- 1 *Whereas*, the Bureau of the Census of the United States De-
2 partment of Commerce estimates that the elderly in Iowa (per-
3 sons over sixty-five years of age) comprise 12.4 percent of the
4 total population of Iowa, or approximately 350,300 persons; and
5 *Whereas*, this compares to a national percentage of elderly
6 of 9.6 percent, making Iowa's percentage of elderly the second
7 highest in the nation; and
8 *Whereas*, the Bureau of the Census of the United States De-
9 partment of Commerce estimates that the physically handicapped
10 in Iowa (persons under sixty-five years of age) comprise 5.3
11 percent of the total population of Iowa, or approximately
12 150,000 persons; and
13 *Whereas*, disproportional numbers of elderly in Iowa reside
14 in rural areas as a result of urban trends; and
15 *Whereas*, rural sections of the State of Iowa having a high
16 percentage of elderly also have a shortage of medical personnel
17 and health care facilities available to serve the elderly; and
18 *Whereas*, twenty-five percent of all Iowans over sixty-five
19 years of age are classified as poor; and
20 *Whereas*, sixty-four percent of Iowa farmers between the ages
21 of sixty-five through sixty-nine earn less than four thousand
22 dollars annually and their income continues to decrease with
23 age; and
24 *Whereas*, many of the elderly in Iowa are the victims of in-
25 flation as a result of an inadequate fixed income; and
26 *Whereas*, as a result of a combination of a fixed income and
27 high property taxes, many elderly are forced to give up family
28 residences or no longer maintain their physical property, and
29 others are forced into institutional settings; and
30 *Whereas*, families of physically handicapped persons who are

Page 2

- 1 unable to properly care for such persons place them in institutional
2 settings, accommodating primarily elderly and terminally ill per-
3 sons; and
4 *Whereas*, many of these institutional facilities for the aging
5 in Iowa are overcrowded, have long waiting lists, and are not in
6 compliance with rules and regulations setting minimum standards
7 for health care facilities; and
8 *Whereas*, as a result of this overcrowding, the emotional,
9 spiritual, therapeutic, and rehabilitative needs of many elderly
10 and physically handicapped persons have been neglected; and
11 *Whereas*, health care costs are prohibitive for the majority
12 of the elderly on fixed incomes and for the physically handicapped
13 whose income comes primarily from government grants; and

14 *Whereas*, long-range projections show that the numbers of elderly
15 and physically handicapped persons in the State of Iowa will con-
16 tinue to increase; and

17 *Whereas*, the State of Iowa acknowledges its responsibility to

19 ing with the dictates of social justice; *Now Therefore*,

20 *Be It Resolved by the Senate, the House Concurring*, That the
21 legislative council be authorized to create a study committee, as
22 provided by law, which committee shall include members of the
23 General Assembly and nonlegislative members knowledgeable of the
24 problems of the elderly in Iowa, to look into the quality of life
25 of Iowa's elderly and physically handicapped citizens and to de-
26 velop, in cooperation with existing governmental agencies, new and
27 more realistic approaches to coping with the problems besetting
28 the elderly and physically handicapped in Iowa; and

29 *Be It Further Resolved*, That the study committee look into such
30 matters as developing ways to encourage and make it possible for
31 Iowa's elderly citizens to maintain themselves in their own homes
32 or living quarters, with a minimum of community services, so
33 long as they desire or until such time as it becomes physically
34 or mentally impossible for them to do so and to encourage and
35 make it possible for Iowa's physically handicapped to purchase

1 the necessary services and housing facilities to maintain in-
2 dependent living as long as they desire or until such time as
3 it becomes physically impossible for them to do so; and

4 *Be It Further Resolved*, That the study committee develop:

5 1. A system for developing a network of facilities which
6 would include such things as group homes, custodial homes, and
7 foster homes.

8 2. A funding model for the seven levels of care which are
9 described in Chapter 135C.

10 3. A model for the evaluation and monitoring of the quality
11 of care and services provided by these facilities; and

12 *Be It Further Resolved*, That the study consider the possible
13 need of developing a master plan for the creation and encourage-
14 ment of more housing and health care facilities for the elderly
15 and physically handicapped, including but not limited to, re-
16 tirement homes, custodial homes, nursing homes, and extended
17 health care facilities and supportive community services; and

18 *Be It Further Resolved*, That a report of the study shall be
19 prepared and submitted to the legislative council and the members
20 of the Sixty-sixth General Assembly meeting in the year 1975,
21 and shall be accompanied by legislative bill drafts to carry

1 *Whereas*, the State of Iowa does not now have a School of
2 Optometry, nor does the state financially support optometric
3 education at any of the optometric schools in other states; and

