

**HUMAN SERVICES DEPARTMENT[441]**

**Amended Notice of Intended Action**

Pursuant to the authority of Iowa Code section 249A.4, the Department of Human Services proposes to amend Chapter 77, “Conditions of Participation for Providers of Medical and Remedial Care,” Chapter 78, “Amount, Duration and Scope of Medical and Remedial Services,” Chapter 79, “Other Policies Relating to Providers of Medical and Remedial Care,” and Chapter 83, “Medicaid Waiver Services,” Iowa Administrative Code.

These amendments implement the changes in employment service definitions as provided by the Centers for Medicaid and Medicare Services (CMS) in its September 16, 2011, Informational Bulletin and in the CMS 2015 Technical Guide.

These amendments also change the provider qualifications, scope of services, duration, limitation and reimbursement methodologies for the home- and community-based services (HCBS) prevocational and supported employment services within the habilitation services program and the intellectual disability (ID) and brain injury (BI) waivers.

Notice of Intended Action was published in the Iowa Administrative Bulletin as **ARC 2114C** on August 19, 2015. The Department received 190 comments from 23 respondents. As a direct result of those comments, many of which were lengthy and in some cases duplicative, the Department is amending the original Notice of Intended Action to incorporate a number of changes to the proposed amendments. The public comments that resulted in changes to the original Notice of Intended Action and the Department’s responses to those comments are shown below. A full electronic copy of all of the public comments and the Department’s responses may be found on the Department’s Web site, [www.dhs.iowa.gov](http://www.dhs.iowa.gov), under the rules section.

**Comment 1:** Eleven respondents suggested that the option for the 9.5 hours of staff credentialing be expanded to include training programs other than the College of Direct Support, College of Employment Services (CES). The respondents felt that specifying CES is too narrow, and some providers said that they cannot afford CES training programs.

**Department response 1:** The Department contracts with the Iowa Association of Community Providers to make the College of Direct Support, CES, available to all HCBS providers free of charge regardless of the providers’ association membership status. Based on the comments received, subparagraphs 77.25(8)“c”(3), 77.37(26)“c”(3), and 77.39(22)“c”(3) have been revised and now read as follows:

“(3) A person providing direct support shall, within 6 months of hire or within 6 months of [the effective date of this subrule], complete at least 9.5 hours of employment services training as offered through DirectCourse or through the Association of Community Rehabilitation Educators (ACRE) certified training program.”

**Comment 2:** Twenty-one respondents commented that the hiring qualifications relating to experience and degrees for direct support staff are too limiting.

**Department response 2:** The Department agrees with the comments and has revised subparagraphs 77.25(9)“c”(1) to (3), 77.37(16)“d”(1) to (3), and 77.39(15)“d”(1) to (3) to read as follows:

“(1) Individual supported employment: bachelor’s degree or commensurate experience, preferably in human services, sociology, psychology, education, human resources, marketing, sales or business. The person must also hold nationally recognized certification (ACRE or College of Employment Services (CES) or similar) as an employment specialist or must earn this credential within 24 months of hire.

“(2) Long-term job coaching: associate degree, or high school diploma or equivalent and 6 months’ relevant experience. A person providing direct support shall, within 6 months of hire or within 6 months of [the effective date of this subrule], complete at least 9.5 hours of employment services training as offered through DirectCourse or through the ACRE certified training program. The person must also hold or obtain, within 24 months of hire, nationally recognized certification in job training and coaching.

“(3) Small-group supported employment: associate degree, or high school diploma or equivalent and 6 months’ relevant experience. A person providing direct support shall, within 6 months of hire or within 6 months of [the effective date of this subrule], complete at least 9.5 hours of employment services training as offered through DirectCourse or through the ACRE certified training program. The person must also hold or obtain, within 24 months of hire, nationally recognized certification in job training and coaching.”

**Comment 3:** One respondent suggested adding a requirement of four hours of employment training per year and allowing providers flexibility in choosing those courses.

**Department response 3:** Based on the comment received, paragraphs 77.25(8)“c,” 77.25(9)“c,” 77.37(16)“d,” 77.37(26)“c,” 77.39(15)“d” and 77.39(22)“c” have been revised to include a new subparagraph (4) that adds a requirement that four hours of continuing education in employment services be completed annually.

**Comment 4:** Five respondents requested that definitions be added to subrule 78.27(1) to provide additional necessary information.

**Department response 4:** The Department agrees to the respondents’ request and has revised subrule 78.27(1) to include the following three additional definitions:

“*Benefits education*’ means providing basic information to understand and access appropriate resources to pursue employment and knowledge of work incentives and the Medicaid for employed persons with disabilities (MEPD) program. Benefits education may include gathering information needed to pursue work incentives and offering basic financial management information to members, families, guardians and legal representatives.”

