SUBCHAPTER XIII
REGENTS’ MINORITY AND WOMEN EDUCATORS ENHANCEMENT

262.81 Legislative intent.
The general assembly recognizes that educational programs designed to enhance the interrelation and cooperation among cultural, racial, and ethnic groups in society require the contribution and active participation of all ethnic and racial groups. The general assembly also recognizes that failure to include minority representation at the faculty level at the state universities contributes to cultural, racial, and ethnic isolation of minority students and does not reflect the realities of a multicultural and diverse society. Therefore, the “Regents’ Minority and Women Educators Enhancement” program is established to assist in the recruitment and retention of faculty that more adequately represents the diverse cultural, racial, and ethnic makeup of society and to improve the education of all students.

89 Acts, ch 319, §61

262.82 Regents’ minority and women educators enhancement program.
1. The board of regents shall establish a program to recruit minority educators to faculty positions in the universities under the board’s control. The program shall include but is not limited to the creation of faculty positions in all areas of academic pursuit.
2. The board of regents shall also establish a program to create faculty opportunities for women educators at the universities under the board’s control. The program shall include but is not limited to the creation of faculty positions in targeted shortage areas. The board of regents shall also develop and implement, in consultation with appropriate faculty representatives, tenure, promotion, and hiring policies that recognize the unique needs of faculty members who are principal caregivers to dependents.

3. As used in this section, “minority educator” means an educator who is a minority person as defined in section 261.102.

SUBCHAPTER XIV
COLLEGE-BOUND PROGRAM

262.91 Legislative intent.
The general assembly recognizes that universities must provide an environment that enables all students to have an equal opportunity to succeed. The general assembly also recognizes that, because of inequalities in educational preparation, economic factors, and social circumstances, not all young Iowans have the same degree of access to Iowa’s higher education system. The general assembly further acknowledges that an early intervention system using public school districts, community agencies, and other state institutions can be useful in preparing young students to succeed in college. Therefore, the “College-bound” program is established to ensure that the state’s universities and students’ local communities become involved early in a student’s life by promoting and informing students about the opportunities in higher education, so that lack of adequate personal resources is not a barrier to attending college for young Iowans.

89 Acts, ch 319, §63

262.92 College-bound program.
1. The board of regents shall establish or contract to establish college-bound programs to provide Iowa minority students with information and experiences relating to opportunities offered at the regents’ universities. Programs developed may include, but are not limited to, the following elements:
   a. Reinforcement of efforts to attract undergraduate students from age groups currently served by traditional methods of outreach which use high school and community college services.
   b. Extension of traditional student recruitment methods which are designed to encourage minority students in grades seven through twelve to pursue postsecondary academic courses of study.
   c. Identification, at each of the regents’ universities, of courses of study to be targeted for the recruitment of minority students.
   d. Offerings at the regents’ universities of innovative programs, which are experience oriented, for families with minority children.
2. The board of regents shall establish a voucher program for students in grades seven through twelve. Vouchers may be obtained by any qualified secondary student at any regents’ university upon completion of a college-bound program provided under subsection 1. Students may receive one voucher for each program. One or more vouchers entitle a student to priority over other persons applying for grants under the Iowa minority academic grants for economic success program established in section 261.101. Vouchers shall be submitted with the grant application within one year after a student graduates from high school at any higher education institution which offers grants under the Iowa minority academic grants for economic success program. Vouchers earned can only be used by the
person who participated in the college-bound voucher program and are not transferable. Vouchers issued by a university under this program shall be signed by the president of the university.

3. The board of regents shall adopt rules to establish program guidelines for the universities under the board’s control and for the administration and coordination of program efforts. Rules adopted shall include methods of recording data relating to voucher recipients and making the data available to the college student aid commission.

It is the intent of the general assembly that the three universities under the control of the state board of regents have as part of their missions the use of their universities’ expertise to expand and stimulate economic growth across the state. It is imperative that whenever possible, the investments and job creation be in Iowa but need not be in the proximity of the universities. The purpose of the investments and job creation

272.2 Board of examiners created.

The board of educational examiners is created to exercise the exclusive authority to:

1. a. License practitioners, which includes the authority to establish criteria for the licenses; establish issuance and renewal requirements; create application and renewal forms; create licenses that authorize different instructional functions or specialties; develop a code of professional rights and responsibilities, practices, and ethics, which shall, among other things, address the failure of a practitioner to fulfill contractual obligations under section 279.13; and develop any other classifications, distinctions, and procedures which may be necessary to exercise licensing duties. In addressing the failure of a practitioner to fulfill contractual obligations, the board shall consider factors beyond the practitioner’s control.

b. Provide annually to any person who holds a license, certificate, authorization, or statement of recognition issued by the board, training relating to the knowledge and understanding of the board’s code of professional conduct and ethics. The board shall designate who may or shall initiate a licensee disciplinary investigation and a licensee disciplinary proceeding, and who shall prosecute a disciplinary proceeding and under what conditions, and shall state
the procedures for review by the board of findings of fact if a majority of the board does not hear the disciplinary proceeding. However, in a case alleging failure of a practitioner to fulfill contractual obligations, the person who files a complaint with the board, or the complainant’s designee, shall represent the complainant in a disciplinary hearing conducted in accordance with this chapter.

14. Adopt rules to determine whether an applicant is qualified to perform the duties for which a license is sought. The rules shall include all of the following:
   a. The board may deny a license to or revoke the license of a person upon the board's finding by a preponderance of evidence that either the person has been convicted of a crime or that there has been a founded report of child abuse against the person. Rules adopted in accordance with this paragraph shall provide that in determining whether a person should be denied a license or that a practitioner’s license should be revoked, the board shall consider the nature and seriousness of the founded abuse or crime in relation to the position sought, the time elapsed since the crime was committed, the degree of rehabilitation which has taken place since the incidence of founded abuse or the commission of the crime, the likelihood that the person will commit the same abuse or crime again, and the number of founded abuses committed by or criminal convictions of the person involved.
   b. Notwithstanding paragraph “a”, the rules shall require the board to disqualify an applicant for a license or to revoke the license of a person for any of the following reasons:

CHAPTER 272A
INTERSTATE AGREEMENT ON QUALIFICATION OF EDUCATIONAL PERSONNEL

272A.1 Interstate agreement.
272A.2 Designated state official.
272A.3 Contracts on file.

272A.1 Interstate agreement.
The interstate agreement on qualification of educational personnel is hereby enacted into law and entered into with all jurisdictions legally joining therein, in the form substantially as follows:

1. Article I — Purpose, findings, and policy.
   a. The states party to this agreement, desiring by common action to improve their respective school systems by utilizing the teacher or other professional educational person wherever educated, declare that it is the policy of each of them, on the basis of cooperation with one another, to take advantage of the preparation and experience of such persons wherever gained, thereby serving the best interest of society, of education, and of the
teaching profession. It is the purpose of this agreement to provide for the development and execution of such programs of cooperation as will facilitate the movement of teachers and other professional educational personnel among the states party to it, and to authorize specific interstate educational personnel contracts to achieve that end.

b. The party states find that included in the large movement of population among all sections of the nation are many qualified educational personnel who move for family and other personal reasons but who are hindered in using their professional skill and experience in their new locations. Variations from state to state in requirements for qualifying educational personnel discourage such personnel from taking the steps necessary to qualify in other states. As a consequence, a significant number of professionally prepared and experienced educators is lost to our school systems. Facilitating the employment of qualified educational personnel, without reference to their states of origin, can increase the available educational resources. Participation in this agreement can increase the availability of educational personnel.

2. Article II — Definitions. As used in this agreement and contracts made pursuant to it, unless the context clearly requires otherwise:
   a. "Educational personnel" means persons who must meet requirements pursuant to state law as a condition of employment in educational programs.
   b. "Designated state official" means the education official of a state selected by that state to negotiate and enter into, on behalf of that state, contracts pursuant to this agreement.
   c. "Accept", or any variant thereof, means to recognize and give effect to one or more determinations of another state relating to the qualifications of educational personnel in lieu of making or requiring a like determination that would otherwise be required by or pursuant to the laws of a receiving state.
   d. "State" means a state, territory, or possession of the United States; the District of Columbia; or the Commonwealth of Puerto Rico.
   e. "Originating state" means a state, and the subdivision thereof, if any, whose determination that certain educational personnel are qualified to be employed for specific duties in schools is acceptable in accordance with the terms of a contract made pursuant to article III of this agreement.
   f. "Receiving state" means a state, and the subdivisions thereof, which accepts educational personnel in accordance with the terms of a contract made pursuant to article III of this agreement.

3. Article III — Interstate educational personnel contracts.
   a. The designated state official of a party state may make one or more contracts on behalf of that state with one or more other party states providing for the acceptance of educational personnel. Any such contract for the period of its duration shall be applicable to and binding on the states whose designated state officials enter into it, and the subdivisions of those states, with the same force and effect as if incorporated in this agreement. A designated state official may enter into a contract pursuant to this article only with states in which the official finds that there are programs of education, licensure standards or other acceptable qualifications that assure preparation or qualification of educational personnel on a basis sufficiently comparable, even though not identical to that prevailing in the official's state.
   b. Any such contract shall provide for:
      (1) Its duration.
      (2) The criteria to be applied by an originating state in qualifying educational personnel for acceptance by a receiving state.
      (3) Such waivers, substitutions, and conditional acceptances as shall aid the practical effectuation of the contract without sacrifice of basic educational standards.
      (4) Any other necessary matters.
   c. No contract made pursuant to this agreement shall be for a term longer than five years but any such contract may be renewed for like or lesser periods.
   d. Any contract dealing with acceptance of educational personnel on the basis of their having completed an educational program shall specify the earliest date or dates on which originating state approval of the program or programs involved can have occurred. No contract made pursuant to this agreement shall require acceptance by a receiving state of
any persons qualified because of successful completion of a program prior to January 1, 1954.

e. The license or other acceptance of a person who has been accepted pursuant to the terms of a contract shall not be revoked or otherwise impaired because the contract has expired or been terminated. However, any license or other qualifying document may be revoked or suspended on any ground which would be sufficient for revocation or suspension of a license or other qualifying document initially granted or approved in the receiving state.

f. A contract committee composed of the designated state officials of the contracting states or their representatives shall keep the contract under continuous review, study means of improving its administration, and report no less frequently than once a year to the heads of the appropriate education agencies of the contracting states.

4. Article IV — Approved and accepted programs.

a. Nothing in this agreement shall be construed to repeal or otherwise modify any law or regulation of a party state relating to the approval of programs of educational preparation having effect solely on the qualification of educational personnel within that state.

b. To the extent that contracts made pursuant to this agreement deal with the educational requirements for the proper qualification of educational personnel, acceptance of a program of educational preparation shall be in accordance with such procedures and requirements as may be provided in applicable contract.

5. Article V — Interstate cooperation. The party states agree that:

a. They will, so far as practicable, prefer the making of multilateral contracts pursuant to article III of this agreement.

b. They will facilitate and strengthen cooperation in interstate certification and other elements of educational personnel qualification and for this purpose shall cooperate with agencies, organizations, and associations interested in certification and other elements of educational personnel qualification.

6. Article VI — Agreement evaluation. The designated state officials of any party states may meet from time to time as a group to evaluate programs under the agreement, and to formulate recommendations for changes.

7. Article VII — Other arrangements. Nothing in this agreement shall be construed to prevent or inhibit other arrangements or practices of any party state or states to facilitate the interchange of educational personnel.

8. Article VIII — Effect and withdrawal.

a. This agreement shall become effective when enacted into law by two states. Thereafter it shall become effective as to any state upon its enactment of this agreement.

b. Any party state may withdraw from this agreement by enacting a statute repealing the same, but no such withdrawal shall take effect until one year after the governor of the withdrawing state has given notice in writing of the withdrawal to the governors of all other party states.

c. No withdrawal shall relieve the withdrawing state of any obligation imposed upon it by a contract to which it is a party. The duration of contracts and the methods and conditions of withdrawal therefrom shall be those specified in their terms.

9. Article IX — Construction and severability. This agreement shall be liberally construed so as to effectuate the purposes thereof. The provisions of this agreement shall be severable and if any phrase, clause, sentence, or provision of this agreement is declared to be contrary to the constitution of any state or of the United States, or the application thereof to any government, agency, person, or circumstance is held invalid, the validity of the remainder of this agreement and the applicability thereof to any government, agency, person, or circumstance shall not be affected thereby. If this agreement shall be held contrary to the constitution of any state participating therein, the agreement shall remain in full force and effect as to the state affected as to all severable matters.

The executive director shall enter into contracts pursuant to section 272A.1, article III, of the agreement only with the approval of the specific text thereof by the board of educational examiners.

CHAPTER 272B  
EDUCATION COMPACT 

272B.1 Compact for education.  
272B.2 Education commission of the states.  
272B.3 Filing bylaws. 

272B.1 Compact for education.  
The compact for education is hereby entered into and enacted into law with all jurisdictions legally joining therein, in the form substantially as follows:  
1. Article I — Purpose and policy.  
a. It is the purpose of this compact to:  
   (1) Establish and maintain close cooperation and understanding among executive, legislative, professional educational and lay leadership on a nationwide basis at the state and local levels.  
   (2) Provide a forum for the discussion, development, crystallization and recommendation of public policy alternatives in the field of education.  
   (3) Provide a clearing house of information on matters relating to educational problems and how they are being met in different places throughout the nation, so that the executive and legislative branches of state government and of local communities may have ready access to the experience and record of the entire country, and so that both lay and professional groups in the field of education may have additional avenues for the sharing of experience and the interchange of ideas in the formation of public policy in education.  
   (4) Facilitate the improvement of state and local educational systems so that all of them will be able to meet adequate and desirable goals in a society which requires continuous qualitative and quantitative advance in educational opportunities, methods and facilities.  
b. It is the policy of this compact to encourage and promote local and state initiative in the development, maintenance, improvement and administration of educational systems and institutions in a manner which will accord with the needs and advantages of diversity among localities and states.  
c. The party states recognize that each of them has an interest in the quality and quantity of education furnished in each of the other states, as well as in the excellence of its own
educational systems and institutions, because of the highly mobile character of individuals within the nation, and because the products and services contributing to the health, welfare and economic advancement of each state are supplied in significant part by persons educated in other states.

2. **Article II — State defined.** As used in this compact, “state” means a state, territory or possession of the United States, the District of Columbia, or the commonwealth of Puerto Rico.

3. **Article III — The commission.**
   a. The education commission of the states, hereinafter called “the commission”, is hereby established. The commission shall consist of seven members representing each party state.* One of such members shall be the governor; two shall be members of the state legislature selected by its respective houses and serving in such manner as the legislature may determine; and four shall be appointed by and serve at the pleasure of the governor, unless the laws of the state otherwise provide. If the laws of a state prevent legislators from serving on the commission, six members shall be appointed and serve at the pleasure of the governor, unless the laws of the state otherwise provide. In addition to any other principles or requirements which a state may establish for the appointment and service of its members of the commission, the guiding principle for the composition of the membership on the commission from each party state shall be that the members representing such state shall, by virtue of their training, experience, knowledge or affiliations be in a position collectively to reflect broadly the interests of the state government, higher education, the state education system, local education, lay and professional, public and nonpublic educational leadership. Of those appointees, one shall be the head of a state agency or institution, designated by the governor, having responsibility for one or more programs of public education. In addition to the members of the commission representing the party states, there may be not to exceed ten nonvoting commissioners selected by the steering committee for terms of one year. Such commissioners shall represent leading national organizations or professional educators or persons concerned with educational administration.
   b. The members of the commission shall be entitled to one vote each on the commission. No action of the commission shall be binding unless taken at a meeting at which a majority of the total number of votes on the commission are cast in favor thereof. Action of the commission shall be only at a meeting at which a majority of the commissioners are present. The commission shall meet at least once a year. In its bylaws, and subject to such directions and limitations as may be contained therein, the commission may delegate the exercise of any of its powers to the steering committee or the executive director, except for the power to approve budgets or requests for appropriations, the power to make policy recommendations pursuant to article IV and adoption of the annual report pursuant to paragraph “j” of this article.
   c. The commission shall have a seal.
   d. The commission shall elect annually, from among its members, a chairperson, who shall be a governor, a vice chairperson and a treasurer. The commission shall provide for the appointment of an executive director. Such executive director shall serve at the pleasure of the commission, and together with the treasurer and such other personnel as the commission may deem appropriate shall be bonded in such amount as the commission shall determine. The executive director shall be secretary.
   e. Irrespective of the civil service, personnel or other merit system laws of any of the party states, the executive director subject to the approval of the steering committee shall appoint, remove or discharge such personnel as may be necessary for the performance of the functions of the commission, and shall fix the duties and compensation of such personnel. The commission in its bylaws shall provide for the personnel policies and programs of the commission.
   f. The commission may borrow, accept or contract for the services of personnel from any party jurisdiction, the United States, or any subdivision or agency of the aforementioned governments, or from any agency of two or more of the party jurisdictions or their subdivisions.
   g. The commission may accept for any of its purposes and functions under this compact
§272B.1, EDUCATION COMPACT

III-422

any and all donations, and grants of money, equipment, supplies, materials and services, conditional or otherwise, from any state, the United States, or any other governmental agency, or from any person, firm, association, foundation, or corporation, and may receive, utilize and dispose of the same. Any donation or grant accepted by the commission pursuant to this paragraph or services borrowed pursuant to paragraph “f” of this article shall be reported in the annual report of the commission. Such report shall include the nature, amount and conditions, if any, of the donation, grant, or services borrowed, and the identity of the donor or lender.

h. The commission may establish and maintain such facilities as may be necessary for the transacting of its business. The commission may acquire, hold, and convey real and personal property and any interest therein.

i. The commission shall adopt bylaws for the conduct of its business and shall have the power to amend and rescind these bylaws. The commission shall publish its bylaws in convenient form and shall file a copy thereof and a copy of any amendment thereto, with the appropriate agency or officer in each of the party states.

j. The commission annually shall make to the governor and legislature of each party state a report covering the activities of the commission for the preceding year. The commission may make such additional reports as it may deem desirable.

4. Article IV — Powers. In addition to authority conferred on the commission by other provisions of the compact, the commission shall have authority to:

a. Collect, correlate, analyze and interpret information and data concerning educational needs and resources.

b. Encourage and foster research in all aspects of education, but with special reference to the desirable scope of instruction, organization, administration, and instructional methods and standards employed or suitable for employment in public educational systems.

c. Develop proposals for adequate financing of education as a whole and at each of its many levels.

d. Conduct or participate in research of the types referred to in this article in any instance where the commission finds that such research is necessary for the advancement of the purposes and policies of this compact, utilizing fully the resources of national associations, regional compact organizations for higher education, and other agencies and institutions, both public and private.

e. Formulate suggested policies and plans for the improvement of public education as a whole, or for any segment thereof, and make recommendations with respect thereto available to the appropriate governmental units, agencies and public officials.

f. Do such other things as may be necessary or incidental to the administration of any of its authority or functions pursuant to this compact.

5. Article V — Cooperation with federal government.

a. If the laws of the United States specifically so provide, or if administrative provision is made therefor within the federal government, the United States may be represented on the commission by not to exceed ten representatives. Any such representative or representatives of the United States shall be appointed and serve in such manner as may be provided by or pursuant to federal law, and may be drawn from any one or more branches of the federal government, but no such representative shall have a vote on the commission.

b. The commission may provide information and make recommendations to any executive or legislative agency or officer of the federal government concerning the common educational policies of the states, and may advise with any such agencies or officers concerning any matter of mutual interest.

6. Article VI — Committees.

a. To assist in the expeditious conduct of its business when the full commission is not meeting, the commission shall elect a steering committee of thirty-two members which, subject to the provisions of this compact and consistent with the policies of the commission, shall be constituted and function as provided in the bylaws of the commission. One-fourth of the voting membership of the steering committee shall consist of governors, one-fourth shall consist of legislators, and the remainder shall consist of other members of the commission. A federal representative on the commission may serve with the steering committee, but
without vote. The voting members of the steering committee shall serve for terms of two years, except that members elected to the first steering committee of the commission shall be elected as follows:

(1) Sixteen for one year and sixteen for two years.
(2) The chairperson, vice chairperson, and treasurer of the commission shall be members of the steering committee and, anything in this paragraph “a” to the contrary notwithstanding, shall serve during their continuance in these offices.
(3) Vacancies in the steering committee shall not affect its authority to act, but the commission at its next regular ensuing meeting following the occurrence of any vacancy shall fill it for the unexpired term.
(4) No person shall serve more than two terms as a member of the steering committee; provided that service for a partial term of one year or less shall not be counted toward the two-term limitation.

b. The commission may establish advisory and technical committees composed of state, local, and federal officials, and private persons to advise it with respect to any one or more of its functions. Any advisory or technical committee may, on request of the states concerned, be established to consider any matter of special concern to two or more of the party states.

c. The commission may establish such additional committees as its bylaws may provide.

7. Article VII — Finance.

a. The commission shall advise the governor or designated officer or officers of each party state of its budget and estimated expenditures for such period as may be required by the laws of that party state. Each of the commission’s budgets of estimated expenditures shall contain specific recommendations of the amount or amounts to be appropriated by each of the party states.

b. The total amount of appropriation requests under any budget shall be apportioned among the party states. In making such apportionment, the commission shall devise and employ a formula which takes equitable account of the populations and per capita income levels of the party states.

c. The commission shall not pledge the credit of any party states. The commission may meet any of its obligations in whole or in part with funds available to it pursuant to article III, paragraph “g”, of this compact, provided that the commission takes specific action setting aside such funds prior to incurring an obligation to be met in whole or in part in such manner. Except where the commission makes use of funds available to it pursuant to article III, paragraph “g”, the commission shall not incur any obligation prior to the allotment of funds by the party states adequate to meet the same.

   c. Review or investigate, or both, upon written complaint or upon its own motion pursuant to other evidence received by the board, alleged acts or omissions which the board reasonably believes constitute cause under applicable law or administrative rule for licensee discipline.
   d. Determine in any case whether an investigation, or further investigation, or a disciplinary proceeding is warranted.    e. Initiate and prosecute disciplinary proceedings.
   f. Impose licensee discipline.
   g. Petition the district court for enforcement of its authority with respect to licensees or with respect to other persons violating the laws which the board is charged with administering.
   h. Register or establish and register peer review committees.
   i. Refer to a registered peer review committee for investigation, review, and report to the board, any complaint or other evidence of an act or omission which the board reasonably believes to constitute cause for licensee discipline. However, the referral of any matter shall not relieve the board of any of its duties and shall not divest the board of any authority or jurisdiction.
j. Determine and administer the renewal of licenses for periods not exceeding three years.

k. Establish a licensee review committee for the purpose of evaluating and monitoring licensees who are impaired as a result of alcohol or drug abuse, dependency, or addiction, or by any mental or physical disorder or disability, and who self-report the impairment to the committee, or who are referred by the board to the committee. Members of the committee shall receive actual expenses for the performance of their duties and shall be eligible to receive per diem compensation pursuant to section 7E.6. The board shall adopt rules for the establishment and administration of the committee, including but not limited to establishment of the criteria for eligibility for referral to the committee and the grounds for disciplinary action for noncompliance with committee decisions. Information in the possession of the board or the licensee review committee, under this paragraph, shall be subject to the confidentiality requirements of section 272C.6. Referral of a licensee by the board to a licensee review committee shall not relieve the board of any duties of the board and shall not divest the board of any authority or jurisdiction otherwise provided. A licensee who violates section 272C.10 or the rules of the board while under review by the licensee review committee shall be referred to the board for appropriate action.

2. Each licensing board may impose one or more of the following as licensee discipline:

b. Revoke, or suspend either until further order of the board or for a specified period, the privilege of a licensee to engage in one or more specified procedures, methods, or acts incident to the practice of the profession, if pursuant to hearing or stipulated or agreed settlement the board finds that because of a lack of education or experience, or because of negligence, or careless acts or omissions, or because of one or more intentional acts or omissions, the licensee has demonstrated a lack of qualifications which are necessary to assure the residents of this state a high standard of professional and occupational care.

c. Impose a period of probation under specified conditions, whether or not in conjunction with other sanctions.

d. Require additional professional education or training, or reexamination, or any combination, as a condition precedent to the reinstatement of a license or of any privilege incident thereto, or as a condition precedent to the termination of any suspension.

e. Impose civil penalties by rule, if the rule specifies which offenses or acts are subject to civil penalties. The amount of civil penalty shall be in the discretion of the board, but shall not exceed one thousand dollars. Failure to comply with the imposition of a civil penalty may be grounds for further license discipline.

3. The powers conferred by this section upon a licensing board shall be in addition to powers specified elsewhere in the Code. 7. Establish the procedures by which licensees shall report those acts or omissions specified by the board pursuant to subsection 6.
8. Give written notice to another licensing board or to a hospital licensing agency if evidence received by the board either alleges or constitutes reasonable cause to believe the existence of an act or omission which is subject to discipline by that other board or agency.
9. Require each health care licensing board to file with the Iowa department of public health a copy of each decision of the board imposing licensee discipline. Each non-health care board shall have on file a copy of each decision of the board imposing licensee discipline which copy shall be properly dated and shall be in simple language and in the most concise form consistent with clearness and comprehensiveness of subject matter.
10. Establish procedures consistent with the provisions of section 261.121, subsection 2, and sections 261.122 through 261.127 by which, in the board’s discretion, a license shall be suspended, denied, or revoked, or other disciplinary action imposed, with regard to a licensee subject to the board’s jurisdiction who has defaulted on a repayment or service obligation under any federal or state educational loan or service-conditional scholarship program. Notwithstanding any other provision to the contrary, each board shall defer to the federal or state program’s determination of default upon certification by the program of such a default on the part of a licensee, and shall remove the suspension, grant the license, or stay the revocation or other disciplinary action taken if the federal or state program certifies that the defaulting licensee has agreed to fulfill the licensee’s obligation, or is complying with an approved repayment plan. Licensure sanctions shall be reinstated upon certification that a defaulting licensee has failed to comply with the repayment or service requirements,
as determined by the federal or state program. The provisions of this subsection relating to board authority to act in response to notification of default shall apply not only to a licensing board, as defined in section 272C.1, but also to any other licensing board or authority regulating a license authorized by the laws of this state.

11. Adopt rules by January 1, 2015, to provide credit towards qualifications for licensure to practice an occupation or profession in this state for education, training, and service obtained or completed by an individual while serving honorably on federal active duty, state active duty, or national guard duty, as defined in section 29A.1, to the extent consistent with the qualifications required by the appropriate licensing board. The rules shall also provide credit towards qualifications for initial licensure for education, training, or service obtained or completed by an individual while serving honorably in the military forces of another state or the organized reserves of the armed forces of the United States, to the extent consistent with the qualifications required by the appropriate licensing board.

12. a. Establish procedures by January 1, 2015, to expedite the licensing of an individual who is licensed in a similar profession or occupation in another state and who is a veteran, as defined in section 35.1.

b. If the board determines that the professional or occupational licensing requirements of the state where the veteran is licensed are substantially equivalent to the licensing requirements of this state, the procedures shall require the licensing of the veteran in this state.

c. If the board determines that the professional or occupational licensing requirements of the state where the veteran is licensed are not substantially equivalent to the professional or occupational licensing requirements of this state, the procedures shall allow the provisional licensing of the veteran for a period of time deemed necessary by the board to obtain a substantial equivalent to the licensing requirements of this state. The board shall advise the veteran of required education or training necessary to obtain a substantial equivalent to the professional or occupational licensing requirements of this state, and the procedures shall provide for licensing of an individual who has, pursuant to this paragraph, obtained a substantial equivalent to the professional or occupational licensing requirements of this state.

272C.6 Hearings — power of subpoena — decisions.

1. Disciplinary hearings held pursuant to this chapter shall be heard by the board sitting as the hearing panel, or by a panel of not less than three board members who are licensed in the profession, or by a panel of not less than three members appointed pursuant to subsection 2. Notwithstanding chapters 17A and 21 a disciplinary hearing shall be open to the public at the discretion of the licensee.

2. When, in the opinion of a majority of the board, it is desirable to obtain specialists within an area of practice of a profession when holding disciplinary hearings, a licensing board may appoint licensees not having a conflict of interest to make findings of fact and to report to the board. Such findings shall not include any recommendation for or against licensee discipline.

3. a. The presiding officer of a hearing panel may issue subpoenas pursuant to rules of the board on behalf of the board or on behalf of the licensee. A licensee may have subpoenas issued on the licensee’s behalf.

   (1) A subpoena issued under the authority of a licensing board may compel the attendance of witnesses and the production of professional records, books, papers, correspondence and other records, whether or not privileged or confidential under law, which are deemed necessary as evidence in connection with a disciplinary proceeding.

   (2) Nothing in this subsection shall be deemed to enable a licensing board to compel an attorney of the licensee, or stenographer or confidential clerk of the attorney, to disclose any information when privileged against disclosure by section 622.10.

   (3) In the event of a refusal to obey a subpoena, the licensing board may petition the district court for its enforcement. Upon proper showing, the district court shall order the person to obey the subpoena, and if the person fails to obey the order of the court the person may be found guilty of contempt of court.

   b. The presiding officer of a hearing panel may also administer oaths and affirmations, take or order that depositions be taken, and pursuant to rules of the board, grant immunity to a witness from disciplinary proceedings initiated either by the board or by other state agencies which might otherwise result from the testimony to be given by the witness to the panel.

4. a. In order to assure a free flow of information for accomplishing the purposes of this section, and notwithstanding section 622.10, all complaint files, investigation files, other investigation reports, and other investigative information in the possession of a licensing board or peer review committee acting under the authority of a licensing board or its employees or agents which relates to licensee discipline are privileged and confidential, and are not subject to discovery, subpoena, or other means of legal compulsion for their release to a person other than the licensee and the boards, their employees and agents involved in licensee discipline, and are not admissible in evidence in a judicial or administrative proceeding other than the proceeding involving licensee discipline. However, investigative information in the possession of a licensing board or its employees or agents which relates to licensee discipline may be disclosed to appropriate licensing authorities within this state, the appropriate licensing authority in another state, the coordinated licensure information system provided for in the nurse licensure compact contained in section 152E.1 or the advanced practice registered nurse compact contained in section 152E.3, the District of Columbia, or a territory or country in which the licensee is licensed or has applied for a license. If the investigative information in the possession of a licensing board or its employees or agents indicates a crime has been committed, the information shall be reported to the proper law enforcement agency. However, a final written decision and finding of fact
of a licensing board in a disciplinary proceeding, including a decision referred to in section 272C.3, subsection 4, is a public record.

Boundaries of the subdistricts shall follow precinct boundaries, as far as practicable, and shall not be changed less than sixty days prior to the regular school election.

3. If the petition proposes the division of the school district into director districts, the boundaries of the proposed director districts shall not be drawn until the question is approved by the voters. If the question is approved by the voters, the directors of the new school district shall draw the boundaries of the director districts according to the standards described in section 275.23A, subsection 1. Following adoption by the school board, the plan shall be submitted to the state commissioner of elections for approval.

4. The area education agency board in reviewing the petition as provided in sections 275.15 and 275.16 shall review the proposed method of election of school directors and may change or amend the plan in any manner, including to specify a different method of electing school directors as may be required by law, justice, equity, and the interest of the people. In the action, the area education agency board shall follow the same procedure as is required by sections 275.15 and 275.16 for other action on the petition by the area education agency board.
5. a. The area education agency board in reviewing a petition as provided in sections 275.15 and 275.16 that is not subject to the division of assets and liabilities provisions in sections 275.29 through 275.31 shall review the proposal for dividing liability for payment of outstanding bonds issued under section 423E.5 or 423F.4, required to be included under section 275.28, and may change or amend the proposal in any manner, including to specify a different division for the reorganized districts or a different method of payment or retirement of the bonds as may be required by law, justice, equity, and the interest of the people. The review conducted by the area education agency, including any resulting change to the proposal, shall ensure that the reorganized district’s estimated revenue under section 423F.2 is sufficient for the payment of principal and interest on the outstanding bonds required to be paid in the budget year following the reorganization.

b. For bonds issued under section 423E.5 or 423F.4, the approval of the reorganization at election creates a lien on the revenues from the secure an advanced vision for education fund received by the reorganized district designated in the proposal approved by the area education agency, subject to the same priority as provided by the affected school district that issued the bonds.

6. The petition may include a provision that the voter-approved physical plant and equipment levy provided in section 298.2 will be voted upon at the election conducted under section 275.18. The petition may also include a provision that the revenue purpose statement provided in section 423F.3 will be voted upon at the election conducted under section 275.18. Objections shall be filed in the office of the administrator who shall give notice at least ten days prior to the final day for filing objections, by one publication in a newspaper published within the territory described in the petition, or if none is published in the territory, in a newspaper published in the county where the petition is filed, and of general circulation in the territory described. The notice shall also list the date, time, and location for the hearing on the petition as provided in section 275.15. The cost of publication shall be assessed to each district whose territory is involved in the ratio that the number of pupils in basic enrollment for the budget year, as defined in section 257.6 in each district bears to the total number of

275.15 Hearing — decision — publication — appeal.

1. At the hearing, which shall be held within ten days of the final date set for filing objections, interested parties, both petitioners and objectors, may present evidence and arguments, and the area education agency board shall review the matter on its merits and within ten days after the conclusion of any hearing, shall rule on the objections and shall enter an order fixing the boundaries for the proposed school corporation as will in its judgment be for the best interests of all parties concerned, having due regard for the welfare of adjoining districts, or dismiss the petition.

2. The area education agency board, when entering the order fixing the boundaries, shall consider all available evidence including, but not limited to, information presented by the petitioners, all objections requesting territory exclusion, reorganization studies and plans, geographical patterns evidenced by students using open enrollment to attend school in another district pursuant to section 282.18, potential travel distances required of students, and geographic configuration of the proposed district. The exclusion of territory shall represent a balance between the rights of the objectors and the welfare of the reorganized district.

3. If the petition is not dismissed and the board determines that additional information is required in order to fix boundary lines of the proposed school corporation, the board may continue the hearing for no more than thirty days. The date of the continued hearing shall be announced at the original meeting. Additional objections in the form required in section 275.14 may be considered if filed with the administrator within five days, not including Saturdays, Sundays, or holidays, after the date of the original board hearing. If the hearing is continued, the area education agency administrator may conduct one or more meetings with the boards of directors of the affected districts. Notice of any such meeting must be given at least forty-eight hours in advance by the area education agency administrator in the manner provided in section 21.4. The area education agency board may request that the administrator make alternative recommendations regarding the boundary lines of the proposed school corporation. The area education agency board shall make a decision on the boundary lines within ten days following the conclusion of the continued hearing.

4. The administrator shall at once publish the decision in the same newspaper in which the original notice was published. Within twenty days after the publication, the decision rendered by the area education agency board may be appealed to the district court in the county involved by any school district affected. For purposes of appeal, only those school districts who filed reorganization petitions are school districts affected. An appeal from a decision of an area education agency board or joint area education agency boards under section 275.4, 275.16, or this section is subject to appeal procedures under this chapter and is not subject to appeal under chapter 290.

§275.16 Hearing when territory in different area education agencies.

1. If the territory described in the petition for the proposed corporation lies in more than one area education agency, the agency administrator with whom the petition is filed shall fix the time and place for a hearing and call a joint meeting of the members of all the agency boards in which territory of the proposed school corporation lies, to act as a single board for the hearing of the objections, and a majority of members of each of the agency boards of the different agencies in which any part of the proposed corporation lies, constitutes a quorum. The president of the board of directors of the area education agency in which the petition has been filed, or a member of the board designated by the president, shall preside at the joint meeting. The joint boards acting as a single board shall determine whether the petition conforms to plans or, if the petition requests a change in plans, whether a change should be made, and may change the plans of any or all the area education agency boards affected by the petition. The joint board shall determine and fix boundaries for the proposed corporation as provided in section 275.15 or dismiss the petition. The joint board may continue the hearing as provided in section 275.15.

2. Votes of each member of an area education agency board in attendance shall be weighted so that the total number of votes eligible to be cast by members of each board in attendance shall be equal. However, if the joint boards cast a tie vote and are unable to agree to a decision fixing the boundaries for the proposed school corporation or to a decision to dismiss the petition, the time during which actions must be taken under section 275.15 shall be extended from ten days to fifteen days after the conclusion of the hearing under section 275.15, and the joint board shall reconvene not less than ten and not more than fifteen days after the conclusion of the hearing. At the hearing the joint board shall reconsider its action and if a tie vote is again cast it is a decision granting the petition and changing the plans of any and all of the agency boards affected by the petition and fixing the boundaries for the proposed school corporation. The agency administrator shall at once publish the decision in the same newspaper in which the original notice was published.

3. In case a controversy arises from such meeting, the area education agency board or boards or any school district aggrieved may bring the controversy to the department of education, as provided in section 275.8, within twenty days from the publication of this order, and if said controversy is taken to the department of education, a ten-day notice in writing shall be given to all agency boards and school districts affected or portions thereof. The department shall have the authority to affirm the action of the joint boards, to vacate, to dismiss all proceedings or to make such modification of the action of the joint boards as in their judgment would serve the best interest of all the agencies.

4. Judicial review of the actions of the department may be sought in accordance with the terms of the Iowa administrative procedure Act, chapter 17A. Notwithstanding the terms of said Act, petitions for judicial review must be filed within thirty days after the decision of the department of education.

275.23A Redistricting following federal decennial census.

1. School districts which have directors who represent director districts as provided in section 275.12, subsection 2, paragraphs “b”, “c”, “d”, and “e”, shall be divided into director districts according to the following standards:

   a. All director district boundaries shall follow the boundaries of areas for which official population figures are available from the most recent federal decennial census and, wherever possible, shall follow precinct boundaries.

   b. To the extent possible in order to comply with paragraph “a”, all director districts shall be as nearly equal as practicable to the ideal population for the districts as determined by dividing the number of districts to be established into the population of the school district.

   c. All districts shall be composed of contiguous territory as compact as practicable unless the school district is composed of marginally adjacent territory. A school district which is composed of marginally adjacent territory shall have director districts composed of contiguous territory to the extent practicable.

   d. Consideration shall not be given to the addresses of incumbent officeholders, political affiliations of registered voters, previous election results, or demographic information other than population head counts, except as required by the Constitution and the laws of the United States.

   e. A city shall not be divided into two or more director districts unless the population of that portion of the city that is within the school district is greater than the ideal size of a director district. Cities shall be divided into the smallest number of director districts possible.

2. Following each federal decennial census the school board shall determine whether the existing director district boundaries meet the standards in subsection 1 according to the most recent federal decennial census. In addition to the authority granted to voters to change the number of directors or method of election as provided in sections 275.35, 275.36, and 278.1, the board of directors of a school district may, following a federal decennial census, by resolution and in accordance with this section, authorize a change in the method of election as set forth in section 275.12, subsection 2, or a change to either five or seven directors after the board conducts a hearing on the resolution. If the board proposes to change the number of directors from seven to five directors, the resolution shall include a plan for reducing the number of directors. If the board proposes to increase the number of directors to seven directors, two directors shall be added according to the procedure described in section 277.23, subsection 2. If necessary, the board of directors shall redraw the director district boundaries. The director district boundaries shall be described in the resolution adopted by the school board. The resolution shall be adopted no earlier than November 15 of the second year immediately following the year in which the federal decennial census is taken and no later than May 15 of the third year immediately following the year in which the federal decennial census is taken. A copy of the plan shall be filed with
the area education agency administrator of the area education agency in which the school's electors reside. If the board does not provide for an election as provided in sections 275.35, 275.36, and 278.1 and adopts a resolution to change the number of directors or method of election in accordance with this subsection, the district shall change the number of directors or method of election as provided unless, within twenty-eight days following the action of the board, the secretary of the board receives a petition containing the required number of signatures, asking that an election be called to approve or disapprove the action of the board in adopting the resolution. The petition must be signed by eligible electors equal in number to not less than one hundred or thirty percent of the number of voters at the last preceding regular school election, whichever is greater. The board shall either rescind its action or direct the county commissioner of elections to submit the question to the registered voters of the school district at an election held on a date specified in section 39.2, subsection 4, paragraph “c”. If a majority of those voting on the question at the election favors disapproval of the action of the board, the district shall not change the number of directors or method of election. If a majority of those voting on the question does not favor disapproval of the action, the board shall certify the results of the election to the department of management and the district shall change the number of directors or method of election as provided in this subsection. At the expiration of the twenty-eight-day period, if no petition is filed, the board shall certify its action to the department of management and the district shall change the number of directors or method of election as provided in this subsection.

3. The school board shall notify the state commissioner of elections and the county commissioner of elections of each county in which a portion of the school district is located when the boundaries of director districts are changed. The notices of changes submitted to the state commissioner shall be postmarked no later than the deadline for adoption of the resolution under subsection 2. The board shall provide the commissioners with maps showing the new boundaries and shall also certify to the state commissioner the populations of the new director districts as determined under the latest federal decennial census. If, following a federal decennial census a school district elects not to redraw director districts under this section, the school board shall so certify to the state commissioner of elections, and the school board shall also certify to the state commissioner the populations of the retained director districts as determined under the latest federal decennial census. If the state commissioner determines that a district board has failed to make the required changes by the dates specified by this section, the state commissioner of elections shall make or cause to be made the necessary changes as soon as possible. The state commissioner shall assess any expenses incurred to the school district. The state commissioner of elections may request the services of personnel of and materials available to the legislative services agency to assist the state commissioner in making any required boundary changes.

4. If more than one incumbent director resides in a redrawn director district, the terms of office of the affected directors expire at the organizational meeting of the board of directors following the next regular school election following the adoption of the redrawn districts.

5. The boundary changes under this section take effect July 1 following their adoption for the next regular school election.

6. Section 275.9 and sections 275.14 through 275.23 do not apply to changes in director district boundaries made under this section.

