CODE EDITOR’S NOTES

Reference

Simple Harmonization Note

The multiple amendments do not conflict, so they were harmonized to give effect to each as required by Code sections 2B.13 and 4.11. In some cases where this note is referenced, the amendments are identical. Under Code section 2B.13, a strike or repeal prevails over an amendment to the same material and does not create a conflict.

124.204

2020 Acts, ch 1023, §3, 4, and 6, amend subsections 4 and 7, effective June 1, 2020, by striking the words “, except as otherwise provided by rules of the board for medicinal purposes” from the text of subsection 4, paragraphs “m” and “u”, and by striking all of subsection 7. 2019 Acts, ch 130, §22, amends subsection 4, effective April 8, 2020, by striking “by rules of the board for medicinal purposes” and adding “in subsection 7” in subsection 4, paragraph “m”, and by internally renumbering and adding a new subparagraph (2) to paragraph “u”. 2019 Acts, ch 130, §23, amends subsection 7, effective April 8, 2020, and adds new language defining the terms “hemp” and “hemp products”. The amendments to section 4, paragraph “m”, conflict and, because the changes made by 2019 Acts, ch 130, §22, are dependent upon language stricken by 2020 Acts, ch 1023, §3, the changes made by 2020 Acts, ch 1023, §3, prevailed and were codified. The amendments by 2020 Acts, ch 1023, §4, and 2019 Acts, ch 130, §22, to subsection 4, paragraph “u”, do not conflict and were harmonized to give effect to each Act. Because 2020 Acts, ch 1023, §6, struck the existing language that was amended by 2019 Acts, ch 130, §23, the strike by 2020 Acts, ch 1023, §6, prevailed and was codified. The new language added by 2019 Acts, ch 130, §23, however, being independent of the stricken language, was codified in subsection 7.

422.11N

2020 Acts, ch 1062, §94, directs the Code editor to change the word “division” to “subchapter” in subsection 3, unnumbered paragraph 1, effective July 1, 2020. The section is repealed effective January 1, 2021, pursuant to the terms of subsection 10. The repeal prevails and was codified, but the terminology change was in effect from July 1, 2020, until January 1, 2021.

422.25

2020 Acts, ch 1118, §17, amends subsection 1 by adding a new paragraph “c” at the end of the subsection. 2020 Acts, ch 1118, §63, strikes and rewrites subsection 1. Although 2020 Acts, ch 1118, §63, eliminates the former content of subsection 1, because the language contained in 2020 Acts, ch 1118, §17, was an addition to the subsection and not an amendment to the stricken text, the amendment from 2020 Acts, ch 1118, §17, was codified at the end of subsection 1 as a new paragraph “f”.

v
422.33  2020 Acts, ch 1062, §94, directs the Code editor to change the word “division” to “subchapter” in subsection 4, paragraph “a”, effective July 1, 2020. The subsection was stricken pursuant to the terms of paragraph “c” of that subsection, effective January 1, 2021. The strike prevails and was codified, but the terminology change was in effect from July 1, 2020, until January 1, 2021.

422.60  2020 Acts, ch 1062, §94, directs the Code editor to change the word “division” to “subchapter” in subsection 2, paragraph “a”, effective July 1, 2020. Subsection 2 is repealed pursuant to the terms of paragraph “c” of that subsection, effective January 1, 2021. The repeal prevails and was codified, but the terminology change was in effect from July 1, 2020, until January 1, 2021.

3. “Department” means the state department of transportation. [C75, 77, 79, 81, §306.2]
2000 Acts, ch 1148, §1; 2002 Acts, ch 1119, §200, 201

306.3 Definitions used throughout Code.
As used in this chapter or in any chapter of the Code relating to highways, except as otherwise specified:
1. “Area service” or “area service system” means those secondary roads that are not part of the farm-to-market road system.
2. “County conservation parkways” or “county conservation parkway system” means those parkways located wholly within the boundaries of county lands operated as parks, forests, or public access areas.
3. “Farm-to-market roads” or “farm-to-market road system” means those county jurisdiction intracounty and intercounty roads which serve principal traffic generating areas and connect such areas to other farm-to-market roads and primary roads. The farm-to-market road system includes those county jurisdiction roads providing service for short-distance intracounty and intercounty traffic or providing connections between farm-to-market roads and area service roads, and includes those secondary roads which are federal aid eligible. The farm-to-market road system shall not exceed thirty-five thousand miles.
4. “Interstate roads” or “interstate road system” means those roads and streets of the primary road system that are designated by the secretary of the United States department of transportation as the national system of interstate and defense highways in Iowa.
5. “Municipal street system” means those streets within municipalities that are not primary roads or secondary roads.

10. “State park, state institution, and other state land road system” consists of those
306.4 Jurisdiction of systems.
The jurisdiction and control over the roads and streets of the state are vested as follows:

1. Jurisdiction and control over the primary roads shall be vested in the department.
2. Jurisdiction and control over the secondary roads shall be vested in the county board of supervisors of the respective counties.
3. a. Effective July 1, 2004, jurisdiction and control over a farm-to-market extension or road transferred pursuant to section 306.8A within a city with a population of less than five hundred shall be vested in the county board of supervisors of the respective county.
   b. If the population of a city drops below five hundred after July 1, 2004, as determined by the latest available federal census or special census, jurisdiction and control over a farm-to-market extension located within the city shall be vested in the county board of supervisors of the respective county effective July 1 following census certification by the secretary of state.
   c. If the population of a city from which jurisdiction and control over a road has been transferred pursuant to paragraph “a” or “b” exceeds seven hundred fifty, as determined by the latest available federal census or special census, such jurisdiction and control shall be transferred back to the city effective July 1 following census certification by the secretary of state.
4. a. Jurisdiction and control over the municipal street system shall be vested in the governing bodies of each municipality; except that the department and the municipal governing body shall exercise concurrent jurisdiction over the municipal extensions of primary roads in all municipalities. When concurrent jurisdiction is exercised, the department shall consult with the municipal governing body as to the kind and type of construction, reconstruction, repair, and maintenance and the two parties shall enter into agreements with each other as to the division of costs thereof.
   b. When the two parties cannot initially come to agreement as to the division of costs under this subsection, they shall contract with an organization in this state to provide mediation services. The costs of the mediation services shall be equally allocated between the two parties. If after submitting to mediation the parties still cannot come to agreement as to the division of costs, the mediator shall sign a statement that the parties did not reach an agreement, and the parties shall then submit the matter for binding arbitration to a mutually agreed-upon third party. If the parties cannot agree upon a third-party arbitrator, they shall submit the matter to an arbitrator selected under the rules of the American arbitration association.
5. Jurisdiction and control over the roads and streets in any state park, state institution or other state land shall be vested in the board, commission, or agency in control of such park, institution, or other state land; except that:
   a. The department and the controlling agency shall have concurrent jurisdiction over any road which is an extension of a primary road and which both enters and exits from the state land at separate points. The department may expend the moneys available for such roads in the same manner as the department expends such funds on other roads over which the department exercises jurisdiction and control. The parties exercising concurrent jurisdiction may enter into agreements with each other as to the kind and type of construction, reconstruction, repair and maintenance and the division of costs thereof. In the absence of such agreement the jurisdiction and control of such road shall remain in the department.
   b. The board of supervisors of any county and the controlling state agency shall have concurrent jurisdiction over any road which is an extension of a secondary road and which both enters and exits from the state land at separate points. The board of supervisors of any
county may expend the moneys available for such roads in the same manner as the board expends such funds on other roads over which the board exercises jurisdiction and control. The department and the county conservation board shall have concurrent jurisdiction over an extension of a primary road which both enters and exits from a county park or other county conservation area at separate points. The department may expend moneys available for such roads in the same manner as the department expends such funds on other roads over which the department exercises jurisdiction and control. The parties exercising concurrent jurisdiction may enter into agreements with each other as to the kind and type of construction, reconstruction, repair and maintenance and the division of costs thereof. In the absence of such agreement, the jurisdiction and control of such roads shall remain in the department.
   b. The board of supervisors of any county and the county conservation board shall have concurrent jurisdiction over an extension of a secondary road which both enters and exits from a county park or other county conservation area at separate points. The board of supervisors of any county may expend moneys available for such roads in the same manner as the board expends such funds on other roads over which the board exercises jurisdiction and control. The parties exercising concurrent jurisdiction may enter into agreements with each other as to the kind and type of construction, reconstruction, repair and maintenance and the division of costs thereof. In the absence of such agreement, the jurisdiction and control of such roads shall remain in the department.

306.7 Functions changed or new roads added. Repealed by 98 Acts, ch 1075, §17.

306.8 Transfer of jurisdiction.

1. Prior to a change in jurisdiction of a road or street, the unit of government having jurisdiction shall either place the road or street and any structures on the road or street in good repair or provide for the transfer of money to the appropriate jurisdiction in an amount sufficient for the repairs to the road or street and any structures on the road or street.

2. Transfers of the jurisdiction and control of roads and streets may take place if agreements are entered into between the jurisdictions involved in the transfer of such roads and streets.

306.9 Diagonal roads — restoring and improving existing roads.

1. It is the policy of the state of Iowa that relocation of primary highways through cultivated land shall be avoided to the maximum extent possible. When the volume of traffic for which the road is designed or other conditions, including designation as part of the network of commercial and industrial highways, require relocation, diagonal routes shall be avoided if feasible and prudent alternatives consistent with efficient movement of traffic exist.

2. The improvement of two-lane roads shall utilize the existing right-of-way unless
alignment or other conditions, including designation as part of the network of commercial and industrial highways, make changes imperative, and when a two-lane road is expanded to a four-lane road, the normal procedure shall be that the additional right-of-way be contiguous to the existing right-of-way unless relocated for compelling reasons, including the need to provide efficient movement of traffic on the network of commercial and industrial highways. This policy does not apply to a highway project for which the corridor has been approved by the state department of transportation and the corridor has been finalized by September 1, 1977.

3. It is the policy of the state of Iowa that in constructing primary highways designed with four-lane divided roadways, access controls shall be limited to the minimum level necessary, as determined by the department, to ensure the safe and efficient movement of traffic or to comply with federal aid requirements.

4. Unless otherwise required by the federal law or regulation, it is also the policy of this state that road use tax fund moneys shall be used to rehabilitate or reconstruct existing roads, streets, and bridges using substantially existing right-of-way. This subsection does not apply where additional right-of-way is needed for the construction or completion of designated interstate or city routes and highway bypasses or highways designated as part of the network of commercial and industrial highways.

[C79, 81, §306.9; 81 Acts 2d Ex, ch 2, §1]

306.10 Power to establish, alter, or vacate.

In the construction, improvement, operation or maintenance of any highway, or highway system, the agency which has control and jurisdiction over such highway or highway system, shall have power, on its own motion, to alter or vacate and close any such highway or railroad crossing thereon, and to establish new highways or railroad crossing thereon which are or are intended to become a part of the highway system over which said agency has jurisdiction and control.

In proceeding to the vacation and closing of a road, part thereof, or railroad crossing, the agency in control of the road, or road system, shall fix a date for a hearing on the vacation and closing in the county where the road, or part thereof, or crossing, is located, and if located in more than one county, then in any county in which any part of the road or crossing is located. If the road to be vacated or closed is a secondary road located in more than one county, the boards of supervisors of the counties, acting jointly, shall fix a date for a hearing on the vacation or change in either or any of the counties where the road, or part thereof, is located.

If the proposed vacation is part of a road right-of-way held by easement and will not change the existing traveled portion of the road or deny access to the road by adjoining landowners, a hearing is not required.

The agency which is holding the hearing shall notify all adjoining property owners, all utility companies whose facilities adjoin the road right-of-way or are on the road right-of-way, and the department, boards of supervisors, or

306.14 Objections — claims for damages.
The department, the board of supervisors, or the agency in control of affected state lands and any interested person, may appear and be heard at the hearing. Any person owning land abutting on a road proposed to be vacated and closed, shall have the right to file, in writing, a claim for damages at any time on or before the date fixed for hearing. However, for purposes of this chapter, if an occupied homestead is not located on the abutting land and if the vacating and closing of the road will not landlock the abutting land, a person shall not have a right to claim damages.

306.15 Purchase and sale of property.
If as to any one or more properties affected by the proposed vacation and closing of a secondary road, it appears to the board of supervisors to be in the interest of economy or public welfare, the board may purchase or condemn, by proceeding as this chapter provides, the entire properties, and make payment for them. After the road has been vacated and closed the board shall sell the properties at the best attainable price.

306.16 Final order.
After the hearing, the agency which instituted the proceedings and conducted the hearing shall enter an order either dismissing the proceedings, or vacating and closing the road, part thereof, or crossing, in which event it shall determine and state in the order the amount of the damages allowed to each claimant. The order thus entered shall be final except as to the amount of the damages unless the order is rescinded as provided in section 306.17. A copy of the order shall be filed with the county auditor of the county or counties in which the road, part thereof, or crossing, is located and with the department and the agency in control of any affected state land.

306.17 Appeal.
Notwithstanding the terms of the Iowa administrative procedure Act, chapter 17A, any claimant for damages may, by serving, within twenty days after the order has been issued, a written notice upon the agency which instituted and conducted the proceedings, appeal as
to the amount of damages, to the district court of the county in which the land is located, in
the manner and form prescribed in chapter 6B with reference to appeals from condemnation,
and the proceedings shall thereafter conform to the applicable provisions of that chapter. If,
in the opinion of the agency, the damages as finally determined on appeal are excessive, the
agency may rescind its order vacating and closing the road, part thereof, or crossing, and the
right-of-way shall remain under the jurisdiction of the agency. If the order is rescinded at any
time after an appeal is taken, the agency shall pay reasonable attorney fees incurred by the
claimant as taxed by the court.

306.19 Right-of-way — access — notice.
1. In the maintenance, relocation, establishment, or improvement of any road, including
the extension of such road within cities, the agency having jurisdiction and control of
such road shall have authority to purchase or to institute and maintain proceedings for
the condemnation of the necessary right-of-way therefor. Such agency shall likewise have
power to purchase or institute and maintain proceedings for the condemnation of land
necessary for highway drainage, or land containing gravel or other suitable material for the
improvement or maintenance of highways, together with the necessary road access or right
of access thereto.

2. Whenever the agency condemns or purchases property access rights or alters by
lengthening any existing driveway to a road from abutting property, except during the time
required for construction and maintenance of the road or highway, the agency shall:
   a. Compensate the owner for any diminution in the market value of the property by the
denial or alteration by lengthening the driveway. In computing the diminution in value,
no consideration shall be given to the additional maintenance expense for maintaining
the additional length of driveway, but in lieu thereof, both in condemnation proceedings
or negotiated purchases, the agency shall pay to the owner the sum of twenty dollars for
every linear foot of additional length of driveway located on the owner’s property. This
payment shall represent just compensation to the property owner for the additional driveway
maintenance caused by reason of the highway or road project.
   b. If in the opinion of the agency it would be more economical to purchase the entire tract
of the property owner than to provide and pay the maintenance expense required under the
provisions of this section, proceed with the acquisition of the entire tract of land; or
   c. If mutually agreeable, move buildings from an existing location to a location requiring
an equal or lesser length of driveway and provide an adequate driveway to a public road.

3. None of the foregoing requirements shall prohibit the property owner and the
agency from entering into a mutually acceptable agreement for the replacement,
relocation, construction, or maintenance of any alternate driveway on the owner’s property.
Compensation for any property rights taken in the establishment of any alternative
temporary or permanent access shall be paid as in any other purchase or condemnation of
property.

4. Proceedings for the condemnation of land for any highway shall be under the
provisions of chapter 6A and chapter 6B. Provided that, in the condemnation of right-of-way
for secondary roads that is contiguous to existing road right-of-way for the maintenance,
safety improvement, or upgrade of the existing secondary road, the board of supervisors
may proceed as provided in sections 306.28 to 306.37.

5. a. The department may notify a city or county that a road under the jurisdiction or
control of the department will be established, improved, relocated, or maintained and that
the department may need to acquire additional right-of-way or property rights within an
area described by the department. The notice shall include a depiction of the area on a map
provided by the city, county, or the department. This notice shall be valid for a period of three
years from the date of notification to the city or county and may be refiled by the department
every three years. Within seven days of filing the notice, the department shall publish in
a newspaper of public record a description and map of the area and a description of the
potential restrictions applied to the city or county with respect to the granting of building
permits, approving of subdivision plats, or zoning changes within the area.

b. The city or county shall notify the department of an application for a building permit
for construction valued at twenty-five thousand dollars or more, of the submission of a
subdivision plat, or of a proposed zoning change within the area at least thirty days prior
to granting the proposed building permit, approving the subdivision plat, or changing the
zoning.

c. If the department, within the thirty-day period, notifies the city or county that the
department is proceeding to acquire all or part of the property or property rights affecting
the area, the city or county shall not issue the building permit, approve the subdivision plat,
or change the zoning. The department may apply to the city or county for an extension of
the thirty-day period. After a public hearing on the matter, the city or county may grant an
additional sixty-day extension of the period.

d. The department shall begin the process of acquiring property or property rights from
affected persons within ten days of the department’s written notification of intent to the city
or county.

6. If the agency determines that it is necessary to relocate a utility facility, the agency
shall have the authority to institute and maintain proceedings on behalf of the owner of
the utility facility for the condemnation of replacement property rights. The replacement
property rights shall be equal in substance to the existing rights of the owner of the utility
facility, except that the replacement property rights shall be for a width and location deemed
appropriate and necessary for the needs of the owner of the utility facility, as determined by
the agency and the owner of the facility. The replacement property rights of the owner of the
utility facility shall be subordinate to the rights of the agency only to the extent necessary
for the construction and maintenance of the designated road. Within a reasonable time
after completion of the relocation, all previously owned property rights of the owner of the
utility facility no longer required for operation and maintenance of the utility facility shall
be released or conveyed to the appropriate parties. The authority of the agency under this
subsection may only be exercised upon execution of a relocation agreement between the
agency and the owner of the facility. For purposes of this subsection, “utility facility”
means an electric, gas, water, steam power, or materials transmission or distribution system;
a transportation system; a communications system, including cable television; and fixtures,
equipment, or other property associated with the operation, maintenance, or repair of the
system. A utility facility may be publicly, privately, or cooperatively owned.

7. For the purposes of this section, the term “driveway” shall mean a way of ingress and
egress located entirely on private property, consisting of a lane or passageway leading from
a residence to a public roadway or highway.

[§1 306.20] 306.20 Cemeteries.
No road shall be established through any cemetery or burying ground without the consent
of all the parties affected by the same.

306.21 Plans, plats and field notes filed.

All road plans, plats and field notes and true and accurate diagrams of water, sewage and electric power lines for rural subdivisions shall be filed with and approved by the board of supervisors and the county engineer before the subdivision is laid out or recorded. Such plans shall be clearly designated as “completed”, “partially completed” or “proposed” with a statement of the portion completed and the expected date of full completion. If such road plans are not approved as provided in this section such roads shall not become the part of any road system as defined in this chapter.

2. The department may contract for the sale of any tract of land subject to the following terms and conditions:

a. The discounted present market value of the contract offer, including the cash down payment, shall exceed one hundred ten percent of the highest cash offer submitted for the tract if a cash offer is received. The discount rate shall be the rate of interest stated in the contract.

b. The cash down payment shall be equal to or in excess of five percent of the total purchase price.

c. The term of the contract shall not exceed ten years.

d. The rate of interest stated in the contract shall not be less than the prevailing rate of interest charged on contract land sales by sellers in the county or general area in which the tract of land is located.

e. The department shall advertise for cash bids and contract offers before accepting a contract offer.

f. The appraised value of property sold under a land contract sale shall be at least five thousand dollars.

The agency in control of a tract, parcel, or piece of land, or part thereof, which is unused right-of-way shall send by certified mail to the last known address of the present owner of adjacent land from which the tract, parcel, piece of land, or part thereof, was originally purchased or condemned for highway purposes, and to the person who owned the land at the time it was purchased or condemned for highway purposes, notice of the agency’s intent to sell the land, the name and address of any other person to whom a notice was sent, and the fair market value of the real property based upon an appraisal by an independent appraiser.
2. The notice shall give an opportunity to the present owner of adjacent property and to the person who owned the land at the time it was purchased or condemned for highway purposes to be heard and make offers within sixty days of the date the notice is mailed for the tract, parcel, or piece of land to be sold. An offer which equals or exceeds in amount any other offer received and which equals or exceeds the fair market value of the property shall be given preference by the agency in control of the land. If no offers are received within sixty days or if no offer equals or exceeds the fair market value of the land, the agency shall transfer the land for a public purpose or proceed with the sale of the property.

SUBCHAPTER III

GENERAL PROVISIONS

306.38 Rental of acquired property pending use.

In the event that land acquired for improvement of any highway is not immediately needed for such improvement, the agency in control of said highway may rent such land or buildings thereon to responsible persons for a cash rental consistent with the fair market value of similar property. The said agency may employ a local real estate firm for management and collection of rentals or may do so directly through its own personnel. The commission or service charge of such real estate company shall be paid out of such rentals.

306.42 Transfer of rights-of-way.
1. This section is intended to vest all documents of title in road right-of-way in the jurisdiction responsible for the road. This section establishes a simple method to transfer road rights-of-way by quitclaim deed and to authorize the use of available descriptions, plats, maps or engineering drawings to effect such transfers and to provide an orderly method by which such transfers may be filed, indexed and recorded.

2. The department shall transfer by quitclaim deed to the county or to the city having jurisdiction over a road, all of the state’s legal or equitable title and interest in right-of-way for the road or street and may transfer any adjacent unused right-of-way or land in excess of that needed as right-of-way. The deed shall be executed by the director of the department. However, if the department owns any adjacent unused right-of-way in excess of that needed as right-of-way which is located outside the incorporated limits of a city and is suitable for purposes specified in section 350.4, subsection 2, the department may, at the request of the county and the county conservation board, transfer the property by quitclaim deed to the county for the use and benefit of the county conservation board.

3. The county or the city shall transfer by quitclaim deed to the state department of transportation when having jurisdiction over a road, all of the county’s or the city’s legal or equitable title and interest in rights-of-way for the road and may transfer any adjacent unused right-of-way or land in excess of that needed as right-of-way. The deed shall be executed by the chairperson of the board of supervisors by order of the board for county roads and by the mayor or city manager by order of the city council for city streets.

4. Transfers under this section shall be subject to the right of a utility, association, company or corporation to continue in possession of a right-of-way in use at the time of the transfer. Transfers shall be subject to rights of ingress and egress whether excepted, reserved or granted by the transferring authority to land or to owners of land adjacent to the right-of-way. Transfers shall include an index of parcels transferred by the character of the instrument or proceeding, the grantor and grantee, and date of the last instrument or proceeding acquiring rights to each parcel. Transfers shall locate the right-of-way by quarter-quarter section, township and range or if so acquired, by lot, block and subdivision.
The transferring jurisdiction shall transmit to the receiving jurisdiction all available original documents of title or a certified true copy if the right-of-way was acquired by condemnation or the original deed is lost. Transfers shall be recorded and indexed in the county in which the land is located.

5. Notwithstanding chapter 542B and sections 6A.20, 306.22, 354.13, 354.15, and 364.7, legal descriptions, plats, maps, or engineering drawings used to describe transfers of right-of-way shall, where available, be descriptions, plats, maps, or engineering drawings of record and shall be incorporated by reference to the title instrument or proceedings. If a part but not all of the land acquired by a single conveyance or condemnation is being transferred, the description of that part to be transferred shall be abstracted from the present legal description, plat, map, or engineering drawing of record.

6. Notwithstanding any other provision of the Code, for transfers of roads and streets made after May 1, 1987, neither the transferring jurisdiction or the receiving jurisdiction shall be held liable for any claim or damage for any act or omission relating to the design, construction, or maintenance of the road or street that occurred prior to the effective date of the transfer. This subsection shall apply to all transfers pursuant to this chapter or section 313.2.

306.44 Study of road systems.

Transfers not executed as of April 1, 1981, shall be void unless mutually agreed upon by the parties involved. The department shall conduct a study to determine the size of the primary road systems, and the department in conjunction with the county boards of supervisors or the supervisors' designee shall conduct a study to determine the size of the secondary road systems and provide the general assembly with alternative primary and secondary road systems prior to February 1, 1982, for its review. The general assembly may approve a method for classifying the primary and secondary road systems.

[81 Acts, ch 96, §1]

306.45 Easements on highway rights-of-way.

The department may grant easements across land under its jurisdiction if the department determines that the easement will not adversely affect the construction and maintenance of the highway system. Written conveyances containing any easement conditions prescribed by the department shall be made in the name of the state and signed by the governor and the secretary of state, with the seal of the state of Iowa affixed.

306.46 Public utility facilities — public road rights-of-way.

1. A public utility may construct, operate, repair, or maintain its utility facilities within a public road right-of-way. The location of new utility facilities shall comply with section 318.9. A utility facility shall not be constructed or installed in a manner that causes interference with public use of the road.

2. For purposes of this section, "public utility" means a public utility as defined in section 476.1, and shall also include waterworks, municipally owned waterworks, joint water utilities, rural water districts incorporated under chapter 357A or chapter 504, cooperative water associations, and electric transmission owners as defined in section 476.27 primarily providing service to public utilities as defined in section 476.1. For the purposes of this section, "utility facilities" means any cables, conduits, wire, pipe, casing pipe, supporting poles, guys, and other material and equipment utilized for the furnishing of electric, gas, communications, water, or sewer service.

3. This section shall not impair or interfere with a city's authority to grant, amend, extend,
or renew a franchise as provided in section 364.2, and shall not impair or interfere with a city’s
existing general police powers to control the use of its right-of-way.

306.47 Utility facilities relocation policy.
1. It is the policy of the general assembly that a proactive, cooperative coordination
between the department, local governments, private and public utility companies, and other
affected parties is the most effective way to minimize costs, eliminate the need for utilities to
relocate facilities, limit disruption of utility services related to federal, state, or local highway
construction projects, and limit the potential need for relocation of utility facilities.
2. All potentially affected parties shall be invited to participate in development meetings
at the design phase of a highway construction project to review plans, understand goals
and objectives of the proposed project, and discuss options that would limit the impact of
the construction on utility facilities and thereby minimize or even eliminate costs associated
with utility facility relocation. All jurisdictions and other interested parties shall cooperate
to discuss strategies and policies to utilize the Iowa one call system in the development of
a highway construction project. Failure of the affected parties to respond or participate
during the design phase shall not in any way affect the ability of the federal, state, or local agency
to proceed with design and construction.

306.50 Construction program notice.
The appropriate highway authority shall provide copies of its annual construction program
to the soil and water conservation district commissioners’ office in each county. The soil
and water conservation district commissioners’ office shall review the construction program
submitted by each highway authority to determine those projects which may impact upon
soil erosion and water diversion or retention.

306.51 Soil erosion impact.
The soil and water conservation district commissioners shall, within thirty days after
receipt of the construction program, notify the appropriate highway authority of the projects
which will impact upon soil erosion and water drainage and request that the appropriate
highway authority notify them of the date, time, and place for holding the design hearing
on preliminary plans.

306.52 Review of plans.
Upon examining the preliminary plans on a road project, the soil and water conservation
district commissioners may review each road project for which a drainage structure is
required. The soil and water conservation commissioners shall ascertain whether or not
the proposed erosion control or runoff control structure is suitable to reduce the velocity of
runoff, reduce gully erosion, or provide for sedimentation or other improvement that
would enhance soil conservation. The soil and water conservation commissioners shall
also ascertain whether any other aspect of the road construction will affect soil and water conservation.
85 Acts, ch 106, §4; 87 Acts, ch 23, §9

306.53 Submission of recommendations — contribution to cost.
1. The soil and water conservation district commissioners shall submit their findings and recommendations to the appropriate highway authority not later than twenty days following examination of the construction plans.
2. The appropriate highway authority shall respond to the soil and water conservation district commissioners and indicate its agreement to the suggested installation or its rejection of the proposal.
3. Where feasible and cost-sharing funds are available, the soil and water conservation district may contribute in part or in its entirety to any additional cost for the erosion control structure.

306.54 Reporting.
If the proposal is rejected, the appropriate highway authority shall provide a written report documenting the reason for the rejection to the soil and water conservation district commissioners and the state department of transportation. The state department of transportation shall submit a written report to the general assembly not later than March 1 of each year. The report shall contain only a list of those highway projects where a disagreement exists between the department and the soil and water conservation district commissioners and the reasons for rejecting the recommendations of the soil and water conservation district commissioners. The report shall be filed with the secretary of the senate and the chief clerk of the house of representatives.

CONTROLLED-ACCESS HIGHWAYS

Referred to in §307.24

SUBCHAPTER I
CONTROLLED-ACCESS FACILITIES AND SERVICE ROADS

306A.1 Declaration of policy.
The legislature hereby finds, determines, and declares that this chapter is necessary for the immediate preservation of the public peace, health, and safety, and for the promotion of the general welfare.

[C58, 62, 66, 71, 73, 75, 77, 79, 81, §306A.1]

306A.2 Definition of a controlled-access facility.
For the purposes of this chapter, a controlled-access facility is defined as a highway or street especially designed for through traffic, and over, from or to which owners or occupants of abutting land or other persons have no right or easement or only a controlled right or easement of access, light, air, or view by reason of the fact that their property abuts upon such controlled-access facility or for any other reason. Such highways or streets may be freeways open to use by all customary forms of street and highway traffic or they may be parkways from which trucks, buses, and other commercial vehicles shall be excluded.

[C58, 62, 66, 71, 73, 75, 77, 79, 81, §306A.2]

306A.3 Authority to establish controlled-access facilities — utility accommodation policy.
1. Cities and highway authorities having jurisdiction and control over the highways of the state, as provided by chapter 306, acting alone or in cooperation with each other or with any federal, state, or local agency or any other state having authority to participate in the construction and maintenance of highways, are authorized to plan, designate, establish, regulate, vacate, alter, improve, maintain, and provide controlled-access facilities for public use if traffic conditions, present or future, will justify special facilities; provided, that within a city such authority shall be subject to municipal consent as may be provided by law. In addition to the specific powers granted in this chapter, cities and highway authorities shall have any additional authority vested in them relative to highways or streets within their respective jurisdictions. Cities and highway authorities may regulate, restrict, or prohibit the use of controlled-access facilities by various classes of vehicles or traffic in a manner consistent with section 306A.2.

2. The state department of transportation shall adopt rules, pursuant to chapter 17A, embodying a utility accommodation policy which imposes reasonable restrictions on placements occurring on or after the effective date of the rules, on primary road rights-of-way.
§306A.3, CONTROLLED-ACCESS HIGHWAYS  IV-20

The rules may require utilities to give notice to the department prior to installation of a utility system on a primary road right-of-way and obtain prior permission from the department for the proposed installation. The rules shall recognize emergency situations and the need for immediate installation of service extensions subject to the standards adopted by the department and the utilities board. The rules shall be no less stringent than the standards adopted by the utilities board pursuant to chapters 478, 479, and 479B. This paragraph shall not be construed as granting the department authority which has been expressly granted to the utilities board to determine the route of utility installations. If the department requires a utility company permit, the department shall be required to act upon the permit application within thirty days of its filing. In cases of federal-aid highway projects on nonprimary highways, the local authority with jurisdiction over the highway and the department shall comply with all federal regulations and statutes regarding utility accommodation.

306A.4 Design of controlled-access facility.
Cities and highway authorities having jurisdiction and control over the highways of the state, as provided by chapter 306, are authorized to so design any controlled-access facility and to so regulate, restrict, or prohibit access as to best serve the traffic for which such facility is intended. In this connection such cities and highway authorities are authorized to divide and separate any controlled-access facility into separate roadways by the construction of raised curbings, central dividing sections, or other physical separations, or by designating such separate roadways by signs, markers, stripes, and other devices. No person shall have any right of ingress or egress to, from, or across controlled-access facilities to or from abutting lands, except at such designated points at which access may be permitted, upon such terms and conditions as may be specified from time to time.

[C58, 62, 66, 71, 73, 75, 77, 79, 81, §306A.4]

306A.5 Acquisition of property and property rights.
1. For the purposes of this chapter, cities and highway authorities having jurisdiction and control over the highways of the state, as provided by chapter 306, may acquire private or public property rights for controlled-access facilities and service roads, including rights of access, air, view, and light, by gift, devise, purchase, or condemnation in the same manner as such units are authorized by law to acquire such property or property rights in connection with highways and streets within their respective jurisdictions. All property rights acquired under this chapter shall be in fee simple. In connection with the acquisition of property or property rights for a controlled-access facility or portion of, or service road in connection with a controlled-access facility, the cities and highway authorities, in their discretion, may acquire an entire lot, block, or tract of land, if by so doing the interests of the public will be best served, even though the entire lot, block, or tract is not immediately needed for the right-of-way proper.
2. Access rights to any highway shall not be acquired by any authority having jurisdiction and control over the highways of this state by adverse possession or prescriptive right. Action taken by any such authority shall not form the basis for any claim of adverse possession of or prescriptive right to any access rights by any such authority.

306A.6 New and existing facilities — grade-crossing eliminations.
1. Cities and highway authorities having jurisdiction and control over the highways of the state, as provided by chapter 306, may designate and establish an existing street or highway as included within a controlled-access facility. The state or any of its subdivisions shall have authority to provide for the elimination of intersections at grade of controlled-access facilities with existing state and county roads, and city or village streets, by grade separation
or service road, or by closing off such roads and streets at the right-of-way boundary line of such controlled-access facility.

2. The provisions of sections 306.11 through 306.17 shall apply and govern the procedure for the closing of a road or street and the method of ascertaining damages sustained by any person as a consequence of the closing, provided, however, that the highway authority desiring the closing of such road or street shall conduct the hearing and carry out the procedure therefor and pay any damages, including any allowed on appeal, as a consequence thereof, any law to the contrary notwithstanding.

3. After the establishment of any controlled-access facility, no highway or street which is not part of said facility shall intersect the same at grade. A city or village street, county or state highway, or other public way shall not be opened into or connected with any such controlled-access facility without the consent and previous approval of the highway authority in the state, county, city, or village having jurisdiction over the controlled-access facility. Such consent and approval shall be given only if the public interest shall be served thereby.

306A.7 Authority of local units to consent.
Cities and highway authorities having jurisdiction and control over the highways of the state, as provided by chapter 306 are authorized to enter into agreements with each other, or with the federal government, respecting the financing, planning, establishment, improvement, maintenance, use, regulation, or vacation of controlled-access facilities or other public ways in their respective jurisdictions, to facilitate the purposes of this chapter.

In connection with the development of any controlled-access facility cities and highway authorities having jurisdiction and control over the highways of the state, as provided by chapter 306, are authorized to plan, designate, establish, use, regulate, alter, improve, maintain, and vacate local service roads and streets or to designate as local service roads and streets any existing road or street, and to exercise jurisdiction over service roads in the same manner as is authorized over controlled-access facilities under the terms of this chapter, if, in their opinion, such local service roads and streets are necessary or desirable. Such local service roads or streets shall be of appropriate design, and shall be separated from the controlled-access facility proper by means of all devices designated as necessary or desirable by the proper authority.

RELOCATION OF UTILITY FACILITIES

306A.10 Notice to relocate — costs paid.
Whenever the state department of transportation, city or county determines that relocation or removal of any utility facility now located in, over, along, or under any highway or street, is necessitated by the construction of a project on routes of the national system of interstate and defense highways including extensions within cities or on streets or highways resulting from interstate substitutions in a qualified metropolitan area under Tit. 23, U.S.C., the utility owning or operating the facility shall relocate or remove the same in accordance with statutory notice. The costs of relocation or removal, including the costs of installation in a new location, shall be ascertained by the authority having jurisdiction over the project
or as determined in condemnation proceedings for such purposes and may be paid from participating federal aid or other funds.

2. “Interstate highway” includes “interstate road” and “interstate system” and means any highway of the national highway system at any time officially designated as a part of the national system of interstate and defense highways by the department and approved by the appropriate authority of the federal government.

3. “Junk” means old or scrap copper, brass, rope, rags, batteries, paper, trash, rubber debris, waste, or junked, dismantled, or wrecked automobiles, or parts of automobiles, or iron, steel, or other old or scrap ferrous or nonferrous material.

4. “Junkyard” means an establishment or place of business which is maintained, operated, or used primarily for storing, keeping, buying, or selling junk; and the term includes garbage dumps, sanitary fills, and automobile graveyards.

5. “National highway system” means the network designated by the federal highway administration in consultation with the state department of transportation, which consists of interconnected urban and rural principal arterials and highways that serve major population centers, ports, airports, public transportation facilities, other intermodal transportation facilities, and other major travel destinations; meet national defense requirements; and serve interstate and interregional travel.

Referred to in §§53B.1

306C.2 Junkyards prohibited — exceptions.

A person shall not establish, operate, or maintain a junkyard, any portion of which is within one thousand feet of the nearest edge of the right-of-way of any highway on the national highway system, except:

1. Those which are screened by natural objects, plantings, fences, or other appropriate means obscuring them from view from the main-traveled portion of the highway.
§306C.2, JUNKYARD BEAUTIFICATION AND BILLBOARD CONTROL

2. Those located within areas which are zoned for industrial use under authority of law.
3. Those located within unzoned industrial areas which areas shall be determined from actual land uses and defined by regulations to be promulgated by the department under the provisions of chapter 17A in accordance with the standards, criteria, and rules and regulations promulgated under authority of Tit. 23, United States Code.
4. Those which are not visible from the main-traveled portion of the highway.

§306C.3 Junkyards lawfully in existence.
1. Any junkyard located outside a zoned or unzoned industrial area lawfully in existence on July 1, 1972, which is within one thousand feet of the nearest edge of the right-of-way and visible from the main-traveled portion of any highway on the interstate system shall be screened, if feasible, by the department, or by the owner under rules and direction of the department, at locations on the highway right-of-way or in areas acquired for such purposes outside the right-of-way in order to obscure the junkyard from the main-traveled way of such highways.
2. Any junkyard located outside a zoned or unzoned industrial area lawfully in existence on July 1, 2014, which is within one thousand feet of the nearest edge of the right-of-way and visible from the main-traveled portion of any noninterstate highway which is on the national highway system shall be screened, if feasible, by the department, or by the owner under rules and direction of the department, at locations on the highway right-of-way or in areas acquired for such purposes outside the right-of-way in order to obscure the junkyard from the main-traveled way of such highways.

§306C.4 Requirements as to screening.
The department may adopt rules pursuant to chapter 17A governing the location, planting, construction, and maintenance of screening or fencing required by this chapter including materials to be used. However, such rules shall be in accordance with the standards, criteria and rules promulgated under authority of Tit. 23, United States Code.

§306C.5 Acquisition of land for screening or removal.
When the department determines that it is in the best interests of the state, it may acquire by gift, purchase, exchange, or condemnation, as provided by law, such property or rights or interests in property as may be necessary to provide adequate screening for junkyards. When the department determines that the topography of the land adjoining the highway will not permit adequate screening, or screening would not be economically feasible, the department may acquire such property or rights or interests in property as may be necessary to secure the relocation, removal, or disposal of the junkyard, and shall pay the cost of such relocation, removal, or disposal, with federal participation. However, no plan for relocation, removal, or disposal which qualifies for federal participation shall be undertaken unless the department has received notification from the federal government that the federal share to be paid is immediately available for that purpose.

§306C.6 Nuisance — injunction.
Any junkyard which does not conform to the requirements of this subchapter and which is not excepted under section 306C.2 or 306C.3, is a public nuisance. The department may
apply for an injunction to abate any nuisance arising from a violation of the provisions of this subchapter or rules adopted pursuant to this subchapter.

306C.13 Control by department of transportation.

The department shall control the erection and maintenance of advertising devices authorized by section 306C.11, subsection 3, in accord with the following criteria, except that in the case of bonus interstate highways the department shall maintain the controls required under chapter 306B or the controls required by this subchapter, whichever controls are stricter:

1. Advertising devices located within the adjacent area of interstate highways and freeway primary highways shall not be erected or maintained closer to another advertising device facing in the same direction than five hundred feet outside of cities, and within two hundred fifty feet if inside of cities. An advertising device may not be located within two hundred fifty feet of an interchange, or rest area. The measurement shall be from the nearest widening constructed for the purpose of acceleration or deceleration of traffic movement to or from the main-traveled way to the advertising device.

2. Advertising devices located within the adjacent area of nonfreeway primary highways shall not be erected or maintained closer to another advertising device facing in the same direction than one hundred feet if inside the corporate limits of a municipality. No advertising
device, other than as excepted or permitted by subsection 4, 5, or 6, shall be located within
the triangular area formed by the line connecting two points each fifty feet back from the
point where the street right-of-way lines of the main-traveled way and the intersecting street
meet, or would meet, if extended.

3. Advertising devices located within the adjacent area of nonfreeway primary highways
shall not be erected or maintained closer to another advertising device facing in the same
direction than three hundred feet if outside the corporate limits of a municipality. No
advertising device, other than those excepted or permitted by subsection 4, 5, or 6, shall be
located within the triangular area formed by a line connecting two points each one hundred
feet back from the point where the street right-of-way lines of the main-traveled way and
the intersecting street meet, or would meet, if extended.

4. The distance spacing measurements fixed by subsections 2 and 3 shall not apply
to advertising devices which are separated by a building in such a manner that only one
advertising device located within the minimum spacing distance is visible from a highway
at any one time.

5. Within a triangular area, as defined by subsections 2 and 3, occupied by a building or
structure, no advertising device shall be erected or maintained closer to the intersection
than the building or structure itself, except that a wall advertising device may be attached to said
building or structure not to protrude more than twelve inches.

6. Official and directional signs and notices and advertising devices concerning the
sale or lease of the property or activities conducted upon the property as specified in 23
U.S.C. §131(c) shall not be taken into consideration in determining compliance with spacing
requirements.

7. The minimum distance between two advertising devices facing the same direction shall
apply without regard to the side of the highway on which the advertising devices may be
located and shall be measured along the center line of the highway between points directly
opposite the advertising devices.

8. Advertising devices shall not be erected, maintained, or illuminated:

a. In a manner to obscure or otherwise physically interfere with an official traffic sign,
signal, or device, or to obstruct or physically interfere with any driver’s view of approaching,
merging, or intersecting traffic.

b. Unless effectively shielded to prevent light from being directed at any portion of the
traveled highway with such intensity or brilliance as to cause glare or to impair the vision of
the driver of any motor vehicle.

c. Which contain, include, or are illuminated by any flashing, intermittent, or moving light
or lights, except those giving public service information such as, but not limited to time, date,
temperature, weather, news and similar information.

d. Which imitate or resemble an official sign or signal or device or which are erected
or maintained within or closer than three hundred feet from scenic areas, as defined and
determined by the department, or which are located or maintained upon trees, or painted
or drawn upon rocks or natural features, or which are structurally unsafe or in substantial
disrepair.

e. Which exceed one thousand two hundred square feet in area or in the case of a
back-to-back or V-type advertising device, with a maximum of two facings per advertising
device, seven hundred fifty square feet in area, including border and trim but excluding base
or apron, support, and other structural members.

f. Which do not comply with all applicable state or local laws, regulations and ordinances,
including but not limited to zoning, building, and sign codes as locally interpreted and
applied and enforced, or which violate chapter 318; however, nothing in this subchapter
shall prevent or restrict county or local zoning authorities from making a determination
of customary use concerning size, lighting, and spacing of advertising devices in zoned
commercial or industrial adjacent areas, and such determinations will be accepted in lieu
of the standards of this subchapter. The provisions of this subchapter shall not prevent
or restrict county or local zoning authorities within their respective jurisdictions from
establishing standards imposing controls stricter than those required by this subchapter.

g. The standards contained in this section pertaining to size, lighting, and spacing shall
not apply to advertising devices erected or maintained within six hundred sixty feet of the
guideline of any of those portions of the interstate highway system exempted from control under
chapter 306B by authority of section 306B.2, subsection 4, nor to advertising devices erected
and maintained within adjacent areas along noninterstate primary highways within zoned
and unzoned commercial and industrial areas, unless said advertising devices were erected
subsequent to July 1, 1972.

Referred to in §306C.11, 306C.24

306C.14 Existing signs — six-year limit.
Any advertising device lawfully in existence in an adjacent area on July 1, 1972, which
does not conform with the provisions of this subchapter, shall be required to be brought into
conformity or removed within six years after July 1, 1972. Any advertising device lawfully
erected after said date which subsequently becomes nonconforming, shall be required to be
brought into conformity or removed within five years after the date the noncomformity occurs.
However, no advertising device shall be acquired or be required to be removed pursuant to
this subchapter unless the department has received notification from the federal government
that the federal share of just compensation to be paid is immediately available to contribute
to the cost of acquisition or removal; this requirement shall not apply to the acquisition or
removal of advertising devices for which no federal share is payable.

2. After July 1, 1972, no new advertising device for which an application for a permit is required may be erected without first obtaining a permit from the department, except in the case of advertising devices lawfully in existence in areas adjacent to any highway made an interstate, freeway primary, or primary highway after July 1, 1972. The owner shall be required to make application for a permit as provided for in this section within thirty days after the date the said highway acquired said designation.

3. Upon receipt of an application containing all the required information in due form and properly executed together with the fee required, the department shall issue a permit to be affixed to the advertising device if the advertising device will not violate any provision of this subchapter or chapter 306B, or any rule promulgated by the department, provided that in the case of advertising devices to be acquired pursuant to section 306C.15, a provisional permit shall be issued.

4. The fee for both types of permits for calendar years 1997 and 1998 shall be one hundred dollars for the initial fee and fifteen dollars for each annual renewal for signs up to three hundred seventy-five square feet in area, twenty-five dollars for each annual renewal for signs at least three hundred seventy-six, but not more than nine hundred ninety-nine, square feet in area, and fifty dollars for each annual renewal for signs one thousand square feet or more in area. Beginning January 1, 1999, fees shall be as determined by rule by the department. The fees collected for the above permits shall be credited to the highway beautification fund created in section 306C.11, subsection 5, and all salaries and expenses incurred in administering this chapter shall be paid from this fund or from specific appropriations for this purpose, except that surveillance of, and removal of, advertising devices performed by regular maintenance personnel are not to be charged against the fund.

[C73, 75, 77, 79, 81, §306C.18]

306C.19 Removal after notice.
Any advertising device erected or maintained after July 1, 1972, in violation of this subchapter or the rules promulgated by the department, is a public nuisance and may be removed by the department upon thirty days' notice, by certified mail, to the owner of the advertising device and to the owner of the land on which the advertising device is located. The notice shall require such owners to remove the advertising device if it is prohibited, or to cause it to conform to this subchapter or rules promulgated by the department if it is not prohibited.

1. If the owner of the advertising device or the landowner fails to act within thirty days as required in the notice, the advertising device shall be deemed to be forfeited and the department may enter upon the land and remove the advertising device. Such entry after notice, shall not be deemed a trespass and the department may be aided by injunction to abate the nuisance and to insure peaceful entry.

2. The cost of removal, including fees, costs and expenses which arise out of an action brought by the department to insure peaceful entry and removal, may be assessed against the owner of the advertising device. If the owner of the advertising device fails to pay the fees, costs, or expenses within thirty days after assessment, the department may commence
an action to collect the fees, costs, or expenses, which when collected shall be paid into the highway beautification fund.

Notwithstanding the requirements of section 306C.14, the department may first pay just compensation from the highway beautification fund and then claim reimbursement for the federal share of the payment from the federal government.

5. Savings clause. If any provision of this section which relates to the department is inconsistent or conflicts with, or is not required by, 23 U.S.C. §131 to avoid the loss of federal funds, the provision shall be suspended but only to the extent necessary to eliminate the inconsistency, conflict, or requirement. If any part of this section is found to be invalid or unconstitutional, such judgment shall not affect the validity of the section as a whole or any provision or part of the section not found to be invalid or unconstitutional.

1. Article I. The purposes of this compact are to provide for planning for the most efficient use of the waters of the Missouri river, to increase the amount of barge traffic on that segment of the Missouri river below Sioux City, Iowa, to take necessary steps to develop the Missouri river and its banks to handle more barge traffic than is presently handled, to encourage barge use on that segment of the Missouri river for transporting bulk goods, especially farm commodities, to insure that the intended increase in barge traffic does not impose unacceptable damage on the Missouri river in all its various uses, including agriculture, wildlife management, and recreational opportunities, to consider the effects of diversion of the waters of the Missouri river on navigation, and to promote joint action between the compact parties to accomplish these purposes. The purposes of the compact do not include lobbying activities against user fees for barge traffic and such activities under this compact are prohibited.

