(1) States shall accept any of the following in lieu of testing requirements for graduation in the receiving state:

(a) Exit or end-of-course exams required for graduation from the sending state.

(b) National norm-referenced achievement tests.

(c) Alternative testing.

(2) In the event the above alternatives cannot be accommodated by the receiving state for a student transferring in the student's senior year, then the provisions of paragraph “c” shall apply.

c. Transfers during senior year. Should a military student transferring at the beginning or during the student's senior year be ineligible to graduate from the receiving local education agency after all alternatives have been considered, the sending and receiving local education agencies shall ensure the receipt of a diploma from the sending local education agency, if the student meets the graduation requirements of the sending local education agency. In the event that one of the states in question is not a member of this compact, the member state shall use best efforts to facilitate the on-time graduation of the student in accordance with paragraphs “a” and “b”.

8. Article VIII — State coordination.

a. Each member state shall, through the creation of a state council or use of an existing body or board, provide for the coordination among its agencies of government, local education agencies and military installations concerning the state’s participation in, and compliance with, this compact and interstate commission activities. A member state that does not have a school district deemed to contain a high concentration of military children may appoint a superintendent from another school district to represent local education agencies on the state council.

b. The state council of each member state shall appoint or designate a military family education liaison to assist military families and the state in facilitating the implementation of this compact.

c. The compact commissioner responsible for the administration and management of the state's participation in this compact shall be appointed by the governor or as otherwise determined by each member state.

d. The compact commissioner and the military family education liaison designated in sections 256H.2 and 256H.3 shall be ex officio members of the state council, unless either is already a full voting member of the state council.

The activities of the interstate commission are the formation of public policy and are a discretionary state function. The interstate commission shall:

a. Be a body corporate and joint agency of the member states and shall have all the
responsibilities, powers, and duties set forth herein, and such additional powers as may be conferred upon it by a subsequent concurrent action of the respective legislatures of the member states in accordance with the terms of this compact.

   b. Rules shall be made pursuant to a rulemaking process that substantially conforms to the model state administrative procedure Act of 1981, uniform laws annotated, as amended, as may be appropriate to the operations of the interstate commission.
   c. Notice of intent to suspend or terminate shall be given by the interstate commission to the governor, the majority and minority leaders of the defaulting state’s legislature, and each of the member states.

257.1 State school foundation program — state aid.

1. Program established. A state school foundation program is established for the school year commencing July 1, 1991, and succeeding school years.

2. State school foundation aid — foundation base.
   a. For a budget year, each school district in the state is entitled to receive foundation aid, in an amount per pupil equal to the difference between the amount per pupil of foundation property tax in the district, and the combined foundation base per pupil or the combined district cost per pupil, whichever is less. However, if the amount of foundation aid received by a school district under this chapter is less than three hundred dollars per pupil, the district is entitled to receive three hundred dollars per pupil unless the receipt of three hundred dollars per pupil plus the per pupil amount raised by the foundation property tax exceeds the combined district cost per pupil of the district for the budget year. In that case, the district is entitled to receive an amount per pupil equal to the difference between the per pupil amount raised by the foundation property tax for the budget year and the combined district cost per pupil for the budget year.
   b. For the budget year commencing July 1, 1999, and for each succeeding budget year.
the regular program foundation base per pupil is eighty-seven and five-tenths percent of the regular program state cost per pupil. For the budget year commencing July 1, 1991, and for each succeeding budget year the special education support services foundation base is seventy-nine percent of the special education support services state cost per pupil. The combined foundation base is the sum of the regular program foundation base, the special education support services foundation base, the total teacher salary supplement district cost, the total professional development supplement district cost, the total early intervention supplement district cost, the total area education agency teacher salary supplement district cost, and the total area education agency professional development supplement district cost.

3. **Computations rounded.** In making computations and payments under this chapter, except in the case of computations relating to funding of special education support services, media services, and educational services provided through the area education agencies, and the teacher salary supplement, the professional development supplement, and the early intervention supplement, the department of management shall round amounts to the nearest whole dollar.

4. **Legislative review.** The provisions of this chapter shall be subject to legislative review at least every five years. The review shall be based upon a school finance formula status report containing the recommendations of a legislative interim committee appointed to conduct a review of the school finance formula, to be prepared with the assistance of the department of education, in association with the departments of management and revenue. The report shall include recommendations for school finance formula changes or revisions based upon demographic changes, enrollment trends, and property tax valuation fluctuations observed during the preceding five-year interval; an analysis of the operation of the school finance formula during the preceding five-year interval; and a summary of issues that have arisen since the previous review and potential approaches for their resolution. The first such report shall be submitted to the general assembly no later than January 1, 2005, with subsequent reports developed and submitted by January 1 at least every fifth year thereafter.

   b. In succeeding school years, the foundation property tax levy on that portion shall be increased to the rate of four dollars and ninety cents per thousand dollars of assessed valuation the first succeeding year, five dollars and fifteen cents per thousand dollars of assessed valuation the second succeeding year, and five dollars and forty cents per thousand dollars of assessed valuation the third succeeding year and each year thereafter.
   c. The foundation property tax levy reduction pursuant to this subsection shall be available if either of the following apply:
      (1) In the year preceding the reorganization or dissolution, the school district affected by the reorganization or the school district that dissolved had a certified enrollment of fewer than six hundred pupils.
      (2) In the year preceding the reorganization or dissolution, the school district affected by the reorganization or the school district that dissolved had a certified enrollment of six hundred pupils or greater, and entered into a reorganization or dissolution with one or more school districts with a certified enrollment of fewer than six hundred pupils. The amount of foundation property tax reduction received by a school district qualifying for the reduction pursuant to this subparagraph shall not exceed the highest reduction amount provided in paragraphs “a” and “b” received by any of the school districts with a certified enrollment of fewer than six hundred pupils involved in the reorganization pursuant to subparagraph (1) of this paragraph “c”.
   d. For purposes of this section, a reorganized school district is one which absorbs at least thirty percent of the enrollment of the school district affected by a reorganization or dissolved during a dissolution and in which action to bring about a reorganization or dissolution is
initiated by a vote of the board of directors or jointly by the affected boards of directors to take effect on or after July 1, 2007, and on or before July 1, 2014. Each district which initiated, by a vote of the board of directors or jointly by the affected boards, action to bring about a reorganization or dissolution to take effect on or after July 1, 2007, and on or before July 1, 2014, shall certify the date and the nature of the action taken to the department of education by January 1 of the year in which the reorganization or dissolution takes effect. For a reorganization or dissolution that took effect on or after July 1, 2002, and on or before July 1, 2006, the reorganized school district shall continue to receive the benefits of paragraphs “a” and “b” of this subsection for the time specified in those paragraphs.

Subsection 1 internally redesignated pursuant to Code editor directive

### §257.4 Additional property tax.

1. **Computation of tax.**

   a. A school district shall cause an additional property tax to be levied each year. The rate of the additional property tax levy in a school district shall be determined by the department of management and shall be calculated to raise the difference between the combined district cost for the budget year and the sum of the following:

      1. The product of the regular program foundation base per pupil times the weighted enrollment in the district.

      2. The product of special education support services foundation base per pupil times the special education support services weighted enrollment in the district.

      3. The total teacher salary supplement district cost.

      4. The total professional development supplement district cost.

      5. The total early intervention supplement district cost.

      6. The total area education agency teacher salary supplement district cost.

      7. The total area education agency professional development supplement district cost.

   b. For the budget year beginning July 1, 2008, and succeeding budget years, the department of management shall annually determine an adjusted additional property tax levy and a statewide maximum adjusted additional property tax levy rate, not to exceed the statewide average additional property tax levy rate, calculated by dividing the total adjusted additional property tax levy dollars statewide by the statewide total net taxable valuation. For purposes of this paragraph, the adjusted additional property tax levy shall be that portion of the additional property tax levy corresponding to the state cost per pupil multiplied by a school district’s weighted enrollment, and then multiplied by one hundred percent less the regular program foundation base per pupil percentage pursuant to section 257.1. The district shall receive adjusted additional property tax levy aid in an amount equal to the difference between the adjusted additional property tax levy rate and the statewide maximum adjusted additional property tax levy rate, as applied per thousand dollars of assessed valuation on all taxable property in the district. The statewide maximum adjusted additional property tax levy rate shall be annually determined by the department taking into account amounts allocated pursuant to section 257.15, subsection 4. The statewide maximum adjusted additional property tax levy rate shall be annually determined by the department taking into account amounts allocated pursuant to section 257.15, subsection 4, and the balance of the property tax equity and relief fund created in section 257.16A at the end of the calendar year.

2. **Supplemental aid.**

   a. However, if the rate of the additional property tax levy determined under subsection 1 with the application of section 257.15 for a budget year for a reorganized school district is higher than the rate of additional property tax levy determined under subsection 1 with
the application of section 257.15 for the year previous to the reorganization for a school district that had a certified enrollment of less than six hundred and that was within the school districts affected by the reorganization as defined in section 275.1, the department of management shall reduce the rate of the additional property tax levy in the portion of the reorganized district where the new rate is higher, to the rate that was levied in that portion of the district during the year preceding the reorganization, for a five-year period. The department of management shall include in the state aid payments made to each reorganized school district under section 257.16 during each of the first five years of existence of the reorganized district as supplemental aid, moneys equal to the reduction in property tax revenues made under this subsection. For the budget year beginning July 1, 1991, the base year calculation shall be made using chapter 442, Code 1991.

b. For purposes of this section, a reorganized school district is one in which action to bring about a reorganization was initiated by a vote of the board of directors or jointly by the affected boards of directors prior to November 30, 1990, and the reorganization will take effect on or after July 1, 1991, and on or before July 1, 1993. Each district which initiated, by a vote of the board of directors or jointly by the affected boards, action to bring about a reorganization or dissolution by November 30, 1990, shall certify the date and the nature of the action taken to the department of education by September 1, 1991.

3. Application of tax. No later than June 15 of each year, the department of management shall notify the county auditor of each county the amount, in dollars and cents per thousand dollars of assessed value, of the additional property tax levy in each school district in the county. A county auditor shall spread the additional property tax levy for each school district in the county over all taxable property in the district.

257.5 Continuation of supplemental aid.

A reorganized school district, as defined in section 257.4, subsection 2, receiving supplemental aid prior to July 1, 1991, under section 442.9A, Code 1991, shall continue to receive supplemental aid as provided in that section for the five-year period specified in that section.

There is appropriated from the general fund of the state to the department of management for each fiscal year an amount sufficient to pay the supplemental aid to school districts under this section. Supplemental aid shall be paid in the manner provided in section 257.16.

For the purpose of the department of management’s determination of the portion of a school district’s budget that was property tax and the portion that was state aid under section 257.36, supplemental aid shall be considered property tax.

257.6 Enrollment.

1. Actual enrollment.

a. Actual enrollment is determined annually on October 1, or the first Monday in October if October 1 falls on a Saturday or Sunday, and includes all of the following:

(1) Resident pupils who were enrolled in public schools within the district in grades kindergarten through twelve and including prekindergarten pupils enrolled in special education programs.

(2) Full-time equivalent resident pupils of high school age for which the district pays tuition to attend an Iowa community college.

(3) Shared-time and part-time pupils of school age enrolled in public schools within the district, irrespective of the districts in which the pupils reside, in the proportion that the time for which they are enrolled or receive instruction for the school year is to the time that full-time pupils carrying a normal course schedule, at the same grade level, in the same school district, for the same school year, are enrolled and receive instruction. Tuition charges to the parent or guardian of a shared-time or part-time nonresident pupil shall be reduced by the amount of any increased state aid received by the district by the counting of the pupil.

(4) Eleventh and twelfth grade nonresident pupils who were residents of the district
during the preceding school year and are enrolled in the district until the pupils graduate. Tuition for those pupils shall not be charged by the district in which the pupils are enrolled and the requirements of section 282.18 do not apply.

(5) Resident pupils receiving competent private instruction from a licensed practitioner provided through a public school district pursuant to chapter 299A shall be counted as three-tenths of one pupil. Revenues received by a school district attributed to a school district’s weighted enrollment pursuant to this subparagraph shall be expended for the purpose for which the weighting was assigned under this subparagraph. If the school district determines that the expenditures associated with providing competent private instruction pursuant to chapter 299A are in excess of the revenue attributed to the school district’s weighted enrollment for such instruction in accordance with this subparagraph, the school district may submit a request to the school budget review committee for modified allowable growth in accordance with section 257.31, subsection 5, paragraph “n”. A home school assistance program shall not provide moneys received pursuant to this subparagraph, nor resources paid for with moneys received pursuant to this subparagraph, to parents or students utilizing the program. Moneys received by a school district pursuant to this subparagraph shall be used as provided in section 299A.12.

(6) Resident pupils receiving competent private instruction under dual enrollment pursuant to chapter 299A shall be counted as one-tenth of one pupil.

(7) A student attending an accredited nonpublic school or receiving competent private instruction under chapter 299A, who is participating in a program under chapter 261E, shall be counted as a shared-time student in the school district in which the nonpublic school of attendance is located for state foundation aid purposes.

b. A school district shall certify its actual enrollment to the department of education by October 15 of each year, and the department shall promptly forward the information to the department of management.

c. The department of management shall adjust the enrollment of the school district for the audit year based upon reports filed under section 11.6, and shall further adjust the budget of the second year succeeding the audit year for the property tax and state aid portions of the reported differences in enrollments for the year succeeding the audit year.

2. Basic enrollment. Basic enrollment for a budget year is a district’s actual enrollment for the base year. Basic enrollment for the base year is a district’s actual enrollment for the year preceding the base year.

3. Additional enrollment because of special education.

a. A school district shall determine its additional enrollment because of special education, as defined in this section, by November 1 of each year and shall certify its additional enrollment because of special education to the department of education by November 15 of each year, and the department shall promptly forward the information to the department of management.

b. For the purposes of this chapter, “additional enrollment because of special education” is determined by multiplying the weighting of each category of child under section 256B.9 times the number of children in each category totaled for all categories minus the total number of children in all categories.

4. Budget enrollment. Budget enrollment for the budget year is the basic enrollment for the budget year.

5. Weighted enrollment.

a. Weighted enrollment is the budget enrollment plus the district’s additional enrollment because of special education calculated by November 1 of the base year plus additional pupils added due to the application of the supplementary weighting.

b. Weighted enrollment for special education support services costs is equal to the weighted enrollment minus the additional pupils added due to the application of the supplementary weighting.

6. Students excluded. For the school year beginning July 1, 2008, and each succeeding school year, a student shall not be included in a district’s enrollment for purposes of this chapter or considered an eligible pupil under section 261E.6 if the student meets all of the following:
a. Was eligible to receive a diploma with the class in which they were enrolled and that class graduated in the previous school year.

b. Continues enrollment in the district to take courses either provided by the district or offered by community colleges under the provisions of section 257.11, or to take courses under the provisions of section 261E.6.

The state percent of growth for the budget year beginning July 1, 2010, is two percent. The state percent of growth for each subsequent budget year shall be established by statute which shall be enacted within thirty days of the submission in the year preceding the base year of the governor’s budget under section 8.21. The establishment of the state percent of growth for a budget year shall be the only subject matter of the bill which enacts the state percent of growth for a budget year.

2. Categorical state percent of growth. The categorical state percent of growth for the budget year beginning July 1, 2010, is two percent. The department of management shall calculate the regular program allowable growth for a budget year by multiplying the state percent of growth for the budget year by the regular program state cost per pupil for the base year and shall calculate the special education support services allowable growth for the budget year by multiplying the state percent of growth for the budget year by the special education support services state cost per pupil for the base year.

4. Alternate allowable growth — gifted and talented programs. Notwithstanding the calculation in subsection 3, the department of management shall calculate the regular program allowable growth for the budget year beginning July 1, 1999, by multiplying the state percent of growth for the budget year by the regular program state cost per pupil for the base year, and add to the resulting product thirty-eight dollars. For purposes of determining the amount of a budget adjustment as defined in section 257.14, for a school district which
calculated allowable growth for the budget year beginning July 1, 1999, pursuant to this subsection, thirty-eight dollars shall be subtracted from the school district’s regular program cost per pupil for the budget year beginning July 1, 1999, prior to determining the amount of the adjustment.

1. **Regular program state cost per pupil for 1991-1992.**
   a. For the budget year beginning July 1, 1991, for the regular program state cost per pupil, the department of management shall add together the sum of the products of each district’s regular program district cost per pupil for the base year; as regular program district cost per pupil would have been calculated under section 442.9, Code 1989, multiplied by its budget enrollment as budget enrollment would have been calculated under section 442.4, Code 1989, for the base year, plus the sum of the amounts added to the district cost of school districts pursuant to section 442.21, Code 1989.
   b. The total calculated under this subsection shall be divided by the total of the budget enrollments of all school districts for the budget year beginning July 1, 1990, calculated under section 257.6, subsection 4, if section 257.6, subsection 4, had been in effect for that budget year. The regular program state cost per pupil for the budget year beginning July 1, 1991, is the amount calculated by the department of management under this subsection plus an allowable growth amount that is equal to the state percent of growth for the budget year multiplied by the amount calculated by the department of management under this subsection.

Subsection 8 amended

257.10 District cost per pupil — district cost.

1. Regular program district cost per pupil for 1991-1992. For the budget year beginning July 1, 1991, in order to determine the regular program district cost per pupil for a district, the department of management shall divide the product of the regular program district cost per pupil of the district for the base year, as regular program district cost per pupil would have been calculated under section 442.9, Code 1989, multiplied by its budget enrollment for the base year as budget enrollment would have been calculated under section 442.4, Code 1989, plus the amount added to district cost pursuant to section 442.21, Code 1989, for each school district, by the budget enrollment of the school district for the budget year beginning July 1, 1990, calculated under section 257.6, subsection 4, as if section 257.6, subsection 4, had been in effect for that budget year. The regular program district cost per pupil for the budget year beginning July 1, 1991, is the amount calculated by the department of management under this subsection plus the allowable growth amount calculated for regular program state cost per pupil, except that if the regular program district cost per pupil for the budget year calculated under this subsection in any school district exceeds one hundred ten percent of the regular program state cost per pupil for the budget year, the department of management shall reduce the regular program district cost per pupil of that district for the budget year to an amount equal to one hundred ten percent of the regular program state cost per pupil for the budget year, and if the regular program district cost per pupil for the budget year calculated under this subsection in any school district is less than the regular program state cost per pupil for the budget year, the department of management shall increase the regular program district cost per pupil of that district to an amount equal to the regular program state cost per pupil for the budget year.

2. Regular program district cost per pupil for 1992-1993 and succeeding years.

a. For the budget year beginning July 1, 1992, and succeeding budget years, the regular program district cost per pupil for each school district for a budget year is the regular program district cost per pupil for the base year plus the regular program allowable growth for the budget year except as otherwise provided in this subsection.

b. If the regular program district cost per pupil of a school district for the budget year under paragraph “a” exceeds one hundred five percent of the regular program state cost per pupil for the budget year and the state percent of growth for the budget year is greater than two percent, the regular program district cost per pupil for the budget year for that district shall be reduced to one hundred five percent of the regular program state cost per pupil for
the budget year. However, if the difference between the regular program district cost per pupil for the budget year and the regular program state cost per pupil for the budget year is greater than an amount equal to two percent multiplied by the regular program state cost per pupil for the base year, the regular program district cost per pupil for the budget year shall be reduced by the amount equal to two percent multiplied by the regular program state cost per pupil for the base year.

3. **Special education support services district cost per pupil for 1991-1992.** For the budget year beginning July 1, 1991, for the special education support services district cost per pupil, the department of management shall divide the approved budget of each area education agency for special education support services for that year approved by the state board of education, under section 273.3, subsection 12, by the total of the weighted enrollment for special education support services in the area for that budget year. The special education support services district cost per pupil for each school district in an area for the budget year is the amount calculated by the department of management under this subsection.

4. **Special education support services district cost per pupil for 1992-1993 and succeeding years.**
   a. For the budget year beginning July 1, 1992, and succeeding budget years, the special education support services district cost per pupil for the budget year is the special education support services district cost per pupil for the base year plus the special education support services allowable growth for the budget year.
   b. Notwithstanding the special education support services district cost per pupil for the budget year beginning July 1, 1991, calculated under subsection 3, for area education agencies that have fewer than three and five-tenths public school pupils per square mile, the special education support services district cost per pupil for the budget year beginning July 1, 1991, is one hundred forty-seven dollars.

5. **Combined district cost per pupil.** The combined district cost per pupil for a school district is the sum of the regular program district cost per pupil and the special education support services district cost per pupil. Combined district cost per pupil does not include modified allowable growth added for school districts that have a negative balance of funds raised for special education instruction programs, modified allowable growth granted by the school budget review committee for a single school year, or modified allowable growth added for programs for dropout prevention.

6. **Regular program district cost.** Regular program district cost for a school district for a budget year is equal to the regular program district cost per pupil for the budget year multiplied by the budget enrollment for the budget year.

7. **Special education support services district cost.** Special education support services district cost for a school district for a budget year is equal to the special education support services district cost per pupil for the budget year multiplied by the special education support services weighted enrollment for the district for the budget year. 8. **Combined district cost.**
   a. Combined district cost is the sum of the regular program district cost per pupil multiplied by the weighted enrollment, the special education support services district cost, the total teacher salary supplement district cost, the total professional development supplement district cost, and the total early intervention supplement district cost, plus the sum of the additional district cost allocated to the district to fund media services and educational services provided through the area education agency, the area education agency total teacher salary supplement district cost and the area education agency total professional development supplement district cost.

b. For the budget year beginning July 1, 2010, and succeeding budget years, if the department of management determines that the unadjusted professional development supplement district cost of a school district for a budget year is less than one hundred percent of the unadjusted professional development supplement district cost for the base year for the school district, the school district shall receive a budget adjustment for that budget year equal to the difference.

c. (1) The unadjusted professional development supplement district cost is the professional development supplement district cost per pupil for each school district for a budget year multiplied by the budget enrollment for that school district.

For the budget year beginning July 1, 2010, and succeeding budget years, if the department of management determines that the unadjusted early intervention supplement district cost of a school district for a budget year is less than one hundred percent of the unadjusted early intervention supplement district cost for the base year for the school district, the school district shall receive a budget adjustment for that budget year equal to the difference.

c. (1) The unadjusted early intervention supplement district cost is the early intervention supplement district cost per pupil for each school district for a budget year multiplied by the budget enrollment for that school district.

(2) The total early intervention supplement district cost is the sum of the unadjusted early intervention supplement district cost plus the budget adjustment for that budget year.

d. The use of the funds calculated under this subsection shall comply with the requirements of chapter 256D.

257.11 Supplementary weighting plan.

1. Regular curriculum. Pupils in a regular curriculum attending all their classes in the district in which they reside, taught by teachers employed by that district, and having administrators employed by that district, are assigned a weighting of one.

2. District-to-district sharing.

a. In order to provide additional funds for school districts which send their resident pupils to another school district, which jointly employ and share the services of teachers under section 280.15, or which use the services of a teacher employed by another school district, a supplementary weighting plan for determining enrollment is adopted.

b. If the school budget review committee certifies to the department of management that the shared classes or teachers would otherwise not be implemented without the assignment of additional weighting, pupils attending classes in another school district, attending classes taught by a teacher who is employed jointly under section 280.15, or attending classes taught by a teacher who is employed by another school district are assigned a weighting of forty-eight hundredths of the percentage of the pupil’s school day during which the pupil attends classes in another district, attends classes taught by a teacher who is jointly employed under section 280.15, or attends classes taught by a teacher who is employed by another school district.

c. Pupils attending class for all or a substantial portion of a school day pursuant to a whole grade sharing agreement executed under sections 282.10 through 282.12 shall be eligible for supplementary weighting pursuant to this subsection. A school district which executes a whole grade sharing agreement and which adopts a resolution jointly with other affected boards to study the question of undergoing a reorganization or dissolution to take effect on or before July 1, 2014, shall receive a weighting of one-tenth of the percentage of the pupil’s school day during which the pupil attends classes in another district, attends classes taught by a teacher who is jointly employed under section 280.15, or attends classes taught by a teacher who is employed by another school district. A district shall be eligible for supplementary weighting pursuant to this paragraph for a maximum of three years. Receipt of supplementary weighting for a second and third year shall be conditioned upon submission of information resulting from the study to the school budget review committee indicating progress toward the objective of reorganization on or before July 1, 2014.

d. A school district which hosts a regional academy shall be eligible to assign its resident students attending classes at the academy a weighting of one-tenth of the percentage of the student’s school day during which the student attends classes at the regional academy.
The maximum amount of additional weighting for which a school district hosting a regional academy shall be eligible is an amount corresponding to thirty additional students. The minimum amount of additional weighting for which a school district establishing a regional academy shall be eligible is an amount corresponding to fifteen additional students if the academy provides both advanced-level courses and career and technical courses.

3. District-to-community college sharing and concurrent enrollment programs.
   a. In order to provide additional funds for school districts which send their resident high school pupils to a community college for college-level classes, a supplementary weighting plan for determining enrollment is adopted.
   b. If the school budget review committee certifies to the department of management that the class would not otherwise be implemented without the assignment of additional weighting, pupils attending a community college-offered class or attending a class taught by a community college-employed instructor are assigned a weighting of the percentage of the pupil’s school day during which the pupil attends class in the community college or attends a class taught by a community college-employed instructor times seventy hundredths for career and technical courses or forty-six hundredths for liberal arts and sciences courses. The following requirements shall be met for the purposes of assigning an additional weighting for classes offered through a sharing agreement between a school district and community college. The class must be:
      (1) Supplementing, not supplanting, high school courses required to be offered pursuant to section 256.11, subsection 5.
      (2) Included in the community college catalog or an amendment or addendum to the catalog.
      (3) Open to all registered community college students, not just high school students. The class may be offered in a high school attendance center.
      (4) For college credit and the credit must apply toward an associate of arts or associate of science degree, or toward an associate of applied arts or associate of applied science degree, or toward completion of a college diploma program.
      (5) Taught by an instructor employed or contracted by a community college who meets the requirements of section 261E.3, subsection 2.
      (6) Taught utilizing the community college course syllabus.
      (7) Taught in such a manner as to result in student work and student assessment which meet college-level expectations.

4. At-risk programs and alternative schools.
   a. In order to provide additional funding to school districts for programs serving at-risk pupils and alternative school pupils in secondary schools, a supplementary weighting plan for at-risk pupils is adopted. A supplementary weighting of forty-eight ten-thousandths per pupil shall be assigned to the percentage of pupils in a school district enrolled in grades one through six, as reported by the school district on the basic educational data survey for the base year, who are eligible for free and reduced price meals under the federal National School Lunch Act and the federal Child Nutrition Act of 1966, 42 U.S.C. § 1751-1785, multiplied by the budget enrollment in the school district; and a supplementary weighting of one hundred fifty-six one-hundred-thousandths per pupil shall be assigned to pupils included in the budget enrollment of the school district. Amounts received as supplementary weighting for at-risk pupils shall be utilized by a school district to develop or maintain at-risk pupils' programs, which may include alternative school programs.
   b. Notwithstanding paragraph “a”, a school district which received supplementary weighting for an alternative high school program for the school budget year beginning July 1, 1999, shall receive an amount of supplementary weighting for the next three school budget years as follows:
      (1) For the budget year beginning July 1, 2000, the greater of the amount of supplementary weighting determined pursuant to paragraph “a”, or sixty-five percent of the amount received for the budget year beginning July 1, 1999.
      (2) For the budget year beginning July 1, 2001, the greater of the amount of supplementary weighting determined pursuant to paragraph “a”, or forty percent of the amount received for the budget year beginning July 1, 1999.
(3) For the budget year beginning July 1, 2002, and succeeding budget years, the amount of supplementary weighting determined pursuant to paragraph “a”.

c. If a school district receives an amount pursuant to paragraph “b” which exceeds the amount the district would otherwise have received pursuant to paragraph “a”, the department of management shall annually determine the amount of the excess that would have been state aid and the amount that would have been property tax if the school district had generated that amount pursuant to paragraph “a”, and shall include the amounts in the state aid payments and property tax levies of school districts. The department of management shall recalculate the supplementary weighting amount received each year to reflect the amount of the reduction in funding from one budget year to the next pursuant to paragraph “b”, subparagraphs (1) through (3). It is the intent of the general assembly that when weights are recalculated under this subsection, the total amounts generated by each weight shall be approximately equal.

5. Regional academies.

a. For the school budget year beginning July 1, 2002, through the school budget year beginning July 1, 2007, in order to provide additional funds for school districts in which a regional academy is located, a supplementary weighting plan for determining enrollment is adopted.

b. A school district which establishes a regional academy shall be eligible to assign its resident pupils attending classes at the academy a weighting of one-tenth of the percentage of the pupil’s school day during which the pupil attends classes at the regional academy. For the purposes of this subsection, “regional academy” means an educational institution established by a school district to which multiple schools send pupils in grades nine through twelve, and may include a virtual academy. A regional academy shall include in its curriculum advanced-level courses and may include in its curriculum vocational-technical courses. The maximum amount of additional weighting for which a school district establishing a regional academy shall be eligible is an amount corresponding to fifteen additional pupils. The minimum amount of additional weighting for which a school district establishing a regional academy shall be eligible is an amount corresponding to ten additional pupils if the academy provides both advanced-level courses and vocational-technical courses. However, if the sum of the funding amount calculated for all districts operating regional academies under this subsection exceeds one million dollars for the school year beginning July 1, 2004, and each succeeding fiscal year, the director of the department of management shall prorate the amount calculated for each district. The proration shall be based upon the amount calculated for each district when compared to the sum of the amount for all districts.

6. Shared operational functions — increased student opportunities.

a. In order to provide additional funding to increase student opportunities and redirect more resources to student programming for school districts that share operational functions, a supplementary weighting of two hundredths per pupil shall be assigned to pupils enrolled in a district that shares with a political subdivision one or more operational functions in the areas of superintendent management, business management, human resources, transportation, or operation and maintenance for at least twenty percent of the school year. The additional weighting shall be assigned for each discrete operational function shared. For the purposes of this section, “political subdivision” means a city, township, county, school corporation, merged area, area education agency, institution governed by the state board of regents, or any other governmental subdivision.

b. Supplementary weighting pursuant to this subsection shall be available to a school district for a maximum of five years during the period commencing with the budget year beginning July 1, 2008, through the budget year beginning July 1, 2013. The minimum amount of additional weighting for which a school district shall be eligible is an amount equivalent to ten additional pupils, and the maximum amount of additional weighting for which a school district shall be eligible is an amount equivalent to forty additional pupils. Receipt of supplementary weighting by a school district pursuant to this subsection for more than one year shall be contingent upon the annual submission of information by the district to the department documenting cost savings directly attributable to the shared operational functions. Criteria for determining the number of years for which supplementary weighting
shall be received pursuant to this subsection, subject to the five-year maximum, and for determining qualification of operational functions for supplementary weighting shall be determined by the department by rule, through consideration of long-term savings by the school district or increased student opportunities.

c. Supplementary weighting pursuant to this subsection shall be available to an area education agency for a maximum of five years during the period commencing with the budget year beginning July 1, 2008. The minimum amount of additional funding for which an area education agency shall be eligible is fifty thousand dollars, and the maximum amount of additional funding for which an area education agency shall be eligible is two hundred thousand dollars. The department of management shall annually set a weighting for each area education agency to generate the approved operational sharing expense using the area education agency’s special education cost per pupil amount and foundation level. Receipt of supplementary weighting by an area education agency for more than one year shall be contingent upon the annual submission of information by the district to the department documenting cost savings directly attributable to the shared operational functions. Criteria for determining the number of years for which supplementary weighting shall be received pursuant to this subsection, subject to the five-year maximum, and the amount generated by the supplementary weighting, and for determining qualification of operational functions for supplementary weighting shall be determined by the department by rule, through consideration of long-term savings by the area education agency or increased student opportunities.

d. The amount of any supplementary weighting originally received under this subsection shall be reduced by an additional twenty percent from the original amount for each subsequent budget year that supplementary weighting may be received.

e. This subsection is repealed effective July 1, 2014.

7. **Shared classes delivered over the Iowa communications network.**

a. A school district that provides a virtual class to a pupil in another school district and the school district receiving that virtual class for a pupil shall each receive a supplemental weighting of one-twentieth of the percentage of the pupil’s school day during which the pupil attends the virtual class.

b. Fifty percent of the funding the school district providing the virtual class receives as a result of this subsection shall be reserved as additional pay for the virtual classroom instructor. If an instructor’s contract provides additional pay for teaching a virtual class, the instructor shall receive the greater amount of either the amount provided for in this paragraph or the amount provided for in the instructor's contract.

c. A school district receiving a virtual class for a pupil from a community college, which class meets the sharing agreement requirements in subsection 3, shall receive a supplemental funding weighting of one-twentieth of the percentage of the pupil’s school day during which the pupil attends the virtual class.

d. For the purposes of this subsection, “virtual class” means either of the following:

1. A class provided by a school district to a pupil in another school district via the Iowa communications network’s video services.

2. A class provided by a community college to a pupil in a school district via the Iowa communications network’s video services.

8. **Pupils ineligible.** A pupil eligible for the weighting plan provided in section 256B.9 is not eligible for supplementary weighting pursuant to this section unless it is determined that the course generating the supplemental weighting has no relationship to the pupil's disability. A pupil attending an alternative program or an at-risk pupils’ program, including alternative high school programs, is not eligible for supplementary weighting under subsection 2.

9. **Shared classes and curriculum standards.** A school district shall ensure that any course made available to a student through any sharing agreement between the school district and a community college or any other entity providing course programming pursuant to this section to students enrolled in the school district meets the expectations contained in the core curriculum adopted pursuant to section 256.7, subsection 26. The school district shall ensure that any course that has the capacity to generate college credit shall be equivalent to college-level work.
10. **School finance appropriations report.** The department of education shall annually prepare a report regarding school finance provisions or programs receiving a standing appropriation, including supplementary weighting programs. The report shall provide information regarding amounts received or accessed by school districts pursuant to the provisions or programs, whether the amounts received represent an increase or decrease over amounts received during the previous budget year and the percentage increase or decrease, conclusions regarding the adequacy of amounts received by school districts and whether the amounts received are equitable between school districts based upon input from the school districts and analysis by the department, and the rationale for current trends being observed by the department and projections regarding possible trends in the future. The report shall be submitted to the general assembly by January 1 each year, and copies of the report shall be forwarded to the chairpersons and members of the committee on education in the senate and in the house of representatives.

Subsection 8 amended

### 257.11A Supplementary weighting and school reorganization.

1. In determining weighted enrollment under section 257.6, if the board of directors of a school district has approved a contract for sharing pursuant to section 257.11 and the school district has approved an action to bring about a reorganization to take effect on and after July 1, 2007, and on or before July 1, 2014, the reorganized school district shall include, for a period of three years following the effective date of the reorganization, additional pupils added by the application of the supplementary weighting plan, equal to the pupils added by the application of the supplementary weighting plan in the year preceding the reorganization. For the purposes of this subsection, the weighted enrollment for the period of three years following the effective date of reorganization shall include the supplementary weighting in the base year used for determining the combined district cost for the first year of the reorganization. However, the weighting shall be reduced by the supplementary weighting added for a pupil whose residency is not within the reorganized district.

2. For purposes of this section, a reorganized district is one in which the reorganization was approved in an election pursuant to sections 275.18 and 275.20 and takes effect on or after July 1, 2007, and on or before July 1, 2014. Each district which initiates, by a vote of the board of directors or jointly by the affected boards, action to bring about a reorganization or dissolution to take effect on or after July 1, 2007, and on or before July 1, 2014, shall certify the date and the nature of the action taken to the department of education by January 1 of the year in which the reorganization or dissolution takes effect.

3. A school district shall be eligible for a combined maximum total of six years of supplementary weighting under the provisions of this section and section 257.11, subsection 2, paragraph “c”. A school district participating in a whole grade sharing arrangement during the budget year beginning July 1, 2001, that adopted a resolution jointly with other affected boards to study the question of undergoing a reorganization or dissolution to take effect on or after July 1, 2002, and on or before July 1, 2006, shall continue to receive the supplementary weighting to which it was entitled pursuant to the provisions of this section and section 257.11, subsection 2, paragraph “c”.

### 257.12 Adjustment in state foundation aid.

1. If a school district is required to repay property taxes paid for school taxes levied on property originally assessed at five million dollars or more because the assessment was subsequently reduced by the action of the property assessment appeal board or judicial action and the amount of the reduction in the assessment equals at least one hundred
thousand dollars or two percent of the assessed value of all taxable property in the district prior to the reduction, whichever is less, the school district is eligible for an adjustment in state foundation aid. To receive the adjustment in state foundation aid, the school district shall apply to the department of management prior to the beginning of the budget year following the budget year in which the repayment of the property taxes occurred. The department of management shall determine the amount of adjustment in state foundation aid pursuant to subsection 2.

2. The department of management shall determine the amount of state foundation aid which the school district would have received under section 257.1 if the amount of the school district’s foundation property tax was determined using the reduced assessment of the applicable property. The difference between the amount of the state foundation aid using the reduced assessment and the amount of state foundation aid actually received under section 257.1 equals the amount of the adjustment in state foundation aid to be paid to the school district.

3. The adjustment in state foundation aid under this section shall be paid as provided in section 257.16. If the application to receive an adjustment in state aid was filed prior to April 15, the adjustment shall be paid in the budget year. If the application is made after April 15, the adjustment shall be paid in the following budget year.

257.13 On-time funding budget adjustment.

1. For the school budget year beginning July 1, 2001, and succeeding budget years, if a district’s actual enrollment for the budget year, determined under section 257.6, is greater than its budget enrollment for the budget year, the district shall be eligible to receive an on-time funding budget adjustment. The adjustment shall be in an amount equal to the difference between the actual enrollment for the budget year and the budget enrollment for the budget year, multiplied by the district cost per pupil.

2. The board of directors of a school district that wishes to receive an on-time funding budget adjustment shall adopt a resolution to receive the adjustment and notify the school budget review committee annually, but not earlier than November 1, as determined by the department of education. The school budget review committee shall establish a modified allowable growth in an amount determined pursuant to subsection 1.

3. If the board of directors of a school district determines that a need exists for additional funds exceeding the authorized budget adjustment for on-time funding pursuant to this section, a request for modified allowable growth based upon increased enrollment may be submitted to the school budget review committee as provided in section 257.31.

For purposes of this subparagraph, the "adjusted guarantee amount" means the amount which would be applicable for the budget year beginning July 1, 2012, if the budget guarantee were determined for that budget year as calculated for the budget year beginning July 1, 2003.

(10) For the budget year commencing July 1, 2013, and each budget year thereafter, the difference between the regular program district cost for the budget year and one hundred one percent of the regular program district cost for the base year.

b. The board of directors of a school district that wishes to receive a budget adjustment pursuant to this subsection shall adopt a resolution to receive the budget adjustment by May 15, annually, and shall notify the department of management of the adoption of the resolution and the amount of the budget adjustment to be received.

257.15 Property tax adjustment.

a. For the budget year beginning July 1, 1991, the department of management shall calculate for each district the difference between the sum of the revenues generated by the foundation property tax and the additional property tax in the district calculated under this chapter and the revenues that would have been generated by the foundation property tax and the additional property tax in that district for that budget year calculated under chapter 442, Code 1989, if chapter 442, Code 1989, were in effect, except that the revenues that would have been generated by the additional property tax levy under chapter 442, Code 1989, shall not include revenues generated for the school improvement program. However in making the calculation of the difference in revenues under this subsection, the department shall not include the revenues generated under section 257.37 and under chapter 442, Code 1989, for funding media and educational services through the area education agencies. If the property tax revenues for a district calculated under this chapter exceed the property tax revenues for that district calculated under chapter 442, Code 1989, the department of management shall reduce the revenues raised by the additional property tax levy in that district under this chapter by that difference and the department of education shall pay property tax adjustment aid to the district equal to that difference from moneys appropriated for property tax adjustment aid.

b. For purposes of this subsection, in computing the amount of revenues generated by the foundation property tax and the additional property tax under chapter 442, Code 1989, the computation shall be based on a regular program foundation base per pupil of eighty-three percent of the regular program state cost per pupil except that for the portion of weighted
enrollment that is additional enrollment because of special education the regular program foundation base per pupil shall be seventy-nine percent of the regular program state cost per pupil. The special education support services foundation base shall be seventy-nine percent of the special education support services state cost per pupil.

2. Property tax adjustment aid for 1992-1993 and succeeding years. For the budget year beginning July 1, 1992, and succeeding budget years, the department of education shall pay property tax adjustment aid to a school district equal to the amount paid to the district for the base year less an amount equal to the product of the percent by which the taxable valuation in the district increased, if the taxable valuation increased, from January 1 of the year prior to the base year to January 1 of the base year and the property tax adjustment aid. The department of management shall adjust the rate of the additional property tax accordingly and notify the department of education of the amount of aid to be paid to each district from moneys appropriated for property tax adjustment aid.

3. Property tax adjustment aid appropriation. There is appropriated from the general fund of the state to the department of education, for each fiscal year, an amount necessary to pay property tax adjustment aid to school districts under this section. Property tax adjustment aid shall be paid to school districts in the manner provided in section 257.16.

4. a. Allocations for maximum adjusted additional property tax levy rate calculation and adjusted additional property tax levy aid. The department of management shall allocate from amounts appropriated pursuant to section 257.16, subsection 1, and from funds appropriated from the property tax equity and relief fund created in section 257.16A for the purpose of calculating the statewide maximum adjusted additional property tax levy rate and providing adjusted additional property tax levy aid as provided in section 257.4, subsection 1, paragraph “b”, an amount equal to the sum of subparagraphs (1) and (2) as follows:

(1) From the amount appropriated from the general fund of the state pursuant to section 257.16, subsection 1, equal to the following:

(a) For the budget year beginning July 1, 2006, six million dollars.
(b) For the budget year beginning July 1, 2007, twelve million dollars.
(c) For the budget year beginning July 1, 2008, eighteen million dollars.
(d) For the budget year beginning July 1, 2009, and succeeding budget years, twenty-four million dollars.

(2) From the amount appropriated from the property tax equity and relief fund created in section 257.16A.

b. After lowering all school district additional property tax levy rates to the statewide maximum adjusted additional property tax levy rate under paragraph “a”, the department of management shall use any remaining funds at the end of the calendar year to further lower additional property taxes by increasing for the budget year beginning the following July 1, the state foundation base percentage. Moneys used pursuant to this paragraph shall supplant an equal amount of the appropriation made from the general fund of the state pursuant to section 257.16 that represents the increase in state foundation aid.

Subsection 1, paragraph a amended

257.16 Appropriations.

1. There is appropriated each year from the general fund of the state an amount necessary to pay the foundation aid under this chapter, the preschool foundation aid under chapter 256C, supplementary aid under section 257.4, subsection 2, and adjusted additional property tax levy aid under section 257.15, subsection 4.

2. All state aids paid under this chapter, unless otherwise stated, shall be paid in monthly installments beginning on September 15 of a budget year and ending on or about June 15 of the budget year as determined by the department of management, taking into consideration the relative budget and cash position of the state resources.

3. All moneys received by a school district from the state under this chapter shall be deposited in the general fund of the school district, and may be used for any school general fund purpose unless otherwise provided by law.
4. Notwithstanding any provision to the contrary, if the governor orders budget reductions in accordance with section 8.31, the teacher salary supplement district cost, the professional development supplement district cost, and the early intervention supplement district cost as calculated under section 257.10, subsections 9, 10, and 11, and the area education agency teacher salary supplement district cost and the area education agency professional development supplement district cost as calculated under section 257.37A, subsections 1 and 2, shall be paid in full as calculated and the reductions in the appropriations provided in accordance with this section shall be reduced from the remaining moneys appropriated pursuant to this section and shall be distributed on a per pupil basis calculated with the weighted enrollment determined in accordance with section 257.6, subsection 5.

However, this section does not apply to a school district that has received approval from the director of the department of education under section 279.10, subsection 4, to commence classes for regularly established elementary and secondary schools in advance of the starting date established in section 279.10, subsection 1.