4 *Whereas*, the Federal government has cut drastically direct

5 Federal support for optometric education and building funds
6 for optometric schools; and

7 *Whereas*, optometrists provide over seventy-five percent of
8 the vision care for the people of Iowa and nationwide; and

9 *Whereas*, other states not having their own optometric
10 schools are already purchasing positions in the entering
11 classes at the existing schools of optometry or establishing
12 new schools; and

13 *Whereas*, there will be an even greater need for optometrists
14 in Iowa in the future as studies indicate the largest percentage
15 of optometrists in Iowa are fifty-three years of age and that
16 seventy percent of the presently practicing optometrists are
17 over forty-five years of age; and

18 *Whereas*, the demand for optometric services is ever increas-
19 ing; *Now Therefore*,

20 *Be It Resolved by the Senate, the House Concurring*, That
21 the Legislative Council establish an interim study committee
22 as provided by law to review the optometric manpower situa-
23 tion in the state and to study the possible need for state
24 funding for optometric education in the future.

1 *Whereas*, cities use special assessments to finance
2 the construction of streets and sewers within their cor-
3 porate limits; and

4 *Whereas*, these special assessments are becoming in-
5 creasingly costly because of increased costs in the con-
6 struction of streets and sewers; and

7 *Whereas*, these increased costs are imposing a financial
8 burden upon elderly and low-income homeowners; and

9 *Whereas*, the concept of taxing homeowners for street
10 and sewer improvements is an antiquated concept going
11 back to medieval times; and

12 *Whereas*, street and sewer improvements are used by
13 the general public and the burden of financing these
14 improvements should be borne by all members of the pub-
15 lic; *Now Therefore*,

16 *Be It Resolved by the Senate, the House Concurring*,
17 That the legislative council establish a study committee,
18 as provided by law, which shall consist of legislative
19 members representing both houses of the general assembly
20 and representing both political parties to the feasi-
21 bility of financing public improvements without the use
22 of special assessments; and

23 *Be It Further Resolved*, That the study committee shall
24 submit its report, including necessary bill drafts to
25 implement its recommendations to the legislative council
26 and the 1975 Session of the Sixty-sixth General Assembly.

ADOPTION OF CONFERENCE COMMITTEE REPORT

Senate File 1222

Senator Milligan submitted the following report of the conference committee on Senate File 1222 and moved its adoption:

REPORT OF THE CONFERENCE COMMITTEE ON SENATE FILE 1222

To the President of the Senate and the Speaker of the House of Representatives:

We, the undersigned members of the conference committee appointed to consider the differences between the Senate and the House of Representatives on Senate File 1222, bill for an act relating to the establishment of an energy policy council with emergency powers and making an appropriation, respectfully submit the following recommendation:

1. That the House amendment to Senate File 1222, as amended passed, and reprinted by the Senate, be amended to read as follows:

2. Page 2, by striking lines 10 through 25 and inserting in lieu thereof the following:

Sec. 3. PERSONNEL. The governor shall appoint a director of energy policy who shall carry out duties assigned to him by the council or duties assigned to him by the governor pursuant to a proclamation of emergency issued under the provisions of section eight (8) of this Act. The appointment of the director shall be subject to confirmation by two-thirds of the members of the senate. The director shall be paid an annual salary in an amount not to exceed twenty-two thousand dollars. Other personnel utilized by the council shall be employed through a program of interchange of personnel between the council and other governmental agencies pursuant to chapter twenty-eight D (28D) of the Code.

4. Page 4, by inserting after line 21 the following:

5. Page 10, after line 13, by inserting the following sections:

Sec. 9. The energy policy council shall identify those segments of branch line railroad trackage which, if improved, may provide increased transportation services for the citizens of this state. The council shall develop and implement programs to encourage the improvement of railfreight services on such railroad trackage. If the council determines that public assistance is in the best interest of the citizens of this state, the council may, in emergencies, provide financial assistance on behalf of the citizens of this state to railroad companies, which assistance shall be used exclusively to upgrade branch line railroad roadbeds in order to improve the freight-carrying capacity of the railroad and to increase the speed limitations of the railroad trackage. In the alternative, there is granted a tax exemption to the branch line railroad roadbeds if the council determines that there is a need for continuation of rail transportation services to the area and communities served by the railroad, that discontinuance of rail services will not be in the best interest of the citizens of this state who reside in the area or community served, that an undue economic hardship will result in that area or community if service is discontinued, and that other transportation facilities are not available or are inadequate to meet the economic needs of the area or community. Before granting the tax exemption, the council shall require and the railroad company shall agree that an amount equal to the amount which would otherwise be paid for taxes if the tax exemption was not granted, shall be expended by the railroad company to upgrade the railroad roadbed for which the tax exemption is granted.

