DECLARATION OF INDEPENDENCE

In Congress, July 4, 1776.

THE UNANIMOUS DECLARATION OF THE THIRTEEN UNITED STATES OF AMERICA.

(Adopted by the Continental Congress July 2, and authenticated and proclaimed July 4, 1776.)

When in the course of human events it becomes necessary for one people to dissolve the political bands which have connected them with another, and to assume among the powers of the earth the separate and equal station to which the laws of nature and of nature's God entitle them, a decent respect to the opinions of mankind requires that they should declare the causes which impel them to the separation.

We hold these truths to be self-evident; that all men are created equal; that they are endowed by their Creator with certain inalienable rights; that among these are life, liberty and the pursuit of happiness; that to secure these rights, governments are instituted among men, deriving their just powers from the consent of the governed; that, whenever any form of government becomes destructive of these ends, it is the right of the people to alter or abolish it, and to institute a new government, laying its foundation on such principles and organizing its powers in such forms as to them shall seem most likely to effect their safety and happiness. Prudence, indeed, will dictate that governments long established should not be changed for light and transient causes; and, accordingly, all experience hath shown that mankind are more disposed to suffer, while evils are sufferable, than to right themselves by abolishing the forms to which they are accustomed. But when a long train of abuses and usurpations, pursuing invariably the same object, evinces a desire to reduce them under absolute despotism, it is their right, it is their duty, to throw off such government, and to provide new guards for their future security. Such has been the patient sufferance of these colonies, and such is now the necessity which constrains them to alter their former systems of government. The history of the present king of Great Britain is a history of repeated injuries and usurpations, all having in direct object the establishment of an absolute tyranny over these states. To prove this, let facts be submitted to a candid world:

He has refused his assent to laws the most wholesome and necessary for the public good,

He has forbidden his governors to pass laws of immediate and pressing importance, unless suspended in their operation till his assent should be obtained, and, when so suspended, he has utterly neglected to attend to them.

He has refused to pass other laws for the accommodation of large districts of people, unless those people would relinquish the right of representation in the legislature—a right inestimable to them, and formidable to tyrants only.

He has called together legislative bodies at places unusual, uncomfortable, and distant from the repository of their public records, for the sole purpose of fatiguing them into compliance with his measures.

He has dissolved representative houses repeatedly for opposing, with manly firmness, his invasions on the rights of the people.

He has refused, for a long time after such dissolutions, to cause others to be elected; whereby the legislative powers, incapable of annihilation, have returned to the people at large for their exercise; the state remaining, in the meantime, exposed to all the dangers of invasion from without, and convulsions within.

He has endeavored to prevent the population of these states; for that purpose obstructing the laws of naturalization of foreigners; refusing to pass others to encourage their migration hither, and raising the conditions of new appropriations of lands.

He has obstructed the administration of justice by refusing his assent to laws for establishing judiciary powers.

He has made judges dependent on his will alone for the tenure of their offices and the amount and payment of their salaries.

He has erected a multitude of new offices, and sent hither swarms of officers to harass our people and eat out their substance.

He has kept among us, in times of peace, standing armies, without the consent of our legislature.

He has affected to render the military independent of, and superior to, the civil power.

He has combined with others to subject us to a jurisdiction foreign to our constitution and unacknowledged by our laws, giving his assent to their acts of pretended legislation—

For quartering large bodies of armed troops among us;

For protecting them, by a mock trial, from punishment for any murders which they should commit on the inhabitants of these states;

For cutting off our trade with all parts of the world;

For imposing taxes on us without our consent;

For depriving us, in many cases, of the benefits of trial by jury;

For transporting us beyond seas, to be tried for pretended offenses;

For abolishing the free system of English laws in a neighboring province; establishing therein an arbitrary government, and enlarging its boundaries, so as to render it at once an example and fit instrument for introducing the same absolute rule into these colonies;

For taking away our charters, abolishing our most valuable laws, and altering fundamentally the forms of our governments;

For suspending our own legislature, and declaring themselves invested with power to legislate for us in all cases whatsoever.

He has abdicated government here by declaring us out of his protection and waging war against us.

He has plundered our seas, ravaged our coasts, burnt our towns, and destroyed the lives of our people.

He is, at this time, transporting large armies of foreign mercenaries to complete the works of death, desolation and tyranny, already begun, with circumstances of cruelty and perfidy scarcely parallel in the most barbarous ages, and totally unworthy the head of a civilized nation.

He has constrained our fellow-citizens, taken captive on the high seas, to bear arms against their country, to become the executioners of their friends and brethren, or to fall themselves by their hands.

He has excited domestic insurrections amongst us, and has endeavored to bring on the inhabitants of our frontiers, the merciless Indian savages whose known rule of warfare is an undistinguished destruction of all ages, sexes, and conditions.

In every stage of these oppressions we have petitioned for redress, in the most humble terms; our repeated petitions have been answered only by repeated injury. A prince whose character is thus marked by every act which may define a tyrant is unfit to be the ruler of a free people.

Nor have we been wanting in attention to our British brethren. We have warned them, from time to time, of attempts, by their legislature, to extend an unwarrantable jurisdiction over us. We have reminded them of the circumstances of our emigration and settlement here. We have appealed to their native justice and magnanimity; and we have conjured them, by the ties of our common kindred, to disavow these usurpations, which would inevitably interrupt our connections and correspondence. They, too, have been deaf to the voice of justice and consanguinity. We, must, therefore, acquiesce in the necessity which denounces our separation, and hold them, as we hold the rest of mankind, enemies in war, in peace friends.

We, therefore, the representatives of the United States of America, in general congress assembled, appealing to the Supreme Judge of the world for the rectitude of our intentions, do, in the name and by the authority of the good people of these colonies, solemnly publish and declare, that these united colonies are, and the right ought to be, free and independent states; that they are absolved from all allegiance to the British crown, and that all political connections between them and the state of Great Britain is, and ought to be, totally dissolved; and that, as free and independent states, they have full power to levy war, conclude peace, contract alliances, establish commerce, and do all other acts and things which independent states may of right do. And for the support of this declaration, with a firm reliance on the protection of Divine Providence, we mutually pledge to each other our lives, our fortunes and our sacred honor.

The seats of the senators of the first class shall be vacated at the expiration of the second year, of the second class at the expiration of the fourth year, and of the third class at the expiration of the sixth year, so that one-third may be chosen every second year; and if vacancies happen, by resignation or otherwise, during the recess of the legislature of any state the executive thereof may make temporary appointments until the next meeting of the legislature, which shall then fill such vacancies.
- (3) No person shall be a senator who shall not have attained to the age of thirty years, and been nine years a citizen of the United States, and who shall not, when elected, be an inhabitant of that state for which he shall be chosen.
- (4) The vice-president of the United States shall be president of the senate, but shall have no vote, unless they be equally divided.

- SEC. 4. (1) The times, places and manner of holding elections for senators and representatives shall be prescribed in each state by the legislature thereof, but the congress may at any time by law make or alter such regulations, except as to the places of choosing senators.

- SEC. 5. (1) Each house shall be the judge of the elections, returns and qualifications of its own members, and a majority of each shall constitute a quorum to do business; but a smaller number may adjourn from day to day, and may be authorized to compel the attendance of absent members, in such manner and under such penalties as each house may provide.
- (2) Each house may determine the rules of its proceedings, punish its members for disorderly behavior, and, with the concurrence of two-thirds, expel a member.
- (3) Each house shall keep a journal of its proceedings, and from time to time publish the same, excepting such parts as may in their judgment require secrecy; and the year and nays of the members of either house on any question shall, at the desire of one-fifth of those present, be entered on the journal.
- (4) Neither house, during the session of congress, shall, without the consent of the other, adjourn for more than three days, nor to any other place than that in which the two houses shall be sitting.
- SEC. 6. (1) The senators and representatives shall receive a compensation for their services, to be ascertained by law, and paid out of the treasury of

- SEC. 7. (1) All bills for raising revenue shall originate in the house of representatives, but the senate may propose or concur with amendments, as on other bills.
- (2) Every bill which shall have passed the house of representatives and the senate, shall, before it become a law, be presented to the president of the United States; if he approve he shall sign it, but if not he shall return it, with his objections, to that house in which it shall have originated, who shall enter the objections at large on their journal, and proceed to reconsider it. If after such reconsideration two-thirds of that house shall agree to pass the bill, it shall be sent, together with the objections, to the other house, by which it shall likewise be reconsidered, and, if approved by two-thirds of that house, it shall become a law. But in all such cases the votes of both houses shall be determined by yeas and nays, and the names of the persons voting for and against the bill shall be entered on the journal of each house, respectively. If any bill shall not be returned by the president within ten days (Sundays excepted) after it shall have been presented to him, the same shall be a law, in like manner as if he had signed it, unless the congress by their adjournment prevent its return, in which case it shall not be a law.

THE CONSTITUTION OF IOWA

Historical Review

The name "State of Iowa" is the result of some interesting changes in the governmental history of the territory bearing the name. It is often claimed that the word "Iowa" was taken from the name of a tribe of Indians who had been and were still dwelling in that part when the first white men came, the "Ioway Indians"; but, it is more probable that it has been named for the Ioway River. The country was first referred to as a district,—the "Iowa District," in 1836, while still a part of the Wisconsin Territory. Two years later it was organized as an independent territory, the "Territory of Iowa." When it was admitted to the Union in 1846, it became the "State of Iowa."

The Iowa territory, as part of the whole Mississippi Valley, was taken into formal possession by France in 1682, as a result of the explorations of the Frenchmen Marquette and Joliet in 1673, and Hennepin in 1680. In 1762 France ceded the western half of this valley, including Iowa, to Spain, who retroceded it to France in 1800. France ceded it to the United States in 1803, as a part of the Province of Louisiana.

Marquette and Joliet were the first explorers of the Iowa territory, going along the Iowa river as early as 1783. Beginning with the first year after its cession to the United States, explorers came quite frequently. The Lewis and Clark expedition went through western Iowa in 1804; Zebulon M. Pike explored the west bank of the Mississippi in 1805; and Albert M. Lea exploited the eastern portion of the state in 1835.

Iowa government began with the Louisiana purchase in 1803. For two years it was under the government of the Indiana Territory, as a part of the District of Louisiana. In 1805 the District of Louisiana was organized as the Territory of Louisiana, and in 1812 the Territory of Louisiana was reorganized as the Territory of Missouri. In 1821, the State of Missouri, then a part of the Territory of Missouri, was admitted to the Union, thus leaving Iowa a part of the unorganized territory of the United States without a constitutional status, in which condition it remained until 1834. From 1834 to 1836 it was attached to the Michigan Territory. When the Wisconsin Territory was organized in 1836 it became a part thereof.

In 1838 the Independent Territory of Iowa was established, on the fourth day of July. It then included a large part of the present state of Minnesota, which remained as Iowa territory until 1849 when the Minnesota Territory was organized, at which time Iowa received its present boundaries.

The Territory of Iowa was the ancient abode of the Sac, Ioway, Dakota and Fox tribes of Indians, and did not have any permanent settlers until 1838. The Indians refused permission to white settlers to come in to mine and farm, and the United States troops protected their rights until 1832. The Black Hawk War resulted in letting white men in, for its conclusion in 1832 resulted in the cession of thousands of square miles of the eastern part of Iowa. During the next few years, practically the whole of the Iowa territory was secured from them through treaties.

The frontiersmen rushed in to farm and mine. The population increased very rapidly with the influx of prospectors and homeseekers from all parts of the Union. During the ten years from 1836 to 1846 the increase in inhabitants was from 10,531 to 102,388.

Government was established among the early settlers by voluntary associations. They selected their own homes and began improving them, building huts and clearing and breaking the ground. "Claim associations" and "land clubs" were formed for the protection of their claims to the land they worked. These organizations were the only government they had and their proceedings were later recognized by the United States government.

The Act of Congress of 1838, entitled "an act to divide the territory of Wisconsin and to establish the Territorial Government of Iowa" gave the Territory of Iowa its constitution. Until the formation of the State in 1846, this Constitution was its fundamental law.

Iowa having separated from Wisconsin in 1838 for the want of sufficient courts for judicial relief, the question of applying for admission into the Union as a state was recommended as early as 1839. The first recommendation brought no result, and in 1840 the question of calling a constitutional convention was voted on by the people. It was defeated by a large majority, as it was again in 1842 by those who most wished to avoid an increase in taxes. In 1844, however, the vote was in favor of a convention. Application for a state government was made. The question of boundaries, a result of the question of slavery, held back its admission as a state until 1846, when on the 28th day of December it was admitted into the Union on an equal footing with the thirteen original states. It was the sixteenth state so admitted.

The first constitutional convention was convened at Iowa City, October 7. 1844. The constitution adopted by this convention was twice voted on and each time defeated in the year 1845.

At a second constitutional convention at Iowa City, May 4, 1846, a constitution was adopted by the convention, which was adopted by the people at an election held on the 3rd day of August, 1846, there being 9,462 votes cast "for the constitution," and 9,036 votes cast "against the constitution." This constitution was presented to Congress in December, 1846, and on the 28th day of the same month an act was passed for the admission of Iowa into the Union.

A third constitutional convention was authorized by the people by a majority of over eighteen thousand, for the purpose of revising and amending the constitution. At the November election, 1856, delegates to the convention were elected; and the convention met at Iowa City in January, 1857. The constitution adopted by this convention was adopted by the people at an election held on the 3d day of August, 1857, there being 40,311 votes cast "for the constitution" and 38,681 votes cast "against the constitution" and took effect by proclamation of the governor September 3, 1857. A copy of this constitution, taken from the original records, is contained herein.

The constitution of Iowa has been amended eight times since its adoption, all of which amendments are contained herein.

The general assembly may provide by law for the condemnation of such real estate as shall be necessary for the construction and maintenance of such drains, ditches and levees, and prescribe the method of making such condemnation.

Note.—This amendment was proposed by the general assembly of 1906; readopted by the general assembly of 1907; ratified at the election of November 3, 1908, and certified adopted on November 23, 1908.

AMENDMENTS OF 1916.

Repeal section 7, article II and enact in lieu thereof the following:

SEC. 7. The general election for state, district, county and township officers in the year 1916 shall be held in the same month and on the same day as that fixed by the laws of the United States for the election of presidential electors, or of president and vice-president of the United States; and thereafter such election shall be held at such time as the general assembly may by law provide.

AMENDMENT OF 1917.

SEC. 27. The manufacture, sale, or keeping for sale, as a beverage, of intoxicating liquors, including ale, wine and beer, shall be forever prohibited within this state. The general assembly shall by law prescribe regulations for the enforcement of the prohibition herein contained, and shall provide suitable penalties for the violation of the provisions hereof.

-This amendment was proposed by the general assembly of 1915; readopted by the general assembly of 1917; defeated at the special election October 15, 1917.
Yes: 214,693; no. 215,625—932.

AMENDMENT PROPOSED 1919.

Joint resolution proposing that section 1 of article II of the constitution be repealed, and the following enacted in lieu thereof, to-wit:

SECTION 1. Every citizen of the United States of the age of twenty-one (21) years, who shall have been a resident of this state six (6) months next preceding the election, and of the county in which he or she claims his or her vote, sixty (60) days, shall be entitled to vote at all elections which are now or hereafter may be authorized by law.

Resolved further, that the foregoing proposed amendment be, and the same is hereby referred to the legislature to be chosen at the next general election for members of the next general assembly, and that the secretary of state cause the same to be published for three (3) months previous to the day of said election as provided by law.

Note.—The general assembly was convened in special session on July 2, 1919, for the purpose of considering the proposed amendment to the constitution of the United States providing that the right of citizens of the United States to vote shall not be denied or abridged by the United States or by any state on account

Federal amendment ratified on said date which made further action on the "Amendment Proposed 1919" unnecessary.

At the general election on the second day of November, 1920, in pursuance of the law as found in section 1061 of the code and in article X, section 3 of the constitution of Iowa, there was submitted to the electors the following question: "Shall there be a convention to revise the constitution and amend the same?"

Yes: 279,652; no: 221,763-57,889.

Thirty-ninth general assembly failed to provide for constitutional convention.

Note.—This amendment in substantially this form was proposed by the general assembly 1913; re-adopted by the general assembly of 1915; but was not adopted by the people. It was again proposed by the general assembly of 1917, but was not published as provided by Sec. 1 of Art. X of the constitution and sec. 55 of the code of Iowa, which caused its second defeat. The present amendment was proposed by the general assembly of 1919.

TREASURER OF STATE

Term of incumbent ends January 1, 1927. Salary \$4,000.

R. E. JOHNSON, of Muscatine, Muscatine County. Born in Iowa.

The public revenues of the state are received and disbursed by the treasury department; books are kept in which are recorded the names of all persons from whom money for any purpose is received, the date received, the purpose for which the money was remitted, and the amount thereof. Receipts in duplicate are issued for each item received, and the duplicate is filed with the auditor of state. When remittance of state dues is made by bank draft, check or certificate of deposit, such draft, check or certificate must be deposited for collection in some bank in the city of Des Moines which has been previously designated as a depository for state funds, and no receipt for any sum remitted by check or draft is issued by the treasurer until the depository receiving the deposit notifies the department of the collection thereof.

All county recorders and superintendents of schools are required to remit to the treasurer of state on or before the 15th of each month all state moneys received by them during the preceding calendar month. All county treasurers are required to remit to the treasurer of state on or before the 15th of each month for the per capita costs of patients maintained in the various state institutions and who are residents of their counties, as certified to him by the county auditor, and to report to the treasurer at the same time the collection during the preceding month of taxes belonging to the state. The law provides that when the cash balance of general revenue funds in the state treasury is reduced below \$2,000,000.00 the treasurer of state may draw upon each county treasurer in proportion to the amount in his possession, a sum sufficient in the aggregate to increase said cash balance to an amount not to exceed \$3,000,000.00. The same provision governs the primary road fund except that the minimum is \$100,000.00 and the maximum \$500,000.00. The soldiers' bonus tax fund. collected by county treasurers, is drawn into the state treasury only at such times and in such amounts as is necessary to pay the interest and bonds as due.

All elective and appointive state officers, boards, commissions, and departments, except the state fair board, the state board of education, and the board of control of state institutions, are required to within ten days succeeding the collection thereof, deposit with the treasurer of state 90% of all fees, commissions and moneys collected or received, the balance actually collected in cash, remaining in the hands of any officer, board or department cannot exceed the sum of \$5,000.00 and no money collected is authorized to be held more than 30 days. Each deposit must be accompanied by an itemized statement of the sources from which the money was collected and showing the funds to be credited.

The treasurer of state, with the consent of the executive council, may designate banks in the state of Iowa as depositories of state funds in amounts not exceeding the limits to be fixed by said council. Each bank so designated shall pay interest on daily balances at the rate of $2\frac{1}{2}\%$ at such times as may be agreed upon by the banks and the treasurer of state, with the approval of the executive council.

Disbursements from the state treasury are made only upon warrants issued by the auditor of state. A record is kept of each warrant paid, showing date of issue, date of payment, to whom paid and upon what account drawn. During the last blennial period the disbursements amounted to \$59,179,297.71 and the receipts were \$61,131,278.03.

An act of the forty-first general assembly requires the treasurer of state to collect from distributors a license fee of two cents per gallon on all gasoline used in the state for any purpose whatsoever. Provision is made for the refund of the license fee paid when the gasoline is used for certain purposes. One-third of the fees collected is distributed to the primary road fund, one-third to county road funds and one-third to township road funds.

The state treasurer is the custodian of the permanent endowment fund of the state agricultural college. This fund amounts to about \$680,000.00 and is loaned at not less than five per cent, secured by first mortgages upon real estate in Iowa. The interest only may be used by the college. This interest is payable to the state treasurer and is by him paid to the treasurer of the college. The accounts of the department are inspected quarterly under the direction of the governor.

The work of the Department of Public Instruction. The duties of the superintendent of public instruction may be classified as educational, quasi-judicial, and ex-officio.

Educational. Among the duties of an educational nature may be named her general supervision over the county superintendents of the state, which necessitates her meeting with these officers at least twice each year, and the publication of numerous circulars of instruction and suggestion. She is at the head of the public school system of Iowa, and her duties as such leader are to appoint institutes, and approve institute faculties. She is required by law to promote among the people of the state a proper interest in the general subject of education, including industrial and commercial education, agriculture, manual and vocational training, domestic science and continuation work. Also to classify and define various public schools belonging to her department, and to formulate suitable courses of study therefor, and to publish and distribute such clasisfications and courses of study. It is also her duty to collect statistics, and report on education, and educational questions, and the condition of the public schools of the state, and to publish them in reports and pamphlets. Among the publications that have become a part of the educational needs of the state and are of national note may be named: The Manual of Methods for the Elementary Schools of Iowa, Special Day Book, Educational Directory, Proceedings of the Iowa State Teachers' Association, Standards for Approved Graded and High Schools, Reference Books for the Approved High Schools of Iowa, Outlines in Agriculture, Domestic Science and Manual Training, Outlines of Psychology and School Management, Outline of Music for Normal Training High Schools and Normal Training Courses in Four Year High Schools, and Iowa Day. Many others of minor importance on various subjects are published.

In order to aid her in organizing and classifying the public schools of the state, the superintendent of public instruction is permitted by law to appoint one normal training inspector, two graded and high school inspectors, and one inspector of rural and consolidated schools. She is also empowered to distribute to the normal training schools and the consolidated schools certain aid which is set aside for these schools under certain conditions. It is her duty to pass upon them finally, and to determine what schools shall receive state aid.

For the purpose of increasing the facilities for training teachers for the rural schools by requiring a review of such common branches as may be deemed essential by the superintendent of public instruction, and for instruc-

tions in elementary pedagogy, and the art of teaching elementary agriculture and home economics, provision is made for normal courses of study and training in such approved four-year high schools as the superintendent of public instruction may designate.

She reports biennially to the governor on the conditions of the public schools of the state, and makes suggestions and recommendations as investigation and experience dictate.

Judicial. The quasi-judicial duties of the superintendent of public instruction include the hearing of appeals from the decisions of county superintendents, the rendering of opinions, in writing, when requested by school officials (but in fact opinions are rendered to all who request them) and publication of the school laws and notes on the same, and pamphlets containing session laws.

Ex-officio duties. The superintendent of public instruction is ex-officio member of the Iowa library commission, president of the educational council, president of the educational board of examiners and president of state board of vocational education.

