DECLARATION OF INDEPENDENCE.

In Congress, July 4, 1776.

THE UNANIMOUS DECLARATION OF THE THIRTEEN UNITED STATES OF AMERICA.

(Adopted by the Continental Congress July 2, and authenticated and proclaimed
July 4, 1776.)

When in the course of human events it becomes necessary for one people to dissolve the political bands which have connected them with another, and to assume among the powers of the earth the separate and equal station to which the laws of nature and of nature's God entitle them, a decent respect to the opinions of mankind requires that they should declare the causes which impel them to the separation.

We hold these truths to be self-evident: that all men are created equal; that they are endowed by their Creator with certain unalienable rights; that among these are life, liberty and the pursuit of happiness; that, to secure these rights, governments are instituted among men, deriving their just powers from the consent of the governed; that, whenever any form of government becomes destructive of these ends, it is the right of the people to alter or abolish it, and to institute a new government, laying its foundation on such principles, and organizing its powers in such forms, as to them shall seem most likely to effect their safety and happiness. Prudence, indeed, will dictate that governments long established should not be changed for light and transient causes; and, accordingly, all experience hath shown that mankind are more disposed to suffer, while evils are sufferable, than to right themselves by abolishing the forms to which they are accustomed. But when a long train of abuses and usurpations, pursuing invariably the same object, evinces a design to reduce them under absolute despotism, it is their right, it is their duty, to throw off such government, and to provide new guards for their future security. Such has been the patient sufferance of these colonies, and such is now the necessity which constrains them to alter their former systems of government. The history of the present king of Great Britain is a history of repeated injuries and usurpations, all having in direct object the establishment of an absolute tyranny over these states. To prove this, let facts be submitted to a candid world:

He has refused his assent to laws the most wholesome and necessary for the public good.

He has forbidden his governors to pass laws of immediate and pressing importance, unless suspended in their operation till his assent should be obtained, and, when so suspended, he has utterly neglected to attend to them.

He has refused to pass other laws for the accommodation of large districts of people, unless those people would relinquish the right of representation in the legislature—a right inestimable to them, and formidable to tyrants only.

He has called together legislative bodies at places unusual, uncomfortable, and distant from the repository of their public records, for the sole purpose of fatiguing them into compliance with his measures.

He has dissolved representative houses repeatedly for opposing, with manly firmness, his invasions on the rights of the people.

He has refused, for a long time after such dissolutions, to cause others to be elected; whereby the legislative powers, incapable of annihilation, have

returned to the people at large for their exercise; the state remaining, in the meantime, exposed to all the dangers of invasion from without, and convulsions within.

He has endeavored to prevent the population of these states; for that purpose obstructing the laws for naturalization of foreigners; refusing to pass others to encourage their migration hither, and raising the conditions of new appropriations of lands.

He has obstructed the administration of justice by refusing his assent to laws for establishing judiciary powers.

He has made judges dependent on his will alone for the tenure of their offices and the amount and payment of their salaries.

He has erected a multitude of new offices, and sent hither swarms of officers to harass our people and eat out their substance.

He has kept among us, in times of peace, standing armies, without the consent of our legislatures.

He has affected to render military independent of, and superior to, the civil power.

He has combined with others to subject us to a jurisdiction foreign to our constitution and unacknowledged by our laws, giving his assent to their acts of pretended legislation—

For quartering large bodies of armed troops among us;

For protecting them, by a mock trial, from punishment for any murders which they should commit on the inhabitants of the states;

For cutting off our trade with all parts of the world;

For imposing taxes on us without our consent;

For depriving us, in many cases, of the benefits of trial by jury;

For transporting us beyond seas, to be tried for pretended offenses;

For abolishing the free system of English laws in a neighboring province; establishing therein an arbitrary government, and enlarging its boundaries, so as to render it at once an example and fit instrument for introducing the same absolute rule into these colonies;

For taking away our charters, abolishing our most valuable laws, and altering fundamentally the forms of our governments;

For suspending our own legislatures, and declaring themselves invested with power to legislate for us in all cases whatsoever.

He has abdicated government here by declaring us out of his protection and waging war against us.

He has plundered our seas, ravaged our coasts, burnt our towns, and destroyed the lives of our people.

He is, at this time, transporting large armies of foreign mercenaries to complete the works of death, desolation and tyranny, already begun, with circumstances of cruelty and perfidy scarcely parallel in the most barbarous ages, and totally unworthy the head of a civilized nation.

He has constrained our fellow-citizens, taken captive on the high seas, to bear arms against their country, to become the executioners of their friends and brethren, or to fall themselves by their hands.

He has excited domestic insurrections amongst us, and has endeavored to bring on the inhabitants of our frontiers the merciless Indian savages, whose known rule of warfare is an undistinguished destruction of all ages, sexes and conditions.

In every stage of these oppressions we have petitioned for redress, in the most humble terms; our repeated petitions have been answered only by repeated injury. A prince whose character is thus marked by every act which may define a tyrant is unfit to be the ruler of a free people.

Nor have we been wanting in attentions to our British brethren. We have warned them, from time to time, of attempts, by their legislature, to extend an unwarrantable jurisdiction over us. We have reminded them of the circumstances of our emigration and settlement here. We have appealed to their native justice and magnanimity; and we have conjured them, by the ties of our common kindred, to disavow these usurpations, which would inevitably

interrupt our connections and correspondence. They, too, have been deaf to the voice of justice and consanguinity. We must, therefore, acquiesce in the necessity which denounces our separation, and hold them, as we hold the rest of mankind, enemies in war, in peace friends.

We, therefore, the representatives of the United States of America, in general congress assembled, appealing to the Supreme Judge of the world for the rectitude of our intentions, do, in the name and by the authority of the good people of these colonies, solemnly publish and declare, that these united colonies are, and of right ought to be, free and independent states; that they are absolved from all allegiance to the British crown, and that all political connection between them and the state of Great Britain is, and ought to be, totally dissolved; and that, as free and independent states, they have full power to levy war, conclude peace, contract alliances, establish commerce, and do all other acts and things which independent states may of right do. And for the support of this declaration, with a firm reliance on the protection of Divine Providence, we mutually pledge to each other our lives, our fortunes and our sacred honor.

ARTICLE I.

SECTION 1 All legislative powers herein granted shall be vested in a congress of the United States, which shall consist of a senate and house of representatives.

SEC. 2. (1)* The house of representatives shall be composed of members chosen every second year by the people of the several states; and the electors in each state shall have the qualifications requisite for electors of the most numerous branch of the state legislature.

(2) No person shall be a representative who shall not have attained to the age of twenty-five years, and been seven years a citizen of the United States, and who shall not, when elected, be an inhabitant of that state in which he shall be chosen.

(3) [Representatives and direct taxes shall be apportioned among the several states which may be included within this union according to their respective numbers, which shall be determined by adding to the whole number of free persons, including those bound to service for a term of years, and excluding Indians not taxed, three-fifths of all other persons.]** The actual enumeration shall be made within three years after the first meeting of the congress of the United States, and within every subsequent term of ten years, in such manner as they shall by law direct. The number of representatives shall not exceed one for every thirty thousand, but each state shall have at least one representative, and, until such enumeration shall be made, the state of New Hampshire shall be entitled to choose three, Massachusetts eight, Rhode Island and Providence Plantations one, Connecticut five, New York six, New Jersey four, Pennsylvania eight, Delaware one, Maryland six, Virginia ten, North Carolina five, South Carolina five, and Georgia three.

(4) When vacancies happen in the representation from any state, the executive authority thereof shall issue writs of election, to fill such vacancies.

(5) The house of representatives shall choose their speaker and other officers and shall have the sole power of impeachment.

SEC. 3. (1) The senate of the United States shall be composed of two senators from each state, chosen by the legislature thereof for six years; and each senator shall have one vote.

(2) Immediately after they shall be assembled in consequence of the first election, they shall be divided as equally as may be into three classes. The seats of the senators of the first class shall be vacated at the expiration of the second year, of the second class at the expiration of the fourth year, and

**The foregoing clause included in brackets is amended by SEC. 2 of the 14th amendment, post.

of the third class at the expiration of the sixth year, so that one-third may be chosen every second year; and if vacancies happen, by resignation or otherwise, during the recess of the legislature of any state the executive thereof may make temporary appointments until the next meeting of the legislature, which shall then fill such vacancies.

(3) No person shall be a senator who shall not have attained to the age of thirty years, and been nine years a citizen of the United States, and who shall not, when elected, be an inhabitant of that state for which he shall be chosen.

(4) The vice-president of the United States shall be president of the senate, but shall have no vote, unless they be equally divided.

(5) The senate shall choose their other officers, and also a president pro tempore, in the absence of the vice-president, or when he shall exercise the office of president of the United States.

(6) The senate shall have the sole power to try all impeachments. When sitting for that purpose they shall be on oath or affirmation. When the president of the United States is tried, the chief justice shall preside; and no person shall be convicted without the concurrence of two-thirds of the members present.

(7) Judgment in cases of impeachment shall not extend further than to removal from office, and disqualification to hold and enjoy any office of honor, trust or profit under the United States; but the party convicted shall nevertheless be liable and subject to indictment, trial, judgment and punishment, according to law.

SEC. 4. (1) The times, places and manner of holding elections for senators and representatives shall be prescribed in each state by the legislature thereof, but the congress may at any time by law make or alter such regulations, except as to the places of choosing senators.

(2) The congress shall assemble at least once in every year, and such meeting shall be on the first Monday in December, unless they shall by law appoint a different day.

SEC. 5. (1) Each house shall be the judge of the elections, returns and qualifications of its own members, and a majority of each shall constitute a quorum to do business; but a smaller number may adjourn from day to day, and may be authorized to compel the attendance of absent members, in such manner and under such penalties as each house may provide.

(2) Each house may determine the rules of its proceedings, punish its members for disorderly behavior, and, with the concurrence of two-thirds, expel a member.

(3) Each house shall keep a journal of its proceedings, and from time to time publish the same, excepting such parts as may in their judgment require secrecy; and the yeas and nays of the members of either house on any question shall, at the desire of one-fifth of those present, be entered on the journal.

(4) Neither house, during the session of congress, shall, without the consent of the other, adjourn for more than three days, nor to any other place than that in which the two houses shall be sitting.

SEC. 6. (1) The senators and representatives shall receive a compensation for their services, to be ascertained by law, and paid out of the treasury of the United States. They shall in all cases, except treason, felony and breach of the peace, be privileged from arrest during their attendance at the sessions of their respective houses, and in going to and returning from the same; and for any speech or debate in either house they shall not be questioned in any other place.

(2) No senator or representative shall, during the time for which he was elected, be appointed to any civil office under the authority of the United States, which shall have been created, or the emoluments whereof shall have been increased, during such time; and no person holding any office under the United States shall be a member of either house during his continuance in office.

SEC. 7. (1) All bills for raising revenue shall originate in the house of representatives, but the senate may propose or concur with amendments, as on other bills.

(2) Every bill which shall have passed the house of representatives and the senate, shall, before it becomes a law, be presented to the president of the United States; if he approve he shall sign it, but if not he shall return it, with his objections, to that house in which it shall have originated, who shall enter the objections at large on their journal, and proceed to reconsider it. If after such reconsideration two-thirds of that house shall agree to pass the bill, it shall be sent, together with the objections, to the other house, by which it shall likewise be reconsidered, and, if approved by two-thirds of that house, it shall become a law. But in all such cases the votes of both houses shall be determined by yeas and nays, and the names of the persons voting for and against the bill shall be entered on the journal of each house, respectively. If any bill shall not be returned by the president within ten days (Sundays excepted) after it shall have been presented to him, the same shall be a law, in like manner as if he had signed it, unless the congress by their adjournment prevent its return, in which case it shall not be a law.

(3) Every order, resolution or vote to which the concurrence of the senate and house of representatives may be necessary (except on a question of adjournment) shall be presented to the president of the United States, and, before the same shall take effect, shall be approved by him, or, being disapproved by him, shall be re-passed by two-thirds of the senate and house of representatives, according to the rules and limitations prescribed in the case of a bill.

SEC. 8. The congress shall have power:—

(1) To lay and collect taxes, duties, imposts and excises, to pay the debts and provide for the common defense and general welfare of the United States; but all duties, imposts and excises shall be uniform throughout the United States.

(2) To borrow money on the credit of the United States;

(9) To constitute tribunals inferior to the supreme court;

(10) To define and punish piracies and felonies committed on the high seas, and offenses against the law of nations;

(11) To declare war, grant letters of marque and reprisal, and make rules concerning captures on land and water;

(12) To raise and support armies; but no appropriation of money to that use shall be for a longer term than two years;

(13) To provide and maintain a navy;

(14) To make rules for the government and regulation of the land and naval forces;

(15) To provide for calling forth the militia to execute the laws of the union, suppress insurrections and repel invasions;

(16) To provide for organizing, arming and disciplining the militia, and for governing such part of them as may be employed in the service of the United States; reserving to the states, respectively, the appointment of the officers and the authority of training the militia according to the discipline prescribed by congress;

(17) To exercise exclusive legislation, in all cases whatsoever, over such district (not exceeding ten miles square) as may, by cession of particular states and the acceptance of congress, become the seat of the government of the United States, and to exercise like authority over all places purchased by the consent

of the legislature of the state in which the same shall be, for the erection of forts, magazines, arsenals, dock yards and other needful buildings; and—

(18) To make all laws which shall be necessary and proper for carrying into execution the foregoing powers, and all other powers vested by this constitution in the government of the United States, or in any department or officer thereof.

SEC. 9. (1) The migration or importation of such persons as any of the states now existing shall think proper to admit shall not be prohibited by the congress prior to the year one thousand eight hundred and eight, but a tax or duty may be imposed on such importation, not exceeding ten dollars for each person.

(2) The privilege of the writ of habeas corpus shall not be suspended, unless when, in cases of rebellion or invasion, the public safety may require it.

(3) No bill of attainder or ex post facto law shall be passed.

(4) No capitation or other direct tax shall be laid, unless in proportion to the census or enumeration hereinbefore directed to be taken.

(5) No tax or duty shall be laid on articles exported from any state.

(6) No preference shall be given by any regulation of commerce or revenue to the ports of one state over those of another; nor shall vessels bound to or from one state be obliged to enter, clear or pay duties in another.

(7) No money shall be drawn from the treasury but in consequence of appropriations made by law, and a regular statement and account of the receipts and expenditures of all public money shall be published from time to time.

(8) No title of nobility shall be granted by the United States; and no person holding any office of profit or trust under them shall, without the consent of the congress, accept of any present, emolument, office or title, of any kind whatever, from any king, prince or foreign state.

SEC. 10. (1) No state shall enter into any treaty, alliance or confederation; grant letters of marque or reprisal; coin money; emit bills of credit; make anything but gold and silver coin a tender in payment of debts; pass any bill of attainder, ex post facto law, or law impairing the obligation of contracts, or grant any title of nobility.

(2) No state shall, without the consent of congress, lay any imposts or duties on imports or exports, except what may be absolutely necessary for executing its inspection laws; and the net produce of all duties and imposts, laid by any state on imports or exports, shall be for the use of the treasury of the United States; and all such laws shall be subject to the revision and control of the congress.

(3) No state shall, without the consent of congress, lay any duty of tonnage, keep troops or ships of war in time of peace, enter into any agreement or compact with another state, or with a foreign power, or engage in war, unless actually invaded, or in such imminent danger as will not admit of delay.

ARTICLE II.

SECTION 1. (1) The executive power shall be vested in a president of the United States of America. He shall hold his office during the term of four years, and, together with the vice-president chosen for the same term, be elected as follows:

(2) Each state shall appoint, in such manner as the legislature thereof may direct, a number of electors, equal to the whole number of senators and representatives to which the state may be entitled in the congress; but no senator or representative, or person holding an office of trust or profit under the United States, shall be appointed an elector.

The electors shall meet in their respective states and vote by ballot for two persons, of whom one at least shall not be an inhabitant of the same state with themselves. And they shall make a list of all the persons voted for, and of the number of votes for each; which list they shall sign and certify, and transmit sealed to the seat of the government of the United States, directed to the president of the senate. The president of the senate shall, in the presence of the senate and house of representatives, open all the certificates, and the votes shall then be counted. The person having the greatest number of votes shall be the

president, if such number be a majority of the whole number of electors appointed; and if there be more than one who have such majority, and have an equal number of votes, then the house of representatives shall immediately choose, by ballot, one of them for president; and if no person have a majority, then, from the five highest on the list, the said house shall, in like manner, choose the president. But in choosing the president the votes shall be taken by states, the representation for each state having one vote; a quorum for this purpose shall consist of a member or members from two-thirds of the states, and a majority of all the states shall be necessary to a choice. In every case, after the choice of the president, the person having the greatest number of votes of the electors shall be the vice-president. But if there should remain two or more who have equal votes, the senate shall choose from them, by ballot, the vice-president.

[The foregoing clause has been superseded and annulled by the twelfth amendment, *post.*]

(8) The congress may determine the time of choosing the electors, and the day on which they shall give their votes; which day shall be the same throughout the United States.

(4) No person except a natural born citizen, or a citizen of the United States at the time of the adoption of this constitution, shall be eligible to the office of president; neither shall any person be eligible to that office who shall not have attained to the age of thirty-five years, and been fourteen years a resident within the United States.

(5) In case of the removal of the president from office, or of his death, resignation, or inability to discharge the powers and duties of the said office, the same shall devolve on the vice-president, and the congress may by law provide for the case of removal, death, resignation or inability, both of the president and vice-president, declaring what officer shall then act as president, and such officer shall act accordingly until the disability be removed or a president shall be elected.

(6) The president shall, at stated times, receive for his services a compensation, which shall neither be increased nor diminished during the period for which he shall have been elected, and he shall not receive within that period any other emolument from the United States or any of them.

(7) Before he enter on the execution of his office, he shall take the following oath or affirmation;

"I do solemnly swear (or affirm) that I will faithfully execute the office of president of the United States, and will, to the best of my ability, preserve, protect, and defend the constitution of the United States."

SEC. 2. (1) The president shall be commander-in-chief of the army and navy of the United States, and of the militia of the several states when called into the actual service of the United States; he may require the opinion in writing of the principal officer in each of the executive departments, upon any subject relating to the duties of their respective offices; and he shall have power to grant reprieves and pardons for offenses against the United States, except in cases of impeachment.

(2) He shall have power, by and with the advice and consent of the senate, to make treaties, provided two-thirds of the senators present concur; and he shall nominate, and by and with the advice and consent of the senate shall appoint, ambassadors, other public ministers and consuls, judges of the supreme court, and all other officers of the United States, whose appointments are not herein otherwise provided for and which shall be established by law. But the congress, may by law, vest the appointment of such inferior officers as they think proper in the president alone, in the courts of law, or in the heads of departments,

(3) The president shall have power to fill up all vacancies that may happen during the recess of the senate, by granting commissions, which shall expire at the end of their next session.

SEC. 3. He shall from time to time give to the congress information of the state of the Union, and recommend to their consideration such measures as he shall judge necessary and expedient. He may, on extraordinary occasions, convene both houses, or either of them; and, in case of disagreement between

them with respect to the time of adjournment, he may adjourn them to such time as he shall think proper. He shall receive ambassadors and other public ministers. He shall take care that the laws be faithfully executed, and shall commission all the officers of the United States.

SEC. 4. The president, vice-president, and all civil officers of the United States, shall be removed from office on impeachment for, and conviction of treason, bribery, or other high crimes and misdemeanors.

ARTICLE III.

SECTION 1. The judicial power of the United States shall be vested in one supreme court, and in such inferior courts as the congress may, from time to time, ordain and establish. The judges, both of the supreme and inferior courts, shall hold their offices during good behavior; and shall, at stated times, receive for their services a compensation, which shall not be diminished during their continuance in office.

SEC. 2. (1) The judicial power shall extend to all cases in law and equity arising under this constitution, the laws of the United States, and treaties made, or which shall be made, under their authority; to all cases affecting ambassadors, other public ministers and consuls; to all cases of admiralty and maritime jurisdiction; to controversies to which the United States shall be a party; to controversies between two or more states, between a state and citizens of another state, between citizens of different states, between citizens of the same state claiming lands under grants of different states, and between a state, or the citizens thereof, and foreign states, citizens or subjects.

(2) In all cases affecting ambassadors, other public ministers and consuls, and those in which a state shall be a party, the supreme court shall have original jurisdiction. In all the other cases, before mentioned, the supreme court shall have appellate jurisdiction, both as to law and fact, with such exceptions and under such regulations as the congress shall make.

(3) The trial of all crimes, except in cases of impeachment, shall be by jury; and such trial shall be held in the state where the said crimes shall have been committed; but when not committed within any state, the trial shall be at such place or places as the congress may by law have directed.

SEC. 3. (1) Treason against the United States shall consist only in levying war against them, or in adhering to their enemies, giving them aid and comfort. No person shall be convicted of treason unless on the testimony of two witnesses to the same overt act, or on confession in open court.

(2) The congress shall have power to declare the punishment of treason, but no attainder of treason shall work corruption of blood, or forfeiture, except during the life of the person attainted.

ARTICLE IV.

SECTION 1. Full faith and credit shall be given in each state to the public acts, records and judicial proceedings of every other state. And the congress may, by general laws, prescribe the manner in which such acts, records and proceedings shall be proved, and the effect thereof.

SEC. 2. (1) The citizens of each state shall be entitled to all privileges and immunities of citizens in the several states.

(2) A person charged in any state with treason, felony or other crime, who shall flee from justice and be found in another state, shall, on demand of the executive authority of the state from which he fled, be delivered up, to be removed to the state having jurisdiction of the crime.

(3) No person held to service or labor in one state, under the laws thereof, escaping into another, shall, in consequence of any law or regulation therein, be discharged from such service or labor, but shall be delivered up on claim of the party to whom such service or labor may be due.

SEC. 3. (1) New states may be admitted by the congress into this Union; but no new state shall be formed or erected within the jurisdiction of any other state, nor any state be formed by the junction of two or more states, or parts of states, without the consent of the legislatures of the states concerned as well as of the congress.

(2) The congress shall have power to dispose of, and make all needful rules and regulations respecting the territory or other property belonging to the United States; and nothing in this constitution shall be so construed as to pre-
 judge any claims of the United States or of any particular state.

SEC. 4. The United States shall guarantee to every state in this Union a republican form of government, and shall protect each of them against invasion; and, on application of the legislature, or of the executive (when the legislature cannot be convened), against domestic violence.

ARTICLE V.

The congress, whenever two-thirds of both houses shall deem it necessary, shall propose amendments to this constitution, or, on the application of the legislatures of two-thirds of the several states, shall call a convention for proposing amendments, which, in either case, shall be valid to all intents and purposes, as part of this constitution, when ratified by the legislatures of three-fourths of the several states, or by conventions in three-fourths thereof, as the one or the other mode of ratification may be proposed by the congress; provided that no amendment which may be made prior to the year one thousand eight hundred and eight shall in any manner affect the first and fourth clauses in the ninth section of the first article; and that no state, without its consent, shall be deprived of its equal suffrage in the senate.

ARTICLE VI.

(1) All debts contracted and engagements entered into before the adoption of this constitution shall be as valid against the United States under this constitution as under the confederation.

(2) This constitution, and the laws of the United States which shall be made in pursuance thereof, and all treaties made, or which shall be made, under the authority of the United States, shall be the supreme law of the land; and the judges in every state shall be bound thereby, anything in the constitution or laws of any state to the contrary notwithstanding.

(3) The senators and representatives before mentioned and the members of the several state legislatures, and all executive and judicial officers, both of the United States and of the several states, shall be bound by oath or affirmation to support this constitution; but no religious test shall ever be required as a qualification to any office or public trust under the United States.

ARTICLE VII.

The ratification of the conventions of nine states shall be sufficient for the establishment of this constitution between the states so ratifying the same.

Done in convention, by the unanimous consent of the states present, the seventeenth day of September, in the year of our Lord one thousand seven hundred and eighty-seven, and of the independence of the United States of America the twelfth. In witness whereof, we have hereunto subscribed our names.

In all criminal prosecutions, the accused shall enjoy the right to a speedy and public trial, by an impartial jury of the state and district wherein the crime shall have been committed, which district shall have been previously ascertained by law, and to be informed of the nature and cause of the accusation; to be confronted with the witnesses against him; to have compulsory process for obtaining witnesses in his favor; and to have the assistance of counsel for his defense.

ARTICLE VII.

In suits at common law where the value in controversy shall exceed twenty dollars, the right of trial by jury shall be preserved; and no fact, tried by a jury, shall be otherwise re-examined in any court of the United States, than according to the rules of the common law.

ARTICLE VIII.

ARTICLE IX.

ARTICLE X.

ARTICLE XI.

The judicial power of the United States shall not be construed to extend to any suit in law or equity, commenced or prosecuted against one of the United States by citizens of another state, or by citizens or subjects of any foreign state.

ARTICLE XII.

SECTION 1. The electors shall meet in their respective states, and vote by ballot for president and vice-president, one of whom, at least, shall not be an inhabitant of the same state with themselves; they shall name in their ballots the person voted for as president, and in distinct ballots the person voted for as vice-president; and they shall make distinct lists of all persons voted for as president, and of all persons voted for as vice-president, and of the number of votes for each, which lists they shall sign and certify, and transmit sealed to the seat of the government of the United States, directed to the president of the senate; the president of the senate shall, in the presence of the senate and house of representatives, open all the certificates, and the votes shall then be counted; the person having the greatest number of votes for president shall be the president, if such number be a majority of the whole number of electors appointed; and if no person have such majority, then from the persons having the highest numbers, not exceeding three, on the list of those voted for as president, the house of representatives shall choose immediately, by ballot, the president. SEC. 2. Congress shall have power to enforce this article by appropriate legislation.

ARTICLE XIV.

SECTION 1. All persons born or naturalized in the United States, and subject to the jurisdiction thereof, are citizens of the United States, and of the state wherein they reside. No state shall make or enforce any law which shall abridge the privileges or immunities of citizens of the United States, nor shall any state deprive any person of life, liberty, or property, without due process of law, nor deny to any person within its jurisdiction the equal protection of the laws.

SEC. 2. Representatives shall be apportioned among the several states according to their respective numbers, counting the whole number of persons in each state, excluding Indians not taxed. But when the right to vote at any election for the choice of electors for president and vice-president of the United States, representatives in congress, the executive and judicial officers of a state, or the members of the legislature thereof, is denied to any of the male inhabitants of such state, being twenty-one years of age, and citizens of the United States, or in any way abridged, except for participation in rebellion or

But congress may, by a vote of two-thirds of each house, remove such disability.

SEC. 4. The validity of the public debt of the United States, authorized by law, including debts incurred for payment of pensions and bounties for services in suppressing insurrection or rebellion, shall not be questioned. But neither the United States nor any state shall assume or pay any debt or obligation incurred in aid of insurrection or rebellion against the United States, or any claim for loss or emancipation of any slave; but all such debts, obligations and claims shall be held illegal and void.

SEC. 5. The congress shall have power to enforce, by appropriate legislation, the provisions of this article.

ARTICLE XV.

The acting president must, upon taking office, convene congress, if not at the time in session, in extraordinary session, giving twenty days' notice. This act applies only to such cabinet officers as shall have been appointed by the advice and consent of the senate, and are eligible under the constitution to the presidency.

MAGNA CHARTA.

THE GREAT CHARTER OF ENGLISH LIBERTY GRANTED BY KING
JOHN AT RUNNYMEDE, JUNE 15, 1215.

John, by the grace of God, King of England, Lord of Ireland, duke of Normandy and Aquitaine, count of Anjou; to the archbishops, bishops, abbots, earls, barons, justices, foresters, sheriffs, prevosts, serving men, and to all his bailiffs and faithful subjects, greeting. Know that we, by the will of God and for the safety of our soul, and of the souls of all our predecessors, and our heirs, to the honor of God and for the exalting of the holy church, and the bettering of our realm; by the counsel of our venerable fathers Stephen, archbishop of Canterbury, primate of all England and cardinal of the holy Roman church; of Henry, archbishop of Dublin; of the bishops William of London, Peter of Winchester, Jocelin of Bath and Glastonbury, Hugo of Lincoln, Walter of Worcester, William of Coventry and Benedict of Rochester; of master Pandulf, sub-deacon of the household of the lord pope; of brother Aymeric, master of the knights of the Temple in England; and of the noble men, William Marshall, earl of Pembroke; William, earl of Salisbury; William, earl of Warren; William, earl of Arundel; Alan de Galway, constable of Scotland; Warin, son of Gerold; Peter, son of Herbert; Hubert de Burgh, seneschal of Poitiers; Hugo de Neville, Matthew, son of Herbert; Thomas Basset, Alan Basset, Philip d'Aubigny, Robert de Roppelay, John Marshall, John, son of Hugo, and others of our faithful subjects:

1. First of all have granted to God, and, for us and for our heirs forever, have confirmed, by this our present charter, that the English church shall be free and shall have its rights intact and its liberties unfringed upon. And thus we will that it be observed. As is apparent from the fact that we, spontaneously and of our own free will, before discord broke out between ourselves and our barons, did grant and by our charter confirm—and did cause the lord pope Innocent III to confirm—freedom of elections, which is considered most important and most necessary to the church of England. Which charter both we ourselves shall observe, and we will that it be observed with good faith by our heirs forever. We have also granted to all free men of our realm, on the part of ourselves and our heirs forever, all the subjoined liberties, to have and to hold, to them and to their heirs, from us and from our heirs:

2. If any one of our earls or barons, or of others holding from us in chief through military service, shall die; and if, at the time of his death, his heir be of full age and owe a relief: he shall have his inheritance by paying the old relief;—the heir, namely, or the heirs of an earl, by paying one hundred pounds for the whole barony of an earl; the heir or heirs of a baron, by paying one hundred pounds for the whole barony; the heir or heirs of a knight, by paying one hundred shillings at most for a whole knight's fee; and he who shall owe less shall give less, according to the ancient custom of fees.

3. But if the heir of any of the above persons shall be under age and in wardship,—when he comes of age he shall have his inheritance without relief and without fine.

4. The administrator of the land of such heir who shall be under age shall take none but reasonable issues from the land of the heir, and reasonable customs and services; and this without destruction and waste of men and goods. And if we shall have committed the custody of any such land to the sheriff or to any other man who ought to be responsible to us for the issues of it, and he cause destruction or waste to what is in his charge: we will fine him, and the land shall be handed over to two lawful and discreet men of that fee who shall answer to us, or to him to whom we shall have referred them, regarding those issues. And if we shall have given or sold to any one the custody of any such land; and he shall have caused destruction or waste to it, he shall lose that cus-

today, and it shall be given to two lawful and discreet men of that fee, who likewise shall answer to us, as has been explained.

5. The administrator, moreover, so long as he may have the custody of the land, shall keep in order, from the issues of that land, the houses, parks, warrens, lakes, mills and other things pertaining to it. And he shall restore to the heir when he comes to full age, his whole land stocked with plows and wainnages, according as the time of the wainnage requires and the issues of the land will reasonably permit.

6. Heirs may marry without disparagement; so nevertheless, that, before the marriage is contracted, it shall be announced to the relations by blood by the heir himself.

7. A widow, after the death of her husband, shall straightway, and without difficulty, have her marriage portion and her inheritance, nor shall she give any thing in return for her dowry, her marriage portion, or the inheritance which belonged to her, and which she and her husband held on the day of the death of that husband. And she may remain in the house of her husband, after his death, for forty days; within which her dowry shall be paid over to her.

8. No widow shall be forced to marry when she prefers to live without a husband; so, however, that she gives security not to marry without our consent if she hold from us, or the consent of the lord from whom she holds, if she hold from another.

9. Neither we nor our bailiffs shall seize any revenue for any debt, so long as the chattels of the debtor suffice to pay the debt; nor shall the sponsors of that debtor be distrained so long as that chief debtor has enough to pay the debt. But if the chief debtor fail in paying the debt, not having the wherewithal to pay it, the sponsors shall answer for the debt. And, if they shall wish, they may have the lands and revenues of the debtor until satisfaction shall have been given them for the debt previously paid for him; unless the chief debtor shall show that he is quit in that respect towards those same sponsors.

10. If any one shall have taken any sum, great or small, as a loan from the Jews, and shall die before that debt is paid,—that debt shall not bear interest so long as the heir, from whoever he may hold, shall be under age. And if the debt fall into our hands, we shall take nothing save the chattel contained in the deed.

11. And if any one dies owing a debt to the Jews, his wife shall have her dowry, and shall restore nothing of that debt. But if there shall remain children of that dead man, and they shall be under age, the necessaries shall be provided for them according to the nature of the dead man's holding; and, from the residue, the debt shall be paid, saving the service due to the lords. In like manner shall be done concerning debts that are due to others besides the Jews.

12. No scutage or aid shall be imposed in our realm unless by the common counsel of our realm; except for redeeming our body, and knighting our eldest son, and marrying once of our eldest daughter. And for these purposes there shall only be given a reasonable aid. In like manner shall be done concerning the aids of the city of London.

13. And the city of London shall have all its old liberties and free customs as well by land as by water. Moreover we will and grant that all other cities and burroughs, and towns and ports, shall have all their liberties and free customs.

14. And, in order to have the common counsel of the realm in the matter of assessing an aid otherwise in the aforesaid cases, or of assessing a scutage,—we shall cause, under seal through our letters, the archbishops, bishops, abbots, earls, and greater barons to be summoned for a fixed day—for a term, namely, at least forty days distant,—and for a fixed place. And, moreover, we shall cause to be summoned in general, through our sheriffs and bailiffs, all those who hold of us in chief. And in all those letters of summons, we shall express the cause of the summons. And when a summons has thus been made, the business shall be proceeded with on the day appointed according to the counsel of those who shall be present, even though not all shall come who were summoned.

