THE STATE OF IOWA

The State of Iowa

THE State of Iowa completed its first century of statehood December 28, 1946. Iowa was the 29th state of the union, first free state west of the Mississippi river. On a stone in the Washington national monument is this inscription:

“Iowa, her affections like the rivers of her borders, flow to an inseparable Union.”

The State Seal of Iowa displays a banner on which is the state motto: “Our liberties we prize and our rights we will maintain.”

The first century of statehood witnessed the splendid growth of the state in population and wealth, and its wholesome expansion in social and community activities. When the responsibilities of self-government were assumed, the population of the state was about 100,000; now the state has approximately two and a half million people.

Iowa was a part of the vast Province of Louisiana purchased by the United States from France. Other states had been formed in this region; but Iowa was the first state carved out and established with soil forever dedicated to human freedom. The probationary time as a territory was for eight and a half years and it had been only 13 years since the first legal settlements. Mining of lead had been engaged in by Dubuque since 1788, by favor of the Indians, and there had been feeble efforts at colonization along the river under Spanish grants; but not until 1833, following the Black Hawk war, did the home seekers secure title to their holdings.

During the first 160 years following the voyage of Joliet and Marquette down the Mississippi river in 1673, the land that is now Iowa was a favorite hunting and trapping ground for a number of tribes of Indians. Adventurers, miners, fur buyers, traders, followed the worn trails along the valleys and over the prairies.

Spanish and French monarchs had vague claims of jurisdiction over the region, but the standard of neither country had ever been set up permanently in any part of what is now Iowa. The United States closed out the French claim by purchase in 1803, after which local authority shifted frequently; namely, Indiana territory given jurisdiction, 1804; Louisiana territory organized with St. Louis capitol, 1805; Iowa included in Missouri territory, 1812; when Missouri became a state, Iowa left without government, 1821; Territory of Michigan with capitol at Detroit given jurisdiction, 1834; became the major part of Wisconsin territory, 1836; organized and named Territory of Iowa, 1838; statehood first authorized, 1845; organized as a state, 1846.

Iowa had been the home for many centuries of American red men, who succeeded an unknown race of pottery makers and mound builders, but few Indians were seen by the first explorers. A small band of friendly Indians entertained Joliet and Marquette at a camp on the Des Moines river near its mouth. A century later, the Sac and Fox federation of two Algonquin tribes, had villages along the Mississippi river, where they cultivated land and had permanent homes. They had migrated originally from the Atlantic coast and before settling in Iowa had united for defense. When Illinois became a state, they were driven from their

homes east of the river, and their lands bought or confiscated. Chief Black Hawk, the military leader of the Sac tribe, made heroic resistance, but was taken to Washington and kept a prisoner for a time.

The Sac and Fox federation had been chief occupant of the land along the Mississippi valley, and in 1833, following the Black Hawk war, a large part of their land in Iowa was taken by the United States and opened for settlement. The Black Hawk purchase, through which the Iowa river flows, was the beginning of Iowa, and by later acquisitions the entire state was opened for the use of the pioneers.

While the Sac and Fox federation claimed the eastern and central part of Iowa, there were other tribes having rights and making use of the hunting grounds. The Iowa tribe wandered all over the state. The Winnebagoes were given land in northeast Iowa, but later were moved north. The Pottawattamies lived along the Missouri river, and were associated with the Otoes, Omahas and others. The Sioux tribe, of the Dakotah nation, claimed all northern Iowa and not until long after statehood was their title extinguished.

The Mesquakie Indians, now living in Iowa, are a branch of the Fox tribe, who returned after removal to the south.

The United States maintained several forts in Iowa or along the borders. Fort Madison, in Lee county, was maintained for a time after 1808. Fort Armstrong was placed on Rock Island in 1816. Fort Crawford had been maintained at Prairie du Chien many years. Fort Atkinson was located on the "neutral strip" and Fort Croghan was on the Missouri. In 1834, Fort Des Moines was built at Montrose, and the second Fort Des Moines was located at the Raccoon fork of the Des Moines in 1843. Fort Clark was maintained for a brief time at Fort Dodge. The present Fort Des Moines was established as a cavalry post at the state capitol in 1900.

The site for the capital city of Iowa was first studied by Gen. Stephen W. Kearny, then a colonel in command of the first Fort Des Moines, who in 1835 brought a company of dragoons to the Raccoon forks looking for a good place to establish a military post. He was accompanied by Capt. Nathan Boone, son of Daniel, and by Lieut. Albert M. Lea, who published a description of central Iowa and made a map on which he named this the "Iowa district." From this the territory formed soon afterwards took its name.

Although there were only 22,859 people in the 22 counties west of the river when Iowa was set off as a territory, agitation for statehood commenced almost at once. One obstacle was the unwillingness of Congress, as then constituted, to admit any free soil state without also adding a slave state, so that the slave states would at all times have control of the senate. Several states had been so paired off for admission. The bill authorizing admission of Iowa in 1845 also provided for admission of Florida, one free and one slave state.

The people of Iowa and Congress disagreed as to the proper boundaries for Iowa, and Iowa twice rejected what was offered. Congress proposed that the western one-third of the state should not be included, but that all of southeastern Minnesota should be a part of Iowa. The Iowa people finally got the boundaries as they are now and a year and a half after admission was authorized, the final act of admission was passed and the state proclaimed, December 28, 1846.

When the territory was organized, Brevet Brig. Gen. Henry Atkinson was named territorial governor of Iowa, but declined the appointment and Robert Lucas was named and assumed the office. General Lucas

had been governor of Ohio and had fought in the American wars. When the state was organized, Ansel Briggs of Jackson county, had been elected to be the first governor of the state. The general assembly met and enacted laws before the final act of admission was completed at the national capitol.

Burlington had been the capital of the Territory of Wisconsin and became the first capital of the Territory of Iowa. Later this was moved to Iowa City which became the first state capital, and so remained until the year 1857 when the capital was removed to Des Moines. The capitol building at Iowa City was turned over to the State university and a temporary statehouse was occupied at Des Moines while the present state capitol was being built.

Iowa enjoyed the prosperity of a new country eagerly sought by homemakers for the fifteen years preceding the outbreak of the war for preservation of the union. Immigration into the state was steady and in immense volume. First settlers were mainly from along the Ohio valley, then from the eastern states, and from overseas, especially from Germany, England, Sweden and Ireland. They brought their school books and Bibles with their plows and axes and quickly transformed the wilderness into orderly communities. In this time the counties were all organized, the steamboats gave way to stage coaches, academies and colleges were opened, towns and cities became thriving business centers and the railroad builders laid the rails across the state.

The state constitution under which Iowa had entered the union and which had been hastily prepared in 1844 and remodeled in 1846, was discarded and a new constitution adopted in 1857, which has since been several times amended. Slavery was forbidden from the start, but voting rights were reserved for white persons until 1868. Liberal school legislation was enacted at the outset. Elections were held every year until the biennial election system was adopted in 1904.

Iowa was strongly democratic in politics as a territory and for the first eight years of the state. In 1854 the whigs elected the governor, who helped the free soil element organize the republican party, which dominated for 35 years. In 1890 a democrat became governor, because of dissensions over policy as to alcoholic drinks. Then followed eleven republican administrations, when in 1933 the democrats again seated two governors, who were followed by three republicans to the present time. In 1907 the law required that all party nominations be made at primary elections.

By 1860 the state had 674,000 people, and for the war that came soon after furnished 76,000 volunteers.

In the period 1860 to 1870, the population increased to 1,194,000 after which the growth was slower.

The land area of the state is 55,586 square miles, or 35,575,040 acres, and the water surface 561 square miles. The maximum elevation of the state above sea level is about 1,600 feet. Nearly all religious societies are represented in the population. The general assembly meets at the beginning of each odd-numbered year for enactment of legislation and making appropriations.

Literacy in Iowa is at the top, racial and labor controversies are little known, state educational and correctional institutions are well supported, and the population is fairly well divided as between urban and rural residents.

IOWA'S CAPITOL BUILDING

Iowa State Capitol

By Ora Williams

Former Curator, State Department of History and Archives

THE administrative, legislative and judicial functions of the State of Iowa are centralized in an imposing and substantial state capitol occupying a prominent place in a spacious park on a hill commanding the capitol city of Des Moines.

In its architectural features, its lines of simple beauty, its convenient interior arrangement, and in its decoration and adornment, the Iowa State Capitol compares favorably with those of other states. It has served well the needs of the state as a seat of government for more than half of the state's first century of statehood. The surrounding grounds, or park, provide a setting which in extent and attractiveness is unequalled. The state has an investment in this plant for the transaction of public business of over seven million dollars.

The governor and other elective state officials have offices in the capitol, on the first or main floor, conveniently grouped around two central halls in the form of a cross, the offices amply, but not luxuriantly furnished with modern equipment. On this floor sits the highest judicial tribunal of the state, in the supreme court chambers, which harmonize with the dignity and importance of that body. The legislative chambers are on the second floor, while in the basement and on the third floor there are many business offices and work rooms. The law library, and many needed committee rooms, are on the second floor. The speaker of the house and the lieutenant governor have offices near the large halls for the senate and the house.

The architectural design of the capitol, rectangular in form, with great windows and high ceilings, follows the traditional pattern of the nineteenth century planning for public buildings, a modified and refined Romanesque style which gives the impression of strength and dignity combined with utility, both severely plain and handsomely decorated.

The commanding feature of the capitol is the central towering dome. It is constructed of steel and stone and is entirely covered with pure gold, which glistening in the sunlight can be seen from far distant places. The dome is surmounted by a lookout lantern, that may be reached by long and winding stairs, and it terminates in a finial that is 275 feet above the ground floor. The rotunda beneath the dome is 67 feet in diameter. Four smaller domes of simple design rise from the four corners of the capitol. The pediment over the front entrance discloses a fine piece of allegorical sculpture.

The exterior is entirely of stone, of several kinds and differing qualities, with elaborate columns and handsomely designed cornices and capitals. The substructure is of a dark and coarse-grained attractive stone quarried in Iowa. This is topped by a heavy course of vari-colored and beautifully-marked granite cut from boulders scattered by glacial action over the prairies of the state. The superstructure, or main part of the building, is of a sandstone of a delicate buff color, fine-grained in texture, secured from Missouri in quarries along the Mississippi river. The approaches to the capitol are by four sets of steps mainly of granite.

The interior finish of the capitol is of native wood—cherry, walnut, catalpa, oak and butternut. There is much fine wood carving, and the supreme court bench is especially handsome as to material and workmanship. The main floors are of tile. Wainscoting and shelving are of marble, American and foreign, and some of this is very rare and unusual. There are imposing columns in the rotunda of fine sandstone, and on the second floor of granite, and in the legislative chambers of fabricated stone.

In size the capitol is 364 feet north and south by 247 wide. The cross-halls meet in the rotunda, with a wide opening from the basement floor to the base of the dome. The house chamber is in size 79x91.4 feet, with ceiling 47.9 feet high; the senate chamber is 58x91.4 feet and 41.9 to the ceiling. Each member of the General Assembly is provided with a separate desk, 108 in the house and 50 in the senate, and the house is equipped with an electric vote recording system.

The most attractive feature of the decoration is a large oil painting on the east wall over the grand stairway that leads from first to second story. It bears the title "Westward," and is an allegorical representation of the hard journey of a frontiersman and his family, with a covered wagon drawn by four sturdy oxen, on their way from the lush fields of their homeland into the wilderness that was to become their Iowa. A convoy of lovely angels guides them and their possessions to their destiny. The picture is the work of Edwin H. Blashfield, and is a beautiful work of art, inspiring in its symbolism, and it has had the commendation of many historians and artists.

Six imposing mosaics, or paintings reproduced in stone of brilliant colors, are just above the picture "Westward." These are representative of the arts, the science and the culture of the people of the midland region. They were designed by Frederick Dielman and the craftsmanship was by skilled artists in Italy. High in the rotunda there are twelve pieces of fine statuary, and beneath these there are eight lunettes, or decorative paintings in half-circle, done by Kenyon Cox. The supreme court chamber originally had a series of magnificent symbolic paintings on canvas, but these now adorn the reception room in the state historical building. After the fire, the entire interior was decorated in modest and modern designs.

The battle flags carried by the Iowa regiments in various wars are preserved in niches on the main floor. In the west hall is a fine plaque done by Nellie V. Walker in commemoration of the work of Iowa women in the fight for civic and political equality. In the south hall is a monster photograph in colors, showing the grand review of Iowa troops on return from France.

The history of the state capitol, the choosing of the location, the construction thereof, and provision for a proper setting and surroundings, covers the whole period of statehood. Almost every step taken during the state's first century encountered opposition from selfish or sectional interests, or from pretended reasons of economy, and this was true as to the proper site near the center of the state, the size and character of the building and securing the necessary ground for the plant and equipment in which to transact the business of the state.

The wisdom of a central location in the state for the seat of government was recognized by the First General Assembly, and before the state was two months old, a resolution was adopted looking to that end. A commission was authorized to choose a site and lay out a capitol city, which was done, but the location did not meet with approval and the project was abandoned. Eight years later in 1855 the Fifth General Assembly, despite fierce opposition, by legislative act directed the location of the state capitol near the Raccoon forks of the Des Moines river. The precise place for the building was entrusted to a commission and a site was selected halfway between the abandoned old Fort Des Moines and the scene of the last Indian agency on "Keokuk's Prairie." This place was decided upon because of the generous donation by citizens of Des Moines of a nine-acre tract and several buildings for a temporary capitol which was in use for nearly thirty years.

By proclamation of Governor Grimes in 1857 the city of Des Moines became the state capitol, and near the close of that year the books and papers of the state were brought from Iowa City, the old territorial and first state capitol.

The state capitol was in process of building fifteen years. The Thirteenth General Assembly, in 1870, created a commission which selected the design, commenced work and in November, 1871, laid the cornerstone. The plan adopted was a modified composite of several designs submitted in competition. Messrs. Bell & Hackney were employed as supervising architects. Material for the foundation was purchased from Iowa quarries, as directed by law; but the stone proved unsubstantial and nearly all had to be removed.

The first building commission was discharged and a second was authorized to take charge of construction. Work proceeded under direction of a supervisor and foreman, a working force was employed by the day, and material and equipment was purchased on bids or by contract. The legislature made small appropriations every two years and the work proceeded as rapidly as funds and material would permit.

The cornerstone was relaid by the second commission on September 29, 1873, and it contains manuscripts, books, coins, money and historical material. It is simply inscribed "Iowa, A. D. 1873."

Construction had been so nearly completed that the legislative halls were occupied and many of the state offices when dedication was made in 1884. The temporary capitol was in use, however, for the supreme court and some other offices; but in 1886 the supreme court chambers were occupied. The work of the commission was brought to a close June 30, 1886. There was never a hint of the misuse of public funds in connection with the construction, and a final audit of the \$3,296,256 expended showed a net error of only \$3.77 in computation of bills and accounts.

In 1902, in order to modernize the capitol and make needed changes and repairs, a third capitol commission was created and appropriations made for the work. While this work proceeded, there occurred a disastrous fire in the north wing on January 4, 1904, which ruined the house chamber and damaged other offices. The commission restored the building, purchased paintings and mosaics, and redecorated the entire interior.

State Capitol on Fire

January 4, 1904, the north wing of the Capitol was badly damaged by fire of unknown origin.

THE STATE BANNER

On March 29, 1921, the Thirty-ninth General Assembly adopted a resolution designating a design for a flag to be known as the "State Banner."

The banner was designed by the "Iowa Society of the Daughters of the American Revolution," and consists of three vertical stripes of blue, white and red, with the blue stripe nearest the staff and the white stripe in the center depicting a spreading eagle bearing in its beak blue streamers on which is inscribed in white letters the state motto, "Our liberties we prize and our rights we will maintain." The word "Iowa" in red letters is just below the streamers.

THE WILD ROSE, THE STATE FLOWER OF IOWA

The Wild Rose was officially designated as the flower of the state by the Twenty-sixth General Assembly in extraordinary session. The resolution was adopted May 7, 1897.

THE EASTERN GOLDFINCH, THE STATE BIRD OF IOWA

The Forty-fifth General Assembly, by a concurrent resolution adopted March 22, 1933, designated the Eastern Goldfinch (*Spinus tristis tristis*), as the official Iowa bird. The Goldfinch is generally designated as a wild canary.

STATE HOUSE GROUNDS

The Iowa State Capitol Park

IT had become evident early in the present century that the state needed more room for the transaction of business properly at the state capitol, and the Thirty-fifth General Assembly authorized an enlargement of the capitol grounds. A special tax levy was made, and with the proceeds, the state purchased lots and residences and business houses adjacent to the cramped public area sufficient to embrace over 93 acres in the park. Several hundred buildings were removed or taken down at a total cost of about \$3,000,000. The capitol was thus cleared of unsightly surroundings, a fine park was landscaped and is being constantly improved and there is room for other needed improvements already planned. This splendid improvement was effected only over bitter criticism, but its promoters and authors are now esteemed for having done a worthy work for the state.

