blender’s license. The license shall be obtained by following the procedure under section 452A.4 and the license is subject to the same restrictions as contained in that section. A blender shall maintain records as required by section 452A.10 as to motor fuel, alcohol, ethanol blended gasoline, and special fuels.

452A.7 Foreign suppliers.

The director, upon application, may authorize the collection and reporting of the tax by any supplier not having jurisdictional connections with this state. A foreign supplier shall be issued a license to collect and report the tax and shall be subject to the same regulations and requirements as suppliers having a jurisdictional connection with the state, or other regulations and agreements as prescribed by the director.

452A.8 Tax reports — computation and payment of tax — credits.

1. For the purpose of determining the amount of the supplier’s, restrictive supplier’s, or importer’s tax liability, a supplier or restrictive supplier shall file a return, not later than the last day of the month following the month in which this division
becomes effective and not later than the last day of each calendar month thereafter, and an importer shall file a return semimonthly with the department, signed under penalty for false certification. For an importer for the reporting period from the first day of the month through the fifteenth of the month, the return is due on the last day of the month. For an importer for the reporting period from the sixteenth of the month through the last day of the month, the return is due on the fifteenth day of the following month. The returns shall include the following:

a. A statement of the number of invoiced gallons of motor fuel and undyed special fuel withdrawn from the terminal by the licensee within this state during the preceding calendar month in such detail as determined by the department. This includes on-site blending reports at the terminal.

b. For information purposes only, a supplier, restrictive supplier, or importer shall show the number of invoiced gallons of dyed special fuel withdrawn from the terminal.

c. A statement showing the deductions authorized in this division in such detail and with such supporting evidence as required by the department.

d. Any other information the department may require for the enforcement of this chapter.

e. The gallonage of motor fuel or undyed special fuel withdrawn from the terminal by the licensee during the preceding calendar month or semimonthly period the following deductions shall be made:

(1) The gallonage of motor fuel or undyed special fuel withdrawn from a terminal by a licensee and exported outside Iowa.

(2) For suppliers only, the one and six-tenths percent of the number of gallons of motor fuel or seven-tenths percent of the number of gallons of undyed special fuel of the invoiced gallons of motor fuel or undyed special fuel withdrawn from a terminal within this state during the preceding calendar month.

d. The number of invoiced gallons remaining after the deductions in paragraph "a" shall be multiplied by the per gallon fuel tax rate.

e. The tax due under paragraph "b" shall be the amount of fuel tax due from the supplier, restrictive supplier, or importer for the preceding reporting period. The director may require by rule that the payment of taxes by suppliers, restrictive suppliers, and importers be made by electronic funds transfer. The director may allow a tax float by rule where the eligible purchaser is not required to pay the tax to the supplier until one business day prior to the date the tax is due. A licensed supplier who is unable to recover the tax from an eligible purchaser is not liable for the tax, upon proper documentation, and may credit the amount of unpaid tax against a later remittance of tax. Under this provision, a supplier does not qualify for a credit if the purchaser did not elect to use the eligible purchaser status, or otherwise does not qualify to be an eligible purchaser. To qualify for the credit, the supplier must notify the department of the uncollectible account no later than ten calendar days after the due date for payment of the tax. If a supplier sells additional motor fuel or undyed special fuel to a delinquent eligible purchaser after notifying the department that the supplier has an uncollectible debt with that eligible purchaser, the limited liability provision does not apply to the additional fuel. The supplier is liable for tax collected from the purchaser.

d. The director may require by rule that reports and returns be filed by electronic transmission.

e. The tax for compressed natural gas and liquefied petroleum gas delivered by a licensed compressed natural gas or liquefied petroleum gas dealer for use in this state shall attach at the time of the delivery and shall be collected by the dealer from the consumer as provided in this chapter. The tax, with respect to compressed natural gas and liquefied petroleum gas acquired by a consumer in any manner other than by delivery by a licensed compressed natural gas or liquefied petroleum gas dealer into a fuel supply tank of a motor vehicle, attaches at the time of the use of the fuel and shall be paid over to the department by the consumer as provided in this chapter.

The department shall adopt rules governing the dispensing of compressed natural gas and liquefied petroleum gas by licensed dealers and licensed users. For purposes of this paragraph, "dealer" and "user" mean a licensed compressed natural gas or liquefied petroleum gas dealer or user and "fuel" means compressed natural gas or liquefied petroleum gas. The department shall require that all pumps located at dealer locations and user locations through which liquefied petroleum gas can be dispensed shall be metered, inspected, tested for accuracy, and sealed and licensed by the state department of agriculture and land stewardship, and that fuel delivered into the fuel supply tank of any motor vehicle shall be dispensed only through tested metered pumps and may be sold without temperature correction or corrected to a temperature of sixty degrees. If the metered gallonage is to be temperature-corrected, only a temperature-compensated meter shall be used. Natural gas used as fuel shall be delivered into compressing equipment through sealed meters certified for accuracy by the department of agriculture and land stewardship.
All gallonage which is not for highway use, dispensed through metered pumps as licensed under this section on which fuel tax is not collected, must be substantiated by exemption certificates as provided by the department or by valid exemption certificates provided by the dealers, signed by the purchaser, and retained by the dealer. A “valid exemption certificate provided by a dealer” is an exemption certificate which is in the form prescribed by the director to assist a dealer to properly account for fuel dispensed for which tax is not collected and which is complete and correct according to the requirements of the director.

For the privilege of purchasing liquefied petroleum gas, dispensed through licensed metered pumps, on a basis exempt from the tax, the purchaser shall sign exemption certificates for the gallonage claimed which is not for highway use.

The department shall disallow all sales of gallonage which is not for highway use unless proof is established by the certificate. Exemption certificates shall be retained by the dealer for a period of three years.

1. For the purpose of determining the amount of liability for fuel tax, each dealer and each user shall file with the department not later than the last day of the month following the month in which this division becomes effective and not later than the last day of each calendar month thereafter a monthly tax return certified under penalties for false certification. The return shall show, with reference to each location at which fuel is delivered or placed by the dealer or user into a fuel supply tank of any motor vehicle during the next preceding calendar month, information as required by the department.

2. The amount of tax due shall be computed by multiplying the appropriate tax rate per gallon by the number of gallons of fuel delivered or placed by the dealer or user into supply tanks of motor vehicles.

3. The return shall be accompanied by remittance in the amount of the tax due for the month in which the fuel was placed into the supply tanks of motor vehicles.

4. For the purpose of determining the amount of the tax liability on alcohol blended to produce ethanol blended gasoline or a blend of special fuel products, each licensed blender shall, not later than the last day of each month following the month in which the blending is done, file with the department a monthly return, signed under penalty for false certificate, containing information required by rules adopted by the director.

4. A person who possesses fuel or uses fuel in a motor vehicle upon which no tax has been paid by a licensee in this state is subject to reporting and paying the applicable tax.

§ 452A.8, MOTOR FUEL AND SPECIAL FUEL TAXES

§ 452A.9 Returns from persons not licensed as suppliers, restrictive suppliers, importers, or blenders.

Every person other than a licensed supplier, restrictive supplier, importer, or blender, who purchases, brings into this state, or otherwise acquires within this state motor fuel or undyed special fuel, not otherwise exempted, which the person has knowingly not paid or incurred liability to pay either to a licensee or to a dealer the motor fuel or special fuel tax, shall be subject to the provisions of this division that apply to suppliers, restrictive suppliers, importers, and blenders of motor fuel or undyed special fuel and shall file the same returns and make the same tax payments and be subject to the same penalties for delinquent filing or nonfilinng or delinquent payment or non-payment as apply to suppliers, restrictive suppliers, importers, and blenders.

§ 452A.10 Required records.

A motor fuel or special fuel supplier, restrictive supplier, importer, exporter, blender, dealer, user, common carrier, contract carrier, or terminal shall maintain, for a period of three years, records of all transactions by which the supplier, restrictive supplier, or importer withdraws from a terminal within this state or imports into this state motor fuel or undyed special fuel together with invoices, bills of lading, and other pertinent records and papers as required by the department.

If in the normal conduct of a supplier’s, restrictive supplier’s, importer’s, exporter’s, blender’s, dealer’s, user’s, common carrier’s, contract carrier’s, or terminal’s business the records are maintained and kept at an office outside this state, the records shall be made available for audit and examination by the department at the office outside this state, but the audit and examination shall be without expense to this state.

Each distributor handling motor fuel or special fuel in this state shall maintain for a period of three years records of all motor fuel or undyed special fuel purchased or otherwise acquired by the distributor, together with delivery tickets, invoices, and bills of lading, and any other records required by the department.

The department, after an audit and examina-
tion of records required to be maintained under this section, may authorize their disposal upon the written request of the supplier, restrictive supplier, importer, exporter, blender, dealer, user, carrier, terminal, or distributor.

452A.12 Loading and delivery evidence on transportation equipment.

1. A serially numbered manifest shall be carried on every vehicle, except small tank wagons, while in use in transportation service, on which shall be entered the following information as to the cargo of motor fuel or special fuel being moved in the vehicle: The date and place of loading, the place to be unloaded, the person for whom it is to be delivered, the nature and kind of product, the amount of product, and other information required by the department. The manifest for small tank wagons shall be retained at the home office. The manifest covering each load transported, upon consummation of the delivery, shall be completed by showing the date and place of actual delivery and the person to whom actually delivered and shall be kept as a permanent record for a period of three years. However, the record of the manifest of past cargoes need not be carried on the conveyance but shall be preserved by the carrier for inspection by the department. A carrier subject to this subsection when distributing for a licensee may with the approval of the department substitute the loading and delivery evidence required in subsection 2 for the manifest.

2. A person while transporting motor fuel or undyed special fuel from a refinery or marine or pipeline terminal in this state or from a point outside this state over the highways of this state in service other than that under subsection 1 shall carry in the vehicle a loading invoice showing the name and address of the seller or consignor, the date and place of loading, and the kind and quantity of motor fuel or special fuel loaded, together with invoices showing the kind and quantity of each delivery and the name and address of each purchaser or consignee.

452A.17 Refunds.

1. A person who uses motor fuel or undyed special fuel for any of the nontaxable purposes listed in this subsection, and who has paid the motor fuel or special fuel tax either directly to the department or by having the tax added to the price of the fuel, and who has a refund permit, upon presentation to and approval by the department of a claim for refund, shall be reimbursed and repaid the amount of the tax which the claimant has paid on the gallonage so used, except that the amount of a refund payable under this division may be applied by the department against any tax liability outstanding on the books of the department against the claimant.

a. The refund is allowable for motor fuel or undyed special fuel sold directly to and used for the following:

(1) The United States or any agency or instrumentality of the United States or where collection of the tax would be prohibited by the Constitution of the United States or the laws of the United States or by the Constitution of the State of Iowa.

(2) An Iowa urban transit system which is used for a purpose specified in section 452A.57, subsection 6.

(3) A regional transit system, the state, any of its agencies, any political subdivision of the state, or any benefited fire district which is used for a purpose specified in section 452A.57, subsection 11, or for public purposes, including fuel sold for the transportation of pupils of approved public and nonpublic schools by a carrier who contracts with the public school under section 285.5.

(4) Fuel used in unlicensed vehicles, stationary engines, implements used in agricultural production, and machinery and equipment used for nonhighway purposes.

(5) Fuel used for producing denatured alcohol.

(6) Fuel used for idle time, power takeoffs, reefer units, pumping credits, and transport diversions, fuel lost through casualty, exports by distributors, and blending errors for special fuel. The department shall adopt rules setting forth specific requirements relating to refunds for idle time, power takeoffs, reefer units, pumping credits, and transport diversions, fuel lost through casualty, and blending errors for special fuel.

(7) A bona fide commercial fisher, licensed and operating under an owner’s certificate for commercial fishing gear issued pursuant to section 482.4.

(8) For motor fuel or undyed special fuel placed in motor vehicles and used, other than on a public highway, in the extraction and processing of natural deposits, without regard to whether the motor vehicle was registered under section 321.18. An applicant under this subparagraph shall maintain adequate records for a period of three years beyond the date of the claim.

(9) Undyed special fuel used in watercraft.

(10) Racing fuel.

b. A claim for refund is subject to the following conditions:

(1) The claim shall be on a form prescribed by the department and be certified by the claimant under penalty for false certificate.

(2) The claim shall include proof as prescribed by the department showing the purchase of the motor fuel or undyed special fuel on which a refund is claimed.

(3) An invoice shall not be acceptable in support of a claim for refund unless it is a separate serially numbered invoice covering no more than one purchase of motor fuel or undyed special fuel, prepared by the seller on a form approved by the department which will prevent erasure or alteration and unless it is legibly written with no corrections or erasures and shows the date of sale, the name and address of the seller and of the purchaser, the kind of fuel, the gallonage in figures, the per gallon price of the motor fuel or undyed special fuel, the total purchase price including the Iowa motor fuel or undyed special fuel tax and that the total purchase price including tax has been paid. However, with respect to refund invoices made on a billing
machine, the department may waive any of the requirements of this subparagraph.

(4) The claim shall state the gallonage of motor fuel that was used or will be used by the claimant other than in aircraft, watercraft, or to propel motor vehicles and the gallonage of undyed special fuel that was or will be used by the claimant other than in aircraft or to propel motor vehicles, the manner in which the motor fuel or undyed special fuel was used or will be used, and the equipment in which it was used or will be used.

(5) The claim shall state whether the claimant used fuel for aircraft, watercraft, or to propel motor vehicles from the same tanks or receptacles in which the claimant kept the motor fuel on which the refund is claimed or whether the claimant used fuel for aircraft or to propel motor vehicles from the same tanks or receptacles in which the claimant kept the undyed special fuel on which the refund is claimed.

(6) If an original invoice is lost or destroyed the department may in its discretion accept a copy identified and certified by the seller as being a true copy of the original.

(7) Claim shall be made by and the amount of the refund shall be paid to the person who purchased the motor fuel or undyed special fuel as shown in the supporting invoice unless that person designates another person as an agent for purposes of filing and receiving the refund for idle time, power takeoff, reefer units, pumping credits, and transport diversions. A governmental agency may be designated as an agent for another governmental agency for purposes of filing and receiving the refund under this section.

(8) In order to verify the validity of a claim for refund the department shall have the right to require the claimant to furnish such additional proof of validity as the department may determine and to examine the books and records of the claimant. Failure of a claimant to furnish the claimant’s books and records for examination shall constitute a waiver of all rights to refund related to the transaction in question.

2. In lieu of the refund provided in this section, a person may receive an income tax credit as provided in chapter 422, division IX, but only as to motor fuel not used in motor vehicles, aircraft, or watercraft or as to undyed special fuel not used in motor vehicles or aircraft.

3. a. A claim for refund shall not be allowed unless the claimant has accumulated sixty dollars in credits for one calendar year. A claim for refund may be filed anytime the sixty dollar minimum has been met within the calendar year. If the sixty dollar minimum has not been met in the calendar year, the credit shall be claimed on the claimant’s income tax return unless the taxpayer is not required to file an income tax return in which case a refund shall be allowed. Once the sixty dollar minimum has been met, the claim for refund must be filed within three years following the end of the month in which the earliest invoice is dated.

b. A refund shall not be paid with respect to any motor fuel taken out of this state in supply tanks of watercraft, aircraft, or motor vehicles or with respect to any undyed special fuel taken out of this state in supply tanks of aircraft or motor vehicles.

§452A.18 Refund permit.

A person shall not claim a refund under section 452A.17 or section 452A.21 until the person has obtained a refund permit from the department. A special permit shall be obtained by an applicant claiming a refund under this chapter for motor fuel used to blend ethanol blended gasoline. Application for a refund permit shall be made to the department, shall be certified by the applicant under penalty for false certificate, and shall contain among other things, the name, address, and occupation of the applicant, the nature of the applicant’s business, and a sufficient description for identification of the machines and equipment in which the motor fuel or undyed special fuel is to be used. Each permit shall bear a separate number and each claim for refund shall bear the number of the permit under which it is made. The department shall keep a permanent record of all permits issued and a cumulative record of the amount of refund claimed and paid under each. A refund permit shall continue in effect until it is revoked or becomes invalid.

§452A.19 Revocation of refund permit.

Any refund permit issued under this chapter may be revoked by the department for any of the following violations, but only after the holder of the permit has been given reasonable notice of the intention to revoke the permit and reasonable opportunity to be heard:
§452A.19, MOTOR FUEL AND SPECIAL FUEL TAXES

2. Making a false statement in a claim for refund or in response to an investigation by the department of a claim for refund.
3. Refusal to submit the holder's books and records for examination by the department.

A person whose refund permit is revoked for cause may not obtain another refund permit for a period of one year after the revocation. A refund permit under which a refund is not claimed for a period of three years or a refund permit whose holder has moved from the county in which the holder resided at the time of application for the permit is invalid subject to reinstatement or issuance of a new permit upon application as provided in section 452A.18.

452A.21 Refund — credit.

If, during any month, a person licensed under this division uses tax paid motor fuel to blend ethanol blended gasoline and the refund otherwise due under this section is greater than the licensee's total tax liability for that month, the licensee is entitled to a credit. The claim for credit shall be filed as part of the return required by section 452A.8.

452A.51 Purpose.
The purpose of this division is to provide an additional method of collecting fuel taxes from interstate motor vehicle operators commensurate with their operations on Iowa highways; and to permit the state department of transportation to suspend this collection as to transportation entering Iowa from any other state where it appears that Iowa
highway fuel tax revenue and interstate highway transportation moving out of Iowa will not be unduly prejudiced thereby. Further, all motor vehicle operators from jurisdictions not participating in the international fuel tax agreement are required to comply with this chapter using the guidelines from the international fuel tax agreement for Iowa fuel tax compliance reporting purposes, penalty, interest, refunds, and credential display.

§452A.54, MOTOR FUEL AND SPECIAL FUEL TAXES

Notwithstanding any provision of this chapter to the contrary, except as provided in this section, the holder of a permanent international fuel tax agreement permit or license may make application to the state department of transportation for a refund, not later than the last day of the third month following the quarter in which the overpayment of Iowa fuel tax paid on excess purchases of motor fuel or special fuel was reported as provided in section 452A.8, and which application is supported by such proof as the state department of transportation may require. The state department of transportation shall refund Iowa fuel tax paid on motor fuel or special fuel purchased in excess of the amount consumed by such commercial motor vehicles in their operation on the highways of this state.

Application for a refund of fuel tax under this division must be made for each quarter in which the excess payment was reported, and will not be allowed unless the amount of fuel tax paid on the fuel purchased in this state, in excess of that consumed for highway operation in this state in the quarter applied for, is in an amount exceeding ten dollars. An application for a refund of excess Iowa fuel tax paid under this division which is filed for any period or in any manner other than herein set out shall not be allowed.

To determine the amount of fuel taxes due under this division and to prevent the evasion thereof, the state department of transportation shall require a quarterly report on forms prescribed by the state department of transportation. It shall be filed not later than the last day of the month following the quarter reported, and each quarter thereafter. These reports shall be required of all persons who have been issued a permit or license under this division and shall cover actual operation and fuel consumption in Iowa on the basis of the permit or license holder’s average consumption of fuel in Iowa, determined by the total miles traveled and the total fuel purchased and consumed for highway use by the permittee’s or licensee’s commercial motor vehicles in the permittee’s or licensee’s entire operation in all states to establish an overall miles per gallon ratio, which ratio shall be used to compute the gallons used for the miles traveled in Iowa.

Subject to compliance with rules adopted by the department, annual reporting may be permitted in lieu of quarterly reporting. A licensee permitted to report annually shall maintain records in compliance with this chapter.

§452A.55 Records.

Every person operating within the purview of this division shall make and keep for a period of four years such records as may reasonably be required by the state department of transportation for the administration of this division. If in the normal conduct of the business, the required records are maintained and kept at an office outside the state of Iowa, it shall be a sufficient compliance with this section if the records are made available for audit and examination by the state department of transportation at the office outside Iowa.

The state department of transportation within a period of one year from the issuance of a permanent international fuel tax agreement fuel permit or license may audit the records of the permittee or licensee for the two years preceding the issuance of the permit or license. The state department of transportation shall collect all taxes due had the permittee or licensee been licensed for the two years prior to the issuance of the permit or license and shall refund any overpayment pursuant to section 452A.54. When, as a result of an audit, fuel taxes unpaid and due the state of Iowa exceed five hundred dollars, the audit shall be at the expense of the person whose records are being audited. However, if an audit of records maintained under this section is made outside the state of Iowa in a state which requires payment of the costs for similar audits performed by officials or employees of the other state when made in Iowa, then all costs of audits performed outside of Iowa in the other state shall be at the expense of the person whose records are audited.

§452A.56 Interstate motor fuel tax — reciprocity agreements.

The director of transportation may enter into motor fuel tax agreements on behalf of this state with authorized representatives of other states. The director of transportation may enter into and the state department of transportation may become a member of a motor fuel tax agreement for the collection and refund of interstate motor fuel tax. The director of transportation may adopt rules pursuant to chapter 17A to implement the agreement for the collection and refund of interstate motor fuel tax.

The department may enter into an agreement for the collection and refund of interstate motor fuel tax which conflicts with sections 452A.57, 452A.58, 452A.65, and 452A.68 and the agreement shall govern carriers covered by the agreement. Copies of the agreement shall be filed with
the secretary of the senate and the chief clerk of the house.

452A.64 Failure to file return — incorrect return.

If a return required by this chapter is not filed, or if a return when filed is incorrect or insufficient and the filer fails to file a corrected or sufficient return within twenty days after the same is required by notice from the appropriate state agency, the appropriate state agency shall determine the amount of tax due. The determination shall be made from all information that the appropriate state agency may be able to obtain and, if necessary, the agency may estimate the tax on the basis of external indices. The appropriate state agency shall give notice of the determination to the person liable for the tax. The determination shall fix the tax unless the person against whom it is assessed shall, within sixty days after the giving of notice of the determination, apply to the director of the appropriate state agency for a hearing or unless the taxpayer contests the determination by paying the tax, interest, and penalty and timely filing a claim for refund. At the hearing, evidence may be offered to support the determination or to prove that it is incorrect. After the hearing, the director shall give notice of the decision to the person liable for the tax. The findings of the appropriate state agency as to the amount of fuel taxes, penalties and interest due from any person shall be presumed to be the correct amount and in any litigation which may follow, the certificate of the agency shall be admitted in evidence, shall constitute a prima facie case and shall impose upon the other party the burden of showing any error in the findings and the extent thereof or that the finding was contrary to law.

§452A.65 Failure to promptly pay fuel taxes — refunds — interest and penalties — successor liability.

In addition to the tax or additional tax, the taxpayer shall pay a penalty as provided in section 421.27. The taxpayer shall also pay interest on the tax or additional tax at the rate in effect under section 421.7 counting each fraction of a month as an entire month, computed from the date the return was required to be filed. If the amount of the tax as determined by the appropriate state agency is less than the amount paid, the excess shall be refunded with interest, the interest to begin to accrue on the first day of the second calendar month following the date of payment or the date the return was due to be filed or was filed, whichever is the latest, at the rate in effect under section 421.7 counting each fraction of a month as an entire month under the rules prescribed by the appropriate state agency. Claims for refund filed under sections 452A.17 and 452A.21 shall accrue interest beginning with the first day of the second calendar month following the date the refund claim is received by the department.

A report required of licensees or persons operating under division III, upon which no tax is due, is subject to a penalty of ten dollars if the report is not timely filed with the state department of transportation.

If a licensee or other person sells the licensee's or other person's business or stock of goods or quits the business, the licensee or other person shall prepare a final return and pay all tax due within the time required by law. The immediate successor to the licensee or other person, if any, shall withhold sufficient of the purchase price, in money or money's worth, to pay the amount of any delinquent tax, interest or penalty due and unpaid. If the immediate successor of the business or stock of goods intentionally fails to withhold any amount due from the purchase price as provided in this paragraph, the immediate successor is personally liable for the payment of the taxes, interest and penalty accrued and unpaid on account of the operation of the business by the immediate former licensee or other person, except when the purchase is made in good faith as provided in section 421.28. However, a person foreclosing on a valid security interest or retaking possession of premises under a valid lease is not an "immediate successor" for purposes of this paragraph. The department may waive the liability of the immediate successor under this paragraph if the immediate successor exercised good faith in establishing the amount of the previous liability.

All the provisions of section 422.26 shall apply in respect to the taxes, penalties, interest, and costs imposed by this chapter excepting that as applied to any tax imposed by this chapter, the lien therein provided shall be prior and paramount over all subsequent liens upon any personal property within this state, or right to such personal property, belonging to the taxpayer without the necessity of recording as therein provided. The requirements for recording shall, as applied to the tax imposed by this chapter, apply only to the liens upon real property. When requested to do so by any person from whom a taxpayer is seeking credit, or with whom the taxpayer is negotiating the sale of any personal property, or by any other person having a legitimate interest in such information, the director shall, upon being satisfied that such a situation exists, inform such person as to the amount of unpaid taxes due by such taxpayer under the provisions of this chapter. The department shall examine the return and enforce collection of any amount of tax, penalty, fine, or interest over and above the amount shown to be due by the return filed by a licensee as soon as practicable but no later than three years after the return is filed. An assessment shall not be made covering a period beyond three years after the return is filed except that the period for the examination and determination of the correct amount of tax is unlimited in the case of a false or fraudulent return made with the intent to evade tax or in the case of a failure to file a return.

The three-year period of limitation may be extended by a taxpayer by signing a waiver agree-
ment form to be provided by the department. The agreement must stipulate the period of extension and the tax period to which the extension applies. The agreement must also provide that a claim for refund may be filed by the taxpayer at any time during the period of extension.

452A.68 Power of department of revenue or the state department of transportation to cancel licenses.

If a licensee files a false return of the data or information required by this chapter, or fails, refuses, or neglects to file a return required by this chapter, or to pay the full amount of fuel tax as required by this chapter, or is substantially delinquent in paying a tax due, owing, and administered by the department of revenue, and interest and penalty if appropriate, or if the person is a corporation and if any officer having a substantial legal or equitable interest in the ownership of the corporation owes any delinquent tax of the licensee corporation, or interest or penalty on the tax, administered by the department, then after ten days’ written notice by mail directed to the last known address of the licensee setting a time and place at which the license may appear and show cause why the license should not be canceled, and if the licensee fails to appear or if upon the hearing it is shown that the licensee failed to correctly report or pay the tax, the appropriate state agency may cancel the license and notify the licensee of the cancellation by mail to the licensee’s last known address.

If a licensee abuses the privileges for which the license was issued, fails to produce records reasonably requested or fails to extend reasonable cooperation to the appropriate state agency, the licensee shall be advised in writing of a hearing scheduled to determine if the license shall be canceled. The appropriate state agency upon the presentation of a preponderance of evidence may cancel a license for cause.

The director of the appropriate state agency may reissue a license which has been canceled for cause. As a condition of reissuance of a license, in addition to requirements for issuing a new license, the director may require a waiting period not to exceed ninety days before a license can be reissued or a new license issued. The director shall adopt rules specifying those instances for which a waiting period will be required.

Upon receipt of written request from any licensee the appropriate state agency shall cancel the license of the licensee effective on the date of receipt of the request. If, upon investigation, the appropriate state agency finds that a licensee is no longer engaged in the activities for which a license was issued and has not been so engaged for a period of six months, the state agency shall cancel the license and give thirty days’ notice of the cancellation mailed to the last known address of the licensee.

To qualify for the refund, the person shall notify the department of revenue in writing of the loss or destruction and the gallonage lost or destroyed within ten days from the date of discovery of the loss or destruction. Within sixty days after filing the notice, the person shall file with the department of revenue an affidavit sworn to by the person having immediate custody of the motor fuel or undyed special fuel at the time of the loss or destruction setting forth in full the circumstances and amount of the loss or destruction and such other information as the department of revenue may require. Any refund payable under this section may be applied by the department against any tax liability outstanding on the books of the department against the claimant.

452A.72 Refund for fuel taxes erroneously or illegally collected or paid.

If any fuel taxes, penalties, or interest have been erroneously or illegally collected by the appropriate state agency or have been charged to the person's account with a distributor, dealer, or user, or have been paid or have been charged to the person's account with a distributor, dealer, or user for the certified amount on the treasurer of state against state department of transportation, who shall draw a warrant to the director of the department against any penalty, interest or taxes due or shall refund the amount to the person.

452A.73 Embezzlement of fuel tax money — penalty.

Every sale of motor fuel in this state and every sale of undyed special fuel dispensed by the seller into a fuel supply tank of a motor vehicle shall, unless otherwise provided, be presumed to include as a part of the purchase price the fuel tax due the state of Iowa under the provisions of this chapter. Every person collecting fuel tax money as part of the selling price of motor fuel or undyed special fuel, shall hold the tax money in trust for the state of Iowa unless the fuel tax on the fuel has been previously paid to the state of Iowa. Any person receiving fuel tax money in trust and failing to remit it to the department of revenue on or before time required shall be guilty of theft.

3. For any seller to issue or any purchaser to receive and retain any incorrect or false invoice or sales ticket in connection with the sale or purchase of motor fuel or undyed special fuel.
4. For any claimant to alter any invoice or sales ticket, whether the invoice or sales ticket is to be used to support a claim for refund or income tax credit or not, provided, however, if a claimant's
refund permit has been revoked for cause as provided in section 452A.19, the revocation shall serve as a bar to prosecution for violation of this subsection.

5. For any person to act as a supplier, restrictive supplier, importer, exporter, blender, or compressed natural gas or liquefied petroleum gas dealer or user without the required license.

6. For any person to use motor fuel, undyed special fuel, or dyed special fuel in the fuel supply tank of a vehicle with respect to which the person knowingly has not paid or had charged to the person's account with a distributor or dealer, or with respect to which the person does not, within the time required in this chapter, report and pay the applicable fuel tax.

7. For any licensed compressed natural gas or liquefied petroleum gas dealer or user to dispense compressed natural gas or liquefied petroleum gas into the fuel supply tank of any motor vehicle without collecting the fuel tax.

8. Any delivery of compressed natural gas or liquefied petroleum gas to a compressed natural gas or liquefied petroleum gas dealer or user for the purpose of evading the state tax on compressed natural gas or liquefied petroleum gas, into facilities other than those licensed above knowing that the fuel will be used for highway use shall constitute a violation of this section. Any compressed natural gas or liquefied petroleum gas dealer or user for purposes of evading the state tax on compressed natural gas or liquefied petroleum gas, who allows a distributor to place compressed natural gas or liquefied petroleum gas for highway use in facilities other than those licensed above, shall also be deemed in violation of this section.

452A.78 Other remedies available.

The special remedies provided under the provisions of this chapter to enable the state to collect motor vehicle fuel excise tax shall not be construed as depriving the state of any other remedy it might have either at law or in equity independent of this chapter. The state shall have the right to maintain an action at law for the collection of said taxes required to be paid herein and in connection therewith shall be entitled to a writ of attachment without bond.

452A.79 Use of revenue.

If the forms and records have been reproduced in accordance with this section, the state agency may destroy the originals and the reproductions shall be competent evidence in any court in accordance with the provision of section 622.30.

The department of revenue is hereby authorized to enter into and empower to carry out the provisions of agreements with any duly authorized agent or department of the United States government for joint or cooperative action by the state and the United States government in the making of refunds of the federal tax on gasoline. Such agreements may provide that the department of revenue may receive applications for and make refunds of the federal tax on gasoline as an agent of the United States. Such agreements shall provide that the United States shall provide the department of revenue with sufficient funds in advance to pay all costs to the state in the performance of such agreements and in the making of such refunds. In the event such an agreement is concluded, the director of revenue is hereby designated, appointed, and empowered, through the motor vehicle fuel tax division of the department, to, as an agent of the United States government, accept applications for refunds of the federal tax on gasoline and to make such refunds from such moneys provided to the director in advance by the federal government.

2. Except as provided in section 453A.17, every distributor holding an Iowa permit shall cause to be affixed, within or without the state of Iowa, upon every individual package of cigarettes received by the distributor in this state or for distribution in this state, upon which no sufficient tax stamp is already affixed, a stamp or stamps of an amount equal to the tax due thereon. Such stamps shall be affixed within forty-eight hours, exclusive of Sundays and legal holidays, from the hour the cigarettes were received, and shall be affixed before such distributor sells, offers for sale, consumes, or otherwise distributes or transports the same. It shall be unlawful for any person, other than a distributing agent or distributor, bonded pursuant to section 453A.14, or common carrier to receive or accept delivery of any cigarettes without stamps affixed to evidence the payment of the tax, or without having in possession the requisite amount or number of stamps necessary to stamp such cigarettes, and the possession of any unstamped cigarettes, without the possession of the requisite amount or number of stamps, shall be prima facie evidence of the violation of this provision.

453A.11 Cancellation of stamps.
Stamps affixed to a package of cigarettes shall not be canceled by any letter, numeral, or other mark of identification or otherwise mutilated in any manner that will prevent or hinder the department in making an examination as to the genuineness of the stamp. However, the director may require such cancellation of the tax stamps affixed to packages of cigarettes which is necessary to carry out properly the provisions of this division. A person who cancels or causes the cancellation of stamps in violation of this section shall be considered in possession of unstamped cigarettes and is subject to the penalty provided in section 453A.31, subsection 1.

453A.12 Use of stamping machines.
The department may purchase and supply suitable machines or devices to the holders of a state manufacturer's permit, or authorize the leasing by the permit holder of such machines or the metering device or both, and provide under proper
regulation and direction for the impression of a distinctive imprint, indicium or character upon individual packages of cigarettes, as evidence of the payment of the tax imposed by this division, in lieu of the purchase and affixation of stamps.

If the director decides to purchase the machines they shall be paid for upon order of the director out of any funds in the general fund of the state not otherwise appropriated.

The machines or devices shall be so constructed as to record or meter the number of impressions or indicia made and shall at all times be open for inspection by the department.

All of the provisions of this division relating to the collection of the tax by means of the sale and affixation of stamps shall apply in the use of the stamping machines or devices, including the right of refund.

§453A.13 Distributor’s, wholesaler’s, and retailer’s permits.

1. Permits required. Every distributor, wholesaler, cigarette vendor, and retailer, now engaged or who desires to become engaged in the sale or use of cigarettes, upon which a tax is required to be paid, shall obtain a state or retail cigarette permit as a distributor, wholesaler, cigarette vendor, or retailer, as the case may be.

2. Issuance or denial.
   a. The department shall issue state permits to distributors, wholesalers, and cigarette vendors subject to the conditions provided in this division. Cities may issue retail permits to dealers within their respective limits. County boards of supervisors may issue retail permits to dealers in their respective counties, outside of the corporate limits of cities.
   b. The department may deny the issuance of a permit to a distributor, wholesaler, vendor or retailer who is substantially delinquent in the payment of a tax due, or the interest or penalty on the tax, administered by the department at the time of application. If the applicant is a partnership, a permit may be denied if a partner is substantially delinquent on any delinquent tax, penalty or interest. If the applicant is a corporation, a permit may be denied if any officer having a substantial legal or equitable interest in the ownership of the corporation owes any delinquent tax, interest or penalty of the applicant corporation.
   c. The department, or a city or county, shall submit a duplicate of any application for a retail permit and any retail permit issued by the entity under this subsection to the Iowa department of public health within thirty days of the issuance.

3. Fees — expiration. All permits provided for in this division shall expire on June 30 of each year. A permit shall not be granted or issued until the applicant has paid for the period ending June 30 next, to the department or the city or county granting the permit, the fees provided for in this division. The annual state permit fee for a distributor, cigarette vendor, and wholesaler is one hundred dollars when the permit is granted during the months of July, August, or September. However, whenever a state permit holder operates more than one place of business, a duplicate state permit shall be issued for each additional place of business on payment of five dollars for each duplicate state permit, but refunds as provided in this division do not apply to any duplicate permit issued.

The fee for retail permits is as follows when the permit is granted during the months of July, August, or September:
   a. In places outside any city, fifty dollars.
   b. In cities of less than fifteen thousand population, seventy-five dollars.
   c. In cities of fifteen thousand or more population, one hundred dollars.

If any permit is granted during the months of October, November, or December, the fee shall be three-fourths of the above maximum schedule; if granted during the months of January, February, or March, one-half of the maximum schedule, and if granted during the months of April, May, or June, one-fourth of the maximum schedule.

4. Refunds.
   a. An unrevoked permit for which the holder has paid the full annual fee may be surrendered during the first nine months of said year to the officer issuing it, and the department, or the city or county granting the permit shall make refunds to the holder as follows:
      Three-fourths of the annual fee if the surrender is made during July, August, or September.
      One-half of the annual fee if the surrender is made during October, November, or December.
      One-fourth of the annual fee if the surrender is made during January, February, or March.
   b. An unrevoked permit for which the holder has paid three-fourths of a full annual fee may be so surrendered during the first six months of the period covered by said payment and the said department, city or county shall make refunds to the holder as follows:
      A sum equal to one-half of an annual fee if the surrender is made during October, November or December.
      A sum equal to one-fourth of an annual fee if the surrender is made during January, February or March.
   c. An unrevoked permit for which the holder has paid one-half of a full annual fee may be so surrendered during the first three months of the period covered by said payment, and the department, city or county, shall refund to the holder a sum equal to one-fourth of an annual fee.
5. **Application — bond.** Said permits shall be issued only upon applications accompanied by the fee indicated above, and by an adequate bond as provided in section 453A.14, and upon forms furnished by the department upon written request. The failure to furnish such forms shall be no excuse for the failure to file the same unless absolute refusal is shown. Said forms shall set forth:

a. The manner under which such distributor, wholesaler, or retailer, transacts or intends to transact such business as distributor, wholesaler, or retailer.

b. The principal office, residence, and place of business, for which the permit is to apply.

c. If the applicant is not an individual, the principal officers or members thereof, not to exceed three, and their addresses.

d. Such other information as the director shall by rules prescribe.

6. **No sales without permit.** No distributor, wholesaler, cigarette vendor, or retailer shall sell any cigarettes until such application has been filed and the fee prescribed paid for a permit and until such permit is obtained and only while such permit is unrevoked and unexpired.

7. **Number of permits — trucks.** An application shall be filed and a permit obtained for each place of business owned or operated by a distributor, wholesaler, or retailer, excepting that no permit need be obtained for a delivery or sales truck of a distributor or wholesaler holding a permit, provided that the director may by regulation require that said truck bear the distributor's or wholesaler's name, and that the permit number of the place of business for and from which it operates be conspicuously displayed on the outside of the body of the truck, immediately under the name.

8. **Group business.** Any person who operates both as a distributor and wholesaler in the same place of business shall only be required to obtain a state permit for the particular place of business where such operation of said business is conducted. A separate retail permit, however, shall be required if any distributor or wholesaler sells cigarettes at both retail and wholesale.

9. **Permit — form and contents.** Each permit issued shall describe clearly the place of business for which it is issued, shall be nonassignable, consecutively numbered, designating the kind of permit, and shall authorize the sale of cigarettes in this state subject to the limitations and restrictions herein contained. The retail permits shall be upon forms furnished by the department.

### 453A.14 Bonds.

1. No state or manufacturer’s permit shall be issued until the applicant files a bond, with good and sufficient surety, to be approved by the director, which bond shall be in favor of the state and conditioned upon the payment of taxes, damages, fines, penalties, and costs adjudged against the permit holder for violation of any of the provisions of this division.

The bonds shall be on forms prescribed by the director and in the following amounts:

a. State permit, not less than five hundred dollars.

b. Manufacturer’s permit, not less than five thousand dollars.

2. A person shall not engage in interstate business unless the person files a bond, with good and sufficient surety in an amount of not less than one thousand dollars. The amount of the bond required of the person shall be fixed by the director, subject to the minimum limitation provided in this section. The bond is subject to approval by the director and shall be payable to the state in Des Moines, Polk county, and conditioned upon the payment of taxes, damages, fines, penalties, and costs adjudged against the person for violation of any of the requirements of this division affecting the person, on a form prescribed by the director.

3. An additional bond or a new bond may be required by the director at any time an existing bond becomes insufficient or the surety thereon becomes unsatisfactory, which additional bond, or new bond, shall be supplied within ten days after demand. On failure to supply a new bond or additional bond within ten days after demand, the director may cancel any existing bond made and secured by and for the person. If the bond is canceled the person shall within forty-eight hours after receiving cigarettes or forty-eight hours after the cancellation, excluding Sundays and legal holidays, cause any cigarettes in the person’s possession to have the requisite amount of stamps affixed to represent the tax.

### 453A.15 Records and reports of permit holders.

1. The director may prescribe the forms necessary for the efficient administration of this division and may require uniform books and records to be used and kept by each permit holder or other person as deemed necessary. The director may also require each permit holder or other person to keep and retain in the director’s possession evidence on prescribed forms of all transactions involving the purchase and sale of cigarettes or the purchase and use of stamps. The evidence shall be kept for a period of three years from the date of each transaction, for the inspection at all times by
the department.