1. An instructional support program that provides additional funding for school districts is established. A board of directors that wishes to consider participating in the instructional support program shall hold a public hearing on the question of participation. The board shall set forth its proposal, including the method that will be used to fund the program, in a resolution and shall publish the notice of the time and place of a public hearing on the resolution. Notice of the time and place of the public hearing shall be published not less than ten nor more than twenty days before the public hearing in a newspaper which is a newspaper of general circulation in the school district. At the hearing, or no later than thirty days after the date of the hearing, the board shall take action to adopt a resolution to participate in the instructional support program for a period not exceeding five years or to direct the county commissioner of elections to submit the question of participation in the program for a period not exceeding ten years to the registered voters of the school district at an election held on a date specified in section 39.2, subsection 4, paragraph “c”. If the board submits the question at an election and a majority of those voting on the question favors participation in the program, the board shall adopt a resolution to participate and certify the results of the election to the department of management.
2. a. If the board does not provide for an election and adopts a resolution to participate in the instructional support program, the district shall participate in the instructional support program unless within twenty-eight days following the action of the board, the secretary of the board receives a petition containing the required number of signatures, asking that the question to approve or disapprove the action of the board in adopting the instructional support program be submitted to the voters of the school district. The petition must be signed by eligible electors equal in number to not less than one hundred or thirty percent of the number of voters at the last preceding regular school election, whichever is greater. The board shall either rescind its action or direct the county commissioner of elections to submit the question to the registered voters of the school district at an election held on a date specified in section 39.2, subsection 4, paragraph "c". If a majority of those voting on the question at the election favors disapproval of the action of the board, the district shall not participate in the instructional support program. If a majority of those voting on the question favors approval of the action, the board shall certify the results of the election to the department of management and the district shall participate in the program.

b. At the expiration of the twenty-eight day period, if no petition is filed, the board shall certify its action to the department of management and the district shall participate in the program.

3. Participation in an instructional support program is not affected by a change in the boundaries of the school district, except as otherwise provided in this section. If each school district involved in a school reorganization under chapter 275 has approved an instructional support program, and if the voters have not voted upon the question of participation in the program in the reorganized district, the instructional support program shall be in effect for the reorganized district that has been approved for the least amount and the shortest time in any of the districts.

257.19 Instructional support funding.

The additional funding for the instructional support program for a budget year is limited to an amount not exceeding ten percent of the total of regular program district cost for the budget year and moneys received under section 257.14 as a budget adjustment for the budget year. Moneys received by a district for the instructional support program are miscellaneous income and may be used for any general fund purpose. However, moneys received by a district for the instructional support program shall not be used as, or in a manner which has the effect of, supplanting funds authorized to be received under sections 257.41, 257.46, 298.2, and 298.4, or to cover any deficiencies in funding for special education instructional services resulting from the application of the special education weighting plan under section 256B.9.

Certification of a board's intent to participate for a budget year, the method of funding, and the amount to be raised shall be made to the department of management not later than April 15 of the base year. Funding for the instructional support program shall be obtained from instructional support state aid and from local funding using either an instructional support property tax or a combination of an instructional support property tax and an instructional support income surtax.

The board of directors shall determine whether the instructional support property tax or the combination of the instructional support property tax and instructional support income surtax shall be used for the local funding. Subject to the limitation specified in section 298.14, if the board elects to use the combination of the instructional support property tax and instructional support income surtax, for each budget year the board shall determine the percent of income surtax that will be imposed, expressed as full percentage points, not to exceed twenty percent.

§257.20, FINANCING SCHOOL PROGRAMS

management shall divide the total assessed valuation in the state by the total budget enrollment for the budget year in the state to determine a state assessed valuation per pupil and shall divide the assessed valuation in each district by the district’s budget enrollment for the budget year to determine the district assessed valuation per pupil. The department of management shall multiply the ratio of the state’s valuation per pupil to the district’s valuation per pupil by twenty-five hundredths and subtract that result from one to determine the portion of the instructional support program budget that is local funding. The remaining portion of the budget shall be funded by instructional support state aid. However, for the budget year beginning July 1, 1992, only, the amount of state aid is three and one-quarter percent less than the amount computed under this paragraph for that budget year.

2. There is appropriated for each fiscal year from the general fund of the state to the department of education, an amount necessary to pay instructional support state aid as determined under subsection 1.

a. However, moneys appropriated under this subsection shall not exceed the amount of moneys appropriated as instructional support state aid for the budget year which commenced on July 1, 1992.

b. If the amount appropriated under this subsection is insufficient to pay the amount of instructional support state aid determined under subsection 1, the department of education shall prorate the amount of the instructional support state aid provided to each district.

3. If the general assembly makes an appropriation for instructional support state aid in lieu of the standing appropriation provided under subsection 2, the appropriation for instructional support state aid shall include in the appropriation the allocation of the instructional support state aid to the school districts applicable for that appropriation and subsections 1 and 2 do not apply to the appropriation.

4. Instructional support state aid shall be paid at the same time and in the same manner as foundation aid is paid under section 257.16.

257.21 Computation of instructional support amount.

The department of management shall establish the amount of instructional support property tax to be levied and the amount of instructional support income surtax to be imposed by a district in accordance with the decision of the board under section 257.19 for each school year for which the instructional support program is authorized. The department of management shall determine these amounts based upon the most recent figures available for the district’s valuation of taxable property, individual state income tax paid, and budget enrollment in the district, and shall certify to the district’s county auditor the amount of instructional support property tax, and to the director of revenue the amount of instructional support income surtax to be imposed if an instructional support income surtax is to be imposed.

The instructional support income surtax shall be imposed on the state individual income tax for the calendar year during which the school’s budget year begins, or for a taxpayer’s fiscal year ending during the second half of that calendar year and after the date the board adopts a resolution to participate in the program or the first half of the succeeding calendar year, and shall be imposed on all individuals residing in the school district on the last day of the applicable tax year. As used in this section, “state individual income tax” means the taxes computed under section 422.5, less the amounts of nonrefundable credits allowed under chapter 422, division II.

257.24 Deposit of instructional support income surtax.
The director of revenue shall deposit all moneys received as instructional support income surtax to the credit of each district from which the moneys are received, in the school district income surtax fund which is established in section 298.14.

The director of revenue shall deposit instructional support income surtax moneys received on or before November 1 of the year following the close of the school budget year for which the surtax is imposed to the credit of each district from which the moneys are received in the school district income surtax fund.

Instructional support income surtax moneys received or refunded after November 1 of the year following the close of the school budget year for which the surtax is imposed shall be deposited in or withdrawn from the general fund of the state and shall be considered part of the cost of administering the instructional support income surtax.

257.25 Instructional support income surtax certification.
On or before October 20 each year, the director of revenue shall make an accounting of the instructional support income surtax collected under this chapter applicable to tax returns for the last preceding calendar year, or for a taxpayer’s fiscal year ending during the second half of that calendar year and after the date the board adopts a resolution to participate in the program, or the first half of the succeeding calendar year, from taxpayers in each school district in the state which has approved the instructional support program, and shall certify to the department of management and the department of education the amount of total instructional support income surtax credited from the taxpayers of each school district.

257.26 Instructional support income surtax distribution.
The director of the department of administrative services shall draw warrants in payment of the amount of instructional support surtax in the manner provided in section 298.14.

257.27 Continuation of instructional support program.
At the expiration of the period for which the instructional support program was adopted, the program may be extended for a period of not exceeding five or ten years in the manner provided in section 257.18.

If the voters do not approve adoption of the instructional support program, the board shall wait at least one hundred twenty days following the election before taking action to adopt the program or resubmit the proposition.

89 Acts, ch 135, §27

257.28 Enrichment levy.
If a school district has approved the use of the instructional support program for a budget year, the district shall not also collect moneys under the additional enrichment amount approved by the voters under chapter 442, Code 1991, for the budget year.

257.29 Educational improvement program.
1. An educational improvement program is established to provide additional funding for
school districts in which the regular program district cost per pupil for a budget year is one hundred ten percent of the regular program state cost per pupil for the budget year and which have approved the use of the instructional support program established in section 257.18. A board of directors that wishes to consider participating in the educational improvement program shall hold a hearing on the question of participation and the maximum percent of the regular program district cost of the district that will be used. The hearing shall be held in the manner provided in section 257.18 for the instructional support program. Following the hearing, the board may direct the county commissioner of elections to submit the question to the registered voters of the school district at an election held on a date specified in section 39.2, subsection 4, paragraph "c". If a majority of those voting on the question favors participation in the program, the board shall adopt a resolution to participate and shall certify the results of the election to the department of management and the district shall participate in the program. If a majority of those voting on the question does not favor participation, the district shall not participate in the program.

2. The educational improvement program shall provide additional revenues each fiscal year equal to a specified percent of the regular program district cost of the district, as determined by the board but not more than the maximum percent authorized by the electors if an election has been held. Certification of a district's participation for a budget year, the method of funding, and the amount to be raised shall be made to the department of management not later than April 15 of the base year.

3. The educational improvement program shall be funded by either an educational improvement property tax or by a combination of an educational improvement property tax and an educational improvement income surtax. The method of raising the educational improvement moneys shall be determined by the board. Subject to the limitation in section 298.14, if the board uses a combination of an educational improvement property tax and an educational improvement income surtax, the board shall determine the percent of income surtax to be imposed, expressed as full percentage points, not to exceed twenty percent.

4. The department of management shall establish the amount of the educational improvement property tax to be levied or the amount of the combination of the educational improvement property tax to be levied and the amount of the school district income surtax to be imposed for each school year that the educational improvement amount is authorized. The educational improvement property tax and income surtax, if an income surtax is imposed, shall be levied and imposed, collected, and paid to the school district in the manner provided for the instructional support program in sections 257.21 through 257.26. Moneys received by a school district under the educational improvement program are miscellaneous income.

5. Once approved at an election, the authority of the board to use the educational improvement program shall continue until the board votes to rescind the educational improvement program or the voters of the school district by majority vote order the discontinuance of the program. The board shall submit at an election held on a date specified in section 39.2, subsection 4, paragraph "c", the proposition whether to discontinue the program upon the receipt of a petition signed by not less than one hundred eligible electors or thirty percent of the number of electors voting at the last preceding school election, whichever is greater.

6. Participation in an educational improvement program is not affected by a change in the boundaries of the school district, except as otherwise provided in this section. If each school district involved in school reorganization under chapter 275 has approved an educational improvement program, and if the voters have not voted upon the question of participation in the program in the reorganized district, the educational improvement program shall be in effect for the reorganized district that has been approved for the least amount and the shortest time in any of the districts.

7. Notwithstanding the requirement in subsection 1 that the regular program district cost per pupil for a budget year is one hundred ten percent of the regular state cost per pupil, the board of directors may participate in the educational improvement program as provided in this section if the school district had adopted an enrichment levy of fifteen percent of the state cost per pupil multiplied by the budget enrollment in the district prior to July 1, 1992, and
upon expiration of the period for which the enrichment levy was adopted, adopts a resolution for the use of the instructional support program established in section 257.18. The maximum percent of the regular district cost of the district that may be used under this subsection shall not exceed five percent.

Limit on total surtax, §298.14

department of education for the use of the school budget review committee for the purposes
of this subsection. The school budget review committee shall review a school district’s
unexpended fund balance prior to any decision regarding unusual finance circumstances.
Such aid shall be miscellaneous income and shall not be included in district cost. In addition
to or as an alternative to granting supplemental aid the committee may establish a modified

10. All decisions by the committee under this chapter shall be made in accordance with reasonable and uniform policies which shall be consistent with this chapter. All such policies of general application shall be stated in rules adopted in accordance with chapter 17A. The committee shall take into account the intent of this chapter to equalize educational opportunity, to provide a good education for all the children of Iowa, to provide property tax relief, to decrease the percentage of school costs paid from property taxes, and to provide reasonable control of school costs. The committee shall also take into account the amount of funds available.

11. Failure by any school district to provide information or appear before the committee as requested for the accomplishment of review or hearing is justification for the committee to instruct the director of the department of management to withhold any state aid to that district until the committee's inquiries are satisfied completely.

12. The committee shall review the recommendations of the director of the department of education relating to the special education weighting plan, and shall establish a weighting plan for each school year pursuant to section 256B.9, and report the plan to the director of the department of education.

13. The committee may recommend that two or more school districts jointly employ and share the services of any school personnel, or acquire and share the use of classrooms, laboratories, equipment, and facilities as specified in section 280.15.

14. As soon as possible following June 30 of the base year, the school budget review committee shall determine for each school district the balance of funds, whether positive or negative, raised for special education instruction programs under the special education weighting plan established in section 256B.9. The committee shall certify the balance of funds for each school district to the director of the department of management.

a. If the amount certified for a school district to the director of the department of management under this subsection for the base year is positive, the director of the department of management shall subtract the amount of the positive balance exceeding ten percent of the additional funds generated for special education, not to include any previous carryover, from the amount of state aid remaining to be paid to the district during the budget year. If the positive amount exceeding the ten percent amount exceeds the amount of state aid that remains to be paid to the district, not including any previous carryover, the school district shall pay the excess on a quarterly basis prior to June 30 of the budget year to the director of the department of management from other funds received by the district. The director of the department of management shall determine the amount of the positive balance that exceeds the ten percent amount that came from local property tax revenues and shall increase the district's total state school aids available under this chapter for the next following budget year by the amount so determined and shall reduce the district's tax levy
computed under section 257.4 for the next following budget year by the amount necessary to compensate for the increased state aid.

b. (1) If the amount certified for a school district to the director of the department of management under this subsection for the base year is negative, the director of the department of management shall determine the amount of the deficit that would have been state aid and the amount that would have been property taxes for each eligible school district.

(2) There is appropriated from the general fund of the state to the school budget review committee for each fiscal year an amount equal to the state aid portion of five percent of the receipts for special education instruction programs in all districts that has a positive balance determined under paragraph “a” for the base year, or the state aid portion of all of the positive balances determined under paragraph “a” for the base year, whichever is less, to be used for supplemental aid payments to school districts. Except as otherwise provided in this lettered paragraph, supplemental aid paid to a district is equal to the state aid portion of the district’s negative balance. The school budget review committee shall direct the director of the department of management to make the payments to school districts under this lettered paragraph.

(3) A school district is only eligible to receive supplemental aid payments during the budget year if the school district certifies to the school budget review committee that for the year following the budget year it will notify the school budget review committee to instruct the director of the department of management to increase the district’s allowable growth and will fund the allowable growth increase either by using moneys from its unexpended fund balance to reduce the district’s property tax levy or by using cash reserve moneys to equal the amount of the deficit that would have been property taxes and any part of the state aid portion of the deficit not received as supplemental aid under this subsection. The director of the department of management shall make the necessary adjustments to the school district’s budget to provide the modified allowable growth and shall make the supplemental aid payments.

(4) If the amount appropriated under this lettered paragraph is insufficient to make the supplemental aid payments under this subsection, the director of the department of management shall prorate the payments on the basis of the amount appropriated.

15. Annually the school budget review committee shall review the amount of property tax levied by each school district for the cash reserve authorized in section 298.10. If in the committee’s judgment, the amount of a district’s cash reserve levy is unreasonably high, the committee shall instruct the director of the department of management to reduce that district’s tax levy computed under section 257.4 for the following budget year by the amount the cash reserve levy is deemed excessive. A reduction in a district’s property tax levy for a budget year under this subsection does not affect the district’s authorized budget.

16. The committee shall perform the duties assigned to it under sections 257.32 and 260C.18B.

17. a. If a district’s average transportation costs per pupil exceed the state average transportation costs per pupil determined under paragraph “c” by one hundred fifty percent, the committee may grant transportation assistance aid to the district. Such aid shall be miscellaneous income and shall not be included in district cost.

b. To be eligible for transportation assistance aid, a school district shall annually certify its actual cost for all children transported in all school buses not later than July 31 after each school year on forms prescribed by the committee.

c. A district’s average transportation costs per pupil shall be determined by dividing the district’s actual cost for all children transported in all school buses for a school year pursuant to section 285.1, subsection 12, less the amount received for transporting nonpublic school pupils under section 285.1, by the district’s average enrollment for the school year excluding the shared-time enrollment for the school year as defined in section 257.6. The state average transportation costs per pupil shall be determined by dividing the total actual costs for all children transported in all districts for a school year, by the total of all districts’ actual enrollments for the school year.

d. Funds transferred to the committee in accordance with section 321.34, subsection
22, are appropriated to and may be expended for the purposes of the committee, as described in this section. However, highest priority shall be given to districts that meet the conditions described in this subsection. Notwithstanding any other provision of the Code, unencumbered or unobligated funds transferred to the committee pursuant to section 321.34, subsection 22, remaining on June 30 of the fiscal year for which the funds were transferred, shall not revert but shall be available for expenditure for the purposes of this subsection in subsequent fiscal years.

18. If a school district exceeds its authorized budget or carries a negative unspent balance for two or more consecutive years, the committee may recommend that the department implement a phase II on-site visit to conduct a fiscal review pursuant to section 256.11, subsection 10, paragraph “b”, subparagraph (1), subparagraph division (e).

257.32 Area education budget review.

1. a. An area education agency budget review procedure is established for the school budget review committee created in section 257.30. The school budget review committee, in addition to its duties under section 257.31, shall meet and hold hearings each year to review unusual circumstances of area education agencies, either upon the committee’s motion or upon the request of an area education agency. The committee may grant supplemental aid to the area education agency from funds appropriated to the department of education for area education agency budget review purposes, or an amount may be added to the area education agency special education support services allowable growth for districts in an area or an additional amount may be added to district cost for media services or educational services for all districts in an area for the budget year either on a temporary or permanent basis, or both.

b. Unusual circumstances shall include but are not limited to the following:

(1) An unusual increase or decrease in enrollment of children requiring special education or unusual need for additional moneys for special education support services.

(2) Unusual need for additional moneys for media services.

(3) Unusual need for additional moneys for educational services.

(4) Unusual costs for building repair, building maintenance, or removal of environmental hazards.

(5) Participation by the area education agency in telecommunications, electronic, and technological development with school districts, and related staff development programs.

2. When the school budget review committee makes a decision under subsection 1, it shall provide written notice of its decision, including all changes, to the board of directors of the area education agency, and to the department of management and the department of education.

3. All decisions by the school budget review committee under this section shall be made in accordance with reasonable and uniform policies which shall be consistent with this chapter.

4. Failure by an area education agency to provide information or appear before the school budget review committee as requested for the accomplishment of review or hearing constitutes justification for the committee to instruct the department of administrative services to withhold payments for the area education agency until the committee’s inquiries are satisfied completely.

Subsection 1 internally redesignated pursuant to Code editor directive
257.33 Prior enrichment approval.
If the electors of a school district approved the use of the additional enrichment amount prior to July 1, 1991, under chapter 442, Code 1991, or section 279.43, Code 1991, the approval for use of the enrichment amount shall continue in effect until the expiration of the period for which it was approved and districts may use the additional enrichment amount during that period. However, section 257.28 applies to the use of the additional enrichment amount.
Use of the additional enrichment amounts approved under chapter 442, Code 1991, is not affected by a change in the boundaries of the school district, except as otherwise provided in this section. If each school district involved in a school reorganization under chapter 275 has approved the use of the additional enrichment amount, and if the voters have not voted upon the question of participation in the instructional support program in the reorganized district, the use of the additional enrichment amount shall be in effect for the reorganized district that has been approved for the least amount and the shortest time in any of the districts.

257.34 Cash reserve information.
If a school district receives less state school foundation aid under section 257.1 than is due under that section for a base year and the school district uses funds from its cash reserve during the base year to make up for the amount of state aid not paid, the board of directors of the school district shall include in its general fund budget document information about the amount of the cash reserve used to replace state school foundation aid not paid.

1. The department of management shall deduct the amounts calculated for special education support services, media services, area education agency teacher salary supplement district cost, area education agency professional development supplement district cost, and educational services for each school district from the state aid due to the district pursuant to this chapter and shall pay the amounts to the respective area education agencies on a monthly basis from September 15 through June 15 during each school year. The department of management shall notify each school district of the amount of state aid deducted for these purposes and the balance of state aid shall be paid to the district. If a district does not qualify for state aid under this chapter in an amount sufficient to cover its amount due to the area education agency as calculated by the department of management, the school district shall pay the deficiency to the area education agency from other moneys received by the district, on a quarterly basis during each school year.
2. Notwithstanding subsection 1, the state aid for area education agencies and the portion of the combined district cost calculated for these agencies for the fiscal year beginning July 1, 2002, and each succeeding fiscal year, shall be reduced by the department of management by seven million five hundred thousand dollars. The reduction for each area education agency shall be equal to the reduction that the agency received in the fiscal year beginning July 1, 2001.
3. Notwithstanding subsection 1, and in addition to the reduction applicable pursuant to subsection 2, the state aid for area education agencies and the portion of the combined district cost calculated for these agencies for the fiscal year beginning July 1, 2003, and ending June 30, 2004, shall be reduced by the department of management by ten million dollars. The department shall calculate a reduction such that each area education agency shall receive a reduction proportionate to the amount that it would otherwise have received under this section if the reduction imposed pursuant to this subsection did not apply.
4. Notwithstanding subsection 1, and in addition to the reduction applicable pursuant to subsection 2, the state aid for area education agencies and the portion of the combined district cost calculated for these agencies for the fiscal year beginning July 1, 2007, shall be reduced by the department of management by five million two hundred fifty thousand dollars. The reduction for each area education agency shall be prorated based on the reduction that the agency received in the fiscal year beginning July 1, 2003.

subsection 2, the state aid for area education agencies and the portion of the combined district cost calculated for these agencies for each fiscal year of the fiscal period beginning July 1, 2008, and ending June 30, 2011, shall be reduced by the department of management by two million five hundred thousand dollars. The reduction for each area education agency for each fiscal year of the fiscal period beginning July 1, 2008, and ending June 30, 2011, shall be prorated based on the reduction that the agency received in the fiscal year beginning July 1, 2003.

Subsection 5 amended

257.36 Special education support services balances.
Notwithstanding chapters 256B and 273 and sections of this chapter relating to the moneys available to area education agencies for special education support services, for each school year, the department of education may direct the department of management to deduct amounts from the portions of school district budgets that fund special education support services in an area education agency. The total amount deducted in an area shall be based upon excess special education support services unreserved and undesignated fund balances in that area education agency for a school year as determined by the department of education. The department of management shall determine the amount deducted from each school district in an area education agency on a proportional basis. The department of management shall determine from the amounts deducted from the portions of school district budgets that fund area education agency special education support services the amount that would have been local property taxes and the amount that would have been state aid and for the next following budget year shall increase the district’s total state school aid available under this chapter for area education agency special education support services and reduce the district’s property tax levy for area education agency special education support services by the amount necessary for the property tax portion of the deductions made under this section during the budget year.

The amount deducted from a school district’s budget shall not affect the calculation of the state cost per pupil or its district cost per pupil in that school year or a subsequent year.

89 Acts, ch 135, §36

257.37 Funding media and educational services.
Media services and educational services provided through the area education agencies shall be funded, to the extent provided, by an addition to the combined district cost of each school district, determined as follows:

1. For the budget year beginning July 1, 1991, and succeeding budget years, the total amount funded in each area for media services shall be computed as provided in this subsection. For the budget year beginning July 1, 1991, the total amount funded in each area for media services in the base year, including the cost for media resource material which shall only be used for the purchase or replacement of material required in section 273.6, subsection 1, paragraphs “a”, “b”, and “c”, shall be divided by the enrollment served in the base year to provide an area media services cost per pupil in the base year, and the department of management shall compute the state media services cost per pupil in the base year which is equal to the average of the area media services costs per pupil in the base year. For the budget year beginning July 1, 1991, and succeeding budget years, the department of
management shall compute the allowable growth for media services in the budget year by multiplying the state media services cost per pupil in the base year times the state percent of growth for the budget year, and the total amount funded in each area for media services cost in the budget year equals the area media services cost per pupil in the base year plus the allowable growth for media services in the budget year times the enrollment served in the budget year. Funds shall be paid to area education agencies as provided in section 257.35.

2. Thirty percent of the budget of an area for media services shall be expended for media resource material which shall only be used for the purchase or replacement of material required in section 273.6, subsection 1. Funds shall be paid to area education agencies as provided in section 257.35.

3. For the budget year beginning July 1, 1991, and succeeding budget years, the total amount funded in each area for educational services shall be computed as provided in this subsection. For the budget year beginning July 1, 1991, the total amount funded in each area for educational services in the base year shall be divided by the enrollment served in the area in the base year to provide an area educational services cost per pupil in the base year, and the department of management shall compute the state educational services cost per pupil in the base year, which is equal to the average of the area educational services costs per pupil in the base year. For the budget year beginning July 1, 1991, and succeeding budget years, the department of management shall compute the allowable growth for educational services by multiplying the state educational services cost per pupil in the base year times the state percent of growth for the budget year, and the total amount funded in each area for educational services for the budget year equals the area educational services cost per pupil for the base year plus the allowable growth for educational services in the budget year times the enrollment served in the area in the budget year. Funds shall be paid to area education agencies as provided in section 257.35.

4. “Enrollment served” means the basic enrollment plus the number of nonpublic school pupils served with media services or educational services, as applicable, except that if a nonpublic school pupil or a pupil attending another district under a whole grade sharing agreement or open enrollment receives services through an area other than the area of the pupil’s residence, the pupil shall be deemed to be served by the area of the pupil’s residence, which shall be by contractual arrangement reimburse the area through which the pupil actually receives services. Each school district shall include in the enrollment report submitted pursuant to section 257.6, subsection 1, the number of nonpublic school pupils within each school district for media and educational services served by the area.

5. a. If an area education agency does not serve nonpublic school pupils in a manner comparable to services provided public school pupils for media and educational services, as determined by the state board of education, the state board shall instruct the department of management to reduce the funds for media services and educational services one time by an amount to compensate for such reduced services. The media services budget shall be reduced by an amount equal to the product of the cost per pupil in basic enrollment for the budget year for media services times the difference between the enrollment served and the basic enrollment recorded for the area. The educational services budget shall be reduced by an amount equal to the product of the cost per pupil in basic enrollment for the budget year for educational services times the difference between the enrollment served and the basic enrollment recorded for the area.

b. This subsection applies only to media and educational services which cannot be diverted for religious purposes.

c. Notwithstanding this subsection, an area education agency shall distribute to nonpublic schools media materials purchased wholly or partially with federal funds in a manner comparable to the distribution of such media materials to public schools as determined by the director of the department of education.

6. For the budget year beginning July 1, 2002, and each succeeding budget year, notwithstanding the requirements of this section for determining the budgets and funding of media services and education services, an area education agency may, within the limits of the total of the funds provided for the budget years pursuant to section 257.35, expend for special education support services an amount that exceeds the payment for special education
support services pursuant to section 257.35 in order to maintain the level of required special education support services in the area education agency.

Subsection 5 internally redesignated pursuant to Code editor directive

### 257.37A Area education agency salary supplement funding.

1. **Area education agency teacher salary supplement cost per pupil and district cost.**

For the budget year beginning July 1, 2010, and succeeding budget years, the area education agency teacher salary supplement district cost per pupil for each area education agency for a budget year is the area education agency teacher salary supplement district cost per pupil for the base year plus the area education agency teacher salary supplement state allowable growth amount for the budget year.
   b. For the budget year beginning July 1, 2010, and succeeding budget years, if the department of management determines that the unadjusted area education agency teacher salary supplement district cost of an area education agency for a budget year is less than one hundred percent of the unadjusted area education agency teacher salary supplement district cost for the base year for the area education agency, the area education agency shall receive a budget adjustment for that budget year equal to the difference.
   c. (1) The unadjusted area education agency teacher salary supplement district cost is the area education agency teacher salary supplement district cost per pupil for each area education agency for a budget year multiplied by the special education support services weighted enrollment for that area education agency.
   (2) The total area education agency teacher salary supplement district cost is the sum of the unadjusted area education agency teacher salary supplement district cost plus the budget adjustment for that budget year.
   d. For the budget year beginning July 1, 2009, the use of the funds calculated under this subsection shall comply with requirements of chapter 284 and shall be distributed to teachers pursuant to section 284.3A. For the budget year beginning July 1, 2010, and succeeding budget years, the area education agency professional development supplement district cost per pupil for each area education agency for a budget year is the area education agency professional development supplement district cost per pupil for the base year plus the area education agency professional development supplement state allowable growth amount for the budget year.
   b. For the budget year beginning July 1, 2010, and succeeding budget years, if the department of management determines that the unadjusted area education agency professional development supplement district cost of an area education agency for a budget year is less than one hundred percent of the unadjusted area education agency professional development supplement district cost for the base year for the area education agency, the
area education agency shall receive a budget adjustment for that budget year equal to the difference.

c. (1) The unadjusted area education agency professional development supplement district cost is the area education agency professional development supplement district cost per pupil for each area education agency for a budget year multiplied by the special education support services weighted enrollment for that area education agency.

(2) The total area education agency professional development supplement district cost is the sum of the unadjusted area education agency professional development supplement district cost plus the budget adjustment for that budget year.

d. The use of the funds calculated under this subsection shall comply with requirements of chapter 284.

ADVANCE FUNDING AUTHORITY

Iowa advance funding authority is included in the department of education; §7E.7, chapter 256

See §421.7 pertaining to interest rates

257C.2 Legislative findings.
The general assembly finds as follows:
1. The establishment of the authority is in all respects for the benefit of the people of the state of Iowa and the improvement of the financing procedures for Iowa’s schools.
2. The authority will be performing an essential governmental function in the exercise of the powers and duties conferred upon it by this chapter.
3. Iowa schools face a serious and increasing problem with cash flow difficulties caused, among other factors, by increasing reliance on state school foundation aid, delays in the payment of state school foundation aid, and the periodic payment of property taxes for school purposes.
4. As a result of their increasing cash flow difficulties, Iowa schools have had to borrow on a short-term basis larger amounts of funds more often, thus increasing their borrowing costs significantly.
5. The short-term borrowing costs of Iowa schools are a direct burden on the taxpayers of the state.
6. It is necessary to create the authority to provide a means for Iowa schools to reduce substantially or eliminate their short-term borrowing costs and thus reduce costs to the taxpayers.
7. All of the purposes stated in this section are public purposes and uses for which public moneys may be borrowed, expended, advanced, loaned or granted.

258.17  Community-based workplace learning program — workstart.
   1. A community-based workplace learning program, called “workstart”, is established as a voluntary collaborative educational program between business and Iowa’s secondary and postsecondary education system designed to provide the means by which students can be better prepared to enter the workforce. The program is to provide all participating high school students with academic skills and appropriate competency-based job-specific skills needed to enter high performance workplace employment through a jointly planned and supervised instructional and worksite-based training program that is articulated with postsecondary advanced programs of preparation, United States department of labor-approved apprenticeship programs, and other appropriate job training programs. Schools and school districts are encouraged to work with current employers of students attending instruction in the schools or school districts in order to articulate educational programming with the work experiences of the students. The workstart program is designed to prepare students for employment in occupations which not only require high skill levels but which also offer students opportunities within those occupations for career and personal advancement.
   2. a. Each school or school district that desires to establish a workstart program shall appoint a local employment and training council, the members of which shall serve at the pleasure of the board of directors of the district or the authorities in charge of the nonpublic school. The majority of the council members shall be local secondary and postsecondary educators. Other council members shall include, but are not limited to, members of the business community and chamber of commerce, appropriate labor representatives, parents, and representatives from any local municipal, county, state, or federal job placement or training agencies. The council shall identify and assess all of the following:
      (1) The types of high performance workplace employment opportunities for individuals who live in the community.
§258.17, VOCATIONAL EDUCATION

(2) The skills, knowledge, and attitudes required by employers for placement in entry level and advanced positions.

(3) The private and institutional resources necessary and available to provide the appropriate high school training and advanced educational offerings for persons seeking to acquire job skills for the positions.

b. The council, in identifying and assessing high performance workplace employment opportunities, shall consult with local and regional job placement organizations and take into consideration possible job placement trends and opportunities that may become available to program participants. The council shall consult with the vocational regional planning board or consortia to determine what educational resources are available within the merged area and to ascertain the occupational needs of local students. The council shall summarize those jobs, skills, and resources identified and assessed and develop a proposed plan for utilization of available resources to permit the acquisition of those skills in a workstart program. In addition to any agreements with local businesses, the proposed plan for a workstart program shall include an articulated, sequential plan that coordinates and complements the curricula and training available in a secondary education setting with the curricula and training available at the community or private college or other postsecondary training program level. The council shall forward the proposed plan for a workstart program to the board of directors of the school district, or the authorities in charge of the nonpublic school, for review, modification, and approval.

3. a. Each workstart program shall consist of two phases, each of which shall be supervised by an appropriately licensed education practitioner: the preparation phase and the workplace phase.

(1) The preparation phase of a workstart program is a school-based program that provides students with basic and advanced academic skills that will be necessary to perform in a vocational service area chosen by the student. The preparation phase shall also include instruction in skills that are necessary to succeed in high performance workplace employment. The preparation phase of a workstart program shall be directed by education practitioners possessing the appropriate licensing and endorsements for the vocational service area.

(2) The workplace phase of a workstart program shall consist of an intensive workplace-specific training program that may be conducted at a worksite and in the school setting. The workplace phase of a workstart program shall be coordinated by an education practitioner possessing the appropriate license and endorsements for the vocational service area, and may be directed at the worksite by persons employed in the occupational training area which has been selected by the student.

b. Both the preparation and workplace phases shall be articulated with United States department of labor-approved apprenticeship programs and other postsecondary educational and training offerings that permit participating students to obtain advanced training and education that may be necessary upon graduation from the workstart secondary education program or to obtain an advancement in an occupational field chosen by the student during the student’s participation in a workstart secondary education program.

4. Each workstart program shall include a written agreement by the school or school district with one or more businesses from the surrounding community to provide workplace-specific training and learning programs which are related to the skills needed to succeed in those occupational areas. The proposed plan for implementation of the workstart program shall include a copy of the written agreement between the school or school district and the business or businesses and a business support component, which shall consist of financial or in-kind support, or both financial and in-kind support, from the businesses that have entered into the agreement with the school or school district.

5. The state board of education shall adopt rules pursuant to chapter 17A to provide for the implementation of this section.

6. The department of education shall adopt guidelines for the establishment of workstart programs. Guidelines may include, but are not limited to, acceptable levels of business financial participation in a workstart program, maximum hour and workload guidelines for education practitioners working in or supervising a workstart program, and maximum and
minimum class size guidelines for the preparation and workplace phases of a workstart program.

7. A school or local school district that implements a workstart program shall annually conduct a survey which counts the number of students who participate in, or graduate from, the program that are actually employed in an occupational area for which they received training. The school or school district shall disseminate the results of the surveys to the local employment and training councils for the school or school district and the department of education.

260C.14 Authority of directors.
The board of directors of each community college shall:
1. Determine the curriculum to be offered in such school or college subject to approval of the director and ensure that all vocational offerings are competency-based, provide any minimum competencies required by the department of education, comply with any applicable requirements in chapter 258, and are articulated with local school district vocational education programs. If an existing private educational or vocational institution within the merged area has facilities and curriculum of adequate size and quality which would duplicate the functions of the area school, the board of directors shall discuss with the institution the possibility of entering into contracts to have the existing institution offer facilities and curriculum to students of the merged area. The board of directors shall consider any proposals submitted by the private institution for providing such facilities and curriculum. The board of directors may enter into such contracts. In approving curriculum, the director shall ascertain that all courses and programs submitted for approval are needed and that the curriculum being offered by an area school does not duplicate programs provided by existing public or private facilities in the area. In determining whether duplication would actually exist, the director shall consider the needs of the area and consider whether the proposed programs are competitive as to size, quality, tuition, purposes, and area coverage with existing public and private educational or vocational institutions within the merged area. If the board of directors of the merged area chooses not to enter into contracts with private institutions under this subsection, the board shall submit a list of reasons why contracts to avoid duplication were not entered into and an economic impact statement relating to the board’s decision.
2. Have authority to determine tuition rates for instruction. Tuition for residents of Iowa shall not exceed the lowest tuition rate per semester, or the equivalent, charged by an institution of higher education under the state board of regents for a full-time resident student. However, except for students enrolled under section 261E.6, if a local school district pays tuition for a resident pupil of high school age, the limitation on tuition for residents of Iowa shall not apply, the amount of tuition shall be determined by the board of directors of
the community college with the consent of the local school board, and the pupil shall not be included in the full-time equivalent enrollment of the community college for the purpose of computing general aid to the community college. Tuition for nonresidents of Iowa shall not be less than the marginal cost of instruction of a student attending the college. A lower tuition for nonresidents may be permitted under a reciprocal tuition agreement between a merged area and an educational institution in another state, if the agreement is approved by the director. The board may designate that a portion of the tuition moneys collected from students be used for student aid purposes.

3. Have the powers and duties with respect to community colleges, not otherwise provided in this chapter, which are prescribed for boards of directors of local school districts by chapter 279 except that the board of directors is not required to prohibit the use of tobacco and the use or possession of alcoholic liquor or beer by any student of legal age under the provisions of section 279.9.

4. Have the power to enter into contracts and take other necessary action to insure a sufficient curriculum and efficient operation and management of the college and maintain and protect the physical plant, equipment, and other property of the college.

5. Establish policy and make rules, not inconsistent with law and administrative rules, regulations, and policies of the state board, for its own government and that of the administrative, teaching, and other personnel, and the students of the college, and aid in the enforcement of such laws, rules, and regulations.

6. Have authority to sell a student-constructed building and the property on which the student-constructed building is located or any article resulting from any vocational program or course offered at a community college by any procedure which may be adopted by the board. Governmental agencies and governmental subdivisions of the state within the merged areas shall be given preference in the purchase of such articles. All revenue received from the sale of any article shall be credited to the funds of the board of the merged area.

7. With the consent of the inventor, and in the discretion of the board, secure letters patent or copyright on inventions of students, instructors, and officials of any community college of the merged area, or take assignment of such letters patent or copyright and make all necessary expenditures in regard thereto. Letters patent or copyright on inventions when so secured shall be the property of the board of the merged area and the royalties and earnings thereon shall be credited to the funds of the board.

8. Set the salary of the area superintendent. In setting the salary, the board shall consider the salaries of administrators of educational institutions in the merged area and the enrollment of the community college.

The board may establish a plan, in accordance with section 403(b) of the Internal Revenue Code, as defined in section 422.3, for employees, which plan shall consist of one or more investment contracts, on a group or individual basis, acquired from a company, or a salesperson for that company, that is authorized to do business in this state.

b. The selection of investment contracts to be included within the plan established by the board shall be made either pursuant to a competitive bidding process conducted by the board, in coordination with employee organizations representing employees eligible to participate in the plan, or pursuant to an agreement with the department of administrative services to make available investment contracts included in a deferred compensation or similar plan established by the department pursuant to section 8A.438, which plan meets the requirements of this subsection. The determination of whether to select investment contracts for the plan pursuant to a competitive bidding process or by agreement with the department of administrative services shall be made by agreement between the board and the employee organizations representing employees eligible to participate in the plan.

c. The board may make elective deferrals in accordance with the plan as authorized by an eligible employee for the purpose of making contributions to an investment contract in the plan on behalf of the employee. The deferrals shall be made in the manner which will qualify contributions to the investment contract for the benefits under section 403(b) of the Internal Revenue Code, as defined in section 422.3. In addition, the board may make nonelective employer contributions to the plan.

d. As used in this subsection, unless the context otherwise requires, “investment contract”

   b. Rules made under this subsection may be enforced under procedures adopted by the board of directors. Penalties may be imposed upon students, faculty, and staff for violation of the rules, including but not limited to a reasonable monetary penalty which may be deducted from student deposits and faculty or staff salaries or other funds in possession of the community college or added to student tuition bills. The rules made under this subsection may also be enforced by the impoundment of vehicles and bicycles parked in violation of the rules, and a reasonable fee may be charged for the cost of impoundment and storage prior to the release of the vehicle or bicycle to the owner. Each community college shall establish procedures for the determination of controversies in connection with the imposition of penalties. The procedures shall require giving notice of the violation and the penalty prescribed and providing the opportunity for an administrative hearing.

11. Be authorized to issue to employees of community colleges school credit cards to use for payment of authorized expenditures incurred in the performance of work-related duties.

a. If the inflation rate is equal to two percent or less:

   (1) Base funding allocation. The moneys shall first be allocated in the amount of general state financial aid each community college received in the base year. If the appropriation is less than the total of the amount of general state financial aid each community college received in the base year, the moneys shall be allocated in the same proportion as the allocation of general state financial aid each community college received in the base year.

   (2) Marginal cost adjustment. After the base funding has been allocated, each community college shall be allocated up to an additional two percent of its base funding allocation. The community college’s allocation shall be in the same proportion as the allocation of general state financial aid each community college received in the base year.

   (3) Three-year rolling average of full-time equivalent enrollment. If the increase in the total state general aid exceeds two percent over the base funding allocation, an amount up to
an additional one percent of the base funding allocation shall be distributed based upon each community college’s proportional share of the three-year rolling average full-time equivalent enrollments for all community colleges.

(4) *Extraordinary growth adjustment.* If the increase in total state general aid exceeds three percent over the base funding allocation, an amount up to an additional one percent of the base funding allocation shall be distributed as follows:

(a) Forty percent of the moneys shall be allocated based upon each community college’s proportional share of the three-year rolling average full-time equivalent enrollments for all community colleges.

(b) Sixty percent of the moneys shall be allocated to community colleges that have eligible growth support. The allocation shall be based upon the proportional share that each community college’s eligible growth support bears to the total growth support amount. Once the moneys allocated under this subparagraph division equal the total growth support amount, the remaining moneys allocated under this subparagraph shall be allocated as provided in subparagraph division (a).

(5) *Additional three-year rolling average FTEE allocation.* If the increase in total state general aid exceeds four percent over the base funding allocation, all remaining moneys shall be distributed based upon each college’s proportional share of the three-year rolling average full-time equivalent enrollments for all community colleges.

b. If the inflation rate is greater than two percent but less than four percent:

1. *Base funding allocation.* The moneys shall first be allocated in the amount of general state financial aid each community college received in the base year. If the appropriation is less than the total of the amount of general state financial aid each community college received in the base year, the moneys shall be allocated in the same proportion as the allocation of general state financial aid each community college received in the base year.

2. *Marginal cost adjustment.* After the base funding has been allocated, each community college shall be allocated up to an additional two percent of its base funding allocation. The community college’s allocation shall be in the same proportion as the allocation of general state financial aid each community college received in the base year.

3. *Three-year rolling average of full-time equivalent enrollment.* If the increase in the total state general aid exceeds two percent over the base funding allocation, an amount up to an additional one percent of the base funding allocation shall be distributed based upon each community college’s proportional share of the three-year rolling average full-time equivalent enrollments for all community colleges.

(4) *Extraordinary growth adjustment.* If the increase in total state general aid exceeds three percent over the base funding allocation, an amount up to an additional one percent of the base funding allocation shall be distributed as follows:

(a) Forty percent of the moneys shall be allocated based upon each community college’s proportional share of the three-year rolling average full-time equivalent enrollments for all community colleges.

(b) Sixty percent of the moneys shall be allocated to community colleges that have eligible growth support. The allocation shall be based upon the proportional share that each community college’s eligible growth support bears to the total growth support amount. Once the moneys allocated under this subparagraph division equal the total growth support amount, the remaining moneys allocated under this subparagraph shall be allocated as provided in subparagraph division (a).

(5) *Inflation adjustment.* If the increase in total state general aid exceeds four percent over the base funding allocation, an amount up to the inflation adjustment amount shall be distributed to each community college in the same proportion as the allocation of general state financial aid each community college received in the base year.

(6) *Additional three-year rolling average FTEE allocation.* If there are remaining moneys to be distributed under this paragraph after distributing moneys under subparagraph (5), all remaining moneys shall be distributed based upon each community college’s proportional share of the three-year rolling average full-time equivalent enrollments for all community colleges.

c. If the inflation rate equals or exceeds four percent:
(1) **Base funding allocation.** The moneys shall first be allocated in the amount of general state financial aid each community college received in the base year. If the appropriation is less than the total of the amount of general state financial aid each community college received in the base year, the moneys shall be allocated in the same proportion as the allocation of general state financial aid each community college received in the base year.

(2) **Marginal cost adjustment.** After the base funding has been allocated, each community college shall be allocated up to an additional two percent of its base funding allocation. The community college’s allocation shall be in the same proportion as the allocation of general state financial aid each community college received in the base year.

(3) **Three-year rolling average of full-time equivalent enrollment.** If the increase in the total state general aid exceeds two percent over the base funding allocation, an amount up to an additional one percent of the base funding allocation shall be distributed based upon each community college’s proportional share of the three-year rolling average full-time equivalent enrollments for all community colleges.

(4) **Inflation adjustment.** If the increase in total state general aid exceeds three percent over the base funding allocation, an amount up to the inflation adjustment amount shall be distributed to each community college in the same proportion as the allocation of general state financial aid each community college received in the base year.

