135A.2 Definitions.

As used in this chapter, unless the context otherwise requires, the following definitions apply:

- 1. "Academic institution" means an institution of higher education in the state which grants degrees in public health or another health-related field and is accredited by a nationally recognized accrediting agency as determined by the United States secretary of education. For purposes of this definition, "accredited" means a certification of the quality of an institution of higher education.
 - 2. "Department" means the department of public health.
- 3. "Designated local public health agency" means an entity that is either governed by or contractually responsible to a local board of health and designated by the local board.
- 4. "Governmental public health system" means local boards of health, the state board of health, designated local public health agencies, the state hygienic laboratory, and the department.
 - 5. "Local board of health" means the same as defined in section 137.102.
- 6. "Organizational capacity" means the governmental public health infrastructure that must be in place in order to deliver public health services.
- 7. "Public health system" means all public, private, and voluntary entities that contribute to the delivery of public health services within a jurisdiction.