Sec. 10. If the energy policy council determines that a tax exemption shall be granted for certain

branch line railroad trackage, the council shall notify the county auditor of the county in which the railroad trackage is located of such fact not later than October first of each year. The exemption shall be granted on the valuation of the railroad trackage as of January first of the year in which the exemption is granted and such exemption shall be for a period of one year. The county auditor shall reduce by fifty percent the valuation of all railroad trackage which has been granted a tax exemption by the energy policy council.

Sec. 11. Each year in which a tax exemption is granted for branch line railroad trackage in the county and the county auditor receives notice from the energy policy council to reduce the valuation on railroad trackage by fifty percent, the county auditor shall levy the taxes against the reduced value of the property and give notice of the assessment to the energy policy council and to the state comptroller.

Sec. 12. The energy policy council shall pay all taxes due because of the reduced valuation of branch line railroad trackage granted an exemption from property taxes by the council. The council shall not grant exemptions for railroad trackage for which the council has insufficient funds under the provisions of this Act to reimburse counties for that portion of the taxes levied against railroad trackage in the counties which would be reimbursed by the state.

Sec. 13. There is appropriated from the general fund of the state to the energy policy council for the fiscal year beginning July 1, 1974 and ending June 30, 1975 the sum of three million (3,000,000) dollars, or so much thereof as may be necessary, to carry out sections nine (9) through twelve (12) of this Act.

Sec. 14. Any unencumbered balance of the funds appropriated pursuant to section thirteen (13) of this Act remaining as of June 30, 1977 shall revert to the general fund of the state as of June 30, 1977.

Sec. 15. The energy policy council, the governor, and the state comptroller may obtain and accept federal grants to the state to be used in connection with funds appropriated by sections thirteen (13) and twenty-one (21) of this Act.

Sec. 16. *NEW SECTION.* The state department of transportation shall conduct a study of the state's rail transportation and mass transit systems. In conducting the study, the department shall:

1. Determine the existing plant, equipment, and facilities of each railroad company providing rail service in the state.
2. Determine the type of rail service presently provided in this state by each railroad company.
3. Determine the economic and energy requirements for alternative transportation modes in the movement of passengers and commodities within the state.
4. Develop a cost-benefit analysis to determine the effect of state financial assistance on rail transportation in this state.
5. Develop a comprehensive plan for a system of rail transportation which will best serve the economic and social needs of the citizens of this state.

6. Determine the feasibility of providing railroad passenger service in this state. The study shall also include a cost analysis of and the procedures for providing such service and other availability and conditions of the railroad trackage over which railroad passenger service may be provided.

7. Determine the problems of mass transit facilities in this state and the role of the state in providing adequate mass transit services for the urban and rural areas of the state.

The state department of transportation shall submit a report of its findings and specific recommendations to the governor and the general assembly not later than March 1, 1975.

Sec. 17. There is appropriated from the general fund of the state to the state department of transportation for the fiscal year beginning July 1, 1974 and ending June 30, 1975 the sum of three hundred thousand (300,000) dollars, or so much thereof as may be necessary, to be used for salaries, support, maintenance, and miscellaneous purposes and to conduct the study required under section sixteen (16) of this Act.

Sec. 18. The state department of transportation, the governor, and the state comptroller may obtain and accept federal grants to the state to be used in connection with funds appropriated by section seventeen (17) of this Act.

Sec. 19. The state department of transportation, the governor, and the state comptroller may obtain and accept private grants to the state to be used in connection with funds appropriated by section seventeen (17) of this Act.

Sec. 20. Any unencumbered balance of the funds appropriated pursuant to section seventeen (17) of this Act remaining as of June 30, 1975 shall revert to the general fund of the state as of September 30, 1975.

Sec. 21. There is appropriated from the general fund of the state to the energy policy council for each year of the fiscal biennium beginning July 1, 1973 and ending June 30, 1975, the following amounts, or so much thereof as may be necessary, to be used in the manner designated:

Unencumbered or unobligated funds as of June 30, 1977 appropriated by this Act shall revert to the general fund of the state on September 30, 1977.		

6. Page 10, in line 14, by striking the words "This Act is" and inserting in lieu thereof the words "Sections one (1) through twelve (12) of this Act are".

7. Page 10, by striking lines 21 through 24 and inserting in lieu thereof the following:

OFFICE OF THE GOVERNOR

State Capitol
Des Moines, Iowa 50319

The Honorable Arthur A. Neu
President of the Senate
Sixty-fifth General Assembly
State Capitol
Des Moines, Iowa

Honorable Members of the General Assembly:

As the gavel falls for the last time on the Sixty-fifth General Assembly it goes into Iowa annals as the longest session in our state's history.

True it is from the standpoint of days—when we consider the sum of your meetings of 1973 and 1974—this has been a session of record length. But this record of time becomes secondary when placed beside the record of accomplishment the members of this legislative body have made.

