~~a. In order to determine the order of allocation of the state ceiling to each of the applications for first-time farmer purposes, industrial purposes or for political subdivisions that are simultaneously received pursuant to subrules 8.4(2) and 8.4(4) subrule 8.3(1), each application for the applicable purpose shall be assigned a preference number determined by a random drawing for allocation for such purpose conducted at approximately 10 a.m. on the first day of business of the calendar year at the Iowa finance authority offices. Any person desiring to attend and witness the drawing and assigning of preference numbers may do so. Each application for a specified purpose shall be assigned an identification code that shall be written on the outside first page of the sealed envelope containing the application. The governor's designee shall continue to allocate the state ceiling for each purpose separately (or, if the allocation is made under Iowa Code section 7C.4A(7), in the chronological order

IOWA FINANCE AUTHORITY[265](cont'd)

of applications received) until all the available state ceiling for that purpose is fully allocated. A project receiving an allocation made under Iowa Code section 7C.4A(7) is limited to \$50 million in any calendar year. If the applicant does not notify the governor's designee of its decision to take the available allocation within five calendar days of receiving notice of that option, the available state ceiling shall be offered to the next application on the list under the same conditions, and the initial offeree will maintain its position on the list. If the partial allocation is accepted, the applicant ~~shall~~ may submit a new application for additional state ceiling and that application will be added to the bottom of the applicable list in the chronological order of its receipt.

ITEM 6. Amend rule 265—8.6(7C) as follows:

265—8.6(7C) State ceiling carryforwards. The application must be in writing and shall comply with the carryforward provisions of Section ~~103(n)~~ 146(f) of the Internal Revenue Code and regulations promulgated under that section. ~~All applications for carryforward of state ceiling must be filed with the governor's designee by December 31 of the calendar year for which the allocation is to be carried forward from~~ Any carryforward allocation that has not expired under Section 146 of the Internal Revenue Code released by the original applicant may be allocated to any other applicant for allocation for the same purpose for which the original application was made.

20.8(5) *Licensure application review process.* A process established by the board shall be utilized to review each application. a. An application for initial licensure shall be considered open from the date the application form is received in the board office with the nonrefundable initial application fee.

b. After reviewing each application, staff shall notify the applicant about how to resolve any problems identified by the reviewer. An applicant shall provide additional information when requested by staff or the board.

c. If the final review indicates no questions or concerns regarding the applicant's qualifications for licensure, staff may administratively issue the license. Staff may issue the license without having received a report on the applicant from the FBI.

d. If the final review indicates questions or concerns that cannot be remedied by continued communication with the applicant, the executive director, the director of licensure and the director of legal affairs shall determine if the questions or concerns indicate any uncertainty about the applicant's current qualifications for licensure.

(1) If there is no current concern, staff shall administratively issue the license.

(2) If any concern exists, staff shall refer the application to the committee.

e. Staff shall refer to the committee for review matters which include, but are not limited to, falsification of information on the application, criminal record, malpractice, substance abuse, competency, physical or mental illness, or professional disciplinary history.

f. If the committee is able to eliminate questions or concerns without dissension from staff or a committee member, the committee may direct staff to issue the license administratively.

MEDICINE BOARD[653](cont'd)

g. If the committee is not able to eliminate questions or concerns without dissension from staff or a committee member, the committee shall recommend that the board:

- (1) Request an investigation;
- (2) Request that the applicant appear for an interview;
- (3) If an applicant has not engaged in active practice in the past three years in any jurisdiction of the United States, require an applicant to:
 1. Successfully complete continuing education or retraining programs in areas directly related to the safe and healthful practice of genetic counseling deemed appropriate by the board or committee;
 2. Successfully pass a competency evaluation approved by the board;
 3. Successfully pass an examination approved by the board; or
 4. Successfully complete a reentry to practice program or monitoring program approved by the board;
- (4) Issue a license;
- (5) Issue a license under certain terms and conditions or with certain restrictions;
- (6) Request that the applicant withdraw the licensure application; or
- (7) Deny a license.

h. The board shall consider applications and recommendations from the committee and shall:

- (1) Request an investigation;
- (2) Request that the applicant appear for an interview;
- (3) If an applicant has not engaged in active practice in the past three years in any jurisdiction of the United States, require an applicant to:
 1. Successfully complete continuing education or retraining programs in areas directly related to the safe and healthful practice of genetic counseling deemed appropriate by the board or committee;
 2. Successfully pass a competency evaluation approved by the board;
 3. Successfully pass an examination approved by the board; or
 4. Successfully complete a reentry to practice program or monitoring program approved by the board;
- (4) Issue a license;
- (5) Issue a license under certain terms and conditions or with certain restrictions;
- (6) Request that the applicant withdraw the licensure application; or
- (7) Deny a license. The board may deny a license for any grounds on which the board may discipline a license.

20.8(6) *Grounds for denial of licensure.* The board, on the recommendation of the committee, may deny an application for licensure for any of the following reasons:

a. Failure to meet the requirements for licensure specified in this chapter pursuant to 2018 Iowa Acts, Senate File 2228, section 7.

b. Pursuant to Iowa Code section 147.4, upon any of the grounds for which licensure may be revoked or suspended as specified in Iowa Code section 147.55 and 2018 Iowa Acts, Senate File 2228, section 11, or in rule 653—20.20(272C).

20.8(7) *Preliminary notice of denial.* Prior to the denial of licensure to an applicant, the board shall issue a preliminary notice of denial that shall be sent to the applicant by regular, first-class mail at the address provided by the applicant. The preliminary notice of denial is a public record and shall cite the factual and legal basis for denying the application, notify the applicant of the appeal process, and specify the date upon which the denial will become final if it is not appealed.

20.8(8) *Appeal procedure.* An applicant who has received a preliminary notice of denial may appeal the denial and request a hearing on the issues related to the preliminary notice of denial by serving a request for hearing upon the executive director not more than 30 calendar days following the date when the preliminary notice of denial was mailed. The applicant's current address shall be provided in the request for hearing. The request is deemed filed on the date it is received in the board office. If the request is received with a USPS nonmetered postmark, the board shall consider the postmark date as the date the request is filed. The request shall specify the factual or legal errors and that the applicant

MEDICINE BOARD[653](cont'd)

desires an evidentiary hearing and may provide additional written information or documents in support of licensure.

20.8(9) *Hearing.* If an applicant appeals the preliminary notice of denial and requests a hearing, the hearing shall be a contested case and subsequent proceedings shall be conducted in accordance with rule 653—25.30(17A).

- a.* License denial hearings are contested cases open to the public.
- b.* Either party may request issuance of a protective order in the event privileged or confidential information is submitted into evidence.
- c.* Evidence supporting the denial of the license may be presented by an assistant attorney general.
- d.* While each party shall have the burden of establishing the affirmative of matters asserted, the applicant shall have the ultimate burden of persuasion as to the applicant's qualification for licensure.
- e.* The board, after a hearing on license denial, may issue or deny the license. The board shall state the reasons for its decision and may issue the license, issue the license with restrictions, or deny the license. The final decision is a public record.
- f.* Judicial review of a final order of the board denying licensure, or issuing a license with restrictions, may be sought in accordance with the provisions of Iowa Code section 17A.19, which are applicable to judicial review of any agency's final decision in a contested case.

20.8(10) *Finality.* If an applicant does not appeal a preliminary notice of denial in accordance with subrule 20.8(8), the preliminary notice of denial automatically becomes final. A final denial of an application for licensure is a public record.

20.8(11) *Failure to pursue appeal.* If an applicant appeals a preliminary notice of denial in accordance with subrule 20.8(8) but the applicant fails to pursue that appeal to a final decision within one year from the date of the preliminary notice of denial, the board may dismiss the appeal. The appeal may be dismissed only after the board sends a written notice by first-class mail to the applicant at the applicant's last-known address. The notice shall state that the appeal will be dismissed and the preliminary notice of denial will become final if the applicant does not contact the board to schedule the appeal hearing within 30 days of the date the letter is mailed from the board office. Upon dismissal of an appeal, the preliminary notice of denial becomes final. A final denial of an application for licensure under this rule is a public record.

20.8(12) *Waiver or variance prohibited.* Provisions of this rule are not subject to waiver or variance pursuant to 653—Chapter 3 or any other provision of law.

653—20.9(147,87GA,SF2228) Display of license and notification required to change the board's data system.

20.9(1) *Display of license.* Licensed genetic counselors shall display the license issued by the board in a conspicuous place in their primary place of business.

20.9(2) *Change of contact information.* Licensees shall notify the board within one month of a change in home address, address of the place of practice, home or practice telephone number, or personal email address regularly used by the applicant or licensee for correspondence with the board.

20.9(3) *Change of full legal name.* A licensee shall notify the board of any change in the licensee's full legal name within one month of making the name change. Notification requires a notarized copy of a marriage license or a notarized copy of court documents.

20.9(4) *Deceased.* A licensee's file shall be closed and labeled "deceased" when the board receives a copy of the licensee's death certificate or other reliable information of the licensee's death.

653—20.10(147,87GA,SF2228,272C) Biennial renewal of license required. Pursuant to 2018 Iowa Acts, Senate File 2228, section 7, a license expires on October 31 of odd-numbered years and can be renewed for the fee identified in 653—paragraph 8.14(2) "c."

20.10(1) The applicant for renewal shall provide:

- a.* A renewal application provided by the board.
- b.* A certificate that demonstrates that the applicant holds current active certification by the ABMGG or ABGC.

MEDICINE BOARD[653](cont'd)

c. Satisfactory evidence to the board that in the period since the license was issued or last renewed, the applicant has completed 30 hours of National Society of Genetic Counselors or American Board of Medical Genetics and Genomics continuing education units as approved by the board.

20.10(2) Expiration date. Certificates of licensure to practice genetic counseling shall expire on October 31 in odd years.

20.10(3) Prorated fees. The first renewal fee for a license shall be prorated on a monthly basis according to the date of issue.

20.10(4) Renewal requirements and penalties for late renewal. Each licensee shall be sent a renewal notice at least 60 days prior to the expiration date. The licensee is responsible for renewing the license prior to its expiration. Failure of the licensee to receive the notice does not relieve the licensee of responsibility for renewing that license.

a. When online renewal is used, the licensee must complete the online renewal prior to midnight on December 31 in order to ensure that the license will not become inactive. The license becomes inactive and invalid at 12:01 a.m. on January 1.

b. Upon receipt of the completed renewal application, staff shall administratively issue a license that expires on October 31 of odd-numbered years. In the event the board receives adverse information on the renewal application, the board shall issue the renewal license but may refer the adverse information for further consideration.

c. Every renewal shall be displayed in connection with the original certificate of licensure.

d. If the licensee fails to submit the renewal application and renewal fee prior to the expiration date on the current license, a penalty fee identified in 653—paragraph 8.14(2)“d” shall be assessed for renewal in the grace period, a period up until January 1 when the license becomes inactive if not renewed.

20.10(5) Inactive license. Failure of a licensee to renew by January 1 will result in invalidation of the license, and the license will become inactive.

a. Licensees are prohibited from engaging in the practice of genetic counseling once the license is inactive.

b. Having a genetic counselor license in inactive status does not preclude the board from taking disciplinary actions authorized in Iowa Code section 147.55 or 2018 Iowa Acts, Senate File 2228, section 11.

653—20.11(147,272C) Reinstatement of an inactive license.

20.11(1) Reinstatement requirements. Licensees who allow their licenses to go inactive by failing to renew may apply for reinstatement of a license. Pursuant to Iowa Code section 147.11, applicants for reinstatement shall:

a. Submit upon forms provided by the board a completed application for reinstatement of a license to practice genetic counseling. The application shall include the following information:

(1) The applicant’s full legal name, date and place of birth, home address, mailing address, principal business address, and personal email address regularly used by the applicant or licensee for correspondence with the board.

(2) Every jurisdiction in which the applicant is or has been authorized to practice, including license numbers and dates of issuance.

(3) Full disclosure of the applicant’s involvement in civil litigation related to the practice of genetic counseling in any jurisdiction of the United States or other nations or territories. Copies of the legal documents may be requested if needed during the review process.

(4) A statement disclosing and explaining any warnings issued, investigations conducted or disciplinary actions taken, whether by voluntary agreement or formal action, by a medical, genetic counseling or professional regulatory authority; an educational institution; a training or research program; or a health facility in any jurisdiction.

(5) A statement of the applicant’s physical and mental health, including full disclosure and a written explanation of any dysfunction or impairment which may affect the ability of the applicant to engage in practice and provide patients with safe and healthful care.

MEDICINE BOARD[653](cont'd)

(6) Verification of an applicant's hospital and clinical staff privileges and other professional experience for the past five years if requested by the board.

(7) A chronology accounting for all time periods from the date of initial licensure.

(8) A statement disclosing and explaining any charge of a misdemeanor or felony involving the applicant filed in any jurisdiction, whether or not any appeal or other proceeding is pending to have the conviction or plea set aside.

b. Submit a completed fingerprint packet to facilitate a national criminal history background check. The fee identified in 653—paragraph 8.14(2) “*f*” for the evaluation of the fingerprint packet and the DCI and FBI criminal history background checks will be assessed to the applicant.

c. Pay the reinstatement fee identified in 653—paragraph 8.14(2) “*g*” plus the fee identified in 653—paragraph 8.14(2) “*f*” for the evaluation of the fingerprint packet and the DCI and FBI criminal history background checks.

d. Provide a certificate which demonstrates that the applicant holds current active certification in genetic counseling by ABGC or ABMGG.

e. Meet any new requirements instituted since the license lapsed.