2. Article II. It is the responsibility of the four states to accomplish the purposes in article I through the official in each state charged with the duty of administering the public waters and to collect and correlate through those officials the data necessary for the proper administration of the compact. Those officials may, by unanimous action, adopt rules and regulations to accomplish the purposes of this compact.

3. Article III. The states of Iowa, Missouri, Kansas, and Nebraska agree that within a reasonable time they shall fulfill the obligations of this compact and that each shall authorize the proper official or agency in its state to take the necessary steps to promote barge use and develop the Missouri river as it flows between and within the compact states for additional barge traffic.

4. Article IV. This compact does not limit the powers granted in any other act to enter into interstate or other agreements relating to the Missouri river flowing between and within the compact states, alter the relations between the respective internal responsibilities of the government of a party state and its subdivisions, or impair or affect any rights, powers, or jurisdiction of the United States, or those acting by or under its authority, in, over, and to those waters of the Missouri river. Adoption of this compact by the general assembly shall not require the signatory states to adopt any legislation or to appropriate funds for its implementation.

5. Article V.

6. “Scenic easement” means a servitude which is acquired by gift, purchase, exchange or condemnation and is designed to permit land to remain in private ownership for its normal agricultural, residential or other use and, at the same time, to restrict and control the future use of the land for the purpose of preserving, restoring or enhancing the natural and historic beauty of the land subject to the scenic easement.
7. “Secretary”, “parkway”, “scenic landscape”, “sightly or safety easement”, “access”, “parkway road”, “parkway development”, “frontage” and other similar terms have the same meaning as defined in any Act of the Congress of the United States related to a national parkway.

308.4 Transportation commission duties.
1. The state transportation commission shall make such investigations, surveys, studies and plans in connection with any proposed national parkway or parkway development as it shall deem necessary or desirable to determine if the proposed development is under the terms of the Act of the United States Congress applicable to such parkway or any regulations under such Act and is advantageous to the state. Such parkway development may be any portion of the proposed parkway which is proposed to be constructed as a project under such Act.
2. The state transportation commission, with the cooperation of the department of natural resources, shall plan, designate, and establish the exact routing of the great river road, utilizing the general guidelines established in Tit. 23, United States Code.
3. The director of transportation, with the cooperation of the department of natural resources, shall:
a. Acquire all rights in land necessary for reconstruction or relocation of any portions of the great river road where reconstruction or relocation is imperative for the safety of the traveling public, or where the condition or location of existing segments of the highway is not in keeping with the intent of this chapter. Acquisitions of such rights in land shall be by gift, purchase, exchange, or by instituting and maintaining proceedings for condemnation. Gift, purchase, exchange, and condemnation include acquisition of a scenic easement. A scenic easement acquired under this chapter constitutes an easement both at law and in equity, and all legal and equitable remedies, including prohibitory and mandatory injunctions, are available to protect and enforce the state’s interest in such scenic easements. A scenic easement acquired under this chapter is deemed to be appurtenant to the roadway to which it is adjacent or from which it is visible. The duties created by a scenic easement acquired under this chapter are binding upon and enforceable against the original owner of the land subject to the scenic easement and the original owner’s heirs, successors, and assigns in perpetuity, unless the instrument creating the scenic easement expressly provides for a lesser
duration. A court shall not declare a scenic easement acquired under this chapter to have been extinguished or to have become unenforceable by virtue of changed conditions or frustration of purpose.

b. Accept and administer state, federal, and any other public or private funds made available for the acquisition of rights in land and for the planning and construction or reconstruction of any segment of the great river road, and state and federal funds for the maintenance of that part of the great river road constituting the right-of-way.

308.9 Establishing locations for the highway.
1. a. When, as a result of its investigations and studies, the state transportation commission, in cooperation with the department of natural resources, finds that there may be a need in the future for the development and construction or reconstruction of segments of the great river road, and when the state transportation commission determines that in order to prevent conflicting costly economic development on areas of lands to be available for the great river road when needed for future development, there is need to establish and to inform the public of the approximate location and widths of new or improved segments of the great river road to be needed, the state transportation commission may proceed to establish the location and the approximate widths in the manner provided in this section.
b. The state transportation commission shall give notice and hold a public hearing on the matter in a convenient place in the area to be affected by the proposed improvement of the great river road. The state transportation commission shall consider and evaluate the testimony presented at the public hearing and shall make a study and prepare a map showing the location of the proposed new or reconstructed segment of the great river road and the approximate widths of right-of-way needed. The map shall show the existing roadway and the property lines and record owners of lands to be needed. The approval of the map shall be recorded by reference in the state transportation commission’s minutes, and a notice of the action and a copy of the map showing the lands or interest in the lands needed in any county shall be filed in the office of the county recorder of that county. Notice of the action and of the filing shall be published once in a newspaper of general circulation in the county, and within sixty days following the filing, notice of the filing shall be served by registered mail on the owners of record on the date of filing. Using the same procedures for approval, notice and publications, and notice to the affected record owners, the state transportation commission may amend the map.

2. After such location is established, within the area of the great river road as shown on the map or in such proximity to it as to result in consequential damages when the rights in land for the great river road are acquired, a person shall not erect or move in any additional structure or rebuild, alter or add to any existing structure, without giving to the state transportation commission by registered mail sixty days’ notice of such contemplated construction, alteration, or addition describing the same. However, this prohibition and requirement shall not apply to any normal or emergency repairs or replacements which are necessary to maintain an existing structure of a facility in approximately its previously existing functioning condition. When the rights in land for a segment of the great river road are acquired, damages shall not be allowed for any construction, alterations, or additions in violation of this subsection.

3. Without limiting any authority otherwise existing, rights in land needed for the great river road may be acquired at any time by the state, the county, or the municipality in which such segment of the great river road is located. If an owner’s contiguous land is acquired to an extent which is less than the total amount shown on the map as needed, consequential damages to the land not acquired shall be allowed as found to exist.

Any sum remaining unexpended at the end of the period during which it is available for expenditure shall be reapportioned among all the counties as provided in section 312.5 for original allocations.

2. For the purposes of this section, any sums of the farm-to-market road fund allotted to any county shall be presumed to have been expended when a contract has been awarded obligating the sums. However, a county shall not be temporarily allocated funds for projects in excess of the county’s anticipated farm-to-market road fund allocation for the current fiscal year plus the four succeeding fiscal years.

3. If in the judgment of the department the anticipated claims against the primary road fund for any month are in excess of moneys available, a temporary transfer for highway construction costs may be made from the farm-to-market road fund to the primary road fund provided that there will remain in the transferring fund a sufficient balance to meet the anticipated obligations. All transfers shall be repaid from the primary road fund to the farm-to-market road fund within sixty days from the date of the transfer. A transfer shall be made only with the approval of the director of the department of management and shall comply with the director of the department of management’s rules relating to the transfer of funds. Similar transfers may be made by the department from the primary road fund to the farm-to-market road fund and these transfers shall be subject to the same terms and conditions that transfers from the farm-to-market road fund to the primary road fund are subject.

1. Engineering, inspection and administration expense in connection with any farm-to-market road project may be paid from the county’s allotment of the farm-to-market road fund. Any such expense incurred by the department may in the first instance be advanced out of the primary road fund, and such expense amounts shall later be reimbursed to the primary road fund out of the farm-to-market road fund.

2. No part of the salary or expense of the county engineer, any member of the county board of supervisors, any member of the department, the chief engineer, or any department head or district engineer of the department shall be paid out of the farm-to-market road fund.

[C39, §4686.28; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §310.28] 2016 Acts, ch 1073, §96

Any farm-to-market road constructed under this chapter shall be maintained by the county. If any county fails to satisfactorily maintain any road that is part of the federal aid secondary system, the department shall give the board of supervisors notice of that fact. If within sixty days after receipt of notice the highway has not been placed in proper condition of maintenance the department may withhold authorization for letting of any project using farm-to-market funds until a proper condition of maintenance has been restored.

[C39, §4686.29; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §310.29; 82 Acts, ch 1110, §11]

When it is desired to improve a secondary road on a county line, as a secondary road assessment district project, the board of supervisors of any county may establish an assessment district in its county, and levy and collect special assessments for the payment of that portion of the estimated cost of the project assessable against lands in that county. Each
county shall pay its share of the cost of the project as provided in this chapter, in the same manner as though the project were located wholly within that county.

[C24, 27, 31, 35, 39, §4746; C46, §311.3; C50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §311.4]

311.7 Improvement by private funds.

1. a. The owner or a group of owners of not less than seventy-five percent of the lands adjacent to, or abutting upon any secondary road may, on or before October 1 of any year, petition the board of supervisors of their county for the improvement of the road, and for the assessment of not less than fifty percent, or a greater portion as provided in the petition, of the cost of the improvement, to the lands adjacent to, or abutting upon the road. When the petition has been filed, the board of supervisors shall review the project proposed by the petition and may accept or reject the proposed project. If the board of supervisors accepts the petition, the board shall include the project in the secondary road construction program of the county and establish a priority for the completion of the project.

b. The board of supervisors shall proceed with the construction and completion of the project in accordance with its assigned priority and under the same procedure as is prescribed generally for the improvement of secondary roads by assessment, and shall establish a special secondary road assessment district and assess against the lands included in the district not less than fifty percent, or a greater portion as provided in the petition, of the engineer’s estimated cost of the improvements of the road included in the project against all the lands adjacent to or abutting upon the road.

c. However, if the owners of all the lands included in any special secondary road assessment district under this section, subscribe and deposit with the county treasurer an amount not less than fifty percent, or a greater portion as provided in the petition, of the engineer’s estimated cost of the improvement of the road included in the project, the board of supervisors shall not establish the special assessment district, but shall accept the donations in lieu of an assessment, and shall otherwise proceed to the improvement of the road.

2. The total expenditure of secondary road funds of the county in any year for or on account of special secondary road assessment district projects on local secondary roads
under this section shall not exceed the total secondary road funds legally expendable for construction on local secondary roads in the county in the year.

3. Upon the completion of the road, and the satisfaction of all claims in relation to the road, any balance then remaining of the funds provided by the sponsors shall be returned to them according to their respective interests, providing all guarantees made by the sponsors have been fulfilled.

2. A plat of said proposed district which plat shall show the road or roads proposed to be improved, the various tracts and parcels of real estate included in said proposed district, and the ownership of such lands.
3. An approximately equitable apportionment of not less than fifty percent of the estimated cost of the improvement among the tracts and parcels of real estate included in the proposed district.

Such omission or error shall only affect the particular tract of real estate or person in question. If, before or after the board has entered its final order in the establishment of the said district or in the apportionment proceedings such omission or error is discovered, the board shall fix a time for a hearing as to such party or real estate and shall cause service of notice to be made upon them, either by publication as in this chapter provided, or by personal service in the time and manner required for service of original notices in the district court. owner desires to lodge against the levy. The appeal has precedence over all other business
pending before the court except criminal matters. The appeal shall be heard as in equity. The court may raise or lower the assessment in question and make an equitable assessment in the judgment of the court. 2. Each special assessment and all installments of the special assessments are a lien upon the real estate upon which levied from the date of the certificate by the county engineer to the same extent and in the same manner as taxes levied for state and county purposes. 313.1 Federal and state cooperation.

The department is empowered on behalf of the state to enter into any arrangement or contract with and required by the duly constituted federal authorities, in order to secure the full cooperation of the government of the United States, and the benefit of all present and future federal allotments in aid of highway construction, reconstruction, improvement or maintenance. The good faith of the state is hereby pledged to cause to be made available each year, sufficient funds to equal the total of any sums now or hereafter apportioned to the state for road purposes by the United States government for such year, and to maintain the roads constructed with said funds.

[C24, §4688; C27, 31, 35, §4755-b1; C39, §4755.01; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §313.1]

313.2 “Road systems” defined — roadside parks.

1. The roads and streets of the state are, for the purpose of this chapter, those roads and streets established under chapter 306.

2. a. Whenever the board of supervisors of a county and the department mutually determine that a portion of a highway under the jurisdiction of either party should be transferred to the jurisdiction of the other party, the board and department may enter into an agreement to effect such transfer. Such agreement may provide that each party may undertake or share responsibility for improving said road with the costs of such improvement to be borne entirely by either the county or the department or equitably divided between the two jurisdictions. All such improvements shall be completed and all actual costs thereof paid or reimbursed prior to the time transfer of the road is made. In carrying out such agreement, the board of supervisors may expend secondary road funds of the county and the department may expend primary road funds.

b. However, prior to entering into the agreement, a notice of intent to execute such agreement shall be published in a newspaper of general circulation within the county and the cost of such notice shall be jointly borne by the department and the board of supervisors. If one hundred or more residents of the county request by petition or in writing that a hearing be held in regard to such agreement within ten days after the publication of the notice, the board of supervisors and the department shall hold such a hearing not more than seven days after receiving the petition or written instrument. Based upon evidence presented at the hearing, the board of supervisors and the department shall reexamine the merits of executing such agreement and make a decision in regard to it.

3. The department may, for the purpose of affording access to cities or state parks, or for the purpose of shortening the direct line of travel on important routes, or to effect connections with interstate roads at the state line, add such road or roads to the primary road system.

4. The department, either alone or in cooperation with any county, shall have the authority to utilize any land acquired incidental to the acquisition of land for highway right-of-way and to also accept by gift lands not exceeding two acres in area for roadside parks and parking areas. The department may furnish necessary maintenance. The department shall also have authority to accept by gift equipment or other installations incidental to the use of said parks and parking areas. The parks and parking areas shall be a part of the primary road system and the department may at its discretion sell or otherwise dispose of the lands.

5. Reasonable maintenance and surveillance of rest area sites and buildings located on the sites shall be provided by employees of the department within the limits of appropriations provided for such purpose.

§313.2A Commercial and industrial highways.

1. **Purpose.** It is the purpose of this section to enhance opportunities for the development and diversification of the state’s economy through the identification and improvement of a network of commercial and industrial highways. The network shall consist of interconnected routes which provide long distance route continuity. The purpose of this highway network shall be to improve the flow of commerce; to make travel more convenient, safe, and efficient; and to better connect Iowa with regional, national, and international markets. The commission shall concentrate a major portion of its annual construction budget on this network of commercial and industrial highways. In order to ensure the greatest possible availability of funds for the improvement of the network, primary highway funds shall not be spent beyond continuing maintenance for improvements to route segments that will be bypassed by the relocation of portions of the commercial and industrial highway network.

2. **Network selection.**

   a. The commission shall identify, within the primary road system, a network of commercial and industrial highways. The commission shall consider all of the following factors in the identification of this network:

      (1) The connection by the most direct routes feasible of major urban areas and regions of the state to each other and to the national system of interstate and defense highways and priority routes in adjacent states.

      (2) The existence of high volumes of total traffic and commercial traffic.

      (3) Long distance traffic movements.

      (4) Area coverage and balance of spacing with service to major growth centers within the state.

      (5) Metropolitan area bypasses consistent with metropolitan or regional area plans established through cooperation by the department and local officials.

   b. The network of commercial and industrial highways shall not exceed two thousand six hundred miles including municipal extensions of these highways.

3. **Standards.** The department shall establish standards pertaining to the specific location, design, and access control for each segment of the commercial and industrial highways.

4. **Network development.** In establishing priorities for improvement projects, the department shall take into consideration the following additional criteria: urban area bypasses that improve urban or regional accessibility or improve corridor travel; projects consistent with regional or metropolitan transportation plans established through cooperation by the department and local officials; and the willingness of local officials to provide financial or other assistance for the development of projects.

The following words or terms, as used in this chapter, shall have the respective meanings as stated:

1. “Acquisition by purchase, gift, or condemnation” as used in this chapter shall mean acquisition by the department, whether such terms “purchase, gift, or condemnation” are used singularly or in sequence.

2. “Construct, constructing, construction or constructed” shall include the completion, reconstruction, remodeling, repair, or improvement of any existing toll bridge or any partially constructed interstate bridge, as well as the construction of any new toll bridge.

3. “Department” shall mean the state department of transportation.

4. “Federal bridge commission” shall mean any bridge commission organized and operating pursuant to an Act of the Congress of the United States, even though such Act of Congress may declare the bridge commission not to be an agency of the federal government.

5. “Toll bridge” shall mean an interstate bridge constructed, purchased or acquired under the provisions of this chapter, upon which tolls are charged, together with all appurtenances, additions, alterations, improvements, and replacements thereof, and the approaches thereto, and all lands and interests therein used therefor, and buildings and improvements thereon.

[C71, 73, 75, 77, 79, 81, §313A.1]
313A.2 Bridge to be controlled by department.
The department shall have full charge of the construction and acquisition of all toll bridges constructed or acquired under the provisions of this chapter, the operation and maintenance thereof and the imposition and collection of tolls and charges for the use thereof. The department shall have full charge of the design of all toll bridges constructed under the provisions of this chapter. The department shall proceed with the construction of such toll bridges and other facilities and the approaches thereto by contract immediately upon there being made available funds for such work and shall prosecute such work to completion as rapidly as practicable. The department shall advertise for bids for the construction, reconstruction, improvement, repair or remodeling of any toll bridge by publication of a notice once each week for at least two consecutive weeks in a newspaper published and having a general circulation throughout the state of Iowa, the first publication to appear at least fifteen days prior to the date set for receiving bids. The department shall have the power to accept such offer or offers, propositions or bids, and enter into such contract or contracts as it shall deem to be to the best interest of the state.
[C71, 73, 75, 77, 79, 81, §313A.2]

313A.3 Toll bridges constructed over boundary rivers.
The department is hereby authorized to establish and construct toll bridges upon any public highway, together with approaches thereto, wherever it is considered necessary or advantageous and practical for crossing any navigable river between this state and an adjoining state. The necessity or advantage and practicality of any toll bridge shall be determined by the department. To obtain information for the consideration of the department upon the construction of any toll bridge or any other matter pertaining thereto, any officer or employee of the state, upon the request of the department, shall make reasonable examination, investigation, survey, or reconnaissance to determine material facts pertaining thereto and shall report such findings to the department. The cost thereof shall be borne by the department or office conducting it from funds provided for its functions.
[C71, 73, 75, 77, 79, 81, §313A.3]

313A.4 Investigation of feasibility.
The department is hereby authorized to enter into agreements with any federal bridge commission or any county or city of this state, and with an adjoining state or county, city, or town thereof, for the purpose of implementing an investigation of the feasibility of any toll bridge project for the bridging of a navigable river forming a portion of the boundary of this state and such adjoining state. The department may use any funds available for the purposes of this section. Such agreements may provide that in the event any such project is determined to be feasible and adopted, any advancement of funds by any state, county or city may be reimbursed out of any proceeds derived from the sale of bonds or out of tolls and revenues to be derived from such project.
[C71, 73, 75, 77, 79, 81, §313A.4]

313A.5 Acquiring existing bridge — bonds.
Whenever the department deems it necessary or advantageous and practical, it may acquire by gift, purchase, or condemnation any interstate bridge which connects with or may be connected with the public highways and the approaches thereto, except that the department may not condemn an existing interstate bridge used for interstate highway traffic and combined highway and railway traffic and presently owned by a municipality, or a person, firm, or corporation engaged in interstate commerce. The department may also acquire by gift or purchase two or more existing interstate bridges and any partially constructed interstate bridge, all located within ten miles of each other, complete the partially constructed bridge and dismantle the bridge which it is designed to replace. In connection with the acquisition of any such bridge, bridges, or partially constructed bridge, the department and any federal bridge commission or any city, county, or other political subdivision of the state are authorized to do all acts and things as in this chapter are provided for the establishing and constructing of toll bridges and operating, financing, and
maintaining such bridges insofar as such powers and requirements are applicable to the acquisition of any toll bridge and its operation, financing, and maintenance. In so doing, they shall act in the same manner and under the same procedures as provided for establishing, constructing, operating, financing, and maintaining toll bridges insofar as such manner and procedures are applicable. Without limiting the generality of the above provisions, the department is hereby authorized to cause surveys to be made to determine the propriety of acquiring any such bridge and the rights-of-way necessary therefor, and other facilities necessary to carry out the provisions hereof; to issue, sell, redeem bonds or issue and exchange bonds with present holders of outstanding bonds of bridges being acquired under the provisions of this chapter and deposit and pay out of the proceeds of the bonds for the financing thereof, to impose, collect, deposit, and expend tolls therefrom; to secure and remit financial and other assistance in connection with the purchase thereof; and to carry insurance thereon.

[C71, 73, 75, 77, 79, 81, §313A.5]

313A.6 Rules adopted — financial statements. The department, its officials, and all state officials are hereby authorized to perform such acts and make such agreements consistent with the law which are necessary and desirable in connection with the duties and powers conferred upon them regarding the construction, maintenance, and operation and insurance of toll bridges or the safeguarding of the funds and revenues required for such construction and the payment of the indebtedness incurred therefor. The department shall adopt such rules and regulations in accordance with the provisions of chapter 17A as it may deem necessary for the administration and exercise of its powers and duties granted by this chapter, and shall prepare annual financial statements regarding the operation of such toll bridges which shall be made available for inspection by the public and by the holders of revenue bonds issued by the department under the provisions of this chapter at all reasonable times.

[C71, 73, 75, 77, 79, 81, §313A.6]

313A.7 Resolution of public interest and necessity — revenue bonds. 1. Whenever the department deems it to be in the best interest of the primary highway system that any new toll bridge be constructed upon any public highway and across any navigable river between this state and an adjoining state, the department shall adopt a resolution declaring that the public interest and necessity require the construction of such toll bridge and authorizing the issuance of revenue bonds in an amount sufficient for the purpose of obtaining funds for such construction. The issuance of bonds as provided in this chapter for the construction, purchase, or acquisition of more than one toll bridge may, at the discretion of the department, be included in the same authority and issue or issues of bonds, and the department is hereby authorized to pledge the gross revenues derived from the operation of any such toll bridge under its control and jurisdiction to pay the principal of and interest on bonds issued to pay the cost of purchasing, acquiring, or constructing any such toll bridge financed under the provisions of this chapter. The department is hereby granted wide discretion, in connection with the financing of the cost of any toll bridge, to pledge the gross revenues of a single toll bridge for the payment of bonds and interest thereon issued to pay the cost of such bridge and to pledge the gross revenues of two or more toll bridges to pay bonds issued to pay the cost of one or more toll bridges and interest thereon as long as the several bridges included herein are not more than ten miles apart.

2. In addition, if the department in its discretion determines that the construction of a toll bridge cannot be financed entirely through revenue bonds and that the construction of such toll bridge is necessary, the department may advance funds from the primary highway fund to pay for that part of the construction cost, including the cost of approaches and all incidental costs, which is not paid out of the proceeds of revenue bonds. However, said funds advanced from the primary highway fund shall be used only to pay the construction cost, including the cost of approaches and all incidental costs, with respect to that part of the bridge which is or will be located within the state of Iowa. After all revenue bonds and interest thereon issued and sold pursuant to this chapter and payable from the tolls and revenues
of said bridge have been fully paid and redeemed or funds sufficient to pay said bonds and interest, including premium, if any, have been set aside and pledged for that purpose, then such amount advanced from the primary road fund shall be repaid to the primary road fund from the tolls and revenues of said bridge before said bridge is made a toll free bridge under the provisions of this chapter.

[C71, 73, 75, 77, 79, 81, §313A.7]

Referred to in §313A.16

313A.8 Right-of-way secured.
Whenever the department shall authorize the construction of any toll bridge, the department is empowered to secure rights-of-way therefor and for approaches thereto by gift or purchase or by condemnation in the manner provided by law for the taking of private property for public purposes.

[C71, 73, 75, 77, 79, 81, §313A.8]

313A.9 Consent to cross state property.
The right-of-way is hereby given, dedicated, and set apart upon which to locate, construct, and maintain toll bridges or approaches thereto or other highway crossings, and transportation facilities thereof or thereto, through, over or across any of the lands which are now or may be the property of this state, including highways; and through, over, or across the streets, alleys, lanes, and roads within any city, county, or other political subdivision of the state. If any property belonging to any city, county or other political subdivision of the state is required to be taken for the construction of any such bridge or approach thereto or should any such property be injured or damaged by such construction, such compensation therefor as may be proper or necessary and as shall be agreed upon may be paid by the department to the particular county, city or other political subdivision of the state owning such property, or condemnation proceedings may be brought for the determination of such compensation.

[C71, 73, 75, 77, 79, 81, §313A.9]

313A.10 Resolution precedent to action.
Before the department shall proceed with any action to secure right-of-way or with the construction of any toll bridge under the provisions of this chapter, it shall first pass a resolution finding that public interest and necessity require the acquisition of right-of-way for and the construction of such toll bridge. Such resolution shall be conclusive evidence of the public necessity of such construction and that such property is necessary therefor. To aid the department in determining the public interest, a public hearing shall be held in the county or counties of this state in which any portion of a bridge is proposed to be located. Notice of such hearing shall be published at least once in a newspaper published and having a general circulation in the county or counties where such bridge is proposed to be located, not less than twenty days prior to the date of the hearing. When it becomes necessary for the department to condemn any real estate to be used in connection with any such bridge, or to condemn any existing bridge, such condemnation shall be carried out in a manner consistent with the provisions of chapters 6A and 6B. In eminent domain proceedings to acquire property for any of the purposes of this chapter, any bridge, real property, personal property, franchises, rights, easements, or other property or privileges appurtenant thereto appropriated or dedicated to a public use or purpose by any person, firm, private, public or municipal corporation, county, city, district or any political subdivision of the state, may be condemned and taken, and the acquisition and use thereof as herein provided for the same public use or purpose to which such property has been so appropriated or dedicated, or for any other public use or purpose, shall be deemed a superior and permanent right and necessity, and a more necessary use and purpose than the public use or purpose to which such property has already been appropriated or dedicated, and any condemnation award may be paid from the proceeds of revenue bonds issued under the provisions of this chapter.

[C71, 73, 75, 77, 79, 81, §313A.10]
313A.11 Payment from available funds.
If the department determines that any toll bridge should be constructed or acquired under its authority, all costs thereof, including land, right-of-way, surveying, engineering, construction, legal and administrative expenses, and fees of any fiscal adviser, shall be paid out of any funds available for payment of the cost of the bridge.  
[C71, 73, 75, 77, 79, 81, §313A.11]

313A.12 Revenue bonds.
1. The department is hereby authorized and empowered to issue revenue bonds for the acquisition, purchase, or construction of any interstate bridge. Any and all bonds issued by the department for the acquisition, purchase, or construction of any interstate bridge under the authority of this chapter shall be issued in the name of the department and shall constitute obligations only of the department, shall be identified by some appropriate name, and shall contain a recital on the face thereof that the payment or redemption of said bonds and the payment of the interest thereon are secured by a direct charge and lien upon the tolls and other revenues of any nature whatever received from the operation of the particular bridge for the acquisition, purchase, or construction of which the bonds are issued and of such other bridge or bridges as may have been pledged therefor, and that neither the payment of the principal or any part thereof nor of the interest thereon or any part thereof constitutes a debt, liability, or obligation of the state of Iowa. When it is determined by the department to be in the best public interest, any bonds issued under the provisions of this chapter may be refunded and refinanced at a lower rate, the same rate or a higher rate or rates of interest and from time to time as often as the department shall find it to be advisable and necessary so to do. Bonds issued to refund other bonds theretofore issued by the department under the provisions of this chapter may either be sold in the manner hereinafter provided and the proceeds thereof applied to the payment of the bonds being refunded, or the refunding bonds may be exchanged for and in payment and discharge of the bonds being refunded. The refunding bonds may be sold or exchanged in installments at different times or an entire issue or series may be sold or exchanged at one time. Any issue or series of refunding bonds may be exchanged in part or sold in part in installments at different times or at one time. The refunding bonds may be sold at any time on, before, or after the maturity of any of the outstanding bonds to be refinanced thereby and may be issued for the purpose of refunding a like or greater principal amount of bonds, except that the principal amount of the refunding bonds may exceed the principal amount of the bonds to be refunded to the extent necessary to pay any premium due on the call of the bonds to be refunded or to fund interest in arrears or about to become due. The gross revenues of any toll bridge pledged to the payment of the bonds being refunded, together with the unpledged gross revenues of any other toll bridges located within ten miles of said bridge, may be pledged by the department to pay the principal and interest on the refunding bonds and to create and maintain reserves therefor.
2. The department is empowered to receive and accept funds from the state of Iowa or the federal government or any other state upon a cooperative or other basis for the acquisition, purchase, or construction of any interstate bridge authorized under the provisions of this chapter and is empowered to enter into such agreements with the state of Iowa or any other state or the federal government as may be required for the securing of such funds.
3. The department is authorized and empowered to spend from annual primary road fund receipts sufficient moneys to pay the cost of operation, maintenance, insurance, collection of tolls and accounting therefor and all other charges incidental to the operation and maintenance of any toll bridge administered under the provisions of this chapter. However, said annual primary road fund receipts shall be used only to pay such costs and charges with respect to that part of the bridge which is located within the state of Iowa.
4. The department may also issue its revenue bonds to pay all or any part of the cost of acquiring two or more existing interstate bridges and any partially constructed interstate bridge, all located within ten miles of each other, of completing the partially constructed bridge and of dismantling the bridge which it is designed to replace, and to impose and collect tolls on all of such bridges and to pledge the revenues derived therefrom to the payment of the bonds issued to finance such project. The department may also issue its revenue bonds to pay
all or any part of the cost of reconstructing, completing, improving, repairing, or remodeling any interstate bridge or partially constructed bridge, impose and collect tolls, and pledge the bridge revenues to the payment of said bonds.

Referred to in §313A.16

313A.13 Sale and exchange or retirement of bonds.
The revenue bonds may be issued and sold or exchanged by the department from time to time and in such amounts as it deems necessary to provide sufficient funds for the acquisition, purchase, or construction of any such bridge and to pay interest on bonds issued for the construction of any toll bridge during the period of actual construction and for six months after completion thereof. The department is hereby authorized to adopt all necessary resolutions prescribing the form, conditions, and denominations of the bonds, the maturity dates therefor, and the interest rate or rates which the bonds shall bear. All bonds of the same issue need not bear the same interest rate. Principal and interest of the bonds shall be payable at such place or places within or without the state of Iowa as determined by the department, and the bonds may contain provisions for registration as to principal or interest, or both. Interest shall be payable at such times as determined by the department and the bonds shall mature at such times and in such amounts as the department prescribes. The department may provide for the retirement of the bonds at any time prior to maturity, and in such manner and upon payment of such premiums as it may determine in the resolution providing for the issuance of the bonds. All such bonds and any coupons attached thereto shall be signed by such officials of the department as the department may direct. Successive issues of such bonds within the limits of the original authorization shall have equal preference with respect to the payment of the principal thereof and the payment of interest thereon. The department may fix different maturity dates, serially or otherwise, for successive issues under any one original authorization. All bonds issued under the provisions of this chapter shall have all the qualities of negotiable instruments under the laws of the state of Iowa. All bonds issued and sold hereunder shall be sold to the highest and best bidder on the basis of sealed proposals received pursuant to a notice specifying the time and place of sale and the amount of bonds to be sold which shall be published at least once not less than seven days prior to the sale in a newspaper published in the state of Iowa and having a general circulation in said state. None of the provisions of chapter 75 shall apply to bonds issued under the provisions of this chapter but such bonds shall be sold upon terms of not less than par plus accrued interest. The department may reject any or all bids received at the public sale and may thereafter sell the bonds at private sale on such terms and conditions as it deems most advantageous to its own interests, but not at a price below that of the best bid received at the advertised sale. The department may enter into contracts and borrow money through the sale of bonds of the same character as those herein authorized, from the United States or any agency thereof, upon such conditions and terms as may be agreed to and the bonds shall be subject to all the provisions of this chapter, except that any bonds issued hereunder to the United States or any agency thereof need not first be offered at public sale. The department may also provide for the private sale of bonds issued under the provisions of this chapter to the state treasurer of Iowa upon such terms and conditions as may be agreed upon, and in such event said bonds need not first be offered at public sale. Temporary or interim bonds, certificates, or receipts, of any denomination, and with or without coupons attached, signed by such official as the department may direct, may be issued and delivered until the definitive bonds are executed and available for delivery.

313A.14 Proceeds in trust fund.
The proceeds from the sale of all bonds authorized and issued under the provisions of this chapter shall be deposited by the department in a fund designated as the construction fund of the particular interstate bridge or bridges for which such bonds were issued and sold, which fund shall not be a state fund and shall at all times be kept segregated and set apart
from all other funds and in trust for the purposes herein set out. Such proceeds shall be paid out or disbursed solely for the acquisition, purchase, or construction of such interstate bridge or bridges and expenses incident thereto, the acquisition of the necessary lands and easements therefor and the payment of interest on such bonds during the period of actual construction and for a period of six months thereafter, only as the need therefor shall arise and the department may agree with the purchaser of said bonds upon any conditions or limitations restricting the disbursement of such funds that may be deemed advisable, for the purpose of assuring the proper application of such funds. All moneys in such fund and not required to meet current construction costs of the interstate bridge or bridges for which such bonds were issued and sold, and all funds constituting surplus revenues which are not immediately needed for the particular object or purpose to which they must be applied or are pledged may be invested in obligations issued or guaranteed by the United States or by any person controlled by or supervised by and acting as an instrumentality of the United States pursuant to authority granted by the Congress of the United States; provided, however, that the department may provide in the proceedings authorizing the issuance of said bonds that the investment of such moneys shall be made only in particular bonds and obligations within the classifications eligible for such investment and such provisions shall thereupon be binding upon the department and all officials having anything to do with such investment. Any surplus which may exist in said construction fund shall be applied to the retirement of bonds issued for the acquisition, purchase, or construction of any such interstate bridge by purchase or call and, in the event such bonds cannot be purchased at a price satisfactory to the department and are not by their terms callable prior to maturity, such surplus shall be paid into the fund applicable to the payment of principal and interest of said bonds and shall be used for that purpose. The proceedings authorizing the issuance of bonds may provide limitations and conditions upon the time and manner of applying such surplus to the purchase and call of outstanding bonds and the terms upon which they shall be purchased or called and such limitations and conditions shall be followed and observed in the application and use of such surplus. All bonds so retired by purchase or call shall be immediately canceled.

313A.15 Toll revenue fund.

All tolls or other revenues received from the operation of any toll bridge acquired, purchased, or constructed with the proceeds of bonds issued and sold hereunder shall be deposited by the department to the credit of a special trust fund to be designated as the toll revenue fund of the particular toll bridge or toll bridges producing such tolls or revenue, which fund shall be a trust fund and shall at all times be kept segregated and set apart from all other funds.

[§313A.15, INTERSTATE BRIDGES, §313A.15]

313A.16 Funds transferred to place of payment.

From the money so deposited in each separate construction fund as hereinabove provided, at the direction of the department there shall be transferred to the place or places of payment named in said bonds such sums as may be required to pay the interest as it becomes due on all bonds issued and outstanding for the construction of such particular toll bridge or toll bridges during the period of actual construction and during the period of six months immediately thereafter. The department shall thereafter transfer from each separate toll revenue fund to the place or places of payment named in the bonds for which said revenues have been pledged such sums as may be required to pay the interest on said bonds and redeem the principal thereof as such interest and principal become due. All funds so transferred for the payment of principal or interest on bonds issued for any particular toll bridge or toll bridges shall be segregated and applied solely for the payment of said principal or interest. The proceedings authorizing the issuance of the bonds may provide for the setting up of a reserve fund or funds out of the tolls and other revenues not needed for the payment of principal and interest, as the same currently matures and for the preservation and continuance of such fund in a manner to be provided therein, and such proceedings may also require the immediate application of all surplus moneys in such toll revenue fund to the retirement of such bonds.
prior to maturity, by call or purchase, in such manner and upon such terms and the payment of such premiums as may be deemed advisable in the judgment of the department. The moneys remaining in each separate toll revenue fund after providing the amount required for the payment of principal of and interest on bonds as hereinabove provided, shall be held and applied as provided in the proceedings authorizing the issuance of said bonds. In the event the proceedings authorizing the issuance of said bonds do not require surplus revenues to be held or applied in any particular manner, they shall be allocated and used for such other purposes incidental to the construction, operation, and maintenance of any toll bridge as the department may determine and as permitted under sections 313A.7 and 313A.12.

[C71, 73, 75, 77, 79, 81, §313A.16]

313A.17 Warrants for payment.
Warrants for payments to be made on account of such bonds shall be drawn by the department on duly approved vouchers. Moneys required to meet the costs of purchase or construction and all expenses and costs incidental to the acquisition, purchase, or construction of any particular interstate bridge or to meet the costs of operating, maintaining, and repairing the same, shall be paid by the department from the proper fund therefor upon duly approved vouchers. All interest received or earned on money deposited in each and every fund herein provided for shall be credited to and become a part of the particular fund upon which said interest accrues.

[C71, 73, 75, 77, 79, 81, §313A.17]

313A.18 Depositaries or paying agents.
The department may provide in the proceedings authorizing the issuance of bonds or may otherwise agree with the purchasers of bonds regarding the deposit of all moneys constituting the construction fund and the toll revenue fund and provide for the deposit of such money at such times and with such depositaries or paying agents and upon the furnishing of such security as may meet with the approval of the purchasers of such bonds.

[C71, 73, 75, 77, 79, 81, §313A.18]

313A.19 Expenses of department.
Notwithstanding any provision contained in this chapter, the proceeds received from the sale of bonds and the tolls or other revenues received from the operation of any toll bridge may be used to defray any expenses incurred by the department in connection with and incidental to the issuance and sale of bonds for the acquisition, purchase, or construction of any such toll bridge including expenses for the preparation of surveys and estimates, legal, fiscal and administrative expenses, and the making of such inspections and examinations as may be required by the purchasers of such bonds; provided, that the proceedings authorizing the issuance of such bonds may contain appropriate provisions governing the use and application of said bond proceeds and toll or other revenues for the purposes herein specified.

[C71, 73, 75, 77, 79, 81, §313A.19]

313A.20 No diminution of duties while bonds outstanding.
While any bonds issued by the department remain outstanding, the powers, duties or existence of the department or of any other official or agency of the state shall not be diminished or impaired in any manner that will affect adversely the interests and rights of the holders of such bonds. The holder of any bond may by mandamus or other appropriate proceeding require and compel the performance of any of the duties imposed upon any state department, official, or employee or imposed upon the department or its officers, agents, and employees in connection with the acquisition, purchase, construction, maintenance, operation, and insurance of any bridge and in connection with the collection, deposit, investment, application, and disbursement of all tolls and other revenues derived from the operation and use of any bridge and in connection with the deposit, investment, and disbursement of the proceeds received from the issuance of bonds; provided, that the
enumeration of such rights and remedies herein shall not be deemed to exclude the exercise or prosecution of any other rights or remedies by the holders of such bonds.

[C71, 73, 75, 77, 79, 81, §313A.20]

313A.21 Insurance or indemnity bond.

When any toll bridge authorized hereunder is being built by the department it may carry or cause to be carried such an amount of insurance or indemnity bond or bonds as protection against loss or damage as it may deem proper. The department is hereby further empowered to carry such an amount of insurance to cover any accident or destruction in part or in whole to any toll bridge. All moneys collected on any indemnity bond or insurance policy as the result of any damage or injury to any such toll bridge shall be used for the purpose of repairing or rebuilding of any such toll bridge as long as there are revenue bonds against any such structure outstanding and unredeemed. The department is also empowered to carry insurance or indemnity bonds insuring against the loss of tolls or other revenues to be derived from any such toll bridge by reason of any interruption in the use of such toll bridge from any cause whatever, and the proceeds of such insurance or indemnity bonds shall be paid into the fund into which the tolls and other revenues of the bridge thus insured are required to be paid and shall be applied to the same purposes and in the same manner as other moneys in the said fund. Such insurance or indemnity bonds may be in an amount equal to the probable tolls and other revenues to be received from the operation of such toll bridge during any period of time that may be determined upon by the department and fixed in its discretion, and be paid for out of the toll revenue fund as may be specified in said proceedings. The department may provide in the proceedings authorizing the issuance of bonds for the carrying of insurance as authorized by this chapter and the purchase and carrying of insurance as authorized by this chapter shall thereupon be obligatory upon the department and be paid for out of the toll revenue fund as may be specified in said proceedings.

[C71, 73, 75, 77, 79, 81, §313A.21]

313A.22 Toll charges fixed by department.

The department is hereby empowered to fix the rates of toll and other charges for all interstate bridges acquired, purchased, or constructed under the terms of this chapter. Toll charges so fixed may be changed from time to time as conditions may warrant. The department in establishing toll charges shall give due consideration to the amount required annually to pay the principal of and interest on bonds payable from the revenues thereof. The tolls and charges shall be at all times fixed at rates sufficient to pay the bonds and interest as they mature, together with the creation and maintenance of bond reserve funds and other funds as established in the proceedings authorizing the issuance of the bonds, for any particular toll bridge. The amounts required to pay the principal of and interest on bonds shall constitute a charge and lien on all such tolls and other revenues and interest thereon and sinking funds created therefrom received from the use and operation of said toll bridge, and the department is hereby authorized to pledge a sufficient amount of said tolls and revenues for the payment of bonds issued under the provisions of this chapter and interest thereon and to create and maintain a reserve therefor. Such tolls and revenues, together with the interest earned thereon, shall constitute a trust fund for the security and payment of such bonds and shall not be used or pledged for any other purpose as long as such bonds or any of them are outstanding and unpaid.

[C71, 73, 75, 77, 79, 81, §313A.22]

Whenever a proposed interstate bridge is to be acquired, purchased or constructed, any city, county, or other political subdivision located in relation to such facility so as to benefit directly or indirectly thereby, may, either jointly or separately, at the request of the department advance or contribute money, rights-of-way, labor, materials, and other property toward the expense of acquiring, purchasing or constructing the bridge, and for preliminary surveys and the preparation of plans and estimates of cost therefor and other preliminary expenses.
Any such city, county, or other political subdivision may, either jointly or separately, at the request of the department advance or contribute money for the purpose of guaranteeing the payment of interest or principal on the bonds issued by the department to finance the bridge. Appropriations for such purposes may be made from any funds available, including county road funds received from or credited by the state, or funds obtained by excess tax levies made pursuant to law or the issuance of general obligation bonds for this purpose. Money or property so advanced or contributed may be immediately transferred or delivered to the department to be used for the purpose for which contribution was made. The department may enter into an agreement with a city, county, or other political subdivision to repay any money or the value of a right-of-way, labor, materials or other property so advanced or contributed. The department may make such repayment to a city, county, or other political subdivision and reimburse the state for any expenditures made by it in connection with the bridge out of tolls and other revenues for the use of the bridge.

The department shall certify the agreement for the sale to the state executive council, with a description of the land and the terms of the sale and the state executive council may execute the deed and deliver it to the grantee.

CHAPTER 314
ADMINISTRATIVE PROVISIONS FOR HIGHWAYS

314.1 Bidding procedures — basis for awarding contracts.

1. The agency having charge of the receipt of bids and the award of contracts for the construction, reconstruction, improvement, or repair or maintenance of a highway, bridge, or culvert may require, for any highway, bridge, or culvert contract letting, that each bidder file with the agency a statement showing the bidder’s financial standing, equipment, and experience in the execution of like or similar work. The statements shall be on standard forms prepared by the department and shall be filed with the agency prior to the letting at which the bidder expects to bid. The agency may, in advance of the letting, notify the bidder as to the amount and the nature of the work for which the bidder is deemed qualified to bid. A bidder who is prequalified under this subsection by the department shall be deemed qualified for a highway, bridge, or culvert contract letting by any other agency and shall submit proof of the prequalification in a manner determined by the department if required to do so by the agency.

2. Notwithstanding any other provision of law to the contrary, a public improvement that involves the construction, reconstruction, or improvement of a highway, bridge, or culvert and that has a cost in excess of the applicable threshold in section 73A.18, 262.34, 297.7, 309.40, 310.14, or 313.10, as modified by the bid threshold subcommittee pursuant to section 314.1B, shall be advertised and let for bid, except such public improvements that involve emergency work pursuant to section 309.40A, 313.10, or 384.103, subsection 2. For a city having a population of fifty thousand or less, a public improvement that involves the construction, reconstruction, or improvement of a highway, bridge, or culvert that has a cost in excess of twenty-five thousand dollars, as modified by the bid threshold subcommittee pursuant to section 314.1B, shall be advertised and let for bid, excluding emergency work. However, a public improvement that has an estimated total cost to a city in excess of a threshold of fifty thousand dollars, as modified by the bid threshold subcommittee pursuant to section 314.1B, and that involves the construction, reconstruction, or improvement of a highway, bridge, or culvert that is under the jurisdiction of a city with a population of more
than fifty thousand, shall be advertised and let for bid. Cities required to competitively bid highway, bridge, or culvert work shall do so in compliance with the contract letting procedures of sections 26.3 through 26.12.

3. a. In the award of contracts for the construction, reconstruction, improvement, or repair or maintenance of a highway, bridge, or culvert, the agency having charge of awarding such contracts shall give due consideration not only to the prices bid but also to the mechanical or other equipment and the financial responsibility and experience in the performance of like or similar contracts. The agency may reject any or all bids. The agency may readvertise and relet the project without conducting an additional public hearing if no substantial changes are made to the project’s plans or specifications. The agency may let by private contract or build by day labor, at a cost not in excess of the lowest bid received.

b. Upon the completion of any contract or project on either the farm-to-market or secondary road system, the county engineer shall file with the county auditor a statement showing the total cost thereof with certificate that the work has been done in accordance with the plans and specifications. Upon completion of a contract or project on the municipal street system, the city public works department or city engineer shall file with the city clerk a statement showing the total cost of the contract or project with a certificate that the work has been done in accordance with the plans and specifications. All contracts shall be in writing and shall be secured by a bond for the faithful performance thereof as provided by law.

2. The department shall adopt rules prescribing the manner by which governmental entities, as defined in section 26.2, shall administer section 26.14 concerning public improvement quotations.

3. The rules shall include definitions concerning types of projects and uniform requirements and definitions that cities and counties under subsection 1 and governmental entities under subsection 2 shall use in determining costs for such projects. Upon completion of the review the subcommittee may make adjustments in the applicable bid thresholds for types of work based on the price adjustments.

3. Review — publication. Each subcommittee shall meet to conduct the review and make the adjustments described in this section on or before August 1 of every other year, or of every year if determined necessary by the subcommittee. The moneys in this fund shall be used exclusively for the development and implementation of integrated roadside vegetation plans. Except as provided in subsections 2 and 3, the moneys shall only be expended for areas on or adjacent to road, street, and highway right-of-ways. The state department of transportation in consultation with the department of natural resources shall establish standards relating to the type of projects available for assistance.

b. A city or county which has a project which qualifies for the use of these funds shall submit a request for the funds to the state department of transportation. A city or county may, at its option, apply moneys allocated for use on city or county projects under this subsection toward qualifying projects on the primary road system. The state department of transportation in consultation with the department of natural resources shall determine which projects qualify for the funds and which projects shall be funded if the requests for the funds exceed the availability of the funds. In ranking applications for funds, the department shall consider the proportion of political subdivision matching funds to be provided, if any, and the proportion of private contributions to be provided, if any. In considering the proportion of political subdivision matching funds provided, the department shall consider only those moneys which are in addition to those which the political subdivision has historically provided toward such projects. Funds allocated to the cities, the counties, and the department which are not programmed by the end of each fiscal year shall be available for redistribution to any eligible applicant regardless of the original allocation of funds. Such funds shall be awarded for eligible projects based upon their merit in meeting the program objectives established by the department under section 314.22. The department shall submit a report of all projects funded in the previous fiscal year to the governor and to the general assembly on January 15 of each year.

c. Beginning April 1, 1990, the moneys in the living roadway trust fund shall be allocated between the state, counties, and cities in the same proportion that the road use tax funds are allocated under section 312.2, subsection 1, paragraphs “a”, “b”, “c”, and “d”. However, after April 1, 1990, a city or county shall not be eligible to receive moneys from the living roadway trust fund unless the city or county has an integrated roadside vegetation management plan in place consistent with the objectives in section 314.22.