You have faced exceedingly complex issues and it has taken courage and determination to stand and face them to successful resolution.

Therefore, it can be safely said of your work that it will be judged by its quality and not by the time it took to produce it.

At the beginning of this session in my initial message to you, I told you that you faced a very exciting adventure and that to succeed at it would earn you the respect of the people who sent you here. These are people who sent you not to play games, but to do a hard job of work.

As might be said of any legislative session, there was some game-playing and unfortunately some continues even as the gavel falls. But those of you who ventured into the realm of bold decision-making have demonstrated that real leadership is marked by accomplishment and not by carping and criticism after the fact. It is to your credit that your heads were not turned by those who used criticism and negativism as compensation for their own shortcomings.

This, then, was a session in which a hard job of work was accomplished. Thus this General Assembly has earned appreciation and respect of Iowans.

Placed before you on January 15 was the Governor's 44-point program, with additional goals in my special energy message on January 22. Together these recommendations were described by legislative observers as "forward looking", and, by some, "overly ambitious."

That these proposals were forward-looking is true. Often you found yourselves grappling with concepts that will touch the lives of our people not only in the next year, but will affect the direction of our state and our people for decades to come.

While true perhaps you were faced with an "overly ambitious" work program, that now is beside the point. In achievement of more than two-thirds of this package you have clearly demonstrated that many of the goals were indeed attainable.

All told, you had for your consideration this session some 2912 bills and completed final action on 283 of them. Even as this is written there are 96 bills yet to reach my desk for my review.

While this was a session in which hard decisions confronted you, it was also a session in which you were presented great opportunities to help our Iowa people.

In dealing with the substantial surplus in our state treasury, you followed the balanced, three-fold philosophy for dealing with these revenues which we presented to you.

First, you recognized that the same inflationary condition which has been a factor in creating the surplus has also had an effect on the operation of government and the people who look to state government for livelihood. You closely followed our supplemental budget recommendations for cost-of-living adjustments for our employees in Regents institutions, area schools and other state departments. You substantially increased the amount of state aid to local schools in order to give school boards flexibility in meeting the needs of teachers and other school employees also hit by inflation. And your actions also acknowledged that inflation also victimizes our elderly and our dependent children for whom government has a responsibility. Finally, in this category, you provided for additional help in meeting escalating non-payroll costs in many of our state agencies

Next, you saw the wisdom—made possible by a budget surplus—in providing for a number of needed capital improvements that are essential. And you made some wise investments in the future by approving an ambitious capital improvements program for Iowa's conservation, recreation and park system.

Having met the obligations of government and providing for capital needs, you then gave people a break. Thus this became another session of the Iowa Legislature which not only talked about providing tax relief to Iowans, but actually provided it.

After years of rhetoric about the desirability of removing the sales tax from food and prescription drugs, it is now going to happen without raising any other tax to do it. In addition, you acted to increase the standard deduction for income taxpayers from \$250 to \$500 which will provide a noticeable tax break for many of our taxpayers.

Also, you updated the inheritance tax law by doubling the exemption for surviving spouses and recognized the equality of women with the insertion of a joint tenancy provision in the inheritance law.

These actions give honest tax relief. They are not rebates or gimmicks, but provide noticeable help to people and are significant in improving the mix and the fairness of Iowa's overall tax structure.

There are a number of other accomplishments which merit comment. You and I approach them as bills, pieces of legislation with assigned numbers or with catchword titles or acronyms, such as SF 531, or DOT or Special Education. While these descriptions serve to help us track the course of legislation as it moves through the process, they are not adequate to convey to our people the great importance and potential that are contained within them.

The step we took this time in modernizing our delivery system for special education will have a far-reaching effect on the lives of thousands of human beings. Through this action you have provided a structure which can provide all of our youngsters with a means to learn and to receive education. You have demonstrated an understanding for those who have learning difficulties because of their handicaps. And in outlining the ways in which we will provide this help for our disabled young people you have made a major new commitment by state government . . . a commitment that I believe is needed and is totally justified.

This was also the session in which we took a giant stride in dealing with the complex issue of transportation. In providing for a Department of

Transportation you have done more than merely provide for more governmental reorganization; you have given Iowa government a means to begin to rationally deal with our many transportation modes, not just a few. What we have accomplished so far is only a beginning; it is not a cure-all. Radical changes in our transportation system will not happen overnight. But with this measure, we can have some assurance that we can help shape the transportation picture in Iowa in the future.

You also moved in the area of consumer protection by putting tight curbs on many questionable debt collection practices, forbidding hidden interest charges and setting limits on household collateral, just to name a few. You set a ceiling on interest rates for revolving charge accounts that more realistically reflects today's costs of money, thus making it possible for some people who require retail credit most desperately to get it without being driven to the usurious interest rates of loan sharks.