20.11(2) Reinstatement restrictions. Pursuant to Iowa Code section 272C.3(2) “*d*,” the committee may require an applicant who has not engaged in active practice in the past three years in any jurisdiction of the United States to meet any or all of the following requirements prior to reinstatement of an inactive license:

ARC 4091C**PHARMACY BOARD[657]****Notice of Intended Action****Proposing rule making related to supervision of pharmacist-interns and providing an opportunity for public comment**

The Pharmacy Board hereby proposes to amend Chapter 4, “Pharmacist-Interns,” Iowa Administrative Code.

Legal Authority for Rule Making

This rule making is proposed under the authority provided in Iowa Code sections 147.76 and 155A.6.

State or Federal Law Implemented

This rule making implements, in whole or in part, Iowa Code section 155A.6.

Purpose and Summary

This proposed amendment removes the limitation of a pharmacist to supervise no more than two pharmacist-interns concurrently.

Fiscal Impact

This rule making has no fiscal impact to the State of Iowa.

Jobs Impact

After analysis and review of this rule making, no impact on jobs can be determined. It is presumed that pharmacist-interns may have greater opportunity to seek employment in Iowa pharmacies that would no longer be limited to two pharmacist-interns concurrently, but the extent of that opportunity cannot be determined.

PHARMACY BOARD[657](cont'd)

Legal Authority for Rule Making

This rule making is proposed under the authority provided in Iowa Code sections 147.76, 147.80 and 155A.13.

State or Federal Law Implemented

This rule making implements, in whole or in part, Iowa Code sections 147.80, 155A.13 and 155A.26.

Purpose and Summary

These proposed amendments provide clearer language relating to the required distance between a proposed telepharmacy site and a currently licensed pharmacy that provides prescription drugs to outpatients, consistent with language found in the Iowa Code, which pharmacy may be another licensed telepharmacy; require a pharmacy which intends to change license type to submit an application and establish that the pharmacy may be subject to an inspection by a Board compliance officer prior to issuance of the new license; implement a late penalty fee for late submission of a license change application; and authorize the Board to collect a fee for a written verification of a pharmacy license.

This rule making has no fiscal impact to the State of Iowa.

Jobs Impact

After analysis and review of this rule making, no impact on jobs has been found.

ARC 4083C**REVENUE DEPARTMENT[701]****Amended Notice of Intended Action****Proposing rule making related to water service excise tax and providing an opportunity for public comment**

The Revenue Department hereby proposes to adopt new Chapter 97, “State-Imposed Water Service Excise Tax,” Iowa Administrative Code.

Legal Authority for Rule Making

This rule making is proposed under the authority provided in Iowa Code section 421.14.

State or Federal Law Implemented

This rule making implements, in whole or in part, 2018 Iowa Acts, Senate File 512.

Purpose and Summary

Item 2 proposes to adopt new Chapter 97 within Title XIII, which establishes rules to administer the water service excise tax passed by the General Assembly in 2018. Specifically, these rules implement sections 10 through 17 of 2018 Iowa Acts, Senate File 512, which exempts certain sales of water from sales tax and enacts Iowa Code chapter 423G, which establishes a water service excise tax.

Reason for Amendment of Notice of Intended Action

Notice of Intended Action for this rule making was published in the Iowa Administrative Bulletin on July 18, 2018, as **ARC 3896C**. No public comments were received. In addition to providing for a public hearing to receive oral and written comment on Chapter 97, this Amended Notice of Intended Action proposes new Chapter 97 with revisions as described below.

The definition of “facilities” has been revised to remove the exclusion of interior plumbing, and new rule 701—97.5(87GA,SF512) has been added to more clearly define when a sale of water service for compensation occurs. Purchasers of water service make taxable sales of water service for compensation if the purchaser separately itemizes the sale of water service or provides water service for an identifiable price, including where the addition of water service increases the overall price of a sale. Water service is not sold for compensation where the sale of water service is incidental to the rental of real property.

Proposed rule 701—97.6(87GA,SF512), Apportionment of bundled water service sales—rebuttal presumption, was deleted, and the content of that rule was placed in new subrule 97.5(2).

In addition, nonsubstantive edits have been applied to other rules.

Fiscal Impact

This rule making has no fiscal impact beyond the impact estimated by the Legislative Services Agency for 2018 Iowa Acts, Senate File 512. That estimate predicts that in FY 2019, Senate File 512 will have no impact on the General Fund, will reduce Secure an Advanced Vision for Education (SAVE) revenues

REVENUE DEPARTMENT[701](cont'd)

by \$3.9 million, and will reduce local option sales tax (LOST) revenues by \$3 million. The estimate further predicts that by FY 2030, Senate File 512 will reduce General Fund revenues by \$26.1 million, will reduce SAVE revenues by \$5.2 million, and will reduce LOST revenues by \$4 million.

Jobs Impact

After analysis and review of this rule making, no impact on jobs has been found.

Waivers

Any person who believes that the application of the discretionary provisions of this rule making would result in hardship or injustice to that person may petition the Department for a waiver of the discretionary provisions, if any, pursuant to rule 701—7.28(17A).

Public Comment

Any interested person may submit written or oral comments concerning this proposed rule making. Written or oral comments in response to this rule making must be received by the Department no later than 4:30 p.m. on November 13, 2018. Comments should be directed to:

Review by Administrative Rules Review Committee

The Administrative Rules Review Committee, a bipartisan legislative committee which oversees rule making by executive branch agencies, may, on its own motion or on written request by any individual or group, review this rule making at its [regular monthly meeting](#) or at a special meeting. The Committee's meetings are open to the public, and interested persons may be heard as provided in Iowa Code section 17A.8(6).

The following rule-making actions are proposed:

REVENUE DEPARTMENT[701](cont'd)

ITEM 1. Adopt the following new Title XIII:

TITLE XIII
WATER SERVICE EXCISE TAX

ITEM 2. Adopt the following new 701—Chapter 97:

CHAPTER 97
STATE-IMPOSED WATER SERVICE EXCISE TAX

701—97.1(87GA,SF512) Definitions.

97.1(1) *Incorporation of definitions.* To the extent they are consistent with 2018 Iowa Acts, Senate File 512, all words and phrases used in this chapter shall mean the same as defined in Iowa Code section 423.1 and rule 701—211.1(423).

97.1(2) *Chapter-specific definitions.* For the purposes of this chapter, unless the context otherwise requires:

“*Facilities*” means any storage tanks, water towers, wells, plants, reservoirs, aqueducts, hydrants, pumps, pipes, or any other similar devices, mechanisms, equipment, or amenities designed to hold, treat, sanitize, or deliver water.

“*State-imposed tax*” or “*tax*,” unless otherwise indicated, means the water service excise tax imposed by 2018 Iowa Acts, Senate File 512, section 13.

“*Water utility*” means the same as defined in 2018 Iowa Acts, Senate File 512, section 10. “*Corporation*” as used in Iowa Code section 476.1(3) and as incorporated by 2018 Iowa Acts, Senate File 512, section 10, includes municipal corporations. See 1968 Iowa Op. Atty. Gen. 1-21, 1968 WL 172465.

This rule is intended to implement 2018 Iowa Acts, Senate File 512, sections 12 and 13.

701—97.2(87GA,SF512) Imposition. A state-imposed tax of 6 percent is imposed upon the sales price of water service furnished by a water utility to a purchaser.

This rule is intended to implement 2018 Iowa Acts, Senate File 512, section 13.

701—97.3(87GA,SF512) Administration.

97.3(1) *Generally.* The department is charged with the administration of the tax, subject to the rules, regulations, and direction of the director. The department is required to administer the tax as nearly as possible in conjunction with the administration of the state sales tax except that portion of the Iowa Code which implements the streamlined sales and use tax agreement.

97.3(2) *Application of 701—Chapter 11.* The requirements of 701—Chapter 11 shall apply to water utilities in the same manner that those requirements apply to all sellers and retailers making sales subject to state sales tax.

This rule is intended to implement 2018 Iowa Acts, Senate File 512, sections 10, 13, and 15.

701—97.4(87GA,SF512) Charges and fees included in the provision of water service.

97.4(1) *Sales integral to the ability to furnish water service.* The water service excise tax applies to the sale of water by piped distribution to consumers or users, including sales of accompanying services that are integral to furnishing water by piped distribution, even if the water service and accompanying services are billed separately.

97.4(2) *Examples of sales integral to the provision of water service.* Sales of services to customers or users that are considered integral to the furnishing of water by piped distribution include, but are not limited to, the following:

a. Sales of nonitemized tangible personal property included with the sale of water service or an accompanying service that is integral to the provision of water service. See subparagraph 97.4(4) “*a*” (2).

b. The sales price of water sold, regardless of whether the water is metered.

REVENUE DEPARTMENT[701](cont'd)

c. Service, account, or administrative charges or fees for water service, including but not limited to new customer account charges and minimum charges for access to water service, whether the customer uses the water service or not.

d. Fees for connection, disconnection, or reconnection to or from a water utility's facilities, including tap fees.

e. Fees for maintenance, inspection, and repairs of the water distribution system, water supplies, and facilities, including but not limited to fees for labor or materials.

f. Fees for using or checking water meters.

g. Water distribution system infrastructure and improvement fees.

97.4(3) *Examples of sales that are not water service or are not integral to the provision of water service.* Sales of services that are not integral to the furnishing of water by piped distribution include, but are not limited to, the following:

a. Residential service contracts regulated under Iowa Code chapter 523C.

b. Sales or rentals of tangible personal property, other than water, sold for a separately itemized price. See subparagraph 97.4(4) "a"(1).

c. Returned check fees.

d. Deposits, including but not limited to check and meter deposits.

e. Fees for printed bills, statements, labels, and other documents.

f. Fees for late charges and nonpayment penalties.

g. Leak detection fees.

97.4(4) *Sales generally not subject to water service excise tax.* Water utilities may make sales that may or may not be integral to the sale of water service but that are not subject to water service excise tax because those nonintegral sales are subject to sales tax under Iowa Code section 423.2 as the sale of tangible personal property or as enumerated non-water services.

a. *Sales of tangible personal property.* Whether the sale of tangible personal property that is integral to water service is subject to the water service excise tax depends on whether the tangible personal property is sold to the consumer or user for a separately itemized price.

(1) *Itemized tangible personal property.* Sales or rentals of tangible personal property by a water utility for a separately itemized price are not subject to the water service excise tax but may be subject to sales and use tax.

(2) *Nonitemized tangible personal property.* If the sale of tangible personal property is not itemized but is instead bundled with the sale of water service, including sales of services listed in subrule 97.4(2), then the entire sales price is subject to the water service excise tax.

b. *Painting of hydrants.* The painting of hydrants constitutes painting services under Iowa Code section 423.2(6) "a." Painting is subject to sales tax and is not subject to water service excise tax.

c. *Plumbing and pipefitting.* Some repairs of a water distribution system may constitute plumbing and pipefitting under Iowa Code section 423.2(6) "a." Plumbing and pipefitting services are subject to sales tax and are not subject to water service excise tax.

97.4(5) *Exemptions.* The exemptions from sales tax under Iowa Code section 423.3 also apply to sales subject to water service excise tax. For example, a water utility that purchases water service from a different water utility may be eligible to claim the sale for resale exemption pursuant to Iowa Code section 423.3(2).

This rule is intended to implement 2018 Iowa Acts, Senate File 512, sections 14 and 15.

701—97.5(87GA,SF512) When water service is furnished for compensation.

97.5(1) *Itemized sales of water service.* Water service is furnished for compensation when water service is sold for a separately itemized price.

EXAMPLE: Itemized sale of water service. Z is an entity that provides water from a well by piped distribution to various homes in the community. Each home that is connected to the well pays \$20 per month, which is used by Z for maintaining the water distribution system. Z is a water utility making sales of water service and must collect and remit water service excise tax on the \$20 monthly fee

REVENUE DEPARTMENT[701](cont'd)

charged to each of Z's members. *See In the Matter of Lakewood Utils.*, Iowa Dep't of Revenue, Docket No. 78-161-6A-RC (Feb. 8, 1980).

EXAMPLE: Sale for resale. An apartment owner purchases water from a city water utility and distributes the water to each unit through a system of pipes. The city meters the apartment owner's use of water each month and charges the apartment owner for the water service. The apartment owner separately bills each of the tenants \$40 per month for water service, including the cost of water and maintenance on the water distribution system. The apartment owner is a water utility and must collect and remit water service excise tax on the \$40 monthly charge for water service. The apartment owner may purchase the water from the city tax exempt as a sale for resale.

97.5(2) *Water service sold for an identifiable price.* Water service is furnished for compensation when the price of the water service is identifiable from an invoice, bill, catalogue, price list, rate card, receipt, agreement, or other similar document, including where the total sales price increases when water service is included in the sale.

EXAMPLE: Cost varies with inclusion of water service. A campground provides three campsite packages to its customers:

Package A includes only campsite access for \$10 per night.

Package B includes campsite access and an electrical hookup for \$20 per night.

Package C includes campsite access, an electrical hookup, and water service for \$30 per night.

Sales of package C by the campground include sales of water service. The campground must collect and remit water service excise tax on \$10—the identifiable sales price of water service.

97.5(3) *Water service not furnished for compensation; incidental sales.* No sale of water service for compensation occurs where water service is not sold for a separately itemized or identifiable price and is incidental to the rental of real property.