16. We will not allow any one henceforth to take an aid from his freemen save for the redemption of his body, and the knighting of his eldest son, the marrying, once, of his eldest daughter; and, for these purposes, there shall only be given a reasonable aid.

18. No one shall be forced to do more service for a knight's fee, or for another free holding, than is due from it.

17. Common pleas shall not follow our court, but shall be held in a certain fixed place.

18. Assizes of novel disseisin, of mort d'ancestor, and of darrein presentment shall not be held save in their own counties, and in this way: we, or our chief justice, if we shall be absent from the kingdom, shall send two justices through each county four times a year; they, with four knights from each county, chosen by the county, shall hold the aforesaid assizes in the county, and on the day and at the place of the county court.

19. And if on the day of the county court the aforesaid assizes can not be held, a sufficient number of knights and free tenants, from those who were present at the county court on that day, shall remain, so that through them the judgments may be suitably given, according as the matter may have been great or small.

20. A freeman shall only be amerced for a small offence according to the measure of that offence. And for a great offence he shall be amerced according to the magnitude of the offence, saving his contentment; and a merchant, in the same way, saving his merchandize. And a villein, in the same way, if he fall under our mercy, shall be amerced, saving his wainnage. And none of the aforesaid fines shall be imposed save upon oath of upright men from the neighborhood.

21. Earls and barons shall not be amerced save through their peers, and only according to the measure of the offence.

22. No clerk shall be amerced for his lay tenement except according to the manner of the other persons aforesaid; and not according to the amount of his ecclesiastical benefice.

23. Neither a town or a man shall be forced to make bridges over the rivers, with the exception of those who from of old and of right ought to do it.

24. No sheriff, constable, coroners, or other bailiffs of ours shall hold the pleas of our crown.

25. All counties, hundreds, wapentakes, and trithings—our demesne manors being excepted—shall continue according to the old farms, without any increase at all.

26. If any one holding from us a lay fee shall die, and our sheriff or bailiff can show our letters patent containing our summons for the debt which the dead man owed to us,—our sheriff or bailiff may be allowed to attach and enroll the chattels of the dead man to the value of that debt, through view of lawful men; in such way, however, that nothing shall be removed thence until the debt is paid which was plainly owed to us. And the residue shall be left to the executors that they may carry out the will of the dead man. And if nothing is owed to us by him, all the chattels shall go to the use prescribed by the deceased, saving their reasonable portions to his wife and children.

27. If any freeman shall have died intestate his chattels shall be distributed through the hands of his near relatives and friends, by view of the church; saving to any one the debts which the dead man owed him.

28. No constable or other bailiff of ours shall take the corn or other chattels of any one except he straightway give money for them, or can be allowed a respite in that regard by the will of the seller.

29. No constable shall force any knight to pay money for castleward if he be willing to perform that ward in person, or—he for a reasonable cause not being able to perform it himself—through another proper man. And if we shall have led or sent him on a military expedition, he shall be quit of ward according to the amount of time during which, through us, he shall have been in military service.

30. No sheriff or bailiff of ours, nor any one else, shall take the horses or carts of any freeman for transport, unless by the will of that freeman.

31. Neither we nor our bailiffs shall take another's wood for castles or for other private uses, unless by the will of him to whom the wood belongs.

32. We shall not hold the lands of those convicted of felony longer than a year and a day; and then the lands shall be restored to the lords of the fiefs.

33. Henceforth all the weirs in the Thames and Medway, and throughout all England, save on the sea coast, shall be done away with entirely.

34. Henceforth the writ which is called *Præcipe* shall not be served on any one for any holding so as to cause a free man to lose his court.

35. There shall be but one measure of wine throughout the whole realm, and one measure of ale and one measure of corn—namely, the London quart;—and one width of dyed and russet and hauberg cloths—namely, two ells below the selvage. And with weights, moreover, it shall be as with measures.

36. Henceforth nothing shall be given or taken for a writ of inquest in a matter concerning life or limb; but it shall be conceded gratis, and shall not be denied.

37. If any one hold of us in fee-farm, or in socage, or in burkage, and hold land of another by military service, we shall not, by reason of that fee-farm, or socage or burkage, have the wardship of his heir or of his land which is held in fee from another. Nor shall we have the wardship of that fee-farm or socage, or burkage unless that fee-farm owe military service. We shall not, by reason of some petit serjeanty which someone holds of us through the service of giving us knives or arrows or the like, have the wardship of his heir or of the land which he holds of another by military service.

38. No bailiff, on his own simple assertion, shall henceforth put any one to his law, without producing faithful witnesses in evidence.

39. No freeman shall be taken, or imprisoned, or dis-seized, or outlawed, or exiled, or in any way harmed—nor will we go upon or send upon him, save by the lawful judgment of his peers or by the law of the land.

40. To none will we sell, to none deny or delay, right or justice.

41. All merchants may safely and securely go out of England, and come into England, and delay and pass through England, as well by land as by water, for the purpose of buying and selling, free from all evil taxes, subject to the ancient and right customs—save in time of war, and if they are of the land at war against us. And if such be found in our land at the beginning of the war, they shall be held, without harm to their bodies and goods, until it shall be known to us or our chief justice how the merchants of our land are to be treated who shall, at that time, be found in the land at war against us. And if ours shall be safe there, the others shall be safe in our land.

42. Henceforth any person, saving fealty to us, may go out of our realm and return to it, safely and securely by land and by water, except perhaps for a brief period in time of war, for the common good of the realm. But prisoners and outlaws are expected according to the law of the realm; also people of a land at war against us, and the merchants, with regard to whom shall be done as we have said.

43. If any one hold from any escheat—as from the honour of Wallingford, Nottingham, Boloin, Lancaster, or the other escheats which are in our hands and are baronies—and shall die, his heir shall not give another relief, nor shall he perform for us other service than he would perform for a baron if that barony were in the hand of a baron; and we shall hold it in the same way in which the baron has held it.

44. Persons dwelling without the forest shall not henceforth come before the forest justices, through common summonses, unless they are impleaded or are the sponsors of some person or persons attached for matters concerning the forest.

45. We will not make men justices, constables, sheriffs, or bailiffs, unless they are such as know the law of the realm, and are minded to observe it rightly.

46. All barons who have founded abbeys for which they have charters of the kings of England, or ancient right of tenure, shall have, as they ought to have, their custody when vacant.

47. All forests constituted as such in our time shall straightway be annulled; and the same shall be done for river banks made into places of defence by us in our time.

48. All evil customs concerning forests and warrens, and concerning foresters and warreners, sheriffs and their servants, river banks and their guardians, shall straightway be inquired into in each county, through twelve sworn knights from that county, and shall be eradicated by them, entirely, so that they shall never be renewed, within forty days after the inquest has been made; in such manner that we shall first know about them, or our justice if we be not in England.

49. We shall straightway return all hostages and charters which were delivered to us by Englishmen as a surety for peace or faithful service.

50. We shall entirely remove from their balliwicks the relatives of Gerard de Athyes, so that they shall henceforth have no balliwick in England: Engelard de Cygnes, Andrew Peter and Gyon de Chanceles, Gyon de Cygnes, Geoffrey de Martin and his brothers, Phillip Mark and his brothers, and Geoffrey his nephew, and the whole following of them.

51. And straightway after peace is restored we shall remove from the realm all the foreign soldiers, cross-bowmen, servants, hirelings, who may have come with horses and arms to the harm of the realm.

52. If any one shall have been disseized by us, or removed, without a legal sentence of his peers, from his lands, castles, liberties or lawful right, we shall straightway restore them to him. And if a dispute shall arise concerning this matter it shall be settled according to the judgment of the twenty-five barons who are mentioned below as sureties for the peace. But with regard to all those things of which any one was, by king Henry our father or king Richard our brother, disseized or dispossessed without legal judgment of his peers, which we have in our hand or which others hold, and for which we ought to give a guarantee: We shall have respite until the common term for crusaders. Except with regard to those concerning which a plea was moved, or an inquest made by our order, before we took the cross. But when we return from our pilgrimage, or if, by chance, we desist from our pilgrimage, we shall straightway then show full justice regarding them.

53. We shall have the same respite, moreover, and in the same manner, in the matter of showing justice with regard to forests to be annulled and forests to remain, which Henry our father or Richard our brother constituted; and in the matter of wardships of lands which belong to the fee of another—wardships of which kind we have hitherto enjoyed by reason of the fee which some one held from us in military service;—and in the matter of abbeys founded in the fee of another than ourselves—in which the lord of the fee may say that he has jurisdiction. And when we return, or if we desist from our pilgrimage, we shall straightway exhibit full justice to those complaining with regard to these matters.

54. No one shall be taken or imprisoned on account of the appeal of a woman concerning the death of another than her husband.

55. All fines imposed by us unjustly and contrary to the law of the land, and all amerancements made unjustly and contrary to the law of the land, shall be altogether remitted, or it shall be done with regard to them according to the judgment of the twenty-five barons mentioned below as sureties for the peace, or according to the judgment of the majority of them together with the aforesaid Stephen archbishop of Canterbury, if he can be present, and with others whom he may wish to associate with himself for this purpose. And if he cannot be present, the affair shall nevertheless proceed without him; in such way that, if one or more of the said twenty-five barons shall be concerned in a similar complaint, they shall be removed as to this particular decision, and, in their place, for this purpose alone, others shall be substituted who shall be chosen and sworn by the remainder of those twenty-five.

56. If we have disseized or dispossessed Welshmen of their lands or liberties or other things without legal judgment of their peers, in England or in Wales,—they shall straightway be restored to them. And if a dispute shall arise concerning this, then action shall be taken upon it in the March through judgment of their peers—concerning English holdings according to the law of England concerning Welsh holdings according to the law of Wales, concerning the holdings in the March according to the law of the March. The Welsh shall do likewise with regard to us and our subjects.

57. But with regard to all those things of which any of the Welsh was, by king Henry our father or king Richard our brother, disseized or dispossessed without legal judgment of his peers, which we have in our hand or which others hold, and for which we ought to give a guarantee; we shall have respite until the common term for crusaders. Except with regard to those concerning which a plea was moved, or an inquest made by our order, before we took the cross. But when we return from our pilgrimage, or if, by chance, we desist from our pilgrimage, we shall straightway then show full justice regarding them, according to the laws of Wales and the aforesaid districts.

58. We shall straightway return the son of Llewelin and all the Welsh hostages, and the charters delivered to us as security for the peace.

59. We shall act towards Alexander king of the Scots regarding the restoration of his sisters, and his hostages, and his liberties and his lawful right, as we shall act towards our other barons of England; unless it ought to be otherwise according to the charters which we hold from William, his father, the former king of the Scots. And this shall be done through judgment of his peers in our court.

60. Moreover all the subjects of our realm, clergy as well as laity, shall, as far as pertains to them, observe with regard to their vassals, all these aforesaid customs and liberties which we have decreed shall, as far as pertains to us, be observed in our realm with regard to our own.

61. Inasmuch as, for the sake of God, and for the bettering of our realm, and for the more ready healing of the discord which has arisen between us and our barons, we have made all these aforesaid concessions,—wishing them to enjoy forever the entire and firm stability, we make and grant to them the following security. that the barons, namely, may elect at their pleasure twenty-five barons from the realm who ought, with all their strength, to observe, maintain and cause to be observed, the peace and privileges which we have granted to them and confirmed by this our present charter. In such wise, namely, that if we, or our justice, or our bailiffs, or any one of our servants shall have transgressed against any one in any respect, or shall have broken some one of the articles of peace or security, and our transgression shall have been shown to four barons of the aforesaid twenty-five. those four barons shall come to us, or, if we are abroad, to our justice, showing to us our error; and they shall ask us to cause that error to be amended without delay. And if we do not amend that error, or, we being abroad, if our justice do not amend it within a term of forty days from the time when it was shown to us, or, we being abroad, to our justice: the aforesaid four barons shall refer the matter to the remainder of the twenty-five barons, and those twenty-five barons, with the whole land in common, shall distrain and oppress us in every way in their power,—namely, by taking our castles, lands and possessions and in every other way that they can, until amends shall have been made according to their judgment. Saving the persons of ourselves, our queen and our children. And when amends shall have been made they shall be in accord with us as they had been previously. And whoever of the land wishes to do so, shall swear that in carrying out all of the aforesaid measures he will obey the mandates of the aforesaid twenty-five barons, and that, with them, he will oppress us to the extent of his power. And, to anyone who wishes to do so, we publicly and freely give permission to swear; and we will never prevent any one from swearing. Moreover, all those in the land who shall be unwilling themselves and of their own accord to swear to the twenty-five barons as to distraining and oppressing us with them: such ones we shall make to swear by our mandate, as has been said. And if any one of the twenty-five barons shall die, or leave the country, or in any other way be prevented from carrying out the aforesaid measures,—the remainder of the aforesaid twenty-five barons shall choose another in his place, according to their judgment, who shall be sworn in the same way as the others. Moreover, in all things entrusted to those twenty-five barons to be carried out, if those twenty-five shall be present and chance to disagree among themselves with regard to some matter, or if some of them, having been summoned shall be unwilling or unable to be present; that which the majority of those present shall decide or decree shall be considered binding and valid,

just as if all the twenty-five had consented to it. And the aforesaid twenty-five shall swear that they will faithfully observe all the foregoing and will cause them to be observed to the extent of their power. And we shall obtain nothing from any one, either through ourselves or through another, by which any of these concessions and liberties may be revoked or diminished. And if any such thing shall have been obtained, it shall be vain and invalid, and we shall never make use of it, either through ourselves or through another.

62. And we have fully remitted to all, and pardoned, all the ill-will, anger and rancour which have arisen between us and our subjects, clergy and laity, from the time of the struggle. Moreover we have fully remitted to all, clergy and laity, and—as far as pertains to us—have pardoned fully all the transgressions committed, on the occasion of that same struggle, from Easter to the sixteenth year of our reign, until the re-establishment of peace. In witness of which, moreover, we have caused to be drawn up for them letters patent of lord Stephen, archbishop of Canterbury, lord Henry, archbishop of Dublin, and the aforesaid bishops and master Pandulf, regarding that surety and the aforesaid concessions.

Style of process. SEC. 8. The style of all process shall be "The State of Iowa," and all prosecutions shall be conducted in the name and by the authority of the same.

Salaries. SEC. 9. The salary of each judge of the supreme court shall be two thousand dollars per annum; and that of each district judge one thousand six hundred dollars per annum, until the year eighteen hundred and sixty; after which time they shall severally receive such compensation as the general assembly may, by law, prescribe; which compensation shall not be increased or diminished during the term for which they shall have been elected.

Judicial districts. SEC. 10. The state shall be divided into eleven judicial districts; and after the year eighteen hundred and sixty, the general assembly may reorganize the judicial districts, and increase or diminish the number of districts, or the number of judges of the said court, and may increase the number of judges of the supreme court; but such increase or diminution shall not be more than one district, or one judge of either court, at any one session; and no reorganization of the districts, or diminution of the judges, shall have the effect of removing a judge from office. Such reorganization of the districts, or any change in the boundaries thereof, or any increase or diminution of the number of judges, shall take place every four years thereafter, if necessary, and at no other time.

[Amendment.] At any regular session of the general assembly, the state may be divided into the necessary judicial districts for district court purposes, or the said districts, may be reorganized and the number of the districts and the judges of said courts increased or diminished; but no reorganization of the districts or diminution of the judges shall have the effect of removing a judge from office.

When chosen. SEC. 11. The judges of the supreme and district courts shall be chosen at the general election; and the term of office of each judge shall commence on the first day of January next after his election.

Attorney-general. SEC. 12. The general assembly shall provide, by law, for the election of an attorney-general by the people, whose term of office shall be two years, and until his successor shall have been elected and qualified.

County attorney. SEC. 13. The qualified electors of each county shall, at the general election in the year eighteen hundred and eighty-six, and every two years thereafter elect a county attorney, who shall be a resident of the county for which he is elected, and shall hold his office for two years, and until his successor shall have been elected and qualified.

Carrying into effect. SEC. 14. It shall be the duty of the general assembly to provide for the carrying into effect of this article, and to provide for a general system of practice in all the courts of this state.

The grand jury. SEC. 15. The grand jury may consist of any number of members not less than five, nor more than fifteen, as the general assembly may by law provide, or the general assembly may provide for holding persons to answer for any criminal offense without the intervention of the grand jury.

ARTICLE VI.—MILITIA.

Who constitute. SECTION 1. The militia of this state shall be composed of all able-bodied male citizens, between the ages of eighteen and forty-five years, except such as are or may hereafter be exempt by the laws of the United States, or of this state; and shall be armed, equipped, and trained, as the general assembly may provide by law.

Exemption. SEC. 2. No person or persons conscientiously scrupulous of bearing arms shall be compelled to do military duty in time of peace; provided that such person or persons shall pay an equivalent for such exemption in the same manner as other citizens.

Officers. SEC. 3. All commissioned officers of the militia (staff officers excepted) shall be elected by the persons liable to perform military duty, and shall be commissioned by the governor.

ARTICLE VII.—STATE DEBTS.

Credit not to be loaned. SECTION 1. The credit of the state shall not, in any manner, be given or loaned to, or in aid of, any individual, association, or corporation; and the state shall never assume, or become responsible for the debts or liabilities of any individual, association, or corporation, unless incurred in time of war for the benefit of the state.

Limitation. SEC. 2. The state may contract debts to supply casual deficits or failures in revenue; or to meet expenses not otherwise provided for; but the aggregate amount of such debts, direct and contingent, whether contracted by virtue of one or more acts of the general assembly, or at different periods of time, shall never exceed the sum of two hundred and fifty thousand dollars; and the money arising from the creation of such debts shall be applied to the purpose for which it was obtained, or to repay the debts so contracted, and to no other purpose whatever.

Losses to school funds. SEC. 3. All losses to the permanent school, or university fund of this state, which shall have been occasioned by the defalcation, mismanagement, or fraud of the agents or officers controlling and managing the same, shall be audited by the proper authorities of the state. The amount so audited shall be a permanent funded debt against the state, in favor of the respective fund sustaining the loss, upon which not less than six per cent annual interest shall be paid. The amount of liability so created shall not be counted as a part of the indebtedness authorized by the second section of this article.

War debts. SEC. 4. In addition to the above limited power to contract debts, the state may contract debts to repel invasion, suppress insurrection, or defend the state in war; but the money arising from the debts so contracted shall be applied to the purpose for which it was raised, or to repay such debts, and to no other purpose whatever.

Question of incurring debt submitted. SEC. 5. Except the debts hereinbefore specified in this article, no debt shall be hereafter contracted by, or on behalf of this state, unless such debt shall be authorized by some law for some single work or object, to be distinctly specified therein; and such law shall impose and provide for the collection of a direct annual tax, sufficient to pay the interest on such debt, as it falls due, and also to pay and discharge the principal of such debt, within twenty years from the time of the contracting thereof; but no such law shall take effect until at a general election it shall have been submitted to the people, and have received a majority of all the votes cast for and against it at such election; and all money raised by authority of such law, shall be applied only to the specific object therein stated, or to the payment of the debt created thereby; and such law shall be published in at least one newspaper in each county, if one is published therein, throughout the state, for three months preceding the election at which it is submitted to the people.

Legislature may repeal. SEC. 6. The legislature may, at any time, after the approval of such law by the people, if no debt shall have been contracted in pursuance thereof, repeal the same; and may at any time forbid the contracting of any further debt, or liability, under such law; but the tax imposed by such law, in proportion to the debt or liability which may have been contracted in pursuance thereof, shall remain in force and be irrepealable, and be annually collected, until the principal and interest are fully paid.

Tax imposed distinctly stated. SEC. 7. Every law which imposes, continues, or revives a tax, shall distinctly state the tax, and the object to which it is to be applied; and it shall not be sufficient to refer to any other law to fix such tax or object.

ARTICLE VIII.—CORPORATIONS.

How created. SECTION 1. No corporation shall be created by special laws; but the general assembly shall provide by general laws, for the organization of all corporations hereafter to be created, except as hereinafter provided.

Property taxable. SEC. 2. The property of all corporations for pecuniary profit shall be subject to taxation the same as that of individuals.

State not to be a stockholder. SEC. 3. The state shall not become a stockholder in any corporation, nor shall it assume or pay the debt or liability of any corporation, unless incurred in time of war for the benefit of the state.

Municipal corporation. SEC. 4. No political or municipal corporation shall become a stockholder in any banking corporation, directly or indirectly.

Act creating banking associations. SEC. 5. No act of the general assembly, authorizing or creating corporations or associations with banking powers, nor amendments thereto, shall take effect, or in any manner be in force, until the same shall have been submitted, separately, to the people, at a general or special election, as provided by law, to be held not less than three months after the passage of the act, and shall have been approved by a majority of all the electors voting for and against it at such election.

State bank. SEC. 6. Subject to the provisions of the foregoing section, the general assembly may also provide for the establishment of a state bank with branches.

Specie basis. SEC. 7. If a state bank be established, it shall be founded on an actual specie basis, and the branches shall be mutually responsible for each other's liabilities upon all notes, bills and other issues intended for circulation as money.

General banking law. SEC. 8. If a general banking law shall be enacted, it shall provide for the registry and countersigning, by an officer of state, of all bills, or paper credit designed to circulate as money, and require security to the full amount thereof, to be deposited with the state treasurer, in United States stocks, or in interest-paying stocks of states in good credit and standing, to be rated at ten per cent below their average value in the city of New York, for the thirty days next preceding their deposit; and in case of a depreciation of any portion of such stock, to the amount of ten per cent. on the dollar, the bank or banks owning said stock shall be required to make up said deficiency by depositing additional stocks; and said law shall also provide for the recording of the names of all stockholders in such corporations, the amount of stock held by each, the time of any transfer, and to whom.

Stockholders responsible. SEC. 9. Every stockholder in a banking corporation or institution shall be individually responsible and liable to its creditors, over and above the amount of stock by him or her held, to an amount equal to his or her respective shares so held, for all its liabilities accruing while he or she remains such stockholder.

Bill-holders preferred. SEC. 10. In case of the insolvency of any banking institution, the bill-holders shall have a preference over its other creditors.

Suspension of specie payments. SEC. 11. The suspension of specie payments by banking institutions shall never be permitted or sanctioned.

Amendment or repeal of charters; exclusive privileges. SEC. 12. Subject to the provisions of this article, the general assembly shall have power to amend or repeal all laws for the organization or creation of corporations, or granting of special or exclusive privileges or immunities, by a vote of two-thirds of each branch of the general assembly; and no exclusive privileges, except as in this article provided, shall ever be granted.

ARTICLE IX.—EDUCATION AND SCHOOL LANDS.

1.—EDUCATION.

Board of education. SECTION 1. The educational interest of the state, including common schools and other educational institutions, shall be under the management of a board of education, which shall consist of the lieutenant-governor, who shall be the presiding officer of the board, and have the casting vote in case of a tie, and one member to be elected from each judicial district in the state.

Who eligible. SEC. 2. No person shall be eligible as a member of said board who shall not have attained the age of twenty-five years, and shall have been one year a citizen of the state.

How elected. SEC. 3. One member of said board shall be chosen by the qualified electors of each district, and shall hold the office for the term of four years, and until his successor is elected and qualified. After the first election under this constitution, the board shall be divided, as nearly as practicable, into two equal classes, and the seats of the first class shall be vacated after the expiration of two years; and one-half of the board shall be chosen every two years thereafter.

First session. SEC. 4. The first session of the board of education shall be held at the seat of government, on the first Monday of December, after their election; after which the general assembly may fix the time and place of meeting.

Limited. SEC. 5. The session of the board shall be limited to twenty days, and but one session shall be held in any one year, except upon extraordinary occasions, when, upon the recommendation of two-thirds of the board, the governor may order a special session.

Secretary. SEC. 6. The board of education shall appoint a secretary, who shall be the executive officer of the board, and perform such duties as may be imposed upon him by the board, and the laws of the state. They shall keep a journal of their proceedings, which shall be published and distributed in the same manner as the journals of the general assembly.

Rules and regulations. SEC. 7. All rules and regulations made by the board shall be published and distributed to the several counties, townships, and school districts, as may be provided for by the board, and when so made, published, and distributed, they shall have the force and effect of law.

Power to make. SEC. 8. The board of education shall have full power and authority to legislate and make all needful rules and regulations in relation to common schools, and other educational institutions, that are instituted, to receive aid from the school or university fund of this state; but all acts, rules and regulations of said board may be altered, amended, or repealed by the general assembly; and when so altered, amended, or repealed, they shall not be re-enacted by the board of education.

Governor ex-officio a member. SEC. 9. The governor of the state shall be, ex-officio, a member of said board.

Expenses. SEC. 10. The board shall have no power to levy taxes, or make appropriations of money. Their contingent expenses shall be provided for by the general assembly.

State university. SEC. 11. The state university shall be established at one place without branches at any other place, and the university fund shall be applied to that institution, and no other.

Common schools. SEC. 12. The board of education shall provide for the education of all the youths of the state, through a system of common schools, and such schools shall be organized and kept in each school district at least three months in each year. Any district failing, for two consecutive years, to organize and keep up a school, as aforesaid, may be deprived of their portion of the school fund.

Compensation. SEC. 13. The members of the board of education shall each receive the same per diem during the term of their session, and mileage going to and returning therefrom, as members of the general assembly.

Quorum; style of acts. SEC. 14. A majority of the board shall constitute a quorum for the transaction of business; but no rule, regulation, or law, for the government of common schools or other educational institutions shall pass without the concurrence of a majority of all the members of the board, which shall be expressed by the yeas and nays on the final passage. The style of all acts of the board shall be, "Be it enacted by the board of education of the state of Iowa."

Board may be abolished. SEC. 15. At any time after the year one thousand eight hundred and sixty-three, the general assembly shall have power to abolish or reorganize said board of education, and provide for the educational interest of the state in any other manner that to them shall seem best and proper.

2.—SCHOOL FUNDS AND SCHOOL LANDS.

Under control of the general assembly. SECTION 1. The educational and school fund and lands, shall be under the control and management of the general assembly of this state.

Lands appropriated. SEC. 3. The general assembly shall encourage, by all suitable means, the promotion of intellectual, scientific, moral, and agricultural improvement. The proceeds of all lands that have been, or hereafter may be, granted by the United States to this state, for the support of schools, which may have been or shall hereafter be sold, or disposed of, and the five hundred thousand acres of land granted to the new states, under an act of congress, distributing the proceeds of the public lands among the several states of the Union, approved in the year of our Lord one thousand eight hundred and forty-one, and all estates of deceased persons who may have died without leaving a will or heir, and also such per cent. as has been or may hereafter be granted by congress, on the sale of lands in this state, shall be, and remain a perpetual fund, the interest of which, together with all rents of the unsold lands, and such other means as the general assembly may provide, shall be inviolably appropriated to the support of common schools throughout the state.

Fines, etc., how appropriated. SEC. 4. The money which may have been or shall be paid by persons as an equivalent from exemption from military duty, and the clear proceeds of all fines collected in the several counties for any breach of the penal laws, shall be exclusively applied in the several counties in which such money is paid, or fine collected, among the several school districts of said counties, in proportion to the number of youths subject to enumeration in such districts, to the support of common schools or the establishment of libraries, as the board of education shall from time to time provide.

Proceeds of lands. SEC. 5. The general assembly shall take measures for the protection, improvement, or other disposition of such lands as have been, or may hereafter be reserved, or granted by the United States, or any person or persons to this state, for the use of the university, and the funds accruing from the rents or sale of such lands, or from any other source for the purpose aforesaid, shall be, and remain, a permanent fund, the interest of which shall be applied to the support of said university, for the promotion of literature, the arts

and sciences, as may be authorized by the terms of such grant. And it shall be the duty of the general assembly, as soon as may be, to provide effectual means for the improvement and permanent security of the funds of said university.

How proposed; submission. SECTION 1. Any amendment or amendments to this constitution may be proposed in either house of the general assembly; and if the same shall be agreed to by a majority of the members elected to each of the two houses, such proposed amendment shall be entered on their journals, with the yeas and nays taken thereon, and referred to the legislature to be chosen at the next general election, and shall be published, as provided by law, for three months previous to the time of making such choice; and if, in the general assembly so next chosen as aforesaid, such proposed amendment or amendments shall be agreed to by a majority of all the members elected to each house, then it shall be the duty of the general assembly to submit such proposed amendment or amendments to the people in such manner, and at such time as the general assembly shall provide; and if the people shall approve and ratify such amendment or amendments by a majority of the electors qualified to vote for members of the general assembly, voting thereon, such amendment or amendments shall become a part of the constitution of this state.

More than one. SEC. 2. If two or more amendments shall be submitted at the same time, they shall be submitted in such manner that the electors shall vote for or against each of such amendments separately.

Convention. SEC. 3. At the general election to be held in the year one thousand eight hundred and seventy, and in each tenth year thereafter, and also at such times as the general assembly may, by law, provide, the question, "Shall there be a convention to revise the constitution, and amend the same?" shall be decided by the electors qualified to vote for members of the general assembly; and in case a majority of the electors so qualified, voting at such election for and against such proposition, shall decide in favor of a convention for such purpose, the general assembly, at its next session, shall provide by law for the election of delegates to such convention.

The general assembly shall not locate any of the public lands which have been, or may be granted by congress to this state, and the location of which may be given to the general assembly, upon lands actually settled, without the consent of the occupant. The extent of the claim of such occupant so exempted, shall not exceed three hundred and twenty acres.

First election for governor and lieutenant-governor. SEC. 6. The first election under this constitution shall be held on the second Tuesday in October, in the year one thousand eight hundred and fifty-seven, at which time the electors of the state shall elect the governor and lieutenant-governor. There shall also be elected at such election, the successors of such state senators as were elected at the August election, in the year one thousand eight hundred and fifty-four, and members of the house of representatives, who shall be elected in accordance with the act of apportionment, enacted at the session of the general assembly which commenced on the first Monday of December, one thousand eight hundred and fifty-six.

For secretary, auditor, etc. SEC. 7. The first election for secretary, auditor, and treasurer of state, attorney-general, district judges, members of the board of education, district attorneys, members of congress, and such state officers as shall be elected at the April election, in the year one thousand eight hundred and fifty-seven (except the superintendent of public instruction), and such county officers as were elected at the August election, in the year one thousand eight hundred and fifty-six, except prosecuting attorneys, shall be held on the second Tuesday of October, one thousand eight hundred and fifty-eight; provided that the time for which any district judge or other state or county officer elected at the April election in the year one thousand eight hundred and fifty-eight shall not extend beyond the time fixed for filling like offices at the October election, in the year one thousand eight hundred and fifty-eight.

Senators. SEC. 10. Senators elected at the August election, in the year one thousand eight hundred and fifty-six, shall continue in office until the second Tuesday of October, in the year one thousand eight hundred and fifty-nine, at which time their successors shall be elected as may be prescribed by law.

Offices not vacated. SEC. 11. Every person elected by popular vote, by a vote of the general assembly, or who may hold office by executive appointment, which office is continued by this constitution, and every person who shall be so elected or appointed to any such office, before the taking effect of this constitution (except as in this constitution otherwise provided), shall continue in office until the term for which such person has been or may be elected or appointed shall expire; but no such person shall continue in office after the taking effect of this constitution, for a longer period than the term of such office, in this constitution prescribed.

Judicial districts. SEC. 12. The general assembly, at the first session under this constitution, shall district the state into eleven judicial districts, for district court purposes; and shall also provide for the apportionment of the members of the general assembly in accordance with the provisions of this constitution.

This constitution shall be submitted to the electors of the state at the August election, in the year one thousand eight hundred and fifty-seven, in the several election districts in this state. The ballots at such election shall be written or printed as follows: Those in favor of the constitution, "new constitution—yes." Those against the constitution, "new constitution—no." The elections shall be conducted in the same manner as the general elections of this state, and the poll-books shall be returned and canvassed as provided in the twenty-fifth chapter of the code, and abstracts shall be forwarded to the secretary of state, which abstracts shall be canvassed in the manner provided for the canvass of state officers. And if it shall appear that a majority of all the votes cast at such election for and against this constitution are in favor of the same, the governor shall immediately issue his proclamation stating that fact, and such constitution shall be the constitution of the state of Iowa, and shall take effect from and after the publication of said proclamation.

Proposition to strike out the word "white." SEC. 14. At the same election that this constitution is submitted to the people for its adoption or rejection, a proposition to amend the same by striking out the word "white," from the article on the "right of suffrage," shall be separately submitted to the electors of this state for adoption or rejection, in the manner following, viz.: A separate ballot may be given by every person having a right to vote at said election, to be deposited in a separate box. And those given for the adoption of such proposition shall have the words, "shall the word 'white' be stricken out of the article on the 'right of suffrage?' yes." And those given against the proposition shall have the words, "shall the word 'white' be stricken out of the article on the 'right of suffrage?' no." And if at said election the number of ballots cast in favor of said proposition, shall be equal to a majority of those cast for and against this constitution, then said word "white" shall be stricken from said article and be no part thereof.