2. a. The department may authorize projects which provide grants or loans to local governments and organizations which are developing community entryway enhancement and other planting demonstration projects. Planning, public education, installation, and

initial maintenance planning and development may be determined by the department to be eligible activities for funding under this paragraph. Projects approved under this paragraph require a local match or contribution toward the overall project cost.

b. The department may authorize projects which provide grants or loans to local governments for the purchase of specialized equipment and special staff training for the establishment of alternative forms of roadside vegetation. Projects approved under this paragraph require a local match or contribution toward the overall project cost.

c. The department, in order to create greater visual effect, shall investigate alternatives for concentrating plantings at strategic locations to gain a greater visual impact and appeal as well as stronger scenic value. Equal attention shall be given to providing safe and effective habitats for wildlife which can coexist with highways.

d. The department may authorize projects which provide grants or loans to local jurisdictions for increased protection through the use of easements, fee title acquisition, covenants, zoning ordinances, or other provisions for protection of vegetation and desirable environment adjacent to the right-of-way. Off-right-of-way projects shall emphasize vegetation protection or enhancement, scenic and wildlife values, erosion control and enhancement of vegetation management projects within the right-of-ways.

3. a. Moneys allocated to the state under subsection 1 shall be expended as follows:

(1) Fifty thousand dollars annually to the department for the services of the integrated roadside vegetation management coordinator and support.

(2) One hundred thousand dollars annually for education programs, research and demonstration projects, and vegetation inventories and strategies, under section 314.22, subsections 5, 6, and 8.

(3) All remaining moneys for the gateways program under section 314.22, subsection 7.

b. Moneys allocated to the counties under subsection 1 shall be expended as follows:

(1) For the fiscal year beginning July 1, 1995, and ending June 30, 1996, and each subsequent fiscal year, seventy-five thousand dollars to the university of northern Iowa to maintain the position of the state roadside specialist and to continue its integrated roadside vegetation management program providing research, education, training, and technical assistance.

(2) All remaining money for grants or loans under subsection 2, paragraph “a”.

c. Moneys allocated to the cities shall be expended for grants or loans under subsection 2, paragraph “a”.

a. Maintain a safe travel environment.

b. Serve a variety of public purposes including erosion control, wildlife habitat, climate control, scenic qualities, weed control, utility easements, recreation uses, and sustenance of water quality.

c. Be based on a systematic assessment of conditions existing in roadsides, preservation of valuable vegetation and habitats in the area, and the adoption of a comprehensive plan and strategies for cost-effective maintenance and vegetation planting.

d. Emphasize the establishment of adaptable and long-lived vegetation, often native species, matched to the unique environment found in and adjacent to the roadside.

e. Incorporate integrated management practices for the long-term control of damaging insect populations, weeds, and invasive plant species.
f. Build upon a public education program allowing input from adjacent landowners and the general public.

g. Accelerate efforts toward increasing and expanding the effectiveness of plantings to reduce wind-induced and water-induced soil erosion and to increase deposition of snow in desired locations.

h. Incorporate integrated roadside vegetation management with other state agency planning and program activities including the recreation trails program, scenic highways, open space, and tourism development efforts. Agencies should annually report their progress in this area to the general assembly.

2. Counties may adopt plans. A county may adopt an integrated roadside vegetation management plan consistent with the integrated roadside vegetation management plan adopted by the department under subsection 1.

3. Integrated roadside vegetation management technical advisory committee.

   a. The director of the department shall appoint members to an integrated roadside vegetation management technical advisory committee which is created to provide advice on the development and implementation of a statewide integrated roadside vegetation management plan and program and related projects. The department shall report annually in January to the general assembly regarding its activities and those of the committee. Activities of the committee may include, but are not limited to, providing advice and assistance in the following areas:

      (1) Research efforts.
      (2) Demonstration projects.
      (3) Education and orientation efforts for property owners, public officials, and the general public.

315.11 Additional factors and requirements.
In addition to other effects and factors to be considered under section 315.5, for applications submitted after July 1, 1988, the following factors and requirements shall be considered or applied:

The department shall make a good faith effort to identify existing Iowa businesses within an industry in competition with the business being considered for assistance. The department shall make a good faith effort to determine the probability that the proposed financial assistance will displace employees of the existing businesses. In determining the impact on businesses in competition with the business being considered for assistance, jobs created as a result of other jobs being displaced elsewhere in the state shall not be considered direct jobs created.
2. The economic impact to the state of the proposed project. In measuring the economic impact the department shall award more points for the following:
   a. A business with a greater percentage of sales out-of-state or of import substitution.
   b. A business with a higher proportion of in-state suppliers.
   c. A project which would provide greater diversification of the state economy.
   d. A business with fewer in-state competitors.
   e. A potential for future job growth.
   f. A project which is not a retail operation.
3. The quality of jobs to be provided. Jobs that have a higher wage scale, have a lower turnover rate, are full-time, or are career-type positions are considered higher in quality. Businesses that have wage scales substantially below that of existing Iowa businesses in that area should be rated as providing the lowest quality of jobs and should therefore be given the lowest ranking for providing such assistance.
4. If the business has a record of violations of the law over a period of time that tends to show a consistent pattern, the business shall be given the lowest ranking for providing assistance. The department shall make a good faith effort to compile this information.
5. If a business has, within three years of application for assistance, acquired or merged with an Iowa corporation or company, the business shall make a good faith effort to hire the workers of the merged or acquired company.
6. To be eligible for assistance a business shall provide for a preference for hiring residents of the state or the economic development area, except for out-of-state employees offered a transfer to Iowa or the economic development area.
7. All known required environmental permits must be granted and regulations met before moneys are released.

b. The amount, if any, which will compensate the displaced person for any increased interest costs and other debt service costs which the displaced person is required to pay for financing the acquisition of a comparable replacement dwelling. The amount shall be paid only if the dwelling acquired by the displacing agency was encumbered by a bona fide mortgage which was a valid lien on the dwelling for not less than one hundred and eighty days immediately prior to the initiation of negotiations for the acquisition of the dwelling.

c. Actual, reasonable, and necessary expenses incurred by the displaced person for evidence of title, recording fees, and other closing costs incident to the purchase of a replacement dwelling, but not including prepaid expenses.

2. The additional payment authorized by this section shall be made only to a displaced person who purchases and occupies a decent, safe, and sanitary replacement dwelling within one year after the date on which the person receives final payment from the displacing agency of all costs of the acquired dwelling, or on the date on which the obligation of the displacing agency under section 316.8 is met, whichever is the later, except that the displacing agency may extend the eligibility period for good cause. If the period is extended, the payment under this section shall be based on the costs of relocating the person to a comparable replacement dwelling within one year of the applicable date.

All determinations to carry out this section shall be made in accordance with administrative rules adopted by the department. The displaced person may elect either of the following:

2. The amount necessary to enable the person to make a down payment, including incidental expenses described in section 316.5, subsection 1, paragraph “c”, on the purchase of a decent, safe, and sanitary dwelling. The person may, at the discretion of the displacing agency, be eligible under this subsection for the maximum payment allowed under subsection 1, except that, in the case of a displaced homeowner who has owned and occupied the displaced dwelling for at least ninety days but not more than one hundred and eighty days immediately prior to the initiation of negotiations for the acquisition of the dwelling, the payment shall not exceed the payment the person would otherwise have received under section 316.5, subsection 1, had the person owned and occupied the displaced dwelling for one hundred and eighty days immediately prior to the initiation of the negotiations.

The displacing agency may let contracts for the construction of the dwellings, approve plans and specifications for the building of the dwellings, and supervise, inspect, and approve the dwellings once constructed in order that the dwellings so constructed comply with the terms and conditions of this chapter. However, upon the transfer of ownership, the owner of a vehicle subject to the apportioned registration provisions of chapter 326 shall make application for issuance of a certificate of title to either the department or the appropriate county treasurer. The owner of a vehicle purchased pursuant to section 578A.7 shall present documentation that such sale was completed in compliance with that section. The application shall be accompanied by a fee of twenty dollars, and shall bear the owner’s signature. If the primary user is a firm, association, or corporation, the application shall contain the bona fide business address and federal employer identification number of the primary user. The primary user’s name and address shall not be printed on the registration receipt or the certificate of title.

2. Notwithstanding contrary provisions of this chapter or chapter 326 regarding titling and registration by means other than electronic means, the department shall, by July 1, 2019, develop and implement a program to allow for electronic applications, titling, registering, and funds transfers for vehicles subject to registration in order to improve the efficiency and timeliness of the processes and to reduce costs for all parties involved. The program shall also provide for the electronic submission of any statement required by this section, except where prohibited by federal law.

3. The department shall adopt rules on the method for providing signatures for applications and statements required by this section that are made by electronic means.

4. Notwithstanding this section or any other provision of law to the contrary, if the program required by subsection 2 is not implemented by July 1, 2019, an owner of a vehicle subject to registration may apply to the county treasurer of a county contiguous to the county designated for the owner under subsection 1 for registration and issuance of a certificate of title.

321.20B Proof of security against liability — driving without liability coverage.

1. a. Notwithstanding chapter 321A, which requires certain persons to maintain proof of financial responsibility, a person shall not drive a motor vehicle on the highways of this state unless financial liability coverage, as defined in section 321.1, subsection 24B, is in effect for the motor vehicle and unless the driver has in the motor vehicle the proof of financial liability coverage card issued for the motor vehicle, or if the vehicle is registered in another state, other evidence that financial liability coverage is in effect for the motor vehicle. A proof of financial liability coverage card may be produced in paper or electronic format. Acceptable electronic formats include electronic images displayed on a cellular telephone or any other portable electronic device that has a display screen with touch input or a miniature keyboard.

b. It shall be conclusively presumed that a motor vehicle driven upon a parking lot which is available to the public without charge or which is available to customers or invitees of a business or facility without charge was driven on the highways of this state in order to enter the parking lot, and this section shall be applicable to such a motor vehicle. As used in this section, “parking lot” includes access roads, drives, lanes, aisles, entrances, and exits to and from a parking lot described in this paragraph.

c. This subsection does not apply to the operator of a motor vehicle owned by or leased to the United States, this state or another state, or any political subdivision of this state or of another state, or to a motor vehicle which is subject to section 325A.6.

2. a. An insurance company transacting business in this state shall issue to its insured owners of motor vehicles registered in this state a financial liability coverage card for each motor vehicle insured. Each financial liability coverage card shall identify the registration number or vehicle identification number of the motor vehicle insured and shall indicate the expiration date of the applicable insurance coverage. The financial liability coverage card shall also contain the name and address of the insurer or the name of the insurer and the name and address of the insurance agency, the name of the insured, and an emergency telephone number of the insurer or emergency telephone number of the insurance agency. An insurance company may issue a financial liability coverage card in either paper format or, if requested by the insured, electronic format.

b. The department shall adopt rules regarding the contents of a financial liability coverage card to be issued pursuant to this section.

1. Notwithstanding the provisions of this section, a fleet owner who is issued a certificate of self-insurance pursuant to section 321A.34, subsection 1, is not required to maintain in each vehicle a financial liability coverage card with the individual registration number or the vehicle identification number of the vehicle included on the card. Such fleet owner shall be required to maintain a financial liability coverage card in each vehicle in the fleet including information deemed appropriate by the director.

2. An association of individual members that is issued a certificate of self-insurance pursuant to section 321A.34, subsection 2, is required to maintain in each vehicle of an individual member a financial liability coverage card that complies with the provisions of this section and in addition contains information relating to the association and the association’s certificate of self-insurance as is deemed appropriate by the director.

3. If the financial liability coverage for a motor vehicle which is registered in this state is canceled or terminated effective prior to the expiration date indicated on the financial liability coverage card issued for the vehicle, the person to whom the financial liability coverage card was issued shall destroy the card.

4. a. If a peace officer stops a motor vehicle registered in this state and the driver is unable to provide proof of financial liability coverage, the peace officer shall do one of the following:
(1) Issue a warning memorandum to the driver.

(2) Issue a citation to the driver.

(3) Issue a citation and remove the motor vehicle’s license plates and registration receipt.
   (a) Upon removing the license plates and registration receipt, the peace officer shall deliver the plates for destruction, as appropriate, and forward the registration receipt and evidence of the violation, as determined by the department, to the county treasurer of the county in which the motor vehicle is registered.
   (b) The motor vehicle may be driven for a time period of up to forty-eight hours after receiving the citation solely for the purpose of removing the motor vehicle from the highways of this state, unless the driver’s operating privileges are otherwise suspended. After receiving the citation, the driver shall keep the citation in the motor vehicle at all times while driving the motor vehicle as provided in this subparagraph, as proof of the driver’s privilege to drive the motor vehicle for such limited time and purpose.

(4) (a) Issue a citation, remove the motor vehicle’s license plates and registration receipt, and impound the motor vehicle. The peace officer shall deliver the plates for destruction, as appropriate, and forward the registration receipt and evidence of the violation, as determined by the department, to the county treasurer of the county in which the motor vehicle is registered.
   (b) A motor vehicle which is impounded may be claimed by a person if the owner provides proof of financial liability coverage and proof of payment of any applicable fine and the costs of towing and storage for the motor vehicle. If the motor vehicle is not claimed within thirty days after impoundment, the motor vehicle may be treated as an abandoned vehicle pursuant to section 321.89.
   (c) The holder of a security interest in a motor vehicle which is impounded pursuant to this subparagraph shall be notified of the impoundment within seventy-two hours of the impoundment of the motor vehicle and shall have the right to claim the motor vehicle upon the payment of all fees. However, if the value of the vehicle is less than the security interest, all fees shall be divided equally between the lienholder and the political subdivision impounding the vehicle.

b. An owner or driver of a motor vehicle who is charged with a violation of subsection 1 and issued a citation under paragraph “a”, subparagraph (3) or (4), is subject to the following:

(1) An owner or driver who produces to the clerk of court, prior to the date of the individual’s court appearance as indicated on the citation, proof that financial liability coverage was in effect for the motor vehicle at the time the person was stopped and cited, or, if the driver is not the owner of the motor vehicle, proof that liability coverage was in effect for the driver with respect to the motor vehicle being driven at the time the driver was stopped and cited, in the same manner as if the motor vehicle were owned by the driver, shall be given a receipt indicating that such proof was provided and be subject to one of the following:
   (a) If the person was cited pursuant to paragraph “a”, subparagraph (3), the owner or driver shall provide a copy of the receipt to the county treasurer of the county in which the motor vehicle is registered and the owner shall be assessed a fifteen dollar administrative fee by the county treasurer who shall issue new license plates and registration to the person after payment of the fee.
   (b) If the person was cited pursuant to paragraph “a”, subparagraph (4), the owner or driver, after the owner provides proof of financial liability coverage to the clerk of court, may claim the motor vehicle after such person pays any applicable fine and the costs of towing and storage for the motor vehicle, and the owner or driver provides a copy of the receipt and the owner pays to the county treasurer of the county in which the motor vehicle is registered a fifteen dollar administrative fee, and the county treasurer shall issue new license plates and registration to the person.

(2) An owner or driver who is charged with a violation of subsection 1 and is unable to show that financial liability coverage was in effect for the motor vehicle at the time the person was stopped and cited may do either of the following:
   (a) Sign an admission of violation on the citation and remit to the clerk of court a scheduled fine as provided in section 805.8A, subsection 14, paragraph “f”, for a violation
of subsection 1. Upon payment of the fine to the clerk of court of the county where the citation was issued, payment of a fifteen dollar administrative fee to the county treasurer of the county in which the motor vehicle is registered, and providing proof of payment of any applicable fine and proof of financial liability coverages to the county treasurer of the county in which the motor vehicle is registered, the treasurer shall issue new license plates and registration to the owner.

(b) Request an appearance before the court on the matter. If the matter goes before the court, and the owner or driver is found guilty of a violation of subsection 1, the court may impose a fine as provided in section 805.8A, subsection 14, paragraph “f”, for a violation of subsection 1, or the court may order the person to perform unpaid community service instead of the fine. Upon the payment of the fine or the entry of the order for unpaid community service, the person shall provide proof of payment or entry of such order and the county treasurer of the county in which the motor vehicle is registered shall issue new license plates and registration to the owner upon the owner providing proof of financial liability coverage and paying a fifteen dollar administrative fee to the county treasurer.

c. An owner or driver cited for a violation of subsection 1, who produces to the clerk of court prior to the date of the person’s court appearance as indicated on the citation proof that financial liability coverage was in effect for the motor vehicle at the time the person was stopped and cited, shall not be convicted of such violation and the citation issued shall be dismissed by the court. Upon dismissal, the court or clerk of court shall assess the costs of the action against the defendant named on the citation.

5. If the motor vehicle is not registered in this state and the driver is a nonresident, the peace officer shall do one of the following:
   a. Issue a warning memorandum to the driver.
   b. Issue a citation. An owner or driver who produces to the clerk of court prior to the date of the person’s court appearance as indicated on the citation proof that the financial liability coverage was in effect for the motor vehicle at the time the person was stopped and cited, or if the driver is not the owner of the motor vehicle, proof that liability coverage was in effect for the driver with respect to the motor vehicle being driven at the time the driver was stopped and cited in the same manner as if the motor vehicle were owned by the driver, shall be given a receipt indicating that proof was provided, and the citation issued shall be dismissed by the court. Upon dismissal, the court or clerk of court shall assess the costs of the action against the defendant named on the citation.

6. This section does not apply to a motor vehicle identified in section 321.18, subsection 1, 2, 3, 4, 5, 6, or 8.

7. This section does not apply to a lienholder who has a security interest in a motor vehicle subject to the registration requirements of this chapter, so long as such lienholder maintains financial liability coverage for any motor vehicle driven or moved by the lienholder in which the lienholder has an interest.

8. This section does not apply to a motor vehicle owned by a motor vehicle dealer or wholesaler licensed pursuant to chapter 322.

9. The director of transportation and the commissioner of insurance shall adopt rules pursuant to chapter 17A to administer this section.

§321.23 Titles to specially constructed and reconstructed vehicles, street rods, replica vehicles, and foreign vehicles.

1. a. If the vehicle to be registered is a specially constructed vehicle, reconstructed vehicle, street rod, replica vehicle, or foreign vehicle, such fact shall be stated in the application. A fee of ten dollars shall be paid by the person making the application upon issuance of a certificate of title by the county treasurer. For a specially constructed vehicle, reconstructed vehicle, street rod, or replica vehicle subject to registration, the application shall be accompanied by a statement from the department authorizing the motor vehicle to be titled and registered in this state. The owner of a specially constructed vehicle, reconstructed vehicle, street rod, replica vehicle, or foreign vehicle purchased pursuant to section 578A.7 shall present documentation that such sale was completed in compliance with that section.

b. The department shall cause a physical inspection to be made of all specially constructed vehicles, reconstructed vehicles, street rods, and replica vehicles upon application for a certificate of title by the owner, to determine whether the motor vehicle complies with the definition of specially constructed vehicle, reconstructed vehicle, street rod, or replica vehicle in this chapter and to determine that the integral component parts are properly identified and that the rightful ownership is established before issuing the owner the authority to have the motor vehicle registered and titled. The purpose of the physical inspection under this section is not to determine whether the motor vehicle is in a condition safe to operate.

c. The owner of a specially constructed vehicle, reconstructed vehicle, street rod, or replica vehicle shall apply for a certificate of title and registration for the vehicle at the county treasurer’s office within thirty days of the inspection. For a foreign vehicle which has been registered outside this state, the owner shall surrender to the treasurer all registration plates, registration cards, and certificates of title, or if the vehicle to be registered is from a nontitle state, the evidence of foreign registration and ownership as may be prescribed by the department except as provided in subsection 2.

d. Upon completion of every specially constructed vehicle, reconstructed vehicle, street rod, or replica vehicle, the owner shall certify on a form prescribed by the department that such vehicle is in compliance with all equipment specifications required under this chapter.

2. Where in the course of operation of a vehicle registered in another state it is desirable to retain registration of said vehicle in such other state, such applicant need not surrender but shall submit for inspection said evidence of such foreign registration and the treasurer upon a proper showing shall register said vehicle in this state but shall not issue a certificate of title for such vehicle.

3. In the event an applicant for registration of a foreign vehicle for which a certificate of title has been issued is able to furnish evidence of being the registered owner of the vehicle to the county treasurer of the owner’s residence, although unable to surrender such certificate of title, the county treasurer may issue a registration receipt and plates upon receipt of the required annual registration fee and the fee for new registration but shall not issue a certificate of title thereto. Upon surrender of the certificate of title from the foreign state, the county treasurer shall issue a certificate of title to the owner, or person entitled thereto, of such vehicle as provided in this chapter. The owner of a vehicle registered under this subsection shall not be required to obtain a certificate of title in this state and may
transfer ownership of the vehicle to a motor vehicle dealer licensed under chapter 322 if, at
the time of the transfer, the certificate of title is held by a secured party and the dealer has
forwarded to the secured party the sum necessary to discharge the security interest pursuant
to section 321.48, subsection 1.

4. A vehicle which does not meet the equipment requirements of this chapter due to the
particular use for which it is designed or intended, may be registered by the department upon
payment of appropriate fees and after inspection and certification by the department that the
vehicle is not in an unsafe condition. A person is not required to have a certificate of title to
register a vehicle under this subsection. If the owner elects to have a certificate of title issued
for the vehicle, a fee of twenty dollars shall be paid by the person making the application
upon issuance of a certificate of title. If the department’s inspection reveals that the vehicle
may be safely operated only under certain conditions or on certain types of roadways, the
department may restrict the registration to limit operation of the vehicle to the appropriate
conditions or roadways. This subsection does not apply to snowmobiles as defined in section
321G.1. Section 321.382 does not apply to a vehicle registered under this subsection which is
operated exclusively by a person with a disability who has obtained a persons with disabilities
parking permit as provided in section 321L.2, if the persons with disabilities parking permit
is carried in or on the vehicle and shown to a peace officer on request.

321.24 Issuance of registration and certificate of title.
1. Upon receipt of the application for title and payment of the required fees for a motor
vehicle, trailer, or semitrailer, the county treasurer or the department shall, when satisfied
as to the application’s genuineness and regularity, and, in the case of a mobile home or
manufactured home, that taxes are not owing under chapter 423 or 435, issue a certificate
of title and, except for a mobile home or manufactured home, a registration receipt, and
shall file the application, the manufacturer’s or importer’s certificate, the certificate of title,
or other evidence of ownership, as prescribed by the department. The registration receipt
shall be delivered to the owner and shall contain upon its face the date issued, the name and
address of the owner, the registration number assigned to the vehicle, the amount of the fee
paid, the type of fuel used, a description of the vehicle as determined by the department,
and a form for notice of transfer of the vehicle. The name and address of any lessee of the
vehicle shall not be printed on the registration receipt or certificate of title. Up to three
owners may be listed on the registration receipt and certificate of title.

2. The county treasurer shall maintain in the county record system information contained
on the registration receipt. The information shall be accessible by registration number and
shall be open for public inspection during reasonable business hours. Copies the department
requires shall be sent to the department in the manner and at the time the department directs.

3. The certificate of title shall contain upon its face the identical information required upon
the face of the registration receipt. In addition, the certificate of title shall contain a statement
of the owner’s title, the title number assigned to the owner or owners of the vehicle, the name and address of the previous owner, and a statement of all security interests and encumbrances as shown in the application, upon the vehicle described, including the nature of the security interest, date of perfection, and name and mailing address of the secured party.

4. If the prior certificate of title is from another state and indicates that the vehicle was rebuilt, the new certificate of title and registration receipt shall contain the designation “REBUILT” printed on its face together with the name of the state issuing the prior title. The designation shall be retained on the face of all subsequent certificates of title and registration receipts for the vehicle.

5. If the prior certificate of title is from another state and indicates that the vehicle was junked, an Iowa junking certificate shall be issued according to section 321.52, subsections 2 and 3. If the prior certificate of title from another state indicates that the vehicle is salvaged and not rebuilt or is a salvage certificate of title, an Iowa salvage certificate of title shall be issued and a “SALVAGE” designation shall be retained on all subsequent Iowa certificates of title and registration receipts for the vehicle, unless the owner has surrendered the prior certificate of title and a salvage theft examination certificate, as provided under section 321.52, subsection 4, paragraph “c”, and the salvage theft examination certificate was properly executed within thirty days of the date the owner was assigned the prior certificate of title. The department may require that subsequent Iowa certificates of title retain other states’ designations which indicate that a vehicle had incurred prior damage. The department shall determine the manner in which other states’ rebuilt, salvage, or other designations are to be indicated on Iowa titles.

6. If the prior certificate of title is from another state and indicates that the vehicle was returned to the manufacturer pursuant to a law of another state similar to chapter 322G, the new registration receipt and certificate of title, and all subsequent registration receipts and certificates of title issued for the vehicle, shall contain a designation indicating the vehicle was returned to the manufacturer. The department shall determine the manner in which other states’ designations are to be indicated on Iowa registration receipts and certificates of title. The department may determine that a “REBUILT” or “SALVAGE” designation supersedes the designation required by this subsection and include the “REBUILT” or “SALVAGE” designation on the registration receipt and certificate of title in lieu of the designation required by this subsection.

7. The certificate shall contain the name of the county treasurer or of the department and, if the certificate of title is printed, the signature of the county treasurer, the deputy county treasurer, or the department director or deputy designee. The certificate of title shall contain upon the reverse side a form for assignment of title or interest and warranty by the owner; for reassignments by a dealer licensed in this state or in another state if the state in which the dealer is licensed permits Iowa licensed dealers to similarly reassign certificates of title. However, titles for mobile homes or manufactured homes shall not be reassigned by licensed dealers. Notwithstanding section 321.1, subsection 17, as used in this subsection, “dealer” means every person engaged in the business of buying, selling, or exchanging vehicles of a type required to be registered under this chapter.

8. The original certificate of title shall be delivered to the owner if there is no security interest. Otherwise the certificate of title shall be delivered by the county treasurer or the department to the person holding the first security interest. Delivery may be made using electronic means.

9. The county treasurer or the department shall maintain in the county or department records system information contained on the certificate of title. The information shall be accessible by title certificate number for a period of three years from the date of notification of cancellation of title or that a new title has been issued as provided in this chapter. Copies the department requires shall be sent to the department in the manner and at the time the department directs. The department shall designate a uniform system of title numbers to indicate the county of issuance.

10. A vehicle shall be registered for the registration year. A vehicle registered for the first time in this state shall be registered for the remaining unexpired months of the registration year and pay an annual registration fee prorated for the remaining unexpired months of the
registration year plus a fee for new registration if applicable pursuant to section 321.105A. Except for a vehicle registered under chapter 326, a vehicle registered for the first time during the eleventh month of the owner’s registration year may be registered for the remaining unexpired months of the registration year as provided in this subsection or for the remaining unexpired months of the registration year and for the next registration year, upon payment of the applicable registration fees.

11. If the county treasurer or department is not satisfied as to the ownership of the vehicle or that there are no undisclosed security interests in it, or a junking certificate has been issued for the vehicle but a certificate of title will not be reissued under section 321.52, subsection 3, and the vehicle qualifies as an antique vehicle under section 321.115, subsection 1, the county treasurer or department may register the vehicle but shall, as a condition of issuing a certificate of title and registration receipt, require the applicant to file with the department a bond in the form prescribed by the department and executed by the applicant, and either accompanied by the deposit of cash with the department or also executed by a person authorized to conduct a surety business in this state. The owner of a vehicle subject to the bond requirements of this subsection shall apply for a certificate of title and registration for the vehicle at the county treasurer’s office within thirty days of issuance of written authorization from the department. 321.46 New title and registration upon transfer of ownership — credit.

1. The transferee shall, within thirty calendar days after purchase or transfer, apply for and obtain from the county treasurer of the person's residence, or if a nonresident, the county treasurer of the county where the primary users of the vehicle are located or the county where all other vehicles owned by the nonresident are registered, or in the case of a mobile home or manufactured home, the county treasurer of the county where the mobile home or manufactured home is located, or if a firm, association, or corporation with vehicles in multiple counties, the transferee may apply for and obtain from the county treasurer of the county where the primary user of the vehicle is located, a new registration and a new certificate of title for the vehicle, except as provided in section 321.25, 321.48, or 322G.12, or when the transferee obtains the vehicle pursuant to section 321.52, subsection 2, paragraph “b”. The transferee shall present with the application the certificate of title endorsed and assigned by the previous owner and shall indicate the name of the county in which the vehicle was last registered and the registration expiration date.

2. Upon filing the application for a new registration and a new title, the applicant shall pay a title fee of twenty dollars, an annual registration fee prorated for the remaining unexpired months of the registration year, and a fee for new registration if applicable. A manufacturer applying for a certificate of title pursuant to section 322G.12 shall pay a title fee of ten dollars. However, a title fee shall not be charged to a manufactured or mobile home retailer applying for a certificate of title for a used mobile home or manufactured home, titled in Iowa, as required under section 321.45, subsection 4. The county treasurer, if satisfied of the genuineness and regularity of the application, and in the case of a mobile home or manufactured home, that taxes are not owing under chapter 435, and that applicant has complied with all the requirements of this chapter, shall issue a new certificate of title and, except for a mobile home, manufactured home, or a vehicle returned to and accepted by a manufacturer as described in section 322G.12, a registration card to the purchaser or transferee, shall cancel the prior registration for the vehicle, and shall forward the necessary copies to the department on the date of issuance, as prescribed in section 321.24. Mobile homes or manufactured homes titled under chapter 448 that have been subject under section 446.18 to a public bidder sale in a county shall be titled in the county’s name, with no fee, and the county treasurer shall issue the title.

3. The applicant shall be entitled to a credit for that portion of the annual registration fee of the vehicle sold, traded, transferred, or junked which had not expired prior to the transfer of ownership of the vehicle. The annual registration fee for the new registration for the vehicle acquired shall be reduced by the amount of the credit. The credit shall be computed on the basis of the number of months remaining in the registration year, rounded to the nearest whole dollar. The credit shall be subject to the following limitations:

   a. The credit shall be claimed within six months from the date the vehicle for which credit is granted was sold, traded, transferred, or junked. After six months, all credits shall be disallowed.

   b. Any credit granted to the owner of a vehicle which has been sold, traded, transferred, or junked may only be claimed by that person toward the annual registration fee for another vehicle purchased and the credit may not be sold, transferred, or assigned to any other person.

   c. When the amount of the credit is computed to be an amount of less than ten dollars, a credit shall be disallowed.

   d. To claim a credit for the unexpired annual registration fee on a junked vehicle, the county treasurer shall disallow any claim for credit unless the owner presents a junking certificate or other evidence as required by the department to the county treasurer.

   e. A credit shall not be allowed to any person who has made claim to receive a refund under section 321.126.

   f. If the credit allowed exceeds the amount of the annual registration fee for the vehicle acquired, the owner may claim a refund under section 321.126, subsection 1, paragraph “f”, for the balance of the credit.

   g. The credit shall be computed on the unexpired number of months computed from the date of purchase of the vehicle acquired.

4. If the annual registration fee upon application is delinquent, the applicant shall be
required to pay the delinquent fee from the first day the annual registration fee was due prorated to the month of application for new title.

5. The seller or transferor may file an affidavit on forms prescribed and provided by the department with the county treasurer of the county where the vehicle is registered certifying the sale or transfer of ownership of the vehicle and the assignment and delivery of the certificate of title for the vehicle. Upon receipt of the affidavit, the county treasurer shall file the affidavit with the copy of the registration receipt for the vehicle on file in the treasurer’s office and on that day the treasurer shall note receipt of the affidavit in the vehicle registration and titling system. Upon filing the affidavit, it shall be presumed that the seller or transferor has assigned and delivered the certificate of title for the vehicle. For a leased vehicle, the lessor licensed pursuant to chapter 321F or the lessee may file an affidavit as provided in this subsection certifying that the lease has expired or been terminated and the date that the leased vehicle was surrendered to the lessor.

6. An applicant for a new registration for a vehicle transferred to the applicant by a spouse, parent, or child of the applicant, or by operation of law upon inheritance, devise or bequest, from the applicant’s spouse, parent, or child, or by a former spouse pursuant to a decree of dissolution of marriage, is entitled to a credit to be applied to the annual registration fee for the transferred vehicle. A credit shall not be allowed unless the vehicle to which the credit applies is registered within the time specified under subsection 1. The credit shall be computed on the basis of the number of unexpired months remaining in the registration year of the former owner computed from the date the vehicle was transferred, computed to the nearest whole dollar. The credit may exceed the amount of the annual registration fee for the transferred vehicle. When the amount of the credit is computed to be an amount of less than ten dollars, the credit shall be disallowed. The credit shall not be sold, transferred, or assigned to any other person.

7. If a motor vehicle is leased and the lessee purchases the vehicle upon termination of the lease, the lessor shall, upon claim by the lessee with the lessor within six months of the purchase, assign the annual registration fee credit and registration plates for the leased motor vehicle to the lessee. Credit shall be applied as provided in subsection 3.

321.46A Change from apportioned registration — credit.

An owner changing a vehicle’s registration from apportioned registration under chapter 326 to registration under this chapter shall be entitled to a credit on the vehicle’s annual registration fees under this chapter. The credit may be allowed when the owner surrenders to the county treasurer proof of apportioned registration provided by the department. The amount of the credit shall be calculated based on the unexpired complete calendar months remaining in the registration year from the date the application is filed with the county treasurer.

321.47 Transfers by operation of law.

1. If ownership of a vehicle is transferred by operation of law upon inheritance, devise or bequest, dissolution decree, order in bankruptcy, insolvency, replevin, foreclosure or
execution sale, abandoned vehicle sale, or when the engine of a motor vehicle is replaced by another engine, or a vehicle is sold or transferred to satisfy an artisan's lien as provided in chapter 577, a landlord's lien as provided in chapter 570, a self-service storage facility lien as provided in section 578A.7, a storage lien as provided in chapter 579, a judgment in an action for abandonment of a manufactured or mobile home as provided in chapter 555B, upon presentation of an affidavit relating to the disposition of a valueless mobile, modular, or manufactured home as provided in chapter 555C, or repossession is had upon default in performance of the terms of a security agreement, the county treasurer in the transferee's county of residence or, in the case of a mobile home or manufactured home, the county treasurer of the county where the mobile home or manufactured home is located, upon the surrender of the prior certificate of title or the manufacturer's or importer's certificate, or when that is not possible, upon presentation of satisfactory proof to the county treasurer of ownership and right of possession to the vehicle and upon payment of a fee of twenty dollars and the presentation of an application for registration and certificate of title, may issue to the applicant a registration card for the vehicle and a certificate of title to the vehicle. A person entitled to ownership of a vehicle under a decree of dissolution shall surrender a reproduction of a certified copy of the dissolution and upon fulfilling the other requirements of this chapter is entitled to a certificate of title and registration receipt issued in the person's name.

2. The persons entitled under the laws of descent and distribution of an intestate's property to the possession and ownership of a vehicle owned in whole or in part by a decedent, upon filing an affidavit stating the name and date of death of the decedent, the right to possession and ownership of the persons filing the affidavit, and that there has been no administration of the decedent's estate, which instrument shall also contain an agreement to indemnify creditors of the decedent who would be entitled to levy execution upon the motor vehicle to the extent of the value of the motor vehicle, are entitled upon fulfilling the other requirements of this chapter, to the issuance of a registration card for the interest of the decedent in the vehicle and a certificate of title to it. If a decedent dies testate, and either the will is not probated or is admitted to probate without administration, the persons entitled to the possession and ownership of a vehicle owned in whole or in part by the decedent may file an affidavit and, upon fulfilling the other requirements of this chapter, are entitled to the issuance of a registration card for the interest of the decedent in the vehicle and a certificate of title to the vehicle. The affidavit shall contain the same information and indemnity agreement as is required in cases of intestacy pursuant to this section. A requirement of chapter 450 shall not be considered satisfied by the filing of the affidavit provided for in this section. If, from the records in the office of the county treasurer, there appear to be any liens on the vehicle, the certificate of title shall contain a statement of the liens unless the application is accompanied by proper evidence of their satisfaction or extinction. Evidence of extinction may consist of, but is not limited to, an affidavit of the applicant stating that a security interest was foreclosed as provided in chapter 554, article 9, part 6. The department shall waive the certificate of title fee and surcharge required under sections 321.20, 321.20A, 321.23, 321.46, 321.52, and 321.52A if the person entitled to possession and ownership of a vehicle, as provided in this subsection, is the surviving spouse of a decedent.

3. Whenever ownership of a vehicle is transferred under the provisions of this section, the registration plates shall be removed and forwarded to the county treasurer of the county where the vehicle is registered or to the department if the vehicle is owned by a nonresident. Upon transfer the vehicle shall not be operated upon the highways of this state until the person entitled to possession of the vehicle applies for and obtains registration for the vehicle.

4. A person convicted of a violation of this section is guilty of a simple misdemeanor punishable as a scheduled violation under section 805.8A, subsection 2.

321.48 Vehicles acquired for resale.

1. a. When the transferee of a vehicle is a dealer who holds the vehicle for resale and operates the vehicle only for purposes incident to a resale and displays a dealer plate on the vehicle or does not drive such vehicle or permit it to be driven upon the highways, such transferee shall not be required to obtain a new registration or a new certificate of title but upon transferring title or interest to another person shall execute and acknowledge an assignment and warranty of title upon the certificate of title assigned to the person and deliver the same to the person to whom such transfer is made.

   b. A dealer licensed pursuant to chapter 322 or chapter 322C who has acquired a vehicle for resale which is subject to a security interest as provided in section 321.50 and who has forwarded to the secured party the sum necessary to discharge the security interest may offer the vehicle for sale prior to the receipt from the county treasurer of the certificate of title for the vehicle with the lien discharged for a period of not more than thirty days from the date the vehicle was acquired and the provisions of section 321.104, subsection 2, shall not apply.

2. A foreign registered vehicle purchased or otherwise acquired by a dealer for the purpose of resale shall be issued a certificate of title for the vehicle by the county treasurer of the dealer’s residence upon proper application as provided in this chapter and upon payment of a fee of five dollars and the dealer is exempt from the payment of any and all registration fees for the vehicle. The application for certificate of title shall be made within thirty days after the vehicle comes within the border of the state. However, a dealer acquiring a vehicle registered in another state which permits Iowa dealers to reassign that state’s certificates of title shall not be required to obtain a new registration or a new certificate of title and upon transferring title or interest to another person shall execute an assignment upon the certifying of title for the vehicle to the person to whom the transfer is made and deliver the assigned certificate of title to the person.

3. Notwithstanding subsections 1 and 2, requirements in those subsections for obtaining title to a vehicle or acknowledging assignment and warranty of title do not apply to a dealer who sells a motor vehicle to a purchaser in a consignment transaction authorized under section 322.7B.

4. In a transaction in which a vehicle is traded to a dealer as defined in chapter 322 or chapter 322C toward the purchase price of another vehicle and each vehicle is owned in whole or in part by the same person, the person acquiring the vehicle from the dealer shall be entitled to a credit under section 321.46.

5. A transferee of a new completed motor vehicle shall obtain a certificate of title for the vehicle but is not required to pay the annual registration fee for the vehicle, provided all of the following apply:
   a. The transferee is an equipment dealer licensed as a motor vehicle dealer under chapter 322.
   b. The transferee purchases the vehicle at retail for the purpose of modifying the vehicle as provided in section 321.105A, subsection 2, paragraph “c”, subparagraph (31), prior to selling it as a used vehicle to a business or government entity.
   c. The transferee operates the vehicle only for purposes incidental to a resale.
   d. The transferee displays a dealer plate on the vehicle or does not drive the vehicle or permit it to be driven upon the highways.
6. Nothing in this section shall be construed to prohibit a dealer from obtaining a new certificate of title or new registration in the same manner as other purchasers.

321.49 Time limit — penalty — power of attorney.
1. Except as provided in section 321.52, if an application for transfer of registration and certificate of title is not submitted to the county treasurer of the residence of the transferee within thirty days of the date of assignment or transfer of title, or within thirty days of the date of delivery to the purchaser if the vehicle is subject to a security interest and was offered for sale pursuant to section 321.48, subsection 1, a penalty of ten dollars shall accrue against the applicant, and no registration card or certificate of title shall be issued to the applicant for the vehicle until the penalty is paid.

2. Certificates of title to vehicles may be assigned by an attorney in fact of the owner under a power of attorney appointed and so empowered on forms provided by the department. Such power of attorney shall be filed by the transferee with the application for title.

3. A manufactured or mobile home retailer who acquires a used mobile home or manufactured home, titled in Iowa, and who does not apply for and obtain a certificate of title from the county treasurer of the county where the manufactured or mobile home is located within thirty days of the date of acquisition, as required under section 321.45, subsection 4, is subject to a penalty of ten dollars. A certificate of title shall not be issued to the manufactured or mobile home retailer until the penalty is paid.

321.50 Security interest provisions.
1. A security interest in a vehicle subject to registration under the laws of this state or a mobile home or manufactured home, except trailers whose empty weight is two thousand pounds or less, and except new or used vehicles held by a dealer or manufacturer as inventory for sale, is perfected by the delivery to the county treasurer of the county where the certificate of title was issued or, in the case of a new certificate, to the county treasurer where the certificate will be issued, of an application for certificate of title which lists the security interest, or an application for notation of security interest signed by the owner or by one owner of a vehicle owned jointly by more than one person, or signed through electronic means as determined by the department, or a certificate of title from another jurisdiction which shows the security interest, and payment of a fee of ten dollars for each security interest shown. The department shall require the federal employer identification number of a secured party who is a firm, association, or corporation or, if a natural person, the social security number. Upon delivery of the application and payment of the fee, the county treasurer shall note the date of delivery on the application. If the delivery is by electronic means and the time is electronically recorded on the application along with the date, the time shall be included with the date on all subsequent documents and records where the date of perfection is required under this chapter. The date of delivery shall be the date of perfection of the security interest in the vehicle, regardless of the date the security interest is noted on the certificate of title. Up to three security interests may be perfected against a vehicle and shown on an Iowa certificate of title. If the owner or secured party is in possession of the certificate of title, it must also be delivered at this time. If a vehicle is subject to a security interest when brought into this state, the validity of the security interest and the date of perfection is determined by section 554.9303. Delivery as provided in this
subsection constitutes perfection of a security interest on a certificate of title for purposes of this chapter and chapter 554.

2. Upon receipt of the application and the required fee, if the certificate of title was not delivered to the county treasurer along with the application, the county treasurer shall notify the holder of the certificate of title to deliver to the county treasurer, within five days from the receipt of notice, the certificate of title to permit notation of the security interest. If the holder of the certificate of title fails to deliver it within five days, the holder shall be liable to anyone harmed by the holder's failure.

3. Upon receipt of the application, the certificate of title, if any, and the required fee, the county treasurer shall note the security interest and the date of perfection of the security interest on the certificate of title. The county treasurer shall also note the security interest and the date of perfection of the security interest in the county records system. Upon receipt of a certificate of title issued by a foreign jurisdiction, on which a security interest has been noted, the county treasurer shall note the security interest and the date the security interest was noted on the foreign certificate of title, if available, or if not, the date of issuance of the foreign certificate of title, on the face of the new certificate of title. The county treasurer shall also note the security interest and the date that was noted on the certificate of title in the county records system. The county treasurer shall then deliver the certificate of title to the first secured party as shown thereon.

4. Notwithstanding any provision of this section to the contrary, if a security interest has been delivered by electronic means, the county treasurer or department shall not print a certificate of title until all security interests have been released, but shall provide the first security interest holder with an electronic record of the certificate of title. When a vehicle is subject to an electronic lien, the certificate of title for the vehicle shall be considered to be physically held by the lienholder for purposes of compliance with odometer disclosure requirements under section 321.71.

5. a. When a security interest is discharged, the holder shall note a cancellation of the security interest on the face of the certificate of title over the holder's signature or may note the cancellation of the security interest on a separate, notarized release form or letter. The holder shall deliver the certificate of title and the form or letter, if applicable, to the county treasurer where the title was issued. In the case of a security interest that has been delivered by electronic means, the holder shall notify the department or the county treasurer, in a manner prescribed by the department, of the release of the security interest. The county treasurer shall immediately note the cancellation of the security interest on the face of the certificate of title, if applicable, and in the county records system. The county treasurer shall on the same day deliver the certificate of title, if applicable, and the separate, notarized release form or letter, if applicable, to the then first secured party or, if there is no such person, to the person as directed by the owner, in writing, on a form prescribed by the department or, if there is no person designated, then to the owner. The cancellation of the security interest shall be noted on the certificate of title by the county treasurer without charge. The holder of a security interest discharged by payment who fails to release the security interest within fifteen days after being requested in writing to do so shall forfeit to the person making the payment the sum of twenty-five dollars.

b. If a lien has been released by the lienholder but has not been sent to the county of record for clearance of the lien, any county may note the release on the face of the title and shall notify the county of record that the lien has been released as of the specified date and make entry upon the computer system. Notification to the county of record shall be made by an automated statewide system or by sending a photocopy of the released title to the county of record.

c. When a security interest is discharged, the lienholder shall note the cancellation of the security interest on the face of the title and, if applicable, may note the cancellation of the security interest on a form prescribed by the department and deliver a copy of the form in lieu of the title to the department or to the treasurer of the county in which the title was issued. The form may be delivered by electronic means. The department or county treasurer shall note the release of the security interest upon the statewide computer system and the county's records. A copy of the form, if used, shall be attached to the title by the lienholder, if the title
§321.50, MOTOR VEHICLES AND LAW OF THE ROAD

is held by the lienholder, and shall be evidence of the release of the security interest. If the title is held by the lienholder, the lienholder shall deliver the title to the first lienholder, or if there is no such person, to the person as designated by the owner, or if there is no such person designated, to the owner. If a certificate of title has not been issued, upon release of a security interest, the lienholder shall notify the department or the county treasurer, in a manner prescribed by the department, of the release of the security interest.

d. For purposes of this subsection, a security interest noted on an Iowa certificate of title and appearing in the statewide computer system and the county’s records shall be presumed to be discharged upon presentation of a valid certificate of title subsequently issued by a foreign jurisdiction on which the security interest is no longer noted.

6. The uniform commercial code, chapter 554, article 9, shall apply to all transactions intended to create a security interest in vehicles except as provided in this chapter.

7. Upon request of any person, the county treasurer shall certify whether there are, on the date and hour stated therein, any security interests or liens against a vehicle and the name and address of each secured party. The uniform fee for a certification shall be two dollars if the request for the certification is on a form conforming to standards prescribed by the secretary of state; otherwise, three dollars. Upon request and payment of the appropriate fee, the county treasurer shall furnish a certified copy of any security interests for a uniform fee of one dollar per page.

321.51 Terminal rental adjustment clause — vehicle leases that are not sales or security interests.

An agreement involving the leasing of a motor vehicle or trailer does not create a sale or security interest solely because the agreement provides for an increase or decrease adjustment in the rental price of the motor vehicle or trailer based upon the amount realized upon sale or other disposition of the motor vehicle or trailer following the termination of the lease.

321.52 Out-of-state sales — junked, dismantled, wrecked, or salvage vehicles.

1. When a vehicle is sold outside the state for purposes other than for junk, the owner, dealer or otherwise, shall detach the registration plates and registration card and shall indicate on the registration card the name and address of the foreign purchaser or transferee over the person’s signature. Unless the registration plates are legally attached to another vehicle, the owner shall surrender the registration plates and registration card to the county treasurer, who shall cancel the records, destroy the registration plates, and forward the registration card to the department. The department shall make a notation on the records of the out-of-state sale and, after a reasonable period, may destroy the files for that particular vehicle. The department is not authorized to make a refund of annual registration fees on a vehicle sold out of state unless it receives the registration card completed as provided in this section.

2. a. The purchaser or transferee of a motor vehicle subject to registration for which a certificate of title is issued which is sold for scrap or junk shall surrender the certificate of title, properly endorsed and signed by the previous owner, to the county treasurer of the county of residence of the transferee, and shall apply for a junking certificate from the county treasurer, within thirty days after assignment of the certificate of title, except when the vehicle is disposed of pursuant to paragraph “b”. The county treasurer shall issue to such person without fee a junking certificate. A junking certificate shall authorize the holder to possess,
transport, or transfer by endorsement the ownership of the junked vehicle. A certificate of title shall not again be issued for the vehicle subsequent to the issuance of a junking certificate except as provided in subsection 3. The county treasurer shall cancel the record of the vehicle. The junking certificate shall be printed on the registration receipt form and shall be imprinted with the words “junking certificate”, as prescribed by the department. A space for transfer by endorsement shall be on the junking certificate. A separate form for the notation of the transfer of component parts shall be attached to the junking certificate when the certificate is issued.

b. The owner of a motor vehicle subject to registration that does not have a certificate of title or a junking certificate may dispose of the vehicle to a vehicle recycler licensed under chapter 321H for scrap or junk if the vehicle is twelve model years old or older and is acquired by the vehicle recycler for reasonable consideration equaling less than one thousand dollars.

