If the obligor is delinquent, but the amount

due was incorrectly overstated, the unit shall noti-

party in default, shall ratify the administrative

hearing, the court may find the challenging

party in default, shall ratify the administrative

levy, if valid upon its face, and shall enter an order
directing the financial institution to release the
moneys to the unit.

Issues related to visitation, custody, or other
provisions not related to levies against accounts
are not grounds for a hearing under this chapter.

An order entered under this chapter for a
levy against an account of a support obligor has
priority over a levy for a purpose other than the
support of the dependents in the court order being
enforced.

The support obligor may withdraw the re-
quest for challenge by submitting a written with-
drawal to the person identified as the contact for
the unit or the unit may withdraw the
administrative levy at any time prior to the court
hearing and provide notice of the withdrawal to
the obligor and any account holder of interest.

If the financial institution has forwarded
moneys to the collection services center and has
deducted a fee from the moneys of the account, or
if any additional fees or costs are levied against
the account, and all funds are subsequently re-

funded to the account due to a mistake of fact or
ruling of the court, the child support recovery unit
shall reimburse the account for any fees assessed
by the financial institution. If the mistake of fact
is a mistake in the amount of support due and any
portion of the moneys is retained as support pay-
ments, however, the unit is not required to reim-

252I.8 Challenges to action.

1. Challenges under this chapter may be initi-
ated only by an obligor or by an account holder of
interest. Actions initiated by the unit under this
chapter are not subject to chapter 17A, and result-
ing court hearings following certification shall be
an original hearing before the district court.

2. The person challenging the action shall sub-
mitt a written challenge to the person identified as
the contact for the unit in the notice, within ten
working days of the date of the notice.

3. The unit shall, upon receipt of a written
challenge, review the facts of the case with the
challenging party. Only a mistake of fact, includ-
ing but not limited to, a mistake in the identity of
the obligor or a mistake in the amount of delin-
quent support due shall be considered as a reason
to dismiss or modify the proceeding.

4. If the unit determines that a mistake of fact
has occurred the unit shall proceed as follows:

a. If a mistake in identity has occurred or the
obligor is not delinquent in an amount equal to
the payment for one month, the unit shall notify the fi-
nancial institution that the administrative levy
has been released. The unit shall provide a copy
of the notice to the support obligor by regular mail.

b. If the obligor is delinquent, but the amount
of the delinquency is less than the amount indi-
cated in the notice, the unit shall notify the fi-
nancial institution of the revised amount with a copy
of the notice and issue a copy to the obligor or for-
ward a copy to the obligor by regular mail. Upon
written receipt of instructions from the unit, the fi-
nancial institution shall release the funds in ex-
cess of the revised amount to the obligor and the
moneys in the amount of the debt shall be pro-
cessed according to section 252I.7.

5. If the unit finds no mistake of fact, the unit
shall provide a notice to that effect to the challenge-
ing party by regular mail. Upon written request
of the challenging party, the unit shall request a
hearing before the district court in the county in
which the underlying support order is filed.

a. The financial institution shall encumber
moneys if the child support recovery unit notifies
the financial institution to do so.

b. The clerk of the district court shall schedule
a hearing upon the request by the unit for a time
not later than ten calendar days after the filing of
the request for hearing. The clerk shall mail cop-
ies of the request for hearing and the order sched-
uling the hearing to the unit and to all account
holders of interest.

c. If the court finds that there is a mistake of
identity or that the obligor does not owe the delin-
quent support, the unit shall notify the financial
institutions that the administrative levy has been
released.

d. If the court finds that the obligor has an in-
terest in the account, and the amount of support
due was incorrectly overstated, the unit shall notify
the financial institution to release the excess
moneys to the obligor and remit the remaining
moneys in the amount of the debt to the collection
services center for disbursement to the appropri-
ate recipient.

e. If the court finds that the obligor has an in-
terest in the account, and the amount of support
due is correct, the financial institution shall for-
ward the moneys to the collection services center
for disbursement to the appropriate recipient.

f. If the obligor or any other party known to
have an interest in the account fails to appear at
the hearing, the court may find the challenging
party in default, shall ratify the administrative
levy, if valid upon its face, and shall enter an order
directing the financial institution to release the
moneys to the unit.

g. Issues related to visitation, custody, or other
provisions not related to levies against accounts
are not grounds for a hearing under this chapter.

h. Support orders shall not be modified under
a challenge pursuant to this section.

i. Any findings in the challenge of an adminis-
trative levy related to the amount of the accruing
or accrued support obligation do not modify the
underlying support order.

j. An order entered under this chapter for a
levy against an account of a support obligor has
priority over a levy for a purpose other than the
support of the dependents in the court order being
enforced.

6. The support obligor may withdraw the re-
quest for challenge by submitting a written with-
drawal to the person identified as the contact for
the unit in the notice or the unit may withdraw the
administrative levy at any time prior to the court
hearing and provide notice of the withdrawal to
the obligor and any account holder of interest and
to the financial institution, by regular mail.

7. If the financial institution has forwarded
moneys to the collection services center and has
deducted a fee from the moneys of the account, or
if any additional fees or costs are levied against
the account, and all funds are subsequently re-
funded to the account due to a mistake of fact or
ruling of the court, the child support recovery unit
shall reimburse the account for any fees assessed
by the financial institution. If the mistake of fact
is a mistake in the amount of support due and any
portion of the moneys is retained as support pay-
ments, however, the unit is not required to reim-

PART 3

RECONCILIATION OF MULTIPLE ORDERS

252K.207 Recognition of controlling child support order.

1. If a proceeding is brought under this chapter and only one tribunal has issued a child support order, the order of that tribunal controls and must be so recognized.

2. If a proceeding is brought under this chapter, and two or more child support orders have been issued by tribunals of this state or another state with regard to the same obligor and child, a tribunal of this state shall apply the following rules in determining which order to recognize for purposes of continuing, exclusive jurisdiction:
   a. If only one of the tribunals would have continuing, exclusive jurisdiction under this chapter, the order of that tribunal controls and must be so recognized.
   b. If more than one of the tribunals would have continuing, exclusive jurisdiction under this chapter, the order of that tribunal controls and must be so recognized.

3. If two or more child support orders have been issued for the same obligor and child and if the obligor or the individual obligee resides in this state, a party may request a tribunal of this state to determine which order controls and must be so recognized under subsection 2. The request must be accompanied by a certified copy of every support order in effect. The requesting party shall give notice of the request to each party whose rights may be affected by the determination.

4. The tribunal that issued the controlling order under subsection 1, 2, or 3 is the tribunal that has continuing, exclusive jurisdiction under section 252K.205.

6. Within thirty days after issuance of an order determining the identity of the controlling order, the party obtaining the order shall file a certified copy of it with each tribunal that issued or registered an earlier order of child support. A party who obtains the order and fails to file a certified copy is subject to appropriate sanctions by a tribu-

   g. The statute of limitation under section 252K.604 precludes enforcement of some or all of the arrearages.
2. If a party presents evidence establishing a full or partial defense under subsection 1, a tribunal may stay enforcement of the registered order; continue the proceeding to permit production of additional relevant evidence, and issue other appropriate orders. An uncontested portion of the registered order may be enforced by all remedies available under the law of this state.
3. If the contesting party does not establish a defense under subsection 1 to the validity or enforcement of the order, the registering tribunal shall issue an order confirming the order.

97 Acts, ch 175, §167

252K.608 Confirmed order.
Confirmation of a registered order, whether by operation of law or after notice and hearing, precludes further contest of the order with respect to any matter that could have been asserted at the time of registration.

97 Acts, ch 175, §168

PART 3
REGISTRATION AND MODIFICATION OF CHILD SUPPORT ORDER

252K.609 Procedure to register child support order of another state for modification.
A party or support enforcement agency seeking to modify, or to modify and enforce, a child support order issued in another state shall register that order in this state in the same manner provided in part 1 if the order has not been registered. A petition for modification may be filed at the same time as a request for registration, or later. The pleading must specify the grounds for modification.

97 Acts, ch 175, §169

252K.610 Effect of registration for modification.
A tribunal of this state may enforce a child support order of another state registered for purposes of modification, in the same manner as if the order had been issued by a tribunal of this state, but the registered order may be modified only if the requirements of section 252K.611 have been met.

97 Acts, ch 175, §170

252K.611 Modification of child support order of another state.
1. After a child support order issued in another state has been registered in this state, the responding tribunal of this state may modify that order only if section 252K.613 does not apply and after notice and hearing it finds that paragraph “a” or “b” applies:
   a. The following requirements are met:
      (1) The child, the individual obligee, and the obligor do not reside in the issuing state.
      (2) A movant who is a nonresident of this state seeks modification.
      (3) The respondent is subject to the personal jurisdiction of the tribunal of this state.
   b. The child, or a party who is an individual, is subject to the personal jurisdiction of the tribunal of this state and all of the parties who are individuals have filed written consents in the issuing tribunal for a tribunal of this state to modify the support order and assume continuing, exclusive jurisdiction over the order. However, if the issuing state is a foreign jurisdiction that has not enacted a law or established procedures substantially similar to the procedures under this chapter, the consent otherwise required of an individual residing in this state is not required for the tribunal to assume jurisdiction to modify the child support order.
2. Modification of a registered child support order is subject to the same requirements, procedures, and defenses that apply to the modification of an order issued by a tribunal of this state and the order may be enforced and satisfied in the same manner.
3. A tribunal of this state may not modify any aspect of a child support order that may not be modified under the law of the issuing state. If two or more tribunals have issued child support orders for the same obligor and child, the order that controls and must be so recognized under section 252K.207 establishes the aspects of the support order which are nonmodifiable.
4. On issuance of an order modifying a child support order issued in another state, a tribunal of this state becomes the tribunal having continuing, exclusive jurisdiction.

97 Acts, ch 175, §171

252K.612 Recognition of order modified in another state.
A tribunal of this state shall recognize a modification of its earlier child support order by a tribunal of another state which assumed jurisdiction pursuant to this chapter or a law substantially similar to this chapter and, upon request, except as otherwise provided in this chapter, shall:
1. Enforce the order that was modified only as
§252K.612, UNIFORM INTERSTATE FAMILY SUPPORT ACT

252K.613 Jurisdiction to modify child support order of another state when individual parties reside in this state.

1. If all of the parties who are individuals reside in this state and the child does not reside in the issuing state, a tribunal of this state has jurisdiction to enforce and to modify the issuing state’s child support order in a proceeding to register that order.

2. A tribunal of this state exercising jurisdiction under this section shall apply the provisions of articles 1 and 2, this article, and the procedural and substantive law of this state to the proceeding for enforcement or modification. Articles 3, 4, 5, 7, and 8 do not apply.

97 Acts, ch 175, §173

252K.614 Notice to issuing tribunal of modification.

Within thirty days after issuance of a modified child support order, the party obtaining the modification shall file a certified copy of the order with the issuing tribunal that had continuing, exclusive jurisdiction over the earlier order, and in each tribunal in which the party knows the earlier order has been registered. A party who obtains the order and fails to file a certified copy is subject to appropriate sanctions by a tribunal in which the issue of failure to file arises. The failure to file does not affect the validity or enforceability of the modified order of the new tribunal having continuing, exclusive jurisdiction.

97 Acts, ch 175, §174

ARTICLE 7
DETERMINATION OF PARENTAGE

252K.701 Proceeding to determine parentage.

1. A tribunal of this state may serve as an initiating or responding tribunal in a proceeding brought under this chapter or a law or procedure substantially similar to this chapter, the Uniform Reciprocal Enforcement of Support Act, or the Revised Uniform Reciprocal Enforcement of Support Act to determine that the petitioner is a parent of a particular child or to determine that a respondent is a parent of that child.

2. In a proceeding to determine parentage, a responding tribunal of this state shall apply the procedural and substantive laws pursuant to chapters 252A and 252F, and the rules of this state on choice of law.

97 Acts, ch 175, §175

ARTICLE 8
INTERSTATE RENDITION

252K.801 Grounds for rendition.

1. For purposes of this article, “governor” includes an individual performing the functions of governor or the executive authority of a state covered by this chapter.

2. The governor of this state may:
   a. Demand that the governor of another state surrender an individual found in the other state who is charged criminally in this state with having failed to provide for the support of an obligee.
   b. On the demand by the governor of another state, surrender an individual found in this state who is charged criminally in the other state with having failed to provide for the support of an obligee.

3. A provision for extradition of individuals not inconsistent with this chapter applies to the demand even if the individual whose surrender is demanded was not in the demanding state when the crime was allegedly committed and has not fled therefrom.

97 Acts, ch 175, §176

252K.802 Conditions of rendition.

1. Before making demand that the governor of another state surrender an individual charged criminally in this state with having failed to provide for the support of an obligee, the governor of this state may require a prosecutor of this state to demonstrate that at least sixty days previously the obligee had initiated proceedings for support pursuant to this chapter or that the proceeding would be of no avail.

2. If, under this chapter, or a law substantially similar to this chapter, the Uniform Reciprocal Enforcement of Support Act, or the Revised Uniform Reciprocal Enforcement of Support Act, the governor of another state makes a demand that the governor of this state surrender an individual charged criminally in that state with having failed to provide for the support of a child or other individual to whom a duty of support is owed, the governor may require a prosecutor to investigate the demand and report whether a proceeding for support has been initiated or would be effective. If it appears that a proceeding would be effective but has not been initiated, the governor may delay honoring the demand for a reasonable time to permit the initiation of a proceeding.

3. If a proceeding for support has been initiated and the individual whose rendition is de-
manded prevails, the governor may decline to honor the demand. If the movant prevails and the individual whose rendition is demanded is subject to a support order, the governor may decline to honor the demand if the individual is complying with the support order.

97 Acts, ch 175, §177

ARTICLE 9

PREFACE TO 2007 IOWA CODE

The 2007 Iowa Code is published pursuant to Code chapter 2B. Its form is substantially the same as the 2005 Iowa Code, and it includes the permanent enactments of the 2005 and 2006 sessions of the Eighty-first General Assembly or of an earlier session if the effective date of the enactments was delayed. Except as otherwise indicated in the text or in a footnote, the new sections, amendments, and repeals were effective on or before July 1, 2006. See the 2006 Iowa Acts or earlier session enactments to determine specific effective dates not shown.

CODE VOLUMES AND ARRANGEMENTS. The 2007 Code is published in six textual volumes and one Tables and Index volume. A Skeleton and Popular Name Index printed on pink paper appears at the end of each volume. The Table of Contents on page v enumerates the titles and subtitles found in the Code, and each volume contains an Analysis by Titles, Subtitles, and Chapters for that volume.

EDITORIAL DECISIONS. If multiple amendments were enacted to a section or part of a section, all changes that were duplicative or otherwise did not appear to conflict were harmonized as required under Code sections 2B.13 and 4.11. If multiple amendments conflicted, a strike or repeal prevailed over an amendment to the same material. If multiple amendments were irreconcilable, the amendment that was last in the Act or latest in date of enactment was codified as provided in Code sections 2B.13 and 4.8. At the end of Volume VI are Code Editor’s Notes which explain the major editorial decisions relating to enactments of the 2006 sessions. The Code Editor’s Notes relating to enactments of the 2005 session appear at the end of the 2005 Code Supplement. Code section 2B.13 governs the ongoing revision of gender references, authorizes other editorial changes, and provides for the effective date of editorial changes.

HISTORIES. Bracketed material at the end of many Code sections traces the history of the subject matter of those sections up through 1982. Beginning with the 1985 Code, that form of section history was not updated. An amendment to or enactment of a section which occurred during or after the 1983 legislative session is indicated by the addition of an Acts citation at the end of the section. If a section is transferred from one location to another, the section history at the new location will indicate the Code or Code Supplement in which the transfer took place.

CONSTITUTIONS. A codified version of the 1857 Constitution of the State of Iowa, as well as the original version, is included with the introductory material at the beginning of Volume I.

TABLES. The tables appear at the beginning of the index volume which is entitled “Tables and Index.”

COMMENTS. The editorial staff of the Iowa Code welcomes comments and suggestions for improvements.

Except for the college student aid commission and the public broadcasting board and division, the state board shall:

1. Adopt and establish policy for programs and services of the department pursuant to law.
2. Constitute the state board for vocational education under chapter 258.
3. Prescribe standards and procedures for the approval of practitioner preparation programs and professional development programs offered in this state by practitioner preparation institutions located within or outside this state and by area education agencies. Procedures provided for approval of programs shall include procedures for enforcement of the prescribed standards and shall not include a procedure for the waiving of any of the standards prescribed. The board may establish by rule and collect from practitioner preparation institutions located outside this state an amount equivalent to the department’s necessary travel and actual expenses incurred while engaged in the program approval process for the institution located outside this state. Amounts collected under this subsection shall be deposited in the general fund of the state.
4. Adopt, and update annually, a five-year plan for the achievement of educational goals in Iowa.
5. Adopt rules under chapter 17A for carrying out the responsibilities of the department.
6. Hear appeals of persons aggrieved by decisions of boards of directors of school corporations under chapter 290 and other appeals prescribed by law. The state board may review the record and shall review the decision of the director of the department of education or the administrative law judge designated for any appeals heard and de-
decided by the director under chapter 290, and may affirm, modify, or vacate the decision, or may direct a rehearing before the director.

7. Adopt rules under chapter 17A for the use of telecommunications as an instructional tool for students enrolled in kindergarten through grade twelve and served by local school districts, accredited or approved nonpublic schools, area education agencies, community colleges, institutions of higher education under the state board of regents, and independent colleges and universities in elementary and secondary school classes and courses. The rules shall include but need not be limited to rules relating to programs, educational policy, instructional practices, staff development, use of pilot projects, curriculum monitoring, and the accessibility of licensed teachers.

When curriculum is provided by means of telecommunications, it shall be taught by an appropriately licensed teacher. The teacher shall either be present in the classroom, or be present at the location at which the curriculum delivered by means of telecommunications originates.

The rules shall provide that when the curriculum is taught by an appropriately licensed teacher at the location at which the telecommunications originates, the curriculum received at a remote site shall be under the supervision of a licensed teacher. The licensed teacher at the originating site may provide supervision of students at a remote site or the school district in which the remote site is located may provide for supervision at the remote site if the school district deems it necessary or if requested to do so by the licensed teacher at the originating site. For the purposes of this subsection, “supervision” means that the curriculum is monitored by a licensed teacher and the teacher is accessible to the students receiving the curriculum by means of telecommunications.

The state board shall establish an advisory committee to make recommendations for rules required under this subsection on the use of telecommunications as an instructional tool. The committee shall be composed of representatives from community colleges, area education agencies, accredited or approved nonpublic schools, and local school districts from various enrollment categories. The representatives shall include board members, school administrators, teachers, parents, students, and associations interested in education.

For the purpose of the rules adopted by the state board, telecommunications means narrowcast communications through systems that are directed toward a narrowly defined audience and includes interactive live communications.

8. Rules adopted under this section shall provide that telecommunications shall not be used by school districts as the exclusive means to provide any course which is required by the minimum educational standards for accreditation.

9. Develop evaluation procedures that will measure the effects of instruction by means of telecommunications on student achievement, socialization, intellectual growth, motivation, and other related factors deemed relevant by the state board, for the development of an educational database. The state board shall consult with the state board of regents and the practitioner preparation departments at its institutions, other practitioner preparation departments located within private colleges and universities, educational research agencies or facilities, and other agencies deemed appropriate by the state board, in developing these procedures.

10. Adopt rules pursuant to chapter 17A relating to educational programs and budget limitations for educational programs pursuant to sections 282.29, 282.30, 282.31, and 282.33.

11. Prescribe guidelines for facility standards, maximum class sizes, and maximum in classroom pupil-teacher and teacher-aide ratios for grades kindergarten through three and before and after school and summer child care programs provided under the direction of the school district. The department also shall indicate modifications to such guidelines necessary to address the needs of at-risk children.

12. Elect to a two-year term, from its members in each even-numbered year, a president of the state board, who shall serve until a successor is elected and qualified.

13. Adopt rules and a procedure for accrediting all apprenticeship programs in the state which receive state or federal funding. In developing the rules, the state board shall consult with schools and labor or trade organizations affected by or currently operating apprenticeship or training programs. Rules adopted shall be the same or similar to criteria established for the operation of apprenticeship programs at community colleges.

14. Adopt rules which require each community college which establishes a new jobs training project or projects and receives funds derived from or associated with the project or projects to establish a separate account to act as a repository for any funds received and to report annually, by January 15, to the general assembly on funds received and disbursed during the preceding fiscal year in the form required by the department.

15. If funds are appropriated by the general assembly for the program, adopt rules for the administration of the teacher exchange program, including, but not limited to, rules for application to participate in the program, rules relating to the number of times that a given applicant may participate in the program, and rules describing reimbursable expenses and establishing honoraria for teacher participants.

16. Adopt rules that set standards for approval of family support preservice and in-service training programs, offered by area education agencies and practitioner preparation institutions, and family support programs offered by or
through local school districts.

17. Receive and review the budget and unified plan of service submitted by the division of libraries and information services.

18. Adopt rules that include children who retain some sight but who have a medically diagnosed expectation of visual deterioration within the definition of children requiring special education pursuant to section 256B.2, subsection 1. Rules adopted pursuant to this subsection shall provide for or include, but are not limited to, the following:

a. A presumption that proficiency in braille reading and writing is essential for satisfactory educational progress for a visually impaired student who is not able to communicate in print with the same level of proficiency as a student of otherwise comparable ability at the same grade level. This presumption includes a student as defined in paragraph "b". A student for whom braille services are appropriate, as defined in this subsection, is entitled to instruction in braille reading and writing that is sufficient to enable the pupil to communicate with the same level of proficiency as a pupil of otherwise comparable ability at the same grade level.

b. A pupil who retains some sight but who has a medically diagnosed expectation of visual deterioration in adolescence or early adulthood may qualify for instruction in braille reading and writing.

c. Instruction in braille reading and writing may be used in combination with other special education services appropriate to a pupil’s educational needs.

d. The annual review of a pupil’s individual education plan shall include discussion of instruction in braille reading and writing and a written explanation of the reasons why the pupil is using a given reading and writing medium or media. If the reasons have not changed since the previous year, the written explanation for the current year may refer to the fuller explanation from the previous year.

e. A pupil as defined in paragraph “b” whose primary learning medium is expected to change may begin instruction in the new medium before it is the only medium the pupil can effectively use.

f. A pupil who receives instruction in braille reading and writing pursuant to this subsection shall be taught by a teacher licensed to teach students with visual impairments.

19. Define the minimum school day as a day consisting of five and one-half hours of instructional time for grades one through twelve. The minimum hours shall be exclusive of the lunch period, but may include passing time between classes. Time spent on parent-teacher conferences shall be considered instructional time. A school or school district may record a day of school with less than the minimum instructional hours as a minimum school day if any of the following apply:

a. If emergency health or safety factors require the late arrival or early dismissal of students on a specific day.

b. If the total hours of instructional school time for grades one through twelve for any five consecutive school days equal a minimum of twenty-seven and one-half hours, even though any one school day is less than the minimum instructional hours because of a staff development opportunity provided for the professional instructional staff or because parent-teacher conferences have been scheduled beyond the regular school day. Furthermore, if the total hours of instructional time for the first four consecutive days equal at least twenty-seven and one-half hours because parent-teacher conferences have been scheduled beyond the regular school day, a school or school district may record zero hours of instructional time on the fifth consecutive school day as a minimum school day.

20. Adopt rules that require the board of directors of a school district to waive school fees for indigent families.

21. Develop and adopt rules incorporating accountability for, and reporting of, student achievement into the standards and accreditation process described in section 256.11. The rules shall provide for all of the following:

a. Requirements that all school districts and accredited nonpublic schools develop, implement, and file with the department a comprehensive school improvement plan that includes, but is not limited to, demonstrated school, parental, and community involvement in assessing educational needs, establishing local education standards and student achievement levels, and, as applicable, the consolidation of federal and state planning, goal-setting, and reporting requirements.

b. A set of core academic indicators in mathematics and reading in grades four, eight, and eleven, a set of core academic indicators in science in grades eight and eleven, and another set of core indicators that includes, but is not limited to, graduation rate, postsecondary education, and successful employment in Iowa. Annually, the department shall report state data for each indicator in the condition of education report.

c. A requirement that all school districts and accredited nonpublic schools annually report to the department and the local community the district-wide progress made in attaining student achievement goals on the academic and other core indicators and the district-wide progress in attaining locally established student learning goals. The school districts and accredited nonpublic schools shall demonstrate the use of multiple assessment measures in determining student achievement levels. The school districts and accredited nonpublic schools shall also report the number of students who graduate, utilizing the definition of graduation rate specified by the national governors association; the number of stu-
dents who drop out of school; the number of students pursuing a high school equivalency diploma pursuant to chapter 259A; the number of students who were enrolled in the district within the past five years who received a high school equivalency diploma; the percentage of students who receive a high school diploma and who were not proficient in reading, mathematics, and science in grade eleven; the number of students in the prior year who were enrolled as high school juniors who are within four units of meeting the district’s graduation requirements; the number of students who are tested and the percentage of students who are so tested annually; and the percentage of students who graduated during the prior school year and who completed a core curriculum. The board shall develop and adopt uniform definitions consistent with the federal No Child Left Behind Act of 2001, Pub. L. No. 107-110 and any federal regulations adopted pursuant to the federal Act. The school districts and accredited nonpublic schools may report on other locally determined factors influencing student achievement. The school districts and accredited nonpublic schools shall also report to the local community their results by individual attendance center.

22. Adopt rules and a procedure for the approval of para-educator preparation programs offered by a public school district, area education agency, community college, institution of higher education under the state board of regents, or an accredited private institution as defined in section 261.9, subsection 1. The programs shall train and recommend individuals for para-educator certification under section 272.12.

23. Adopt rules directing the community colleges to annually and uniformly submit data from the most recent fiscal year to the division of community colleges and workforce preparation, using criteria determined and prescribed by the division via the management information system. Financial data submitted to the division by a community college shall be broken down by fund. Community colleges shall provide data to the division by a deadline set by the division. The deadline shall be set for a date that permits the division to include the data in a report submitted for state board approval and for review by December 15 of each year by the house and senate standing education committees and the joint subcommittee on education appropriations.

24. Adopt rules on or before January 1, 2001, to require school districts and accredited nonpublic schools to adopt local policies relating to health services, media services programs, and guidance programs, as part of the general accreditation standards applicable to school districts pursuant to section 256.11. This subsection shall be applicable strictly for reporting purposes and shall not be interpreted to require school districts and accredited nonpublic schools to provide or offer health services, media services programs, or guidance programs.

25. Adopt rules establishing standards for school district and area education agency career development programs and for individual teacher career development plans in accordance with section 284.6.

26. Set a goal of increasing to eighty percent the number of students graduating from all secondary schools in school districts in this state who have successfully completed the core curriculum recommended by the college testing service whose college entrance examination is taken by the majority of Iowa’s high school students. The state goal shall be exclusive of students who have special or alternative means for satisfying graduation requirements under individualized educational plans developed for the students. The state board shall require each school district to annually report, beginning with the 2006–2007 school year, the percentage of students graduating from high school in the school district who complete the core curriculum. The school district shall report, in the comprehensive school improvement plan submitted in accordance with subsection 21, how the district plans to increase the number of students completing the recommended core curriculum. Taking into consideration the recommendations of the college testing service whose college entrance examination is taken by the majority of Iowa’s high school students, beginning with the students in the 2010–2011 school year graduating class, the requirements for high school graduation for all students in school districts shall be four years of English and language arts, three years of mathematics, three years of science, and three years of social studies.

A twelfth grade student who meets the requirements of this paragraph may be excused from the physical education requirement by the principal of the school in which the student is enrolled if the parent or guardian of the student requests in writing that the student be excused from the physical education requirement. A student who wishes to be excused from the physical education requirement must be seeking to be excused in order to enroll in academic courses not otherwise available to the student, or be enrolled or participating in one of the following:

other educational program authorized by the school which requires the student to leave the school premises for specified periods of time during the school day.

(2) An organized and supervised athletic program which requires at least as much participation per week as one-eighth unit of physical education.

The exemption may be renewed. Exemptions shall be granted only if the director deems that the request made is an essential part of a planned innovative curriculum project which the director determines will adequately meet the educational needs and interests of the pupils and be broadly consistent with the intent of the educational program as defined in subsection 5.

The request for exemption shall include all of the following:

   a. Rationale of the project to include supportive research evidence.
   b. Objectives of the project.
   c. Provisions for administration and conduct of the project, including the use of personnel, facilities, time, techniques, and activities.

A school district that entered into a contract with an individual for employment as a media specialist or librarian who holds at least a master’s degree in library and information studies shall be considered to be in compliance with this subsection until the individual leaves the employ of the school district.

9A. Reserved.

10. The state board shall establish an accreditation process for school districts and nonpublic schools seeking accreditation pursuant to this subsection and subsections 11 and 12. By July 1, 1989, all school districts shall meet standards for accreditation. For the school year commencing July 1, 1989, and school years thereafter, the department of education shall use a two-phase process for the continued accreditation of schools and school districts.

Phase I shall consist of annual monitoring by the department of education of all accredited schools and school districts for compliance with accreditation standards adopted by the state board of education as provided in this section. The phase I monitoring requires that accredited schools and school districts annually complete accreditation compliance forms adopted by the state board and file them with the department of education. Phase I monitoring requires a comprehensive desk audit of all accredited schools and school districts including review of accreditation compliance forms, accreditation visit reports, methods of administration reports, and reports submitted in compliance with section 256.7, subsection 21, paragraph “a”, and section 280.12.

The department shall conduct site visits to schools and school districts to address accreditation issues identified in the desk audit. Such a visit may be conducted by an individual departmental consultant or may be a comprehensive site visit by a team of departmental consultants and other educational professionals. The purpose of a comprehensive site visit is to determine that a district is in compliance with minimum standards and to provide a general assessment of educational practices in a school or school district and make recommendations with regard to the visit findings for the purposes of improving educational practices above the level of minimum compliance. The department shall establish a long-term schedule of site visits that includes visits of all accredited schools and school districts as needed.

Phase II requires the use of an accreditation committee, appointed by the director of the department of education, to conduct an on-site visit to an accredited school or school district if any of the following conditions exist:

a. When either the annual monitoring or the biennial on-site visit of phase I indicates that a school or school district is deficient and fails to be in compliance with accreditation standards.

b. In response to a petition filed with the director requesting such a committee visitation that is signed by eligible electors residing in the school district equal in number to at least twenty percent of the registered voters of the school district.

c. In response to a petition filed with the director requesting such a committee visitation that is signed by twenty percent or more of the parents or guardians who have children enrolled in the school or school district.

d. At the direction of the state board of education.

The number and composition of the membership of an accreditation committee shall be determined by the director and may vary due to the specific nature or reason for the visit. In all situations, however, the chairperson and a majority of the committee membership shall be from the instructional and administrative program specialty staff of the department of education. Other members may include instructional and administrative staff from school districts, area education agencies, institutions of higher education, local board members and the general public. An accreditation committee visit to a nonpublic school requires membership on the committee from nonpublic school instructional or administrative staff or board members. A member of a committee shall not have a direct interest in the nonpublic school or school district being visited.

Rules adopted by the state board may include provisions for coordination of the accreditation process under this section with activities of accreditation associations.

Prior to a visit to a school district or nonpublic school, members of the accreditation committee shall have access to all annual accreditation report information filed with the department by that nonpublic school or school district.

After visiting the school district or nonpublic school, the accreditation committee shall determine whether the accreditation standards have been met and shall make a report to the director, together with a recommendation whether the school district or nonpublic school shall remain accredited. The accreditation committee shall report strengths and weaknesses, if any, for each standard and shall advise the school or school district of available resources and technical assistance to further enhance strengths and improve
areas of weakness. A school district or nonpublic school shall be provided with the opportunity to respond to the accreditation committee’s report.

11. The director shall review the accreditation committee’s report, and the response of the school district or nonpublic school, and provide a report and recommendation to the state board along with copies of the accreditation committee’s report, the response to the report, and other pertinent information. The state board shall determine whether the school district or nonpublic school shall remain accredited. If the state board determines that a school district or nonpublic school should not remain accredited, the director, in cooperation with the board of directors of the school district, or authorities in charge of the nonpublic school, shall establish a plan prescribing the procedures that must be taken to correct deficiencies in meeting the standards, and shall establish a deadline date for completion of the procedures. The plan is subject to approval of the state board.

12. During the period of time specified in the plan for its implementation by a school district or nonpublic school, the school district or school remains accredited. The accreditation committee shall revisit the school district or nonpublic school and shall determine whether the deficiencies in the standards have been corrected and shall make a report and recommendation to the director and the state board. The committee recommendation shall specify whether the school district or school shall remain accredited or under what conditions the district may remain accredited. The conditions may include, but are not limited to, providing temporary oversight authority, operational authority, or both oversight and operational authority to the director and the state board for some or all aspects of the school district operation, in order to bring the school district into compliance with minimum standards. The state board shall review the report and recommendation, may request additional information, and shall determine whether the deficiencies have been corrected. If the deficiencies have not been corrected, and the conditional accreditation alternatives contained in the report are not mutually acceptable to the local board and the state board, the state board shall merge the territory of the school district with one or more contiguous school districts at the end of the school year. Division of assets and liabilities of the school district shall be as provided in sections 275.29 through 275.31. Until the merger is completed, and subject to a decision by the state board of education, the school district shall pay tuition for its resident students to an accredited school district under section 282.24. However, in lieu of merger and payment of tuition by a nonaccredited school district, the state board may place a district under receivership for the remainder of the school year. The receivership shall be under the direct supervision and authority of the director. The decision of whether to merge the school district and require payment of tuition for the district’s students or to place the district under receivership shall be based upon a determination by the state board of the best interests of the students, parents, residents of the community, teachers, administrators, and board members of the district and the recommendations of the accreditation committee and the director. If the state board declares a nonpublic school to be nonaccredited, the removal of accreditation shall take effect on the date established by the resolution of the state board, which shall be no later than the end of the school year in which the nonpublic school is declared to be nonaccredited.

13. Notwithstanding subsections 1 through 12 and as an exception to their requirements, a private high school or private combined junior-senior high school operated for the express purpose of teaching a program designed to qualify its graduates for matriculation at accredited four-year or equivalent liberal arts, scientific, or technological colleges or universities shall be placed on a special accredited list of college preparatory schools, which list shall signify accreditation of the school for that express purpose only, if:

a. The school complies with minimum standards established by the Code other than this section, and rules adopted under the Code, applicable to:
   (1) Courses comprising the limited program.
   (2) Health requirements for personnel.
   (3) Plant facilities.
   (4) Other environmental factors affecting the programs.

b. At least eighty percent of those graduating from the school within the four most recent calendar years, other than those graduating who are aliens, graduates entering military or alternative civilian service, or graduates deceased or incapacitated before college acceptance, have been accepted by accredited four-year or equivalent liberal arts, scientific, or technological colleges or universities.

c. A school claiming to be a private college preparatory school which fails to comply with the requirement of paragraph “b” of this subsection shall be placed on the special accredited list of college preparatory schools provisionally if the school complies with the requirements of paragraph “a” of this subsection, but a provisional accreditation shall not continue for more than four successive years.

14. Notwithstanding subsections 1 through 13 and as an exception to their requirements, a nonpublic grade school which is reopening is accredited even if it does not have a complete grade one through grade six program. However, the nonpublic grade school must comply with other minimum standards established by law and administrative rules adopted pursuant to the law and the nonpublic grade school must show progress toward reaching a grade one through grade six program.
15. The board of directors of a school district or the authorities in charge of a nonpublic school may award credit toward graduation to a student if the student successfully completes basic training for service as a member of the Iowa army national guard, the Iowa air national guard, the active military forces of the United States, the army national guard of the United States, or the air national guard of the United States.

256.11A Teacher librarian — waiver.  
1. The board of directors of a school district may, not later than August 1, 2006, for the school year beginning July 1, 2006, file a written request to the department of education that the department waive the requirement adopted by the state board pursuant to section 256.11, subsection 9, that the school district have a qualified teacher librarian. The procedures specified in subsection 2 apply to the request. Not later than August 1, 2007, for the school year beginning July 1, 2007, the board of directors of a school district may request a one-year extension of the waiver.

2. A request for a waiver filed by the board of directors of a school district shall describe actions being taken by the district to meet the requirement for which the district has requested a waiver.

Courses made available to students in this manner shall be considered as compliance by the private schools in which the students are enrolled with any standards or laws requiring private schools to offer or teach the courses.

2. This section does not deprive the respective boards of public school districts of any of their legal powers, statutory or otherwise, and in accepting the specially enrolled students, each of the boards shall prescribe the terms of the special enrollment, including but not limited to scheduling of courses and the length of class periods. In addition, the board of the affected public school district shall be given notice by the department of its decision to permit the special enrollment not later than six months prior to the opening of the affected public school district’s school year, except that the board of the public school district may waive the notice requirement. School districts and area education agency boards shall make public school services, which shall include special education programs and services and may include health services, services for remedial education programs, guidance services, and school testing services, available to children attending nonpublic schools in the same manner and to the same extent that they are provided to public school students. Service activities shall be similar to those undertaken for public school students. Courses and grades made available to students in this manner shall be considered as complying with any standards or laws requiring the offering of such courses and grades. The boards of directors of districts entering into such agreements may provide for sharing the costs and expenses of the courses. ARTICLE II — PROCEDURE

The appropriate state library officials and agencies having comparable powers with those of the Iowa commission of libraries of the party states or any of their political subdivisions may, on behalf of said states or political subdivisions, enter into agreements for the cooperative or joint conduct of library services when they shall find that the execution of agreements to that end as provided herein will facilitate library services.

ARTICLE III — CONTENT

Any such agreement for the cooperative or joint establishment, operation or use of library services, facilities, personnel, materials or other items enumerated shall, as among the parties of the agreement:
1. Detail the specific nature of the services, facilities, properties or personnel to which it is applicable;

4. Stipulate the terms and conditions for duration, renewal, termination, abrogation, disposal of joint or common property, if any, and all other matters which may be appropriate to the proper effectuation and performance of said agreement.

ARTICLE IV — CONFLICT OF LAWS

Nothing in this compact or in any agreement entered into hereunder shall alter, or otherwise impair any obligation imposed on any public library by otherwise applicable laws, or be constituted to supersede.

ARTICLE V — ADMINISTRATOR

Each state shall designate a compact administrator with whom copies of all agreements to which the state or any subdivision thereof is party shall be filed. The administrator shall have such powers as may be conferred by the laws of the administrator's state and may consult and cooperate with the compact administrators of other party states and take such steps as may effectuate the purposes of this compact.

ARTICLE VI — EFFECTIVE DATE

This compact shall become operative when entered into by two or more entities having the powers enumerated herein.

ARTICLE VII — RENUNCIATION

This compact shall continue in force and remain binding upon each party state until six months after any such state has given notice of repeal by the legislature. Such withdrawal shall not be construed to relieve any party to an agreement authorized by articles II and III of the compact from the obligation of that agreement prior to the end of its stipulated period of duration.

ARTICLE VIII — SEVERABILITY — CONSTRUCTION

The provisions of this compact shall be severable. It is intended that the provisions of this compact be reasonably and liberally construed.

The administrator of the division of libraries and information services shall be the compact ad-

The council is not required to conduct independent research in developing the inventory, but shall determine information needs necessary to provide a more complete inventory.
4. However, requests for grants must contain a procedure for evaluating the effectiveness of the program and accounting procedures for monitoring the expenditure of grant moneys.

There is created within the department of education a division of special education for the promotion, direction, and supervision of education for children requiring special education in the schools under the supervision and control of the department. The director of the department of education may organize the division and employ the necessary qualified personnel to implement

256B.2 Definitions — policies — funds.

1. "Children requiring special education" means persons under twenty-one years of age, including children under five years of age, who have
a disability in obtaining an education because of a head injury, autism, behavioral disorder, or physical, mental, communication, or learning disability, as defined by the rules of the department of education.

2. “Special education” means classroom, home, hospital, institutional, or other instruction designed to meet the needs of children requiring special education as defined in subsection 1; transportation and corrective and supporting services required to assist children requiring special education, as defined in subsection 1, in taking advantage of, or responding to, educational programs and opportunities, as defined by rules of the state board of education.

3. It is the policy of this state to require school districts and state operated educational programs to provide or make provision, as an integral part of public education, for a free and appropriate public education sufficient to meet the needs of all children requiring special education. This chapter is not to be construed as encouraging separate facilities or segregated programs designed to meet the needs of children requiring special education when the children can benefit from all or part of the education program as offered by the local school district. To the maximum extent possible, children requiring special education shall attend regular classes and shall be educated with children who do not require special education. Whenever possible, hindrances to learning and to the normal functioning of children requiring special education within the regular school environment shall be overcome by the provision of special aids and services rather than by separate programs for those in need of special education. Special classes, separate schooling, or other removal of children requiring special education from the regular educational environment, shall occur only when, and to the extent that the nature or severity of the educational disability is such, that education in regular classes, even with the use of supplementary aids and services, cannot be accomplished satisfactorily. For those children who cannot adapt to the regular educational or home living conditions, and who are attending facilities under chapters 263, 269, and 270, upon the request of the board of directors of an area education agency, the department of human services shall provide residential or detention facilities and the area education agency shall provide special education programs and services. The area education agencies shall cooperate with the board of regents to provide the services required by this chapter.

Special aids and services shall be provided to children requiring special education who are less than five years of age if the aids and services will reasonably permit the child to enter the educational process or school environment when the child attains school age.

Every child requiring special education shall, if reasonably possible, receive a level of education commensurate with the level provided each child who does not require special education. The cost of providing such an education shall be paid as provided in section 273.9, this chapter, and chapter 257. It shall be the primary responsibility of each school district to provide special education to children who reside in that district if the children requiring special education are properly identified, the educational program or service has been approved, the teacher or instructor has been licensed, the number of children requiring special education needing that educational program or service is sufficient to make offering the program or service feasible, and the program or service cannot more economically and equably be obtained from the area education agency, another school district, another group of school districts, a qualified private agency, or in cooperation with one or more other districts.

4. Moneys received by the school district of the child's residence for the child's education, derived from moneys received through chapter 257, this chapter, and section 273.9 shall be paid by the school district of the child's residence to the appropriate education agency, private agency, or other school district providing special education for the child pursuant to contractual arrangements as provided in section 273.3, subsections 5 and 7.

The division of special education has the following duties and powers:

1. To aid in the organization of special schools, classes and instructional facilities for children requiring special education, and to supervise the system of special education for children requiring special education.

2. To administer rules adopted by the state board that are consistent with this chapter for the approval of plans for special education programs and services submitted by the director of special education of the area education agency.

3. To adopt plans for the establishment and maintenance of day classes, schools, home instruction, and other methods of special education for children requiring special education.

4. To purchase and otherwise acquire special equipment, appliances and other aids for use in special education, and to loan or lease same under such rules and regulations as the department may prescribe.

5. To prescribe courses of study, and curricula for special schools, special classes and special instruction of children requiring special education,
including physical and psychological examinations, and to prescribe minimum requirements for children requiring special education to be admitted to any such special schools, classes or instruction.

6. To provide for certification by the director of special education of the eligibility of children requiring special education for admission to, or discharge from, special schools, classes or instruction.

7. To initiate the establishment of classes for children requiring special education or home study services in hospitals, nursing, convalescent, juvenile and private homes, in co-operation with the management thereof and local school districts or area education agency boards.

8. To co-operate with school districts or area education agency boards in arranging for any child requiring special education to attend school in a district other than the one in which the child resides when there is no available special school, class, or instruction in the districts in which the child resides.

9. To co-operate with existing agencies such as the department of human services, the Iowa department of public health, the state school for the deaf, the Iowa braille and sight saving school, the state tuberculosis sanatorium, the children's hospitals, or other agencies concerned with the welfare and health of children requiring special education in the co-ordination of their educational activities for such children.

10. To investigate and study the needs, methods and costs of special education for children requiring special education.

11. To provide for the employment and establishment of standards for the performance of special education support personnel required to assist in the identification of educational programs for children requiring special education.

12. To provide for the establishment of special education research and demonstration projects and models for special education program development.

13. To establish a special education resource, materials and training system for the purposes of developing specialized instructional materials and provide in-service training to personnel employed to provide educational services to children requiring special education.

14. To approve the acquisition and use of special facilities designed for the purpose of providing educational services to children requiring special education.

15. To make rules to carry out the powers and duties provided for in this section.

256B.4 Powers of board of directors.

The board of directors of a school district or area education agency, with the approval of the director of the department of education, may provide special education programs and services as defined in this chapter. If services are provided by the area education agency the board of directors of the area education agency with the cooperation of the local school districts within its jurisdiction may:

1. Establish and operate special education programs and classes for the education of children requiring special education.

2. Acquire, maintain, and construct facilities in which to provide education, corrective services, and supportive services for children requiring special education.

3. Make arrangements with participating school districts for the provision of special education, corrective, and supportive services to the children requiring special education residing in the school districts.

4. Employ special education teachers and personnel required to furnish corrective or supportive services to children requiring special education services.

5. Provide transportation for children requiring special education services that are in need of transportation in connection with any programs, classes, or services.

6. Receive, administer, and expend funds appropriated for its use.

7. Receive, administer, and expend the proceeds of any issue of school bonds or other bonds intended wholly or partly for its benefit.

8. Apply for, accept, and utilize grants, gifts, or other assistance.

9. Participate in, and make its employees eligible to participate in, any retirement system, group insurance system, or other program of employee benefits, on the same terms as govern school districts and their employees.

10. Do such other things as are necessary and incidental to the execution of any of its powers.

The board of directors of the local district or the area education agency shall employ qualified teachers certified by the authority provided by law as teachers for children requiring such special education. The maximum number of pupils per teacher shall be determined by the board of directors of the local district or the area education agency board in accordance with the rules and regulations of the state board of education.

The board of directors of the local district or the area education agency may establish and operate one or more special education centers to provide diagnostic, therapeutic, corrective, and other services, on a more comprehensive, expert, economical, and efficient basis than can be reasonably provided by a single school district. The services, if offered by the area education agency board, may be provided in the regular schools using personnel
and equipment of the area education agency or, if it is impractical or inefficient to provide them on the premises of a regular school, the area education agency may provide services in its own facilities. To the maximum extent feasible, centers shall be established at and in conjunction with, or in close proximity to, one or more elementary and secondary schools. Local districts or the area education agencies may accept diagnostic and evaluation studies conducted by other individuals, hospitals, or centers, if determined to be competent. Children requiring special education services may be identified in any way that the department of education determines to be reliable. Centers established pursuant to this section may contain classrooms and other educational facilities and equipment to supplement instruction and other services to children with disabilities in the regular schools, and to provide separate instruction to children whose degree or type of educational disability makes it impractical or inappropriate for them to participate in classes with normal children.

256B.5 Information available upon request by bureau.

The Iowa department of public health shall furnish to the state bureau of special education upon request information obtained from birth certificates relative to the name, address, and disability of any case of developmental disability. The state child health specialty clinics of the university of Iowa shall upon request furnish to the state bureau of special education the name, address, and disability of all children of their register.

256B.6 Parent's or guardian's duties — review.

When the school district or area education agency has provided special education services and programs as provided herein for any child requiring special education, either by admission to a special class or by supportive services, it shall be the duty of the parent or guardian to enroll said child for instruction in such special classes or supportive services as may be established, except in the event a doctor's certificate is filed with the secretary of the school district showing that it is inadvisable for medical reasons for the child requiring special education to receive the special education provided; all the provisions and conditions of chapter 299 and amendments thereto shall be applicable to this section, and any violations shall be punishable as provided in said chapter.

A child, or the parent or guardian of the child, or the school district in which the child resides, may obtain a review of an action or omission of state or local authorities pursuant to the procedures established by the state board of education on the ground that the child has been or is about to be:

1. Denied entry or continuance in a program of special education appropriate to the child's condition and needs.
2. Placed in a special education program which is inappropriate to the child's condition and needs.
3. Denied educational services because no suitable program of education or related services is maintained.
4. Provided with special education which is insufficient in quantity to satisfy the requirements of law.
5. Assigned to a program of special education when the child does not have a disability.

Notwithstanding section 17A.11, the state board of education shall adopt rules for the appointment of an impartial administrative law judge for special education appeals. The rules shall comply with federal statutes and regulations.

256B.7 Examinations of children.

In order to render proper instruction to each child requiring special education, the school districts shall certify children requiring special education for special instruction in accordance with the requirements set up by the division of special education and shall provide examinations for children preliminary to making certification. The examinations necessary for the certification of children requiring special education shall be prescribed by the state division of special education.

Final decision in case of disagreement or appeal is the responsibility of the director of the department of education, who may secure the advice of competent medical and educational authorities including the Iowa department of public health, the university hospitals, the department of human services, the superintendent of the state school for the deaf, and the superintendent of the Iowa braille and sight saving school.

256B.8 Exceptions.

It is not incumbent upon the school districts to keep a child requiring special education in regular
instruction when the child cannot sufficiently profit from the work of the regular classroom, nor to keep a child requiring special education in the special class or instruction for children requiring special education when it is determined by the diagnostic educational team that the child can no longer benefit from the instruction or needs more specialized instruction available in special schools. However, the school district shall count the child requiring special education in the enrollment as provided in sections 256B.9, 257.6, and 273.9 and shall ensure that appropriate educational provisions are made for the child requiring special education.

An area education agency director of special education may request approval from the department of education to continue the special education program of a person beyond the person’s twenty-first birthday if the person had an accident or prolonged illness that resulted in delays in the initiation of or interruptions in that person’s special education program. Approval may be granted by the department to continue the special education program of that person for up to three years or until the person’s twenty-fourth birthday.

No provision of this chapter shall be construed to require or compel any person who is a member of a well-recognized church or religious denomination and whose religious convictions, in accordance with the tenets or principles of the person’s church or religious denomination, are opposed to medical or surgical treatment for disease to take or follow a course of physical therapy, or submit to medical treatment, nor shall any parent or guardian who is a member of such church or religious denomination and who has such religious convictions be required to enroll a child in any course or instruction which utilizes medical or surgical treatment for disease.