EXAMPLE: Water service sold with real estate rental for one nonitemized price. A manufactured housing community (MHC) owner owns a well and pipes water to the lots. The MHC owner charges tenants \$500 per month for each lot rental. Water from the well is included in the \$500 rental charge. The MHC owner does not do any of the following: charge a flat water fee, charge tenants based on their actual water used, or offer comparable lots at a lower price that do not have access to water service. The MHC owner is not required to collect or remit water service excise tax because water is not being furnished for compensation; it is incidental to the rental of real property.

EXAMPLE: Water service sold with real estate rental for one nonitemized price. A manufactured housing community (MHC) purchases water from a city water utility and distributes the water to each lot in the community through a system of pipes. The city meters the MHC's use of water each month and charges the MHC for the water service and the applicable water service excise tax. The MHC charges its tenants \$500 for lot rental. As in the previous example, the MHC owner does not do any of the following: charge a flat water fee, charge tenants based on their actual water used, or offer comparable lots at a lower price that do not have access to water service. The MHC owner is not required to collect or remit water service excise tax because water is not being furnished for compensation; it is incidental to the rental of real property.

This rule is intended to implement 2018 Iowa Acts, Senate File 512, section 13.

701—97.6(87GA,SF512) Itemization of tax required. A water utility shall add the tax to the sales price of the water service, and the tax, when collected, shall be stated as a distinct item on any bill, receipt, agreement, or other similar document. The tax shall be identified as the water service excise tax, and the amount of tax paid shall be displayed clearly on the bill, receipt, agreement, or other similar document provided to the purchaser. This rule shall take effect on January 1, 2019.

This rule is intended to implement 2018 Iowa Acts, Senate File 512, section 13.

701—97.7(87GA,SF512) Date of billing—effective date and repeal date. For purposes of determining whether sales tax or water service excise tax applies to billings which span across the 2018 Iowa Acts,

REVENUE DEPARTMENT[701](cont'd)

Senate File 512, effective date of July 1, 2018, and the future repeal date as described in 2018 Iowa Acts, Senate File 512, section 17, the provisions of 701—subrule 14.3(9) shall apply.

This rule is intended to implement 2018 Iowa Acts, Senate File 512, section 15.

701—97.8(87GA,SF512) Filing returns; payment of tax; penalty and interest.

97.8(1) *Application of 701—Chapter 12.* The requirements of 701—Chapter 12 shall apply to water utilities in the same manner that those requirements apply to all sellers and retailers making sales subject to state sales tax.

97.8(2) *Frequency of deposit filing based on combined water service excise tax and sales tax.* With respect to the tax thresholds used for determining whether a retailer must remit sales tax semimonthly, monthly, quarterly, or annually, as described in rule 701—12.13(422), the threshold for determining how frequently a water utility must remit the water service excise tax shall be based on the sum of the total amount of sales tax collected and the total amount of water service excise tax collected.

EXAMPLE: Prior to the imposition of the water service excise tax, a water utility collected \$70,000 in sales tax per year. Pursuant to 701—subrule 12.13(2), the water utility filed its sales tax deposits with the department on a semimonthly basis. Following the imposition of the water service excise tax, the water utility now collects \$35,000 in sales tax per year and \$35,000 in water service excise tax per year. The combined sum of the water utility’s monthly collected sales tax and water service excise tax is \$70,000. Therefore, the water utility will continue to make semimonthly deposits.

This rule is intended to implement 2018 Iowa Acts, Senate File 512, section 15.

701—97.9(87GA,SF512) Permits.

97.9(1) *Application of 701—Chapter 13.* The requirements of 701—Chapter 13 shall apply to water utilities in the same manner that those requirements apply to all sellers and retailers making sales subject to state sales tax.

97.9(2) *Separate water service excise tax permit required.* All water utilities must register for a water service excise tax permit, and the water service excise tax shall be remitted under that permit. Water utilities that make water service sales subject to water service excise tax and other sales subject to sales tax shall obtain a water service excise tax permit in addition to their current sales tax permit and shall remit all sales tax under the sales tax permit and all water service excise tax under the water service excise tax permit.

This rule is intended to implement 2018 Iowa Acts, Senate File 512, section 15.

These needs include credit services as well as deposit services. All such financial institutions are required to provide the committee with a written description of their commitment to provide credit services in the community. This statement is available for examination by citizens.

New official state interest rates, effective October 9, 2018, setting the minimums that may be paid by Iowa depositories on public funds are listed below.

PHARMACY BOARD[657]

Adopted and Filed Emergency

Rule making related to temporary scheduling of cannabidiol prescription drug products

The Pharmacy Board hereby amends Chapter 10, “Controlled Substances,” Iowa Administrative Code.

Legal Authority for Rule Making

This rule making is adopted under the authority provided in Iowa Code sections 124.201 and 124.201A.

State or Federal Law Implemented

This rule making implements, in whole or in part, Iowa Code section 124.201A.

Purpose and Summary

This rule making temporarily places into Schedule V of the Iowa Uniform Controlled Substances Act any drugs approved by the U.S. Food and Drug Administration (FDA) which contain cannabidiol (CBD) derived from cannabis and no more than 0.1 percent tetrahydrocannabinols (THC).

*Reason for Adoption of Rule Making Without
Prior Notice and Opportunity for Public Participation*

Pursuant to Iowa Code section 17A.4(3), the Board finds that notice and public participation are unnecessary or impractical because statute so provides. Iowa Code section 124.201A authorizes the Board to adopt rules on an emergency basis to temporarily revise the Controlled Substances Act to designate as controlled substances in the appropriate schedule FDA-approved cannabidiol prescription drug products that are designated by the federal Drug Enforcement Administration as controlled substances with such rules to be effective immediately upon filing.

Reason for Waiver of Normal Effective Date

Pursuant to Iowa Code section 17A.5(2)“b”(1)(a), the Board also finds that the normal effective date of this rule making, 35 days after publication, should be waived and the rule making made effective on October 3, 2018, because, as described above, Iowa Code section 124.201A authorizes the Board to adopt rules on an emergency basis to temporarily revise the Controlled Substances Act. On September 28, 2018, a final order was published in the federal register placing “FDA-approved drugs that contain CBD derived from cannabis and no more than 0.1 percent tetrahydrocannabinols in schedule V” of the Controlled Substances Act.

Adoption of Rule Making

This rule making was adopted by the Board on July 24, 2018.

Concurrent Publication of Notice of Intended Action

In addition to its adoption on an emergency basis, this rule making has been initiated through the normal rule-making process and is published herein under Notice of Intended Action as **ARC 4086C** to allow for public comment.

Fiscal Impact

This rule making has no fiscal impact to the State of Iowa.

PHARMACY BOARD[657](cont'd)

Jobs Impact

After analysis and review of this rule making, no impact on jobs has been found.

Waivers

Any person who believes that the application of the discretionary provisions of this rule making would result in hardship or injustice to that person may petition the Board for a waiver of the discretionary provisions, if any, pursuant to 657—Chapter 34.

Review by Administrative Rules Review Committee

The Administrative Rules Review Committee, a bipartisan legislative committee which oversees rule making by executive branch agencies, may, on its own motion or on written request by any individual or group, review this rule making at its [regular monthly meeting](#) or at a special meeting. The Committee's meetings are open to the public, and interested persons may be heard as provided in Iowa Code section 17A.8(6).

Effective Date

This rule making became effective on October 3, 2018.

The following rule-making action is adopted:

Adopt the following **new** subrule 10.39(4):

10.39(4) Amend Iowa Code section 124.212 by adding the following new subsection “6”:

6. *Approved cannabidiol drugs.* A drug product in finished dosage formulation that has been approved by the U.S. Food and Drug Administration that contains cannabidiol (2-[1R-3-methyl-6R-(1-methylethenyl)-2-cyclohexen-1-yl]-5-pentyl-1,3-benzenediol) derived from cannabis and no more than 0.1 percent (w/w) residual tetrahydrocannabinols.

CHIEF INFORMATION OFFICER, OFFICE OF THE[129]

Adopted and Filed

Rule making related to the broadband grants program

The Office of the Chief Information Officer (OCIO) hereby adopts new Chapter 22, “Broadband Grants Program,” Iowa Administrative Code.

Legal Authority for Rule Making

This rule making is adopted under the authority provided in Iowa Code sections 8B.4(5) and 8B.11(8).

State or Federal Law Implemented

This rule making implements, in whole or in part, Iowa Code section 8B.11.

Purpose and Summary

New Chapter 22 applies to the Broadband Grants Program established by Iowa Code section 8B.11 and administered by OCIO. As authorized by Iowa Code section 8B.11(8), this chapter establishes program process, management, and measurement rules designed to ensure the effective and efficient administration and oversight of the Broadband Grants Program, the key objective of which is to reduce or eliminate underserved areas (statutorily referred to as targeted service areas) in Iowa by incentivizing the installation of broadband infrastructure by communications service providers therein.

CHIEF INFORMATION OFFICER, OFFICE OF THE[129](cont'd)

Public Comment and Changes to Rule Making

Notice of Intended Action for this rule making was published in the Iowa Administrative Bulletin on April 11, 2018, as **ARC 3728C**. The Iowa Communications Alliance (ICA) submitted several written comments related to the Notice. OCIO has responded to each comment and summarized all changes or reasoning for either adopting or not adopting ICA's proposed changes in this Adopted and Filed rule making.

First, ICA recommended that OCIO require certain information be included in the draft Notice of Funding Availability (NOFA). OCIO agrees that a detailed NOFA is critical to ensuring a successful program. Accordingly, OCIO has made the previously permissive language in subrule 22.3(2) mandatory. This change also addresses ICA's request that the NOFA clearly describe the specific scoring criteria pursuant to which and the method by which evaluations will be conducted, because paragraph 22.3(2)"e" will now require that the NOFA set forth the measurement, technical, scoring, or other similar standards, formulas, or criteria the office will utilize in determining whether, to which communications service providers, and in what amount(s) to award grant funds. Relatedly, OCIO incorporated several of ICA's recommendations relating to matters that should be included in and addressed by the NOFA. Specifically, the NOFA will, in addition to the elements previously listed in subrule 22.3(2), provide an estimate of the date by which OCIO anticipates it will issue award(s), identify allowable and not disallowed expenditures, and set forth what constitutes sufficient and appropriate documentation for purposes of substantiating subsequent requests for reimbursement for allowable and not disallowed expenditures.

Second, ICA recommended that subrule 22.5(1) be revised to afford a period for public comment, not only in OCIO's discretion, but also upon a timely submitted request by an applicant or member of the public. The OCIO fully anticipates making grant applications available for public comment as part of the review process; however, for administrative reasons, OCIO has elected to reserve the right to decide this issue unilaterally. For example, as part of the process to afford applicants an opportunity to seek confidential treatment of portions of their applications, applicants will be required to submit both an unredacted and a redacted version of their applications. To protect and preserve confidentiality, OCIO will post the redacted versions online for purposes of the public comment process. If applicants fail to comply with this redaction requirement, it would be administratively burdensome for OCIO to, itself, redact purportedly confidential portions of applications. Accordingly, OCIO will make grant applications available for public comment, but cannot commit itself to redacting upon request, in that doing so may not ultimately be administratively feasible.

Third, ICA recommended that "local match," as referenced in subparagraph 22.5(3)"a"(5), be defined to include any "private and public sources of funding available to the applicant and to be utilized in connection with the applicant's proposed project." OCIO agrees with this definition and has updated the subparagraph accordingly. In addition, ICA requested that OCIO give preference to projects that leverage federal funds. OCIO believes the definition of "local match" proposed by ICA and now adopted by OCIO encompasses federal funds and thereby encompasses ICA's suggestion. In addition, or in the alternative, subparagraph 22.5(3)"a"(6) permits OCIO to consider "other factors deemed relevant by the office as stated in the NOFA." In finalizing the NOFA, OCIO will further consider ICA's recommendation pursuant to this provision.

Fourth, ICA recommended that subrule 22.5(4) be revised to either provide notice to unsuccessful applicants that they have not been issued an award either by directly notifying them or by providing a specific date that the application results would be posted. The OCIO has updated subrule 22.3(2) to require that OCIO "provide an estimate of the date by which the office anticipates it will issue award(s)." Accordingly, the NOFA will include an estimated issuance date. If OCIO later determines it cannot meet that estimated date, OCIO will post an amendment to the NOFA identifying an updated estimated award date and thereby provide updated notice to communications service providers consistent with ICA's request.

Fifth, ICA recommended paragraph 22.6(3)"c," related to field testing, be revised to (1) place a one-year time limit on OCIO's ability to conduct field tests following project completion, (2) eliminate

CHIEF INFORMATION OFFICER, OFFICE OF THE[129](cont'd)

OCIO's ability to conduct field tests before reimbursing a provider for allowed expenditures, and (3) more specifically define where and the manner in which OCIO may conduct field tests. OCIO addresses each of these points as follows:

- With respect to point (1), OCIO understands that communications service providers may have concerns about being subject to audit indefinitely. However, one year is not a sufficient time period to ensure that broadband infrastructure deployed utilizing state funds meets the program requirements and goals for a meaningful period of time. For example, a communications service provider could seek and obtain reimbursement for broadband infrastructure that facilitates 25 megabits per second of download speed and 3 megabits per second of upload speed (25/3 Broadband) in a targeted service area identified in the provider's application, wait the proposed one-year period, and then redeploy the infrastructure elsewhere. OCIO believes a five-year window would be a more appropriate time period and strikes a fairer balance between the state's interest in ensuring that state funds are utilized for their intended purpose and the communications service providers' interest in not being indefinitely committed to audit or scrutiny.