This was a session that also moved decisively in strengthening our civil rights agency, in dealing with the problems of alcoholism, in bolstering our efforts in good law enforcement and in extending the right to bargain collectively to employees in the public sector.

It was a session that made possible the continued coverage of the Iowa Educational Broadcasting Network so that it will truly be a statewide system.

And it was a session confronted with the new challenges of a tightening energy situation. You have created an Energy Policy Council to give us some assistance in formulating energy policy in Iowa and hopefully enabling us to deal with energy emergencies. After a lengthy debate you acted to lower the speed limit on Iowa's roads and highways. You have provided some assistance for experimentation in developing ways to maintain our railroad system in Iowa, an essential effort if we are to retain the capability of moving large volumes of Iowa's products—particularly in agriculture—to the markets of this nation and the world.

While not totally in agreement with the concept of our proposal, you provided funds for coal research. I am pleased that you recognized the potential in developing ways in which we can wisely use Iowa's vast coal reserves to help meet our projected energy needs.

This session, in spite of a remarkable record, was not without some disappointments. Iowa still must move to develop a policy of land use. Perhaps no other area of this nation has a greater stake in sound land use for our agricultural land is one of the world's greatest natural resources.

Other major areas on which action was not taken but where it is needed are the revision of Iowa's criminal code, the development of a state housing authority and a bidding law for all units of government.

I will continue to explain to the people of our state the need for passage of these important proposals which did not survive the Sixty-fifth General Assembly.

You began this session with a background of achievement and a wide range of exceptionally important accomplishments. From your first meeting came an honest tax break for elderly people, a continued attack on property taxes, support for our well-balanced educational system, the establishment of the community-based corrections concept, majority rights for young people and a strong campaign financing law, just to cite a few.

As I told you when this session opened in January, this background of achievement could give you confidence that the current session could also be tremendously productive.

As the days and weeks of this session went by, there were those who expressed doubts or frustration at the stumbling blocks and delays. But as you adjourn sine die now, there are none among you who cannot honestly say that this has been a good and productive effort.

A number of you have already made the very difficult personal decisions not to seek re-election to this body. For the rest of you that decision will be made by those you represent when you stand for their assessment in June and November.

All of you—in both Houses and on both sides of the aisle—have earned a special place in the history of this state through your participation in the Sixty-fifth General Assembly. To have been a member of this legislative body has required sacrifice, long hours away from home and family, and at times, exceedingly hard work.

It has not always been pleasant. Your service has not always been easy. But, as we look at what has been done, it has truly been worth it.

Sincerely,

ROBERT D. RAY
Governor

The report was received and the committee discharged.

GOVERNOR'S ITEM VETO MESSAGES

June 3, 1974

The Honorable Melvin D. Synhorst
 Secretary of State
 State Capitol
 Local

Dear Mr. Secretary:

I hereby transmit Senate File 1286, an Act amending the appropriated funds to the Iowa state commerce commission and the law regulating grain dealers.

Senate File 1286 is approved June 3, 1974, with the following exception which I hereby disapprove:

That portion of Section 2, beginning with the entire seventh line of that section and continuing through the fifteenth line of the bill as it was presented to me to the conclusion of Section 2 which reads as follows: "Trucks owned by grain dealers licensed under the provisions of Acts of the Sixty-fifth General Assembly, 1973 Session, chapter two hundred seventy-six (276), which are already registered under chapters three hundred twenty-five (325) and three hundred twenty-seven (327) of the Code as motor vehicle truck operators are exempt from payment of the fees imposed under Acts of the Sixty-fifth General Assembly, 1973 Session,

chapter two hundred seventy-six (276), section six (6), subsection three (3)."

I disapprove this item for the following reasons:

First, this provision which I disapprove would exempt trucks owned by grain dealers from paying a \$5.00 registration fee under the Grain Dealers Act of the 1973 session of the General Assembly. The basic intent of that Act is to provide assurance to Iowa farmers that they are indeed selling their grain to licensed and bonded dealers from whom payment is assured.

If allowed to stand this provision I am disapproving would defeat the protection for our farmers heretofore granted.

One principal feature of that Act is to require licensed and bonded dealers to display in their offices and on their trucks readily-recognizable certification from the Iowa Commerce Commission. On the trucks, this certification is in the form of an identification plate which is issued upon payment of the \$5.00 vehicle registration fee. Without such a plate being displayed, the seller of grain at a farm site has no way to immediately determine if the buyer with whom he is dealing is in fact licensed and bonded under the Grain Dealers Act.

Additionally, this disapproved section of Senate File 1286 is discriminatory in its language in that it exempts from payment of fee only those trucks which are owned by the licensed dealers. Presumably, it would still be necessary for the licensed grain dealers who lease trucks to register those vehicles under the Grain Dealers Act.