The most conspicuous object on the capitol grounds is the Iowa monument to the soldiers and sailors of the Civil war on ground formerly occupied by the temporary state capitol. This is a granite shaft 145 feet high, surmounted by a heroic bronze figure of "Victory"; while at the base there are four groups representing different branches of the military or naval service, and numerous historical plaques and medalion portraits of typical soldiers. The original design was by Harriet A. Ketcham and work was commenced in 1894. The plan for removal of this monument to a more appropriate location on the mall east of the capitol has never been done.

A striking monument in memory of the late Sen. Wm. B. Allison stands near by, the gift of Gen. Grenville M. Dodge. This is an allegorical design of heroic dimensions, depicting civic duties in the public service, and it is encompassed by a fountain.

A small and appropriate memorial to Christopher Columbus, erected by Iowa citizens of Italian ancestry, stands near by. West of the capitol, at the head of Locust street, is an impressive bronze statuary group depicting "The Pioneer." The cannon and mortar on the grounds are of Civil war days. The grave of Willson A. Scott, one of those who gave the state the capitol grounds, is near where he lived and is appropriately marked. A bronze cannon taken in the Spanish-American war, and the headpiece of the Battleship Iowa, are near the historical building. A granite block dedicated to the soldiers of the Spanish-American war veterans stands on the plaza east of the capitol.

The state historical department occupies one of the most beautiful public buildings of the state on ground northeast of the capitol now embraced in the capitol park. This was erected near the close of the last century as a home for the department founded by the late Charles Aldrich in 1892 some ten years after he and his wife had presented the state with their magnificent collection of autographs and other historical material. The state historical building is 260x110 feet in size and cost \$375,000. In it are found not only the state's collection of historical material of every kind, the state historical and genealogical library, a wonderful portrait collection, the state museums, and the priceless state archives, but also the state traveling library, the state medical library, and the state vital statistics records. The Kasson memorial hall, a short distance away, has recently been purchased by the department for an archives work room and is partly used for that purpose.

The rapidly expanding business of the state, especially incident to the war activities, compels the use for offices of various buildings left on

the capitol grounds including two abandoned schoolhouses, some residence apartments and a house which was for a time used as a residence for the governor.

When the authority was given for the enlargement and extension of the capitol grounds, the Thirty-fifth General Assembly embodied in the law a plat to be followed in landscaping and locating buildings; and this general plan contemplates a building constructed especially for state offices, many of which are now in rented business buildings, another for the supreme court and law library, the completion of the state historical unit by addition of a war memorial and archives wing, erection of a new heating plant, a home for the governors, and further landscaping and beautifying of the capitol grounds. When thus completed, Iowa will have one of the most complete plants for transaction of state business and the most extensive capitol park in the United States.

The magnificent golden dome of the capitol, one of the largest in the world, is a landmark that can be seen for many miles. The capitol, the state historical building, and the capitol park are visited annually by thousands of people of Iowa and tourists from other states. On the grounds there are several very large native trees, and the grounds are further adorned by many shrubs, trees and flowers.

In 1878, the Seventeenth General Assembly created a board of railroad commissioners consisting of three members to be appointed by the governor and confirmed by the executive council. In 1888, the Twenty-second General Assembly passed a law making the commissioners elective. In 1937, the Forty-seventh General Assembly, by house file 133, changed the name from "board of railroad commissioners" to "Iowa State Commerce Commission".

The powers and duties of the Iowa state commerce commission are: to generally supervise all railroads in the state, both steam and electric, except street railroads; to inquire into any neglect or violation of the laws of the state by any railroad corporation doing business therein; to make examinations and inspections of the physical condition, conduct and management of such railroads and report their condition to said companies; to stop and prevent railroad companies, under certain circumstances, from running or passing their trains over unsafe bridges; to adjudge changes in station houses, rolling stock and rates of fare; to pass on necessity for spur tracks to be constructed and maintained not exceeding three miles in length to an existing industry under terms and conditions approved by the commission as set out by law; to make reasonable rules for the crossing of steam and interurban railways and to require, when necessary, interlocking switches at railroad crossings; to make report on first Monday in December in each year to the Governor of its doings for the preceding year accompanied with appropriate suggestions and recommendations; to receive, tabulate and report upon the annual reports filed with it by railroad companies; to examine any of the books, papers or documents of any such corporation; to examine under oath employees of such corporation; to issue subpoenas, administer oaths and compel the attendance of witnesses; to make and fix maximum schedules of freight rates for such corporations, such schedules to be deemed reasonable until disapproved; to examine into rates in force, upon complaint that the rate charged by a railroad company, or that the maximum rates fixed by the commission are unreasonably high or discriminating, and to fix the rate again, which must not be higher than any rate established by law, such decision of the commission being prima facie evidence that the rate so made is a reasonable minimum rate; to bring suits to enforce its orders; to inquire into the management of the business of such carriers and to obtain from them full and complete information necessary to enable the commissioners to carry out the objects of the law; to hear, investigate and determine all complaints alleging unreasonable rates, unjust discrimination, undue preference, violation of the long and short haul clause, or other infractions of the commission law, and make proper orders thereupon; to establish joint through rates, upon application, over two or more connecting lines; and to have the same authority over express companies as the act confers concerning railroads.

Before a railroad company may appropriate coal, coke or oil received for shipment, it must first secure the written consent of the commerce commission.

Before any railroad company may condemn lands for additional depot grounds, or for straightening or relocating track, the permission of the commission must be obtained. Interlocking switches may be placed at grade railroad crossings or draw bridges, thus obviating the necessity of stopping trains before passing over such grade crossings or draw bridges, but before the interlocking switch may be used consent of the commission must be obtained.

The Thirty-fifth General Assembly gave to the commission the power to grant to individuals or corporations "engaged in the manufacture, sale or distribution for sale of electric current for light, power or heating purposes, the right within the state, except in cities and towns, to erect and maintain poles, wires, towers, fixtures and other necessary construction for the purpose of conducting electricity for lighting, power and heating purposes, over, along and across any public lands, highways or streams or the land of any person or persons, and to acquire the necessary interests in real estate therefor." It also provided that transmission lines proceeding under the provisions of the law should be subject to "such reasonable regulations as the commission may from time to time prescribe."

The commission is directed by an act of the Thirty-ninth General Assembly to "undertake and carry forward such investigation and preparation as shall be necessary to properly represent the interests of the state in connection with the valuation of the property of common carriers now being conducted by the Interstate Commerce Commission."

An act of the Forty-sixth General Assembly amended by the Forty-eighth General Assembly provides that operators of grain elevators must be licensed in order to receive grain for storage. It also makes provisions for using warehouse receipts issued by the warehouseman on his own products and on products for others as collateral for financing loans. The act also provides for storage of other agricultural products and products principally consumed on farms, in warehouses of types different to that of grain elevators which cover such products as wool, canned goods, sugar, seed, commercial feed, etc.

The Fortieth General Assembly conferred on the commission the power to issue certificates authorizing motor carriers to operate over the public highways of the state, upon a showing that the proposed service would promote "the public convenience" and authorized the board to prescribe rules and regulations for the operation of motor vehicles used by such carriers "for the protection and safety of the public." The Forty-first General Assembly revised the laws on this subject, but left their administration with the railroad commission.

The Forty-third General Assembly provided for the supervision or regulation by the commission of persons operating motor trucks principally used for the public transportation of freight for compensation, not operating over regular routes nor between fixed termini.

The Forty-fourth General Assembly provided that pipe lines shall be subject to regulation by the board under a permit issued by the board.

COMMERCE COUNSEL

The Thirty-fourth General Assembly created the office of commerce counsel, to be appointed by the Iowa State Commerce Commission for a term of four years, subject to confirmation by the senate. The law provides that the counsel may appoint assistants, subject to the approval of the commissioners.

The duties of the office briefly are as follows: legal advisor of the Iowa State Commerce Commission; investigate and present matters with reference to interstate rates, and prosecute same before the Iowa State Commerce Commission or before any court to which same may be taken; investigate on his own motion, or at request of the State Commerce Commission, all matters involving interstate rates in which the people

of Iowa are interested or affected, and present same to the Interstate Commerce Commission and prosecute to final determination; act as attorney and counsel for and represent the Iowa State Commerce Commission in all courts of this State or the United States, in which the validity of any order of the State Commerce Commission is in issue; to institute and prosecute in any of the courts any and all suits necessary for proper enforcement of any rule or order of the said Iowa State Commerce Commission or make defense therein wherever said rule or order may be questioned or involved.

Iowa School for the Blind—Vinton

Leslie M. Hays, Superintendent

The aim and purpose of the Iowa School for the Blind is purely educational. The course of study includes not only the subjects leading up to and required for admission to the colleges and the universities of the state, but also subjects that aim to prepare the students for some of the occupations in which it has been demonstrated that the blind are usually successful. After a pupil of this school reaches the high school department, he is given some latitude in the choice of courses of study. Both literary and industrial work is required of all students, besides some music.

Iowa School for the Deaf—Council Bluffs

Lloyd E. Berg, Superintendent

The Iowa School for the Deaf was established in 1855, the second such institution west of the Mississippi river. In 1839 Edmund Booth came to Iowa from Connecticut and settled at Anamosa. In 1846 he was a clerk in the Territorial Legislature, of which his brother was a member. The two induced the legislature to appropriate money to send several deaf children to the state school in Illinois. In 1853 a private school was established in Iowa City. In January, 1855, the Iowa State Legislature passed a bill creating the Iowa State Institution for the Deaf and Dumb. From this grew the present school at Council Bluffs; the name being changed to Iowa School for the Deaf in 1888.

In character the school is just what its name implies. It cares for the mental, physical and moral welfare of boys and girls between the ages of seven and nineteen.

The Iowa Employment Security Commission was created by the 46th General Assembly by the enactment of the Iowa Employment Security Law (formerly called the Iowa Unemployment Compensation Act) in 1936.

The Commission is charged with the administration of the Iowa Employment Security Law which provides for the payment of weekly unemployment benefits to eligible workers who become unemployed. The Commission is the legally constituted authority in Iowa for the purposes of carrying out the provisions of the Wagner-Peyser Act in establishing a free public employment service.

Unemployment insurance, by means of a tax based upon payrolls, creates a fund from which benefits are paid to workers when they become unemployed.

The objectives of the program are: (1) to encourage and assist industry in providing more stable and uniform employment; (2) to provide benefit payments to workers who become unemployed through no fault of their own; and (3) to maintain a free public employment service.

In general, only employers of eight or more are covered by this law, but employers of less than eight persons may become subject to the act upon application to the Commission. Employers who are liable under the act are required to pay contributions to provide funds for the payment of unemployment benefits. Under experience rating provisions the contribution rate varies in accordance with the employment experience of the individual employing unit. If the employment record of an employer is favorable his contribution rate will be lower than the standard rate; if, however, his employment experience is unfavorable, his contribution rate will be higher.

Workers who are employed by employers covered by the act, build up wage credits, and upon becoming unemployed, if found eligible, are paid benefits of approximately one-half their former full-time weekly wage, not to exceed \$20 per week, for a maximum not to exceed 20 weeks in a benefit year.

Under an agreement with the United States Veterans' Administration the Commission administers Title V of the Servicemen's Readjustment Act of 1944 as it applies within the state of Iowa. This title provides for the payment of readjustment allowances to veterans of World War II. Veterans who are unemployed and eligible may receive allowances of \$20 a week for a total not to exceed 52 weeks. Self-employed veterans whose net earnings do not equal \$100 in a calendar month are eligible for an allowance equal to the difference between their net earnings and \$100.

The Iowa State Employment Service was organized in 1933 under the terms of the Wagner-Peyser Act of Congress. Administrative control was placed in the State Commissioner of Labor. With the enactment of the Iowa Employment Security Act in 1936, administrative control of the employment service was vested in the Employment Security Commission.

The Iowa State Employment Service, through a system of 32 full-time offices and an itinerant service which extends into every county, provides a complete and efficient system of registration, counseling and placement of workers which is alike valuable to the employer and the worker.

Under terms of Title IV of the Federal Readjustment Act the employment service renders an effective job counseling and employment placement service for veterans providing for them the maximum of job opportunity in the field of gainful employment.

Claims for benefits to workers under the Employment Security Law and applications for veterans allowances are received at all offices of the Iowa State Employment Service.

A few days after the entry of the United States into World War II, the Iowa State Employment Service, upon the request of the President, was made available to the director of the United States Employment Service for the purpose of recruiting manpower for the prosecution of the war. During the period of the war all offices of the employment service continued to perform services required in the taking and handling of claims for unemployment insurance benefits. Upon November 16, 1946, the employment service was returned to state control.

This Commission also administers the Iowa Old Age and Survivor Insurance System which was established by the 51st General Assembly. The system provides for the payment of annuities to public employees of the State of Iowa and its political subdivisions upon retirement at age 65 or to their survivors. Taxes in support of this system have been collected since January 1, 1946.

GEOLOGICAL SURVEY

Geological Board, ex-officio

ROBERT D. BLUE, Governor.

CHET B. AKERS, Auditor of State.

VIRGIL M. HANCHER, President, State University of Iowa.

CHARLES E. FRILEY, President, Iowa State College.

J. ALLEN BAKER, President, Iowa Academy of Science.

Director and State Geologist, H. Garland Hershey, Iowa City, appointed by the geological board to serve during the pleasure of the board.

It is the duty of the Geological Survey to gather and supply information on surface and underground water supplies of the state, coal, gypsum, sand and gravel, ceramic clays and shales, limestone, and raw materials for making cement and rock wool. Special studies are in progress of the oil and gas possibilities, particularly in southwestern Iowa, and the geological parts of the oil and gas law are being administered. The search for new products and for new uses of materials already under production goes on continuously. Collection and dissemination of data on stream flow and sediment loads and lake levels and on water wells, water levels, etc., is accomplished in cooperation with the Water Resources Branch of the United States Geological Survey. Information, advice and direct assistance in the development of increasingly large supplies of water are freely given to the limit of funds and personnel. Surveys are in progress in order to meet the rapidly increasing demand for agricultural lime, especially in counties where the need is great and the present supplies are inadequate or wanting.

As a part of the result of its work, the Survey has published 38 volumes of annual reports and accompanying papers. These publications include special reports and maps covering the geology and mineral resources of all but 6 of the 99 Iowa counties, and also special reports on mineral products of all sorts. There are also three technical papers on Iowa coal and two water supply bulletins beginning a new series on the state's water supplies.

Communicable and Preventable Diseases

Preventable diseases are by their very nature of vital concern to the community and the state. Reports of various infectious diseases are received daily from physicians and health officers throughout the state. These reports are surveyed and tabulated so as to make possible a study by weeks and months of the current prevalence of disease as compared with the preceding year and period of years. Field investigations are made upon request of local health officers or other officials, to determine the nature and extent of outbreaks and to assist with control measures. The department through articles, reports, literature, talks, correspondence and graphic presentations, aims to inform the public about disease prevention.

Emphasis in the pneumonia control program is on lowering the number of deaths from this cause, through accurate laboratory diagnosis and modern treatment. Diagnostic serum is supplied without charge to hospital typing stations; sulfa drugs and serum are furnished for treatment of underprivileged patients.

The division of tuberculosis is directed by a physician with special training and experience, aided by nurses who have specialized in the study of tuberculosis. Staff members cooperate with attending physicians and health officers in the reporting of cases, in the conduct of special surveys and in measures to prevent the spread of tuberculosis.

Every effort is put forth in cooperation with physicians, to obtain complete reports of venereal disease cases. This work is carried out under the direction of physicians and nurses with special training and experience. Control measures include provision for the care of indigent patients with particular reference to follow-up work and investigation of sources of infection.

The department's serum-plasma center prepares and distributes convalescent serum for prevention and control of diseases such as measles, scarlet fever and whooping cough. The serum-plasma center cooperates with many hospitals in Iowa, in the distribution of pooled plasma and serum for emergency civilian needs.

Maternal and Child Health

The activities of the division are designed to make known to those concerned, the health needs of mothers and children and how they should and can be met. These activities are directed in the fields of medicine, dentistry, and nutrition by personnel specially trained in those fields. For the war period a special service was added to provide prenatal care at home and delivery care at the University Hospital for the wives of servicemen under the rank of commissioned officer who otherwise were unable to obtain it.

Public Health Nursing

The department maintains a division of public health nursing and provides a whole-time supervisory service for public health nurses and an advisory service for boards employing nurses and for associations or committees interested in public health nursing.

The public health nurse:

1. Helps to secure early medical diagnosis and treatment for the sick.
2. Renders or secures nursing care of the sick, teaches through demonstration and supervises care given by relatives and attendants.
3. Assists the family to carry out medical, sanitary and social procedures for the prevention of disease and the promotion of health.
4. Helps to secure adjustment of social conditions which affect health.
5. Provides information regarding sound public health nursing practices to the community and cooperates actively with community agencies in the improvement of health conditions.

Public Health Engineering and Industrial Hygiene

Preventing spread of disease through environment sources—that is the goal of public health engineering and industrial hygiene. Duties may be enumerated as fact-finding, advisory, educational and law enforcement, with emphasis on the first three. Engineering activities have to do with public water supplies; public sewerage, sewage and waste disposal; stream pollution; swimming pools; industrial establishments; various public health nuisances; plumbing; housing, and numerous other natural and artificial facilities requiring sanitary safeguarding.