Biennial elections. SEC. 16. The first general election after the adoption of this amendment shall be held on the Tuesday next after the first Monday in November in the year one thousand nine hundred and six, and general elections shall be held biennially thereafter. In the year one thousand nine hundred and six there shall be elected a governor, lieutenant-governor, secretary of state, auditor of state, treasurer of state, attorney-general, two judges of the supreme court, the successors of the judges of the district court whose terms of office expire on December 31st, one thousand nine hundred and six, state senators who would otherwise be chosen in the year one thousand nine hundred and five, and members of the house of representatives. The term of office of the judges of the supreme court which would otherwise expire on December 31st, in odd-numbered years, and all other elective state, county and township officers, whose terms of office would otherwise expire in January in the year one thousand nine hundred and six, and members of the general assembly whose successors would otherwise be chosen at the general election in the year one thousand nine hundred and five, are hereby extended one year and until their successors are elected and qualified. The terms of offices of senators whose successors would otherwise be chosen in the year one thousand nine hundred and seven are hereby extended one year and until their successors are elected and qualified. The general assembly shall make such changes in the law governing the time of election and terms of office of all other elective officers as shall be necessary to make the time of their election and terms of office conform to this amendment, and shall provide which of the judges of the supreme court shall serve as chief justice. The general assembly shall meet in regular session on the second Monday in January, in the year one thousand nine hundred and six and also on the second Monday in January in the year one thousand nine hundred and seven, and biennially thereafter.

The supreme executive power of the state is vested in the governor, whose term of office is two years. He receives an annual salary of \$5,000 and an allowance of \$800 for house rent, and \$1,200 for services as member of the executive council.

No person shall be eligible who shall not have been a citizen of the United States and a resident of this state two years next preceding the election, and attaining the age of thirty years at the time of said election.

He is commander-in-chief of the military forces of the state.

He transacts all executive business with the officers of government, civil and military, and may require information in writing from the officers of the executive department upon any subject relating to the duties of their respective offices.

When any office, from any cause, becomes vacant, and no mode is provided by the constitution and laws for filling such vacancy, the governor has power to fill such vacancy, by granting a commission, which expires at the end of the next session of the general assembly, or at the next election by the people.

He may, on extraordinary occasions, convene the general assembly by proclamation, and shall state to both houses, when assembled, the purpose for which they shall have been convened.

He is required to communicate, by message, to the general assembly, at every regular session, the condition of the state, and may make such recommendations to the body as he shall judge expedient.

In case of disagreement between the two houses with the respect to the time of adjournment, the governor has power to adjourn the general assembly to such time as he may think proper; but no such adjournment shall be beyond the time fixed for the regular meeting of the next general assembly.

All bills must be submitted to him for approval, and a two-thirds vote of both branches of the legislature is required to pass a bill over his veto.

The governor has power to grant reprieves, commutation and pardons, after conviction, for all offenses except treason and cases of impeachment, subject to such regulations as may be provided by law. Upon conviction for treason, he has power to suspend the execution of the sentence until the case shall be reported to the general assembly at its next meeting. He has power to remit fines and forfeitures, under such regulations as may be prescribed by law; and shall report to the general assembly, at its next meeting, each case of reprieve, commutation, or pardon granted, and the reason therefor.

He appoints all principal officers of the state not elected by the people, and certain officers connected with the state government, by and with the consent of the senate.

He signs patents for state lands, and appoints and commissions notaries public and commissioners in other states to take acknowledgments of deeds for this state.

He may demand fugitives from justice from the executives of other states, and may issue warrants, upon the requests of other governors, for fugitives found in this state.

LIEUTENANT-GOVERNOR.

Term of incumbent ends January, 1919.

ERNEST R. MOORE, Cedar Rapids, Linn County. Born in Iowa.

The lieutenant-governor is elected for a term of two years and is required to have the same qualifications, as to age and residence, as the governor. He does not give bond.

In case of the death, impeachment, resignation, removal from office, or other disability of the governor, the powers and duties of that office devolve upon the lieutenant-governor, for the residue of the term, or until the governor shall be acquitted, or the disability removed.

The lieutenant-governor is president of the senate, but can only vote when the senate is equally divided. In case of his death or other disability incapacitating him from discharging the duties of his office, the same devolve upon the president pro tempore of the senate.

He receives the same mileage and double the per diem of a senator. He maintains an office at the capitol building during the meetings of the general assembly.

The secretary of state is the head of the department of state. He is elected by the people for a term of two years, and receives a salary of \$2,600 a year. He is ex officio a member of the executive council. He is also ex officio a member of the board of trustees of the state library and the historical department of Iowa and of the state board of health.

The secretary of state countersigns all commissions and proclamations issued by the governor, and keeps a record thereof in the executive register.

The enrolled copies of the constitutions and the laws of the state, the authenticated copies of the journals of the senate and house of the general assemblies, and many other legislative and state papers are filed in his office. He prepares for publication certain laws and resolutions passed by the general assembly, and is charged with the work of distributing the codes, code supplements and session laws.

Certificates of nomination and all papers and records pertaining to the nomination, election and qualification of state and district officers are filed in his office.

All papers relative to the incorporation of cities and towns, the annexation or severance of territory, and the consolidation or abandonment of municipal corporations are transmitted to him and preserved as a part of the permanent records of his office.

Articles of incorporation of both domestic and foreign corporations, as well as all amendments thereto, are filed and recorded in his office, and certificates of authority to transact business within the state of Iowa are issued by him. Applications for the registration of trade marks, labels and forms of advertising are made to him and certificates issued thereon.

Applications for the registration of motor vehicles are also filed with him, and he assigns and keeps a record of the numbers issued.

He edits, publishes and distributes the Iowa Official Register, and is required by law to place therein historical, political and other statistics and facts of general value, but nothing of a partisan character.

The records, files, field notes and plats of survey, and other papers and documents of the state land office are in his custody. Patents for school, university, agricultural college, railroad, swamp and other lands, are prepared in the land office, and, when signed by the governor, are countersigned by the secretary of state and recorded in the patent record books in the land department. He makes a biennial report to the governor of the transactions of this department.

Iowa corporations organized for pecuniary profit, and all foreign corporations authorized to do business in this state, are required to report annually, in July, to the secretary of state and pay him an annual fee of one dollar each. The secretary of state is required to send, during May and June of each year, to each corporation of record in his office, a notice, advising as to the provisions of the law, and a blank for use of the corporation in making report. On receipt of annual report and fee, the secretary of state is required to issue to the corporation an annual permit.

The registration in the office of the Secretary of State is required to be made of all charitable organizations soliciting public aid in the state and a permit must first be procured from his department before any such organization, its agents or representatives may lawfully solicit public donations in any county, city, or township in Iowa except within the county or adjoining counties in which such association or institution is located.

An important branch of the work in the office of the secretary of state is that relating to the administration of the so-called Blue Sky Law, the same being an act passed by the thirty-sixth general assembly to prevent fraud in the sale and disposition of stocks, bonds and other securities.

The statute is similar in character to those passed in many of the other states during the past few years, and the principle thereof has recently been upheld by the supreme court of the United States.

Although this law has only been in effect for a short time, it has resulted in great good in protecting the people of the state against gross fraud and imposition.

The public revenues of the state are received and disbursed by the treasury department; books are kept in which are recorded the names of all persons from whom money for any purpose is received, the time received, the purpose for which the money was remitted, and the amount thereof. Receipts in duplicate are issued for each item received, and the duplicate is filed with the state auditor. When remittance of state dues is made by bank draft, check or certificate of deposit, such draft, check or certificate must be deposited for collection in some bank in the city of Des Moines which has been previously designated as a depository for state funds, and no receipt for any sum remitted by check or draft is issued by the treasury department until the depository receiving the deposit notifies the department of the collection thereof. All county treasurers, auditors and superintendents of schools and all state officers, boards or commissions are required to remit to the state treasury, on or before the 15th of each month, all moneys received by them during the preceding calendar month. The treasurer of state, with the consent of the executive council, may designate banks in the city of Des Moines as depositories of state funds. Each bank so designated shall give bonds to be approved by the executive council, and shall pay interest on daily balances at such rate and at such times as may be agreed by the banks and the treasurer of state, with the

approval of the executive council. At this time such depositories pay interest monthly at the rate of two per cent per annum.

It is the special duty of this department to enforce the law imposing a tax upon collateral inheritances. Disbursements from the state treasury are made only upon warrants issued by the state auditor and a record is kept of each warrant paid, showing date of issue, date of payment, to whom payable, to whom paid and upon what account drawn. All accounts of each state institution under the board of control are paid by checks issued by this department in favor of the person to whom the account is payable. These accounts are not paid until after they have been audited by the board of control and an abstract of the total amount due on account of each institution and the names and postoffice addresses of the persons to whom each of the several accounts are payable has been forwarded to this department by the board of control, together with a warrant or warrants of the auditor of state to cover the total amount to be paid. The state treasurer is the custodian of the permanent endowment fund of the State Agricultural College. This fund amounts to about \$680,000 and is loaned at not less than five per cent, secured by first mortgages upon real estate in Iowa. Only the interest may be used by the college. This interest is payable to the state treasurer and is by him paid to the treasurer of the college. The accounts of the department are examined once each quarter by the auditor's department and may be examined by the governor at any time. The total receipts of the department for the fiscal period ending June 30, 1916, were \$18,928,461.86, including agricultural endowment and interest fund.

The Work of the Department of Public Instruction. The duties of the superintendent of public instruction are numerous and varied. They may be classified as educational, quasi-judicial, and ex-officio.

Educational. Among the duties of an educational nature may be named his general supervision over the county superintendents of the state, which necessitates his meeting with these officers at least twice each year, and the publication of numerous circulars of instruction and suggestion. He is at the head of the public school system of Iowa, and his duties as such leader are to ap-

point institutes, and approve Institute faculties. He is required by law to promote among the people of the state a proper interest in the general subject of education, including industrial and commercial education, agriculture, manual and vocational training, domestic science and continuation work. Also to classify and define various public schools belonging to his department, and to formulate suitable courses of study therefor, and to publish and distribute such classifications and courses of study. It is also his duty to collect statistics, and report on education, and educational questions, and the condition of the public schools of the state, and to publish them in reports and pamphlets. Among the publications that have become a part of the educational needs of the state and are of national note may be named: The Manual of Methods for the Elementary Schools of Iowa, Special Day Book, Educational Directory, Proceedings of the Iowa State Teachers' Association, Summary of Standards for Approved Graded and High Schools, Approved High School Bulletin, Reference Books for the Approved High Schools of Iowa, Outlines in Agriculture, Domestic Science and Manual Training, Regulations Governing the Issuance of Uniform County Certificates, Outlines of Psychology and School Management, Outline of Music for Normal Training High Schools and Normal Training Courses in Four Year High Schools, and Iowa Day. Many others of minor importance on various subjects are published.

In order to aid him in organizing and classifying the public schools of the state, the superintendent of public instruction is permitted by law to appoint one normal training inspector, two graded and high school inspectors, and one inspector of rural and consolidated schools. He is also empowered to distribute to the normal training schools and the consolidated schools certain aid which is set aside for these schools under certain conditions. It is his duty to pass upon them finally, and to determine what schools shall receive state aid.

For the purpose of increasing the facilities for training teachers for the rural schools by requiring a review of such common branches as may be deemed essential by the superintendent of public instruction, and for instructions in elementary pedagogy, and the art of teaching elementary agriculture and home economics, provision is made for normal courses of study and training in such approved four-year high schools as the superintendent of public instruction may designate.

Judicial. The quasi-judicial duties of the superintendent of public instruction include the hearing of appeals from the decisions of county superintendents, the rendering of opinions, in writing, when requested by school officials (but in fact opinions are rendered to all who request them) and publication of the school laws and notes on the same, and pamphlets containing session laws.

Ex-officio duties. The superintendent of public instruction is ex-officio member of the Iowa library commission, president of the educational council, president of the State Teachers' Reading Circle board, and president of the Educational Board of Examiners.

As executive of the Educational Board of Examiners, a great amount of responsibility is incurred, since all licenses to teach are issued under authority of this board, and the work is conducted under his personal supervision.

Miscellaneous. In addition to the duties enumerated above he reports biennially to the governor on the conditions of the public schools of the state, and makes suggestions and recommendations as investigation and experience dictate. He must keep a complete account of the expenditures on account in his department and the Educational Board of Examiners and report the same to the executive council. He also accepts many calls from rural and city communities to meet with them and discuss such school questions as may confront the school officials. This is especially true under the present system of developing the consolidated schools, of which 230 have already been organized.

COMMERCE COUNSEL.

Asst. Commerce counsel, E. H. Scott.....	\$1,800

The powers and duties of the board of railroad commissioners are: To generally supervise all railroads in the state, both steam and electric, except street railroads; to inquire into any neglect or violation of the laws of the state by any railroad corporation doing business therein; to make examinations and inspections of the physical conditions, conduct and management of such railroads and report their condition to said companies; to stop and prevent railroad companies, under certain circumstances, from running or passing their trains over unsafe bridges; to adjudge changes in station houses, rolling stock and rates of fare; to make report on first Monday in December in each year to the governor of its doings for the preceding year, accompanied with appropriate suggestions and recommendations; to receive, tabulate, and report upon the annual reports filed with it by railroad companies; to examine any of the books, papers or documents of any such corporation; to examine under oath employes of such corporations; to issue subpoenas, administer oaths and compel the attendance of witnesses; to make and fix maximum schedules of freight rates for such corporations, such schedules to be deemed reasonable until disproved; to examine into rates in force, upon complaint that the rate charged by a railroad company, or that the maximum rates fixed by the commission are unreasonably high or discriminating, and to fix the rate again, which must not be higher than any rate established by law, such decision of the commission is prima facie evidence that the rate so made is a reasonable maximum rate; to bring suits to enforce its orders; to inquire into the management of the business of such carriers and to obtain from them full and complete information necessary to enable the commissioners to carry out the objects of the law; to hear, investigate and determine all complaints alleging unreasonable rates; unjust discrimination, undue preference, violation of the long and short haul clause; or other infractions of the commission law, and make proper orders thereupon; to establish joint through rates, upon application, over two or more connecting lines; and to have the same authority over express companies as the act confers concerning railroads.

Before any railway company may condemn lands for additional depot grounds, or for straightening or relocating track, the permission of the board must be obtained. Interlocking switches may be placed at grade railroad crossings or draw bridges, thus obviating the necessity of stopping trains before passing over such grade crossings or draw bridges, but before the interlocking switch may be used, consent of the board must be obtained.

The thirty-fifth general assembly gave to the commission the power to grant to individuals or corporations "engaged in the manufacture, sale, or distribution for sale of electric current for light, power, or heating purposes, the right within the state, except in cities and towns, to erect and maintain poles, wires, towers, fixtures and other necessary construction for the purpose of conducting electricity for lighting, power and heating purposes over, along and across any public lands, highways or streams or the lands of any person or persons, and to acquire the necessary interests in real estate therefor." It also provided that transmission lines proceeding under the provisions of the law should be subject to "such reasonable regulations as the commission may from time to time, prescribe."

The thirty-fourth general assembly created the office of commerce counsel, to be appointed by the board of railroad commissioners for a term of four years, subject to confirmation by senate. The law provides that the counsel may appoint assistants, subject to the approval of the board of railroad commissioners. The duties of the office briefly are as follows:

To investigate and present matters with reference to intrastate rates to the board of railroad commissioners; to investigate on his own motion, or at the request of the board, cases involving interstate rates in which Iowa is interested,

and present the same to the interstate commerce commission if the board so directs.

The attorney general in an opinion holds that the railroad commission may, by resolution, direct the commerce counsel and his assistants to assist the department of justice in the state and federal courts, in cases involving orders made by the railroad commission.

The commissioner of insurance is the executive head of the insurance department of Iowa and has general control, supervision and direction of all insurance business transacted in the state and is charged with the execution of the laws relating to insurance. All powers vested in, and all duties imposed upon the auditor of this state, relating in any way to insurance matters prior to July 1, 1914, were on that date vested in and made incumbent upon the commissioner of insurance.

The commissioner is authorized to conduct examinations of insurance organizations transacting business in the state, covering in detail their financial condition, evidence of solvency and methods and practices of their officers and agents. Domestic companies, associations and societies are required to be so examined at least biennially. The actuary and chief examiner are in charge of the examination work which is continuous. The companies are visited and the audits made in their offices. A written report of the findings of the examiners is filed with the department as a permanent record.

All deposits required by law to be made with the state by any such company, association or society, are directly in charge of the commissioner and a careful record is kept thereof, showing each item. A daily and monthly balance is maintained, showing the amount of securities on deposit to the credit of each company. Each security deposited is carefully examined and, before acceptance, must comply with the statutes governing investment of insurance funds. The companies and associations are required to keep their deposit up to the amount prescribed by law. No company or association is permitted to withdraw securities sufficient to bring the amount below the reserve required to be maintained on deposit. The amount of approved securities representing capital stock and the legal reserve value of policies of Iowa life companies and associations on deposit in this department on January 1, 1917, was \$76,694,834.20.

All fees due the state from insurance companies and associations are paid to the commissioner of insurance.

The commissioner passes upon the articles of incorporation of new insurance organizations, and amendments thereto must also have his approval. No policies can be sold in the state until the policy forms have been approved by

him, and all agents appointed by the companies and associations to represent them in the state must be licensed by the insurance department. The value of the supervision required to be exercised over all companies, associations and societies authorized to transact business in the state, and the surveillance of those attempting to do insurance business in Iowa, can hardly be estimated. As the insurance business in the state has increased from year to year this supervision has become the more necessary and important to the citizens of the state.

Chapter 132, laws of the twentieth general assembly of 1884, provided for the creation of the Bureau of Labor Statistics, the appointment of a commissioner, defining his duties, and his tenure of office.

The work as outlined in the above act was purely statistical and was designed for the purpose of making inquiry into the conditions surrounding the employment of labor, its connection with the development of industries both mechanical and those arising from the natural resources of the state, the advantages and inducements offered in various localities for the establishment of desirable industries, the extent and productive value of industries already established and information relative to the home life and general welfare of the workers.

The work was carried on with success by the different commissioners and assistants and proved its value to the commercial and manufacturing interests of the state, also to the workers who were given an opportunity from time to time to express their views on the surrounding conditions, their desires for more favorable legislation, for better sanitation, ventilation, and more efficient means of protection in the operation of dangerous machinery. These reports from the working people, strengthened by actual personal investigation made by the commissioners and exemplified in their reports, proved the necessity for periodical and systematic inspection of the factories and workshops by competent persons whose time could be devoted to their work. The frequent appeals thus made, backed by a desire on the part of our legislators that Iowa should not be relegated to the rear in the general march for improvement, resulted in the passage, in 1902, of a law providing for such inspection and the enforcement of requirements made, together with means for the support of men assigned to the work. A great step in advance was thus made and the work has progressed by using up-to-date methods, similar to those in vogue in the older manufacturing states, thus establishing the most important feature of the work of the department. All classes of establishments where labor is employed have been visited, a long list of improvements have been made tending toward both safety and comfort, and proof is evident that the money provided was well expended.

The passage of the workmen's compensation law materially facilitated cooperation between employers and the bureau because of the recognition of the principle that prevention of accidents means economy in management.

Up to the close of 1905 no efficient means of restricting the employment of children had been provided. The existing law required that children under 14 should attend school 16 consecutive weeks in each year, but children of any age could be put to work all the remainder of the year, many children of tender age were found in the factories and stores. To remedy this evil the thirty-first general assembly in 1905 enacted a law prohibiting the employment of children under 14 in factories, workshops, stores and some other places specified, at any time, under penalty. The work of enforcement was placed in the hands of the commissioner of the Bureau of Labor Statistics and his assistants. The law has been partly self-enforcing. A number of employers who had been employing children under the age limit dismissed them voluntarily. Only a few employers have shown a disposition to oppose the enforcement of the law, and when proof was given them by inspectors that they were violating it, they dismissed all under the age limit at once, thus giving no immediate cause for prosecution. A better condition prevails in Iowa now than heretofore, and by persistent effort on the part of members of the department conditions will continue to improve and a nearer approach to the ideal condition will be attained.

In this connection it should be noted that the thirty-sixth general assembly amended the former law by including a greater number of employments in the restriction list and also limiting the hours of service of children between 14 and 16 years of age to 8 per day and 48 per week, and also restricting children in the street trades in cities of 10,000 and over.

In the line of progressive legislation by the thirty-sixth general assembly, the child labor law of 1905 was revised to harmonize with improved standards.

The thirty-sixth general assembly appreciating that modern employment is assuming more and more that which is well termed "seasonable employment," also that the idle man is industrial waste, made provision for a state free employment bureau in connection with the bureau of labor statistics.

‡Term expires July 1, 1921.

The statutes of Iowa provide the sentence of a prisoner convicted of a felony shall be for the maximum term provided for the crime committed; thus leaving to the court imposing the sentence no discretion as to the time of confinement. The board of parole is given authority to release on parole outside the prison walls, all prisoners, except those sentenced for life terms. The law which provided for the fixing of a definite time of prison service by the judge before whom the trial was had, contemplated punishment for the particular crime; in other words, forfeiture of liberty on account of guilt, for a length of time which in the judgment of the judge would be the penalty the man should suffer. Hence, the oft repeated remark that a prisoner "has served as long as he should be required to serve for what he did."

The maximum sentence contemplates the keeping of a man in prison not alone for punishment, but for discipline, training, education and reformation, as well as example by which others may profit or be deterred from committing crime; this involves the consideration of past life, opportunities, environment, mental ability, criminal tendencies or want of them, and evidences of reformation and change in desires and ambitions. Boards of pardon and parole have time and opportunity to investigate all these things. The object of the parole law is, that the man who gives evidence of the fact that he will be a law abiding citizen if given his liberty, shall be released on parole, always taking into account what would be a reasonable term to be served as an example. The marked difference between the definite term fixed when sentence is pronounced and the indeterminate sentence is that the first is for punishment on account of a particular crime and the second contemplates not only the protection of society, but the study of the individual and the handling of him with a view of securing reformation from other causes than simply fear of imprisonment, which is not reformation at all. On the trial of a man indicted for crime, guilt or innocence may be established by evidence, but the evidence proper to be used for that purpose will not determine what the man has been, or is, except as one may conclude from the single illegal act of which he is found guilty. The paroled man is kept under the control and supervision of the board of parole and in the custody of the warden of the prison; employment is found for him, he is placed in charge of some one whose duty it is to be in constant touch with him, to aid and encourage him, and keep the board advised of his conduct. The time he is on parole is not deducted from his prison sentence, so if returned to prison, he must serve the balance of his sentence, unless paroled again. The prisoner, however, cannot be kept in prison longer than the maximum time provided by statute for the crime for which he was convicted. Rules and regulations are provided which must be observed by the man while on parole, and for the violation of which he may be remanded to prison. This reformatory method of handling prisoners had its origin in the law establishing the Elmira Reforma-

tory in the state of New York in 1869. Now more than half of the states in the union have adopted it, and in most cases the laws closely follow the system as then approved in the state of New York. No state enacting laws providing for the maximum sentence and parole provisions has ever repealed them. No state has yet adopted the absolutely indeterminate sentence; although such a sentence was advocated by the author of the New York law and is favored by practically all criminologists and those who have had experience in prison management and administration of parole laws. The law provides that the board of parole shall have the power to parole, under such rules and regulations as it may adopt, all prisoners committed to the reformatory or penitentiary excepting those sentenced for life. When such life sentence is passed other than for murder in the first degree the consideration of those cases is primarily with the governor who, upon application for pardon or commutation of sentence, refers them to the board for advice. The law also provides that in cases of life sentence for murder in the first degree applications for pardon shall be referred to the board of parole by the governor for advice and recommendation before he passes upon them.

The office of dairy commissioner was established May 1, 1886. On July 4, 1906, the office became that of the food and dairy commissioner. On July 4, 1907, the food law became effective and the work of the department was also increased by the passage of the commercial feeding stuffs and agricultural seed law. Later enactments make the department responsible for the laws governing the sale of paint, linseed oil, turpentine, calcium carbide and commercial fertilizer. The 35th general assembly also gave the department the enforcement of the sanitary law, which provides for the proper sanitation of all food

producing establishments; the weight and measure law which provides for scale inspection and for general supervision of weights and measures and the use of such apparatus in connection with the purchase or sale of merchandise; and the cold storage law, which provides for the making of reports of stocks and gives the commissioner and assistants supervision over food products held in storage and limits the time that foods may be cold stored.

The total annual expenditures amount to approximately \$75,000. The term "food" is defined as including all articles used as food, drink, confectionery or condiment by man or beast. The inspectors employed by the dairy and food department are given authority to enter all places of business where food products are manufactured, stored or sold and all wagons used in the transportation of such products and authority is given for taking samples of any goods offered or exposed for sale within the state. The department issues licenses to all users for commercial purposes of the Bábcock test. The fee for the license is \$2.50 per year for each operator. Milk inspection is extended to all incorporated cities and towns and a license fee of \$1.00 a year is required of all persons selling milk from stores or vehicles.

A license fee of \$3.00 is collected for each scale or weighing device where a fee is charged for weighing and the same license is required of all bakeries, candy factories, ice cream factories, canning factories, slaughter houses and meat markets. Cold storage plants are required to pay an annual fee of \$25. Condimental stock foods and tonics are included within the term "commercial feeding stuffs" and each manufacturer is required to pay a license fee of \$100 annually.

STATE PRINTER AND BINDER.

The state printer and the state binder are elected by the general assembly at regular sessions biennially.

By act of the 37th general assembly the positions of Printer and Binder were abolished at the end of the terms of the present incumbents, after that time contracts will be made upon competitive bids for all printing and binding.

THE STATE PRINTER.

The state printer is required to maintain his office at the seat of government and provide a printing plant of sufficient capacity and equipment to print the laws, journals, reports and do all other printing required for the state officers, boards or commissioners having their offices at the capitol, or by or for the general assembly, under schedule prices for composition and presswork and provisions for measurement established by the general assembly and set forth in detail in the code and the session laws.

The statutes make provision for the various reports to be printed and the number of each is determined by the state document editor, subject to review on appeal to the governor and all printing which is not specifically provided for by statute is authorized and ordered by a system of requisitions, bills for same to be audited and checked by the state document editor and duly approved before ordered paid.

All paper stock used by the state printer is purchased by the state through the executive council, and the stock is in charge of the secretary of the executive council, who issues same to the state printer upon the requisition of

the latter, charging same against him, items of credit being obtained by the state printer to offset the debit charges by measurement and computation of amount of paper stock used by the printer and returned to the state in printed documents, blanks and stationery.

There is no fixed salary for this office, the state printer receiving as his entire compensation the amounts named in the schedules of prices fixed by the statutes for printing actually done and delivered to and accepted by the state. He is required to furnish a bond to be approved by the governor for faithful performance of duty, and is liable also under same for any shortage that might occur in paper stock when an accounting of same is made.

THE STATE BINDER.

The state binder is required to maintain an office at the state capitol equipped with machinery and appliances sufficient to do the state work. He is required to give a bond for the faithful performance of his duty and for state property which comes into his hands. He furnishes his own building, light, heat and power, as well as machinery.

He binds all books and publications printed by the state printer. The printed sheets of laws, journals and other publications, which are to be folded, stitched or bound, are delivered to the state binder by the state printer and a receipt is given therefor. The state binder furnishes all material except paper required in book binding. All leather, cloth, thread, gold leaf, glue, paste, and other materials are purchased and furnished by the state binder without expense to the state.

The state binder receives no salary, but is paid for his work by the piece on a schedule of prices specified by law. His compensation comes from the profit on the work performed and delivered. He is held responsible for loss or damage by fire or other cause to state work which is in his possession.

On the completion of a job of binding, the books or pamphlets are delivered to the document room, the supply department, or to other departments, as the case may be, and he receives a receipt therefor for every article, book or pamphlet delivered.

The style of binding, whether to be sewed or stitched, with paper, board, cloth or leather covers, or without covers, is all specified by law and the number of copies in each style of binding is named in the statute. Some discretion, however, is allowed the document editor in regard to the number of copies of reports and documents to be printed and bound, as the demand for them may vary from year to year.

The state printer and the state binder submit their bills for work done to the document editor. He is required by law to audit the bills, and to certify to the state board of audit the amount which each of said officers is entitled to receive for the work specified. The state board of audit then makes an additional audit thereof and certifies the approved amounts to the auditor of state, who thereupon draws his warrants therefor.

The duties of the fish and game warden, as defined by chapter 1b of the code, are as follows:

He shall make biennially a report to the governor of his doings, together with such information for the protection of fish and game as he may think proper. He shall make monthly an itemized statement to the executive council under oath of all moneys expended and for what purpose, and the number and varieties of fish distributed and in what waters; also all prosecutions made under the law. He shall have charge of the re-stocking and distribution of fish to the public waters of the state, and shall impartially and equitably distribute the same. He shall faithfully and impartially enforce obedience to the provisions of the fish and game laws. He may suspend for a specified period specified portions of fish and game laws and issue permits authorizing the persons to whom said permit is issued, to take from certain designated lakes of the state, having an area of not less than two square miles, certain fish designated in said permit in any quantities and for all purposes. He shall not permit seining in said lakes between the first day of December and the fifteenth day of June.

He may grant certificates to proper parties to collect birds, their nests or eggs for scientific purposes. He shall seize and take possession, without warrant, any fish, birds or animals which have been caught, taken or killed, at any time, in a manner or for a purpose or had in possession or under control,

or have been shipped contrary to law, and shall sell the same for the purpose of paying any costs, and balance of proceeds, if any, shall be turned into the school fund of the county in which the seizure is made. He shall seize and destroy or sell without warrant or process, any net, seine, trap, contrivance, material, and substance whatever while in use or had and maintained for the purpose of catching, taking, killing, trapping or deceiving any fish, birds or animals contrary to the provisions of the fish and game laws. He may appoint such number of deputies as he may deem necessary, and their duties are to report all violations of the law, to make arrests where crime is committed in their province, and to aid the warden in the enforcement of the law. The provisions of the law make the state and game warden a state marshal, and it is his duty to ferret out offenders and bring them to justice.

By an act of the thirty-third general assembly, "no person shall hunt, kill or take any wild animal, bird or game in this state with a gun without first procuring a license." The fee for such license is one dollar a year for each citizen of the state and ten dollars a year for each non-resident or alien. The county auditors of the state issue the licenses. All licenses expire on the first of July of each year. Owners of land, their children and tenants are not required to procure a license to hunt on their own premises. Provision is made in the law for the amount of game that a non-resident may take from the state. Penalties are provided for the enforcement of the law. Another law of the thirty-third general assembly provides for an annual license under certain restrictions for the use of seines and nets in the Mississippi and Missouri rivers where they form part of the boundary line of the state.

By an act of the thirty-fifth general assembly, three district deputy wardens are provided for, to be appointed by the state fish and game warden. The state will be divided into districts with a man in charge in each as a general supervisor.

By an act of the thirty-sixth general assembly, no person shall keep game birds in possession for the purpose of propagation and sale, without first procuring a license from the State Fish and Game Warden, the fee for which is \$2.00.

The department of agriculture for the state of Iowa was created by legislative enactment of the twenty-eighth general assembly in the year 1900. The office of the department is in the northeast wing of the state capitol building, in the rooms formerly occupied by the Iowa state agricultural society (said society ceased to exist when the department of agriculture was created). The department is managed by a board, styled the state board of agriculture, of which the governor, president of the State College of Agriculture and Mechanic Arts, state dairy and food commissioner, and state veterinarian are ex officio members; other members are a president, vice president, secretary, treasurer, and one member from each of the eleven congressional districts of the state. The president, vice president, and district members are chosen at the annual agricultural convention, which is composed of delegates from each of the county and district fairs, county farmers' institutes, state dairy association, horticultural society, improved stock breeders' association, and members of the state board of agriculture. The president and vice president are elected for a term of one year, and the district members for a term of two years. The secretary and treasurer are elected by the board.

It is the duty of the department to look after and promote the interests of agriculture, agricultural education, animal and other industries of the state; to investigate all subjects relating to the improvement of methods, appliances and machinery, and the diversification of crops and other products; also to investigate reports of the prevalence of contagious diseases among domestic animals, and the destruction of insects and fungus grasses, grains and other plants; the adulteration of foods, seeds and other products, and to report the results of such investigation, together with recommendations of remedial measures for the prevention of dangers resulting therefrom. It is made the duty of the agricultural experiment station to co-operate with the department of agriculture in carrying on these investigations.

The passage of the pure food bill by the thirty-fifth general assembly, the bill for the regulation and prevention of frauds in the sale of agricultural seeds, and concentrated commercial feeding stuffs, passed by the thirty-second general assembly, the bills offered in the thirty-third general assembly for the destruction of noxious weeds, and the bill for the establishment of a live stock sanitary board, and the control and suppression of dangerous or infectious diseases of domestic animals, were all the results of careful investigations made by the department.

The department annually compiles and publishes the "Iowa Year Book of Agriculture." This book contains useful information upon various topics relating to agriculture, live stock, a review of the weather and crops for the pre-

ceding year, a synopsis of the work and proceedings of the state dairy and food department, state swine breeders' and state dairy associations, and such other matter as will be of interest to the farmer. It is also the duty of the secretary to carry out the provisions of the state law with reference to issuing state certificates of enrollment of all pure bred stallions and jacks and certificates of soundness for all grade stallions and jacks offered for public service, sale, exchange or transfer in the state of Iowa. It is also the duty of the secretary to prepare and send out the blanks, and receive the reports of the county and district fairs entitled to receive state aid, and the county farmers' institutes.

The thirty-third general assembly makes it the duty of the department to prepare and furnish blanks annually to the assessors for the purpose of listing the acreage and yield of farm crops, the number and value of live stock, and poultry and egg production.

