

567—100.1(455B,455D) Scope of title. The department has jurisdiction over the management, dumping, depositing, and disposal of solid waste by establishing standards for sanitary disposal projects and by regulating solid waste through a system of general rules and specific permits. The construction and operation of any sanitary disposal project requires a specific permit from the department.

This chapter provides general definitions applicable to Title VIII (solid waste management and disposal) of the commission's rules and general conditions of solid waste disposal.

This rule is intended to implement Iowa Code section 455B.304 and chapter 455D.