(5) **Extraordinary growth adjustment.** If there are remaining moneys to be distributed under this paragraph after distributing moneys under subparagraph (4), an amount up to an additional one percent of the base funding allocation shall be based as follows:

(a) Forty percent of the moneys shall be allocated based upon each community college’s proportional share of the three-year rolling average full-time equivalent enrollments for all community colleges.

(b) Sixty percent of the moneys shall be allocated to community colleges that have eligible growth support. The allocation shall be based upon the proportional share that each community college’s eligible growth support bears to the total growth support amount. Once the moneys allocated under this subparagraph division equal the total growth support amount, the remaining moneys allocated under this subparagraph shall be allocated as provided in subparagraph division (a).

(6) **Additional three-year rolling average FTEE allocation.** If there are remaining moneys to be distributed under this paragraph after distributing moneys under subparagraph (5), all remaining moneys shall be distributed based upon each community college’s proportional share of the three-year rolling average full-time equivalent enrollments for all community colleges.

4. **Information supplied by colleges and adoption of rules.**
   a. Each community college shall provide information in the manner and form as determined by the department. If a community college fails to provide the information as requested, the department shall estimate the full-time equivalent enrollment of that college.
   b. Each community college shall complete and submit an annual student enrollment audit report to the department. Adjustments to community college state general aid allocations shall be made based on student enrollment audit outcomes.
   c. The department shall adopt rules under chapter 17A as necessary for the allocation of general state financial aid.

260C.18D Instructor salary distribution formula.

1. **Distribution formula.** Moneys appropriated by the general assembly to the department for community college instructor salaries shall be distributed among each community college based on the proportion that the number of full-time equivalent instructors employed by a community college bears to the sum of the number of full-time equivalent eligible instructors who are employed by all community colleges in the state for the base year. The state board shall define “eligible full-time equivalent instructor” by rule.

2. **Base funding allocation.** Moneys distributed to each community college under subsection 1 shall be included in the base funding allocation for all future years. The use of the funds shall remain as described in this section for all future years.
3. **Purposes supplemental.** Moneys appropriated and distributed to community colleges under this section shall be used to supplement and not supplant any approved faculty salary increases or negotiated agreements, excluding the distribution of the funds in this section.

4. **Eligible instructors.** Moneys distributed to a community college under this section shall be allocated to all full-time, nonadministrative instructors and part-time instructors covered by a collective bargaining agreement. The moneys shall be allocated by negotiated agreements according to chapter 20. If no language exists, the moneys shall be allocated equally to all full-time, nonadministrative instructors with part-time instructors covered by a collective bargaining agreement receiving a prorated share of the fund.

5. **Evenly divided payments.** A community college receiving funds distributed pursuant to this section shall determine the amount to be paid to instructors in accordance with subsection 4 and the amount determined to be paid to an individual instructor shall be divided evenly and paid in each pay period of the fiscal year.

6. **Reductions.** Moneys appropriated by the general assembly to the department for community college instructor salaries are not subject to a uniform reduction in accordance with section 8.31.

A certified copy of this resolution shall be filed with the county auditors of the counties in which such merged area is located, and the filing thereof shall make it a duty of such auditors to enter annually this levy for collection until funds are realized to repay the loan and interest thereon in full. Said loan must mature within the number of years for which the tax has been voted and shall bear interest at a rate or rates not exceeding that permitted by chapter 74A. Any loan agreement entered into pursuant to authority herein contained shall be in such form as the board of directors shall by resolution provide and the loan shall be payable as to both principal and interest from the proceeds of the annual levy of the voted tax hereinbefore authorized, or so much thereof as will be sufficient to pay the loan and interest thereon. In furtherance of the foregoing the board of directors of such merged area may, with or without notice, negotiate and enter into a loan agreement or agreements with any bank, investment banker, trust company, insurance company or group thereof, whereunder the borrowing of the necessary funds may be assured and consummated. The proceeds of such loan shall be deposited in a special fund, to be kept separate and apart from all other funds of the merged area, and shall be paid out upon warrants drawn by the president and secretary of the board of directors to pay the cost of acquiring the school facilities for which the tax was voted.

c. If the boundary lines of a merged area are changed, the levy of the annual tax provided in this section sufficient to pay the amount due for a loan agreement and the interest on the loan agreement to maturity shall continue in any territory severed from the merged area until the loan with interest on the loan has been paid in full.

d. Nothing herein contained shall be construed to limit the authority of the board of directors to levy the full amount of the voted tax, but if and to whatever extent said tax is levied in any year in excess of the amount of principal and interest falling due in such year under any loan agreement, the first available proceeds thereof, to an amount sufficient to meet maturing installments of principal and interest under the loan agreement, shall be paid into the sinking fund for such loan before any of such taxes are otherwise made available to the merged area for other school purposes, and the amount required to be annually set aside to pay the principal of and interest on the money borrowed under such loan agreement shall constitute a first charge upon all of the proceeds of such annual special voted tax, which tax shall be pledged to pay said loan and the interest thereon.

e. This law shall be construed as supplemental and in addition to existing statutory authority and as providing an independent method of financing the cost of acquiring school facilities for which a tax has been voted under this section and for the borrowing of money and execution of loan agreements in connection therewith and shall not be construed as subject to the provisions of any other law. The fact that a merged area may have previously borrowed money and entered into loan agreements under authority herein contained shall not prevent such merged area from borrowing additional money and entering into further loan agreements provided that the aggregate of the amount payable under all of such loan agreements does not exceed the proceeds of the voted tax. All acts and proceedings heretofore taken by the board of directors or by any official of any merged area for the exercise of any of the powers granted by this section are hereby legalized and validated in all respects.

2. The proceeds of the tax voted under subsection 1, paragraph "a", prior to July 1, 1987, shall be used for the purposes for which it was approved by the voters and may be used for the purpose of paying the costs of utilities.

3. a. In addition to the tax authorized under section 260C.17, the board of directors of an area school may certify for levy by March 15, 1982, and March 15, 1983, a tax on taxable property in the merged area at rates that will provide total revenues for the two years equal to five percent of the area school's general fund expenditures for the fiscal year ending June 30,
1980, in order to provide a cash reserve for that area school. As nearly as possible, one-half the revenue for the cash reserve fund shall be collected during each year.

b. The revenues derived from the levies shall be placed in a separate cash reserve fund. Moneys from the cash reserve fund shall only be used to alleviate temporary cash shortages. If moneys from the cash reserve fund are used to alleviate a temporary cash shortage, the cash reserve fund shall be reimbursed immediately from the general fund of the community college as funds in the general fund become available, but in no case later than June 30 of the current fiscal year, to repay the funds taken from the cash reserve fund.

4. a. The board of directors of any merged area that failed to certify for levy under subsection 3 by March 15, 1982, and March 15, 1983, may certify for levy by April 15, 1997, and April 15, 1998, a tax on taxable property in the merged area at rates that will provide total revenues for the two years equal to five percent of the area school’s general fund expenditures for the fiscal year ending June 30, 1995, in order to provide a cash reserve for that area school. As nearly as possible, one-half the revenue for the cash reserve fund shall be collected during each year.

b. The revenues derived from the levies shall be placed in a separate cash reserve fund. Notwithstanding subsection 3, moneys from the cash reserve fund established by a merged area under subsection 3 or this subsection shall be used only to alleviate temporary cash shortages. If moneys from the cash reserve fund are used to alleviate a temporary cash shortage, the cash reserve fund shall be reimbursed immediately from the general fund of the community college as funds in the general fund become available, but in no case later than June 30 of the current fiscal year, to repay the funds taken from the cash reserve fund.

2. However, the board of directors may annually certify for levy a tax on taxable property in the merged area at a rate in excess of the three cents per thousand dollars of assessed valuation specified under subsection 1 if the excess tax levied does not cause the total rate certified to exceed a rate of nine cents per thousand dollars of assessed valuation, and the excess revenue generated is used for purposes of program sharing between community colleges or for the purchase of instructional equipment. Programs that are shared shall be designed to increase student access to community college programs and to achieve efficiencies in program delivery at the community colleges, including, but not limited to, the programs described under section 260C.46. Prior to expenditure of the excess revenues generated under this subsection, the board of directors shall obtain the approval of the director of the department of education.
3. If the board of directors wishes to certify for a levy under subsection 2, the board shall direct the county commissioner of elections to submit the question of such authorization for the board at an election held on a date specified in section 39.2, subsection 4, paragraph “c”. If a majority of those voting on the question at the election favors authorization of the board to make such a levy, the board may certify for a levy as provided under subsection 2 during each of the ten years following the election. If a majority of those voting on the question at the election does not favor authorization of the board to make a levy under subsection 2, the board may submit the question to the voters again at an election held on a date specified in section 39.2, subsection 4, paragraph “c”.

260C.39 Combining merged areas — election.

1. Any merged area may combine with any adjacent merged area after a favorable vote by the electors of each of the areas involved. If the boards of directors of two or more merged areas agree to a combination, the question shall be submitted to the electors of each area at an election held on a date specified in section 39.2, subsection 4, paragraph “c”, and held
on the same day in each area. Prior to the election, the board of each merged area shall notify the county commissioner of elections of the county in which the greatest proportion of the merged area’s taxable base is located, who shall publish notice of the election according to section 49.53. The two respective county commissioners of elections shall conduct the election pursuant to the provisions of chapters 39 to 53. The votes cast in the election shall be canvassed by the county board of supervisors, and the county commissioner of elections of each county in the merged areas shall certify the results to the board of directors of each merged area.

2. If the vote is favorable in each merged area, the boards of each area shall proceed to transfer the assets, liabilities, and facilities of the areas to the combined merged area, and shall serve as the acting board of the combined merged area until a new board of directors is elected. The acting board shall submit to the director of the department of education a plan for redistricting the combined merged area, and upon receiving approval from the director, shall provide for the election of a director from each new district at the next regular school election. The directors elected from each new district shall determine their terms by lot so that the terms of one-third of the members, as nearly as may be, expire each year. Election of directors for the combined merged area shall follow the procedures established for election of directors of a merged area. A combined merged area is subject to all provisions of law and rules governing merged areas.

3. The terms of employment of personnel, for the academic year following the effective date of the agreement to combine the merged areas shall not be affected by the combination of the merged areas, except in accordance with the procedures under sections 279.15 to 279.18 and section 279.24, to the extent those procedures are applicable, or under the terms of the base bargaining agreement. The authority and responsibility to offer new contracts or to continue, modify, or terminate existing contracts pursuant to any applicable procedures under chapter 279, shall be transferred to the acting, and then to the new, board of the combined merged area upon certification of a favorable vote to each of the merged areas affected by the agreement. The collective bargaining agreement of the merged area receiving the greatest amount of general state aid shall serve as the base agreement for the combined merged area and the employees of the merged areas which combined to form the new combined merged area shall automatically be accreted to the bargaining unit from that former merged area for purposes of negotiating the contracts for the following years without further action by the public employment relations board. If only one collective bargaining agreement is in effect among the merged areas which are combining under this section, then that agreement shall serve as the base agreement, and the employees of the merged areas which are combining to form the new combined merged area shall automatically be accreted to the bargaining unit of that former merged area for purposes of negotiating the contracts for the following years without further action by the public employment relations board. The board of the combined merged area, using the base agreement as its existing contract, shall bargain with the combined employees of the merged areas that have agreed to combine for the academic year beginning with the effective date of the agreement to combine merged areas. The bargaining shall be completed by March 15 prior to the academic year in which the agreement to combine merged areas becomes effective or within one hundred eighty days after the organization of the acting board of the new combined merged area, whichever is later. If a bargaining agreement was already concluded in the former merged area which has the collective bargaining agreement that is serving as the base agreement for the new combined merged area, between the former merged area board and the employees of the former merged area, that agreement is void, unless the agreement contained multiyear provisions affecting academic years subsequent to the effective date of the agreement to form a combined merged area. If the base collective bargaining agreement contains multiyear provisions, the duration and effect of the agreement shall be controlled by the terms of the agreement. The provisions of the base agreement shall apply to the offering of new contracts, or the continuation, modification, or termination of existing contracts
between the acting or new board of the combined merged area and the combined employees of the new combined merged area.

The secretary shall either deliver in person or mail the payments to the payees. 260C.47 Accreditation of community college programs.
1. The state board of education shall establish an accreditation process for community college programs by July 1, 1997. The process shall be jointly developed and agreed upon by the department of education and the community colleges. The state accreditation process shall be integrated with the accreditation process of the north central association of colleges and schools, including the evaluation cycle, the self-study process, and the criteria for evaluation, which shall incorporate the standards for community colleges developed under section 260C.48; and shall identify and make provision for the needs of the state that are not met by the association’s accreditation process. For the academic year commencing July 1, 1998, and in succeeding school years, the department of education shall use a two-component process for the continued accreditation of community college programs.
   a. The first component consists of submission of required data by the community colleges and annual monitoring by the department of education of all community colleges for compliance with state program evaluation requirements adopted by the state board.
   b. The second component consists of the use of an accreditation team appointed by the director of the department of education, to conduct an evaluation, including an on-site visit of each community college, with a comprehensive evaluation to occur during the same year as the evaluation by the north central association of colleges and schools, and an interim evaluation midway between comprehensive evaluations. The number and composition of the
accreditation team shall be determined by the director, but the team shall include members of the department of education staff and community college staff members from community colleges other than the community college that conducts the programs being evaluated for accreditation. Beginning July 1, 2006, the accreditation team shall monitor the quality faculty plan implemented by each community college pursuant to section 260C.36.

c. Rules adopted by the state board shall include provisions for coordination of the accreditation process under this section with activities of accreditation associations, which are designed to avoid duplication in the accreditation process.

2. Prior to a visit to a community college, members of the accreditation team shall have access to the program audit report filed with the department for that community college. After a visit to a community college, the accreditation team shall determine whether the accreditation standards for a program have been met and shall make a report to the director and the state board, together with a recommendation as to whether the program of the community college should remain accredited. The accreditation team shall report strengths and weaknesses, if any, for each program standard and shall advise the community college of available resources and technical assistance to further enhance strengths and improve areas of weakness. A community college may respond to the accreditation team’s report.

3. The state board shall determine whether a program of a community college shall remain accredited. If the state board determines that a program of a community college does not meet accreditation standards, the director of the department of education, in cooperation with the board of directors of the community college, shall establish a plan prescribing the procedures that must be taken to correct deficiencies in meeting the program standards, and shall establish a deadline date for correction of the deficiencies. The deadline for correction of deficiencies under a plan shall be no later than June 30 of the year following the on-site visit of the accreditation team. The plan is subject to approval of the state board. Plans shall include components which address meeting program deficiencies, sharing or merger options, discontinuance of specific programs or courses of study, and any other options proposed by the state board or the accreditation team to allow the college to meet the program standards.

4. During the time specified in the plan for its implementation, the community college program remains accredited. The accreditation team shall revisit the community college and shall determine whether the deficiencies in the standards for the program have been corrected and shall make a report and recommendation to the director and the state board. The state board shall review the report and recommendation, may request additional information, and shall determine whether the deficiencies in the program have been corrected.

5. If the deficiencies have not been corrected in a program of a community college, the community college board shall take one of the following actions within sixty days from removal of accreditation:

a. Merge the deficient program or programs with a program or programs from another accredited community college.

b. Contract with another educational institution for purposes of program delivery at the community college.

c. Discontinue the program or programs which have been identified as deficient.

6. The director of the department of education shall give a community college which has a program which fails to meet accreditation standards at least one year’s notice prior to removal of accreditation of the program. The notice shall be given by certified mail or restricted certified mail addressed to the superintendent of the community college and shall specify the reasons for removal of accreditation of the program. The notice shall also be sent by ordinary mail to each member of the board of directors of the community college. Any good faith error or failure to comply with the notice requirements shall not affect the validity of any action by the director. If, during the year, the community college remedies the reasons for removal of accreditation of the program and satisfies the director that the community college will comply with the accreditation standards for that program in the future, the director shall continue the accreditation of the program of the community college and shall transmit notice of the action to the community college by certified mail or restricted certified mail.

7. The action of the director to remove a community college’s accreditation of the program may be appealed to the state board. At the hearing, the community college may
be represented by counsel and may present evidence. The state board may provide for the hearing to be recorded or reported. If requested by the community college at least ten days before the hearing, the state board shall provide for the hearing to be recorded or reported at the expense of the community college, using any reasonable method specified by the community college. Within ten days after the hearing, the state board shall render a written decision, and shall affirm, modify, or vacate the action or proposed action to remove the college’s accreditation of the program. Action by the state board is final agency action for purposes of chapter 17A.

260C.48 Standards for accrediting community college programs.

1. The state board shall develop standards and rules for the accreditation of community college programs. Except as provided in this subsection and subsection 4, standards developed shall be general in nature so as to apply to more than one specific program of instruction. With regard to community college-employed instructors, the standards adopted shall at a minimum require that community college instructors who are under contract for at least half-time or more, and by July 1, 2011, all instructors, meet the following requirements:

a. Instructors in the subject area of career and technical education shall be registered, certified, or licensed in the occupational area in which the state requires registration, certification, or licensure, and shall hold the appropriate registration, certificate, or license for the occupational area in which the instructor is teaching, and shall meet either of the following qualifications:

   (1) A baccalaureate or graduate degree in the area or a related area of study or occupational area in which the instructor is teaching classes.

   (2) Special training and at least six thousand hours of recent and relevant work experience in the occupational area or related occupational area in which the instructor teaches classes if the instructor possesses less than a baccalaureate degree.

b. Instructors in the subject area of arts and sciences shall meet either of the following qualifications:

   (1) Possess a master’s degree from a regionally accredited graduate school, and has successfully completed a minimum of twelve credit hours of graduate level courses in each field of instruction in which the instructor is teaching classes.

   (2) Have two or more years of successful experience in a professional field or area in which the instructor is teaching classes and in which postbaccalaureate recognition or professional licensure is necessary for practice, including but not limited to the fields or areas of accounting, engineering, law, law enforcement, and medicine.

2. Standards developed shall include a provision that the standard academic workload for an instructor in arts and science courses shall be fifteen credit hours per school term, and the maximum academic workload for any instructor shall be sixteen credit hours per school term, for classes taught during the normal school day. In addition thereeto, any faculty member may teach a course or courses at times other than the regular school week, involving total class instruction time equivalent to not more than a three-credit-hour course. The total workload for such instructors shall not exceed the equivalent of eighteen credit hours per school term.

3. Standards developed shall include provisions requiring equal access in recruitment, enrollment, and placement activities for students with special education needs. The provisions shall include a requirement that students with special education needs shall receive instruction in the least restrictive environment with access to the full range of program offerings at a college, through, but not limited to, adaptation of curriculum, instruction, equipment, facilities, career guidance, and counseling services.

4. Commencing July 1, 2006, standards relating to quality assurance of faculty and
ongoing quality professional development shall be the accreditation standards of the north central association of colleges and schools and the faculty standards required under specific programs offered by the community college that are accredited by other accrediting agencies.

Subject to and in accordance with the provisions of this division, the board of directors of each community college is hereby authorized to undertake and carry out any project at a community college under the board’s control and to operate, control, maintain, and manage student residence halls and dormitories, including dining and other incidental facilities, and additions to such buildings at each of said institutions. All contracts for the construction, reconstruction, completion, equipment, improvement, repair or remodeling of any buildings, additions or facilities shall be let in accordance with the provisions of section 260C.19. The title to all real estate acquired under the provisions of this division and the improvements erected on the real estate shall be taken and held in the name of the merged area. The board is authorized to rent the rooms in such residence halls and dormitories to the students, officers, guests and employees of the institutions at such rates, fees or rentals as will provide a reasonable return upon the investment, but which will in any event produce net rents, profits and income sufficient to insure the payment of the principal of and interest on all bonds or
notes issued to pay any part of the cost of any project and refunding bonds or notes issued pursuant to the provisions of this division and to insure that no property tax revenues will be needed to retire the bonds or notes.

260C.58 Bonds or notes.
To pay all or any part of the cost of carrying out any project at any institution the board is authorized to borrow money and to issue and sell negotiable bonds or notes and to refund and refinance bonds or notes issued for any project or for refunding purposes at a lower rate, the same rate, or a higher rate or rates of interest and from time to time as often as the board shall find it to be advisable and necessary so to do. Bonds or notes issued by the board for residence hall or dormitory purposes at any institution, including dining or other facilities and additions, or issued for refunding purposes, may either be sold in the manner specified for the selling of certificates under section 260E.6 and the proceeds applied to the payment of the obligations being refunded, or the refunding bonds or notes may be exchanged for and in payment and discharge of the obligations being refunded. A finding by the board in the resolution authorizing the issuance of the refunding bonds or notes, that the bonds or notes being refunded were issued for a purpose specified in this division and constitute binding obligations of the board, shall be conclusive and may be relied upon by any holder of any refunding bond or note issued under the provisions of this division. The refunding bonds or notes may be sold or exchanged in installments at different times or an entire issue or series may be sold or exchanged at one time. Any issue or series of refunding bonds or notes may be exchanged in part or sold in parts in installments at different times or at one time. The refunding bonds or notes may be sold or exchanged at any time on, before, or after the maturity of any of the outstanding notes, bonds or other obligations to be refinanced thereby and may be issued for the purpose of refunding a like or greater principal amount of bonds or notes, except that the principal amount of the refunding bonds or notes may exceed the principal amount of the bonds or notes to be refunded to the extent necessary to pay any premium due on the call of the bonds or notes to be refunded, to fund interest in arrears or about to become due, or to allow for sufficient funding of the escrow account on the bonds to be refunded.

All bonds or notes issued under the provisions of this division shall be payable from and shall be secured by an irrevocable first lien pledge of a sufficient portion of the following: the net rents, profits and income derived from the operation of residence halls, dormitories, dining or other incidental facilities and additions, including necessary real and personal property, acquired or improved in whole or in part with the proceeds of such bonds or notes, regardless of the manner of such acquisition or improvement; and the net rents, profits and income not pledged for other purposes derived from the operation of any other residence halls or dormitories, including dining or other incidental facilities and additions, at the particular institution. In addition, the board may secure any bonds or notes issued by borrowing money, by mortgaging any real estate or improvements erected on real estate, or by pledging rents, profits, and income received from property for the discharge of mortgages. All bonds or notes issued under the provisions of this division shall have all the qualities of negotiable instruments under the laws of this state.

In the discretion of the board any bonds or notes issued under the terms of this division may be secured by a trust indenture by and between the board and a corporate trustee, which may be any trust company or bank having the powers of a trust company within or without the boundaries of the state of Iowa. The provisions of this division and of any resolution or other proceedings authorizing the issuance of bonds or notes and providing for the establishment and maintenance of adequate rates, fees or rentals and the application of the proceeds thereof shall constitute a contract with the holders of the bonds or notes.

The board may pledge a sufficient amount of the net rents, profits and income derived from the operation of residence
halls and dormitories, including dining and other facilities, at the institution for this purpose. All rates, fees, or rentals collected for the use of and services provided by the residence halls and dormitories, including dining and other incidental facilities, at each institution shall be held in trust by the treasurer, separate and apart from all other funds, to be used only for the purposes specified in this division and as may be required and provided for by the proceedings of the board authorizing the issuance of bonds or notes. The treasurer of each institution shall disburse funds from the proper account for the payment of the principal of and interest on the bonds or notes in accordance with the directions and covenants of the resolution authorizing the issuance of the bonds or notes.

3. The authority may issue its bonds and notes for the purpose of funding the nonrecurring cost of acquiring, constructing, and equipping a community college related facility, such as a dormitory.
4. The authority may issue its bonds and notes for the purposes of this chapter and may enter into one or more lending agreements or purchase agreements with one or more bondholders or noteholders containing the terms and conditions of the repayment of and the security for the bonds or notes. The authority and the bondholders or noteholders or a trustee agent designated by the authority may enter into agreements to provide for any of the following:
   a. That the proceeds of the bonds and notes and the investments of the proceeds may
be received, held, and disbursed by the authority or by a trustee or agent designated by the authority.

b. That the bondholders or noteholders or a trustee or agent designated by the authority may collect, invest, and apply the amount payable under the loan agreements or any other instruments securing the debt obligations under the loan agreements.

c. That the bondholders or noteholders may enforce the remedies provided in the loan agreements or other instruments on their own behalf without the appointment or designation of a trustee. If there is a default in the principal or interest on the bonds or notes or in the performance of any agreement contained in the loan agreements or other instruments, the payment or performance may be enforced in accordance with the loan agreement or other instrument.

d. Other terms and conditions as deemed necessary or appropriate by the authority.

5. The powers granted the authority under this section are in addition to other powers contained in chapter 16. All other provisions of chapter 16, except section 16.28, subsection 4, apply to bonds or notes issued and powers granted to the authority under this section, except to the extent they are inconsistent with this section.

6. All bonds or notes issued by the authority in connection with the program are exempt from taxation by this state and the interest on the bonds or notes is exempt from state income tax, both personal and corporate.

1. a. The authority may provide in the resolution, trust agreement, or other instrument authorizing the issuance of its bonds or notes pursuant to section 260C.71 that the principal of, premium, and interest on the bonds or notes are payable from any of the following and may pledge the same to its bonds and notes:

   1) From the net rents, profits, and income arising from the project or property pledged or mortgaged.

   2) From the net rents, profits, and income which has not been pledged for other purposes arising from any similar housing facility under the control and management of the community college or state board for community colleges.

   3) From the fees or charges established by the community college or state board for community colleges for students attending the institution who are living in the housing facility for which the obligation was incurred.

   4) From the income derived from gifts and bequests made to the institutions under the control of the community college or state board for community colleges for such purposes.

   5) From the amounts on deposit in the name of a community college or a private developer or operator of a community college facility, including but not limited to revenues from a purchase, rental, or lease agreement, loan agreement, or dormitory charges.

   6) From the amounts payable to the authority, the community college board of directors, the state board for community colleges, or a private developer or operator, pursuant to a loan agreement, lease agreement, or sale agreement.

   7) From the other funds or accounts established by the authority in connection with the program or the sale and issuance of its bonds or notes.

   b. No obligation created hereunder shall ever be or become a charge against the state of Iowa but all such obligations, including principal and interest, shall be payable solely as provided in this section and section 260C.71.

2. The authority may establish reserve funds to secure one or more issues of its bonds or notes. The authority may deposit in a reserve fund established under this subsection, the proceeds of the sale of its bonds or notes and other money which is made available from any other source.

3. A pledge made in respect of bonds or notes is valid and binding from the time the pledge is made. The money or property so pledged and received after the pledge by the authority is immediately subject to the lien of the pledge without physical delivery or further act. The
lien of the pledge is valid and binding as against all persons having claims of any kind in tort, contract, or otherwise against the authority whether or not the parties have notice of the lien. Neither the resolution, trust agreement, or any other instrument by which a pledge is created needs to be recorded, filed, or perfected under chapter 554, to be valid, binding, or effective against all persons.

4. The members of the authority or persons executing the bonds or notes are not personally liable on the bonds or notes and are not subject to personal liability or accountability by reason of the issuance of the bonds or notes.

5. The bonds or notes issued by the authority are not an indebtedness or other liability of the state or of a political subdivision of the state within the meaning of any constitutional or statutory debt limitations, but are special obligations of the authority and are payable solely from the income and receipts or other funds or property of the community college or private developer, and the amounts on deposit in a community college bond fund, and the amounts payable to the authority under its loan agreements with a community college or private developer to the extent that the amounts are designated in the resolution, trust agreement, or other instrument of the authority authorizing the issuance of the bonds or notes as being available as security for the bonds or notes. The authority shall not pledge the faith or credit of the state or of a political subdivision of the state to the payment of any bonds or notes. The issuance of any bonds or notes by the authority does not directly, indirectly, or contingently obligate the state or a political subdivision of the state to apply money from, or levy, or pledge any form of taxation whatever to the payment of the bonds or notes.

If an agreement provides that all or part of program costs are to be paid for by incremental property taxes, the board of directors shall provide by resolution that taxes levied on the employer’s taxable business property, where new jobs are created as a result of a project, each year by or for the benefit of the state, city, county, school district, or other taxing district after the effective date of the resolution shall be divided as provided in section 403.19, subsections 1 and 2, in the same manner as if the employer’s business property, where new jobs are created as a result of a project, was taxable property in an urban renewal project and the resolution was an ordinance within the meaning of those subsections. 260E.5 New jobs credit from withholding.

If an agreement provides that all or part of program costs are to be met by receipt of new jobs credit from withholding, it shall be done as follows:

1. New jobs credit from withholding shall be based upon the wages paid to the employees in the new jobs.

2. An amount equal to one and one-half percent of the gross wages paid by the employer to each employee participating in a project shall be credited from the payment made by an employer pursuant to section 422.16. If the amount of the withholding by the employer is less than one and one-half percent of the gross wages paid to the employees covered by the agreement, then the employer shall receive a credit against other withholding taxes due by the employer. The employer shall remit the amount of the credit quarterly in the same manner as withholding payments are reported to the department of revenue, to the community college to be allocated to and when collected paid into a special fund of the community college to pay the principal of and interest on certificates issued by the community college to finance or refinance, in whole or in part, the project. When the principal and interest on the certificates have been paid, the employer credits shall cease and any money received after the certificates have been paid shall be remitted to the treasurer of state to be deposited in the general fund of the state.

3. The new jobs credit from withholding and the special fund into which it is paid, may be irrevocably pledged by a community college for the payment of the principal of and interest on the certificate issued by a community college to finance or refinance, in whole or in part, the project.

4. The employer shall certify to the department of revenue that the credit in withholding is in accordance with an agreement and shall provide other information the department may require.

5. A community college shall certify to the department of revenue the amount of new jobs credit from withholding an employer has remitted to the special fund and shall provide other information the department may require.

260E.6 Certificates.

To provide funds for the present payment of the costs of new jobs training programs, a community college may borrow money and issue and sell certificates payable from a sufficient portion of the future receipts of payments authorized by the agreement. The receipts shall be pledged to the payment of principal of and interest on the certificates.

1. Certificates may be sold at public sale or at private sale at par, premium, or discount at the discretion of the board of directors. Chapter 75 does not apply to the issuance of these certificates.

2. Certificates may be issued with respect to a single project or multiple projects and may contain terms or conditions as the board of directors may provide by resolution authorizing the issuance of the certificates.

3. Certificates issued to refund other certificates may be sold at public sale or at private sale as provided in this section with the proceeds from the sale to be used for the payment of the certificates being refunded. The refunding certificates may be exchanged in payment and discharge of the certificates being refunded, in installments at different times or an entire issue or series at one time. Refunding certificates may be sold or exchanged at any time on, before, or after the maturity of the outstanding certificates to be refunded, may be issued for the purpose of refunding a like, greater, or lesser principal amount of certificates and
may bear a higher, lower, or equivalent rate of interest than the certificates being renewed or refunded.

4. To further secure the payment of the certificates, the board of directors shall, by resolution, provide for the assessment of an annual levy of a standby tax upon all taxable property within the merged area. A copy of the resolution shall be sent to the county auditor of each county in which the merged area is located. The revenues from the standby tax shall be deposited in a special fund and shall be expended only for the payment of principal of and interest on the certificates issued as provided in this section, when the receipt of payment for program costs as provided in the agreement is insufficient. If payments are necessary and made from the special fund, the amount of the payments shall be promptly repaid into the special fund from the first available payments received for program costs as provided in the agreement which are not required for the payment of principal of or interest on certificates due. No reserves may be built up in this fund in anticipation of a projected default. The board of directors shall adjust the annual standby tax levy for each year to reflect the amount of revenues in the special fund and the amount of principal and interest which is due in that year.

5. Before certificates are issued, the board of directors shall publish once a notice of its intention to issue the certificates, stating the amount, the purpose, and the project or projects for which the certificates are to be issued. A person may, within fifteen days after the publication of the notice by action in the district court of a county in the area within which the community college is located, appeal the decision of the board of directors in proposing to issue the certificates. The action of the board of directors in determining to issue the certificates is final and conclusive unless the district court finds that the board of directors has exceeded its legal authority. An action shall not be brought which questions the legality of the certificates, the power of the board of directors to issue the certificates, the effectiveness of any proceedings relating to the authorization of the project, or the authorization and issuance of the certificates from and after fifteen days from the publication of the notice of intention to issue.

6. The board of directors shall determine if revenues are sufficient to secure the faithful performance of obligations in the agreement.

Upon receiving a copy of an agreement, the department shall allocate any available amount of program job credits to the community college according to the agreement sufficient for the fiscal year and for the term of the agreement. When the total available program job credits are allocated for a fiscal year, the department shall notify all community colleges that the maximum amount has been allocated and that further program job credits will not be available for the remainder of the fiscal year. Once program job credits have been allocated to a community college, the full allocation shall be received by the community college throughout the fiscal year and for the term of the agreement even if the statewide program job credit maximum amount is subsequently allocated and used.

2. For the fiscal years beginning July 1, 2000, and July 1, 2001, the department of economic development shall allocate eighty thousand dollars of the first one million two hundred thousand dollars of program job credits authorized and available for that fiscal year to each community college. MINORITY ACADEMIC GRANTS
FOR ECONOMIC SUCCESS

261.101 Legislative intent.
The general assembly finds that the failure of many young Iowans to complete their education limits their opportunity for a life of fulfillment and hinders the state’s efforts to provide a well-trained workforce for business and industry in Iowa. Therefore, the “Iowa Minority Academic Grants for Economic Success” program is established to provide additional funding to the state board of regents institutions, community colleges, and accredited private institutions in order to encourage resident minority students to remain in Iowa, to attend community colleges, private colleges, and universities in Iowa, and to assure that a limited family income will not be a barrier for a minority person to pursue a postsecondary education.

Each education loan’s fees shall include a portion, if necessary, to cover the applicable pro rata cost of a servicing organization.
   c. The authority may establish criteria governing the eligibility of institutions to participate in its programs, the making of authority loans and education loans, provisions for default, the establishment of default reserve funds, the purchase of default insurance, the provision of prudent debt service reserves, and the furnishing by participating institutions of higher education of additional guarantees of the education loans, authority loans, or obligations that the authority determines necessary. Criteria shall be established to assure the marketability of the obligations and the adequacy of the security for the obligations.
   d. The authority shall establish limitations upon the principal amounts and the terms of education loans, criteria regarding the qualifications and characteristics of borrowers and procedures for allocating authority loans among institutions eligible for its program in order to effectuate the purposes of this chapter.

12. Notwithstanding other provisions in this chapter, commingle and pledge as security for a series or issue of obligations, with the consent of all of the institutions which are participating in the series or issue, the education loan series portfolios and some or all future education loan series portfolios of the institutions, and the loan funding deposits of the institutions. However, the education loan series portfolios and other security and moneys set aside in a fund or funds pledged for a series or issue of obligations shall be held for the sole benefit of the series or issue separate and apart from education loan series portfolios and other security and moneys pledged for any other series or issue of obligations. Obligations may be issued in series under one or more resolutions or trust agreements in the discretion of the authority.

13. Examine records and financial reports of participating institutions, and examine records and financial reports of a contractor organization or institution retained by the authority.

The obligations shall not grant to the owners or holders of the obligations the right to have the authority or the state levy taxes or appropriate funds for the payment of the principal or interest on the obligations. The obligations are payable, and shall state that they are payable, solely from the revenues pledged for their payment in accordance with the bond resolution.

The bond resolution and a financing statement, continuation statement, or other instrument by which the authority’s interest in revenues is assigned need not be filed or recorded in public records in order to perfect the lien against third parties except that a copy of it shall be filed in the records of the authority and with the treasurer of state.

261A.39 General powers — apportionment of costs.  
The authority may do all things necessary or convenient to carry out the purposes of this division. The authority may charge to and equitably apportion among participating institutions its administrative costs and expenses incurred in the exercise of the powers and duties conferred on the authority by this division.  
85 Acts, ch 210, §9

261A.40 Joint and combination projects.  
The authority may undertake a project for two or more institutions jointly or for any combination of institutions, and may combine for financing purposes, with the consent of all of the institutions which are involved, the project and some or all future projects of any institution or institutions, and this division applies to and is for the benefit of the authority and the joint participants. However, the money set aside in a fund or funds pledged for any series or issue of obligations shall be held for the sole benefit of the series or issue separate and apart from money pledged for another series or issue of obligations of the authority. To facilitate the combining of projects, obligations may be issued in series under one or more resolutions or trust agreements and may be fully open-ended, thus providing for the unlimited issuance of additional series, or partially open-ended, limited as to additional series. The authority may permit an institution to substitute one or more projects of equal value, as determined by an independent appraiser satisfactory to the authority, for a project financed under this division on terms and subject to conditions the authority prescribes.  
85 Acts, ch 210, §10

261A.41 Expenses.  
Expenses incurred in carrying out this division are payable solely from funds provided under this division and a liability or obligation shall not be incurred by the authority beyond the extent to which money is provided under this division.  
85 Acts, ch 210, §11

261A.42 Obligations.  
The authority may provide by resolution for the issuance of obligations for the purpose of paying, refinancing, or reimbursing all or part of the cost of a project. Except to the extent payable from payments to be made on federally guaranteed securities as provided in section 261A.45, the principal of and the interest on the obligations shall be payable solely out of the revenue of the authority derived from the project to which they relate and from other facilities pledged or made available for this purpose by the institution for whose benefit the obligations were issued. The obligations of each issue shall be dated, shall bear interest at rate or rates, without regard to any limit contained in any other statute or law of the state, and shall mature at times not exceeding forty years from the date of issuance, all as determined by the authority; and may be made redeemable before maturity at the prices and under terms fixed by the authority in the authorizing resolution.  
Except as otherwise provided by this division, the obligations are to be paid solely out of the revenue of the project to which they relate and, in certain instances, out of the revenue of
certain other facilities, and subject to section 261A.45 with respect to a pledge of government securities, the obligations may be unsecured or secured in the manner and to the extent determined by the authority. The authority shall determine the form of the obligations, including interest coupons, if any, to be attached, and shall fix the denominations of the obligations and the places of payment of principal and interest which may be at any bank or trust company within or without the state. The obligations and coupons attached, if any, shall be executed by the manual or facsimile signatures of officers of the authority designated by the authority. If an official of the authority whose signature or a facsimile of whose signature appears on any obligations or coupons ceases to be an official before the delivery of the obligations, the signature or facsimile, nevertheless, is valid and sufficient for all purposes the same as if the individual had remained an official of the authority until delivery. Obligations issued under this division have all the qualities and incidents of negotiable instruments, notwithstanding this payment from limited sources and without regard to any other law. The obligations may be issued in coupon or in registered form, or both, and one form may be exchangeable for the other in the manner as the authority may determine. Provision may be made for the registration of any coupon obligations as to principal alone and also as to both principal and interest, and for the reconversion into coupon obligations of any obligations registered as to both principal and interest. The obligations may be sold in the manner, either at public or private sale, as the authority determines.

The proceeds of the obligations of each issue shall be used solely for the payment of the cost of the project for which the obligations have been issued, and shall be disbursed in the manner and under the restrictions, if any, as the authority provides in the resolution authorizing the issuance of the obligations or in the trust agreement provided for in section 261A.44 securing the obligations. If the proceeds of the obligations of an issue, by error of estimates or otherwise, are less than the costs, additional obligations may in like manner be issued to provide the amount of the deficit, and, unless otherwise provided in the resolution authorizing the issuance of the obligations or in the trust agreement securing them, shall be deemed to be of the same issue and shall be entitled to payment from the same fund without preference or priority of the obligations first issued. If the proceeds of the obligations of an issue shall exceed the cost of the project for which the same shall have been issued, the surplus shall be deposited to the credit of the sinking fund for the obligations. Prior to the preparation of definitive obligations, the authority may, under like restrictions, issue interim receipts or temporary obligations, with or without coupons, exchangeable for definitive obligations when the obligations have been executed and are available for delivery.

The authority may also provide for the replacement of obligations which become mutilated or are destroyed or lost. Obligations may be issued under this division without obtaining the consent of an officer, department, division, commission, board, bureau, or agency of the state, and without other proceedings or conditions other than those which are specifically required by this division. The authority may purchase its bonds out of funds available for that purpose. The authority may hold, pledge, cancel, or resell the obligations, subject to and in accordance with any agreement with the obligation holders. Members of the authority and any person executing the obligations are not liable personally on the obligations or subject to personal liability or accountability by reason of the issuance of the obligations.

85 Acts, ch 210, §12; 97 Acts, ch 181, §5

261A.43 Resolution provisions.
The resolution authorizing obligations or an issue of obligations may contain provisions, which shall be a part of the contract with the holders of the obligations to be authorized, as to:
1. Pledging or assigning the revenue of the project with respect to which the obligations are to be issued or the revenue of other property or facilities.
2. Setting aside reserves or sinking funds, and the regulation, investment, and disposition of them.
3. Limitations on the use of the project.
4. Limitations on the purpose to which or the investments in which the proceeds of sale
of an issue of obligations then or thereafter to be issued may be applied and pledging the proceeds to secure the payment of the obligations or an issue of the obligations.

5. Limitations on the issuance of additional obligations, the terms upon which additional obligations may be issued and secured, and the refunding of outstanding obligations.

6. The procedure, if any, by which the terms of any contract with obligation holders may be amended or abrogated, the amount of obligations the holders of which must consent to the amendment or abrogation, and the manner in which the consent may be given.

7. Limitations on the amount of money derived from the project to be expended for operating, administrative, or other expenses of the authority.

8. Defining the acts or omissions to act which constitute a default in the duties of the authority to holders of its obligations and providing the rights and remedies of the holders in the event of a default.

9. Mortgaging a project and the project site or other property for the purpose of securing the obligation holders.

10. Other matters relating to the obligations which the authority deems desirable.

85 Acts, ch 210, §13

261A.44 Obligations secured by trust agreement.

Obligations issued under this division may be secured by a trust agreement by and between the authority and an incorporated trustee, which may be a trust company or bank having the powers of a trust company within or without the state. The trust agreement or the resolution providing for the issuance of the obligations may pledge or assign the revenue to be received or proceeds of any contract pledged and may convey or mortgage the project or any portion of the project. A pledge or assignment made by the authority pursuant to this section is valid and binding from the time that the pledge or assignment is made, and the revenue pledged and thereafter received by the authority is immediately subject to the lien of the pledge or assignment without physical delivery or any further act. The lien of the pledge or assignment is valid and binding against all parties having claims of any kind in tort, contract, or otherwise against the authority irrespective of whether the parties have notice of the lien. The resolution or trust agreement by which a pledge is created or an assignment made shall be filed or recorded in the records of the authority, with the secretary of state, and in each county in which the project is located. The trust agreement or resolution providing for the issuance of the obligations may contain provisions for protecting and enforcing the rights and remedies of the obligation holders as are reasonable and proper, not in violation of law, or provided for in this division. A bank or trust company incorporated under the laws of this state which acts as depository of proceeds of the obligations, revenue, or other money shall furnish the indemnifying obligations or pledge the securities as required by the authority. The trust agreement may set forth the rights and remedies of the obligation holders and of the trustee, and may restrict the individual right of action by obligation holders. The trust agreement or resolution may contain other provisions the authority deems reasonable and proper for the security of the obligation holders. Expense incurred in carrying out the trust agreement or resolution may be treated as a part of the cost of the operation of a project.

85 Acts, ch 210, §14

261A.45 Obligations issued to acquire federally guaranteed securities.

The authority may finance the cost of a project, refund outstanding indebtedness, or reimburse advances from an endowment or similar fund of an institution as authorized by this division, by issuing its obligations pursuant to a plan of financing involving the acquisition of a federally guaranteed security or the acquisition or entering into of commitments to acquire a federally guaranteed security. For the purposes of this section, "federally guaranteed security" means any direct obligation of, or obligation the principal of and interest on which are fully guaranteed or insured by the United States, or an obligation issued by, or the principal of and interest on which are fully guaranteed or insured by any agency or instrumentality of the United States, including without limitation an obligation that is issued pursuant to the National Housing Act, or any successor provision of law.

The authority may acquire or enter into commitments to acquire a federally guaranteed
security and pledge or otherwise use the federally guaranteed security in the manner the authority deems in its best interest to secure or otherwise provide a source of repayment of its obligations issued to finance or refinance a project, or may enter into an appropriate agreement with an institution whereby the authority may make a loan to the institution for the purpose of acquiring or entering into commitments to acquire a federally guaranteed security. An agreement entered into pursuant to this section may contain provisions deemed necessary or desirable by the authority for the security or protection of the authority or the holders of the obligations, except that the authority, prior to making an acquisition, commitment, or loan, shall determine and enter into an agreement with the institution or another appropriate institution to require that the proceeds derived from the acquisition of a federally guaranteed security will be used, directly or indirectly, for the purpose of financing or refinancing a project.

