LSA Response: The LSA concurs.

ARC 2462C

Rule Summary Updates the Child Care Assistance (CCA) Program to implement mandated Program changes from the federal Child Care and Development Block Grant (CCDBG).

Changes include the following.

- A 12-month eligibility certification period, instead of the current six-month period.
- New exit eligibility criteria for families with income exceeding 145.0% of the Federal Poverty Level, but below 85.0% of the State Median Income (SMI). This will last for another 12 months or until the family income exceeds 85.0% SMI.
- Expands the job search period from one month to three months for families that experience a temporary change in employment or education.
- Extends assistance to 12 months regardless of temporary changes.
- Permits cancellation for eligibility after a non-temporary change and after the three-month job search period.
- Adds a \$1.0 million family resource/asset limit.
- Changes provider rate table to add higher reimbursement rates for Quality Rating System Level 5 providers.
- Allows payment to nonresident providers without the need for the family to request a policy exception.
- Makes technical corrections.

Agency Stated Authority: Iowa Code section 234.6.

Fiscal Impact

Agency Response: Total cost increase for FY 2017 is \$8.0 million. The total cost increase for FY 2018 is \$9.1 million. An increase in Temporary Assistance for Needy Families (TANF) funding along with a projected reduction in the existing expenditures for the CCA are expected to cover this cost increase for FY 2017. The impact of each item for FY 2017 is listed below.

- 12-Month Eligibility: \$3.7 million.
- Exit Eligibility: \$1.3 million.
- Job Search: \$1.5 million.
- Tiered Reimbursement: \$700,000.

Rule Summary

Expands juvenile court services to juveniles age 18-21 following SF 412 (Child Welfare Improvements).

Agency Stated Authority: Iowa Code section 217.6.

Fiscal Impact

Agency Response: Current Juvenile Court System (JCS) jurisdiction ends at age 18 for clients involved with the Court. With the expansion to age 21, there will be some clients that may continue counseling or receive emergency services after age 18. Although some youth may have services extended, this can be done with existing funding.

LSA Response: The LSA concurs. The Iowa Department of Human Services currently has several resources with existing funding for youth above age 18, such as the Aftercare Program, that is administered by the Iowa Aftercare Services Network (IASN). The IASN assists youth exiting state training schools or court-ordered detention at age 18 or older. Additionally, the Preparation for Adult Living Program (PAL) provides support to youth leaving state training schools or court-ordered detention on or after age 18. The PAL allocation received \$4.0 million in SF 505 (FY 2016 Health and Human Services Appropriations Act).

Rule Summary

Establishes standards for mental health advocates that provide services under Iowa Code chapter 229, Hospitalization of Persons with Mental Illness. These amendments include standards for definitions, appointment and qualifications, assignment, advocate and county responsibilities, data collection requirements, and performance improvement for mental health advocate services.

Prior to July 1, 2015, advocates were appointed by the Judicial Branch and paid by the counties. The legislation made mental health advocates county employees,

effective July 1, 2015. Prior to July 1, 2015, procedures varied by judicial region and by county. The amendments will provide consistency in requirements for hiring the advocate and performance standards.

Agency Stated Authority: Iowa Code section 225C.6.

Fiscal Impact

Agency Response: These amendments do not create additional cost for the state, counties, or regions since the advocate costs are already paid by the counties and Mental Health and Disability Service (MHDS) regions.

LSA Response: The LSA concurs.

Rule Summary

Implements the changes in employment service definitions as provided by the Centers for Medicaid Services (CMS) in the September 16, 2011, Informational Bulletin and the 2015 Technical Guide. This rule changes the provider qualifications, service scope, duration, limitation, and reimbursement methodologies for the Home and Community-Based Services (HCBS) Prevocational and Supported Employment services within that Habilitation Program and the Intellectual Disability (ID) and Brain Injury (BI) waivers.

ARC 2471C

Agency Stated Authority: Iowa Code section 249A.4.

Fiscal Impact

Agency Response: Minimal fiscal impact. The expanded employment services and rates will increase Medicaid costs, but this will be offset by lower prevocational rates and a shift in some services to Iowa Vocational Rehabilitative Services (IVRS). The implementation model predicts budget neutrality in Year 1 FY 2016 and budget savings in future fiscal years.