Finally, this exemption provision would reduce revenue to the State General Fund which, while perhaps not of major concern here, nonetheless would affect the legislative intent to be self-sufficient in administering provisions of the Grain Dealers Act.

For these reasons, I disapprove the aforementioned item of this bill in accordance with Amendment 4 of the Amendments of 1968 to the Constitution of the State of Iowa. All other items of Senate File 1286 are hereby approved.

Sincerely,

ROBERT D. RAY
Governor

Dear Mr. Secretary:

I hereby transmit Senate File 1325, an Act appropriating from the general fund of the state to the state historical society for capital improvements of state historical sites and for the planning and study of a new historical site.

Senate File 1325 is approved June 3, 1974, with the following exception which I hereby disapprove:

Section 2 which reads as follows: "Any unobligated balance remaining after any of the specific projects included in this section are completed may be used to supplement the amount available for any other project financed by this Act."

I disapprove this item for the following reasons:

This section provides for the carry-over of any unobligated balance remaining after specific projects included in this "section" are completed. Through apparent oversight the Legislature included in this provision an incorrect reference, since there are no projects included in this said Section 2.

I am in complete agreement with the intent of this section if it is applied to the specific items referred to in Section 1. However, that is not what the section says. By striking Section 2, it is hoped that the bill will be less confusing, and the use of any unobligated balance remaining after any of the specific projects included in Section 1 are completed can be made available administratively to the other projects financed by this Act.

The legislative conference committee dealing with this Act compromised on the fourth item of Section 1 by providing \$2500 instead of the \$5000 voted in the House version of the bill for the planning and study of a memorial to Ansel Briggs. The conference committee report was approved, so it certainly seems that the intent of the Legislature was to reduce the total amount provided in this Act by \$2500. Yet the committee neglected to reduce the total sum appropriated by a similar amount, thus the added confusion when considered with Section 2. In view of the opinions of the Offices of Attorney General and Comptroller, this action that I take will help clarify this Act and assure intended progress for improvements of state historical sites and for the planning and study of a new historical site.

For these reasons, I disapprove the aforementioned item of this bill in accordance with Amendment 4 of the Amendments of 1968 to the Constitution of the State of Iowa. All other items of Senate File 1325 are hereby approved.

Sincerely,

ROBERT D. RAY,

Dear Mr. Secretary:

I hereby transmit Senate File 1343, an Act appropriating from the general fund of the state of Iowa to the Annie Wittenmyer Home, Davenport for the fiscal year beginning July 1, 1974 and ending June 30, 1975.

Senate File 1343 is approved June 3, 1974, with the following exception which I hereby disapprove:

That portion of Section 1, second unnumbered paragraph thereof, which reads as follows: "When another location is found for a child who is a resident of the home on July 1, 1974, funds appropriated by this Act which have been allocated for the care of such child shall be made available for the care of the child at the new location. In determining the amount of funds allocated for the child's care, the sum of fifty thousand dollars shall be subtracted from the amount appropriated in section one (1) of this Act. The fifty thousand dollars represents the funds required to provide security and maintenance for the institution. The remaining funds shall be divided by the population of the institution existing on July 1, 1974 and the resulting individual calculation shall be divided by twelve to arrive at a monthly cost for each child. The specific allocation for the care of each child shall be the individual rate established multiplied by the months remaining in fiscal year 1974-75 at the time of placement. If necessary a monthly rate may be prorated if placement of a child does not occur at the beginning or end of a month."

It is my opinion that this item was included in this bill with good intentions on the part of the legislators. However, in my judgment this paragraph would establish an unreasonable formula for the Iowa Department of Social Services as it acts to respond to the legislative directive to close the Annie Wittenmyer Home at Davenport. This provision arbitrarily fixes the cost for institutional operation on the basis of direct proportion to the number of children cared for in the home. This in actual practice in this case is not realistic.

Certain fixed costs—costs that are over and above the security and maintenance of the facility—cannot decline as rapidly as will be the decline in the number of persons served by this institution as it is phased out.

The Department of Social Services is obligated to follow the mandate of the Legislature in phasing out this institution, but it should be allowed the administrative capability for a sound closing procedure. For example, professional staff at Annie Wittenmyer will be primarily involved in planning and implementing alternative care for the children, as well as continuing day-to-day services so long as there are children at Annie Wittenmyer. Funds must be available to provide for these staff salaries and accrued benefits for those involved in these activities as well as to provide salaries and vacation benefits for those who terminate employment with the State of Iowa as a result of the legislative direction.

The dilemma that this formula would present to the Department of Social Services is similar to that faced frequently in public school systems of declining enrollments. Certain costs of providing educational services remain even though fewer pupils are on hand to receive the services. The correlation between costs of services and the number of those served is not necessarily a direct one.