§275.25, REORGANIZATION OF SCHOOL DISTRICTS

275.25 Election of directors.
1. a. If the proposition to establish a new school district carries under the method provided in this chapter, the area education agency administrator with whom the petition was filed shall give written notice of a proposed date for a special election for directors of the newly formed school district to the commissioner of elections of the county in the district involved in the reorganization which has the greatest taxable base. The proposed date shall be as soon as possible pursuant to section 39.2, subsections 1 and 2, and section 47.6, subsections 1 and 2, but not later than the third Tuesday in January of the calendar year in which the reorganization takes effect.

b. The election shall be conducted as provided in section 277.3, and nomination petitions shall be filed pursuant to section 277.4, except as otherwise provided in this subsection. Nomination petitions shall be filed with the secretary of the board of the existing school district in which the candidate resides not less than twenty-eight days before the date set for the special school election. The secretary of the board, or the secretary’s designee, shall be present in the secretary’s office until 5:00 p.m. on the final day to file the nomination papers. The nomination papers shall be delivered to the commissioner no later than 5:00 p.m. on the twenty-seventh day before the election.

c. If the special election is held in conjunction with the regular school election, the filing deadlines for the regular school election apply.

2. a. The number of directors of a school district is either five or seven as provided in section 275.12. In school districts that include a city of fifteen thousand or more population as shown by the most recent decennial federal census, the board shall consist of seven members elected in the manner provided in subsection 3. If it becomes necessary to increase the membership of a board, two directors shall be added according to the procedure described in section 277.23.

b. The county board of supervisors shall canvass the votes and the county commissioner of elections shall report the results to the area education agency administrator who shall notify the persons who are elected directors.

3. The directors who are elected and qualify to serve shall serve until their successors are elected and qualify. At the special election, the three newly elected directors receiving the most votes shall be elected to serve until their successors qualify after the third regular school election date occurring after the effective date of the reorganization and the two newly elected directors receiving the next largest number of votes shall be elected to serve until the directors’ successors qualify after the second regular school election date occurring after the effective date of the reorganization. However, in districts that include all or a part of a city of fifteen thousand or more population and in districts in which the proposition to establish a new corporation provides for the election of seven directors, the timelines specified in this subsection for the terms of office apply to the four newly elected directors receiving the most votes and then to the three newly elected directors receiving the next largest number of votes.

4. The board of the newly formed district shall organize within fifteen days after the special election upon the call of the area education agency administrator. The new board shall have control of the employment of personnel for the newly formed district for the next following school year under section 275.33. Following the first organizational meeting of the board of the newly formed district, the board may establish policy, organize curriculum, enter into contracts, complete planning, and take action as necessary for the efficient management of the newly formed community school district.

5. Section 49.8, subsection 5, does not permit a director to remain on the board of a school district after the effective date of a boundary change which places the director’s residence outside the boundaries of the district. Vacancies caused by this occurrence on a board shall be filled in the manner provided in sections 279.6 and 279.7.

6. The board of the newly formed district shall appoint an acting superintendent and an
acting board secretary. The appointment of the acting superintendent shall not be subject to
the continuing contract provisions of sections 279.20, 279.23, and 279.24.

1. If a district is established or changes its boundaries it shall pay all expenses incurred by
the area education agency administrator and the area education agency board in connection
with the proceedings. The county commissioner of elections shall assess the costs of the
election against the district as provided in section 47.3. If the proposition is dismissed or
defeated at the election, all expenses shall be apportioned among the several districts in
proportion to the assessed valuation of property therein.
2. If the proposed district or boundary change embraces territory in more than one area
education agency, such expenses shall be certified to and, if necessary, apportioned among
the several districts by the joint agency board. If in only one agency, the certification shall be
made by the agency administrator.
3. The respective boards to which such expenses are certified shall audit and order the
same paid from the general fund. In the event of failure of any board to so audit and pay the
expenses certified to it, the area education agency administrator shall certify the expenses to
the county auditor in the same manner as is provided for tuition claims in section 282.21 and
the funds shall be transferred by the county treasurer from the debtor district to the agency
board for payment of said expenses.

275.27 Community school districts — part of area education agency.
School districts created or enlarged under this chapter are community school districts and
are part of the area education agency in which the greatest number of registered voters of
the district reside at the time of the special election called for in section 275.18, and sections
of the Code applicable to public or accredited nonpublic schools generally are applicable to
these districts in addition to the powers and privileges conferred by this chapter. If a school
district, created or enlarged under this chapter and assigned to an area education agency
under this section, can demonstrate that students in the district were utilizing a service or
program prior to the formation of the new or enlarged district that is unavailable from the
area education agency to which the new or enlarged district is assigned, the district may be
reassigned to the area education agency which formerly provided the service or program,
upon an affirmative majority vote of the boards of the affected area education agencies to
permit the change.

275.28 Plan of division of assets and liabilities.
In addition to setting up the territory to comprise the reorganized districts, a reorganization
petition shall provide for a division of assets and liabilities of the districts affected among the
reorganized districts. However, if territory is excluded from the reorganized district by the
petition or by the area education agency board of directors, the division of all assets and liabilities shall be made under the provisions of sections 275.29 through 275.31.

275.29 Division of assets and liabilities after reorganization.
1. Between July 1 and July 20, or on a date determined by agreement of the initial board and the boards of districts receiving territory of the school districts affected, but not later than August 30, the initial board shall meet with the boards of districts receiving territory of the school districts affected, for the purpose of reaching joint agreement on an equitable division of the assets and an equitable distribution of the liabilities of the school districts affected. In addition, if outstanding general obligation indebtedness is in existence in any district, the initial board of directors of the newly formed school district shall meet with the boards of all school districts affected prior to April 15 prior to the school year the reorganization is effective to determine the distribution of liability for payment of the general obligation bonded indebtedness between the districts so that the newly formed district may certify its budget under the procedures specified in chapter 24. The boards shall consider the mandatory levy required in section 76.2 and shall assure the satisfaction of outstanding obligations. If a school district affected by the reorganization has outstanding bonds issued under section 423E.5 or 423F.4, the joint agreement shall assure that the estimated revenue under section 423F.2 for each district to which liability for payment of such bonds is assigned is sufficient for the payment of principal and interest on the outstanding bonds required to be paid in the budget year following reorganization.

2. For bonds issued under section 423E.5 or 423F.4, the approval of the joint agreement creates a lien on the revenues from the secure an advanced vision for education fund received by the school district to which liability is assigned, subject to the same priority as provided by the affected school district that issued the bonds.

275.30 Arbitration.
1. If the boards cannot agree on such division and distribution, the matters on which they differ shall be decided by disinterested arbitrators, one selected by the initial board of directors of the newly formed district, one selected jointly by the boards of directors of contiguous districts receiving territory of the school districts affected, and one selected by the area education agency administrator.

2. The decision of the arbitrators shall be made in writing and filed with the secretary of the new corporation, and a party to the proceedings may appeal the decision to the district court by serving notice on the secretary of the new corporation within twenty days after the decision is filed. The appeal shall be tried in equity and a decree entered determining the entire matter, including the levy, collection, and distribution of any necessary taxes.

3. a. If a school district affected by the reorganization has outstanding bonds issued under section 423E.5 or 423F.4, the arbitrators’ decision and any decision of the court on appeal shall assure that the estimated revenue under section 423F.2 for each district to which liability for payment of such bonds is assigned is sufficient for the payment of principal and interest on the outstanding bonds required to be paid in the budget year following reorganization.

b. The issuance of the arbitrators’ decision or court decision on appeal creates a lien on the revenues from the secure an advanced vision for education fund received by the district
to which the liability for payment of the bonds were assigned, subject to the same priority as provided by the affected school district that issued the bonds.

275.31 Taxes and appropriation to effect equalization.
1. If necessary to equalize the division and distribution, the board or boards may provide for the levy of additional taxes, which shall be sufficient to satisfy the mandatory levy required in section 76.2 or other liabilities of the districts, upon the property of a corporation or part of a corporation and for the distribution of the tax revenues so as to effect equalization. When the board or boards are considering the equalization levy, the division and distribution shall not impair the security for outstanding obligations of each affected corporation. Any owner of bonds of an affected corporation may bring suit in equity for adjustment of the division and distribution in compliance with this section. If the property tax levy for the amount estimated and certified to apply on principal and interest on lawful bonded indebtedness for a newly formed community school district is greater than the property tax levy for the amount estimated and certified to apply on principal and interest in the year preceding the reorganization or dissolution for a school district that is a party to the reorganization or dissolution, that had a certified enrollment of less than six hundred for the year prior to the reorganization or dissolution, and that approved the reorganization or dissolution prior to July 1, 1989, the board of the newly formed district shall inform the department of management. The department of management shall pay debt service aid to the newly formed district in an amount that reduces the rate of the property tax levy for lawful bonded indebtedness in the portion of the newly formed district where the new rate is higher, to the rate that was levied in that portion of the district during the year preceding the reorganization or dissolution.
2. For the school year beginning July 1, 1987, and succeeding school years, there is appropriated from the general fund of the state to the department of management an amount sufficient to pay the debt service aid under this section. Debt service aid shall be paid in the manner provided in section 257.16.
3. Not later than May 1 of each year, the department of management shall inform the board of the newly formed school district the amount of debt service aid that the district will receive and the rate of the property tax levy for the amount estimated and certified to apply on principal and interest on lawful bonded indebtedness in the portion of the newly formed district where the new rate would have been higher, and for the remainder of the newly formed district. The department of management shall notify the county auditor of each applicable county of the amount, in dollars and cents per thousand dollars of assessed valuation, of the property tax levy in each portion of each applicable newly formed school district in the county for the amount estimated and certified to apply on principal and interest on lawful bonded indebtedness, and the boundaries of the portions within the newly formed district for which the levies shall be made. The county auditor shall spread the applicable property tax levy for each portion of a school district over all taxable property in that portion of the district.

275.33 Contracts of new district.
1. The terms of employment of superintendents, principals, and teachers, for the school
year following the effective date of the formation of the new district shall not be affected by
the formation of the new district, except in accordance with the provisions of sections 279.15
through 279.21 and 279.24 and the authority and responsibility to offer new contracts or to
continue, modify, or terminate existing contracts pursuant to sections 279.12, 279.13, 279.15
through 279.21, 279.23, and 279.24 for the school year beginning with the effective date of
the reorganization shall be transferred from the boards of the existing districts to the board
of the new district on the third Tuesday of January prior to the school year the reorganization
is effective.

2. a. The collective bargaining agreement of the district with the largest basic enrollment
for the year prior to the reorganization, as defined in section 257.6, in the new district
shall serve as the base agreement and the employees of the other districts involved in the
formation of the new district shall automatically be accreted to the bargaining unit of that
collective bargaining agreement for purposes of negotiating the contracts for the following
years without further action by the public employment relations board. If only one collective
bargaining agreement is in effect among the districts which are party to the reorganization,
then that agreement shall serve as the base agreement, and the employees of the other
districts involved in the formation of the new district shall automatically be accreted to the
bargaining unit of that collective bargaining agreement for purposes of negotiating the
contracts for the following years without further action by the public employment relations
board.

b. The board of the newly formed district, using the base agreement as its existing
contract, shall bargain with the combined employees of the existing districts for the school
year beginning with the effective date of the reorganization. The bargaining shall be
completed by the dates specified in section 20.17 prior to the school year in which the
reorganization becomes effective or within one hundred eighty days after the organization
of the new board, whichever is later. If a bargaining agreement was already concluded by the
board and employees of the existing district with the contract serving as the base agreement
for the school year beginning with the effective date of the reorganization, that agreement
shall be void. However, if the base agreement contains multiyear provisions affecting school
years subsequent to the effective date of the reorganization, the base agreement shall remain
in effect as specified in the agreement.

c. The provisions of the base agreement shall apply to the offering of new contracts, or
continuation, modification, or termination of existing contracts as provided in subsection 1.

1. A school district may change the number of directors to either five or seven and may
also change its method of election of school directors to any method authorized by section
275.12 by submission of a proposal, stating the proposed new method of election, by the
school board of such district to the electors at an election held on a date specified in section
39.2, subsection 4, paragraph “c”. The school board shall notify the county commissioner of
elections who shall publish notice of the election in the manner provided in section 49.53. The
election shall be conducted pursuant to chapters 39 through 53 by the county commissioner
of elections. Such proposal shall be adopted if it is approved by a majority of the votes cast

district boundaries, the school board shall draw the necessary boundaries within forty days
after the date of the election. The boundaries shall be drawn according to the requirements
of section 275.23A. Following adoption by the school board, the plan shall be submitted to the state commissioner of elections for approval.

1. If a petition for a change in the number of directors or in the method of election of school directors is filed with the school board of a school district pursuant to the requirements of section 278.2, the school board shall submit such proposition to the voters at an election held on a date specified in section 39.2, subsection 4, paragraph “c”. The petition shall be accompanied by an affidavit as required by section 275.13. If a proposition for a change in the number of directors or in the method of election of school directors submitted to the voters under this section is rejected, it shall not be resubmitted to the voters of the district in substantially the same form within the next three years; if it is approved, no other proposal may be submitted to the voters of the district under this section within the next six years.

2. If the proposal adopted by the voters requires the establishment of or a change in director district boundaries pursuant to section 275.12, subsection 2, paragraph “b”, “c”, “d”, or “e”, the school board shall draw the necessary boundaries within forty days after the date of the election. The boundaries shall be drawn according to the requirements of section 275.23A. At the next succeeding regular school election in a district where the number of directors has been increased from five to seven, and directors are elected at large, there shall be elected a director to succeed each incumbent director whose term is expiring in that year, and two additional directors. Upon organizing as required by section 279.1, either one or two of the newly elected directors who received the fewest votes in the election shall be assigned a term of two years as necessary in order that as nearly as possible one-half of the members of the board shall be elected biennially. adopted is that described in section 275.12, subsection 2, paragraph “b”, “c”, “d”, or “e”,
the board shall at the earliest practicable time designate the districts from which residents
are to be elected as school directors at each of the next two succeeding regular school
elections, arranging so far as possible for elections of directors as residents of the respective
districts to coincide with the expiration of terms of incumbent members residing in those
districts. If an increase in the size of the board from five to seven members is approved
concurrently with the change in method of election of directors, the board shall make the
necessary adjustment in the manner prescribed in section 275.37, as well as providing for

§275.41 Alternative method for director elections — temporary appointments.
1. As an alternative to the method specified in section 275.25 for electing directors in a
newly formed community school district, the procedure specified in this section may be used
and if used, the petition filed under section 275.12 shall state the number of directors on the
initial board. If two districts are named in the petition, either five or seven directors shall
serve on the initial board. If three or more districts are named in the petition, either seven
or nine directors shall serve on the initial board. The petition shall specify the number of
directors to be retained from each district, and those numbers shall be proportionate to the
populations of the districts. If the exclusion of territory from a reorganization affects the
proportionate balance of directors among the affected districts specified in the petition, or if the
proposal specified in the petition does not comply with the requirement for proportionate
representation, the area education board shall modify the proposal. However, all districts
affected shall retain at least one member.

2. Prior to the organizational meeting of the newly formed district, the boards of the
former districts shall designate directors to be retained as members to serve on the initial
board, and if the total number of directors determined under subsection 1 is an even number;
that number of directors shall function and may within five days of the organizational
meeting appoint one additional director by unanimous vote with all directors voting.
Otherwise, the board shall function until a special election can be held to elect an additional
director. The procedure for calling the special election shall be the procedure specified in
section 275.25. If there is an insufficient number of board members eligible to be retained
from a former school district, the board of the former school district may appoint members
to fill the vacancies. A vacancy occurs if there is an insufficient number of former board
members who reside in the newly formed district or if there is an insufficient number who
are willing to serve on the board of the newly formed district.

3. Prior to the effective date of the reorganization, the initial board shall approve a plan
that commences at the first regular school election held after the effective date of the merger
and is completed at the second regular school election held after the effective date of the
merger, to replace the initial board with the regular board. If the petition specifies a number
of directors on the regular board to be different from the number of directors on the initial
board, the plan shall provide that the number specified in the petition for the regular board is in place by the time the regular board is formed. The plan shall provide that as nearly as possible one-half of the members of the board shall be elected biennially, and if a special election was held to elect a member to create an odd number of members on the board, the term of that member shall end at the organizational meeting following the second regular school election held after the effective date.

4. The board of the newly formed district shall organize within forty-five days after the approval of the merger upon the call of the area education agency administrator. The new board shall have control of the employment of all personnel for the newly formed district for the ensuing school year. Following the organization of the new board the board shall have authority to establish policy, organize curriculum, enter into contracts and complete such planning and take such action as is essential for the efficient management of the newly formed community school district.

5. The board of the newly formed district shall appoint an acting superintendent and an acting board secretary. The appointment of the acting superintendent shall not be subject to the continuing contract provision of sections 279.20, 279.23, and 279.24.

6. Section 49.8, subsection 5, shall not permit a director to remain on the board of a school district after the effective date of a boundary change which places the director’s residence outside the boundaries of the district. Vacancies so caused on any board shall be filled in the manner provided in sections 279.6 and 279.7.

SUBCHAPTER II

DISSOLUTION OF DISTRICTS

275.51 Dissolution commission.

1. As an alternative to school district reorganization prescribed in this chapter, the board of directors of a school district may establish a school district dissolution commission to prepare a proposal of dissolution of the school district and attachment of all of the school district to one or more contiguous school districts and to include in the proposal a division of the assets and liabilities of the dissolving school district. A school district dissolution commission shall be established by the board of directors of a school district if a dissolution proposal has been prepared by eligible electors who reside within the district. The proposal must contain the names of the proposed members of the commission and be accompanied by a petition which has been signed by eligible electors residing in the school district equal in number to at least twenty percent of the registered voters in the school district.

2. The dissolution commission shall consist of seven members appointed by the board for a term of office ending either with a report to the board that no proposal can be approved or on the date of the election on the proposal. Members of the dissolution commission must be eligible electors who reside in the school district, not more than three of whom may be members of the board of directors of the school district. Members shall be appointed from throughout the school district and should represent the various socioeconomic factors present in the school district.

3. Members of the dissolution commission shall serve without compensation and may be appointed to a subsequent commission. A vacancy on the commission shall be filled in the same manner as the original appointment was made.

4. The board of the school district shall certify to the area education agency board that a commission has been formed, the names and addresses of commission members, and that
the commission members represent the various geographic areas and socioeconomic factors present in the district.  

[C81, §275.51]  

275.52 Meetings.  
1. The commission shall hold an organizational meeting not more than fifteen days after its appointment and shall elect a chairperson and vice chairperson from its membership. Thereafter the commission may meet as often as deemed necessary upon the call of the chairperson or a majority of the commission members.  
2. The commission shall request statements from contiguous school districts outlining each district’s willingness to accept attachments of the affected school district to the contiguous districts and what conditions, if any, the contiguous school district recommends. The commission shall meet with boards of contiguous school districts and with residents of the affected school district to the extent possible in drawing up the dissolution proposal.  
3. The commission may seek assistance from the area education agency and the department of education.

275.53 Dissolution proposal.  
1. The commission shall send a copy of its dissolution proposal or shall inform the board that it cannot agree upon a dissolution proposal not later than one year following the date of the organizational meeting of the commission. If the dissolving school district has outstanding bonds issued under section 423E.5 or 423F.4, the proposal shall require each school district receiving territory from the dissolving district to assume liability for the payment of a portion of such bonds that is equal to the percentage of the total number of resident pupils from the dissolving district who lived in the territory received during the last year of the dissolving district’s existence. The commission shall also send a copy of the dissolution proposal to the boards of directors of all school districts to which area of the dissolving school district will be attached. If the board of a district to which area of the dissolving school district will be attached objects to the attachment, within ten days following receipt of the dissolution proposal the board shall send its objections in writing to the commission. The commission may consider the objections and may modify the dissolution proposal. If the dissolution proposal is modified, the commission shall notify the boards of directors of all school districts to which area of the dissolving school district will be attached.  
2. Notifications required under subsection 1 shall be delivered using one of the following methods:  
   a. Mail bearing a United States postal service postmark.  
   b. Hand delivery.  
   c. Facsimile transmission.  
   d. Electronic delivery.  
3. If the commission cannot agree upon a dissolution proposal prior to the expiration of its term, the board may appoint a new commission.

   b. Except when restricted by section 297.25, direct the sale, lease, or other disposition of any schoolhouse or school site or other property belonging to the corporation, and the application to be made of the proceeds thereof. However, nothing in this section shall be construed to prevent the sale, lease, exchange, gift, or grant and acceptance of any interest in real or other property of the corporation to the extent authorized in section 297.22.
   c. Determine upon additional branches that shall be taught.
   d. Instruct the board that school buildings may or may not be used for meetings of public interest.

   f. Authorize the board to obtain, at the expense of the corporation, roads for proper access to its schoolhouses.
   g. Authorize a change to either five or seven directors. The proposition for the change shall specify the number of directors to be elected, and which of the methods of election authorized by section 275.12, subsection 2, is to be used if the change is approved by the voters.
   h. Authorize a change in the method of conducting elections or in the number of directors as provided in sections 275.35 and 275.36. The establishment or abandonment of director districts or a change in the boundaries of director districts shall be implemented as prescribed in section 275.37.

The election shall be held on a date specified in section 39.2, subsection 4, paragraph “c”.
   b. Subject to paragraph “c”, before entering into a rental or lease-purchase option contract, authorized by the electors, the board shall first adopt plans and specifications for a building or buildings which it considers suitable for the intended use and also adopt a form of rental or lease-purchase option contract. The board shall then invite bids thereon, by advertisement published once each week for two consecutive weeks, in a newspaper published in the county in which the building or buildings are to be located, and the rental or lease-purchase option contract shall be awarded to the lowest responsible bidder, but the board may reject any and all bids and advertise for new bids.

The resignation must be filed not later than the last day of the current school year or the date specified by the employing board for return of the contract, whichever date occurs first. However, a teacher shall not be required to return a contract to the board or to resign less than twenty-one days after the contract has been offered.

for that sport, the annual compensation to be paid, and any other matters as may be mutually
agreed upon. The contract shall be for a single school year.

2. a. If the school district offers an extracurricular contract for a sport for the subsequent
school year to an employee who is currently performing under an extracurricular contract
for that sport, and the employee does not wish to accept the extracurricular contract for
the subsequent year, the employee may resign from the extracurricular contract within
twenty-one days after it has been received.

b. If the provisions of an extracurricular contract executed under this section conflict
with a collective bargaining agreement negotiated under chapter 20 and effective when the extracurricular contract is executed or renewed, the provisions of the collective bargaining agreement shall prevail.

3. The board of directors of a school district may require an employee who has resigned from an extracurricular contract to accept, as a condition of employment under section 279.13, the extracurricular contract for no longer than one additional school year if all the following conditions apply:
   a. The employee has accepted a teaching contract issued by the board pursuant to section 279.13 for the subsequent school year.

If the employee believes that the board did not make a good faith effort to fill the position the employee may appeal the decision by notifying the board in writing within ten days after receiving the notification.
   b. The appeal shall state why the employee believes that the board did not make a good faith effort to fill the position. If the parties are unable to informally resolve the dispute, the parties shall attempt to agree upon an alternative means of resolving the dispute.
   c. If the dispute is not resolved by mutual agreement, either party may appeal to the district court.

6. Subsections 3, 4, and 5 do not apply if the terms of a collective bargaining agreement provide otherwise.

8. a. A termination proceeding regarding an extracurricular contract shall not affect a contract issued pursuant to section 279.13.
   b. A termination of a contract entered into pursuant to section 279.13, or a resignation from that contract by the teacher, constitutes an automatic termination or resignation of the extracurricular contract in effect between the same teacher and the employing school board.

9. For the purposes of this section, “good faith effort” includes advertising for the position in an appropriate publication, interviewing applicants, and giving serious consideration to those licensed or authorized, and otherwise qualified, applicants who apply.

1. An administrator’s contract shall remain in force and effect for the period stated in the contract. The contract shall be automatically continued in force and effect for additional one-year periods beyond the end of its original term, except and until the contract is modified or terminated by mutual agreement of the board of directors and the administrator, or until terminated as provided by this section.

2. If the board of directors is considering termination of an administrator’s contract, prior to any formal action, the board may arrange to meet in closed session, in accordance with the provisions of section 21.5, with the administrator and the administrator’s representative. The board shall review the administrator’s evaluation, review the reasons for nonrenewal, and give the administrator an opportunity to respond. If, following the closed session, the board of directors and the administrator are unable to mutually agree to a modification or termination of the administrator’s contract, the board of directors may issue a one-year nonrenewable contract to the administrator. If the board of directors decides to terminate the administrator’s contract, the board shall follow the procedures in this section.

3. An administrator may file a written resignation with the secretary of the school board on or before May 1 of each year or the date specified by the school board for return of the contract, whichever date occurs first.

4. Administrators employed in a school district for less than three consecutive years are probationary administrators. However, a school board may extend the probationary period for an additional year with the consent of the administrator. If a school board determines that it should terminate a probationary administrator’s contract, the school board shall notify the administrator not later than May 15 that the contract will not be renewed beyond the current year. The notice shall be in writing by letter, personally delivered, or mailed by certified mail. The notification shall be complete when received by the administrator. Within ten days after receiving the notice, the administrator may request a private conference with the school board to discuss the reasons for termination. The school board’s decision to terminate a probationary administrator’s contract shall be final unless the termination was based upon an alleged violation of a constitutionally guaranteed right of the administrator.

5. The school board may, by majority vote of the membership of the school board, cause
the contract of an administrator to be terminated. If the school board determines that it should consider the termination of a nonprobationary administrator’s contract, the following procedure shall apply:

a. On or before May 15, the administrator shall be notified in writing by a letter personally delivered or mailed by certified mail that the school board has voted to consider termination of the contract. The notification shall be complete when received by the administrator.

b. The notice shall state the specific reasons to be used by the school board for considering termination which for all administrators except superintendents shall be for just cause.

c. Within five days after receipt of the written notice that the school board has voted to consider termination of the contract, the administrator may request a private hearing in writing to the secretary of the school board. The board shall then forward the notification to the board of educational examiners along with a request that the board of educational examiners submit a list of five qualified administrative law judges to the parties. Within three days from receipt of the list the parties shall select an administrative law judge by alternately removing a name from the list until only one name remains. The person whose name remains shall be the administrative law judge. The parties shall determine by lot which party shall remove the first name from the list. The private hearing shall be held no sooner than twenty days and not later than forty days following the administrator’s request unless the parties otherwise agree. If the administrator does not request a private hearing, the school board, not later than May 31, may determine the continuance or discontinuance of the contract and, if the board determines to continue the administrator’s contract, whether to suspend the administrator with or without pay for a period specified by the board. School board action shall be by majority roll call vote entered on the minutes of the meeting. Notice of school board action shall be personally delivered or mailed to the administrator.

d. The administrative law judge selected shall notify the secretary of the school board and the administrator in writing concerning the date, time, and location of the private hearing. The school board may be represented by a legal representative, if any, and the administrator shall appear and may be represented by counsel or by representative, if any. Any witnesses for the parties at the private hearing shall be sequestered. A transcript or recording shall be made of the proceedings at the private hearing. A school board member or administrator is not liable for any damage to an administrator or school board member if a statement made at the private hearing is determined to be erroneous as long as the statement was made in good faith.

e. The administrative law judge shall, within ten days following the date of the private hearing, make a proposed decision as to whether or not the administrator should be dismissed, and shall give a copy of the proposed decision to the administrator and the school board. Findings of fact shall be prepared by the administrative law judge. The proposed decision of the administrative law judge shall become the final decision of the school board unless within thirty days after the filing of the decision the administrator files a written notice of appeal with the school board, or the school board on its own motion determines to review the decision.

f. If the administrator appeals to the school board, or if the school board determines on its own motion to review the proposed decision of the administrative law judge, a private hearing shall be held before the school board within ten days after the petition for review, or motion for review, has been made or at such other time as the parties agree. The private hearing is not subject to chapter 21. The school board may hear the case de novo upon the record as submitted before the administrative law judge. In cases where there is an appeal from a proposed decision or where a proposed decision is reviewed on motion of the school board, an opportunity shall be afforded to each party to file exceptions, present briefs, and present oral arguments to the school board which is to render the final decision. The secretary of the school board shall give the administrator written notice of the time, place, and date of the private hearing. The school board shall meet within five days after the private hearing to determine the question of continuance or discontinuance of the contract and, if the board determines to continue the administrator’s contract, whether to suspend the administrator with or without pay for a period specified by the board or issue the administrator a one-year;
nonrenewable contract. The school board shall make findings of fact which shall be based solely on the evidence in the record and on matters officially noticed in the record.

g. The decision of the school board shall be in writing.

h. When the school board has reached a decision, opinion, or conclusion, it shall convene in open meeting and by roll call vote determine the continuance or discontinuance of the administrator’s contract and, if the board votes to continue the administrator’s contract, whether to suspend the administrator with or without pay for a period specified by the board or issue the administrator a one-year, nonrenewable contract. The record of the private hearing and written decision of the board shall be exempt from the provisions of chapter 22. The secretary of the school board shall immediately personally deliver or mail notice of the school board’s action to the administrator.

i. The administrator may within thirty days after notification by the school board of discontinuance of the contract appeal to the district court of the county in which the administrative office of the school district is located.

6. The court may affirm the school board’s action. The court shall reverse, modify, or grant any other appropriate relief from the school board’s action, equitable or legal, and including declaratory relief, if substantial rights of the administrator have been prejudiced because the school board’s action is any of the following:

a. In violation of constitutional or statutory provisions.

b. In excess of the statutory authority of the school board.

c. In violation of school board policy or rule.

d. Made upon unlawful procedure.

e. Affected by other error of law.

f. Unsupported by a preponderance of the evidence in the record made before the school board when that record is reviewed as a whole.

   a. A school district shall assess all students enrolled in kindergarten through grade three at the beginning of each school year for their level of reading or reading readiness on locally determined or statewide assessments, as provided in section 256.7, subsection 31. If a student is not reading proficiently and is persistently at risk in reading, based upon the assessments administered in accordance with this paragraph, the school district shall provide intensive reading instruction to the student. The student’s reading proficiency shall be periodically reassessed by locally determined or statewide assessments including periodic universal screening and annual standard-based assessments. The student shall continue to be provided with intensive reading instruction, at grade levels beyond grade three if necessary, until the student is reading at grade level, as determined by the student’s consistently proficient performance on valid and reliable measures of reading ability. For purposes of this section, “persistently at risk” means the student has not met the grade-level benchmark on two consecutive screening assessments administered under this paragraph.
   b. The parent or guardian of any student in kindergarten through grade three who is persistently at risk in reading shall be notified in writing and shall be provided all of the following:
      (1) A description of the services currently provided to the student.

(a) Assists students who are persistently at risk in reading to develop the skills to read at grade level. Assistance shall include but not be limited to strategies that formally address dyslexia, when appropriate. For purposes of this subparagraph division (a), “dyslexia” means a specific and significant impairment in the development of reading, including but not limited to phonemic awareness, phonics, fluency, vocabulary, and comprehension, that is not solely accounted for by intellectual disability, sensory disability or impairment, or lack of appropriate instruction.

(c) Includes a scientifically based and reliable assessment.

(d) Provides initial and ongoing analysis of each student’s reading progress.

e. Report to the department of education the specific intensive reading interventions and supports implemented by the school district pursuant to this section. The department shall annually prescribe the components of required or requested reports.

3. Ensuring continuous improvement in reading proficiency.

a. To ensure all children are reading proficiently by the end of third grade, each school district shall address reading proficiency as part of its comprehensive school improvement plan, drawing upon information about students from assessments and reassessments conducted pursuant to subsection 1 and the prevalence of areas in which students are persistently at risk in reading identified by classroom, elementary school, and other student characteristics. As part of its comprehensive school improvement plan, each school district shall review chronic early elementary absenteeism for its impact on literacy development. If more than fifteen percent of an attendance center’s students are not reading proficiently and are persistently at risk in reading by the end of third grade, the comprehensive school improvement plan shall include strategies to reduce that percentage, including school and community strategies to raise the percentage of students who are reading at grade level.

b. Each school district, subject to an appropriation of funds by the general assembly, shall provide professional development services to enhance the skills of elementary teachers in responding to children’s unique reading issues and needs and to increase the use of evidence-based strategies.

Proof of achievement shall be determined on the basis of tests or other means of evaluation prescribed by the director of the department of education with the approval of the state board of education. The testing or evaluation, if required, shall be accomplished prior to submission of the request for renewal of the exemption. Renewal requests shall be filed with the director by April 15 of the school year preceding the school year for which the applicants desire exemption. As used in this section, “limited English proficient” means a student’s language background is in a language other than English, and the student’s proficiency in English is such that the probability of the student’s academic success in an English-only classroom is below that of an academically successful peer with an English language background. “Fully English proficient” means a student who is able to read, understand, write, and speak the English language and to use English to ask questions, to understand teachers and reading materials, to test ideas, and to challenge what is being asked in the classroom.
2. The department of education shall adopt rules relating to the identification of limited
English proficient students who require special instruction under this section and to application procedures for funds available under this section.

3. a. In order to provide funds for the excess costs of instruction of limited English proficient students specified in paragraph “b” above the costs of instruction of pupils in a regular curriculum, students identified as limited English proficient shall be assigned an additional weighting of twenty-two hundredths, and that weighting shall be included in the weighted enrollment of the school district of residence for a period not exceeding five years. However, the school budget review committee may grant supplemental aid or a modified supplemental amount to a school district to continue funding a program for students after the expiration of the five-year period.

b. For students first determined to be limited English proficient for a budget year beginning on or after July 1, 2010, the additional weighting provided under paragraph “a” shall be included in the weighted enrollment of the school district of residence for a cumulative period of time not exceeding five years beginning with the budget year for which the student was first determined to be limited English proficient. The five years of eligibility for the additional weighting need not be consecutive and a student’s eligibility for the additional weighting is transferable to another district of residence.

280.13C Concussion and brain injury policies.
1. Legislative findings. The general assembly finds and declares all of the following:

a. Concussions are one of the most commonly reported injuries in children and adolescents who participate in sports and recreational activities. A concussion is caused by a blow or motion to the head or body that causes the brain to move rapidly inside the skull. The risk of catastrophic injuries or death is significant when a concussion or head injury is not properly evaluated and managed.

b. Concussions are a type of brain injury that can range from mild to severe and can disrupt the way the brain normally works. Concussions can occur in any organized or unorganized sport or recreational activity and can result from a fall or from players colliding with each other, the ground, or with obstacles. Concussions can occur with or without loss of consciousness, but the vast majority of concussions occur without loss of consciousness.

c. Continuing to play with a concussion or symptoms of a brain injury leaves a young athlete especially vulnerable to greater injury and even death. The general assembly recognizes that, despite having generally recognized return-to-play standards for concussions and head injuries, some affected youth athletes are prematurely returned to play or expected to learn at full capability, resulting in prolonged symptoms, actual or potential physical injury, or death to youth athletes in this state.

d. A concussion can impair not only the physical abilities of a student athlete, but can
also affect how a student athlete thinks, acts, feels, and learns. A student athlete who has sustained a concussion may need informal or formal adjustments, accommodations, modifications of curriculum, and monitoring by medical or educational staff until the student is fully recovered.

2. Definitions. For the purposes of this section:
   a. “Contest” means an interscholastic athletic game or competition.
   b. “Contest official” means a referee, umpire, judge, or other official in an athletic contest who is registered with the Iowa high school athletic association or the Iowa girls high school athletic union.
   c. “Emergency medical care provider” means the same as defined in section 147A.1.
   d. “Extracurricular interscholastic activity” means any dance or cheerleading activity or extracurricular interscholastic activity, contest, or practice governed by the Iowa high school athletic association or the Iowa girls high school athletic union that is a contact or limited contact activity as identified by the American academy of pediatrics.
   e. “Licensed health care provider” means a physician, physician assistant, chiropractor, advanced registered nurse practitioner, nurse, physical therapist, or athletic trainer licensed by a board designated under section 147.13.

3. Training.
   a. The department of public health, Iowa high school athletic association, and the Iowa girls high school athletic union shall work together to develop training materials and courses regarding concussions and brain injuries, including training regarding evaluation, prevention, symptoms, risks, and long-term effects of concussions and brain injuries. Each coach or contest official shall complete such training at least every two years.
   b. Individuals required to complete training pursuant to this subsection shall submit proof of such completion to the Iowa high school athletic association or the Iowa girls high school athletic union, as applicable.

   a. The department of public health, Iowa high school athletic association, and the Iowa girls high school athletic union shall work together to distribute the guidelines of the centers for disease control and prevention of the United States department of health and human services and other pertinent information to inform and educate coaches, students, and the parents and guardians of students of the risks, signs, symptoms, and behaviors consistent with a concussion or brain injury, including the danger of continuing to participate in extracurricular interscholastic activities after suffering a concussion or brain injury and their responsibility to report such signs, symptoms, and behaviors if they occur.
   b. For school years beginning on or after July 1, 2018, each school district and nonpublic school shall provide to the parent or guardian of each student in grades seven through twelve a concussion and brain injury information sheet, as provided by the department of public health, the Iowa high school athletic association, and the Iowa girls high school athletic union. The student and the student’s parent or guardian shall sign and return a copy of the concussion and brain injury information sheet to the student’s school prior to the student’s participation in any extracurricular interscholastic activity.

5. Removal from participation.
   a. If a student’s coach, contest official, or licensed health care provider or an emergency medical care provider observes signs, symptoms, or behaviors consistent with a concussion or brain injury in an extracurricular interscholastic activity, the student shall be immediately removed from participation.
   b. A student who has been removed from participation shall not recommence such participation or participate in any dance or cheerleading activity or activity, contest, or practice governed by the Iowa high school athletic association or the Iowa girls high school athletic union until the student has been evaluated by a licensed health care provider trained in the evaluation and management of concussions and other brain injuries and the student has received written clearance to return to or commence participation from a licensed health care provider.

6. Return-to-play protocol and return-to-learn plans.
   a. The department of public health, in cooperation with the Iowa high school athletic
association and the Iowa girls high school athletic union, shall develop a return-to-play protocol based on peer-reviewed scientific evidence consistent with the guidelines of the centers for disease control and prevention of the United States department of health and human services, for a student’s return to participation in any extracurricular interscholastic activity after showing signs, symptoms, or behaviors consistent with a concussion or brain injury. The department of public health shall adopt the return-to-play protocol by rule pursuant to chapter 17A. The board of directors of each school district and the authorities in charge of each accredited nonprofit school with enrolled students who participate in an extracurricular interscholastic activity which is a contest in grades seven through twelve shall adopt such protocol by July 1, 2019.

b. Personnel of a school district or accredited nonprofit school with enrolled students who participate in an extracurricular interscholastic activity which is a contest in grades seven through twelve shall develop a return-to-learn plan based on guidance developed by the brain injury association of America in cooperation with a student removed from participation in an extracurricular interscholastic activity and diagnosed with a concussion or brain injury, the student’s parent or guardian, and the student’s licensed health care provider to accommodate the student as the student returns to the classroom.

7. **Protective gear.** For school budget years beginning on or after July 1, 2018, the board of directors of each school district and the authorities in charge of each accredited nonprofit school with enrolled students who participate in an extracurricular interscholastic activity which is a contest in grades seven through twelve shall provide students participating in such contests with any protective gear, including but not limited to helmets and pads required for the activity by law, by the rules for such contests, or by Iowa high school athletic association or Iowa girls high school athletic union guidelines. However, an individual student is responsible for other protective gear that the individual student needs but that is not required for participation in the contest as provided in this subsection.

8. **Liability.**

   a. A school district or accredited nonprofit school that adopts and follows the protocol required by this section and provides an emergency medical care provider or a licensed health care provider at a contest that is a contact or limited contact activity as identified by the American academy of pediatrics shall not be liable for any claim for injuries or damages based upon the actions or inactions of the emergency medical care provider or the licensed health care provider present at the contest at the request of the school district or accredited nonprofit school so long as the emergency medical care provider or the licensed health care provider acts reasonably and in good faith and in the best interest of the student athlete and without undue influence of the school district or accredited nonprofit school or coaching staff employed by the school district or accredited nonprofit school. A school district or accredited nonprofit school shall not be liable for any claim for injuries or damages if an emergency medical care provider or a licensed health care provider who was scheduled in accordance with a prearranged agreement with the school district or accredited nonprofit school to be present and available at a contest is not able to be present and available due to documentable, unforeseen circumstances and the school district or accredited nonprofit school otherwise followed the protocol.

   b. An emergency medical care provider or a licensed health care provider providing care without compensation for a school district or accredited nonprofit school under this section shall not be liable for any claim for injuries or damages arising out of such care so long as the emergency medical care provider or the licensed health care provider acts reasonably and in good faith and in the best interest of the student athlete and without undue influence of the school district or accredited nonprofit school or coaching staff employed by the school district or accredited nonprofit school.

However, the board is not required to offer a new position to applicants who were among those who were terminated as a result of the agreement beyond two school years. The school district shall do the following:
   a. Work with an area education agency child welfare liaison, if the area education agency has employed such a liaison in accordance with section 273.2, subsection 10, to develop systems to ease the enrollment transition of a child adjudicated under chapter 232 or receiving foster care services to another school.

      (2) If the child earned less than a passing grade for a unit of coursework, the school district may require the child to retake the class in middle or high school.    c. Promote practices that facilitate access by a child adjudicated under chapter 232 or receiving foster care services to extracurricular programs, summer programs, and credit transfer services.
   d. Establish procedures to lessen the adverse impact of the enrollment transfer of a child adjudicated under chapter 232 or receiving foster care services to another school.
   e. Enter into a memorandum of understanding with the department of human services regarding the exchange of information as appropriate to facilitate the enrollment transition of children adjudicated under chapter 232 or receiving foster care services from one school to another school.
   f. Provide other assistance as identified by the area education child welfare liaison.