As executive of the educational board of examiners, a great amount of responsibility is incurred since all licenses to teach are issued under authority of this board, and the work is conducted under her personal supervision.

The board of educational examiners consists of four members ex-officio and three members appointed by the governor for a term of four years. Of the appointive members, one must be a woman and one a representative of the privately endowed colleges of the state maintaining teachers' training courses. The nineteenth general assembly created the board of educational examiners by legislative enactment which went into effect March 24, 1882. The board originally consisted of five members. The thirty-seventh general assembly added the president of Iowa State College of Agriculture and Mechanic Arts to the members ex-officio; the thirty-ninth general assembly added the representative of privately endowed colleges.

A board for the examination of teachers was created December 20, 1861, composed of the members of the faculty of the state university. Of this board the professor of the normal department of the state university and the secretary of the board of trustees were ex-officio chairman and secretary. It issued life certificates to graduates of the normal department of the state university and to holders of first grade state certificates of other states without examination; it also issued certificates upon examination. This board was abolished by the adoption of the code of 1873. The certificates issued by it are still valid licenses for teaching in the public schools of the state.

The statute provides that the board of educational examiners shall meet at such times and places as the president shall direct. It is the practice to have five meetings a year,

All teachers' certificates are issued by the board of educational examiners. There are three series of certificates, viz., (1) state diplomas and state certificates, (2) high school normal training certificates, (3) uniform county certificates.

State certificates are issued upon (1) graduation from accredited Iowa colleges; (2) graduation from colleges and normal schools of other states which meet the Iowa standard; provided the applicants file proofs of two years' successful teaching; (3) state certificates of other states which meet the Iowa standard; (4) examination. The state diploma is issued only upon examination.

High school normal training certificates are issued upon graduation from approved normal training high schools and examination.

Uniform county certificates are issued only upon examination.

The board of educational examiners makes regulations for the granting of certificates to graduates of the regular and collegiate courses of the state university, the state teachers' college, and the state college of agriculture and mechanic arts, and determines what other colleges and normal schools are entitled to like recognition.

The statute makes it a duty of the board of educational examiners to prepare and publish a list of books suitable for rural school libraries, from which list the library committee of all rural schools must make selection when purchasing books for their libraries.

The powers and duties of the board of railroad commissioners are: To generally supervise all railroads in the state, both steam and electric, except street railroads; to inquire into any neglect or violation of the laws of the state by any railroad corporation doing business therein; to make examinations and inspections of the physical condition, conduct and management of such railroads and report their condition to said companies; to stop and prevent railroad companies, under certain circumstances, from running or passing their trains over unsafe bridges; to adjudge changes in station houses, rolling stock and rates of fare; to pass on necessity for spur tracks to be constructed and maintained not exceeding three miles in length to an existing industry under

terms and conditions approved by the commission as set out by law; to make reasonable rules for the crossing of steam and interurban railways and to require, when necessary, interlocking switches at railroad crossings; to make report on first Monday in December in each year to the governor of its doings for the preceding year, accompanied with appropriate suggestions and recommendations; to receive, tabulate and report upon the annual reports filed with it by railroad companies; to examine any of the books, papers or documents of any such corporation; to examine under oath employes of such corporation; to issue subpoenas, administer oaths and compel the attendance of witnesses; to make and fix maximum schedules of freight rates for such corporations, such schedules to be deemed reasonable until disproved; to examine into rates in force, upon complaint that the rate charged by a railroad company, or that the maximum rates fixed by the commission are unreasonably high or discriminating, and to fix the rate again, which must not be higher than any rate established by law, such decision of the commission is prima facie evidence that the rate so made is a reasonable maximum rate; to bring suits to enforce its orders; to inquire into the management of the business of such carriers and to obtain from them full and complete information necessary to enable the commissioners to carry out the objects of the law; to hear, investigate and determine all complaints alleging unreasonable rates; unjust discrimination, undue preference, violation of the long and short haul clause, or other infractions of the commission law, and make proper orders thereupon; to establish joint through rates, upon application, over two or more connecting lines; and to have the same authority over express companies as the act confers concerning railroads.

Before a railroad company may appropriate coal, coke or oil received for shipment, it must first secure the written consent of the railroad commission.

Before any railway company may condemn lands for additional depot grounds, or for straightening or relocating track, the permission of the board must be obtained. Interlocking switches may be placed at grade railroad crossings or draw bridges, thus obviating the necessity of stopping trains before passing over such grade crossings or draw bridges, but before the interlocking switch may be used, consent of the board must be obtained.

The thirty-fifth general assembly gave to the commission the power to grant to individuals or corporations "engaged in the manufacture, sale, or distribution for sale of electric current for light, power, or heating purposes, the right within the state, except in cities and towns, to erect and maintain poles, wires, towers, fixtures and other necessary construction for the purpose of conducting electricity for lighting, power and heating purposes over, along and across any public land, highways or streams or the lands of any person or persons, and to acquire the necessary interests in real estate therefor." It also provided that transmission lines proceeding under the provisions of the law should be subject to "such reasonable regulations as the commission may from time to time, prescribe."

The board is directed by an act of the thirty-ninth general assembly to "undertake and carry forward such investigation and preparation as shall be necessary to properly represent the interests of the state in connection with the valuation of the property of common carriers now being conducted by the interstate commerce commission,"

The thirty-ninth general assembly authorized the railroad commission upon application to them to issue to any warehouseman a license for the conduct of a bonded warehouse under the provisions of chapter 119, laws of the thirty-ninth general assembly, and such rules and regulations as might be made thereunder.

The fortieth general assembly conferred on the commission the power to issue certificates authorizing motor carriers to operate over the public highways of the state, upon a showing that the proposed service would promote "the public convenience" and authorized the board to prescribe rules and regulations for the operation of motor vehicles used by such carriers "for the protection and safety of the public." The forty-first general assembly revised

the laws on this subject, but left their administration with the railroad commission.

The thirty-fourth general assembly created the office of commerce counsel, to be appointed by the board of railroad commissioners for a term of four years, subject to confirmation by senate. The law provides that the counsel may appoint assistants, subject to the approval of the board of railroad commissioners. The duties of the office briefly are as follows:

DUTIES OF COMMERCE COUNSEL

The legal advisor of the board of railroad commissioners. To investigate and present matters with reference to interstate rates to the board of railroad commissioners, prosecute the same before said board, or to any court to which same may be taken. To investigate on his own motion, or at the request of the board, all matters involving interstate rates in which the people of Iowa are interested, and present the same to the interstate commerce commission and prosecute same to the final determination. To act as attorney for and represent the board of railroad commissioners in all courts of this state or of the United States, in which the validity of any order of said board is in issue; to institute and prosecute in any of the courts any and all suits necessary to the proper enforcement of any rule or order of said railroad commissioners or make defense therein wherever said rule or order may be called in question.

The adjutant general is appointed by the governor. He issues and transmits all orders of the commander-in-chief and keeps a record of all appointments of officers commissioned by the governor, of all the general and special orders and regulations, and of such matters as pertain to the organization of the military force and his duties. All muster rolls, reports, returns, enlistments, discharges and complete records of the organized militia are filed and made a matter of record in his office. The records of Iowa soldiers of the Civil and Spanish-American wars are on file in his office and all information desired from such records is furnished by him. Certificates of military service of Iowa soldiers of the late wars or past service in the organized militia are given by him under the seal of the state. He is the disbursing officer of all state appropriations for the use and support of the organized militia and as acting quartermaster general all military property is committed to his custody which he is required to issue for the use of the militia, keeping an account of the same. He is required to furnish such reports of the organized militia of the state as the secretary of war may from time to time require. As chief of staff he is to perform his duties as such officer as directed by the commander-in-chief or required by the laws of Iowa governing its organized militia or by orders and regulations.

The thirty-eighth general assembly in passing H. F. 362, provided for a commission to be known as the "War Roster Commission" to consist of the governor as chairman, and the adjutant general as member and disbursing officer. The thirty-eighth general assembly appropriated \$20,000.00 for the estimated work, but it was found necessary to request the thirty-ninth general assembly to appropriate \$15,000.00 additional. The board is required to inspect county and private institutions in which insane persons are kept, associations and societies receiving friendless children and detention homes provided for juvenile offenders.

Prior to July 1, 1898, the foregoing state institutions, except the reformatory and penitentiary were in charge of separate boards, each of which had its officers and each had a secretary and treasurer.

^{***}Term expires July 1, 1929.

The board of control was organized on April 6, 1898, and took full control, as provided by statute, on July 1, 1898, of the institutions subject to its control. At that time the various boards of trustees and commissioners cease to exist.

The board publishes quarterly a bulletin, devoted to the scientific investigation of the treatment of insanity and epilepsy and the feeble-minded, and information embodying the experience of soldiers' homes, charitable, reformatory and penal institutions in this and other counties.

The board is required to investigate the management and financial condition of the state institutions under its control, to deterimne questions as to the sanity of patients in state hospitals, and to determine when persons shall be admitted to them as state charges, and is required to divide the state into hospital districts. It is required to make biennial reports to the governor and legislature showing the cost of operating the institutions for the preceding two years and to visit all institutions twice each year. Some member of the board or its agent is required to visit each hospital once each month. It is required to meet the superintendents and other heads of institutions in quarterly conferences, to gather statistics, to publish a bulletin, to require official bonds of certain institution officers, to make a semi-annual invoice of all the stores of the institutions, to fix annually the salaries of officers and employees not fixed by law, and to appoint a state architect and perform other duties provided by law.

IOWA SOLDIERS' HOME-MARSHALLTOWN

Commandant, B. C. Whitehill; adjutant, J. C. Loper; quartermaster, Carl Shaffner; surgeon, W. S. Devine, M. D.; assistant surgeon, R. J. Stephen, M. D.; chaplin, W. H. Clement; and chief engineer, H. O. Grimes.

The United States government pays to the state of Iowa the sum of \$120 per year for each male inmate of the soldiers' home who served in any war in which the United States was engaged, which amount is used as a part of the support fund of the institution. Persons who have sufficient means for their own support may be admitted to the home on payment of the cost of their support, if there be room, but pension money received by any member of the home from the United Staes government may not be taken from him for his support in the home. The regular appropriation by the state is \$28 per month for each member, and \$15 per month for each officer and employe not a member of the home.

IOWA SOLDIERS' ORPHANS' HOME-DAVENPORT

Fewer than 20 per cent remain to the age limit. A library of well selected juvenile literature is maintained. Much of the clothing of the children is manufactured at the home, the large girls assisting in its manufacture. The table is supplied with a good variety of plain, wholesome food and a reasonable amount of luxuries. The home is supported by a regular appropriation of \$25 per month for each child and the actual transportation charges of children to and from the institution. Each county is liable to the state for the support of its children to the extent of \$12.50 per month, except soldiers' orphans, who are cared for at the expense of the state.

children with normal faculties. The object is to make each child as nearly self-supporting as practicable, and to approach as nearly as possible the movements and actions of normal people. The manufacture of chairs and work shirts at the penitentiary and butter tubs and aprons at the reformatory, has given employment to about 600 men, with very satisfactory results.

On July 1, 1909, the management and control of the State University, the Iowa State College of Agriculture and Mechanic Arts, and the Iowa State Teachers' College was assumed by the Iowa state board of education. This board consists of nine members, who are appointed by the governor and confirmed by the senate, under the provisions of an act of the thirty-third general assembly, approved by the governor March 29, 1909. By chapter 141 of the acts of the thirty-fourth general assembly, the college for the blind was placed under the control of this board, and the thirty-seventh general assembly transferred the supervision of the school for the deaf from the board of control of state institutions to the state board of education. Under the provisions of the law, not more than five members of the board may be members of the same political party; and not more than one alumnus from each of the institutions may be members of the board. As required by the act, three of the members of the board were appointed for two years, three for four years.

and three for six years. Subsequent appointments on the board, except to fill vacancies, are to be for terms of six years. Offices at the seat of the state government are to be furnished the board by the executive council, and the board also maintains an office at each of the institutions. Members of the board are not required to give bond; and they are to receive a compensation of ten dollars per day for the time actually employed in the performance of their duties not exceeding sixty days in any one year, and are also allowed traveling expenses. The board is required to have four regular meetings each year and may hold additional ones on the call of the president or secretary. The duties of the board as set out in the act are as follows:

Sec. 4. The state board of education shall have power to elect a president from its members; a president and treasurer for each of said educational institutions, and professors, instructors, officers and employes; to fix the compensation to be paid to such officers and employes; to make rules and regulations for the government of said schools, not inconsistent with the laws of the state; to manage and control the property, both real and personal, belonging to said educational institutions; to execute trusts or other obligations now or hereafter committed to the institutions; to direct the expenditure of all appropriations the general assembly shall, from time to time, make to said institutions, and the expenditure of any other moneys; and to do such other acts as are necessary and proper for the execution of the powers and duties conferred upon them by law. * *

Members of the board choose, from outside their own membership, a finance committee of three members, not more than two of whom shall be members of the same political party. Each member of the finance committee receives a compensation of thirty-six hundred dollars a year, and serves for three years unless sooner removed by the board. The board designates one of the finance committee as chairman and one as secretary, and the secretary of this committee also serves as secretary of the board. The secretary has charge of the general offices and of all books and papers of the board at the seat of government. The members of the committee, in addition to their salaries, are entitled to mileage and necessary expenses. Each member of the finance committee is required to file a bond in the sum of \$25,000, which is to be approved by the governor. The members of the finance committee are required to visit each of the institutions once a month, and to familiarize themselves with the work there being done.

All official correspondence with the board should be addressed to the secretary of the Iowa State Board of Education, Capitol, Des Moines, Iowa.

This college was formally opened on March 17, 1869. Provision for maintaining its scope of work was given by state and federal legislation. In 1858 the state legislature first provided for the establishment of such an institution. In 1862 congress provided for the support of instruction in agriculture and the general assembly of Iowa accepted the federal grant and thus entered into contract with the United States government. In later years other federal and state legislation has increased the support of the institution and has enlarged and strengthened its work along its special lines.

The college is governed by the state board of education consisting of nine members appointed by the governor. The work of the college is conducted along the following five major lines:

Agriculture, Engineering, Home Economics, Industrial Science, Veterinary Medicine.

GRADUATE AND UNDERGRADUATE COURSES

In each of these five major lines stated above, collegiate and graduate instruction is given, leading to Bachelor's, Master's and Doctor's degrees.

Graduate instruction is adapted to the needed requirements of candidates for different degrees. Undergraduate or collegiate instruction is given in four-year, five-year, and six-year courses offered in the different divisions of the college, and jointly between divisions. Graduate and undergraduate courses are fully described in the college catalog, and include courses in agricultural education, agricultural engineering, animal husbandry, ceramics, chemical engineering, dairying, electrical engineering, farm crops and soils, farm management, forestry, home economics, horticulture, industrial science, mechanical engineering, mining engineering, structure design, and veterinary medicine.

NON-COLLEGIATE COURSE

These courses are offered especially for young men and women who have not completed the requirements for admission to collegiate courses. They include two-year courses in agriculture, trades and industries, and two quarter course in dairying, and two quarter course for herdsmen. Home makers.

SUMMER SESSION

The summer session is divided into two six-weeks periods in which some courses especially adapted to public school teachers are offered, including work in agriculture, home economics, manual training, industrial science, and vocational education, work for rural and grade teachers. Special attention is given to collegiate and graduate courses.

WINTER SHORT COURSES

These are given at different times on different subjects with one special week known as Short Course and Convention Week.

ENROLLMENT

Total attendance in 1923-1924 was 9,856, divided as follows: Collegiate agriculture, 1,062; non-collegiate agriculture, 339; collegiate engineering, 1,219; non-collegiate trades and industries, 214; collegiate home economics, 974; non-collegiate home economics, 80; industrial science, 306; veterinary medicine, 88; graduate college, 337; summer session, 2,144; music, 147; short courses, 2,946. Enrollment not including duplicates, 8,019.

AGRICULTURAL EXPERIMENT STATION

Charles Franklin Curtiss, B.Sc., D.S., Director, Ames.

The Iowa Agricultural Experiment Station was established in accordance with an act of congress, approved March 2, 1887, for the purpose of aiding "In

acquiring and diffusing among the people of the United States useful and practical information on subjects connected with agriculture, and to promote scientific investigation and experiments respecting the principles and application of agricultural science."

This station derives its support in part from the national government and in part from the state, as follows: For the year 1922-1923 from the national government, \$30,000.00, from the state \$250,000.00.

The work of the Agricultural Experiment Station now includes the following lines of investigation: Farm crops and soils, agricultural economics and farm management, animal husbandry, horticulture, and forestry, agricultural engineering, botany and plant pathology, dairying, entomology, chemistry, bacteriology, rural sociology, and genetics. The results of investigations and experiments along these lines are published in bulletins and circulars which are distributed free to all residents of the state who apply for them. For the year ending June 30, 1923, thirty-seven (37) different publications were issued, including nine regular bulletins, ten circulars, four research bulletins, nine soil survey reports, and one annual report. The total number of copies printed was 479,800. The total number of publications distributed during the year was 433,208.

ENGINEERING EXPERIMENT STATION

Including Good Roads Experimentation.

Anson Marston, C.E., Director, Ames.

The Engineering Experiment Station was established at the Iowa State College by the legislature of Iowa in 1904 to afford a service, through scientific investigations, evolution of new devices and methods, educational information on technical subjects and tests and analysis of materials; for the manufacturing and other engineering population and industries of Iowa; for the agricultural industries of the state in the solution of their engineering problems; for the urban and rural population of the state in the solution of the engineering problems of urban and rural life.

From the first the station has carried on original investigations along lines of vital interest to the people of Iowa, including drainage, sewerage and sewage disposal, water supply, roads and road traffic, pavements, bridges, clay products, concrete materials and other materials of construction, lighting, steam and electric power, engineering economics and others. The results have been published in more than seventy-three bulletins for free distribution. Any of these bulletins not out of print will be sent free upon request addressed to Director Anson Marston, Engineering Station, Ames, Iowa.

VETERINARY INVESTIGATIONS

C. H. Stange, Dean.

This work is being supported by special appropriation and under its provision diseases of animals which are as yet little understood and for which we have no satisfactory means of control are studied and the most practical means of solving their control or eradication are investigated.

EXTENSION WORK

R. A. Pearson, President.

The extension work of the Iowa State College of Agriculture and Mechanic Arts is divided into two branches—agricultural and home economics extension and engineering extension.

AGRICULTURAL AND HOME ECONOMICS EXTENSION

R. K. Bliss, Director.

The agricultural extension work was established permanently by enactment of the thirty-first general assembly. This act provided for the dissemination of information concerning agriculture and home economics.

The thirty-fifth general assembly passed an act which authorized the incorporation in each county of the state of an association for the advancement and improvement of agriculture and domestic science to define the powers and rights of such association and its members and to provide for appropriations by boards of supervisors. As amended by the thirty-eighth general assembly, farm bu-

reaus receiving county funds must be organized to co-operate with the U.S. Department of Agriculture and the Iowa State College of Agriculture and Mechanic Arts.

The thirty-sixth general assembly accepted the provisions of the Federal Smith-Lever Act passed by the congress of the United States in 1914 and providing federal aid for agricultural extension work in the state.

Extension work is now so organized that it reaches every community in the state.

ENGINEERING EXTENSIONS

D. C. Faber, Director.

The thirty-fifth general assembly of Iowa provided an appropriation for the establishment of trade school and engineering extension work. Short courses of instruction and technical institutes are conducted in industrial centers. Technical information is supplied municipalities and civic organizations. Bulletins of information are issued from time to time. The visual instruction service furnishes educational slides and films. Correspondence courses are offered in trade and industrial subjects.

STATE APIARIST

Appointed by the State Board of Education. Term at pleasure of board. Appropriation \$1,500 annually.

F. B. Paddock, of Ames, Story County.

By an act of the thirty-seventh general assembly of Iowa, the state board of education was authorized to appoint a state apiarist to work under the supervision of the director of agricultural extension and professor of entomology of Iowa State College. Previous to July 1, 1917, the duties of this office were carried by the inspector of bees, who was appointed by the governor.

ORGANIZATION

An act of congress, July 20, 1820, authorized the secretary of the treasury to set apart and reserve from sale of lands in the territory of Iowa funds for the use and support of a university to be established when Iowa should become a state. In 1846 Iowa was admitted to the Union with a constitution which provided that the general assembly should take measures to care for the lands granted and for the application of the income to support the university. In accordance with this provision the first general assembly on February 25, 1847. passed an act establishing and locating at Iowa City a state university. The capitol building and the land upon which it stood were donated to the university in view of the contemplated removal of the seat of government from Iowa City. Delay in removing the capitol prevented the opening of the institution until March, 1855. The organization of departments began in the same year. From 1858 to 1860, owing to the lack of funds, the normal department was the only one in operation, and the university was reorganized in 1860. The law department was established in 1868, the medical department in 1870, the dental department in 1882, the department of pharmacy in 1885, the graduate college in 1900, the college of applied science in 1905, the college of education in 1913, and the college of commerce in 1921. In the course of the evolution of the university the various departments became, and now are, colleges.

From 1847 to 1870, the management of the university was in the hands of trustees, elected throughout most of the period by the legislature. In 1870 the legislature substituted a board of regents consisting aside from ex-officio members, of one member from each congressional district. In 1909, pursuant to an act of the thirty-third general assembly, the control of the state university of Iowa, together with that of the Iowa state teachers' college and the Iowa state college of agriculture and mechanics art, passed into the hands of a state board of education.

The state university of Iowa is an integral part of the public school system of the state. As contemplated in its establishment, the work of the university is based upon the preparation afforded by the duly accredited high schools of the state, whose students are admitted to the undergraduate and professional courses upon the presentation of the proper certificates—except in the colleges of medicine and law, which require two years, and the college of dentistry which requires one year of collegiate work in preparation. The state, through the university, undertakes to furnish instruction in the various branches requisite for an education in the liberal arts, law, dentistry, pharmacy, fine arts, nursing, commerce, journalism, etc. It also aims to encourage research work in all departments.

The university embraces the following:

Graduate College College of Commerce
College of Liberal Arts School of Journalism
College of Law School of Nursing

College of Medicine School of Public Health Nursing

College of Dentistry School of Music

College of Pharmacy Child Welfare Research Station

College of Applied Science Summer Session
College of Education Extension Division

The Graduate College unites the university's equipment for advanced study and research, its courses beginning where the courses in the other colleges end. It offers work leading to the degrees of M.A., M.S., and Ph.D.

