SPECIAL ORDER MADE

By unanimous consent, House File No. 833 was made a special order for March 22nd, at 10:00 o'clock a. m.

REPORT OF INVESTIGATING COMMITTEE ON CEMENT SITUATION IN IOWA

On request of Santee of Black Hawk, unanimous consent was obtained to have the following report printed in the journal:

March 14, 1921

To the chairman of the committee on roads and highways:

Your sub-committee, appointed to investigate the cement situation in Iowa, present the following report, to-wit:

Our investigation convinces us that the following are the facts:

UNIFORM PRICE

1. All cement companies in the Mississippi Valley sell cement at the same price and on the same terms. At the public lettings calling for bids on cement, a number of companies may bid at such lettings but always submit the same price, and always "laid down." No cement company will sell cement except with the understanding that the freight to the point of delivery shall be paid by the selling company. In no case is the purchaser allowed to pay the freight. The reason for this will appear in the next paragraph.

BASE POINT

2. The larger companies select and agree upon a certain point, usually where a cement plant is located, and designate it as the "base point." Cement is sold by all companies in the Mississippi Valley as though all

cement were manufactured at this base point and the freight charges exacted from the public is the freight from the "base point" to point of delivery. This is true even though the point of delivery is in the same county, or even town, where the cement plant is located from which the purchase is actually made. Your sub-committee understands that the base point is now at Buffington, Indiana, where a large cement plant is located. On all cement bought in Iowa, even from Iowa plants, the buyer is charged and made to pay, freight from Buffington, Indiana.

CONTROL BY LARGE COMPANIES

3. The whole cement situation in Iowa is controlled by two or three large cement companies located in the middle west. The smaller cement companies are never consulted as to price. Your committee believes that only one man in Iowa is ever consulted as to prices. The smaller plants are compelled to follow the price and plan of selling cement adopted by the larger companies because these larger companies can, by shifting the base point to the place where a small plant is located, fix the price so that small plants can operate only at a loss, while other plants may still make a profit out of the charges made for freight. The smaller plants are compelled to adopt the price and plans established by these larger companies, because they know the larger companies can ruin their business if they oppose them.

CEMENT ASSOCIATION

4. There is a cement association with offices at all large centers in the United States. This association advertises itself as existing for "statistical purposes." At regular and frequent periods it makes reports to all member plants showing each and every sale of cement by each and every plant, and the purpose for which sold, and the price. This enables the few large plants to know exactly what all the other plants are doing.

DEALERS' COMMISSION

5. A great many times, and we believe it is the usual practice, the cement companies, when selling cement to municipalities or contractors having public contracts, add to the selling price a dealer's commission, although the dealer in the town in question may be in no way connected with the transaction and may not even know of it until he receives a check for the commission. In some cases the cement company keeps the commission where the dealer is not influential.

STANDARD BARRELS AND SACKS

6. Tests made by the highway commission show that the amount of cement in a barrel or sack when it leaves the factory, very often varies,

under what is understood to be a full and standard barrel and sack, from five to fifteen per cent.

Respectfully submitted,

A. K. WESTERVELT,
Chairman Sub-committee.

REMARKS OF DR. PERRY ENGLE

Let us live over the past and prophecy for the future.

There sits on the shores of Lake Michigan one of the greatest cities of all the world, all this within the life time of some of the members of this association. When some of us were born there was not a telegraph or telephone. A sewing machine, a cook stove, a railroad a reaper, a friction match, a kerosene lamp in the world.

Rubber then was not dreamed of, now we have billions of dollars invested in rubber. How wonderful.

We had but few American books, when we were boys. Whitter, Longfellow, Bryant, Emerson, Prescott, Hawthorn, Lowell and Ella Wheeler Wilcox have all come within the life time of some of us here.

In the domain of science, we have Tyndall, Huxley, and Darwin in our generation.

Even in my lifetime I can remember the old stage coach, the ox team. We have gotten away from all that, and live in a new world. Coming to the growth and development of Iowa: When the civil war broke out, there was not a telegraph line that reached a single city in Iowa, unless, perhaps, on the Mississippi. There was hardly any railroad mileage in the state at that time. The railroad had reached a little beyond Iowa City. In 1866 the railroad reached this city.

IOWA:—

Why should Iowa mean anything to us? It is not the greatest state in the union in size, in numbers, or in wealth. It has no large city—no mecca for the pilgrimages of mankind. Its shores are not washed by the sea as are those of California and Florida.

Its hills do not rise into the blue sky like the mountains of Colorado. It does not look out toward the island empire of either Great Britain or Japan. Its people can not talk across the fence to the Canadians or feel the stir of excitement along the prickly border of Mexico.

But it is the heart of America. Its shores are the two greatest rivers of the continent. Its rolling hills and fertile plains smile in the sun—well content with the task of making manna for millions. It has woods and winding streams and blue lakes, and towns with shady streets and green lawns and alert and friendly people.

And it has traditions. We are young in the land, but the land is old. Its story runs back of the days when glaciers slipped down across it; back to the times when the sea covered the Mississippi basin. Into the long story come the red men, and after many generations the whites. The songs of French boatmen was heard upon its streams; Spanish fur trades trail its western shore. Julien Dubuque and Manuel Lisa move through the misty past. Builders of homes arrive and out of the border land a state comes into the union. Congressmen, soldiers and farmers, business men and wide-visioned women play their parts, and so our heritage has grown.

And yet, probably it is the associations of a more immediate past, the memory of more intimate and homely things that makes up for us the thought of Iowa. It is where we live—perhaps where we have always lived. Its people are our people, and Iowa is our state. We frame its laws and try to obey them. It is we who build its institutions and make its history and look forward to the enjoyment of its future. The familiar scenes of the land between the rivers have woven

themselves into our lives. And so Iowa means a thousand things to us—the rush of water in the gutters in the spring time, and the smell of burning leaves in the fall; the tang of early frost and the sight of oaks still to their rusty foliage on the hill tops; the sound of birds in the early summer morning, and the stillness graven on the marble of a winter night. It means black mud in the bottom road and red sumac along the fence; small towns and large corn fields; Dante Pierce's Homestead and Gov. Kendell's Proclamation; the clack of mower and the memory of boys going off to war.

Iowa has its faults; but so, perhaps, have our parents, our wives, and our children—to say nothing of ourselves. And after all, we can not explain the charm of the things we love. Let us then not so much boast of Iowa as be happy in it. Let us look with seeing eyes upon its beauties, and with friendly eyes upon its people—our neighbors. Let us know its story and make sure that we ourselves play in it a worthy part; for what we make it, mean much to us, and mean more to those who come hereafter.

Iowa is alright if she does get hot and cold. When Lauman's brigade swept like a tidal wave into the walls of Donelson it was the flag of Iowa's Second that fluttered in the advance. And when New England's fighting son fell on the bloody field of Wilson Creek, he fell at the head of Iowa's First. And it was Iowa rifles that made the sting of the Hornet's Nest at Shiloh church. It was Iowa soldiers that was the first to march up San Juan hill, Iowa's Rainbow Division bravely fought back the invaders at Argonne and Marne. Let us stand steadfast to the ideals that made those starving regiments in rags, barefooted in the snows of winter, immortal at Valley Forge; standing steadfast to the ideals that made Yorktown a possibility and Appomattox a certainty.

Under Iowa's skies have been born the noblest boys and sweetest girls that ever scattered their smiles through the rooms of home. On the floor of debate, in all the walks where intellect robed in her brightest glory is found, Iowans are seen.

Yes, and when the old Hawkeye died and of course went to heaven, St. Peter met him and escorted him around that happy realm. He saw vast concourses of people with banners, "from New York," "from New Jersey," "from Massachusetts," etc., written on them, but none from Iowa. He asked the reason why, and was taken over to the new addition where he saw the largest concourse he had seen, and found them all chained down and looking unhappy. When he asked the reason of this of St. Peter he was told that "if we did not keep them chained they would go back to Iowa." Some doubting Thomas will not believe this, but see the eastern bound trains today from Montana and Washington and Oregon and the Dakotas, the returning Iowans are pouring back by hundreds to "Mother's Lap." Iowa is all right. The sun may cook her, the cyclones sweep like demoms of destruction over her fair bosom, the grasshoppers may raid her grain fields, the

worms eat her corn, the hot winds dry up her streams. Yet she is always on the firing line, and always in the right ready for another round.

Today the three million people living in Iowa for all that stand for good can not be excelled by any people on earth. Today nearly every quarter section of land of the 55,000 acres composing the state is occupied by a palatial home where hunger and distress are strangers. The soil of Iowa produces more wealth annually than the gold mines of the world. Iowa's hens lay eggs worth more than the orange crop of the United States.

I remember very distinctly the discussions that occurred when men of progressive thought were striving to change the old English common law with regard to domestic relations, to give to the wife the right to own real estate without the intervention of a trustee; to give to a wife the power to own and control her own property; to take from the husband the right to own whatever of hers he reduced to possession; to give to the wife equal control and right of custody of the children.

I well remember that in some states a woman did not own her clothing. Today woman have equal rights with the Lords of Creation.

I have witnessed human beings sold from the auction block to the highest bidder. I hold in my hand a mortgage on a colored slave dated 1811. My influences are at work for a higher humanity and a better world, where insane greed and madness shall not stalk with sword in hand; where fraternity shall triumph over Caesar's bloody legions. We have visions of internationalism of all the races, of a political and industrial democracy.

In the last two years death has levied a costly tribute upon our ranks. One by one at the beckoning of the silent messenger our comrades have passed through the gate to the land of the Leal. We miss their presence and councils. They bore the flag triumphant even to the gates of the Sunset.

With you and I, the morning of life has gone, the sombre shades of evening are gathering closely around and about us, we have heard the reveille at sunrise and listened to the tattoo of night, and taps, yes, taps, that once betokened the extinguishment of lights, now comes reverberating back as the heralds of death. Among our crowned jewels are a Kirkwood, a Larrabee, a Dolliver, a Gear, a Harlan, a Carpenter, a Cole, a Kassan, a Clayton, a Day, a Hepburn, a Weaver, and Edward Hooper Gillette our last President. These men and others went out for us and won the many battles of their brilliant lives by their devotion and never ending zeal. The lives of such men are worth the living and for which death has no sting. It would be an honor to us pioneers if you of the Thirty-ninth General Assembly and your successors shall continue to build up a greater and a better Iowa.

We have yet mighty questions to be solved. May you and your children give to the world the proper solution. Let us look upward

and press upward. We hope that our successors will honor us by excelling us. May we all consecrate ourselves to that inspiring sentiment uttered by President Lincoln at Gettysburg, "that government of, by and for the people may never perish from the earth."

Gentlemen, I know that the members of our Pioneer Lawmakers' Association feel very grateful to you, indeed, for the gracious manner in which you have received us, for the very kindly expression that you have made for those entitled to membership in our organization, and in expressing, as I know that I do, the very earnest gratitude of all of our members; I thank you.

On motion of Vance of Madison the following registration list of members of the Iowa Pioneer Lawmakers' Association was ordered printed in the journal:

REPORT OF COMMITTEE ON DEPARTMENTAL AFFAIRS

Gilmore of Clay, from the committee on departmental affairs, submitted the following report:

MR. SPEAKER—Your committee on departmental affairs, who have been investigating the office of the superintendent of banking in the state of Iowa, beg leave to report that we have procured the evidence of all witnesses, so far as we were able, who had knowledge of any part of the transaction concerning the granting of a bank charter to the Farmington State Bank, at Farmington, Iowa.

Your committee finds, and the evidence in the record indicates, that when the application was made for the charter before mentioned that there was some question as to whether the town of Farmington and the community thereabouts was not amply served with banking facilities, and that there was some question as to whether public necessity, convenience and advantage would be promoted by the proposed new bank and whether the character and general fitness of the persons named as officers and stockholders were such as to command the confidence of the

community in which the new bank was to be located; and because of these facts, the superintendent at that time refused to issue a charter.

That, therefor, in another case, which was appealed from the bank superintendent to the committee on retrenchment and reform, the committee held that the only grounds on which the bank superintendent could refuse to issue the charter was that the bank was what is known as a "spite bank", meaning that it was organized and promoted by Pro-German sympathizers to punish competing banks for their activities during the war. It does not appear, that under that definition, the bank above referred to, was a "spite bank", and the superintendent of banking, after that ruling by the retrenchment and reform committee, came to the conclusion that he could not legally refuse to grant the charter in question.

Your committee further finds from the testimony that fees in the sum of five thousand (\$5,000.00) dollars were paid to attorneys who prosecuted the application for the aforementioned charter, but that there is no showing whatever, of any collusion between the superintendent of banking and the said attorneys.

It is not within the province of this inquiry for us to determine the value of the service or the reasonableness of the charges.

Your committee further finds that the superintendent of banking should be entirely exonerated from any misconduct in connection with the granting of the charter to the bank above referred to.

We further believe that similar publicity should be given to the public through the press of the state, showing the exoneration of the bank superintendent as has been given through the same press in making charges against him, or his department.

AMENDMENT TO REPORT OF COMMITTEE ON DEPARTMENTAL AFFAIRS

MR. SPEAKER—I beg to amend paragraphs one and two on page two of the committee report on departmental affairs regarding the office of superintendent of banking in the state of Iowa, and substitute therefor the following:

The mover of this amendment finds from the testimony that the fees of the attorneys' employed to procure the charter for the Farmington bank were agreed upon prior to the application for the said charter; that the said bank was incorporated for \$30,000.00 capital, with a \$15,000.00 surplus; and that there was no showing of any collusion between the superintendent of banking and any other parties.

"From and after the taking effect of this act".

Also substitute for section six the following:

"Sec. 6. The administration of the provisions of this act and the issuance of all licenses specified in the act, shall be done by a body of three, who shall constitute the state board of osteopathy, hereinafter referred to as "the board". The members of the board shall be the examiners of all applicants under this act. Within thirty days after this act shall take effect the governor shall appoint three members of said board who shall each be regularly licensed osteopathic physicians or osteopathic physicians and surgeons, in good standing and recommended by the regular osteopathic organization in this state. Neither shall be an officer or member of any faculty of any osteopathic or medical college. Each shall have been engaged in the practice of osteopathy for a period of at least five years immediately preceding the appointment. One shall be appointed for a term of one year, one for a term of two years and one for a term of three years, and thereafter it shall be the duty of the governor to appoint or reappoint one examiner each year and for a term of three years, the three year appointments being made as the ones heretofore specified lapse. Each examiner shall continue in office until his successor has been appointed and has qualified."

"The board shall have and use a common seal and may make and adopt the necessary rules and regulations and by-laws relating to the enforcement of the provisions of this act and not inconsistent therewith. It shall keep a record that shall contain the name of every registered osteopath or osteopathic surgeon, the date and number of the license issued to him or her and his or her last place of residence. Said record shall further contain a statement of the proceedings of the board relating to the issuance, refusal, renewal, suspension or revocation of any license authorized by this act. Examinations shall be made at least twice in each year and at such times and places as are fixed by the board. Of these examinations all applicants shall be notified in writing. The examination shall be in writing and each applicant shall be given

the same set of questions. When concluded, the examination papers shall be marked upon a scale of 100%. The average required to pass shall be fixed by the board prior to each examination."

"Upon obtaining an order for examination the applicant shall by the board be given a confidential number. This number the applicant shall put upon his work when completed, all to the end that the board in passing on the examination may not know by whom the papers reviewed were prepared."

"All matters connected with the examination shall be filed with the board and preserved for five years as a part of its record, during which time such matters shall be open to public inspection."

"The compensation of the members of the board shall be fixed by by-laws adopted by it, but the total paid out for compensation and for all expenditures authorized by this act shall not exceed the fees received from application for license. "The fee for making this examination shall be five dollars (\$5.00). But no such examination shall be required where the applicant presents a certificate that he has passed a satisfactory written examination before this board or a like board in another jurisdiction in such studies as are embraced in the curriculum of a reputable average accredited high school."

CONCURRENT RESOLUTION

Weaver of Polk offered the following concurrent resolution:

Concurrent resolution memorializing the federal trade commission to issue a complaint against the trade practice of the steel industry known as "Pittsburgh Plus", and to expedite the proceedings now pending before said commission with reference to said practice.

Whereas, The large number of steel plants producing rolled steel products, located in the middle West, manufacturing enormous quantities of rolled steel sufficient to supply the Western demand, derive practically all of their iron ore from the Western mines and the major portion of other raw material for the manufacture of steel from sources within the western states, and produce their rolled steel at costs which compare favorably with the cost of similar products produced in the East, and;

Whereas, By reason of such facts there is no sound economic reason why the price of rolled steel products should be greater in the middle west and western states than in the territory immediately adjacent to Pittsburgh, Pennsylvania, and;

Whereas, there is in vogue and general use in the steel industry a practice known as "Pittsburgh Plus", in pursuance of which all producers of rolled steel, irrespective of their location, charge for their products the price at Pittsburgh plus the freight from Pittsburgh to destination, resulting in inordinately high prices for such rolled steel products in the West and the middle West, and;

Whereas, By reason of this practice all of the numerous manufacturers in the west and the middle west using rolled steel as raw material, such as manufacturers of structural steel, road machinery, farm machinery, reinforcing bars and other products too numerous to mention, are compelled to pay exorbitant prices for such raw material which deprives them of the right of free and unrestrained competition, not only in the territory normally adjacent to their plants but operates also as a discrimination against them in any market in the United States as compared with eastern manufacturers, and;

Whereas, Such practice results in the maintenance of unjust and uneconomically high levels of prices for rolled steel products which is necessarily directly reflected in the cost of manufactured products to the consumers and results in an unjust tax upon the public, paid in the form of higher prices for all articles and commodities manufactured from rolled steel, and;

Whereas, Such uneconomic practice operates to restrict the natural and normal development of western and middle western states, cities and communities, and;

Whereas, An application for a complaint against the several producers of rolled steel having for its purpose the abolition of such trade practice, has been pending before the federal trade commission since on or about the first day of August, 1919, based upon the Clayton act, and;

Whereas, the interest of this state as a purchaser of such high priced products and the interests of the people of this state require a speedy correction of the practice complained of;

Be It Resolved by the House, the Senate concurring, That the facts and conditions respecting such trade practice warrant and require the issuance of the complaint prayed for, and the federal trade commission is hereby respectfully requested and urged to issue such complaint with as much expedition as is reasonably practicable, and upon final hearing thereon to grant to the public so discriminated against the utmost relief.