Vital Statistics

The division is charged with the collection, recording and filing reports of births, deaths, marriages and divorces. Statistical studies and analysis of these records are made and the results of these studies are released for the information of the public. The division supervises the work of the local registrars of vital statistics and cooperates closely with the bureaus of census, department of commerce, Washington, D. C.

The division issues certified copies of any of the records it has on file, for a fee of fifty cents.

If you were born in Iowa and your birth record is not on file, you can place it on file by completing a delayed birth certificate, which you may file with the county clerk in the county where you were born, or send it direct to this office.

Law Enforcement

The work of the division of law enforcement is under the direct supervision of an attorney, who is required to make investigations of violations of Title VIII, Code, 1939, securing all available evidence and reporting to the commissioner of public health. Upon request of the state department of health, the attorney general is required to institute, in the name of the state of Iowa, proper proceedings against any person charged by the department of health with violating any of the provisions contained in Title VIII, entitled "The Practice of Certain Professions Affecting the Public Health."

Public Health Education

In the prevention and control of disease, public health education supplements the tools, skills and learning of the medical, dental, engineering and nursing professions.

Public health education uses motion pictures, news releases, recordings, speakers, posters, exhibits, pamphlets and other media to tell the health story.

Division of Local Health Services

The correlation and extension of the activities of the various divisions of the state department, making their services obtainable to the entire population of the state, through the various district and county health services.

In 1923 vice-president, and in 1924 president of the American Association of State Highway Officials. From 1924 to date, member executive council American Association of State Highway Officials. On October 31, 1912, married Miss Mary C. DeHart of Keosauqua; father of two children, Margaret Ellen and James Warren.

The first law creating a state highway commission in Iowa was adopted by the General Assembly in 1904. That law simply stated that the Iowa State College should act as a state highway commission. Acting under said law, the state board of education appointed Dean Anson Marston of the engineering division, and Dean Chas. F. Curtiss of the agricultural department, of Iowa State College, as the directors of the commission. Thomas H. MacDonald, now chief of the U. S. bureau of public roads, was appointed by the directors as secretary and engineer for the commission. The duties of the commission at that time were to make investigations and studies of highway conditions and to advise with local authorities with respect to highway improvements.

This organization continued until 1913, when the Thirty-fifth General Assembly passed an act creating a state highway commission of three members and separated said commission from the Iowa State College.

In 1927 the General Assembly passed an act which now appears as chapter 238 of the Code of 1939, creating a state highway commission of five members, all to be appointed by the Governor, not more than three of whom could be from the same political party.

The law of 1927 placed the primary road system under the direct control and supervision of the state highway commission. Thomas H. MacDonald, who became secretary and engineer of the highway commission in 1904, was designated as chief engineer of the highway commission in 1913 and continued in that capacity until 1919, when he resigned and F. R. White, present chief engineer of the state highway commission, was appointed to that position.

The highway commission's duties are threefold:

First: Construction and maintenance of primary roads.

Second: General supervision of secondary roads.

Third: Engineering assistance to other departments.

The commission has entire charge of and responsibility for all construction and maintenance work on the primary road system. It prepares the necessary surveys, plans and specifications for primary road improvements, lets the necessary contracts and supervises the construction work. It has charge, for the state of Iowa, of the expenditure of all federal aid road funds allotted to this state.

All maintenance work on the primary road is under the supervision of the commission.

The secondary roads (county and township roads) are under the supervision of the county boards of supervisors in their respective counties. However, the law places on the highway commission certain duties and responsibilities in connection with such secondary road work. Changes in or modifications of the county trunk road system must be approved by the commission. Secondary road construction programs proposed by the county boards must receive the commission's approval. Plans prepared by the county engineers for secondary road improvements must be submitted to the state highway commission for approval. Contracts awarded by the boards of supervisors for secondary road work involving a cost of \$2,000 or more per mile, or more than \$5,000 in the aggregate, or more than \$2,000 for any one bridge or culvert, must be approved by the state highway commission before becoming effective. In case two adjacent counties are unable to agree on any county line or road or bridge construction or maintenance matter, either board may appeal to the highway commission to determine said controversy.

The commission, on request, renders engineering assistance to various other state departments. This includes the making of surveys and preparation of plans and general supervision of construction and maintenance of public highways upon or adjacent to lands belonging to the state at the various educational, charitable, and penal institutions and at the state parks, engineering assistance to the executive council on street improvements upon and adjacent to the capitol grounds, assistance to the national guard on projects in connection with the national guard camp, and various other technical matters which may come before such other state departments.

Industrial Commissioner

Born on a farm near Fruitland, Muscatine County, Iowa, July 15, 1883. Educated in Muscatine county schools. Resided continuously in the same community with the exception of six years, while employed in a retail drug business. For a period of 35 years was a grower and shipper of Muscatine Island produce. Member of Methodist Episcopal Church, Knights of Pythias and Masonic Orders, Kaaba Temple—A.A.O.N.M.S., Zerapath Consistory and Eastern Star. Elected to State Senate from Muscatine and Louisa counties in 1934; re-elected in 1938. Appointed Industrial Commissioner by Governor B. B. Hickenlooper in 1943.

The Workmen's Compensation Law of Iowa was first enacted by the Thirty-fifth General Assembly in 1913, which made Iowa among the first states to provide compensation benefits for injuries sustained by industrial workers. Since that time many changes have been made by succeeding legislatures increasing the benefits thereunder.

The Fifty-first General Assembly of Iowa established a Second Injury Fund, which was primarily for the benefit of returning veterans, who were maimed by loss of members which would make it difficult for them to obtain employment, since the compensation law provides for increased benefits for the loss of a second member. Now the employer may hire a maimed individual and yet only be liable for the loss of the member he actually loses in his employment. The fund is created by the employer paying to the State Treasurer \$100.00 for the benefit of this fund upon the death of any employee whose injury arises out of and in the course of his employment.

From July 1, 1945, to July 1, 1947, 49,480 workers sustained injuries in Iowa industry, of which 18,694 received compensation. 187 of these injuries were fatal.

The Fifty-second General Assembly enacted what is known as the Iowa Occupational Disease Law covering 16 diseases and will now compensate employees for certain diseases which may occur by reason of the process or nature of their occupation.

The weekly benefits have been increased from \$18.00 to \$20.00 per week, and the hospital and medical benefits have been increased from \$600.00 to \$800.00, the nursing and ambulance services are to be paid in full in addition to this increase.

Reports of all industrial injuries resulting in temporary disability of more than seven days or those injuries resulting in permanent partial or permanent total disability, or death, are made to the Industrial Commissioner, and all controversial questions are decided by hearings before the Commissioner or his deputies, subject to appeals to the state courts.

Member American Legion, Kiwanis, and fraternal orders. Hamilton County Attorney for six years, and member Webster City School Board for four years.

The office of Commissioner of Insurance, as the executive head of the insurance department of Iowa, was created by chapter 146 of the laws of the Thirty-fifth General Assembly (1913) and the first commissioner took office July 1, 1914. Previous to that time, the supervision of insurance had been under the direction of the auditor of state.

The commissioner of insurance has general control, supervision, and direction over all insurance business transacted in the state, and is charged with the responsibility of enforcing all the laws of the state relating to insurance.

Under the law, all securities in which the reserves of Iowa life insurance companies are invested are required to be deposited with the commissioner and complete records are kept showing each item on deposit at all times. The amount of approved securities representing these and other incidental deposits in the hands of the commissioner on June 1, 1947, amounted to \$882,414,588.40.

The commissioner supervises all transactions relating to the organization, reorganization, liquidation and dissolution of domestic insurance corporations. He supervises the sale in the state of all stock or other evidences of interest either by domestic or foreign insurance companies. He is the statutory receiver in the event of liquidation of any Iowa insurance company.

All foreign companies, as well as all local companies, must, before engaging in the insurance business in this state, obtain a certificate of authority from the commissioner of insurance. These certificates expire annually on April 1st, and action is taken on their renewals after analysis of complete financial statements filed covering the condition of the company as of the previous year end. All insurance agents must like-

wise obtain individual licenses to solicit business. In 1947 there were 804 insurance companies authorized in the state, and approximately 65,000 individual agents' licenses were issued.

The Fifty-second General Assembly enacted a statute effective October 1, 1947, which requires insurance companies to file all rates with the insurance commissioner for approval, together with supporting data therefor. This will necessitate the immediate establishment of a rating department.

The commissioner conducts examination of all domestic insurance organizations every two years. He may also make an examination of any foreign insurance company authorized or seeking to be authorized to do business within the state. All policy forms used by any company within the state are required to be approved by the department.

The Commissioner is a member of the National Association of Insurance Commissioners composed of the insurance supervising officials of each of the various states and meets with and cooperates with this organization in the many matters that arise involving the common interests of the separate states in insurance matters.

Securities Department

The state securities laws, designed to protect the Iowa investing public through regulation of securities dealers and qualification of securities offered for sale, are administered by the commissioner of insurance.

The commissioner also has jurisdiction over the sale of stock on the installment plan and sale of memberships or certificates of membership entitling the holder thereof to purchase merchandise, materials or services on a discount or cost-plus basis.

DEPARTMENT OF PUBLIC SAFETY

(Office located on basement floor of Capitol Building)

Commissioner appointed by the Governor—term four years.

Term expires July 1, 1951.

ALFRED W. KAHL, Pottawattamie County, Commissioner.

KAHL, Alfred W., Council Bluffs
Republican
Commissioner of Public Safety

Born in Irwin, Iowa, September 9, 1910. Attended Irwin, Iowa, high school. Graduated from the Law College of the State University of Iowa in 1935. Admitted to Iowa Bar Association in June, 1935. In charge of a Civil Conservation Corps camp in Minnesota from 1936 to 1940. Later headed a CCC supervisors' school in St. Paul. Entered the Army as a first lieutenant in 1941 and was assigned to Lowry Field where he served as a squadron adjutant and later as Staff Judge Advocate. Served overseas for 25 months in Australia, the Dutch East Indies, New Guinea and the Philippines in command of an anti-aircraft unit. Discharged from the Army in the rank of colonel. Married but without children. Appointed Commissioner of Public Safety by Governor Robert Blue, January, 1947.

The Iowa Department of Public Safety was created by the Forty-eighth General Assembly in 1931 by consolidating several bureaus and divisions under one executive head designated as Commissioner of Public Safety. One of the obvious purposes of the legislature in the creation of this department was to facilitate the cooperation and coordination of the law enforcement agencies of counties, cities and towns.

The work of the department may best be explained by setting forth the activities of the several divisions as follows:

Division of Highway Patrol

S. N. JESPERSEN, Polk County, Chief.

The Iowa Highway Safety Patrol was created by the Forty-sixth General Assembly with a personnel of fifty-three men which was expanded by the Forty-seventh General Assembly to one hundred twenty-eight men. This number was increased to one hundred sixty by the Fifty-first General Assembly.

The original duties of the Iowa Highway Safety Patrol were to enforce all provisions of the motor vehicle laws relating to the regulation of motor vehicles and laws of the road, with power to arrest without warrant any persons or persons committing or attempting to commit within their presence or view a breach of peace or other violation of the law. The Forty-eighth General Assembly broadened the scope of their powers by providing that they shall have and exercise all the powers of any peace officer of the state. There are, however, certain restrictions on the exercise of their general powers, which restrictions, as well as duties, will be enumerated in full in Chapter 80 of the Code of Iowa, 1946.

Members of the Highway Safety Patrol give examination to applicants for operators' and chauffeurs' licenses, conduct hearings in connection with suspension and revocation of operators' and chauffeurs' licenses, and investigate serious accidents occurring upon the highways of the state.

Division of Criminal Investigation

R. W. NEBERGALL, Story County, Chief.

The Division of Criminal Investigation is a specialized bureau which cooperates with and supplements the work of local officers of the State of Iowa. It is not a local policing unit but serves the law enforcement officers of counties and municipalities as a central agency to which all may come for help on difficult criminal investigations. It is also charged with responsibility for certain matters involving the internal security of the State of Iowa. In addition, it is called upon to investigate matters involved in the functioning of state government and cooperates with the various elective and appointive officers of the state in all such matters.

There are three main subdivisions of the Division of Criminal Investigation; namely, the Investigative Section, the Identification Section, and the Technical Laboratory.

The Investigative Section is concerned with the work of the Special Agents of the Division. Upon receiving a request for aid from a duly authorized law enforcement officer, a Special Agent is given a definite assignment by Chief Nebergall to assist that officer in the investigation of the specific case. Daily reports are required from all Special Agents and these are carefully studied and reviewed with the Special Agent before an arrest is made. Investigations conducted by Special Agents of this Division range from cases involving murder, rape, robbery, extortion, bank robbery, etc., on down through the entire category of major crime.

In the Identification Section is a huge storehouse of information. Here are kept the fingerprints of all criminals, a civilian fingerprint file for personal identification, files of modus operandi of various classes of criminals including their photographs, a criminal record file which reflects in chronological order each arrest and sentence of the subject and a card index file including the name and all aliases known to have been used by the subject.

The fingerprint files in this Division constitute the clearing house of criminal records for the State of Iowa. Under Iowa law Sheriffs and Police Departments are required to fingerprint those arrested for commission of specified types of law violations and to forward copies of such fingerprints to this Division. Fingerprints have long been recognized as the only infallible method of personal identification known to man. As the fingerprint cards are received they are classified and searched against the master fingerprint file. If they are identified with a previous record, a complete transcript of that subject's criminal record, as contained in the files of the Division, is immediately forwarded to the agency which submitted the fingerprints.

The Technical Laboratory of the Division of Criminal Investigation is a modern crime laboratory which utilizes the aid of science in the solution of crime mysteries which frequently could not be solved in any other way. One of the important services rendered by the laboratory to local officers is the comparison of handwritings, particularly in fraudulent check cases; however, the problems are many and varied. They may involve a question of fraudulent alteration of a document, the restoration of faded or obliterated writings, comparison of typewritten material, or possibly a comparison of inks or papers. Requests are frequently made for a comparison of writing or printing on anonymous or poison pen letters.

Photography is an important tool of the modern, trained investigator and the Technical Laboratory is equipped to handle any photographic problem from "shooting" the crime scene to the use of ultra-violet light in photographing for permanent record invisible stains, invisible writings and alterations on documents, latent fingerprints on multi-colored surfaces, etc. The sciences of biology, chemistry and physics also play important parts in the work done in the Technical Laboratory. This work includes spectographic examinations, firearms identification, microscopic examinations, lie detector tests, examination of tool marks, restoration of obliterated serial numbers on metal and rubber objects and the examination of glass fractures, to mention only a few.

The services of this bureau, including testimony of the Special Agents and technicians in court, are services of this department of State government which are available without charge to all duly constituted law enforcement agencies and the courts of this State upon their request.

Division of Police Radio Communication

CHARLES J. NORD, Cass County, Superintendent.

The division of Radio Communication of the Iowa Department of Public Safety is charged with the operation of the State Police Radio System consisting of police radio stations at Des Moines, Cedar Falls, Storm Lake, Atlantic, Fairfield and Maquoketa. This division is also responsible for the installation, maintenance and servicing of the two-way radio equipment in the one hundred thirty Highway Patrol and Bureau of Investigation cars. The services of the police radio system are available to all officers of the state and special routine orders for the special agents of the Division of Criminal Investigation and members of the Division of Highway Patrol are referred to the Radio Communication Division for immediate dispatch.

During the year ending December 31, 1946, the radio system broadcast 3,949 items of stolen cars, wanted persons, runaways, etc., of which 2,987 have been cancelled as recovered, apprehended or located, showing the effectiveness of radio in police work. In addition 5,050 messages directed to specific officers or departments were originated, 18,048 dispatches were made to one-way cars, 128,718 contacts were established with two-way cars, 5,000 checks on automobile and drivers' licenses were made and 6,003 messages relayed to departments outside the state system.

Division of Fire Protection and Investigation

JOHN W. STROHM, Clinton County, Fire Marshal

The principal duties of the State Fire Marshal are to cause immediate investigation to be made of the cause, origin and circumstances of every fire occurring within the state, when so requested by any official with proper authority; to determine if any buildings or structures, by reason of want of proper repair or by reason of age and dilapidated conditions are especially liable to fire and to order their repair or removal; to inspect liquefied gas systems and order correction of improper installations; to inspect buildings with relation to fire escapes and exits, and order correction made as may be necessary; to require teachers in public and private schools to have at least one fire drill a month and to instruct the pupils at least four times a year in the causes and dangers of fires.

For the purpose of enforcing the orders of the fire marshal suitable penalties and fines are provided and he and his deputy are empowered to administer oaths and compel the attendance of witnesses. If the state fire marshal shall be of the opinion that there is evidence sufficient to charge any person with the crime of arson or criminal conduct in connection with any fire, he shall cause such person to be arrested.

Reports are required to be made to the fire marshal by all chiefs of fire departments of each and every fire, and where there is no established fire department the report is to be made by mayors and by township clerks outside the incorporated cities and towns.