2. A school district or an accredited nonpublic school, upon notification by an agency of the state that a child adjudicated under chapter 232 or in foster care is transferring enrollment from the school district or accredited nonpublic school to another school district or accredited nonpublic school, shall promptly provide for the transfer of all of the educational records of the child not later than five school days after receiving the notification.

1. The board of directors of a school district and the authorities in charge of each
accredited nonpublic school shall develop a high-quality emergency operations plan for the
district and individual school buildings in which students are educated no later than June 30,
2019. The plan shall include but not be limited to responses to active shooter scenarios and
natural disasters. The plan shall provide that any alert regarding an emergency situation that
is transmitted to school personnel or students by electronic means shall also be transmitted
to the employer of any individual who is not a school employee but who is required as
a part of the individual’s employment to regularly be present in a school building during
the school year. The plan shall include publication of procedures for school personnel,
parents, and guardians to report possible threats to the safety of students or school
personnel on school grounds or at school activities. The board and authorities shall consider
any recommendations of the department of education relating to the development of a
high-quality emergency operations plan and shall consult with local emergency management
 coordinators and local law enforcement agencies in the development of the plan. The board
and authorities shall review and update the plan on an annual basis. The plan shall be
confidential and shall not be a public record subject to disclosure under chapter 22.

2. The board of directors of a school district and the authorities in charge of each
accredited nonpublic school shall require that at least once per school year an emergency
operations drill based on the emergency operations plan be conducted in each individual
school building in which students are educated. The board and authorities shall determine
which school personnel participate in the drill and whether students or local law enforcement
agencies participate in the drill. The drill may include but is not limited to a table top
exercise, walk-through, partial drill, or full drill. This subsection shall not be construed to
affect the requirements of section 100.31, subsection 1.

principal, or superintendent the power temporarily to suspend a student, notice of the suspension being at once given in writing to the president of the board.

2. A student who commits an assault, as defined under section 708.1, against a school employee in a school building, on school grounds, or at a school-sponsored function shall be suspended for a time to be determined by the principal. Notice of the suspension shall be immediately sent to the president of the board. By special meeting or at the next regularly scheduled board meeting, the board shall review the suspension and decide whether to hold a disciplinary hearing to determine whether or not to order further sanctions against the student, which may include expelling the student. In making its decision, the board shall consider the best interests of the school district, which shall include what is best to protect and ensure the safety of the school employees and students from the student committing the assault.

3. A student shall not be suspended or expelled pursuant to this section if the suspension or expulsion would violate the federal Individuals with Disabilities Education Act.

4. Notwithstanding section 282.6, if a student has been expelled or suspended from school and has not met the conditions of the expulsion or suspension, the student shall not be permitted to enroll in a school district until the board of directors of the school district approves, by a majority vote, the enrollment of the student.

   a. Is in the district for the purpose of making a home and not solely for school purposes.
   b. Meets the definitional requirements of the term “homeless individual” under 42 U.S.C. §11302(a) and (c).
   c. Lives in a residential correctional facility in the district.
   d. Every school shall be free of tuition to all actual residents between the ages of five and twenty-one years and to resident veterans as defined in section 35.1, as many months after becoming twenty-one years of age as they have spent in the armed forces of the United States before they became twenty-one, provided, however, fees may be charged covering instructional costs for a summer school or driver education program. The board of education may, in a hardship case, exempt a student from payment of the above fees. Every person, however, who shall attend any school after graduation from a four-year course in an approved high school or its equivalent shall be charged a sufficient tuition fee to cover the cost of the instruction received by the person.

3. This section shall not apply to tuition authorized by chapter 260C.

282.7 Attending in another corporation — payment.

1. The board of directors of a school district by record action may discontinue any or all of grades seven through twelve and negotiate an agreement for attendance of the pupils enrolled in those grades in the schools of one or more contiguous school districts having accredited school systems. If the board designates more than one contiguous district for attendance of its pupils, the board shall draw boundary lines within the school district for determining the school districts of attendance of the pupils. The portion of a district so designated shall be contiguous to the accredited school district designated for attendance. Only entire grades may be discontinued under this subsection and if a grade is discontinued, all higher grades in that district shall also be discontinued. A school district that has discontinued one or more grades under this subsection has complied with the requirements of section 275.1 relating to the maintenance of kindergarten and twelve grades. A pupil who graduates from another school district under this subsection shall receive a diploma from the receiving district. The boards of directors entering into an agreement under this section shall provide for sharing the costs and expenses as provided in sections 282.10 through 282.12. The agreement shall provide for transportation and authority and liability of the affected boards.

2. If the career and technical education program offered by a school district does not meet standards for program approval adopted by the state board for career and technical education, the district shall be granted one year to meet the standards for approval. If a district chooses to waive the one-year grace period, or the district fails to meet the approval standards after one year, the director of the department of education shall delegate the authority to the regional career and technical education planning partnership established pursuant to section 258.14 to direct the district to contract with another school district or a community college which has an approved program, for the provision of career and technical education for students of the district. The district that has waived the one-year grace period or has failed to meet the approval standards shall pay to the district or community college that has an approved program an amount equal to the percent of the school day in which a pupil is receiving career and technical education in the approved program times the district cost per pupil of the district of residence of the pupil. The regional career and technical education planning partnership established pursuant to section 258.14 shall contract with an approved program for delivery of career and technical education in the district which has failed to meet the approval standards or has waived the one-year grace period. Transportation to and from the approved program shall be provided by the school district that has waived the one-year grace period or has failed to meet approval standards. Reasonable effort shall be made to conduct the approved program at an attendance center in the district that has failed to meet the approval standards or has waived the one-year grace period.

3. Notwithstanding sections 28E.9 and 282.8, a school district may negotiate an agreement under subsection 1 for attendance of its pupils in a school district located in a contiguous state subject to a reciprocal agreement by the two state boards in the manner provided in this subsection. Prior to negotiating an agreement with the school district in the contiguous state, the board of directors shall file a written request with the state board of education for a determination whether the school district in the contiguous state meets requirements substantially similar to those required for accredited or approved school districts in this state and the school district receives or has available services equivalent to those that would be provided in this state by an area education agency. The school district shall also obtain approval by the department of education of the sharing proposal, before the agreement becomes effective. Six months before making the request for approval, the district shall request a feasibility study from the department of education. If the state board of this state and the corresponding state board in the contiguous state agree that the school districts of their respective states meet substantially similar requirements and have substantially similar services available to the school district, and if the Iowa department of education approves the proposed contract, the two state boards may sign a reciprocal agreement for attendance of their pupils in the school district of the other state, subject to the agreement signed between the boards of directors of the two districts. A school district that
§282.7, SCHOOL ATTENDANCE AND TUITION

negotiates an agreement with a school district in a contiguous state under this subsection is not eligible for supplementary weighting under section 257.11 as a result of that agreement.

282.8 Attending school outside state.

1. The boards of directors of school districts located near the state boundaries may designate schools of equivalent standing across the state line for attendance of both elementary and secondary school pupils when the public school in the adjoining state is nearer than any appropriate public school in a pupil's district of residence or in Iowa. Distance shall be measured by the nearest traveled public road. Arrangements shall be subject to reciprocal agreements made between the chief state school officers of the respective states. Notwithstanding section 282.1, arrangements between districts pursuant to the reciprocal agreements made under this section shall establish tuition and transportation fees in an amount acceptable to the affected boards, but the tuition fee established shall not be less than the lower of the tuition fee established pursuant to section 282.24 for the school district or the equivalent tuition rate for the non-Iowa school district for the previous school year, and the transportation fee established shall not be less than the lower average transportation cost per mile for yellow school buses as described in section 321.373 for the previous school year of the two affected school districts. The agreement shall provide that if the tuition fee for the school district in the adjoining state is a variable rate, the test of which tuition fee is lower shall be determined for each student by the affected boards.

2. A person attending school in another state pursuant to this section shall continue to be treated as a pupil of the district of residence for state school foundation aid purposes under section 257.6.

3. Notwithstanding the tuition provisions of subsection 1, the tuition fee established for a child requiring special education under chapter 256B shall be equal to the actual cost of the special education instructional program provided to that child under the child's individualized education program.

4. If the chief state school officers of the respective states have not entered into a reciprocal agreement under this section, or the agreement has expired or been terminated, or the distance to the public school in the adjoining state is not nearer than an appropriate public school in the pupil's district of residence or an appropriate public school in Iowa, the pupil attending school outside the state shall be considered a nonresident child for purposes of tuition payments to the receiving district and shall not be treated as a pupil of the district of residence for state school foundation aid purposes under section 257.6.

5. The whole grade sharing provisions of sections 282.10 through 282.12 and the open enrollment provisions of section 282.18 shall not apply to agreements made between districts under this section.

282.9 Enrollment of person listed on sex offender registry.

1. Notwithstanding sections 275.55A, 256F.4, and 282.18, or any other provision to the contrary, prior to knowingly enrolling an individual who is required to register as a sex offender under chapter 692A, but who is otherwise eligible to enroll in a public school, the board of directors of a school district shall determine the educational placement of the individual. Upon receipt of notice that a student who is enrolled in the district is required to register as a sex offender under chapter 692A, the board shall determine the educational placement of the student. The tentative agenda for the meeting of the board of directors at
which the board will consider such enrollment or educational placement shall specifically state that the board is considering the enrollment or educational placement of an individual who is required to register as a sex offender under chapter 692A. If the individual is denied enrollment in a school district under this section, the school district of residence shall provide the individual with educational services in an alternative setting.

2. Notwithstanding section 692A.121, or any other provision of law to the contrary, the county sheriff shall provide to the boards of directors of the school districts located within the county the name of any individual under the age of twenty-one who is required to register as a sex offender under chapter 692A.

282.10 Whole grade sharing.

1. Whole grade sharing is a procedure used by school districts whereby all or a substantial portion of the pupils in any grade in two or more school districts share an educational program for all or a substantial portion of a school day under a written agreement pursuant to section 256.13, 280.15, or 282.7, subsection 1 or 3. Whole grade sharing may either be one-way or two-way sharing.

2. One-way whole grade sharing occurs when a school district sends pupils to one or more other school districts for instruction and does not receive a substantial number of pupils from those districts in return.

3. Two-way whole grade sharing occurs when a school district sends pupils to one or more other school districts for instruction and receives a substantial number of pupils from those school districts in return.

4. A whole grade sharing agreement shall be signed by the boards of the districts involved in the agreement not later than February 1 of the school year preceding the school year for which the agreement is to take effect. The boards of the districts shall negotiate as part of the new or existing agreement the disposition of funding provided under chapter 284, including the following:

   The teacher leadership supplement state cost per pupil as provided in section 257.9, unless all of the districts subject to the agreement are receiving such funding.

282.11 Procedure for whole grade sharing agreements.

1. For the purposes of this section, “affected pupils” are those who under the whole grade sharing agreement are attending or scheduled to attend the school district specified in the agreement, other than the district of residence, during the term of the agreement.

2. Not less than ninety days prior to signing a whole grade sharing agreement whereby all or a substantial portion of the pupils in a grade in the district will attend school in another district, the board of directors of each school district that is negotiating, extending, or renewing a sharing agreement, shall publicly announce its intent to negotiate a sharing agreement under section 21.4, subsection 1. Within thirty days of the board’s public notice, a petition may be filed with the department of education requesting that a feasibility study be completed. The petition shall be signed by twenty percent of the eligible electors in the district. The director of the department of education may determine that a feasibility study conducted by the board satisfies the request, provided that the study conforms with the criteria contained in section 256.9.

3. Not less than thirty days prior to signing a whole grade sharing agreement whereby all or a substantial portion of the pupils in a grade in the district will attend school in another district, the board of directors of each school district that is a party to a proposed sharing agreement shall hold a public hearing at which the proposed agreement is described, and at which the parent or guardian of an affected pupil and certificated employees of the school district shall have an opportunity to comment on the proposed agreement.
4. a. Within the thirty-day period prior to the signing of the agreement, the parent or guardian of an affected pupil may request the board of directors to send the pupil to another contiguous school district. The request shall be based upon one of the following:
   (1) That the agreement will not meet the educational program needs of the pupil.
   (2) That adequate consideration was not given to geographical factors.

b. The board shall allow or disallow the request prior to the signing of the agreement, or the request shall be deemed granted. If the board disallows the request, the board shall indicate the reasons why the request is disallowed and shall notify the parent or guardian that the decision of the board may be appealed as provided in this section.

c. If the board disallows the request of a parent or guardian of an affected pupil, the parent or guardian, not later than March 1, may appeal the sending of that pupil to the school district specified in the agreement, to the state board of education. The basis for the appeal shall be the same as the basis for the request to the board. An appeal shall specify a contiguous school district to which the parent or guardian wishes to send the affected pupil.

d. If the parent or guardian appeals, the standard of review of the appeal is a preponderance of evidence that the parent’s or guardian’s hardship outweighs the benefits and integrity of the sharing agreement. The state board may require the district of residence to pay tuition to the contiguous school district specified by the parent or guardian, or may deny the appeal by the parent or guardian. If the state board requires the district of residence to pay tuition to the contiguous school district specified by the parent or guardian, the tuition shall be equal to the tuition established in the sharing agreement. The decision of the state board is binding on the boards of directors of the school districts affected, except that the decision of the state board may be appealed by either party to the district court.

§282.12 Funding of whole grade sharing agreements.
1. An agreement for whole grade sharing shall establish a method for determination of costs, if any, associated with the sharing agreement.
2. For one-way sharing, the sending district shall pay no less than one-half of the district cost per pupil of the sending district.
3. For two-way sharing, the costs shall be determined by mutual agreement of the boards.
4. The number of pupils participating in a whole grade sharing agreement shall be determined on the date specified in section 257.6, subsection 1, and on the second Friday of January of each year.

§282.13 through §282.17 Reserved.

§282.18 Open enrollment.
1. a. It is the goal of the general assembly to permit a wide range of educational choices for children enrolled in schools in this state and to maximize ability to use those choices. It is therefore the intent that this section be construed broadly to maximize parental choice and access to educational opportunities which are not available to children because of where they live.

b. For the school year commencing July 1, 1989, and each succeeding school year, a parent or guardian residing in a school district may enroll the parent’s or guardian’s child in a public school in another school district in the manner provided in this section.
2. a. By March 1 of the preceding school year for students entering grades one through twelve, or by September 1 of the current school year for students entering kindergarten, the parent or guardian shall send notification to the district of residence and the receiving district, on forms prescribed by the department of education, that the parent or guardian intends to enroll the parent’s or guardian’s child in a public school in another school district. If a parent or guardian fails to file a notification that the parent intends to enroll the parent’s or guardian’s
child in a public school in another district by the deadline specified in this subsection, the procedures of subsection 4 apply.

b. The board of the receiving district shall enroll the pupil in a school in the receiving district for the following school year unless the receiving district has insufficient classroom space for the pupil. The board of directors of a receiving district may adopt a policy granting the superintendent of the school district authority to approve open enrollment applications. If the request is granted, the board shall transmit a copy of the form to the parent or guardian and the school district of residence within five days after board action, but not later than June 1 of the preceding school year. The parent or guardian may withdraw the request at any time prior to the start of the school year. A denial of a request by the board of a receiving district is not subject to appeal.

c. Every school district shall adopt a policy which defines the term “insufficient classroom space” for that district.

3. a. The superintendent of a district subject to a voluntary diversity or court-ordered desegregation plan, as recognized by rule of the state board of education, may deny a request for transfer under this section if the superintendent finds that enrollment or release of a pupil will adversely affect the district’s implementation of the desegregation order or diversity plan, unless the transfer is requested by a pupil whose sibling is already participating in open enrollment to another district, or unless the request for transfer is submitted to the district in a timely manner as required under subsection 2 prior to the adoption of a desegregation plan by the district. If a transfer request would facilitate a voluntary diversity or court-ordered desegregation plan, the district shall give priority to granting the request over other requests.

b. A parent or guardian, whose request has been denied because of a desegregation order or diversity plan, may appeal the decision of the superintendent to the board of the district in which the request was denied. The board may either uphold or overturn the superintendent's decision. A decision of the board to uphold the denial of the request is subject to appeal to the district court in the county in which the primary business office of the district is located. The state board of education shall adopt rules establishing definitions, guidelines, and a review process for school districts that adopt voluntary diversity plans. The guidelines shall include criteria and standards that school districts must follow when developing a voluntary diversity plan. The department of education shall provide technical assistance to a school district that is seeking to adopt a voluntary diversity plan. A school district implementing a voluntary diversity plan prior to July 1, 2008, shall have until July 1, 2009, to comply with guidelines adopted by the state board pursuant to this section.

c. The board of directors of a school district subject to voluntary diversity or court-ordered desegregation shall develop a policy for implementation of open enrollment in the district. The policy shall contain objective criteria for determining when a request would adversely impact the desegregation order or voluntary diversity plan and criteria for prioritizing requests that do not have an adverse impact on the order or plan.

4. a. After March 1 of the preceding school year and until the date specified in section 257.6, subsection 1, the parent or guardian shall send notification to the district of residence and the receiving district, on forms prescribed by the department of education, that good cause, as defined in paragraph “b”, exists for failure to meet the March 1 deadline. The board of directors of a receiving school district may adopt a policy granting the superintendent of the school district authority to approve open enrollment applications submitted after the March 1 deadline. The board of the receiving district shall take action to approve the request if good cause exists. If the request is granted, the board shall transmit a copy of the form to the parent or guardian and the school district of residence within five days after board action. A denial of a request by the board of a receiving district is not subject to appeal.

b. For purposes of this section, “good cause” means a change in a child’s residence due to a change in family residence, a change in the state in which the family residence is located, a change in a child’s parents’ marital status, a guardianship or custody proceeding, placement in foster care, adoption, participation in a foreign exchange program, or participation in a substance abuse or mental health treatment program, a change in the status of a child’s resident district such as removal of accreditation by the state board, surrender of accreditation, or permanent closure of a nonpublic school, revocation of a charter school
contract as provided in section 256E:8, the failure of negotiations for a whole grade sharing, reorganization, dissolution agreement or the rejection of a current whole grade sharing agreement, or reorganization plan. If the good cause relates to a change in status of a child’s school district of residence, however, action by a parent or guardian must be taken to file the notification within forty-five days of the last board action or within thirty days of the certification of the election, whichever is applicable to the circumstances.

c. If a resident district believes that a receiving district is violating this subsection, the resident district may, within fifteen days after board action by the receiving district, submit an appeal to the director of the department of education.

d. The director, or the director’s designee, shall attempt to mediate the dispute to reach approval by both boards as provided in subsection 15. If approval is not reached under mediation, the director or the director’s designee shall conduct a hearing and shall hear testimony from both boards. Within ten days following the hearing, the director shall render a decision upholding or reversing the decision by the board of the receiving district. Within five days of the director’s decision, the board may appeal the decision of the director to the state board of education under the procedures set forth in chapter 290.

5. Open enrollment applications filed after March 1 of the preceding school year that do not qualify for good cause as provided in subsection 4 shall be subject to the approval of the board of the resident district and the board of the receiving district. The parent or guardian shall send notification to the district of residence and the receiving district that the parent or guardian seeks to enroll the parent’s or guardian’s child in the receiving district. A decision of either board to deny an application filed under this subsection involving repeated acts of harassment of the student or serious health condition of the student that the resident district cannot adequately address is subject to appeal under section 290.1. The state board shall exercise broad discretion to achieve just and equitable results that are in the best interest of the affected child or children.

6. A request under this section is for a period of not less than one year. If the request is for more than one year and the parent or guardian desires to have the pupil enroll in a different district, the parent or guardian may petition the current receiving district by March 1 of the previous school year for permission to enroll the pupil in a different district for a period of not less than one year. Upon receipt of such a request, the current receiving district board may act on the request to transfer to the other school district at the next regularly scheduled board meeting after the receipt of the request. The new receiving district shall enroll the pupil in a school in the district unless there is insufficient classroom space in the district or unless enrollment of the pupil would adversely affect the court-ordered or voluntary desegregation plan of the district. A denial of a request to change district enrollment within the approved period is not subject to appeal. However, a pupil who has been in attendance in another district under this section may return to the district of residence and enroll at any time, once the parent or guardian has notified the district of residence and the receiving district in writing of the decision to enroll the pupil in the district of residence.

7. a. A pupil participating in open enrollment shall be counted, for state school foundation aid purposes, in the pupil’s district of residence. A pupil’s residence, for purposes of this section, means a residence under section 282.1.

b. (1) The board of directors of the district of residence shall pay to the receiving district the sum of the state cost per pupil for the previous school year plus either the teacher leadership supplement state cost per pupil for the previous fiscal year as provided in section 257.9 or the teacher leadership supplement foundation aid for the previous fiscal year as provided in section 284.13, subsection 1, paragraph “d”, if both the district of residence and the receiving district are receiving such supplements, plus any moneys received for the pupil as a result of the non-English speaking weighting under section 280.4, subsection 3, for the previous school year multiplied by the state cost per pupil for the previous year. If the pupil participating in open enrollment is also an eligible pupil under section 261E.6, the receiving district shall pay the tuition reimbursement amount to an eligible postsecondary institution as provided in section 261E.7.

(2) If a pupil participates in cocurricular or extracurricular activities in accordance with subsection 12, the district of residence may deduct up to two hundred dollars per activity,
for up to two activities, from the amount calculated in subparagraph (1). For a cocurricular activity, one semester shall equal one activity. Extracurricular activities for which such a resident district may charge up to two hundred dollars per activity for up to two activities under this subparagraph include interscholastic athletics, music, drama, and any other activity with a general fund expenditure exceeding five thousand dollars annually. A pupil may participate in additional extracurricular activities at the discretion of the resident district. The school district of residence may charge the pupil a fee for participation in such cocurricular or extracurricular activities equivalent to the fee charged to and paid in the same manner by other resident pupils.

8. If a request filed under this section is for a child requiring special education under chapter 256B, the request to transfer to the other district shall only be granted if the receiving district maintains a special education instructional program which is appropriate to meet the child’s educational needs and the enrollment of the child in the receiving district’s program would not cause the size of the class in that special education instructional program in the receiving district to exceed the maximum class size in rules adopted by the state board of education for that program. For children requiring special education, the board of directors of the district of residence shall pay to the receiving district the actual costs incurred in providing the appropriate special education.

9. a. If a parent or guardian of a child, who is participating in open enrollment under this section, moves to a different school district during the course of either district’s academic year, the child’s first district of residence shall be responsible for payment of the cost per pupil plus weightings or special education costs to the receiving school district for the balance of the school year in which the move took place. The new district of residence shall be responsible for the payments during succeeding years.

b. If a request to transfer is due to a change in family residence, change in the state in which the family residence is located, a change in a child’s parents’ marital status, a guardianship proceeding, placement in foster care, adoption, participation in a foreign exchange program, or participation in a substance abuse or mental health treatment program, and the child who is the subject of the request is enrolled in any grade from kindergarten through grade twelve at the time of the request and is not currently using any provision of open enrollment, the parent or guardian of the child shall have the option to have the child remain in the child’s original district of residence under open enrollment with no interruption in the child’s kindergarten through grade twelve educational program. If a parent or guardian exercises this option, the child’s new district of residence is not required to pay the amount calculated in subsection 7 until the start of the first full year of enrollment of the child.

c. The receiving district shall bill the first resident district according to the timeline in section 282.20, subsection 3. Payments shall be made to the receiving district in a timely manner.

d. If the transfer of a pupil from one district to another results in a transfer from one area education agency to another, the sending district shall forward a copy of the request to the sending district’s area education agency. The receiving district shall forward a copy of the request to the receiving district’s area education agency. Any moneys received by the area education agency of the sending district for the pupil who is the subject of the request shall be forwarded to the receiving district’s area education agency.

e. A district of residence may apply to the school budget review committee if a student was not included in the resident district’s enrollment count during the fall of the year preceding the student’s transfer under open enrollment.

10. a. Notwithstanding section 285.1 relating to transportation of nonresident pupils, the parent or guardian is responsible for transporting the pupil without reimbursement to and from a point on a regular school bus route of the receiving district. For purposes of this subsection, “a point on a regular school bus route of the receiving district” includes any school bus stop on the regular school bus route of the receiving district that existed prior to road construction that necessitates a change in the regular school bus route, whether or not the change in the regular school bus route resulting from the road construction necessitates
sending school vehicles from the receiving district into the district of residence in order to safely, economically, or efficiently transport students to or from the preexisting point.

b. A receiving district may send school vehicles into the district of residence of the pupil using the open enrollment option under this section, for the purpose of transporting the pupil to and from school in the receiving district, if the boards of both the sending and receiving districts agree to this arrangement.

c. If the pupil meets the economic eligibility requirements established by the department and state board of education, the sending district is responsible for providing transportation or paying the pro rata cost of the transportation to a parent or guardian for transporting the pupil to and from a point on a regular school bus route of a contiguous receiving district unless the cost of providing transportation or the pro rata cost of the transportation to a parent or guardian exceeds the average transportation cost per pupil transported for the previous school year in the district. If the cost exceeds the average transportation cost per pupil transported for the previous school year, the sending district shall only be responsible for that average per pupil amount. A sending district which provides transportation for a pupil to a contiguous receiving district under this subsection may withhold, from the district cost per pupil amount that is to be paid to the receiving district, an amount which represents the average or pro rata cost per pupil for transportation, whichever is less.

11. a. A pupil who participates in open enrollment for purposes of attending a grade in grades nine through twelve in a school district other than the district of residence is ineligible to participate in varsity interscholastic athletic contests and athletic competitions during the pupil’s first ninety school days of enrollment in the district. However, a pupil may participate immediately in a varsity interscholastic sport under any of the following circumstances:

(1) If the pupil is entering grade nine for the first time and did not participate in an interscholastic athletic competition for another school or school district during the summer immediately following eighth grade.

(2) If the district of residence and the other school district jointly participate in the sport.

(3) If the sport in which the pupil wishes to participate is not offered in the district of residence.

(4) If the pupil chooses to use open enrollment to attend school in another school district because the district in which the student previously attended school was dissolved and merged with one or more contiguous school districts under section 256.11, subsection 12.

(5) If the pupil participates in open enrollment because the pupil’s district of residence has entered into a whole grade sharing agreement with another district for the pupil’s grade.

(6) If the parent or guardian of the pupil participating in open enrollment is an active member of the armed forces and resides in permanent housing on government property provided by a branch of the armed services.

(7) If the district of residence determines that the pupil was previously subject to a founded incident of harassment or bullying as defined in section 280.28 while attending school in the district of residence.

b. A pupil who has paid tuition and attended school, or has attended school pursuant to a mutual agreement between the two districts, in a district other than the pupil’s district of residence for at least one school year is also eligible to participate immediately in interscholastic athletic contests and athletic competitions under this section, but only as a member of a team from the district that pupil had attended.

c. For purposes of this subsection, “school days of enrollment” does not include enrollment in summer school. For purposes of this subsection, “varsity” means the same as defined in section 256.46.

12. A pupil participating in open enrollment for purposes of receiving educational instruction and course content primarily over the internet in accordance with section 256.7, subsection 32, may participate in any cocurricular or extracurricular activities offered to children in the pupil’s grade or group and sponsored by the district of residence under the same conditions and requirements as the pupils enrolled in the district of residence. The pupil may participate in not more than two cocurricular or extracurricular activities during a school year unless the resident district approves the student’s participation in additional activities. The student shall comply with the eligibility, conduct, and other requirements
relating to the activity that are established by the district of residence for any student who applies to participate or who is participating in the activity.

13. If a pupil, for whom a request to transfer has been filed with a district, has been suspended or expelled in the district, the pupil shall not be permitted to transfer until the pupil has been reinstated in the sending district. Once the pupil has been reinstated, however, the pupil shall be permitted to transfer in the same manner as if the pupil had not been suspended or expelled by the sending district. If a pupil, for whom a request to transfer has been filed with a district, is expelled in the district, the pupil shall be permitted to transfer to a receiving district under this section if the pupil applies for and is reinstated in the sending district. However, if the pupil applies for reinstatement but is not reinstated in the sending district, the receiving district may deny the request to transfer. The decision of the receiving district is not subject to appeal.

14. If a request under this section is for transfer to a laboratory school, as described in chapter 265, the student, who is the subject of the request, shall not be included in the basic enrollment of the student’s district of residence, and the laboratory school shall report the enrollment of the student directly to the department of education, unless the number of students from the district attending the laboratory school during the current school year, as a result of open enrollment under this section, exceeds the number of students enrolled in the laboratory school from that district during the 1989-1990 school year. If the number of students enrolled in the laboratory school from a district during the current year exceeds the number of students enrolled from that district during the 1989-1990 school year, those students who represent the difference between the current and the 1988-1989 school year enrollment figures shall be included in the basic enrollment of the students’ districts of residence and the districts shall retain any moneys received as a result of the inclusion of the student in the district enrollment. The total number of students enrolled at a laboratory school during a school year shall not exceed six hundred seventy students. The regents institution operating the laboratory school and the board of directors of the school district in the community in which the regents institution is located shall develop a student transfer policy designed to protect and promote the quality and integrity of the teacher education program at the laboratory school, the viability of the education program of the local school district in which the regents institution is located, and to indicate the order in which and reasons why requests to transfer to a laboratory school shall be considered. A laboratory school may deny a request for transfer under the policy. A denial of a request to transfer under this subsection is not subject to appeal under section 290.1.

15. An application for open enrollment may be granted at any time with approval of the resident and receiving districts.

16. a. If a request under this section is for transfer to the research and development school, as described in chapter 256G, the student who is the subject of the request shall be included in the basic enrollment of the student’s district of residence and the board of directors of the district of residence shall pay to the research and development school the state cost per pupil for the previous school year, plus any moneys received for the pupil as a result of the non-English speaking weighting under section 280.4, subsection 3, for the previous school year multiplied by the state cost per pupil for the previous year.

b. Notwithstanding subsection 7, a district of residence shall not be required to pay the state cost per pupil for a student attending the research and development school during the school year beginning July 1, 2010, if the student was not included in the district of residence’s enrollment count for funding purposes in the school year beginning July 1, 2009.

17. a. The total enrollment of the research and development school shall be limited to six hundred fifty students.

b. Open enrollment requests accepted by the research and development school shall be limited to a five percent increase per year of students from each of the Cedar Falls community school district and the Waterloo school district over the previous year’s enrollment at the research and development school.

c. The total number of students enrolled in the research and development school from the Cedar Falls community school district shall be limited to not more than ten percent of the total district enrollment of the Cedar Falls community school district.
§282.18, SCHOOL ATTENDANCE AND TUITION III-564

d. Open enrollment requests accepted by the research and development school from a school district shall be limited to not more than two percent of a school district’s previous year’s total enrollment count. This subsection does not apply to the Cedar Falls community and Waterloo school districts.

18. The director of the department of education shall recommend rules to the state board of education for the orderly implementation of this section. The state board shall adopt rules as needed for the implementation of this section.

A child who is living in a licensed individual or agency child foster care facility, as defined in section 237.1, or in an unlicensed relative foster care placement, shall remain enrolled in and attend an accredited school in the school district in which the child resided and is enrolled at the time of placement, unless it is determined by the juvenile court or the public or private agency of this state that has responsibility for the child’s placement that remaining in such school is not in the best interests of the child. 2. The board of directors of each district of residence shall pay to the school district in which such psychiatric unit or institution is located, for the provision of educational services to the child, a portion of the tuition rate prescribed by section 282.24 for students residing within another school district for each of such children who does not require special education, based upon the proportion that the time each child is provided educational services while in such unit or institution is to the total time for which the child is provided educational services during a normal school year. Any amount paid by the department of administrative services shall be deducted monthly from the state foundation aid paid under section 257.16 to all school districts in the state during the subsequent fiscal year. The portion of the total amount of the approved budget that shall be deducted from the state aid of a school district shall be the same as the ratio that the budget enrollment for the budget year of the school district bears to the total budget enrollment in the state for that budget year in which the deduction is made.

b. (1) A child who lives in a facility or other placement pursuant to section 282.19, and who does not require special education and who is enrolled in the educational program of the district of residence at the time the child is placed, shall be included in the basic enrollment of the school district in which the child is enrolled. The amount of the claim shall be paid by the department of administrative services to the school district by October 1. The department of administrative services shall transfer the total amount of the approved claim of a school district from the moneys appropriated under section 257.16 and the amount paid shall be deducted monthly from the state foundation aid paid to all school districts in the state during the remainder of the subsequent fiscal year in the manner provided in paragraph “a”.

b. A child shall not be denied special education programs and services because of a dispute over the determination of district of residence of the child. The district shall submit a proposed program and budget to the department of education by January 1 for the next succeeding school year. The department of education shall review and approve or modify the program and proposed budget and shall notify the district by February 1. The district shall submit a claim by August 1 following the school year for the actual cost of the program. The department shall review and approve or modify the claim and shall notify the department of administrative services of the approved claim amount by September 1. The total amount of the approved claim shall be paid by the department of administrative services to the school district by October 1. The total amount paid by the department of administrative services shall be deducted
monthly from the state foundation aid paid under section 257.16 to all school districts in the state during the subsequent fiscal year. The portion of the total amount of the approved claims that shall be deducted from the state aid of a school district shall be the same as the ratio that the budget enrollment for the budget year of the school district bears to the total budget enrollment in the state for the budget year in which the deduction is made. 2. a. For the school budget year beginning July 1, 2010, and each succeeding school year, school districts and area education agencies shall combine payments made to teachers under sections 257.10 and 257.37A with regular wages to create a combined salary. The teacher contract issued under section 279.13 must include the combined salary. The combined salary schedule must use only the combined salary and cannot differentiate regular salaries and distribution of payments under sections 257.10 and 257.37A.

teacher salary supplement per pupil amount shall also be subject to the scope of negotiations specified in section 20.9.

c. If the licensed employees of a school district or area education agency are not organized for collective bargaining purposes, the board of directors shall create the new combined salary. The board of directors shall determine adjustments in salaries resulting from a reduction in the teacher salary supplement per pupil amount.

3. A school district or area education agency shall not be required to maintain a separate account within its budget based on source of funds for payments received and expenditures made pursuant to this section. The school district or area education agency shall annually certify to the department that funding received pursuant to sections 257.10 and 257.37A was expended on salaries for qualified teachers.

4. The teacher salary supplement district cost as calculated under section 257.10, subsection 9, and the area education agency teacher salary supplement district cost as calculated under section 257.37A, subsection 1, are not subject to a uniform reduction in accordance with section 8.31.

The committee shall do all of the following:

      (1) Monitor the implementation of the requirements of statutes and administrative code provisions relating to this chapter, including requirements that affect any agreement negotiated pursuant to chapter 20.

      (2) Monitor the evaluation requirements of this chapter to ensure evaluations are conducted in a fair and consistent manner throughout the school district or agency. The committee shall develop model evidence for the Iowa teaching standards and criteria. The model evidence will minimize paperwork and focus on teacher improvement. The model evidence will determine which standards and criteria can be met with observation and which evidence meets multiple standards and criteria.

      (3) Determine, following the adoption of the Iowa professional development model by the state board of education, the use and distribution of the professional development funds calculated and paid to the school district or agency as provided in section 257.9, subsection 10, or section 257.10, subsection 10, based upon school district or agency, attendance center, and individual teacher and professional development plans.

      (4) Monitor the professional development in each attendance center to ensure that the professional development meets school district or agency, attendance center, and individual professional development plans.

      (5) Determine the compensation for teachers on the committee for work responsibilities required beyond the normal work day.

A school district shall include its plan in the school district’s comprehensive school improvement plan submitted pursuant to section 256.7, subsection 21. The plan shall, at a minimum, provide for a two-year sequence of induction program content and activities to support the Iowa teaching standards and beginning teacher professional and personal needs; mentor training that includes, at a minimum, skills of classroom demonstration and coaching, and district expectations for beginning teacher competence on Iowa teaching standards; placement of mentors and beginning teachers; the process for dissolving mentor and beginning teacher partnerships; district organizational support for release time for mentors and beginning teachers to plan, provide demonstration of classroom practices, observe teaching, and provide feedback; structure for mentor selection and assignment of mentors to beginning teachers; a district facilitator; and program evaluation.

The school district or area education agency employing the teacher shall determine the conditions and requirements of a teacher participating in a program in accordance with this subsection. The school district or area education agency that employs the teacher shall recommend the teacher for an educational license if the teacher, through a comprehensive evaluation, is determined to demonstrate competence in the Iowa teaching standards.

8. For each year in which a school district receives funds calculated and paid to school districts for professional development pursuant to section 257.10, subsection 10, or section 257.37A, subsection 2, the school district shall create quality professional development opportunities. 9. Moneys received pursuant to section 257.10, subsection 10, or section 257.37A, subsection 2, shall be maintained as a separate listing within a school district’s or area education agency’s budget for funds received and expenditures made pursuant to this subsection. A school district shall certify to the department how the school district allocated the funds and that moneys received under this subsection were used to supplement, not supplant, the professional development opportunities the school district would otherwise make available. The peer group shall review all of the peer group members. Peer group reviews shall be formative and shall be conducted on an informal, collaborative basis that is focused on assisting each peer group member in achieving the goals of the teacher's individual professional development plan. Peer group reviews shall not be the basis for recommending that a teacher participate in an intensive assistance program, and shall not be used to determine the compensation, promotion, layoff, or termination of a teacher, or any other determination affecting a teacher's employment status. However, as a result of a peer group review, a teacher may elect to participate in an intensive assistance program. Members of the peer group shall be reviewed every third year by at least one evaluator certified in accordance with section 284.10.

284.10 Evaluator training program.

1. The department shall establish an evaluator training program to improve the skills of school district evaluators in making employment decisions, making recommendations for licensure, and moving teachers through a career path as established under this chapter. The department shall consult with persons representing teachers, national board-certified teachers, administrators, school boards, higher education institutions with approved practitioner and administrator preparation programs, and with persons from the private sector knowledgeable in employment evaluation and evaluator training in order to develop standards and requirements for the program. Upon successful completion, the provider shall certify that the administrator or other practitioner is qualified to conduct evaluations for employment, make recommendations for licensure, and make recommendations that a teacher is qualified to advance from one career path level to the next career path level pursuant to this chapter. Certification is for a period of five years and may be renewed.

3. A higher education institution approved by the state board to provide an administrator preparation program shall incorporate the evaluator training program into the program offered by the institution.

4. The board of educational examiners shall require certification as a condition of issuing or renewing an administrator’s license.

284.11 State supplemental assistance for high-need schools.

1. Findings and intent. The general assembly finds that students whose first language is not English, who have special needs, or who come from low-income backgrounds face potential obstacles to learning. Schools across Iowa, both urban and rural, have increasing numbers of students who face these challenges. Therefore, it is the intent of the general assembly to provide supplemental assistance to the highest-need schools in Iowa to address these challenges. This section provides for state assistance to allow school districts to develop extended learning time programs, hire instructional support staff, provide additional professional development, or supplement the salary of teachers in the identified schools.

2. Department’s responsibilities. The department shall do the following:

a. Collect relevant data and establish a list of high-need schools eligible for state supplemental assistance. The department shall establish a process and criteria to determine which schools are placed on the list and the department shall revise the list annually. Criteria for the determination of which high-need schools shall be placed on the list shall be based upon factors that include but are not limited to the socioeconomic status of the students enrolled in the school, the percentage of the school’s student body who are limited English proficient students, student academic growth, certified instructional staff attrition, and geographic balance. The department may approve or disapprove requests for revision of the list, which a school district submits pursuant to subsection 3.

b. Develop a standardized process for distributing moneys appropriated for supplemental assistance for high-need schools under section 284.13, subsection 1, paragraph “g”, to school districts. In determining the process for distribution of such moneys, the department shall take into consideration the amount of moneys appropriated for supplemental assistance in high-need schools for the given year and the minimal amount of moneys needed to increase the academic achievement of students. A school district receiving moneys pursuant to this section shall certify annually to the department how the moneys distributed to the school district pursuant to this section were used by the school district.

c. Review the use and effectiveness of the funds distributed to school districts for supplemental assistance in high-need schools under this section, and consider the findings and recommendations of the commission on educator leadership and compensation submitted pursuant to section 284.15, subsection 13, relating to the use and effectiveness of the funds distributed to school districts under this section. The department shall submit its findings and recommendations in a report to the general assembly by January 15 annually.
3. **School district request for approval.** A school district may request on an annual basis approval from the department for additions to the list of high-need schools the department maintains pursuant to subsection 2 based upon the unique local conditions and needs of the school district. The criteria used to determine the placement of high-need schools on the list in accordance with subsection 2 does not restrict the department from adding a high-need school to the list as requested by a school district on the basis of unique local conditions and needs pursuant to this subsection.

4. **Moneys received and miscellaneous income.** The distribution of moneys allocated pursuant to section 284.13, subsection 1, paragraph “g”, to a school district shall be made in one payment on or about October 15 of the fiscal year for which the appropriation is made, taking into consideration the relative budget and cash position of the state resources. Such moneys shall not be commingled with state aid payments made under section 257.16 to a school district and shall be accounted for by the local school district separately from state aid payments. Payments made to school districts under this section are miscellaneous income for purposes of chapter 257. A school district shall maintain a separate listing within its budget for payments received and expenditures made pursuant to this section.

5. **Moneys received to supplement salaries.** Moneys received by a school district pursuant to section 284.13, subsection 1, paragraph “g”, shall be used to supplement and not supplant the salary being received by a teacher in a high-need school, and shall not be considered under chapter 20 by an arbitrator or other third party in determining a comparison of the wages of teachers in that high-need school with the wages of teachers in other buildings or in another school district.

(2) (a) For the initial school year for which a school district receives department approval for and implements a framework or comparable system in accordance with section 284.15, teacher leadership supplement foundation aid payable to that school district shall be paid from the allocation made in subparagraph (1) for that school year. For that school year, the teacher leadership supplement foundation aid payable to the school district is the product of the teacher leadership district cost per pupil for the school year multiplied by the school district’s budget enrollment. The board of directors of the district of residence shall pay to the receiving district any moneys received for a pupil under subparagraph (1) if the pupil is participating in open enrollment under section 282.18 and both the district of residence and the receiving district are receiving an allocation under subparagraph (1).