The obligations issued pursuant to this section shall not exceed in principal amount the cost of financing or refinancing the project as determined by the participating institution and approved by the authority, except that the costs may include, without limitation, all costs and expenses necessary or incidental to the acquisition of or commitment to acquire a federally guaranteed security and to the issuance and obtaining of insurance or guarantee of an obligation issued or incurred in connection with a federally guaranteed security. In other respects the bonds are subject to this division, and the trust agreement creating the bonds may contain provisions set forth in this division as the authority deems appropriate.

If a project is financed or refinanced pursuant to this section, the title to the project shall remain in the participating institution owning the project, subject to the lien of a mortgage or security interest securing, directly or indirectly, the federally guaranteed securities being purchased or to be purchased.

85 Acts, ch 210, §15

261A.46 Obligations not liability of state or political subdivision.

Obligations issued pursuant to this division are not debts of the state or of any political subdivision of the state or a pledge of the faith and credit of the state or of any political subdivision, but the obligations are limited obligations of the authority payable solely from the funds or securities, pledged for their payment as authorized in this division, unless the obligations are refunded by refunding obligations issued under this division, which refunding obligations shall be payable solely from funds or securities pledged for their payment as authorized in this division. All revenue obligations shall contain on their face a statement to the effect that the obligations, as to both principal and interest, are not obligations of the state, or of any political subdivision of the state, but are limited obligations of the authority payable solely from revenue or securities pledged for their payment. Expenses incurred in carrying out this division are payable solely from funds provided under this division, and this division does not authorize the authority to incur indebtedness or liability on behalf of or payable by the state or any political subdivision of the state.

85 Acts, ch 210, §16

261A.47 Money received by authority.

All money received by the authority, whether as proceeds from the sale of obligations, from revenue, or otherwise, shall be deemed to be trust funds to be held and applied solely as provided in this division, but prior to the time when needed for use may be invested to the extent and in the manner provided by the authority. The funds shall be deposited, held, and secured as determined by the authority, except to the extent provided otherwise in the resolution authorizing the issuance of the related obligations or in the trust agreement securing the obligations. The resolution authorizing the issuance of the obligations or the trust agreement securing the obligations shall provide that an officer, bank or trust company to which the money is entrusted shall act as trustee of the money and shall hold and apply the money for the purposes of this division, subject to the provisions of this division and of the authorizing resolution or trust agreement.

85 Acts, ch 210, §17
261A.48 Powers of holders and trustees.
A holder of obligations or of the coupons pertaining to obligations and the trustee under a trust agreement, except to the extent the rights given in this division are restricted by the authorizing resolution or trust agreement, may, by suit, mandamus, or other proceedings, protect and enforce any and all rights under the laws of this state, or under the trust agreement or resolution authorizing the issuance of the obligations, and may enforce and compel the performance of all duties required by this division or by the trust agreement or resolution to be performed by the authority or by an officer, employee, or agent of the authority, including the fixing, charging, and collecting of fees and charges authorized in this division and required by the resolution or trust agreement to be fixed and collected.

The rights of holders include the right to compel the performance of all duties of the authority required by this division or the resolution or trust agreement, to enjoin unlawful activities, and in the event of default with respect to the payment of any principal of, premium, if any, and interest on an obligation or in the performance of a covenant or agreement on the part of the authority in the resolution, to apply to a court having jurisdiction of the cause to appoint a receiver to administer and operate the project, the revenue of which is pledged to the payment of the principal of, premium, if any, and interest on the obligations, the receiver to have full power to pay and to provide for payment of the principal of, premium, if any, and interest on the obligations, and to have the powers, subject to the direction of the court, as are permitted by law and are accorded receivers in general equity cases, including the power to foreclose the mortgage on the project in the same manner as the foreclosure of a mortgage on real estate of private corporations, but excluding any power to pledge additional revenue of the authority to the payment of the principal, premium, and interest.

85 Acts, ch 210, §18

261A.49 Bondholders — pledge — agreement of the state.
The state pledges to and agrees with the holders of any obligations issued under this division, and with those parties who enter into contracts with the authority pursuant to this division, that the state will not limit or alter the rights vested in the authority until the obligations, together with the interest on the obligations, are fully met and discharged and the contracts are fully performed on the part of the authority, except that this section does not preclude the limitation or alteration if and when adequate provision is made by law for the protection of the rights of the holders of the obligations of the authority or those entering into contracts with the authority.

85 Acts, ch 210, §19

261A.50 Provisions controlling.
The powers granted the authority under this division are in addition to the powers of the authority contained in other provisions of this chapter. All other provisions of this chapter apply to obligations issued pursuant to and powers granted the authority under this division, except to the extent they are inconsistent with this division.

As used in this chapter, unless otherwise specified:

2. “Covered institution” means any educational institution that offers a postsecondary educational degree, certificate, or program of study and receives any Tit. IV funds under the federal Higher Education Act of 1965, as amended, or state funding or assistance. “Covered institution” includes an authorized agent of the educational institution, including an alumni association, booster club, or other organization directly or indirectly associated with or authorized by the institution or an employee of the institution.

3. “Covered institution employee” means any employee, agent, contract employee, director, officer, or trustee of a covered institution.

4. “Educational loan” means any loan that is made, insured, or guaranteed under Tit. IV of the federal Higher Education Act of 1965, as amended, directly to a borrower solely for educational purposes, or any private educational loan.

5. “Gift” means any gratuity, favor, discount, entertainment, hospitality, loan, or other item having a monetary value of more than a de minimus amount. “Gift” includes a gift of services, transportation, lodging, or meals, whether provided in kind, by purchase of a ticket, payment in advance, or reimbursement after the expense has been incurred. “Gift” does not include any of the following:

   a. Standard material, activities, or programs on issues related to a loan, default aversion, default prevention, or financial literacy.

   b. Food or refreshments furnished to an officer, employee, or agent of an institution as an integral part of a training session or conference that is designed to contribute to the professional development of the officer, employee, or agent of the institution.

   c. Favorable terms, conditions, and borrower benefits on an educational loan provided to a borrower employed by the covered institution if such terms, conditions, or benefits are comparable to those provided to all students of the institution.

   d. Philanthropic contributions to a covered institution from a lender, guarantor, or servicer of educational loans that are unrelated to educational loans, provided, as applicable, that the contributions are disclosed pursuant to section 261F.4, subsection 6.

   e. State education grants, scholarships, or financial aid funds administered under chapter 261.

   f. Toll-free telephone numbers for use by covered institutions or other toll-free telephone numbers open to the public to obtain information about loans available under Tit. IV of the federal Higher Education Act of 1965, as amended, or private educational loans, or free data transmission service for use by a covered institution to electronically submit applicant loan processing information or student status confirmation data for loans available under Tit. IV of the federal Higher Education Act of 1965.

k. Other benefits to a borrower under a repayment incentive program that requires, at a minimum, one or more scheduled payments to receive or retain the benefit or under a loan forgiveness program for public service or other targeted purposes approved by the attorney general, provided these benefits are not marketed to secure loan applications or loan guarantees.

l. Items of nominal value to a covered institution, covered institution employee, covered institution-affiliated organization, or borrower that are offered as a form of generalized marketing or advertising, or to create goodwill.

m. Items of value which are offered to a borrower or to a covered institution employee that are also offered to the general public.

IV of the federal Higher Education Act of 1965, as amended.

For purposes of this subsection, “dwelling” and “open-end credit plan” have the meanings given such terms in section 103 of the federal Truth in Lending Act, 15 U.S.C. § 1602.

11. “Revenue sharing arrangement” means an arrangement between a covered institution and a lender in which the lender provides or issues educational loans to persons attending the institution or on behalf of persons attending the institution and the covered institution recommends the lender or the educational loan products of the lender, in exchange for which the lender pays a fee or provides other material benefits, including revenue or profit sharing, to the institution or officers, employees, or agents of the institution. “Revenue sharing arrangement” does not include arrangements related solely to products which are not educational loans.

261E3 Prohibitions — report.

1. Gift ban. No officer, employee, or agent of a covered institution who is employed in the financial aid office of the institution, or who otherwise has direct responsibilities with respect to educational loans, shall solicit or accept any gift from a lender, guarantor, or servicer of educational loans. The attorney general shall investigate any reported violation of this subsection and shall annually submit a report to the general assembly by January 15 identifying all substantiated violations of this subsection, including the lenders and covered institutions involved in each such violation, for the preceding year.

2. Gifts to family members or others. For purposes of this section, a gift to a family member of an officer, employee, or agent of a covered institution, or a gift to any other individual based on that individual’s relationship with the officer, employee, or agent, shall be considered a gift to the officer, employee, or agent if either of the following applies:
   a. The gift is given with the knowledge and acquiescence of the officer, employee, or agent.
   b. The officer, employee, or agent has reason to believe the gift was given because of the official position of the officer, employee, or agent.

3. Contracting arrangements. An officer, employee, or agent who is employed in the financial aid office of a covered institution, or who otherwise has direct responsibilities with respect to educational loans, shall not accept from any lender or affiliate of any lender any fee, payment, or other financial benefit including but not limited to the opportunity to purchase stock on other than free market terms, as compensation for any type of consulting arrangement or other contract to provide services to a lender or on behalf of a lender.

4. Revenue sharing arrangements. A covered institution shall not enter into any revenue sharing arrangement with any lender.

5. Prohibition on offers of funds for private loans. A covered institution shall not request or accept from any lender any offer of funds, including any opportunity pool, to be used for private educational loans to borrowers in exchange for the covered institution providing concessions or promises to the lender with respect to such institution providing the lender with a specified number of loans, a specified loan volume, or a preferred lender arrangement for any loan made, insured, or guaranteed under Tit. IV of the federal Higher Education Act of 1965, as amended, and a lender shall not make any such offer. For purposes of this subsection, “opportunity pool” means an educational loan made by a private lender to a borrower that is in any manner guaranteed by a covered institution, or that involves a payment, directly or indirectly, by such an institution of points, premiums, payments, additional interest, or other financial support to the lender for the purpose of that lender extending credit to the borrower.

6. Participation on advisory councils. An officer, employee, or agent who is employed in the financial aid office of a covered institution, or who otherwise has direct responsibilities with respect to educational loans, shall not serve on or otherwise participate with advisory councils of lenders or affiliates of lenders. Nothing in this subsection shall prohibit lenders from seeking advice from covered institutions or groups of covered institutions, including through telephonic or electronic means, or a meeting, in order to improve products and services for borrowers, provided there are no gifts or compensation including but not limited to transportation, lodging, or related expenses, provided by lenders in connection with seeking such advice from the institutions. Nothing in this subsection shall prohibit an officer, employee, or agent of a covered institution from serving on the board of directors of a lender if required by law.

7. Exceptions.
   a. Nothing in this section shall be construed as prohibiting any of the following:
      (1) An officer, employee, or agent of a covered institution who is not employed in the institution’s financial aid office, or who does not otherwise have direct responsibilities with
respect to educational loans, from paid or unpaid service on a board of directors of a lender, guarantor, or servicer of educational loans.

(2) An officer, employee, or agent of a covered institution who is not employed in the financial aid office but who has direct responsibility with respect to educational loans as a result of a position held at the covered institution, from paid or unpaid service on a board of directors of a lender, guarantor, or servicer of educational loans, provided that the covered institution has a written conflict of interest policy that clearly sets forth that such an officer, employee, or agent must be recused from participating in any decision of the board with respect to any transaction regarding educational loans.

(3) An officer, employee, or agent of a lender, guarantor, or servicer of educational loans from serving on a board of directors or serving as a trustee of a covered institution, provided that the covered institution has a written conflict of interest policy that clearly sets forth the procedures to be followed in instances where such a board member’s or trustee’s personal or business interests with respect to educational loans may be advanced by an action of the board of directors or trustees, including a provision that such a board member or trustee may not participate in any decision to approve any transaction where such conflicting interests may be advanced.

b. Nothing in this chapter shall be construed to prohibit a covered institution from lowering educational loan costs for borrowers, including payments made by the covered institution to lending institutions on behalf of borrowers.

2008 Acts, ch 1132, §5, 15

261F.4 Misleading identification — covered institution — lending institutions’ employees.

2. A covered institution shall prohibit an employee or agent of a lending institution from being identified as an employee, representative, or agent of the covered institution.

3. An employee, representative, or agent of a lending institution included on a covered institution’s preferred lending list shall not staff a covered institution’s financial aid offices or call center and shall not prepare any of the covered institution’s materials related to educational loans.

4. A covered institution that has entered into a preferred lender arrangement with a lender regarding private educational loans shall not agree to the lender’s use of the name, emblem, mascot, or logo of the institution, or other words, pictures, or symbols readily identified with the institution, in the marketing of private educational loans to the students attending the institution in any way that implies that the institution endorses the private educational loans offered by the lender. However, the covered institution may allow the use of its name if it is part of the lending institution’s legal name.

5. Nothing in this section shall prohibit a covered institution from requesting or accepting the following assistance from a lender related to any of the following:

a. Providing educational counseling materials, financial literacy materials, or debt management materials to borrowers, provided that such materials disclose to borrowers the identification of any lender that assisted in preparing or providing such materials.

b. Staffing services on a short-term, nonrecurring basis to assist the institution with financial aid-related functions during emergencies, including state-declared or federally declared natural disasters, federally declared national disasters, and other localized disasters and emergencies identified by the attorney general.

6. The attorney general shall adopt rules providing for the disclosure, for lenders with a preferred lender arrangement, of philanthropic contributions made as specified in section 261F.1, subsection 5, paragraph “d”.

regarding private educational loans shall inform the borrower or prospective borrower of all available state education financing options, and financing options under Tit. IV of the federal Higher Education Act of 1965, as amended, including information on any terms and conditions of available loans under such title that are more favorable to the borrower.

2. A covered institution shall prohibit the bundling of private educational loans in financial aid packages, unless the borrower is ineligible for financing, is not eligible for any additional funding, or has exhausted the limits of loan eligibility, under Tit. IV of the federal Higher Education Act of 1965, as amended, or has not filled out a free application for federal student aid, and the bundling of the private educational loans is clearly and conspicuously disclosed to the borrower prior to acceptance of the package by the borrower. The provisions of this subsection shall not apply if the borrower does not desire or refuses to apply for a loan under Tit. IV of the federal Higher Education Act of 1965.

3. A lending institution included on a covered institution’s preferred lender list shall disclose, clearly and conspicuously, in any application for a private educational loan, all of the following:
   a. The rate of interest or the potential range of rates of interest applicable to the loan and whether such rates are fixed or variable.
   b. Limitations, if any, on interest rate adjustments, both in terms of frequency and amount, or lack thereof.
   c. Coborrower requirements, including changes in interest rates.
   d. Any fees associated with the loan.
   e. The repayment terms available on the loan.
   f. The opportunity for deferment or forbearance in repayment of the loan, including whether the loan payments can be deferred if the borrower is in school.
   g. Any additional terms and conditions applied to the loan, including any benefits that are contingent on the repayment behavior of the borrower.
   h. Information comparing federal and private educational loans.
   i. An example of the total cost of the educational loan over the life of the loan which shall be calculated using the following:
      (1) A principal amount and the maximum rate of interest actually offered by the lender, or, if there is no maximum rate provided under the terms of the loan agreement or applicable state or federal law, a statement to that effect.
      (2) Both with and without capitalization of interest, if that is an option for postponing interest payments.
   j. The consequences for the borrower of defaulting on a loan, including any limitations on the discharge of an educational loan in bankruptcy.
   k. Contact information for the lender.

4. Not later than January 31, 2009, the attorney general shall develop and make available to lenders a model disclosure form that is based on the requirements of subsection 3. Use of the model disclosure form by a lending institution in a manner consistent with this chapter shall constitute compliance with subsection 3.

2008 Acts, ch 1132, §7, 15

261E6 Standards for preferred lender lists.

1. A covered institution may make available a list of preferred lenders, in print or any other medium or form, for use by the covered institution’s students or their parents, provided the list meets the following conditions:
   a. The list is not used to deny or otherwise impede a borrower’s choice of lender.
   b. The list contains at least three lenders that are not affiliated and will make loans to borrowers or students attending the school. For the purposes of this paragraph, a lender is affiliated with another lender if any of the following applies:
      (1) The lenders are under the ownership or control of the same entity or individuals.
      (2) The lenders are wholly or partly owned subsidiaries of the same parent company.
      (3) The directors, trustees, or general partners, or individuals exercising similar functions, of one of the lenders constitute a majority of the persons holding similar positions with the other lender.
c. The list does not include lenders that have offered, or have offered in response to a solicitation by the covered institution, financial or other benefits to the covered institution in exchange for inclusion on the list or any promise that a certain number of loan applications will be sent to the lender by the covered institution or its students.

2. A covered institution that provides or makes available a preferred lender list shall do the following:
   a. Disclose to prospective borrowers, as part of the list, the method and criteria used by the covered institution in selecting any lender that it recommends or suggests.
   b. Provide comparative information to prospective borrowers about interest rates and other benefits offered by the lenders.
   c. Include a prominent statement in any information related to its preferred lender list advising prospective borrowers that the borrowers are not required to use one of the covered institution's recommended or suggested lenders.
   d. For first-time borrowers, refrain from assigning, through award packaging or other methods, a borrower's loan to a particular lender.
   e. Not cause unnecessary certification delays for borrowers who use a lender that is not included on the covered institution's preferred lender list.
   f. Update the preferred lender list and any information accompanying the list at least annually.

3. If the servicer of a private educational loan is changed by a lending institution, the lending institution shall disclose the change to the affected borrower.

4. A lending institution shall not be placed on a covered institution's preferred lender list or in favored placement on a covered institution's preferred lender list for a particular type of loan, in exchange for benefits provided to the covered institution or to the covered institution's students in connection with a different type of loan.

261E.7 Disclosure requirements.

Except for educational loans made, insured, or guaranteed by the federal government, a lending institution included on a covered institution's preferred lender list shall, upon receiving a request from a borrower, covered institution, or government entity, disclose to the requester in reasonable detail and form, the terms of private educational loans made to borrowers by that lending institution and the rates of interest charged to borrowers for private educational loans in the year preceding the disclosures.

3. If after providing notice and an opportunity for a hearing the attorney general determines that a lending institution has violated a provision of this chapter, such lending institution shall not be placed or remain on any covered institution's preferred lender list unless notice of such violation is provided to all potential borrowers of the covered institution. However, consideration shall be given to the nature and severity of a violation of this chapter in determining whether and for how long to ban a lender from a preferred lender list.

4. Nothing in this section shall prohibit the attorney general from reaching a settlement

agreement with a covered institution, covered institution employee, or lending institution in order to effectuate the purposes of this section. Provided, however, if such settlement agreement is reached with a covered institution or lending institution, the attorney general shall provide notice of such action to the borrowers in a form and manner prescribed by the attorney general.

5. The attorney general shall deposit the funds generated pursuant to this section into the student lending education fund, created in section 261F.10.

262.10 Purchases — prohibitions.
No sale or purchase of real estate shall be made save upon the order of the board, made at a regular meeting, or one called for that purpose, and then in such manner and under such terms as the board may prescribe. Purchase payments may be made from appropriated capital funds or from other funds lawfully available for that purpose and allocated therefor by the board, or from any combination of the foregoing, but not from appropriated operating funds. In event of default, the only remedy of the seller shall be against the property itself and the rents and profits thereof, and in no event shall any deficiency judgment be entered or enforced against the state of Iowa, the board, or the institution for which the purchase was made. Provided, however, that no part of the tuition fees shall be used in the purchase of such real estate.

The maximum speed limit of all vehicles on institutional roads at institutions under the control of the state board of regents shall be forty-five miles per hour. All driving shall be confined to driveways designated by the state board. Whenever the state board shall determine that the speed limit hereinbefore set forth is greater than is reasonable or safe under the conditions found to exist at any place of congestion or upon any part of its institutional roads, said board shall determine and declare a reasonable and safe speed limit thereat which shall be effective when appropriate signs giving notice thereof are erected at such places of congestion or other parts of its institutional roads. or restrictions, the installation and maintenance of parking control devices, and assessment, enforcement, and collection of reasonable sanctions for the violation of the rules.

Any rules made pursuant to this section may be enforced under procedures adopted by the board for each institution under its control. Sanctions may be imposed upon students, faculty and staff for violation of the rules, including, but not limited to, a reasonable monetary sanction which may be deducted from student deposits and faculty or staff salaries or other funds in the possession of the institution, or added to student tuition bills. The rules made pursuant to this section may also be enforced by the impoundment of vehicles and bicycles parked in violation of the rules, and a reasonable fee may be charged for the cost of impoundment and storage, prior to the release of the vehicles and bicycles to their owners. Each institution under the control of the board shall establish procedures for the determination of controversies in connection with imposition of sanctions. The procedures shall require giving notice of the violation and the sanction involved and provide an opportunity for an administrative hearing. Judicial review of the administrative ruling may be sought in accordance with the terms of the Iowa administrative procedure Act, chapter 17A.

Notwithstanding the provisions of chapter 17A, a proceeding conducted by the state board of regents or an institution governed by the state board of regents to determine the validity of an assessment of a violation of traffic control and parking rules is not a contested case as defined in section 17A.2, subsection 5.

TEACHER EDUCATION PROGRAMS
— INCENTIVES

262.75 Incentives for cooperating teachers.
A cooperating teacher incentive program is established to encourage experienced teachers to serve as cooperating teachers for student teachers enrolled in the institutions of higher education under the control of the board. An individual who submits evidence to an institution that the individual has satisfactorily served as a cooperating teacher for a student teacher from any of the institutions of higher education under the control of the board for the duration of the student teaching experience shall receive from the institution either a monetary recompense or a reduction in tuition for graduate hours of coursework equivalent to the value of the monetary recompense, rounded to the nearest whole credit hour. If, because of a policy adopted by the board of directors employing the teacher, the amount of the monetary recompense is not made available to the teacher for the teacher’s own personal use or the salary paid to the cooperating teacher by the employing board is correspondingly reduced, the institution shall grant the teacher the reduction in tuition pursuant to this section in lieu of the monetary recompense.

In lieu of the payment of monetary recompense to a cooperating teacher, the cooperating teacher may direct that the monetary recompense be paid by the institution directly into a scholarship fund which has been established jointly by the board of directors of the school district that employs the teacher and the local teachers’ association. In such cases, the cooperating teacher shall receive neither monetary recompense nor any reduction in tuition at the institution.

REGENTS’ MINORITY AND WOMEN EDUCATORS ENHANCEMENT

262.81 Legislative intent.
The general assembly recognizes that educational programs designed to enhance the interrelation and cooperation among cultural, racial, and ethnic groups in society require the contribution and active participation of all ethnic and racial groups. The general assembly also recognizes that failure to include minority representation at the faculty level at the state universities contributes to cultural, racial, and ethnic isolation of minority students and does not reflect the realities of a multicultural and diverse society. Therefore, the “Regents’ Minority and Women Educators Enhancement” program is established to assist in the recruitment and retention of faculty that more adequately represents the diverse cultural, racial, and ethnic makeup of society and to improve the education of all students.

89 Acts, ch 319, §61

262.82 Regents’ minority and women educators enhancement program.
The board of regents shall establish a program to recruit minority educators to faculty positions in the universities under the board’s control. The program shall include, but is not limited to, the creation of faculty positions in all areas of academic pursuit.

The board of regents shall also establish a program to create faculty opportunities for women educators at the universities under the board’s control. The program shall include, but is not limited to, the creation of faculty positions in targeted shortage areas. The board of regents shall also develop and implement, in consultation with appropriate faculty representatives, tenure, promotion, and hiring policies that recognize the unique needs of faculty members who are principal caregivers to dependents.

As used in this section, “minority educator” means an educator who is a minority person as defined in section 261.102.

COLLEGE-BOUND PROGRAM

262.91 Legislative intent.
The general assembly recognizes that universities must provide an environment that enables all students to have an equal opportunity to succeed. The general assembly also recognizes that, because of inequalities in educational preparation, economic factors, and social circumstances, not all young Iowans have the same degree of access to Iowa’s higher education system. The general assembly further acknowledges that an early intervention system using public school districts, community agencies, and other state institutions can be useful in preparing young students to succeed in college. Therefore, the “College-bound”
program is established to ensure that the state’s universities and students’ local communities
become involved early in a student’s life by promoting and informing students about the
opportunities in higher education, so that lack of adequate personal resources is not a
barrier to attending college for young Iowans.

89 Acts, ch 319, §63

262.92 College-bound program.
1. The board of regents shall establish or contract to establish college-bound programs to
provide Iowa minority students with information and experiences relating to opportunities
offered at the regents’ universities. Programs developed may include, but are not limited to,
the following elements:
   a. Reinforcement of efforts to attract undergraduate students from age groups currently
      served by traditional methods of outreach which use high school and community college
      services.
   b. Extension of traditional student recruitment methods which are designed to encourage
      minority students in grades seven through twelve to pursue postsecondary academic courses
      of study.
   c. Identification, at each of the regents’ universities, of courses of study to be targeted for
      the recruitment of minority students.
   d. Offerings at the regents’ universities of innovative programs, which are experience
      oriented, for families with minority children.
2. The board of regents shall establish a voucher program for students in grades seven
   through twelve. Vouchers may be obtained by any qualified secondary student at any
   regents’ university upon completion of a college-bound program provided under subsection
1. Students may receive one voucher for each program. One or more vouchers entitle a
   student to priority over other persons applying for grants under the Iowa minority academic
   grants for economic success program established in section 261.101. Vouchers shall be
   submitted with the grant application within one year after a student graduates from high
   school at any higher education institution which offers grants under the Iowa minority
   academic grants for economic success program. Vouchers earned can only be used by the
   person who participated in the college-bound voucher program and are not transferable.
   Vouchers issued by a university under this program shall be signed by the president of the
   university.
3. The board of regents shall adopt rules to establish program guidelines for the
   universities under the board’s control and for the administration and coordination of
   program efforts. Rules adopted shall include methods of recording data relating to voucher
   recipients and making the data available to the college student aid commission.

The board is authorized to borrow money under this chapter, and the board may issue and sell negotiable bonds to pay all or any part of the cost of carrying out any project at
any institution and may refund and refinance bonds issued for any project or for refunding purposes at the same rate or at a higher or lower rate or rates of interest. Student fees and charges and institutional income received by one institution shall not be used to discharge bonds issued for or on account of another institution. All bonds issued under the terms of this chapter shall be exempt from taxation by the state of Iowa and the interest thereon shall be exempt from the state income tax.

A sufficient portion of the student fees and charges and institutional income received by each institution shall be held in trust by the treasurer thereof, separate and apart from all other funds, to be used solely and only for the purposes specified in this chapter and as may be required and provided for by the proceedings of the board authorizing the issuance of bonds. It shall be the duty of the treasurer of each institution to disburse funds from the proper account for the payment of the principal of and interest on the bonds

No taxes, appropriations, or other funds of the state of Iowa may be pledged for or used to pay such bonds or the interest thereon but any such bonds shall be payable solely and only as to both principal and interest from the student fees and charges and institutional income received by the institutions of higher learning under the control of the state board of regents as provided in this chapter, and the sole remedy for any breach or default of the terms of any such bonds or proceedings for their issuance shall be a proceeding either in law or in equity by suit, action, or mandamus to enforce and compel performance of the duties required by this chapter and the terms of the resolution under which such bonds are issued.

[C71, 73, 75, 77, 79, 81, §262A.11]

262A.12 Application for gifts, loans or grants.

262B.2 Legislative intent.

It is the intent of the general assembly that the three universities under the control of the state board of regents have as part of their missions the use of their universities’ expertise to expand and stimulate economic growth across the state. The purpose of the investments and job creation shall be to expand and stimulate Iowa’s economy, increase the wealth of Iowans, and increase the population of Iowa, which may be accomplished through research conducted within the state that will competitively position Iowa on an economic basis with other states and create high-wage, high-growth employers and jobs. Accredited private universities located in the state are encouraged to incorporate the intent of this section into the mission of their universities.

may undertake and carry out any project as defined in this chapter at the state university
of Iowa. The state board of regents is authorized to operate, control, maintain, and manage
buildings and facilities and additions to such buildings and facilities at said institution. All

263A.3 Bonds or notes issued.

1. The board is authorized to borrow money and to issue and sell negotiable bonds or notes
to pay all or any part of the cost of carrying out any project at the institution and to refund

the principal amount of the refunding bonds or notes may exceed the principal amount of the
bonds or notes to be refunded to the extent necessary to pay any premium due on the call of
the bonds or notes to be refunded or to fund interest in arrears or about to become due.

2. All bonds or notes issued under the provisions of this chapter shall be payable solely and
only from and shall be secured by an irrevocable pledge of a sufficient portion of the hospital

263A.6 Rates, fees and charges for services.
Whenever bonds or notes are issued by the state board of regents, it shall be the duty of said board to establish, impose, and collect rates, fees, and charges for services rendered by the hospitals, medical clinics, and medical laboratories of the institution and to adjust such rates, fees, and charges from time to time, in order to always provide amounts which, together with other hospital income, will be sufficient to pay the principal of and interest on such bonds or notes as the same become due and to maintain a reserve therefor, and said board is authorized to pledge a sufficient amount of the hospital income received by such institution for this purpose. All bonds or notes issued under the terms of this chapter shall be exempt from taxation by the state of Iowa and the interest thereon shall be exempt from the state income tax.

[C71, 73, 75, 77, 79, 81, §263A.6]

A certified copy of each resolution providing for the issuance of bonds or notes under this chapter shall be filed with the treasurer of the institution and it shall be the duty of said treasurer to keep and maintain separate accounts for each issue of bonds or notes in accordance with the covenants and directions set out in the resolution providing for the issuance thereof. A sufficient portion of the hospital income received by the institution shall be held in trust by the treasurer thereof, separate and apart from all other funds, to be used solely and only for the purposes specified in this chapter and as may be required and provided for by the proceedings of the board authorizing the issuance of bonds or notes. It shall be the duty of the treasurer of the institution to disburse funds from the proper account for the payment of the principal of and interest on the bonds or notes in accordance with the directions and covenants of the resolution authorizing the issuance thereof.

If the amount of bonds or notes issued under this chapter exceeds the actual costs of the projects for which the bonds or notes were issued, the amount of the difference shall be used to pay the principal and interest due on bonds or notes issued under this chapter.

No taxes, or other funds of the state of Iowa appropriated to the institution may be pledged for or used to pay such bonds or notes or the interest thereon but any such bonds or notes shall be payable solely and only as to both principal and interest from the hospital income received by the institution as here-inbefore provided, and the sole remedy for any breach or default of the terms of any such bonds or notes or proceedings for their issuance shall be a proceeding either in law or in equity by suit, action, or mandamus to enforce and compel performance of the duties required by this chapter and the terms of the resolution under which such bonds or notes are issued.

C93, §272.1

272.2 Board of examiners created.
The board of educational examiners is created to exercise the exclusive authority to:

1. a. License practitioners, which includes the authority to establish criteria for the licenses; establish issuance and renewal requirements; create application and renewal forms; create licenses that authorize different instructional functions or specialties; develop a code of professional rights and responsibilities, practices, and ethics, which shall, among other things, address the failure of a practitioner to fulfill contractual obligations under section 279.13; and develop any other classifications, distinctions, and procedures which may be necessary to exercise licensing duties. In addressing the failure of a practitioner to fulfill contractual obligations, the board shall consider factors beyond the practitioner’s control.

b. Notwithstanding section 272.28, subsection 1, a teacher shall be licensed in accordance with rules adopted pursuant to chapter 272, Code 2001, if the teacher successfully completes a beginning teacher mentoring program approved pursuant to chapter 256E, Code 2001, on or before June 30, 2002, or is employed by a school district that does not offer a beginning teacher mentoring and induction program approved in accordance with this chapter during the school year beginning July 1, 2001.

2. Establish, collect, and refund fees for a license.

3. Enter into reciprocity agreements with other equivalent state boards or a national certification board to provide for licensing of applicants from other states or nations.

4. Enforce rules adopted by the board through revocation or suspension of a license, or by other disciplinary action against a practitioner or professional development program licensed by the board of educational examiners. The board shall designate who may or shall initiate a licensee disciplinary investigation and a licensee disciplinary proceeding, and who shall prosecute a disciplinary proceeding and under what conditions, and shall state the procedures for review by the board of findings of fact if a majority of the board does not hear the disciplinary proceeding. However, in a case alleging failure of a practitioner to fulfill contractual obligations, the person who files a complaint with the board, or the complainant’s designee, shall represent the complainant in a disciplinary hearing conducted in accordance with this chapter.
5. Apply for and receive federal or other funds on behalf of the state for purposes related to its duties.

6. Evaluate and conduct studies of board standards.

7. Hire an executive director, legal counsel, and other personnel and control the personnel administration of persons employed by the board.

8. Hear appeals regarding application, renewal, suspension, or revocation of a license. Board action is final agency action for purposes of chapter 17A.

9. Establish standards for the determination of whether an applicant is qualified to perform the duties required for a given license.

10. Issue statements of professional recognition to school service personnel who have attained a minimum of a baccalaureate degree and who are licensed by another professional licensing board, including but not limited to athletic trainers licensed under chapter 152D.

11. Make recommendations to the state board of education concerning standards for the approval of professional development programs.

12. Establish, under chapter 17A, rules necessary to carry out board duties, and establish a budget request.

13. Adopt rules to provide for nontraditional preparation options for licensing persons who hold a bachelor’s degree from an accredited college or university, who do not meet other requirements for licensure.

14. Adopt rules to determine whether an applicant is qualified to perform the duties for which a license is sought. The rules shall include all of the following:

   a. The board may deny a license to or revoke the license of a person upon the board’s finding by a preponderance of evidence that either the person has been convicted of a crime or that there has been a founded report of child abuse against the person. Rules adopted in accordance with this paragraph shall provide that in determining whether a person should be denied a license or that a practitioner’s license should be revoked, the board shall consider the nature and seriousness of the founded abuse or crime in relation to the position sought, the time elapsed since the crime was committed, the degree of rehabilitation which has taken place since the incidence of founded abuse or the commission of the crime, the likelihood that the person will commit the same abuse or crime again, and the number of founded abuses committed by or criminal convictions of the person involved.

   b. Notwithstanding paragraph “a”, the rules shall require the board to disqualify an applicant for a license or to revoke the license of a person for any of the following reasons:

      (1) The person entered a plea of guilty to, or has been found guilty of, any of the following offenses established pursuant to Iowa law or offenses of a similar nature established under the laws of any other state or of the United States, or any other country, whether or not a sentence is imposed:

         (a) Any of the following forcible felonies included in section 702.11: child endangerment, assault, murder, sexual abuse, or kidnapping.

         (b) Any of the following sexual abuse offenses, as provided in chapter 709, involving a child:

            (iii) Assault with intent to commit sexual abuse.

            (iv) Indecent contact with a child.

            (v) Sexual exploitation by a counselor.

            (vi) Lascivious conduct with a minor.

      (2) The applicant is less than twenty-one years of age except as provided in section 272.31, subsection 1, paragraph “e”. However, a student enrolled in a practitioner preparation program who meets board requirements for a temporary, limited-purpose license who is
seeking to teach as part of a practicum or internship may be less than twenty-one years of age.

(3) The applicant’s application is fraudulent.

(4) The applicant’s license or certification from another state is suspended or revoked.

(5) The applicant fails to meet board standards for application for an initial or renewed license.

c. Qualifications or criteria for the granting or revocation of a license or the determination of an individual’s professional standing shall not include membership or nonmembership in any teachers’ organization.

d. An applicant for a license or certificate under this chapter shall demonstrate that the requirements of the license or certificate have been met and the burden of proof shall be on the applicant.

15. Adopt rules that require specificity in written complaints that are filed by individuals who have personal knowledge of an alleged violation and which are accepted by the board, provide that the jurisdictional requirements as set by the board in administrative rule are met on the face of the complaint before initiating an investigation of allegations, provide that any investigation be limited to the allegations contained on the face of the complaint, provide for an adequate interval between the receipt of a complaint and public notice of the complaint, permit parties to a complaint to mutually agree to a resolution of the complaint filed with the board, allow the respondent the right to review any investigative report upon a finding of probable cause for further action by the board, require that the conduct providing the basis for the complaint occurred within three years of discovery of the event by the complainant unless good cause can be shown for an extension of this limitation, and require complaints to be resolved within one hundred eighty days unless good cause can be shown for an extension of this limitation.

16. Adopt criteria for administrative endorsements that allow a person to achieve the endorsement authorizing the person to serve as an elementary or secondary principal without regard to the grade level at which the person accrued teaching experience.

17. Adopt rules to require that a background investigation be conducted by the division of criminal investigation of the department of public safety on all initial applicants for licensure. The board shall also require all initial applicants to submit a completed fingerprint packet and shall use the packet to facilitate a national criminal history background check. The board shall have access to, and shall review the sex offender registry information under section 692A.121 available to the general public, the central registry for child abuse information established under chapter 235A, and the dependent adult abuse records maintained under chapter 235B for information regarding applicants for license renewal.

18. May adopt rules for practitioners who are not eligible for a statement of professional recognition under subsection 10, but have received a baccalaureate degree and provide a service to students at any or all levels from prekindergarten through grade twelve for a school district, accredited nonpublic school, area education agency, or preschool program established pursuant to chapter 256C.

A person employed as a practitioner shall hold a valid license with an endorsement for the type of service for which the person is employed. This section does not limit the duties or powers of a school board to select or discharge practitioners or to terminate practitioners’ contracts. A professional development program, except for a program offered by a practitioner preparation institution or area education agency and approved by the state board of education, must possess a valid license for the types of programs offered.

The executive director of the board may grant or deny license applications, applications for renewal of a license, and suspension or revocation of a license. The rules shall specify rights, responsibilities, levels, and qualifications for the certificate. Applicants shall be disqualified for any reason specified in section 272.2, subsection 14, or in administrative rule. Notwithstanding section 272.2, subsection 14, paragraph “b”, subparagraph (2), the board may issue a para-educator certificate to a person who is at least eighteen years of age. A person holding a para-educator certificate shall not perform the duties of a licensed practitioner. A certificate issued pursuant to this chapter shall not be considered a teacher or administrator license for any purpose specified by law, including the purposes specified under this chapter or chapter 279.

272.13 Hearing procedures — confidentiality.
1. Hearings before the board shall be conducted in the same manner as contested cases under chapter 17A. The board may subpoena books, papers, records, and any other real evidence necessary for the board to decide whether it should institute a contested case hearing. At the hearing the board may administer oaths and issue subpoenas to compel the attendance of witnesses and the production of other evidence. Subpoenas may be issued by the board to a party to a hearing, if the party demonstrates that the evidence or witnesses’ testimony is relevant and material to the hearing. Service of process and subpoenas for board hearings shall be conducted in accordance with the law applicable to the service of process and subpoenas in civil actions.

2. Witnesses subpoenaed to appear before the board shall be reimbursed for mileage and necessary expenses and shall receive per diem compensation by the board, unless the witness is an employee of the state or a political subdivision, in which case the witness shall receive reimbursement only for mileage and necessary expenses.

3. All complaint files, investigation files, other investigation reports, and other investigative information in the possession of the board or its employees or agents, which relate to licensee discipline, are privileged and confidential, and are not subject to discovery, subpoena, or other means of legal compulsion for their release to a person other than the respondent and the board and its employees and agents involved in licensee discipline, and are not admissible in evidence in a judicial or administrative proceeding other than the proceeding involving licensee discipline. A complaint, any amendment to a complaint,

and any supporting documents shall be provided to the respondent immediately upon the board’s determination that jurisdictional requirements have been met and prior to the commencement of the board’s investigation. Investigative information in the possession of the board or its employees or agents which relates to licensee discipline may be disclosed to appropriate licensing authorities within this state, the appropriate licensing authority in another state, the District of Columbia, or a territory or country in which the licensee is licensed or has applied for a license. A final written decision and finding of fact of the board in a disciplinary proceeding is a public record.

272.15 Reporting requirements — complaints.

1. The board of directors of a school district or area education agency, the superintendent of a school district or the chief administrator of an area education agency, and the authorities in charge of a nonpublic school shall report to the board the nonrenewal or termination, for reasons of alleged or actual misconduct, of a person's contract executed under sections 279.12, 279.13, 279.15 through 279.21, 279.23, and 279.24, and the resignation of a person who holds a license, certificate, or authorization issued by the board as a result of or following an incident or allegation of misconduct that, if proven, would constitute a violation of the rules adopted by the board to implement section 272.2, subsection 14, paragraph "b", subparagraph (1), when the board or reporting official has a good faith belief that the incident occurred or the allegation is true. Information reported to the board in accordance with this section is privileged and confidential, and except as provided in section 272.13, is not subject to discovery, subpoena, or other means of legal compulsion for its release to a person other than the respondent and the board and its employees and agents involved in licensee discipline, and is not admissible in evidence in a judicial or administrative proceeding other than the proceeding involving licensee discipline. The board shall review the information reported to determine whether a complaint should be initiated. In making that determination, the board shall consider the factors enumerated in section 272.2, subsection 14, paragraph “a”. For purposes of this section, unless the context otherwise requires, “misconduct” means an action disqualifying an applicant for a license or causing the license of a person to be revoked or suspended in accordance with the rules adopted by the board to implement section 272.2, subsection 14, paragraph “b”, subparagraph (1).

2. If, in the course of performing official duties, an employee of the department becomes aware of any alleged misconduct by an individual licensed under this chapter, the employee shall report the alleged misconduct to the board of educational examiners under rules adopted pursuant to subsection 1.

3. If the executive director of the board verifies through a review of official records that a teacher who holds a practitioner’s license under this chapter is assigned instructional duties for which the teacher does not hold the appropriate license or endorsement, either by
grade level or subject area, by a school district or accredited nonpublic school, the executive
director may initiate a complaint against the teacher and the administrator responsible for
the inappropriate assignment of instructional duties.

required by the national board for an Iowa endorsement or license meet or exceed the
requirements contained in rules adopted under this chapter for that endorsement or license,
the board of educational examiners shall issue endorsements or licenses to holders of

4. A requirement that prescribes minimum experiences and responsibilities to be
accomplished during the student teaching experience by the student teacher and by the
cooperating teacher based upon recommendations of the department of education after
consultation with teacher education faculty members in colleges and universities. The
student teaching experience shall include opportunities for the student teacher to become
knowledgeable about the Iowa teaching standards, including a mock evaluation performed
by the cooperating teacher. The mock evaluation shall not be used as an assessment tool
by the practitioner preparation program. The student teaching experience shall consist of
interactive experiences involving the college or university personnel, the student teacher,
the cooperating teacher, and administrative personnel from the cooperating teacher’s school
district.

5. A requirement that each approved practitioner preparation or professional

The terms and conditions of a written contract entered into with a preschool pursuant to this section shall provide that a student teacher be under the direct supervision of an appropriately licensed cooperating teacher who is employed to teach at the preschool. CHAPTER 272A
INTERSTATE AGREEMENT ON QUALIFICATION
OF EDUCATIONAL PERSONNEL

272A.1 Interstate agreement. 272A.3 Contracts on file.
272A.2 Designated state official.