Furthermore, I interpret the language in the disapproved paragraph to require that the amount of money by which the appropriation to Annie Wittenmyer is reduced once a child leaves the institution shall actually follow the youngster to the child's new location. This general concept is meritorious. However, the Department of Social Services should have some discretion in the amount and procedure of transfer of funds. Based on

the forty children estimated to be at the Annie Wittenmyer Home on July 1, 1974, this provision could require, regardless of need, that \$11,200 annually per youngster be transferred with the child to another facility or foster care home. This could lock in an inconsistency with similar care in other places, and it could require payment in excess of the actual costs of the new foster care services.

I am advised that the Department of Social Services will have the funds that become available because of the reduced number of residents to carry out the basic desire and intent expressed in this vetoed provision. This would be a safer, more satisfactory method to achieve the desired results.

For these reasons, I disapprove the second unnumbered paragraph of Section One (1) of Senate File 1343 in accordance with Amendment 4 of the Amendments of 1968 to the Constitution of the State of Iowa. All other items of Senate File 1343 are hereby approved this date.

Sincerely,

ROBERT D. RAY,
Governor

KARL MILES LeCOMPTE

MR. PRESIDENT: Your committee, appointed to prepare a suitable resolution commemorating the life, character and public service of the late Honorable Karl Miles LeCompte, begs leave to submit the following memorial:

Karl Miles LeCompte was born May 25, 1887 in Corydon, Wayne County, Iowa, where he lived the greater part of his life. He graduated from the Corydon High School in 1905 and four years later graduated from the University of Iowa at Iowa City, with a Bachelor of Arts degree. He then became involved in the family newspaper business as owner and publisher of The Corydon Times-Republican, the oldest newspaper in Wayne County. He was not a candidate for any public office until his election to the Iowa Senate, as a Republican, in 1916, and was the youngest member of the Thirty-seventh General Assembly. He represented the people of his District from 1917 through 1921.

During World War I, Karl LeCompte enlisted and served in the United States Army as a private in the Medical Detachment of the United States General Hospital No. 26, until his Honorable Discharge on December 24, 1918.

In 1938, Karl Miles LeCompte was a successful candidate to the Seventy-sixth Congress of the United States and to the nine succeeding Congresses. During the twenty years he represented the people of Southern Iowa in Washington, D. C., he served as head of the House Administration Committee and was a member of the House Foreign Affairs Committee. His travels as a member of the United States Congress took him all over the world but it was always to Wayne County, Iowa, that he returned whenever possible.

Karl LeCompte chose not to be a candidate for renomination to the United States Congress in 1958 and after his retirement, became a contributing editor of The Corydon Times-Republican until his death on September 30, 1972.

He was survived by his wife, Dorothy, now deceased, and a sister, Miriam LeCompte. He was a man who was completely dedicated to his family, his friends and his work. Anyone who knew him, even casually, would say he was truly a gentleman, a statesman and a countryman.

Therefore, Be It Resolved by the Senate of the Sixty-fifth General Assembly of Iowa: That in the passing of the Honorable Karl Miles LeCompte, the state has lost an honored citizen, and the Senate by this resolution would express its appreciation of his services to his community, state and nation and tender its sympathy and kindest regards to the members of his family.

CARL O. SJULIN

MR. PRESIDENT: Your committee, appointed to prepare a suitable resolution commemorating the life, character and public service of the late Honorable Carl O. Sjulín, begs leave to submit the following memorial:

Carl O. Sjulín, one of Hamburg's most influential businessmen and longtime southwest Iowa booster, died at Grape Community Hospital on Friday, March 29, 1974. The 84-year-old pioneer nurseryman had been in failing health for several months.

Co-founder and president of Inter-State Nurseries, Mr. Sjulín came to Hamburg in 1919 from Shenandoah after an active college career and tour with the Army in World War I. He was born in Shenandoah on March 3, 1890. He was graduated from Shenandoah High School and the University of Iowa. While at the University of Iowa he founded the Student Directory, owned the Daily Iowan college newspaper still published, and managed the men's and women's glee clubs. In addition, he was cadet major of the university cadet corps. He married Una Hines of Hamburg, Iowa on October 22, 1919. They had three sons, David Sterling, Carl Dudley and Richard Paul.

He founded the original Hamburg Nurseries with his brother Leslie in 1920, and went on to become a radio personality in the 1930's as he boosted

Inter-State Nurseries products over a number of midwest radio stations. His name, "Uncle Billy the Nurseryman," became a household word over a wide area.

Carl's interest turned to Republican politics shortly before World War II, when he sought and was elected to eight years in the Iowa Senate, serving from 1938 until after the war. Many still called him "Senator Sjulín."