- With respect to point (2), OCIO understands ICA's concern that the language drafted in OCIO's Notice of Intended Action was unclear as to whether OCIO would possess the discretion to withhold grant funds following project completion unless and until such time as OCIO audited the completed project to verify compliance with the requirements of Iowa Code chapter 8B, these rules, the NOFA, and the grant agreement executed between the parties, irrespective of how long OCIO waited to exercise such audit rights. OCIO agrees that it should and will conduct any field audits that serve as a precondition to any reimbursement within a reasonable time, not to exceed one year, to more fairly balance the state's interest in ensuring that state funds are utilized for their intended purpose and the communications service providers' interest in being reimbursed for allowable expenditures within a reasonable time.

- With respect to point (3), OCIO has, in part, adopted language proposed by ICA to more specifically define where and in what manner OCIO may conduct such field tests and to distinguish between circumstances where broadband infrastructure is actually serving customers versus merely being in place to serve upon request by prospective customers. With respect to the latter scenario, OCIO has modified ICA's proposed language to ensure that any engineer utilized to certify that a project meets the applicable requirements is an independent third party and is properly licensed. These additions are necessary to ensure both the objectivity and credibility of the results. In addition, the costs of such audit shall be borne by the grantee.

Sixth, ICA recommended that the rules be updated to more clearly define a grantee's obligation in terms of timely completing a project for which grant funds have been utilized. OCIO agrees that providing more clarity on this point would aid applicants in understanding the expectations in advance. Accordingly, OCIO has added paragraph 22.4(2)"e" to require that applicants identify an anticipated project completion date as part of their applications, which date shall not exceed five years from the date the NOFA is issued. The anticipated project completion date will serve as the basis for determining timely project completion.

Seventh, ICA recommended that rule 129—22.7(8B) be revised to disallow grant funds previously committed to specific grantees that were not ultimately distributed or that were otherwise repaid to OCIO from being reverted by OCIO to the General Fund. OCIO believes ICA misunderstood the intent of this rule, which is to ensure compliance with Iowa Code section 8B.11(2)"c." That said, OCIO has updated this rule to clarify its intent, namely: if funds previously committed to specific grantees are not ultimately distributed or are recouped prior to the two-year reversion period established by Iowa Code section 8B.11(2)"c," OCIO will either award the grant funds to prior grantees or open additional application rounds.

Eighth, ICA recommended that OCIO clarify the type or format of mapping data which communications service providers must provide OCIO as part of the grant administration process. OCIO was intentionally vague about the specific type and format to ensure that communications service providers have a degree of flexibility in supplying this information to OCIO in a manner that is not administratively inconvenient or overly costly to them. OCIO has updated subrule 22.6(2) to more clearly reflect OCIO's willingness to work with communications service providers in identifying a

CHIEF INFORMATION OFFICER, OFFICE OF THE[129](cont'd)

type or format that works for both parties. If ICA seeks further clarification or specificity on behalf of its members, OCIO is willing to be more specific in the NOFA to the extent interested parties can identify preferred or disfavored data or format types. Additionally, per ICA's request, OCIO has updated this rule to clarify that OCIO requires mapping data as it relates to all infrastructure installed by communications service providers and supported, in whole or in part, by state funds, regardless of whether such infrastructure actually serves any customers in targeted service area(s) forming a basis of the application at the time such mapping data is supplied to OCIO.

Ninth, ICA recommended that OCIO modify subrule 22.4(4) to permit the redaction of confidential information submitted to OCIO, including as part of the application process. OCIO believes this rule already permitted as much "in narrowly defined circumstances as stated in the NOFA." However, for the avoidance of doubt, OCIO replaced this provision with the specific process OCIO will deploy in the NOFA. Notably, this is the same process OCIO utilized in administering the broadband map appeals process under 129—Chapter 20. See 129—subrule 20.5(7).

Tenth, ICA recommended that OCIO give preference to applications for the installation of broadband infrastructure at or above 100 megabits per second of download speed and 10 megabits per second of upload speed in targeted service areas. While OCIO appreciates both this suggestion and information supplied by ICA as outlining the evolution and development of standards at both the federal level and in other states, OCIO is cognizant of the definition of a targeted service area in Iowa Code section 8B.1(12), which establishes the standard for Iowa: 25/3 Broadband. As a result of this declaration of legislative intent, OCIO believes the legislature, rather than the executive branch, would be the appropriate branch of government to consider raising Iowa's standard.

Eleventh, ICA recommended that OCIO require applicants to demonstrate financial capability as part of the application process. Subrule 22.4(2) generally establishes the minimum requirements to be included in an application, and OCIO may introduce additional requirements in the NOFA. Accordingly, while OCIO will continue to consider ICA's request as part of the process of finalizing the NOFA, OCIO is of the opinion that considering financial capability in a manner that would disqualify applicants would unduly disadvantage newer market entrants. Thus, to the extent OCIO does elect to elicit such information, OCIO will consider such information in a manner that is not disqualifying per se, for example, as a risk factor in prioritizing verification/audit tasks.

Finally, ICA recommended that subrule 22.4(5) be revised to clarify the scope of and impose more stringent limitations on the limited exception for broadband infrastructure installed outside of a targeted service area(s). Specifically, ICA recommended OCIO (1) clarify whether the exception is available for broadband infrastructure installed in any census block that is not a targeted service area or whether the exception is limited to broadband infrastructure installed in a census block that is adjacent to a targeted service area; and (2) limit the amount of grant funds awarded that could be utilized pursuant to the exception.

- With respect to (1), OCIO has added language clarifying that the exception is intended to be available to broadband infrastructure installed in any census block that is not a targeted service area. The underlying purpose of this exception is to ensure that the rules do not unduly favor certain types of technologies or providers. Iowa Code section 8B.11(3) permits "[c]ommunications service providers [to] apply to the office for a grant pursuant to this section for the installation of broadband infrastructure that facilitates broadband service at or above [25/3 Broadband]." Likewise, the definition of "broadband" under Iowa Code section 8B.1(1) expressly includes "fixed wireless and mobile wireless mediums," evincing a legislative intent to make the program meaningfully available to and designed to incentivize a wide variety of applicants and technology solutions. As a general matter, OCIO is of the opinion that it is less administratively burdensome to administer the program with respect to broadband infrastructure installed in targeted service areas; however, establishing a bright-line rule that limits the program in that manner unduly disadvantages wireless and mobile technologies, which are more likely to be deployed in census blocks that are not targeted service areas but which nevertheless provide service into targeted service areas. The exception strikes a fair balance between efficiently and effectively administering the program and effectuating the underlying legislative intent of remaining technology and provider neutral.

CHIEF INFORMATION OFFICER, OFFICE OF THE[129](cont'd)

- With respect to (2), subrule 22.4(5) requires providers to identify how they would proportionally allocate the costs of and for broadband infrastructure installed outside of targeted service areas but which facilitates 25/3 Broadband within targeted service areas underlying the application, and numbered paragraph 22.6(3)“a”(1)“2” only permits providers to recoup those proportional expenditures (i.e., the amount of funds actually attributable to broadband delivery within targeted service areas).

Adoption of Rule Making

This rule making was adopted by OCIO on October 1, 2018.

Fiscal Impact

OCIO will use the existing budget and resources to implement these rules, including any specific appropriations made during the 2018 Legislative Session for such purpose.

Jobs Impact

Deployment of grant funds should lead to the deployment of additional broadband projects by communications service providers and therefore increased job opportunities across the state.

Waivers

These rules establish general processes and procedures applicable to the posting of opportunities related to and applications for grant funds. Specific requirements, however, will be more fully articulated in the Notice of Funding Availability, as stated in these rules. Waivers will be handled in accordance with the terms of the Notice of Funding Availability—similar to the manner in which waivers for requests for proposals in the procurement context are handled.

Review by Administrative Rules Review Committee

The Administrative Rules Review Committee, a bipartisan legislative committee which oversees rule making by executive branch agencies, may, on its own motion or on written request by any individual or group, review this rule making at its [regular monthly meeting](#) or at a special meeting. The Committee's meetings are open to the public, and interested persons may be heard as provided in Iowa Code section 17A.8(6).

Effective Date

This rule making will become effective on November 28, 2018.

The following rule-making action is adopted:

Adopt the following **new** 129—Chapter 22:

CHAPTER 22 BROADBAND GRANTS PROGRAM

129—22.1(8B) Definitions. The definitions in rule 129—20.1(8B,427) shall apply to this chapter. In addition, for purposes of this chapter, the following definitions shall also apply:

“*Grantee*” means a communications service provider awarded grant funds by the office pursuant to and in accordance with Iowa Code section 8B.11 and these rules.

“*Project*” means an installation of broadband infrastructure by a communications service provider in one or more targeted service areas. Except in limited circumstances otherwise permitted herein, a project may not be comprised of, in whole or in part, census blocks that are not targeted service areas.

129—22.2(8B) Purpose and scope. This chapter applies to the broadband grants program established by Iowa Code section 8B.11 and administered by the office. As authorized by Iowa Code section 8B.11(8),

CHIEF INFORMATION OFFICER, OFFICE OF THE[129](cont'd)

this chapter establishes program process, management, and measurement rules designed to ensure the effective and efficient administration and oversight of the program, the key objective of which is to reduce or eliminate targeted service areas in the state of Iowa by incentivizing the installation of broadband infrastructure by communications service providers therein.

129—22.3(8B) Notice accepting grant funds.

22.3(1) The office shall provide notice to communications service providers when grant funds become available for distribution by the office by posting a “Notice of Funding Availability” (NOFA) online at iowagrants.gov and ocio.iowa.gov/broadband.

22.3(2) Such NOFA shall:

- a. Generally describe the application process.
- b. State the date, time, and manner by which applications for such grant funds must be submitted to the office in order to be eligible for consideration by the office for an award of grant funds.
- c. State the total amount of grant funds available for distribution under the applicable NOFA and provide an estimate of the date by which the office anticipates it will issue award(s).
- d. Describe the factors the office will consider in determining whether, to which communications service providers, and in what amount(s) to award grant funds.
- e. Set forth any measurement; technical, scoring, or other similar standards; formulas; or criteria the office will utilize in applying any factors considered by the office in determining whether, to which communications service providers, and in what amount(s) to award grant funds.
- f. Identify allowable and not disallowed expenditures which may be included in an applicant’s total project costs and set forth what constitutes sufficient and appropriate documentation for purposes of substantiating subsequent requests for reimbursement for allowable and not disallowed expenditures.
- g. State any other terms, conditions, requirements, or processes applicable to communications service providers submitting applications for grant funds, including but not limited to any grant agreement the office may require a grantee to enter into as a condition of receiving grant funds pursuant to subrule 22.6(1).

129—22.4(8B) Applications for grant funds.

22.4(1) *Application process.* Following the issuance of a NOFA by the office, communications service providers may apply to the office for grant funds for the installation of broadband infrastructure at or above 25 megabits per second of download speed and 3 megabits per second of upload speed in targeted service areas. Applications shall be made and submitted in accordance with the terms of the NOFA.

22.4(2) *Contents of application.* In addition to any other questions or requirements established by the NOFA, an application shall, at a minimum, include:

- a. The communications service provider’s legal and business name and address;
- b. The name, address, telephone number, and email address of the person authorized by the communications service provider to respond to inquiries regarding the application;
- c. The census block number(s) as provided on the statewide map referenced in rule 129—20.4(8B,427) for the targeted service area(s) forming the basis of the application/project (i.e., the targeted service area(s) in which the proposed installation of broadband infrastructure will occur);
- d. Attestation that the broadband infrastructure installed in the targeted service area(s) will facilitate broadband service at or above 25 megabits per second of download speed and 3 megabits per second of upload speed;
- e. An anticipated project completion date, which shall not exceed five years from the date the NOFA is issued. An applicant’s anticipated project completion date shall be used to determine whether a grantee’s failure to complete a project in a timely manner warrants a finding of noncompliance for purposes of subparagraph 22.6(4)“b”(2).

22.4(3) *Deadlines.* The office will only consider applications received on or before the applicable deadline as stated in the NOFA, unless the office, in its sole discretion, establishes a different deadline

CHIEF INFORMATION OFFICER, OFFICE OF THE[129](cont'd)

for the submission of applications. The office may establish a different deadline for all applicants, but will not change the deadline for or at the request of any individual applicant.

22.4(4) Confidentiality of contents of applications. The office's release of public records is governed by 129—Chapter 2 and Iowa Code chapter 22. Applicants or other persons or parties submitting information to the office are encouraged to familiarize themselves with 129—Chapter 2 and Iowa Code chapter 22 before submitting applications or other information to the office. The office will copy and produce public records upon request as required to comply with Iowa Code chapter 22 and will treat all information submitted by applicants or other persons or parties as public, nonconfidential records unless an applicant or other person or party requests that specific parts of the evidence or information submitted be treated as confidential at the time of the submission to the office.

a. In addition to any other administrative requirements established by the NOFA, an applicant or other person or party requesting confidential treatment of portions of an application or other information submitted to the office must:

- (1) Fully complete and submit to the office Form 22 as provided by the office.
- (2) Identify the request in the NOFA, or if other information is submitted to the office, identify the request in the transmittal email or cover letter for the written correspondence.
- (3) Conspicuously mark the outside of any submission as containing confidential information.
- (4) Mark each page upon which confidential evidence or information appears.
- (5) Submit a public copy from which claimed confidential evidence and information has been excised. Confidential information must be excised in such a way as to allow the public to determine the general nature of the information removed and to retain as much of the otherwise public evidence and information as possible.

b. Form 22 will not be considered fully complete unless, for each request for confidential treatment, the applicant or other person or party:

- (1) Enumerates the specific grounds in Iowa Code chapter 22 or other applicable law that support treatment of the specific information as confidential.
- (2) Justifies why the specific information should be maintained in confidence.
- (3) Explains why disclosure of the specific information would not be in the best interest of the public.
- (4) Sets forth the name, address, telephone number, and email address of the individual authorized by the applicant or other person or party submitting such information to respond to inquiries from the office concerning the confidential status of such information.

c. Failure to request that information be treated as confidential as specified herein shall relieve the office and state personnel from any responsibility for maintaining the information in confidence. Applicants or other persons or parties may not request confidential treatment with respect to information specifically identified by the office in the NOFA as being subject to public disclosure. Blanket requests to maintain an entire application or all information otherwise submitted to the office as confidential will be categorically rejected.

