

191—70.8(514C) Utilization review of postdelivery benefits and care. When performing utilization review of inpatient hospital services related to maternity and newborn care, including but not limited to length of postdelivery stay and postdelivery follow-up care, a third-party payor shall use the guidelines adopted under the provisions of rule 191—81.3(514C) and shall not deselect, require additional documentation, require additional utilization review, terminate services to, reduce payment to, or in any manner provide a disincentive to an attending physician solely on the basis that the attending physician provided or directed the provision of services in compliance with those guidelines. This does not preclude a third-party payor from monitoring a patient's stay or making reasonable inquiries necessary to assess patient progress in accordance with the guidelines and to coordinate discharge planning or postdischarge care.

This rule is intended to implement Iowa Code section 514C.11.
