

**House File 2328 - Introduced**

HOUSE FILE 2328

BY COMMITTEE ON ENVIRONMENTAL  
PROTECTION

(SUCCESSOR TO HSB 600)

**A BILL FOR**

1 An Act relating to the use capacity of campground septic  
2 systems.

3 BE IT ENACTED BY THE GENERAL ASSEMBLY OF THE STATE OF IOWA:

1 Section 1. Section 455B.173, subsection 3, Code 2024, is  
2 amended by adding the following new paragraph:

3 NEW PARAGRAPH. c. (1) The commission shall require a  
4 campground with hookups to have a septic system with a use  
5 capacity based on the number of campsites that is rated for the  
6 higher of either of the following:

7 (a) Twenty-five gallons per day for each camping site using  
8 the septic system.

9 (b) The peak monthly water usage of the septic system for  
10 the previous year divided by the number of days in that month  
11 and the number of campsites.

12 (2) If a campground does not have a metered water source,  
13 the septic system of the campground shall be rated for  
14 forty-five gallons per day for each campsite using the septic  
15 system.

16 EXPLANATION

17 The inclusion of this explanation does not constitute agreement with  
18 the explanation's substance by the members of the general assembly.

19 This bill requires a minimum septic system use capacity for  
20 campgrounds. The environmental protection commission shall  
21 require a campground with hookups to have a septic system with  
22 a use capacity based on the number of campsites that is rated  
23 for the higher of either 25 gallons per day for each camping  
24 site using the septic system, or the peak monthly water usage  
25 of the septic system for the previous year divided by the  
26 number of days in that month and the number of campsites. A  
27 campground without a metered water source shall maintain a  
28 septic system rated for 45 gallons per day for each campsite.
