

191—39.6(514G) Policy practices and provisions.

39.6(1) Renewability. The terms “*guaranteed renewable*” and “*noncancellable*” shall not be used in any individual long-term care insurance policy without further explanatory language in accordance with the disclosure requirements of this chapter. No such policy issued to an individual shall contain renewal provisions other than “*guaranteed renewable*” or “*noncancellable*.”

a. The term “*guaranteed renewable*” may be used only when the insured has the right to continue the long-term care insurance in force by the timely payment of premiums and when the insurer has no unilateral right to make any change in any provision of the policy or rider while the insurance is in force and cannot decline to renew. Rates may be revised by the insurer on a class basis.

b. The term “*noncancellable*” may be used only when the insured has the right to continue the long-term care insurance in force by the timely payment of premiums during which period the insurer has no right to unilaterally make any change in any provision of the insurance or in the premium rate.

c. Notwithstanding the provisions in 191—subrule 36.5(4), long-term care insurance policies may contain a return of premium or cash value benefit so long as:

(1) The return of premium or cash value benefit is not reduced by an amount greater than the aggregate of any claims paid under the policy; and

(2) The insurer demonstrates in its filings that the reserve basis for the policies is adequate.

Any advertisement or sales presentation of a long-term care insurance policy with a return of premium or cash value benefit provision shall include a side-by-side comparison of premiums for the same policy with and without the return of premium or cash value benefit provision.

d. The term “*level premium*” may be used only when the insurer does not have the right to change the premium.

e. In addition to the other requirements of this subrule, a qualified long-term care insurance contract shall be guaranteed renewable, within the meaning of Section 7702B(b)(1)(C) of the Internal Revenue Code of 1986.

39.6(2) Limitations and exclusions.

a. No policy may be delivered or issued for delivery in this state as long-term care insurance if such policy limits or excludes coverage by type of illness, treatment, medical condition or accident, except as follows:

(1) Preexisting conditions or disease;

(2) Mental or nervous disorders (however, this shall not permit exclusion or limitation of benefits on the basis of Alzheimer’s disease or similar forms of irreversible dementia nor limit coverage for Alzheimer’s disease to the skilled or intermediate level of care);

(3) Alcoholism and drug addiction;

(4) Illness, treatment or medical condition arising out of:

1. War or act of war (whether declared or undeclared);

2. Participation in a felony, riot or insurrection;

3. Service in the armed forces or units auxiliary thereto;

4. Attempted suicide (sane or insane) or intentional self-inflicted injury;

5. Aviation (this exclusion applies only to non-fare-paying passengers).

(5) Treatment provided in a government facility (unless otherwise required by law), services for which benefits are available under Medicare or other governmental program (except Medicaid), any state or federal workers’ compensation, employer’s liability or occupational disease law, or any motor vehicle no-fault law, services provided by a member of the covered person’s immediate family and services for which no charge is normally made in the absence of insurance;

(6) Expenses for services or items available or paid under another long-term care insurance or health insurance policy;

(7) In the case of a qualified long-term care insurance contract, expenses for services or items to the extent that the expenses are reimbursable under Title XVIII of the Social Security Act or would be so reimbursable but for the application of a deductible or coinsurance amount.

Paragraph “*a*” is not intended to prohibit exclusions and limitations by type of provider or territorial limitations.

b. Unless otherwise provided in the policy or certificate, a preexisting condition, regardless of whether it is disclosed on the application, need not be covered until the waiting period described in Iowa Code section 514G.105(3) "b" expires. No long-term care insurance policy or certificate may exclude or use waivers or riders of any kind to exclude, limit or reduce coverage or benefits for specifically named or described preexisting diseases or physical conditions beyond the waiting period described in Iowa Code section 514G.105(3) "b."

c. No long-term care insurance policy may be delivered or issued for delivery in this state if the policy conditions eligibility for any benefits other than waiver of premium, postconfinement, postacute care or recuperative benefits on a prior institutionalization requirement.

39.6(3) Extension of benefits. Termination of long-term care insurance shall be without prejudice to any benefits payable for institutionalization if such institutionalization began while the long-term care insurance was in force and continues without interruption after termination. Such extension of benefits beyond the period the long-term care insurance was in force may be limited to the duration of the benefit period, if any, or to payment of the maximum benefits and may be subject to any policy waiting period, and all other applicable provisions of the policy.