2. Where a state permit holder sells cigarettes at retail, the holder shall be required to issue an invoice to the holder’s retail department for cigarettes to be sold at retail and such cigarette invoices shall be kept separate and apart.

3. The director may by regulation require every holder of a manufacturer’s or state permit or other person to make and deliver to the department on or before the tenth day of each month a report or reports for the preceding calendar month, upon a form or forms prescribed by the director, and may require that the reports shall be properly sworn to and executed by the permit holder or the holder’s duly authorized representative or other person.

4. Every permit holder or other person shall, when requested by the department, make additional reports as the department deems necessary and proper and shall at the request of the department furnish full and complete information pertaining to any transaction of the permit holder or other person involving the purchase or sale or use of cigarettes or purchase of cigarette stamps.

5. Every person engaged in the business of selling cigarettes in interstate commerce only, who has, by furnishing the bond required in section 453A.14, been permitted to set aside or store cigarettes in this state for the conduct of such interstate business without the stamps affixed thereto, shall be required to keep such records and make such reports to the department as are required by the department.

6. If any distributor, manufacturer, or other person fails or refuses to pay any tax, penalties, or cost of audit hereinafter provided, and it becomes necessary to bring suit or to intervene in any manner for the establishment or collection of said claims, in any judicial proceedings, any report filed in the office of the director by the distributor, manufacturer, or other person, or the distributor’s, manufacturer’s, or other person’s representative, or a copy thereof, certified to by the director, showing the number of cigarettes sold by the distributor, the distributor’s representative, the manufacturer, or the other person, upon which a tax, penalty, or cost of audit has not been paid, or any audit made by the department from the books or records of the distributor, manufacturer, or other person when signed and sworn to by the agent of the department making the audit as being made from the records of the distributor, manufacturer, or other person from or to whom the distributor, manufacturer, or other person has bought, received, or delivered cigarettes, whether from a transportation company or otherwise, such report or audit shall be admissible in evidence in such proceedings and shall be prima facie evidence of the contents thereof. However, the incorrectness of the report or audit may be shown.

453A.16 Manufacturer’s permit.

The department may, upon application of any manufacturer, issue without charge to the manufacturer a manufacturer’s permit. The application shall contain information as the director shall prescribe. The holder of a manufacturer’s permit is authorized to purchase stamps from the department, and must affix stamps to individual packages of cigarettes outside of this state, prior to their shipment into the state unless the cigarettes are shipped to an Iowa permitted distributor or an Iowa permitted distributor’s agent.

453A.17 Distributing agent’s permit.

1. Every distributing agent in the state, now engaged, or who desires to become engaged, in the business of storing unstamped cigarettes which are received in interstate commerce for distribution or delivery only upon order received from without the state or to be sold outside the state, shall file with the department, an application for a distributing agent’s permit, on a form prescribed by the director, to be furnished upon written request. The failure to furnish shall be no excuse for the failure to file the same unless an absolute refusal is shown. Said form shall set forth the name under which such distributing agent transacts or intends to transact such business as a distributing agent, the principal office and place of business in Iowa to which the permit is to apply, and if other than an individual, the principal officers or members thereof and their addresses. The director may require any other information in said application. No distributing agent shall engage in such business until such application has been filed and fee in the sum of one hundred dollars paid for the permit and until the permit has been obtained. Such permit shall expire on June 30 following the date of issuance. All of the provisions of the last two paragraphs of section 453A.14, relative to bonds, are incorporated herein and by this reference made applicable to distributing agents. Upon failure to furnish adequate bond as required, the permit shall be revoked without hearing. An application shall be filed and a permit obtained for each place of business owned or operated by a distributing agent.

2. Upon receipt of the application, bond and permit fee, the department may issue to every distributing agent for the place of business designated a nonassignable consecutively numbered permit, authorizing the storing, and distribution...
of unstamped cigarettes within this state when the distribution is made only upon intrastate orders. A distributing agent may also transport unstamped cigarettes to the distributor's own conveyances to the state boundary for distribution outside the state, and any nonresident customer of the distributor may purchase and convey unstamped cigarettes to the state line for distribution outside the state. The nonresident purchaser shall have in possession an invoice evidencing the purchase of the unstamped cigarettes, which must be exhibited upon request to any peace officer or agent charged with the enforcement of this division.

3. Cigarettes set aside for interstate business must be kept separate from intrastate stock and subject to the same requirements as cigarettes possessed for the purpose of a "first sale".

4. It is unlawful for any distributing agent to sell at retail cigarettes from automobiles, trucks, or any similar conveyances.

453A.18 Forms for records and reports.

The department shall furnish, without charge, to holders of the various permits, forms in sufficient quantities to enable permit holders to make the reports required to be made under this section. The permit holders shall furnish at their own expense the books, records, and invoices, required to be used and kept, but the books, records, and invoices shall be in exact conformity to the forms prescribed for that purpose by the director, and shall be kept and used in the manner prescribed by the director. However, the director may, by express order in certain cases, authorize permit holders to keep their records in a manner and upon forms other than those so prescribed. The authorization may be revoked at any time.

453A.19 Examination of records and premises.

1. For the purpose of enabling the department to determine the tax liability of permit holders or any other person dealing in cigarettes or to determine whether a tax liability has been incurred, the department shall have the right to inspect any premises of the holder of an Iowa permit located within or without the state of Iowa where cigarettes are manufactured, produced, made, stored, transported, sold, or offered for sale or exchange, and to examine all of the records required to be kept or any other records that may be kept incident to the conduct of the cigarette business of said permit holder or any other person dealing in cigarettes.

2. The said authorized officers shall also have the right as an incident to determining the said tax liability, or whether a tax liability has been incurred, to examine all stocks of cigarettes and cigarette stamps and for the foregoing purpose said authorized officers shall also have the right to remain upon said premises for such length of time as may be necessary to fully determine said tax liability, or whether a tax liability has been incurred.

3. It shall be unlawful for any of the foregoing permit holders to fail to produce upon demand of the department any records required herein to be kept or to hinder or prevent in any manner the inspection of said records or the examination of said premises.

4. In the case of any departmental inspection conducted under this section requiring department personnel to travel outside the state of Iowa, any additional costs incurred by the department for out-of-state travel expenses shall be borne by the permittee. These additional costs shall be those costs in excess of the costs of a similar inspection conducted at the geographical point located within the state of Iowa nearest to the out-of-state inspection point. In lieu of conducting an on-premises out-of-state inspection, the department shall have the authority to direct the permittee to assemble and transport all records described in subsection 1, to the nearest practical and convenient geographical location in Iowa for inspection by the department.

453A.22 Revocation — suspension — civil penalty.
1. If a person holding a permit issued by the department under this division, including a retailer permit for railway car, has willfully violated section 453A.2, the department shall revoke the permit upon notice and hearing. If the person violates any other provision of this division, or a rule adopted under this division, or is substantially delinquent in the payment of a tax administered by the department or the interest or penalty on the tax, or if the person is a corporation and if any officer having a substantial legal or equitable interest in the ownership of the corporation owes any delinquent tax of the permit-holding corporation, or interest or penalty on the tax, administered by the department, the department may revoke the permit issued to the person, after giving the permit holder an opportunity to be heard upon ten days’ written notice stating the reason for the contemplated revocation and the time and place at which the person may appear and be heard. The notice before the department may be held at a site in the state as the department may direct. The notice shall be given by mailing a copy to the permit holder’s place of business as it appears on the application for a permit. If, upon hearing, the department finds that the violation has occurred, the department may revoke the permit.

2. If a retailer or employee of a retailer has violated section 453A.2 or section 453A.36, subsection 6, the department or local authority, or the Iowa department of public health following transfer of the matter to the Iowa department of public health pursuant to section 453A.2, subsection 6, in addition to the other penalties fixed for such violations in this section, shall assess a penalty upon the same hearing and notice as prescribed in subsection 1 as follows:

a. For a first violation, the retailer shall be assessed a civil penalty in the amount of three hundred dollars. Failure to pay the civil penalty as ordered under this subsection shall result in automatic suspension of the permit for a period of fourteen days.

b. d. For a fourth violation within a period of three years, the retailer shall be assessed a civil penalty in the amount of one thousand five hundred dollars and the retailer’s permit shall be suspended for a period of sixty days.

e. For a fifth violation within a period of four years, the retailer’s permit shall be revoked.

3. If an employee of a retailer violates section 453A.2, subsection 1, the retailer shall not be assessed a penalty under subsection 2, and the violation shall be deemed not to be a violation of section 453A.2, subsection 1, for the purpose of determining the number of violations for which a penalty may be assessed pursuant to subsection 2, if the employee holds a valid certificate of completion of the tobacco compliance employee training program pursuant to section 453A.5 at the time of the violation. A retailer may assert only once in a four-year period the bar under either this subsection or subsection 4* against assessment of a penalty pursuant to subsection 2, for a violation of section 453A.2, that takes place at the same place of business location.

4. Reserved.

5. If a permit is revoked a new permit shall not be issued to the permit holder for any place of business, or to any other person for the place of business at which the violation occurred, until one year has expired from the date of revocation, unless good cause to the contrary is shown to the issuing authority.

6. Notwithstanding subsection 5, if a retail permit is suspended or revoked under this section, the suspension or revocation shall only apply to the place of business at which the violation occurred and shall not apply to any other place of business to which the retail permit applies but at which the violation did not occur.

7. The department or local authority shall report the suspension or revocation of a retail permit under this section to the Iowa department of public health within thirty days of the suspension or revocation of the retail permit.

If after any audit, examination of records, or other investigation the department finds that any person has sold cigarettes without stamps affixed or that any person responsible for paying the tax has not done so as required by this division, the department shall fix and determine the amount of tax due, and shall assess the tax against the person, together with a penalty as provided in section 421.27. The taxpayer shall pay interest on the tax or additional tax at the rate determined under section 421.7 counting each fraction of a month as an entire month, computed from the date the tax was due. If any person fails to furnish evidence satisfactory to the director showing purchases of sufficient stamps to stamp unstamped cigarettes purchased by the person, the presumption shall be that the cigarettes were sold without the proper stamps affixed. Within three years after the re-
port is filed or within three years after the report became due, whichever is later, the department shall examine the report and determine the correct amount of tax. The period for examination and determination of the correct amount of tax is unlimited in the case of a false or fraudulent report made with the intent to evade tax, or in the case of a failure to file a report, or if a person purchases or is in possession of unstamped cigarettes.

The three-year period of limitation may be extended by a taxpayer by signing a waiver agreement form to be provided by the department. The agreement must stipulate the period of extension and the tax period to which the extension applies. The agreement must also provide that a claim for refund may be filed by the taxpayer at any time during the period of extension.

453A.29 Notice and appeal.

The department shall notify any person assessed pursuant to section 453A.28 by sending a written notice of the determination by mail to the principal place of business of the person as shown on the person’s application for permit, and if an application was not filed by the person, to the person’s last known address. A determination by the department of the amount of tax, penalty, and interest due, or the amount of refund for excess tax paid, is final, unless the person aggrieved by the determination appeals to the director for a revision of the determination within sixty days from the date of the notice of determination of tax, penalty, and interest or refund owing or unless the taxpayer contests the determination by paying the tax, interest, and penalty and timely filing a claim for refund. The director shall grant a hearing and upon the hearing, the director shall determine the correct tax, penalty, and interest or refund due and notify the appellant of the decision by mail. Judicial review of action of the director may be sought in accordance with the Iowa administrative procedure Act, chapter 17A, and section 422.29.

If such taxes have not been paid, as required, the department shall assess against such permit holder or other person, as additional penalty, the reasonable expenses and costs of such investigation and audit.

453A.36 Unlawful acts.
1. Except as otherwise provided in this division, it is unlawful for any person to have in the person’s possession for sale, distribution, or use, or for any other purpose, in excess of forty cigarettes, or to sell, distribute, use, or present as a gift or prize cigarettes upon which a tax is required to be paid by this division, without having affixed to each individual package of cigarettes, the proper stamp evidencing the payment of the tax and the absence of the stamp on the individual package of cigarettes is notice to all persons that the tax has not been paid and is prima facie evidence of the nonpayment of the tax.
2. No person, other than a common carrier and a distributor’s truck bearing the distributor’s name and permit number in plain view on the outside of such truck, shall transport within this state cigarettes upon which a tax is required to be paid, without having stamps affixed to each individual package of said cigarettes; and no person shall fail or refuse, upon demand of agent of the department, or any peace officer to stop any vehicle transporting cigarettes for a full and complete inspection of the cargo carried.
3. No person shall use, sell, offer for sale, or possess for the purpose of use or sale, within this state, any previously used stamp or stamps, or attach any such previously used stamps to an individual package of cigarettes, nor shall any person purchase stamps from any person other than the department or sell stamped purchased other than the department.

Any sales of cigarettes or tobacco products made through a cigarette vending machine are subject to rules and penalties relative to retail sales of cigarettes and tobacco products provided for in this chapter. No cigarettes shall be sold through any cigarette vending machine unless the cigarettes have been properly stamped or metered as provided by this division, and in case of violation of this provision, the permit of the dealer authorizing retail sales of cigarettes shall be canceled. Payment of the license fee as provided in section 453A.13 authorizes a cigarette vendor to sell cigarettes or tobacco products through vending machines. However, cigarettes or tobacco products shall not be sold through a vending machine unless the vending machine is located in a place where the retailer ensures that no person younger than eighteen years of age is present or permitted to enter at any time. This section does not require a retail licensee to buy a cigarette vendor’s permit if the retail licensee is in fact the owner of the cigarette vending machines and the machines are operated in the location described in the retail permit.
7. It shall be unlawful for a person other than a holder of a retail permit to sell cigarettes at retail. 1. Every distributor shall keep at each licensed place of business complete and accurate records for that place of business, including itemized invoices, of tobacco products held, purchased, manufactured, brought in or caused to be brought in from without the state, or shipped or transported to retailers in this state, and of all sales of tobacco products made, except sales to the ultimate consumer.

When a licensed distributor sells tobacco products exclusively to the ultimate consumer at the address given in the license, an invoice of those sales is not required, but itemized invoices shall be made of all tobacco products transferred to other retail outlets owned or controlled by that licensed distributor. All books, records and other papers and documents required by this subdivision to be kept shall be preserved for a period of at least three years after the date of the documents or the date of the entries appearing in the records, unless the director, in writing, authorized their destruction or disposal at an earlier date. At any time during usual business hours, the director, or the director's duly authorized agents or employees, may enter any place of business of a distributor, without a search warrant, and inspect the premises, the records required to be kept under this subdivision, and the tobacco products contained therein, to determine if all the provisions of this division are being fully complied with. If the director, or any such agent or employee, is denied free access or is hindered or interfered with in making the examination, the license of the distributor at that premises is subject to revocation by the director.

2. Every person who sells tobacco products to persons other than the ultimate consumer shall render with each sale itemized invoices showing the seller's name and address, the purchaser's name and address, the date of sale, and all prices and discounts. The person shall preserve legible copies of all these invoices for three years from the date of sale.

3. Every retailer and subjobber shall procure itemized invoices of all tobacco products purchased. The invoices shall show the name and address of the seller and the date of purchase. The retailer and subjobber shall preserve a legible copy of each invoice for three years from the date of purchase. Invoices shall be available for inspection by the director or the director's authorized agents or employees at the retailer's or subjobber's place of business.

4. Records of all deliveries or shipments of tobacco products from any public warehouse of first destination in this state which is subject to the provisions of and licensed under chapter 554 shall be kept by the warehouse and be available to the director for inspection. They shall show the name and address of the consignee, the date, the quantity of tobacco products delivered, and such other information as the commissioner may require. These records shall be preserved for three years from the date of delivery of the tobacco products.

5. The transportation of tobacco products into this state by means other than common carrier must be reported to the director within thirty days with the following exceptions:
a. The transportation of not more than fifty cigars, not more than ten ounces of snuff or snuff powder, or not more than one pound of smoking or chewing tobacco or other tobacco products not specifically mentioned herein;
b. Transportation by a person with a place of business outside the state, who is licensed as a distributor under section 453A.44, or tobacco products sold by such person to a retailer in this state.

Such report shall be made on forms provided by the director.

Common carriers transporting tobacco products into this state shall file with the director reports of all such shipments other than those which are delivered to public warehouses of first destination in this state which are licensed under the provisions of chapter 554. Such reports shall be filed on or before the tenth day of each month and shall show with respect to deliveries made in the preceding month; the date, point of origin, point of delivery, name of consignee, description and quantity of tobacco products delivered, and such information as the director may otherwise require.

Any person who fails or refuses to transmit to the director the required reports or whoever refuses to permit the examination of the records by the director shall be guilty of a simple misdemeanor.

§453A.45, CIGARETTE AND TOBACCO TAXES

interest, penalties.

1. On or before the twentieth day of each calendar month every distributor with a place of business in this state shall file a return with the director showing the quantity and wholesale sales price of each tobacco product brought, or caused to be brought, into this state for sale; and made, manufactured, or fabricated in this state for sale in this state, during the preceding calendar month. Every licensed distributor outside this state shall in like manner file a return showing the quantity and wholesale sales price of each tobacco product shipped or transported to retailers in this state to be sold by those retailers, during the preceding calendar month. Returns shall be made upon forms furnished and prescribed by the director and shall contain other information as the director may require. Each return shall be accompanied by a remittance for the full tax liability shown on the return, less a discount as fixed by the director not to exceed five percent of the tax. Within three years after the return is filed or within three years after the return became due, whichever is later, the department shall examine it, determine the correct amount of tax, and assess the tax against the taxpayer for any deficiency. The period for examination and determination of the correct amount of tax is unlimited in the case of a false or fraudulent return made with the intent to evade tax, or in the case of a failure to file a return.

The three-year period of limitation may be extended by a taxpayer by signing a waiver agreement form to be provided by the department. The agreement must stipulate the period of extension and the tax period to which the extension applies. The agreement must also provide that a claim for refund may be filed by the taxpayer at any time during the period of extension.

2. All taxes shall be due and payable not later than the twentieth day of the month following the calendar month in which they were incurred, and shall bear interest at the rate in effect under section 421.7 counting each fraction of a month as an entire month, computed from the date the tax was due.

The director may reduce or abate interest when in the director’s opinion the facts warrant the reduction or abatement. The exercise of this power shall be subject to the approval of the attorney general.

3. In addition to the tax or additional tax, the taxpayer shall pay a penalty as provided in section 421.27.

4. The department shall notify any person assessed pursuant to this section by sending a written notice of the determination by mail to the principal place of business of the person as shown on the person’s application for permit, and if an application was not filed by the person, to the person’s last known address. A determination by the department of the amount of tax, penalty, and interest due, or the amount of refund for excess tax paid, is final, unless the person aggrieved by the determination appeals to the director for a revision of the determination within sixty days from the date of the notice of determination of tax, penalty, and interest or refund owing or unless the taxpayer contests the determination by paying the tax, interest, and penalty and timely filing a claim for refund. The director shall grant a hearing and upon the hearing, the director shall determine the correct tax, penalty, and interest or refund due and notify the appellant of the decision by mail. Judicial review of action of the director may be sought in accordance with chapter 17A and section 422.29.

5. The director may recover the amount of any tax due and unpaid, interest, and any penalty in a civil action. The collection of such a tax, interest, or penalty shall not be a bar to any prosecution under this division.

6. On or before the twentieth day of each calendar month, every consumer who, during the preceding calendar month, has acquired title to or possession of tobacco products for use or storage in this state, upon which tobacco products the tax imposed by section 453A.43 has not been paid, shall
file a return with the director showing the quantity of tobacco products so acquired. The return shall be made upon a form furnished and prescribed by the director, and shall contain other information as the director may require. The return shall be accompanied by a remittance for the full unpaid tax liability shown by it. Within three years after the return is filed or within three years after the return became due, whichever is later, the department shall examine it, determine the correct amount of tax, and assess the tax against the taxpayer for any deficiency. The period for examination and determination of the correct amount of tax is unlimited in the case of a false or fraudulent return made with the intent to evade tax, or in the case of a failure to file a return.

453A.47 Refunds, credits.
Where tobacco products upon which the tax imposed by this division has been reported and paid, are shipped or transported by the distributor to consumers, to be consumed without the state, or to retailers or subjobbers without the state, to be sold by those retailers, or subjobbers without the state, or are returned to the manufacturer by the distributor or destroyed by the distributor, refund of such tax or credit may be made to the distributor in accordance with regulations prescribed by the director. Any overpayment of the tax imposed under section 453A.43 may be made to the taxpayer in accordance with regulations prescribed by the director. The director shall enforce the provisions of this division and, in connection with such investigations, inquiries, and hearings, the director and the director’s duly authorized agents shall have all the powers conferred upon the director and the director’s examiners by Iowa statutes, and the provisions of such shall apply to all such investigations, inquiries and hearings.

453A.48 Investigations and hearings, testimonial powers.
1. The director, or the director’s duly authorized agents, may conduct investigations, inquiries, and hearings for the purpose of enforcing the provisions of this division, and, in connection with such investigations, inquiries, and hearings, the director and the director’s duly authorized agents shall have all the powers conferred upon the director and the director’s examiners by Iowa statutes, and the provisions of such shall apply to all such investigations, inquiries and hearings.
2. A hearing conducted under this division shall be preceded by ten days’ notice in writing of the subject of the hearing, including, in the case of suspension or revocation of a license, a statement of the nature of the charges against the licensee. The notice shall be sent by mail to the last known address of the licensee or other person involved in the hearing, and the service shall be complete upon mailing. After every hearing the director shall make the director’s findings and order in writing. The findings and order shall be filed in the office of the director, and a copy sent by mail or otherwise to the person to whom the notice was directed.
3. The director may exchange information with the officers and agencies of other states administering laws relating to the taxation of tobacco products.
4. No person shall be excused from testifying or from producing, pursuant to a subpoena, any books, papers, records or memoranda in any investigation or upon any hearing, upon the ground that the testimony or evidence, documentary or otherwise, may tend to incriminate the person or subject the person to a criminal penalty, but no person shall be prosecuted or subjected to any criminal penalty for or on account of any transaction made or thing concerning which the person may testify or produce evidence, documentary or otherwise, before the director or an employee or agent thereof; provided that such immunity shall extend only to a natural person who, in obedience to a subpoena, gives testimony under oath or produces evidence, documentary or otherwise, pursuant to a subpoena. No person so testifying shall be exempt from prosecution and punishment for perjury committed in so testifying.
5. Any person aggrieved by an order of the director fixing a tax, penalty or interest under section 453A.43 may, within sixty days from the date of notice of the order, appeal to the board of review in the manner provided by law or unless the taxpayer contests the determination by paying the tax, interest, and penalty and timely filing a claim for refund. Judicial review of any other action of the director may be sought in accordance with the terms of the Iowa administrative procedure Act, chapter 17A.

453A.49 Enforcement.
The director shall enforce the provisions of this division. The director may prescribe rules not inconsistent with the provisions of this division for its detailed and efficient administration. In the enforcement of this division the director may call upon any county attorney or the attorney general for assistance. The director may bring injunction proceedings to restrain any person from acting as a distributor or subjobber without complying with

The penalty and interest shall be collected as part of the tax.

If the tax previously paid to the other state or local unit of government was equal to or greater than the tax imposed under this chapter, no tax is due. The burden is on the taxpayer to show that an excise tax on the taxable substances has been paid to another state or local unit of government.

453B.14 Revision of tax — refunds.

Sections 421.5, 422.26, 422.28, 422.29, 422.73, subsection 1, and section 422.74 shall apply to this chapter, except that a refund claim filed later than thirty days from the expiration date of the stamps for which the refund is requested shall not be allowed by the director.

Any tobacco product manufacturer that fails in any year to place into escrow the funds required under this subsection shall be subject to all of the following:

(1) Be required within fifteen days to place such funds into escrow as shall bring the manufacturer into compliance with this subsection. The court, upon a finding of a violation of this subsection, may impose a civil penalty, to be paid to the general fund of the state, in an amount not to exceed five percent of the amount improperly withheld from escrow per day of the violation and in a total amount not to exceed one hundred percent of the original amount improperly withheld from escrow.

(2) In the case of a knowing violation, be required within fifteen days to place such funds into escrow as shall bring the manufacturer into compliance with this subsection. The court, upon a finding of a knowing violation of this subsection, may impose a civil penalty, to be paid to the general fund of the state, in an amount not to exceed fifteen percent of the amount improperly withheld from escrow per day of the violation and in a total amount not to exceed three hundred percent of the original amount improperly withheld from escrow.

(3) In the case of a second knowing violation, be prohibited from selling cigarettes to consumers within the state, whether directly or through a distributor, retailer, or similar intermediary, for a period not to exceed two years.

CHAPTER 453D

TOBACCO PRODUCT MANUFACTURERS — ENFORCEMENT OF FINANCIAL OBLIGATIONS

453D.1 Findings and purpose.

The general assembly finds that violations of chapter 453C threaten the integrity of the tobacco master settlement agreement, the fiscal soundness of the state, and the public health and that establishing procedural enforcement enhancements will aid in the enforcement of chapter 453C and thereby safeguard the master settlement agree-
ment, the fiscal soundness of the state, and the public health.

453D.5 Reporting of information — escrow installments.
1. No later than twenty calendar days after the end of each calendar quarter, and more frequently if so directed by the director, each stamping agent and distributor shall submit information as the director requires to facilitate compliance with this chapter, including but not limited to a list by brand family of the total number of cigarettes, or, in the case of roll-your-own tobacco, the equivalent stick count, for which the stamping agent or distributor affixed stamps during the previous calendar quarter or otherwise paid the tax due for the cigarettes. The stamping agent and distributor shall maintain, and make available to the director, all invoices and documentation of sales of all nonparticipating manufacturer cigarettes and any other information relied upon in reporting to the director for a period of five years. 4. In addition to the information required to be submitted pursuant to chapter 453C or this chapter, the director or the attorney general may require a stamping agent, distributor, or tobacco product manufacturer to submit any additional information, including but not limited to samples of the packaging or labeling of each brand family, as necessary to enable the attorney general to determine compliance by the tobacco product manufacturer with this chapter.

5. To promote compliance with this chapter, the attorney general may adopt rules requiring a tobacco product manufacturer subject to the requirements of section 453D.3, subsection 1, paragraph "b", to make the escrow deposits required in quarterly installments during the year in which the sales covered by the deposits are made. 453D.6 Penalties and other remedies.
1. In addition to or in lieu of any other civil or criminal remedy provided by law, upon a determination that any person has violated section 453D.3, subsection 3, or any rule adopted pursuant to that subsection, the director may revoke or suspend the permit or license of any stamping agent or distributor in the manner provided in chapter 453A. Each stamp affixed and each sale or offer to sell cigarettes in violation of section 453D.3, subsection 3, shall constitute a separate violation. stamping agent or distributor and to compel the stamping agent or distributor to comply with these sections. In any action brought pursuant to this section, the state shall be entitled to recover the costs of investigation, expert witness fees, costs of the action, and reasonable attorney fees.

4. It shall be unlawful for a person to sell or distribute cigarettes or acquire, hold, own, possess, transport, import, or cause to be imported cigarettes that the person knows or should know are intended for distribution or sale in the state in violation of section 453D.3, subsection 3. A violation of this subsection is a serious misdemeanor.

2003 Acts, ch 97, §6, 13

4. In any action brought by the state to enforce this chapter, the state shall be entitled to recover the costs of the investigation, expert witness fees, costs of the action, and reasonable attorney fees.

453D.9 Construction and severability.
1. If a court of competent jurisdiction finds that the provisions of this chapter and of chapter 453C conflict and cannot be harmonized, the provisions of chapter 453C shall prevail.

2. If any portion of this chapter causes chapter 453C to no longer constitute a qualifying or model statute, as defined in the master settlement agreement, that portion of this chapter shall be void.

3. If any portion of this chapter is for any reason held to be invalid, unlawful, or unconstitutional, the determination shall not affect the validity of the remaining provisions of this chapter or any part of this chapter.

The department shall reimburse each member, other than the director or the director’s designee and the park ranger, for actual expenses incurred by the member in performance of the duties of the board. A majority of voting members constitutes a quorum, and the affirmative vote of a majority present is necessary for any action taken by the board, except that a lesser number may adjourn a meeting. A vacancy in the membership of the board does not impair the rights of a quorum to exercise all rights and perform all duties of the board. The board shall meet as required, but at least twice a year. The board shall meet upon call of the chairperson, or upon written request of three members of the board. Written notice of the time and place of the meeting shall be given to each member.

RESOURCES ENHANCEMENT AND PROTECTION

455A.15 Legislative findings.
The general assembly finds that:
1. The citizens of Iowa have built and sustained their society on Iowa's air, soils, waters, and rich diversity of life. The well-being and future of Iowa depend on these natural resources.
2. Many human activities have endangered Iowa's natural resources. The state of Iowa has lost ninety-nine and nine-tenths percent of its prairies, ninety-eight percent of its wetlands, eighty percent of its woodlands, fifty percent of its topsoils, and more than one hundred species of wildlife since settlement in the early 1800's. There has been a significant deterioration in the quality of Iowa's surface waters and groundwater.
3. The long-term effects of Iowa's natural resource losses are not completely known or understood, but detrimental effects are already apparent. Prevention of further loss is therefore imperative.
4. The air, waters, soils, and biota of Iowa are interdependent and form a complex ecosystem. Iowans have the right to inherit this ecosystem in a sustainable condition, without severe or irreparable damage caused by human activities.

89 Acts, ch 236, §2

455A.16 State resource enhancement policy.
It is the policy of the state of Iowa to protect its natural resource heritage of air, soils, waters, and wildlife for the benefit of present and future citizens with the establishment of a resource enhancement program. The program shall be a long-term integrated effort to wisely use and protect Iowa's natural resources through the acquisition and management of public lands; the upgrading of public park and preserve facilities; environmental education, monitoring, and research; and other environmentally sound means. The resource enhancement program shall strongly encourage Iowans to develop a conservation ethic, and to make necessary changes in our activities to develop and preserve a rich and diverse natural environment.

89 Acts, ch 236, §3

455A.17 Iowa congress on resources enhancement and protection.
1. Biennially, during even-numbered years, the director shall schedule and make the necessary arrangements for an Iowa congress on resources enhancement and protection. The congress shall be held within the state capitol complex during the summer months.
2. Prior to each congress, the director shall make arrangements to hold an assembly in each council of governments area of persons having an interest in resources enhancement and protection. The department shall promote attendance of interested persons at each assembly. The director shall call each assembly and serve as temporary chairperson. The department shall provide those attending with information regarding resource enhancement and protection expenditures. The assemblies shall identify opportunities for regional resource enhancement and protection and review and recommend changes in resource enhancement and protection policies, programs, and funding. The persons meeting at each assembly shall elect five persons as delegates to the congress on resources enhancement and protection.
3. The delegates to the congress on resources enhancement and protection shall organize, discuss, and make recommendations to the governor, the general assembly, and the natural resource commission regarding issues concerning resources enhancement and protection. The director shall call the congress and serve as temporary chairperson. The delegates are entitled to a per diem as specified in section 7E.6 for expenses of office while attending the congress.
4. The expenses of the department in making the arrangements for and the conducting of the council of governments area assemblies and the congress on resources enhancement and protection and the per diem for expenses of the delegates at the congress shall be paid from the funds appropriated for this purpose.

455A.18 Iowa resources enhancement and protection fund — audits.
1. An Iowa resources enhancement and protection fund is created in the office of the treasurer of state. The fund consists of all revenues and all other moneys lawfully credited or transferred to the fund. The director shall certify monthly the portions of the fund that are allocated to the various accounts as provided under section 455A.19. The director shall certify before the twentieth of each month the portions of the fund resulting from the previous month's receipts to be allocated to the various accounts.
2. The auditor of state or a certified public accountant firm appointed by the auditor of state shall conduct annual audits of all accounts and transactions of the fund.
3. For each fiscal year of the fiscal period beginning July 1, 1997, and ending June 30, 2021, there is appropriated from the general fund, to the
Iowa resources enhancement and protection fund, the amount of twenty million dollars, to be used as provided in this chapter. However, in any fiscal year of the fiscal period, if moneys from the lottery are appropriated by the state to the fund, the amount appropriated under this subsection shall be reduced by the amount appropriated from the lottery.

Section 8.33 does not apply to moneys appropriated under this subsection.

4. Notwithstanding section 12C.7, interest or earnings on investments or time deposits of the moneys in the Iowa resources enhancement and protection fund or any of its accounts shall be credited to the Iowa resources enhancement and protection fund.

455A.19 Allocation of fund proceeds.

1. Upon receipt of any revenue, the director shall deposit the moneys in the Iowa resources enhancement and protection fund created pursuant to section 455A.18. The first three hundred fifty thousand dollars of the moneys received for deposit in the fund annually shall be allocated to the conservation education program board for the purposes specified in section 455A.21. One percent of the revenue receipts shall be deducted and transferred to the administration fund provided for in section 456A.17. All of the remaining receipts shall be allocated to the following accounts:

a. Twenty-eight percent shall be allocated to the open spaces account. At least ten percent of the allocations to the account shall be made available to match private funds for open space projects on the cost-share basis of not less than twenty-five percent private funds pursuant to the rules adopted by the natural resource commission. Five percent of the funds allocated to the open spaces account shall be used to fund the protected waters program. This account shall be used by the department to implement the statewide open space acquisition, protection, and development programs.

The department shall give priority to acquisition and control of open spaces of statewide significance. The department shall also use these funds for developments on state property. The total cost of an open space project funded under this paragraph “a” shall not exceed two million dollars unless a public hearing is held on the project in the area of the state affected by the project. However, on and after July 1, 1994, the following shall apply:

(1) If the total amount appropriated by the general assembly to the resources enhancement and protection fund, in any fiscal year as defined in section 8.36, is seven million dollars or more, not more than seventy-five percent of moneys in the open spaces account shall be allocated or obligated during that fiscal year to support a single project.

(2) If the total amount appropriated by the general assembly to the resources enhancement and protection fund, in any fiscal year as defined in section 8.36, is less than seven million dollars, not more than fifty percent of moneys in the open spaces account shall be allocated or obligated during that fiscal year to support a single project.

Political subdivisions of the state shall be reimbursed for property tax dollars lost to open space acquisitions based on the reimbursement formula provided for in section 465A.4. There is appropriated from the open spaces account to the department the amount in that account, or so much thereof as is necessary, to carry out the open spaces program as specified in this paragraph “a”. An appropriation made under this paragraph “a” shall continue in force for two fiscal years after the fiscal year in which the appropriation was made or until completion of the project. All unencumbered or unobligated funds remaining at the close of the fiscal year in which the project is completed or at the close of the fiscal year, whichever date is earlier, shall revert to the open spaces account.

b. Twenty percent shall be allocated to the county conservation account.

(1) Thirty percent of the allocation to the county conservation account annually shall be allocated to each county equally.

(2) Thirty percent of the allocation to the county conservation account annually shall be allocated to each county on a per capita basis.

(3) Forty percent of the allocation to the county conservation account annually shall be held in an account in the state treasury for the natural resource commission to award to counties on a competitive grant basis by a project selection committee established in this subparagraph. Local matching funds are not required for grants awarded under this subparagraph. The project planning and review committee shall be composed of two staff members of the department and two county conservation board directors appointed by the director and a fifth member selected by a majority vote of the director’s appointees. The natural resource commission, by rule, shall establish procedures for application, review, and selection of county projects submitted for funding. Upon recommendation of the project planning and review committee, the director shall award the grants.

(4) Funds allocated to the counties under subparagraphs (1), (2), and (3) may be used for land easements or acquisitions, capital improvements, stabilization and protection of resources, repair and upgrading of facilities, environmental education, and equipment. However, expenditures are not allowed for single or multipurpose athletic
wildlife habitat preservation and enhancement, programs including, but not limited to, reforestation, woodland protection and enhancement, wildlife habitat preservation and enhancement, protection of highly erodible soils, and clean water programs. The division of soil conservation, by rule, shall establish procedures for eligibility, application, review, and selection of projects and practices to implement the requirements of this paragraph. There is appropriated from the soil and water enhancement account to the soil conservation division the amount in that account, or so much thereof as is necessary, to carry out the programs as specified in this paragraph. Remaining funds of the soil and water enhancement account shall be allocated to the accounts of the water protection fund authorized in section 161C.4. Annually, fifty percent of the soil and water enhancement account funds shall be allocated to the water quality protection projects account. The balance of the funds shall be allocated to the water protection practices account. An appropriation made under this paragraph shall continue in force for two fiscal years after the fiscal year in which the appropriation was made or until completion of the project for which the appropriation was made, whichever date is earlier. All unencumbered or unobligated funds remaining at the close of the fiscal year in which the project is completed or at the close of the third fiscal year, whichever date is earlier, shall revert to the soil and water enhancement account.

d. Fifteen percent shall be allocated to a cities' parks and open space account. The moneys allocated in this paragraph may be used to fund competitive grants to cities to acquire, establish, and maintain natural parks, preserves, and open spaces. The grants may include expenditures for multipurpose trails, restroom facilities, shelter houses, and picnic facilities, but expenditures for single or multipurpose athletic fields, baseball or softball diamonds, tennis courts, golf courses, swimming pools, and other group or organized sport facilities requiring specialized equipment are excluded. The grants may be used for city projects located outside of a city’s boundaries. The natural resource commission, by rule, shall establish procedures for application, review, and selection of city projects on a competitive basis. The rules shall provide for three categories of cities based on population within which the cities shall compete for grants. There is appropriated from the cities' parks and open space account to the department the amount in that account, or so much thereof as is necessary, to carry out the competitive grant program as provided in this paragraph.

e. Nine percent shall be allocated to the state land management account. The department shall use the moneys allocated to this account for maintenance and expansion of state lands and related facilities under its jurisdiction. The authority to expand state lands and facilities under this paragraph is limited to expansion of the state lands and facilities already owned by the state. There is appropriated from the state land management account to the department the moneys in that ac-
account, or so much thereof as is necessary, to implement a maintenance and expansion program for state lands and related facilities under the jurisdiction of the department.

f. Five percent shall be allocated to the historical resource grant and loan fund established pursuant to section 303.16. The department of cultural affairs shall use the moneys allocated to this fund to implement historical resource development programs as provided under section 303.16.

g. Three percent shall be allocated to the living roadway account for distribution to the living roadway trust fund created under section 314.21 for the development and implementation of integrated roadside vegetation plans.

2. The moneys appropriated under this section shall remain in the appropriate account of the Iowa resources enhancement and protection fund until such time as the agency, board, commission, or overseer of the fund to which moneys are appropriated has made a request to the treasurer for use of moneys appropriated to it and the amount needed for that use. Notwithstanding section 8.33, moneys remaining of the appropriations made for a fiscal year from any of the accounts within the Iowa resources enhancement and protection fund on June 30 of that fiscal year, shall not revert to any fund but shall remain in that account to be used for the purposes for which they were appropriated and the moneys remaining in that account shall not be considered in making the allotments for the next fiscal year.

However, any moneys in excess of five hundred thousand dollars, remaining in the living roadway account under subsection 1, paragraph "g", on June 30 shall revert to the resources enhancement and protection fund under this section for distribution pursuant to the formula under this section except for subsection 1, paragraph "g". That proportion of moneys that would have been reallocated to subsection 1, paragraph "g", shall be distributed to the open spaces account under subsection 1, paragraph "a".

455A.20 County resource enhancement committee.

1. A county resource enhancement committee is created in each county. The membership of the committee shall be as follows:

Sections 69.16 and 69.16A do not apply to appointments made pursuant to this subsection.

2. The duties of the county resource enhancement committee are to coordinate the resource enhancement program, plans, and proposed projects developed by cities, county conservation board, and soil and water conservation district commissioners for funding under this division. 455B.103 Director’s duties.
The director shall:
1. Recommend to the commission the adoption of rules that are necessary for the effective administration of the department.
2. Recommend to the commission the adoption of rules to implement the programs and services assigned to it.

3. Contract, with the approval of the commission, with public agencies of this state to provide all laboratory, scientific field measurement and environmental quality evaluation services necessary to implement the provisions of this chapter and chapter 459, subchapters II and III. If the director finds that public agencies of this state cannot provide the laboratory, scientific field measurement and environmental evaluation services required by the department, the director may contract, with the approval of the commission, with any other public or private persons or agencies for such services or for scientific or technical services required to carry out the programs and services assigned to the department.