3. a. When a vehicle for which a certificate of title is issued is junked or dismantled by the owner, the owner shall detach the registration plates and surrender the plates to the county treasurer, unless the plates are properly assigned to another vehicle. The owner shall also surrender the certificate of title to the county treasurer, except when the vehicle is disposed of pursuant to subsection 2, paragraph “b”.

b. Upon the surrender of the certificate of title and application for junking certificate, the county treasurer shall issue to the person, without fee, a junking certificate, which shall authorize the holder to possess, transport, or transfer ownership of the junked vehicle by endorsement of the junking certificate. The county treasurer shall hold the surrendered certificate of title, registration receipt, application for junking certificate, and, if applicable, the registration plates for a period of fourteen days following the issuance of a junking certificate under this subsection.

c. Within the fourteen-day period, the person who was issued the junking certificate and to whom the vehicle was titled or assigned may surrender to the county treasurer the junking certificate, and upon the person’s payment of appropriate fees and taxes and payment of any credit for annual registration fees received by the person for the vehicle under section 321.46, subsection 3, the county treasurer shall issue to the person a certificate of title for the vehicle. After the expiration of the fourteen-day period, a county treasurer shall not issue a certificate of title for a junked vehicle for which a junking certificate is issued. The county treasurer shall cancel the record of the vehicle and forward the certificate of title to the department.

d. However, upon application and a showing of good cause, the department may issue a certificate of title to a person after the fourteen-day period for a junked vehicle for which a junking certificate has been issued. For purposes of this subsection, “good cause” means that the junking certificate was obtained by mistake or inadvertence. If a person’s application to the department is denied, the person may make application for a certificate of title under the bonding procedure as provided in section 321.24, if the vehicle qualifies as an antique vehicle under section 321.115, subsection 1, or the person may seek judicial review as provided under sections 17A.19 and 17A.20.

4. a. Notwithstanding any other provision of law to the contrary, an insurer may apply for and be issued a salvage certificate of title for a motor vehicle without surrendering the certificate of title or manufacturer’s or importer’s statement of origin properly assigned if ownership of the vehicle was transferred, or will transfer, to the insurer pursuant to a settlement with the previous owner of the vehicle arising from circumstances involving damage to the vehicle, and at least thirty days have expired since the effective date of such settlement. To obtain a salvage certificate of title pursuant to this paragraph “a”, the insurer shall submit an application for a salvage certificate of title to the county treasurer of the county in which the vehicle is stored by or on behalf of the insurer. The application shall be accompanied by an affidavit from the insurer in which the insurer certifies it has made at least two written attempts to obtain a properly assigned certificate of title or manufacturer’s or importer’s statement of origin for the vehicle by contacting the previous owner of the vehicle and all lienholders of record by certified mail or a similar service that provides proof of service using a return receipt, and has been unable to obtain the title or statement of origin. The failure of a previous owner or lienholder to provide a properly assigned certificate of title or manufacturer’s or importer’s statement of origin shall be deemed to be a waiver by
the previous owner or lienholder of all rights, title, claim, and interest in the vehicle. The application shall also be accompanied by the application fee required under paragraph "b", and proof of payment of the total amount of the settlement by the insurer to the previous owner of the vehicle. Upon receiving an application that complies with this paragraph "a", the county treasurer shall issue a salvage certificate of title to the insurer which shall be free and clear of all liens and claims of ownership and shall bear the word “SALVAGE” stamped or printed on the face of the title in a manner prescribed by the department.

b. A vehicle rebuilder or a person engaged in the business of buying, selling, or exchanging vehicles of a type required to be registered in this state, upon acquisition of a wrecked or salvage vehicle, shall surrender the certificate of title or manufacturer’s or importer’s statement of origin properly assigned, together with an application for a salvage certificate of title, to the county treasurer of the county of residence of the purchaser or transferee within thirty days after the date of assignment of the certificate of title for the wrecked or salvage motor vehicle. This subsection applies only to vehicles with a fair market value of five hundred dollars or more, based on the value before the vehicle became wrecked or salvage. Upon payment of a fee of ten dollars, the county treasurer shall issue a salvage certificate of title which shall bear the word “SALVAGE” stamped or printed on the face of the title in a manner prescribed by the department. A salvage certificate of title may be assigned to an educational institution, a new motor vehicle dealer licensed under chapter 322, a person engaged in the business of purchasing bodies, parts of bodies, frames or component parts of vehicles for sale as scrap metal, a salvage pool, or an authorized vehicle recycler licensed under chapter 321H. An authorized vehicle recycler licensed under chapter 321H or a new motor vehicle dealer licensed under chapter 322 may assign or reassign an Iowa salvage certificate of title or a salvage certificate of title from another state to any person, and the provisions of section 321.24, subsection 5, requiring issuance of an Iowa salvage certificate of title shall not apply. A vehicle on which ownership has transferred to an insurer of the vehicle as a result of a settlement with the owner of the vehicle arising out of damage to, or unrecovered theft of, the vehicle shall be deemed to be a wrecked or salvage vehicle and the insurer shall comply with this subsection to obtain a salvage certificate of title within thirty days after the date of assignment of the certificate of title of the vehicle.

c. When a wrecked or salvage vehicle has been repaired, the owner may apply for a regular certificate of title by paying the appropriate fees and surrendering the salvage certificate of title and a properly executed salvage theft examination certificate. A motor vehicle with a gross vehicle weight rating of thirty thousand pounds or more is not subject to the salvage theft examination otherwise required under paragraph “d”, and the owner of such vehicle is not required to submit a salvage theft examination certificate. The county treasurer shall issue a regular certificate of title which shall bear a designation printed on the face of the title and printed on the registration receipt indicating that the vehicle was previously titled on a salvage certificate of title in a form approved by the department. This designation shall be included on every Iowa certificate of title and registration receipt issued thereafter for the vehicle. However, if ownership of a stolen vehicle has been transferred to an insurer organized under the laws of this state or admitted to do business in this state, or if the transfer was the result of a settlement with the owner of the vehicle arising from damage to or the unrecovered theft of the vehicle, and if the insurer certifies to the county treasurer on a form approved by the department that the insurance company has received one or more written estimates which state that the retail cost of repairs including labor, parts, and other materials of all damage to the vehicle is less than three thousand dollars, the county treasurer shall issue to the insurance company the regular certificate of title and registration receipt without this designation.

d. A salvage theft examination shall be made by a peace officer who has been specially certified and recertified when required by the Iowa law enforcement academy to do salvage theft examinations. The Iowa law enforcement academy shall determine standards for training and certification, conduct training, and may approve alternative training programs which satisfy the academy’s standards for training and certification. The owner of the salvage vehicle shall make the vehicle available for examination at a time and location designated by the peace officer doing the examination. The owner may obtain a permit
to drive the vehicle to and from the examination location by submitting a repair affidavit to the agency performing the examination stating that the vehicle is reasonably safe for operation and listing the repairs which have been made to the vehicle. The owner must be present for the examination and have available for inspection the salvage title, bills of sale for all essential parts changed, if applicable, and the repair affidavit. The examination shall be for the purposes of determining whether the vehicle or repair components have been stolen. The examination is not a safety inspection and a signed salvage theft examination certificate shall not be construed by any court of law to be a certification that the vehicle is safe to be operated. There shall be no cause of action against the peace officer or the agency conducting the examination or the county treasurer for failure to discover or note safety defects. If the vehicle passes the theft examination, the peace officer shall indicate that the vehicle passed examination on the salvage theft examination certificate. The permit and salvage theft examination certificate shall be on controlled forms prescribed and furnished by the department. The owner shall pay a fee of fifty dollars at the time the examination is scheduled. The agency performing the examinations shall retain forty dollars of the fee and shall pay five dollars of the fee to the department and five dollars of the fee to the treasurer of state for deposit in the general fund of the state. Moneys deposited to the general fund under this paragraph are subject to the requirements of section 8.60 and shall be used by the Iowa law enforcement academy to provide for the special training, certification, and recertification of officers as required by this subsection.

e. For purposes of this subsection, “wrecked or salvage vehicle” means a damaged motor vehicle subject to registration for which the cost of repair exceeds fifty percent of the fair market value of the vehicle, as determined in accordance with rules adopted by the department, before it became damaged.

5. The department shall adopt rules in accordance with chapter 17A to carry out this section.

A nonresident owner, except as provided in sections 321.54 and 321.55, of a private passenger motor vehicle, not operated for hire, may operate or permit the operation of
such vehicle within this state without registering such vehicle in, or paying any fees to, this state subject to the condition that such vehicle at all times when operated in this state is duly registered in, and displays upon it a valid registration plate or plates issued for such vehicle in the place of residence of such owner. A nonresident who leases a vehicle from a resident owner shall not be considered a nonresident owner of such vehicle for the purpose of exemption under this section. This section shall be operative to the extent that under the laws of the foreign country, state, territory, or federal district of such nonresident owner’s residence like exemptions and privileges are granted to vehicles registered under the laws, and owned by residents, of this state. A truck, truck tractor, trailer or semitrailer owned by a nonresident and operated on Iowa highways must have displayed upon it a valid registration plate or plates and a valid registration certificate, card, or other official evidence of its allowable weight in the state, district or county in which it is registered.

321.55 Registration and financial liability coverage required for certain vehicles owned or operated by nonresidents.

1. A nonresident owner or operator engaged in remunerative employment within this state or carrying on business within this state and owning or operating a motor vehicle, trailer, or semitrailer within this state shall register and maintain financial liability coverage as required under section 321.20B for each vehicle and pay the same fees for registration as are paid for like vehicles owned by residents of this state. However, this subsection does not apply to a person commuting from the person’s residence in another state or whose employment is seasonal or temporary, not exceeding ninety days.

2. a. A nonresident owner of a motor vehicle operated within this state by a resident of this state shall register the vehicle and shall maintain financial liability coverage as required under section 321.20B for the vehicle. The nonresident owner shall pay the same fees for registration as are paid for like vehicles owned by residents of this state. However, registration under this paragraph is not required for vehicles being operated by residents temporarily for not more than ninety days. For purposes of this paragraph, a vehicle is not operated in the state temporarily, and is therefore subject to registration and the owner is required to pay the applicable fees, if the vehicle is located in Iowa for more than ninety consecutive or nonconsecutive days and is operated on an Iowa highway by an Iowa resident during that time. It is unlawful for a resident to operate within the state an unregistered motor vehicle required to be registered under this paragraph. The ninety-day temporary period of operation provided for under this paragraph does not apply to a vehicle owned by a shell business as provided in paragraph “b”.

b. On or after July 1, 2013, if the department, in consultation with the department of revenue, determines that the nonresident owner of a vehicle is a partnership, limited liability
company, or corporation that is a shell business, it shall be rebuttably presumed that the Iowa resident in control of the vehicle is the actual owner of the vehicle, that the vehicle is subject to registration in this state, and that payment of the fee for new registration for the vehicle is owed by the Iowa resident. 

(1) Factors which indicate that a partnership, limited liability company, or corporation is a shell business include but are not limited to the following:

(a) The partnership, limited liability company, or corporation lacks a specific business activity or purpose.

(b) The partnership, limited liability company, or corporation fails to maintain a physical location in the foreign state.

(c) The partnership, limited liability company, or corporation fails to employ individual persons and provide those persons with internal revenue service form W-2 wage and tax statements.

(d) The partnership, limited liability company, or corporation fails to file federal tax returns, or fails to file a required state tax return in the foreign state.

(2) Factors which indicate that a person is in control of a vehicle include but are not limited to the following:

(a) The person was the initial purchaser of the vehicle.

(b) The person operated or stored the vehicle in Iowa for any period of time.

(c) The person is a partner, member, or shareholder of the nonresident partnership, limited liability company, or corporation that purports to be the owner of the vehicle.

(d) The person is insured to drive the vehicle.

(3) If the department determines that the nonresident owner of a vehicle is a shell business, the department shall notify the Iowa resident in control of the vehicle in writing that the Iowa resident is required to obtain an Iowa certificate of title and registration for the vehicle and pay the fee for new registration owed for the vehicle not later than thirty days from the date of the notice.

[C39, §5003.03; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §321.55]

1. The operator of a commercial motor vehicle which is not registered within the state as required pursuant to this chapter or chapter 326 or which does not have an interstate fuel permit, as required under chapter 452A, may enter the state and travel to a commercial vehicle dealer or repair facility and exit the state if all of the following circumstances apply:

   a. If the commercial motor vehicle is entering the state solely for the purposes of maintenance and repair to the commercial motor vehicle and is exiting the state after having completed vehicle maintenance or repair.

   b. If the operator has obtained a temporary entry or exit permit from the department.

   c. If the commercial motor vehicle is unladen.

2. The department shall provide a temporary entry and exit permit to a commercial motor vehicle operator which authorizes the operator to enter and exit the state as allowed under this section. Any operator of a commercial motor vehicle who has in the operator’s possession the permit allowing entry into the state and exit from the state shall not be charged with a registration violation under this chapter or chapter 326 or with a motor fuel tax violation under chapter 452A, except for violations of section 452A.74A.

3. For purposes of this section, “commercial motor vehicle” means as defined in section 321.1, subsection 11, paragraph “f”, subparagraph (2).

2. Upon the completion of such requirements the department shall certify to the county treasurer that such used motor vehicles are, from and after a date to be set by the department, the property of the vendee.

321.69 Damage disclosure statement.

1. A certificate of title shall not be issued for a motor vehicle unless a damage disclosure statement has been made by the transferor of the vehicle and is furnished with the application for certificate of title. A damage disclosure statement shall be provided by the transferor to the transferee in a transfer of ownership of a motor vehicle. The new certificate of title and registration receipt shall state on the face whether a prior owner had disclosed that the vehicle was damaged to the extent that it was a wrecked or salvage vehicle as defined in section 321.52, subsection 4, paragraph “e”.

2. The damage disclosure statement required by this section shall, at a minimum, state whether the transferor knows if the vehicle was titled as a salvage, rebuilt, or flood vehicle in this or any other state prior to the transferor’s ownership of the vehicle and, if not, whether the transferor knows if the vehicle was damaged to the extent that it was a wrecked or salvage vehicle as defined in section 321.52, subsection 4, paragraph “e”, during or prior to the transferor’s ownership of the vehicle.

3. The damage disclosure statement shall be provided by the transferor to the transferee at or before the time of sale. If the transferor is not a resident of this state or if the transferee acquired the vehicle by operation of law as provided in section 321.47, the transferee shall not be required to submit a damage disclosure statement from the transferor with the transferee’s application for title unless the state of the transferor’s residence requires a damage disclosure statement. However, the transferee shall submit a damage disclosure statement with the transferee’s application for title indicating whether a salvage, rebuilt, or flood title had ever existed for the vehicle, and if not, whether the vehicle was damaged to the extent that it was a wrecked or salvage vehicle as defined in section 321.52, subsection 4, paragraph “e”, during or prior to the transferor’s ownership of the vehicle, and the year, make, and vehicle identification number of the motor vehicle. The transferee shall not be required to indicate whether the vehicle was damaged to the extent that it was a wrecked or salvage vehicle as defined in section 321.52, subsection 4, paragraph “e”, under this subsection if the transferor’s certificate of title is from another state and if it indicates that the vehicle is salvaged and not rebuilt or is another state’s salvage certificate of title.

4. A lessee who has executed a lease as defined in section 321F.1 shall provide a damage disclosure statement to the lessor at the termination of the lease. The damage disclosure statement shall be made on a separate disclosure document and shall state whether the vehicle was damaged during the term of the lease to the extent that it was a wrecked or salvage vehicle as defined in section 321.52, subsection 4, paragraph “e”. The lessee’s damage disclosure statement shall not be submitted with the application for title, but the lessor shall retain the lessee’s damage disclosure statement for five years following the date of the statement.

5. The department shall retain each damage disclosure statement received and copies shall be available to the public and the attorney general upon request.

6. Authorized vehicle recyclers licensed under chapter 321H and motor vehicle dealers licensed under chapter 322 shall maintain copies of all damage disclosure statements where the recycler or dealer is either the transferor or the transferee for five years following the date of the statement. The copies shall be made available to the department or the attorney general upon request.

7. a. The damage disclosure statements shall be made on the back of the certificate of title if the title is available to the transferor at the time of sale. If the title is not available at the time
of sale or if the face of the transferor’s Iowa title contains no indication that the vehicle was previously salvaged or titled as a salvage, rebuilt, or flood vehicle and the transferor knows or reasonably should know that the vehicle was previously salvaged or titled as a salvage, rebuilt, or flood vehicle in another state, the transferor shall make the disclosure on a separate disclosure document. The damage disclosure statement forms shall be as approved by the department. The treasurer shall not accept a damage disclosure statement and issue a title unless the back of the title or separate disclosure document has been fully completed and signed and dated by the transferee and the transferor, if applicable. If a separate damage disclosure document from a prior owner is required to be furnished with the application for title, the transferor shall provide a copy of the separate damage disclosure document to the transferee at or before the time of sale.

b. In addition to the information required in subsection 2, a separate disclosure document shall state whether the vehicle’s certificate of title indicates the existence of damage prior to the period of the transferor’s ownership of the vehicle and whether the vehicle was titled as a salvage, rebuilt, or flood vehicle during the period of the transferor’s ownership of the vehicle.

8. A person, authorized vehicle recycler licensed under chapter 321H, or motor vehicle dealer licensed under chapter 322 shall not be liable to a subsequent owner, driver, or passenger of a vehicle because a prior owner or lessee gave a false or inaccurate damage disclosure statement or failed to disclose that the vehicle had previously been damaged and repaired or had been titled on a salvage, rebuilt, or flood certificate of title unless the person, recycler, or dealer knew or reasonably should have known that the prior owner or lessee gave a false or inaccurate damage disclosure statement or failed to disclose that the vehicle had been damaged and repaired or had been titled on a salvage, rebuilt, or flood certificate of title.

9. Except for subsections 10 and 11, this section does not apply to motor trucks and truck tractors with a gross vehicle weight rating of sixteen thousand pounds or more, vehicles more than seven model years old, autocycles, motorcycles, motorized bicycles, and special mobile equipment. This section does apply to motor homes. The requirement in subsection 1 that the new certificate of title and registration receipt shall state on the face whether a prior owner had disclosed that the vehicle was damaged to the extent that it was a wrecked or salvage vehicle as defined in section 321.52, subsection 4, paragraph “e”, does not apply to a vehicle with a certificate of title bearing a designation that the vehicle was previously titled on a salvage certificate of title pursuant to section 321.52, subsection 4, paragraph “c”, or to a vehicle with a certificate of title bearing a “REBUILT” or “SALVAGE” designation pursuant to section 321.24, subsection 4 or 5. Except for subsections 10 and 11, this section does not apply to new motor vehicles with a true mileage, as defined in section 321.71, of one thousand miles or less, unless such vehicle has incurred damage as described in subsection 2.

10. a. A person shall not sell, lease, or trade a motor vehicle if the person knows or reasonably should know that the motor vehicle contains a nonoperative air bag that is part of an inflatable restraint system, or that the motor vehicle has had an air bag removed and not replaced, unless the person clearly discloses, in writing, to the person to whom the person is selling, leasing, or trading the vehicle, prior to the sale, lease, or trade, that the air bag is missing or nonoperative. In addition, a lessee who has executed a lease as defined in section 321F.1 shall provide the disclosure statement required in this subsection to the lessor upon termination of the lease.

b. The written disclosure required by this subsection shall be deemed to be a damage disclosure statement for the purposes of subsections 6, 8, and 11.

11. A person who knowingly makes a false damage disclosure statement or fails to make a damage disclosure statement required by this section commits a fraudulent practice. Failure of a person, authorized vehicle recycler licensed under chapter 321H, or motor vehicle dealer licensed under chapter 322 to comply with any duty imposed by this section constitutes a violation of section 714.16, subsection 2, paragraph “a”.

12. The department shall adopt rules as necessary to implement this section.

321.69A Disclosure of repairs to new vehicles.
1. a. A person licensed as a new motor vehicle dealer pursuant to chapter 322 shall not be required to disclose to a prospective or actual buyer or lessee of a new motor vehicle repairs of damage to or adjustments on or replacements of parts with new parts on the motor vehicle if all of the following are true:
   (1) The repairs, adjustments, or replacements were made to achieve compliance with factory specifications.
   (2) The actual cost of any labor or parts charged to or performed by the dealer for any such repairs, adjustments, or parts does not exceed four percent of the manufacturer’s suggested retail price.
   (3) The dealer posts in a conspicuous place notice that repairs, adjustments, or replacements will be disclosed upon request.
   (4) The dealer discloses any such repairs, adjustments, or replacements upon request.
   b. The provisions of this section take precedence over and shall supersede section 714.16, subsection 2, paragraph “a”, unnumbered paragraph 4, and section 714H.4, subsection 2.
2. A person licensed as a new motor vehicle dealer pursuant to chapter 322 shall disclose in writing, at or before the time of sale or lease, to the buyer or lessee of a new motor vehicle that the vehicle has been subject to any repairs of damage to or adjustments on or replacements of parts with new parts if the actual cost of any labor or parts charged to or performed by the dealer for any such repairs, adjustments, or parts exceeds four percent of the manufacturer’s suggested retail price. The written disclosure shall include the signature of the buyer or lessee and be in a form and in a format approved by the attorney general by rule. A dealer shall retain a copy of each written disclosure issued pursuant to this section for five years from the date of issuance.
3. As used in this section, “manufacturer’s suggested retail price” means the amount required to be disclosed by a dealer pursuant to 15 U.S.C. §1232(f)(4).
4. A violation of this section is an unlawful practice pursuant to section 714.16.
5. A violation of this section is a prohibited practice or act pursuant to section 714H.5.

321.70 Dealer vehicles.
A dealer registered under this chapter shall not be required to register any vehicle owned by the dealer which is being held for sale or trade, provided the annual registration fee was not delinquent at the time the vehicle was acquired by the dealer. When a dealer ceases to hold any vehicle for sale or trade or the vehicle otherwise becomes subject to registration under this chapter the annual registration fee and delinquent annual registration fee, if any, shall be due for the registration year.

321.71 Odometer requirements.
1. For the purposes of this section the following words and phrases shall have the meanings respectively ascribed to them:
   a. “Intent and purpose of this section” is and shall mean to achieve the end that odometers of motor vehicles shall at all times correctly show the true mileage that the motor vehicle has been driven.
   b. “True mileage” is the actual mileage the motor vehicle has been driven.
   2. No person shall knowingly tamper with, adjust, alter, change, set back, disconnect or fail to connect the odometer of any motor vehicle, or cause any of the foregoing to occur to an odometer of a motor vehicle, so as to reflect a lower mileage than the true mileage driven by the motor vehicle.
3. No person shall conspire with any other person to evade the intent and purpose of this section.
4. No person shall with the intent to defraud operate a motor vehicle on any street or highway knowing that the odometer of the motor vehicle is disconnected or nonfunctional.
5. No person shall advertise for sale, sell, use or install on any part of a motor vehicle or on any odometer in a motor vehicle any device which causes the odometer to register any mileage other than the true mileage.
6. In the event any odometer is repaired or replaced, the reading of the repaired or replaced odometer shall be set at the reading of the odometer repaired or replaced immediately prior to repair or replacement, but where the odometer is incapable of registering the same mileage the odometer shall be adjusted to read zero and any adjustment made in accordance with the provisions of this subsection shall not be deemed a violation of any provision of this section.
7. A certificate of title shall not be issued for a motor vehicle which is equipped with an odometer by the manufacturer, unless an odometer statement which is in compliance with federal law and regulations has been made by the transferor of the vehicle and is furnished with the application for certificate of title, or unless an exemption applies under 49 C.F.R. §580.17. The new certificate of title shall record on its face the odometer reading and the word “actual” if the true mileage is known. If the odometer reading is not the true mileage or the true mileage is unknown, the words “not actual” shall be recorded. If the odometer reading is greater than the odometer can mechanically count, the words “exceeds the mechanical limits” shall be recorded. However, a certificate of title may be issued for a motor vehicle to a person who moves into this state if the person acquired ownership of the motor vehicle prior to moving to this state.
8. Any person who knowingly makes or delivers a false odometer statement as required by subsection 7 shall be guilty of a violation of this section.
9. Unless an exemption applies under 49 C.F.R. §580.17 or unless a certificate of title has been issued for the vehicle in the name of the dealer, an Iowa licensed motor vehicle dealer shall not have in possession as inventory for sale a used motor vehicle acquired by the dealer for which the dealer does not possess an odometer statement by the transferor which is in compliance with federal law and regulations. Transfer of a new motor vehicle with an ownership document which is a manufacturer’s statement of origin requires an odometer statement only when transferred at retail.
10. A transferee of a motor vehicle reassigning the certificate of title to such motor vehicle pursuant to the provisions of section 321.48, subsection 1, shall not be guilty of a violation of this section if such transferee has in the transferee’s possession an odometer statement by the transferor which is in compliance with federal law and regulations and if the transferee has no knowledge that the statement is false and that the transferee has no knowledge that the odometer does not reflect the true mileage of such motor vehicle.
12. Any person who violates this section commits a fraudulent practice.

321.89 Abandoned vehicles.
1. Definitions. As used in this section and sections 321.90 and 321.91 unless the context otherwise requires:
   a. “Abandoned vehicle” means any of the following:
      (1) A vehicle that has been left unattended on public property for more than twenty-four hours and lacks current registration plates or two or more wheels or other parts which renders the vehicle totally inoperable.
      (2) A vehicle that has remained illegally on public property for more than twenty-four hours.
      (3) A vehicle that has been unlawfully parked on private property or has been placed on private property without the consent of the owner or person in control of the property for more than twenty-four hours.
      (4) A vehicle that has been legally impounded by order of a police authority and has not been reclaimed for a period of ten days. However, a police authority may declare the vehicle abandoned within the ten-day period by commencing the notification process in subsection 3.
      (5) Any vehicle parked on the highway determined by a police authority to create a hazard to other vehicle traffic.
      (6) A vehicle that has been impounded pursuant to section 321J.4B by order of the court and whose owner has not paid the impoundment fees after notification by the person or agency responsible for carrying out the impoundment order.
   b. “Demolisher” means a person licensed under chapter 321H whose business it is to convert a vehicle to junk, processed scrap, or scrap metal, or otherwise to wreck or dismantle vehicles.
   c. “Police authority” means the state patrol, any law enforcement agency of a county or city, or any special security officer employed by the state board of regents under section 262.13.

2. Authority to take possession of abandoned vehicles. A police authority, upon the authority’s own initiative or upon the request of any other authority having the duties of control of highways or traffic, shall take into custody an abandoned vehicle on public property and may take into custody an abandoned vehicle on private property. The police authority may employ its own personnel, equipment, and facilities or hire a private entity, equipment, and facilities for the purpose of removing, preserving, storing, or disposing of abandoned vehicles. A property owner or other person in control of private property may
employ a private entity who is a garagekeeper, as defined in section 321.90, to dispose of an abandoned vehicle, and the private entity may take into custody the abandoned vehicle without a police authority’s initiative. If a police authority employs a private entity to dispose of abandoned vehicles, the police authority shall provide the private entity with the names and addresses of the registered owners, all lienholders of record, and any other known claimant to the vehicle or the personal property found in the vehicle. The owners, lienholders, or other claimants of the abandoned vehicle shall not have a cause of action against a private entity for action taken under this section if the private entity provides notice as required by subsection 3, paragraph “a”.

3. **Notification of owner, lienholders, and other claimants.**

   a. A police authority or private entity that takes into custody an abandoned vehicle shall notify, within twenty days, by certified mail, the last known registered owner of the vehicle, all lienholders of record, and any other known claimant to the vehicle or to personal property found in the vehicle, addressed to the parties’ last known addresses of record, that the abandoned vehicle has been taken into custody. Notice shall be deemed given when mailed. The notice shall describe the year, make, model, and vehicle identification number of the vehicle, describe the personal property found in the vehicle, set forth the location of the facility where the vehicle is being held, and inform the persons receiving the notice of their right to reclaim the vehicle and personal property within ten days after the effective date of the notice upon payment of all towing, preservation, and storage charges resulting from placing the vehicle in custody and upon payment of the costs of notice required pursuant to this subsection. The notice shall also state that the failure of the owner, lienholders, or claimants to exercise their right to reclaim the vehicle or personal property within the time provided shall be deemed a waiver by the owner, lienholders, and claimants of all right, title, claim, and interest in the vehicle or personal property and that failure to reclaim the vehicle or personal property is deemed consent to the sale of the vehicle at a public auction or disposal of the vehicle to a demolisher and to disposal of the personal property by sale or destruction. If the abandoned vehicle was taken into custody by a private entity without a police authority’s initiative, the notice shall state that the private entity may claim a garagekeeper’s lien as described in section 321.90, subsection 1, and may proceed to sell or dispose of the vehicle. If the abandoned vehicle was taken into custody by a police authority or by a private entity hired by a police authority, the notice shall state that any person claiming rightful possession of the vehicle or personal property who disputes the planned disposition of the vehicle or property by the police authority or private entity or of the assessment of fees and charges provided by this section may ask for an evidentiary hearing before the police authority to contest those matters. If the persons receiving notice do not ask for a hearing or exercise their right to reclaim the vehicle or personal property within the ten-day reclaiming period, the owner, lienholders, or claimants shall no longer have any right, title, claim, or interest in or to the vehicle or the personal property. A court in any case in law or equity shall not recognize any right, title, claim, or interest of the owner, lienholders, or claimants after the expiration of the ten-day reclaiming period.

   b. If it is impossible to determine with reasonable certainty the identity and addresses of the last registered owner and all lienholders, notice by one publication in one newspaper of general circulation in the area where the vehicle was abandoned shall be sufficient to meet all requirements of notice under this section. The published notice may contain multiple listings of abandoned vehicles and personal property but shall be published within the same time requirements and contain the same information as prescribed for mailed notice in paragraph “a”.

4. **Auction of abandoned vehicles.**

   a. If an abandoned vehicle has not been reclaimed as provided for in subsection 3, the police authority or private entity shall make a determination as to whether or not the vehicle shall be sold for use upon the highways. If the vehicle is not sold for use upon the highways, it shall be sold for junk, or demolished and sold as scrap. The police authority or private entity shall sell the vehicle at public auction. Notwithstanding any other provision of this section, a police authority or private entity may dispose of the vehicle to a demolisher for junk without public auction after complying with the notification procedures in subsection 3. The
purchaser of the vehicle takes title free and clear of all liens and claims of ownership, shall receive a sales receipt from the police authority or private entity, and is entitled to register the vehicle and receive a certificate of title if sold for use upon the highways. If the vehicle is sold or disposed of to a demolisher for junk, the demolisher shall make application for a junking certificate to the county treasurer within thirty days of purchase and shall surrender the sales receipt in lieu of the certificate of title.

b. From the proceeds of the sale of an abandoned vehicle the police authority, if the police authority did not hire a private entity, shall reimburse itself for the expenses of the auction, the costs of towing, preserving, and storing which resulted from placing the abandoned vehicle in custody, all notice and publication costs incurred pursuant to subsection 3, the cost of inspection, and any other costs incurred except costs of bookkeeping and other administrative costs. Any remainder from the proceeds of a sale shall be held for the owner of the vehicle or entitled lienholder for ninety days, and shall then be deposited in the road use tax fund. The costs to police authorities of auction, towing, preserving, storage, and all notice and publication costs, and all other costs which result from placing abandoned vehicles in custody, whenever the proceeds from a sale of the abandoned vehicles are insufficient to meet these expenses and costs, shall be paid from the road use tax fund and are the obligation of the last owner or owners, jointly and severally.

c. The director of transportation shall establish by rule a claims procedure to be followed by police authorities in obtaining expenses and costs from the fund and procedures for reimbursement of expenses and costs to a private entity hired by a police authority to take custody of an abandoned vehicle. If a private entity has been hired by a police authority, the police authority shall file a claim with the department for reimbursement of towing fees which shall be paid from the road use tax fund.

[C73, 75, 77, 79, 81, §321.89]

321.90 Disposal of abandoned motor vehicles.
1. Garagekeepers and abandoned motor vehicles. Any motor vehicle left in a garage operated for commercial purposes after the period for which the vehicle was to remain on the premises shall, after notice by certified mail to the last known registered owner of the vehicle addressed to the owner’s last known address of record to reclaim the vehicle within ten days of the date of the notice, be deemed an abandoned motor vehicle unless reclaimed by the owner within such ten-day period or the owner notifies the garagekeeper in writing within such period of time that such vehicle is not an abandoned motor vehicle and shall be reported by the garagekeeper to the police authority. If the identity or address of the last registered owner of the motor vehicle cannot be determined, the vehicle shall be deemed an abandoned motor vehicle on the eleventh day after the period for which the vehicle was to remain on the premises unless reclaimed by the owner within the ten-day period or the owner notifies the garagekeeper in writing within such period of time that such vehicle is not an abandoned motor vehicle and shall be reported by the garagekeeper to the police authority. All abandoned motor vehicles left in garages may be taken into custody by a police authority upon the request of the garagekeeper and sold in accordance with the procedures set forth in section 321.89, subsection 4, unless the motor vehicle is reclaimed. The proceeds of the sale shall be first applied to the garagekeeper’s charges for towing and storage, and any surplus proceeds shall be distributed in accordance with section 321.89, subsection 4. Nothing in this section shall be construed to impair any lien of a garagekeeper under the laws of this state, or the right of a garagekeeper to foreclose the garagekeeper’s lien, provided that a garagekeeper shall be deemed to have abandoned the garagekeeper’s artisan lien when such vehicle is taken into custody by the police authority. For the purposes of this section “garagekeeper” means any operator of a parking place or establishment, motor vehicle storage facility, or establishment for the servicing, repair, or maintenance of motor vehicles.
§321.90, MOTOR VEHICLES AND LAW OF THE ROAD

IV-246

2. Disposal to demolisher.
   a. Any person, firm, corporation, or unit of government upon whose property or in whose possession is found any abandoned motor vehicle, or any person being the owner of a motor vehicle whose title certificate is faulty, lost, or destroyed and is thereby unable to transfer title to the motor vehicle, may apply to the police authority of the jurisdiction in which the motor vehicle is situated for authority to sell, give away, or otherwise dispose of the motor vehicle to a demolisher.
   b. The application shall set out the name and address of the applicant, and the year, make, model, and vehicle identification number of the motor vehicle, if ascertainable, together with any other identifying features, and shall contain a concise statement of the facts surrounding the abandonment, or a statement that the title of the motor vehicle is lost or destroyed, or the reasons for the defect of title in the owner. The applicant shall execute an affidavit stating that the facts alleged are true and that no material fact has been withheld. An order for disposal obtained pursuant to section 555B.8, subsection 3, satisfies the application requirements of this paragraph.
   c. If the police authority finds that the application is executed in proper form, and shows that the motor vehicle has been abandoned upon the property of the applicant, or if it shows that the motor vehicle is not abandoned but that the applicant appears to be the rightful owner, the police authority shall follow appropriate notification procedures as set forth in section 321.89, subsection 3, except that in the case of an order for disposal obtained pursuant to section 555B.8, subsection 3, no notification is required.
   d. If the abandoned motor vehicle is not reclaimed in accordance with section 321.89, subsection 3, or no lienholder objects to the disposal in the case of an owner-applicant, the police authority shall give the applicant a certificate of authority allowing the applicant to obtain a junking certificate for the motor vehicle. The applicant shall make application for a junking certificate to the county treasurer within thirty days of receipt of the certificate of authority and surrender the certificate of authority in lieu of the certificate of title. The demolisher shall accept the junking certificate in lieu of the certificate of title to the motor vehicle.
   e. Notwithstanding any other provisions of this section and sections 321.89 and 321.91, any person, firm, corporation, or unit of government upon whose property or in whose possession is found any abandoned motor vehicle, or any person being the owner of a motor vehicle whose title certificate is faulty, lost, or destroyed, may dispose of such motor vehicle to a demolisher for junk without a title and without the notification procedures of section 321.89, subsection 3, if the motor vehicle lacks an engine or two or more wheels or other structural part which renders the vehicle totally inoperable. The police authority shall give the applicant a certificate of authority. The owner shall apply to the county treasurer for a junking certificate within thirty days of receipt of the certificate of authority and shall surrender the certificate of authority in lieu of the certificate of title.
   f. The owner of an abandoned motor vehicle and all lienholders shall no longer have any right, title, claim, or interest in or to the motor vehicle; and no court in any case in law or equity shall recognize any right, title, claim, or interest of any owner or lienholders after the disposal of the motor vehicle to a demolisher.
   g. Any proceeds from the sale of an abandoned motor vehicle to a demolisher under this section, by one other than the owner of the vehicle, except the sale of a vehicle pursuant to an order for disposal obtained pursuant to section 555B.8, subsection 3, shall first be applied to that person’s expenses in effecting the sale, including storage, towing, and disposal charges, and any surplus shall be distributed in accordance with section 321.89, subsection 4.    a. “Department” means the department of revenue.

   c. “Owner” means as defined in section 321.1. For purposes of the fee for new registration imposed on leased vehicles under subsection 3, “owner” means the “lessor”.
   d. “Purchase” means any transfer, exchange, or barter, conditional or otherwise, in any manner or by any means whatsoever, for consideration.

2. Fee imposed — exemptions. The fee for new registration shall be paid by the owner of the vehicle to the county treasurer at the time application is made for a new registration and certificate of title, if applicable. A new registration receipt shall not be issued until the fee has been paid. The county treasurer or the department of transportation shall require every applicant for a new registration receipt for a vehicle subject to registration to supply information as the county treasurer or the director deems necessary as to the time of purchase, the purchase price, and other information relative to the purchase of the vehicle. On or before the tenth day of each month, the county treasurer or the department of transportation shall remit to the department of revenue the amount of the fees for new registration collected during the preceding month.

   a. For purposes of this subsection, “purchase price” applies to the measure subject to the fee for new registration. “Purchase price” shall be determined in the same manner as “sales price” is determined for purposes of computing the tax imposed upon the sales price of tangible personal property under chapter 423, pursuant to the definition of sales price in section 423.1, subject to the following exemptions:

   (1) Exempted from the purchase price of any vehicle subject to registration is the amount of any cash rebate which is provided by a motor vehicle manufacturer to the purchaser of the vehicle subject to registration so long as the rebate is applied to the purchase price of the vehicle.

      (i) The vehicle traded to the retailer is the type of vehicle normally sold in the regular course of the retailer’s business.

      (ii) The vehicle traded to the retailer is intended by the retailer to be ultimately sold at retail or is intended to be used by the retailer or another in the remanufacturing of a like vehicle.

   (b) In a transaction between persons, neither of which is a retailer of vehicles subject to registration, in which a vehicle subject to registration is traded toward the purchase price of another vehicle subject to registration, the amount of the trade-in value allowed on the vehicle subject to registration traded is exempted from the purchase price.

   (c) In order for the trade-in value to be excluded from the purchase price, the name or names on the title and registration of the vehicle being purchased must be the same name or names on the title and registration of the vehicle being traded. The following trades qualify under this subparagraph division (c):

      (i) A trade involving spouses, if the traded vehicle and the acquired vehicle are titled in the name of one or both of the spouses, with no outside party named on the title.

      (ii) A trade involving a grandparent, parent, or child, including adopted and step relationships, if the name of one of the family members from the title of the traded vehicle is also on the title of the newly acquired vehicle.

      (iii) A trade involving a business, if one of the owners listed on the title of the traded vehicle is a business, and the names on the title are separated by “or”.

      (iv) A trade in which the vehicle being purchased is titled in the name of an individual
other than the owner of the traded vehicle due to the cosigning requirements of a financial institution.

(3) Exempted from the purchase price of a replacement motor vehicle owned by a motor vehicle dealer licensed under chapter 322 which is being registered by that dealer and is not otherwise exempt from the fee for new registration is the fair market value of a replaced motor vehicle if all of the following conditions are met:
   a. The motor vehicle being registered is being placed in service as a replacement motor vehicle for a motor vehicle registered by the motor vehicle dealer.
   b. The motor vehicle being registered is taken from the motor vehicle dealer's inventory.
   c. Use tax or the fee for new registration on the motor vehicle being replaced was paid by the motor vehicle dealer when that motor vehicle was registered.
   d. The replaced motor vehicle is returned to the motor vehicle dealer's inventory for sale.
   e. The application for registration and title of the motor vehicle being registered is filed with the county treasurer within two weeks of the date the replaced motor vehicle is returned to the motor vehicle dealer's inventory.
   f. The motor vehicle being registered is placed in the same or substantially similar service as the replaced motor vehicle.

b. For purposes of this subsection, the fee for new registration on a vehicle registered in this state by the manufacturer of that vehicle from a manufacturer's statement of origin is calculated on the base value of fifty percent of the retail list price of the vehicle.

c. The following are exempt from the fee for new registration imposed under this subsection, as long as a valid affidavit is filed with the county treasurer at the time of application for registration:
   1. Entities listed in section 423.3, subsections 17, 18, 19, 20, 21, 22, 26, 27, 28, 31, and 79, to the extent that those entities are exempt from the tax imposed on the sale of tangible personal property, consisting of goods, wares, or merchandise, sold at retail in the state to consumers or users.

3. This paragraph “f” does not apply to vehicles registered under chapter 326.

g. If the vehicle was leased and an affidavit was filed by the lessor or the lessee as provided in section 321.46, the lessor or the lessee, as applicable, may make a claim for a refund with the county treasurer of the county where the vehicle was registered within six months of the vehicle’s surrender to the lessor. The refund shall be paid to either the lessor or the lessee, as specified on the application for title and registration pursuant to section 321.20.

h. If the owner of the vehicle moves out of state, the owner may make a claim for a refund by returning the Iowa registration plates, along with evidence of the vehicle’s registration in another jurisdiction, to the county treasurer of the county in which the vehicle was registered within six months of the out-of-state registration. For purposes of section 321.127, the unexpired months remaining in the registration year shall be calculated on the basis of the effective date of the out-of-state registration. However, for the purpose of timely issuance of the refund, the claim for a refund under this paragraph is considered to be filed on the date the registration documents are received by the county treasurer.

2. Notwithstanding any provision of this section to the contrary, there shall be no refund of apportioned registration fees unless the state which issued the base plate for the vehicle allows such refund. If an owner subject to apportioned registration leases the vehicle for which the refund is sought, the claim shall be filed in the names of both the lessee and the lessor and the refund payment made payable to both the lessor and the lessee. The term “owner” for purposes of this section shall include a person in whom is vested right of possession or control of a vehicle which is subject to a lease, contract, or other legal arrangement vesting right of possession or control in addition to the term as defined in section 321.1, subsection 49.

2. The department, unless reasonable grounds exist for delay, shall make refund on or before the last day of the month following the month in which the claim is filed with the department.

3. For trailers or semitrailers issued a permanent registration plate, a refund shall be paid equal to the annual fee for twelve months times the remaining number of complete registration years.

A penalty shall not be less than five dollars. If the owner of a vehicle surrenders the registration plates for a vehicle prior to the plates becoming delinquent, to the county treasurer of the county where the vehicle is registered, or to the department if the vehicle is registered under chapter 326, the owner may register the vehicle any time thereafter upon payment of the annual registration fee for the registration year without penalty. To avoid a penalty or an additional penalty in the case of a delinquent registration through a county treasurer, if the last calendar day of a month falls on Saturday, Sunday, or a holiday, the payment deadline is extended to include the first business day of the following month. For payments made through a county treasurer’s authorized internet site only, if the last day of the month falls on a Saturday, Sunday, or a holiday, the electronic payment must be entered by midnight on the first business day of the next month. The penalties provided in subsection 1 shall be computed on the amount of the first installment only and on the first day of the seventh month of the registration period the same rate of penalty shall apply to the second installment, until the fee is paid.

3. If a penalty applies to an annual vehicle registration fee provided for in sections 321.120, 321.121, and 321.122, the same penalty shall be assessed on the fees collected to increase the registered gross weight of the vehicle, if the increased gross weight is requested within forty-five days from the date the delinquent vehicle is registered for the current registration period.

4. Notwithstanding subsections 1 through 3, if a vehicle registration is delinquent for twenty-four months or more, a flat penalty and fee shall be assessed for the delinquent period in addition to the current annual registration fee. The flat penalty and fee shall be one hundred fifty percent of the current annual registration fee.

5. The department shall waive the penalties imposed by this section for an owner who is in the military service of the United States and who has been relocated as a result of being placed

The restricted license shall be issued by the department only upon confirmation of the person’s employment and need for a restricted license to travel to and from work or to transport dependents to and from temporary care facilities if necessary to maintain the person’s employment. The employer shall notify the department if the employment of the person is terminated before the person attains the age of eighteen.

(2) (a) A person issued a restricted license under this section shall not use an electronic communication device or an electronic entertainment device while driving a motor vehicle unless the motor vehicle is at a complete stop off the traveled portion of the roadway. This subparagraph division does not apply to the use of electronic equipment which is permanently

For purposes of this paragraph, “clear driving record” means the individual has not been identified as a candidate for suspension or revocation of a driver’s license under the habitual violator or habitual offender provisions of the department’s regulations; is not subject to a driver’s license suspension, revocation, denial, cancellation, disqualification, or bar; and has no record of a conviction for a moving traffic violation determined to be the cause of a motor vehicle accident.

3. Course of instruction.

a. An approved course administered by a teaching parent shall consist of but not be limited to the following:

However, reference and study materials, physical classroom requirements, and extra vehicle safety equipment required for instruction under section 321.178 shall not be required for the course of instruction provided under this section.

4. Course completion and certification. Upon application by a student for an intermediate license, the teaching parent shall provide evidence showing the student’s completion of an approved course and substantial compliance with the requirements of subsection 3 by affidavit signed by the teaching parent on a form to be provided by the department. The evidence shall include all of the following:

a. Documentation that the instructor is a teaching parent as defined in subsection 2.

5. Intermediate license. Any student who successfully completes an approved course as provided in this section, passes a driving test to be administered by the department, and is otherwise qualified under section 321.180B, subsection 2, shall be eligible for an intermediate license pursuant to section 321.180B. Twenty of the forty hours of street or highway driving

### §321.180 Instruction permits, commercial learner’s permits, and chauffeur’s instruction permits.

1. **a.** (1) A person who is at least eighteen years of age and who, except for the person’s lack of instruction in operating a motor vehicle, would be qualified to obtain a driver’s license, shall, upon meeting the requirements of section 321.186 other than a driving demonstration, and upon paying the required fee, be issued an instruction permit by the department. Subject to the limitations in this subsection, an instruction permit entitles the permittee, while having the permit in the permittee’s immediate possession, to operate a motor vehicle, other than a commercial motor vehicle or as a chauffeur or a motor vehicle with a gross vehicle weight rating of sixteen thousand one or more pounds, upon the highways for a period not to exceed four years from the licensee’s birthday anniversary in the year of issuance. If the applicant for an instruction permit holds a driver’s license issued in this state valid for the operation of a motorized bicycle or a motorcycle, the instruction permit shall be valid for such operation without the need of an accompanying person.

(2) A permittee shall not be penalized for failing to have the instruction permit in immediate possession if the permittee produces in court, within a reasonable time, an instruction permit issued to the permittee and valid at the time of the permittee’s arrest or at the time the permittee was charged with failure to have the permit in the permittee’s immediate possession.

b. (1) Except as otherwise provided, a permittee who is eighteen years of age or older must be accompanied by a person issued a driver’s license valid for the vehicle operated who is a member of the permittee’s immediate family if the family member is at least twenty-one years of age, an approved driver education instructor, a prospective driver education instructor who is enrolled in a practitioner preparation program with a safety education program approved by the state board of education, or a person at least twenty-five years of age, and who is actually occupying a seat beside the driver.

(2) However, if the permittee is operating a motorcycle in accordance with this section or section 321.180B, the accompanying person must be within audible and visual communications distance from the permittee and be accompanying the permittee on or in a different motor vehicle. Only one permittee shall be under the immediate supervision of an accompanying qualified person.