Be It Further Resolved, That a duly authenticated copy of this resolution be transmitted to the federal trade commission, and to our senators and representatives in the congress of the United States.

Laid over under rule 34.

Amendment adopted.

Ontjes of Grundy moved that the bill be read a third time now and placed upon its passage, which motion prevailed and the bill was read a third time.

On the question, "Shall the bill pass?"

Kime of Webster filed the following substitute amendment:

Amend House File No. 703 by striking out all after the enacting clause and inserting in lieu thereof the following:

Section 1. For purposes of this act the word "film" shall mean what is usually known as a motion picture film; the word "reel" shall mean one thousand (1,000) feet of film or fraction thereof; the word "person" shall mean any person, firm or corporation; the "Iowa Label", hereinafter called the label, shall mean a portion of film approximately four (4) feet in length upon which shall be printed a serial number followed by the words "Licensed by the Iowa Motion Picture Board"; a "misbranded film" shall mean a film not having attached thereto a label furnished by the motion picture board, or a film, or any portion of film, not licensed by the board.

Sec. 2. There is hereby created a motion picture board, hereinafter called the board, which shall consist of three citizens of Iowa, not more than two of whom shall be of the same sex, all of whom shall be well qualified by education, experience and reputation for good moral character to perform the duties provided in this act, and none of whom shall have any financial interest in motion pictures except as provided in this act. The members of the board shall be appointed by the governor for a period of three (3) years, except that those first appointed shall hold office for three (3) years, two (2) years and one (1) year respectively, the different terms to be specified by the governor. The governor shall designate one of the members chairman, one vice-chairman, and one secretary of the board. The governor may remove a member of the board for incompetency, neglect of duty, an act of immorality or a violation of a law of Iowa; or the district court of Polk county, on complaint of any three citizens of Iowa, after a hearing, may remove any member of the board.

Sec. 3. A vacancy in the board shall be filled by the governor for the

unexpired term. A vacancy of one member shall not impair the powers or functions of the board.

Sec. 4. Before assuming the duties of their offices, the persons appointed to the board shall take and subscribe to the oath prescribed by the constitution and laws of Iowa, and shall enter into a bond to the state of Iowa in the sum of three thousand (3,000) dollars each, conditioned upon faithful performance of their duties.

Sec. 5. The members of the board shall each receive an annual salary of three thousand (\$3,000) dollars, payable monthly. Each member and employee of the board shall be allowed all expenses necessarily incurred in carrying out the provisions of this act.

Sec. 6. The board shall obtain and use an official seal, which shall contain the words, "Iowa Motion Picture Board", together with such design engraved thereon as the board may select.

Sec. 7. With the approval of the governor, the board shall appoint such employees as the work of the board may require, provided that the total sum necessary to pay the salaries and expenses of such employees does not exceed nine thousand (\$9,000) dollars a year. The salaries of such employees shall be paid monthly.

Sec. 8. The executive council of the state shall provide adequate offices and rooms for the board in Des Moines.

Sec. 9. Upon requisition of the board, the executive council shall furnish to the board all necessary furniture, books, stationery, supplies, machines and other materials.

Sec. 10. The printing and binding necessary for the proper performance of the duties of the board or proper preservation of its records, including the printing of two thousand (2,000) copies of the annual report and the binding thereof, shall be done by the state printer, on requisition of the board.

Sec. 11. The board shall examine or supervise the examination of all films, and all signs and posters and other matter to be used on any building, bill-board or other structure to advertise any film or motion picture exhibition: shall license such parts or portions as are proper and moral; and shall refuse license to all other, including such as are obscene, indecent, vulgar, sacrilegious, those giving undue prominence to unlawful scenes of acts, and those whose exhibitions would tend to corrupt morals or incite to crime or race hatred.

Sec. 12. For the examination of each reel of original film the board shall receive a fee of two (2) dollars. For each reel of duplicate film the fee shall be one (1) dollar. All fees are to be paid in advance.

Sec. 13. The board shall furnish a copy of the label for use with every licensed film, and label shall be attached to and exhibited at all times at the beginning of the film. One label shall be sufficient for all

reels of a film exhibited in unbroken succession, but every serial shall have a label for the part used for each separate exhibition. The board shall also furnish a certificate with every label, which certificate shall set forth the title of the film, the subject matter of the label attached to the film, together with such other matter as the board may elect. Whenever any film is on exhibition, the certificate thereof shall be posted, at all times, in plain view, in the hall or entry-way, near the room or enclosure where the said film is being exhibited. Any owner or leasee of any film who shall send any label or permit, any label to be sent out of the state of Iowa shall forfeit all right, at the option of the board, to use said label or exhibit the film for which it was granted in the state of Iowa for one year thereafter; and the board may refuse all licenses to said person for one year.

Sec. 14. The board shall keep a permanent record of all examinations, noting, if a license was granted, the name of the film, its serial number, and the eliminations, if any, of both film and advertising; if a license was not granted, the board shall keep a record of the name of the film and the reasons for withholding a license.

Sec. 15. On or after the first day of November of each year, the board shall make to the governor a written report, and the said report shall contain a summary of the work of the board for the year, including the number of films licensed, the number of reels and the approximate length of film from which license was withheld, the number of prosecutions for violation of this act or the building laws of the state of Iowa, an itemized statement of all receipts and disbursements, and such other information as the board may elect or the governor desire.

Sec. 16. Any member or employee of the board may enter any place where motion pictures are exhibited at any time; and such member is hereby authorized and empowered to prevent the display of any advertisement not licensed or any mis-branded film, and to require all buildings or other structures in which motion picture exhibitions are conducted to conform to the building laws of the state. Any county attorney or peace officer is also authorized to enforce this act.

Sec. 17. All fees and fines received under this act shall be turned weekly into the state treasury and credited to a fund to be known as the motion picture fund. There is hereby appropriated the sum of five thousand (\$5,000) dollars, which shall be credited at once to the said motion picture fund to meet the initial expense incurred under this act, the said sum to be returned to the state treasury as soon as, in the judgment of the board, the condition of the motion picture fund will permit. All salaries and expenses, except such as are incurred under sections eight, nine and ten hereof, shall be paid out of the motion picture fund. When the condition of the motion picture fund shall permit, the board shall turn into the state treasury annually a sum estimated by the board to be equal to the entire expenses of the board under sections eight, nine and ten hereof. If it shall be found by the board at the end of one (1)

year that the fees provided for in section twelve (12) hereof are more than sufficient to meet the entire expenses of the board as provided above, then the board shall lower the fees provided in section twelve (12) hereof. Likewise, if it shall be found that the fees provided in section twelve (12) hereof are not sufficient to meet the entire expenses of the board as provided above. The board is authorized to increase the fees to a rate sufficient to meet said expenses; provided that there shall be no reduction of the fees till the entire five thousand (\$5,000) dollars originally credited to the motion picture fund be returned to the state treasury.

Sec. 18. Every person intending to sell, lease, exhibit or otherwise use any film in Iowa shall first apply to the board for a license, using blanks provided by the board; and he shall furnish with the application a complete copy of all reels of the film, or serial, together with a synopsis of the contents of the film or serial with a description of all signs and a sample of every poster or other matter to be used on any building, bill-board or other structure in advertising the said film, together with an affidavit that each duplicate is an exact copy of the original.

Sec. 19. Within three (3) days after receiving an application for a license, the board shall issue said license or give to the applicant in writing its reasons for withholding same. The applicant may ask for and shall be granted, if he wishes, a rehearing either on the matter of withholding license or any eliminations required by the board, which rehearing shall be in the presence of two or more members of the board. If still aggrieved the applicant shall have the right, any time within ninety (90) days to appeal to the district court of Polk county upon giving ten (10) days written notice, said notice to be served on the president of said board or any member thereof in the same form as original notices and filed with the clerk of the district court, together with such other papers as may be necessary to bring the said question properly before said court. The provision with reference to appeal from justice court to the district court are applicable in said appeal in so far as they have not been herein modified. Said board shall within ten days after service of said notice make and file a complete and certified copy of the proceedings on the original application for license together with all original papers in said matter; provided that said film shall not be exhibited pending final decision by the court on said appeal.

Sec. 20. By giving not less than ten days written notice to the owner or leasee of any film, the board may recall said film for re-examination, and its status shall be when recalled as though it had not been previously examined, except that no additional fee shall be required.

Sec. 21. Any person who shall make or use any label or certificate other than the label or certificate furnished by the board shall be guilty of forgery and punished for same as provided by law. Any person who shall sell, lease, exhibit or otherwise use any film, or shall

use any sign, or poster or other matter on any building, or bill-board or other structure to advertise any film or motion picture exhibition without first having obtained a license therefor, or any person who shall exhibit a mis-branded film, or shall violate any other provision of this act shall be guilty of a misdemeanor, and, upon conviction, shall be fined not to exceed five hundred (\$500.00) dollars or be confined in the county jail not to exceed sixty (60) days or both. Each day a violation continues shall constitute a separate offense. This section shall be in full force and effect four months after the going into effect of the other parts of this act.

Sec. 22. The provisions of this act shall not apply to any motion picture exhibition for purely educational or religious purposes by any religious association, scientific society, library, museum, or public or private school or other institution of learning.

Also amend the title to House File No. 703 by striking out all of said title and inserting in lieu thereof the following:

CONCURRENT RESOLUTION

Unanimous consent having been obtained to return to the order of resolutions, Edson of Buena Vista offered the following concurrent resolution:

(a) Whereas it is at this time apparent that an extra session of the legislature will be necessary for the work of code revision.

(b) And Whereas the great magnitude of the work of the legislature in revising the code is now apparent to the members of both Houses of the Assembly, such work including within its scope approximately ten thousand (10,000) sections of law in the compiled code, and the two hundred and fifty-three (253) code commission bills in addition to such bills as will be offered by members on the floor at the extra session.

(c) And Whereas the work of the extra session can be materially hastened by providing for the organization of the work in advance.

(d) And Whereas it is the desire of the members of this Assembly that the work of the extra session be completed as soon as possible.

Therefore, Be It Resolved by the Members of the House, the Senate concurring:

(1) That it is necessary and advisable that an extra session of the legislature for the purpose of revising and codifying all laws of the state be called by the governor.

(2) That to avoid all unnecessary delay that the present organization of the House and Senate be continued so far as possible as the organization for the work of the extra session.

C. 1778 to 1783 inclusive) and to enact substitutes therefor regulating and licensing the manufacture, sale and use of hog cholera virus, and anti-hog cholera serum and other biological products for use upon domestic animals, beg leave to report they have had the same under consideration and have instructed me to report the same back to the House with the recommendation that the same be amended as follows, and when so amended the bill do pass:

By striking out all after the enacting clause and substituting the following in lieu thereof:

Section 1. It shall be the duty of the commission of animal health and it shall have the power and authority to make and promulgate such rules and regulations governing the manufacture, sale and distribution of hog cholera serum, virus and other biological products for use upon

domestic animals, as it deems necessary to maintain the potency and purity of such serum, virus and biological products.

Sec. 2. Whenever used in this act the word "commission" shall refer to the Commission of Animal Health; the word "person" shall include individuals, firms, partnerships, companies and corporations; the words "biological products" shall include and refer to hog cholera serum, virus, and other biological products for use in the treatment of domestic animals; the word "manufacturer" shall include all persons engaged in the preparation of biological products as construed by this section in this state at any stage of the process; except those engaged under the provisions of sections two thousand five hundred thirty-eight-w (2538-w) to two thousand five hundred thirty-eight-w2 (2538-w2) inclusive, of supplemental supplement to the Code, 1915, (C. C. Secs. 2422, 2423, 2424), or in any other state or governmental institution; the word "dealer" shall include any person engaged in the sale, dispensation, or other distribution for profit, or who shall offer for sale, dispensation, or other distribution for profit biological products whether as principal or agent, other than manufacturers.

Sec. 3. No person shall manufacture, sell, offer for sale or otherwise distribute within this state any biological products unless he shall have been granted permission to manufacture or sell such products by the commission, upon application as provided in this act.

Sec. 4. Application for permission to manufacture, sell or otherwise distribute biological products shall be made, by any person desiring to manufacture, sell, or otherwise distribute such products, which application shall give the applicant's name, his place of business, and such other information as may be required by the commission.

Sec. 5. Application to manufacture biological products shall be accompanied by evidence satisfactory to the commission that the applicant is holder of a valid and unrevoked United States Government license for the manufacture and sale of biological products and was such holder at the time the said biological products were made.

Sec. 6. Application for dealer's permit shall be accompanied by an undertaking on the part of the applicant faithfully to comply with the law governing the warehousing, handling, sale and distribution of biological products and the rules and regulations of the commission promulgated thereunder, and by a bond in the penal sum of five thousand dollars (\$5,000.00), to be approved by the commission for the use and benefit of all persons using the biological products sold by the permit holder, who may be damaged by reason of his negligence in the warehousing, handling or distribution of such products, and for the use and benefit of the state for all penalties adjudged against the principal thereon in any actions instituted in the name of the state.

Sec. 7. The provisions of the preceding section shall be construed only to limit the liability of the surety upon the respective bonds, and any party damaged by the negligence of the principal thereon may recover

damages to the full amount suffered by such injured party by reason of negligence of the dealer in the discharge of any of the duties imposed by this act or by the rules promulgated by the commission thereunder or in the warehousing, handling or distribution, as the case may be, of such biological products, and in the event of judgment being obtained upon any bond provided in this act the commission may immediately revoke the permit issued, if in its judgment the conditions warrant such revocation, and shall in any event require a further bond the amount of the penalty upon which shall be such as to afford the same security to all persons entitled thereto as is provided in bonds originally filed, and upon failure to furnish such additional bond the said permit shall be thereby revoked without further action by the commission.

Sec. 8. Any party damaged by the negligence of a manufacturer may recover damages to the full amount suffered by such injured party, by reason of negligence of such manufacturer in the discharge of any duties imposed by this act or by the rules promulgated by the commission thereunder or in the manufacture, warehousing, handling or distribution, as the case may be, of such biological products.

Sec. 9. Before the issuance of an original permit to any manufacturer or dealer the commission may cause the premises upon which it is purposed to manufacture or sell biological products to be inspected, and shall make such requirements regarding the physical condition and sanitation of such premises as in its judgment are necessary to insure the maintenance of the potency and purity of the said products; provided, that such inspection shall be made of all such plants and agencies prior to the renewal after the passage of this act of permits heretofore issued, and such premises shall be subject to inspection at such time and in such manner as the commission may consider proper and necessary to insure compliance with its rules and regulations and the statutes relative thereto.

Sec. 10. A fee of twenty-five dollars (\$25.00) shall accompany applications for manufacturer's permit for each plant where it is proposed to manufacture biological products, and a fee of fifteen dollars (\$15.00) shall accompany applications for dealer's permit for each warehouse or distributing agency it is proposed to maintain. All permits shall be valid for one year from the date of issuance and renewals thereof shall be subject to like conditions, including fees as are imposed in the case of original permits.

Sec. 11. All permit holders shall make such written report to the commission as it may from time to time require.

Sec. 12. The commission may revoke any permit issued by it for violation of the terms and conditions under which it was issued.

Sec. 13. No biological products shall be sold or otherwise distributed, or offered for sale or other distribution, or be used in this state except such as have been produced at a plant holding a United States govern-

ment license for the manufacture of biological products or of such of said products as are offered for sale, distribution or use, at the time said products were made.

Sec. 14. No person shall sell, offer for sale or otherwise distribute or offer for distribution virulent blood or virus from cholera infected hogs other than to holders of valid permits to use the same.

Sec. 15. Written permits to administer virulent blood or virus from cholera infected hogs shall be issued by the commission only to such persons as present satisfactory evidence that they are qualified to administer the same. Such permits may be cancelled by the commission upon it appearing that the holder thereof is no longer a proper person to administer such virulent blood or virus. No person shall administer such virulent blood or virus unless he is the holder of a valid unrevoked permit, and manufacturers and dealers shall sell to all permit holders without discriminating as to the price of products.

Sec. 16. Provisions shall be made by the state veterinarian for instruction in the use of serum and virus in each county not oftener than once each year, and he is hereby authorized and directed to make all necessary arrangements for such instruction, at a convenient time and place, when there are seven (7) or more applicants, who are residents of the county, for such instruction. Persons who desire to avail themselves of such courses of instruction shall make application to the county agent accompanied by a fee of five dollars (\$5.00).

Sec. 17. The county agent shall forward such applications and fees to the state veterinarian, who shall notify the extension department of the Iowa State College of Agriculture and Mechanic Arts at Ames, and said department shall within thirty days send competent instructors to such county to hold a school of instructions. Such instructor or instructors shall give all instructions and demonstrations necessary, and conduct examinations and forward his report to the commission immediately. Upon receiving such report, it shall be the duty of the commission to issue permits to those instructed as provided in section fifteen (15) of this act. Such permits shall allow the applicant to use virulent blood or virus upon animals owned by himself. The compensation of the instructors and other expenses connected with such instructions, shall be paid out of the fees received from applicants, and any surplus shall be paid into the funds of the commission.