256B.9 Weighting plan — audits — evaluations — expenditures.

1. In order to provide funds for the excess costs of instruction of children requiring special education, above the costs of instruction of pupils in a regular curriculum, a special education weighting plan for determining enrollment in each school district is adopted as follows:
   a. Pupils in a regular curriculum are assigned a weighting of one.
   b. Children requiring special education who require special adaptations while assigned to a regular classroom for basic instructional purposes and pupils with disabilities placed in a special education class who receive part of their instruction in regular classrooms are assigned a weighting of one and eight-tenths for the school year commencing July 1, 1975.
   c. Children requiring special education who require full-time, self-contained special education placement with little integration into a regular classroom are assigned a weighting of two and two-tenths for the school year commencing July 1, 1975.

Effective July 1, 1991, this paragraph also applies to children requiring special education who require specially designed instruction while assigned to a regular classroom for basic instructional purposes.

c. Children requiring special education who have severe disabilities or who have multiple disabilities are assigned a weighting of four and four-tenths for the school year commencing July 1, 1975.

Effective July 1, 1991, this paragraph also applies to children requiring special education who have severe and profound disabilities.

d. Children requiring special education who have severe disabilities or who have multiple disabilities are assigned a weighting of four and four-tenths for the school year commencing July 1, 1975.

e. Shared-time and part-time pupils of school age who require special education shall be placed in the proper category and counted in the proportion that the time for which they are enrolled or receive instruction for the school year bears to the time that full-time pupils, carrying a normal course schedule, in the same school district, for the same school year are enrolled and receive instruction.

2. The weighting for each category of child multiplied by the number of children in each category in the enrollment of a school district, as identified and certified by the director of special education for the area, determines the weighted enrollment to be used in that district for purposes of computations required under the state school foundation plan in chapter 257.

3. The weight that a child is assigned under this section shall be dependent upon the required educational modifications necessary to meet the special education needs of the child. Enrollment for the purpose of this section, and all payments to be made pursuant thereto, includes all children for whom a special education program or course is to be provided pursuant to section 256.12, subsection 2, sections 273.1 to 273.9, and this chapter, whether or not the children are actually enrolled upon the records of a school district.

4. On December 1, 1987, and no later than December 1 every two years thereafter, for the school year commencing the following July 1, the director of the department of education shall report to the school budget review committee the average costs of providing instruction for children requiring special education in the categories of the weighting plan established under this section, and for pro-
portation equipment pursuant to this section. The state board of education shall adopt rules under chapter 17A for the purchase of transportation equipment to meet the special needs of children requiring special education with the approval of the director of the department of education. The state board of education shall adopt rules under chapter 17A for the purchase of transportation equipment pursuant to this section.

8. Commencing with the school year beginning July 1, 1976, a school district may expend an amount not to exceed two-sevenths of an amount equal to the district cost of a school district for the costs of regular classroom instruction of a child certified under the special education weighting plan in subsection 1, paragraph "b", as a pupil with disabilities who is enrolled in a special class, but who receives part of the pupil's instruction in a regular classroom. Unencumbered funds generated for special education instructional programs for the school year beginning July 1, 1975, and for the school year beginning July 1, 1976, shall not be expended for such purpose.

9. Funds generated for special education instructional programs under this chapter and chapter 257 shall not be expended for modifications of school buildings to make them accessible to children requiring special education.

256B.15 Reimbursement for special education services.
1. The state board of education in conjunction with the department of education shall develop a program to utilize federally funded health care programs, except the federal medically needy program for individuals who have a spend-down, to
share in the costs of services which are provided to children requiring special education.

2. The department of education shall designate an area education agency to develop a system for collecting the information necessary to implement procedures for billing and collecting the costs of the services. The area education agency shall begin to develop the system immediately. The area education agency shall consult with and work jointly with state agencies and federal agencies to determine procedures and standards which shall be initiated by all area education agencies to qualify for receipt of benefits under federal programs.

3. The department of education, in conjunction with the area education agency, shall determine those specific services which are covered by federally funded health care programs, which shall include, but not be limited to, physical therapy, audiology, speech language therapy, and psychological evaluations. The department shall also determine which other special services may be subject to reimbursement and the qualifications necessary for personnel providing those services. If it is determined that services are required from other service providers, these providers shall be reimbursed for those services.

4. All services referred to in subsection 1 shall be initially funded by the area education agency and shall be provided regardless of subsequent subrogation collections. The area education agency shall make a claim for reimbursement to federally funded health care programs.

5. Not later than July 1, 1988, the area education agency designated by the department of education shall have developed the program for collecting for the services provided. The program shall be distributed to all of the area education agencies in the state. All area education agencies shall begin collecting the information on July 1, 1988.

6. Effective November 1, 1988, all area education agencies in the state shall participate in the program and begin billing for and collecting for the covered services and shall bill for services provided retroactive to July 1, 1988. Retroactive Title XIX billing is contingent upon state plan approval. Nothing contained in this section shall be construed to allow nonlicensed individuals to perform services which otherwise require licenses under the laws of this state or to allow licensed providers to perform services outside their scope of practice.

7. a. The treasurer of the state shall credit receipts received under this section to the department of human services to pay contractual fees incurred by the department to maximize federal funding for special education services. All remaining receipts in excess of the amount necessary to pay contractual fees shall be credited to the department of human services medical assistance account.

b. The area education agencies shall, after determining the administrative costs associated with the implementation of medical assistance reimbursement for the eligible services, be permitted to retain up to twenty-five percent of the federal portion of the total amount reimbursed to pay for the administrative costs. This limitation does not apply to medical assistance reimbursement for services provided by an area education agency under part C of the federal Individuals With Disabilities Education Act. Funds received under this section shall not be considered or included as part of the area education agencies' budgets when calculating funds that are to be received by area education agencies during a fiscal year.

8. Students or their parents or guardians covered by a federal health care program shall provide health care information to an area education agency or local school district.

9. The department of education and the department of human services shall adopt rules to implement this section.

10. The department of human services shall offer assistance to the area education agencies in the identification of children eligible for reimbursement for services under this section.
CHAPTER 256D
IOWA EARLY INTERVENTION BLOCK GRANT PROGRAM

256D.1 Iowa early intervention block grant program established — goals.
1. An Iowa early intervention block grant program is established within the department of education. The program’s goals for kindergarten through grade three are to provide the resources needed to reduce class sizes in basic skills instruction to the state goal of seventeen students for every one teacher; provide direction and resources for early intervention efforts by school districts to achieve a higher level of student success in the basic skills, especially reading skills; and increase communication and accountability regarding student performance. The department of education shall identify diagnostic assessment tools that can be used to assist teachers in measuring reading accuracy and fluency skills, including but not limited to phonemic awareness, oral reading ability, and comprehension skills, to improve student achievement in kindergarten through grade three. The department, in collaboration with the area education agencies, school districts, and institutions with approved practitioner preparation programs, shall identify and serve as a clearinghouse on intensive, research-based strategies and programs for training teachers in both diagnosis and appropriate instruction interventions.

2. A school district shall integrate its specific early intervention block grant program goals and activities into the comprehensive school improvement plan required under section 256.7, subsection 21, paragraph “a”.

a. Fifty percent of the allocation shall be based upon the proportion that the kindergarten through grade three enrollment of a district bears to the sum of the kindergarten through grade three enrollments of all school districts in the state as reported for the base year.

b. Fifty percent of the allocation shall be based upon the proportion that the number of children who are eligible for free or reduced price meals under the federal National School Lunch Act and the federal Child Nutrition Act of 1966, 42 U.S.C. § 1751-1785, in grades one through three of a school district bears to the sum of the number of children who are eligible for free or reduced price meals under the federal National School Lunch Act and the federal Child Nutrition Act of 1966, 42 U.S.C. § 1751-1785, in grades one through three in all school districts in the state for the base year.

3. For each year in which an appropriation is made to the Iowa early intervention block grant program, the department of education shall notify the department of administrative services of the amount of the allocation to be paid to each school district as provided in subsections 1 and 2. The allocation to each school district shall be made in one payment on or about October 15 of the fiscal year for which the appropriation is made, taking into consideration the relative budget and cash position of the state resources. Moneys received under this section shall not be commingled with state aid payments made under section 257.16 to a school district and shall be accounted for by the local school district separately from state aid payments. Payments made to school districts under this section are miscellaneous income for purposes of chapter 257. A school district shall maintain a separate listing within its budget for payments received and expenditures made pursuant to this section. A school district shall certify to the department of education that moneys received under this section were used to supplement, not supplant, moneys otherwise received and used by the school district.

257.1 State school foundation program — state aid.

1. Program established. A state school foundation program is established for the school year commencing July 1, 1991, and succeeding school years.

2. State school foundation aid — foundation base. For a budget year, each school district in the state is entitled to receive foundation aid, in an amount per pupil equal to the difference between the amount per pupil of foundation property tax in the district, and the combined foundation base per pupil or the combined district cost per pupil, whichever is less. However, if the amount of foundation aid received by a school district under this chapter is less than three hundred dollars per pupil, the district is entitled to receive three hundred dollars per pupil unless the receipt of three hundred dollars per pupil plus the per pupil amount raised by the foundation property tax exceeds the combined district cost per pupil of the district for the budget year. In that case, the district is entitled to receive an amount per pupil equal to the difference between the per pupil amount raised by the foundation property tax for the budget year and the combined district cost per pupil for the budget year.

For the budget year commencing July 1, 1999, and for each succeeding budget year the regular program foundation base per pupil is eighty-seven and five-tenths percent of the regular program state cost per pupil. For the budget year commencing July 1, 1991, and for each succeeding budget year the special education support services foundation base is seventy-nine percent of the special education support services state cost per pupil.

The combined foundation base is the sum of the regular program foundation base and the special education support services foundation base.

For the budget year commencing July 1, 1999, the department of management shall add the amount of the additional budget adjustment computed in section 257.14, subsection 1, to the combined foundation base.

3. Computations rounded. In making computations and payments under this chapter, except in the case of computations relating to funding of special education support services, media services, and educational services provided through the area education agencies, the department of management shall round amounts to the nearest whole dollar.

4. Legislative review. The provisions of this chapter shall be subject to legislative review at least every five years. The review shall be based upon a school finance formula status report containing the recommendations of a legislative interim committee appointed to conduct a review of the school finance formula, to be prepared with the assistance of the department of education, in association with the departments of management and revenue. The report shall include recommendations for school finance formula changes or revisions based upon demographic changes, enrollment trends, and property tax valuation fluctuations observed during the preceding five-year interval; an analysis of the operation of the school finance formula during the preceding five-year interval; and a summary of issues that have arisen since the previous review and potential approaches for their resolution. The first such report shall be submitted to the general assembly no lat-
er than January 1, 2005, with subsequent reports developed and submitted by January 1 at least every fifth year thereafter.

257.3 Foundation property tax.

1. Amount of tax. Except as provided in subsections 2 and 3, a school district shall cause to be levied each year, for the school general fund, a foundation property tax equal to five dollars and forty cents per thousand dollars of assessed valuation on all taxable property in the district. The county auditor shall spread the foundation levy over all taxable property in the district.

The amount paid to each school district for the tax replacement claim for industrial machinery, equipment and computers under section 427B.19A shall be regarded as property tax. The portion of the payment which is foundation property tax shall be determined by applying the foundation property tax rate to the amount computed under section 427B.19, subsection 3, paragraph “a”, as adjusted by paragraph “d”, if any adjustment was made.

Replacement taxes under chapter 437A shall be regarded as property taxes for purposes of this chapter.

2. Tax for reorganized and dissolved districts.
   a. Notwithstanding subsection 1, a reorganized school district shall cause a foundation property tax of four dollars and forty cents per thousand dollars of assessed valuation to be levied on all taxable property which, in the year preceding a reorganization, was within a school district affected by the reorganization as defined in section 275.1, or in the year preceding a dissolution was a part of a school district that dissolved if the dissolution proposal has been approved by the director of the department of education pursuant to section 275.55.
   b. In succeeding school years, the foundation property tax levy on that portion shall be increased to the rate of four dollars and ninety cents per thousand dollars of assessed valuation the first succeeding year, five dollars and fifteen cents per thousand dollars of assessed valuation the second succeeding year, and five dollars and forty cents per thousand dollars of assessed valuation the third succeeding year and each year thereafter.
   c. The foundation property tax levy reduction pursuant to this subsection shall be available if either of the following apply:
      (1) In the year preceding the reorganization or dissolution, the school district affected by the reorganization or the school district that dissolved had a certified enrollment of fewer than six hundred pupils.
      (2) In the year preceding the reorganization or dissolution, the school district affected by the reorganization or the school district that dissolved had a certified enrollment of six hundred pupils or greater, and entered into a reorganization or dissolution with one or more school districts with a certified enrollment of fewer than six hundred pupils. The amount of foundation property tax reduction received by a school district qualifying for
the reduction pursuant to this subparagraph shall not exceed the highest reduction amount provided in paragraphs "a" and "b" received by any of the school districts with a certified enrollment of fewer than six hundred pupils involved in the reorganization pursuant to subparagraph (1) of this paragraph "c".

d. For purposes of this section, a reorganized school district is one which absorbs at least thirty percent of the enrollment of the school district affected by a reorganization or dissolved during a dissolution and in which action to bring about a reorganization or dissolution is initiated by a vote of the board of directors or jointly by the affected boards of directors to take effect on or after July 1, 2002, and on or before July 1, 2006. Each district which initiated, by a vote of the board of directors or jointly by the affected boards, action to bring about a reorganization or dissolution to take effect on or after July 1, 2002, and on or before July 1, 2006, shall certify the date and the nature of the action taken to the department of education by January 1 of the year in which the reorganization or dissolution takes effect.

3. Railway corporations. For purposes of section 257.1, the "amount per pupil of foundation property tax" does not include the tax levied under subsection 1 or 2 on the property of a railway corporation, or on its trustee if the corporation has been declared bankrupt or is in bankruptcy proceedings.

257.4 Additional property tax.

1. Computation of tax.

a. A school district shall cause an additional property tax to be levied each year. The rate of the additional property tax levy in a school district shall be determined by the department of management and shall be calculated to raise the difference between the combined district cost for the budget year and the sum of the products of the regular program foundation base per pupil times the weighted enrollment in the district and the special education support services foundation base per pupil times the special education support services weighted enrollment in the district.

b. For the budget year beginning July 1, 2006, and succeeding budget years, the department of management shall determine an adjusted additional property tax levy and a statewide maximum adjusted additional property tax levy rate. For purposes of this paragraph, the adjusted additional property tax levy shall be that portion of the additional property tax levy corresponding to the state cost per pupil multiplied by a school district's weighted enrollment, and then multiplied by one hundred percent less the regular program foundation base per pupil percentage pursuant to section 257.1. The district shall receive adjusted additional property tax levy aid in an amount equal to the difference between the adjusted additional property tax levy rate and the statewide maximum adjusted additional property tax levy rate, as applied per thousand dollars of assessed valuation on all taxable property in the district. The statewide maximum adjusted additional property tax levy rate shall be annually determined by the department taking into account amounts allocated pursuant to section 257.15, subsection 4.

2. Supplemental aid. However, if the rate of the additional property tax levy determined under subsection 1 with the application of section 257.15 for a budget year for a reorganized school district is higher than the rate of additional property tax levy determined under subsection 1 with the application of section 257.15 for the year previous to the reorganization for a school district that had a certified enrollment of less than six hundred and that was within the school districts affected by the reorganization as defined in section 275.1, the department of management shall reduce the rate of the additional property tax levy in the portion of the reorganized district where the new rate is higher, to the rate that was levied in that portion of the district during the year preceding the reorganization, for a five-year period. The department of management shall include in the state aid payments made to each reorganized school district under section 257.16 during each of the first five years of existence of the reorganized district as supplemental aid, moneys equal to the reduction in property tax revenues made under this subsection. For the budget year beginning July 1, 1991, the base year calculation shall be made using chapter 442, Code 1991.

For purposes of this section, a reorganized school district is one in which action to bring about a reorganization was initiated by a vote of the board of directors or jointly by the affected boards of directors prior to November 30, 1990, and the reorganization will take effect on or after July 1, 1991, and on or before July 1, 1993. Each district which initiated, by a vote of the board of directors or jointly by the affected boards, action to bring about a reorganization or dissolution by November 30, 1990, shall certify the date and the nature of the action taken to the department of education by September 1, 1991.

3. Application of tax. No later than June 15 of each year, the department of management shall notify the county auditor of each county the amount, in dollars and cents per thousand dollars of assessed value, of the additional property tax levy in each school district in the county. A county auditor shall spread the additional property tax levy for each school district in the county over all taxable property in the district.
257.5 Continuation of supplemental aid.
A reorganized school district, as defined in section 257.4, subsection 2, receiving supplemental aid prior to July 1, 1991, under section 442.9A, Code 1991, shall continue to receive supplemental aid as provided in that section for the five-year period specified in that section.

There is appropriated from the general fund of the state to the department of management for each fiscal year an amount sufficient to pay the supplemental aid to school districts under this section. Supplemental aid shall be paid in the manner provided in section 257.16.

For the purpose of the department of management's determination of the portion of a school district's budget that was property tax and the portion that was state aid under section 257.36, supplemental aid shall be considered property tax.

89 Acts, ch 135, §5; 91 Acts, ch 178, §3

257.6 Enrollment.
1. Actual enrollment. Actual enrollment is determined annually on October 1, or the first Monday in October if October 1 falls on a Saturday or Sunday, and includes all of the following:
   a. Resident pupils who were enrolled in public schools within the district in grades kindergarten through twelve and including prekindergarten pupils enrolled in special education programs.
   b. Full-time equivalent resident pupils of high school age for which the district pays tuition to attend an Iowa community college.
   c. Shared-time and part-time pupils of school age enrolled in public schools within the district, irrespective of the districts in which the pupils reside, in the proportion that the time for which they are enrolled or receive instruction for the school year is to the time that full-time pupils carrying a normal course schedule, at the same grade level, in the same school district, for the same school year, are enrolled and receive instruction. Tuition charges to the parent or guardian of a shared-time or part-time nonresident pupil shall be reduced by the amount of any increased state aid received by the district by the counting of the pupil.
   d. Eleventh and twelfth grade nonresident pupils who were residents of the district during the preceding school year and are enrolled in the district until the pupils graduate. Tuition for those pupils shall not be charged by the district in which the pupils are enrolled and the requirements of section 282.18 do not apply.
   e. Resident pupils receiving competent private instruction from a licensed practitioner provided through a public school district pursuant to chapter 299A shall be counted as six-tenths of one pupil.
   f. Resident pupils receiving competent private instruction under dual enrollment pursuant to chapter 299A shall be counted as one-tenth of one pupil.

   Pupils attending a university laboratory school are not counted in the actual enrollment of a school district, but the laboratory school shall report their enrollment directly to the department of education.

   A school district shall certify its actual enrollment to the department of education by October 15 of each year, and the department shall promptly forward the information to the department of management.

   The department of management shall adjust the enrollment of the school district for the audit year based upon reports filed under section 11.6, and shall further adjust the budget of the second year succeeding the audit year for the property tax and state aid portions of the reported differences in enrollments for the year succeeding the audit year.

2. Basic enrollment. Basic enrollment for a budget year is a district's actual enrollment for the base year. Basic enrollment for the base year is a district's actual enrollment for the year preceding the base year.

3. Additional enrollment because of special education. A school district shall determine its additional enrollment because of special education, as defined in this section, by November 1 of each year and shall certify its additional enrollment because of special education to the department of education by November 15 of each year, and the department shall promptly forward the information to the department of management.

   For the purposes of this chapter, “additional enrollment because of special education” is determined by multiplying the weighting of each category of child under section 256B.9 times the number of children in each category totaled for all categories minus the total number of children in all categories.

4. Budget enrollment. Budget enrollment for the budget year is the basic enrollment for the budget year.

5. Weighted enrollment. Weighted enrollment is the budget enrollment plus the district's additional enrollment because of special education calculated by November 1 of the base year plus additional pupils added due to the application of the supplementary weighting.

   Weighted enrollment for special education support services costs is equal to the weighted enrollment minus the additional pupils added due to the application of the supplementary weighting.

6. Students excluded. For the school year beginning July 1, 2001, and each succeeding school year, a student shall not be included in a district's enrollment for purposes of this chapter or considered an eligible pupil under chapter 261C if the student meets all of the following:
§257.6, FINANCING SCHOOL PROGRAMS

2660

a. Was eligible to receive a diploma with the class in which they were enrolled and that class graduated in the previous school year.

b. Continues enrollment in the district to take courses either provided by the district, offered by community colleges under the provisions of section 257.11, or to take courses under the provisions of chapter 261C.

Subsection 1, unnumbered paragraphs 1 and 3 amended

257.7 Authorized expenditures.

1. Budgets. School districts are subject to chapter 24. The authorized expenditures of a school district during a base year shall not exceed the lesser of the budget for that year certified under section 24.17 plus any allowable amendments permitted in this section, or the authorized budget, which is the sum of the combined district cost for that year, the actual miscellaneous income received for that year, and the actual unspent balance from the preceding year.

2. Budget amendments. If actual miscellaneous income for a budget year exceeds the anticipated miscellaneous income in the certified budget for that year, or if an unspent balance has not been previously certified, a school district may amend its certified budget.

89 Acts, ch 135, §7; 90 Acts, ch 1190, §2

257.8 State percent of growth — allowable growth.

1. State percent of growth. The state percent of growth for the budget year beginning July 1, 2006, is four percent. The state percent of growth for the budget year beginning July 1, 2007, is four percent. The state percent of growth for each subsequent budget year shall be established by statute which shall be enacted within thirty days of the submission in the year preceding the base year of the governor’s budget under section 8.21. The establishment of the state percent of growth for a budget year shall be the only subject matter of the bill which enacts the state percent of growth for a budget year.

2. Allowable growth calculation. The department of management shall calculate the regular program allowable growth for a budget year by multiplying the state percent of growth for the budget year by the regular program state cost per pupil for the base year and shall calculate the special education support services allowable growth for the budget year by multiplying the state percent of growth for the budget year by the special education support services state cost per pupil for the base year.

3. Alternate allowable growth — gifted and talented programs. Notwithstanding the calculation in subsection 2, the department of management shall calculate the regular program allowable growth for the budget year beginning July 1, 1999, by multiplying the state percent of growth for the budget year by the regular program state cost per pupil for the base year, and add to the resulting product thirty-eight dollars. For purposes of determining the amount of a budget adjustment as defined in section 257.14, for a school district which calculated allowable growth for the budget year beginning July 1, 1999, pursuant to this subsection, thirty-eight dollars shall be subtracted from the school district’s regular program cost per pupil for the budget year beginning July 1, 1999, prior to determining the amount of the adjustment.

4. Alternate allowable growth — regular program state cost. A school district which calculated allowable growth for the budget year beginning July 1, 1999, pursuant to the provisions of subsection 3, shall calculate allowable growth pursuant to the provisions of subsection 2 for the school budget year beginning July 1, 2000, and succeeding budget years, utilizing a regular program state cost per pupil figure which incorporates the thirty-eight dollar increase in regular program allowable growth calculated for the budget year beginning July 1, 1999.

5. Combined allowable growth. The combined allowable growth per pupil for each school district is the sum of the regular program allowable growth per pupil and the special education support services allowable growth per pupil for the budget year, which may be modified as follows:

a. By the school budget review committee under section 257.31.

b. By the department of management under section 257.36.

6. Alternate allowable growth — definitions. For budget years beginning July 1, 2000, and subsequent budget years, references to the terms “allowable growth”, “regular program state cost per pupil”, and “regular program district cost per pupil” shall mean those terms as calculated for those school districts that calculated regular program allowable growth for the school budget year beginning July 1, 1999, with the additional thirty-eight dollars.

Subsection 1 amended
257.9 State cost per pupil.

1. Regular program state cost per pupil for 1991-1992. For the budget year beginning July 1, 1991, for the regular program state cost per pupil, the department of management shall add together the sum of the products of each district's regular program district cost per pupil for the base year, as regular program district cost per pupil would have been calculated under section 442.9, Code 1989, multiplied by its budget enrollment as budget enrollment would have been calculated under section 442.4, Code 1989, for the base year, plus the sum of the amounts added to the district cost of school districts pursuant to section 442.21, Code 1989.

   The total calculated under this subsection shall be divided by the total of the budget enrollments of all school districts for the budget year beginning July 1, 1990, calculated under section 257.6, subsection 4, if section 257.6, subsection 4, had been in effect for that budget year. The regular program state cost per pupil for the budget year beginning July 1, 1991, is the amount calculated by the department of management under this subsection plus an allowable growth amount that is equal to the state percent of growth for the budget year multiplied by the amount calculated by the department of management under this subsection.

2. Regular program state cost per pupil for 1992-1993 and succeeding years. For the budget year beginning July 1, 1992, and succeeding budget years, the regular program state cost per pupil for a budget year is the regular program state cost per pupil for the base year plus the regular program allowable growth for the budget year.

257.10 District cost per pupil — district cost.

1. Regular program district cost per pupil for 1991-1992. For the budget year beginning July 1, 1991, in order to determine the regular program district cost per pupil for a district, the department of management shall divide the product of the regular program district cost per pupil of the district for the base year, as regular program district cost per pupil would have been calculated under section 442.9, Code 1989, multiplied by its budget enrollment for the base year as budget enrollment would have been calculated under section 442.4, Code 1989, for the base year, plus the amount added to district cost pursuant to section 442.21, Code 1989, for each school district, by the budget enrollment of the school district for the budget year beginning July 1, 1990, calculated under section 257.6, subsection 4, as if section 257.6, subsection 4, had been in effect for that budget year. The regular program district cost per pupil for the budget year beginning July 1, 1991, is the amount calculated by the department of management under this subsection plus the allowable growth amount calculated for regular program state cost per pupil, except that if the regular program district cost per pupil for the budget year calculated under this subsection in any school district exceeds one hundred ten percent of the regular program state cost per pupil for the budget year, the department of management shall reduce the regular program district cost per pupil of that district for the budget year to an amount equal to one hundred ten percent of the regular program state cost per pupil for the budget year, and if the regular program district cost per pupil for the budget year calculated under this subsection in any school district is less than the regular program state cost per pupil for the budget year, the department of management shall increase the regular program district cost per pupil of that district to an amount equal to the regular program state cost per pupil for the budget year.

2. Regular program district cost per pupil for 1992-1993 and succeeding years.

   a. For the budget year beginning July 1, 1992, and succeeding budget years, the regular program district cost per pupil for each school district for a budget year is the regular program district cost per pupil for the base year plus the regular program allowable growth for the budget year except as otherwise provided in this subsection.

   b. If the regular program district cost per pupil of a school district for the budget year under paragraph “a” exceeds one hundred five percent of the regular program state cost per pupil for the budget year and the state percent of growth for the budget...
year is greater than two percent, the regular program district cost per pupil for the budget year for that district shall be reduced to one hundred five percent of the regular program state cost per pupil for the budget year. However, if the difference between the regular program district cost per pupil for the budget year and the regular program state cost per pupil for the budget year is greater than an amount equal to two percent multiplied by the regular program state cost per pupil for the base year, the regular program district cost per pupil for the budget year shall be reduced by the amount equal to two percent multiplied by the regular program state cost per pupil for the base year.

3. Special education support services district cost per pupil for 1991-1992. For the budget year beginning July 1, 1991, for the special education support services district cost per pupil, the department of management shall divide the approved budget of each area education agency for special education support services for that year approved by the state board of education, under section 273.3, subsection 12, by the total of the weighted enrollment for special education support services in the area for that budget year.

The special education support services district cost per pupil for each school district in an area for the budget year is the amount calculated by the department of management under this subsection.

4. Special education support services district cost per pupil for 1992-1993 and succeeding years. For the budget year beginning July 1, 1992, and succeeding budget years, the special education support services district cost per pupil for the budget year is the special education support services district cost per pupil for the base year plus the special education support services allowable growth for the budget year.

Notwithstanding the special education support services district cost per pupil for the budget year beginning July 1, 1991, calculated under subsection 3, for area education agencies that have fewer than three and five-tenths public school pupils per square mile, the special education support services district cost per pupil for the budget year beginning July 1, 1991, is one hundred forty-seven dollars.

5. Combined district cost per pupil. The combined district cost per pupil for a school district is the sum of the regular program district cost per pupil and the special education support services district cost per pupil. Combined district cost per pupil does not include modified allowable growth added for school districts that have a negative balance of funds raised for special education instruction programs, modified allowable growth granted by the school budget review committee for a single school year, or modified allowable growth added for programs for dropout prevention.

6. Regular program district cost. Regular program district cost for a school district for a budget year is equal to the regular program district cost per pupil for the budget year multiplied by the budget enrollment for the budget year.

7. Special education support services district cost. Special education support services district cost for a school district for a budget year is equal to the special education support services district cost per pupil for the budget year multiplied by the special education support services weighted enrollment for the district for the budget year. If the special education support services district cost for a school district for a budget year is less than the special education support services district cost for that district for the base year, the department of management shall adjust the special education support services district cost for that district for the budget year to equal the special education support services district cost for the base year.

8. Combined district cost. Combined district cost is the sum of the regular program district cost per pupil multiplied by the weighted enrollment and the special education support services district cost, plus the additional district cost allocated to the district to fund media services and educational services provided through the area education agency.

A school district may increase its combined district cost for the budget year to the extent that an excess tax levy is authorized by the school budget review committee.

Exclusion of technology expenditures for accredited nonpublic schools from computation of district cost; 2001 Acts, ch 189, §14
Subsection 5 amended

257.11 Supplementary weighting plan.

1. Regular curriculum. Pupils in a regular curriculum attending all their classes in the district in which they reside, taught by teachers employed by that district, and having administrators employed by that district, are assigned a weighting of one.

2. District-to-district sharing.

a. In order to provide additional funds for school districts which send their resident pupils to another school district, which jointly employ and share the services of teachers under section 280.15, or which use the services of a teacher employed by another school district, a supplementary weighting plan for determining enrollment is adopted.

b. If the school budget review committee certifies to the department of management that the shared classes or teachers would otherwise not be implemented without the assignment of additional weighting, pupils attending classes in another school district, attending classes taught by a teacher who is employed jointly under section 280.15, or attending classes taught by a teacher
who is employed by another school district are assigned a weighting of forty-eight hundredths of the percentage of the pupil's school day during which the pupil attends classes in another district, attends classes taught by a teacher who is jointly employed under section 280.15, or attends classes taught by a teacher who is employed by another school district.

c. Pupils attending class for all or a substantial portion of a school day pursuant to a whole grade sharing agreement executed under sections 282.10 through 282.12 shall be eligible for supplementary weighting pursuant to this subsection as follows:

(1) A school district which was participating in a whole grade sharing arrangement during the budget year beginning July 1, 2001, and which adopts a resolution jointly with the other affected boards to study the question of undergoing a reorganization or dissolution to take effect on or before July 1, 2006, shall receive a weighting of one-tenth of the percentage of the pupil's school day during which the pupil attends classes in another district, attends classes taught by a teacher who is jointly employed under section 280.15, or attends classes taught by a teacher who is employed by another school district. A district shall be eligible for supplementary weighting pursuant to this subparagraph for a maximum of two years. Receipt of supplementary weighting for a second year shall be conditioned upon submission of information resulting from the study to the school budget review committee indicating progress toward the objective of reorganization on or before July 1, 2006.

(2) A school district which was not participating in a whole grade sharing arrangement during the budget year beginning July 1, 2000, which executes a whole grade sharing agreement pursuant to sections 282.10 through 282.12 for the budget year beginning July 1, 2002, July 1, 2003, July 1, 2004, or July 1, 2005, and which adopts a resolution jointly with the other affected boards to study the question of undergoing a reorganization or dissolution to take effect on or before July 1, 2006, shall receive a weighting of one-tenth of the percentage of the pupil's school day during which the pupil attends classes in another district, attends classes taught by a teacher who is jointly employed under section 280.15, or attends classes taught by a teacher who is employed by another school district. A district shall be eligible for supplementary weighting pursuant to this subparagraph for a maximum of three years. Receipt of supplementary weighting for a second and third year shall be conditioned upon submission of information resulting from the study to the school budget review committee indicating progress toward the objective of reorganization on or before July 1, 2006.

3. District-to-community college sharing.

a. In order to provide additional funds for school districts which send their resident pupils to a community college for classes, a supplementary weighting plan for determining enrollment is adopted.

b. If the school budget review committee certifies to the department of management that the class would not otherwise be implemented without the assignment of additional weighting, pupils attending a community college-offered class or attending a class taught by a community college-employed instructor are assigned a weighting of forty-eight hundredths of the percentage of the pupil's school day during which the pupil attends class in the community college or attends a class taught by a community college-employed instructor. The following requirements shall be met for the purposes of assigning an additional weighting for classes offered through a sharing agreement between a school district and community college.

The class must be:

(1) Supplementing, not supplanting, high school courses.

(2) Included in the community college catalog or an amendment or addendum to the catalog.

(3) Open to all registered community college students, not just high school students.

(4) Taught by a community college-employed instructor.

(5) Taught utilizing the community college course syllabus.

(6) Of the same quality as a course offered on a community college campus.

4. At-risk programs and alternative schools.

a. In order to provide additional funding to school districts for programs serving at-risk pupils and alternative school pupils in secondary schools, a supplementary weighting plan for at-risk pupils is adopted. A supplementary weighting of forty-eight ten-thousandths per pupil shall be assigned to the percentage of pupils in a school district enrolled in grades one through six, as reported by the school district on the basic educational data survey for the base year, who are eligible for free and reduced price meals under the federal National School Lunch Act and the federal Child Nutrition Act of 1966, 42 U.S.C. § 1751-1785, multiplied by the budget enrollment in the school district; and a supplementary weighting of one hundred fifty-six thousandths per pupil shall be assigned to pupils included in the budget enrollment of the school district. Amounts received as supplementary weighting for at-risk pupils shall be utilized by a school district to develop or maintain at-risk pupils' programs, which may include alternative school programs.

b. Notwithstanding paragraph “a”, a school district which received supplementary weighting for an alternative high school program for the
school budget year beginning July 1, 1999, shall receive an amount of supplementary weighting for the next three school budget years as follows:

1. For the budget year beginning July 1, 2000, the greater of the amount of supplementary weighting determined pursuant to paragraph "a", or sixty-five percent of the amount received for the budget year beginning July 1, 1999.

2. For the budget year beginning July 1, 2001, the greater of the amount of supplementary weighting determined pursuant to paragraph "a", or forty percent of the amount received for the budget year beginning July 1, 1999.

3. For the budget year beginning July 1, 2002, and succeeding budget years, the amount of supplementary weighting determined pursuant to paragraph "a".

If a school district receives an amount pursuant to this paragraph "b" which exceeds the amount the district would otherwise have received pursuant to paragraph "a", the department of management shall annually determine the amount of the excess that would have been state aid and the amount that would have been property tax if the school district had generated that amount pursuant to paragraph "a", and shall include the amounts in the state aid payments and property tax levies of school districts. The department of management shall recalculate the supplementary weighting amount received each year to reflect the amount of the reduction in funding from one budget year to the next pursuant to subparagraphs (1) through (3). It is the intent of the general assembly that when weights are recalculated under this subsection, the total amounts generated by each weight shall be approximately equal.

5. Regional academies.

a. For the school budget year beginning July 1, 2002, and succeeding budget years, in order to provide additional funds for school districts in which a regional academy is located, a supplementary weighting plan for determining enrollment is adopted.

b. A school district which establishes a regional academy shall be eligible to assign its resident pupils attending classes at the academy a weighting of one-tenth of the percentage of the pupil's school day during which the pupil attends classes at the regional academy. For the purposes of this subsection, "regional academy" means an educational institution established by a school district to which multiple schools send pupils in grades nine through twelve, and may include a virtual academy. A regional academy shall include in its curriculum advanced-level courses and may include in its curriculum vocational-technical courses. The maximum amount of additional weighting for which a school district establishing a regional academy shall be eligible is an amount corresponding to ten additional pupils if the academy provides both advanced-level courses and vocational-technical courses. However, if the sum of the funding amount calculated for all districts operating regional academies under this subsection exceeds one million dollars for the school year beginning July 1, 2004, and each succeeding fiscal year, the director of the department of management shall prorate the amount calculated for each district. The proration shall be based upon the amount calculated for each district when compared to the sum of the amount for all districts.

6. Shared classes delivered over the Iowa communications network. A pupil attending a class in which students from one or more other school districts are enrolled and which is taught via the Iowa communications network is not deemed to be attending a class in another school district or in a community college for the purposes of this section and the school district is not eligible for supplementary weighting for that class under this section.

7. Pupils ineligible. A pupil eligible for the weighting plan provided in section 256B.9 is not eligible for supplementary weighting pursuant to this section. A pupil attending an alternative program or an at-risk pupils' program, including alternative high school programs, is not eligible for supplementary weighting under subsection 2.

8. School finance appropriations report. The department of education shall annually prepare a report regarding school finance provisions or programs receiving a standing appropriation, including supplementary weighting programs. The report shall provide information regarding amounts received or accessed by school districts pursuant to the provisions or programs, whether the amounts received represent an increase or decrease over amounts received during the previous budget year and the percentage increase or decrease, conclusions regarding the adequacy of amounts received by school districts and whether the amounts received are equitable between school districts based upon input from the school districts and analysis by the department, and the rationale for current trends being observed by the department and projections regarding possible trends in the future. The report shall be submitted to the general assembly by January 1 each year, and copies of the report shall be forwarded to the chairpersons and members of the committee on education in the senate and in the house of representatives.
257.11A Supplementary weighting and school reorganization.

1. In determining weighted enrollment under section 257.6, if the board of directors of a school district has approved a contract for sharing pursuant to section 257.11 and the school district has approved an action to bring about a reorganization to take effect on and after July 1, 2002, and on or before July 1, 2006, the reorganized school district shall include, for a period of three years following the effective date of the reorganization, additional pupils added by the application of the supplementary weighting plan, equal to the pupils added by the application of the supplementary weighting plan in the year preceding the reorganization. For purposes of this subsection, the weighted enrollment for the period of three years following the effective date of reorganization shall include the supplementary weighting in the base year used for determining the combined district cost for the first year of the reorganization. However, the weighting shall be reduced by the supplementary weighting added for a pupil whose residency is not within the reorganized district.

2. For purposes of this section, a reorganized district is one in which the reorganization was approved in an election pursuant to sections 275.18 and 275.20 and takes effect on or after July 1, 2002, and on or before July 1, 2006. Each district which initiates, by a vote of the board of directors or jointly by the affected boards, action to bring about a reorganization or dissolution to take effect on or after July 1, 2002, and on or before July 1, 2006, shall certify the date and the nature of the action taken to the department of education by January 1 of the year in which the reorganization or dissolution takes effect.

3. Notwithstanding subsection 1, a school district which was participating in a whole grade sharing arrangement during the budget year beginning July 1, 2001, and which received a maximum of two years of supplementary weighting pursuant to section 257.11, subsection 2, paragraph “c”, shall include additional pupils added by the application of the supplementary weighting plan, equal to the pupils added by the application of the supplementary weighting plan in the year preceding the reorganization, for a period of four years following the effective date of the reorganization.

4. A school district shall be eligible for a combined maximum total of six years of supplementary weighting under the provisions of this section and section 257.11, subsection 2, paragraph “c”.

257.13 On-time funding budget adjustment.

1. For the school budget year beginning July 1, 2001, and succeeding budget years, if a district's actual enrollment for the budget year, determined under section 257.6, is greater than its budget enrollment for the budget year, the district shall be eligible to receive an on-time funding budget adjustment. The adjustment shall be in an amount equal to the difference between the actual enrollment for the budget year and the budget enrollment for the budget year, multiplied by the district cost per pupil.

2. The board of directors of a school district that wishes to receive an on-time funding budget adjustment shall adopt a resolution to receive the adjustment and notify the school budget review committee by November 1, annually. The school budget review committee shall establish a modified allowable growth in an amount determined pursuant to subsection 1.

3. If the board of directors of a school district determines that a need exists for additional funds exceeding the authorized budget adjustment for

because the assessment was subsequently reduced by the action of the property assessment appeal board or judicial action and the amount of the reduction in the assessment equals at least one hundred thousand dollars or two percent of the assessed value of all taxable property in the district prior to the reduction, whichever is less, the school district is eligible for an adjustment in state foundation aid. To receive the adjustment in state foundation aid, the school district shall apply to the department of management prior to the beginning of the budget year following the budget year in which the repayment of the property taxes occurred. The department of management shall determine the amount of adjustment in state foundation aid pursuant to subsection 2.

2. The department of management shall determine the amount of state foundation aid which the school district would have received under section 257.1 if the amount of the school district's foundation property tax was determined using the reduced assessment of the applicable property. The difference between the amount of the state foundation aid using the reduced assessment and the amount of state foundation aid actually received under section 257.1 equals the amount of the adjustment in state foundation aid to be paid to the school district.

3. The adjustment in state foundation aid under this section shall be paid as provided in section 257.16. If the application to receive an adjustment in state aid was filed prior to April 15, the adjustment shall be paid in the budget year. If the application is made after April 15, the adjustment shall be paid in the following budget year.

2006 Acts, ch 1185, §78
257.14 Budget adjustment.

1. For the budget year commencing July 1, 2001, if the department of management determines that the regular program district cost of a school district for a budget year is less than the total of the regular program district cost plus any adjustment added under this section for the base year for that school district, the school district shall be eligible to receive a budget adjustment for that district for that budget year up to an amount equal to the difference. The board of directors of a school district that wishes to receive a budget adjustment pursuant to this subsection shall, notwithstanding the public notice and hearing provisions of chapter 24 or any other provision to the contrary, within thirty days following May 9, 2001, adopt a resolution to receive the budget adjustment and immediately notify the department of management of the adoption of the resolution and the amount of the budget adjustment to be received.

2. For the budget years commencing July 1, 2002, and July 1, 2003, if the department of management determines that the regular program district cost of a school district for a budget year is less than the total of the regular program district cost plus any adjustment added under this section for the base year for that school district, the school district shall be eligible to receive a budget adjustment for that district for that budget year up to an amount equal to the difference. The board of directors of a school district that wishes to receive a budget adjustment pursuant to this subsection shall adopt a resolution to receive the budget adjustment by April 15, annually, and shall notify the department of management of the adoption of the resolution and the amount of the budget adjustment to be received.

3. For the budget year commencing July 1, 2004, and succeeding budget years, a district shall be eligible for a budget adjustment corresponding to the following schedule:
   a. For the budget year commencing July 1, 2004, the greater of the difference between the regular program district cost for the budget year and one hundred one percent of the regular program district cost for the base year, or ninety percent of the amount by which the budget guarantee as calculated for the budget year beginning July 1, 2003, exceeds the adjusted guarantee amount. For purposes of this paragraph, the “adjusted guarantee amount” means the amount which would be applicable for the budget year beginning July 1, 2004, if the budget guarantee were determined for that budget year as calculated for the budget year beginning July 1, 2003.
   b. For the budget year commencing July 1, 2005, the greater of the difference between the regular program district cost for the budget year and one hundred one percent of the regular program district cost for the base year, or eighty percent of the amount by which the budget guarantee as calculated for the budget year beginning July 1, 2003, exceeds the adjusted guarantee amount. For purposes of this paragraph, the “adjusted guarantee amount” means the amount which would be applicable for the budget year beginning July 1, 2005, if the budget guarantee were determined for that budget year as calculated for the budget year beginning July 1, 2003.
   c. For purposes of this paragraph, the “adjusted guarantee amount” means the amount which would be applicable for the budget year beginning July 1, 2006, if the budget guarantee were determined for that budget year as calculated for the budget year beginning July 1, 2003.
   d. For the budget year commencing July 1, 2007, the greater of the difference between the regular program district cost for the budget year and one hundred one percent of the regular program district cost for the base year, or sixty percent of the amount by which the budget guarantee as calculated for the budget year beginning July 1, 2003, exceeds the adjusted guarantee amount. For purposes of this paragraph, the “adjusted guarantee amount” means the amount which would be applicable for the budget year beginning July 1, 2007, if the budget guarantee were determined for that budget year as calculated for the budget year beginning July 1, 2003.
   e. For the budget year commencing July 1, 2008, the greater of the difference between the regular program district cost for the budget year and one hundred one percent of the regular program district cost for the base year, or fifty percent of the amount by which the budget guarantee as calculated for the budget year beginning July 1, 2003, exceeds the adjusted guarantee amount. For purposes of this paragraph, the “adjusted guarantee amount” means the amount which would be applicable for the budget year beginning July 1, 2008, if the budget guarantee were determined for that budget year as calculated for the budget year beginning July 1, 2003.
   f. For the budget year commencing July 1, 2009, the greater of the difference between the regular program district cost for the budget year...
and one hundred one percent of the regular program district cost for the base year, or forty percent of the amount by which the budget guarantee as calculated for the budget year beginning July 1, 2003, exceeds the adjusted guarantee amount.

For purposes of this paragraph, the “adjusted guarantee amount” means the amount which would be applicable for the budget year beginning July 1, 2009, if the budget guarantee were determined for that budget year as calculated for the budget year beginning July 1, 2003.

g. For the budget year commencing July 1, 2010, the greater of the difference between the regular program district cost for the budget year and one hundred one percent of the regular program district cost for the base year, or thirty percent of the amount by which the budget guarantee as calculated for the budget year beginning July 1, 2003, exceeds the adjusted guarantee amount.

For purposes of this paragraph, the “adjusted guarantee amount” means the amount which would be applicable for the budget year beginning July 1, 2010, if the budget guarantee were determined for that budget year as calculated for the budget year beginning July 1, 2003.

h. For the budget year commencing July 1, 2011, the greater of the difference between the regular program district cost for the budget year and one hundred one percent of the regular program district cost for the base year, or twenty percent of the amount by which the budget guarantee as calculated for the budget year beginning July 1, 2003, exceeds the adjusted guarantee amount. i. For the budget year commencing July 1, 2012, the greater of the difference between the regular program district cost for the budget year and one hundred one percent of the regular program district cost for the base year, or ten percent of the amount by which the budget guarantee as calculated for the budget year beginning July 1, 2003, exceeds the adjusted guarantee amount.

For purposes of this paragraph, the “adjusted guarantee amount” means the amount which would be applicable for the budget year beginning July 1, 2012, if the budget guarantee were determined for that budget year as calculated for the budget year beginning July 1, 2003.

j. For the budget year commencing July 1, 2013, and each budget year thereafter, the difference between the regular program district cost for the budget year and one hundred one percent of the regular program district cost for the base year.

The board of directors of a school district that wishes to receive a budget adjustment pursuant to this subsection shall adopt a resolution to receive the budget adjustment by April 15, annually, and shall notify the department of management of the adoption of the resolution and the amount of the budget adjustment to be received.

257.15 Property tax adjustment.

For the budget year beginning July 1, 1991, the department of management shall calculate for each district the difference between the sum of the revenues generated by the foundation property tax and the additional property tax in the district calculated under this chapter and the revenues that would have been generated by the foundation property tax and the additional property tax in that district for that budget year calculated under chapter 442, Code 1989, if chapter 442 were in effect, except that the revenues that would have been generated by the additional property tax levy under chapter 442 shall not include revenues generated for the school improvement program. However in making the calculation of the difference in revenues under this subsection, the department shall not include the revenues generated under section 257.37 and under chapter 442, Code 1989, for funding media and educational services through the area education agencies. If the property tax revenues for a district calculated under this chapter exceed the property tax revenues for that district calculated under chapter 442, Code 1989, the department of management shall reduce the revenues generated by the additional property tax in that district under this chapter by that difference and the department of education shall pay property tax adjustment aid to the district equal to that difference from moneys appropriated for property tax adjustment aid.

For purposes of this subsection, in computing the amount of revenues generated by the foundation property tax and the additional property tax under chapter 442, Code 1989, the computation shall be based on a regular program foundation base per pupil of eighty-three percent of the regular program state cost per pupil except that for the portion of weighted enrollment that is additional enrollment because of special education the regular program foundation base per pupil shall be seventy-nine percent of the regular program state cost per pupil. The special education support services foundation base shall be seventy-nine percent of the special education support services state cost per pupil.

For the budget year beginning July 1, 1992, and succeeding budget years, the department of education shall pay property
tax adjustment aid to a school district equal to the amount paid to the district for the base year less an amount equal to the product of the percent by which the taxable valuation in the district increased, if the taxable valuation increased, from January 1 of the year prior to the base year to January 1 of the base year and the property tax adjustment aid. The department of management shall adjust the rate of the additional property tax accordingly and notify the department of education of the amount of aid to be paid to each district from moneys appropriated for property tax adjustment aid.

3. Property tax adjustment aid appropriation. There is appropriated from the general fund of the state to the department of education, for each fiscal year, an amount necessary to pay property tax adjustment aid to school districts under this section. Property tax adjustment aid shall be paid to school districts in the manner provided in section 257.16.

4. Allocations for maximum adjusted additional property tax levy rate calculation and adjusted additional property tax levy aid. The department of management shall allocate from amounts appropriated pursuant to section 257.16, subsection 1, for the purpose of calculating the statewide maximum adjusted additional property tax levy rate and providing adjusted additional property tax levy aid as provided in section 257.4, subsection 1, paragraph "b", an amount not to exceed the following:

a. For the budget year beginning July 1, 2006, six million dollars.

b. For the budget year beginning July 1, 2007, twelve million dollars.

c. For the budget year beginning July 1, 2008, eighteen million dollars.

d. For the budget year beginning July 1, 2009, and succeeding budget years, twenty-four million dollars.

257.17 Aid reduction for early school starts.

State aid payments made pursuant to section 257.16 for a fiscal year shall be reduced by one hundred-eightieth for each day of that fiscal year for which the school district begins school before the earliest starting date specified in section 279.10, subsection 1. However, this section does not apply to a school district that has received approval from the director of the department of education under section 279.10, subsection 4, to commence classes for regularly established elementary and secondary schools in advance of the starting date established in section 279.10, subsection 1.