(b) For budget years subsequent to the initial school year for which a school district implemented a system and received funding pursuant to subparagraph division (a), the teacher leadership supplement foundation aid payable to that school district shall be paid from the appropriation made in section 257.16.

(3) Of the moneys allocated to the department for the purposes of this paragraph “d”, for each fiscal year included in subparagraph (1), not more than six hundred twenty-six thousand one hundred ninety-one dollars shall be used by the department for the development of a delivery system, in collaboration with area education agencies, to assist in implementing the career paths and leadership roles considered pursuant to sections 284.15, 284.16, and 284.17, including but not limited to planning grants to school districts and area education agencies, technical assistance for the department, technical assistance for districts and area education agencies, training and staff development, and the contracting of external expertise and services. In using moneys allocated for purposes of this subparagraph (3), the department shall give priority to school districts with certified enrollments of fewer than six hundred students. A portion of the moneys allocated annually to the department for purposes of this subparagraph (3) may be used by the department for administrative purposes and for not more than five full-time equivalent positions.

1. Intent. The intent of this section is to create a process by which select Iowa school districts research, develop, and implement projects designed to identify promising practices related to enhanced teacher compensation career ladders and performance pay models.

2. Commission. A pay-for-performance commission is established to design and implement a pay-for-performance pilot project and provide a study relating to teacher and staff compensation containing a pay-for-performance component. The study shall measure the cost and effectiveness in raising student achievement of a compensation system that provides financial incentives based on student performance. The commission is part of the executive branch of government.

3. Development of program. The commission shall review pay-for-performance programs in both the public and private sectors.

a. Commencing with the school year beginning July 1, 2007, the commission shall initiate planning pilots, in selected kindergarten through grade twelve schools, to test the

c. Commencing with the school year beginning July 1, 2008, the commission shall administer two implementation pilots in the school districts selected for planning pilots under paragraph “b”.

4. Reports and final study. Based on the information generated by the planning and implementation pilots, the commission shall prepare an interim report by January 14, 2008, followed by interim progress reports annually, followed by a final study report analyzing the effectiveness of pay-for-performance in raising student achievement levels. The final study report shall be completed no later than six months after the completion of the planning and implementation pilots. The commission shall provide copies of the final study report to the department of education and to the general assembly.

the administrator to review progress in meeting the goals in the administrator’s individual
plan. The purpose of the meeting shall be to review collaborative work with other staff on
student achievement goals and to modify as necessary the administrator’s individual plan
to reflect the individual administrator’s and the school district’s needs and the individual’s
progress in meeting the goals in the plan. The administrator shall present to the evaluator
evidence of progress. The administrator’s supervisor and the evaluator shall review and the

individual professional development plan, including supporting documentation or artifacts
aligned to the Iowa standards for school administrators and the individual administrator’s
professional development plan.

284A.8 Beginning administrator mentoring and induction program — program funds.
1. To the extent moneys are available, a school district shall receive one thousand five
hundred dollars per beginning administrator participating in the program. Moneys received
by a school district pursuant to this section shall be expended to provide each mentor
with an award of five hundred dollars per semester, at a minimum, for participation in the
school district’s beginning administrator mentoring and induction program; to implement
the plan; and to pay any applicable costs of the employer’s share of contributions to federal
social security and the Iowa public employees’ retirement system or a pension and annuity
retirement system established under chapter 294, for such amounts paid by the district.

2. If the funds appropriated for the program are insufficient to pay mentors and school
districts as provided in this section, the department shall prorate the amount distributed to
school districts based upon the amount appropriated. A school district shall give priority to
fully funding the obligation to principal mentors. Remaining moneys, if any, shall first be
used to fund superintendent mentors and then to fund other program costs and applicable
costs described in subsection 1.

CHAPTER 285
STATE AID FOR TRANSPORTATION

Referred to in §256F.4, 261E.9, 274.3

285.1 When entitled to state aid.

1. a. The board of directors in every school district shall provide transportation, either directly or by reimbursement for transportation, for all resident pupils attending public school, kindergarten through twelfth grade, except that:

   (1) Elementary pupils shall be entitled to transportation only if they live more than two miles from the school designated for attendance.

   (2) High school pupils shall be entitled to transportation only if they live more than three miles from the school designated for attendance.

   (3) Children attending prekindergarten programs offered or sponsored by the district or nonpublic school and approved by the department of education or department of human services or children participating in preschool in an approved local program under chapter 256C may be provided transportation services. However, transportation services provided to nonpublic school children are not eligible for reimbursement under this chapter.

   (4) Districts are not required to maintain seating space on school buses for students who are otherwise to be provided transportation under this subsection if the students do not or will not regularly utilize the district’s transportation service for extended periods during the school year. The student, or the student’s parent or legal guardian if the student is less than eighteen years of age, shall be notified by the district before transportation services may be suspended, and the suspension may continue until the student, or the student’s parent or legal guardian, notifies the district that regular student ridership will continue.

   b. For the purposes of this subsection, “high school” means a school which commences with either grade nine or grade ten, as determined by the board of directors of the school district or by the governing authority of the nonpublic school in the case of nonpublic schools.

   c. Boards in their discretion may provide transportation for some or all resident pupils attending public school or pupils who attend nonpublic schools who are not entitled to transportation. Boards in their discretion may collect from the parent or guardian of the pupil not more than the pro rata cost for such optional transportation, determined as provided in subsection 12.

2. Any pupil may be required to meet a school bus on the approved route a distance of not to exceed three-fourths of a mile without reimbursement.

3. In a district where transportation by school bus is impracticable, where necessary to implement a whole grade sharing agreement under section 282.10, or where school bus service is not available, the board may require parents or guardians to furnish transportation for their children to the schools designated for attendance. Except as provided in section 285.3, the parent or guardian shall be reimbursed for such transportation service for public
Public and nonpublic school pupils by the board of the resident district in an amount equal to eighty dollars plus seventy-five percent of the difference between eighty dollars and the previous school year’s statewide average per pupil transportation cost, as determined by the department of education. However, a parent or guardian shall not receive reimbursement for furnishing transportation for more than three family members who attend elementary school and one family member who attends high school.

4. In all districts where unsatisfactory roads or other conditions make it advisable, the board at its discretion may require the parents or guardians of public and nonpublic school pupils to furnish transportation for their children up to two miles to connect with vehicles of transportation. The parents or guardians shall be reimbursed for such transportation by the boards of the resident districts at the rate of twenty-eight cents per mile per day, one way, per family for the distance from the pupil’s residence to the bus route.

5. Where transportation by school bus is impracticable or not available or other existing conditions warrant it, arrangements may be made for use of common carriers according to uniform standards established by the director of the department of education and at a cost based upon the actual cost of service and approved by the board.

6. When the school designated for attendance of pupils is engaged in the transportation of pupils, the sending or designating school shall use these facilities and pay the pro rata cost of transportation except that a district sending pupils to another school may make other arrangements when it can be shown that such arrangements will be more efficient and economical than to use facilities of the receiving school, providing such arrangements are approved by the board of the area education agency.

7. If a local board closes either elementary or high school facilities and is approved by the board of the area education agency to operate its own transportation equipment, the full cost of transportation shall be paid by the board for all pupils living beyond the statutory walking distance from the school designated for attendance.

8. Transportation service may be suspended upon any day or days, due to inclemency of the weather, conditions of roads, or the existence of other conditions, by the board of the school district operating the buses, when in their judgment it is deemed advisable and when the school or schools are closed to all children.

9. Distance to school or to a bus route shall in all cases be measured on the public highway only and over the most passable and safest route as determined by the area education agency board, starting in the roadway opposite the private entrance to the residence of the pupil and ending in the roadway opposite the entrance to the school grounds or designated point on bus route.

10. The board in any district providing transportation for nonresident pupils shall collect the pro rata cost of transportation from the district of pupil’s residence for all properly designated pupils so transported.

11. Boards in districts operating buses may transport nonresident pupils who attend public school, kindergarten through junior college, who are not entitled to free transportation provided they collect the pro rata cost of transportation from the parents.

12. The pro rata cost of transportation shall be based upon the actual cost for all the children transported in all school buses. It shall include one-seventh of the original net cost of the bus and other items as determined and approved by the director of the department of education but no part of the capital outlay cost for school buses and transportation equipment for which the school district is reimbursed from state funds or that portion of the cost of the operation of a school bus used in transporting pupils to and from extracurricular activities shall be included in determining the pro rata cost. In a district where, because of unusual conditions, the cost of transportation is in excess of the actual operating cost of the bus route used to furnish transportation to nonresident pupils, the board of the local district may charge a cost equal to the cost of other schools supplying such service to that area, upon receiving approval of the director of the department of education.

13. When a local board fails to pay transportation costs due to another school for transportation service rendered, the board of the creditor corporation shall file a sworn statement with the area education agency board specifying the amount due. The agency board shall check such claim and if the claim is valid shall certify to the county auditor.
The auditor shall transmit to the county treasurer an order directing the county treasurer to transfer the amount of such claim from the funds of the debtor corporation to the creditor corporation and the treasurer shall pay the same accordingly.

14. Resident pupils attending a nonpublic school located either within or without the school district of the pupil's residence shall be entitled to transportation on the same basis as provided for resident public school pupils under this section. The public school district providing transportation to a nonpublic school pupil shall determine the days on which bus service is provided, which shall be based upon the days for which bus service is provided to public school pupils, and the public school district shall determine bus schedules and routes. In the case of nonpublic school pupils the term "school designated for attendance" means the nonpublic school which is designated for attendance by the parents of the nonpublic school pupil.

15. If the nonpublic school designated for attendance is located within the public school district in which the pupil is a resident, the pupil shall be transported to the nonpublic school designated for attendance as provided in this section.

16. a. If the nonpublic school designated for attendance of a pupil is located outside the boundary line of the school district of the pupil's residence, the pupil may be transported by the district of residence to a public school or other location within the district of the pupil's residence. A public school district in which a nonpublic school is located may establish school bus collection locations within its district from which nonresident nonpublic school pupils may be transported to and from a nonpublic school located in the district. If a pupil receives such transportation, the district of the pupil's residence shall be relieved of any requirement to provide transportation.

b. As an alternative to paragraph "a" of this subsection, subject to section 285.9, subsection 3, where practicable, and at the option of the public school district in which a nonpublic school pupil resides, the school district may transport a nonpublic school pupil to a nonpublic school located outside the boundary lines of the public school district if the nonpublic school is located in a school district contiguous to the school district which is transporting the nonpublic school pupils, or may contract with the contiguous public school district in which a nonpublic school is located for the contiguous school district to transport the nonpublic school pupils to the nonpublic school of attendance within the boundary lines of the contiguous school district.

c. If the nonpublic school designated for attendance of a pupil is located outside the boundary line of the school district of the pupil's residence and the district of residence meets the requirements of subsections 14 to 16 of this section by using subsection 17, paragraph "c", of this section and the district in which the nonpublic school is located is contiguous to the district of the pupil's residence and is willing to provide transportation under subsection 17, paragraph "a" or "b", of this section, the district in which the nonpublic school is located may provide transportation services, subject to section 285.9, subsection 3, and may make the claim for reimbursement under section 285.2. The district in which the nonpublic school is located shall notify the district of the pupil's residence that it is making the claim for reimbursement, and the district of the pupil's residence shall be relieved of the requirement for providing transportation and shall not make a claim for reimbursement for those nonpublic school pupils for which a claim is filed by the district in which the nonpublic school is located.

17. The public school district may meet the requirements of subsections 14 to 16 by any of the following:

a. Transportation in a school bus operated by a public school district.

b. Contracting with private parties as provided in section 285.5. However, contracts shall not provide payment in excess of the average per pupil transportation costs of the school district for that year.

c. Utilizing the transportation reimbursement provision of subsection 3.

d. Contracting with a contiguous public school district to transport resident nonpublic school pupils the entire distance from the nonpublic pupil's residence to the nonpublic school located in the contiguous public school district or from the boundary line of the public school district to the nonpublic school.
18. The director of the department of education may review all transportation arrangements to see that they meet all legal and established uniform standard requirements.

19. Transportation authorized by this chapter is exempt from all laws of this state regulating common carriers.

20. Transportation for which the pro rata cost or other charge is collected shall not be provided outside the state of Iowa except in accordance with rules adopted by the department of education in accordance with chapter 17A. The rules shall take into account any applicable federal requirements.

21. Boards in districts operating buses may in their discretion transport senior citizens, children, persons with disabilities, and other persons and groups, who are not otherwise entitled to free transportation, and shall collect the pro rata cost of transportation. Transportation under this subsection shall not be provided when the school bus is being used to transport pupils to or from school unless the board determines that such transportation is desirable and will not interfere with or delay the transportation of pupils.

22. Notwithstanding subsection 1, paragraph “a”, subparagraph (1), a parent or guardian of an elementary pupil entitled to transportation pursuant to subsection 1, may request that a child care facility be designated for purposes of subsection 9 rather than the residence of the pupil. The request shall be submitted for a period of time of at least one semester and may not be submitted more than twice during a school year.

b. There is appropriated from the general fund of the state to the department of education funds sufficient to pay the approved claims of public school districts for transportation services to nonpublic school pupils as provided in this section. The portion of the amount appropriated for approved claims under section 285.1, subsection 3, shall be determined under section 285.3.

2. The costs of providing transportation to nonpublic school pupils as provided in section 285.1 shall not be included in the computation of district cost under chapter 257, but shall be shown in the budget as an expense from miscellaneous income. Any transportation reimbursements received by a local school district for transporting nonpublic school pupils shall not affect district cost limitations of chapter 257. The reimbursements provided in this section are miscellaneous income as defined in section 257.2.

3. a. Claims for reimbursement shall be made to the department of education by the public school district providing transportation or transportation reimbursement during a school year on a form prescribed by the department, and the claim shall state the services provided and the actual costs incurred. A claim shall not exceed the average transportation costs of the district per pupil transported except as otherwise provided. If transportation is provided under section 285.1, subsection 3, the amount of a claim shall be determined under section 285.3 regardless of the average transportation costs of the district per pupil transported.

b. Claims shall be accompanied by an affidavit of an officer of the public school district affirming the accuracy of the claim.

c. By February 1 and on or about June 15 of each year, the department shall certify to the
department of administrative services the amounts of approved claims to be paid, and the department of administrative services shall draw warrants payable to school districts which have established claims.

4. a. Claims shall be allowed where practical, and at the option of the public school district of the pupil’s residence, subject to approval by the area education agency of the pupil’s residence, under section 285.9, subsection 3, the public school district of the pupil’s residence may transport a pupil to a school located in a contiguous public school district outside the boundary lines of the public school district of the pupil’s residence.

b. The public school district of the pupil’s residence may contract with the contiguous public school district or with a private contractor under section 285.5 to transport the pupils to the school of attendance within the boundary lines of the contiguous public school district. The public school district in which the pupil resides may contract with the contiguous public school district or with a private contractor under section 285.5 to transport the pupil from the pupil’s residence or from designated school bus collection locations to the school located within the boundary lines of the contiguous public school district, subject to the approval of the area education agency of the pupil’s residence. The public school district of the pupil’s residence may utilize the reimbursement provisions of section 285.1, subsection 3.

285.3 Parental reimbursement for nonpublic school pupil transportation.
1. A parent or legal guardian of a student attending an accredited nonpublic school, who furnishes transportation for the student pursuant to section 285.1, subsection 17, paragraph “c”, and who meets the requirements of subsection 2 of this section, is entitled to reimbursement equal to an amount calculated under the provisions of section 285.1, subsection 3. In addition, a parent or guardian who transports one or more family members more than four miles to their nonpublic school of attendance shall be entitled to one supplemental mileage payment per family, per claim period, equal to thirteen percent of the parental reimbursement for the claim period rounded to the nearest whole dollar.

When a board closes its elementary school facilities for lack of pupils or by action of the board, it shall, if there is a school bus service available in the area, designate for attendance the school operating the buses, provided the board of such school is willing to receive them and the facilities and curricular offerings are adequate. The board of the district where the pupils reside may with the approval of the area education agency board, subject to legal limitations and established uniform standards, designate another rural school and provide their own transportation if the transportation costs will be less than to use the established bus service.

All designations must be submitted to the area education agency board on or before July
15, for review and approval. The agency board shall after due investigation alter or change
designations to make them conform to legal requirements and established uniform standards
for making designations and for locating and establishing bus routes. After designations are
made, they will remain the same from year to year except that on or before July 15, of each

compensation, and the vehicle to be used. The contract shall prescribe the duties of the
contractor and driver of the vehicles and shall provide that every person in charge of a vehicle

There shall be set aside from such retirement liquidation fund an amount sufficient to provide for the payment of all surviving beneficiaries who shall be entitled to receive benefits under such system as of said date of termination, providing an actuarial computation has been made of the amount required to meet such benefit payments, providing the amount in the retirement liquidation fund is sufficient for this purpose, and the amount set aside shall be used for no other purpose than for the payment of claims to such beneficiaries. Each surviving beneficiary entitled to receive retirement benefits of the date of termination of the system will be entitled to receive retirement benefits at the time and in the amount in effect with respect to such beneficiary immediately prior to the date of termination.

2. In any school district which has pursuant to section 294.11 terminated a previously existing pension and annuity retirement system and has after actuarial computation established a retirement reserve fund pursuant to this section in order to pay to surviving beneficiaries entitled to receive retirement benefits at the date of termination of said system in the amount in effect with respect to such beneficiaries immediately prior to the date of termination, the board of directors may authorize each and every payment to each surviving beneficiary falling due subsequent to June 30, 1971, to be increased by an amount to be determined by the board such increased payments to be paid from the retirement reserve fund according to an actuarial computation thereof plus such additional amounts transferred from the general fund as may be required. In order to provide the additional amounts required from the general fund for such increased payments, the board of directors may annually at the meeting at which it estimates the amount required for the general fund in accordance with section 298.1 estimate such additional amount as an actuarial computation shall show is necessary from the general fund for the payment of such increased benefits for the current school year; provided the amount estimated and certified to be transferred from the general fund to the retirement reserve fund shall not exceed one and four-tenths cents per thousand dollars of the assessed valuation of the taxable property of the school corporation. The board of supervisors shall in accordance with the provisions of section 298.8 levy the taxes necessary to raise the amount estimated by the board of directors as above provided and certified to the board of supervisors. Upon the death of the last beneficiary to survive, any balance remaining in said retirement reserve fund shall be transferred to the general fund of said school district.

3. Notwithstanding the provisions of this section, the plan provisions of a pension and annuity retirement system of a school district established under this chapter regarding the determination and distribution of benefits upon termination of the retirement system shall be effective if the school district has received a favorable determination letter from the federal internal revenue service as to the qualified status of such retirement system under applicable provisions of the Internal Revenue Code.

The school district may make elective deferrals in accordance with the plan as authorized by an eligible employee for the purpose of making contributions to the investment contract on behalf of the employee. The deferrals shall be made in the manner which will qualify contributions to the investment contract for the benefits under section 403(b) of the Internal Revenue Code, as defined in section 422.3. In addition, the school district may make nonselective employer contributions to the plan.

4. As used in this section, unless the context otherwise requires, “investment contract” shall mean a custodial account utilizing mutual funds or an annuity contract which meets the requirements of section 403(b) of the Internal Revenue Code, as defined in section 422.3.

Taxes for the payment of said bonds shall be levied in accordance with chapter 76, and said bonds shall mature within a period not exceeding twenty years from date of issue, shall bear interest at a rate or rates not exceeding that permitted by chapter 74A and shall be of such form as the board of directors of such school district shall by resolution provide, but the aggregate indebtedness of any school district shall not exceed five percent of the actual value of the taxable property within said school district, as ascertained by the last preceding state and county tax lists.

At the meeting, the board shall call the election, fixing the time of the election, which may be at the time and place of holding the regular school election. However, if the board determines by unanimous vote that the proposition or propositions
requested by a petition to be submitted at an election are grossly unrealistic or contrary to
the needs of the school district, no election shall be called. If more than one petition has
been received by the time the board meets to consider the petition triggering the meeting,
the board shall act upon the petitions in the order they were received at the meeting called
to consider the initial petition. The decision of the board may be appealed to the state board

296.7 Indebtedness for insurance authorized — tax levy.
1. a. A school district or community college corporation may contract indebtedness and
issue general obligation bonds or enter into insurance agreements obligating the school
district or corporation to make payments beyond its current budget year for one or more of
the following mechanisms to protect the school district or corporation from tort liability, loss
of property, environmental hazards, or any other risk associated with the operation of the
school district or corporation:
(1) To procure or provide for a policy of insurance.
(2) To provide a self-insurance program.
(3) To establish and maintain a local government risk pool.

b. However, this subsection does not apply to an insurance program described in
subsection 3.

2. For purposes of subsection 1, an employee benefit plan which includes a specific
or aggregate excess loss coverage or a program that self-insures only a per-employee or
per-family deductible for each year and which transfers the risk remaining beyond this
deductible is not a self-insurance program, but is instead an insurance program. As used in
this section, an “employee benefit plan” includes, but is not limited to benefits for hospital
and surgical, medical expense, major medical, dental, prescription drug, disability, or life
insurance costs or benefits.

3. A school district, providing an insurance program as described in subsection 2,
shall not contract indebtedness and issue general obligation bonds or enter into insurance
agreements obligating the school district to make payments beyond its current budget year
for that employee benefit plan. A school district may, however, apply to the school budget
review committee for relief if necessitated by the expenses in the school district’s insurance
program as described in subsection 2.
4. a. Taxes may be levied in excess of any limitation imposed by statute for payment of one or more of the following authorized by subsection 1:
   (1) Principal, premium, or interest on bonds.
   (2) Premium on an insurance policy, including a stop loss or reinsurance policy, except as limited by subsection 3.
   (3) Costs of a self-insurance program.
   (4) Costs of a local government risk pool.
   (5) Amounts payable under an insurance agreement.
   b. However, for a school district, a tax levied under this section shall be included in the district management levy under section 298.4.

5. A self-insurance program or local government risk pool authorized by subsection 1 is not insurance and is not subject to regulation under chapters 505 through 523C. However, those self-insurance plans regulated pursuant to section 509A.14 shall remain subject to the requirements of section 509A.14 and rules adopted pursuant to that section.

6. Notwithstanding the other provisions of this section or any other statute, the tax levy authorized by this section shall not be used to pay the costs of employee benefits, including, but not limited to costs for hospital and surgical, medical expense, major medical, dental, prescription drug, disability, or life insurance benefits.

7. If the board by resolution restricts the use of money in a fund as a reserve for uninsured liability or a self-insurance program, the use shall be restricted and unavailable for any other purpose until the board removes the restriction. The removal is not effective until all obligations of the restricted fund have been satisfied, or the next fiscal year, whichever occurs later.

The board of each school district may fix the site for each schoolhouse, which shall be upon some public highway already established or procured by such board and not in any public park, and except in cities and villages, not less than thirty rods from the residence of any landowner who objects thereto.
2. In fixing such site, the board shall take into consideration the number of scholars residing in the various portions of the school district and the geographical location and convenience of any proposed site.

297.2 Ten-acre limitation.
Except as hereinafter provided, any school district may take and hold so much real estate as may be required for such site, for the location or construction thereon of schoolhouses, and the convenient use thereof, but not to exceed ten acres exclusive of public highway.

297.3 Thirty-acre limitation.
Any school district, including a city or village, may take and hold an area equal to two blocks exclusive of the street or highway, for a schoolhouse site, and not exceeding thirty acres for school playground, stadium, or field house, or other purposes for each such site.

297.4 Vacancy notification.
The board of directors shall notify the cities located within the school district, the counties in which the school district may be located, and the department of administrative services annually of the facilities and buildings owned by the public school corporation which are vacant and available to be leased or purchased.

297.5 Reserved.

297.6 Condemnation.
If the owner of real estate desired for any purpose for which any school may be authorized to take and hold real estate refuses to convey the same, or is dead or unknown or cannot be found, or if in the judgment of the board of directors of the corporation they cannot agree with such owner as to the price to be paid therefor, such real estate may be taken under condemnation proceedings in accordance with the provisions of chapter 6B.
297.7 Construction, renovation, and repair of school buildings — review of plans — aviation programs.

1. Chapter 26 is applicable to the construction and repair of school buildings and other public improvements as defined in section 26.2.

2. Any other law to the contrary notwithstanding, the board of directors of a school district may acquire by purchase, lease, or other arrangement real estate located within or adjoining the boundaries of a municipal airport, and may take title, leasehold, or other interest, subject to a right of purchase or repurchase by the city owning or controlling the municipal airport. The city may purchase, repurchase, or repossess such real estate and the improvements constructed on the real estate upon terms and conditions as agreed to by the board of directors and the city council. The board of directors of any such school district may construct a career and technical education school on the real estate to carry on career and technical training or instruction in aviation mechanics and other aviation programs upon compliance with conditions and limitations otherwise provided by law.

SALE OR LEASE OF PROPERTY

297.22 Power to sell, lease, or dispose of property — tax.
1. a. The board of directors of a school district may sell, lease, or dispose of, in whole or in part, a schoolhouse, school site, or other property belonging to the district. If the real property contains less than two acres, is located outside of a city, is not adjacent to a city, and was previously used as a schoolhouse site, the procedure contained in sections 297.15 through 297.20 shall be followed in lieu of this section.
   b. Proceeds from the sale or disposition of real or other property shall be deposited into the fund which was used to account for the acquisition of the property. If the district is unable to determine which fund was used to account for the acquisition of the property or if the fund no longer exists in the district, the proceeds from the sale or disposition of real property shall be placed in the physical plant and equipment levy fund, and the proceeds from the sale or disposition of property other than real property shall be placed in the general fund. Proceeds from the lease of real or other property shall be placed in the general fund.
   c. Before the board of directors may sell, lease for a period in excess of one year, or dispose of any property belonging to the school, the board shall hold a public hearing on the proposal. The board shall set forth its proposal in a resolution and shall publish notice of the time and the place of the public hearing on the resolution. The notice shall also describe the property. A locally known address for real property may be substituted for a legal description of real property contained in the resolution. Notice of the time and place of the public hearing shall be published at least once not less than ten days but not more than twenty days prior to the date of the hearing in a newspaper of general circulation in the district. After the public hearing, the board may make a final determination on the proposal contained in the resolution.
   d. However, property having a value of not more than five thousand dollars, other than real property, may be sold or disposed of by any procedure which is adopted by the board. Each such sale shall be published by at least one insertion each week for two consecutive weeks in a newspaper having general circulation in the district and any other disposition shall be published by at least one insertion in a newspaper having general circulation in the district.
2. a. The board of directors of a school district may sell, lease, exchange, give, or grant,
and accept any interest in real property to, with, or from a county, municipal corporation, school district, township, or area education agency if the real property is within the jurisdiction of both the grantor and grantee.

b. The board of directors of a school district may lease a portion of an existing school building or lease a portion of existing school property. The lease may be renewed at the option of the board. The notice and public hearing requirements of subsection 1 of this section do not apply to the lease of a portion of an existing school building. A school district shall pay out of the revenue from a lease to the state of Iowa, and to the city, school district and any other political subdivision authorized to levy taxes, an amount as determined by this section. The amount shall be determined by applying the annual tax rate of the taxing district to the assessed value of the portion of the building leased, prorated for the term of the lease during the appropriate taxing period. The provisions of this section relating to the payment of property tax because of leases shall only apply to leases to private, for-profit entities which lease a portion of a school building for a period of thirty or more consecutive days, but shall not apply to property or equipment leased as part of a project designed to generate electricity for the school district.

3. The provisions in subsections 1 and 2 relating to the sale, lease, or disposition of school district property do not apply to student-constructed buildings and the property on which student-constructed buildings are located. The board of directors of a school district may sell, lease, or dispose of a student-constructed building and the property on which the student-constructed building is located, and may purchase sites for the erection of additional student-constructed structures, by any procedure which is adopted by the board. The proceeds from disposition of a student-constructed structure shall be placed in the school district’s student construction fund. Moneys remaining in the school district’s student construction fund after the board discontinues the student construction program shall first be used to reimburse the fund or funds from which the student construction program’s start-up costs were paid and any moneys remaining after such reimbursement shall be transferred by board resolution to the school district’s general fund.

LOAN AGREEMENTS

297.35 Continuation of loan agreement. Repealed by 2013 Acts, ch 88, §37.

297.36 Loan agreements.
1. a. In order to make immediately available proceeds of the voter-approved physical plant and equipment levy which has been approved by the voters as provided in section 298.2, the board of directors may, with or without notice, borrow money and enter into loan agreements in anticipation of the collection of the tax with a bank, investment banker, trust company, insurance company, or insurance group.
   b. By resolution, the board shall provide for an annual levy which is within the limits of the voter-approved physical plant and equipment levy to pay for the amount of the principal and interest due each year until maturity. The board shall file a certified copy of the resolution with the auditor of each county in which the district is located. The filing of the resolution with the auditor makes it the duty of the auditor to annually levy the amount certified for collection until funds are realized to repay the loan and interest on the loan in full.
   c. The loan must mature within the period of time authorized by the voters and shall bear interest at a rate which does not exceed the limits under chapter 74A. A loan agreement entered into pursuant to this section shall be in a form as the board of directors shall by resolution provide and the loan shall be payable as to both principal and interest from the proceeds of the annual levy of the voter-approved physical plant and equipment levy, or so much thereof as will be sufficient to pay the loan and interest on the loan.
   d. The proceeds of a loan must be deposited in the physical plant and equipment levy fund. Warrants paid from this fund must be for purposes authorized for the voter-approved physical plant and equipment levy.

2. This section does not limit the authority of the board of directors to levy the full amount of the voter-approved physical plant and equipment levy, but if and to whatever extent the tax is levied in any year in excess of the amount of principal and interest falling due in that year under a loan agreement, the first available proceeds, to an amount sufficient to meet maturing installments of principal and interest under the loan agreement, shall be paid into the debt service fund for the loan before the taxes are otherwise made available to the school corporation for other school purposes, and the amount required to be annually set aside to pay principal of and interest on the money borrowed under the loan agreement constitutes a first charge upon the proceeds of the voter-approved physical plant and equipment levy, which tax shall be pledged to pay the loan and the interest on the loan.

3. This section is supplemental and in addition to existing statutory authority to finance the purposes specified in section 298.2 for the physical plant and equipment levy, and for the borrowing of money and execution of loan agreements in connection with that section, and is not subject to any other law. The fact that a school corporation may have previously borrowed money and entered into loan agreements under authority of this section does not prevent the school corporation from borrowing additional money and entering into further loan agreements if the aggregate of the amount payable under all of the loan agreements does not exceed the proceeds of the voter-approved physical plant and equipment levy.

298.2 Imposition of physical plant and equipment levy.

1. a. A physical plant and equipment levy of not exceeding one dollar and sixty-seven cents per thousand dollars of assessed valuation in the district is established except as otherwise provided in this subsection. The physical plant and equipment levy consists of the regular physical plant and equipment levy of not exceeding thirty-three cents per thousand dollars of assessed valuation in the district and a voter-approved physical plant and equipment levy of not exceeding one dollar and thirty-four cents per thousand dollars of assessed valuation in the district. However, the voter-approved physical plant and equipment levy may consist of a combination of a physical plant and equipment property tax levy and a physical plant and equipment income surtax as provided in subsection 4 with the maximum amount levied and imposed limited to an amount that could be raised by a one dollar and thirty-four cent property tax levy.

b. For school budget years beginning on or after July 1, 2015, a school district may by resolution of the board of directors adopted prior to April 15 preceding the budget year impose a physical plant and equipment levy at a rate in excess of the levy rate limitations under paragraph “a” if the board has refunded or refinanced a loan agreement entered into under section 297.36 and such refunding or refinancing complies with the maturity period authorized under section 297.36, subsection 1, paragraph “c”, and results in a lower amount of interest on the amount of the loan agreement. However, the rate imposed by a school district under this paragraph shall not exceed the rate imposed during the budget year in which the loan agreement was refunded or refinanced. Authorization to exceed the levy rate limitations of paragraph “a” shall terminate upon the maturity of the loan agreement after refunding or refinancing. Upon adoption of the resolution under this paragraph “b”, the board shall comply with the requirements of section 297.36, subsection 1, paragraph “b”.

2. If the electors of a school district have authorized a voter-approved physical plant and equipment levy not exceeding sixty-seven cents per thousand dollars of assessed valuation
in the district prior to July 1, 1997, the levy shall continue for the period authorized under the voter-approved levy, and the maximum levy that can be authorized by the electors under the voter-approved levy on or after July 1, 1997, under this section, is an additional sixty-seven cents for a period to coincide with the period for which the initial physical plant and equipment levy in the district was approved.

3. The board of directors of a school district may certify for levy by April 15 of a school year a tax on all taxable property in the school district for the regular physical plant and equipment levy.

4. a. The board may on its own motion, and upon the written request of not less than one hundred eligible electors or thirty percent of the number of eligible electors voting at the last regular school election, whichever is greater, shall, direct the county commissioner of elections to provide for submitting the proposition of levying the voter-approved physical plant and equipment levy for a period of time authorized by the voters at the election, not to exceed ten years. The election shall be held on a date specified in section 39.2, subsection 4, paragraph "c". The proposition is adopted if a majority of those voting on the proposition at the election approves it. The voter-approved physical plant and equipment levy shall be funded either by a physical plant and equipment property tax or by a combination of a physical plant and equipment property tax and a physical plant and equipment income surtax, as determined by the board. However, if the board intends to enter into a rental or lease arrangement under section 279.26, or intends to enter into a loan agreement under section 297.36, only a property tax shall be levied for those purposes. Subject to the limitations of section 298.14, if the board uses a combination of a physical plant and equipment property tax and a physical plant and equipment surtax, for each fiscal year the board shall determine the percent of income surtax to be imposed expressed as full percentage points, not to exceed twenty percent.

b. If a combination of a property tax and income surtax is used, by April 15 of the previous school year, the board shall certify the percent of the income surtax to be imposed and the amount to be raised to the department of management and the department of management shall establish the rate of the property tax and income surtax for the school year. The physical plant and equipment property tax and income surtax shall be levied or imposed, collected, and paid to the school district in the manner provided for the instructional support program in sections 257.21 through 257.26.

5. a. The proposition to levy the voter-approved physical plant and equipment levy is not affected by a change in the boundaries of the school district, except as otherwise provided in this section. If each school district involved in a school reorganization under chapter 275 has adopted the voter-approved physical plant and equipment levy, and if the voters have not voted upon the proposition to levy the voter-approved physical plant and equipment levy in the reorganized district, the existing voter-approved physical plant and equipment levy is in effect for the reorganized district for the least amount and the shortest time for which it is in effect in any of the districts.

b. An authorized levy for the period of time approved is not affected as a result of a failure of a proposition proposed to expand the purposes for which the funds may be expended.

298.3 Revenues from the levies.

1. The revenue from the regular and voter-approved physical plant and equipment levies shall be placed in the physical plant and equipment levy fund and expended only for the following purposes:

a. The purchase and improvement of grounds. For the purpose of this paragraph:

(1) "Purchase of grounds" includes the legal costs relating to the property acquisition, costs of surveys of the property, costs of relocation assistance under state and federal law, and other costs incidental to the property acquisition.

(2) "Reconstructing" means rebuilding or restoring as an entity a thing which was lost or destroyed.

g. Expenditures for energy conservation, including payments made pursuant to a guarantee furnished by a school district entering into a financing agreement for energy management improvements, limited to agreements pursuant to section 473.19, 473.20, or 473.20A.

h. The rental of facilities under chapter 28E.

i. The purchase of transportation equipment for transporting students and the repair of such transportation equipment if the cost of the repair exceeds two thousand five hundred dollars. For the purposes of this paragraph, "repair" means restoring an existing item of equipment to its original condition, as near as may be, after gradual obsolescence or physical and functional depreciation due to wear and tear, corrosion and decay, or partial destruction, and includes maintenance of an item of equipment.

j. The purchase of buildings or lease-purchase option agreements for school buildings. However, a contract for construction by a private party of property to be lease-purchased by a public school corporation is a contract for a public improvement as defined in section 26.2. k. Equipment purchases for recreational purposes.

l. Payments to a municipality or other entity as required under section 403.19, subsection 2.

298.7 Contract for use of library — tax levy.
1. The board of directors of a school corporation in which there is no free public library may contract with a free public library for the free use of the library by the residents of the school district, and pay the library the amount agreed upon for the use of the library as provided by law. During the existence of the contract, the board shall certify annually a tax sufficient to pay the library the consideration agreed upon, not exceeding twenty cents per thousand dollars of assessed value of the taxable property of the district. During the existence of the contract, the school corporation is relieved from the requirement that the

2. However, if a school district which is qualified to contract for library services under
subsection 1 levies a tax not to exceed twenty cents per thousand dollars of assessed valuation
of the taxable property for school library purposes in the fiscal year before a reorganization
involving the district, the tax levy shall remain valid for succeeding fiscal years, and shall
be levied and collected against the taxable property of the former district which is part of
the reorganized district for school library purposes. The contract and the tax levy may be
discontinued by a petition signed by eligible electors residing in the former district. The
petition requesting the discontinuance must be signed by no fewer than one hundred eligible

former district, whichever is greater. The petition must be filed with the secretary of the

district to use the unexpended fund balance in lieu of levying property taxes and shall direct
the department of management to do one of the following:

3. For fiscal years beginning on or after July 1, 2012, the cash reserve levy for a budget year shall not exceed twenty percent of the general fund expenditures for the year previous to the base year minus the unexpended fund balance, as defined in section 257.2, for the year previous to the base year.

### 298.18 Bond tax — election — leasing buildings.

1. a. The board of each school corporation shall, when estimating and certifying the amount of money required for general purposes, estimate and certify to the board of supervisors of the proper county for the debt service fund the amount required to pay interest due or that may become due for the fiscal year beginning July 1, thereafter upon lawful bonded indebtedness, and in addition thereto such amount as the board may deem necessary to apply on the principal.

b. The amount estimated and certified to apply on principal and interest for any one year shall not exceed two dollars and seventy cents per thousand dollars of the assessed valuation of the taxable property of the school corporation except as otherwise provided in this section.

c. For the sole purpose of computing the amount of bonds which may be issued as a result of the application of any limitation referred to in this section, all interest on the bonds in excess of that accruing in the first twelve months may be excluded from the first annual levy of taxes, so that the need for including more than one year’s interest in the first annual levy of taxes to pay the bonds and interest shall not operate to further restrict the amount of bonds which may be issued, and in certifying the annual levies to the county auditor or auditors such first annual levy of taxes shall be sufficient to pay all principal of and interest on said bonds becoming due prior to the next succeeding annual levy and the full amount of such first annual levy shall be entered for collection by said auditor or auditors, as provided in chapter 76.

d. The amount estimated and certified to apply on principal and interest for any one year may exceed two dollars and seventy cents per thousand dollars of assessed value by the amount approved by the voters of the school corporation, but not exceeding four dollars and five cents per thousand dollars of the assessed value of the taxable property within any school corporation, provided that the registered voters of such school corporation have first approved such increased amount at an election held on a date specified in section 39.2, subsection 4, paragraph “c”.

2. The proposition submitted to the voters at such election shall be in substantially the following form:

Shall the board of directors of the .................... (insert name of school corporation) in the County of ...................., State of Iowa, be authorized to levy annually a tax exceeding two dollars and
seventy cents per thousand dollars, but not exceeding ....... dollars and ........... cents per thousand dollars of the assessed value of the taxable property within said school corporation to pay the principal of and interest on bonded indebtedness of said school corporation, it being understood that the approval of this proposition shall not limit the source of payment of the bonds and interest but shall only operate to restrict the amount of bonds which may be issued?

3. Notice of the election shall be given by the county commissioner of elections according to section 49.53. The county commissioner of elections shall conduct the election pursuant to the provisions of chapters 39 through 53 and certify the results to the board of directors. The proposition shall not be deemed carried or adopted unless the vote in favor of such proposition is equal to at least sixty percent of the total vote cast for and against the proposition at the election. Whenever such a proposition has been approved by the voters of a school corporation as hereinbefore provided, no further approval of the voters of such school corporation shall be required as a result of any subsequent change in the boundaries of such school corporation.

4. The voted tax levy referred to in this section shall not limit the source of payment of bonds and interest but shall only restrict the amount of bonds which may be issued.

5. a. The ability of a school corporation to exceed two dollars and seventy cents per thousand dollars of assessed value to service principal and interest payments on bonded indebtedness is limited and conferred only to those school corporations engaged in the administration of elementary and secondary education.

   b. If a school corporation leases a building or property, which has been used as a junior college by such corporation, to a community college, the annual amounts certified as herein provided by such leasing school corporation for payment of interest and principal due on lawful bonded indebtedness incurred by such leasing school corporation for purchasing, building, furnishing, reconstructing, repairing, improving, or remodeling the building leased or acquiring or adding to the site of such property leased, to the extent of the respective annual rent the school corporation will receive under such lease, shall not be considered as a part of the total amount estimated and certified for the purposes of determining if such amount exceeds any limitation contained in this section.

298.18A Levy adjustment.

If, in the opinion of the board of a school corporation, after having originally estimated and certified the amount required to pay interest and principal due upon bonded indebtedness incurred before July 1, 1995, an adjustment in the amount certified in excess of that previously levied by the resolution authorizing issuance of the bonds becomes necessary in anticipation of future projected revenue shortfalls resulting from a machinery and equipment-related taxable valuation decrease from the valuation as of January 1, 1994, an adjustment shall be permitted subject to the following limitations:

1. An adjustment shall be permitted only in a district in which machinery and equipment valuation exceeds twenty percent of total taxable valuation as of January 1, 1994.