22.4(5) Limited exception for broadband infrastructure installed outside of targeted service areas. These rules generally limit the use of grant funds to and for broadband infrastructure installed within targeted service areas. This limitation is designed to ensure that the use of grant funds has the greatest possible impact on eliminating targeted service areas and to ensure the office's effective, efficient, and responsible management and oversight of the program. Notwithstanding this limitation, the office may, on a limited basis and in the office's sole discretion, permit communications service providers to apply for and utilize grant funds for broadband infrastructure installed outside of targeted service areas that facilitates or is essential to and inextricably intertwined with facilitating broadband infrastructure within targeted service areas forming the basis of a project, provided that a communications service provider applying for any such exception shall be required to clearly demonstrate, to the office's sole satisfaction:

a. Why and how reimbursement for such broadband infrastructure deployed outside of a targeted service area(s) facilitates or is essential to and inextricably intertwined with facilitating broadband service at or above 25 megabits per second of download speed and 3 megabits per second of upload speed in

CHIEF INFORMATION OFFICER, OFFICE OF THE[129](cont'd)

a targeted service area(s) forming the basis of a project and cannot otherwise be excluded from the application; and

b. The specific methods or formulas the communications service provider will utilize in proportionally allocating the costs of and for such broadband infrastructure to targeted service area(s) forming the basis of the project to which broadband service is facilitated by such infrastructure.

129—22.5(8B) Application review process and award of grant funds.

22.5(1) *Optional period for public comment.* Following the expiration of the deadline for the receipt of applications stated in the NOFA, the office may, in its sole discretion, open a period for public comment as it relates to such applications through the state of Iowa's public comment website: comment.iowa.gov. If the office elects to solicit public comment pursuant to this rule, any member of the public will be permitted to submit comments regarding applications received by the office.

22.5(2) *Review committee.* Following the expiration of the deadline for the receipt of applications stated in the NOFA, the office will supply all applications received by the deadline and otherwise warranting review in accordance with the terms, conditions, and requirements of the NOFA, these rules, and Iowa Code chapter 8B to a review committee established by the office comprised of representatives selected by the office from schools, communities, agriculture, industry, and other areas. The review committee will review the applications and provide input/make recommendations to the office regarding whether, to which projects, and in what amount(s) to award grant funds, in accordance with the terms, conditions, and requirements of the NOFA, these rules, and Iowa Code chapter 8B.

22.5(3) *Office final decision.* Following the office's receipt of the review committee's input or recommendations and the closure of the period for public comment, if any, the office will review all applications received by the deadline and otherwise warranting review in accordance with the terms, conditions, and requirements of the NOFA, these rules, and Iowa Code chapter 8B, the input/recommendations made by the review committee, and any public comment solicited/received, all in accordance with the terms, conditions, and requirements of the NOFA, these rules, and Iowa Code chapter 8B, and make a final agency decision regarding whether, to which projects, and in what amount(s) to award grant funds.

a. In so doing, the office will take into consideration the following factors, in accordance with and in the manner specified by the terms, conditions, and requirements of the NOFA:

(1) The relative need for broadband infrastructure in the area and the existing broadband service speeds. Existing broadband service speeds may be determined by reference to the statewide map referenced in rule 129—20.4(8B,427).

(2) The percentage of the homes, schools, and businesses in the targeted service area(s) forming the basis of the project that will be provided access to broadband service at or above 25 megabits per second of download speed and 3 megabits per second of upload speed as a result of the project.

(3) The geographic diversity of the project areas of all applicants.

(4) The economic impact the project will have on the area.

(5) The applicant's total proposed budget for the project, including the amount or percentage of local match, if any. For purposes of this chapter, "local match" shall include any private and public sources of funding available to the applicant and to be utilized in connection with the applicant's proposed project.

(6) Any other factors deemed relevant by the office as stated in the NOFA.

b. In determining whether, to which projects, and in what amount(s) to award grant funds, the office will not:

(1) Base its decision on the office's prior knowledge of any applicant except for the information provided in the application; or

(2) Make an award that exceeds 15 percent of any communications service provider's total estimated allowable project costs for a proposed installation of broadband infrastructure.

22.5(4) *Notice to applicants of decision and right to appeal.* The office shall notify each communications service provider awarded a grant by the office of the office's decision(s) in accordance with the terms and conditions of the NOFA. The office will also post such decision(s) online at

CHIEF INFORMATION OFFICER, OFFICE OF THE[129](cont'd)

iowagrants.gov and ocio.iowa.gov/broadband. Unsuccessful applicants are solely responsible for reviewing such websites to determine their award status. Such agency decision(s) shall become final unless, within ten days of such email transmission or posting, an applicant which was adversely affected by a decision of the office files a request for a contested case proceeding pursuant to 129—Chapter 6. Failure to challenge the office's decision under this rule by filing a request for a contested case within the ten-day period shall waive any claims an applicant may have related to the office's administration of the process and otherwise be deemed a failure to exhaust administrative remedies.

129—22.6(8B) Administration of award.

22.6(1) *Grant agreement required.* The office may require a grantee to enter into a grant agreement with the office in accordance with the terms, conditions, and requirements of the NOFA. Such grant agreement may include, but not be limited to, the total amount of the grant funds awarded to the grantee; a description of the project to be completed by the grantee and specifications related thereto; a description of allowable expenditures; conditions related to the disbursement of grant funds; default and termination procedures; performance, certification, and verification requirements/criteria necessary to confirm project success/completion; and repayment requirements in the event the grantee does not fulfill its obligations under the agreement, these rules, or Iowa Code chapter 8B. In addition to any terms, conditions, or requirements specifically set forth in such agreement, any and all requirements established by Iowa Code chapter 8B, these rules, other applicable law, rule, or regulation, or the NOFA shall be deemed incorporated by reference into such grant agreement as if fully set forth therein.

22.6(2) *Mapping data required.* Upon project completion, a grantee must supply the office with geographic information system (GIS) data in a form mutually acceptable to both the office and grantee demonstrating specifically where broadband infrastructure for which grant funds have been utilized, in whole or in part, has been installed, regardless of whether such infrastructure actually serves any customers in targeted service area(s) forming a basis of the application at the time such mapping data is supplied to the office. Such GIS data must enable the office to determine which specific homes, schools, and businesses within each targeted service area forming the basis of the project have access to broadband service at or above 25 megabits per second of download speed and 3 megabits per second of upload speed as a result of the project.

22.6(3) *Reimbursements, record keeping/audits, performance/certification, and repayment.* In the absence of more specific provisions in an agreement executed between a grantee and the office in accordance with these rules establishing conflicting or inconsistent terms and conditions, the following terms and conditions shall apply by default to any award of grant funds made by the office under Iowa Code section 8B.11 and these rules:

a. Reimbursement.

(1) General. A grantee shall only be reimbursed by the office for:

1. Allowable and not disallowed expenditures actually and previously incurred by the grantee. What constitutes allowable or disallowable expenditures shall be further specified in the NOFA or grant agreement;

2. Expenditures for broadband infrastructure installed in targeted service areas; or, in the limited circumstances permitted herein, to the extent any expenditures relate to broadband infrastructure installed outside of targeted service areas but which facilitates broadband service at or above 25 megabits per second of download speed and 3 megabits per second of upload speed within targeted service areas underlying the application, only for the proportionate amount that such broadband infrastructure facilitates broadband service at or above 25 megabits per second of download speed and 3 megabits per second of upload speed within targeted service areas; and

3. Expenditures for which the grantee is able to supply sufficient and appropriate documentation. What constitutes sufficient or appropriate documentation shall be further specified in the NOFA or grant agreement.

(2) Timing. Requests for reimbursement may be submitted to the office in accordance with the terms and conditions in the NOFA or grant agreement.

CHIEF INFORMATION OFFICER, OFFICE OF THE[129](cont'd)

b. Performance/certification. After the completion of a project utilizing, in whole or in part, grant funds, a grantee must:

(1) Certify to the office that the project was completed as proposed in the original application, including but not limited to that the final installation was installed in or otherwise facilitates broadband service at or above 25 megabits per second of download speed and 3 megabits per second of upload speed in each of the applicable targeted service areas identified in the original application, and identify the total number of homes, schools, and businesses actually receiving broadband service in each targeted service areas identified in the original application as a result of the project.

(2) Attest that any claimed, allowable expenditures are true and accurate, were directly related to the installation of broadband infrastructure that facilitates broadband service at or above 25 megabits per second of download speed and 3 megabits per second of upload speed in eligible targeted service areas forming the basis of the project, and were properly allocated in accordance with the terms, conditions, and requirements of the NOFA or grant agreement.

(3) Supply the office with updated GIS data in accordance with subrule 22.6(2).

c. Field testing. The office may, in its discretion, conduct field tests, on one or multiple occasions, for compliance with the requirements of Iowa Code sections 8B.1 and 8B.11, these rules, and any grant agreement entered into between a grantee and the office pursuant to subrule 22.6(1) for up to five years after broadband service is certified as complete in accordance with paragraph 22.6(3) "b." The office may exercise this right both before and after reimbursing a grantee for any claimed, allowable expenditures, but if the office elects to do so before reimbursing a grantee for any claimed, allowable expenditures, it will do so within a reasonable time, not to exceed one year, after broadband service is certified as complete in accordance with paragraph 22.6(3) "b." Such field tests may include but not be limited to:

(1) Speed tests anywhere between a grantee's central office and the demarcation at any customer's location in a targeted service area or census block in which the project was to be deployed;

(2) In the case of wireless installations, from any location in a targeted service area or census block in which the project was to be deployed; or

(3) In the case where a grantee does not have a customer in a targeted service area being served by the installation, certification obtained by the grantee and supplied to the office from an independent third party who is a properly licensed engineer that the installation facilitates broadband service at or above 25 megabits per second of download speed and 3 megabits per second of upload speed in applicable targeted service areas identified in the original application. The costs of such certification shall be borne by the grantee.

d. Disbursement/repayments.

(1) A grantee shall not be entitled to the applicable portion of any grant funds or shall be obligated to repay the office the applicable portion of any grant funds previously distributed by the office to the grantee if the office determines that:

1. Claimed expenditures or a prior reimbursement, in whole or in part, was comprised of expenditures that were not allowable or were disallowed, were improperly or incorrectly allocated, or were not supported by sufficient and appropriate documentation;

2. Claimed expenditures or the total amount previously reimbursed by the office exceeds 15 percent of the grantee's estimated or final total allowable project costs, whichever is less.

(2) A grantee shall not be entitled to any grant funds or shall be obligated to repay the office the entire amount of any grant funds previously distributed by the office to the grantee if the office determines that:

1. Claimed expenditures or a prior reimbursement, in whole or in part, was used for the installation of broadband infrastructure that was not in or does not facilitate broadband service at or above 25 megabits per second of download speed and 3 megabits per second of upload speed in a targeted service area identified in the original application;

2. A grantee fails to complete the project as proposed in the original application; or

3. Any representation or warranty made by a grantee in an application for grant funds, a grant agreement entered into between a grantee and the office pursuant to subrule 22.6(1), or in any other

CHIEF INFORMATION OFFICER, OFFICE OF THE[129](cont'd)

representation or statement made by the grantee to the office proves untrue in any material respect as of the date of the issuance or making thereof.

e. Notice of default. If the office determines a grantee is not entitled to or is otherwise required to repay the office in accordance with paragraph 22.6(3) “d,” the office may issue the grantee a “Notice of Default,” which shall afford the grantee 30 days to cure the default. Whether a grantee has sufficiently cured the default shall be determined in the sole discretion of the office. If a grantee fails to cure the default within 30 days, the office may issue an order requiring the grantee to reimburse the office for the amount specified in the “Notice of Default.”

22.6(4) Remedies for noncompliance. In addition to issuing a “Notice of Default” and subsequent order requiring the grantee to reimburse the office for failing to cure the default pursuant to paragraph 22.6(3) “e” and any other remedies available to the office pursuant to a grant agreement entered into between a grantee and the office pursuant to subrule 22.6(1), the office may, for cause, find that a grantee is not in compliance with the requirements of Iowa Code section 8B.11, these rules, or a grant agreement entered into by the office and a grantee pursuant to subrule 22.6(1).

a. At the office’s sole discretion, remedies for noncompliance may include, but are not limited to, the following:

(1) Issuing a warning letter stating that further failure to comply with program requirements within a stated period of time will result in a more serious action.

(2) Conditioning a future grant on compliance with program requirements within a stated period of time.

(3) Disallowing future reimbursements.