Sec. 18. The animal health commission may hold such schools of instruction at Ames at such times as they deem proper, and shall hold the same upon the application of ten (10) or more for such schools and at such schools no fees shall be charged and permits shall be granted to applicants as provided in Section seventeen (17), and shall hold two stated schools each year on the first Monday of January and August respectively.

Sec. 19. The commission, or its duly authorized deputies, assistants, or agents may seize, at any time or place, for examination samples of

biological products manufactured or kept for use or sale within the state.

Sec. 20. The commission shall have power to seize, condemn or destroy any biological products which it deems unsafe.

Sec. 21. No person shall remove or deface any label upon the bottles or packages containing any biological product, or change the contents from the original container except for immediate use.

Sec. 22. The examination of applicants provided for in section sixteen (16) hereof, shall be in addition to the examination of applicants for permits made at the Iowa State College of Agriculture and Mechanic Arts.

Sec. 23. It shall be unlawful for any person, firm, company or corporation authorized under this act to manufacture, sell or distribute serum or virulent blood or virus to grant any rebate, either directly or indirectly, to any person or to sell said products at any other than a uniform price to all persons, and the price at which said products are sold shall be plainly written or printed upon the label of each bottle showing the manufacturer's price and the dealer's price in plain legible figures; and any person, firm, company or corporation violating the provisions of this section shall forfeit their license to manufacture or sell such products and the same shall not be renewed for a period of one year.

Sec. 24. Any regularly licensed veterinarian who shall receive or collect, directly or indirectly, any rebate or commission or compensation for the handling and sale or use of any hog cholera serum or virus other than his charges for services rendered in administering the same, unless said amount is made known to the customer using the same in writing, shall forfeit his license as a veterinarian, and the same shall not be renewed for a period of one year.

Sec. 25. It shall be unlawful for any person, firm, company or corporation licensed as herein provided to manufacture, sell or distribute hog cholera serum or virus, directly or indirectly, by their agents or employes or any representative, to solicit or attempt to induce farmers or others to make application for examination as provided in section sixteen (16) hereof, or to in any way assist or be interested in procuring applicants for permits as herein provided. Any such firm, person, company or corporation violating the provisions of this section, shall forfeit their license granted under this act.

Sec. 26. Any person who shall violate any of the preceding provisions of this act, or any of the rules of the commission legally promulgated, or who shall hinder or attempt to hinder the commission or any duly authorized agent or official thereof in the discharge of his duty, shall be fined in a sum not less than one hundred dollars (\$100.00) nor more than five hundred dollars (\$500.00), or in default thereof shall be imprisoned not less than thirty (30) nor more than one hundred fifty (150) days.

MOTIONS OF ANDERSON OF WINNEBAGO

Anderson of Winnebago made the following motion:

MR. SPEAKER—I move that the House refuse to receive the message

presented by the Senate relative to House File No. 623, until such time as the Senate has acceded to the request of the House that said House File No. 623 be returned to the House.

Ruled out of order under joint rule No. 4.

Anderson of Winnebago made the following motion:

MR. SPEAKER—I move that the message first received from the Senate, together with House File No. 623 to which it refers, lie on the table until further order of the House.

Ruled out of order under joint rule No. 4.

Anderson of Winnebago made the following motion:

MR. SPEAKER—House File 623, a bill for an act regulating the furnishing of public service, the means and grants enabling such service to be furnished, providing for the term of such service, and granting to city and town councils and boards of supervisors powers to fix rates for furnishing such service and establishing a court of appeals to be known as a court of public service, and fixing its powers and providing procedure, duly passed this House and was thereafter messaged to the Senate. A very large majority of the members of this house were later convinced, after more mature reflection, that said bill ought, in justice to the people of the state, to be amended in important particulars.

To effect such amendments, this House did on March 29, 1921, and prior to the time when the Senate acted thereon, request the Senate to return the said bill to this House. The Senate refused to comply with said request. This bill is now in the possession of this House.

I therefore move that the chairman of the House committee on enrolled bills and each member of said committee, the chief clerk of this House or any of his assistants, and the enrolling clerk of this House, be, and they are each directed not to enroll said bill and not to cause or permit such enrollment to be made and not to report on or recognize any such enrollment if made. And that should any enrollment of said bill be made, in violation of this command or otherwise, each member and employee of this House is, and they are each hereby directed not to present such enrollment either to the Speaker of this House or to the President of the Senate or to any other person who may be acting as presiding officer of either said House or Senate; and that the speaker and speaker pro tem of this House and each and every other person who may be acting as presiding officer of this House be, and each of them are commanded and directed not to sign in any manner, any enrollment of such bill.

Joint rules 4, 5 and 6 follow:

RULE 4—ENROLLMENT OF BILLS

When a bill shall have passed both houses it shall be duly enrolled by the enrolling clerk of the house in which it originated, and the fact of its origin shall be certified by the endorsement of the secretary or clerk thereof.

RULE 5—EXAMINATION OF ENROLLED BILLS

When the bills are enrolled they shall be examined by a joint committee of two from the Senate and two from the House of Representatives, who shall be a standing committee for that purpose, and who shall carefully compare the enrollment with the engrossed bills, as passed in the House, correct and errors therein, and make report thereof forthwith to their respective houses.

RULE 6—AUTHENTICATION OF ENROLLED BILLS

After the report, each bill shall be signed, first by the speaker of the House of Representatives, and then by the president of the Senate, in the presence of their respective houses.

Anderson of Winnebago appealed from the decision of the chair on the ruling on motion No. 2.

Dodd of Howard raised the point of order that an appeal from the decision of the chair could not be made after intervening business.

The Speaker ruled that the point of order was well taken.

The House resumed consideration of House File No. 626.

Scott of Appanoose moved the previous question.

Motion prevailed.

RESOLUTION

Unanimous consent having been obtained to return to the order of resolutions, Westervelt of Greene offered the following resolution:

Whereas, There has been a general anticipation that there would be a special session of the Thirty-ninth General Assembly called for the purpose of revising the code, and

Whereas, There is to be, within the next three years, a constitutional convention for the purpose of revising the constitution, and

Whereas, We now have the compiled code which may be edited, annotated and put in general circulation, and

Whereas, A special session of this assembly would cost a large amount of money, therefore

Be It Resolved by the House of Representatives, That it is the sense of this body that a special session of the Thirty-ninth General Assembly should not be called for the purpose above mentioned.

Laid over under rule 34.

Calendar No. 77, Senate File No. 579, a bill for an act to amend section thirteen hundred sixty (1360) supplement to the

code, 1913 (C. C. Sec. 4590); section thirteen hundred sixty-six (1366) supplement to the code, 1913, (C. C. RESOLUTION

Unanimous consent having been obtained to return to the order of introduction of resolutions, Edson of Buena Vista, Children of Pottawattamie, Criswell of Boone and Moén of Lyon offered the following resolution:

Whereas, House File No. 623, known as the utility bill, heretofore passed the House and thereafter and before the said bill was passed by the Senate, this House by a large majority adopted a resolution calling for the return of the bill from the Senate for reconsideration and amendment in the House, and

Whereas, the Senate refused to return the said bill to the House and passed the bill, and the same has now been enrolled and sent to the governor for his signature, and

Whereas, such action by the Senate was in violation of the courtesy which each legislative body owes to the other under such circumstances, and

Whereas, the said House File provides for the making of existing franchises of public utility corporations indeterminate or in effect, perpetual, without the people having an opportunity to vote thereon and makes said franchise perpetual which by a vote of the people was heretofore granted for a fixed and definite period of time, and

Whereas, the said bill should be so amended as to not apply to existing franchises of public utilities but only to those hereinafter granted by popular vote of the people and as provided by law, and

Whereas, the said bill, if it becomes a law, will, in its present form, deny to certain municipalities and the citizens thereof the right of local self-government and impair the obligations of existing contracts, therefore,

Be it resolved by the House of Representatives, That Governor Ken-

CONCURRENT RESOLUTION

Becker of Clayton offered the following concurrent resolution:

Memorializing congress of the United States to enact such legislation as may be necessary to construct, erect, build and maintain a bridge across the Mississippi river between the cities of McGregor and Mar-

quette (North McGregor) in the state of Iowa, and the city of Prairie du Chien, in the state of Wisconsin.

Whereas, the Mississippi river is a navigable stream, constituting the boundary between the states of Iowa and Wisconsin, and there being no highway bridge of any description between the cities of Dubuque, in the state of Iowa, and LaCrosse, in the state of Wisconsin, a distance of more than one hundred twenty miles; and

Whereas, the cities of McGregor and Marquette (formerly North McGregor) and Prairie du Chien, are just half way between the cities of Dubuque, in the state of Iowa, and LaCrosse, in the state of Wisconsin, and are situated approximately sixty miles north of Dubuque, Iowa, and sixty miles south of LaCrosse, Wisconsin; and

Whereas, state highway nineteen of the state of Iowa has its eastern terminus at McGregor and Marquette (North McGregor) in the state of Iowa, and state highways number nineteen, twenty-seven and sixty of the state of Wisconsin have western termini at the city of Prairie du Chien, in the state of Wisconsin, and there being no bridge connecting such highways; and

Whereas, there are thousands of automobilists, tourists and interstate travelers, annually going and coming from the western part of Iowa and other states to the west of Iowa, traveling easterly upon the above designated highways across Iowa and Wisconsin and other states to the east of Wisconsin, and vice versa; and

Whereas, public necessity demands a highway bridge at these points to serve the interests of the public in traveling from one state to the other; therefore, be it

Resolved by the House, the Senate concurring, that the members of the legislature of the state of Iowa do hereby petition and earnestly pray the congress of the United States to enact legislation as may be necessary to construct, erect, build and maintain a bridge across the navigable waters of the Mississippi river between McGregor and Marquette (North McGregor), in the state of Iowa, and the city of Prairie du Chien, in the state of Wisconsin.

Resolved further, that a copy of this memorial, properly attested, by the presiding officers and chief clerks of both houses be forwarded by the secretary of state of Iowa, to the Senate and House of Representatives of the United States, and to our senators and representatives in congress.

LETTER FROM ATTORNEY GENERAL TO THE GOVERNOR ORDERED PRINTED IN THE JOURNAL

On motion of Dodd of Howard the following letter from the attorney general to the governor was ordered printed in the journal:

April 2, 1921

Hon. N. E. Kendall,
Governor of Iowa,
Building.

Dear Governor Kendall:

In your letter of April 2, 1921, you ask for an opinion from this department upon the following proposition:

"After a bill, originating in the House, has passed that body, been messaged to the Senate, passed there, returned to the House, signed by the president of the Senate and the speaker of the House, properly enrolled and presented to the governor, can it be recalled by the House upon resolution adopted by it?"

In the enactment of laws the legislature and the executive act together. The following process must be followed:

A bill must be properly originated, must pass both houses, must be signed by the speaker of the House and the president of the Senate, and then must be presented to the governor. The governor has the

right to either sign the bill or to return it to the house in which it originated.

Section 16 of article III of the constitution covers this matter. We quote it:

"Every bill which shall have passed the General Assembly, shall, before it becomes a law, be presented to the governor. If he approve, he shall sign it; but if not, he shall return it, with his objections, to the house in which it originated, which shall enter the same upon their journal, and proceed to reconsider it; if, after such reconsideration, it again pass both houses, by yeas and nays, by a majority of two-thirds of the members of each house, it shall become a law, notwithstanding the governor's objections. If any bill shall not be returned within three days after it shall have been presented to him (Sunday excepted), the same shall be a law in like manner as if he had signed it, unless the General Assembly, by adjournment prevent such return. Any bill submitted to the governor for his approval during the last three days of a session of the General Assembly, shall be deposited by him in the office of the secretary of state within thirty days after the adjournment, with his approval, if approved by him, and with his objection, if he disapproves thereof."

It will be observed further, that there is no rule of the House or of the Senate which provides that one of the houses can recall a bill from the governor without the consent of the other house. It will be observed further that there is no statute in the state which so provides. We must look then alone to the provisions of the constitution, to parliamentary procedure and to the decisions of the court.

We have already quoted one section of the constitution and we will not quote the other sections applicable to the enactment of laws for the very simple reason that they are more or less inapplicable to the situation presented, however, we may say, that there is no provision in the constitution which authorizes the recall of a bill by the house originating the bill without the consent of the other house after the same has been presented to the governor. On the other hand, the constitutional provisions seem to specify that after this has been done there seems to be but one process to follow and this has been quoted.

This very proposition has been determined in the case of the People vs. Devlin, 33 N. Y. 269; 88 Amr. Dec. 377, in which the court held flatly that "when a bill has passed both branches of the legislature and has been signed by the proper officers and sent to the governor for approval, it cannot be recalled except by the joint action of both. If the governor sends the bill to either house on the request of such house any action it may take thereon is a nullity."

The court in this case discusses this matter at length and points out the absolute necessity for such a holding.

It may be said that if the governor acting out of courtesy should acquiesce in the request for a return of the bill would such request confer any power upon the house to act further upon it? I am frank in saying I do not believe that the House would have any power to act upon the measure without the consent and concurrence of the Senate. This would be true, in my opinion, even if the governor had intended to allow them to so act. The question is not acquiescence, it is not courtesy, it is solely a question of power. The power conferred upon each branch of the legislature and upon the governor is specific. No authority is shown to be given for such an act either by the rules of the legislature, by the statute or by the constitution.

In our search of parliamentary procedure we have been unable to find a single precedent to sustain such a contention, in fact, it has been the universal custom in the congress of the United States to recall bills from the president only by the concurrent action of both the House of Representatives and the Senate. We do not take the time to cite these precedents; suffice it to say that there are thousands of such precedents in the several states and in the national congress.

I would seem to be unnecessary to point out the reason for the matter, but it will be observed that after a bill has passed both houses that it the joint acts of the legislature, not the act of one branch of the legislature. To permit the House to exercise the right would give the House power to nullify the joint action of the legislature, reversing the case.

Assuming that the Senate was seeking to recall the measure after it had been adopted by the legislature and properly signed by the speaker of the House and by the president of the Senate the result would be that twenty-six members of a legislature consisting of one hundred fifty-eight members could nullify a joint action of the entire legislature.

If the right is true in one instance it would be true in all, and if the joint action of the legislature could be set aside in an instance such as you suggest it could be set aside in all instances, which would be contrary to the very principles of legislative action.

We find in our own files that this matter has been determined by previous attorneys general throughout a long period of years, and that they have uniformly held as I am compelled to hold in this instance.

It follows therefore, that after a bill has been presented to the governor the house originating the measure cannot without the consent of the other body recall the same, especially where objection has been raised.

Respectfully yours,

BEN J. GIBSON,
Attorney General.

COMMUNICATION FROM THE GOVERNOR

The following communication was received from the governor:

House of Representatives of the Thirty-ninth General Assembly:

I return herewith to your honorable body in which it originated, House File No. 623, relating to public utilities.

The parliamentary history of the bill is unusual and interesting. The record discloses that after it passed the House and was messaged to the Senate, a resolution was adopted by the House upon a vote of more than two-thirds of its membership, requesting the return of the measure to the House. This request was refused and the Senate passed the bill. After it was re-messaged to the House, motions respectively that it lie on the table and that it be not enrolled were presented and ruled out of order.

The provisions of the bill, creating a public service court consisting of three district judges, to be designated by the chief justice of the supreme court, are in my opinion in direct contravention of section five of article five of the constitution of the state, which renders such judges ineligible to any other office as follows:

"The district court shall consist of a single judge, who shall be elected by the qualified electors of the district in which he resides. The judge of the district court shall hold his office for the term of four years, and until his successor shall have been elected and qualified; and shall be ineligible to any other office, except that of judge of the supreme court, during the term for which he was elected."

Little doubt can be entertained, I think, that membership on the proposed court would be the occupancy of another "office" as defined in this section. The court is to be a department of the state; its members are to be appointed for fixed and definite terms; the functions to be exercised are governmental. In addition to this, the selection of the court by the chief justice enjoins upon that official duties which are nowhere authorized in the constitution and have not been heretofore contemplated in the laws.

In my judgment, section nine of the bill violates a fundamental principle of our law and is a complete reversal of the policy of the state in dealing with public utilities. It deprives the people and their representatives on city councils and boards of supervisors of every vestige of power to protect the interest of the public in its streets and highways; for it, in effect, confers upon the utilities now established in the numerous

cities and towns of the state a perpetual right to enjoy the benefits and privileges secured to them under contract franchises granted by a vote of the people for definite terms. The provision enabling such indeterminate franchises to be terminated, is in my opinion wholly inadequate.

The court is limited to cancellation only "for non-user and when public necessity requires." It is fair to assume that "non user" would rarely arise and it is difficult to conceive a situation where "public necessity would require" the termination of a franchise no matter how inefficiently the corporation enjoying it was operating.

Another evil in the bill is that the court erected by it is awarded unlimited power and authority in the employment of assistant clerks, examiners, experts, stenographers, etc., all without any restriction whatever as to their number or their compensation. Inevitably the expenses attendant upon such a tribunal would be enormous, and the burden thereof should not, at this critical juncture, be entailed upon the taxpayers of the state. I believe now, as at the opening of the session, that retrenchment rather than expansion should be enforced in every direction possible.

Because of the objections indicated herein, I return the bill without my approval.

Respectfully submitted,

N. E. KENDALL,

Governor.