2. The adjustment shall not result in a total amount levied in excess of the two dollar and seventy cent per thousand dollars of assessed valuation limit provided in section 298.18. An adjustment in excess of the two dollar and seventy cent per thousand dollars of assessed valuation limit shall be subject to the election provisions for increases of up to four dollars and five cents per thousand dollars of assessed valuation provisions of section 298.18.

b. One hundred twenty-five percent of the amount originally estimated and certified.
c. One hundred ten percent of the total district levies for the fiscal year preceding the
district levies for the fiscal year in which the adjustment is to be added.

4. The amount of the adjustment plus the amount of state replacement moneys received
under section 427B.19A which is attributable to the amount of the adjustment, when added to
the amount originally estimated and certified, shall not result in the levying of an amount over
the life of the issue in excess of the amount necessary for principal and interest repayment.

5. Amounts collected pursuant to this section shall be deposited in a separate debt service
account distinct from the account established to hold principal and interest revenues resulting
from the original levy.

6. An adjustment shall not be permitted which results in extending a levy beyond the
earlier of the following:

a. Ten years from the original date of certification of the amount required to pay interest
and principal.

299.5A Mediation.
1. If a child is truant as defined in section 299.8, school officers shall attempt to find the cause for the child’s absence and use every means available to the school to assure that the child does attend. For a child who has completed educational requirements through the sixth grade, the means may include but are not limited to the use of an attendance cooperation process which substantially conforms with the provisions of section 299.12. If the parent, guardian, or legal or actual custodian, or child refuses to accept the school’s attempt to assure the child’s attendance or the school’s attempt to assure the child’s attendance is otherwise unsuccessful, the truancy officer shall refer the matter to the county attorney for mediation or prosecution.

2. If the matter is referred for mediation, the county attorney shall cause a notice of the referral to be sent to the parent, guardian, or legal or actual custodian and designate a person to serve as mediator in the matter. If mediation services are available in the community,
those services may be used as the designated mediation service. If mediation services are
not available in the community, mediation shall be provided by the county attorney or the
county attorney’s designee. The mediator shall contact the school, the parent, guardian,
or legal or actual custodian, and any other person the mediator deems appropriate in the
matter and arrange meeting dates and times for discussion of the child’s nonattendance.
The mediator shall attempt to ascertain the cause of the child’s nonattendance, attempt to
cause the parties to arrive at an agreement relative to the child’s attendance, and initiate
referrals to any agencies or counseling that the mediator believes to be appropriate under
the circumstances.

3. If the parties reach an agreement, the agreement shall be reduced to writing and signed
by a school officer, parent, guardian, or legal or actual custodian, and the child. The mediator,
the school, and the parent, guardian, or legal or actual custodian shall each receive a copy
of the agreement, which shall set forth the settlement of the issues and future responsibilities
of each party.

4. The school district shall be responsible for monitoring any agreements arrived at
through mediation. If a parent, guardian, or legal or actual custodian refuses to engage in
mediation or violates a term of the agreement, the matter shall be rereferred to the county
attorney for prosecution under section 299.6. The county attorney’s office or the mediation
service shall require the parent, guardian, or legal or actual custodian and the school to pay
a fee to help defray the administrative cost of mediation services. The county attorney’s
office or the mediation service shall establish a sliding scale of fees to be charged parents,
guardians, and legal or actual custodians based upon ability to pay. A parent, guardian, or
legal or actual custodian shall not be denied the services of a mediator solely because of
inability to pay the fee.

5. The mediator may refer a truant to the juvenile court if mediation breaks down without
an agreement being reached.

III-648

299.6 Violations — community service or fine or imprisonment.

for prosecution under section 299.5A and is convicted of a violation of any of the provisions
of sections 299.1 through 299.5, who violates any of the provisions of sections 299.1 through
299.5, or who refuses to participate in mediation under section 299.5A, commits a public
offense.

a. A first offense is a simple misdemeanor and a conviction is punishable by imprisonment
not exceeding ten days or a fine not exceeding one hundred dollars. The court may order the
person to perform not more than forty hours of unpaid community service instead of any fine
or imprisonment.

b. A second offense is a serious misdemeanor and a conviction is punishable by imprisonment
not exceeding twenty days or a fine not exceeding five hundred dollars, or
both a fine and imprisonment. The court may order the person to perform unpaid community
service instead of any fine or imprisonment.

c. A third or subsequent offense is a serious misdemeanor and a conviction is punishable
by imprisonment not exceeding thirty days or a fine not exceeding one thousand dollars, or
both a fine and imprisonment. The court may order the person to perform unpaid community
service instead of any fine or imprisonment.

2. If community service is imposed as part of a sentencing order, the court may require
that part or all of the service be performed for a public school district or nonpublic school if
the court finds that service in the school is appropriate under the circumstances.

3. If a parent, guardian, or legal or actual custodian of a child who is truant, has made
reasonable efforts to comply with the provisions of sections 299.1 through 299.5, but is
unable to cause the child to attend school, the parent, guardian, or legal or actual custodian
may file an affidavit listing the reasonable efforts made by the parent, guardian, or legal or
actual custodian to cause the child’s attendance and the parent, guardian, or legal or actual custodian shall not be criminally liable for the child’s nonattendance.

299.6A Civil penalty — distribution of funds.
1. In lieu of a criminal proceeding under section 299.6, a county attorney may bring a civil action against a parent, guardian, or legal or actual custodian of a child who is of compulsory attendance age, has not completed educational requirements, and is truant, if the parent, guardian, or legal or actual custodian has failed to cause the child to attend a public school or an accredited nonpublic school, or to place the child under competent private instruction or independent private instruction in the manner provided in this chapter. If the court finds that the parent, guardian, or legal or actual custodian has failed to cause the child to attend as required in this section, the court shall assess a civil penalty of not less than one hundred but not more than one thousand dollars for each violation established.

2. Funds received from civil penalties assessed pursuant to this section shall be paid to the school district of residence or school district of enrollment, if open enrolled, of the person against whom the court assessed the penalty. The school district shall use moneys received under this subsection to support programs for students who meet the definition of at-risk children adopted by the department of education.

299.7 Custody of records.
All such certificates, reports, and proofs shall be filed and preserved in the office of the secretary of the school corporation as a part of the records of the office, and the secretary shall furnish certified copies thereof to any person requesting the same.

299.8 “Truant” defined.
Any child of compulsory attendance age who fails to attend school as provided in this chapter, or as required by the school board’s or school governing body’s attendance policy, or who fails to attend competent private instruction or independent private instruction under chapter 299A, without reasonable excuse for the absence, shall be deemed to be a truant. A finding that a child is truant, however, shall not by itself mean that the child is a child in need of assistance within the meaning of chapter 232 and shall not be the sole basis for a child in need of assistance petition.

The board may appoint a member of the police force, marshal, teacher, school official, or other suitable person to serve as the district truancy officer.

[S13, §2823-e; C24, 27, 31, 35, 39, §4419; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §299.10]

§299.11 Duties of truancy officer.
1. The truancy officer may take into custody without warrant any apparently truant child and place the child in the charge of the school principal, or the principal’s designee, designated by the board of directors of the school district in which the child resides, or in the charge of any nonpublic school or any authority providing competent private instruction or independent private instruction as defined in section 299A.1, designated by the parent, guardian, or legal or actual custodian; but if it is other than a public school, the instruction and maintenance of the child shall be without expense to the school district. If a child is taken into custody under this section, the truancy officer shall make every reasonable attempt to immediately notify the parent, guardian, or legal or actual custodian of the child’s location.
2. The truancy officer shall promptly institute proceedings against any person violating any of the provisions of sections 299.1 through 299.5A.

§299.12 Violation of attendance policy — attendance cooperation meeting — agreement.
1. For the purposes of this section, “school truancy officer” means a truancy officer appointed under section 299.10 or any other person designated by a public school board or a governing body of an accredited nonpublic school to administer provisions of this section.
2. This section is not applicable to a child who is receiving competent private instruction or independent private instruction in accordance with the requirements of chapter 299A. If a child is not in compliance with the attendance requirements established under section 299.1, and has not completed educational requirements through the sixth grade, and the school has used every means available to assure the child does attend, the school truancy officer shall contact the child’s parent, guardian, or legal or actual custodian to participate in an attendance cooperation meeting. The parties to the attendance cooperation meeting may include the child and shall include the child’s parent, guardian, or legal or actual custodian and the school truancy officer. The school truancy officer contacting the participants in the attendance cooperation meeting may invite other school officials, a designee of the juvenile court, the county attorney or the county attorney’s designee, or other persons deemed appropriate to participate in the attendance cooperation meeting.
3. The purpose of the attendance cooperation meeting is for the parties participating in the meeting to attempt to ascertain the cause of the child’s nonattendance, to cause the parties to arrive at an agreement relative to addressing the child’s attendance, and to initiate referrals to any services or counseling that the parties believe to be appropriate under the circumstances. The terms agreed to shall be reduced to writing in an attendance cooperation agreement and signed by the parties to the agreement. Each party signing the agreement shall receive a copy of the agreement, which shall set forth the cause identified for the child’s nonattendance and future responsibilities of each party.
4. If the parties to an attendance cooperation meeting determine that a monitor would improve compliance with the attendance cooperation agreement, the parties may designate a person to monitor the agreement. The monitor shall be a designee of the public school board or governing body of the accredited nonpublic school. The monitor may be a volunteer if the volunteer is approved by all parties to the agreement and receives a written authorization for access to confidential information and for performing monitor activities from the child’s parent, guardian, or custodian. A monitor shall contact parties to the attendance cooperation agreement on a periodic basis as appropriate to monitor performance of the agreement.
5. If the parties fail to enter into an attendance cooperation agreement, or the child's parent, guardian, or custodian acting as a party violates a term of the attendance cooperation agreement or fails to participate in an attendance cooperation meeting, the child shall be deemed to be truant.

6. A public school board or governing body of an accredited nonpublic school shall exercise the authority granted under this section as a means of increasing and ensuring school attendance of young children, as education is a critical element in the success of individuals and good attendance habits should be developed and reinforced at an early age.

Unless a prohibited dissemination or redissemination of information is subject to injunction or sanction under other state or federal law, an action for judicial enforcement may be brought in accordance with this section. An aggrieved person, the attorney general, or a county attorney may seek judicial enforcement of the requirements of this section in an action brought against the public school or accredited nonpublic school or any other person who has been granted access to information pursuant to section 299.5A or 299.12. Suits to enforce this section shall be brought in the district court for the county in which the information was disseminated or redisseminated. Upon a finding by a preponderance of the evidence that a person has violated this section, the court shall issue an injunction punishable by civil contempt ordering the person in violation of this section to comply with the requirements of, and to refrain from any violations of section 299.5A or 299.12 with respect to the dissemination or redissemination of information shared with the person pursuant to section 299.5A or 299.12.

299.15 Reports by school officers and employees.

All school officers and employees shall promptly report to the secretary of the school corporation any violations of the truancy law of which they have knowledge, and the secretary shall inform the president of the board of directors who shall, if necessary, call a meeting of the board to take such action thereon as the facts justify.

299A.1 **Competent private instruction and independent private instruction.**

1. The parent, guardian, or legal custodian of a child of compulsory attendance age who places the child under private instruction shall provide, unless otherwise exempted, competent private instruction or independent private instruction in accordance with this chapter. A parent, guardian, or legal custodian of a child of compulsory attendance age who places the child under private instruction which is not competent private instruction or independent private instruction, or otherwise fails to comply with the requirements of this chapter, is subject to the provisions of sections 299.1 through 299.4 and the penalties provided in section 299.6.

2. For purposes of this chapter and chapter 299:
   a. “Competent private instruction” means private instruction provided on a daily basis for at least one hundred forty-eight days during a school year; to be met by attendance for at least thirty-seven days each school quarter; by or under the supervision of a licensed practitioner in the manner provided under section 299A.2, which results in the student making adequate progress.
   b. “Independent private instruction” means instruction that meets the following criteria:
      1. Is not accredited.
      2. Enrolls not more than four unrelated students.
      3. Does not charge tuition, fees, or other remuneration for instruction.
      4. Provides private or religious-based instruction as its primary purpose.
      5. Provides enrolled students with instruction in mathematics, reading and language arts, science, and social studies.

   1. Each child of compulsory attendance age who is receiving competent private instruction shall either be evaluated annually by May 1, using a nationally recognized standardized achievement evaluation or other assessment tool developed or recognized by the department of education and chosen by the child’s parent, guardian, or legal custodian from a list of approved evaluations or assessment tools provided by the department of education or be evaluated annually in the manner provided in subsection 7. The department shall provide information on the cost of and the administration time required for each of the approved evaluations. The department shall provide, as part of approval procedures
for evaluations to be used under this section, a mechanism which permits the introduction and approval of new or alternate methods of educational assessment which meet the requirements of this chapter.

2. A child, who is seven years of age and is receiving competent private instruction or who is placed under competent private instruction for the first time, shall be administered an evaluation for purposes of obtaining educational baseline data.

3. The director of the department of education, or the director’s designee, which may include a school district or an area education agency, shall conduct the evaluations required under subsections 1 and 2 for children under competent private instruction. Evaluation shall occur at a time and a place to be determined by the person responsible for conducting the evaluation. Persons conducting the evaluations shall make every reasonable effort to conduct the evaluations at times and places which are convenient for the parent, guardian, or legal custodian.

4. The parent, guardian, or legal custodian of a child receiving competent private instruction may be present when the child is evaluated, but only if both the parent, guardian, or legal custodian and the child are under the supervision of the evaluation administrator.

5. The conducting of evaluations shall include, but is not limited to, purchasing of evaluation materials, giving the evaluations, scoring and interpreting the evaluations, and reporting the evaluation results.

6. A school district or area education agency shall, if requested, administer the annual achievement evaluation at no cost to the parent, guardian, or legal custodian of the child being evaluated, and, in addition, the parent, guardian, or legal custodian is not required to reimburse the evaluating entity for costs incurred as a result of evaluation under section 299A.9. The administration of the annual achievement evaluation shall not constitute a dual enrollment purpose under section 299A.8.

7. a. In lieu of annual achievement evaluations, a parent, guardian, or legal custodian of a child may submit, as evidence of adequate academic progress, all of the following:

(2) A portfolio of the child’s work, including but not limited to, an outline of the curriculum used by the child, copies of homework completed in conjunction with the curriculum and instruction, and copies of evaluations completed by the child which have been produced by the parent, guardian, or legal custodian.

(3) Completed assessment evaluations, other than the annual achievement evaluation, if assessment evaluations are administered to a pupil as part of the competent private instruction by the parent, guardian, or legal custodian.

b. If a parent, guardian, or legal custodian submits evidence under this section, the information shall be reviewed by a qualified, licensed, Iowa practitioner selected as the evaluator by the parent, guardian, or legal custodian and approved by the superintendent of the local school district or the superintendent’s designee. The evaluator shall prepare a report based on a review of the child’s work submitted, which shall include an assessment of the child’s achievement or academic progress levels, and submit a copy of the report to the child’s parent, guardian, or legal custodian, the school district of residence of the child, and the department of education. If the evidence demonstrates, in the evaluator’s opinion, that the child is achieving adequate progress, the report shall create a presumption that the child is making adequate progress.

299A.5 Reporting of evaluation results.

The results of evaluations administered to children of compulsory attendance age who are under competent private instruction shall be reported by the evaluation administrator to the child’s parent, guardian, or legal custodian, the school district of residence of the child, and the department of education. Personally identifiable information relating to or contained in
the evaluation scores is confidential and shall not be released without the prior consent of the child’s parent, guardian, or custodian except as otherwise permitted by law.

299A.6 Failure to make adequate progress.
1. If the results of evaluations, administered to a child of compulsory attendance age who is under competent private instruction, indicate that the student has failed to make adequate progress, the parent, guardian, or legal custodian shall cause the child to attend an accredited public or nonpublic school at the beginning of the next school year unless, before the beginning of the next school year, the child retakes a different form of the same evaluation, or another evaluation from the approved list of tests or assessment tools recognized by the department of education, and the results indicate that adequate progress has been made, the child has demonstrated adequate performance in the opinion of an evaluator and documented in a report under section 299A.4, subsection 7, or the director of the department of education, or the director’s designee, grants approval for competent private instruction to continue under a plan for remediation.

2. A child who is required to attend an accredited public or nonpublic school under this section shall continue enrollment at an accredited public or nonpublic school until the child achieves adequate progress.

3. For purposes of this chapter, “adequate progress” means, for children in all grade levels of competent private instruction, evaluation scores which are above the thirtieth percentile, nationally normed, in each of the areas of reading, mathematics, and language arts, and which indicate either that the child has made six months’ progress from the previous evaluation results or that the child is at or above grade level for the child’s age. For children in grade levels six and above, “adequate progress” also means that the child has achieved evaluation scores in both science and social studies which are above the thirtieth percentile, nationally normed, and which either indicate that the child has made six months’ progress from the previous evaluation results or that the child is at or above grade level for the child’s age.

The director, or the director’s designee, may provisionally approve continued competent private instruction under an approved remediation plan designed to improve instruction for up to one year.

If the child is enrolled in a public school district for dual enrollment purposes, the child shall be permitted to participate in any academic activities in the district and shall also be permitted to participate on the same basis as public school children in any extracurricular activities available to children in the child’s grade or group. Dual enrollment of a child solely for purposes of accessing the annual achievement evaluation shall not constitute a dual enrollment purpose.

2. If the child is enrolled for dual enrollment purposes, the child shall be included in the public school’s basic enrollment under section 257.6. A pupil who is participating only in extracurricular activities shall be counted under section 257.6, subsection 1, paragraph “a,” subparagraph (6). 2. A child who has been placed under competent private instruction, whose performance indicates that the child may require special education, shall be referred for evaluation under chapter 256B and the rules of the state board of education. Evaluation shall occur at a time and a place to be determined by the person responsible for conducting the evaluation. Persons conducting the evaluations shall make every reasonable effort to conduct the evaluations at times and places which are convenient for the parent, guardian, or legal custodian.

DISTRICT UNIFORMITY

301.1 Adoption — purchase and sale — accredited nonpublic school pupil textbook services.

1. The board of directors of each and every school district is hereby authorized and empowered to adopt textbooks for the teaching of all branches that are now or may hereafter be authorized to be taught in the public schools of the state, and to contract for and buy said books and any and all other necessary school supplies at said contract prices, and to sell the same to the pupils of their respective districts at cost, loan such textbooks to such pupils free, or rent them to such pupils at such reasonable fee as the board shall fix, and said money so received shall be returned to the general fund.

2. Textbooks adopted and purchased by a school district shall, to the extent funds are appropriated by the general assembly, be made available to pupils attending accredited nonpublic schools upon request of the pupil or the pupil’s parent under comparable terms as made available to pupils attending public schools. If the general assembly appropriates moneys for purposes of making textbooks available to accredited nonpublic school pupils, the department of education shall ascertain the amount available to a school district for the purchase of nonsectarian, nonreligious textbooks for pupils attending accredited nonpublic schools. The amount shall be in the proportion that the basic enrollment of a participating accredited nonpublic school bears to the sum of the basic enrollments of all participating accredited nonpublic schools in the state for the budget year. For purposes of this section, a “participating accredited nonpublic school” means an accredited nonpublic school that submits a written request on behalf of the school’s pupils in accordance with this subsection, and that certifies its actual enrollment to the department of education by October 1, annually. By November 1, annually, the department of education shall certify to the director of the department of administrative services the annual amount to be paid to each school district, and the director of the department of administrative services shall draw warrants payable to school districts in accordance with this subsection. For purposes of this subsection,
an accredited nonpublic school’s enrollment count shall include only students who are residents of Iowa. The costs of providing textbooks to accredited nonpublic school pupils as provided in this subsection shall not be included in the computation of district cost under chapter 257, but shall be shown in the budget as an expense from miscellaneous income. Textbook expenditures made in accordance with this subsection shall be kept on file in the school district. In the event that a participating accredited nonpublic school physically relocates to another school district, textbooks purchased for the nonpublic school with funds appropriated for purposes of this chapter shall be transferred to the school district in which the nonpublic school has relocated and may be made available to the nonpublic school. Funds distributed to a school district for purposes of purchasing textbooks in accordance with this subsection which remain unexpended and available for the purchase of textbooks for the nonpublic school that relocated in the fiscal year in which the funds were distributed shall also be transferred to the school district in which the nonpublic school has relocated.

3. As used in subsection 2, “textbooks” means any of the following:
   a. Books and loose-leaf or bound manuals, systems of reusable instructional materials or combinations of books and supplementary instructional materials which convey information to the student or otherwise contribute to the learning process.
   b. Electronic textbooks, including but not limited to computer software, applications using computer-assisted instruction, interactive videodisc, and other computer courseware and magnetic media.
   c. Laptop computers or other portable personal computing devices which are used for nonreligious instructional purposes only.

[C97, §2824; C24, 27, 31, 35, 39, §4446; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §301.1]

301.2 Custodian — bond.
The books and supplies so purchased shall be under the charge of the board, who may select one or more persons within the county to keep said books and supplies as the depository agent of the board under such rules and regulations as the board shall adopt. The board shall require of each person so appointed a bond in such sum as may seem to the board to be desirable, the reasonable cost of which, if a bond of an association or corporation as surety is furnished, shall be paid by the district. The board shall adopt rules and regulations to provide that no textbook in any branch determined by the board to be taught in the schools under its charge, shall be sold or rented by such depository agent to the pupils in such schools as a textbook other than those textbooks authorized by said board for use by the pupils in such schools; to provide that no such textbook shall be sold or rented by such depository agent at a price or fee higher than that fixed by the said board; and to provide such other measures not in conflict with law as are necessary properly to govern said depository agents and safeguard the said books and moneys.

[C97, §2824; C24, 27, 31, 35, 39, §4447; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §301.2]

301.3 Annual settlement by board of directors.
At the close of each school year the board of directors in each school district shall cause a complete settlement to be made with each depository agent. A complete inventory of the textbooks on hand, with a statement itemized to show the expenses authorized and paid by the board, and the amount of money collected from each such depository agent during the year from the sale or rental of textbooks, shall be made in duplicate, signed by the secretary of the board and the depository agent and one copy filed with the secretary and one with the depository agent.

301.5 Purchase — exchange.
In the purchasing of textbooks it shall be the duty of the board of directors to take into consideration the books then in use in the respective districts, and they may buy such additional number of said books as may from time to time become necessary to supply their schools, and they may arrange on equitable terms for exchange of books in use for new books adopted.
[C97, §2826; C24, 27, 31, 35, 39, §449; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §301.5]

If at any time the publishers of such books as shall have been adopted by any board of directors shall neglect or refuse to furnish such books when ordered by said board in accordance with the provisions of this chapter, at the very lowest price, either contract or wholesale, that such books are furnished any other district or state board, then said board of directors may and it is hereby made their duty to bring suit upon the bond given them by the contracting publisher.

This special election shall be held within the newly created district at a single polling place designated by the county auditor not more than ninety days after the organization of the land
use district. The election shall be held for the purpose of electing the initial seven members of the board of trustees of the land use district. The county auditor shall cause notice of the election to be posted and published, and shall perform all other acts with reference to the election, and conduct it in like manner, as nearly as may be, as provided in this subchapter for the election on the question of establishing the district. Each trustee must be a United States citizen not less than eighteen years of age and a resident of the district. Each registered voter at the election may write in upon the ballot the names of not more than seven persons whom the voter desires for trustees and may cast not more than one vote for each of the seven persons. The seven persons receiving the highest number of votes cast shall constitute the first board of trustees of the district.

2. Following the initial special election, an annual election shall be held at a single polling place within the district designated by the county auditor for the purpose of electing a trustee to replace a trustee whose term will expire. The board of trustees, in consultation with the county auditor, shall select the election date. Expenses incurred in carrying out the annual elections of trustees shall be paid for by the land use district.

4. When the initial board of trustees is elected under this section the trustees shall be ranked in the order of votes received from highest to lowest. Any ties shall be resolved by a random method. The last ranked trustee shall receive an initial term expiring at the next annual election for trustees, the sixth and fifth ranked trustees receive an initial term expiring one year later, the fourth ranked trustee receives an initial term expiring two years after that election, the third and second ranked trustees receive initial terms expiring three years after that election, and the first ranked trustee shall receive an initial term expiring four years after that election.

303.50 Trustee’s bond.

Each trustee shall, before entering upon the duties of office, execute a bond payable to the district, with security to be approved by the board of supervisors which had jurisdiction of the petition for establishment of the district, in a form and amount as that board of supervisors may determine, and file the bond with the county auditor of that county.

The land use plan shall be created for the primary purpose of regulating and restricting, where deemed necessary, the erection, construction, reconstruction, alteration, repair, or use of buildings, structures, or land in a manner which would maintain or enhance the distinctive historical and cultural character of the district. The ordinances, resolutions, rules, and regulations shall not apply to any tillable farmland, pastureland, timber pasture or forestland located within the district except to structures of an advertising or commercial nature located on the land.

3. The board of trustees shall provide for the manner in which the land use plan shall be established and enforced and amended, supplemented, or changed. However, a plan shall not become effective until after a public hearing on it, at which parties in interest and citizens of the district shall have an opportunity to be heard. At least fifteen days' notice of the time and place of the hearing shall be published in a newspaper of general circulation within the district giving the time, date, and location of the public hearing.

4. a. The board of trustees may by ordinance impose a hotel and motel tax in accordance with chapter 423A.

for the creative economy jobs of the future; and build social capital. However, these organizations are often undercapitalized. Therefore, to bring financial stability to these organizations through fluctuating economic conditions, it is the intent of the general assembly that a public trust be established the income from which may be made available to supplement the operating budgets of nonprofit cultural organizations that meet certain criteria, including a commitment to strategies to attain long-term financial stability and sustainability. It is further the intent of the general assembly that income from the public trust may be used initially for a statewide educational program to assist cultural organizations in endowment development.

1. A museum may acquire title to loaned property pursuant to this section. A museum may give notice of termination of a loan of property at any time if either of the following apply:
   a. The property was loaned to the museum for an indefinite term.
   b. The property was loaned to the museum for a specified term, and that term has expired.
2. If the lender or claimant does not respond to the notice of termination provided under subsection 1 within one year by filing a notice of intent to preserve an interest in property on loan, the museum acquires title to the property.
3. A notice of intent to terminate a loan must include a statement containing substantially the following information:

   The records of (name of museum) indicate that you have property on loan to it. The institution wishes to terminate the loan. You must contact the institution, establish your ownership of the property pursuant to section 305B.8, and make arrangements to collect the property. If you fail to do so promptly, you will be considered to have donated the property to the institution.

88 Acts, ch 1117, §6
Referred to in §305B.9, 305B.10, 305B.13

305B.7 Acquiring title to undocumented property.
1. A museum may acquire title to undocumented property held by a museum for seven years or longer with no valid claim or written contact by any person, all verifiable through the museum’s written records, by giving notice of acquisition of title to undocumented property.
2. If a lender or claimant does not respond to the notice provided in subsection 1 within three years by filing a notice of intent to retain an interest in property on loan, the museum’s title to the property becomes uncontestable under section 305B.9.
3. A notice of acquisition of title must include a statement containing substantially the following information:
§305B.7, MUSEUM PROPERTY

The records of (name of museum) fail to indicate the owner of record of certain property in its possession. The museum intends to acquire title to the below described property: (general description of the property). If you claim ownership or other legal interest in this property you must contact the institution, establish your ownership of the property pursuant to section 305B.8, and make arrangements to collect the property. If you fail to do so promptly, you will be considered to have waived any claim you may have had to the property.

88 Acts, ch 1117, §7
Referred to in §305B.13

305B.8 Notice of intent to preserve an interest in property — requirements — form — disclosure.

1. A notice of intent to preserve an interest in property on loan to a museum filed pursuant to this chapter shall be in writing and contain all of the following information:
   a. A description of the property adequate to enable the museum to identify the property.
   b. Documentation sufficient to establish the claimant as owner of the property.
   c. A statement attesting to the truth, to the best of the signer’s knowledge, of all information included in or with the notice.
   d. The signature, under penalty of perjury, of the claimant or a person authorized to act on behalf of the claimant.

2. The museum need not retain a notice which does not meet the requirements set forth in subsection 1. If, however, the museum does not intend to retain a notice for this reason, the museum shall promptly notify the claimant at the address given on the notice that the museum believes the notice is ineffective to preserve an interest, and the reasons for the insufficiency. The fact that a museum retains a notice under section 305B.12 does not mean that the museum accepts the sufficiency or accuracy of the notice or that the notice is effective to preserve an interest in property on loan to the museum.

3. The department of cultural affairs shall adopt by rule a form for notice of intent to preserve an interest in property on loan to a museum. The form shall satisfy the requirements of subsection 1 and shall notify the claimant of the rights and procedures to preserve an interest in museum property. The form shall also facilitate recordkeeping and record retrieval by a museum. At a minimum the form shall provide a place for recording evidence of receipt of a notice by a museum, including the date of receipt, signature of the person receiving the notice, and the date on which a copy of the receipt is returned to the claimant.

88 Acts, ch 1117, §8
Referred to in §305B.2, 305B.6, 305B.7, 305B.9, 305B.10, 305B.12, 305B.13

305B.9 Limitations on actions against museums.

1. An action shall not be brought against a museum for damages because of injury to or loss of property loaned to the museum more than three years from the date the museum gives the lender or claimant notice of the injury or loss or ten years from the date of the injury or loss, whichever occurs earlier.

2. An action shall not be brought against a museum to recover property on loan more than one year from the date the museum gives the lender or claimant notice of its intent to terminate the loan or notice of acquisition of title to undocumented property.

3. An action shall not be brought against a museum to recover property on loan more than seven years from the date of the last written contact between the lender or claimant and the museum as evidenced by the museum’s records.

4. A lender or claimant is considered to have donated loaned property to the museum if the lender fails to file an action to recover the property on loan to the museum within the periods specified in subsections 1 through 3.

5. A person who purchases property from a museum acquires good title to the property if the museum represents that it has acquired title to the property pursuant to subsection 4.

6. Notwithstanding subsections 3 and 4, a lender or claimant who was not given notice as
provided in this chapter that the museum intended to terminate a loan, as provided in section 305B.6, and who proves that the museum received an adequate notice of intent to preserve an interest in loaned property, which satisfies all of the requirements of section 305B.8, within the seven years immediately preceding the filing of an action to recover the property, may recover the property or, if the property has been disposed of, the reasonable value of the property at the time it was disposed of plus interest at the legal rate.

7. A museum is not liable at any time, in the absence of a court order, for returning property to the original lender, even if a claimant other than the lender has filed a notice of intent to preserve an interest in property. If persons claim competing interests in property in the possession of a museum, the burden is upon the claimants to prove their interest in an action in equity initiated by a claimant. A museum is not liable at any time for returning property to an uncontested claimant who produced reasonable proof of ownership pursuant to section 305B.8.

88 Acts, ch 1117, §9
Referred to in §305B.7, 305B.13

305B.10 Museum obligations.
In order to take title pursuant to this chapter a museum has the following obligations to a lender or claimant:

1. The museum shall retain all written records regarding the property for at least three years from the date of taking title pursuant to this chapter.

2. The museum shall keep written records on all loaned property acquired pursuant to section 305B.6. Records shall contain the following information:
   a. Lender’s name, address, and phone number.
   b. Claimant’s name, address, and phone number.
   c. The nature and terms of the loan.
   d. The beginning date of the loan period, if known.

3. A museum accepting a loan of property on or after January 1, 1989, shall inform the lender in writing at the time of the loan of the provisions of this chapter. A copy of the form notice prescribed in section 305B.8, or a citation to this chapter, is adequate for this purpose.

4. The museum is responsible for notifying a lender or claimant of the museum’s change of address or dissolution.

88 Acts, ch 1117, §10

305B.11 Required museum recordkeeping.
1. On or after January 1, 1989, a museum shall at minimum maintain and retain the following records, either originals or accurate copies, for a period of not less than twenty-five years:
   a. A notice of intent to preserve an interest in property.
   b. The loan agreement, if any, and a receipt or ledger for property on loan.
   c. A receipt or ledger for property delivered to an owner or claimant.
   d. Records containing the following information, as available, for property in the museum’s possession:
      (1) Lender’s name, address, and phone number.
      (2) Claimant’s name, address, and phone number.
      (3) Donor’s name, address, and phone number.
      (4) Seller’s name, address, and phone number.
      (5) The nature and terms of the transaction (loan for specified term, loan for unspecified term, donation, purchase, etc.).
      (6) The beginning date of the loan period or transaction date.

2. The department of cultural affairs may by rule determine the minimum form and substance of recordkeeping by museums with regard to museum property to implement this chapter.

88 Acts, ch 1117, §11; 2010 Acts, ch 1061, §180
305B.12 Lender obligations to museum.
1. The lender or claimant of property on loan to a museum shall notify the museum of a change of address or change in ownership of the property. Failure to notify the museum of these changes may result in the lender’s or claimant’s loss of rights in the property.
2. The lender or claimant of property on loan to a museum may file with the museum a notice of intent to preserve an interest in the property as provided for in section 305B.8. The filing of a notice of intent to preserve an interest in property on loan to a museum does not validate or make enforceable any claim which would be extinguished under the terms of a written agreement, or which would otherwise be invalid or unenforceable.

88 Acts, ch 1117, §12
Referred to in §305B.8

305B.13 Retroactive applicability.
1. Sections 305B.1 through 305B.8 are retroactively applicable to all property in the possession of a museum within the state on or after January 1, 1988.
2. Section 305B.9 is effective July 1, 1989, and when effective is retroactively applicable to all property in the possession of the museum before July 1, 1989, and is prospectively applicable to all property in the possession of the museum on or after July 1, 1989, for which a claim is filed on or after July 1, 1989.

306.2 Definitions.  
As used in this chapter, unless the context otherwise requires:

2. “Book”, “list”, “record”, or “schedule” kept by a county auditor, assessor, treasurer, recorder, sheriff, or other county officer means the county system as defined in section 445.1.
3. “Department” means the state department of transportation.

[C75, 77, 79, 81, §306.2]  
2000 Acts, ch 1148, §1; 2002 Acts, ch 1119, §200, 201

306.3 Definitions used throughout Code.
As used in this chapter or in any chapter of the Code relating to highways, except as otherwise specified:
1. “Area service” or “area service system” means those secondary roads that are not part of the farm-to-market road system.
2. “County conservation parkways” or “county conservation parkway system” means those parkways located wholly within the boundaries of county lands operated as parks, forests, or public access areas.
3. “Farm-to-market roads” or “farm-to-market road system” means those county jurisdiction intracounty and intercounty roads which serve principal traffic generating areas and connect such areas to other farm-to-market roads and primary roads. The farm-to-market road system includes those county jurisdiction roads providing service for short-distance intracounty and intercounty traffic or providing connections between farm-to-market roads and area service roads, and includes those secondary roads which are federal aid eligible. The farm-to-market road system shall not exceed thirty-five thousand miles.
4. “Interstate roads” or “interstate road system” means those roads and streets of the primary road system that are designated by the secretary of the United States department of transportation as the national system of interstate and defense highways in Iowa.
5. “Municipal street system” means those streets within municipalities that are not primary roads or secondary roads.
6. “Primary roads” or “primary road system” means those roads and streets both inside and outside the boundaries of municipalities which are under department jurisdiction.
7. “Public road right-of-way” means an area of land, the right to possession of which is secured or reserved by the state or a governmental subdivision for roadway purposes. The right-of-way for all secondary roads is sixty-six feet in width, unless otherwise specified by the county board of supervisors of the respective counties.
8. “Road” or “street” means the entire width between property lines through private property or the designated width through public property of every way or place of whatever nature if any part of such way or place is open to the use of the public, as a matter of right, for purposes of vehicular traffic.
9. “Secondary roads” or “secondary road system” means those roads under county jurisdiction.
10. “State park, state institution, and other state land road system” consists of those
roads and streets wholly within the boundaries of state lands operated as parks, or on which institutions or other state governmental agencies are located.

[C24, 27, §4636; C31, 35, §4644-c2; C39, §4644.02; C46, 50, §309.2; C54, 58, 62, 66, §306.2; C71, 73, 75, 77, 79, 81, §306.3]

Referred to in §307.24, 309.3, 310.10, 314.30, 315.3, 321.285

306.4 Jurisdiction of systems.

The jurisdiction and control over the roads and streets of the state are vested as follows:

1. Jurisdiction and control over the primary roads shall be vested in the department.

2. Jurisdiction and control over the secondary roads shall be vested in the county board of supervisors of the respective counties.

3. a. Effective July 1, 2004, jurisdiction and control over a farm-to-market extension or road transferred pursuant to section 306.8A within a city with a population of less than five hundred shall be vested in the county board of supervisors of the respective county.

   b. If the population of a city drops below five hundred after July 1, 2004, as determined by the latest available federal census or special census, jurisdiction and control over a farm-to-market extension located within the city shall be vested in the county board of supervisors of the respective county effective July 1 following census certification by the secretary of state.

   c. If the population of a city from which jurisdiction and control over a road has been transferred pursuant to paragraph “a” or “b” exceeds seven hundred fifty, as determined by the latest available federal census or special census, such jurisdiction and control shall be transferred back to the city effective July 1 following census certification by the secretary of state.

4. a. Jurisdiction and control over the municipal street system shall be vested in the governing bodies of each municipality; except that the department and the municipal governing body shall exercise concurrent jurisdiction over the municipal extensions of primary roads in all municipalities. When concurrent jurisdiction is exercised, the department shall consult with the municipal governing body as to the kind and type of construction, reconstruction, repair, and maintenance and the two parties shall enter into agreements with each other as to the division of costs thereof.

   b. When the two parties cannot initially come to agreement as to the division of costs under this subsection, they shall contract with an organization in this state to provide mediation services. The costs of the mediation services shall be equally allocated between the two parties. If after submitting to mediation the parties still cannot come to agreement as to the division of costs, the mediator shall sign a statement that the parties did not reach an agreement, and the parties shall then submit the matter for binding arbitration to a mutually agreed-upon third party. If the parties cannot agree upon a third-party arbitrator, they shall submit the matter to an arbitrator selected under the rules of the American arbitration association.

5. Jurisdiction and control over the roads and streets in any state park, state institution or other state land shall be vested in the board, commission, or agency in control of such park, institution, or other state land; except that:

   a. The department and the controlling agency shall have concurrent jurisdiction over any road which is an extension of a primary road and which both enters and exits from the state land at separate points. The department may expend the moneys available for such roads in the same manner as the department expends such funds on other roads over which the department exercises jurisdiction and control. The parties exercising concurrent jurisdiction may enter into agreements with each other as to the kind and type of construction, reconstruction, repair and maintenance and the division of costs thereof. In the absence of such agreement the jurisdiction and control of such road shall remain in the department.

   b. The board of supervisors of any county and the controlling state agency shall have concurrent jurisdiction over any road which is an extension of a secondary road and which both enters and exits from the state land at separate points. The board of supervisors of any
county may expend the moneys available for such roads in the same manner as the board
expends such funds on other roads over which the board exercises jurisdiction and control.
The parties exercising concurrent jurisdiction may enter into agreements with each other as
to the kind and type of construction, reconstruction, repair and maintenance and the division
of costs thereof. In the absence of such agreement, the jurisdiction and control of such road
shall remain in the board of supervisors of the county.
6. Jurisdiction and control over parkways within county parks and conservation areas
shall be vested in the county conservation boards within their respective counties; except
that:
   a. The department and the county conservation board shall have concurrent jurisdiction
over an extension of a primary road which both enters and exits from a county park or other
county conservation area at separate points. The department may expend moneys available
for such roads in the same manner as the department expends such funds on other roads over
which the department exercises jurisdiction and control. The parties exercising concurrent
jurisdiction may enter into agreements with each other as to the kind and type of construction,
reconstruction, repair and maintenance and the division of costs thereof. In the absence of
such agreement, the jurisdiction and control of such roads shall remain in the department.
   b. The board of supervisors of any county and the county conservation board shall have
concurrent jurisdiction over an extension of a secondary road which both enters and exits
from a county park or other county conservation area at separate points. The board of
supervisors of any county may expend moneys available for such roads in the same manner
as the board expends such funds on other roads over which the board exercises jurisdiction
and control. The parties exercising concurrent jurisdiction may enter into agreements with
each other as to the kind and type of construction, reconstruction, repair and maintenance
and the division of costs thereof. In the absence of such agreement, the jurisdiction and
control of such roads shall remain in the board of supervisors of the county.

farm-to-market routes on new alignment shall be accomplished in accordance with procedural rules adopted by the farm-to-market review board, subject to the following procedures:

a. Counties shall initiate system modifications by submitting a resolution from the board of supervisors to the department.

b. The department shall submit the resolution to the farm-to-market review board and provide additional material as requested by the board.

c. Upon receipt of a county’s resolution requesting a farm-to-market system modification, the farm-to-market review board shall review the proposed system modification and shall consider, but not be limited to consideration of, the following factors:

   (1) Intracounty and intercounty continuity of systems.
   (2) Properly integrated systems.
   (3) Existing and potential traffic.
   (4) Land use.
   (5) Location.
   (6) Equitable distribution of farm-to-market mileage among the counties.

2. Upon completion of the review process, the farm-to-market review board may do any of the following:

a. Approve the requested modifications to the farm-to-market road system and submit the modifications to the department for processing.

b. Deny the requested modifications.

c. Request additional information for further review.

306.7 Functions changed or new roads added. Repealed by 98 Acts, ch 1075, §17.

306.8 Transfer of jurisdiction.

1. Prior to a change in jurisdiction of a road or street, the unit of government having jurisdiction shall either place the road or street and any structures on the road or street in good repair or provide for the transfer of money to the appropriate jurisdiction in an amount sufficient for the repairs to the road or street and any structures on the road or street.

2. Transfers of the jurisdiction and control of roads and streets may take place if agreements are entered into between the jurisdictions of government involved in the transfer of such roads and streets.

306.8A Transfer of roads identified in report.

1. The department shall maintain on file the transfer of jurisdiction report compiled by the ad hoc road use tax fund committee. Such report identifies primary roads for transfer to local jurisdictions.