4. Conduct investigations of complaints received directly or referred by the commission created in section 455A.6 or other investigations deemed necessary. While conducting an investigation, the director may enter at any reasonable time in and upon any private or public property to investigate any actual or possible violation of this chapter or chapter 459, subchapters II and III, or the rules or standards adopted under this chapter or chapter 459, subchapters II and III. However, the owner or person in charge shall be notified.

a. If the owner or occupant of any property refuses admittance thereto, or if prior to such refusal the director demonstrates the necessity for a warrant, the director may make application under oath or affirmation to the district court of the county in which the property is located for the issuance of a search warrant.

b. In the application the director shall state that an inspection of the premises is mandated by the laws of this state or that a search of certain premises, areas, or things designated in the application may result in evidence tending to reveal the existence of violations of public health, safety, or welfare requirements imposed by statutes, rules or ordinances established by the state or a political subdivision thereof. The application shall describe the area, premises, or thing to be searched, give the date of the last inspection, if known, give the date and time of the proposed inspection, declare the need for such inspection, recite that notice of desire to make an inspection has been given to affected persons and that admission was refused if that be the fact, and state that the inspection has no purpose other than to carry out the purpose of the statute, ordinance, or regulation pursuant to which inspection is to be made. If an item of property is sought by the director it shall be identified in the application.

c. If the court is satisfied from the examination of the applicant, and of other witnesses, if any, and of the allegations of the application of the existence of the grounds of the application, or that there is probable cause to believe their existence, the court may issue such search warrant.

d. In making inspections and searches pursuant to the authority of this division, the director must execute the warrant:

(1) Within ten days after its date.

(2) In a reasonable manner, and any property seized shall be treated in accordance with the provisions of chapters 808, 809, and 809A.

(3) Subject to any restrictions imposed by the statute, ordinance or regulation pursuant to which inspection is made.

5. Accept, receive and administer grants or other funds or gifts from public or private agencies, including the federal government, for the abatement, prevention, or control of pollution, or other environmental programs, subject to the approval of the commission.

6. Represent the state in all matters pertaining to plans, procedures, negotiations, and agreements for interstate compacts relating to the control of pollution or the protection or enhancement of the environment. Any agreement is subject to the approval of the commission.

455B.103A General permits — stormwater discharge — air contaminant sources.

1. If a permit is required pursuant to this chapter or chapter 459 for stormwater discharge or an air contaminant source and a facility to be permitted is representative of a class of facilities which could be described and conditioned by a single permit, the director may issue, modify, deny, or revoke a general permit for all of the following conditions:

a. If adoption of a general permit is proposed, the terms, conditions, and limitations of the permit shall be drafted into a notice of intended action and adopted in accordance with the provisions of chapter 17A as a rule of the department. The same process of adoption shall be used for modification of a general permit.

b. Following the effective date of a general permit, a person proposing to conduct activities covered by the general permit shall provide a notice of intent to conduct a covered activity on a form provided by the department. A person shall also provide public notice of intent to conduct activities covered under the general permit by publishing notice in two newspapers with the largest circulation in the area in which the facility is located. Notice of the discontinuation of a permitted activity shall be provided in the same manner.

c. If the department finds that a proposed activity is not covered by a general permit, the department shall notify the affected person and shall
provide the person with a permit application if the practice is one which could be authorized by individual permit.

d. A person holding an existing permit is subject to the terms of the existing permit until it expires. If the person holding an existing permit continues the activity beyond the expiration date of the existing permit, an applicable, approved general permit shall become effective.

e. A variance or alteration of the terms and conditions of a general permit shall not be granted. If a variance or modification of an operation authorized by a general permit is desired, the applicant shall apply for an individual permit.

f. The department shall perform on-site inspections and review monitoring data to assess the effectiveness of general permits. If a significant adverse environmental problem exists for an individual facility or class of facilities due to regulation under a general permit, the facility or class of facilities shall be required to obtain individual permits.

g. The department shall establish a procedure for the filing of complaints by persons believing themselves to be adversely affected by the environmental impact of the discharge of a facility operating under a general permit under this section.

2. General permits are not subject to the requirements applicable to individual permits.

3. Three years after the adoption of a general permit by rule, the department shall assess the activities which have been conducted under the general permit and determine whether any significant adverse environmental consequences have resulted.

4. An applicant to be covered under a general permit shall pay a permit fee, as established by rule of the commission, which is sufficient in the aggregate to defray the costs of the permit program. Moneys collected shall be remitted to the department.

5. The enforcement provisions of division II of this chapter and chapter 459, subchapter II, apply to general permits for air contaminant sources. The enforcement provisions of division III, part 1, of this chapter and chapter 459, subchapter III, apply to general permits for stormwater discharge.

455B.105 Powers and duties of the commission.

The commission shall:

1. Establish policy for the implementation of programs under its jurisdiction. The commission shall appoint advisory committees to advise the commission and the director in carrying out their respective powers and duties.

2. Advise, consult, and co-operate with other agencies of the state, political subdivisions, and any other public or private agency to promote the orderly, efficient, and effective accomplishment of its responsibilities.

3. Adopt, modify, or repeal rules necessary to implement this chapter and chapter 459, and the rules deemed necessary for the effective administration of the department. When the commission proposes or adopts rules to implement a specific federal environmental program and the rules impose requirements more restrictive than the federal program being implemented requires, the commission shall identify in its notice of intended action or adopted rule preamble each rule that is more restrictive than the federal program requires and shall state the reasons for proposing or adopting the more restrictive requirement. In addition, the commission shall include with its reasoning a financial impact statement detailing the general impact upon the affected parties. It is the intent of the general assembly that the commission exercise strict oversight of the operations of the department. The rules shall include departmental policy relating to the disclosure of information on a violation or alleged violation of the rules, standards, permits or orders issued by the department and keeping of confidential information obtained by the department in the administration and enforcement of this chapter and chapter 459. Rules adopted by the executive committee before January 1, 1981, shall remain effective until modified or rescinded by action of the commission.

4. Issue orders and directives necessary to ensure integration and coordination of the programs administered by the department.

5. Make a concise annual report to the governor and the general assembly, which report shall contain information relating to the accomplish-
ments and status of the programs administered by the department and include recommendations for legislative action which may be required to protect or enhance the environment or to modernize the operation of the department or any of the programs or services assigned to the department and recommendations for the transfer of powers and duties of the department as deemed advisable by the commission. The annual report shall conform to the provisions of section 7A.3.

6. Approve all contracts and agreements under this chapter and chapter 459 between the department and other public or private persons or agencies.

7. Obtain an adequate public employees fidelity bond to cover those officers and employees of the department accountable for property or funds of this state.

8. Hold public hearings, except when the evidence to be received is confidential pursuant to this chapter, chapter 22, or chapter 459, necessary to carry out its powers and duties. The commission may issue subpoenas requiring the attendance of witnesses and the production of evidence pertinent to the hearings. A subpoena shall be issued and enforced in the same manner as provided in civil actions.

9. Upon request of at least four members of the commission before adopting or modifying a rule, the director shall prepare and publish with the notice required under section 17A.4, subsection 1, paragraph "a", a comprehensive estimate of the economic impact of the proposed rule or modification.

10. Appoint a water coordinator who shall coordinate requests from the public for information or assistance relating to the administration of water resources laws and programs and the resolution of water-related problems.

11. a. Adopt, by rule, procedures and forms necessary to implement the provisions of this chapter and chapter 459 relating to permits, conditional permits, and general permits. The commission may also adopt, by rule, a schedule of fees for permit and conditional permit applications and a schedule of fees which may be periodically assessed for administration of permits and conditional permits. In determining the fee schedules, the commission shall consider:

(1) The state’s reasonable cost of reviewing applications, issuing permits and conditional permits, and checking compliance with the terms of the permits.

(2) The relative benefits to the applicant and to the public of permit and conditional permit review, issuance, and monitoring compliance.

It is the intention of the legislature that permit fees shall not cover any costs connected with correcting violation of the terms of any permit and shall not impose unreasonable costs on any municipality.

(3) The typical costs of the particular types of projects or activities for which permits or conditional permits are required, provided that in no circumstances shall fees be in excess of the actual costs to the department.

b. Except as otherwise provided in this chapter and chapter 459, fees collected by the department under this subsection shall be remitted to the treasurer of state and credited to the general fund of the state.

455B.109 Schedule of fines — violations.

1. The commission shall establish, by rule, a schedule or range of civil penalties which may be administratively assessed. The schedule shall provide procedures and criteria for the administrative assessment of penalties of not more than ten thousand dollars for violations of this chapter or rules, permits or orders adopted or issued under this chapter. In adopting a schedule or range of penalties and in proposing or assessing a penalty, the commission and director shall consider among other relevant factors the following:

a. The costs saved or likely to be saved by non-
compliance by the violator.

b. The gravity of the violation.

c. The degree of culpability of the violator.

d. The maximum penalty authorized for that violation under this chapter.*

Penalties may be administratively assessed only after an opportunity for a contested case hearing which may be combined with a hearing on the merits of the alleged violation. Violations not fitting within the schedule, or violations which the commission determines should be referred to the attorney general for legal action should not be governed by the schedule established under this subsection.

2. When the commission establishes a schedule for violations, the commission shall provide, by rule, a procedure for the screening of alleged violations to determine which cases may be appropriate for the administrative assessment of penalties. However, the screening procedure shall not limit the discretion of the department to refer any case to the attorney general for legal action.

3. A penalty shall be paid within thirty days of the date the order assessing the penalty becomes final. When a person against whom a civil penalty is assessed under this section seeks timely judicial review of an order imposing the penalty as provided under chapter 17A, the order is not final for the purposes of this section until all judicial review processes are completed. Additional judicial review may not be sought after the order becomes final. A person who fails to timely pay a civil penalty assessed by a final order of the department shall pay, in addition, interest at the rate of one and one-half percent of the unpaid balance of the assessed penalty for each month or part of a month that the penalty remains unpaid. The attorney general shall institute, at the request of the department, summary proceedings to recover the penalty and any accrued interest.

4. All civil penalties assessed by the department and interest on the penalties shall be deposited in the general fund of the state. However, civil penalties assessed by the department and interest on the civil penalties, arising out of violations involving animal feeding operations under chapter 459, subchapter II, shall be deposited in the animal agriculture compliance fund as created in section 459.401. Civil penalties assessed by the department and interest on the penalties arising out of violations committed by animal feeding operations under chapter 459, subchapter III, which may be assessed pursuant to section 455B.191 or 459.604, shall also be deposited in the animal agriculture compliance fund.

5. This section does not require the commission or the director to pursue an administrative remedy before seeking a remedy in the courts of this state.

The written notice shall specify the nature of the violation and that legal action is contemplated under this section if the violation is not abated and, if necessary, remedial action is not taken. The state may intervene in such an action as a matter of right. In addition, an action shall not be commenced pursuant to subsection 1, paragraph “a”, if the department or the state has commenced and is actively prosecuting a civil action or is actively negotiating an out-of-court settlement to require abatement of the violation and, if necessary, remediation of damages. However, any person may intervene as a matter of right in such an action.

3. A person shall have standing to commence an action pursuant to subsection 1 or to intervene in an action pursuant to subsection 2 if the person is adversely affected by the alleged violation or the alleged failure to perform a duty or act.

4. In an action commenced pursuant to subsection 1, the court may award costs of litigation, including reasonable attorney and expert witness fees, to any party.

2. The commission shall adopt rules regarding content of laboratory certification application forms, which shall be furnished by the department.  
3. The director may charge a fee for processing of an application. The application fee is nonrefundable. In establishing the fee, the director shall take into account the administrative costs incurred and the cost of enforcement of this section. Fees collected shall be retained by the department.  
4. A laboratory shall submit an application, every other year, accompanied by the fee determined by the director.  
§455B.114 Laboratory certificates.  
1. Upon determination by the director that an applicant for certification has the necessary competence, equipment, and capability to perform the laboratory analytical procedures required, the director shall issue a certificate of competency to the laboratory. The certificate shall indicate the analytical parameters and procedures which the laboratory is certified to conduct.  
2. The director may suspend or revoke the certificate of competency of a laboratory upon determination of the director that the laboratory no longer fulfills the requirements for certification.  
§455B.115 Analysis by certified laboratory required.

Analytical results from laboratories not certificated shall not be accepted by the director.  
§455B.116 Pollution hotline program.  
The department shall establish a toll-free telephone number to allow citizens to report incidents resulting in pollution of the environment or damage to natural resources. The department shall receive and evaluate the reports and refer them to the appropriate state or local jurisdiction for initial investigation. The agency receiving a referral shall investigate the complaint, attempt to resolve the problem, and upon completion of the investigation, report to the department on the disposition of each complaint indicating how the problem was resolved.  
The department shall use moneys appropriated to the waste volume reduction and recycling fund for the purpose of implementation of the program and shall use the moneys appropriated under section 455E.11 for the program to provide financial assistance to counties for investigation of complaints.  
§455B.117 Results of environmental tests — public records.  
The results of any test, which test is relative to the purview of the department, and which test is conducted or performed by an independent entity at the request of a government body, as defined in section 22.1, or an agent or attorney for a government body, are public records pursuant to chapter 22.  
A government body shall not be required to provide such test results to any person under this section until the agency head and agency’s governing body have received a copy of the test results. A government body shall not be required to provide such test results if the confidentiality of such information is protected pursuant to section 22.7. However, following receipt of test results by an agency head and the agency’s governing body, the
agency head or agency's governing body shall not take action regarding such test results unless the test results have been made public knowledge for a period of not less than seven days.

DIVISION II
AIR QUALITY
PART 1
GENERAL

455B.131 Definitions.
When used in this division II, unless the context otherwise requires:
1. “Air contaminant” means dust, fume, mist, smoke, other particulate matter, gas, vapor (except water vapor), odorous substance, radioactive substance, or any combination thereof.
2. “Air contaminant source” means any and all sources of emission of air contaminants whether privately or publicly owned or operated.
Air contaminant source includes, but is not limited to, all types of businesses, commercial and industrial plants, works, shops, and stores, heating and power plants and stations, buildings and other structures of all types including single and multiple family residences, office buildings, hotels, restaurants, schools, hospitals, churches and other institutional buildings, automobiles, trucks, tractors, buses, aircraft, and other motor vehicles, garages, vending and service locations and stations, railroad locomotives, ships, boats, and other waterborne craft, portable fuel-burning equipment, indoor and outdoor incinerators of all types, refuse dumps and piles, and all stack and other chimney outlets from any of the foregoing.
An air contaminant source does not include a fire truck or other fire apparatus operated by an organized fire department.
3. “Air pollution” means presence in the outdoor atmosphere of one or more air contaminants in sufficient quantities and of such characteristics and duration as is or may reasonably tend to be injurious to human, plant, or animal life, or to property, or which unreasonably interferes with the enjoyment of life and property.
4. “Atmosphere” means all space outside of buildings, stacks or exterior ducts.
5. “Earthen waste slurry storage basin” means an uncovered and exclusively earthen cavity which, on a regular basis, receives waste discharges from a confinement animal feeding operation if accumulated wastes from the basin are completely removed at least twice each year.
6. “Emission” means a release of one or more air contaminants into the outside atmosphere.
7. “Major stationary source” means a stationary air contaminant source which directly emits, or has the potential to emit, one hundred tons or more of an air pollutant per year including a major source of fugitive emissions of a pollutant as determined by rule by the department or the administrator of the United States environmental protection agency.
8. “Person” means an individual, partnership, copartnership, cooperative, firm, company, public or private corporation, political subdivision, agency of the state, trust, estate, joint stock company, an agency or department of the federal government or any other legal entity, or a legal representative, agent, officer, employee or assigns of such entities.
9. “Political subdivision” means any municipality, township, county, or district, or authority, or any portion, or combination of two or more thereof.
10. “Potential to emit” means the maximum capacity of a stationary source to emit a pollutant under its physical and operational design as defined in rules adopted by the department.
11. “Schedule and timetable of compliance” means a schedule of remedial measures including an enforceable sequence of actions or operations leading to compliance with an emission limitation, other limitation, prohibition, or standard.

455B.132 Executive agency.
The department shall be the agency of the state to prevent, abate, or control air pollution.
[C73, 75, 77, 79, 81, §455B.11] C83, §455B.132

455B.133 Duties.
The commission shall:
1. Develop comprehensive plans and programs for the abatement, control, and prevention of air pollution in this state, recognizing varying requirements for different areas in the state. The plans may include emission limitations, schedules and timetables for compliance with the limitations, measures to prevent the significant deterioration of air quality and other measures as necessary to assure attainment and maintenance of ambient air quality standards.
2. Adopt, amend, or repeal rules pertaining to the evaluation, abatement, control, and prevention of air pollution. The rules may include those that are necessary to obtain approval of the state implementation plan under section 110 of the federal Clean Air Act as amended through January 1, 1991.
3. Adopt, amend, or repeal ambient air quality standards for the atmosphere of this state on the
basis of providing air quality necessary to protect the public health and welfare and to reduce emissions contributing to acid rain pursuant to Title IV of the federal Clean Air Act Amendments of 1990.

4. Adopt, amend, or repeal emission limitations or standards relating to the maximum quantities of air contaminants that may be emitted from any air contaminant source. The standards or limitations adopted under this section shall not exceed the standards or limitations promulgated by the administrator of the United States environmental protection agency or the requirements of the federal Clean Air Act as amended through January 1, 1991. This does not prohibit the commission from adopting a standard for a source or class of sources for which the United States environmental protection agency has not promulgated a standard. This also does not prohibit the commission from adopting an emission standard or limitation for infectious medical waste treatment or disposal facilities which exceeds the standards or limitations promulgated by the administrator of the United States environmental protection agency or the requirements of the federal Clean Air Act as amended through January 1, 1991. The commission shall not adopt an emission standard or limitation for infectious medical waste treatment or disposal facilities prior to January 1, 1995, which exceeds the standards or limitations promulgated by the administrator of the United States environmental protection agency or the requirements of the federal Clean Air Act, as amended through January 1, 1991, for a hospital, or a group of hospitals, licensed under chapter 135B which has been operating an infectious medical waste treatment or disposal facility prior to January 1, 1991.

a. (1) The commission shall establish standards of performance unless in the judgment of the commission it is not feasible to adopt or enforce a standard of performance. If it is not feasible to adopt or enforce a standard of performance, the commission may adopt a design, equipment, material, work practice or operational standard, or combination of those standards in order to establish reasonably available control technology or the lowest achievable emission rate in nonattainment areas, or in order to establish best available control technology in areas subject to prevention of significant deterioration review, or in order to adopt the emission limitations promulgated by the administrator of the United States environmental protection agency under section 111 or 112 of the federal Clean Air Act as amended through January 1, 1991.

(2) If a person establishes to the satisfaction of the commission that an alternative means of emission limitation will achieve a reduction in emissions of an air pollutant at least equivalent to the reduction in emissions of the air pollutant achieved under the design, equipment, material, work practice or operational standard, the commission shall amend its rules to permit the use of the alternative by the source for purposes of compliance with this paragraph with respect to the pollutant.

(3) A design, equipment, material, work practice or operational standard promulgated under this paragraph shall be promulgated in terms of a standard of performance when it becomes feasible to promulgate and enforce the standard in those terms.

(4) For the purpose of this paragraph, the phrase "not feasible to adopt or enforce a standard of performance" refers to a situation in which the commission determines that the application of measurement methodology to a particular class of sources is not practicable due to technological or economic limitations.

b. If the maximum standards for the emission of sulfur dioxide from solid fuels have to be reduced in an area to meet ambient air quality standards, a contract for coal produced in Iowa and burned by a facility in that area that met the sulfur dioxide emission standards in effect at the time the contract went into effect shall be exempted from the decreased requirement until the expiration of the contract period or December 31, 1983, whichever first occurs, if there is any other reasonable means available to satisfy the ambient air quality standards. To qualify under this subsection, the contract must be recorded with the county recorder of the county where the burning facility is located within thirty days after the signing of the contract.

c. The degree of emission limitation required for control of an air contaminant under an emission standard shall not be affected by that part of the stack height of a source that exceeds good engineering practice, as defined in rules, or any other dispersion technique. This paragraph shall not apply to stack heights in existence before December 30, 1970, or dispersion techniques implemented before that date.

5. Classify air contaminant sources according to levels and types of emissions, and other characteristics which relate to air pollution. The commission may require, by rule, the owner or operator of any air contaminant source to establish and maintain such records, make such reports, install, use and maintain such monitoring equipment or methods, sample such emissions in accordance with such methods at such locations and intervals, and using such procedures as the commission shall prescribe, and provide such other information as the commission may reasonably require. Such classifications may be for application to the state as a whole, or to any designated area of the state, and shall be made with special reference to effects on health, economic and social factors, and physical effects on property.

6. a. Require, by rules, notice of the construction or any air contaminant source which may cause or contribute to air pollution, and the sub-
mmission of plans and specifications to the department, or other information deemed necessary, for the installation of air contaminant sources and related control equipment. The rules shall allow the owner or operator of a major stationary source to elect to obtain a conditional permit in lieu of a construction permit. The rules relating to a conditional permit for an electric power generating facility subject to chapter 476A and other major stationary sources shall allow the submission of engineering descriptions, flow diagrams and schematics that quantitatively and qualitatively identify emission streams and alternative control equipment that will provide compliance with emission standards. Such rules shall not specify any particular method to be used to reduce undesirable levels of emissions, nor type, design, or method of installation of any equipment to be used to reduce such levels of emissions, nor the type, design, or method of installation or type of construction of any manufacturing processes or kinds of equipment, nor specify the kind or composition of fuels permitted to be sold, stored, or used unless authorized by subsection 4 of this section.

b. The commission may give technical advice pertaining to the construction or installation of the equipment or any other recommendation.

7. Commission rules establishing maximum permissible sulfate content shall not apply to an expansion of an industrial anaerobic lagoon facility which was constructed prior to February 22, 1979.

8. a. Adopt rules consistent with the federal Clean Air Act Amendments of 1990, Pub. L. No. 101-549, which require the owner or operator of an air contaminant source to obtain an operating permit prior to operation of the source. The rules shall specify the information required to be submitted with the application for a permit and the conditions under which a permit may be granted, modified, suspended, terminated, revoked, reissued, or denied. For sources subject to the provisions of Title IV of the federal Clean Air Act Amendments of 1990, permit conditions shall include emission allowances for sulfur dioxide emissions. The commission may impose fees, including fees upon regulated pollutants emitted from an air contaminant source, in an amount sufficient to cover all reasonable costs required to develop and administer the programs required by Title V of the federal Clean Air Act Amendments of 1990, Pub. L. No. 101-549, including the permit program pursuant to section 502 of the federal Act and the small business stationary source technical and environmental assistance program pursuant to section 507 of the federal Act.

b. Adopt rules allowing the department to issue a state operating permit to an owner or operator of an air contaminant source. The state operating permit granted under this paragraph may only be issued at the request of an air contaminant source and will be used to limit its potential to emit to less than one hundred tons per year of a criteria pollutant as defined by the United States environmental protection agency or ten tons per year of a hazardous air pollutant or twenty-five tons of any combination of hazardous air pollutants.

c. Adopt rules for the issuance of a single general permit, after notice and opportunity for a public hearing. The single general permit shall cover numerous sources to the extent that the sources are representative of a class of facilities which can be identified and conditioned by a single permit.

9. Adopt rules allowing asphalt shingles to be burned in a fire set for the purpose of bona fide training of public or industrial employees in fire fighting methods only if a notice is provided to the director containing testing results indicating that the asphalt shingles do not contain asbestos. Each fire department shall be permitted to host two fires per year as allowed under this subsection.

10. Adopt rules allowing a city to conduct a controlled burn of a demolished building subject to the requirements that are in effect for the proper removal of all asbestos-containing materials prior to demolition and burning. The rules shall include provisions that a burn site have controlled access, that a burn site be supervised by representatives of the city at all times, and that the burning be conducted only when weather conditions are favorable with respect to surrounding property. For a burn site located outside of a city, the rules shall include a provision that a city may undertake not more than one such controlled burn per day and that a burn site be limited to an area located at least six-tenths of a mile from any inhabited building. For burn sites located within a city, the rules shall include a provision that a city may undertake not more than one such controlled burn in every six-tenths-of-a-mile-radius circle in each calendar year. The rules shall prohibit a controlled burn of a demolished building in Cedar Rapids, Marion, Hiawatha, Council Bluffs, Carter Lake, Des Moines, West Des Moines, Clive, Windsor Heights, Urbandale, Pleasant Hill, Buffalo, Davenport, Mason City, or any other area where area-specific state implementation plans require the control of particulate matter.

An air contaminant source fund is created in the office of the treasurer of state under the control of the department. Moneys received from the fees assessed pursuant to section 455B.133, subsection 8, shall be deposited in the fund. Moneys in the fund shall be used solely to defray the costs related to the permit, monitoring, and inspection program, including the small business stationary source technical and environmental compliance assistance program required pursuant to the federal Clean Air Act Amendments of 1990, sections 502 and 507, Pub. L. No. 101-549. Notwithstanding section 8.33, any unexpended balance in the fund at the end of each fiscal year shall be retained in the fund. Notwithstanding section 12C.7, any interest and earnings on investments from money in the fund shall be credited to the fund.

455B.134 Director — duties — limitations.
The director shall:
1. Publish and administer the rules and standards established by the commission. The department shall furnish a copy of such rules or standards to any person upon request.
2. Provide technical, scientific, and other services required by the commission or for the effective administration of this division II and chapter 459, subchapter II.
3. Grant, modify, suspend, terminate, revoke, reissue or deny permits for the construction or operation of new, modified, or existing air contaminant sources and for related control equipment, and conditional permits for electric power generating facilities subject to chapter 476A and other major stationary sources, subject to the rules adopted by the commission. The department shall furnish necessary application forms for such permits.
a. No air contaminant source shall be installed, altered so that it significantly affects emissions, or placed in use unless a construction or conditional permit has been issued for the source.
b. The condition of expected performance shall be reasonably detailed in the construction or conditional permit.
c. All applications for permits other than conditional permits for electric generating facilities shall be subject to such notice and public participation as may be provided by rule by the commission. Upon denial or limitation of a permit other than a conditional permit for an electric generating facility, the applicant shall be notified of such denial and informed of the reason or reasons therefor, and such applicant shall be entitled to a hearing before the commission.
d. All applications for conditional permits for electric power generating facilities shall be subject to such notice and opportunity for public participation as may be consistent with chapter 476A or any agreement pursuant thereto under chapter 28E. The applicant or intervener may appeal to the commission from the denial of a conditional permit or any of its conditions. For the purposes of chapter 476A, the issuance or denial of a conditional permit by the director or by the commission upon appeal shall be a determination that the electric power generating facility does or does not meet the permit and licensing requirements of the commission. The issuance of a conditional permit shall not relieve the applicant of the responsibility to submit final and detailed construction plans and drawings and an application for a construction permit for control equipment that will meet the emission limitations established in the conditional permit.
e. A regulated air contaminant source for which a construction permit or conditional permit has been issued shall not be operated unless an operating permit also has been issued for the source. However, if the facility was in compliance with permit conditions prior to the requirement for an operating permit and has made timely application for an operating permit, the facility may continue operation until the operating permit is issued or denied. Operating permits shall contain the requisite conditions and compliance schedules to ensure conformance with state and federal requirements including emission allowances for sulfur dioxide emissions for sources subject to Title IV of the federal Clean Air Act Amendments of 1990. If construction of a new air contaminant source is proposed, the department may issue an operating permit concurrently with the construction permit, if possible and appropriate.
f. (1) Notwithstanding any other provision of division II of this chapter or chapter 459, subchapter II, the following siting requirements shall apply to anaerobic lagoons and earthen waste slurry storage basins:
   Anaerobic lagoons, constructed or expanded on
or after June 20, 1979, but prior to May 31, 1995, or earthen waste slurry storage basins, constructed or expanded on or after July 1, 1990, but prior to May 31, 1995, are used in connection with animal feeding operations containing less than six hundred twenty-five thousand pounds live animal weight capacity of animal species other than beef cattle or containing less than one million six hundred thousand pounds live animal weight capacity of beef cattle, shall be located at least one thousand two hundred fifty feet from a residence not owned by the owner of the feeding operation or from a public use area other than a public road. Anaerobic lagoons or earthen waste slurry storage basins, which are used in connection with animal feeding operations containing six hundred twenty-five thousand pounds or more live animal weight capacity of animal species other than beef cattle or containing one million six hundred thousand pounds or more live animal weight capacity of beef cattle, shall be located at least one thousand eight hundred seventy-five feet from a residence not owned by the owner of the feeding operation or from a public use area other than a public road. For the purpose of this paragraph the determination of live animal weight capacity shall be based on the average animal weight capacity during a production cycle and the maximum animal capacity of the animal feeding operation.

Anaerobic lagoons which are used in connection with industrial treatment of wastewater where the average wastewater discharge flow is one hundred thousand gallons per day or less shall be located at least one thousand two hundred fifty feet from a residence not owned by the owner of the lagoon or from a public use area other than a public road. Anaerobic lagoons which are used in connection with industrial treatment of wastewater where the average wastewater discharge flow is greater than one hundred thousand gallons per day shall be located at least one thousand eight hundred seventy-five feet from a residence not owned by the owner of the lagoon or from a public use area other than a public road. These separation distances apply to the construction of new facilities and the expansion of existing facilities.

2. A person may build or expand an anaerobic lagoon or an earthen waste slurry storage basin closer to a residence not owned by the owner of the anaerobic lagoon or to a public use area than is otherwise permitted by subparagraph (1) of this paragraph, if the affected landowners enter into a written agreement with the anaerobic lagoon owner to waive the separation distances under such terms the parties negotiate. The written agreement becomes effective only upon recording in the office of the recorder of deeds of the county in which the residence is located.

4. Determine by field studies and sampling the quality of atmosphere and the degree of air pollution in this state or any part thereof. 5. Conduct and encourage studies, investigations, and research relating to air pollution and its causes, effects, abatement, control, and prevention.

6. Provide technical assistance to political subdivisions of this state requesting such aid for the furtherance of air pollution control.

7. Collect and disseminate information, and conduct educational and training programs, relating to air pollution and its abatement, prevention, and control.

8. Consider complaints of conditions reported to, or considered likely to, constitute air pollution, and investigate such complaints upon receipt of the written petition of any state agency, the governing body of a political subdivision, a local board of health, or twenty-five affected residents of the state.

9. Issue orders consistent with rules to cause the abatement or control of air pollution, or to secure compliance with permit conditions. In making the orders, the director shall consider the facts and circumstances bearing upon the reasonableness of the emissions involved, including but not limited to, the character and degree of injury to, or interference with, the protection of health and the physical property of the public, the practicability of reducing or limiting the emissions from the air pollution source, and the suitability or unsuitability of the air pollution source to the area where it is located. An order may include advisory recommendations for the control of emissions from an air contaminant source and the reduction of the emission of air contaminants.

10. Encourage voluntary co-operation by persons or affected groups in restoring and preserving a reasonable quality of air within the state.

11. Encourage political subdivisions to handle air pollution problems within their respective jurisdictions.

12. Review and evaluate air pollution control programs conducted by political subdivisions of the state with respect to whether the programs are consistent with the provisions of division II of this chapter and chapter 459, subchapter II, and rules adopted by the commission.

13. Hold public hearings, except when the evidence to be received is confidential pursuant to section 455B.137, necessary to accomplish the purposes of division II of this chapter and chapter 459, subchapter II. The director may issue subpoenas requiring the attendance of witnesses and the production of evidence pertinent to the hearings. A subpoena shall be issued and enforced in the same manner as in civil actions.

Information received by the department or any employees of the department through filed reports, inspections, or as otherwise authorized in this division II or chapter 459, subchapter II, concerning trade secrets, secret industrial processes, or other privileged communications, except emission data, shall not be disclosed or opened to public inspection, except as may be necessary in a proceeding concerning a violation of said division or of any rules promulgated thereunder, or as otherwise authorized or ordered by appropriate court action or proceedings. Nothing herein shall be construed to prevent the director from compiling or publishing analyses or summaries relating to the general condition of the atmosphere; provided that such analyses or summaries do not reveal any information otherwise confidential under this section.

455B.138 Resolution of violations — appeal.
1. When the director has evidence that a violation of any provision of division II of this chapter or chapter 459, subchapter II, or rule, standard or permit established or issued under division II or chapter 459, subchapter II, has occurred, the director shall notify the alleged violator and, by informal negotiation, attempt to resolve the problem. If the negotiations fail to resolve the problem within a reasonable period of time, the director shall issue an order directing the violator to prevent, abate or control the emissions or air pollution involved. The order shall prescribe the date by which the violation shall cease and may prescribe timetables for necessary action to prevent, abate or control the emissions of air pollution. The order may be appealed to the commission.

2. After the hearing on appeal, the commission may affirm, modify or rescind the order of the director.

3. The director shall keep a complete record of the hearings and proceeding and the record shall be open to public inspection, subject to section 455B.137. Upon request, a copy of the transcript shall be furnished to the violator or alleged violator at the violator's or alleged violator's expense.

4. An appeal to the commission under this section shall be conducted as a contested case under chapter 17A.

455B.139 Emergency orders.
If the director has evidence that any person is causing air pollution and that such pollution creates an emergency requiring immediate action to protect the public health and safety, or property, the director may, without notice, issue an emergency order requiring such person to reduce or discontinue immediately the emission of air contaminants. A copy of the emergency order shall be served by personal service. An emergency order issued by the director may be appealed to the commission. After hearing on appeal, the commission may affirm, modify or rescind the order of the director.

455B.140 Judicial review.
Judicial review of actions of the commission or of the director may be sought in accordance with the terms of the Iowa administrative procedure Act, chapter 17A. Notwithstanding the terms of said Act, petitions for judicial review may be filed in the district court of the county in which the alleged offense was committed.
455B.141 Legal action.
If action to prevent, control, or abate air pollution is not taken in accordance with the rules established, or orders or permits issued by the department, or if the director has evidence that an emergency exists by reason of air pollution which requires immediate action to protect the public health or property, the attorney general, at the request of the director, shall commence legal action, in the name of the state, for an injunction to prevent any further or continued violation of such rule or order.

455B.142 Burden of proof.
In all proceedings with respect to any alleged violation of the provisions of this division II or chapter 459, subchapter II, or any rule established by the commission, the burden of proof shall be upon the department except in an action for an injunction as provided in section 455B.141.

455B.143 Variance.
Any person who owns or operates any plant, building, structure, process, or equipment may apply for a variance from the rules or standards adopted by the department by filing an application with the department. The application shall be accompanied by such information and data required by the department.
1. The director shall promptly investigate the application and approve or disapprove the application. The director may grant a variance if the director finds that:
   a. The emissions occurring or proposed to occur do not endanger or tend to endanger human health or safety or property; and
   b. Compliance with the rules or standards from which the variance is sought will produce serious hardship without equal or greater benefits to the public.
2. The applicant may request a review hearing before the department if the application is denied.
3. In determining under what conditions and to what extent a variance may be granted, the director shall give due recognition to the progress which the applicant has made toward eliminating or preventing air pollution. In such a case, the director shall consider the reasonableness of the request, conditioned upon such applicant effecting a partial abatement of the particular air pollution within a reasonable period of time, or the director may prescribe other requirements with which such applicant shall comply.
4. The director may grant a variance for a specified period of time, not exceeding one year, and the director may further specify that the applicant make periodic reports specifying the progress that has been made toward compliance with any rule for which the variance was granted. A variance may be extended from year to year by affirmative action of the director.
5. The director shall maintain a record of each variance granted specifying the reasons for its issuance or extension.

455B.144 Local control program.
1. Any political subdivision may conduct an air pollution control program within the boundaries of its jurisdiction, or may jointly conduct an air pollution control program with other political subdivisions of this state or of other states, except that every joint program shall be established and administered as provided in chapter 28E. In conducting such programs, political subdivisions may adopt and enforce rules or standards to secure and maintain adequate air quality within their respective jurisdictions.
2. If the board of supervisors in any county establishes an air pollution control program and has obtained a certificate of acceptance, the agency implementing the program may regulate air pollution within the county including any incorporated areas therein until such incorporated areas obtain a certificate of acceptance as a joint or separate agency.
3. Any political subdivision may conduct an air pollution control program within the county including any incorporated areas therein until such incorporated areas obtain a certificate of acceptance as a joint or separate agency.
4. The director may grant a variance for a specified period of time, not exceeding one year, and the director may further specify that the applicant make periodic reports specifying the progress that has been made toward compliance with any rule for which the variance was granted. A variance may be extended from year to year by affirmative action of the director.
5. The director shall maintain a record of each variance granted specifying the reasons for its issuance or extension.
6. The director may grant a variance for a specified period of time, not exceeding one year, and the director may further specify that the applicant make periodic reports specifying the progress that has been made toward compliance with any rule for which the variance was granted. A variance may be extended from year to year by affirmative action of the director.
7. The director shall maintain a record of each variance granted specifying the reasons for its issuance or extension.
ing requirements consistent with, or more strict than, those imposed by this division II or rules and standards adopted by the department.

b. Enforcement of such requirements by appropriate administrative and judicial process.

c. Administrative organization, staff, financial and other resources necessary to administer an efficient and effective program.

d. Location of emission monitoring devices in areas of the political subdivision in compliance with uniform state standards adopted by the department. The department shall adopt uniform state standards for the location of emission monitoring devices specifying such intervals and such procedures to provide a reasonably consistent measurement of emissions from air contaminant sources regardless of the political subdivision of the state in which the sources may be located.

2. Upon acceptance of a local air pollution control program, the director shall issue a certificate of acceptance to the appropriate local agency.

a. Any political subdivision desiring a certificate of acceptance shall apply to the department on forms prescribed by the director.

b. The director shall promptly investigate the application and approve or disapprove the application. The director may conduct a public hearing before action is taken to approve or disapprove. If the director disapproves issuing a certificate, the political subdivision may appeal the action to the department of inspections and appeals. At the hearing on appeal, the department of inspections and appeals shall decide whether the local program is substantially consistent with the provisions of this division II, or rules adopted thereunder, and whether the local program is being enforced. The burden of proof shall be upon the political subdivision.

c. If the director determines at any time that a local air pollution program is being conducted in a manner inconsistent with the substantive provisions of this division II or the rules adopted thereunder, the director shall notify the political subdivision, citing the deviations from the acceptable standards and the corrective measures to be completed within a reasonable amount of time. If the corrective measures are not implemented as prescribed, the director shall suspend in whole or in part the certificate of acceptance of such political subdivision and shall administer the regulatory provisions of said division in whole or in part within the political subdivision until the appropriate standards are met. Upon receipt of evidence that necessary corrective action has been taken, the director shall reinstate the suspended certificate of acceptance, and the political subdivision shall resume the administration of the local air pollution control program within its jurisdiction. In cases where the certificate of acceptance is suspended, the political subdivision may appeal the suspension to the department of inspections and appeals.

d. Nothing in this division II shall be construed to supersede the jurisdiction of any local air pollution control program in operation on the first of January, 1973, except that any such program shall meet all requirements of said division.

455B.146 Civil action for compliance — local program actions.

If any order, permit, or rule of the department is being violated, the attorney general shall, at the request of the department or the director, institute a civil action in any district court for injunctive relief to prevent any further violation of the order, permit, or rule, or for the assessment of a civil penalty as determined by the court, not to exceed ten thousand dollars per day for each day such violation continues, or both such injunctive relief and civil penalty. Notwithstanding sections 331.302 and 331.307, a city or county which maintains air pollution control programs authorized by certificate of acceptance under this division may provide civil penalties consistent with the amount established for such penalties under this division.

455B.146A Criminal action — penalties.

1. A person who knowingly violates any provision of division II of this chapter, any permit, rule, standard, or order issued under division II of this chapter, or any condition or limitation included in any permit issued under division II of this chapter, is guilty of an aggravated misdemeanor. A conviction for a violation is punishable by a fine of not more than ten thousand dollars for each day of violation or by imprisonment for not more than two years, or both. If the conviction is for a second or subsequent violation committed by a person under this section, however, the conviction is punishable by a fine of not more than twenty thousand dollars for each day of violation or by imprisonment for not more than four years, or by both.

2. a. A person who knowingly makes any false statement, representation, or certification of any application, record, report, plan, or other document filed or required to be maintained under division II of this chapter, or by any permit, rule, standard, or order issued under division II of this chapter or who falsifies, tampers with, or knowingly renders inaccurate any monitoring device or method required to be maintained under division II of this chapter, or by any permit, rule, standard,
or order issued under division II of this chapter, or who knowingly fails to notify or report as required by division II of this chapter or by any permit, rule, standard, or order issued under division II of this chapter, is guilty of an aggravated misdemeanor punishable by a fine of not more than ten thousand dollars per day per violation or by imprisonment for not more than one year, or by both. If the conviction is for a second or subsequent violation committed by a person under this paragraph, however, the conviction is punishable by a fine of not more than twenty thousand dollars for each day of violation or by imprisonment for not more than two years, or by both.

5. A person who knowingly fails to pay any fee owed the state under any provision of division II of this chapter, or any permit, rule, standard, or order issued under division II of this chapter, is guilty of an aggravated misdemeanor punishable by a fine of not more than ten thousand dollars per day per violation or by imprisonment for not more than six months, or by both. If the conviction is for a second or subsequent violation under this paragraph, however, the conviction is punishable by a fine of not more than twenty thousand dollars for each day of violation or by imprisonment for not more than one year, or by both.

