

871—23.7(96) New employer contribution rates.

23.7(1) A contributory employer means all employers other than employers which have elected, or are required by law, to reimburse the department for benefits paid in lieu of paying contributions. An employer which has earned a “zero” rate is still considered to be a contributory employer.

23.7(2) A nonconstruction contributory employer, which has not yet qualified for an experience rate, shall pay contributions at the rate specified in the twelfth benefit ratio rank but not less than 1 percent until the end of the calendar year in which the employer’s account has been chargeable with benefits for 12 consecutive calendar quarters immediately preceding the computation date.

23.7(3) A construction contributory employer, which has not yet qualified for an experience rate, shall pay contributions at the rate specified in the twenty-first benefit ratio rank until the end of the calendar year in which the employer’s account has been chargeable with benefits for 12 consecutive calendar quarters.

23.7(4) Once an employer has qualified for an experience rating, the rate will be computed in accordance with the formula given in Iowa Code section 96.7. Rates will vary from 0 percent to 9 percent depending on how each employer’s experience compares to the experience of all other employers.

23.7(5) For the purposes of this rule, an administrative contribution surcharge and a temporary emergency surcharge may be added to an employer’s contribution rate.

23.7(6) For the purposes of this rule, the first quarter in which an employer’s account will be considered chargeable with benefits will be the third quarter of the employer’s liability unless the employer paid and reported no wages during the first two quarters of liability. In that case, the employer will not be considered chargeable with benefits until the first quarter in which the employer pays and reports wages. Once an employer’s account has been chargeable with benefits it will be considered chargeable for rate computation purposes until it is terminated.

23.7(7) For the purposes of this rule, any single employer which has two or more establishments or businesses engaged in different industrial classification activities, with one or more establishments or businesses engaged in construction activity, as defined in rule 871—23.82(96), shall be assigned the contribution rate applicable to construction if 50 percent or more of the combined business activity is derived from the establishments or businesses engaged in construction activities.

This rule is intended to implement Iowa Code section 96.7.