Division of Operators' and Chauffeurs' Licenses

CLARENCE A. SHIRER, Butler County, Superintendent

The primary functions of this division of the Department of Public Safety are: (1) the issuance of operators' licenses to those qualifying under the law, either through examinations conducted by the highway patrol, or through regular renewal; (2) the enforcement of statutory provisions governing suspension, revocation, and denial, of operators' licenses, enacted for the removal from the highways of those persons who are physically or mentally incompetent to operate a motor vehicle with safety, and those persons whose driving actions seem to indicate a disregard of the value of their operating privileges; (3) the maintenance of an accumulative permanent record on each driver showing all violations, restrictions, accidents, or suspensions or revocations against his driving record.

Division of Motor Vehicle Registration

G. H. HESSE, O'Brien County, Superintendent.

The Motor Vehicle Registration Division of the Department of Public Safety has jurisdiction over the licensing of motor vehicles of itinerant merchants, official and non-resident vehicles.

Residents of the State of Iowa license their motor vehicles at the county treasurers' offices in the counties in which they live. Official vehicles

and vehicles that are domiciled and operated in the State that are owned by non-residents are licensed by the Department at the State House in Des Moines, Iowa.

The 1946 registration receipts are as follows:

Automobiles	\$7,266,651.87	
Commercials	4,463,384.80

Itinerant merchants are licensed by the Department at the State House, and automobile dealers are licensed by the Automobile Dealers Division, which is a part of the Motor Vehicle Registration Division.

Safety Responsibility and Accident Records

K. F. NEU, Mason City, Director.

The 52nd General Assembly passed the Motor Vehicle Financial and Safety Responsibility Act which will bring into being a new office in the Public Safety Department to be called Safety Responsibility and Accident Records. Safety Responsibility was combined with Accident Records and began operation as a single coordinated unit on October 1, 1947. The work of Accident Records is to tabulate all motor vehicle accidents and Highway Patrol summons and warning tickets. Statistical reports are made regularly relative to all accidents occurring on the highways of this state.

The overall purpose of Safety Responsibility and Accident Records will be to administer the Financial and Safety Responsibility Act which requires: (1) any motorist involved in a reportable accident to post proof with the Safety Department of his financial ability to pay for the damages arising from that accident, and (2) any motorist convicted of a traffic violation involving suspension or revocation of his license to post proof of financial responsibility for the future before he may again receive a driver's license.

Division of Safety Education

JESSE W. HALDEN, Newton, Director.

The Division of Safety Education was created by the Forty-eighth General Assembly for the purpose of promoting highway safety education. This division cooperates with the national, state and county safety councils in various safety activities and renders other valuable service in promotion of safety upon our highways.

A safety film library and exchange is maintained by this division. Field men for Safety Education travel to all parts of the state deliver-

ing lectures, showing films, giving demonstrations and drivers' tests, and aiding in local safety promotions. The Office of Safety Education also undertakes to keep the people of Iowa informed on accident trends, new traffic legislation and safety measures. Extensive mailing lists are maintained in this office for the distribution of posters, pamphlets and printed safety material to all schools and to organizations interested in promoting safety.

Division of Dealers' Licenses

L. B. CHASE, Polk County, Superintendent.

An act passed by the 47th General Assembly established the Motor Vehicle Dealer's License Division for the purpose of prohibiting and preventing irresponsible, unreliable or dishonest persons from engaging in business of selling, bartering or otherwise dealing in motor vehicles and to encourage reliable persons to engage in the business of selling motor vehicles. In order to become a licensed dealer in Iowa, a person must meet the requirements in the act and before entering into the business of selling motor vehicles at retail, he must secure a license as provided by the Act. At the present time there are 2,175 motor vehicle dealers and 150 motorcycle dealers in Iowa.

ROAD SYSTEM

Twenty-five years have elapsed since Iowa first assumed definite responsibility for a system of state roads, built directly by the state and financed by state and federal funds. The legislature of 1917 took action looking toward the establishment of an inter-county system of roads and making provisions for meeting the requirements of the first federal aid act passed by Congress in 1916, but owing to the world war situation very little was done prior to 1919.

The following is the mileage of rural highways in Iowa on December 31, 1944, classified by number of miles surfaced, number of miles not surfaced, giving the percentage for each system and totals of all rural systems:

The Government of Iowa*

The government of the state of Iowa is based upon a constitution adopted by the people and upon statute laws enacted from time to time by the general assembly. Iowa has had two state constitutions, the first approved in 1846, the second one in 1857. The present constitution has been amended a number of times.

The Electorate—All men and women who have lived in Iowa for six months and in the county in which they claim residence for sixty days are entitled to vote if they are citizens of the United States and are twenty-one years of age or over. Persons convicted of infamous crimes and those declared idiotic or insane are, however, disfranchised. The right of women to vote in Iowa is based upon the nineteenth amendment to the United States Constitution.

Election Days—The regular elections for national, state, district and county officers are held on the Tuesday following the first Monday of November of the even-numbered years. Candidates, with a few exceptions, are nominated at the primary election held on the first Monday in June preceding the general election. Provision is also made for nominations by petition or convention. Political parties must use the primary for nominating candidates, but in case no candidate receives the necessary thirty-five per cent at the primary, a convention may nominate.

The Legislative Department

General Assembly—The legislative authority of the state of Iowa is vested by the constitution in a general assembly which consists of a senate and a house of representatives. The terms of both senators and representatives begin on the first day of January following their election. Regular sessions are held biennially, commencing on the second Monday of January of the odd-numbered years. Special sessions of the general assembly may be called by the proclamation of the governor.

House of Representatives—The house of representatives consists of one hundred and eight members, elected for two years. Each of the ninety-nine counties is entitled to one representative and each of the nine counties having the largest population elects an additional representative. Any person who has resided in the state for one year and has the qualifications of a voter is eligible for election as a representative. Women were admitted to the general assembly by an amendment to the state constitution adopted in 1926. The house of representatives elects a speaker and other officers.

Senate—The senate consists of fifty members, elected by districts for a term of four years. A senatorial district contains from one to three counties, according to population, and elects one senator. According to the constitution, approximately one-half the senators are to be elected at each alternate biennial election, but due to changes in the districts, the terms of twenty-one senators now expire at the end of each alternate legislative biennium and those of twenty-nine in the intervening years. Senators must be twenty-five years of age and have the other qualifications required of representatives.

The Executive Department

Elective Officers—The constitution of Iowa makes provision for a governor, lieutenant governor, secretary of state, auditor of state, and treasurer of state, who are elected for terms of two years at the regular biennial elections in the even-numbered years. In addition, the general assembly has made provision for a secretary of agriculture, elected for two years, and a board of commerce commissioners of three members and a superintendent of public instruction, chosen for four years.

Governor—The supreme executive power of the state is vested in the governor. It is his duty to see that the laws are enforced, to supervise the official business of the state, to make recommendations to the general assembly, and to appoint various officers and boards. He has the power to call special sessions of the legislature and to veto acts passed by the general assembly, but a majority of two-thirds of each house may pass a bill over his veto. To qualify as governor, a person must have been a citizen of the United States and a resident of the state for at least two years and must be thirty years of age or over at the date of election.

Lieutenant Governor—The lieutenant governor succeeds the governor in case of his death, resignation, or disability. His chief function is to act as president of the senate.

Appointive Officers—In addition to the executive officers mentioned, all of whom are elected, there are a number of appointive officers, including the comptroller, the superintendent of banking, the insurance commissioner, the labor commissioner, the adjutant general, the commissioner of public health and the industrial commissioner, all appointed by the governor, usually with the approval of the senate. The governor also appoints, with the approval of the senate, the members of a number of administrative boards, including the state board of education, the board of control of state institutions, the state tax commission, the board of parole, the state board of conservation, the liquor control commission, the state highway commission, and the unemployment compensation commission.

Executive Council—The executive council is an ex officio board made up of the governor, secretary of state, auditor, treasurer, and secretary of agriculture.

State Printing Board—The state printing board has three ex officio members—the secretary of state, auditor, and attorney general—and two members appointed by the governor. This board appoints the superintendent of printing.

The Judicial Department

The judicial department of the state of Iowa is vested by the constitution in a supreme court, district courts, and such other inferior courts as the general assembly shall provide.

Supreme Court—The supreme court at present consists of nine justices, elected for terms of six years, approximately one-third being elected at each regular biennial election. The senior in time of service is chief justice for six months until each judge has served in that capacity. The supreme court appoints a reporter of the supreme court who is also the code editor, and a clerk. Both appointments are for four years.

Attorney General—The constitution also provides for an attorney general who is elected at the regular biennial election for a term of two years. He represents the state in legal matters, gives advice to state officers, and has, in addition, some administrative functions.

Judicial Districts—The state of Iowa is divided by law into twenty-one judicial districts, composed of from one to nine counties. Each district elects from two to six judges, there being at present sixty-nine district judges in the state. One of the district judges presides over the district court sessions in each county. A county attorney and a clerk of the court are elected by the voters in each county.

Inferior Courts—The general assembly has provided also for other inferior courts. Each township is authorized to elect two justices of the peace who hear cases involving minor offenses and hold preliminary hearings on more serious charges. Municipal courts, superior courts, police courts, and mayors' courts are authorized in cities and towns under various restrictions. Municipal courts are optional in cities having a population of five thousand or more and superior courts in cities with four thousand or over. Both municipal and superior court judges are elected for four year terms.

Municipal Courts—If a city of the first class has neither a municipal nor a superior court, the council shall appoint a police judge in commission governed and city manager cities and may provide for the election of a police judge in such cities under the general law. In all municipalities having none of these special courts, the mayor acts as the police judge.

Jury Trials—Jury trials are the rule for trials of serious cases, but under certain conditions may be waived or denied. Petit juries consist of twelve persons who must be "electors," except in some courts of restricted jurisdiction where the number of jurors may be six persons.

Local Government in Iowa

County Officials—The state of Iowa is divided into ninety-nine counties, the boundaries of which may not be changed unless the change is approved by the voters of each county concerned. A board of supervisors consisting of three, five or seven members is the chief administrative agency in the county. They appoint a county engineer. In addition, an auditor, who is the clerk of the board of supervisors, a sheriff, county attorney, recorder, treasurer, coroner, and clerk of the district court are elected biennially by the voters. A county superintendent of schools is chosen every three years by a convention composed of representatives of the school districts.

Local Functions—The Iowa county is a quasi-political corporation which collects municipal, school, county, and state taxes, enforces state laws, has charge of poor relief and certain other welfare activities, and shares with the state highway commission the management of the roads and bridges in the county. Townships, which in earlier days were effective units of local government within the counties, have lost almost all their functions, except for the election of justices of the peace in which many townships default.

City Government—The laws of Iowa also authorize the incorporation of cities and towns. These municipalities derive their authority from the general assembly and have only the powers specifically granted to them. Four cities and towns are governed by special charters granted before the adoption of the present constitution which forbids such acts of incorporation. Seven cities have the commission form of government; three have adopted the city manager plan by popular election; and a few others have a city manager by ordinance. Members of the commission are elected by the voters. The city manager in cities adopting that plan by a popular vote is appointed by a commission.

Municipal Classes—All other municipalities are under the general law. They are classified according to population into cities of the first class, having over 15,000 population; cities of the second class, having from 2,000 to 15,000 population; and towns having less than 2,000 population. All these municipalities have the mayor-council form of government, both the mayor and the members of the council being elected by the voters for two-year terms. A treasurer, assessor and park commissioners, and in some cities a police, superior, or municipal court judge, are also elected.

City Councils—The council is the law-making body in municipal government and it is also the chief administrative agency. The mayor presides over the council, although he is not a member, and has the power to veto acts of the council subject to a two-thirds majority vote over his veto. He supervises municipal activities and in cities and towns which do not have a municipal, superior, or police court, he serves as police judge. He also appoints certain officers, including the marshal or chief of police, the city health officer, and members of the police and fire board. The city solicitor and clerk, and in some cases the engineer and members of the zoning board of adjustment are chosen by the council.

Taxation

Tax Sources—Taxation is probably the most important governmental power. The present tax system in Iowa is based largely on property, sales, income, and corporation taxes, although there are taxes on inheritance, poll taxes, and sales or license taxes on gasoline, cigarettes, beer, and chain stores.

Tax Levies—Property is assessed by the county assessors, who are ex officio the county auditors. Assessments are subject to revision by local boards of review and by the state tax commission. The various mill levies for state, county, school and municipal purposes are computed by the county auditor on the assessed valuation and the tax money is paid to the county treasurer who distributes it to the proper fund. Levies for county, school and municipal purposes are, in most cases, limited by state law.

SUPERIOR COURTS

The Iowa statutes provide that any city of 4,000 population, or over, may establish a superior court. There are at present three such courts, located as follows: Cedar Rapids, Keokuk and Oelwein. The judges are elected for terms of four years and receive an annual salary, which is paid quarterly, the first two quarters being paid from the city treasury and the last two quarters from the county treasury of the county in which court is located. Salary of judge, \$2,400 per annum in cities up to 25,000 population; \$3,000 in cities of 25,000 up to 45,000, and \$4,250 in cities of 45,000 or more.

The judges appoint a shorthand reporter, whose compensation is fixed by order of the court not exceeding \$8.00 per day for the time actually employed.

Any city, whether organized under a special charter, commission form of government or the general law for the incorporation of cities or towns, now or hereafter having a population of 5,000 or more, as shown by the last preceding state or United States census, may establish a municipal court. All civil townships in which said city or any part thereof is located shall constitute the municipal court district and its jurisdiction is coextensive with the territorial limits of the county in which the court is located.

The salary of municipal court judges is \$3,500 in cities with population less than 30,000; \$4,000 with population from 30,000 to 75,000; \$4,200 with population 75,000 or over. THE STATE UNIVERSITY OF IOWA

The State University of Iowa, which was created by an act of the First General Assembly of the State of Iowa, adopted February 25, 1847, enters upon its second century with hope and confidence. Consistently, since its organization, the University has maintained a strong educational program designed to provide its students, both men and women, with a liberal education and to prepare them for professional careers in Law, Medicine, Dentistry, Pharmacy, Engineering, Education, Commerce, and in many professional, semi-professional, and graduate fields. Recognizing its obligation to contribute to the advancement of knowledge, the University has fostered research from which

President Virgil M. Hancher

have come many distinguished contributions, many of the more notable being in the fields of human development, health, and welfare.

The University campus covers approximately 425 acres of land and includes more than 50 buildings. The Iowa river divides the campus into an East and West Campus with the major buildings located on the hills and in the valley extending along each side. The two parts of the campus are connected by two heavy traffic bridges and a foot bridge. The buildings and grounds are valued at \$22,500,000.

The East Campus is the older of the two and is dominated by Old Capitol, the first capital of the State of Iowa. By reason of Old Capitol's architectural beauty, its setting and its historical association, it is a natural center. Around Old Capitol are located the buildings occupied by the Colleges of Liberal Arts, Law, Dentistry, Pharmacy, Engineering, Education, the Graduate College, the University Libraries, the State Historical Society, the Iowa Child Welfare Research Station and the Iowa Geological Survey. On the East Campus are also located the women's dormitories and gymnasium, the student recreational center, the Iowa Memorial Union, and the administrative offices and maintenance and service departments of the University.

The West Campus is dominated by the 145-foot stone tower of the University Hospital, the largest building of the medical center. Around it are located the Children's and Psychopathic Hospitals, the Medical Laboratory and Westlawn, the nurses' dormitory. On the west bluffs of the river are the dormitories for men, Hillcrest, the Quadrangle and the Law Commons. To the south and west of the medical center are located the buildings and grounds providing athletic and military facilities for men, the field house and armory, the stadium and the golf course, the latter a gift to the University from the late W. O. Finkbine. Along the west valley of the river are located the Hydraulics Laboratory, the Fine Arts Building and the University Theatre.

In the years immediately preceding the war the University stood among the fifteen highest colleges and universities in the total number of different students of college grade enrolled annually. The total number of campus students of college grade enrolled in the year 1940-

1941 was 9,289. In addition, 1,731 students were enrolled for correspondence courses and projected study and 773 students of non-college grade were enrolled exclusive of conferences and short courses, making a grand total of 11,793 students without duplicates.

The war reduced civilian campus enrollment more than one-half, almost entirely in the enrollment of men. In the year 1943-1944, 4,376 civilian students were enrolled in courses of study offered on the campus, but armed forces personnel at the University for specialized training largely offset this reduction.

Since the war, the return of service personnel has resulted in the most rapid increase in enrollment in the history of the University. In September, 1946, there were enrolled in the University almost 45% more students than had ever before been in attendance at a given time. The total for campus students of college grade was 9,783. This represents an increase of more than 100% over the corresponding figure for the first semester of the preceding year. The total number of different students on the campus for the year 1946-1947 including those of non-college grade but excluding those enrolled for correspondence study, conferences and short courses was 12,712.