The College of Liberal Arts is the center around which the university has grown. It offers upwards of six hundred liberal and vocational courses in the arts and sciences, these courses leading to the degree of B.A. or B.S., the latter only in connection with combined courses in liberal arts and professional studies.

The College of Law offers a course of three years leading to the degree of LL.B. For admission two years of study in a liberal arts college are required.

The College of Medicine offers a course of four years leading to the degree

of M.D. The college is recognized by the American Medical Association in "Class A." Two years of liberal arts study are required for admission.

The College of Dentistry offers a course of four years leading to the degree of D.D.S. The college is recognized by the Dental Faculties Association of American Universities in "Class A." One year of liberal arts study is required for admission.

The College of Pharmacy offers a two years' course leading to the degree of Ph.C.; a three years' course leading to the degree of Ph.C.; and a four years' course leading to the degree of B.S. in Pharmacy.

The College of Applied Science offers courses in civil, sanitary, mechanical, electrical, chemical, and general engineering. These are each of four years and lead to the degree of B.E. Five-year and six-year courses are also arranged. Advanced degrees are given in C.E., M.E., etc.

The College of Education unites the various faculties of the university for the training of teachers, with special reference to administrative work and the higher positions. Its courses lead to the degree of B.S. in School Supervision.

The College of Commerce offers courses leading to the degree of B.S. in Commerce.

The School of Nursing is conducted in the university hospitals under the college of medicine, and affords a scientific and practical training in nursing.

The School of Public Health Nursing is organized under the college of medicine and includes also work in the college of liberal arts and the graduate college.

The School of Music is a part of the college of liberal arts. It offers courses in piano, voice, pipe organ, violin, band instruments, and in the history and theory of music, leading to the degrees of B.A. and B.M.

The School of Journalism provides a course leading to the B.A. degree and a special certificate.

The Summer Session of two terms, one of six, the other of five weeks, is a regular session of the university. The session also includes the Iowa Lakeside Laboratory and the School for Library Training.

"Combined Courses" in Liberal Arts and professional studies permit the attainment in a shortened period of the double degrees of B.S., or B.A. and M.D.; B.A. and LL.B.; B.S. and D.D.S.; B.S. and B.E.; and D.D.S. and M.D. Attendance at the university in 1923-24 was 7,423, divided as follows:

This institution was founded in 1876 as a school for the instruction and training of teachers for the public schools. It used the title of Iowa State Normal School from 1876 to 1909 and since that time the title Iowa State Teachers College was authorized by an act of the general assembly. It is a college in its standards as to graduating with a degree from its course, though it admits and instructs teachers and grants diplomas of special varieties for all classes of teachers, rural and elementary, needed by the public schools. For admission to college courses, graduation from an accredited high school is required. For admission to sub-collegiate courses and rura; teachers work an elementary education is required.

The institution is organized to give teacher education and training and does not undertake any other kind of educational work. Its courses are planned to give efficiency and capability to the students as workers in public schools. Its field of service grants preparation to superintendents, high school teachers, to elementary and primary teachers, and to all kinds of special teachers now demanded by the public schools of the state. Its plan is that of a vocational school and everything that is done has a bearing upon the training of young men and women for service in the system of public education maintained in the state. Its degree graduates are admitted without conditions to the graduate schools of the universities and it's alumni hold important positions in public service in every state where they are employed. Its diplomas are Bachelor of Arts in Education, with great variety of majors such as Language, Mathematics, Science, Art, Physical Education, Athletics, and special lines of training such as Primary Teaching, Music Teaching, etc., Special Teacher Diplomas such as Primary, Junior College Kindergarten, Art, Public School Music, Manual Arts, Home Economics, Commercial, Rural Education and Rural Teacher. In addition music teachers are granted diplomas for piano, organ, violin and voice.

The college year is divided into four quarters of twelve weeks each and a class graduates at the end of each quarter, thus giving much flexibility to the courses and a superior opportunity for candidates for graduation in their practice in teaching in the training schools. The training schools are located on the campus—all grades being organized from the kindergarten to the senior in the high school—in the school buildings at Cherokee and East Waterloo city schools and in consolidated schools at Jesup and Hudson and in rural schools in Black Hawk county. The expense of this organization gives unusual opportunities for practical development and for the acquiring of capability in instruc-

tion. Students are able to be admitted at the opening of each quarter and by continued attendance can complete a four-year college course in three calendar years.

The enrollment of students and training schools in 1923-24 was as follows: college graduates, 63; college course students, 1,173; two and three-year diploma course students, 2,445; special students, 61; sub-collegiate and rural teacher students, 905; special music students, 37; extension summer school students, 1924, 1,751; visitor students, 52. Total enrolled in institution, 7,337. Training schools; campus high schools and grades, 449; Cherokee, 150; East Waterloo, 110; West Waterloo, 35; Jesup, 35; Hudson, 35; Mason City, 110; rural schools, 80; consolidated schools, 620. Total pupils, 1,554.

The extension service consists of Saturday classes meeting in the several counties of the state, receiving all day instruction in the subjects and topics approved by the county superintendent and continuing from month to month and from year to year for the improvement in scholarship and methods of the teachers in service. In 1923-24 there were 13,707 teachers enrolled in the study center classes. Credit extension classes are organized in the cities and towns where sufficient students can be secured for one class in a college subject. In 1923-24, 545 were so enrolled as students.

The value of the permanent improvements and equipments is estimated to be \$1,500,000. The annual report, granted by the state in 1921-22, was \$683,000.00. The income from all other sources such as laboratory fees, hospital fees, student tuitions, etc., is \$215,000.00.

IOWA SCHOOL FOR THE BLIND--VINTON

Superintendent, Francis Eber Palmer; physician, J. E. Luckey, M.D.; and visiting opthalmic surgeon, L. W. Dean, M.D., state university.

The aim and purpose of the Iowa College for the Blind is purely educational. The course of study includes not only the subjects required for admission to the colleges and the university of the state, but also subjects that aim to prepare our students for some of the occupations in which it has been demonstrated that the blind are usually successful. After a pupil of this school reaches the high school department, he is given some latitude in the choice of courses of study, and in the making of his choice he always has the guid-

ance and advice of teachers and matrons. However, the courses are so arranged that a student who choses one course, say one of the vocational courses of study, has the benefit of subjects in other courses. In fact, both literary and industrial work is required of all students.

In the music department, students are given the opportunity for thorough training in piano, violin, organ and voice; and in order to graduate from this department pupils must satisfactorily complete courses in harmony, harmonic analysis, musical history and staff notation, besides having as his major either piano, organ, voice or violin, requiring at least two hours practice a day. In addition to the major work, the student must take minor work along some other line offered in the department.

In the industrial department the girls are given work as follows: sewing, cooking, crocheting, tatting, hammock-making, basket weaving, rug and carpet weaving, both plain and art, and chair caning. The boys are given work as follows: broom-making, chair caning, rug and carpet weaving both plain and art, hammock-making, and plano tuning.

In the commercial department all students in the seventh and eighth grades are required to take typewriting; two years of typewriting are also offered in the high school department. In the high school department this is combined with dictaphone practice.

There is a well equipped hospital in connection with the school where a trained nurse is on duty during the entire time that the students are in attendance. Three or four times a year an eye specialist from the State University Hospital visits the College for the Blind for the purpose of examining the pupils and giving such advice and aid as he finds needful. The college physician visits the school as often as needed on account of sickness. Thus the health of all pupils is well guarded.

During the past year a dental room was fully equipped and each student is given careful dental attention by one of the local dentists. The teeth of each pupil are carefully examined and any needed work is done free of charge. Dr. Kelly has conducted the clinics during the past year.

A well equipped gymnasium is another asset to the work that the school is trying to do for the blind boys and girls of the state. Here all pupils, unless excused by the college physician, have at least an hour of gymnasium work each day, under a competent director.

Board and room and tuition are free to all boys and girls of the state who are eligible, and, where necessary, clothes also are furnished. The blind or those whose eyesight is so defective as to make work in the public schools impracticable, and who are of suitable age and capacity, that is between the ages of seven and twenty-one years are eligible. Others are sometimes admitted on the approval of the board of education. Boys and girls who are decidedly subnormal are not admitted.

The school year begins the first Wednesday of September and closes the first week of May.

IOWA SCHOOL FOR THE DEAF-COUNCIL BLUFFS

Superintendent, Elbert A. Gruver; physician, McM. Hanchett, M.D.; steward, John F. Schultz, and matron, Rosa Lorenz.

HISTORICAL

The Iowa School for the Deaf was founded in 1885 in answer to the demand that the deaf children of the state be given the same opportunity for an education that was provided for those who could hear. Because such deaf children are fewer and very much scattered, as well as to secure better grading, it was found more economical to get them together and provide board as well as tultion. The school was first located at Iowa City and later moved to Council Bluffs. In 1902 fire completely destroyed the main building. A new modern, freproof structure has arisen in its place where sufficient room is provided for 300 pupils. A separate building to accommodate 45 of the younger pupils is also provided.

The school is under the supervision of the State Board of Education, which has under its management the five educational institutions of the state and consists of a group of modern, fireproof buildings situated just outside of Council Bluffs at the foot of the bluffs which parallel the Missouri river. Water is supplied by several wells. The buildings are high enough on the bluffs to afford good drainage and insure health. In connection with the school is a farm of 210 acres.

CHARACTER AND OBJECT

The school is just what its name implies and is not a home, hospital nor an asylum, and feeble-minded children will not be retained. The school is not a place of detention and the care bestowed is what would naturally be exercised over a number of pupils in a boarding school. Pupils are free to come and go, subject of course to reasonable regulations. The object of the school is to provide a thorough education for children who are too deaf to be properly instructed in the public schools of the state. Its aim is to train such children to become useful citizens.

METHODS OF INSTRUCTION

Upon admission each pupil is placed under oral instruction and his education continues under that method throughout the course, unless it be found impossible for him to master speech and lip-reading, in which case he is placed in a special class. Mental development, the acquisition of the English language and general knowledge are the chief aims of the instruction.

The course of instruction includes the branches commonly taught in the public schools of the state. The entire course covers a period of twelve years. Pupils who have the necessary ability are encouraged to prepare for college. The school is one of the approved schools whose graduates are admitted to Gailaudet College under the certificate plan.

The school day is divided into two periods, pupils being in the intellectual department on each day (except Saturday and Sunday) from 8 a. m. to 12:45 p. m., and in the industrial departments from 2:15 to 4:30 with a session in the industrial schools on Saturday from 9 to 11 a. m.

A gymnasium provides means of physical exercise for both boys and girls. The boys maintain football, basket ball and base ball teams, each in its season, providing for plenty of outdoor recreation. The girls also have gymnasium training and maintain basket ball teams, while the tennis club furnishes additional sport for both sexes.

The school is non-sectarian in character, but moral and religious instruction is provided, the nature of the instruction being general, such as is accepted by all churches and creeds. The pupils are allowed to attend the places of worship in the city designated by their parents.

INDUSTRIAL TRAINING

Vocational training is also provided and instruction given in the following: Printing, sign painting, carpentry, shoemaking, bookbinding, gardening and baking to the boys; sewing, dressmaking, embroidery, weaving, cooking and domestic science to the girls.

TERMS OF ADMISSION

Children 5 years of age and upward may be received from any part of the state and persons over 21 up to 35 are admitted under special conditions. All are educated in the school at the expense of the state. Tuition, board, lodging and medical attendance, including nursing, in ordinary sickness, are provided by the school. Stationery and necessary school books are also furnished.

In case parents are unable to provide railroad fare and other expenses, provision is made to secure such support from the county.

The regular time of admission is at the commencement of the term, which is about the middle of September. Upon application, new pupils will be received at other times. The summer vacation begins about the middle of June and extends to about the middle of September. A recess is given at Christmas. Special exercises and change of program characterize the celebration of the legal holidays during the school term.

STATE COMMISSIONERS AND OFFICERS

IOWA STATE HIGHWAY COMMISSION

COMMISSIONERS

J. W. Holden, Scranton, Iowa, chairman; William Collinson, Chariton, Iowa; Dean Anson Marston, Iowa State College, Ames, Iowa.

By the act of the thirty-fifth general assembly, creating the highway commission, the Dean of Engineering of the Iowa State College is ex-officio a member of the commission. The other two members are appointed from different political parties for a term of four years and receive as compensation \$10.00 per day not to exceed two hundred days per year. The ex-officio member of the commission receives no additional compensation. All members receive actual traveling expenses.

The highway commission was first established in Iowa under chapter 105, acts of the thirtieth general assembly, which constituted the Iowa State College as an institution to act as the highway commission for the state. From 1904 to 1913 the work was carried on under this law.

The thirty-fifth general assembly reorganized the entire system of road administration in the state and created a commission of three men as outlined above. The office of the commission is located at Ames, Iowa, and the duties prescribed by the law are such that an extensive organization is necessary.

Under the law as amended by the general assembly from time to time the commission is charged, with many other duties, with the duty of making all road surveys, preparing all road and bridge specifications, etc. By act of the forty-first general assembly the commission, on November 1, 1925, takes complete control of the maintenance of the primary road system. Beginning July 1, 1925, the commission has to its credit a primary road development fund of about \$4,000,000 a year to be used on any portion of the primary road system as may be deemed best by the commission.

FUNCTIONS OF STATE FAIR BOARD

The Iowa State Fair as an institution has existed since the first fair was held at Fairfield Ocotber 25-26 and 27, 1854, but it remained for the Fortieth general assembly in 1923 and the extra session thereof to set out the Iowa State Fair Board as a separate and distinct department.

Previous to 1923 the fair was operated under the state department of agriculture. The Fortieth general assembly, however, created a new department of agriculture, consolidating therewith a number of other departments and at the extra session the law was passed creating the state fair board, effective October 28, 1924.

The law provides for a State Agricultural Convention to be held at the State Capitol in Des Moines on the second Wednesday in December of each year. The delegates to this convention are the officers and members of the State Fair Board; the President, Secretary or accredited delegate of each of the County and District Fairs; the president or accredited representative of the following organizations: each Farmers' Institute organized according to law and receiving state aid; the State Horticultural Society; the Iowa State Dairy Association; the Iowa Beef Producers' Association and the Iowa Corn and Small Grain Growers' Association. In counties where no fair is held the board of supervisors may appoint a delegate.

The convention elects a President and a Vice President for a term of one year, and a director from each congressional district for a term of two years. The directors from the even numbered districts are elected on the even year and those from the odd numbered districts on the odd year. The secretary and treasurer are elected annually by the State Fair Board. The law fixes the compensation of the President, Vice President and directors at ten dollars (\$10) per day and expenses while in attendance at board and committee meetings. The law also fixes the maximum amount to be paid the Treasurer at \$250 and the Secretary at \$4,000 annually.

By statute the State Fair Board is made the custodian of the State Fair grounds and the board of managers of the annual State Fair. The state makes no regular appropriations for the operating expense of the board and the State Fair or the maintenance of the fair grounds and buildings. The law specifically provides that all operating expense, maintenance, etc., shall be paid out of the receipts of the State Fair unless there is a special appropriation providing for same. The law also provides that the State will not be liable for any expense or liabilities incurred by the board. Special appropriations totaling \$714,013 have been made since 1902 by the General Assembly for the construction of permanent buildings, additional land and other improvements on the State Fair grounds not including appropriation by the general assembly of 1925, amounting to \$41,200 for the two-year period beginning July 1, 1925. During this same period approximately \$766,800.00 from the receipts of the State Fair has been expended for permanent buildings and other improvements on the grounds.

The inventory taken November 30, 1924, shows the present value of the grounds and buildings to be worth \$1,673,531.43. This inventory takes into consideration the original cost of all permanent buildings and other improvements with the usual annual depreciation. It is safe to say that the replacement value of buildings and other improvements would be more than double the amount carried in the inventory.

The title to the State Fair Grounds and all property is held in the name of the State of Iowa and all deeds and abstracts are on file in the auditor of State's office.

The general assembly in 1884 provided for the creation of the Bureau of Labor Statistics, the appointment of a commissioner, defining his duties, and his tenure of office. The work as outlined was purely statistical and was designed for the purpose of making inquiry into the conditions surrounding the employment of labor, its connection with the development of industries both mechanical and those arising from the natural resources of the state, the advantages and inducements offered in various localities for the establishment of desirable industries, the extent and productive value of industries already established and information relative to the home life and general welfare of the workers.

The inspection of factories, mercantile establishments, theaters, buildings, etc., embracing employment of over a half million workers, is one of the most important services the bureau renders to the state.

Under jurisdiction of the Bureau of Labor are laws relating to health and safety in factories, work shops, mercantile establishments, theaters, elevators, etc., the fire escape law, child labor law, inspection of employment bureaus, both public and private, arbitration and conciliation, report of accidents.

Another service of the bureau is that rendered by the State Free Employment Bureau. Through co-operation of the state and federal governments, under direction of the Iowa commissioner of labor, the State-Federal Employment Service referred 81,424 applicants to jobs, of whim 77,173 were actually placed, during the biennial period ending June 30, 1924.

This department dates from the first day of July, 1892. Its chief purpose is the collection of historical data relating to Iowa and the territory of the middle west, the care-taking of the public archives and the stimulation of private and public enterprise in noting and commemorating through artistic means notable achievements of Iowa citizens.

The department publishes the Annals of Iowa, an illustrated quarterly historical magazine of eighty pages. It is made up largely of original contributions in history and biography, most of which relate to Iowa and her people. It is sent free to every organized library in our state. Its price to subscribers is \$1 per year.

In addition to the Annals the Historical Department is to be credited with the following publications: thirteen biennial reports; "John Brown Among the Quakers and Other Sketches," by Hon. Irving B. Richman; "First Census of the Original Counties of Dubuque and Des Moines," edited by Dr. Benj. F. Shambaugh; "History of the Constitution of Iowa," by Dr. Shambaugh; Reprints of the laws of Iowa, 1838-39 and of 1839-40, and the hitherto unpublished journals of the council and house of representatives of the extra session of 1840; "Early Settlement and Growth of Western Iowa," by Rev. John Todd; "Rafinesque, Life and Biography," by T. J. Fitzpatrick; "Downing's Civil War Diary," by Alexander G. Downing, and "Iowa Authors and their Works," by Alice Marple. Miss Marple has also assisted in and has sponsored the following publications: "Index of Vols. 1-8 of Annals of Iowa," "Iowa Authors and Their Works," 2d edition, 359 pp.

The department has secured 177 portraits of distinguished Iowans, which are now on exhibition in the art gallery of the historical building, and has thousands of photographs and other black and white portraits and exhibits. In addition to these the department has acquired or accounts for the original cartoons of J. N. Darling, a collection of autograph letters, etc., from the presidents, noted men of letters, artists, etc., numbering over 5,000 items, and over 3,000 half-tones of Iowa citizens and historic scenes.

Original manuscripts of noted Iowa men and women are another feature of the historical department work and the collection of Senator Allison, Hon. John F. Lacey, Governor Kirkwood, Judge Horace E. Deemer, Charles Mason, Emerson Hough and General Grenville M. Dodge are only a part of the collections.

Some 200,000 feet of negative and positive motion picture films have been secured and organized into a library of such materials. They embrace the notable public assemblages in Iowa in 1913 and after, especially our military and state fair classics of the time.

Since January, 1918, the department has engaged in assembling original materials relating to the contribution of Iowa in the late war and the collections, aimed at complete and authentic facts, have invaluable material upon the following phases:

- 1. A biographical census record of men and women serving their country during the world war.
 - 2. Iowa's honor roll, records and pictures.

- 3. Iowa's decorated men and women, records and pictures.
- 4. Navy records.
- 5. Council of Defense activities.
- 6. Red Cross activities.
- 7. Pictures, souvenirs and relics of World War Veterans.

LIBRARY DIVISION

Special efforts are made to collect works of state and general western history, biography and genealogy; works on the histories of all our wars from the earliest times; works relating to the North American Indians; county histories, maps, Iowa pamphlets, biographies of our noted men and women, printed or in manuscript; written or printed documents relating to early settlers and settlements; reports, catalogues and broadsides relating to the churches, educational and benevolent institutions of the state; in short every species of data which can throw light upon local, state, or western history.

MUSEUM DIVISION

The museum includes nine large cases for autograph letters, manuscripts, portraits, etc.; a collection of recent, aboriginal and prehistorical pottery found in our state; a large collection of prehistoric implements, hundreds of filnts; many teeth, tusks, and other bones of the mammoth and mastodons, all of which were found in Iowa, many of the larger specimens being of recent discovery. Several large cases of birds found within our state, including all the larger birds such as eagles, pelicans, loons and wild turkeys, etc.; many Iowa mammals including the moose, buffalo, elk, deer, wolves, foxes; a case of Indian baskets, bead work, implements and weapons, many of which were manufactured by the Musquakie Indians of Tama County; a collection of arms—cannons, mortars, swivel guns, rifles, muskets, carbines, swords and pistols, in use during the Civil, Spanish, Philippine and World Wars; and duplicates in bronze of most of the historic medals issued by the United States government. All the work of mounting of the birds and mammals is done in the department by the taxidermist, who is also the museum director.

NEWSPAPER DIVISION

Special efforts are made to collect Iowa newspapers from the earliest dates to the present time. Three hundred weeklies and thirty dailies are currently received and the department endeavors to acquire all Iowa newspapers. It has ceased the collection of papers from other states, with the exception of the New York Times.

PUBLIC ARCHIVES DIVISION

The public archives material is derived from the state departments, boards, bureau, etc., and date from 1838 down to a ten-year period prior to the date of removal. These materials are taken from the vaults, garrets and storage places and in most cases they are a chaotic mass covered with dust and dirt. These must all be read, classified, cleansed, repaired, filed and indexed. In addition to the above work this division annually cares for some four or five hundred requests for information gleaned from these materials and the requests are constantly increasing.

There are now between ten and eleven millions of documents on file and in storage and practically eight millions of these are finished and indexed.

The office of state mine inspector was created by the eighteenth general assembly in the year 1880. At that time the mining of coal in this state was in its infancy. But few large mines were in operation and the tonnage of coal was small as compared to that of the present time. Then but one inspector was needed. Owing to the growth of the coal industry, the twenty-first general assembly amended the mining law and provided for three inspectors, and gave the governor power to divide the state into three inspection districts. Today the entire time of the three inspectors is taken up with the work of inspecting the mines of the state and seeing that they are worked in conformity with the mining laws of the state as regards safety to the employes therein, proper ventilation, condition of the shafts, escape ways in times of danger, safety catches on cages, condition of the cables for hoisting men and coal, and everything that would tend to guard against accidents to men employed in the mines.