257.18 Instructional support program.

1. An instructional support program that provides additional funding for school districts is established. A board of directors that wishes to consider participating in the instructional support program shall hold a public hearing on the question of participation. The board shall set forth its proposal, including the method that will be used to fund the program, in a resolution and shall publish the notice of the time and place of a public hearing on the resolution. Notice of the time and place of the public hearing shall be published not less than ten nor more than twenty days before the public hearing in a newspaper which is a newspaper of general circulation in the school district. At the hearing, or no later than thirty days after the date of the hearing, the board shall take action to adopt a resolution to participate in the instructional support program for a period not exceeding five years or to direct the county commissioner of elections to submit the question of participation in the program for a period not exceeding ten years to the registered voters of the school district at the next regular school election or at a special election. If the board submits the question at an election and a majority of those voting on the question favors participation in the program, the board shall adopt a resolution to participate and certify the re-
results of the election to the department of management.

2. If the board does not provide for an election and adopts a resolution to participate in the instructional support program, the district shall participate in the instructional support program unless within twenty-eight days following the action of the board, the secretary of the board receives a petition containing the required number of signatures, asking that an election be called to approve or disapprove the action of the board in adopting the instructional support program. The petition must be signed by eligible electors equal in number to not less than one hundred or thirty percent of the number of voters at the last preceding regular school election, whichever is greater. The board shall either rescind its action or direct the county commissioner of elections to submit the question to the registered voters of the school district at the next following regular school election or a special election. If a majority of those voting on the question at the election favors disapproval of the action of the board, the district shall not participate in the instructional support program. If a majority of those voting on the question favors approval of the action, the board shall certify the results of the election to the department of management and the district shall participate in the program.

At the expiration of the twenty-eight day period, if no petition is filed, the board shall certify its action to the department of management and the district shall participate in the program.

3. Participation in an instructional support program is not affected by a change in the boundaries of the school district, except as otherwise provided in this section. If each school district involved in a school reorganization under chapter 275 has approved an instructional support program, and if the voters have not voted upon the question of participation in the program in the reorganized district, the instructional support program shall be in effect for the reorganized district that has been approved for the least amount and the shortest time in any of the districts.

257.19 Instructional support funding.

The additional funding for the instructional support program for a budget year is limited to an amount not exceeding ten percent of the total of regular program district cost for the budget year and moneys received under section 257.14 as a budget adjustment for the budget year. Moneys received by a district for the instructional support program are miscellaneous income and may be used for any general fund purpose. However, moneys received by a district for the instructional support program shall not be used as, or in a manner which has the effect of, supplanting funds authorized to be received under sections 257.41, 257.46, 298.2, and 298.4, or to cover any deficiencies in funding for special education instructional services resulting from the application of the special education weighting plan under section 256B.9.

Certification of a board’s intent to participate for a budget year, the method of funding, and the amount to be raised shall be made to the department of management not later than April 15 of the base year. Funding for the instructional support program shall be obtained from instructional support state aid and from local funding using either an instructional support property tax or a combination of an instructional support property tax and an instructional support income surtax.

The board of directors shall determine whether the instructional support property tax or the combination of the instructional support property tax and instructional support income surtax shall be used for the local funding. Subject to the limitation specified in section 298.14, if the board elects to use the combination of the instructional support property tax and instructional support income surtax, for each budget year the board shall determine the percent of income surtax that will be imposed, expressed as full percentage points, not to exceed twenty percent.

257.20 Instructional support state aid appropriation.

1. In order to determine the amount of instructional support state aid and the amount of local funding for the instructional support program for a district, the department of management shall divide the total assessed valuation in the state by the total budget enrollment for the budget year in the state to determine a state assessed valuation per pupil and shall divide the assessed valuation in each district by the district’s budget enrollment for the budget year to determine the district assessed valuation per pupil. The department of management shall multiply the ratio of the state’s valuation per pupil to the district’s valuation per pupil by twenty-five hundredths and subtract that result from one to determine the portion of the instructional support program budget that is local funding. The remaining portion of the budget shall be funded by instructional support state aid. However, for the budget year beginning July 1, 1992, only, the amount of state aid is three and one-quarter percent less than the amount computed under this paragraph for that budget year.

2. There is appropriated for each fiscal year from the general fund of the state to the department of education, an amount necessary to pay instructional support state aid as determined under subsection 1.

a. However, moneys appropriated under this
subsection shall not exceed the amount of moneys appropriated as instructional support state aid for the budget year which commenced on July 1, 1992.

b. If the amount appropriated under this subsection is insufficient to pay the amount of instructional support state aid determined under subsection 1, the department of education shall prorate the amount of the instructional support state aid provided to each district.

3. If the general assembly makes an appropriation for instructional support state aid in lieu of the standing appropriation provided under subsection 2, the appropriation for instructional support state aid shall include in the appropriation the allocation of the instructional support state aid to the school districts applicable for that appropriation and subsections 1 and 2 do not apply to the appropriation.

4. Instructional support state aid shall be paid at the same time and in the same manner as foundation aid is paid under section 257.16.

257.21 Computation of instructional support amount.
The department of management shall establish the amount of instructional support property tax to be levied and the amount of instructional support income surtax to be imposed by a district in accordance with the decision of the board under section 257.19 for each school year for which the instructional support program is authorized. The department of management shall determine these amounts based upon the most recent figures available for the district’s valuation of taxable property, individual state income tax paid, and budget enrollment in the district, and shall certify to the district’s county auditor the amount of instructional support property tax, and to the director of revenue the amount of instructional support income surtax to be imposed if an instructional support income surtax is to be imposed.

The instructional support income surtax shall be imposed on the state individual income tax for the calendar year during which the school’s budget year begins, or for a taxpayer’s fiscal year ending during the second half of that calendar year and after the date the board adopts a resolution to participate in the program or the first half of the succeeding calendar year, and shall be imposed on all individuals residing in the school district on the last day of the applicable tax year. As used in this section, “state individual income tax” means the taxes computed under section 422.5, less the amounts of nonrefundable credits allowed under chapter 422, division II.

257.22 Statutes applicable.
The director of revenue shall administer the instructional support income surtax imposed under this chapter, and sections 422.20, 422.22 to 422.31, 422.68, and 422.72 to 422.75 shall apply with respect to administration of the instructional support income surtax.

89 Acts, ch 135, §22; 2003 Acts, ch 145, §286

257.23 Form and time of return.
The instructional support income surtax shall be made a part of the Iowa individual income tax return subject to the conditions and restrictions set forth in section 422.21.

89 Acts, ch 135, §23

257.24 Deposit of instructional support income surtax.
The director of revenue shall deposit all moneys received as instructional support income surtax to the credit of each district from which the moneys are received, in the school district income surtax fund which is established in section 298.14.

The director of revenue shall deposit instructional support income surtax moneys received on or before November 1 of the year following the close of the school budget year for which the surtax is imposed to the credit of each district from which the moneys are received in the school district income surtax fund.

Instructional support income surtax moneys received or refunded after November 1 of the year following the close of the school budget year for which the surtax is imposed shall be deposited in or withdrawn from the general fund of the state and shall be considered part of the cost of administering the instructional support income surtax.

257.25 Instructional support income surtax certification.
On or before October 20 each year, the director of revenue shall make an accounting of the instructional support income surtax collected under this chapter applicable to tax returns for the last preceding calendar year, or for a taxpayer’s fiscal year ending during the second half of that calendar year and after the date the board adopts a resolution to participate in the program, or the first half of the succeeding calendar year, from taxpayers in each school district in the state which has approved the instructional support program, and shall certify to the department of management and the department of education the amount of total instructional support income surtax credited from the taxpayers of each school district.

257.26 Instructional support income surtax distribution.
The director of the department of administrative services shall draw warrants in payment of the amount of instructional support surtax in the manner provided in section 298.14.

257.27 Continuation of instructional support program.
At the expiration of the period for which the instructional support program was adopted, the program may be extended for a period of not exceeding five or ten years in the manner provided in section 257.18.
If the voters do not approve adoption of the instructional support program, the board shall wait at least one hundred twenty days following the election before taking action to adopt the program or resubmit the proposition.
89 Acts, ch 135, §27

257.28 Enrichment levy.
If a school district has approved the use of the instructional support program for a budget year, the district shall not also collect moneys under the additional enrichment amount approved by the voters under chapter 442, Code 1991, for the budget year.

257.29 Educational improvement program.
An educational improvement program is established to provide additional funding for school districts in which the regular program district cost per pupil for a budget year is one hundred ten percent of the regular program state cost per pupil for the budget year and which have approved the use of the instructional support program established in section 257.18. A board of directors that wishes to consider participating in the educational improvement program shall hold a hearing on the question of participation and the maximum percent of the regular program district cost of the district that will be used. The hearing shall be held in the manner provided in section 257.18 for the instructional support program. Following the hearing, the board may direct the county commissioner of elections to submit the question to the registered voters of the school district at the next following regular school election or a special election held not later than the following February 1. If a majority of those voting on the question favors participation in the program, the board shall adopt a resolution to participate and shall certify the results of the election to the department of management and the district shall participate in the program. If a majority of those voting on the question does not favor participation, the district shall not participate in the program.
The educational improvement program shall provide additional revenues each fiscal year equal to a specified percent of the regular program district cost of the district, as determined by the board but not more than the maximum percent authorized by the electors if an election has been held. Certification of a district’s participation for a budget year, the method of funding, and the amount to be raised shall be made to the department of management not later than April 15 of the base year.
The educational improvement program shall be funded by either an educational improvement property tax or by a combination of an educational improvement property tax and an educational improvement income surtax. The method of raising the educational improvement moneys shall be determined by the board. Subject to the limitation in section 298.14, if the board uses a combination of an educational improvement property tax and an educational improvement income surtax, the board shall determine the percent of income surtax to be imposed, expressed as full percentage points, not to exceed twenty percent.
The department of management shall establish the amount of the educational improvement property tax to be levied or the amount of the combination of the educational improvement property tax to be levied and the amount of the school district income surtax to be imposed for each school year that the educational improvement amount is authorized. The educational improvement property tax and income surtax, if an income surtax is imposed, shall be levied and imposed, collected, and paid to the school district in the manner provided for the instructional support program in sections 257.21 through 257.26. Moneys received by a school district under the educational improvement program are miscellaneous income.
Once approved at an election, the authority of the board to use the educational improvement program shall continue until the board votes to rescind the educational improvement program or the voters of the school district by majority vote order the discontinuance of the program. The board shall call an election to vote on the proposition whether to discontinue the program upon the receipt of a petition signed by not less than one hundred eligible electors or thirty percent of the number of electors voting at the last preceding school election, whichever is greater.
Participation in an educational improvement program is not affected by a change in the boundaries of the school district, except as otherwise provided in this section. If each school district involved in school reorganization under chapter 275 has approved an educational improvement program, and if the voters have not voted upon the
§257.30 School budget review committee.

A school budget review committee is established in the department of education and consists of the director of the department of education, the director of the department of management, and three members who are knowledgeable in the areas of Iowa school finance or public finance issues appointed by the governor to represent the public. At least one of the public members shall possess a master's or doctoral degree in which areas of school finance, economics, or statistics are an integral component, or shall have equivalent experience in an executive administrative or senior research position in the education or public administration field. The members appointed by the governor shall serve staggered three-year terms beginning and ending as provided in section 69.19 and are subject to senate confirmation as provided in section 2.32. The committee shall meet and hold hearings each year and shall continue in session until it has reviewed budgets of school districts, as provided in section 257.31. It may call in school board members and employees as necessary for the hearings. Legislators shall be notified of hearings concerning school districts in their constituencies.

The committee shall adopt its own rules of procedure under chapter 17A. The director of the department of education shall serve as chairperson, and the director of the department of management shall serve as secretary. The committee members representing the public are entitled to receive their necessary expenses while engaged in their official duties. Members shall be paid a per diem at the rate specified in section 7E.6. Per diem and expense payments shall be made from appropriations to the department of education.

The department of education shall employ a staff member to assist the school budget review committee.

§257.31 Duties of the committee.

1. The school budget review committee may recommend the revision of any rules, regulations, directives, or forms relating to school district budgeting and accounting, confer with local school boards or their representatives and make recommendations relating to any budgeting or accounting matters, and direct the director of the department of education or the director of the department of management to make studies and investigations of school costs in any school district.

2. The committee shall report to each session of the general assembly, which report shall include any recommended changes in laws relating to school districts, and shall specify the number of hearings held annually, the reasons for the committee's recommendations, information about the amounts of property tax levied by school districts for a cash reserve, and other information the committee deems advisable.

3. The committee shall review the proposed budget and certified budget of each school district, and may make recommendations. The committee may make decisions affecting budgets to the extent provided in this chapter. The costs and computations referred to in this section relate to the budget year unless otherwise expressly stated.

4. Not later than January 1, 1992, the committee shall adopt recommendations relating to the implementation by school districts and area education agencies of procedures pertaining to the preparation of financial reports in conformity with generally accepted accounting principles and submit those recommendations to the state board of education. The state board shall consider the recommendations and adopt rules under section 256.7 specifying procedures and requiring the school districts and area education agencies to conform to generally accepted accounting principles commencing with the school year beginning July 1, 1996.

5. If a district has unusual circumstances, creating an unusual need for additional funds, including but not limited to the following circumstances, the committee may grant supplemental aid to the district from any funds appropriated to the department of education for the use of the school budget review committee for the purposes of this subsection, and such aid shall be miscellaneous income and shall not be included in district cost, or may establish a modified allowable growth for the district by increasing its allowable growth, or both:
a. Any unusual increase or decrease in enrollment.
b. Unusual natural disasters.
c. Unusual initial staffing problems.
d. The closing of a nonpublic school, wholly or in part, or the opening or closing of a pilot charter school.
e. Substantial reduction in miscellaneous income due to circumstances beyond the control of the district.
f. Unusual necessity for additional funds to permit continuance of a course or program which provides substantial benefit to pupils.
g. Unusual need for a new course or program which will provide substantial benefit to pupils, if the district establishes the need and the amount of necessary increased cost.
h. Unusual need for additional funds for special education or compensatory education programs.
i. Year-round or substantially year-round attendance programs which apply toward graduation requirements, including but not limited to trimester or four-quarter programs. Enrollment in such programs shall be adjusted to reflect equivalency to normal school year attendance.
j. Unusual need to continue providing a program or other special assistance to non-English speaking pupils after the expiration of the four-year period specified in section 280.4.
k. Circumstances caused by unusual demographic characteristics.
l. Any unique problems of school districts.
m. The committee shall establish a modified allowable growth for a district by increasing its allowable growth when the district submits evidence that it requires additional funding for removal, management, or abatement of environmental hazards due to a state or federal requirement. Environmental hazards shall include but are not limited to the presence of asbestos, radon, or the presence of any other hazardous material dangerous to health and safety.

The district shall include a budget for the actual cost of the project that may include the costs of inspection, reinspection, sampling, analysis, assessment, response actions, operations and maintenance, training, periodic surveillance, developing of management plans, recordkeeping requirements, and encapsulation or removal of the hazardous material.

7. The committee may authorize a district to spend a reasonable and specified amount from its unexpended cash balance for either of the following purposes:
  a. Furnishing, equipping, and contributing to the construction of a new building or structure for which the voters of the district have approved a bond issue as provided by law or the tax levy provided in section 298.2.
  b. The costs associated with the demolition of an unused school building, or the conversion of an unused school building for community use, in a school district involved in a dissolution or reorganization under chapter 275, if the costs are incurred within three years of the dissolution or reorganization.

Other expenditures, including but not limited to expenditures for salaries or recurring costs, are not authorized under this subsection. Expenditures authorized under this subsection shall not be included in allowable growth or district cost, and the portion of the unexpended cash balance which is authorized to be spent shall be regarded as if it were miscellaneous income. Any part of the amount not actually spent for the authorized purpose shall revert to its former status as part of the unexpended cash balance.

8. The committee may approve or modify the initial base year district cost of any district which changes accounting procedures.

9. When the committee makes a decision under subsections 3 through 8, it shall make all necessary changes in the district cost, budget, and tax levy. It shall give written notice of its decision, including all such changes, to the school board through the department of education.

10. All decisions by the committee under this chapter shall be made in accordance with reasonable and uniform policies which shall be consistent with this chapter. All such policies of general application shall be stated in rules adopted in accordance with chapter 17A. The committee shall take into account the intent of this chapter to equalize educational opportunity, to provide a good education for all the children of Iowa, to provide property tax relief, to decrease the percentage of school costs paid from property taxes, and to provide reasonable control of school costs. The committee shall also take into account the amount of funds available.

11. Failure by any school district to provide information or appear before the committee as requested for the accomplishment of review or hearing is justification for the committee to instruct the director of the department of management to withhold any state aid to that district until the committee’s inquiries are satisfied completely.

12. The committee shall review the recommendations of the director of the department of education relating to the special education weighting plan, and shall establish a weighting plan for each school year pursuant to section 256B.9, and report the plan to the director of the department of education.

13. The committee may recommend that two or more school districts jointly employ and share the services of any school personnel, or acquire and share the use of classrooms, laboratories, equipment, and facilities as specified in section 280.15.

14. As soon as possible following June 30 of the base year, the school budget review committee shall determine for each school district the bal-
ance of funds, whether positive or negative, raised for special education instruction programs under the special education weighting plan established in section 256B.9. The committee shall certify the balance of funds for each school district to the director of the department of management.

a. If the amount certified for a school district to the director of the department of management under this subsection for the base year is positive, the director of the department of management shall subtract the amount of the positive balance exceeding ten percent of the additional funds generated for special education, not to include any previous carryover, from the amount of state aid remaining to be paid to the district during the budget year. If the positive amount exceeding the ten percent amount exceeds the amount of state aid that remains to be paid to the district, not including any previous carryover, the school district shall pay the excess on a quarterly basis prior to June 30 of the budget year to the director of the department of management from other funds received by the district. The director of the department of management shall determine the amount of the positive balance that exceeds the ten percent amount that came from local property tax revenues and shall increase the district's total state school aids available under this chapter for the next following budget year by the amount so determined and shall reduce the district's tax levy computed under section 257.4 for the next following budget year by the amount necessary to compensate for the increased state aid.

b. If the amount certified for a school district to the director of the department of management under this subsection for the base year is negative, the director of the department of management shall determine the amount of the deficit that would have been state aid and the amount that would have been property taxes for each eligible school district.

There is appropriated from the general fund of the state to the school budget review committee for each fiscal year an amount equal to the state aid portion of five percent of the receipts for special education instruction programs in all districts that has a positive balance determined under paragraph "a" for the base year, or the state aid portion of all of the positive balances determined under paragraph "a" for the base year, whichever is less, to be used for supplemental aid payments to school districts. Except as otherwise provided in this lettered paragraph, supplemental aid paid to a district is equal to the state aid portion of the district's negative balance. The school budget review committee shall direct the director of the department of management to make the payments to school districts under this lettered paragraph.

A school district is only eligible to receive supplemental aid payments during the budget year if the school district certifies to the school budget review committee that for the year following the budget year it will notify the school budget review committee to instruct the director of the department of management to increase the district's allowable growth and will fund the allowable growth increase either by using moneys from its unexpended cash balance to reduce the district's property tax levy or by using cash reserve moneys to equal the amount of the deficit that would have been property taxes and any part of the state aid portion of the deficit not received as supplemental aid under this subsection. The director of the department of management shall make the necessary adjustments to the school district's budget to provide the modified allowable growth and shall make the supplemental aid payments.

If the amount appropriated under this lettered paragraph is insufficient to make the supplemental aid payments under this subsection, the director of the department of management shall prorate the payments on the basis of the amount appropriated.

15. Annually the school budget review committee shall review the amount of property tax levied by each school district for the cash reserve authorized in section 298.10. If in the committee's judgment, the amount of a district's cash reserve levy is unreasonably high, the committee shall instruct the director of the department of management to reduce that district's tax levy computed under section 257.4 for the following budget year by the amount the cash reserve levy is deemed excessive. A reduction in a district's property tax levy for a budget year under this subsection does not affect the district's authorized budget.

16. The committee shall perform the duties assigned to it under sections 257.32 and 260C.18B.

17. a. If a district's average transportation costs per pupil exceed the state average transportation costs per pupil determined under paragraph "c" by one hundred fifty percent, the committee may grant transportation assistance aid to the district. Such aid shall be miscellaneous income and shall not be included in district cost.

b. To be eligible for transportation assistance aid, a school district shall annually certify its actual cost for all children transported in all school buses not later than July 31 after each school year on forms prescribed by the committee.

c. A district's average transportation costs per pupil shall be determined by dividing the district's actual cost for all children transported in all school buses for a school year pursuant to section 285.1, subsection 12, less the amount received for transporting nonpublic school pupils under section 285.1, by the district's actual enrollment for the school year excluding the shared-time enrollment for the school year as defined in section 257.6. The state average transportation costs per pupil shall be determined by dividing the total actual costs for all children transported in all districts for a school year, by the total of all districts' actual enrollments for the school year.
257.32 Area education budget review.

1. An area education agency budget review procedure is established for the school budget review committee created in section 257.30. The school budget review committee, in addition to its duties under section 257.31, shall meet and hold hearings each year to review unusual circumstances of area education agencies, either upon the committee's motion or upon the request of an area education agency. The committee may grant supplemental aid to the area education agency from funds appropriated to the department of education for area education agency budget review purposes, or an amount may be added to the area education agency special education support services allowable growth for districts in an area or an additional amount may be added to district cost for media services or educational services for all districts in an area for the budget year either on a temporary or permanent basis, or both.

Unusual circumstances shall include but are not limited to the following:

a. An unusual increase or decrease in enrollment of children requiring special education or unusual need for additional moneys for special education support services.

b. Unusual need for additional moneys for media services.

c. Unusual need for additional moneys for educational services.

d. Unusual costs for building repair, building maintenance, or removal of environmental hazards.

e. Participation by the area education agency in telecommunications, electronic, and technological development with school districts, and related staff development programs.

2. When the school budget review committee makes a decision under subsection 1, it shall provide written notice of its decision, including all changes, to the board of directors of the area education agency, and to the department of management and the department of education.

3. All decisions by the school budget review committee under this section shall be made in accordance with reasonable and uniform policies which shall be consistent with this chapter.

4. Failure by an area education agency to provide information or appear before the school budget review committee as requested for the accomplishment of review or hearing constitutes justification for the committee to instruct the department of administrative services to withhold payments for the area education agency until the committee's inquiries are satisfied completely.

257.33 Prior enrichment approval.

If the electors of a school district approved the use of the additional enrichment amount prior to July 1, 1991, under chapter 442, Code 1991, or section 279.43, Code 1991, the approval for use of the enrichment amount shall continue in effect until the expiration of the period for which it was approved and districts may use the additional enrichment amount during that period. However, section 257.28 applies to the use of the additional enrichment amount.

Use of the additional enrichment amounts approved under chapter 442, Code 1991, is not affected by a change in the boundaries of the school district, except as otherwise provided in this section. If each school district involved in a school reorganization under chapter 275 has approved the use of the additional enrichment amount, and if the voters have not voted upon the question of participation in the instructional support program in the reorganized district, the use of the additional enrichment amount shall be in effect for the reorganized district that has been approved for the least amount and the shortest time in any of the districts.

89 Acts, ch 135, §33; 92 Acts, ch 1163, §61; 93 Acts, ch 8, §1; 2006 Acts, ch 1010, §78

257.34 Cash reserve information.

If a school district receives less state school foundation aid under section 257.1 than is due under that section for a base year and the school district uses funds from its cash reserve during the base year to make up for the amount of state aid not paid, the board of directors of the school district shall include in its general fund budget document information about the amount of the cash reserve used to replace state school foundation aid not paid.

89 Acts, ch 135, §34
§257.35 Area education agency payments.
1. The department of management shall deduct the amounts calculated for special education support services, media services, and educational services for each school district from the state aid due to the district pursuant to this chapter and shall pay the amounts to the respective area education agencies on a monthly basis from September 15 through June 15 during each school year. The department of management shall notify each school district of the amount of state aid deducted for these purposes and the balance of state aid shall be paid to the district. If a district does not qualify for state aid under this chapter in an amount sufficient to cover its amount due to the area education agency as calculated by the department of management, the school district shall pay the deficiency to the area education agency from other moneys received by the district, on a quarterly basis during each school year.

2. Notwithstanding subsection 1, the state aid for area education agencies and the portion of the combined district cost calculated for these agencies for the fiscal year beginning July 1, 2002, and each succeeding fiscal year, shall be reduced by the department of management by seven million five hundred thousand dollars. The reduction for each area education agency shall be equal to the reduction that the agency received in the fiscal year beginning July 1, 2001.

3. Notwithstanding subsection 1, and in addition to the reduction applicable pursuant to subsection 2, the state aid for area education agencies and the portion of the combined district cost calculated for these agencies for the fiscal year beginning July 1, 2003, and ending June 30, 2004, shall be reduced by the department of management by ten million dollars. The department shall calculate a reduction such that each area education agency shall receive a reduction proportionate to the amount that it would otherwise have received under this section if the reduction imposed pursuant to this subsection did not apply.

4. Notwithstanding subsection 1, and in addition to the reduction applicable pursuant to subsection 2, the state aid for area education agencies and the portion of the combined district cost calculated for these agencies for the fiscal year beginning July 1, 2006, shall be reduced by the department of management by eight million dollars. The reduction for each area education agency shall be prorated based on the reduction that the agency received in the fiscal year beginning July 1, 2003.

5. Notwithstanding section 257.37, an area education agency may use the funds determined to be available under this section in a manner which the area education agency determines is appropriate to best maintain the level of required area education agency special education services. An area education agency may also use unreserved fund balances for media services or education services in a manner which the area education agency determines is appropriate to best maintain the level of required area education agency special education services.

Subsection 4 amended

§257.36 Special education support services balances.
Notwithstanding chapters 256B and 273 and sections of this chapter relating to the moneys available to area education agencies for special education support services, for each school year, the department of education may direct the department of management to deduct amounts from the portions of school district budgets that fund special education support services in an area education agency. The total amount deducted in an area shall be based upon excess special education support services unreserved and undesignated fund balances in that area education agency for a school year as determined by the department of education. The department of management shall determine the amount deducted from each school district in an area education agency on a proportional basis. The department of management shall determine from the amounts deducted from the portions of school district budgets that fund area education agency special education support services the amount that would have been local property taxes and the amount that would have been state aid and for the next following budget year shall increase the district’s total state school aid available under this chapter for area education agency special education support services and reduce the district’s property tax levy for area education agency special education support services by the amount necessary for the property tax portion of the deductions made under this section during the budget year.

The amount deducted from a school district’s budget shall not affect the calculation of the state cost per pupil or its district cost per pupil in that school year or a subsequent year.

89 Acts, ch 135, §36

§257.37 Funding media and educational services.
Media services and educational services provided through the area education agencies shall be funded, to the extent provided, by an addition to the combined district cost of each school district, determined as follows:
1. For the budget year beginning July 1, 1991, and succeeding budget years, the total amount funded in each area for media services shall be computed as provided in this subsection. For the
budget year beginning July 1, 1991, the total amount funded in each area for media services in the base year, including the cost for media resource material which shall only be used for the purchase or replacement of material required in section 273.6, subsection 1, paragraphs “a”, “b”, and “c”, shall be divided by the enrollment served in the base year to provide an area media services cost per pupil in the base year, and the department of management shall compute the state media services cost per pupil in the base year which is equal to the average of the area media services costs per pupil in the base year. For the budget year beginning July 1, 1991, and succeeding budget years, the department of management shall compute the allowable growth for media services in the budget year by multiplying the state media services cost per pupil in the base year times the state percent of growth for the budget year, and the total amount funded in each area for educational services shall be divided by the enrollment served in the area in the budget year. Funds shall be paid to area education agencies as provided in section 257.35.

2. Thirty percent of the budget of an area for media services shall be expended for media resource material which shall only be used for the purchase or replacement of material required in section 273.6, subsection 1. Funds shall be paid to area education agencies as provided in section 257.35.

3. For the budget year beginning July 1, 1991, and succeeding budget years, the total amount funded in each area for educational services shall be computed as provided in this subsection. For the budget year beginning July 1, 1991, the total amount funded in each area for educational services in the base year shall be divided by the enrollment served in the area in the base year to provide an area educational services cost per pupil in the base year, and the department of management shall compute the state educational services cost per pupil in the base year, which is equal to the average of the area educational services costs per pupil in the base year. For the budget year beginning July 1, 1991, and succeeding budget years, the department of management shall compute the allowable growth for educational services by multiplying the state educational services cost per pupil in the base year times the state percent of growth for the budget year, and the total amount funded in each area for educational services for the budget year equals the area educational services cost per pupil for the base year plus the allowable growth for educational services in the budget year times the enrollment served in the area in the budget year. Funds shall be paid to area education agencies as provided in section 257.35.

4. “Enrollment served” means the basic enrollment plus the number of nonpublic school pupils served with media services or educational services, as applicable, except that if a nonpublic school pupil or a pupil attending another district under a whole grade sharing agreement or open enrollment receives services through an area other than the area of the pupil’s residence, the pupil shall be deemed to be served by the area of the pupil’s residence, which shall by contractual arrangement reimburse the area through which the pupil actually receives services. Each school district shall include in the enrollment report submitted pursuant to section 257.6, subsection 1, the number of nonpublic school pupils within each school district for media and educational services served by the area.

5. If an area education agency does not serve nonpublic school pupils in a manner comparable to services provided public school pupils for media and educational services, as determined by the state board of education, the state board shall instruct the department of management to reduce the funds for media services and educational services one time by an amount to compensate for such reduced services. The media services budget shall be reduced by an amount equal to the product of the cost per pupil in basic enrollment for the budget year for media services times the difference between the enrollment served and the basic enrollment recorded for the area. The educational services budget shall be reduced by an amount equal to the product of the cost per pupil in basic enrollment for the budget year for educational services times the difference between the enrollment served and the basic enrollment recorded for the area.

This subsection applies only to media and educational services which cannot be diverted for religious purposes.

Notwithstanding this subsection, an area education agency shall distribute to nonpublic schools media materials purchased wholly or partially with federal funds in a manner comparable to the distribution of such media materials to public schools as determined by the director of the department of education.

6. For the budget year beginning July 1, 2002, and each succeeding budget year, notwithstanding the requirements of this section for determining the budgets and funding of media services and educational services, an area education agency may, within the limits of the total of the funds provided for the budget years pursuant to section 257.35, expend for special education support services an amount that exceeds the payment for special education support services pursuant to section 257.35 in order to maintain the level of required special education support services in the area education agency.

Iowa advance funding authority is included in the department of education; §7E.7, chapter 256
This chapter not enacted as a part of this title; transferred from chapter 442A in Code 1993

257C.2 Legislative findings.
The general assembly finds as follows:
1. The establishment of the authority is in all respects for the benefit of the people of the state of Iowa and the improvement of the financing procedures for Iowa’s schools.
2. The authority will be performing an essential governmental function in the exercise of the powers and duties conferred upon it by this chapter.
3. Iowa schools face a serious and increasing problem with cash flow difficulties caused, among other factors, by increasing reliance on state school foundation aid, delays in the payment of state school foundation aid, and the periodic payment of property taxes for school purposes.
4. As a result, Iowa schools have had to borrow on a short-term basis larger amounts of funds more often, thus increasing their borrowing costs significantly.
5. The short-term borrowing costs of Iowa schools are a direct burden on the taxpayers of the state.
6. It is necessary to create the authority to provide a means for Iowa schools to reduce substantially or eliminate their short-term borrowing costs and thus reduce costs to the taxpayers.
7. All of the purposes stated in this section are public purposes and uses for which public moneys may be borrowed, expended, advanced, loaned or granted.

257C.4 Iowa advance funding authority.
The Iowa advance funding authority is created. It is a public instrumentality and agency of the state exercising public and essential governmental functions, established for the purposes of reducing the cash flow difficulties faced by Iowa schools, improving the financial procedures of Iowa schools, and reducing the short-term borrowing costs of Iowa schools.

257C.5 Governing board.
1. The powers of the authority are vested in and exercised by a board consisting of five members, including the treasurer of state, the director of the department of education, and the director of the department of management, and two members appointed by the governor, subject to confirmation by the senate. The state officials may designate representatives to serve on the board for them. As far as possible, the governor shall appoint members who are knowledgeable or experienced in the school systems of this state or in finance.

2. The governor shall appoint the members of the authority for terms of six years, beginning and ending as provided in section 69.19. An appointed member of the authority may be removed from office by the governor for misfeasance, malfeasance, or willful neglect of duty or other just cause, after notice and hearing, unless the notice and hearing are expressly waived in writing by the member.

3. Three members of the board constitute a quorum.

4. The appointed members of the authority receive a per diem as specified in section 7E.6 for each day spent in performance of duties as members, and shall be reimbursed for all actual and necessary expenses incurred in the performance of duties as members.

5. The appointed members of the authority shall give bond as required for public officers in chapter 64.
257C.8 Advance funding program.
1. The authority shall establish a statewide advance funding program for the purchase from schools of notes issued in anticipation of the receipt of moneys for school purposes or for making loans to schools to alleviate cash flow difficulties and to otherwise improve the financial well-being of the schools.

2. The authority may issue its bonds and use the proceeds from the bonds for the purpose of making loans to or purchasing the notes of any school for the use of the various funds of the school for any lawful school purpose excluding debt service. Bonds issued pursuant to this section may be secured by a pledge of payments made to the authority by the school, to be derived from the receipt of anticipated funds evidenced by the notes of the school, including a pooling of payments of notes from two or more participating schools. The authority may also issue refunding bonds, for the purpose of refunding previously issued bonds.

3. The authority may issue its bonds in principal amounts which, in the opinion of the authority, are necessary to provide sufficient funds for achievement of its corporate purposes, the payment of interest on its bonds, the establishment of reserves to secure its bonds, the costs of issuance of its bonds, and all other expenditures of the authority incident to and necessary or convenient to carry out its purposes and powers. The bonds are investment securities and negotiable instruments within the meaning of and for purposes of the uniform commercial code, chapter 554.

4. Bonds issued under this section are payable solely and only out of the moneys, assets, or revenues of the authority and are not an indebtedness of this state, and this state is not liable on the bonds. Bonds issued under this chapter shall contain on their face a statement that the state is not liable.

5. The proceeds of bonds issued by the authority and not required for immediate disbursement may be invested in any investment approved by the board and specified in the trust indenture or resolution pursuant to which the bonds are issued without regard to any limitation otherwise provided by law.

6. The bonds of the authority shall be:
   a. In a form, issued in denominations, executed in a manner, and payable over terms and with rights of redemption, as the board prescribes in the resolution authorizing their issuance.
   b. Negotiable instruments under the laws of the state and may be sold at prices, at public or private sale, and in a manner, as prescribed by the board. Chapters 73A, 74, 74A and 75 do not apply to their sale or issuance.
   c. Subject to the terms, conditions, and covenants providing for the payment of the principal, redemption premiums, if any, interest, and other terms, conditions, covenants, and protective provisions safeguarding payment, not inconsistent with this chapter and as determined by resolution of the board.

7. The bonds of the authority are securities in which public officers and bodies of this state; political subdivisions of this state; insurance companies and associations and other persons carrying on an insurance business; banks, trust companies, savings associations, savings and loan associations, and investment companies; administrators, guardians, executors, trustees, and other fiduciaries; and other persons authorized to invest in bonds or other obligations of the state, may properly and legally invest funds, including capital, in their control or belonging to them.

8. Bonds must be authorized by a resolution of the board. However, a resolution authorizing the issuance of bonds may delegate to an officer of the authority the power to negotiate and fix the details of an issue of bonds by an appropriate certificate of the authorized officer.

The term of a member of the board of directors is three years and commences at the organization meeting. Vacancies on the board shall be filled at the next regular meeting of the board by appointment by the remaining members of the board. A member so chosen shall be a resident of the district in which the vacancy occurred and shall serve until a member is elected pursuant to section 69.12 to fill the vacancy for the balance of the unexpired term. A vacancy is defined in section 277.29. 1. The board of a merged area may change the number of directors on the board and shall make corresponding changes in the boundaries of director districts. Changes shall be completed not later than June 1 for the regular school election to be held the next following September. As soon as possible after adoption of the boundary changes, notice of changes in the director district boundaries shall be submitted by the merged area to the county commissioner of elections in all counties included in whole or in part in the merged area.

2. The board of the merged area shall redraw boundary lines of director districts in the merged area after each census to compensate for changes in population if changes in population have taken place.

3. Boundary lines of director districts shall be drawn according to the following standards:
   a. All boundaries shall follow precinct boundaries or school director district boundaries unless a merged area director district boundary follows the boundary of a school district which divides one or more election precincts.
   b. To the extent possible in order to comply with paragraph “a”, all districts shall be as nearly equal as practicable to the ideal population for the districts as determined by dividing the number of districts to be established into the population of the merged area.
   c. All districts shall be composed of contiguous territory as compact as practicable.

260C.14 Authority of directors.

The board of directors of each community college shall:

1. Determine the curriculum to be offered in such school or college subject to approval of the director and ensure that all vocational offerings are competency-based, provide any minimum competencies required by the department of education, comply with any applicable requirements in chapter 258, and are articulated with local school district vocational education programs. If an existing private educational or vocational institution within the merged area has facilities and curriculum of adequate size and quality which would duplicate the functions of the area school, the board of directors shall discuss with the institution the possibility of entering into contracts to have the existing institution offer facilities and curriculum to students of the merged area. The board of directors shall consider any proposals submitted by the private institution for providing such facilities and curriculum. The board of directors may enter into such contracts. In approving curriculum, the director shall ascertain that all courses and programs submitted for approval are needed and that the curriculum being offered by an area school does not duplicate programs provided by existing public or private facilities in the area. In determining whether duplication would actually exist, the director shall consider the needs of the area and consider whether the proposed programs are competitive as to size, quality, tuition, purposes, and area coverage with existing public and private educational or vocational institutions within the merged area. If the board of directors of the merged area chooses not to enter into contracts with private institutions under this subsection, the board shall submit a list of reasons why contracts to avoid duplication were not entered into and an economic impact statement relating to the board's decision.

2. Have authority to determine tuition rates for instruction. Tuition for residents of Iowa shall not exceed the lowest tuition rate per semester, or the equivalent, charged by an institution of higher education under the state board of regents for a full-time resident student. However, except for students enrolled under chapter 261C, if a local school district pays tuition for a resident pupil of high school age, the limitation on tuition for residents of Iowa shall not apply, the amount of tuition shall be determined by the board of directors of the community college with the consent of the local school board, and the pupil shall not be included in the full-time equivalent enrollment of the community college for the purpose of computing general aid to the community college. Tuition for nonresidents of Iowa shall not be less than the marginal cost of instruction of a student attending the college. A lower tuition for nonresidents may be permitted under a reciprocal tuition agreement between a merged area and an educational institution in another state, if the agreement is approved by the director. The board may designate that a portion of the tuition moneys collected from students be used for student aid purposes.

3. Have the powers and duties with respect to community colleges, not otherwise provided in this chapter, which are prescribed for boards of directors of local school districts by chapter 279 except that the board of directors is not required to prohibit the use of tobacco and the use or possession of alcoholic liquor or beer by any student of legal age under the provisions of section 279.9.

4. Have the power to enter into contracts and take other necessary action to insure a sufficient curriculum and efficient operation and management of the college and maintain and protect the physical plant, equipment, and other property of the college.

5. Establish policy and make rules, not inconsistent with law and administrative rules, regulations, and policies of the state board, for its own government and that of the administrative, teaching, and other personnel, and the students of the college, and aid in the enforcement of such laws, rules, and regulations.

6. Have authority to sell a student-constructed building and the property on which the student-constructed building is located or any article resulting from any vocational program or course offered at a community college by any procedure which may be adopted by the board. Governmental agencies and governmental subdivisions of the state within the merged areas shall be given preference in the purchase of such articles. All revenue received from the sale of any article shall be credited to the funds of the board of the merged area.

7. With the consent of the inventor, and in the discretion of the board, secure letters patent or copyright on inventions of students, instructors, and officials of any community college of the merged area, or take assignment of such letters patent or copyright and make all necessary expenditures in regard thereto. Letters patent or copyright on inventions when so secured shall be the property of the board of the merged area and the royalties and earnings thereon shall be credited to the funds of the board.

8. Set the salary of the area superintendent. In setting the salary, the board shall consider the salaries of administrators of educational institutions in the merged area and the enrollment of the community college.

9. At the request of an employee through contractual agreement the board may arrange for the purchase of group or individual annuity contracts for any of its employees, which annuity contracts are issued by a nonprofit corporation issuing retirement annuities exclusively for educational institutions and their employees or are purchased...
from any company the employee chooses that is authorized to do business in this state or through an Iowa-licensed salesperson that the employee selects, on a group or individual basis, for retirement or other purposes, and may make payroll deductions in accordance with the arrangements for the purpose of paying the entire premium due and to become due under the contract. The deductions shall be made in the manner which will qualify the annuity premiums for the benefits under section 403(b) of the Internal Revenue Code, as defined in section 422.3. The employee's rights under the annuity contract are nonforfeitable except for the failure to pay premiums. If an existing tax-sheltered annuity contract is to be replaced by a new contract, the agent or representative of the company shall submit a letter of intent by registered mail or facsimile to the company being replaced, to the insurance commissioner of the state of Iowa, and to the agent's or representative's own company at least thirty days prior to any action. This letter of intent shall contain the policy number and description of the contract being replaced and a description of the replacement contract. As used in this section, unless the context otherwise requires, "annuity contract" includes any custodial account which meets the requirements of section 403(b)(7) of the Internal Revenue Code, as defined in section 422.3.

10. Make necessary rules to provide for the policing, control, and regulation of traffic and parking of vehicles and bicycles on the property of the community college. The rules may provide for the use of institutional roads, driveways, and grounds; registration of vehicles and bicycles; the designation of parking areas; the erection and maintenance of signs designating prohibitions or restrictions; the installation and maintenance of parking control devices except parking meters; and assessment, enforcement, and collection of reasonable penalties for the violation of the rules. Rules made under this subsection may be enforced under procedures adopted by the board of directors. Penalties may be imposed upon students, faculty, and staff for violation of the rules, including, but not limited to, a reasonable monetary penalty which may be deducted from student deposits and faculty or staff salaries or other funds in possession of the community college or added to student tuition bills. The rules made under this subsection may also be enforced by the impoundment of vehicles and bicycles parked in violation of the rules, and a reasonable fee may be charged for the cost of impoundment and storage prior to the release of the vehicle or bicycle to the owner. Each community college shall establish procedures for the determination of controversies in connection with the imposition of penalties. The procedures shall require giving notice of the violation and the penalty prescribed and providing the opportunity for an administrative hearing.

11. Be authorized to issue to employees of community colleges school credit cards to use for payment of authorized expenditures incurred in the performance of work-related duties.

12. During the second week of August of each year, publish by one insertion in at least one newspaper published in the merged area a summarized statement verified by affidavit of the secretary of the board showing the receipts and disbursements of all funds of the community college for the preceding fiscal year. The statement of disbursements shall show the names of the persons, firms, or corporations, and the total amount paid to each during the fiscal year. The board is not required to make the publications and notices required under sections 279.35 and 279.36.

13. Adopt policies and procedures for the use of telecommunications as an instructional tool at the community college. The policies and procedures shall include but not be limited to policies and procedures relating to programs, educational policy, practices, staff development, use of pilot projects, and the instructional application of the technology.

14. In its discretion, adopt rules relating to the classification of students enrolled in the community college who are residents of Iowa's sister states as residents or nonresidents for tuition and fee purposes.

15. By July 1, 1991, develop a policy which requires oral communication competence of persons who provide instruction to students attending institutions under the control of the board. The policy shall include a student evaluation mechanism which requires student evaluation of persons providing instruction on at least an annual basis.

16. By July 1, 1991, develop a policy relating to the teaching proficiency of teaching assistants which provides a teaching proficiency standard, instructional assistance to, and evaluation of persons who provide instruction to students at the higher education institutions under the control of the board.

17. Provide for eligible alternative retirement benefits systems which shall be limited to the following:

a. An alternative retirement benefits system which is issued by or through a nonprofit corporation issuing retirement annuities exclusively to educational institutions and their employees for persons newly employed after July 1, 1990, and for persons employed by the community college who are members of the Iowa public employees' retirement system on July 1, 1994, and who elect coverage under that system pursuant to section 97B.42, in lieu of coverage under the Iowa public employees' retirement system.

b. An alternative retirement benefits system which is issued by or through an insurance company authorized to issue annuity contracts in this state, for persons newly employed on or after July 1, 1997, who are already members of the alternative retirement benefits system and who elect cov-

The board of directors of a community college may limit the number of providers of alternative retirement benefits systems offered pursuant to this lettered paragraph to no more than six. The selection by the board of directors of a community college of a provider of an alternative retirement benefits system pursuant to this lettered paragraph shall not constitute an endorsement of that provider by the community college.

However, the employer's annual contribution in dollars under an eligible alternative retirement benefits system described in this subsection shall not exceed the annual contribution in dollars which the employer would contribute if the employee had elected to remain an active member pursuant to the Iowa public employees' retirement system, as set forth in section 97B.11. For purposes of this subsection, "alternative retirement benefits system" means an employer-sponsored primary pension plan requiring mandatory employer contributions that meets the requirements of section 401(a), 403(a), or 403(b) of the Internal Revenue Code.

r. “Inflation rate” means the average of the preceding twelve-month percentage change, which shall be computed on a monthly basis, in the consumer price index for all urban consumers, not seasonally adjusted, published by the United States department of labor, bureau of labor statistics, calculated for the calendar year ending six months after the beginning of the base year.

s. “State-average combined support per FTEE” means the average of the combined support per FTEE for all community colleges in the state in the base year.

t. “Three-year rolling average full-time equivalent enrollment” means the average of the audited full-time equivalent enrollment for a community college over the three fiscal years prior to the base year as determined by the department.

u. “Total growth support amount” means the sum of the eligible growth support for all the community colleges.

3. Distribution formula. Moneys appropriated by the general assembly from the general fund to the department for community college purposes for general state financial aid for a budget year shall be allocated to each community college by the department as follows:

(a) If the inflation rate is equal to two percent or less:

(1) Base funding allocation. The moneys shall first be allocated in the amount of general state financial aid each community college received in the base year. If the appropriation is less than the total of the amount of general state financial aid each community college received in the base year, the moneys shall be allocated in the same proportion as the allocation of general state financial aid each community college received in the base year.

(2) Marginal cost adjustment. After the base funding has been allocated, each community college shall be allocated up to an additional two percent of its base funding allocation. The community college’s allocation shall be in the same proportion as the allocation of general state financial aid each community college received in the base year.

(3) Three-year rolling average of full-time equivalent enrollment. If the increase in the total state general aid exceeds two percent over the base funding allocation, an amount up to an additional one percent of the base funding allocation shall be distributed based upon each community college’s proportional share of the three-year rolling average full-time equivalent enrollments for all community colleges.

(4) Extraordinary growth adjustment. If the increase in total state general aid exceeds three percent over the base funding allocation, an amount up to an additional one percent of the base funding allocation shall be distributed as follows:

(a) Forty percent of the moneys shall be allocated based upon each community college’s proportional share of the three-year rolling average full-time equivalent enrollments for all community colleges.

(b) Sixty percent of the moneys shall be allocated to community colleges that have eligible growth support. The allocation shall be based upon the proportional share that each community college’s eligible growth support bears to the total growth support amount. Once the moneys allocated under this subparagraph subdivision equal the total growth support amount, the remaining moneys allocated under this subparagraph shall be allocated as provided in subparagraph subdivision (a).

(5) Additional three-year rolling average FTEE allocation. If the increase in total state
general aid exceeds four percent over the base funding allocation, all remaining moneys shall be distributed based upon each college’s proportional share of the three-year rolling average full-time equivalent enrollments for all community colleges.

b. If the inflation rate is greater than two percent but less than four percent:

(1) **Base funding allocation.** The moneys shall first be allocated in the amount of general state financial aid each community college received in the base year. If the appropriation is less than the total of the amount of general state financial aid each community college received in the base year, the moneys shall be allocated in the same proportion as the allocation of general state financial aid each community college received in the base year.

(2) **Marginal cost adjustment.** After the base funding has been allocated, each community college shall be allocated up to an additional two percent of its base funding allocation. The community college’s allocation shall be in the same proportion as the allocation of general state financial aid each community college received in the base year.

(3) **Three-year rolling average of full-time equivalent enrollment.** If the increase in the total state general aid exceeds two percent over the base funding allocation, an amount up to an additional one percent of the base funding allocation shall be distributed based upon each community college’s proportional share of the three-year rolling average full-time equivalent enrollments for all community colleges.

(4) **Extraordinary growth adjustment.** If the increase in total state general aid exceeds three percent over the base funding allocation, an amount up to an additional one percent of the base funding allocation shall be based as follows:

(a) Forty percent of the moneys shall be allocated based upon each community college’s proportional share of the three-year rolling average full-time equivalent enrollments for all community colleges.

(b) Sixty percent of the moneys shall be allocated to community colleges that have eligible growth support. The allocation shall be based upon the proportional share that each community college’s eligible growth support bears to the total growth support amount. Once the moneys allocated under this subparagraph subdivision equal the total growth support amount, the remaining moneys allocated under this subparagraph shall be allocated as provided in subparagraph subdivision (a).

(5) **Inflation adjustment.** If the increase in total state general aid exceeds four percent over the base funding allocation, an amount up to the inflation adjustment amount shall be distributed to each community college in the same proportion as the allocation of general state financial aid each community college received in the base year.