The University is comprised of nine colleges and five schools which offer courses of study in various fields leading to degrees or certificates. The College of Liberal Arts with its affiliated Schools of Fine Arts, Journalism, Letters, and Religion, requires a minimum of four years of study for the baccalaureate degree. A like period of study is required for bachelor's degrees from the Colleges of Commerce, Education, Engineering and Pharmacy. Six years of study, including the time spent in pre-professional training, are required for graduation with a first degree from the Colleges of Dentistry and Law, while seven years are required for a first degree from the College of Medicine. Three years of study and clinical practice are required for graduation from the School of Nursing. In the Graduate College, approved programs of study and research leading to advanced degrees require a minimum of one year for the master's degree and of three years for the doctorate.

The various courses of study and fields of specialization and the degree conferred upon graduation are, as follows:

COMMERCE—Accounting, Banking and Finance, Labor and Management, Marketing and Merchandising, Secretarial Training, and Transportation and Public Utilities, leading to the degree Bachelor of Science in Commerce.

DENTISTRY—Four-year course, in addition to two years of pre-dental study in the College of Liberal Arts, leading to the degree Doctor of Dental Surgery.

Postgraduate work leading to the degree Master of Science is available in the fields of Orthodontics, Pedodontics, Roentgenology and Dental Pathology, Therapeutics and Periodontia.

EDUCATION—Teacher training courses integrated with the curricula of the Colleges of Liberal Arts, Commerce and the Graduate College, and a four-year specialized school administration course which leads to the degree Bachelor of Science in School Supervision.

ENGINEERING—Chemical, Civil, Electrical and Mechanical Engineering leading to the degree Bachelor of Science in the field of specialization; General and Commercial Engineering leading to the degree Bachelor of Science without special designation.

LAW—Three-year course, in addition to three years of pre-law study in the College of Liberal Arts, leading to the degree Bachelor of Laws or the degree Juris Doctor.

LIBERAL ARTS—Art, Bacteriology, Botany, Chemistry, Classics, Economics, English, Geography, Geology, German, History, Home Economics, Journalism, Mathematics and Astronomy, Music, Philosophy, Physical Education, Physics, Political Science, Psychology, Religion, Romance Languages (French, Spanish, Italian, Portuguese), Speech and Dramatic Art, Sociology, and Zoology leading to the degree Bachelor of Arts.

Specialized courses in the departments of Chemistry and Home Economics lead to the degrees Bachelor of Science in these respective fields; and those in the School of Fine Arts and the Division of Physical Education lead to the degree Bachelor of Fine Arts or Bachelor of Science in Physical Education, respectively, from the College of Liberal Arts.

The College of Liberal Arts will accept as counting towards the bachelor's degree up to a year of credit earned in the professional Colleges of Dentistry, Engineering, Law and Medicine. This makes it possible for students in Liberal Arts to select programs which will prepare them for admission to the Colleges of Dentistry, Law and Medicine in such a way that the College of Liberal Arts will confer upon them Bachelor of Arts degree after the successful completion of one year of work in the professional college. Under a similar plan the Bachelor of Arts degree is conferred upon students who have successfully completed three academic years of work in the College of Liberal Arts and three calendar years in the School of Nursing.

MEDICINE—Four-year course, in addition to three years of pre-medical study in the College of Liberal Arts, leading to the degree Doctor of Medicine.

Special refresher courses have been offered by all departments; a continuation program has been established with clinics in various cities of the State; a series of intra-mural month-end courses have been developed; a continuous program for returned veterans has been conducted.

The College of Medicine offers postgraduate work leading to advanced degrees in the Graduate College. Special training is also offered in Physiotherapy and Occupational Therapy.

SCHOOL OF NURSING—Three-year course leading to the Certificate Graduate Nurse.

PHARMACY—Four-year course, leading to the degree Bachelor of Science in Pharmacy.

GRADUATE—Opportunity for study at the graduate level is available in all of the fields listed above except Nursing. It is also available in the fields of Child Welfare and Hydraulic Engineering. Such study leads to the degrees Master of Arts, Master of Fine Arts, Master of Science and Doctor of Philosophy. Postgraduate work in the College of Law leads to the degree Doctor of Juridical Science.

Correspondence courses, at the college level, are offered in many of the departments through the Extension Division to students who cannot be in residence but wish to prepare themselves for more effective work in their respective occupations, or who wish to continue work toward graduation while out of residence. Directed study courses are similarly offered through the Graduate College.

During the war just passed, 32,879 persons received war training at the University. Of these, 2,562 were enrolled in the Army Specialized Training programs in the Colleges of Liberal Arts, Medicine and Dentistry; 443 were in the Army Air Forces Pre-Meteorology programs; 51 were in R. O. T. C.; 448 were Cadet Nurses; 21,014 were Navy Pre-

Flight cadets and 1,028 Civilian Pilot Training and War Training Service enrollees. In the civilian programs of Engineering, Science, Management and War Training there were 7,333 persons trained.

Staff members of the University, in cooperation with the Office of Scientific Research and Development, produced the proximity fuse, said to be the most revolutionary war invention next to the atomic bomb. They also devised other yet secret inventions besides contributing to numerous government agencies.

Almost 12,000 University alumni were engaged in military and government service during the war. In addition, many faculty members either were members of the armed forces or were loaned to government bureaus.

IOWA STATE COLLEGE

The Iowa State College of Agriculture and Mechanic Arts, located at Ames in one of the most beautiful campus settings in the United States, ranks among the nation's great scientific and technological institutions.

It was established March 2, 1858, by the Seventh General Assembly of Iowa and designated as a land-grant institution by the Morrill Land-Grant College Act of July 2, 1862. The first students entered October 21, 1868, and the first class graduated in 1872. Since that time more than 27,000 degrees have been conferred by the college.

During the war Iowa State College scientists made a significant contribution to development and production of the atomic bomb. Now the peacetime Iowa State College Institute for Atomic Research is recognized as one of the seven major atomic research laboratories in the country. The Atomic Commission has allotted \$1,000,000 to construct a building for metallurgical research. A 70,000,000-volt synchrotron is being installed for the production of electrons and X-Rays.

Dr. F. H. Spedding, director of the Institute, was director of the wartime atomic project established at the college in February, 1942. The uranium purification process which came out of the Iowa State program is now known as the Spedding process.

Physical Facilities

The college campus totals 740 acres, with the total college domains, including experimental farms, 3,096 acres. Forty major buildings and 276 minor ones comprise the college facilities. Value of the college plant is about \$17,000,000.

About 50 percent of the college's support comes from state appropriations; 20 from federal appropriations; and 20 from student fees.

President Charles E. Friley

To make room for student veterans returning to school, Pammel Court has been created adjacent to the main campus. Army barracks, quonset huts and trailers, numbering 1,250 units, house Pammel's inhabitants.

In the fall of 1946, the Camp Dodge Army post near Des Moines was taken over and established temporarily as an annex for freshman students in engineering and science.

Enrollment at the college hit an all-time high of 11,500 in 1946-47, and is expected to reach 12,000 in 1947-48. In the 1946-47 school year 1,200 degrees and certificates were granted, a considerable number of them to students from other countries.

The State Legislature has authorized a comprehensive building program to begin as soon as materials and labor are available.

President of the Iowa State College is Dr. Charles Edwin Friley.

Curricula

The college offers graduate and undergraduate work in five major fields—agriculture, home economics, science, engineering and veterinary medicine. In the undergraduate areas the degrees of bachelor of science and doctor of veterinary medicine are offered; in the graduate areas, the degrees of master of science and doctor of philosophy.

The Division of Agriculture offers courses in agricultural economics and rural sociology, vocational education, agricultural engineering, technical journalism, agronomy, animal, dairy and poultry husbandry, genetics, forestry, horticulture, landscape architecture.

The Division of Engineering offers courses in aeronautical, agricultural, architectural, ceramic, chemical and mining, civil, electrical, general, industrial and mechanical engineering, theoretical and applied mechanics and architecture.

In the Division of Home Economics applied art, child development, foods and nutrition, diabetics, experimental cookery, home economics, journalism, education, home management, household equipment and textiles and clothing may be studied.

The Division of Science offers curricula in the biological, physical and social sciences with particular emphasis upon the application of these sciences to industry and commerce and to the problems of present-day civilization.

The Division of Veterinary Medicine offers courses in anatomy, hygiene, medicine, obstetrics, pathology, physiology and pharmacology and surgery.

Units of both the Naval Reserve Officers Corps and the Army Reserve Officers Corps are located at the college.

Extension and Research

Education is extended to Iowans through the Iowa Agricultural Extension Service and the Engineering Extension Service. The agricultural and home economics extension activities had their real beginning in Iowa in 1906 at which time the work was officially organized as one of the three major functions of Iowa State College.

In attendance at short courses on the campus during the year 1946-47 were 7,643 persons. Again this year the annual Farm and Home Week, one of the most important short courses in agriculture and home economics, was carried to Iowans through the 5,000-watt college radio station, WOI.

Organized research is carried on through the Iowa Agricultural Experiment Station, the Iowa Engineering Experiment Station, the Industrial Science Research Institute, the Veterinary Research Institute, the Institute for Atomic Research and the Statistical Laboratory.

The college operates 38 farms and land areas for experimental purposes. Most recent addition is the Ankeny Farm near Des Moines of 1,500 acres.

Through the Agricultural Experiment Station major contributions have been made to Iowa agriculture through improved crop strains and animal production, among others. Chemical engineers in the Engineering Experiment Station are studying uses for agricultural waste and by-products, and a study of clays by ceramic engineers is another of the station's projects. In the Industrial Science Institute, production of organic chemicals from agricultural products and study of penicillin are but a few of the many research studies underway. Veterinarians in their Research Institute are continually investigating animal diseases with a view to prevention and control.

Serving all the experimental units is the Statistical Laboratory. Its sampling specialists gave technical help to the State Department on the missions to observe the Greek elections, and to the War Department on the strategic bombing survey of Europe. A master sample of farms in the United States made by the laboratory identifies approximately 300,000 farms located in nearly every county in the United States. As a result of this mapping project what probably is the most complete set of maps of the United States is on file at the college.

The college has established the Guatemala-Iowa State College Tropical Research Center at Antigua, Guatemala, to study corn and other crops at their source of origin. Through these studies it is expected that important improvements can be made in Iowa hybrids.

IOWA STATE TEACHERS COLLEGE

Situated atop a beautifully wooded hill at the southern limits of the city of Cedar Falls and artistically landscaped with flowering shrubs and trees, the 26 principal buildings of the Iowa State Teachers College house a four-year teacher training center known the world over for the excellence of its graduates as classroom teachers. Unique among colleges of its kind for the number of buildings and beauty of its 207-acre campus, this headquarters for teacher training in Iowa is generally recognized among educators of the nation as a leader among scores of colleges in its field.

From a humble beginning on September 6, 1876, when four instructors and 27 students under the first president, James Gilchrist, celebrated the opening of the first classes in a single building, the

President Malcolm Price

Iowa State Teachers College has grown to become an institution with some 3,500 individuals enrolled during a given year, 18,000 living graduates, and over 100,000 former students.

The first president of the college, which was then known as the Iowa State Normal School, directed classes in a building formerly known as the Soldiers Orphans Home, a structure built to house orphans of Civil War veterans, but at that time abandoned. President Gilchrist, then known as principal, was succeeded in 1886 by Dr. Homer H. Seerley. Dr. Seerley retired in 1928 to be succeeded in turn by Dr. O. R. Latham, who served until his death in 1940. In that year, Dr. Malcolm Price was elected to the position which he now holds.

Preparation for All Types of Teaching

Today, Teachers College offers preparation for all types of teaching positions in the public schools of the state, including special courses for teachers of rural schools, kindergarten-primary, and intermediate and upper grades, as well as high school and junior high school subjects. Instruction leading to diplomas or degrees and to certificates for the various types of teaching and administrative positions in the public schools is provided for students in one-year, two-year, and four-year courses. Specialized courses of instruction include art and industrial arts, business education, education, English, dramatics and speech, home economics, languages, mathematics, physical education for both men and women, science and social science.

Dormitory facilities for students in residence at the college are recognized as excellent even among the larger colleges and universities of its class in the country. These include the Bartlett and the Anna B. Lawther Halls for women and the Homer H. Seerley and the George T. Baker Halls for men. Classes are held chiefly in the Auditorium building, Central Hall, the Administration Building, Gilchrist Hall, and the Vocational Building. Extensive library facilities are provided by a beautiful three-story structure housing over 140,000 books, periodicals, and pamphlets. Located directly on the campus, and providing for teachers in training what a university hospital offers for young medical students in the way of opportunities for practical experience and observation, is a complete Campus Grade and High School for practice teaching. In this Campus School, with an enrollment of over 400 young pupils, as well as in nearby town, city, and rural schools, the teachers-to-be have opportunity for actual classroom practice in teaching as well as for observation of best procedures.

The college provides an athletic plant of 70 acres, including large gymnasiums for both men and women as well as numerous playing fields and practice courts for athletic activities. Also available to students is the college golf course. This land was donated to the college.

The Iowa State Teachers College operates on a quarterly basis, with regular sessions in the summer, fall, winter, and spring. As a result of the quarterly plan of instruction, students may shorten their years of college study for diplomas and degrees considerably by attending college the year around.

COLLEGES AND UNIVERSITIES

In addition to its three state institutions of higher learning, Iowa has a large number of colleges and universities which are material factors in making this state stand first in literacy and intelligence. There are few places in Iowa more than 40 to 50 miles distant from some in-

stitution of higher learning well fitted by curriculum and faculty to teach those things which lead to the higher and better life and provide the education that makes for culture and higher citizenship.

Among the Colleges of Iowa which are fully accredited and offer four-year courses are the following:

IOWA WESLEYAN, MOUNT PLEASANT

Iowa Wesleyan College, at Mt. Pleasant, is the oldest college in Iowa, having a continuous history from the time it was founded as Mt. Pleasant Collegiate Institute in 1844. The College has always been under the control of the Methodist Episcopal church. The name was changed to Iowa Wesleyan University in 1849 and to Iowa Wesleyan College in 1911.

GRINNELL COLLEGE, GRINNELL

Grinnell College, at Grinnell, is the second oldest in the state. It was founded in 1846 by the "Iowa Band" (a group of young ministers who came to Iowa as missionaries in 1843) as Iowa College, at Davenport, and was opened to students in 1848. Grinnell College was founded in Grinnell in 1855 and four years later Iowa College of Davenport was merged with it. It is privately endowed, non-sectarian and co-educational.

COE COLLEGE, CEDAR RAPIDS

Coe College, at Cedar Rapids, had its beginning in 1851, when the Rev. Winston Jones opened a school in his home for 16 young people of Cedar Rapids. In 1866 it became Parsons Seminary and the first building, now a part of Old Main, was built. Since February 2, 1881, the present name of Coe has been used. In 1919 Leander Clark College was absorbed.

CORNELL COLLEGE, MOUNT VERNON

Cornell College, at Mount Vernon, was opened November 14, 1853, as the Iowa Conference Male and Female Seminary, but was renamed in 1855. The annual Shakespearean school play produced in March and the annual Music Day Festival, are outstanding events. The Chicago Symphony Orchestra has presented an annual concert at the Music Festival for 40 years.

CENTRAL COLLEGE, PELLA

Central College, at Pella, was opened in 1853, a Baptist church institution. Dominic Scholte donated a large plot of ground when the first building, Old Central, was erected. In the Civil War the entire male student body, 122, enlisted in the Union Army. About 20 years ago the control passed to the Dutch Reformed Church of America.

SIMPSON COLLEGE, INDIANOLA

Simpson College, at Indianola, was established in 1860, operated by the Methodist Episcopal Church. First known as Indianola Seminary, it was renamed the Indianola Male and Female Seminary in 1861. Six years later the name became Simpson Centenary College, honoring Bishop Matthew Simpson. Since 1884 the name has been Simpson College.

LUTHER COLLEGE, DECORAH

Luther College, at Decorah, founded in 1861, prepares students for the Lutheran ministry. It maintains the Norwegian-American Historical Museum, where people of Norwegian birth and descent have undertaken the task of creating a historical museum clearly illustrating their conditions of life and culture from the time their ancestors first set foot on American soil. The Decorah College for Women was organized in 1932.

PARSONS COLLEGE, FAIRFIELD

Parsons College, at Fairfield, was founded in 1875, under the Endowment Fund provided in the will of Lewis C. Parsons (1793-1855). It is controlled by the Presbyterian Church. The first class was graduated in 1880.

WILLIAM PENN COLLEGE, OSKALOOSA

William Penn College, at Oskaloosa, operated under the auspices of the Society of Friends, was opened in September, 1873. Following the destruction of the first building by fire in 1916, several new buildings were erected on a 30-acre campus near the original site.

BUENA VISTA COLLEGE, STORM LAKE

Buena Vista College is located at Storm Lake. The Fort Dodge Presbytery founded the school in 1884 at Fort Dodge, but later accepted Storm Lake's offer of eight acres of land and \$25,000 for buildings, dedicating the new school July 8, 1891.

WESTERN UNION COLLEGE, LE MARS

Western Union College, at LeMars, was founded in 1890 and is under the control of the Evangelical Church. Seven buildings are grouped on a 15-acre campus.