3. A person who negligently releases into the ambient air any hazardous air pollutant or extremely hazardous substance, and who at the time negligently places another person in imminent danger of death or serious bodily injury, shall, upon conviction, be punished by a fine of not more than twenty-five thousand dollars for each day of violation or by imprisonment for not more than one year, or by both. If the conviction is for a second or subsequent negligent violation committed by a person under this section, however, the conviction is punishable by a fine of not more than fifty thousand dollars for each day of violation or by imprisonment for not more than two years, or by both.

4. a. A person who knowingly releases into the ambient air any hazardous air pollutant or extremely hazardous substance, and who knows at the time that the conduct places another person in imminent danger of death or serious bodily injury shall, upon conviction, be punished by a fine of not more than fifty thousand dollars per violation or by imprisonment for not more than two years, or by both. However, if the person committing the violation is other than an individual or a government entity, upon conviction the person shall be punished by a fine of not more than one million dollars per violation. If the conviction is for a second or subsequent violation under this paragraph, the conviction is punishable by a fine or imprisonment, or both, as consistent with federal law.

b. In determining whether a defendant who is an individual knew that the violation placed another person in imminent danger of death or serious bodily injury, the following shall apply:

(1) The defendant is deemed to have knowledge only if the defendant possessed actual awareness or held an actual belief.

(2) Knowledge possessed by a person other than the defendant, and not by the defendant personally, is not attributable to the defendant. In establishing a defendant’s possession of actual knowledge, circumstantial evidence may be used, including evidence that the defendant took affirmative action to be shielded from relevant information.

c. It is an affirmative defense that the conduct was freely consented to by the person endangered and that the danger and conduct were reasonably foreseeable hazards of either of the following:

(1) An occupation, a business, or a profession.

(2) Medical treatment or medical or scientific experimentation conducted by professionally approved methods if the person was made aware of the risks involved prior to providing consent. An affirmative defense under this subparagraph shall be established by a preponderance of the evidence.

d. All general defenses, affirmative defenses, and bars to prosecution that are applicable with respect to other criminal offenses apply under paragraph “a.” All defenses and bars to prosecution shall be determined by the courts in accordance with the principles of common law as interpreted, taking into consideration the elements of reason and experience. The concepts of justification and legal excuse, as applicable, may be developed, taking into consideration the elements of reason and experience.

e. As used in this subsection, “serious bodily injury” means bodily injury which involves a substantial risk of death, unconsciousness, extreme physical pain, protracted and obvious disfigurement, or protracted loss or impairment of the function of a bodily member, organ, or mental faculty.

5. a. Notwithstanding this section, a source required to obtain a permit for construction or modification of a source prior to the date on which the state received delegation of the federal operating permit program which failed to timely file for the permit is subject to the civil penalty for noncompliance in effect at the time.

b. This subsection does not provide an exception from application of the penalties established under this section for failure of a person to file a timely and complete application for a federal construction permit.

c. This subsection does not provide an exception from application of the penalties established in this section for a person who does not file a timely and complete application for a required permit once notified, in writing, by the department of the noncompliance. A person who does not comply following notification of noncompliance is subject to

4222
the criminal penalties established under this section.

3. If the administrator fails to take action within sixty days after an application for a variance is made, or if the department fails to enter a final order or determination within sixty days after the final argument in hearing on appeal, the person seeking the action may treat the failure to act as a grant of the requested variance, or of a finding favorable to the respondent in hearing on appeal, as the case may be.

2. The section shall not apply to an application for a conditional permit for an electrical power generating facility subject to chapter 476A.

455B.149 Energy or economic emergency. 1. Upon application by the owner or operator of a fuel-burning stationary source, and after notice and opportunity for public hearing, the commission may petition the president, under section 110, subsection “f,” paragraph 1 of the federal Clean Air Act as amended through January 1, 1991, for a determination that a national or regional energy emergency exists. If the president determines an emergency exists, the commission may suspend any requirement of this division or a rule or permit issued under this division. A temporary emergency suspension under this subsection may be issued for a maximum of four months. A temporary emergency suspension issued under this subsection shall remain in effect for a maximum of four months. A temporary emergency suspension under this subsection may include a provision directing the director to delay for a period identical to the period of the suspension a compliance schedule or increment of progress to which the source is subject under section 119 of the federal Clean Air Act as amended through January 1, 1991, upon a finding that the source is unable to comply with the schedule or increment solely because of the conditions on the basis of which a suspension was issued under this subsection.

5. If the administrator has not approved or disapproved within the required four-month period, the commission may issue an emergency suspension of the part of the applicable implementation plan which is proposed to be revised with respect to the source. The determination under this subsection shall not be made with respect to a source which would close without regard to whether or not the proposed plan revision is approved. A temporary emergency suspension issued under this subsection shall remain in effect for a maximum of four months. A temporary emergency suspension under this subsection may include a provision directing the director to delay for a period identical to the period of the suspension a compliance schedule or increment of progress to which the source is subject under section 119 of the federal Clean Air Act as amended through January 1, 1991, upon a finding that the source is unable to comply with the schedule or increment solely because of the conditions on the basis of which a suspension was issued under this subsection.

§455B.172 Jurisdiction of department and local boards.

1. The department is the agency of the state to

prevent, abate, or control water pollution and to conduct the public water supply program.

2. The department shall carry out the responsibilities of the state related to private water supplies and private sewage disposal systems for the protection of the environment and the public health and safety of the citizens of the state.

3. Each county board of health shall adopt standards for private water supplies and private sewage disposal facilities. These standards shall be at least as stringent but consistent with the standards adopted by the commission. If a county board of health has not adopted standards for private water supplies and private sewage disposal facilities, the standards adopted by the commission shall be applied and enforced within the county by the county board of health.

4. Each county board of health shall regulate the private water supply and private sewage disposal facilities located within the county board’s jurisdiction, including the enforcement of standards adopted pursuant to this section.

5. The department shall maintain jurisdiction over and regulate the direct discharge to a water of the state. The department shall retain concurrent authority to enforce state standards for private water supply and private sewage disposal facilities within a county, and exercise departmental authority if the county board of health fails to fulfill board responsibilities pursuant to this section.

The department shall by rule adopt standards for the commercial cleaning of private sewage disposal facilities, including but not limited to septic tanks and pits used to collect waste in livestock confinement structures, and for the disposal of waste from the facilities. The standards shall not be in conflict with the state building code adopted pursuant to section 103A.7. A person shall not commercially clean such facilities or dispose of waste from such facilities unless the person has been issued a license by the department. The department shall be exclusively responsible for adopting the standards and issuing licenses. However, county boards of health shall enforce the standards and licensing requirements established by the department. Application for the license shall be made in the manner provided by the department. Licenses expire one year from the date of issue unless revoked and may be renewed in the manner provided by the department. The license or license renewal fee is twenty-five dollars. A person violating this section or the rules adopted pursuant to this section is subject to a civil penalty of not more than twenty-five dollars. Each day that a violation continues constitutes a separate offense. However, the total civil penalty shall not exceed five hundred dollars per year. The penalty shall be assessed for a violation occurring ten days following written notice of the violation delivered to the person by the department or a county board of health. Moneys collected by the department or

a county board of health from the imposition of civil penalties shall be deposited in the general fund of the state.
6. a. The department is the state agency to regulate the construction, reconstruction and abandonment of all of the following water wells:
   (1) Those used as part of a public water supply system as defined in section 455B.171.
   (2) Those used for the withdrawal of water for which a permit is required pursuant to section 455B.268, subsection 1.
   (3) Those used for the purpose of monitoring groundwater quantity and quality required or installed pursuant to directions or regulations of the department.
   b. A local board of health is the agency to regulate the construction, reconstruction and abandonment of water wells not otherwise regulated by the department. The local board of health shall not adopt standards relative to the construction, reconstruction and abandonment of wells less stringent than those adopted by the department.
   c. The department is the state agency to regulate the registration or certification of water well contractors pursuant to section 455B.187 or section 455B.190A.
8. Pursuant to chapter 28E, the department may delegate its authority for regulation of the construction, reconstruction and abandonment of water wells specified in subsection 6 or the registration of water well contractors specified in subsection 7 to boards of health or other agencies which have adequate authority and ability to administer and enforce the requirements established by law or rule.
9. Any county ordinance related to sewage sludge which is in effect on March 1, 1997, shall not be preempted by any provision of section 455B.171, 455B.174, 455B.183, or 455B.304. [C66, 71, §455B.3; C73, §455B.31; C75, 77, 79, 81, §135.20, 455B.31; 82 Acts, ch 1199, §9]

Subsection 5 amended

455B.173 Duties.
The commission shall:
1. Develop comprehensive plans and programs for the prevention, control and abatement of water pollution.
2. Establish, modify, or repeal water quality standards, pretreatment standards and effluent standards. The effluent standards may provide for maintaining the existing quality of the water of the state where the quality thereof exceeds the requirements of the water quality standards.
   If the federal environmental protection agency has promulgated an effluent standard or pretreat-
   mment standard pursuant to section 301, 306, or 307 of the federal Water Pollution Control Act, a pretreatment or effluent standard adopted pursuant to this section shall not be more stringent than the federal effluent or pretreatment standard for such source. This section may not preclude the establishment of a more restrictive effluent limitation in the permit for a particular point source if the more restrictive effluent limitation is necessary to meet water quality standards, the establishment of an effluent standard for a source or class of sources for which the federal environmental protection agency has promulgated standards pursuant to section 301, 306, or 307 of the federal Water Pollution Control Act. Except as required by federal law or regulation, the commission shall not adopt an effluent standard more stringent with respect to any pollutant than is necessary to reduce the concentration of that pollutant in the effluent to the level due to natural causes, including the mineral and chemical characteristics of the land, existing in the water of the state to which the effluent is discharged. Notwithstanding any other provision of this part of this division or chapter 459, subchapter III, any new source, the construction of which was commenced after October 18, 1972, and which was constructed as to meet all applicable standards of performance for the new source or any more stringent effluent limitation required to meet water quality standards, shall not be subject to any more stringent effluent limitations during a ten-year period beginning on the date of completion of construction or during the period of depreciation or amortization of the pollution control equipment for the facility for the purposes of section 167 and 169 or both sections of the Internal Revenue Code, whichever period ends first.
3. Establish, modify, or repeal rules relating to the location, construction, operation, and maintenance of disposal systems and public water supply systems and specifying the conditions, including the viability of a system pursuant to section 455B.174, under which the director shall issue, revoke, suspend, modify, or deny permits for the operation, installation, construction, addition to, or modification of any disposal system or public water supply system, or for the discharge of any pollutant. The rules specifying the conditions under which the director shall issue permits for the construction of an electric power generating facility subject to chapter 476A shall provide for issuing a conditional permit upon the submission of engineering descriptions, flow diagrams and schematics that qualitatively and quantitatively identify effluent streams and alternative disposal systems that will provide compliance with effluent standards or limitations.
   No rules shall be adopted which regulate the hiring or firing of operators of disposal systems or public water supply systems except rules which regulate the certification of operators as to their...
technical competency.

A publicly owned treatment works whose discharge meets the final effluent limitations which were contained in its discharge permit on the date that construction of the publicly owned treatment works was approved by the department shall not be required to meet more stringent effluent limitations for a period of ten years from the date the construction was completed and accepted but not longer than twelve years from the date that construction was approved by the department.

4. Cooperate with other state or interstate water pollution control agencies in establishing standards, objectives, or criteria for the quality of interstate waters originating or flowing through this state.

5. Establish, modify or repeal rules relating to drinking water standards for public water supply systems. Such standards shall specify maximum contaminant levels or treatment techniques necessary to protect the public health and welfare. The drinking water standards must assure compliance with federal drinking water standards adopted pursuant to the federal Safe Drinking Water Act.

6. Adopt rules relating to inspection, monitoring, recordkeeping, and reporting requirements for the owner or operator of any public water supply or any disposal system or of any source which is an industrial user of a publicly or privately owned disposal system.

7. Adopt a statewide plan for the provision of safe drinking water under emergency circumstances. All public agencies, as defined in chapter 28E, shall cooperate in the development and implementation of the plan. The plan shall detail the manner in which the various state and local agencies shall participate in the response to an emergency. The department may enter into any agreement, subject to approval of the commission, with any state agency or unit of local government or with the federal government which may be necessary to establish the role of such agencies in regard to the plan. This plan shall be coordinated with disaster emergency plans.

8. Formulate and adopt specific and detailed statewide standards pursuant to chapter 17A for review of plans and specifications and the construction of sewer systems and water supply distribution systems and extensions to such systems not later than October 1, 1977. The standards shall be based on criteria contained in the “Recommended Standards for Sewage Works” and “Recommended Standards for Water Works” (Ten States Standards) as adopted by the Great Lakes-Upper Mississippi River board of state sanitary engineers, design manuals published by the department, applicable federal guidelines and standards, standard textbooks, current technical literature, and applicable safety standards. The material standards for polyvinyl chloride pipe shall not exceed the specifications for polyvinyl chloride pipe in designations D-1784-69, D-2241-73, D-2564-76, D-2672-76, D-3036-73, and D-3139-73 of ASTM (American society for testing and materials) international. The rules adopted which directly pertain to the construction of sewer systems and water supply distribution systems and the review of plans and specifications for such construction shall be known respectively as the Iowa Standards for Sewer Systems and the Iowa Standards for Water Supply Distribution Systems and shall be applicable in each governmental subdivision of the state. Exceptions shall be made to the standards so formulated only upon special request to and receipt of permission from the department. The department shall publish the standards and make copies of such standards available to governmental subdivisions and to the public.

9. Adopt, modify, or repeal rules relating to the construction and reconstruction of water wells, the proper abandonment of wells, and the registration or certification of water well contractors. The rules shall include those necessary to protect the public health and welfare, and to protect the waters of the state. The rules may include, but are not limited to, establishing fees for registration or certification of water well contractors, requiring the submission of well driller’s logs, formation samples or well cuttings, water samples, information on test pumping and requiring inspections. Fees shall be based upon the reasonable cost of conducting the water well contractor registration or certification program.

10. Adopt, modify, or repeal rules relating to the business plan which disposal systems and public water supply systems must file with the department pursuant to section 455B.174, and adopt, modify, or repeal rules establishing a methodology and timetable by which nonviable systems shall take action to become viable or make alternative arrangements in providing treatment or water supply services.

11. Adopt rules for the issuance of a single general permit, after notice and opportunity for a public hearing. The single general permit shall cover numerous facilities to the extent that they are representative of a class of facilities which can be identified and conditioned by a single permit.

12. Adopt, modify, or repeal rules relating to the construction or operation of animal feeding operations, as provided in sections relating to animal feeding operations provided in chapter 459, subchapter III.
455B.174 Director’s duties.

The director shall:

1. Conduct investigations of alleged water pollution or of alleged violations of this part of this chapter 459, subchapter III, or any rule adopted or any permit issued pursuant thereto upon written request of any state agency, political subdivision, local board of health, twenty-five residents of the state, as directed by the department, or as may be necessary to accomplish the purposes of this part of this division or chapter 459, subchapter III.

2. Conduct periodic surveys and inspection of the construction, operation, self-monitoring, recordkeeping and reporting of all public water supply systems and all disposal systems except as provided in section 455B.183.

3. Take any action or actions allowed by law which, in the director’s judgment, are necessary to enforce or secure compliance with the provisions of this part of this division or chapter 459, subchapter III, or of any rule or standard established or permit issued pursuant thereto.

4. a. Approve or disapprove the plans and specifications for the construction of disposal systems or public water supply systems except for those sewer extensions and water supply distribution system extensions which are reviewed by a city or county public works department as set forth in section 455B.183. The director shall issue, revoke, suspend, modify, or deny permits for the operation, installation, construction, addition to, or modification of any disposal system or public water supply system except for sewer extensions and water supply distribution system extensions which are reviewed by a city or county public works department as set forth in section 455B.183. The director shall also issue, revoke, suspend, modify, or deny permits for the discharge of any pollutant, or for the use or disposal of sewage sludge. The permits shall contain conditions and schedules of compliance as necessary to meet the requirements of this part of this division or chapter 459, subchapter III, the federal Water Pollution Control Act and the federal Safe Drinking Water Act. A permit issued under this chapter for the use or disposal of sewage sludge is in addition to and must contain references to any other permits required under this chapter. The director shall not issue or renew a permit to a disposal system or a public water supply system which is not viable. If the director has reasonable grounds to believe that a disposal system or public water supply system is not viable, the department may require the system to submit a business plan as a means of determining viability. This plan shall include the following components:

   (1) A facilities plan which describes proposed new facilities and the condition of existing facilities, rehabilitation and replacement needs, and future needs to meet the requirements of the federal Water Pollution Control Act and the federal Safe Drinking Water Act.

   (2) A management plan which consists of an administrative plan describing methods to assure performance of functions necessary to administer the system, including credentials of management personnel; and an operation and maintenance plan describing how all operating and maintenance duties necessary to the system’s proper function will be accomplished.

   (3) A financial plan which describes provisions for assuring that adequate revenues will be available to meet cash flow requirements, based on the full cost of providing the service, adequate initial capitalization, and access to additional capital for contingencies.

If, upon submission and review of the business plan, the department determines that the disposal system or public water supply system is not viable, the director may require the system to take actions to become viable within a time period established pursuant to section 455B.173, or to make alternative arrangements in providing treatment or water supply services as determined by rule.

b. In addition to the requirements of paragraph “a”, a permit shall not be issued to operate or discharge from any disposal system unless the conditions of the permit assure that any discharge from the disposal system meets or will meet all applicable state and federal water quality standards and effluent standards and the issuance of the permit is not otherwise prohibited by the federal Water Pollution Control Act. All applications for discharge permits are subject to public notice and opportunity for public participation including public hearing as the department may by rule require. The director shall promptly notify the applicant in writing of the director’s action and, if the permit is denied, state the reasons for denial. The applicant may appeal to the commission from the denial of a permit or from any condition in any permit if the applicant files notice of appeal with the director within thirty days of the notice of denial or issuance of the permit. The director shall notify the applicant within thirty days of the time and place of the hearing.

c. Copies of all forms or other paper instruments required to be filed during on-site inspections or investigations shall be given to the owner or operator of the disposal system or public water supply system being investigated or inspected before the inspector or investigator leaves the site. Any other report, statement, or instrument shall not be filed with the department unless a copy is sent by ordinary mail to the owner or operator of the disposal system or public water supply system within ten working days of the filing. If an inspection or investigation is done in co-operation with
another state department, the department involved and the areas inspected shall be stated.

d. The director shall also issue or deny conditional permits for the construction of disposal systems for electric power generating facilities subject to chapter 476A. All applications for conditional permits shall be subject to such notice and opportunity for public participation as may be required by the department and as may be consistent with chapter 476A and any agreement pursuant thereto under chapter 28E. The applicant or an intervenor may appeal to the department from the denial of a conditional permit or any of its conditions. For the purposes of chapter 476A, the issuance or denial of a conditional permit by the director or the department upon appeal shall be a determination that the electric power generating facility does or does not meet the permit and licensing requirements of the department. The issuance of a conditional permit shall not relieve the applicant of the responsibility to submit final and detailed construction plans and drawings and an application for a construction permit for a disposal system that will meet the effluent limitations in the conditional permit.

e. If a public water supply has a groundwater source that contains petroleum, a fraction of crude oil, or their degradation products, or is located in an area deemed by the department as likely to be contaminated by such materials, and after consultation with the public water supply and consideration of all applicable rules relating to remediation, the department may require the public water supply to replace that groundwater source in order to receive a permit to operate. The requirement to replace the source shall only be made by the department if the public water supply is fully compensated for any additional design, construction, operation, and monitoring costs from the Iowa comprehensive petroleum underground storage tank fund created by chapter 455G or from any other funds that do not impose a financial obligation on the part of the public water supply. Funds available to or provided by the public water supply may be used for system improvements made in conjunction with replacement of the source. The department cannot require a public water supply to replace its water source with a less reliable water source or with a source that does not meet federal primary, secondary, or other health-based standards unless treatment is provided to ensure that the drinking water meets these standards. Nothing in this paragraph shall affect the public water supply’s right to pursue recovery from a responsible party.

5. Conduct random inspections of work done by city and county public works departments to ensure such public works departments are complying with this part of this division. If a city or county public works department is not complying with section 455B.183 in reviewing plans and specifications or in granting permits or both, the department shall perform these functions in that jurisdiction until the city or county public works department is able to perform them. Performance of these functions in a jurisdiction by a local public works department shall not be suspended or revoked until after notice and opportunity for hearing as provided in chapter 17A.

The department shall give technical assistance to city and county public works departments upon request of such local public works departments.

455B.174 Violations.
If there is substantial evidence that any person has violated or is violating any provision of this part of this division or chapter 459, subchapter II, or of any rule or standard established or permit issued pursuant thereto; then:

1. The director may issue an order directing the person to desist in the practice which constitutes the violation or to take such corrective action as may be necessary to ensure that the violation will cease. The person to whom such order is issued may cause to be commenced a contested case within the meaning of the Iowa administrative procedure Act, chapter 17A, by filing with the director within thirty days a notice of appeal to the commission. On appeal the commission may affirm, modify or vacate the order of the director; or

2. If it is determined by the director that an emergency exists respecting any matter affecting or likely to affect the public health, the director may issue any order necessary to terminate the emergency without notice and without hearing. Any such order shall be binding and effective immediately and until such order is modified or vacated at a hearing before the commission or by a court; or

3. The director, with the approval of the commission, may request the attorney general to institute legal proceedings pursuant to section 455B.191 or 459.604.

455B.176 Criteria considered.
In establishing, modifying, or repealing water
quality standards the commission shall base its decision upon data gathered from sources within the state regarding the following:
1. The protection of the public health;
2. The size, depth, surface area covered, volume, direction and rate of flow, stream gradient, and temperature of the affected water of the state;
3. The character and uses of the land area bordering the affected water of the state;
4. The uses which have been made, are being made, or may be made of the affected water of the state for public, private, or domestic water supplies, irrigation; livestock watering; propagation of wildlife, fish, and other aquatic life; bathing, swimming, boating, or other recreational activity; transportation; and disposal of sewage and wastes;
5. The extent of contamination resulting from natural causes including the mineral and chemical characteristics;
6. The extent to which floatable or settleable solids may be permitted;
7. The extent to which suspended solids, colloids, or a combination of solids with other suspended substances may be permitted;
8. The extent to which bacteria and other biological organisms may be permitted;
9. The amount of dissolved oxygen that is to be present and the extent of the oxygen demanding substances which may be permitted;
10. The extent to which toxic substances, chemicals or deleterious conditions may be permitted;
11. The economic costs and benefits. The goal shall be a reasonable balance between total costs to the people and to the economy, and the resultant benefits to the people of Iowa.

§455B.177 Declaration of policy.
1. The general assembly finds and declares that because the federal Water Pollution Control Act provides for a permit system to regulate the discharge of pollutants into the waters of the United States and provides that permits may be issued by states which are authorized to implement that Act, it is in the interest of the people of Iowa to enact this part of this division in order to authorize the state to implement the federal Water Pollution Control Act, and federal regulations and guidelines issued pursuant to the Act.

§455B.181 Variances and exemptions.
The director may, after public notice and hear-
§455B.181, JURISDICTION OF DEPARTMENT OF NATURAL RESOURCES

ing, grant exemptions from a maximum contaminant level or treatment technique, or both. The director may also grant a variance from drinking water standards for public water supply systems when the characteristics of the raw water sources, which are available to a system, cannot meet the requirements with respect to maximum contaminant level of the standards despite application of the best treatment techniques which are generally available and if the director determines that the variance will not result in an unreasonable risk to the public health. A schedule of compliance may be prescribed by the director, at the time the variance or exemption is granted. The director shall also require the interim measures to minimize the contaminant levels of systems subject to the variance or exemption as may reasonably be implemented. The director may also issue variances from other rules of the department if necessary and appropriate. The director shall submit variances granted regarding a wastewater treatment facility to the commission for the commission's review within thirty days of the granting of a variance. The denial of a variance or exemption may be appealed to the commission.

455B.182 Failure constitutes contempt.
Failure to obey any order issued by the department with reference to a violation of this part of this division or chapter 459, subchapter III, or any rule promulgated or permit issued pursuant thereto shall constitute prima facie evidence of contempt. In such event the department may certify to the district court of the county in which such alleged disobedience occurred the fact of such failure. The district court after notice, as prescribed by the court, to the parties in interest shall then proceed to hear the matter and if it finds that the order was lawful and reasonable it shall order the party to comply with the order. If the person fails to comply with the court order, that person shall be guilty of contempt and shall be fined not to exceed five hundred dollars for each day that the person fails to comply with the court order. The penalties provided in this section shall be considered as additional to any penalty which may be imposed under the law relative to nuisances or any other statute relating to the pollution of any waters of the state or related to public water supply systems and a conviction under this section shall not be a bar to prosecution under any other penal statute.

455B.183 Written permits required.
1. It is unlawful to carry on any of the following activities without first securing a written permit from the director, or from a city or county public works department if the public works department reviews the activity under this section, as required by the department:
   a. The construction, installation, or modification of any disposal system or public water supply system or part thereof or any extension or addition thereto except those sewer extensions and water supply distribution system extensions that are subject to review and approval by a city or county public works department pursuant to this section, the use or disposal of sewage sludge, and private sewage disposal systems. Unless federal law or regulation requires the review and approval of plans and specifications, a permit shall be issued for the construction, installation, or modification of a public water supply system or part of a system if a qualified, registered engineer certifies to the department that the plans for the system or part of the system meet the requirements of state and federal law or regulations. The permit shall state that approval is based only upon the engineer's certification that the system's design meets the requirements of all applicable state and federal laws and regulations and the review of the department shall be advisory.
   b. The construction or use of any new point source for the discharge of any pollutant into any water of the state.
   c. The operation of any waste disposal system or public water supply system or any part of or extension or addition to the system. This provision does not apply to a pretreatment system, the effluent of which is to be discharged directly to another disposal system for final treatment and disposal; a semipublic sewage disposal system, the construction of which has been approved by the department and which does not discharge into water of the state; or a private sewage disposal system which does not discharge into a water of the state. Sludge from a semipublic or private sewage disposal system shall be disposed of in accordance with the rules adopted by the department pursuant to chapter 17A. The exemption of this paragraph shall not apply to any industrial waste discharges.
   2. Upon adoption of standards by the commission pursuant to section 455B.173, subsections 5 to 8, plans and specifications for sewer extensions and water supply distribution system extensions covered by this section shall be submitted to the city or county public works department for approval if the local public works department employs a qualified, registered engineer who reviews the plans and specifications using the specific state standards known as the Iowa Standards for Sewer Systems and the Iowa Standards for Water Supply Distribution Systems that have been formulated and adopted by the department pursuant to section 455B.173, subsections 5 to 8. The local agency shall issue a written permit to construct if
all of the following apply:

a. The submitted plans and specifications are in substantial compliance with departmental rules and the Iowa Standards for Sewer Systems and the Iowa Standards for Water Supply Distribution Systems.

b. The extensions primarily serve residential consumers and will not result in an increase greater than five percent of the capacity of the treatment works or serve more than two hundred fifty dwelling units or, in the case of an extension to a water supply distribution system, the extension will have a capacity of less than five percent of the system or will serve fewer than two hundred fifty dwelling units.

c. The proposed sewer extension will not exceed the capacity of any treatment works which received a state or federal monetary grant after 1972.

d. The proposed water supply distribution system extension will not exceed the production capacity of any public water supply system constructed after 1972.

3. After issuing a permit, the city or county public works department shall notify the director of such issuance by forwarding a copy of the permit to the director. In addition, the local agency shall submit quarterly reports to the director including such information as capacity of local treatment plants and production capacity of public water supply systems as well as other necessary information requested by the director for the purpose of implementing this chapter.

4. Plans and specifications for all other waste disposal systems and public water supply systems, including sewer extensions and water supply distribution system extensions not reviewed by a city or county public works department under this section, shall be submitted to the department before a written permit may be issued. Plans and specifications for public water supply systems and water supply distribution system extensions must be certified by a registered engineer as provided in subsection 1, paragraph “a”. The construction of any such waste disposal system or public water supply system shall be in accordance with standards formulated and adopted by the department pursuant to section 455B.173, subsections 5 to 8. If it is necessary or desirable to make material changes in the plans or specifications, revised plans or specifications together with reasons for the proposed changes must be submitted to the department for a supplemental written permit. The revised plans and specifications for a public water supply system must be certified by a registered engineer as provided in subsection 1, paragraph “a”. The governmental subdivisions agree to comply with all state and federal regulations and submit plans for the review of plans and specifications including a complete set of local standard specifications for such improvements.

6. The director may suspend or revoke delegation of review and permit authority after notice and hearing as set forth in chapter 17A if the director determines that a city or county public works department has approved extensions which do not comply with design criteria, which exceed the capacity of waste treatment plants or the production capacity of public water supply systems or which otherwise violate state or federal requirements.

7. The department shall exempt any public water supply system from any requirement respecting a maximum contaminant level or any treatment technique requirement of an applicable national drinking water regulation if these regulations apply to contaminants which the department determines are harmless or beneficial to the health of consumers and if the owner of a public water supply system determines that funds are not reasonably available to provide for controlling amounts of those contaminants which are harmless or beneficial to the health of consumers.

455B.183A Water quality protection fund.

1. A water quality protection fund is created in the state treasury under the control of the department. The fund consists of moneys appropriated to the fund by the general assembly, moneys deposited into the fund from fees described in subsection 2, moneys deposited into the fund from fees collected pursuant to sections 455B.187 and 455B.190A, and other moneys available to and obtained or accepted by the department from the United States government or private sources for placement in the fund. The fund is divided into three accounts, including the administration account, the public water supply system account, and the private water supply system account. Moneys in the administration account are appropriated to the department for purposes of carrying out the provisions of this division, which relate to the administration, regulation, and enforcement of the federal Safe Drinking Water Act. Moneys in the public water supply system account are appropriated to the department to support the program to assist supply systems, as provided in section 455B.183B. Moneys in the private water supply system account are appropriated to the department for the purpose of supporting the programs established to protect private drinking water supplies as provided in sections 455B.187, 455B.188, 455B.190, and 455B.190A.
2. The commission shall adopt fees as required pursuant to section 455B.105 for permits required for public water supply systems as provided in sections 455B.174 and 455B.183. Fees paid pursuant to this section shall not be subject to the sales or services tax. The fees shall be for each of the following:
   a. The construction, installation, or modification of a public water supply system. The amount of the fees may be based on the type of system being constructed, installed, or modified.
   b. The operation of a public water supply system, including any part of the system. The commission shall adopt a fee schedule which shall be based on the total number of persons served by public water supply systems in this state. However, a public water supply system shall be assessed a fee of at least twenty-five dollars. A public water supply system not owned or operated by a community and serving a transient population shall be assessed a fee of twenty-five dollars. The commission shall calculate all fees in the schedule to produce total revenues equaling three hundred fifty thousand dollars for each fiscal year, commencing with the fiscal year beginning July 1, 1995, and ending June 30, 1996. For each fiscal year, one-half of the fees shall be deposited into the administration account and one-half of the fees shall be deposited into the public water supply system account. By May 1 of each year, the department shall estimate the total revenue expected to be collected from the overpayment of fees, which are all fees in excess of the amount of the total revenues which are expected to be collected under the current fee schedule, and the total revenue expected to be collected from the payment of fees during the next fiscal year. The commission shall adjust the fees if the estimate exceeds the amount of revenue required to be deposited in the fund pursuant to this paragraph.

3. Moneys in the fund are subject to an annual audit by the auditor of state. The fund is subject to warrants by the director of the department of administrative services, drawn upon the written requisition of the department.

4. Section 8.33 does not apply to moneys in the fund. Moneys earned as income, including interest from the fund, shall remain in the fund until expended.

5. On or before November 15 of each fiscal year, the department shall transmit to the department of management and the legislative services agency information regarding the fund and accounts, including all of the following:
   a. The balance of unobligated and unencumbered moneys in each account as of November 1.
   b. A summary of revenue deposited in and expenditures from each account during the current fiscal year.
   c. Estimates of revenues expected to be deposited into the public water supply system account during the current fiscal year, and an estimate of the expected balance of unobligated and unencumbered moneys in the account on June 30 of the current fiscal year.

455B.183B Program to assist supply systems.

1. The state of Iowa declares its intention to retain its jurisdiction to enforce areas provided under the federal Safe Drinking Water Act as delegated to the state by the United States.

2. The department shall establish a program to assist supply systems, in order to provide assistance to ensure safe public water supplies. The department in administering the program shall provide technical advice and perform vulnerability and viability studies of public water supply systems.

3. Whenever practical, the department may enter into a contract with a person qualified to provide assistance services under this section, if the agreement for the services is cost-effective and the quality of the services ensures compliance with state and federal law. A person entering into a contract with the department for the purpose of providing the services shall be deemed to be an agent of the department, and shall have the same authority as provided to the department, unless the contract specifies otherwise. The department shall review assistance services performed by a person under a contract to ensure that quality cost-effective service is being provided.

4. The program shall be supported by moneys deposited in the public water supply system account created in the water quality protection fund established pursuant to section 455B.183A.

94 Acts, ch 1198, §49

455B.183C Personnel — department of management.

Notwithstanding any limitation upon the department's number of full-time equivalent positions as defined in section 8.36A, any point limitation on personnel, or any other limitation upon the number of personnel or their employment classification, imposed by the department of management, the department may employ the number of full-time equivalent positions which equals the number of positions allocated by the general assembly to the department for each applicable fiscal year in order to carry out the provisions of this division relating to the administration, regulation, and enforcement of the federal Safe Drinking Water Act and the program to assist supply systems, but only to the extent that moneys used to support the positions derive from moneys deposited in the water quality protection fund, as provided in section 455B.183A. If a specific number of full-time equivalent positions are not allocated by the general assembly, the department may fill...
any number of positions required to administer the program, to the extent the positions are supported by the fund.

94 Acts, ch 1198, §50

455B.184 Disposal system plans.
The department may also require the owner of a disposal system, discharging pollutants into any water of the state, or of a public water supply system to file with it complete plans of the whole or any part of such system and any other information and records concerning the installation and operation of such system.

The commission and the director may request and receive from any department, division, board, bureau, commission, public body, or agency of the state, or of any political subdivision thereof, or from any organization, incorporated or unincorporated, which has for its object the control or use of any of the water resources of the state, such assistance and data as will enable the commission or the director to properly carry out their activities and effectuate the purposes of this part 1 of division III and chapter 459, subchapter III. The department shall reimburse such agencies for special expense resulting from expenditures not normally a part of the operating expenses of any such agency.

1. A pollutant shall not be disposed of by dumping, depositing, or discharging such pollutant into any water of the state, except that this section shall not be construed to prohibit the discharge of adequately treated sewage, industrial waste, or other waste pursuant to a permit issued by the director. A pollutant whether treated or untreated shall not be discharged into any state-owned natural or artificial lake.

2. A pesticide shall not be applied to any water of this state which has been classified by the department as a class “A” or class “C”, high quality, or high quality resource water, except that this section shall not be construed to prohibit the application of such a pesticide by a certified applicator who is trained in aquatic applications and who has received a permit from the department.

455B.187 Water well construction.
A contractor shall not engage in well construction or reconstruction without first being certified as required in this part and department rules adopted pursuant to this part. Water wells shall not be constructed, reconstructed, or abandoned by a person except as provided in this part or rules adopted pursuant to this part. Within thirty days after construction or reconstruction of a well, a contractor shall provide well information required by rule to the department and the Iowa geological survey.

A landowner or the landowner’s agent shall not drill for or construct a new water well without first obtaining a permit for this activity from the department. The department shall not issue a permit to any person for this activity unless the person first registers with the department all wells, including abandoned wells, on the property. The department may delegate the authority to issue a permit to a county board of supervisors or the board’s designee. In the event of such delegation, the department shall retain concurrent authority. The commission shall adopt rules pursuant to chapter 17A to implement this paragraph.

The director may charge a fee for permits issued pursuant to this section. All fees collected pursuant to this section shall be deposited into the private water supply system account within the water quality protection fund created in section 455B.183A.

Notwithstanding the provisions of this section, a county board of supervisors or the board’s designee may grant an exemption from the permit requirements to a landowner or the landowner’s agent if an emergency drilling is necessary to meet an immediate need for water. The exemption shall be effective immediately upon approval of the county board of supervisors or the board’s designee. The board of supervisors or the board’s designee shall notify the director within thirty days of the granting of an exemption.

In the case of property owned by a state agency, a person shall not drill for or construct a new water well without first registering with the department the existence of any abandoned wells on the property. The department shall develop a prioritized closure program and time frame for the completion of the program, and shall adopt rules to implement the program.

455B.188 Provision for emergency replacement of water wells.
Rules adopted to implement section 455B.172, subsection 6, paragraph "b"; section 455B.173, subsection 9; and section 455B.187 shall specifically provide for the immediate replacement or reconstruction of water wells in response to the sudden and unforeseen loss or serious impairment of
a well for its intended use. These provisions shall include the granting of emergency authorizations and registration of well contractors pursuant to section 455B.187 and may include the granting of variances and exemptions from technical standards as appropriate.

455B.189 Reserved.

455B.190 Abandoned wells properly plugged.

1. As used in this section:
   a. “Class 1 well” means a well one hundred feet or less in depth and eighteen inches or more in diameter.
   b. “Class 2 well” means a well more than one hundred feet in depth or less than eighteen inches in diameter or a bedrock well.
   c. “Class 3 well” means a sandpoint well or a well fifty feet or less in depth constructed by joining a screened drive point with lengths of pipe and driving the assembly into a shallow sand and gravel aquifer.
   d. “Department” means the department of natural resources.
   e. “Designated agent” means a person other than the state, designated by a county board of supervisors to review and confirm that a well has been properly plugged.
   f. “Filling materials” means agricultural lime. Filling materials may also include other materials, including soil, sand, gravel, crushed stone, and pea gravel as approved by the department.
   g. “Owner” means the titleholder of the land where a well is located.
   h. “Plug” means the closure of an abandoned well with plugging materials which will permanently seal the well from contamination by surface drainage, or permanently seal off the well from contamination into an aquifer.
   i. “Plugging materials” means filling and sealing materials.
   j. “Sealing materials” means bentonite. Sealing materials may also include neat cement, sand cement grout, or concrete as approved by the department.
   k. “Well” means an abandoned well as defined in section 455B.171.

2. All wells shall be properly plugged in accordance with the schedule established by the department. The department shall develop a prioritized closure program and a time frame for the completion of the program and shall adopt rules to implement the program. The schedule established by the department shall provide that to the fullest extent technically and economically feasible, all wells shall be properly plugged not later than July 1, 2000.

3. Wells shall be plugged as follows:
   a. Class 1 wells shall be plugged by placing filling materials up to one foot below the static water level. At least one foot of sealing materials shall be placed on top of the filling materials up to the static water level, as a seal. Filling materials shall be added up to four feet below the ground surface. However, sealing materials may be used to fill the entire well up to four feet below the ground surface. The casing pipe shall be removed down to at least four feet below the ground surface and shall be capped with at least one foot of sealing materials. Obstructions shall be removed from the top four feet of the ground surface and the top four feet shall be backfilled with soil and graded.
   b. Class 2 wells shall be plugged by placing filling materials at the bottom of the well up to four feet below the static water level. At least four feet of sealing material shall be added on top of the filling material up to the original static water level. Filling materials shall be placed up to four feet below the ground surface and the well shall be capped with at least one foot of sealing material. However, sealing materials may be used to fill the entire well up to four feet below the ground surface. The upper four feet of the casing pipe below the ground surface shall be removed. The top four feet of the ground surface shall be removed of obstructions and backfilled with soil and graded.
   c. Class 3 wells shall be plugged by pulling the casing and sandpoint out of the ground, and collapsing the hole. The well may also be plugged by placing sealing materials up to four feet below the ground surface and by removing the upper four feet of casing pipe below the ground surface. The top four feet of the ground surface shall be removed of obstructions and backfilled with soil and graded.

4. The department shall sponsor an advertising campaign directed to persons throughout the state by print and electronic media designed to notify owners of the deadline for plugging wells, penalties for noncompliance, and information about receiving assistance in plugging wells.

5. An owner may, independent of a contractor, plug a well pursuant to this section subject to review and confirmation by a designated agent of the county or a well driller registered with the department.

6. A person who fails to properly plug a well on property the person owns, in accordance with the program established by the department, or as reported by a designated agent or a registered or certified well contractor, is subject to a civil penalty of up to one hundred dollars per every five calendar days that the well remains unplugged or improperly plugged. However, the total civil penalty shall not exceed one thousand dollars. The penalty shall only be assessed after the one thousand dollar limit is reached. If the owner plugs the well in compliance with this section, including applicable departmental rules, before the date that the one thousand dollar limit is reached, the civil penalty shall not be assessed. 93 Acts, ch 137, §8

§455B.195 Use or analysis of credible data.