“*Supported employment*’ means the ongoing supports to participants who, because of their disabilities, need intensive ongoing support to obtain and maintain an individual job in competitive or customized employment, or self-employment, in an integrated work setting in the general workforce at or above the state’s minimum wage or at or above the customary wage and level of benefits paid by the employer for the same or similar work performed by individuals without disabilities. The outcome of this service is sustained paid employment at or above the minimum wage in an integrated setting in the general workforce in a job that meets personal and career goals. Supported employment services can be provided through many different service models.”

“*Sustained employment*’ means an individual employment situation that the member maintains over time but not for less than 90 calendar days following the receipt of employment services and supports.”

In addition, the Department has replaced the terms “benefits planning” and “benefits information” with the defined term “benefits education” throughout the chapter. The Department did not revise other definitions in subrule 78.27(1) because they, as currently stated, comport with CMS guidance and the intent of this rule making.

**Comment 5:** Six respondents requested clarification on prevocational services, specifically on the time limits for new and current members.

**Department response 5:** The 90-day time limit for prevocational services applies only to members after the completion of the career exploration activity if the member chooses not to pursue individual community employment. In this situation, the prevocational service is no longer appropriate to the member’s goals and the 90 days are allowed for transition to other services.

The 24-month time limit applies to members who are new to the prevocational service after these rules take effect and allows the members time to participate in generalized skill building, project search, internships, and/or the career exploration activity. Neither the 90-day time limit nor the 24-month time limit would apply if any one of the stated exceptions applies.

The Department agrees with the requests for clarification and has revised paragraphs “1” to “5” of subparagraph 78.27(9)“e”(1) to improve clarity regarding time limits for new and current members. The paragraphs now read as follows:

“1. The member who is in prevocational services is also working in either individual or small-group community employment for at least the number of hours per week desired by the member, as identified in the member’s current service plan; or

“2. The member who is in prevocational services is also working in either individual or small-group community employment for less than the number of hours per week the member desires, as identified in the member’s current service plan, but the member has services documented in the member’s current service plan, or through another identifiable funding source (e.g., Iowa vocational rehabilitation services (IVRS)), to increase the number of hours the member is working in either individual or small-group community employment; or

“3. The member is actively engaged in seeking individual or small-group community employment or individual self-employment, and services for this are included in the member’s current service plan or services funded through another identifiable funding source (e.g., IVRS) are documented in the member’s service plan; or

“4. The member has requested supported employment services from Medicaid and IVRS in the past 24 months, and the member’s request has been denied or the member has been placed on a waiting list by both Medicaid and IVRS; or

“5. The member has been receiving individual supported employment services (or comparable services available through IVRS) for at least 18 months without obtaining individual or small-group community employment or individual self-employment; or”

**Comment 6:** Eleven respondents requested clarification on the specifics of the career exploration activity in prevocational service as it relates to similar services provided through other funding streams.

**Department response 6:** The career exploration service is not intended to replicate the discovery service funded through IVRS or the Iowa Department of Workforce Development or the workplace readiness assessment. The career exploration service is intended to be delivered one to one to assist the member in determining if the member wants to work and where the member’s employment interests lie in order to develop a career plan that will assist with employment service planning. Under the basic prevocational service, members could participate in activities in small groups, such as business tours, benefit information classes or job fairs.

Career exploration activity is also an option under all supported employment service categories, and the specific activities would be based on the individual’s needs. Career exploration activities provided through supported employment services would be a part of those services and billed through those fee schedules. For example, if a member in small-group supported employment participates in a business tour during the day, it would be billed as part of the member’s small-group supported employment service.

The Department agrees to revise subparagraph 78.27(9)“a”(1) to clarify the career exploration activities. The subparagraph now reads as follows:

“(1) Career exploration. Career exploration activities are designed to develop an individual career plan and facilitate the member’s experientially based informed choice regarding the goal of individual employment. Career exploration may be authorized for up to 34 hours, to be completed over 90 business days in the member’s local community or in nearby communities, and may include but is not limited to the following activities:

“1. Meeting with the member and the member’s family, guardian or legal representative to introduce them to supported employment and explore the member’s employment goals and experiences,

“2. Business tours,

“3. Informational interviews,

“4. Job shadows,

“5. Benefits education and financial literacy,

“6. Assistive technology assessment, and

“7. Job exploration events.”

In addition, the Department has revised subparagraph 78.27(9)“e”(2) to change “90 days” to “90 business days.”

**Comment 7:** Four respondents commented that volunteer opportunities and programs are limited by the proposed rules regarding prevocational services.