(6) **Additional three-year rolling average FTEE allocation.** If there are remaining moneys to be distributed under this paragraph after distributing moneys under subparagraph (5), all remaining moneys shall be distributed based upon each community college’s proportional share of the three-year rolling average full-time equivalent enrollments for all community colleges.

c. If the inflation rate equals or exceeds four percent:

(1) **Base funding allocation.** The moneys shall first be allocated in the amount of general state financial aid each community college received in the base year. If the appropriation is less than the total of the amount of general state financial aid each community college received in the base year, the moneys shall be allocated in the same proportion as the allocation of general state financial aid each community college received in the base year.

(2) **Marginal cost adjustment.** After the base funding has been allocated, each community college shall be allocated up to an additional two percent of its base funding allocation. The community college’s allocation shall be in the same proportion as the allocation of general state financial aid each community college received in the base year.

(3) **Three-year rolling average of full-time equivalent enrollment.** If the increase in the total state general aid exceeds two percent over the base funding allocation, an amount up to an additional one percent of the base funding allocation shall be distributed based upon each community college’s proportional share of the three-year rolling average full-time equivalent enrollments for all community colleges.

(4) **Inflation adjustment.** If the increase in total state general aid exceeds three percent over the base funding allocation, an amount up to the inflation adjustment amount shall be distributed to each community college in the same proportion as the allocation of general state financial aid each community college received in the base year.

(5) **Extraordinary growth adjustment.** If there are remaining moneys to be distributed under this paragraph after distributing moneys under subparagraph (4), an amount up to an additional one percent of the base funding allocation shall be based as follows:

(a) Forty percent of the moneys shall be allocated based upon each community college’s proportional share of the three-year rolling average full-time equivalent enrollments for all community colleges.

(b) Sixty percent of the moneys shall be allocated to community colleges that have eligible growth support. The allocation shall be based upon the proportional share that each community college’s eligible growth support bears to the total growth support amount. Once the moneys allocat-
ed under this subparagraph subdivision equal the total growth support amount, the remaining monies allocated under this subparagraph shall be allocated as provided in subparagraph subdivision (a).

(6) Additional three-year rolling average FTEE allocation. If there are remaining moneys to be distributed under this paragraph after distributing moneys under subparagraph (5), all remaining moneys shall be distributed based upon each community college's proportional share of the three-year rolling average full-time equivalent enrollments for all community colleges.

4. Information supplied by colleges and adoption of rules.
   a. Each community college shall provide information in the manner and form as determined by the department. If a community college fails to provide the information as requested, the department shall estimate the full-time equivalent enrollment of that college.
   b. Each community college shall complete and submit an annual student enrollment audit to the department. Adjustments to community college state general aid allocations shall be made based on student enrollment audit outcomes.
   c. The department shall adopt rules under chapter 17A as necessary for the allocation of general state financial aid.

260C.22 Facilities levy by vote — borrowing — temporary cash reserve levy.

1. a. In addition to the tax authorized under section 260C.17, the voters in any merged area may at the annual school election vote a tax not exceeding twenty and one-fourth cents per thousand dollars of assessed value in any one year for a period not to exceed ten years for the purchase of grounds, construction of buildings, payment of debts contracted for the construction of buildings, purchase of buildings and equipment for buildings, and the acquisition of libraries, for the purpose of paying costs of utilities, and for the purpose of maintaining, remodeling, improving, or expanding the community college of the merged area. If the tax levy is approved under this section, the costs of utilities shall be paid from the proceeds of the levy. The tax shall be collected by the county treasurers and remitted to the treasurer of the merged area as provided in section 331.552, subsection 29. The proceeds of the tax shall be deposited in a separate and distinct fund to be known as the voted tax fund, to be paid out upon warrants drawn by the president and secretary of the board of directors of the merged area district for the payment of costs incurred in providing the school facilities for which the tax was voted.

b. In order to make immediately available to the merged area the proceeds of the voted tax hereinbefore authorized to be levied, the board of directors of any such merged area is hereby authorized, without the necessity for any further election, to borrow money and enter into loan agreements in anticipation of the collection of such tax, and such board shall, by resolution, provide for the levy of an annual tax, within the limits of the special voted tax hereinbefore authorized, sufficient to pay the amount of any such loan and the interest thereon to maturity as the same becomes due. A certified copy of this resolution shall be filed with the county auditors of the counties in which such merged area is located, and the filing thereof shall make it a duty of such auditors to enter annually this levy for collection until funds are realized to repay the loan and interest thereon in full. Said loan must mature within the number of years for which the tax has been voted and shall bear interest at a rate or rates not exceeding that permitted by chapter 74A. Any loan agreement entered into pursuant to authority herein contained shall be in such form as the board of directors shall by resolution provide and the loan shall be payable as to both principal and interest from the proceeds of the annual levy of the voted tax hereinbefore authorized, or so much thereof as will be sufficient to pay the loan and interest thereon. In furtherance of the foregoing the board of directors of such merged area may, with or without notice, negotiate and enter into a loan agreement or agreements with any bank, investment banker, trust company, insurance company or group thereof, whereunder the borrowing of the necessary funds may be assured and consummated. The proceeds of such loan shall be deposited in a special fund, to be kept separate and apart from all other funds of the merged area, and shall be paid out upon warrants drawn by the president and secretary of the board of directors to pay the cost of acquiring the school facilities for which the tax was voted.

c. If the boundary lines of a merged area are changed, the levy of the annual tax provided in this section sufficient to pay the amount due for a loan agreement and the interest on the loan agreement to maturity shall continue in any territory severed from the merged area until the loan with interest on the loan has been paid in full.

d. Nothing herein contained shall be construed to limit the authority of the board of directors to levy the full amount of the voted tax, but if and to whatever extent said tax is levied in any year in excess of the amount of principal and interest falling due in such year under any loan agreement, the first available proceeds thereof, to an amount sufficient to meet maturing installments of principal and interest under the loan agreement, shall be paid into the sinking fund for such loan before any of such taxes are otherwise made available to the merged area for other school purposes, and the amount required to be annually set aside to pay the principal of and interest on the money borrowed under such loan agreement shall constitute a first charge upon all of the proceeds of such annual special voted tax, which tax shall be pledged to pay said loan and the interest thereon.

e. This law shall be construed as supplemental and in addition to existing statutory authority and as providing an independent method of financing the cost of acquiring school facilities for which a tax has been voted under this section and for the borrowing of money and execution of loan agreements in connection therewith and shall not be construed as subject to the provisions of any other law. The fact that a merged area may have previously borrowed money and entered into loan agreements under authority herein contained
shall not prevent such merged area from borrowing additional money and entering into further
loan agreements provided that the aggregate of the amount payable under all of such loan agree-
dments does not exceed the proceeds of the voted tax. All acts and proceedings heretofore taken
by the board of directors or by any official of any merged area for the exercise of any of the powers
granted by this section are hereby legalized and validated in all respects.

2. The proceeds of the tax voted under subsection 1, paragraph “a”, prior to July 1, 1987 shall be
used for the purposes for which it was approved by the voters and may be used for the purpose of pay-
ing the costs of utilities.

3. In addition to the tax authorized under section 260C.17, the board of directors of an area
school may certify for levy by March 15, 1982 and March 15, 1983, a tax on taxable property in the
merged area at rates that will provide total revenues for the two years equal to five percent of the
area school’s general fund expenditures for the fiscal year ending June 30, 1980 in order to provide
a cash reserve for that area school. As nearly as possible, one-half the revenue for the cash reserve
fund shall be collected during each year.

The revenues derived from the levies shall be placed in a separate cash reserve fund. Moneys
from the cash reserve fund shall only be used to alleviate temporary cash shortages. If moneys from
the cash reserve fund are used to alleviate a temporary cash shortage, the cash reserve fund shall
be reimbursed immediately from the general fund of the community college as funds in the general
fund become available, but in no case later than June 30 of the current fiscal year, to repay the
funds taken from the cash reserve fund.

4. The board of directors of any merged area that failed to certify for levy under subsection 3 by
on taxable property in the merged area at rates that will provide total revenues for the two years
equal to five percent of the area school’s general fund expenditures for the fiscal year ending June 30, 1995, in order to provide a cash reserve for that
area school. As nearly as possible, one-half the revenue for the cash reserve fund shall be collect-
ed during each year.

The revenues derived from the levies shall be placed in a separate cash reserve fund. Notwith-
standing subsection 3, moneys from the cash re-
servve fund established by a merged area under subsection 3 or this subsection shall be used only to
alleviate temporary cash shortages. If moneys from the cash reserve fund are used to alleviate a
temporary cash shortage, the cash reserve fund shall be reimbursed immediately from the general
fund of the community college as funds in the general
fund become available, but in no case later than June 30 of the current fiscal year, to repay the
funds taken from the cash reserve fund.

Any merged area may combine with any adjacent merged area after a favorable vote by the electors of each of the areas involved. If the boards of directors of two or more merged areas agree to a combination, the question shall be submitted to the electors of each area at a special election to be held on the same day in each area. The special election shall not be held within thirty days of any general election. Prior to the special election, the board of each merged area shall notify the county commissioner of elections of the county in which the greatest proportion of the merged area's taxable base is located who shall publish notice of the election according to section 49.53. If only one collective bargaining agreement is in effect among the merged areas which are combining under this section, then that agreement shall serve as the base agreement, and the employees of the merged areas which are combining to form the new combined merged area...
shall automatically be accredited to the bargaining unit of that former merged area for purposes of negotiating the contracts for the following years without further action by the public employment relations board. The board of the combined merged area, using the base agreement as its existing contract, shall bargain with the combined employees of the merged areas that have agreed to combine for the academic year beginning with the effective date of the agreement to combine merged areas. The bargaining shall be completed by March 15 prior to the academic year in which the agreement to combine merged areas becomes effective or within one hundred eighty days after the organization of the acting board of the new combined merged area, whichever is later. If a bargaining agreement was already concluded in the former merged area which has the collective bargaining agreement that is serving as the base agreement for the new combined merged area, between the former merged area board and the employees of the former merged area, that agreement is void, unless the agreement contained multiyear provisions affecting academic years subsequent to the effective date of the agreement to form a combined merged area. If the base collective bargaining agreement contains multiyear provisions, the duration and effect of the agreement shall be controlled by the terms of the agreement. The policy shall include a clear statement of sanctions for violation of the policy and information about available drug or alcohol counseling and rehabilitation programs. In carrying out this policy, the merged area school shall provide substance abuse prevention programs for students and employees.

The secretary shall either deliver in person or mail the payments to the payees. A payment shall be made payable only to the person performing the service or furnishing the supplies for which the payment is issued. Payments issued prior to audit and allowance by the board shall be allowed by the board at the first meeting held after the issuance and shall be entered in the minutes of the meeting.

260C.43 Claims.
The board of directors of each merged area shall audit claims against the merged area to ensure proper and just payment of all claims. Each payment shall be made payable only to the person entitled to receive the payment with appropriate justification to ensure that the payment is in accordance with generally accepted accounting principles and procedures and in accordance with the system prescribed under section 260C.5, subsection 9. The board may designate one or more members of the board or may employ a certified public accountant to perform and certify the audit to the board to comply with this section.

260C.44 Apprenticeship programs.
Each community college is authorized to establish or contract for the establishment of apprenticeship programs for apprenticeable occupations. 260C.47 Accreditation of community college programs.

1. The state board of education shall establish an accreditation process for community college programs by July 1, 1997. The process shall be jointly developed and agreed upon by the department of education and the community colleges. The state accreditation process shall be integrated with the accreditation process of the north central association of colleges and schools, including the evaluation cycle, the self-study process, and the criteria for evaluation, which shall incorporate the standards for community colleges developed under section 260C.48; and shall identify and make provision for the needs of the state that are not met by the association’s accreditation process. For the academic year commencing July 1, 1998, and in succeeding school years, the department of education shall use a two-component process for the continued accreditation of community college programs. Beginning July 1, 2006, the state accreditation process shall incorporate the standards developed pursuant to section 260C.48, subsection 4.

a. The first component consists of submission of required data by the community colleges and annual monitoring by the department of education of all community colleges for compliance with state program evaluation requirements adopted by the state board.

b. The second component consists of the use of an accreditation team appointed by the director of the department of education, to conduct an evaluation, including an on-site visit of each community college, with a comprehensive evaluation to occur during the same year as the evaluation by the north central association of colleges and schools, and an interim evaluation midway between comprehensive evaluations. The number and composition of the accreditation team shall be determined by the director, but the team shall include members of the department of education staff and community college staff members from community colleges other than the community college that conducts the programs being evaluated for accreditation. Beginning July 1, 2006, the accreditation team shall monitor the quality faculty plan implemented by each community college pursuant to section 260C.36.

c. Rules adopted by the state board shall include provisions for coordination of the accreditation process under this section with activities of accreditation associations, which are designed to avoid duplication in the accreditation process.

2. Prior to a visit to a community college, members of the accreditation team shall have access to the program audit report filed with the department for that community college. After a visit to a community college, the accreditation team shall determine whether the accreditation standards for a program have been met and shall make a report to the director and the state board, together with a recommendation as to whether the program of the community college should remain accredited. The accreditation team shall report strengths and weaknesses, if any, for each program standard and shall advise the community college of available resources and technical assistance to further enhance strengths and improve areas of weakness. A community college may respond to the accreditation team’s report.

3. The state board shall determine whether a program of a community college shall remain accredited. If the state board determines that a program of a community college does not meet accreditation standards, the director of the department
of education, in cooperation with the board of directors of the community college, shall establish a plan prescribing the procedures that must be taken to correct deficiencies in meeting the program standards, and shall establish a deadline date for correction of the deficiencies. The deadline for correction of deficiencies under a plan shall be no later than June 30 of the year following the on-site visit of the accreditation team. The plan is subject to approval of the state board. Plans shall include components which address meeting program deficiencies, sharing or merger options, discontinuance of specific programs or courses of study, and any other options proposed by the state board or the accreditation team to allow the college to meet the program standards.

4. During the time specified in the plan for its implementation, the community college program remains accredited. The accreditation team shall revisit the community college and shall determine whether the deficiencies in the standards for the program have been corrected and shall make a report and recommendation to the director and the state board. The state board shall review the report and recommendation, may request additional information, and shall determine whether the deficiencies in the program have been corrected.

5. If the deficiencies have not been corrected in a program of a community college, the community college board shall take one of the following actions within sixty days from removal of accreditation:

a. Merge the deficient program or programs with a program or programs from another accredited community college.

b. Contract with another educational institution for purposes of program delivery at the community college.

c. Discontinue the program or programs which have been identified as deficient.

6. The director of the department of education shall give a community college which has a program which fails to meet accreditation standards at least one year’s notice prior to removal of accreditation of the program. The notice shall be given by certified mail or restricted certified mail addressed to the superintendent of the community college and shall specify the reasons for removal of accreditation of the program. The notice shall also be sent by ordinary mail to each member of the board of directors of the community college. Any good faith error or failure to comply with the notice requirements shall not affect the validity of any action by the director. If, during the year, the community college remedies the reasons for removal of accreditation of the program and satisfies the director that the community college will comply with the accreditation standards for that program in the future, the director shall continue the accreditation of the program of the community college and shall transmit notice of the action to the community college by certified mail or restricted certified mail.

7. The action of the director to remove a community college’s accreditation of the program may be appealed to the state board. At the hearing, the community college may be represented by counsel and may present evidence. The state board may provide for the hearing to be recorded or reported. If requested by the community college at least ten days before the hearing, the state board shall provide for the hearing to be recorded or reported at the expense of the community college, using any reasonable method specified by the community college. Within ten days after the hearing, the state board shall render a written decision, and shall affirm, modify, or vacate the action or proposed action to remove the college’s accreditation of the program. Action by the state board is final agency action for purposes of chapter 17A.

260C.48 Standards for accrediting community college programs.

1. The state board shall develop standards and rules for the accreditation of community college programs. Except as provided in this subsection and subsection 4, standards developed shall be general in nature so as to apply to more than one specific program of instruction. With regard to community college-employed instructors, the standards adopted shall at a minimum require that full-time community college instructors meet the following requirements:

a. Instructors in the subject area of career and technical education shall be registered, certified, or licensed in the occupational area in which the instructor is teaching, and shall hold the appropriate registration, certificate, or license for the occupational area in which the instructor is teaching, and shall meet either of the following qualifications:

(1) A baccalaureate or graduate degree in the area or a related area of study or occupational area in which the instructor is teaching classes.

(2) Special training and at least six thousand hours of recent and relevant work experience in the occupational area or related occupational area in which the instructor teaches classes if the instructor possesses less than a baccalaureate degree.

b. Instructors in the subject area of arts and sciences shall meet either of the following qualifications:
(1) Possess a master’s degree from a regionally accredited graduate school, and has successfully completed a minimum of twelve credit hours of graduate level courses in each field of instruction in which the instructor is teaching classes.

(2) Has two or more years of successful experience in a professional field or area in which the instructor is teaching classes and in which postbaccalaureate recognition or professional licensure is necessary for practice, including but not limited to the fields or areas of accounting, engineering, law, law enforcement, and medicine.

2. Standards developed shall include a provision that the standard academic workload for an instructor in arts and science courses shall be fifteen credit hours per school term, and the maximum academic workload for any instructor shall be sixteen credit hours per school term, for classes taught during the normal school day. In addition thereto, any faculty member may teach a course or courses at times other than the regular school week, involving total class instruction time equivalent to not more than a three-credit-hour course. The total workload for such instructors shall not exceed the equivalent of eighteen credit hours per school term.

3. Standards developed shall include provisions requiring equal access in recruitment, enrollment, and placement activities for students with special education needs. The provisions shall include a requirement that students with special education needs shall receive instruction in the least restrictive environment with access to the full range of program offerings at a college, through, but not limited to, adaptation of curriculum, instruction, equipment, facilities, career guidance, and counseling services.

4. Commencing July 1, 2006, standards relating to quality assurance of faculty and ongoing quality professional development shall be the accreditation standards of the north central association of colleges and schools and the faculty standards required under specific programs offered by the community college that are accredited by other accrediting agencies.

260C.49 Rules.
The department of education shall adopt rules and definitions of terms necessary for the administration of this chapter. The school budget review committee shall adopt rules under chapter 17A to carry out section 260C.18B.

260C.58 Bonds or notes.

To pay all or any part of the cost of carrying out any project at any institution the board is authorized to borrow money and to issue and sell negotiable bonds or notes and to refund and refinance bonds or notes issued for any project or for refunding purposes at a lower rate, the same rate, or a higher rate or rates of interest and from time to time as often as the board shall find it to be advisable and necessary so to do. Bonds or notes issued by the board for residence hall or dormitory purposes at any institution, including dining or other facilities and additions, or issued for refunding purposes, may either be sold in the manner specified for the selling of certificates under section 260E.6 and the proceeds applied to the payment of the obligations being refunded, or the refunding bonds or notes may be exchanged for and in payment and discharge of the obligations being refunded. A finding by the board in the resolution authorizing the issuance of the refunding bonds or notes, that the bonds or notes being refunded were issued for a purpose specified in this division and constitute binding obligations of the board, shall be conclusive and may be relied upon by any holder of any refunding bond or note issued under the provisions of this division. The refunding bonds or notes may be sold or exchanged in installments at different times or an entire issue or series may be sold or exchanged at one time. Any issue or series of refunding bonds or notes may be exchanged in part or sold in parts in installments at different times or at one time. The refunding bonds or notes may be sold or exchanged at any time on, before, or after the maturity of any of the outstanding bonds, or other obligations to be refi nanced thereby and may be issued for the purpose of refunding a like or greater principal amount of bonds or notes, except that the principal amount of the refunding bonds or notes may exceed the principal amount of the bonds or notes to be refunded to the extent necessary to pay any premium due on the call of the bonds or notes to be refunded, to fund interest in arrears or about to become due, or to allow for sufficient funding of the escrow account on the bonds to be refunded.

All bonds or notes issued under the provisions of this division shall be payable from and shall be secured by an irrevocable first lien pledge of a sufficient portion of the following: the net rents, profits and income derived from the operation of residence halls, dormitories, dining or other incidental facilities and additions, including necessary real and personal property, acquired or improved in whole or in part with the proceeds of such bonds or notes, regardless of the manner of such acquisition or improvement; and the net rents, profits and income not pledged for other purposes derived from the operation of any other residence halls or dormitories, including dining or other incidental facilities and additions, at the particular institution. In addition, the board may secure any bonds or notes issued by borrowing money, by mortgaging any real estate or improvements erected on real estate, or by pledging rents, profits, and income received from property for the discharge of mortgages. All bonds or notes issued under the provisions of this division shall have all the qualities of negotiable instruments under the laws of this state.

In addition to the estimated cost of construction, the cost of the project shall be deemed to include interest upon the bonds or notes during construction and for six months after the estimated completion date, the compensation of a fiscal agent or adviser, any underwriter discount, and engineering, administrative and legal expenses. The bonds or notes shall be executed by the president of the board of directors and attested by the secretary. Any bonds or notes bearing the signatures of officers in office on the date of the signing shall be valid and binding for all purposes, notwithstanding that before delivery of the bonds or notes any or all persons whose signatures appear on the bonds or notes shall have ceased to be officers. Each bond or note shall state upon its face the name of the institution on behalf of which it is issued, that it is payable solely and only from the net rents, profits and income derived from the operation of residence halls or dormitories, including dining and other incidental facilities, at the institution named, and that it does not constitute a charge against the state of Iowa within the meaning or application of any constitutional or statutory limitation or provision. 1. A community college may enter into an agreement to establish a project. If an agreement is entered into, the community college and the employer shall notify the department of revenue as soon as possible. An agreement shall provide for program costs, including deferred costs, which may be paid from one or a combination of the following sources:

2. Payment of program costs shall not be deferred for a period longer than ten years from the date of commencement of the project.
3. Costs of on-the-job training for employees shall not exceed fifty percent of the annual gross payroll costs for up to one year of the new jobs. For purposes of this subsection, "gross payroll" can be the gross wages, salaries, and benefits for the jobs in training in the project.
4. An agreement shall include a provision which fixes the minimum amount of incremental property taxes, new jobs credit from withholding, or tuition and fee payments which shall be paid for program costs.
5. Any payments required to be made by an employer are a lien upon the employer's business
property until paid and have equal precedence with ordinary taxes and shall not be divested by a judicial sale. Property subject to the lien may be sold for sums due and delinquent at a tax sale, with the same forfeitures, penalties, and consequences as for the nonpayment of ordinary taxes. The purchaser at tax sale obtains the property subject to the remaining payments.

§260E.4 Incremental property taxes.
If an agreement provides that all or part of program costs are to be paid for by incremental property taxes, the board of directors shall provide by resolution that taxes levied on the employer’s taxable business property, where new jobs are created as a result of a project, each year by or for the benefit of the state, city, county, school district, or other taxing district after the effective date of the resolution shall be divided as provided in section 403.19, subsections 1 and 2, in the same manner as if the employer’s business property, where new jobs are created as a result of a project, was taxable property in an urban renewal project and the resolution was an ordinance within the meaning of those subsections. The taxes received by the board of directors shall be allocated to and when collected be paid into a special fund of the community college and may be irrevocably pledged by the community college to pay the principal of and interest on the certificates issued by the community college to finance or refinance, in whole or in part, the project. When the principal and interest on the certificates have been paid, the employer credits shall cease and any money received after the certificates have been paid shall be remitted to the treasurer of state to be deposited in the general fund of the state.

1. New jobs credit from withholding shall be credited from the payment made by an employer pursuant to section 422.16. If the amount of the withholding by the employer is less than one and one-half percent of the gross wages paid to the employees covered by the agreement, then the employer shall receive a credit against other withholding taxes due by the employer. The employer shall remit the amount of the credit quarterly in the same manner as withholding payments are reported to the department of revenue, to the community college to be allocated to and when collected paid into a special fund of the community college to pay the principal of and interest on certificates issued by the community college to finance or refinance, in whole or in part, the project.

2. Certificates may be issued with respect to a project. The receipts shall be pledged to the payment of principal of and interest on the certificates issued by the community college to finance or refinance, in whole or in part, the project.

3. The new jobs credit from withholding and the special fund into which it is paid, may be irrevocably pledged by a community college for the payment of the principal of and interest on the certificates issued by the community college to finance or refinance, in whole or in part, the project.

4. The employer shall certify to the department of revenue that the credit in withholding is in accordance with an agreement and shall provide other information the department may require.

5. A community college shall certify to the department of revenue the amount of new jobs credit from withholding an employer has remitted to the special fund and shall provide other information the department may require.

6. An employee participating in a project will receive full credit for the amount withheld as provided in section 422.16. If the amount of the credit authorized by the agreement is in excess of the amount withheld, the community college may borrow money and issue and sell certificates payable from a sufficient portion of the future receipts of payments authorized by the agreement. The receipts shall be pledged to the payment of principal of and interest on the certificates.

2. Certificates may be issued with respect to a
§260E.6, INDUSTRIAL NEW JOBS TRAINING

single project or multiple projects and may contain terms or conditions as the board of directors may provide by resolution authorizing the issuance of the certificates.

3. Certificates issued to refund other certificates may be sold at public sale or at private sale as provided in this section with the proceeds from the sale to be used for the payment of the certificates being refunded. The refunding certificates may be exchanged in payment and discharge of the certificates being refunded, in installments at different times or an entire issue or series at one time. Refunding certificates may be sold or exchanged at any time on, before, or after the maturity of the outstanding certificates to be refunded, may be issued for the purpose of refunding a like, greater, or lesser principal amount of certificates and may bear a higher, lower, or equivalent rate of interest than the certificates being renewed or refunded.

4. To further secure the payment of the certificates, the board of directors shall, by resolution, provide for the assessment of an annual levy of a standby tax upon all taxable property within the merged area. A copy of the resolution shall be sent to the county auditor of each county in which the merged area is located. The revenues from the standby tax shall be deposited in a special fund and shall be expended only for the payment of principal of and interest on the certificates issued as provided in this section, when the receipt of payment for program costs as provided in the agreement is insufficient. If payments are necessary and made from the special fund, the amount of the payments shall be promptly repaid into the special fund from the first available payments received for program costs as provided in the agreement. If necessary, the board of directors shall adjust the annual standby tax levy for each year to reflect the amount of revenues in the special fund and the amount of principal and interest which is due in that year.

5. Before certificates are issued, the board of directors shall publish once a notice of its intention to issue the certificates, stating the amount, the purpose, and the project or projects for which the certificates are to be issued. A person may, within fifteen days after the publication of the notice, appeal to the district court of a county in the area within which the community college is located, appeal the decision of the board of directors in proposing to issue the certificates. The action of the board of directors in determining to issue the certificates is final and conclusive unless the district court finds that the board of directors has exceeded its legal authority. An action shall not be brought which questions the legality of the certificates, the power of the board of directors to issue the certificates, the effectiveness of any proceedings relating to the authorization of the project, or the authorization and issuance of the certificates from and after fifteen days from the publication of the notice of intention to issue.

6. The board of directors shall determine if revenues are sufficient to secure the faithful performance of obligations in the agreement.

DIVISION XII
MINORITY ACADEMIC GRANTS FOR ECONOMIC SUCCESS

261.101 Legislative intent.
The general assembly finds that the failure of many young Iowans to complete their education limits their opportunity for a life of fulfillment and hinders the state's efforts to provide a well-trained workforce for business and industry in Iowa. Therefore, the "Iowa Minority Academic Grants for Economic Success" program is established to provide additional funding to the state board of regents institutions, community colleges, and accredited private institutions in order to encourage resident minority students to remain in Iowa, to attend community colleges, private colleges, and universities in Iowa, and to assure that a limited family income will not be a barrier for a minority person to pursue a postsecondary education.

12. Notwithstanding other provisions in this chapter, commingle and pledge as security for a series or issue of obligations, with the consent of all of the institutions which are participating in the series or issue, the education loan series portfolios and some or all future education loan series portfolios of the institutions, and the loan funding deposits of the institutions. However, the education loan series portfolios and other security and moneys set aside in a fund or funds pledged for a series or issue of obligations shall be held for the sole benefit of the series or issue separate and apart from education loan series portfolios and other security and moneys pledged for any other series or issue of obligations. [82 Acts, ch 1031, §8]

**261A.9 Expenses of authority — limitation of liability.**

Expenses incurred in carrying out this chapter are payable solely from funds provided under this chapter and, except as specifically authorized under this chapter, a liability shall not be incurred by the authority beyond the extent to which moneys have been provided under this chapter.

A default reserve fund may be established for each series or issue of obligations. In the discretion of the authority, obligations may be secured by a trust agreement by and between the authority and a corporate trustee or trustees, which may be a trust company or bank located in the state of Iowa that has the powers of a trust company. The bond resolution shall pledge the revenues to be received by the authority, may contain provisions for protecting and enforcing the rights and remedies of the holders of obligations as reasonable and proper and not in violation of law, including provisions that have been authorized to be included in any bond resolution of the authority, and may restrict the individual right of action by holders of obligations. 261A.14 Payment of obligations — nonliability of state.
Obligations are obligations of the authority only, and not of the state of Iowa. Each obligation shall state upon its face that it represents and constitutes a debt of the authority, but not of the state of Iowa within the meaning of any constitutional or statutory limitation, and that it does not constitute a pledge of the full faith and credit of the authority or of the state of Iowa. The obligations shall not grant to the owners or holders of the obligations the right to have the authority or the state levy taxes or appropriate funds for the payment of the principal or interest on the obligations. The obligations are payable, and shall state that they are payable, solely from the revenues pledged for their payment in accordance with the bond resolution.

This chapter does not authorize the authority or any department, board, commission, or other agency to create an obligation of the state within the meaning of the Constitution or laws of the State of Iowa. [82 Acts, ch 1031, §14] 2006 Acts, ch 1010, §80

261A.15 Pledge of revenues.
The authority shall fix, revise, charge, and collect fees and may contract with a person to do so. Each agreement entered into by the authority with an institution shall provide that the fees and other amounts payable by the institution of higher education with respect to a program of the authority are sufficient at all times to meet all of the following:
1. To pay its share of the administrative costs and expenses of the program.
2. To pay the principal of, the premium, if any, and the interest on outstanding obligations of the authority, issued in respect of the program to the extent that other revenues of the authority pledged for the payment of the obligations are insufficient to pay the obligations as they become due and payable.
3. To create and maintain reserves which may but need not be required or provided for in the bond resolution relating to the obligations of the authority.
4. To establish and maintain whatever education loan servicing, control, or audit procedures are deemed by the authority to be necessary to the prudent operation of the authority.
The authority shall pledge the revenues from each program as security for the issue of obligations relating to the program. A pledge is valid and binding from the time when the pledge is made, the revenues pledged by the authority are immediately subject to the lien of the pledge without physical delivery of the pledge or further act, and the lien of the pledge is valid and binding against all parties having claims of any kind in tort, contract, or otherwise against the authority or a participating institution, irrespective of whether the parties have notice of the lien. The bond resolution and a financing statement, continuation statement, or other instrument by which the authority's interest in revenues is assigned need not be filed or recorded in public records in order to perfect the lien against third parties except that a copy of it shall be filed in the records of the authority and with the treasurer of state. [82 Acts, ch 1031, §15]

261A.16 Funds for sales of obligations as trust funds — application of funds.

An officer with whom, or a bank or trust company with which the moneys are deposited shall act as trustee of the moneys and shall hold and apply the moneys for the purposes of this chapter, subject to rules that this chapter and the bond resolution authorizing the obligations of an issue may provide. [82 Acts, ch 1031, §17]

261A.18 Refunding bonds — purpose — proceeds — investment of proceeds.
1. The authority may issue its obligations for
the purpose of refunding obligations then outstanding, including the payment of a redemption premium on the obligations and interest accrued or to accrue to the earliest or a subsequent date of redemption, purchase, or maturity of the obligations.

2. The proceeds of obligations issued for the purpose of refunding outstanding obligations may, in the discretion of the authority, be applied to the purchase or retirement at maturity or redemption of the outstanding obligations either on their earliest or a subsequent redemption date or upon the purchase or at the maturity of the obligations and may, pending an application, be placed in escrow to be applied to the purchase or retirement at maturity or redemption on a date determined by the authority.

3. Any escrowed proceeds, pending their use, may be invested and reinvested in direct obligations of the United States of America, maturing at times as appropriate to assure the prompt payment of the principal of and interest and redemption premium, if any, on the outstanding obligations to be refunded. The interest, income, and profits, if any, earned or realized on an investment may also be applied to the payment of the outstanding obligations to be refunded. After the terms of the escrow have been fully satisfied and carried out, a balance of the proceeds and interest, income, and profits, if any, earned or realized on the investments shall be returned to the institution of higher education for use by it in any lawful manner.

4. Refunding obligations are subject to this chapter in the same manner and to the same extent as other obligations issued pursuant to this chapter.

[82 Acts, ch 1031, §18]

261A.19 Investment of funds of authority.
Except as otherwise provided in section 261A.18, subsection 3, the authority may invest funds in direct obligations of the United States of America; obligations for which the timely payment of principal and interest is fully guaranteed by the United States of America; obligations of the federal intermediate credit banks, federal banks for cooperatives, federal land banks, federal home loan banks, federal national mortgage association, government national mortgage association and the student loan marketing association; certificates of deposit or time deposits constituting direct obligations of a bank as defined by chapter 524; and in withdrawable capital accounts or deposits of state or federal chartered savings and loan associations which are insured by the federal savings and loan insurance corporation. However, investments may be made only in certificates of deposit or time deposits in banks which are insured by the federal deposit insurance corporation if then in existence. Securities authorized in this section may be purchased at the offering or market price at the time of the purchase. The securities purchased shall mature or be redeemable on dates prior to the time when, in the judgment of the authority, the funds invested will be required for expenditure. The judgment of the authority as to the time when funds will be required for expenditure or be redeemable is final.

[82 Acts, ch 1031, §23]

§261A.24 Chapter as alternative method — powers not subject to supervision or regulation.
Sections 261A.1 to 261A.23 provide a complete, additional, and alternative method for the doing of the things authorized by the chapter and the limitations imposed by this chapter do not affect powers or rights conferred by other laws, and the issuance of obligations and refunding obligations under this chapter need not comply with the requirements of any other law applicable to the issuance of obligations. [82 Acts, ch 1031, §24]

§261A.25 Notice.

DIVISION II
HIGHER EDUCATION FACILITIES PROGRAM

§261A.32 Legislative findings.
The general assembly finds:
1. For the benefit of the people of the state of Iowa, the increase of their commerce, welfare, and prosperity, and the improvement of their health and living conditions, it is essential that this and future generations of youth be given the greatest opportunity to learn and to fully develop their intellectual and mental capacities and skills.
2. To achieve these ends it is of the utmost importance that educational institutions within the state be provided with appropriate additional means of assisting the youth in achieving the required levels of learning and development of their intellectual and mental capacities and skills through new or enhanced physical facilities and equipment at these institutions.
3. The financing and refinancing of educational facilities, through means as described in this division, other than the appropriation of public funds to institutions, is a valid public purpose.

261A.39 General powers — apportionment of costs.

The authority may do all things necessary or convenient to carry out the purposes of this division. To facilitate the combining of projects, obligations may be issued in series under one or more resolutions or trust agreements and may be fully open-ended, thus providing for the unlimited issuance of additional series, or partially open-ended, limited as to additional series. The authority may permit an institution to substitute one or more projects of equal value, as determined by an independent appraiser satisfactory to the authority, for a project financed under this division on terms and subject to conditions the authority prescribes.

Except to the extent payable from payments to be made on federally guaranteed securities as provided in section 261A.45, the principal of and the interest on the obligations shall be payable solely out of the revenue of the authority derived from the project to which they relate and from other facilities pledged or made available for this purpose by the institution for whose benefit the obligations were issued. The obligations of each issue shall be dated, shall bear interest at rate or rates, without regard to any limit contained in any other statute or law of the state, and shall mature at times not exceeding forty years from the date of issuance, all as determined by the authority; and may be made redeemable before maturity at the prices and under terms fixed by the authority in the authorizing resolution.

Except as otherwise provided by this division, the obligations are to be paid solely out of the revenue of the project to which they relate and, in certain instances, out of the revenue of certain other facilities, and subject to section 261A.45 with respect to a pledge of government securities, the obligations may be unsecured or secured in the manner and to the extent determined by the authority. The obligations and coupons attached, if any, shall be executed by the manual or facsimile signatures of officers of the authority designated by the authority. If an official of the authority whose signature or a facsimile of whose signature appears on any obligations or coupons ceases to be an official before the delivery of the obligations, the signature or facsimile, nevertheless, is valid and sufficient for all purposes the same as if the individual had remained an official of the authority until delivery. Obligations issued under this division have all the qualities and incidents of negotiable instruments, notwithstanding this payment from limited sources and
The proceeds of the obligations of each issue shall be used solely for the payment of the cost of the project for which the obligations have been issued, and shall be disbursed in the manner and under the restrictions, if any, as the authority provides in the resolution authorizing the issuance of the obligations or in the trust agreement provided for in section 261A.44 securing the obligations. If the proceeds of the obligations of an issue, by error of estimates or otherwise, are less than the costs, additional obligations may in like manner be issued to provide the amount of the deficit, and, unless otherwise provided in the resolution authorizing the issuance of the obligations or in the trust agreement securing them, shall be deemed to be of the same issue and shall be entitled to payment from the same fund without preference or priority of the obligations first issued. If the proceeds of the obligations of an issue shall exceed the cost of the project for which the same shall have been issued, the surplus shall be deposited to the credit of the sinking fund for the obligations. Prior to the preparation of definitive obligations, the authority may, under like restrictions, issue interim receipts or temporary obligations, with or without coupons, exchangeable for definitive obligations when the obligations have been executed and are available for delivery.

The authority may also provide for the replacement of obligations which become mutilated or are destroyed or lost. Obligations may be issued under this division without obtaining the consent of an officer, department, division, commission, board, bureau, or agency of the state, and without other proceedings or conditions other than those which are specifically required by this division. The authority may purchase its bonds out of funds available for that purpose. The authority may hold, pledge, cancel, or resell the obligations, subject to and in accordance with any agreement with the obligation holders. 2. Setting aside reserves or sinking funds, and the regulation, investment, and disposition of them.

A pledge or assignment made by the authority pursuant to this section is valid and binding from the time that the pledge or assignment is made, and the revenue pledged and thereafter received by the authority is immediately subject to the lien of the pledge or assignment without physical delivery or any further act. The lien of the pledge or assignment is
valid and binding against all parties having claims of any kind in tort, contract, or otherwise against the authority irrespective of whether the parties have notice of the lien. The resolution or trust agreement by which a pledge is created or an assignment made shall be filed or recorded in the records of the authority, with the secretary of state, and in each county in which the project is located. The trust agreement or resolution providing for the issuance of the obligations may contain provisions for protecting and enforcing the rights and remedies of the obligation holders as are reasonable and proper, not in violation of law, or provided for in this division. A bank or trust company incorporated under the laws of this state which acts as depository of proceeds of the obligations, revenue, or other money shall furnish the indemnifying obligations or pledge the securities as required by the authority. The trust agreement may set forth the rights and remedies of the obligation holders and of the trustee, and may restrict the individual right of action by obligation holders. The trust agreement or resolution may contain other provisions the authority deems reasonable and proper for the security of the obligation holders. Expense incurred in carrying out the trust agreement or resolution may be treated as a part of the cost of the operation of a project.

261A.45 Obligations issued to acquire federally guaranteed securities.

The authority may finance the cost of a project, refund outstanding indebtedness, or reimburse advances from an endowment or similar fund of an institution as authorized by this division, by issuing its obligations pursuant to a plan of financing involving the acquisition of a federally guaranteed security or the acquisition or entering into of commitments to acquire a federally guaranteed security. For the purposes of this section, “federally guaranteed security” means any direct obligation of, or obligation the principal of and interest on which are fully guaranteed or insured by the United States, or an obligation issued by, or the principal of and interest on which are fully guaranteed or insured by any agency or instrumentality of the United States, including without limitation an obligation that is issued pursuant to the National Housing Act, or any successor provision of law.

The authority may acquire or enter into commitments to acquire a federally guaranteed security and pledge or otherwise use the federally guaranteed security in the manner the authority deems in its best interest to secure or otherwise provide a source of repayment of its obligations issued to finance or refinance a project, or may enter into an appropriate agreement with an institution whereby the authority may make a loan to the institution for the purpose of acquiring or entering into commitments to acquire a federally guaranteed security. An agreement entered into pursuant to this section may contain provisions deemed necessary or desirable by the authority for the security or protection of the authority or the holders of the obligations, except that the authority, prior to making an acquisition, commitment, or loan, shall determine and enter into an agreement with the institution or another appropriate institution to require that the proceeds derived from the acquisition of a federally guaranteed security will be used, directly or indirectly, for the purpose of financing or refinancing a project.

The obligations issued pursuant to this section shall not exceed in principal amount the cost of financing or refinancing the project as determined by the participating institution and approved by the authority, except that the costs may include, without limitation, all costs and expenses necessary or incidental to the acquisition of or commitment to acquire a federally guaranteed security and to the issuance and obtaining of insurance or guarantee of an obligation issued or incurred in connection with a federally guaranteed security. In other respects the bonds are subject to this division, and the trust agreement creating the bonds may contain provisions set forth in this division as the authority deems appropriate.

If a project is financed or refinanced pursuant to this section, the title to the project shall remain in the participating institution owning the project, subject to the lien of a mortgage or security interest securing, directly or indirectly, the federally guaranteed securities being purchased or to be purchased.

All revenue obligations shall contain on their face a statement to the effect that the obligations, as to both principal and interest, are not obligations of the state, or of any political subdivision of the state, but are limited obligations of the authority payable solely from revenue or securities pledged for their payment. Expenses incurred in carrying out this division are payable solely from funds provided under this division, and this division does not authorize the authority to incur indebtedness or liability on behalf of or

The rights of holders include the right to compel the performance of all duties of the authority required by this division or the resolution or trust agreement, to enjoin unlawful activities, and in the event of default with respect to the payment of any principal of, premium, if any, and interest on an obligation or in the performance of a covenant or agreement on the part of the authority in the resolution, to apply to a court having jurisdiction of the cause to appoint a receiver to administer and operate the project, the revenue of which is pledged to the payment of the principal of, premium, if any, and interest on the obligations, the receiver to have full power to pay and to provide for payment of the principal of, premium, if any, and interest on the obligations, and to have the powers, subject to the direction of the court, as are permitted by law and are accorded receivers in general equity cases, including the power to foreclose the mortgage on the project in the same manner as the foreclosure of a mortgage on real estate of private corporations, but excluding any power to pledge additional revenue of the authority to the payment of the principal, premium, and interest.

The commission shall not incur any obligations of any kind prior to the making of appropriations adequate to meet the same; nor shall the commission pledge the credit of any of the compacting states, except by and with the authority of the compacting state.

The commission shall keep accurate accounts of all receipts and disbursements. The receipts and disbursements of the commission shall be subject to the audit and accounting procedures established under its bylaws. However, all receipts and disbursements of funds handled by the commission shall be audited yearly by a certified or licensed public accountant and the report of the audit shall be included in and become part of the annual report of the commission.

The accounts of the commission shall be open at any reasonable time for inspection by duly authorized representatives of the compacting states and persons authorized by the commission.

ARTICLE VI

Amendments to the compact shall become effective upon their enactment by the legislatures of all compacting states.

ARTICLE VII
WITHDRAWAL, DEFAULT, AND TERMINATION

Any compacting state may withdraw from this compact by enacting a statute repealing the compact, but such withdrawal shall not become effective until two years after the enactment of such statute. A withdrawing state shall be liable for any obligations which it may have incurred on account of its party status up to the effective date of withdrawal, except that if the withdrawing state has specifically undertaken or committed itself to any performance of an obligation extending beyond the effective date of withdrawal, it shall remain liable to the extent of such obligation.

If any compacting state shall at any time default in the performance of any of its obligations, assumed or imposed, in accordance with the provisions of this compact, all rights, privileges, and benefits conferred by this compact or agreements hereunder shall be suspended from the effective date of such default as fixed by the commission, and the commission shall stipulate the conditions and maximum time for compliance under which the defaulting state may resume its regular status. Unless such default shall be remedied under the stipulations and within the time period set forth by the commission, this compact may be terminated with respect to such defaulting state by affirmative vote of a majority of the other member states. Any such defaulting state may be reinstated by performing all acts and obligations as stipulated by the commission.

ARTICLE VIII
SEVERABILITY AND CONSTRUCTION

The provisions of this compact entered into hereunder shall be severable and if any phrase, clause, sentence, or provision of this compact is declared to be contrary to the Constitution of any compacting state or of the United States or the applicability thereof to any government, agency, person, or circumstance is held invalid, the validity of
the remainder of this compact and the applicability thereof to any government, agency, person, or circumstance shall not be affected thereby. If this compact entered into hereunder shall be held contrary to the constitution of any compacting state, the compact shall remain in full force and effect as to the remaining states and in full force and effect as to the state affected as to all severable matters. The provisions of this compact entered into pursuant hereto shall be liberally construed to effectuate the purposes thereof.

This compact is now in full force and effect, having been approved by the governors and legislatures of more than five of the eligible states.

All bonds or notes issued under the provision of this division shall be payable solely and only from and shall be secured by an irrevocable pledge of a sufficient portion of (1) the net rents, profits and income derived from the operation of residence halls, dormitories, dining or other incidental facilities and additions, including necessary real and personal property, acquired or improved in whole or in part with the proceeds of such bonds or notes, regardless of the manner of such acquisition or improvement, and (2) the net rents, profits and income not pledged for other purposes derived from the operation of any other residence halls or dormitories, including dining or other incidental facilities and additions, at the particular institution. A cooperating teacher incentive program is established to encourage experienced teachers to serve as cooperating teachers for student teachers enrolled in the institutions of higher education under the control of the board. An individual who submits evidence to an institution that the individual has satisfactorily served as a cooperating teacher for a student teacher from any of the institutions of higher education under the control of the board for the duration of the student teaching experience shall receive from the institution either a monetary recompense or a reduction in tuition for graduate hours of coursework equivalent to the value of the monetary recompense, rounded to the nearest whole credit hour. If, because of a policy adopted by the board of directors employing the teacher, the amount of the monetary recompense is not made available to the teacher for the teacher’s own personal use or the salary paid to the cooperating teacher by the employing board is correspondingly reduced, the institution shall grant the teacher the reduction in tuition pursuant to this section in lieu of the monetary recompense.

In lieu of the payment of monetary recompense to a cooperating teacher, the cooperating teacher may direct that the monetary recompense be paid by the institution directly into a scholarship fund which has been established jointly by the board of directors of the school district that employs the teacher and the local teachers’ association. In such cases, the cooperating teacher shall receive neither monetary recompense nor any reduction in tuition at the institution.

REGENTS’ MINORITY AND WOMEN EDUCATORS ENHANCEMENT

262.81 Legislative intent.

The general assembly recognizes that educational programs designed to enhance the interrelation and cooperation among cultural, racial, and ethnic groups in society require the contribution and active participation of all ethnic and racial groups. The general assembly also recognizes that failure to include minority representation at
the faculty level at the state universities contributes to cultural, racial, and ethnic isolation of minority students and does not reflect the realities of a multicultural and diverse society. Therefore, the “Regents’ Minority and Women Educators Enhancement” program is established to assist in the recruitment and retention of faculty that more adequately represents the diverse cultural, racial, and ethnic makeup of society and to improve the education of all students.

89 Acts, ch 319, §61

262.82 Regents’ minority and women educators enhancement program.

The board of regents shall establish a program to recruit minority educators to faculty positions in the universities under the board’s control. The program shall include, but is not limited to, the creation of faculty positions in all areas of academic pursuit.

The board of regents shall also establish a program to create faculty opportunities for women educators at the universities under the board’s control. The program shall include, but is not limited to, the creation of faculty positions in targeted shortage areas. The board of regents shall also develop and implement, in consultation with appropriate faculty representatives, tenure, promotion, and hiring policies that recognize the unique needs of faculty members who are principal caregivers to dependents.

As used in this section, “minority educator” means an educator who is a minority person as defined in section 261.102.

COLLEGE-BOUND PROGRAM

262.91 Legislative intent.

The general assembly recognizes that universities must provide an environment that enables all students to have an equal opportunity to succeed. The general assembly also recognizes that, because of inequalities in educational preparation, economic factors, and social circumstances, not all young Iowans have the same degree of access to Iowa’s higher education system. The general assembly further acknowledges that an early intervention system using public school districts, community agencies, and other state institutions can be useful in preparing young students to succeed in college. Therefore, the “College-bound” program is established to ensure that the state’s universities and students’ local communities become involved early in a student’s life by promoting and informing students about the opportunities in higher education, so that lack of adequate personal resources is not a barrier to attending college for young Iowans.

89 Acts, ch 319, §63

262.92 College-bound program.

1. The board of regents shall establish or contract to establish college-bound programs to provide Iowa minority students with information and experiences relating to opportunities offered at the regents’ universities. Programs developed may include, but are not limited to, the following elements:

a. Reinforcement of efforts to attract undergraduate students from age groups currently served by traditional methods of outreach which use high school and community college services.

b. Extension of traditional student recruitment methods which are designed to encourage minority students in grades seven through twelve to pursue postsecondary academic courses of study.

c. Identification, at each of the regents’ universities, of courses of study to be targeted for the recruitment of minority students.

d. Offerings at the regents’ universities of innovative programs, which are experience oriented, for families with minority children.

2. The board of regents shall establish a voucher program for students in grades seven through twelve. Vouchers may be obtained by any qualified secondary student at any regents’ university upon completion of a college-bound program provided under subsection 1. Students may receive one voucher for each program. One or more vouchers entitle a student to priority over other persons applying for grants under the Iowa minority academic grants for economic success program established in section 261.101. Vouchers shall be submitted with the grant application within one year after a student graduates from high school at any higher education institution which offers grants under the Iowa minority academic grants for economic success program. Vouchers earned can only be used by the person who participated in the college-bound voucher program and are not transferable. Vouchers issued by a university under this program shall be signed by the president of the university.

3. The board of regents shall adopt rules to establish program guidelines for the universities under the board’s control and for the administration and coordination of program efforts. Rules adopted shall include methods of recording data relating to voucher recipients and making the data available to the college student aid commission.