By statute the state board of agriculture is made the custodian for the state fair and exposition grounds. It is also made the board of managers for the annual state fair and exposition. The state does not provide any support fund for the maintenance of the state fair, nor pay any of the yearly expenses or premiums of same, the statute providing that all expenditures connected with the holding of the fair must be paid out of the fair receipts. The title to the state fair grounds is in the name of the state of Iowa, all deeds and abstracts being on file in the state auditor's office.

The present investment of the state of Iowa in the fair grounds property, including the original appropriation of \$50,000.00 for the first frame buildings and the appropriations since 1902 for permanent buildings and additional ground total \$514,111.47.

The state fair grounds contains 283 1-3 acres, and was appraised by a committee well acquainted with real estate values in and around Des Moines, without taking into consideration any improvements, at \$459,783.03. The value of the buildings, personal property, etc., and as shown by the books of the department is \$739,806.45. Adding to this the value of real estate it gives the total value of the plant at \$1,199,339.48.

By deducting the total investment of the state in the fair grounds plant from the present value we have the surplus or profit to the state of \$685,278.01.

This profit is largely due to the increased value of the real estate since the state acquired the title in 1885 and the many improvements added to the grounds in the past thirteen years from the profits of the fair.

Duties required of the state veterinary surgeon, include supervision of all contagious and infectious diseases among domestic animals, within the state and those in transit through the state; also to establish quarantine against infectious diseases, and to enforce laws respecting importations of stock for dairy or breeding purposes; and to co-operate with the local boards of health and the United States department of agriculture in the eradication of contagious diseases among live stock, and take such action as the exigencies of the case may demand.

COMMISSION OF ANIMAL HEALTH.

Appointed by the Governor. Term three years. Compensation \$100 a year.

MEMBERS.

JAMES I. GIBSON, *State Veterinary Surgeon, Chairman, Des Moines.*

J. R. UNDERWOOD, *Veterinarian, Des Moines.*

THOMAS DOWNING, *Veterinarian, Washington.*

FRANK KINGSLEY, *Stockman, McGregor.*

CHARLES A. SAUNDERS, *Stockman, Manilla.*

The thirty-fourth general assembly created the commission of animal health, the members of which are to be appointed by the governor and are to consist of the state veterinary surgeon, who is to be chairman and executive officer thereof, two veterinarians and two stockmen. When the terms of the members of the commission expire their successors are to be appointed, the veterinarians to serve for three years and stockmen to serve for two years.

The commission is to hold at least two meetings a year and it has power and authority to make such rules and regulations as may be necessary for the prevention, suppression and quarantine of diseases among animals in the state and those being driven or transported through or into Iowa. Such rules and regulations are to be effective when approved by the executive council.

The state veterinary surgeon and the two veterinarians on the board constitute a board for the examination of applicants to practice veterinary medicine, surgery and dentistry.

The members of the Animal Health Commission, other than the state veterinary surgeon, are to receive \$100 a year for their services and in addition thereto the veterinarians, other than the state veterinary surgeon, are to receive \$100 for their services as members of the examining board.

The accession list of the general, law and legislative reference departments of the state library on the first day of July 1916, included 142,841 volumes. The total accessions of the biennial period ending June 30, 1916, were 11,895 volumes. The historical department is separately reported.

The librarian notes with satisfaction the steadily growing utilization of the state library by advanced students of literature, philosophy, science and social problems, by debaters in the high school and colleges of the state; also by state legislators and those interested in state legislation. This satisfaction is enhanced by the steadily increasing ability of the library to satisfy the wants of those who visit it with serious purpose. In fact the mission of the general library as a reference library—a final report for information in science the mechanic arts, the fine arts, biography, general history, literature and philosophy, is finding generous recognition with students, scholars, educators, legislators, clubs devoted to research work and the school, college and public libraries of the state. With a single additional assistant, a legislative reference bureau has been developed during the past few years, and the use made of the new bureau by legislators, legislative committee clerks and persons interested in legislation, has steadily increased to such an extent that legislative reference work must be extended and its efficiency increased in anticipation of

the increased demands certain to be made upon its resources. The thirty-fourth general assembly added greatly to the future efficiency of the state library, and contributed largely to the relief of the library board, by increasing the appropriation of the several departments as follows: The general library, from \$5,000 to \$6,000; the historical department from \$5,000 to \$6,000, and the law department and legislative reference bureau from \$4,000 to \$5,000. The inclusion of the legislative reference bureau is the first legislative recognition of that increasingly efficient area of the service beyond the appointment of an assistant for legislative reference work. The good work done without an appropriation, through aid rendered by the law and general libraries, gives much promise for the immediate future now that means are provided for its maintenance.

The law department of the state library has been materially strengthened by recent purchases bringing down to date several high-priced sets, and in other ways adding materially to the efficiency of that important department.

The completion of the valuable sets of standard periodicals, legal, scientific and miscellaneous, is one of the gratifying results of recent years, making the periodical feature of the library one of the strongest in the country.

The pressing need of the state library is a medical department that shall as effectively serve the medical profession as the library now serves the legal profession. A bill has been introduced in the thirty-seventh general assembly embodying this library need.

As now organized this department dates from the first day of July, 1892. Its chief purpose is the collection of historical data relating to our own state and the territory of the middle west, of which it originally formed a part. Special efforts are made to collect Iowa newspapers from the earliest dates to the present time; works of state and general western history, biography and genealogy; works on the histories of all our wars from the earliest times; works relating to the North American Indians; county histories, maps, Iowa pamphlets, biographies of our noted men and women, printed or in manuscript; written or printed documents relating to early settlers and settlements; reports, catalogues and broadsides relating to the churches, educational and benevolent institutions of the state; in short, every species of data which can throw light upon local, state or western history. Two hundred ninety-five Iowa newspapers are currently received, and is endeavoring to acquire all Iowa papers. It has ceased the collection of papers from other states. The library is especially strong in genealogy, local history and the history of the civil war.

The department publishes *The Annals of Iowa*, an illustrated quarterly historical magazine of eighty pages, which has now completed its twelfth volume. This is made up largely of original contributions in history and biography. By direction of the trustees it is sent free to every organized library in our state. Its price to subscribers is \$1 per year.

In addition to the *Annals*, the historical department is to be credited with the following publications, viz., eleven biennial reports: "John Brown Among the Quakers and Other Sketches," by Hon. Irving B. Richman, "First Census of the Original Counties of Dubuque and Des Moines," edited by Dr. Benj. F. Shambaugh, "History of the Constitution of Iowa," by Dr. Shambaugh. Reprints of the laws of Iowa, 1838-39 and of 1839-40, and the hitherto unpublished journals of the council and house of representatives of the extra session of 1840. "Early Settlement and Growth of Western Iowa," by Rev. John Todd, Rafinesque; life and biography, by T. J. Fitzpatrick; Downing's Civil War Diary, by Alexander G. Downing.

The department has secured one hundred and thirty-five fine oil portraits of distinguished Iowans, which are now on exhibition in the art gallery of the historical building, and has thousands of photographs and other black and white portraits and exhibits. More are promised in the near future.

The museum includes nine large cases for autograph letters, manuscripts and portraits; a collection of recent, aboriginal and prehistoric pottery found in our own state; a large collection of prehistoric implements, among which is an Iowa axe weighing 31 3/4 pounds—one of the largest ever discovered—with hundreds of flints; many teeth, tusks, and other bones of the mammoth and mastodon, all of which were found in Iowa; several large cases of birds found within our state; many Iowa mammals; a case of Indian baskets, bead work, implements and weapons, much of which were manufactured by the Mesquakie Indians of Tama county; a collection of arms—cannon, mortars, swivel guns, rifles, muskets, carbines, swords and pistols, in use during the Civil, Spanish and Philippine wars; and duplicates in bronze of most of the historic medals issued by the United States government.

Chapter 142 of the laws of the thirty-first general assembly made provision for the care and permanent preservation of the public archives by giving the state library and historical department custody of all the original public documents, papers, letters, records and other official manuscripts of the state executive and administrative departments, offices or officers, councils, boards, bureaus and commissions, ten years after the date of the current use of such public documents, papers, letters, records or other official manuscripts.

The act also provided that the public archives shall be housed in the historical, memorial and art building in rooms to be known as the hall of public archives.

Chapter 157 acts of the thirty-second general assembly provided that the executive council should superintend the arrangement, labeling, filing and calendaring of the archives, the same to be delivered to the state library and historical department for preservation.

An act of the thirty-sixth general assembly provided that all of the duties and responsibilities of the executive council and the board of trustees of the state library and historical department with respect to the public archives are transferred to the curator of the historical department to be administered under the direction of the above board of trustees; empowers the curator to certify copies and otherwise hold the same relation to the archives transferred as, for instance, that of the secretary of state to such as originated in his office.

Besides the historical department the state library and the Iowa library commission are accommodated in the magnificent historical building which is now completed.

STATE MINE INSPECTORS.

Appointed by the Governor. Term four years. Expires July 4, 1919.

Office	District	Name	Legal Residence	Birthplace	Compensation
Inspector.....	First.....	W. E. Holland.....	Albia.....	Pa.	\$ 1,800
Inspector.....	Second.....	Rhys T. Rhys.....	Ottumwa.....	So. Wales.....	1,800
Inspector.....	Third.....	Edward Sweeney.....	Des Moines.....	England.....	1,500
Secretary.....		L. E. Stamm.....	Des Moines.....	Iowa.....	1,200

The office of state mine inspector was created by the eighteenth general assembly in the year 1880. At that time the mining of coal in this state was in its infancy. But few large mines were in operation and the tonnage of coal was small as compared to that of the present time. Then but one inspector was needed. Owing to the growth of the coal industry the twenty-first general assembly amended the mining laws and provided for three inspectors, and gave the governor power to divide the state into three inspection districts. Today the entire time of the three inspectors is taken up with the work of inspecting the mines of the state and seeing that they are worked in conformity with the mining laws of the state as regards safety to the employes therein, proper ventilation, condition of the shafts, escape ways in times of danger, safety catches on cages, condition of the cables for hoisting men and coal, and everything that would tend to guard against accidents to men employed in the mines.

A general office for the inspectors is maintained in the state house and a complete record is kept therein of all inspections, accidents, etc., in record books for that purpose. A monthly report of the general condition of all mines is made to the mine inspectors and a general report of the conditions of the mines of the state, tonnage, accidents, number of employes, and other information relative to the coal industry, is published every two years. Copies of the state mining laws are also published and circulated. Blue prints of maps of all mines in the state, brought up to date once each year, are on file in the offices of the mine inspectors subject to public inspection. A secretary, elected by the inspectors, has charge of the general correspondence and books in the office, as the duties of the three inspectors keep them almost constantly in the field.

In 1900 Iowa produced 5,117,285 tons of coal and employed 13,041 men, and in 1915 the coal production amounted to 7,530,088 tons, and 16,869 men were given employment in and around the mines. Between 250 and 300 mines are in operation in the 22 counties, which are divided into three inspection districts.

The first district includes the counties of Appanoose, Lucas, Taylor, Monroe (part), Wayne, Page and Adams. Mr. W. E. Holland of Albia, Iowa, is the inspector in this district, where mines employing 7,840 men, and producing 3,207,491 tons of coal during the calendar year 1915, are located.

The second district comprises the counties of Mahaska, Marlon, Monroe (part), Jasper, Keokuk, Van Buren, Davis, Jefferson, Wapello and Warren. Mr. Rhys T. Rhys of Ottumwa is inspector for this district. 1,946,065 tons of coal were produced by the mines of the second district in 1915, and employment was given to 4,142 men.

The third district comprises the counties of Polk, Webster, Boone, Greene, Guthrie, Scott and Dallas. Mr. Edward Sweeney of Des Moines is the inspector. During the calendar year 1915, the mines in this district produced 2,376,532 tons of coal and employed 4,385 men.

BOARD OF EXAMINERS.

FOR MINE INSPECTORS, MINE FOREMEN AND HOISTING ENGINEERS.

Appointed by the Executive Council for a term of two years. Terms expire January 25, 1918. Compensation \$5.00 per diem.

EDWARD GRAY, President, 1323 24th Street, Des Moines, operator.

T. L. EVANS, Lockman, operator.

JOHN CALDWELL, Centerville, miner.

The State Board of Mine Examiners was created by the twenty-second general assembly, and is composed of five members; two coal operators, two miners, and one engineer. Their duties are to examine and issue certificates to those qualified to act as state mine inspectors, hoisting engineers and mine foremen. An examination for state mine inspectors is held the first Monday in March in even-numbered years in the office of the state mine inspectors in the state house. Examinations for hoisting engineers and mine foremen are held at various times during the year in different parts of the state. A fee of two dollars for registration, and an additional fee of two dollars is required of those taking and passing the examination for mine foremen and hoisting engineers. The law requires that each certificate issued by the board shall be recorded in the office of the examining board, and shall show the name, age, residence and years of experience of the person to whom it was issued.

The members of the board receive \$900 per year and railroad expenses for services as members of the state board of health, medical examiners, embalmers, nurses and optometry. The sanitary engineer, who is also a member of the board receives the sum of \$2,500 per year, and necessary traveling and incidental expenses. The secretary receives \$2,000 per year, \$2,400 as secretary of the board of health, \$300 as secretary of the board of embalmers, and \$300 as secretary of the board of medical examiners; the assistant secretary \$1,200 per year; chief clerk \$900 per year; the director of the bacteriological laboratory receives his compensation from the state university. The chemist of the board has never received a salary but has received fees, but the office of state chemist has been abolished, and all chemical and general laboratory work is to be done hereafter in the state bacteriological laboratory provided for the state board of health by the legislature and is located at the state university, Iowa City, Iowa.

The state board of health has a general supervision of the lives and health of the people of the state and has power to make rules and regulations respecting the public health and declare that such rules and regulations when made shall have the force of legislative enactments.

The board through local boards of health establishes, maintains and releases quarantine; requires the disinfection of persons and premises exposed to contagion; supervises through its sanitary engineer the installing of water works systems, the construction of sewerage systems, and makes sanitary surveys through its sanitary engineer and the state laboratory of the board located at the state university, Iowa City. It investigates into the causes of diseases and issues to the people of the state instructions relative to the prevention of transmissible diseases and how to correct insanitary conditions in general which may exist in any part of the state.

The board also supervises the examination and registration of licensed embalmers. The result has been that the science and skill as well as the technique of the funeral director has been greatly improved and the public health has been better protected thereby. In connection with this work the board has adopted rules and regulations for the transportation of the dead so that bodies, dead of infectious diseases, may be so prepared as to be shipped without interference or danger to any point in the United States, Canada, Mexico, or Cuba. The rules for the shipment of corpses are the same in the countries just mentioned—the benefits of which can hardly be appreciated unless one is unfortunate enough to require such services.

The board also supervises the examination, and licenses those who desire to practice nursing as registered or graduate nurses.

It is required to make rules and regulations for the inspection of petroleum products; to determine the manner and methods, and to prescribe the instruments and apparatus to be used for the government of inspectors. Such rules and regulations shall be approved by the governor, and when so approved shall be binding upon all inspectors. It is the duty of the state board of health, to examine lamps and apparatus to be used, as shall be presented to such board, and test said lamps or apparatus, and if it shall find any lamp or apparatus to be safe, said board shall enter the findings of the board upon the records of the proceedings of said board. It is further made the duty of the board to fix a standard of purity of oils and other illuminating materials to be used in mines and to establish regulations for testing the same, and when so determined and established shall be recognized by all of the courts of this state.

It is the duty of this board to dispose of unclaimed bodies by directing to what medical college of the state such bodies shall be sent for anatomical purposes.

In addition to the above specified duties the board supervises the disinterment, burial and transportation of all dead bodies within the state and keeps a record of such disinterments and burials.

The board also has a thoroughly equipped and up-to-date bacteriological laboratory at Iowa City, in connection with the state university, where upon short notice tests are made to determine the presence of tuberculosis, typhoid fever, diphtheria, rabies, etc., and where the best methods of disinfection are determined.

The physicians of the board of health and its secretary are constituted the members and secretary of the board of medical examiners and as such, determine the standing of medical colleges, examine their graduates, and license those who pass satisfactory examinations as physicians and osteopaths, with authority to refuse to issue certificates and to revoke those issued under certain specified conditions and the board also issues certificates on reciprocity with other states and is authorized to grant itinerant licenses.

STATE BOARD OF HEALTH LABORATORY.

The thirty-second general assembly, in providing for the state hygienic laboratory, made an appropriation of six thousand dollars (\$6,000) annually, or so much thereof as may be necessary for the salary of the director, assistants and the running expenses of the laboratory.

At the first meeting of the state board of health following the passage of chapter 101, acts of the thirtieth general assembly, it was decided at that time, on account of limited funds, a great deal of work which the laboratory should do in the interests of the public health must be postponed, and that the work of the laboratory must be limited to the routine diagnostic work in connection with diphtheria, typhoid fever, tuberculosis and rabies. Because of the action of the thirty-second general assembly, in appropriating six thousand dollars (\$6,000) annually, the laboratory is able to do more and better work than formerly. The bacteriological and chemical analyses of public water supplies are problems of great importance and the state board of health feels that these should receive more attention in the future than in the past, hence it would recommend that the secretary and the director of the bacteriological laboratory be consulted freely when the public health is eminently concerned as in epidemics of typhoid fever. On such occasions the director of the laboratory shall make or cause to be made an investigation of the epidemic and have such bacteriological and chemical analyses of water and other substances made as are necessary to the finding and the removal of the causes of such epidemics. The rapid diagnosis of a certain infectious disease like diphtheria, being of such great importance in order that proper treatment may be begun as soon as possible, the board has devised a method (which places the diagnosis outfits for the collection of material, in the hands of every physician) by establishing one or more culture stations in every city and town in the state where the diagnosis outfits are kept constantly on hand and given free of charge to all physicians.

STATE BOARD OF MEDICAL EXAMINERS.

President, WALTER L. BIERRING, M. D., Des Moines.

Secretary and Treasurer, GULFORD H. SUMNER, M. D., Des Moines.

Members. The physicians of the state board of health.

The secretary receives an annual salary of \$300.

Examinations are held in June and at such other times as may seem necessary.

Correspondence relating to practice of medicine or osteopathy should be sent to the secretary of this board.

Every person practicing medicine or osteopathy in the state is required to secure a certificate from this board.

Every physician or osteopath itinerating within the state is required to procure a special license.

The board is authorized to issue two classes of certificates: *first to physicians, and second to osteopaths.*

Clerks of district court report, on forms prescribed by the registrar, all marriages and divorces recorded in their respective offices, and the city, town and township assessors collect the record of all births which they file with the clerk of the district court, and he reports the same to the registrar.

HOTEL INSPECTOR.

J. B. Heefner, Des Moines, Inspector of Hotels.

The civil engineer member of the state board of health was made inspector of hotels by an act of the thirty-third general assembly, but the thirty-sixth general assembly amended the law and made it obligatory upon the part of the state board of health to appoint a hotel inspector, who shall devote all of his time to the inspection of hotels, and his office shall be located with the state board of health, Capitol building. The hotel inspector when appointed has power with the consent of the state board of health, to appoint deputies.

His salary is fixed at \$1,500.00 a year and it is made his duty to inspect every hotel once each year, or oftener on complaint of three or more patrons, and to require that the law relative to proper construction, fire escapes and cleanliness be enforced. Each hotel inspected is required to pay a fee to the inspector, which is to be turned into the state treasury.

STATE BOARD OF OPTOMETRY EXAMINERS.

The board consists of three optometrists appointed by the Governor from a list of registered optometrists recommended by the Iowa State Association of Optometrists and one physician member of the State Board of Health appointed by the Governor. The Secretary of the State Board of Health acts as Secretary of this Board.

MEMBERS.

GEO. J. FERGE, Optometrist, President, Des Moines.
 JAMES McDONALD, Optometrist, Washta.
 GEO. S. DUNLAP, Optometrist, Sioux City.

The terms of all members of the board are for one year and expire June 30th each year. The members of the board receive five dollars a day for time actually employed. They also receive necessary traveling expenses. The fee for examination is fifteen dollars. Provision is made for the board upon the payment of a fee of ten dollars, to license without examination those who have practiced optometry continuously in the state for more than five years, provided application was made within six months prior to the passage of this act. Applicants are required to possess certain qualifications before they are admitted to examination. The board meets in the offices of the state board of health in the capitol building. The act creating the board does not apply to merchants or dealers who sell glasses as merchandise and who do not profess to be optometrists.

The law which provided for the organization of the Iowa Geological Survey outlined its work to be that of making "a complete survey of the natural resources of the state in their economic and scientific aspects, including the determination of the characteristics of the various formations and the investigation of the different ores, coals, clays, building stones and other useful materials."

The present geological survey was organized in 1892 and since that time has been engaged in two lines of research. The first of these is the detailed study of the geology of the state by counties. In this work all the natural features of interest and value are studied and described, such as the general character of the surface, its soils, water resources, deposits of valuable minerals and other like topics. At present reports have been published on eighty-five counties of the state, including an area of 48,645 square miles. As fast as a sufficient number of counties are studied the reports on them are gathered together and published as one of the annual reports of the survey, together with maps of the counties included, showing roads, streams, towns and the various geological formations.

The second line of work has been the carrying on of special investigation of the various mineral resources of the state. Immediately upon the organization of the survey the coal deposits were made the object of study and what was known of their structure, character and the modes of their exploitation was published as volume II of the survey reports. More recently a fuller account, made possible by the greater development of the coal fields, together with papers on related subjects, has been issued in volume XIX. In the same volume are given the results of an extensive study of the peat deposits of northern Iowa. The gypsum beds of Fort Dodge also received early attention as did the lead and zinc deposits of northeastern Iowa and the deep waters of the state. The preliminary report on gypsum is given in volume III and a more comprehensive report is found in volume XII, in connection with the report on the geology of Webster county. A report on lead and zinc appeared in volume VI and the result of a later and more detailed study of the Dubuque county deposits was incorporated in the report on the geology of that county, as found in volume X.

What was learned of the deep wells of the state in the early studies was published in volume VI, and the subject has been studied continuously ever since. A report embodying all known data has been issued recently as volume XXI. The clays of the state received attention and are described in volume XIV, the quarry products are discussed in volume XVII, and the results of studies of the limestone, sand and gravel deposits of the state, with special reference to their value for road building and concrete purposes, are given in volume XXIV. A subject which will be of increasing importance as Iowa becomes more of an industrial center is that of water power. This is being made the object of close study and it is hoped to issue a report shortly. A large amount of work remains yet to be done before our knowledge of the geology of the state is complete, as much of the earlier study was of necessity largely reconnaissance work and needs to be supplemented by the results of later work done under more favorable conditions. Reports on the geology and physical geography of the entire state are now in process of preparation.

For several years past the state survey has co-operated with the national survey in the making of topographic maps of the Des Moines valley. These maps show the character of the surface, the elevations above sea level, as well as cultural features. They are of especial value in coal prospecting, engineering and drainage projects. Parts of Hamilton, Boone, Story, Dallas, Polk, Warren, Marion, Mahaska, Lucas and Monroe counties have been covered. These maps are printed by the federal government and may be purchased at a cost of ten cents each from the United States geological survey or from the Iowa geological survey. They are bounded not by county lines but by meridians of longitude and parallels of latitude and each map covers about 225 square miles. Topographic surveys were made in the northeast part of Iowa by the United State Geological Survey a number of years ago and the maps covering this area are available also.

The Iowa Library Commission was created by an act of the twenty-eighth general assembly in March, 1900. Two years later the Traveling Library previously under the State Library was transferred to the Commission.

The executive officer of the Commission is the secretary who also bears the title of director of library extension. The activities of the Commission consist (1) of the work of extension and supervision carried on by the secretary assisted by the organizer.

This consists of help given by personal correspondence and visits in the inaugurating of library projects and the arousing of interest in the submission of the question of tax support in communities without public libraries, and of advice and help in the selection of building plans, equipment and furniture, and the selection and purchase of books, in their classification and cataloging, the installation of modern methods and records whereby the efficiency of the library is greatly increased, the encouragement and information of library boards and the instruction of librarians. In addition addresses are made by the secretary before library boards, teachers' meetings, farmers' institutes and other public gatherings in the interest of libraries and reading throughout the state. All this help is available to communities and libraries without charge except the entertainment of the organizer when employed in a library.

(2) The second activity of the Commission is the Traveling Library which is made up (a) of fixed groups of 50 volumes each for general reading by adults and children. These groups become small libraries in the communities to which they go where they are loaned to individual borrowers free of charge; (b) of a general loan or subject collection for the use of students desiring material on specific subjects; (c) of books for the blind in New York Point loaned to any blind reader in the state; (d) of study club outlines and syllabi to assist in the preparation of programs; (e) picture collections for study club or exhibit purposes. These are all loaned with no charge except the cost of transportation, the books for three months and the pictures and outlines for two weeks.

(3) A periodical clearing house is also maintained by the Commission for the purpose of aiding small libraries in completing sets of standard periodicals without cost. (4) The work of publication includes the Iowa Library Quarterly, leaflets, lists and other material helpful in giving library information and increasing the reading of good books throughout the state.

The highway commission was first established in Iowa under chapter 105, acts of the thirtieth general assembly, which constituted the Iowa State College as an institution to act as the highway commission for the state. From 1904 until 1913, work was carried on under this law.

The thirty-fifth general assembly reorganized the entire system of road administration in the state and created a commission of three men as outlined above. The office of the commission is located at the Iowa State College and the duties prescribed by the law are such that an extensive organization is necessary. Under the law as amended by the thirty-sixth general assembly the duties of the commission are as follows:

First. To devise and adopt plans of highway construction suited to the needs of the different counties of the state.

Second. To disseminate information and instruction to road officers of the state.

Third. To issue an annual report to the governor relative to the operations of the commission.

Fourth. To appoint such assistants as are necessary to carry on the work of the commission.

Fifth. To make investigations as to conditions of road and bridge work in the counties.

Sixth. To have general supervision over the county and township officers in the state and to enforce the provisions of the road law.

Seventh. To devise plans and conduct negotiations between railroad and local officials for the elimination of danger at railroad crossings.

Eighth. To assist county boards of supervisors and the attorney general in defense of patent suits.

Ninth. To have charge of the survey and administration of meandered lakes.

An inspector is appointed by each inspection district, one of which is designated as chief inspector, who exercises supervision over the entire inspection service of the state. The state fixes his bond at \$10,000.00.

Inspectors are furnished by the state with suitable apparatus for making inspection of all illuminating oils sold within the state, which includes miners' oil and oils used for illuminating boats, railway cars and street cars. A sample is taken by the inspector from each tank or barrel and subjected to a test. For petroleum oil (kerosene) the closed cup test, is used. If the vapor arising from the heating process ignites at a temperature of 100 degrees or less, the entire lot from which the sample is taken is rejected and cannot be sold or used for illuminating purposes within the state. Miners' oil is subjected to a gravity test of 22 degrees, Taglibue hydrometer, at a temperature of sixty degrees Fahrenheit. Oils used for illuminating boats, street or railway cars are tested to an igniting or burning point of 300 degrees Fahrenheit.

On or before the 15th day of each month, each inspector is required to make a report to the chief oil inspector of state of all inspections made during the previous month, showing each inspection made, for whom and where made, kind of oil, number of tank, degree of test, whether rejected or approved, amount of fees collected, total of oil inspected during the month, and an itemized report all expenses incurred, amount of fees due inspectors, deputies and branders, all of which must be verified under oath and mailed, together with all fees collected, to the chief oil inspector of state, who is required to approve same before inspector's expenses can be allowed by the executive council and a warrant ordered drawn by the auditor of state in payment thereof. Deputies and branders may be appointed by inspectors when necessary, but must be approved by the executive council. No person interested in the manufacture or sale, either directly or indirectly, in petroleum products can serve as inspector, or act as surety on his official bond, which is fixed by statute at \$5,000.00. Inspectors may be removed for neglect or failure in the performance of their official duties.

All persons for whom inspections are made must report directly to the chief oil inspector of state all inspections made for them for each month.

This is compared with the inspector's report for the same month, and if any discrepancies are found, corrections are required until a complete check is secured.

Rules and regulations for making inspections are formulated and adopted by the state board of health and become effective and a part of the law when approved by the governor.

SUPREME COURT OF IOWA.

ORGANIZATION.

The supreme court consists of seven judges, four of whom constitute a quorum for the transaction of business, but one alone may adjourn from day to day, or to a particular day, or until the next term.

The judge whose term first expires is the chief justice, and so on in rotation, except when the term of two of the justices expires at the same time the senior in age serves first as chief justice.

JURISDICTION.

The supreme court has appellate jurisdiction only in cases in chancery and constitutes a court for the correction of errors at law. It has appellate jurisdiction over all judgments and decisions of all courts of records, except as otherwise provided by law.

An appeal may also be taken to the supreme court from:

1. An order made affecting a substantial right in an action, when such order, in effect, determines the action and prevents a judgment from which an appeal might be taken;
2. A final order made in special actions affecting a substantial right therein, or made on a summary application in an action after judgment;
3. An order which grants or refuses, continues or modifies a provisional remedy; grants or refuses, dissolves or refuses to dissolve an injunction or attachment; or grants or refuses a new trial; or sustains or overrules a demurrer;
4. An intermediate order involving the merits or materially affecting the final decision;
5. An order or judgment on habeas corpus.

If any of the above orders or judgments are made or rendered by a judge, the same are reviewable, the same as if made by a court.

*Will be chief justice after January 1, 1918.

The supreme court has power to issue all writs and processes necessary to secure justice to parties, and to enforce its appellate jurisdiction, and it may exercise supervisory control over all inferior judicial tribunals.

It may enforce its mandates upon inferior courts and officers by fine and imprisonment, which imprisonment may continue until mandates are obeyed.

TERMS.

There are three regular terms in each year, held as follows, to-wit: The first term beginning with the second Tuesday in January and ending with the first Monday of May; the second beginning with the first Tuesday after the first Monday in May and ending with the third Monday of September, and the third beginning with the first Tuesday after the third Monday of September and ending with the third Saturday of December.

The time allotted to each term is divided as nearly as practicable into periods of four weeks each, the first part of each period is devoted to the argument and submission of cases, and the second to consultation and the preparation of opinions. Cases assigned for each period are called in their order as shown on the term docket but no more submissions are taken for one period than in the judgment of the court can be properly considered and determined before the next succeeding session. All causes on the docket are heard at each term unless continued or otherwise disposed of by order of court.

The regular public sessions of the court are held in the supreme court room at the capitol, commencing at 9 o'clock A. M., standard time. On Tuesday and Friday of the first and second week of each four weeks' period submission of motions are taken before calling the calendar. Motions noticed for a day when the court is not sitting are taken on the next motion day on which the court sits.

Judgments of affirmance, rulings and orders in causes submitted and orders authorized by law may be made and entered by the court at any time regardless of the term of court.

APPEALS IN CIVIL CASES.

Appeals from the superior and district courts may be taken to the supreme court at any time within six months from the rendition of the judgment or order appealed from, and not afterwards. No appeal shall be taken in any cause in which the amount in controversy between the parties, as shown by the pleadings does not exceed one hundred dollars, unless the trial judge shall, during the term in which judgment is entered, certify that the cause is one in which the appeal should be allowed, and upon such certificate being filed the same shall be appealable regardless of the amount in controversy, but this limitation shall not affect the right of appeal in any action in which an interest in real estate is involved, nor shall the right of appeal be affected by the remission of any part of the verdict or judgment returned or rendered.

APPEALS IN CRIMINAL CASES.

Appeals from the final judgment of the district court may be taken in all criminal cases within six month after the judgment is rendered; and either the defendant or the state may appeal. Upon appeal the supreme court may affirm, reverse or modify the judgment or render such judgment as the district court should have done. It may order a new trial or reduce the punishment, but cannot increase it. If the state appeals, the court cannot reverse or modify the judgment so as to increase the punishment, but may affirm it and shall point out any error in the proceedings and its decision shall be obligatory as law.

SALARY.

The salary of each justice is six thousand dollars (\$6,000) a year. Each general assembly also appropriates sufficient funds for the payment of stenographers, bailiffs and such other incidental expenses as may be incurred by the court.

THE DISTRICT COURTS OF IOWA.

There are at the present time sixty-four judges of the district court of the state of Iowa. The state is divided into twenty-one judicial districts and each district is entitled to from one to five judges, the number being fixed by statute. The judges are elected for terms of four years and receive an annual salary of \$3,500. Each judge appoints a shorthand reporter, who receives \$8 per day for each day's attendance upon said court, and in case the per diem does not equal \$1,600, then the county or counties composing the district make up the deficiency in proportion to the number of days of court held in such county or counties.

The following is the section of the code governing the jurisdiction of the district court:

SECTION 225. Jurisdiction—civil, criminal, probate—successor of circuit court. The district court shall have general original and exclusive jurisdiction of all actions, proceedings and remedies, both civil and criminal, except in cases where exclusive or concurrent jurisdiction is or may hereafter be conferred upon some other court or tribunal by the constitution and laws of the state, and shall have and exercise all the powers usually possessed and exercised by courts of record. It shall also possess and exercise jurisdiction in all appeals and writs of error taken in civil and criminal actions and special proceedings authorized to be taken from all inferior courts, tribunals, boards or officers, under any provisions of the laws of this state, and shall have a general supervision thereof, in all matters, to prevent and correct abuses, where no other remedy is provided.