272A.1 Interstate agreement.
The interstate agreement on qualification of educational personnel is hereby enacted into law and entered into with all jurisdictions legally joining therein, in the form substantially as follows:
1. Article I — Purpose, findings, and policy.
   a. The states party to this agreement, desiring by common action to improve their respective school systems by utilizing the teacher or other professional educational person wherever educated, declare that it is the policy of each of them, on the basis of cooperation with one another, to take advantage of the preparation and experience of such persons wherever gained, thereby serving the best interest of society, of education, and of the teaching profession. It is the purpose of this agreement to provide for the development and execution of such programs of cooperation as will facilitate the movement of teachers and other professional educational personnel among the states party to it, and to authorize specific interstate educational personnel contracts to achieve that end.
   b. The party states find that included in the large movement of population among all sections of the nation are many qualified educational personnel who move for family and other personal reasons but who are hindered in using their professional skill and experience in their new locations. Variations from state to state in requirements for qualifying educational personnel discourage such personnel from taking the steps necessary to qualify in other states. As a consequence, a significant number of professionally prepared and experienced educators is lost to our school systems. Facilitating the employment of qualified educational personnel, without reference to their states of origin, can increase the available educational resources. Participation in this agreement can increase the availability of educational personnel.
2. Article II — Definitions. As used in this agreement and contracts made pursuant to it, unless the context clearly requires otherwise:
   a. "Educational personnel" means persons who must meet requirements pursuant to state law as a condition of employment in educational programs.
   b. "Designated state official" means the education official of a state selected by that state to negotiate and enter into, on behalf of that state, contracts pursuant to this agreement.
   c. "Accept", or any variant thereof, means to recognize and give effect to one or more determinations of another state relating to the qualifications of educational personnel in lieu of making or requiring a like determination that would otherwise be required by or pursuant to the laws of a receiving state.
   d. "State" means a state, territory, or possession of the United States; the District of Columbia; or the Commonwealth of Puerto Rico.
   e. "Originating state" means a state, and the subdivision thereof, if any, whose determination that certain educational personnel are qualified to be employed for specific duties in schools is acceptable in accordance with the terms of a contract made pursuant to article III of this agreement.
   f. "Receiving state" means a state, and the subdivisions thereof, which accepts educational personnel in accordance with the terms of a contract made pursuant to article III of this agreement.
3. Article III — Interstate educational personnel contracts.
a. The designated state official of a party state may make one or more contracts on behalf of that state with one or more other party states providing for the acceptance of educational personnel. Any such contract for the period of its duration shall be applicable to and binding on the states whose designated state officials enter into it, and the subdivisions of those states, with the same force and effect as if incorporated in this agreement. A designated state official may enter into a contract pursuant to this article only with states in which the official finds that there are programs of education, licensure standards or other acceptable qualifications that assure preparation or qualification of educational personnel on a basis sufficiently comparable, even though not identical to that prevailing in the official’s state.

b. Any such contract shall provide for:
   (1) Its duration.
   (2) The criteria to be applied by an originating state in qualifying educational personnel for acceptance by a receiving state.
   (3) Such waivers, substitutions, and conditional acceptances as shall aid the practical effectuation of the contract without sacrifice of basic educational standards.
   (4) Any other necessary matters.

c. No contract made pursuant to this agreement shall be for a term longer than five years but any such contract may be renewed for like or lesser periods.

d. Any contract dealing with acceptance of educational personnel on the basis of their having completed an educational program shall specify the earliest date or dates on which originating state approval of the program or programs involved can have occurred. No contract made pursuant to this agreement shall require acceptance by a receiving state of any persons qualified because of successful completion of a program prior to January 1, 1954.

e. The license or other acceptance of a person who has been accepted pursuant to the terms of a contract shall not be revoked or otherwise impaired because the contract has expired or been terminated. However, any license or other qualifying document may be revoked or suspended on any ground which would be sufficient for revocation or suspension of a license or other qualifying document initially granted or approved in the receiving state.

f. A contract committee composed of the designated state officials of the contracting states or their representatives shall keep the contract under continuous review, study means of improving its administration, and report no less frequently than once a year to the heads of the appropriate education agencies of the contracting states.

4. Article IV — Approved and accepted programs.
   a. Nothing in this agreement shall be construed to repeal or otherwise modify any law or regulation of a party state relating to the approval of programs of educational preparation having effect solely on the qualification of educational personnel within that state.

b. To the extent that contracts made pursuant to this agreement deal with the educational requirements for the proper qualification of educational personnel, acceptance of a program of educational preparation shall be in accordance with such procedures and requirements as may be provided in applicable contract.

5. Article V — Interstate cooperation. The party states agree that:
   a. They will, so far as practicable, prefer the making of multilateral contracts pursuant to article III of this agreement.

b. They will facilitate and strengthen cooperation in interstate certification and other elements of educational personnel qualification and for this purpose shall cooperate with agencies, organizations, and associations interested in certification and other elements of educational personnel qualification.

6. Article VI — Agreement evaluation. The designated state officials of any party states may meet from time to time as a group to evaluate programs under the agreement, and to formulate recommendations for changes.

7. Article VII — Other arrangements. Nothing in this agreement shall be construed to prevent or inhibit other arrangements or practices of any party state or states to facilitate the interchange of educational personnel.

8. Article VIII — Effect and withdrawal.
a. This agreement shall become effective when enacted into law by two states. Thereafter it shall become effective as to any state upon its enactment of this agreement.

b. Any party state may withdraw from this agreement by enacting a statute repealing the same, but no such withdrawal shall take effect until one year after the governor of the withdrawing state has given notice in writing of the withdrawal to the governors of all other party states.

c. No withdrawal shall relieve the withdrawing state of any obligation imposed upon it by a contract to which it is a party. The duration of contracts and the methods and conditions of withdrawal therefrom shall be those specified in their terms.

9. Article IX — Construction and severability. This agreement shall be liberally construed so as to effectuate the purposes thereof. The provisions of this agreement shall be severable and if any phrase, clause, sentence, or provision of this agreement is declared to be contrary to the constitution of any state or of the United States, or the application thereof to any government, agency, person, or circumstance is held invalid, the validity of the remainder of this agreement and the applicability thereof to any government, agency, person, or circumstance shall not be affected thereby. If this agreement shall be held contrary to the constitution of any state participating therein, the agreement shall remain in full force and effect as to the state affected as to all severable matters.

The executive director shall enter into contracts pursuant to section 272A.1, article III, of the agreement only with the approval of the specific text thereof by the board of educational examiners.

CHAPTER 272B
EDUCATION COMPACT

272B.1 Compact for education.
272B.2 Education commission of the states.
272B.3 Filing bylaws.

272B.1 Compact for education.
The compact for education is hereby entered into and enacted into law with all jurisdictions legally joining therein, in the form substantially as follows:
1. **Article I — Purpose and policy.**
   a. It is the purpose of this compact to:
      (1) Establish and maintain close cooperation and understanding among executive, legislative, professional educational and lay leadership on a nationwide basis at the state and local levels.
      (2) Provide a forum for the discussion, development, crystallization and recommendation of public policy alternatives in the field of education.
      (3) Provide a clearing house of information on matters relating to educational problems and how they are being met in different places throughout the nation, so that the executive and legislative branches of state government and of local communities may have ready access to the experience and record of the entire country, and so that both lay and professional groups in the field of education may have additional avenues for the sharing of experience and the interchange of ideas in the formation of public policy in education.
      (4) Facilitate the improvement of state and local educational systems so that all of them will be able to meet adequate and desirable goals in a society which requires continuous qualitative and quantitative advance in educational opportunities, methods and facilities.
   b. It is the policy of this compact to encourage and promote local and state initiative in the development, maintenance, improvement and administration of educational systems and institutions in a manner which will accord with the needs and advantages of diversity among localities and states.
   c. The party states recognize that each of them has an interest in the quality and quantity of education furnished in each of the other states, as well as in the excellence of its own educational systems and institutions, because of the highly mobile character of individuals within the nation, and because the products and services contributing to the health, welfare and economic advancement of each state are supplied in significant part by persons educated in other states.

2. **Article II — State defined.** As used in this compact, “state” means a state, territory or possession of the United States, the District of Columbia, or the commonwealth of Puerto Rico.

3. **Article III — The commission.**
   a. The education commission of the states, hereinafter called “the commission”, is hereby established. The commission shall consist of seven members representing each party state. One of such members shall be the governor; two shall be members of the state legislature selected by its respective houses and serving in such manner as the legislature may determine; and four shall be appointed by and serve at the pleasure of the governor, unless the laws of the state otherwise provide. If the laws of a state prevent legislators from serving on the commission, six members shall be appointed and serve at the pleasure of the governor, unless the laws of the state otherwise provide. In addition to any other principles or requirements which a state may establish for the appointment and service of its members of the commission, the guiding principle for the composition of the membership on the commission from each party state shall be that the members representing such state shall, by virtue of their training, experience, knowledge or affiliations be in a position collectively to reflect broadly the interests of the state government, higher education, the state education system, local education, lay and professional, public and nonpublic educational leadership. Of those appointees, one shall be the head of a state agency or institution, designated by the governor, having responsibility for one or more programs of public education. In addition to the members of the commission representing the party states, there may be not to exceed ten nonvoting commissioners selected by the steering committee for terms of one year. Such commissioners shall represent leading national organizations or professional educators or persons concerned with educational administration.
   b. The members of the commission shall be entitled to one vote each on the commission. No action of the commission shall be binding unless taken at a meeting at which a majority of the total number of votes on the commission are cast in favor thereof. Action of the commission shall be only at a meeting at which a majority of the commissioners are present. The commission shall meet at least once a year. In its bylaws, and subject to such directions and limitations as may be contained therein, the commission may delegate the exercise of
any of its powers to the steering committee or the executive director, except for the power to approve budgets or requests for appropriations, the power to make policy recommendations pursuant to article IV and adoption of the annual report pursuant to paragraph “j” of this article.

c. The commission shall have a seal.

d. The commission shall elect annually, from among its members, a chairperson, who shall be a governor, a vice chairperson and a treasurer. The commission shall provide for the appointment of an executive director. Such executive director shall serve at the pleasure of the commission, and together with the treasurer and such other personnel as the commission may deem appropriate shall be bonded in such amount as the commission shall determine. The executive director shall be secretary.

e. Irrespective of the civil service, personnel or other merit system laws of any of the party states, the executive director subject to the approval of the steering committee shall appoint, remove or discharge such personnel as may be necessary for the performance of the functions of the commission, and shall fix the duties and compensation of such personnel. The commission in its bylaws shall provide for the personnel policies and programs of the commission.

f. The commission may borrow, accept or contract for the services of personnel from any party jurisdiction, the United States, or any subdivision or agency of the aforementioned governments, or from any agency of two or more of the party jurisdictions or their subdivisions.

g. The commission may accept for any of its purposes and functions under this compact any and all donations, and grants of money, equipment, supplies, materials and services, conditional or otherwise, from any state, the United States, or any other governmental agency, or from any person, firm, association, foundation, or corporation, and may receive, utilize and dispose of the same. Any donation or grant accepted by the commission pursuant to this paragraph or services borrowed pursuant to paragraph “f” of this article shall be reported in the annual report of the commission. Such report shall include the nature, amount and conditions, if any, of the donation, grant, or services borrowed, and the identity of the donor or lender.

h. The commission may establish and maintain such facilities as may be necessary for the transacting of its business. The commission may acquire, hold, and convey real and personal property and any interest therein.

i. The commission shall adopt bylaws for the conduct of its business and shall have the power to amend and rescind these bylaws. The commission shall publish its bylaws in convenient form and shall file a copy thereof and a copy of any amendment thereto, with the appropriate agency or officer in each of the party states.

j. The commission annually shall make to the governor and legislature of each party state a report covering the activities of the commission for the preceding year. The commission may make such additional reports as it may deem desirable.

4. Article IV — Powers. In addition to authority conferred on the commission by other provisions of the compact, the commission shall have authority to:

a. Collect, correlate, analyze and interpret information and data concerning educational needs and resources.

b. Encourage and foster research in all aspects of education, but with special reference to the desirable scope of instruction, organization, administration, and instructional methods and standards employed or suitable for employment in public educational systems.

c. Develop proposals for adequate financing of education as a whole and at each of its many levels.

d. Conduct or participate in research of the types referred to in this article in any instance where the commission finds that such research is necessary for the advancement of the purposes and policies of this compact, utilizing fully the resources of national associations, regional compact organizations for higher education, and other agencies and institutions, both public and private.

e. Formulate suggested policies and plans for the improvement of public education as a
whole, or for any segment thereof, and make recommendations with respect thereto available
to the appropriate governmental units, agencies and public officials.

f. Do such other things as may be necessary or incidental to the administration of any of
its authority or functions pursuant to this compact.

5. Article V — Cooperation with federal government.
   a. If the laws of the United States specifically so provide, or if administrative provision is
   made therefor within the federal government, the United States may be represented on
   the commission by not to exceed ten representatives. Any such representative or representatives
   of the United States shall be appointed and serve in such manner as may be provided by or
   pursuant to federal law, and may be drawn from any one or more branches of the federal
   government, but no such representative shall have a vote on the commission.
   b. The commission may provide information and make recommendations to any executive
   or legislative agency or officer of the federal government concerning the common educational
   policies of the states, and may advise with any such agencies or officers concerning any matter
   of mutual interest.

6. Article VI — Committees.

   commission at its next regular ensuing meeting following the occurrence of any vacancy
   shall fill it for the unexpired term.
   (4) No person shall serve more than two terms as a member of the steering committee;
   provided that service for a partial term of one year or less shall not be counted toward the

III, paragraph “g”, the commission shall not incur any obligation prior to the allotment of funds by the party states adequate to meet the same.

 d. The commission shall keep accurate accounts of all receipts and disbursements. The receipts and disbursements of the commission shall be subject to the audit and accounting procedures established by its bylaws. However, all receipts and disbursements of funds handled by the commission shall be audited yearly by a qualified public accountant, and the report of the audit shall be included in and become part of the annual reports of the commission.

 e. The accounts of the commission shall be open at any reasonable time for inspection by duly constituted officers of the party states and by any persons authorized by the commission.

 f. Nothing contained herein shall be construed to prevent commission compliance with laws relating to audit or inspection of accounts by or on behalf of any government contributing to the support of the commission.

8. Article VIII — Eligible parties — entry into and withdrawal.

 a. This compact shall have as eligible parties all states, territories, and possessions of the United States, the District of Columbia, and the commonwealth of Puerto Rico. In respect of any such jurisdiction not having a governor, the term “governor”, as used in this compact, shall mean the closest equivalent official of such jurisdiction.

 b. Any state or other eligible jurisdiction may enter into this compact and it shall become binding thereon when it has adopted the same: Provided that in order to enter into initial effect, adoption by at least ten eligible party jurisdictions shall be required.

 c. Any party state may withdraw from this compact by enacting a statute repealing the same, but no such withdrawal shall take effect until one year after the governor of the withdrawing state has given notice in writing of the withdrawal to the governors of all other party states. No withdrawal shall affect any liability already incurred by or chargeable to a party state prior to the time of such withdrawal.

9. Article IX — Construction and severability. This compact shall be liberally construed so as to effectuate the purposes thereof. The provisions of this compact shall be severable and if any phrase, clause, sentence or provision of this compact is declared to be contrary to the constitution of any state or of the United States, or the application thereof to any government, agency, person or circumstance is held invalid, the validity of the remainder of this compact and the applicability thereof to any government, agency, person or circumstance shall not be affected thereby. If this compact shall be held contrary to the constitution of any state participating therein, the compact shall remain in full force and effect as to the state affected as to all severable matters.

   b. Revoke, or suspend either until further order of the board or for a specified period, the privilege of a licensee to engage in one or more specified procedures, methods, or acts incident to the practice of the profession, if pursuant to hearing or stipulated or agreed settlement the board finds that because of a lack of education or experience, or because of negligence, or careless acts or omissions, or because of one or more intentional acts or omissions, the licensee has demonstrated a lack of qualifications which are necessary to assure the residents of this state a high standard of professional and occupational care.
   c. Impose a period of probation under specified conditions, whether or not in conjunction with other sanctions.

However, a final written decision and finding of fact of a licensing board in a disciplinary proceeding, including a decision referred to in section 272C.3, subsection 4, is a public record.

   c. “Joint districts” means districts that lie in two or more adjacent area education agencies.
   d. “Marginally adjacent district” or “marginally adjacent territory” means a district or territory which is separated from a second district or territory by property which is part of a third school district which completely surrounds one of the two districts.
   e. “Registered voter” means registered voter as defined in section 39.3, subsection 11.
   f. “Regular board” means the board of a reorganized district that begins to function at the organizational meeting following the third regular school election held after the effective date of the school reorganization, and is comprised of members who were elected to the current terms or were appointed to replace members who were elected.
   g. “School districts affected” means the school districts named in the reorganization petition whether a school district is affected in whole or in part.

If a school district ceases to maintain kindergarten and twelve grades except as otherwise provided in section 28E.9, 256.13, 280.15, 282.7, subsection 1 or subsections 1 and 3, or section 282.8, it shall reorganize within six months or the state board shall attach the school district not maintaining kindergarten and twelve grades to one or more adjacent districts. Voluntary reorganizations under this chapter shall be commenced only if the affected school districts are contiguous or marginally adjacent to one another. A reorganized district shall meet the requirements of section 275.3.

3. If a district is attached, division of assets and liabilities shall be made as provided in sections 275.29 to 275.31. The area education agency boards shall develop detailed studies
and surveys of the school districts within the area education agency and all adjacent territory for the purpose of providing for reorganization of school districts in order to effect more economical operation and the attainment of higher standards of education in the schools. The plans shall be revised periodically to reflect reorganizations which may have taken place in the area education agency and adjacent territory.

275.2 Scope of surveys.

The scope of the studies and surveys shall include the following matters in the various districts in the area education agency and all districts adjacent to the area education agency: the adequacy of the educational program, pupil enrollment, property valuations, existing buildings and equipment, natural community areas, road conditions, transportation, economic factors, individual attention given to the needs of students, the opportunity of students to participate in a wide variety of activities related to the total development of the student, and other matters that may bear on educational programs meeting minimum standards required by law. The plans shall also include suggested alternate plans that incorporate the school districts in the area education agency into reorganized districts that meet the enrollment standards specified in section 275.3 and may include alternate plans proposed by school districts for sharing programs under section 28E.9, 256.13, 280.15, 282.7, or 282.10 as an alternative to school reorganization.

Provided, however, that the director of the department of education shall have authority to grant permission to an area education agency board to approve the formation or enlargement of a school district containing a lower school enrollment than required in this section on the written request of such area education agency board if such request is accompanied by evidence tending to show that sparsity of population, natural barriers or other good reason makes it impracticable to meet the school enrollment requirement.

When any school district is enlarged, reorganized, or changes its boundaries pursuant to the plans hereinabove provided for, such enlargement, reorganization, or boundary change shall be accomplished by the method hereinafter provided.

The provisions of sections 275.1 to 275.5, relating to studies, surveys, hearings and adoption of plans shall constitute a mandatory prerequisite to the effectuation of any proposal for district boundary change. 275.10 Reserved.

275.11 Proposals involving two or more districts.
Subject to the approval of the area education agency board, contiguous or marginally adjacent territory located in two or more school districts may be united into a single district in the manner provided in sections 275.12 to 275.22.

[SS15, §2794-a; C24, 27, 31, 35, 39, §4166; C46, 50, §276.13; C54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §275.11]

275.12 Petition — method of election.
1. A petition describing the boundaries, or accurately describing the area included therein by legal descriptions, of the proposed district, which boundaries or area described shall conform to plans developed or the petition shall request change of the plan, shall be filed with the area education agency administrator of the area education agency in which the greatest number of registered voters reside. However, the area education agency administrator shall not accept a petition if any of the school districts affected have approved the issuance of general obligation bonds at an election pursuant to section 296.6 during the preceding six-month period. The petition shall be signed by eligible electors residing in each existing school district or portion affected equal in number to at least twenty percent of the number of registered voters in the school district or portion affected, or four hundred eligible electors, whichever is the smaller number.

2. The petition filed under subsection 1 shall also state the name of the proposed school district and the number of directors which may be either five or seven and the method of election of the school directors of the proposed district. The method of election of the directors shall be one of the following optional plans:
   a. Election at large from the entire district by the electors of the entire district.
   b. Division of the entire school district into designated geographical single director or multi-director subdistricts on the basis of population for each director, to be known as director districts, each of which shall be represented on the school board by one or more directors
who shall be residents of the director district but who shall be elected by the vote of the electors of the entire school district. The boundaries of the director districts and the area and population included within each district shall be such as justice, equity, and the interests of the people may require. Changes in the boundaries of director districts shall not be made during a period commencing sixty days prior to the date of the regular school election. As far as practicable, the boundaries of the districts shall follow established political or natural geographical divisions.

c. Election of not more than one-half of the total number of school directors at large from the entire district and the remaining directors from and as residents of designated single-member or multimember director districts into which the entire school district shall be divided on the basis of population for each director. In such case, all directors shall be elected by the electors of the entire school district. Changes in the boundaries of director districts shall not be made during a period commencing sixty days prior to the date of the regular school election.

d. Division of the entire school district into designated geographical single director or multi-director subdistricts on the basis of population for each director, to be known as director districts, each of which shall be represented on the school board by one or more directors who shall be residents of the director district and who shall be elected by the voters of the director district. Place of voting in the director districts shall be designated by the commissioner of elections. Changes in the boundaries of director districts shall not be made during a period commencing sixty days prior to the date of the regular school election.

e. In districts having seven directors, election of three directors at large by the electors of the entire district, no more than two at each regular school election, and election of the remaining directors as residents of and by the electors of individual geographic subdistricts established on the basis of population and identified as director districts, no more than two at each regular school election. Boundaries of the subdistricts shall follow precinct boundaries, as far as practicable, and shall not be changed less than sixty days prior to the regular school election.

3. If the petition proposes the division of the school district into director districts, the boundaries of the proposed director districts shall not be drawn until the question is approved by the voters. If the question is approved by the voters, the directors of the new school district shall draw the boundaries of the director districts according to the standards described in section 275.23A, subsection 1. Following adoption by the school board, the plan shall be submitted to the state commissioner of elections for approval.

4. The area education agency board in reviewing the petition as provided in sections 275.15 and 275.16 shall review the proposed method of election of school directors and may change or amend the plan in any manner, including to specify a different method of electing school directors as may be required by law, justice, equity, and the interest of the people. In the action, the area education agency board shall follow the same procedure as is required by sections 275.15 and 275.16 for other action on the petition by the area education agency board.

5. The petition may also include a provision that the voter-approved physical plant and equipment levy provided in section 298.2 will be voted upon at the election conducted under section 275.18.

275.13 Affidavit — presumption.
Such petition shall be accompanied by an affidavit showing the number of registered voters living in each affected district or portion thereof described in the petition and signed by a registered voter residing in the territory, and if parts of the territory described in the petition are situated in different area education agencies, the affidavit shall show separately as to each agency, the number of registered voters in the part of the agency included in the territory described. The affidavit shall be taken as true unless objections to it are filed on or before the time fixed for filing objections as provided in section 275.14 hereof.

275.14 Objection — time of filing — notice.
Within ten days after the petition is filed, the area education agency administrator shall fix a final date for filing objections to the petition which shall be not more than sixty days after the petition is filed and shall fix the date for a hearing on the objections to the petition. Objections shall be filed in the office of the administrator who shall give notice at least ten days prior to the final day for filing objections, by one publication in a newspaper published within the territory described in the petition, or if none is published in the territory, in a newspaper published in the county where the petition is filed, and of general circulation in the territory described. The notice shall also list the date, time, and location for the hearing on the petition as provided in section 275.15. The cost of publication shall be assessed to each district whose territory is involved in the ratio that the number of pupils in basic enrollment for the budget year, as defined in section 257.6 in each district bears to the total number of pupils in basic enrollment for the budget year in the total area involved. Objections shall be in writing in the form of an affidavit and may be made by any person residing or owning land within the territory described in the petition, or who would be injuriously affected by the change petitioned for and shall be on file not later than twelve o'clock noon of the final day fixed for filing objections.
Objection forms shall be prescribed by the department of education and may be obtained from the area education agency administrator. Objection forms that request that property be removed from a proposed district shall include the correct legal description of the property to be removed.

275.15 Hearing — decision — publication — appeal.
1. At the hearing, which shall be held within ten days of the final date set for filing objections, interested parties, both petitioners and objectors, may present evidence and arguments, and the area education agency board shall review the matter on its merits and within ten days after the conclusion of any hearing, shall rule on the objections and shall enter an order fixing the boundaries for the proposed school corporation as will in its judgment be for the best interests of all parties concerned, having due regard for the welfare of adjoining districts, or dismiss the petition.
2. The area education agency board, when entering the order fixing the boundaries, shall consider all available evidence including, but not limited to, information presented by the petitioners, all objections requesting territory exclusion, reorganization studies and plans, geographical patterns evidenced by students using open enrollment to attend school in another district pursuant to section 282.18, potential travel distances required of students, and geographic configuration of the proposed district. The exclusion of territory shall represent a balance between the rights of the objectors and the welfare of the reorganized district.
3. If the petition is not dismissed and the board determines that additional information is required in order to fix boundary lines of the proposed school corporation, the board may continue the hearing for no more than thirty days. The date of the continued hearing shall be announced at the original meeting. Additional objections in the form required in section
275.14 may be considered if filed with the administrator within five days, not including Saturdays, Sundays, or holidays, after the date of the original board hearing. If the hearing is continued, the area education agency administrator may conduct one or more meetings with the boards of directors of the affected districts. Notice of any such meeting must be given at least forty-eight hours in advance by the area education agency administrator in the manner provided in section 21.4. The area education agency board may request that the administrator make alternative recommendations regarding the boundary lines of the proposed school corporation. The area education agency board shall make a decision on the boundary lines within ten days following the conclusion of the continued hearing.

4. The administrator shall at once publish the decision in the same newspaper in which the original notice was published. Within twenty days after the publication, the decision rendered by the area education agency board may be appealed to the district court in the county involved by any school district affected. For purposes of appeal, only those school districts who filed reorganization petitions are school districts affected. An appeal from a decision of an area education agency board or joint area education agency boards under section 275.4, 275.16, or this section is subject to appeal procedures under this chapter and is not subject to appeal under chapter 290.

275.16 Hearing when territory in different area education agencies.

1. If the territory described in the petition for the proposed corporation lies in more than one area education agency, the agency administrator with whom the petition is filed shall fix the time and place for a hearing and call a joint meeting of the members of all the agency boards in which territory of the proposed school corporation lies, to act as a single board for the hearing of the objections, and a majority of members of each of the agency boards of the different agencies in which any part of the proposed corporation lies, constitutes a quorum. The president of the board of directors of the area education agency in which the petition has been filed, or a member of the board designated by the president, shall preside at the joint meeting. The joint boards acting as a single board shall determine whether the petition conforms to plans or; if the petition requests a change in plans, whether a change should be made, and may change the plans of any or all the area education agency boards affected by the petition. The joint board shall determine and fix boundaries for the proposed corporation as provided in section 275.15 or dismiss the petition. The joint board may continue the hearing as provided in section 275.15.

2. Votes of each member of an area education agency board in attendance shall be weighted so that the total number of votes eligible to be cast by members of each board in attendance shall be equal. However, if the joint boards cast a tie vote and are unable to agree to a decision fixing the boundaries for the proposed school corporation or to a decision to dismiss the petition, the time during which actions must be taken under section 275.15 shall be extended from ten days to fifteen days after the conclusion of the hearing under section 275.15, and the joint board shall reconvene not less than ten and not more than fifteen days after the conclusion of the hearing. At the hearing the joint board shall reconsider its action and if a tie vote is again cast it is a decision granting the petition and changing the plans of any and all of the agency boards affected by the petition and fixing the boundaries for the proposed school corporation. The agency administrator shall at once publish the decision in the same newspaper in which the original notice was published.

3. 275.23A Redistricting following federal decennial census.

1. School districts which have directors who represent director districts as provided in section 275.12, subsection 2, paragraphs “b”, “c”, “d”, and “e”, shall be divided into director districts according to the following standards:

a. All director district boundaries shall follow the boundaries of areas for which official population figures are available from the most recent federal decennial census and, wherever possible, shall follow precinct boundaries.

b. To the extent possible in order to comply with paragraph “a”, all director districts shall be as nearly equal as practicable to the ideal population for the districts as determined by dividing the number of districts to be established into the population of the school district.

c. All districts shall be composed of contiguous territory as compact as practicable unless the school district is composed of marginally adjacent territory. A school district which is composed of marginally adjacent territory shall have director districts composed of contiguous territory to the extent practicable.

d. Consideration shall not be given to the addresses of incumbent officeholders, political affiliations of registered voters, previous election results, or demographic information other than population head counts, except as required by the Constitution and the laws of the United States.

e. A city shall not be divided into two or more director districts unless the population
of that portion of the city that is within the school district is greater than the ideal size of a director district. Cities shall be divided into the smallest number of director districts possible.

2. Following each federal decennial census the school board shall determine whether the existing director district boundaries meet the standards in subsection 1 according to the most recent federal decennial census. In addition to the authority granted to voters to change the number of directors or method of election as provided in sections 275.35, 275.36, and 278.1, the board of directors of a school district may, following a federal decennial census, by resolution and in accordance with this section, authorize a change in the method of election as set forth in section 275.12, subsection 2, or a change to either five or seven directors after the board conducts a hearing on the resolution. If the board proposes to change the number of directors from seven to five directors, the resolution shall include a plan for reducing the number of directors. If the board proposes to increase the number of directors to seven directors, two directors shall be added according to the procedure described in section 277.23, subsection 2. If necessary, the board of directors shall redraw the director district boundaries. The director district boundaries shall be described in the resolution adopted by the school board. The resolution shall be adopted no earlier than November 15 of the year immediately following the year in which the federal decennial census is taken nor later than May 15 of the second year immediately following the year in which the federal decennial census is taken. A copy of the plan shall be filed with the area education agency administrator of the area education agency in which the school’s electors reside. If the board does not provide for an election as provided in sections 275.35, 275.36, and 278.1 and adopts a resolution to change the number of directors or method of election in accordance with this subsection, the district shall change the number of directors or method of election as provided unless, within twenty-eight days following the action of the board, the secretary of the board receives a petition containing the required number of signatures, asking that an election be called to approve or disapprove the action of the board in adopting the resolution. The petition must be signed by eligible electors equal in number to not less than one hundred or thirty percent of the number of voters at the last preceding regular school election, whichever is greater. The board shall either rescind its action or direct the county commissioner of elections to submit the question to the registered voters of the school district at an election held on a date specified in section 39.2, subsection 4, paragraph “c”. If a majority of those voting on the question at the election favors disapproval of the action of the board, the district shall not change the number of directors or method of election. If a majority of those voting on the question does not favor disapproval of the action, the board shall certify the results of the election to the department of management and the district shall change the number of directors or method of election as provided in this subsection. At the expiration of the twenty-eight-day period, if no petition is filed, the board shall certify its action to the department of management and the district shall change the number of directors or method of election as provided in this subsection.

3. The school board shall notify the state commissioner of elections and the county commissioner of elections of each county in which a portion of the school district is located when the boundaries of director districts are changed. The notices of changes submitted to the state commissioner shall be postmarked no later than the deadline for adoption of the resolution under subsection 2. The board shall provide the commissioners with maps showing the new boundaries and shall also certify to the state commissioner the populations of the new director districts as determined under the latest federal decennial census. If, following a federal decennial census a school district elects not to redraw director districts under this section, the school board shall so certify to the state commissioner of elections, and the school board shall also certify to the state commissioner the populations of the retained director districts as determined under the latest federal decennial census. If the state commissioner determines that a district board has failed to make the required changes by the dates specified by this section, the state commissioner of elections shall make or cause to be made the necessary changes as soon as possible. The state commissioner shall assess any expenses incurred to the school district. The state commissioner of elections may request the services of personnel of and materials available to the legislative services agency to assist the state commissioner in making any required boundary changes.
4. If more than one incumbent director resides in a redrawn director district, the terms of office of the affected directors expire at the organizational meeting of the board of directors following the next regular school election following the adoption of the redrawn districts.

5. The boundary changes under this section take effect July 1 following their adoption for the next regular school election.

6. Section 275.9 and sections 275.14 through 275.23 do not apply to changes in director district boundaries made under this section.

Subsection 1, paragraph e amended

275.24 Effective date of change.

When a school district is enlarged, reorganized, or changes its boundary pursuant to sections 275.12 to 275.22, the change shall take effect on July 1 following the date of the reorganization election held pursuant to section 275.18.

275.25 Election of directors.

1. a. If the proposition to establish a new school district carries under the method provided in this chapter, the area education agency administrator with whom the petition was filed shall give written notice of a proposed date for a special election for directors of the newly formed school district to the commissioner of elections of the county in the district involved in the reorganization which has the greatest taxable base. The proposed date shall be as soon as possible pursuant to section 39.2, subsections 1 and 2, and section 47.6, subsections 1 and 2, but not later than the third Tuesday in January of the calendar year in which the reorganization takes effect.

b. The election shall be conducted as provided in section 277.3, and nomination petitions shall be filed pursuant to section 277.4, except as otherwise provided in this subsection. Nomination petitions shall be filed with the secretary of the board of the existing school district in which the candidate resides not less than twenty-eight days before the date set for the special school election. The secretary of the board, or the secretary’s designee, shall be present in the secretary’s office until five p.m. on the final day to file the nomination papers. The nomination papers shall be delivered to the commissioner no later than five p.m. on the twenty-seventh day before the election.

c. If the special election is held in conjunction with the regular school election, the filing deadlines for the regular school election apply.

2. a. The number of directors of a school district is either five or seven as provided in section 275.12. In school districts that include a city of fifteen thousand or more population as shown by the most recent decennial federal census, the board shall consist of seven members elected in the manner provided in subsection 3. If it becomes necessary to increase the membership of a board, two directors shall be added according to the procedure described in section 277.23.

b. The county board of supervisors shall canvass the votes and the county commissioner of elections shall report the results to the area education agency administrator who shall notify the persons who are elected directors.

3. The directors who are elected and qualify to serve shall serve until their successors are elected and qualify. At the special election, the three newly elected directors receiving the most votes shall be elected to serve until their successors qualify after the third regular school election date occurring after the effective date of the reorganization and the two newly elected directors receiving the next largest number of votes shall be elected to serve until the directors’ successors qualify after the second regular school election date occurring after the effective date of the reorganization. However, in districts that include all or a part of a city of fifteen thousand or more population and in districts in which the proposition to establish a new corporation provides for the election of seven directors, the timelines specified in this
subsection for the terms of office apply to the four newly elected directors receiving the most votes and then to the three newly elected directors receiving the next largest number of votes.

4. The board of the newly formed district shall organize within fifteen days after the special election upon the call of the area education agency administrator. The new board shall have control of the employment of personnel for the newly formed district for the next following school year under section 275.33. Following the first organizational meeting of the board of the newly formed district, the board may establish policy, organize curriculum, enter into contracts, complete planning, and take action as necessary for the efficient management of the newly formed community school district.

5. Section 49.8, subsection 5, does not permit a director to remain on the board of a school district after the effective date of a boundary change which places the director’s residence outside the boundaries of the district. Vacancies caused by this occurrence on a board shall be filled in the manner provided in sections 279.6 and 279.7.

6. The board of the newly formed district shall appoint an acting superintendent and an acting board secretary. The appointment of the acting superintendent shall not be subject to the continuing contract provisions of sections 279.20, 279.23, and 279.24.

275.26 Payment of expenses.

If a district is established or changes its boundaries it shall pay all expenses incurred by the area education agency administrator and the area education agency board in connection with the proceedings. The county commissioner of elections shall assess the costs of the election against the district as provided in section 47.3. If the proposition is dismissed or defeated at the election all expenses shall be apportioned among the several districts in proportion to the assessed valuation of property therein.

If the proposed district or boundary change embraces territory in more than one area education agency such expenses shall be certified to and, if necessary, apportioned among the several districts by the joint agency board. If in only one agency the certification shall be made by the agency administrator.

The respective boards to which such expenses are certified shall audit and order the same paid from the general fund. In the event of failure of any board to so audit and pay the expenses certified to it, the area education agency administrator shall certify the expenses to the county auditor in the same manner as is provided for tuition claims in section 282.21 and the funds shall be transferred by the county treasurer from the debtor district to the agency board for payment of said expenses.

275.27 Community school districts — part of area education agency.

School districts created or enlarged under this chapter are community school districts and are part of the area education agency in which the greatest number of registered voters of the district reside at the time of the special election called for in section 275.18, and sections of the Code applicable to the common schools generally are applicable to these districts in addition to the powers and privileges conferred by this chapter. If a school district, created or enlarged under this chapter and assigned to an area education agency under this section, can demonstrate that students in the district were utilizing a service or program prior to the formation of the new or enlarged district that is unavailable from the area education agency to which the new or enlarged district is assigned, the district may be reassigned to the
area education agency which formerly provided the service or program, upon an affirmative majority vote of the boards of the affected area education agencies to permit the change.

If no provision is made in the petition for division of assets and liabilities, or if territory is excluded from the reorganized district by the petition or by the area education agency board of directors, the division shall be made under the provisions of sections 275.29 to 275.31.

Between July 1 and July 20, the board of directors of the newly formed school district shall meet with the boards of the school districts affected by the organization of the new school corporation, including the boards of districts receiving territory of the school districts affected, for the purpose of reaching joint agreement on an equitable division of the assets of the several school corporations or parts of school corporations and an equitable distribution of the liabilities of the affected corporations or parts of corporations. In addition, if outstanding bonds are in existence in any district, the initial board of directors of the newly formed school district shall meet with the boards of all school districts affected prior to April 15 prior to the school year the reorganization is effective to determine the distribution of the bonded indebtedness between the districts so that the newly formed district may certify its budget under the procedures specified in chapter 24. The boards shall consider the mandatory levy required in section 76.2 and shall assure the satisfaction of outstanding obligations of each affected school corporation. If the petition includes plans for the distribution of the bonded indebtedness, the exclusion of territory from the reorganized district does not require action pursuant to this section.

If the boards cannot agree on such division and distribution, the matters on which they differ shall be decided by disinterested arbitrators, one selected by the initial board of directors of the newly formed district, one by each of the boards of directors of the school districts affected, and one selected jointly by the boards of directors of contiguous districts receiving territory of the school district affected. If the number of arbitrators selected is even, a disinterested arbitrator shall be added by the area education agency administrator. The decision of the arbitrators shall be made in writing and filed with the secretary of the new corporation, and a party to the proceedings may appeal the decision to the district court by serving notice on the secretary of the new corporation within twenty days after the decision is filed. The appeal shall be tried in equity and a decree entered determining the entire matter, including the levy, collection, and distribution of any necessary taxes.

of a corporation and for the distribution of the tax revenues so as to effect equalization. When the board or boards are considering the equalization levy, the division and distribution shall not impair the security for outstanding obligations of each affected corporation. Any owner of bonds of an affected corporation may bring suit in equity for adjustment of the division and distribution in compliance with this section. If the property tax levy for the amount estimated and certified to apply on principal and interest on lawful bonded indebtedness for a newly formed community school district is greater than the property tax levy for the amount estimated and certified to apply on principal and interest in the year preceding the reorganization or dissolution for a school district that is a party to the reorganization or dissolution, that had a certified enrollment of less than six hundred for the year prior to the reorganization or dissolution, and that approved the reorganization or dissolution prior to July 1, 1989, the board of the newly formed district shall inform the department of management. The department of management shall pay debt service aid to the newly formed district in an amount that reduces the rate of the property tax levy for lawful bonded indebtedness in the portion of the newly formed district where the new rate is higher, to the rate that was levied in that portion of the district during the year preceding the reorganization or dissolution.

For the school year beginning July 1, 1987, and succeeding school years, there is appropriated from the general fund of the state to the department of management an amount sufficient to pay the debt service aid under this section. Debt service aid shall be paid in the manner provided in section 257.16.

Not later than May 1 of each year, the department of management shall inform the board of the newly formed school district the amount of debt service aid that the district will receive and the rate of the property tax levy for the amount estimated and certified to apply on principal and interest on lawful bonded indebtedness in the portion of the newly formed district where the new rate would have been higher, and for the remainder of the newly formed district. The department of management shall notify the county auditor of each applicable county of the amount, in dollars and cents per thousand dollars of assessed valuation, of the property tax levy in each portion of each applicable newly formed school district in the county for the amount estimated and certified to apply on principal and interest on lawful bonded indebtedness, and the boundaries of the portions within the newly formed district for which the levies shall be made. The county auditor shall spread the applicable property tax levy for each portion of a school district over all taxable property in that portion of the district.

275.33 Contracts of new district.

1. The terms of employment of superintendents, principals, and teachers, for the school year following the effective date of the formation of the new district shall not be affected by the formation of the new district, except in accordance with the provisions of sections 279.15 to 279.18 and 279.24 and the authority and responsibility to offer new contracts or to continue, modify, or terminate existing contracts pursuant to sections 279.12, 279.13, 279.15 to 279.21, 279.23, and 279.24 for the school year beginning with the effective date of the reorganization shall be transferred from the boards of the existing districts to the board of the new district on the third Tuesday of January prior to the school year the reorganization is effective.

2. a. The collective bargaining agreement of the district with the largest basic enrollment for the year prior to the reorganization, as defined in section 257.6, in the new district shall serve as the base agreement and the employees of the other districts involved in the formation of the new district shall automatically be accreted to the bargaining unit of that collective bargaining agreement for purposes of negotiating the contracts for the following years without further action by the public employment relations board. If only one collective bargaining agreement is in effect among the districts which are party to the reorganization,
then that agreement shall serve as the base agreement, and the employees of the other districts involved in the formation of the new district shall automatically be accreted to the bargaining unit of that collective bargaining agreement for purposes of negotiating the contracts for the following years without further action by the public employment relations board.

b. The board of the newly formed district, using the base agreement as its existing contract, shall bargain with the combined employees of the existing districts for the school year beginning with the effective date of the reorganization. The bargaining shall be completed by the dates specified in section 20.17 prior to the school year in which the reorganization becomes effective or within one hundred eighty days after the organization of the new board, whichever is later. If a bargaining agreement was already concluded by the board and employees of the existing district with the contract serving as the base agreement for the school year beginning with the effective date of the reorganization, that agreement shall be void. However, if the base agreement contains multiyear provisions affecting school years subsequent to the effective date of the reorganization, the base agreement shall remain in effect as specified in the agreement.

c. The provisions of the base agreement shall apply to the offering of new contracts, or continuation, modification, or termination of existing contracts as provided in subsection 1.

If the plan adopted is that described in section 275.12, subsection 2, paragraph “b”, “c”, “d”, or “e”, the board shall at the earliest practicable time designate the districts from which residents are to be elected as school directors at each of the next two succeeding regular school elections, arranging so far as possible for elections of directors as residents of the respective districts to coincide with the expiration of terms of incumbent members residing in those districts. If an increase in the size of the board from five to seven members is approved concurrently with the change in method of election of directors, the board shall make the necessary adjustment in the manner prescribed in section 275.37, as well as providing for implementation of the districting plan under this section.

275.41 Alternative method for director elections — temporary appointments.
1. As an alternative to the method specified in section 275.25 for electing directors in a newly formed community school district, the procedure specified in this section may be used and if used, the petition filed under section 275.12 shall state the number of directors on the initial board. If two districts are named in the petition, either five or seven directors shall serve on the initial board. If three or more districts are named in the petition, either seven or nine directors shall serve on the initial board. The petition shall specify the number of directors to be retained from each district, and those numbers shall be proportionate to the populations of the districts. If the exclusion of territory from a reorganization affects the proportionate balance of directors among the affected districts specified in the petition, or if the proposal specified in the petition does not comply with the requirement for proportionate representation, the area education board shall modify the proposal. However, all districts affected shall retain at least one member.

2. Prior to the organizational meeting of the newly formed district, the boards of the former districts shall designate directors to be retained as members to serve on the initial board, and if the total number of directors determined under subsection 1 is an even number, that number of directors shall function and may within five days of the organizational meeting appoint one additional director by unanimous vote with all directors voting. Otherwise, the board shall function until a special election can be held to elect an additional director. The procedure for calling the special election shall be the procedure specified in section 275.25. If there is an insufficient number of board members eligible to be retained from a former school district, the board of the former school district may appoint members to fill the vacancies. A vacancy occurs if there is an insufficient number of former board members who reside in the newly formed district or if there is an insufficient number who are willing to serve on the board of the newly formed district.

3. Prior to the effective date of the reorganization, the initial board shall approve a plan that commences at the first regular school election held after the effective date of the merger and is completed at the third regular school election held after the effective date of the merger, to replace the initial board with the regular board. If the petition specifies a number of directors on the regular board to be different from the number of directors on the initial board, the plan shall provide that the number specified in the petition for the regular board is in place by the time the regular board is formed. The plan shall provide that as nearly as possible one-half of the members of the board shall be elected biennially, and if a special election was held to elect a member to create an odd number of members on the board, the term of that member shall end at the organizational meeting following the third regular school election held after the effective date.

4. The board of the newly formed district shall organize within forty-five days after the approval of the merger upon the call of the area education agency administrator. The new board shall have control of the employment of all personnel for the newly formed district for the ensuing school year. Following the organization of the new board the board shall have authority to establish policy, organize curriculum, enter into contracts and complete such planning and take such action as is essential for the efficient management of the newly formed community school district.