89 Acts, ch 319, §64

262.93 Reports to general assembly.

The college student aid commission and the state board of regents each shall submit, by January 1 of each year, a report on the progress and implementation of the programs which they administer under sections 261.102 through 261.105,
262.82, and 262.92. The reports shall include, but are not limited to, the numbers of students participating in the programs and allocation of funds appropriated for the programs. 89 Acts, ch 319, §65

CHAPTER 262A
UNIVERSITY BUILDINGS, FACILITIES, AND SERVICES — REVENUE BONDS

262A.1 Declaration of insufficient state revenue.

The general assembly hereby determines that the annual revenues of the state are insufficient to finance the immediate building requirements and other facilities and utilities services requirements of the institutions of higher learning under the jurisdiction of the state board of regents and in order to provide these buildings, facilities and utilities services when they are needed, it is necessary to authorize the issuance of revenue bonds by the state board of regents, subject to the restrictions and limitations hereinafter set forth. It is the intent of the general assembly that revenue bonds issued for academic and administrative buildings and facilities and utilities services shall supplement and not supplant legislative appropriations for the same or similar purposes.

262A.7 Resolution of board and covenants undertaken.
Upon the determination by the state board of regents to undertake and carry out any project or to refund outstanding bonds, said board shall adopt a resolution describing generally the contemplated project and setting forth the estimated cost thereof, or describing the obligations to be refunded, fixing the amount of bonds to be issued, the maturity or maturities, the interest rate or rates and all details in respect thereof. Such resolution shall contain such covenants as may be determined by the board as to the issuance of additional bonds that may thereafter be issued payable from the student fees and charges and institutional income received by the particular institution, the amendment or modification of the resolution authorizing the issuance of any bonds, the manner, terms, and conditions and the amount or percentage of assenting bonds necessary to effectuate such amendment or modification, and such other covenants as may be deemed necessary or desirable. In the discretion of the board any bonds issued under the terms of this chapter may be secured by a trust indenture by and between the board and a corporate trustee, which may be any trust company or bank having the powers of a trust company within or without the boundaries of the state of Iowa, but no such trust indenture shall convey or mortgage the buildings and facilities or any part thereof. The provisions of this chapter and of any resolution or other proceedings authorizing the issuance of bonds and providing for the establishment and maintenance of adequate student fees and charges and the application of the proceeds thereof, together with institutional income, shall constitute a contract with the holders of such bonds.

[C71, 73, 75, 77, 79, 81, §262A.7]

262A.8 Student fees to pay bonds.
Whenever bonds are issued by the state board of regents, it shall be the duty of said board to establish, impose, and collect student fees and charges at the institution on behalf of which such bonds are issued, and to adjust such student fees and charges from time to time, in order always to provide amounts which, together with the institutional income, will be sufficient to pay the principal of and interest on such bonds as the same become due and to maintain a reserve therefor, and said board is authorized to pledge a sufficient amount of the student fees and charges and institutional income received by such institution for this purpose. Student fees and charges and institutional income received by one institution shall not be used to discharge bonds issued for or on account of another institution. All bonds issued under the terms of this chapter shall be exempt from

A sufficient portion of the student fees and charges and institutional income received by each institution shall be held in trust by the treasurer thereof, separate and apart from all other funds, to be used solely and only for the purposes specified in this chapter and as may be required and provided for by the proceedings of the board authorizing the issuance of bonds. It shall be the duty of the treasurer of each institution to disburse funds from the proper account for the payment of the principal and interest on the bonds in accordance with the directions and covenants of the resolution authorizing the issuance thereof.

If the amount of bonds issued under this chapter exceeds the actual costs of the projects for which bonds were issued, the amount of the difference shall be used to pay the principal and interest due on bonds issued under this chapter.

No taxes, appropriations, or other funds of the state of Iowa may be pledged for or used to pay such bonds or the interest thereon but any such bonds shall be payable solely and only as to both principal and interest from the student fees and charges and institutional income received by the institutions of higher learning under the control of the state board of regents as provided in this chapter, and the sole remedy for any breach or default of the terms of any such bonds or proceedings for their issuance shall be a proceeding either in law or in equity by suit, action, or mandamus to enforce and compel performance of the duties required by this chapter and the terms of the resolution under which such bonds are issued.

262B.2 Legislative intent.
It is the intent of the general assembly that the three universities under the control of the state board of regents have as part of their missions the use of their universities’ expertise to expand and stimulate economic growth across the state. This activity may be accomplished through a wide variety of partnerships, public and private joint ventures, and cooperative endeavors, primarily, but not exclusively, in the area of high technology, and may result in investments by the private sector for commercialization of the technology and job creation. It is imperative that whenever possible, the investments and job creation be in Iowa but need not be in the proximity of the universities. The purpose of the investments and job creation shall be to expand and stimulate Iowa’s economy, increase the wealth of Iowans, and increase the population of Iowa, which may be accomplished through research conducted within the state that will competitively position Iowa on an economic basis with other states and create high-wage, high-growth employers and jobs. Accredited private universities located in the state are encouraged to incorporate the intent of this section into the mission of their universities.

5. Notwithstanding paragraph "a", the rules shall require the board to disqualify an applicant for a license or to revoke the license of a person for any of the following reasons:

272.7 Validity of license.
A license issued under board authority is valid for the period of time for which it is issued, unless the license is suspended or revoked. A license issued by the board is valid until the last day of the practitioner’s birth month in the year in which the license expires. No permanent licenses shall be issued. A person employed as a practitioner shall hold a valid license with an endorsement for the type of service for which the person is employed. This section does not limit the duties or powers of a school board to select or discharge practitioners.
or to terminate practitioners’ contracts. A professional development program, except for a program offered by a practitioner preparation institution or area education agency and approved by the state board of education, must possess a valid license for the types of programs offered.

The executive director of the board may grant or deny license applications, applications for renewal of a license, and suspension or revocation of a license. A denial of an application for a license, the denial of an application for renewal, or a suspension or revocation of a license may be appealed by the practitioner to the board.

The board may issue emergency renewal or temporary, limited-purpose licenses upon petition by a current or former practitioner. An emergency renewal or a temporary, limited-purpose license may be issued for a period not to exceed two years, if a petitioner demonstrates, to the satisfaction of the board, good cause for failure to comply with board requirements for a regular license and provides evidence that the petitioner will comply with board requirements within the period of the emergency or temporary license. Under exceptional circumstances, an emergency license may be renewed by the board for one additional year. A previously unlicensed person is not eligible for an emergency or temporary license, except that a student who is enrolled in a licensed practitioner preparation program may be issued a temporary, limited-purpose license, without payment of a fee, as part of a practicum or internship program.

§272.9 Continuity of certificates and licenses.

A certificate which was issued by the board of educational examiners to a practitioner before July 1, 1989, continues to be in force as long as the certificate complies with the rules and statutes in effect on July 1, 1989. Requirements for the renewal of licenses, under this chapter, do not apply retroactively to renewal of certificates. However, this section does not limit the duties or powers of a school board to select or discharge practitioners or to terminate practitioners’ contracts.

A practitioner who holds a certificate issued before July 1, 1989, shall, upon application and payment of a fee, be granted a license which will permit the practitioner to perform the same duties and functions as the practitioner was entitled to perform with the certificate held at the time of application. A practitioner shall be permitted to convert a permanent certificate to a term certificate, after July 1, 1989, without payment of a fee.

A professional development program provided by a school district and approved by the state board of education before July 1, 1989, shall be permitted to continue until the term, for which the program was approved, expires.

§272.9A Administrative licenses.

The board of educational examiners shall adopt rules relating to professional development programs for individuals licensed or certificated as administrators of schools after July 1, 1985. Successful completion of a professional development program is required every five years before the license is renewed by the board.

§272.10 Fees.

1. It is the intent of the general assembly that licensing fees established by the board of educational examiners be sufficient to finance the activities of the board under this chapter.

2. Licensing fees are payable to the treasurer of state and shall be deposited with the executive director of the board. The executive director shall deposit twenty-five percent of the fees collected annually with the treasurer of state and the fees shall be credited to the general fund of the state. The remaining licensing fees collected during the fiscal year shall be retained by and are appropriated to the board for the purposes related to the board’s duties. Notwithstanding section 8.33, licensing fees retained by and appropriated to the board pursuant to this section that remain unen-
cumbered or unobligated at the close of the fiscal year shall not revert but shall remain available for expenditure for the activities of the board as provided in this chapter until the close of the succeeding fiscal year.

3. The executive director shall keep an accurate and detailed account of fees received, including fees paid to the treasurer of state and fees retained by the board.

4. The board shall submit a detailed annual financial report by January 1 to the chairpersons and ranking members of the joint appropriations subcommittee on education and the legislative services agency.

272.12 Para-educator certificates.

The board of educational examiners shall adopt rules pursuant to chapter 17A relating to a voluntary certification system for para-educators. The rules shall specify rights, responsibilities, levels, and qualifications for the certificate. Applicants shall be disqualified for any reason specified in section 272.2, subsection 14, or in administrative rule. Notwithstanding section 272.2, subsection 14, paragraph “b”, subparagraph (2), the board may issue a para-educator certificate to a person who is at least eighteen years of age. A person holding a para-educator certificate shall not perform the duties of a licensed practitioner. A certificate issued pursuant to this chapter shall not be considered a teacher or administrator license for any purpose specified by law, including the purposes specified under this chapter or chapter 279.

272.13 Hearing procedures — confidentiality.

Hearings before the board shall be conducted in the same manner as contested cases under chapter 17A. The board may subpoena books, papers, records, and any other real evidence necessary for the board to decide whether it should institute a contested case hearing. At the hearing the board may administer oaths and issue subpoenas to compel the attendance of witnesses and the production of other evidence. Subpoenas may be issued by the board to a party to a hearing, if the party demonstrates that the evidence or witnesses’ testimony is relevant and material to the hearing. Service of process and subpoenas for board hearings shall be conducted in accordance with the law applicable to the service of process and subpoenas in civil actions.

Witnesses subpoenaed to appear before the board shall be reimbursed for mileage and necessary expenses and shall receive per diem compensation by the board, unless the witness is an employee of the state or a political subdivision, in which case the witness shall receive reimbursement only for mileage and necessary expenses.

All complaint files, investigation files, other investigation reports, and other investigative information in the possession of the board or its employees or agents, which relate to licensee discipline, are privileged and confidential, and are not subject to discovery, subpoena, or other means of legal compulsion for their release to a person other than the respondent and the board and its employees and agents involved in licensee discipline, and are not admissible in evidence in a judicial or administrative proceeding other than the proceeding involving licensee discipline. However, investigative information in the possession of the board or its employees or agents which relates to licensee discipline may be disclosed to appropriate licensing authorities within this state, the appropriate licensing authority in another state, the District of Columbia, or a territory or country in which the licensee is licensed or has applied for a license. A final written decision and finding of fact of the board in a disciplinary proceeding is a public record.

272.14 Appointment of administrative law judges.

The board shall maintain a list of qualified persons who are experienced in the educational system of this state to serve as administrative law judges when a hearing is requested under section 279.24. When requested under section 279.24, the board shall submit a list of five qualified administrative law judges to the parties. Information reported to the board in accordance with this section is privileged and confidential, and except as provided in section 272.13, is not subject to discovery, subpoena, or other means of legal compulsion for its release to a person other than the respondent and the board and its employees and agents involved in licensee discipline, and is not admissible in evidence in a judicial or administrative proceeding other than the proceeding involving licensee discipline. The board shall review the information reported to determine whether a complaint should be initiated. In making that determination, the board shall consider the factors enumerated in section 272.2, subsection 14, paragraph "a". For purposes of this section, unless the context otherwise requires, "misconduct" means an action disqualifying an applicant for a license or causing the license of a person to be revoked or suspended in accordance with the rules adopted by the board to implement section 272.2, subsection 14, paragraph "b", subparagraph (1).

CHAPTER 272A
INTERSTATE AGREEMENT ON QUALIFICATION OF EDUCATIONAL PERSONNEL

272A.1 Interstate agreement.
The interstate agreement on qualification of educational personnel is hereby enacted into law and entered into with all jurisdictions legally joining therein, in the form substantially as follows:

ARTICLE I — PURPOSE, FINDINGS, AND POLICY

1. The states party to this agreement, desiring by common action to improve their respective school systems by utilizing the teacher or other professional educational person wherever educated, declare that it is the policy of each of them, on the basis of co-operation with one another, to take advantage of the preparation and experience of such persons wherever gained, thereby serving the best interest of society, of education, and of the teaching profession. It is the purpose of this agreement to provide for the development and execution of such programs of co-operation as will facilitate the movement of teachers and other professional educational personnel among the states party to it, and to authorize specific interstate educational personnel contracts to achieve that end.

2. The party states find that included in the large movement of population among all sections of the nation are many qualified educational personnel who move for family and other personal reasons but who are hindered in using their professional skill and experience in their new locations. Variations from state to state in requirements for qualifying educational personnel discourage such personnel from taking the steps necessary to qualify in other states. As a consequence, a significant number of professionally prepared and experienced educators is lost to our school systems. Facilitating the employment of qualified educational personnel, without reference to their states of origin, can increase the available educational resources. Participation in this agreement can increase the availability of educational personnel.

ARTICLE II — DEFINITIONS

As used in this agreement and contracts made pursuant to it, unless the context clearly requires otherwise:

1. “Educational personnel” means persons who must meet requirements pursuant to state law as a condition of employment in educational programs.

2. “Designated state official” means the education official of a state selected by that state to negotiate and enter into, on behalf of that state, contracts pursuant to this agreement.

3. “Accept”, or any variant thereof, means to recognize and give effect to one or more determinations of another state relating to the qualifications of educational personnel in lieu of making or requiring a like determination that would otherwise
be required by or pursuant to the laws of a receiving state.
4. "State" means a state, territory, or possession of the United States; the District of Columbia; or the Commonwealth of Puerto Rico.
5. "Originating state" means a state (and the subdivision thereof, if any) whose determination that certain educational personnel are qualified to be employed for specific duties in schools is acceptable in accordance with the terms of a contract made pursuant to article III of this agreement.
6. "Receiving state" means a state (and the subdivisions thereof) which accepts educational personnel in accordance with the terms of a contract made pursuant to article III of this agreement.

ARTICLE III — INTERSTATE EDUCATIONAL PERSONNEL CONTRACTS

1. The designated state official of a party state may make one or more contracts on behalf of that state with one or more other party states providing for the acceptance of educational personnel. Any such contract for the period of its duration shall be applicable to and binding on the states whose designated state officials enter into it, and the subdivisions of those states, with the same force and effect as if incorporated in this agreement. A designated state official may enter into a contract pursuant to this article only with states in which the official finds that there are programs of education, licensure standards or other acceptable qualifications that assure preparation or qualification of educational personnel on a basis sufficiently comparable, even though not identical to that prevailing in the official's state.
2. Any such contract shall provide for:
   a. Its duration.
   b. The criteria to be applied by an originating state in qualifying educational personnel for acceptance by a receiving state.
   c. Such waivers, substitutions, and conditional acceptances as shall aid the practical effectuation of the contract without sacrifice of basic educational standards.
   d. Any other necessary matters.
3. No contract made pursuant to this agreement shall be for a term longer than five years but any such contract may be renewed for like or lesser periods.
4. Any contract dealing with acceptance of educational personnel on the basis of their having completed an educational program shall specify the earliest date or dates on which originating state approval of the program or programs involved can have occurred. No contract made pursuant to this agreement shall require acceptance by a receiving state of any persons qualified because of successful completion of a program prior to January 1, 1954.
5. The license or other acceptance of a person who has been accepted pursuant to the terms of a contract shall not be revoked or otherwise impaired because the contract has expired or been terminated. However, any license or other qualifying document may be revoked or suspended on any ground which would be sufficient for revocation or suspension of a license or other qualifying document initially granted or approved in the receiving state.
6. A contract committee composed of the designated state officials of the contracting states or their representatives shall keep the contract under continuous review, study means of improving its administration, and report no less frequently than once a year to the heads of the appropriate education agencies of the contracting states.

ARTICLE IV — APPROVED AND ACCEPTED PROGRAMS

1. Nothing in this agreement shall be construed to repeal or otherwise modify any law or regulation of a party state relating to the approval of programs of educational preparation having effect solely on the qualification of educational personnel within that state.
2. To the extent that contracts made pursuant to this agreement deal with the educational requirements for the proper qualification of educational personnel, acceptance of a program of educational preparation shall be in accordance with such procedures and requirements as may be provided in applicable contract.

ARTICLE V — INTERSTATE CO-OPERATION

The party states agree that:
1. They will, so far as practicable, prefer the making of multilateral contracts pursuant to article III of this agreement.
2. They will facilitate and strengthen co-operation in interstate certification and other elements of educational personnel qualification and for this purpose shall co-operate with agencies, organizations, and associations interested in certification and other elements of educational personnel qualification.

ARTICLE VI — AGREEMENT EVALUATION

The designated state officials of any party states may meet from time to time as a group to evaluate programs under the agreement, and to formulate recommendations for changes.

ARTICLE VII — OTHER ARRANGEMENTS

Nothing in this agreement shall be construed to prevent or inhibit other arrangements or practices of any party state or states to facilitate the interchange of educational personnel.
ARTICLE VIII — EFFECT AND WITHDRAWAL

1. This agreement shall become effective when enacted into law by two states. Thereafter it shall become effective as to any state upon its enactment of this agreement.

2. Any party state may withdraw from this agreement by enacting a statute repealing the same, but no such withdrawal shall take effect until one year after the governor of the withdrawing state has given notice in writing of the withdrawal to the governors of all other party states.

3. No withdrawal shall relieve the withdrawing state of any obligation imposed upon it by a contract to which it is a party. The duration of contracts and the methods and conditions of withdrawal therefrom shall be those specified in their terms.

ARTICLE IX — CONSTRUCTION AND SEVERABILITY

This agreement shall be liberally construed so as to effectuate the purposes thereof. The provisions of this agreement shall be severable and if any phrase, clause, sentence, or provision of this agreement is declared to be contrary to the constitution of any state or of the United States, or the application thereof to any government, agency, person, or circumstance is held invalid, the validity of the remainder of this agreement and the applicability thereof to any government, agency, person, or circumstance shall not be affected thereby. If this agreement shall be held contrary to the constitution of any state participating therein, the agreement shall remain in full force and effect as to the state affected as to all severable matters.

272A.2 Designated state official.

d. Facilitate the improvement of state and local educational systems so that all of them will be able to meet adequate and desirable goals in a society which requires continuous qualitative and quantitative advance in educational opportunities, methods and facilities.

2. It is the policy of this compact to encourage and promote local and state initiative in the development, maintenance, improvement and administration of educational systems and institutions in a manner which will accord with the needs and advantages of diversity among localities and states.

3. The party states recognize that each of them has an interest in the quality and quantity of education furnished in each of the other states, as well as in the excellence of its own educational systems and institutions, because of the highly mobile character of individuals within the nation, and because the products and services contributing to the health, welfare and economic advancement of each state are supplied in significant part by persons educated in other states.

ARTICLE II — STATE DEFINED

As used in this compact, “state” means a state, territory or possession of the United States, the District of Columbia, or the commonwealth of Puerto Rico.

ARTICLE III — THE COMMISSION

1. The education commission of the states, hereinafter called “the commission”, is hereby established. The commission shall consist of seven members representing each party state.* One of such members shall be the governor; two shall be members of the state legislature selected by its respective houses and serving in such manner as the legislature may determine; and four shall be appointed by and serve at the pleasure of the governor, unless the laws of the state otherwise provide. If the laws of a state prevent legislators from serving on the commission, six members shall be appointed and serve at the pleasure of the governor, unless the laws of the state otherwise provide. In addition to any other principles or requirements which a state may establish for the appointment and service of its members of the commission, the guiding principle for the composition of the membership on the commission from each party state shall be that the members representing such state shall, by virtue of their training, experience, knowledge or affiliations be in a position collectively to reflect broadly the interests of the state government, higher education, the state education system, local education, lay and professional, public and nonpublic educational leadership. Of those appointees, one shall be the head of a state agency or institution, designated by the governor, having responsibility for one or more programs of public education. In addition to the members of the commission representing the party states, there may be not to exceed ten nonvoting commissioners selected by the steering committee for terms of one year. Such commissioners shall represent leading national organizations or professional educators or persons concerned with educational administration.

2. The members of the commission shall be entitled to one vote each on the commission. No action of the commission shall be binding unless taken at a meeting at which a majority of the total number of votes on the commission are cast in favor thereof. Action of the commission shall be only at a meeting at which a majority of the commissioners are present. The commission shall meet at least once a year. In its bylaws, and subject to such directions and limitations as may be contained therein, the commission may delegate the exercise of any of its powers to the steering committee or the executive director, except for the power to approve budgets or requests for appropriations, the power to make policy recommendations pursuant to article IV and adoption of the annual report pursuant to article III, paragraph 10.

3. The commission shall have a seal.

4. The commission shall elect annually, from among its members, a chairperson, who shall be a governor, a vice chairperson and a treasurer. The commission shall provide for the appointment of an executive director. Such executive director shall serve at the pleasure of the commission, and together with the treasurer and such other personnel as the commission may deem appropriate shall be bonded in such amount as the commission shall determine. The executive director shall be secretary.

5. Irrespective of the civil service, personnel or other merit system laws of any of the party states, the executive director subject to the approval of the steering committee shall appoint, remove or discharge such personnel as may be necessary for the performance of the functions of the commission, and shall fix the duties and compensation of such personnel. The commission in its bylaws shall provide for the personnel policies and programs of the commission.

6. The commission may borrow, accept or contract for the services of personnel from any party jurisdiction, the United States, or any subdivision or agency of the aforementioned governments, or from any agency of two or more of the party jurisdictions or their subdivisions.

7. The commission may accept for any of its purposes and functions under this compact any and all donations, and grants of money, equipment, supplies, materials and services, conditional or otherwise, from any state, the United States, or any other governmental agency, or from any person, firm, association, foundation, or corporation, and may receive, utilize and dispose of the
same. Any donation or grant accepted by the commission pursuant to this paragraph or services borrowed pursuant to paragraph 6 of this article shall be reported in the annual report of the commission. Such report shall include the nature, amount and conditions, if any, of the donation, grant, or services borrowed, and the identity of the donor or lender.

8. The commission may establish and maintain such facilities as may be necessary for the transacting of its business. The commission may acquire, hold, and convey real and personal property and any interest therein.

9. The commission shall adopt bylaws for the conduct of its business and shall have the power to amend and rescind these bylaws. The commission shall publish its bylaws in convenient form and shall file a copy thereof and a copy of any amendment thereto, with the appropriate agency or officer in each of the party states.

10. The commission annually shall make to the governor and legislature of each party state a report covering the activities of the commission for the preceding year. The commission may make such additional reports as it may deem desirable.

**ARTICLE IV — POWERS**

In addition to authority conferred on the commission by other provisions of the compact, the commission shall have authority to:

1. Collect, correlate, analyze and interpret information and data concerning educational needs and resources.

2. Encourage and foster research in all aspects of education, but with special reference to the desirable scope of instruction, organization, administration, and instructional methods and standards employed or suitable for employment in public educational systems.

3. Develop proposals for adequate financing of education as a whole and at each of its many levels.

4. Conduct or participate in research of the types referred to in this article in any instance where the commission finds that such research is necessary for the advancement of the purposes and policies of this compact, utilizing fully the resources of national associations, regional compact organizations for higher education, and other agencies and institutions, both public and private.

5. Formulate suggested policies and plans for the improvement of public education as a whole, or for any segment thereof, and make recommendations with respect thereto available to the appropriate governmental units, agencies and public officials.

6. Do such other things as may be necessary or incidental to the administration of any of its authority or functions pursuant to this compact.

**ARTICLE V — CO-OPERATION WITH FEDERAL GOVERNMENT**

1. If the laws of the United States specifically so provide, or if administrative provision is made therefor within the federal government, the United States may be represented on the commission by not to exceed ten representatives. Any such representative or representatives of the United States shall be appointed and serve in such manner as may be provided by or pursuant to federal law, and may be drawn from any one or more branches of the federal government, but no such representative shall have a vote on the commission.

2. The commission may provide information and make recommendations to any executive or legislative agency or officer of the federal government concerning the common educational policies of the states, and may advise with any such agencies or officers concerning any matter of mutual interest.

**ARTICLE VI — COMMITTEES**

1. To assist in the expeditious conduct of its business when the full commission is not meeting, the commission shall elect a steering committee of thirty-two members which, subject to the provisions of this compact and consistent with the policies of the commission, shall be constituted and function as provided in the bylaws of the commission. One-fourth of the voting membership of the steering committee shall consist of governors, one-fourth shall consist of legislators, and the remainder shall consist of other members of the commission. A federal representative on the commission may serve with the steering committee, but without vote. The voting members of the steering committee shall serve for terms of two years, except that members elected to the first steering committee of the commission shall be elected as follows:

Sixteen for one year and sixteen for two years. The chairperson, vice chairperson, and treasurer of the commission shall be members of the steering committee and, anything in this paragraph to the contrary notwithstanding, shall serve during their continuance in these offices. Vacancies in the steering committee shall not affect its authority to act, but the commission at its next regular ensuing meeting following the occurrence of any vacancy shall fill it for the unexpired term. No person shall serve more than two terms as a member of the steering committee; provided that service for a partial term of one year or less shall not be counted toward the two-term limitation.

2. The commission may establish advisory and technical committees composed of state, local, and federal officials, and private persons to advise it
with respect to any one or more of its functions. Any advisory or technical committee may, on request of the states concerned, be established to consider any matter of special concern to two or more of the party states.

3. The commission may establish such additional committees as its bylaws may provide.

ARTICLE VII — FINANCE

1. The commission shall advise the governor or designated officer or officers of each party state of its budget and estimated expenditures for such period as may be required by the laws of that party state. Each of the commission’s budgets of estimated expenditures shall contain specific recommendations of the amount or amounts to be appropriated by each of the party states.

2. The total amount of appropriation requests under any budget shall be apportioned among the party states. In making such apportionment, the commission shall devise and employ a formula which takes equitable account of the populations and per capita income levels of the party states.

3. The commission shall not pledge the credit of any party states. The commission may meet any of its obligations in whole or in part with funds available to it pursuant to article III, paragraph 7, of this compact, provided that the commission takes specific action setting aside such funds prior to incurring an obligation to be met in whole or in part in such manner. Except where the commission makes use of funds available to it pursuant to article III, paragraph 7 thereof, the commission shall not incur any obligation prior to the allotment of funds by the party states adequate to meet the same.

4. The commission shall keep accurate accounts of all receipts and disbursements. The receipts and disbursements of the commission shall be subject to the audit and accounting procedures established by its bylaws. However, all receipts and disbursements of funds handled by the commission shall be audited yearly by a qualified public accountant, and the report of the audit shall be included in and become part of the annual reports of the commission.

5. The accounts of the commission shall be open at any reasonable time for inspection by duly constituted officers of the party states and by any persons authorized by the commission.

6. Nothing contained herein shall be construed to prevent commission compliance with laws relating to audit or inspection of accounts by or on behalf of any government contributing to the support of the commission.

ARTICLE VIII — ELIGIBLE PARTIES — ENTRY INTO AND WITHDRAWAL

1. This compact shall have as eligible parties all states, territories, and possessions of the United States, the District of Columbia, and the commonwealth of Puerto Rico. In respect of any such jurisdiction not having a governor, the term “governor”, as used in this compact, shall mean the closest equivalent official of such jurisdiction.

2. Any state or other eligible jurisdiction may enter into this compact and it shall become binding thereon when it has adopted the same: Provided that in order to enter into initial effect, adoption by at least ten eligible party jurisdictions shall be required.

3. Any party state may withdraw from this compact by enacting a statute repealing the same, but no such withdrawal shall take effect until one year after the governor of the withdrawing state has given notice in writing of the withdrawal to the governors of all other party states. No withdrawal shall affect any liability already incurred by or chargeable to a party state prior to the time of such withdrawal.

ARTICLE IX — CONSTRUCTION AND SEVERABILITY

This compact shall be liberally construed so as to effectuate the purposes thereof. The provisions of this compact shall be severable and if any phrase, clause, sentence or provision of this compact is declared to be contrary to the constitution of any state or of the United States, or the application thereof to any government, agency, person or circumstance is held invalid, the validity of the remainder of this compact and the applicability thereof to any government, agency, person or circumstance shall not be affected thereby. If this compact shall be held contrary to the constitution of any state participating therein, the compact shall remain in full force and effect as to the state affected as to all severable matters.

Legislative members shall receive actual and necessary expenses and travel pursuant to sections 2.10 and 2.12. Each nonhealth-care board shall have on file a copy of each decision of the board imposing licensee discipline which copy shall be properly dated and shall be in simple language and in the most concise form consistent with clearness and comprehensiveness of subject matter.

board's discretion, a license shall be suspended, denied, or revoked, or other disciplinary action imposed, with regard to a licensee subject to the board's jurisdiction who has defaulted on a repayment or service obligation under any federal or state educational loan or service-conditional scholarship program. Notwithstanding any other provision to the contrary, each board shall defer to the federal or state program's determination of default upon certification by the program of such a default on the part of a licensee, and shall remove the suspension, grant the license, or stay the revocation or other disciplinary action taken if the federal or state program certifies that the defaulting licensee has agreed to fulfill the licensee's obligation, or is complying with an approved repayment plan. Licensure sanctions shall be reinstated upon certification that a defaulting licensee has failed to comply with the repayment or service requirements, as determined by the federal or state program. The provisions of this subsection relating to board authority to act in response to notification of default shall apply not only to a licensing board, as defined in section 272C.1, but also to any other licensing board or authority regulating a license authorized by the laws of this state.

Insurance carriers which insure professional and occupational licensees for acts or omissions that constitute negligence, careless acts, or omissions in the practice of a profession or occupation shall file reports with the appropriate licensing board. The reports shall include information pertaining to any lawsuit filed against a licensee which may affect the licensee as defined by rule, involving an insured of the insurer.

7A. Rules promulgated under subsection 1 of this section:

   b. Shall designate who may or shall initiate a licensee disciplinary investigation and a licensee disciplinary proceeding, and who shall prosecute a disciplinary proceeding and under what conditions, and shall state the procedures for review by the licensing board of findings of fact if a majority of the licensing board does not hear the disciplinary proceeding.
   c. Shall state whether the procedures are an alternative to or an addition to the procedures stated in sections 147.58 through 147.71, 148.6 through 148.9, 152.10, 152.11, 153.33, 154A.23, 542.11, 542B.22, 543B.35, 543B.36, and 544B.16.

Notwithstanding chapters 17A and 21 a disciplinary hearing shall be open to the public at the discretion of the license.
   2. When, in the opinion of a majority of the board, it is desirable to obtain specialists within an area of practice of a profession when holding disciplinary hearings, a licensing board may appoint licensees not having a conflict of interest to make findings of fact and to report to the board. Such findings shall not include any recommendation for or against licensee discipline.
   3. The presiding officer of a hearing panel may issue subpoenas pursuant to rules of the board on behalf of the board or on behalf of the licensee. A licensee may have subpoenas issued on the licensee's behalf. A subpoena issued under the authority of a licensing board may compel the attendance of witnesses and the production of professional records, books, papers, correspondence and other records, whether or not privileged or confidential under law, which are deemed necessary as evidence in connection with a disciplinary proceeding.

Nothing in this subsection shall be deemed to enable a licensing board to compel an attorney of the licensee, or stenographer or confidential clerk of the attorney, to disclose any information when privileged against disclosure by section 622.10. In the event of a refusal to obey a subpoena, the licensing board may petition the district court for its enforcement. Upon proper showing, the district court shall order the person to obey the subpoena, and if the person fails to obey the order of the court the person may be found guilty of contempt of court. The presiding officer of a hearing panel may also administer oaths and affirmations, take or order that depositions be taken, and pursuant to rules of the board, grant immunity to a witness.

**CHAPTER 275**

REORGANIZATION OF SCHOOL DISTRICTS

275.1  **Declaration of policy — surveys — definitions.**
It is the policy of the state to encourage economical and efficient school districts which will ensure an equal educational opportunity to all children of the state. All areas of the state shall be in school districts maintaining kindergarten and twelve grades. If a school district ceases to maintain kindergarten and twelve grades except as otherwise provided in section 28E.9, 256.13, 280.15, 282.7, subsection 1 or subsections 1 and 3, or section 282.8, it shall reorganize within six months or the state board shall attach the school district not maintaining kindergarten and twelve grades to one or more adjacent districts. Voluntary reorganizations under this chapter shall be commenced only if the affected school districts are contiguous or marginally adjacent to one another. A reorga-
organized district shall meet the requirements of section 275.3.

If a district is attached, division of assets and liabilities shall be made as provided in sections 275.29 to 275.31. The area education agency boards shall develop detailed studies and surveys of the school districts within the area education agency and all adjacent territory for the purpose of providing for reorganization of school districts in order to effect more economical operation and the attainment of higher standards of education in the schools. The plans shall be revised periodically to reflect reorganizations which may have taken place in the area education agency and adjacent territory.

As used in this chapter unless the context otherwise requires:
2. “Initial board” means the board of a newly reorganized district that is selected pursuant to section 275.25 or 275.41 and functions until the organizational meeting following the fourth regular school election held after the effective date of the reorganization.
3. “Marginally adjacent district” or “marginally adjacent territory” means a district or territory which is separated from a second district or territory by property which is part of a third school district which completely surrounds one of the two districts.
4. “Registered voter” means registered voter as defined in section 39.3, subsection 11.
5. “Regular board” means the board of a reorganized district that begins to function at the organizational meeting following the fourth regular school election held after the effective date of the reorganization.
6. “School districts affected” means the school districts named in the reorganization petition whether a school district is affected in whole or in part.

No new school district shall be planned by an area education agency board nor shall any proposal for creation or enlargement of any school district be approved by an area education agency board or submitted to electors unless there reside within the proposed limits of such district at least three hundred persons of school age who were enrolled in public schools in the preceding school year. Provided, however, that the director of the department of education shall have authority to grant permission to an area education agency board to approve the formation or enlargement of a school district containing a lower school enrollment than required in this section on the written request of such area education agency board if such request is accompanied by evidence tending to show that sparsity of population, natural barriers or other good reason makes it impracticable to meet the school enrollment requirement.

275.2 Scope of surveys.

The scope of the studies and surveys shall include the following matters in the various districts in the area education agency and all districts adjacent to the area education agency: the adequacy of the educational program, pupil enrollment, property valuations, existing buildings and equipment, natural community areas, road conditions, transportation, economic factors, individual attention given to the needs of students, the opportunity of students to participate in a wide variety of activities related to the total development of the student, and other matters that may bear on educational programs meeting minimum standards required by law. The plans shall also include suggested alternate plans that incorporate the school districts in the area education agency into reorganized districts that meet the enrollment standards specified in section 275.3 and may include alternate plans proposed by school districts for sharing programs under section 28E.9, 256.13, 280.15, 282.7, or 282.10 as an alternative to school reorganization.

275.3 Minimum size.

No new school district shall be planned by an area education agency board nor shall any proposal for creation or enlargement of any school district be approved by an area education agency board unless there reside within the proposed limits of such district at least three hundred persons of school age who were enrolled in public schools in the preceding school year. Provided, however, that the director of the department of education shall have authority to grant permission to an area education agency board to approve the formation or enlargement of a school district containing a lower school enrollment than required in this section on the written request of such area education agency board if such request is accompanied by evidence tending to show that sparsity of population, natural barriers or other good reason makes it impracticable to meet the school enrollment requirement.

275.4 Studies, surveys, and plans.

In developing studies and surveys the area education agency board shall consult with the officials of school districts in the area and other citizens, and shall from time to time hold public hearings, and may employ such research and other assistance as it may determine reasonably necessary in order to properly carry on its survey and prepare definite plans of reorganization.

In addition, the area education agency board shall consult with the director of the department of education in the development of surveys and plans. The director of the department of education shall provide assistance to the area education agency boards as requested and shall advise the area education agency boards concerning plans of contiguous area education agencies and the reor-
organization policies adopted by the state board of education. Completed plans shall be transmitted by the area education agency board to the director of the department of education.

Following receipt of a petition pursuant to section 275.12, the area education agency board shall review its plans and determine whether the petition complies with the plans which had been adopted by the board. If the petition does not comply with the plans which had been adopted by the board, the board shall conduct further surveys pursuant to section 275.4 prior to the date set for the hearing upon the petition. If further surveys have been conducted by the board, the board shall present the results of the further surveys at the hearing upon the petition.

Studies and surveys relating to the planning of joint districts shall be filed with the area education agency in which one of the districts is located which has the greatest taxable property base. In the case of controversy over the planning of joint districts, the matter shall be submitted to the director of the department of education. For purposes of subsection 1 hereof, joint planning shall be evidenced by filing the following items with the department of education:

b. A statement of the number of pupils residing within the area of said potential district enrolled in public schools in the preceding school year.

c. A statement of the assessed valuation of taxable property located within such potential district.

d. An affidavit signed on behalf of each of said boards of directors of area education agencies by a member of such board stating the boundaries as shown on such plat have been agreed upon by the respective boards as a part of the overall plan of school district reorganization of each such school.

The provisions of sections 275.1 to 275.5, relating to studies, surveys, hearings and adoption of plans shall constitute a mandatory prerequisite to the effectuation of any proposal for district boundary change. 275.12 Petition — method of election.

1. A petition describing the boundaries, or accurately describing the area included therein by legal descriptions, of the proposed district, which boundaries or area described shall conform to plans developed or the petition shall request change of the plan, shall be filed with the area education agency administrator of the area education agency in which the greatest number of registered voters reside. However, the area education agency administrator shall not accept a petition if any of the school districts affected have approved the issuance of general obligation bonds at an election pursuant to section 296.6 during the preceding six-month period. The petition shall be signed by eligible electors residing in each existing school district or portion affected equal in number to at least twenty percent of the number of registered voters in the school district or portion affected, or four hundred eligible electors, whichever is the smaller number.

2. The petition filed under subsection 1 shall also state the name of the proposed school district and the number of directors which may be either five or seven and the method of election of the school directors of the proposed district. The method of election of the directors shall be one of the following optional plans:

The boundaries of the director districts and the area and population included within each district shall be such as justice, equity, and the interests of the people may require. Changes in the boundaries of director districts shall not be made during a period commencing sixty days prior to the date of the annual school election. Insofar as may be practicable, the boundaries of the districts shall follow established political or natural geographical divisions.

c. Election of not more than one-half of the total number of school directors at large from the entire district and the remaining directors from and as residents of designated single-member or multimember director districts into which the entire school district shall be divided on the basis of population for each director. In such case, all directors shall be elected by the electors of the entire school district. Changes in the boundaries of director districts shall not be made during a period commencing sixty days prior to the date of the annual school election.

d. Division of the entire school district into designated geographical single director or multi-director subdistricts on the basis of population for each director, to be known as director districts, each of which director districts shall be represented on the school board by one or more directors who shall be residents of the director district and who shall be elected by the voters of the director district. Place of voting in the director districts shall be designated by the commissioner of elections. Changes in the boundaries of director districts shall not be made during a period commencing sixty days prior to the date of the annual school election.

e. In districts having seven directors, election of three directors at large by the electors of the entire district, one at each annual school election, and election of the remaining directors as residents of and by the electors of individual geographic subdistricts established on the basis of population and identified as director districts. Boundaries of the subdistricts shall follow precinct boundaries, insofar as practicable, and shall not be changed less than sixty days prior to the annual school election.

3. If the petition proposes the division of the school district into director districts, the boundaries of the proposed director districts shall not be drawn until the question is approved by the voters. If the question is approved by the voters, the directors of the new school district shall draw the boundaries of the director districts according to the standards described in section 275.23A, subsection 1. Following adoption by the school board, the plan shall be submitted to the state commissioner of elections for approval.

4. The area education agency board in reviewing the petition as provided in sections 275.15 and
§275.12, REORGANIZATION OF SCHOOL DISTRICTS

275.16 shall review the proposed method of election of school directors and may change or amend the plan in any manner, including to specify a different method of electing school directors as may be required by law, justice, equity, and the interest of the people. In the action, the area education agency board shall follow the same procedure as is required by sections 275.15 and 275.16 for other action on the petition by the area education agency board.

5. The petition may also include a provision that the voter-approved physical plant and equipment levy provided in section 298.2 will be voted upon at the election conducted under section 275.16.

§275.13 Affidavit — presumption.

Such petition shall be accompanied by an affidavit showing the number of registered voters living in each affected district or portion thereof as described in the petition and signed by a registered voter residing in the territory, and if parts of the territory described in the petition are situated in different area education agencies, the affidavit shall show separately as to each agency, the number of registered voters in the part of the agency included in the territory described. The affidavit shall be taken as true unless objections to it are filed on or before the time fixed for filing objections as provided in section 275.14 hereof.

§275.14 Objection — time of filing — notice.

Within ten days after the petition is filed, the area education agency administrator shall fix a final date for filing objections to the petition which shall be not more than sixty days after the petition is filed and shall fix the date for a hearing on the objections to the petition. Objections shall be filed in the office of the administrator who shall give notice at least ten days prior to the final day for filing objections, by one publication in a newspaper published within the territory described in the petition, or if none is published in the territory, in a newspaper published in the county where the petition is filed, and of general circulation in the territory described. The notice shall also list the date, time, and location for the hearing on the petition as provided in section 275.15. The cost of publication shall be assessed to each district whose territory is involved in the ratio that the number of pupils in basic enrollment for the budget year, as defined in section 257.6 in each district bears to the total number of pupils in basic enrollment for the budget year in the total area involved. Objections shall be in writing in the form of an affidavit and may be made by any person residing or owning land within the territory described in the petition, or who would be injuriously affected by the change petitioned for and shall be on file not later than twelve o’clock noon of the final day fixed for filing objections.

Objection forms shall be prescribed by the department of education and may be obtained from the area education agency administrator. Objection forms that request that property be removed from a proposed district shall include the correct legal description of the property to be removed.

§275.15 Hearing — decision — publication — appeal.

1. At the hearing, which shall be held within ten days of the final date set for filing objections, interested parties, both petitioners and objectors, may present evidence and arguments, and the area education agency board shall review the matter on its merits and within ten days after the conclusion of any hearing, shall rule on the objections and shall enter an order fixing the boundaries for the proposed school corporation as will in its judgment be for the best interests of all parties concerned, having due regard for the welfare of adjoining districts, or dismiss the petition.

2. The area education agency board, when entering the order fixing the boundaries, shall consider all available evidence including, but not limited to, information presented by the petitioners, all objections requesting territory exclusion, reorganization studies and plans, geographical patterns evidenced by students using open enrollment to attend school in another district pursuant to section 282.18, potential travel distances required of students, and geographic configuration of the proposed district. The exclusion of territory shall represent a balance between the rights of the objectors and the welfare of the reorganized district.

3. If the petition is not dismissed and the board determines that additional information is required in order to fix boundary lines of the proposed school corporation, the board may continue the hearing for no more than thirty days. The date of the continued hearing shall be announced at the original meeting. Additional objections in the form required in section 275.14 may be considered.
if filed with the administrator within five days, not including Saturdays, Sundays, or holidays, after the date of the original board hearing. If the hearing is continued, the area education agency administrator may conduct one or more meetings with the boards of directors of the affected districts. Notice of any such meeting must be given at least forty-eight hours in advance by the area education agency administrator in the manner provided in section 21.4. The area education agency board may request that the administrator make alternative recommendations regarding the boundary lines of the proposed school corporation. The area education agency board shall make a decision on the boundary lines within ten days following the conclusion of the continued hearing. The administrator shall at once publish the decision in the same newspaper in which the original notice was published. Within twenty days after the publication, the decision rendered by the area education agency board may be appealed to the district court in the county involved by any school district affected. For purposes of appeal, only those school districts who filed reorganization petitions are school districts affected. An appeal from a decision of an area education agency board or joint area education agency boards under section 275.4, 275.16, or this section is subject to appeal procedures under this chapter and is subject to appeal under procedures set forth in chapter 290.

275.16 Hearing when territory in different area education agencies.

If the territory described in the petition for the proposed corporation lies in more than one area education agency, the agency administrator with whom the petition is filed shall fix the time and place for a hearing and call a joint meeting of the members of all the agency boards in which territory of the proposed school corporation lies, to act as a single board for the hearing of the objections, and a majority of members of each of the agency boards of the different agencies in which any part of the proposed corporation lies, constitutes a quorum. The president of the board of directors of the area education agency in which the petition has been filed, or a member of the board designated by the president, shall preside at the joint meeting. The joint boards acting as a single board shall determine whether the petition conforms to plans or, if the petition requests a change in plans, whether a change should be made, and may change the plans of any or all the area education agency boards affected by the petition. The joint board shall determine and fix boundaries for the proposed corporation as provided in section 275.15 or dismiss the petition. The joint board may continue the hearing as provided in section 275.15.

Votes of each member of an area education agency board in attendance shall be weighted so that the total number of votes eligible to be cast by members of each board in attendance shall be equal. However, if the joint boards cast a tie vote and are unable to agree to a decision fixing the boundaries for the proposed school corporation or to a decision to dismiss the petition, the time during which actions must be taken under section 275.15 shall be extended from ten days to fifteen days after the conclusion of the hearing under section 275.15, and the joint board shall reconvene not less than ten and not more than fifteen days after the conclusion of the hearing. At the hearing the joint board shall reconsider its action and if a tie vote is again cast it is a decision granting the petition and changing the plans of any and all of the agency boards affected by the petition and fixing the boundaries for the proposed school corporation. The agency administrator shall at once publish the decision in the same newspaper in which the original notice was published.

In case a controversy arises from such meeting, the area education agency board or boards or any school district aggrieved may bring the controversy to the department of education, as provided in section 275.8, within twenty days from the publication of this order, and if said controversy is taken to the department of education, a ten-day notice in writing shall be given to all agency boards and school districts affected or portions thereof. The department shall have the authority to affirm the action of the joint boards, to vacate, to dismiss all proceedings or to make such modification of the action of the joint boards as in their judgment would serve the best interest of all the agencies. Judicial review of the actions of the department may be sought in accordance with the terms of the Iowa administrative procedure Act, chapter 17A. Notwithstanding the terms of said Act, petitions for judicial review must be filed within thirty days after the decision of the department of education.

275.17 Filing a petition.

If an area education agency board does not approve the change in boundaries of school districts in accordance with a petition, a petition describing the identical or similar boundaries shall not be filed for a period of six months following the date of the hearing or the vote of the board, whichever is later.
§275.18 Special election called — time.

When the boundaries of the territory to be included in a proposed school corporation and the number and method of the election of the school directors of the proposed school corporation have been determined as provided in this chapter, the area education agency administrator with whom the petition is filed shall give written notice of the proposed date of the election to the county commissioner of elections of the county in the proposed school corporation which has the greatest taxable base. The proposed date shall be as soon as possible pursuant to section 39.2, subsections 1 and 2, and section 47.6, subsections 1 and 2, but not later than November 30 of the calendar year prior to the calendar year in which the reorganization will take effect.

The county commissioner of elections shall give notice of the election by one publication in the same newspaper in which previous notices have been published regarding the proposed school reorganization, and in addition, if more than one county is involved, by one publication in a legal newspaper in each county other than that of the first publication. The publication shall be not less than four nor more than twenty days prior to the election. If the decision published pursuant to section 275.15 or 275.16 includes a description of the proposed school corporation and a description of the director districts, if any, the notice for election and the ballot do not need to include these descriptions. Notice for an election shall not be published until the expiration of the time for appeal, which shall be the same as that provided in section 275.15 or 275.16, whichever is applicable; and if there is an appeal, not until the appeal has been disposed of.

The area education agency administrator shall furnish to the commissioner a map of the proposed reorganized area which must be approved by the commissioner as suitable for posting. The map shall be displayed prominently in at least four places within the voting precinct, and inside each voting booth, or on the left-hand side inside the curtain of each voting machine.

§275.19 Separate vote in existing districts.

The voters shall vote separately in each existing school district affected and voters residing in the entire existing district are eligible to vote upon the proposition to create a new school corporation and the proposition to levy the voter-approved physical plant and equipment levy under section 298.2, if the petition included a provision for a vote to authorize the levy. If a proposition receives a majority of the votes cast in each of at least seventy-five percent of the districts, and also a majority of the total number of votes cast in all of the districts, the proposition is carried.

§275.20 Repealed by 73 Acts, ch 136, §401.

§275.22 Canvass and return.

The precinct election officials shall count the ballots, and make return to and deposit the ballots with the county commissioner of elections, who shall enter the return of record in the commissioner’s office. The election tally lists, including absentee ballots, shall be listed by individual school district. The county commissioner of elections shall certify the results of the election to the area education agency administrator. If the majority of the votes cast by the registered voters is in favor of the proposition, as provided in section 275.20, a new school corporation shall be organized. If the majority of votes cast is opposed to the proposition, a new petition describing the identical or similar boundaries shall not be filed for at least six months from the date of the election. If territory is excluded from the reorganized district, action pursuant to section 274.37 shall be taken prior to the effective date of reorganization. The secretary of the new school corporation shall file a written description of the boundaries as provided in section 274.4.

§275.23 Frequency of change.

A school district which is enlarged, reorganized, or changes its boundaries under sections 275.12 to 275.22, shall not file a petition under section 275.12 for the purpose of reducing the area served or changing the boundaries to exclude areas encompassed by the enlargement, reorganization, or boundary changes for a period of five years following the effective date of the enlargement, reorganization, or boundary change unless the action is approved by the director of the department of education.
275.23A Redistricting following federal decennial census.