For purposes of this part, all of the following shall apply:

1. Data is not credible data unless the data originates from studies and samples collected by the department, a professional designee of the department, or a qualified volunteer. For purposes of this subsection, “professional designee” includes governmental agencies other than the department, and a person hired by, or under contract for compensation with, the department to collect or study data.

2. All information submitted by a qualified volunteer shall be reviewed and approved or disapproved by the department. The qualified volunteer shall submit a site specific plan with data which includes information used to obtain the data, the sampling and analysis plan, and quality control and quality assurance procedures used in the monitoring process. The qualified volunteer must provide proof to the department that the water monitoring plan was followed. The department shall review all data collected by a qualified volunteer, verify the accuracy of the data collected by a qualified volunteer, and determine that all components of the water monitoring plan were followed.

3. The department shall retain all information submitted by a qualified volunteer submitting the information for a period of not less than ten years from the date of receipt by the department. All information submitted shall be a public record.

4. The department shall adopt rules establishing requirements for a person to become a qualified volunteer.

The department of natural resources shall develop a methodology for water quality assessments as used in the section 303(d) lists and assess the validity of the data.

2000 Acts, ch 1068, §10; 2000 Acts, ch 1232, §73
with the requirements of the federal Water Pollution Control Act, 33 U.S.C. § 1251 et seq.

b. The data quality for removal of water of the state from any list of impaired waters including any section 303(d) list shall be the same as the data quality for adding a water to that list.

c. A water of the state shall not be placed on any section 303(d) list if the impairment is caused solely by violations of national pollutant discharge elimination system program permits or stormwater permits issued pursuant to section 455B.103A and the enforcement of the pollution control measures is required.

d. A water of the state shall not be placed on any section 303(d) list if the data shows an impairment, but existing technology-based effluent limits or other required pollution control measures are adequate to achieve applicable water quality standards.

e. If a pollutant causing an impairment is unknown, the water of the state may be placed on a section 303(d) list. However, the department shall continue to monitor the water of the state to determine the cause of impairment before a total maximum daily load is established for the water of the state and a water of the state listed with an unknown status shall retain a low priority for a total maximum daily load development until the cause of the impairment is determined unless the department, after taking into consideration the use of the water of the state and the severity of the pollutant, identifies compelling reasons as to why the water of the state should not have a low priority.

f. When evaluating the waters of the state, the department shall develop and maintain three separate listings including a section 303(d) list, a section 305(b) report, and a listing for which further investigative monitoring is necessary. The section 305(b) report shall be a summary of all potential impairments for which credible data is not required. If credible data is not required for a section 305(b) report, the placement of a water of the state on any section 305(b) report alone is not sufficient evidence for the water of the state’s placement on any section 303(d) list. When developing a section 303(d) list, the department is not required to use all data, but the department shall assemble and evaluate all existing and readily available water quality-related data and information. The department shall provide documentation to the regional administrator of the federal environmental protection agency to support the state’s determination to list or not to list its waters.

g. The department shall take into consideration any naturally occurring condition when placing or removing any water of the state on any section 303(d) list, and establishing or allocating responsibility for a total maximum daily load.

h. Numerical standards shall have a preference over narrative standards. A narrative standard shall not constitute the basis for determining an impairment unless the department identifies specific factors as to why a numeric standard is not sufficient to assure adequate water quality.

i. If the department has obtained credible data for a water of the state, the department may also use historical data for that particular water of the state for the purpose of determining whether any trends exist for that water of the state.

2. This section shall not be construed to require or authorize the department to perform any act listed in section 455B.194, subsection 1, not otherwise required or authorized by applicable law.

   e. To provide for the payment by the municipality of its share of the cost of the project.
4. A provision that, if federal assistance which was not included in the calculation of the state payment pursuant to subsection 2 becomes available to the municipality, the amount of the state payment shall be recalculated with the inclusion of the additional federal assistance and the municipality shall pay to the state the amount by which the state payment actually made exceeds the state payment determined by the calculation.

Review of contracts by attorney general.

All contracts entered into pursuant to this part 3 of division III shall be subject to approval of the attorney general as to form. All payments by the state pursuant to such contracts shall be made after review and by warrant of the director of the department of administrative services to the credit of the municipality and shall be used for the payment of costs of construction of an eligible project. 7. “Established average minimum flow” means the average minimum flow for a given watercourse at a given point determined and established by the commission. The “average minimum flow” for a given watercourse shall be determined by the following factors:

a. Average of minimum daily flows occurring during the preceding years chosen by the commission as more nearly representative of changing conditions and needs of a given drainage area at a particular time.

b. Minimum daily flows shown by experience to be the limit at which further withdrawals would be harmful to the public interest in any particular drainage area.

§455B.261 Declaration of policy and planning requirements.

1. It is recognized that the protection of life and property from floods, the prevention of damage to lands from floods, and the orderly development, wise use, protection, and conservation of the water resources of the state by their considered and proper use is of paramount importance to the welfare and prosperity of the people of the state, and to realize these objectives, it is the policy of the state to correlate and vest the powers of the state in a single agency, the department, with the duty and authority to assess the water needs of all water users at five-year intervals for the twenty years beginning January 1, 1985, and ending December 31, 2004, utilizing a data base developed and managed by the Iowa geological survey, and to prepare a general plan of water allocation in this state considering the quantity and quality of water resources available in this state designed to meet the specific needs of the water users. The department shall also develop and the department shall adopt no later than June 30, 1986, a plan for delineation of flood plain and floodway boundaries for selected stream reaches in the various river basins of the state. Selection of the stream reaches and assignment of priorities for mapping of the selected reaches shall be based on consideration of flooding characteristics, the type and extent of existing and anticipated flood plain development in particular stream reaches, and the needs of local governmental bodies for assistance in delineating flood plain and floodway boundaries. The plan of flood plain mapping shall be for the period from June 30, 1986, to December 31, 2004. After the department adopts a plan of flood plain mapping, the department shall submit a progress report and proposed implementation schedule to the general assembly biennially. The department may modify the flood plain mapping plan as needed in response to changing circumstances.

2. The general welfare of the people of the state requires that the water resources of the state be put to beneficial use which includes ensuring that the waste or unreasonable use, or unreasonable methods of use of water be prevented, and that the conservation and protection of water resources be required with the view to their reasonable and beneficial use in the interest of the people, and that the public and private funds for the promotion and expansion of the beneficial use of water resources be invested to the end that the best interests and welfare of the people are served.

3. Water occurring in a basin or watercourse, or other body of water of the state, is public water and public wealth of the people of the state and subject to use in accordance with this chapter, and the control and development and use of water for all beneficial purposes is vested in the state, which shall take measures to ensure the conservation and protection of the water resources of the state. These measures shall include the protection of specific surface and groundwater sources as necessary to ensure long-term availability in terms of quantity and quality to preserve the public health and welfare.

4. The commission, on behalf of the state, shall enter into negotiations with the federal government for assistance in delineating particular stream reaches, and the needs of local existing and anticipated flood plain development in flooding characteristics, the type and extent of existing and anticipated flood plain development in particular stream reaches, and the needs of local governmental bodies for assistance in delineating flood plain and floodway boundaries in the various river basins of the state. Selection of the stream reaches and assignment of priorities for mapping of the selected reaches shall be based on consideration of flooding characteristics, the type and extent of existing and anticipated flood plain development in particular stream reaches, and the needs of local governmental bodies for assistance in delineating flood plain and floodway boundaries. The plan of flood plain mapping shall be for the period from June 30, 1986, to December 31, 2004. After the department adopts a plan of flood plain mapping, the department shall submit a progress report and proposed implementation schedule to the general assembly biennially. The department may modify the flood plain mapping plan as needed in response to changing circumstances.

5. The commission shall enter into negotiations with the federal government for assistance in delineating particular stream reaches, and the needs of local existing and anticipated flood plain development in flooding characteristics, the type and extent of existing and anticipated flood plain development in particular stream reaches, and the needs of local governmental bodies for assistance in delineating flood plain and floodway boundaries. The plan of flood plain mapping shall be for the period from June 30, 1986, to December 31, 2004. After the department adopts a plan of flood plain mapping, the department shall submit a progress report and proposed implementation schedule to the general assembly biennially. The department may modify the flood plain mapping plan as needed in response to changing circumstances.

6. The commission shall designate the official representative of this state on all comprehensive water resources planning groups for which state participation is provided. The commission shall coordinate state planning with local and national planning and, in safeguarding the interests of the state and its people, shall undertake the resolution of any conflicts that may arise between the water resources policies, plans, and projects of the federal government and the water resources policies, plans, and projects of the state, its agencies, and its people. This section does not limit or supplant the functions, duties, and responsibilities of other state or local agencies or institutions with regard to planning of water-associated projects within the particular area of responsibility of those state or local agencies or institutions.

7. The commission shall enter into negotiations and agreements with the federal government relative to the operation of, or the release of water from, any project that has been authorized or constructed by the federal government when the commission deems the negotiations and agreements to be necessary for the achievement of the policies of this state relative to its water resources.

8. The commission, on behalf of the state, shall enter into negotiations with the federal govern-
ment relative to the inclusion of conservation storage features for water supply in any project that has been authorized by the federal government when the commission deems the negotiations to be necessary for the achievement of the policies of this state, however, an agreement reached pursuant to these negotiations does not bind the state until enacted into law by the general assembly.

5. A water user who benefits from the development by the federal government of conservation storage for water supply shall be encouraged to assume the responsibility for repaying to the federal government any reimbursable costs incurred in the development, and a user who accepts benefits from the developments financed in whole or part by the state shall assume by contract the responsibility of repaying to the state the user’s reasonable share of the state’s obligations in accordance with a basis which will assure payment within the life of the development. An appropriation, diversion, or use shall not be made by a person of any waters of the state that have been stored or released from storage either under the authority of the state or pursuant to an agreement between the state and the federal government until the person has assumed by contract the person’s repayment responsibility. However, this subsection does not infringe upon any vested property interests.

6. In its contracts with water users for the payment of state obligations incurred in the development of conservation storage for water supply, the commission shall include the terms deemed reasonable and necessary:

a. To protect the health, safety, and general welfare of the people of the state.

b. To achieve the purposes of this chapter.

c. To provide that the state is not responsible to any person if the waters involved are insufficient for performance.

The commission may designate and describe any such contract, and describe the relationships to which it relates, as a sale of storage capacity, a sale of water release services, a contract for the storage or sale of water, or any similar terms suggestive of the creation of a property interest. The term of the contracts shall be commensurate with the investment and use concerned, but the commission shall not enter into any such contract for a term in excess of the maximum period provided for water use permits.

7. The commission shall procure flood control works and water resources projects from or by cooperation with any agency of the United States, by cooperation with the cities and other subdivisions of the state under the laws of the state relating to flood control and use of water resources, and by cooperation with the action of landowners in areas affected by the works or projects when the commission deems the projects to be necessary for the achievement of the policies of this state.

8. The commission shall promote the policies set forth in this part and shall represent this state in all matters within the scope of this part. The commission shall adopt rules pursuant to chapter 17A as necessary to transact its business and for the administration and exercise of its powers and duties.

9. In carrying out its duties, the commission may accept gifts, contributions, donations and grants, and use them for any purpose within the scope of this part.

455B.264 Jurisdiction — water and flood plains.

1. The department has jurisdiction over the public and private waters in the state and the lands adjacent to the waters necessary for the purposes of carrying out this part. The department may construct flood control works or any part of the works. In the construction of the works, in making surveys and investigations, or in formulating plans and programs relating to the water resources of the state, the department may cooperate with an agency of another state or the United States, or with any other person.

2. Upon application by any person for permission to divert, pump, or otherwise take waters from any watercourse, underground basin or watercourse, drainage ditch, or settling basin within this state for any purpose other than a nonregulated use, the director shall investigate the effect of the use upon the natural flow of the watercourse, the effect of the use upon the owners of any land which might be affected by the use, the effect of the use upon prior users of the water source and contracts made under section 455B.263 and whether the use is consistent with the principles and policies of beneficial use.

3. Upon application by any person for approval of the construction or maintenance of any structure, dam, obstruction, deposit, or excavation to be erected, used, or maintained in or on the flood plains of any river or stream, the department shall investigate the effect of the construction or maintenance project on the efficiency and capacity of the floodway. In determining the effect of the proposal the department shall consider fully its effect on flooding of or flood control for any proposed works and adjacent lands and property, on the wise use and protection of water resources, on the quality of water, on fish, wildlife, and recreational facilities or uses, and on all other public rights and requirements.

[C50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §455A.18; 82 Acts, ch 1199, §18, 96]

[C83, §455B.264]

455B.265 Permits for diversion, storage, and withdrawal.

1. In its consideration of applications for permits, the department shall give priority in processing to persons in the order that the applications are received, except where the application of this processing priority system prevents the prompt approval of routine applications or where the public health, safety, or welfare will be threatened by delay. If the department determines after investigation that the diversion, storage, or withdrawal is consistent with the principles and policies of beneficial use and ensuring conservation, the department shall grant a permit. An application for a permit shall be approved or denied within ninety days from the date that the department receives the application. A renewal permit shall be approved or denied by the department within thirty days from the date that the department receives an application for renewal. Regardless of the request in the application, the director or the department on appeal may determine the duration and frequency of withdrawal and the quantity of water to be diverted, stored, or withdrawn pursuant to the permit. Each permit granted after July 1, 1986, shall include conditions requiring routine conservation practices, and requiring implementation of emergency conservation measures after notification by the department.

2. If an application is received by July 1, 1986, the department shall grant a permit for the continuation of a beneficial use of water that was a non-regulated use prior to July 1, 1985, and now requires a permit pursuant to section 455B.268. However, the permit is subject to conditions requiring routine and emergency conservation measures to and modification or cancellation under section 455B.271. Applications received after July 1, 1986 for those uses shall be determined pursuant to subsection 1.

3. Permits shall be granted for a period of ten years; however, permits for withdrawal of water may be granted for less than ten years if geological data on the capacity of the aquifer and the rate of its recharge are indeterminate, and permits for the storage of water may be granted for the life of the structure unless revoked by the department. A permit granted shall remain as an appurtenance of the land described in the permit through the date specified in the permit and any extension of the permit or until an earlier date when the permit or its extension is canceled under section 455B.271. Upon application for a permit prior to the termination date specified in the permit, a permit may be renewed by the department for a period of ten years.

4. Permits for aquifer storage and recovery shall be granted for a period of twenty years or the life of the project, whichever is less, unless revoked by the department. The department shall adopt rules pursuant to chapter 17A relating to information an applicant for a permit shall submit to the department. At a minimum, the information shall include engineering, investigation, and evaluation information requisite to assure protection of the groundwater resource, and assurances that an aquifer storage and recovery site shall not unreasonably restrict other uses of the aquifer. Upon application and prior to the termination date specified in the original permit or a subsequent renewal permit, a renewal permit may be issued by the department for an additional period of twenty years. The department shall not authorize withdrawals of treated water from an aquifer storage and recovery site by anyone other than the permittee during the period of the original permit and each subsequent renewal permit. Treated water injected into an aquifer covered by a permit issued pursuant to this subsection is the property of the permittee.

455B.266 Priority allocation.

1. After any event described in paragraphs “a” through “d” of this subsection has occurred, the department shall investigate and, if appropriate, may implement the priority allocation plan provided in subsection 2. The department shall require existing permittees to implement appropriate emergency conservation measures. The pertinent public notice and hearing requirements of subsection 4 of this section and sections 455B.271 and 455B.278 shall apply to the implementation of the plan.

a. Receipt of a petition by twenty-five affected persons or a governmental subdivision requesting that the priority allocation plan be implemented due to a substantial local water shortage.

b. Receipt of information from a state or federal natural resource, research or climatological agency indicating that a drought of local or state magnitude is imminent.

c. Issuance by the governor of a proclamation of a disaster emergency due to a drought or other event affecting water resources of the state.

d. Determination by the department in conjunction with the homeland security and emergency management division of the department of public defense of a local crisis which affects availability of water.

2. Notwithstanding a person’s possession of a permit or the person’s use of water being a non-regulated use, the department may suspend or restrict usage of water by category of use on a local or statewide basis in the following order:

a. Water conveyed across state boundaries.

b. Uses of water primarily for recreational or
aesthetic purposes.

c. Uses of water for the irrigation of hay, corn, soybeans, oats, grain sorghum or wheat.

d. Uses of water for the irrigation of crops other than hay, corn, soybeans, oats, grain sorghum or wheat.

e. Uses of water for manufacturing or other industrial processes.

f. Uses of water for generation of electrical power for public consumption.

g. Uses of water for livestock production.

h. Uses of water for human consumption and sanitation supplied by rural water districts, municipal water systems, or other public water supplies as defined in section 455B.171.

i. Uses of water for human consumption and sanitation supplied by a private water supply as defined in section 455B.171.

3. Unless the governor has issued a proclamation described in subsection 1, paragraph "c", the department shall not impose a suspension of water use or a further restriction, other than conservation, on the uses of water provided in subsection 2, paragraphs "g" through "i" or on users of water pursuant to a contract with the state as provided in section 455B.263, subsections 5 and 6. If a contract with the state as provided in section 455B.263, subsections 5 and 6 was in effect prior to March 5, 1985, the department shall not impose a suspension of water use or a further restriction, other than conservation, on the users of water pursuant to that contract.

4. Suspension or restrictions of water usage applicable to otherwise nonregulated water users shall be by emergency order of the director which the department shall cause to be published in local newspapers of general circulation and broadcast by local media. The emergency order shall state an effective date of the suspension or restriction and shall be immediately effective on such date unless stayed, modified or vacated at a hearing before the commission or by a court.

455B.267 Permits for beneficial use — prohibitions.

1. The director or the commission may issue a permit for beneficial use of water in a watercourse if the established average minimum water flow is preserved.

2. A use of water shall not be authorized if it will impair the effect of this chapter or any other pollution control law of this state.

3. A permit shall not be issued or continued if it will impair the navigability of any navigable watercourse.

4. A permit to divert, store or withdraw water shall not be issued or continued if it will unreasonably impair the long-term availability of water from a surface or groundwater source in terms of quantity or quality, or otherwise adversely affect the public health or welfare.

a. Except for a nonregulated use, a person diverting, storing or withdrawing water from any surface or groundwater source.

b. A person who diverts water or any material from the surface directly into an underground watercourse or basin.

2. The commission may adopt, modify, or repeal rules pursuant to chapter 17A specifying the conditions under which the director may authorize specific nonrecurring minor uses of water for periods not to exceed one year through registration.

3. Notwithstanding any exemptions from permit requirements, nothing in this part exempts water users from requirements for reporting which the commission adopts by rule.

A person shall not take water from a natural watercourse, underground basin or watercourse, drainage ditch, or settling basin within this state for any purpose other than a nonregulated use except in compliance with the sections of this part which relate to the withdrawal, diversion, or storage of water. However, existing uses may be continued during the period of the pendency of an application for a permit.

2. A person, other than the aquifer storage and recovery permittee, shall not take treated water from a permitted aquifer storage and recovery site within this state.

455B.270 Rights preserved.

The sections of this part which relate to the withdrawal, diversion, or storage of water do not deprive any person of the right to use diffused waters, to drain land by use of tile, open ditch, or surface drainage, or to construct an impoundment on the person’s property or across a stream that originates on the person’s property if provision is made for safe construction and for a continued estab-
lished average minimum flow when the flow is required to protect the rights of water users below.

§455B.270, JURISDICTION OF DEPARTMENT OF NATURAL RESOURCES

455B.271 Modification or cancellation of permits.
Each permit issued under section 455B.265 is irrevocable for its term and for any extension of its term except as follows:
1. A permit may be modified or canceled by the department with the consent of the permittee.
2. Subject to appeal to the department of inspections and appeals, a permit may be modified or canceled by the director if any of the following occur:
   a. There is a breach of the terms of the permit.
   b. There is a violation of the law pertaining to the permit by the permittee or the permittee's agents.
   c. There is a circumstance of nonuse as provided in section 455B.272.
   d. The department finds that modification or cancellation is necessary to protect the public health or safety, to protect the public interests in lands or waters, to require conservation measures or to prevent substantial injury to persons or property in any manner. Before the modification or cancellation is effective, the department shall give at least thirty days' written notice mailed to the permittee at the permittee's last known address, stating the grounds of the proposed modification or cancellation and giving the permittee an opportunity to be heard on the proposal.
3. By written emergency order to the permittee, the department may suspend or restrict operations under a permit if the director finds it necessary in an emergency to protect the public health, to protect the public interest in waters against imminent danger of substantial injury in any manner or to an extent not expressly authorized by the permit, to implement the priority allocation system of section 455B.266, or to protect persons or property against imminent danger. The department may require the permittee to take measures necessary to prevent or remedy the injury. The emergency order shall state the effective date of the suspension or restriction and shall be immediately effective on that date unless stayed, modified or vacated at a hearing before the department or by a court.

455B.272 Termination of permit.
The right of the permittee and the permittee's successors to the use of water shall terminate when the permittee or the permittee's successors fail for three consecutive years to use it for the specific beneficial purpose authorized in the permit and, after notification by the department of intent to cancel the permit for nonuse, the permittee or the permittee's successors fail to demonstrate adequate plans to use water within a reasonable time. However, nonuse of water due to adequate rainfall does not constitute grounds for cancellation of a permit to use water for irrigation.

455B.273 Disposal of permit.
A permittee may sell, transfer, or assign a permit by conveying, leasing, or otherwise transferring the ownership of the land described in the permit, but the permit does not constitute ownership or absolute rights of use of the waters. The waters remain subject to the principle of beneficial use and the orders of the director or commission.

455B.274 Unauthorized depleting uses.
If a person files a complaint with the department that another person is making a depleting use of water not expressly exempted as a nonregulated use under this part and without a permit to do so, the department shall cause an investigation to be made and if the facts stated in the complaint are verified the department shall order the discontinuance of the use.

455B.275 Prohibited acts — powers of commission and executive director.
1. A person shall not permit, erect, use, or maintain a structure, dam, obstruction, deposit, or excavation in or on a floodway or flood plains, which will adversely affect the efficiency of or unduly restrict the capacity of the floodway, or adversely affect the control, development, protection, allocation, or utilization of the water resources of the state, and the same are declared to be public nuisances.
2. The department may commence, maintain, and prosecute any appropriate action to enjoin or abate a nuisance, including any of the nuisances specified in subsection 1 and any other nuisance which adversely affects flood control.
3. A person shall file a written application with the department if the person desires to do any of the following:
a. Erect, construct, use, or maintain a structure, dam, obstruction, deposit, or excavation in or on any floodway or flood plains.

b. Erect, construct, maintain, or operate a dam on a navigable or meandered stream.

c. Erect, construct, maintain, or operate a dam on a stream for manufacturing or industrial purposes.

The application shall set forth information as required by rule of the commission. The department, after an investigation, shall approve or deny the application imposing conditions and terms as prescribed by the department.

4. The department may maintain an action in equity to enjoin a person from erecting or making or permitting to be made a structure, dam, obstruction, deposit, or excavation for which a permit has not been granted. The department may also seek judicial abatement of any structure, dam, obstruction, deposit, or excavation erected or made without a permit required under this part. The abatement proceeding may be commenced to enforce an administrative determination of the department in a contested case proceeding that a public nuisance exists and should be abated. The costs of abatement shall be borne by the violator. Notwithstanding section 352.11, a structure, dam, obstruction, deposit, or excavation on a floodway or flood plain in an agricultural area established under chapter 352 is not exempt from the sections of this part which relate to regulation of flood plains and floodways. As used in this subsection, “violator” includes a person contracted to erect or make a structure, dam, obstruction, deposit, or excavation in a floodway including stream straightening unless the project is authorized by a permit required under this part.

5. The department may remove or eliminate a structure, dam, obstruction, deposit, or excavation in a floodway which adversely affects the efficiency of or unduly restricts the capacity of the floodway, by an action in condemnation, and in assessing the damages in the proceeding, the appraisers and the court shall take into consideration whether the structure, dam, obstruction, deposit, or excavation is lawfully in or on the floodway in compliance with this part.

6. The department may require, as a condition of an approval order or permit granted pursuant to this part, the furnishing of a performance bond with good and sufficient surety, conditioned upon full compliance with the order or permit and the rules of the commission. In determining the need for and amount of bond, the department shall give consideration to the hazard posed by the construction and maintenance of the approved works and the protection of the health, safety, and welfare of the people of the state. This subsection does not apply to orders or permits granted to a governmental entity.

7. When approving a request to straighten a stream, the department may establish as a condition of approval a permanent prohibition against tillage of land owned by the person receiving the approval and lying within a minimum distance from the stream sufficient in the judgment of the director or commission to hold soil erosion to reasonable limits. The department shall record the prohibition in the office of the county recorder of the appropriate county and the prohibition shall attach to the land.

8. The commission shall establish, by rule, thresholds for dimensions and effects, and any structure, dam, obstruction, deposit, or excavation having smaller dimensions and effects than those established by the commission is not subject to regulation under this section. The thresholds shall be established so that only those structures, dams, obstructions, deposits, or excavations posing a significant threat to the well-being of the public and the environment are subject to regulation.

9. The commission or the department shall not initiate any administrative or judicial action to remove or eliminate any structure, dam, obstruction, deposit, or excavation in a floodway, or to remove or eliminate any stream straightening, or to place other restrictions on the use of land or water affected by the structure, dam, obstruction, deposit, excavation, or stream straightening if not initiated within five years after the department becomes aware of the erection or making of the structure, dam, obstruction, deposit, excavation, or stream straightening. After ten years from the completion of the erection or making of the structure, dam, obstruction, deposit, excavation, or stream straightening, the prohibition of this subsection applies to, but is not limited to, any administrative or judicial abatement or action in condemnation that the commission or department may initiate under this section unless action is required to protect the public safety, in which case this section is not intended to limit the department from taking actions otherwise authorized by law.

455B.276 Flood plains — encroachment limits.

The commission may establish and enforce rules for the orderly development and wise use of
the flood plains of any river or stream within the state and alter, change, or revoke the rules. The commission shall determine the characteristics of floods which reasonably may be expected to occur and may establish by order encroachment limits, protection methods, and minimum protection levels appropriate to the flooding characteristics of the stream and to reasonable use of the flood plains. The order shall fix the length of flood plains to be regulated at any practical distance, the width of the zone between the encroachment limits so as to include portions of the flood plains adjoining the channel, which with the channel, are required to carry and discharge the flood waters or flood flow of the river or stream, and the design discharge and water surface elevations for which protection shall be provided for projects outside the encroachment limits but within the limits of inundation. Plans for the protection of projects proposed for areas subject to inundation shall be reviewed as plans for flood control works within the purview of section 455B.277. An order establishing encroachment limits shall not be issued until notice of the proposed order is given and opportunity for public hearing given for the presentation of protests against the order. In establishing the limits, the commission shall avoid to the greatest possible degree the evacuation of persons residing in the area of a floodway, the removal of residential structures occupied by the persons in the area of a floodway, and the removal of structures erected or made prior to July 4, 1965, which are located on the flood plains of a river or stream but not within the area of a floodway.

The commission shall cooperate with and assist local units of government in the establishment of encroachment limits, flood plain regulations, and zoning ordinances relating to flood plain areas within their jurisdiction. Encroachment limits, flood plain regulations, or flood plain zoning ordinances proposed by local units of government shall be submitted to the department for review and approval prior to adoption by the local units of government. Changes or variations from an approved regulation or ordinance as it relates to flood plain use are subject to approval by the commission prior to adoption. Individual applications, plans, and specifications and individual approval orders shall not be required for works on the flood plains constructed in conformity with encroachment limits, flood plain regulations, or zoning ordinances adopted by the local units of government and approved by the commission.

455B.277 Flood control works coordinated.

All flood control works in the state, which are established and constructed after April 16, 1949, shall be coordinated in design, construction, and operation according to sound and accepted engineering practice so as to effect the best flood control obtainable throughout the state. A person shall not construct or install works of any nature for flood control until the proposed works and the plans and specifications for the works are approved by the department. The department shall consider all the pertinent facts relating to the proposed works which will affect flood control and water resources in the state and shall determine whether the proposed works in the plans and specifications will be in aid of and acceptable as part of, or will adversely affect and interfere with flood control in the state, adversely affect the control, development, protection, allocation, or utilization of the water resources of the state, or adversely affect or interfere with an approved local water resources plan. In the event of disapproval, the department shall set forth the objectionable features so that the proposed works and the plans and specifications for the proposed works may be corrected or adjusted to obtain approval.

This section applies to drainage districts, soil and water conservation districts, the natural resource commission, political subdivisions of the state, and private persons undertaking projects relating to flood control.

455B.278 Permit application procedures.

1. The commission shall adopt, modify, or repeal rules establishing procedures by which permits required under this part shall be issued, suspended, revoked, modified, or denied. The rules shall include provisions for application, public notice and opportunity for public hearing, and contested cases. Public notice of a decision by the director to issue a permit shall be given in a manner designed to inform persons who may be adversely affected by the permitted project or activity.

2. Action by the department upon an application for a permit required under this part may be appealed to the commission by the applicant or any affected person within thirty days of the department’s action. A hearing before the commission or its designee is a contested case. The hearings and judicial review of decisions of the commission shall be carried out in accordance with chapter 17A. Notwithstanding chapter 17A, petitions for judicial review may be filed in the district court of Polk county or of any county in which the property affected is located. If the commission, the district court, or the supreme court determines that the action of the commission shall be stayed, the petitioner shall file an appropriate bond approved by the court.
455B.279 Violation.
1. The director may issue any order necessary to secure compliance with or prevent a violation of this part or the rules adopted pursuant to this part. Within thirty days of issuance, the order may be appealed to the commission by filing a notice of appeal with the director. The appeal shall be conducted as a contested case pursuant to chapter 17A and the commission may affirm, modify, or revoke the order. The department may request legal services as required from the attorney general, including any legal proceeding necessary to obtain compliance with this part and rules and orders issued under this part.
2. A person who violates a provision of this part or a rule or order adopted or promulgated or the conditions of a permit issued pursuant to this part is subject to a civil penalty not to exceed five hundred dollars for each day that a violation occurs.

[C50, 54, §455A.26; C58, 62, 66, 71, 73, 75, 77, §455A.39; C79, 81, §455A.33(7), 455A.39; 82 Acts, ch 1199, §33, 96]

455B.279 Violation.
1. The director may issue any order necessary to secure compliance with or prevent a violation of this part or the rules adopted pursuant to this part. Within thirty days of issuance, the order may be appealed to the commission by filing a notice of appeal with the director. The appeal shall be conducted as a contested case pursuant to chapter 17A and the commission may affirm, modify, or revoke the order. The department may request legal services as required from the attorney general, including any legal proceeding necessary to obtain compliance with this part and rules and orders issued under this part.
2. A person who violates a provision of this part or a rule or order adopted or promulgated or the conditions of a permit issued pursuant to this part is subject to a civil penalty not to exceed five hundred dollars for each day that a violation occurs.

455B.281 Compensation for well interference.
If an investigation by the department, using information provided by the applicant or permittee and the complainant, discloses that a proposed or existing permit or use of combination of such uses is causing or will cause the delivery system to fail in a well which supplies water for a nonregulated use, the department may condition issuance or continuation of a permit upon payment by the permittee of compensation for all or a portion of the cost of a replacement water supply system or remedial measures necessitated by the interference. However, such condition may be imposed only after the parties demonstrate to the department that a good faith effort to negotiate a mutually agreeable compensation has been made and has failed.

Determination of the amount of compensation for the well interference shall be made as part of the determination of the department in accordance with section 455B.265 or 455B.271. The department may require the submission of itemized estimates of the cost of remedial repairs or a replacement water supply system. In determining appropriate compensation, the department shall consider the age and condition of the affected well or pumping system and its reasonableness as a method of obtaining groundwater in light of the history of development of groundwater in the surrounding area. When compensation is required for all or part of the cost of construction of a replacement water supply system or reconstruction of an affected well, the construction or reconstruction must comply with applicable well construction standards. A permittee is not required to pay compensation before having an opportunity to do test pumping authorized by the department and supervised by the department or designee.

The determination of the department shall be subject to administrative and judicial review and shall be the exclusive remedy for such interference.

§ 455B.291, JURISDICTION OF DEPARTMENT OF NATURAL RESOURCES

455B.291 Jurisdiction of department of natural resources.

The general assembly finds that the proper construction, rehabilitation, operation, and maintenance of modern and efficient wastewater treatment works, other water pollution control works, and drinking water facilities are essential to protecting and improving the state’s water quality and the health of its citizens; that protecting and improving water quality is an issue of concern to the citizens of the state; that in addition to protecting and improving the state’s water quality, adequate wastewater treatment and water pollution control works and drinking water facilities are essential to economic growth and development; that during the last several years the amount of federal grant money available to states and local governments for assistance in constructing and improving wastewater treatment works and safe drinking water facilities has sharply diminished and will likely continue to diminish; and that it is proper for the state to encourage local governments, individuals, and other entities to undertake water pollution control and drinking water projects through the establishment of a state mechanism to provide loans at the lowest reasonable rates.

455B.293 Policy.

It is the policy of this state that it is in the public interest to establish a water pollution control works and drinking water facilities financing program and revolving loan funds and administration funds to make loans available from the state to eligible entities for the purpose of undertaking projects. This section shall be broadly construed to effect and accomplish that purpose.

455B.294 Establishment of the Iowa water pollution control works and drinking water facilities financing program.

The Iowa water pollution control works and drinking water facilities financing program is established for the purpose of making loans available to eligible entities to finance all or part of the costs of projects. The program shall be a joint and cooperative undertaking of the department and the authority. The department and the authority may enter into and provide any agreements, documents, instruments, certificates, data, or information necessary in connection with the operation, administration, and financing of the program consistent with this part, the Safe Drinking Water Act, the Clean Water Act, the rules of the department and the commission, the rules of the authority, and other applicable federal and state law. The authority and the department may act to conform the program to the applicable guidance and regulations adopted by the United States environment-
455B.295 Funds and accounts.

1. Four separate funds are established in the state treasury, to be known as the water pollution control works revolving loan fund, the water pollution control works administration fund, the drinking water facilities revolving loan fund, and the drinking water facilities administration fund.

2. Each of the revolving loan funds shall include sums appropriated to the revolving loan funds by the general assembly, sums transferred by action of the governor under section 455B.296, subsection 3, sums allocated to the state expressly for the purposes of establishing each of the revolving loan funds under the Clean Water Act and the Safe Drinking Water Act, all receipts by the revolving loan funds, and any other sums designated for deposit to the revolving loan funds from any public or private source. All moneys appropriated to and deposited in the revolving loan funds are appropriated and shall be used for the sole purpose of making loans to eligible entities to finance all or part of the cost of projects. The moneys appropriated to and deposited in the water pollution control works revolving loan fund shall not be used to pay the nonfederal share of the cost of projects receiving grants under the Clean Water Act. The moneys in the revolving loan funds are not considered part of the general fund of the state, are not subject to appropriation for any other purpose by the general assembly, and in determining a general fund balance shall not be included in the general fund of the state but shall remain in the revolving loan funds to be used for their respective purposes.

3. The administration funds shall include sums appropriated to the administration funds by the general assembly, sums allocated to the state for the express purposes of administering the programs, policies, and undertakings authorized by the Clean Water Act and the Safe Drinking Water Act, and all receipts by the administration funds from any public or private source. All moneys appropriated to and deposited in the administration funds are appropriated for and shall be used and administered by the department to pay the costs and expenses associated with the program, including administration of the program, as may be determined by the department.

4. The department and the authority may establish and maintain other funds or accounts determined to be necessary to carry out the purposes of this part and shall provide for the funding, administration, investment, restrictions, and disposition of the funds and accounts. The department and the authority may combine administration of the revolving loan funds, and cross collateralize the same, and the administration funds to the extent permitted by the Clean Water Act, the Safe Drinking Water Act, and other applicable federal law.

455B.296 Intended use plans — capitalization grants — accounting.

1. Each fiscal year beginning July 1, 1988, the department may prepare and deliver intended use plans and enter into capitalization grant agreements with the administrator of the United States environmental protection agency under the terms and conditions set forth in the Clean Water Act and the Safe Drinking Water Act and federal regulations adopted pursuant to the Acts and may accept capitalization grants for each of the revolving loan funds in accordance with payment schedules established by the administrator. All payments from the administrator shall be deposited in the appropriate revolving loan funds.

2. The department and the authority shall establish fiscal controls and accounting procedures during appropriate accounting periods for payments and disbursements received and made by the revolving loan funds, the administration funds, and other funds established pursuant to section 455B.295, subsection 4, and to fund balances at the beginning and end of the accounting periods.

3. Upon receipt of the joint recommendation of the department and the authority with respect to the amounts to be so reserved and transferred, and subject in all respects to the applicable provisions of the Clean Water Act, Safe Drinking Water Act, and other applicable federal law, the governor may direct that the recommended portion of a capitalization grant made in respect of one of the revolving loan funds in any year be reserved for the transfer to the other revolving loan fund. The authority and the department may effect the transfer of any funds reserved for such purpose, as directed by the governor, and shall cause the records of the program to reflect the transfer. Any sums so transferred shall be expended in accordance with the intended use plan for the applicable revolving loan fund.

455B.297 Loans to eligible entities.

Moneys deposited in the revolving loan funds shall be used for the primary purpose of making loans to eligible entities to finance the cost of projects in accordance with the intended use plans.
developed by the department under section 455B.296. The loan recipients and the purpose, amount, interest rate, and repayment terms of the loans shall be determined by the director, in accordance with rules adopted by the commission, in compliance with and subject to the terms and conditions of the Clean Water Act, the Safe Drinking Water Act, and other applicable federal law, as applicable, and any resolution, agreement, indenture, or other document of the authority, and rules adopted by the authority, relating to any bonds, notes, or other obligations issued for the program which may be applicable to the loan.

455B.298 Powers and duties of the director.
The director shall:
1. Process and review loan applications to determine if an application meets the eligibility requirements set by the rules of the department.
2. Approve loan applications of eligible entities which satisfy the rules adopted by the commission, and the intended use plans developed by the department under section 455B.296.
3. Process and review all documents relating to projects and the extending of loans.
4. Prepare and process, in coordination with the authority, documents relating to the extending of loans, the sale and issuance of bonds, notes, or other obligations of the authority relating to the program, and the administration of the program.
5. Include in the budget prepared pursuant to section 455A.4, subsection 1, paragraph "c", an annual budget for the administration of the program and the use and disposition of amounts on deposit in the administration funds.
6. Charge each loan recipient a loan origination fee and an annual loan servicing fee. The amount of the loan origination fees and the loan servicing fees established shall be relative to the amount of a loan made from the revolving loan fund. The director shall deposit the receipts from the loan origination fees and the loan servicing fees in the appropriate administration fund.
7. Consult with and receive the approval of the authority concerning the terms and conditions of loan agreements as to the financial integrity of the loan.
8. Perform other acts and assume other duties and responsibilities necessary for the operation of the program.

455B.299 Adoption of rules.
The commission shall adopt rules pursuant to chapter 17A appropriate for the administration of this part.

Solid waste does not include hazardous waste as defined in section 455B.411 or source, special nuclear, or by-product material as defined in the Atomic Energy Act of 1954, as amended to January 1, 1979, or petroleum contaminated soil which has been remediated to acceptable state or federal standards.

455B.301A Declaration of policy.

1. The protection of the health, safety, and welfare of Iowans and the protection of the environment require the safe and sanitary disposal of solid wastes. An effective and efficient solid waste disposal program protects the environment and the public, and provides the most practical and beneficial use of the material and energy values of solid waste. While recognizing the continuing necessity for the existence of landfills, alternative methods of managing solid waste and a reduction in the reliance upon land disposal of solid waste are encouraged. In the promotion of these goals, the following waste management hierarchy in descending order of preference, is established as the solid waste management policy of the state:
   a. Volume reduction at the source.
   b. Recycling and reuse.
   c. Other approved techniques of solid waste management including, but not limited to, combustion with energy recovery, combustion for waste disposal, and disposal in sanitary landfills.

2. In the implementation of the solid waste management policy, the state shall:
   a. Establish and maintain a cooperative state and local program of project planning, and technical and financial assistance to encourage comprehensive solid waste management.
   b. Utilize the capabilities of private enterprise as well as the services of public agencies to accomplish the desired objectives of an effective solid waste management program.

455B.302 Duty of cities and counties — agreements — liens.

Every city and county of this state shall provide for the establishment and operation of a comprehensive solid waste reduction program consistent with the waste management hierarchy under section 455B.301A, and a sanitary disposal project for final disposal of solid waste by its residents. Comprehensive programs and sanitary disposal proj-
ective duties of the department to the local boards of health in matters relating to solid waste, refuse disposal plants, and sanitary disposal projects. The director may issue, modify, or deny variances from the rules of the commission. The applicant may appeal the decision of the director to the commission.