(4) Requiring that some or all previously issued grant funds be reimbursed to the office.

b. Reasons for a finding of noncompliance include, but are not limited to, one or more of the following:

(1) A violation of any of the terms or conditions of a grant agreement entered into between the office and a grantee pursuant to subrule 22.6(1);

(2) A grantee’s failure to complete a project in a timely manner;

(3) A grantee’s failure to comply with any applicable state laws, rules, or regulations;

(4) Claimed expenditures or a prior reimbursement, in whole or in part, was comprised of expenditures that were not allowable or were disallowed, were improperly or incorrectly allocated, or were not supported by sufficient and appropriate documentation;

(5) Claimed expenditures or a prior reimbursement, in whole or in part, was used for the installation of broadband infrastructure that was not in or that does not facilitate broadband service at or above 25 megabits per second of download speed and 3 megabits per second of upload speed in a targeted service area identified in the original application;

(6) A grantee fails to complete the project as proposed in the original application;

(7) The total claimed expenditures or the amount previously reimbursed by the office exceeds 15 percent of the grantee’s estimated or final total allowable project costs, whichever is less;

(8) Any representation or warranty made by a grantee in an application for grant funds, an agreement entered into between a grantee and the office pursuant to subrule 22.6(1), or in any other representation or statement made by the grantee to the office proves untrue in any material respect as of the date of the issuance or making thereof.

22.6(5) Office’s decision and right to appeal.

a. Any decision of the office entitled “proposed decision,” “final decision,” or other like caption as relating to any issues described in subparagraphs 22.6(5) “a”(1) through (5) below shall become final unless, within 30 days of the transmission of such decision by the office by email to the email address of the individual identified in paragraph 22.4(2) “b” or to the email address of a person otherwise identified by the grantee in writing prior to the issuance of such decision as the person authorized by the grantee to respond to inquiries regarding the administration of the grant, a grantee which is adversely affected by the decision files a request for a contested case proceeding pursuant to 129—Chapter 6.

(1) The interpretation, construction, or application of any terms or conditions or resolution of a dispute under a grant agreement entered into between the office and a grantee or under these rules;

CHIEF INFORMATION OFFICER, OFFICE OF THE[129](cont'd)

- (2) Whether or in what amount a grantee is entitled to reimbursement pursuant to a grant agreement entered into between the office and a grantee, or under these rules;
 - (3) Whether or in what amount a grantee must repay the office pursuant to a grant agreement entered into between the office and a grantee or under these rules;
 - (4) The imposition of any remedies for noncompliance in accordance with subrule 22.6(4); or
 - (5) Any other decision of the office that relates to the administration of a grant awarded pursuant to Iowa Code section 8B.11, these rules, or a grant agreement entered into between the office and a grantee.
- b.* Failure to challenge the office's decision under this rule by filing a request for a contested case within the 30-day period shall waive any claims an applicant may have related to the administration of a grant award and otherwise be deemed a failure to exhaust administrative remedies.

129—22.7(8B) Reallocation of grant funds. Subject to applicable law, including but not limited to Iowa Code section 8B.11(2) "c," if grant funds that the office had previously committed to specific grantees are not ultimately issued to a grantee (e.g., because applicable expenditures are not allowed or are disallowed, applicable expenditures were improperly or incorrectly allocated, or a grantee fails to provide sufficient or appropriate documentation to support a claim for reimbursement) or are otherwise repaid to the office pursuant to a grant agreement entered into between the office and a grantee or these rules, the office may award the grant funds to other previous grantees or open additional rounds for applications. If the office awards additional grant funds to other grantees, such grantees shall submit documentation establishing how such grant funds will be expended and may, to the extent applicable, be required to execute contract amendments with the office providing for the expenditure of the additional grant funds and will otherwise be subject to Iowa Code section 8B.11 and these rules.

These rules are intended to implement Iowa Code section 8B.11.

DENTAL BOARD[650]

Adopted and Filed

Rule making related to dental specialty advertising

The Dental Board hereby amends Chapter 26, "Advertising," and rescinds Chapter 28, "Designation of Specialty," Iowa Administrative Code.

Legal Authority for Rule Making

This rule making is adopted under the authority provided in Iowa Code sections 153.33 and 153.34.

State or Federal Law Implemented

This rule making implements, in whole or in part, Iowa Code section 153.13.

Purpose and Summary

These amendments update the requirements to advertise a specialty in the practice of dentistry. The amendments permit a dentist to advertise as a specialist if the dentist is a diplomate of, or board-eligible for, a national certifying board of a specialty recognized by the American Dental Association (ADA), or a diplomate of a board recognized by the American Board of Dental Specialties. In addition, the amendments provide a third option for those seeking board approval of a proposed area of specialty. The ADA has recently addressed the changing scope of specialization, and recent court cases have

DENTAL BOARD[650](cont'd)

highlighted the constitutional rights of licensees to advertise the services they provide. Chapter 28 established in detail the specialties that could be advertised and the requirements for those specialties. Since the amendments to Chapter 26 set forth the criteria for advertising specialties, the Board is rescinding Chapter 28 at this time.

Public Comment and Changes to Rule Making

Notice of Intended Action for this rule making was published in the Iowa Administrative Bulletin on July 18, 2018, as **ARC 3901C**. A public hearing was held at the offices of the Dental Board on August 21, 2018. Two people were in attendance. Dr. Keith Krell, representing the American Association of Endodontists, submitted a position statement issued by the ADA, which acknowledges First Amendment concerns related to advertising but advocates for the establishment of minimum standards related to specialty advertising. Mr. Sean Murphy, counsel for the American Association of Orthodontists (AAO), summarized the written statement submitted by the AAO, which encouraged the Board to utilize recognition by the Commission on Dental Accreditation as the sole criterion for conferring specialty status. Additionally, the AAO suggested placing parameters on new areas of specialty which may arise and adding the word “expert” to the list of regulated words.

The Board received three additional written comments. The American Academy of Pediatric Dentistry indicated support for the amendments, with a proposal to add additional language to subrule 26.4(7) to preclude general practitioners from using advertising that incorporates the term “pediatric dentistry.” Dr. Duane Van Nieuwenhuyzen, a practicing endodontist, submitted comments which stated that deregulation posed a danger to the public as it would allow general practitioners to make claims of specialty without the requirement of adequate training. Dr. Van Nieuwenhuyzen recommended that the Board establish minimum standards for the purposes of advertising as a specialist. The American Association of Endodontists submitted a copy of the ADA position statement summarized above.

No changes from the Notice have been made.

DENTAL BOARD[650](cont'd)

The following rule-making actions are adopted:

ITEM 1. Amend rule 650—26.4(153) as follows:

650—26.4(153) Public representation. All ~~advertisement~~ advertisements and public representations shall contain the name and address or telephone number of the practitioner who placed the ad.

26.4(1) If one's practice is referred to in the advertisement, the ad may state either "general/family practice" or ~~the American Dental Association recognized specialty that the practitioner practices~~ "specialist," "specializes," or "specializing." A dentist advertising or representing oneself as a specialist must comply with the other provisions of this rule.

26.4(2) ~~No dentist may state or imply that the dentist is certified as a specialist when that is not the case. Use of the terms "specialist," "specializing in" or other similar terms in connection with areas that are not recognized as specialties pursuant to 650—Chapter 28 is not permitted~~ A dentist may advertise as a specialist if the dentist meets the standards set forth in this rule.

a. The dentist wishing to advertise as a specialist must be a diplomate of, or board-eligible for, a national certifying board of a specialty recognized by the American Dental Association (ADA), or a diplomate of a board recognized by the American Board of Dental Specialties (ABDS); and

b. The indicated area of specialty must be board-approved. Board-approved ADA specialties are as follows: dental public health, endodontics, oral and maxillofacial pathology, oral and maxillofacial surgery, orthodontics and dentofacial orthopedics, pediatric dentistry, periodontics, prosthodontics and oral and maxillofacial radiology. Board-approved ABDS specialties are as follows: oral implantology/implant dentistry, oral medicine, orofacial pain, and anesthesiology.

26.4(3) A certifying board may apply for a new area of specialty to become board-approved by submitting information regarding the area of specialty, including an explanation of how the proposed specialty is within the scope of practice of dentistry in Iowa, and proof of the following:

a. The proposed specialty is separate and distinct from any preexisting specialty recognized by the board or combination of board-recognized dental specialties;

b. The proposed specialty is a distinct and well-defined field which requires unique knowledge and skills beyond those commonly possessed by dental school graduates;

c. The certifying board is an independent entity that is comprised of licensed dentists, whose membership is reflective of the proposed specialty, and that is incorporated and governed solely by the licensed dentists/board members;

d. The certifying board has a permanent headquarters and staff;

e. The certifying board has issued diplomate certificates to licensed dentists for at least five years;

f. The certifying board requires passing an oral and written examination based on psychometric principles that tests the applicant's knowledge and skill in the proposed specialty;

g. The certifying board requires all dentists who seek certification in the proposed specialty to have successfully completed a specified, objectively verifiable amount of post-DDS or -DMD education and experience that is appropriate for the proposed specialty area, as determined by the board; and

h. The certifying board's website that includes online resources for the consumer to verify the certifying board's certification requirements and a list of the names and addresses of the dentists who have been awarded certification by the board shall be made available for public access.

26.4(4) The use of the terms "specialist," "specializes," "orthodontist," "oral and maxillofacial surgeon," "oral and maxillofacial radiologist," "periodontist," "pediatric dentist," "prosthodontist," "endodontist," "oral pathologist," "public health dentist," "dental anesthesiologist," or other similar terms which imply that the dentist is a specialist may only be used by a licensed dentist meeting the requirements of this rule. A dentist who advertises as a specialist must avoid any implication that other dentists associated with the same practice are specialists unless the dentists also meet all of the requirements of this rule.

26.4(5) The term "diplomate" or "board-certified" may only be used by a dentist who has successfully completed the qualifying examination of the appropriate certifying board of one or more of the specialties recognized by the ADA or the ABDS, or as otherwise permitted pursuant to these rules.

DENTAL BOARD[650](cont'd)

26.4(6) A dentist advertising as a specialist pursuant to these rules shall include the name of the national certifying board and the name of the entity which recognizes the board in the advertisement.

~~26.4(3)~~ **26.4(7) Dentists** A dentist may advertise the areas in which they practice the dentist practices, including, but not limited to, specialty services, using other descriptive terms such as “emphasis on _____” or other similar terms, as long as all other provisions of these rules regarding advertising are met.

IOWA PUBLIC EMPLOYEES’ RETIREMENT SYSTEM[495]

Adopted and Filed

Rule making related to bona fide retirement

The Iowa Public Employees’ Retirement System (IPERS) hereby amends Chapter 11, “Application for, Modification of, and Termination of Benefits,” Iowa Administrative Code.

Legal Authority for Rule Making

This rule making is adopted under the authority provided in Iowa Code sections 97B.4 and 97B.15.

State or Federal Law Implemented

This rule making implements, in whole or in part, Iowa Code section 97B.52A.

Purpose and Summary

Sentences concerning bona fide retirement for newly elected officials were inadvertently deleted from subrule 11.5(1) in IPERS’ most recent rule making (**ARC 3684C**, IAB 3/14/18). This rule making restores sentences on this subject. Specifically, IPERS adds the following language as an unnumbered paragraph in 11.5(1):

“The bona fide retirement period will be waived if the member has been elected to public office which term begins during the normal four-month bona fide retirement period. This includes elected officials who shall be covered under this chapter as defined in Iowa Code section 97B.1A. This waiver does not apply if the member was an elected official who was reelected to the same position for another term.”

Public Comment and Changes to Rule Making

Notice of Intended Action for this rule making was published in the Iowa Administrative Bulletin on July 4, 2018, as **ARC 3885C**. IPERS accepted written comments concerning the proposed rule making from any interested person. Written comments in response to this rule making had to be received by IPERS no later than 4:30 p.m. on July 24, 2018. No comments were received. No changes from the Notice have been made.

Adoption of Rule Making

This rule making was adopted by IPERS on October 4, 2018.

Fiscal Impact

This rule making has no fiscal impact to the State of Iowa.

IOWA PUBLIC EMPLOYEES' RETIREMENT SYSTEM[495](cont'd)

Jobs Impact

IPERS-covered retirees will be allowed to serve as newly elected officials before they have completed a bona fide retirement period.

Waivers

Any person who believes that the application of the discretionary provisions of this rule making would result in hardship or injustice to that person may petition IPERS for a waiver of the discretionary provisions, if any.

Review by Administrative Rules Review Committee

The Administrative Rules Review Committee, a bipartisan legislative committee which oversees rule making by executive branch agencies, may, on its own motion or on written request by any individual or group, review this rule making at its [regular monthly meeting](#) or at a special meeting. The Committee's meetings are open to the public, and interested persons may be heard as provided in Iowa Code section 17A.8(6).

Effective Date

This rule making will become effective on November 28, 2018.

The following rule-making action is adopted:

Amend subrule 11.5(1) as follows:

11.5(1) Bona fide retirement—general. To receive retirement benefits, a member under the age of 70 must officially leave employment with all IPERS-covered employers, give up all rights as an employee, and complete a period of bona fide retirement. A period of bona fide retirement means four or more consecutive calendar months for which the member qualifies for monthly retirement benefit payments. The qualification period begins with the member's first month of entitlement for retirement benefits as approved by IPERS. A member may not return to covered employment before filing a completed application for benefits. Notwithstanding the foregoing, the continuation of group insurance coverage at employee rates for the remainder of the school year for a school employee who retires following completion of services by that individual shall not cause that person to be in violation of IPERS' bona fide retirement requirements.

A member will not be considered to have a bona fide retirement if the member is a school or university employee and returns to work with the employer after the normal summer vacation. In other positions, temporary or seasonal interruption of service which does not terminate the period of employment does not constitute a bona fide retirement. A member also will not be considered to have a bona fide retirement if the member has, prior to or during the member's first month of entitlement, entered into verbal or written arrangements with the employer to return to employment after the expiration of the four-month bona fide retirement period.