A general office for the inspectors is maintained in the state house and a complete record is kept therein of all inspections, accidents, etc., in record books for that purpose. A monthly report of the general conditions of all mines is made to the mine inspectors and a general report of the conditions of the mines of the state, tonnage, accidents, number of employes, and other information relative to the coal industry, is published every two years. Copies of the state mining laws are also published and circulated. Blue prints of maps of all mines in the state, brought up to date once each year, are on file in the offices of the mine inspectors subject to public inspection. A secretary, elected by the inspectors, has charge of the general correspondence and books in the office, as the duties of the three inspectors keep them almost constantly in the field.

The first district includes the counties of Appanoose, Lucas, Taylor, Monroe (part), Wayne, Page and Adams. Mr. W. E. Holland of Centerville, Iowa, is the inspector in this district, where mines employing 5,385 men, and producing 2,160,341 tons of coal during the calendar year 1923 are located.

The second district comprises the counties of Mahaska, Marion, Monroe (part), Jasper, Keokuk, Van Buren, Davis, Jefferson and Wapelio. Mr. Rhys T. Rhys of Ottumwa is inspector for this district, in which 2,302,441 tons of coal were produced by the mines of the second district in 1923 and employment was given to 4,170 men.

The third district comprises the counties of Polk, Webster, Boone, Greene, Guthrie, Warren and Dallas. Mr. Edward Sweeney of Des Moines is the inspector. During the calendar year 1923 the mines in this district produced 1.657,550 tons of coal and employed 3,574 men.

BOARD OF EXAMINERS FOR MINE INSPECTORS, MINE FOREMEN AND HOISTING ENGINEERS

JACOB RITTER, Centerville, operator.

The state board of mine examiners was created by the twenty-second general assembly, and is composed of five members; two coal operators, two miners, and one engineer. Their duties are to examine and issue certificates to those qualified to act as state mine inspectors, hoisting engineers and mine foremen. An examination for state mine inspectors is held the first Monday in March in even-numbered years in the office of the state mine inspectors in the state house. Examinations for hoisting engineers and mine foremen are held at various times during the year in different parts of the state. A fee of two dollars for registration, and an additional fee of two dollars is required of those taking and passing the examination for mine foremen and hoisting engineers. The law requires that each certificate issued by the board shall be recorded in the office of the examining board, and shall show the name, age, residence and years of experience of the person to whom it was issued.

An educational convention was called to meet at Iowa City June 16 to 18, 1856. At this meeting a permanent organization was effected and the constitution of the association of 1854, somewhat modified, was adopted. Since that time a session has been held each year.

At the session in December, 1905, the semi-centennial anniversary of the association was celebrated by a special campfire program, which was participated in, either in person or by letter, by many of the veterans in education in Iowa.

In the fall of 1917 a reorganization of the association was effected by the incorporation of the five district or section associations with the Iowa State Teachers' Association and the establishment of a permanent office in the city of Des Moines with a permanent secretary in charge.

The present geological survey was organized in 1892 and since that time has been engaged in two lines of research. The first of these is the detailed study of the geology of the state by counties. In this work all the natural features of interest and values are studied and described, such as the general character of the surface, its soils, water resources, deposits of valuable minerals and other topics.

The second line of work has been that of special investigation of the minerals of the state. In this work studies have been made of the coal and peat beds, lead and zinc, gypsum, clays and shales, limestone and sandstone, and

the surface and underground water resources. The different geological formations are being studied as units.

For several years past the state survey has co-operated with the national survey in the making of topographic maps of the Des Moines valley. These maps show the character of the surface, the drainage, and elevations above sea level, as well as cultural features. They are of especial value in coal prospecting, engineering and drainage prospects.

SUPREME COURT OF IOWA

ORGANIZATION

The supreme court consists of seven judges, four of whom constitute a quorum for the transaction of business, but one alone may adjourn from day to day, or to a particular day, or until the next term,

The judge whose term first expires is the chief justice, and so on in rotation, except when the terms of two of the justices expire at the same time the senior in age serves first as chief justice.

JURISDICTION

The supreme court has appellate jurisdiction only in cases in chancery and constitutes a court for the correction of errors at law. It has appellate jurisdiction over all judgments and decisions of all courts of record, except as otherwise provided by law.

An appeal may also be taken to the supreme court from:

- 1. An order made affecting a substantial right in an action, when such order, in effect, determines the action and prevents a judgment from which an appeal might be taken;
- 2. A final order made in special actions affecting a substantial right there-
- in, or made on a summary application in an action for judgment;
 3. An order which grants or refuses, continues or modifies a provisional remedy; grants or refuses, dissolves or refuses to dissolve an injunction or attachment; or grants or refuses a new trial; or sustains or overrules a demurrer:
- 4. An intermediate order involving the merits or materially affecting the final decision:
 - 5. An order or judgment on habeas corpus.

If any of the above orders or judgments are made or rendered by a judge, the same are reviewable, the same as if made by a court.

The supreme court has power to issue all writs and processes necessary to secure justice to parties, and to enforce its appellate jurisdiction, and it may exercise supervisory control over all inferior judicial tribunals.

It may enforce its mandates upon inferior courts and officers by fine and imprisonment, which imprisonment may continue until mandates are obeyed.

TERMS

There are three regular terms in each year, held as follows, to-wit: The first term beginning with the second Tuesday in January and ending with the first Monday of May; the second beginning with the first Tuesday after the first Monday in May and ending with the third Monday of September, and the third beginning with the first Tuesday after the third Monday of September and ending with the third Saturday of December.

The time allotted to each term is divided as nearly as practicable into periods of four weeks each, the first part of each period is devoted to the argument and submission of cases, and the second to consultation and the preparation of opinions. Cases assigned for each period are called in their order as shown on the term docket but no more submissions are taken for one period than in the judgment of the court can be properly considered and determined before the next succeeding session. All causes on the docket are heard at each term unless continued or otherwise disposed of by order of court.

The regular public sessions of the court are held in the supreme court room at the capitol, commencing at 9 o'clock A. M., standard time. On Tuesday of the first and second week of each four weeks' period submission of motions are taken before calling the calendar. Motions noticed for a day when the court is not sitting are taken on the next motion day on which the court sits.

Judgments of affirmance, rulings and orders in causes submitted and orders authorized by law are made at any time regardless of the term of court.

APPEALS IN CIVIL CASES.

Appeals from the superior, municipal and district courts may be taken to the supreme court at any time within four months from the rendition of the judgment or order appealed from, and not afterwards. No appeal shall be taken in any causes in which the amount in controversy between the parties, as shown by the pleadings does not exceed one hundred dollars, unless the trial judge shall, during the term in which judgment is entered, certify that the cause is one in which the appeal should be allowed, and upon certificate being filed the same shall be appealable regardless of the amount in controversy, but this limitation shall not affect the right of appeal in any action in which an interest in real estate is involved, nor shall the right of appeal be affected by the remission of any part of the verdict or judgment returned or rendered.

APPEAL IN CRIMINAL CASES.

Appeals from the final judgment of the district court may be taken in all criminal cases within sixty days after the judgment is rendered; and either the defendant or the state may appeal. Upon appeal the supreme court may affirm, reverse or modify the judgment or render such judgment as the district court should have done. It may order a new trial or reduce the punishment, but cannot increase it. If the state appeals, the court cannot reverse or modify the judgment so as to increase the punishment, but may affirm it and shall point out any error in the proceedings and its decision shall be obligatory as law.

SALARY.

The salary of each justice is six thousand dollars (\$6,000) a year, to be increased to \$7,500 a year by act of the forty-first general assembly, applicable to judges elected or re-elected after July 4, 1925. Each general assembly also appropriates sufficient funds for the payment of stenographers, bailiffs and such other incidental expenses as may be incurred by the court.

THE DISTRICT COURT OF IOWA.

There are at the present time sixty-nine judges of the district court of the state of Iowa. The state is divided into twenty-one judicial districts and each district is entitled to from one to five judges, the number being fixed by statute. The judges are elected for terms of four years and receive an annual salary of \$4,000; also actual and necessary hotel and living expenses not to exceed \$3 per day when away from home, and transportation expenses. Each judge appoints a shorthand reporter, who receives \$10 per day for each day's attendance upon said court, and in case the per diem does not equal \$2,400, then the county or counties composing the district make up the deficiency in proportion to the number of days of court held in such county or counties.

The following is in sections 10761 to 10766 of the code governing the jurisdiction of the district court:

The district court shall have general original and exclusive jurisdiction of all actions, proceedings and remedies, both civil and criminal, except in cases where exclusive or concurrent jurisdiction is or may hereafter be conferred upon some other court or tribunal by the constitution and laws of the state, and shall have and exercise all the powers usually possessed and exercised by courts of record. It shall also possess and exercise jurisdiction in all appeals and writs of error taken in civil and criminal actions and special proceedings authorized to be taken from all inferior courts, tribunals, boards or officers, under any provisions of the laws of this state, and shall have a general supervision thereof, in all matters, to prevent and correct abuses, where no other remedy is provided.

The district court of each county shall have original and exclusive jurisdiction to probate the wills of, and to grant administration upon the estates of, all persons who at the time of their death were residents of the county and of non-residents of the state who die leaving property within the county subject to administration, or whose property is afterwards brought into the county.

To appoint guardians of the persons and property of all persons resident in the county subject to guardianship, or whose property is afterwards brought into the county.

It shall have jurisdiction in all matters in relation to the appointment of executors and trustees, and the management and disposition of the property of and settlement of such estates; provided, that where jurisdiction has heretofore been acquired, the same shall be retained until such estate is closed.

The district court shall succeed to and exercise full authority and jurisdiction over the records of the circuit court, and may enforce all judgments, decrees and orders thereof in the same manner and to the same extent as it may exercise like jurisdiction and authority over its own records, and for the purpose of the issuance of process, and of any and all other acts necessary to the due and efficient enforcement of the orders, judgments and decrees of the circuit courts the records thereof shall be deemed records of the district court.

THE LEGISLATIVE DEPARTMENT

The legislative department of the state of Iowa is vested in a general assembly, which consists of a senate and house of representatives.

The senate consists of fifty members. Senators are elected for terms of four years; twenty-one senators being elected at one general election and twenty-nine at the next.

The house of representatives consists at present of one hundred and eight members, who are elected for a term of two years.

Sessions of the general assembly are held biennially in the odd numbered years, and they commence on the second Monday of January.

The compensation of the members of the forty-first general assembly was \$1,000 for the session. This is in accordance with an act of the thirty-fourth general assembly which went into effect July 4, 1911. They were also allowed five cents a mile from their homes to the capital and return for traveling expenses. Members are permitted to draw such stationery as they need during the session, the cost to the state for the supplies varying from \$1.50 to \$14.00 per member. No allowance is permitted for postage.

The lieutenant governor is the presiding officer of the senate. His pay is twice that of a member, being \$2,000 for the session of the forty-first general assembly.

The speaker of the house is chosen by the members from among their own membership. His pay is twice that of a member, being \$2,000 for the session.

The lieutenant-governor appoints all committees in the senate and the speaker of the house all committees in the house.

In the regular proceedings of the senate motions made by members are not seconded but are put directly by the presiding officer, the formality of a second being waived. In the house all motions are seconded before being placed before the house by the speaker.

Sessions in both branches of the general assembly are opened by prayer. No regular chaplains are employed, but ministers from Des Moines and elsewhere over the state are assigned dates for these services and are allowed \$5 for each opening prayer.

Bills passed are re-written (enrolled) by the enrolling clerk of the branch of the general assembly where the bill originates; they are then signed by the president of the senate and speaker of the house in presence of these respective bodies, in open session; then by the governor, if meeting with his approval, and then are filed with the secretary of state and by him bound in book form, after the close of a session.

JOINT RULES OF THE SENATE AND HOUSE

DISAGREBMENT AND CONFERENCE

1. Whenever either house shall amend a measure and the other house shall refuse to concur in and adopt the amendment, the house which has adopted such amendment shall either insist on or recede from the same. But when a measure originating in one house is amended in the other, the house in which it originated may amend such amendment and a motion therefor shall take precedence of a motion to concur. In case said house refuses to concur, the house which adopted the amendment may either recede from or insist upon such amendment, and a motion to recede takes precedence of a motion to insist.

After a motion to recede fails of a constitutional majority, such action shall be deemed as insisting on the amendments and shall be so entered upon the Journal of the House or the Senate. In case a motion to insist on the amendment be decided in the negative, and such negative vote shall constitute a constitutional majority, such action shall be deemed a receding from the amendment and so entered upon the journal of the house. In case the amendment is insisted upon, the house so insisting shall request a committee of conference on the subject of disagreement, and shall appoint a committee therefor. The other house shall thereupon appoint such a committee. Unless another number is specified in said request, such conference committee shall consist of four members from each house.

The scope of authority vested in such committee shall be limited to the subject matter of the amendment or amendments which were insisted upon by the body requesting the conference committee. They shall meet at a convenient time, to be agreed upon by their chairman, and having conferred freely, each shall report to their respective house the result of their conference. In case of agreement, the report shall be first made, with the papers referred accompanying it, to the house which refused to concur, and there acted upon; and such action shall be immediately reported by the secretary or clerk to the other house, the papers referred accompanying the message. In case of disagreement of conference committee, the papers shall remain with the house which insisted on the amendment. The agreeing report of a conference committee shall be made, read and signed in duplicate by all the members of the committee, or by a majority of those of each house, one of the duplicates being retained by the committee of each house.

PRESENTATION OF MESSAGES

2. When a message shall be sent from either house to the other, it shall be announced at the door of the house to which it is sent by the doorkeeper thereof, and shall be respectfully communicated to the chair by the person by whom it is sent.

TRANSMISSION OF MESSAGES

3. All messages between the two houses shall be communicated by the secretary or chief clerk or their respective assistants.

ENROLLMENT OF BILLS

4. When a bill shall have passed both houses it shall be duly enrolled by the enrolling clerk of the house in which it originated, and the fact of its origin shall be certified by the endorsement of the secretary or clerk thereof.

EXAMINATION OF ENROLLED BILLS

5. When the bills are enrolled they shall be examined by a joint committee of two from the senate and two from the house of representatives, who shall be a standing committee for that purpose, and who shall carefully compare the enrollment with the engrossed bills, as passed in the house, correct any errors therein, and make report thereof forthwith to their respective houses.

AUTHENTICATION OF ENROLLED BILLS

6. After the report, each bill shall be signed, first by the speaker of the house of representatives, and then by the president of the senate, in the presence of their respective houses.

TRANSMISSION OF BILLS TO THE GOVERNOR

7. After a bill shall have been thus signed in each house, it shall be forthwith presented, by committee of the house in which the bill originated, to the governor, for his approval, and they shall forthwith report the date of presentation, which shall be entered upon the journal of the house in which the bill originated.

CONCERNING OTHER ENROLLMENTS

8. All orders, resolutions, memorials or other votes, which are to be presented to the governor for his approval, shall be enrolled, examined, signed and presented in the same manner as bills.

CERTIFICATION OF BILLS AND OTHER ENROLLMENTS

9. When any bill, resolution or memorial, which shall have passed in one house, is rejected or adopted in the other, notice of such action shall be given to the house which passed the same. And each bill, resolution or memorial shall have properly endorsed thereon, at the time of its transmission, a statement, signed by the secretary or clerk, of the action which has been taken thereon by the house transmitting the same, with the date thereof.

REINTRODUCTION OF BILLS AND OTHER MEASURES

10. When a bill, resolution or memorial which shall have passed one house is rejected in the other, it shall not be again introduced during the session without five days' notice and leave of a majority of the members of the house in which the same is sought to be introduced.

TRANSMISSION OF PAPERS

11. Each house shall transmit to the other with any bill, resolution or memorial all papers upon which the same shall be founded.

PRINTING OF BILLS AND OTHER DOCUMENTS

12. Bills and joint resolutions shall be printed in form as provided by law. Each house may direct the printing of an additional number of its own bills. A substitute for a bill offered by a member or by a committee, where it is entirely or substantially a complete substitute for the particular bill, unless otherwise ordered, shall be printed as a substitute for the original bill (and the caption shall so indicate, giving the substitute the same number as the original bill, but reciting "substitute for" such bill), and such substitute bill shall, by the file cierk, be included in the bill file next to the original bill, and such substitute bill shall not be printed in the journals.

Local or legalizing acts of a strictly private interest shall not be printed in the journal, but are to be printed in bill form only when the cost of such printing shall be deposited with the superintendent of printing at the rate of \$2.00 per page, and the newspaper publication of such bill shall be without expense to the state and same shall not be published until the cost of same has been paid to the secretary of state.

CONCERNING THE PRINTING OF DOCUMENTS

13. It shall be the duty of the chief clerk of the house of representatives and the secretary of the senate, when any document, except bills and resolutions, is ordered to be printed in their respective houses, forthwith to communicate such order to the other house.

FORM OF BILL

14. All bills and joint resolutions introduced shall be typewritten on legal cap paper, double spaced, with titles, enacting clause and body of the bill as directed by the secretary of the senate and chief clerk of the house. The written or printed lines in the body of the bill, except the last line of each paragraph, shall contain in spaces, characters and letters, approximately sixty-five (65). Each bill shall be presented securely fastened in a bill cover and be accompanied by two carbon or correct copies thereof, and by three copies of the title alone, on separate slips.

COMPANION BILLS

15. Where bills are introduced in both houses containing identically the same text, they shall be called companion bills. The senate shall designate its author in the usual way, followed immediately by the name of the house member introducing the companion bill in the house, which name shall be in parenthesis. The opposite shall be the rule for house bills. As soon as possible after the introduction of the respective bills, the secretary of the senate and the chief clerk of the house shall ascertain the corresponding file number of the companion bill in the other house and note the same on the bill.

ROLL CALL IN JOINT CONVENTION

16. In all joint conventions of the two houses, the names of all members shall be arranged in alphabetical order, and they shall be called upon to vote in the order in which they stand arranged.

RECORDS OF THE COMMITTEE ON CLAIMS

17. It shall be the duty of the committee on claims in each house to keep a book of record, in which shall be entered each claim for money against the state referred to them, whether presented in favor of private persons or municipal or other corporations, entering therein the name of the claimant, the amount of the claim, the grounds therefor, with note of the evidence offered in support of the same, and the final conclusion of the committee thereon. At the close of the session said book of record shall be deposited with the auditor of state, to be kept by him, and he shall provide an index, showing the names of the claimants recorded therein. At any subsequent session the same shall be delivered, when desired, to the like committee having jurisdiction of such claims and shall always be open to the examination of the said committee of either house.

INTRODUCTION OF APPROPRIATION BILLS

18. No bill carrying an appropriation for any purpose shall be introduced after the third legislative day in March, except by the committee on appropriations.

CODE REVISION BILLS

19. All communications from the Code Editor proposing bills either in the form of bills or otherwise, shall be referred immediately to the code revision committee of each house without reading the same, and the code revision committee shall report suitable bills, or their objections thereto.

RULES OF THE SENATE

- 1. The following order shall govern:
 - Presentation of petitions and memorials, addressed to the senate or the general assembly.
 - (2) Introduction of bills.
 - (3) Resolutions.
 - (4) Communications on the president's table, including house messages,

DUTIES OF THE PRESIDENT

2. The president shall take the chair at the hour to which the senate is adjourned and call the senate to order; and, if a quorum be present, he shall proceed with the regular order of daily business, unless otherwise ordered by the senate, or unless a special order for the day shall interfere therewith. He shall preserve order and decorum, and decide all questions of order, subject to an appeal to the senate. He shall appoint all committees, unless otherwise

specially ordered. Immediately preceding the adjournment of each morning session, or, in case it cannot be done during that session, then as soon after the convening of the next following session as he may find most convenient, the president shall call for corrections of the journals of the last day's proceedings. He shall then cause any mistakes therein to be corrected by the secretary, and the journal shall then be approved.

THE PRESIDENT PRO TEMPORE

3. The senate shall, at its pleasure, elect a president pro tem, who shall hold his office during the remaining portion of the time for which the president was elected; and when the president shall, from any cause, be absent, the president pro tem shall preside, except when the chair is filled by appointment by the president.

MESSENGERS

4. There shall be appointed by the lieutenant governor, at each session of the senate, to hold their positions during such session, but subject to be discharged by the president of the senate for inefficiency or misbehavior, or other reasons, in his judgment justifying such discharge, six messengers for the senate. And the president may appoint other messengers in the place of any discharged.

CALL OF THE SENATE

5. One-fourth of the members may have a call of the senate, and absent members sent for and their attendance enforced. A motion to recess or adjourn to a specified time will not raise the call.

DEBATE AND DECORUM

6. When a member is about to speak, in debate, or deliver any matter to the senate, he shall rise from his seat and respectfully address himself to "Mr. President," and shall confine himself to the question under debate, avoid personalities and the imputation of improper motives.

MANNER OF VOTING

7. When the vote is taken viva voce, questions shall be distinctly put in this form, viz: "As many as are of the opinion (as the case may be) say 'aye'." And after the affirmative voice is expressed: "As many as are of the contrary opinion say 'no'." If the president doubt, or a division be called for, the senate shall divide—those in the affirmative of the question shall first rise from their seats, and afterwards those in the negative.

DUTY AND RIGHT OF VOTING

8. Every member present when a question is put shall vote, unless he shall, for special cause, be excused by a vote of the senate; but no member shall vote on any question in the event of which he is directly and personally interested, or except by consent of the senate, in any case where he was not present when his name was called in the taking of the vote. Provided, that any member who was absent by leave of the senate may vote at any time before the result is announced.

FORM AND WITHDRAWAL OF MOTIONS

9. All motions (except to adjourn, postpone, or commit) shall be reduced to writing, if required by any member of the senate. Any motion or resolution may be withdrawn by the mover, provided the same has not been amended by the senate, and that no amendment is pending thereto.

ORDER AND PRECEDENCE OF MOTIONS

10. When a question is under debate, no motion shall be received but to adjourn, to lay on the table, for the previous question, to postpone to a day certain, to commit or amend, to postpone indefinitely, which several motions shall have precedence in the order in which they are named; and no motion to postpone to a day certain, to commit or postpone indefinitely, being decided shall be again allowed on the same day, and at the same stage of the bill or proposition. A motion to strike out the enacting clause of a bill shall have the precedence of a motion to amend; and, if carried, shall be considered equivalent to the rejection of the bill.

