Planning, Programming, and Modal Division — Road Use Tax Fund

Purpose and History

The Planning, Programming, and Modal Division of the Department of Transportation (DOT) is responsible for developing both long- and short-range transportation plans; forecasting road funding revenues; developing the Five-Year Transportation Improvement Program; developing city, county, and State transportation maps; and administering several grant programs and financial assistance programs. The Division also forecasts traffic, maintains the DOT traffic and roadway conditions databases, administers the Iowa Clean Air Attainment Program, and coordinates activities with the Metropolitan Planning Organizations and Regional Planning Affiliations. The Division acts as liaison to the DOT's federal counterpart agencies and provides technical assistance related to the multimodal transportation systems as well.

The Division is composed of five offices:

- Office of Aviation
- Office of Rail Transportation
- Office of Public Transit
- Office of Program Management
- Office of Systems Planning

Grant Programs and Financial Assistance Programs Administered

The different offices in the Division administer several grant programs and financial assistance programs. Many of these are federal funding programs that the Division oversees or on which the Division provides guidance to recipients. Many of the grant programs are based on a competitive process. Several of the assistance programs are distributed by formula or based on population. Following is a list of program examples. This list of grant and assistance programs is not comprehensive.

Office of Rail Transportation:

- Railroad Revolving Loan and Grant Program
- Railroad Rehabilitation and Improvement Financing
- Grade Crossing Surface Repair Program
- Federal-Aid Rail-Highway Crossing Safety Program
- Iowa's Grade Crossing Safety Program