**Department response 7:** Volunteer opportunities, consistent with labor laws, and paid or unpaid internships or similar opportunities can be offered as part of the prevocational service in accordance

with CMS Informational Bulletin dated September 16, 2011, and the January 2015 CMS HCBS Waiver Technical Guidance. The Department agrees with the comments and has revised subparagraph 78.27(9)“d”(4) to clarify volunteer opportunities. The subparagraph now reads as follows:

“(4) Support for members volunteering in for-profit organizations and businesses other than for-profit organizations, or businesses that have formal volunteer programs in place (e.g., hospitals, nursing homes), and support for members volunteering to benefit the service provider.”

The Department has also revised subparagraph 78.27(10)“c”(1) by changing a reference to “natural supervisors” to “natural supports” and by deleting “planning, discovery, or” from the description of small-group activities. The subparagraph now reads as follows:

“(1) Scope. Small-group supported employment services must be provided in a manner that promotes integration into the workplace and interaction between members and people without disabilities (e.g., customers, coworkers, natural supports) in those workplaces. Examples include but are not limited to mobile crews and other business-based workgroups employing small groups of workers with disabilities in employment in integrated business settings; and small-group activities focused on career exploration and development of strengths and skills that contribute to successful participation in individual community employment.”

**Comment 8:** The respondents provided 11 overall comments on supported employment services. Five comments specifically related to the need for a period of job stabilization following placement.

**Department response 8:** Job stabilization is part of the initial individual supported employment training per the CMCS Informational Bulletin dated September 16, 2011, and the January 2015 CMS HCBS Waiver Technical Guidance. The Department agrees to address the respondents’ concerns by revising paragraph 78.27(10)“a”(4)“16” and by adding a new paragraph 78.27(10)“a”(4)“20” as follows:

“20. Initial on-the-job training to stabilization activity.”

**Comment 9:** Five respondents commented on the self-employment imposed time limit by recommending that the reference to a reasonable period of time be retained but that the phrase “not to exceed 36 months” be removed.

**Department response 9:** The Department agrees with the comment and has revised subparagraphs 78.27(10)“a”(2) and 78.27(10)“d”(6) to remove the phrase “not to exceed 36 months.”

**Comment 10:** Four respondents commented that the long-term job coaching tiered system disincentivizes those wanting to work more hours per week or those with higher support needs; the respondents recommended that the tiered system expand the number of hours available. The respondents also asked that language be added to the rules to state that the tiers are assigned according to the service plan and adjusted when higher support needs are determined.

**Department response 10:** The long-term job coaching hours of support were arrived at based on a full year of utilization data and national recommendations, which indicated that only 7 percent of members received 17 to 25 hours of long-term job coaching and 10 percent of members used greater than 25 hours/month.

The Department has revised subparagraph 78.27(10)“b”(4) to include language which states that the hours are assigned according to the service plan and adjusted when higher support needs are determined. In order to address the respondents’ concerns, the following new subparagraph (6) has been added to paragraph 78.27(10)“b”:

“(6) The hours of support for long-term job coaching are based on the identified needs of the member as documented in the member’s comprehensive service plan.”

The Department has also added the following new subparagraphs (3) and (4) to 83.61(1)“i.” Subparagraph (4) as shown below has also been added to 83.82(1)“p.”

“(3) Have documented in the waiver service plan a goal to achieve or to sustain individual employment.

“(4) Have documented in the waiver service plan that the choice to receive individual supported employment services was offered and explained in a manner sufficient to ensure informed choice, after which the choice to receive small-group supported employment services was made.”

**Comment 11:** Three respondents asked for clarification regarding a provider’s ability to support individuals aged 16 to 17 as well as people over the age of 65. In addition, the respondents noted that subrule 83.61(1) lists no upper age restriction.

**Department response 11:** Persons aged 16 to 17 should be served first with IDEA funds; persons aged 65 or over who are eligible for the brain injury waiver, the intellectual disability waiver or the habilitation services program will be able to continue to receive employment supports as they do today. The current language in rule is not intended to exclude anyone, only to define a “working age adult.” The Department is amending the first sentence of the Chapter 83 preamble as follows to address the respondents’ concerns:

“Medicaid waiver services are services provided to maintain persons in their own homes or communities who would otherwise require care in a medical ~~institutions~~ institution, including support for persons to seek and maintain employment in the community.”

Any interested person may make written comments on the proposed amendments on or before February 23, 2016. Comments should be directed to Harry Rossander, Bureau of Policy Coordination, Department of Human Services, Hoover State Office Building, Fifth Floor, 1305 East Walnut Street, Des Moines, Iowa 50319-0114. Comments may be sent by fax to (515)281-4980 or by e-mail to [policyanalysis@dhs.state.ia.us](mailto:policyanalysis@dhs.state.ia.us).

These amendments do not provide for waivers in specified situations because requests for the waiver of any rule may be submitted under the Department’s general rule on exceptions at 441—1.8(17A,217).

