## Online State Job Posting System

### Overview

The online State job posting system is required to be accessible through the Department of Education's Internet site and must include all job openings offered by school districts, charter schools, Area Education Agencies (AEAs), and the Department of Education. Accredited nonpublic schools may, but are not required to, submit job openings to the Department of Education for posting on the system. The online State job posting system is called Teach Iowa and is accessible on the Internet at [TeachIowa.gov](http://TeachIowa.gov).

The job posting system is not intended to do any of the following:

- Prohibit any employer from advertising job openings and recruiting employees independently of the system.
- Prohibit any employer from using another method of advertising job openings or another applicant tracking system in addition to the system.
- Provide the Department of Education with any regulatory authority in the hiring process or hiring decisions of any employer other than the Department.

### Funding

The Department of Education currently receives a General Fund appropriation of \$230,000 for the TeachIowa.gov Internet site.