5. The board of the newly formed district shall appoint an acting superintendent and an acting board secretary. The appointment of the acting superintendent shall not be subject to the continuing contract provision of sections 279.20, 279.23, and 279.24.
6. Section 49.8, subsection 5, shall not permit a director to remain on the board of a school district after the effective date of a boundary change which places the director’s residence outside the boundaries of the district. Vacancies so caused on any board shall be filled in the manner provided in sections 279.6 and 279.7.

DISSOLUTION OF DISTRICTS

275.51 Dissolution commission.
As an alternative to school district reorganization prescribed in this chapter, the board of directors of a school district may establish a school district dissolution commission to prepare a proposal of dissolution of the school district and attachment of all of the school district to one or more contiguous school districts and to include in the proposal a division of the assets and liabilities of the dissolving school district. A school district dissolution commission shall be established by the board of directors of a school district if a dissolution proposal has been prepared by eligible electors who reside within the district. The proposal must contain the names of the proposed members of the commission and be accompanied by a petition which has been signed by eligible electors residing in the school district equal in number to at least twenty percent of the registered voters in the school district.

The dissolution commission shall consist of seven members appointed by the board for a term of office ending either with a report to the board that no proposal can be approved or on the date of the election on the proposal. Members of the dissolution commission must be eligible electors who reside in the school district, not more than three of whom may be members of the board of directors of the school district. Members shall be appointed from throughout the school district and should represent the various socioeconomic factors present in the school district.

Members of the dissolution commission shall serve without compensation and may be appointed to a subsequent commission. A vacancy on the commission shall be filled in the same manner as the original appointment was made.

The board of the school district shall certify to the area education agency board that a commission has been formed, the names and addresses of commission members, and that the commission members represent the various geographic areas and socioeconomic factors present in the district.

[C81, §275.51]

275.52 Meetings.
The commission shall hold an organizational meeting not more than fifteen days after its appointment and shall elect a chairperson and vice chairperson from its membership. Thereafter the commission may meet as often as deemed necessary upon the call of the chairperson or a majority of the commission members.

The commission shall request statements from contiguous school districts outlining each district’s willingness to accept attachments of the affected school district to the contiguous districts and what conditions, if any, the contiguous school district recommends. The commission shall meet with boards of contiguous school districts and with residents of the affected school district to the extent possible in drawing up the dissolution proposal. The
commission may seek assistance from the area education agency and the department of education.

[C81, §275.52]

275.53 Dissolution proposal.

1. The commission shall send a copy of its dissolution proposal or shall inform the board that it cannot agree upon a dissolution proposal not later than one year following the date of the organizational meeting of the commission. The commission shall also send a copy of the dissolution proposal to the boards of directors of all school districts to which area of the affected school district will be attached. If the board of a district to which area of the affected school district will be attached objects to the attachment, within ten days following receipt of the dissolution proposal the board shall send its objections in writing to the commission. The commission may consider the objections and may modify the dissolution proposal. If the dissolution proposal is modified, the commission shall notify the boards of directors of all school districts to which area of the affected school district will be attached.

2. Notifications required under subsection 1 shall be delivered using one of the following methods:
   a. Mail bearing a United States postal service postmark.
   b. Hand delivery.
   c. Facsimile transmission.
   d. Electronic delivery.

3. If the commission cannot agree upon a dissolution proposal prior to the expiration of its term, the board may appoint a new commission.

275.54 Hearing.

1. Within ten days following the filing of the dissolution proposal with the board, the board shall fix a date for a hearing on the proposal which shall not be more than sixty days after the dissolution petition was filed with the board. The board shall publish notice of the date, time, and location of the hearing at least ten days prior to the date of the hearing by one publication in a newspaper in general circulation in the district. The notice shall include the content of the dissolution proposal. A person residing or owning land in the school district may present evidence and arguments at the hearing. The president of the board shall preside at the hearing. The board shall review testimony from the hearing and shall adopt or amend and adopt the dissolution proposal.

2. The board shall notify the boards of directors of all school districts to which area of the affected school district will be attached and the director of the department of education of the contents of the dissolution proposal adopted by the board. The notification shall be delivered using one of the following methods:
   a. Mail bearing a United States postal service postmark.
   b. Hand delivery.
   c. Facsimile transmission.
   d. Electronic delivery.

3. If the board of a district to which area of the affected school district will be attached objects to the attachment, that portion of the dissolution proposal will not be included in the proposal voted upon under section 275.55 and the director of the department of education shall attach the area to a contiguous school district.

4. If the board of a district to which area of the affected school district will be attached objects to the division of assets and liabilities contained in the dissolution proposal, the matter shall be decided by a panel of disinterested arbitrators. The panel shall consist of one arbitrator selected by each affected district objecting to the provisions of the dissolution proposal, one selected by each affected district in favor of the provisions of the dissolution proposal, and one selected by each dissolving district. If the number of arbitrators selected is even, a disinterested arbitrator shall be selected by the administrator of the area education agency to which the dissolving district or districts belong. The decision of the arbitrators
shall be made in writing and filed with the secretary of the new corporation. A party to the proceedings may appeal the decision to the district court by serving notice on the secretary of the new corporation within twenty days after the decision is filed. The appeal shall be tried in equity and a decree entered determining the entire matter, including the levy, collection, and distribution of any necessary taxes.

5. If a dissolution proposal adopted by a board contains provisions that ninety-five percent or more of the taxable valuation of the dissolving district would be assumed and attached to a single school district, the dissolving school district shall cease further proceedings to dissolve and shall comply with reorganization procedures specified in this chapter.

After the final hearing on the dissolution proposal, the board of the school district shall submit the proposition to the voters at the next election held on a date specified in section 39.2, subsection 4, paragraph “c”. However, the date of the final hearing on the dissolution proposal must be not less than thirty nor more than sixty days before the election. The proposition submitted to the voters residing in the school district shall describe each separate area to be attached to a contiguous school district and shall name the school district to which it will be attached. In addition to the description, a map may be included in the summary of the question on the ballot.

2. The board shall give written notice of the election to the county commissioner of elections. The county commissioner of elections shall give notice of the election by one publication in the same newspaper in which the previous notice was published about the hearing, which publication shall not be less than four nor more than twenty days prior to the election.

3. The proposition shall be adopted if a majority of the electors voting on the proposition approve its adoption.

4. The attachment is effective July 1 following its approval. If the dissolution proposal is for the dissolution of a school district with a certified enrollment of fewer than six hundred, the territory located in the school district that dissolved is eligible, if approved by the director of the department of education, for a reduction in the foundation property tax levy under section 257.3, subsection 1. If the director approves a reduction in the foundation property tax levy as provided in this section, the director shall notify the director of the department of management of the reduction.

[C81, §275.55]

275.55A Attendance in other district.

A student enrolled in ninth, tenth, or eleventh grade during the school year preceding the effective date of a dissolution proposal, who was a resident of the school district that dissolved, may enroll in a school district to which territory of the school district that dissolved was attached until the student’s graduation from high school, unless the student was expelled or suspended from school and the conditions of expulsion or suspension have not been met. The student under expulsion or suspension shall not be enrolled until the board of directors of the school district to which territory of the dissolved school district was attached approves, by majority vote, the enrollment of the student. Notwithstanding section 282.24, the district of residence of the student, determined in the dissolution proposal, shall pay tuition to the school district selected by the student in an amount not to exceed the district cost per pupil of the district of residence and the school district selected by the student shall accept that tuition payment and enroll the student.

275.56 Increasing enrollment.
If the enrollment of a school district increases or is expected to increase because an adjacent district has dissolved or is expected to dissolve, the board of directors of the school district shall determine whether there is a need to hire additional licensed or unlicensed employees. If the board of directors determines that there is a need to hire additional employees, the board shall determine the nature and number of the necessary new positions. Individuals who were employees of the dissolved district may apply for the new positions. The board shall hire those applicants who were employees of the dissolved district whenever the applicant is licensed for the new position or, in the case of unlicensed personnel, is otherwise qualified. If two employees of the dissolved district apply for a single licensed position, the applicant who is best qualified in the opinion of the board shall be hired. The board is not required to hire applicants who were employees of the dissolved district if the district has been dissolved for one or more school years. Applicants who are re-employed under this section shall maintain in the re-employing district vacation, salary or alternatively placement on a salary schedule based on the employee’s years of experience, sick leave, and completion of probationary status as defined by section 279.19.

§277.4 Nominations required.

1. Nomination papers for all candidates for election to office in each school district shall be filed with the secretary of the school board not more than sixty-four days, nor less than forty days before the election. Nomination petitions shall be filed not later than 5:00 p.m. on the last day for filing. On the final date for filing nomination papers the office of the school secretary shall remain open until 5:00 p.m.

2. a. Each candidate shall be nominated by petition. If the candidate is running for a seat in the district which is voted for at-large, the petition must be signed by the greater of at least ten eligible electors or a number of eligible electors equal in number to not less than one percent of the registered voters of the school district, which number need not be more than fifty. If the candidate is running for a seat which is voted for only by the voters of a director district, the petition must be signed by the greater of at least ten eligible electors of the director district or a number of eligible electors equal in number to not less than one percent of the registered voters in the director district, which number need not be more than fifty.

Signers of nomination petitions shall include their addresses and the date of signing, and must reside in the same director district as the candidate if directors are elected by the voters of a director district, rather than at-large. A person may sign nomination petitions for more than one candidate for the same office, and the signature is not invalid solely because the person signed nomination petitions for one or more other candidates for the office. The petition shall be filed with the affidavit of the candidate being nominated, stating the candidate’s name, place of residence, that such person is a candidate and is eligible for the office the candidate seeks, and that if elected the candidate will qualify for the office. The affidavit shall also state that the candidate is aware that the candidate is disqualified from holding office if the candidate has been convicted of a felony or other infamous crime and the candidate’s rights have not been restored by the governor or by the president of the United States.

3. The secretary of the school board shall accept the petition for filing if on its face it appears to have the requisite number of signatures and if it is timely filed. The secretary of the school board shall note upon each petition and affidavit accepted for filing the date and time that the petition was filed. The secretary of the school board shall deliver all nomination petitions, together with the complete text of any public measure being submitted by the board to the electorate, to the county commissioner of elections on the day following the last day on which nomination petitions can be filed, and not later than 5:00 p.m. on that day.

When objections are filed notice shall forthwith be given to the candidate affected, addressed to the candidate’s place of residence as given on the candidate’s affidavit, stating that objections have been made to the legal sufficiency of the petition or to the eligibility of the candidate, and also stating the time and place the objections will be considered.

a. Direct a change of textbooks regularly adopted.
b. Except when restricted by section 297.25, direct the sale, lease, or other disposition of any schoolhouse or school site or other property belonging to the corporation, and the application to be made of the proceeds thereof. However, nothing in this section shall be construed to prevent the sale, lease, exchange, gift, or grant and acceptance of any interest in real or other property of the corporation to the extent authorized in section 297.22.
c. Determine upon additional branches that shall be taught.
d. Instruct the board that school buildings may or may not be used for meetings of public interest.

f. Authorize the board to obtain, at the expense of the corporation, roads for proper access to its schoolhouses.
g. Authorize a change to either five or seven directors. The proposition for the change shall specify the number of directors to be elected, and which of the methods of election authorized by section 275.12, subsection 2, is to be used if the change is approved by the voters.
h. Authorize a change in the method of conducting elections or in the number of directors as provided in sections 275.35 and 275.36. The establishment or abandonment of director districts or a change in the boundaries of director districts shall be implemented as prescribed in section 275.37.
i. Change the name of the school district, without affecting its corporate existence, rights, or obligations, and subject to the requirements of section 274.6.

The election shall be held on a date specified in section 39.2, subsection 4, paragraph "c".
b. Before entering into a rental or lease-purchase option contract, authorized by the electors, the board shall first adopt plans and specifications for a building or buildings which
it considers suitable for the intended use and also adopt a form of rental or lease-purchase option contract. The board shall then invite bids thereon, by advertisement published once each week for two consecutive weeks, in a newspaper published in the county in which the building or buildings are to be located, and the rental or lease-purchase option contract shall be awarded to the lowest responsible bidder, but the board may reject any and all bids and advertise for new bids.

When the board has directed the commissioner to submit to the voters a proposition authorized by section 278.1, subsection 1, paragraph “g” or “h”, it shall not thereafter direct the commissioner to submit at the same election any other proposition under either of those paragraphs.

1. The participants at the private hearing shall be at least a majority of the members of the board, their legal representatives, if any, the superintendent, the superintendent’s designated representatives, if any, the teacher’s immediate supervisor, the teacher, the teacher’s representatives, if any, and the witnesses for the parties. The evidence at the private hearing shall be limited to the specific reasons stated in the superintendent’s notice of recommendation of termination. No participant in the hearing shall be liable for any damages to any person if any statement at the hearing is determined to be erroneous as long as the statement was made in good faith. The superintendent shall present evidence and argument on all issues involved and the teacher may cross-examine, respond and present evidence and argument in the teacher’s behalf relevant to all issues involved. Evidence may be by stipulation of the parties and informal settlement may be made by stipulation, consent, or default or by any other method agreed upon by the parties in writing. The board shall employ a certified shorthand reporter to keep a record of the private hearing. The

proceedings or any part thereof shall be transcribed at the request of either party with the expense of transcription charged to the requesting party.

2. The presiding officer of the board may administer oaths in the same manner and with like effect and under the same penalties as in the case of magistrates exercising criminal or civil jurisdiction. The board shall cause subpoenas to be issued for such witnesses and the production of such books and papers as either the board or the teacher may designate. The subpoenas shall be signed by the presiding officer of the board.

3. In case a witness is duly subpoenaed and refuses to attend, or in case a witness appears and refuses to testify or to produce required books or papers, the board shall, in writing, report such refusal to the district court of the county in which the administrative office of the school district is located, and the court shall proceed with the person or witness as though the refusal had occurred in a proceeding legally pending before the court.

4. The board shall not be bound by common law or statutory rules of evidence or by technical or formal rules of procedure, but it shall hold the hearing in such manner as is best suited to ascertain and conserve the substantial rights of the parties. Process and procedure under sections 279.13 to 279.19 shall be as summary as reasonably may be.

5. At the conclusion of the private hearing, the superintendent and the teacher may file written briefs and arguments with the board within three days or such other time as may be agreed upon.

6. If the teacher fails to timely request a private hearing or does not appear at the private hearing, the board may proceed and make a determination upon the superintendent's recommendation. If the teacher fails to timely file a request for a private hearing, the determination shall be not later than May 31. If the teacher fails to appear at the private hearing, the determination shall be not later than five days after the scheduled date for the private hearing. The board shall convene in open session and by roll call vote determine the termination or continuance of the teacher's contract and, if the board votes to continue the teacher's contract, whether to suspend the teacher with or without pay for a period specified by the board.

7. Within five days after the private hearing, the board shall, in executive session, meet to make a final decision upon the recommendation and the evidence as herein provided. The board shall also consider any written brief and arguments submitted by the superintendent and the teacher.

8. The record for a private hearing shall include:
   a. All pleadings, motions and intermediate rulings.
   b. All evidence received or considered and all other submissions.
   c. A statement of all matters officially noticed.
   d. All questions and offers of proof, objections and rulings thereon.
   e. All findings and exceptions.
   f. Any decision, opinion, or conclusion by the board.
   g. Findings of fact shall be based solely on the evidence in the record and on matters officially noticed in the record.

9. The decision of the board shall be in writing and shall include findings of fact and conclusions of law, separately stated. Findings of fact, if set forth in statutory language, shall be accompanied by a concise and explicit statement of the underlying facts and supporting the findings. Each conclusion of law shall be supported by cited authority or by reasoned opinion.

10. When the board has reached a decision, opinion, or conclusion, it shall convene in open meeting and by roll call vote determine the continuance or discontinuance of the teacher's contract and, if the board votes to continue the teacher's contract, whether to suspend the teacher with or without pay for a period specified by the board. The record of the private conference and findings of fact and exceptions shall be exempt from the provisions of chapter 22. The secretary of the board shall immediately mail notice of the board's action to the teacher.

279.17 Appeal by teacher to adjudicator.

1. If the teacher is no longer a probationary teacher, the teacher may, within ten days, appeal the determination of the board to an adjudicator by filing a notice of appeal with the secretary of the board. The notice of appeal shall contain a concise statement of the action which is the subject of the appeal, the particular board action appealed from, the grounds on which relief is sought and the relief sought.

2. Within five days following receipt by the secretary of the notice of appeal, the board or the board’s legal representative, if any, and the teacher or the teacher’s representative, if any, may select an adjudicator who resides within the boundaries of the merged area in which the school district is located. If an adjudicator cannot be mutually agreed upon within the five-day period, the secretary shall notify the chairperson of the public employment relations board by transmitting the notice of appeal, and the chairperson of the public employment relations board shall within five days provide a list of five adjudicators to the parties. Within three days from receipt of the list of adjudicators, the parties shall select an adjudicator by alternately removing a name from the list until only one name remains. The person whose name remains shall be the adjudicator. The parties shall determine by lot which party shall remove the first name from the list submitted by the chairperson of the public employment relations board. The secretary of the board shall inform the chairperson of the public employee relations board of the name of the adjudicator selected.

3. If the teacher does not timely request an appeal to an adjudicator the decision, opinion, or conclusion of the board shall become final and binding.

4. a. Within thirty days after filing the notice of appeal, or within further time allowed by the adjudicator, the board shall transmit to the adjudicator the original or a certified copy of the entire record of the private hearing which may be the subject of the petition. By stipulation of the parties to review the proceedings, the record of the case may be shortened. The adjudicator may require or permit subsequent corrections or additions to the shortened record.

b. The record certified and filed by the board shall be the record upon which the appeal shall be heard and no additional evidence shall be heard by the adjudicator. In such appeal to the adjudicator, especially when considering the credibility of witnesses, the adjudicator shall give weight to the fact findings of the board; but shall not be bound by them.

5. Before the date set for hearing a petition for review of board action, which shall be within ten days after receipt of the record unless otherwise agreed or unless the adjudicator orders additional evidence be taken before the board, application may be made to the adjudicator for leave to present evidence in addition to that found in the record of the case. If it is shown to the adjudicator that the additional evidence is material and that there were good reasons for failure to present it in the private hearing before the board, the adjudicator may order that the additional evidence be taken before the board upon conditions determined by the adjudicator. The board may modify its findings and decision in the case by reason of the additional evidence and shall file that evidence and any modifications, new findings, or decisions, with the adjudicator and mail copies of the new findings or decisions to the teacher.

6. The adjudicator may affirm board action or remand to the board for further proceedings. The adjudicator shall reverse, modify, or grant any appropriate relief from the board action if substantial rights of the teacher have been prejudiced because the board action is:

a. In violation of a board rule or policy or contract; or

b. Unsupported by a preponderance of the competent evidence in the record made before the board when that record is viewed as a whole; or

c. Unreasonable, arbitrary or capricious or characterized by an abuse of discretion or a clearly unwarranted exercise of discretion.

7. The adjudicator shall, within fifteen days after the hearing, make a decision and shall give a copy of the decision to the teacher and the secretary of the board. The decision of the adjudicator shall become the final and binding decision of the board unless either party within ten days notifies the secretary of the board that the decision is rejected. The board may reject the decision by majority vote, by roll call, in open meeting and entered into the minutes of
the meeting. The board shall immediately notify the teacher of its decision by certified mail. The teacher may reject the adjudicator’s decision by notifying the board’s secretary in writing within ten days of the filing of such decision.

8. All costs of the adjudicator shall be shared equally by the teacher and the board.

279.18 Appeal by either party to court.

1. If either party rejects the adjudicator’s decision, the rejecting party shall, within thirty days of the initial filing of such decision, appeal to the district court of the county in which the administrative office of the school district is located. The notice of appeal shall be immediately mailed by certified mail to the other party. The adjudicator shall transmit to the reviewing court the original or a certified copy of the entire record which may be the subject of the petition. By stipulation of all parties to the review proceedings, the record of such a case may be shortened. A party unreasonably refusing to stipulate to limit the record may be taxed by the court for the additional cost. The court may require or permit subsequent corrections or additions to the shortened record.

2. In proceedings for judicial review of the adjudicator’s decision, the court shall not hear any further evidence but shall hear the case upon the certified record. In such judicial review, especially when considering the credibility of witnesses, the court shall give weight to the fact findings of the board; but shall not be bound by them. The court may affirm the adjudicator’s decision or remand to the adjudicator or the board for further proceedings upon conditions determined by the court. The court shall reverse, modify, or grant any other appropriate relief from the board decision or the adjudicator’s decision equitable or legal and including declaratory relief if substantial rights of the petitioner have been prejudiced because the action is:
   a. In violation of constitutional or statutory provisions; or
   b. In excess of the statutory authority of the board or the adjudicator; or
   c. In violation of a board rule or policy or contract; or
   d. Made upon unlawful procedure; or
   e. Affected by other error of law; or
   f. Unsupported by a preponderance of the competent evidence in the record made before the board and the adjudicator when that record is viewed as a whole; or
   g. Unreasonable, arbitrary or capricious or characterized by an abuse of discretion or a clearly unwarranted exercise of discretion.

3. An aggrieved or adversely affected party to the judicial review proceeding may obtain a review of any final judgment of the district court by appeal to the supreme court. The appeal shall be taken as in other civil cases, although the appeal may be taken regardless of the amount involved.

4. For purposes of this section, unless the context otherwise requires, “rejecting party” shall include, but not be limited to, an instructor employed by a community college.

279.19 Probationary period.

The first three consecutive years of employment of a teacher in the same school district are a probationary period. However, if the teacher has successfully completed a probationary period of employment for another school district located in Iowa, the probationary period in the current district of employment shall not exceed one year. A board of directors may waive the probationary period for any teacher who previously has served a probationary period in another school district and the board may extend the probationary period for an additional year with the consent of the teacher.

In the case of the termination of a probationary teacher’s contract, the provisions of sections 279.15 and 279.16 shall apply. However, if the probationary teacher is a beginning teacher who fails to demonstrate competence in the Iowa teaching standards in accordance with chapter 284, the provisions of sections 279.17 and 279.18 shall also apply.
The board’s decision shall be final and binding unless the termination was based upon an alleged violation of a constitutionally guaranteed right of the teacher or an alleged violation of public employee rights of the teacher under section 20.10.

Notwithstanding any provision to the contrary, the grievance procedures of section 20.18 relating to job performance or job retention shall not apply to a teacher during the first two years of the teacher's probationary period. However, this paragraph shall not apply to a teacher who has successfully completed a probationary period in a school district in Iowa.

An extracurricular contract offered under this section shall be separate from the contract issued under section 279.13. Wages for employees who coach these sports shall be paid pursuant to established or negotiated supplemental pay schedules. An extracurricular contract shall be in writing, and shall state the number of contract days for that sport, the annual compensation to be paid, and any other matters as may be mutually agreed upon. The contract shall be for a single school year.

2. a. An extracurricular contract shall be continued automatically in force and effect for equivalent periods, except as modified or terminated by mutual agreement of the board of directors and the employee, or terminated in accordance with this section. An extracurricular contract may be terminated at the end of a school year pursuant to sections 279.15 through 279.19. If the school district offers an extracurricular contract for a sport for the subsequent school year to an employee who is currently performing under an extracurricular contract for that sport, and the employee does not wish to accept the extracurricular contract for the subsequent year, the employee may resign from the extracurricular contract within twenty-one days after it has been received.

b. Section 279.13, subsection 3, applies to this section.

3. The board of directors of a school district may require an employee who has resigned from an extracurricular contract to accept, as a condition of employment under section 279.13, the extracurricular contract for no longer than one additional school year if all the following conditions apply:

b. The board of directors has made a good faith effort to fill the coaching position with a licensed or authorized replacement.

c. The position has not been filled by June 1 of the year in which the employee resigned the extracurricular contract.

a. The individual who held the coaching position during the year has not been issued a teaching contract by the board pursuant to section 279.13 for the subsequent school year, or has been terminated from the extracurricular contract.

b. The board of directors has made a good faith effort to fill the coaching position with a licensed or authorized replacement.

c. The position has not been filled by June 1 of the year in which the vacancy occurred for the interscholastic athletic sport.

did not make a good faith effort to fill the position the employee may appeal the decision by
notifying the board in writing within ten days after receiving the notification.

b. The appeal shall state why the employee believes that the board did not make a good
faith effort to fill the position. If the parties are unable to informally resolve the dispute, the
parties shall attempt to agree upon an alternative means of resolving the dispute.

c. If the dispute is not resolved by mutual agreement, either party may appeal to the
district court.

6. Subsections 3, 4, and 5 do not apply if the terms of a collective bargaining agreement
provide otherwise.

7. An extracurricular contract may be terminated prior to the expiration of that contract
pursuant to section 279.27.

8. a. A termination proceeding of an extracurricular contract either by the board pursuant
to subsection 2 or pursuant to section 279.27 does not affect a contract issued pursuant to
section 279.13.

b. A termination of a contract entered into pursuant to section 279.13, or a resignation
from that contract by the teacher, constitutes an automatic termination or resignation of the
extracurricular contract in effect between the same teacher and the employing school board.

9. For the purposes of this section, “good faith effort” includes advertising for the position
in an appropriate publication, interviewing applicants, and giving serious consideration to
those licensed or authorized, and otherwise qualified, applicants who apply.

10. The licensure requirements of subsections 3, 4, and 9 shall not apply to community
colleges.

2. The contract shall be signed by the president and the administrator and shall be filed with the secretary of the board before the administrator enters upon performance of the contract. A contract shall not be tendered by an employing board to an administrator under its jurisdiction prior to March 15. A contract shall not be required to be signed by the administrator and returned to the board in less than twenty-one days after being tendered.
3. Except as otherwise specifically provided, an administrator’s contract shall be governed by the provisions of this section and sections 279.23A, 279.24, and 279.25, and not by section 279.13.

279.24 Contract with administrators — automatic continuation or termination.

1. An administrator’s contract shall remain in force and effect for the period stated in the contract. The contract shall be automatically continued in force and effect for additional one-year periods beyond the end of its original term, except and until the contract is modified or terminated by mutual agreement of the board of directors and the administrator, or until terminated as provided by this section.

2. If the board of directors is considering termination of an administrator’s contract, prior to any formal action, the board may arrange to meet in closed session, in accordance with the provisions of section 21.5, with the administrator and the administrator’s representative. The board shall review the administrator’s evaluation, review the reasons for nonrenewal, and give the administrator an opportunity to respond. If, following the closed session, the board of directors and the administrator are unable to mutually agree to a modification or termination of the administrator’s contract, or the board of directors and the administrator are unable to mutually agree to enter into a one-year nonrenewable contract, the board of directors shall follow the procedures in this section.

3. An administrator may file a written resignation with the secretary of the school board on or before May 1 of each year or the date specified by the school board for return of the contract, whichever date occurs first.

4. Administrators employed in a school district for less than two consecutive years are probationary administrators. However, a school board may waive the probationary period for any administrator who has previously served a probationary period in another school district and the school board may extend the probationary period for an additional year with the consent of the administrator. If a school board determines that it should terminate a probationary administrator’s contract, the school board shall notify the administrator not later than May 15 that the contract will not be renewed beyond the current year. The notice shall be in writing by letter, personally delivered, or mailed by certified mail. The notification shall be complete when received by the administrator. Within ten days after receiving the notice, the administrator may request a private conference with the school
board to discuss the reasons for termination. The school board’s decision to terminate a probationary administrator’s contract shall be final unless the termination was based upon an alleged violation of a constitutionally guaranteed right of the administrator.

5. The school board may, by majority vote of the membership of the school board, cause the contract of an administrator to be terminated. If the school board determines that it should consider the termination of a nonprobationary administrator’s contract, the following procedure shall apply:

a. On or before May 15, the administrator shall be notified in writing by a letter personally delivered or mailed by certified mail that the school board has voted to consider termination of the contract. The notification shall be complete when received by the administrator.

b. The notice shall state the specific reasons to be used by the school board for considering termination which for all administrators except superintendents shall be for just cause.

c. Within five days after receipt of the written notice that the school board has voted to consider termination of the contract, the administrator may request in writing to the secretary of the school board that the notification be forwarded to the board of educational examiners along with a request that the board of educational examiners submit a list of five qualified administrative law judges to the parties. Within three days from receipt of the list the parties shall select an administrative law judge by alternately removing a name from the list until only one name remains. The person whose name remains shall be the administrative law judge. The parties shall determine by lot which party shall remove the first name from the list. The hearing shall be held no sooner than ten days and not later than thirty days following the administrator’s request unless the parties otherwise agree. If the administrator does not request a hearing, the school board, not later than May 31, may determine the continuance or discontinuance of the contract and, if the board determines to continue the administrator’s contract, whether to suspend the administrator with or without pay for a period specified by the board. School board action shall be by majority roll call vote entered on the minutes of the meeting. Notice of school board action shall be personally delivered or mailed to the administrator.

d. The administrative law judge selected shall notify the secretary of the school board and the administrator in writing concerning the date, time, and location of the hearing. The school board may be represented by a legal representative, if any, and the administrator shall appear and may be represented by counsel or by representative, if any. A transcript or recording shall be made of the proceedings at the hearing. A school board member or administrator is not liable for any damage to an administrator or school board member if a statement made at the hearing is determined to be erroneous as long as the statement was made in good faith.

e. The administrative law judge shall, within ten days following the date of the hearing, make a proposed decision as to whether or not the administrator should be dismissed, and shall give a copy of the proposed decision to the administrator and the school board. Findings of fact shall be prepared by the administrative law judge. The proposed decision of the administrative law judge shall become the final decision of the school board unless within ten days after the filing of the decision the administrator files a written notice of appeal with the school board, or the school board on its own motion determines to review the decision.

f. If the administrator appeals to the school board, or if the school board determines on its own motion to review the proposed decision of the administrative law judge, a private hearing shall be held before the school board within five days after the petition for review, or motion for review, has been made or at such other time as the parties agree. The private hearing is not subject to chapter 21. The school board may hear the case de novo upon the record as submitted before the administrative law judge. In cases where there is an appeal from a proposed decision or where a proposed decision is reviewed on motion of the school board, an opportunity shall be afforded to each party to file exceptions, present briefs, and present oral arguments to the school board which is to render the final decision. The secretary of the school board shall give the administrator written notice of the time, place, and date of the hearing. The school board shall meet within five days after the hearing to determine the question of continuance or discontinuance of the contract and, if the board determines to continue the administrator’s contract, whether to suspend the administrator with or without pay for a period specified by the board. The school board shall make findings of fact which
shall be based solely on the evidence in the record and on matters officially noticed in the record.

g. The decision of the school board shall be in writing and shall include findings of fact and conclusions of law, separately stated. Findings of fact, if set forth in statutory language, shall be accompanied by a concise and explicit statement of the underlying facts supporting the findings. Each conclusion of law shall be supported by cited authority or by reasoned opinion.

h. When the school board has reached a decision, opinion, or conclusion, it shall convene in open meeting and by roll call vote determine the continuance or discontinuance of the administrator’s contract and, if the board votes to continue the administrator’s contract, whether to suspend the administrator with or without pay for a period specified by the board. The record of the private conference and findings of fact and exceptions shall be exempt from the provisions of chapter 22. The secretary of the school board shall immediately personally deliver or mail notice of the school board’s action to the administrator.

If a school district or nonpublic school does not provide an interscholastic activity for its students, the board of directors of that school district or the authorities in charge of the nonpublic school may complete an agreement with another school district or nonpublic school to provide for the eligibility of its students in interscholastic activities provided by that other school district or nonpublic school. A copy of each agreement completed under this section shall be filed with the appropriate organization as organization is defined in section 280.13 not later than April 30 of the school year preceding the school year in which the agreement takes effect, unless an exception is granted by the organization for good cause. An agreement denied by a governing organization under this section may be appealed to the state board of education under chapter 290.
For the purpose of this section, “substantial prejudice” includes, but is not limited to, situations where shared interscholastic activities may result in an unfair domination of an interscholastic activity or substantial disruption of activity classifications and management.

If students attend classes in another school district under this section under an agreement that provides for whole grade sharing, the boards of directors of districts entering into these agreements shall provide for sharing the costs and expenses as provided in sections 282.10 through 282.12. If a district that has entered into a whole grade sharing agreement determines that a need exists to hire additional employees because of the whole grade sharing agreement, the district shall determine the nature and number of the necessary new positions. However, the board is not required to offer a new position to applicants who were among those who were terminated as a result of the agreement beyond two school years. An employee who accrued benefits before a whole grade sharing agreement resulted in the employee’s termination shall not, as a result of reemployment under this section, forfeit accrued vacation, accrued sick leave, longevity, completion of probationary status as defined by section 279.19, or salary or placement on a salary schedule based upon the employee’s years of experience.

2. a. When a special education personnel pooling agreement, which has been entered into between an area education agency and a public school district pursuant to section 273.5, is terminated, the public school district shall assume the contractual obligations for any teachers assigned to the district under the agreement. Teachers, for whom the contractual obligations are assumed by a district, shall be given credit for completion of any probationary status under section 279.19, be placed on the salary schedule and retain all leaves, benefits, and seniority rights accumulated as if the teacher had been originally employed under the agreement which exists between the public school district and the district’s collective bargaining unit, consistent with the teacher’s education and experience.

A teacher who is employed under a pooling agreement and assigned to special education facilities that are separate from and not part of local school district facilities shall, if the teacher’s employment terminates upon termination of the pooling agreement, be offered any teaching position that is similar to the position previously held by the teacher under the pooling agreement, which is vacant in any of the local school districts which participated in the pooling agreement, provided that the teacher possesses the appropriate license for the position. Teachers employed by a local school district under this paragraph shall have the same rights, privileges, and protection as teachers whose contractual
obligations are assumed by a district to which the teacher previously had been assigned under a special education personnel pooling agreement.

280.28 Harassment and bullying prohibited — policy — immunity.
1. Purpose — findings — policy. The state of Iowa is committed to providing all students with a safe and civil school environment in which all members of the school community are treated with dignity and respect. The general assembly finds that a safe and civil school environment is necessary for students to learn and achieve at high academic levels. Harassing and bullying behavior can seriously disrupt the ability of school employees to maintain a safe and civil environment, and the ability of students to learn and succeed. Therefore, it is the policy of the state of Iowa that school employees, volunteers, and students in Iowa schools shall not engage in harassing or bullying behavior.

2. Definitions. For purposes of this section, unless the context otherwise requires:
   a. “Electronic” means any communication involving the transmission of information by wire, radio, optical cable, electromagnetic, or other similar means. “Electronic” includes but is not limited to communication via electronic mail, internet-based communications, pager service, cell phones, and electronic text messaging.
   b. “Harassment” and “bullying” shall be construed to mean any electronic, written, verbal, or physical act or conduct toward a student which is based on any actual or perceived trait or characteristic of the student and which creates an objectively hostile school environment that meets one or more of the following conditions:
      (1) Places the student in reasonable fear of harm to the student’s person or property.
      (2) Has a substantially detrimental effect on the student’s physical or mental health.

   c. “Trait or characteristic of the student” includes but is not limited to age, color, creed, national origin, race, religion, marital status, sex, sexual orientation, gender identity, physical attributes, physical or mental ability or disability, ancestry, political party preference, political belief, socioeconomic status, or familial status.
   d. “Volunteer” means an individual who has regular, significant contact with students.

3. Policy. On or before September 1, 2007, the board of directors of a school district and the authorities in charge of each accredited nonpublic school shall adopt a policy declaring harassment and bullying in schools, on school property, and at any school function, or school-sponsored activity regardless of its location, in a manner consistent with this section, as against state and school policy. The board and the authorities shall make a copy of the policy available to all school employees, volunteers, students, and parents or guardians and shall take all appropriate steps to bring the policy against harassment and bullying and the responsibilities set forth in the policy to the attention of school employees, volunteers, students, and parents or guardians. Each policy shall, at a minimum, include all of the following components:
a. A statement declaring harassment and bullying to be against state and school policy. The statement shall include but not be limited to the following provisions:
   (1) School employees, volunteers, and students in school, on school property, or at any school function or school-sponsored activity shall not engage in harassing and bullying behavior.

   g. A statement of the manner in which the policy will be publicized.

4. Programs encouraged. The board of directors of a school district and the authorities in charge of each accredited nonpublic school are encouraged to establish programs designed to eliminate harassment and bullying in schools. To the extent that funds are available for these purposes, school districts and accredited nonpublic schools shall do the following:
   a. Provide training on antiharassment and antibullying policies to school employees and volunteers who have significant contact with students.
   b. Develop a process to provide school employees, volunteers, and students with the skills and knowledge to help reduce incidents of harassment and bullying.

5. Immunity. 6. Collection requirement. The board of directors of a school district and the authorities in charge of each nonpublic school shall develop and maintain a system to collect harassment and bullying incidence data.

7. Integration of policy and reporting. 8. Existing remedies not affected. This section shall not be construed to preclude a victim from seeking administrative or legal remedies under any applicable provision of law.

However, the board shall provide special education programs and services under chapters 256B, 257, and 273 for all children requiring special education.

2. The conditions of admission to public schools for work in the year immediately preceding the first grade and in the first grade shall be as follows:

282.4 Suspension — expulsion.

1. The board may confer upon any teacher, principal, or superintendent the power temporarily to suspend a student, notice of the suspension being at once given in writing to the president of the board.

2. a. A student who commits an assault, as defined under section 708.1, against a school
employee in a school building, on school grounds, or at a school-sponsored function shall be suspended for a time to be determined by the principal. Notice of the suspension shall be immediately sent to the president of the board. By special meeting or at the next regularly
scheduled board meeting, the board shall review the suspension and decide whether to hold a disciplinary hearing to determine whether or not to order further sanctions against the student, which may include expelling the student. In making its decision, the board shall consider the best interests of the school district, which shall include what is best to protect and ensure the safety of the school employees and students from the student committing the assault.

b. A student shall not be suspended or expelled pursuant to this section if the suspension or expulsion would violate the federal Individuals with Disabilities Education Act.

3. Notwithstanding section 282.6, if a student has been expelled or suspended from school and has not met the conditions of the expulsion or suspension, the student shall not be permitted to enroll in a school district until the board of directors of the school district approves, by a majority vote, the enrollment of the student.

   a. Is in the district for the purpose of making a home and not solely for school purposes.
   b. Meets the definitional requirements of the term “homeless individual” under 42 U.S.C. § 11302(a) and (c).

The board of education may, in a hardship case, exempt a student from payment of the above fees. Every person, however, who shall attend any school after graduation from a four-year course in an approved high school or its equivalent shall be charged a sufficient tuition fee to cover the cost of the instruction received by the person.

282.7 Attending in another corporation — payment.

1. The board of directors of a school district by record action may discontinue any or all of grades seven through twelve and negotiate an agreement for attendance of the pupils enrolled in those grades in the schools of one or more contiguous school districts having accredited
school systems. If the board designates more than one contiguous district for attendance of its pupils, the board shall draw boundary lines within the school district for determining the school districts of attendance of the pupils. The portion of a district so designated shall be contiguous to the accredited school district designated for attendance. Only entire grades may be discontinued under this subsection and if a grade is discontinued, all higher grades in that district shall also be discontinued. A school district that has discontinued one or more grades under this subsection has complied with the requirements of section 275.1 relating to the maintenance of kindergarten and twelve grades. A pupil who graduates from another school district under this subsection shall receive a diploma from the receiving district. The boards of directors entering into an agreement under this section shall provide for sharing the costs and expenses as provided in sections 282.10 through 282.12. The agreement shall provide for transportation and authority and liability of the affected boards.

2. If the vocational program offered by a school district does not meet the state board of vocational education's standards for program approval, the district shall be granted one year to meet the standards for approval. If a district chooses to waive the one-year grace period, or the district fails to meet the approval standards after one year, the director of the board of vocational education shall delegate the authority to the regional planning board established pursuant to section 258.16 to direct the district to contract with another school district or a community college which has an approved program, for the provision of vocational education for students of the district. The district that has waived the one-year grace period or has failed to meet the approval standards shall pay to the district or community college that has an approved program an amount equal to the percent of the school day in which a pupil is receiving vocational education in the approved program times the district cost per pupil of the district of residence of the pupil. The regional planning board established pursuant to section 258.16 shall contract with an approved program for delivery of vocational education in the district which has failed to meet the approval standards or has waived the one-year grace period. Transportation to and from the approved program shall be provided by the school district that has waived the one-year grace period or has failed to meet approval standards. Reasonable effort shall be made to conduct the approved program at an attendance center in the district that has failed to meet the approval standards or has waived the one-year grace period.

3. Notwithstanding sections 28E.9 and 282.8, a school district may negotiate an agreement under subsection 1 for attendance of its pupils in a school district located in a contiguous state subject to a reciprocal agreement by the two state boards in the manner provided in this subsection. Prior to negotiating an agreement with the school district in the contiguous state, the board of directors shall file a written request with the state board of education for a determination whether the school district in the contiguous state meets requirements substantially similar to those required for accredited or approved school districts in this state and the school district receives or has available services equivalent to those that would be provided in this state by an area education agency. The school district shall also obtain approval by the department of education of the sharing proposal, before the agreement becomes effective. Six months before making the request for approval, the district shall request a feasibility study from the department of education. If the state board of this state and the corresponding state board in the contiguous state agree that the school districts of their respective states meet substantially similar requirements and have substantially similar services available to the school district, and if the Iowa department of education approves the proposed contract, the two state boards may sign a reciprocal agreement for attendance of their pupils in the school district of the other state, subject to the agreement signed between the boards of directors of the two districts. A school district that negotiates an agreement with a school district in a contiguous state under this subsection is not eligible for supplementary weighting under section 257.11 as a result of that agreement.

282.8 Attending school outside state.
The boards of directors of school districts located near the state boundaries may designate schools of equivalent standing across the state line for attendance of both elementary and high school pupils when the public school in the adjoining state is nearer than any appropriate public school in a pupil’s district of residence or in Iowa. Distance shall be measured by the nearest traveled public road. Arrangements shall be subject to reciprocal agreements made between the chief state school officers of the respective states. Notwithstanding section 282.1, arrangements between districts pursuant to the reciprocal agreements made under this section shall establish tuition and transportation fees in an amount acceptable to the affected boards, but the tuition and transportation fees shall not be less than the lower average cost per pupil for the previous school year of the two affected school districts. For the purpose of this section average cost per pupil for the previous school year is determined by dividing the district’s operating expenditures for the previous school year by the number of children enrolled in the district in the previous school year on the date specified in section 257.6, subsection 1. A person attending school in another state shall continue to be treated as a pupil of the district of residence in the apportionment of the current school fund and the payment of state aid.

1. Notwithstanding sections 275.55A, 256F.4, and 282.18, or any other provision to the contrary, prior to knowingly enrolling an individual who is required to register as a sex offender under chapter 692A, but who is otherwise eligible to enroll in a public school, the board of directors of a school district shall determine the educational placement of the individual. Upon receipt of notice that a student who is enrolled in the district is required to register as a sex offender under chapter 692A, the board shall determine the educational placement of the student. The tentative agenda for the meeting of the board of directors at which the board will consider such enrollment or educational placement shall specifically state that the board is considering the enrollment or educational placement of an individual who is required to register as a sex offender under chapter 692A. If the individual is denied enrollment in a school district under this section, the school district of residence shall provide the individual with educational services in an alternative setting.
2. Notwithstanding section 692A.121, or any other provision of law to the contrary, the county sheriff shall provide to the boards of directors of the school districts located within the county the name of any individual under the age of twenty-one who is required to register as a sex offender under chapter 692A.