First. The district court of each county shall have original and exclusive jurisdiction to probate the wills of, and to grant administration upon the estates of, all persons who at the time of their death were residents of the county and of non-residents of the state who die leaving property within the county subject to administration, or whose property is afterwards brought into the county.

Second. To appoint guardians of the persons and property of all persons resident in the county subject to guardianship.

Third. To appoint guardians of the property of all such persons non-residents of the state who have property within the county subject to guardianship, or whose property is afterwards brought into the county.

Fourth. It shall have jurisdiction in all matters in relation to the appointment of executors and trustees, and the management and disposition of the property of and settlement of such estates; *provided*, that where jurisdiction has heretofore been acquired, the same shall be retained until such estate is closed.

The district court shall succeed to and exercise full authority and jurisdiction over the records of the circuit court, and may enforce all judgments, decrees and orders thereof in the same manner and to the same extent as it may exercise like jurisdiction and authority over its own records, and for the purpose of the issuance of process, and of any and all other acts necessary to the due and efficient enforcement of the orders, judgments and decrees of the circuit courts the records thereof shall be deemed records of the district court.

Transcripts and process from the judgments, decrees and records of the circuit court shall be issued by the clerk of the district court and under the seal of his office.

SUPERIOR COURTS.

The statutes provide that any city containing four thousand inhabitants, whether organized under a special charter or under the general law for incorporation of cities and towns, may establish a superior court. There are at present seven of such courts, located respectively in the cities of Council Bluffs, Cedar Rapids, Grinnell, Keokuk, Oelwein, Perry and Shenandoah. The judges are elected for terms of four years and receive an annual salary of \$2,000, which is paid quarterly, the first two quarters being paid from the city treasury and the last two quarters from the county treasury of the county in which said court is located.

The judges of the superior courts appoint a shorthand reporter, who receives five dollars per day for each day's attendance upon said court.

The following is a copy of the section of the code, as amended, governing the jurisdiction of the superior court:

SECTION 260. *Jurisdiction—attachments of real estate—city prisons used.* Said court shall have jurisdiction concurrent with the district court in all civil matters, except in probate matters and actions for divorce, alimony and separate maintenance. It shall have exclusive original jurisdiction to try and determine all actions, civil and criminal, for the violation of city ordinances, and all jurisdiction conferred on police courts as now or as may hereafter be provided by law, and concurrent jurisdiction with justices of the peace. Writs of errors and appeals may be taken thereto from justices' courts in the township in which the court is held, and, by consent of parties, from any other township in the county. For the trial of criminal actions on information and complaint, the court shall be open at such times and under such rules as it shall prescribe. In actions by attachment, where real property is levied on by writ of attachment, the officer levying the writ shall make entry thereof in the incumbrance book in the office of the clerk of the district court, in like manner and with like effect as of levies made in the district court. Parties may be committed to the city prison for confinement or punishment, instead of the county jail, at the option of the judge. In the absence of the judge, or in case of his inability to act, then, during such time, proceedings for the violation of city ordinances may be had before a justice of the peace, residing in such city.

Superior courts shall have original concurrent jurisdiction with the district courts of the state of Iowa, in all matters pertaining to the detention and treatment of dipsomaniacs, inebriates and those addicted to the excessive use of narcotics, as provided in title XII, chapter 2-a of the supplement to the code, 1907, and the same proceeding shall be held so far as applicable. Whenever the words "district judge," "district court" or "judge of the district court" appear in title XII, chapter 2-a the same shall be construed to apply to the superior courts or the judge thereof to the same extent that the same applies to the district court or the judge thereof.

The Board of Control of State Institutions was created under the provisions of chapter 113, laws of the twenty-seventh general assembly, which, with the amendments thereto, clothes the board with full power to manage, control and govern, subject only to the limitations contained in the act, the following named institutions:

- Iowa Soldiers' Home at Marshalltown.
- Iowa Soldiers' Orphans' Home at Davenport.
- School for the Deaf at Council Bluffs.
- Institution for Feeble-minded Children at Glenwood.
- State Sanatorium for the Treatment of Tuberculosis at Oakdale.
- Iowa Industrial School for Boys at Eldora.
- Iowa Industrial School for Girls at Mitchellville.
- Mt. Pleasant State Hospital at Mt. Pleasant.
- Independence State Hospital at Independence.
- Clarinda State Hospital at Clarinda.
- Cherokee State Hospital at Cherokee.
- State Hospital for Inebriates at Knoxville.
- Hospital for Female Inebriates at Mt. Pleasant.
- Penitentiary at Ft. Madison.
- Reformatory at Anamosa.
- Industrial Reformatory for Females at Rockwell City.
- State Hospital and Colony for Epileptics at Woodward.

The board is required to inspect county and private institutions in which insane persons are kept, associations and societies receiving friendless children and detention homes provided for juvenile offenders.

Prior to July 1, 1898, the foregoing state institutions, except the reformatory and penitentiary, were in charge of separate boards, each of which had its officers and each had a secretary and treasurer.

The board of control was organized on April 6, 1898, and took full control, as provided by state, on July 1, 1898, of the institutions subject to its control. At that time the various boards of trustees and commissioners ceased to exist.

The board publishes quarterly a bulletin of over one hundred pages, devoted to the scientific investigation of the treatment of insanity and epilepsy and the feeble-minded, and information embodying the experience of soldiers' homes, charitable, reformatory and penal institutions in this and other countries.

As provided by law, under the direction of the board the state institutions under its control are supplied with goods for their support on competitive bids, thus procuring proper supplies at the lowest market prices. An opportunity to bid is afforded anyone who asks for it.

The board is required to investigate the management and financial condition of the state institutions under its control, to determine questions as to the sanity of patients in state hospitals, and to determine when persons shall be admitted to them as state charges, and is required to divide the state into hospital districts. It is required to make biennial reports to the governor and legislature showing the cost of operating the institutions for the preceding two years and to visit all institutions twice each year. Some member of the board or its agent is also required to visit each hospital once each month. It is required to meet the superintendents and other heads of institutions in quarterly conferences, to gather statistics, to publish a bulletin, to require official bonds of certain institution officers, to make a semi-annual invoice of all the stores of the institutions, to fix annually the salaries of officers and employes not fixed by law, and to appoint a state architect and perform other duties provided by law.

SCHOOL FOR THE DEAF—COUNCIL BLUFFS.

Superintendent—HENRY W. ROTHERT.

Physician—ALFRED P. HANCHETT, M. D.

Steward—JOHN F. SCHULTZ.

Matron—JENNIE HAMBEL.

There is a regular appropriation for this institution of \$22 per capita per month for nine months of each year for the payment of officers' and teachers' salaries and for a support fund.

Every resident not less than five or more than twenty-one years of age too deaf to be educated in the common schools, and every such person who is over twenty-one and under thirty-five years of age who has the consent of the board of control is entitled to receive an education in the institution at the expense of the state. Non-residents similarly situated may be entitled to an education therein upon the payment of sixty-six dollars quarterly in advance.

The session of the school begins the first day of October and continues until the last day of June of each year. Pupils should come promptly at the beginning and remain until the end of the session.

IOWA SOLDIERS' HOME—MARSHALLTOWN.

Commandant—B. C. WHITEHILL.
Adjutant—J. C. LOPEL.
Quartermaster—HORACE J. BENNETT.
Surgeon—HAMILTON P. DUFFIELD, M. D.
Assistant Surgeon—F. W. DIXON.
Chaplain—H. O. PRATT.
Chief Engineer—ROBERT MULLIN.

The United States government pays to the state of Iowa the sum of \$100 per year for each male inmate of the soldiers' home who served in any war in which the United States was engaged, which amount is used as a part of the support fund of the institution.

Persons who have sufficient means for their own support may be admitted to the home on payment of the cost of their support, which cost shall be fixed from time to time by the board of control of state institutions. Provided, however, that no person having sufficient means for his or her own support shall be received or permitted to remain in the home unless there be room for all eligible applicants who do not have such means, but pension money received by any member of the home from the United States government shall not be taken from him for his support in the home.

The regular appropriation by the state is \$15 per month for each member, and \$10 per month for each officer and employe not a member of the home.

IOWA SOLDIERS' ORPHANS' HOME—DAVENPORT.

Superintendent—FRED L. MAHANNAH.
Physician—L. P. ALLEN, M. D.
Steward—URIAS D. RUNKLE.
Head Matron—HARRIETT R. ROWLES.

There is in connection with this institution a school building, pleasant, commodious and well lighted, and it is the policy of the board to have the course of instruction of a high standard. A kindergarten is operated for the very young pupils.

The age limit beyond which children are not kept in the home is sixteen years. Fewer than 20 per cent remain to the age limit.

A library of well selected juvenile literature is a source of pleasure and profitable entertainment to the children, as from necessity their pastimes and pleasures are somewhat circumscribed.

It is the aim to provide the children with plenty of good, comfortable clothing, and to have them taught to take good care of the same. All their clothing is manufactured at the home, the large girls assisting in its manufacture. The table is supplied with a good variety of plain, wholesome food and a reasonable amount of luxuries.

The home is supported by a regular appropriation of \$14 per month for each inmate and the actual transportation charges of inmates to and from the institution. Each county is liable to the state for the support of its children to the extent of \$7 per month, except soldiers' orphans, who are cared for at the expense of the state.

On July 1, 1909, the management and control of the State University, the Iowa State College of Agriculture and Mechanic Arts, and the Iowa State Teachers College was assumed by the Iowa State Board of Education. This board consists of nine members, who are appointed by the governor and confirmed by the senate, under the provisions of an act of the thirty-third general assembly, approved by the governor March 29, 1909, and effective on publication. By chapter 141 of the acts of the thirty-fourth general assembly, the College for the Blind was placed under the control of this board. Under the provisions of the law, not more than five members of the board may be members of the same political party; and not more than one alumnus from each of the institutions may be members of the board. As required by the act, three of the members of the board were appointed for two years, three for four years, and three for six years. Subsequent appointments on the board, except to fill vacancies, are to be for terms of six years. Offices at the seat of the state government are to be furnished the board by the executive council, and the board also maintains an office at each of the three institutions. Members of the board are not required to give bond; and they are to receive a compensation of seven dollars per day for the time actually employed in the performance of their duties not exceeding sixty days in any one year, and are also allowed mileage at the rate of two cents a mile. The board is required to have four regular meetings each year and may hold additional ones on the call of the president or secretary. The duties of the board as set out in the act are as follows:

Sec. 4. The state board of education shall have power to elect a president from its members; a president and treasurer for each of said educational institutions, and professors, instructors, officers and employes; to fix the compensation to be paid to such officers and employes; to make rules and regulations for the government of said schools, not inconsistent with the laws of the state; to manage and control the property, both real and personal, belonging to said educational institutions; to execute trusts or other obligations now or hereafter committed to the institutions; to direct the expenditure of

all appropriations the general assembly shall, from time to time, make to said institutions, and the expenditure of any other moneys; and to do such other acts as are necessary and proper for the execution of the powers and duties conferred upon them by law. * * *

Members of the board choose, from outside their own membership, a finance committee of three members, not more than two of whom shall be members of the same political party. Each member of the finance committee receives a compensation of thirty-five hundred dollars a year, and serves for three years unless sooner removed by the board. The board designates one of the finance committee as chairman and one as secretary, and the secretary of this committee also serves as secretary of the board. The secretary has charge of the general offices and of all books and papers of the board at the seat of government. The members of the committee, in addition to their salaries, are entitled to mileage and necessary expenses. Each member of the finance committee is required to file a bond in the sum of \$25,000.00, which is to be approved by the governor. The members of the finance committee are required to visit each of the institutions once a month, and to familiarize themselves with the work there being done.

All official correspondence with the board should be addressed to the secretary of the Iowa State Board of Education, Capitol Building, Des Moines, Iowa.

STATE UNIVERSITY OF IOWA—IOWA CITY.

President—WALTER ALBERT JESSUP, PH. D., Iowa City.

Secretary—W. H. BATES, Iowa City.

Financial Agent—W. J. MCCHESENEY, Iowa City.

Superintendent of Grounds and Buildings—J. M. FISK, Iowa City.

The State University of Iowa, established February 25, 1847.

An act of congress, July 20, 1840, authorized the secretary of the treasury to set apart and reserve from sale of lands in the territory of Iowa for the use and support of a university to be established when Iowa should become a state. In 1846 Iowa was admitted into the Union with a constitution which provided that the general assembly should take measures to care for the lands granted and for the application of the income to support the university. In accordance with this provision the first general assembly on February 25, 1847, passed an act establishing and locating at Iowa City a state university. The capitol building and the land upon which it stood were donated to the university in view of the contemplated removal of the seat of government from Iowa City. Delay in removing the capital prevented the opening of the institution until March, 1855. The organization of departments began in the same year. From 1858 until 1860, owing to the lack of funds, the normal department was the only one in operation, and the university was reorganized in 1860. The law department was established in 1868, the medical department in 1870, the the homeopathic medical department in 1876, the dental department in 1882, the department of pharmacy in 1885, the graduate college in 1900, the college of applied science in 1905, the college of fine arts, or Mark Ranney memorial institute of fine arts, in 1911 (discontinued in 1913), and the college of education in 1913. In the course of the evolution of the university the various departments became, and now are, colleges.

From 1847 to 1870 the management of the university was in the hands of trustees, elected throughout most of the period by the legislature. In 1870 the legislature substituted a board of regents, consisting, aside from *ex-officio* members, of one member from each congressional district. In 1909, pursuant to an act of the thirty-third general assembly, the control of the State University of Iowa, together with that of the Iowa State Teachers' college and the Iowa State College of Agriculture and Mechanic Arts, passed into the hands of a state board of education.

The State University of Iowa is an integral part of the public school system of the state. As contemplated in its establishment, the work of the university is based upon the preparation afforded by the duly accredited high schools of the state, whose students are admitted to the undergraduate and professional courses upon the presentation of the proper certificates—except in the colleges of medicine and law, which require two years of collegiate work in preparation. The state, through the university, undertakes to furnish instruction in the various branches requisite for an education in the liberal arts, law, medicine, dentistry, pharmacy, fine arts, nursing, and engineering. It also aims to encourage research work in all departments.

The university embraces the following colleges and schools:

- The Graduate College;
- The College of Liberal Arts;
- The College of Law;
- The College of Medicine;
- The College of Homeopathic Medicine;
- The College of Dentistry;
- The College of Pharmacy;
- The College of Applied Science;
- The College of Education;
- The School of Commerce;
- The Schools for Nurses (Medical and Homeopathic Medical)
- The School of Music.

Integral parts of the institution are also: The summer Session, including the Iowa Lakeside Laboratory at Lake Okoboji, the School for Library Training.

The Graduate College unites the university's equipment to advanced study and research, its courses beginning where the courses in the other colleges end. It offers work leading to the degrees of M. A., M. S., and Ph. D.

The College of Liberal Arts is the center around which the university has grown. It offers upwards of three hundred liberal and vocational courses in the arts and sciences, these courses leading to the degree of B. A. and B. S., the latter only in connection with combined courses in liberal arts and professional studies (see below).

The College of Law offers a course of three years leading to the degree of LL. B. For admission two years of study in a liberal arts college are required.

The College of Medicine offers a course of four years leading to the degree of M. D. The college is recognized by the American Medical Association in "Class A." Two years of liberal arts study are required for admission.

The College of Homeopathic Medicine offers a course of four years, leading to the degree of M. D. Its departments of surgery, obstetrics and gynecology, ophthalmology, etc., materia medica, and theory and practice of medicine have been established by statute. Its other departments (anatomy, physiology, bacteriology, etc.,) are shared with the College of Medicine.

The College of Dentistry offers a course of three years leading to the degree of D. D. S. This course is to be extended to four years in the fall of 1917. The college is one of the six leading dental colleges in the country which meet the standards of the Dental Faculties Association of American Universities.

The College of Pharmacy offers a two years' course leading to the degree of B. Phar. and a three years' course leading to the degree of Ph. C.

The College of Applied Science offers courses in civil sanitary, mechanical, electrical and general engineering, and in chemistry. These are each of four years and lead to the degree of B. E. Advanced degrees are also given in C. E., M. E., etc.

The College of Education unites the various facilities of the university for the training of teachers, with special reference to administrative work and

the higher positions. Its courses lead to the certificate of the College of Education.

The School of Commerce, established in September, 1914, is organized within the College of Liberal Arts and its course leads to the degree of B. A.

The Schools for Nurses are two in number, one conducted in the university hospital under the direction of the faculty of the College of Medicine, the other in the university homeopathic hospital under the direction of the faculty of the College of Homeopathic Medicine.

The School of Music is a part of the College of Liberal Arts. It offers courses in piano, voice, pipe organ, violin, band instruments, and in the history and theory of music.

The summer session of two terms, one of six weeks, from June 18 to July 28, the other of four weeks, from July 30 to August 25, is a regular session of the colleges of Liberal Arts, Education, Applied Science, and the Graduate College. The session also includes the Iowa Lakeside Laboratory and the School for Library Training.

"Combined courses" in Liberal Arts and professional studies permit the attainment in a shortened period of the double degrees of B. S. or B. A. and M. D.; B. A. and LL. B.; B. S. and D. D. S.; B. S. and B. E.; and D. D. S. and M. D.

IOWA STATE COLLEGE OF AGRICULTURE AND MECHANIC ARTS— AMES.

President—RAYMOND ALLEN PEARSON, M. S. in Agr., LL. D., Ames.

Secretary—EDGAR WILLIAMS STANTON, LL. D., Ames.

Treasurer and Registrar—HERMAN KNAPP, B. S. A., Ames.

Superintendent Buildings and Grounds—THOMAS SLOSS, Ames.

The general scope of the college work as provided by law is as follows:

"There shall be adopted and taught practical courses of study, embracing in their leading branches such as relate to agriculture and the mechanic arts, and such other branches as are best calculated to thoroughly educate the agricultural and industrial classes in the several pursuits and professions of life, including military tactics, and, as a separate department, a school of mines, in which a complete course in theoretical and practical mining in its different branches shall be taught."

On March 22, 1858, the legislature of Iowa passed an act providing for the establishment of a State College of Agriculture.

On July 2, 1862, congress passed what became known as the "First Morrill Endowment Act." This act provided for the donation of public lands to the several states which might found colleges for instruction in the branches of learning relating to agriculture and mechanic arts. The quantity of land to be donated under the provisions of this act was 30,000 acres for each senator and representative in congress under the census of 1860. Under this grant, land to the amount of 204,309.30 acres was selected and certified to the state by the secretary of the interior. On March 29, 1864, there was approved an act of the legislature turning over to the Iowa State Agricultural College all the land above described.

In addition to this the college of agriculture received 3,200 acres of land in Jasper county, under what was known as the "Five Section Grant." All this land has been sold, and the proceeds constitute a permanent endowment fund amounting at the present time to \$686,777.97. The interest only on the fund can be used for the support of the college.

The college has been further aided by the general government by an act of congress approved August 30, 1890, known as the "Second Morrill Act," which gives the sum of \$25,000.00 per annum for the support of the college, and the Hatch act of March 2, 1887, and the Adams act approved March 16,

1906, which carry \$15,000 each per annum for agricultural experimentation.

For ten years the legislature made a special levy of one-fifth of a mill for the erection of buildings. This has resulted in the erection of a number of the finest and most useful buildings on the college campus. This tax expired July 1, 1915, after which an appropriation of \$150,000 per year for two years became available for erection of buildings.

In addition to this, the various legislatures have made liberal appropriations for the general support of the college.

AGRICULTURAL EXPERIMENT STATION.

CHARLES FRANKLIN CURTISS, B. Sc., D. S., *Director*, Ames.

The Iowa Agricultural Experiment Station was established in accordance with an act of congress, approved March 2, 1887, for the purpose of aiding "in acquiring and diffusing among the people of the United States useful and practical information on subjects connected with agriculture, and to promote scientific investigation and experiments respecting the principles and application of agricultural science."

This station derives its support in part from the national government and in part from the state, as follows: For the year 1916-1917 from the national government \$30,000.00, from the state \$115,500.00.

The work of the Agricultural Experiment Station now includes the following lines of investigation: Soils and farm crops, farm management, animal husbandry, horticulture and forestry, agricultural engineering, botany, dairying, entomology, chemistry, bacteriology and rural sociology. The results of investigations and experiments along these lines are published in bulletin and circulars which are distributed free to all residents of the state who apply for them. During the biennial period ending June 30, 1916, the Agricultural Experiment Station published twenty-four (24) regular bulletins, sixteen (16) research bulletins, fourteen (14) circulars, and two (2) press bulletins, making a total of fifty-six (56) bulletins, aggregating over 766,000 copies.

The work of the Agricultural Experiment Station is of direct service to the agricultural interests of the state and nation. The results of experiment station investigations serve as the basis for agricultural instruction from the standpoint of both the college and extension work. It is now universally recognized that little progress can be made by agricultural colleges, either in teaching their students or in carrying information directly to farmers, until definite data have been secured concerning the scientific and practical problems which constitute the basis of our present day agriculture. For this reason the work of the Agricultural Experiment Station is of fundamental importance, and should receive adequate support from both the nation and the state.

ENGINEERING EXPERIMENT STATION.

INCLUDING GOOD ROADS EXPERIMENTATION.

ANSON MARSTON, C. E., *Director*, Ames.

The Engineering Experiment Station was established at the Iowa State College by the legislature of Iowa in 1904, to meet the demands made upon the college, by industrial, urban and agricultural interests for information and assistance. Since its creation, its growth has been rapid, and the demands upon it have more than justified its existence.

The purpose of the station is to afford a service, through scientific investigations, evolution of new devices and methods, educational information on technical subjects and tests and analyses of materials for the manufacturing and other engineering population and industries of Iowa; for the agricultural industries of the state in the solution of their engineering problems;

for the urban and rural population of the state in the solution of the engineering problems of urban and rural life.

From the first the Station has carried on original investigations along the lines of vital interest to the people of Iowa, and have published the results in bulletin form for free distribution. Twenty-five thousand dollars (\$25,000) annually is available for this work.

An indication of the experimental work which has been done by the Station is shown by the following list of bulletins published. Many of these investigations are being extended, and others of vital importance are under way, and the results will be published in bulletin form for free distribution.

Any of the above bulletins not out of print will be sent free upon request addressed to Director A. Marston, Engineering Experiment Station, Station "A", Ames, Iowa.

The Station is often called upon to furnish educational information of a preliminary or general character regarding engineering and industrial projects. It does not make estimates, prepare or correct sketches, plan or specifications, or supervise construction. Its work throughout is educational and does not enter in any way the field of the consulting or practicing engineer or contractor. As such service is of a public nature, the preliminary educational information is furnished free of charge, except for traveling expenses where such are incurred.

For many years the Engineering Experiment Station has made tests and analyses of materials for state departments, counties, townships, cities, factories, corporations and individual citizens of Iowa. Such materials include cement, concrete, brick, building tile, sewer pipe, drain tile, asphalt and other paving materials, iron, steel, wood, stone, gravel, sand, clay, cement materials, fuels, water, sewage, and the like. Before the establishment of commercial testing laboratories in Iowa, the Station in an endeavor to encourage the testing of materials made charges for this work only sufficient to cover the actual cost. With the advent of commercial laboratories it becomes the duty of the Station to encourage this industry just as it encourages others. The charges for tests have, therefore, been made such that the Station will not assume the role of competitor with commercial laboratories. The Station stands ready to make check tests or to act as final authority on questions of this nature, but would prefer that all routine tests be made by outside laboratories. The amount and character of the testing work will be so restricted in the future as not to interfere seriously with the investigational work.

VETERINARY INVESTIGATIONS.

C. H. STANGE, *Dean.*

This work was organized under provisions made by the thirty-fifth general assembly. Considerable information concerning hemorrhagic septicemia in cattle has been secured, a serum produced and a number of herds treated. Other diseases have been studied and much time has been given to hog cholera and complications of this disease.

EXTENSION WORK.

R. A. PEARSON, *President.*

The extension work of the Iowa State College of Agriculture and Mechanic Arts is divided into two branches—agricultural extension and engineering extension.

AGRICULTURAL EXTENSION.

R. K. BLISS, *Director.*

The agricultural extension work was established permanently by enactment of the thirty-first general assembly of Iowa. This act provided for giving lec-

tures and demonstrations on the growing of crops and fruits, on stock raising, dairying, land drainage and kindred subjects, including domestic science. Specific mention was made in this act of instruction in corn and stock judging at the agricultural fairs, institutes and clubs and aid in conducting short courses of instruction at suitable places throughout the state.

ENGINEERING EXTENSION.

K. G. SMITH, *Director*.

The thirty-fifth general assembly of Iowa provided an appropriation to establish this work. It includes short courses of instruction in industrial centers and correspondence courses, and special attention is given to the needs of young men wishing to better prepare themselves for expert positions in public service and manufacturing work.

HOG CHOLERA SERUM PLANT.

C. H. STANGE, *Director*.

This work was started under an appropriation of \$35,000 made by the thirty-fifth general assembly for the production of biological products, especially hog cholera serum. The plant is self-supporting. Permanent buildings have been erected. Up to December 31st, 1916, 17,675,782 cubic centimeters of serum had been produced. This serum was used in treating 7,736 herds.

It used the title Iowa State Normal School from 1876 to 1909 and since that time the title Iowa State Teachers College, authorized by an act of the general assembly. It is a college in its standards as to graduating with a degree from its courses, though it admits and instructs teachers and grants diplomas of special varieties for all classes of teachers, rural and elementary, needed by the public schools. For admission to college courses, graduation from an accredited high school is required. For admission to subcollegiate courses and rural teachers work an elementary education is required. For information regarding courses and organization of the institution see another page in this publication.

The department of music is supplied with a number of pianos, one pipe organ, and a number of stringed instruments. All students who have any talent in music are given a thorough course in this department. All students are required to do work in the industrial department. The girls are taught knitting, crocheting, fancy-work, hand and machine sewing, and domestic science. The boys are taught netting, weaving, broom making, cane scating, manual training and piano tuning. These advantages are free to all blind children of school age and those who have vision so defective as to prevent them from attending the public schools, providing they are mentally normal. IOWA STATE TEACHERS COLLEGE—CEDAR FALLS.

This institution is organized to give teacher education and training and does not undertake any other kind of educational work. Its courses are planned to give efficiency and capability to the students as workers in public schools. Its field of service grants preparation to high school teachers, to elementary and primary teachers, and to all kinds of special teachers now demanded by the public schools of the state. Its plan is that of a vocational school and everything that is done has a bearing upon the training of young men and women for service in the system of public education maintained in the state. Its degree graduates are admitted without conditions to the graduate schools of the universities and its alumni hold important positions in public service in every state where they are employed. Its diplomas are Bachelor of Arts in Education, Special Teacher Diplomas such as Primary, Junior College, Kindergarten, Art, Public School Music, Manual Arts, Home Economics, Physical Education, Commercial, Rural Education, Rural Teacher and Normal Course. In addition music teachers are granted diplomas for Piano, Organ, Violin and Voice.

The college year is divided into four quarters of twelve weeks each and a class graduates at the end of each quarter, thus giving much flexibility to the courses and a superior opportunity for candidates for graduation in their practice in teaching in the training schools. The training schools are located on the campus—all grades being organized from the kindergarten to the senior in the high school—in the school buildings in the Cedar Falls city schools and in seven civil township systems in Black Hawk county. The expanse of this organization gives unusual opportunities for practical development and for the acquiring of capability in instruction.

The enrollment of students and training schools in 1915-16 was as follows: College Graduates 75, College Course Students 552, Two and Three Year Diploma Course Students 1,012, Special Students 27, Sub-Collegiate and Rural Teacher Students 2,425, Special Music Students 47. Total enrolled in Institution, 4,138. Training Schools: Campus High Schools and Grades 293, City High School and Grades 185, Rural Demonstration Schools 355. Total pupils, 833.

The extension service consists of Saturday classes meeting in the several counties of the state, receiving all day instruction in the subjects and topics approved by the county superintendent and continuing from month to month and from year to year for the improvement in scholarship and methods of the teachers in service. In 1915-16 there were 13,992 teachers enrolled in the study center classes.

The value of the permanent improvements and equipments is estimated to be \$1,500,000.00. This annual support, including building funds granted by the state in 1915-16, and including balance on hand at the opening of the year was \$402,578.85. The income from all other sources such as laboratory fees, hospital fees, student tuitions, etc., was \$109,186.52.

BENJAMIN I. SALINGER,

Was born in Wronke, Germany; emigrated with his parents to the United States at the close of the Franco-Prussian war, coming to Clarksville, Butler county, Iowa, where the family remained a short time; moving thence to Chicago. The family returned to Clarksville, where he attended the public school for a period of two years; did janitor work while attending, and worked on farms and at sawing wood when not attending. Later he attended Cornell College at Mount Vernon. He afterwards went to Waverly, and entered the law office of Gray, Dougherty and Gibson, then to Webster City where he studied in the law office of Chase and Covill for a short time. At the same time he assisted the editor of the "Freeman" in that city. At this point came the first country school which he taught some three miles southeast of Williams in Hamilton county. He next located at Spencer, Iowa, there he joined with a lawyer to take on "justice practice" because not of age. After this the subject of this sketch went to Cherokee county where he engaged in school teaching, herding, farm work, and between terms of school, working on streets of Aurelia. At this time he met Lucy M. Boylan as his pupil, and married her before either were of age. Went to the town of Manning, which was then being started. Was the first school teacher there on an arrangement by which the township had to pay one half the wages and the citizens of the town paid the other half. In the spare time justice of the peace work was done, as a member of a newly formed firm of Doty, Hughes & Salinger. The school job finally developed into that of being principal with six rooms scattered over the town. When his majority was reached he was naturalized at Carroll by Judge C. F. Loufborow, and shortly after he was admitted to the bar by the same judge on examination of a committee of the Audubon bar. Went into practice of law at Manning, and after some fifteen years moved to Carroll, remaining in the practice there until elected to the supreme bench in November, 1914, by a non-partisan election. The home of himself and wife remains at Carroll. Their children are Daisy R. Minchen, Benjamin I., Jr., and Louis Howard.

Mr. Salinger has held no other office except one term as school director in Manning and two four year terms of supreme court reporter.

Politically he has been identified with the republican party. He campaigned for it in New York in the national election of 1888; in the Pacific states in 1892; all over the country in 1896, 1900 and 1904. His first delegateship to a congressional convention was the one held at Webster City in 1888, which gave J. P. Dolliver his first nomination for congress. Mr. Salinger was the chairman of that convention. Was chairman of the state convention in 1899. It was one of the stormiest ones in the history of the party. It required 25 ballots to make the nomination for governor. It finally nominated Captain Hutchinson, whom Horace Boies defeated.

THIRTY-SEVENTH GENERAL ASSEMBLY.**THE LEGISLATIVE DEPARTMENT.**

The legislative department of the state of Iowa is vested in a general assembly, which consists of a senate and house of representatives.

The senate consists of fifty members. Senators are elected for terms of four years; twenty-one senators being elected at one general election and twenty-nine at the next.

The house of representatives consists at present of one hundred and eight members, who are elected for a term of two years.

Sessions of the general assembly are held biennially in the odd numbered years, and they commence on the second Monday of January.

The compensation of the members of the thirty-seventh general assembly was \$1,000 for the session. This is in accordance with an act of the thirty-fourth general assembly which went into effect July 4, 1911. They were also allowed five cents a mile from their homes to the capital and return for traveling expenses. Members are permitted to draw such stationery as they need during the session, the cost to the state for the supplies varying from \$1.50 to \$14.00 per member. No allowance is permitted for postage.

The lieutenant governor is the presiding officer of the senate. His pay is twice that of a member, being \$2,000 for the session of the thirty-seventh general assembly.

The speaker of the house is chosen by the members from among their own membership. His pay is twice that of a member, being \$2,000 for the session.

The lieutenant-governor appoints all committees in the senate and the speaker of the house all committees in the house.

In the regular proceedings of the senate motions made by members are not seconded but are put directly by the presiding officer, the formality of a second being waived. In the house all motions are seconded before being placed before the house by the speaker.

Sessions in both branches of the general assembly are opened by prayer. No regular chaplains are employed, but ministers from Des Moines and elsewhere over the state are assigned dates for these services and are allowed \$5 for each opening prayer.

Bills passed are re-written (enrolled) by the enrolling clerk of the branch of the general assembly where the bill originates; they are then signed by the president of the senate and speaker of the house in presence of these respective bodies, in open session; then by the governor, if meeting with his approval, and then are filed with the secretary of state and by him bound in book form, after the close of a session.

JOINT RULES OF THE THIRTY-SEVENTH GENERAL ASSEMBLY.**COMMITTEE ON CONFERENCE.**

1. Whenever either house shall amend a measure and the other house shall refuse to concur in and adopt the amendment, the house which has adopted such amendment shall either insist on or recede from the same. But when a measure originating in one house is amended in the other, the house in which it originated may amend such amendment and a motion therefor shall take precedence of a motion to concur. In case said house refuses to concur, the house which adopted the amendment may either recede from or insist upon such amendment, and a motion to recede takes precedence of a motion to insist. In case a motion to insist on the amendment be decided in the negative, such action shall be deemed

as receding from the amendment and so entered upon the journal of the house. In case the amendment is insisted upon, the house so insisting shall request a committee of conference on the subject of disagreement, and shall appoint a committee therefor. The other house shall thereupon appoint such a committee. Unless another number is specified in said request, such conference committee shall consist of four members from each house. They shall meet at a convenient time, to be agreed upon by their chairman, and having conferred freely each shall report to their respective house the result of their conference. In case of agreement, the report shall be first made, with the papers referred accompanying it, to the house which refused to concur, and there acted upon; and such action shall be immediately reported by the secretary or clerk to the other house, the papers referred accompanying the message. In case of disagreement of the conference committee, the papers shall remain with the house which insisted on the amendment. The agreeing report of a conference committee shall be made, read and signed in duplicate by all the members of the committee, or by a majority of those of each house, one of the duplicates being retained by the committee of each house.