EXPLANATION OF VOTE

MR. SPEAKER—I voted no on Senate File No. 766 because I felt that the decreases in salaries passed by the House would create a tendency to inefficiency, if indeed competent help could be procured at all, for some of the salaries fixed by the committee of the whole in the House.

C. B. SANTEE.

MR. SPEAKER—I voted "No" on House File No. 855 for the reason I believe the majority of the soldier boys are not asking this preference. I believe that a majority of them feel as I do, that they are able and competent to stand on their own feet and do not desire preferential favors along this line.

J. H. STIMSON.

EXPLANATION OF MOTION IN RE HOUSE FILE NO. 623

MR. SPEAKER—I wish to state that prior to my making the motion found on page 1790 of the House journal of April 2d, to refer the motion of Aldrich of Marion to the sifting committee, I made a talk to the House in which I stated that the legislature was still in session and that House File No. 623, if it should be signed by the governor, could be amended or repealed, and that I felt that we were still in control of the same, and in order to show my disapproval of the proceedings of attempting to pass so many motions and resolutions regarding the same, I simply made the motion at the end of the talk knowing full well that a motion had no right to be considered by the sifting committee.

C. B. SANTEE.

On request of Santee of Black Hawk, unanimous consent hav-

SENATE AMENDMENTS

Amend by striking out all after the enacting clause and inserting in lieu thereof the following:

Section 1. That in pursuance to the mandate of the voters of the state

of Iowa, given at the general election in November, nineteen hundred twenty, a convention to revise and amend the constitution is hereby called to assemble on the second Monday in May, nineteen hundred twenty-three at twelve o'clock noon, in the capitol building in the city of Des Moines.

Sec. 2. The convention shall consist of one hundred eight (108) delegates and they shall be chosen from the same districts as the present representatives in the General Assembly.

Sec. 3. Delegates shall be residents of the district from which elected and possess the same qualifications as state representatives, excepting that they shall be not less than thirty years of age, and sex shall not disqualify any one from being such delegate. Vacancies after election shall be filled by the governor, or the person exercising the powers of governor, by appointment of some qualified person residing in the district in which the vacancy occurs. Vacancies on the ballot after nomination, but before election shall be filled by the governor, or person exercising the powers of governor, and the name of the person so nominated shall be printed on the ballot with the other nominees.

Sec. 4. Candidates for delegates to such convention shall be nominated at the regular state and county primary election to be held in nineteen hundred twenty-two and no other names shall be placed on the ballot at the general election except those selected in the manner herein prescribed. Any citizen having the qualifications herein prescribed and desiring to be a candidate, and residing in the district he desires to represent, shall file, or cause to be filed, with the secretary of state at least forty days **before the date** of said primary a petition signed by at least two per cent of the voters in said district, as determined by the total vote cast for governor in said district at the last preceding general election. Said petition shall be similar in form, so far as applicable, as that required for representatives in the regular primaries, excepting that no party shall be referred to therein and no party qualifications required. The secretary of state shall prepare blank petitions, which shall be sent to any citizen on demand.

The names of persons so petitioned for shall be certified to the proper county auditors in the same time and manner as other district officers, and shall be printed on the official ballot as herein provided.

A separate ballot shall be prepared by the county auditors with the names alternated by precincts in the usual manner for the nomination of such candidates for delegates to said convention and same shall be substantially in the following form:

(Place a cross in the square preceding the names of the parties you favor as candidates.)

OFFICIAL PRIMARY BALLOT FOR DELEGATES TO THE
CONSTITUTIONAL CONVENTION

For delegates to Constitutional Convention.

(Vote for two or four as the case may be.)

Which ballots shall be certified in the usual manner by the county auditor and have the usual blanks for certificate by the judges of election. Each person qualified to vote in said primary shall be entitled to vote for two persons in a district where one delegate is to be elected and for four persons in a district where two delegates are to be elected, and the returns shall be canvassed and certified to the county auditor by the judges of election in the usual manner and shall be canvassed by the board of supervisors at the same time as that for other officers voted for at said primaries, and an abstract of such canvass certified to the secretary of state and said abstract returns shall be canvassed by the executive council at the same time and in the same manner as other returns and they shall certify the two persons receiving the highest number of votes in districts entitled to one delegate as the nominees for said districts and the four persons receiving the highest number of votes in districts entitled to two delegates as nominees in such districts. Results of such canvass shall be certified to the respective county auditors in the same time and same manner at other officers and said county auditors shall prepare a separate ballot for the general election with the names of such nominees thereon in substantially the same form, so far as applicable, as the primary ballot herein referred to, no reference being made to party therein.

The vote on such ballots at the general election shall be canvassed in the same manner and by the same officers as those for state representatives and the results certified in the same manner to the secretary of state, who shall issue certificate of election to the person having the highest number of votes in districts entitled to one delegate, and to the persons having the highest number of votes in districts entitled to two delegates.

The laws then in force in reference to primary and general elections so far as applicable shall apply to the nomination and election of such delegates.

Sec. 5. The delegates shall be chosen at the regular election in nineteen hundred twenty-two, and all votes cast for delegates at said election

shall be tabulated, returned and canvassed in the manner then provided by the law for the tabulation, return and canvass of votes cast in elections for state representative so far as they be applicable. Election contests for membership in the convention shall be heard and determined by the convention.

Sec. 6. Each delegate before entering upon his duties shall take an oath to support the constitution of the United States and the state of Iowa, and to discharge faithfully his duties as a member of the convention. In going to and returning from the convention and during the sessions thereof the delegates shall, in all cases, except treason, felony or breach of peace, be privileged from arrest; and they shall not be questioned in any other place for any speech or debate in the convention.

Sec. 7. Each delegate shall receive ten (10) dollars per day for the time between the convening and final adjournment of said convention, and the further sum of ten cents per mile for the distance between the home of said delegate, and the place where said convention is held, but in no case shall any delegate be paid more than one thousand dollars (\$1,000.00) for his said per diem compensation. Said per diem shall be paid at the end of each thirty days and the balance at final adjournment. The pay and mileage allowed to each delegate shall be certified to by the president of the convention and entered in the journal, and warrants shall be issued therefor in the usual manner.

Sec. 8. A majority of the delegates elected shall constitute a quorum for the transaction of business. The convention shall choose its own officers, determine the rules of its proceedings, and judge of the qualifications, elections and returns of its members, and shall have power to appoint such officers, employees, and assistants as it may deem necessary and to fix their compensation. The governor, or in his absence the lieutenant governor, shall call the session to order at its opening session and shall preside over it until a temporary or permanent presiding officer shall have been chosen by the delegates.

Sec. 9. A complete record of the proceedings of the convention, not including speeches in debates, shall be kept and the journal containing the same filed with the secretary of state. The revision or alteration or amendments to the constitution agreed to and adopted by the convention shall be recorded in the office of the secretary of state.

Sec. 10. The revision of or amendments to the constitution adopted by the convention shall be submitted to the qualified voters of this state for ratification or rejection, in such form and at such time as the convention may prescribe, not later however than the next general election after the adjournment of such convention. No such revision, alteration, or amendments shall take effect unless approved by a majority of the electors voting at such election. The convention shall fix the day, or days, upon which such revision, alterations, or amendments shall become effective.

Sec. 11. All laws applicable to general elections then in force and not inconsistent with this act shall be applicable to such election held to ratify or reject the recommendations of said convention, and the convention shall prescribe the notices to be given thereof and the style or form of ballot to be used thereat and all such directions shall be carried out by the officials then required to look after and carry out the provisions in reference to elections. All laws in force governing elections and not inconsistent with the provisions of this act, or with powers exercised under the terms thereof, shall apply to and govern elections held under the terms hereof.

Sec. 12. The convention shall have power to punish, by imprisonment, any person, not a member, who shall be guilty of disrespect to the convention, by disorderly or contemptuous behavior in its presence. But no such imprisonment shall extend beyond twenty-four hours at any time, unless such person shall persist in such disorderly or contemptuous behavior. Commitments for disorderly or contemptuous behavior in the presence of the convention shall be made in the manner now provided by law for the commitment of persons guilty of disrespect to the General Assembly.

Sec. 13. It shall be the duty of all public officers to furnish the convention with any and all statements, papers, books, records and public documents that the convention shall require. The convention, and its committees, shall have the same power to compel the attendance of witnesses, or the production of papers, books, records and public documents, as is now exercised by the General Assembly.

Sec. 14. It shall be the duty of the law librarian of this state to collect and compile such information and data as he may deem necessary and convenient for the use of the delegates to said convention and to have the same ready for their inspection and use at the time the convention meets. He shall also compile and transmit to such delegates such information and data as they may call for and as he may be able to obtain between the time of their election and the assembly of such convention.

MOTION TO RECONSIDER LAID UPON THE TABLE

Dodd of Howard moved to reconsider the vote by which the House concurred in the Senate amendments to House File No. 678, and to lay the motion to reconsider upon the table.

Motion prevailed.

On request of Mayne of Palo Alto, unanimous consent having been given, House File No. 431, a bill for an act to define the crime of rape and provide for punishment for its commission; to establish the age of consent for a female at eighteen (18) years; to make it a crime for a female to have sexual intercourse with a boy under eighteen (18) years of age, and provide punishment therefor; to make it a conspiracy to co-operate with a person in accomplishing the act of sexual intercourse with a child under eighteen (18) years of age, and provide punishment for the same, with Senate amendments, was taken up and the amendments read and considered.

SENATE AMENDMENTS

Amend the title by striking out all after the semi-colon (;) following the word "female" in line three, and inserting in lieu thereof the following: "and to repeal section four thousand seven hundred fifty-six (4756) of the code."

Amend the bill by striking out all following the enacting clause and substituting in lieu thereof the following:

"Section 1. If any person ravish and carnally know any female of the age of sixteen (16) years or over, by force or against her will, or if any person under the age of twenty-five (25) years carnally know and abuse any female child under the age of sixteen (16) years, or if any person over the age of twenty-five (25) years carnally know and abuse any female under the age of seventeen (17) years, he shall be imprisoned in the penitentiary for life or any term of years.

"Sec. 2. Nothing herein contained shall bar any prosecution for any crime committed in violation of section four thousand seven hundred fifty-six (4756) of the code prior to the taking effect of this act.

"Sec. 3. Section four thousand seven hundred fifty-six (4756) of the code is hereby repealed."

Preceding the motion to concur in the Senate amendments to House File No. 431, Mayne of Palo Alto made the following remarks:

MR. SPEAKER AND GENTLEMEN OF THE HOUSE:

House File 431 has been amended by the Senate and returned to this body. I wish there were some way that it might be amended to show that it was not House File 431 as introduced by me but rather a Senate bill for there is nothing in it of the original bill save the name only. I am reminded of the words of the greatest personage that ever trod this earth when in that immortal address he declared "If a

son ask bread of any of you that is a father will he give him a stone?" This House by a magnificent vote and I believe a great majority of the people of this state asked bread in the way of protecting the innocent girls and boys of this state by raising the age of consent of the girls and making the law applicable to the boys from 15 to 18 years of age and the Senate has given practically a stone in that it has merely raised the age in girls from 15 to 16 years. I ask this body that it concur in this amendment not because it meets my entire approbation but merely because it does afford a slight degree of protection to the innocent girlhood of the land in adding another year toward discretion before they consent to give away the purity of their girlhood. I desire to have the record show my reason for concurring in the Senate amendment.

On the question, "Shall the House concur?"

REPORT OF COMMITTEE ON DEPARTMENTAL AFFAIRS

Gilmore of Clay, chairman of the committee on departmental affairs, submitted the following report:

MR. SPEAKER—Your committee on departmental affairs beg leave to report that they have had under consideration the investigating of the insurance department of the state of Iowa, and beg leave to state that we have investigated each and every claim and called before us every witness who, we were informed, could give us evidence with regard to any complaints of irregularities.

We find that at least part of the complaints made against this department arose by reason of the fact that the commissioner of insurance did not have, under the law, sufficient authority to properly supervise insurance matters in general, a part of which faults, we believe, will

be eliminated by certain legislation, which is now before the 39th General Assembly.

We further find that the commissioner of insurance is clothed, under part of the law, with a very wide discretion in certain matters and we have found no conduct on the part of the superintendent which amounts to an abuse of that discretion.

We, therefore, have come to the conclusion that the commissioner of insurance should be exonerated from any of the charges which have been preferred against him.

CHAS. GILMORE, *Chairman.*

JOURNAL OF THE HOUSE

MEMORIALS

HON. HANSON B. WATTERS

MR. SPEAKER—Your committee appointed to prepare resolutions commemorating the life and services of the Honorable Hanson B. Watters, late of Muscatine county, Iowa, beg leave to report the following memorial:

Honorable Hanson B. Watters, who represented Muscatine county in the Twenty-fifth and Twenty-sixth and Twenty-sixth Extra, General Assemblies, was born in Belmont county, Ohio, December 9th, 1840. He was the son of Dr. and Mrs. William W. Watters and early in the year 1851, when a boy of but eleven years of age, he came with his parents to Iowa and settled in Goshen township, Muscatine county. He grew to manhood's estate and received his education in the public schools of that vicinity. Later he attended the Western college at Western, Iowa, taking a collegiate course in that institution.

At the breaking out of the civil war, like so many patriotic sons of America, promptly enlisted in Company B., Second Iowa Cavalry. This was in August of 1861 and for three years, the period of his enlistment, he served faithfully and well in the defense of his country. At the expiration of his period of three years enlistment he again enlisted in the same company and served in it until after the war was over, being mustered out of service in September, 1865, thus giving to his country four years out of the best years of his young manhood.

He fought in many engagements of the war and at the battle of Coffeeville, Mississippi, he was severely wounded but after recovering from this wound rejoined his regiment. Upon being mustered out of service in September he immediately returned to his home in Muscatine county and took up the duties of civil life engaging in the occupation of farming.

In December, 1868, he was united in marriage to Miss Ruth H. Parker. To this union were born five sons, Allen P. Watters of Oakland, California; William L. Watters of West Liberty, Iowa; George Stanley Watters who lost his life by drowning at Ames, Iowa, in 1899; Henry Bertram Watters of Springfield, Ohio, and Vernon G. Watters of Savannah, Georgia.

Mr. and Mrs. Watters continued to reside on the farm until 1899 when they moved to West Liberty, Iowa, and made that place their home. Mr. Watters was a true American citizen and as such he took an active interest in public affairs and was affiliated with the Republican party and advocated the principles of that party giving conscientious support to these principles through the trying days of reconstruction and the placing of the nation on a sound financial basis that led to the marvelous prosperity of the years that followed.

In 1892 he was elected to the House of Representatives and served in this and the succeeding two General Assemblies. He represented his district with a large degree of fidelity giving to his duties that conscientious consideration that characterized his public services throughout life.

He was an active member of Silas Jackson Post, G. A. R. of West Liberty and a member of Mt. Calvary Lodge, A. F. & A. M. He passed from this life on June 15th, 1920, at the age of 79 years, 6 months and 6 days.

Therefore Be It Resolved, That the House of Representatives take this occasion to present this tribute to the memory of a faithful public servant and to express appreciation of his character and public service and to extend to his family and relatives most sincere sympathy.

Resolved, that a copy of these resolutions be printed in the journal of the House and that the Chief Clerk be directed to forward to the family of the deceased an engrossed copy.

HON. MONIAS E. BITTERMAN

MR. SPEAKER—Your committee appointed to prepare resolutions commemorating the life and work of the Hon. Monias E. Bitterman, late of Cerro Gordo county, Iowa, beg leave to report the following memorial:

Hon. Monias E. Bitterman who represented Cerro Gordo county in the Twenty-fourth and Twenty-fifth General Assemblies, was born in Canton, Ohio, August 16th, 1843, and died at Nora Springs, Iowa, December 23, 1919, aged seventy six years. He was left fatherless when quite young. After some years his mother married Samuel Spotts and when he was sixteen years of age the family moved to the vicinity of Joliet, Illinois. Here he worked on the farm until he became of age and here he was married January 14, 1866, to Sarah Heintzleman with whom he lived almost fifty-four years.

To them were born six children; J. C. of Madison, Wisconsin; E. L. and Mrs. Jennie Allen of Nora Springs; Mrs. Truly Schulte of New

Hampton; Mrs. Mamie Forbes of North Platte, Nebraska, and M. C., who lives on the old homestead in Portland township. There are also ten grandchildren, a great grandchild, little Bonnie Bell Brim, a half brother, A. L. Spotts and a half sister, Mrs. Mary Hendrickson, survive him. One brother Calvin died in infancy.

Shortly after his marriage he made a trip to this part of Iowa and was so favorably impressed with the country that he moved here with his wife and two sons, J. C. and E. L., in 1870, locating on a piece of land three miles west of Nora Springs and living on it continuously for almost fifty years, until his retirement from active farming, when he moved to Nora Springs, where he died.

The span of Mr. Bittermans' life covers a period of the development of the middle west, and for more than fifty years that he lived in this neighborhood witnessed the change from an almost unbroken expanse of prairie sod to the present condition of thoroughly cultivated and improved farms.

From the first he took active part in the public affairs of Portland township and Cerro Gordo county. He was treasurer of the school board for more than thirty years and a director for many years. As township trustee and as road superintendent he helped to develop his home neighborhood. In all his public work he stood for progress and good government and a careful and wise expenditure of public money. He had an extensive acquaintance over the county and among public men in the state. He was a good citizen. As a neighbor he was helpful, kind, considerate and just and his word was good. In time of trouble he could be depended upon to help generously. His home life was pure and he had the love and affection of his family.