After analysis and review of this rule making, an impact on jobs may be found. Jobs and advancement opportunities for direct support staff within provider agencies should improve based on enhanced reimbursement rates for supported employment services and the qualifications and professional development requirements reflected in these rules. This will be true throughout the state. Additionally, as community employment participation of people with disabilities increases, unmet workforce needs of Iowa businesses could be filled by the largely untapped resource of people with disabilities.

These amendments are intended to implement Iowa Code chapter 249A.

The following amendments are proposed.

ITEM 1. Rescind subrule 77.25(8) and adopt the following **new** subrule in lieu thereof:

**77.25(8) Prevocational habilitation.**

(3) Procedures for payment schedules and pay scale.

(4) Procedures for provision of workers' compensation insurance.

(5) Procedures for the determination and review of commensurate wages.

c. Individuals may not provide supported employment services except when the services are purchased through the consumer choices option.

d. Direct support staff providing individual or small-group supported employment or long-term job coaching services shall meet the following minimum qualifications in addition to other requirements outlined in administrative rule:

(1) Individual supported employment: bachelor's degree or commensurate experience, preferably in human services, sociology, psychology, education, human resources, marketing, sales or business. The person must also hold a nationally recognized certification (ACRE or College of Employment Services (CES) or similar) as an employment specialist or must earn this credential within 24 months of hire.

(2) Long-term job coaching: associate degree, or high school diploma or equivalent and 6 months' relevant experience. A person providing direct support shall, within 6 months of hire or within 6 months of [the effective date of this subrule], complete at least 9.5 hours of employment services training as offered through DirectCourse or through the ACRE certified training program. The person must also hold or obtain, within 24 months of hire, nationally recognized certification in job training and coaching.

(3) Small-group supported employment: associate degree, or high school diploma or equivalent and 6 months' relevant experience. A person providing direct support shall, within 6 months of hire or within 6 months of [the effective date of this subrule], complete at least 9.5 hours of employment services training as offered through DirectCourse or through the ACRE certified training program. The person must also hold or obtain, within 24 months of hire, nationally recognized certification in job training and coaching.

(4) Supported employment direct support staff shall complete 4 hours of continuing education in employment services annually.

ITEM 6. Rescind subrule 77.39(22) and adopt the following **new** subrule in lieu thereof:

**77.39(22) Prevocational services providers.**

a. Providers of prevocational services must be accredited by one of the following:

(1) The Commission on Accreditation of Rehabilitation Facilities as an organizational employment service provider or a community employment service provider.

(2) The Council on Quality and Leadership accreditation in supports for people with disabilities.

b. Providers responsible for the payroll of members shall have policies that ensure compliance with state and federal labor laws and regulations, which include, but are not limited to:

(1) Subminimum wage laws and regulations, including the Workforce Investment Opportunity Act.

(2) Member vacation, sick leave and holiday compensation.

(3) Procedures for payment schedules and pay scale.

(4) Procedures for provision of workers' compensation insurance.

(5) Procedures for the determination and review of commensurate wages.

c. Direct support staff providing prevocational services shall meet the following minimum qualifications in addition to other requirements outlined in administrative rule:

(1) A person providing direct support without line-of-sight supervision shall be at least 18 years of age and possess a high school diploma or equivalent. A person providing direct support with line-of-sight supervision shall be 16 years of age or older.

(2) A person providing direct support shall not be an immediate family member of the member.

(3) A person providing direct support shall, within 6 months of hire or within 6 months of [the effective date of this subrule], complete at least 9.5 hours of employment services training as offered through DirectCourse or through the Association of Community Rehabilitation Educators (ACRE) certified training program.

(4) Supported employment direct support staff shall complete 4 hours of continuing education in employment services annually.

ITEM 7. Adopt the following **new** definitions in subrule **78.27(1)**:

*"Benefits education"* means providing basic information to understand and access appropriate resources to pursue employment, and knowledge of work incentives and the Medicaid for employed persons with disabilities (MEPD) program. Benefits education may include gathering information needed to pursue work incentives and offering basic financial management information to members, families, guardians and legal representatives.

*"Career exploration,"* also referred to as "career planning," means a person-centered, comprehensive employment planning and support service that provides assistance for waiver program participants to obtain, maintain or advance in competitive employment or self-employment. Career exploration is a focused, time-limited service engaging a participant in identifying a career direction and developing a plan for achieving competitive, integrated employment at or above the state's minimum wage. The outcome of this service is documentation of the participant's stated career objective and a career plan used to guide individual employment support.

*"Career plan"* means a written plan documenting the member's stated career objective and used to guide individual employment support services for achieving competitive, integrated employment at or above the state's minimum wage.