2. The jurisdiction and control of only those primary roads identified in the transfer of jurisdiction report that are also classified by the department as local service roads shall be transferred from the state to the appropriate county or city effective July 1, 2003. Such transfers are not subject to the terms and conditions provided in section 306.8.

306.9 Diagonal roads — restoring and improving existing roads.

1. It is the policy of the state of Iowa that relocation of primary highways through cultivated land shall be avoided to the maximum extent possible. When the volume of traffic for which the road is designed or other conditions, including designation as part of the network of commercial and industrial highways, require relocation, diagonal routes shall be avoided if feasible and prudent alternatives consistent with efficient movement of traffic exist.
§306.9, ESTABLISHMENT, ALTERATION, AND VACATION OF HIGHWAYS

2. The improvement of two-lane roads shall utilize the existing right-of-way unless alignment or other conditions, including designation as part of the network of commercial and industrial highways, make changes imperative, and when a two-lane road is expanded to a four-lane road, the normal procedure shall be that the additional right-of-way be contiguous to the existing right-of-way unless relocated for compelling reasons, including the need to provide efficient movement of traffic on the network of commercial and industrial highways. This policy does not apply to a highway project for which the corridor has been approved by the state department of transportation and the corridor has been finalized by September 1, 1977.

3. It is the policy of the state of Iowa that in constructing primary highways designed with four-lane divided roadways, access controls shall be limited to the minimum level necessary, as determined by the department, to ensure the safe and efficient movement of traffic or to comply with federal aid requirements.

4. Unless otherwise required by the federal law or regulation, it is also the policy of this state that road use tax fund moneys shall be used to rehabilitate or reconstruct existing roads, streets, and bridges using substantially existing right-of-way. This subsection does not apply where additional right-of-way is needed for the construction or completion of designated interstate or city routes and highway bypasses or highways designated as part of the network of commercial and industrial highways.

The order thus entered shall be final except as to the amount of the damages unless the order is rescinded as provided in section 306.17. and the proceedings shall thereafter conform to the applicable provisions of that chapter. If, in the opinion of the agency, the damages as finally determined on appeal are excessive, the agency may rescind its order vacating and closing the road, part thereof, or crossing, and the right-of-way shall remain under the jurisdiction of the agency. If the order is rescinded at any time after an appeal is taken, the agency shall pay reasonable attorney fees incurred by the claimant as taxed by the court.

306.19 Right-of-way — access — notice.
1. In the maintenance, relocation, establishment, or improvement of any road, including the extension of such road within cities, the agency having jurisdiction and control of such road shall have authority to purchase or to institute and maintain proceedings for the condemnation of the necessary right-of-way therefor. Such agency shall likewise have power to purchase or institute and maintain proceedings for the condemnation of land necessary for highway drainage, or land containing gravel or other suitable material for the improvement or maintenance of highways, together with the necessary road access or right of access thereto.

2. Whenever the agency condemns or purchases property access rights or alters by lengthening any existing driveway to a road from abutting property, except during the time required for construction and maintenance of the road or highway, the agency shall:
   a. Compensate the owner for any diminution in the market value of the property by the denial or alteration by lengthening the driveway. In computing the diminution in value, no consideration shall be given to the additional maintenance expense for maintaining the additional length of driveway, but in lieu thereof, both in condemnation proceedings or negotiated purchases, the agency shall pay to the owner the sum of twenty dollars for every linear foot of additional length of driveway located on the owner’s property. This payment shall represent just compensation to the property owner for the additional driveway maintenance caused by reason of the highway or road project.
   b. If in the opinion of the agency it would be more economical to purchase the entire tract of the property owner than to provide and pay the maintenance expense required under the provisions of this section, proceed with the acquisition of the entire tract of land; or
   c. If mutually agreeable, move buildings from an existing location to a location requiring an equal or lesser length of driveway and provide an adequate driveway to a public road.

3. None of the foregoing requirements shall prohibit the property owner and the agency from entering into a mutually acceptable agreement for the replacement, relocation, construction, or maintenance of any alternate driveway on the owner’s property. Compensation for any property rights taken in the establishment of any alternative temporary or permanent access shall be paid as in any other purchase or condemnation of property.

4. Proceedings for the condemnation of land for any highway shall be under the provisions of chapter 6A and chapter 6B. Provided that, in the condemnation of right-of-way for secondary roads that is contiguous to existing road right-of-way for the maintenance, safety improvement, or upgrade of the existing secondary road, the board of supervisors may proceed as provided in sections 306.28 to 306.37.

5. a. The department may notify a city or county that a road under the jurisdiction or control of the department will be established, improved, relocated, or maintained and that the department may need to acquire additional right-of-way or property rights within an
area described by the department. The notice shall include a depiction of the area on a map provided by the city, county, or the department. This notice shall be valid for a period of three years from the date of notification to the city or county and may be refiled by the department every three years. Within seven days of filing the notice, the department shall publish in a newspaper of public record a description and map of the area and a description of the potential restrictions applied to the city or county with respect to the granting of building permits, approving of subdivision plats, or zoning changes within the area.

b. The city or county shall notify the department of an application for a building permit for construction valued at twenty-five thousand dollars or more, of the submission of a subdivision plat, or of a proposed zoning change within the area at least thirty days prior to granting the proposed building permit, approving the subdivision plat, or changing the zoning.

c. If the department, within the thirty-day period, notifies the city or county that the department is proceeding to acquire all or part of the property or property rights affecting the area, the city or county shall not issue the building permit, approve the subdivision plat, or change the zoning. The department may apply to the city or county for an extension of the thirty-day period. After a public hearing on the matter, the city or county may grant an additional sixty-day extension of the period.

d. The department shall begin the process of acquiring property or property rights from affected persons within ten days of the department’s written notification of intent to the city or county.

6. If the agency determines that it is necessary to relocate a utility facility, the agency shall have the authority to institute and maintain proceedings on behalf of the owner of the utility facility for the condemnation of replacement property rights. The replacement property rights shall be equal in substance to the existing rights of the owner of the utility facility, except that the replacement property rights shall be for a width and location deemed appropriate and necessary for the needs of the owner of the utility facility, as determined by the agency and the owner of the facility. The replacement property rights of the owner of the utility facility shall be subordinate to the rights of the agency only to the extent necessary for the construction and maintenance of the designated road. Within a reasonable time after completion of the relocation, all previously owned property rights of the owner of the utility facility no longer required for operation and maintenance of the utility facility shall be released or conveyed to the appropriate parties. The authority of the agency under this subsection may only be exercised upon execution of a relocation agreement between the agency and the owner of the utility facility. For purposes of this subsection, “utility facility” means an electric, gas, water, steam power, or materials transmission or distribution system; a transportation system; a communications system, including cable television; and fixtures, equipment, or other property associated with the operation, maintenance, or repair of the system. A utility facility may be publicly, privately, or cooperatively owned.

7. For the purposes of this section, the term “driveway” shall mean a way of ingress and egress located entirely on private property, consisting of a lane or passageway leading from a residence to a public roadway or highway.

Such plans shall be clearly designated as “completed”, “partially completed” or “proposed” with a statement of the portion completed and the expected date of full completion. When title to any tract of land has been or may be acquired for the construction or improvement of any highway, and when in the judgment of the agency in control of the highway, the tract will not be used in connection with or for the improvement, maintenance, or use of the highway, the agency in control of the highway may sell the tract for cash.
2. The department may contract for the sale of any tract of land subject to the following terms and conditions:
   a. The discounted present market value of the contract offer, including the cash down payment, shall exceed one hundred ten percent of the highest cash offer submitted for the tract if a cash offer is received. The discount rate shall be the rate of interest stated in the contract.

The notice shall give an opportunity to the present owner of adjacent property and to the person who owned the land at the time it was purchased or condemned for highway purposes to be heard and make offers within sixty days of the date the notice is mailed for the tract, parcel, or piece of land to be sold. An offer which equals or exceeds in amount any other offer received and which equals or exceeds the fair market value of the property shall be given preference by the agency in control of the land. GENERAL PROVISIONS

§306.38 Rental of acquired property pending use.
In the event that land acquired for improvement of any highway is not immediately needed for such improvement, the agency in control of said highway may rent such land or buildings thereon to responsible persons for a cash rental consistent with the fair market value of similar property. The said agency may employ a local real estate firm for management and collection of rentals or may do so directly through its own personnel. The commission or service charge of such real estate company shall be paid out of such rentals.

1. The agency having jurisdiction and control over any highway in the state, or the chief engineer of the agency when delegated by such agency, may temporarily close sections of a highway by formal resolution entered upon the minutes of such agency when reasonably
necessary because of construction, reconstruction, maintenance or natural disaster and shall cause to be erected “road closed” signs and partial or total barricades in the roadway at each end of the closed highway section and on the closed highway where that highway is intersected by other highways if such intersection remains open. Any numbered road closed for over forty-eight hours shall have a designated detour route. The agency having jurisdiction over a section of highway closed in accordance with the provisions of this section, or the persons or contractors employed to carry out the construction, reconstruction, or maintenance of the closed section of highway, shall not be liable for any damages to any vehicle that enters the closed section of highway or the contents of such vehicle or for any injuries to any person that enters the closed section of highway, unless the damages are caused by gross negligence of the agency or contractor.

306.42 Transfer of rights-of-way.

1. This section is intended to vest all documents of title in road right-of-way in the jurisdiction responsible for the road. This section establishes a simple method to transfer road rights-of-way by quitclaim deed and to authorize the use of available descriptions, plats, maps or engineering drawings to effect such transfers and to provide an orderly method by which such transfers may be filed, indexed and recorded.

2. The department shall transfer by quitclaim deed to the county or to the city having jurisdiction over a road, all of the state’s legal or equitable title and interest in right-of-way for the road or street and may transfer any adjacent unused right-of-way or land in excess of that needed as right-of-way. The deed shall be executed by the director of the department. However, if the department owns any adjacent unused right-of-way in excess of that needed as right-of-way which is located outside the incorporated limits of a city and is suitable for purposes specified in section 350.4, subsection 2, the department may, at the request of the county and the county conservation board, transfer the property by quitclaim deed to the county for the use and benefit of the county conservation board.

3. The county or the city shall transfer by quitclaim deed to the state department of transportation when having jurisdiction over a road, all of the county’s or the city’s legal or equitable title and interest in rights-of-way for the road and may transfer any adjacent unused right-of-way or land in excess of that needed as right-of-way. The deed shall be executed by the chairperson of the board of supervisors by order of the board for county roads and by the mayor or city manager by order of the city council for city streets.

4. Transfers under this section shall be subject to the right of a utility, association, company or corporation to continue in possession of a right-of-way in use at the time of the transfer. Transfers shall be subject to rights of ingress and egress whether excepted, reserved or granted by the transferring authority to land or to owners of land adjacent to the right-of-way. Transfers shall include an index of parcels transferred by the character of the instrument or proceeding, the grantor and grantee, and date of the last instrument or proceeding acquiring rights to each parcel. Transfers shall locate the right-of-way by quarter-quarter section, township and range or if so acquired, by lot, block and subdivision. The transferring jurisdiction shall transmit to the receiving jurisdiction all available original documents of title or a certified true copy if the right-of-way was acquired by condemnation or the original deed is lost. Transfers shall be recorded and indexed in the county in which the land is located.

5. Notwithstanding chapter 542B and sections 6A.20, 306.22, 354.13, 354.15, and 364.7, legal descriptions, plats, maps, or engineering drawings used to describe transfers of right-of-way shall, where available, be descriptions, plats, maps, or engineering drawings of record and shall be incorporated by reference to the title instrument or proceedings. If a part but not all of the land acquired by a single conveyance or condemnation is being
transferred, the description of that part to be transferred shall be abstracted from the present legal description, plat, map, or engineering drawing of record.

6. Notwithstanding any other provision of the Code, for transfers of roads and streets made after May 1, 1987, neither the transferring jurisdiction or the receiving jurisdiction shall be held liable for any claim or damage for any act or omission relating to the design, construction, or maintenance of the road or street that occurred prior to the effective date of the transfer. This paragraph shall apply to all transfers pursuant to this chapter or section 313.2.

306.44 Study of road systems.
Transfers not executed as of April 1, 1981, shall be void unless mutually agreed upon by the parties involved. The department shall conduct a study to determine the size of the primary road systems, and the department in conjunction with the county boards of supervisors or the supervisors’ designee shall conduct a study to determine the size of the secondary road systems and provide the general assembly with alternative primary and secondary road systems prior to February 1, 1982, for its review. The general assembly may approve a method for classifying the primary and secondary road systems.

[81 Acts, ch 96, §1]

306.45 Easements on highway rights-of-way.
The department may grant easements across land under its jurisdiction if the department determines that the easement will not adversely affect the construction and maintenance of the highway system. Written conveyances containing any easement conditions prescribed by the department shall be made in the name of the state and signed by the governor and the secretary of state, with the seal of the state of Iowa affixed.

98 Acts, ch 1075, §18

306.46 Public utility facilities — public road rights-of-way.
1. A public utility may construct, operate, repair, or maintain its utility facilities within a public road right-of-way. The location of new utility facilities shall comply with section 318.9. A utility facility shall not be constructed or installed in a manner that causes interference with public use of the road.
2. For purposes of this section, “public utility” means a public utility as defined in section 476.1, and shall also include waterworks, municipally owned waterworks, joint water utilities, rural water districts incorporated under chapter 357A or chapter 504, cooperative water associations, and electric transmission owners as defined in section 476.27 primarily providing service to public utilities as defined in section 476.1. For the purposes of this section, “utility facilities” means any cables, conduits, wire, pipe, casing pipe, supporting poles, guys, and other material and equipment utilized for the furnishing of electric, gas, communications, water, or sewer service.
3. This section shall not impair or interfere with a city’s authority to grant, amend, extend, or renew a franchise as provided in section 364.2, and shall not impair or interfere with a city’s existing general police powers to control the use of its right-of-way.

Referred to in §8C.7A

306.47 Utility facilities relocation policy.
1. It is the policy of the general assembly that a proactive, cooperative coordination between the department, local governments, private and public utility companies, and other affected parties is the most effective way to minimize costs, eliminate the need for utilities to
relocate facilities, limit disruption of utility services related to federal, state, or local highway
construction projects, and limit the potential need for relocation of utility facilities.

2. All potentially affected parties shall be invited to participate in development meetings
at the design phase of a highway construction project to review plans, understand goals
and objectives of the proposed project, and discuss options that would limit the impact of
the construction on utility facilities and thereby minimize or even eliminate costs associated
with utility facility relocation. All jurisdictions and other interested parties shall cooperate
to discuss strategies and policies to utilize the Iowa one call system in the development of a
highway construction project. Failure of the affected parties to respond or participate during
the design phase shall not in any way affect the ability of the federal, state, or local agency
to proceed with design and construction.

SOIL AND WATER CONSERVATION IMPACT

306.50 Construction program notice.
The appropriate highway authority shall provide copies of its annual construction program
to the soil and water conservation district commissioners’ office in each county. The soil
and water conservation district commissioners’ office shall review the construction program
submitted by each highway authority to determine those projects which may impact upon
soil erosion and water diversion or retention.

306.51 Soil erosion impact.
The soil and water conservation district commissioners shall, within thirty days after
receipt of the construction program, notify the appropriate highway authority of the projects
which will impact upon soil erosion and water drainage and request that the appropriate
highway authority notify them of the date, time, and place for holding the design hearing
on preliminary plans.

85 Acts, ch 106, §3; 87 Acts, ch 23, §8

306.52 Review of plans.
Upon examining the preliminary plans on a road project, the soil and water conservation
district commissioners may review each road project for which a drainage structure is
required. The soil and water conservation commissioners shall ascertain whether or not
the proposed erosion control or runoff control structure is suitable to reduce the velocity
of runoff, reduce gully erosion, or provide for sedimentation or other improvement that
would enhance soil conservation. The soil and water conservation commissioners shall
also ascertain whether any other aspect of the road construction will affect soil and water
conservation.

85 Acts, ch 106, §4; 87 Acts, ch 23, §9

306.53 Submission of recommendations — contribution to cost.
1. The soil and water conservation district commissioners shall submit their findings and
recommendations to the appropriate highway authority not later than twenty days following
examination of the construction plans.

2. The appropriate highway authority shall respond to the soil and water conservation
district commissioners and indicate its agreement to the suggested installation or its rejection
of the proposal.

3. Where feasible and cost-sharing funds are available, the soil and water conservation
district may contribute in part or in its entirety to any additional cost for the erosion control structure.

306.54 Reporting.
If the proposal is rejected, the appropriate highway authority shall provide a written report documenting the reason for the rejection to the soil and water conservation district commissioners and the state department of transportation. The state department of transportation shall submit a written report to the general assembly not later than March 1 of each year. The report shall contain only a list of those highway projects where a disagreement exists between the department and the soil and water conservation district commissioners and the reasons for rejecting the recommendations of the soil and water conservation district commissioners. The report shall be filed with the secretary of the senate and the chief clerk of the house of representatives.

SUBCHAPTER I
CONTROLLED-ACCESS FACILITIES AND SERVICE ROADS

306A.1 Declaration of policy.
The legislature hereby finds, determines, and declares that this chapter is necessary for the immediate preservation of the public peace, health, and safety, and for the promotion of the general welfare.
[C58, 62, 66, 71, 73, 75, 77, 79, 81, §306A.1]

306A.2 Definition of a controlled-access facility.
For the purposes of this chapter, a controlled-access facility is defined as a highway or street especially designed for through traffic, and over, from or to which owners or occupants of abutting land or other persons have no right or easement or only a controlled right or easement of access, light, air, or view by reason of the fact that their property abuts upon such controlled-access facility or for any other reason. Such highways or streets may be freeways open to use by all customary forms of street and highway traffic or they may be parkways from which trucks, buses, and other commercial vehicles shall be excluded.
[C58, 62, 66, 71, 73, 75, 77, 79, 81, §306A.2]
Referred to in §306A.3
306A.3 Authority to establish controlled-access facilities — utility accommodation policy.

1. Cities and highway authorities having jurisdiction and control over the highways of the state, as provided by chapter 306, acting alone or in cooperation with each other or with any federal, state, or local agency or any other state having authority to participate in the construction and maintenance of highways, are authorized to plan, designate, establish, regulate, vacate, alter, improve, maintain, and provide controlled-access facilities for public use if traffic conditions, present or future, will justify special facilities; provided, that within a city such authority shall be subject to municipal consent as may be provided by law. In addition to the specific powers granted in this chapter, cities and highway authorities shall have any additional authority vested in them relative to highways or streets within their respective jurisdictions. Cities and highway authorities may regulate, restrict, or prohibit the use of controlled-access facilities by various classes of vehicles or traffic in a manner consistent with section 306A.2.

2. The state department of transportation shall adopt rules, pursuant to chapter 17A, embodying a utility accommodation policy which imposes reasonable restrictions on placements occurring on or after the effective date of the rules, on primary road rights-of-way. The rules may require utilities to give notice to the department prior to installation of a utility system on a primary road right-of-way and obtain prior permission from the department for the proposed installation. The rules shall recognize emergency situations and the need for immediate installation of service extensions subject to the standards adopted by the department and the utilities board. The rules shall be no less stringent than the standards adopted by the utilities board pursuant to chapters 478, 479, and 479B. This paragraph shall not be construed as granting the department authority which has been expressly granted to the utilities board to determine the route of utility installations. If the department requires a utility company permit, the department shall be required to act upon the permit application within thirty days of its filing. In cases of federal-aid highway projects on nonprimary highways, the local authority with jurisdiction over the highway and the department shall comply with all federal regulations and statutes regarding utility accommodation.

306A.4 Design of controlled-access facility.

Cities and highway authorities having jurisdiction and control over the highways of the state, as provided by chapter 306, are authorized to so design any controlled-access facility and to so regulate, restrict, or prohibit access as to best serve the traffic for which such facility is intended. In this connection such cities and highway authorities are authorized to divide and separate any controlled-access facility into separate roadways by the construction of raised curblings, central dividing sections, or other physical separations, or by designating such separate roadways by signs, markers, stripes, and other devices. No person shall have any right of ingress or egress to, from, or across controlled-access facilities to or from abutting lands, except at such designated points at which access may be permitted, upon such terms and conditions as may be specified from time to time.

[C58, 62, 66, 71, 73, 75, 77, 79, 81, §306A.4]

306A.5 Acquisition of property and property rights.

1. For the purposes of this chapter, cities and highway authorities having jurisdiction and control over the highways of the state, as provided by chapter 306, may acquire private or public property rights for controlled-access facilities and service roads, including rights of access, air, view, and light, by gift, devise, purchase, or condemnation in the same manner as such units are authorized by law to acquire such property or property rights in connection with highways and streets within their respective jurisdictions. All property rights acquired under this chapter shall be in fee simple. In connection with the acquisition of property or property rights for a controlled-access facility or portion of, or service road in connection with a controlled-access facility, the cities and highway authorities, in their discretion, may
acquire an entire lot, block, or tract of land, if by so doing the interests of the public will be best served, even though the entire lot, block, or tract is not immediately needed for the right-of-way proper.

2. Access rights to any highway shall not be acquired by any authority having jurisdiction and control over the highways of this state by adverse possession or prescriptive right. Action taken by any such authority shall not form the basis for any claim of adverse possession of or prescriptive right to any access rights by any such authority.

306A.6 New and existing facilities — grade-crossing eliminations.

Cities and highway authorities having jurisdiction and control over the highways of the state, as provided by chapter 306 may designate and establish an existing street or highway as included within a controlled-access facility. The state or any of its subdivisions shall have authority to provide for the elimination of intersections at grade of controlled-access facilities with existing state and county roads, and city or village streets, by grade separation or service road, or by closing off such roads and streets at the right-of-way boundary line of such controlled-access facility, the provisions of sections 306.11 to 306.17 shall apply and govern the procedure for the closing of such road or street and the method of ascertaining damages sustained by any person as a consequence of such closing, provided, however, that the highway authority desiring the closing of such road or street shall conduct the hearing and carry out the procedure therefor and pay any damages, including any allowed on appeal, as a consequence thereof, any law to the contrary notwithstanding, and after the establishment of any controlled-access facility, no highway or street which is not part of said facility shall intersect the same at grade. No city or village street, county or state highway, or other public way shall be opened into or connected with any such controlled-access facility without the consent and previous approval of the highway authority in the state, county, city or village having jurisdiction over such controlled-access facility. Such consent and approval shall be given only if the public interest shall be served thereby.

[C58, 62, 66, 71, 73, 75, 77, 79, 81, §306A.6]

306A.7 Authority of local units to consent.

Cities and highway authorities having jurisdiction and control over the highways of the state, as provided by chapter 306 are authorized to enter into agreements with each other, or with the federal government, respecting the financing, planning, establishment, improvement, maintenance, use, regulation, or vacation of controlled-access facilities or other public ways in their respective jurisdictions, to facilitate the purposes of this chapter.

[C58, 62, 66, 71, 73, 75, 77, 79, 81, §306A.7]

306A.8 Local service roads.

In connection with the development of any controlled-access facility cities and highway authorities having jurisdiction and control over the highways of the state, as provided by chapter 306, are authorized to plan, designate, establish, use, regulate, alter, improve, maintain, and vacate local service roads and streets or to designate as local service roads and streets any existing road or street, and to exercise jurisdiction over service roads in the same manner as is authorized over controlled-access facilities under the terms of this chapter, if, in their opinion, such local service roads and streets are necessary or desirable. Such local service roads or streets shall be of appropriate design, and shall be separated from the controlled-access facility proper by means of all devices designated as necessary or desirable by the proper authority.

opposite the advertising devices.
8. Advertising devices shall not be erected, maintained, or illuminated:

      traveled highway with such intensity or brilliance as to cause glare or to impair the vision of
      the driver of any motor vehicle.
   c. Which contain, include, or are illuminated by any flashing, intermittent, or moving light
      or lights, except those giving public service information such as, but not limited to time, date,
      temperature, weather, news and similar information.
   d. Which imitate or resemble an official sign or signal or device or which are erected
      or maintained within or closer than three hundred feet from scenic areas, as defined and

disrepair.
   e. Which exceed one thousand two hundred square feet in area or in the case of a
      back-to-back or V-type advertising device, with a maximum of two facings per advertising
device, seven hundred fifty square feet in area, including border and trim but excluding base
or apron, support, and other structural members.
   f. Which do not comply with all applicable state or local laws, regulations and ordinances,
including but not limited to zoning, building, and sign codes as locally interpreted and
applied and enforced, or which violate chapter 318; however, nothing in this subchapter
shall prevent or restrict county or local zoning authorities from making a determination
of customary use concerning size, lighting, and spacing of advertising devices in zoned
commercial or industrial adjacent areas, and such determinations will be accepted in lieu

   g. The standards contained in this section pertaining to size, lighting, and spacing shall
not apply to advertising devices erected or maintained within six hundred sixty feet of the

2. After July 1, 1972, no new advertising device for which an application for a permit is required may be erected without first obtaining a permit from the department, except in the case of advertising devices lawfully in existence in areas adjacent to any highway made an interstate, freeway primary, or primary highway after July 1, 1972. The owner shall be required to make application for a permit as provided for in this section within thirty days after the date the said highway acquired said designation.

306C.19 Removal after notice.

Any advertising device erected or maintained after July 1, 1972, in violation of this subchapter or the rules promulgated by the department, is a public nuisance and may be removed by the department upon thirty days’ notice, by certified mail, to the owner of the advertising device and to the owner of the land on which the advertising device is located. The notice shall require such owners to remove the advertising device if it is prohibited, or to cause it to conform to this subchapter or rules promulgated by the department if it is not prohibited.

1. If the owner of the advertising device or the landowner fails to act within thirty days as required in the notice, the advertising device shall be deemed to be forfeited and the department may enter upon the land and remove the advertising device. Such entry after notice, shall not be deemed a trespass and the department may be aided by injunction to abate the nuisance and to insure peaceful entry.

2. The cost of removal, including fees, costs and expenses which arise out of an action brought by the department to insure peaceful entry and removal, may be assessed against the owner of the advertising device. If the owner of the advertising device fails to pay the fees, costs, or expenses within thirty days after assessment, the department may commence
an action to collect the fees, costs, or expenses, which when collected shall be paid into the highway beautification fund.

306C.20 Bonus funds agreements.
The department shall enter into agreements with the duly constituted federal authorities in order to secure for the state all bonus federal funds allotted and appropriations to the state and to avoid loss or reduction, under 23 U.S.C. §131, of federal aid funds apportioned or to be apportioned to the state under 23 U.S.C. §104. The department may accept funds from whatever source, including any allotment of funds by the United States, or any of its departments or agencies, appropriated to carry out the purposes of 23 U.S.C. §131. The department shall take such steps as may be necessary to obtain from the United States or any of its departments or agencies, funds allotted and appropriated for the purpose of paying the federal share of just compensation to be paid to advertising device owners and owners of the real property under the terms of this chapter and 23 U.S.C. §131(g). All moneys received pursuant to the provisions of this chapter shall be deposited in the highway beautification fund.

306C.21 Information centers and rest areas.
The department may establish or enter into agreements with private persons, firms, or corporations for the establishment of information centers in rest areas on the interstate, freeway primary, and primary highways, subject to the approval of the appropriate authority of the federal government. After January 1, 1997, private persons, firms, or corporations entering into an agreement with the department under this section shall not develop, establish, or own any commercial business located on land adjacent to the rest area which is subject to the agreement.

An interstate rest area shall be located entirely on the interstate right-of-way, including, but not limited to, all entrance and exit ramps, all rest area buildings including information centers, and all parking facilities. Department money and resources shall not be used for any other type of interstate rest area. Whenever an interstate rest area is reconstructed, the area available for parking shall be equal to or more than the area available for parking prior to the reconstruction.

306C.23 Special event signs.
It is lawful to place a special event sign on private property with permission of the owner or person in charge of the property at any time during the period beginning sixty days prior to the date of the special event to which the sign pertains and ending on the day of the special event. Special event signs shall be removed not later than twenty-four hours following the end of the special event. This section does not authorize placement of a special event sign at a location where it may, because of its size, location, content, coloring, or lighting, constitute a traffic hazard or a detriment to traffic safety by obstructing the vision of drivers, by detracting from the visibility of a traffic-control device or by being confused with an authorized traffic-control device.

[C81, §306C.23] 92 Acts, ch 1100, §1

306C.24 Compensation for sign removal.
1. Definition. As used in this section, “off-premises advertising device” means an
advertising device which does not qualify as an “on-premises sign” under rules adopted by the department pursuant to chapter 17A.

2. Just compensation required. Political subdivisions of this state shall not remove, take, alter, or cause to be removed, taken, or altered a lawfully erected off-premises advertising device without paying just compensation in cash to the owner of the advertising device and to the owner of the real property on which the advertising device is located, as provided in section 306C.16. The department shall not remove, take, alter or cause to be removed, taken, or altered a lawfully erected off-premises advertising device subject to control under chapter 306B or this chapter without paying just compensation when required under 23 U.S.C. §131(g) to the owner of the advertising device and to the owner of the real property on which the advertising device is located, as provided in section 306C.16. For the department, the sole intent of this section is to comply with 23 U.S.C. §131(g) and it is not the intent of this section to, in any manner, relinquish any powers of the department relating to the control and removal of advertising devices under police power.

3. Exceptions. This section does not apply to the removal, taking, or altering of an off-premises advertising device under any of the following conditions:
   a. The device is unlawfully erected or is being maintained in violation of the provisions of section 306C.13, subsection 8, or section 306C.18.
   b. The device has been abandoned or not used for a period of at least six months.

4. Department authorization. If required by 23 U.S.C. §131(g), the department may acquire through purchase or condemnation and shall pay just compensation as provided in section 306C.16 for off-premises advertising devices removed after July 1, 1989, through amortization by an ordinance of a political subdivision enacted prior to July 1, 1989. Notwithstanding the requirements of section 306C.14, the department may first pay just compensation from the highway beautification fund and then claim reimbursement for the federal share of the payment from the federal government.

5. Savings clause. If any provision of this section which relates to the department is inconsistent or conflicts with, or is not required by, 23 U.S.C. §131 to avoid the loss of federal funds, the provision shall be suspended but only to the extent necessary to eliminate the inconsistency, conflict, or requirement. If any part of this section is found to be invalid or unconstitutional, such judgment shall not affect the validity of the section as a whole or any provision or part of the section not found to be invalid or unconstitutional.

306D.3 Plan recommendations and pilot projects.
306D.4 Scenic highway advertising.

306D.1 Statement of purpose — intent.
1. The general assembly finds that:
   a. The state offers numerous regions through which people can drive for the pleasure of viewing unusually scenic and interesting landscapes; however, routes to and through these areas have not been adequately identified for Iowans and state visitors.
   b. Among those things that attract motorists to the state’s landscape are agricultural lands, forests, river basins, distinctive landforms, interesting architecture, metropolitan areas, small rural towns, and historic sites.
   c. The landscape qualities of unusually scenic routes throughout the state have not been
protected from visual and resource deterioration particularly along routes which pass near the state’s nationally significant areas such as the bluffs of the Mississippi and Missouri rivers, the Amana colonies, the Herbert Hoover national historic site, federal reservoirs, communities surrounding the state’s natural lakes, the Des Moines river greenbelt, the great river road, and many others.

d. A principal goal of economic development in this state is to increase the influence which travel and tourism have on the state’s economic expansion.

e. Iowans and visitors should be encouraged to travel to and through unusually scenic areas of the state.

f. A program should be established, following a statewide plan, to identify and promote highways and secondary routes which pass through unusually scenic landscapes and to protect and enhance the scenic qualities of the landscape through which these routes pass.

2. In addition to other goals for the program, it is the intention of the general assembly that the scenic highways program be coordinated with the state’s open space program under chapter 465A.

1. The state department of transportation shall prepare a statewide, long-range plan for the protection, enhancement, and identification of highways and secondary roads which pass through unusually scenic areas of the state as identified in section 306D.1. The department of natural resources, department of economic development, and department of cultural affairs, private organizations, county conservation boards, city park and recreation departments, and the federal agencies having jurisdiction over land in the state shall be encouraged to assist in preparing the plan. The plan shall be coordinated with the state’s open space plan if a state open space plan has been approved by the general assembly. The plan shall include, but is not limited to, the following elements:

a. Preparation of a statewide inventory of scenic routes and ranking of relative uniqueness for each route. The degree to which these routes suffer from negative visual intrusions shall be documented.

b. Recommended techniques for preserving and enhancing the scenic qualities associated with each route.

c. Forecasts of significant changes in traffic volumes and environmental, social, and economic impacts if scenic routes are publicly identified and promoted as tourism attractions.

d. Recommended techniques for incorporating scenic highway routes in state and local tourism development and marketing programs.

e. Landscape management needs including maintenance, rehabilitation, and improvements to scenic areas.

f. Funding levels needed to accomplish the statewide scenic highway program.

g. Recommendations of how federal and state transportation programs can be modified or developed to assist the state’s scenic highway program.

2. The preparation of the plan is subject to an appropriation by the general assembly for that purpose. The plan shall be submitted to the general assembly by January 15, 1988. Prior to submission of the plan to the general assembly, the department shall request comments on the proposed plan from state agencies, federal agencies, and private organizations with interests in scenic highways. The comments shall be submitted to the general assembly.

1. The department of transportation shall have the authority to adopt rules to control the erection of new advertising devices on a highway designated as a scenic highway or scenic byway in order to comply with federal requirements concerning the implementation of a scenic byways program.

2. Notwithstanding subsection 1, if an advertising device was lawfully erected along an interstate highway within the corporate limits of a city prior to designation of the highway as a scenic byway and, after such designation occurs, the advertising device is displaced due to the reconstruction, improvement, or relocation of the highway, the advertising device may be relocated to a location determined by the department to be substantially the same location, subject to approval by the federal highway administration, and shall not be considered an erection of a new advertising device, if all of the following apply:
   a. The location conforms to the requirements of chapters 306B and 306C.

MISSOURI RIVER BARGE COMPACT

Referred to in §307.26

COMPACT BETWEEN IOWA, KANSAS, MISSOURI, AND
NEBRASKA FOR THE DEVELOPMENT OF THE MISSOURI
RIVER FOR BARGE TRAFFIC

ADMINISTRATION AND INTERPRETATION OF COMPACT

307C.1 Missouri river barge compact.

The Missouri river interstate barge compact is enacted into law and entered into with all
other states which legally join in the compact in substantially the following form:

1. Article I. The purposes of this compact are to provide for planning for the most
efficient use of the waters of the Missouri river, to increase the amount of barge traffic on
that segment of the Missouri river below Sioux City, Iowa, to take necessary steps to develop
the Missouri river and its banks to handle more barge traffic than is presently handled, to
encourage barge use on that segment of the Missouri river for transporting bulk goods,
especially farm commodities, to insure that the intended increase in barge traffic does
not impose unacceptable damage on the Missouri river in all its various uses, including
agriculture, wildlife management, and recreational opportunities, to consider the effects
diversion of the waters of the Missouri river on navigation, and to promote joint action
between the compact parties to accomplish these purposes. The purposes of the compact do
not include lobbying activities against user fees for barge traffic and such activities under
this compact are prohibited.

2. Article II. It is the responsibility of the four states to accomplish the purposes in
article I through the official in each state charged with the duty of administering the public
waters and to collect and correlate through those officials the data necessary for the proper
administration of the compact. Those officials may, by unanimous action, adopt rules and
regulations to accomplish the purposes of this compact.

3. Article III. The states of Iowa, Missouri, Kansas, and Nebraska agree that within a
reasonable time they shall fulfill the obligations of this compact and that each shall authorize
the proper official or agency in its state to take the necessary steps to promote barge use and
develop the Missouri river as it flows between and within the compact states for additional
barge traffic.

4. Article IV. This compact does not limit the powers granted in any other act to enter
into interstate or other agreements relating to the Missouri river flowing between and within
the compact states, alter the relations between the respective internal responsibilities of
the government of a party state and its subdivisions, or impair or affect any rights, powers,
or jurisdiction of the United States, or those acting by or under its authority, in, over, and
to those waters of the Missouri river. Adoption of this compact by the general assembly
shall not require the signatory states to adopt any legislation or to appropriate funds for its
implementation.

5. Article V.
   a. Other states having an interest in the promotion of barge traffic on the Missouri river
can join in this compact by unanimous consent of the member states.
b. Any member state can withdraw at any time by appropriate action of its legislature.

84 Acts, ch 1257, §3; 2011 Acts, ch 118, §85, 89

307C.4 Liberal interpretation.
This compact shall be liberally construed so as to effectuate its purposes. The compact is severable and if any phrase, clause, sentence or provision of this compact is declared to be contrary to the constitution of any state or of the United States or the applicability of the compact to any government, agency, person or circumstance is held invalid, the validity of the remainder of this compact and the applicability of it to any government, agency, person or circumstance shall not be affected. If this compact is held to be contrary to the constitution of any state participating in the compact, the compact shall remain in full force and effect as to the remaining party states and in full force and effect as to the state affected as to all severable matters.

308.2 Assent to federal Act.
The general assembly of the state of Iowa hereby declares that the intent of this chapter
is to assent to any Act of the United States Congress authorizing the development of any
national parkway located wholly or partly within the state of Iowa, to the full extent that
is necessary to secure any benefits under such Act, provided that the hunting of migratory
game birds and other game and fishing shall not be prohibited or otherwise restricted by
the United States government or any of its designated agencies in control of said project,
and to authorize the appropriate state boards, commissions, departments and the governing
bodies of counties, cities and villages and especially the state transportation commission to
cooperate in the planning and development of all national parkways that may be proposed for
development in Iowa, with any agency or department of the government of the United States
in which is vested the necessary authority to construct or otherwise develop such national
parkways. Whenever authority shall exist for the planning and development of any national
parkway, of which any portion shall be located in the state of Iowa, it shall be the duty of
the state transportation commission to make such investigations and studies in cooperation
with the appropriate federal agency, and such state boards, commissions, and departments
as shall have an interest in such parkway development, to the extent that shall be desirable
and necessary in order to provide that the state shall secure all advantages that may accrue
through such parkway development and that the interests of the counties, cities, and villages
along the route shall be served.

308.3 Definitions.

As used in this chapter:

1. “Conservation area” means land in which the state department of transportation or the department of natural resources has acquired rights, other than that land necessary for a right-of-way.

2. “Great river road” means a scenic and recreational highway consisting of a designated system of roads and streets along the Mississippi river in this state.

3. “National parkway” has the same meaning as defined in Pub. L. No. 93-87, first session, Ninety-third Congress of the United States.

4. “Right-of-way” means land area dedicated to public use for a highway and its maintenance, and includes land acquired in fee simple or by permanent easement for highway purposes, but does not include temporary easements or rights for supplementary highway appurtenances.

5. “A scenic and recreational highway” means a public highway designated to allow enjoyment of aesthetic and scenic views, points of historical, archaeological and scientific interest, state parks and other recreational areas and includes both the right-of-way and conservation area.

6. “Scenic easement” means a servitude which is acquired by gift, purchase, exchange or condemnation and is designed to permit land to remain in private ownership for its normal agricultural, residential or other use and, at the same time, to restrict and control the future use of the land for the purpose of preserving, restoring or enhancing the natural and historic beauty of the land subject to the scenic easement.

7. “Secretary”, “parkway”, “scenic landscape”, “sightly or safety easement”, “access”, “parkway road”, “parkway development”, “frontage” and other similar terms have the same meaning as defined in any Act of the Congress of the United States related to a national parkway.

[C62, 66, 71, 73, 75, 77, 79, 81, §308.3]

308.4 Transportation commission duties.

1. The state transportation commission shall make such investigations, surveys, studies and plans in connection with any proposed national parkway or parkway development as it shall deem necessary or desirable to determine if the proposed development is under the terms of the Act of the United States Congress applicable to such parkway or any regulations under such Act and is advantageous to the state. Such parkway development may be any portion of the proposed parkway which is proposed to be constructed as a project under such Act.

2. The state transportation commission, with the cooperation of the department of natural resources, shall plan, designate, and establish the exact routing of the great river road, utilizing the general guidelines established in Tit. 23, United States Code.

3. The director of transportation, with the cooperation of the department of natural resources, shall:

   a. Acquire all rights in land necessary for reconstruction or relocation of any portions of the great river road where reconstruction or relocation is imperative for the safety of the traveling public, or where the condition or location of existing segments of the highway is not in keeping with the intent of this chapter. Acquisitions of such rights in land shall be by gift, purchase, exchange, or by instituting and maintaining proceedings for condemnation. Gift, purchase, exchange, and condemnation include acquisition of a scenic easement. A scenic easement acquired under this chapter constitutes an easement both at law and in equity, and all legal and equitable remedies, including prohibitory and mandatory injunctions, are available to protect and enforce the state’s interest in such scenic easements. A scenic easement acquired under this chapter is deemed to be appurtenant to the roadway to which it is adjacent or from which it is visible. The duties created by a scenic easement acquired under this chapter are binding upon and enforceable against the original owner of the land subject to the scenic easement and the original owner’s heirs, successors, and assigns in perpetuity, unless the instrument creating the scenic easement expressly provides for a lesser
duration. A court shall not declare a scenic easement acquired under this chapter to have been extinguished or to have become unenforceable by virtue of changed conditions or frustration of purpose.

b. Accept and administer state, federal, and any other public or private funds made available for the acquisition of rights in land and for the planning and construction or reconstruction of any segment of the great river road, and state and federal funds for the maintenance of that part of the great river road constituting the right-of-way.