2. **a.** The department shall adopt rules to administer commercial learner’s permits in compliance with the procedures set forth in 49 C.F.R. §383.73. An applicant for a commercial learner’s permit must hold a valid class A, B, C, or D driver’s license issued in this state, must be at least eighteen years of age, and must meet the qualifications to obtain a valid commercial driver’s license, including the requirements set forth in section 321.188, except for the required driving skills test.

b. A commercial learner’s permit shall be a separate document from a commercial or
noncommercial driver’s license. A person operating a vehicle pursuant to a commercial learner’s permit shall have both the commercial learner’s permit and the commercial or noncommercial driver’s license issued to the person within the person’s possession.

c. A commercial learner’s permit shall be valid for a period not to exceed the period provided in 49 C.F.R. §383.25(c) and 49 C.F.R. §383.73(a)(2)(iii).

  d. A commercial learner’s permit shall be valid for the operation of a commercial motor vehicle only when the permit holder is accompanied by a holder of a valid commercial driver’s license with the proper commercial driver’s license group designation and endorsements necessary to operate the commercial motor vehicle, and who is at all times physically present in the front passenger seat of the vehicle, or in the case of a passenger vehicle, directly behind or in the first row behind the permit holder in a position to directly observe and supervise the permit holder.

  (1) When a commercial learner’s permit is issued to the holder of a commercial driver’s license, this paragraph “d” only applies to the operation of a commercial motor vehicle for which the permit holder’s commercial driver’s license is not valid.

  (2) When a commercial learner’s permit is issued to the holder of a noncommercial driver’s license, this paragraph “d” only applies to the operation of a commercial motor vehicle.

e. The issuance of a commercial learner’s permit is a precondition to the initial issuance of a commercial driver’s license. The issuance of a commercial learner’s permit is also a precondition to the upgrade of a commercial driver’s license if the upgrade requires a driving skills test. The holder of a commercial learner’s permit is not eligible to take a driving skills test required by section 321.188 for the first fourteen days after the permit holder is issued the permit.

  f. A commercial learner’s permit is not valid for the operation of a vehicle transporting hazardous materials as defined in 49 C.F.R. §383.5.

3. A person, upon meeting each of the following requirements, shall be eligible to apply for a chauffeur’s instruction permit valid for the operation of a motor vehicle, other than a commercial motor vehicle, as a chauffeur when the permittee is accompanied by a person, possessing a valid class D driver’s license or commercial driver’s license valid for the operation of the motor vehicle and the accompanying person is actually occupying a seat beside the permittee. An applicant must be at least eighteen years of age, otherwise qualified to obtain a class D driver’s license, and must meet the requirements of section 321.186 other than a driving demonstration. The chauffeur’s instruction permit shall be valid for a period not to exceed two years from the licensee’s birthday anniversary in the year of issuance and shall be returned to the department upon issuance of a class D driver’s license or commercial driver’s license. If the applicant for a chauffeur’s instruction permit holds a driver’s license issued under this chapter, the chauffeur’s instruction permit shall be valid in the same manner as the driver’s license would be for the operation of motor vehicles without the need of an accompanying person.

4. The instruction permit, chauffeur’s instruction permit, and commercial learner’s permit are subject to suspension or revocation for the same reasons and in the same manner as suspension or revocation of a driver’s license.

5. A motorcycle instruction permit issued under this section is not renewable.

321.180A Special instruction permit.

1. Notwithstanding other provisions of this chapter, a person with a physical disability, who is not suffering from a convulsive disorder and who can provide a favorable medical report, whose license renewal has been denied under section 321.177, subsection 6 or 7, or whose driver’s license has been suspended under section 321.210, subsection 1, paragraph
“a”, subparagraph (3), upon meeting the requirements of section 321.186, other than a driving demonstration or elimination of the person’s limitations which caused the denial under section 321.177, subsection 6 or 7, or suspension under section 321.210, subsection 1, paragraph “a”, subparagraph (3), and upon paying the fee required in section 321.191, shall be issued a special instruction permit by the department. Upon issuance of the permit the denial or suspension shall be stayed and the stay shall remain in effect as long as the permit is valid.

2. a. A special instruction permit entitles the permittee, while having the permit in the permittee’s immediate possession, to operate a noncommercial motor vehicle upon the highways for a period of six months from the date of issuance. However, the permittee must be accompanied by a person who is at least twenty-one years of age, who has been issued a driver’s license valid for the vehicle being operated, and who is actually occupying a seat beside the permittee.

b. A permittee shall not be penalized for failing to have the permit in immediate possession if the permittee produces in court, within a reasonable time, the special instruction permit issued to the permittee which was valid at the time of the permittee’s arrest.

3. The permittee may apply for a driver’s license if thirty days have elapsed since issuance of the special instruction permit. The department shall issue a driver’s license if the permittee is qualified, passes all required tests, including a driving test, and pays the required fees. If the person has not obtained a driver’s license before expiration of the person’s special instruction permit, the person’s former denial or suspension under section 321.177, subsection 6 or 7, or section 321.210, subsection 1, paragraph “a”, subparagraph (3), upon service of notice by the department, shall be reinstated. A permit shall be reissued for one additional six-month period if a permittee continues to meet the qualifications of subsection 1 and has incurred no motor vehicle violations.

321.180B Graduated driver’s licenses for persons aged fourteen through seventeen.

Persons under age eighteen shall not be issued a license or permit to operate a motor vehicle except under the provisions of this section. However, the department may issue restricted and special driver’s licenses to certain minors as provided in sections 321.178 and 321.194, and driver’s licenses restricted to motorized bicycles as provided in section 321.189. A license or permit shall not be issued under this section or section 321.178 or 321.194 without the consent of a parent or guardian or a person having custody of the applicant under chapter 232 or 600A. An additional consent is required each time a license or permit is issued under this section or section 321.178 or 321.194. The consent must be signed by at least one parent, guardian, or custodian on an affidavit form provided by the department.

1. Instruction permit.

a. The department may issue an instruction permit to an applicant between the ages of fourteen and eighteen years if the applicant meets the requirements of sections 321.184 and 321.186, other than a driving demonstration, and pays the required fee. An instruction permit issued under this section shall be valid for a period not to exceed four years from the licensee’s birthday anniversary in the year of issuance. A motorcycle instruction permit issued under this section is not renewable.

b. Subject to the limitations in this subsection, an instruction permit entitles the permittee, while having the permit in the permittee’s immediate possession, to operate a motor vehicle other than a commercial motor vehicle or as a chauffeur or a motor vehicle with a gross vehicle weight rating of sixteen thousand one or more pounds upon the highways.

c. (1) Except as otherwise provided, a permittee who is less than eighteen years of age and who is operating a motor vehicle must be accompanied by a person issued a driver’s license valid for the vehicle operated who is the parent, guardian, or custodian of the permittee, a member of the permittee’s immediate family if the family member is at least twenty-one years of age, an approved driver education instructor, a prospective driver education instructor who is enrolled in a practitioner preparation program with a safety education program approved by the state board of education, or a person at least twenty-five
years of age if written permission is granted by the parent, guardian, or custodian, and who is actually occupying a seat beside the driver. A permittee shall not operate a motor vehicle if the number of passengers in the motor vehicle exceeds the number of passenger safety belts in the motor vehicle. If the applicant for an instruction permit holds a driver’s license issued in this state valid for the operation of a motorized bicycle or a motorcycle, the instruction permit shall be valid for such operation without the requirement of an accompanying person.

(2) If the permittee is operating a motorcycle in accordance with this section, the accompanying person must be within audible and visual communications distance from the permittee and be accompanying the permittee on or in a different motor vehicle. Only one permittee shall be under the immediate supervision of an accompanying qualified person.

d. A permittee shall not be penalized for failing to have the instruction permit in the permittee’s immediate possession if the permittee produces in court, within a reasonable time, an instruction permit issued to the permittee and valid at the time of the permittee’s arrest or at the time the permittee was charged with failure to have the permit in the permittee’s immediate possession.

2. Intermediate license.

a. The department may issue an intermediate driver’s license to a person sixteen or seventeen years of age who possesses an instruction permit issued under subsection 1 or a comparable instruction permit issued by another state for a minimum of twelve months immediately preceding application, and who presents an affidavit signed by a parent, guardian, or custodian on a form to be provided by the department that the permittee has accumulated a total of twenty hours of street or highway driving of which two hours were conducted after sunset and before sunrise and the street or highway driving was with the permittee’s parent, guardian, custodian, instructor, a person certified by the department, or a person at least twenty-five years of age who had written permission from a parent, guardian, or custodian to accompany the permittee, and whose driving privileges have not been suspended, revoked, or barred under this chapter or chapter 321J during, and who has been accident and violation free continuously for, the six-month period immediately preceding the application for an intermediate license. An applicant for an intermediate license must meet the requirements of section 321.186, including satisfactory completion of driver education as required in section 321.178 or 321.178A, and payment of the required license fee before an intermediate license will be issued. A person issued an intermediate license must limit the number of passengers in the motor vehicle when the intermediate licensee is operating the motor vehicle to the number of passenger safety belts. In addition, unless waived by the person’s parent or guardian at the time the intermediate license is issued, for the first six months following issuance of the license, a person issued an intermediate license must limit the number of unrelated minor passengers in the motor vehicle when the intermediate licensee is operating the motor vehicle to one, except when the intermediate licensee is accompanied in accordance with subsection 1. For purposes of this subsection, “unrelated minor passenger” means a passenger who is under eighteen years of age and who is not a sibling of the driver, a stepsibling of the driver, or a child who resides in the same household as the driver. The department shall prescribe the form for waiver of the six-month restriction on unrelated minor passengers, which may be in an electronic format, and shall designate characteristics for the intermediate license that shall distinguish between an intermediate license that includes the six-month restriction on unrelated minor passengers and an intermediate license that does not include the six-month restriction on unrelated minor passengers.

b. Except as otherwise provided, a person issued an intermediate license under this subsection who is operating a motor vehicle between the hours of 12:30 a.m. and 5:00 a.m. must be accompanied by a person issued a driver’s license valid for the vehicle operated who is the parent, guardian, or custodian of the intermediate licensee, a member of the intermediate licensee’s immediate family if the family member is at least twenty-one years of age, an approved driver education instructor, a prospective driver education instructor who is enrolled in a practitioner preparation program with a safety education program approved by the state board of education, or a person at least twenty-five years of age if written permission is granted by the parent, guardian, or custodian, and who is actually
occupying a seat beside the driver. However, a licensee may operate a vehicle to and from school-related extracurricular activities and work without an accompanying driver between the hours of 12:30 a.m. and 5:00 a.m. if the licensee possesses a waiver on a form to be provided by the department. An accompanying driver is not required between the hours of 5:00 a.m. and 12:30 a.m.

3. Remedial driver improvement action — suspension of permit, intermediate license, or full license.

   a. A person who has been issued an instruction permit, an intermediate license, or a full driver’s license under this section, upon conviction of a moving traffic violation or involvement in a motor vehicle accident which occurred during the term of the instruction permit or intermediate license, shall be subject to remedial driver improvement action or suspension of the permit or current license. A person possessing an instruction permit who has been convicted of a moving traffic violation or has been involved in an accident shall not be issued an intermediate license until the person has completed the remedial driver improvement action and has been accident and violation free continuously for the six-month period immediately preceding the application for the intermediate license. A person possessing an intermediate license who has been convicted of a moving traffic violation or has been involved in an accident shall not be issued a full driver’s license until the person has completed the remedial driver improvement action and has been accident and violation free continuously for the twelve-month period immediately preceding the application for a full driver’s license.

   b. The department may suspend an instruction permit, intermediate license, or full license issued under this section upon receiving satisfactory evidence that the person issued the instruction permit, intermediate license, or full license violated the restrictions imposed under subsection 1, 2, or 6 during the term of the instruction permit or intermediate license.

4. Full driver’s license. A full driver’s license may be issued to a person seventeen years of age who possesses an intermediate license issued under subsection 2 or a comparable intermediate license issued by another state for a minimum of twelve months immediately preceding application, and who presents an affidavit signed by a parent, guardian, or custodian on a form to be provided by the department that the intermediate licensee has accumulated a total of ten hours of street or highway driving of which two hours were conducted after sunset and before sunrise and the street or highway driving was with the licensee’s parent, guardian, custodian, instructor, a person certified by the department, or a person at least twenty-five years of age who had written permission from a parent, guardian, or custodian to accompany the licensee, whose driving privileges have not been suspended, revoked, or barred under this chapter or chapter 321J during, and who has been accident and violation free continuously for, the twelve-month period immediately preceding the application for a full driver’s license, and who has paid the required fee.

5. Class M license education requirements. A person under the age of eighteen applying for an intermediate or full driver’s license valid for the operation of a motorcycle shall be required to successfully complete a motorcycle education course either approved and established by the department of transportation or from a private or commercial driver education school licensed by the department of transportation before the class M license will be issued. A public school district shall charge a student a fee which shall not exceed the actual cost of instruction minus moneys received by the school district under section 321.179.

6. Use of electronic devices or equipment.

   a. A person issued an instruction permit or intermediate driver’s license under this section shall not use an electronic communication device or an electronic entertainment device while driving a motor vehicle unless the motor vehicle is at a complete stop off the traveled portion of the roadway. This paragraph does not apply to the use of electronic equipment which is permanently installed in the motor vehicle or to a portable device which is operated through permanently installed equipment.

   b. The department, in cooperation with the department of public safety, shall establish educational programs to foster compliance with the requirements of paragraph “a”.

7. Citations for violation of restrictions. A person who violates the restrictions imposed
under subsection 1, 2, or 6 may be issued a citation under this section and shall not be issued a citation under section 321.193. A violation of the restrictions imposed under subsection 1, 2, or 6 shall not be considered a moving violation.

8. **Rules.** The department may adopt rules pursuant to chapter 17A to administer this section.

For applicable scheduled fine, see §805.8A, subsection 4

Additional penalties for violations causing injury or death, see §321.482A

### 321.181 Temporary permit.

The department may issue a temporary permit to an applicant for a driver’s license permitting the applicant to operate a motor vehicle while the department is completing its investigation and determination of all facts relative to the applicant’s privilege to receive the driver’s license. The permit must be in the applicant’s immediate possession while operating a motor vehicle. The temporary permit shall be invalid and returned to the department when the applicant’s license is issued or when the license is denied.

Pursuant to procedures established by the department and for an applicant who is a foreign national temporarily present in this state, the department may waive the requirement that the application include the applicant’s social security number.

2. A licensee shall notify the department when the licensee’s mailing address changes and provide the new address within thirty days of obtaining the new address. The application provided by the department shall include a statement for the applicant to sign that acknowledges the applicant’s knowledge of the requirement to notify the department of a mailing address change. 3. Notwithstanding subsections 1 and 2, an applicant for a driver’s license or nonoperator’s identification card or for renewal of a driver’s license or nonoperator’s identification card who is required to register with the United States selective service system shall not be registered by the department if, after being given information on the penalties for failure to register, the applicant declines to be registered. 321.186 Examination of new or incompetent operators.

1. The department may examine every new applicant for a driver’s license or any person holding a valid driver’s license when the department has reason to believe that the person may be physically or mentally incompetent to operate a motor vehicle, or whose driving record appears to the department to justify the examination. The department shall make every effort to accommodate a functionally illiterate applicant when the applicant is taking a knowledge test. The department shall make every effort to have an examiner conduct the commercial driver’s license driving skills tests at other locations in this state where skills may
be adequately tested when requested by a person representing ten or more drivers requiring driving skills testing.

2. The department shall make every effort to accommodate a commercial driver’s license applicant’s need to arrange an appointment for a driving skills test at an established test site other than where the applicant passed the required knowledge test. The department shall report to the governor and the general assembly on any problems, extraordinary costs, and recommendations regarding the appointment scheduling process.

3. The examination shall include a screening of the applicant’s eyesight, a test of the applicant’s ability to read and understand highway signs regulating, warning, and directing traffic, a test of the applicant’s knowledge of the traffic laws of this state, an actual demonstration of ability to exercise ordinary and reasonable control in the operation of a motor vehicle, and other physical and mental examinations as the department finds necessary to determine the applicant’s fitness to operate a motor vehicle safely upon the highways. However, an applicant for a new driver’s license need not pass a vision test administered by the department if the applicant files with the department a vision report in accordance with section 321.186A which shows that the applicant’s visual acuity level meets or exceeds those required by the department.

4. A physician licensed under chapter 148, an advanced registered nurse practitioner licensed under chapter 152, a physician assistant licensed under chapter 148C, or an optometrist licensed under chapter 154 may report to the department the identity of a person who has been diagnosed as having a physical or mental condition which would render the person physically or mentally incompetent to operate a motor vehicle in a safe manner. The physician, advanced registered nurse practitioner, physician assistant, or optometrist shall make reasonable efforts to notify the person who is the subject of the report, in writing. The written notification shall state the nature of the disclosure and the reason for the disclosure. A physician, advanced registered nurse practitioner, physician assistant, or optometrist making a report under this section shall be immune from any liability, civil or criminal, which might otherwise be incurred or imposed as a result of the report. A physician, advanced registered nurse practitioner, physician assistant, or optometrist has no duty to make a report or to warn third parties with regard to any knowledge concerning a person’s mental or physical competency to operate a motor vehicle in a safe manner. Any report received by the department from a physician, advanced registered nurse practitioner, physician assistant, or optometrist under this section shall be kept confidential. Information regulated by chapter 141A shall be subject to the confidentiality provisions and remedies of that chapter. [C31, 35, §4960-d14; C39, §5013.12; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §321.186]

321.186A Vision report in lieu of vision test.

1. An applicant for a new or renewed driver’s license need not take a vision test administered by the department if the applicant files with the department a vision report signed by a licensed vision specialist in accordance with this section.

2. An applicant for such a new or renewed driver’s license who fails a vision test administered by the department may subsequently be issued the driver’s license without need of passing a department administered vision test, if the applicant files with the department a vision report from a licensed vision specialist in accordance with this section.

3. The vision report shall state the visual acuity level of the applicant as measured by the vision specialist and shall be in the form and include other information as required by rule of the department. A vision report is valid only if the visual acuity level of the applicant has been measured by the licensed vision specialist within thirty days before the application for the new or renewed driver’s license.
4. As used in this section, a “licensed vision specialist” means a physician licensed under chapter 148 or an optometrist licensed under chapter 154.

321.187 Examiners.
1. The department shall examine applicants for driver’s licenses. Examiners of the department shall wear an identifying badge and uniform provided by the department.
2. The department may by rule designate community colleges established under chapter 260C and other third-party testers to administer the driving skills test required for a commercial driver’s license, provided that all of the following occur:
   a. The driving skills test is the same as that which would otherwise be administered by the state.
   b. The third-party tester contractually agrees to comply with the requirements of 49 C.F.R. §383.75 as adopted by rule by the department.
   c. Any third-party skills test examiner used by the third-party tester shall meet the requirements of 49 C.F.R. §383.75 and 49 C.F.R. §384.228, as adopted by rule by the department. The department shall adopt rules requiring that a third-party tester, other than a community college established under chapter 260C, either be an Iowa-based motor carrier, or its subsidiary, that has its principal office within this state and operates a permanent commercial driver training facility in this state, or be an Iowa nonprofit corporation that serves as a trade association for Iowa-based motor carriers. The rules may also provide that a third-party tester conduct a number of skills test examinations above the number required under 49 C.F.R. §383.75 in order to remain qualified as a third-party tester under this section.
3. As used in this section, “third-party tester” and “third-party skills test examiner” mean as defined in 49 C.F.R. §383.5.

Referred to in §211.1A

Before the department issues, renews, or upgrades a commercial driver’s license and in addition to the requirements of section 321.182, the license applicant shall do all of the following:
   a. Certify whether the applicant is subject to and meets applicable driver qualifications of 49 C.F.R. pt. 391 as adopted by rule by the department.
   b. Certify the applicant is not subject to any commercial driver’s license disqualification and has committed no offense and has not acted in a manner which either alone or with previous actions or offenses could result in commercial driver’s license disqualification.
   c. Successfully complete any entry-level driver training if required under 49 C.F.R. pt. 380, subpt. F, or 49 C.F.R. pt. 383, subpt. E, prior to taking a knowledge test or driving skills test, the passage of which is required under paragraph “d”.
   d. Successfully pass knowledge tests and driving skills tests, provide self-certification of type of driving, provide a medical examiner’s certificate prepared by a medical examiner, as defined in 49 C.F.R. §390.5, and provide all other required information, proofs, and certificates, as required by rule by the department. The rules adopted shall substantially comply with the federal minimum testing and licensing requirements in 49 C.F.R. pt. 383, subpts. E, G, and H, as adopted by rule by the department. Except as required under 49 C.F.R. pt. 383, subpt. E, G, or H, a commercial driver’s license is renewable without a driving skills test within one year after its expiration date.
   e. Certify the vehicle to be operated in the driving skills tests is representative of the class of motor vehicle the applicant will operate on the highway.
   f. Certify that the applicant is a resident of Iowa or a resident of a foreign jurisdiction.
g. Identify all states where the applicant has been licensed to drive any type of motor vehicle during the previous ten years.

2. An applicant for a commercial driver’s license may substitute for a driving skills test the applicant’s operating record and previous passage of a driving skills test or the applicant’s operating record and previous driving experience if all of the following conditions exist:
   a. The applicant is currently licensed to operate a commercial motor vehicle.
   b. The applicant certifies that during the two years immediately preceding application all of the following apply:
      (1) The applicant has not held driver’s licenses valid for the operation of commercial motor vehicles from more than one state simultaneously.

      (4) No record of an accident exists for which the applicant was convicted of a moving traffic violation.
      (5) The applicant has not had any driver’s license suspended, revoked, or canceled.
   c. The applicant provides evidence of and certifies that the applicant is employed in a job requiring operation of a commercial motor vehicle and the applicant has done one of the following:
      (1) Has previously passed a driving skills test given by this state or its designee in a motor vehicle representative of the class of motor vehicle the applicant will operate.
      (2) Has operated during the two-year period immediately preceding the application a motor vehicle representative of the class of motor vehicle the applicant will operate.

3. An applicant for a hazardous material endorsement must pass a knowledge test as required under 49 C.F.R. §383.121 as adopted by rule by the department to obtain or retain the endorsement. However, an applicant for license issuance who was previously issued a commercial driver’s license from another state may retain the hazardous material endorsement from the previously issued license if the applicant successfully passed the endorsement test within the preceding twenty-four months. Pursuant to procedures established by the department, an applicant for a hazardous material endorsement must also comply with the application and security threat assessment requirements established under 49 C.F.R. pt. 383, 384, and 1572. A hazardous material endorsement shall be revoked or denied if the department determines that the applicant has not complied with or met the security threat assessment standards.

4. The department shall check the applicant’s driving record as maintained by the applicant’s current licensing state, the national commercial driver’s license information system, the national drug and alcohol clearinghouse if required under 49 C.F.R. §383.73, and the national driver register to determine whether the applicant qualifies for the issuance, renewal, or upgrade of a commercial driver’s license, as applicable. The department shall notify the national commercial driver’s license information system of the issuance, renewal, or upgrade of a commercial driver’s license and shall post the driver’s self-certification of type of driving as required by rule. The department shall also post information from the medical examiner’s certificate required under subsection 1, paragraph “d”, to the national commercial driver’s license information system, if required by rule.

5. A resident of this state holding a commercial driver’s license issued by a former state of residence in conformity with the federal commercial driver testing and licensing standards shall not be required to take a knowledge or driving skills test prior to issuance of a commercial driver’s license in this state, except a basic Iowa rules of the road knowledge test and, when applicable, motorcycle operator knowledge and driving skills tests. The commercial driver's license issued by this state shall be valid for operation of the same class of vehicles with the same endorsements and restrictions as in the former state of licensure. However, a person with a hazardous materials endorsement must comply with subsection 3.

6. a. The department may waive the requirement that an applicant pass a driving skills test specified in this section for an applicant who is on active duty in the military service,
or who has separated from such service in the past year, who certifies that during the two-year period immediately preceding application for a commercial driver’s license, all of the following apply:

3. The applicant was operating a motor vehicle representative of the class of motor vehicle the applicant operates or expects to operate for at least two years immediately preceding honorable separation from military service as evidenced by the person’s certificate of release or discharge from active duty, commonly referred to as a DD214.

c. An applicant who obtains a driving skills test waiver under this subsection shall take and successfully pass the knowledge test required pursuant to subsection 1.

321.189 Driver’s license — content.

Class C and M driver’s licenses may be issued as commercial driver’s licenses. A driver’s license is not valid for the operation of a vehicle requiring an endorsement unless the driver’s license is endorsed for the vehicle. A class D driver’s license is also valid as a noncommercial class C driver’s license. The holder of a commercial driver’s license is not required to obtain a class D driver’s license to operate a motor vehicle as a chauffeur. When necessary, the department shall by rule create additional classes or modify existing classes of driver’s licenses, however, the rule shall be temporary and if within sixty days after the next regular session of the general assembly convenes the general assembly has not made corresponding changes in this chapter, the temporary classification or modification shall be nullified.

Upon attaining the age of eighteen or upon
attaining the age of twenty-one, and upon payment of a ten dollar fee, the person shall be entitled to a new driver’s license or nonoperator’s identification card for the unexpired months of the driver’s license or card. Upon attaining the age of twenty-one, a person who is otherwise eligible to be issued a driver’s license or nonoperator’s identification card shall be eligible to apply electronically for issuance of a replacement license or card for the unexpired months of the license or card, regardless of whether the most recent previous issuance of the license or card occurred electronically. The department shall, within a reasonable time period prior to a person’s twenty-first birthday anniversary, notify the person of the person’s eligibility to apply for a replacement driver’s license or nonoperator’s identification card electronically upon attaining the age of twenty-one. The department shall develop educational media to raise awareness of a person’s eligibility to apply for a replacement driver’s license or nonoperator’s identification card electronically upon attaining the age of twenty-one.    b. A driver’s license valid only for operation of a motorized bicycle shall be canceled upon a conviction for a moving traffic violation and reapplication may be made thirty days after the date of cancellation. The cancellation of the license upon conviction for a moving traffic violation shall not result in requiring the applicant to maintain proof of financial responsibility under section 321A.17, unless the conviction would otherwise result in a suspension or revocation of a person’s driver’s license.
   c. As used in this section, “moving traffic violation” does not include a parking violation as defined in section 321.210 or a violation of a section of the Code or municipal ordinance pertaining to standards to be maintained for motor vehicle equipment except sections 321.430 and 321.431, or except a municipal ordinance pertaining to motor vehicle brake requirements as applicable to motorized bicycles.

The department may adopt rules pursuant to chapter 17A establishing criteria under which a license may be marked, including requiring the licensee to submit medical proof of the licensee’s deaf or hard-of-hearing status. When a driver’s license is so marked, the licensee’s deaf or hard-of-hearing status shall be noted in the electronic database used by the department and law enforcement to access registration, titling, and driver’s license information. The department, in consultation with the commission of deaf services, shall develop educational media to raise awareness of a licensee’s ability to request the license be marked to reflect the licensee’s deaf or hard-of-hearing status.

8. **Driver’s license reinstatements.** The fee for reinstatement of a driver’s license shall be twenty dollars for a license which is, after notice and opportunity for hearing, canceled, suspended, revoked, or barred. However, reinstatement of the privilege suspended under section 321.210, subsection 1, paragraph “a”, subparagraph (3), shall be without fee. The fee for reinstatement of the privilege to operate a commercial motor vehicle after a period of disqualification shall be twenty dollars.

321.194 Special minor’s licenses.

1. Persons eligible. The department may issue a class C or M driver’s license to a person between the ages of fourteen and eighteen years if all of the following apply:
   a. The person’s driving privileges have not been suspended, revoked, or barred under this chapter or chapter 321J during, and the person has not been convicted of a moving traffic violation or involved in a motor vehicle accident for, the six-month period immediately preceding the application for the special minor’s license.
   b. The person has successfully completed an approved driver education course. However, the completion of a course is not required if the applicant demonstrates to the satisfaction of the department that completion of the course would impose a hardship upon the applicant. The department shall adopt rules defining the term “hardship” and establish procedures for the demonstration and determination of when completion of the course would impose a hardship upon an applicant.
   c. The person’s school has certified to the department that the person has a special need for the license pursuant to subsection 3.

2. Driving privileges.
   a. Permitted operations. The driver’s license entitles the licensee, while having the license in immediate possession, to operate a motor vehicle, other than a commercial motor vehicle or as a chauffeur, during the times and for the purposes set forth in this paragraph.

1. If the licensee attends a public school, the licensee may operate a motor vehicle during the hours of 5:00 a.m. to 10:00 p.m. as follows:
   a. Over the most direct and accessible route between the licensee’s residence and schools of enrollment or the closest school bus stop or public transportation service, and between schools of enrollment, for the purpose of attending duly scheduled courses of instruction and extracurricular activities within the school district of enrollment.
   b. Over the most direct and accessible route between the licensee’s residence or school of enrollment and a site, facility, or school that is not the licensee’s school of enrollment, for the purpose of participating in extracurricular activities conducted under a sharing agreement with the licensee’s school of enrollment or conducted at a site, facility, or school designated by the licensee’s school district for the accommodation of the school’s extracurricular activities, provided the site, facility, or school is within the licensee’s school district of enrollment or is within a school district contiguous to the licensee’s school district of enrollment.

2. If the licensee attends an accredited nonpublic school, the licensee may operate a motor vehicle during the hours of 5:00 a.m. to 10:00 p.m. as follows:
   a. Over the most direct and accessible route between the licensee’s residence and schools of enrollment or the closest school bus stop or public transportation service, and between schools of enrollment, for the purpose of attending duly scheduled courses of instruction and extracurricular activities, provided the driving distance between the point of origin and the destination is no more than fifty miles.
   b. Over the most direct and accessible route between the licensee’s residence or school of enrollment and a site, facility, or school that is not the licensee’s school of enrollment, for the purpose of participating in extracurricular activities conducted at a site, facility, or school designated by the licensee’s school of enrollment for the accommodation of the school’s extracurricular activities, provided the driving distance between the point of origin and the destination is no more than fifty miles.

3. To a service station for the purpose of refueling, so long as the service station is the station closest to the route on which the licensee is traveling under subparagraph (1) or (2).

4. At any time when the licensee is accompanied in accordance with section 321.180B, subsection 1.
§321.194, MOTOR VEHICLES AND LAW OF THE ROAD  IV-304

b. Restrictions.
   (1) Passengers. Unless accompanied in accordance with section 321.180B, subsection 1, a person issued a driver’s license pursuant to this section must limit the number of unrelated minor passengers in the motor vehicle when the licensee is operating the motor vehicle to one. For purposes of this section, “unrelated minor passenger” means a passenger who is under eighteen years of age and who is not a sibling of the driver; a step sibling of the driver; or a child who resides in the same household as the driver.
   (2) Electronic communication devices. A person issued a driver’s license under this section shall not use an electronic communication device or an electronic entertainment device while driving a motor vehicle unless the motor vehicle is at a complete stop off the traveled portion of the roadway. This subparagraph does not apply to the use of electronic equipment which is permanently installed in the motor vehicle or to a portable device which is operated through permanently installed equipment. The department, in cooperation with the department of public safety, shall establish educational programs to foster compliance with the requirements of this subparagraph.

3. Certification of need and issuance of license.
   a. Each application shall be accompanied by a statement from the applicant’s school of enrollment. The statement shall be upon a form provided by the department and shall certify that a need exists for the license and that the person signing the statement is not responsible for actions of the applicant which pertain to the use of the driver’s license.
   (1) If the applicant attends a public school, the certification shall be made by the school board, superintendent of the applicant’s school, or principal, if authorized by the superintendent.
   (2) If the applicant attends an accredited nonpublic school, the certification shall be made by the authorities in charge of the accredited nonpublic school or a duly authorized representative of the authorities.
   b. Upon receipt of a statement of necessity, the department shall issue the driver’s license provided the applicant is otherwise eligible for issuance of the license. The fact that the applicant resides at a distance less than one mile from the applicant’s school of enrollment is prima facie evidence of the nonexistence of necessity for the issuance of a license.
   c. The school shall develop and adopt a policy establishing the criteria that the school shall use to approve or deny certification that a need exists for a license. If the school is a public school, the policy shall be developed and adopted by the school board. If the school is an accredited nonpublic school, the policy shall be developed and adopted according to procedures determined by the authorities in charge of the accredited nonpublic school.
   d. A student enrolled in a public school may appeal to the school board the decision of a school district administrator to deny certification. A student enrolled in an accredited nonpublic school may appeal the school’s decision to deny certification as permitted by the authorities in charge of the accredited nonpublic school. The decision of the school board or authorities in charge of the accredited nonpublic school is final.
   e. The driver’s license shall not be issued for purposes of attending a public school in a school district other than either of the following:
      (1) The district of residence of the parent or guardian of the student.
      (2) A district which is contiguous to the district of residence of the parent or guardian of the student, if the student is enrolled in the public school which is not the school district of residence because of open enrollment under section 282.18 or as a result of an election by the student’s district of residence to enter into one or more sharing agreements pursuant to the procedures in chapter 282.
   f. The driver’s license shall not be issued for purposes of attending an accredited nonpublic school if the driving distance between the school and the residence of the parent or guardian of the student is more than fifty miles.

4. Suspension and revocation. A driver’s license issued under this section is subject to suspension or revocation for the same reasons and in the same manner as suspension or revocation of any other driver’s license. The department may also suspend a driver’s license issued under this section upon receiving satisfactory evidence that the licensee has violated the restrictions of the license or has been involved in one or more accidents chargeable to
the licensee. The department may suspend a driver’s license issued under this section upon receiving a record of the licensee’s conviction for one violation. The department shall revoke the license upon receiving a record of conviction for two or more violations of a law of this state or a city ordinance regulating the operation of motor vehicles on highways other than parking violations as defined in section 321.210. 321.251 Rights of owners of real property — manufactured home communities or mobile home parks.

1. This chapter shall not be construed to prevent the owner of real property used by the public for purposes of vehicular travel by permission of the owner and not as matter of right from prohibiting such use, or from requiring other or different or additional conditions than those specified in this chapter, or otherwise regulating such use as may seem best to such owner.

2. a. The owner of real property upon which a manufactured home community or mobile home park is located may elect to have the vehicular traffic provisions of this chapter, or the ordinances, rules, or regulations of the local authority where the real property is located, apply to the real property and any persons located on the real property by granting authority to any peace officer to enforce the vehicular traffic provisions of this chapter, or the ordinances, rules, or regulations of the local authority as well as any regulations or conditions imposed on the real property pursuant to subsection 1. An election made pursuant to this subsection shall not create a higher priority for the enforcement of traffic laws on real property upon which a manufactured or mobile home is located than exists for the enforcement of traffic laws on public property.

   b. A written notice of election shall be filed with the designated officials of the local authority whose ordinances, rules, or regulations will govern the vehicular traffic. The appropriate officials shall be the city clerk and chief of police of the city in which the real property is located and the county sheriff and the county recorder of the county in which the real property is located. The notice shall include the legal description of the real property, the street address, if any, and the date and time when the owner wishes the election to become effective. The notice shall be signed by every titleholder of the real property and acknowledged by a notary public as provided in chapter 9B.

   c. An election shall terminate fourteen days following the filing of a written notice of withdrawal with the designated officials of the local authority whose ordinances, rules, or regulations will govern.

   d. For purposes of this subsection, “titleholder of real property” means the person or entity whose name appears on the documents of title filed in the official county records as the owner of the real property upon which a manufactured home community or mobile home park is located.

3. The titleholder of real property under subsection 2 may elect to waive the right to have the vehicular traffic provisions of this chapter, or the ordinances, rules, or regulations of the local authority where the real property is located, apply to the real property and any persons located on the real property, by recording a waiver with the county recorder of each county in which the property is located. The waiver shall include the legal description of the real property and shall bind the titleholder of the real property and any successors in interest. The waiver may only be rescinded if each law enforcement jurisdiction, in which the titleholder of real property wishes to obtain the benefit of this section, consents to the rescission of the waiver through adoption of a resolution.

TRAFFIC SIGNS, SIGNALS, AND MARKINGS

321.252 Department to adopt sign manual.

1. a. The department shall adopt a manual and specifications for a uniform system of traffic-control devices consistent with the provisions of this chapter for use upon highways within this state. Such uniform system shall correlate with and so far as possible conform to the system then current as approved by the American association of state highway and transportation officials.

   b. The department shall include in its manual of traffic-control devices, specifications for a uniform system of highway signs for the purpose of guiding traffic to organized off-highway
permanent camps, and camp areas, operated by recognized and established civic, religious, and nonprofit charitable organizations and to for-profit campgrounds and ski areas. The department shall purchase, install, and maintain the signs upon the prepayment of the costs by the organization or owner.

2. The department shall also establish criteria for guiding traffic on all fully controlled-access, divided, multilaned highways including interstate highways to each tourist attraction which is located within thirty miles of the highway and receives fifteen thousand or more visitors annually. Nothing in this subsection shall be construed to prohibit the department from erecting signs to guide traffic on these highways to tourist attractions which are located more than thirty miles from the highway or which receive fewer than fifteen thousand visitors annually.

3. a. The department shall establish, by rule, in cooperation with a tourist signing committee, the standards for tourist-oriented directional signs and shall annually review the list of attractions for which signing is in place. The rules shall conform to national standards for tourist-oriented directional signs adopted under 23 U.S.C. §131(q) and to the manual of uniform traffic-control devices.

   (1) The tourist signing committee shall be made up of the directors or their designees of the departments of agriculture and land stewardship, natural resources, cultural affairs, and transportation, the director or the director’s designee of the economic development authority, the chairperson or the chairperson’s designee of the Iowa travel council, and a member of the outdoor advertising association of Iowa. The director or the director’s designee of the economic development authority shall be the chairperson of the committee.

   (2) The department of transportation shall be responsible for calling and setting the date of the meetings of the committee which meetings shall be based upon the amount of activity relating to signs. However, the committee shall meet at least once a month.

   b. A tourist attraction is not subject to a minimum number of visitors annually to qualify for tourist-oriented directional signing.

4. The rules shall not be applicable to directional signs relating to historic sites on land owned or managed by state agencies, as provided in section 321.253A. The rules shall include but are not limited to the following:

   b. Criteria for limiting or excluding businesses, activities, services, and sites that maintain signs that do not conform to the requirements of chapter 306B, chapter 306C, subchapter II, or other statutes or administrative rules regulating outdoor advertising.

   c. Provisions for a fee schedule to cover the direct and indirect costs of sign manufacture, erection, and maintenance, and related administrative costs.

   d. Provisions specifying maximum distances to eligible businesses, activities, services, and sites. Tourist-oriented directional signs may be placed on highways within the maximum travel distance that have the greatest traffic count per day, if sufficient space is available. If an adjacent landowner complains to the department about the placement of a tourist-oriented directional sign, the department shall attempt to reach an agreement with the landowner for relocating the sign. If possible, the sign shall be relocated from the place of objection. If the sign must be located on an objectionable place, it shall be located on the least objectionable place possible.

   e. Provisions for trailblazing to facilities that are not on the crossroad. Appropriate trailblazing shall be installed over the most desirable routes on lesser traveled primary highways, secondary roads, and city streets leading to the tourist attraction.

   f. Criteria for determining when to permit advance signing.

   g. Provisions specifying conditions under which the time of operation of a business, activity, service, or site is shown.

   h. Provisions for masking or removing signs during off seasons for businesses, activities, services, and sites operated on a seasonal basis. Faded signs shall be replaced and the commercial vendor charged for the cost of replacement based upon the fee schedule adopted.

   i. Provisions specifying the maximum number of signs permitted per intersection.

   j. Provisions for determining what businesses, activities, services, or sites are signed when there are more applicants than the maximum number of signs permitted.
k. Provisions for removing signs when businesses, activities, services, or sites cease to meet minimum requirements for participation and related costs.

5. Local authorities shall adhere to the specifications for signs as established by the department, and shall purchase, install, and maintain signs in their respective jurisdictions upon prepayment by the organization of the cost of such purchase, installation, and maintenance. The department shall include in its manual of traffic-control devices specifications for a uniform system of traffic-control devices in legally established school zones.

The signs shall conform to the manual of uniform traffic devices. However, the directional signs are not subject to requirements applicable to tourist-oriented directional signs.

2. Upon request by a city or county in which a historic site is located on land owned or managed by an agency, the department shall distribute a directional sign as provided in this section to the city or county for erection upon roads or streets within their jurisdictions.

3. The location of the historic site shall be memorialized on transportation maps of the state published under the direction of the department and generally made available to the public. However, if it is not reasonable and feasible to display specific historic sites on the state transportation map, the department shall consult with the agency managing the historic site.

321.257 Official traffic-control signal.
1. For the purposes of this section "stop at the official traffic-control signal" means stopping at the first opportunity at either the clearly marked stop line or before entering the crosswalk or before entering the intersection.

2. Official traffic-control signals consisting of colored lights or colored lighted arrows shall regulate vehicle and pedestrian traffic in the following manner:
   a. A "steady circular red" light means vehicular traffic shall stop. Vehicular traffic shall remain standing until a signal to proceed is shown, or vehicular traffic, unless prohibited by a sign, may cautiously enter the intersection to make a right turn from the right lane of traffic or another lane designated for right turns, or a left turn from a one-way street to a one-way street from the left lane of traffic or another lane designated for left turns. Turns made under this paragraph shall be made in a manner that does not interfere with other vehicular or pedestrian traffic lawfully using the intersection. Pedestrian traffic facing a steady circular red light shall not enter the roadway unless the pedestrian can safely cross the roadway without interfering with any vehicular traffic.
   b. A "steady circular yellow" or "steady yellow arrow" light means vehicular traffic is warned that the related green movement is being terminated and vehicular traffic shall no longer proceed into the intersection and shall stop. If the stop cannot be made in safety, a vehicle may be driven cautiously through the intersection. Pedestrian traffic is warned that there is insufficient time to cross the intersection and any pedestrian starting to cross the roadway shall yield the right-of-way to all vehicles.
   c. A "steady circular green" light means vehicular traffic may proceed straight, turn right or turn left through the intersection unless otherwise specifically prohibited. Vehicular traffic shall yield the right-of-way to other vehicular and pedestrian traffic lawfully within the intersection.
   d. A "steady green arrow" light shown alone or with another official traffic-control signal means vehicular traffic may cautiously enter the intersection and proceed in the direction indicated by the arrow. Vehicular traffic shall yield the right-of-way to other vehicles and pedestrians lawfully within the intersection.
   e. A "flashing circular red" light means vehicular traffic shall stop and after stopping may proceed cautiously through the intersection yielding to all vehicles not required to stop or yield which are within the intersection or approaching so closely as to constitute a hazard, but then may proceed.
f. A "flashing yellow" light means vehicular traffic shall proceed through the intersection or past such signal with caution.

g. A "flashing yellow arrow" light shown alone or with another official traffic-control signal means vehicular traffic may cautiously enter the intersection and proceed only in the direction indicated by the arrow. Vehicular traffic shall yield the right-of-way to other vehicles and pedestrians lawfully within the intersection and any vehicle on the opposing approach which is approaching so closely as to constitute an immediate hazard during the time the driver is moving within the intersection.

h. A "don’t walk" or “steady upraised hand” light is a pedestrian signal which means that pedestrian traffic facing the illuminated pedestrian signal shall not start to cross the roadway in the direction of the pedestrian signal, and pedestrian traffic in the crossing shall proceed to a safety zone.

i. A “flashing upraised hand” or “upraised hand with countdown” light is a pedestrian signal which means that pedestrian traffic facing the illuminated pedestrian signal shall not start to cross the roadway in the direction of the pedestrian signal, and pedestrian traffic in the crossing shall proceed to a safety zone. The “upraised hand with countdown” light is a pedestrian signal that also provides the time remaining for the pedestrian to complete the crossing.

j. A “walk” or “walking person” light is a pedestrian signal which means that pedestrian traffic facing the illuminated pedestrian signal may proceed to cross the roadway in the direction of the pedestrian signal and shall be given the right-of-way by drivers of all vehicles.

1. A person shall not drive a vehicle on any public bridge or elevated structure at a speed which is greater than the maximum speed permitted under this chapter on the street or highway at a point where said street or highway joins said bridge or elevated structure. However, if the maximum speed permitted on said street or highway differs from the maximum speed on any other street or highway joining said bridge or elevated structure, then the lowest of those maximum speeds shall be the maximum speed limit on said bridge or elevated structure unless the department, upon request from any local authority or upon its own initiative, has conducted an investigation of the bridge or other elevated structure constituting a part of the highway, and has found that the structure cannot with safety to itself withstand vehicles traveling at the speed otherwise permissible under this chapter. Under those circumstances, the department shall determine and declare the maximum speed of vehicles which the structure can withstand, and shall cause or permit suitable signs stating such maximum speed to be erected and maintained at a distance of two hundred feet before each end of such structure.

2. A person shall not drive a vehicle over any bridge or other elevated structure constituting a part of a highway at a speed which is greater than the maximum speed which can be maintained with safety to such bridge or structure, when the structure is signposted as provided in this section.

3. Upon the trial of any person charged with driving a vehicle at a speed which is greater than the maximum speed which can be maintained with safety to such bridge or structure, proof of such determination of the maximum speed by said department and the existence
of said signs shall constitute conclusive evidence of the maximum speed which can be 
maintained with safety to such bridge or structure.

b. If, from the investigation, the peace officer has reasonable cause to believe that a violation of section 321.372, subsection 3, occurred but is unable to identify the driver, the peace officer shall serve a uniform traffic citation for the violation to the owner of the motor vehicle. Notwithstanding section 321.484, in a proceeding where the peace officer who conducted the investigation was not able to identify the driver of the motor vehicle, proof that the motor vehicle described in the uniform traffic citation was used to commit the violation of section 321.372, subsection 3, together with proof that the defendant named in the citation was the owner of the motor vehicle at the time the violation occurred, constitutes a permissible inference that the owner was the driver who committed the violation.

c. For purposes of this subsection, “owner” means a person who holds the legal title to a motor vehicle; however, if the motor vehicle is the subject of a security agreement with a right of possession in the debtor, the debtor shall be deemed the owner for purposes of this subsection, or if the motor vehicle is leased as defined in section 321.493, the lessee shall be deemed the owner for purposes of this subsection.

Such rules shall conform to safety standards set forth in federal laws and regulations and shall conform, insofar as practicable, to the minimum standards for school buses recommended by the national conference on school transportation administered by the national commission on safety education and published by the national education association.

2. Rules prescribed for school buses shall provide standards for structural strength, materials, and insulation of the school bus body; color; seat and aisle arrangement; dimension and construction of service door; control of the front door or doors; emergency door and its location and construction; windows; roof ventilators; heaters; location, filling, and draining of the fuel tank; bumpers and how they shall be attached to the bus; lettering and identification of the bus; stop signal arm; warning lights and flashing lights.

3. a. The rules prescribed for school buses shall include special rules for passenger automobiles, and other vehicles designed to carry ten or fewer persons, including the driver, when used as school buses.

b. The rules shall allow pickups designed to carry nine passengers or less, including the driver, and weighing ten thousand pounds or less, to be used as school buses if the pickup does not carry more passengers than there are safety belts or safety harnesses in the pickup as installed by the manufacturer and if the pickup is not operated while any passenger is present in the bed of the pickup. The operator of the pickup shall comply with the qualification, licensing, and instruction requirements set forth in sections 321.375 and 321.376, other than the requirement to obtain a commercial driver’s license. However, the rules shall allow the
board of directors of a school district to prohibit the use of pickups as school buses by the school district.

c. The rules shall allow used passenger vans designed to carry twelve or fewer passengers, including the driver, and weighing ten thousand pounds or less, to be used as school buses if the van does not carry more passengers than there are safety belts or safety harnesses in the van as installed by the manufacturer. The operator of the van shall comply with the qualification, licensing, and instruction requirements set forth in sections 321.375 and 321.376.

4. Every school bus shall be equipped with a comfortable seat for each child.

5. Vehicles owned by private parties and used as school buses shall have reversed or covered the words “school bus” wherever they appear on the vehicle when the vehicle is not in use as a school bus. It shall be unlawful to operate flashing stop warning signals on such privately owned vehicles except as provided in section 321.372.