TRANSMISSION OF MESSAGES.

2. When a message shall be sent from either house to the other, it shall be announced at the door of the house to which it is sent by the doorkeeper thereof, and shall be respectfully communicated to the chair by the person by whom it is sent.

WHO SHALL TRANSMIT MESSAGES.

3. All messages between the two houses shall be communicated by the secretary or chief clerk of their respective assistants.

ENROLLING BILLS.

4. When a bill shall have passed both houses it shall be duly enrolled by the enrolling clerk of the house in which it originated, and the fact of its origin shall be certified by the endorsement of the secretary or clerk thereof.

EXAMINATION OF ENROLLMENT BY JOINT COMMITTEE.

5. When the bills are enrolled they shall be examined by a joint committee of two from the senate and two from the house of representatives, who shall be a standing committee for that purpose, and who shall carefully compare the enrollment with the engrossed bills, as passed in the house, correct any errors therein, and make report thereof forthwith to their respective houses.

SIGNATURE OF BILLS.

6. After the report, each bill shall be signed, first by the speaker of the house of representatives, and then by the president of the senate, in the presence of their respective houses.

TRANSMISSION TO THE GOVERNOR.

7. After a bill shall have been thus signed in each house, it shall be forthwith presented, by committee of the house in which the bill originated, to the governor, for his approval, and they shall forthwith report the date of presentation, which shall be entered upon the journal of the house in which the bill originated.

WHAT SHALL BE ENROLLED.

8. All orders, resolutions, memorials or other votes, which are to be presented to the governor for his approval, shall be enrolled, examined, signed and presented in the same manner as bills.

ENDORSEMENT OF BILLS.

9. When any bill, resolution or memorial, which shall have passed in one house, is rejected or adopted in the other, notice of such action shall be given to the house which passed the same. And each bill, resolution or memorial shall have properly endorsed thereon, at the time of its transmission, a statement, signed by the secretary or clerk, of the action which has been taken thereon by the house transmitting the same, with the date thereof.

PROCEDURE FOR SECOND INTRODUCTION OF BILLS.

10. When a bill, resolution or memorial which shall have passed one house is rejected in the other, it shall not be again introduced during the session without five days' notice and leave of a majority of the members of the house in which the same is sought to be introduced.

TRANSMISSION OF ADDITIONAL DOCUMENTS.

11. Each house shall transmit to the other with any bill, resolution or memorial all papers upon which the same shall be founded.

PRINTING OF BILLS.

12. When any report, bill or resolution shall be ordered printed by either house, without stating the number, three hundred copies shall be printed for the use of both houses, but when any bill or resolution which may have passed one house is ordered printed by the other, a greater number of copies shall not be printed than the house making the order shall determine.

COMMUNICATION OF PRINTING ORDERS.

13. It shall be the duty of the chief clerk of the house of representatives and the secretary of the senate, when any document, except bills and resolutions, is ordered to be printed in their respective houses, forthwith to communicate such order to the other house.

ARRANGEMENT OF ROLL CALL IN JOINT CONVENTION.

14. In all lectures in joint convention of the two houses, the names of all members shall be arranged in alphabetical order, and they shall be called upon to vote in the order in which they stand arranged.

DUTY OF COMMITTEE ON CLAIMS.

15. It shall be the duty of the committee on claims in each house to keep a book of record, in which shall be entered each claim for money against the state referred to them, whether presented in favor of private persons or municipal or other corporations, entering therein the name of the claimant, the amount of the claim, the grounds therefor, with note of the evidence offered in support of the same, and the final conclusion of the committee thereon. At the close of the session said book of record shall be deposited with the auditor of state, to be kept by him, and he shall provide an index, showing the names of the claimants recorded therein. At any subsequent session the same shall be delivered, when desired, to the like committee having jurisdiction of such claims and shall always be open to the examination of the said committee of either house.

RULES OF THE SENATE.

REGULAR ORDER OF DAILY BUSINESS.

1. The following order shall govern:
 - (1) Presentations of petitions and memorials, addressed to the senate or the general assembly.
 - (2) Introduction of bills.
 - (3) Resolutions.
 - (4) Communications on the president's table, including house messages.
 - (5) Reports of standing committees, in order in which they stand in the rules, except the committee on engrossed and enrolled bills, rules and printing.
 - (6) Reports of select committees.
 - (7) Unfinished business before the senate.
 - (8) Third reading of bills.
 - (9) General order of the day.

PRESIDENT AND HIS DUTIES.

2. The president shall take the chair at the hour to which the senate is adjourned and call the senate to order; and, if a quorum be present, he shall proceed with the regular order of daily business, unless otherwise ordered by the senate, or unless a special order for the day shall interfere therewith. He shall preserve order and decorum, and decide all questions of order, subject to an appeal to the senate. He shall appoint all committees, unless otherwise especially ordered. Immediately preceding the adjournment of each morning session, or, in case it cannot be done during that session, then as soon after the convening of the next following session as he may find most convenient, the president shall call for corrections of the journal of the last day's proceedings. He shall then cause any mistakes therein to be corrected by the secretary, and the journal shall then be approved.

PRESIDENT PRO TEM. ELECTION AND DUTIES.

3. The senate shall, at its pleasure, elect a president pro tem, who shall hold his office during the remaining portion of the time for which the president was elected; and when the president shall, from any cause, be absent, the president pro tem shall preside, except when the chair is filled by appointment by the president.

MESSENGERS.

4. There shall be appointed by the lieutenant governor, at each session of the senate, to hold their positions during such session, but subject to be dis-

charged by the president of the senate for inefficiency or misbehavior, or other reasons; in his judgment justifying such discharge, six messengers for the senate. And the president may appoint other messengers in the place of any discharged.

CALL OF SENATE AND ATTENDANCE.

5. One-fourth of the members may have a call of the senate, and absent members sent for and their attendance enforced.

MANNER OF SECURING RECOGNITION.

6. When a member is about to speak, in debate, or deliver any matter to the senate, he shall rise from his seat and respectfully address himself to "Mr. President," and shall confine himself to the question under debate, avoid personalities and the imputation of improper motives. No senator shall be permitted to speak more than fifteen minutes on any one question unless his time is extended by consent of a majority of the Senate.

VIVA VOCE VOTE. DIVISION.

7. When the vote is taken viva voce, questions shall be distinctly put in this form: viz: "As many as are of the opinion (as the case may be) say 'aye.'" And after the affirmative voice is expressed: "As many as are of the contrary opinion say 'No.'" If the president doubt, or a division be called for, the senate shall divide—those in the affirmative of the question shall first rise from their seats, and afterwards those in the negative.

VOTING.

8. Every member present when a question is put shall vote, unless he shall, for special cause, be excused by a vote of the senate; but no member shall vote on any question in the event of which he is directly and personally interested, or except by consent of the senate, in any case where he was not present when his name was called in the taking of the vote. Provided, that any member who was absent by leave of the senate may vote at any time before the result is announced.

MOTIONS AND RESOLUTIONS. WHEN IN WRITING.

9. All motions (except to adjourn, postpone, or commit) shall be reduced to writing, if required by any member of the senate. Any motion or resolution may be withdrawn by the mover, provided the same has not been amended by the senate, and that no amendment is pending thereto.

DEBATE. WHAT MOTIONS IN ORDER. PRECEDENCE.

10. When a question is under debate, no motion shall be received but to adjourn, to lay on the table, for the previous question, to postpone to a day certain, to commit or amend, to postpone indefinitely, which several motions shall have precedence in the order in which they are named; and no motion to postpone to a day certain, to commit or postpone indefinitely, being decided, shall be again allowed on the same day, and at the same stage of the bill or proposition. A motion to strike out the enacting clause of a bill shall have the precedence of a motion to amend; and, if carried, shall be considered equivalent to the rejection of the bill.

MOTIONS NOT DEBATABLE.

11. A motion to adjourn, to lay on the table, and for the previous question, shall be decided without debate, and all incidental questions of order arising after the motion is made for the previous question, and pending such motion, shall be decided—whether an appeal or otherwise—without debate.

PREVIOUS QUESTIONS.

12. The previous question shall be in this form: "Shall the main question be now put?" It shall only be admitted when demanded by a majority of the members present, and its effect shall be to put an end to all debate, and bring the senate to a direct vote upon the pending amendments and then upon the main question, unless otherwise indicated by the motion and ordered by the senate, except that the member in charge of the measure under consideration shall have ten minutes in which to close the discussion, immediately before the vote is taken upon the main question. If the previous question is decided in the negative, the senate shall proceed with the matter before it, the same as though the previous question had not been moved.

DIVISION OF QUESTION.

13. Any member may call for a division of a question which shall be divided, if it comprehends propositions in substance so distinct that one being taken away, substantive propositions shall remain for the decision of the senate. A motion to strike out and insert shall be deemed indivisible; but, a motion to strike out being lost, shall preclude neither amendments to the matter attempted to be stricken out, nor a motion to strike out and insert.

WHO MAY MAKE MOTION TO RECONSIDER.

14. When a motion or question has been decided, any member having voted on the prevailing side may move a reconsideration, on the same or next legislative day. "If any motion to reconsider a bill or joint resolution is made within three days of the day fixed for the final adjournment, it shall be acted upon on the day the motion is made or the same shall be considered withdrawn."

PRINTING IN RECORD.

15. A motion to print any paper presented to the senate, may, on motion, be referred to the committee on printing, whose duty it shall be to report, at the earliest time practicable, on the propriety of printing.

INTRODUCTION OF BILLS AND JOINT RESOLUTIONS, READINGS. HOW WRITTEN.

16. Every bill shall be introduced on the report of a committee, or by leave and shall at once be given its first reading. Every bill and joint resolution shall have received three several readings previous to its passage; but no bill or joint resolution shall have its second and third readings on the same day, without a suspension of this rule; and every bill and joint resolution shall express in its title the object thereof. All rules of the senate applicable to bills shall apply with equal force to joint resolutions. Each bill and proposed joint resolution, when introduced, shall be typewritten double-space, and accompanied by two copies thereof.

PETITIONS AND MEMORIALS, ENDORSEMENTS, PRESENTATION.

17. Before the same is presented, there shall be endorsed on each petition a brief statement of the subject matter thereof, and on each bill and joint resolution the title thereof, and in either case the name of the senator presenting the same. In presenting a petition, the senator shall briefly state from his place in the senate chamber the subject matter to which the petition relates.

FIRST READING OF BILL OR A JOINT RESOLUTION. OBJECTION.

18. The first reading of a bill or joint resolution shall be for information, and, if objection be made to it, the question shall be: "Shall the bill (or joint resolution, as the case may be) be rejected?" If no objection be made, or the question to reject be lost, the bill or joint resolution shall go to its second reading without further questioning.

SECOND READING. COMMITMENT. CONSIDERATION ON.

19. Upon the second reading of a bill or joint resolution, the president shall refer the bill to an appropriate standing committee, unless otherwise ordered by the senate. If ordered by the senate to be considered by the committee of the whole, the senate shall fix the day for its consideration. If the bill or joint resolution be ordered to be engrossed, it shall be in order for its third reading any session after that day. No bill or joint resolution shall be committed or amended until it shall have been twice read.

APPROPRIATION BILLS. DUTIES OF COMMITTEE. TIME TO REPORT.

20. (a) All bills carrying appropriations or involving the expenditure of state funds shall be referred to the committee on appropriations, which the committee shall report back to the senate not later than the first Monday after March 1st. After the third legislative day prior to said Monday. House bills shall be reported back by said committee within three days from the reference thereto. No amendment to any bill reported by the committee on appropriations, or to any item thereof, shall be in order, except such as is germane to the subject matter of the bill, or item thereof, sought to be amended, and shall retrench expenditures and reduce the amounts of money covered by the bill or items thereof.

WHEN INTRODUCED.

(b) No bill shall be introduced in the senate after March 15th, except such bills as may be reported from standing committees as committee bills.

SCHEDULE OF APPROPRIATIONS. WHEN MADE BY COMMITTEE.

(c) On or before the first Monday after March 10th, the committee on appropriations shall prepare an itemized schedule of all appropriations recommended by the committee on appropriations, and have the same printed and laid upon the desks of members, and no appropriation bill shall be taken up for consideration and passage until the third legislative day thereafter.

EDUCATIONAL INSTITUTIONS AND INSTITUTIONS UNDER THE BOARD OF CONTROL.

(d) Bills carrying appropriations for the state educational institutions and the institutions under the charge of the board of control shall not be introduced later than February 15th, and no bill carrying an appropriation for any purpose shall be introduced after March 1st, except by the committee on appropriations.

THIRD READING OF BILLS. ENGROSSING. VOTE ON.

21. When a question is lost on engrossing a bill, or joint resolution for a third reading on a particular day, it shall not preclude a question to engross it for a third reading on a different day. After a third reading of a bill or a joint resolution, no amendment (except to fill blanks) shall be received, except by unanimous consent of the members present; and the vote on its final passage shall be immediately taken without debate.

COMMITMENT.

22. A bill or joint resolution may be committed at any time previous to its third reading.

AMENDING.

23. In filling blanks, the largest sum and longest time shall be first put.

HOUSE AMENDMENTS. CONCURRENCE IN.

24. On the return of a bill or joint resolution from the house, with an amendment, it shall be placed with the third reading of bills, unless the senate shall otherwise order. On the question of adopting the amendment the vote shall be taken on the final passage of the bill, and if the amendment be adopted by a constitutional majority, no further vote is necessary.

PRINTING OF BILLS AND JOINT RESOLUTIONS.

25. All bills and joint resolutions introduced, except local or legalizing bills, shall be printed, unless otherwise ordered by the senate, and committees may order to be printed any bills under consideration by them, and any substitutes for bills or resolutions reported by them.

REPORTS OF COMMITTEES. WHEN IN ORDER.

26. It shall be in order for the committee on engrossed and enrolled bills, on rules and on printing to report at any time, when no member is addressing the senate.

SPECIAL ORDER. WHEN CONSIDERED.

27. When any special order of the day is not proceeded with on the day assigned, it shall stand as a general order on each succeeding day until disposed of, unless otherwise ordered, but its consideration cannot be moved until that order of business is reached, when it shall be taken up in order of its file, and shall be taken up in order of precedence.

The clerk shall be selected by such vote, and in like manner may be discharged for inefficiency, or when the services of the clerk become unnecessary. All committee clerks shall be competent stenographers and of good moral character. Any clerk may be discharged for inefficiency, immorality or indecent or unbecoming conduct, whether in or out of the senate chamber; and, upon the request of any senator or the president of the senate, made to the chairman of a committee, a meeting of the committee shall be called for the purpose of considering the question of the discharge of such clerk upon any of the grounds above specified.

31-a. The chairman or clerk of a committee, except of the appropriation committee, to whom a bill is referred, shall note thereon the date of its reference, and it shall be the duty of each committee to report back all bills in its hands, within fifteen days after the order of reference, unless a different time is granted by a vote of the senate.

32. When a vote is taken in any committee upon any bill or resolution before it, or any motion relating to the merits thereof, the chairman shall see that no person is present except the members and clerk of said committee, unless otherwise ordered by the committee.

REPUBLICAN PARTY

CALL FOR THE REPUBLICAN NATIONAL CONVENTION OF 1916.

To the Republican Electors of the United States:

In accordance with established custom and in obedience to instructions of the Republican National Convention of 1912, the Republican National Committee now directs that a National Convention of delegated representatives of the Republican party be held in the City of Chicago, in the State of Illinois, at eleven o'clock a. m., on Wednesday, the 7th day of June, 1916, for the purpose of nominating candidates for President and Vice-President, to be voted for at the presidential election on Tuesday, November 7, 1916, and for the transaction of such other business as may properly come before it.

The republican electors of the several states and the District of Columbia, Alaska, Hawaii, Porto Rico and the Philippine Islands, and all other electors without regard to past political affiliations, who believe in the principles of the republican party and indorse its policies, are cordially invited to unite under this call in the selection of delegates to said convention. Said National Convention shall consist of four delegates at large from each state, and two delegates at large for each representative at large in congress; one delegate from each congressional district; an additional delegate for each congressional district in which the vote for any republican elector in 1908, or for the republican nominee for congress in 1914, shall have been not less than 7,500; two delegates each from the District of Columbia, Alaska, Hawaii, Porto Rico and the Philippine Islands. All delegates from any state may, however, be chosen from the state at large, in the event that the laws of the state in which the election occurs so provide. Alternate delegates shall be elected to this convention for each unit of representation equal to the number of delegates elected therein. In the absence of any delegate at large or delegate from a congressional district, the roll of alternates for the state or district shall be called in the order in which the names are placed upon the roll of the convention.

Delegates at large and their alternates, and delegates from congressional districts and their alternates, shall be elected in the following manner:

(1) By primary elections, in accordance with the laws of the state in which the election occurs, in such states as require by law the election of delegates to national conventions of political parties by direct primaries; provided, that in any state in which republican representation upon the board of judges or inspectors of elections for such primary election is denied by law, delegates and alternates shall be elected as hereinafter provided.

(2) By congressional, territorial or state conventions, as the case may be, to be called by the congressional, territorial or state committees, respectively. Notice of the call for such conventions shall be published in a newspaper or newspapers of general circulation in the district, territory or state. In a congressional district where there is no republican congressional committee, the republican state committee shall issue the call and make said publication.

No delegates or alternates shall be deemed eligible to participate in any convention to elect delegates to the national convention who were elected prior to the adoption of this call.

Delegates presenting certificates of election from the canvassing boards or officer created or designated by state law to canvass the returns and issue certificates of election to delegates to the national convention shall be placed upon the temporary roll of the convention by this committee.

The election of delegates from the District of Columbia shall be held under the direction and supervision of an election board composed of Charles Linkins, Charles H. Bauman and Jesse H. Foster, of the District of Columbia.

This board shall have authority to fix the date of said convention, subject to the provisions of this call, and to arrange all details incidental thereto; and shall provide for a registration of the votes cast, such registration to include the name and residence of each voter.

The delegates from Alaska, Hawaii, Porto Rico and the Philippine Islands shall be elected in conformity with the rules and regulations adopted by this committee, copies of which will be furnished to the governing committee of the republican party in such territory and insular possessions.

All delegates and alternates shall be elected not earlier than thirty days after the date of this call, and not later than thirty days before the date of the meeting of the Republican National Convention, for which this call is issued, unless otherwise provided by the laws of the state in which the election occurs.

The credentials of each delegate and alternate elected prior to May 24, 1916, must be forwarded to the Secretary of the Republican National Committee, at the office of the National Committee, Wilkins Building, Washington, D. C., promptly upon such election. The credentials of each delegate or alternate elected after the 23d day of May, 1916, must be forwarded to the Secretary of the Republican National Committee, at Congress Hotel, Chicago, Illinois. Where more than the authorized number of delegates is reported to the Secretary of the National Committee, a contest shall be deemed to exist, and the secretary shall notify the several claimants so reported and shall submit all credentials and claims to the whole committee for decision as to which claimants shall be placed upon the temporary roll of the convention.

All notices of contest shall be submitted in writing accompanied by a printed statement setting forth the ground of contest, which must be filed with the Secretary of the Committee twenty days prior to the meeting of the National Convention, except in cases where Delegates are chosen by law within that period, and then at any time prior to the meeting of the National Convention.

In promulgating this call the Secretary of the Republican National Committee is directed to send a copy to the members of the National Committee from each State, and enclose therewith copies of the call for the Chairman and Secretary of the State Committee, to be forwarded to said Chairman and Secretary by the member of the National Committee.

The apportionment of Delegates to the National Convention called hereby shall be as adopted by the National Committee at its meeting December 16, 1913, and ratified by Republican State Conventions of States which cast a majority of votes in the Electoral College, schedule of which is appended hereto.

Upon the basis of official election figures furnished to the National Committee, the apportionment of delegates to the convention is as follows:

REPUBLICAN PLATFORM—1916.

In 1861 the Republican party stood for the Union. As it stood for the Union of States, it now stands for a united people, true to American ideals, loyal to American traditions, knowing no allegiance except to the Constitution, to the government and to the flag of the United States. We believe in American policies at home and abroad.

PROTECTION OF AMERICAN RIGHTS.

We declare that we believe in and will enforce the protection of every American citizen in all the rights secured to him by the Constitution, by treaties and the law of nations, at home and abroad, by land and sea. These rights, which, in violation of the specific promise of their party made at Baltimore in 1912, the Democratic President and the Democratic Congress have failed to defend, we will unflinchingly maintain.

FOREIGN RELATIONS.

We desire peace, the peace of justice and right, and believe in maintaining a straight and honest neutrality between the belligerents in the great war in Europe. We must perform all our duties and insist upon all our rights as neutrals without fear and without favor. We believe the peace and neutrality as well as the dignity and influence of the United States cannot be preserved by shifty expedients, by phrase-making, by performances in language, or by attitudes ever changing in an effort to secure groups of voters.

The present administration has destroyed our influence abroad and humiliated us in our own eyes. The Republican party believes that a firm, consistent and courageous foreign policy, always maintained by the Republican Presidents in accordance with American traditions, is the best, as it is the only true way, to preserve our peace and restore us to our rightful place among the nations. We believe in the pacific settlement of international disputes and favor the establishment of a world court for that purpose.

MEXICO.

We deeply sympathize with the 15,000,000 people of Mexico who for three years have seen their country devastated, their homes destroyed, their fellow-citizens murdered and their women outraged, by armed bands of desperadoes lead by self seeking, conscienceless agitators, who, when temporarily successful in any locality, have neither sought nor been able to restore order or establish and maintain peace.

We express our horror and indignation at the outrages which have been and are being perpetrated by these bandits upon American men and women who were or are in Mexico by invitation of the laws and of the government of that country and whose rights to security of person and property are guaranteed by solemn treaty obligations. We denounce the indefensible methods of interference employed by this administration in the internal affairs of Mexico and refer with shame to its failure to discharge the duty of this country as next friend to Mexico, its duty to other powers who have relied upon us as such friend, and its duty to our citizens in Mexico, in permitting the continuance of such conditions, first by failure to act promptly and firmly, and, second, by lending its influence to the continuation of such conditions through recognition of one of the factions responsible for these outrages.

We pledge our aid in restoring order and maintaining peace in Mexico. We promise to our citizens on and near our border, and to those in Mexico, wherever they may be found, adequate and absolute protection in their lives, liberty and property.

MONROE DOCTRINE.

We reaffirm our approval of the Monroe doctrine, and declare its maintenance to be a policy of this country essential to its present and future peace and safety and to the achievement of its manifest destiny.

LATIN AMERICA.

We favor the continuance of Republican policies, which will result in drawing more and more closely the commercial, financial and social relations between this country and the countries of Latin America.

PHILIPPINES.

We renew our allegiance to the Philippine policy inaugurated by McKinley, approved by Congress and consistently carried out by Roosevelt and Taft. Even in this short time it has enormously improved the material and social conditions of the islands, given the Philippine people a constantly increasing participation in their government and if persisted in will bring still greater benefits in the future.

We accepted the responsibility of the islands as a duty to civilization and the Filipino people. To leave with our task half done would break our pledges, injure our prestige among nations and imperil what has already been accomplished.

We condemn the Democratic administration for its attempt to abandon the Philippines, which was prevented only by the vigorous opposition of Republican members of Congress, aided by a few patriotic Democrats.

TREATY WITH RUSSIA.

We reiterate our unqualified approval of the action taken in December, 1911, by the President and Congress to secure with Russia, as with other countries, a treaty that will recognize the absolute right of expatriation and prevent all discrimination of whatever kind between American citizens, whether native-born or alien, and regardless of race, religion or previous political allegiance.

We renew the pledge to observe this principle and to maintain the right of asylum, which is neither to be surrendered nor restricted, and we unite in the cherished hope that the war which is now desolating the world may speedily end, with a complete and lasting restoration of brotherhood among the nations of the earth and the assurance of full equal rights, civil and religious, to all men in every land.

PROTECTION OF THE COUNTRY.

In order to maintain our peace and make certain the security of our people within our own borders the country must have not only adequate but thorough and complete national defense, ready for any emergency. We must have a sufficient and effective regular army and a provision for ample reserves, already drilled and disciplined, who can be called at once to the colors when the hour of danger comes.

We must have a navy strong and so well proportioned and equipped, so thoroughly ready and prepared, that no enemy can gain command of the sea and effect a landing in force on either our western or our eastern coast. To secure these results we must have a coherent and continuous policy of national defense, which even in these perilous days the Democratic party has utterly failed to develop, but which we promise to give to the country.

TARIFF.

The Republican party stands now, as always, in the fullest sense for the policy of tariff protection to American industries and American labor and does not regard an anti-dumping provision as an adequate substitute. Such protection should be reasonable in amount but sufficient to protect adequately American industry and American labor and be so adjusted as to prevent undue exactions by monopolies or trusts. It should, moreover, give special attention to securing the industrial independence of the United States as in the case of dyestuffs.

Through wise tariff and industrial legislation our industries can be so organized that they will become not only a commercial bulwark but a powerful aid to national defense.

The Underwood Tariff Act is a complete failure in every respect. Under its administration imports have enormously increased in spite of the fact that intercourse with foreign countries has been largely cut off by reason of the war, while the revenues of which we stand in such dire need have been greatly reduced. Under the normal conditions which prevailed prior to the war it was clearly demonstrated that this act deprived the American producer and the American wage-earner of that protection which entitled them to meet their foreign competitors, and, but for the adventitious conditions created by the war, would long since have paralyzed all forms of American industry and deprived American labor of its just reward.

It has not in the least reduced the cost of living, which has constantly advanced from the date of its enactment. The welfare of our people demands its repeal and the substitution of a measure which in peace as well as in war, will produce ample revenue and give reasonable protection to all forms of American production in mine, forest, field and factory.

We favor the creation of a tariff commission with complete power to gather and compile information for the use of Congress in all matters relating to the tariff.

BUSINESS.

The Republican party has long believed in the rigid supervision and strict regulation of the transportation and of the great corporations of the country. It has put its creed into its deeds, and all really effective laws regulating the railroads and the great industrial corporations are the work of Republican Congresses and Presidents. For this policy of regulation and supervision the Democrats, in a stumbling and piecemeal way, are undertaking to involve the Government in business which should be left within the sphere of private enterprises and in direct competition with its own citizens, a policy which is sure to result in waste, great expense to the taxpayer and in an inferior product.

The Republican party firmly believes that all who violate the laws in regulation of business should be individually punished. But prosecution is very different from persecution, and business success, no matter how honestly attained, is apparently regarded by the Democratic party as in itself a crime. Such doctrines and beliefs choke enterprise and stifle prosperity. The Republican party believes in encouraging business and will seek to advance all American interests.

RURAL CREDITS

We favor an effective system of rural credits as opposed to the ineffective law proposed by the present Democratic administration.

RURAL FREE DELIVERY

We favor the extension of the rural free delivery system and condemn the Democratic administration for curtailing and crippling it.

MERCHANT MARINE

In view of the policies adopted by all the maritime nations to encourage their shipping interests and in order to enable us to compete with them for the ocean-carrying trade, we favor the payment to ships engaged in the foreign trade of liberal compensation for services actually rendered in carrying the mails, and such further legislation as will build up an adequate American merchant marine, and give up ships which may be requisitioned by the Government in time of national emergency.

We are utterly opposed to the Government ownership of vessels as proposed by the Democratic party, because government-owned ships, while effectively preventing the development of the American merchant marine by private capital, will be entirely unable to provide for the vast volume of American freights and will leave us more helpless than ever in the hard grip of foreign syndicates.

TRANSPORTATION

Interstate and intrastate transportation have become so interwoven that the attempt to apply two and often several sets of laws to its regulation has produced conflicts of authority, embarrassment in operation and inconvenience and expense to the public.

The entire transportation system of the country has become essentially national. We, therefore, favor such action by legislation or, if necessary, through an amendment to the Constitution of the United States, as will result in placing it under exclusive Federal control.

ECONOMY AND A NATIONAL BUDGET

The increasing cost of the National Government and the need for the greatest economy of its resources in order to meet the growing demands of the people for government service, call for the severest condemnation of the wasteful appropriations of this Democratic administration, of its shameless raids on the

Treasury, and of its opposition to and rejection of President Taft's oft-repeated proposals and earnest efforts to secure economy and efficiency through the establishment of a simple businesslike budget system to which we pledge our support and which we hold to be necessary to effect any real reform in the administration of national finances.

CONSERVATION

We believe in a careful husbandry of all the natural resources of the nation—a husbandry which means development without waste; use without abuse.

CIVIL SERVICE REFORM

The Civil Service law has always been sustained by the Republican party and we renew our repeated declaration that it shall be thoroughly and honestly enforced and extended wherever practicable. The Democratic party has created since March 4, 1913, 30,000 offices outside of the civil service law at an annual cost of \$44,000,000 to the taxpayers of the country.

We condemn the gross abuse and the misuse of the law by the present Democratic administration and pledge ourselves to a reorganization of this service along lines of efficiency and economy.

TERRITORIAL OFFICIALS

Reaffirming the attitude long maintained by the Republican party, we hold that officials appointed to administer the government of any territory should be bona fide residents of the territory in which their duties are to be performed.

LABOR LAWS

We pledge the Republican party to the faithful enforcement of all Federal laws passed for the protection of labor. We favor vocational education; the enactment and rigid enforcement of a Federal child labor law; the enactment of a generous and comprehensive workman's compensation law, within the commerce power of Congress, and an accident compensation law covering all Government employees. We favor the collection and collation under the direction of the Department of Labor of complete data relating to industrial hazards for the information of Congress, to the end that such legislation may be adopted as may be calculated to secure the safety, conservation and protection of labor from the dangers incident to industry and transportation.

WOMEN SUFFRAGE

The Republican party, reaffirming its faith in Government of the people, by the people, for the people, as a measure of justice to one-half the adult people of this country, favors the extension of the suffrage to women, but recognizes the right of each State to settle this question for itself.

CONCLUSION

Such are our principles, such are our purposes and policies. We close as we began. The times are dangerous and the future is fraught with peril. The great issues of the day have been confused by words and phrases. The American spirit, which made the country and saved the Union, has been forgotten by those charged with the responsibility of power. We appeal to all Americans, whether naturalized or native born, to prove to the world that we are Americans in thought and in deed, with one loyalty, one hope, one aspiration. We call on all Americans to be true to the spirit of America, to the great traditions of their common country, and above all things, to keep the faith.

DEMOCRATIC PARTY

DEMOCRATIC PLATFORM--1916.

The call was issued for a National Convention at St. Louis, Missouri, to be held on June 16, 1916.

The Democratic party, in national convention assembled, adopts the following declaration, to the end that the people of the United States may both realize the achievements wrought by four years of Democratic administration and be apprised of the policies to which the party is committed for the further conduct of national affairs.

RECORD OF ACHIEVEMENT.

We indorse the administration of Woodrow Wilson. It speaks for itself. It is the best exposition of sound Democratic policy at home and abroad.

We challenge comparison of our record, our keeping of pledges and our constructive legislation with those of any party of any time.

We found our country hampered by special privileges, a vicious tariff, obsolete banking laws and an inelastic currency. Our foreign affairs were dominated by commercial interests for their selfish ends. The Republican party, despite repeated pledges, was impotent to correct abuses which it had fostered. Under our administration, under a leadership which has never faltered, these abuses have been corrected and our people have been freed therefrom.

Our archaic banking and currency system, prolific of panic and disaster under Republican administrations—long the refuge of the money trust—has been supplemented by the Federal Reserve Act, a true Democracy of credit under government control, already proved a financial bulwark in a world crisis, mobilizing our resources, placing abundant credit at the disposal of legitimate industry, and making a currency panic impossible.

We have created a Federal Trade Commission to accommodate the perplexing questions arising under the antitrust laws, so that monopoly may be strangled at its birth and legitimate industry encouraged. Fair competition in business is now assured.

We have effected an adjustment of the tariff adequate for revenue under peace conditions and fair to the consumer and to the producer. We have adjusted the burden of taxation so that swollen incomes bear their equitable share. Our revenues have been sufficient in times of world stress, and will largely exceed the expenditures for the current fiscal year.

We have lifted human labor from the category of commodities, and have secured to the workingman the right to voluntary association for his protection and welfare. We have protected the rights of the laborer against the unwarranted issuance of writs of injunction, and have guaranteed to him the right of trial by jury in cases of alleged contempt committed outside the presence of the court.

We have advanced the parcel post to genuine efficiency enlarged the postal savings system, added 10,000 rural delivery routes and extensions, thus reaching two and one-half millions additional people, improved the postal service in every branch, and for the first time in our history placed the postoffice on a self-supporting basis, with actual surplus in 1913, 1914 and 1916.

ECONOMIC FREEDOM.

The reforms which were most obviously needed to clear away privilege, prevent unfair discrimination and release the energies of men of all ranks and advantages have been effected by recent legislation. We must now remove,

so far as possible, every remaining element of unrest and uncertainty from the path of the business men of America, and secure for them a continued period of quiet, assured and confident prosperity.

TARIFF.