Mr. Sjulín was a city councilman in Hamburg for many years, and was active in Methodist Church affairs until recent years, serving on the board of trustees.

Other memberships included Jerusalem Lodge 253 AF & AM, the Hamburg American Legion Post 156, the American Nurserymen's Association, and the National Mail Order Nursery Association.

Survivors include his wife, Una; three sons, Sterling and Carl of Hamburg, Paul of Shenandoah; and three grandchildren.

Therefore, Be It Resolved by the Senate of the Sixty-fifth General Assembly of Iowa: That in the passing of the Honorable Carl O. Sjulín, the State of Iowa has lost a valued, loyal and honored citizen, and by this resolution tenders its sincere sympathy to the members of his family.

Be It Further Resolved: That a copy of this resolution be spread upon the Journal of the Senate and the Secretary of the Senate be instructed to forward an enrolled copy to each member of his family.

CHARLES S. VAN EATON

MR. PRESIDENT: Your committee, appointed to prepare a suitable resolution commemorating the life, character and public service of the late Honorable Charles S. Van Eaton, begs leave to submit the following memorial:

Charles S. Van Eaton was born August 10, 1889, in Tacoma, Washington, and moved to Iowa three years later. He spent his boyhood in Iowa and western Canada.

He was graduated from Iowa Business College in Council Bluffs in 1908 and from Graceland College in Lamoni, Iowa in 1911.

Mr. Van Eaton was elected to the Iowa General Assembly in 1943 and served two terms in the House of Representatives and three terms in the Senate.

He was one of the founders of the Iowa Development Commission, serving on its board of directors for eight years. He worked for and gained passage of Iowa's Revenue Bond Bill permitting cities and towns to issue revenue bonds to industries deciding to locate in the state.

Mr. Van Eaton came to be known throughout the state as "Mr. Toll Road" for his promotion in the legislature of a toll road across Iowa.

The bill, which was passed three years later, was for \$300,000,000, the largest money bill ever passed by the legislature up to that time. Interstate 80 now is built on the survey which Mr. Van Eaton originally obtained for the toll road.

During World War II, he served on the Seventh Regional War Labor Board which met in Kansas City and St. Louis.

In 1965, he was made a member of the Pioneer Lawmakers Club of Iowa for years of service in the state legislature.

Mr. Van Eaton owned a hardware, furniture and undertaking business and a general store in Pisgah, Iowa, and later opened an O. P. Skaggs store in Fremont, Nebraska, in 1928.

After selling his Fremont store, Mr. Van Eaton moved to Sioux City where in 1930 he opened the city's first self-serve supermarket. He developed a chain of twenty-four stores in Iowa, Minnesota, South Dakota and Nebraska.

Mr. Van Eaton was active in community affairs throughout the years he lived in Sioux City.

He was awarded the Kiwanis Gold Medal for his distinguished service to the community in 1940. He was chairman of the Community Chest in 1935 and served on the board of directors of Wall Street Mission.

In 1959 he received a citation from the Salvation Army for his services to that organization.

Mr. Van Eaton served on the board of Morningside College for twenty-four years and was chairman of their Endowment Committee for many years. In 1954 he was given an Honorary Doctor of Laws degree for his service to the college.

He served two terms as president of the Sioux City Chamber of Commerce in 1940 and 1941 and during his terms was instrumental in developing the organization called Ten Thousand Sioux Cityans.

He served on the boards of the YMCA and the Methodist Hospital and was on the Municipal Auditorium board for eighteen years, fifteen years of which he served as president.

In 1965, he was given citations from the City of Sioux City and the Auditorium board and a Golden Key to the city for his years of service including his piloting of the bill through the Iowa Legislature which made it possible for the city to have an auditorium.

Mr. Van Eaton was past president of the Lions Club and a member of Tyrian Lodge, AF & AM, the Shrine and the Scottish Rite. In 1965, he was made a Knight Commander Court of Honor by the Sioux City Consistory. He was also a member of the Reorganized Church of Latter Day Saints.

Mr. Van Eaton died February 13, 1974. Survivors include his widow, Gail, whom he married October 8, 1955. He is also survived by two stepsons, Russell R. Martin of Denver, Colorado and George W. Martin of Grand Island, Nebraska.

Therefore, Be It Resolved by the Senate of the Sixty-fifth General Assembly of Iowa: That in the passing of the Honorable Charles S. Van Eaton, the state has lost an honored citizen and a faithful and useful public servant, and the Senate by this resolution would express its appreciation of his services to his community, state and nation and tender its sympathy and kindest regards to the members of his family.

Be It Further Resolved: That a copy of this resolution be spread upon the Journal of the State, and that the Secretary of the Senate be directed to forward an enrolled copy to the family of the deceased.