*"Customized employment"* means an approach to supported employment which individualizes the employment relationship between employees and employers in ways that meet the needs of both. Customized employment is based on an individualized determination of the strengths, needs, and interests of the person with a disability and is also designed to meet the specific needs of the employer. Customized employment may include employment developed through job carving, self-employment or entrepreneurial initiatives, or other job development or restructuring strategies that result in job responsibilities being customized and individually negotiated to fit the needs of the individual with a disability. Customized employment assumes the provision of reasonable accommodations and supports necessary for the individual to perform the functions of a job that is individually negotiated and developed.

*“Individual employment”* means employment in the general workforce where the member interacts with the general public to the same degree as nondisabled persons in the same job, and for which the member is paid at or above minimum wage, but not less than the customary wage and level of benefits paid by the employer for the same or similar work performed by persons without disabilities.

*“Individual placement and support”* means an evidence-based supported employment model that helps people with mental illness to seek and obtain employment.

*“Integrated community employment”* means work (including self-employment) for which an individual with a disability is paid at or above minimum wage and not less than the customary wage and level of benefits paid by the employer for the same or similar work performed by employees who are not disabled, where the individual interacts with other persons who are not disabled to the same extent as others who are in comparable positions, and which presents opportunities for advancement that are similar to those for employees who are not disabled. In the case of an individual who is self-employed, the business results in an income that is comparable to the income received by others who are not disabled and are self-employed in similar occupations.

*“Supported employment”* means the ongoing supports to participants who, because of their disabilities, need intensive ongoing support to obtain and maintain an individual job in competitive or customized employment, or self-employment, in an integrated work setting in the general workforce at or above the state’s minimum wage or at or above the customary wage and level of benefits paid by the employer for the same or similar work performed by individuals without disabilities. The outcome of this service is sustained paid employment at or above the minimum wage in an integrated setting in the general workforce in a job that meets personal and career goals. Supported employment services can be provided through many different service models.

*“Supported self-employment”* includes services and supports that assist the participant in achieving self-employment through the operation of a business; however, Medicaid funds may not be used to defray the expenses associated with starting up or operating a business. Assistance for self-employment may include aid to the individual in identifying potential business opportunities; assistance in the development of a business plan, including potential sources of business financing and other assistance in developing and launching a business; identification of the supports necessary for the individual to operate the business; and ongoing assistance, counseling and guidance once the business has been launched.

*“Sustained employment”* means an individual employment situation that the member maintains over time but not for less than 90 calendar days following the receipt of employment services and supports.

ITEM 8. Rescind subrule 78.27(9) and adopt the following **new** subrule in lieu thereof:

**78.27(9) Prevocational service habilitation.** “Prevocational services” means services that provide career exploration, learning and work experiences, including volunteer opportunities, where the member can develop non-job-task-specific strengths and skills that lead to paid employment in individual community settings.

*a. Scope.* Prevocational services are provided to persons who are expected to be able to join the general workforce with the assistance of supported employment. Prevocational services are intended to develop and teach general employability skills relevant to successful participation in individual employment. These skills include but are not limited to the ability to communicate effectively with supervisors, coworkers and customers; an understanding of generally accepted community workplace conduct and dress; the ability to follow directions; the ability to attend to tasks; workplace problem-solving skills and strategies; general workplace safety and mobility training; the ability to navigate local transportation options; financial literacy skills; and skills related to obtaining employment.

Prevocational services include career exploration activities to facilitate successful transition to individual employment in the community. Participation in prevocational services is not a prerequisite for individual or small-group supported employment services.

(1) Career exploration. Career exploration activities are designed to develop an individual career plan and facilitate the member’s experientially based informed choice regarding the goal of individual

employment. Career exploration may be authorized for up to 34 hours, to be completed over 90 business days in the member's local community or in nearby communities, and may include but is not limited to the following activities:

1. Meeting with the member and the member's family, guardian or legal representative to introduce them to supported employment and explore the member's employment goals and experiences,
2. Business tours,
3. Informational interviews,
4. Job shadows,
5. Benefits education and financial literacy,
6. Assistive technology assessment, and
7. Job exploration events.

(2) Expected outcome of service.

1. The expected outcome of prevocational services is individual employment in the general workforce, or self-employment, in a setting typically found in the community, where the member interacts with individuals without disabilities, other than those providing services to the member or other individuals with disabilities, to the same extent that individuals without disabilities in comparable positions interact with other persons; and for which the member is compensated at or above the minimum wage, but not less than the customary wage and level of benefits paid by the employer for the same or similar work performed by individuals without disabilities.

2. The expected outcome of the career exploration activity is a written career plan that will guide employment services which lead to community employment or self-employment for the member.

*b. Setting.* Prevocational services shall take place in community-based nonresidential settings.

*c. Concurrent services.* A member's individual service plan may include two or more types of nonresidential habilitation services (e.g., individual supported employment, long-term job coaching, small-group supported employment, prevocational services, and day habilitation); however, more than one service may not be billed during the same period of time (e.g., the same hour).