39.6(4) Continuation or conversion.

a. Group long-term care insurance issued in this state on or after January 1, 1992, shall provide covered individuals with a basis for continuation or conversion of coverage.

b. For the purposes of this rule, "*a basis for continuation of coverage*" means a policy provision which maintains coverage under the existing group policy when such coverage would otherwise terminate and which is subject only to the continued timely payment of premium when due. Group policies which restrict provision of benefits and services to, or contain incentives to use, certain providers or facilities may provide continuation benefits which are substantially equivalent to the benefits of the existing group policy. The commissioner shall make a determination as to the substantial equivalency of benefits, and in doing so, shall take into consideration the differences between managed care and nonmanaged care plans including, but not limited to, provider system arrangements, service availability, benefit levels and administrative complexity.

c. For the purposes of this rule, "*a basis for conversion of coverage*" means a policy provision that an individual whose coverage under the group policy would otherwise terminate or has been terminated for any reason, including discontinuance of the group policy in its entirety or with respect to an insured class, and who has been continuously insured under the group policy (and any group policy which it replaced), for at least six months immediately prior to termination, shall be entitled to the issuance of a converted policy by the insurer under whose group policy the individual is covered, without evidence of insurability.

d. For the purposes of this rule, "*converted policy*" means an individual policy of long-term care insurance providing benefits identical to or benefits determined by the commissioner to be substantially equivalent to or in excess of those provided under the group policy from which conversion is made. Where the group policy from which conversion is made restricts provision of benefits and services to, or contains incentives to use, certain providers or facilities, the commissioner, in making a determination as to the substantial equivalency of benefits, shall take into consideration the differences between managed care and nonmanaged care plans including, but not limited to, provider system arrangements, service availability, benefit levels and administrative complexity.

e. Written application for the converted policy shall be made and the first premium due, if any, shall be paid as directed by the insurer not later than 31 days after termination of coverage under the group policy. The converted policy shall be issued effective on the day following the termination of coverage under the group policy, and shall be renewable annually.

f. Unless the group policy from which conversion is made replaced previous group coverage, the premium for the converted policy shall be calculated on the basis of the insured's age at inception of coverage under the group policy from which conversion is made. Where the group policy from which conversion is made replaced previous group coverage, the premium for the converted policy shall be calculated on the basis of the insured's age at inception of coverage under the group policy replaced.

g. Continuation of coverage or issuance of a converted policy shall be mandatory, except where:

(1) Termination of group coverage resulted from an individual's failure to make any required payment of premium or contribution when due; or

(2) The terminating coverage is replaced not later than 31 days after termination, by group coverage, effective on the day following termination of coverage, that provides benefits identical to or benefits determined by the commissioner to be substantially equivalent to or in excess of those provided by the terminating coverage, and for which the premium is calculated in a manner consistent with the requirements of paragraph "f" of this subrule.

h. Notwithstanding any other provision of this rule, a converted policy issued to an individual who at the time of conversion is covered by another long-term care insurance policy which provides benefits on the basis of incurred expenses, may contain a provision which results in a reduction of benefits payable if the benefits provided under the additional coverage, together with the full benefits provided by the converted policy, would result in payment of more than 100 percent of incurred expenses. Such provision shall only be included in the converted policy if the converted policy also provides for a premium decrease or refund which reflects the reduction in benefits payable.

i. The converted policy may provide that the benefits payable under the converted policy, together with the benefits payable under the group policy from which conversion is made, shall not exceed those that would have been payable had the individual's coverage under the group policy remained in force and effect.

j. Notwithstanding any other provision of this rule, any insured individual whose eligibility for long-term care coverage is based upon the individual's relationship to another person shall be entitled to continuation of coverage under the group policy upon termination of the qualifying relationship by death or dissolution of marriage.

k. For the purpose of this rule: a "*Managed-Care Plan*" is a health care or assisted living arrangement designed to coordinate patient care or control costs through utilization review, case management or use of specific provider networks.

39.6(5) *Discontinuance and replacement.* If a group long-term care policy is replaced by another group long-term care policy issued to the same policyholder, the succeeding insurer shall offer coverage to all persons covered under the previous group policy on its date of termination. Coverage provided or offered to individuals by the insurer and premiums charged to persons under the new group policy:

a. Shall not result in any exclusion for preexisting conditions that would have been covered under the group policy being replaced; and

b. Shall not vary or otherwise depend on the individual's health or disability status, claim experience, or use of long-term care services.

39.6(6) *Premiums.*

a. The premiums charged to an insured for long-term care insurance shall not increase due to either:

(1) The increasing age of the insured at ages beyond 65; or

(2) The duration the insured has been covered under the policy.

b. The purchase of additional coverage shall not be considered a premium rate increase, but for purposes of the calculation required under subrule 39.29(6), the portion of the premium attributable to the additional coverage shall be added to and considered part of the initial annual premium.

c. A reduction in benefits shall not be considered a premium change, but for purposes of the calculation required under subrule 39.29(6), the initial annual premium shall be based on the reduced benefits.

39.6(7) *Electronic enrollment for group policies.* In the case of group long-term care insurance, any requirement that a signature of an insured be obtained by a producer or insurer shall be deemed satisfied if:

a. The consent is obtained by telephonic or electronic enrollment by the group policyholder or insurer. A verification of enrollment information shall be provided to the enrollee;

b. The telephonic or electronic enrollment provides necessary and reasonable safeguards to ensure the accuracy, retention and prompt retrieval of records; and

c. The telephonic or electronic enrollment provides necessary and reasonable safeguards to ensure that the confidentiality of individually identifiable information and privileged information is maintained.

The insurer shall make available, upon request of the commissioner, records that will demonstrate the insurer's ability to confirm enrollment and coverage amounts.
