ISU — Student Innovation Center

Purpose

These appropriations will fund the construction of the Student Innovation Center at Iowa State University (ISU). The 175,000-square-foot facility will be located on the ISU central campus and will provide a student-focused hub for experimental learning, entrepreneurship, and innovation. The facility will also include a designated student entrepreneurial space focused on startup companies. The building will serve as a multidisciplinary hub for student collaboration. The building will house an auditorium, classrooms, meeting rooms, fabrication areas, staff offices, and a café.

Funding

Funding to the Student Innovation Center was initially appropriated from the RIIF in the 2015 Session. These appropriations have been amended twice since they were initially enacted, but the total funding is unchanged. Appropriations for the Center and subsequent changes are below.