*d. Exclusions.* Prevocational services payment shall not be made for the following:

(1) Services that are available to the individual under a program funded under Section 110 of the Rehabilitation Act of 1973 or the Individuals with Disabilities Education Act (20 U.S.C. 1401 et seq.). Documentation that funding is not available to the individual for the service under these programs shall be maintained in the service plan of each member receiving prevocational services.

(2) Services available to the individual that duplicate or replace education or related services defined in the Individuals with Disabilities Education Act (20 U.S.C. 1401 et seq.).

(3) Compensation to members for participating in prevocational services.

(4) Support for members volunteering in for-profit organizations and businesses other than for-profit organizations, or businesses that have formal volunteer programs in place (e.g., hospitals, nursing homes), and support for members volunteering to benefit the service provider.

(5) The provision of vocational services delivered in facility-based settings where individuals are supervised for the primary purpose of producing goods or performing services or where services are aimed at teaching skills for specific types of jobs rather than general skills.

(6) A prevocational service plan with the goal or purpose of the service documented as maintaining or supporting the individual in continuing prevocational services or any employment situation similar to sheltered employment.

*e. Limitations.*

(1) Time limitation for members starting prevocational services. For members starting prevocational services after [the effective date of this subrule], participation in these services is limited to 24 calendar months. This time limit can be extended to continue beyond 24 months if one or more of the following conditions apply:

1. The member who is in prevocational services is also working in either individual or small-group community employment for at least the number of hours per week desired by the member, as identified in the member's current service plan; or

2. The member who is in prevocational services is also working in either individual or small-group community employment for less than the number of hours per week the member desires, as identified in the member's current service plan, but the member has services documented in the member's current service plan, or through another identifiable funding source (e.g., Iowa vocational rehabilitation services (IVRS)), to increase the number of hours the member is working in either individual or small-group community employment; or

3. The member is actively engaged in seeking individual or small-group community employment or individual self-employment, and services for this are included in the member's current service plan or services funded through another identifiable funding source (e.g., IVRS) are documented in the member's service plan; or

4. The member has requested supported employment services from Medicaid and IVRS in the past 24 months, and the member's request has been denied or the member has been placed on a waiting list by both Medicaid and IVRS; or

5. The member has been receiving individual supported employment services (or comparable services available through IVRS) for at least 18 months without obtaining individual or small-group community employment or individual self-employment; or

6. The member is participating in career exploration activities as described in subparagraph 78.27(9) "a"(1).

(2) Time limitation for members enrolled in prevocational services. For members enrolled in prevocational services on or before [the effective date of this subrule], participation in these services is limited to 90 business days beyond the completion of the career exploration activity including the development of the career plan described in subparagraph 78.27(9) "a"(1). This time limit can be extended as stated in paragraphs 78.27(9) "e"(1) "1" through "6." If the criteria in paragraphs 78.27(9) "e"(1) "1" through "6" do not apply, the member will not be reauthorized to continue prevocational services.

ITEM 9. Rescind subrule 78.27(10) and adopt the following **new** subrule in lieu thereof:

**78.27(10) Supported employment services.**

*a. Individual supported employment.* Individual supported employment involves supports provided to, or on behalf of, the member that enable the member to obtain and maintain individual employment. Services are provided to members who need support because of their disabilities.

(1) Scope. Individual supported employment services are services provided to, or on behalf of, the member that enable the member to obtain and maintain an individual job in competitive employment, customized employment or self-employment in an integrated work setting in the general workforce.

(2) Expected outcome of service. The expected outcome of this service is sustained employment, or self-employment, paid at or above the minimum wage or the customary wage and level of benefits paid by an employer, in an integrated setting in the general workforce, in a job that meets personal and career goals. Successful transition to long-term job coaching, if needed, is also an expected outcome of this service. An expected outcome of supported self-employment is that the member earns income that is equal to or exceeds the average income for the chosen business within a reasonable period of time.

(3) Setting. Individual supported employment services shall take place in integrated work settings. For self-employment, the member's home can be considered an integrated work setting. Employment in the service provider's organization (not including a sheltered workshop or similar type of work setting where members are paid for the production of goods or services) can be considered employment in an integrated work setting in the general workforce if the employment occurs in a work setting where interactions are predominantly with coworkers or business associates who do not have disabilities or with the general public.

