Food and Consumer Safety Bureau — Department of Inspections and Appeals

Overview

The Food and Consumer Safety Bureau is located in the Administration Division of the Department of Inspections and Appeals (DIA). The Bureau is responsible for administering and enforcing the Iowa Food Code (Iowa Code chapter [137F](#)) by conducting food safety inspections at food establishments (grocery stores, restaurants, and convenience stores), food processing plants, school concession stands, and mobile food units (food trucks). According to the DIA, the purpose of the Iowa Food Code is to “safeguard the public health and provide to consumers, food that is safe, unadulterated and honestly prepared.” In addition to grocery stores, restaurants, and convenience stores, the Bureau deals with bed and breakfast homes and inns, farmers markets and temporary food establishments, and home food establishments. The Food and Consumer Safety Bureau also maintains a [restaurant inspection website](#) through which visitors can view or download inspection reports for Iowa food establishments, food processing plants, and hotels and motels.

All food establishments in Iowa are inspected according to the Iowa Food Code. The Food Code is based on food safety recommendations developed by the federal Food and Drug Administration, in consultation with representatives from the food industry and regulators. The DIA also contracts with local health agencies to conduct inspections. The Food Code is derived from scientifically developed factors focusing on public health and the prevention of foodborne illness.

Also housed under the Food and Consumer Safety Bureau is the Social and Charitable Gambling Program. This Program administers Iowa Code chapter [99B](#) to regulate games of skill or chance, raffles, bingo, social gambling, and amusement devices. Qualified organizations may obtain a social or charitable gambling license to conduct fundraising activities benefiting educational, civic, public, charitable, patriotic, or religious purposes. Gambling receipts, including receipts of nonprofit organizations, are subject to Iowa sales tax. A social gambling license authorizes gambling on small-stakes card and parlor games (such as cribbage, euchre, hearts, checkers, chess, dominoes, etc.) between individuals. The Food and Consumer Safety Bureau also conducts health inspections at hotels and motels. These are conducted for new establishments and when the Bureau receives a complaint.

In recent years, trends have indicated that more municipalities are turning the duty of food inspections back over to the Bureau, as opposed to locally enforcing. Enacted in May 2016, [Senate File 2314](#) (FY 2017 Administration and Regulation Subcommittee Appropriations Act) amended the process of collecting fees associated with inspections by permitting the DIA to keep fee revenue collected from inspections beginning in FY 2017. Fees collected on behalf of a municipal corporation are not retained by the Department. The Department is required to deposit \$800,000 in collected fees into the General Fund and permitted to retain the remainder in its operating budget.