Effective July 1, 1990, a school employee will not be considered terminated if, while performing the normal duties, the employee performs for the same employer additional duties which take the employee beyond the expected termination date for the normal duties. Only when all the employee's compensated duties cease for that employer will that employee be considered terminated.

The bona fide retirement period shall be waived for an elected official covered under Iowa Code section 97B.1A(8) "a"(1), and for a member of the general assembly covered under Iowa Code section 97B.1A(8) "a"(2), when the elected official or legislator notifies IPERS of the intent to terminate IPERS coverage for the elective office and, at the same time, terminates all other IPERS-covered employment prior to the issuance of the retirement benefit. Such an elected official or legislator may remain in the elective office and receive an IPERS retirement without violating IPERS' bona fide retirement rules. If such elected official or legislator terminates coverage for the elective office and also terminates all other IPERS-covered employment but is then reemployed in covered employment, and has not received a

IOWA PUBLIC EMPLOYEES' RETIREMENT SYSTEM[495](cont'd)

retirement as of the date of hire, the retirement shall not be made. Furthermore, if such elected official or legislator is reemployed in covered employment, the election to revoke IPERS coverage for the elective position shall remain in effect, and the elected official or legislator shall not be eligible for new IPERS coverage for such elected position. The prior election to revoke IPERS coverage for the elected position shall also remain in effect if such elected official or legislator is reelected to the same position without an intervening term out of office.

The bona fide retirement period will be waived if the member has been elected to public office which term begins during the normal four-month bona fide retirement period. This includes elected officials who shall be covered under this chapter as defined in Iowa Code section 97B.1A. This waiver does not apply if the member was an elected official who was reelected to the same position for another term.

Effective July 1, 2000, a member does not have a bona fide retirement until all employment with covered employers, including employment which is not covered under this chapter, is terminated for at least one month, and the member does not return to covered employment for an additional three months. In order to receive retirement benefits, the member must file a completed application for benefits before returning to any employment with a covered employer.

Effective July 1, 2018, a member will not have a bona fide retirement if the member enters into a verbal or written arrangement to perform duties for the member's former employer(s) as an independent contractor prior to or during the member's first month of entitlement or performs any duties for the member's former employer(s) as an independent contractor prior to receiving four months of retirement benefits.

Rule making related to utility management efficiency

The Utilities Board hereby amends Chapter 29, "Management Efficiency Standards," Iowa Administrative Code.

Legal Authority for Rule Making

This rule making is adopted under the authority provided in Iowa Code sections 474.5 and 476.2.

State or Federal Law Implemented

This rule making implements, in whole or in part, Iowa Code sections 476.2 and 476.52.

Purpose and Summary

The purpose of this rule making is to update and amend the Board's rules establishing standards for evaluation of rate-regulated utilities' management efficiency as required in Iowa Code section 476.52. The Board issued an order requesting stakeholder comments on proposed amendments to the evaluation of management efficiency rules in Chapter 29. The Office of Consumer Advocate (OCA), a division of the Iowa Department of Justice; Iowa American Water Company; and MidAmerican Energy Company and Interstate Power and Light Company (jointly) filed comments addressing the proposed amendments.

The Board reviewed the stakeholder comments and reviewed the current rules and adopts the following amendments to the evaluation standards for management efficiency. These amendments update the language in the chapter and apply the statutory authority provided the Board in Iowa Code section 476.52.

UTILITIES DIVISION[199](cont'd)

The Board issued an order on April 24, 2018, commencing this rule making. The order provides a full discussion of the amendments and is available on the Board's electronic filing system, efs.iowa.gov, under Docket No. RMU-2016-0037.

Public Comment and Changes to Rule Making

Notice of Intended Action for this rule making was published in the Iowa Administrative Bulletin on June 20, 2018, as **ARC 3852C**. A public hearing was held on July 24, 2018, at 9 a.m. in the Board Hearing Room, 1375 East Court Avenue, Des Moines, Iowa. The Board received comments from the OCA, as well as from Iowa American Water Company, Interstate Power and Light Company, and MidAmerican Energy Company. Black Hills Energy was also present at the public hearing. The parties did not have any objections or proposed changes to the amendments proposed in the Notice of Intended Action.

Minor changes were made to subrule 29.3(1) to correct a formatting mistake. Two factors that were intended to be listed in separate paragraphs were inadvertently listed together under paragraph 29.3(1)"d" in the Notice. Subsequent paragraphs were relettered accordingly.

Adoption of Rule Making

This rule making was adopted by the Board on September 24, 2018.

Fiscal Impact

These amendments update and amend existing rules that are required to be promulgated for evaluation of rate-regulated utilities management efficiency. No additional actions having a fiscal impact were taken.

Jobs Impact

After analysis and review, the Board concludes that the amendments will not have a detrimental effect on employment in Iowa.

Waivers

No waiver provision is included in the amendments since the Board has a general waiver provision in rule 199—1.3(17A,474,476) that provides procedures for requesting a waiver of the rules in this chapter.

Review by Administrative Rules Review Committee

The Administrative Rules Review Committee, a bipartisan legislative committee which oversees rule making by executive branch agencies, may, on its own motion or on written request by any individual or group, review this rule making at its [regular monthly meeting](#) or at a special meeting. The Committee's meetings are open to the public, and interested persons may be heard as provided in Iowa Code section 17A.8(6).

Effective Date

This rule making will become effective on November 28, 2018.

The following rule-making actions are adopted:

ITEM 1. Amend **199—Chapter 29**, title, as follows:

MANAGEMENT EFFICIENCY STANDARDS EVALUATION

ITEM 2. Amend rule 199—29.1(476) as follows:

199—29.1(476) Policy and purpose. It is the policy of the board that a public utility shall be operated in an efficient manner. This chapter describes the methodology ~~to be used for evaluating~~ by which the board may evaluate the management efficiency of a rate-regulated utility management and the manner in

UTILITIES DIVISION[199](cont'd)

~~which those evaluations will be used~~ actions that the board may take upon a finding as to the efficiency of a utility's management.

ITEM 3. Amend rule 199—29.2(476) as follows:

199—29.2(476) Efficiency considered in a complaint or rate case proceeding. ~~In formal a complaint proceeding conducted pursuant to Iowa Code section 476.3 or in a rate proceedings proceeding conducted under pursuant to Iowa Code chapter 476 section 476.6, the board may consider determine whether the a public utility subject to rate regulation is being operated in an efficient or inefficient manner. All utilities will be evaluated according to the procedure set forth in~~ In making such a determination, the board shall evaluate the management of the utility in the manner prescribed by rule 199—29.3(476). ~~If the board finds the utility is poorly managed or exceptionally well managed, the board may establish a penalty or reward, respectively, as provided in rule 29.4(476). Any adjustment to a utility's level of profit (return on equity) or revenue requirement shall be made in compliance with Iowa Code section 476.52.~~

ITEM 4. Amend rule 199—29.3(476) as follows:

199—29.3(476) Management efficiency standards evaluation. The board may evaluate a utility's management efficiency based upon the utility's particular circumstances and considering a range of factors that may differ among utilities. In evaluating a utility's management efficiency, the board may consider any of the factors listed in subrule 29.3(1) and any additional relevant factors. No single factor will be deemed conclusive evidence of efficiency or inefficiency. In performing the evaluation, the board may collect data to compare a utility to other rate-regulated utilities providing the same service within the state of Iowa. The board may consider data for time periods outside a rate case test year.

~~29.3(1) In general. Factors. The efficiency or inefficiency of a utility will be evaluated on a case-by-case basis, based upon the utility's particular facts and circumstances. Utility management efficiency does not lend itself to an absolute measure due to the vast array of extremely important factors that may vary from area to area. These include such things as customer mix, territory of the utility, economic conditions in the areas served, weather patterns and disasters. The reality of change, and the ability of management to anticipate and respond to these changes, greatly affect any judgment of management efficiency or inefficiency, and must be considered in establishing any rewards for efficiency or penalties for inefficiency.~~

~~When evaluating a utility, the board may consider any of the factors listed in this subrule and any additional relevant information. These factors will be guidelines for evaluating a utility's efficiency or inefficiency. No single factor or group of factors will be deemed conclusive evidence of efficiency or inefficiency. In considering those factors, the board may collect data to compare a utility, except a water utility, to other utilities providing the same service in the state. The board may consider the following factors:~~

~~a. The price per unit of service (including amounts collected subject to refund) by customer class and type of service. For natural gas utilities, one "unit of service" is 1000 BTUs.~~

~~b. Operation and maintenance costs per unit of service. Low operations and maintenance costs will not be deemed indicative may not support a finding of efficiency if quality of service is substandard. This data, when required, shall be reported on a total company basis and on an Iowa jurisdictional basis if the company serves jurisdictions other than Iowa.~~

~~c. Quality of service, as reflected by in objective measures of service quality, customer complaints shown in company and board records, findings made in complaint proceedings, penalties assessed, and measures of customer satisfaction.~~

~~d. Officer compensation~~ Customer mix.

~~(1) Gas and electric utilities. The total compensation for electric and gas utilities for each officer. The utility, when required, shall provide this information both for the utility and for the parent/holding company.~~

~~(2) Telephone utilities:~~

UTILITIES DIVISION[199](cont'd)

~~1. The five largest total compensation packages that are expensed or capitalized to Iowa's regulated operations by the utility or its affiliates, and~~

~~2. The five largest total compensation packages for officers or employees stationed in Iowa. Each telephone company, when required, shall provide this information and shall indicate what portions of the compensation packages in 29.3(1) "d"(2)"2" are allocated to Iowa regulated operations.~~

~~e. The total compensation for each officer of the utility.~~

~~e. f. The company's bad debt ratio.~~

~~f. g. Innovative ideas practices implemented by utility management that result in improved service or that control costs.~~

~~g. Other factors the board determines to be relevant in an individual proceeding.~~

~~h. Geographic service territory.~~

~~i. Economic conditions in the areas served.~~

~~j. Weather patterns and disasters.~~

~~29.3(2) Electric utilities. When evaluating an electric utility, in addition to considering the factors listed in subrule 29.3(1), the board may consider factors specific to electric utilities including the following factors in addition to the factors listed in subrule 29.3(1):~~

~~a. Fuel cost per kwh.~~

~~b. Availability for each generating unit with 2,000 or more service hours per year.~~

~~c. Company wide Companywide load factor.~~

~~d. Development and implementation of energy efficiency programs.~~

~~29.3(3) Natural gas utilities. When evaluating a natural gas utility, in addition to considering the factors listed in subrule 29.3(1), the board may consider factors specific to natural gas utilities including the following factors in addition to the factors listed in subrule 29.3(1):~~

~~a. Total cost per unit of gas purchased by distribution companies from the a pipeline (to be considered separately from operations and maintenance costs).~~

~~b. Total cost per unit of gas purchased gas from other sources (to be considered separately from operations and maintenance costs).~~

~~c. Residential and commercial sales volume in relation to investment in the system (rate base).~~

~~d. Unaccounted-for gas as a percentage of total sales volume.~~

~~e. Development and implementation of energy efficiency programs.~~

~~29.3(4) Telephone utilities. When evaluating a telephone utility, the board may consider the following factors in addition to the factors listed in subrule 29.3(1):~~

~~a. Total plant investment per customer.~~

~~b. Quality of service, as reflected by the percentage of customers with access to specific types of service.~~

~~29.3(5) Water utilities. Water utilities will not be evaluated by comparison with other water utilities. Satisfactory management of water utilities will be presumed unless the contrary is established in an individual proceeding under Iowa Code chapter 476.~~

ITEM 5. Amend rule 199—29.4(476) as follows:

199—29.4(476) Rewards and penalties. In the course of a proceeding conducted under Iowa Code chapter 476, the board will determine whether a utility is being managed well or poorly. In making this determination, the board will not be limited to test year data. If the board determines that a utility is being managed exceptionally well, the board will adjust the return on common equity upward to reflect the degree of management efficiency. If the board determines that a utility, except a rural electric cooperative, is being poorly managed, the board will adjust the return on common equity downward to reflect the degree of management inefficiency. When a rural electric cooperative is shown to be poorly managed, the board will disallow from the revenue requirement all travel expenses for the board of directors and manager. The board will not establish any reward or penalty if the board finds the utility has been managed satisfactorily but not exceptionally well or poorly, because satisfactory management is expected from all public utilities. If the board makes a determination as to the efficiency of the management of a utility pursuant to rule 199—29.2(476), except for an electric cooperative that has

UTILITIES DIVISION[199](cont'd)

elect rate regulation, the board may prescribe an adjustment of the utility's return on common equity or revenue requirement as allowed pursuant to Iowa Code section 476.52. Upon making a determination as to the efficiency of the management of a rural electric cooperative that has elected rate regulation, the board may prescribe an adjustment of the rates charged by the cooperative as part of an adjustment to the utility's revenue requirement.

Review by Administrative Rules Review Committee

The Administrative Rules Review Committee, a bipartisan legislative committee which oversees rule making by executive branch agencies, may, on its own motion or on written request by any individual or group, review this rule making at its [regular monthly meeting](#) or at a special meeting. The Committee's meetings are open to the public, and interested persons may be heard as provided in Iowa Code section 17A.8(6).

Effective Date

This rule making will become effective on November 28, 2018.

The following rule-making action is adopted:

Amend rule 801—14.4(35A) as follows:

801—14.4(35A) Benefits available. Applications may be approved for any of the following purposes. By a majority vote, the commission may suspend some or all of these benefits for payment.