[C83, §455B.303]
86 Acts, ch 1245, §1899

455B.304 Rules established.

1. The commission shall establish rules for the proper administration of this part 1 of division IV which shall reflect and accommodate as far as is reasonably possible the current and generally accepted methods and techniques for treatment and disposition of solid waste which will serve the purposes of this part, and which shall take into consideration the factors, including others which it deems proper, such as existing physical conditions, topography, soils and geology, climate, transportation, and land use, and which shall include but are not limited to rules relating to the establishment and location of sanitary disposal projects, sanitary practices, inspection of sanitary disposal projects, collection of solid waste, disposal of solid waste, pollution controls, the issuance of permits, approved methods of private disposition of solid waste, the general operation and maintenance of sanitary disposal projects, and the implementation of this part.

2. The commission shall adopt rules that allow the use of wet or dry sludge from publicly owned treatment works for land application. A sale of wet or dry sludge for the purpose of land application shall be accompanied by a written agreement signed by both parties which contains a general analysis of the contents of the sludge. The heavy metal content of the sludge shall not exceed that allowed by rules of the commission. An owner of a publicly owned treatment works which sells wet or dry sludge is not subject to any action by the purchaser to recover damages for harm to person or property caused by sludge that is delivered pursuant to a sale unless it is a result of a violation of the written agreement or if the heavy metal content of the sludge exceeds that allowed by rules of the commission. Nothing in this section shall provide immunity to any person from action by the department pursuant to section 455B.307. The rules adopted under this subsection shall be generally consistent with those rules of the department existing on January 1, 1982, regarding the land application of municipal sewage sludge except that they may provide for different methods of application for wet sludge and dry sludge.

3. The commission shall adopt rules prohibiting the disposal of uncontained liquid waste in a sanitary landfill. The rules shall prohibit land burial or disposal by land application of wet sewer sludge at a sanitary landfill.

455B.303 Administrator’s duties.

The director shall administer the provisions of this part 1 of division IV subject to the rules established by the commission.

Local boards of health shall co-operate in the enforcement of the provisions of said part and the director may seek their aid and delegate administrative duties of the department to the local boards of health in matters relating to solid waste, refuse disposal plants, and sanitary disposal projects.
4. The commission shall adopt rules requiring that each sanitary disposal project established pursuant to section 455B.302 and permitted pursuant to section 455B.305 install and maintain a sufficient number of groundwater monitoring wells to adequately determine the quality of the groundwater and the impact the sanitary disposal project, if any, is having on the groundwater adjacent to the sanitary disposal project site.

5. The commission shall adopt rules requiring a schedule of monitoring of the quality of groundwater adjacent to the sanitary disposal project from the groundwater monitoring wells installed in accordance with this section during the period the sanitary disposal project is in use. Schedules of monitoring may be varied in consideration of the types of sanitary disposal practices, hydrologic and geologic conditions, construction and operation characteristics, and volumes and types of wastes handled at the sanitary disposal project site.

6. The commission shall, by rule, require continued monitoring of groundwater pursuant to this section for a period of thirty years after the sanitary disposal project is closed. The commission may prescribe a lesser period of monitoring duration and frequency in consideration of the potential or lack thereof for groundwater contamination from the sanitary disposal project. The commission may extend the thirty-year monitoring period on a site-specific basis by adopting rules specifically addressing additional monitoring requirements for each sanitary disposal project for which the monitoring period is to be extended.

7. The commission shall adopt rules which may require the installation of shafts to relieve the accumulation of gas in a sanitary disposal project.

8. The commission shall adopt rules which establish closure, postclosure, leachate control and treatment, and financial assurance standards and requirements and which establish minimum levels of financial responsibility for sanitary disposal projects.

9. The commission shall adopt rules which establish the minimum distance between tiling lines and a sanitary landfill in order to assure no adverse effect on the groundwater.

10. The commission shall adopt rules for the distribution of grants to cities, counties, central planning agencies, and public or private agencies working in cooperation with cities or counties, for the purpose of solid waste management. The rules shall base the awarding of grants on a project’s reflection of the solid waste management policy and hierarchy established in section 455B.301A, the proposed amount of local matching funds, and community need.

11. By July 1, 1990, a sanitary landfill disposal project operating with a permit shall have a trained, tested, and certified operator. A certification program shall be devised or approved by rule of the department.

12. The commission shall adopt rules for the certification of operators of solid waste incinerators. The criteria for certification shall include, but is not limited to, an operator’s technical competency and operation and maintenance of solid waste incinerators.

13. Notwithstanding the provisions of this chapter regarding the requirement of the equipping of a sanitary landfill with a leachate control system and the establishment and continuation of a postclosure account, the department shall adopt rules which provide for an exemption from the requirements to equip a publicly owned sanitary landfill with a leachate control system and to establish and maintain a postclosure account if the sanitary landfill operator is a public agency, if the sanitary landfill has closed or will close by July 1, 1992, and will no longer accept waste for disposal after that date, and if at the time of closure of the sanitary landfill monitoring of the groundwater does not reveal the presence of leachate. The department shall require postclosure groundwater monitoring and shall establish the requirements for the implementation of leachate collection and control in cases in which leachate is found during postclosure monitoring. The department shall provide for a closure completion period following the date of closure of a sanitary landfill. Notwithstanding the provisions of this paragraph, the public agency shall retain financial responsibility for closure and postclosure requirements applicable to sanitary disposal projects.

14. The commission shall adopt rules providing for the land application of soils resulting from the remediation of underground storage tank releases in the state.

15. The commission shall adopt rules which require all sanitary disposal projects in which the tonnage fee pursuant to section 455B.310 is imposed, to install scales and utilize these scales to calculate payment of the tonnage fee.

16. The commission shall adopt rules which prohibit the land application of petroleum contaminated soils on flood plains.

17. The commission shall adopt rules to establish a special waste authorization program. For purposes of this subsection, “special waste” means any industrial process waste, pollution control waste, or toxic waste which presents a threat to human health or the environment or a waste with inherent properties which make the disposal of the waste in a sanitary landfill difficult to manage. Special waste does not include domestic, office, commercial, medical, or industrial waste that does not require special handling or limitations on its disposal. Special waste does not include hazardous wastes which are regulated under the federal Resource Conservation and Recovery Act, 42 U.S.C. § 6921–6934, hazardous wastes as defined in section 455B.411, subsection 3, or hazardous wastes included in the list compiled in accordance with section 455B.464.
§455B.304, JURISDICTION OF DEPARTMENT OF NATURAL RESOURCES

18. The commission shall adopt rules for the issuance of a single general permit, after notice and opportunity for a public hearing. The single general permit shall cover numerous facilities to the extent that they are representative of a class of facilities which can be identified and conditioned by a single permit.

C83, §455B.304

455B.305 Issuance or renewal of permits by director.

1. The director shall issue, revoke, suspend, modify, or deny permits for the construction and operation of sanitary disposal projects.

A permit shall be issued by the director or at the director’s direction, by a local board of health, for each sanitary disposal project operated in this state. The permit shall be issued in the name of the city or county or, where applicable, in the name of the public or private agency operating the project. Each sanitary disposal project shall be inspected annually by the department or a local board of health. The permits issued pursuant to this section are in addition to any other licenses, permits or variances authorized or required by law, including, but not limited to, chapter 335. A permit may be suspended or revoked by the director if a sanitary disposal project is found not to meet the requirements of part 1 or rules issued under part 1. The suspension or revocation of a permit may be appealed to the department.

2. Beginning July 1, 1988, the director shall not issue a permit for the construction or operation of a new sanitary disposal project unless the permit applicant, in conjunction with all local governments using the sanitary disposal project, has filed a plan as required by section 455B.306. For those sections for which the department has not developed rules, the permit shall contain conditions and a schedule for meeting all applicable requirements of section 455B.306.

3. Beginning July 1, 1988, the director shall not renew or reissue a permit which had been initially issued prior to that date for a sanitary disposal project, unless the permit applicant, in conjunction with all local governments using the sanitary disposal project, has filed a plan as required by section 455B.306. For those sections for which the department has not developed rules, the permit shall contain conditions and a schedule for meeting all applicable requirements of section 455B.306.

4. Beginning July 1, 1994, the director shall not renew or reissue a permit which had been initially issued or renewed prior to that date for a sanitary disposal project, unless and until the permit applicant, in conjunction with all local governments using the sanitary disposal project, documents that steps are being taken to begin implementing the plan filed pursuant to section 455B.306. For those sections for which the department has not developed rules, the permit shall contain conditions and a schedule for meeting all applicable requirements of section 455B.306. However, a permit may be issued for the construction and operation of a new sanitary disposal project in accordance with subsection 2.

5. Beginning July 1, 1997, the director shall not renew or reissue a permit which had been renewed or reissued prior to that date for a sanitary landfill, unless and until the permit applicant, in conjunction with all local governments using the landfill, documents that alternative methods of solid waste disposal other than use of a sanitary landfill have been implemented as set forth in the plan filed pursuant to section 455B.306. However, the director may issue a permit for the construction and operation of a new sanitary landfill in accordance with subsection 2 and a permit may be renewed or reissued for a sanitary landfill which had received an initial permit but the permit had not been previously renewed or reissued prior to July 1, 1997 in accordance with subsection 3.

After July 1, 1997, however, no new landfill permits shall be issued unless the applicant, in conjunction with all local governments which will use the landfill, certifies that the landfill is needed as a part of an alternative disposal method, or unless the applicant provides documentation which satisfies the director that alternatives have been studied and are not either technically or economically feasible. The decision of the director is subject to review by the commission at its next meeting.

6. Beginning July 1, 1992, the director shall not issue a permit for a sanitary landfill unless the sanitary landfill is equipped with a leachate control system. Beginning July 1, 1994, the director shall not renew or reissue a permit for an existing sanitary landfill unless the sanitary landfill is equipped with a leachate control system. During the period from July 1, 1992, through June 30, 1994, the director may require an existing sanitary landfill to install a leachate control system if leachate from the sanitary landfill is adversely impacting the public health or safety or the environment. During the period from July 1, 1992, through June 30, 1994, the director shall require an existing sanitary landfill to install a leachate control system if the sanitary landfill has not submitted a completed hydrogeological plan to the department. The director may exempt a permit applicant from these requirements if the director determines that certain conditions regarding, but not limited to, existing physical conditions, topog-
raphy, soil, geology, and climate, are such that a leachate control system is unnecessary. The director may exempt a permit applicant from the requirements of this subsection if the permittee certifies that a risk assessment of the site indicates that a current or potential threat to environmental health does not exist such that an exposed individual has no greater than a one in one million risk of developing cancer and for noncancerogens a hazard index of less than one. The director shall use the United States environmental protection agency’s risk assessment guidance for the superfund as a basis for determining whether to grant the exemption. The exemption in this subsection shall apply only to sanitary landfill cells in existence prior to July 1, 1992, or the vertical expansion above a cell in which waste was deposited prior to July 1, 1992. A sanitary landfill permittee desiring an exemption shall apply to the director and certify a completion date for a risk assessment study by December 1, 1994. If an exemption is not granted, or if the risk assessment study concludes that a leachate control system is required, a permittee shall certify a completion date and increments of progress for the installation of a leachate control system. The department shall retain the discretion to approve or disapprove a risk assessment study or a proposed completion date under this subsection. If a schedule for a risk assessment study or the installation of a leachate control system is approved by the department and satisfactory progress is being made toward completion of the study or the installation of the leachate control system, the permittee shall not be subject to penalties for failure to meet the requirements of this subsection.

Prior to the siting of a proposed new sanitary landfill or incinerator by a private agency disposing of waste which the agency generates on property owned by the agency which is located outside of the city limits and for which no county zoning ordinance exists, the private agency shall cause written notice of the proposal, including the nature of the proposed facility, and the right of the owner to submit a petition for formal siting of the proposed site, to be served either in person or by mail on the owners and residents of all property within two miles in each direction of the proposed local site area. The owners shall be identified based upon the authentic tax records of the county in which the proposed site is to be located. The private agency shall notify the county board of supervisors which governs the county in which the site is to be located of the proposed siting, and certify that notices have been mailed to owners and residents of the impacted area. Written notice shall be published in the official newspaper, as selected by the county board of supervisors pursuant to section 349.1, of the county in which the site is located. The notice shall state the name and address of the applicant, the location of the proposed site, the nature and size of the development, the nature of the activity proposed, the probable life of the proposed activity, and a description of the right of persons to comment on the request. If two hundred fifty or a minimum of twenty percent, whichever is less, of the owners and residents of property notified submit a petition for formal review to the county board of supervisors or if the county board of supervisors, on the board’s own motion, requires formal review of the proposed siting, the private agency proposal is subject to the formal siting procedures established pursuant to this section.

1. Prior to the siting of a proposed, new sanitary landfill, incinerator, or infectious medical waste incinerator, a city, county, or private agency, shall submit a request for local siting approval to the city council or county board of supervisors which governs the city or county in which the proposed site is to be located. The requirements of this section do not apply to the expansion of an existing sanitary landfill owned by a private agency which disposes of waste which the agency generates on property owned by the agency. The city council or county board of supervisors shall approve or disapprove the site for each sanitary landfill, or incinerator, or infectious medical waste incinerator.

2. An applicant for siting approval shall submit information to the city council or county board of supervisors to demonstrate compliance with the requirements prescribed by this chapter regarding a sanitary landfill or infectious waste incinerator. Siting approval shall be granted only if the proposed project meets all of the following criteria:
   a. The project is necessary to accommodate the solid waste management needs of the area which the project is intended to serve.
   b. The project is designed, located, and proposed to be operated so that the public health, safety, and welfare will be protected.
   c. The project is located so as to minimize incompatibility with the character of the surrounding area and to minimize the effect on the value of the surrounding property. The city council or county board of supervisors shall consider the advice of the appropriate planning and zoning commission regarding the application.
   d. The plan of operations for the project is designed to minimize the danger to the surrounding area from fire, spills, or other operational accidents.

4261 JURISDICTION OF DEPARTMENT OF NATURAL RESOURCES, §455B.305A

Local approval of sanitary landfill and infectious waste incinerator projects.

1. Prior to the siting of a proposed new sanitary landfill, incinerator, or infectious medical waste incinerator, a city, county, or private agency, shall submit a request for local siting approval to the city council or county board of supervisors which governs the city or county in which the proposed site is to be located. The requirements of this section do not apply to the expansion of an existing sanitary landfill owned by a private agency which disposes of waste which the agency generates on property owned by the agency. The city council or county board of supervisors shall approve or disapprove the site for each sanitary landfill, or incinerator, or infectious medical waste incinerator.
e. The traffic patterns to or from the project are designed in order to minimize the impact on existing traffic flows.

f. Information regarding the previous operating experience of a private agency applicant and its subsidiaries or parent corporation in the area of solid waste management or related activities are made available to the city council or county board of supervisors.

g. The department of natural resources has been consulted by the city council or board of supervisors prior to the approval.

3. No later than fourteen days prior to a request for siting approval, the applicant shall cause written notice of the request to be served either in person or by restricted certified mail on the owners of all property within the proposed local site area not solely owned by the applicant, and on the owners of all property within one thousand feet in each direction of the lot line of the proposed local site property if the proposed local site is within the city limits, or within two miles in each direction of the lot line of the proposed local site property if the proposed local site is outside of the city limits. The owners shall be identified based upon the authentic tax records of the county in which the project is to be located.

Written notice shall be published in the official newspaper of the county in which the site is located. The notice shall state the name and address of the applicant, the location of the proposed site, the nature and size of the development, the nature of the activity proposed, the probable life of the proposed activity, the date when the request for site approval will be submitted, and a description of the right of persons to comment on the request.

4. An applicant shall file a copy of its request with the department and with the city council or the county board of supervisors in which the proposed site is located. The request shall include the substance of the applicant’s proposal and all documents, if any, submitted as of that date to the department pertaining to the proposed project. All documents or other materials pertaining to the proposed project on file with the city council or county board of supervisors shall be made available for public inspection at the office of the city council or county board of supervisors and may be copied upon payment of the actual cost of reproduction.

Any person may file written comment with the city council or county board of supervisors concerning the appropriateness of the proposed site for its intended purpose. The city council or county board of supervisors shall consider any comment received or postmarked not later than thirty days after the date of the last public hearing.

5. At least one public hearing shall be held by the city council or county board of supervisors no sooner than ninety days but no later than one hundred twenty days from receipt of the request for siting approval. A hearing shall be preceded by published notice in an official newspaper of the county of the proposed site, including in any official newspaper located in the city of the proposed site.

6. Decisions of the city council or the county board of supervisors shall be in writing, specifying the reasons for the decision. The written decision of the city council or the county board of supervisors shall be available for public inspection at the office of the city council or county board of supervisors and may be copied upon payment of the actual cost of reproduction. Final action shall be taken by the city council or the county board of supervisors within one hundred eighty days after the filing of the request for site approval.

At any time prior to completion by the applicant of the presentation of the applicant’s factual evidence and an opportunity for questioning by the city council or the county board of supervisors and members of the public, the applicant may file not more than one amended application upon payment of additional fees pursuant to subsection 9. The time limitation for final action on an amended application shall be extended for an additional ninety days.

7. Construction of a project which is granted local siting approval under this section shall commence within one calendar year from the date upon which it was granted or the permit shall be nullified.

8. The local siting approval, criteria, and other procedures provided for in this section are the exclusive local siting procedures. Local zoning, ordinances, or other local land use requirements may be considered in such siting decisions.

9. A city council or a county board of supervisors shall charge an applicant for siting approval, under this section, a fee to cover the reasonable and necessary costs incurred by the city or county in the siting approval process.

10. An applicant shall not file a request for local siting approval which is substantially the same as a request which was denied within the preceding two years pursuant to a finding against the applicant under the established criteria.

455B.306 Plans filed.

1. A city, county, and a private agency operating or planning to operate a sanitary disposal project shall file with the director a comprehensive plan detailing the method by which the city, county, or private agency will comply with this part. All cities and counties shall also file with the director a comprehensive plan detailing the method by which the city or county will comply with the requirements of section 455B.302 to establish and implement a comprehensive solid waste management or related activities are made available to the city council or county board of supervisors.
waste reduction program for its residents.

For the purposes of this section, a public agency managing the waste stream for cities or counties pursuant to chapter 28E, shall file one comprehensive plan on behalf of its members, which constitutes full compliance by the public agency’s members with the filing requirements of this section. If both a public agency managing the waste stream for a city or county pursuant to chapter 28E, and one or more of the public agency’s member cities or counties file a comprehensive plan under this subsection, the director shall, following notice to the agency, make a determination that any plan filed by a member city or county is compatible with the comprehensive plan of the chapter 28E public agency. If the director determines that the comprehensive plan of a city or county is not compatible with the comprehensive plan of a chapter 28E public agency, the director shall require the city or county to provide justification for approval of the comprehensive plan based upon the innovative nature of the comprehensive plan, the urgency of implementation, or other unique features of the comprehensive plan of the city or county, and that the plan otherwise complies with the provisions of this chapter.

This subsection does not prevent the director from approving pilot projects which otherwise comply with the provisions of this chapter. The director shall review each comprehensive plan submitted and may reject, suggest modification, or approve the proposed plan. The director shall aid in the development of comprehensive plans for compliance with this part. The director shall make available to a city, county, and private agency appropriate forms for the submission of comprehensive plans and may hold hearings for the purpose of implementing this part. The director and governmental agencies with primary responsibility for the development and conservation of energy resources shall provide research and assistance, when cities and counties operating or planning to operate sanitary disposal projects request aid in planning and implementing resource recovery systems.

A comprehensive plan filed by a private agency operating or planning to operate a sanitary disposal project required pursuant to section 455B.302 shall be developed in cooperation and consultation with the city or county responsible to provide for the establishment and operation of a sanitary disposal project.

A completed plan for the control and treatment of leachate, submitted to meet the requirements of section 455B.305, subsection 6, shall be reviewed by the director, and the director shall reject, suggest modifications, or approve the completed plan within six months of submittal of the plan. If no action is taken within the six-month period, the plan shall be considered approved. However, the director may require updating of the plan at the time of renewal or reissuance of a previously issued permit.

2. The plan required by subsection 1 for sanitary disposal projects shall be filed with the department at the time of initial application for the construction and operation of a sanitary disposal project and at a minimum shall be updated and refiled with the department at the time of each subsequent application for renewal or reissuance of a previously issued permit. The department may, consistent with rules of the commission, require filing or updating of a plan at other times.

3. A city or county required to file with the director a comprehensive plan detailing the method by which the city or county will comply with the requirements of section 455B.302 to establish and implement a comprehensive solid waste reduction program for its residents and which seeks approval of the inclusion of refuse-derived fuel as a component of its percentage of waste reduction, shall file an annual report with the director regarding the percentage of reduction attributable to refuse-derived fuel and the justification for such inclusion. The director shall approve or reject the inclusion. The percentage of reduction attributable to refuse-derived fuel and allowable for inclusion shall not exceed fifty percent.

4. A comprehensive plan filed pursuant to this section shall incorporate and reflect the waste management hierarchy of the state solid waste management policy and shall at a minimum address the following general topics:

a. The extent to which solid waste is or can be recycled.

b. The economic and technical feasibility of using other existing sanitary disposal project facilities in lieu of initiating or continuing the sanitary landfill currently used.

c. The expected environmental impact of alternative solid waste disposal methods, including the use of sanitary landfills.

d. A specific plan and schedule for implementing technically and economically feasible solid waste disposal methods that will result in minimal environmental impact.

5. The comprehensive plan shall provide details of a local recycling program which shall contain a methodology for meeting the state volume reduction goal pursuant to section 455D.3, and a methodology for implementing a program of separation of wastes including but not limited to glass, plastic, paper, and metal.

6. In addition to the above requirements, the following specific areas must be addressed in detail in a comprehensive plan filed in conjunction with the issuance, renewal, or reissuance of a permit for a sanitary disposal project:

a. A closure and postclosure plan detailing the schedule for and the methods by which the operator will meet the conditions for proper closure and postclosure adopted by rule by the commission. The plan shall include, but is not limited to, the proposed frequency and types of actions to be im-
implemented prior to and following closure of an operation, the proposed postclosure actions to be taken to return the area to a condition suitable for other uses, and an estimate of the costs of closure and postclosure and the proposed method of meeting these costs. The postclosure plan shall reflect the thirty-year time period requirement for postclosure responsibility.

b. A plan for the control and treatment of leachate, including financial considerations proposed in meeting the costs of control and treatment in order to meet the requirements of section 455B.305, subsection 6.

c. A financial plan detailing the actual cost of the sanitary disposal project and including the funding sources of the project. In addition to the submittal of the financial plan pursuant to this subsection, the operator of an existing sanitary landfill shall submit an annual financial statement to the department.

d. An emergency response and remedial action plan including established provisions to minimize the possibility of fire, explosion, or any release to air, land, or water of pollutants that could threaten human health and the environment, and the identification of possible occurrences that may endanger human health and environment.

e. A description of the service area to be served by the city, county, or private agency under the comprehensive plan. A comprehensive plan shall not include a service area, any part of which is included in another comprehensive plan.

7. When a proposed plan is subject to review and approval by several state and local agencies, if the plan is substantially modified after approval by an agency, the plan shall be resubmitted as a new proposal to all other agencies to ensure that all agencies have approved the same plan.

8. In addition to the comprehensive plan filed pursuant to subsection 1, a person operating or proposing to operate a sanitary disposal project shall provide a financial assurance instrument to the department prior to the initial approval of a permit or prior to the renewal of a permit for an existing or expanding facility beginning July 1, 1988.

9. If a city, county, or private agency does not incorporate the elements of the solid waste hierarchy of the state solid waste management policy in a proposed initial or adopted comprehensive plan, the city council or county board of supervisors governing the city or county in which the sanitary landfill is proposed to be located or is located shall hold a public hearing to address the basis for not including any of the elements in the plan.

10. A city council or county board of supervisors governing the area in which a sanitary disposal project is proposed to be located or is located shall hold a public hearing to address the issue of including or not including local curbside recycling in the comprehensive plan.

(1) Money in the accounts shall not be assigned for the benefit of creditors with the exception of the state.

(2) Money in an account shall not be used to pay any final judgment against a licensee arising out of the ownership or operation of the site during its active life or after closure.

(3) Conditions under which the department may gain access to the accounts and circumstances under which the accounts may be released to the operator after closure and postclosure responsibilities have been met, shall be established by the commission.

c. The commission shall adopt by rule the minimum amounts of financial responsibility for sanitary disposal projects.

d. Financial assurance instruments may include instruments such as cash or surety bond, a letter of credit, a secured trust fund, or a corporate guarantee.

e. The annual financial statement submitted to the department pursuant to subsection 6, paragraph "c", shall include the current amounts established in each of the accounts and the projected amounts to be deposited in the accounts in the following year.

455B.306A Annexation of territory — expansion of services

1. A city which annexes an area pursuant to chapter 368, or plans to operate or expand solid waste collection services into an area where the collection of solid waste is presently being provided by a private entity, shall notify the private entity by certified mail at least sixty days before its annexation or expansion of its intent to provide solid waste collection services in the area.

2. A city shall not commence alternative solid waste collection in such an area for one year from the effective date of the annexation or one year
from the effective date of the notice that the city intends to operate or expand solid waste collection services in the area, unless the city contracts with the private entity to continue the services for that period.

3. A private entity providing solid waste collection services pursuant to this section shall provide solid waste collection services in the area in accordance with the city's comprehensive plan.

92 Acts, ch 1174, §6

455B.307 Dumping — where prohibited — penalty.

1. A private agency or public agency shall not dump or deposit or permit the dumping or depositing of any solid waste at any place other than a sanitary disposal project approved by the director unless the agency has been granted a permit by the department which allows the dumping or depositing of solid waste on land owned or leased by the agency. The department shall adopt rules regarding the permitting of this activity which shall provide that the public interest is best served, but which may be based upon criteria less stringent than those regulating a public sanitary disposal project provided that the rules adopted meet the groundwater protection goal specified in section 455E.4. The comprehensive plans for these facilities may be varied in consideration of the types of sanitary disposal practices, hydrologic and geologic conditions, construction and operations characteristics, and volumes and types of waste handled at the disposal site. The director may issue temporary permits for dumping or disposal of solid waste at disposal sites for which an application for a permit to operate a sanitary disposal project has been made and which have not met all of the requirements of part 1 of this division and the rules adopted by the commission if a compliance schedule has been submitted by the applicant specifying how and when the applicant will meet the requirements for an operational sanitary disposal project and the director determines the public interest will be best served by granting such temporary permit.

2. The director may issue any order necessary to secure compliance with or prevent a violation of the provisions of this part 1 of division IV or the rules adopted pursuant to the part. The attorney general shall, on request of the department, institute any legal proceedings necessary in obtaining compliance with an order of the commission or the director or prosecuting any person for a violation of the provisions of the part or rules issued pursuant to the part.

3. Any person who violates any provision of part 1 of this division or any rule or any order adopted or the conditions of any permit or order issued pursuant to part 1 of this division shall be subject to a civil penalty, not to exceed five thousand dollars for each day of such violation.

4. An illegal dumping enforcement officer shall take an oath of office prescribed by the board of supervisors. An officer’s appointment shall be effective March 1 and shall continue for a term at the discretion of the board of supervisors.

5. An illegal dumping enforcement officer, subject to direction and control by the county board of supervisors, shall only be empowered to enforce the provisions of sections 455B.307A and 455B.363 and local littering ordinances. An officer shall not have the duty to enforce any other traffic or criminal laws of the state, county, or a municipality. An officer may enter upon any public land in the county, excluding land within the limits of cities, unless otherwise authorized by a city, and any private property with the permission of the landowner at any time for the performance of the officer’s duties, and may hire the labor and equipment necessary subject to the approval of the board of supervisors.

6. A person shall not willfully obstruct, resist, impede, or interfere with an illegal dumping enforcement officer in connection with the officer’s enforcement of sections 455B.307A and 455B.363 and local littering ordinances. A person shall not
§455B.308 Appeal from order. Any person aggrieved by an order of the director may appeal the order by filing a written notice of appeal with the director within thirty days of the issuance of the order. The director shall schedule a hearing for the purpose of hearing the arguments of the aggrieved person within thirty days of the filing of the notice of appeal. The hearing may be held before the commission or its designee. A complete record shall be made of the proceedings. The director shall issue the findings in writing to the aggrieved person within thirty days of the conclusion of the hearing. Judicial review may be sought of actions of the commission in accordance with the terms of the Iowa administrative procedure Act, chapter 17A. Notwithstanding the terms of the Act, petitions for judicial review may be filed in the district court of the county where the acts in issue occurred.

§455B.310 Tonnage fee imposed — appropriations — exemptions.

1. Except as provided in subsection 5, the operator of a sanitary landfill shall pay a tonnage fee to the department for each ton or equivalent volume of solid waste received and disposed of at the sanitary landfill during the preceding reporting period. The department shall determine by rule the volume which is equivalent to a ton of waste.

2. The tonnage fee is four dollars and twenty-five cents per ton of solid waste.

3. If a sanitary landfill required to pay a tonnage fee under this section has an updated comprehensive plan approved by the department, the sanitary landfill operator shall retain, in addition to the ninety-five cents retained pursuant to subsection 4, twenty-five cents of the tonnage fee per ton of solid waste in the fiscal year beginning July 1, 1998, and every year thereafter. In the fiscal year beginning July 1, 1999, and every year thereafter, any planning area which meets the statewide average, as determined by the department on July 1, 1999, shall retain, in addition to the twenty-five cents retained pursuant to this subsection, ten cents of the tonnage fee per ton of solid waste regardless of whether the planning area subsequently fails to meet the statewide average. Any tonnage fees retained pursuant to this subsection shall be used for waste reduction, recycling, or small business pollution prevention purposes. Any tonnage fee retained pursuant to this subsection shall be taken from that portion of the tonnage fee which would have been allocated to funding alternatives to landfills pursuant to section 455E.11, subsection 2, paragraph "a", subparagraph (1).

4. If a planning area achieves the fifty percent waste reduction goal provided in section 455D.3, ninety-five cents of the tonnage fee shall be retained by a city, county, or public or private agency. If the fifty percent waste reduction goal has not been met, one dollar and twenty cents of the tonnage fee shall be retained by a city, county, or public or private agency. Moneys retained by a city, county, or public or private agency shall be used as follows:

a. To meet comprehensive planning requirements of section 455B.306, the development of a closure or postclosure plan, the development of a plan for the control and treatment of leachate including the preparation of facility plans and detailed plans and specifications, and the preparation of a financial plan.

b. If a planning area achieves the fifty percent waste reduction goal provided in section 455D.3, forty-five cents of the retained funds shall be used for implementing waste volume reduction and recycling requirements of comprehensive plans filed under section 455B.306. If the fifty percent waste reduction goal has not been met, seventy cents of the retained funds shall be used for implementing waste volume reduction and recycling requirements of comprehensive plans filed under section 455B.306. The funds shall be distributed to a city, county, or public agency served by the sanitary disposal project. Fees collected by a private agency which provides for the final disposal of solid waste shall be remitted to the city, county, or public agency served by the sanitary disposal project. However, if a private agency is designated to develop and implement the comprehensive plan pursuant to section 455B.306, fees under this paragraph shall be retained by the private agency.

c. For other environmental protection activities.

d. Each sanitary landfill owner or operator shall submit a return to the department identifying the use of all fees retained under this section including the manner in which the fees were distributed. The return shall be submitted concurrently with the return required under subsection 7.

5. Solid waste disposal facilities with special provisions which limit the site to disposal of construction and demolition waste, landscape waste, coal combustion waste, cement kiln dust, foundry sand, and solid waste materials approved by the department for lining or capping, or for construc-
tion berms, dikes, or roads in a sanitary disposal project or sanitary landfill are exempt from the tonnage fees imposed under this section. However, solid waste disposal facilities under this subsection are subject to the fees imposed pursuant to section 455B.105, subsection 11, paragraph “a”. Notwithstanding the provisions of section 455B.105, subsection 11, paragraph “b”, the fees collected pursuant to this subsection shall be deposited in the solid waste account as established in section 455E.11, subsection 2, paragraph “a”, to be used by the department for the regulation of these solid waste disposal facilities.

6. All tonnage fees received by the department under this section shall be deposited in the solid waste account of the groundwater protection fund created under section 455E.11.

7. Fees imposed by this section shall be paid to the department on a quarterly basis with payment due by no more than ninety days following the quarter during which the fees were collected. The payment shall be accompanied by a return which shall identify the amount of fees to be allocated to the landfill alternative financial assistance program, the amount of fees in terms of cents per ton, retained for meeting waste reduction and recycling goals under section 455D.3, and additional fees imposed for failure to meet the twenty-five percent waste reduction and recycling goal under section 455D.3.

8. A person required to pay fees by this section who fails or refuses to pay the fees imposed by this section or who fails or refuses to provide the return required by this section shall be assessed a penalty of two percent of the fee due for each month the fee or return is overdue. The penalty shall be paid in addition to the fee due.

9. Foundry sand used by a sanitary landfill as daily cover, road base, or berm material or for other purposes defined as beneficial uses by rule of the department is exempt from imposition of the tonnage fee under this section. Sanitary landfills shall use foundry sand as a replacement for earthen material, if the foundry sand is generated by a foundry located within the state and if the foundry sand is provided to the sanitary landfill at no cost to the sanitary landfill.

455B.311 Grants.
The director, with the approval of the commission, may make grants to cities, counties, or central planning agencies representing cities and counties or combinations of cities, counties, or central planning agencies from funds reserved under and for the purposes specified in section 455E.11, subsection 2, paragraph “a”, subject to all of the following conditions:

1. Application for grants shall be in a form and contain information as prescribed by rule of the department.

2. Grants shall only be awarded to a city or a county; however, a grant may be made to a central planning agency representing more than one city or county or combination of cities or counties for the purpose of planning and implementing regional solid waste management facilities or may be made to private or public agencies working in cooperation with a city or county. The department shall award grants, in accordance with the rules adopted by the commission, based upon a proposal’s reflection of the solid waste management policy and hierarchy established in section 455B.301A. Grants shall be awarded only for an amount determined by the department to be reasonable and necessary to conduct the work as set forth in the grant application. Grants may be awarded at a maximum cost-share level of ninety percent with a preference given for regional or shared projects and a preference given to projects involving environmentally fragile areas which are particularly subject to groundwater contamination. Grants shall be awarded in a manner which will distribute the grants geographically throughout the state.

3. Grants shall be awarded only for an amount determined by the department to be reasonable and necessary to conduct the work as set forth in the grant application. Grants for less than a county-wide planning area shall be limited to twenty-five percent state funds, for a single-county planning area the state funds shall be limited to fifty percent, and for a two-county planning area the state funds shall be limited to seventy-five percent. For each additional county above a two-county planning area, the maximum allowable state funds shall be increased by an additional five percent, up to a maximum of ninety percent state funds.

4. Grants shall not be awarded to a city, county, or central planning agency if the entity has not submitted a completed hydrogeological plan to the department.

5. A city, county, or central planning agency on behalf of a city or county may not receive more than one grant under this section in any three-year period.

6. The director, with the approval of the commission, may deny a grant application if in the judgment of the director the applicant could not reasonably be expected to adequately and properly complete the plan for which the grant is requested or the applicant could not reasonably be expected to implement a planned sanitary disposal project.
§455B.312 Waste abatement program.
1. If the department receives a complaint that certain products or packaging when disposed of are incompatible with an alternative method of managing solid waste and with the solid waste management policy, the director shall investigate the complaint. If the director determines that the complaint is well-founded, the department shall inform the manufacturer of the product or packaging and attempt to resolve the matter by informal negotiations.
2. If informal procedures fail to result in resolution of the matter, the director shall hold a hearing between the affected parties. Following the hearing, if it is determined that removal of the product or packaging is critical to the utilization of the alternative method of disposing of solid waste, the director shall issue an order setting out the requirements for an abatement plan to be prepared by the manufacturer within the time frame established in the order.
If an acceptable plan is not prepared, the plan is not implemented, or the problem otherwise continues unabated, the attorney general shall take actions authorized by law to secure compliance.

1. “Nuclear waste disposal site” means all facilities and appurtenances including all real and personal property connected with such facilities, which are acquired, leased, purchased, constructed, reconstructed, equipped, improved, extended, maintained, or operated to facilitate the final disposition of radioactive waste without creating a significant hazard to the public health or safety, and which are approved by the director.
2. “Radiation” means any ionizing radiation including, but not limited to, high-speed electrons, neutrons, protons and other nuclear particles, but not sound waves.
3. “Radioactive material” means any solid, liquid, or gaseous material which emits radiation spontaneously.

[C73, 75, 77, 79, 81, §455B.86]
C83, §455B.332

§455B.333 Rules for transporting.
The commission shall provide, by rule, for the proper methods of transporting, storage, and handling of radioactive material except that the provisions of this section shall not apply to the transportation, handling, or storage of radioactive material by licensed physicians and surgeons, licensed osteopathic physicians and surgeons, licensed podiatric physicians, licensed dentists, or licensed pharmacists within the scope of their
practice or by qualified employees of licensed hospitals within the scope of their duties. In adopting such rules, the commission shall consider the methods and techniques used by the United States nuclear regulatory commission and radiation control agencies of other states for the regulation of the transporting, handling, and storage of radioactive material. The commission shall also consult with the department of public safety in the development of rules for the transporting of radioactive material on the public roads of this state.

§455B.334 Waste disposal site.
The commission may approve or prohibit the establishment and operation of a nuclear waste disposal site in this state by a private person. In determining whether to grant or deny a permit to establish and operate a nuclear waste disposal site, the commission shall consider the need for a nuclear waste disposal site and the existing physical conditions, topography, soils and geology, climate, transportation, and land use at the proposed site. If the commission decides to issue a permit to establish and operate a nuclear waste disposal site, it shall establish, by rule, standards and procedures for the safe operation and maintenance of the proposed site. The commission shall also require the permittee to provide a sufficient surety bond or other financial commitment to insure the perpetual maintenance and monitoring of the nuclear waste disposal site.

§455B.335 Director’s duties.
The director:
1. Shall enforce any rules adopted under this part 2 of division IV and furnish a copy of the rules to each applicant for a permit required under this part.

1. The director shall require that a person who operates or proposes to operate a waste incinerator which provides for the incineration of pathological radioactive materials conduct dispersion modeling, under the direction of the Iowa department of public health, for radiological isotopes to measure the emission levels of alpha and gamma rays. The director shall allow a three-month period during which time the operator or person proposing operation of such an incinerator shall conduct the required dispersion modeling. In order to initiate or continue such incineration, the results of the modeling shall provide that the existing incinerator meets or the proposed incinerator will meet the emission standards established by the United States environmental protection agency for a selected isotope.
2. The department shall conduct a public hearing following submission to the director of the results of the dispersion modeling conducted by an operator or person proposing operation of a waste incinerator which provides for or will provide for the incineration of pathological radioactive materials.
3. If the dispersion modeling results do not meet the standards for emission limitations prescribed under subsection 1, the director shall require the operator or the person who proposes to operate a waste incinerator which provides for the incineration of pathological radioactive materials to employ or conduct an additional dispersion modeling test employing the best available control technology. Following employment of the best available control technology or the conducting of the additional dispersion modeling, if the incinerator or proposed incinerator does not or will not meet the standards prescribed under subsection 2, the operator’s permit for incineration of pathological radioactive materials shall be revoked or the permit for such proposed incineration shall be denied.

§455B.336 Notice to violators.
If the director determines that there are reasonable grounds to believe a violation of this part 2 of division IV or of the rules issued under said part has occurred, the director shall give written notice by certified mail to the alleged violator specifying the alleged violations involved and specifying a period of time in which to eliminate the violation. If the alleged violator fails to comply within such specified time, the director shall schedule a hearing and give written notice to the alleged violator by certified mail. In connection with the hearings, the director may issue subpoenas requiring the attendance of witnesses and the production of records pertinent to such hearing. On the basis of the
§455B.337  Emergency action.
Whenever the director finds that an emergency exists requiring immediate action to protect the public health and safety, the director may, without notice or hearing, issue an emergency order reciting that an emergency exists and requiring that such action be taken as the director deems necessary to meet the emergency. The order may be issued orally to the person whose operation constitutes the emergency by the director and confirmed by a copy of such order to be sent by certified mail within twenty-four hours after the issuance of the oral order. The emergency order shall be effective immediately. Any person receiving an emergency order may request a hearing before the commission within thirty days following the receipt of the order. The commission shall schedule a hearing within fourteen days after receipt of the request for a hearing and give written notice to the alleged violator by certified mail. The commission may also schedule a hearing in the absence of a request by the alleged violator. On the basis of the findings, the commission shall issue a final order which shall be forwarded to the alleged violator by certified mail.
The director may, if an emergency exists, impound or order the impounding of any radioactive material in the possession of any person who is not equipped to observe, or fails to observe, the provisions of this act or rules adopted under said part.