6. No vehicle except a school bus shall be operated on a public highway if the vehicle is painted the color known as national school bus glossy yellow. A school bus which has been permanently converted for a purpose other than transporting pupils to or from school shall be painted a color other than national school bus glossy yellow, and shall have the “school bus” signs, stop arm, and the special signal lamps removed.

7. A school bus may be equipped with a white flashing strobe light mounted on the roof of the bus to afford optimum visibility during periods of inclement weather. The light shall be installed and operated in accordance with rules promulgated by the department of education. Each new school bus put into initial service after January 1, 1977, shall be equipped with such a light.

1. A driver of a school bus must meet all of the following requirements:

   a. Be at least eighteen years of age.

   b. Be physically and mentally competent.

   c. Not possess personal or moral habits which would be detrimental to the best interests of the safety and welfare of the children transported.

Possess a current certificate of qualification for operation of a commercial motor vehicle issued by a physician licensed pursuant to chapter 148, physician assistant, advanced registered nurse practitioner, or chiropractor or any other person identified by federal and state law as authorized to perform physical examinations.

2. Prior to hiring an applicant for a school bus driver position, including a contract position, an employer shall have access to and shall review the information in the Iowa court
information system available to the general public, the sex offender registry information under section 692A.121 available to the general public, the central registry for child abuse information established under section 235A.14, and the central registry for dependent adult abuse information established under section 235B.5 for information regarding the applicant. An employer shall follow the same procedure upon the renewal of an employee’s or contract employee’s school bus driver’s license issued by the department of transportation valid for the operation of a school bus. An employer shall pay for the cost of the registry checks conducted pursuant to this subsection. An employer shall maintain documentation demonstrating compliance with this subsection.

3. Any of the following shall constitute grounds for the immediate suspension from duties of a school bus driver, including a part-time or substitute bus driver, pending a termination hearing by the board of directors of a public school district or the authorities in charge in a nonpublic school, or pending confirmation of the grounds by the employer of the school bus driver if the employer is not a school district or accredited nonpublic school:
   a. Use of nonprescription controlled substances or alcoholic beverages during working hours.
   b. Operating a school bus while under the influence of nonprescription controlled substances or alcoholic beverages.
   c. Fraud in the procurement or renewal of a school bus driver’s authorization to operate a school bus.
   d.    e. The school bus driver is listed in the sex offender registry established under chapter 692A, the central registry for child abuse information established under section 235A.14, or the central registry for dependent adult abuse information established under section 235B.5. A termination hearing conducted pursuant to this paragraph shall be limited to the question of whether the school bus driver was incorrectly listed in the registry.
   f. A change in circumstances indicating that the driver is no longer physically or mentally competent. For the purpose of an insulin-dependent diabetic, a change in circumstances includes the following:
      (1) Results of a glycosylated hemoglobin test indicating values less than 6.0 percent or greater than 9.5 percent unless accompanied by the required medical opinion that the event was incidental and not an indication of failure to control glucose levels.
      (2) Results of self-monitoring indicate glucose levels less than one hundred milligrams per deciliter or greater than three hundred milligrams per deciliter, until self-monitoring indicates compliance with specifications.
      (3) Experiencing a loss of consciousness or control relating to diabetes.
      (4) Failing to maintain or falsifying the required reports.
   4. a. Notwithstanding any provision to the contrary, an insulin-dependent diabetic may qualify under subsection 1, paragraph “d” for purposes of operating a school bus under this section if a person identified by federal or state law as authorized to perform physical examinations annually provides a signed statement indicating that based upon an annual physical examination the individual is physically able to perform the required functions despite insulin dependency. The insulin-dependent diabetic shall not qualify to operate a school bus if, at minimum, the individual results of a glycosylated hemoglobin test indicate values less than 6.0 percent or greater than 9.5 percent on other than an incidental basis and not as a result of failure to control glucose levels. The statement shall also indicate that within the past three years the insulin-dependent diabetic has completed instruction to address diabetes management and driving safety, signs and symptoms of hypoglycemia and hyperglycemia, and what procedures must be followed if complications arise.
   b. A school district or authorities in charge of the nonpublic school that employs or otherwise secures the services of an individual with an authorization who is an
insulin-dependent diabetic shall monitor the insulin-dependent diabetic to determine that they are in compliance with all of the following:

1. Self-monitoring blood glucose and demonstrating conformance with requirements, more than one hundred milligrams per deciliter and less than three hundred milligrams per deciliter, within one hour before driving a school bus and approximately every four hours while on duty using a United States food and drug administration approved device.

2. Reporting immediately to the school district or school any failure to comply with specific glucose level requirements as listed in subparagraph (1) or loss of consciousness or control.

3. Carrying a source of readily absorbable, fast-acting glucose while on duty.

4. Maintaining a daily log of all glucose test results for the previous six-month period and providing copies to the school district or school, the examining physician, and the department of education upon request.

5. Submitting all required department of education forms within the prescribed timelines.

(C31, 35, §4960-d10; C39, §5032.04; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §321.375)

A person holding a temporary restricted license issued under chapter 321J shall be prohibited from operating a school bus.

2. The department of education shall refuse to issue an authorization to operate a school bus to any person who, after notice and opportunity for hearing, is determined to have met any of the grounds listed under section 321.375, subsection 3. The department of education shall take adverse action against any person who, after notice and opportunity for hearing, is determined to have met any of the grounds listed under section 321.375, subsection 3. Such action may include a reprimand or warning of the person or the suspension or revocation of the person’s authorization to operate a school bus. A hearing pursuant to section 321.375, subsection 3, paragraph “e”, shall be limited to the question of whether the person was incorrectly listed in the registry. The department of education shall recommend, and the state board of education shall adopt under chapter 17A, rules and procedures for issuing and suspending or revoking authorization to operate a school bus in this state. Rules and procedures adopted shall include but are not limited to provisions for the revocation or suspension of, or refusal to issue, authorization to persons who are determined to have met any of the grounds listed under section 321.375, subsection 3.

3. A person applying for employment or employed as a school bus driver shall successfully complete a department of education approved course of instruction for school bus drivers before or within the first six months of employment and at least every twenty-four months thereafter. If an employee fails to provide an employer with a certificate of completion of the required school bus driver’s course, the driver’s employer shall report the failure to the department of education and the employee’s authorization to operate a school bus shall be revoked. The department of education shall send notice of the revocation to both the employee and the employer. A person whose school bus authorization has been revoked under this section shall not be issued another authorization until certification of the completion of an approved school bus driver’s course is received by the department of education.

4. As used in this section and section 321.375, “driver of a school bus” or “school bus
"driver" does not include a mechanic, delivery driver, or other person operating an empty school bus for purposes other than the transportation of passengers. Such persons must still hold a commercial driver’s license valid for the operation of a vehicle of the size and type operated, including a passenger endorsement, but are not required to hold a driver’s license with a school bus endorsement.

tractors or other farm machinery, the operation of which upon a highway would otherwise
be prohibited under this chapter.

1. No person shall sell any new motor vehicle nor shall any motor vehicle, manufactured
since July 1, 1935, be registered, or operated unless such vehicle is equipped with safety glass
whenever glass is used in doors, windows, and windshields. Replacements of glass in doors,
windows, or windshields shall be of safety glass.
2. “Safety glass” means any product composed of glass, so manufactured, fabricated, or
treated as substantially to prevent shattering and flying of the glass when struck or broken.
Safety glass and glazing materials shall comply with federal motor vehicle safety standard
number 205 as published in 49 C.F.R. §571.205.

in work which requires them to alight from and reenter the vehicle at frequent intervals,
providing the vehicle does not exceed twenty-five miles per hour between stops.
(3) The driver of a motor vehicle while performing duties as a rural letter carrier for the
United States postal service. This exemption applies only between the first delivery point
after leaving the post office and the last delivery point before returning to the post office.

(5) A person possessing a written certification from a health care provider licensed under
chapter 148 or 151 on a form provided by the department that the person is unable to wear
a safety belt or safety harness due to physical or medical reasons. The certification shall
specify the time period for which the exemption applies. The time period shall not exceed
twelve months, at which time a new certification may be issued unless the certifying health
care provider is from a United States military facility, in which case the certificate may specify a longer period of time or a permanent exemption.

6. Front seat occupants of an authorized emergency vehicle while they are being transported in an emergency. However, this exemption does not apply to the driver of the authorized emergency vehicle.

3. The driver and front seat passengers may be each charged separately for improperly used or nonused equipment under subsection 2. However, the driver shall not be charged for a violation committed by a passenger who is fourteen years of age or older unless the passenger is unable to properly fasten a seat belt due to a temporary or permanent disability. The owner of the motor vehicle may be charged for equipment violations under subsection 1.

4. a. The nonuse of a safety belt or safety harness by a person is not admissible or material as evidence in a civil action brought for damages in a cause of action arising prior to July 1, 1986.

b. In a cause of action arising on or after July 1, 1986, brought to recover damages arising out of the ownership or operation of a motor vehicle, the failure to wear a safety belt or safety harness in violation of this section shall not be considered evidence of comparative fault under section 668.3, subsection 1. However, except as provided in section 321.446, subsection 6, the failure to wear a safety belt or safety harness in violation of this section may be admitted to mitigate damages, but only under the following circumstances:

1. Parties seeking to introduce evidence of the failure to wear a safety belt or safety harness in violation of this section must first introduce substantial evidence that the failure to wear a safety belt or safety harness contributed to the injury or injuries claimed by the plaintiff.

2. If the evidence supports such a finding, the trier of fact may find that the plaintiff’s failure to wear a safety belt or safety harness in violation of this section contributed to the plaintiff’s claimed injury or injuries, and may reduce the amount of the plaintiff’s recovery by an amount not to exceed twenty-five percent of the damages awarded after any reductions for comparative fault.

5. The department shall adopt rules pursuant to chapter 17A providing exceptions from application of subsections 1 and 2 for front seats and front seat passengers of motor vehicles owned, leased, rented, or primarily used by persons with disabilities who use collapsible wheelchairs.

Otherwise, if a passenger being transported in the taxicab or in a personal vehicle operated by a transportation network company driver is fourteen years of age or older, the citation shall be served on the passenger in lieu of the taxicab operator or transportation network company driver.

5. A person who is first charged for a violation of subsection 1 and who has not purchased or otherwise acquired a child restraint system shall not be convicted if the person produces in court, within a reasonable time, proof that the person has purchased or otherwise acquired a child restraint system which meets federal motor vehicle safety standards.

6. Failure to use a child restraint system, safety belts, or safety harnesses as required by this section does not constitute negligence nor is the failure admissible as evidence in a civil action.

7. For purposes of this section, “child restraint system” means a specially designed seating system, including a belt-positioning seat or a booster seat, that meets federal motor vehicle safety standards set forth in 49 C.F.R. §571.213.

The rules shall be consistent with the federal motor carrier safety regulations promulgated under United States Code, Tit. 49, and found in 49 C.F.R. pts. 385, 390 – 399 and adopted under chapter 17A.
   b. The department shall also adopt rules concerning hours of service for drivers of vehicles operated for hire and designed to transport seven or more persons, including the driver. The
rules shall not apply to vehicles offered to the public for hire that are used principally in
intracity operation and that are regulated by local authorities pursuant to section 321.236.

c. The department may adopt rules pursuant to chapter 17A authorizing a person who is at

interstate commerce.

2. Rules adopted under this section concerning driver qualifications, hours of service,
and recordkeeping requirements do not apply to the operators of public utility trucks, trucks

provided in this section, trucks for hire on construction projects are not exempt from this
section.

3. Rules adopted under this section concerning driver age qualifications do not apply to
drivers for private and for-hire motor carriers which operate solely intrastate except when the
vehicle being driven is transporting a hazardous material in a quantity which requires
placarding. The minimum age for the exempted intrastate operations is eighteen years of
age.

4. a. Notwithstanding other provisions of this section, rules adopted under this section
for drivers of commercial vehicles shall not apply to a driver of a commercial vehicle who
is engaged exclusively in intrastate commerce, when the commercial vehicle’s gross vehicle
weight rating is twenty-six thousand pounds or less, unless the vehicle is used to transport
hazardous materials requiring a placard or if the vehicle is designed to transport more than
fifteen passengers, including the driver. For the purpose of complying with the hours of
service recordkeeping requirements under 49 C.F.R. §395.1(e)(1)(v)(A – D), a driver’s report

workweek shall be considered acceptable motor carrier time records.

b. In addition, rules adopted under this section shall not apply to a driver operating
intrastate for a farm operation as defined in section 352.2, or for an agricultural interest

another farm, between the farm and a market for farm products, or between the farm and
an agribusiness location.

c. A driver or a driver-salesperson for a private carrier, who is not for hire and who is
engaged exclusively in intrastate commerce, may drive twelve hours, be on duty sixteen hours
in a twenty-four-hour period, and be on duty seventy hours in seven consecutive days or eighty
hours in eight consecutive days. A “driver-salesperson” means as defined in 49 C.F.R. §395.2,
as adopted by the department by rule.

d. For-hire drivers who are engaged exclusively in intrastate commerce and who operate
trucks and truck tractors exclusively for the movement of construction materials and
equipment to and from construction projects may also drive twelve hours, be on duty sixteen
hours in a twenty-four-hour period, and be on duty seventy hours in seven consecutive days
or eighty hours in eight consecutive days.

5. a. Notwithstanding other provisions of this section, rules adopted under this section
concerning physical and medical qualifications for drivers of commercial vehicles engaged in
intrastate commerce shall not be construed as disqualifying any individual who was employed
as a driver of commercial vehicles engaged in intrastate commerce whose physical or medical
condition existed prior to July 29, 1996.

b. Notwithstanding other provisions of this section, rules adopted under this section
concerning physical and medical qualifications for a driver shall not apply to a farmer or a
farmer’s hired help when operating a vehicle owned by the farmer while it is being used
in connection with the intrastate transportation of fertilizers and chemicals used in the
farmer’s crop production.

c. Notwithstanding other provisions of this section, rules adopted under this section
concerning physical and medical qualifications for a driver shall not apply to a farmer or a
farmer’s hired help when operating a vehicle owned by the farmer while it is being used in
connection with the intrastate transportation of agricultural commodities or feed.
6. Notwithstanding other provisions of this section, rules adopted under this section shall not impose any requirements which impose any restrictions upon a person operating an implement of husbandry or pickup to transport fertilizers and pesticides in that person’s agricultural operations.
7. Rules adopted under this section shall not apply to vehicles engaged in intrastate commerce and used in combination, provided the gross vehicle weight rating of the towing unit is ten thousand pounds or less and the gross combination weight rating is twenty-six thousand pounds or less.
8. In the course of enforcing the motor carrier safety rules adopted by the department under chapter 17A, the department’s peace officers are authorized, at reasonable times and places and with reasonable notice, to enter a motor carrier’s place of business for the purpose of performing a motor carrier safety audit or compliance review. Nothing in this subsection by itself permits the seizure of the property of a motor carrier. Any audit or review shall be conducted in compliance with the federal motor carrier safety regulations in 49 C.F.R. pts. 105 – 185, 382, 383, 385, and 390 – 399. A peace officer of the department is authorized to inspect and copy motor carrier records required by 49 C.F.R. pts. 105 – 185, 382, 383, 385, and 390 – 399.

§321.457 Maximum length.

1. A combination of four vehicles is not allowed on the highways of this state, except for power units saddle mounted on other power units which shall be restricted to a maximum overall length of ninety-seven feet.

2. The maximum length of any motor vehicle or combination of vehicles operated on the highways of this state is as follows:
   a. A single truck, unladen or with load, shall not have an overall length, inclusive of front and rear bumpers, in excess of forty-five feet. When determining the overall length of a single truck, the following shall be excluded:
      (1) Cargo extending not more than three feet beyond the front bumper and not more than four feet beyond the rear bumper when transporting motor vehicles, boats, and chassis.
      (2) An unladen cargo carrying device extending no greater than twenty-four inches from the rear of the bed of the truck.
      (3) A cargo carrying device with load.
   b. A single bus shall not have an overall length, inclusive of front and rear bumpers, in excess of forty-five feet, except that buses constructed so as to contain a flexible part allowing articulation shall not exceed sixty-one feet.
   c. A manufactured or mobile home not in excess of forty-eight feet in length may be drawn by any motor vehicle, except a motor truck, provided that the manufactured or mobile home and its towing unit are not in excess of an overall length of sixty feet. For the purposes of this subsection, a light delivery truck, panel delivery truck, or "pickup" is not a "motor truck". A portable livestock loading chute not in excess of length of thirteen feet including its hitch or tongue may be drawn by any vehicle or combination of vehicles, provided that the vehicle or combination of vehicles drawing the loading chute is not in excess of the legal length provided for such vehicles or combinations.
   d. A combination of three vehicles coupled together one of which is a motor vehicle, unladen or with load, other than a truck tractor, shall not have an overall length, inclusive of front and rear bumpers, in excess of seventy feet.
   e. A motor vehicle or combination of vehicles may be operated upon the highways of this state, irrespective of the length and weight limitations imposed by the laws of this state, if the motor vehicle or combination of vehicles is operated within the corporate limits of a city abutting a border of this state and such operations have been approved by ordinance of the city council and if the length and weight of the motor vehicle or combination of vehicles is in conformity with the laws relating to length and weight of the abutting state. If a city council has authorized such operation upon highways within the corporate limits, then the limit of travel for such motor vehicles or combination of vehicles within the state is extended to the commercial zones as described by federal regulations concerning interstate commerce, 49 C.F.R. §1048.101, and to the interstate system as provided in 23 U.S.C. §127 and 49 U.S.C. §31112(c), as amended by Pub. L. No. 104-59.
   f. A trailer or semitrailer, laden or unladen, shall not have an overall length in excess
of fifty-three feet when operating in a truck tractor-semi-trailer combination exclusive of retractable extensions used to support the load. However, when a trailer or semi-trailer is used exclusively for the transportation of passenger vehicles, light delivery trucks, pickup trucks, recreational vehicle chassis, or boats, the load carried on the trailer or semi-trailer may extend up to three feet beyond the front bumper and up to four feet beyond the rear bumper of the trailer or semi-trailer. A lowboy semi-trailer, laden or unladen, which is designed and exclusively used for the transportation of construction equipment shall not have an overall length in excess of fifty-seven feet when used in a truck tractor-semi-trailer combination.

\( g. \) A trailer or semi-trailer, laden or unladen, shall not have an overall length in excess of twenty-eight feet six inches when operating in a truck tractor-semi-trailer-trailer combination or truck tractor-semi-trailer-semi-trailer combination. When the semi-trailers in a truck tractor-semi-trailer-semi-trailer combination are connected by a rigid frame extension including a fifth-wheel connection point attached to the rear frame of the first semi-trailer, the length of the frame extension shall not be included when determining the overall length of the first semi-trailer.

\( h. \) Power units designed to carry cargo, when used in combination with a trailer or semi-trailer shall not exceed sixty-five feet in overall length for the combination exclusive of retractable extensions used to support the load. However, if a combination of vehicles is used exclusively for the transportation of passenger vehicles, light delivery trucks, panel delivery trucks, pickup trucks, recreational vehicle chassis, or boats, the load may extend up to three feet beyond the front bumper of the power unit and up to four feet beyond the rear bumper of the trailer or semi-trailer.

\( i. \) A stinger-steered automobile transporter shall not have an overall length exceeding eighty feet, exclusive of retractable extensions used to support the load and all other devices or appurtenances related to the safe and efficient operation of the vehicle, except that the load may extend up to four feet beyond the front bumper and up to six feet beyond the rear bumper.

\( j. \) A motor home or motorsports recreational vehicle shall not have an overall length, excluding front and rear bumpers and safety equipment, in excess of forty-five feet.

\( k. \) A combination of two vehicles coupled together, one of which is a motor home, shall not have an overall length in excess of sixty-five feet.

\( l. \) A combination of two vehicles coupled together, one of which is a travel trailer or fifth-wheel travel trailer, shall not have an overall length in excess of sixty-five feet.

\( m. \) Notwithstanding any other provision of this chapter, and to the extent allowed under federal law, the maximum length of a towaway trailer transporter combination operated on the highways of this state is eighty-five feet. For purposes of this paragraph, “towaway trailer transporter combination” means a combination of vehicles consisting of a towing vehicle and two unladen trailers or unladen semi-trailers in which the trailers or semi-trailers constitute inventory property of the manufacturer intended for sale and which are being transported from a trailer manufacturer to a trailer distributor or authorized trailer dealer.

\( n. \) (1) Notwithstanding paragraph “\( g \)” or any other provision of this chapter, the department is authorized to adopt rules providing for economic export corridors for the transportation of goods or products manufactured in Iowa to or through the state of South Dakota and for the return of unladen semi-trailers or unladen full trailers used for the transportation of those goods or products. The rules may authorize the operation of the following combinations of vehicles on an economic export corridor:

(a) A truck tractor-semi-trailer-semi-trailer converted to a full trailer by use of a dolly equipped with a fifth wheel which is considered a part of the trailer for all purposes, and not a separate unit.

(b) A truck tractor-semi-trailer-full trailer.

(c) A truck tractor-semi-trailer-semi-trailer combination, where the semi-trailers are connected by a rigid frame extension including a fifth wheel connection point attached to the rear frame of the first semi-trailer. The length of the frame extension shall not be included when determining the overall length of the first semi-trailer.

(2) Rules adopted pursuant to this paragraph “\( n \)” shall provide that combinations of
vehicles authorized to operate on an economic export corridor shall meet all of the following requirements:

(a) The length of the combination of vehicles, excluding the length of the truck tractor, shall not exceed eighty-one and one-half feet.

(b) The length of either semitrailer or full trailer shall not exceed forty-five feet.

(c) The weight of the second semitrailer or full trailer shall not exceed the weight of the first semitrailer by more than three thousand pounds.

(d) The gross weight of the combination of vehicles shall not exceed eighty thousand pounds and the combination of vehicles shall not exceed the gross axle weight limits of section 321.463, subsection 2.

(e) The load on each semitrailer or full trailer in the combination shall be an indivisible load. For the purpose of issuing permits for height or width under chapter 321E, the combination of vehicles shall be considered an indivisible load so long as the load on each semitrailer or full trailer in the combination remains an indivisible load.

(3) An economic export corridor established by the department shall not include any segment of the interstate system or any part of the national network of highways identified pursuant to 23 C.F.R. pt. 658. This subparagraph does not prohibit operation on any segment of the interstate system or part of the national network of highways that is permitted under paragraph “e”.

4. For purposes of this paragraph “n”, “full trailer” means as defined in 49 C.F.R. §390.5.

o. Notwithstanding any other provision of this chapter, and to the extent allowed under federal law, a combination of two vehicles coupled together, one of which is a motorsports recreational vehicle, shall not have an overall length in excess of eighty-five feet.

p. Notwithstanding any other provision of this chapter, and to the extent allowed under federal law, a vehicle or combination of vehicles transporting a divisible load of hay, straw, stover, or bagged livestock bedding shall not have an overall length in excess of seventy-five feet.

3. Fire fighting apparatus and vehicles operated during daylight hours when transporting poles, pipe, machinery, or other objects of a structural nature which cannot be readily disassembled when required for emergency repair of public service facilities or properties are not subject to the limitations on overall length of vehicles and combinations of vehicles imposed under this section. However, for operation during nighttime hours, these vehicles and the load being transported shall be equipped with a sufficient number of clearance lamps on both sides and marker lamps at the extreme ends of the projecting load to clearly mark the dimensions of the load. A member of the state patrol shall also be notified prior to the operation of the vehicle.

(2) Notwithstanding any provision of this section to the contrary, the maximum gross weight allowed to be carried on a noninterstate highway by a livestock vehicle with five axles, a minimum distance in feet between the centers of the first and fifth axles of sixty-one feet, and a minimum distance between the two rear axles of at least eight feet and one inch is eighty-six thousand pounds.

d. For the purposes of the maximum gross weight tables in paragraphs “a”, “b”, and “c”, distance in feet is the measured distance in feet between the centers of the extreme axles of any group of axles, rounded to the nearest whole foot.

7. The weight on any one axle, including a tandem axle, of a vehicle which is transporting livestock on highways not part of the interstate system may exceed the legal maximum weight given in this chapter providing that the gross weight on any particular group of axles on such vehicle does not exceed the gross weight allowable under this chapter for such groups of axles.

8. The weight on any one axle, including a tandem axle, of a vehicle which is transporting raw materials from a designated borrow site to a construction project or transporting raw materials from a construction project, and which is operating on a highway that is not part of the interstate system and along a route of travel approved by the department or the appropriate local authority, may exceed the legal maximum weight otherwise allowed under this chapter by ten percent if the gross weight on any particular group of axles on the vehicle does not exceed the gross weight allowed under this chapter for that group of axles. If the vehicle exceeds the ten percent tolerance allowed under this subsection, the fine shall be computed on the difference between the actual weight and the ten percent tolerance weight allowed for the axle or tandem axle.

9. A vehicle or combination of vehicles transporting materials or equipment on nonprimary highways to or from a construction project or commercial plant site may operate under the maximum gross weight table for primary highways in subsection 6, paragraph “a”, or the maximum gross weight table for noninterstate highways in subsection 6, paragraph “c”. When crossing a bridge, such a vehicle or combination of vehicles shall comply with any weight restriction imposed for the bridge pursuant to section 321.471 or 321.474, provided signs that conform to the manual of uniform traffic-control devices adopted by the department that give notice of the restriction are posted as required under section 321.472 or 321.474, as applicable.

10. A vehicle designed to tow wrecked or disabled vehicles shall be exempt from the weight limitations in this section while the vehicle is towing a wrecked or disabled vehicle.

11. a. A person who operates a vehicle in violation of this section, and an owner, or

c. Except as otherwise provided, the amount of the fine to be assessed shall be computed on the difference between the actual weight and the maximum legal weight specified in this section.
d. The schedule of fines may be assessed in addition to any other penalties provided for in this chapter.

12. Overloads on axles and tandem axles and overloads on groups of axles or on an entire vehicle or combination of vehicles shall be considered as separate violations of the provisions of this section.

13. A person shall not issue or execute, or cause to be issued or executed, a bill of lading, manifest, or shipping document of any kind which states a false weight of the cargo set forth on such bill, manifest, or document, which is less than the actual weight of the cargo.

14. a. A person operating a vehicle or combination of vehicles equipped with a retractable axle may raise the axle when necessary to negotiate a turn, provided that the retractable axle is lowered within one thousand feet following completion of the turn. This paragraph does not apply to a vehicle or combination of vehicles operated on an interstate highway, including a ramp to or from an interstate highway, or on a bridge.

b. A vehicle or combination of vehicles operated with a retractable axle raised as permitted under paragraph “a” is exempt from the weight limitations of this section as long as the vehicle or combination of vehicles is in compliance with the weight limitations of this section when the retractable axle is lowered.

c. This subsection does not prohibit the operation of a vehicle or combination of vehicles equipped with a retractable axle with the retractable axle raised when the vehicle or combination of vehicles is in compliance with the weight limitations of this section with the retractable axle raised.

15. A person who violates this section commits a simple misdemeanor.

§321.464 Investigation as to safety.

The director upon registering any vehicle under the laws of this state which vehicle is designed and used primarily for the transportation of property or for the transportation of ten or more persons, may require such information and may make such investigation or test as necessary to enable the director to determine whether such vehicle may safely be operated upon the highways in compliance with all the provisions of this chapter. The director shall register every such vehicle for a permissible gross weight not exceeding the limitations set forth in this chapter. Every such vehicle shall meet the following requirements:

1. It shall be equipped with brakes as required in sections 321.430 and 321.431.

2. Every motor vehicle to be operated outside of business and residence districts shall have motive power adequate to propel at a reasonable speed such vehicle and any load thereon or to be drawn thereby.

[C39, §5035.13; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §321.464]

1. Any peace officer having reason to believe that the weight of a vehicle and load is unlawful is authorized to require the driver to stop and submit to a weighing of the same either by means of portable or stationary scales and may require that such vehicle be driven to the nearest public scales.
2. If an officer upon weighing a vehicle and load determines that the weight is unlawful, the officer may require the driver to stop the vehicle in a suitable place until such portion of the load is removed as may be necessary to reduce the gross weight of the vehicle to the limit as permitted under this chapter. All material so unloaded shall be cared for by the owner or operator of the vehicle at the risk of the owner or operator. The owner or operator of an overweight vehicle, designed to transport solid waste and domiciled within the state, which is transporting solid waste, shall not be required to unload any portion of the load, if the load is indivisible, in a place other than a facility which is permitted to handle solid waste disposal, processing, or recycling. For purposes of this section, “solid waste” means waste which is acceptable at a local sanitary landfill and the solid waste shall be considered to be an indivisible load.

3. A driver of a vehicle who fails or refuses to stop and submit the vehicle and load to a weighing, or who fails or refuses when directed by an officer upon a weighing of the vehicle to stop the vehicle and otherwise comply with this section, is guilty of a simple misdemeanor.

4. Upon weighing a vehicle and load, as above provided, if such load is a sealed load, the weight officer shall issue a certificate setting forth the weights as determined by the weight officer and the seal number or numbers, if requested by the operator.

321.466 Increased loading capacity — reregistration.

1. The owner of a motor truck, truck tractor, or road tractor, if the owner’s operation has not resulted in a conviction or action pending under this section, may increase the gross weight registration of the vehicle to a higher gross weight registration by payment of one-twelfth of the difference between the annual fee for the higher gross weight and the amount of the fee for the gross weight at which the vehicle is registered, multiplied by the number of unexpired months of the registration year. If the owner’s operation has resulted in a conviction or action pending under this section, any increase in the gross weight registration shall be obtained by payment of the difference between the annual fee for the higher gross weight and the amount of the fee for the gross weight at which the vehicle is registered.

2. Upon conversion of a truck to a truck tractor or a truck tractor to a truck, an increased gross weight registration of the proper type may be obtained for the vehicle by payment, except as provided in section 321.106, of one-twelfth of the difference between the annual fee for the higher gross weight and the amount of the annual fee for the gross weight at which the vehicle is registered, multiplied by the number of unexpired months of the registration year from the date of the conversion.

3. The registered gross weight of a vehicle or combination of vehicles may also be increased by installing and using an auxiliary axle or axles, and the combined registered gross weight of the vehicle and auxiliary axle or axles shall determine the total registered gross weight. An auxiliary axle shall not be used to convert a single axle to a tandem axle unless equipped with a device to equalize the load carried by the single axle and the auxiliary axle when in tandem and when in motion or when standing, and the load transmitted to the highway by either the single axle or the auxiliary axle shall not exceed that permitted for a single axle; nor shall the load transmitted to the highway when in tandem and when in motion or when standing, exceed that permitted for a tandem axle.

4. A person shall not operate a motor truck, trailer, truck tractor, road tractor, semitrailer, or combination thereof, or any such vehicle equipped with a transferable auxiliary axle or axles, on the public highways with a gross weight exceeding the gross weight for which it is registered by more than five percent; provided, however, that any vehicle or vehicle combination referred to in this subsection, while carrying a load of raw farm products, soil fertilizers including ground limestone, raw dairy products, livestock, live poultry, or eggs, or a special truck, while carrying a load of distillers grains, may be operated with a gross weight of twenty-five percent in excess of the gross weight for which it is registered. However, this subsection shall not be construed to allow the operation of a special truck on the public

5. For the purposes of this section cracked or ground soybeans, sorgo, corn, wheat, rye, oats, or other grain shall be deemed to be raw farm products, provided that such products are being directly delivered to a farm, from the place where the whole grain had been delivered from a farm for the purpose of cracking or grinding and immediate delivery to the farm to which such cracked or ground products are being delivered.

6. The truck operator shall have in the truck operator’s possession a receipt showing place of processing on the return trip.

1. a. Local authorities with respect to a highway under their jurisdiction may by ordinance or resolution prohibit the operation of vehicles upon the highway or impose restrictions as to the weight of vehicles to be operated upon the highway for a total period of not to exceed ninety days in any one calendar year, whenever the highway by reason of deterioration, rain, snow, or other climatic conditions will be seriously damaged or destroyed unless the use of vehicles on the highway is prohibited or the permissible weights reduced. The ordinance or resolution shall not apply to implements of husbandry as defined in section 321.1, implements of husbandry loaded on hauling units for transporting the implements to locations for repair, or fire apparatus and road maintenance equipment owned by, under lease to, or used in the performance of a contract with a state or local authority.

b. A person who violates the provisions of the ordinance or resolution shall, upon conviction or a plea of guilty, be subject to a fine determined by dividing the difference between the actual weight and the maximum weight established by the ordinance or resolution by one hundred, and multiplying the quotient by two dollars.

c. Local authorities may issue special permits during periods the restrictions are in effect to permit limited operation of vehicles upon specified routes with loads in excess of any restrictions imposed under this subsection, but not in excess of load restrictions imposed by any other provision of this chapter, and the authorities shall issue the permits upon a showing that there is a need to move to market farm produce of the type subject to rapid spoilage or loss of value or to move to any farm feeds or fuel for home heating purposes.

The limitations shall be effective when signs giving notice of the limitations are erected. The ordinance or resolution shall not apply to implements of husbandry loaded on hauling units for transporting the implements to
locations for purposes of repair or to fire apparatus or road maintenance equipment owned by, under lease to, or used in the performance of a contract with a state or local authority.

b. A person who violates the ordinance or resolution shall, upon conviction or a guilty plea, be subject to a fine determined by dividing the difference between the actual weight of the vehicle and the maximum weight allowed by the ordinance or resolution by one hundred and multiplying the quotient by two dollars.

c. Local authorities may issue or approve special permits allowing the operation over a bridge or culvert of vehicles with weights in excess of restrictions imposed under the ordinance or resolution, but not in excess of load restrictions imposed by any other provision of this chapter. The local authority shall issue such a permit for not to exceed eight weeks upon a showing of agricultural hardship. The operator of a vehicle which is the subject of a permit issued under this paragraph shall carry the permit while operating the vehicle and shall show the permit to any peace officer upon request.

   c. Procedure for home jurisdiction. Upon receipt of a report of a failure to comply, the licensing authority of the home jurisdiction shall notify the motorist and initiate a suspension action, in accordance with the home jurisdiction’s procedures, to suspend the motorist’s driver’s license until satisfactory evidence of compliance with the terms of the traffic citation has been furnished to the home jurisdiction licensing authority. Due process safeguards shall be accorded.

AUTOMATED DRIVING SYSTEMS

321.514 Definitions.
As used in this section and sections 321.515 through 321.519, unless the context otherwise requires:

1. "Automated driving system" means the hardware and software collectively capable of performing the entire dynamic driving task on a sustained basis, regardless of whether the system is limited to a specific operational design domain, if any.

2. "Conventional human driver" means a natural person who manually controls the in-vehicle accelerating, braking, steering, and transmission gear selection input devices in order to operate a motor vehicle.

3. "Driverless-capable vehicle" means a system-equipped vehicle capable of performing the entire dynamic driving task within the automated driving system’s operational design domain, if any, including but not limited to achievement of a minimal risk condition without intervention or supervision by a conventional human driver.

4. "Dynamic driving task" means all real-time operational and tactical functions required to operate a motor vehicle on a highway in traffic within an automated driving system’s specific operational design domain, if any. "Dynamic driving task" does not include any strategic function such as trip scheduling or the selection of destinations and waypoints.

5. "Minimal risk condition" means a reasonably safe state to which an automated driving system brings a system-equipped vehicle upon experiencing a performance-relevant failure of the system that renders the system unable to perform the entire dynamic driving task, including but not limited to removing the vehicle to the nearest shoulder if the vehicle is capable of doing so, bringing the vehicle to a complete stop, and activating the vehicle's emergency signal lamps.

6. "On-demand driverless-capable vehicle network" means a transportation service network that uses a software application or other digital means to dispatch driverless-capable vehicles for the purposes of transporting persons or goods, including transportation for hire as defined in section 325A.1, and public transportation.

7. "Operational design domain" means a set of constraints used to define the domain under which an automated driving system is designed to properly operate, including but not limited to types of highways, speed ranges, environmental conditions such as weather or time of day, and other constraints.

8. "System-equipped vehicle" means a motor vehicle equipped with an automated driving system.

2019 Acts, ch 75, §1
Referred to in §321.519

321.515 Operation.

1. A driverless-capable vehicle may operate on the public highways of this state without a conventional human driver physically present in the vehicle, if the vehicle meets all of the following conditions:
a. The vehicle is capable of achieving a minimal risk condition if a malfunction of the automated driving system occurs that renders the system unable to perform the entire dynamic driving task within the system’s intended operational design domain, if any.

b. While in driverless operation, the vehicle is capable of operating in compliance with the applicable traffic and motor vehicle safety laws and regulations of this state that govern the performance of the dynamic driving task, unless an exemption has been granted to the vehicle by the department.

c. The vehicle has been certified by the vehicle’s manufacturer to be in compliance with all applicable federal motor vehicle safety standards, except to the extent an exemption has been granted for the vehicle under applicable federal law or by the national highway traffic safety administration.

2. a. The operation of a system-equipped vehicle capable of performing the entire dynamic driving task within the automated driving system’s operational design domain on the public highways of this state while a conventional human driver is present in the vehicle shall be lawful. During such operation, the conventional human driver shall possess a valid driver’s license pursuant to section 321.174 and shall be subject to the financial liability coverage requirements and penalties set forth under section 321.20B. The conventional human driver shall operate the system-equipped vehicle according to the manufacturer’s requirements and specifications, and shall regain manual control of the vehicle when prompted by the automated driving system.

b. An automated driving system, while engaged, shall be designed to operate within the system’s operational design domain in compliance with the applicable traffic and motor vehicle safety laws and regulations of this state that govern the performance of the dynamic driving task, unless an exemption has been granted to the vehicle by the department.

3. Except as provided in this section, the motor vehicle laws of this state shall not be construed to require a conventional human driver to operate a driverless-capable vehicle that is being operated by an automated driving system. The automated driving system, while engaged, shall be deemed to fulfill any physical acts required of a conventional human driver to perform the dynamic driving task.

321.516 Insurance.

Before a system-equipped vehicle is allowed to operate on the public highways of this state, the owner shall obtain financial liability coverage for the vehicle. A system-equipped vehicle shall not operate on the highways of this state unless financial liability coverage is in effect for the vehicle and unless proof of financial liability coverage is carried in the vehicle pursuant to section 321.20B.

321.517 Accidents.

In the event of an accident in which a system-equipped vehicle is involved, the vehicle shall remain at the scene of the accident and the operation of the vehicle shall otherwise comply with sections 321.261 through 321.273 where applicable and to the extent possible, and the vehicle’s owner or a person on behalf of the vehicle’s owner shall promptly report the accident to law enforcement authorities. If a system-equipped vehicle fails to remain at the scene of an accident or the operation of the vehicle fails to otherwise comply with sections 321.261 through 321.273 where applicable and to the extent possible as required by this section, the vehicle’s failure shall be imputed to the vehicle’s owner, and the vehicle’s owner may be charged and convicted of a violation of sections 321.261 through 321.273, as applicable.

321.518 On-demand driverless-capable vehicle network.

A person may operate an on-demand driverless-capable vehicle network. An on-demand driverless-capable vehicle network may be used to facilitate the transportation of persons
or goods, including transportation for hire as defined in section 325A.1, and public transportation. An on-demand driverless-capable vehicle network may connect passengers to driverless-capable vehicles either exclusively or as part of a digital network that also connects passengers to conventional human drivers who provide transportation services, consistent with chapter 321N or any other applicable laws, in vehicles that are not driverless-capable vehicles.

Automated driving systems and system-equipped vehicles shall be regulated exclusively by the department. The department may adopt rules pursuant to chapter 17A to administer sections 321.514 through 321.518, and this section.
2. A political subdivision of the state shall not impose requirements, including but not limited to performance standards, specific to the operation of system-equipped vehicles, automated driving systems, or on-demand driverless-capable vehicle networks that are in addition to the requirements set forth under sections 321.514 through 321.518. A political subdivision of the state shall not impose a tax on system-equipped vehicles, automated driving systems, or on-demand driverless-capable vehicle networks where such tax relates specifically to the operation of system-equipped vehicles, automated driving systems, or on-demand driverless-capable vehicle networks.

321.556 Notice and hearing — findings and order.

1. If, upon review of the record of convictions of any person, the department determines that the person appears to be a habitual offender, the department shall immediately notify the person in writing and afford the licensee an opportunity for a hearing. Notwithstanding chapter 17A, the notice shall meet the requirements of section 321.16 and shall be served in the manner provided in that section. Service of notice on any nonresident of this state may be made in the same manner as provided in sections 321.498 through 321.506. A peace officer stopping a person for whom a notice has been issued under this section may personally serve the notice upon forms approved by the department to satisfy the notice requirements of this section. A peace officer may confiscate the driver’s license of a person if the license has been revoked or has been suspended subsequent to a hearing and the person has not forwarded the driver’s license to the department as required.

2. The hearing shall be conducted as provided in section 17A.12 before the department in the county where the alleged events occurred, unless the director and the person agree that the hearing may be held in some other county, or the hearing may be held by telephone conference at the discretion of the agency conducting the hearing. 3. An abstract certified by the director of transportation may be admitted as evidence as provided in section 622.43, at the hearing, and shall be prima facie evidence that the person named in the abstract was duly convicted by the court in which the conviction or holding was made of each offense shown by the abstract. If the person named in the abstract denies conviction of any of the relevant convictions contained in the abstract, the person shall have the burden of proving that the conviction is untrue. For purposes of this subsection, a conviction is relevant if it is for one of the offenses listed in section 321.555.

4. If the department finds that the person is not the same person named in the abstract, or otherwise concludes that the person is not a habitual offender as provided in section 321.555, the department shall issue a decision dismissing the proceedings. If the department’s findings and conclusions are that the person is a habitual offender, the department shall issue an order prohibiting the person from operating a motor vehicle on the highways of this state for the period specified in section 321.560. If a person is found to be a habitual offender, the person shall surrender all licenses or permits to operate a motor vehicle in this state to the department. A person who is found to be a habitual offender may be assessed a fee by the department to cover the costs of the habitual offender proceedings. Fees assessed shall be paid before the person may be issued a license or permit to operate a motor vehicle in this state.

The person shall make a subsequent request for the abstract and pay an additional fee for the request in the same manner as provided for the initial request for any subsequent use, sale, disclosure, or distribution of the same certified abstract or any portion of the abstract or to supply the same certified abstract or any portion of the abstract to another person, except as provided in subparagraph (2).

(2) Notwithstanding the limitation on use, sale, disclosure, and distribution of a certified abstract under subparagraph (1), a person who purchases a certified abstract under this section may provide a copy of the previously purchased certified abstract to the person who is an insurer who was originally supplied the certified abstract by the person who purchased the certified abstract.

b. A person who is supplied a certified abstract or any portion of the abstract by a person who purchases the certified abstract under paragraph “a” shall only use the abstract one time, for one purpose, and shall not reuse, sell, disclose, or distribute the abstract or any portion of the abstract except as provided in paragraph “c”.

c. A person who is an insurer or an insurance producer licensed under chapter 522B who purchases a certified abstract under this section or a person who is supplied a certified abstract or any portion of the abstract pursuant to paragraph “b” may use the certified abstract pursuant to this paragraph “c” for more than one use for the following purposes:

(7) To provide a copy, for the purpose of a specific application for coverage or for a purpose as provided under subparagraphs (1) through (4), to an affiliate of the person who is an insurer who originally purchased or was supplied the certified abstract. An affiliate who receives a copy of a certified abstract pursuant to this subparagraph shall only use the copy of the abstract one time and shall not reuse, sell, disclose, or distribute the copy to any other person, except as provided under subparagraphs (1) through (5) in the same manner as permitted for a person who is an insurer.

d. For purposes of this subsection, “affiliate” means an insurer who directly or indirectly, through one or more intermediaries, controls, is controlled by, or is under common control with the person who is an insurer.

e. A person who purchases a certified abstract directly from the department pursuant to this section shall keep records for a period of five years identifying the persons to whom the abstract is provided and the use of the abstract. Referred to in §321A.2, 321A.8, 321A.9, 321A.10, 321A.11, 321A.33

321A.5 Security required following accident — exceptions.
1. The department shall, immediately or within sixty days after the receipt of a report of a motor vehicle accident within this state which has resulted in bodily injury or death or damage to the property of any one person in the amount of one thousand five hundred dollars or more,
suspend the license of each operator and all registrations of each owner of a motor vehicle in any manner involved in the accident, and if the operator is a nonresident the privilege of operating a motor vehicle within this state, and if the owner is a nonresident the privilege of the use within this state of any motor vehicle owned by the owner, unless the operator or owner or both shall deposit security in a sum which shall be sufficient in the judgment of the department to satisfy any judgment or judgments for damages resulting from the accident as may be recovered against the operator or owner; provided notice of the suspension shall be sent by the department to the operator and owner not less than ten days prior to the effective date of the suspension and shall state the amount required as security.

2. This section shall not apply under the conditions stated in section 321A.6 or to any of the following:
   a. To such operator or owner if such owner had in effect at the time of such accident an automobile liability policy with respect to the motor vehicle involved in such accident;
   b. To such operator, if not the owner of such motor vehicle, if there was in effect at the time of such accident an automobile liability policy or bond with respect to the operator’s operation of motor vehicles not owned by the operator;
   c. To such operator or owner if the liability of such operator or owner for damages resulting from such accident is, in the judgment of the department, covered by any other form of liability insurance policy or bonds;
   d. To such owner if such owner is at the time of such accident qualified as a self-insurer under section 321A.34, or to any such operator operating such motor vehicle for such self-insurer.

3. A policy or bond is not effective under this section unless issued by an insurance company or surety company authorized to do business in this state, except that if the motor vehicle was not registered in this state, or was a motor vehicle which was registered elsewhere than in this state at the effective date of the policy or bond, or the most recent renewal thereof, the policy or bond is not effective under this section unless the insurance company or surety company if not authorized to do business in this state executes a power of attorney authorizing the department to accept service on its behalf of notice or process in any action upon the policy or bond arising out of the accident. However, with respect to accidents occurring on or after January 1, 1981, and before January 1, 1983, every such policy or bond is subject, if the accident has resulted in bodily injury or death, to a limit, exclusive of interest and costs, of not less than fifteen thousand dollars because of bodily injury to or death of one person in any one accident and, subject to the limit for one person, to a limit of not less than thirty thousand dollars because of bodily injury to or death of two or more persons in any one accident, and, if the accident has resulted in injury to or destruction of property, to a limit of not less than ten thousand dollars because of injury to or destruction of property of others in any one accident; and with respect to accidents occurring on or after January 1, 1983, every such policy or bond is subject, if the accident has resulted in bodily injury or death, to a limit, exclusive of interest and costs, of not less than twenty thousand dollars because of bodily injury to or death of one person in any one accident and, subject to the limit for one person, to a limit of not less than forty thousand dollars because of bodily injury to or death of two or more persons in any one accident, and, if the accident has resulted in injury to or destruction of property, to a limit of not less than fifteen thousand dollars because of injury to or destruction of property of others in any one accident.

4. Upon receipt of a report of a motor vehicle accident and information that an automobile liability policy or surety bond meeting the requirements of this chapter was in effect at the time of this accident covering liability for damages resulting from such accident, the department shall forward by regular mail to the insurance carrier or surety carrier which issued such policy or bond a copy of such information concerning insurance or bond coverage, and it shall be presumed that such policy or bond was in effect and provided coverage to both the operator and the owner of the motor vehicle involved in such accident unless the insurance carrier or surety carrier shall notify the department otherwise within fifteen days from the mailing of such information to such carrier; provided, however, that in the event the department shall later ascertain that erroneous information had been given the department in respect to the insurance or bond coverage of the operator or owner of a motor
vehicle involved in such accident, the department shall take such action as the department is otherwise authorized to do under this chapter within sixty days after the receipt by the department of correct information with respect to such coverage.

321A.6 Exceptions to requirement of security.
The requirements as to security and suspension in section 321A.5 shall not apply:

1. To the operator or the owner of a motor vehicle involved in any accident wherein no injury or damage was caused to the person or property of anyone other than such operator or owner.

2. To the operator or the owner of a motor vehicle if at the time of the accident the vehicle was stopped, standing, or parked, whether attended or unattended, except that the requirements of this chapter shall apply in the event the department determines that any such stopping, standing, or parking of the vehicle was illegal or that the vehicle was not equipped with lighted lamps or illuminating devices or flags when and as required by the laws of this state and that any such violation contributed to the accident.

