Executive Department

## PROCLAMATION

*Whereas*, pursuant to legislation enacted by the Sixty-eighth General Assembly in 1980, the General Assembly must vote on legislative and congressional redistricting plans drawn by the Legislative Service Bureau; and

*Whereas*, the first plan presented to the General Assembly was rejected on May 14, 1981, with a 21 to 28 vote by the Senate, and the second plan prepared by the Legislative Service Bureau was rejected on June 25, 1981, with a 24 to 26 vote by the Senate; and

*Whereas*, the Legislative Service Bureau will submit to the General Assembly its third legislative and congressional redistricting plan on July 24, 1981; and

*Whereas*, pursuant to Amendment 36 of the Constitution of the State of Iowa (1957), the General Assembly must complete apportionment prior to September 1, 1981; and

*Whereas*, the bankruptcy of the Rock Island and Milwaukee Road railroads threaten the loss of essential rail service to portions of Iowa; and

*Whereas*, skyrocketing road maintenance and construction costs and reduced road user fee collections impair the State's financial ability to maintain safe and adequate roadways; and

*Whereas*, adequately maintained roads and rail service are essential to the health of Iowa's economy and immediate State action is needed to address the rail service and road financing problems; and

*Whereas*, the First Session of the Sixty-ninth General Assembly and the first Extraordinary Session of the Sixty-ninth General Assembly completed its business without approving a redistricting plan and without taking final action on the rail service and road financing problems facing the State; and

*Whereas*, the incompleteness of action on redistricting, rail service and road financing problems is ample reason to convene this General Assembly in Special Session in accordance with Article IV, Section XI and Amendment 36 of the Constitution of the State of Iowa.

*Now, Therefore*, I, Robert D. Ray, Governor of the State of Iowa, in accordance with Article IV, Section XI and Amendment 36 of the Constitution of the State of Iowa, do hereby proclaim that the Sixty-ninth General Assembly shall convene in Extraordinary Session at the State Capitol in the City of Des Moines, Iowa, at 10:00 a.m. on the 12th day of August, 1981, and to that end I do call upon and direct the members of the House of Representatives and of the Senate of the Sixty-ninth General Assembly to convene in their respective chambers in the State Capitol at 10:00 a.m. on August 12, 1981, for the purpose which the Assembly is convened; namely, the matters of legislative and congressional redistricting, rail service and road financing, and to take legislative action in keeping therewith.

(SEAL)

*IN TESTIMONY WHEREOF*, I have hereunto subscribed my name and cause the Great Seal of the State of Iowa to be affixed. Done at Des Moines this 8th day of July in the year of our Lord one thousand nine hundred and eighty-one.

ROBERT D. RAY, Governor

### COMMUNICATION FROM THE GOVERNOR

August 12, 1981

The Honorable Terry Branstad  
President of the Senate  
Sixty-ninth General Assembly  
State Capitol Building  
LOCAL

Honorable Members of the General Assembly:

This, the second Special Session of the Sixty-ninth General Assembly, is truly extraordinary. It marks the first time in the history of our state that a General

Assembly has met in two Special Sessions in one year. Moreover, this Special Session is extraordinary because you are faced with three crucial issues that require resolution. These issues—the so-called three Rs—must be faced and resolved now.

The first of these issues—reapportionment—under the Constitution of Iowa is a duty unique to the General Assembly. Few duties have caused more legislative anguish in the annals of legislative history. Despite constitutional requirements, legislative disputes effectively caused no redistricting of our State Senate between 1901 and 1964. Indeed, there was periodic wrangling over the shape and size of our districts, but no agreements were reached on total redistricting plans. As a result, districts strayed from the one-person, one-vote principle we adhere to today. In 1950, for example, Polk County with a population of 224,920 had one Senator; Clayton County with 22,490 people also had one Senator. And congressional districts ranged in population from 251,579 to 413,206.

We have come a long way since 1950. And, today you face a deadline. You have before you four plans, all of which are substantially below one percent in population deviation. Each of the plans is relatively compact, and it appears that each meets the constitutional tests which have been laid down by the courts. Moreover, you have commendably limited your ability to amend individual districts in the plans. This will help prevent possible gerrymandering of legislative and congressional districts, which I oppose.