§455B.338  Judicial review.
Judicial review of the actions of the commission may be sought in accordance with the terms of the Iowa administrative procedure Act, chapter 17A. Notwithstanding the terms of said Act, a petition for judicial review may be filed in the district court of the county in which the alleged violation was committed or in which a final order was entered.

§455B.339  Injunction.
Whenever, in the judgment of the director, any person has engaged in or is about to engage in any acts or practices which constitute or will constitute a violation of the provisions of this part 2 of division IV or any rule or order promulgated under said part, the director may request the attorney general to make application in the name of the state to the district court of the county in which such acts or practices may be performed, for an order enjoining such acts or practices notwithstanding the existence or pursuit of any other remedy, and the attorney general shall make such application.

§455B.340  Penalty.
Any person who violates any provisions of this part 2 of division IV or rules adopted under said part, or any order of the department or director issued pursuant to said part, shall be guilty of a serious misdemeanor and, in addition, the person may be enjoined from continuing such violation. Each day of continued violation after notice that a violation is being committed shall constitute a separate violation.

PART 4
HAZARDOUS CONDITIONS

455B.381 Definitions.

As used in this part 4 unless the context otherwise requires:
1. “Cleanup” means actions necessary to contain, collect, control, identify, analyze, clean up, treat, disperse, remove, or dispose of a hazardous substance.
2. “Cleanup costs” means costs incurred by the state or its political subdivisions or their agents, or by any other person participating with the approval of the director in the prevention or mitigation of damages from a hazardous condition or the cleanup of a hazardous substance involved in a hazardous condition.
3. “Corrosive” means causing or producing visible destruction or irreversible alterations in human skin tissue at the site of contact, or in the case of leakage of a hazardous substance from its packaging, causing or producing a severe destruction or erosion of other materials through chemical processes.
4. “Hazardous condition” means any situation involving the actual, imminent, or probable spillage, leakage, or release of a hazardous substance onto the land, into a water of the state, or into the atmosphere, which creates an immediate or potential danger to the public health or safety or to the environment. For purposes of this division, a site which is a hazardous waste disposal site as defined in section 455B.411, subsection 4, is a hazardous condition.
5. “Hazardous substance” means any substance or mixture of substances that presents a danger to the public health or safety and includes, but is not limited to, a substance that is toxic, corrosive, or flammable, or that is an irritant or that generates pressure through decomposition, heat, or other means. “Hazardous substance” may include any hazardous waste identified or listed by the administrator of the United States Environmental protection agency under the Solid Waste Disposal Act as amended by the Resource Conservation and Recovery Act of 1976, or any toxic pollutant listed under section 307 of the federal Water Pollution Control Act as amended to January 1, 1977, or any hazardous substance designated under section 311 of the federal Water Pollution Control Act as amended to January 1, 1977, or any hazardous material designated by the secretary of transportation under the Hazardous Materials Transportation Act.
6. “Irritant” means a substance causing or producing dangerous or intensely irritating fumes upon contact with fire or when exposed to air.

7. “Person having control over a hazardous substance” means a person who at any time produces, handles, stores, uses, transports, refines, or disposes of a hazardous substance the release of which creates a hazardous condition, including bailees, carriers, and any other person in control of a hazardous substance when a hazardous condition occurs, whether the person owns the hazardous substance or is operating under a lease, contract, or other agreement with the legal owner of the hazardous substance. “Person having control over a hazardous substance” does not include a person who holds indicia of ownership in a hazardous condition site, if the person satisfies all of the following:
a. Holds indicia of ownership primarily to protect that person’s security interest in the hazardous condition site, where the indicia of ownership was acquired either for the purpose of securing payment of a loan or other indebtedness, or in the course of protecting the security interest. The term “primarily to protect that person’s security interest” includes, but is not limited to, ownership interests acquired as a consequence of that person exercising rights as a security interest holder in the hazardous condition site, where the exercise is necessary or appropriate to protect the security interest, to preserve the value of the collateral, or to recover a loan or indebtedness secured by the interest. The person holding indicia of ownership in a hazardous condition site who acquires title or a right to title to the site upon default under the security arrangement, or at, or in lieu of, foreclosure, shall continue to hold the indicia of ownership primarily to protect that person’s security interest so long as the subsequent actions of the person with respect to the site are intended to protect the collateral secured by the interest, and demonstrate that the person is seeking to sell or liquidate the secured property rather than holding the property for investment purposes.
b. Does not exhibit managerial control of, or managerial responsibility for, the daily operation of the hazardous condition site through the actual, direct, and continual or recurrent exercise of managerial control over the hazardous condition site in which that person holds a security interest, which managerial control materially divests the borrower, debtor, or obligor of control.
c. Has taken no subsequent action with respect to the site which causes or exacerbates a release or threatened release of a hazardous substance.

8. “Release” means a threatened or real emission, discharge, spillage, leakage, pumping, pouring, emptying, or dumping of a hazardous substance into or onto the land, air, or waters of the state unless one of the following applies:
   a. The release is done in compliance with the conditions of a federal or state permit.
   b. The hazardous substance is confined and expected to stay confined to property owned, leased or otherwise controlled by the person having control over the hazardous substance.
   c. In the use of pesticides, the application is done in accordance with the product label.

9. “Toxic” means causing or producing a dangerous physiological, anatomical, or biochemical change in a biological system.

10. “Waters of the state” means rivers, streams, lakes and any other bodies of surface and subsurface water lying within or forming a part of the boundaries of the state which are not entirely confined and located completely upon lands owned, leased or otherwise controlled by a single person or by two or more persons jointly or as tenants in common. “Waters of the state” includes waters of the United States lying within the state.

§455B.381, JURISDICTION OF DEPARTMENT OF NATURAL RESOURCES

The department shall:
1. Establish such rules pursuant to the provisions of chapter 17A as are necessary to protect the public from unnecessary exposure to hazardous substances.
2. Develop a comprehensive plan for the prevention, abatement and control of hazardous conditions within the state.

86 Acts, ch 1245, §1899B

455B.384 Powers and duties of the executive director.
The director shall:
1. Provide technical advice and assistance to other state agencies, to political subdivisions of the state and to other persons upon request for the control, abatement, and prevention of hazardous conditions.
2. Collect and disseminate such information, publish such guidelines or reports, and conduct such educational programs deemed necessary to implement the provisions of this part 4 of division IV. Educational programs may be conducted in cooperation with other public or private agencies through agreements concluded pursuant to chapter 28E.
3. Exercise such other powers consistent with the Code and the provisions of this part 4 as the commission may direct.

455B.385 State hazardous condition contingency plan.
All public agencies, as defined in chapter 28E, shall cooperate in the development and implementation of a state hazardous condition contingency plan. The plan shall detail the manner in which public agencies shall participate in the response to a hazardous condition. The director may enter into agreements, with approval of the commission, with any state agency or unit of local government or with the federal government, as necessary to develop and implement the plan. The plan shall be coordinated with the homeland security and emergency management division of the department of public defense and any joint emergency management agencies established pursuant to chapter 29C.

455B.386 Notification of spills — penalty.
A person manufacturing, storing, handling, transporting, or disposing of a hazardous substance shall notify the department and the local police department or the office of the sheriff of the affected county of the occurrence of a hazardous condition as soon as possible but not later than six hours after the onset of the hazardous condition or discovery of the hazardous condition. A sheriff or police chief who has been notified of a hazardous condition shall immediately notify the department. The department, upon receiving notice of a hazardous condition, shall immediately notify the operator of any public water supply system or private water supply system which may be affected by the hazardous condition. If requested, a person shall submit within thirty days of the department’s request a written report of particulars of the incident. A person violating this section is subject to a civil penalty of not more than one thousand dollars.
455B.387 Removal of hazardous substances.
1. When any hazardous condition exists, the director may remove or provide for the removal and disposal of the hazardous substance at any time, unless the director determines such removal will be properly and promptly accomplished by the owner or operator of the vessel, vehicle, container, pipeline or other facility.
2. The director may use any resources available under the hazardous condition contingency plan to provide for the removal of hazardous substances. If the director finds that public agencies cannot provide the necessary labor or equipment or if the director determines that emergency conditions exist, the director may contract with a private person or agency for removal of the hazardous substance. In those cases where equipment or services are obtained from a public or private person or agency under emergency conditions, section 455B.105, subsection 6 does not apply.
3. An action taken by a person to abate, control, or clean up a hazardous substance involved in a hazardous condition shall not be construed as an admission of liability for a hazardous condition.

455B.388 Injunctions and emergency orders.
1. If it is determined by the director that an emergency exists respecting any matter affecting or likely to affect the public health, the director may issue any order necessary to terminate the emergency without notice and without hearing. Any such order shall be binding and effective immediately and until such order is modified or vacated at a contested case hearing before the commission or by a court.
2. The director may request that the attorney general institute legal proceedings for a temporary or permanent injunction pursuant to section 455B.391 for purposes of enforcing an emergency order.

455B.389 Judicial review.
Judicial review of any order or other action of the commission or of the director may be sought in accordance with the terms of chapter 17A. Notwithstanding the provisions of chapter 17A, petitions for judicial review may be filed in the district court of the county in which the alleged hazardous condition occurred.

Nothing contained in this part 4 of division IV shall be deemed to grant to the department any authority or jurisdiction under this part 4 with respect to the following:
1. Hazardous conditions existing solely within and which will probably continue to exist solely within commercial and industrial plants, works, or shops under the jurisdiction of chapters 88 and 91.
2. Relations between employers and employees with respect to hazardous conditions except that where such hazardous conditions extend to or affect areas within the scope of the authority granted by this part 4 of division IV, the department may take any action consistent with this part 4 to abate such hazardous condition.
3. The storage, transportation, handling, or use of flammable liquids, combustibles, and explosives, control over which is exercised by the state fire marshal under chapter 100.
4. The storage, transportation, handling or use of pesticides over which control is exercised by the state secretary of agriculture under chapter 206, except when spillage of pesticides creates a hazardous condition.
5. The storage, transportation, handling or use of fertilizers over which control is exercised by the state secretary of agriculture under chapter 200, except when spillage of fertilizers creates a hazardous condition.

455B.391 Duties of attorney general.

      ii. The hazardous substance involved in a hazardous condition site is solely resulting from one or more of the following:
         a. An act of God.
         b. An act of war.
         c. An act or omission of a third party if the person otherwise liable exercised due care with respect to the hazardous substance.
   b. The reasonable costs incurred by the state to evacuate people from the area threatened by a hazardous condition caused by that person.
   c. The reasonable damages to the state for the injury to, destruction of, or loss of natural resources resulting from a hazardous condition caused by that person including the costs of assessing the injury, destruction, or loss.
   d. The excessive and extraordinary cost, excluding salaries, incurred by the department in responding at and to the scene of a hazardous condition caused by that person.

If the failure is willful, the person is liable for punitive damages not to exceed triple the cleanup costs incurred by the state. Prompt and good faith notification to the director by the person holding control over a hazardous substance that the person does not have the resources or managerial capability to begin or continue cleanup, or a good faith effort to clean up, relieves the person of liability for punitive damages, but not for actual cleanup costs. The director shall keep a record of all expenses incurred in carrying out a project or activity authorized by this part.

Claims by the state under this subsection may be appealed to the commission by the person filing a written notice of appeal within thirty days after receipt of the bill.

   a. Five million dollars for any vehicle, boat, aircraft, pipeline, or other manner of conveyance which transports a hazardous substance.
   b. Fifty million dollars for any facility generating, storing, or disposing of a hazardous substance.
   c. There is no liability under this section for a person otherwise liable if the hazardous condition is solely resulting from one or more of the following:
      i. An act of God.
      ii. An act of war.
      iii. An act or omission of a third party if the person otherwise liable exercised due care with respect to the hazardous substance.
      iv. That taking into consideration the characteristics of the hazardous substance, the person otherwise liable exercised due care with respect to the hazardous substance.
      v. The hazardous substance was otherwise liable exercised due care with respect to the hazardous substance.
   d. The excessive and extraordinary cost, excluding salaries, incurred by the department in responding at and to the scene of a hazardous condition caused by that person.

Claims by the state under this subsection may be appealed to the commission by the person filing a written notice of appeal within thirty days after receipt of the bill.

3. There is no liability under this section for a person otherwise liable if all of the following conditions exist:
   a. The liability arises during the transportation of a hazardous substance.
   b. The fact that the hazardous substance is a hazardous substance has been misrepresented to the person transporting the hazardous substance.
   c. The person transporting the hazardous substance does not know or have reason to know that the misrepresentation has been made.
   d. The excessive and extraordinary cost, excluding salaries, incurred by the department in responding at and to the scene of a hazardous condition caused by that person.

4. There is no liability under this section for a person otherwise liable if all of the following conditions exist:
   a. The liability arises during the transportation of a hazardous substance.
   b. The fact that the hazardous substance is a hazardous substance has been misrepresented to the person transporting the hazardous substance.
   c. The person transporting the hazardous substance does not know or have reason to know that the misrepresentation has been made.
   d. The excessive and extraordinary cost, excluding salaries, incurred by the department in responding at and to the scene of a hazardous condition caused by that person.

5. Money collected pursuant to this section shall be deposited in the hazardous waste remedial fund created in section 455B.423. Moneys shall be used to reimburse governmental subdivisions requested to assist in the cleanup for which the moneys were collected. The remainder of the moneys shall be used in the manner permitted for the fund.

6. This section does not deny any person any legal or equitable rights, remedies or defenses or affect any legal relationship other than the legal relationship between the state and a person having control over a hazardous substance pursuant to subsection 1.

7. a. There is no liability under this section for a person who has satisfied the requirements of section 455B.381, subsection 7, unnumbered paragraph 7, regardless of when that person acquired title or right to title to the hazardous condition site, except that a person otherwise exempt from liability under this subsection shall be liable to the state for the lesser of:
      i. The total reasonable cleanup costs incurred by the state to clean up a hazardous substance at the hazardous condition site; or
      ii. The amount representing the postcleanup fair market value of the property comprising the hazardous condition site.
   b. Liability under this subsection shall only be imposed when the person holds title to the hazardous condition site at the time the state incurs reasonable cleanup costs.
   c. For purposes of this subsection, “postcleanup fair market value” means the actual amount of consideration received by such person upon sale or transfer of the hazardous condition site which has been cleaned up by the state to a bona fide purchaser for value.
   d. Cleanup expenses incurred by the state shall be a lien upon the real estate constituting the hazardous condition site, recordable and collect-
able in the same manner as provided for in section 424.11, subject to the terms of this subsection. The lien shall attach at the time the state incurs expenses to clean up the hazardous condition site. The lien shall be valid against subsequent mortgagees, purchasers, or judgment creditors, for value and without notice of the lien, only when a notice of the lien is filed with the recorder of the county in which the property is located. Upon payment by the person to the state, of the amount specified in this subsection, the state shall release the lien. If no lien has been recorded at the time the person sells or transfers the property, then the person shall not be liable for any cleanup costs incurred by the state.

2. A person who provides assistance at the request of the department or by previous agreement with the department in the event of a hazardous condition is not liable in a civil action for damages as a result of that person's acts or omissions in rendering the assistance. This section does not relieve a person from civil damages in any of the following circumstances:
   a. If the person providing assistance is also the person having control over the hazardous substance which created the hazardous condition.
   b. If the person rendered assistance for payment beyond reimbursement for out-of-pocket expenses or with the expectation of such payment.

The representative shall present appropriate credentials. Upon a showing of probable cause in writing and made under oath, a judge or magistrate having proper jurisdiction shall issue a suitably restricted search warrant to the representative of the department for the purposes of enabling the representative to investigate or respond to a hazardous condition.

455B.396 Claim of state.
Liability to the state under this part or part 5 of this division is a debt to the state. The debt, together with interest on the debt at the maximum lawful rate of interest permitted pursuant to section 53.2, subsection 3, paragraph "a" from the date costs and expenses are incurred by the department is a lien on real property, except single and multi-family residential property, on which the department incurs costs and expenses creating a liability and owned by the persons liable under this part or part 5. To perfect the lien a statement of claim describing the property subject to the lien, signed by the director and approved by the commission must be filed within one hundred twenty days after the occurrence of costs and expenses by the department. The statement shall be filed with, accepted by, and recorded by the county recorder in the county in which the property subject to the lien is located. The statement of claim may be amended to include subsequent liabilities. To be effective the statement of claim shall be amended and filed within one hundred twenty days after the occurrence of the event resulting in the amendment.

The lien may be dissolved by filing with the appropriate recording officials a certificate, signed by the director, that the debt for which the lien is attached, together with interest and costs on the debt, has been paid or legally abated.

As used in this part 5, unless the context otherwise requires:
1. “Disposal” means the discharge, deposit, injection, dumping, spilling, leaking, or placing of a hazardous waste or hazardous substance into or on land or water so that the hazardous waste or hazardous substance or a constituent of the hazardous waste or hazardous substance may enter the environment or be emitted into the air or discharged into any waters, including ground waters.

3. a. “Hazardous waste” means a waste or combination of wastes that, because of its quantity, concentration, biological degradation, leaching from precipitation, or physical, chemical, or infectious characteristics, has either of the following effects:

(1) Causes, or significantly contributes to an increase in mortality or an increase in serious irreversible, or incapacitating reversible, illness.

(2) Poses a substantial present or potential hazard to human health or the environment when improperly treated, stored, transported, or disposed of, or otherwise managed. “Hazardous waste” may include but is not limited to wastes that are toxic, corrosive or flammable or irritants, strong sensitizers or explosives.

b. “Hazardous waste” does not include:

(1) Agricultural wastes, including manures and crop residues that are returned to the soil as fertilizers or soil conditioners.

(2) Source, special nuclear, or by-product material as defined in the Atomic Energy Act of 1954, as amended to January 1, 1979.

4. “Hazardous waste or hazardous substance disposal site” means real property which has been used for the disposal of hazardous waste or hazardous substances either illegally or prior to regulation as a hazardous waste or a hazardous substance under this part and any adjoining real property and groundwater affected by the disposal activities.

5. “Lubricating oil” means the fraction of crude oil or re-refined oil which is sold for purposes of reducing friction in an industrial or mechanical device.

6. “Manifest” means the form used for identifying the quantity, composition, and the origin, routing, and destination of hazardous waste during its transportation from the point of generation to the point of disposal, treatment or storage.

7. “Recycled oil” means used oil which is re-used, following its original use, for any purpose, including the purpose for which the oil was originally used. Recycled oil includes oil which is refined, reclaimed, burned, or reprocessed.

8. “Re-refined oil” means used oil from which the physical and chemical contaminants acquired through previous use have been removed through a refining process.

9. “Storage” means the containment of a hazardous waste, either on a temporary basis or for a period of years, in a manner that does not constitute disposal of the hazardous waste.

10. “Treatment” means a method, technique, or process, including neutralization, designed to change the physical, chemical or biological character of composition of a hazardous waste so as to neutralize the waste or to render the waste nonhazardous, safer for transport, amenable for recovery, amenable for storage, or to reduce the waste in volume. Treatment includes any activity or processing designed to change the physical form or chemical composition of hazardous waste to render the waste nonhazardous.

11. “Used oil” means oil which has been refined from crude oil, has then been used, and as a result of the use, is contaminated by physical or chemical impurities.

455B.412 Duties of the department.

The department shall:

1. Develop comprehensive plans and programs for the state for the management of hazardous waste. In the development of plans and programs, the department shall recognize the need for assuring that suitable facilities and sites for treatment and disposal are available for hazardous wastes generated in Iowa. As part of the hazardous waste management plan, the department shall conduct a study of hazardous waste management in Iowa and shall report its findings to the general assembly not later than eighteen months after July 1, 1979. The study shall include the following:
   a. A description of current sources of hazardous waste within the state, including the types and quantities of hazardous wastes.
   b. A description of current hazardous waste transportation, storage, treatment and disposal practices and costs within the state.
   c. A description of practices and methods that would reduce at the source the amount of hazardous waste generated and an estimate of the cost of these practices.
   d. Identification and evaluation of alternatives to land disposal of hazardous wastes.
   e. Identification of the general geologic and other criteria for a site for land disposal of hazardous wastes and the areas in Iowa that might meet the general criteria if alternatives to land disposal are not feasible.
   f. The proper role and activities of the state in addition to those established in sections 455B.411 to 455B.421 and the federal Solid Waste Disposal Act in facilitating safe and efficient disposal of hazardous waste, including but not limited to a determination of the most appropriate procedures for receiving public comments and approving permits for siting hazardous waste disposal facilities.
   g. The estimated private and public capital and annual operating costs of implementing the hazardous waste management plan recommended by the department.

2. Adopt rules establishing criteria for identifying the characteristics of hazardous wastes and listing hazardous wastes that are subject to this part. The department shall consider toxicity, persistence and degradability in nature, potential for accumulation in tissue, and related factors including flammability, corrosiveness, and other hazardous characteristics.

3. Adopt rules, applicable to generators or transporters of or owners or operators of facilities for the treatment, storage, or disposal of hazardous waste listed or identified by the department under subsection 2 of this section, as necessary to protect human health and the environment. The rules shall include establishment of a manifest system.

4. Adopt rules establishing standards and procedures for the certification of supervisory personnel and operators at hazardous waste treatment, storage or disposal facilities required to have a permit under section 455B.415.

455B.413 Director’s duties.

The director shall:

1. Issue, revoke, suspend, modify or deny permits for persons owning or operating a facility for the treatment, storage or disposal of a hazardous waste identified by the commission under section 455B.412, subsection 2. Permits shall be issued for a period as the commission may by rule prescribe.

2. Administer examinations to determine the competence of operators and supervisory personnel at facilities for the treatment, storage or disposal of hazardous waste that are required to have a permit under section 455B.415. The director shall issue, revoke, suspend, or deny certificates of competency for persons as supervisory or operating personnel at facilities for the treatment, storage or disposal of hazardous waste.

3. Inspect and investigate hazardous waste generators and transporters and treatment, storage and disposal facilities as may be necessary to determine compliance with sections 455B.411 to 455B.421 and rules adopted and permits and orders issued pursuant to sections 455B.411 to 455B.421. The director shall periodically survey or inspect the construction, operation and monitoring, reporting and record-keeping systems of hazardous waste generators and transporters and treatment, storage and disposal facilities.

455B.414 Hazardous waste notification.

1. A person who on the effective date of a rule adopted under section 455B.412, subsection 2 identifying a hazardous waste as subject to sections 455B.411 to 455B.421 is generating or transporting the identified hazardous waste or owns or is operating a treatment, storage or disposal facility handling the identified hazardous waste shall file with the director a notification stating the waste handled by the person and the location and a general description of the activity involving the waste. The notice shall be given within ninety
days after the effective date of the rule identifying the waste.

2. Except as provided in subsection 1, a person shall not commence to transport or generate a hazardous waste identified by rule under section 455B.412, subsection 2 without first notifying the director of the proposed activity. The notice shall state the waste to be handled, and the location and a general description of the activity involving the identified waste.

3. When the commission amends a rule adopted under section 455B.412, subsection 2, identifying additional characteristics of hazardous waste or identifying an additional substance as hazardous waste, the commission may require a person to file the notification required by subsection 1 or 2.

1. Except as provided in subsections 2 and 4, a person shall not construct or operate a facility for the treatment, storage or disposal of a hazardous waste identified under section 455B.412, subsection 2 unless the owner or operator has obtained a permit for the facility from the director.

2. The owner or operator of a facility for the treatment, storage or disposal of a hazardous waste identified under section 455B.412, subsection 2 existing on the effective date of the rule listing the waste shall obtain a permit for the facility within six months of the effective date of the rule. A person owning or operating a facility for the treatment, storage or disposal of a hazardous waste that existed on the effective date of the rule identifying the waste and that is required to have a permit under sections 455B.412, subsection 2 when the only purpose of the storage is to accumulate for a period of up to ninety days sufficient quantities of the waste for transportation, treatment or disposal unless a permit for the storage is required under federal law.

3. When the commission amends a rule adopted under section 455B.412, subsection 2 without first notifying the director of the proposed activity. The notice shall state the waste to be handled, and the location and a general description of the activity involving the identified waste.

4. A permit is not required for the storage of a hazardous waste identified under section 455B.412, subsection 2 when the only purpose of the storage is to accumulate for a period of up to ninety days sufficient quantities of the waste for transportation, treatment or disposal unless a permit for the storage is required under federal law.

5. A permit issued pursuant to this section shall be in addition to other licenses, permits or variances authorized or required by law, including, but not limited to, the requirements of chapter 335.

6. If the director denies a permit, the director shall inform the applicant in writing of the reasons for the denial. §455B.416 Inspections.

1. For purposes of developing a rule, conducting a study of hazardous waste management, compiling a site inventory, or enforcing sections 455B.411 to 455B.421, a person who generates, stores, treats, transports, disposes of or otherwise handles or has handled hazardous waste shall, upon request of the director, furnish information relating to the hazardous waste and permit the director at reasonable times to have access to and copy records relating to the waste. For the purpose of developing a rule or enforcing sections 455B.411 to 455B.421, the director may:

a. Enter at reasonable times an establishment or other place where hazardous waste is or has been generated, stored, treated or disposed of, or a vehicle transporting hazardous waste.

b. Inspect and obtain samples from a person of a hazardous waste and of containers or labeling associated with the waste.

c. Install, service and take samples from monitoring equipment on the property.

The inspection shall be completed within a reasonable period of time.

2. If the director obtains a sample, prior to leaving the premises, the director shall give the owner, operator, or agent in charge a receipt describing the sample obtained and if requested a portion of each sample equal in volume or weight to the portion retained. If the sample is analyzed, a copy of the results of the analysis shall be furnished promptly to the owner, operator, or agent in charge.

3. Documents or information obtained from a person under this section shall be available to the public except as provided in this subsection. Upon
a showing satisfactory to the director by a person that documents or information, or a particular part of the documents or information to which the director has access under this section if made public would divulge commercial or financial information obtained from a person and privileged or confidential or a trade secret, the director shall consider the documents or information or the particular portion of the documents or information confidential. However the document or information may be disclosed to officers, employees or authorized representatives of the United States charged with implementing the federal Solid Waste Disposal Act, to employees of the state of Iowa or of other states when the document or information is relevant to the discharge of their official duties, and when relevant in any proceeding under the federal Solid Waste Disposal Act or this part 5.

4. a. If upon receipt of any information, the director determines that the presence of a hazardous waste at a facility or site at which hazardous waste is, or has been, stored, treated, or disposed of, or the release of the waste from the facility or site may present a substantial hazard to human health or the environment, the director may issue an order requiring the owner or operator of the facility or site to conduct reasonable monitoring, testing, analysis, and reporting with respect to the facility or site to determine the nature and extent of the hazard.

b. In the case of a facility or site not in operation at the time a determination is made regarding the facility or site under this subsection, if the director finds that the owner of the facility or site could not reasonably be expected to have actual knowledge of the presence of hazardous waste at the facility or site and of its potential for release, the director may issue an order requiring the most recent previous owner or operator of the facility or site who could reasonably be expected to have actual knowledge to carry out the actions referred to in this subsection.

c. An order under this subsection shall require the person to whom the order is issued to submit to the director within thirty days from the issuance of the order a proposal for carrying out the required monitoring, testing, analysis, and reporting. The director may, after providing the person with an opportunity to confer with the director on the proposal, require the person to carry out the monitoring, testing, analysis, and reporting in accordance with the proposal, which may be modified as the director deems reasonable to determine the nature and extent of the hazard or to remove the hazard.

d. If the director determines that no owner or operator referred to in this subsection is able to conduct monitoring, testing, analysis, or reporting satisfactory to the director, if the director deems any action carried out by an owner or operator to be unsatisfactory, or if the director cannot initially determine that there is an owner or operator referred to in this subsection who is able to conduct monitoring, testing, analysis, or reporting, the director may conduct reasonable monitoring, testing, or analysis to determine the nature and extent of the hazard associated with the site. The director may require the owner or operator referred to in this subsection to reimburse the director or other authority or person for the costs of monitoring, testing, analysis, or reporting. The director shall not order a person to pay the costs of monitoring, testing, analysis, or reporting carried out by the director which confirms the results of monitoring, testing, or analysis done pursuant to an earlier order of the director.

c. For purposes of carrying out this subsection, the director may exercise the powers set forth in subsection 1.

455B.417 Prohibited acts — penalties.

1. A person shall not knowingly do any of the following acts:

a. Transport a hazardous waste identified under the commission's rules to a hazardous waste storage, treatment or disposal facility that is located in Iowa and that does not have a permit under section 455B.415, subsection 1.

b. Treat, store, or dispose of a hazardous waste identified under sections 455B.411 to 455B.421 either without having obtained a permit for the treatment, storage, or disposal under section 455B.415, subsection 1, or in violation of a material condition or requirement of a permit.

c. Make a false material statement or representation in an application, label, manifest, record, report, permit or other document filed, maintained or used for purposes of compliance with the provisions of sections 455B.411 to 455B.421.

d. Destroy, alter or conceal after July 1, 1981, any record required to be kept under rules adopted by the commission under this part. This paragraph applies to all persons who generated, stored, treated, transported, disposed of, or otherwise handled hazardous waste after November 19, 1980.

2. A person who violates subsection 1 is subject upon conviction to a fine of not more than twenty-five thousand dollars or to imprisonment for not to exceed one year, or both for each day of violation. If the conviction is for a violation committed after a first conviction, punishment shall be by a fine of not more than fifty thousand dollars or by imprisonment for not more than two years, or both for each day of violation.

3. A person who violates a provision of this part or a rule, permit, or order adopted or issued under this part is subject to a civil penalty not to
§455B.417, JURISDICTION OF DEPARTMENT OF NATURAL RESOURCES

455B.417 Enforcement.
1. If the director has substantial evidence that a person has violated or is violating a provision of sections 455B.411 to 455B.421, or of a rule or standard established or permit issued pursuant to sections 455B.411 to 455B.421:
   a. The director may issue an order directing the person to desist in the practice that constitutes the violation or to take corrective action as necessary to ensure that the violation will cease. The person to whom the order is issued may commence a contested case within the meaning of chapter 17A by filing with the director within thirty days of receipt of the order a notice of appeal to the commission. On appeal, the commission may affirm, modify, or vacate the order of the director.
   b. If it is determined by the director that an emergency exists, the director may issue without notice or hearing an order necessary to terminate the emergency. The order shall be binding and effective immediately and until the order is modified or vacated at a hearing before the commission or by a court. “Emergency” as used in this subsection means a situation where the handling, storage, treatment, transportation or disposal of a hazardous waste is presenting an imminent and substantial threat to human health or the environment.
   c. When the director determines that a disposal site contains hazardous waste in an amount and under conditions that cause an imminent threat to human health and that the person responsible for the site will not properly and promptly remove the waste or eliminate the threat, the director may take action as necessary to remove the waste or permanently alleviate or eliminate the threat to human health. The costs of removing the waste or alleviating or eliminating the threat shall be recovered from the person responsible for the disposal site.
   d. The director with the approval of the commission, may request the attorney general to institute legal proceedings pursuant to subsection 2 of this section.

2. The attorney general shall, at the request of the director pursuant to paragraph “d” of subsection 1 of this section, institute legal proceedings, including an action for an injunction, necessary to enforce the penalty provisions of sections 455B.411 to 455B.421 or to obtain compliance with said sections or a rule promulgated or a condition of a permit or order issued under said sections.

3. In a case arising from the violation of an order issued under subsection 1, paragraph “a” of this section, the burden of proof shall be on the state to show that the time specified in the order within which the individual must take corrective action is reasonable.

4. For the purpose of determining violations under this section and section 455B.417, the term “person” does not include a person who holds indicia of ownership in the hazardous waste or hazardous substance disposal site which contains a hazardous waste or hazardous substance, or where hazardous substances or wastes are treated, stored, or disposed of, if such person has satisfied the requirements of section 455B.381, subsection 7, unnumbered paragraph 2, with respect to the disposal site, whether or not the director has determined that such disposal site constitutes a hazardous condition site.

455B.419 Agricultural chemicals.
1. A farmer using or disposing of federally approved agricultural chemicals or the empty containers of agricultural chemicals is not in violation of sections 455B.411 to 455B.421 by reason of the use or disposal if the farmer does both of the following:
   a. Applies or disposes of the chemicals in accordance with the manufacturer’s instructions.
   b. Triple rinses each chemical container after it has been emptied and uses the rinsing as make-up water in a tankmix and applies the mix to the farmer’s cropland at an application rate that does not exceed the manufacturer’s instructions.

2. As used in this section, farmer means an owner or tenant of a farm unit, a member of the family of the owner or tenant, or an employee of the owner or tenant. Farmer does not include a commercial applicator of agricultural chemicals.

455B.420 Rules.
Except as provided in chapter 89B, rules adopted by the commission under sections 455B.411 to 455B.421 shall be consistent with and shall not exceed the requirements of 42 U.S.C. secs. 6921-6934 as amended to January 1, 1981, and rules and regulations adopted pursuant to those sections.

455B.421 Judicial review.
Judicial review of actions of the commission or the director may be sought in accordance with the
provisions of chapter 17A. Notwithstanding the provisions of chapter 17A, petitions for judicial review may be filed in the district court of the county where the acts in issue occurred. In addition to other rights of judicial review authorized by this section, a person who has complied with an order issued by the director or commission may within six months of compliance with the order seek relief in the district court on the grounds that the requirements imposed by the order are excessive, that the benefits to society are not commensurate with the costs of complying with the order and that society can be protected in a less costly manner. Upon a finding that the requirements imposed by the order are excessive, the court may modify or vacate the order.

§455B.423 Hazardous substance remedial fund.
1. A hazardous substance remedial fund is created within the state treasury. Moneys received from fees, penalties, general revenue, federal funds, gifts, bequests, donations, or other moneys so designated shall be deposited in the state treasury to the credit of the fund. Any unexpended balance in the remedial fund at the end of each fiscal year shall be retained in the fund.

2. The director may use the fund for any of the following purposes:
   a. Administrative services for the identification, assessment and cleanup of hazardous waste or hazardous substance disposal sites.
   b. Payments to other state agencies for services consistent with the management of hazardous waste or hazardous substance disposal sites.
   c. Emergency response activities as provided in part 4 of this division.
   d. Financing the nonfederal share of the cost of cleanup and site rehabilitation activities as well as postclosure operation and maintenance costs, pursuant to the federal Comprehensive Environmental Response, Compensation and Liability Act of 1980.
   e. Financing the cost of cleanup and site rehabilitation activities as well as postclosure operation and maintenance costs of hazardous waste or hazardous substance disposal sites that do not qualify for federal cost-sharing pursuant to the federal Comprehensive Environmental Response, Compensation and Liability Act of 1980.
   f. Through agreements or contracts with other state agencies, work with private industry to develop alternatives to land disposal of hazardous waste or hazardous substances including, but not limited to, resource recovery, recycling, neutralization, and reduction.
   g. For the administration of the waste tire collection or processing site permit program.

However, at least seventy-five percent of the fund shall be used for the purposes stated in paragraphs “d” and “e”.

3. Neither the state nor its officers, employees, or agents are liable for an injury caused by a dangerous condition at a hazardous waste or hazardous substance disposal site unless the condition is the result of gross negligence on the part of the state, its officers, employees, or agents.

4. The director may contract with any person to perform the acts authorized in this section.

5. Moneys shall not be used from the fund for hazardous waste or hazardous substance disposal site cleanup unless the director has made all reasonable efforts to secure voluntary agreement to pay the costs of necessary remedial actions from owners or operators of hazardous waste or hazardous substance disposal sites or other responsible persons.

6. The director shall make all reasonable efforts to recover the full amount of moneys expended from the fund through litigation or cooperative agreements with responsible persons. Moneys recovered pursuant to this subsection shall be deposited with the treasurer of state and credited to the remedial fund.

[81 Acts, ch 152, §7]

§455B.448 Decision by commission.
1. The commission shall grant or deny the site license. In making its decision, the commission shall consider the following:
   a. The need for the services to be offered by the facility.
   b. The impact of the proposed facility on the area in which it is to be located.
   c. The zoning classification of the proposed site and the extent to which a proposed site is by present or projected use dedicated to industrial development.
   d. The land uses and the density of population in areas near the facility.
   e. The density of population in areas adjacent to probable transportation routes to the facility.
   f. The risk and effect of accidents during the transportation of hazardous wastes to the site.
   g. The geology of the site, where relevant, with reference to factors which include, but are not limited to, the presence of fault zones and the risk of contamination of ground and surface waters by leaching and runoff from the facility.
   h. The risk and effect of fires or explosions from improper storage and disposal methods.
   i. The impact of the facility on the operations and responsibilities of the city and county in which the facility is proposed to be located and on cities and counties near the proposed site.
   j. Local ordinances, permits, or other requirements and their relationship to the proposed facility.
   k. The availability of alternative sites and methods of treatment, disposal, or storage, including cost comparisons. The cost comparisons shall cover short and long-term costs including, but not limited to, liability insurance, postclosure maintenance, monitoring of ground and surface waters,
monitoring of air before and after closure, and the potential loss of land or water resources due to contamination.

l. To the maximum extent feasible a site should be located away from all of the following areas:

(1) Areas subject to natural hazards including, but not limited to, flooding, earthquakes, or subsidence.

(2) Sources of drinking water supply including, but not limited to, reservoirs, lakes and rivers and their watersheds, and aquifers and their recharge areas.

(3) Fragile land areas including, but not limited to, wetlands and the shorelines of rivers, lakes, and streams.

(4) Areas with rare or valuable ecosystems or geologic formations or significant wildlife habitat.

(5) Unique scenic or historic areas.

(6) Residential areas, parks, or schools.

(7) Prime farmland as defined by the United States department of agriculture in 7 C.F.R. § 657.5(a).

m. Other criteria adopted by rule which the commission finds relevant to the siting of a facility which are consistent with this part 6 of division IV.

2. The commission shall grant the license if it finds that the facility will meet the requirements imposed by rules adopted by the commission under section 455B.412, subsection 3, and the permit requirement of section 455B.415, that operation of the facility at the proposed location will be in the public interest and that the public health and welfare and the environment will be adequately protected. The failure of the proposed facility to meet zoning requirements established under chapters 329, 335, and 414, and the licensing requirements of regulatory agencies except the requirements imposed by sections 455B.412, subsection 3 and 455B.415 shall not preclude the commission from issuing the license and to that extent this subsection supersedes the licensing requirements of regulatory agencies and the requirements of chapters 329, 335 and 414.

3. A municipality as defined in section 670.1, subsection 2, is not liable in an action for damages arising out of the construction, operation, or maintenance of a hazardous waste facility which is licensed by the commission under this part 6 of division IV unless the municipality is responsible for or in control of the facility. However, a municipality may be subject to liability for damages caused by hazardous waste in connection with an act or omission which would otherwise subject the municipality to liability. A municipality shall not be required to pay any portion of the costs associated with the response to a release or threatened release of a hazardous waste from a facility into the land, air, or water that threatens or may threaten human health or the environment unless the municipality is responsible for or in control of the facility or unless the municipality is otherwise subject to liability under this subsection.

455B.449 Issuance of license — effect.

Issuance of a license by the commission authorizes construction of the facility on the site designated in the license according to the terms and conditions stated in the license. A license may be transferred, subject to the rules and approval of the commission, to a person who agrees and is able to comply with the terms of the license.

455B.450 Cost of proceedings.

The cost of the proceeding for the issuance of a license shall be paid by the applicant for the license until the cost exceeds nine thousand dollars. The director shall notify the applicant upon the issuance or denial of the license or upon termination of the proceeding at any point during the process of the cost of the proceeding to the applicant. These costs include the costs of providing notices, holding the hearing and the per diem of the commissioners in the proceeding for the license. Moneys collected shall be deposited in the general fund of the state.

455B.451 Further approvals prohibited — exception.

Upon the issuance of a license under this part 6 of division IV, notwithstanding any provision of law or ordinance except statutory requirements relating to the protection of employees engaged in the construction of the facility, no further approval, permit, or license for the construction, operation, or maintenance of the facility as stated in the license shall be required. The commission may incorporate in the license the licensing requirements of a regulatory agency to the extent that those requirements are consistent with the construction and operation of the facility according to the requirements of the commission. However, this section does not limit the authority of the director under sections 455B.413 and 455B.415. A local unit of government shall not unduly restrict the transportation of hazardous waste to a facility for which a license has been issued under this part 6 of division IV.

455B.452 Single hearing — judicial review.

Notwithstanding chapter 17A:

1. Any proceeding or oral presentation held before the commission on an application for a license shall be held in lieu of any other proceeding or oral presentation required for a license or per-
mit necessary for the construction, maintenance, or operation of a facility.

2. The issuance or denial of the license is a final agency action, and the date for determining whether any person is aggrieved or adversely affected by the action is the date of the issuance or denial of the license.