Referred to in §308.7

308.5 Jurisdiction and control.
Jurisdiction and control of the great river road is vested as provided in section 306.4.
[C75, 77, 79, 81, §308.5]
85 Acts, ch 108, §2

308.6 Transferring jurisdiction.
The director of transportation, with the concurrence of the department of natural resources, shall transfer jurisdiction of any adjacent conservation area to the department of natural resources upon completion of a new segment of the great river road.
[C75, 77, 79, 81, §308.6]
86 Acts, ch 1245, §1930

308.7 Duties of department of natural resources.
The department of natural resources, with the cooperation of the director of transportation, shall:
1. Control the conservation area acquired by the director of transportation.
2. Protect all scenic easements.
3. Maintain, improve, and beautify according to plans made under section 308.4, subsection 2, all conservation areas, including the establishment of off-road-vehicle trails, equestrian trails and hiking paths.
4. Accept and administer state, federal and any other public or private funds made available for the maintenance, improvement and beautification of conservation areas.
[C75, 77, 79, 81, §308.7]
86 Acts, ch 1245, §1931

308.8 Agreements authorized.
The director of transportation and the department of natural resources may enter into agreements with the United States secretary of transportation, as provided under the United States Code, Tit. 23 relating to the scenic and recreational highway system, and with any other agency and jurisdiction, and take action in the name of the state to comply with the terms of any agreement.
[C75, 77, 79, 81, §308.8]
86 Acts, ch 1245, §1932

308.9 Establishing locations for the highway.
1. a. When, as a result of its investigations and studies, the state transportation commission, in cooperation with the department of natural resources, finds that there may be a need in the future for the development and construction or reconstruction of segments of the great river road, and when the state transportation commission determines that in order to prevent conflicting costly economic development on areas of lands to be available for the great river road when needed for future development, there is need to establish and to inform the public of the approximate location and widths of new or improved segments of the great river road to be needed, the state transportation commission may proceed to establish the location and the approximate widths in the manner provided in this section.
b. The state transportation commission shall give notice and hold a public hearing on the matter in a convenient place in the area to be affected by the proposed improvement of the great river road. The state transportation commission shall consider and evaluate the testimony presented at the public hearing and shall make a study and prepare a map showing the location of the proposed new or reconstructed segment of the great river road and the approximate widths of right-of-way needed. The map shall show the existing roadway and the property lines and record owners of lands to be needed. The approval of the map shall be recorded by reference in the state transportation commission’s minutes, and a notice of the action and a copy of the map showing the lands or interest in the lands needed in any county shall be filed in the office of the county recorder of that county. Notice of the action and of the filing shall be published once in a newspaper of general circulation in the county, and within sixty days following the filing, notice of the filing shall be served by registered mail on the owners of record on the date of filing. Using the same procedures for approval, notice and publications, and notice to the affected record owners, the state transportation commission may amend the map.

2. After such location is established, within the area of the great river road as shown on the map or in such proximity to it as to result in consequential damages when the rights in land for the great river road are acquired, a person shall not erect or move in any additional structure or rebuild, alter or add to any existing structure, without giving to the state transportation commission by registered mail sixty days’ notice of such contemplated construction, alteration, or addition describing the same. However, this prohibition and requirement shall not apply to any normal or emergency repairs or replacements which are necessary to maintain an existing structure of a facility in approximately its previously existing functioning condition. When the rights in land for a segment of the great river road are acquired, damages shall not be allowed for any construction, alterations, or additions in violation of this subsection.

3. Without limiting any authority otherwise existing, rights in land needed for the great river road may be acquired at any time by the state, the county, or the municipality in which such segment of the great river road is located. If an owner’s contiguous land is acquired to an extent which is less than the total amount shown on the map as needed, consequential damages to the land not acquired shall be allowed as found to exist.

The measurement shall be between the inside faces of abutments, the inside faces of the exterior walls of multiple box culverts, the spring lines of arches, and the horizontal measurement of circular or elliptical structures.

   a. The length of a bridge is the overall measurement from back to back of backwalls and abutments measured along the center of the roadway.

   b. Multiple pipes, where the distance between openings is less than half the smaller contiguous opening, may be included as a bridge, provided the pipes meet the other definitional requirements for bridges in this subsection.

3. "Culvert" includes any structure not classified as a bridge which provides an opening under any roadway, except that this term does not include tile crossing the road, or intakes thereto, where the tile are a part of a tile line or system designed to aid subsurface drainage.

2. For the purposes of this section, any sums of the farm-to-market road fund allotted to any county shall be presumed to have been expended when a contract has been awarded obligating the sums. When projects and their estimated costs, which are proposed to be funded from the farm-to-market road fund, are submitted to the department for approval, the department shall estimate the total funding necessary and the period during which claims for the projects will be filed. After anticipating the funding necessary for approved projects, the department may temporarily allocate additional moneys from the farm-to-market road fund for use in any other farm-to-market projects. However, a county shall not be temporarily allocated funds for projects in excess of the county’s anticipated farm-to-market road fund allocation for the current fiscal year plus the four succeeding fiscal years.

3. If in the judgment of the department the anticipated claims against the primary road fund for any month are in excess of moneys available, a temporary transfer for highway construction costs may be made from the farm-to-market road fund to the primary road fund provided that there will remain in the transferring fund a sufficient balance to meet the anticipated obligations. All transfers shall be repaid from the primary road fund to the farm-to-market road fund within sixty days from the date of the transfer. A transfer shall be made only with the approval of the director of the department of management and shall comply with the director of the department of management’s rules relating to the transfer of funds. Similar transfers may be made by the department from the primary road fund to the farm-to-market road fund and these transfers shall be subject to the same terms and conditions that transfers from the farm-to-market road fund to the primary road fund are subject.

310.28 Engineering and other expense.
1. Engineering, inspection and administration expense in connection with any farm-to-market road project may be paid from the county’s allotment of the farm-to-market road fund. Any such expense incurred by the department may in the first instance be advanced out of the primary road fund, and such expense amounts shall later be reimbursed to the primary road fund out of the farm-to-market road fund.

2. No part of the salary or expense of the county engineer, any member of the county
board of supervisors, any member of the department, the chief engineer, or any department head or district engineer of the department shall be paid out of the farm-to-market road fund.

310.29 Maintenance by county.
Any farm-to-market road constructed under this chapter shall be maintained by the county. If any county fails to satisfactorily maintain any road that is part of the federal aid secondary system, the department shall give the board of supervisors notice of that fact. If within sixty days after receipt of notice the highway has not been placed in proper condition of maintenance the department may withhold authorization for letting of any project using farm-to-market funds until a proper condition of maintenance has been restored.

[C39, §4686.29; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §310.29; 82 Acts, ch 1110, §11]

310.30 through 310.33 Reserved.

310.34 Secondary road research fund.
Notwithstanding any law to the contrary, the department is hereby authorized to set aside each year not to exceed one and one-half percent of the receipts in the farm-to-market road fund in a fund to be known as the secondary road research fund.

[C50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §310.34]

310.35 Use of fund.
The secondary road research fund shall be used by the department solely for the purpose of financing engineering studies and research projects which have as their objective the more efficient use of funds and materials that are available for the construction and maintenance of secondary roads, including bridges and culverts located thereon.

[C50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §310.35]
Referred to in §310.36

310.36 Report to governor.
The research projects and engineering studies authorized shall be conducted in cooperation with the county engineers. On or before January 31 each year the department shall file a report with the governor, state transportation commission, county engineers, chief clerk of the house of representatives, and secretary of the senate showing the work accomplished and projects undertaken under section 310.35.

311.7 Improvement by private funds.
1. a. The owner or a group of owners of not less than seventy-five percent of the lands adjacent to, or abutting upon any secondary road may, on or before October 1 of any year, petition the board of supervisors of their county for the improvement of the road, and for the assessment of not less than fifty percent, or a greater portion as provided in the petition, of the cost of the improvement, to the lands adjacent to, or abutting upon the road. When the petition has been filed, the board of supervisors shall review the project proposed by the petition and may accept or reject the proposed project. If the board of supervisors accepts the petition, the board shall include the project in the secondary road construction program of the county and establish a priority for the completion of the project.
b. The board of supervisors shall proceed with the construction and completion of the project in accordance with its assigned priority and under the same procedure as is prescribed generally for the improvement of secondary roads by assessment, and shall establish a special secondary road assessment district and assess against the lands included in the district not less than fifty percent, or a greater portion as provided in the petition, of the engineer’s estimated cost of the improvements of the road included in the project against all the lands adjacent to or abutting upon the road.
c. However, if the owners of all the lands included in any special secondary road assessment district under this section, subscribe and deposit with the county treasurer an amount not less than fifty percent, or a greater portion as provided in the petition, of the engineer’s estimated cost of the improvement of the road included in the project, the board of supervisors shall not establish the special assessment district, but shall accept the donations in lieu of an assessment, and shall otherwise proceed to the improvement of the road.
2. The total expenditure of secondary road funds of the county in any year for or on account of special secondary road assessment district projects on local secondary roads under this section shall not exceed the total secondary road funds legally expendable for construction on local secondary roads in the county in the year.
3. Upon the completion of the road, and the satisfaction of all claims in relation to the road, any balance then remaining of the funds provided by the sponsors shall be returned to them according to their respective interests, providing all guarantees made by the sponsors have been fulfilled.

311.8 County engineer’s report.

Upon the filing of the petition with the county engineer proposing the establishment of a secondary road assessment district, the county engineer shall prepare a report on the proposed district, which report shall include:

1. An estimate of the cost of the improvement proposed on the road included in the proposed district.
2. A plat of said proposed district which plat shall show the road or roads proposed to be improved, the various tracts and parcels of real estate included in said proposed district, and the ownership of such lands.
3. An approximately equitable apportionment of not less than fifty percent of the estimated cost of the improvement among the tracts and parcels of real estate included in the proposed district.
4. A statement whether all of the secondary roads to be improved in the proposed secondary road assessment district project have been built to permanent grade and properly drained.
5. Any information the county engineer may deem pertinent.

311.9 Publicly owned real estate.

In making said apportionment, real estate owned by the state, county or any city, shall be treated as other real estate, but no other publicly owned real estate shall be included. In apportioning benefits to real estate owned by a city, the county or the state, no consideration shall be given to the buildings thereon.

Said estimated cost shall carry the presumption, in the absence of a contrary showing, that the same correctly represents the probable cost of said project as nearly as can be determined in advance of the actual doing and completion of the work. Said apportionment shall carry the presumption, in the absence of a contrary showing, that the same is fair, just, equitable, and in proportion to the benefits and not in excess thereof.

The board of supervisors shall fix a time for hearing on the proposal for the establishment of the secondary road assessment district and on the apportionment of not less than fifty percent of the estimated cost of the proposed improvement, and shall cause the county engineer to publish notice of the hearing. The notice shall state:

2. The road or roads proposed to be improved,
3. The type of surfacing proposed,
4. The estimated cost of the proposed improvement,
5. A description of the lands lying within said proposed district,
6. The ownership of said lands as shown by the transfer books in the auditor’s office,
7. A statement of the amount apportioned to each tract or parcel of real estate as shown
by the engineer’s report,
8. That at said hearing the amount apportioned to any tract or parcel of land may be
increased or decreased without further notice,
9. That all objections to the establishment of the district, to the apportionment report, or
to the proceedings relating to the district or report must be specifically made in writing and
filed with the county engineer on or before noon of the day set for the hearing, and
10. That a failure to make and file such objections will be deemed a conclusive waiver of
all such objections.

311.13 Errors in notice or apportionment report.
Any omission or error in said apportionment report or notice with respect to any tract or
parcel of real estate or the description thereof, or the name of the owner, or the amount
of the assessment apportioned thereto, shall work no loss of jurisdiction on the part of the
board over such proceeding. Such omission or error shall only affect the particular tract of
real estate or person in question. If, before or after the board has entered its final order in
the establishment of the said district or in the apportionment proceedings such omission or
error is discovered, the board shall fix a time for a hearing as to such party or real estate
and shall cause service of notice to be made upon them, either by publication as in this chapter
provided, or by personal service in the time and manner required for service of original
notices in the district court. After such hearing the board shall proceed as to such person or
land as though such omission or error had not occurred.

The appearance of any interested party, either in writing or personally, or by authorized
agent, before the board of supervisors at any stage of the pending proceedings for a secondary
road assessment district shall be deemed a full appearance. Only interested parties shall have
the right to appear in such proceedings. All persons so appearing shall state for whom they
appear. The clerk of the board shall make definite entry accordingly in the minutes of the
board.

311.15 Hearing — adjournment — order.
Hearings on the proposed establishment of said district may be adjourned from time to
time without loss of jurisdiction by the board. On final hearing the board shall proceed to a
determination of said matters. It may reject, approve, or modify and approve said proposal.
The board may exclude lands from the district or may add lands thereto or otherwise modify
the proposal.
Should the proposal be approved in whole or in part, the board shall establish such district.
The order of the board establishing such district shall state the road or roads to be improved,
the type of improvement, and the lands included in said district. Said order shall be final. No lands shall thereafter be added to or excluded from said district.

On final hearing the board shall hear and determine all objections filed. The board may increase, diminish, annul, or affirm the apportionment made in said report, or any part thereof, as may appear to the board to be just and equitable.

On the final determination the board shall levy the assessments and all installments thereof upon the real estate within the district as finally established. The entire amount of the assessment shall be then due and payable, and bear interest at a rate not exceeding that permitted by chapter 74A commencing twenty days from the date of the levy, and shall be collected at the succeeding September semiannual payment of ordinary taxes.

[C24, §4710; C27, 31, 35, §4753-a3; C39, §4753.03; C46, §311.13; C50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §311.16]

311.17 Assessments over five hundred dollars — waiver.

1. If an owner other than the state or a county or city, of any tracts of land on which the assessment is more than five hundred dollars, shall, within twenty days from the date of the assessment, agree in writing filed in the office of the county auditor, that in consideration of the owner having the right to pay the assessment in installments, the owner will not make any objection of illegality or irregularity as to the assessment upon the real estate, and will pay the assessment plus interest, the assessment shall be payable in ten equal installments. The first installment shall be payable on the date of the agreement. The other installments shall be paid annually at the same time and in the same manner as the September semiannual payment of ordinary taxes with interest accruing as provided in section 384.65, subsection 3. The rate of interest shall be as established by the board, but not exceeding that permitted by chapter 74A.

2. An owner of land who has used the ten-year option may at any time discharge the assessment by paying the balance then due on all unpaid installments, with interest on the entire amount of the unpaid installments to the following December 1.

The assessed taxes shall become delinquent from October 1 after their maturity. However, when the last day of September is a Saturday or Sunday, the assessed taxes shall become delinquent from the second business day of October. Taxes assessed pursuant to this chapter which become delinquent shall bear the same interest, and be attended with the same rights and remedies for collection, as ordinary taxes.

In case of assessments on lands owned by the county, the assessments shall be paid from the county treasury. In case of assessments on lands owned by the state, the assessments shall be paid out of any funds in the state treasury not otherwise appropriated. In case of

311.20 Variation between estimated and actual cost.
Any variation between the engineer’s estimated cost and the actual cost of a secondary road assessment district project shall in no way affect the validity of the assessment. It is the intent of this chapter that the assessment shall be based on the estimated cost and not on the actual cost.

The preparation and approval of plans and specifications, the advertising for bids, the award and approval of contract, the supervision and inspection of construction work, and the approval and payment of claims on any secondary road assessment district project, shall be conducted in the manner provided in the laws for secondary road construction work generally.
[C24, 27, 31, 35, 39, §4749, 4752; C46, §311.6, 311.9; C50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §311.21]

311.22 Road graded and drained.
Any such secondary road shall be built to permanent grade and drained in a manner approved by the county engineer before being surfaced, as provided in this chapter.
[C27, 31, 35, 39, §4746; C46, §311.3; C50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §311.22]

311.23 Payment of construction costs.
The total cost of any secondary road assessment district project shall in the first instance be paid out of the county treasury. Any assessments which are paid in cash and in anticipation of which assessments no certificates have been issued, shall be transferred to the county treasury.
If no special assessment certificates are issued and sold on account of any particular secondary road assessment district, the special assessments on lands included in that district, and the interest on the assessments when collected, shall be transferred to the secondary road fund of the county. If certificates are issued and sold in anticipation of the special assessments levied on a district, the proceeds of the certificates shall be credited to the county treasury. In that event, the special assessments in anticipation of which certificates have been issued, and the interest on the assessments shall, when collected, be used to retire the certificates.

311.24 Appeal from assessment.
Any owner of land in a secondary road assessment district may appeal to the district court from the order of the board of supervisors in levying the assessment against the owner’s real estate, by filing with the county engineer within fifteen days of the date of the levy, a bond conditioned to pay all costs in case the appeal is not sustained, and a written notice of appeal where the owner shall, with particularity, point out the specific objection which the owner desires to lodge against the levy. The appeal has precedence over all other business pending before the court except criminal matters. The appeal shall be heard as in equity. The court may raise or lower the assessment in question and make an equitable assessment in the judgment of the court. The clerk of the district court shall, upon the entry of the final order of
§311.24, SECONDARY ROAD ASSESSMENT DISTRICTS  III-786

the court, certify the final order to the county engineer. The board of supervisors shall adjust the assessments to comply with the final order of the court.

311.25 Appeal docketed.  
When an appeal is taken, the county engineer shall make a transcript of the notice of appeal and appeal bond and transmit them to the district court. The appellant shall, within twenty days after perfection of the appeal, docket the appeal and file a petition setting forth the order or decision of the board of supervisors appealed from, and the appellant’s specific objections. A failure to comply with either of these requirements is a conclusive waiver of the appeal and the court shall dismiss the petition. Appellee need not file answer, but may do so.

Upon the signing of each of the certificates by the chairperson of the board, the certificates shall be delivered to the county treasurer, who shall countersign them and who shall be responsible for them on the treasurer’s bond. The treasurer may apply the certificates in payment of warrants duly authorized and issued for improving the roads within the district, or the treasurer may sell the certificates for the best attainable price and for not less than par, plus accrued interest. The certificates shall be retired in the order of their numbering.

Any road established by petition and any road improved by petition under this chapter shall be administered and maintained by the county under chapters 306, 309, 314, 317, and 318. However, the fact that right-of-way is donated by property owners for the establishment of a road or a portion of the cost of a road improvement is paid by property owners under this chapter, does not preclude the board of supervisors from exercising its responsibility over these roads as secondary roads.

3. In any case where a city has been incorporated since the latest available federal census the mayor and council shall certify to the state treasurer the actual population of such incorporated city as of the date of incorporation and its apportionment of funds under this section shall be based upon such certification until the next federal census enumeration. Any community which has dissolved its corporation shall not receive any apportionment of funds under this certificate for any period after said corporation has been dissolved.

GENERAL PROVISIONS

313.1 Federal and state cooperation.
The department is empowered on behalf of the state to enter into any arrangement or contract with and required by the duly constituted federal authorities, in order to secure the full cooperation of the government of the United States, and the benefit of all present and future federal allotments in aid of highway construction, reconstruction, improvement or maintenance. The good faith of the state is hereby pledged to cause to be made available each year, sufficient funds to equal the total of any sums now or hereafter apportioned to the state for road purposes by the United States government for such year, and to maintain the roads constructed with said funds.

[C24, §4688; C27, 31, 35, §4755-b1; C39, §4755.01; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §313.1]

313.2 “Road systems” defined — roadside parks.
1. The roads and streets of the state are, for the purpose of this chapter, those roads and streets established under chapter 306.
2. a. Whenever the board of supervisors of a county and the department mutually determine that a portion of a highway under the jurisdiction of either party should be transferred to the jurisdiction of the other party, the board and department may enter into an agreement to effect such transfer. Such agreement may provide that each party may undertake or share responsibility for improving said road with the costs of such improvement to be borne entirely by either the county or the department or equitably divided between the two jurisdictions. All such improvements shall be completed and all actual costs thereof paid or reimbursed prior to the time transfer of the road is made. In carrying out such agreement, the board of supervisors may expend secondary road funds of the county and the department may expend primary road funds.
   b. However, prior to entering into the agreement, a notice of intent to execute such agreement shall be published in a newspaper of general circulation within the county and the cost of such notice shall be jointly borne by the department and the board of supervisors. If one hundred or more residents of the county request by petition or in writing that a hearing be held in regard to such agreement within ten days after the publication of the notice, the board of supervisors and the department shall hold such a hearing not more than seven days after receiving the petition or written instrument. Based upon evidence presented at the hearing, the board of supervisors and the department shall reexamine the merits of executing such agreement and make a decision in regard to it.
3. The department may, for the purpose of affording access to cities or state parks, or for the purpose of shortening the direct line of travel on important routes, or to effect connections with interstate roads at the state line, add such road or roads to the primary road system.
4. The department, either alone or in cooperation with any county, shall have the authority to utilize any land acquired incidental to the acquisition of land for highway right-of-way and to also accept by gift lands not exceeding two acres in area for roadside parks and parking areas. The department may furnish necessary maintenance. The department shall also have authority to accept by gift equipment or other installations incidental to the use of said parks and parking areas. The parks and parking areas shall be a part of the primary road system and the department may at its discretion sell or otherwise dispose of the lands.
5. Reasonable maintenance and surveillance of rest area sites and buildings located on the sites shall be provided by employees of the department within the limits of appropriations provided for such purpose.

Referred to in §306.42, 331.362
313.2A Commercial and industrial highways.

1. **Purpose.** It is the purpose of this section to enhance opportunities for the development and diversification of the state’s economy through the identification and improvement of a network of commercial and industrial highways. The network shall consist of interconnected routes which provide long distance route continuity. The purpose of this highway network shall be to improve the flow of commerce; to make travel more convenient, safe, and efficient; and to better connect Iowa with regional, national, and international markets. The commission shall concentrate a major portion of its annual construction budget on this network of commercial and industrial highways. In order to ensure the greatest possible availability of funds for the improvement of the network, primary highway funds shall not be spent beyond continuing maintenance for improvements to route segments that will be bypassed by the relocation of portions of the commercial and industrial highway network.

2. **Network selection.**

   a. The commission shall identify, within the primary road system, a network of commercial and industrial highways. The commission shall consider all of the following factors in the identification of this network:

      (1) The connection by the most direct routes feasible of major urban areas and regions of the state to each other and to the national system of interstate and defense highways and priority routes in adjacent states.

      (2) The existence of high volumes of total traffic and commercial traffic.

      (3) Long distance traffic movements.

      (4) Area coverage and balance of spacing with service to major growth centers within the state.

      (5) Metropolitan area bypasses consistent with metropolitan or regional area plans established through cooperation by the department and local officials.

   b. The network of commercial and industrial highways shall not exceed two thousand six hundred miles including municipal extensions of these highways.

3. **Standards.** The department shall establish standards pertaining to the specific location, design, and access control for each segment of the commercial and industrial highways.

4. **Network development.** In establishing priorities for improvement projects, the department shall take into consideration the following additional criteria: urban area bypasses that improve urban or regional accessibility; projects consistent with urban or metropolitan transportation plans established through cooperation by the department and local officials; and the willingness of local officials to provide financial or other assistance for the development of projects.

   c. The commission may, after consultation with stakeholders including regional planning affiliations, metropolitan planning organizations, the Iowa state association of counties, and the Iowa league of cities, periodically allocate moneys from the fund for the establishment, construction, and maintenance of the secondary road system and the municipal street system in exchange for retaining all or a portion of federal aid road funds that would otherwise be allocated to counties and cities.

The department shall advertise for bids for the construction, reconstruction, improvement, repair or remodeling of any toll bridge by publication of a notice once each week for at least two consecutive weeks in a newspaper published and having a general circulation throughout the state of Iowa, the first publication to appear at least fifteen days prior to the date set for receiving bids. The department shall have the power to accept such offer or offers, propositions or bids, and enter into such contract or contracts as it shall deem to be to the best interest of the state.

313A.3 Toll bridges constructed over boundary rivers.

The department is hereby authorized to establish and construct toll bridges upon any public highway, together with approaches thereto, wherever it is considered necessary or advantageous and practical for crossing any navigable river between this state and an adjoining state. The necessity or advantage and practicality of any toll bridge shall be determined by the department. To obtain information for the consideration of the department upon the construction of any toll bridge or any other matter pertaining thereto, any officer or employee of the state, upon the request of the department, shall make reasonable examination, investigation, survey, or reconnoissance to determine material facts pertaining thereto and shall report such findings to the department. The cost thereof shall be borne by the department or office conducting it from funds provided for its functions.

313A.4 Investigation of feasibility.

The department is hereby authorized to enter into agreements with any federal bridge commission or any county or city of this state, and with an adjoining state or county, city, or town thereof, for the purpose of implementing an investigation of the feasibility of any toll bridge project for the bridging of a navigable river forming a portion of the boundary of this state and such adjoining state. The department may use any funds available for the purposes of this section. Such agreements may provide that in the event any such project is determined to be feasible and adopted, any advancement of funds by any state, county or city may be reimbursed out of any proceeds derived from the sale of bonds or out of tolls and revenues to be derived from such project.

313A.5 Acquiring existing bridge — bonds.
Whenever the department deems it necessary or advantageous and practical, it may acquire by gift, purchase, or condemnation any interstate bridge which connects with or may be connected with the public highways and the approaches thereto, except that the department may not condemn an existing interstate bridge used for interstate highway traffic and combined highway and railway traffic and presently owned by a municipality, or a person, firm, or corporation engaged in interstate commerce. The department may also acquire by gift or purchase two or more existing interstate bridges and any partially constructed interstate bridge, all located within ten miles of each other, complete the partially constructed bridge and dismantle the bridge which it is designed to replace. In connection with the acquisition of any such bridge, bridges, or partially constructed bridge, the department and any federal bridge commission or any city, county, or other political subdivision of the state are authorized to do all acts and things as in this chapter are provided for the establishing and constructing of toll bridges and operating, financing, and maintaining such bridges insofar as such powers and requirements are applicable to the acquisition of any toll bridge and its operation, financing, and maintenance. In so doing, they shall act in the same manner and under the same procedures as provided for establishing, constructing, operating, financing, and maintaining toll bridges insofar as such manner and procedures are applicable. Without limiting the generality of the above provisions, the department is hereby authorized to cause surveys to be made to determine the propriety of acquiring any such bridge and the rights-of-way necessary therefor, and other facilities necessary to carry out the provisions hereof; to issue, sell, redeem bonds or issue and exchange bonds with present holders of outstanding bonds of bridges being acquired under the provisions of this chapter and deposit and pay out of the proceeds of the bonds for the financing thereof, to impose, collect, deposit, and expend tolls therefrom; to secure and remit financial and other assistance in connection with the purchase thereof; and to carry insurance thereon.

[C71, 73, 75, 77, 79, 81, §313A.5]

313A.6 Rules adopted — financial statements.
The department, its officials, and all state officials are hereby authorized to perform such acts and make such agreements consistent with the law which are necessary and desirable in connection with the duties and powers conferred upon them regarding the construction, maintenance, and operation and insurance of toll bridges or the safeguarding of the funds and revenues required for such construction and the payment of the indebtedness incurred therefor. The department shall adopt such rules and regulations in accordance with the provisions of chapter 17A as it may deem necessary for the administration and exercise of its powers and duties granted by this chapter, and shall prepare annual financial statements regarding the operation of such toll bridges which shall be made available for inspection by the public and by the holders of revenue bonds issued by the department under the provisions of this chapter at all reasonable times.

[C71, 73, 75, 77, 79, 81, §313A.6]

313A.7 Resolution of public interest and necessity — revenue bonds.
1. Whenever the department deems it to be in the best interest of the primary highway system that any new toll bridge be constructed upon any public highway and across any navigable river between this state and an adjoining state, the department shall adopt a resolution declaring that the public interest and necessity require the construction of such toll bridge and authorizing the issuance of revenue bonds in an amount sufficient for the purpose of obtaining funds for such construction. The issuance of bonds as provided in this chapter for the construction, purchase, or acquisition of more than one toll bridge may, at the discretion of the department, be included in the same authority and issue or issues of bonds, and the department is hereby authorized to pledge the gross revenues derived from the operation of any such toll bridge under its control and jurisdiction to pay the principal of and interest on bonds issued to pay the cost of purchasing, acquiring, or constructing any such toll bridge financed under the provisions of this chapter. The department is hereby
§313A.7, INTERSTATE BRIDGES

granted wide discretion, in connection with the financing of the cost of any toll bridge, to pledge the gross revenues of a single toll bridge for the payment of bonds and interest thereon issued to pay the cost of such bridge and to pledge the gross revenues of two or more toll bridges to pay bonds issued to pay the cost of one or more toll bridges and interest thereon as long as the several bridges included herein are not more than ten miles apart.

2. In addition, if the department in its discretion determines that the construction of a toll bridge cannot be financed entirely through revenue bonds and that the construction of such toll bridge is necessary, the department may advance funds from the primary highway fund to pay for part of the construction cost, including the cost of approaches and all incidental costs, which is not paid out of the proceeds of revenue bonds. However, said funds advanced from the primary highway fund shall be used only to pay the construction cost, including the cost of approaches and all incidental costs, with respect to that part of the bridge which is or will be located within the state of Iowa. After all revenue bonds and interest thereon issued and sold pursuant to this chapter and payable from the tolls and revenues of said bridge have been fully paid and redeemed or funds sufficient to pay said bonds and interest, including premium, if any, have been set aside and pledged for that purpose, then such amount advanced from the primary road fund shall be repaid to the primary road fund from the tolls and revenues of said bridge before said bridge is made a toll free bridge under the provisions of this chapter.

[C71, 73, 75, 77, 79, 81, §313A.7] Referred to in §313A.16

313A.8 Right-of-way secured.
Whenever the department shall authorize the construction of any toll bridge, the department is empowered to secure rights-of-way therefor and for approaches thereto by gift or purchase or by condemnation in the manner provided by law for the taking of private property for public purposes.

[C71, 73, 75, 77, 79, 81, §313A.8]

313A.9 Consent to cross state property.
The right-of-way is hereby given, dedicated, and set apart upon which to locate, construct, and maintain toll bridges or approaches thereto or other highway crossings, and transportation facilities thereof or thereto, through, over or across any of the lands which are now or may be the property of this state, including highways; and through, over, or across the streets, alleys, lanes, and roads within any city, county, or other political subdivision of the state. If any property belonging to any city, county or other political subdivision of the state is required to be taken for the construction of any such bridge or approach thereto or should any such property be injured or damaged by such construction, such compensation therefor as may be proper or necessary and as shall be agreed upon may be paid by the department to the particular county, city or other political subdivision of the state owning such property, or condemnation proceedings may be brought for the determination of such compensation.

[C71, 73, 75, 77, 79, 81, §313A.9]

313A.10 Resolution precedent to action.
Before the department shall proceed with any action to secure right-of-way or with the construction of any toll bridge under the provisions of this chapter, it shall first pass a resolution finding that public interest and necessity require the acquisition of right-of-way for and the construction of such toll bridge. Such resolution shall be conclusive evidence of the public necessity of such construction and that such property is necessary therefor. To aid the department in determining the public interest, a public hearing shall be held in the county or counties of this state in which any portion of a bridge is proposed to be located. Notice of such hearing shall be published at least once in a newspaper published and having a general circulation in the county or counties where such bridge is proposed to be located, not less than twenty days prior to the date of the hearing. When it becomes necessary for the department to condemn any real estate to be used in connection with any such bridge,
or to condemn any existing bridge, such condemnation shall be carried out in a manner consistent with the provisions of chapters 6A and 6B. In eminent domain proceedings to acquire property for any of the purposes of this chapter, any bridge, real property, personal property, franchises, rights, easements, or other property or privileges appurtenant thereto appropriated or dedicated to a public use or purpose by any person, firm, private, public or municipal corporation, county, city, district or any political subdivision of the state, may be condemned and taken, and the acquisition and use thereof as herein provided for the same public use or purpose to which such property has been so appropriated or dedicated, or for any other public use or purpose, shall be deemed a superior and permanent right and necessity, and a more necessary use and purpose than the public use or purpose to which such property has already been appropriated or dedicated, and any condemnation award may be paid from the proceeds of revenue bonds issued under the provisions of this chapter.

[C71, 73, 75, 77, 79, 81, §313A.10]

313A.11 Payment from available funds.
If the department determines that any toll bridge should be constructed or acquired under its authority, all costs thereof, including land, right-of-way, surveying, engineering, construction, legal and administrative expenses, and fees of any fiscal adviser, shall be paid out of any funds available for payment of the cost of the bridge.

[C71, 73, 75, 77, 79, 81, §313A.11]

313A.12 Revenue bonds.
1. The department is hereby authorized and empowered to issue revenue bonds for the acquisition, purchase, or construction of any interstate bridge. Any and all bonds issued by the department for the acquisition, purchase, or construction of any interstate bridge under the authority of this chapter shall be issued in the name of the department and shall constitute obligations only of the department, shall be identified by some appropriate name, and shall contain a recital on the face thereof that the payment or redemption of said bonds and the payment of the interest thereon are secured by a direct charge and lien upon the tolls and other revenues of any nature whatever received from the operation of the particular bridge for the acquisition, purchase, or construction of which the bonds are issued and of such other bridge or bridges as may have been pledged therefor; and that neither the payment of the principal or any part thereof nor of the interest thereon or any part thereof constitutes a debt, liability, or obligation of the state of Iowa. When it is determined by the department to be in the best public interest, any bonds issued under the provisions of this chapter may be refunded and refinanced at a lower rate, the same rate or a higher rate or rates of interest and from time to time as often as the department shall find it to be advisable and necessary so to do. Bonds issued to refund other bonds theretofore issued by the department under the provisions of this chapter may either be sold in the manner hereinafter provided and the proceeds thereof applied to the payment of the bonds being refunded, or the refunding bonds may be exchanged for and in payment and discharge of the bonds being refunded. The refunding bonds may be sold or exchanged in installments at different times or an entire issue or series may be sold or exchanged at one time. Any issue or series of refunding bonds may be exchanged in part or sold in part in installments at different times or at one time. The refunding bonds may be sold at any time on, before, or after the maturity of any of the outstanding bonds to be refinanced thereby and may be issued for the purpose of refunding a like or greater principal amount of bonds, except that the principal amount of the refunding bonds may exceed the principal amount of the bonds to be refunded to the extent necessary to pay any premium due on the call of the bonds to be refunded or to fund interest in arrears or about to become due. The gross revenues of any toll bridge pledged to the payment of the bonds being refunded, together with the unpledged gross revenues of any other toll bridges located within ten miles of said bridge, may be pledged by the department to pay the principal of and interest on the refunding bonds and to create and maintain reserves therefor.

2. The department is empowered to receive and accept funds from the state of Iowa or the federal government or any other state upon a cooperative or other basis for the acquisition, purchase, or construction of any interstate bridge authorized under the provisions of this
chapter and is empowered to enter into such agreements with the state of Iowa or any other
state or the federal government as may be required for the securing of such funds.

3. The department is authorized and empowered to spend from annual primary road
fund receipts sufficient moneys to pay the cost of operation, maintenance, insurance,
collection of tolls and accounting therefor and all other charges incidental to the operation
and maintenance of any toll bridge administered under the provisions of this chapter.
However, said annual primary road fund receipts shall be used only to pay such costs and
charges with respect to that part of the bridge which is located within the state of Iowa.

4. The department may also issue its revenue bonds to pay all or any part of the cost
of acquiring two or more existing interstate bridges and any partially constructed interstate
bridge, all located within ten miles of each other, of completing the partially constructed
bridge and of dismantling the bridge which it is designed to replace, and to impose and collect
tolls on all of such bridges and to pledge the revenues derived therefrom to the payment of the
bonds issued to finance such project. The department may also issue its revenue bonds to pay
all or any part of the cost of reconstructing, completing, improving, repairing, or remodeling
any interstate bridge or partially constructed bridge, impose and collect tolls, and pledge the
bridge revenues to the payment of said bonds.

2017 Acts, ch 54, §76
Referred to in §313A.16

313A.13 Sale and exchange or retirement of bonds.
The revenue bonds may be issued and sold or exchanged by the department from time
to time and in such amounts as it deems necessary to provide sufficient funds for the
acquisition, purchase, or construction of any such bridge and to pay interest on bonds
issued for the construction of any toll bridge during the period of actual construction and
for six months after completion thereof. The department is hereby authorized to adopt all
necessary resolutions prescribing the form, conditions, and denominations of the bonds,
the maturity dates therefor, and the interest rate or rates which the bonds shall bear. All
bonds of the same issue need not bear the same interest rate. Principal and interest of
the bonds shall be payable at such place or places within or without the state of Iowa as
determined by the department, and the bonds may contain provisions for registration as to
principal or interest, or both. Interest shall be payable at such times as determined by the
department and the bonds shall mature at such times and in such amounts as the department
prescribes. The department may provide for the retirement of the bonds at any time prior
to maturity, and in such manner and upon payment of such premiums as it may determine
in the resolution providing for the issuance of the bonds. All such bonds and any coupons
attached thereto shall be signed by such officials of the department as the department may
direct. Successive issues of such bonds within the limits of the original authorization shall
have equal preference with respect to the payment of the principal thereof and the payment
of interest thereon. The department may fix different maturity dates, serially or otherwise,
for successive issues under any one original authorization. All bonds issued under the
provisions of this chapter shall have all the qualities of negotiable instruments under the
laws of the state of Iowa. All bonds issued and sold hereunder shall be sold to the highest
and best bidder on the basis of sealed proposals received pursuant to a notice specifying
the time and place of sale and the amount of bonds to be sold which shall be published at
least once not less than seven days prior to the sale in a newspaper published in the state
of Iowa and having a general circulation in said state. None of the provisions of chapter 75
shall apply to bonds issued under the provisions of this chapter but such bonds shall be sold
upon terms of not less than par plus accrued interest. The department may reject any or
all bids received at the public sale and may thereafter sell the bonds at private sale on such
terms and conditions as it deems most advantageous to its own interests, but not at a price
below that of the best bid received at the advertised sale. The department may enter into
contracts and borrow money through the sale of bonds of the same character as those herein
authorized, from the United States or any agency thereof, upon such conditions and terms as
may be agreed to and the bonds shall be subject to all the provisions of this chapter, except
that any bonds issued hereunder to the United States or any agency thereof need not first be offered at public sale. The department may also provide for the private sale of bonds issued under the provisions of this chapter to the state treasurer of Iowa upon such terms and conditions as may be agreed upon, and in such event said bonds need not first be offered at public sale. Temporary or interim bonds, certificates, or receipts, of any denomination, and with or without coupons attached, signed by such official as the department may direct, may be issued and delivered until the definitive bonds are executed and available for delivery.

[C71, 73, 75, 77, 79, 81, §313A.13]

313A.14 Proceeds in trust fund.

The proceeds from the sale of all bonds authorized and issued under the provisions of this chapter shall be deposited by the department in a fund designated as the construction fund of the particular interstate bridge or bridges for which such bonds were issued and sold, which fund shall not be a state fund and shall at all times be kept segregated and set apart from all other funds and in trust for the purposes herein set out. Such proceeds shall be paid out or disbursed solely for the acquisition, purchase, or construction of such interstate bridge or bridges and expenses incident thereto, the acquisition of the necessary lands and easements therefor and the payment of interest on such bonds during the period of actual construction and for a period of six months thereafter, only as the need therefor shall arise and the department may agree with the purchaser of said bonds upon any conditions or limitations restricting the disbursement of such funds that may be deemed advisable, for the purpose of assuring the proper application of such funds. All moneys in such fund and not required to meet current construction costs of the interstate bridge or bridges for which such bonds were issued and sold, and all funds constituting surplus revenues which are not immediately needed for the particular object or purpose to which they must be applied or are pledged may be invested in obligations issued or guaranteed by the United States or by any person controlled by or supervised by and acting as an instrumentality of the United States pursuant to authority granted by the Congress of the United States; provided, however, that the department may provide in the proceedings authorizing the issuance of said bonds that the investment of such moneys shall be made only in particular bonds and obligations within the classifications eligible for such investment and such provisions shall thereupon be binding upon the department and all officials having anything to do with such investment. Any surplus which may exist in said construction fund shall be applied to the retirement of bonds issued for the acquisition, purchase, or construction of any such interstate bridge by purchase or call and, in the event such bonds cannot be purchased at a price satisfactory to the department and are not by their terms callable prior to maturity, such surplus shall be paid into the fund applicable to the payment of principal and interest of said bonds and shall be used for that purpose. The proceedings authorizing the issuance of bonds may provide limitations and conditions upon the time and manner of applying such surplus to the purchase and call of outstanding bonds and the terms upon which they shall be purchased or called and such limitations and conditions shall be followed and observed in the application and use of such surplus. All bonds so retired by purchase or call shall be immediately canceled.

[C71, 73, 75, 77, 79, 81, §313A.14]

313A.15 Toll revenue fund.

All tolls or other revenues received from the operation of any toll bridge acquired, purchased, or constructed with the proceeds of bonds issued and sold hereunder shall be deposited by the department to the credit of a special trust fund to be designated as the toll revenue fund of the particular toll bridge or toll bridges producing such tolls or revenue, which fund shall be a trust fund and shall at all times be kept segregated and set apart from all other funds.

[C71, 73, 75, 77, 79, 81, §313A.15]

313A.16 Funds transferred to place of payment.

From the money so deposited in each separate construction fund as hereinabove provided, at the direction of the department there shall be transferred to the place or places of payment
named in said bonds such sums as may be required to pay the interest as it becomes due on all bonds issued and outstanding for the construction of such particular toll bridge or toll bridges during the period of actual construction and during the period of six months immediately thereafter. The department shall thereafter transfer from each separate toll revenue fund to the place or places of payment named in the bonds for which said revenues have been pledged such sums as may be required to pay the interest on said bonds and redeem the principal thereof as such interest and principal become due. All funds so transferred for the payment of principal of or interest on bonds issued for any particular toll bridge or toll bridges shall be segregated and applied solely for the payment of said principal or interest. The proceedings authorizing the issuance of the bonds may provide for the setting up of a reserve fund or funds out of the tolls and other revenues not needed for the payment of principal and interest, as the same currently matures and for the preservation and continuance of such fund in a manner to be provided therein, and such proceedings may also require the immediate application of all surplus moneys in such toll revenue fund to the retirement of such bonds prior to maturity, by call or purchase, in such manner and upon such terms and the payment of such premiums as may be deemed advisable in the judgment of the department. The moneys remaining in each separate toll revenue fund after providing the amount required for the payment of principal of and interest on bonds as hereinabove provided, shall be held and applied as provided in the proceedings authorizing the issuance of said bonds. In the event the proceedings authorizing the issuance of said bonds do not require surplus revenues to be held or applied in any particular manner, they shall be allocated and used for such other purposes incidental to the construction, operation, and maintenance of any toll bridge as the department may determine and as permitted under sections 313A.7 and 313A.12.