MORNINGSIDE COLLEGE, SIOUX CITY

Morningside College, at Sioux City, was founded by the Methodist Episcopal Church, by merging the University of the Northwest of Sioux City and the Charles City College in 1894. It has five modern buildings on a 23-acre campus.

KLETZING COLLEGE, UNIVERSITY PARK

Kletzing College, at University Park, was organized in 1905 as the Central Holiness University, later changing its name to John Fletcher in honor of that friend of John Wesley. The official name became Kletzing-McLaughlin Memorial Foundation College in 1943 in honor of Henry Frick Kletzing and George Asbury McLaughlin, two of the founding officers and teachers. An interdenominational, co-educational, liberal arts college offering courses leading to the B. A. degree, and accredited by the State of Iowa.

LORAS COLLEGE, DUBUQUE

Loras College, a Catholic Church institution, at Dubuque, developed from St. Raphael's Seminary founded in 1838. The school is under the immediate supervision of the Archbishop of the Dubuque diocese. The college has one of the largest private libraries in the state, over 70,000 volumes. It was formerly called Columbia College.

ST. AMBROSE COLLEGE, DAVENPORT

St. Ambrose College at Davenport is another Catholic institution which is deservedly popular. It was founded in 1882, under the auspices of the Roman Catholic Bishop of Davenport.

UNIVERSITY OF DUBUQUE, DUBUQUE

The University of Dubuque was founded in 1852 and conducts a Presbyterian Theological Seminary in addition to its College of Liberal Arts. The school was first known as the German Theological School of the Northwest, but in 1870 it became affiliated with the Presbyterian Church.

UPPER IOWA UNIVERSITY, FAYETTE

Upper Iowa University, at Fayette, was organized in 1857 as Fayette Seminary. It was formerly sponsored by the Methodist Episcopal Church. In addition to the College of Liberal Arts there are Schools of Music and Business. The museum is particularly praiseworthy, containing many fine prehistoric specimens.

DRAKE UNIVERSITY, DES MOINES

Drake University, at Des Moines, was established in 1881, named after Governor Francis Marion Drake of Centerville. The school is under the auspices of the Disciples of Christ Church. It embraces Colleges of Education, Fine Arts, Commerce and Finance, Bible, Liberal Arts, Law and Pharmacy. The University Law library contains some 17,000 volumes, while the general library has 71,000. George J. Carpenter was the first Chancellor, as the President was then known.

BRIAR CLIFF COLLEGE, SIOUX CITY

It is a merger of the Wartburg College, which was formerly located at Clinton, Iowa, and of St. Paul-Lutheran College, St. Paul, Minnesota. The merger and re-location took place in 1935.

IOWA SCHOOLS FOR DEAF AND BLIND**IOWA SCHOOL FOR THE BLIND**

LESLIE M. HAYES, Superintendent

Under the administration of the State Board of Education, the School for the Blind is maintained at Vinton and the School for the Deaf at Council Bluffs.

The Iowa School for the Blind was opened at Iowa City on April 5, 1853, with one pupil. The second entered the following day. By the end of the year nineteen students were enrolled. In August, 1862, the school was moved to its present location at Vinton. The attendance at the last report was 150, ranging in age from five to twenty-one.

The Iowa School for the Blind is an educational institution which offers complete educational opportunity to visually handicapped boys and girls from the Kindergarten through the High School. In many respects the sessions follow the same line of those found in the schools for the sighted. In addition to the academic subjects, special emphasis is placed on music, industrial arts, and physical education. After satisfactorily completing the four year high school course, students are equipped to enter college, and those who do so attain records that compare favorably with those of sighted students.

The school is governed by the State Board of Education and is supported by appropriations of the State Legislature. There is no charge

for tuition, maintenance, or school supplies. The school is in session for a nine-month period. The student body includes not only people without sight but those with partial sight.

In September, 1943, a sight-saving department was established to take care of the needs of pupils whose visual acuity is between 20/200 and 20/70. Students in this department use large type print instead of Braille and do their school work in rooms that are equipped with special lighting, sight-saving desks, green chalk boards, and other special equipment for the partially seeing.

IOWA SCHOOL FOR THE DEAF

LLOYD E. BERG, Superintendent

The Iowa School for the Deaf was founded in 1855, and was first located at Iowa City and then moved to Council Bluffs in 1870. In 1902, fire completely destroyed the main building, which housed the executive quarters and dormitories for pupils. A substantial fire-proof structure now stands in its place, where sufficient room is provided for 325 pupils. The school represents a capital investment for the State of \$1,000,000 and occupies 210 acres, with eight fine buildings and beautiful grounds. There is a separate building to accommodate seventy-five of the youngest pupils. The school affords an education for children of the state, too deaf to make proper progress in the hearing schools. The entrance age is five years and students are required to remain in school until nineteen years of age unless excused for good cause. The work embraces thirteen years with training largely through writing, speech, lip-reading and through the use of hearing aids where possible. The course of study provides a strong elementary education together with a substantial vocational training. The philosophy of the school is to bring the child with impaired hearing as near the normal as possible. Pupils of the school become skilled workmen and graduates, with remarkably few exceptions, are self-supporting, useful citizens of the state. Among the vocations taught are baking, shoe repairing, book binding, printing, cabinet making and upholstering. Instruction in rhythm is also given, and a well-rounded course in almost everything which will make life more pleasant for those bereft of their hearing.

RURAL SCHOOLS IN IOWA

In Iowa our rural elementary children receive their education in 6,704 one room schools. The average enrollment in these schools is approximately 11 pupils. The enrollments range from 3 to 50 for one teacher. Many of the schools are modern schools with indoor toilets, electric lights, sealed floors and modern equipment. A drop in the rural birth rate is evidenced by the closing of rural schools due to the small enrollments. In the last 10 years 2,314 rural schools have closed. The rural high school students are sent to nearby high schools. About 35,600 of these students are transported in buses sent out from the high school districts. Starting with the school year 1945-46, the statutes require the transportation of all high school children. This is a forward step in equalizing the educational opportunity for rural youth to get a high school education.

IOWA CARES FOR CHILDREN AND VETERANS

The State Board of Control has jurisdiction over 15 state institutions, of which six are for the mentally unfit and three are for criminal offenders. The remaining six are divided as follows: two training schools, designed as correctional institutions; one for boys, at Eldora; one for girls, at Mitchellville; two orphanages, at Toledo and Davenport; the Soldiers' Home at Marshalltown, and the State Sanatorium for Tuberculosis at Oakdale.

Training School for Boys, Eldora

The Training School for Boys, at Eldora, was opened March 31, 1868. This school is for incorrigible and delinquent boys, sent there upon court order. The school has farms upon which are learned, by practical work, the various phases of farming and gardening. In addition there are industrial shops, tailor, blacksmith, automobile, shoe, printing, sewing room, bakery, machine shop, plumbing, carpenter, mason and painting.

Competent schools are presided over by efficient teachers. Athletics, debates, home talent plays, a fine band, moving pictures, a good library and other opportunities are provided to improve mind and body.

The present superintendent is Charles Wood Reed.

Training School for Girls, Mitchellville

The Training School for Girls was established in 1868, to be located on property in Lucas county, leased from a Society of Friends, or Quakers. The first admission was April, 1873. In 1880 the present Training School, at Mitchellville, was located, taking over the Lucas county plant.

Girls between the ages of ten and eighteen are admitted, on commitment from district, juvenile and municipal courts or on transfer from other institutions by the Board of Control.

Under competent instruction and supervision, girls are taken through the twelfth grade of regular public school work, and are taught all necessary branches of home economics.

Farming and gardening are carried on, with good results.

The present superintendent is Mrs. John L. Carter.

Juvenile Home, Toledo

The state maintains a Juvenile Home, or orphanage, at Toledo. Dependent, destitute, homeless and neglected children are admitted and given care until they are 21 years of age, most of them being placed in good private homes, under the supervision of women state agents.

The buildings are substantial and kept in a home manner as far as possible. Generally the children are happy and contented and make good progress in their school work.

Iowa Soldiers' Orphans' Home, Davenport

The second state orphanage is known as the Iowa Soldiers' Orphans' Home and is located at Davenport.

The first child was admitted on July 4, 1864. Dependent, neglected and abandoned children are admitted upon court order or personal application of parent or guardian, approved by Court or Board of Supervisors.

The children are given scholastic and industrial advantages; with moving pictures, all manner of games and sports, picnics and the like, to make life more pleasant.

The present Superintendent is Harvey E. Daines.

Iowa Soldiers' Home, Marshalltown

The Board of Control also manages the Iowa Soldiers' Home at Marshalltown, founded in 1887.

Life is lived pleasantly by the soldiers, with plenty of amusements, moving pictures, billiards and pool, cards, horseshoe pitching and all manner of games and light sports. The nearby river permits fishing and boating and families are kept together by the presence of the veterans' wives. The men and women take frequent furloughs, to visit relatives and friends. Upon their return they seem more than ever satisfied.

The present Commandant is Leslie E. Switzer.

IOWA CARES FOR ITS MENTALLY ILL

On February 27, 1861, the first patient was received at the state hospital at Mount Pleasant, generally said to be the first institution of its kind west of the Mississippi river.

For the past 29 years Iowa has had four institutions to care for its mentally afflicted, those at Independence, Clarinda and Cherokee having been added. These are now known as State Hospitals for Insane.

Four Hospitals for Mental Cases

In the order of their establishment Independence comes second; the first patient having been admitted there on May 1, 1873; Clarinda is third, December 13, 1888; Cherokee, fourth, August 18, 1902.

Two Homes for Feeble-Minded

The reports of these four State Hospitals do not begin to tell the entire story of what Iowa is doing for its mentally deficient and unfit. The State Board of Control has jurisdiction over two other institutions belonging to this same general classification: The Glenwood State School at Glenwood, which received its first patient on September 1, 1876; and the Hospital for Epileptics and School for Feeble-minded, at Woodward, which received its first patient on September 3, 1917.

Each of these six institutions is open to general visitors within certain prescribed hours each day, and to parents at any time. To the limit of funds available they are well kept, sanitary and attractive, the buildings at each place being surrounded by large grounds, nicely landscaped and properly tended. While the atmosphere at all is depressing, entertainment is arranged for as many as can mentally enjoy it.

The present Superintendents are as follows: Mount Pleasant, Dr. Adolph Soucek; Independence, Dr. R. A. Stewart; Clarinda, Dr. Norman D. Render; Cherokee, Dr. Charles F. Obermann; Glenwood, Dr. V. J. Meyer, acting supt.; Woodward, Dr. E. M. Meyers.

Business managers have been appointed for the following institutions: Cherokee, J. E. Wirth; Independence, C. L. Rigby; Woodward, A. R. Miles; Mount Pleasant, R. E. Hanna; Oakdale, Harry W. Reeve.

IOWA TUBERCULOSIS SANATORIUM

The State Sanatorium for Tuberculosis was established in 1908, at Oakdale, six miles from Iowa City, and 21 miles from Cedar Rapids. The care and treatment are splendid and the beneficial results are manifest.

Patients are admitted on certification by attending physicians. The cost of patients is charged to the counties where they live. Those who can do so are asked to reimburse the counties.

The Sanatorium has the facilities and services of the Hospital of the State University at its easy disposal, which is of inestimable value. It is under the jurisdiction of the State Board of Education.

Dr. Wm. M. Spear is the present superintendent.

IOWA PENAL INSTITUTIONS

State Penitentiary at Fort Madison

The prison at Fort Madison is more than 100 years old. It was established in 1839, the year after Iowa became a territory, and seven years before it became a state.

Under the able guidance of the Board of Control and recent wardens, the Fort Madison penitentiary has achieved high rank among the nation's penal institutions. Outbreaks have been few and escapes infrequent. A parole system enables the men of highest intelligence and best records to work on the prison farms, away from the enclosure, and even to go to the state's various other institutions under the Board of Control (state hospitals and schools) to work and live on an honor system which has produced good results.

The inmates as far as is possible are kept at work, according to their terms of sentence, many being fitted for industries at which they can support themselves after release. Each prisoner is interviewed, upon admittance, by the chaplain and the warden, in an effort to see what work he should be put to and what can best be done to reclaim him.

The inmates have recreation and amusement opportunities. Head-phone radios are installed in the cells and good programs are furnished from a central control. A good library is well patronized; athletics and moving pictures make life more bearable. Baseball, kittenball, tennis, boxing, wrestling, horseshoe pitching, football and basketball give ample opportunity to most of the men to keep in good physical trim and to get their minds off their plight.

Under the law all condemned prisoners are executed at Fort Madison.

The present warden is Col. P. A. Lainson.

Men's Reformatory at Anamosa

The Men's Reformatory is located at Anamosa, where the first prisoner was admitted on May 13, 1873. Originally intended for first and youthful offenders, and the criminally insane, within recent years prisoners have been transferred from Fort Madison as overcrowded conditions there demanded.

Grain and livestock farming are carried on here on a large scale. A large modern canning plant is operated here as an industry. Most of the

vegetables for the other state institutions are canned here. Other industries include the manufacture of soap, clothing, automobile number plates, road signs and cheese.

The prisoners are kept at work, according to the sentences imposed on them, but they have ample recreation and amusement facilities, including various sports and games, radio programs and moving pictures. Part of the Reformatory yard, or enclosure, is flooded during the winter, permitting ice skating.

The warden of the Men's Reformatory is Foss Davis.

Women's Reformatory at Rockwell City

Women over 18 years old, convicted of offenses which carry a term of more than 30 days, are sent to the Women's Reformatory at Rockwell City. The first prisoner was received on May 2, 1918.

The fact that many short-term offenders are sent to Rockwell City, instead of being kept in county jails, makes the per capita cost of maintenance large. The women are given an opportunity to attend school and have various entertainments and amusements, including movies, dances, lectures and recitals, home talent plays and picnics.

The superintendent is Mrs. Helen M. Talboy.

AID TO THE BLIND

The Iowa Aid-to-the-Blind Act was passed by the Forty-seventh General Assembly and became effective July 4, 1937. During the fiscal year ending June 30, 1946, total assistance and benefits were paid in the amount of \$535,437.17 divided as follows:

Monthly assistance.....	\$526,922.40
Funeral claims.....	2,179.90
Eye treatment.....	6,334.87

A total of 220 were added during the year, while 81 died and 75 were closed for other reasons. The average payment as of June, 1946, was \$38.95. This was \$5.85 higher than for June, 1945.

GRAND ARMY OF THE REPUBLIC

The Grand Army of the Republic is a patriotic and fraternal organization of the survivors of the military and naval forces of the Civil War who served between April 12, 1861, and April 9, 1865.

Iowa was one of the first states of the Union to attempt organization of the Grand Army of the Republic, receiving as a Department its first charter on July 12, 1866. Its permanent reorganization dates from January 23, 1879.

Of Grand Army Posts in Iowa, in its provisional period there were some 135 posts with over 500 members; under reorganization there were over 520 posts chartered. Membership stood at its peak in 1890, when 20,324 veterans belonged to 435 posts.

Six veterans of the Civil War served as Governors of Iowa; Colonel William M. Stone of Knoxville, 1864-1868; Colonel Samuel Merrill of McGregor, 1868-1872; Colonel Cyrus C. Carpenter of Fort Dodge, 1872-1875; Captain Joshua G. Newbold of Mount Pleasant, 1877-1878; Captain Buren R. Sherman of Vinton, 1882-1886; Lieutenant Colonel Francis M. Drake of Centerville and Des Moines, 1896-1898.

To the Grand Army of the Republic goes the credit for having instituted Memorial Day, with all the tender and reverent patriotism which that occasion always reveals, and for having kept alive, in history and story, the brave deeds performed upon many a battlefield by many a gallant soldier. To them goes the credit for having preserved the Union at a critical period in its history. Their average age when they fought the war was nineteen.

UNITED SPANISH WAR VETERANS

From the veterans of the Spanish-American and Philippine wars grew the organization of United Spanish War Veterans. The Iowa Department maintains headquarters in Room 4, in the north corridor, basement floor, with the Grand Army of the Republic, State House, Des Moines. Its functions are to maintain records of organization and personnel, arrange for department meetings, look after the interests of its members in governmental affairs, such as pensions and hospitalization, and to develop the spirit of comradeship among the members of the organization.

IOWA IN WORLD WAR I

The total number of men registered in Iowa for service, and possible service, during World War I, was 523,478. This grand total was divided as follows:

Class of June 5, 1917, aged 21 to 31, both inclusive.....	217,914
Class of June-August, 1918, age 21.....	21,671
Class of September 12, 1918, ages 18 to 45, not previously registered.....	283,893
Total.....	523,478

The total number of officers, men and women from Iowa in World War I service is placed at 114,213, divided as follows:

In the army, 96,726 enlisted men, 4,975 officers, 611 nurses.

In the marines, 1,044 enlisted men, 30 officers.

In the navy, 10,211 enlisted men, 515 officers, 40 nurses, 42 yeomen.

Cadets at West Point, 20.

These Iowa soldiers came from every walk of life. The Adjutant General reported to the Governor that of the men drafted in Iowa, 51.7 per cent were farmers and farm laborers.