Therefore, Be It Resolved, That in the death of Monias E. Bitterman the state has lost one of its sturdy pioneers who contributed his best endeavors in helping to lay the foundation of this great commonwealth; the county among whose people he lived and wrought so many years has lost a conspicuous exponent of the higher concepts of life and character, and his home community is bereft of a safe counselor and advisor.

Resolved, That a copy of these resolutions be printed in the journal of the House and that the Chief Clerk be directed to forward to the family of the deceased an engrossed copy.

HON. JAMES WILSON

MR. SPEAKER—Your committee appointed to draft resolutions, concerning the life and public service of the Hon. James Wilson of Traer, Tama county, Iowa, an honorable member of the House of Representatives of the 12th, 13th and 14th General Assemblies, beg leave to submit the following report:

James Wilson was born in a farm in Ayrshire, Scotland, August 16, 1835. He was the son of John and Jean Wilson. His father was a thrifty and intelligent producer of livestock, butter and milk. Believing himself fitted for larger opportunities, John Wilson brought his family to America in 1852, settling first in Connecticut. The family moved to Perry township, Tama county, in 1855, having saved money during the four years' stay in Connecticut sufficient to enter a half section of land.

James Wilson worked for his uncle, West Wilson in the summer and attended school in the winter. He hired to Stephen Klingaman to run his sawmill and sawed logs to build many of the houses and fences of north Tama in the two succeeding years. He also worked on a farm for Elijah Guernsey, of Geneseo, during the summer of 1860.

Mr. Wilson, in the days of his youth as well as throughout his life, was a great student. The late G. Jaqua, who knew Tama Jim from the time he arrived in north Tama in 1855, once wrote of him in the Star-Clipper: 'He loved to read, and few books or periodicals passed within his reach but what he eagerly devoured. Jim's employer was postmaster of the new settlement of Wolf Creek, and it is said that no paper or periodical ever lay in that office three days without his knowing all that was in it. He had a most capacious mind for knowledge. Once he went to school to us a few months, and what a student he was. When he got seated for study, so intent was he on his lesson that had an earthquake come he would not have known it. After that winter he went to Iowa college a year or two and then graduated between the plow handles. At this time he could turn an eighty rod furrow as straight as a line, could repeat at least half of Burns' poems or could make a speech on the political issues of the day, that would do credit to those of mature age.'

When the Civil War began, Mr. Wilson and his brother Peter had started farming on their own account. They had become of age—men of maturity, and recognized the claims of the government on their services. They formed a co-partnership to exist during the war, a common arrangement among brothers at that time. One would enlist and the other would remain to look after home affairs. When the war would end an equal division would be made. This arrangement was carried out. Peter, being the stronger, enlisted, first serving as private, then corporal and then sergeant. The two owned eighty acres of land between them. When they divided, a year after the war was closed, there was a half section of land, and all the hogs, cattle and horses

it would maintain, to divide. While Mr. Wilson was adding the three eighties and the stock, he was attracting the attention of his townsmen, and one day in September, 1864, at the home of Daniel Connell, the plan was formed to make Mr. Wilson a member of the Board of Supervisors, and it was successful. He was elected in October, serving a term of 1865-66.

Mr. Wilson was elected to the 12th, 13th and 14th General Assemblies as a member from Tama county, where he served with distinction and honor to himself and his country. In passing, it is interesting to note that during Mr. Wilson's terms in the General Assemblies, he acquired the appellation of "Tama Jim" to distinguish him from another James Wilson who was also a member at that time, and it was by that title that he was best known to all who loved and honored him. He was unanimously elected speaker of the 14th General Assembly. He was elected to the forty-third and the forty-fourth congresses and took an active part in securing legislation reducing the cost of transportation of Iowa produces eastward and in the regulation of Interstate Commerce. He was considered an authority on Parliamentary Law during his two terms in Congress.

At the expiration of his term of service, Mr. Wilson returned to his farm near Traer, where his family had continued to reside. He was appointed a member of the State Railroad Commission by Governor Sherman in 1882, and served eleven months in that capacity. Many important conclusions were reached during that period.

Mr. Wilson enjoyed the distinction of being the first farmer to go to Congress from Iowa.

After his service in Congress, Mr. Wilson took up agricultural writing. Later he became a regent of the Iowa State University and in 1891 he was elected to the chair of practical agriculture in the Iowa State College of Agriculture at Ames and director of the state experiment station. He then became the greatest instrumentality for building up agriculture pursuits that Iowa ever had.

It was in February, 1897, that he received word of his appointment by President McKinley to the cabinet portfolio of secretary of agriculture, taking up the duties of that office in March of that year.

When Mr. Wilson took office, the agricultural development of the country was already remarkable, but in the years during which he was at the helm of its interests, so far as the federal government was concerned, this development was increased far beyond the boundaries of natural promise which mere land and work afforded.

Mr. Wilson obtained on the merits of one achievement after another, until it became a universal belief among the farmers that the department of agriculture was working with a single minded purpose for their benefits.

In the management of the department of agriculture, he began with two cardinal rules; first, to find the best markets for the products of the farm; second, to induce and teach the farmers to raise the very best examples of the articles that the markets wanted.

Through his efforts and ability, the portfolio of the secretary of agriculture developed from one of minor consideration to one of the most important in the cabinet.

He was especially active in seeking new plants for this country and in plant improvement. He is credited with re-establishing the Morgan breed of horses, obtaining a crop of 60,000,000 bushels of African durum wheat, the introduction of new varieties of rice for the south, the introduction of new varieties of alfalfa from Arabia, Sahara, Chili, Turkestan and Peru, as well as new fruits and vegetables.

He saw the agricultural balance of trade increase from \$234,000,000. to \$425,000,000.

Mr. Wilson was head of the department of agriculture for sixteen years. His long service in the cabinet constituted an unparalleled record. He served under three presidents, McKinley, Roosevelt and Taft.

Mr. Wilson retired from office on the 4th of March, 1913, when Woodrow Wilson replaced Mr. Taft as President. On March 6, on the eve of his departure from Washington, 2500 employes of the department of agriculture tendered Tama Jim a great reception. For two hours he stood in the National Coliseum and received the good wishes of his employes, many of whom had worked under him throughout the sixteen years. In the presence of Secretary of State Bryan and Secretary of Agriculture Houston, they presented him with a life size bronze bust of himself, a replica of which was placed in the department. The bronze bust is now the property of Traer and is in the public library there.

A great homecoming for Secretary Wilson was arranged on his return to Iowa and was held at Ames. There was a big reception, parade and banquet. The banquet was given in the college gymnasium. Addresses were delivered by Mr. Wilson, Governor Clarke and others. It is estimated that the home folks who took part in this reception, numbered more than 4000 people. Tama Jim then returned to Traer with the intention of spending most of the remainder of his life among his children, relatives and old friends, but in June he accepted the appointment of Governor Clarke to be one of a commission of Iowa to go to Europe to study agricultural conditions of interest and profit to the Iowa farmer. He was accompanied on this trip by Henry Wallace, of Wallace's Farmer, his life long friend. They spent most of the time in the British Isles and Mr. Wilson visited his native land for the first time. He was abroad about two months.

Tama Jim was active in public service until the last two years of his life when health and strength failed.

During his cabinet service and later he was honored by several colleges and universities by being awarded the honorary degree of L. L. D. Among the schools to so honor him were the University of Wisconsin, University of Missouri, Cornell College and McGill university. In all, he received L. L. D's from eighteen American universities. He also was given L. L. D. by the university of Edinburgh. Andrew Carnegie, Rufus Choats and Mr. Wilson are the only Americans thus recognized by the Edinburgh university. Two humorists, Mark Twain and the actor, Joe Jefferson, were intimate friends of Mr. Wilson.

Throughout all his busy public career, Tama Jim never lost interest in affairs at home. He loved his home community. He was always associated with many Traer activities. He held membership in the Tranquillity church and was a faithful attendant when at home. Years ago when Traer had a fair, he was active in the management. He was president of the association several years. For many years, he was president of the First National Bank, including the years he spent in the cabinet in Washington.

Tama Jim was an able platform speaker and was continually in demand for addresses. He addressed conventions of associations of various kinds and stumped the country for Republican candidates during presidential and state campaigns. He was shrewd in politics. He could travel over Iowa and forecast the election results the most accurately of any man we ever knew. For thirty years it was his lot to close the campaign by a speech in Traer the night before election. In this practice honors were bestowed on both sides. He felt honored by being invited to speak, his friends felt honored in being able to hear him. He deeply appreciated the courtesy.

Mr. Wilson was married on May 7, 1863, to Miss Esther Wilbur, of Buckingham. Six children were born to the couple all of whom were living at the time of his death. They were as follows: Ward and Peter, who occupied the home farm three miles west of Traer; James W., of Brookings, S. D., a professor in the South Dakota Agricultural College; Miss Flora, Washington, D. C.; Jasper and Wright, living near Traer.

The five sons and Sherd Wilson, a nephew, served as pall bearers, as was the wish of Mr. Wilson. Burial was in the Buckingham cemetery, Tama county.

Whereas, The Honorable James Wilson, was called from this life, August 26, 1920, therefore,

Be it Resolved, That the House of Representatives has heard with deep sorrow and regret of his death and that it recognizes the high character of his service to his state and nation and in his death, the state and nation has lost a worthy and noble citizen, and,

Be It Resolved Further, That these resolutions be spread upon the journal, that engrossed copies of the same be sent to the members of his family.

HON. JAMES WILSON

Be It Resolved, That in the passing of Honorable James Wilson, late of Tama county, the state has lost one of its most illustrious citizens. His service as a member of this House in the Twelfth, Thirteenth, and Fourteenth General Assemblies, and his entire public career culminating in sixteen years' service as secretary of agriculture in the cabinets of Presidents McKinley, Roosevelt and Taft, mark him as a man of unusual intellectual power, and of the highest ideals of public service. His deeds reflect honor upon his name, and Iowa cherishes his memory among the best beloved of her sons.

F. W. INGERSOLL.

Adopted March 23, 1921.

HON. CHARLES E. BOIES

Charles E. Boies was born on a farm in Boone county, Illinois, January 15, 1859, and at the age of fourteen came with the family to Iowa, where he settled on a farm.

January 26, 1880, he was united in marriage to Miss Clara I. Miller, with whom he lived in happy companionship for over forty years. Mr. Boies remained a resident of Buchanan county until the time of his death. He was engaged in farming and stock raising all the time of his mature manhood.

Since boyhood Mr. Boies was an active member of the Methodist Episcopal church, which he served in an official capacity for many years. He was a member of the official board at the time of his death. He was not a member in name only, but a sincere Christian.

Mr. Boies is survived by his widow and two daughters, Mrs. E. M. Wilcox, and Miss Inez M. Boies. His only son, Corporal Burr Boies, died in France October 13, 1918. Mr. Boies also is survived by two brothers, Horace L. of Quasqueton, and Congressman Wm. D. Boies, of Sheldon.

Mr. Boies was a member of the Independence Lodge No. 87, A. F. and A. M., Declaration chapter O. E. S., Wapsi camp, M. W. A., and the Sons of the American Revolution. During his lifetime he was

called to fill various public offices, including township positions and as a member of the board of supervisors. At his death he was serving his second term as Buchanan county's representative in the Iowa house of Representatives.

As has been said of him: "Truly a good and useful man has left us, and not only his relatives, the church and Buchanan county, but the whole state of Iowa sustains a great loss. It is reassuring to know that the good which men do is not buried with them.

He was thoroughly honest, earnest, conscientious, quiet and unassuming. He made no pretensions of being an orator.

In the legislature it was in committee work that his influence was felt, where, as man to man, in his unpretentious way, he could present facts, figures and sound common sense to his co-workers. And when he got up to talk he always said something worth while in his plain, convincing way.

He was ever kindly, charitable, friendly, the best type of citizen. In his death the entire county and state mourns with the bereaved widow, daughters, brothers and other relatives. Especially was his death a shock to the members of the Thirty-seventh and Thirty-eighth General Assembly who were so intimately acquainted with him. A truly good man has passed on, and his memory will long endure.

Whereas, The life and character of the deceased, and his long and exemplary service calls for such as to place his memory among those highly respected and esteemed in the state of Iowa.

Therefore, Be It Resolved, That the House of Representatives of the state of Iowa, take this occasion to express its appreciation of the splendid character, and the public services of the deceased, and at this time extend to the surviving members of his family our sincere sympathy in their sorrow.

And Be It Further Resolved, That a copy of the resolution be spread upon the journal; that the chief clerk be directed to forward an engrossed copy of the same, to be sent to the widow of the deceased and surviving members of the family.

HON. GEORGE H. DUNKLEBURG

MR. SPEAKER—Your committee appointed to memorialize the life and public services of George H. Dunkleburg, an honored member of this

House in the Thirty-seventh General Assembly, and who died at his home near Rockford, Iowa, December twelfth, 1919, beg leave to submit the following report:

George H. Dunkleberg was born in Niagara county, New York, October second, 1853. He was a son of Jeremiah and Matilda Dunkelberg, both natives of Niagara county, New York. He made his home with his parents on a farm in Niagara county, New York, until 1867, when he came to Ogle county, Illinois. His father's family consisted of twelve children, eight girls and four boys.

George H. Dunkelberg grew up on the old home farm in Illinois. He received a common school education, and later attended high school at Rochelle, Illinois, and also the Rock River Seminary. He began life for himself as a teacher and for a period of five years taught in the public schools of Ogle county, Illinois. Although he was becoming one of the most successful educators of that county, he abandoned the school room for farming.

Mr. Dunkleberg was married in 1882 to Mary E. Hubbard, a daughter of Wm. Hubbard, of Ogle county, Illinois. Soon after he married he moved to Floyd county, Iowa, locating on a two hundred acre farm in section two, Rockford township. He put all the buildings and improvements on the place and was very successful as a general farmer and stock raiser, making a specialty of breeding Short Horn cattle. Prospering through industry and good management, he added to his original holdings until at the time of his death he was the owner of five hundred and forty acres of excellent land. Everything about his farm indicated thrift and prosperity and he was generally regarded as one of the leading farmers of northern Iowa.

Mr. Dunkleberg was of a jovial disposition, enjoyed a good story and was full of dry wit and humor. His word was as good as his bond and he enjoyed the confidence and respect of all who knew him.

The following children were born to Mr. Dunkleberg by his first wife: Alta, the wife of David Mitchell, Ray, Arthur, Floyd, Wilbur and Irene. The mother of these children died on February second, 1906. Mr. Dunkleberg subsequently married Minnie Gale, who survives him and at the present time resides on the home farm near Rockford.

Mr. Dunkleberg was a life long republican. For many years he was one of the leaders of his party in Floyd county. At the general election in the fall of 1916 he was elected state representative in the Thirty-seventh General Assembly of Iowa without opposition. During his service in the Legislature he made a commendable record which was in every way satisfactory to his constituents and all concerned.

Fraternally, Mr. Dunkleberg belonged to the Masonic Order, including the Consistory and the Ancient Arabic Order of Nobles of the Mystic Shrine. He was also a member of the Knights of Pythias and the

Ancient Order United Workmen. He belonged to the Methodist church, in which he held the office of trustee. He was a well informed man, having been a wide miscellaneous reader, and keeping abreast of the times on current matters. He was public spirited and always took a deep interest in movements looking to the betterment of his township, county and state.

In the death of Mr. Dunkleberg, the state of Iowa has lost a loyal patriotic citizen, and a faithful and efficient servant.

Therefore, Be It Resolved, That this memorial be spread on the House journal and an engrossed copy be sent to the family of the deceased.

Henry B. Kling was born May 23, 1845, at Troy, Wisconsin. On April 11, 1872, he was married to Flora E. Allen. To them were born a daughter, Mrs. Bessie Nelson, and a son, Herbert A. Kling.

Mr. Kling came with his family to Iowa in 1878, settling at Woodbine, Harrison county, Iowa, where he became a power for good. During his long residence in Woodbine, he was identified with every movement which tended to augment the growth and prosperity of the town.

In politics he was a republican and as a representative, he was an untiring and conscientious worker.

He was a charter member of Woodbine Lodge of the I. O. O. F. and a consistent worker in the fraternity.

Whereas, The life and character of the deceased were such as to entitle his memory to the respect and esteem of all who knew him.

Therefore Be It Resolved, That the House of Representatives take this occasion to express its appreciation of his character and public services, and at this time to extend to his family its sincere sympathy in their sorrow, and,

HON. JOHN FRANKLIN GLOVER

MR. SPEAKER—Your committee appointed to prepare suitable resolutions commemorating the life and work of the Hon. John, Franklin Glover, late of Osceola county, Iowa, beg leave to submit the following memorial:

Honorable John Franklin Glover was born September 16, 1845, in Hartleton, Union county, Pa., the son of William and Eliza (Fisher) Glover. In 1846 his parents moved to Stephenson county, Ill., where they lived until their deaths. When but one year old Mr. Glover moved to Monroe, Wis., and he was living there when the Civil War broke out.

In 1864 he enlisted in Company D, Thirty-eighth Regiment, Wisconsin Volunteer Infantry, and was later transferred to Company F in the same regiment. He was promoted to second lieutenant. He served under General Grant in Virginia.

Mr. Glover had not completed his education when he enlisted. He had some schooling at Freeport, Ill., and Monroe, Wis., but at the close of the war he entered the university of Wisconsin and was graduated with the degree of Bachelor of Arts in 1871 and Master of Arts in 1874. The same year he came to Osceola county and was elected clerk of courts. In 1878 he was admitted to the bar. A few years later he was elected to the state legislature and served in the 16th General Assembly. Later he was mayor of Sibley for three years and county attorney for two years.