(4) Individual employment strategies include but are not limited to: customized employment, individual placement and support, and supported self-employment. Service activities are individualized and may include any combination of the following:

1. Benefits education.
2. Career exploration (e.g., tours, informational interviews, job shadows).

3. Employment assessment.
4. Assistive technology assessment.
5. Trial work experience.
6. Person-centered employment planning.
7. Development of visual/traditional résumés.
8. Job-seeking skills training and support.
9. Outreach to prospective employers on behalf of the member (e.g., job development; negotiation with prospective employers to customize, create or carve out a position for the member; employer needs analysis).
10. Job analysis (e.g., work site assessment or job accommodations evaluation).
11. Identifying and arranging transportation.
12. Career advancement services (e.g., assisting a member in making an upward career move or seeking promotion from an existing employer).
13. Reemployment services (if necessary due to job loss).
14. Financial literacy and asset development.
15. Other employment support services deemed necessary to enable the member to obtain employment.
16. Systematic instruction and support during initial on-the-job training including initial on-the-job training to stabilization.
17. Engagement of natural supports during initial period of employment.
18. Implementation of assistive technology solutions during initial period of employment.
19. Transportation of the member during service hours.
20. Initial on-the-job training to stabilization activity.

(5) Self-employment. Individual employment may also include support to establish a viable self-employment opportunity, including home-based self-employment. An expected outcome of supported self-employment is that the member earns income that is equal to or exceeds the average income for the chosen business within a reasonable period of time. In addition to the activities listed under subparagraph 78.27(10)“a”(4), assistance to establish self-employment may include:

1. Aid to the member in identifying potential business opportunities.
2. Assistance in the development of a business plan, including identifying potential sources of business financing and other assistance in developing and launching a business.
3. Identification of the long-term supports necessary for the individual to operate the business.

*b. Long-term job coaching.* Long-term job coaching is support provided to, or on behalf of, the member that enables the member to maintain an individual job in competitive employment, customized employment or self-employment in an integrated work setting in the general workforce.

(1) Scope. Long-term job coaching services are provided to or on behalf of members who need support because of their disabilities and who are unlikely to maintain and advance in individual employment absent the provision of supports. Long-term job coaching services shall provide individualized and ongoing support contacts at intervals necessary to promote successful job retention and advancement.

(2) Expected outcome of service. The expected outcome of this service is sustained employment paid at or above the minimum wage in an integrated setting in the general workforce, in a job that meets the member’s personal and career goals. An expected outcome of supported self-employment is that the member earns income that is equal to or exceeds the average income for the chosen business within a reasonable period of time.

(3) Setting. Long-term job coaching services shall take place in integrated work settings. For self-employment, the member’s home can be considered an integrated work setting. Employment in the service provider’s organization (not including a sheltered workshop or similar type of work setting) can be considered employment in an integrated work setting in the general workforce if the employment occurs in a work setting where interactions are predominantly with coworkers or business associates who do not have disabilities, or with the general public, and if the position would exist within the provider’s organization were the provider not being paid to provide the job coaching to the member.

(4) Service activities. Long-term job coaching services are designed to assist the member with learning and retaining individual employment, resulting in workplace integration, and which allows for the reduction of long-term job coaching over time. Services are individualized, and service plans are adjusted as support needs change and may include any combination of the following activities with or on behalf of the member:

1. Job analysis.
2. Job training and systematic instruction.
3. Training and support for use of assistive technology/adaptive aids.
4. Engagement of natural supports.
5. Transportation coordination.
6. Job retention training and support.
7. Benefits education and ongoing support.
8. Supports for career advancement.
9. Financial literacy and asset development.
10. Employer consultation and support.
11. Negotiation with employer on behalf of the member (e.g., accommodations; employment conditions; access to natural supports; and wage and benefits).
12. Other workplace support services may include services not specifically related to job skill training that enable the waiver member to be successful in integrating into the job setting.
13. Transportation of the member during service hours.
14. Career exploration services leading to increased hours or career advancement.

(5) Self-employment long-term job coaching. Self-employment long-term job coaching may include support to maintain a self-employment opportunity, including home-based self-employment. In addition to the activities listed under subparagraph 78.27(10)“b”(4), assistance to maintain self-employment may include:

1. Ongoing identification of the supports necessary for the individual to operate the business;
2. Ongoing assistance, counseling and guidance to maintain and grow the business; and
3. Ongoing benefits education and support.

(6) The hours of support for long-term job coaching are based on the identified needs of the member as documented in the member’s comprehensive service plan.

*c. Small-group supported employment.* Small-group supported employment services are training and support activities provided in regular business or industry settings for groups of two to eight workers with disabilities. The outcome of this service is sustained paid employment experience, skill development, career exploration and planning leading to referral for services to obtain individual integrated employment or self-employment for which an individual is compensated at or above the minimum wage, but not less than the customary wage and level of benefits paid by the employer for the same or similar work performed by individuals without disabilities.