3. To the owner of a motor vehicle if at the time of the accident the vehicle was being operated without the owner’s permission, express or implied, or was parked by a person who had been operating such motor vehicle without such permission.

4. If, prior to the date that the department would otherwise suspend license and registration or nonresident’s operating privilege under section 321A.5, there shall be filed with the department evidence satisfactory to the department that the person who would otherwise have to file security has been released from liability or been finally adjudicated not to be liable or has executed a warrant for confession of judgment, payable when and in such installments as the parties have agreed to, or has executed a duly acknowledged written agreement providing for the payment of an agreed amount in installments, with respect to all claims for injuries or damages resulting from the accident; provided, however, in the event there shall be any default in the payment of any installment under any confession of judgment, then, upon notice of such default, the department shall forthwith suspend the license and registration or nonresident’s operating privilege of such person defaulting which shall not be restored unless and until the entire amount provided for in said confession of judgment has been paid; and provided, further, that in the event there shall be any default in the payment of any installment under any duly acknowledged written agreement, then, upon notice of such default, the department shall forthwith suspend the license and registration or nonresident’s operating privilege of such person defaulting which shall not be restored unless and until:

a. Such person deposits and thereafter maintains security as required under section 321A.5 in such amount as the department may then determine; or

b. Twelve months after such security was required, provided the department has not been notified that an action upon such an agreement has been instituted in a court in this state within one year after such security was required.

If a person’s license and registration or nonresident’s operating privilege has been suspended as provided in section 321A.5, that license and registration or privilege shall remain suspended and shall not be renewed and a new license or registration shall not be issued to that person until one of the following has occurred:
1. The person deposits, or there is deposited on the person’s behalf, the security required under section 321A.5.

2. Twelve months have elapsed after such accident and the department has not been notified by any party to the action or an attorney for any party that an action for damages arising out of such accident has been instituted within one year from the date of the accident.

3. Evidence satisfactory to the department has been filed with the department of a release from liability, or a final adjudication of nonliability, or a warrant for confession of judgment, or a duly acknowledged written agreement, in accordance with section 321A.6, subsection 4. If, however, there is any default in the payment of any installment under any confession of judgment, then, upon notice of such default, the department shall immediately suspend the license and registration or nonresident’s operating privilege of such person defaulting which shall not be restored unless and until the entire amount provided for in said confession of judgment has been paid. In addition, if there is any default in the payment of any installment under any duly acknowledged written agreement, then, upon notice of such default, the department shall immediately suspend the license and registration or nonresident’s operating privilege of that person defaulting and the license and registration or nonresident’s operating privilege shall not be restored unless and until one of the following occurs:
   a. Such person deposits and thereafter maintains security as required under section 321A.5 in such amount as the department may then determine.
   b. Twelve months have elapsed after such security was required and the department has not been notified by any party to the action or an attorney for any party that an action upon such an agreement has been instituted in a court in this state within one year after such security was required.

The person depositing security shall specify in writing the person or persons on whose behalf the deposit is made and, at any time while such deposit is in the custody of the department or state treasurer, the person depositing it may, in writing, amend the specification of the person or persons on whose behalf the deposit is made to include an additional person or persons; provided, however, that a single deposit of security shall be applicable only on behalf of persons required to furnish security because of the same accident.

321A.21 “Motor vehicle liability policy” defined.
1. A “motor vehicle liability policy” as said term is used in this chapter shall mean an owner’s or an operator’s policy of liability insurance, certified as provided in section 321A.19 or section 321A.20 as proof of financial responsibility, and issued, except as otherwise provided in section 321A.20, by an insurance carrier duly authorized to transact business in this state, to or for the benefit of the person named therein as insured.
2. Such owner’s policy of liability insurance:
   a. Shall designate by explicit description or by appropriate reference all motor vehicles with respect to which coverage is thereby to be granted; and
   b. Shall insure the person named in the policy and any other person, as insured, using the motor vehicles with the express or implied permission of the named insured, against loss from the liability imposed by law for damages arising out of the ownership, maintenance, or
use of the motor vehicles within the United States of America or the Dominion of Canada, subject to limits exclusive of interest and costs, with respect to each such motor vehicle, as follows: With respect to all accidents which occur on or after January 1, 1981, and before January 1, 1983, fifteen thousand dollars because of bodily injury to or death of one person in any one accident and, subject to said limit for one person, thirty thousand dollars because of bodily injury to or death of two or more persons in any one accident, and ten thousand dollars because of injury to or destruction of property of others in any one accident; and with respect to all accidents which occur on or after January 1, 1983, twenty thousand dollars because of bodily injury to or death of one person in any one accident and, subject to said limit for one person, forty thousand dollars because of bodily injury to or death of two or more persons in any one accident, and fifteen thousand dollars because of injury to or destruction of property of others in any one accident.

3. Such operator’s policy of liability insurance shall insure the person named as insured therein against loss from the liability imposed upon the person by law for damages arising out of the use by the person of any motor vehicle not owned by the person, within the same territorial limits and subject to the same limits of liability as are set forth above with respect to an owner’s policy of liability insurance.

4. Such motor vehicle liability policy shall state the name and address of the named insured, the coverage afforded by the policy, the premium charged therefor, the policy period, and the limits of liability, and shall contain an agreement or be endorsed that insurance is provided thereunder in accordance with the coverage defined in this chapter as respects bodily injury and death or property damage, or both, and is subject to all the provisions of this chapter.

5. Such motor vehicle liability policy need not insure any liability under any workers’ compensation law nor any liability on account of bodily injury to or death of an employee of the insured while engaged in the employment, other than domestic, of the insured, or while engaged in the operation, maintenance, or repair of any such motor vehicle nor any liability for damage to property owned by, rented to, in charge of, or transported by the insured.

6. Every motor vehicle liability policy shall be subject to the following provisions which need not be contained therein:

a. The liability of the insurance carrier with respect to the insurance required by this chapter shall become absolute whenever injury or damage covered by said motor vehicle liability policy occurs; said policy may not be canceled or annulled as to such liability by any agreement between the insurance carrier and the insured after the occurrence of the injury or damage; no statement made by the insured or on the insured’s behalf and no violation of said policy shall defeat or void said policy.

b. The satisfaction by the insured of a judgment for such injury or damage shall not be a condition precedent to the right or duty of the insurance carrier to make payment on account of such injury or damage.

c. The insurance carrier shall have the right to settle any claim covered by the policy, and if such settlement is made in good faith, the amount thereof shall be deductible from the limits of liability specified in paragraph “b” of subsection 2 of this section.

d. The policy, the written application therefor, if any, and any rider or endorsement which does not conflict with the provisions of the chapter shall constitute the entire contract between the parties.

7. Any policy which grants the coverage required for a motor vehicle liability policy may also grant any lawful coverage in excess of or in addition to the coverage specified for a motor vehicle liability policy and such excess or additional coverage shall not be subject to the provisions of this chapter. With respect to a policy which grants such excess or additional coverage the term “motor vehicle liability policy” shall apply only to that part of the coverage which is required by this section.

8. Any motor vehicle liability policy may provide that the insured shall reimburse the insurance carrier for any payment the insurance carrier would not have been obligated to make under the terms of the policy except for the provisions of this chapter.

9. Any motor vehicle liability policy may provide for the prorating of the insurance thereunder with other valid and collectible insurance.
10. The requirements for a motor vehicle liability policy may be fulfilled by the policies of one or more insurance carriers which policies together meet such requirements.

11. Any binder issued pending the issuance of a motor vehicle liability policy shall be deemed to fulfill the requirements for such a policy.

§321A.24 Bond as proof.
1. a. Proof of financial responsibility may be evidenced by the bond of a surety company duly authorized to transact business within this state, or a bond with at least two individual sureties each owning real estate within this state, and together having equities equal in value to at least twice the amount of the bond, which real estate shall be scheduled in the bond approved by a judge or clerk of the district court, and which bond shall be conditioned for payment of the amounts specified in section 321A.1, subsection 11.

b. The bond shall be filed with the department and is not cancelable except after ten days’ written notice to the department. The director shall issue to the person filing the bond a bond insurance card for each motor vehicle registered by the person in the state. The bond insurance card shall state the name and address of the person and the motor vehicle registration number of the vehicle for which the card is issued.

c. The bond constitutes a lien in favor of the state upon the real estate so scheduled of any surety, which lien exists in favor of any holder of a final judgment against the person who has filed the bond, for damages, including damages for care and loss of services, because of bodily injury to or death of any person, or for damage because of injury to or destruction of property, including the loss of use of the property, resulting from the ownership, maintenance, use, or operation of a motor vehicle after the bond was filed, upon the filing of notice to that effect by the department in the office of the proper clerk of the district court of the county where the real estate is located. An individual surety scheduling real estate security shall furnish satisfactory evidence of title to the property and the nature and extent of all encumbrances on the property and the value of the surety’s interest in the property, in the manner the judge or clerk of the district court approving the bond requires. The notice filed by the department shall contain, in addition to any other matters deemed by the department to be pertinent, a legal description of the real estate scheduled, the name of the holder of the record title, the amount for which it stands as security, and the name of the person in whose behalf proof is so being made. Upon the filing of the notice the clerk of the district court shall retain the notice as part of the records of the court and enter upon the encumbrance book the date and hour
of filing, the name of the surety, the name of the record titleholder, the description of the real estate, and the further notation that a lien is charged on the real estate pursuant to the filed notice. From and after the entry of the notice upon the encumbrance book all persons are charged with notice of it.

d. If the bond is canceled, the person who filed the bond shall surrender to the director all bond insurance cards issued to the person.

2. If such a judgment, rendered against the principal on such bond shall not be satisfied within sixty days after it has become final, the judgment creditor may, for the judgment creditor’s own use and benefit and at the judgment creditor’s sole expense, bring an action or actions in the name of the state against the company or persons executing such bond, including an action or proceeding to foreclose any lien that may exist upon the real estate of a person who has executed such bond. An action to foreclose any lien upon real estate scheduled by any surety under the provisions of this chapter shall be by equitable proceeding in the same manner as is provided for the foreclosure of real estate mortgages.

321A.25 Certificate of deposit as proof.
1. Proof of financial responsibility may be evidenced by filing with the department fifty-five thousand dollars in the form of a certificate of deposit made payable to the department. The certificate of deposit shall be obtained from an Iowa financial institution in the amount of fifty-five thousand dollars plus any early withdrawal penalty fee. Upon receipt of the certificate of deposit, the department shall issue to the person a security insurance card for each motor vehicle registered in this state by the person. The security insurance card shall state the name and address of the person and the registration number of the motor vehicle for which the card is issued. The department shall not accept a certificate of deposit unless accompanied by evidence that there are no unsatisfied judgments of any character against the person in the county where the person resides.

2. Such certificate of deposit shall be held by the department to satisfy, in accordance with this chapter, any execution on a judgment issued against the person filing the certificate of deposit, for damages, including damages for care and loss of services, because of bodily injury to or death of any person, or for damages because of injury to or destruction of property, including the loss of use of property, resulting from the ownership, maintenance, use, or operation of a motor vehicle after the certificate of deposit was filed. A certificate of deposit so filed shall not be subject to attachment or execution unless the attachment or execution arises out of a suit for damages as previously provided in this subsection.

321A.26 Owner may give proof for others.
Whenever any person required to give proof of financial responsibility under this chapter is or later becomes an operator in the employ of any owner, or is or later becomes a member of the immediate family or household of the owner, the department shall accept proof given by such owner in lieu of proof by such other person to permit such other person to operate a motor vehicle for which the owner has given proof as provided in this subchapter or has qualified as a self-insurer under section 321A.34. 321A.29 Duration of proof — when proof may be canceled or returned.
1. The department shall upon request consent to the immediate cancellation of a bond or certificate of insurance, or the department shall return to the person entitled thereto a certificate of deposit filed pursuant to this chapter as proof of financial responsibility, or the department shall waive the requirement of filing proof, in any of the following events:
   a. At any time after two years from the date such proof was required when, during the two-year period preceding the request, the department has not received record of a conviction or a forfeiture of bail which would require or permit the suspension or revocation of the license, registration, or nonresident’s operating privilege of the person by or for whom such proof was furnished.
   b. In the event of the death of the person on whose behalf such proof was filed or the permanent incapacity of such person to operate a motor vehicle.
   c. In the event the person who has given proof surrenders the person's license and registration to the department.

2. The department shall not consent to the cancellation of a bond or return a certificate of deposit in the event an action for damages upon a liability covered by such proof is then pending or a judgment upon any such liability is unsatisfied, or in the event the person who has filed such bond or such certificate of deposit has within one year immediately preceding such request been involved as an operator or owner in any motor vehicle accident resulting in injury or damage to the person or property of others. An affidavit of the applicant as to the nonexistence of such facts, or that the applicant has been released from all of the applicant’s liability, or has been finally adjudicated not to be liable, for such injury or damage, shall be sufficient evidence thereof in the absence of evidence to the contrary in the records of the department.

3. If a person whose proof has been canceled or returned under subsection 1, paragraph “c”, applies for a license or registration within a period of two years from the date proof was originally required, such application shall be refused unless the applicant reestablishes proof for the remainder of the two-year period.

CHAPTER 321C
INTERSTATE DRIVERS LICENSE COMPACTS
Referred to in §307.27, 321.1, 321.555

321C.1 Power to enter into compact — terms.

321C.2 Enforcement.

321C.1 Power to enter into compact — terms.

The director of transportation may enter into drivers license compacts with other jurisdictions in substantially the following form and the contracting states agree:

1. Article I — Findings and declaration of policy.
   a. The party states find that:
      (1) The safety of their streets and highways is materially affected by the degree of compliance with state laws and local ordinances relating to the operation of motor vehicles.
      (2) Violation of such a law or ordinance is evidence that the violator engages in conduct which is likely to endanger the safety of persons and property.
      (3) The continuance in force of a license to drive is predicated upon compliance with laws and ordinances relating to the operation of motor vehicles, in whichever jurisdiction the vehicle is operated.
   b. It is the policy of each of the party states to:
      (1) Promote compliance with the laws, ordinances, and administrative rules and regulations relating to the operation of motor vehicles by their operators in each of the jurisdictions where such operators drive motor vehicles.
      (2) Make the reciprocal recognition of licenses to drive and eligibility therefor more just and equitable by considering the overall compliance with motor vehicle laws, ordinances and administrative rules and regulations as a condition precedent to the continuance or issuance
of any license by reason of which the licensee is authorized or permitted to operate a motor vehicle in any of the party states.

2. Article II — Definitions. As used in this compact:
   a. “State” means a state, territory or possession of the United States, the District of Columbia, or the Commonwealth of Puerto Rico.
   b. “Home state” means the state which has issued and has the power to suspend or revoke the use of the license or permit to operate a motor vehicle.
   c. “Conviction” means a conviction of any offense related to the use or operation of a motor vehicle which is prohibited by state law, municipal ordinance or administrative rule or regulation, or a forfeiture of bail, bond or other security deposited to secure appearance by a person charged with having committed any such offense, and which conviction or forfeiture is required to be reported to the licensing authority.

3. Article III — Reports of conviction. The licensing authority of a party state shall report each conviction of a person from another party state occurring within its jurisdiction to the licensing authority of the home state of the licensee. Such report shall clearly identify the person convicted; describe the violation specifying the section of the statute, code or ordinance violated; identify the court in which action was taken; indicate whether a plea of guilty or not guilty was entered, or the conviction was a result of the forfeiture of bail, bond or other security; and shall include any special findings made in connection therewith.

4. Article IV — Effect of conviction.
   a. The licensing authority in the home state, for the purposes of suspension, revocation or limitation of the license to operate a motor vehicle, shall give the same effect to the conduct reported, pursuant to article III of this compact, as it would if such conduct had occurred in the home state, in the case of convictions for:
      (1) Manslaughter or negligent homicide resulting from the operation of a motor vehicle.
      (2) Driving a motor vehicle while under the influence of intoxicating liquor or a narcotic drug, or under the influence of any other drug to a degree which renders the driver incapable of safely driving a motor vehicle.
      (3) Any felony in the commission of which a motor vehicle is used.
      (4) Failure to stop and render aid in the event of a motor vehicle accident resulting in the death or personal injury of another.
   b. As to other convictions, reported pursuant to article III, the licensing authority in the home state shall give such effect to the conduct as is provided by the laws of the home state.
   c. If the laws of a party state do not provide for offenses or violations denominated or described in precisely the words employed in paragraph “a” of this article, such party state shall construe the denominations and descriptions appearing in paragraph “a” hereof as being applicable to and identifying those offenses or violations of a substantially similar nature, and the laws of such party state shall contain such provisions as may be necessary to ensure that full force and effect is given to this article.

5. Article V — Applications for new licenses. Upon application for a license to drive, the licensing authority in a party state shall ascertain whether the applicant has ever held, or is the holder of a license to drive issued by any other party state. The licensing authority in the state where application is made shall not issue a license to drive to the applicant if:
   a. The applicant has held such a license, but the same has been suspended by reason, in whole or in part, of a violation and if such suspension period has not terminated.
   b. The applicant has held such a license, but the same has been revoked by reason, in whole or in part, of a violation and if such revocation has not terminated, except that after the expiration of one year from the date the license was revoked, such person may make application for a new license if permitted by law. The licensing authority may refuse to issue a license to any such applicant if, after investigation, the licensing authority determines that it will not be safe to grant to such person the privilege of driving a motor vehicle on the public highways.
   c. The applicant is the holder of a license to drive issued by another party state and currently in force unless the applicant surrenders such license.

6. Article VI — Applicability of other laws.Except as expressly required by provisions of this compact, nothing contained herein shall be construed to affect the right of any party

CHAPTER 321D
VEHICLE EQUIPMENT COMPACTS

Referred to in §307.27

321D.1 Power to enter into compact — terms.

321D.2 Enforcement.

The director of transportation may enter into vehicle equipment safety compacts with other jurisdictions in substantially the following form and the contracting states agree:

1. Article I — Findings and purposes.
   a. The party states find that:
      (1) Accidents and deaths on their streets and highways present a very serious human and economic problem with a major deleterious effect on the public welfare.
      (2) There is a vital need for the development of greater interjurisdictional cooperation to achieve the necessary uniformity in the laws, rules, regulations and codes relating to vehicle equipment, and to accomplish this by such means as will minimize the time between the development of demonstrably and scientifically sound safety features and their incorporation into vehicles.
   b. The purposes of this compact are to:
      (1) Promote uniformity in regulation of and standards for equipment.
      (2) Secure uniformity of law and administrative practice in vehicular regulation and
related safety standards to permit incorporation of desirable equipment changes in vehicles in the interest of greater traffic safety.

3. To provide means for the encouragement and utilization of research which will facilitate the achievement of the foregoing purposes, with due regard for the findings set forth in paragraph “a” of this article.

c. It is the intent of this compact to emphasize performance requirements and not to determine the specific detail of engineering in the manufacture of vehicles or equipment except to the extent necessary for the meeting of such performance requirements.

2. Article II — Definitions. As used in this compact:

a. “Vehicle” means every device in, upon or by which any person or property is or may be transported or drawn upon a highway, excepting devices moved by human power or used exclusively upon stationary rails or tracks.

b. “State” means a state, territory or possession of the United States, the District of Columbia, or the Commonwealth of Puerto Rico.

c. “Equipment” means any part of a vehicle or any accessory for use thereon which affects the safety of operation of such vehicle or the safety of the occupants.

3. Article III — The commission.

a. There is hereby created an agency of the party states to be known as the “Vehicle Equipment Safety Commission” hereinafter called the commission. The commission shall be composed of one commissioner from each party state who shall be appointed, serve and be subject to removal in accordance with the laws of the state which the commissioner represents. If authorized by the laws of the commissioner’s party state, a commissioner may provide for the discharge of the commissioner’s duties and the performance of the commissioner’s functions on the commission, either for the duration of the commissioner’s membership or for any lesser period of time, by an alternate. No such alternate shall be entitled to serve unless notification of the alternate’s identity and appointment shall have been given to the commission in such form as the commission may require. Each commissioner, and each alternate, when serving in the place and stead of a commissioner, shall be entitled to be reimbursed by the commission for expenses actually incurred in attending commission meetings or while engaged in the business of the commission.

b. The commissioners shall be entitled to one vote each on the commission. No action of the commission shall be binding unless taken at a meeting at which a majority of the total number of votes on the commission are cast in favor thereof. Action of the commission shall be only at a meeting at which a majority of the commissioners, or their alternates, are present.

c. The commission shall have a seal.

d. The commission shall elect annually, from among its members, a chairperson, a vice chairperson and a treasurer. The commission may appoint an executive director and fix the executive director’s duties and compensation. Such executive director shall serve at the pleasure of the commission, and together with the treasurer shall be bonded in such amount as the commission shall determine. The executive director also shall serve as secretary. If there be no executive director, the commission shall elect a secretary in addition to the other officers provided by this paragraph.

e. Irrespective of the civil service, personnel or other merit system laws of any of the party states, the executive director with the approval of the commission, or the commission if there be no executive director, shall appoint, remove or discharge such personnel as may be necessary for the performance of the commission’s functions, and shall fix the duties and compensation of such personnel.

f. The commission may establish and maintain independently or in conjunction with any one or more of the party states, a suitable retirement system for its full-time employees. Employees of the commission shall be eligible for social security coverage in respect of old-age and survivor’s insurance provided that the commission takes such steps as may be necessary pursuant to the laws of the United States, to participate in such program of insurance as a governmental agency or unit. The commission may establish and maintain or participate in such additional programs of employee benefits as may be appropriate.

g. The commission may borrow, accept or contract for the services of personnel from
any party state, the United States, or any subdivision or agency of the aforementioned
governments, or from any agency of two or more of the party states or their subdivisions.

h. The commission may accept for any of its purposes and functions under this compact
any and all donations, and grants of money, equipment, supplies, materials, and services,
conditional or otherwise, from any state, the United States, or any other governmental agency
and may receive, utilize and dispose of the same.

i. The commission may establish and maintain such facilities as may be necessary for the
transacting of its business. The commission may acquire, hold, and convey real and personal
property and any interest therein.

j. The commission shall adopt bylaws for the conduct of its business and shall have
the power to amend and rescind these bylaws. The commission shall publish its bylaws in
convenient form and shall file a copy thereof and a copy of any amendment thereto, with
the appropriate agency or officer in each of the party states. The bylaws shall provide for
appropriate notice to the commissioners of all commission meetings and hearings and the
business to be transacted at such meetings or hearings. Such notice shall also be given to
such agencies or officers of each party state as the laws of such party state may provide.

k. The commission annually shall make to the governor and legislature of each party state
a report covering the activities of the commission for the preceding year, and embodying such
recommendations as may have been issued by the commission. The commission may make
such additional reports as it may deem desirable.

4. Article IV — Research and testing. The commission shall have power to:

a. Collect, correlate, analyze and evaluate information resulting or derivable from
research and testing activities in equipment and related fields.

b. Recommend and encourage the undertaking of research and testing in any aspect of
equipment or related matters when, in its judgment, appropriate or sufficient research
and testing has not been undertaken.

c. Contract for such equipment research and testing as one or more governmental
agencies may agree to have contracted for by the commission, provided that such
governmental agency or agencies shall make available the funds necessary for such research
and testing.

d. Recommend to the party states changes in law or policy with emphasis on uniformity
of laws and administrative rules, regulations or codes which would promote effective
governmental action or coordination in the prevention of equipment-related highway
accidents or the mitigation of equipment-related highway safety problems.

5. Article V — Vehicular equipment.

a. In the interest of vehicular and public safety, the commission may study the need for or
desirability of the establishment of or changes in performance requirements or restrictions
for any item of equipment. As a result of such study, the commission may publish a report
relating to any item or items of equipment, and the issuance of such a report shall be a
condition precedent to any proceedings or other action provided or authorized by this article.
No less than sixty days after the publication of a report containing the results of such study,
the commission upon due notice shall hold a hearing or hearings at such place or places as
it may determine.

b. Following the hearing or hearings provided for in paragraph "a" of this article, and
with due regard for standards recommended by appropriate professional and technical
associations and agencies, the commission may issue rules, regulations or codes embodying
performance requirements or restrictions for any item or items of equipment covered in the
report, which in the opinion of the commission will be fair and equitable and effectuate the
purposes of this compact.

c. Each party state obligates itself to give due consideration to any and all rules,
regulations and codes issued by the commission and hereby declares its policy and intent to
be the promotion of uniformity in the laws of the several party states relating to equipment.

d. The commission shall send prompt notice of its action in issuing any rule, regulation
or code pursuant to this article to the appropriate motor vehicle agency of each party state
and such notice shall contain the complete text of the rule, regulation or code.

e. If the constitution of a party state requires, or if its statutes provide, the approval of the
legislature by appropriate resolution or act may be made a condition precedent to the taking effect in such party state of any rule, regulation or code. In such event, the commissioner of such party state shall submit any commission rule, regulation or code to the legislature as promptly as may be in lieu of administrative acceptance or rejection thereof by the party state.

f. Except as otherwise specifically provided in or pursuant to paragraphs “e” and “g” of this article, the appropriate motor vehicle agency of a party state shall in accordance with its constitution or procedural laws adopt the rule, regulation or code within six months of the sending of the notice, and, upon such adoption, the rule, regulation or code shall have the force and effect of law therein.

g. The appropriate motor vehicle agency of a party state may decline to adopt a rule, regulation or code issued by the commission pursuant to this article if such agency specifically finds, after public hearing on due notice, that a variation from the commission’s rule, regulation or code is necessary to the public safety, and incorporates in such finding the reasons upon which it is based. Any such finding shall be subject to review by such procedure for review of administrative determinations as may be applicable pursuant to the laws of the party state. Upon request, the commission shall be furnished with a copy of the transcript of any hearings held pursuant to this paragraph.

6. Article VI — Finance.

a. The commission shall submit to the executive head or designated officer or officers of each party state a budget of its estimated expenditures for such period as may be required by the laws of that party state for presentation to the legislature thereof.

b. Each of the commission’s budgets of estimated expenditures shall contain specific recommendations of the amount or amounts to be appropriated by each of the party states. The total amount of appropriations under any such budget shall be apportioned among the party states as follows: One-third in equal shares; and the remainder in proportion to the number of motor vehicles registered in each party state. In determining the number of such registrations, the commission may employ such source or sources of information as in its judgment present the most equitable and accurate comparisons among the party states. Each of the commission’s budgets of estimated expenditures and requests for appropriations shall indicate the source or sources used in obtaining information concerning vehicular registrations.

c. The commission shall not pledge the credit of any party state. The commission may meet any of its obligations in whole or in part with funds available to it under article III, paragraph “h” of this compact, provided that the commission takes specific action setting aside such funds prior to incurring any obligation to be met in whole or in part in such manner. Except where the commission makes use of funds available to it under article III, paragraph “h” hereof, the commission shall not incur any obligation prior to the allotment of funds by the party states adequate to meet the same.

d. The commission shall keep accurate accounts of all receipts and disbursements. The receipts and disbursements of the commission shall be subject to the audit and accounting procedures established under its rules. However, all receipts and disbursements of funds handled by the commission shall be audited yearly by a qualified public accountant and the report of the audit shall be included in and become part of the annual reports of the commission.

e. The accounts of the commission shall be open at any reasonable time for inspection by duly constituted officers of the party states and by any persons authorized by the commission.

f. Nothing contained herein shall be construed to prevent commission compliance with laws relating to audit or inspection of accounts by or on behalf of any government contributing to the support of the commission.

7. Article VII — Conflict of interest.

a. The commission shall adopt rules and regulations with respect to conflict of interest for the commissioners of the party states, and their alternates, if any, and for the staff of the commission and contractors with the commission to the end that no member or employee or contractor shall have a pecuniary or other incompatible interest in the manufacture, sale or distribution of motor vehicles or vehicular equipment or in any facility or enterprise...
employed by the commission or on its behalf for testing, conduct of investigations or research. In addition to any penalty for violation of such rules and regulations as may be applicable under the laws of the violator’s jurisdiction of residence, employment or business, any violation of a commission rule or regulation adopted pursuant to this article shall require the immediate discharge of any violating employee and the immediate vacating of membership, or relinquishing of status as a member on the commission by any commissioner or alternate. In the case of a contractor, any violation of any such rule or regulation shall make any contract of the violator with the commission subject to cancellation by the commission.

b. Nothing contained in this article shall be deemed to prevent a contractor for the commission from using any facilities subject to the contractor’s control in the performance of the contract even though such facilities are not devoted solely to work of or done on behalf of the commission; nor to prevent such a contractor from receiving remuneration or profit from the use of such facilities.

8. Article VIII—Advisory and technical committees. The commission may establish such advisory and technical committees as it may deem necessary, membership on which may include private citizens and public officials, and may cooperate with and use the services of any such committees and the organizations which the members represent in furthering any of its activities.

9. Article IX—Entry into force and withdrawal.

a. This compact shall enter into force when enacted into law by any six or more states. Thereafter, this compact shall become effective as to any other state upon its enactment thereof.

b. Any party state may withdraw from this compact by enacting a statute repealing the same, but no such withdrawal shall take effect until one year after the executive head of the withdrawing state has given notice in writing of the withdrawal to the executive heads of all other party states. No withdrawal shall affect any liability already incurred by or chargeable to a party state prior to the time of such withdrawal.

321D.2 Enforcement.
The agencies and officers of this state and its subdivisions and municipalities shall enforce this compact and do all things appropriate to effect its purpose and intent which may be within their respective jurisdictions.

321E.2 Permits by department and local authorities.
1. The department and local authorities may in their discretion and upon application and with good cause shown issue permits for the movement of special mobile equipment being temporarily moved on streets, roads, or highways and for vehicles with indivisible loads which exceed the maximum dimensions and weights specified in sections 321.452 through 321.466, but not to exceed the limitations imposed in this section and sections 321E.3 through 321E.15 except as provided in section 321E.29.

2. Vehicles permitted to transport indivisible loads may do any of the following:
   a. Exceed the width and length limitations specified in sections 321.454 and 321.457 for the purpose of picking up an indivisible load or returning from delivery of the indivisible load. Vehicles with retractable body extensions used to support cargo must be reduced to legal dimensions unless the vehicle is loaded and the extension is in use.
   b. Move indivisible special mobile equipment which does not otherwise exceed the maximum dimensions and weights specified in sections 321.452 through 321.466 if the vehicle has an overall width not to exceed nine feet and all other conditions of the vehicle’s permit are met.

3. A permit issued under this chapter shall be in writing or in an electronic format and shall be carried in the cab of the vehicle for which the permit has been issued. Permits issued under this chapter and the vehicle for which the permit has been issued shall be open to inspection at all times by any peace officer or an authorized agent of any permit-issuing authority.

4. When in the judgment of the permit-issuing authority the movement of a vehicle with an indivisible load or special mobile equipment which exceeds the maximum dimensions and weights will be unduly hazardous to public safety or will cause undue damage to infrastructure or other public or private property, the permit shall be denied and the reasons for denial endorsed on the application. Permits shall designate the days when and routes upon which loads and special mobile equipment may be moved within a county on other than primary roads.

5. A permit-issuing authority may allow persons requesting permits under this chapter to do so in person, through the internet, by facsimile machine, or by telephone, authorizing payment for the permits to be made upon receipt of an invoice sent to the persons by the permit-issuing authority.

321E.3 Permit-issuing authorities.

1. Permits issued under this chapter shall be issued by the authority responsible for the maintenance of the system of highways or streets. However, the department may issue permits on primary road extensions in cities in conjunction with movements on the rural primary road system. The department may issue an all-systems permit under section 321E.8 which is valid for movements on all highways or streets under the jurisdiction of either the state or those local authorities that have indicated to the department in writing, including by means of electronic communication, those streets or highways for which an all-systems permit is not valid.

2. At the request of a local authority, the department shall issue permits under this chapter for highways or streets that are under the jurisdiction of the local authority if the local authority has indicated to the department in writing, including by means of electronic communication, those streets or highways for which a permit is not valid.

3. Notwithstanding any other provision of this chapter to the contrary, the department shall develop and implement a single statewide system to receive applications for and issue permits authorized under this chapter that allow for the operation of vehicles of excessive size or weight on highways or streets under the jurisdiction of the state or local authorities. The department is authorized to determine, in consultation with the applicable local authorities, the network of highways and streets under the jurisdiction of local authorities, including the appropriate routes, on which vehicles issued permits under the system are authorized to operate. Permits issued under the system shall be issued by the department for a fee established by the department by rule, which fees shall be proportionate to the fees set forth in section 321E.14. The department shall allocate a portion of the fees collected under this subsection to local authorities having jurisdiction over highways or streets on which vehicles issued permits under the system are authorized to operate.

321E.4 through 321E.6 Reserved.

321E.7 Load limits per axle.

1. The gross weight on any axle of any vehicle or combination of vehicles traveling under a permit issued in accordance with this chapter shall not exceed the maximum axle load prescribed in section 321.463, except for the following:

   (3) A manufacturer of machinery or equipment manufactured or assembled in Iowa...
may be granted a permit for the movement of such machinery or equipment mounted on
pneumatic tires with axle loads exceeding the maximum axle load prescribed in section
321.463 for distances not to exceed twenty-five miles at a speed not greater than twenty
miles per hour. The movement of such machinery or equipment shall be over a specified
route between the place of assembly or manufacture and a storage area, shipping point,
proving ground, experimental area, weighing station, or another manufacturing plant.

tandem axle of the truck tractor and a gross weight not to exceed forty-six thousand pounds
on a single tandem axle of the trailer or semitrailer if each axle of each tandem group has at
least four tires.

   2. The gross weight on any one axle of any vehicle or combination of vehicles traveling
under a permit issued in accordance with this chapter shall not exceed the maximum axle
load prescribed in section 321.463; except that any one axle on a vehicle or combination of
vehicles transporting special mobile equipment shall be allowed a one thousand pound weight
tolerance, provided the total gross weight of the vehicle or combination of vehicles does not
exceed the gross weight allowed by the permit.

   3. Special mobile equipment, as defined in section 321.1, subsection 74, is not subject
to the requirements for distance in feet between the extremes of any group of axles or the
extreme axles of the vehicle or combination of vehicles as required by this chapter when
being moved upon the highways if the operator has a permit issued under this chapter.

The permit-issuing authority shall make the final determination regarding the issuance of a permit and the suitability of the intended route based upon known roadway clearances and capacities. Permits shall be authorized only when the movement will not cause undue stress or damage to highway pavement, bridges, or other highway infrastructure. In addition to the dimension and weight limitations of an intended route, a permit-issuing authority shall consider the interests of public safety and, at the discretion of the permit-issuing authority, may deny the issuance of a permit when the intended movement of any vehicle or load poses a potential risk to the public.

2. Vehicles with indivisible loads may be moved in special or emergency situations, provided the permit-issuing authority has reviewed the route and has approved the movement of the vehicle and load. The permit-issuing authority may impose any special restrictions on movements as deemed necessary or exempt movements from the restrictions of section 321E.11 by permit under this subsection.

1. A manufacturer, distributor, or dealer owning a snowmobile required to be registered under this chapter may operate the snowmobile for purposes of transporting, testing, demonstrating, or selling it without the snowmobile being registered, except that a special registration decal issued to the owner as provided in this chapter shall be displayed on the snowmobile in the manner prescribed by rules of the commission. The special registration decal shall not be used on a snowmobile offered for hire or for any work or service performed by a manufacturer, distributor, or dealer.

If the registration has expired while in the dealer’s possession, the purchaser may renew the registration for the same fee and writing fee as if the purchaser is securing the original registration.

8. Nothing in this section shall prohibit a dealer from obtaining a new registration and transfer of registration in the same manner as other purchasers.
9. The commission may adopt rules consistent with this chapter establishing minimum requirements for dealers. In adopting such rules, the commission shall consider the need to protect persons, property, and the environment and to promote uniformity of practices relating to the sale and use of snowmobiles. The application shall include a certification signed in writing containing substantially the representation that statements made are true and correct to the best of the applicant’s knowledge, information, and belief, under penalty of perjury. The application shall contain the date of sale and gross price of the snowmobile or the fair market value if no sale immediately preceded the transfer and any additional information the department requires. If the application is made for a snowmobile last previously registered or titled in another state or foreign country, the application shall contain this information and any other information the department requires.

4. If a dealer buys or acquires a snowmobile for resale, the dealer may apply for and obtain a certificate of title as provided in this chapter. If a dealer buys or acquires a used snowmobile, the dealer may apply for a certificate of title in the dealer’s name within thirty days. If a dealer buys or acquires a new snowmobile for resale, the dealer may apply for a certificate of title in the dealer’s name.

5. A manufacturer or dealer shall not transfer ownership of a new snowmobile without supplying the transferee with the manufacturer’s or importer’s certificate of origin signed by the manufacturer’s or importer’s authorized agent. The certificate shall contain information the department requires. The department may adopt rules providing for the issuance of a certificate of origin for a snowmobile by the department upon good cause shown by the owner.

7. The county recorder shall maintain an electronic record of any certificate of title which the county recorder issues until the certificate of title has been inactive for five years. When issuing a title for a new snowmobile, the county recorder shall obtain and keep the certificate of origin on file. When issuing a title and registration for a used snowmobile for which there is no title or registration, the county recorder shall obtain and keep on file the affidavit for the unregistered and untitled snowmobile.

8. Once titled, a person shall not sell or transfer ownership of a snowmobile without delivering to the purchaser or transferee a certificate of title with an assignment on it showing title in the purchaser’s or transferee’s name. A person shall not purchase or otherwise acquire a snowmobile without obtaining a certificate of title for it in that person’s name.

9. If the county recorder is not satisfied as to the ownership of the snowmobile or that there are no undisclosed security interests in the snowmobile, the county recorder may issue a certificate of title for the snowmobile but, as a condition of such issuance, may require the applicant to file with the department a bond in the form prescribed by the department and executed by the applicant, and also executed by a person authorized to conduct a surety business in this state. The form and amount of the bond shall be established by rule of the department. The bond shall be conditioned to indemnify any prior owner and secured party and any subsequent purchaser of the snowmobile or person acquiring any security interest in the snowmobile, and their respective successors in interest, against any expense, loss, or damage, including reasonable attorney fees, by reason of the issuance of the certificate of title of the snowmobile on account of any defect in or undisclosed security interest upon the right, title, and interest of the applicant in and to the snowmobile. Any such interested person has a right of action to recover on the bond for any breach of its conditions, but the aggregate liability of the surety to all persons shall not exceed the amount of the bond. The bond shall be returned at the end of three years or prior thereto if the snowmobile is no longer registered in this state and the certificate of title is surrendered to the department, unless the department has been notified of the pendency of an action to recover on the bond.

321G.30 Fees — duplicates.
   1. The county recorder shall charge a ten dollar fee to issue a certificate of title, a transfer of title, a duplicate, or a corrected certificate of title.
   2. If a certificate of title is lost, stolen, mutilated, destroyed, or becomes illegible, the first lienholder or, if there is none, the owner named in the certificate, as shown by the county recorder’s records, shall within thirty days obtain a duplicate by applying to the county recorder. The applicant shall furnish information the department requires concerning the original certificate and the circumstances of its loss, mutilation, or destruction.
   3. The duplicate certificate of title shall be marked plainly “duplicate” across its face and mailed or delivered to the applicant.
   4. If a lost or stolen original certificate of title for which a duplicate has been issued is recovered, the original shall be surrendered promptly to the county recorder for cancellation.
   5. Five dollars of the certificate of title fees collected under this section shall be remitted by the county recorder to the treasurer of state for deposit in the special snowmobile fund created under section 321G.7. The remaining five dollars shall be retained by the county and deposited into the general fund of the county.

321G.31 Transfer or repossession by operation of law.
   1. If ownership of a snowmobile is transferred by operation of law, such as by inheritance, order in bankruptcy, insolvency, replevin, or execution sale, the transferee, within thirty days after acquiring the right to possession of the snowmobile, shall mail or deliver to the county recorder of the transferee’s county of residence satisfactory proof of ownership as the county recorder requires, together with an application for a new certificate of title, and the required fee.
   2. If a lienholder repossesses a snowmobile by operation of law and holds it for resale, the lienholder shall secure a new certificate of title and shall pay the required fee.

321G.32 Security interest — perfection and titles — fee.
   1. A security interest created in this state in a snowmobile is not perfected until the security interest is noted on the certificate of title.
   a. To perfect the security interest, an application for security interest must be presented along with the original title. The county recorder shall note the security interest on the face of the title and in the electronic record maintained by the recorder’s office.
   b. The application fee for a security interest is ten dollars. Five dollars of the fee shall be credited to the special snowmobile fund created under section 321G.7. The remaining five dollars shall be retained by the county and deposited into the general fund of the county.
   2. The certificate of title shall be presented to the county recorder when the application for security interest or for assignment of the security interest is presented and a new or endorsed certificate of title shall be issued to the secured party with the name and address of the secured party upon it.
   3. When a security interest is discharged, the secured party shall note the cancellation of the security interest on the face of the certificate of title and send the title by first class mail to the office of the county recorder where the title was issued. If the title has been lost or destroyed, the secured party may discharge the security interest by sending a signed, notarized statement to the office of the county recorder where the title was issued. The county recorder shall note the release of the security interest in the county records and attach the statement to the certificate of title as evidence of the release of the security interest.

321G.33 Vehicle identification number.
   1. The department may assign a distinguishing number to a snowmobile when the serial number on the snowmobile is destroyed or obliterated and issue to the owner a special decal bearing the distinguishing number which shall be affixed to the snowmobile in a position to
be determined by the department. The snowmobile shall be registered and titled under the distinguishing number in lieu of the former serial number. Every snowmobile shall have a vehicle identification number assigned and affixed as required by the department.

2. The commission shall adopt, by rule, the procedures for application and for issuance of a vehicle identification number for homebuilt snowmobiles.

3. A person shall not destroy, remove, alter, cover, or deface the manufacturer’s vehicle identification number, the plate or decal bearing it, or any vehicle identification number the department assigns to a snowmobile without the department’s permission.

4. A person other than a manufacturer who constructs or rebuilds a snowmobile for which there is no legible vehicle identification number shall submit to the department an affidavit which describes the snowmobile. In cooperation with the county recorder, the department shall assign a vehicle identification number to the snowmobile. The applicant shall permanently affix the vehicle identification number to the snowmobile in a manner that such alteration, removal, or replacement of the vehicle identification number would be obvious.

§321G.34 Repeat offender — records, enforcement, and penalties.

1. The commission shall establish by rule a recordkeeping system and other administrative procedures necessary to administer this section.

2. A person who pleads guilty to or is convicted of a violation of any provision of this chapter while the person’s registration privilege is suspended or revoked under administrative procedures is guilty of a simple misdemeanor if the person had no other violations within the previous three years which occurred while the person’s registration privilege was suspended or revoked.

3. A person who pleads guilty to or is convicted of a violation of any provision of this chapter while the person’s registration privilege is suspended or revoked under administrative procedures is guilty of a serious misdemeanor if the person had one other violation within the previous three years which occurred while the person’s registration privilege was suspended or revoked.

4. A person who pleads guilty to or is convicted of a violation of any provision of this chapter while the person’s registration privilege is suspended or revoked under administrative procedures is guilty of an aggravated misdemeanor if the person had two or more convictions within the previous three years which occurred while the person’s registration privilege was suspended or revoked.

5. a. Upon the conviction of a person of any violation of this chapter or a rule adopted under this chapter, the court, as a part of the judgment, may suspend or revoke one or more snowmobile registration or user permit privileges of the person for any definite period.

b. The court shall revoke all of the person’s snowmobile registrations or user permits and suspend the privilege of procuring a registration or user permit for a period of one year for any person who has been convicted twice within one year of trespassing while operating a snowmobile. A person shall not be issued a registration or user permit during the period of suspension or revocation.

The owner of an all-terrain vehicle used exclusively as a farm implement may obtain a certificate of title. A person who owns an all-terrain vehicle that is not required to have a certificate of title may apply for and receive a certificate of title for the all-terrain vehicle and, subsequently, the all-terrain vehicle shall be subject to the requirements of this chapter as if the all-terrain vehicle were required to be titled. All all-terrain vehicles that are titled shall be registered.

2. A certificate of title shall contain the information and shall be issued on a form the department prescribes.

3. An owner of an all-terrain vehicle shall apply to the county recorder for issuance of a certificate of title within thirty days after acquisition. The application shall be on forms the department prescribes and accompanied by the required fee. The application shall include a certification signed in writing containing substantially the representation that statements made are true and correct to the best of the applicant’s knowledge, information, and belief, under penalty of perjury. The application shall contain the date of sale and gross price of the all-terrain vehicle or the fair market value if no sale immediately preceded the transfer and any additional information the department requires. If the application is made for an all-terrain vehicle last previously registered or titled in another state or foreign country, the application shall contain this information and any other information the department requires.

If a dealer buys or acquires a new all-terrain vehicle for resale, the dealer may apply for a certificate of title in the dealer’s name.

7. The county recorder shall maintain an electronic record of any certificate of title which the county recorder issues until the certificate of title has been inactive for five years. When issuing a title for a new all-terrain vehicle, the county recorder shall obtain and keep the certificate of origin on file. When issuing a title and registration for a used all-terrain vehicle for which there is no title or registration, the county recorder shall obtain and keep on file the affidavit for the unregistered and untitled all-terrain vehicle.

title in the purchaser’s or transferee’s name. A person shall not purchase or otherwise acquire an all-terrain vehicle without obtaining a certificate of title for it in that person’s name.

9. If the county recorder is not satisfied as to the ownership of the all-terrain vehicle or that there are no undisclosed security interests in the all-terrain vehicle, the county recorder may issue a certificate of title for the all-terrain vehicle but, as a condition of such issuance, may require the applicant to file with the department a bond in the form prescribed by the department and executed by the applicant, and also executed by a person authorized to conduct a surety business in this state. The form and amount of the bond shall be established by rule of the department. The bond shall be conditioned to indemnify any prior owner and secured party and any subsequent purchaser of the all-terrain vehicle or person acquiring any security interest in the all-terrain vehicle, and their respective successors in interest, against any expense, loss, or damage, including reasonable attorney fees, by reason of the issuance of the certificate of title of the all-terrain vehicle or on account of any defect in or undisclosed security interest upon the right, title, and interest of the applicant in and to the all-terrain vehicle. Any such interested person has a right of action to recover on the bond for any breach of its conditions, but the aggregate liability of the surety to all persons shall not exceed the amount of the bond. The bond shall be returned at the end of three years or prior thereto if the all-terrain vehicle is no longer registered in this state and the certificate of title is surrendered to the department, unless the department has been notified of the pendency of an action to recover on the bond.

10. A motorcycle that has been issued a certificate of title pursuant to this section may be issued a title pursuant to chapter 321 upon proper application and surrender of the existing title. The applicant shall furnish information the department requires concerning the original certificate and the circumstances of its loss, mutilation, or destruction.

Five dollars of the certificate of title fees collected under this section shall be remitted by the county recorder to the treasurer of state for deposit in the special all-terrain vehicle fund created under section 321I.8. 3. When a security interest is discharged, the secured party shall note the cancellation of the security interest on the face of the certificate of title and send the title by first class mail to the office of the county recorder where the title was issued. If the title has been lost or destroyed, the secured party may discharge the security interest by sending a signed, notarized statement to the office of the county recorder where the title was issued. The county recorder shall note the release of the security interest in the county records and attach the statement to the certificate of title as evidence of the release of the security interest.

The all-terrain vehicle shall be registered and titled under the distinguishing number in lieu of the former serial number. Every all-terrain vehicle shall have a vehicle identification number assigned and affixed as required by the department.

1, section 321J.9, or section 321J.12. The department shall require the defendant to install an ignition interlock device of a type approved by the commissioner of public safety on all vehicles owned or operated by the defendant if the defendant seeks a temporary restricted license.

e. Assignment to substance abuse evaluation and treatment, a course for drinking drivers, and, if available and appropriate, a reality education substance abuse prevention program pursuant to section 321J.24.

4. A second offense is punishable by all of the following:
   a. A minimum period of imprisonment in the county jail or community-based correctional facility of seven days but not to exceed two years.
   b. Assessment of a minimum fine of one thousand eight hundred seventy-five dollars and a maximum fine of six thousand two hundred fifty dollars. Surcharges and fees shall be assessed pursuant to chapter 911.
   c. Revocation of the defendant's driver's license for a period of one year; if a revocation occurs pursuant to section 321J.12, subsection 1. If a revocation occurs due to test refusal under section 321J.9, or pursuant to section 321J.4, subsection 2, the defendant's license shall be revoked for a period of two years.
   d. Assignment to substance abuse evaluation and treatment, a course for drinking drivers, and, if available and appropriate, a reality education substance abuse prevention program pursuant to section 321J.24.