[C71, 73, 75, 77, 79, 81, §313A.16]

313A.17 Warrants for payment.
Warrants for payments to be made on account of such bonds shall be drawn by the department on duly approved vouchers. Moneys required to meet the costs of purchase or construction and all expenses and costs incidental to the acquisition, purchase, or construction of any particular interstate bridge or to meet the costs of operating, maintaining, and repairing the same, shall be paid by the department from the proper fund therefor upon duly approved vouchers. All interest received or earned on money deposited in each and every fund herein provided for shall be credited to and become a part of the particular fund upon which said interest accrues.
[C71, 73, 75, 77, 79, 81, §313A.17]

313A.18 Depositaries or paying agents.
The department may provide in the proceedings authorizing the issuance of bonds or may otherwise agree with the purchasers of bonds regarding the deposit of all moneys constituting the construction fund and the toll revenue fund and provide for the deposit of such money at such times and with such depositaries or paying agents and upon the furnishing of such security as may meet with the approval of the purchasers of such bonds.
[C71, 73, 75, 77, 79, 81, §313A.18]

313A.19 Expenses of department.
Notwithstanding any provision contained in this chapter, the proceeds received from the sale of bonds and the tolls or other revenues received from the operation of any toll bridge may be used to defray any expenses incurred by the department in connection with and incidental to the issuance and sale of bonds for the acquisition, purchase, or construction of any such toll bridge including expenses for the preparation of surveys and estimates, legal, fiscal and administrative expenses, and the making of such inspections and examinations as may be required by the purchasers of such bonds; provided, that the proceedings authorizing the issuance of such bonds may contain appropriate provisions governing the use and application of said bond proceeds and toll or other revenues for the purposes herein specified.
[C71, 73, 75, 77, 79, 81, §313A.19]
313A.20 No diminution of duties while bonds outstanding.
While any bonds issued by the department remain outstanding, the powers, duties or existence of the department or of any other official or agency of the state shall not be diminished or impaired in any manner that will affect adversely the interests and rights of the holders of such bonds. The holder of any bond may by mandamus or other appropriate proceeding require and compel the performance of any of the duties imposed upon any state department, official, or employee or imposed upon the department or its officers, agents, and employees in connection with the acquisition, purchase, construction, maintenance, operation, and insurance of any bridge and in connection with the collection, deposit, investment, application, and disbursement of all tolls and other revenues derived from the operation and use of any bridge and in connection with the deposit, investment, and disbursement of the proceeds received from the issuance of bonds; provided, that the enumeration of such rights and remedies herein shall not be deemed to exclude the exercise or prosecution of any other rights or remedies by the holders of such bonds.
[C71, 73, 75, 77, 81, §313A.20]

313A.21 Insurance or indemnity bond.
When any toll bridge authorized hereunder is being built by the department it may carry or cause to be carried such an amount of insurance or indemnity bond or bonds as protection against loss or damage as it may deem proper. The department is hereby further empowered to carry such an amount of insurance to cover any accident or destruction in part or in whole to any toll bridge. All moneys collected on any indemnity bond or insurance policy as the result of any damage or injury to any such toll bridge shall be used for the purpose of repairing or rebuilding of any such toll bridge as long as there are revenue bonds against any such structure outstanding and unredeemed. The department is also empowered to carry insurance or indemnity bonds insuring against the loss of tolls or other revenues to be derived from any such toll bridge by reason of any interruption in the use of such toll bridge from any cause whatever, and the proceeds of such insurance or indemnity bonds shall be paid into the fund into which the tolls and other revenues of the bridge thus insured are required to be paid and shall be applied to the same purposes and in the same manner as other moneys in the said fund. Such insurance or indemnity bonds may be in an amount equal to the probable tolls and other revenues to be received from the operation of such toll bridge during any period of time that may be determined upon by the department and fixed in its discretion, and be paid for out of the toll revenue fund as may be specified in said proceedings. The department may provide in the proceedings authorizing the issuance of bonds for the carrying of insurance as authorized by this chapter and the purchase and carrying of insurance as authorized by this chapter shall thereupon be obligatory upon the department and be paid for out of the toll revenue fund as may be specified in said proceedings.
[C71, 73, 75, 77, 81, §313A.21]

313A.22 Toll charges fixed by department.
The department is hereby empowered to fix the rates of toll and other charges for all interstate bridges acquired, purchased, or constructed under the terms of this chapter. Toll charges so fixed may be changed from time to time as conditions may warrant. The department in establishing toll charges shall give due consideration to the amount required annually to pay the principal of and interest on bonds payable from the revenues thereof. The tolls and charges shall be at all times fixed at rates sufficient to pay the bonds and interest as they mature, together with the creation and maintenance of bond reserve funds and other funds as established in the proceedings authorizing the issuance of the bonds, for any particular toll bridge. The amounts required to pay the principal of and interest on bonds shall constitute a charge and lien on all such tolls and other revenues and interest thereon and sinking funds created therefrom received from the use and operation of said toll bridge, and the department is hereby authorized to pledge a sufficient amount of said tolls and revenues for the payment of bonds issued under the provisions of this chapter and interest thereon and to create and maintain a reserve therefor. Such tolls and revenues,
together with the interest earned thereon, shall constitute a trust fund for the security and payment of such bonds and shall not be used or pledged for any other purpose as long as such bonds or any of them are outstanding and unpaid.

[C71, 73, 75, 77, 79, 81, §313A.22]

313A.23 Political subdivision may aid.
Whenever a proposed interstate bridge is to be acquired, purchased or constructed, any city, county, or other political subdivision located in relation to such facility so as to benefit directly or indirectly thereby, may, either jointly or separately, at the request of the department advance or contribute money, rights-of-way, labor, materials, and other property toward the expense of acquiring, purchasing or constructing the bridge, and for preliminary surveys and the preparation of plans and estimates of cost therefor and other preliminary expenses. Any such city, county, or other political subdivision may, either jointly or separately, at the request of the department advance or contribute money for the purpose of guaranteeing the payment of interest or principal on the bonds issued by the department to finance the bridge. Appropriations for such purposes may be made from any funds available, including county road funds received from or credited by the state, or funds obtained by excess tax levies made pursuant to law or the issuance of general obligation bonds for this purpose. Money or property so advanced or contributed may be immediately transferred or delivered to the department to be used for the purpose for which contribution was made. The department may enter into an agreement with a city, county, or other political subdivision to repay any money or the value of a right-of-way, labor, materials or other property so advanced or contributed. The department may make such repayment to a city, county, or other political subdivision and reimburse the state for any expenditures made by it in connection with the bridge out of tolls and other revenues for the use of the bridge.

[C71, 73, 75, 77, 79, 81, §313A.23]

313A.24 Sale of excess land to political subdivisions.
If the department deems that any land, including improvements thereon, is no longer required for toll bridge purposes and that it is in the public interest, it may negotiate for the sale of such land to the state or to any city, county, or other political subdivision or municipal corporation of the state. The department shall certify the agreement for the sale to the state executive council, with a description of the land and the terms of the sale and the state executive council may execute the deed and deliver it to the grantee.

[C71, 73, 75, 77, 79, 81, §313A.24]

313A.25 Sale to public.
If the department is of the opinion that any land, including improvements thereon, is no longer required for toll bridge purposes, it may be offered for sale upon publication of a notice once each week for two consecutive weeks in a newspaper published and having a general circulation throughout the state of Iowa, specifying the time and place fixed for the receipt of bids.

[C71, 73, 75, 77, 79, 81, §313A.25]

313A.26 Acceptance or rejection of bids.
The department may reject all such bids if the highest bid does not equal the reasonable fair market value of the real property, plus the value of the improvements thereon, computed on the basis of the reproduction value less depreciation. The department may accept the highest and best bid, and certify the agreement for the sale to the state executive council, with a description of the land and the terms of the sale and the state executive council shall execute the deed and deliver it to the grantee.

[C71, 73, 75, 77, 79, 81, §313A.26]
313A.27 Franchises for use of bridge.
If the department deems it consistent with the use and operation of any toll bridge, the department may grant franchises to persons, firms, associations, private or municipal corporations, the United States government or any agency thereof, to use any portion of the property of any toll bridge, including approaches thereto, for the construction and maintenance of water pipes, flumes, gas pipes, telephone, telegraph and electric light and power lines and conduits, trams or railways, and any other such facilities in the manner of granting franchises on state highways.

CHAPTER 314
ADMINISTRATIVE PROVISIONS FOR HIGHWAYS

314.1 Bidding procedures — basis for awarding contracts.
1. The agency having charge of the receipt of bids and the award of contracts for the construction, reconstruction, improvement, or repair or maintenance of a highway, bridge, or culvert may require, for any highway, bridge, or culvert contract letting, that each bidder file with the agency a statement showing the bidder’s financial standing, equipment, and experience in the execution of like or similar work. The statements shall be on standard forms prepared by the department and shall be filed with the agency prior to the letting at which the bidder expects to bid. The agency may, in advance of the letting, notify the bidder as to the amount and the nature of the work for which the bidder is deemed qualified to bid. A bidder who is prequalified under this subsection by the department shall be deemed qualified for a highway, bridge, or culvert contract letting by any other agency and shall submit proof of the prequalification in a manner determined by the department if required to do so by the agency.

2. Notwithstanding any other provision of law to the contrary, a public improvement that involves the construction, reconstruction, or improvement of a highway, bridge, or culvert and that has a cost in excess of the applicable threshold in section 73A.18, 262.34, 297.7, 309.40, 310.14, or 313.10, as modified by the bid threshold subcommittee pursuant to section 314.1B, shall be advertised and let for bid, except such public improvements that involve emergency work pursuant to section 309.40A, 313.10, or 384.103, subsection 2. For a city having a population of fifty thousand or less, a public improvement that involves the construction, reconstruction, or improvement of a highway, bridge, or culvert that has a cost in excess of twenty-five thousand dollars, as modified by the bid threshold subcommittee pursuant to section 314.1B, shall be advertised and let for bid, excluding emergency work. However, a public improvement that has an estimated total cost to a city in excess of a threshold of fifty thousand dollars, as modified by the bid threshold subcommittee pursuant to section 314.1B, and that involves the construction, reconstruction, or improvement of a highway, bridge, or culvert that is under the jurisdiction of a city with a population of more than fifty thousand, shall be advertised and let for bid. Cities required to competitively
bid highway, bridge, or culvert work shall do so in compliance with the contract letting procedures of sections 26.3 through 26.12.

3. a. In the award of contracts for the construction, reconstruction, improvement, or repair or maintenance of a highway, bridge, or culvert, the agency having charge of awarding such contracts shall give due consideration not only to the prices bid but also to the mechanical or other equipment and the financial responsibility and experience in the performance of like or similar contracts. The agency may reject any or all bids. The agency may readvertise and relet the project without conducting an additional public hearing if no substantial changes are made to the project’s plans or specifications. The agency may let by private contract or build by day labor, at a cost not in excess of the lowest bid received.

b. Upon the completion of any contract or project on either the farm-to-market or secondary road system, the county engineer shall file with the county auditor a statement showing the total cost thereof with certificate that the work has been done in accordance with the plans and specifications. Upon completion of a contract or project on the municipal street system, the city public works department or city engineer shall file with the city clerk a statement showing the total cost of the contract or project with a certificate that the work has been done in accordance with the plans and specifications. All contracts shall be in writing and shall be secured by a bond for the faithful performance thereof as provided by law.

The subcommittee shall consist of seven members, three of whom shall be representatives of cities and counties, three of whom shall be representatives of private sector contractor organizations, and with the remaining member being the director or the director’s designee, who shall serve as chairperson of the subcommittee. A vacancy in the membership of the subcommittee shall be filled by the director.

b. The subcommittee shall review the competitive bid thresholds applicable to city and county highway, bridge, and culvert projects. The subcommittee shall review price adjustments for all types of city and county highway, bridge, and culvert construction,
reconstruction, and improvement projects, based on changes in the construction price index from the preceding year. Upon completion of the review the subcommittee may make adjustments in the applicable bid thresholds for types of work based on the price adjustments.

c. A bid threshold, under this subsection, shall not be adjusted to an amount that is less than the bid threshold applicable to a city or county on July 1, 2006, as provided in section 73A.18, 309.40, 310.14, or 314.1. An adjusted bid threshold shall take effect as provided in subsection 3, and shall remain in effect until a new adjusted bid threshold is established and becomes effective as provided in this section.

2. Vertical infrastructure.

a. The director of the department shall appoint, from the members of the appropriate advisory committee established under section 314.1A, a vertical infrastructure bid threshold subcommittee for public improvements as defined in section 26.2. Upon completion of the review the subcommittee may make adjustments in the applicable bid thresholds for types of work based on the price adjustments.

c. The subcommittee shall not make an initial adjustment to the competitive bid threshold in section 26.3 to be effective prior to January 1, 2012. Thereafter, the subcommittee shall adjust the bid threshold amount in accordance with subsection 3 but shall not adjust the bid threshold to an amount less than the bid threshold applicable to a governmental entity on January 1, 2007.

d. Beginning July 1, 2006, the subcommittee shall make adjustments to the competitive quotation threshold amounts in section 26.14 for vertical infrastructure in accordance with the methodology of paragraph “b”.

e. After 2012, the subcommittee shall adjust the competitive quotation threshold amounts in section 26.14 at the same time and by the same percentage as adjustments are made to the competitive bid threshold.

3. Review — publication. Each subcommittee shall meet to conduct the review and make the adjustments described in this section on or before August 1 of every other year, or of every year if determined necessary by the subcommittee. By September 1 of each year in which a subcommittee makes adjustments in the bid or quotation thresholds, the director shall cause an advisory notice to be published in the Iowa administrative bulletin and in a newspaper of general circulation in this state, stating the adjusted bid and quotation thresholds to be in effect on January 1 of the following year, as established by the subcommittees under this section.

314.21 Living roadway trust fund.
1. a. The living roadway trust fund is created in the office of the treasurer of state. The moneys in this fund shall be used exclusively for the development and implementation of integrated roadside vegetation plans. Except as provided in subsections 2 and 3, the moneys shall only be expended for areas on or adjacent to road, street, and highway right-of-ways. The state department of transportation in consultation with the department of natural resources shall establish standards relating to the type of projects available for assistance.

b. A city or county which has a project which qualifies for the use of these funds shall submit a request for the funds to the state department of transportation. A city or county may, at its option, apply moneys allocated for use on city or county projects under this subsection toward qualifying projects on the primary road system. The state department of transportation in consultation with the department of natural resources shall determine which projects qualify for the funds and which projects shall be funded if the requests for the funds exceed the availability of the funds. In ranking applications for funds, the department shall consider the proportion of political subdivision matching funds to be provided, if any, and the proportion of private contributions to be provided, if any. In considering the proportion of political subdivision matching funds provided, the department shall consider only those moneys which are in addition to those which the political subdivision has historically provided toward such projects. Funds allocated to the cities, the counties, and the department which are not programmed by the end of each fiscal year shall be available for redistribution to any eligible applicant regardless of the original allocation of funds. Such funds shall be awarded for eligible projects based upon their merit in meeting the program objectives established by the department under section 314.22. The department shall submit a report of all projects funded in the previous fiscal year to the governor and to the general assembly on January 15 of each year.

c. Beginning April 1, 1990, the moneys in the living roadway trust fund shall be allocated between the state, counties, and cities in the same proportion that the road use tax funds are allocated under section 312.2, subsection 1, paragraphs “a”, “b”, “c”, and “d”. However, after April 1, 1990, a city or county shall not be eligible to receive moneys from the living roadway trust fund unless the city or county has an integrated roadside vegetation management plan in place consistent with the objectives in section 314.22.

2. a. The department may authorize projects which provide grants or loans to local governments and organizations which are developing community entryway enhancement and other planting demonstration projects. Planning, public education, installation, and
initial maintenance planning and development may be determined by the department to be
eligible activities for funding under this paragraph. Projects approved under this paragraph
require a local match or contribution toward the overall project cost.

b. The department may authorize projects which provide grants or loans to local
governments for the purchase of specialized equipment and special staff training for the
establishment of alternative forms of roadside vegetation. Projects approved under this
paragraph require a local match or contribution toward the overall project cost.

c. The department, in order to create greater visual effect, shall investigate alternatives
for concentrating plantings at strategic locations to gain a greater visual impact and appeal
as well as stronger scenic value. Equal attention shall be given to providing safe and effective
habitats for wildlife which can coexist with highways.

d. The department may authorize projects which provide grants or loans to local
jurisdictions for increased protection through the use of easements, fee title acquisition,
covenants, zoning ordinances, or other provisions for protection of vegetation and desirable
environment adjacent to the right-of-way. Off-right-of-way projects shall emphasize
vegetation protection or enhancement, scenic and wildlife values, erosion control and
enhancement of vegetation management projects within the right-of-ways.

3. a. Moneys allocated to the state under subsection 1 shall be expended as follows:
(1) Fifty thousand dollars annually to the department for the services of the integrated
roadside vegetation management coordinator and support.
(2) One hundred thousand dollars annually for education programs, research and
demonstration projects, and vegetation inventories and strategies, under section 314.22,
subsections 5, 6, and 8.

b. Moneys allocated to the counties under subsection 1 shall be expended as follows:
(1) For the fiscal year beginning July 1, 1995, and ending June 30, 1996, and each
subsequent fiscal year, seventy-five thousand dollars to the university of northern Iowa to
maintain the position of the state roadside specialist and to continue its integrated roadside
vegetation management program providing research, education, training, and technical
assistance.
(2) All remaining money for grants or loans under subsection 2, paragraph “a”.

c. Moneys allocated to the cities shall be expended for grants or loans under subsection
2, paragraph “a”.

   d. The effective purpose of restraining livestock using a fence along the street or highway is continually impaired by flooding or other natural forces.

2. A cattle guard installed pursuant to this section shall be installed on the street or highway at the landowner’s expense at a distance of not less than sixty-six feet from the secondary road to which the street or highway exits.

b. A local authority shall not take custody of the landowner’s livestock on the street or highway as provided in section 169C.2.

c. The landowner shall not be subject to section 169C.6 for livestock straying on to the street or highway.

4. a. A landowner who installs a cattle guard pursuant to this section and each successive landowner shall be liable for injury to any person, for damage to any vehicle or equipment, and for damage to the contents of any vehicle or equipment, which occurs proximately as a result of the construction, installation, or maintenance of the cattle guard or as a result of livestock straying on to the street or highway between the point at which the cattle guard is installed and the point at which the street or highway terminates in a dead end.

b. Upon the installation of a cattle guard pursuant to this section, and before July 1 of each year thereafter, the landowner who installed the cattle guard or a successive landowner shall submit to the appropriate county office of the county having jurisdiction over the street or highway on which the cattle guard is installed, as designated by the county, proof of liability coverage in effect for the following one-year period which covers any injury or loss arising from the landowner’s liability as set forth in paragraph “a”.

c. This section shall not be construed to alter, limit, or nullify the maintenance requirements assigned to a county, and a county’s liability relating to such maintenance requirements, pursuant to section 309.57 for the street or highway on which the cattle guard is installed.

315.11 Additional factors and requirements.
In addition to other effects and factors to be considered under section 315.5, for applications submitted after July 1, 1988, the following factors and requirements shall be considered or applied:

1. The impact of the proposed project on other businesses in competition with the business being considered for assistance. The department shall make a good faith effort to
identify existing Iowa businesses within an industry in competition with the business being considered for assistance. The department shall make a good faith effort to determine the probability that the proposed financial assistance will displace employees of the existing businesses. In determining the impact on businesses in competition with the business being considered for assistance, jobs created as a result of other jobs being displaced elsewhere in the state shall not be considered direct jobs created.

2. The economic impact to the state of the proposed project. In measuring the economic impact the department shall award more points for the following:
   a. A business with a greater percentage of sales out-of-state or of import substitution.
   b. A business with a higher proportion of in-state suppliers.
   c. A project which would provide greater diversification of the state economy.
   d. A business with fewer in-state competitors.
   e. A potential for future job growth.
   f. A project which is not a retail operation.

3. The quality of jobs to be provided. Jobs that have a higher wage scale, have a lower turnover rate, are full-time, or are career-type positions are considered higher in quality. Businesses that have wage scales substantially below that of existing Iowa businesses in that area should be rated as providing the lowest quality of jobs and should therefore be given the lowest ranking for providing such assistance.

4. If the business has a record of violations of the law over a period of time that tends to show a consistent pattern, the business shall be given the lowest ranking for providing assistance. The department shall make a good faith effort to compile this information.

5. If a business has, within three years of application for assistance, acquired or merged with an Iowa corporation or company, the business shall make a good faith effort to hire the workers of the merged or acquired company.

6. To be eligible for assistance a business shall provide for a preference for hiring residents of the state or the economic development area, except for out-of-state employees offered a transfer to Iowa or the economic development area.

7. All known required environmental permits must be granted and regulations met before moneys are released.

The amount, if any, which will compensate the displaced person for any increased interest costs and other debt service costs which the displaced person is required to pay for financing the acquisition of a comparable replacement dwelling. The amount shall be paid only if the dwelling acquired by the displacing agency was encumbered by a bona fide mortgage which was a valid lien on the dwelling for not less than one hundred and eighty days immediately prior to the initiation of negotiations for the acquisition of the dwelling.

All determinations to carry out this section shall be made in accordance with administrative rules adopted by the department. The displaced person may elect either of the following:

2. The amount necessary to enable the person to make a down payment, including incidental expenses described in section 316.5, subsection 1, paragraph "c", on the purchase of a decent, safe, and sanitary dwelling. The person may, at the discretion of the displacing agency, be eligible under this subsection for the maximum payment allowed under subsection 1, except that, in the case of a displaced homeowner who has owned and occupied the displaced dwelling for at least ninety days but not more than one hundred and eighty days immediately prior to the initiation of negotiations for the acquisition of the dwelling, the payment shall not exceed the payment the person would otherwise have received under

To the total of all sums expended, the board shall add an amount equal to twenty-five percent of that total to compensate for the cost of supervision and administration and assess the resulting sum against the tract of real estate by a special tax, which shall be certified to the county auditor and county treasurer by the clerk of the board of supervisors, and shall be placed upon the tax books, and collected, with interest after delinquent, in the same manner as other unpaid taxes. The application shall be accompanied by a fee of twenty dollars, and shall bear the owner’s signature. The primary user’s name and address shall not be printed on the registration receipt or the certificate of title.

2. The program shall also provide for the electronic submission of any statement required by this section, except where prohibited by federal law.
3. The department shall adopt rules on the method for providing signatures for applications and statements required by this section that are made by electronic means.

321.20B Proof of security against liability — driving without liability coverage.

1. a. Notwithstanding chapter 321A, which requires certain persons to maintain proof of financial responsibility, a person shall not drive a motor vehicle on the highways of this state unless financial liability coverage, as defined in section 321.1, subsection 24B, is in effect for the motor vehicle and unless the driver has in the motor vehicle the proof of financial liability coverage card issued for the motor vehicle, or if the vehicle is registered in another state, other evidence that financial liability coverage is in effect for the motor vehicle. A proof of financial liability coverage card may be produced in paper or electronic format. Acceptable electronic formats include electronic images displayed on a cellular telephone or any other portable electronic device that has a display screen with touch input or a miniature keyboard.

b. It shall be conclusively presumed that a motor vehicle driven upon a parking lot which is available to the public without charge or which is available to customers or invitees of a business or facility without charge was driven on the highways of this state in order to enter the parking lot, and this section shall be applicable to such a motor vehicle. As used in this section, “parking lot” includes access roads, drives, lanes, aisles, entrances, and exits to and from a parking lot described in this paragraph.

c. This subsection does not apply to the operator of a motor vehicle owned by or leased
to the United States, this state or another state, or any political subdivision of this state or of another state, or to a motor vehicle which is subject to section 325A.6.

2. a. An insurance company transacting business in this state shall issue to its insured owners of motor vehicles registered in this state a financial liability coverage card for each motor vehicle insured. Each financial liability coverage card shall identify the registration number or vehicle identification number of the motor vehicle insured and shall indicate the expiration date of the applicable insurance coverage. The financial liability coverage card shall also contain the name and address of the insurer or the name of the insurer and the name and address of the insurance agency, the name of the insured, and an emergency telephone number of the insurer or emergency telephone number of the insurance agency. An insurance company may issue a financial liability coverage card in either paper format or, if requested by the insured, electronic format.

b. The department shall adopt rules regarding the contents of a financial liability coverage card to be issued pursuant to this section.

(1) Notwithstanding the provisions of this section, a fleet owner who is issued a certificate of self-insurance pursuant to section 321A.34, subsection 1, is not required to maintain in each vehicle a financial liability coverage card with the individual registration number or the vehicle identification number of the vehicle included on the card. Such fleet owner shall be required to maintain a financial liability coverage card in each vehicle in the fleet including information deemed appropriate by the director.

(2) An association of individual members that is issued a certificate of self-insurance pursuant to section 321A.34, subsection 2, is required to maintain in each vehicle of an individual member a financial liability coverage card that complies with the provisions of this section and in addition contains information relating to the association and the association's certificate of self-insurance as is deemed appropriate by the director.

3. If the financial liability coverage for a motor vehicle which is registered in this state is canceled or terminated effective prior to the expiration date indicated on the financial liability coverage card issued for the vehicle, the person to whom the financial liability coverage card was issued shall destroy the card.

4. a. If a peace officer stops a motor vehicle registered in this state and the driver is unable to provide proof of financial liability coverage, the peace officer shall do one of the following:

(1) Issue a warning memorandum to the driver.
(2) Issue a citation to the driver.
(3) Issue a citation and remove the motor vehicle's license plates and registration receipt.
   (a) Upon removing the license plates and registration receipt, the peace officer shall deliver the plates for destruction, as appropriate, and forward the registration receipt and evidence of the violation, as determined by the department, to the county treasurer of the county in which the motor vehicle is registered.
   (b) The motor vehicle may be driven for a time period of up to forty-eight hours after receiving the citation solely for the purpose of removing the motor vehicle from the highways of this state, unless the driver's operating privileges are otherwise suspended. After receiving the citation, the driver shall keep the citation in the motor vehicle at all times while driving the motor vehicle as provided in this subparagraph, as proof of the driver's privilege to drive the motor vehicle for such limited time and purpose.
(4) (a) Issue a citation, remove the motor vehicle's license plates and registration receipt, and impound the motor vehicle. The peace officer shall deliver the plates for destruction, as appropriate, and forward the registration receipt and evidence of the violation, as determined by the department, to the county treasurer of the county in which the motor vehicle is registered.
   (b) A motor vehicle which is impounded may be claimed by a person if the owner provides proof of financial liability coverage and proof of payment of any applicable fine and the costs of towing and storage for the motor vehicle. If the motor vehicle is not claimed within thirty days after impoundment, the motor vehicle may be treated as an abandoned vehicle pursuant to section 321.89.
   (c) The holder of a security interest in a motor vehicle which is impounded pursuant to this subparagraph shall be notified of the impoundment within seventy-two hours of the
impoundment of the motor vehicle and shall have the right to claim the motor vehicle upon the payment of all fees. However, if the value of the vehicle is less than the security interest, all fees shall be divided equally between the lienholder and the political subdivision impounding the vehicle.

b. An owner or driver of a motor vehicle who is charged with a violation of subsection 1 and issued a citation under paragraph "a", subparagraph (3) or (4), is subject to the following:

(1) An owner or driver who produces to the clerk of court, prior to the date of the individual’s court appearance as indicated on the citation, proof that financial liability coverage was in effect for the motor vehicle at the time the person was stopped and cited, or, if the driver is not the owner of the motor vehicle, proof that liability coverage was in effect for the driver with respect to the motor vehicle being driven at the time the driver was stopped and cited, in the same manner as if the motor vehicle were owned by the driver, shall be given a receipt indicating that such proof was provided and be subject to one of the following:

(a) If the person was cited pursuant to paragraph "a", subparagraph (3), the owner or driver shall provide a copy of the receipt to the county treasurer of the county in which the motor vehicle is registered and the owner shall be assessed a fifteen dollar administrative fee by the county treasurer who shall issue new license plates and registration to the person after payment of the fee.

(b) If the person was cited pursuant to paragraph "a", subparagraph (4), the owner or driver, after the owner provides proof of financial liability coverage to the clerk of court, may claim the motor vehicle after such person pays any applicable fine and the costs of towing and storage for the motor vehicle, and the owner or driver provides a copy of the receipt and the owner pays to the county treasurer of the county in which the motor vehicle is registered a fifteen dollar administrative fee, and the county treasurer shall issue new license plates and registration to the person.

(2) An owner or driver who is charged with a violation of subsection 1 and is unable to show that financial liability coverage was in effect for the motor vehicle at the time the person was stopped and cited may do either of the following:

(a) Sign an admission of violation on the citation and remit to the clerk of court a scheduled fine as provided in section 805.8A, subsection 14, paragraph "f", for a violation of subsection 1. Upon payment of the fine to the clerk of court of the county where the citation was issued, payment of a fifteen dollar administrative fee to the county treasurer of the county in which the motor vehicle is registered, and providing proof of payment of any applicable fine and proof of financial liability coverages to the county treasurer of the county in which the motor vehicle is registered, the treasurer shall issue new license plates and registration to the owner.

(b) Request an appearance before the court on the matter. If the matter goes before the court, and the owner or driver is found guilty of a violation of subsection 1, the court may impose a fine as provided in section 805.8A, subsection 14, paragraph "f", for a violation of subsection 1, or the court may order the person to perform unpaid community service instead of the fine. Upon the payment of the fine or the entry of the order for unpaid community service, the person shall provide proof of payment or entry of such order and the county treasurer of the county in which the motor vehicle is registered shall issue new license plates and registration to the owner upon the owner providing proof of financial liability coverage and paying a fifteen dollar administrative fee to the county treasurer.

c. An owner or driver cited for a violation of subsection 1, who produces to the clerk of court prior to the date of the person’s court appearance as indicated on the citation proof that financial liability coverage was in effect for the motor vehicle at the time the person was stopped and cited, shall not be convicted of such violation and the citation issued shall be dismissed by the court. Upon dismissal, the court or clerk of court shall assess the costs of the action against the defendant named on the citation.

5. If the motor vehicle is not registered in this state and the driver is a nonresident, the peace officer shall do one of the following:

a. Issue a warning memorandum to the driver.

b. Issue a citation. An owner or driver who produces to the clerk of court prior to the date
of the person's court appearance as indicated on the citation proof that the financial liability coverage was in effect for the motor vehicle at the time the person was stopped and cited, or if the driver is not the owner of the motor vehicle, proof that liability coverage was in effect for the driver with respect to the motor vehicle being driven at the time the driver was stopped and cited in the same manner as if the motor vehicle were owned by the driver, shall be given a receipt indicating that proof was provided, and the citation issued shall be dismissed by the court. Upon dismissal, the court or clerk of court shall assess the costs of the action against the defendant named on the citation.

6. This section does not apply to a motor vehicle identified in section 321.18, subsection 1, 2, 3, 4, 5, 6, or 8.

7. This section does not apply to a lienholder who has a security interest in a motor vehicle subject to the registration requirements of this chapter, so long as such lienholder maintains financial liability coverage for any motor vehicle driven or moved by the lienholder in which the lienholder has an interest.

8. This section does not apply to a motor vehicle owned by a motor vehicle dealer or wholesaler licensed pursuant to chapter 322.

9. The director of transportation and the commissioner of insurance shall adopt rules pursuant to chapter 17A to administer this section.

§321.23, MOTOR VEHICLES AND LAW OF THE ROAD

and that the rightful ownership is established before issuing the owner the authority to have the motor vehicle registered and titled. The purpose of the physical inspection under this section is not to determine whether the motor vehicle is in a condition safe to operate.

c. The owner of a specially constructed vehicle, reconstructed vehicle, street rod, or replica vehicle shall apply for a certificate of title and registration for the vehicle at the county treasurer’s office within thirty days of the inspection. For a foreign vehicle which has been registered outside this state, the owner shall surrender to the treasurer all registration plates, registration cards, and certificates of title, or if the vehicle to be registered is from a nontitle state, the evidence of foreign registration and ownership as may be prescribed by the department except as provided in subsection 2.

d. Upon completion of every specially constructed vehicle, reconstructed vehicle, street rod, or replica vehicle, the owner shall certify on a form prescribed by the department that such vehicle is in compliance with all equipment specifications required under this chapter.

A vehicle which does not meet the equipment requirements of this chapter due to the particular use for which it is designed or intended, may be registered by the department upon payment of appropriate fees and after inspection and certification by the department that the vehicle is not in an unsafe condition. A person is not required to have a certificate of title to register a vehicle under this subsection. If the owner elects to have a certificate of title issued for the vehicle, a fee of twenty dollars shall be paid by the person making the application upon issuance of a certificate of title. The name and address of any lessee of the vehicle shall not be printed on the registration receipt or certificate of title. Up to three owners may be listed on the registration receipt and certificate of title.

2. The county treasurer shall maintain in the county record system information contained on the registration receipt. The information shall be accessible by registration number and shall be open for public inspection during reasonable business hours. Copies the department requires shall be sent to the department in the manner and at the time the department directs.

3. The certificate of title shall contain upon its face the identical information required upon the face of the registration receipt. In addition, the certificate of title shall contain a statement of the owner’s title, the title number assigned to the owner or owners of the vehicle, the name and address of the previous owner, and a statement of all security interests and encumbrances as shown in the application, upon the vehicle described, including the nature of the security interest, date of perfection, and name and mailing address of the secured party.

4. If the prior certificate of title is from another state and indicates that the vehicle was rebuilt, the new certificate of title and registration receipt shall contain the designation “REBUILT” printed on its face together with the name of the state issuing the prior title. The designation shall be retained on the face of all subsequent certificates of title and registration receipts for the vehicle.

5. If the prior certificate of title is from another state and indicates that the vehicle was junked, an Iowa junking certificate shall be issued according to section 321.52, subsections 2 and 3. If the prior certificate of title from another state indicates that the vehicle is salvaged and not rebuilt or is a salvage certificate of title, an Iowa salvage certificate of title shall be issued and a “SALVAGE” designation shall be retained on all subsequent Iowa certificates of title and registration receipts for the vehicle, unless the owner has surrendered the prior certificate of title and a salvage theft examination certificate, as provided under section 321.52, subsection 4, paragraph “c”, and the salvage theft examination certificate was properly executed within thirty days of the date the owner was assigned the prior certificate of title. The department may require that subsequent Iowa certificates of title retain other states’ designations which indicate that a vehicle had incurred prior damage. The department shall determine the manner in which other states’ rebuilt, salvage, or other designations are to be indicated on Iowa titles.

6. If the prior certificate of title is from another state and indicates that the vehicle was returned to the manufacturer pursuant to a law of another state similar to chapter 322G, the new registration receipt and certificate of title, and all subsequent registration receipts and certificates of title issued for the vehicle, shall contain a designation indicating the vehicle was returned to the manufacturer. The department shall determine the manner in which other states’ designations are to be indicated on Iowa registration receipts and certificates of title. The department may determine that a “REBUILT” or “SALVAGE” designation
supersedes the designation required by this subsection and include the “REBUILT” or “SALVAGE” designation on the registration receipt and certificate of title in lieu of the designation required by this subsection.

7. The certificate shall contain the name of the county treasurer or of the department and, if the certificate of title is printed, the signature of the county treasurer, the deputy county treasurer, or the department director or deputy designee. The certificate of title shall contain upon the reverse side a form for assignment of title or interest and warranty by the owner, for reassignments by a dealer licensed in this state or in another state if the state in which the dealer is licensed permits Iowa licensed dealers to similarly reassign certificates of title. However, titles for mobile homes or manufactured homes shall not be reassigned by licensed dealers. Notwithstanding section 321.1, subsection 17, as used in this subsection, “dealer” means every person engaged in the business of buying, selling, or exchanging vehicles of a type required to be registered under this chapter.

8. The original certificate of title shall be delivered to the owner if there is no security interest. Otherwise the certificate of title shall be delivered by the county treasurer or the department to the person holding the first security interest. Delivery may be made using electronic means.

9. The county treasurer or the department shall maintain in the county or department records system information contained on the certificate of title. The information shall be accessible by title certificate number for a period of three years from the date of notification of cancellation of title or that a new title has been issued as provided in this chapter. Copies the department requires shall be sent to the department in the manner and at the time the department directs. The department shall designate a uniform system of title numbers to indicate the county of issuance.

10. A vehicle shall be registered for the registration year. A vehicle registered for the first time in this state shall be registered for the remaining unexpired months of the registration year and pay an annual registration fee prorated for the remaining unexpired months of the registration year plus a fee for new registration if applicable pursuant to section 321.105A. Except for a vehicle registered under chapter 326, a vehicle registered for the first time during the eleventh month of the owner’s registration year may be registered for the remaining unexpired months of the registration year as provided in this subsection or for the remaining unexpired months of the registration year and for the next registration year, upon payment of the applicable registration fees.

11. If the county treasurer or department is not satisfied as to the ownership of the vehicle or that there are no undisclosed security interests in it, or a junking certificate has been issued for the vehicle but a certificate of title will not be reissued under section 321.52, subsection 3, and the vehicle qualifies as an antique vehicle under section 321.115, subsection 1, the county treasurer or department may register the vehicle but shall, as a condition of issuing a certificate of title and registration receipt, require the applicant to file with the department a bond in the form prescribed by the department and executed by the applicant, and either accompanied by the deposit of cash with the department or also executed by a person authorized to conduct a surety business in this state. The owner of a vehicle subject to the bond requirements of this subsection shall apply for a certificate of title and registration for the vehicle at the county treasurer’s office within thirty days of issuance of written authorization from the department. The bond shall be in an amount equal to one and one-half times the current value of the vehicle as determined by the department and conditioned to indemnify any prior owner and secured party and any subsequent purchaser of the vehicle or person acquiring any security interest in it, and their respective successors in interest, against any expense, loss, or damage, including reasonable attorney fees, by reason of the issuance of the certificate of title for the vehicle or on account of any defect in or undisclosed security interest upon the right, title, and interest of the applicant in and to the vehicle. Any such interested person has a right of action to recover on the bond for any breach of its conditions, but the aggregate liability of the surety to all persons shall not exceed the amount of the bond. The bond, and any deposit accompanying it, shall be returned at the end of three years or earlier if the vehicle is no longer registered in this state and the currently valid certificate of title is surrendered to the department, unless the
department has been notified of the pendency of an action to recover on the bond. The department may authorize issuance of a certificate of title as provided in this subsection for a vehicle with an unreleased security interest upon presentation of satisfactory evidence that the security interest has been extinguished or that the holder of the security interest cannot be located to release the security interest as provided in section 321.50.

1. A vehicle may be operated upon the highways of this state without registration plates for a period of forty-five days after the date of delivery of the vehicle to the purchaser from a dealer if a card bearing the words “registration applied for” is attached on the rear of the vehicle. The card shall have plainly stamped or stenciled the registration number of the dealer from whom the vehicle was purchased and the date of delivery of the vehicle. In addition, a dealer licensed to sell new motor vehicles may attach the card to a new motor vehicle delivered by the dealer to the purchaser even if the vehicle was purchased from an out-of-state dealer and the card shall bear the registration number of the dealer that delivered the vehicle. A dealer shall not issue a card to a person known to the dealer to be in possession of registration plates which may be attached to the vehicle. A dealer shall not issue a card unless an application for registration and certificate of title has been made by the purchaser and a receipt issued to the purchaser of the vehicle showing the fee paid by the person making the application. Dealers’ records shall indicate the agency to which the fee is sent and the date the fee is sent. The dealer shall forward the application by the purchaser to the county treasurer or state office within thirty calendar days from the date of delivery of the vehicle. However, if the vehicle is subject to a security interest and has been offered for sale pursuant to section 321.48, subsection 1, the dealer shall forward the application by the purchaser to the county treasurer or state office within thirty calendar days from the date of the delivery of the vehicle to the purchaser.

2. The county treasurer may adjust the renewal or expiration date of vehicles when deemed necessary to equalize the number of vehicles registered in each twelve-month period or for the administrative efficiency of the county treasurer’s office. The adjustment shall be accomplished by delivery of a written notice to the vehicle owner of the adjustment
and allowance of a credit for the remaining months of the unused portion of the annual registration fee, rounded to the nearest whole dollar, which amount shall be deducted from the annual registration fee due at the time of registration. Upon receipt of the notification the owner shall, within thirty days, surrender the registration card and registration plates to the county treasurer of the county where the vehicle is registered, except that the registration plates shall not be surrendered if validation stickers or other emblems are used to designate the month and year of expiration of registration. Upon payment of the annual registration fee, less the credit allowed for the remaining months of the unused portion of the annual registration fee, the county treasurer shall issue a new registration card and registration plates, validation stickers, or emblems which indicate the month and year of expiration of registration.

3. Except for motor trucks or truck tractors registered by the county treasurer pursuant to sections 321.120, 321.121, and 321.122, vehicles subject to registration which are owned by a person other than a natural person shall be registered for a registration year as determined by the county treasurer.

   b. That the vehicle is mechanically unfit or unsafe to be operated or moved upon the highways, providing such condition is revealed by a member of this department, or any peace officer.
   c. That the department or the county treasurer has reasonable ground to believe that the vehicle is a stolen or embezzled vehicle or that the granting of registration and issuance of a certificate of title would constitute a fraud against the rightful owner.