We affirm our belief in the doctrine of a tariff for the purpose of providing sufficient revenue for the operation of the Government economically administered, and unreservedly indorse the Underwood tariff law as truly exemplifying that doctrine. We recognize that tariff rates are necessary subject to change to meet changing conditions in the world's production and trade. The events of the last two years have brought about many momentous changes. In some respects their effects are yet conjectural and wait to be disclosed, particularly in regard to our foreign trade.

Two years of a war which has directly involved most of the chief industrial nations of the world, and which has indirectly affected the life and industry of all nations, are bringing about economic changes more varied and far-reaching than the world has ever before experienced. In order to ascertain just what those changes may be the Democratic Congress is providing for a nonpartisan tariff commission to make impartial and thorough study of every economic fact that may throw light either upon our past or upon our future fiscal policy with regard to the imposition of taxes on imports or with regard to the changed and changing conditions under which our trade is carried on. We cordially indorse this timely proposal and declare ourselves in sympathy with the principle and purpose of shaping legislation within that field in accordance with clearly established facts rather than in accordance with trade demands of selfish interests or upon information provided largely, if not exclusively, by them.

AMERICANISM.

The part that the United States will play in the new day of international relationships which is now upon us will depend upon our preparation and our character. The Democratic party, therefore, recognizes the assertion and triumphant demonstration of the indivisibility and coherent strength of the nation as the supreme issue of the day, in which the whole world faces the crisis of manifold change. It summons all men, of whatever origin or creed, who would count themselves Americans, to join in making clear to all the world the unity and consequent power of America.

This is an issue of patriotism. To taint it with partisanship would be to defile it. In this day of test America must show itself, not a nation of partisans, but a nation of patriots. There is gathered here in America the best of the blood, the industry and the genius of the whole world, the elements of a great race and magnificent society to be melted into a mighty and splendid nation.

Whoever, actuated by the purpose to promote the interest of a foreign power in disregard of our own country's welfare or to injure this Government in its foreign relations or cripple or destroy its industries at home, and whoever by arousing prejudices of a racial, religious or other nature creates discord and strife among our people so as to obstruct the wholesome process of unification, is faithless to the trust which the privileges of citizenship repose in him and disloyal to his country.

We, therefore, condemn as subversive of this nation's unity and integrity, and as destructive of its welfare, the activities and designs of every group or organization, political or otherwise, that has for its object the advancement of the interest of a foreign power, whether such object is promoted by intimidating the Government, a political party or representatives of the people, or which is calculated and tends to divide our people into antagonistic groups

and thus to destroy that complete agreement and solidarity of the people and that unity of sentiment and national purpose so essential to the perpetuity of the nation and its free institutions.

We condemn all alliances and combinations of individuals in this country, of whatever nationality or descent, who agree and conspire together for the purpose of embarrassing or weakening our Government or of improperly influencing or coercing our public representatives in dealing or negotiating with any foreign power. We charge that such conspiracies among a limited number exist and have been instigated for the purpose of advancing the interests of foreign countries to the prejudice and detriment of our own country. We condemn any political party which, in view of the activity of such conspirators, surrenders its integrity or modifies its policy.

PREPAREDNESS.

Along with the proof of our character as a nation must go the proof of our power to play the part that legitimately belong to us. The people of the United States love peace. They respect the rights and covet the friendship of all other nations. They desire neither any additional territory nor any advantage which cannot be peacefully gained by their skill, their industry or their enterprise, but they insist upon having absolute freedom of national life and policy, and feel that they owe it to themselves and to the role of spirited independence, which it is their sole ambition to play, that they should render themselves secure against the hazard of interference from any quarter, and should be able to protect their rights upon the seas or in any part of the world.

We, therefore, favor the maintenance of an army fully adequate to the requirements of order, of safety and of the protection of the nation's rights, the fullest development of modern methods of seacoast defense and the maintenance of an adequate reserve of citizens trained to arms and prepared to safeguard the people and territory of the United States against any danger of hostile action which may unexpectedly arise, and a fixed policy for the continuous development of a navy worthy to support the great naval traditions of the United States and fully equal to the international tasks which the United States hopes and expects to take a part in performing. The plans and enactments of the present Congress afford substantial proof of our purpose in this exigent matter.

INTERNATIONAL RELATIONS.

The Democratic administration has throughout the present war scrupulously and successfully held to the old paths of neutrality and of the peaceful pursuit of the legitimate objects of our national life, which statesmen of all parties and creeds have prescribed for themselves in America since the beginning of our history. But the circumstances of the last two years have revealed necessities of international action which no former generation can have foreseen. We hold that it is the duty of the United States to use its power not only to make itself safe at home, but also to make secure its just interests throughout the world, and, both for this end and in the interest of humanity, to assist the world in securing settled peace and justice.

We believe that every people has the right to choose the sovereignty under which it shall live; that the small states of the world have a right to enjoy from other nations the same respect for their sovereignty and for their territorial integrity that great and powerful nations expect and insist upon; and that the world has a right to be free from every disturbance of its peace that has its origin in aggression or disregard of the rights of peoples and nations; and we believe that the time has come when it is the duty of the United States to join with the other nations of the world in any feasible association that will effectively serve these principles, to maintain inviolate the complete security of the highway of the seas for the common and unhindered use of all nations.

The present administration has consistently sought to act upon and realize in its conduct of the foreign affairs of the nation the principle that should be the object of any association of the nations formed to secure the peace of the world and the maintenance of national and individual rights. It has followed the highest American traditions. It has preferred respect for the fundamental rights of smaller States, even to property interests, and has secured the friendship of the people of these States for the United States by refusing to make a mere material interest an excuse for the assertion of our superior power against the dignity of their sovereign independence.

It has regarded the lives of its citizens and the claims of humanity as of greater moment than material rights, and peace as the best basis for the just settlement of commercial claims. It has made the honor and ideals of the United States its standard alike in negotiation and action.

PAN AMERICAN CONCORD.

We recognize now, as we have always recognized, a definite and common interest between the United States with the other people and republics of the Western Hemisphere in all matters of national independence and free political development. We favor the establishment and maintenance of the closest relations of amity and mutual helpfulness between the United States and the other republics of the American continents for the support of peace and promotion of a common prosperity. To that end we favor all measures which may be necessary to facilitate intimate intercourse and promote commerce between the United States and her neighbors to the south of us, and such international understandings as may be practicable and suitable to accomplish these ends.

We commend the action of the Democratic administration in holding the Pan American financial conference at Washington in May, 1915, and organizing the international high commission which represented the United States in the recent meeting of representatives of the Latin American Republics at Buenos Aires, April 1916, which have so greatly promoted the friendly relations between the peoples of the Western Hemisphere.

MEXICO.

The Monroe doctrine is reasserted as a principle of Democratic faith. The doctrine guarantees the independent republics of the two Americas against aggression from another continent. It implies, as well, the most scrupulous regard upon our part for the sovereignty of each of them.

The want of a stable, responsible government in Mexico, capable of repressing and punishing marauders and bandit bands, who have not only taken the lives, and seized and destroyed the property of American citizens in that country, but have insolently invaded our soil, made war upon and murdered our people thereon, has rendered it necessary temporarily to occupy, by our armed forces, a portion of the territory of that friendly state. Until, by the restoration of law and order therein, a repulsion of such incursions is improbable, the necessity for their remaining must continue.

Intervention, implying as it does, military subjugation, is revolting to the people of the United States, notwithstanding the provocation to that course has been great, and should be resorted to, if at all, only as a last resort. The stubborn resistance of the President and his advisers to every demand and suggestion to enter upon it, is creditable alike to them and to the people in whose name he speaks.

MERCHANT MARINE.

Immediate provision should be made for the development of the carrying trade of the United States. Our foreign commerce has in the past been subject to many unnecessary and vexatious obstacles in the way of legislation of Republican Congresses. Until the recent Democratic tariff legislation it was hampered by unreasonable burdens of taxation. Until the recent banking

legislation it had at its disposal few of the necessary instrumentalities of international credit and exchange. Until the formulation of the pending act to promote the construction of a merchant marine it lacked even the prospect of adequate carriage by sea.

We heartily indorse the purposes and policy of the pending shipping bill and favor all such additional measures of constructive or remedial legislation as may be necessary to restore our flag to the seas and to provide further facilities for our foreign commerce, particularly such laws as may be made to remove unfair conditions of competition in the dealings of American merchants and producers with competitors in foreign markets.

CONSERVATION.

For the safeguarding and quickening of the life of our own people we favor the conservation and development of the natural resources of the country through a policy which shall be positive rather than negative—a policy which shall not withhold such resources from development, but which, while permitting and encouraging their use, shall prevent both waste and monopoly in their exploitation, and we earnestly favor the passage of acts which will accomplish these objects, and we reaffirm the declaration of the platform of 1912 on this subject.

The policy of reclaiming our arid lands should be steadily adhered to.

THE ADMINISTRATION AND THE FARMER.

We favor the vigorous prosecution of investigations and plans to render agriculture more profitable and country life more healthful, comfortable and attractive, and we believe that this should be a dominant aim of the nation as well as of the states. With all its recent improvement, farming still lags behind other occupations in development as a business, and the advantages of an advancing civilization have not accrued to rural communities in a fair proportion. Much has been accomplished in this field under the present administration—far more than under any previous administration. In the Federal Reserve Act of the last Congress and the rural Credits Act of the present Congress the machinery has been created, which will make credit available to the farmer constantly and readily, and he has at least been put upon a footing of equality with the merchant and the manufacturer in securing the capital necessary to carry on his enterprises. Grades and standards necessary to the intelligent and successful conduct of the business of agriculture have also been established or are in the course of being established by law. The long-needed Cotton Futures Act passed by the Sixty-third Congress has now been in successful operation for nearly two years.

A new grain grades bill, long needed, and a permissive warehouse bill, intended to provide better storage facilities and to enable the farmer to obtain certificates upon which he may secure advances of money, have been passed by the House of Representatives, have been favorably reported to the Senate and will probably become law during the present session of Congress. Both houses have passed a good roads measure which will be of far-reaching benefit to all agricultural communities. Above all, the most extraordinary and significant progress has been made under the direction of the Department of Agriculture in extending and perfecting practical farm demonstration work which is so rapidly substituting scientific for empirical farming. But it is also necessary that rural activities should be better directed through co-operation and organization, and that unfair methods of competition should be eliminated and the conditions requisite for the just, orderly and economical marketing of farm products created. We approve the Democratic administration for having emphatically directed attention for the first time to the essential interests of agriculture involved in farm marketing and finance, for creating the office of markets and rural organization in connection with the Department of Agriculture, and for extending the cooperative machinery necessary for conveying

information to farmers by means of demonstrations. We favor continued liberal provision, not only for the benefit of production, but also for the study and solution of problems of farm marketing and finance and for the extension of existing agencies for improving country life.

GOOD ROADS.

The happiness, comfort and prosperity of rural life and the development of the city are alike conserved by the construction of public highways. We, therefore, favor national aid in the construction of post roads and roads for military purposes.

GOVERNMENT EMPLOYMENT.

We hold that the life, health and strength of the men, women and children of the nation are its greatest asset, and that in the conservation of these the Federal government, wherever it acts as the employer of labor, should both on its own account and as an example, put into effect the following principles of just employment:

1. A living wage for all employees.
2. A working day not to exceed eight hours, with one day of rest in seven.
3. The adoption of safety appliances and the establishment of thoroughly sanitary conditions of labor.
4. Adequate compensation for industrial accidents.
5. The standards of the "uniform labor law," wherever minors are employed.
6. Such provisions for decency, comfort and health in the employment of women as should be accorded the mothers of the race.
7. An equitable retirement law providing for the retirement of superannuated and disabled employees of the civil service to the end that a higher standard of efficiency may be maintained.

We believe also that the adoption of similar principles should be urged and applied in the legislation of the States with regard to labor within their borders, and that through every possible agency the life and health of the people of the nation should be conserved.

LABOR.

We declare our faith in the Seamen's Act, passed by the Democratic Congress, and we promise our earnest continuance of its enforcement.

We favor the speedy enactment of an effective Federal child labor law and the regulation of the shipment of prison-made goods in interstate commerce.

We favor the creation of a Federal bureau of safety in the Department of Labor to gather facts concerning industrial hazards, and to recommend legislation to prevent the maiming and killing of human beings.

We favor the extension of the powers and functions of the Federal bureau of mines.

We favor the development upon a systematic scale of the means already begun under the present administration to assist laborers throughout the nation to seek and obtain employment, and the extension by the Federal government, by the same assistance and encouragement as is now given to agricultural training.

We heartily commend our newly established Department of Labor for its excellent record in settling industrial strikes by personal advice and through conciliating agents.

PUBLIC HEALTH.

We favor a thorough reconsideration of the means and methods by which the Federal government handles questions of public health, to the end that human life may be conserved by elimination of loathsome diseases, the improvement of sanitation and the diffusion of a knowledge of disease prevention.

We favor the establishment by the Federal government of tuberculosis sanitariums for needy tubercular patients.

SENATE RULES.

We favor such an alteration of the rules of procedure of the Senate of the United States as will permit the prompt transaction of the nation's legislative business.

ECONOMY AND THE BUDGET.

We demand careful economy in all expenditures for the support of the government, and to that end favor a return by the House of Representatives to its former practice of initiating and preparing all appropriation bills through a single committee chosen from its membership in order that responsibility may be centered, expenditures standardized and made uniform, and waste and duplication in the public service as much as possible avoided. We favor this as a practicable first step toward a budget system.

CIVIL SERVICE.

We reaffirm our declarations for the rigid enforcement of the civil service laws.

PHILIPPINE ISLANDS.

We heartily endorse the provisions of the bill, recently passed by the House of Representatives, further promoting self-government in the Philippine Islands as being in fulfillment of the policy declared by the Democratic party in its last national platform, and we reiterate our indorsement of the purpose of ultimate independence for the Philippine Islands expressed in the preamble of that measure.

WOMAN SUFFRAGE.

We recommend the extension of the franchise to the women of the country by the states upon the same terms as to men.

PROTECTION OF CITIZENS.

We again declare the policy that the sacred rights of American citizenship must be preserved at home and abroad, and that no treaty with any other government shall receive the sanction of our government which does not expressly recognize the absolute equality of all our citizens, irrespective of race, creed or previous nationality, and which does not recognize the right of expatriation. The American government should protect American citizens in their rights, not only at home but abroad, and any country having a government should be held to strict accountability for any wrongs done them, either to person or property. At the earliest practical opportunity our country should strive earnestly for peace among the warring nations of Europe and seek to bring about the adoption of the fundamental principles of justice and humanity, that all men shall enjoy equality of right and freedom from discrimination in the land wherein they dwell.

PRISON REFORM.

We demand that the modern principles of prison reform be applied in our Federal penal system. We favor such work for prisoners as shall give them training in remunerative occupations, so that they may make an honest living when released from prison; the setting apart of the net wages of the prisoner to be paid to his dependent family or to be reserved for his own use upon his release; the liberal extension of the principles of the Federal

parole law, with due regard both to the welfare of the prisoner and the interests of society. The adoption of the probation system, especially in the case of first offenders not convicted of serious crimes.

PENSIONS.

We renew the declarations of recent Democratic platforms relating to generous pensions for soldiers and their widows, and call attention to our record of performance in this particular.

WATERWAYS AND FLOOD CONTROL.

We renew the declaration in our last two platforms relating to the development of our waterways. The recent devastation of the lower Mississippi Valley and several other sections by floods accentuate the movement for the regulation of river flow by additional bank and levee protection below and diversion, storage and control of the flood waters above, and their utilization for beneficial purposes in the reclamation of arid and swamp lands, and development of water power, instead of permitting the floods to continue, as heretofore, agents of destruction. We hold that the control of the Mississippi River is a national problem. The preservation of the depth of its waters for purposes of navigation, the building of levees and works of bank protection to maintain the integrity of its channel and prevent the overflow of its valley, resulting in the interruption of interstate commerce, the disorganization of the mail service and the enormous loss of life and property, impose an obligation which alone can be discharged by the national government.

We favor the adoption of a liberal and comprehensive plan for the development and improvement of our harbors and inland waterways with economy and efficiency, so as to permit their navigation by vessels of standard draft.

ALASKA.

It has been and will be the policy of the Democratic party to enact all laws necessary for the speedy development of Alaska and its great natural resources.

TERRITORIES.

We favor granting to the people of Alaska, Hawaii and Porto Rico the traditional territorial government accorded to all territories of the United States since the beginning of our government, and we believe the officials appointed to administer the government of those several territories should be qualified by previous bona fide residence.

CANDIDATES.

We unreservedly indorse our President and Vice President, Woodrow Wilson, of New Jersey, and Thomas Riley Marshall, of Indiana, who have performed the functions of their great offices faithfully and impartially and with distinguished ability.

In particular, we commend to the American people the splendid diplomatic victories of our great President, who has preserved the vital interests of our government and its citizens, and kept us out of war.

Woodrow Wilson stands today the greatest American of his generation.

CONCLUSION.

This is a critical hour in the history of America, a critical hour in the history of the world. Upon the record above set forth, which shows great constructive achievement in following out a consistent policy for our domestic and internal development; upon the record of the Democratic administration, which has maintained the honor, the dignity and the interests of the United States, and at the same time retained the respect and friendship of all the nations of the world, and upon the great policies for the future strengthening

of the life of our country, the enlargement of our national vision and the ennobling of our international relations as set forth above, we appeal with confidence to the voters of the country.

PROGRESSIVE PARTY

The Progressive National Convention met at the Auditorium in Chicago, Wednesday, June 7, 1916, and its sessions lasted until Saturday, June 10th. Mr. Raymond Robbins of Illinois was selected as temporary chairman, and O. K. Davis of New York as temporary secretary. This organization was later made permanent. The committee appointed to confer with a like committee of the Republican convention then in session in Chicago, consisted of Hiram Johnson, Charles J. Bonaparte, George W. Perkins, John M. Parker and Horace S. Wilkinson. The convention resulted in the nomination of Theodore Roosevelt for president, and John M. Parker of Louisiana for vice-president. Colonel Roosevelt declined the nomination some time after the adjournment of the convention. The following platform was adopted:

PROGRESSIVE NATIONAL PLATFORM.

"This is the year of decision for the nation's future. As we now decide, so we shall go forward in righteousness and power or backward in degradation and weakness.

Of necessity we deal now with the foundation of our national life. We are facing elemental facts of force, of right and wrong, of extreme national peril. Our present choice of path will be irrevocable. The tradition of isolation has been ended. The United States is now part of a world system of civilization. We stand or fall as we prepare now to take our part in peace or war and hold our own therein.

DUTIES OF THE NATION.

As members of an international community, we are subject to certain basic duties:

To secure the rights and equal treatment of our citizens, native or naturalized, on land and sea, without regard to race, creed or nativity.

To guard the honor and uphold the just influence of our nation.

To maintain the integrity of international law.

These are the corner stones of civilization. We must be strong to defend them.

The present war shows that it is the supreme duty of civilization to create conditions which will make for permanent peace. We earnestly desire to keep the peace, but there are higher things which we must keep if we would keep the faith as Washington and Lincoln kept it. Peace at the price of submission and cowardice is not desirable, nor is it the peace of justice, which alone would make it permanent.

THREATS NOT SUFFICIENT.

Supine submission to the invasion of our rights or indifference to the wrongs of weaker nations will not long maintain peace, nor will mere threat of action enforce our rights under international law. There must be an unflinching determination and a prepared ability to defend our rights and to fulfill our international obligations. In such a readiness lies the surest safeguard of both national honor and continued peace.

Failure to deal firmly and promptly with the menace of Mexican disorders has brought conditions worse than warfare and has weakened our national self respect. Every resource of government should be forthwith used to end those conditions and protect from outrage the lives, honor and property of American men and women in Mexico.

Whatever our country can legitimately do to attain peace for war-stricken Europe and to aid in the procurement of equal rights without discrimination because of race or creed to all men in all lands should be done.

NATIONAL DEFENSE.

Adequate provision for the common defense has become the task of foremost national concern. We must be ready, in spirit, arms and industry.

Beneath the structure of military and economic strength there must be a unified spirit of this cosmopolitan people, a deep loyalty and undivided allegiance to America, the land which has welcomed us and our immigrant forefathers. Back of any adequate national preparedness in arms or in industry must remain the democratic soul of an undivided people, determined to keep America's great heritage and traditions unflinching in first place. America's problems must be faced and solved solely in the light of American ideals.

American political action must be taken in the service of American ends. Unwavering patriotism and unflinching fidelity to America is the only spirit which should animate our citizens. If in this melting pot of a hundred nations the children of any fail to find our common destiny worthy of common devotion and defense, we shall sustain irreparable loss of national character.

In this spirit of Americanism action must be taken for the common defense.

PREPAREDNESS.

Preparation in arms requires:

A navy restored to at least second rank in battle efficiency.

A regular army of 250,000 men, fully armed and trained, as a first line of land defense.

A system of military training adequate to organize with promptness, behind that first line of the army and navy, a citizen soldiery supplied, armed and controlled by the national government.

In our democracy every male citizen is charged with the duty of defending his country. This duty is not new. It has existed from the foundation of the government. Under modern conditions it cannot be performed without military training; service without training means slaughter and disaster. As the nation has always recognized and exercised the right to enforce compulsory military service in time of war, so there should be universal military training for that service during times of peace.

We believe in preparedness for defense, but never for aggression. We must not sacrifice the lives of men for the glory or gain of military conquest. And we believe that the women of the country, who share with men the burdens of the government in times of peace and make equal sacrifice in time of war, should be given the full political right of suffrage, both by federal and state action.

To make possible social justice, to maintain our position in peace and war, we must insure business and industrial prosperity. This can be done:

By regulation of industry aimed at promoting its growth and prosperity and a just distribution of its returns and a healthy expansion of foreign trade.

By a conservation and development of our national resources for the good of all.

By the re-establishment of our merchant marine.

By the development of a system of interstate national highways.

By making a new standard of governmental efficiency through a complete civil service system, a national budget and the destruction of "pork barrel" legislation.

By the creation of a permanent, expert tariff commission, with a view of intelligently and scientifically adjusting the tariff, so as to build up, rather than destroy, American industry.

The protective system is essential in our national prosperity. Tremendous new pressures will be thrown upon our industries after the war by the highly mobilized production of Europe. At all times conditions of competition must be equalized between our own and foreign countries.

We can only get the protection we need through the use of exact and complete knowledge, unaffected by prejudice or politics. We can secure that knowledge at all times and when needed only through such a commission.

The industrial issues are chiefly national. The present and certain future make it imperative that the regulation and promotion of industry, and especially of transportation and foreign trade, be national, not local. Only federal power can work justice to capital and labor through the nation. Only national authority can mobilize industry for defense as the nation's need demands it.

We have set forth in this platform plain essentials of national existence. They are not new in principle. Most men agree with them. Any man may propose them. The urgent and immediate need is for their performance. We have had ample experience with the promiser; with words and the bitter taste of words retracted.

"ISSUE IS ONE OF MEN."

We must choose a man who, not alone by words but by past deeds, gives guarantee that he can and will make these things good. The issue is one of men. In the midst of world changes unparalleled in history, we cannot forecast the problems which will confront our government during the war and at its end. We, therefore, need as president a leader who knows the nations. A man who acts. If we continue longer to stand for words as above deeds, for fancies as above facts, we shall receive and merit the fate that surely awaits the man or people who do not face the truth.

We will meet and work with any man or party who sees the nation's need and puts forward a leader fit to meet it. We will accept no less, in plan or in the man, and we solemnly charge upon any who place partisan politics above country the responsibility for a nation's future, sacrificed to self-interest and spoils."

The state convention of the Progressive party was held in Des Moines, on the 29th day of July, 1916, pursuant to call of the state central committee. Henry H. Griffiths of Des Moines was selected as temporary chairman, and Joseph Misbach of Algona as temporary secretary. This organization was later made permanent. A full ticket of candidates for state officers had been nominated at the primary with the exception of a candidate for governor Stephen H. Bashor of Waterloo was unanimously nominated for this office by the convention. Selections of the several districts of members of the state central committee were approved, and a platform adopted. The following is the state platform:

STATE PLATFORM—1916—PROGRESSIVE PARTY.

The Progressive party of Iowa, in convention assembled, hereby reaffirms its national platform of 1912, ratified in 1916; asks its serious consideration by the voters; denounces the imitation of some of its provisions by the old parties as a sham intended only to catch votes but without sincere intention to do anything; and asks support on the principles then and now held by this party.

Good government is the first aim and end of organized society. Political parties are only means to that end. They must be instruments for service, not allowed to become institutions to be served. New parties are necessary as times and issues change, and old ones must go.

We charge that both the old parties have been grossly extravagant, have given corrupt and bad government, have proven untrustworthy and inefficient, and should be superseded by new parties.

The Republican and Democratic parties of this state have shown fatal incapacity to present any issues as between themselves or any program looking to good government. Their platforms mean nothing, and present no issues, and promise remedy for no existing problems.

We call attention to the stand in favor of prohibiting the liquor traffic, in our 1914 platform, and reaffirm that stand. We question the sincerity of the Republican party in presenting wet candidates on a dry platform; and of those in the Democratic party who at this late day profess to be for prohibition in view of their past record.

We call attention to the need for reform of methods for the taxation of railroad corporations and public utilities; to the need for regulation of those corporations; to the demand for a properly regulated guaranty of bank deposits; to the desirability of a title registration act similar to the Torrens system; and ask the support of the voters that we may enact suitable legislation on these subjects.

We pledge our candidates to favor and support the following measures:

1. Initiative, referendum and recall, giving the people direct control of their officers, legislation and affairs.
2. Non-partisan nomination and election of county and township officers, in the interest of economy and efficiency.
3. Immediate submission of the prohibitory amendment now pending, and the strengthening and enforcement of laws to eliminate the liquor traffic.
4. Provisions for systems of state highways, and co-operation with the national government for good, well-drained, well graded roads.
5. Retention of the primary law; the strengthening of that and other election laws; and enactment of a corrupt practices act to prevent large expenditures of money by persons or interests to put their tools into public office, with increased provisions for publicity of expenditure by candidates and their supporters.
6. Full enfranchisement of women equally with men, by state and national action.

7. Reform in matters of taxation and control of railroads and public utilities; in registration of titles; and in handling state and local public business.
8. Reform in matters of committees and clerkships in the general assembly, and in promoting economy and efficiency in public affairs.

SOCIALIST PARTY

PARTY MEMBERSHIP.

The Socialist party is a close organization of something over 100,000 members in the United States and 1,200 in the state of Iowa. To become a member of the party one must subscribe to the pledge contained in the accompanying application blank and pay 25 cents per month in dues. This amount is divided as follows: Five cents goes to the National organization, 10 cents to the state organization and 10 cents to the local. By this system of dues the funds are chiefly raised for the carrying on of party activity. Women are eligible to membership on same terms as men.

PARTY MANAGEMENT.

The Socialist party is a democratic party, governed by the membership, through the initiative and referendum. Any matter of party policy or management may be referred to the rank and file.

The National Committee consists of one member from each organized state and one additional member for each 2,000 members in good standing in the party.

The administrative affairs of the party are conducted by the executive secretary (at present Mr. Adolph Germer of Mount Olive, Ill.), and an executive committee consisting of five members as follows: Anna Maley, New York; John M. Work, Chicago; Morris Hillquit, New York; Victor Berger, Milwaukee, and John Spargo, Vermont.

NOMINATIONS--PLATFORM AND CONVENTIONS.

The nomination of presidential and vice-presidential candidates is made by the rank and file of the party membership, Allen L. Benson of Yonkers, N. Y., and Geo. R. Kirkpatrick of Newark, N. J., being the choice respectively for these positions in the recent campaign.

The platform is drafted by the National Executive Committee and submitted to the vote of the membership. I am submitting ballot containing the majority and minority report of the present Executive Committee and the outgoing committee who jointly drafted the proposed platform. I am also submitting copy of platform as adopted by the membership. In this connection will say that between 1904 and 1908 the platform was changed twice by the initiative of the membership.

Owing to the fact that the National Committee meets once each year and as the chief work of a National convention is to nominate candidates and adopt a platform, no convention was had in 1916.

STATE ORGANIZATIONS.

State organizations are framed substantially on the same plan as the National organization. The administrative power being vested in a state committee—one member from each congressional district, and a secretary.

In Iowa the committee is as follows:

First District—Herman Sommerfeld, Burlington.

Second District—Geo. M. Dowell, Muscatine.

Third District—C. L. Collier, Iowa Falls.

Fourth District—Ray Ferris, McGregor.

Fifth District—L. M. Farnsworth, Marshalltown.

Seventh District—Wm. Whitenack, Des Moines.

Eighth District—J. P. Agnessen, Brazil.

Tenth District—J. C. Lewis, Boone.

Eleventh District—Adolph Arndt, Sioux City.

NATIONAL SOCIALIST PLATFORM FOR 1916.

In the midst of the greatest crisis and bloodiest struggle of all history the Socialist party of America reaffirms its steadfast adherence to the principles of international brotherhood, world peace and industrial democracy.

The great war which has engulfed so much of civilization and destroyed millions of lives is one of the natural results of the capitalistic system of production. Fundamentally, it was the desire of competing national groups of capitalists to grasp and control the opportunities for profitable foreign investments and trade which brought about the war, and it is that same desire which prompts the present organized effort to fasten upon this country the crushing burdens of militarism. Not until the capitalist system of production is replaced by a system of industrial democracy will wars for markets cease and international peace be securely established.

Hideous as they are, the horrors of the far-stretched battlefield of the old world are dwarfed by the evil results of the capitalist system, even in normal times. Instead of being organized to provide all members of society with an abundance of food, clothing and shelter, and the highest attainable freedom and culture, industry is at present organized and conducted for the benefit of a parasitic class. All the powers of government, and all our industrial genius are directed to the end of securing to the relatively small class of capitalist investors the largest amount of profits which can be wrung from the labor of the ever increasing class whose only property is muscle and brain, manual and mental labor power.

The dire consequence of this system are everywhere apparent. The workers are oppressed and deprived of much that makes for physical, mental and moral well being. Year by year poverty and industrial accidents destroy more lives than all the armies and navies of the world.

To preserve their privilege and power is the most vital interest of the possessing class, while it is the most vital interest of the working class to resist oppression, improve its position and struggle to obtain security of life and liberty. Hence there exists a conflict of interests, a social war within the nation, which can know neither truce nor compromise. So long as the few own and control the economic life of the nation the many must be enslaved, poverty must coexist with riotous luxury, and civil strife prevail.

The Socialist party would end these conditions by reorganizing the life of the nation upon the basis of Socialism. Socialism would not abolish private property, but greatly extend it. We believe that every human being should have and own all the things which he can use to advantage, for the enrichment of his own life, without imposing disadvantage or burden upon any other human being. Socialism admits the private ownership and individual direction of all things, tools, economic processes and functions which are individualistic in character and requires the collective ownership and democratic control and direction of those which are social or collectivistic in character.

We hold that this country cannot enjoy happiness and prosperity at home and maintain lasting peace with other nations, so long as its industrial wealth is monopolized by a capitalist oligarchy. In this as in every other campaign all special issues arising from temporary situations, whether domestic or

foreign, must be subordinated to the major issue—the need of such a reorganization of our economic life as will remove the land, the mines, forests, railroads, mills and factories, all the things required for our physical existence, from the clutches of industrial and financial freebooters and place them securely and permanently in the hands of the people.

If men were free to labor to satisfy their desires there could be in this country neither poverty nor involuntary unemployment. But the men in this country are not free to labor to satisfy their desires. The great industrial population can labor only when the capitalist class, who own the industries, believe they can market their product at a profit. The needs of millions are subordinated to the greeds of a few. The situation is not unlike that of a pyramid balanced upon its apex. Oftentimes this pyramid tumbles and industrial depression comes. There was such a crash in 1907. If the capitalist owners had been willing to get out of the way, industry could have been revived in a day. But the capitalist owners are never willing to get out of the way. Their greeds come first—the people's needs, if at all, afterward. Therefore, business did not quickly revive after the industrial depression of 1907. Mr. Taft was elected to bring good times, but in four years failed to bring them. Mr. Wilson was elected to bring good times, but not all of the measures he advocated had the slightest effect upon industry. The European war has brought to this country tremendous orders for military supplies and has created a period of prosperity for the few. For the masses of the people there is but an opportunity to work hard for a bare living, which is not prosperity, but slavery. As against the boast of the present national administration that its political programs, now fully in force, has brought prosperity to the masses, we call attention to the statement of the Federal Public Health Service that \$800 a year is required to enable a family to avoid physical deterioration through lack of decent living conditions, that more than half of the families of workmen receive less than that amount, that nearly a third receive less than \$500 a year and that one family in twelve receive less than \$500 a year and that one family in twelve receive less than \$300 a year.

The capitalist class, for a great many years, has been trying to saddle upon this country a greater army and a greater navy. A greater army is desired to keep the working class of the United States in subjection. A greater navy is desired to safeguard the foreign investments of American capitalists and to "back up" American diplomacy in its efforts to gain foreign markets for American capitalists. The war in Europe, which diminished and is still diminishing the remote possibility of European attack upon the United States, was nevertheless seized upon by capitalists and by unscrupulous politicians as a means of spreading fear throughout the country to the end that, by false pretense, great military establishments might be obtained. We denounce such "preparedness," as both false in principle, unnecessary in character and dangerous in its plain tendencies toward militarism. We advocate that sort of social preparedness which expresses itself in better homes, better bodies and better minds, which are alike the products of plenty and the necessity of effective defense in war.

The Socialist party maintains its attitude of unalterable opposition to war.