During the intense reapportionment debates of the mid-sixties, one legislator was heard to comment: "There is no hope of the legislature ever passing a reapportionment bill. Neither house will agree to having itself changed." We all know that this "changing of oneself" is undoubtedly the General Assembly's most difficult task. But it is a duty that is yours, and I urge you to dispense with it fairly and in a timely manner.

The second of the three Rs—road financing—has a similarly stormy legislative history. But action on this priority, too, should not wait. In FY 81, Iowa's road fund revenues declined at a rate unprecedented in the history of the fund. But financing needs have not gone down; we are driving on about 3,000 miles of paved roads that were built before 1940; at least 11,000 county and 1,100 primary road bridges are in need of repair; rising construction costs have shrunk the value of the road fund dollar; and travel on our roadways is up 3 percent over last year.

There is little dispute that our roads need repair. There are few who doubt the fact that we must pay to maintain roads now or pay more to rebuild them later. The road user fee has fallen to about 8 percent of the pump price—its lowest level in history. Over 80 percent of our counties—which receive 37 percent of road funds—are at their maximum property tax levy for maintenance of county roads. Yet action to deal with this serious problem has not been completed.

The modest increase in the road user fee which you are considering will not solve all of our road problems. But it would help us maintain essential roads and bridges.

I know this is not an easy issue for you. No one wants to pay more at the pump than they are paying now. On the other hand, we must realize that the alternative is unacceptable. I urge you to adjust road financing so that the critical links between

our communities, our farms and markets, and between Iowans and the rest of the nation can be properly maintained.

The third issue—railroad financing—is of equal and immediate importance. Our state has been saddled with two major bankrupt railroads. Portions of those bankrupt lines are potentially economically viable. We cannot let those railroad lines be torn up and sold for scrap.

House File 874 represents a reasonable and innovative rail plan that strikes a healthy balance between the interests of the state of Iowa and the private sector. The bill does not allow the state to run a railroad. It is specifically prohibited from doing so. Instead it gives the state the ability to assist rail carriers and shippers in securing and rehabilitating essential portions of rail line. This legislation appropriately allows private carriers to bid for available rail lines without competing with the state, so long as we are assured that reasonable rail service will be provided to Iowans on the line.

The diesel fuel tax that would back a portion of the \$200 million in bonding authority would not unduly burden Iowa shippers who need and want good rail service to move their products. According to the latest available figures, Iowa now has the 41st lowest tax per mile of railroad in the nation.

In short, House File 874 represents an unusual opportunity to save essential portions of rail line in Iowa. It is written so as to provide a minimum of government intrusion in the private sector.

Pressures to immediately liquidate the lines are building. We cannot afford to let essential portions of our rail lines be sold for scrap.

Thus you are today faced with three crucial issues, all of which deserve your immediate attention. I urge you to judge each of these issues independently on its merits and to act affirmatively on each of them. I wish you a short and productive special session, and I want to assure you that it is my desire to work with you toward that end.

Best regards.

Sincerely,  
ROBERT D. RAY  
Governor

The Senate stood at ease until the fall of the gavel.

The Senate resumed session, President Branstad presiding.

9 Subject to sections 327G.77, 471.16, and 471.17, when

2. If the amount of the alcohol blended with motor fuel is short by more than five gallons but the alcohol blended with the motor fuel is short by one and one one-hundredths percent or less of the amount of alcohol and motor fuel blended, the motor fuel shall be divided for tax purposes into gasohol and motor fuel containing no alcohol as follows:

b. That portion of motor fuel remaining shall be considered motor fuel which is subject to an excise tax at the effective rate per gallon at the time of blending.

c. In addition to the tax imposed under paragraphs a and b of this section, there is imposed a fine of twenty dollars to be credited to the road use tax fund.

3. If the amount of the alcohol blended with motor fuel is short by more than one and one one-hundredths percent of the total, the motor fuel blended with the alcohol is subject to the tax imposed on motor fuel under section 324.3.

The study shall also review highway design standards used by the department and bid procedures used by the department in letting road construction and maintenance contracts. The study shall include a study of the feasibility of contracting with road contractors for highway maintenance services and the feasibility of setting aside ten percent of road contracts for small contractors and contractors just beginning business. The consultant shall also recommend which parcels of right of way owned by the department should be sold.