The deceased was married to Mary Frances Upton, who died May 23, 1886, leaving one son, Lyn Fisher, who is now living in Sibley. In 1908 he was ordained to the ministry of the Congregational church and since that time has served as a supply minister in Iowa, Minnesota and Missouri. For many years he has served as pension attorney.

His wealth of knowledge has been the cause of wonder of all who had his acquaintance. History and political questions were his hobbies. He cited events and dates of ancient history as surely as he could point out the minute details of congressional bills. He followed the events of the late war so closely that he could give the minute details of every battle. Mr. Glover was a philanthropist with his knowledge. He gave of his services freely.

Therefore, Be It Resolved, That the House of Representatives take

this occasion to express its appreciation of his character and public services to the state and at this time extend to his bereaved relatives its sincere sympathy in their sorrow, and

Be It Further Resolved, That a copy of these resolutions be spread upon the journal of the House and that the chief clerk be instructed to forward an engrossed copy of same to the family of the deceased.

HON. NORMAN DENSMORE

MR. SPEAKER—Your committee appointed to prepare resolutions commemorating the life and services of the Honorable Norman Densmore, late of Cerro Gordo county, Iowa, beg leave to report the following memorial:

Honorable Norman Densmore, who represented Cerro Gordo county, in the Twentieth and Twenty-first General Assemblies, was born at Riga, New York, on the 19th day of September, 1829, and died April 11th, 1920, at Des Moines, Iowa, having lived through the most wonderful period of American history and rounded out a useful life whose span reached nearly across a century.

He received a high school education in the state of New York; took a year of college work after he came to Wisconsin at Beloit College.

In 1845 he worked on a farm in Rock county, Wisconsin, attending college the following year. He taught school for several terms and in 1877 followed the westward trend of civilization and came to the prairies of Iowa, settling in Cerro Gordo county.

Here he farmed and widened his acquaintance, and it was not long until his ability led to his being chosen as a representative to the state legislature. He was an active Republican, but the party never blinded him to the rights of man.

He became deeply interested in the Farmers Co-operative movement about this time, 1886-7 and fought the good fight of co-operation when almost standing alone and finally led the co-operative forces to victory. He was the promoter of the first successful co-operative elevator insurance company in Iowa.

Mr. Densmore was an officer for many years in the Cerro Gordo County Mutual and later became a director in the great Iowa Mutual Tornado Insurance Association in which capacity he acted until 1905, when he was elected as president of that company and moved to Des

Moines, to occupy this responsible position, which position he acceptably filled to within a few months of his death.

He was a man to be loved. Of that fibre of manhood which lays its course on the line of right and having laid its course goes forward with a steadfast purpose though the heavens fall. This was the spirit of Norman Densmore.

In 1857 he was married to Miss Delia Webster of Palestine, Illinois. To this union were born three children, Ray D., son, of Pensacola, Florida; Mrs. Elsie Jones of St. Paul, Minnesota; Ora D., son, of Des Moines, Iowa.

Therefore, Be It Resolved, That the House of Representatives take this occasion to present this tribute to the memory of a faithful public servant, and to express appreciation of his character and public service, and at the same time extend to widow and relatives most sincere sympathy.

Resolved, That a copy of these resolutions be printed in the journal of the House and that the chief clerk be directed to forward to the family of the deceased an engrossed copy.

HON. GAMALIEL JAQUA

MR. SPEAKER—Your committee appointed to prepare resolutions commemorating the life and work of the Hon. Gamaliel Jaqua, late of Tama county, Iowa, beg leave to report the following memorial:

Gamaliel Jaqua was born in Prebel county, Ohio, December 30, 1828, and died at the home of his son in Warrensburg, Missouri, December, 23, 1919. Burial was in Traer, Iowa. He grew to manhood in the county of his birth and served as county superintendent there several years. He came to Tama county, Iowa, in 1856 and bought some land at a dollar and a quarter an acre. He farmed and taught school. He served several years as justice of the peace and for ten years was a member of the board of supervisors.

In 1875, he was elected representative and re-elected in 1877, serving in the Sixteenth and Seventeenth General Assemblies. In 1882, when James Wilson who was editor of the Traer Clipper, was nominated for congress, Mr. Jaqua bought his interest in that paper. Later he associated himself with E. E. Taylor in consolidating the Star and Clipper. However, he sold his interest to Mr. Taylor a year thereafter, but edited an agricultural department in the paper for years. He also

wrote much for his two sons' papers at Humboldt, Iowa, and Warrensburg, Missouri.

Mr. Jaqua was a man of progressive ideas, always interested in the welfare of his state and county. Among legislative matters, during the later years of his life, he was much interested in, and advocated the use of Torren's Land Title System.

Therefore, Be It Resolved, That the House of Representatives take this occasion to present this tribute to the memory of a faithful public servant, and to express appreciation of his character and public service, and at the same time extend to relatives most sincere sympathy.

Be It Further Resolved, That a copy of these resolutions be spread upon the journal of the House, and that the chief clerk be directed to send copies thereof to the relatives.

HON. CHARLES F. LINNAN

MR. SPEAKER—Your committee appointed to prepare resolutions commemorating the life, character and public service of the Hon. Charles F. Linnan of Pocahontas county, member of the House of Representatives in the Thirty-fourth General Assembly, beg leave to submit the following memorial:

Charles F. Linnan was born at Churchville, Warren county, Iowa, May 17, 1867, and died at his home in Fonda, Iowa, May 31, 1919.

His education was obtained in the schools of Warren county and at Simpson College, Indianola, Iowa, also a business course at the Capital City Commercial College at Des Moines, Iowa.

After fitting himself for life's activities he engaged in the mercantile business at Fonda, Iowa, also engaged in real estate and in large drainage contracts in various counties of Northwestern Iowa, and was at the time of his death owner of a large amount of town property in Fonda, Iowa, also of thirteen hundred sixty acres of valuable Iowa land.

In a charitable way Mr. Linman was surpassed by very few, if any. The poor were never lacking in food or clothing if known to him. Many unfortunates of the liquor habit were helped by him to a cure in some institute for their betterment.

Whereas, in view of the loss the state has suffered by the decease of the Honorable Charles F. Linnan of Fonda, Iowa, and the still heavier loss sustained by those who were nearest and dearest to him,

Therefore, Be It Resolved, That in the death of the Hon. Charles

F. Linnan the state laments the passing of a valuable and honored citizen who was ever ready to proffer the hand of aid, to give voice in the counsels of his fellows, and to offer sympathy to the needy. That in the long and active residence in Pocahontas county, being identified with its educational, commercial and political activities, he enjoyed a large acquaintanceship through county and state which he deeply appreciated and profoundly respected.

Resolved, That it is but a just tribute to the memory of the departed to say that in regretting his removal we mourn for one who was worthy of our respect and regard.

Resolved, That we sincerely condone with the family of the deceased on the dispensation with which it has pleased Divine Providence to afflict them, and commend them for consolation to Him who orders all things for the best and Whose chastisements are meant in mercy.

Resolved, That this testimonial of sympathy and respect of the state and of the sorrow of the home city, be forwarded to the family of our departed friend by the chief clerk of the House of Representatives.

HON. JOHN SHAMBAUGH

MR. SPEAKER—Your committee appointed to prepare resolutions and befitting memorial on the life, character and public services of the Honorable John Shambaugh, a member of the 27th and 28th General Assemblies, beg leave to report as follows:

John Shambaugh was born in New Rumley, Ohio, October 13, 1848. He attended the public schools of that place, where he grew to manhood. His occupation was farming and stock raising, and it was there that he formed habits of industry and frugality which contributed to his eminent success and achievement, and gave him the reputation of being one of the foremost and most progressive farmers of Iowa. He emigrated to Iowa in 1873, where he came into possession of a quarter section of the best land in Madison county. He was married to Miss Ellen Evans in 1879.

There was added to his small farm acre upon acre until his possessions extended to Dallas county. Long before his death, he had one of the largest and best equipped farms in Madison county. An imposing and spacious mansion was erected and comfortable sheds and barns were built. It was a model home in every respect, where entertainment was furnished and lavish hospitality dispensed to his friends, and especially to such as were engaged in the same occupation as himself.

In conjunction with his brother and other enterprising neighbors, he erected a beautiful church building and laid out a cemetery at the corner of his home farm. This was a United Brethern church, of which he was a life long member and official. He was first and always interested in this church of his choice, which was frequently called Mr. Shambaugh's chapel. He gave liberally of his time and money in helping to sustain Leander Clark College at Toledo, Iowa, which was the state school of the United Brethern church, and he was a trustee of that institution for thirty years.

He assisted in organizing the Booneville Savings Bank, and was a director of the same until the time of his death. He was a life long member of the Republican party, and stood high in the councils of the organization, both county and state. He was a member of the Grant Club of the capital city, and rarely was absent from its meetings. He found time for travel and visited all parts of the United States, and journeyed throughout Europe.

He left but one son and heir, Jacob Shambaugh, who, with his mother, are still operating the farm.

Resolved, That this memorial be spread upon the pages of the House journal, and an engrossed copy be sent to the family of the deceased.

HON. GEORGE R. STRUBLE

MR. SPEAKER—Your committee appointed to prepare resolutions commemorating the life and work of the Honorable George R. Struble, late of Tama county, Iowa, beg leave to report the following memorial:

Judge Struble departed this life at his home in Toledo, Iowa, December 15th, 1918. He was born July 25, 1836, in Sussex county, New Jersey. His parents, Isaac and Emma (Cox) Struble, removed to Fredericksburg, Virginia, when he was quite young. They afterwards removed to Chesterville, Ohio, in 1847. In 1856, Mr. Struble came to Iowa, locating first at Iowa City and remaining there until the following spring. He then located in Toledo, Iowa, where on April 19th, 1860, he was married to Miss Sophia J. Nelson.

He was admitted to the bar in 1860. His first law partnership was with Albert Stoddard which lasted four years and was succeeded by the firm of Allen & Strubble.

He also was later in partnership with C. B. Bradshaw, C. M. Good-

rich and L. G. Kinne, and in 1881, the firm of Struble & Stiger was formed, which continued as long as he remained in active practice.

From 1870 to 1872, he served acceptably on the circuit bench and in 1879 was elected to the General Assembly where he served two terms, the last term as speaker of the House of Representatives.

He was affiliated with the First Congregational church of Toledo for many years and was zealous in his church life and in the support of all those things which are for the uplift of the community.

The life and work of Judge Struble remain as an inspiration to those who knew him. He gained his position and influence in life by arduous, painstaking labor and appreciated to the utmost the opportunities that life had afforded him. His energy, his intellectual powers, his untiring efforts for those he served, all characterize him as a man and citizen of whom it may well be said, "Well done, thou good and faithful servant."

Judge Struble was a director of the Toledo Savings Bank; in politics, a republican. Socially, he was pleasant, affable and courteous; however, always considering business paramount to social ties.

As a lawyer, he was quick to see a point and possessed a ready flow of language to push it; a forcible speaker well educated in his profession and withal, a most successful lawyer. He was a man in whom not only his county but his state took pride.

Six children survive him as follows: Agnes N., Mary T., Gertrude N., Jessie F., Geo. Herbert, who was a member of the law firm at the time of his father's death, and Grace T.

The funeral was held in Toledo and burial in Woodlawn cemetery.

Whereas, The Honorable George R. Struble, has been called from this life, therefore,

HON. LAURITZ ENGER

MR. SPEAKER—Your committee appointed to prepare resolutions commemorating the life, character and public service of the Hon. Lauritz M. Enger, beg leave to submit the following report:

Lauritz M. Enger was born in Norway, November 3, 1856 and departed this life at his home, Decorah, Iowa, August 2, 1920.

His father, Magnus Enger, was a farmer in Norway, where he and his wife are both buried.

Lauritz M. Enger attended public school in his native country until he was fifteen years of age, but during the last two years of this period was obliged to gain his own livelihood. At the age of fifteen he borrowed enough money to pay his passage to the United States and afterward worked at farm labor in order to pay his debt. When this was discharged, he continued at his former occupation, working as a farm hand during the summer months and attending district school in the winters. He later became a student at Breckenridge Institution in Decorah and upon leaving that institution secured a position as a clerk in a general store in this city, retaining it for six years thereafter. At the end of that time he rented a farm but after operating it for two years returned to Decorah where he purchased a shoe store, turning his attention to mercantile pursuits. For nine years he continued to conduct this enterprise and during a portion of this time was employed also in the Decorah postoffice as mailing clerk. He then accepted a position in the office of the Decorah Posten, beginning in the mailing department and rising until he had full charge of same and later assisted in the editorial and business departments. He also did a great deal of illustrating and he remained connected with the paper for sixteen years, during which time he also established himself in the insurance business. In this line of work he was active and in control of a large and representative patronage and numbered among the substantial business men of the city.

Mr. Enger was elected to the House of Representatives in 1910, was re-elected in 1912. He completed his legislative activities by serving with distinction in the Senate of the 36th and 37th General Assemblies.

On the 10th of February, 1880, Mr. Enger was united in marriage to Miss Bertha Myran, a daughter of Ashley and Astri (Nelson) Myran, natives of Norway. Mr. and Mrs. Enger were the parents of three children: Melvin, aged thirty-two, who is a professor in the university of Illinois; Norval, aged thirty, county engineer of Grant county, Washington; and Arthur, assistant engineer at the experiment station of the State University at Tuscon, Arizona. He is an expert on road construction and travels all over the state in this capacity.

Mr. Enger was a devout member of the Lutheran church and gave his political allegiance to the republican party. He was a member of

the Norske Salskab Club and the Symra Club and was well known in social circles at Decorah. He was a man of varied interests but all along lines of progress and improvement. While in business affairs he achieved a gratifying measure of prosperity, he at the same time wrought along lines of the greatest good to the greatest number, his activities in political and business fields providing of benefits to community at large.

Therefore Be It Resolved, That the House of Representatives take this occasion to express its appreciation of his character and public service and at this time extend to his surviving children its sincere sympathy in their sorrow, and

Be It Further Resolved, That a copy of the resolutions be spread upon the journal of the House and that the Chief Clerk be instructed to send an engrossed copy to the children of the deceased.

Whereas, The Honorable Ferguson F. Roe, who was heretofore a member of the House of Representatives from Monona county during the twenty-second (22d) and twenty third (23d) General Assemblies, departed this life at his home near Castana, Iowa, January 5, 1920, and

Whereas, His record as a man, a legislator, a public official and a citizen, has been of the highest character, and

Whereas, It is fitting that we should recognize in some fitting manner, the passing of this distinguished citizen, therefore be it

Resolved, By the House of Representatives of the state of Iowa, that in the death of Ferguson F. Roe, the state of Iowa has suffered a loss.

"Ferguson F. Roe was born in Darke county, Ohio, November 18, 1832. He was the fourth of a family of eight children.

In his youth Mr. Roe attended the district school in Jackson township, Darke county, Ohio, and at the age of eighteen years commenced serving an apprenticeship at the blacksmith trade, at which he served for about two years. The succeeding years he was engaged in studying in the school again, but later removed to Union City, Rudolph county, Indiana, on the line and started a forge of his own, and there remained until September 1855 when selling his tools and packing up

he came to Iowa. He had been successful in speculating in town lots in that city and had when he came here about \$700.00 besides his wagon and span of horses. He arrived in Monona county in October of the same year and settled upon the east half of section eighteen. In December 1850 he went to Story county and through that winter was engaged in teaching school, returning to his farm in the spring or the summer of 1857 drew to a close he returned to Story county and was there married October 1st, 1857, to Eliza A. In the fall of 1887 he was elected representative to the General Assembly of Iowa, where he served two terms. He was the father of seven children. He owned large land interests in the Maple Valley and late years was a well known figure at the Old Settler's Picnics in both Monona and Woodbury counties.

Be It Resolved, That the life of Ferguson F. Roe, as a citizen as a legislator, and in every other walk of life, has been such as to commend his example as an inspiration to those who follow after. His unswerving fidelity to duty, his faithfulness in every public and private trust, and his character as a citizen should inspire all with whom he came in contact to a higher ideal of life and living, and be it further

Resolved, That these resolutions be spread upon the records of this House of Representatives and engrossed copy thereof be sent to his family.

HON. MAHLON HEAD

MR. SPEAKER—Your committee appointed to draft a resolution concerning the life and public service of Honorable Mahlon Head of Greene county, Iowa, a member of the House of Representatives in the Twenty-eighth, Twenty-ninth, Thirtieth and Thirty-first General Assemblies, beg to report as follows:

A great and good man passed from labor to reward when Mahlon Head, former member of this House, breathed his last on the 17th day of January, 1920. A pioneer lawmaker, a successful man of affairs, a keen observer of events, he retained throughout his eventful life a simple and kindly spirit which endeared him to all, and which caused the tears of

the poor and lowly to mingle with those of the prominent and influential at his grave.

Mahlon Head was born in Highland county, Ohio, July 12, 1835, the son of William M. and Margaret Fernau Head. When twenty years of age he came with his parents and six brothers and sisters to Poweshiek county, Iowa. Here he farmed for one year, and then became a clerk in the office of the county treasurer of Poweshiek county, where he worked until the civil war broke out. In June, 1861, he enlisted in Company F, Tenth Iowa Infantry, and served with gallantry for five years, participating in some of the notable engagements of the war. Among them were the battles of New Madrid, Island No. 10, Iuka, Corinth, Vicksburg and Missionary Ridge. He was wounded in the battle last named. He also marched with Sherman to the sea, and was commissioned as lieutenant and later as staff officer with General John E. Smith. His military record was one of exceptional distinction and honor.