MOTIONS NOT DEBATABLE

11. A motion to adjourn, to lay on the table, and for the previous question, shall be decided without debate, and all incidental questions of order arising after the motion is made for the previous question, and pending such motion, shall be decided—whether an appeal or otherwise—without debate.

THE PREVIOUS QUESTION

12. The previous question shall be in this form: "Shall the main question be now put?" It shall only be admitted when demanded by a majority of the members present, and its effect shall be to put an end to all debate, and bring the senate to a direct vote upon the pending amendments and then upon the main question, unless otherwise indicated by the motion and ordered by the senate, except that in case any member of the senate, who has not previously spoken on the measure under discussion, shall have sent to the secretary's desk a written request to be heard on the pending measure, the previous question shall not deny said member from being heard ten minutes on the measure under discussion. The member in charge of the measure under consideration shall have ten minutes in which to close the discussion immediately before the vote is taken upon the main question.

When the motion applies to an amendment the person proposing the amendment shall have five minutes to close the discussion on the amendment.

The member in charge of the measure under consideration shall have ten minutes in which to close the discussion, immediately before the vote is taken upon the main question. If the previous question is decided in the negative, the senate shall proceed with the matter before it, the same as though the previous question had not been moved.

DIVISION OF THE QUESTION

13. Any member may call for a division of a question, which shall be divided if it comprehends propositions in substance so distinct that one being taken away, substantive propositions shall remain for the decision of the senate. A motion to strike out and insert shall be deemed indivisible; but, a motion to strike out being lost, shall preclude neither amendments to the matter attempted to be stricken out, nor a motion to strike out and insert.

RECONSIDERATION

14. When a motion or question has been decided, any member having voted on the prevailing side may move a reconsideration, on the same or next legislative day.

CONCERNING THE PRINTING OF PAPERS

15. A motion to print any paper presented to the senate may, on motion, be referred to the committee on printing, whose duty it shall be to report, at the earliest time practicable, on the propriety of printing.

INTRODUCTION, READINGS, AND FORM OF BILLS AND JOINT RESOLUTIONS

16. Every bill shall be introduced on the report of a committee, or by leave, and shall at once be given its first reading. Every bill and joint resolution shall have received three several readings previous to its passage; but no bill or joint resolution shall have its second and third reading on the same day, without a suspension of this rule; and every bill and joint resolution shall express in its title the object thereof. All rules of the senate applicable to bills shall apply with equal force to joint resolutions.

ENDORSEMENT AND PRESERVATION OF PETITIONS, BILLS, AND JOINT RESOLUTIONS

17. Before the same is presented, there shall be endorsed on each petition a brief statement of the subject matter thereof, and on each bill and joint resolution the title thereof, and in either case the name of the senator presenting the same. In presenting a petition, the senator shall briefly state from his place in the senate chamber the subject matter to which the petition relates.

FIRST READING AND RECEPTION OR REJECTION OF BILLS, AND JOINT RESOLUTIONS

18. The first reading of a bill or joint resolution shall be for information, and, if objection be made to it, the question shall be: "Shall the bill (or joint

resolution, as the case may be) be rejected?" If no objection be made, or the question to reject be lost, the bill or joint resolution shall go to its second reading without further questioning.

SECOND READING AND COMMITMENT

19. Upon the second reading of a bill or joint resolution, the president shall refer the bill to an appropriate standing committee, unless otherwise ordered by the senate. If ordered by the senate to be considered by the committee of the whole the senate shall fix the day for its consideration. If the bill or joint resolution be ordered to be engrossed, it shall be in order for its third reading any session after that day. No bill or joint resolution shall be committed or amended until it shall have been twice read.

COMMITMENT OF APPROPRIATION BILLS

20. All bills carrying appropriations or involving the expenditure of state funds shall be referred to the committee on appropriations, which the committee shall report back to the senate not later than March 20th. After the third legislative day prior to said date, house bills shall be reported back by said committee within three days from the reference thereto.

No amendment to any bill reported by the committee on appropriations, or to any item thereof, shall be in order, except such as is germane to the subject matter of the bill, or item thereof, sought to be amended, and shall retrench expenditures and reduce the amounts of money covered by the bill or items thereof.

TIME OF INTRODUCTION OF BILLS

21. No bills shall be introduced in the senate after March 20th, except such bills as may be reported from standing committees as committee bills.

SCHEDULE AND CONSIDERATION OF APPROPRIATION BILLS

22. On or before the first Monday after March 10th, the committee on appropriations shall prepare an itemized schedule of all appropriations recommended by the committee on appropriations, and have the same printed and laid upon the desks of members, and no appropriation bill shall be taken up for consideration and passage until the third legislative day thereafter.

TIME OF INTRODUCTION OF APPROPRIATION BILLS

23. Bills carrying appropriations for state educational institutions and the institutions under the charge of the board of control shall not be introduced later than February 15th, and no bill carrying an appropriation for any purpose shall be introduced after the third legislative day in March, except by the committee on appropriations.

ENGROSSMENT OF BILLS

24. Every bill shall be considered engrossed when ordered to a third reading unless the senate shall affirmatively direct its engrossment.

THIRD READING AND PASSAGE OF BILLS

25. When a question is lost on engrossing a bill or joint resolution for a third reading on a particular day, it shall not preclude a question to engross it for a third reading on a different day. After a third reading of a bill or a joint resolution, no amendment (except to fill blanks) shall be received, except by unanimous consent of the members present; and the vote on its final passage shall be immediately taken without debate.

COMMITMENT OF BILLS .

26. A bill or joint resolution may be committed at any time previous to its third reading.

THE FILLING OF BLANKS

27. In filling blanks, the largest sum and longest time shall be first put.

HOUSE AMENDMENTS

28. On the return of a bill or joint resolution from the house, with an amendment, it shall be placed with the third reading of bills, unless the senate shall otherwise order. On the question of adopting the amendment the vote shall be

taken on the final passage of the bill, and if the amendment be adopted by a constitutional majority, no further vote is necessary.

TIME OF MAKING CERTAIN COMMITTEE REPORTS

29. It shall be in order for the committee on engrossed and enrolled bills, on rules and on printing, to report at any time, when no member is addressing the senate.

CONSIDERATION OF SPECIAL ORDERS

30. When any special order of the day is not proceeded with on the day assigned, it shall stand as a general order on each succeeding day until disposed of, unless otherwise ordered, but its consideration cannot be moved until that order of business is reached, when it shall be taken up in order of its file, and shall be taken up in order of precedence.

UNFINISHED BUSINESS AFTER A SPECIAL ORDER

31. When the pending question is interrupted by a "special order," it shall, upon the disposal of the special order, be before the senate in the same stage as if it had not been so interrupted.

COMMITTEE CLERKS

32. Committees are permitted to employ clerks by the majority vote of the whole committee. All applicants for the position of committee clerkship shall be examined by a committee of three appointed by the president of the senate. The clerk shall be selected by such vote, and in like manner may be discharged for inefficiency, or when the services of the clerk become unnecessary. All committee clerks shall be competent stenographers and of good moral character. Any clerk may be discharged for inefficiency, immorality or indecent or unbecoming conduct, whether in or out of the senate chamber; and, upon the request of any senator or the president of the senate, made to the chairman of a committee, a meeting of the committee shall be called for the purpose of considering the question of the discharge of such clerk upon any of the grounds above specified.

DUTIES OF COMMITTEE CLERKS

33. Clerks of senate committees, when not engaged in duties pertaining to such committees, or work assigned them by the committee chairman, shall be subject to the discretion of the secretary of the senate for any labor connected with the duties of his position or his assistants. The secretary shall, from time to time, make detail from said clerks to assist in preparing copy or correcting proof for the daily journal.

FORM OF COMMITTEE REPORTS

34. All reports of committees on bills or resolutions shall be made in triplicate and be accompanied with the original bill or resolution to which the report relates. Provided, that this rule shall not apply to the reports of committees on enrolled and engrossed bills.

Bills reported out by a committee recommending passage, or amendments and passage, or without recommendation, shall not be acted upon before the expiration of one legislative day after the printed journal containing such report has been placed upon the desks of the members of the senate.

TIME OF MAKING COMMITTEE REPORTS

35. The chairman or clerk of a committee, except of the appropriation committee, to which a bill is referred, shall note thereon the date of its reference, and it shall be the duty of each committee to report back all bills in its hands, within fifteen legislative days after the order of reference, unless a different time is granted by a vote of the senate.

If a committee to which a bill was referred neglects to report it back within fifteen (15) legislative days after reference, the author of the bill may have the bill placed upon the calendar by calling the president's attention to the situation.

VOTING IN COMMITTEE

36. When a vote is taken in any committee upon any bill or resolution before it, or any motion relating to the merits thereof, the chairman shall see that

no person is present except the members and clerk of said committee, unless otherwise ordered by the committee.

SUSPENSION OF THE RULES AND TAKING FROM TABLE

42. No standing rule or order of the senate shall be rescinded or suspended, nor shall any matter, tabled upon motion, be taken up, unless by a vote of two-thirds of the members present, except an order fixing the hour to which the senate shall stand adjourned.

CONSIDERATION OF RESOLUTIONS

43. Resolutions, including concurrent resolutions, shall not be acted upon by the senate upon the day the same are introduced or received by the senate, but shall lie upon the table for one legislative day if any member object to the immediate consideration thereof. It shall only be admitted when demanded by a majority of the members present, and when the

motion prevails its effect shall be to put an end to all debate and to bring the house to a direct vote upon the question to which the motion applies, except when the motion applies to the main question, the member in charge of the measure under consideration, shall have ten (10) minutes in which to close the discussion before the vote is taken; when the motion applies to an amendment the person proposing the amendment shall have five minutes to close the discussion on the amendment. PLATFORM OF THE REPUBLICAN PARTY, 1924

ADOPTED BY THE NATIONAL REPUBLICAN CONVENTION, CLEVELAND, JUNE 11, 1924

The delegates of the Republican Party, in National Convention assembled, bow our heads in reverent memory of Warren G. Harding. We nominated him four years ago to be our candidate; the people of the Nation elected him their President. His human qualities gripped the affections of the American people. He was a public servant, unswerving in his devotion to duty. A staunch Republican, he was first of all a true patriot who gave unstitutingly of himself during a critical period of our national life. His conception and successful direction of the Limitation of Armament Conference in Washington was an achievement which measureably advanced the world along the path toward peace.

As representatives of the Repblican Party, we share in the national thanks-giving that in the great emergency created by the death of President Harding there stood forth fully equipped to be his successor one whom we had nominated as Vice-President—Calvin Coolidge. As Vice-President and President, by word and deed, he has justified the faith and confidence which inspired his selection. He has put the public welfare ahead of all other considerations. He has given to the people practical idealism in office. In his every act he has won, without seeking, the applause of the people. The constantly accumulating evidence of his integrity, vision and single-minded devotion to the needs of the people of this nation strengthens and inspires our confident faith in his continued leadership.

SITUATION IN 1921—When the Republican administration took control of the government in 1921 there were four and a half million unemployed, industry and commerce were stagnant, agriculture was prostrate, business was depressed, the bonds of the government were selling below their par value. Peace was delayed, misunderstanding and friction charactrized our relations abroad. There was a lack of faith in the administration of government resulting in a growing feeling of distrust in the very principles upon which our institutions are founded.

Today industry and commerce are active; public and private credits are sound. We have made peace; we have taken the first step toward disarmament, and strengthened our friendship with other powers. Our relations with the rest of the world are on a firmer basis, our position was never better understood, our foreign policy never more definite and consistent. The tasks to which we have put our hands are not completed. Time has been too short for the correction of all the ills we received as a heritage from the last Democratic administration, but the notable accomplishments under Republican rule warrant us in appealing to the country with entire confidence.

PUBLIC EXCONOMY—We demand, and the people of the United States have a right to demand, rigid economy in government. A policy of strict economy enforced by the Republican administration since 1921 has made possible a reduction in taxation and has enabled the government to reduce the public debt by two and a half million dollars. This policy rigorously enforced has resulted in a progressive reduction of public expenditures until they are now \$2,000,000,000 per annum less than in 1921. The tax burdens of the people have been relieved to the extent of \$1,250,000,000 per annum. Government securities have increased in value more than \$3,000,000,000. Deficits have been converted into surpluses. The budget system has been firmly established and the number of federal employes has been reduced by more

than 100,000. We commend the firm insistence of President Coolidge upon rigid government economy and pledge our earnest support to this end.

Finance and Taxation—We believe that the achievement of the republican administration in reducing taxation by \$1,250,000,000 per annum, reducing the public debt by \$2,432,000,000, installing a budget system, decreasing the public expenditures from \$5,500,000,000 per annum to approximately \$3,400,000,000 per annum, thus restoring the ordinary expenditures of the government to substantially a pre-war basis and in the complete restoration of public credit, the payment of refunding of seven and a half billions of public obligations without disturbance of credit or industry—all in the short period of three years, present a record unsurpassed in the history of public finance.

The intelligent assessment of taxes, their fair and scientific collection and the efficient and economical expenditures of the money received by the government and essential to the prosperity of our nation.

Carelessness in levying taxes inevitably breeds extravagance in expenditures. The wisest system of taxation rests most lightly on the individual and economic life of the country. The public demand for a sound permanent tax policy is insistent.

Progressive tax reduction should be accomplished through tax reform. It should not be confined to less than 4,000,000 of our citizens who pay direct taxes, but is the right of the more than 100,000,000 who are daily paying their taxes indirectly through their living expenses. Congress has in the main confined its work to tax reduction. The matter of tax reform is still unsettled and is equally essential.

We pledge ourselves to the progressive reduction of the taxes of all the people as rapidly as may be done with due provision for the essential expenditures of the government administered with rigid economy and to place our tax system on a sound peace-time basis.

We indorse the plan of President Coolidge to call in November a national conference of federal and state officials for the development of effective methods of lightening the tax burdens of our citizens and adjustment of questions of taxation as between the national and state governments.

We favor the creation by appropriate legislation of a non-partisan federal commission to make a comprehensive study and report upon the tax systems of the state and federal governments to serve as a basis for an intelligent reformation of our systems of taxation and as a basis for the proper adjustment of the subjects of taxation as between the national and state governments with fairness and justice to the taxpayer and in conformity with sound economic principles.

FOREIGN RELATIONS—The Republican party reaffirms its stand for agreement among the nations to prevent war and preserve peace. As an immediate step in this direction we indorse the permanent court of international justice and favor the adherence of the United States to this tribunal as recommended by President Coolidge. This government has definitely refused membership in the League of Nations and to assume any obligations under the covenant of the league. On this we stand.

While we are unwilling to enter into political commitments which would involve us in the conflict of European policies, it should be the purpose and high privilege of the United States to continue to co-operate with other nations in humanitarian efforts in accordance with our cherished traditions. The basic principles of our foreign policy must be independence without indifference to the rights and necessities of others and co-operation without entangling alliances. This policy, overwhelmingly approved by the people, has been vindicated since the end of the Great War. America's participation in world affairs under the administration of President Harding and President Coolidge has demonstrated the wisdom and prudence of the national judgment. A most impressive example of the capacity of the United States to serve the cause of world peace without political affiliations was

shown in the effective and beneficent work of the Dawes Commission towards the solution of the perplexing question of German reparations.

The first conference of great powers in Washington, called by President Harding, accomplished the limitation of armaments and the readjustment of the relations of the powers interested in the Far East. The conference resulted in an agreement to reduce armaments, relieve the nations involved from the great burdens of taxation arising from the competitive construction and maintenance of capital battleships; assured a new, broader and better understanding in the Far East; brought the promise of peace in the region of the Pacific; and formally adopted the policy of the open door for trade and commerce in the great markets of the Far East.

This historic conference paved the way to avert the danger of renewed hostilities in Europe and to restore the necessary economic stability. While the military forces of America have been reduced to a peace footing, there has been an increase in the land and air forces abroad which constitutes a continual menace to the peace of the world and a bar to the return of prosperity.

We firmly advocate the calling of a conference on limitation of land forces, the use of submarines and poison gas, as proposed by President Coolidge, when by the adoption of a permanent reparation plan the conditions in Europe will make negotiations and co-operation opportune and possible.

By treaties of peace safeguarding our rights and without derogating those of our former associates in arms, the Republican administration ended the war between this country and Germany and Austria. We have concluded and signed with other nations during the past three years more than 50 treaties and international agreements in the furtherance of peace and good will.

New sanctions and new proofs of permanent accord have marked our relations with all Latin America. The long-standing controversy between Chile and Peru has been advanced towards settlement by its submission to the president of the United States as arbitrator; and with the helpful co-operation of this country a treaty has been signed by the representatives of sixteen American republics which will stabilize conditions on the American continent and minimize the opportunities for war.

Our difficulties with Mexico have happily yielded to a most friendly adjustment. Mutual confidence has been restored and a pathway for that friendliness and helpfulness which should exist between this government and the government of our neighboring republic has been marked. Agreements have been entered into for the determination by judicial commissions of the claims of the citizens of each country against the respective Governments. We can confidently look forward to more permanent and more stable relations with this republic that joins for so many miles our southern border.

The wisdom of our policy, now well defined, of giving practical aid to other peoples without assuming political obligations has been conspicuously demonstrated. The ready and generous response of America to the needs of the suddenly stricken people of Japan and the starving in Russia gave evidence of our helpful interest in the welfare of the distressed in other lands.

The work of our representatives in dealing with subjects of such universal concern as the traffic in women and children, the production and distribution of narcotic drugs, the sale of arms, and with matters affecting public health and morals, demonstrates that we can effectively do our part for humanity and civilization without forfeiting, limiting or restricting our national freeodm of action.

The American people do cherish their independence, but their sense of duty to all mankind will ever prompt them to give their support, service and leadership to every cause which makes for peace and amity among the nations of the world.

We favor the holding from time to time of international conferences for the advancement and codification of international law.

FOREIGN DEBTS-In fulfillment of our pledge in the national platform of 1920

we have steadfastly refused to consider the cancellation of foreign debts. Our attitude has not been of an oppressive creditor seeking immediate return and ignoring existing financial conditions. Our position has been based on the conviction that a moral obligation such as was incurred should not be disregarded.

We stand for settlements with all debtor countries similar in character with our debt agreement with Great Britain. That settlement, achieved under a republican administration was the greatest international financial transaction in the history of the world. Under the terms of the agreement the United States now receives an annual return upon \$4,600,000,000 owing to us by Great Britain with a definite obligation of ultimate payment in full. The justness of the basis employed has been formally recognized by other debtor nations. Thirty-five per cent of the total foreign debt is now in progress of liquidation.

Great nations cannot recognize or admit the principle of repudiation. To do so would undermine the integrity essential for international trade, commerce and credit.

REORGANIZATION OF EXECUTIVE DEFARTMENTS—We favor a comprehensive reorganization of the executive departments and bureaus along the lines of the plan recently submitted by a joint committee of the congress, which has the unqualified support of President Coolidge.

CIVIL SERVICE—The improvement in the enforcement of the merit system both by legislative enactment and executive action since March 4, 1921, has been marked and effective. By executive order the appointment of presidential postmasters has been placed on the merit basis similar to that applying to the classified service. We favor the classification of postmasters in first, second and third class post offices and the placing of the prohibition enforcement field force within the classified Civil Service without necessarily incorporating all the present personnel.

THE TARIFF—We reaffirm our belief in the protective tariff to extend needed protection to our productive industries. We believe in protection as a national policy with equal regard to all sections and to agriculture and industry. It is only by adherence to this policy that the interests of the consumers can be safeguarded and American agriculture, American labor and American manufacture be assured a return sufficient to perpetuate American standards of life.

A protective tariff is designed to support the high American economic level of life for the average family and to prevent a lowering to the levels of economic life prevailing in other lands. It is the history of the nation that the protective system has ever justified itself by promoting industrial activity and employment enormously increasing our purchasing power, restoring confidence and bringing increased prosperity to all.

The tariff protection to our industry works for increased consumption of domestic agricultural products by an employed population, instead of one unable to purchase the necessities of life. Without the strict maintenance of the tariff principle our farmers will need always to compete with cheap lands and cheap labor abroad, and with lower standards of living.

The enormous value of the protective principle has once more been demonstrated by the effects of the Emergency Tariff Act of 1921 and the Tariff Act of 1922.

We believe that the power of the president to decrease or increase any rate of duty in the tariff act furnishes a safeguard against excessive duties and against too low customs charges, and affords ample opportunity for tariff duties to be adjusted after a hearing that they may cover the actual differences in the cost of production in the United States and the principal competing countries of the world.

AGRICULTURE—In dealing with agriculture, the Republican party recognizes that we are faced with a fundamental national problem, and that the prosperity and welfare of the nation as a whole is dependent upon the prosperity and welfare of our agricultural population.

We recognize that agricultural activities are still struggling with adverse conditions that have brought deep distress. We pledge the party to take whatever steps are necessary to bring back a balanced condition between agriculture, industry and labor, which was destroyed by the Democratic party through an unfortunate administration of legislation passed as war measures.

We affirm that under the Republican administration the problems of the farmer have received more serious consideration than ever before, both by definite executive action and by congressional action, not only in the field of general legislation but also in the enactment of laws to meet emergency situations.

The restoration of general prosperity and of the purchasing power of our people through tariff protection has resulted in an increased domestic consumption of food products, and the prices of many agricultural commodities are above the world price level by reason of direct tariff protection.

Under the leadership of the president at a most critical time a corporation was organized by private capital making available \$100,000,000 to assist the farmers of the northwest.

Realizing the disturbance in the agricultural export market, the result of the financial depressions in Europe and appreciating that the export field would be enormously improved by economic rehabilitation and the resulting increased consuming power, sympathetic support and direction were given to the work of the American representatives on the European reparations commission.

The revival in 1921 of the war finance corporation with loans of over \$300,000,000, averted a complete collapse in the agricultural industry.

We have established new intermediate credit banks for agriculture and increased the capital of the federal farm loan system. Emergency loans have been granted to drought-stricken areas.

We have enacted into law the co-operative marketing act, the grain futures and packer control acts; given to agriculture direct representation on the federal reserve board and on the federal trade commission. We have greatly strengthened our foreign marketing service for the disposal of our agricultural products.