14.4(1) *Travel expenses for wounded veterans, and their spouses, directly related to follow-up medical care.* Travel expenses under this subrule include the unreimbursed cost of airfare, lodging, and a per diem of \$25 per day for required out-of-state medical travel that exceeds 125 miles from the veteran's home. Spouses may be reimbursed for in-state lodging and a per diem of \$25 per day when visiting a veteran who is in a hospital for medical care related to a service-connected disability. The distance from the veteran's home to the hospital must exceed 100 miles. The veteran or the veteran's spouse shall provide such evidence as the commission may require, which includes but is not limited to evidence the injury or disability is service-connected, the necessity of treatment in a particular facility, and documentation of expenses. The maximum amount for lodging reimbursement shall be \$90. The maximum amount of aid payable in a consecutive 12-month period under this subrule is \$1,000. The commission may waive the income threshold for this benefit.

14.4(2) *Job training or college tuition assistance for job retraining.*

a. The commission may pay a veteran not more than \$3,000 for retraining or postsecondary education to enable the veteran to obtain gainful employment. The commission may provide aid under this subrule if all of the following apply:

(1) The veteran is enrolled in a training course in a technical college or school, is enrolled in an accredited postsecondary institution, or is engaged in a structured on-the-job training program.

(2) The veteran is unemployed, underemployed, or has received a notice of termination of employment.

(3) The commission determines that the veteran's proposed program, or current program, will provide retraining or initial training that could enable the veteran to find gainful employment. In making its determination, the commission shall consider whether the proposed program, or current program, provides adequate employment skills and is in an occupation for which favorable employment opportunities are anticipated.

(4) The veteran requesting aid has not received full reimbursement or payment from any other retraining or education scholarship programs and the veteran does not have other assets or income available to meet retraining or initial training expenses. Applicants requesting aid under this subrule will only be granted the unpaid portion of their tuition statement, and the payment will be made directly to the institution.

b. The veteran shall provide such evidence as the commission may require to satisfy the requirements of this subrule.

14.4(3) *Unemployment or underemployment assistance during a period of unemployment or underemployment due to prolonged physical or mental illness resulting from military service or disability resulting from military service (must be physically and mentally able to return to work).* The commission may provide subsistence payments only to a veteran who has suffered a loss of income due to prolonged physical or mental illness resulting from military service or disability resulting from

VETERANS AFFAIRS, IOWA DEPARTMENT OF[801](cont'd)

military service. The commission may provide subsistence payments of up to \$500 per month of unemployment or underemployment to a veteran. A veteran must provide documentation of assistance from Iowa workforce development and vocational rehabilitation, if eligible. No payment may be made under this subrule if the veteran has other assets or income available to meet basic subsistence needs. A period of unemployment implies that it is possible for the veteran to be employed in the future. A rating from the VA of 100 percent due to individual unemployability (IU) rated permanent and total indicates that a veteran is unemployable and will not qualify for assistance under this subrule. The veteran shall provide such evidence as the commission may require, which includes but is not limited to evidence that the mental illness or disability is service-connected and evidence that the veteran is unemployed or underemployed for the period of payments. To qualify as underemployed, the applicant must be currently working at an income that is below 150 percent of federal poverty guidelines due to limitations caused by the applicant's service-connected disability or illness. The maximum amount of aid payable in a consecutive 12-month period under this subrule is \$3,000 and a lifetime maximum of \$6,000.

14.4(4) *Expenses related to hearing care, dental care, vision care, or prescription drugs.*

a. The commission may provide health care aid to a veteran, to the veteran's spouse or dependents, or to the unremarried spouse of a deceased veteran for dental care, including dentures; vision care, including eyeglass frames and lenses; hearing care, including hearing aids; and prescription drugs that are not covered by the Veterans Affairs medical center.

b. The maximum amount that may be paid under this subrule for any consecutive 12-month period may not exceed \$2,500 for dental care, \$500 for vision care, \$1,500 per ear for hearing care, and \$1,500 for prescription drugs. Lifetime maximum benefit: \$10,000.

c. The commission shall not provide health care aid under this subrule unless the aid recipient's health care provider agrees to accept, as full payment for the health care provided, the amount of the payment; the amount of the recipient's health insurance or other third-party payments, if any; and the amount that the commission determines the veteran is capable of paying. Payment under this subrule will be provided directly to the health care provider. The commission shall not pay health care aid under this subrule if the available liquid assets of the veteran are in excess of ~~\$5,000~~ \$15,000.

d. Applicants for assistance under this subrule will be required to provide the commission with an unpaid bill for service or an estimated cost of service from the health care provider and documentation of the need for the service. For prescription drugs, the applicant must produce documentation of the need for the prescribed drug and documentation stating whether a generic drug is available or appropriate. The commission payment will not exceed an estimated cost of service by a health care provider.

14.4(5) *Expenses relating to the purchase of durable equipment or services to allow a veteran, the veteran's spouse or dependents, or the unremarried spouse of a deceased veteran to remain in their home.*

a. The commission may make reimbursement payments to a veteran or to the unremarried spouse of a deceased veteran for the purchase of durable equipment that allows the veteran, the veteran's spouse or dependents, or the unremarried spouse of a deceased veteran to remain in their home or allows them the ability to utilize more of their home.

b. Individuals requesting reimbursement under this subrule will be required to provide verification of the purchase and installation of the equipment and information relating to the need for the equipment. Individuals may also provide a product and installation cost estimate to the commission for approval, with the understanding that the commission will pay no more than the cost estimate to the supplier or installer. Applicants needing durable equipment as a medical necessity should provide information from a physician.

c. Assistance under this subrule cannot duplicate assistance from other entities, and the maximum amount that may be paid may not exceed \$2,500.

d. The commission shall not pay a reimbursement under this subrule if the available liquid assets of the veteran are in excess of ~~\$5,000~~ \$15,000.

14.4(6) *Individual counseling or family counseling programs.*

a. The commission may make mental health, substance abuse, and family counseling available to veterans and their families. Individual family members are eligible for counseling.

VETERANS AFFAIRS, IOWA DEPARTMENT OF[801](cont'd)

b. The assistance may include appropriate counseling and treatment programs for veterans and their families in need of services.

c. Any assistance provided under this subrule shall not duplicate other services readily available to veterans and their families. Veterans who are eligible for VA mental health services must initially visit their nearest VA medical facility for initial consultation and continued psychiatric treatment. Payment under this subrule will be made for additional services for the veteran in a location closer to the veteran's home and at a greater frequency than the VA medical center can accommodate.

d. The commission may provide up to \$150 per hour and \$75 per half-hour for outpatient counseling visits to providers who will accept as full payment for the counseling services the amount provided. Counseling and substance abuse services provided in a group setting may be paid up to \$40 per hour. Counseling and substance abuse services may also be provided in an inpatient setting, subject to the maximum amount eligible under 14.4(6) "f."

e. The maximum amount that may be paid under this subrule for any consecutive 12-month period shall not exceed \$5,000. Individuals seeking counseling services are eligible for up to \$2,500, individuals seeking substance abuse treatment and counseling combined are eligible for up to \$3,500, and families seeking counseling services that may also include individual counseling and substance abuse services are eligible for up to \$5,000.

f. The commission may not provide counseling under this subrule unless the aid recipient's counseling service provider agrees to accept, as full payment for the counseling services provided, the amount of the payment; the amount of the recipient's health insurance or other third-party payments, if any; and the amount that the commission determines the veteran is capable of paying. The commission will make payment directly to the entity providing counseling and substance abuse services. The commission shall not pay for counseling under this subrule if the available liquid assets of the veteran are in excess of ~~\$5,000~~ \$15,000.

14.4(7) *Expenses relating to ambulance and emergency room services for veterans and emergency lodging for immediate family members.*

a. The commission may provide assistance to veterans for expenses related to ambulance trips, including air ambulance transportation, and emergency room visits for emergency care patients or VA health care patients ~~that~~ who cannot indicate to emergency personnel that they are to be presented to a VA medical center.

b. Funding through this subrule shall be paid directly to the entity providing the emergency service or transportation after the commission is provided with an unpaid bill. All efforts should be made to utilize all other methods of payment prior to accessing assistance under this subrule.

c. The maximum amount that may be paid under this subrule may not exceed ~~\$5,000~~ \$7,500.

14.4(8) *Emergency expenses related to vehicle repair, housing repair, or temporary housing assistance.*

a. The commission may provide assistance to a veteran or to the unremarried spouse of a deceased veteran for emergency vehicle repair, emergency housing repair, and temporary housing.

b. Assistance for vehicle repair is limited to expenses that are required for continued use of the vehicle. This assistance will only be granted in cases where the vehicle is needed for travel to and from work-related activities, the applicant is over the age of 65, or substantial hardship will occur if the vehicle is not repaired. Assistance may be provided in situations where the applicant does not have sufficient means to pay an insurance deductible. Assistance may be paid directly to the entity performing the maintenance or the insurance company owed the deductible. In certain circumstances, reimbursement may be made to the veteran or to the unremarried spouse of a deceased veteran in order for the vehicle to be released from the entity providing the service. Assistance will not be provided for damage caused during the commission of a crime, for cosmetic needs, for damage resulting in an auto accident when automobile insurance has not been purchased, or for routine maintenance.

c. Assistance for home repair is limited to repairs that are required to improve the conditions and integrity of the home and are necessary for the safety and security of the residents. Applicants with homeowners insurance may request assistance for payment of a deductible. Assistance may be provided for applicants in disaster situations, home accidents, vandalism, or other situations as determined by

VETERANS AFFAIRS, IOWA DEPARTMENT OF[801](cont'd)

the commission. In situations where a home is damaged beyond repair, assistance under this subrule is available to assist the applicant in purchasing a new home.

d. Assistance for transitional housing may be provided to applicants who are displaced from their home during a period of repairs related to a disaster, vandalism, home accident, or other reason that makes staying in the home hazardous to the health of the residents. Any refunded security deposits paid for under this subrule shall be returned to the Iowa veterans trust fund.

e. The maximum amount that may be paid under this subrule for any consecutive 12-month period may not exceed \$2,500 for vehicle repair, \$3,000 for housing repair, and \$1,000 for transitional housing. Lifetime maximum benefit for housing repair and vehicle repair: \$10,000 each.

f. The commission shall not pay a reimbursement under this subrule if the available liquid assets of the veteran are in excess of ~~\$3,000~~ \$15,000.

14.4(9) *Expenses related to establishing whether a minor child is a dependent of a deceased veteran.*

a. The commission may provide assistance to the family of veterans who are killed while serving on active federal service, for expenses related to paternity or maternity tests or the cost of procuring additional DNA samples from the deceased veteran. This assistance is available to determine whether a child is eligible for United States Department of Veterans Affairs war orphan benefits.

b. Applicants are required to provide the results of the paternity or maternity examinations to the commission upon completion of the tests. Where the deceased veteran is not the parent of the child, the applicant will be required to repay the assistance received as provided in 801—14.6(35A).

b. The grant shall be only for projects or programs which are not funded from any other source. The commission shall determine if the applicant's proposed project or program will provide the intended support. In making its determination, the commission shall consider whether the proposed program will provide anticipated favorable results.

c. The maximum amount of aid payable in a consecutive 12-month period under this subrule to a family readiness/support group is \$500.

14.4(11) *Honor guard services.*

a. The commission may reimburse veterans organizations for providing military funeral honors as follows:

(1) If a single veterans organization provides basic honors, \$25.

(2) If a single veterans organization provides full honors, \$50.

(3) If two or more veterans organizations participate in providing full honors and one of the organizations provides a firing detail, \$50. The organizations may request that the commission split the reimbursement.

(4) If two or more veterans organizations participate in providing basic honors, \$25. Payment shall be to one veterans organization, as determined by the commission.

b. Notwithstanding paragraph 14.4(11)"a," the commission shall not reimburse a veterans organization if federal funding is available to reimburse the veterans organization for providing military funeral honors. c. The maximum amount of aid payable in a calendar year under this subrule to a veterans organization is \$1000.

d. Veterans service organizations that are not currently providing honor guard services may apply for a \$500, up-front grant, for the use of creating a new honor guard within their organization. VETERANS AFFAIRS, IOWA DEPARTMENT OF[801](cont'd)

military honors and an estimated number of members who will be available to perform honor guard services. Organizations should also provide information regarding how they plan to pay for additional expenses that may occur outside of trust fund assistance. Applicants will be eligible for reimbursements under paragraphs 14.4(11) "a" to "c" 12 months after the receipt of their original \$500 grant.

14.4(12) Matching funds to veterans service organizations to provide for accredited veteran service officers.

a. The commission may provide matching funds to veterans service organizations for maintaining accredited veteran service officers located at the Des Moines Veterans Affairs Regional Office.

c. Service organizations requesting funding from the trust fund must provide financial data on the level of organizational funding for the staffing and operation of an office in the Des Moines Veterans Affairs Regional Office. Of the available amount outlined in this subrule, assistance will be split evenly among the service organizations eligible for the trust fund assistance. If the service organization's expenditures are less than ~~their~~ its share of the grant, the grant amount will be reduced to the amount of ~~their~~ the organization's previous fiscal year's expenditures.

d. Service organizations will be required to maintain the same level of expenditures in the year they receive funding as in the previous year. Funding will be recaptured by the treasurer of the state of Iowa if this funding is used to supplant funding from an individual veterans service organization. Trust fund assistance will not be included in future fiscal year maintenance of effort requirements. A report on the previous fiscal year's expenditures will be required to determine the maintenance of effort for the organization.