Coming home from the war in 1865, Mr. Head engaged in the banking business at Montezuma, Iowa, as a member of the firm of Mickel and Head. In 1866 he came to Jefferson, Iowa, where he made his home for more than fifty-four years to the day of his death, being engaged in the banking business nearly all that time, first under the firm name of Head Brothers with his brother, Albert Head, who was also a former member and speaker of this House. Later, the banking house was changed to the Greene County State Bank, and still later, to the First National Bank of Jefferson. In 1865, Mr. Head was married to Mary L. Mullikin, of Poweshiek county, and to them, thirteen children were born, eight of whom, with the wife and mother, survive him. They are Mrs. F. M. Dean, Jefferson; Mrs. Z. K. Funk, Fort Dodge; Mrs. T. R. Watts, Grand Junction; Mrs. Merle Oblinger, Grand Junction; Mrs. W. G. Howard, Jefferson; Mahlon, Jr., Denver, Colo.; Mrs. John Stevenson, Mountain Lake Park, Maryland; Charles D., Grand Junction.

Mr. Head was a charter member of the Methodist church of Jefferson, and a loyal and generous supporter of that organization in all its activities. In politics he was a republican, becoming identified with that party on its organization in 1856, and being honored by it with many positions of trust and responsibility. He was a member of George H. Thomas Post, Grand Army of the Republic, and none mourn him more deeply and sincerely than the comrades of this organization with whom he was so long and so closely associated. Mr. Head was also a member of the Masonic Orders; and now

Whereas, In the death of Mahlon Head the state of Iowa has lost a citizen of distinguished worth who took prominent part in the forming and sustaining of the commonwealth in the pioneer days;

Therefore, Be It Resolved, That the House of Representatives take this occasion to express its high appreciation of his lofty character and faithful public service, and adopts this memorial in the name of the people of Iowa as a tribute to his name and memory; and

Be It Further Resolved, That a copy of these resolutions be spread upon the journal of the House, and that the chief clerk transmit an engrossed copy thereof to the family of the deceased.

HON. GEORGE LOVELL GILBERT

MR. SPEAKER—Your committee appointed to prepare resolutions commemorating the life, character and public service of George L. Gilbert, beg leave to submit the following report:

Whereas, The Honorable George L. Gilbert, who was heretofore a member of the House of Representatives from Clayton county, Iowa, during the Twenty-third and Twenty-fourth General Assemblies, departed this life on May 13, 1919; and,

Whereas, His record as a man, a legislator, a public official and a citizen, has been of the highest character; and,

Whereas, It is fitting that we should recognize in some fitting manner, the passing of this distinguished citizen;

Therefore, Be It Resolved By the House of Representatives of the State of Iowa, that in the death of George L. Gilbert, the State of Iowa has suffered a distinct loss.

George Lovell Gilbert was born Jan. 19, 1856, at Clinton, Wisconsin, where he resided for four years, and moved with his parents to Clayton Center. There he lived until ten years of age and then removed to Monona, where he resided until his death.

On Thanksgiving day, November 25, 1880, at Monona, he married Mary Letitia Killen. A daughter, Mrs. T. A. King of West Union, and son Donald, with his mother, now residents of Mason City, survive him. A brother Frank of Chicago, and a sister, Mrs. Amelia Veach of Verdon, Nebraska, are the only surviving members of his father's family.

He was a shrewd and capable business man, and for a number of years owned and operated the drug store at Monona, in which he was eminently successful. In the early nineties he was elected to the legislature from Clayton County for two terms, and was one of the most active and prominent members in the lower house in those memorable sessions. He affiliated then with the democratic party, but left the party with the sound money democrats in 1896, and was prominent in politics in his section of the state for many years. He was so re-

sourceful in campaigns and so original in his expression, and so enthusiastic in his support of friends and favorite measures, that he was a constant source of enjoyment to his friends, and, as an opponent, was always respected by the opposition. Besides his public service in the legislature, he was for a number of years also deputy internal revenue collector for the Northern Iowa district, and enjoyed a wide acquaintance and a wide circle of friends.

He was generous, big-hearted, and optimistic always, a hater of shams, a lover of integrity and right, and a very lovable comrade. At the age of sixty-two he had lived out his allotted three score years, but the years were crowded with more than the usual activity of men and his life work was finished.

He was a member of Clayton Lodge No. 70, A. F. & A. M., Monona, McGregor Commandry, El Kahir Temple of the Shrine, at Cedar Rapids, and De Molay Consistory, Clinton, Iowa.

Be It Resolved, That the life of George L. Gillert as a citizen, as a legislator, and in every other walk of life, has been such as to commend his example as an inspiration to those who follow after. His unswerving fidelity to duty, his faithfulness in every public and private trust, and his character as a citizen should inspire all with whom he came in contact to a higher ideal of life and living, and be it further

Resolved, That these resolutions be spread upon the records of this House of Representatives, and that an engrossed copy thereof be sent to the widow of the deceased.

For over thirty-five years he was a successful farmer near Vinton, Iowa, and in 1891, he with others organized the State Bank of Vinton, in which he acted as Director for thirteen years. He was also a director in the Eden Fire Insurance Company of Vinton and of the Benton County Telephone Company. HON. WILLARD CHAUNCEY EARLE

MR. SPEAKER—Your committee appointed to prepare resolutions commemorative of the life, character and public service of the Hon. Willard C. Earle, late of Allamakee county, beg leave to report the following memorial:

Hon. Willard Chauncey Earle was born in Honesdale, Pa., Oct. 7, 1833.

His family is of old English origin and the line can be traced back directly to a Saxon ancestor who lived in Great Britain before the Norman conquest. It is also of old American establishment, its first representative in this country having settled in Newport, R. I., as early as 1634.

In the requirement of an education, Mr. Earle attended public school in Pennsylvania and Massachusetts, and later, under a private tutor, prepared to enter Brown university. Because of his health he was obliged to abandon this intention and joined his elder brother, going west to Tiffin, Ohio, where both engaged in railroad work.

In 1854 he came from Ohio to Iowa, locating in Waukon in June of that year, where for more than 65 years he maintained his residence.

Had he no other claim to the respect of his fellow citizens, his long and loyal service in the Civil War would constitute a valid and a lasting one. Among the first to respond to President Lincoln's call for volunteers for service in the Civil War, he joined Company B, 12th Iowa Volunteer Infantry, being elected captain.

He participated in numerous important engagements, among which were the battles of Fort Henry, Fort Donelson, Shiloh, Jackson, Black River Bridge, Champions Hill and Vicksburg. After the latter engagement, Captain Earle was ordered to raise a regiment of colored troops. He carried this work to successful completion, and, much to his surprise, received the commission of colonel of the regiment, which was entirely unsolicited on his part. The regiment participated in the battle of Natchez and in the campaigns along the Mississippi River, and remained in active service till the close of the war. He was one of the few soldiers of the Civil War who never applied for, and would never accept, a pension.

With a creditable military record of brave, able and loyal service, Col. Earle received his honorable discharge and returned to Waukon, whence

he went to Chicago to enter Rush Medical College, where he took a course of lectures in 1865-1866.

He attended Jefferson Medical College in Philadelphia, where he completed his studies, graduating with the class of 1867. He then returned to Waukon, entered into partnership with Dr. I. H. Hedge and began the practice of his profession. Later, the parties established a drug store. In 1870 Dr. Earle purchased his partner's interest and added to his stock a fine line of general merchandise. In partnership with his brother he also was engaged in the buying and shipping of stock and grain. Upon the death of his brother in 1885, Dr. Earle took over that business and continued it actively for many years. He gave largely of his time and means in successfully promoting the Waukon & Mississippi Railroad. He built substantial business blocks, had valuable Allamakee county farming land, and was president of the Citizens State bank of Waukon.

After the close of the Civil War, Dr. Earle identified himself with the republican party. In 1884, however, he joined the democratic party and was elected to the lower House of the 19th General Assembly, and as the democratic nominee in 1906, he was again elected to the lower House and served as the representative of Allamakee county in the 32nd and 32nd Special General Assemblies in a constructive and progressive way.

During his 65 years of residence in Allamakee county, his activities influenced in an important way practically every phase of county and municipal advancement, and his great success was a reward of an upright life, high in its purposes and constructive in its effect.

On January 1, 1860, Mr. Earle was united in marriage with Miss Ellen A. Hedge of Waukon, to which union three children were born, two of which, Mrs. Minnie C. Hemenway and Carleton H. Earle, with Mrs. Earle, survive him.

Dr. Earle died at St. Petersburg, Fla., February 10, 1920, and interment was at Waukon, Iowa, April 16, 1920.

Now Therefore, Be It Resolved, By the House of Representatives of the Thirty-ninth General Assembly, that in the death of Dr. W. C. Earle the state and community where he lived have suffered the loss of an influential, upright and valiant citizen; and

Be It Further Resolved, That a copy of these resolutions be spread upon the journal of the House and that the chief clerk be directed to send an engrossed copy thereof to the widow of the deceased.

HON. GEORGE M. CURTIS

MR. SPEAKER—Your committee, appointed to prepare an appreciation of the life, character and public service of a former member of this body—Honorable George M. Curtis, whose death occurred at his home in Clinton, Clinton county, Iowa, February 9, 1921, beg leave to report the following:

IN MEMORIAM

George M. Curtis was born in Chenango county, New York, in April, 1841. He came, with his parents to Ogle county, Illinois, a few years later, where, as a boy and young man, he worked on the farm, clerked in a store, and taught school. In 1867 he came to Iowa, purchasing an interest in a small sash, door and blind factory just being started, in the then, village of Clinton, by a brother, who had preceded him only a short time. He became the directing head of the business, and, with good team work, from this humble beginning, there developed one of the largest and most successful manufacturing enterprises, in its line in the world, and he lived to see "The Curtis Companies Incorporated," with mills, factories, distributing ware houses and offices in ten states, widely separated, known to every one, where the march of civilization demands dependable products for constructing homes and public buildings, but notwithstanding the vast amount of work necessary in so large a business, he was interested in other enterprises, the success of which was largely due to his advice and sagacity. Business, however, did not engross all of his time and attention. He was a good citizen in all that appellation applies; his work for the betterment of his home city, the improvement of its public schools, and the intelligent dispensation of charity, was untiring and effective. In politics he was an active and aggressive Republican, and, entering the arena, as a candidate for state representative in 1886, when his county was considered hopelessly Democratic, he was triumphantly elected, and, was an influential member of the Twenty-second General Assembly. In this service he formed the close personal friendship with Senator Albert B. Cummins, which lasted, with increasing mutual appreciation, to the hour of his death.

In 1894, without his consent, he was nominated for Congress, which from the insistance of the active party men, all over the District, he finally accepted, and, after a characteristic campaign, was elected, overcoming a supposedly unimpregnable Democratic majority of more than nine thousand. He was re-elected to a second term, serving his district—the Second—with honor and distinction. He declined a third term for business reasons, and later ill health prevented him from becoming the Republican candidate for the nomination for Governor of Iowa, which was urged from all parts of the state. He was a delegate to several national conventions, serving twice after his physical condition was such, that his family had insisted that he curtail his business activities to the minimum.

His home life was perfect, as he was a devoted husband and a fond father, and it was at his own fire side, that his genial nature was at its best. He will be missed by all, but mostly by those who knew and loved him best—his faithful wife and two sons, his worthy successors, in business, to whom, his life will be an inspiration. His passing is a distinct public loss; to his home city, because he was ever alert to its best interests; to the state and nation, because his influence was always exerted to make and keep them what they are—the best state and nation in the world, therefore

Be It Resolved by the House of Representatives of the Thirty-ninth General Assembly of the state of Iowa, that the foregoing "In memoriam" be, and the same hereby is adopted as its appreciation of the life, character and public service of Honorable George M. Curtis, a distinguished former member, that the same be spread upon the records and printed in the House Journal, and a copy, properly engrossed, signed by the speaker and the chief clerk, transmitted to the family of the deceased, at the home in Clinton, Iowa.

HON. LUTHER BROWN

MR. SPEAKER—Your committee appointed to prepare resolutions commemorative of the life, character and public services of the Hon. Luther Brown, beg leave to submit the following:

Hon. Luther Brown was born in Mahoning, Ohio, January 10, 1838.

In 1860 he entered Rush Medical College, and later took post-graduate work at the same institution, and a three months' course at St. Thomas' Hospital, London.

Dr. Brown established himself in the practice of his profession at Postville, Iowa, in 1866, where he maintained his residence until 1890, removing from there to Rockford, where he resided until his death.

He was a veteran of the Civil War, enlisting in the 20th Wisconsin Infantry, and was later hospital steward in the army.

Politically, he was a democrat, and served as the representative of Allamakee county in the lower House during the 16th General Assembly.

He was also a railroad surgeon, and examiner for many of the leading old-line insurance companies, with some of which he was connected for a period of forty years; and also acted as United States pension examiner for a number of years.

He was a member of the A. M. A. Medical Society of the Mississippi Valley, North Iowa Medical Society, Austin Flint Cedar Valley Medical Association, and a member of the Masonic Order and G. A. R.

Dr. Brown was married, and is survived by his wife, Ella Brown, Pensacola, Fla., and one daughter, Mrs. J. O. Thrush of River Falls, Wis. His death occurred at Pensacola, Fla., January 19, 1921.

Whereas, In his death the county and state have lost a worthy and honorable citizen;

Therefore, Be It Resolved, That we hereby extend to the relatives and friends our tribute of respect; and

Be It Further Resolved, That these resolutions of respect be printed in the journal of the House and the chief clerk be directed to forward an engrossed copy to the widow of the deceased.

HON. DAVID ORLAND STONE

At the Savery Hotel in the city of Des Moines, at 4:30 o'clock, on Friday, February 18th, David Orland Stone, a member of the Thirty-ninth General Assembly from Sioux County, passed away after an illness of but eight days. He was born at Belpre, Ohio, February 25, 1864, and with one more week of life would have reached his fifty-seventh birthday. He was brought by his parents to Cherokee in 1867. The following year the family came to Sioux county, locating at Calliope on August 12, 1868. On December 25, 1884, he was married to Generzia Dunham, whose death occurred August 28, 1918. One son, Merle R. Stone, and one daughter, Mrs. J. A. Armstrong, survive; and there is one brother, Fred P. Stone of Sioux Falls.

A review of the life of Mr. Stone would be to recount the growth and progress of Sioux County, so closely was his life interwoven with the life of the community. Coming to the county when there were but three families residing therein, he saw, and was a part of all the steps that have transformed the wild, rolling prairie into a highly developed agricultural life.

For years after the arrival of the family in Sioux County, they lived in a log house on the bank of the Sioux River. Here they passed through the vicissitudes of pioneer days. Young Stone attended the common schools in Calliope and in Orange City, and at the latter place learned the printer's trade at the early age of fourteen, in the office of the Sioux County Herald.

Later he worked for short periods in newspaper offices at Rock

Valley and Hull. In December, 1880, his father purchased the Sioux County Independent and moved the plant from Alton to Calliope. The father died within a month and the youth of seventeen found himself installed as editor of a newspaper. The two brothers were associated in this enterprise, but decedent soon acquired his brother's interest. Later the printing plant was moved to Hawarden, in January, 1887, where Mr. Stone remained until the time of his death.

Thus for a period of more than forty years he was actively identified with the business interests of his home and community. His work as editor was upon a fine, high-minded plane, and his work and life were not only filled with usefulness but such as to endear him to the people of his county. He served as postmaster at Hawarden from 1895 to 1899, was a member of the school board for several years, and in 1914 was elected to the House in the Thirty-sixth General Assembly and re-elected to the Thirty-seventh, Thirty-eighth and Thirty-ninth General Assemblies.

Mr. Stone, by hard work, careful, efficient service, and unflagging integrity, fashioned for himself a place of strong influence in the General Assembly. He was quiet, unpretentious, gentle, kind and thorough, and at the time of his death was chairman of the appropriations committee of the Thirty-ninth General Assembly. He had won this place through sheer merit and recognized capacity.

At the beginning of 1920 his son was taken into full partnership in the newspaper business, and just as Mr. Stone was looking forward to transferring to the shoulders of his son the responsibilities that he had been carrying for many years, his summons came.

David Orland Stone was of that fine, sincere type to whom none would think of bringing a single suggestion that was at variance with the best purposes in life. Those who have known him in the legislative service, as well as the great body of people of Sioux county whom he knew so well, will always hold him in tender memory. He was the type that justifies humanity at its best, and the purity, zeal and efficiency of his career are a lesson to all of us.

Be It Resolved, By the House of Representatives of the Thirty-ninth General Assembly, That in the passing of David Orland Stone we are conscious of a vital loss to the state, and of a deep personal loss as well; that we commend his career in the four General Assemblies in which he served as exhibiting the finest qualities of American citizenship; that we shall hold his quiet, kindly and genial personality in the tenderest remembrance, and would express to those who survive him the very high appreciation in which he was held by the members of this House.

Be It Further Resolved, That a duly enrolled copy of this resolution be forwarded to the family of deceased.

HON. A. C. RECK

MR. SPEAKER—Your committee appointed to prepare a memorial to properly commemorate the life and service to the state of the Honorable A. C. Reck, a member of the Eighteenth General Assembly, beg leave to submit the following report:

A. C. Reck was born in Stark County, Ohio, April 3rd, 1834, and died at the home of his daughter in Spokane, Wash., March 31st, 1921, hence at the time of his death lacked but three days of his eighty-seventh birthday.

The story of his life is the story of a young man going west and growing up with the country and that country Decatur and Wayne counties, Iowa.