The crux of the problem from the standpoint of the farmer is the net profit he receives after his outlay. The process of bringing the average prices of what he buys and what he sells closer together can be indirectly expedited by reduction in taxes, steady employment in industry and stability in business. This process can be directly expedited by lower freight rates, by better marketing through co-operative effort and a more sclentific organization of the physical and human machinery of distribution and by a greater diversification of farm products.

We promise every assistance in the reorganization of the marketing system on sounder and more economical lines and where diversification is needed. Government assistance during the period of transition.

We favor adequate tariff protection to such of our agricultural products as are threatened by foreign competition.

We favor, without putting the government into business, the establishment of a Federal system of organization for co-operative marketing of farm products.

The vigorous efforts of this administration towards broadening our exports market will be continued.

The Republican party pledges itself to the development and enactment of measures which will place the agricultural interests of America on a basis of economic equality with other industry to insure its prosperity and success.

MINING—The mining industry has experienced a period of depression as the result of the abnormal economic conditions growing out of the Great War. This administration has accomplished much in improving the conditions affecting this great fundamental industry and pledges itself to continue its efforts in this direction.

HIGHWAYS—The Federal Aid Road Act adopted by the Republican congress in 1921 has been of inestimable value in the development of the highway systems of the several states and of the nation. We pledge a continuation of this policy of federal co-operation with the states in highway building.

We favor the construction of roads and trails in our national forests necessary to their protection and utilization. In appropriations therefor the taxes which these lands would pay if taxable should be considered as a controlling factor.

LABOR—The increasing stress of industrial life, the constant and necessary efforts because of world competition to increase production and decrease costs, have made it especially incumbent on those in authority to protect labor from undue exactions. We commend congress for its prompt adoption of the recommendation of President Coolidge for a constitutional amendment authorizing congress to legislate on the subject of child labor and we urge the prompt consideration of that amendment by the legislatures of the various states.

There is no success great enough to justify the employment of women in labor under conditions which will impair their natural functions. We favor high standards for wages, working and living conditions among the women employed in industry.

We pledge a continuance of the efforts of the Republican administration to eliminate the seven-day 12-hour work week in industry. We regard with satisfaction the elimination of the 12-hour day in the steel industry and the agreement eliminating the seven-day work week of alternate thirteen and eleven hours brought about through the efforts of President Harding and President Coolidge.

We declare our faith in the principles of the eight-hour day.

We pledge a continuation of the work of rehabilitating workers in industry as conducted by the Federal Board for Vocational Education, and favor adequate appropriations for this purpose.

We favor a broader and better system of vocational education, a more adequate system of Federal Free Employment Agencies with facilities for assisting the movements of seasonal and migratory labor, including farm labor, and an ample organization for bringing the man and the job together.

RAILROADS—The people demand and are entitled to have prompt and efficient transportation at the lowest rates consistent with good service and a reasonable return upon the value of the property devoted to public service.

We believe that the American people demand a careful and scientific readjustment of railroad rate schedules with a view to the encouragement of agriculture and basic industries without the impairment of necessary railroad service.

The present laws regulating railroads which were enacted to meet post-war conditions should be modified from time to time as experience develops the necessity therefor.

The consolidation of railroads subject to the approval of the interstate commerce commission into fewer competitive systems will result in advantage to the public.

The labor board provisions of the present law should be amended whenever it appears necessary to meet changed conditions. Collective bargaining, mediation and voluntary arbitration are the most important steps in maintaining peaceful labor relations and should be encouraged. We do not believe in compulsory action any time in the settlement of labor disputes.

Public opinion must be the final arbiter in any crisis which so vitally affects public welfare as the suspension of transportation. Therefore the interests of the public require the maintenance of an impartial tribunal which can

In an emergency make an investigation of the facts and publish its conclusions. This is essential as a basis for popular judgment.

We favor a stable, consistent and constructive policy toward our rail-roads.

GOVERNMENT CONTROL—The prosperity of the American nation rests on the vigor of private initiative which has bred a spirit of independence and self-reliance. The Republican party stands now, as always, against all attempts to put the government into business. American industry should not be compelled to struggle against government competition. The right of the government to regulate, supervise and control public utilities in the public interest we believe should be strengthened, but we are firmly opposed to the nationalization or Government ownership of public utilities.

COAL—The price and a constant supply of such an essential commodity as coal are of vital interest to the public. The Government has no constitutional power to regulate prices but can bring its influence to bear by the powerful instrument afforded by full publicity. When through industrial conflict the supply is threatened, the President should have authority to appoint a commission to act as mediators and as a medium for voluntary arbitration. In the event of a strike the control of distribution should be invoked to prevent profiteering.

MERCHANT MARINE—The Republican Party stands for a strong and permanent merchant marine, built by Americans, owned by Americans, and manned by Americans, to secure the necessary contact with world markets for the sale of our surplus agricultural and manufactured products, to protect our shippers and importers from exorbitant ocean freight rates and to become a powerful arm of our national defense.

That part of the merchant marine which is now owned by the Government should continue to be improved by economical and efficient management with reduction of the losses now paid by the Government through taxation until it is finally placed on so sound a basis that with ocean freight rates becoming normal, due to improvement in international affairs, it can be sold to American citizens.

WATERWAYS, FLOOD CONTROL AND WATER POWER—Fully realizing the vital importance of transportation in both cost and service to all our people we favor the construction of the most feasible waterways from the Great Lakes to the Atlantic seaboard and the Gulf of Mexico, and the improvement and development of rivers, harbors and waterways, inland and coastwise, to the fullest extent justified by the present and potential tonnage available.

We favor a comprehensive survey of the conditions under which the flood waters of the Colorado river may be controlled and utilized for the benefit of the people of the states which border thereon.

The Federal Water Power Act establishes a national water power policy, and the way has thereby been opened for the greatest water power development in our history under conditions which preserve the initiative of our people while protecting the public interests.

THE WORLD WAR VETERANS—We reaffirm the admiration and gratitude which we feel for our soldiers and sailors.

The Republican Party pledges a continuing and increasing solicitude for all those suffering any disability as a result of service to the United States in time of war. No country and no administration has ever shown a more generous disposition in the care of its disabled or more thoughtful consideration in providing a sound administration for the solution of the many problems involved in making intended benefits fully, directly and promptly available to the veterans.

The confusion, inefficiency and maladministration existing heretofore since the establishment of a Government agency for administering such benefits has in the main been cured by new legislation, and plans are being actively made looking to a further improvement in the operation of the Bureau. The basic statutes have been so liberalized as to bring within their terms one hundred thousand additional beneficiaries. The privilege of hospitalization in Governmental hospitals, as recommended by President Coolidge, has been granted to all veterans irrespective of the origin of disability and over \$50,000,000 has been appropriated for hospital construction which will provide sufficient beds to care for all. Appropriations totaling over \$1,100,000,000 made by the Republican Congress for the care of the disabled evidenced the unmistakable purpose of the Government not to consider costs when the welfare of these men is concerned. No legislation for the benefit of the disabled soldier proposed during the last four years by veterans' organizations has failed to receive consideration.

We pledge ourselves to meet the problems of the future affecting the care of our wounded and disabled in a spirit of liberality, and with that thoughtful consideration which will enable the Government to give to the individual veteran that full measure of care guaranteed by an effective administration machinery to which his patriotic services and sacrifices entitle him.

Conservation—We believe in the development, effective and efficient, whether of oil, timber, coal or water power resources of the Government, only as needed and only after the public need has become a matter of public record, protected with scrupulous carefulness and vigilant watchfulness against waste, speculation and monopoly.

The natural resources of the country belong to all the people and are a part of an estate belonging to generations yet unborn. The Government policy should be to safeguard, develop and utilize these possessions. The conservation policy of the nation originated with the Republican Party under the inspiration of Theodore Roosevelt. We hold it a privilege of the Republican Party to build as a memorial to him on the foundation which he laid.

EDUCATION—The conservation of human resources is one of the most solemn responsibilities of government. There is an obligation which cannot be ignored and which demands that the Federal Government shall as far as lies within its power give to the people and the states the benefit of its counsel.

The welfare activities of the Government connected with the various departments are already numerous and important, but lack the co-ordination which is essential to effective action. To meet these needs we approve the recommendation for the creation of a cabinet post of Education and Relief.

Universal Mobilization in Time of War—We believe that in time of war the nation should draft for its defense not only its citizens but also every resource which may contribute to success. The country demands that should the United States ever again be called upon to defend itself by arms the President be empowered to draft such material resources and such services as may be required, and to stabilize the prices of services and essential commodities, whether utilized in actual warfare or private activity.

IMMIGRATION AND NATURALIZATION—The unprecedented living conditions in Europe following the World War created a condition by which we were threatened with mass immigration that would have seriously disturbed our economic life. The law recently enacted is designed to protect the inhabitants of our country, not only the American citizen, but also the alien already with us who is seeking to secure an economic foothold for himself and family against the competition which would come from unrestricted immigration. The administrative features of the law represent a great constructive advance and eliminate the hardships suffered by immigrants under the emergency statute.

We favor the improvement of our naturalization laws and the adoption of methods which will exert a helpful influence among the foreign-born population and provide for the education of the alien in our language, customs, ideals and standards of life.

HAWAII-ALASKA—We favor a continuance for the Territory of Hawaii of Federal assistance in harbor improvements, the appropriation of its share of federal funds and the systematic extension of the settlement of public lands by the Hawaiian race.

We indorse the policy of the present administration with reference to Alaska and favor a continuance of the constructive development of the Territory.

PHILIPPINES—The Philippine policy of the Republican Party has been and is inspired by the belief that our duty toward the Filipino people is a national obligation which should remain entirely free from partisan politics.

In accepting the obligation which came to them with the control of the Philippine Islands the American people had only the wish to serve, advance and improve the condition of the Filipino people. This thought will continue to be the dominating factor in the American consideration of the many problems which must inevitably grow out of our relationship to these people.

If the time comes when it is evident to Congress that independence would be better for the people of the Philippines with respect to both their domestic concerns and their status in the world, and the Filipino people then desire complete independence, the American Government will gladly accord it. The results of a careful study of the conditions in the Philippine Islands convinces us that the time for such action has not yet arrived.

RECLAMATION—Federal reclamation of the arid and semi-arid lands in the West has been the subject of intensive study in the Department of the Interior during the past fiscal year. New policies and methods of operation have been adopted which promise to insure the successful accomplishment of the objects sought. The completion of this reorganization plan is regarded as one of the achievements of the present administration in the interests of farmers immediately and of all the people ultimately.

COMMERCIAL AVIATION—We advocate the early enactment of such legislation and the taking of such steps by the Government as will tend to promote commercial aviation,

ARMY AND NAVY—There must be no further weakening of our regular army. We advocate appropriations sufficient to provide for the training of all members of the national guard, the citizens military training camps, the reserve officers corps and the reserves who may offer themselves for service.

We pledge ourselves to round out and maintain the Navy to the full strength provided the United States by the letter and spirit of the Limitation of Armament Conference.

NEGRO—We urge the Congress to enact at the earliest possible date a Federal anti-lynching law, so that the full influence of the Federal Government may be wielded to exterminate this hideous crime.

We believe that much of the misunderstanding which now exists can be eliminated by humane and sympathetic study of its causes. The President has wisely recommended the creation of a commission for the investigation of social and economic conditions and the promotion of mutual understanding and confidence.

HONEST GOVERNMENT—REPUBLICAN—We recognize the duty of constant vigilance to preserve at all times a clean and honest Government and to bring to the bar of justice every defiler of the public service, in or out of office.

Dishonesty and corruption are not political attributes. The recent Congressional investigations have exposed instances in both parties of men in public office who are willing to sell official favors and men out of office who are willing to buy them, in some cases with money and in others with influence.

The sale of influence resulting from the holding of public position or from association while in public office, or the use of such influence for private gain or advantage is a perversion of public trust and prejudicial to good government. It should be condemned by public opinion and forbidden by law.

We demand the speedy, fearless and impartial prosecution of all wrongdoers, without regard to political affiliations or positions; but we declare no greater wrong can be committed against the people than the attempt to destroy their trust in the great body of their public servants. Admitting the deep humiliation, which all good citizens share, that our public life should have harbored some

dishonest men, we assert that these undesirables do not represent the standard of our national integrity.

The Government at Washington is served today by thousands of earnest, conscientious and faithful officials and employees in every branch. It is a grave wrong against these patriotic men and women to strive indiscriminately to besmirch the names of the innocent and undermine the confidence of the people in the government under which they live. It is even a graver wrong when this is done for partisan purpose or for selfish exploitation.

The Republican Administration has already taken charge of the prosecution of official dereliction and it will continue the work of discovery and punishment, but it will not confuse the innocent with the guilty nor digress for partisan advantage from the strict enforcement of the law.

LAW AND ORDER—We must have respect for law. We must have observance of law. We must have enforcement of law. The very existence of the Government depends upon this, The substitution of private will for public law is only another name for oppression, disorder, anarchy and mob rule,

Every Government depends upon the loyalty and respect of its citizens. Violations of law weaken and threaten government itself. No honest government can condone such actions on the part of its citizens. The Republican Party pledges the full strength of the Government for the maintenance of these principles by the enforcement of the Constitution and of all laws.

Women Delegates—We extend our greetings to the women delegates who for the first time under Federal authorization sit with us in full equality. The Republican Party from the beginning has espoused the cause of woman suffrage, and the presence of these women delegates signifies to many here the completion of a task undertaken years ago. We welcome them not as assistants or as auxiliary representatives, but as co-partners in the great political work in which we are engaged and we believe that the actual partnership in party councils should be made more complete.

CONSTITUTIONAL GUARANTIES—The Republican Party reaffirms its unyielding devotion to the Constitution and to the guaranties of civil, political and religious liberty therein contained.

PARTY RESPONSIBILITY—In our form of government, parties are essential instrumentalities. Our Government functions best when the Chief Executive is supported in the Congress by a majority of the same political faith, united by common principles and able by concerted action to carry out in an orderly way a definite, consistent and balanced program.

In urging the people to elect a Republican President and Vice President, we ask them to elect to the Senate and House of Representatives men and women who believe in the Republican principles, acknowledge party responsibility and who can be relied upon to keep faith with the people by carrying out the platform which the Republican Party now presents and pledges itself to fulfill.

REPUBLICAN PARTY STATE PLATFORM

Adopted at state convention held in Des Moines, July 22, 1924.

PREAMBLE—We, the Republicans of Iowa, rejoice in the selection of Calvin Coolidge and Charles G. Dawes as candidates for President and Vice President on the Republican National Ticket. We have the utmost confidence in their ability to serve our nation as loyal Iowa Republicans would have such service rendered. It is with pride that we reaffirm the declaration of principles and policies adopted by the Republican National Convention. We enter this campaign with the assurance that the principles of our party will be faithfully upheld by the candidates there nominated.

In forward looking legislation for the prosecution, the safety, the health, the happiness and prosperity of her people, Iowa is second to no state in the Union; but her real Republicans have never believed and never will believe that to be progressive, they must also be Socialists or Communists or Reds or members of or in sympathy with other like organizations seeking the overthrow of the institutions which made America great and of our Constitution, which has made the United States the foremost nation of the world.

We commend and congratulate the present state administration upon its able, clean and efficient conduct of our state affairs.

We express our sympathy to the family and friends of Raymond W. Cassady, former Secretary of Agriculture, of this State, in his untimely death. He was a high type of Iowa farmer and citizen and was bringing credit to the new department over which he presided.

AGRICULTURAL RELIEF-Most of the economic injustices which have oppressed our farmers during the last three years have been the direct and natural results of unsound legislation by a democratic congress and unwise and incapable direction of the government by a democratic administration. a republican administration laws have been enacted which have done much to correct the mistakes due to democratic incompetence, such as the packers and stock yards act which insures to the producer fair treatment at the great live stock markets; the future trading act which makes it impossible to prevent undue manipulation on the grain exchange; the co-operative act which gives farmers the right to organize co-operatively for the marketing of their products; the intermediate credit act of 1923 which for the first time provides a system of personal credit for productive purposes; the federal warehouse act which is being rapidly extended and which will make it possible for farmers to market their staple products in an orderly way; these and other acts of lesser importance constitute a foundation upon which a sound and profitable system of agriculture can be built. Notwithstanding the benefits which have resulted from the enactment of such legislation, it is the duty of the government to enact such further legislation as may be necessary to restore a normal relationship between the prices of agricultural products and the prices of other commodities. The distorted relationship is largely the result of government action and should be corrected by the agency which caused it.

We endorse the principles of the McNary-Haugen Bill, and we commend the Iowa Congressmen for their wholehearted support of the idea of "equality of agriculture" in the 68th Congress. It was defeated in the House and it will be interesting for the farmers of Iowa to remember that about twenty-five per cent more democrats voted against it than Republicans; and that the Representative who did more to kill it than any other one man was a Wisconsin insurgent, a devoted and zealous follower of Senator LaFollette, the independent candidate for President. Nor should it be forgotten that the one Socialist member of the House who is now leading his party in support of the senator from Wisconsin, voted against the bill.

We urge Congress to continue the fight until the farmers of the United States have been given legislation which will enable them to obtain economic equality with labor and industry. The restoration of the farmer's dollar to its pre-war purchasing power is the biggest problem before the people of the United States today. That labor and industry are able to function on a higher price level than the farmer is due in large measure to preferential legislation and intensive co-operation. We demand similar legislation for the farmer.

We approve the recent lowering of the re-discount rates by the federal reserve banks, and we urge on the Federal Reserve board the possibility and the desirability of maintaining a stable price level at 60 or 70 per cent above pre-war. A stable price level of this sort will permit the maximum of justice between the various classes of society.

We endorse the active, earnest and efficient work of Henry C. Wallace as Secretary of the Department of Agriculture.

RAILWAY TRANSPORTATION—Railway transportation should be rendered at the lowest rates consistent with sustained, adequate and efficient service. In the regulation of companies engaged in transportation, freight rates should be so adjusted from time to time as to favor those industries which may be suffering under temporary depression even though it may be necessary to add the losses in revenue to the rates upon other commodities. We stand for the

strictest regulation to the end that no more than a fair return upon actual values shall be received or retained by railway companies but we are unalterably opposed to a policy which under the guise of regulation has for its purpose the wrecking of our transportation companies in order to establish government ownership and operation.

LABOR POLICIES—We endorse the historic policy of the republican party in securing protection for labor. Under it working men receive wages which enable them to enjoy the American standard of living which is the promise of our American government.

CHILD LABOR—We believe that the child labor amendment, about to be submitted by the governor to the general assembly of Iowa, should be promptly ratified.

Good ROADS—The people of Iowa want and must have their roads greatly improved. To that end we urge the Iowa legislature to meet all requirements of the federal statutes for obtaining and preserving Iowa's portion of federal aid. We recommend that the state be authorized and empowered to improve and maintain the primary roads of Iowa.

PRIMARY LAW—It is the cause of this Convention that the primary law should be amended so as to provide that no voter may change his party affiliation on election day.

EDUCATION—We take pride in the fact that Iowa stands foremost among the states of the union in the per cent of literacy and we give to the school system of the state a large measure of credit in attaining this pre-eminence. We are opposed to any measure which will in any way cripple the public school system of our state.

DEMOCRATIC CONVENTION AND PLATFORM

The Democratic national convention of 1924 convened at New York City June 24 and adjourned July 9. There were 1,446 delegates and an equal number of alternates. One hundred eighty-two of the delegates were women and there were 292 women alternate delegates. Byron P. Harrison of Mississippi was temporary chairman, Thomas J. Walsh of Montana permanent chairman and Homer S. Cummings of Connecticut chairman of the resolutions committee.

DEMOCRATIC PLATFORM OF 1924

Adopted by the Democratic National Convention, held at New York City June 24th to July 9th, 1924.

Woodrow Wilson—We, the representatives of the Democratic Party, in National Convention assembled, pay our profound homage to the memory of Woodrow Wilson. Our hearts are filled with gratitude that American Democracy should have produced this man, whose spirit and influence will live on through the ages; and that it was our privilege to have co-operated with him in the advancement of ideals of government which will serve as an example and inspiration for this and future generations. We affirm our abiding faith in those ideals, and pledge ourselves to take up the standard which he bore and to strive for the full triumph of the principles of Democracy to which he dedicated his life.

Democratic vs. Republican Principles—The Democratic Party believes in equal rights to all and special privileges to none. The Republican Party holds that special privileges are essential to national prosperity. It believes that national prosperity must originate with the special interests, and seep down through the channels of trade to the less favored industries, to the wage earners and small salarled employes. It has accordingly enthroned privilege and nurtured selfishness. The Republican Party is concerned chiefly with material things; the Democratic Party is concerned chiefly with human rights. The masses, burdened by discriminating laws and unjust administration, are demanding relief. The favored special interests, represented by the Republican Party, contented with their unjust privileges, are demanding that no change be made. The Democratic Party stands for remedial legislation and progress. The Republican Party stands still.

PARTY RECORDS COMPARED -- We urge the American people to compare the record of eight unsullied years of Democratic administration with that of the Republican administration. In the former there was no corruption, pledges were faithfully fulfilled, and a Democratic Congress enacted an extraordinary number of constructive and remedial laws. The economic life of the nation was quickened. Tariff taxes were reduced. A Federal Trade Commission was created. A Federal Farm Loan System was established. Childlabor legislation was enacted. A Good Roads Bill was passed. Eight-Hour Laws were adopted. A Secretary of Labor was given a seat in the Cabinet of the President. The Clayton amendment to the Sherman Anti-Trust Act was passed, freeing American labor and taking it from the category of commodities. By the Smith-Lever bill improvement of agricultural conditions was effected. A Cerrupt Practice Act was adopted. A well-considered Warehouse Act was passed. Federal employment bureaus were created, Farm Loan banks were organized and the Federal Reserve system was established. Privilege was uprooted. A corrupt lobby was driven from the National Capitol. A higher sense of individual and national duty was aroused. America enjoyed an unprecedented period of social and material progress,

During the time which intervened between the inauguration of a Democratic

administration on March 4, 1913, and our entrance into the World War, we placed upon the statute books of our country more effective, constructive and remedial legislation than the Republican Party had placed there in a generation.

During the great struggle which followed we had a leadership that carried America to greater heights of honor and power and glory than she had ever known before in her entire history.

Transition from this period of exalted Democratic leadership to the sordid record of the last three and a half years make the nation ashamed. It marks the contrast between a high conception of public service and an avowed purpose to distribute spoils.