282.10 Whole grade sharing.
1. Whole grade sharing is a procedure used by school districts whereby all or a substantial portion of the pupils in any grade in two or more school districts share an educational program for all or a substantial portion of a school day under a written agreement pursuant to section 256.13, 280.15, or 282.7, subsection 1 or subsections 1 and 3. Whole grade sharing may either be one-way or two-way sharing.
2. One-way whole grade sharing occurs when a school district sends pupils to one or more other school districts for instruction and does not receive a substantial number of pupils from those districts in return.
3. Two-way whole grade sharing occurs when a school district sends pupils to one or more other school districts for instruction and receives a substantial number of pupils from those school districts in return.
4. A whole grade sharing agreement shall be signed by the boards of the districts involved in the agreement not later than February 1 of the school year preceding the school year for which the agreement is to take effect. The boards of the districts shall negotiate as part of the
new or existing agreement the disposition of teacher quality funding provided under chapter 284.
87 Acts, ch 224, §60; 88 Acts, ch 1263, §8; 2008 Acts, ch 1181, §75

282.11 Procedure.
1. For the purposes of this section, “affected pupils” are those who under the whole grade sharing agreement are attending or scheduled to attend the school district specified in the agreement, other than the district of residence, during the term of the agreement.
2. Not less than ninety days prior to signing a whole grade sharing agreement whereby all or a substantial portion of the pupils in a grade in the district will attend school in another district, the board of directors of each school district that is negotiating, extending, or renewing a sharing agreement, shall publicly announce its intent to negotiate a sharing agreement under section 21.4, subsection 1. Within thirty days of the board’s public notice, a petition may be filed with the department of education requesting that a feasibility study be completed. The petition shall be signed by twenty percent of the eligible electors in the district. The director of the department of education may determine that a feasibility study conducted by the board satisfies the request, provided that the study conforms with the criteria contained in section 256.9.
3. Not less than thirty days prior to signing a whole grade sharing agreement whereby all or a substantial portion of the pupils in a grade in the district will attend school in another district, the board of directors of each school district that is a party to a proposed sharing agreement shall hold a public hearing at which the proposed agreement is described, and at which the parent or guardian of an affected pupil and certificated employees of the school district shall have an opportunity to comment on the proposed agreement.
4. a. Within the thirty-day period prior to the signing of the agreement, the parent or guardian of an affected pupil may request the board of directors to send the pupil to another contiguous school district. The request shall be based upon one of the following:
   (1) That the agreement will not meet the educational program needs of the pupil.
   (2) That adequate consideration was not given to geographical factors.
b. The board shall allow or disallow the request prior to the signing of the agreement, or the request shall be deemed granted. If the board disallows the request, the board shall indicate the reasons why the request is disallowed and shall notify the parent or guardian that the decision of the board may be appealed as provided in this section.
c. If the board disallows the request of a parent or guardian of an affected pupil, the parent or guardian, not later than March 1, may appeal the sending of that pupil to the school district specified in the agreement, to the state board of education. The basis for the appeal shall be the same as the basis for the request to the board. An appeal shall specify a contiguous school district to which the parent or guardian wishes to send the affected pupil.
d. If the parent or guardian appeals, the standard of review of the appeal is a preponderance of evidence that the parent’s or guardian’s hardship outweighs the benefits and integrity of the sharing agreement. The state board may require the district of residence to pay tuition to the contiguous school district specified by the parent or guardian, or may deny the appeal by the parent or guardian. If the state board requires the district of residence to pay tuition to the contiguous school district specified by the parent or guardian, the tuition shall be equal to the tuition established in the sharing agreement. The decision of the state board is binding on the boards of directors of the school districts affected, except that the decision of the state board may be appealed by either party to the district court.

282.12 Funding.
1. An agreement for whole grade sharing shall establish a method for determination of costs, if any, associated with the sharing agreement.
2. For one-way sharing, the sending district shall pay no less than one-half of the district cost per pupil of the sending district.
3. For two-way sharing, the costs shall be determined by mutual agreement of the boards.
4. The number of pupils participating in a whole grade sharing agreement shall be determined on the date specified in section 257.6, subsection 1, and on the third Friday of February of each year.

282.13 through 282.16 Reserved.

282.18 Open enrollment.

1. a. It is the goal of the general assembly to permit a wide range of educational choices for children enrolled in schools in this state and to maximize ability to use those choices. It is therefore the intent that this section be construed broadly to maximize parental choice and access to educational opportunities which are not available to children because of where they live.

b. For the school year commencing July 1, 1989, and each succeeding school year, a parent or guardian residing in a school district may enroll the parent’s or guardian’s child in a public school in another school district in the manner provided in this section.

2. a. By March 1 of the preceding school year for students entering grades one through twelve, or by September 1 of the current school year for students entering kindergarten, the parent or guardian shall send notification to the district of residence and the receiving district, on forms prescribed by the department of education, that the parent or guardian intends to enroll the parent’s or guardian’s child in a public school in another school district. If a parent or guardian fails to file a notification that the parent intends to enroll the parent’s or guardian’s child in a public school in another district by the deadline specified in this subsection, the procedures of subsection 4 apply.

b. The board of the receiving district shall enroll the pupil in a school in the receiving district for the following school year unless the receiving district has insufficient classroom space for the pupil. The board of directors of a receiving district may adopt a policy granting the superintendent of the school district authority to approve open enrollment applications. If the request is granted, the board shall transmit a copy of the form to the parent or guardian and the school district of residence within five days after board action, but not later than June 1 of the preceding school year. The parent or guardian may withdraw the request at any time prior to the start of the school year. A denial of a request by the board of a receiving district is not subject to appeal.

c. Every school district shall adopt a policy which defines the term “insufficient classroom space” for that district.

3. a. The superintendent of a district subject to a voluntary diversity or court-ordered desegregation plan, as recognized by rule of the state board of education, may deny a request for transfer under this section if the superintendent finds that enrollment or release of a pupil will adversely affect the district’s implementation of the desegregation order or diversity plan, unless the transfer is requested by a pupil whose sibling is already participating in open enrollment to another district, or unless the request for transfer is submitted to the district in a timely manner as required under subsection 2 prior to the adoption of a desegregation plan by the district. If a transfer request would facilitate a voluntary diversity or court-ordered desegregation plan, the district shall give priority to granting the request over other requests.

b. A parent or guardian, whose request has been denied because of a desegregation order or diversity plan, may appeal the decision of the superintendent to the board of the district in which the request was denied. The board may either uphold or overturn the superintendent’s decision. A decision of the board to uphold the denial of the request is subject to appeal to the district court in the county in which the primary business office of the district is located. The state board of education shall adopt rules establishing definitions, guidelines, and a review process for school districts that adopt voluntary diversity plans. The guidelines shall include criteria and standards that school districts must follow when developing a voluntary diversity plan. The department of education shall provide technical assistance to a school district that is seeking to adopt a voluntary diversity plan. A school district implementing a voluntary
diversity plan prior to July 1, 2008, shall have until July 1, 2009, to comply with guidelines adopted by the state board pursuant to this section.

c. The board of directors of a school district subject to voluntary diversity or court-ordered desegregation shall develop a policy for implementation of open enrollment in the district. The policy shall contain objective criteria for determining when a request would adversely impact the desegregation order or voluntary diversity plan and criteria for prioritizing requests that do not have an adverse impact on the order or plan.

4. a. After March 1 of the preceding school year and until the date specified in section 257.6, subsection 1, the parent or guardian shall send notification to the district of residence and the receiving district, on forms prescribed by the department of education, that good cause, as defined in paragraph “b”, exists for failure to meet the March 1 deadline. The board of directors of a receiving school district may adopt a policy granting the superintendent of the school district authority to approve open enrollment applications submitted after the March 1 deadline. The board of the receiving district shall take action to approve the request if good cause exists. If the request is granted, the board shall transmit a copy of the form to the parent or guardian and the school district of residence within five days after board action. A denial of a request by the board of a receiving district is not subject to appeal.

b. For purposes of this section, “good cause” means a change in a child’s residence due to a change in family residence, a change in the state in which the family residence is located, a change in a child’s parents’ marital status, a guardianship or custody proceeding, placement in foster care, adoption, participation in a foreign exchange program, or participation in a substance abuse or mental health treatment program, a change in the status of a child’s resident district such as removal of accreditation by the state board, surrender of accreditation, or permanent closure of a nonpublic school, revocation of a charter school contract as provided in section 256F.8, the failure of negotiations for a whole grade sharing, reorganization, dissolution agreement or the rejection of a current whole grade sharing agreement, or reorganization plan. If the good cause relates to a change in status of a child’s school district of residence, however, action by a parent or guardian must be taken to file the notification within forty-five days of the last board action or within thirty days of the certification of the election, whichever is applicable to the circumstances.

c. If a resident district believes that a receiving district is violating this subsection, the resident district may, within fifteen days after board action by the receiving district, submit an appeal to the director of the department of education.

d. The director, or the director’s designee, shall attempt to mediate the dispute to reach approval by both boards as provided in subsection 14. If approval is not reached under mediation, the director or the director’s designee shall conduct a hearing and shall hear testimony from both boards. Within ten days following the hearing, the director shall render a decision upholding or reversing the decision by the board of the receiving district. Within five days of the director’s decision, the board may appeal the decision of the director to the state board of education under the procedures set forth in chapter 290.

5. Open enrollment applications filed after March 1 of the preceding school year that do not qualify for good cause as provided in subsection 4 shall be subject to the approval of the board of the resident district and the board of the receiving district. The parent or guardian shall send notification to the district of residence and the receiving district that the parent or guardian seeks to enroll the parent’s or guardian’s child in the receiving district. A decision of either board to deny an application filed under this subsection involving repeated acts of harassment of the student or serious health condition of the student that the resident district cannot adequately address is subject to appeal under section 290.1. The state board shall exercise broad discretion to achieve just and equitable results that are in the best interest of the affected child or children.

6. A request under this section is for a period of not less than one year. If the request is for more than one year and the parent or guardian desires to have the pupil enroll in a different district, the parent or guardian may petition the current receiving district by March 1 of the previous school year for permission to enroll the pupil in a different district for a period of not less than one year. Upon receipt of such a request, the current receiving district board may act on the request to transfer to the other school district at the next regularly scheduled
board meeting after the receipt of the request. The new receiving district shall enroll the pupil in a school in the district unless there is insufficient classroom space in the district or unless enrollment of the pupil would adversely affect the court-ordered or voluntary desegregation plan of the district. A denial of a request to change district enrollment within the approved period is not subject to appeal. However, a pupil who has been in attendance in another district under this section may return to the district of residence and enroll at any time, once the parent or guardian has notified the district of residence and the receiving district in writing of the decision to enroll the pupil in the district of residence.

7. A pupil participating in open enrollment shall be counted, for state school foundation aid purposes, in the pupil’s district of residence. A pupil’s residence, for purposes of this section, means a residence under section 282.1. The board of directors of the district of residence shall pay to the receiving district the state cost per pupil for the previous school year, plus any moneys received for the pupil as a result of the non-English speaking weighting under section 280.4, subsection 3, for the previous school year multiplied by the state cost per pupil for the previous year. If the pupil participating in open enrollment is also an eligible pupil under section 261E.6, the receiving district shall pay the tuition reimbursement amount to an eligible postsecondary institution as provided in section 261E.7.

8. If a request filed under this section is for a child requiring special education under chapter 256B, the request to transfer to the other district shall only be granted if the receiving district maintains a special education instructional program which is appropriate to meet the child’s educational needs and the enrollment of the child in the receiving district’s program would not cause the size of the class in that special education instructional program in the receiving district to exceed the maximum class size in rules adopted by the state board of education for that program. For children requiring special education, the board of directors of the district of residence shall pay to the receiving district the actual costs incurred in providing the appropriate special education.

9. a. If a parent or guardian of a child, who is participating in open enrollment under this section, moves to a different school district during the course of either district’s academic year, the child’s first district of residence shall be responsible for payment of the cost per pupil plus weightings or special education costs to the receiving school district for the balance of the school year in which the move took place. The new district of residence shall be responsible for the payments during succeeding years.

b. If a request to transfer is due to a change in family residence, change in the state in which the family residence is located, a change in a child’s parents’ marital status, a guardianship proceeding, placement in foster care, adoption, participation in a foreign exchange program, or participation in a substance abuse or mental health treatment program, and the child who is the subject of the request is enrolled in any grade from kindergarten through grade twelve at the time of the request and is not currently using any provision of open enrollment, the parent or guardian of the child shall have the option to have the child remain in the child’s original district of residence under open enrollment with no interruption in the child’s kindergarten through grade twelve educational program. If a parent or guardian exercises this option, the child’s new district of residence is not required to pay the amount calculated in subsection 7 until the start of the first full year of enrollment of the child.

c. Quarterly payments shall be made to the receiving district.

d. If the transfer of a pupil from one district to another results in a transfer from one area education agency to another, the sending district shall forward a copy of the request to the sending district’s area education agency. The receiving district shall forward a copy of the request to the receiving district’s area education agency. Any moneys received by the area education agency of the sending district for the pupil who is the subject of the request shall be forwarded to the receiving district’s area education agency.

e. A district of residence may apply to the school budget review committee if a student was not included in the resident district’s enrollment count during the fall of the year preceding the student’s transfer under open enrollment.

10. a. Notwithstanding section 285.1 relating to transportation of nonresident pupils, the parent or guardian is responsible for transporting the pupil without reimbursement to and
from a point on a regular school bus route of the receiving district. For purposes of this subsection, “a point on a regular school bus route of the receiving district” includes any school bus stop on the regular school bus route of the receiving district that existed prior to road construction that necessitates a change in the regular school bus route, whether or not the change in the regular school bus route resulting from the road construction necessitates sending school vehicles from the receiving district into the district of residence in order to safely, economically, or efficiently transport students to or from the preexisting point.

b. A receiving district may send school vehicles into the district of residence of the pupil using the open enrollment option under this section, for the purpose of transporting the pupil to and from school in the receiving district, if the boards of both the sending and receiving districts agree to this arrangement.

c. If the pupil meets the economic eligibility requirements established by the department and state board of education, the sending district is responsible for providing transportation or paying the pro rata cost of the transportation to a parent or guardian for transporting the pupil to and from a point on a regular school bus route of a contiguous receiving district unless the cost of providing transportation or the pro rata cost of the transportation to a parent or guardian exceeds the average transportation cost per pupil transported for the previous school year in the district. If the cost exceeds the average transportation cost per pupil transported for the previous school year, the sending district shall only be responsible for that average per pupil amount. A sending district which provides transportation for a pupil to a contiguous receiving district under this subsection may withhold, from the district cost per pupil amount that is to be paid to the receiving district, an amount which represents the average or pro rata cost per pupil for transportation, whichever is less.

11. A pupil who participates in open enrollment for purposes of attending a grade in grades nine through twelve in a school district other than the district of residence is ineligible to participate in varsity interscholastic athletic contests and athletic competitions during the pupil’s first ninety school days of enrollment in the district except that the pupil may participate immediately in a varsity interscholastic sport if the pupil is entering grade nine for the first time and did not participate in an interscholastic athletic competition for another school or school district during the summer immediately following eighth grade, if the district of residence and the other school district jointly participate in the sport, if the sport in which the pupil wishes to participate is not offered in the district of residence, if the pupil chooses to use open enrollment to attend school in another school district because the district in which the student previously attended school was dissolved and merged with one or more contiguous school districts under section 256.11, subsection 12, if the pupil participates in open enrollment because the pupil's district of residence has entered into a whole grade sharing agreement with another district for the pupil’s grade, or if the parent or guardian of the pupil participating in open enrollment is an active member of the armed forces and resides in permanent housing on government property provided by a branch of the armed services. A pupil who has paid tuition and attended school, or has attended school pursuant to a mutual agreement between the two districts, in a district other than the pupil’s district of residence for at least one school year is also eligible to participate immediately in interscholastic athletic contests and athletic competitions under this section, but only as a member of a team from the district that pupil had attended. For purposes of this subsection, “school days of enrollment” does not include enrollment in summer school. For purposes of this subsection, “varsity” means the same as defined in section 256.46.

12. If a pupil, for whom a request to transfer has been filed with a district, has been suspended or expelled in the district, the pupil shall not be permitted to transfer until the pupil has been reinstated in the sending district. Once the pupil has been reinstated, however, the pupil shall be permitted to transfer in the same manner as if the pupil had not been suspended or expelled by the sending district. If a pupil, for whom a request to transfer has been filed with a district, is expelled in the district, the pupil shall be permitted to transfer to a receiving district under this section if the pupil applies for and is reinstated in the sending district. However, if the pupil applies for reinstatement but is not reinstated in the sending district, the receiving district may deny the request to transfer. The decision of the receiving district is not subject to appeal.
13. If a request under this section is for transfer to a laboratory school, as described in chapter 265, the student, who is the subject of the request, shall not be included in the basic enrollment of the student’s district of residence, and the laboratory school shall report the enrollment of the student directly to the department of education, unless the number of students from the district attending the laboratory school during the current school year, as a result of open enrollment under this section, exceeds the number of students enrolled in the laboratory school from that district during the 1989-1990 school year. If the number of students enrolled in the laboratory school from a district during the current year exceeds the number of students enrolled from that district during the 1989-1990 school year, those students who represent the difference between the current and the 1988-1989 school year enrollment figures shall be included in the basic enrollment of the students’ districts of residence and the districts shall retain any moneys received as a result of the inclusion of the student in the district enrollment. The total number of students enrolled at a laboratory school during a school year shall not exceed six hundred seventy students. The regents institution operating the laboratory school and the board of directors of the school district in the community in which the regents institution is located shall develop a student transfer policy designed to protect and promote the quality and integrity of the teacher education program at the laboratory school, the viability of the education program of the local school district in which the regents institution is located, and to indicate the order in which and reasons why requests to transfer to a laboratory school shall be considered. A laboratory school may deny a request for transfer under the policy. A denial of a request to transfer under this subsection is not subject to appeal under section 290.1.

14. An application for open enrollment may be granted at any time with approval of the resident and receiving districts.

15. a. If a request under this section is for transfer to a laboratory school, as described in chapter 256G, the student who is the subject of the request shall be included in the basic enrollment of the student’s district of residence and the board of directors of the district of residence shall pay to a laboratory school the state cost per pupil for the previous school year, plus any moneys received for the pupil as a result of the non-English speaking weighting under section 280.4, subsection 3, for the previous school year multiplied by the state cost per pupil for the previous year.

b. Notwithstanding subsection 7, a district of residence shall not be required to pay the state cost per pupil for a student attending a laboratory school during the school year beginning July 1, 2010, if the student was not included in the district of residence’s enrollment count for funding purposes in the school year beginning July 1, 2009.

16. a. The total enrollment of the research and development school shall be limited to six hundred fifty students.

b. Open enrollment requests accepted by the research and development school shall be limited to a five percent increase per year of students from each of the Cedar Falls community school district and the Waterloo school district over the previous year’s enrollment at the research and development school.

c. The total number of students enrolled in the research and development school from the Cedar Falls community school district shall be limited to not more than ten percent of the total district enrollment of the Cedar Falls community school district.

d. Open enrollment requests accepted by the research and development school from a school district shall be limited to not more than two percent of a school district’s previous year’s total enrollment count. This subsection does not apply to the Cedar Falls community and Waterloo school districts.

17. The director of the department of education shall recommend rules to the state board of education for the orderly implementation of this section. The state board shall adopt rules as needed for the implementation of this section.
§282.19 Child living in substance abuse or foster care placement.

1. A child who is living in a facility that provides residential treatment as “facility” is defined in section 125.2, which is located in a school district other than the school district in which the child resided before entering the facility may enroll in and attend an accredited school in the school district in which the child is living.

2. A child who is living in a licensed individual or agency foster care facility, as defined in section 237.1, or in an unlicensed relative foster care placement, shall remain enrolled in and attend an accredited school in the school district in which the child resided and is enrolled at the time of placement, unless it is determined by the juvenile court or the public or private agency of this state that has responsibility for the child’s placement that remaining in such school is not in the best interests of the child. If such a determination is made, the child may attend an accredited school located in the school district in which the child is living and not in the school district in which the child resided prior to receiving foster care.

3. The instructional costs for students who do not require special education shall be paid as provided in section 282.31, subsection 1, paragraph “b” or for students who require special education shall be paid as provided in section 282.31, subsections 2 or 3.

It shall be unlawful for any school district to rebate to any pupils or their parents, directly or indirectly, any portion of the tuition collected or to be collected or to authorize or permit such pupils to receive at the expense of the district, directly or indirectly, any special compensation, benefit, privilege, or other thing of value that is not and cannot legally be made available to all other pupils enrolled in its schools. Any superintendent or board members responsible for such unlawful act shall each be personally liable to a fine of not to exceed one hundred dollars. Action to recover such penalty or action to enjoin such unlawful act may be instituted by the board of any school district or by a taxpayer in any school district.

On or before February 15 and June 15 of each year the secretary of the creditor district shall deliver to the secretary of the debtor district an itemized statement of such tuition fees.

The auditor shall transmit to the county treasurer an order directing the county treasurer to transfer the amount of such account from the funds of the debtor corporation to the creditor corporation, and the county treasurer shall pay the same accordingly.

1. a. The maximum tuition fee that may be charged for elementary and high school students residing within another school district or corporation except students attending school in another district under section 282.7, subsection 1, or subsections 1 and 3, is the district cost per pupil of the receiving district as computed in section 257.10.
   b. A school corporation which owns facilities used as attendance centers for students shall maintain an itemized statement of the appraised value of all buildings owned by the school corporation. The appraisal shall be updated at least once every five years.
   c. This subsection does not prevent the corporation or district in which the student resides from paying a tuition in excess of the maximum computed tuition rates, if the actual per pupil cost of the preceding year so warrants, but the receiving district or corporation shall not demand more than the maximum rate.

Credit earned in any such course at a college or university may be applied toward credit for high school graduation. Public school funds shall not be expended for payment of tuition or other costs for such attendance at a college or university, unless the payment is expressly permitted or required by law.
3. Subsections 1 and 2 shall also apply to colleges and universities in adjacent states when the institutions are located nearer to the homes or schools of the school district than the closest college or university within the state.

1. a. An area education agency shall provide or make provision for an appropriate educational program for each child living in the following types of facilities located within its boundaries:
   (1) An approved or licensed shelter care home, as defined in section 232.2, subsection 34.
   (2) An approved juvenile detention home, as defined in section 232.2, subsection 32.
   b. The area education agency shall provide the educational program by any one of, but not limited to, the following:
      (1) Providing for the enrollment of the child in the district of residence of the child, subject to the approval of the district in which the child is living.
      (2) Cooperating with the district of residence of the child and obtaining the course of study and textbooks of the child for use in the special facility into which the child has been placed.
      (3) Providing for the enrollment of the child in the district in which the child is living, subject to the approval of the district in which the child is living.
   c. An area education agency shall not provide educational services to a facility specified in paragraph “a” unless the facility makes a request for educational services to the area education agency by either of the following dates:
      (1) December 1 of the school year prior to the beginning of the school year for which the services are being requested.
      (2) Ninety days prior to the beginning of the time for which the services are being requested if the facility is a newly established facility.

2. The area education agency where the child is living, the school district of residence, the other appropriate area education agency or agencies, and other appropriate agencies involved with the care or placement of the child shall cooperate with the school district where the child is living in sharing educational information, textbooks, curriculum, assignments, and materials in order to plan and to provide for the appropriate education of the child living in such facility specified in subsection 1.

§282.31 Funding for special programs.

1. a. A child who lives in a facility pursuant to section 282.30, subsection 1, paragraph “a”, and who is not enrolled in the educational program of the district of residence of the child, shall receive appropriate educational services. The area education agency shall submit a proposed program and budget to the department of education by January 1 for the next succeeding school year. The department of education shall review and approve or modify the program and proposed budget and shall notify the department of administrative services and the area education agency of its action by February 1. The department of administrative services shall pay the approved budget amount for an area education agency in monthly installments beginning September 15 and ending June 15 of the next succeeding school year. The installments shall be as nearly equal as possible as determined by the department of management, taking into consideration the relative budget and cash position of the state's resources. The department of administrative services shall transfer the approved budget amount for an area education agency from the moneys appropriated under section 257.16 and make the payment to the area education agency. The area education agency shall
submit an accounting for the actual cost of the program to the department of education by August 1 of the following school year. The department shall review and approve or modify all expenditures incurred in compliance with the guidelines pursuant to section 256.7, subsection 10, and shall notify the department of administrative services of the approved accounting amount. The approved accounting amount shall be compared with any amounts paid by the department of administrative services to the area education agency and any differences added to or subtracted from the October payment made under this paragraph for the next school year. Any amount paid by the department of administrative services shall be deducted monthly from the state foundation aid paid under section 257.16 to all school districts in the state during the subsequent fiscal year. The portion of the total amount of the approved budget that shall be deducted from the state aid of a school district shall be the same as the ratio that the budget enrollment for the budget year of the school district bears to the total budget enrollment in the state for that budget year in which the deduction is made.

b. (1) A child who lives in a facility or other placement pursuant to section 282.19, and who does not require special education and who is enrolled in the educational program of the district of residence at the time the child is placed, shall be included in the basic enrollment of the school district in which the child is enrolled. A child who lives in a facility or other placement pursuant to section 282.19, and who does not require special education and who is not enrolled in the educational program of the district of residence of the child, shall be included in the basic enrollment of the school district in which the facility or other placement is located.

(2) However, on June 30 of a school year, if the board of directors of a school district determines that the number of children under this paragraph “b” who were counted in the basic enrollment of the school district in that school year in accordance with section 257.6, subsection 1, is fewer than the sum of the number of months all children were enrolled in the school district under this paragraph “b” during the school year divided by nine, the secretary of the school district may submit a claim to the department of education by August 1 following the school year for an amount equal to the district cost per pupil of the district for the previous school year multiplied by the difference between the number of children counted and the number of children calculated by the number of months of enrollment. The amount of the claim shall be paid by the department of administrative services to the school district by October 1. The department of administrative services shall transfer the total amount of the approved claim of a school district from the moneys appropriated under section 257.16 and the amount paid shall be deducted monthly from the state foundation aid paid to all school districts in the state during the remainder of the subsequent fiscal year in the manner provided in paragraph “a”.

2. a. The actual special education instructional costs incurred for a child who lives in a facility or other placement pursuant to section 282.19 or for a child who is placed in a facility or home pursuant to section 282.29, who requires special education and who is not enrolled in the educational program of the district of residence of the child but who receives an educational program from the district in which the facility, home, or other placement is located, shall be paid by the district of residence of the child to the district in which the facility, home, or other placement is located, and the costs shall include the cost of transportation.

b. A child shall not be denied special education programs and services because of a dispute over the determination of district of residence of the child. The director of the department of education shall determine the district of residence when a dispute arises regarding the determination of the district of residence for a child who requires special education pursuant to this subsection.

3. §285.1 When entitled to state aid.

1. a. The board of directors in every school district shall provide transportation, either directly or by reimbursement for transportation, for all resident pupils attending public school, kindergarten through twelfth grade, except that:

   (1) Elementary pupils shall be entitled to transportation only if they live more than two miles from the school designated for attendance.

   (2) High school pupils shall be entitled to transportation only if they live more than three miles from the school designated for attendance.

   (3) Children attending prekindergarten programs offered or sponsored by the district or nonpublic school and approved by the department of education or department of human services or children participating in preschool in an approved local program under chapter 256C may be provided transportation services. However, transportation services provided to nonpublic school children are not eligible for reimbursement under this chapter.

   (4) Districts are not required to maintain seating space on school buses for students who are otherwise to be provided transportation under this subsection if the students do not or will not regularly utilize the district’s transportation service for extended periods during the school year. The student, or the student’s parent or legal guardian if the student is less than eighteen years of age, shall be notified by the district before transportation services may be suspended, and the suspension may continue until the student, or the student’s parent or legal guardian, notifies the district that regular student ridership will continue.

   b. For the purposes of this subsection, “high school” means a school which commences with either grade nine or grade ten, as determined by the board of directors of the school district or by the governing authority of the nonpublic school in the case of nonpublic schools.

   c. Boards in their discretion may provide transportation for some or all resident pupils attending public school or pupils who attend nonpublic schools who are not entitled to transportation. Boards in their discretion may collect from the parent or guardian of the pupil not more than the pro rata cost for such optional transportation, determined as provided in subsection 12.

2. Any pupil may be required to meet a school bus on the approved route a distance of not to exceed three-fourths of a mile without reimbursement.

3. In a district where transportation by school bus is impracticable, where necessary to implement a whole grade sharing agreement under section 282.10, or where school bus service is not available, the board may require parents or guardians to furnish transportation for their children to the schools designated for attendance. Except as provided in section 285.3, the parent or guardian shall be reimbursed for such transportation service for public and nonpublic school pupils by the board of the resident district in an amount equal to eighty dollars plus seventy-five percent of the difference between eighty dollars and the previous school year’s statewide average per pupil transportation cost, as determined by the department of education. However, a parent or guardian shall not receive reimbursement for furnishing transportation for more than three family members who attend elementary school and one family member who attends high school.

4. In all districts where unsatisfactory roads or other conditions make it advisable, the board at its discretion may require the parents or guardians of public and nonpublic school pupils to furnish transportation for their children up to two miles to connect with vehicles of transportation. The parents or guardians shall be reimbursed for such transportation by the boards of the resident districts at the rate of twenty-eight cents per mile per day, one way, per family for the distance from the pupil’s residence to the bus route.

5. Where transportation by school bus is impracticable or not available or other existing conditions warrant it, arrangements may be made for use of common carriers according to uniform standards established by the director of the department of education and at a cost based upon the actual cost of service and approved by the board.

6. When the school designated for attendance of pupils is engaged in the transportation of pupils, the sending or designating school shall use these facilities and pay the pro rata cost of transportation except that a district sending pupils to another school may make other arrangements when it can be shown that such arrangements will be more efficient and
economical than to use facilities of the receiving school, providing such arrangements are approved by the board of the area education agency.

7. If a local board closes either elementary or high school facilities and is approved by the board of the area education agency to operate its own transportation equipment, the full cost of transportation shall be paid by the board for all pupils living beyond the statutory walking distance from the school designated for attendance.

8. Transportation service may be suspended upon any day or days, due to inclemency of the weather, conditions of roads, or the existence of other conditions, by the board of the school district operating the buses, when in their judgment it is deemed advisable and when the school or schools are closed to all children.

9. Distance to school or to a bus route shall in all cases be measured on the public highway only and over the most passable and safest route as determined by the area education agency board, starting in the roadway opposite the private entrance to the residence of the pupil and ending in the roadway opposite the entrance to the school grounds or designated point on bus route.

10. The board in any district providing transportation for nonresident pupils shall collect the pro rata cost of transportation from the district of pupil’s residence for all properly designated pupils so transported.

11. Boards in districts operating buses may transport nonresident pupils who attend public school, kindergarten through junior college, who are not entitled to free transportation provided they collect the pro rata cost of transportation from the parents.

12. The pro rata cost of transportation shall be based upon the actual cost for all the children transported in all school buses. It shall include one-seventh of the original net cost of the bus and other items as determined and approved by the director of the department of education but no part of the capital outlay cost for school buses and transportation equipment for which the school district is reimbursed from state funds or that portion of the cost of the operation of a school bus used in transporting pupils to and from extracurricular activities shall be included in determining the pro rata cost. In a district where, because of unusual conditions, the cost of transportation is in excess of the actual operating cost of the bus route used to furnish transportation to nonresident pupils, the board of the local district may charge a cost equal to the cost of other schools supplying such service to that area, upon receiving approval of the director of the department of education.

13. When a local board fails to pay transportation costs due to another school for transportation service rendered, the board of the creditor corporation shall file a sworn statement with the area education agency board specifying the amount due. The agency board shall check such claim and if the claim is valid shall certify to the county auditor. The auditor shall transmit to the county treasurer an order directing the county treasurer to transfer the amount of such claim from the funds of the debtor corporation to the creditor corporation and the treasurer shall pay the same accordingly.

14. Resident pupils attending a nonpublic school located either within or without the school district of the pupil’s residence shall be entitled to transportation on the same basis as provided for resident public school pupils under this section. The public school district providing transportation to a nonpublic school pupil shall determine the days on which bus service is provided, which shall be based upon the days for which bus service is provided to public school pupils, and the public school district shall determine bus schedules and routes. In the case of nonpublic school pupils the term “school designated for attendance” means the nonpublic school which is designated for attendance by the parents of the nonpublic school pupil.

15. If the nonpublic school designated for attendance is located within the public school district in which the pupil is a resident, the pupil shall be transported to the nonpublic school designated for attendance as provided in this section.

16. a. If the nonpublic school designated for attendance of a pupil is located outside the boundary line of the school district of the pupil’s residence, the pupil may be transported by the district of residence to a public school or other location within the district of the pupil’s residence. A public school district in which a nonpublic school is located may establish school bus collection locations within its district from which nonresident nonpublic school pupils
may be transported to and from a nonpublic school located in the district. If a pupil receives such transportation, the district of the pupil’s residence shall be relieved of any requirement to provide transportation.

b. As an alternative to paragraph “a” of this subsection, subject to section 285.9, subsection 3, where practicable, and at the option of the public school district in which a nonpublic school pupil resides, the school district may transport a nonpublic school pupil to a nonpublic school located outside the boundary lines of the public school district if the nonpublic school is located in a school district contiguous to the school district which is transporting the nonpublic school pupils, or may contract with the contiguous public school district in which a nonpublic school is located for the contiguous school district to transport the nonpublic school pupils to the nonpublic school of attendance within the boundary lines of the contiguous school district.

c. If the nonpublic school designated for attendance of a pupil is located outside the boundary line of the school district of the pupil’s residence and the district of residence meets the requirements of subsections 14 to 16 of this section by using subsection 17, paragraph “c”, of this section and the district in which the nonpublic school is located is contiguous to the district of the pupil’s residence and is willing to provide transportation under subsection 17, paragraph “a” or “b”, of this section, the district in which the nonpublic school is located may provide transportation services, subject to section 285.9, subsection 3, and may make the claim for reimbursement under section 285.2. The district in which the nonpublic school is located shall notify the district of the pupil’s residence that it is making the claim for reimbursement, and the district of the pupil’s residence shall be relieved of the requirement for providing transportation and shall not make a claim for reimbursement for those nonpublic school pupils for which a claim is filed by the district in which the nonpublic school is located.

17. The public school district may meet the requirements of subsections 14 to 16 by any of the following:

a. Transportation in a school bus operated by a public school district.

b. Contracting with private parties as provided in section 285.5. However, contracts shall not provide payment in excess of the average per pupil transportation costs of the school district for that year.

c. Utilizing the transportation reimbursement provision of subsection 3.

d. Contracting with a contiguous public school district to transport resident nonpublic school pupils the entire distance from the nonpublic pupil’s residence to the nonpublic school located in the contiguous public school district or from the boundary line of the public school district to the nonpublic school.

18. The director of the department of education may review all transportation arrangements to see that they meet all legal and established uniform standard requirements.

19. Transportation authorized by this chapter is exempt from all laws of this state regulating common carriers.

20. Transportation for which the pro rata cost or other charge is collected shall not be provided outside the state of Iowa except in accordance with rules adopted by the department of education in accordance with chapter 17A. The rules shall take into account any applicable federal requirements.

21. Boards in districts operating buses may in their discretion transport senior citizens, children, persons with disabilities, and other persons and groups, who are not otherwise entitled to free transportation, and shall collect the pro rata cost of transportation. Transportation under this subsection shall not be provided when the school bus is being used to transport pupils to or from school unless the board determines that such transportation is desirable and will not interfere with or delay the transportation of pupils.

22. Notwithstanding subsection 1, paragraph “a”, subparagraph (1), a parent or guardian of an elementary pupil entitled to transportation pursuant to subsection 1, may request that a child care facility be designated for purposes of subsection 9 rather than the residence of the
pupil. The request shall be submitted for a period of time of at least one semester and may not be submitted more than twice during a school year.

2. The costs of providing transportation to nonpublic school pupils as provided in section 285.1 shall not be included in the computation of district cost under chapter 257, but shall be shown in the budget as an expense from miscellaneous income. Any transportation reimbursements received by a local school district for transporting nonpublic school pupils shall not affect district cost limitations of chapter 257. The reimbursements provided in this section are miscellaneous income as defined in section 257.2.

3. a. Claims for reimbursement shall be made to the department of education by the public school district providing transportation or transportation reimbursement during a school year on a form prescribed by the department, and the claim shall state the services provided and the actual costs incurred. A claim shall not exceed the average transportation costs of the district per pupil transported except as otherwise provided. If transportation is provided under section 285.1, subsection 3, the amount of a claim shall be determined under section 285.3 regardless of the average transportation costs of the district per pupil transported.

b. Claims shall be accompanied by an affidavit of an officer of the public school district affirming the accuracy of the claim.

c. By February 1 and on or about June 15 of each year, the department shall certify to the department of administrative services the amounts of approved claims to be paid, and the department of administrative services shall draw warrants payable to school districts which have established claims.

4. a. Claims shall be allowed where practical, and at the option of the public school district of the pupil’s residence, subject to approval by the area education agency of the pupil’s residence, under section 285.9, subsection 3, the public school district of the pupil’s residence may transport a pupil to a school located in a contiguous public school district outside the boundary lines of the public school district of the pupil’s residence.

The public school district in which the pupil resides may contract with the contiguous public school district or with a private contractor under section 285.5 to transport the pupil from the pupil’s residence or from designated school bus collection locations to the school located within the boundary lines of the contiguous public school district, subject to the approval of
the area education agency of the pupil’s residence. The public school district of the pupil’s residence may utilize the reimbursement provisions of section 285.1, subsection 3.

The board of the district where the pupils reside may with the approval of the area education agency board, subject to legal limitations and established uniform standards, designate another rural school and provide their own transportation if the transportation costs will be less than to use the established bus service.

All designations must be submitted to the area education agency board on or before July 15, for review and approval. The agency board shall after due investigation alter or change designations to make them conform to legal requirements and established uniform standards for making designations and for locating and establishing bus routes. 3. A route shall not be extended for the purpose of accommodating pupils whose homes are nearer another bus route.
4. Special contracts for transportation of pupils entitled to transportation shall be entered into only when it is more economical to make such special provision than to provide same by regular bus route, or when by reason of physical or mental disability of the pupil such pupil cannot be transported with safety by bus.
5. The boards shall take advantage of all tax exemptions on fuel, equipment, and of such other economies as are available.
6. The use of school buses shall be restricted to transporting pupils to and from school and to and from extracurricular activities sponsored by the school when such extracurricular activity is under the direction of a qualified member of the faculty and a part of the regular school program and to transporting other persons to the extent permitted by section 285.1, subsection 1, and section 285.10, subsections 9 and 10. School employees of districts operating buses may be transported to and from school and approved activities which they are required to attend as a result of their responsibilities. Provided, however, nothing in this subsection shall prohibit the use of school buses in transporting a school teacher going to and from the teacher’s school when such school is on an established school bus route and such teacher makes arrangements with the district operating such school bus.

7. No bus shall leave the public highway to receive or discharge pupils unless their safety is enhanced thereby, or the private road is maintained in the same manner as a public roadway.
8. Bus routes shall be established only to give service to properly designated pupils.

§285.12 Disputes — hearings and appeals.

In the event of a disagreement between a school patron and the board of the school district, the patron if dissatisfied with the decision of the board, may appeal to the area education agency board, notifying the secretary of the district in writing within ten days of the decision of the board and by filing an affidavit of appeal with the agency board within the ten-day period. 294.11 Termination resolution adopted.  
Any school district which has in operation the pension and annuity retirement system created pursuant to sections 294.8 to 294.10 may terminate such system by the adoption by the board of directors of such district, of a resolution declaring such system terminated as of a date specified therein.

294.12 Pension fund held for survivors upon termination.  
In the event of such termination, all assessments of teachers shall cease upon such date of termination, or upon such earlier date as may be prescribed in such resolution, and no additional taxes shall be levied or assessed for the operation of such system, save as in section 294.13. All undisposed of funds and accumulations derived from the operation of said system,
including the proceeds, when collected, of any annual tax heretofore levied for the operation of said system, and including the proceeds of any annual tax levied hereafter pursuant to the provisions of section 294.13, shall constitute a retirement liquidation fund. Such liquidation fund shall be held for the benefit of those surviving beneficiaries under such system as of said date of termination, and of members of such system as of date of termination. There shall be set aside from such retirement liquidation fund an amount sufficient to provide for the payment of all surviving beneficiaries who shall be entitled to receive benefits under such system as of said date of termination, providing an actuarial computation has been made of the amount required to meet such benefit payments, providing the amount in the retirement liquidation fund is sufficient for this purpose, and the amount set aside shall be used for no other purpose than for the payment of claims to such beneficiaries. Any amount in excess of the actuarial equivalent of the sum required to pay such benefit payments shall be apportioned to persons who were as of the effective date of the termination of the system, members of such system, in proportion to the amount which the accumulated contribution of each such person bears to the total funds of such retirement system subject to such apportionment. Any member of such system as of the date of termination thereof, may, in lieu of receiving the cash refund of the member’s share of the liquidation fund, elect to come under the coverage of any new pension and annuity retirement system established by the district, to which the member is eligible, with credits toward future benefits in consideration of the member’s prior contributions and length of service, and may direct the transfer of the amount payable to the member to the assets of the new pension and annuity retirement system. In any case where the board of directors of a school district including a teachers retirement system established under the provisions of section 294.8, whose members were not under coverage of the Iowa old-age and survivors’ insurance system prior to May 1, 1953, the board of directors may authorize the payment from funds in excess of the actuarial amount estimated as required for the payment of benefits to persons entitled to them, and for the purpose of obtaining retroactive social security coverage from January 1, 1951, until the effective date of federal coverage of Iowa public employees as provided by chapter 97C. Each surviving beneficiary entitled to receive retirement benefits of the date of termination of the system will be entitled to receive retirement benefits at the time and in the amount in effect with respect to such beneficiary immediately prior to the date of termination.

In any school district which has pursuant to section 294.11 terminated a previously existing pension and annuity retirement system and has after actuarial computation established a retirement reserve fund pursuant to this section in order to pay to surviving beneficiaries entitled to receive retirement benefits at date of termination of said system in the amount in effect with respect to such beneficiaries immediately prior to the date of termination, the board of directors may authorize each and every payment to each surviving beneficiary falling due subsequent to June 30, 1971, to be increased by an amount to be determined by the board such increased payments to be paid from the retirement reserve fund according to an actuarial computation thereof plus such additional amounts transferred from the general fund as may be required. In order to provide the additional amounts required from the general fund for such increased payments, the board of directors may annually at the meeting at which it estimates the amount required for the general fund in accordance with section 298.1 estimate such additional amount as an actuarial computation shall show is necessary from the general fund for the payment of such increased benefits for the current school year; provided the amount estimated and certified to be transferred from the general fund to the retirement reserve fund shall not exceed one and four-tenths cents per thousand dollars of the assessed valuation of the taxable property of the school corporation. The board of supervisors shall in accordance with the provisions of section 298.8 levy the taxes necessary to raise the amount estimated by the board of directors as above provided and certified to the board of supervisors. Upon the death of the last beneficiary to survive, any balance remaining in said retirement reserve fund shall be transferred to the general fund of said school district.

Notwithstanding the provisions of this section, the plan provisions of a pension and annuity retirement system of a school district established under this chapter regarding the determination and distribution of benefits upon termination of the retirement system shall be effective if the school district has received a favorable determination letter from the
federal internal revenue service as to the qualified status of such retirement system under applicable provisions of the Internal Revenue Code.

294.13 General fund replacements.
The board of directors of said district shall each year at the meeting at which it estimates the amount required for the general fund, in accordance with the provisions of section 298.1, estimate the additional amount, if any, necessary to provide the required annual payments to surviving beneficiaries, which amount shall be levied by the board of supervisors in accordance with the provisions of section 298.8. Upon the death of the last beneficiary to survive, any balance remaining in said fund, including any undisposed of accumulations, shall be transferred to the general fund of said school district.

The board of directors of said district shall annually, for a period of five years after the effective date of the termination of its pension system, at the meeting at which it estimates the amount required for the general fund, in accordance with the provisions of section 298.1, estimate the additional amount if any necessary to pay to participants in the pension system who are not entitled to receive benefits under such system at the date of termination thereof, one-fifth of the amount paid into said pension fund by such participants therein, without interest, which amount shall be levied by the board of supervisors, in accordance with provisions of section 298.8 and, in addition thereto, the board of directors of said district shall each year at the meeting at which it estimates the amount required for the general fund, in accordance with the provisions of section 298.1, estimate the additional amount, if any, necessary to provide the required annual payments to surviving beneficiaries of said pension system, as defined in section 294.12, which amount shall be levied by the board of supervisors, in accordance with the provisions of section 298.8. Upon the death of the last beneficiary, as defined in section 294.12, to survive, any balance remaining in said fund, including any undisposed of accumulations, shall be transferred to the general fund of said school district.

294.16 Investment contracts.
1. The school district may establish a plan, in accordance with section 403(b) of the Internal Revenue Code, as defined in section 422.3, for employees, which plan shall consist of one or more investment contracts, on a group or individual basis, acquired from a company, or a salesperson for that company, that is authorized to do business in this state.
2. The selection of investment contracts to be included within the plan established by the school district shall be made either pursuant to a competitive bidding process conducted by the school district, in coordination with employee organizations representing employees eligible to participate in the plan, or pursuant to an agreement with the department of administrative services to make available investment contracts included in a deferred compensation or similar plan established by the department pursuant to section 8A.438, which plan meets the requirements of this section. The determination of whether to select investment contracts for the plan pursuant to a competitive bidding process or by agreement with the department of administrative services shall be made by agreement between the school district and the employee organizations representing employees eligible to participate in the plan.
3. The school district may make elective deferrals in accordance with the plan as authorized by an eligible employee for the purpose of making contributions to the investment contract on behalf of the employee. The deferrals shall be made in the manner which will qualify contributions to the investment contract for the benefits under section 403(b) of the
Internal Revenue Code, as defined in section 422.3. In addition, the school district may make nonelective employer contributions to the plan.