After the admission of Iowa as a state into the Union, emigration began to flow from Ohio and other eastern states and to settle in the new country west of the Des Moines river. They traveled overland either by team or down the Ohio river by boat to Keokuk and then on by team. Among them came the subject of this sketch. At twenty years of age he left his native state, and came to Iowa, settling at Garden Grove in Decatur county. The next year, 1855, he married the daughter of the proprietor of the first hotel conducted in that place, Miss Ann Maria Dawes.

At that time Wayne and Decatur counties had no towns, not even platted villages. Soon after his marriage he moved to a farm near Sandy Point, Decatur county, about eight miles northwest of Lineville in Wayne county, and for about ten or twelve years ran a grist mill and saw mill and manufactured coffins out of walnut lumber.

In those days a mill was a business center. Reck's Mill was a name as familiar to those who patronized it as the name of our towns and cities are to us. In truth, the acquaintances made were far more intimate than anything we know nowadays. Many people traveled so far to mill that they had to sojourn all night with the miller and return home the next day and Mr. Reck's hospitality was unlimited.

Soon after the close of the Civil War, Mr. Reck moved to a farm in Wayne county about eight miles west of where Allerton now is. In 1870 came the first railroad to Wayne county, and Judge Aller of Leavenworth,

Kansas, one of the owners of said railroad located the town of Allerton on 160 acres of land owned by him in said county. About 1871, P. M. Phillips who had been running a dry goods store in Corydon moved it to Allerton and took Mr. A. C. Reck in as a partner. The business was conducted under the firm name of Phillips & Reck.

This firm was dissolved after about ten years and Mr. Reck formed a partnership with his son-in-law, J. B. Rankin and engaged in the drug business in Allerton under the firm name of Reck & Rankin.

At one time in his life he had accumulated a considerable fortune, but twice in his mercantile experience, he suffered a heavy loss by being burned out and with a proportionately small amount of insurance. He served as Mayor of Allerton and for a number of years as Justice of the Peace, and for a while was owner and editor of the Allerton News.

Mr. Reck had practically no public school education but he was a great reader and became self educated. He taught a country school while living in Decatur county.

His home life was the most pleasant, and for more than sixty-five years he journeyed through life with the wife of his youth and was ever a faithful husband.

He was elected on the Republic ticket, Representative to the Eighteenth General Assembly and served in that body with marked efficiency. He was chairman of the committee on enrolled bills and a member of other committees.

Coming to Iowa in her infancy he ever after remained one of her loyal citizens. It was "Beautiful Iowa" when he came and it is "Beautiful Iowa" now. But what a change from the wild state he served as a pioneer to the various activities of her teaming millions within her borders now. He was a pioneer and he was more, he has served Iowa through all these years.

He is survived by his wife, three sons and four daughters.

In recognition of the value of his life and service to the state of Iowa, and in expression of our appreciation of his character and example,

Be It Resolved, by the House of Representatives of the Thirty-ninth General Assembly, that we express our high esteem of his life and character and that we extend to his bereaved widow and children, our sincere sympathy.

Be It Further Resolved, That a copy of these resolutions be spread upon the Journal of the House, and that the Chief Clerk be directed to send an enrolled copy to his widow.

HON. FRANCIS GRAY CLARK

Francis Gray Clark was born in Roxbury, Vermont, April 17, 1838. He removed to Bridgewater, Vermont, with his parents in 1843, and was educated in the common schools. He later attended an academy in South Woodstock, Vermont, till the spring of 1859, when he entered Barre Academy. He entered Middlebury College in 1860, and remained there till the summer of 1862, when he enlisted in Company G, Sixteenth Vermont Volunteer Infantry. He was in the service about a year and was actively engaged with his regiment in the Gettysburg campaign. General Stannard's brigade, to which the Sixteenth Vermont belonged, took a conspicuous part in the third day of the battle of Gettysburg and aided in repulsing Pickett's charge. Mr. Clark, the captain being disabled, was in command of the company at that time.

Returning home, he joined his class after a year's absence and graduated in 1864. In the fall of that year he took charge of Chester (Vt.) Academy, but on January 4, 1865, enlisted for a second time in the Twenty-sixth New York Cavalry, which was stationed on the northern frontier to prevent incursions from Canada. He was mustered out at the close of the war in June, 1865. He at once began reading law in the office of General F. W. Hopkins, then clerk of courts at Rutland, Vermont. In May, 1866, he entered the law office of General Peter T. Washburne of Woodstock, Vermont, and was admitted to Windsor county bar in December, 1866. He decided to remove to the West, and settled in Belle Plaine, Benton county, Iowa, where he practised law successfully for several years. In 1872-3 he was a member of the House in the Fourteenth General Assembly, both at the regular and special session.

In November, 1876, he removed to Cedar Rapids where he resided till the time of his death. He was steadily engaged in the practice of the law, the firm being known as "Clark & Clark." His oldest son, Charles Francis Clark, at this time a member of the Thirty-ninth General Assembly, was the junior member of the firm.

Mr. Clark was married, first, in Rochester, Vermont, September 5, 1865, to Harriet N. Newton, who died September 28, 1892. Mrs. Clark was a woman of especially fine attainments and scholarship, and a successful teacher before her marriage. Mr. Clark was married the second time September 1, 1896, to Mary Virginia Loy, of Cedar Rapids. The widow and five children survive decedent. The children are Maude, Charles Francis, Paul Newton, David Flagg and Robert Lane, one child Charles Newton having died in 1869.

Mr. Clark occupied a position of leadership in the life of the state and in the community in which he lived. He was at one time senior vice department commander of the G. A. R. of Iowa, and commander of the military order of the Loyal Legion. He was charter member of the First Congregational Church, of Cedar Rapids, and has been a member of its board of trustees since its organization in 1879. He was

president of the school board for years. For nearly forty years he was a member of the board of trustees of the Cedar Rapids Y. M. C. A., and vice president of such board. He was at one time member of the city council and was distinguished in the life of his home city for public spirit and wide civic interest.

The career of Mr. Clark was notably marked by those civic activities and fine ideals of service that distinguish the best American manhood. He was the type that makes for the safety of society and for the development of the best in the life of the family and the state.

We cannot better indicate the character of Mr. Francis Gray Clark than to quote from appreciation prepared by his fellow members of the First Congregational Church, of Cedar Rapids. We quote as follows:

"It is hardly a figure of speech to call him the father of the church. One of the first, if not the very first, in its founding and planting, he was the last of the little charter band of twenty-four to have watched its growth, led and joined in its labors, and shared in its accomplishments. In addition to his many other responsibilities, the rare experience was his to have held the office of trustee of the church for nearly forty-two years. To no other individual is the church under such indebtedness on the score of wisdom, prudence, zeal and untiring devotion.

"And now his peaceful passing, beyond the allotted span of fourscore years, has but deepened and sweetened the impression of his fine and sturdy character, and his genial personality. His was a life well lived in three dimensions; it was long and broad and deep. To us remains a serene and grateful memory. To him is fulfilled the promise of a crown of life for those who have been faithful unto death. The sympathy of the church, made up of human hearts, for the sorrowing household, is mingled with pride in the untarnished record of that useful life."

Be It Resolved, by the House of Representatives of the Thirty-ninth General Assembly: That in the passing of Honorable Frank G. Clark this assembly would express its realization of the loss of one of the strong, fine men of the state, a citizen of great public spirit and usefulness and of the highest civic ideals, and the House would tender by this resolution its sympathy for the family that survives.

Be It Further Resolved, that a duly enrolled copy of this resolution be forwarded to the family of deceased.

HON. GEORGE W. BALL

MR. SPEAKER—Your committee appointed to prepare resolutions commemorating the life, character, and public service of the Honorable George W. Ball, of Jefferson County, beg leave to submit the following report:

George W. Ball, was born in Brooks County, Virginia, March 6th, 1848. His father, Joseph Ball, was also a native of Virginia, and was a descendant from the same family as Mary Ball, the mother of George Washington. His mother, Margaret Langfit Ball, was born in Pennsylvania, and was a cousin of President James K. Polk. Mr. Ball came to Jefferson County, Iowa, with his parents in the year 1854, where he resided until the time of his death, March 14th, 1920. He received his primary education in the district school and later attended the Fairfield University. He was engaged in various different businesses, but farming and stock raising was his principal occupation. He was married October 31, 1872, to Miss Margaret Laughlin, and to them were born five sons and one daughter. Mr. Ball was a member of the House of Representatives in the Twenty-second, Twenty-third and Thirty-sixth; and Senator in the Thirty-seventh and Thirty-eighth General Assemblies. He was a member of the Christian church and of the I. O. O. F. He was loyal to his friends, his community, his state and his nation and offered to each the fullest measure of devotion. In every every good cause he was a faithful worker, and to every movement for the advancement of the community in which he lived he always gave of his time and means.

In the death of George W. Ball, the state has lost a useful citizen, his life and public services, were of high character and he will be remembered as an ideal patriot, citizen, neighbor and friend.

Therefore, Be It Resolved, that in the death of George W. Ball the state has lost one of its most loyal citizens and that the House recognizes the high character of his services to the state and takes this occasion to express its appreciation of his character and public services and to extend to his family its sincere sympathy in their bereavement.

Be It Further Resolved, that a copy of these resolutions be spread upon the Journal of this House and that the Chief Clerk transmit a copy to the family of the deceased.

REMARKS OF J. C. LOCKIN IN MEMORY OF THE LATE GEO. B. CURTIS, GEO. W. BALL AND F. F. ROE

MR. CHAIRMAN AND FRIENDS:—I come before you with mingled feelings. I am sad to think the friends of former days have passed from us, but am glad that I can look back and remember their work in this Hall,

in former years. I am able to speak of the work of the three men whose memorials have just been read, Mr. Geo. B. Curtis, of Clinton county, Mr. George Ball, of Jefferson county, and Mr. F. F. Roe, of Monona county. These three men with myself were members of the 22nd General Assembly, which convened January, 1887. I have always been glad that I was a member of the 22nd General Assembly, not only because of the notable men who sat in that body, but because of some of the outstanding legislation enacted at that session. Let me remind you of some of the men who composed that body: Sen. A. B. Cummins and James Berryhill, of this city; John R. Hamilton, of Cedar Rapids; James Smith, of Mitchell county; Hobson of Buena Vista; McFarlain, of Emmett; Dayton of Allamakee; Wilson, of Cass and many others. Five men from the House of the 22nd were afterwards elected to congress, one to the U. S. Senate, two became Secretary of State, two Railroad Commissioners and as you know, Mr. Curtis was one of the men who went to congress, Mr. Ball was elected to the State Senate several times. I want to speak about some of the legislation that was enacted in those early days which these men stood for and helped put on the statute books; first, the railroad laws that have stood the test of the courts for all these years and have been looked upon as the beginning of state control of the railroads; the abolishment of the pass system, when you remember that these men were given passes over every railroad in the state, at the beginning of the session. You will realize that it took strength of character to return the passes and enact a law that removed the corrupting influence of accepting such favors from the hands of the railroads. The county uniformity of textbooks and the laws forbidding mine owners paying the miners in script and compelling them to trade out their wages at the company's stores. All of these and many more measures, these men supported and stood against powerful influences which we, of this assembly, know nothing about. Mr. Curtis needs no eulogy from me for the people from his own county and congressional district, in repeatedly honoring him proved that they had confidence in him and that is the best evidence that he was strong and clean in business as well as politics. And I personally know of the respect and confidence in which Mr. Ball and Mr. Roe were held in their own communities; they not only did their best for the state while serving it, but stood for and supported the enterprises at home, that helped to develop high ideals in the people of their own communities.

Because of my intimate acquaintance with and appreciation of these three men, I have asked your indulgence while I add my testimony as a memorial to their life and service.

J. C. LOCKIN.

REMARKS OF JAMES B. WEAVER IN MEMORY OF THE LATE
HONORABLE JAMES WILSON OF TAMA COUNTY

On September 3, 1920, the flags at the National Capitol were at half mast. On that day there gathered at Traer, Iowa, the home of Honorable James Wilson, affectionately known as "Tama Jim," a great company of the friends and neighbors of the deceased, with representatives of the Department of Agriculture over which the deceased presided for so many years with such honor to himself and to the State of Iowa. In the Presbyterian church to which he belonged, his favorite hymns were sung and the eventful life of the deceased was reviewed.

James Wilson was born August 16, 1835, in the County of Ayrshire, Scotland. It is the county in which Burns was born, and the great poet had no more enthusiastic follower and admirer than "Tama Jim." Many of Burns' poems he knew at heart and loved to recite, and though a devoted American he had an abiding love for the country of his birth.

His father was a farmer. He brought the family to the United States in 1852 and settled on a half section of Tama County land in 1855. Young Wilson worked in a sawmill the first year of the Tama County residence. He became a practical farmer. He was a great reader and eagerly sought every opportunity to become conversant with the classics, and also to inform himself upon the problems which more directly affected his calling. He was married in 1863. When the Civil War began, he and his brother made an arrangement by which the brother should go to war and James should remain and care for the families and the farm. This arrangement was carried out, and when the war closed the eighty-acre farm had grown to a half section. He took an active interest in all public matters and in September, 1864, was elected a member of the Board of Supervisors. This service led to action in a broader field, for he was elected to represent Tama County in the Twelfth, Thirteenth and Fourteenth General assemblies, being a member of the House, and was elected Speaker in the Fourteenth General assembly.

The career of James Wilson in the General assembly was a militant battle for the protection of the agricultural interest of the State. He secured the passage of a law requiring that stock and not land should be fenced, and the granting of county option in this connection. He was a member of the Railroad Committee, and throughout the three sessions was especially interested in the regulation of railroad charges. At that time there arose the question of the acceptance by the railroads of sundry land grants. On every occasion he insisted upon the principle that such acceptance should be conditional upon submission by the railroad to regulation of freight charges by the state. Time and again, as a member of the Railroad Committee, he brought in minority reports to this effect and secured their substitution for the majority report.

In 1873 he was elected to Congress, serving until 1877. He was re-elected in 1883. His career in Congress was marked by the same interest in agricultural legislation that he had shown in the General assembly, and he shared in the movement for the establishment of the Interstate Commerce Commission. He was a member of the Farmers' Protective Association which made the fight against the barbed wire monopoly.

In 1882 Mr. Wilson was elected member of the Iowa Railroad Commission. Returning to Congress in 1883, he was especially active in securing a law for disinfection and quarantining of live stock and for protection against pleuro-pneumonia.

In 1890 Mr. Wilson became professor of Agriculture of the State College, and director of the Experiment Station. Although his technical education had been limited, yet through systematic reading and study, and his experience in public life, he became an expert in agricultural education and brought the Agricultural Department in the State College to the very forefront of the institution. He had a keen appreciation of the value of Science to the farm and developed the experimental work at the State College to a high point of efficiency.

In February, 1897, President McKinley invited James Wilson to become Secretary of Agriculture. He did for the Department of Agriculture what he had done for the College. For sixteen years he served as Secretary of the Department, serving under McKinley, Roosevelt and Taft.

So great has been the influence of James Wilson upon the Department of Agriculture that it may be said to stand as his monument today. He introduced Durum wheat, promoted the beet sugar industry and developed the hog cholera serum treatment. He investigated and promoted the protection of milk supply against tuberculosis. He shared in the enactment of the Food and Drug Act. He promoted packing inspection. He encouraged the growing of rice, alfalfa, fruits and indeed displayed a passion for development in every substantial line of agricultural effort.

When James Wilson retired from the Agricultural Department, March 4, 1913, he had seen the American balance of trade grow from two hundred thirty-four million to four hundred and thirty-five million. He had seen the Department develop until it had twenty-five hundred employes, and he saw it take a place of dignity, importance and recognition which was the direct fruit of his labors.

Upon his return home after his retirement, a great reception was tendered him at Ames, and a little later Governor Clarke appointed Mr. Wilson and the late Henry Wallace on a Commission for the Investigation of agricultural conditions abroad, with a view to recommendations here at home for the preservation of Iowa's agricultural resources. The two old Scotchmen enjoyed the trip abroad very greatly, and came home uniting in a report to the Governor which deals with

the fundamental problem of the preservation of the fertility of the soil.

The obscure Scotch farm boy had so developed in the service of the Nation and the State that in his latter years he was the recipient of many honors. He was the president of the National Agricultural society and received honorary degrees from many institutions, including the State Universities of Wisconsin, Missouri, from Cornell and McGill—in all eighteen American universities.

James Wilson had also the unique honor to receive a degree from the University of Edinburgh. The five Americans who have received that degree are Carnegie, Choate, Mark Twain, Joseph Jefferson and James Wilson.

James Wilson loved deeply his home town and county, and shared in their civic activities to the end of his life. Agriculture was, however, his fundamental passion and he lived to see and to share in the great Farm Bureau Movement of our own time.

James Wilson was a strong, picturesque, vigorous Scotch-American. He kept his feet upon the ground and his life was full of constructive endeavor. He knew and often spoke of the interdependence of modern life, and although his activity had been more intimately connected with one great class he had a broad conception of our interdependence and of the many elements that contribute to American prosperity.

James Wilson's character was elemental, like the soil and the wind and the skies that he loved. He passed out full of honors and with the unqualified approval of his career by his fellow men.

Iowa is proud of James Wilson and his remarkable life. His career is a living illustration of the opportunity that inheres in American life. His name will stand for SERVICE, and that should be a lesson to all who follow him.

As someone has said of him: "He was a Christian gentlemen, and his father and mother were Christians before him. That was his strong anchorage through life."

I would close this sketch with the words with which he closed his final report as Secretary of Agriculture:

"Men grow old in service and in years, and cease their labor, but the results of their labor and the children of their brains will live on."