REPUBLICAN INEFFICIENCY AND CORRUPTION-Never before in our history has the Government been so tainted by corruption, and never has an administration so utterly failed. The nation has been appalled by the revelations of political depravity which have characterized the conduct of public affairs. We arraign the Republican Party for attempting to limit inquiry into official delinquencies and to impede, if not to frustrate, the investigations to which in the beginning the Republican Party and leaders assented, but which later they regarded with dismay. These investigations sent the former Secretary of the Interior to Three Rivers in disgrace and dishonor. These investigations revealed the incapacity and indifference to public obligation of the Secretary of the Navy, compelling him, by force of public opinion, to quit the Cabinet. These investigations confirmed the general impression as to the unfitness of the Attorney General by exposing an official situation and personal contacts which shocked the conscience of the nation and compelled his dismissal from the Cabinet. These investigations disclosed the appalling condition of the Veterans' Bureau with its fraud upon the Government, and its cruel neglect of the sick and disabled soldiers of the World War. investigations revealed the criminal and fraudulent nature of the oil leases, which caused the Congress, despite the indifference of the Executive, to direct recovery of the public domain and the prosecution of the criminal.

Such are the exigencies of partisan politics that Republican leaders are teaching a strange doctrine that public censure should be directed against those who expose crime rather than against criminals who have committed the offenses. If only three Cabinet officers out of ten are disgraced, the country is asked to marvel at how many are free from taint. Long boastful that it was the only party "fit to govern," the Republican Party has proven its inability to govern even itself. It is at war with itself. As an agency of government it has ceased to function. This nation cannot afford to entrust its welfare to a political organization that cannot master itself, or to an Executive whose policies have been rejected by his own party. To retain in power an administration of this character would inevitably result in four years more of continued disorder, internal dissension and governmental inefficiency.

A vote for Coolidge is a vote for chaos!

ISSUES—The dominant issues of the campaign are created by existing conditions.

Dishonesty, discrimination, extravagance, and inefficiency exist in government. The burdens of taxation have become unbearable. Distress and bankruptcy in agriculture, the basic industry of our country, is affecting the happiness and prosperity of the whole people. The high cost of living is causing hardship and unrest. The slowing down of industry is adding to the general distress. The tariff, the destruction of our foreign markets, and the high cost of transportation are taking the profit out of agriculture, mining and other raw material industries. Large standing armies and the cost of preparing for war still cast their burdens upon humanity. These conditions the existing Republican administration has proven itself unwilling or unable to redress.

The Democratic Party pledges itself to the following program:

Honest Government-We pledge the Democratic Party to drive from public

places all who make barter of our national honor; its resources or the administration of its laws; to punish those guilty of these offenses.

To put none but the honest in public office; to practice economy in the expenditure of public money; to reverence and respect the rights of all under the Constitution.

To condemn and destroy government by the spy and the blackmailer, as by this Republican administration was both encouraged and practiced.

Tariff And Taxation—The Fordney-McCumber Tariff Act is the most unjust, unscientific and dishonest tariff tax measure ever enacted in our history. It is class legislation, which defrauds all the people for the benefit of a few; it heavily increases the cost of living, penalizes agriculture, corrupts the Government, fosters paternalism, and, in the long run, does not benefit the very interests for which it was enacted.

We denounce the Republican tariff laws which are written in great part in aid of monopolies and thus prevent that reasonable exchange of commodities which would enable foreign countries to buy our surplus agricultural and manufactured products with resultant benefit to the toilers and producers of America. Trade interchange, on the basis of reciprocal advantages to the countries participating, is a time-honored doctrine of Democratic faith. We declare our party's position to be in favor of a tax on commodities entering the customs houses that will promote effective competition, protect against monopoly and at the same time produce a fair revenue to support the Government.

The greatest contributing factor in the increase and unbalancing of prices is unscientific taxation. After having increased taxation, and the cost of living by two billion dollars, under the Fordney-McCumber Tariff, all that the Republican Party could suggest in the way of relief was a cut of three hundred million dollars in direct taxes; and that was to be given principally to those with the largest incomes. Although there was no evidence of a lack of capital for investment to meet the present requirements of all legitimate industrial enterprises, and although the farmers and general consumers were bearing the brunt of tariff favors already granted to special interests, the administration was unable to devise any plan except one to grant further aid to the few. Fortunately this plan of the administration failed, and under Democratic leadership aided by progressive Republicans, a more equitable one was adopted, which reduces direct taxes by about four hundred and fifty million dollars

The issue between the President and the Democratic Party is not one of tax reduction or of the conservation of capital. It is an issue of a relative burden of taxation and of the distribution of capital as affected by the taxation of income. The President still stands on the so-called Mellon plan, which his party has just refused to endorse or mention in its platform.

The income tax was intended as a tax upon wealth. It was not intended to take from the poor any part of the necessities of life. We hold that the fairest tax with which to raise revenues for the Federal Government is the income tax. We favor a graduated tax upon incomes, so adjusted as to lay the burdens of government upon the taxpayers in proportion to the benefits they enjoy and their ability to pay. We oppose the so-called nuisance taxes, sales taxes, and all other forms of taxation that unfairly shift to the consumer the burden of taxation. We refer to the Democratic revenue measure passed by the last Congress as distinguished from the Mellon tax plan as an illustration of the policy of the Democratic Party. We first made a flat reduction of 25 per cent upon the tax on all incomes payable this year, and then we so changed the proposed Mellon plan as to eliminate taxes upon the poor, reduce them upon moderate incomes and, in a lesser degree, upon the incomes of multimillionaires. We hold that all taxes are unnecessarily high, and pledge ourselves to further reductions.

We denounce the Mellon tax plan as a device to relieve multimillionaires at the expense of other taxpayers, and we accept the issue of taxation tendered by President Coolidge.

AGRICULTURE—During the four years of Republican government, the economic government, the economic condition of the American farmer has changed from comfort to bankruptcy, with all its attendant miseries. The chief causes for this are—

- (a) The Republican Party policy of isolation in international affairs has prevented Europe from getting back to its normal balance, and, by leaving unsolved the economic problems abroad, has driven the European city population from industrial activities to the soil in large numbers in order to earn the mere necessities of life. This has deprived the American farmer of his normal export trade.
- (b) The Republican policy of a prohibitive tariff, exemplified in the Fordney-McCumber law, which has forced the American farmer, with his export market debilitated, to buy manufactured goods at sustained high domestic levels, thereby making him the victim of the profiteer.
- (c) The Republican policy of high transportation rates, both rail and water, which has made it impossible for the farmer to ship his produce to markets at even a living profit.

To offset these policies and their disastrous results, and to restore the farmer again to economic equality with other industrialists, we pledge ourselves:

- (a) To adopt an international policy of such co-operation, by direct official instead of indirect and evasive unofficial means, as will re-establish the farmer's export market by restoring the industrial balance in Europe and the normal flow of international trade with the settlement of Europe's economic problems.
- (b) To adjust the tariff so that the farmer and all other classes can buy again in a competitive manufacturer's market.
- (c) To readjust and lower rail and water rates, which will make our markets, both for the buyer and the seller, national and international instead of regional and local.
- (d) To bring about the early completion of internal waterway systems for transportation, and to develop our water powers for cheaper fertilizer and use on our farms.
- (e) To stimulate by every proper governmental activity the progress of the co-operative marketing movement and the establishment of an export marketing corporation or commission in order that the exportable surplus may not establish the price of the whole crop.
 - (f) To secure for the farmer credits suitable for his needs.
- (g) By the establishment of these policies and others naturally supplementary thereto, to reduce the margin between what the producer receives for his products and the consumer has to pay for his supplies, to the end that we secure an equality for agriculture.

RAILBOADS—The sponsors for the Esch-Cummins Transportation Act of 1920, at the time of its presentation to Congress, stated that it had for its purposes the reduction of the cost of transportation, the improvement of service, the bettering of labor conditions, the promotion of peaceful co-operation between employer and employe, and at the same time the assurance of a fair and just return to the railroads upon their investment.

We are in accord with these announced purposes, but contend that the act has failed to accomplish them. It has failed to reduce the cost of transportation. The promised improvement in service has not been realized. The labor provisions of the act have proven unsatisfactory in settling differences between employer and employes. The so-called recapture clause has worked to the advantage of the strong and has been of no benefit to the weak. The pronouncement in the act for the development of both rail and water transportation has proven futile. Water transportation upon our inland waterways has not been encouraged, and limitation of our coastwise trade is threatened by the administration of the act. It has unnecessarily interfered

with the power of the states to regulate purely intrastate transportation. It must therefore be so rewritten that the high purposes which the public welfare demands may be accomplished.

Railroad freight rates should be so readjusted as to give the bulky, basic, low-priced raw commodities, such as agricultural products, coal and ores, the lowest rates, placing the higher rates upon more valuable and less bulky manufactured products.

MUSCLE SHOALS AND FERTILIZERS—We reaffirm and pledge the fulfillment of the policy, with reference to Muscle Shoals, as declared and passed by the Democratic majority of the Sixty-fourth Congress in the National Defense Act of 1916 "for the production of nitrates or other products needed for munitions of war and useful in the manufacture of fertilizers."

We hold that the production of cheaper and higher grade fertilizers is essential to agricultural prosperity. We demand prompt action by Congress for the operation of the Muscle Shoals plants to maximum capacity in the production, distribution and sale of commercial fertilizers to the farmers of the country, and we oppose any legislation that limits the production of fertilizers at Muscle Shoals by limiting the amount of power to be used in their manufacture.

REPUBLICAN CONTRACTION OF CREDIT AND CURRENCY-We denounce the recent cruel and unjust contraction of legitimate and necessary credit and currency, which was directly due to the so-called deflation policy of the Republican Party as declared in its National Platform of June, 1920, and in the speech of acceptance of its candidate for the presidency. Within eighteen months after the election of 1920 this policy resulted in withdrawing bank loans and discounts by over five billions of dollars and in contracting our currency by over fifteen hundred millions of dollars. This contraction bankrupted hundreds of thousands of farmers and stock growers in America and resulted in We demand that the widespread industrial depression and unemployment. Federal Reserve System be so administered as to give stability to industry, commerce and finance, as was intended by the Democratic Party, which gave the Federal Reserve System to the nation.

RECLAMATION.—The Democratic Party was foremost in urging reclamation for the arid and semi-arid lands of the West. These lands are located in the public-land states, and, therefore, it is the duty of the Government to utilize their resources by reclamation.

Homestead entrymen under reclamation projects have suffered from the extravagant inefficiencies and mistakes of the Federal Government.

The Reclamation Act of 1924, recommended by the Fact-Finding Commission, and added as an amendment to the Second Deficiency Appropriation Bill at the last session of Congress, was eliminated from that bill by the Republican conferees in the report they presented to Congress one hour before adjournment. The Democratic Party pledges itself actively, efficiently and economically to carry on the reclamation projects, and to make equitable adjustment for the mistakes the Government has made.

Conservation—We pledge recovery of the Navy's oil reserves, and all other parts of the public domain which have been fraudulently or illegally leased or otherwise wrongfully transferred to the control of private interests; vigorous prosecution of all public officials, private citizens and corporations that participated in these transactions; revision of the Water Power Act, the General Leasing Act, and all other legislation relating to the public domain that may be essential to its conservation and honest and efficient use on behalf of the people of the country. We believe that the nation should retain title to its water power and we favor the expeditious creation and development of our water power. We favor strict public control and conservation of all the nation's natural resources, such as coal, iron, oil and timber, and their use in such manner as may be to the best interest of our citizens.

The conservation of migratory birds, the establishment of game preserves,

and the protection and conservation of wild life is of importance to agriculturists as well as sportsmen,

Our disappearing natural resource of timber calls for a national policy of referestation.

IMPROVED HIGHWAYS—Improved roads are of vital importance not only to commerce and industry but also to agriculture and rural life. We call attention to the record of the Democratic party in this matter, and favor a continuance of federal aid under existing federal and state agencies.

DEEP WATERWAYS—We favor and will promote deep waterways from the Great Lakes to the Gulf and to the Atlantic Ocean.

FLOOD CONTROL AND WATER TRANSPORTATION—We favor a policy for the fostering and building up of water transportation through the improvement of inland waterways and the removal of discrimination against water transportation. Flood control and the lowering of flood levels is essential to the safety of life and property, the productivity of our lands, the navigability of our streams, and the reclaiming of our wet and overflowed lands and the creation of hydro-electric power. We favor the expeditious construction of flood relief works on the Mississippi and Colorado rivers and also such reclamation and irrigation projects upon the Colorado river as may be found to be feasible and practical.

We favor liberal appropriations for prompt co-ordinated surveys by the United States to determine the possibilities of general navigation improvements and water-power developments on navigable streams and their tributaries, to secure reliable information as to the most economical navigation improvement, in combination with the most efficient and complete development of water power.

We favor the suspension of the granting of federal water power licenses by the Federal Water Power Commission until congress has received reports from the water power commission with regard to applications for such licenses.

MINING—Mining is one of the basic industries of this country. We produce more coal, iron, copper and silver than any other country. The value of our mineral production is second only to agriculture. Mining has suffered like agriculture and from the same causes. It is the duty of our government to foster this industry and to remove the restrictions that destroy its prosperity.

FRAUDULENT STOCK SALES—We favor the immediate passage of such legislation as may be necessary to enable the states efficiently to enforce the laws relating to the gradual financial strangling of innocent investors, workers and consumers, caused by the organizing of corporations on an inflated and overcapitalized basis, resulting already in the undermining and collapse of many railroad, public service and industrial corporations, manifesting itself in unemployment, irreparable loss and waste, and which constitute a serious menace to the stability of our economic system.

PRIVATE MONOPOLIES—The Federal Trade Commission has submitted to the Republican administration numerous reports showing the existence of monopolies and combinations in restraint of trade, and has recommended proceedings against these violators of the law. The few prosecutions which have resulted from this abundant evidence furnished by this agency created by the Democratic party, while proving the indifference of the administration to the violations of law by trusts and monopolies and its friendship for them, nevertheless demonstrate the value of the Federal Trade Commission.

We declare that a private monopoly is indefensible and intolerable, and pledge the Democratic party to a vigorous enforcement of existing laws against monopoly and illegal combinations, and to the enactment of such further measures as may be necessary.

REGULATION OF CORPORATIONS CONTROLLING NECESSITIES OF LIFE—We pledge the Democratic party to regulate by governmental agencies the anthracite coal industry and all other corporations controlling the necessaries of life where public welfare has been subordinated to private interests.

Merchant Marine...The Democratic party condemns the vacillating policy of the Republican administration in its failure to develop an American flag shipping policy. There has been a marked decrease in the volume of American commerce carried in American vessels as compared to the record under a Democratic administration.

We oppose as illogical and unsound all efforts to overcome by subsidies the handicaps to American shipping and commerce imposed by Republican policies.

We condemn the practice of certain American railroads in favoring foreign ships, and pledge ourselves to correct such discriminations. We declare for an American-owned merchant marine, American built, and manned by American crews, which is essential for naval security in war, and is a protection to the American farmer and manufacturer against excessive ocean freight charges on products of farm and factory.

We declare that the government should own and operate such merchant ships as will insure the accomplishment of these purposes, and to continue such operation so long as it may be necessary without obstructing the development and growth of a privately owned American flag shipping.

EDUCATION—We believe with Thomas Jefferson and other founders of the republic that ignorance is the enemy of freedom and that each state, being responsible for the intellectual and moral qualifications of its citizens and for the expenditure of the moneys collected by taxation for the support of its schools, shall use its sovereign right in matters pertaining to education. The federal government should offer to the states such counsel, advice and aid as may be made available through the federal agencies for the general improvement of our schools in view of our national needs.

CIVIL SERVICE—We denounce the action of the Republican administration in its violations of the principles of civil service by its partisan removals and manipulation of the eligible lists in the post office department and other governmental departments; by its packing the Civil Service Commission so that that commission became the servile instrument of the administration in its wish to deny to the ex-service men their preferential rights under the law, and the evasion of the requirements of the law with reference to appointments in the department.

We pledge the Democratic party faithfully to comply with the spirit as well as the regulation of civil service; to extend its provisions to internal revenue officers and to other employes of the government not in executive positions, and to secure to ex-service men preference in such appointments.

POSTAL EMPLOYES.—We declare in favor of adequate salaries to provide decent living conditions for postal employes.

POPULAR ELECTIONS—We pledge the Democratic party to a policy which will prevent members of either house who fail of re-election from participating in the subsequent sessions of congress. This can be accomplished by fixing the days for convening the congress immediately after the biennial, national election; and to this end we favor granting the right to the people of the several states to vote on proposed constitutional amendments on this subject,

PROBATION—We favor the extension of the probation principle to the courts of the United States.

AVIATION—We favor a sustained development of aviation both by the government and commercially.

LABOR AND CHILD WELFARE—Labor is not a commodity. It is human. We favor collective bargaining and laws regulating hours of labor and conditions under which labor is performed. We favor the enactment of legislation providing that the product of convict labor shipped from one state to another shall be subject to the laws of the latter state exactly as though they had been produced therein. In order to mitigate unemployment attending business depression, we urge the enactment of legislation authorizing that construction and repair of public works be initiated in periods of acute unemployment.

We pledge the party to co-operate with the state governments for the

welfare, education and protection of child life and all necessary safeguards against exhaustive debilitating employment conditions for women.

Without the votes of Democratic members of the congress the Child Labor Amendment would not have been submitted for ratification.

ACTIVITIES OF WOMEN—We welcome the women of the nation to their rightful place by the side of men in the control of the government whose burdens they have always shared.

The Democratic party congratulates them upon the essential part which they have taken in the progress of our country, and the zeal with which they are using their political power to aid the enactment of beneficent laws and the exaction of fidelity in the public service.

VETERANS OF WARS—We favor generous appropriations, honest management and sympathetic care and assistance in the hospitalization, rehabilitation and compensation of the veterans of all wars and their dependents. The humanizing of the Veterans' Bureau is imperatively required.

CAMPAIGN CONTRIBUTIONS-The nation now knows that the predatory interests have, by supplying Republican campaign funds, systematically purchased legislative favors and administrative immunity. The practice must stop. our nation must return to honesty and decency in politics. Elections are public affairs conducted for the sole purpose of ascertaining the will of the sovereign Therefore, we demand that national elections shall hereafter be kept free from the poison of excessive private contributions. To this end, we favor reasonable means of publicity, at public expense, so that candidates, properly before the people for federal offices, may present their claims at a minimum of cost. Such publicity should precede the primary and the election. We favor the prohibition of individual contributions, direct and indirect, to the campaign funds of congressmen, senators or presidential candidates, beyond a reasonable sum to be fixed in the law, for both individual contributions and total expenditures, with requirements for full publicity. We advocate a complete revision of the Corrupt Practice Act to prevent Newberryism and the election evils disclosed by recent investigations.

NARCOTICS—Recognizing in narcotic addiction, especially the spreading of heroin addiction among the youth, a grave peril to America and to the human race, we pledge ourselves vigorously to take against it all legitimate and proper measures for education, for control and for suppression at home and abroad.

LAW ENFORCEMENT—The Republican administration has failed to enforce the Prohibition Law; is guilty of trafficking in liquor permits, and has become the protector of violators of this law.

The Democratic party pledges itself to respect and enforce the Constitution and all laws.

THE RIGHTS OF THE STATES—We demand that the states of the union shall be preserved in all their vigor and power. They constitute a bulwark against the centralizing and destructive tendencies of the Republican party.

We condemn the efforts of the Republican administration to nationalize the functions and duties of the states.

We oppose the extension of bureaucracy, the creation of unnecessary bureaus and federal agencies and the multiplication of offices of officeholders.

We demand a revival of the spirit of local self-government essential to the preservation of the free institutions of our republic.

ASIATIC IMMIGRATION—We pledge ourselves to maintain our established position in favor of the exclusion of Asiatic immigration.

PHILIPPINE INDEPENDENCE—The Filipino people have succeeded in maintaining a stable government and have thus fulfilled the only condition laid down by congress as a prerequisite to the granting of independence. We declare that it is now our liberty and our duty to keep our promise to these people by granting them immediately the independence which they so happendly covet.

ALASKA—The maladministration of affairs in Alaska is a matter of concern to all our people.

Under the Republican administration of Alaska development has ceased, and the fishing industry has been seriously impaired.

We pledge ourselves to correct the evils which have grown up in the administration of that rich domain.

An adequate form of local self-government for Alaska must be provided, and to that end we favor the establishment of a full territorial form enjoyed by all the territories except Alaska during the last century of American history.

TERRITORY OF HAWAII—We believe in a policy for continuing the improvements of the National Park, the harbors and breakwaters, and the federal roads of the territory of Hawaii.

VIRGIN ISLANDS—We recommend legislation for the welfare of the inhabitants of the Virgin Islands.

ARMENIA AND THE LAUSANNE TREATY—We condemn the Lausanne Treaty. It barters legitimate American rights, and betrays Armenia for the Chester Oil Concession.

We favor the protection of American rights in Turkey, and the fulfillment of President Wilson's arbitral award respecting Armenia.

REPUBLIC OF GREECE—We welcome to the sisterhood of republics the ancient land of Greece which gave to our party its priceless name. We extend to her government and people our cordial good wishes.

THE LATIN-AMERICAN REPUBLICS—From the day of their birth friendly relations have existed between the Latin-American republics and the United States. That friendship grows stronger as our relations become more intimate. The Democratic party sends to these republics its cordial greeting; God has made us neighbors—justice shall keep us friends.

WAR—War is a relic of barbarism, and it is justifiable only as a measure of defense,

In the event of war in which the man power of the nation is drafted, all other resources should likewise be drafted. This will tend to discourage war by depriving it of its profits.

DISARMAMENT, WAR REFERENDUM AND NATIONAL DEFENSE—We demand a strict and sweeping reduction of armaments by land and sea, so that there shall be no competitive military program or naval building. Until international agreements to this end have been made, we advocate an army and navy adequate for our national safety.

Our government should secure a joint agreement with all nations for world disarmament and also for a referendum of war, except in case of actual or threatened attack.

Those who must furnish the blood and bear the burdens imposed by war should, whenever possible, be consulted before this supreme sacrifice is required of them.

LEAGUE OF NATIONS.—The Democratic party pledges all its energies to the outlawing of the whole war system. We refuse to believe that the wholesale slaughter of human beings on the battlefield is any more necessary to man's highest development than is killing by individuals.