(1) Scope. Small-group supported employment services must be provided in a manner that promotes integration into the workplace and interaction between members and people without disabilities (e.g., customers, coworkers, natural supports) in those workplaces. Examples include but are not limited to mobile crews and other business-based workgroups employing small groups of workers with disabilities in employment in integrated business settings; and small-group activities focused on career exploration and development of strengths and skills that contribute to successful participation in individual community employment.

(2) Expected outcome of service. Small-group supported employment services are expected to enable the member to make reasonable and continued progress toward individual employment. Participation in small-group supported employment services is not a prerequisite for individual supported employment services. The expected outcome of the service is sustained paid employment and skill development which leads to individual employment in the community.

(3) Setting. Small-group supported employment services shall take place in integrated, community-based nonresidential settings separate from the member’s residence.

(4) Service activities. Small-group supported employment services may include any combination of the following activities:

1. Employment assessment.
2. Person-centered employment planning.
3. Job placement (limited to service necessary to facilitate hire into individual employment paid at minimum wage or higher for a member in small-group supported employment who receives an otherwise unsolicited offer of a job from a business where the member has been working in a mobile crew or enclave).
4. Job analysis.
5. On-the-job training and systematic instruction.
6. Job coaching.
7. Transportation planning and training.
8. Benefits education.
9. Career exploration services leading to career advancement outcomes.
10. Other workplace support services may include services not specifically related to job skill training that enable the waiver member to be successful in integrating into the individual or community setting.
11. Transportation of the member during service hours.

*d. Service requirements for all supported employment services.*

(1) Community transportation options (e.g., transportation provided by family, coworkers, carpools, volunteers, self or public transportation) shall be identified by the member's interdisciplinary team and utilized before the service provider provides the transportation to and from work for the member. If none of these options are available to a member, transportation between the member's place of residence and the employment or service location may be included as a component part of supported employment services.

(2) Personal care or personal assistance and protective oversight may be a component part of supported employment services, but may not comprise the entirety of the service.

(3) Activities performed on behalf of a member receiving long-term job coaching or individual or small-group supported employment shall not comprise the entirety of the service.

(4) Concurrent services. A member's individual service plan may include two or more types of nonresidential services (e.g., individual supported employment, long-term job coaching, small-group supported employment, prevocational services, and day habilitation); however, more than one service may not be billed during the same period of time (e.g., the same hour).

(5) Integration requirements. In the performance of job duties, the member shall have regular contact with other employees or members of the general public who do not have disabilities, unless the absence of regular contact with other employees or the general public is typical for the job as performed by persons without disabilities.

(6) Compensation. Members receiving these services are compensated at or above the minimum wage, but not less than the customary wage and level of benefits paid by the employer for the same or similar work performed by individuals without disabilities. For supported self-employment, the member earns income that is equal to or exceeds the average income for the chosen business within a reasonable period of time. For small-group supported employment, if the member is not compensated at or above minimum wage, the compensation to the member shall be in accordance with all applicable state and federal labor laws and regulations.

*e. Limitations.* Supported employment services are limited as follows:

(1) Total monthly costs of supported employment may not exceed the monthly cap on the cost of waiver services set for the individual waiver program.

(2) In absence of a monthly cap on the cost of waiver services, the total monthly cost of all supported employment services may not exceed \$3,029.00 per month.

(3) Individual supported employment is limited to 240 units per calendar year.

(4) Long-term job coaching is limited in accordance with 441—subrule 79.1(2).

(5) Small-group supported employment is limited to 160 units per week.

*f. Exclusions.* Supported employment services payments shall not be made for the following:

(1) Services that are available to the individual under a program funded under Section 110 of the Rehabilitation Act of 1973 or the Individuals with Disabilities Education Act (20 U.S.C. 1401 et seq.). Documentation that the service is not available to the individual under these programs shall be maintained in the service plan of each member receiving individual supported employment or long-term job coaching services.

(2) Incentive payments, not including payments for coworker supports, made to an employer to encourage or subsidize the employer's participation in a supported employment program.

(3) Subsidies or payments that are passed through to users of supported employment programs.

(4) Training that is not directly related to a member's supported employment program.

(5) Services involved in placing and stabilizing members in day activity programs, work activity programs, sheltered workshop programs or other similar types of vocational or prevocational services furnished in specialized facilities that are not a part of the general workplace.

(6) Supports for placement and stabilization in volunteer positions or unpaid internships. Such volunteer learning and unpaid training activities that prepare a person for entry into the general workforce are addressed through prevocational services and career exploration activities.

(7) Tuition for education or vocational training.

(8) Individual advocacy that is not related to integrated individual employment participation or is not member-specific.

(9) Medicaid funds may not be used to defray the expenses associated with starting up or operating a business.

ITEM 10. Rescind subrule 78.41(7) and adopt the following **new** subrule in lieu thereof:

**78.41(7) Supported employment services.** Supported employment services are service activities provided pursuant to subrule 78.27(10).
