

347B.8 Visitation and inspection.

The board shall cause the county care facility to be visited at least once a month by one of its body, who shall carefully examine the condition of the residents and the manner in which they are fed and clothed and otherwise provided for and treated, ascertain what labor they are required to perform, inspect the books and accounts of the administrator, and look into all matters pertaining to the county care facility and its residents, and report to the board.