The only hope for world peace and for economic recovery lies in the organized efforts of sovereign nations co-operating to remove the causes of war and to substitute law and order for violence.

Under the Democratic leadership a practical plan was devised under which fifty-four nations are now operating and which has for its fundamental purpose the free co-operation of all nations in the work of peace.

The government of the United States for the last four years has had no foreign policy, and consequently it has delayed the restoration of the political and economic agencies of the world. It has impaired our self-respect at home

and injured our prestige abroad. It has curtailed our foreign markets and ruined our agricultural prices.

It is of supreme importance to civilization and to mankind that America be placed and kept on the right side of the greatest moral question of all time, and therefore the Democratic party renews its declaration of confidence in the ideal of world peace, the League of Nations and the supreme effort of the statesmanship and religious conviction of our time to organize the world for peace. Further, the Democratic party declares that it will be the purpose of the next administration to do all in its power to secure for our country that moral leadership in the family of nations which, in the Providence of God, has been so clearly marked out for it. There is no substitute for the League of Nations as an agency working for peace; therefore, we believe that, in the interest of permanent peace, and in the lifting of the great burdens of war from the backs of the people, and in order to establish a permanent foreign policy on these supreme questions, not subject to change with change of party administrations, it is desirable, wise and necessary to lift this question out of party politics and to that end to take the sense of the American people at a referendum election, advisory to the government, to be held officially under act of congress, free from all other questions and candidacies, after ample time for full consideration and discussion throughout the country, upon the question, in substance, as follows:

"Shall the United States become a member of the League of Nations upon such reservations or amendments to the covenant of the League as the president and the senate of the United States may agree upon." Immediately upon an affirmative vote we will carry out such mandate.

FREEDOM OF RELIGION—FREEDOM OF SPEECH—FREEDOM OF PRESS—The Democratic party reaffirms its adherence and devotion to those cardinal principles contained in the Constitution and the precepts upon which our government is founded, that congress shall make no laws respecting the establishment of religion, or prohibiting the free exercise thereof, or abridging the freedom of speech or of the press, or the right of the people peaceably to assemble and to petition the government for a redress of grievances, that the church and the state shall be and remain separate, and that no religious tests shall ever be required as a qualification to any office of public trust under the United States. These principles we pledge ourselves ever to defend and maintain. We insist at all times upon obedience to the orderly processes of the law and deplore and condemn any effort to arouse religious or racial dissension.

CONCLUSION—Affirming our faith in these principles we submit our cause to the people.

STATE CONVENTIONS

Democratic state convention to select delegates to national convention held at Davenport, April 3rd, 1924, E. W. McManus, Keokuk, chairman.

Democratic state convention held at Des Moines, July 25, 1924, Dan Steck. Ottumwa, chairman.

Democratic judicial convention, held at Des Molnes, August 1, 1924, John DeMarr, Des Moines, chairman.

DEMOCRATIC PARTY STATE PLATFORM

Adopted at State Convention held in Des Moines, July 25, 1924.

The Democrats of Iowa in convention assembled endorse the platform adopted by the National Democratic convention at New York at the recent convention and pledge our loyalty and fealty to the principles therein laid down and proclaimed. We particularly endorse the demand of the people of the United States for honesty in the administration of our public affairs and demand the prosecution and punishment of all persons who have violated the great Democratic principles that a public office is a public trust.

It is with great pleasure that this convention endorses the nominees of the national convention, Hon. John W. Davis of West Virginia for president and Governor Charles W. Bryan of Nebraska for vice president.

The convention heartily endorses and commends to the people of Iowa the nominees of the state and local tickets as chosen by the democrats of Iowa at the primary last June, fully realizing and believing that in these candidates and each of them the people may rely upon honesty, ability, efficiency and high public service to the state.

In Mr. Davis the democrats of the nation have a champion and a defender who believes in the great truths of the democratic party proclaimed by Thomas Jefferson, endorsed by Grover Cleveland and idealized by Woodrow Wilson.

The democracy of the nation presents to the people in its candidate for president a man in every way worthy of the high honor, able, honest, of wide experience, of broad vision, and under whose wise guidance this nation will again assume its moral leadership of the world, once so gloriously achieved under Woodrow Wilson, and one who is best qualified to promote those instrumentalities designed to achieve world peace and security.

With confidence and courage we enter into this campaign and as our creed we adopt the political creed of Hon. John W. Davis, our candidate for president, as stated by him:

"We believe that all men are created equal; that they are endowed by their Creator with inalienable rights to life, liberty and the pursuit of happiness; that the democratic party has no place in our national life except as a party of liberalism; that the best government is that which governs least; that the constitution and its limitations were made to be obeyed; that local self-government is indispensable to liberty; that the people can be trusted to control their own destiny; that taxes can be levied only for the support of government economically administered; that unnecessary taxation is unjust taxation; that the end of all government is to furnish equal and exact justice to all men and special privileges to none; and that public office is a public trust.

"These are the essentials of that Jeffersonian creed which has been through all the years the guide and stay of the party which he founded and endowed. We therefore rededicate ourselves to a party whose ambition is service, not mastery; whose aim is opportunity, not privilege; whose boast is honor and not profit; and whose ideal is freedom and not restraint."

MINOR PARTIES IN 1924

LA FOLLETTE-PROGRESSIVE PARTY

IOWA ORGANIZATION, LA FOLLETTE FOR PRESIDENT

Iowa organization, La Foliette for president, John D. Denison, Des Moines, state chairman; John C. Lewis, Des Moines, chairman of finance committee.

PLATFORM OF ROBERT M. LA FOLLETTE

Independent Progressive Candidate for President of the United States.

The great issue before the American people today is the control of government and industry by private monopoly.

For a generation the people have struggled patiently, in the face of repeated betrayals by successive administrations, to free themselves from this intolerable power which has been undermining representative government.

Through control of government, monopoly has steadily extended its absolute dominion to every basic industry.

In violation of law, monopoly has crushed competition, stifled private initiative and independent enterprise, and without fear of punishment now exacts extortionate profits upon every necessity of life consumed by the public.

The equality of opportunity proclaimed by the Declaration of Independence and asserted and defended by Jefferson and Lincoln as the heritage of every American citizen has been displaced by special privilege for the few, wrested from the government of the many.

Fundamental Rights in Danger—That tyrannical power which the American people denied to a king, they will no longer endure from the monopoly system. The people know they cannot yield to any group the control of the economic life of the nation and preserve their political liberties. They know monopoly has its representatives in the halls of congress, on the federal bench, and in the executive departments; that these servile agents barter away the nation's natural resources, nullify acts of congress by judicial veto and administrative favor, invade the people's rights by unlawful arrests and unconstitutional searches and selzures, direct our foreign policy in the interests of predatory wealth, and make wars and conscript the sons of the common people to fight them.

The usurpation in recent years by the federal courts of the power to nullify laws duly enacted by the legislative branch of the government is a plain violation of the constitution. Abraham Lincoln, in his first inaugural address, said: "The candid citizen must confess that if the policy of the government, upon vital questions affecting the whole people, is to be irrevocably fixed by decisions of the supreme court, the people will have ceased to be their own rulers, having to that extent practically resigned their government into the hands of that eminent tribunal." The constitution specifically vests all legislative power in the congress, giving that body power and authority to override the veto of the president. The federal courts are given no authority under the constitution to veto acts of congress. Since the federal courts have assumed to exercise such veto power, it is essential that the constitution shall give to the congress, the right to over-ride such judicial veto, otherwise the court will make itself master over the other co-ordinate branches of the government. The people themselves must approve or disapprove the present exercise of legislative power by the federal courts.

DISTRESS OF AMERICAN FARMERS—The present condition of American agriculture constitutes an emergency of the gravest character. The department of

commerce report shows that during 1923 there was a steady and marked increase in dividends paid by the great industrial corporations. The same is true of the steam and electric railways and practically all other large corporations. On the other hand, the secretary of agriculture reports that in the fifteen principal wheat growing states more than 108,000 farmers since 1920 have lost their farms through foreclosure and bankruptcy; that more than 122,000 have surrendered their property without legal proceedings, and that hearly 375,000 have retained possession of their property only through the leniency of their creditors, making a total of more than 600,000 or 26 per cent of all farmers who have virtually been bankrupted since 1920 in these fifteen states alone.

Almost unlimited prosperity for the great corporations and ruin and bank-ruptcy for agriculture is the direct and logical result of the politics and legislation which deflated the farmer while extending almost unlimited credit to the great corporations; which protected with exorbitant tariffs the industrial magnates, but depressed the prices of the farmers' products by financial juggling while greatly increasing the cost of what he must buy; which guaranteed excessive freight rates to the railroads and put a premium on wasteful management while saddling an unwarranted burden on to the backs of the American farmer; which permitted gambling in the products of the farm by grain speculators to the great detriment of the farmers and to the great profit of the grain gambler.

A COVENANT WITH THE PEOPLE—Awakened by the dangers which menace their freedom and prosperity the American people still retain the right and courage to exercise their sovereign control over their government. In order to destroy the economic and political power of monopoly, which has come between the people and their government, we pledge ourselves to the following principles and policies:

THE HOUSE CLEANING—1. We pledge a complete housecleaning in the department of justice, the department of the interior, and the other executive departments. We demand that the power of the federal government be used to crush private monopoly, not to foster it.

NATURAL RESOURCES—2. We pledge recovery of the navy's oil reserves and all other parts of the public domain which have been fraudulently or illegally leased, or otherwise wrongfully transferred, to the control of private interests; vigorous prosecution of all public officials, private citizens and corporations that participated in these transactions; complete revision of the water-power act, the general leasing act, and all other legislation relating to the public domain. We favor public ownership of the nation's water power and the creation and development of a national super-water power system, including Muscle Shoals, to supply at actual cost light and power for the people and nitrate for the farmers, and strict public control and permanent conservation of all the nation's resources, including coal, iron and other ores, oil and timber lands, in the interest of the people.

RAILROADS—3. We favor repeal of the Esch-Cummins railroad law and the fixing of railroad rates upon the basis of actual, prudent investment and cost of service. We pledge speedy enactment of the Howell-Barkley bill for the adjustment of controversies between railroads and their employees, which was held up in the last congress by joint action of reactionary leaders of the Democratic and Republican parties. We declare for public ownership of railroads with definite safeguards against bureaucratic control, as the only final solution of the transportation problem.

Tax Reduction—4. We favor reduction of federal taxes upon individual incomes and legitimate business, limiting tax exactions strictly to the requirements of the government administered with rigid economy, particularly by curtailment of the eight hundred million dollars now annually expended for the army and navy in preparation for future wars; by the recovery of the hundreds of millions of dollars stolen from the treasury through fraudulent war contracts and the corrupt leasing of the public resources; and by diligent action to

collect the accumulated interest upon the eleven billion dollars owing us by foreign governments.

We denounce the Mellon tax plan as a device to relieve multimillionaires at the expense of other tax payers, and favor a taxation policy providing for immediate reductions upon moderate incomes, large increases in the inheritance tax rates upon large estates to prevent the indefinite accumulation by inheritance of great fortunes in a few hands; taxes upon excess profits to penalize profiteering, and complete publicity, under proper safeguards, of all federal tax returns.

THE COURTS—5. We favor submitting to the people for their considerate judgment, a constitutional amendment providing that congress may by enacting a statute make it effective over a judicial veto.

We favor such amendment to the constitution as may be necessary to provide for the election of all federal judges, without party designation, for fixed terms not exceeding ten years, by direct vote of the people.

THE FARMERS—6. We favor drastic reduction of the exorbitant duties on manufactures provided in the Fordney-McCumber tariff legislation, the prohibiting of gambling by speculators and profiteers in agricultural products; the reconstruction of the federal reserve and federal farm loan systems, so as to eliminate control by usurers, speculators and international financiers, and to make the credit of the nation available upon fair terms to all and without discrimination to business men, farmers and homebuilders. We advocate the calling of a special session of congress to pass legislation for the relief of American agriculture. We favor such further legislation as may be needful or helpful in promoting and protecting co-operative enterprises. We demand that the interstate commerce commission proceed forthwith to reduce by an approximation to pre-war levels the present freight rates on agricultural products including live stock, and upon the materials required upon American farms for agricultural purposes.

LABOR—7. We favor abolition of the use of injunctions in labor disputes and declare for complete protection of the right of farmers and industrial workers to organize, bargain collectively through representatives of their own choosing, and conduct without hindrance co-operative enterprises.

We favor prompt ratification of the child labor amendment, and subsequent enactment of a federal law to protect children in industry.

POSTAL SERVICE—8. We believe that a prompt and dependable postal service is essential to the social and economic welfare of the nation; and that as one of the most important steps toward establishing and maintaining such a service, it is necessary to fix wage standards that will secure and retain employees of character, energy and ability.

We favor the enactment of the postal salary adjustment measure (S. 1898) for the employees of the postal service, passed by the first session of the 68th congress, vetoed by the president and now awaiting further consideration by the next session of congress.

We endorse liberalizing the civil service retirement law along the lines of S. 3011 now pending in congress.

WAR VETERANS—9. We favor adjusted compensation for the veterans of the late war, not as charity, but as a matter of right, and we demand that the money necessary to meet this obligation of the government be raised by taxes laid upon wealth in proportion to the ability to pay, and declare our opposition to the sales tax or any other device to shift this obligation onto the backs of the poor in higher prices and increased cost of living. We do not regard the payment at the end of a long period of a small insurance as provided by the law recently passed as in any sense a discharge of the nation's obligations to the veterans of the late war.

GREAT LAKES TO SEA—10. We favor a deep waterway from the Great Lakes to the sea. The government should, in conjunction with Canada, take immediate action to give the northwestern states an outlet to the ocean for cargoes, without change in the bulk, thus making the primary markets on the Great Lakes equal to those of New York.

POPULAR SOVEREIGNTY—11. Over and above constitutions and statutes and greater than all, is the supreme sovereignty of the people, and with them should rest the final decision of all great questions of national policy. We favor such amendments to the federal constitution as may be necessary to provide for the direct nomination and election of the president, to extend the initiative and referendum to the federal government, and to insure a popular referendum for or against war except in cases of actual invasion.

PEACE ON EARTH—12. We denounce the mercenary system of foreign policy under recent administrations in the interests of financial imperialists, oil monopolists and international bankers, which has at times degraded our state department from its high service as a strong and kindly intermediary of defenseless governments to a trading outpost for those interests and concession-seekers engaged in the exploitations of weaker nations, as contrary to the will of the American people, destructive of domestic development and provocative of war. We favor an active foreign policy to bring about a revision of the Versailles treaty in accordance with the terms of the armistice, and to promote firm treaty agreements with all nations to outlaw wars, abolish conscription, drastically reduce land, air and naval armaments, and guarantee public referendums on peace and war.

STATE CENTRAL COMMITTEE OF IOWA

PLATFORM OF THE SOCIALIST-LABOR PARTY (Adopted at the National Convention, May, 1924)

The world stands upon the threshold of a new social order. The capita'ist system of production and distribution is doomed; capitalist appropriation of labor's product forces the bulk of mankind into wage slavery, throws society into the convulsions of the class struggle, and momentarily threatens to engulf humanity in chaos and disaster. At this crucial period in history the Socialist-Labor party of America, in sixteenth national convention assembled, reaffirming its former platform declarations, calls upon the workers to rally around the banner of the Socialist-Labor party, the only party in this country that blazes the trail to the workers' industrial republic.

Since the advent of civilization human society has been divided into classes. Each new form of society has come into being with a definite purpose to fulfill in the progress of the human race. Each has been born, has grown, developed, prospered, become old, outworn, and has finally been overthrown. Each society has developed within itself the germs of its own destruction as well as the germs which went to make up the society of the future.

The capitalist system rose during the seventeenth, eighteenth and nine-teenth centuries by the overflow of feudalism. Its great and all-important mission in the development of man was to improve, develop and concentrate the means of production and distribution, thus creating a system of co-operative production. This work was completed in advanced capitalist, countries about the beginning of the twentieth century. That moment capitalism had fulfilled its historic mission, and from that moment the capitalist class became a class of parasites.

In the course of human progress mankind has passed, through class rule, private property and individualism in production and exchange, from the enforced and inevitable want, misery, poverty and ignorance of savagery and barbarism to the affluence and high productive capacity of civilization. For

all practical purposes, co-operative production has now superseded individual production.

Capitalism no longer promotes the greatest good of the greatest number. It no longer spells progress, but reaction. Private production carries with it private ownership of the products. Production is carried on, not to supply the needs of humanity, but for the profit of the individual owner, the company, or the trust. The worker, not receiving the full product of his labor, cannot buy back all he produces. The capitalist wastes part in riotous living; the rest must find a foreign market. By the opening of the twentieth century the capitalist world—England, America, Germany, France, Japan, China, etc.—was producing at a mad rate for the world market. A capitalist deadlock of markets brought on in 1914 the capitalist collapse popularly known as the World War. The capitalist world cannot extricate itself out of the debris. America today is choking under the weight of her own gold and products.

This situation has brought on the present stage of human misery-starvation, want, cold, disease, pestilence and war. This state is brought about in the midst of plenty, when the earth can be made to yield hundred-fold, when the machinery of production is made to multiply human energy and ingenuity by the hundred. The present state of misery exists solely because the mode of production rebels against the mode of exchange. Private property in the means of life has become a social crime. The land was made by no man; the modern machines are the result of the combined ingenuity of the human race from time immemorial; the land can be made to yield and the machines can be set in motion only by the collective effort of the workers. demands the collective ownership of the land on and the tools with which to produce the necessities of life. The owner of the means of life today partakes of the nature of a highwayman; he stands with his gun before society's temple; it depends upon him whether the million mass may work, earn, eat and live. The capitalist system of production and exchange must be supplanted if progress is to continue.

In place of the capitalist system the Socialist-Labor party aims to substitute a system of social ownership of the means of production, industrially administered by the workers, who assume control and direction as well as operation of their industrial affairs.

We therefore call upon the wage-earners to organize themselves into a revolutionary political organization under the banner of the Socialist-Labor party; and to organize themselves likewise upon the industrial field into a socialist industrial union, in order to consolidate the material power necessary for the establishment of the socialist industrial republic.

We also call upon all intelligent citizens to place themselves squarely upon the ground of working class interests, and join us in this mighty and noble work of human emancipation, so that we may put summary end to the existing barbarous class conflict by placing the land and all the means of production, transportation and distribution into the hands of the people as a collective body, and substituting industrial self-government for the present state of planeless production, industrial war and social disorder—a government in which every worker shall have the free exercise and full benefit of his faculties, multiplied by all the modern factors of civilization.

PRIMARY ELECTION

The term "Primary Election" is construed under the law to apply to an election by the members of various political parties for the purpose of placing in nomination candidates for public office, for selecting delegates to conventions, and for the selection of party committeemen. The law provides that the primary election shall consist of an election by all political parties and shall be held at the various voting places of the several precincts on the first Monday in June, in the year 1912 and biennially thereafter, for the nomination of candidates for such offices as are to be filled at the general election in November next ensuing (except candidates for Judge of the Supreme Court and District Courts, which shall be by a Judicial Convention), for senator in the congress of the United States, and for the President and Vice-President of the United States in the years in which senators or president and vice-president are to be elected.

The Board of Supervisors of each county (acting as a County Board of Canvassers) meet on the second Tuesday following the primary election in June and canvass the votes cast at the several precincts and make an abstract thereof. A separate abstract of the canvass duly certified is then forwarded to the Secretary of State for the following offices:

United States Senators.

President and Vice-President of the United States.

All State Officers.

Representatives in Congress.

Senators and Representatives in the General Assembly.

On the second Monday after the June primary election, the Executive Council meets as a State Canvassing Board, and opens and canvasses the abstract returns received from each county in the state. Said board makes abstracts of its canvass, showing the number of ballots cast for each person voted for, and the person having the highest number of votes in the state or district (provided he receives 35 per cent of all the votes cast by the party for such office), is duly and legally nominated and is entitled to have his name printed on the official ballot for the general election.

PRESIDENTIAL ELECTIONS FROM 1789 TO 1924

AGGREGATE POPULAR VOTE AND ELECTORAL VOTE FOR CANDIDATES FOR PRESIDENT AND VICE-PRESIDENT AT EACH ELECTION

The record of any popular vote for electors prior to 1824 is so meager and imperfect that a compilation would be useless. In most of the states, for more than a quarter century following the establishment of the Government, the State legislatures "appointed" the presidential electors, and the people, therefore, voted only indirectly for them, their choice being expressed by their votes for members of the legislature. In this tabulation only the aggregate electoral votes for candidates for President and Vice President in the first nine quadrennial elections appear.

REFERENCE NOTES TO THE FIVE SUCCEEDING PAGES

*The candidates starred were elected. (a) The first Republican party is claimed by the present Democratic party as its progenitor. (b) No candidate having a majority of the electoral vote, the House of Representatives elected Adams. (c) Candidates of the anti-Masonry party. (d) There being no choice, the Senate elected Johnson. (e) Eleven southern states, being within the belligerent territory, did not vote. (f) Three southern states disfranchised. (g) Horace Greeley died after election, and Democratic electors scattered their votes. (h) There being a dispute over the electoral vote of Florida, Louisiana, Oregon and South Carolina, they were referred by Congress to an electoral commission composed of eight Republicans and seven Democrats, which, by a strict party vote, awarded 185 electoral votes to Hayes and 184 to Tilden. (i) Free Democrat. (j) Free Silver Prohibition party. (k) In Massachusetts. There was also a native American ticket in that state, which received 184 votes. (m) Middle of the Road or Anti-Fusion People's party. (n) United Christian party. (o) Union Reform party.

Harrison, of Maryland, 6; John Rutledge, of South Carolina, 6; John Hancock, of Massachusetts, 4; George Clinton, of New York, 3; Samuel Huntingdon, of Connecticut, 2; John Milton, of Georgia, 2; James Armstrong, of Georgia; Benjamin Lincoln, of Massachusetts, and Edward Telfair, of Georgia, 1 vote each. Vacancles (votes not cast), 4. George Washington was chosen President and John Adams Vice-President.

1792. George Washington, Federalist, received 132 votes; John Adams, Federalist, 77; George Clinton, of New York, Republican (a) 50; Thomas Jefferson, of Virginia, Republican, 4; Aaron Burr, of New York, Republican, 1 vote.