1. School districts which have directors who represent director districts as provided in section 275.12, subsection 2, paragraphs "b", "c", "d", and "e", shall be divided into director districts according to the following standards:
   a. All director district boundaries shall follow the boundaries of areas for which official population figures are available from the most recent federal decennial census and, wherever possible, shall follow precinct boundaries.
   b. To the extent possible in order to comply with paragraph "a", all director districts shall be as nearly equal as practicable to the ideal population for the districts as determined by dividing the number of districts to be established into the population of the school district.
   c. All districts shall be composed of contiguous territory as compact as practicable unless the school district is composed of marginally adjacent territory. A school district which is composed of marginally adjacent territory shall have director districts composed of contiguous territory to the extent practicable.
   d. Consideration shall not be given to the addresses of incumbent officeholders, political affiliations of registered voters, previous election results, or demographic information other than population head counts, except as required by the Constitution and the laws of the United States.
   e. Cities shall not be divided into two or more districts unless the population of the city is greater than the ideal size of a director district. Cities shall be divided into the smallest number of director districts possible.

2. Following each federal decennial census the school board shall determine whether the existing director district boundaries meet the standards in subsection 1 according to the most recent federal decennial census. In addition to the authority granted to voters to change the number of directors or method of election as provided in sections 275.35, 275.36, and 278.1, the board of directors of a school district may, following a federal decennial census, by resolution and in accordance with this section, authorize a change in the method of election as set forth in section 275.12, subsection 2, or a change to either five or seven directors after the board conducts a hearing on the resolution. If the board proposes to change the number of directors from seven to five directors, the resolution shall include a plan for reducing the number of directors. If the board proposes to increase the number of directors to seven directors, two directors shall be added according to the procedure described in section 277.23, subsection 2. If necessary, the board of directors shall redraw the director district boundaries. The director district boundaries shall be described in the resolution adopted by the school board. The resolution shall be adopted no earlier than November 15 of the year immediately following the year in which the federal decennial census is taken nor later than May 15 of the second year immediately following the year in which the federal decennial census is taken. A copy of the plan shall be filed with the area education agency administrator of the area education agency in which the school's electors reside. If the board does not provide for an election as provided in sections 275.35, 275.36, and 278.1 and adopts a resolution to change the number of directors or method of election in accordance with this subsection, the district shall change the number of directors or method of election in accordance with this subsection, the district shall change the number of directors or method of election as provided unless, within twenty-eight days following the action of the board, the secretary of the board receives a petition containing the required number of signatures, asking that an election be called to approve or disapprove the action of the board in adopting the resolution. The petition must be signed by eligible electors equal in number to not less than one hundred or thirty percent of the number of voters at the last preceding regular school election, whichever is greater. The board shall either rescind its action or direct the county commissioner of elections to submit the question to the registered voters of the school district at the next following regular school election or a special election. If a majority of those voting on the question at the election favors disapproval of the action of the board, the district shall not change the number of directors or method of election. If a majority of those voting on the question does not favor disapproval of the action, the board shall certify the results of the election to the department of management and the district shall change the number of directors or method of election as provided in this subsection. At the expiration of the twenty-eight-day period, if no petition is filed, the board shall certify its action to the department of management and the district shall change the number of directors or method of election as provided in this subsection.

3. The school board shall notify the state commissioner of elections and the county commissioner of elections of each county in which a portion of the school district is located when the boundaries of director districts are changed. The notices of changes submitted to the state commissioner shall be postmarked no later than the deadline for adoption of the resolution under subsection 2. The board shall provide the commissioners with maps showing the new boundaries and shall also certify to the state commissioner the populations of the new director districts as determined under the latest federal decennial census. If, following a federal decennial census a school district elects not to redraw director districts under this section, the school board shall so certify to the state commissioner of elections, and the school board shall also certify to the state commissioner
§275.23A, REORGANIZATION OF SCHOOL DISTRICTS

275.24 Effective date of change.

When a school district is enlarged, reorganized, or changes its boundary pursuant to sections 275.12 to 275.22, the change shall take effect on July 1 following the date of the reorganization election held pursuant to section 275.18 if the election was held by the prior November 30. Otherwise the change shall take effect on July 1 one year later.

275.25 Election of directors.

1. If the proposition to establish a new school district carries under the method provided in this chapter, the area education agency administrator with whom the petition was filed shall give written notice of a proposed date for a special election for directors of the newly formed school district to the commissioner of elections of the county in the district involved in the reorganization which has the greatest taxable base. The proposed date shall be as soon as possible pursuant to section 39.2, subsections 1 and 2, and section 47.6, subsections 1 and 2, but not later than the third Tuesday in January of the calendar year in which the reorganization takes effect. The election shall be conducted as provided in section 277.3, and nomination petitions shall be filed pursuant to section 277.4, except as otherwise provided in this subsection. Nomination petitions shall be filed with the secretary of the board of the existing school district in which the candidate resides not less than twenty-eight days before the date set for the special school election. The secretary of the board, or the secretary’s designee, shall be present in the secretary’s office until five p.m. on the final day to file the nomination papers. The nomination papers shall be delivered to the commissioner no later than five p.m. on the twenty-seventh day before the election.

If the special election is held in conjunction with the regular school election, the filing deadlines for the regular school election apply.

2. The number of directors of a school district is either five or seven as provided in section 275.12. In school districts that include a city of fifteen thousand or more population as shown by the most recent decennial federal census, the board shall consist of seven members elected in the manner provided in subsection 3. If it becomes necessary to increase the membership of a board, two directors shall be added according to the procedure described in section 277.23.

The county board of supervisors shall canvass the votes and the county commissioner of elections shall report the results to the area education agency administrator who shall notify the persons who are elected directors.

3. The directors who are elected and qualify to serve shall serve until their successors are elected and qualify. At the special election, the newly elected director receiving the most votes shall be elected to serve until the director’s successor qualifies after the fourth regular school election date occurring after the effective date of the reorganization; the two newly elected directors receiving the next largest number of votes shall be elected to serve until the directors’ successors qualify after the third regular school election date occurring after the effective date of the reorganization; and the two newly elected directors receiving the next largest number of votes shall be elected to serve until the directors’ successors qualify after the second regular school election date occurring after the effective date of the reorganization. However, in districts that include all or a part of a city of fifteen thousand or more population and in districts in which the proposition to establish a new corporation provides for the election of seven directors, the three newly elected directors receiving the most votes shall be elected to serve until the directors’ successors qualify after the fourth regular school election date occurring after the effective date of the reorganization.

4. The board of the newly formed district shall organize within fifteen days after the special election upon the call of the area education agency administrator. The new board shall have control of the employment of personnel for the newly formed district for the next following school year under
section 275.33. Following the first organizational meeting of the board of the newly formed district, the board may establish policy, organize curriculum, enter into contracts, complete planning, and take action as necessary for the efficient management of the newly formed community school district.

5. Section 49.8, subsection 4 does not permit a director to remain on the board of a school district after the effective date of a boundary change which places the director’s residence outside the boundaries of the district. Vacancies caused by this occurrence on a board shall be filled in the manner provided in sections 279.6 and 279.7.

6. The board of the newly formed district shall appoint an acting superintendent and an acting board secretary. The appointment of the acting superintendent shall not be subject to the continuing contract provisions of sections 279.20, 279.23, and 279.24.

275.26 Payment of expenses.

If a district is established or changes its boundaries it shall pay all expenses incurred by the area education agency administrator and the area education agency board in connection with the proceedings. The county commissioner of elections shall assess the costs of the election against the district as provided in section 47.3. If the proposition is dismissed or defeated at the election all expenses shall be apportioned among the several districts in proportion to the assessed valuation of property therein.

If the proposed district or boundary change embraces territory in more than one area education agency such expenses shall be certified to and, if necessary, apportioned among the several districts by the joint agency board. If in only one agency the certification shall be made by the agency administrator.

The respective boards to which such expenses are certified shall audit and order the same paid from the general fund. In the event of failure of any board to so audit and pay the expenses certified to it, the area education agency administrator shall certify the expenses to the county auditor in the same manner as is provided for tuition claims in section 282.21 and the funds shall be transferred by the county treasurer from the debt district to the agency board for payment of said expenses.

275.27 Community school districts — part of area education agency.

School districts created or enlarged under this chapter are community school districts and are part of the area education agency in which the greatest number of registered voters of the district reside at the time of the special election called for in section 275.18, and sections of the Code applicable to the common schools generally are applicable to these districts in addition to the powers and privileges conferred by this chapter. If a school district, created or enlarged under this chapter and assigned to an area education agency under this section, can demonstrate that students in the district were utilizing a service or program prior to the formation of the new or enlarged district that is unavailable from the area education agency to which the new or enlarged district is assigned, the district may be reassigned to the area education agency which formerly provided the service or program, upon an affirmative majority vote of the boards of the affected area education agencies to permit the change.

275.28 Plan of division of assets and liabilities.

In addition to setting up the territory to comprise the reorganized districts, a reorganization petition may provide for a division of assets and liabilities of the old districts between reorganized districts. If no provision is made in the petition for division of assets and liabilities, or if territory is excluded from the reorganized district by the petition or by the area education agency board of directors, the division shall be made under the provisions of sections 275.29 to 275.31.

275.29 Division of assets and liabilities after reorganization.

Between July 1 and July 20, the board of directors of the newly formed school district shall meet with the boards of the school districts affected by the organization of the new school corporation, including the boards of districts receiving territory of the school districts affected, for the purpose of reaching joint agreement on an equitable division of the assets of the several school corporations or parts of school corporations and an equitable distribution of the liabilities of the affected corporations or parts of corporations. In addition, if out-
standing bonds are in existence in any district, the initial board of directors of the newly formed school district shall meet with the boards of all school districts affected prior to April 15 prior to the school year the reorganization is effective to determine the distribution of the bonded indebtedness between the districts so that the newly formed district may certify its budget under the procedures specified in chapter 24. The boards shall consider the mandatory levy required in section 76.2 and shall assure the satisfaction of outstanding obligations of each affected school corporation. If the petition includes plans for the distribution of the bonded indebtedness, the exclusion of territory from the reorganized district does not require action pursuant to this section. If the petition includes plans for the distribution of the bonded indebtedness, the exclusion of territory from the reorganized district does not require action pursuant to this section.

275.30 Arbitration.

If the boards cannot agree on such division and distribution, the matters on which they differ shall be decided by disinterested arbitrators, one selected by the initial board of directors of the newly formed district, one by each of the boards of directors of the school districts affected, and one selected jointly by the boards of directors of contiguous districts receiving territory of the school district affected. If the number of arbitrators selected is even, a disinterested arbitrator shall be added by the area education agency administrator. The decision of the arbitrators shall be made in writing and filed with the secretary of the new corporation, and a party to the proceedings may appeal the decision to the district court by serving notice on the secretary of the new corporation within twenty days after the decision is filed. The appeal shall be tried in equity and a decree entered determining the entire matter, including the levy, collection, and distribution of any necessary taxes.

275.31 Taxes and appropriation to effect equalization.

If necessary to equalize the division and distribution, the board or boards may provide for the levy of additional taxes, which shall be sufficient to satisfy the mandatory levy required in section 76.2 or other liabilities of the districts, upon the property of a corporation or part of a corporation and for the distribution of the tax revenues so as to effect equalization. When the board or boards are considering the equalization levy, the division and distribution shall not impair the security for outstanding obligations of each affected corporation. Any owner of bonds of an affected corporation may bring suit in equity for adjustment of the division and distribution in compliance with this section. If the property tax levy for the amount estimated and certified to apply on principal and interest on lawful bonded indebtedness for a newly formed community school district is greater than the property tax levy for the amount estimated and certified to apply on principal and interest in the year preceding the reorganization or dissolution for a school district that is a party to the reorganization or dissolution, that had a certified enrollment of less than six hundred for the year prior to the reorganization or dissolution, and that approved the reorganization or dissolution prior to July 1, 1989, the board of the newly formed district shall inform the department of management. The department of management shall pay debt service aid to the newly formed district in an amount that reduces the rate of the property tax levy for lawful bonded indebtedness in the portion of the newly formed district where the new rate is higher, to the rate that was levied in that portion of the district during the year preceding the reorganization or dissolution.

For the school year beginning July 1, 1987, and succeeding school years, there is appropriated from the general fund of the state to the department of management an amount sufficient to pay the debt service aid under this section. Debt service aid shall be paid in the manner provided in section 257.16. Not later than May 1 of each year, the department of management shall inform the board of the newly formed school district the amount of debt service aid that the district will receive and the rate of the property tax levy for the amount estimated and certified to apply on principal and interest on lawful bonded indebtedness in the portion of the newly formed district where the new rate would have been higher, and for the remainder of the newly formed district. The department of management shall notify the county auditor of each applicable county of the amount, in dollars and cents per thousand dollars of assessed valuation, of the property tax levy in each portion of each applicable newly formed school district in the county for the amount estimated and certified to apply on principal and interest on lawful bonded indebtedness, and the boundaries of the portions within the newly formed district for which the levies shall be made. The county auditor shall spread the applicable property tax levy for each portion of a school district over all taxable property in that portion of the district.

275.33 Contracts of new district.
1. The terms of employment of superintendents, principals, and teachers, for the school year following the effective date of the formation of the new district shall not be affected by the formation of the new district, except in accordance with the provisions of sections 279.15 to 279.18 and 279.24 and the authority and responsibility to offer new contracts or to continue, modify, or terminate existing contracts pursuant to sections 279.12, 279.13, 279.15 to 279.21, 279.23, and 279.24 for the school year beginning with the effective date of the reorganization shall be transferred from the boards of the existing districts to the board of the new district on the third Tuesday of January prior to the school year the reorganization is effective.

2. The collective bargaining agreement of the district with the largest basic enrollment for the year prior to the reorganization, as defined in section 257.6, in the new district shall serve as the base agreement and the employees of the other districts involved in the formation of the new district shall automatically be accreted to the bargaining unit of that collective bargaining agreement for purposes of negotiating the contracts for the following years without further action by the public employment relations board. If only one collective bargaining agreement is in effect among the districts which are party to the reorganization, then that agreement shall serve as the base agreement, and the employees of the other districts involved in the formation of the new district shall automatically be accreted to the bargaining unit of that collective bargaining agreement for purposes of negotiating the contracts for the following years without further action by the public employment relations board. The board of the newly formed district, using the base agreement as its existing contract, shall bargain with the combined employees of the existing districts for the school year beginning with the effective date of the reorganization. The bargaining shall be completed by the dates specified in section 20.17 prior to the school year in which the reorganization becomes effective or within one hundred eighty days after the organization of the new board, whichever is later. If a bargaining agreement was already concluded by the board and employees of the existing district with the contract serving as the base agreement for the school year beginning with the effective date of the reorganization, that agreement shall be void. However, if the base agreement contains multiyear provisions affecting school years subsequent to the effective date of the reorganization, the base agreement shall remain in effect as specified in the agreement.

The provisions of the base agreement shall apply to the offering of new contracts, or continua-
district boundaries pursuant to section 275.12, subsection 2, paragraph "b", "c", "d", or "e", the school board shall draw the necessary boundaries within forty days after the date of the election. The boundaries shall be drawn according to the requirements of section 275.23A. Following adoption by the school board, the plan shall be submitted to the state commissioner of elections for approval. The new boundaries shall become effective on July 1 following approval.

§275.37 Increase in number of directors.

At the next succeeding annual school election in a district where the number of directors has been increased from five to seven, and directors are elected at large, there shall be elected a director to succeed each incumbent director whose term is expiring in that year, and two additional directors. Upon organizing as required by section 279.1, the newly elected director who received the fewest votes in the election shall be assigned a term of either one year or two years if necessary in order that as nearly as possible one-third of the members of the board shall be elected each year. If some or all directors are elected from director districts, the board shall assign terms appropriate for the method of election used by the district.

§275.37A Decrease in number of directors.

1. A change from seven to five directors shall be effected in a district at the first regular school election after authorization by the voters in the following manner:
   a. If at the first election in the district there are three terms expiring, one director shall be elected. At the second election in that district, if two terms are expiring, two directors shall be elected. At the third election in that district, if there are two terms expiring, two directors shall be elected.
   b. If at the first election there are two terms expiring, no directors shall be elected. At the second election in that district, if two terms are expiring, two directors shall be elected. At the third election in that district, if there are three terms expiring, three directors shall be elected, two for three years and one for one year. The newly elected director who received the fewest votes in the election shall be assigned a term of one year.
   c. If at the first election there are two terms expiring, no directors shall be elected. At the second election in that district, if three terms are expiring, three directors shall be elected, two for three years and one for two years. The newly elected director who received the fewest votes in the election shall be assigned a term of two years. At the third election in that district, if there are two terms expiring, two directors shall be elected.
   2. If some or all of the directors are elected from director districts, the board shall devise a plan to reduce the number of members so that as nearly as possible one-third of the members of the board shall be elected each year and so that each district will be continuously represented.

2002 Acts, ch 1134, §86, 115

§275.38 Implementing changed method of election.

If change in the method of election of school directors is approved at a regular or special school election, the directors who were serving unexpired terms or were elected concurrently with approval of the change in method shall serve out the terms for which they were elected. If the plan adopted is that described in section 275.12, subsection 2, paragraph "b", "c", "d", or "e", the board shall at the earliest practicable time designate the districts from which residents are to be elected as school directors at each of the next three succeeding annual school elections, arranging so far as possible for elections of directors as residents of the respective districts to coincide with the expiration of terms of incumbent members residing in those districts. If an increase in the size of the board from five to seven members is approved concurrently with the change in method of election of directors, the board shall make the necessary adjustment in the manner prescribed in section 275.37, as well as providing for implementation of the districting plan under this section.

[C75, 77, 79, 81, §275.38]

§275.39 Excluded territory included in new petition.

Territory described in the petition of a proposed reorganization which has been set out of the proposed reorganization by the area education agency board or the joint boards and in the event of an appeal, after the decision of the director of the department of education or the courts, may be included in any new petition for reorganization.

§275.40 Repealed by 74 Acts, ch 1172, §133.

§275.41 Alternative method for director elections — temporary appointments.

1. As an alternative to the method specified in section 275.25 for electing directors in a newly formed community school district, the procedure specified in this section may be used and if used, the petition filed under section 275.12 shall state the number of directors on the initial board. If two districts are named in the petition, either five or seven directors shall serve on the initial board. If three or more districts are named in the petition,
either seven or nine directors shall serve on the initial board. The petition shall specify the number of directors to be retained from each district, and those numbers shall be proportionate to the populations of the districts. If the exclusion of territory from a reorganization affects the proportionate balance of directors among the affected districts specified in the petition, or if the proposal specified in the petition does not comply with the requirement for proportionate representation, the area education board shall modify the proposal. However, all districts affected shall retain at least one member.

2. Prior to the organizational meeting of the newly formed district, the boards of the former districts shall designate directors to be retained as members to serve on the initial board, and if the total number of directors determined under subsection 1 is an even number, that number of directors shall function and may within five days of the organizational meeting appoint one additional director by unanimous vote with all directors voting. Otherwise, the board shall function until a special election can be held to elect an additional director. The procedure for calling the special election shall be the procedure specified in section 275.25. If there is an insufficient number of board members eligible to be retained from a former school district, the board of the former school district may appoint members to fill the vacancies. A vacancy occurs if there is an insufficient number of former board members who reside in the newly formed district or if there is an insufficient number who are willing to serve on the board of the newly formed district.

3. 278.1 Enumeration.
The voters at the regular election shall have power to:
1. Direct a change of textbooks regularly adopted.
2. Direct the sale, lease, or other disposition of any schoolhouse or site or other property belonging to the corporation, and the application to be made of the proceeds thereof, provided, however, that nothing herein shall be construed to prevent the sale, lease, exchange, gift or grant and acceptance of any interest in real or other property by the board of directors without an election to the extent authorized in section 297.22.
3. Determine upon additional branches that shall be taught.
4. Instruct the board that school buildings may or may not be used for meetings of public interest.
5. Direct the transfer of any surplus in the debt service fund, physical plant and equipment levy fund, capital projects funds, or public education and recreation levy fund to the general fund.
6. Authorize the board to obtain, at the expense of the corporation, roads for proper access to its schoolhouses.
7. Authorize a change to either five or seven directors. The proposition for the change shall specify the number of directors to be elected, and which of the methods of election authorized by section 275.12, subsection 2, is to be used if the change is approved by the voters.
8. Authorize a change in the method of conducting elections or in the number of directors as provided in sections 275.35 and 275.36. If a proposition submitted to the voters under this subsection or subsection 7 is rejected, it may not be resubmitted to the voters of the district in substantially the same form within the next three years; if it is approved, no other proposal may be submitted to the voters of the district under this subsection or subsection 7 within the next six years. The establishment or abandonment of director districts or a change in the boundaries of director districts shall be implemented as prescribed in section 275.37.
9. Change the name of the school district, without affecting its corporate existence, rights, or obligations, and subject to the requirements of section 274.6.

The board may, with approval of sixty percent of the voters, voting in a regular or special election in the school district, make extended time contracts not to exceed twenty years in duration for rental of buildings to supplement existing schoolhouse facilities; and where it is deemed advisable for buildings to be constructed or placed on real estate owned by the school district, these contracts may include lease-purchase option agreements, the amounts to be paid out of the physical plant and equipment levy fund.

Before entering into a rental or lease-purchase option contract, authorized by the electors, the board shall first adopt plans and specifications for a building or buildings which it considers suitable for the intended use and also adopt a form of rental or lease-purchase option contract. The board shall then invite bids thereon, by advertisement published once each week for two consecutive weeks, in a newspaper published in the county in which the building or buildings are to be located, and the rental or lease-purchase option contract shall be awarded to the lowest responsible bidder, but the board may reject any and all bids and advertise for new bids.

278.2 Submission of proposition.
The board may, and upon the written request of one hundred eligible electors or a number of electors which equals thirty percent of the number of electors who voted in the last regular school board election, whichever number is greater, shall direct the county commissioner of elections to provide in the notice of the regular election for the submission of any proposition authorized by law to the voters. When the board has directed the commissioner to submit to the voters a proposition authorized by section 278.1, subsection 7 or 8, it shall not thereafter direct the commissioner to submit at the same election any other proposition under either of those subsections.

Petitions filed under this section shall be filed with the secretary of the school board at least seventy-five days before the date of the annual school election, if the question is to be included on the bal-
lot at that election. The petition shall include the signatures of the petitioners, a statement of their place of residence, and the date on which they signed the petition.

[C75, 77, 79, 81, §278.3]
§279.1 Organization. The board of directors of each school corporation shall meet and organize at the first regular meeting after the canvass for the regular school election at some suitable place to be designated by the secretary. Notice of the place and hour of the meeting shall be given by the secretary to each member and member-elect of the board.

Such organization shall be effected by the election of a president from the members of the board, who shall be entitled to vote as a member.

§279.2 Special meetings. Such special meetings may be held as may be determined by the board, or called by the president, or by the secretary upon the written request of a majority of the members of the board, upon notice specifying the time and place, delivered to each member in person, or by registered letter, but attendance shall be a waiver of notice.

The board shall also appoint a treasurer who may be another employee of the board. However, the board may appoint one person to serve as the secretary and the treasurer.

A person so appointed to fill a vacancy in an elective office shall hold office until a successor is elected and qualified pursuant to section 69.12. A person appointed to fill a vacancy in an appointive office shall hold such office for the residue of the unexpired term and until a successor is appointed and qualified. Any person so appointed shall qualify within ten days thereafter in the manner required by section 277.28.

A vacancy shall be filled at the next regular school election if a member of a school board resigns from the board not later than forty-five days before the election and the notice of resignation specifies an effective date at the beginning of the next term of office for elective school officials. The president of the board shall declare the office vacant as of the date of the next organizational meeting. Nomination papers shall be received for the unexpired term of the resigning member. The person elected at the next regular school election to fill the vacancy shall take office at the same time and place as the other elected school board members.

§279.6 Vacancies — qualification — tenure.

If a vacancy or vacancies occur among the elective officers or members of a school board and the remaining members of the board have not filled the vacancy within thirty days after the vacancy occurs, or when the board is reduced below a quorum, the secretary of the board, or if there is no secretary, the area education agency administrator, shall call a special election in the district, subdistrict, or subdistricts, as the case may be, to fill the vacancy or vacancies. The county commissioner of elections shall publish the notices required by law for special elections, and the election shall be held not sooner than thirty days nor later

Any appointment by the board to fill any vacancy in an elective office on or after the day notice has been given for a special election to fill such vacancy as provided herein shall be null and void.

In any case of a special election as provided herein to fill a vacancy occurring among the elective officers or members of a school board before the expiration of a full term, the person so elected shall qualify within ten days thereafter in the manner required by section 277.28 and shall hold office for the residue of the unexpired term and until a successor is elected, or appointed, and qualified.

Nomination petitions shall be filed in the manner provided in section 277.4, except that the petitions shall be filed not less than twenty-five days before the date set for the election.

However, if the first day of September falls on a Sunday, school may begin on a day during the calendar week which immediately precedes the first day of September. School shall continue for at least one hundred eighty days, except as provided in subsection 3, and may be maintained during the entire calendar year. However, if the board of directors of a district extends the school calendar because inclement weather caused the district to temporarily close school during the regular school calendar, the district may excuse a graduating senior who has met district or school requirements for graduation from attendance during the extended school calendar. A school corporation may begin employment of personnel for in-service training and development purposes before the date to begin elementary and secondary school.

The board may enter into an agreement pursuant to chapter 28E with another school district or an area education agency for the purpose of jointly procuring a group health insurance plan, nonprofit group hospital service plan, nonprofit group medical service plan, or group life insurance plan for the benefit of the districts or agencies which are parties to the agreement. Such plan may include a cafeteria plan as defined in 26 C.F.R. §1.125-2T. An agreement entered into pursuant to this paragraph shall not be construed to establish a multiple employer welfare arrangement as defined in section 3 of the federal Employee Retirement Income Security Act of 1974, 29 U.S.C. §1002, paragraph 40.

The board may approve a policy for educational leave for licensed school employees and for reimbursement for tuition paid by licensed school employees for courses approved by the board. 2. The determination of standards of performance expected of school district personnel shall be reserved as an exclusive management right of the school board and shall not be subject to mandatory negotiations under chapter 20. Notwithstanding chapter 20, objections to the procedures, use, or content of an evaluation in a teacher termination proceeding brought before the school board in a hearing held in accordance with section 279.16 or 279.27 shall not be subject to the grievance procedures negotiated in accordance with chapter 20. The program shall not be used to provide consultation or assistance on specific employment situations. Training received by an administrator in accordance with this section shall apply toward an administrator’s evaluator approval renewal.

If the teacher is no longer a probationary teacher, the teacher may, within ten days, appeal the determination of the board to an adjudicator by filing a notice of appeal with the secretary of the board. The notice of appeal shall contain a concise statement of the action which is the subject of the appeal, the particular board action appealed from, the grounds on which relief is sought and the relief sought.

Within five days following receipt by the secretary of the notice of appeal, the board or the board's legal representative, if any, and the teacher or the teacher's representative, if any, may select an adjudicator who resides within the boundaries of the merged area in which the school district is located. If an adjudicator cannot be mutually agreed upon within the five-day period, the secretary shall notify the chairperson of the public employment relations board by transmitting the notice of appeal, the particular board action appealed from, the grounds on which relief is sought and the relief sought.

The record of the private conference and findings of fact and exceptions shall be exempt from the provisions of chapter 22. The secretary of the board shall immediately mail notice of the board's action to the teacher.

92 Acts, ch 1008, §1; 92 Acts, ch 1227, §19; 2001 Acts, ch 62, §1

Any decision, opinion, or conclusion by the board shall become final and binding.

If the teacher does not timely request an appeal to an adjudicator the decision, opinion, or conclusion of the board shall become final and binding.

Within thirty days after filing the notice of appeal, or within further time allowed by the adjudicator, the board shall transmit to the adjudicator the original or a certified copy of the entire record of the private hearing which may be the subject of the petition. By stipulation of the parties to review the proceedings, the record of the case may be shortened. The adjudicator may require or permit subsequent corrections or additions to the shortened record.

If an adjudicator cannot be mutually agreed upon, the adjudicator selected.

The record certified and filed by the board shall be the record upon which the appeal shall be heard and no additional evidence shall be heard by the adjudicator. In such appeal to the adjudicator, especially when considering the credibility of witnesses, the adjudicator shall give weight to the fact findings of the board; but shall not be bound by them.

Before the date set for hearing a petition for review of board action, which shall be within ten days after receipt of the record unless otherwise agreed or unless the adjudicator orders additional evidence be taken before the board, application may be made to the adjudicator for leave to present evidence in addition to that found in the record of the case. If it is shown to the adjudicator that the additional evidence is material and that there were good reasons for failure to present it in the private hearing before the board, the adjudicator may order that the additional evidence be taken before the board upon conditions determined by the adjudicator. The board may modify its findings and decision in the case by reason of the additional evidence and shall file that evidence and any modifications, new findings, or decisions, with the adjudicator and mail copies of the new findings or decisions to the teacher.

The adjudicator may affirm board action or remand to the board for further proceedings. The adjudicator shall reverse, modify, or grant any appropriate relief from the board action if substantial rights of the teacher have been prejudiced because the board action is:

1. In violation of a board rule or policy or contract; or
2. Unsupported by a preponderance of the competent evidence in the record made before the board when that record is viewed as a whole; or
3. Unreasonable, arbitrary or capricious or characterized by an abuse of discretion or a clearly unwarranted exercise of discretion.

The adjudicator shall, within fifteen days after the hearing, make a decision and shall give a copy of the decision to the teacher and the secretary of the board. The decision of the adjudicator shall become the final and binding decision of the board unless either party within ten days notifies the
secretary of the board that the decision is rejected. The board may reject the decision by majority vote, by roll call, in open meeting and entered into the minutes of the meeting. The board shall immediately notify the teacher of its decision by certified mail. The teacher may reject the adjudicator's decision by notifying the board's secretary in writing within ten days of the filing of such decision.

All costs of the adjudicator shall be shared equally by the teacher and the board.

[C77, 79, 81, §279.17]

**279.18 Appeal by either party to court.**

1. If either party rejects the adjudicator's decision, the rejecting party shall, within thirty days of the initial filing of such decision, appeal to the district court of the county in which the administrative office of the school district is located. The notice of appeal shall be immediately mailed by certified mail to the other party. The adjudicator shall transmit to the reviewing court the original or a certified copy of the entire record which may be the subject of the petition. By stipulation of all parties to the review proceedings, the record of such a case may be shortened. A party unreasonably refusing to stipulate to limit the record may be taxed by the court for the additional cost. The court may require or permit subsequent corrections or additions to the shortened record.

2. In proceedings for judicial review of the adjudicator's decision, the court shall not hear any further evidence but shall hear the case upon the certified record. In such judicial review, especially when considering the credibility of witnesses, the court shall give weight to the fact findings of the board; but shall not be bound by them. The court may affirm the adjudicator's decision or remand to the adjudicator or the board for further proceedings upon conditions determined by the court. The court shall reverse, modify, or grant any other appropriate relief from the board decision or the adjudicator's decision equitable or legal and including declaratory relief if substantial rights of the petitioner have been prejudiced because the action is:

- a. In violation of constitutional or statutory provisions; or
- b. In excess of the statutory authority of the board or the adjudicator; or
- c. In violation of a board rule or policy or contract; or
- d. Made upon unlawful procedure; or
- e. Affected by other error of law; or
- f. Unsupported by a preponderance of the competent evidence in the record made before the board and the adjudicator when that record is viewed as a whole; or
- g. Unreasonable, arbitrary or capricious or characterized by an abuse of discretion or a clearly unwarranted exercise of discretion.

3. An aggrieved or adversely affected party to the judicial review proceeding may obtain a review of any final judgment of the district court by appeal to the supreme court. The appeal shall be taken as in other civil cases, although the appeal may be taken regardless of the amount involved.

4. For purposes of this section, unless the context otherwise requires, "rejecting party" shall include, but not be limited to, an instructor employed by a community college.

The board's decision shall be final and binding unless the termination was based upon an alleged violation of a constitutionally guaranteed right of the teacher or an alleged violation of public employee rights of the teacher under section 20.10.

Notwithstanding any provision to the contrary, the grievance procedures of section 20.18 relating to job performance or job retention shall not apply to a teacher during the first two years of the teacher's probationary period. However, this paragraph shall not apply to a teacher who has successfully completed a probationary period in a school district in Iowa.

279.24 Contract with administrators — automatic continuation or termination.

1. An administrator's contract shall remain in force and effect for the period stated in the contract. The contract shall be automatically continued in force and effect for additional one-year periods beyond the end of its original term, except and until the contract is modified or terminated by mutual agreement of the board of directors and the administrator, or until terminated as provided by this section.

2. If the board of directors is considering termination of an administrator's contract, prior to any formal action, the board may arrange to meet in closed session, in accordance with the provisions of section 21.5, with the administrator and the administrator's representative. The board shall review the administrator's evaluation, review the reasons for nonrenewal, and give the administrator an opportunity to respond. If, following the closed session, the board of directors and the administrator are unable to mutually agree to a modification or termination of the administrator's contract, the board of directors and the administrator are unable to mutually agree to enter into a one-year nonrenewable contract, the board of directors shall follow the procedures in this section.

3. An administrator may file a written resignation with the secretary of the school board on or before May 1 of each year or the date specified by the school board for return of the contract, whichever date occurs first.

4. Administrators employed in a school district for less than two consecutive years are probationary administrators. However, a school board may waive the probationary period for any administrator who has previously served a probationary period in another school district and the school board may extend the probationary period for an additional year with the consent of the administrator. If a school board determines that it should terminate a probationary administrator's contract, the school board shall notify the administrator not later than May 15 that the contract will not be renewed beyond the current year. The notice shall be in writing by letter, personally delivered, or mailed by certified mail. The notification shall be complete when received by the administrator. Within ten days after receiving the notice, the administrator may request a private conference with the school board to discuss the reasons for termination. The school board's decision to terminate a probationary administrator's contract shall be final unless the termination was based upon an alleged violation of a constitutionally guaranteed right of the administrator.

5. The school board may, by majority vote of the membership of the school board, cause the contract of an administrator to be terminated. If the school board determines that it should terminate a nonprobationary administrator's contract, the following procedure shall apply:

Within three days from receipt of the list the parties shall select an administrative law judge by alternately removing a name from the list until only one name remains. The person whose name remains shall be the administrative law judge. The parties shall determine by lot which party shall remove the first name from the list. The hearing shall be held no sooner than ten days and not later than thirty days following the administrator's request unless the parties otherwise agree. If the administrator does not request a hearing, the school board, not later than May 31, may determine the continuance or discontinuance of the contract and, if the board determines to continue the administrator's contract, whether to suspend the administrator with or without pay for a period specified by the board. School board action shall be by majority roll call vote entered on the minutes of the meeting. Notice of school board action shall be personally delivered or mailed to the administrator.

The school board may be represented by a legal representative, if any, and the administrator shall appear and may be represented by counsel or by representative, if any. A transcript or recording shall be made of the proceedings at the hearing. A school board member or administrator is not liable for any damage to an administrator or school board member if a statement made at the hearing is determined to be erroneous as long as the statement was made in good faith.

e. Findings of fact shall be prepared by the administrative law judge. The proposed decision of the administrative law judge shall become the final decision of the school board unless within ten days after the filing of the decision the administrator files a written notice of appeal with the school board, or the school board on its own motion determines to review the decision.

f. If the administrator appeals to the school board, or if the school board determines on its own motion to review the proposed decision of the administrative law judge, a private hearing shall be held before the school board within five days after the petition for review, or motion for review, has been made or at such other time as the parties agree. The private hearing is not subject to chapter 21. The school board may hear the case de novo upon the record as submitted before the administrative law judge. In cases where there is an appeal from a proposed decision or where a proposed decision is reviewed on motion of the school board, an opportunity shall be afforded to each party to file exceptions, present briefs, and present oral arguments to the school board which is to render the final decision. The secretary of the school board shall give the administrator written notice of the time, place, and date of the hearing. The school board shall meet within five days after the hearing to determine the question of continuance or discontinuance of the contract and, if the board determines to continue the administrator’s contract, whether to suspend the administrator with or without pay for a period specified by the board. The school board shall make findings of fact which shall be based solely on the evidence in the record and on matters officially noticed in the record.

g. The decision of the school board shall be in writing and shall include findings of fact and conclusions of law, separately stated. Findings of fact, if set forth in statutory language, shall be accompanied by a concise and explicit statement of the underlying facts supporting the findings. Each conclusion of law shall be supported by cited authority or by reasoned opinion.

h. When the school board has reached a decision, opinion, or conclusion, it shall convene in open meeting and by roll call vote determine the continuance or discontinuance of the administrator’s contract and, if the board votes to continue the administrator’s contract, whether to suspend the administrator with or without pay for a period specified by the board. The record of the private conference and findings of fact and exceptions shall be exempt from the provisions of chapter 22. The secretary of the school board shall immediately personally deliver or mail notice of the school board's action to the administrator.

6. Any expression made by students in the exercise of free speech, including student expression in official school publications, shall not be deemed to be an expression of school policy, and the public school district and school employees or officials shall not be liable in any civil or criminal action for any student expression made or published by students, unless the school employees or officials have interfered with or altered the content of the student speech or expression, and then only to the extent of the interference or alteration of the speech or expression.

7. "Official school publications" means material produced by students in the journalism, newspaper, yearbook, or writing classes and distributed to the student body either free or for a fee.

The board of directors of each public school and the authorities in charge of each accredited nonpublic school shall prescribe procedures to report any use or possession of alcoholic liquor, wine, or beer or any controlled substance on school premises to local law enforcement agencies, if the use or possession is in violation of school policy or state law. The procedures may include a provision which does not require a report when the school officials have determined that a school at-risk or other student assistance program would be jeopardized if a student self reports.

### 280.25 Information sharing — interagency agreements.

1. The board of directors of each public school and the authorities in charge of each accredited nonpublic school shall adopt rules which provide that the school district or school may share information contained within a student’s permanent record pursuant to an interagency agreement with state and local agencies that are part of the juvenile justice system. These agencies include, but are not limited to, juvenile court services, the department of human services, and local law enforcement authorities. The disclosure of information shall be directly related to the juvenile justice system’s ability to effectively serve, prior to adjudication, the student whose records are being released.

2. The purpose of the agreement shall be to reduce juvenile crime by promoting cooperation and collaboration and the sharing of appropriate information among the parties in a joint effort to improve school safety, reduce alcohol and illegal drug use, reduce truancy, reduce in-school and out-of-school suspensions, and to support alternatives to in-school and out-of-school suspensions and expulsions which provide structured and well-supervised educational programs supplemented by coordinated and appropriate services designed to correct behaviors that lead to truancy, suspension, and expulsions and to support students in successfully completing their education.

3. Information shared under the agreement shall be used solely for determining the programs and services appropriate to the needs of the juvenile or the juvenile’s family, or coordinating the delivery of programs and services to the juvenile or the juvenile’s family.

4. Information shared by the school district or school under the agreement is not admissible in any court proceedings which take place prior to a disposition hearing, unless written consent is obtained from a student’s parent, guardian, or legal or actual custodian.

5. Information shared by another party to the agreement with a school district or school pursuant to an interagency agreement shall not be used as a basis for a school disciplinary action against a student.

6. The interagency agreement shall provide, and each signatory agency to the agreement shall certify in the agreement, that confidential information shared among the parties to the agreement shall remain confidential and shall not be shared with any other person, school, school district, or agency, unless otherwise provided by law.

7. Juvenile court social records may be disclosed in accordance with section 232.147, subsection 7.

8. A school or school district entering into an interagency agreement under this section shall adopt a policy implementing the provisions of the interagency agreement. The policy shall include, but not be limited to, the provisions of the interagency agreement and the procedures to be used by the school or school district to share information from the student’s permanent record with participating agencies. The policy shall be published in the student handbook.

280A.4 Pilot programs.
The Iowa learning technology commission created in section 280A.2 shall develop and administer the Iowa learning technology pilot programs to encourage innovation, increase student achievement, and ensure that technology is used on the basis of best practices. The pilot programs should be designed to obtain valid and reliable evidence of the impact on student engagement and achievement from the use of technology, which may include but not be limited to a “one-to-one” initiative; further demonstrate successful district-to-vendor relationships and possibilities; provide for development of individual education plans for students; identify local district educational and fiscal planning and implementation strategies; and gain a better understanding of the current status of technology in Iowa schools. The goal for each pilot program is to provide results and additional information necessary for the general assembly to consider implementation of a statewide technology initiative. The commission shall make
the final determination regarding pilot program
grant awards, and shall notify the department of
education of the amount of the grant amount to be
awarded to a school district. From moneys appro-

b. Professional development. Quality, ongo-

d. Equitable access. Grant awards under the
pilot program shall be distributed to school dis-

sures that students throughout the state have eq-
utile access to education opportunities offered
via the use of technology and telecommunications.
e. Educational technology planning. Due
consideration shall be given to future sustainabil-
ity of learning technology resources by adapting to
future educational needs and technology changes
and by avoiding obsolescence of learning techno-
logy resources.
f. Economic development. Grant moneys
should be distributed in such a manner as to foster
economic development across all regions of the
state and to prepare students for an economy that
embraces technology and innovation.
g. Accountability. The pilot program shall
include methods of measuring progress in the
areas of increased student engagement; decreased
disciplinary problems; increased use of computers
for writing, analysis, and research; movement to-

For purposes of this section, "resident" means a child who is physically present in a district, whose residence has not been established in another district by operation of law, and who meets any of the following conditions:
1. Is in the district for the purpose of making a home and not solely for school purposes.

Notice of the suspension shall be immediately sent to the president of the board. By special meeting or at the next regularly scheduled board meeting, the board shall review the suspension and decide whether to hold a disciplinary hearing to determine whether or not to order further sanctions against the student, which may include expelling the student. The board of education may, in a hardship case, exempt a student from payment of the above fees. Every person, however, who shall attend any school after graduation from a four-year course in an approved high school or its equivalent shall be charged a sufficient tuition fee to cover the cost of the instruction received by the person.

### 282.7 Attending in another corporation — payment.

1. The board of directors of a school district by record action may discontinue any or all of grades seven through twelve and negotiate an agreement for attendance of the pupils enrolled in those grades in the schools of one or more contiguous school districts having accredited school systems. If the board designates more than one contiguous district for attendance of its pupils, the board shall draw boundary lines within the school district for determining the school districts of attendance of the pupils. The portion of a district so designated shall be contiguous to the accredited school district designated for attendance. Only entire grades may be discontinued under this subsection and if a grade is discontinued, all higher grades in that district shall also be discontinued. A school district that has discontinued one or more grades under this subsection has complied with the requirements of section 275.1 relating to the maintenance of kindergarten and twelve grades. A pupil who graduates from another school district under this subsection shall receive a diploma from the receiving district. The boards of directors entering into an agreement under this section shall provide for sharing the costs and expenses as provided in sections 282.10 through 282.12. The agreement shall provide for transportation and authority and liability of the affected boards.

2. If the vocational program offered by a school district does not meet the state board of vocational education’s standards for program approval, the district shall be granted one year to meet the standards for approval. If a district chooses to waive the one-year grace period, or the district fails to
meet the approval standards after one year, the di-
rector of the board of vocational education shall
delegate the authority to the regional planning
board established pursuant to section 258.16 to di-
rect the district to contract with another school
district or a merged area school which has an ap-
proved program, for the provision of vocational
education for students of the district. The district
that has waived the one-year grace period or has
failed to meet the approval standards shall pay to
the district or merged area school that has an ap-
proved program an amount equal to the percent of
the school day in which a pupil is receiving voca-
tional education in the approved program times
the district cost per pupil of the district of resi-
dence of the pupil. The regional planning board
established pursuant to section 258.16 shall con-
tract with an approved program for delivery of
vocational education in the district which has
failed to meet the approval standards or has
waived the one-year grace period. Transportation
to and from the approved program shall be provid-
ed by the school district that has waived the one-
year grace period or has failed to meet approval
standards. Reasonable effort shall be made to con-
duct the approved program at an attendance cen-
ter in the district that has failed to meet the ap-
proval standards or has waived the one-year grace
period.

3. Notwithstanding sections 28E.9 and 282.8,
a school district may negotiate an agreement un-
der subsection 1 for attendance of its pupils in a
school district located in a contiguous state subject
to a reciprocal agreement by the two state boards
in the manner provided in this subsection. Prior
to negotiating an agreement with the school dis-
trict in the contiguous state, the board of directors
shall file a written request with the state board of
education for a determination whether the school
district in the contiguous state meets require-
ments substantially similar to those required for
accredited or approved school districts in this state
and the school district receives or has available
services equivalent to those that would be
provided in this state by an area education agency.
The school district shall also obtain approval by
the department of education of the sharing propos-
al, before the agreement becomes effective. Six
months before making the request for approval,
the district shall request a feasibility study from
the department of education. If the state board of
this state and the corresponding state board in the
contiguous state agree that the school districts of
their respective states meet substantially similar
requirements and have substantially similar ser-
vice available to the school district, and if the
Iowa department of education approves the pro-
posed contract, the two state boards may sign a re-
ciprocal agreement for attendance of their pupils
in the school district of the other state, subject to
the agreement signed between the boards of direc-
tors of the two districts. A school district that ne-
gotiates an agreement with a school district in a
contiguous state under this subsection is not eligi-
ble for supplementary weighting under section
257.11 as a result of that agreement.

282.8 Attending school outside state.
The boards of directors of school districts lo-
cated near the state boundaries may designate
schools of equivalent standing across the state line
for attendance of both elementary and high school
pupils when the public school in the adjoining
state is nearer than any appropriate public school
in a pupil’s district of residence or in Iowa. Dis-
tance shall be measured by the nearest traveled
public road. Arrangements shall be subject to re-
ciprocal agreements made between the chief state
school officers of the respective states. Notwith-
standing section 282.1, arrangements between
districts pursuant to the reciprocal agreements
made under this section shall establish tuition
and transportation fees in an amount acceptable
to the affected boards, but the tuition and trans-
portation fees shall not be less than the lower av-
erage cost per pupil for the previous school year
for attendance of both elementary and high school
students when the public school in the adjoining
state is nearer than any appropriate public school
in an adjoining state. A school district may
negotiate an agreement with another school dis-

and 282.18, or any other provision to the contrary,
prior to knowingly enrolling an individual who is
required to register as a sex offender under chapter
692A, but who is otherwise eligible to enroll in

district shall determine the educational place-
ment of the individual. Upon receipt of notice that
a student who is enrolled in the district is required
to register as a sex offender under chapter 692A,
the board shall determine the educational placement of the student. The tentative agenda for the meeting of the board of directors at which the board will consider such enrollment or educational placement shall specifically state that the board is considering the enrollment or educational placement of an individual who is required to register as a sex offender under chapter 692A. If the individual is denied enrollment in a school district under this section, the school district of residence shall provide the individual with educational services in an alternative setting.

2. Notwithstanding section 692A.13, or any other provision of law to the contrary, the county sheriff shall provide to the boards of directors of the school districts located within the county the name of any individual under the age of twenty-one who is required to register as a sex offender under chapter 692A.

2004 Acts, ch 1140, §1

282.10 Whole grade sharing.

1. Whole grade sharing is a procedure used by school districts whereby all or a substantial portion of the pupils in any grade in two or more school districts share an educational program for all or a substantial portion of a school day under a written agreement pursuant to section 256.13, 280.15, or 282.7, subsection 1 or subsections 1 and 3. Whole grade sharing may either be one-way or two-way sharing.

2. One-way whole grade sharing occurs when a school district sends pupils to one or more other school districts for instruction and does not receive a substantial number of pupils from those districts in return.

3. Two-way whole grade sharing occurs when a school district sends pupils to one or more other school districts for instruction and receives a substantial number of pupils from those school districts in return.

4. A whole grade sharing agreement shall be signed by the boards of the districts involved in the agreement not later than February 1 of the school year preceding the school year for which the agreement is to take effect.

87 Acts, ch 224, §60; 88 Acts, ch 1263, §8

282.11 Procedure.

Not less than ninety days prior to signing a whole grade sharing agreement whereby all or a substantial portion of the pupils in a grade in the district will attend school in another district, the board of directors of each school district that is a party to a proposed sharing agreement shall hold a public hearing at which the proposed agreement is described, and at which the parent or guardian of an affected pupil and certificated employees of the school district shall have an opportunity to comment on the proposed agreement. Within the thirty-day period prior to the signing of the agreement, the parent or guardian of an affected pupil may request the board of directors to send the pupil to another contiguous school district. For the purposes of this section, "affected pupils" are those who under the whole grade sharing agreement are attending or scheduled to attend the school district specified in the agreement, other than the district of residence, during the term of the agreement. The request shall be based upon one of the following:

1. That the agreement will not meet the educational program needs of the pupil.

2. That adequate consideration was not given to geographical factors.

The board shall allow or disallow the request prior to the signing of the agreement, or the request shall be deemed granted. If the board disallows the request, the board shall indicate the reasons why the request is disallowed and shall notify the parent or guardian that the decision of the board may be appealed as provided in this section.

If the board disallows the request of a parent or guardian of an affected pupil, the parent or guardian, not later than March 1, may appeal the sending of that pupil to the school district specified in the agreement, to the state board of education. The basis for the appeal shall be the same as the basis for the request to the board. An appeal shall specify a contiguous school district to which the parent or guardian wishes to send the affected pupil. If the parent or guardian appeals, the standard of review of the appeal is a preponderance of evidence that the parent’s or guardian’s hardship outweighs the benefits and integrity of the sharing agreement. The state board may require the district of residence to pay tuition to the contiguous school district specified by the parent or guardian, or may deny the appeal by the parent or guardian.

If the state board requires the district of residence to pay tuition to the contiguous school district specified by the parent or guardian, the tuition shall be equal to the tuition established in the sharing agreement. The decision of the state board is binding on the boards of directors of the
school districts affected, except that the decision of the state board may be appealed by either party to the district court.

282.12 Funding.
1. An agreement for whole grade sharing shall establish a method for determination of costs, if any, associated with the sharing agreement.
2. For one-way sharing, the sending district shall pay no less than one-half of the district cost per pupil of the sending district.
3. For two-way sharing, the costs shall be determined by mutual agreement of the boards.
4. The number of pupils participating in a whole grade sharing agreement shall be determined on the date specified in section 257.6, subsection 1, and on the third Friday of February of each year.