We reiterate the statement that the competitive nature of capitalism is the cause of modern war, and that the co-operative nature of Socialism is alone adapted to the task of ending war by removing its causes. We assert, however, that, even under the present capitalist order, additional measures can be taken to safeguard peace, and to this end we demand:

MEASURES TO INSURE PEACE.

- (1) That all laws and appropriations for the increase of the military and naval forces of the United States shall be immediately repealed.
- (2) That the power be taken from the President to lead the nation into a position which leaves no escape from war. No one man, however exalted in official station, should have the power to decide the question of peace or war for a nation of a hundred millions. To give one man such power is

neither democratic or safe. Yet the President exercises such power when he determines what shall be the nation's foreign policies and what shall be the nature and tone of its diplomatic intercourse with other nations. We, therefore, demand that the power to fix foreign policies and conduct diplomatic negotiations shall be lodged in the Congress and shall be exercised publicly, the people reserving the right by referendum to order Congress, at any time to change its foreign policy.

(3) That no war shall be declared or waged by the United States without a referendum vote of the entire people, except for the purpose of repelling invasion.

(4) That the Monroe doctrine shall be immediately abandoned as a danger so great that even its advocates are agreed that it constitutes perhaps our greatest single danger of war. The Monroe doctrine was originally intended to safeguard the peace of the United States. Though the doctrine has changed from a safeguard to a menace, the capitalist class still defends it for the reason that our great capitalists desire to retain South and Central America as their private trade preserve. We favor the cultivation of social, industrial and political friendship with all other nations in the western hemisphere, as an approach to a world confederation of nations, but we oppose the Monroe doctrine, because it takes from our hands the peace of America and places it in the custody of any nation that would attack the sovereignty of any state in the western world.

(5) That the independence of the Philippine Islands be immediately recognized as a measure of justice, both to the Filipinos and to ourselves. The Filipinos are entitled to self-government; we are entitled to be freed from the necessity of building and maintaining enough dreadnoughts to defend them in the event of war.

(6) The government of the United States shall call a congress of all neutral nations to mediate between the belligerent powers in an effort to establish an immediate and lasting peace without indemnities, or forcible annexation of territory, and based on a binding and enforceable international treaty, which shall provide for concerted disarmament on land and at sea, and for an International Congress with power to adjust all disputes between nations, and which shall guarantee freedom and equal rights to all oppressed nations and races.

WORKING PROGRAM.

As general measures calculated to strengthen the working class in its fight for the realization of its ultimate aim, the Co-operative Commonwealth, and to increase its power of resistance against capitalist oppression, we advocate and pledge ourselves and our elected officers to the following program:

POLITICAL DEMANDS.

1. Unrestricted and equal suffrage for men and women.
2. The immediate adoption of the so-called "Susan B. Anthony amendment" to the constitution of the United States granting the suffrage to women on equal terms with men.
3. The adoption of the initiative, referendum and recall and of proportional representation, nationally as well as locally.
4. The abolition of the Senate and of the veto power of the President.
5. The election of the President and the Vice President by direct vote of the people.
6. The abolition of the present restriction upon the amendment of the constitution, so that that instrument may be made amendable by a majority of the voters in the country.
7. The calling of a convention for the revision of the constitution of the United States.

8. The abolition of the power usurped by the Supreme Court of the United States to pass upon the constitutionality of legislation enacted by Congress. National laws to be repealed only by act of Congress or by a referendum vote of the whole people.

9. The immediate curbing of the power of the courts to issue injunctions.

10. The election of all judges of the United States courts for short terms.

11. The free administration of the law.

12. The granting of the right of suffrage in the District of Columbia with representation in Congress and a democratic form of municipal government for purely local affairs.

13. The extension of democratic government to all United States territory.

14. The freedom of press, speech and assemblage.

15. The increase of the rates of the present income tax and corporation tax and the extension of inheritance taxes, graduated in proportion to the value of the estate and to nearness of kin—the proceeds of these taxes to be employed in the socialization of industry.

16. The enactment of further measures for general education and particularly for vocational education in useful pursuits. The Bureau of Education to be made a department.

17. The enactment of further measures for the conservation of health and the creation of an independent department of health.

18. The abolition of the monopoly ownership of patents and the substitution of collective ownership, with direct rewards to inventors by premiums or royalties.

COLLECTIVE OWNERSHIP.

1. The collective ownership and democratic management of railroads, telegraphs and telephones, express service, steamboat lines and all other social means of transportation and communication and of all large-scale industries.

2. The immediate acquirement by the municipalities, the state or the federal government of all grain elevators, stock yards, storage warehouses, and other distributing agencies in order to relieve the farmer from the extortionate charges of the middlemen and to reduce the present high cost of living.

3. The extension of the public domain to include mines, quarries, oil wells, forest and water power.

4. The further conservation and development of natural resources for the use and benefit of all the people:

(a) By scientific forestation and timber protection.

(b) By the reclamation of arid and swamp tracts.

(c) By the storage of flood waters and the utilization of water power.

(d) By the stoppage of the present extravagant waste of the soil and of the products of mines and oil wells.

(e) By the development of highway and waterway systems.

5. The collective ownership of land wherever practicable, and in cases where such ownership is impracticable, the appropriation by taxation of the annual rental value of all land held for speculation or exploitation.

6. All currency shall be issued by the government of the United States and shall be legal tender for the payment of taxes and import duties and for the discharge of public and private debts. The government shall lend money on bonds to counties and municipalities at a nominal rate of interest for the purpose of taking over or establishing public utilities and for building or maintaining public roads and highways, and public schools—up to 25 per cent of the assessed valuation of such counties or municipalities. Said bonds are to be repaid in twenty equal and annual installments, and the currency issued for that purpose by the government is to be cancelled and destroyed serially as the debt is repaid. All banks and banking institutions shall be owned by the government of the United States or by the states.

7. Government relief of the unemployed by the extension of all useful public works. All persons employed on such work to be engaged directly by the government under a workday of not more than eight hours and at not less than the prevailing union wages. The government also to establish employment bureaus; to lend money to state and municipalities without interest for the purpose of carrying on public works, to contribute money to unemployment funds of labor unions and other organizations of workers, and to take such other measures within its power as will lessen the widespread misery of the workers caused by the misrule of the capitalist class.

INDUSTRIAL DEMANDS.

The conservation of human resources, particularly of the lives and well-being of the workers and their families:

1. By shortening the workday in keeping with the increased productiveness of machinery.
2. By securing the freedom of political and economic organization and activities.
3. By securing to every worker a rest period of not less than a day and a half in each week.
4. By securing a more effective inspection of workshops, factories and mines.
5. By forbidding the employment of children under eighteen years of age.
6. By forbidding the interstate transportation of the products of child labor and of all uninspected factories and mines.

SOCIALIST PARTY STATE PLATFORM—1916.

The Socialist Party of the state of Iowa, in convention assembled at Des Moines, July 4, 1916, reaffirms its adherence to the principles of international Socialism and endorses the late platform of the Socialist party of the United States.

Food, clothing and shelter are the three absolute essentials of human life.

The manner in which these fundamental necessities are obtained by a people determines in a very large degree their development in any direction. They will never rise higher in the scale of physical efficiency, ethical culture or intellectual growth than the measure of fairness that enters into the producing and distributing of their wealth.

The character of the tools of production determines the method of production. Formerly these tools were simple, inexpensive and individually used. The worker could accordingly own them, employ himself and enjoy his product. The product of labor always has and always will go to the owner of the means of production.

The evolution of the tool has revolutionized industry from individual hand work to collective machine work. The means of production have become so complex and expensive, the workers cannot use them individually, nor can they own them individually. Yet it is absolutely certain that if the workers are to employ themselves and get their social product they must own the means of production, and the only possible way they can own them is collectively.

The capitalist now own the means of production privately and are able therefore to dictate to the disinherited workers the terms of access to them, the time, place and manner of using them, and who shall have the product.

In spite of the fact that the modern means of production created by the joint effort of the workers has vastly increased their productive power, the struggle of the workers for food, clothing and shelter grows in intensity because the capitalists have monopolized the means of wealth production and distribution.

The working class is at the mercy of the capitalist class who have production carried on primarily for profit, regardless of the workers' needs. The improved methods of machine production becoming more widespread and thus intensifying the struggle for markets, is forcing the capitalist class to form combines and trusts and they in turn increase the uncertainty of employment for the workers.

This natural unavoidable process of centralization having reached a comparative limit in trade, manufacture and transportation, now seeks a new outlet. Agriculture offers the next and last great field for capitalist development and exploitation.

A revolution is already setting in both in the method and conditions of the farm workers. In the past ten years farm values have doubled, farms have decreased in number and increased in size, farm mortgages, tenantry and farm wage workers have increased, while the farming population has actually decreased. It has already become as impossible for the propertyless worker to become a land-owner, as for him to become a factory owner, a mine owner or a railroad owner. And those who form the industrial centers and the army of tenants and farm wage-earners have followed the exodus of recent years to the west and south in the hope of becoming land-owners have escaped the rapacious employers and landlords only to fall into the hands of the equally rapacious land speculator and money loaners.

This having been the bitter experience of a vast multitude of willing but misguided workers, who have patiently endured privation and hardships we know to be unnecessary, the collective ownership of land wherever practicable, the appropriation by taxation of the annual rental value of all land held for speculation or exploitation, is offered as a most effective remedy to combat the centralization of land in the hands of a few.

The capitalist class is able to control the destinies of society by its ownership of the industrial forces; its ownership is legal because it controls the political machinery by which laws are made and enforced, and has therefore seen to it that the laws are made to its interest. It controls the political machinery by and through political parties.

The Republican party as well as the Democratic and all other parties except the Socialist party, are the parties of the capitalist class in the United States. They are organized for the purpose of serving the interest of the capitalist class and they therefore stand for capitalism with all its legitimate fruits: Exploitation of the workers, inability to employ, feed, clothe and shelter the willing workers, periodical breakdowns called panics, widespread and increasing poverty in spite of increased production, hypocritical dispensing of degrading and repulsive charity to keep the workers quiet and save the conscience of the capitalist, forcing of women and children into the industries and the men into idleness, prostitution, divorce, illiteracy, crime, suicide, insanity and wholesale murder by the capitalist through unsafe mechanical appliances and unsanitary conditions because these yield larger profits.

The interest of the working class lies in escaping all exploitation, employing itself and being master of its economic destiny. It is therefore impossible for the Republican and Democratic parties or their officials to serve the workers and unreasonable for the workers to hope for relief from either.

In the face of the phenomenon commonly called trusts, recent events have demonstrated that both the progressive and conservative elements in both the Republican and Democratic parties alike stand for perpetuation of capitalism, and while representing the warring groups within the capitalist class, they are a unit in their opposition to the working class interest, both of the cities and on the farms. Both the conservative and progressive element of the party in power propose that things are well enough as they are; while the progressives having been received back into the fold of the Republican

organization have become a negligible quantity; from this combination the workers can expect no relief, their sole ambition is to elevate this party back to power.

Since the Socialist party stands for the collective ownership and democratic management of industry, abolition of exploitation securing to the workers the full social value of their product; and is the political expression of working class interests, we earnestly urge all workingmen to study carefully the principles of socialism, and vote with their class.

INDUSTRIAL DEMANDS.

The Socialist party is the political expression of the economic interest of the working class, and is in favor of every movement and law which will increase wages, or better the conditions of labor for that class.

POLITICAL DEMANDS.

1. Equal suffrage for all adult men and women.
2. Equal pay for equal work to men and women employed by the state or any of its subdivisions.
3. The initiative, referendum and proportional representation and the right of recall without the percentage of the petition signers so large as to prevent its use by the people.
4. Home rule for municipalities and the express statutory powers to own and operate all public service utilities.
5. We demand the use of the union label upon all public documents.
6. Free textbooks for all schools, the same to be printed by the public.
7. Free and speedy administration of justice. The retention and extension of our jury system, and the jurymen to be selected mechanically from all classes and parties.
8. The abolition of capital punishment.
9. The abrogation of the power of the court and judges to nullify laws on the grounds of unconstitutionality or any other ground.
10. The absolute freedom of the press, speech and assemblage, including the right of civil service employes to express opinions on political questions, and that all such have the right to take part in partisan politics.
11. We demand the revision of our taxation and assessment laws, so that all railroads, and all property of corporations have a physical valuation. That land users should not be taxed for land they do not own. That the mortgagee shall pay his just share of taxes. We demand the repeal of the one per cent capita road tax law and in its stead that a graduated income tax be enacted.
12. As taxation is excessive and wages low, and 70 per cent of our national revenues are wasted in war and preparation for war, we demand the mitigation and abolition of war.

MEXICAN RESOLUTION.

Whereas, More than one-half of the wealth of Mexico is owned and controlled by American and British capitalists, and

Whereas, These interests have for more than five years brought pressure on the government to force intervention, and

Whereas, The present defacto government is not satisfactory to the above named interest, and

Whereas, It is a well known fact that the Villa faction was favored by them and furnished with arms and other resources, and

Whereas, Villa boasted that the Columbus raid was designed to cause intervention, and

Whereas, The present Mexican crisis is the immediate outgrowth of the Columbus raid:

Therefore we ask the public to calmly consider these obviously related facts, to not be misled by the sentimental and thoughtless appeal to patriotism, but rather be guided by a sense of justice and fairness.

While we recognize the necessity of protecting our border against irresponsible bandits, instigated to deeds of violence by traitors at home, we believe there is no valid excuse for invasion, and that the troops now in Mexico are serving no valuable purpose but on the contrary act as a decided irritant, and should be withdrawn.

PREPAREDNESS RESOLUTION.

Whereas, The present preparedness mania is on the one hand the fruit of the war spirit inevitable in view of the war in Europe, and on the other directly cultivated by the capitalist interests that have been fattening from munition contracts, and

Whereas, In view of the exhausted condition that has come to the warring nations there is obviously less danger from invasion than at any time in a quarter of a century:

Therefore, We are unalterably opposed to the preparedness program now being advocated by the press of our land.

PROHIBITION PARTY

OFFICIAL CALL NATIONAL PROHIBITION CONVENTION, ST. PAUL, MINN., JULY 19, 1916.

This, the official call for the National Prohibition Convention for 1916, issued in the hour of great opportunity for the triumph of prohibition principles and prohibition party philosophy.

The most sanguine advocates of liquorism and the hour of postponement for making paramount the overthrow of the liquor traffic in American politics point to no remoter date than the year 1920, whereas the progressive and earnest advocates of the traffic's doom now point to the year 1916.

Scores of men of national prominence and hundred of thousands of the rank and file have declared their intention of supporting such political party in 1916, as stands committed by state and national platform declaration to prohibition of the liquor traffic. We are justified from the course of events in looking to the St. Paul convention as a gathering of the multitude who have so declared, as an occasion of future historic interest, and a place where will be generated the forces which will lift to paramountcy the issue national prohibition, and elect an administration that will enact the same into law.

Therefore, I, the chairman of the prohibition national committee, in accordance with the instructions of that body, hereby invite the prohibitionists of the several states, without regard to past political affiliations, and all citizens who believe in the principles advocated by the prohibition party, to unite in the selection of delegates to the national convention of the prohibition party, which is called to meet in the auditorium, St. Paul, Minnesota, at ten o'clock in the morning of the 19th day of July, 1916, to nominate candidates for president and vice-president, and for the transaction of such other business as may properly come before the convention. The basis of representation has been fixed by the national committee as follows:

Each state and territory is entitled to four delegates at large.

Each state is entitled to an additional delegate for each two hundred votes, or major fraction thereof cast for Eugene W. Chafin for president in 1912.

The district of Columbia is entitled to two delegates.

Each state, territory and the district of Columbia is entitled to as many alternates as its number of delegates.

The time and manner of electing these delegates and alternates will be determined by the prohibitionists of the various states and territories subject only to this provision; that in every state where the party has an organized state committee, the delegates must be chosen by such congressional or state conventions as the state central committee may call for that purpose, or by the state committee in such manner as it may determine conforming to the laws relating thereto in force in the various states.

Complete information concerning forms for credentials, routes and rates of travel, preliminary meetings, etc., will be given in ample time through the general press.

VIRGIL G. HINSHAW,
Chairman.

The apportionment of delegates as made by the prohibition national committee for each state based upon the votes for Eugene W. Chafin for president in 1912, as follows:

PROHIBITION NATIONAL PLATFORM, ST. PAUL MINN., JULY 20, 1916.

The Prohibition Party, assembled in its Twelfth National Convention in the city of St. Paul, Minnesota, on this Twentieth day of July, 1916, grateful to Almighty God for the blessings of liberty, for our institutions and the multiplying signs of the early victory for the cause for which the Party stands in order that the people may know the source of its faith and the basis of its action, should it be clothed with governmental power, challenges the attention of the Nation and asks the votes of the people on this Declaration of principles.

PROHIBITION.

We denounce the traffic in intoxicating liquors. We believe in its abolition. It is a crime—not a business—and should not have governmental sanction.

We demand—and if given power, we will effectuate the demand—that the manufacture, importation, exportation, and sale of alcoholic liquors for beverage purposes shall be prohibited.

To the accomplishment of that end, we pledge the exercise of all governmental power—the enactment of statutes and the amendment of constitutions. State and National. Only by a political party committed to this purpose can such policy be made effective. We call upon all voters, so believing, to place the Prohibition Party in power upon this issue as a necessary step in the solution of the liquor problem.

SUFFRAGE.

The right of citizens of the United States to vote should not be denied or abridged by the United States or by any State on account of sex. We declare in favor of the enfranchisement of women by amendments to the State and Federal Constitutions.

We condemn the Republican and Democratic Parties for their failure to submit an equal suffrage amendment to the National Constitution. We remind the four million voters that our party was the first to declare for their political rights, which it did in 1872. We invite the co-operation in electing the Prohibition party to power.

PEACE AND PREPAREDNESS.

We are committed to the policy of peace and friendliness with all nations. We are unalterably opposed to the wasteful military program of the Democratic and Republican Parties. Militarism protects no worthy institution. It endangers them all. It violates the high principles which have brought us as a nation to the present hour. We are for a constructive program in preparedness for peace. We declare for and will promote a world court, to which national differences shall be submitted, so maintained as to give binding force. We will support a compact among nations to dismantle navies and disband armies, but until such court and compact are established we pledge ourselves to maintain an effective army and navy and to provide coast defenses entirely adequate for national protection.

We are opposed to universal military service, and to participation in the rivalry that has brought Europe to the shambles and now imperils the civilization of the race.

Private profits, so far as constitutionally possible, should be taken out of the manufacture of war munitions and all war equipment.

In normal times we favor the employment of the army in vast reclamation plans, in reforesting hills and mountains, in building state and national highways, in the construction of an inland waterway from Florida to Maine, in the opening of Alaska and in unnumbered other projects which will make our soldiers constructive builders of peace. For such service there should be paid an adequate industrial wage.

Those units of our navy which are capable of being converted into merchantmen and passenger vessels should be constructed with that purpose in view, and chiefly so utilized in times of peace.

We condemn the political parties, which for more than thirty years have allowed munitions and war equipment manufacturers to plunder the people, to jeopardize the highest interest of the nation by furnishing honey-combed armor plate and second rate battleships which the Navy League now declares are wholly inadequate.

We will not allow the country to forget that the first step toward physical, economic, moral, and political preparedness is the enactment of National Prohibition.

TARIFF AND RECIPROCITY.

The countries at war are preparing for a fierce industrial struggle to follow the cessation of hostilities. As a matter of commercial economy, international friendliness, business efficiency, and as a help to peace, we demand that reciprocal trade treaties be negotiated with all nations with which we have trade relations. A commission of specialists, free from the control of any party, should be appointed with power to gather full information on all phases of the questions of tariff and reciprocity, and to recommend such legislation as it deems necessary for the welfare of American business and labor.

MERCHANT MARINE.

The necessity of legislation to enable American ship builders or owners to meet foreign competition, on the most favorable terms, is obvious.

Materials for construction should be admitted free of duty.

The purchase of ships abroad, when low prices invite, should be allowed and, when so purchased, should be admitted to American registry.

Harbor rules and charges and navigation laws should not be onerous, but favorable to American registry.

Liberal payment should be made by the Government for the carrying of mails or for transport services.

All shippings from the United States to any of our possessions should be reserved to ships of American registry.

The people should not overlook the fact that the effect of nation-wide prohibition, on labor and industry generally, will be such as to lower the cost of ship building per unit, and at the same time permit the payment of higher wages. The increased volume of trade and commerce, which will result, when the wastage of the liquor traffic is stopped, will quicken our shipping on every sea and send our flag on peaceful missions into every port. This is urged as an incidental effect of wise action on the liquor question, but is none the less to be desired and will aid in the solution of the problem of our merchant marine.

MEXICO AND THE MONROE DOCTRINE.

Mexico needs not a conqueror, but a good Samaritan. We are opposed to the violation of the sovereignty of the Mexican people, and we will countenance no war of aggression against them. We pledge the help of this country in the suppression of lawless bands of marauders and murderers, who have taken the lives of American citizens, on both sides of the border as well as of Mexicans in their own country.

The lives and property of our citizens, when about their lawful pursuits, either in the United States or Mexico, must be protected. In the event of a breakdown of government across the border, we would use, in the interests of civilization, the force necessary for the establishment of law and order.

In this connection we affirm our faith in the Monroe Doctrine, proclaimed in the early days of the Nation's life and unswervingly maintained for nearly a hundred years.

We cannot claim the benefits of the doctrine and refuse to assume or discharge the responsibilities and the duties which inhere therein and flow therefrom.

Those duties have long been met in Mexico. We should meet them now, acting, not for territory, not for conquest or for ourselves alone, but for and with all the nations of North and South America.

The Democratic party has blundered and four years ago the Republican party evaded and passed on the problem it now asks the opportunity to solve.

THE PHILIPPINES.

The abandonment of the Philippines at this time would be an injustice to them and a violation of our plain duty. As soon as they are prepared for self-government, by education and training, they should be granted the independence on terms just to themselves and us.

CONSERVATION.

We reaffirm our declaration in favor of conservation of forests, water power, and other natural resources.

DEPARTMENTAL DECISIONS.

Departmental decisions ought not to be final, but the rights of the people should be protected by provision for court review.

THE CIVIL SERVICE.

In order that the public service may be of the highest standard, the government should be a model employer in all respects. To enforce the civil service law in spirit as well as in letter, all promotions should be non political, based only upon proven fitness; all recommendations for demotions or removals from the service should be subjected to the review of a non-partisan board or commission.

The merit system should be extended to cover all postmasters, collectors of revenue, marshals and other such public officials whose duties are purely administrative.

We reaffirm our allegiance to the principle of secure tenure of office, during good behavior and capable effort, as the means of obtaining expert service. We declare for the enactment of an equitable retirement law for disabled and superannuated employees, in return for faithful service rendered, to maintain a high degree of efficiency in public office.

AMERICANISM.

We stand for Americanism. We believe this country was created for a great mission among the nations of the earth. We rejoice in the fact that it has offered asylum to the oppressed of other lands and for those, more fortunately situated, who yet wished to improve their condition. It is the land of all peoples and belongs to any one,—it is the heritage of all. It should come first in the affections of every citizen, and he who loves another land more than this is not fit for citizenship here, but he is a better citizen, who loving this country, has reverence for the land of his fathers and gains from its history and traditions that which inspires him to nobler service to the one in which he lives.

The Federal Government should interest itself in helping the newcomer into that vocation and locality where he shall most quickly become an American. Those fitted by experience and training for agricultural pursuits should be encouraged to develop the millions of acres of rich and idle land.

MARRIAGE AND DIVORCE LAWS.

We favor the uniform marriage and divorce laws, the extermination of polygamy and the complete suppression of the traffic in girls.

CAPITAL AND LABOR.

Differences between capital and labor should be settled through arbitration, by which the rights of the public are conserved as well as those of the disputants. We declare for the prohibition of child labor in factories, mines, and workshops; an eight hour maximum day, with one day of rest in seven; for more rigid sanitary requirements and such working conditions as shall foster the physical and moral well-being of the unborn; for the protection of all who toil, by the extension of Employers' Liability Acts; for the adoption of safety appliances for the guarding of labor; and for laws that will promote the just division of the wealth which labor and capital jointly produce. Provision should be made for those who suffer from industrial accidents and occupational diseases.

EFFICIENCY.

We pledge a business-like administration of the Nation's affairs; the abolition of useless offices, bureaus and commissions; economy in the expenditure of public funds; efficiency in government service; and the adoption of a budget system. The President should have power to veto any single item or items of an appropriation bill.

We condemn, and agree when in power to remedy, that which is known as "pork barrel" legislation, by which millions of dollars have been appropriated for rivers where there is no commerce, harbors where there are no ships, and public buildings where there is no need.

ONE TERM ONLY.

We are in favor of a single presidential term of six years.

PUBLIC OWNERSHIP.

Public utilities and other resources that are natural monopolies are at the present time exploited for personal gain under a monopolistic system. We de-

mand the public ownership or control of all such utilities by the people and their operation and administration in the interests of all the people.

FREE INSTITUTION.

We stand for the preservation and development of our free institutions and for absolute separation of church and state with the guaranty of full religious and civil liberty.

SOCIAL JUSTICE.

We stand for the rights, safety, justice and development of humanity; we believe in the equality of all before the law; in old age pensions and insurance against unemployment and in help for needy mothers, all of which could be provided from what is now wasted for drink.

AGRICULTURE.

While it is admitted that grain and cotton are fundamental factors in our national life, it cannot be denied that proper assistance and protection are not given these commodities at terminal markets, in the course of inter-state commerce.

We favor and pledge our efforts to obtain public grain elevators to be owned and operated by the Federal Government; also to secure Federal grain inspection under a system of civil service and to secure the abolition of any Board of Trade, Chamber of Commerce, or other place of gambling in grain or trading in "options" or "futures" or "shortselling," or any other form of so-called speculation wherein products are not received or delivered, but wherein so-called contracts are settled by the payment of "margins" or "differences" through clearing houses or otherwise.

This party stands committed to free and open market manipulation. We also favor government ware-houses for cotton at proper terminals where the interests of producers require the same; and the absolute divorce of all railroad elevators or ware-houses owned by railroad companies, either public or private, from operation and control of private individuals in competition with the public in merchandising grain, cotton, or other farm products.

We furthermore endorse all proper methods among producers of those means of co-operative mutual enterprise, which tend toward broader and better markets for both producer and consumer.

CONCLUSION.

This is the day of opportunity for the American people. The triumph of neither old party is essential to our safety or progress. The defeat of either will be no public misfortune. They are one party. By age and wealth, by membership and traditions, by platform and in the character of their candidates, they are the Conservative Party of the United States. The Prohibition Party as the promoter of every important measure of social justice presented to the American people in the last two generations, and as the originator of nearly all such legislation, remains now the only great Progressive Party.

The patriotic voters, who compose the Republican and Democratic Parties, can, by voting the Prohibition ticket this year, elect the issue of National Prohibition.

To those, in whatever party, who have the vision of a land redeemed from drink, we extend a cordial invitation to join with us in carrying the banner of Prohibition to Nation-wide victory.

LABOR.

We favor the protection of the rights of those who toil, the promotion of social justice, harmony between capital and labor, a more equitable distribution of the products of labor and legislation against the exploitation of child labor.

INITIATIVE AND REFERENDUM.

We declare for the initiative, referendum and recall under such restrictions as will secure calm consideration of measures submitted to the people.

BIBLE IN SCHOOLS.

PRIMARY ELECTION, JUNE 5, 1916.

The term "Primary Election" is construed under the law to apply to an election by the members of various political parties for the purpose of placing in nomination candidates for public office, for selecting delegates to conventions, and for the selection of party committeemen. The law provides that the primary election shall consist of an election by all political parties and shall be held at the various voting places of the several precincts on the first Monday in June, in the year 1912 and biennially thereafter, for the nomination of candidates for such offices as are to be filled at the general election in November next ensuing (except candidates for Judge of the Supreme, District and Superior Courts, which shall be non-partisan), for senator in the

congress of the United States, and for the electors of the President and Vice-President of the United States in the years in which senators or president and vice-president are to be elected.

The Board of Supervisors of each county (acting as a County Board of Canvassers) meet on the second Tuesday following the primary election in June and canvass the votes cast at the several precincts and make an abstract thereof. A separate abstract of the canvass duly certified is then forwarded to the Secretary of State for the following offices:

United States Senators.

Electors of the President and Vice-President of the United States.

All State Officers.

Representatives in Congress.

Senators and Representatives in the General Assembly.

On the second Monday after the June primary election, the Executive Council meets as a State Canvassing Board, and opens and canvasses the abstract returns received from each county in the state. Said board makes abstracts of its canvass, showing the number of ballots cast for each person voted for, and the person having the highest number of votes in the state or district (provided he receives 85 per cent of all the votes cast by the party for such office), is duly and legally nominated and is entitled to have his name printed on the official ballot for the General Election.

PRESIDENTIAL ELECTIONS FROM 1789 TO 1916.

AGGREGATE POPULAR VOTE AND ELECTORAL VOTE FOR CANDIDATES FOR PRESIDENT AND VICE-PRESIDENT AT EACH ELECTION.

NOTE—There is, properly speaking, no popular vote for President and Vice-President; the people vote for electors, and those, chosen in each state meet therein and vote for the candidates for President and Vice-President. The record of any popular vote for electors prior to 1824 is so meager and imperfect that a compilation would be useless. In most of the states, for more than a quarter century following the establishment of the Government, the State legislatures "appointed" the presidential electors, and the people therefore voted only indirectly for them, their choice being expressed by their votes for members of the legislature. In this tabulation only the aggregate electoral votes for candidates for president and vice-president in the first nine quadrennial elections appear.

REFERENCES NOTES TO THE FIVE SUCCEEDING PAGES.

*The candidates starred were elected. (a) The first Republican party is claimed by the present Democratic party as its progenitor. (b) No candidate having a majority of the electoral vote, the House of Representatives elected Adams. (c) Candidates of the Anti-Masonic party. (d) There being no choice, the Senate elected Johnson. (e) Eleven southern states, being within the belligerent territory, did not vote. (f) Three southern state disfranchised. (g) Horace Greeley died after election, and Democratic electors scattered their votes. (h) There being a dispute over the electoral vote of Florida, Louisiana, Oregon and South Carolina, they were referred by Congress to an electoral commission composed of eight Republicans and seven Democrats, which, by a strict party vote, awarded 185 electoral votes to Hayes and 184 to Tilden. (i) Free Democrat. (j) Free Silver Prohibition party. (k) In Massachusetts. There was also a native American ticket in that state, which received 184 votes. (m) Middle of the Road or Anti-Fusion People's party. (n) United Christian party. (q) Union Reform party.

ELECTORAL VOTES.

1789. Previous to 1804 each elector voted for two candidates for President. The one who received the largest number of votes was declared President, and the one who received the next largest number of votes was declared Vice-President. The electoral votes for the first President of the United States were: George Washington, 69; John Adams, of Massachusetts, 34; John Jay, of New York, 9; R. H. Harrison, of Maryland, 6; John Rutledge, of South Carolina, 6; John Hancock, of Massachusetts, 4; George Clinton, of New York, 3; Samuel Huntington, of Connecticut, 2; John Milton, of Georgia, 2; James Armstrong, of Georgia; Benjamin Lincoln, of Massachusetts, and Edward Telfair, of Georgia, 1 vote each. Vacancies (votes not cast), 4. George Washington was chosen President and John Adams Vice-President.

1792. George Washington, Federalist, received 132 votes; John Adams, Federalist, 77; George Clinton, of New York, Republican (a) 50; Thomas

Jefferson, of Virginia, Republican, 4; Aaron Burr, of New York, Republican, 1 vote. Vacancies 3. George Washington was chosen President and John Adams Vice-President.

1796. John Adams, Federalist, 71; Thomas Jefferson, Republican, 68; Thomas Pinckney, of South Carolina, Federalist, 59; Aaron Burr, of New York, Republican, 30; Samuel Adams, of Massachusetts, Republican, 15; Oliver Ellsworth, of Connecticut, Independent, 11; George Clinton, of New York, Republican, 7; John Jay, of New York, Federalist, 5; James Iredell, of North Carolina, Federalist, 3; George Washington, of Virginia, John Henry, of Maryland, and S. 1800. Thomas Jefferson, Republican, 73; Aaron Burr, Republican, 73; John Adams, Federalist, 65; Charles C. Pinckney, Federalist, 64; John Jay, Federalist, 1 vote. There being a tie vote for Jefferson and Burr, the choice devolved upon the House of Representatives. Jefferson received the votes of ten states, which, being the largest vote cast for a candidate, elected him President. Burr received the votes of four States, which being the next largest vote, elected him Vice-President. There were 2 blank votes.

1804. The Constitution of the United States having been amended, the electors at this election voted for a President and a Vice-President, instead of for two candidates for President. The result was as follows: For President, Thomas Jefferson, Republican, 162; Charles C. Pinckney, Federalist, 14. For Vice-President, George Clinton, Republican, 162; Rufus King, of New York, Federalist, 14. Jefferson was chosen President and Clinton Vice-President.

*Jackson called himself a South Carolinian and his biographer, Kendall, recorded his birthplace in Lancaster county, South Carolina, but Parson has published documentary evidence to show that Jackson was born in Union county, North Carolina, less than a quarter of a mile from the South Carolina line. †The Democratic party of today claims lineal descent from the first Republican party, and President Jefferson as its founder. Political parties were disorganized at the time of the election of John Quincy Adams. He claimed to be a Republican, but his doctrines were decidedly Federalistic. The opposition to his administration took the name of Democrats and elected Jackson President.