5. A third or subsequent offense is punishable by all of the following:
   a. Commitment to the custody of the director of the department of corrections for an indeterminate term not to exceed five years, with a mandatory minimum term of thirty days.
      (1) If the court does not suspend a person's sentence of commitment to the custody of the director of the department of corrections under this paragraph “a”, the person shall be assigned to a facility pursuant to section 904.513.
      (2) If the court suspends a person's sentence of commitment to the custody of the director of the department of corrections under this paragraph “a”, the court shall order the person to serve not less than thirty days nor more than one year in the county jail, and the person may be committed to treatment in the community under section 907.6.

6. To the extent that section 907.3 allows, the court may impose additional sentencing terms and conditions.

7. a. All persons convicted of an offense under subsection 2 shall be ordered, at the person's expense, to undergo, prior to sentencing, a substance abuse evaluation. The court shall order the person to follow the recommendations proposed in the substance abuse evaluation as provided in section 321J.3.

   b. Where the program is available and is appropriate for the convicted person, a person convicted of an offense under subsection 2 shall be ordered to participate in a reality education substance abuse prevention program as provided in section 321J.24.

   c. A minimum term of imprisonment in a county jail or community-based correctional facility imposed on a person convicted of a second or subsequent offense under subsection 2, paragraph “b” or “c” shall be served on consecutive days. However, if the sentencing court finds that service of the full minimum term on consecutive days would work an undue hardship on the person, or finds that sufficient jail space is not available and is not reasonably expected to become available within four months after sentencing to incarcerate the person
serving the minimum sentence on consecutive days, the court may order the person to serve the minimum term in segments of at least forty-eight hours and to perform a specified number of hours of unpaid community service as deemed appropriate by the sentencing court.

8. In determining if a violation charged is a second or subsequent offense for purposes of criminal sentencing or license revocation under this chapter:
   a. Any conviction or revocation deleted from motor vehicle operating records pursuant to section 321.12 shall not be considered as a previous offense.
   b. Deferred judgments entered pursuant to section 907.3 for violations of this section shall be counted as previous offenses.
   c. Convictions or the equivalent of deferred judgments for violations in any other states under statutes substantially corresponding to this section shall be counted as previous offenses. The courts shall judicially notice the statutes of other states which define offenses substantially equivalent to the one defined in this section and can therefore be considered corresponding statutes. Each previous violation on which conviction or deferral of judgment was entered prior to the date of the violation charged shall be considered and counted as a separate previous offense.

9. A person shall not be convicted and sentenced for more than one violation of this section for actions arising out of the same event or occurrence, even if the event or occurrence involves more than one of the conditions specified in subsection 1.

10. The clerk of the district court shall immediately certify to the department a true copy of each order entered with respect to deferral of judgment, deferral of sentence, or pronouncement of judgment and sentence for a defendant under this section.

11. a. This section does not apply to a person operating a motor vehicle while under the influence of a drug if the substance was prescribed for the person and was taken under the prescription and in accordance with the directions of a medical practitioner as defined in chapter 155A or if the substance was dispensed by a pharmacist without a prescription pursuant to the rules of the board of pharmacy, if there is no evidence of the consumption of alcohol and the medical practitioner or pharmacist had not directed the person to refrain from operating a motor vehicle.
   b. When charged with a violation of subsection 1, paragraph “c”, a person may assert, as an affirmative defense, that the controlled substance present in the person’s blood or urine was prescribed or dispensed for the person and was taken in accordance with the directions of a practitioner and the labeling directions of the pharmacy, as that person and place of business are defined in section 155A.3.

12. In any prosecution under this section, evidence of the results of analysis of a specimen of the defendant’s blood, breath, or urine is admissible upon proof of a proper foundation.

   a. The alcohol concentration established by the results of an analysis of a specimen of the defendant’s blood, breath, or urine withdrawn within two hours after the defendant was driving or in physical control of a motor vehicle is presumed to be the alcohol concentration at the time of driving or being in physical control of the motor vehicle.
   b. The presence of a controlled substance or other drug established by the results of analysis of a specimen of the defendant’s blood or urine withdrawn within two hours after the defendant was driving or in physical control of a motor vehicle is presumed to show the presence of such controlled substance or other drug in the defendant at the time of driving or being in physical control of the motor vehicle.
   c. The department of public safety shall adopt nationally accepted standards for determining detectable levels of controlled substances in the division of criminal investigation’s initial laboratory screening test for controlled substances.

13. a. In addition to any fine or penalty imposed under this chapter, the court shall order a defendant convicted of or receiving a deferred judgment for a violation of this section to make restitution for damages resulting directly from the violation, to the victim, pursuant to chapter 910. An amount paid pursuant to this restitution order shall be credited toward any adverse judgment in a subsequent civil proceeding arising from the same occurrence. However, other than establishing a credit, a restitution proceeding pursuant to this section shall not be given evidentiary or preclusive effect in a subsequent civil proceeding arising from the same occurrence.
b. The court may order restitution paid to any public agency for the costs of the emergency response resulting from the actions constituting a violation of this section, not exceeding five hundred dollars per public agency for each such response. For the purposes of this paragraph, “emergency response” means any incident requiring response by fire fighting, law enforcement, ambulance, medical, or other emergency services. A public agency seeking such restitution shall consult with the county attorney regarding the expenses incurred by the public agency, and the county attorney may include the expenses in the statement of pecuniary damages pursuant to section 910.3.

14. In any prosecution under this section, the results of a chemical test shall not be used to prove a violation of subsection 1, paragraph “b” or “c”, if the alcohol, controlled substance, or other drug concentration indicated by the chemical test minus the established margin of error inherent in the device or method used to conduct the chemical test does not equal or exceed the level prohibited by subsection 1, paragraph “b” or “c”.

For purposes relating to third offense OWI driver’s license revocations and restoration of driving privileges, see 99 Acts, ch 153, §25.

2018 amendments apply to all persons who apply for or are issued a temporary restricted license under chapter 321J on or after July 1, 2018; 2018 Acts, ch 1110, §9.

Subsection 3, paragraph b, subparagraph (2), NEW subparagraph division (f)

321J.2A Persons under the age of twenty-one.

1. A person who is under the age of twenty-one shall not operate a motor vehicle while having an alcohol concentration, as defined under section 321J.1, of .02 or more. The driver’s license or nonresident operating privilege of a person who is under the age of twenty-one and who operates a motor vehicle while having an alcohol concentration of .02 or more shall be revoked by the department for the period of time specified under section 321J.12. A revocation under this section shall not preclude a prosecution or conviction under any applicable criminal provisions of this chapter. However, if the person is convicted of a criminal offense under section 321J.2, the revocation imposed under this section shall be superseded by any revocation imposed as a result of the conviction.

2. In any proceeding regarding a revocation under this section, evidence of the results of analysis of a specimen of the defendant’s blood, breath, or urine is admissible upon proof of a proper foundation. The alcohol concentration established by the results of analysis of a specimen of the defendant’s blood, breath, or urine withdrawn within two hours after the defendant was driving or in physical control of a motor vehicle is presumed to be the alcohol concentration at the time of driving or being in physical control of the motor vehicle.

321J.2B Parental and school notification — persons under eighteen years of age.

1. A peace officer shall make a reasonable effort to identify a person under the age of eighteen who violates section 321J.2 or 321J.2A and, if the person is not referred to juvenile court, the law enforcement agency of which the peace officer is an employee shall make a reasonable attempt to notify the person’s custodial parent or legal guardian of the violation, whether or not the person is taken into custody, unless the officer has reasonable grounds to believe that notification is not in the best interests of the person or will endanger that person.

2. The peace officer shall also make a reasonable effort to notify the elementary or secondary school which the person attends if the person is enrolled in elementary or secondary school and to notify the superintendent or the superintendent’s designee of the school which the person attends, or the authorities in charge of the nonpublic school
which the person attends, of the violation. If the person is taken into custody, the peace officer shall notify a juvenile court officer who shall make a reasonable effort to identify the elementary or secondary school the person attends, if any, and to notify the superintendent of the school district or the superintendent’s designee, or the authorities in charge of the nonpublic school, of the violation. A reasonable attempt to notify the person includes, but is not limited to, a telephone call or notice by first-class mail.

§321J.3 Substance abuse evaluation or treatment — rules.
1. a. In addition to orders issued pursuant to section 321J.2, subsections 3, 4, and 5, and section 321J.17, the court shall order any defendant convicted under section 321J.2 to follow the recommendations proposed in the substance abuse evaluation for appropriate substance abuse treatment for the defendant. Court-ordered substance abuse treatment is subject to the periodic reporting requirements of section 125.86.

b. If a defendant is committed by the court to a substance abuse treatment facility, the administrator of the facility shall report to the court when it is determined that the defendant has received the maximum benefit of treatment at the facility and the defendant shall be released from the facility. The time for which the defendant is committed for treatment shall be credited against the defendant’s sentence.

c. The court may prescribe the length of time for the evaluation and treatment or it may request that the community college or other approved provider conducting the course for drinking drivers which the person is ordered to attend or the treatment program to which the person is committed immediately report to the court when the person has received maximum benefit from the course for drinking drivers or treatment program or has recovered from the person’s addiction, dependency, or tendency to chronically abuse alcohol or drugs.

d. Upon successfully completing a course for drinking drivers or an ordered substance abuse treatment program, a court may place the person on probation for six months and as a condition of probation, the person shall attend a program providing posttreatment services relating to substance abuse as approved by the court.

e. A person committed under this section who does not possess sufficient income or estate to make payment of the costs of the treatment in whole or in part shall be considered a state patient and the costs of treatment shall be paid as provided in section 125.44.

f. A defendant who fails to carry out the order of the court shall be confined in the county jail for twenty days in addition to any other imprisonment ordered by the court or may be ordered to perform unpaid community service work, and shall be placed on probation for one year with a violation of this probation punishable as contempt of court.

g. In addition to any other condition of probation, the person shall attend a program providing substance abuse prevention services or posttreatment services related to substance abuse as ordered by the court. The person shall report to the person’s probation officer as ordered concerning proof of attendance at the treatment program or posttreatment program ordered by the court. Failure to attend or complete the program shall be considered a violation of probation and is punishable as contempt of court.

2. a. Upon a second or subsequent offense in violation of section 321J.2, the court upon hearing may commit the defendant for inpatient treatment of alcoholism or drug addiction or dependency to any hospital, institution, or community correctional facility in Iowa providing such treatment. The time for which the defendant is committed for treatment shall be credited against the defendant’s sentence.

b. The court may prescribe the length of time for the evaluation and treatment or it may request that the hospital to which the person is committed immediately report to the court when the person has received maximum benefit from the program of the hospital or institution or has recovered from the person’s addiction, dependency, or tendency to chronically abuse alcohol or drugs.

c. A person committed under this section who does not possess sufficient income or estate to make payment of the costs of the treatment in whole or in part shall be considered a state patient and the costs of treatment shall be paid as provided in section 125.44.
3. The state department of transportation, in cooperation with the judicial branch, shall adopt rules, pursuant to the procedure in section 125.33, regarding the assignment of persons ordered under section 321J.17 to submit to substance abuse evaluation and treatment. The rules shall be applicable only to persons other than those committed to the custody of the director of the department of corrections under section 321J.2. The rules shall be consistent with the practices and procedures of the judicial branch in sentencing persons to substance abuse evaluation and treatment under section 321J.2. The rules shall include the requirement that the treatment programs utilized by a person pursuant to an order of the department meet the licensure standards of the department of public health for substance abuse treatment programs under chapter 125. The rules shall also include provisions for payment of costs by the offenders, including insurance reimbursement on behalf of offenders, or other forms of funding, and shall also address reporting requirements of the facility, consistent with the provisions of sections 125.84 and 125.86. The department shall be entitled to treatment information contained in reports to the department, notwithstanding any provision of chapter 125 that would restrict department access to treatment information and records.

321J.4 Revocation of license — ignition interlock devices — temporary restricted license.

1. If a defendant is convicted of a violation of section 321J.2 and the defendant’s driver’s license or nonresident operating privilege has not been revoked under section 321J.9 or 321J.12 for the occurrence from which the arrest arose, the department shall revoke the defendant’s driver’s license or nonresident operating privilege for one hundred eighty days if the defendant submitted to chemical testing and has had no previous conviction or revocation under this chapter and shall revoke the defendant’s driver’s license or nonresident operating privilege for one year if the defendant refused to submit to chemical testing and has had no previous conviction or revocation under this chapter. The department shall require the defendant to install an ignition interlock device of a type approved by the commissioner of public safety on all vehicles owned or operated by the defendant if the defendant seeks a temporary restricted license.

2. If a defendant is convicted of a violation of section 321J.2, and the defendant’s driver’s license or nonresident operating privilege has not already been revoked under section 321J.9 or 321J.12 for the occurrence from which the arrest arose, the department shall revoke the defendant’s driver’s license or nonresident operating privilege for one year if the defendant submitted to chemical testing and has had a previous conviction or revocation under this chapter and shall revoke the defendant’s driver’s license or nonresident operating privilege for two years if the defendant refused to submit to chemical testing and has had a previous revocation under this chapter. The department shall require the defendant to install an ignition interlock device of a type approved by the commissioner of public safety on all vehicles owned or operated by the defendant if the defendant seeks a temporary restricted license. A temporary restricted license shall not be granted by the department until the defendant installs the ignition interlock device.

3. If the court defers judgment pursuant to section 907.3 for a violation of section 321J.2, and if the defendant’s driver’s license or nonresident operating privilege has not been revoked under section 321J.9 or 321J.12, or has not otherwise been revoked for the occurrence from which the arrest arose, the department shall revoke the defendant’s driver’s license or nonresident operating privilege for a period of not less than thirty days nor more than ninety days. The department shall require the defendant to install an ignition interlock device of a type approved by the commissioner of public safety on all vehicles owned or operated by the defendant if the defendant seeks a temporary restricted license.

4. Upon a plea or verdict of guilty of a third or subsequent violation of section 321J.2, the department shall revoke the defendant’s driver’s license or nonresident operating privilege
for a period of six years. The department shall require the defendant to install an ignition interlock device of a type approved by the commissioner of public safety on all vehicles owned or operated by the defendant if the defendant seeks a temporary restricted license. A temporary restricted license shall not be granted by the department until the defendant installs the ignition interlock device.

5. Upon a plea or verdict of guilty of a violation of section 321J.2 which involved a personal injury, the court shall determine in open court, from consideration of the information in the file and any other evidence the parties may submit, whether a serious injury was sustained by any person other than the defendant and, if so, whether the defendant’s conduct in violation of section 321J.2 caused the serious injury. If the court so determines, the court shall order the department to revoke the defendant’s driver’s license or nonresident operating privilege for a period of one year in addition to any other period of suspension or revocation. The defendant shall surrender to the court any Iowa license or permit and the court shall forward it to the department with a copy of the order for revocation.

6. Upon a plea or verdict of guilty of a violation of section 321J.2 which involved a death, the court shall determine in open court, from consideration of the information in the file and any other evidence the parties may submit, whether a death occurred and, if so, whether the defendant’s conduct in violation of section 321J.2 caused the death. If the court so determines, the court shall order the department to revoke the defendant’s driver’s license or nonresident operating privilege for a period of six years. The defendant shall not be eligible for any temporary restricted license for at least two years after the revocation. The defendant shall surrender to the court any Iowa license or permit and the court shall forward it to the department with a copy of the order for revocation.

7. If a license or permit to operate a motor vehicle is revoked or denied under this section or section 321J.9 or 321J.12, the period of revocation or denial shall be the period provided for such a revocation or until the defendant reaches the age of eighteen whichever period is longer.

8. a. On a conviction for or as a condition of a deferred judgment for a violation of section 321J.2, the court may order the defendant to install ignition interlock devices of a type approved by the commissioner of public safety on all motor vehicles owned or operated by the defendant which, without tampering or the intervention of another person, would prevent the defendant from operating the motor vehicle with an alcohol concentration greater than a level set by rule of the commissioner of public safety.

b. The commissioner of public safety shall adopt rules to approve certain ignition interlock devices and the means of installation of the devices, and shall establish the level of alcohol concentration beyond which an ignition interlock device will not allow operation of the motor vehicle in which it is installed.

c. The order to install ignition interlock devices shall remain in effect for a period of time as determined by the court which shall not exceed the maximum term of imprisonment which the court could have imposed according to the nature of the violation. While the order is in effect, the defendant shall not operate a motor vehicle which does not have an approved ignition interlock device installed.

d. If the defendant’s driver’s license or nonresident operating privilege has been revoked, the department shall not issue a temporary permit or a driver’s license to the person without certification that approved ignition interlock devices have been installed in all motor vehicles owned or operated by the defendant while the order is in effect.

e. A defendant who fails within a reasonable time to comply with an order to install an approved ignition interlock device may be declared in contempt of court and punished accordingly.

f. A person who tampers with or circumvents an ignition interlock device installed under a court order while an order is in effect commits a serious misdemeanor.

§321J.4B, OPERATING WHILE INTOXICATED

1. [Text]

2. (1) The motor vehicle that is subject to the order.

3. (2) The period of impoundment or immobilization.

4. (3) The person or agency responsible for carrying out the order requiring continued impoundment, or the immobilization, of the motor vehicle.

5. a. If the vehicle subject to the order is in the custody of a law enforcement agency, the court shall designate that agency as the responsible agency. If the vehicle is not in the custody of a law enforcement agency, the person or agency responsible for carrying out the order must be the owner of the vehicle.

6. b. The person or agency responsible for carrying out the order shall determine whether the motor vehicle shall be impounded or immobilized.

7. d. The period of impoundment or immobilization of a motor vehicle under this section shall be the period of license revocation imposed upon the owner of the motor vehicle. If the motor vehicle has a period of impoundment or immobilization, the period shall commence on the day that the vehicle is first impounded or immobilized.

8. e. The clerk of the district court shall send a copy of the order to the department, the person convicted of the offense, the person or agency responsible for executing the order for impoundment or immobilization, and any holders of any security interests in the vehicle.

9. f. (1) If the vehicle subject to the order is not in the custody of a law enforcement agency, the person or agency designated in the order as the person or agency responsible for executing the order shall, upon receipt of the order, promptly locate the vehicle specified in the order, seize the motor vehicle and the license plates, and send or deliver the vehicle’s license plates to the department.

10. (2) If the vehicle is located at a place other than the place at which the court order is to be carried out, the person or agency responsible for executing the order shall arrange for the vehicle to be moved to the place of impoundment or immobilization. When the vehicle is found, is impounded or immobilized, and is at the place of impoundment or immobilization, the person or agency responsible for executing the order shall notify the clerk of the date on which the order was executed. The clerk shall notify the department of the date on which the order was executed.

11. g. Upon receipt of a court order for continued impoundment or immobilization of the motor vehicle, the agency shall review the value of the vehicle in relation to the costs associated with the period of impoundment of the motor vehicle specified in the order. If the agency determines that the costs of impoundment of the motor vehicle exceed the actual wholesale value of the motor vehicle, the agency may treat the vehicle as an abandoned vehicle pursuant to section 321.89. If the agency elects to treat the motor vehicle as abandoned, the agency shall notify the registered owner of the motor vehicle that the vehicle shall be deemed abandoned and shall be sold in the manner provided in section 321.89 if payment of the total cost of impoundment is not received within twenty-one days of the mailing of the notice. The agency shall provide documentation regarding the valuation of the vehicle and the costs of impoundment. This paragraph shall not apply to vehicles that are immobilized pursuant to this section or if subsection 12, paragraph “a”, subparagraph (1) or (2), applies.

12. 6. Upon conviction of the defendant for a second or subsequent violation of subsection 2, paragraph “a”, subparagraph (2), the court shall order, if the convicted person is the owner of the motor vehicle used in the commission of the offense, that that motor vehicle be seized and forfeited to the state pursuant to chapters 809 and 809A.

14. b. The department shall destroy license plates received under this section and shall not authorize the release of the vehicle or the issuance of new license plates for the vehicle until the period of impoundment or immobilization has expired, and the fee and costs assessed
under subsection 10 have been paid. The fee for issuance of new license plates and certificates of registration shall be the same as for the replacement of lost, mutilated, or destroyed license plates and certificates of registration.

8. a. Upon conviction for a violation of subsection 2, the court shall assess the defendant, in addition to any other penalty, a fee of one hundred dollars plus the cost of any expenses for towing, storage, and any other costs of impounding or immobilizing the motor vehicle, to be paid to the clerk of the district court.

b. The person or agency responsible for impoundment or immobilization under this section shall inform the court of the costs of towing, storage, and any other costs of impounding or immobilizing the motor vehicle. Upon payment of the fee and costs, the clerk shall forward a copy of the receipt to the department.

c. If a law enforcement agency impounds or immobilizes a motor vehicle, the amount of the fee and expenses deposited with the clerk shall be paid by the clerk to the law enforcement agency responsible for executing the order to reimburse the agency for costs incurred for impoundment or immobilization equipment and, if required, in sending officers to search for and locate the vehicle specified in the impoundment or immobilization order.

9. Operating a motor vehicle on a street or highway in this state in violation of an order of impoundment or immobilization is a serious misdemeanor. A motor vehicle which is subject to an order of impoundment or immobilization that is operated on a street or highway in this state in violation of the order shall be seized and forfeited to the state under chapters 809 and 809A.

10. Once the period of impoundment or immobilization has expired, the owner of the motor vehicle shall have thirty days to claim the motor vehicle and pay all fees and charges imposed under this section. If the owner or the owner’s designee has not claimed the vehicle and paid all fees and charges imposed under this section within seven days from the date of expiration of the period, the clerk shall send written notification to the motor vehicle owner, at the owner’s last known address, notifying the owner of the date of expiration of the period of impoundment or immobilization and of the period in which the motor vehicle must be claimed. If the motor vehicle owner fails to claim the motor vehicle and pay all fees and charges imposed within the thirty-day period, the motor vehicle shall be forfeited to the state under chapters 809 and 809A.

11. a. (1) During the period of impoundment or immobilization the owner of an impounded or immobilized vehicle shall not sell or transfer the title of the motor vehicle which is subject to the order of impoundment or immobilization.

(2) A person convicted of an offense under subsection 2 shall not purchase or register any motor vehicle during the period of impoundment, immobilization, or license revocation.

b. If, during the period of impoundment or immobilization, the title to the motor vehicle which is the subject of the order is transferred by the foreclosure of a chattel mortgage, a sale upon execution, the cancellation of a conditional sales contract, or an order of a court, the court which enters the order that permits transfer of the title shall notify the department of the transfer of the title. The department shall enter notice of the transfer of the title to the motor vehicle in the previous owner’s vehicle registration record.

c. Violation of paragraph “a” is a serious misdemeanor.

12. a. Notwithstanding other requirements of this section:

(1) Upon learning the address or phone number of a rental or leasing company which owns a motor vehicle impounded or immobilized under this section, the peace officer, county attorney, or attorney general shall immediately contact the company to inform the company that the vehicle is available for return to the company.

(2) The holder of a security interest in a vehicle which is impounded or immobilized pursuant to this section or forfeited in the manner provided in chapters 809 and 809A shall be notified of the impoundment, immobilization, or forfeiture within seventy-two hours of the seizure of the vehicle and shall have the right to claim the motor vehicle without payment of any fees or surcharges unless the value of the vehicle exceeds the value of the security interest held by the creditor.

(3) Any of the following persons may make application to the court for permission to operate a motor vehicle, which is impounded or immobilized pursuant to this section, during
the period of impoundment or immobilization, if the applicant’s driver’s license or operating privilege has not been suspended, denied, revoked, or barred, and an ignition interlock device of a type approved by the commissioner of public safety is installed in the motor vehicle prior to operation:

(a) A person, other than the person who committed the offense which resulted in the impoundment or immobilization, who is not a member of the immediate family of the person who committed the offense but is a joint owner of the motor vehicle.

(b) A member of the immediate family of the person who committed the offense which resulted in the impoundment or immobilization, if the member demonstrates that the motor vehicle that is subject to the order for impoundment or immobilization is the only motor vehicle possessed by the family.

b. For purposes of this section, “a member of the immediate family” means a spouse, child, or parent of the person who committed the offense.

13. The impoundment, immobilization, or forfeiture of a motor vehicle under this chapter does not constitute loss of use of a motor vehicle for purposes of any contract of insurance.

321J.5 Preliminary screening test.

1. When a peace officer has reasonable grounds to believe that either of the following have occurred, the peace officer may request that the operator provide a sample of the operator’s breath for a preliminary screening test using a device approved by the commissioner of public safety for that purpose:

a. A motor vehicle operator may be violating or has violated section 321J.2 or 321J.2A.

b. The operator has been involved in a motor vehicle collision resulting in injury or death.

2. The results of this preliminary screening test may be used for the purpose of deciding whether an arrest should be made or whether to request a chemical test authorized in this chapter, but shall not be used in any court action except to prove that a chemical test was properly requested of a person pursuant to this chapter.

86 Acts, ch 1220, §5; 95 Acts, ch 48, §12

321J.6 Implied consent to test.

1. A person who operates a motor vehicle in this state under circumstances which give reasonable grounds to believe that the person has been operating a motor vehicle in violation of section 321J.2 or 321J.2A is deemed to have given consent to the withdrawal of specimens of the person’s blood, breath, or urine and to a chemical test or tests of the specimens for the purpose of determining the alcohol concentration or presence of a controlled substance or other drugs, subject to this section. The withdrawal of the body substances and the test or tests shall be administered at the written request of a peace officer having reasonable grounds to believe that the person was operating a motor vehicle in violation of section 321J.2 or 321J.2A, and if any of the following conditions exist:

a. A peace officer has lawfully placed the person under arrest for violation of section 321J.2.

b. The person has been involved in a motor vehicle accident or collision resulting in personal injury or death.

c. The person has refused to take a preliminary breath screening test provided by this chapter.

d. The preliminary breath screening test was administered and it indicated an alcohol concentration equal to or in excess of the level prohibited by section 321J.2.

e. The preliminary breath screening test was administered to a person operating a commercial motor vehicle as defined in section 321.1 and it indicated an alcohol concentration of 0.04 or more.

f. The preliminary breath screening test was administered and it indicated an alcohol concentration less than the level prohibited by section 321J.2, and the peace officer has
reasonable grounds to believe that the person was under the influence of a controlled substance, a drug other than alcohol, or a combination of alcohol and another drug.

2. The peace officer shall determine which of the three substances, breath, blood, or urine, shall be tested. Refusal to submit to a chemical test of urine or breath is deemed a refusal to submit, and section 321J.9 applies. A refusal to submit to a chemical test of blood is not deemed a refusal to submit, but in that case, the peace officer shall then determine which one of the other two substances shall be tested and shall offer the test. If the peace officer fails to offer a test within two hours after the preliminary screening test is administered or refused or the arrest is made, whichever occurs first, a test is not required, and there shall be no revocation under section 321J.9.

3. Notwithstanding subsection 2, if the peace officer has reasonable grounds to believe that the person was under the influence of a controlled substance, a drug other than alcohol, or a combination of alcohol and another drug, a blood or urine test shall be required even after another type of test has been administered. Section 321J.9 applies to a refusal to submit to a chemical test of urine or blood requested under this subsection.

321J.7 Dead or unconscious persons.
A person who is dead, unconscious, or otherwise in a condition rendering the person incapable of consent or refusal is deemed not to have withdrawn the consent provided by section 321J.6, and the test may be given if a licensed physician, physician assistant, or advanced registered nurse practitioner certifies in advance of the test that the person is unconscious or otherwise in a condition rendering that person incapable of consent or refusal. If the certification is oral, a written certification shall be completed by the physician, physician assistant, or advanced registered nurse practitioner within a reasonable time of the test.

321J.8 Statement of officer.
1. A person who has been requested to submit to a chemical test shall be advised by a peace officer of the following:
   a. If the person refuses to submit to the test, the person’s driver’s license or nonresident operating privilege will be revoked by the department as required by and for the applicable period specified under section 321J.9.
   b. If the person submits to the test and the results indicate the presence of a controlled substance or other drug, or an alcohol concentration equal to or in excess of the level prohibited by section 321J.2 or 321J.2A, the person’s driver’s license or nonresident operating privilege will be revoked by the department as required by and for the applicable period specified under section 321J.12.
   c. (1) If the person is operating a commercial motor vehicle as defined in section 321.1 and either refuses to submit to the test or submits to the test and the results indicate an alcohol concentration of 0.04 or more, the person is disqualified from operating a commercial motor vehicle for the applicable period under section 321.208 in addition to any revocation of the person’s driver’s license or nonresident operating privilege which may be applicable under this chapter.
   (2) If the person is operating a noncommercial motor vehicle and holding a commercial driver’s license or commercial learner’s permit as defined in section 321.1 and either refuses to submit to the test or submits to the test and the results indicate the presence of a controlled substance or other drug or an alcohol concentration equal to or in excess of the level prohibited by section 321J.2, the person is disqualified from operating a commercial motor vehicle for the applicable period under section 321.208 in addition to any revocation
of the person's driver's license or nonresident operating privilege which may be applicable under this chapter.

321J.9 Refusal to submit — revocation.

1. If a person refuses to submit to the chemical testing, a test shall not be given, but the department, upon the receipt of the peace officer's certification, subject to penalty for perjury, that the officer had reasonable grounds to believe the person to have been operating a motor vehicle in violation of section 321J.2 or 321J.2A, that specified conditions existed for chemical testing pursuant to section 321J.6, and that the person refused to submit to the chemical testing, shall revoke the person's driver's license and any nonresident operating privilege for the following periods of time:

   a. One year if the person has no previous revocation under this chapter; and
   b. Two years if the person has had a previous revocation under this chapter.

2. The department shall require the defendant to install an ignition interlock device of a type approved by the commissioner of public safety on all vehicles owned or operated by the defendant if the defendant seeks a temporary restricted license. A temporary restricted license shall not be granted by the department until the defendant installs the ignition interlock device.

3. If the person is a resident without a license or permit to operate a motor vehicle in this state, the department shall deny to the person the issuance of a license or permit for the same period a license or permit would be revoked, subject to review as provided in this chapter.

4. The effective date of revocation shall be ten days after the department has mailed notice of revocation to the person by first class mail, notwithstanding chapter 17A. The peace officer who requested or directed the administration of a chemical test may, on behalf of the department, serve immediate notice of intention to revoke and of revocation on a person who refuses to permit chemical testing. If the peace officer serves immediate notice, the peace officer shall take the Iowa license or permit of the driver, if any, and issue a temporary license effective for ten days. The peace officer shall immediately send the person's license to the department along with the officer's certificate indicating the person's refusal to submit to chemical testing.

321J.10 Tests pursuant to warrants.

1. Refusal to consent to a test under section 321J.6 does not prohibit the withdrawal of a specimen for chemical testing pursuant to a search warrant issued in the investigation of a suspected violation of section 707.5 or 707.6A if all of the following grounds exist:

   a. A traffic accident has resulted in a death or personal injury reasonably likely to cause death.

   b. There are reasonable grounds to believe that one or more of the persons whose driving may have been the proximate cause of the accident was violating section 321J.2 at the time of the accident.

2. Search warrants may be issued under this section in full compliance with chapter 808 or they may be issued under subsection 3.

3. Notwithstanding section 808.3, the issuance of a search warrant under this section may be based upon sworn oral testimony communicated by telephone if the magistrate who is asked to issue the warrant is satisfied that the circumstances make it reasonable to dispense with a written affidavit. The following shall then apply:

   a. When a caller applies for the issuance of a warrant under this section and the magistrate becomes aware of the purpose of the call, the magistrate shall place under oath the person applying for the warrant.
b. The person applying for the warrant shall prepare a duplicate warrant and read the
duplicate warrant, verbatim, to the magistrate who shall enter, verbatim, what is read to the
magistrate on a form that will be considered the original warrant. The magistrate may direct
that the warrant be modified.
c. The oral application testimony shall set forth facts and information tending to establish
the existence of the grounds for the warrant and shall describe with a reasonable degree of
specificity the person or persons whose driving is believed to have been the proximate cause
of the accident and from whom a specimen is to be withdrawn and the location where the
withdrawal of the specimen or specimens is to take place.
d. If a voice recording device is available, the magistrate may record by means of that
device all of the call after the magistrate becomes aware of the purpose of the call. Otherwise,
the magistrate shall cause a stenographic or longhand memorandum to be made of the oral
testimony of the person applying for the warrant.
e. If the magistrate is satisfied from the oral testimony that the grounds for the warrant
exist or that there is probable cause to believe that they exist, the magistrate shall order
the issuance of the warrant by directing the person applying for the warrant to sign the
magistrate's name on the duplicate warrant. The magistrate shall immediately sign the
original warrant and enter on its face the exact time when the issuance was ordered.
f. The person who executes the warrant shall enter the time of execution on the face of
the duplicate warrant.
g. The magistrate shall cause any record of the call made by means of a voice recording
device to be transcribed, shall certify the accuracy of the transcript, and shall file the
transcript and the original record with the clerk. If a stenographic or longhand memorandum
was made of the oral testimony of the person who applied for the warrant, the magistrate
shall file a signed copy with the clerk.
h. The clerk of court shall maintain the original and duplicate warrants along with
the record of the telephone call and any transcript or memorandum made of the call in a
confidential file until a charge, if any, is filed.

4. a. Search warrants issued under this section shall authorize and direct peace officers
to secure the withdrawal of blood specimens by medical personnel under section 321J.11.
Reasonable care shall be exercised to ensure the health and safety of the persons from whom
specimens are withdrawn in execution of the warrants.
b. If a person from whom a specimen is to be withdrawn objects to the withdrawal of
blood, the warrant may be executed as follows:
   (1) If the person is capable of giving a specimen of breath, and a direct breath testing
       instrument is readily available, the warrant may be executed by the withdrawal of a specimen
       of breath for chemical testing, unless the peace officer has reasonable grounds to believe that
       the person was under the influence of a controlled substance, a drug other than alcohol, or a
       combination of alcohol and another drug.
   (2) If the testimony in support of the warrant sets forth facts and information that the
       peace officer has reasonable grounds to believe that the person was under the influence of
       a controlled substance, a drug other than alcohol, or a combination of alcohol and another
       drug, a urine sample shall be collected in lieu of a blood sample, if the person is capable of
giving a urine sample and the sample can be collected without the need to physically compel
the execution of the warrant.
5. The act of any person knowingly resisting or obstructing the withdrawal of a specimen
pursuant to a search warrant issued under this section constitutes a contempt punishable by
a fine not exceeding one thousand dollars or imprisonment in a county jail not exceeding
one year or by both such fine and imprisonment. Also, if the withdrawal of a specimen is so
resisted or obstructed, sections 321J.9 and 321J.16 apply.
6. Nonsubstantive variances between the contents of the original and duplicate warrants
shall not cause a warrant issued under subsection 3 of this section to be considered invalid.
7. Specimens obtained pursuant to warrants issued under this section are not subject to
disposition under section 808.9 or chapter 809 or 809A.
8. Subsections 1 to 7 of this section do not apply where a test may be administered under
section 321J.7.
9. Medical personnel who use reasonable care and accepted medical practices in withdrawing blood specimens are immune from liability for their actions in complying with requests made of them pursuant to search warrants or pursuant to section 321J.11.

86 Acts, ch 1220, §10; 90 Acts, ch 1233, §21; 96 Acts, ch 1133, §44; 98 Acts, ch 1138, §18
Referred to in §321J.10A

321J.10A Blood, breath, or urine specimen withdrawal without a warrant.
1. Notwithstanding section 321J.10, if a person is under arrest for an offense arising out of acts alleged to have been committed while the person was operating a motor vehicle in violation of section 321J.2 or 321J.2A, and that arrest results from an accident that causes a death or personal injury reasonably likely to cause death, a chemical test of blood may be administered without the consent of the person arrested to determine the amount of alcohol or a controlled substance in that person's blood if all of the following circumstances exist:
   a. The peace officer reasonably believes the blood drawn will produce evidence of intoxication.
   b. The method used to take the blood sample is reasonable and performed in a reasonable manner by medical personnel under section 321J.11.
   c. The peace officer reasonably believes the officer is confronted with an emergency situation in which the delay necessary to obtain a warrant under section 321J.10 threatens the destruction of the evidence.
2. If the person from whom a specimen of blood is to be withdrawn objects to the withdrawal, a breath or urine sample may be taken under the following circumstances:
   a. If the person is capable of giving a specimen of breath, and a direct breath testing instrument is readily available, the withdrawal of a specimen of the person's breath may be taken for chemical testing, unless the peace officer has reasonable grounds to believe that the person was under the influence of a controlled substance, a drug other than alcohol, or a combination of alcohol and another drug.
   b. If the peace officer has reasonable grounds to believe that the person was under the influence of a controlled substance, a drug other than alcohol, or a combination of alcohol and another drug, a urine sample shall be collected in lieu of a blood sample, if the person is capable of giving a urine sample and the sample can be collected.
   2004 Acts, ch 1098, §1

321J.11 Taking sample for test.
1. Only a licensed physician, licensed physician assistant as defined in section 148C.1, medical technologist, or registered nurse, acting at the request of a peace officer, may withdraw a specimen of blood for the purpose of determining the alcohol concentration or the presence of a controlled substance or other drugs. However, any peace officer, using devices and methods approved by the commissioner of public safety, may take a specimen of a person's breath or urine for the purpose of determining the alcohol concentration, or may take a specimen of a person's urine for the purpose of determining the presence of a controlled substance or other drugs. Only new equipment kept under strictly sanitary and sterile conditions shall be used for drawing blood.
2. The person may have an independent chemical test or tests administered at the person's own expense in addition to any administered at the direction of a peace officer. The failure or inability of the person to obtain an independent chemical test or tests does not preclude the admission of evidence of the results of the test or tests administered at the direction of the peace officer. Upon the request of the person who is tested, the results of the test or tests administered at the direction of the peace officer shall be made available to the person.
Referred to in §321J.10, §321J.10A

321J.12 Test result revocation.
1. Upon certification, subject to penalty for perjury, by the peace officer that there existed reasonable grounds to believe that the person had been operating a motor vehicle in violation of section 321J.2, that there existed one or more of the necessary conditions for chemical testing described in section 321J.6, subsection 1, and that the person submitted to chemical
testing and the test results indicated the presence of a controlled substance or other drug, or an alcohol concentration equal to or in excess of the level prohibited by section 321J.2, or a combination of alcohol and another drug in violation of section 321J.2, the department shall revoke the person’s driver’s license or nonresident operating privilege for the following periods of time:

a. One hundred eighty days if the person has had no revocation under this chapter.

b. One year if the person has had a previous revocation under this chapter.

2. The department shall require the defendant to install an ignition interlock device of a type approved by the commissioner of public safety on all vehicles owned or operated by the defendant if the defendant seeks a temporary license. A temporary restricted license shall not be granted by the department until the defendant installs the ignition interlock device.

3. The effective date of the revocation shall be ten days after the department has mailed notice of revocation to the person by first class mail, notwithstanding chapter 17A. The peace officer who requested or directed the administration of the chemical test may, on behalf of the department, serve immediate notice of revocation on a person whose test results indicated the presence of a controlled substance or other drug, or an alcohol concentration equal to or in excess of the level prohibited by section 321J.2, or a combination of alcohol and another controlled substance or drug in violation of section 321J.2.

4. If the peace officer serves that immediate notice, the peace officer shall take the person’s Iowa license or permit, if any, and issue a temporary license valid only for ten days. The peace officer shall immediately send the person’s driver’s license to the department along with the officer’s certificate indicating that the test results indicated the presence of a controlled substance or other drug, or an alcohol concentration equal to or in excess of the level prohibited by section 321J.2.

5. Upon certification, subject to penalty of perjury, by the peace officer that there existed reasonable grounds to believe that the person had been operating a motor vehicle in violation of section 321J.2A, that there existed one or more of the necessary conditions for chemical testing described in section 321J.6, subsection 1, and that the person submitted to chemical testing and the test results indicated an alcohol concentration of .02 or more but less than .08, the department shall revoke the person’s driver’s license or operating privilege for a period of sixty days if the person has had no previous revocation under this chapter, and for a period of ninety days if the person has had a previous revocation under this chapter.

6. The results of a chemical test may not be used as the basis for a revocation of a person’s driver’s license or nonresident operating privilege if the alcohol or drug concentration indicated by the chemical test minus the established margin of error inherent in the device or method used to conduct the chemical test is not equal to or in excess of the level prohibited by section 321J.2 or 321J.2A.

2018 amendment applies to all persons who apply for or are issued a temporary restricted license under chapter 321J on or after July 1, 2018; 2018 Acts, ch 1110, §9

321J.13 Hearing on revocation — appeal.

1. Notice of revocation of a person’s noncommercial driver’s license or operating privilege served pursuant to section 321J.9 or 321J.12 shall include a form accompanied by a preaddressed envelope on which the person served may indicate by a checkmark if the person only wishes to request a temporary restricted license, or if the person wishes a hearing to contest the revocation. The form shall clearly state on its face that the form must be completed and returned within ten days of receipt or the person’s right to a hearing to contest the revocation is foreclosed. The form shall also be accompanied by a statement of the operation of and the person’s rights under this chapter.

2. The department shall grant the person an opportunity to be heard within forty-five days of receipt of a request for a hearing if the request is made not later than ten days after receipt of notice of revocation served pursuant to section 321J.9 or 321J.12. The hearing shall be before the department in the county where the alleged events occurred, unless the director
and the person agree that the hearing may be held in some other county, or the hearing may be held by telephone conference at the discretion of the agency conducting the hearing. The hearing may be recorded and its scope shall be limited to the issues of whether a peace officer had reasonable grounds to believe that the person was operating a motor vehicle in violation of section 321J.2 or 321J.2A and one or more of the following:

a. Whether the person refused to submit to the test or tests.

b. Whether a test was administered and the test results indicated an alcohol concentration equal to or in excess of the level prohibited under section 321J.2 or 321J.2A.

c. Whether a test was administered and the test results indicated the presence of alcohol, a controlled substance or other drug, or a combination of alcohol and another drug, in violation of section 321J.2.

3. After the hearing the department shall order that the revocation be either rescinded or sustained. Upon receipt of the decision of the department to sustain a revocation, the person contesting the revocation has ten days to file a request for review of the decision by the director. The director or the director’s designee shall review the decision within thirty days and shall either rescind or sustain the revocation or order a new hearing. If the director orders a new hearing, the department shall grant the person a new hearing within twenty days of the director’s order.

4. The department shall stay the revocation of a person’s driver’s license or operating privilege for the period that the person is contesting the revocation under this section or section 321J.14 if it is shown to the satisfaction of the department that the new evidence is material and that there were valid reasons for failure to present it in the contested case proceeding before the department. However, a stay shall not be granted for violations of section 321J.2A.

5. If the department fails to comply with the time limitations of this section regarding granting a hearing, review by the director or the director’s designee, or granting a new hearing, and if the request for a hearing or review by the director was properly made under this section, the revocation of the driver’s license or operating privilege of the person who made the request for a hearing or review shall be rescinded. This subsection shall not apply in those cases in which a continuance to the hearing has been granted at the request of either the person who requested the hearing or the peace officer who requested or administered the chemical test.

6. a. The department shall grant a request for a hearing to rescind the revocation if the person whose motor vehicle license or operating privilege has been or is being revoked under section 321J.9 or 321J.12 submits a petition containing information relating to the discovery of new evidence that provides grounds for rescission of the revocation.

b. The person shall prevail at the hearing if, in the criminal action on the charge of violation of section 321J.2 or 321J.2A resulting from the same circumstances that resulted in the administrative revocation being challenged, the court held one of the following:

(1) That the peace officer did not have reasonable grounds to believe that a violation of section 321J.2 or 321J.2A had occurred to support a request for or to administer a chemical test.

(2) That the chemical test was otherwise inadmissible or invalid.

c. Such a holding by the court in the criminal action is binding on the department, and the department shall rescind the revocation. If the offense for which the revocation was imposed was committed while the person was operating a noncommercial motor vehicle and holding a commercial driver’s license or commercial learner’s permit and the department disqualified the person from operating a commercial motor vehicle under section 321.208, subsection 2, paragraph “a” or “b”, as a result of the revocation, the department shall also rescind the disqualification.

321J.14 Judicial review.
Judicial review of an action of the department may be sought in accordance with the terms of the Iowa administrative procedure Act, chapter 17A. 321J.15 Evidence in any action.
Upon the trial of a civil or criminal action or proceeding arising out of acts alleged to have been committed by a person while operating a motor vehicle in violation of section 321J.2 or 321J.2A, evidence of the alcohol concentration or the presence of a controlled substance or other drugs in the person’s body at the time of the act alleged as shown by a chemical analysis of the person’s blood, breath, or urine is admissible. If it is established at trial that an analysis of a breath specimen was performed by a certified operator using a device intended to determine alcohol concentration and methods approved by the commissioner of public safety, no further foundation is necessary for introduction of the evidence.

321J.16 Proof of refusal admissible.
If a person refuses to submit to a chemical test, proof of refusal is admissible in any civil or criminal action or proceeding arising out of acts alleged to have been committed while the person was operating a motor vehicle in violation of section 321J.2 or 321J.2A.

321J.17 Civil penalty — disposition — conditions for license reinstatement.
1. If the department revokes a person’s driver’s license or nonresident operating privilege under this chapter, the department shall assess the person a civil penalty of two hundred dollars. The money collected by the department under this section shall be transmitted to the treasurer of state who shall deposit one-half of the money in the separate fund established in section 915.94 and one-half of the money in the general fund of the state. A temporary restricted license shall not be issued unless an ignition interlock device has been installed pursuant to section 321J.4. Except as provided in section 321.210B, a temporary restricted license shall not be issued or a driver’s license or nonresident operating privilege reinstated until the civil penalty has been paid. A person assessed a penalty under this section may remit the civil penalty along with a processing fee of five dollars to a county treasurer authorized to issue driver’s licenses under chapter 321M, or the civil penalty may be paid directly to the department.
2. a. If the department or a court orders the revocation of a person’s driver’s license or nonresident operating privilege under this chapter, the department or court shall also order the person, at the person’s own expense, to do the following:
   (1) Enroll, attend, and satisfactorily complete a course for drinking drivers, as provided in section 321J.22.
   (2) Submit to evaluation and treatment or rehabilitation services.
   b. The court or department may request that the community college or substance abuse treatment providers licensed under chapter 125 or other approved provider conducting the course for drinking drivers that the person is ordered to attend immediately report to the court or department that the person has successfully completed the course for drinking drivers. The court or department may request that the treatment program which the person attends periodically report on the defendant’s attendance and participation in the program, as well as the status of treatment or rehabilitation.
   c. A driver’s license or nonresident operating privilege shall not be reinstated until proof of completion of the requirements of this subsection is presented to the department.
3. The department shall also require certification of installation of an ignition interlock device of a type approved by the commissioner of public safety on all motor vehicles owned or operated by any person seeking reinstatement following a second or subsequent...
revocation under section 321J.4, 321J.9, or 321J.12. The requirement for the installation of an approved ignition interlock device shall be for one year from the date of reinstatement unless a longer time period is required by statute. The one-year period a person is required to maintain an ignition interlock device under this subsection shall be reduced by any period of time the person held a valid temporary restricted license during the period of the revocation for the occurrence from which the arrest arose. The person shall not operate any motor vehicle which is not equipped with an approved ignition interlock device during the period in which an ignition interlock device must be maintained, and the department shall not grant reinstatement unless the person certifies installation of an ignition interlock device as required in this subsection.

321J.23 Legislative findings.
The general assembly finds and declares as follows:
1. Drivers often do not realize the consequences of drinking alcohol or using other drugs, and driving a motor vehicle.
2. Prompt intervention is needed to protect society, including drivers, from death or serious long-term injury.
3. The conviction of a driver for operating while intoxicated identifies that person as a risk to the health and safety of others, as well as to the intoxicated driver.
4. Close observation of the effects on others of alcohol and drug use by an intoxicated driver convicted of operating while intoxicated may have a marked effect on recidivism and should therefore be encouraged by the courts.
5. The reality education substance abuse prevention program provides guidelines for the operation of an intensive program to discourage recidivism.
