

Budget Unit Brief

FY 2017

Abandoned Vehicle Fund

Abandoned Vehicle Process

If a vehicle is left unattended along a public roadway, an officer will tag it. After 10 days, the vehicle is declared an abandoned vehicle. An abandoned vehicle means any of the following, per Iowa Code section [321.89](#):

- A vehicle that has been left unattended on public property for more than 24 hours and lacks current registration plates or two or more wheels or other parts rendering the vehicle totally inoperable.
- A vehicle that has remained illegally on public property for more than 24 hours.
- A vehicle that has been unlawfully parked on private property or has been placed on private property without the consent of the owner or person in control of the property for more than 24 hours.
- A vehicle that has been legally impounded by order of a police authority and has not been reclaimed for a period of 10 days. However, a police authority may declare the vehicle abandoned within the 10-day period by commencing the notification process.
- Any vehicle parked on a highway determined by a police authority to create a hazard to other vehicle traffic.
- A vehicle that has been impounded by an order of the court, and the owner has not paid the impoundment fees after notification by the person or agency responsible for carrying out the impoundment order per Iowa Code section [321J.4B](#).

Once a vehicle has been declared abandoned, the officer will attempt to determine the owner through the [Department of Transportation](#) (DOT) records and request that the owner be notified if the vehicle must be moved within a reasonable time or it will be impounded. If the owner cannot be contacted or the vehicle is not moved, it will be impounded. Once impounded, an inventory of the vehicle is taken.

Within 20 days of impoundment, the last known registered owner of the vehicle and all lienholders of record are notified by certified mail. A notice in a general publication newspaper in the area where the vehicle was abandoned can also serve as a notification if the owner cannot be located.

The owner of a vehicle towed and stored who later claims the vehicle, must pay all costs associated with impoundment. If no one comes forward to claim the vehicle in the 21-day period, the vehicle is considered abandoned and the following may occur:

- Sold at auction for use on the highway after an inspection.
- Sold at auction for junk, demolished, or sold as scrap.
- Sold at auction with a restricted certificate of title and not for use on the highways.

Funding

The Abandoned Vehicle Fund is under the control of the [Iowa State Patrol](#) (ISP) and is used for towing and storage expenses incurred by the ISP for removing abandoned vehicles from the roadway. Receipts to the Fund consist of reimbursements from the DOT and are paid from the Road Use Tax Fund. The ISP also reimburses towing companies for towing and storing vehicles from the Abandoned Vehicle Fund. Auction proceeds for vehicles in reasonable condition are deposited in the Road Use Tax Fund after holding the proceeds for 90 days for the owner or entitled lienholder.
