

701—217.5(423) Bundled transactions in telecommunication service. More information on general rules on bundled transactions is contained in 701—Chapter 206. In the case of a bundled transaction that includes telecommunication service, ancillary service, Internet access, or audio or video programming service, either separately or in combination:

217.5(1) If the price is attributable to products that are taxable and products that are nontaxable, the portion of the price attributable to the nontaxable products will be subject to tax unless the provider can identify by reasonable and verifiable standards the portion from the provider's books and records that are kept in the regular course of business for other purposes, including but not limited to nontax purposes.

217.5(2) If the price is attributable to products that are subject to tax at different tax rates, the total price may be treated as attributable to the products subject to tax at the highest tax rate, unless the provider can identify by reasonable and verifiable standards the portion of the price attributable to the products subject to tax at the lower rate from the provider's books and records that are kept in the regular course of business for other purposes, including but not limited to nontax purposes.

This rule is intended to implement Iowa Code section 423.2(8).