4. As used in this section, unless the context otherwise requires, “investment contract” shall mean a custodial account utilizing mutual funds or an annuity contract which meets the requirements of section 403(b) of the Internal Revenue Code, as defined in section 422.3.

296.7 Indebtedness for insurance authorized — tax levy.
1. a. A school district or community college corporation may contract indebtedness and issue general obligation bonds or enter into insurance agreements obligating the school district or corporation to make payments beyond its current budget year for one or more of the following mechanisms to protect the school district or corporation from tort liability, loss of property, environmental hazards, or any other risk associated with the operation of the school district or corporation:
(1) To procure or provide for a policy of insurance.
(2) To provide a self-insurance program.
(3) To establish and maintain a local government risk pool.
   a. However, this subsection does not apply to an insurance program described in subsection 3.
   b. For purposes of subsection 1, an employee benefit plan which includes a specific or aggregate excess loss coverage or a program that self-insures only a per-employee or per-family deductible for each year and which transfers the risk remaining beyond this deductible is not a self-insurance program, but is instead an insurance program. As used in this section, an “employee benefit plan” includes, but is not limited to benefits for hospital and surgical, medical expense, major medical, dental, prescription drug, disability, or life insurance costs or benefits.
   c. A school district, providing an insurance program as described in subsection 2, shall not contract indebtedness and issue general obligation bonds or enter into insurance agreements obligating the school district to make payments beyond its current budget year for that employee benefit plan. A school district may, however, apply to the school budget review committee for relief if necessitated by the expenses in the school district’s insurance program as described in subsection 2.
   d. However, for a school district, a tax levied under this section shall be included in the district management levy under section 298.4.
   e. A self-insurance program or local government risk pool authorized by subsection 1 is not insurance and is not subject to regulation under chapters 505 through 523C. However, those self-insurance plans regulated pursuant to section 509A.14 shall remain subject to the requirements of section 509A.14 and rules adopted pursuant to that section.
   f. Notwithstanding the other provisions of this section or any other statute, the tax levy authorized by this section shall not be used to pay the costs of employee benefits, including, but not limited to costs for hospital and surgical, medical expense, major medical, dental, prescription drug, disability, or life insurance benefits.
   g. If the board by resolution restricts the use of money in a fund as a reserve for uninsured liability or a self-insurance program, the use shall be restricted and unavailable for any other purpose until the board removes the restriction. The removal is not effective until all obligations of the restricted fund have been satisfied, or the next fiscal year, whichever occurs later.

SALE OR LEASE OF PROPERTY

§297.22 Power to sell, lease, or dispose of property — tax.
1. a. The board of directors of a school district may sell, lease, or dispose of, in whole 
or in part, a schoolhouse, school site, or other property belonging to the district. If the real 
property contains less than two acres, is located outside of a city, is not adjacent to a city, 
and was previously used as a schoolhouse site, the procedure contained in sections 297.15 
through 297.20 shall be followed in lieu of this section.

b. Proceeds from the sale or disposition of real property shall be placed in the physical 
plant and equipment levy fund. Proceeds from the sale or disposition of property other than 
real property shall be placed in the general fund. Proceeds from the lease of real or other 
property shall be placed in the general fund.

c. Before the board of directors may sell, lease for a period in excess of one year, or 
dispose of any property belonging to the school, the board shall hold a public hearing on the 
proposal. The board shall set forth its proposal in a resolution and shall publish notice of the 
time and the place of the public hearing on the resolution. The notice shall also describe the 
property. A locally known address for real property may be substituted for a legal description 
of real property contained in the resolution. Notice of the time and place of the public hearing 
shall be published at least once not less than ten days but not more than twenty days prior 
to the date of the hearing in a newspaper of general circulation in the district. After the 
public hearing, the board may make a final determination on the proposal contained in the 
resolution.

d. However, property having a value of not more than five thousand dollars, other than 
real property, may be disposed of by any procedure which is adopted by the board and each 
sale shall be published by at least one insertion each week for two consecutive weeks in a 
newspaper having general circulation in the district.

2. a. The board of directors of a school district may sell, lease, exchange, give, or grant,
and accept any interest in real property to, with, or from a county, municipal corporation, school district, township, or area education agency if the real property is within the jurisdiction of both the grantor and grantee.

b. The board of directors of a school district may lease a portion of an existing school building in which the remaining portion of the building will be used for school purposes for a period of not to exceed five years. The lease may be renewed at the option of the board. The notice and public hearing requirements of subsection 1 of this section do not apply to the lease of a portion of an existing school building. A school district shall pay out of the revenue from a lease to the state of Iowa, and to the city, school district and any other political subdivision authorized to levy taxes, an amount as determined by this section. The amount shall be determined by applying the annual tax rate of the taxing district to the assessed value of the portion of the building leased, prorated for the term of the lease during the appropriate taxing period. The provisions of this section relating to the payment of property tax because of leases shall only apply to leases to private, for-profit entities which lease a portion of a school building for a period of thirty or more consecutive days.

3. The provisions in subsections 1 and 2 relating to the sale, lease, or disposition of school district property do not apply to student-constructed buildings and the property on which student-constructed buildings are located. The board of directors of a school district may sell, lease, or dispose of a student-constructed building and the property on which the student-constructed building is located, and may purchase sites for the erection of additional structures, by any procedure which is adopted by the board.

If a board of directors has exercised its independent power under section 297.22 regarding the disposition of real or personal property of the school district and has by resolution approved such action, the electors may subsequently proceed to exercise their power under section 278.1 for a purpose directly contrary to an action previously approved by the board of directors in accordance with section 297.22. LOAN AGREEMENTS

§297.35 Continuation of loan agreement.
A loan agreement between a school district and a bank, investment banker, trust company, insurance company, or insurance group that was made under section 297.36, Code 1989, prior to July 1, 1991, in order to make immediately available proceeds of the schoolhouse tax approved by the voters prior to July 1, 1991, and the levy of taxes to pay principal and interest thereafter, shall continue in effect for the duration of the loan agreement.
89 Acts, ch 135, §104
297.36 Loan agreements.

In order to make immediately available proceeds of the voter-approved physical plant and equipment levy which has been approved by the voters as provided in section 298.2, the board of directors may, with or without notice, borrow money and enter into loan agreements in anticipation of the collection of the tax with a bank, investment banker, trust company, insurance company, or insurance group.

By resolution, the board shall provide for an annual levy which is within the limits of the voter-approved physical plant and equipment levy to pay for the amount of the principal and interest due each year until maturity. The board shall file a certified copy of the resolution with the auditor of each county in which the district is located. The filing of the resolution with the auditor makes it the duty of the auditor to annually levy the amount certified for collection until funds are realized to repay the loan and interest on the loan in full.

The loan must mature within the period of time authorized by the voters and shall bear interest at a rate which does not exceed the limits under chapter 74A. A loan agreement entered into pursuant to this section shall be in a form as the board of directors shall by resolution provide and the loan shall be payable as to both principal and interest from the proceeds of the annual levy of the voter-approved physical plant and equipment levy, or so much thereof as will be sufficient to pay the loan and interest on the loan.

The proceeds of a loan must be deposited in the physical plant and equipment levy fund. Warrants paid from this fund must be for purposes authorized for the voter-approved physical plant and equipment levy.

This section does not limit the authority of the board of directors to levy the full amount of the voter-approved physical plant and equipment levy, but if and to whatever extent the tax is levied in any year in excess of the amount of principal and interest falling due in that year under a loan agreement, the first available proceeds, to an amount sufficient to meet maturing installments of principal and interest under the loan agreement, shall be paid into the debt service fund for the loan before the taxes are otherwise made available to the school corporation for other school purposes, and the amount required to be annually set aside to pay principal of and interest on the money borrowed under the loan agreement constitutes a first charge upon the proceeds of the voter-approved physical plant and equipment levy, which tax shall be pledged to pay the loan and the interest on the loan.

This section is supplemental and in addition to existing statutory authority to finance the purposes specified in section 298.2 for the physical plant and equipment levy, and for the borrowing of money and execution of loan agreements in connection with that section, and is not subject to any other law. The fact that a school corporation may have previously borrowed money and entered into loan agreements under authority of this section does not prevent the school corporation from borrowing additional money and entering into further loan agreements if the aggregate of the amount payable under all of the loan agreements does not exceed the proceeds of the voter-approved physical plant and equipment levy.

298.2 Imposition of physical plant and equipment levy.
1. A physical plant and equipment levy of not exceeding one dollar and sixty-seven cents per thousand dollars of assessed valuation in the district is established except as otherwise provided in this subsection. The physical plant and equipment levy consists of the regular physical plant and equipment levy of not exceeding thirty-three cents per thousand dollars of assessed valuation in the district and a voter-approved physical plant and equipment levy of not exceeding one dollar and thirty-four cents per thousand dollars of assessed valuation in the district. However, the voter-approved physical plant and equipment levy may consist of a combination of a physical plant and equipment property tax levy and a physical plant and equipment income surtax as provided in subsection 4 with the maximum amount levied and imposed limited to an amount that could be raised by a one dollar and thirty-four cent property tax levy. The levy limitations of this subsection are subject to subsection 6.

2. If the electors of a school district have authorized a voter-approved physical plant and equipment levy not exceeding sixty-seven cents per thousand dollars of assessed valuation in the district prior to July 1, 1997, the levy shall continue for the period authorized under the voter-approved levy, and the maximum levy that can be authorized by the electors under the voter-approved levy on or after July 1, 1997, under this section, is an additional sixty-seven cents for a period to coincide with the period for which the initial physical plant and equipment levy in the district was approved.

3. The board of directors of a school district may certify for levy by April 15 of a school year a tax on all taxable property in the school district for the regular physical plant and equipment levy.

4. a. The board may on its own motion, and upon the written request of not less than one hundred eligible electors or thirty percent of the number of eligible electors voting at the last regular school election, whichever is greater, shall, direct the county commissioner of elections to provide for submitting the proposition of levying the voter-approved physical plant and equipment levy for a period of time authorized by the voters at the election, not to exceed ten years. The election shall be held on a date specified in section 39.2, subsection...
4, paragraph “c”. The proposition is adopted if a majority of those voting on the proposition at the election approves it. The voter-approved physical plant and equipment levy shall be funded either by a physical plant and equipment property tax or by a combination of a physical plant and equipment property tax and a physical plant and equipment income surtax, as determined by the board. However, if the board intends to enter into a rental or lease arrangement under section 279.26, or intends to enter into a loan agreement under section 297.36, only a property tax shall be levied for those purposes. Subject to the limitations of section 298.14, if the board uses a combination of a physical plant and equipment property tax and a physical plant and equipment surtax, for each fiscal year the board shall determine the percent of income surtax to be imposed expressed as full percentage points, not to exceed twenty percent.

b. If a combination of a property tax and income surtax is used, by April 15 of the previous school year, the board shall certify the percent of the income surtax to be imposed and the amount to be raised to the department of management and the department of management shall establish the rate of the property tax and income surtax for the school year. The physical plant and equipment property tax and income surtax shall be levied or imposed, collected, and paid to the school district in the manner provided for the instructional support program in sections 257.21 through 257.26.

5. a. The proposition to levy the voter-approved physical plant and equipment levy is not affected by a change in the boundaries of the school district, except as otherwise provided in this section. If each school district involved in a school reorganization under chapter 275 has adopted the voter-approved physical plant and equipment levy or the sixty-seven and one-half cents per thousand dollars of assessed value schoolhouse levy under section 278.1, subsection 7, Code 1989, prior to July 1, 1991, and if the voters have not voted upon the proposition to levy the voter-approved physical plant and equipment levy in the reorganized district, the existing voter-approved physical plant and equipment levy or the existing schoolhouse levy, as applicable, is in effect for the reorganized district for the least amount and the shortest time for which it is in effect in any of the districts.

b. Authorized levies for the period of time approved are not affected as a result of a failure of a proposition proposed to expand the purposes for which the funds may be expended.

6. If the board of directors of a school district in which the voters have authorized the schoolhouse tax prior to July 1, 1991, has entered into a rental or lease arrangement under section 279.26, Code 1989, or has entered into a loan agreement under section 297.36, Code 1989, the levy shall continue for the period authorized and the maximum levy that can be authorized under the voter-approved physical plant and equipment levy is reduced by the rate of the schoolhouse tax.

1. The board of directors of a school corporation in which there is no free public library may contract with a free public library for the free use of the library by the residents of the school district, and pay the library the amount agreed upon for the use of the library as provided by law. 298.18 Bond tax — election — leasing buildings.
1. a. The board of each school corporation shall, when estimating and certifying the amount of money required for general purposes, estimate and certify to the board of supervisors of the proper county for the debt service fund the amount required to pay interest due that may become due for the fiscal year beginning July 1, thereafter upon
lawful bonded indebtedness, and in addition thereto such amount as the board may deem necessary to apply on the principal.

b. The amount estimated and certified to apply on principal and interest for any one year shall not exceed two dollars and seventy cents per thousand dollars of the assessed valuation of the taxable property of the school corporation except as otherwise provided in this section.

c. For the sole purpose of computing the amount of bonds which may be issued as a result of the application of any limitation referred to in this section, all interest on the bonds in excess of that accruing in the first twelve months may be excluded from the first annual levy of taxes, so that the need for including more than one year’s interest in the first annual levy of taxes to pay the bonds and interest shall not operate to further restrict the amount of bonds which may be issued, and in certifying the annual levies to the county auditor or auditors such first annual levy of taxes shall be sufficient to pay all principal of and interest on said bonds becoming due prior to the next succeeding annual levy and the full amount of such first annual levy shall be entered for collection by said auditor or auditors, as provided in chapter 76.

d. The amount estimated and certified to apply on principal and interest for any one year may exceed two dollars and seventy cents per thousand dollars of assessed value by the amount approved by the voters of the school corporation, but not exceeding four dollars and five cents per thousand dollars of the assessed value of the taxable property within any school corporation, provided that the registered voters of such school corporation have first approved such increased amount at an election held on a date specified in section 39.2, subsection 4, paragraph “c”.

2. The proposition submitted to the voters at such election shall be in substantially the following form:

Shall the board of directors of the ................. (insert name of school corporation) in the County of ................., State of Iowa, be authorized to levy annually a tax exceeding two dollars and seventy cents per thousand dollars, but not exceeding ........ dollars and ........ cents per thousand dollars of the assessed value of the taxable property within said school corporation to pay the principal of and interest on bonded indebtedness of said school corporation, it being understood that the approval of this proposition shall not limit the source of payment of the bonds and interest but shall only operate to restrict the amount of bonds which may be issued?

3. Notice of the election shall be given by the county commissioner of elections according to section 49.53. The county commissioner of elections shall conduct the election pursuant to the provisions of chapters 39 through 53 and certify the results to the board of directors. The proposition shall not be deemed carried or adopted unless the vote in favor of such proposition is equal to at least sixty percent of the total vote cast for and against the proposition at the election. Whenever such a proposition has been approved by the voters of a school corporation as hereinbefore provided, no further approval of the voters of such school corporation shall be required as a result of any subsequent change in the boundaries of such school corporation.

4. The voted tax levy referred to in this section shall not limit the source of payment of bonds and interest but shall only restrict the amount of bonds which may be issued.

5. a. The ability of a school corporation to exceed two dollars and seventy cents per thousand dollars of assessed value to service principal and interest payments on bonded indebtedness is limited and conferred only to those school corporations engaged in the administration of elementary and secondary education.

b. If a school corporation leases a building or property, which has been used as a junior college by such corporation, to a community college, the annual amounts certified as herein provided by such leasing school corporation for payment of interest and principal due on lawful bonded indebtedness incurred by such leasing school corporation for purchasing,
building, furnishing, reconstructing, repairing, improving, or remodeling the building leased or acquiring or adding to the site of such property leased, to the extent of the respective annual rent the school corporation will receive under such lease, shall not be considered as a part of the total amount estimated and certified for the purposes of determining if such amount exceeds any limitation contained in this section.

Subsection 1, paragraph d amended

298.18A Levy adjustment.

If, in the opinion of the board of a school corporation, after having originally estimated and certified the amount required to pay interest and principal due upon bonded indebtedness incurred before July 1, 1995, an adjustment in the amount certified in excess of that previously levied by the resolution authorizing issuance of the bonds becomes necessary in anticipation of future projected revenue shortfalls resulting from a machinery and equipment-related taxable valuation decrease from the valuation as of January 1, 1994, an adjustment shall be permitted subject to the following limitations:

1. An adjustment shall be permitted only in a district in which machinery and equipment valuation exceeds twenty percent of total taxable valuation as of January 1, 1994.

2. The adjustment shall not result in a total amount levied in excess of the two dollar and seventy cent per thousand dollars of assessed valuation limit provided in section 298.18. An adjustment in excess of the two dollar and seventy cent per thousand dollars of assessed valuation limit shall be subject to the election provisions for increases of up to four dollars and five cents per thousand dollars of assessed valuation provisions of section 298.18.

3. The amount of the adjustment, when added to the amount originally estimated and certified, for any one year, shall not exceed the least of:
   a. The amount required to pay interest and principal due upon bonded indebtedness for the three-year period beginning on the date of the adjustment.
   b. One hundred twenty-five percent of the amount originally estimated and certified.
   c. One hundred ten percent of the total district levies for the fiscal year preceding the fiscal year in which the adjustment is to be added.

4. The amount of the adjustment plus the amount of state replacement moneys received under section 427B.19A which is attributable to the amount of the adjustment, when added to the amount originally estimated and certified, shall not result in the levying of an amount over the life of the issue in excess of the amount necessary for principal and interest repayment.

5. Amounts collected pursuant to this section shall be deposited in a separate debt service account distinct from the account established to hold principal and interest revenues resulting from the original levy.

6. An adjustment shall not be permitted which results in extending a levy beyond the earlier of the following:
   a. Ten years from the original date of certification of the amount required to pay interest and principal.

In addition, the report shall identify all students of compulsory attendance age who were truant as defined by law or school policy and the number of days of truancy for the period covered by the report, and children who dropped out, withdrew from enrollment, or transferred to another Iowa school and the date their attendance ceased at the accredited nonpublic school. The secretary shall retain and file one copy and forward the other copy to the district's area education agency. The report shall state the name and age of the child, the period of time during which the child has been or will be under competent private instruction for the year, an outline of the course of study, texts used, and the name and address of the instructor. The parent, guardian, or legal custodian of a child, who is placing the child under competent private instruction for the first time, shall also provide the district with evidence that the child has had the immunizations required under section 139A.8, and, if the child is elementary school age, a blood lead test in accordance with section 135.105D.
The term “outline of course of study” shall include subjects covered, lesson plans, and time spent on the areas of study.

2. A home school assistance program operated by a school district or accredited nonpublic school shall furnish a report on forms provided by the department. The report shall, at a minimum, state the name and age of the child and the period of time during the school year in which the child has been or will be under competent private instruction by the home school assistance program.

299.5 Proof of mental or physical condition.

The parent, guardian, or legal or actual custodian of a child who is of compulsory attendance age, who is physically or mentally unable to attend school, or whose presence in school would be injurious to the health of other pupils, shall furnish proofs by certificate under sections 256B.6 and 256B.7 as to the physical or mental condition of the child.

299.5A Mediation.

If a child is truant as defined in section 299.8, school officers shall attempt to find the cause for the child’s absence and use every means available to the school to assure that the child does attend. For a child who has completed educational requirements through the sixth grade, the means may include but are not limited to the use of an attendance cooperation process which substantially conforms with the provisions of section 299.12. If the parent, guardian, or legal or actual custodian, or child refuses to accept the school’s attempt to assure the child’s attendance or the school’s attempt to assure the child’s attendance is otherwise unsuccessful, the truancy officer shall refer the matter to the county attorney for mediation or prosecution.

If the matter is referred for mediation, the county attorney shall cause a notice of the referral to be sent to the parent, guardian, or legal or actual custodian and designate a person to serve as mediator in the matter. If mediation services are available in the community, those services may be used as the designated mediation service. If mediation services are not available in the community, mediation shall be provided by the county attorney or the county attorney’s designee. The mediator shall contact the school, the parent, guardian, or legal or actual custodian, and any other person the mediator deems appropriate in the matter and arrange meeting dates and times for discussion of the child’s nonattendance. The mediator shall attempt to ascertain the cause of the child’s nonattendance, attempt to cause the parties to arrive at an agreement relative to the child’s attendance, and initiate referrals to any agencies or counseling that the mediator believes to be appropriate under the circumstances.

If the parties reach an agreement, the agreement shall be reduced to writing and signed by a school officer, parent, guardian, or legal or actual custodian, and the child. The mediator, the school, and the parent, guardian, or legal or actual custodian shall each receive a copy of the agreement, which shall set forth the settlement of the issues and future responsibilities of each party.

The school district shall be responsible for monitoring any agreements arrived at through mediation. If a parent, guardian, or legal or actual custodian refuses to engage in mediation or violates a term of the agreement, the matter shall be rereferred to the county attorney for prosecution under section 299.6. The county attorney’s office or the mediation service shall require the parent, guardian, or legal or actual custodian and the school to pay a fee to help defray the administrative cost of mediation services. The county attorney’s office or the mediation service shall establish a sliding scale of fees to be charged parents, guardians, and legal or actual custodians based upon ability to pay. A parent, guardian, or legal or actual
custodian shall not be denied the services of a mediator solely because of inability to pay the fee.

The mediator may refer a truant to the juvenile court if mediation breaks down without an agreement being reached.

Any person who violates a mediation agreement under section 299.5A, who is referred for prosecution under section 299.5A and is convicted of a violation of any of the provisions of sections 299.1 through 299.5, who violates any of the provisions of sections 299.1 through 299.5, or who refuses to participate in mediation under section 299.5A, for a first offense, is guilty of a simple misdemeanor.

A first offense conviction is punishable by imprisonment not exceeding ten days or a fine not exceeding one hundred dollars. The court may order the person to perform not more than forty hours of unpaid community service instead of any fine or imprisonment. A person convicted of a second violation is guilty of a serious misdemeanor.

A second offense conviction is punishable by imprisonment not exceeding twenty days or a fine not exceeding five hundred dollars, or both a fine and imprisonment. The court may order the person to perform unpaid community service instead of any fine or imprisonment.

A third or subsequent offense is a serious misdemeanor and a conviction is punishable by imprisonment not exceeding thirty days or a fine not exceeding one thousand dollars, or both a fine and imprisonment. The court may order the person to perform unpaid community service instead of any fine or imprisonment.

If community service is imposed as part of a sentencing order, the court may require that part or all of the service be performed for a public school district or nonpublic school if the court finds that service in the school is appropriate under the circumstances.

If a parent, guardian, or legal or actual custodian of a child who is truant, has made reasonable efforts to comply with the provisions of sections 299.1 through 299.5, but is unable to cause the child to attend school, the parent, guardian, or legal or actual custodian may file an affidavit listing the reasonable efforts made by the parent, guardian, or legal or actual custodian to cause the child’s attendance and the parent, guardian, or legal or actual custodian shall not be criminally liable for the child’s nonattendance.

[S13, §2823-a; C24, 27, 31, 35, 39, §4415; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §299.6]

299.6A Civil penalty — distribution of funds.

1. In lieu of a criminal proceeding under section 299.6, a county attorney may bring a civil action against a parent, guardian, or legal or actual custodian of a child who is of compulsory attendance age, has not completed educational requirements, and is truant, if the parent, guardian, or legal or actual custodian has failed to cause the child to attend a public school, an accredited nonpublic school, or competent private instruction in the manner provided in this chapter. If the court finds that the parent, guardian, or legal or actual custodian has failed to cause the child to attend as required in this section, the court shall assess a civil penalty of not less than one hundred but not more than one thousand dollars for each violation established.

2. Funds received from civil penalties assessed pursuant to this section shall be paid to the school district of residence or school district of enrollment, if open enrolled, of the person against whom the court assessed the penalty. The school district shall use moneys received under this subsection to support programs for students who meet the definition of at-risk children adopted by the department of education.

299.7 Custody of records.
All such certificates, reports, and proofs shall be filed and preserved in the office of the secretary of the school corporation as a part of the records of the office, and the secretary shall furnish certified copies thereof to any person requesting the same.
[S13, §2823-b, -c; C24, 27, 31, 35, 39, §4416; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §299.7]

Any child of compulsory attendance age who fails to attend school as provided in this chapter, or as required by the school board’s or school governing body’s attendance policy, or who fails to attend competent private instruction under chapter 299A, without reasonable excuse for the absence, shall be deemed to be a truant. A finding that a child is truant, however, shall not by itself mean that the child is a child in need of assistance within the meaning of chapter 232 and shall not be the sole basis for a child in need of assistance petition.
[S13, §2823-e; C24, 27, 31, 35, 39, §4417; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §299.8]

299.10 Truancy officers — appointment.
The board of each school district may appoint a truancy officer. The board of each school district, which does not appoint a truancy officer for the district, shall designate a suitable person to collect information on the numbers of children in the district who are truant.
The board may appoint a member of the police force, marshal, teacher, school official, or other suitable person to serve as the district truancy officer.
[S13, §2823-e; C24, 27, 31, 35, 39, §4419; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §299.10]
91 Acts, ch 200, §13

299.11 Duties of truancy officer.
The truancy officer may take into custody without warrant any apparently truant child and place the child in the charge of the school principal, or the principal’s designee, designated by the board of directors of the school district in which the child resides, or of any nonpublic school designated by the parent, guardian, or legal or actual custodian; but if it is other than a public school, the instruction and maintenance of the child shall be without expense to the school district. If a child is taken into custody under this section, the truancy officer shall make every reasonable attempt to immediately notify the parent, guardian, or legal or actual custodian of the child’s location.
The truancy officer shall promptly institute proceedings against any person violating any of the provisions of sections 299.1 through 299.5A.
[S13, §2823-e, -f; C24, 27, 31, 35, 39, §4420; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §299.11]
91 Acts, ch 200, §14

299.12 Violation of attendance policy — attendance cooperation meeting — agreement.
1. For the purposes of this section, “school truancy officer” means a truancy officer appointed under section 299.10 or any other person designated by a public school board or a governing body of an accredited nonpublic school to administer provisions of this section.
2. This section is not applicable to a child who is receiving competent private instruction in accordance with the requirements of chapter 299A. If a child is not in compliance with the
attendance requirements established under section 299.1, and has not completed educational requirements through the sixth grade, and the school has used every means available to assure the child does attend, the school truancy officer shall contact the child’s parent, guardian, or legal or actual custodian to participate in an attendance cooperation meeting. The parties to the attendance cooperation meeting may include the child and shall include the child’s parent, guardian, or legal or actual custodian and the school truancy officer. The school truancy officer contacting the participants in the attendance cooperation meeting may invite other school officials, a designee of the juvenile court, the county attorney or the county attorney’s designee, or other persons deemed appropriate to participate in the attendance cooperation meeting.

3. The purpose of the attendance cooperation meeting is for the parties participating in the meeting to attempt to ascertain the cause of the child’s nonattendance, to cause the parties to arrive at an agreement relative to addressing the child’s attendance, and to initiate referrals to any services or counseling that the parties believe to be appropriate under the circumstances. The terms agreed to shall be reduced to writing in an attendance cooperation agreement and signed by the parties to the agreement. Each party signing the agreement shall receive a copy of the agreement, which shall set forth the cause identified for the child’s nonattendance and future responsibilities of each party.

4. If the parties to an attendance cooperation meeting determine that a monitor would improve compliance with the attendance cooperation agreement, the parties may designate a person to monitor the agreement. The monitor shall be a designee of the public school board or governing body of the accredited nonpublic school. The monitor may be a volunteer if the volunteer is approved by all parties to the agreement and receives a written authorization for access to confidential information and for performing monitor activities from the child’s parent, guardian, or custodian. A monitor shall contact parties to the attendance cooperation agreement on a periodic basis as appropriate to monitor performance of the agreement.

5. If the parties fail to enter into an attendance cooperation agreement, or the child’s parent, guardian, or custodian acting as a party violates a term of the attendance cooperation agreement or fails to participate in an attendance cooperation meeting, the child shall be deemed to be truant.

6. A public school board or governing body of an accredited nonpublic school shall exercise the authority granted under this section as a means of increasing and ensuring school attendance of young children, as education is a critical element in the success of individuals and good attendance habits should be developed and reinforced at an early age.

Unless a prohibited dissemination or redissemination of information is subject to injunction or sanction under other state or federal law, an action for judicial enforcement may be brought in accordance with this section. An aggrieved person, the attorney general, or a county attorney may seek judicial enforcement of the requirements of this section in an action brought against the public school or accredited nonpublic school or any other person who has been granted access to information pursuant to section 299.5A or 299.12. Suits to enforce this section shall be brought in the district court for the county in which the information was disseminated or redisseminated. Upon a finding by a preponderance of the evidence that a person has violated this section, the court shall issue an injunction punishable by civil contempt ordering the person in violation of this section to comply with the requirements of, and to refrain from any violations of section 299.5A or 299.12 with respect to the dissemination or redissemination of information shared with the person pursuant to section 299.5A or 299.12.

299.15 Reports by school officers and employees.
All school officers and employees shall promptly report to the secretary of the school corporation any violations of the truancy law of which they have knowledge, and the secretary shall inform the president of the board of directors who shall, if necessary, call a meeting of the board to take such action thereon as the facts justify.

299A.1 Private instruction.
The parent, guardian, or legal custodian of a child of compulsory attendance age who places the child under private instruction shall provide, unless otherwise exempted, competent private instruction in accordance with this chapter. A parent, guardian, or legal custodian of a child of compulsory attendance age who places the child under private instruction which is not competent private instruction, or otherwise fails to comply with the requirements of this chapter, is subject to the provisions of sections 299.1 through 299.4 and the penalties provided in section 299.6.

For purposes of this chapter, “competent private instruction” means private instruction provided on a daily basis for at least one hundred forty-eight days during a school year, to be met by attendance for at least thirty-seven days each school quarter, by or under the supervision of a licensed practitioner in the manner provided under section 299A.2, or other person under section 299A.3, which results in the student making adequate progress.

For purposes of this chapter and chapter 299, “private instruction” means instruction using a plan and a course of study in a setting other than a public or organized accredited nonpublic school.

91 Acts, ch 200, §20

299A.2 Competent private instruction by licensed practitioner.
If a licensed practitioner provides competent instruction to a child of compulsory attendance age, the practitioner shall possess a valid license or certificate which has been issued by the state board of educational examiners under chapter 272 and which is appropriate to the ages and grade levels of the children to be taught. Competent private instruction may include, but is not limited to, a home school assistance program which provides instruction or instructional supervision offered through an accredited nonpublic school or public school district by a teacher, who is employed by the accredited nonpublic school or public school district, who assists and supervises a parent, guardian, or legal custodian in providing instruction to a child. If competent private instruction is provided through a public school district, the child shall be enrolled and included in the basic enrollment of the school district as provided in section 257.6. Sections 299A.3 through 299A.7 do not apply to competent private instruction provided by a licensed practitioner under this section. However, the reporting requirement contained in section 299A.3, subsection 1, shall apply to competent private instruction provided by licensed practitioners that is not part of a home school assistance program offered through an accredited nonpublic school or public school district.

91 Acts, ch 200, §21; 92 Acts, ch 1135, §10; 92 Acts, ch 1247, §48

299A.3 Private instruction by nonlicensed person.
A parent, guardian, or legal custodian of a child of compulsory attendance age providing competent private instruction to the child shall meet all of the following requirements:

1. Complete and send, in a timely manner, the report required under section 299.4 to the school district of residence of the child.
2. Ensure that the child under the parent’s, guardian’s, or legal custodian’s instruction is evaluated annually to determine whether the child is making adequate progress, as defined in section 299A.6.
3. Ensure that the results of the child’s annual evaluation are reported to the school district of residence of the child and to the department of education by a date not later than June 30 of each year in which the child is under private instruction.

91 Acts, ch 200, §22

299A.4 Annual achievement evaluations — requirements and procedure.
1. Each child of compulsory attendance age who is receiving competent private instruction shall either be evaluated annually by May 1, using a nationally recognized standardized achievement evaluation or other assessment tool developed or recognized by the department of education and chosen by the child’s parent, guardian, or legal custodian from a list of approved evaluations or assessment tools provided by the department of
education or be evaluated annually in the manner provided in subsection 7. The department
shall provide information on the cost of and the administration time required for each of
the approved evaluations. The department shall provide, as part of approval procedures
for evaluations to be used under this section, a mechanism which permits the introduction
and approval of new or alternate methods of educational assessment which meet the
requirements of this chapter.

2. A child, who is seven years of age and is receiving competent private instruction or
who is placed under competent private instruction for the first time, shall be administered an
evaluation for purposes of obtaining educational baseline data.

3. The director of the department of education, or the director’s designee, which may
include a school district or an area education agency, shall conduct the evaluations required
under subsections 1 and 2 for children under competent private instruction. Evaluation shall
occur at a time and a place to be determined by the person responsible for conducting the
evaluation. Persons conducting the evaluations shall make every reasonable effort to conduct
the evaluations at times and places which are convenient for the parent, guardian, or legal
custodian.

4. The parent, guardian, or legal custodian of a child receiving competent private
instruction may be present when the child is evaluated, but only if both the parent, guardian,
or legal custodian and the child are under the supervision of the evaluation administrator.

5. The conducting of evaluations shall include, but is not limited to, purchasing of
evaluation materials, giving the evaluations, scoring and interpreting the evaluations, and
reporting the evaluation results.

6. Except when a child has been enrolled in a public school district under section 299A.8,
the parent, guardian, or legal custodian of the child being evaluated shall reimburse the entity
conducting the evaluation for no more than the actual cost of evaluation required by this
chapter. However, the parent, guardian, or legal custodian is not required to reimburse the
evaluating entity for costs incurred as a result of evaluation under section 299A.9.

7. a. In lieu of annual achievement evaluations, a parent, guardian, or legal custodian of
a child may submit, as evidence of adequate academic progress, all of the following:
(1) A book of lesson plans, a diary, or other written record indicating the subjects taught
and activities in which the child has been engaged.

(2) A portfolio of the child’s work, including but not limited to, an outline of the curriculum
used by the child, copies of homework completed in conjunction with the curriculum and
instruction, and copies of evaluations completed by the child which have been produced by
the parent, guardian, or legal custodian.

(3) Completed assessment evaluations, other than the annual achievement evaluation,
if assessment evaluations are administered to a pupil as part of the competent private
instruction by the parent, guardian, or legal custodian.

b. If a parent, guardian, or legal custodian submits evidence under this section, the
information shall be reviewed by a qualified, licensed, Iowa practitioner selected as the
evaluator by the parent, guardian, or legal custodian and approved by the superintendent
of the local school district or the superintendent’s designee. The evaluator shall prepare a
report based on a review of the child’s work submitted, which shall include an assessment
of the child’s achievement or academic progress levels, and submit a copy of the report to
the child’s parent, guardian, or legal custodian, the school district of residence of the child,
and the department of education. If the evidence demonstrates, in the evaluator’s opinion,
that the child is achieving adequate progress, the report shall create a presumption that the
child is making adequate progress.

Subsection 7 internally redesignated pursuant to Code editor directive

299A.5 Reporting of evaluation results.
The results of evaluations administered to children of compulsory attendance age who are
under competent private instruction shall be reported by the evaluation administrator to the
child’s parent, guardian, or legal custodian, the school district of residence of the child, and
the department of education. Personally identifiable information relating to or contained in
the evaluation scores is confidential and shall not be released without the prior consent of the child’s parent, guardian, or custodian except as otherwise permitted by law.

91 Acts, ch 200, §24; 92 Acts, ch 1163, §69

299A.6 Failure to make adequate progress.

If the results of evaluations, administered to a child of compulsory attendance age who is under competent private instruction, indicate that the student has failed to make adequate progress, the parent, guardian, or legal custodian shall cause the child to attend an accredited public or nonpublic school at the beginning of the next school year unless, before the beginning of the next school year, the child retakes a different form of the same evaluation, or another evaluation from the approved list of tests or assessment tools recognized by the department of education, and the results indicate that adequate progress has been made, the child has demonstrated adequate performance in the opinion of an evaluator and documented in a report under section 299A.4, subsection 7, or the director of the department of education, or the director’s designee, grants approval for competent private instruction to continue under a plan for remediation.

A child who is required to attend an accredited public or nonpublic school under this section shall continue attendance at an accredited public or nonpublic school until the child achieves adequate progress.

For purposes of this chapter, “adequate progress” means, for children in all grade levels of competent private instruction, evaluation scores which are above the thirtieth percentile, nationally normed, in each of the areas of reading, mathematics, and language arts, and which indicate either that the child has made six months’ progress from the previous evaluation results or that the child is at or above grade level for the child’s age. For children in grade levels six and above, “adequate progress” also means that the child has achieved evaluation scores in both science and social studies which are above the thirtieth percentile, nationally normed, and which either indicate that the child has made six months’ progress from the previous evaluation results or that the child is at or above grade level for the child’s age.

91 Acts, ch 200, §25; 91 Acts, ch 258, §41; 92 Acts, ch 1135, §11

299A.7 Notice to parents — remediation.

If a child is placed under competent private instruction and the child fails to make adequate progress under competent private instruction, the director of the department of education, or the director’s designee, shall notify the parent, guardian, or custodian of the child that the child is required to attend an accredited public or nonpublic school, unless approval for competent private instruction under a remediation plan is granted. The director, or the director’s designee, may provisionally approve continued competent private instruction under an approved remediation plan designed to improve instruction for up to one year.

91 Acts, ch 200, §26

299A.8 Dual enrollment.

If a parent, guardian, or legal custodian of a child who is receiving competent private instruction under this chapter or a child over compulsory age who is receiving private instruction submits a request, the child shall also be registered in a public school for dual enrollment purposes. If the child is enrolled in a public school district for dual enrollment purposes, the child shall be permitted to participate in any academic activities in the district and shall also be permitted to participate on the same basis as public school children in any extracurricular activities available to children in the child’s grade or group, and the parent, guardian, or legal custodian shall not be required to pay the costs of any annual evaluation under this chapter. If the child is enrolled for dual enrollment purposes, the child shall be included in the public school’s basic enrollment under section 257.6. A pupil who is participating only in extracurricular activities shall be counted under section 257.6, subsection 1, paragraph “a”, subparagraph (6). A pupil enrolled in grades nine through
twelve under this section shall be counted in the same manner as a shared-time pupil under section 257.6, subsection 1, paragraph “a”, subparagraph (3).

299A.9 Children requiring special education.
A child of compulsory attendance age who is identified as requiring special education under chapter 256B is eligible for placement under competent private instruction with prior approval of the placement by the director of special education of the area education agency of the child's district of residence.

A child who has been placed under competent private instruction, whose performance indicates that the child may require special education, shall be referred for evaluation under chapter 256B and the rules of the state board of education. Evaluation shall occur at a time and a place to be determined by the person responsible for conducting the evaluation. Persons conducting the evaluations shall make every reasonable effort to conduct the evaluations at times and places which are convenient for the parent, guardian, or legal custodian.

91 Acts, ch 200, §28

299A.10 Rulemaking.
The department of education shall develop and recommend and the state board shall adopt rules to implement this chapter.

Notwithstanding any provision of law or rule to the contrary, personal information in records regarding a child receiving competent private instruction pursuant to this chapter, which are maintained, created, collected, or assembled by or for a state agency, shall be kept confidential in the same manner as personal information in student records maintained, created, collected, or assembled by or for a school corporation or educational institution in accordance with section 22.7, subsection 1.

2006 Acts, ch 1152, §48

299A.12 Home school assistance program.
1. The board of directors of a school district may expend moneys received pursuant to section 257.6, subsection 1, paragraph “a”, subparagraph (5), for purposes of providing a home school assistance program.

d. Salary and benefits for clerical and office staff of the home school assistance program. If the staff members are shared with other programs or functions within the district, funds received pursuant to section 257.6, subsection 1, paragraph “a”, subparagraph (5), shall only be expended for the portion of time spent providing the home school assistance program services.
e. Staff development for the home school assistance program teacher.

DISTRICT UNIFORMITY

301.1 Adoption — purchase and sale — accredited nonpublic school pupil textbook services.
1. The board of directors of each and every school district is hereby authorized and empowered to adopt textbooks for the teaching of all branches that are now or may hereafter be authorized to be taught in the public schools of the state, and to contract for and buy said books and any and all other necessary school supplies at said contract prices, and to sell the same to the pupils of their respective districts at cost, loan such textbooks to such
pupils free, or rent them to such pupils at such reasonable fee as the board shall fix, and said money so received shall be returned to the general fund.

2. Textbooks adopted and purchased by a school district shall, to the extent funds are appropriated by the general assembly, be made available to pupils attending accredited nonpublic schools upon request of the pupil or the pupil’s parent under comparable terms as made available to pupils attending public schools. If the general assembly appropriates moneys for purposes of making textbooks available to accredited nonpublic school pupils, the department of education shall ascertain the amount available to a school district for the purchase of nonsectarian, nonreligious textbooks for pupils attending accredited nonpublic schools. The amount shall be in the proportion that the basic enrollment of a participating accredited nonpublic school bears to the sum of the basic enrollments of all participating accredited nonpublic schools in the state for the budget year. For purposes of this section, a “participating accredited nonpublic school” means an accredited nonpublic school that submits a written request on behalf of the school’s pupils in accordance with this subsection, and that certifies its actual enrollment to the department of education by October 1, annually. By November 1, annually, the department of education shall certify to the director of the department of administrative services the annual amount to be paid to each school district, and the director of the department of administrative services shall draw warrants payable to school districts in accordance with this subsection. For purposes of this subsection, an accredited nonpublic school’s enrollment count shall include only students who are residents of Iowa. The costs of providing textbooks to accredited nonpublic school pupils as provided in this subsection shall not be included in the computation of district cost under chapter 257, but shall be shown in the budget as an expense from miscellaneous income. Textbook expenditures made in accordance with this subsection shall be kept on file in the school district. In the event that a participating accredited nonpublic school physically relocates to another school district, textbooks purchased for the nonpublic school with funds appropriated for purposes of this chapter shall be transferred to the school district in which the nonpublic school has relocated and may be made available to the nonpublic school. Funds distributed to a school district for purposes of purchasing textbooks in accordance with this subsection which remain unexpended and available for the purchase of textbooks for the nonpublic school that relocated in the fiscal year in which the funds were distributed shall also be transferred to the school district in which the nonpublic school has relocated.

3. As used in subsection 2, “textbooks” means any of the following:
   a. Books and loose-leaf or bound manuals, systems of reusable instructional materials or combinations of books and supplementary instructional materials which convey information to the student or otherwise contribute to the learning process.
   b. Electronic textbooks, including but not limited to computer software, applications using computer-assisted instruction, interactive videodisc, and other computer courseware and magnetic media.
   c. Laptop computers or other portable personal computing devices which are used for nonreligious instructional use only.

Subsection 3 amended

301.2 Custodian — bond.

The books and supplies so purchased shall be under the charge of the board, who may select one or more persons within the county to keep said books and supplies as the depository agent of the board under such rules and regulations as the board shall adopt. The board shall require of each person so appointed a bond in such sum as may seem to the board to be desirable, the reasonable cost of which, if a bond of an association or corporation as surety is furnished, shall be paid by the district. The board shall adopt rules and regulations to provide that no textbook in any branch determined by the board to be taught in the schools under its charge, shall be sold or rented by such depository agent to the pupils in such schools as
§301.2, TEXTBOOKS

a textbook other than those textbooks authorized by said board for use by the pupils in such schools; to provide that no such textbook shall be sold or rented by such depository agent at a price or fee higher than that fixed by the said board; and to provide such other measures not in conflict with law as are necessary properly to govern said depository agents and safeguard the said books and moneys.

301.3 Annual settlement by board of directors.

At the close of each school year the board of directors in each school district shall cause a complete settlement to be made with each depository agent. A complete inventory of the textbooks on hand, with a statement itemized to show the expenses authorized and paid by the board, and the amount of money collected from each such depository agent during the year from the sale or rental of textbooks, shall be made in duplicate, signed by the secretary of the board and the depository agent and one copy filed with the secretary and one with the depository agent.