Subsection 4 amended

282.13 through 282.16 Reserved.

282.17 High school outside home district.

282.18 Open enrollment.
1. It is the goal of the general assembly to permit a wide range of educational choices for children enrolled in schools in this state and to maximize ability to use those choices. It is therefore the intent that this section be construed broadly to maximize parental choice and access to educational opportunities which are not available to children because of where they live.

For the school year commencing July 1, 1989, and each succeeding school year, a parent or guardian residing in a school district may enroll the parent's or guardian's child in a public school in another school district in the manner provided in this section.

2. By March 1 of the preceding school year for students entering grades one through twelve, or by September 1 of the current school year for students entering kindergarten, the parent or guardian shall send notification to the district of residence and the receiving district, on forms prescribed by the department of education, that the parent or guardian intends to enroll the parent's or guardian's child in a public school in another school district. If a parent or guardian fails to file a notification that the parent intends to enroll the parent's or guardian's child in a public school in another district by the deadline specified in this subsection, the procedures of subsection 4 apply.

The board of the receiving district shall enroll the pupil in a school in the receiving district for the following school year unless the receiving district does not have classroom space for the pupil. The board of directors of a receiving district may adopt a policy granting the superintendent of the school district authority to approve open enrollment applications. If the request is granted, the board shall transmit a copy of the form to the parent or guardian and the school district of residence within five days after board action, but not later than June 1 of the preceding school year. The parent or guardian may withdraw the request at any time prior to the start of the school year. A denial of a request by the board of a receiving district is not subject to appeal.

3. In all districts involved with voluntary or court-ordered desegregation, minority and nonminority pupil ratios shall be maintained according to the desegregation plan or order. The superintendent of a district subject to voluntary or court-ordered desegregation may deny a request for transfer under this section if the superintendent finds that enrollment or release of a pupil will adversely affect the district's implementation of the desegregation order or plan, unless the transfer is requested by a pupil whose sibling is already participating in open enrollment to another district, or unless the request for transfer is submitted to the district in a timely manner as required under subsection 2 prior to the adoption of a desegregation plan by the district. If a transfer request would facilitate a voluntary or court-ordered desegregation plan, the district shall give priority to granting the request over other requests.

A parent or guardian, whose request has been denied because of a desegregation order or plan, may appeal the decision of the superintendent to the board of the district in which the request was denied. The board may uphold or overturn the superintendent's decision. A decision of the board to uphold the denial of the request is subject to appeal to the district court in the county in which the primary business office of the district is located. By July 1, 2004, the state board of education shall adopt rules establishing guidelines and a review process for school districts that adopt voluntary desegregation plans. The guidelines shall include criteria and standards that school districts must follow when developing a voluntary desegregation plan. The department of education shall provide technical assistance to a school district that is seeking to adopt a voluntary desegregation plan. A school district implementing a voluntary desegregation plan prior to July 1, 2004, shall have until July 1, 2006, to comply with guidelines adopted by the state board pursuant to this section.

4. a. After March 1 of the preceding school year and until the date specified in section 257.6, subsection 1, the parent or guardian shall send notification to the district of residence and the receiving district, on forms prescribed by the department of education, that good cause, as defined in paragraph "b", exists for failure to meet the March
1 deadline. The board of directors of a receiving school district may adopt a policy granting the superintendent of the school district authority to approve open enrollment applications submitted after the March 1 deadline. The board of the receiving district shall take action to approve the request if good cause exists. If the request is granted, the board shall transmit a copy of the form to the parent or guardian and the school district of residence within five days after board action. A denial of a request by the board of a receiving district is not subject to appeal.

b. For purposes of this section, "good cause" means a change in a child's residence due to a change in family residence, a change in the state in which the family residence is located, a change in a child's parents' marital status, a guardianship or custody proceeding, placement in foster care, adoption, participation in a foreign exchange program, or participation in a substance abuse or mental health treatment program, a change in the status of a child's resident district such as removal of accreditation by the state board, surrender of accreditation, or permanent closure of a nonpublic school, revocation of a charter school contract as provided in section 256F.8, the failure of negotiations for a whole grade sharing, reorganization, dissolution agreement or the rejection of a current whole grade sharing agreement, or reorganization plan. If the good cause relates to a change in status of a child's school district of residence, however, action by a parent or guardian must be taken to file the notification within forty-five days of the last board action or within thirty days of the certification of the election, whichever is applicable to the circumstances.

c. If a resident district believes that a receiving district is violating this subsection, the resident district may, within fifteen days after board action by the receiving district, submit an appeal to the director of the department of education.

The director, or the director's designee, shall attempt to mediate the dispute to reach approval by both boards as provided in subsection 16. If approval is not reached under mediation, the director or the director's designee shall conduct a hearing and shall hear testimony from both boards. Within ten days following the hearing, the director shall render a decision upholding or reversing the decision by the board of the receiving district. Within five days of the director's decision, the board may appeal the decision of the director to the state board of education under the procedures set forth in chapter 290.

5. Open enrollment applications filed after March 1 of the preceding school year that do not qualify for good cause as provided in subsection 4 shall be subject to the approval of the board of the resident district and the board of the receiving district. The parent or guardian shall send notification to the district of residence and the receiving district that the parent or guardian seeks to enroll the parent's or guardian's child in the receiving district. A decision of either board to deny an application filed under this subsection involving repeated acts of harassment of the student or serious health condition of the student that the resident district cannot adequately address is subject to appeal under section 290.1. The state board shall exercise broad discretion to achieve just and equitable results that are in the best interest of the affected child or children.

6. A request under this section is for a period of not less than one year. If the request is for more than one year and the parent or guardian desires to have the pupil enroll in a different district, the parent or guardian may petition the current receiving district by March 1 of the previous school year for permission to enroll the pupil in a different district for a period of not less than one year. Upon receipt of such a request, the current receiving district board may act on the request to transfer to the other school district at the next regularly scheduled board meeting after the receipt of the request. The new receiving district shall enroll the pupil in a school in the district unless there is insufficient classroom space in the district or unless enrollment of the pupil would adversely affect the court-ordered or voluntary desegregation plan of the district. A denial of a request to change district enrollment within the approved period is not subject to appeal. However, a pupil who has been in attendance in another district under this section may return to the district of residence and enroll at any time, once the parent or guardian has notified the district of residence and the receiving district in writing the decision to enroll the pupil in the district of residence.

7. A pupil participating in open enrollment shall be counted, for state school foundation aid purposes, in the pupil's district of residence. A pupil's residence, for purposes of this section, means a residence under section 282.1. The board of directors of the district of residence shall pay to the receiving district the state cost per pupil for the previous school year multiplied by the state cost per pupil for the previous year, plus any moneys received for the pupil as a result of the non-English speaking weighting under section 280.4, subsection 3, for the previous school year multiplied by the state cost per pupil for the previous year. If the pupil participating in open enrollment is also an eligible pupil under chapter 261C, the receiving district shall pay the tuition reimbursement amount to an eligible postsecondary institution as provided in section 261C.6.

8. If a request filed under this section is for a child requiring special education under chapter 256B, the request to transfer to the other district shall only be granted if the receiving district maintains a special education instructional program which is appropriate to meet the child's educational needs and the enrollment of the child in the receiving district's program would not cause the size of the class in that special education instructional
program in the receiving district to exceed the maximum class size in rules adopted by the state board of education for that program. For children requiring special education, the board of directors of the district of residence shall pay to the receiving district the actual costs incurred in providing the appropriate special education.

9. If a parent or guardian of a child, who is participating in open enrollment under this section, moves to a different school district during the course of either district’s academic year, the child’s first district of residence shall be responsible for payment of the cost per pupil plus weightings or special education costs to the receiving school district for the balance of the school year in which the move took place. The new district of residence shall be responsible for the payments for the succeeding years.

If a request to transfer is due to a change in family residence, change in the state in which the family residence is located, a change in a child’s parents’ marital status, a guardianship proceeding, placement in foster care, adoption, participation in a foreign exchange program, or participation in a substance abuse or mental health treatment program, and the child who is the subject of the request is enrolled in any grade from kindergarten through grade twelve at the time of the request and is not currently using any provision of open enrollment, the parent or guardian of the child shall have the option to have the child remain in the child’s original district of residence under open enrollment with no interruption in the child’s kindergarten through grade twelve educational program. If a parent or guardian exercises this option, the child’s new district of residence is not required to pay the amount calculated in subsection 7 until the start of the first full year of enrollment of the child.

Quarterly payments shall be made to the receiving district.

If the transfer of a pupil from one district to another results in a transfer from one area education agency to another, the sending district shall forward a copy of the request to the receiving district’s area education agency. The receiving district shall forward a copy of the request to the receiving district’s area education agency. Any moneys received by the area education agency of the sending district for the pupil who is the subject of the request shall be forwarded to the receiving district’s area education agency.

A district of residence may apply to the school budget review committee if a student was not included in the resident district’s enrollment count during the fall of the year preceding the student’s transfer under open enrollment.

10. Notwithstanding section 285.1 relating to transportation of nonresident pupils, the parent or guardian is responsible for transporting the pupil without reimbursement to and from a point on a regular school bus route of the receiving district.

However, a receiving district may send school vehicles into the district of residence of the pupil using the open enrollment option under this section, for the purpose of transporting the pupil to and from school in the receiving district, if the boards of both the sending and receiving districts agree to this arrangement. If the pupil meets the economic eligibility requirements established by the department and state board of education, the sending district is responsible for providing transportation or paying the pro rata cost of the transportation to a parent or guardian for transporting the pupil to and from a point on a regular school bus route of a contiguous receiving district unless the cost of providing transportation or the pro rata cost of the transportation to a parent or guardian exceeds the average transportation cost per pupil transported for the previous school year in the district. If the cost exceeds the average transportation cost per pupil transported for the previous school year, the sending district shall only be responsible for that average per pupil amount. A sending district which provides transportation for a pupil to a contiguous receiving district under this subsection may withhold from the district cost per pupil amount, that is to be paid to the receiving district, an amount which represents the average or pro rata cost per pupil for transportation, whichever is less.

11. Every school district shall adopt a policy which defines the term “insufficient classroom space” for that district.

12. The board of directors of a school district subject to voluntary or court-ordered desegregation shall develop a policy for implementation of open enrollment in the district. The policy shall contain objective criteria for determining when a request would adversely impact the desegregation order or plan and criteria for prioritizing requests that do not have an adverse impact on the order or plan.

13. A pupil who participates in open enrollment for purposes of attending a grade in grades nine through twelve in a school district other than the district of residence ineligibility to participate in interscholastic athletic contests and athletic competitions during the pupil’s first ninety school days of enrollment in the district except that the pupil may participate immediately in a varsity interscholastic sport if the pupil is entering grade nine for the first time and did not participate in an interscholastic athletic competition for another school or school district during the summer immediately following eighth grade, if the district of residence and the other school district jointly participate in the sport, if the sport in which the pupil wishes to participate is not offered in the district of residence, if the pupil chooses to use open enrollment to attend school in another school district because the district in which the student previously attended school was dissolved and merged with one or more contiguous school
districts under section 256.11, subsection 12, if the pupil participates in open enrollment because the pupil's district of residence has entered into a whole grade sharing agreement with another district for the pupil's grade, or if the parent or guardian of the pupil participating in open enrollment is an active member of the armed forces and resides in permanent housing on government property provided by a branch of the armed services. A pupil who has paid tuition and attended school, or has attended school pursuant to a mutual agreement between the two districts, in a district other than the pupil's district of residence for at least one school year is also eligible to participate immediately in interscholastic athletic contests under this section, but only as a member of a team from the district that pupil had attended. For purposes of this subsection, "school days of enrollment" does not include enrollment in summer school. For purposes of this subsection, "varsity" means the same as defined in section 256.46.

14. If a pupil, for whom a request to transfer has been filed with a district, has been suspended or expelled in the district, the pupil shall not be permitted to transfer until the pupil has been reinstated in the sending district. Once the pupil has been reinstated, however, the pupil shall be permitted to transfer in the same manner as if the pupil had not been suspended or expelled by the sending district. If a pupil, for whom a request to transfer has been filed with a district, is expelled in the district, the pupil shall be permitted to transfer to a receiving district under this section if the pupil applies for and is reinstated in the sending district. However, if the pupil applies for reinstatement but is not reinstated in the sending district, the receiving district may deny the request to transfer. The decision of the receiving district is not subject to appeal.

15. If a request under this section is for transfer to a laboratory school, as described in chapter 265, the student, who is the subject of the request, shall not be included in the basic enrollment of the student's district of residence, and the laboratory school shall report the enrollment of the student directly to the department of education, unless the number of students from the district attending the laboratory school during the current school year, as a result of open enrollment under this section, exceeds the number of students enrolled in the laboratory school from that district during the 1989-1990 school year. If the number of students enrolled in the laboratory school from a district during the current year exceeds the number of students enrolled from that district during the 1989-1990 school year, those students who represent the difference between the current and the 1988-1989 school year enrollment figures shall be included in the basic enrollment of the students' districts of residence and the districts shall retain any moneys received as a result of the inclusion of the student in the district enrollment. The total number of students enrolled at a laboratory school during a school year shall not exceed six hundred seventy students. The regents institution operating the laboratory school and the board of directors of the school district in the community in which the regents institution is located shall develop a student transfer policy designed to protect and promote the quality and integrity of the teacher education program at the laboratory school, the viability of the education program of the local school district in which the regents institution is located, and to indicate the order in which and reasons why requests to transfer to a laboratory school shall be considered. A laboratory school may deny a request for transfer under the policy. A denial of a request to transfer under this paragraph is not subject to appeal under section 290.1.

16. An application for open enrollment may be granted at any time with approval of the resident and receiving districts.

17. The director of the department of education shall recommend rules to the state board of education for the orderly implementation of this section. The state board shall adopt rules as needed for the implementation of this section.

282.19 Child living in foster care facility.

A child who is living in a licensed child foster care facility as defined in section 237.1, or in a facility that provides residential treatment as "facility" is defined in section 125.2, which is located in a school district other than the school district in which the child resided before receiving foster care may enroll in and attend an accredited school in the school district in which the child is living. The instructional costs for students who do not require special education shall be paid as provided in section 282.31, subsection 1, paragraph b or for students who require special education shall be paid as provided in section 282.31, subsections 2 or 3.

282.20 Tuition fees — payment.

The school corporation in which the student resides shall pay from the general fund to the secretary of the corporation in which the student is permitted to enroll, a tuition fee as prescribed in section 282.24.

It shall be unlawful for any school district to rebate to any pupils or their parents, directly or indirectly, any portion of the tuition collected or to be collected or to authorize or permit such pupils to receive at the expense of the district, directly or indirectly, any special compensation, benefit, privilege, or other thing of value that is not and cannot legally be made available to all other pupils enrolled in its schools. Any superintendent or board members responsible for such unlawful act shall each be personally liable to a fine of not to exceed one hundred dollars. Action to recover such penalty or action to enjoin such unlawful act may be instituted by the board of any school district or by a taxpayer in any school district.

On or before February 15 and June 15 of each year the secretary of the creditor district shall deliver to the secretary of the debtor district an itemized statement of such tuition fees.

282.26 High school students attending advanced courses.

The board of any community college may, by mutual agreement with any college or university, permit any specially qualified high school student to attend advanced courses of academic instruction at the college or university.

The state board of regents and the state board of education may by rule permit such students to attend any institution of higher learning under their jurisdiction. Credit earned in any such course at a college or university may be applied toward credit for high school graduation. Public school funds shall not be expended for payment of tuition or other costs for such attendance at a college or university, unless the payment is expressly permitted or required by law.

The foregoing provisions shall also apply to colleges and universities in adjacent states when the institutions are located nearer to the homes or schools of the school district than the closest college or university within the state.

282.27 Children living in psychiatric hospitals or institutions — payment.

The public school district in which is located a psychiatric unit or psychiatric institution for children or psychiatric medical institution for children shall, after July 1 but before September 1 of each year, notify every school in the state, affected by this section, what the computed maximum tuition rate shall be for the ensuing year.

This subsection does not prevent the corporation or district in which the student resides from paying a tuition in excess of the maximum computed tuition rates, if the actual per pupil cost of the preceding year so warrants, but the receiving district or corporation shall not demand more than the maximum rate.
the provision of educational services to children residing in the unit or institution. Children residing in the unit or institution shall be included in the basic enrollment of their districts of residence, as defined in section 282.31, subsection 4.

The board of directors of each district of residence shall pay to the school district in which is located such psychiatric unit or institution, for the provision of educational services to the child, a portion of the district of residence's district cost per pupil for each of such children based upon the proportion that the time each child is provided educational services while in such unit or institution is to the total time for which the child is provided educational services during a normal school year.

§282.28 Children at Eldora and Toledo.

§282.29 Children placed by district court.
Notwithstanding section 282.31, subsection 1, a child who has been identified as requiring special education, who has been placed in a facility or home by the district court, and for whom parental rights have been terminated by the district court, shall be provided special education programs and services on the same basis as the programs and services are provided for children requiring special education who are residents of the school district in which the child has been placed. The special education instructional costs shall be paid as provided in section 282.31, subsection 2 or 3.

§282.30 Special programs.
1. a. An area education agency shall provide or make provision for an appropriate educational program for each child living in the following types of facilities located within its boundaries:
   (1) An approved or licensed shelter care home, as defined in section 232.2, subsection 34.
   (2) An approved juvenile detention home, as defined in section 232.2, subsection 32.
   b. The area education agency shall provide the educational program by any one of, but not limited to, the following:
      (1) Providing for the enrollment of the child in the district of residence of the child, subject to the approval of the district in which the child is living.
      (2) Cooperating with the district of residence of the child and obtaining the course of study and textbooks of the child for use in the special facility into which the child has been placed.
      (3) Providing for the enrollment of the child in the district in which the child is living, subject to the approval of the district in which the child is living.
   c. An area education agency shall not provide educational services to a facility specified in paragraph “a” unless the facility makes a request for educational services to the area education agency by either of the following dates:
      (1) December 1 of the school year prior to the beginning of the school year for which the services are being requested.
      (2) Ninety days prior to the beginning of the time for which the services are being requested if the facility is a newly established facility.
   2. The area education agency where the child is living, the school district of residence, the other appropriate area education agency or agencies, and other appropriate agencies involved with the care or placement of the child shall cooperate with the school district where the child is living in sharing educational information, textbooks, curriculum, assignments, and materials in order to plan and to provide for the appropriate education of the child living in such facility specified in subsection 1.

§282.31 Funding for special programs.
1. a. A child who lives in a facility pursuant to section 282.30, subsection 1, paragraph “a”, and who is not enrolled in the educational program of the district of residence of the child, shall receive appropriate educational services. The area education agency shall submit a proposed program and budget to the department of education by January 1 for the next succeeding school year. The department of education shall review and approve or modify the program and proposed budget and shall notify the department of administrative services and the area education agency of its action by February 1. The department of administrative services shall pay the approved budget amount for an area education agency in monthly installments beginning September 15 and ending June 15 of the next succeeding school year. The installments shall be as nearly equal as possible as determined by the department of management, taking into consideration the relative budget and cash position of the state's resources. The department of administrative services shall transfer the approved budget amount for an area education agency from the moneys appropriated under section 257.16 and make the payment to the area education agency. The area education agency shall submit an accounting for the actual cost of the program to the department of education by August 1 of the following school year. The department shall review and approve or modify all expenditures incurred in compliance with the guidelines pursuant to section 256.7, subsection 10, and shall notify the department of administrative services of the approved accounting amount. The approved accounting amount shall be compared with any amounts paid by the department of administrative services to the area education agency and any differences added to or subtracted from the October payment made under this paragraph for the next school year. Any amount paid by the depart-
ment of administrative services shall be deducted monthly from the state foundation aid paid under section 257.16 to all school districts in the state during the subsequent fiscal year. The portion of the total amount of the approved budget that shall be deducted from the state aid of a school district shall be the same as the ratio that the budget enrollment for the budget year of the school district bears to the total budget enrollment in the state for that budget year in which the deduction is made.

b. A child who lives in a facility or home pursuant to section 282.19, and who does not require special education and who is not enrolled in the educational program of the district of residence of the child, shall be included in the basic enrollment of the school district in which the facility or home is located.

However, on June 30 of a school year, if the board of directors of a school district determines that the number of children under this paragraph who were counted in the basic enrollment of the school district of that school year in accordance with section 257.6, subsection 1, is fewer than the sum of the number of months all children were enrolled in the school district under this paragraph during the school year divided by nine, the secretary of the school district may submit a claim to the department of education by August 1 following the school year for an amount equal to the district cost per pupil of the district for the previous school year multiplied by the difference between the number of children counted and the number of children calculated by the number of months of enrollment. The amount of the claim shall be paid by the department of administrative services to the school district by October 1. The department of administrative services shall transfer the total amount of the approved claim of a school district from the moneys appropriated under section 257.16 and the amount paid shall be deducted monthly from the state foundation aid paid to all school districts in the state during the remainder of the subsequent fiscal year in the manner provided in paragraph “a.”

2. a. The actual special education instructional costs incurred for a child who lives in a facility pursuant to section 282.19 or for a child who is placed in a facility or home pursuant to section 282.29, who requires special education and who is not enrolled in the educational program of the district of residence of the child but who receives an educational program from the district in which the facility or home is located, shall be paid by the district of residence of the child to the district in which the facility or home is located, and the costs shall include the cost of transportation.

b. A child shall not be denied special education programs and services because of a dispute over the determination of district of residence of the child. The director of the department of education shall determine the district of residence when a dispute arises regarding the determination of the district of residence for a child who requires special education pursuant to this subsection.

If a board of directors and the certified bargaining representative for licensed employees have not reached mutual agreement for the distribution of funds received pursuant to section 284.13, subsection 1, paragraph “h” or “i”, by July 15 of the fiscal year for which the funds are distributed, paragraph “b” of this subsection shall apply.

b. If, once the minimum salary requirements of this section have been met by the school district or area education agency, and the school district or area education agency receiving funds pursuant to section 284.13, subsection 1, paragraph “h” or “i”, for purposes of this section, and the certified bargaining representative for the licensed employees have not reached an agreement for distribution of the funds remaining, in accordance with paragraph “a”, the board of directors shall divide the funds remaining among full-time teachers employed by the district or area education agency whose regular compensation is equal to or greater than the minimum career teacher salary specified in this section. The payment amount for teachers employed on less than a full-time basis shall be prorated.

c. If the licensed employees of a school district or area education agency are not organized for collective bargaining purposes, the board of directors shall determine the method of distribution of such funds.

284.8 Performance review requirements for teachers.

1. A school district shall review a teacher’s performance at least once every three years for
purposes of assisting teachers in making continuous improvement, documenting continued competence in the Iowa teaching standards, identifying teachers in need of improvement, or to determine whether the teacher’s practice meets school district expectations for career advancement in accordance with section 284.7. The review shall include, at minimum, classroom observation of the teacher, the teacher’s progress, and implementation of the teacher’s individual career development plan; shall include supporting documentation from other evaluators, teachers, parents, and students; and may include video portfolios as evidence of teaching practices.

2. If a supervisor or an evaluator determines, at any time, as a result of a teacher’s performance that the teacher is not meeting district expectations under the Iowa teaching standards specified in section 284.3, subsection 1, paragraphs “a” through “g”, the criteria for the Iowa teaching standards developed by the department in accordance with section 256.9, subsection 50, and any other standards or criteria established in the collective bargaining agreement, the evaluation process, the review panels may perform random audits of the comprehensive evaluations and performance reviews conducted by evaluators throughout the state, and may randomly review how the evaluators are evaluating teachers based upon the Iowa teaching standards.

3. If a teacher is denied advancement to the career II or advanced teacher level based upon a performance review, the teacher may appeal the decision to an adjudicator under the process established under section 279.17. However, the decision of the adjudicator is final.

Subsection 1 amended

284.9 Review panel.

1. A career II teacher seeking to receive an advanced designation shall submit a portfolio of work evidence aligned with the Iowa teaching standards to a review panel established in accordance with subsection 2. A majority of the evidence in the portfolio shall be classroom-based. The review panel shall evaluate the career II teacher’s portfolio to determine whether the teacher demonstrates superior teaching skills and shall make a recommendation to the board of educational examiners whether or not the teacher shall receive an advanced designation. The standards for recommendation include, but are not limited to, meeting the Iowa teaching standards at an advanced level.

2. The department shall establish up to five regional review panels consisting of five members per panel. Each panel shall include, at a minimum, a nationally board-certified teacher and a school district administrator. Panel members shall be appointed by the director and shall possess the knowledge necessary to determine the quality of the evidence submitted in an applicant’s portfolio. Panel members shall serve staggered three-year terms and may be reappointed to a second term. The department shall provide support and evaluation training for panel members and convene panels as needed. Panel members shall be reimbursed for mileage expenses incurred while engaged in the performance of official duties and shall receive per diem compensation by the department.

3. To assure fairness and consistency in the evaluation process, the review panels may perform random audits of the comprehensive evaluations and performance reviews conducted by evaluators throughout the state, and may randomly review how the evaluators are evaluating teachers based upon the Iowa teaching standards.

4. A teacher who does not receive a recommendation from a review panel may appeal that denial to an administrative law judge located in the department of inspections and appeals. The state shall not be liable for a teacher’s attorney fees, costs, or damages that may result from an appeal of a review panel’s decision. The state board shall adopt rules to administer this section.

284.10 Evaluator training program.

1. The department shall establish an evaluator training program to improve the skills of school district evaluators in making employment decisions, making recommendations for licensure, and moving teachers through a career path as established under this chapter. The department shall consult with persons representing teachers, national board-certified teachers, administrators, school boards, higher education institutions with approved practitioner and administrator preparation programs, and with persons from the private sector knowledgeable in employment evaluation and evaluator training in order to develop standards and requirements for the program. Evaluator training programs offered pursuant to this chapter may be provided by a public or private entity. The department shall distribute a list of evaluator training program providers to each school district.

2. An administrator licensed under chapter 272 who conducts evaluations of teachers for purposes of this chapter shall complete the evaluator training program. A practitioner licensed under chapter 272 who is not an administrator may enroll in the evaluator training program. Enrollment preference shall be given to administrators. Upon successful completion, the provider shall certify that the administrator or other practition-
er is qualified to conduct evaluations for employment, make recommendations for licensure, and make recommendations that a teacher is qualified to advance from one career path level to the next career path level pursuant to this chapter. Certification is for a period of five years and may be renewed.

3. A higher education institution approved by the state board to provide an administrator preparation program shall incorporate the evaluator training certification renewal program for administrators and other practitioners who need to renew a certificate issued pursuant to this section.

4. The board of educational examiners shall require certification as a condition of issuing or renewing an administrator’s license.

5. By July 1, 2007, the director shall develop and implement an evaluator training certification renewal program for administrators and other practitioners who need to renew a certificate issued pursuant to this section.

Subsection 5 amended

§284.11 Market factor teacher salaries.

1. The general assembly finds that Iowa school districts need to be more competitive in recruiting and retaining talented professionals into the teaching profession. To ensure that school districts in all areas of the state have the ability to attract highly qualified teachers, it is the intent of the general assembly to encourage school districts to establish teacher compensation opportunities that recognize the need for geographic or other locally determined wage differentials and provide incentives for traditionally hard-to-staff schools and subject-area shortages. This section provides for state assistance to allow school districts to add a market factor to teacher salaries paid by the school districts.

2. A school district shall be paid annually, from moneys allocated for market factor salaries pursuant to section 284.13, subsection 1, paragraph "g", an amount of state assistance to create market factor incentives for classroom teachers in the school district. Market factor incentives may include but are not limited to improving salaries due to geographic differences, recruitment and retention needs of the school district in such areas as hard-to-staff schools, subject-area shortages, or improving the racial or ethnic diversity on local teaching staffs. The school district shall have the sole discretion to award funds received by the school district in accordance with section 284.13, subsection 1, paragraph "g", to classroom teachers on an annual basis. The funds shall supplement, but not supplant, wages and salaries paid as a result of a collective bargaining agreement reached pursuant to chapter 20 or as a result of funds appropriated elsewhere in this chapter, in chapter 256D, or in chapter 294A.

3. The allocations to each school district shall be made in one payment on or about October 15 of the fiscal year for which the appropriation is made, taking into consideration the relative budget and cash position of the state resources. Moneys received under this section shall not be commingled with state aid payments made under section 257.16 to a school district and shall be accounted for by the local school district separately from state aid payments. Payments made to school districts under this section are miscellaneous income for purposes of chapter 257. A school district shall maintain a separate listing within its budget for payments received and expenditures made pursuant to this section. A school district shall certify to the department of education how the school district allocated the funds and that moneys received under this section were used to supplement, not supplant, the salary the school district would otherwise pay the teacher.

4. The department shall include market factor salaries when reporting teacher salaries in the annual condition of education report.

1. For each fiscal year in which moneys are appropriated by the general assembly for purposes of the student achievement and teacher quality program, the moneys shall be allocated as follows in the following priority order:

   a. For each fiscal year of the fiscal period beginning July 1, 2006, and ending June 30, 2009, to the department of education, the amount of two million two hundred fifty thousand dollars for the issuance of national board certification awards in accordance with section 256.44. Of the amount allocated under this paragraph, up to two hundred fifty thousand dollars may be used to support the implementation of a national board certification support program, and not less than eighty-five thousand dollars shall be used to administer the ambassador to education position in accordance with section 256.45.

   b. For the fiscal year beginning July 1, 2006, and succeeding fiscal years, an amount up to four million six hundred fifty thousand dollars for first-year and second-year beginning teachers, to the department of education for distribution to school districts and area education agencies for purposes of the beginning teacher mentoring and induction programs. A school district or area education agency shall receive one thousand three hundred dollars per beginning teacher participating in the program. If the funds appropriated for the program are insufficient to pay mentors, school districts, and area education agencies as provided in this paragraph, the department shall prorate the amount distributed to school districts and area education agencies based upon the amount appropriated. Moneys received by a school district or area education agency pursuant to this paragraph shall be expended to provide each mentor with an award of five hundred dollars per semester, at a minimum, for participation in the school district’s or area education agency’s beginning teacher mentoring and induction program; to implement the plan; and to pay any applicable costs of the employer’s share of contributions to federal social security and the Iowa public employees’ retirement system or a pension and annuity retirement system established under chapter 294, for such amounts paid by the district or area education agency.

   d. For the fiscal year beginning July 1, 2006, and ending June 30, 2007, up to ten million dollars to the department of education for use by school districts to add one additional teacher contract day to the school calendar. The department shall distribute funds allocated for the purpose of this paragraph based on the average per diem contract salary for each district as reported to the department for the school year beginning July 1, 2005, multiplied by the total number of full-time equivalent teachers in the base year. The department shall adjust each district’s average per diem salary by the allowable growth rate established under section 257.8 for the fiscal year beginning July 1, 2006. The contract salary amount shall be the amount paid for their regular responsibilities but shall not include pay for extracurricular activities. School districts shall distribute funds to teachers based on individual teacher per diem amounts. These funds shall not supplant existing funding for professional development activities. Notwithstanding any provision to the contrary, moneys received by a school district under this paragraph shall not revert but shall remain available for the same purpose in the succeeding fiscal year. A school district shall submit a report to the department in a manner determined by the department describing its use of the funds received under this paragraph. The department shall submit a report on school district use of the moneys distributed pursuant to this paragraph to the chairpersons and ranking members of the house and senate standing committees on education, the joint appropriations subcommittee on education, and the legislative services agency not later than January 15, 2007.

   e. For the fiscal year beginning July 1, 2006, and ending June 30, 2007, up to six million six hundred twenty-five thousand dollars to the department for use by school districts for either salaries or professional development, or both, as determined by the school district. Funds received by a school district for purposes of this paragraph shall be distributed using the formula provided in paragraph “h” and are subject to the provisions of section 284.7, subsection 6. A school district shall submit a report to the department in a manner determined by the department describing its use of the funds received under this paragraph. The department shall submit a report on school district use of the funds distributed pursuant to this paragraph to the chairpersons and ranking members of the house and senate standing committees on education, the joint appropriations subcommittee on education, and the legislative services agency not
later than January 15 annually.

f. For purposes of market factor teacher salaries pursuant to section 284.11, the following amounts are allocated to the department for the following fiscal years:

1. For the fiscal year beginning July 1, 2006, and ending June 30, 2007, the sum of three million three hundred ninety thousand dollars.
2. For the fiscal year beginning July 1, 2007, and ending June 30, 2008, the sum of seven million five hundred thousand dollars.
3. For the fiscal year beginning July 1, 2008, and ending June 30, 2009, the sum of ten million five hundred thousand dollars.

The department shall use the formula set forth in paragraph “h” to distribute moneys allocated under this paragraph.

g. For purposes of the pay-for-performance program established pursuant to section 284.14, the following amounts are allocated to the department for the following fiscal years:

1. For the fiscal year beginning July 1, 2006, and ending June 30, 2007, the sum of one million dollars. Of the amount allocated under this subparagraph, an amount equal to one hundred fifty thousand dollars shall be distributed to the institute for tomorrow’s workforce created pursuant to section 7K.1 for the activities of the institute.
2. For the fiscal year beginning July 1, 2007, and ending June 30, 2008, the sum of two million five hundred thousand dollars.
3. For the fiscal year beginning July 1, 2008, and ending June 30, 2009, the sum of five million dollars.

h. For each fiscal year in which funds are appropriated for purposes of this chapter, the moneys remaining after distribution as provided in paragraphs “a” through “g” shall be allocated to school districts for salaries and career development in accordance with the following formula:

1. Fifty percent of the allocation shall be in the proportion that the basic enrollment of a school district bears to the sum of the basic enrollments of all school districts in the state for the budget year.
2. Fifty percent of the allocation shall be based upon the proportion that the number of full-time equivalent teachers employed by a school district bears to the sum of the number of full-time equivalent teachers who are employed by all school districts in the state for the base year.

i. From moneys available under paragraph “h”, the department shall allocate to area education agencies an amount per classroom teacher employed by an area education agency that is approximately equivalent to the average per teacher amount allocated to the districts. The average per teacher amount shall be calculated by dividing the total number of classroom teachers employed by school districts and the classroom teachers employed by area education agencies into the total amount of moneys available under paragraph “h”.

j. Notwithstanding section 8.33, any moneys remaining unencumbered or unobligated from the moneys allocated for purposes of paragraph “a”, “b”, or “c” shall not revert but shall remain available in the succeeding fiscal year for expenditure for the purposes designated. The provisions of section 8.39 shall not apply to the funds appropriated pursuant to this subsection.

A school district that is unable to meet the provisions of section 284.7, subsection 1, with funds allocated pursuant to subsection 1, paragraph “h”, may request a waiver from the department to use funds appropriated under chapter 256D to meet the provisions of section 284.7, subsection 1, if the difference between the funds allocated to the school district pursuant to subsection 1, paragraph “h”, and the amount required to comply with section 284.7, subsection 1, is not less than ten thousand dollars. The department shall consider the average class size of the school district, the school district’s actual unspent balance from the preceding year, and the school district’s current financial position.

3. Moneys received by a school district under this chapter are miscellaneous income for purposes of chapter 257 or are considered encumbered. A school district shall maintain a separate listing within its budget for payments received and expenditures made pursuant to this section.

284.14 Pay-for-performance program.

1. Commission. A pay-for-performance commission is established to design and implement a pay-for-performance program and provide a study relating to teacher and staff compensation containing a pay-for-performance component. The study shall measure the cost and effectiveness in raising student achievement of a compensation system that provides financial incentives based on student performance. The commission is part of the executive branch of government.

2. Development of program. Beginning July 1, 2006, the commission shall gather sufficient information to identify a pay-for-performance program based upon student achievement gains and global content standards where student achievement gains cannot be easily measured. The commission shall review pay-for-performance programs in both the public and private sector. Based
on this information, the commission shall design a program utilizing both individual and group incentive components. At least half of any available funding identified by the commission shall be designated for individual incentives.

a. Commencing with the school year beginning July 1, 2007, the commission shall initiate demonstration projects, in selected kindergarten through grade twelve schools, to test the effectiveness of the pay-for-performance program. The purpose of the demonstration projects is to identify the strengths and weaknesses of the pay-for-performance program design, evaluate cost effectiveness, analyze student achievement gains, test assessments, allow thorough review of data, and make necessary adjustments before implementing the pay-for-performance program statewide.

b. The commission shall select ten school districts as demonstration projects. To the extent practicable, participants shall represent geographically distinct rural, urban, and suburban areas of the state. Participants shall provide reports or other information as required by the commission.

c. Commencing with the school year beginning July 1, 2008, the commission shall select twenty additional school districts as demonstration projects.

3. Reports and final study. Based on the information generated by the demonstration projects, the commission shall prepare an interim report by January 15, 2007, followed by interim progress reports annually, followed by a final study report analyzing the effectiveness of pay-for-performance in raising student achievement levels. The final study report shall be completed no later than six months after the completion of the demonstration projects. The commission shall provide copies of the final study report to the department of education and to the chairpersons and ranking members of the senate and house standing committees on education.

4. Statewide implementation — remediation. The general assembly shall consider implementing the pay-for-performance program statewide for the 2009 – 2010 school year, notwithstanding the provisions of chapters 20 and 279 to the contrary.

a. The commission, in consultation with the department of education, shall develop a system which will provide for valid, reliable tracking and measuring of enhanced student achievement under the pay-for-performance program.

b. The commission shall develop a pay-for-performance pay plan for teacher compensation. The plan shall establish salary adjustments which vary directly with the enhancement of student achievement. The plan shall include teacher performance standards which identify the following five levels of teacher performance with standards to measure each level:

(1) Superior performance.
(2) Exceeds expectations.
(3) Satisfactory.
(4) Emerging.
(5) In need of remediation.

5. Iowa excellence fund. An Iowa excellence fund is created within the office of the treasurer of state, to be administered by the commission. Notwithstanding section 8.33, moneys in the fund that remain unencumbered or unobligated at the close of the fiscal year shall not revert but shall remain in the fund.

The commission may provide grants from this fund, according to criteria developed by the commission, for implementation of the pay-for-performance program.

### 285.1 When entitled to state aid.
1. The board of directors in every school district shall provide transportation, either directly or by reimbursement for transportation, for all resident pupils attending public school, kindergarten through twelfth grade, except that:
   a. Elementary pupils shall be entitled to transportation only if they live more than two miles from the school designated for attendance.
   b. High school pupils shall be entitled to transportation only if they live more than three miles from the school designated for attendance.
   c. Children attending prekindergarten programs offered or sponsored by the district or nonpublic school and approved by the department of education or department of human services may be provided transportation services. However, transportation services provided nonpublic school children are not eligible for reimbursement under this chapter.
   d. Districts are not required to maintain seating space on school buses for students who are otherwise to be provided transportation under this subsection if the students do not or will not regularly utilize the district’s transportation service for extended periods during the school year. The student, or the student’s parent or legal guardian if the student is less than eighteen years of age, shall be notified by the district before transportation services may be suspended, and the suspension may continue until the student, or the student’s parent or legal guardian, notifies the district that regular student ridership will continue.

For the purposes of this subsection, high school means a school which commences with either grade nine or grade ten, as determined by the board of directors of the school district or by the governing authority of the nonpublic school in the case of nonpublic schools.

Boards in their discretion may provide transportation for some or all resident pupils attending public school or pupils who attend nonpublic schools who are not entitled to transportation. Boards in their discretion may collect from the parent or guardian of the pupil not more than the pro rata cost for such optional transportation, determined as provided in subsection 12.

2. Any pupil may be required to meet a school bus on the approved route a distance of not to exceed three-fourths of a mile without reimbursement.

3. In a district where transportation by school bus is impracticable, where necessary to implement a whole grade sharing agreement under section 282.10, or where school bus service is not available, the board may require parents or guardians to furnish transportation for their children to the schools designated for attendance. Except as provided in section 285.3, the parent or guardian shall be reimbursed for such transportation service for public and nonpublic school pupils by the board of the resident district in an amount equal to eighty dollars plus seventy-five percent of the difference between eighty dollars and the previous school year’s statewide average per pupil transportation cost, as determined by the department of education.

However, a parent or guardian shall not receive reimbursement for furnishing transportation for more than three family members who attend elementary school and one family member who attends high school.

4. In all districts where unsatisfactory roads or other conditions make it advisable, the board at its discretion may require the parents or guardians of public and nonpublic school pupils to furnish transportation for their children up to two miles to connect with vehicles of transportation. The parents or guardians shall be reimbursed for such transportation by the boards of the resident districts at the rate of twenty-eight cents per mile per day, one way, per family for the distance from the pupil’s residence to the bus route.

5. Where transportation by school bus is impracticable or not available or other existing conditions warrant it, arrangements may be made for use of common carriers according to uniform standards established by the director of the depart-
ment of education and at a cost based upon the actual cost of service and approved by the board.

6. When the school designated for attendance of pupils is engaged in the transportation of pupils, the sending or designating school shall use these facilities and pay the pro rata cost of transportation except that a district sending pupils to another school may make other arrangements when it can be shown that such arrangements will be more efficient and economical than to use facilities of the receiving school, providing such arrangements are approved by the board of the area education agency.

7. If a local board closes either elementary or high school facilities and is approved by the board of the area education agency to operate its own transportation equipment, the full cost of transportation shall be paid by the board for all pupils living beyond the statutory walking distance from the school designated for attendance.

8. Transportation service may be suspended upon any day or days, due to inclemency of the weather, conditions of roads, or the existence of other conditions, by the board of the school district operating the buses, when in their judgment it is deemed advisable and when the school or schools are closed to all children.

9. Distance to school or to a bus route shall in all cases be measured on the public highway only and over the most passable and safest route as determined by the area education agency board, starting in the roadway opposite the private entrance to the residence of the pupil and ending in the roadway opposite the entrance to the school grounds or designated point on bus route.

10. The board in any district providing transportation for nonresident pupils shall collect the pro rata cost of transportation from the district of pupil’s residence for all properly designated pupils so transported.

11. Boards in districts operating buses may transport nonresident pupils who attend public school, kindergarten through junior college, who are not entitled to free transportation provided they collect the pro rata cost of transportation from the parents.

12. The pro rata cost of transportation shall be based upon the actual cost for all the children transported in all school buses. It shall include one-seventh of the original net cost of the bus and other items as determined and approved by the director of the department of education but no part of the capital outlay cost for school buses and transportation equipment for which the school district is reimbursed from state funds or that portion of the cost of the operation of a school bus used in transporting pupils to and from extra-curricular activities shall be included in determining the pro rata cost. In a district where, because of unusual conditions, the cost of transportation is in excess of the actual operating cost of the bus route used to furnish transportation to nonresident pupils, the board of the local district may charge a cost equal to the cost of other schools supplying such service to that area, upon receiving approval of the director of the department of education.

13. When a local board fails to pay transportation costs due to another school for transportation service rendered, the board of the creditor corporation shall file a sworn statement with the area education agency board specifying the amount due. 294.12 Pension fund held for survivors upon termination.

In the event of such termination, all assessments of teachers shall cease upon such date of termination, or upon such earlier date as may be prescribed in such resolution, and no additional taxes shall be levied or assessed for the operation of such system, save as in section 294.13. Such liquidation fund shall be held for the benefit of those surviving beneficiaries under such system as of said date of termination, and of members of such system as of date of termination. There shall be set aside from such retirement liquidation fund an amount sufficient to provide for the payment of all surviving beneficiaries who shall be entitled to receive benefits under such system as of said date of termination, providing an actuarial computation has been made of the amount required to meet such benefit payments, providing the amount in the retirement liquidation fund is sufficient for this purpose, and the amount set aside shall be used for no other purpose than for the payment of claims to such beneficiaries. Any amount in excess of the actuarial equivalent of the sum required to pay such benefit payments shall be apportioned to persons who were as of the effective date of the termination of the system, members of such system, in proportion to the amount which the accumulated contribution of each such person bears to the total funds of such retirement system subject to such apportionment. Any member of such system as of the date of termination thereof, may, in lieu of receiving the cash refund of the member's share of the liquidation fund, elect to come under the coverage of any new pension and annuity retirement system established by the district, to which the member is eligible, with credits toward future benefits in consideration of the member's prior contributions and length of service, and may direct the transfer of the amount payable to the member to the assets of the new pension and annuity retirement system. In any case where the board of directors of a school district including a teachers retirement system established under the provisions of section 294.8, whose members were not under coverage of the Iowa old-age and survivors' insurance system prior to May 1, 1953, the board of directors may authorize the payment from funds in excess of the amount estimated as required for the payment of benefits to persons entitled to them, and for the purpose of obtaining retroactive social security coverage from January 1, 1951, until the effective date of federal coverage of Iowa public employees as provided by chapter 97C. Each surviving beneficiary entitled to receive retirement benefits of the date of termination of the system will be entitled to receive retirement benefits at the time and in the amount in effect with respect to such beneficiary immediately prior to the date of termination.

In any school district which has pursuant to section 294.11 terminated a previously existing pension and annuity retirement system and has after actuarial computation established a retirement reserve fund pursuant to this section in order to pay to surviving beneficiaries entitled to receive retirement benefits at date of termination of said system in the amount in effect with respect to such beneficiaries immediately prior to the date of termination, the board of directors may authorize each and every payment to each surviving beneficiary falling due subsequent to June 30, 1971, to be increased by an amount to be determined by the board such increased payments to be paid from the retirement reserve fund according to an actuarial computation thereof plus such additional amounts transferred from the general fund as may be required. In order to provide the additional amounts required from the general fund for such increased payments, the board of directors may annually at the meeting at which it estimates the amount required for the general fund in accordance with section 298.1 estimate such additional amount as an actuarial computation shall show is necessary from the general fund for the payment of such increased benefits for the current school year; provided the amount estimated and certified to be transferred from the general fund to the retirement reserve fund shall not exceed one and four-tenths cents per thousand dollars of the assessed valuation of the taxable property of the school corporation. The board of supervisors shall in accordance with the provisions of section 298.8 levy the taxes necessary to raise the amount estimated by the board of directors as above provided and certified to the board of supervisors. Upon the death of the last beneficiary to survive, any balance remaining in said retirement reserve fund shall be transferred to the general fund of said school district.

Notwithstanding the provisions of this section, the plan provisions of a pension and annuity retirement system of a school district established under this chapter regarding the determination and distribution of benefits upon termination of the retirement system shall be effective if the school district has received a favorable determination letter from the federal internal revenue service as to the qualified status of such retirement system under applicable provisions of the Internal Revenue Code.

The board of directors of said district shall each year at the meeting at which it estimates the amount required for the general fund, in accordance with the provisions of section 298.1, estimate the additional amount, if any, necessary to provide the required annual payments to surviving beneficiaries, which amount shall be levied by the board of supervisors in accordance with the provisions of section 298.8. Upon the death of the last beneficiary to survive, any balance remaining...
in said fund, including any undisposed of accumulations, shall be transferred to the general fund of said school district.

The board of directors of said district shall annually, for a period of five years after the effective date of the termination of its pension system, at the meeting at which it estimates the amount required for the general fund, in accordance with the provisions of section 298.1, estimate the additional amount if any necessary to pay to participants in the pension system who are not entitled to receive benefits under such system at the date of termination thereof, one-fifth of the amount paid into said pension fund by such participants therein, without interest, which amount shall be levied by the board of supervisors, in accordance with provisions of section 298.8 and, in addition thereto, the board of directors of said district shall each year at the meeting at which it estimates the amount required for the general fund, in accordance with the provisions of section 298.1, estimate the additional amount, if any, necessary to provide the required annual payments to surviving beneficiaries of said pension system, as defined in section 294.12, which amount shall be levied by the board of supervisors, in accordance with the provisions of section 298.8. **EDUCATIONAL EXCELLENCE PROGRAM**

294A.1 Educational excellence program.

The purpose of this chapter is to promote excellence in education. In order to maintain and advance the educational excellence in the state of Iowa, this chapter establishes the Iowa educational excellence program. The program shall consist of two major phases addressing the following:

1. Phase I — The recruitment of quality teachers.
2. Phase II — The retention of quality teachers.

87 Acts, ch 224, §1; 2003 Acts, ch 180, §53, 54

294A.2 Definitions.

For the purposes of this chapter:

1. “Certified enrollment in a school district” for the school years beginning July 1, 1987, July 1, 1988, and July 1, 1989, means that district’s basic enrollment for the budget year beginning July 1, 1987, as defined in section 442.4, Code 1989. For each school year thereafter, certified enrollment in a school district means that district’s basic enrollment for the budget year as defined in section 442.4, Code 1989, or section 257.2.

2. “Enrollment served” for the fiscal years beginning July 1, 1987, July 1, 1988, and July 1, 1989, means that area education agency’s enrollment served for the budget year beginning July 1, 1987. For each school year thereafter, enrollment served means that area education agency’s enrollment served for the budget year. Enrollment served shall be determined under section 257.37.

3. “General training requirements” means requirements prescribed by a board of directors that provide for the acquisition of additional semester hours of graduate credit from an institution of higher education approved by the state board of education or the completion of staff development activities licensed by the board of educational examiners, except for programs developed by practitioner preparation institutions and area education agencies, for renewal of licenses issued under chapter 272.

4. “Specialized training requirements” means requirements prescribed by a board of directors to meet specific needs of the school district identified by the board of directors that provide for the acquisition of clearly defined skills through formal or informal education that are beyond the requirements necessary for initial licensing under chapter 272.

5. “Teacher” means an individual holding a practitioner’s license issued under chapter 272, or a letter of authorization or statement of professional recognition issued by the board of educational examiners, who is employed in a nonadministrative position by a school district or area education agency pursuant to a contract issued by a board of directors under section 279.13. A teacher may be employed in both an administrative and a nonadministrative position by a board of directors and shall be considered a part-time teacher for the portion of time that the teacher is employed in a nonadministrative position.

“Teacher” includes a licensed individual employed on less than a full-time basis by a school district through a contract between the school district and an institution of higher education with a practitioner preparation program in which the licensed teacher is enrolled in any practitioner preparation program.