THE AMERICAN LEGION IN IOWA

The American Legion was born in Paris, March 15, 1919. The Legion was launched formally at St. Louis, May 8, 1919, by World War veterans from nearly every state in the Union, who had been selected by temporary secretaries named at the request of Theodore Roosevelt, Jr., who acted under instructions from the Paris caucus.

The first Iowa state convention was held in Des Moines, September 4, 1919. The first national convention of delegates from the newly organized state departments was held in Minneapolis on Armistice Day, 1919.

The American Legion Auxiliary of mothers, wives, sisters and daughters of Legionnaires was organized in 1921. The Iowa Department was launched at Sioux City.

La Societe des 40 Hommes et 8 Chevaux, a national fraternal order of Legionnaires, was organized in 1921.

Hanford MacNider established the Iowa Legionnaire with Frank Miles, a wartime sailor and former city editor of the Des Moines Capital, as editor on March 4, 1921. He was succeeded as editor on April 1, 1946, by A. F. Faber.

THE DISABLED AMERICAN VETERANS IN IOWA

The Disabled American Veterans, commonly known as the D. A. V., was organized nationally in 1920 by groups of disabled veterans then undergoing vocational training courses, and chartered by Congress in 1932, to render service to, for, and by disabled veterans. The D. A. V. has, ever since its inception, been the spokesman for the disabled war veterans of America, in Congress and before its various committees, as well as before the Veterans' Administration and its local regional offices and facilities.

During 1920 and 1921 the first three chapters of the Iowa Department were organized in the vocational training centers at Des Moines, Iowa City and Ames. The Department of Iowa D. A. V. held its first state convention in 1922 at Iowa City.

IOWA VETERANS OF FOREIGN WARS

The Veterans of Foreign Wars, Department of Iowa, was granted its charter by the National organization on May 28, 1921. Its objects are fraternal, patriotic, historical and educational; to preserve and strengthen comradeship among its members and to assist worthy comrades; to perpetuate the memory and history of its dead; and to assist their widows and orphans; to maintain true allegiance to the Government of the United States and fidelity to its constitution and laws. V. F. W. is composed only of those American citizens who have served honorably in the Army, Navy, Marine Corps or Coast Guard of the United States, in hostile waters or on foreign soil during any foreign war, insurrection or expedition.

Superintendent, Dr. William J. Petersen, Iowa City.

Organized in January, 1857, its purposes are to preserve the history of Iowa and further its dissemination among the people of the state. In fulfillment of these purposes a permanent program of activities has been gradually developed and put into execution. This includes (1) the discovery, collection and preservation of materials of Iowa history; (2) researches in the field of Iowa history; (3) publication of the materials of Iowa history; (4) dissemination of the materials of Iowa history through public depositories and members. The library of the society now includes about 94,400 titles. There are twelve hundred active members and thirty-two auxiliary members. The official depositories within the state number two hundred and thirty-five.

STATE HISTORICAL DEPARTMENT

The dominant motif of the Iowa State Department of History and Archives is preserving the history of Iowa—its development from the era of many thousands of years ago, the roaming upon its prairies by the aborigines, the enjoyment here by the red man in his hunting exploits, the discovery and mining of its lead and coal deposits, the coming of the Indian trader and the pioneer, the early community settlements, the establishment of schools and churches, the organization as a territory and later admission to statehood, the building of roads and the coming of the railroads, the progress of its people and its institutions—all a glorious panorama of its history from the beginning up to the present.

In achieving this high purpose a major objective has been the gathering of historical source material—the substance from which history is written. The Iowa Historical Department was founded in 1892, and quickly became an important link in the chain of educational and cultural activities of the state, occupying a field then only partially developed for systematically collecting and preserving at the seat of government the priceless materials and records of Iowa development. From small beginnings the department has grown in fifty years to fill and overflow the beautiful building erected on the state capitol grounds at an original cost of about \$375,000, and in later years to acquire by purchase the Kasson Memorial building, situated at a short distance, as a temporary cataloging workshop for the immense accumulation of

archival material for ultimate placement in a permanent and suitable building to be erected upon space reserved for that purpose upon the capitol grounds.

Here is a unique and unrivaled institution in which all Iowa has pride and its people visit continually, open every day, in which may be found the available Iowa materials that show how things came to be as they are, how the people lived at various stages of their progress, the quality of their thinking and their achievements here in Iowa—the classroom equipment for the practical study of life from prehistoric, primitive and pioneering times to the later days of community building.

in the Museums are found a wide range of exhibits. Here are shown the tools, utensils and implements used by Iowa pioneers to conquer the wilderness and convert a hunter's paradise into a land of unparalleled productivity and industry; also the tepees and wickiups of the Indians, their canoes, weapons, pipes, domestic utensils, clothing, beadwork, industries, used in their home life; a fine museum of natural history, specimens constituting a visual education in the story of Iowa's birds, animals, insects, flowers, trees, soil, geology and the prehistoric preparatory time. Specimens of mounted animals and birds, color slides for projectors, are provided upon application for display by local schools over the state, as well as other material of educational character. Of our extinct birds, a pair of passenger pigeons are exhibited. These were once so plentiful in Iowa that 5,000 birds were once killed in Scott and Clinton counties in two days. Of Iowa's rare birds, a sand-hill crane, a pair of pileated woodpeckers, an eared grebe, upland plovers, prairie chickens and ruffed grouse are shown. In the mammal collection a pair of buffalo and a young calf are excellent specimens. Moose, elk and a fawn are included.

Iowa's geologic column is represented by rock samples from every formation of the state, including also an exhibit of fossil crinoids from the Mississippian era. In the fossil coal plant series are shown some of the finest specimens in the United States. These plants were growing here two hundred and fifty million years ago.

An unrivaled collection of autograph letters and papers of authors, explorers and statesmen of the nation, representing the lifetime efforts as a collector of Charles Aldrich, the founder of the institution, became the foundation upon which has been built a manuscript division, more largely devoted to filings of the writings, addresses, documents and correspondence of eminent Iowans, supplying valuable unrecorded chapters in state history, which serves in a useful way the entire state, and is visited by research writers and consulted by many others from distant places.

The State Historical library contributes to the inestimable value of the institution. On its shelves are now upwards of 37,000 books about Iowa, or by Iowa authors, Iowa state and county histories, family records and references for research in genealogy, declared by students to be one of the finest genealogical libraries in the middle west, in constant use by people from all parts of this and other states.

From varied sources were obtained files of Iowa daily and weekly newspapers, and since the establishment of the department a systematic building of a newspaper division has been accomplished. Its catalog contains listing of the permanent files of the papers from every county, beginning with the Dubuque Visitor in 1836 and other publications of territorial days down to the present, containing graphic history

of Iowa people and events as recorded by the faithful and talented editors and reporters of the century just closed. These papers are consulted almost daily by those seeking information and establishing historic and factual data regarding local and state happenings. There is no comparable source of authentic information available.

The oil portraits of distinguished Iowans, including the outstanding men and women who have contributed to Hawkeye culture, progress and prosperity, are hung in the magnificent gallery. There appear the three governors of the Territory of Iowa, most of the governors of the state, justices of the supreme court, cabinet officers from Iowa, and other eminent citizens, including writers, editors, and outstanding members of the clergy.

The War History division contains some of the most precious documents held in preservation for future generations. The record of Iowa in the Civil war, the Spanish-American war, and in all other military activities since, is extensive, and includes not only many manuscripts, reports and official publications, but the enlistment and service papers of the Iowa volunteers and of members of the national guard—all rich in reminders and record of Iowa's part in five great wars. The more recent work of collecting for the state the details of the history of everything done in and by Iowa in World War II has produced a vast accumulation of valuable material. Thousands of portraits and intimate home and service records of those who have made the supreme sacrifice have been assembled; and the state, local and federal agencies have cooperated with this department to make the details as complete as they are reliable; also found here are uniforms, weapons, flags, relics and war mementoes, from battlefield, war prison, ship and airfield, and from every continent and clime where Iowans have fought and died.

In the cataloging and classification of historical material, leaflets and folders embracing varied subjects have been prepared and are available upon request. In the *Annals of Iowa*, the historical magazine issued quarterly, appear interpretative studies and articles upon the state and its people. In the more than half a century it has been published the *Annals* has been drawing upon the experiences of men who participated in or witnessed at close range the developments of which they write, being primarily a source book of Iowa history. As such a repository it has made available to the people of the state a vast amount of accurate data that otherwise would not have been accessible.

The Iowa public archives, or state records, comprise literally millions of items, such as census records from territorial days, the record books and correspondence files of state officers with papers and documents on which official action was had, legislative filings from territorial period so far as preserved. These records are in daily demand and use for reference and more especially in legal procedure for verification of names and for other facts. Only such material as may have administrative, legal or historical value is received for archival files, but the accumulation through the years has become so voluminous that it is taxing the facilities now available. However, through the cataloging system now employed the state archivists are more closely integrating the activities of this division with the current filing systems of the state departments contributing the records, which now constitute a back file of departmental papers and records arranged for immediate inspection at any time.

THE INDIANS IN IOWA

The Mesquakie Indians who are residents and voters in Iowa number 512. Iowa was for many years cherished home of their ancestors and friends.

They own, as a tribe or family, 3,600 acres of land in the Iowa river valley in Tama county. This is their collective farm, bought by them with their own money, managed and cultivated by them, on which they live, where they study and have their religious services. The State of Iowa many years ago by law gave them authority to own tribal land and property and the title is held in trust for them. They pay taxes and those who are qualified are voters.

They have a genuine democratic government for themselves, elect a council of managers and the council has a chief or president. They have a school and all the younger people can write the English language. Some of the older ones have never learned other than their own language, which is used by all of them.

The Mesquakie tribe is of the Algonquin family. They formerly lived on the Atlantic coast, then moved westward through New York and Canada, and in Wisconsin in the early fur trading days, they formed a federation with their kinsmen, the Sacs, or Saukies. The Mesquakies were called by the traders Reynards or Foxes and their name means the "people of the red earth." A century ago they lived in several camps along the Mississippi river, then moved into the Des Moines valley, followed the agency and army to Raccoon forks, and departed from Des Moines when Iowa was admitted as a state.

Some of the Mesquakies so loved their homes in Iowa that they gave up their government payments and returned from their southwestern reservations. The state gave them permission to live in Iowa as a tribe and with money received in settlement with the government they bought their present lands.

The Mesquakie Indians are loyal citizens of the United States and more than forty of their young people were in the armed services fighting for their country.

On their Tama county farm they live in comfortable houses and dress, in the main, as their white neighbors. Formerly the head men resisted efforts at educating the young, but now they go to school and are apt scholars. They keep up their wickiups, not to live in, but for their visits and ceremonies. They also have one large tribal hall in which they hold their religious ceremonies regularly, several services each week, conducted in their own language by their own leaders and preserving their own forms of worship.

They are quite skillful in various industries—weaving, basket making, bead work and in leather. One-third of the land is cultivated but the remainder is largely rough pasture land. The tribe has a tractor, but uses horses for farm work, and there are cows, hogs and chickens. Much gardening is done and they have a house in which their canning is done for their own uses.

The Mesquakies exchange visits with their friends, the Sacs of Oklahoma, who have a much larger tribe, and there has been some intermarrying between tribes. A few Pottawattamies were taken into fellowship and there are some Winnebagoes associated with but not members of the tribe. A representative of the Indian bureau lives near the big Mesquakie farm. There is also a mission church maintained. In peace times a tribal "pow wow" held each summer attracted many visitors.

IOWA STATE FAIR .

The Iowa State Fair is recognized nationally as America's Greatest Agricultural and Livestock Fair. Situated in the heart of the world's agricultural empire, it is the focal point each year for the finest livestock and farm produce to be seen anywhere in the nation, and its attendance places it in the front rank of the great expositions of the North American continent.

The State Fair is held in Des Moines during the last two weeks of August, usually running for eight days. Attendance always totals well over 400,000 and in some years has exceeded 500,000. The Livestock show is the largest of its kind in America, with entries of over 6,000 prize animals from twenty or more of the leading farming states. The Iowa State Fair is also widely known for its Junior Exposition, in which upwards of 2,000 farm boys and girls compete each year. The Junior Fair includes departments both for 4-H Club members and the Future Farmers of America with competition in calf, pig, colt, lamb, and poultry exhibits, judging contests, and girls' home economics events.

Other major educational features of the State Fair include the corn and small grain show, farm machinery exposition, flower and garden show, Iowa art salon, photographic salon, public schools exposition, women's exposition, harness and saddle horse show, culinary and fancy work exposition, Iowa fish and game show, airplane and auto show, and Iowa homes exposition.

The State Fair has one of the finest amphitheatres in the country, and one of the fastest half-mile race tracks. Among the customary entertainment features are auto races, horse races, thrill day spectacles, musical extravaganzas, fireworks, rodeo, and outdoor circus.

The first two Iowa State Fairs were held in Fairfield, Iowa, in 1854 and 1855. From 1855 to 1879, the State Fair was held in the following cities: Muscatine, 1856 and 1857; Oskaloosa, 1858 and 1859; Iowa City, 1860 and 1861; Dubuque, 1862 and 1863; Burlington, 1864-1866; Clinton, 1867 and 1868; Keokuk, 1869, 1870, 1874 and 1875; Cedar Rapids, 1871-1873 and 1876-1878.

In 1879, the State Fair moved to Des Moines, and in 1884, the legislature appropriated \$50,000 for the purchase of a state fairgrounds on condition that the City of Des Moines raise an equal amount for buildings and facilities. By virtue of this action, Iowa was the second state in the northwest to acquire a permanent location for its State Fair. In 1923, the Fortieth General Assembly changed the former method of fair administration by providing for an Iowa Department of Agriculture and a State Fair Board, and charged this board with the duty of managing the Fair.

Under this law, the State Fair Board comprises one director from each of the congressional districts. These directors together with the president and vice president of the Fair are elected at the annual session of the State Agriculture Convention. The State Fair Board, in turn, elects the secretary and the treasurer immediately.

By statute, the State Fair Board is made the custodian of the State Fair Grounds.

All operating expense, maintenance and other costs of the Fair are paid out of the receipts of the State Fair except where the legislature may deem it advisable to make a special appropriation for such purposes. The law provides that the state will not be liable for any expense or liabilities incurred by the Fair.

Since 1902, the legislature has appropriated \$1,130,500 for the construction of permanent buildings on the fairgrounds, purchase of additional land and for necessary improvements. During the same time, the Fair itself has contributed approximately \$1,240,000 for maintenance and improvements from actual profits of the Fair. At the present time, the State Fair each year provides over \$145,000 in premiums for the Fair's competitive activities in the annual exposition.

Some idea of how the State Fair has grown may be obtained by comparing statistics on the first Fair of 1854 and the average figures on recent Iowa State Fairs:

	1854	Today
Size of land.....	6 acres	378 acres
Attendance	8,500	514,036
Premiums	\$1,171	\$145,000
Livestock entries.....	275	7,955
Fine cattle.....	55	3,089
Native grades and oxen.....	14
Horses, all ages.....	102	503
Horses, thoroughbreds.....	16	842
Jacks and Mules.....	30	16
Swine	11	2,880
Sheep	1,140
Poultry	27	6,840
Machinery and farm implements....	43 exhibits	50 acres

The Iowa State Fair has played an important part in the agricultural progress of Iowa. Its features and exhibits, through the years, have been keyed to the changing trends in farming and livestock production. Through its thousands of annual exhibits of the best in these fields, the Iowa State Fair has afforded an opportunity for visitors to study and compare, and learn valuable lessons which have helped in making Iowa the greatest farm and livestock state of the nation.

STATE BUILDING CODE COUNCIL

The Fifty-second General Assembly passed an act creating a 10-member state building code council which provides that a group of architects, engineers, contractors and legislators be named to make a two-year survey and draw up a state building code for submission to the 1949 General Assembly. The act directs the council to make recommendations for general revision of Iowa laws pertaining to construction with particular emphasis on housing construction. Following are the Governor's appointments to the council:

J. H. Ames, engineer, Ames; Prof. Frank Kerekes, engineer, Ames; Art Ladehoff, contractor, Clinton; Frederick W. Mast, contractor, Waterloo; Burdette Higgins, architect, Des Moines; Charles Altfillisch, architect, Decorah; State Senators O. N. Hultman, Stanton, and George Faul, Des Moines; State Representatives Charles J. Knickerbocker, Fairfax and R. E. Duffield, Guthrie Center.

THE CONSTITUTION OF THE STATE OF IOWA

INTRODUCTION

Iowa was organized as a separate Territory by an act of Congress approved on June 12, 1838, but it was not until 1844 that steps were taken to secure admission into the Union. A constitutional convention met at Iowa City in October, 1844. The Constitution drafted by this convention was twice submitted to the voters of the Territory of Iowa and twice rejected by them, largely because of dissatisfaction with the boundaries of the proposed State.

A second constitutional convention met at Iowa City in May, 1846. The Constitution drafted by this convention was ratified by a majority of 466 votes at an election held on August 3, 1846, and Iowa was admitted as a State on December 28, 1846.