[81 Acts, ch 152, §12]

### 455B.453 Rules.

The commission shall adopt rules under chapter 17A necessary to implement this part 6 of division IV including but not limited to the form for an application for a license and the description of information to be furnished by the applicant.

[81 Acts, ch 152, §13]

### 455B.454 Penalties.

A person required to obtain a site license under this part 6 of division IV who constructs a facility without having first obtained the license shall remit the tax collected to the director of revenue under this section. The tax shall be subject to a civil penalty of not more than ten thousand dollars for each violation or for each day of continuing violation. Civil penalties collected pursuant to this subsection shall be forwarded by the clerk of court to the treasurer of state for deposit in the general fund of the state.

[81 Acts, ch 152, §14]

### 455B.455 Surcharge imposed.

A land burial surcharge tax of two percent is imposed on the fee for land burial of a hazardous waste. The owner of the land burial facility shall remit the tax collected to the director of revenue after consultation with the director according to rules that the director shall adopt. The director shall forward a copy of the site license to the director of revenue which shall be the appropriate license for the collection of the land burial surcharge tax and shall be subject to suspension or revocation if the site license holder fails to collect or remit the tax collected under this section. The provisions of section 422.25, subsection 4, sections 422.30, 422.67, and 422.68, section 422.69, subsection 1, sections 422.70 to 422.75, section 423.14, subsection 1, and sections 423.23, 423.24, 423.25, 423.31, 423.33, 423.35, 423.37 to 423.42, and 423.47, consistent with the provisions of this part 6 of division IV, shall apply with respect to the taxes authorized under this part, in the same manner and with the same effect as if the land burial surcharge tax were sales taxes within the meaning of those statutes. Notwithstanding the provisions of this section, the director shall provide for only quarterly filing of returns as prescribed in section 423.31. Taxes collected by the director of revenue under this section shall be deposited in the general fund of the state.

   b. Treatment of hazardous wastes on or in the land, such as neutralization and evaporation ponds and land farming, where the treatment residues are hazardous wastes and are not removed for subsequent processing or disposal within one year.

   “Land disposal” does not include long-term storage as defined in subsection 4.

4. “Long-term storage” means the above-ground containment of stabilized or solidified hazardous waste on a temporary basis or for a period of years in a manner that does not constitute disposal of hazardous waste.

5. “Restricted waste” means a hazardous waste or any other waste which is determined by rule of the commission to be a significant environmental burden if disposed of at a land disposal facility.

6. “Storage” means the containment of a hazardous waste for a period less than one year in a manner consistent with the requirements of 42 U.S.C. §6921-6934 as amended to January 1, 1981 and the regulations adopted pursuant to those sections.

85 Acts, ch 202, §2

### 455B.462 Limitations on land disposal of hazardous waste.

1. A generator, recycler, transporter or other handler of hazardous waste shall not dispose of the wastes by land disposal or store wastes at an above-ground storage facility, unless all of the following conditions exist:
   a. The commission determines that the best available technology is being used at the land disposal facility.
   b. The handler proves to the satisfaction of the
55B.467 Emergency variance.
The department may grant a variance to the restrictions or prohibition of land disposal of a hazardous waste in either of the following situations:
1. When the materials sought to be disposed of resulted from the cleanup of a hazardous condition involving a hazardous waste.
2. When the materials sought to be disposed of resulted from remediation or cleanup of hazardous waste or hazardous substance disposal sites.

55B.468 Coordination with existing reporting and permitting requirements.
This part does not require the department to establish a reporting or permitting system if such a system is already established under the federal Resource Conservation and Recovery Act 42 U.S.C. § 6901 et seq, and administered and enforced through the federal environmental protection agency that achieves the objectives set out in this part. Consistent with this part, the department may establish requirements in addition to those established under the Resource Conservation Recovery Act for reporting, permitting, and enforcement. However, in such actions, the department shall avoid any redundancy in reporting, compliance, and enforcement with that provided under the Resource Conservation and Recovery Act.

Notwithstanding section 55B.420, the rules and requirements imposed under this part may be more restrictive than required by federal law or regulation.

PART 8
UNDERGROUND STORAGE TANKS

455B.471 Definitions.
As used in this part unless the context otherwise requires:
1. "Board" means the Iowa comprehensive petroleum underground storage tank fund board.
2. "Corrective action" means an action taken to reduce, minimize, eliminate, clean up, control, or monitor a release to protect the public health and safety or the environment. Corrective action includes, but is not limited to, excavation of an underground storage tank for purposes of repairing a leak or removal of a tank, removal of contaminated soil, disposal or processing of contaminated soil, cleansing of groundwaters or surface waters, natural biodegradation, institutional controls, and site management practices.
does not include replacement of an underground storage tank. Corrective action specifically excludes third-party liability.
3. “Fund” means the Iowa comprehensive petroleum underground storage tank fund.
4. “Nonoperational storage tank” means an underground storage tank in which regulated substances will not be deposited or from which regulated substances will not be dispensed after July 1, 1985.
5. “Operator” means a person in control of, or having responsibility for, the daily operation of the underground storage tank.
6. a. “Owner” means:
   (1) In the case of an underground storage tank in use on or after July 1, 1985, a person who owns the underground storage tank used for the storage, use, or dispensing of regulated substances.
   (2) In the case of an underground storage tank in use before July 1, 1985, but no longer in use on that date, a person who owned the tank immediately before the discontinuation of its use.
   b. To the extent consistent with the federal Resource Conservation and Recovery Act, as amended to January 1, 1994, 42 U.S.C. § 6901 et seq., “owner” does not include a person who holds indicia of ownership in the underground storage tank or the tank site property if all of the following apply:
      (1) The person holds indicia of ownership primarily to protect that person’s security interest in the underground storage tank or tank site property, where such indicia of ownership was acquired either for the purpose of securing payment of a loan or other indebtedness, or in the course of protecting the security interest. The term “primarily to protect that person’s security interest” includes but is not limited to ownership interests acquired as a consequence of that person exercising rights as a security interest holder in the underground storage tank or tank site property, where such exercise is necessary or appropriate to protect the security interest, to preserve the value of the collateral, or to recover a loan or indebtedness secured by such interest. The person holding indicia of ownership in the underground storage tank or tank site property and who acquires title or a right to title to such underground storage tank or tank site property upon default under the security arrangement, or at, or in lieu of, foreclosure, shall continue to hold such indicia of ownership primarily to protect that person’s security interest so long as subsequent actions taken by that person with respect to the underground storage tank or tank site property are intended to protect the collateral secured by the interest, and demonstrate that the person is seeking to sell or liquidate the secured property rather than holding the property for investment purposes.
      (2) The person does not exhibit managerial control of, or managerial responsibility for, the daily operation of the underground storage tank or tank site property through the actual, direct, and continual or recurrent exercise of managerial control over the underground storage tank or tank site property in which that person holds a security interest, which managerial control materially divests the borrower, debtor, owner or operator of the underground storage tank or tank site property of such control.
   (3) The person has taken no subsequent action with respect to the site which causes or exacerbates a release or threatened release of a hazardous substance.
7. “Petroleum” means petroleum, including crude oil or any fraction of crude oil which is liquid at standard conditions of temperature and pressure (sixty degrees Fahrenheit and fourteen and seven-tenths pounds per square inch absolute). However, regulated substance does not include a substance regulated as a hazardous waste under the Resource Conservation and Recovery Act of 1976. Substances may be added or deleted as regulated substances by rule of the commission pursuant to section 455B.474.
8. “Release” means spilling, leaking, emitting, discharging, escaping, leaching, or disposing of a regulated substance, including petroleum, from an underground storage tank into groundwater, surface water, or subsurface soils.
9. “Tank site” means a tank or grouping of tanks within close proximity of each other located on the facility for the purpose of storing regulated substances.
10. “Underground storage tank” means one or a combination of tanks, including underground pipes connected to the tanks which are used to contain an accumulation of regulated substances and the volume of which, including the volume of the underground pipes, is ten percent or more beneath the surface of the ground. Underground storage tank does not include:
   a. Farm or residential tanks of one thousand one hundred gallons or less capacity used for storing motor fuel for noncommercial purposes.
   b. Tanks used for storing heating oil for consumptive use on the premises where stored.
   c. Residential septic tanks.

tanks — fee.
1. Except as provided in subsection 2, the own-
er or operator of an underground storage tank ex-
isting on or before July 1, 1985, shall notify the de-
partment in writing by May 1, 1986, of the exis-
tence of each tank and specify the age, size, type,
location and uses of the tank.
2. The owner of an underground storage tank
taken out of operation between January 1, 1974
and July 1, 1985, shall notify the department in
writing by July 1, 1986, of the existence of the tank
unless the owner knows the tank has been re-
moved from the ground. The notice shall specify
to the extent known to the owner; the date the tank
was taken out of operation, the age of the tank on
the date taken out of operation, the size, type and
location of the tank, and the type and quantity of
substances left stored in the tank on the date that
it was taken out of operation.
3. An owner or operator which brings into use
an underground storage tank after July 1, 1985,
shall notify the department in writing within
thirty days of the existence of the tank and specify
the age, size, type, location and uses of the tank.
4. An owner or operator of a storage tank de-
scribed in section 455B.471, subsection 11, para-
graph "a", which brings the tank into use after
July 1, 1987, shall notify the department of the ex-
istence of the tank within thirty days. The regist-
ration of the tank shall be accompanied by a fee
of ten dollars to be deposited in the storage tank
management account. A tank which is existing be-
fore July 1, 1987, shall be reported to the depart-
ment by July 1, 1989. Tanks under this section
installed on or following July 1, 1987, shall comply
with underground storage tank regulations
adopted by rule by the department.
5. The notice of the owner or operator to the
department under subsections 1 through 3 shall be
accompanied by a fee of ten dollars for each tank
included in the notice. All moneys collected shall
be deposited in the storage tank management ac-
count of the groundwater protection fund created
in section 455E.11. All moneys collected pursuant
to this section prior to July 1, 1987, which have not
been expended, shall be deposited in the storage
tank management account.
6. Subsections 1 to 3 do not apply to an un-
derground storage tank for which notice was given
pursuant to section 103, subsection c, of the Com-
prehensive Environmental Response, Compensation
7. A person who sells, installs, modifies, or re-
pairs a tank used or intended to be used as an un-
derground storage tank shall notify the purchaser
and the owner or operator of the tank in writing of
the owner’s notification requirements pursuant to
this section including the prohibition on deposit-
ing a regulated substance into tanks which have
not been registered and issued tags by the depart-
ment. A person who installs an underground stor-
age tank and the owner or operator of the under-
ground storage tank shall, prior to installing an
underground storage tank, notify the department in
writing regarding the intent to install a tank.
8. It shall be unlawful to deposit or accept a
regulated substance in an underground storage
tank which has not been registered and issued
permanent and annual tank management fee re-
newal tags pursuant to subsections 1 through 6.
A person shall not deposit a regulated substance
in an underground storage tank after receiving no-
tice from the department that the underground
storage tank is not covered by an approved form of
financial responsibility in accordance with section
455B.474, subsection 2.
The department shall furnish the owner or op-
erator of an underground storage tank with a regis-
tration tag for each underground storage tank reg-
istered with the department. The owner or oper-
ator shall affix the tag to the fill pipe of each regis-
tered underground storage tank. If an owner or
operator fails to register or obtain annual renewal
tags for the underground storage tank, the owner
or operator shall pay an additional fee of two hun-
dred fifty dollars upon registration of the tank. A
fee imposed pursuant to this subsection shall not
preclude the department from assessing an ad-
455B.473A Petroleum underground storage tank registration amnesty program.

A petroleum underground storage tank required to be registered under section 455B.473, which has not been registered prior to July 1, 1988, may be registered under the following conditions:
1. The tank registration fee under section 455B.473, subsection 5, shall accompany the registration.
2. The storage tank management fee of fifteen dollars per tank under section 455B.479 shall be paid for past years in which the tank should have been registered.

If a tank is registered under this section on or prior to October 1, 1989, penalties under section 455B.477 shall be waived.

455B.474 Duties of commission — rules.

The commission shall adopt rules pursuant to chapter 17A relating to:
1. Release detection, prevention, and correction as may be necessary to protect human health and the environment, applicable to all owners and operators of underground storage tanks. The rules shall include, but are not limited to, requirements for:
   a. Maintaining a leak detection system, an inventory control system with a tank testing, or a comparable system or method designed to identify releases in a manner consistent with the protection of human health and the environment.
   b. Maintaining records of any monitoring or leak detection system, inventory control system, or tank testing or comparable system.
   c. Reporting of any releases and corrective action taken in response to a release from an underground storage tank.
   d. Establishing criteria for classifying sites according to the release of a regulated substance in connection with an underground storage tank.
2. A site shall be classified as either high risk, low risk, or no action required.
   a. A site shall be considered high risk when it is determined that contamination from the site presents an unreasonable risk to public health and safety or the environment under any of the following conditions:
      i. Contamination is affecting or likely to affect groundwater which is used as a source water for public or private drinking water supplies, for livestock watering, or for commercial and industrial processing.
      ii. Contamination is affecting or likely to affect groundwater which is used as a source water for public or private drinking water supplies, to a level rendering them unsafe for human consumption.
   (2) A site shall be classified as either high risk, low risk, or no action required.

   a. Soils shall be evaluated based upon the depth of the existing contamination and its distance from the ground surface to the contamination zone and the contamination zone to the groundwater; the soil type and permeability, including whether the contamination exists in clay, till or sand and gravel; and the variability of the soils, whether the contamination exists in soils of natural variability or in a disturbed area.
   b. Groundwaters shall be evaluated based upon the depth of the existing contamination and its distance from the ground surface to the groundwater and from the contamination zone to the groundwater; the flow pattern of the groundwater, the direction of the flow in relation to the contamination zone and the interconnection of the groundwater with the surface or with surface water and with other groundwater sources; the nature of the groundwater, whether it is located in a high yield aquifer, an isolated, low yield aquifer, or in a transient saturation zone; and use of the groundwater, whether it is used as a drinking water source for public or private drinking water supplies, for livestock watering, or for commercial and industrial processing.
   c. Surface water shall be evaluated based upon its location, its distance in relation to the contamination zone, the groundwater system and flow, and its location in relation to surface drainage.
   d. The effect of conduits, barriers, and distances on the contamination found in soils, groundwater, and surface waters. Consideration should be given to the following: the effect of contamination on conduits such as wells, utility lines, tile lines and drainage systems; the effect of conduits on the transport of the contamination; whether a well is active or abandoned; what function the utility line serves, whether it is a sewer line, a water distribution line, telephone line, or other line; the existence of barriers such as buildings and other structures, pavement, and natural barriers, including rock formations and ravines; and the distance which separates the contamination found in the soils, groundwaters, or surface waters from the conduits and barriers.

4292 §455B.473, JURISDICTION OF DEPARTMENT OF NATURAL RESOURCES
(iii) Harmful or explosive concentrations of petroleum substances or vapors affecting structures or utility installations exist or are likely to occur.

(b) A site shall be considered low risk under any of the following conditions:

(i) Contamination is present and is affecting groundwater, but high risk conditions do not exist and are not likely to occur.

(ii) Contamination is above action level standards, but high risk conditions do not exist and are not likely to occur.

(c) A site shall be considered no action required if contamination is below action level standards and high or low risk conditions do not exist and are not likely to occur.

(d) For purposes of classifying a site as either low risk or no action required, the department shall rely upon the example tier one risk-based screening level look-up table of ASTM (American society for testing and materials) international’s emergency standard, ES38-94, or other look-up table as determined by the department by rule.

(e) A site cleanup report which classifies a site as either high risk, low risk, or no action required shall be submitted by a groundwater professional to the department with a certification that the report complies with the provisions of this chapter and rules adopted by the department. The report shall be determinative of the appropriate classification of the site. However, if the report is found to be inaccurate or incomplete, and if based upon information in the report the risk classification of the site cannot be reasonably determined by the department based upon industry standards, the department shall work with the groundwater professional to obtain the additional information necessary to appropriately classify the site. A groundwater professional who knowingly or intentionally makes a false statement or misrepresentation which results in a mistaken classification of a site shall be guilty of a serious misdemeanor and shall have the groundwater professional’s certification revoked under section 455G.18.

e. The closure of tanks to prevent any future release of a regulated substance into the environment. If consistent with federal environmental protection agency technical standard regulations, state tank closure rules shall include, at the tank owner’s election, an option to fill the tank with an inert material. Removal of a tank shall not be required if the tank is filled with an inert material pursuant to department of natural resources rules. A tank closed, or to be closed and which is actually closed, within one year of May 13, 1988, shall be required to complete monitoring or testing as required by the department to ensure that the tank did not leak prior to closure, but shall not be required to have a monitoring system installed.

f. Establishing corrective action response requirements for the release of a regulated substance in connection with an underground storage tank. The corrective action response requirements shall include, but not be limited to, all of the following:

1. A requirement that the site cleanup report do all of the following:

   a. Identify the nature and level of contamination resulting from the release.

   b. Provide supporting data and a recommendation of the degree of risk posed by the site relative to the site classification system adopted pursuant to paragraph “d”.

   c. Provide supporting data and a recommendation of the need for corrective action.

   d. Identify the corrective action options which shall address the practical feasibility of implementation, costs, expected length of time to implement, and environmental benefits.

   e. To the fullest extent practicable, allow for the use of generally available hydrological, geological, topographical, and geograpical information and minimize site specific testing in preparation of the site cleanup report.

2. Require that at a minimum the source of a release be stopped either by repairing, upgrading, or closing the tank and that free product be removed or contained on site.

3. High risk sites shall be addressed pursuant to a corrective action design report, as submitted by a groundwater professional and as accepted by the department. The corrective action design report shall determine the most appropriate response to the high risk conditions presented. The appropriate corrective action response shall be based upon industry standards and shall take into account the following:

   a. The extent of remediation required to reclassify the site as a low risk site.

   b. The most appropriate exposure scenarios based upon residential, commercial, or industrial use or other predefined industry accepted scenarios.

   c. Exposure pathway characterizations including contaminant sources, transport mechanisms, and exposure pathways.

   d. Affected human or environmental receptors and exposure scenarios based on current and projected use scenarios.

   e. Risk-based corrective action assessment principles which identify the risks presented to the public health and safety or the environment by each release in a manner that will protect the public health and safety or the environment using a tiered procedure consistent with ASTM (American society for testing and materials) international’s emergency standard, ES38-94.

   f. Other relevant site specific factors such as the feasibility of available technologies, existing background contaminant levels, current and planned future uses, ecological, aesthetic, and other relevant criteria, and the applicability and availability of engineering and institutional controls.

   g. Remediation shall not be required on a site
that does not present an increased cancer risk at the point of exposure of one in one million for residential areas or one in ten thousand for nonresidential areas.

(5) A corrective action design report submitted by a groundwater professional shall be accepted by the department and shall be primarily relied upon by the department to determine the corrective action response requirements of the site. However, if the corrective action design report is found to be inaccurate or incomplete, and if based upon information in the report the appropriate corrective action response cannot be reasonably determined by the department based upon industry standards, the department shall work with the groundwater professional to obtain the additional information necessary to appropriately determine the corrective action response requirements. A groundwater professional who knowingly or intentionally makes a false statement or misrepresentation which results in an improper or incorrect corrective action response shall be guilty of a serious misdemeanor and shall have the groundwater professional’s certification revoked under section 455G.18.

(6) Low risk sites shall be monitored as deemed necessary by the department consistent with industry standards. Monitoring shall not be required on a site which has received a no further action certificate.

(7) An owner or operator may elect to proceed with additional corrective action on the site. However, any action taken in addition to that required pursuant to this paragraph “f” shall be solely at the expense of the owner or operator and shall not be considered corrective action for purposes of section 455G.9.

(8) Notwithstanding other provisions to the contrary and to the extent permitted by federal law, the department shall allow for bioremediation of soils and groundwater. For purposes of this subparagraph, “bioremediation” means the use of biological organisms, including microorganisms or plants, to degrade organic pollutants to common natural products.

(9) Replacement or upgrade of a tank on a site classified as a high or low risk site shall be equipped with a secondary containment system with monitoring of the space between the primary and secondary containment structures or other board approved tank system or methodology.

(10) The commission and the board shall cooperate to ensure that remedial measures required by the corrective action rules adopted pursuant to this paragraph are reasonably cost-effective and shall, to the fullest extent possible, avoid duplicating and conflicting requirements.

(11) The director may order an owner or operator to immediately take all corrective actions deemed reasonable and necessary by the director if the corrective action is consistent with the prioritization rules adopted under this paragraph. Any order taken by the director pursuant to this subparagraph shall be reviewed at the next meeting of the environmental protection commission.

g. Specifying an adequate monitoring system to detect the presence of a leaking underground storage tank and to provide for protection of the groundwater resources for regulated tanks installed prior to January 14, 1987. The effective date of the rules adopted shall be January 14, 1989. In the event that federal regulations are adopted by the United States environmental protection agency after the commission has adopted state standards pursuant to this subsection, the commission shall immediately proceed to adopt rules consistent with those federal regulations adopted. Unless the federal environmental protection agency adopts final rules to the contrary, rules adopted pursuant to this section shall not apply to hydraulic lift reservoirs, such as for automobile hoists and elevators, containing hydraulic oil.

h. Issuing a no further action certificate or a monitoring certificate to the owner or operator of an underground storage tank site.

(1) A no further action certificate shall be issued by the department for a site which has been classified as a no further action site or which has been reclassified pursuant to completion of a corrective action plan or monitoring plan to be a no further action site.

(2) A monitoring certificate shall be issued by the department for a site which does not require remediation, but does require monitoring of the site.

(3) A certificate may be recorded with the county recorder. The owner or operator of a site who has been issued a certificate under this paragraph “h” or a subsequent purchaser of the site shall not be required to perform further corrective action solely because action standards are changed at a later date. A certificate shall not prevent the department from ordering corrective action of a new release.

In adopting the rules under this subsection, the commission may distinguish between types, classes, and ages of underground storage tanks. In making the distinctions, the commission may take into consideration factors including, but not limited to, location of the tanks, compatibility of a tank material with the soil and climate conditions, uses of the tanks, history of maintenance, age of the tanks, current industry recommended practices, national consensus codes, hydrogeology, water table, size of the tanks, quantity of regulated substances periodically deposited in or dispensed from the tank, the degree of risk presented by the regulated substance, the technical and managerial capability of the owners and operators, and the compatibility of the regulated substance and the materials of which the underground storage tank is fabricated.
The department may issue a variance, which includes an enforceable compliance schedule, from the mandatory monitoring requirement for an owner or operator who demonstrates plans for tank removal, replacement, or filling with an inert material pursuant to a department approved variance. A variance may be renewed for just cause.

2. The maintenance of evidence of financial responsibility as the director determines to be feasible and necessary for taking corrective action and for compensating third parties for bodily injury and property damage caused by release of a regulated substance from an underground storage tank.

a. Financial responsibility required by this subsection may be established in accordance with rules adopted by the commission by any one, or any combination, of the following methods: insurance, guarantee, surety bond, letter of credit, or qualification as a self-insurer. In adopting requirements under this subsection, the commission may specify policy or other contractual terms, conditions, or defenses which are necessary or are unacceptable in establishing the evidence of financial responsibility.

A person who establishes financial responsibility by self-insurance shall not require or shall not enforce an indemnification agreement with an operator or owner of the tank covered by the self-insurance obligation, unless the owner or operator has committed a substantial breach of a contract between the self-insurer and the owner or operator, and that substantial breach relates directly to the operation of the tank in an environmentally sound manner. This paragraph applies to all contracts between a self-insurer and an owner or operator entered into on or after May 5, 1989.

b. If the owner or operator is in bankruptcy, reorganization, or arrangement pursuant to the federal bankruptcy law or if jurisdiction in any state court or federal court cannot be obtained over an owner or operator likely to be solvent at the time of judgment, any claim arising from conduct for compensating third parties for bodily injury and property damage caused by release of a regulated substance from an underground storage tank presents a hazard to the public health, safety, or the environment, and if upon inspection of the tank the determination is unfounded, the state may reimburse reasonable costs incurred in the inspection of the tank. Claims for reimbursement shall be filed on forms provided by the commission. The commission shall adopt rules pursuant to chapter 17A relating to determinations of reasonableness in approval or rejection of claims in cases of dispute. Claims shall be paid from the general fund of the state.

3. Standards of performance for new underground storage tanks which shall include, but are not limited to, design, construction, installation, release detection, and compatibility standards. Until the effective date of the standards adopted by the commission and after January 1, 1986, a person shall not install an underground storage tank for the purpose of storing regulated substances unless the tank (whether of single or double wall construction) meets all the following conditions:

a. The tank will prevent release due to corrosion or structural failure for the operational life of the tank.

b. The tank is cathodically protected against corrosion, constructed of noncorrosive material, steel clad with a noncorrosive material, or designed in a manner to prevent the release or threatened release of any stored substance.

c. The material used in the construction or lining of the tank is compatible with the substance to be stored. If soil tests conducted in accordance with ASTM (American society for testing and materials) international's standard G 57-78 or another standard approved by the commission show that soil resistivity in an installation location is twelve thousand ohm/cm or more (unless a more stringent soil resistivity standard is adopted by rule of the commission), a storage tank without liability of a guarantor to its owner or operator including, but not limited to, the liability of the guarantor for bad faith in negotiating or in failing to negotiate the settlement of any claim. This subsection does not diminish the liability of any person under section 107 or 111 of the Comprehensive Environmental Response, Compensation and Liability Act of 1980 or other applicable law.

d. For the purpose of this subsection, the term “guarantor” means any person, other than the owner or operator, who provides evidence of financial responsibility for an owner or operator under this subsection.

e. If an owner or operator is required to uncover or remove an underground storage tank based upon a determination of the department that the underground storage tank presents a hazard to the public health, safety, or the environment, and if upon inspection of the tank the determination is unfounded, the state may reimburse reasonable costs incurred in the inspection of the tank. Claims for reimbursement shall be filed on forms provided by the commission. The commission shall adopt rules pursuant to chapter 17A relating to determinations of reasonableness in approval or rejection of claims in cases of dispute. Claims shall be paid from the general fund of the state. When any one of the tanks or the related pumps and piping at a multiple tank facility are found to be leaking, the state shall not reimburse costs for uncovering or removing any of the other tanks, piping, or pumps that are not found to be leaking.

e. The total liability of a guarantor to its owner or operator including, but not limited to, the liability of the guarantor for bad faith in negotiating or in failing to negotiate the settlement of any claim. This subsection does not diminish the liability of any person under section 107 or 111 of the Comprehensive Environmental Response, Compensation and Liability Act of 1980 or other applicable law.
corrosion protection may be installed in that location until the effective date of the standards adopted by the commission and after January 1, 1986.

d. Rules adopted by the commission shall specify adequate monitoring systems to detect the presence of a leaking underground storage tank and to provide for protection of the groundwater resources from regulated tanks installed after January 14, 1987. In the event that federal regulations are adopted by the United States environmental protection agency after the commission has adopted state standards pursuant to this subsection, the commission shall immediately proceed to adopt rules consistent with those federal regulations adopted. Tanks installed on or after January 14, 1987, shall continue to be considered new tanks for purposes of this chapter and are subject to state monitoring requirements unless federal requirements are more restrictive.

4. The form and content of the written notices required by section 455B.473.

5. The duties of owners or operators of underground storage tanks to locate and abate the source of release of regulated substances, when in the judgment of the director, the local hydrology, geology and other relevant factors reasonably include a tank as a potential source.

6. Reporting requirements necessary to enable the department to maintain an accurate inventory of underground storage tanks.

7. Designation of regulated substances subject to this part, consistent with section 455B.471, subsection 8. The rules shall be at least as stringent as the regulations of the federal government pursuant to section 311, subsection b, paragraph 2, subparagraph A of the federal Water Pollution Control Act, 33 U.S.C. § 1321(b)(2)(A), pursuant to section 102 of the Comprehensive Environmental Response, Compensation, and Liability Act, 42 U.S.C. § 9602, pursuant to section 307, subsection a of the federal Water Pollution Control Act, 33 U.S.C. § 1317(a), pursuant to section 112 of the Clean Air Act, 42 U.S.C. § 7412, or pursuant to section 7 of the Toxic Substances Control Act, 15 U.S.C. § 2606.

The rules adopted by the commission under this section shall be consistent with and shall not exceed the requirements of federal regulations relating to the regulation of underground storage tanks except as provided in subsection 1, paragraph “f” and subsection 3, paragraph “d”. It is the intent of the general assembly that state rules adopted pursuant to subsection 1, paragraph “f” and subsection 3, paragraph “d” be consistent with and not more restrictive than federal regulations adopted by the United States environmental protection agency when those rules are adopted.

455B.475 Duties and powers of the director.
The director shall:

1. Inspect and investigate the facilities and records of owners and operators of underground storage tanks as may be necessary to determine compliance with this part and the rules adopted pursuant to this part. An inspection or investigation shall be concluded subject to section 455B.103, subsection 4. For purposes of developing a rule, maintaining an accurate inventory or enforcing this part, the department may:

a. Enter at reasonable times any establishment or other place where an underground storage tank is located.

b. Inspect and obtain samples from any person of a regulated substance and conduct monitoring or testing of the tanks, associated equipment, contents or surrounding soils, air, surface water and groundwater. Each inspection shall be commenced and completed with reasonable promptness.

(1) If the director obtains a sample, prior to leaving the premises, the director shall give the owner, operator, or agent in charge a receipt describing the sample obtained and if requested a portion of each sample equal in volume or weight to the portion retained. If the sample is analyzed, a copy of the results of the analysis shall be furnished promptly to the owner, operator, or agent in charge.

(2) Documents or information obtained from a person under this subsection shall be available to the public except as provided in this subparagraph. Upon a showing satisfactory to the director by a person that public disclosure of documents or information, or a particular part of the documents or information to which the director has access under this subsection would divulge commercial or financial information entitled to protection as a trade secret, the director shall consider the documents or information or the particular portion of the documents or information confidential. However, the document or information may be disclosed to officers, employees or authorized representatives of the United States charged with implementing the federal Solid Waste Disposal Act, to employees of the state of Iowa or of other states when the document or information is relevant to the discharge of their official duties, and when relevant in any proceeding under the federal Solid Waste Disposal Act or this part.

PART 9
WASTE MANAGEMENT ASSISTANCE
Legislative findings and purpose; 87 Acts, ch 180, §2

455B.480 Short title.
This part may be cited as the "Waste Management Assistance Act".

455B.481 Waste management policy.
1. The purpose of this part is to promote the proper and safe storage, treatment, and disposal of solid, hazardous, and low-level radioactive wastes in Iowa. The management of these wastes generated within Iowa is the responsibility of Iowans. It is the intent of the general assembly that Iowans assume this responsibility to the extent consistent with the protection of public health, safety, and the environment, and that Iowans insure that waste management practices, as alternatives to land disposal, including source reduction, recycling, compaction, incineration, and other forms of waste reduction, are employed.

2. It is also the intent of the general assembly that a comprehensive waste management plan be established by the department which includes: the determination of need and adequate regulatory controls prior to the initiation of site selection; the process for selecting a superior site determined to be necessary; the establishment of a process for a site community to submit or present data, views, or arguments regarding the selection of the operator and the technology that best ensures proper facility operation; the prohibition of shallow land burial of hazardous and low-level radioactive wastes; the establishment of a regulatory framework for a facility; and the establishment of provisions for the safe and orderly development, operation, closure, postclosure, and long-term monitoring and maintenance of the facility.

3. In order to meet capacity assurance requirements of section 104k of the federal Superfund Amendments and Reauthorization Act of 1986, Pub. L. No. 99-499, and further the objectives of waste minimization, the department, in cooperation with the small business assistance center at the university of northern iowa, shall work with generators of hazardous wastes in the state to develop and implement aggressive waste minimization programs. The goal of these programs is to reduce the volume of hazardous waste generated in the state as a whole by twenty-five percent of the amount generated as of January 1, 1987, as reported in the biennial reports collected by the United States environmental protection agency. The twenty-five percent reduction goal shall be reached as expeditiously as possible and no later than July 1, 1994. In meeting the reduction goal, elements “a” through “d” of the hazardous waste management hierarchy shall be utilized. The department, in cooperation with the small business assistance center, shall reassess the twenty-five percent reduction goal in 1994. The department shall promote research and development, provide and promote educational and informational programs, promote and encourage voluntary technical assistance to hazardous waste generators, promote assistance by the small business assistance center, and promote other activities by the public and private sectors that support this goal. In the promotion of the goal, the following hazardous waste management hierarchy, in descending order of preference, is established by the department:

   a. Source reduction for waste elimination.
   b. Off-site recycling.
   c. On-site recycling.
   e. Incineration.
   f. Land disposal.

4. Additionally, the department shall establish and distribute to generators a listing of hazardous waste materials which are currently being recycled. The department shall require that each hazardous waste generator in the state submit, with the biennial report submitted to the United States environmental protection agency, a report of hazardous waste materials currently designated as recyclable by the department which are not being recycled by the generator. The report shall include the reason why the generator is not recycling such products. A small generator which does not submit a biennial report to the United States environmental protection agency, shall provide the information required to be submitted under this paragraph on a form provided by the department, with the submittal of the small generator’s hazardous waste permit fee.

5. The department shall consult with representatives of industries which generate hazardous waste and shall make recommendations to the general assembly by January 1, 1991, concerning the possible application of a front-end fee for substances which will result in the generation of hazardous waste, the role of state government in assisting the private sector in establishing permanent, on-site, internal audit functions, and other measures which state government may initiate to encourage and assist generators of hazardous waste in reducing the hazardous waste generated.

455B.482 Definitions.

As used in this part unless the context otherwise requires:

1. “Disposal” means the isolation of waste from the biosphere in a permanent facility designed for that purpose.

ing out programs and responsibilities under this part, and identifying trends and developments in the management of waste. The report shall also include specific recommendations for attaining the goals for waste minimization and capacity assurance requirements.

10. Solicit proposals from public and private agencies to conduct hazardous waste research, and to develop and implement storage, treatment, and other hazardous waste management practices including but not limited to source reduction, recycling, compaction, incineration, fuel recovery, and other alternatives to land disposal of hazardous waste. In the acceptance of a proposal, preference shall be given to Iowa agencies pursuant to chapter 73.

11. Develop and implement programs, in cooperation with the small business assistance center at the university of northern Iowa, which result in widespread adoption of waste minimization programs by hazardous waste generators. The department shall conduct educational and informational programs. The small business assistance center shall provide direct waste minimization technical assistance to small quantity hazardous waste generators. These programs may include, but are not limited to, source reduction, recycling, fuel recovery, incineration, compaction, and other alternatives to land disposal. The preference for program development and implementation shall be for programs which result in the generation of less waste, followed by a preference for programs which reuse the waste generated in a beneficial manner.

Consideration for a contract for purchase of land shall not be in excess of funds appropriated by the general assembly for that purpose. The commission may lease land purchased under this section to any person including the state or a state agency. This section authorizes the state to own or operate hazardous waste facilities and low-level radioactive waste facilities, subject to the approval of the general assembly.

The terms of the lease or contract shall establish responsibility for long-term monitoring and maintenance of the site. The commission shall require that the lessee or operator post bond or provide proof of sufficient insurance coverage, as determined by the commission to be reasonably necessary to protect the state against liabilities arising from the storage of wastes, abandonment of the facility, facility accidents, failure of the facility, or other liabilities which may arise.

The terms of the lease or contract shall also require that the lessee or operator of the facility pay an annual fee to the state, as established by the commission, to cover facility monitoring costs, and shall require that the lessee or operator establish a long-term monitoring and maintenance fund in which the lessee or operator shall deposit an amount specified by the commission. 8. Function as a repository of research, data, and information regarding toxics pollution prevention activities throughout the state.

9. Provide a forum for public discussion and deliberation regarding toxics substances and toxics pollution prevention.

10. Promote increased coordination between the department, the Iowa waste reduction center at the university of northern Iowa, and other departments, agencies, and institutions with responsibilities relating to toxic substances.

11. Coordinate state and federal efforts of clearinghouses established to provide access to toxics reduction and management data for the use of toxics users.

12. Make recommendations to the general assembly by January 1, 1992, regarding a funding structure for the long-term implementation and continuation of a toxics pollution prevention program.

13. Work with the Iowa waste reduction center at the university of northern Iowa to assist small business toxics users with plan preparation and technical assistance.

$455B.518$ Toxics pollution prevention plans.

1. A toxics user required to report under section 313 of EPCRA, 42 U.S.C. § 11023, or a large quantity generator, as defined pursuant to the federal Resource Conservation and Recovery Act, 42 U.S.C. § 6901 et seq., shall be encouraged to develop a facility-wide multimedia toxics pollution prevention plan, as described pursuant to this section.

2. The department shall adopt criteria for the information required in a multimedia toxics pollution prevention plan. To the extent possible, the plans shall coordinate reporting requirements in order to minimize unnecessary duplication. The plans shall include, but are not limited to, all of the following:
   a. A policy statement which articulates upper management and corporate support for the toxics pollution prevention plan and its implementation.
   b. The identification and quantities of toxic substances used and released by groups of related production processes or by processes used in producing an identifiable product.
   c. An assessment of the applicability of the approaches designated as toxics pollution prevention techniques including the following: input substitution; production reformulation; production process redesign or modification; production process modernization; improved operation and maintenance of existing production process equipment and methods; and recycling, reuse, or extended use of toxic substances, to the toxics users' production processes as identified in paragraph "b".
   d. A description of current and previous techniques used to reduce or eliminate toxics used or released.
   e. An economic analysis of the proposed toxics pollution prevention plan. The economic analysis shall also include an evaluation of the impact upon the toxics user's existing labor force by division or department, and the projected impact upon future expansion of the toxics user's labor force.
   f. A clear statement listing specific reduction objectives.
   g. A method for employees of a toxics user to provide input and to be involved in the development of the plans. If the employees are represented by a labor union, organization, or association, a representative of the union, organization, or association shall be included in the development of the plans.

3. The plans developed under this section shall not promote the use of pollution control or waste management approaches that address waste or pollution after the creation of the waste or pollution.

4. A toxics pollution prevention plan developed under this section shall be reviewed by the department for completeness, adequacy, and accuracy.

5. A toxics user shall maintain a copy of the plan on the premises, and shall submit a summary of the plan to the department.

DIVISION VIII
CONTAMINATED SITES

$455B.601$ Pesticide and fertilizer contaminated sites — prioritization of cleanup.

1. The commission shall adopt rules to establish criteria for the classification and prioritization of sites upon which contamination has been discovered.
   a. A contaminated site shall be classified as either high, medium, or low priority.
   (1) A site shall be considered high priority under any of the following conditions:
       a. Groundwater contamination exceeds action levels and is affecting or likely to affect groundwater used as a drinking water source.
(b) Contamination is affecting or likely to affect surface water bodies to a level which exceeds surface water quality standards under section 455B.173.

(c) Contamination is discovered in an ecologically sensitive area. An ecologically sensitive area is one which is designated by the department.

(2) A site shall be considered medium priority if contamination of groundwater exceeds action levels, but does not meet the criteria for classification as a high priority site.

(3) A site shall be considered low priority under any of the following conditions:

(a) If soil contamination exists at the site, but no groundwater contamination exists at the site.

(b) If soil contamination exists and groundwater contamination has been discovered, but is below action levels.

(4) A site shall be reclassified as a site with a higher or lower classification when the site falls within a higher or lower classification as established under this paragraph.

b. An initial site plan shall be developed by the responsible person and approved by the department for each site upon which contamination has been discovered. The site plan shall include all of the following:

(1) A determination as to the extent of the existing soil, groundwater, or surface water contamination.

(2) The proximity of the contamination and the likelihood that the contamination will affect a drinking water well.

(3) The characteristics of the site and the potential for migration of the contamination.

(4) A recommendation as to whether the site should be classified as a high, medium, or low priority site.

(5) If a site is classified as a high or medium priority site, further investigation shall be conducted to determine the extent of the remediation which should be conducted on the site.

(c) If active site remediation for soil is not undertaken, no further action shall be required on the site.

(c) If active site remediation for soil is not undertaken on a low priority site, the site shall be monitored, for a specified period of time as determined by the department.

2. This section is applicable to a site upon which remediation has been discovered, unless one of the following applies:

a. Remediation on the site has already been approved by the department and implemented.

b. A responsible person has executed a remediation agreement with the agrichemical remediation board and the responsible person is remediating or has remediated the site pursuant to a plan of remediation as provided in chapter 161.

3. Application of contaminated groundwaters and soils on land upon which the contaminants have been applied in accordance with department rules shall not exceed a level which would preclude the resumption of normal farming practices within a two-year period.

4. This section does not affect the ability of the department or the United States environmental protection agency to require monitoring or remediation on sites that are placed on the national priorities list pursuant to the federal Comprehensive Environmental Response, Compensation and Liability Act.