6. “Teacher’s regular compensation” means the annual salary specified in a teacher’s contract pursuant to the salary schedule adopted by the board of directors or negotiated under chapter 20. It does not include pay earned by a teacher for performance of additional noninstructional duties and does not include the costs of the employer’s share of fringe benefits.

87 Acts, ch 224, §3; 2003 Acts, ch 180, §55

DIVISION II

PHASE I

294A.4 Goal.
The goal of phase I is to provide for establishment of pay plans incorporating sufficient annual compensation to attract quality teachers to Iowa's public school system. This is accomplished by increasing the minimum salary. A beginning salary which is competitive with salaries paid to other professionals will provide incentive for top quality individuals to enter the teaching profession.

87 Acts, ch 224, §4

294A.5 Minimum salary supplement.
1. For the school year beginning July 1, 1998, and succeeding school years, the minimum annual salary paid to a full-time teacher as regular compensation shall be twenty-three thousand dollars.
2. The minimum salary supplement shall be the sum of the following, as applicable:
a. For the school year beginning July 1, 1998, for phase I, each school district and area education agency shall certify to the department of education by the date specified in section 257.6, subsection 1, the names of all teachers employed by the district or area education agency whose regular compensation is less than twenty-three thousand dollars per year for that year and the amounts needed as minimum salary supplements. The minimum salary supplement for each eligible teacher is the total of the difference between twenty-three thousand dollars and the teacher's regular compensation plus the amount required to pay the employer's share of the federal social security and Iowa public employees' retirement system, or a pension and annuity retirement system established under chapter 294, payments on the additional salary moneys. The minimum salary supplement for each eligible teacher is the total of the difference between twenty-three thousand dollars and the teacher's regular compensation plus the amount required to pay the employer's share of the federal social security and Iowa public employees' retirement system, or a pension and annuity retirement system established under chapter 294, payments on the additional salary moneys.
b. The total minimum salary supplement paid to a school district under phase I for the school year beginning July 1, 1997.
3. The board of directors shall report the salaries of teachers employed on less than a full-time equivalent basis, and the amount of minimum salary supplement shall be prorated.

87 Acts, ch 224, §5; 98 Acts, ch 1216, §33; 2006 Acts, ch 1152, §46
Subsection 2, paragraph a amended

294A.6 Payments.
For the school year beginning July 1, 1998, the department of education shall notify the department of administrative services of the total minimum salary supplement, as described in section 294A.5, subsection 2, paragraphs "a" and "b", to be paid to each school district and area education agency under phase I and the department of administrative services shall make the payments. For school years after the school year beginning July 1, 2001, if a school district or area education agency reduces the number of its full-time equivalent teachers in the base year below the number employed during the school year beginning July 1, 1998, the department of administrative services shall reduce the total minimum salary supplement payable to that school district or area education agency in the budget year so that the amount paid is equal to the ratio of the number of full-time equivalent teachers employed in the school district or area education agency for the base year divided by the number of full-time equivalent teachers employed in the school district or area education agency for the school year beginning July 1, 1998, and multiplying that fraction by the total minimum salary supplement paid to that school district or area education agency for the school year beginning July 1, 1998.

If the moneys allocated for phase I for a school year exceed the moneys required to pay the total minimum salary supplements to all school districts and area education agencies, the board of directors of a school district that has employed one or more additional teachers as a result of a whole grade sharing agreement completed under section 282.7 may request approval from the department of education for additional funding for its minimum salary supplement for that school year and succeeding school years if the other school district or districts that are parties to the sharing agreement have correspondingly reduced their number of teachers. If the department of education approves the payment of the additional salary supplement to a district, the department shall certify to the department of administrative services that the additional payment be made. The payment shall be equal to the amount of the difference between eighteen thousand dollars and the teacher's regular compensation, plus the amount required to make the payments on the additional salary moneys for the employer's share of the federal social security and Iowa public employees' retirement system, or a pension and annuity retirement system established under chapter 294. If the phase I moneys remaining are insufficient to pay the entire amount approved by the department of education, the department of administrative services shall prorate the payments to school districts.

87 Acts, ch 224, §6; 89 Acts, ch 5, §1; 98 Acts, ch
294A.9 Phase II program.
Phase II is established to improve the salaries of teachers. For each fiscal year beginning on or after July 1, 1992, the per pupil amount upon which the phase II moneys are based is equal to the per pupil allocation plus supplemental allocations for the immediately preceding fiscal year.

The department of education shall certify the amounts of the allocations for each school district and area education agency to the department of administrative services and the department of administrative services shall make the payments to school districts and area education agencies.

If a school district has discontinued grades under section 282.7, subsection 1, or students attend school in another school district, under an agreement with the board of the other school district, the board of directors of the district of residence either shall transmit the phase II moneys allocated to the district for those students based upon the full-time equivalent attendance of those students to the board of the school district of attendance of the students or shall transmit to the board of the school district of attendance of the students a portion of the phase II moneys allocated to the district of residence based upon an agreement between the board of the resident district and the board of the district of attendance.

If a school district uses teachers under a contract between the district and the area education agency in which the district is located, the school district shall transmit to the employing area education agency a portion of its phase II allocation based upon the portion that the salaries of teachers employed by the area education agency and assigned to the school district for a school year bears to the total teacher salaries paid in the district for that school year, including the salaries of the teachers employed by the area education agency.

If the school district or area education agency is organized under chapter 20 for collective bargaining purposes, the board of directors and certified bargaining representative for the licensed employees shall mutually agree upon a formula for distributing the phase II allocation among the teachers. For the school year beginning July 1, 1987, only, the parties shall follow the procedures specified in chapter 20 except that if the parties reach an impasse, neither impasse procedures agreed to by the parties nor sections 20.20 through 20.22 shall apply and the phase II allocation shall be divided as provided in section 294A.10. Negotiations under this section are subject to the scope of negotiations specified in section 20.9. If a board of directors and certified bargaining representative for licensed employees have not reached mutual agreement by July 15, 1987, for the distribution of the phase II payment, section 294A.10 will apply.

If the school district or area education agency is not organized for collective bargaining purposes, the board of directors shall determine the method of distribution.

294A.10 Failure to agree on distribution.
For the school year beginning July 1, 1987 only, if the board of directors and certified bargaining representative for the licensed employees have not reached agreement under section 294A.9, the board of directors shall divide the payment among the teachers employed by the district or area education agency as follows:

1. All full-time teachers whose regular compensation is equal to or more than the minimum salary for phase I will receive an equal amount from the phase II allocation.

2. A teacher who will receive a minimum salary supplement under section 294A.5 will receive moneys equal to the difference between the amount from the phase II allocation and the minimum salary supplement paid to that teacher.

3. The amount from the phase II allocation will be prorated for a teacher employed on less than a full-time basis.

4. An amount from the phase II allocation includes the amount required to pay the employers’ share of the federal social security and Iowa public employees’ retirement system, or a pension and annuity retirement system established under chapter 294, payments on the additional salary.

DIVISION V
GENERAL PROVISIONS

294A.21 Rules. The state board of education shall adopt rules under chapter 17A for the administration of this chapter.
87 Acts, ch 224, §20

294A.22 Payments. Payments for each phase of the educational excellence program shall be made by the department of administrative services on a monthly basis commencing on October 15 and ending on June 15 of each fiscal year, taking into consideration the relative budget and cash position of the state resources. The payments shall be separate from state aid payments made pursuant to sections 257.18 and 257.35. The payments made under this section to a school district or area education agency may be combined and a separate accounting of the amount paid for each program shall be included.

Any payments made to school districts or area education agencies under this chapter are miscellaneous income for purposes of chapter 257.

296.1 **Indebtedness authorized.**

Subject to the approval of the voters thereof, school districts are hereby authorized to contract indebtedness and to issue general obligation bonds to provide funds to defray the cost of purchasing, building, furnishing, reconstructing, repairing, improving or remodeling a schoolhouse or schoolhouses and additions thereto, gymnasium, stadium, field house, school bus garage, teachers’ or superintendent’s home or homes, and procuring a site or sites therefor, or purchasing land to add to a site already owned, or procuring and improving a site for an athletic field, or improving a site already owned for an athletic field, and for any one or more of such purposes. §296.7 Indebtedness for insurance authorized — tax levy.
1. A school district or community college corporation may contract indebtedness and issue general obligation bonds or enter into insurance agreements obligating the school district or corporation to make payments beyond its current budget year for one or more of the following mechanisms to protect the school district or corporation from tort liability, loss of property, environmental hazards, or any other risk associated with the operation of the school district or corporation:
   a. To procure or provide for a policy of insurance.
   b. To provide a self-insurance program.
   c. To establish and maintain a local government risk pool.

   However, this subsection does not apply to an insurance program described in subsection 3.

2. For purposes of subsection 1, an employee benefit plan which includes a specific or aggregate excess loss coverage or a program that self-insures only a per-employee or per-family deductible for each year and which transfers the risk remaining beyond this deductible is not a self-insurance program, but is instead an insurance program. As used in this section, an "employee benefit plan" includes, but is not limited to benefits for hospital and surgical, medical expense, major medical, dental, prescription drug, disability, or life insurance costs or benefits.

3. A school district, providing an insurance program as described in subsection 2, shall not contract indebtedness and issue general obligation bonds or enter into insurance agreements obligating the school district to make payments beyond its current budget year for that employee benefit plan. A school district may, however, apply to the school board budget review committee for relief if necessitated by the expenses in the school district's insurance program as described in subsection 2.

4. Taxes may be levied in excess of any limitation imposed by statute for payment of one or more of the following authorized by subsection 1:

   c. Costs of a self-insurance program.
   d. Costs of a local government risk pool.
   e. Amounts payable under an insurance agreement.

   However, for a school district, a tax levied under this section shall be included in the district management levy under section 298.4.

5. A self-insurance program or local government risk pool authorized by subsection 1 is not insurance and is not subject to regulation under chapters 505 through 523C. However, those self-insurance plans regulated pursuant to section 509A.14 shall remain subject to the requirements of section 509A.14 and rules adopted pursuant to that section.

6. SALE OR LEASE OF PROPERTY

§297.22 Power to sell, lease, or dispose of property — tax.
1. The board of directors of a school district may sell, lease, or dispose of, in whole or in part, a schoolhouse, site, or other property belonging to the district. If the real property contains less than two acres, is located outside of a city, is not adjacent to a city, and was previously used as a schoolhouse site, the procedure contained in sections 297.15 through 297.20 shall be followed in lieu of this section.
Proceeds from the sale or disposition of real property shall be placed in the physical plant and equipment levy fund. Proceeds from the sale or disposition of property other than real property shall be placed in the general fund. Proceeds from the lease of real or other property shall be placed in the general fund.
Before the board of directors may sell, lease for a period in excess of one year, or dispose of any property belonging to the school, the board shall hold a public hearing on the proposal. The board shall set forth its proposal in a resolution and shall publish notice of the time and the place of the public hearing on the resolution. The notice shall also describe the property. A locally known address for real property may be substituted for a legal description of real property contained in the resolution. Notice of the time and place of the public hearing shall be published at least once not less than ten days but not more than twenty days prior...
to the date of the hearing in a newspaper of general circulation in the district. After the public hearing, the board may make a final determination on the proposal contained in the resolution.

However, property having a value of not more than five thousand dollars, other than real property, may be disposed of by any procedure which is adopted by the board and each sale shall be published by at least one insertion each week for two consecutive weeks in a newspaper having general circulation in the district.

2. The board of directors of a school district may sell, lease, exchange, give, or grant, and accept any interest in real property to, with, or from a county, municipal corporation, school district, township, or area education agency if the real property is within the jurisdiction of both the grantor and grantee.

The board of directors of a school district may lease a portion of an existing school building in which the remaining portion of the building will be used for school purposes for a period of not to exceed five years. The lease may be renewed at the option of the board. The notice and public hearing requirements of subsection 1 of this section do not apply to the lease of a portion of an existing school building. A school district shall pay out of the revenue from a lease to the state of Iowa, and to the city, school district and any other political subdivision authorized to levy taxes, an amount as determined by this section. The amount shall be determined by applying the annual tax rate of the taxing district to the assessed value of the portion of the building leased, prorated for the term of the lease during the appropriate taxing period. The provisions of this section relating to the payment of property tax because of leases shall only apply to leases to private, for-profit entities which lease a portion of a school building for a period of thirty or more consecutive days.

3. The provisions in subsections 1 and 2 relating to the sale, lease, or disposition of school district property do not apply to student-constructed buildings and the property on which student-constructed buildings are located. The board of directors of a school district may sell, lease, or dispose of a student-constructed building and the property on which the student-constructed building is located, and may purchase sites for the erection of additional structures, by any procedure which is adopted by the board.

LOAN AGREEMENTS

§297.35 Continuation of loan agreement.
A loan agreement between a school district and a bank, Investment banker, trust company, insurance company, or insurance group that was made under section 297.36, Code 1989, prior to July 1, 1991, in order to make immediately available proceeds of the schoolhouse tax approved by the voters prior to July 1, 1991, and the levy of taxes to pay principal and interest thereafter, shall continue in effect for the duration of the loan agreement.

§297.36 Loan agreements.
In order to make immediately available proceeds of the voter-approved physical plant and equipment levy which has been approved by the voters as provided in section 298.2, the board of directors may, with or without notice, borrow money and enter into loan agreements in anticipation of the collection of the collection of the tax with a bank, investment banker, trust company, insurance company, or insurance group.

By resolution, the board shall provide for an annual levy which is within the limits of the voter-approved physical plant and equipment levy to pay for the amount of the principal and interest due each year until maturity. The board shall file a certified copy of the resolution with the auditor of each county in which the district is located. The filing of the resolution with the auditor makes it the duty of the auditor to annually levy the amount certified for collection until funds are realized to repay the loan and interest on the loan in full.

The loan must mature within the period of time authorized by the voters and shall bear interest at a rate which does not exceed the limits under chapter 74A. A loan agreement entered into pursuant to this section shall be in a form as the board of directors shall by resolution provide and the loan shall be payable as to both principal and interest from the proceeds of the annual levy of the voter-approved physical plant and equipment levy, or so much thereof as will be sufficient to pay the loan and interest on the loan.

The proceeds of a loan must be deposited in the physical plant and equipment levy fund. Warrants paid from this fund must be for purposes authorized for the voter-approved physical plant and equipment levy.

This section does not limit the authority of the board of directors to levy the full amount of the voter-approved physical plant and equipment levy, but if and to whatever extent the tax is levied in any year in excess of the amount of principal and interest falling due in that year under a loan agreement, the first available proceeds, to an amount sufficient to meet maturing installments of principal and interest under the loan agreement, shall be paid into the debt service fund for the loan before the taxes are otherwise made available to the school corporation for other school purposes, and the amount required to be annually set aside to pay principal of and interest on the money borrowed under the loan agreement constitutes a first charge upon the proceeds of the voter-approved physical plant and equipment levy, which tax shall be pledged to pay the loan and the interest on the loan.

This section is supplemental and in addition to existing statutory authority to finance the purposes specified in section 298.2 for the physical plant and equipment levy, and for the borrowing of money and execution of loan agreements in connection with that section, and is not subject to any other law. The fact that a school corporation may have previously borrowed money and entered into loan agreements under authority of this section does not prevent the school corporation from borrowing additional money and entering into further loan agreements.

The physical plant and equipment property tax may be levied as a lump sum or as a combination of a property tax and income surtax.

Authorized levies for the period of time approved are not affected as a result of a failure of a proposition proposed to expand the purposes for which the funds may be expended.

6. If the board of directors of a school district in which the voters have authorized the schoolhouse tax prior to July 1, 1991, has entered into a rental or lease arrangement under section 279.26, Code 1989, or has entered into a loan agreement under section 297.36, Code 1989, the levy shall continue for the period authorized and the maximum levy that can be authorized under the voter-approved physical plant and equipment levy is reduced by the rate of the schoolhouse tax.

1. The board of directors of a school corporation in which there is no free public library may contract with a free public library for the free use of the library by the residents of the school district, and pay the library the amount agreed upon for the use of the library as provided by law. During the existence of the contract, the board shall certify annually a tax sufficient to pay the library the consideration agreed upon, not exceeding twenty cents per thousand dollars of assessed value of the taxable property of the district. During the existence of the contract, the school corporation is relieved from the requirement that the school treasurer withhold funds for library purposes. This section does not apply in townships where a contract for other library facilities is in existence.

2. However, if a school district which is qualified to contract for library services under subsection 1 levies a tax not to exceed twenty cents per thousand dollars of assessed valuation of the taxable property for school library purposes in the fiscal year before a reorganization involving the district, the tax levy shall remain valid for succeeding fiscal years, and shall be levied and collected against the taxable property of the former district which is part of the reorganized district for school library purposes. The contract and the tax levy may be discontinued by a petition signed by eligible electors residing in the former district. The petition requesting the discontinuance must be signed by no fewer than one hundred eligible electors or thirty percent of the number voting at the last preceding school election in the former district, whichever is greater. The petition must be filed with the secretary of the board of directors of the school district at least seventy-five days before the next regular school election. 298.18 Bond tax — election — leasing buildings. 
The board of each school corporation shall, when estimating and certifying the amount of money required for general purposes, estimate and certify to the board of supervisors of the proper county for the debt service fund the amount required to pay interest due or that may become due for the fiscal year beginning July 1, thereafter upon lawful bonded indebtedness, and in addition thereto such amount as the board may deem necessary to apply on the principal.  
The amount estimated and certified to apply on principal and interest for any one year shall not exceed two dollars and seventy cents per thousand dollars of the assessed valuation of the taxable property of the school corporation except as hereinafter provided.  
For the sole purpose of computing the amount of bonds which may be issued as a result of the application of any limitation referred to in this section, all interest on the bonds in excess of that accruing in the first twelve months may be excluded from the first annual levy of taxes to pay the bonds and interest shall not operate to further restrict the amount of bonds which may be issued, and in certifying the annual levies to the county auditor or auditors such first annual levy of taxes shall be sufficient to pay all principal of and interest on said bonds becoming due prior to the next succeeding annual levy and the full amount of such first annual levy shall be entered for collection by said auditor or auditors, as provided in chapter 76.  
The amount estimated and certified to apply on principal and interest for any one year may exceed two dollars and seventy cents per thousand dollars of assessed value by the amount approved by the voters of the school corporation, but not exceeding four dollars and five cents per thousand of the assessed value of the taxable property within any school corporation, provided that the registered voters of such school corporation have first approved such increased amount at a special election, which may be held at the same time as the regular school election. The proposition submitted to the voters at such special election shall be in substantially the following form:

Shall the board of directors of the ............. (insert name of school corporation) in the County of ............., State of Iowa, be authorized to levy annually a tax exceeding two dollars and seventy cents per thousand dollars, but not exceeding ....... dollars and ....... cents per thousand dollars of the assessed value of the taxable property within said school corporation to pay the principal of and interest on bonded indebtedness of said school corporation, it being understood that the approval of this proposition shall not limit the source of payment of the bonds and interest but shall only operate to restrict the amount of bonds which may be issued?

Notice of the election shall be given by the county commissioner of elections according to section 49.53. The election shall be held on a date not less than four nor more than twenty days after the last publication of the notice. At such election the ballot used for the submission of said proposition shall be in substantially the form for submitting special questions at general elections. The county commissioner of elections shall conduct the election pursuant to the provisions of chapters 39 to 53 and certify the results to the board of directors.  
Such proposition shall not be deemed carried or adopted unless the vote in favor of such proposition is equal to at least sixty percent of the total vote cast for and against said proposition at said election. Whenever such a proposition has been approved by the voters of a school corporation as hereinbefore provided, no further approval of the voters of such school corporation shall be required as a result of any subsequent change in the boundaries of such school corporation.  
The voted tax levy referred to herein shall not limit the source of payment of bonds and interest but shall only restrict the amount of bonds which may be issued.  
The ability of a school corporation to exceed two dollars and seventy cents per thousand dollars of assessed value to service principal and interest payments on bonded indebtedness is limited and conferred only to those school corporations engaged in the administration of elementary and secondary education.  
Provided further that if a school corporation leases a building or property, which has been used as a junior college by such corporation, to a community college, the annual amounts certified as herein provided by such leasing school corporation for payment of interest and principal due on lawful
bonded indebtedness incurred by such leasing school corporation for purchasing, building, furnishing, reconstructing, repairing, improving or remodeling the building leased or acquiring or adding to the site of such property leased, to the extent of the respective annual rent the school corporation will receive under such lease, shall not be considered as a part of the total amount estimated and certified for the purposes of determining if such amount exceeds any limitation contained in this section.

298.18A Levy adjustment.
If, in the opinion of the board of a school corporation, after having originally estimated and certified the amount required to pay interest and principal due upon bonded indebtedness incurred before July 1, 1995, an adjustment in the amount certified in excess of that previously levied by the resolution authorizing issuance of the bonds becomes necessary in anticipation of future projected revenue shortfalls resulting from a machinery and equipment-related taxable valuation decrease from the valuation as of January 1, 1994, an adjustment shall be permitted subject to the following limitations:

1. An adjustment shall be permitted only in a district in which machinery and equipment valuation exceeds twenty percent of total taxable valuation as of January 1, 1994.

2. The adjustment shall not result in a total amount levied in excess of the two dollar and seventy cent per thousand dollars of assessed valuation limit provided in section 298.18. An adjustment in excess of the two dollar and seventy cent per thousand dollars of assessed valuation limit shall be subject to the special election provisions for increases of up to four dollars and five cents per thousand dollars of assessed valuation provisions of section 298.18.

3. The amount of the adjustment, when added to the amount originally estimated and certified, for any one year, shall not exceed the least of:
   a. The amount required to pay interest and principal due upon bonded indebtedness for the three-year period beginning on the date of the adjustment.
   b. One hundred twenty-five percent of the total district levies for the fiscal year preceding the fiscal year in which the adjustment is to be added.
   c. One hundred ten percent of the total district levies for the fiscal year preceding the fiscal year in which the adjustment is to be added.

4. The amount of the adjustment plus the amount of state replacement moneys received under section 427B.19A which is attributable to the amount of the adjustment, when added to the amount originally estimated and certified, shall not result in the levying of an amount over the life of the issue in excess of the amount necessary for principal and interest repayment.

5. Amounts collected pursuant to this section shall be deposited in a separate debt service account distinct from the account established to hold principal and interest revenues resulting from the original levy.

6. An adjustment shall not be permitted which results in extending a levy beyond the following:
   a. Ten years from the original date of certification of the amount required to pay interest and principal.

298.19 Levy.
The board of supervisors of the county to which the certificate is addressed within the contemplation of section 298.18 shall levy the necessary tax to raise the amount estimated, or so much thereof as may be lawful and within the limitation of said section which levy shall be made as other taxes for school purposes.

298.20 Funding or refunding bonds.
For the purpose of providing for the payment of any indebtedness of any school corporation represented by judgments or bonds, the board of directors of such school corporation, at any time or times, may provide by resolution for the issuance of bonds of such school corporation, to be known as funding or refunding bonds. The proceeds derived from the public or private sale of such funding or refunding bonds shall be applied in payment of such indebtedness; or the funding bonds or refunding bonds may be issued in exchange for the evidences of such indebtedness, par for par.

298.21 School bonds.
The board of directors of any school corporation when authorized by the voters at the regular election or at a special election called for that purpose, may issue the negotiable, interest-bearing school bonds of said corporation for borrowing money for any or all of the following purposes:

All of said bonds shall be substantially in the form provided for county bonds, but subject to changes that will conform them to the action of the board providing therefor; shall run not more than twenty years, and may be sooner paid if so nominated in the bond; bear a rate of interest not exceeding that permitted by chapter 74A, payable semiannually; be signed by the president and countersigned by the secretary of the board of directors; and shall not be disposed of for less than par value, nor issued for other purposes than this chapter provides.

All of said bonds, when issued, shall be delivered to the secretary of the board of directors, who shall register them in a book to be kept for that purpose, and shall deliver them when they have been properly countersigned.

The expenses of engraving and printing of bonds may be paid out of the general fund.

§298.23 Redemption.
Whenever the amount in the hands of the treasurer, belonging to the funds set aside to pay bonds, is sufficient to redeem one or more of the bonds which by their terms are subject to redemption, the treasurer shall give the owner of said bonds thirty days’ written notice of the readiness of the district to pay and the amount it desires to pay. If not presented for payment or redemption within thirty days after the date of such notice, the interest on such bonds shall cease and the amount due thereon shall be set aside for its payment whenever it is presented.

§298.24 Record of bond buyers.
All redemptions shall be made in the order of their numbers. The treasurer shall keep a record of the parties to whom the bonds are sold, together with their post-office addresses, and notice mailed to the address as shown by such record shall be sufficient.

§299.4 Reports as to private instruction.

The parent, guardian, or legal custodian of a child who is of compulsory attendance age, who places the child under competent private instruction under either section 299A.2 or 299A.3, not in an accredited school or a home school assistance program operated by a public or accredited nonpublic school, shall furnish a report in duplicate on forms provided by the public school district, to the district by the earliest starting date specified in section 279.10, subsection 1. The secretary shall retain and file one copy and forward the other copy to the district's area education agency. The report shall state the name and age of the child, the period of time during which the child has been or will be under competent private instruction for the year, an outline of the course of study, tests used, and the name and address of the instructor. The parent, guardian, or legal custodian of a child, who is placing the child under competent private instruction for the first time, shall provide the district with evidence that the child has had the immunizations required under section 139A.8. The term "outline of course of study" shall include subjects covered, lesson plans, and time spent on the areas of study.

§299.5 Proof of mental or physical condition.

The parent, guardian, or legal or actual custodian of a child who is of compulsory attendance age, who is physically or mentally unable to attend school, or whose presence in school would be injurious to the health of other pupils, shall furnish proofs by certificate under sections 256B.6 and 256B.7 as to the physical or mental condition of the child.

299.5A Mediation.

If a child is truant as defined in section 299.8, school officers shall attempt to find the cause for the child's absence and use every means available to the school to assure that the child does attend. For a child who has completed educational requirements through the sixth grade, the means may include but are not limited to the use of an attendance cooperation process which substantially conforms with the provisions of section 299.12. If the parent, guardian, or legal or actual custodian, or child refuses to accept the school's attempt to assure the child's attendance or the school's attempt to assure the child's attendance is otherwise unsuccessful, the truancy officer shall refer the matter to the county attorney for mediation or prosecution.

If the matter is referred for mediation, the county attorney shall cause a notice of the referral to be sent to the parent, guardian, or legal or actual custodian and designate a person to serve as mediator in the matter. If mediation services are available in the community, those services may be used as the designated mediation service. If mediation services are not available in the community, mediation shall be provided by the county attorney or the county attorney's designee. The mediator shall contact the school, the parent, guardian, or legal or actual custodian, and any other person the mediator deems appropriate in the matter and arrange meeting dates and times for discussion of the child's nonattendance. The mediator shall attempt to ascertain the cause of the child's nonattendance, attempt to cause the parties to arrive at an agreement relative to the child's attendance, and initiate referrals to any agencies or counseling that the mediator believes to be appropriate under the circumstances.

If the parties reach an agreement, the agreement shall be reduced to writing and signed by a school officer, parent, guardian, or legal or actual custodian, and the child. The mediator, the school, and the parent, guardian, or legal or actual custodian shall each receive a copy of the agreement, which shall set forth the settlement of the issues and future responsibilities of each party.

The school district shall be responsible for monitoring any agreements arrived at through mediation. If a parent, guardian, or legal or actual custodian refuses to engage in mediation or violates a term of the agreement, the matter shall be referred to the county attorney for prosecution under section 299.6. The county attorney's office or the mediation service shall require the parent,
299.6 Violations — community service or fine or imprisonment.
Any person who violates a mediation agreement under section 299.5A, who is referred for prosecution under section 299.5A and is convicted of a violation of any of the provisions of sections 299.1 through 299.5, who violates any of the provisions of sections 299.1 through 299.5, or who refuses to participate in mediation under section 299.5A, for a first offense, is guilty of a simple misdemeanor.

A first offense conviction is punishable by imprisonment not exceeding ten days or a fine not exceeding one hundred dollars. The court may order the person to perform not more than forty hours of unpaid community service instead of any fine or imprisonment. A person convicted of a second violation is guilty of a serious misdemeanor.

A second offense conviction is punishable by imprisonment not exceeding twenty days or a fine not exceeding five hundred dollars, or both a fine and imprisonment. The court may order the person to perform unpaid community service instead of any fine or imprisonment.

A third or subsequent offense is a serious misdemeanor and a conviction is punishable by imprisonment not exceeding thirty days or a fine not exceeding one thousand dollars, or both a fine and imprisonment. The court may order the person to perform unpaid community service instead of any fine or imprisonment.

If community service is imposed as part of a sentencing order, the court may require that part or all of the service be performed for a public school district or nonpublic school if the court finds that service in the school is appropriate under the circumstances.

If a parent, guardian, or legal or actual custodian of a child who is truant, has made reasonable efforts to comply with the provisions of sections 299.1 through 299.5, but is unable to cause the child to attend school, the parent, guardian, or legal or actual custodian may file an affidavit listing the reasonable efforts made by the parent, guardian, or legal or actual custodian to cause the child’s attendance and the parent, guardian, or legal or actual custodian shall not be criminally liable for the child’s nonattendance.

299.6A Civil penalty — distribution of funds.
1. In lieu of a criminal proceeding under section 299.6, a county attorney may bring a civil action against a parent, guardian, or legal or actual custodian of a child who is of compulsory attendance age, has not completed educational requirements, and is truant, if the parent, guardian, or legal or actual custodian has failed to cause the child to attend a public school, an accredited nonpublic school, or competent private instruction in the manner provided in this chapter. If the court finds that the parent, guardian, or legal or actual custodian has failed to cause the child to attend as required in this section, the court shall assess a civil penalty of not less than one hundred but not more than one thousand dollars for each violation established.

2. Funds received from civil penalties assessed pursuant to this section shall be paid to the school district of residence or school district of enrollment, if open enrolled, of the person against whom the court assessed the penalty. The school district shall use moneys received under this subsection to support programs for students who meet the definition of at-risk children adopted by the department of education.

299.7 Custody of records.
All such certificates, reports, and proofs shall be filed and preserved in the office of the secretary of the school corporation as a part of the records of the office, and the secretary shall furnish certified copies thereof to any person requesting the same.

299.8 “Truant” defined.
Any child of compulsory attendance age who fails to attend school as provided in this chapter, or as required by the school board’s or school governing body’s attendance policy, or who fails to attend competent private instruction under chapter 299A, without reasonable excuse for the absence, shall be deemed to be a truant. A finding that a child is truant, however, shall not by itself mean that the child is a child in need of assistance within the meaning of chapter 292 and shall not be the sole basis for a child in need of assistance petition.
299.9 Truants — rules for punishment.
The board of directors of a public school district or the authorities in charge of an accredited nonpublic school shall prescribe reasonable rules for the punishment of truants.

299.10 Truancy officers — appointment.
The board of each school district may appoint a truancy officer. The board of each school district, which does not appoint a truancy officer for the district, shall designate a suitable person to collect information on the numbers of children in the district who are truant.

The board may appoint a member of the police force, marshal, teacher, school official, or other suitable person to serve as the district truancy officer.

299.11 Duties of truancy officer.
The truancy officer may take into custody without warrant any apparently truant child and place the child in the charge of the school principal, or the principal’s designee, designated by the board of directors of the school district in which the child resides, or of any nonpublic school designated by the parent, guardian, or legal or actual custodian; but if it is other than a public school, the instruction and maintenance of the child shall be without expense to the school district. If a child is taken into custody under this section, the truancy officer shall make every reasonable attempt to immediately notify the parent, guardian, or legal or actual custodian of the child’s location.

The truancy officer shall promptly institute proceedings against any person violating any of the provisions of sections 299.1 through 299.5A.

299.12 Violation of attendance policy — attendance cooperation meeting — agreement.

1. For the purposes of this section, “school truancy officer” means a truancy officer appointed under section 299.10 or any other person designated by a public school board or a governing body of an accredited nonpublic school to administer provisions of this section.

2. This section is not applicable to a child who is receiving competent private instruction in accordance with the requirements of chapter 299A.

If a child is not in compliance with the attendance requirements established under section 299.1, and has not completed educational requirements through the sixth grade, and the school has used every means available to assure the child does attend, the school truancy officer shall contact the child’s parent, guardian, or legal or actual custodian to participate in an attendance cooperation meeting. The parties to the attendance cooperation meeting may include the child and shall include the child’s parent, guardian, or legal or actual custodian and the school truancy officer. The school truancy officer contacting the participants in the attendance cooperation meeting may invite other school officials, a designee of the juvenile court, the county attorney or the county attorney’s designee, or other persons deemed appropriate to participate in the attendance cooperation meeting.

3. The purpose of the attendance cooperation meeting is for the parties participating in the meeting to attempt to ascertain the cause of the child’s nonattendance, to cause the parties to arrive at an agreement relative to addressing the child’s attendance, and to initiate referrals to any services or counseling that the parties believe to be appropriate under the circumstances. The terms agreed to shall be reduced to writing in an attendance cooperation agreement and signed by the parties to the agreement. Each party signing the agreement shall receive a copy of the agreement, which shall set forth the cause identified for the child’s nonattendance and future responsibilities of each party.

4. If the parties to an attendance cooperation meeting determine that a monitor would improve compliance with the attendance cooperation agreement, the parties may designate a person to monitor the agreement. The monitor shall be a designee of the public school board or governing body of the accredited nonpublic school. The monitor may be a volunteer if the volunteer is approved by all parties to the agreement and receives a written authorization for access to confidential information and for performing monitor activities from the child’s parent, guardian, or custodian. A monitor shall contact parties to the attendance cooperation agreement on a periodic basis as appropriate to monitor performance of the agreement.

5. If the parties fail to enter into an attendance cooperation agreement, or the child’s parent, guardian, or custodian acting as a party violates a term of the attendance cooperation agreement or fails to participate in an attendance cooperation meeting, the child shall be deemed to be truant.

6. A public school board or governing body of an accredited nonpublic school shall exercise the authority granted under this section as a means of increasing and ensuring school attendance of young children, as education is a critical element in the success of individuals and good attendance.

299.13 Civil enforcement.

A person shall not disseminate or redisseminate information shared with the person pursuant to section 299.5A or 299.12, unless specifically authorized to do so by section 217.30, 299.5A, or 299.12. Unless a prohibited dissemination or redissemination of information is subject to injunction or sanction under other state or federal law, an action for judicial enforcement may be brought in accordance with this section. An aggrieved person, the attorney general, or a county attorney may seek judicial enforcement of the requirements of this section in an action brought against the public school or accredited nonpublic school or any other person who has been granted access to information pursuant to section 299.5A or 299.12. Suits to enforce this section shall be brought in the district court for the county in which the information was disseminated or redisseminated. Upon a finding by a preponderance of the evidence that a person has violated this section, the court shall issue an injunction punishable by civil contempt ordering the person in violation of this section to comply with the requirements of, and to refrain from any violations of section 299.5A or 299.12 with respect to the dissemination or redissemination of information shared with the person pursuant to section 299.5A or 299.12.

299.15 Reports by school officers and employees.

299.16 Failure to attend — report.

School officers shall ascertain the number of children who are of compulsory attendance age, in their respective districts, the number of those children who are truant under section 299.8 or who have accumulated fifteen unexcused absences during a three-year period, and so far as possible the cause of the failure to attend. School officers shall, until July 1, 1999, biennially report this information to the department of education on forms provided by the department. The department shall attach a summary of the reports, an analysis of the data, and policy recommendations based on the data analysis, along with the department’s annual report under section 256.9, subsection 28.

Upon the failure of a person having the custody and control of a child who is blind, deaf, or has severe disabilities to require the child's attendance as provided in section 299.18, the state board of regents may make application to the district court or the juvenile court of the county in which the person resides for an order requiring the person to compel the attendance of the child at the proper state-operated school.

299.20 Order.

Upon the filing of the application mentioned in section 299.19, the time of hearing shall be determined by the juvenile court or the district court. If, upon hearing, the court determines that the person required to appear has the custody and control of a child who should be required to attend a state-operated school under section 299.18, the court shall make an order requiring the person to keep the child in attendance at the state-operated school.

CHAPTER 299A
PRIVATE INSTRUCTION

299A.1 Private instruction.

The parent, guardian, or legal custodian of a child of compulsory attendance age who places the child under private instruction shall provide, unless otherwise exempted, competent private instruction in accordance with this chapter. A par-
For purposes of this chapter, "competent private instruction" means private instruction provided on a daily basis for at least one hundred forty-eight days during a school year, to be met by attendance for at least thirty-seven days each school quarter, by or under the supervision of a licensed practitioner in the manner provided under section 299A.2, or other person under section 299A.3, which results in the student making adequate progress.

For purposes of this chapter and chapter 299, "private instruction" means instruction using a plan and a course of study in a setting other than a public or organized accredited nonpublic school.

**299A.2 Competent private instruction by licensed practitioner.**

If a licensed practitioner provides competent instruction to a child of compulsory attendance age, the practitioner shall possess a valid license or certificate which has been issued by the state board of educational examiners under chapter 272 and which is appropriate to the ages and grade levels of the children to be taught. Competent private instruction may include, but is not limited to, a home school assistance program which provides instruction or instructional supervision offered through an accredited nonpublic school or public school district by a teacher, who is employed by the accredited nonpublic school or public school district, who assists and supervises a parent, guardian, or legal custodian in providing instruction to a child. If competent private instruction is provided through a public school district, the child shall be enrolled and included in the basic enrollment of the school district as provided in section 257.6. Sections 299A.3 through 299A.7 do not apply to competent private instruction provided by a licensed practitioner under this section. However, the reporting requirement contained in section 299A.3, subsection 1, shall apply to competent private instruction provided by licensed practitioners that is not part of a home school assistance program offered through an accredited nonpublic school or public school district.

91 Acts, ch 200, §20

**299A.3 Private instruction by nonlicensed person.**

A parent, guardian, or legal custodian of a child of compulsory attendance age providing competent private instruction to the child shall meet all of the following requirements:

1. Complete and send, in a timely manner, the report required under section 299.4 to the school district of residence of the child.

2. Ensure that the child under the parent's, guardian's, or legal custodian's instruction is evaluated annually to determine whether the child is making adequate progress, as defined in section 299A.6.

3. Ensure that the results of the child's annual evaluation are reported to the school district of residence of the child and to the department of education by a date not later than June 30 of each year in which the child is under private instruction.

91 Acts, ch 200, §22

**299A.4 Annual achievement evaluations — requirements and procedure.**

1. Each child of compulsory attendance age who is receiving competent private instruction shall either be evaluated annually by May 1, using a nationally recognized standardized achievement evaluation or other assessment tool developed or recognized by the department of education and chosen by the child's parent, guardian, or legal custodian from a list of approved evaluations or assessment tools provided by the department of education or be evaluated annually in the manner provided in subsection 7. The department shall provide information on the cost of and the administration time required for each of the approved evaluations. The department shall provide, as part of approval procedures for evaluations to be used under this section, a mechanism which permits the introduction and approval of new or alternate methods of educational assessment which meet the requirements of this chapter.

2. A child, who is seven years of age and is receiving competent private instruction or who is placed under competent private instruction for the first time, shall be administered an evaluation for purposes of obtaining educational baseline data.

3. The director of the department of education, or the director's designee, which may include a school district or an area education agency, shall conduct the evaluations required under subsections 1 and 2 for children under competent private instruction. Evaluation shall occur at a time and a place to be determined by the person responsible for conducting the evaluation. Persons conducting the evaluations shall make every reasonable effort to conduct the evaluations at times and places which are convenient for the parent, guardian, or legal custodian.

4. The parent, guardian, or legal custodian of a child receiving competent private instruction may be present when the child is evaluated, but only if both the parent, guardian, or legal custodian and the child are under the supervision of the evaluation administrator.
§299A.4, PRIVATE INSTRUCTION

5. The conducting of evaluations shall include, but is not limited to, purchasing of evaluation materials, giving the evaluations, scoring and interpreting the evaluations, and reporting the evaluation results.

6. Except when a child has been enrolled in a public school district under section 299A.8, the parent, guardian, or legal custodian of the child being evaluated shall reimburse the entity conducting the evaluation for no more than the actual cost of evaluation required by this chapter. However, the parent, guardian, or legal custodian is not required to reimburse the evaluating entity for costs incurred as a result of evaluation under section 299A.9.

7. In lieu of annual achievement evaluations, a parent, guardian, or legal custodian of a child may submit, as evidence of adequate academic progress, all of the following:
   a. A book of lesson plans, a diary, or other written record indicating the subjects taught and activities in which the child has been engaged.
   b. A portfolio of the child’s work, including but not limited to, an outline of the curriculum used by the child, copies of homework completed in conjunction with the curriculum and instruction, and copies of evaluations completed by the child which have been produced by the parent, guardian, or legal custodian.
   c. Completed assessment evaluations, other than the annual achievement evaluation, if assessment evaluations are administered to a pupil as part of the competent private instruction by the parent, guardian, or legal custodian.

If a parent, guardian, or legal custodian submits evidence under this section, the information shall be reviewed by a qualified, licensed, Iowa practitioner selected as the evaluator by the parent, guardian, or legal custodian and approved by the superintendent of the local school district or the superintendent’s designee. The evaluator shall prepare a report based on a review of the child’s work submitted, which shall include an assessment of the child’s achievement or academic progress levels, and submit a copy of the report to the child’s parent, guardian, or legal custodian, the school district of residence of the child, and the department of education. If the evidence demonstrates, in the evaluator’s opinion, that the child is achieving adequate progress, the report shall create a presumption that the child is making adequate progress.
91 Acts, ch 200, §23; 92 Acts, ch 1163, §68

§299A.5 Reporting of evaluation results.

The results of evaluations administered to children of compulsory attendance age who are under competent private instruction shall be reported by the evaluation administrator to the child’s parent, guardian, or legal custodian, the school district of residence of the child, and the department of education. Personally identifiable information relating to or contained in the evaluation scores is confidential and shall not be released without the prior consent of the child’s parent, guardian, or custodian except as otherwise permitted by law.
91 Acts, ch 200, §24; 92 Acts, ch 1163, §69

§299A.6 Failure to make adequate progress.

If the results of evaluations, administered to a child of compulsory attendance age who is under competent private instruction, indicate that the student has failed to make adequate progress, the parent, guardian, or legal custodian shall cause the child to attend an accredited public or nonpublic school at the beginning of the next school year unless, before the beginning of the next school year, the child retakes a different form of the same evaluation, or another evaluation from the approved list of tests or assessment tools recognized by the department of education, and the results indicate that adequate progress has been made, the child has demonstrated adequate performance in the opinion of an evaluator and documented in a report under section 299A.4, subsection 7, or the director of the department of education, or the director’s designee, grants approval for competent private instruction to continue under a plan for remediation.

A child who is required to attend an accredited public or nonpublic school under this section shall continue attendance at an accredited public or nonpublic school until the child achieves adequate progress.

For purposes of this chapter, “adequate progress” means, for children in all grade levels of competent private instruction, evaluation scores which are above the thirtieth percentile, nationally normed, in each of the areas of reading, mathematics, and language arts, and which indicate either that the child has made six months’ progress from the previous evaluation results or that the child is at or above grade level for the child’s age. For children in grade levels six and above, “adequate progress” also means that the child has achieved evaluation scores in both science and social studies which are above the thirtieth percentile, nationally normed, and which indicate that the child has made six months’ progress from the previous evaluation results or that the child is at or above grade level for the child’s age.
91 Acts, ch 200, §25; 91 Acts, ch 258, §41; 92 Acts, ch 1135, §11

§299A.7 Notice to parents — remediation.

If a child is placed under competent private instruction and the child fails to make adequate progress under competent private instruction, the director of the department of education, or the director’s designee, shall notify the parent, guardian, or custodian of the child that the child is required to attend an accredited public or nonpublic
school, unless approval for competent private instruction under a remediation plan is granted. The director, or the director’s designee, may provisionally approve continued competent private instruction under an approved remediation plan designed to improve instruction for up to one year. 91 Acts, ch 200, §26

299A.8 Dual enrollment.
If a parent, guardian, or legal custodian of a child who is receiving competent private instruction under this chapter or a child over compulsory age who is receiving private instruction submits a request, the child shall also be registered in a public school for dual enrollment purposes. If the child is enrolled in a public school district for dual enrollment purposes, the child shall be permitted to participate in any academic activities in the district and shall also be permitted to participate on the same basis as public school children in any extracurricular activities available to children in the child’s grade or group, and the parent, guardian, or legal custodian shall not be required to pay the costs of any annual evaluation under this chapter. If the child is enrolled for dual enrollment purposes, the child shall be included in the public school’s basic enrollment under section 257.6. A pupil who is participating only in extracurricular activities shall be counted under section 257.6, subsection 1, paragraph “f”. A pupil enrolled in grades nine through twelve under this section shall be counted in the same manner as a shared-time pupil under section 257.6, subsection 1, paragraph “c”. 91 Acts, ch 200, §27; 92 Acts, ch 1163, §70; 92 Acts, ch 1247, §49; 2001 Acts, ch 159, §16; 2001 Acts, ch 176, §38

299A.9 Children requiring special education.
A child of compulsory attendance age who is identified as requiring special education under chapter 256B is eligible for placement under competent private instruction with prior approval of the placement by the director of special education of the area education agency of the child’s district of residence.
A child who has been placed under competent private instruction, whose performance indicates that the child may require special education, shall be referred for evaluation under chapter 256B and the rules of the state board of education. Evaluation shall occur at a time and a place to be determined by the person responsible for conducting the evaluation. Persons conducting the evaluations shall make every reasonable effort to conduct the evaluations at times and places which are convenient for the parent, guardian, or legal custodian. 91 Acts, ch 200, §28

301.1 Adoption — purchase and sale — accredited nonpublic school pupil textbook services.

1. The board of directors of each and every school district shall, to the extent funds are appropriated by the general assembly, be made available to pupils attending accredited nonpublic schools upon request of the pupil or the pupil’s parents under comparable terms as made available to pupils attending public schools. If the general assembly appropriates money for purposes of making textbooks available to accredited nonpublic school pupils, the department of education shall ascertain the amount available to a school district for the purchase of nonsectarian, nonreligious textbooks for pupils attending accredited nonpublic schools. The amount shall be in the proportion that the basic enrollment of a participating accredited nonpublic school bears to the sum of the basic enrollments of all participating accredited nonpublic schools. The amount shall be in the proportion that the basic enrollment of a participating accredited nonpublic school bears to the sum of the basic enrollments of all participating accredited nonpublic schools in the state for the budget year. For purposes of this section, a “participating accredited nonpublic school” means an accredited nonpublic school that submits a written request on behalf of the school’s pupils in accordance with this subsection, and that certifies its actual enrollment to the department of education by October 1, annually. By November 1, annually, the department of education shall certify to the director of the department of administrative services the annual amount to be paid to each school district, and the director of the department of administrative services shall draw warrants payable to school districts in accordance with this subsection. For purposes of this subsection, an accredited nonpublic school’s enrollment count shall include only students who are residents of Iowa. The costs of providing textbooks to accredited nonpublic school pupils as provided in this subsection shall not be included in the computation of district cost under chapter 257, but shall be shown in the budget as an expense from miscellaneous income. Textbook expenditures made in accordance with this subsection shall be kept on file in the school district. In the event that a participating accredited nonpublic school physically relocates to another school district, textbooks purchased for the nonpublic school with funds appropriated for purposes of this chapter shall be transferred to the school district in which the nonpublic school has relocated and may be made available to the nonpublic school. Funds distributed to a school district for purposes of purchasing textbooks in accordance with this subsection which remain unexpended and available for the purchase of textbooks for the nonpublic school that relocated in the fiscal year in which the funds were distributed shall also be transferred to the school district in which the nonpublic school has relocated.

2. As used in subsection 2, “textbooks” means books and loose-leaf or bound manuals, systems of reusable instructional materials or combinations of books and supplementary instructional materials which convey information to the student or otherwise contribute to the learning process, or electronic textbooks, including but not limited to computer-assisted instruction, interactive videodisc, and other computer courseware and magnetic media.

The books and supplies so purchased shall be under the charge of the board, who may select one or more persons within the county to keep said books and supplies as the depository agent of the board under such rules and regulations as the board shall adopt. The board shall require of each person so appointed a bond in such sum as may seem to the board to be desirable, the reasonable cost of which, if a bond of an association or corporation as surety is furnished, shall be paid by the district. The board shall adopt rules and regulations to provide that no textbook in any branch determined by the board to be taught in the schools under its charge, shall be sold or rented by such de-
pository agent to the pupils in such schools as a textbook other than those textbooks authorized by said board for use by the pupils in such schools; to provide that no such textbook shall be sold or rented by such depository agent at a price or fee higher than that fixed by the said board; and to provide such other measures not in conflict with law as are necessary properly to govern said depository agents and safeguard the said books and moneys.

301.3 Annual settlement by board of directors.

At the close of each school year the board of directors in each school district shall cause a complete settlement to be made with each depository agent. A complete inventory of the textbooks on hand, with a statement itemized to show the expenses authorized and paid by the board, and the amount of money collected from each such depository agent during the year from the sale or rental of textbooks, shall be made in duplicate, signed by the secretary of the board and the depository agent and one copy filed with the secretary and one with the depository agent.

301.4 Payment from general fund.

All the books and other supplies purchased under the provisions of this chapter shall be paid for out of the general fund.

301.5 Purchase — exchange.

In the purchasing of textbooks it shall be the duty of the board of directors to take into consideration the books then in use in the respective districts, and they may buy such additional number of said books as may from time to time become necessary to supply their schools, and they may arrange on equitable terms for exchange of books in use for new books adopted.

301.6 Suit on bond.

If at any time the publishers of such books as shall have been adopted by any board of directors shall neglect or refuse to furnish such books when ordered by said board in accordance with the provisions of this chapter, at the very lowest price, either contract or wholesale, that such books are furnished any other district or state board, then said board of directors may and it is hereby made the duty of the board to bring suit upon the bond given them by the contracting publisher.