The Constitution of 1846, however, contained a number of provisions which were found to be unsatisfactory in practice. One of these was the prohibition of banking institutions. As a result of this dissatisfaction, the legislature in 1855 provided for an election on the question of calling a convention to revise or amend the Constitution of 1846. The vote was 32,390 for a convention and 14,162 against a convention. Delegates were elected on November 4, 1856, and the convention met at Iowa City on January 19, 1857.

The delegates drafted a new constitution which was submitted to the people at an election held on August 3, 1857, and ratified by a vote of 40,311 to 38,681. This Constitution went into effect by proclamation of the governor on September 3, 1857.

The Constitution of 1857 has, since that time, remained the fundamental law of the State of Iowa; but it has been amended a number of times.

THE CONSTITUTION¹

WE, THE PEOPLE OF THE STATE OF IOWA, grateful to the Supreme Being for the blessings hitherto enjoyed, and feeling our dependence on Him for a continuation of those blessings, do ordain and establish a free and independent government, by the name of the STATE OF IOWA, the boundaries whereof shall be as follows:

Beginning in the middle of the main channel of the Mississippi River, at a point due East of the middle of the mouth of the main channel of the Des Moines River, thence up the middle of the main channel of the said Des Moines River, to a point on said river where the Northern boundary line of the State of Missouri—as established by the constitution of that State—adopted June 12th, 1820—crosses the said middle of the main channel of the said Des Moines River; thence Westwardly along the said Northern boundary line of the State of Missouri, as established at the time aforesaid, until an extension of said line intersects the middle of the main channel of the Missouri River; thence up the middle of the main channel of the said Missouri River to a point opposite the middle of the main channel of the Big Sioux River, according to Nicollet's Map; thence up the main channel of the said Big Sioux River, according to the said map, until it is intersected by the parallel of forty-three degrees and thirty minutes North latitude; thence East along said parallel of forty-three degrees and thirty minutes until said parallel intersects the middle of the main channel of the Mississippi River; thence down the middle of the main channel of said Mississippi River to the place of beginning.

⁴This amendment was proposed by the General Assembly in 1880; readopted in 1882; ratified at a special election held on June 27, 1882; and certified adopted on June 28, 1882. On April 21, 1883, the Supreme Court of Iowa, in deciding *Koehler and Lange v. Hill*, held, that, owing to certain irregularities, the amendment had not been legally submitted to the voters and hence was not a part of the Constitution—60 Iowa 543.

THE DECLARATION OF INDEPENDENCE¹

When in the Course of human events, it becomes necessary for one people to dissolve the political bands which have connected them with another, and to assume among the Powers of the earth, the separate and equal station to which the Laws of Nature and of Nature's God entitle them, a decent respect to the opinions of mankind requires that they should declare the causes which impel them to the separation.—We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain unalienable Rights, that among these are Life, Liberty and the pursuit of Happiness.—That to secure these rights, Governments are instituted among Men, deriving their just powers from the consent of the governed.—That whenever any Form of Government becomes destructive to these ends, it is the Right of the People to alter or to abolish it, and to institute new Government, laying its foundation on such principles and organizing its powers in such form, as to them shall seem most likely to effect their Safety and Happiness. Prudence, indeed, will dictate that Governments long established should not be changed for light and transient causes; and accordingly all experience hath shown, that mankind are more disposed to suffer, while evils are sufferable, than to right themselves by abolishing the forms to which they are accustomed. But when a long train of abuses and usurpations, pursuing invariably the same Object evinces a design to reduce them under absolute Despotism, it is their right, it is their duty, to throw off such Government, and to provide new Guards for their future security.—Such has been the patient sufferance of these Colonies; and such is now the necessity which constrains them to alter their former Systems of Government. The history of the present King of Great Britain is a history of repeated injuries and usurpations, all having in direct object the establishment of an absolute Tyranny over these States. To prove this, let Facts be submitted to a candid world.—He has refused his Assent to Laws, the most wholesome and necessary for the public good.—He has forbidden his Governors to pass Laws of immediate and pressing importance, unless suspended in their operation till his Assent should be obtained; and when so suspended, he has utterly neglected to attend to them.—He has refused to pass other Laws for the accommodation of large districts of people, unless those people would relinquish the right of Representation in the Legislature, a right inestimable to them and formidable to tyrants only.—He has called together legislative bodies at places unusual, uncomfortable, and distant from the depository of their Public Records, for the sole purpose of fatiguing them into compliance with his measures.—He has dissolved Representative Houses repeatedly, for opposing with manly firmness his invasions on the rights of the people.—He has refused for a long time, after such dissolutions, to cause others to be elected; whereby the Legislative powers, incapable of Annihilation, have returned to the People at large for their exercise; the State remaining in the mean time exposed to all the dangers of invasion from without, and convulsions from within.—He has endeavored to prevent the population of these States; for that purpose obstructing the Laws for Naturalization of Foreigners; refusing to pass others to encourage their migration hither, and raising the conditions of new Appropriations of Lands.—He has obstructed the Administration of Justice, by refusing his Assent to Laws for establishing Judiciary Powers.—He has made Judges dependent on his Will alone, for the tenure of their offices, and the amount and payment of their salaries.—He has erected a multitude of New Offices, and sent hither swarms of Officers to harrass our People, and eat out their substance.—He has kept among us, in times of peace, Standing Armies, without the Consent of our legislatures.—He has affected to render the Military independent of and superior to the Civil Power.—He has combined with others to subject us to a jurisdiction foreign to our constitution, and unacknowledged by our laws; giving his Assent to their acts of pretended Legislation:—For quartering large bodies of armed troops among us:—For protecting them, by a mock Trial, from Punishment for any Murders which they should commit on the Inhabitants of these States:—For cutting off our Trade with all parts of the world:—For imposing taxes on us without our Consent:—For depriving us in many cases, of the benefits of Trial by Jury:—For transporting us beyond Seas to be tried for pretended offenses:—For abolishing the free System of English Laws in a neighboring Province, establishing therein an Arbitrary government, and enlarging its Boundaries so as to render it at once an example and fit instrument for introducing the same absolute rule into these Colonies:—For taking away our Charters, abolishing our most valuable Laws, and altering fundamentally the Forms of our Government:—For suspending our own Legislatures, and declaring themselves invested with Power to legislate for us in all cases whatsoever.—He had abdicated Government here, by declaring us out of his Protection and waging War against us.—He has plundered our seas, ravaged our Coasts, burnt our towns, and destroyed the lives of our people.—He is at this time transporting large armies of foreign mercenaries to complete the works of death, desolation and tyranny, already begun with circumstances of Cruelty & perfidy scarcely paralleled in the most barbarous ages, and totally unworthy the Head of a civilized nation.—He has constrained our fellow Citizens taken captive on the high Seas to bear Arms against their Country, to become the executioners of their friends and Brethren, or to fall themselves by their

Hands.—He has excited domestic insurrections amongst us, and has endeavoured to bring on the inhabitants of our frontiers, the merciless Indian Savages, whose known rule of warfare, is an undistinguished destruction of all ages, sexes and conditions. In every stage of these Oppressions We have Petitioned for Redress in the most humble terms: Our repeated Petitions have been answered only by repeated injury. A prince, whose character is thus marked by every act which may define a Tyrant, is unfit to be the ruler of a free people. Nor have We been wanting in attention to our British brethren. We have warned them from time to time of attempts by their legislature to extend an unwarrantable jurisdiction over us. We have reminded them of the circumstances of our emigration and settlement here. We have appealed to their native justice and magnanimity, and we have conjured them by the ties of our common kindred to disavow these usurpations, which, would inevitably interrupt our connections and correspondence. They too have been deaf to the voice of justice and of consanguinity. We must, therefore, acquiesce in the necessity, which denounces our Separation, and hold them, as we hold the rest of mankind, Enemies in War, in Peace Friends.—

WE, THEREFORE, the REPRESENTATIVES of the UNITED STATES OF AMERICA, in General Congress, Assembled, appealing to the Supreme Judge of the world for the rectitude of our intentions, do, in the Name, and by Authority of the good People of these Colonies, solemnly publish and declare, That these United Colonies are, and of Right ought to be FREE AND INDEPENDENT STATES; that they are Absolved from all Allegiance to the British Crown, and that all political connection between them and the State of Great Britain, is and ought to be totally dissolved; and that as Free and Independent States, they have full Power to levy War, conclude Peace, contract Alliances, establish Commerce, and to do all other Acts and Things which Independent States may of right do.—And for the support of this Declaration, with a firm reliance on the protection of Divine Providence, we mutually pledge to each other our Lives, our Fortunes and our sacred Honor.

THE CONSTITUTION OF THE UNITED STATES¹

We the People of the United States, in order to form a more perfect Union, establish Justice, insure domestic Tranquility, provide for the common defence, promote the general Welfare, and secure the Blessings of Liberty to ourselves and our Posterity, do ordain and establish this Constitution for the United States of America.

Section 2. The House of Representatives shall be composed of Members chosen every second Year by the People of the several States and the Electors in each State shall have the Qualifications requisite for Electors of the most numerous Branch of the State Legislature.

The Number of Representatives shall not exceed one for every thirty Thousand, but each State shall have at Least one Representative; and until such enumeration shall be made, the state of New Hampshire shall be entitled to chuse three, Massachusetts eight, Rhode-Island and Providence Plantations one, Connecticut five, New-York six, New Jersey four, Pennsylvania eight, Delaware one, Maryland six, Virginia ten, North Carolina five, South Carolina five, and Georgia three.

When vacancies happen in the Representation from any State, the Executive Authority thereof shall issue Writs of Election to fill such Vacancies.

Immediately after they shall be assembled in Consequence of the first Election, they shall be divided as equally as may be into three Classes. The Seats of the Senators of the first Class shall be vacated at the Expiration of the second Year, of the second Class at the Expiration of the fourth Year, and of the third Class at the Expiration of the sixth Year, so that one third may be chosen every second Year; and if Vacancies happen by Resignation, or otherwise, during the Recess of the Legislature of any State, the Executive thereof may make temporary Appointments until the next Meeting of the Legislature, which shall then fill such Vacancies.⁵

¹The Constitution of the United States was adopted by a convention of delegates from the thirteen States on September 17, 1787, and transmitted to the Congress of the Confederation which in turn submitted it to the States for ratification on September 28, 1787. It was ratified by the required nine States by June 21, 1788, and went into effect on March 4, 1789.

The text of the Constitution and the first nineteen amendments are taken from *Documents Illustrative of the Formation of the Union of the American States*, published by the United States government in 1927. Compiled, edited, and documented by Beni. F. Shambaugh and Ruth A. Gallaher of the State Historical Society of Iowa. Words, phrases and sections which have been rendered inoperative by amendment appear in *italics*. The material added to the Constitution by amendment is enclosed within brackets. Besides being indicated in their proper place in the text, the amendments are also printed in full following the Constitution.

²For an additional disqualification added at the close of the Civil War see Amendment XIV, Section 3.

³The preceding provisions in *italics* were rendered inoperative by a part of Section 2 of Amendment XIV, which is inserted within the brackets. According to the Fourteenth Amendment the number of representatives from any State is to be reduced if the right to vote is denied the male citizens over twenty-one years of age, but this provision has never been enforced.

Article. II.

Section 1. The executive Power shall be vested in a President of the United States of America. He shall hold his Office during the Term of four Years, and, together with the Vice President, chosen for the same Term, be elected, as follows: Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

The Electors shall meet in their respective States, and vote by Ballot for two Persons, of whom one at least shall not be an Inhabitant of the same State with themselves. And they shall make a List of all the Persons voted for, and of the Number of Votes for each; which List they shall sign and certify, and transmit sealed to the Seat of Government of the United States, directed to the President of the Senate. The President of the Senate shall, in the Presence of the Senate and House of Representatives, open all the Certificates, and the Votes shall then be counted. The Person having the greatest Number of Votes shall be the President, if such Number be a Majority of the whole Number of Electors appointed; and if there be more than one who have such Majority, and have an equal Number of Votes, then the House of Representatives shall immediately chuse by Ballot one of them for President; and if no Person have a Majority, then from the five highest on the List the said House shall in like Manner chuse the President. But in chusing the President, the Votes shall be taken by States, the Representation from each State having one Vote; A quorum for this Purpose shall consist of a Member or Members from two thirds of the States, and a Majority of all the States shall be necessary to a Choice. In every Case, after the Choice of the President, the Person having the greatest Number of Votes of the Electors shall be the Vice President. But if there should remain two or more who have equal Votes, the Senate shall chuse from them by Ballot the Vice Presidents.¹⁰

The Congress may determine the Time of chusing the Electors, and the Day on which they shall give their Votes; which Day shall be the same throughout the United States.

[The Electors shall meet in their respective states, and vote by ballot for President and Vice-President, one of whom, at least, shall not be an inhabitant of the same state with themselves; they shall name in their ballots the person voted for as President, and in distinct ballots the person voted for as Vice-President, and they shall make distinct lists of all persons voted for as President, and of all persons voted for as Vice-President, and of the number of votes for each, which lists they shall sign and certify, and transmit sealed to the seat of the government of the United States, directed to the President of the Senate; The President of the Senate shall, in the presence of the Senate and House of Representatives, open all the certificates and the votes shall then be counted;—The person having the greatest number of votes for President, shall be the President, if such number be a majority of the whole number of Electors appointed; and if no person have such majority,¹¹ then from the persons having the highest numbers not exceeding three on the list of those voted for as President, the House of Representatives shall choose immediately, by ballot, the President. But in choosing the President, the votes shall be taken by states, the representation from each state having one vote; a quorum for this purpose shall consist of a member or members from two-thirds of the states, and a majority of all the states shall be necessary to a choice. And if the House of Representatives shall not choose a President whenever the right of choice shall devolve upon them, before the fourth day of March next following, then the Vice-President shall act as President, as in the case of the death or other constitutional disability of the President.¹² The person having the greatest number of votes as Vice-President, shall be the Vice-President, if such number be a majority of the whole number of Electors appointed, and if no person have a majority, then from the two highest numbers on the list, the Senate shall

choose the Vice-President; a quorum for the purpose shall consist of two-thirds of the whole number of Senators, and a majority of the whole number shall be necessary to a choice. But no person constitutionally ineligible to the office of President shall be eligible to that of Vice-President of the United States.]¹²

[The terms of the President and Vice President shall end at noon on the 20th day of January, and terms of Senators and Representatives at noon on the 3d day of January, of the years in which such terms would have ended if this article had not been ratified; and the terms of their successors shall then begin.

If, at the time fixed for the beginning of the term of the President, the President elect shall have died, the Vice President elect shall become President. If a President shall not have been chosen before the time fixed for the beginning of his term, or if the President elect shall have failed to qualify, then the Vice President elect shall act as President until a President shall have qualified; and the Congress may by law provide for the case wherein neither a President elect nor a Vice President elect shall have qualified, declaring who shall then act as President, or the manner in which one who is to act shall be selected, and such person shall act accordingly until a President or Vice President shall have qualified.

The Congress may by law provide for the case of the death of any of the persons from whom the House of Representatives may choose a President whenever the right of choice shall have devolved upon them, and for the case of the death of any of the persons from whom the Senate may choose a Vice President whenever the right of choice shall have devolved upon them.]¹³

No Person except a natural born Citizen, or a Citizen of the United States, at the time of the Adoption of this Constitution, shall be eligible to the Office of President; neither shall any Person be eligible to that Office who shall not have attained the Age of thirty five Years, and been fourteen Years a Resident within the United States.¹⁴

In Case of the Removal of the President from Office, or of his Death, Resignation, or Inability to discharge the Powers and Duties of the said Office, the Same shall devolve on the Vice President, and the Congress may by Law provide for the Case of Removal, Death, Resignation or Inability, both of the President and Vice President, declaring what Officer shall then act as President, and such Officer shall act accordingly, until the Disability be removed, or a President shall be elected.

The President shall, at stated Times, receive for his Services, a Compensation, which shall neither be increased nor diminished during the Period for which he shall have been elected, and he shall not receive within that Period any other Emolument from the United States, or any of them.

Before he enter on the Execution of his Office, he shall take the following Oath or Affirmation:—"I do solemnly swear (or affirm) that I will faithfully execute the Office of President of the United States, and will to the best of my Ability, preserve, protect and defend the Constitution of the United States."

Section 2. The President shall be Commander in Chief of the Army and Navy of the United States, and of the Militia of the several States, when called into the actual Service of the United States; he may require the Opinion, in writing, of the principal Officer in each of the executive Departments, upon any Subject relating to the Duties of their respective Offices, and he shall have Power to grant Reprieves and Pardons for Offences against the United States, except in Cases of Impeachment.

He shall have Power, by and with the Advice and Consent of the Senate, to make Treaties, provided two thirds of the Senators present concur; and he shall nominate, and by and with the Advice and Consent of the Senate, shall appoint Ambassadors, other public Ministers and Consuls, Judges of the Supreme Court, and all other Officers of the United States, whose Appointments are not herein otherwise provided for, and which shall be established by Law: but the Congress may by Law vest the Appointment of such inferior Officers, as they think proper, in the President alone, in the Courts of Law, or in the Heads of Departments.

The President shall have power to fill up all Vacancies that may happen during the Recess of the Senate, by granting Commissions which shall expire at the End of their next Session.

Section 3.
